Keep Balance Sheet Strong to Fund Infra, Innovation: FM Tells Banks

Pune: Finance Minister Nirmala Sitharaman said financial institutions must maintain strong balan ce sheets to fund significant invest ments in infrastructure, industry and MSME companies, while also creating partnerships with NBFCs to reach credit to the underserved. The minister acknowledged that

globally with some sectors and countries being impacted more than others.

'As India's economy grows, so does the demand for credit and innovative financial products and capital expenditure," Sitharaman said in her address at the 91st Foundaon Day celebrations at the Bank of Maharashtra.

"So, financial institutions like the to engage proactively with NBFCs

must maintain strong balance sheets to fund significant investments in infrastructure, industry and also in innovation," Sitharaman said

She said public sector banks must look beyond retail banking towards lending to small and medium enterprises and projects of national importance.

"Public sector banks are needed

Taking The

Quantum Leap

ding. So these partnerships help enhance credit flow to the underserved sectors

peneticiaries at an affordable cost," Sitharaman said. Speaking at the same event fi-

nancial services secretary M Na-garaju commended public sector banks for posting a record ₹1.78 lakh crore profit in the fiscal ended March 2025.

'From a time when a majority of banks were under PCA (prompt public sector banks have overtaken private sector banks for the first time, the progress has been commendable," Nagaraju said,

praising the professionalism of banking executives. PCA banks were placed under restrictions by the Reserve Bank of India (RBI) between 2015 and 2018

due to weak financial metrics like

asset quality or low capital base.

low non performing assets and strong balance sheets public sector banks can now play a bigger role both in India and abroad

He said besides MSMEs banks have to increase lending education loans to support the future of college

going students.
Sitharaman also inaugurated BoM's new corporate office in

SPOTLIGHT

From timber trading in 1951 to a listed company shaping India's growth, Sylvan Ply has stood the test of time through quality, innovation, sustainability, and a steadfast vision to become a trusted name in the plywood industry

nand Kumar Singh, the third-generation torchbearer of a legacy rooted in be visible, testable, verifiable. We believe in proof more than promises." The journey began with his grandfather. Shri Krishna Singh, who established a timber trading business in West Bengal in 1951, laying the foundation of what would become a multi-decade enterprise. In 1975, his father, Mr. Jai Prakash Singh, expanded the business into commercial timber tradingscaling operations and building a strong reputation across Eastern India. Taking the baton forward, Anand Kumar Singh ushered in a new era in 1995, introducing imported timber to bridge global sourcing with the evolving needs of the Indian market.

In 2002, the company established its first production facility in West Bengal, which was further strengthened in 2009, when Sylvan made a strategic leap into plywood production. This vertical integration gave the company direct control over key quality variables and laid the groundwork for future-ready operations.

Philosophy and Vision

"Through every transformation, the core philosophy remained unchanged: build products that last long, and a reputation that lasts even longer," says Mr. Singh. Every decision, from sourcing and treatment to automation and after-sales, is anchored in one idea: Trust is not claimed. It is engineered. Sylvan Ply's long-term vision is clear: to become India's most trusted name in the wood-panel industry, synonymous with products that are authentic, safe, termite-resistant, and environmentally responsible.

Scaling with Strength Sylvan Ply's growth has been deliberate The company operates from an 11-acre state-of-the-art integrated facility in West Bengal with advance automation, in-house resin production, and vacuum impregnation systems. Trusted in 16+ states and supported by 6,000+ channel partners, Sylvan Ply is steadily deepening its national footprint. To reinforce its distribution backbone, the company has established strategically located logistic hubs, deepening their access into emerging markets. The company's listing on the SME platform of NSE in July 2024 marked another milestone. "It reflected investor confidence and reinforced our governance framework," Mr. Singh notes

I see Sylvan Ply as a proud partner in India's growth story. As our country is rapidly urbanizing and investing in infrastructure, we are enabling that journey by providing strong.

durable, and eco-friendly plywood for homes, offices, schools, and institutions. Every board we make is part of a bigger story of building a stronger India.We are also expanding our manufacturing and warehousing capacity, which creates jobs and strengthens the backbone of India's manufacturing sector. As a listed company, we bring transparency and create wealth for investors, contributing in our own way to India's financial growth. For me, nation-building is about more than scale-it's about being ethical, responsible, and future-ready. That is how Sylvan Ply contributes to India's vision of self-reliance and sustainable prosperity.

> **Anand Kumar Singh** Managing Director

Awards and Recognition

Sylvan Ply holds ISO 9001, 14001, and 45001 certifications for quality, environment, and safety. As a certified member of the Indian Green Building Council (IGBC), they have aligned their operations with sustainable construction standards. In 2014. the company was recognised in London as India's Most Promising Brand. Two years later, Chairman Jai Prakash Singh was recognised as the Rising Star of Bengal.

The Science Behind Strength Sylvan Ply sets itself apart through advanced product engineering. "Our pinless long-core construction enhances board durability. Our ATBS (Anti-Termite and Borer Solution) treatment, applied through vacuum impregnation, ensures deep, long-lasting

Sylvan

protection against termites and borers,

Mr. Singh explains. In-house resin technol-

ogy provides another edge, "Unlike most

It gives us control over bonding strength, moisture-resistance, and even fire-retardant Sylvan ply break nahiin banta

DESIGNED FOR INDIA Sylvan Ply's portfolio is engineered for erformance across diverse environments

 Signature Range like Z Plus Premium Plus: Structural Grade heavy-duty boards, ideal for industrial decks, and flooring.

 Premium Range like Premium Clubs Marine Grade BWP boards built for high-moisture spaces.

 Gold Range like Primo Plus: Marine Grade waterproof boards for wet zones, offering durability and strength.

 Value Range like BLU BWP: General Purpose Grade (BWP, BWR, MR), for general residential and commercial uses.

Blockboards: Warp-resistant and lightweight—ideal for partitions, shutters, Modular Ply & Blockboards: Factory-ready

boards with smooth finishes for modular Flush Doors (Hardwood & Pinewood): Dense and impact-resistant doors for entrances

and high-use areas. Pilot Products like WPC boards, frames and

timber frames for premium construction "Whether for homes, offices, or industrial projects, every Sylvan product undergoes rigorous in-house testing and certified grade markings," Mr. Singh affirms.

Navigating Challenges

The company has weathered volatile fluctuations, in raw material availability and pricing which impact procurement planning and margins. Increasing stringency of regulatory and certification frameworks, while welcome from a quality standpoint, has also raised the compliance bar.

The Road Ahead Sylvan Ply is ready for its next phase of growth with deeper pan-India market penetration, supported by Al-driven manufacturing, R&D in bio-based adhesives, and enhanced termite protection.

"Our next chapter will be powered by smart manufacturing-precision-first, error-free, with minimal wastage and maximum productivity," Mr. Singh outlines. "Every innovation aligns with one goal: uncompromising quality."

Digital-First Transformation Technology is shaping how Sylvan engages

its ecosystem. The Sylvan Kutumb app strengthens dealer and contractor engage ment, while the Sylvan Force app empowers sales teams with real-time data. ERP systems connect procurement to distribu tion, and customers benefit from automated warranty registrations and chatbot support.

Purposeful Nation-Building

Sylvan Ply sees enterprise as a means to build not just products-but progress. Thousands of livelihoods are supported directly and indirectly, while CSR funds back social and welfare programmes. Its zero-waste circular model reuses every by-product-residual wood becomes biofuel, and even used flex sheets are repurposed as protective covers or given to street vendors. Domestic manufacturing also plays a critical role by reducing import dependency, preserving foreign exchange, and strengthening India's journey toward self-reliance in core materials. "True growth is when progress uplifts not just profits, alongside people and the planet," concludes Mr. Singh.
