Sub: Clarification /Confirmation on news item appearing in "Media/Publication"

Dear Sirs,

This is with reference to your email dated January 18, 2019 seeking clarification on the news item which appeared in the "Website-www.moneycontrol.com" dated January 18, 2019 captioned "Sun Pharma plummets over 12% over buzz of fresh whistleblower complaint". In this regard we hereby submit our response as follows:

a) Whether such event/negotiations/article stated in published news were taking place? If so, you are advised to provide the said information along with the sequence of events in chronological order and the material impact of this article on the Company.

Response: No, the Company has not received the alleged "172-page whistle blower complaint" and therefore we are not privy to the contents of the document being referred in the said media article. Hence, we cannot comment on the points being raised in the said media article.

Further, the said media article also refers to recall of Vecuronium Bromide Injection. We wish to clarify that one of the Company's 100% subsidiary has voluntarily recalled certain batches of Vecuronium Bromide Injection in the US market at hospital level due to identification of particulate matter identified as glass. This product has a negligible contribution to our Company's consolidated revenues and hence this recall will not have any material impact on our financials.

b) Whether you/company are aware of any information that has not been announced to the Exchanges which could explain the aforesaid movement in the trading? If so, you are advised to provide the said information and the reasons for not disclosing the same to the Exchange earlier as required under regulation 30 of the SEBI (LODR) Regulations, 2015.

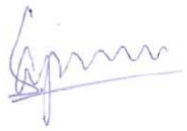

Response: No
