RALLIS

Commenting on the performance and developments, Mr. V Shankar, Managing Director and CEO, Rallis India said, "I am happy to report an improved performance over last year led by higher acreage in most crops. Northeast monsoon which was forecasted to be normal though ended with 62% departure with key Southern States severely impacted. This affected sowing of paddy and coarse cereals. Yields are expected to be better and estimates point towards a record production. Our broad based portfolio of solutions and robust farmer relationship have been instrumental in driving our revenue growth during the quarter. Despite market challenges and pricing pressure our quality of operations stood ground driven by our strong brands and field activities.

Our suite of solutions has enabled us to help farmers in multiple crops and notably in Fruits and Vegetables which has recorded growth. The recent set of products launched have received encouraging response from farmers. Our performance in the international business continues to be better than last year due to improving situation in key markets such as Brazil and strong demand for herbicides.

Our focus on working capital and costs continued reflecting in the improved quality of operations as well as higher cash generation and lower finance costs. With Rabi acreages up, we look forward for a good Rabi season."
