Notes to the results:

1. a) The Company has incurred a loss of Rs. 1,11,395 lakhs during the year ended 31 March 2017 (previous period ended 31 March 2016 Rs.70,365lakhs), and as of that date, the Company's accumulated losses amounts to Rs.3,47,446lakhs (as on 31 March 2016 Rs. 2,36,050lakhs) and it has negative net worth of Rs. 2,90,555lakhs (as on 31 March 2016 Rs. 1,72,530 lakhs). Further, as on 31 March 2017, the Company's current liabilities exceeded its current assets by Rs.3,39,842lakhs (as on 31 March 2016 Rs. 2,19,860lakhs).

The Company has outstanding foreign currency convertible bonds (FCCBs) with principal value of USD 88.4 million equivalent to Rs. 57,327lakhs (as on 31 March 2016 USD 88.4million equivalent to Rs.58,574lakhs) which were due for redemption along with premium on 21 June 2012. As at 31 March 2017, accrual for premium on FCCB aggregates Rs.56,468 lakhs. The Company is in the process of negotiation with the bondholders to re-structure the terms of these bonds. This is now subject to the approval of secured lenders, which is expected to be settled only along with the resolution of secured debt. Meanwhile, the company has applied to the RBI for extension of time.

b) After the exit of Company from CDR mechanism on 10 October 2016, the Company has continued to operate through TRA with 9% tagging against which it has represented for short term relief. The Company approached the lender consortium with a fresh proposal for resolution of its secured debt in November 2016, which did not find favor of the lender banks. The lender banks have sought to recall the entire outstanding amounts owed to them by the Company. The Company has already challenged the said loan recall and enforcement action in its response to the notices received under section 13(2) of The Securitisation and Reconstruction of Financial Assets and Enforcement of Security Interest Act, 2002 (SARFAESI Act) and will take further appropriate steps as may be advised by its lawyers.

c) The Company continues to operate at suboptimal levels due to working capital constraints, resulting in adverse impact on cash flow from operations in the current year. The Company is pursuing resolution of debt with secured lenders and FCCBs holders and is expecting removal/ reduction in tagging by the lender banks. The Company also expects to generate cash flow through sale of surplus assets and improve operational efficiencies through reduction in fixed overheads and employee costs. The Company has also entered into an arrangement with main raw material supplier for extension of credit terms and is also in discussion with customers to provide advance for business.

Conditions explained above, indicate existence of a material uncertainty that may cast significant doubt on the Company's ability to continue as a going concern due to which the Company may not be able to realize its assets and discharge its liabilities in the normal course of business. However, on expectation of generation of funds through sale of surplus assets, expected improvement in the operating activities & cash flows, the expectation that lender banks will take remedial action as opposed to recovery action and based upon expert opinion taken from leading law firm about possible legal defense available to the Company, these results have been prepared on a going concern basis.

2. Consequent to exit from CDR and recall notices served by the lender banks during the year, the Company has classified debt from non-current liabilities to current liabilities and derecognized the amounts recoverable from banks under CDR scheme with corresponding adjustments to the debt and interest expense. In the absence of any definitive agreement and reconciliation of outstanding debt with the banks, the Company has not been able to determine the impact of exit from CDR on the

carrying value of debt and interest payable thereon and accordingly continues to record interest on the basis of MRA executed with the CDR lenders.

3. As of 31 March 2017, management performed detailed assessment of impairment (using an independent valuation expert) of carrying value of fixed assets based on business valuation. Such assessment is based on recoverable value of assets determined using value in use method and is therefore dependent upon future outcome of certain matters such as negotiation with lenders banks for debt restructuring and revival of business operations. As per such assessment, management believes that no further impairment is required in the carrying value of fixed assets in addition to the impairment of Rs. 6,100 lakhs which was recorded in quarter ended 30 September 2016.
4. Management performed an assessment of impairment for its investments in and advances/other receivables from one of the subsidiary company, Moser Baer Entertainment Limited as of 31 March 2017 to determine if there is any "other than temporary" diminution in the values of the investment and if outstanding receivables are recoverable. The future cash flows used in such assessment are dependent on the assumption of acceptance of debt resolution plan by lender banks of the Company and ability of this subsidiary company to continue to operate its business over the foreseeable future with the Company. Basis aforementioned assessment management has recorded an other than temporary provision amounting to Rs. 1,927 lakhs in quarter ended 31 March 2017 (Rs. Nil in quarter ended 31 March 2016) and Rs. 2,476 lakhs in year ended 31 March 2017 (Rs. Nil in previous period ended 31 March 2016) in carrying value of its investments and made provision for doubtful receivables (net of payables) amounting to Rs. 1,900 lakhs in quarter ended 31 March 2017 (Rs. Nil in quarter ended 31 March 2016) and Rs. 5,748 lakhs in year ended 31 March 2017 (Rs. Nil in previous period ended 31 March 2016).
5. Pursuant to ongoing discussions with lender banks in case of another subsidiary company, Moser Baer Solar Limited and its recent exit from CDR scheme, management has recorded an other than temporary provision amounting to Rs. Nil lakhs in quarter ended 31 March 2017 (Rs. Nil in quarter ended 31 March 2016) and Rs. 31,573 lakhs in year ended 31 March 2017 (Rs. Nil in previous period ended 31 March 2016) in carrying value of investments and made provision for doubtful receivables (net of payables) of this subsidiary and its holding/ fellow subsidiary company amounting to Rs. 536 lakhs in quarter ended 31 March 2017 (Rs. Nil in quarter ended 31 March 2016) and Rs. 25,904 lakhs in year ended 31 March 2017 (Rs. Nil in previous period ended 31 March 2016).

Additional Notes for Consolidated Results:

- The Group is operating in Storage Media Products and Solar Products segments. Accordingly, segment information has been given which is in line with the requirement of AS-17 "Segment Reporting". The Consolidated financial statement has been furnished to provide information about the overall business of the Company, its subsidiaries and associates.
- Subsequent to exit of two subsidiary companies, Helios Photovoltaic Limited (HPVL) in FY 2015-16 and Moser Baer Solar Limited (MBSL) in FY 2016-17 from CDR, majority of lender banks issued notices to these subsidiary companies recalling their debt and enforcement action under SARFAESI Act. The subsidiary companies have already challenged the said loan recall and enforcement action in its response to those notices and will take further appropriate steps as may be advised by its lawyers. Pursuant to recall notices, the Group has classified debt from non-current bank liabilities to current liabilities and derecognized the amounts recoverable from banks under CDR scheme with corresponding adjustments to the debt and interest expense. In the absence of any definitive agreement with these lender banks and pending reconciliation of debts with the banks, the Group has not been able to determine the impact of exit from CDR and recall notices received on the carrying value of debt and interest payable thereon.
- One of the subsidiary company entered into a long term Wafer Supply Agreement on 01 April 2008 (WSA) with Jiangxi LDK Solar Hi-Tech Co [LDK] and in pursuance, the subsidiary paid an advance of USD 48.89 Million in accordance with the terms of the WSA (Advance Payment). LDK issued Bank Guarantee dated 07 May 2008 of China Merchant Bank (CMB) as security for advance paid by

subsidiary. The Agreement was further amended by an Amendment Agreement dated 10 January 2011 (AA).

As per the terms of AA, remaining advance of USD 34.6 Million (out of USD 48.89 million), which was secured through a bank guarantee, was to be adjusted against future purchases by the subsidiary at an agreed market driven price and the balance unadjusted amount, if any, was to be refunded back to the subsidiary after five years from the date of such agreement subject to a deduction of 5% of purchase shortfall under the AA. Under AA, LDK was to provide an amended bank guarantee which was not provided, causing therefore, a breach of such terms and further sought to cancel the bank guarantee which it furnished in 2008. Upon breaches by LDK, the WSA (as amended by AA) was terminated by the subsidiary pursuant to its letter dated 26 September 2013.

As a result of the termination, LDK was asked to refund the balance of the advance payment i.e. USD 34.6 million which was later revised to USD 33.2 million. As LDK failed to refund the Advance Payment, Subsidiary made a demand under the bank guarantee provided by CMB on 22 October 2013. However, LDK obtained a freezing order before the Xinyu Intermediate People's Court on 6 November 2013, which prevented CMB from making payment under the Bank Guarantee.

Aggrieved by such order, the Subsidiary initiated arbitration before Hong Kong International Arbitration Centre (HKIAC) and also filed jurisdiction objection Application before Xin Yu Court. Upon rejection of Subsidiary's application, an appeal was filed against the Xin Yu Court's decision and Appeal was also rejected by Jiangxi Higher Court. A three member Arbitration Tribunal was constituted and the final hearing happened at HKIAC from 18 January 2016 to 22 January 2016.

Final arbitration award is awaited after receipt of which further action to be initiated in China for recovery of advance from CMB/LDK considering that LDK is under Insolvency Administration

Based on the legal appraisal and in anticipation of favorable final arbitration reward, management believes that the bank guarantee demand as above is still recoverable. The books of accounts show a net balance of Rs 17,388 Lakhs as on 31 March 2017 against which no further provision is being recorded.

10. The Group has incurred a loss of Rs1,06,143 lakhs during the year ended 31 March 2017 (previous period Rs. 97,501 lakhs), and, as of that date, the Group's accumulated losses amounts to Rs. 6,26,482 lakhs (previous periodRs. 5,20,339 lakhs) and it has negative net worth of Rs. 4,86,342 lakhs (previous periodRs. 3,73,570 lakhs). Further, as of 31 March 2017, the Group's current liabilities exceeded its current assets by Rs. 599,589 lakhs (previous period ended 31 March 2016 Rs. 3,92,330 lakhs).

In respect of Moser Baer India Limited, basis for preparation of accounts using going concern assumption has already been explained in the note 2 above.

In respect of HPVL and MBSL, two of the operating subsidiaries of the Company, as mentioned in note 8 to the results, the lenders banks have exited from CDR and have issued notices to subsidiary companies recalling their debt and recovery action under SARFAESI Act. The management has taken an expert opinion from a leading law firm about the options available to the banks and the possible legal defenses available to the subsidiary companies.

The Group has been operating at suboptimal levels due to working capital constraints, resulting in adverse impact on cash flow from operations in the current year as well as earlier periods. The Group is pursuing resolution of debt with secured lenders and FCCBs holders and is expecting removal/reduction in tagging by the lender banks. The Group also expects to generate cash flow through sale of surplus assets and improve operational efficiencies through reduction in fixed overheads and employee costs. In case of MBIL, management has also entered into an arrangement with its main raw material supplier for extension of credit terms and is also in discussion with customers of all the operating entities to provide advance for business. Further, the group also expects receipt of capital subsidies under Special Incentive Package Scheme (SIPs) in MBSL and HPVL and also expects significant supportive measures by government for the solar energy sector in the solar business in India.

Conditions explained above, indicate existence of a material uncertainty that may cast significant doubt on the Group's ability to continue as a going concern due to which the Group may not be able to realize its assets and discharge its liabilities in the normal course of business. However, on expectation of generation of funds through sale of surplus assets, expected improvement in the operating activities & cash flows, expectation that lender banks will take remedial action as opposed to recovery action, expert opinion taken from leading law firm about possible legal defense available to the Group and expected receipt of SIPs amount, management expects to generating positive cash flow from operations and accordingly, these results have been prepared on a going concern basis.

11. As of 31 March 2017, the management performed detailed impairment assessments of carrying value of fixed assets for all of its operating subsidiary companies based on business valuation (using independent valuation expert). Such assessments are based on recoverable value of assets determined using value in use method and are therefore dependent upon future outcome of certain matters such as negotiation with the lenders banks for debt restructuring, recovery of SIPs, recovery of advance under litigation and revival of operations. In case of two operating subsidiaries of the Company, the lenders banks have exited from the CDR scheme as described in note 6 and 8.

Based on these valuations the Group has recorded impairment in the carrying value of the fixed assets of MBSL amounting to Rs. 22,857 lakhs for the year ended 31 March 2017.

12. Details of exceptional items are as under:

- As of March 31, 2017, India had installed 12,163 MW of utility scale solar PV capacity as per Bridge to India Report. Capacity under development as of March 31, 2017 stands at 12,381 MW. Tamil Nadu, Andhra Pradesh and Telangana have emerged as the fastest growing states.

- However, volatility in DCR orders and delay in disbursement of approved government subsidy under SIPS continues to impact the manufacturing operations and limit cash flows and volumes.
- PV operations impacted by liquidity constraints and external market factors. However, based on customer support, 14.63 MW of Moser Baer manufactured module sales were made during the quarter along with 3.26 MW of Moser Baer manufactured cell sales.
- The Solar Subsidiaries continue to engage with their secured lenders to seek support for their revival. Despite the lender consortium (under CDR) withdrawing support, the solar subsidiaries continue operations based on customer support and management's efforts at optimizing cash flows.
