Press Release

Tech Mahindra emerges as a leader in European Software Testing Awards 2014

London – December 02, 2014 – Tech Mahindra Ltd. a specialist in digital transformation, consulting and business re-engineering saw massive success at The European Software Testing Awards (TESTA) 2014.

Picture Caption: Tech Mahindra sweeps the European Software Testing Awards (2014) with five major wins

The company won a total of five major awards:

- **Green Testing Team of the Year**
- **Testing Manager of the Year**
- **Testing Innovator of the Year**
- **Test Champion of the Year**
- **Best Overall Use of Technology**

These awards build upon the huge success and achievements of last year in which Tech Mahindra won two TESTA awards and also achieved a global first distinction of TMMi level 5 certification in the first attempt.

Over 500 top international professionals from software testing and IT gathered in the splendid halls of Old Billingsgate in the City of London for TESTA awards ceremony, to celebrate the greatest achievements in the industry. Tech Mahindra was especially proud to receive these accolades which are judged and awarded by peers in the software testing industry.

Celebrating the success **Suresh Iyer, Head – Europe Testing Services, Tech Mahindra** said, *"We are honored to win 5 prestigious awards in TESTA 2014, emulating our own past achievements. This is a testimonial and global recognition of our thought leadership in testing and gives our teams a sense of pride and immense value to be recognized for their outstanding contributions in testing"*

Speaking at the event, **Grant Farrell, Managing Director of 31 Media**, the company behind TESTA, said, *"I'm frankly awed by the level of talent that TESTA attracts. Our purpose is to serve and unite the industry, and it gives me enormous personal satisfaction to see it all coming together. TESTA is surely a prime example of the truism that the whole is greater than the sum of its parts. Impressive though the individual components are that make it what it is, when they come together, something truly magical happens. In winning five major awards, Tech Mahindra exemplifies this absolutely, demonstrating the kind of can-do spirit which makes our industry great. I feel privileged to have witnessed that this evening."*

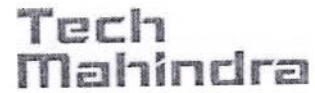

Tech Mahindra's Global Test Practice is the next generation concept in software testing, providing a superior and flexible alternative to standard off-shoring model. It is a multi-location based testing centre of excellence that combines best-in-class test processes, people, techniques, facilities and methodologies. It also offers a full range of scalable testing services, cutting-edge innovation along with optimum unit cost of testing.

END

About Tech Mahindra
