Except as stated below, there have been no material developments since March 31, 2021 and there have arisen no circumstances that materially and adversely affect the profitability or credit quality of our Company:

- (a) Pursuant to the RBI's direction to refer DHFL to National Company Law Tribunal for initiation of insolvency proceedings of DHFL, our Company submitted a resolution plan on December 22, 2020, including a scheme of arrangement under sections 230 to 232 of the Companies Act, read with the Companies (Compromise, Arrangements and Amalgamations) Rules, 2016 (the "**Resolution Plan**") with the administrator of DHFL for the merger of our Company with and into DHFL from the appointed date (as defined in the Scheme of Arrangement) for a total consideration amount aggregating to ₹ 3,425,000 lakhs (combination of cash and non-convertible debentures) which was subsequently approved by the committee of creditors. Subsequently, the administrator also filed an application with the National Company Law Tribunal for approval of the Resolution Plan including a scheme of merger which has been approved. The rationale for the proposed merger of our Company with and into DHFL is, among others, build long term retail franchise, leverage geographical coverage, leverage existing customer base.

On February 16, 2021, the RBI issued (i) no-objection in relation to change in control/ management of DHFL, (ii) approval for acquisition of DHFL, and (iii) in-principle approval for proposed merger of our Company and DHFL, following which the administrator filed an application with the NCLT, Mumbai bench on February 24, 2021 for approval of the Resolution Plan.

The Resolution Plan was approved by the NCLT, Mumbai bench on June 7, 2021 ("**NCLT Order**"). The implementation of resolution plan was subject to fulfilment of certain conditions by our Company, including (i) approval from RBI for the assignment of external commercial borrowings of DHFL and masala bonds issued by DHFL to our Company; (ii) approval from relevant stock exchange for delisting of the non-convertible debentures issued by DHFL; and (iii) such other regulatory approvals as may be directed by the adjudicating authority, in relation to the amalgamation of our Company with DHFL. In addition to above conditions, our Company is also required to make certain payments inter alia towards (i) workmen and employees (ii) operational creditors (iii) dissenting financial creditors (iv) financial creditors and (v) other creditors of DHFL within specified time. Further, our Company is also required to undertake equity infusion amounting to Rs. 1 crore in DHFL at a price as provided under the NCLT Order.

In the interim, a monitoring committee is formed to supervise the implementation of the Resolution Plan. The NCLT Order, prima facie approved the reverse merger of our Company into and with DHFL. Further, the NCLT also noted that while granting the no-objection certificate by RBI, the status of DHFL was changed from deposit taking housing finance company to non-deposit taking housing finance company. In addition, the approval from the Competition Commission of India was received on April 12, 2021 and other approvals for implementation of resolution plan. . Upon completion of the implementation, our Company shall be merged into DHFL by way of an amalgamation by a scheme of arrangement as provided under the NCLT Order. Upon completion of the merger, the merged entity will be renamed as PCHFL. An appeal has been filed before the National Company Law Appellate Tribunal against the Resolution Plan.

With effect from the appointed date, our Company shall stand dissolved and all undertakings, including properties and liabilities of our Company shall stand transferred to and vested in DHFL as a going concern, without any further act, instrument, deed, matter or thing and DHFL shall issue such number of equity shares, which are equivalent to total net worth of our Company as on appointed date subject to certain adjustments in reserves.

In the event of, and on the date of oversubscription, however, allotments in public issues of debt securities is to be made on a proportionate basis.

- a. In case of an oversubscription in all Portions resulting in an oversubscription in the Tranche I Issue Limit, Allotments to the maximum permissible limit, as possible, will be made on a first-come first serve basis and thereafter on proportionate basis, i.e. full allotment of the NCDs to the Applicants on a first come first serve basis up to the date falling 1 (one) day prior to the date of oversubscription to respective Portion and proportionate allotment of NCDs to the Applicants on the date of oversubscription in respective Portion (based on the date of upload of each Application on the electronic platform of the Stock Exchanges in each Portion).

A. IMPLICATIONS UNDER THE INCOME-TAX ACT, 1961 ('I.T. ACT')

I. To the Resident Debenture Holder

Interest on NCD

1. Interest received by Debenture Holder(s) would be subject to tax at the normal rates of tax in accordance with and subject to the provisions of the I.T. Act and such tax would need to be withheld at the rate of 10% at the time of credit/payment as per the provisions of Section 193 of the I.T. Act. However, no income tax is deductible at source in respect of the following:

- (a) On any security issued by a company in a dematerialized form and is listed on recognized stock exchange in India in accordance with the Securities Contracts (Regulation) Act, 1956 and the rules made there under. (w.e.f. 01.06.2008).

- (b) In case the payment of interest on debentures to a resident individual or a Hindu Undivided Family ('HUF'), Debenture Holder does not or is not likely to exceed Rs 5,000 in aggregate during the Financial Year and the interest is paid by an account payee cheque.

- (c) When the Assessing Officer issues a certificate on an application by a Debenture Holder on satisfaction that the total income of the Debenture Holder justifies no/lower deduction of tax at source as per the provisions of section 197(1) of the I.T. Act; and that certificate is filed with the Company before the prescribed date of closure of books for payment of debenture interest.

- (d) (i) When the resident Debenture Holder with Permanent Account Number ('PAN') (not being a company or a firm) submits a declaration as per the provisions of section 197A(1A) of the I.T. Act in the prescribed Form 15G verified in the prescribed manner to the effect that the tax on his estimated total income of the financial year in which such income is to be included in computing his total income will be NIL. However under section 197A(1B) of the I.T. Act, "Form 15G cannot be submitted nor considered for exemption from tax deduction at source if the nature of income referred in section 197(1) or section 197(1A) such as dividend income referred to in section 194, interest on securities, interest, withdrawal from NSS and income from units of mutual fund or of Unit Trust of India etc. as the case may be or the aggregate of the amounts of such incomes credited or paid or likely to be credited or paid during the previous year in which such income is to be included exceeds the maximum amount which is not chargeable to income tax".

To illustrate, as on 01.04.2021 -

- the maximum amount of income not chargeable to tax in case of individuals (other than senior citizens and super senior citizens) and HUFs is Rs. 2,50,000;
- in the case of every individual being a resident in India, who is of the age of 60 years or more but less than 80 years at any time during the Financial year (Senior Citizen) is Rs. 3,00,000; and

Refer Section 2(18) of the I.T. Act.

- in the case of every individual being a resident in India, who is of the age of 80 years or more at any time during the Financial year (Super Senior Citizen) is Rs. 5,00,000 for Financial Year 2021-22.

Further, section 87A provides a rebate of 100 percent of income-tax or an amount of Rs. 12,500 whichever is less to a resident individual whose total income does not exceed Rs. 500,000.

(ii) Senior citizens, who are 60 or more years of age at any time during the financial year, enjoy the special privilege to submit a self-declaration in the prescribed Form 15H for non-deduction of tax at source in accordance with the provisions of section 197A(1C) of the I.T. Act even if the aggregate income credited or paid or likely to be credited or paid exceeds the maximum amount not chargeable to tax, provided that the tax due on total income of the person is NIL.

(iii) In all other situations, tax would be deducted at source as per prevailing provisions of the I.T. Act. Form No.15G with PAN / Form No.15H with PAN / Certificate issued u/s 197(1) has to be filed with the Company before the prescribed date of closure of books for payment of debenture interest without any tax withholding.

2. In case where tax has to be deducted at source while paying debenture interest, the Company is not required to deduct surcharge, health and education cess.

Classification of gains on transfer

3. In case the debentures are held as stock in trade, the income on transfer of debentures would be taxed as business income or loss in accordance with and subject to the provisions of the I.T. Act. Further, where the debentures are sold by the Debenture Holder(s) before maturity, the gains arising therefrom are generally treated as capital gains or business income as the case may be depending whether the same is held as Stock in trade or investment. However, there is an exposure that the Indian Revenue Authorities (especially at lower level) may seek to challenge the said characterisation (especially considering the provisions explained in Para VII below) and hold the such gains/income as interest income in the hands of such Debenture Holder(s). Further, cumulative or regular returns on debentures held till maturity would generally be taxable as interest income taxable under the head Income from other sources where debentures are held as investments or business income where debentures are held as trading asset / stock in trade.

Capital gains and other general provisions

4. As per the provisions of section 2(29A) of the IT Act, read with section 2(42A) of the I.T. Act, a listed debenture is treated as a long term capital asset if the same is held for more than 12 months immediately preceding the date of its transfer. In all other cases, it is 36 months immediately preceding the date of its transfer.

As per section 112 of the I.T. Act, capital gains arising on the transfer of long term capital assets being listed securities are subject to tax at the rate of 20% of capital gains calculated after reducing indexed cost of acquisition or 10% of capital gains without indexation of the cost of acquisition. The capital gains will be computed by deducting expenditure incurred in connection with such transfer and cost of acquisition/indexed cost of acquisition of the debentures from the sale consideration. However as per the fourth proviso to section 48 of I.T. Act, benefit of indexation of cost of acquisition under second proviso of section 48 of I.T. Act, is not available in case of bonds and debenture, except capital indexed bonds. Accordingly, long term capital gains arising to the Debenture Holder(s), would be subject to tax at the rate of 10%, computed without indexation, as the benefit of indexation of cost of acquisition is not available in case of debentures.

In case of an individual or HUF, being a resident, where the total income as reduced by such long-term capital gains is below the maximum amount which is not chargeable to income-tax, then, such long-term capital gains shall be reduced by the amount by which the total income as so reduced falls short of the maximum amount which is not chargeable to income-tax and the tax on the balance of such long-term capital gains shall be computed at the rate mentioned above.

5. Short-term capital gains on the transfer of listed debentures, where debentures are held for a period of not more than 12 months would be taxed at the normal rates of tax in accordance with and subject to the provisions of the I.T. Act. The provisions relating to maximum amount not chargeable to tax would also apply to such short term capital gains.
6. As per section 74 of the I.T. Act, short-term capital loss on debentures suffered during the year is allowed to be set-off against short-term as well as long-term capital gains of the said year. Balance loss, if any could be carried forward for eight years for claiming set-off against subsequent years' short-term as well as long-term capital gains. capital gains. Balance loss, if any, could be carried forward for eight years for claiming set-off against subsequent year's long-term capital gains.

Act subject to and in accordance with the provisions contained therein. Further, as per the provisions of section 196 of the I.T. Act, no deduction of tax shall be made by any person from any sums payable to mutual funds specified under Section 10(23D) of the I.T. Act, tax is required to be deducted at the rate of 20% in respect of income from securities specified under section 115AD(1)(a) of the I.T. Act. However, the Finance Act, 2021 has amended section 196D(1) of the I.T. Act to provide that with effect from 1 April 2021, in case of a payee to whom an agreement under section 90(1) or section 90A(1) of the I.T. The rating does not address the risks associated with variability in returns resulting from adverse movements in the variable(s) concerned.

Rationale

To arrive at the ratings, ICRA has analysed the consolidated business and financial performances of the financial services business of Piramal Enterprises Limited (PEL)¹, the parent company of Piramal Capital & Housing Finance Limited (PCHFL). The assigned ratings take into account the healthy capitalisation profile of PEL's financial services business (PEL FS) with a net worth of Rs. 17,384 crore as on December 31, 2020, supported by regular capital infusions by PEL. PEL raised ~Rs. 14,500 crore of equity in FY2020 through fresh equity issuances and sale of non-core assets, and a part of these funds was used to provide equity (~Rs. 3,700 crore infused into PEL FS in FY2020) and funding support (in the form of inter-corporate deposits [ICDs]) to PEL FS. In addition, PEL FS has taken several measures to elongate its funding (debt maturity) profile. It raised long-term funds (other than equity) of ~Rs. 13,500 crore in FY2020 and ~Rs. 13,921 crore in 9M FY2021 and reduced the share of commercial paper (CP) significantly in its overall borrowings (~3% of total debt as on December 31, 2020 compared to ~35% as on September 30, 2018). PEL FS continues to explore fresh funding avenues and is in the process of tying up a sizeable amount of long-term funds to support its liquidity and growth. The ratings also take into account PCHFL's established position and track record in the real estate lending segment, the promoter group's domain experience given its presence across the real estate industry value chain, and the experienced leadership team.

The ratings are, however, constrained by the heightened concerns over the asset quality, given the high sectoral concentration (real estate) and slower-than-expected reduction in client concentration in a challenging environment. The real estate sector

¹ PEL's financial services business includes PCHFL, PHL Fininvest Private Limited (PHL Fininvest) and the residual loan book in PEL

has been facing a prolonged slowdown due to subdued sales and lack of funding access. The pandemic and the resulting nationwide lockdown further impacted the sector. ICRA notes that a sustained pick-up in sales across geographies is key for the developers over the medium term. ICRA notes that PEL FS has hitherto maintained a healthy asset quality though the same deteriorated in the recent past with the gross non-performing assets (GNPAs) increasing to 3.7% of the loan book as of December 31, 2020 (2.4% of the loan book as on March 31, 2020) from 0.9% as on March 31, 2019. ICRA has taken note of the company's monitoring and risk management systems as well as its efforts towards asset sales for reducing the portfolio concentration and shoring up the liquidity. ICRA will continue to monitor the collections over the near term.

PEL FS' retail lending (home loans) segment has posted a moderate growth over the past three years, with home loans accounting for ~11% of the total book as on December 31, 2020. ICRA takes note of PCHFL's emergence as the successful resolution applicant for Dewan Housing Finance Limited (DHFL), as approved by the committee of creditors (CoC) of DHFL, subject to various regulatory and statutory approvals including that from the National Company Law Tribunal (NCLT), Mumbai bench. ICRA notes that the successful completion of the transaction would result in a material improvement in the diversification and granularity of PCHFL's asset profile. However, the performance and quality of DHFL's loan portfolio over the medium term remains uncertain, which in turn would have a bearing on the asset quality of the combined entity (PCHFL + DHFL). Given the significant size of the acquisition in relation to PCHFL's current scale of operations, ICRA will continue to engage with PCHFL's management to understand the exact contours of the transaction and its impact on PCHFL's credit profile.

The Negative outlook reflects the subdued operating environment and the portfolio vulnerability, which are expected to persist over the near-to-medium term. These challenges could impact PEL FS' asset quality and profitability. The risk-averse sentiment of domestic investors persists towards non-banks with developer loan exposure which has resulted in challenges in fund raising and an increase in the cost of funds. The company's ability to raise capital from diverse sources and at competitive terms, on a sustained basis, would remain a monitorable.

Key rating drivers and their description

Credit strengths

Domain expertise and financial flexibility for being a part of the Piramal Group; established position in real estate lending – PCHFL draws strength from the Group's technical expertise, given its experience in real-estate-based private equity investment, advisory services and the development space. Further, given the long experience of the Group in the real estate segment, the company leverages the large network of developers with relationships built over a period. The Group's demonstrated ability to incubate and scale up new ventures also provide comfort. As on December 31, 2020, PEL FS had a consolidated loan book of Rs. 46,370 crore, representing a decline of ~10% compared to Rs. 51,429 crore as on December 31, 2019. The real estate exposure stood at ~Rs. 35,421 crore as on December 31, 2020, making the Group one of the leading lenders to the real estate segment.

Adequate capitalisation supported by capital infusion from the parent – The capitalisation of the financial services subsidiaries of PEL (including PCHFL) has been supported by regular capital infusions from the parent. In FY2020, PEL raised ~Rs. 14,500 crore of equity funds through a mix of avenues like preferential issue (Rs. 1,750 crore in December 2019), rights issue (Rs. 3,650 crore in January 2020), divestment (Rs. 2,300 crore raised through stake sale in Shriram Transport in June 2019) and selling of non-core businesses (Rs. 6,750 crore raised through sale of the DRG business in February 2020). Of the total funds raised, Rs. 3,700 crore was infused into PEL FS (Rs. 1,400 crore was infused into PCHFL and Rs. 2,060 crore was infused into PHL Fininvest). Supported by the equity infusion, PEL FS' tangible net worth (net of goodwill on amalgamation) grew by ~36% in FY2020 to Rs. 15,599 crore and the capitalisation ratio (CRAR²) was adequate at 31% as on March 31, 2020. This, coupled with the moderation in the loan book and hence in borrowings, resulted in an improvement in PEL FS' net gearing to 2.3 times as on March 31, 2020 from 3.9 times as on March 31, 2019. As on December 31, 2020, the net worth stood at Rs. 17,384 crore and the CRAR was ~37%, while the net gearing improved to 1.9 times.

² CRAR: Capital to risk weighted assets ratio

PCHFL's standalone net worth increased to Rs. 11,233 crore as on December 31, 2020 (Rs. 10,195 crore as on March 31, 2020) from Rs. 9,274 crore as on March 31, 2019, while the gearing improved to 2.4 times from 3.5 times during the same period. As on December 31, 2020, PCHFL reported a CRAR of 35.83% (Tier I capital of 33.03%) compared to CRAR of 34.89% (Tier I capital of 32.06%) as on March 31, 2020. PEL maintained an unallocated capital pool of Rs. 10,482 crore as on March 31, 2020, which could be allocated to the financial services business, including PCHFL, if required.

PEL FS also has a moderately diversified resource profile with banks accounting for 59% of its borrowings, followed by foreign institutional investors/foreign portfolio investors (FII/FPI; 19%) and the balance from other sources including insurance companies, provident funds and mutual funds, among others, as on December 31, 2020. During Q3 FY2019 to Q3 FY2021, PEL FS' debt maturity profile was elongated with the share of short-term sources of funding (including revolving bank lines) declining to ~10% of the borrowings as on December 31, 2020 compared to ~42% as on September 30, 2018. The CP borrowings accounted for ~3% of PEL's total debt as on December 31, 2020 compared to ~35% as on September 30, 2018.

Experienced management team – ICRA also draws comfort from the experienced management team of the Group, which has a track record of successfully scaling up businesses. The Group has taken on board seasoned industry professionals with prior experience in retail lending to leverage their experience to lead the retail business, including the recently announced entry in the technology-driven consumer lending business. It has also engaged reputed and experienced external consultants for framing its credit policies and credit appraisal systems, expansion strategy and operational policies. PEL FS also has a strong focus on risk management, control systems and compliance processes, which provide comfort. Moreover, it has a dedicated asset monitoring team for monitoring and managing the post-disbursement performance of the loans and the overall portfolio quality.

Credit challenges

High sectoral and client concentration risks; slower-than-expected progress in loan book diversification – The loan book is concentrated towards the inherently risky real estate sector, albeit with a declining trend (~79% of the overall loan book as on December 31, 2020 compared to ~87% as on March 31, 2017). The early stages of development of some of the underlying projects and the loans given to the developers' holding company level (mezzanine debt) heighten the portfolio risk. Moreover, the top group exposures form a sizeable proportion of the overall loan book. PEL FS has, however, funded a bouquet of projects in some of these exposures, including projects with healthy sales tie-ups and finished stock, which provides comfort. Though a part of the wholesale loan book is under scheduled moratorium, PEL FS has been receiving sizeable prepayments from its loan portfolio over the years due to asset sell-down/refinancing and prepayment, providing some comfort to the asset quality. While the collections, including prepayments, were impacted in Q1 FY2021 due to the pandemic and the lockdown, the prepayments (including prepayments) improved in Q2 and Q3 FY2021. Further, the management has stated their intent to reduce PEL FS' top 10 group exposures significantly over the near term (from ~27% as on December 31, 2020) through asset sell-down/ refinancing.

While PEL FS has been diversifying its loan book over the past three years through its foray into new segments like housing finance and emerging corporate lending (ECL), the progress has been slower than expected. The housing loan disbursements reduced significantly from Q3 FY2020 as PEL FS decided to recalibrate its retail growth strategy amid the challenging operating environment and the subdued segmental profitability. This resulted in a lower-than-expected diversification and granularity of the book as of December 2020. The Group announced its entry in the technology-driven consumer lending business, which commenced operations in Q3 FY2021. ICRA notes that while the new business would help diversify the portfolio, the concentration and credit risks will remain high over the near term given the large real estate exposure. ICRA notes that the successful completion of the DHFL transaction would result in material improvement in the diversification and granularity of PCHFL's asset profile.

Current challenging operating environment for real estate, the key borrowing segment, may impact asset quality and profitability in the near term – Concerns over the asset quality have heightened, given the challenging operating environment for real estate developers due to the prolonged slowdown in sales and the funding constraints over the past two years. The pandemic and the resulting nationwide lockdown further impacted the sale of residential units. The pandemic has also impacted the commercial and the retail real estate segments. While the near-term pressure on the developers has been

mitigated due to the moratorium offered for their loan instalments under the Covid-19-related regulatory package announced by the RBI, a slow pick-up in sales will impact the cash flows of the developers over the medium term. PEL FS made additional provisions of Rs. 1,903 crore in Q4 FY2020 as a prudent measure to reflect the probable impact of the pandemic on the business. The equity allocation to PEL FS was also increased by Rs. 2,000 crore in March 2020 to cushion the impact of the increased portfolio vulnerability.

ICRA notes that PEL FS has maintained a healthy asset quality till now, though the same deteriorated in FY2020 and 9M FY2021, with the GNPA's increasing to 3.7% of the loan book as on March 31, 2020 (2.4% as on March 31, 2020) from 0.9% as on March 31, 2019. In addition, PEL FS has extended relief, from pandemic-related stress, to some of its borrowers in the form of one-time restructuring (OTR) and extension of date of commencement of commercial operations (DCCO). The presence of a collateral cover on such exposures, the expertise of the Group in the real estate segment and its emphasis on risk management and monitoring processes also provide comfort.

Fund-raising challenges for wholesale oriented non-bank financiers impacting business; ability to maintain asset and liability profile remains critical – PEL raised long-term debt (more than 1-year maturity) of ~Rs. 13,500 crore in FY2020 and ~Rs. 13,921 crore in 9M FY2021. While a sizeable quantum of funds has been raised, the cost of funds has increased since the September 2018 crisis. Although PEL FS has been able to pass on the cost increase to its customers to mitigate any risk on its margins, its market position (ability to capture attractive deals from reputed developers) has been impacted by the increase in the cost of funds. The Group's ability to consistently raise long-term funds and at adequate rates would remain critical.

Liquidity position: Adequate

As on December 31, 2020, PCHFL had unencumbered on-book liquidity of Rs. 2,713 crore compared to the debt repayment obligation (including interest and revolving lines) of Rs. 2,731 crore in Q4 FY2021. PCHFL's liquidity profile is, thus, adequate.

As on December 31, 2020, PEL FS had unencumbered on-book liquidity of Rs. 4,765 crore compared to debt repayment obligation (including interest and revolving lines) of Rs. 5,050 crore in Q4 FY2021. The opening liquidity covers ~69% of next six months' debt repayment. The company has sufficient borrowing programmes in the pipeline to meet the debt obligations. PEL's liquidity is, thus, adequate.

Rating sensitivities

Positive factors – The outlook may be revised to Stable if there is a significant and sustained improvement in resource mobilisation, with an increase in long-term fund raising from well diversified sources, and improved granularity of the asset profile. Timely implementation of the DHFL's resolution plan while maintaining an adequate capitalisation (gearing below 4 times for PEL FS) and a healthy asset quality (on-merged basis) could also result in a revision in the outlook to Stable.

Negative factors – ICRA could downgrade the rating if there is a material deterioration in PCHFL's asset quality³ (gross NPA of more than 5% of the loan book on a sustained basis, given the current portfolio mix), in turn affecting the financial profile of the company. The rating could also be downgraded if the operating environment continues to remain weak and the challenges in fund raising increase, resulting in a deterioration in PCHFL's liquidity profile. A material increase in PCHFL's non-performing assets (NPA), on a merged basis, owing to weaker-than-expected quality of assets being acquired from DHFL, could also lead to a rating downgrade.

About the company

Piramal Capital & Housing Finance Limited (PCHFL; erstwhile Piramal Housing Finance Limited or PHFL) was incorporated in February 2017 as a subsidiary of Piramal Finance Limited and received its housing finance licence in September 2017. With effect from March 31, 2018, Piramal Finance Limited and Piramal Capital Limited merged with PHFL (the name was changed subsequently to PCHFL), which became a direct subsidiary of PEL. The entire financial services business of PEL, including real estate lending, housing finance, the corporate finance group (CFG) and ECL, is housed under PCHFL and PHL Fininvest, a fellow subsidiary.

In FY2020, PCHFL reported a net profit of Rs. 30 crore on a total income of Rs. 5,623 crore compared to a net profit of Rs. 1,443 crore on a total income of Rs. 5,572 crore in FY2019. PCHFL's profit after tax (PAT) for FY2020 was impacted by an additional conservative provisioning of Rs. 1,249 crore (total provisioning of Rs. 1,929 crore) and a one-time write-off of deferred tax assets (DTA) and a minimum alternate tax (MAT) credit reversal of Rs. 373 crore. Excluding the impact of the additional provisioning, the DTA and MAT credit reversal, the normalised PAT would have been Rs. 1,338 crore in FY2020. PCHFL accounted for ~79% of PEL FS' net interest income in FY2020. In 9M FY2021, PCHFL reported a net profit of Rs. 1,064.63 crore on a total income of Rs. 3,886.24 crore.

Detailed Rationale & Key Rating Drivers

CARE has assigned rating of '**CARE AA (Under Credit watch with Developing Implications)**' to the proposed Public Issue of Non Convertible Debentures of Piramal Capital & Housing Finance Limited (PCHFL).

The ratings are 'Under Credit Watch with Developing Implications' following the announcement made by Piramal Enterprises Limited (parent company), vide stock exchange notification dated January 22, 2021, that the Committee of Creditors of Dewan Housing Finance Limited (DHFL) has declared PCHFL as successful resolution applicant in relation to the Corporate Insolvency Resolution Process of DHFL under the Insolvency & Bankruptcy Code, 2016 and identified the resolution plan submitted by PCHFL as successful resolution plan vide the Letter of Intent (LOI) from the Administrator of DHFL.

The implementation of the resolution plan would be subject to the terms of the LOI and various regulatory approvals including that from the Reserve Bank of India (RBI) and National Company Law Tribunal (NCLT), Mumbai. While Piramal group was in the fray for acquiring DHFL since past few months, the acquisition would be significant as compared to the existing balance sheet size of PCHFL and PEL; as a result, the long-term ratings have been put on 'Credit Watch with Developing Implications'. While the transaction will increase the retail asset proportion in PCHFL's loan book, it will also lead to an increase in overall gearing. CARE will continue to engage with the management of the PEL group and will resolve the watch once there is enough clarity related to regulatory approvals, acquisition timelines and consequent impact on the business & financial profile of PCHFL and PEL.

The ratings continue to derive strength from strong and resourceful promoter group which has presence in diversified segments like real estate, healthcare, financial services and glass manufacturing along with shared brand name and common treasury with its parent, Piramal Enterprises Limited (PEL) (rated 'CARE AA (Under credit watch with Developing Implications)'). PCHFL is the flagship company in the financial services segment of the Piramal group. The ratings also takes into account the experienced Board of Directors and management team and moderate leverage of the company.

Apart from significant experience in the healthcare business, the promoter group has experience in real estate and real estate financing and the company has built-in strong risk management and asset monitoring processes which helps it to proactively manage its exposures. However, a prolonged slowdown in the real estate market is likely put pressure on the asset quality in the short to medium term.

The rating strengths are partially offset by PCHFL's moderately seasoned loan book and moderation in asset quality along with significant exposure to the real estate sector. Further, the client concentration in the loan portfolio given the large ticket size of loans to real estate developers continues to remain high.

The real estate sector which was already facing challenges in terms of access to funding and slow sales leading to increase in inventory levels was further impacted on account of nation-wide lockdown due to COVID-19 in terms of slower construction due to migrant workers shifting as well as lower demand on the back of fall in economic activity. The sector is expected to see further consolidation over the medium term.

The group has been taking steps to reduce the proportion of wholesale book either by sell down of its exposures, refinance or other measures and has plan to reduce the level and proportion of real estate exposures in the near to medium term and bring in more granularity to the loan book by reducing the borrower concentration. CARE will continue to monitor the progress on the same and would review the ratings if required. CARE also takes comfort from the Piramal group's demonstrated resource raising ability both at PEL (the parent company) levels as well as in PCHFL.

The risk aversion in the market continues towards the NBFC / HFC sector in general and wholesale lending focused nonbanking lenders which has seen challenges in resource mobilization in recent times. Therefore, continuous mobilization of resources and maintaining adequate liquidity in the current operating environment is a key rating monitorable for PCHFL.

The rating also factors in moderation in profitability during FY20 as the company has made one-time conservative provisioning for expected credit loss on account of Covid and one time MAT credit reversal and accounting write-off of DTA.

¹Complete definition of the ratings assigned are available at www.careratings.com and other CARE publications

Rating sensitivities:**Positive factors - Factors that could lead to positive rating action/upgrade:**

- Substantial reduction in exposure to real estate segment in overall loan book and reduction in single group exposure to tangible net worth on a sustained basis.
- Gross NPA below 0.5%

Negative factors - Factors that could lead to negative rating action/downgrade:

- Any delay in planned reduction in the real estate loan book of PEL – Financial services business by March 31, 2021.
- Mismatch in asset liability maturities and challenges in raising long term funding.
- Further deterioration in asset quality (Gross NPA) from current levels
- Reduction in support from Piramal Enterprises Limited.

Detailed description of the key rating drivers**Key Rating Strengths*****Strong and resourceful promoter group***

PCHFL (post amalgamation) is a wholly owned subsidiary of PEL that is a part of the Ajay Piramal group of companies. The group is a diversified Indian business house with interests in healthcare, glass manufacturing, real estate and financial services. The company has successful track record of around more than two decades in the healthcare business. Over the past few years, the group has built its financial services business with consolidated loan portfolio of Rs.50,963 crore as on March 31, 2020 (Rs.56,624 crore as on March 31, 2019 with PCHFL being the flagship company for the financial services business of the group).

CARE also takes comfort from the Piramal group's demonstrated resource raising ability both at PEL (the parent company) levels as well as in PCHFL. The group has demonstrated ability to raise resources time and again with raising around Rs.7,000 crore of fresh equity in FY18 and Rs.5,400 crore in FY20 (including of Rs.1,750 crore from CDPQ). Further PEL has also raised ~Rs.9,000 crore from part stake sale of its investment in Shriram group and sale of Healthcare & Analytics business in FY20. This provides cushion to the group's ability to absorb any external shocks in financial services business.

In October, 2020, Piramal Pharma Limited (PPL, 100% subsidiary of Piramal Enterprises Limited) has raised around Rs.3,500 crore by 20% equity stake dilution to Carlyle group. The above steps has helped PEL to reduce leverage over past 18 months and improve its liquidity profile. CARE also takes note of PEL's plan to exit from its investment in the Shriram group during FY21 which will further deleverage its balance sheet and provides comfort.

The parent company, PEL on consolidated level has raised debt resources to the tune of ~Rs.13,500 crore during FY20 and ~Rs.14,300 crore during FY21 (of which PCHFL has raised nearly ~Rs.7,000 crore) till December 31, 2021 largely from public sector banks in recent times and has been able to refinance the immediate terms maturities.

Shared brand name and common treasury between PEL and PCHFL

PCHFL benefits from group synergies in the form of shared 'Piramal' brand name, capital, managerial and operational support from the parent. PCHFL also benefits from the real estate expertise of Piramal Group. The financial services companies of the group have a shared treasury desk, which is responsible for raising resources for the financial services segment. The common treasury help's PCHFL to raise resources to fund growth at a competitive rates.

Experienced board of directors and management team

The company's board is headed by Mr. Ajay Piramal who is the promoter and Chairman of the Piramal group. The company has a strong Board of Directors comprising experienced professionals. The company's management team comprises of qualified professionals heading different business verticals with adequate and relevant experience in their respective fields.

Significant presence in the real estate finance space with gradual but limited diversification

The loan portfolio of PEL – Financial Services businesses has grown from Rs.4,766 crore as on March 31, 2015 to Rs.50,963 crore as on March 31, 2020. The group has gradually diversified its loan book in past few years, which can be witnessed by introduction of newer products including project finance, lease rental discounting, corporate finance, emerging corporates, and retail housing loan.

As on March 31, 2020, PCHFL's exposure to real estate segment constituted 74% of the total loan portfolio and PCHFL remains one of the largest non - bank real estate financiers in India with real estate loan book of Rs.24,772 crore. Real estate finance largely comprises of construction finance and corporate loans at 48% and 23% of total loan portfolio while LRD stands at 2%. Post the merger into HFC and scale up of retail home loan book, PCHFL has seen gradual diversification and the proportion of housing loan portfolio increased to 16% as on March 31, 2020 (March 31, 2019: 14%) as against 3% as on March 31, 2018. The loan portfolio also comprises of 7% of Corporate Finance Group (March 31, 2019: 14%) and 2% of Emerging Corporate Lending (March 31, 2019: 2%) as on March 31, 2020. Over the years, through its experience, the group has developed expertise in the real estate business which helps its financial services business through providing valuable insights in funding real estate projects.

As on September 30, 2020, the loan book comprised of Real estate loan book (78% of PCHFL's overall loan portfolio), CFG book comprising (6%), Emerging corporate lending (2%) and Housing Loans at (14%). Going forward, the group further intends to focus on retail loans (including housing finance loans to affordable and mid segment) in the overall loan portfolio and plans to enter consumer finance business to increase the granularity of the loan book. CARE expects the group to significantly increase the proportion of retail loan book in overall loan book in medium term.

Adequate capitalization and comfortable gearing levels

PEL has been raising equity capital and has been providing growth capital to the financial services business including PCHFL. Out of the around Rs.7,000 crore of equity capital raised by PEL in FY18, Rs.3,500 crore was infused as equity capital in PCHFL in FY18 which helped the company strengthen its capitalization levels. During FY20, PEL further raised nearly Rs.14,500 crore of capital (including Rs.5,400 crore of fresh equity) from which it infused Rs.1,400 crore into PCHFL to strengthen its capitalisation levels.

PCHFL reported tangible net-worth of Rs.10,195 crore as on March 31, 2020 (March 31, 2019: Rs.9,216 crore). The company reported capital adequacy ratio (CAR) of 34.89%, which is well above regulatory requirement, with Tier I CAR at 32.06% as on March 31, 2020 and overall gearing levels stood at 2.87 times (March 31, 2019: 3.51 times). As on December 31, 2020, PCHFL reported CAR of 35.62% (Tier I CAR: 32.83%) and overall gearing of 2.42 times.

PEL (consolidated) has been raising capital and reducing the leverage at the group level over the last two years. PEL (consolidated) reported net-worth of Rs.35,467 crore as on December 31, 2020 with Gross debt of Rs.36,992 crore leading to overall gearing of 1.04 times as compared to net-worth of Rs.27,233 crore and Gross debt of Rs.56,040 crore with overall gearing of 2.06 times as on March 31, 2019. The net debt post Pharma deal inflow stands at Rs.33,457 crore as on October 06, 2020 (provisional).

Diversified resource profile and adequate liquidity profile

The company has a diversified resource profile with PCHFL's borrowing comprising of bank borrowings (56%), Non Convertible Debentures (23%), ICDs (9%), ECB's (2%) and Securitization (7%) as on September 30, 2020 while funding through Commercial Paper reduced to 3% from 15% of its total borrowings as on March 31, 2019. PCHFL's liquidity profile as on September 30, 2020 was adequate on account of PCHFL's policy to maintain adequate unutilized bank lines as well as liquid investments which would help them to manage liquidity requirements. The company has raised Rs.6,565 crore of long term funds during H1FY21, largely from public sector banks, coupled with meagre disbursements as compared to FY20 which has led to positive asset liability profile as on September 30, 2020. The company had free cash & equivalent of Rs.4,166 crore as on September 30, 2020.

Key Rating Weaknesses

Moderately seasoned loan book

The Piramal group has largely built its wholesale loan portfolio post FY16 due to which the seasoning of the loan book is moderate and the performance of the asset quality over multiple business cycles is yet to be seen.

Also, the majority of housing portfolio of Rs.5,503 (March 31, 2019: Rs.5,204 crore) as on March 31, 2020, has been disbursed over post FY17 and the performance of the same is yet to be seen over multiple economic and business cycles.

Moderation in profitability, largely on account of one-time provisioning of Rs.1,249 crore for expected credit loss

During FY20, the company reported Profit After Tax (PAT) of Rs.30.5 crore on total income of Rs.5,623 crore as against PAT of Rs.1,443 crore on total income of Rs.5,572 crore during FY19. While the pre-provisioning operating profit decreased by 24% during FY20 to Rs.1,778 crore. During Q4FY20, the company made one-time incremental conservative provisioning for expected credit loss on account of current macro situation in light of COVID-19 resulting in significant decline in profit for FY20. Further, the company has written off accumulated MAT credit of Rs.504.61 crore on account of selection of lower tax at 25.168% and reversed deferred tax liabilities of Rs.131.74 crore through P&L thus resulting into one-time expense of Rs.372.86 crore.

During 9MFY21 (unaudited), the company reported PAT of Rs.1,065 crore on total income of Rs.3,921 crore. The profitability for Q4 of FY21 would largely depend on the actual credit loss and provisioning requirement for Covid related stress.

Moderation in asset quality

The group has put in place strong risk management practices, rigid underwriting norms and set up an asset monitoring division for continuous monitoring of the loan portfolio which has led to the company posting moderate asset quality parameters, even in current difficult macro operating environment for wholesale lending NBFCs. As on March 31, 2020, the company reported some deterioration in asset Quality with Gross NPA ratio of 2.12%, Net NPA ratio of 1.37% and Net NPA to Net worth ratio of 4.67%. As on December 30, 2020, the company reported Gross NPA ratio of 2.58% and Net NPA ratio of 1.26% with Net NPA to Net worth ratio of 3.64%.

During the initial months of lockdown, the financial services business saw borrowers opting for moratorium under regulatory relief. Around 67% of the wholesale portfolio and 25% of the retail portfolio were under moratorium as on May, 2020 (moratorium 1) and around 74% of the wholesale portfolio and 25% of the retail portfolio were under moratorium as on August, 2020 (moratorium 2).

The economic slowdown, lower sales/construction/collection by real estate developers during lockdown and moratorium availed by them under regulatory relief package for Covid-19, affected the collections of the company in absolute numbers. While the construction activity has resumed post lifting of lockdown, along with increase in sales in September / October as compared to lockdown months, the sustenance of the same needs to be seen. While the company's scheduled collections had seen a severe decline during April - August period, as significant portion of book had availed 6 month moratorium under regulatory relief package for Covid-19, the company managed to receive some pre-payment from its loan book during April - August.

The company's collection has seen an uptick in Q3FY21 with retail and wholesale efficiency improving significantly over previous months, on account of revival in sales and collections of its funded projects but it is too early to comment on revival of real estate demand as whole and hence it will be key monitorable going forward.

In past few years, company has been able to exit some of its exposures by way of pre-payments as the borrower has either refinanced the exposure or brought in equity or have been able to sell the projects. In recent times, the real estate has seen downturn resulting in decline in sales across geographies. Although on consolidated financial services business level, the company has adequate provisioning for NPAs as on date, a prolonged downturn in the real estate industry may impact the asset quality of the company and will remain key monitorable going forward.

Significant sectorial exposure primarily to real estate sector

PCHFL's loan portfolio has high exposure to the real estate as it has been the focus for the Piramal Group's financial services business. Though, the exposure has seen gradual diversification, it constituted 75% of the overall loan book as on March 31, 2020. Within real estate, the company has majority of exposure to Construction finance (including corporate loans) to large and mid-sized developers. The real estate exposure stood at 78% of total loan book as on September 30, 2020. The increase in real estate concentration is largely on account of significant reduction in non Real estate loan book over past 6 months and real estate exposures sell down deals traction took a hit on account of lockdown.

The continued stress in real estate may pose asset quality challenges going forward. In general, PCHFL's Real estate loans typically had principal moratorium of 6 months and above (depending on loan to loan basis). The group has established a strong developer network along with real estate research arm which has benefited the company to invest and exit the exposure at various stages which provides comfort.

The group has plans to reduce the proportion of wholesale lending portfolio while increasing the proportion of retail lending in the medium term. The group has plans to significantly reduce its wholesale lending portfolio by around 15-20% by end of FY21 (as compared to September 30, 2020), largely on account of reduction in real estate exposures via prepayment / sell-down / refinance of exposures.

Client concentration risk in the loan portfolio

As on March 31, 2020, the loan book of PCHFL is largely wholesale in nature and has significant borrower concentration. PCHFL's top 10 group exposures in real estate sector constituted around 106% (March 31, 2019: 120%) of the tangible net worth as on March 31, 2020 and 100% of tangible net worth as on September 30, 2020. CARE has noted that PCHFL plans to bring down the top exposures down in near term.

The company is expected to ramp up its housing finance business as well as consumer finance lending products (expected to be launched in H2FY21), which is expected to increase the granularity of the portfolio. The pace of diversification and de-risking of portfolio will remain key monitorable.

Analytical approach: CARE has analyzed PCHFL's standalone credit profile along with its managerial, operational and financial linkages with its parent, PEL.
