This announcement was posted to NSE in late evening on same day and on next day early morning on Thursday, 20th Dec 2018 the price of our scrip opened at Rs. 40 and hovered around Rs 40 it the whole day. On Thursday itself some TV news channel also had coverage about our achievement namely BTVI and Bloomberg Quint.

Our unexecuted order book prior to this contract award was Rs. 700 Crore and an addition of Rs. 615 Cr order is now significant benchmark for our Company's future revenue. Our current unexecuted order book after award of this contract is approx Rs 1350 Crores which we have to execute in next 3-4 years.

This news might have been taken by shareholders and capital market positively and other than this we have no outlook on price movement of our scrip and it's purely market driven.

Further, the company has not withheld any other material information/events that needs to be disclosed to the investor which may affect the share price of the security. The information submitted by the Company may result in the significant movement in the price of the security and the Company is in no way connected with any such movement in the price.

Please take the same in your records.

Thanking You,

Yours Faithfully,

For Om Metals Infraprojects Limited

Reena Jain
Company Secretary
