RISK IN REILATION TO THE FIRST OFFER

This being the first offer of the issuer, there has been no formal market for the securities of the issuer. The face value of the Equity Shares is ₹10/-. The Floor Price, Cap Price and Offer Price determined by our Company, in consultation with the Book Running Lead Manager, on the basis of the assessment of market demand for the Equity Shares by way of the Book Building Process, as stated under **“Basis for Offer Price”** on page 99 should not be considered to be indicative of the market price of the Equity Shares after the Equity Shares are listed. No assurance can be given regarding an active or sustained trading in the Equity Shares nor regarding the price at which the Equity Shares will be traded after listing.

GENERAL RISKS

Investments in Equity and Equity-related securities involve a degree of risk and investors should not invest any funds in this Offer unless they can afford to take the risk of losing their entire investment. Investors are advised to read the risk factors carefully before taking an investment decision in the Offer. For taking an investment decision, investors must rely on their own examination of our Company and the Offer including the risks involved. The Equity Shares issued in the Offer have not been recommended or approved by the Securities and Exchange Board of India (“SEBI”), nor does SEBI guarantee the accuracy or adequacy of the Draft Red Herring Prospectus. Specific attention of the investors is invited to the section **“Risk Factors”** beginning on page 29 of this Draft Red Herring Prospectus.

ISSUER & PROMOTER SELLING SHAREHOLDER’S ABSOLUTE RESPONSIBILITY

Our Company, having made all reasonable inquiries, accepts responsibility for and confirms that this Draft Red Herring Prospectus contains all information with regard to our Company and the Offer, which is material in the context of the Offer, that the information contained in this Draft Red Herring Prospectus is true and correct in all material aspects and is not misleading in any material respect, that the opinions and intentions expressed herein are honestly held and that there are no other facts, the omission of which makes this Draft Red Herring Prospectus as a whole or any of such information or the expression of any such opinions or intentions, misleading in any material respect. Further, Promoter Selling Shareholder, accepts responsibility for only such statements specifically confirmed or specifically undertaken by Promoter Selling Shareholder in this Draft Red Herring Prospectus to the extent such statements specifically pertain to itself and/or its Offered Shares and confirms that such statements are true and correct in all material respects and are not misleading in any material respect. However, the Promoter Selling Shareholder do not assume any responsibility for any other statements, disclosures or undertakings, including without limitation, any and all of the statements, disclosures or undertakings made by or in relation to our Company, its business, in this Draft Red Herring Prospectus.

The words and expressions used but not defined in this Draft Red Herring Prospectus will have the same meaning as assigned to such terms under the Companies Act, 2013, the Securities and Exchange Board of India Act, 1992 (the “SEBI Act”), the SCRA, SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018 the Depositories Act and the rules and regulations made thereunder.

CERTAIN CONVENTIONS, USE OF FINANCIAL INFORMATION AND MARKET DATA AND CURRENCY OF FINANCIAL PRESENTATION

Certain Conventions

In this Draft Red Herring Prospectus, the terms “we”, “us”, “our”, the “Company”, “our Company”, unless the context otherwise indicates or implies, refers to Vivid Electromech Limited. All references in the Draft Red Herring Prospectus to “India” are to the Republic of India. All references in the Draft Red Herring Prospectus to the “U.S.”, “USA” or “United States” are to the United States of America. Unless otherwise specified, any time mentioned in this Draft Red Herring Prospectus is in Indian Standard Time (“IST”).

In this Draft Red Herring Prospectus, unless the context otherwise requires, all references to one gender also refers to another gender and the word “Lac / Lakh” means “one hundred thousand”, the word “million (mn)” means “Ten Lac / Lakh”, the word “Crore” means “ten million” and the word “billion (bn)” means “one hundred crore”. In this Draft Red Herring Prospectus, any discrepancies in any table between total and the sum of the amounts listed are due to rounding-off. All figures in decimals have been rounded off to the second decimal and all percentage figures have been rounded off to two decimal places. In certain instances, (i) the sum or percentage change of such numbers may not conform exactly to the total figure given; and (ii) the sum of the numbers in a column or row in certain tables may not conform exactly to the total figure given for that column or row.

Use of Financial Data

Unless stated otherwise, throughout this Draft Red Herring Prospectus, all figures have been expressed in Rupees and Lakh. Unless stated otherwise, the financial data in the Draft Red Herring Prospectus is derived from our Restated Financial Statements prepared for the financial year ended 31st March 2025, 31st March, 2024 and 31st March, 2023 in accordance with Indian GAAP, the Companies Act and SEBI (ICDR) Regulations, 2018 included under Section titled ***“Financial Information of the Company”*** beginning on page 175 of this Draft Red Herring Prospectus.

There are significant differences between Indian GAAP, the International Financial Reporting Standards (“IFRS”) and the Generally Accepted Accounting Principles in the United States of America (“U.S. GAAP”). Accordingly, the degree to which the Indian GAAP financial statements included in this Draft Red Herring Prospectus will provide meaningful information is entirely dependent on the reader’s level of familiarity with Indian accounting practice and Indian GAAP. Any reliance by persons not familiar with Indian accounting practices on the financial disclosures presented in this Draft Red Herring Prospectus should accordingly be limited. We have not attempted to explain those differences or quantify their impact on the financial data included herein, and we urge you to consult your own advisors regarding such differences and their impact on our financial data.

Any percentage amounts, as set forth in ***“Risk Factors”, “Our Business”, “Management’s Discussion and Analysis of Financial Condition and Results of Operations”*** and elsewhere in the Draft Red Herring Prospectus unless otherwise indicated, have been calculated on the basis of the Company’s restated financial statements prepared in accordance with the applicable provisions of the Companies Act, Indian GAAP and restated in accordance with SEBI (ICDR) Regulations, 2018, as stated in the report of our Statutory Auditor, set out in section titled ***“Financial Information of the Company”*** beginning on page 175 of this Draft Red Herring Prospectus. The company does not have any subsidiary as on date of the Draft Red Herring Prospectus. Our fiscal year commences on April 1 of every year and ends on March 31 of every next year.

For additional definitions used in this Draft Red Herring Prospectus, see the section ***“Definitions and Abbreviations”*** on page 1 of this Draft Red Herring Prospectus. In the section titled ***“Main Provisions of the Articles of Association of our Company”***, on page 312 of the Draft Red Herring Prospectus defined terms have the meaning given to such terms in the Articles of Association of our Company.

Certain Non-GAAP Measures and certain other statistical information relating to our operations and financial performance like EBITDA, EBITDA Margin, PAT Margin, and others, have been included in this Draft Red Herring Prospectus. We compute and disclose such Non-GAAP measures and such other statistical information relating to our operations and financial performance as we consider such information to be useful measures of our business and financial performance. These Non- GAAP measures and other statistical and other information relating to our operations and financial performance may not be computed on the basis of any methodology that is applicable across the industry and therefore may not be comparable to financial measures and statistical information of similar nomenclature that may be computed and presented by other companies and are not measures of operating performance or liquidity defined by the accounting standards and may not be comparable to similarly titled measures presented by other companies.

Use of Industry & Market Data

Unless stated otherwise, industry and market data and forecast used throughout the Draft Red Herring Prospectus was obtained from internal Company reports, data, websites, Industry publications report as well as Government Publications. Industry publication

data and website data generally state that the information contained therein has been obtained from sources believed to be reliable, but that their accuracy and completeness and underlying assumptions are not guaranteed and their reliability cannot be assured.

Although, we believe industry and market data used in the Draft Red Herring Prospectus is reliable, it has not been independently verified by us or the BRLM or any of their affiliates or advisors. Similarly, internal Company reports and data, while believed by us to be reliable, have not been verified by any independent source. There are no standard data gathering methodologies in the industry in which we conduct our business and methodologies and assumptions may vary widely among different market and industry sources.

In accordance with the SEBI (ICDR) Regulations, 2018 the section titled ***“Basis for Offer Price”*** on page 99 of the Draft Red Herring Prospectus includes information relating to our peer group companies. Such information has been derived from publicly available sources, and neither we, nor the BRLM, have independently verified such information.

Currency of Financial Presentation

All references to “Rupees” or “INR” or “₹” or “₹” are to Indian Rupees, the official currency of the Republic of India. All references to “US\$” or “USD” are to United States Dollars, the official currency of the United States of America. Except where specified, including in the section titled ***“Industry Overview”*** throughout the Draft Red Herring Prospectus all figures have been expressed in Lakhs.

Any percentage amounts, as set forth in ***“Risk Factors”***, ***“Our Business”***, ***“Management's Discussion and Analysis of Financial Conditions and Results of Operations”*** on page 29, 122 and 225 respectively of this Draft Red Herring Prospectus, unless otherwise indicated, have been calculated based on our restated financial statements prepared in accordance with Indian GAAP.

The Draft Red Herring Prospectus contains conversion of certain US Dollar and other currency amounts into Indian Rupees that have been presented solely to comply with the requirements of the SEBI (ICDR) Regulations, 2018. These conversions should not be construed as a representation that those US Dollar or other currency amounts could have been, or can be converted into Indian Rupees, at any particular rate.

FORWARD LOOKING STATEMENTS

This Draft Red Herring Prospectus includes certain “forward-looking statements”. We have included statements in the Draft Red Herring Prospectus which contain words or phrases such as “will”, “aim”, “is likely to result”, “believe”, “expect”, “will continue”, “anticipate”, “estimate”, “intend”, “plan”, “contemplate”, “seek to”, “future”, “objective”, “goal”, “project”, “should”, “will pursue”, “will ensure” and similar expressions or variations of such expressions, that are “forward-looking statements”. Also, statements which describe our strategies, objectives, plans or goals are also forward looking statements.

All forward looking statements are subject to risks, uncertainties and assumptions about us that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement. Forward-looking statements reflect our current views with respect to future events and are not a guarantee of future performance. These statements are based on our management’s beliefs and assumptions, which in turn are based on currently available information. Although we believe the assumptions upon which these forward-looking statements are based are reasonable, any of these assumptions could prove to be inaccurate, and the forward-looking statements based on these assumptions could be incorrect. Important factors that could cause actual results to differ materially from our expectations include but are not limited to:

1. general economic and business conditions in the markets in which we operate and in the local, regional, national, and international economies;
2. our ability to respond to technological changes, including increasing adoption of automation, smart panels, and energy-efficient solutions;
3. the effect of wage pressures, seasonal hiring patterns, and the time required to train and productively utilize new employees;
4. any change in government policies resulting in increases in taxes payable by us;
5. our ability to comply with changes in safety, health, environmental, labour, and other applicable regulations;
6. our ability to finance our business growth and obtain financing on favourable terms;
7. our ability to retain key managerial personnel and other employees with technical expertise;
8. our ability to compete effectively, particularly in new markets and business segments;
9. inflation, deflation, and unanticipated turbulence in interest rates, raw material costs, equity prices, or other rates or prices;
10. any adverse outcome in the legal proceedings in which we are involved;
11. our ability to successfully implement our strategy, growth and expansion plans, and technological initiatives;
12. failure to comply with regulations prescribed by authorities in the jurisdictions in which we operate, including product certifications and electrical safety standards;
13. inability to successfully obtain or renew registrations, approvals, or certifications in a timely manner or at all;
14. potential conflicts of interest with affiliated companies, our Promoter group, and other related parties;
15. global distress due to pandemics, war, or other geopolitical or macroeconomic events;
16. concentration of ownership among our Promoters;
17. dependency on suppliers for critical raw materials such as copper, steel, aluminium, and switchgear components sourced from third-party OEMs;
18. risks associated with project-based revenue recognition, delayed project execution, and working capital requirements due to extended credit periods with government and EPC clients;
19. competition from regional and unorganized players in the Low-Voltage (“LV”) and Medium-Voltage (“MV”) electrical panels and automation systems manufacturing industry, which may exert pricing pressure;
20. risks related to product quality, performance, and warranty obligations, given that our products are mission-critical in power distribution systems; and
21. our exposure to the cyclical nature of industrial and infrastructure capital expenditure, which significantly influences demand for our products.
22. Exchange rate fluctuations that may adversely affect our results of operations
23. Inability to identify or effectively respond to customer needs, expectations or trends in a timely manner;
24. The occurrence of natural, man-made disasters, pandemic or such similar circumstances could adversely affect our results of operations and financial condition
25. Other factors beyond our control.

For further discussion of factors that could cause our actual results to differ, see the Section titled “**Risk Factors**”, “**Our Business**” and “**Management’s Discussion and Analysis of Financial Condition and Results of Operations**” beginning on page 29, 122 and 225 respectively of the Draft Red Herring Prospectus. By their nature, certain market risk disclosures are only estimates and could be materially different from what actually occurs in the future. As a result, actual future gains or losses could materially differ from those that have been estimated.

There can be no assurance to investors that the expectations reflected in these forward-looking statements will prove to be correct. Given these uncertainties, investors are cautioned not to place undue reliance on such forward-looking statements and not to regard such statements to be a guarantee of our future performance.

Neither our Company or our Directors or our Officers or Book Running Lead Manager or Underwriter nor any of their respective affiliates have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition. In accordance with SEBI requirements, our Company and the Book Running Lead Manager will ensure that investors in India are informed of material developments until such time as the grant of listing and trading permission by the Stock Exchange for the Equity Shares allotted pursuant to this Offer.

SECTION II – SUMMARY OF DRAFT RED HERRING PROSPECTUS**A. OVERVIEW OF BUSINESS**

Our Company is an ISO 9001:2015, certified manufacturer of Low-Voltage (“LV”) and Medium-Voltage (“MV”) electrical panels and automation systems, with over 30 years of operational history. We provide end-to-end solutions including design, fabrication, assembly, testing and commissioning of control and automation systems. Our LV product range includes PCC, IMCC, MCC, DG Synchronization and Outdoor Panels, while our MV range covers 3.3 kV to 36 kV panels, VFD Panels, Control & Relay Panels, RMUs and APFC Panels. Our products, type-tested under IEC standards, cater to sectors including Data Centre & Technology, infrastructure, Metro Projects, Construction & Real Estate, Solar & Renewable Energy, Industrial Manufacturing. We maintain OEM associations with ABB, LK and Schneider Electric.

For further details, please refer to the chapter titled “*Our Business*” beginning on page 122 of this Draft Red Herring Prospectus.

OVERVIEW OF THE INDUSTRY

India’s fast-growing engineering and capital goods base, supported by 100% FDI and de-licensing, provides strong momentum for the heavy electrical and switchgear industry. Expanding infrastructure—13,800 km of highways in FY24 and ₹11.21 lakh crore (US\$128 billion) capex—drives large-scale power generation and distribution needs, boosting demand for LV/MV switchgear and heavy electrical equipment. Government initiatives such as the Capital Goods Competitiveness Scheme and the Indian Electrical Equipment Mission Plan promote advanced technology, skill development, and global competitiveness. With rising urbanisation, the Urban Infrastructure Development Fund and the Infrastructure Finance Secretariat further encourage private investment, creating significant opportunities for domestic manufacturing and exports of high-value electrical equipment.

Apart from the details mentioned above our Company has not undertaken any split, consolidation or sub-division of its Equity shares since incorporation.

H. EXEMPTION FROM COMPLYING WITH ANY PROVISIONS OF SECURITIES LAWS, IF ANY, GRANTED BY SEBI

Our Company has not applied or received any exemptions from SEBI from complying with any provisions of securities laws, as on the date of this Draft Red Herring Prospectus.

SECTION III: RISK FACTORS

An investment in our Equity Shares involves a high degree of financial risk. Prospective investors should carefully consider all the information in the Draft Red Herring Prospectus, particularly the “Financial Information of the Company” and the related notes, “Our Business” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” on page 175, 122 and 225 respectively of this Draft Red Herring Prospectus and the risks and uncertainties described below, before making a decision to invest in our Equity Shares.

The risk factors set forth below are not exhaustive and do not purport to be complete or comprehensive in terms of all the risk factors that may arise in connection with our business or any decision to purchase, own or dispose of the Equity Shares. This section addresses general risks associated with the industry in which we operate and specific risks associated with our Company. Any of the following risks, individually or together, could adversely affect our business, financial condition, results of operations or prospects, which could result in a decline in the value of our Equity Shares and the loss of all or part of your investment in our Equity Shares. While we have described the risks and uncertainties that our management believes are material, these risks and uncertainties may not be the only risks and uncertainties we face. Additional risks and uncertainties, including those we currently are not aware of or deem immaterial, may also have an adverse effect on our business, results of operations, financial condition and prospects.

This Draft Red Herring Prospectus contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the considerations described below and elsewhere in this Draft Red Herring Prospectus. The financial and other related implications of risks concerned, wherever quantifiable, have been disclosed in the risk factors below. However, there are risk factors the potential effects of which are not quantifiable and therefore no quantification has been provided with respect to such risk factors. In making an investment decision, prospective investors must rely on their own examination of our Company and the terms of the Offer, including the merits and the risks involved. You should not invest in this Offer unless you are prepared to accept the risk of losing all or part of your investment, and you should consult your tax, financial and legal advisors about the particular consequences to you of an investment in our Equity Shares.

Materiality

The Risk factors have been determined on the basis of their materiality. The following factors have been considered for determining the materiality.

- 1. Some events may not be material individually but may be found material collectively.*
- 2. Some events may have material impact qualitatively instead of quantitatively.*
- 3. Some events may not be material at present but may be having material impact in future.*

Note:

The risk factors as envisaged by the management along with the proposals to address the risk if any. Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify the financial implication of any of the risks described in this section.

In this Draft Red Herring Prospectus, any discrepancies in any table between total and the sums of the amount listed are due to rounding off. Any percentage amounts, as set forth in “Risk Factors” on page 29 and “Management Discussion and Analysis of Financial Condition and Results of Operations” on page 225 of this Draft Red Herring Prospectus unless otherwise indicated, has been calculated on the basis of the amount disclosed in the “Restated Financial Statements” on page 175 of this Draft Red Herring Prospectus.

- 1. The costs of the raw materials that we use in our manufacturing process are subject to volatility due to factors beyond our control. Increases or fluctuations in raw material prices may have a material adverse effect on our business, financial condition, results of operations and cash flows.*

The costs of the raw materials that we use in our manufacturing process are subject to volatility due to factors beyond our control. Increases or fluctuations in raw material prices may have a material adverse effect on our business, financial condition, results of operations and cash flows.

Our operations are dependent upon the price and availability of raw materials required for the production of our Low-Voltage (LV) and Medium-Voltage (MV) electrical panels and automation systems. The primary raw materials used in our operations include Switchgears, Cold Rolled Close Annealed (CRCA) sheets, Galvanized Iron (GI) sheets, aluminum and copper bus bars, electrical wires, switchgears and other related materials. We rely on third-party suppliers for the procurement of these raw materials and do

not have any long-term contracts or exclusive arrangements with them. One of our major raw materials is switchgears, which we primarily procure from ABB India Limited. Although certain price locking arrangements are available with ABB India Limited for specified periods, such arrangements are limited in duration and scope. Consequently, we remain exposed to the risk of adverse price fluctuations once such periods expire or in the event of any disruption in supply from ABB India Limited.

Any significant increase in the cost of CRCA sheets, GI sheets, aluminium, copper bus bars, electrical wires, switchgears or other raw materials may adversely impact our operating margins if we are unable to pass on such costs to our customers. While we have in the past generally been able to pass on a portion of the increase in input costs to customers, there can be no assurance that we will continue to do so in the future without affecting the demand for our products. An increase in our product prices could result in order cancellations or reduction in purchase volumes by customers, which may adversely affect our revenues and profitability.

The total cost of materials consumed was ₹10,024.26 lakhs, ₹6,062.49 lakhs and ₹5,022.45 lakhs, respectively, in Fiscals 2025, 2024 and 2023 which accounted for 77.94%, 72.43% and 84.27% of our total cost in Fiscals 2025, 2024 and 2023, respectively. Our past experience also indicates that raw material costs have been subject to fluctuations due to volatility in global commodity markets. In addition, increasing global demand for these raw materials and uncertainties in their supply could disrupt our ability or that of our suppliers to obtain them in a timely manner, leading to increased costs and potential supply chain delays.

Although we generally maintain inventory of our primary raw materials to support production schedules, there can be no assurance that such inventory levels will always be sufficient. Any inability to procure adequate raw materials on time or at reasonable prices could result in delays in fulfilling customer orders, unplanned increases in manufacturing costs, or disruption of our operations, which may adversely affect our business, results of operations, cash flows and reputation.

Further, the prices and supply of our raw materials are influenced by multiple factors beyond our control, including general economic conditions, competition, production levels, transportation costs, indirect taxes, import duties, tariffs, and foreign exchange movements. As we are dependent on third-party suppliers, our supply chain remains vulnerable to disruptions arising from such factors, which could adversely affect our operations and financial performance.

2. We are dependent on a limited number of suppliers located within a concentrated geographical region for the supply of our raw materials, and we do not have long-term agreements with most of our suppliers. Any disruption in supply, increase in prices, or adverse developments in the region could materially and adversely affect our business, financial condition and results of operations.

Our manufacturing operations rely heavily on the timely availability of raw materials such as Switchgears, Cold Rolled Close Annealed (CRCA) sheets, Galvanized Iron (GI) sheets, aluminium and copper bus bars, electrical wires and other related inputs. We source a significant portion of these raw materials from a few key suppliers. The details of our purchases from our top 1, top 5 and top 10 suppliers for the periods indicated are as follows:

(Amount in Rs. Lakhs)

Particulars	For the year ended					
	March 31, 2025		March 31, 2024		March 31, 2023	
	Amount	% of Total Purchases	Amount	% of Total Purchases	Amount	% of Total Purchases
Top 1 Suppliers	5,937.01	49.81%	2,580.95	40.96%	1,782.19	35.03%
Top 5 Suppliers	7,522.67	63.12%	3,514.78	55.79%	2,942.57	57.83%
Top 10 Suppliers	8,701.15	73.00%	4,243.58	67.35%	3,727.88	73.27%

We depend on these suppliers for meeting a major portion of our raw material requirements. Apart from one supplier arrangement that is renewed annually, we do not have long-term purchase contracts with our suppliers. As a result, our suppliers are not obligated to supply raw materials to us, may alter their terms of supply, or may choose to prioritize other customers, including our competitors. If we are unable to procure raw materials from these suppliers, we may need to identify alternate sources, which may not be available on a timely basis, at required quality levels, or on commercially viable terms. This could adversely affect our production schedules, increase procurement costs, and negatively impact our profitability.

Further, a significant portion of our raw material purchases are concentrated in the state of Maharashtra, which accounted for 52.36%, 61.48% and 62.15% of our total purchases in Fiscals 2025, 2024 and 2023, respectively. Any adverse political, social, economic, or environmental developments in Maharashtra including labor unrest, civil disruptions, natural disasters, transportation strikes, or changes in state policies could disrupt our supply chain. Such disruptions may result in shortages of raw materials, production delays, increased logistics and transportation costs, and difficulties in meeting customer demand, all of which may adversely affect our business operations and reputation.

In addition, we are exposed to risks such as supply shortages, price volatility, and quality inconsistencies due to our dependence on third-party suppliers. Factors such as supplier insolvency, financial instability, capacity constraints, production delays, or

geopolitical events may further impact the availability and pricing of raw materials. In the absence of long-term agreements, we may be compelled to source from alternative suppliers at higher costs or on less favorable terms, which could adversely impact our cost structure and operational efficiency. Any failure to maintain relationships with our existing suppliers or to secure reliable alternatives could materially and adversely affect our business, results of operations, financial condition and cash flows.

3. *We are dependent on a few customers for a major part of our revenues. Further we do not have any long-term commitments from customers and any failure to continue our existing arrangements could adversely affect our business and results of operations.*

The substantial portion of our revenues has been dependent upon certain key customers. For the Fiscal 2025, Fiscal 2024 and Fiscal 2023, the contribution from our top 1, top 5 and top 10 customers towards our revenue from operations is as under:

(Amount in Rs. Lakhs)

Particulars	For the year ended					
	March 31, 2025		March 31, 2024		March 31, 2023	
	Amount	% of Total Sales	Amount	% of Total sales	Amount	% of Total Sales
Top 1 Customer	5,057.06	32.56%	994.13	11.18%	516.70	8.71%
Top 5 Customers	8,633.04	55.59%	3,178.59	35.75%	2,367.48	39.91%
Top 10 Customers	10,854.77	69.90%	4,900.77	55.12%	3,682.88	62.08%

Our reliance on a limited number of customers exposes us to risks arising from order reductions, delays, cancellations, or changes in terms by these customers. The loss of one or more of these customers, or a significant decline in the volume of business from them, may adversely impact our revenues and profitability.

We have not entered into long-term contracts with our customers. As a result, our customers are not obligated to continue to place orders with us, and there can be no assurance that they will maintain historic levels of business with us in the future. In order to retain certain customers, we may be required to extend credit terms or offer other concessions, which could place strain on our resources and adversely affect our margins. Our customers operate across diverse industries such as Data Centre & Technology, Infrastructure, Metro Projects, Construction & Real Estate, Solar & Renewable Energy, Industrial Manufacturing. Demand from these industries may be cyclical and influenced by factors beyond our control, including changes in economic conditions, industry trends, regulatory developments, technological shifts, supply chain strategies, and customer preferences. A downturn in any of these industries, or changes in our customers' procurement or outsourcing strategies, could reduce their demand for our products. Further, if our customers decide to source from our competitors, consolidate their vendor base, manufacture themselves or alter their procurement practices, our revenues may be adversely impacted.

In addition, customer demand may vary based on factors such as inventory adjustments, fluctuations in market demand, and pricing trends of competing products. Any reduction in orders from our significant customers could materially and adversely affect our business, financial condition, results of operations and cash flows.

4. *If there are delays in setting up the Proposed manufacturing unit or if the costs of setting up and the possible time or cost overruns related to the Proposed manufacturing unit or the purchase of plant and machinery for the Proposed manufacturing unit are higher than expected, it could have a material adverse effect on our financial condition, results of operations and growth prospects.*

We are in the process of setting up a new manufacturing facility at survey numbers 75/1C (part), 75/6 (part), 75/7 and 75/10 (part), located at Village Nahren, Taluka Ambernath, District Thane, 421501, Maharashtra, India admeasuring approximately 7,977 square metres. The land was acquired from Macrotech Developers Limited pursuant to a sale agreement dated June 2, 2025.

The proposed facility will involve civil construction and installation of new machinery, including a powder coating plant, automatic powder coating booth, CNC busbar processing machine, CNC bending machine, transformer for Compact Substation (CSS), 500 kVA diesel generator (DG) set, uninterruptible power supply (UPS) for the Fab Line, air compressor, and Ring Main Unit, among others. The total estimated project cost is ₹6673.56 lakhs, based on a certificate dated September 17, 2025, issued by Mr. Karan Rajendra Mody, Chartered Engineer, AKV Consulting LLP. These estimates are based on management's assumptions and prevailing market conditions and are subject to change.

We have availed a term loan facility from ICICI Bank Limited, secured against current assets and immovable property, for purchase of the project land. A portion of the Net Proceeds of the Offer is proposed to be utilized towards repayment of such borrowings. For further details, see "**Objects of the Offer**" on page 87 of this Draft Red Herring Prospectus.

The timely completion of the proposed facility is subject to various factors including, among others, timely arrangement of financing, performance of contractors and vendors engaged for civil construction and equipment installation, receipt of statutory and regulatory approvals, and uninterrupted supply of construction materials and machinery. We may be exposed to risks such as construction delays, cost overruns, shortage of skilled labour, escalation in material costs, design or execution defects, inadequate performance of installed equipment, incremental pre-operating expenses, adverse regulatory or environmental developments, and unforeseen restrictions. Any significant deviation in project schedule or costs may result in delays in commencement of operations, inability to achieve targeted capacity, and lower-than-expected returns on investment.

5. *We are yet to place final orders for some machinery, interior, mechanical and electrical works for the proposed manufacturing unit. Any delay in procurement, installation, or cost escalation of such machinery and works may adversely affect our expansion plan.*

We have identified and obtained third-party quotations for the machineries to be installed at our proposed manufacturing facility survey numbers 75/1C (part), 75/6 (part), 75/7 and 75/10 (part), located at Village Nahren, Taluka Ambernath, District Thane, 421501, Maharashtra, India. While certain orders have already been placed, we are yet to place final orders for certain Plants and Machinery, Utilities and Equipment and electrical work. As of the date of this DRHP, orders totalling ₹1,336.76 lakhs have been placed for our expansion plan to acquire a PSBB machine, against which advance payments of ₹126.87 lakhs have been made. The balance expenditure for the expansion plan is proposed to be funded from the Net Proceeds of the Issue.

The costs of machinery procurement are based on vendor quotations which are valid for a limited period and subject to commercial and technical changes. We cannot assure you that we will be able to procure the identified machinery at the quoted price or within the planned timelines. In the event of delays in order placement, escalation in machinery costs, or inability of vendors to supply machinery on time, we may experience cost overruns and delays in commissioning the facility. If required, we may need to identify alternative vendors, and there can be no assurance that such vendors will be able to supply machinery of the required specifications at acceptable prices.

Further, even after successful procurement and installation, there is a risk that the increased capacity from the new unit may not be fully absorbed by the market. If future sales volumes are insufficient to achieve breakeven from the expanded facility, our profitability, cash flows, and financial position may be adversely affected.

6. *Our business is dependent on the continuous and efficient operation of our manufacturing units. Any disruption, breakdown or failure of critical machinery, disruption in power supply, or temporary shutdown of our facilities may have a material adverse effect on our business, results of operations, financial condition and cash flows.*

We operate two manufacturing units located at Navi Mumbai and Pune, Maharashtra, which are integral to our business of manufacturing low voltage (“LV”) and medium voltage (“MV”) electrical panels and automation systems. Our operations are subject to a variety of risks, including those beyond our control, such as machinery breakdowns, industrial accidents, fire hazards, severe weather conditions, natural disasters, and other force majeure events.

Any major malfunction, breakdown, or unexpected failure of our equipment may require significant repair or replacement costs, and may lead to production delays. If such machinery cannot be repaired or replaced in a timely manner, we may be forced to suspend operations at one or more of our facilities. In addition, our units are subject to periodic planned shutdowns for maintenance, statutory inspections, cleaning, and upgradation. We may also need to temporarily shut down operations for capacity expansion or machinery replacement, which may affect production schedules.

Further, obsolescence, destruction, theft, or irreparable breakdowns of key machinery could significantly increase replacement costs and accelerate depreciation. Certain equipment used in the manufacture of Low-Voltage (“LV”) and Medium-Voltage (“MV”) electrical panels and automation systems, such as CNC busbar processing machines, bending machines, and powder coating systems, involve long procurement lead times and high replacement costs. In the event of supply shortages, inflationary pressures, transportation challenges, or unavailability of such specialized machinery, our ability to resume production in a timely and cost-efficient manner may be adversely affected. While we maintain insurance coverage for plant and machinery, such coverage may not be adequate to fully cover losses arising from obsolescence, breakdown, or replacement of critical machinery.

Although we have not experienced any major disruptions in the past, there can be no assurance that similar events will not occur in the future. Any inability to respond effectively to disruptions and restore operations within acceptable time and cost limits could result in under-utilization or shutdown of our manufacturing facilities, which in turn could have a material adverse effect on our business, cash flows, results of operations, and financial condition.

7. *Our dependence on OEM tie-ups exposes us to risks of non-renewal, cancellation, or modification of such arrangements, which may adversely impact our business and results of operations.*

We primarily manufacture and supply a diversified range of Low-Voltage (“LV”) and Medium-Voltage (“MV”) electrical panel and automation systems, a part of which is manufactured under the brand name of our OEM partners. These arrangements require us to strictly comply with their product specifications, quality requirements, and delivery timelines. Our OEM partners often enjoy significant bargaining power, and any inability to comply with their requirements may lead to cancellation or non-renewal of such arrangements.

Since OEMs may periodically review their vendor base, rationalize suppliers, or change their procurement policies, we face the risk of reduced business volumes, loss of key accounts, or pressure on pricing and margins. Additionally, adverse developments such as disputes, delays in deliveries, failure to meet evolving technology requirements, or non-compliance with audit findings may result in termination of supply orders or reduction in business from such OEMs. The loss of a significant OEM tie-up, or failure to maintain and expand such relationships, could materially and adversely affect our revenues, reputation, and growth prospects.

8. Any failure to consistently meet stringent quality, safety, and compliance requirements may lead to product defects, regulatory penalties, order cancellations, or reputational harm.

Our Low-Voltage (“LV”) and Medium-Voltage (“MV”) electrical panels and automation systems are critical to industrial, commercial, and infrastructure applications, where adherence to safety, reliability, and performance standards is essential. A defect in design, raw material, manufacturing process, or failure to meet prescribed technical parameters could result in faulty performance, operational downtime, safety hazards, or even damage to end-user facilities. Such failures may lead to project delays, regulatory non-compliance, financial claims, or product recalls.

Our manufacturing facilities, processes, and products are subject to regular inspections and audits by customers, OEM partners, and regulatory agencies. Any adverse findings, inability to promptly rectify deficiencies, or failure to comply with evolving standards could lead to suspension of approvals, cancellation of supply orders, or restrictions on future business. Moreover, adverse publicity or market perception about product quality or compliance issues could severely damage our brand reputation and market standing.

Although we have not faced material quality-related disputes in the past, there can be no assurance that such issues will not arise in the future. Any significant quality or compliance failure could materially and adversely impact our operations, financial condition, and long-term prospects.

9. Our operations are subject to high working capital requirements. If we are unable to generate sufficient cash flows to allow us to make required payments, there may be an adverse effect on our results of operations.

Our business is inherently working capital intensive, primarily on account of the nature of our operations and customer profile. We are required to maintain significant levels of inventory of raw materials and finished products in order to meet customer requirements and project schedules. In addition, we generally extend credit terms to our customers, including public sector undertakings (PSUs), EPC contractors, Sub-Contractor and OEM, where payment cycles may be prolonged. As a result, a significant portion of our resources is blocked in receivables and inventories at any given point of time.

We meet our working capital requirements through a combination of internal accruals, unsecured loans, and borrowings from banks and financial institutions. As on March 31, 2025, our total borrowings stood at ₹ 423.11 lakhs, as on March 31, 2024 at ₹ 476.77 lakhs and as on March 31, 2023, at ₹ 646.69 lakhs. We may incur additional indebtedness in the future to meet our growing working capital requirements. Additional debt financing may increase our finance costs and subject us to restrictive covenants, while additional equity financing may dilute shareholders’ interest.

The objects of this Issue include funding working capital requirements of our Company. However, our working capital requirements are subject to fluctuations due to several factors beyond our control, including force majeure conditions, project delays, defaults or delayed payments by customers, volatility in raw material prices, and non-availability of bank funding. Accordingly, past working capital requirements may not be indicative of our future requirements, and investors should not place undue reliance on such estimates.

In the last three financial years, we have been able to raise funds from banks as and when required and have not delayed or defaulted on our financial commitments. However, there can be no assurance that we will be able to renew existing funding arrangements or obtain additional financing on acceptable terms in a timely manner, or at all. Any inability to secure adequate working capital financing could adversely impact our business operations, delay execution of orders, restrict our ability to undertake new projects, and have a material adverse effect on our business, results of operations, and financial conditions.

10. Our Company is party to certain legal proceedings. Any adverse decision in such proceedings may have a material adverse effect on our business, results of operations and financial condition.

Our Company is party to certain legal proceedings. These legal proceedings are pending at different levels of adjudication before

various courts, tribunals and forums. Mentioned below are the details of the proceedings involving our Company as on the date of this Draft Red Herring Prospectus along with the amount involved, to the extent quantifiable, based on the Materiality Policy for litigations, as approved by the Company in its Board meeting held on September 12, 2025.

Below is the summary of our litigation

(Amount in Rs. Lakhs)		
Nature of Cases	No. of Outstanding Cases	Amount in dispute/demanded to the extent ascertainable*
Company		
Criminal proceedings against the company	-	-
Criminal proceedings filed by the company	2	18.17
Other pending material litigations against the company	1	37.76
Other pending material litigations filed by the company	9	208.46
Tax Proceedings (Direct Tax & TDS)	3	24.41
Tax Proceedings (Indirect Tax)	1	20.75
Total(A)	16	309.55
Promoters & Directors		
Tax Proceedings (Direct Tax)	11	61.07
Total(B)	11	61.07

Criminal proceedings against the group company	1	3.05
Tax Proceedings (TDS)	1	5.43
Total(C)	2	8.48
Total(A+B+C)	29	379.10

*The aforementioned amounts have been recorded to the extent they are quantifiable. The amount may be subject to additional interest/other charges being levied by the concerned authorities which are unascertainable as on date of this Draft Red Herring Prospectus.

There can be no assurance that these will be decided in favour of our Company, and consequently it may divert the attention of our management and Promoters and waste our corporate resources and we may incur significant expenses in such proceedings and may have to make provisions in our financial statements, which could increase our expenses and liabilities. If such claims are determined against us, there could be a material adverse effect on our reputation, business, financial condition and results of operations, which could adversely affect the trading price of our Equity Shares. For the details of the cases please refer the chapter titled “**Outstanding Litigations and Material Developments**” beginning on page 234 of this Draft Red Herring Prospectus.

11. Our business is dependent on demand from the electrical and related industries, and any slowdown in these sectors could materially and adversely affect our business, financial condition, results of operations, and growth prospects.

We manufacture Low-Voltage (“LV”) and Medium-Voltage (“MV”) electrical panels and automation systems, which are used across various sectors including infrastructure and construction, industrial manufacturing, renewable energy (solar and wind projects), metro and transportation projects, data centres and technology hubs, and electrical utilities and power distribution. A significant portion of our revenue is derived from customers operating in these sectors. Accordingly, any downturn in these industries, whether due to reduced project activity, economic slowdowns, regulatory changes, delays in approvals, shifts in energy policies, funding constraints, or supply chain disruptions, could adversely impact the demand for our products and materially affect our financial performance.

Our ability to maintain operations and meet customer requirements also depends on the availability of key electrical components sourced from suppliers such as ABB and others. Disruptions in the supply of critical components, increases in component prices, delays in delivery, or failure of suppliers to meet quality standards could adversely affect our manufacturing operations, production schedules, costs, and profitability.

Given our reliance on both the electrical industry for demand and our suppliers for critical components, any prolonged slowdown in end-user industries or significant supply-side disruptions could materially and adversely affect our business, financial condition, results of operations, and growth prospects.

12. Our revenue and operations are concentrated in certain geographical regions, particularly Maharashtra, and any adverse developments in these regions may adversely affect our business, results of operations and financial condition. Further, our inability to successfully expand into new markets may impact our growth prospects.

A significant portion of our revenue is concentrated in the state of Maharashtra, which contributed 85.94%, 51.21%, and 54.54% of our total revenue from operations for the financial years ended March 31, 2025, March 31, 2024 and March 31, 2023, respectively. Further, our top five revenue-contributing states accounted for 96.46%, 77.42% and 84.77% of our total revenue from operations during the same periods. For further details, refer to “**Financial Information of the Company**” on page 175.

Our manufacturing operations are carried out from two facilities, one located at Navi Mumbai, where we undertake the complete manufacturing process, and the other at Pune, which is primarily dedicated to panel assembly operations. This geographical concentration makes our business susceptible to local, regional, and environmental risks. Any adverse social, political, economic, or regulatory developments in Maharashtra, including civil unrest, natural disasters, power supply disruptions, changes in state policies, or local regulatory restrictions, may disrupt our operations. Any disruption at our manufacturing facilities could result in delays or an inability to meet customer orders and production schedules, which may adversely impact our reputation, customer relationships, and financial performance.

Although we sell our products across multiple states including Maharashtra, Telangana, Andhra Pradesh, Gujarat, Uttar Pradesh, Tamil Nadu, Karnataka, Madhya Pradesh and Chhattisgarh, our revenue contribution remains concentrated. To drive growth, we intend to expand into new regions within India and explore export opportunities. However, expansion into new geographies may expose us to increased competition from established local players with stronger market presence, existing customer relationships, better supplier networks, and deeper understanding of local regulations. We may face challenges in establishing our brand, securing customers, and building supply and service networks in such regions. Failure to successfully expand and compete in new markets may limit our ability to grow and could adversely affect our business, financial condition, results of operations, and future prospects.

13. Risks relating to product warranty obligations and potential defects in our Low-Voltage (“LV”) and Medium-Voltage (“MV”) electrical panels and automation systems could adversely impact our business, financial condition, and results of operations.

We provide a limited warranty on our Low-Voltage (“LV”) and Medium-Voltage (“MV”) electrical panels and automation systems for 12 months from the date of supply or 18 months from installation, whichever is earlier, covering repair or replacement of defective parts under normal use. Consumables and damage caused by improper use or installation are excluded. If our products fail to perform as expected due to design flaws, component failures, or manufacturing defects, we may be required to repair, replace, or compensate customers, which could result in additional costs, customer dissatisfaction, disputes, and reputational harm.

We source key electrical components from suppliers such as ABB and others, who generally provide warranties of 18–24 months. While we pursue recoveries under such back-to-back warranties, there can be no assurance that supplier indemnities will always be honoured or that recoveries will be timely or adequate.

Any unexpected increase in warranty claims, including claims outside the scope of contractual limits or those not covered by supplier indemnities, may result in higher provisions, unplanned costs, diversion of management and technical resources, and an adverse impact on our profitability. Moreover, reputational damage arising from recurring or significant product failures may affect customer confidence, repeat orders, and our market position.

While we have not experienced any warranty-related claims in the past, there can be no assurance that we will not be subject to such claims in the future. Accordingly, warranty obligations and potential product defects could materially and adversely affect our business, financial condition, results of operations, and prospects.

14. We are exposed to counterparty credit risk, and any delay or default in payment by our customers may adversely affect our working capital, cash flows, and results of operations.

In the ordinary course of business, we are exposed to credit risk arising from our customers, vendors, and third-party service providers who may delay or fail to make payments or perform their contractual obligations. Our exposure to such risk depends on the financial condition of individual counterparties, customer profile, and the economic environment in which they operate. In the past, certain customers have delayed payments, though such receivables have not been classified as impaired. In certain instances, delayed payments have resulted in the initiation of legal proceedings or claims to recover dues, and the outcomes of such proceedings may be uncertain.

Our business requires a significant amount of working capital, a major portion of which is utilized towards trade receivables and payables. A longer credit period granted to our customers, compared to the credit terms extended by our vendors and third parties, may result in cash flow mismatches and increase our working capital requirements.

If customers delay or default in payments, particularly for engagements where significant resources have been deployed, our profitability, liquidity, and capital reserves available for other uses may be adversely affected. Any underestimation of working capital requirements may also result in delays in arranging additional funding, loss of reputation, levy of liquidated damages, and

strain on our cash flows. Although we have not under-budgeted our working capital requirements in the past, there can be no assurance that this will not occur in the future.

Our inability to maintain adequate cash flows, credit facilities, or alternative funding sources in a timely manner, or to recover dues from our trade receivables, whether through negotiations or legal proceedings, may materially and adversely affect our business operations, financial condition, and results of operations. For further details of our working capital requirements, see the chapter titled “**Objects of the Offer**” on page 87 of this Draft Red Herring Prospectus. For details of ongoing and pending litigation, see the chapter titled “Outstanding Litigations and Material Developments” on page 234 of this Draft Red Herring Prospectus.

15. The Company has encountered certain issues and discrepancies in its corporate records and regulatory compliance, which present potential risks.

Our Company has, in the past, not complied with certain statutory provisions of the Companies Act, 2013. Examples of such non-compliances include: (i) Meeta Sameer Attavar, appointed as an Additional Director on May 21, 2022, was not regularized at the ensuing annual general meeting as required; however as on date Meeta Sameer Attavar has been duly appointed as per the applicable provisions of Companies Act, 2013. (ii) clerical errors in filings with the Registrar of Companies (“RoC”), including Form PAS-3 for bonus issuances dated February 1, 2016 and October 18, 2019, and for shares issued upon conversion of loans on March 31, 2015, resulting in incorrect disclosure of share categories and consideration; (iii) non-filing of Form CHG-1 for certain vehicle loans, which constitutes non-compliance with Section 77 of the Companies Act, 2013, though such loans are not outstanding as of the date of this Draft Red Herring Prospectus; (iv) delays in filing statutory forms including ADT-1, MGT-7, DPT-3, MSME-I and MGT-14; Though, as a remedial action, the Company has started filing forms on or before its due date and has also appointed and authorized Company Secretary & Compliance Officer of the company to keep proper check on the filing in due time (v) The erstwhile auditors of the Company failed to file Form ADT-3 with the Registrar of Companies. The Company has received a No Objection Certificate from the previous auditors in this regard. (vi) inadvertent non-compliance with AS 15 – Employee Benefits, which has been rectified in the restated financial statements included in this Draft Red Herring Prospectus.

Further, the Company has identified discrepancies relating to unsecured loans obtained from its proprietorship firm, M/s Vivid Infraprojects, which were non-compliant with Section 73 of the Companies Act, 2013. Although such loans have been repaid as on the Date of Draft Red Herring Prospectus. Further, the Company had, in the past, inadvertently extended loans and advances to its Directors and to M/s Vivid Infraprojects. As of the date of this Draft Red Herring Prospectus, there are no outstanding balances.

While no legal proceedings or regulatory actions have been initiated against us in relation to the aforesaid non-compliances as of the date of this Draft Red Herring Prospectus, we cannot assure you that proceedings or regulatory actions will not be initiated against us in the future in relation to these or other past non-compliances of Companies Act or other regulations. Any such actions, if initiated, may subject us to penalties, fines, or other enforcement measures and may materially and adversely affect our business, financial condition, results of operations, and reputation.

16. Certain of our corporate records relating to forms filed with the Registrar of Companies prior to the year 2006 in respect of Allotment of Equity Shares, appointment of Statutory Auditor, appointment & resignation of directors (if any), Change in registered office, filing of financial statements & annual returns etc. and other certain records are not traceable.

We do not possess some of the prescribed forms filed with the Registrar of Companies, Mumbai, Maharashtra, prior to 2006, particularly relating to forms filed, in respect of allotments of equity shares, appointment of statutory auditor, appointment & resignation of directors (if any), Change in registered office, filing of financial statements & annual returns etc. Although we have obtained a search report prepared by M/s. Nuren Lodaya & Associates, Practicing Company Secretaries dated May 30, 2025, in relation to records maintained by ROC in the physical form, but still, information relating to above mentioned forms filed by the Company prior to the year 2006 could not be traced. Further, the Company has registered some share transfers wherein the Share transfer deeds for equity share transferred on and before the year 2011-12 are not traceable. Information in relation to such transfers have been disclosed in the section “**Capital Structure**” on page 71, in this Draft Red Herring Prospectus, based on the information received from the company and other corporate records. Thus, the history of our company with regards to allotments of equity shares, appointment of statutory auditor, appointment & resignation of directors (if any), filing of financial statements etc. presented in this Draft Red Herring Prospectus is based on the limited information available with the Company. While our Company believes that these ROC forms were duly filed on a timely basis, we cannot assure you that all the aforementioned forms filed with ROC will be available in the future. Further, due to the non-availability of the requisite statutory records, we may not be able to present the requisite documentary evidence to validate our point which may lead to any penal actions being taken against the Company and its operations may get adversely affected.

17. Our business operations depend on the availability and retention of skilled technical workforce, and any failure to attract, train, or retain such talent may adversely affect our business, results of operations, and financial condition.

Our operations require a skilled technical workforce, including engineers, designers, quality specialists, and trained technicians with expertise in Low-Voltage (“LV”) and Medium-Voltage (“MV”) electrical panels and automation systems design, busbar sizing,

protection relay configuration, wiring, assembly, and testing. The availability of such personnel is limited, and competition to hire and retain them is intense, particularly due to the growing demand from infrastructure, industrial automation, renewable energy, and data centre projects.

If we are unable to attract, retain, or adequately train such personnel, our ability to execute projects in a timely and efficient manner may be adversely affected. Retaining skilled workforce may also require us to offer higher compensation and benefits, which could increase operating costs. The loss of experienced personnel without timely replacement could lead to project delays, quality issues, or operational disruptions.

In addition, the effectiveness of our technical workforce depends on continuous training to keep pace with evolving technologies, changing customer requirements, and compliance with industry standards such as IS/IEC norms and safety protocols. Any failure to provide such training or adapt to changing skill requirements may adversely impact our competitiveness and performance. Consequently, our inability to attract, retain, and train skilled personnel could have a material adverse effect on our business, financial condition, and results of operations.

18. Changes in technology may render our current fleet of equipment and systems obsolete and require us to make substantial capital investments.

Our production equipment and processes for Low-Voltage ("LV") and Medium-Voltage ("MV") electrical panels and automation systems are subject to continuous technological advancements. Newer and more efficient technologies, including advanced manufacturing techniques, digital control systems, and automation software, may render our existing equipment and systems obsolete. Adoption of such technologies often requires significant capital investment, and there can be no assurance that we will be able to finance these upgrades on favorable terms or in a timely manner.

Failure to adopt new technologies in a cost-effective manner may lead to increased production costs, reduced operational efficiency, and lower competitiveness in pricing and quality. In addition, rapid technological changes and evolving customer preferences could result in asset write-downs, reduced utilization of existing equipment, or substantial capital expenditures for replacements. If we are unable to anticipate or respond to such developments, it could adversely affect our business, financial condition, results of operations, and growth prospects.

19. Our Company requires several statutory and regulatory approvals in respect of our operations. Failure to obtain or maintain licenses, registrations, permits and approvals may affect our business and results of operations.

We require certain statutory and regulatory permits, licenses and approvals to operate our business. We believe that we have obtained requisite permits and licenses which are adequate to run our business, however we cannot assure that there is no other statutory/regulatory requirement which we are required to comply with. Further, some of these approvals are granted for fixed periods of time and need renewal from time to time. We are required to renew such permits, licenses and approvals. There can be no assurance that the relevant authorities will issue any of such permits or approvals in time or at all. Failure by us to renew, maintain or obtain the required permits or approvals in time may result in the interruption of our operations and may have a material adverse effect on our business, financial condition and results of operations.

Our Company has applied for a change in its name and registered address in its Professional Tax Enrolment Certificate ("PTEC") as on June 23, 2025, and for an address change with the Employees' Provident Fund Organisation ("EPFO") through a letter dated July 29, 2024. Further, the Company was earlier holding a Tax Deduction and Collection Account Number (TAN) bearing No. MUMV04192G in its previous name and registered office address. Pursuant to the change in registered office address, the jurisdiction of the TAN shifted to a different Regional Computer Centre (RCC). Consequently, the Company applied for and was allotted a fresh TAN on May 6, 2025. As a result, two TANs are presently active in the records of the Income Tax Department. The Company is in the process of surrendering previous TAN bearing No. MUMV04192G. In addition, the Company is yet to apply for the Final Certificate of Stability for its Factory Unit II. We are also in the process of updating our name in certain government approvals that are still registered under the previous name. For details regarding pending approvals, please refer to section titled "**Government and Other Approvals**" beginning on page 245 of the Draft Red Herring Prospectus. There can be no assurance that the relevant authorities will issue or renew these approvals or licenses in a timely manner, or at all. In the event of any unanticipated delay in receipt of such approvals, the proposed capacity expansion plan may extend and any such delay could have an adverse impact on our growth, prospects, cash flows and financial condition.

The approvals required by our Company are subject to numerous conditions and there can be no assurance that these would not be suspended or revoked in the event of non-compliance or alleged non-compliance with any terms or conditions thereof, or pursuant to any regulatory action. If there is any failure by us to comply with the applicable regulations or if the regulations governing our business are amended, we may incur increased costs, be subject to penalties, have our approvals and permits revoked or suffer a disruption in our operations, any of which could adversely affect our business.

20. Our Company had negative cash flows in the past, details of which are given below. Sustained negative cash flow could impact our growth and business. We have experienced negative cash flows in the past which have been set out below:

We have experienced negative cash flows in the past which have been set out below:

(Amount in ₹ Lakhs)

Particulars	For the financial year ended		
	F.Y. 2024-25	F.Y. 2023-24	F.Y. 2022-23
Net Cash flow from Operating Activities	689.48	343.95	631.65
Net Cash flow from Investing Activities	(164.02)	(202.55)	(371.52)
Net Cash flow from Financing Activities	(106.17)	(237.53)	(265.53)

Cash flow of a company is a key indicator to show the extent of cash generated from operations. If we are not able to generate sufficient cash flows in future, it may adversely affect our business and financial operations.

For further details of the cash flows of the company, kindly refer section titled **“Restated Financial Statements”** beginning on Page 175 of this Draft Red Herring Prospectus.

21. Our proposed new manufacturing facility may not achieve the expected capacity utilization, breakeven, or profitability, and market demand for our products may not absorb the additional supply, which may adversely affect our business, financial condition, results of operations, and cash flows

There can be no assurance that our proposed new manufacturing facility, even if completed within the scheduled timelines and estimated costs, will achieve the projected levels of production, efficiency, or capacity utilization. The commencement of operations at the new facility may be subject to longer stabilization periods, initial operational challenges, higher-than-anticipated operating costs, or suboptimal performance of the installed machinery. These factors may delay achievement of breakeven or profitability.

Further, the commercial success of the facility will depend on adequate and sustained demand for our products. If the additional capacity created is not absorbed by the market, or if we are unable to secure customers at the anticipated volumes and pricing due to competitive pressures, industry dynamics, or other factors, we may not generate the expected revenues and returns from this facility.

In such circumstances, our overall profitability may be diluted, and the capital invested in the new facility may not yield the anticipated benefits. Any inability to achieve breakeven, profitability, or optimal utilization at the new unit, or to secure sufficient market demand for the additional supply, may materially and adversely affect our business, financial condition, results of operations, and cash flows.

22. Inventories and trade receivables constitute a significant portion of our current assets, and any failure to manage them effectively could adversely affect our business, financial condition, results of operations, and cash flows.

Our business operations depend on our ability to accurately forecast customer demand, manage supply requirements, and maintain optimal levels of inventory. Underestimating demand could result in shortages, affecting timely order fulfillment and customer relationships, whereas overestimating demand may lead to excess inventory, higher holding costs, potential inventory write-offs, and the sale of products at discounted prices, which could adversely affect our gross margins and brand value. Some of our products may also become obsolete due to design changes, and any unsold inventory may not be replaced or may lose value.

Similarly, our results of operations are dependent on prudent management of trade receivables, including assessment of customer creditworthiness and negotiation of suitable payment terms. Any failure to evaluate creditworthiness accurately may lead to delayed collections, bad debts, or write-offs, creating liquidity constraints that could affect our ability to procure raw materials, pay suppliers, or meet other operational expenses on time. Delays or disputes in payment from customers may necessitate additional borrowings, increasing finance costs and adversely impacting profitability.

We actively monitor and track our inventory levels based on forecasted customer demand and maintain a reserve stock to mitigate potential shortages. However, there can be no assurance that these measures will prevent the occurrence of excess inventory or product shortages. Any such imbalance could materially and adversely affect our business, results of operations, and financial condition.

During Fiscals 2025, 2024, and 2023, our inventories were ₹1,895.12 lakhs, ₹633.75 lakhs, and ₹886.25 lakhs, respectively, and our trade receivables were ₹6,055.31 lakhs, ₹2,618.25 lakhs, and ₹1,806.19 lakhs, respectively. For further details regarding inventories and trade receivables, please refer to the section titled **“Financial Information of the Company”** beginning on page 175 of this Draft Red Herring Prospectus.

23. *Certain Offices of the company operates from a premise taken by us on lease basis. If we are unable to comply with the terms of the lease deed, the same may adversely affect our Company's ability to operate its current operations thus affecting its financial performance.*

We carry out assembling of our Low-Voltage ("LV") and Medium-Voltage ("MV") electrical panels and automation systems from Factory Unit-2, which is taken on lease. In the event of termination or non-renewal of the lease agreements, we may be required to vacate the premises, which could disrupt our manufacturing and inventory management processes, impede effective operations, and adversely impact our business. Our Factory Unit-II at Pune, located at Plot No. 12, 13, 14, 16 16A 16B 16C, 17, 18/11/01 Pune City, Telco Road, Bhosari, Pimpri Chinchwad, Pune-411026-Maharashtra, India has been obtained on a lease basis. There can be no assurance that we will be able to renew the lease in the future on the same or similar terms, or that we will be able to secure suitable alternative premises on commercially favorable terms, or at all.

Failure to renew such agreements, or renewals at higher rentals, may increase our operating expenses and adversely affect our financial performance. Further, since Low-Voltage ("LV") and Medium-Voltage ("MV") electrical panels and automation systems assembly is dependent on Factory Unit-2, any disruption arising from termination, non-renewal, or relocation could result in production delays, order fulfillment challenges, and interruptions to operations, which may materially and adversely impact our business, financial condition, results of operations, and growth prospects.

24. *Our leased premises at Navi Mumbai, which are not being used as our factory or as an active place of business, are subject to litigation and non-compliance with lease conditions, which may expose us to legal and financial risks.*

Our premises located at Plot No. A-163, TTC Industrial Area, M.I.D.C, Khairane, Navi Mumbai – 400710, Maharashtra, India (the "Premises"), are not currently being utilised as a factory or as an active place of business. The Premises have been partly licensed to Unazo Global Private Limited (ground floor) and partly to Esjaypee Mercantile Global Private Limited (first, second and third floors). The Premises are currently the subject of an eviction suit pending before the Civil Court, Senior Division, Belapur. In the event of an adverse decision, we may be required to vacate the Premises, which may expose us to claims for damages or contractual breaches from the licensees.

Further, under the Lease Deed dated May 19, 1998 executed with Maharashtra Industrial Development Corporation ("MIDC"), we are prohibited from transferring, assigning, underletting or parting with possession of the Premises or any part thereof without MIDC's prior written consent. While permission was obtained in respect of licensing to Unazo Global Private Limited, no such prior permission was obtained in respect of licensing to Esjaypee Mercantile Global Private Limited. Non-compliance with the conditions of the Lease Deed may result in termination of the lease by MIDC, which may adversely affect our rights over the Premises.

Additionally, the Leave and License Agreement entered into with Esjaypee Mercantile Global Private Limited has not been registered as required under the Registration Act, 1908. Such non-registration may subject us to penalties under applicable law and may adversely impact enforceability of our contractual rights against the licensee.

Although the Premises are not being used for our business operations, adverse developments relating to the litigation, non-compliance with lease conditions or non-registration of agreements may expose us to financial liabilities, reputational risks and loss of rights over the Premises.

25. *Any slowdown, disruption, or adverse developments in the steel and aluminum industry may impact the availability, cost, and quality of CRCA and GI sheets, which could adversely affect our business, financial condition, results of operations, and prospects.*

We use Cold Rolled Close Annealed (CRCA) sheets and Galvanized Iron (GI) sheets and switchgears as key raw materials in the manufacture of our Low-Voltage (LV) and Medium-Voltage (MV) electrical panels and automation systems. Our dependence on these inputs makes the availability, quality and price stability of such steel products critical to our operations.

The steel and aluminum industries are cyclical in nature and are influenced by a variety of factors, including volatility in global commodity markets, demand-supply imbalances, capacity constraints, regulatory changes, environmental compliance requirements, trade restrictions, transportation bottlenecks and geopolitical developments. Any slowdown, disruption, or adverse developments in these industries could adversely affect the cost and availability of CRCA and GI sheets. Prices of steel products are inherently volatile, and significant increases in the cost of CRCA or GI sheets without a corresponding ability to pass such increases on to customers could adversely impact our operating margins. Further, deterioration in quality, delays in supply or shortages of these inputs may disrupt our production schedules, leading to delays in fulfilling customer orders and adversely affecting our reputation.

Although we procure CRCA and GI sheets from multiple suppliers, we do not have long-term fixed-price supply contracts with them. As a result, we remain exposed to risks of sudden price escalations, supply shortages, or changes in supplier terms. Any inability to secure timely and cost-effective supply of CRCA and GI sheets could materially and adversely affect our manufacturing operations, business, financial condition, results of operations and prospects.

26. We operate in a labour-intensive industry and are subject to stringent labour laws, and any strike, work stoppage, or increased wage demand by our employees or disputes with our workforce could adversely affect our business, financial condition, results of operations, and cash flows.

Our manufacturing operations, including fabrication, busbar processing, assembly, wiring, powder coating, and testing of Low-Voltage (“LV”) and Medium-Voltage (“MV”) electrical panels and automation systems, are labour-intensive. We depend significantly on both direct employees and contract labour for our shop-floor activities. If we or our contractors are unable to negotiate favourable terms with the workforce, we may face work stoppages, strikes, or disruptions in operations, or incur increased operating costs on account of higher wages or benefits. Any shortage of labour or difficulty in retaining workers may also adversely affect our production and delivery schedules.

While we have not experienced any strike or work stoppage in the past, there can be no assurance that such events will not occur in the future. In addition, stoppages or slowdowns experienced by our customers or key suppliers may impact our operations, particularly if their delays affect the timely supply of raw materials, components, or acceptance of finished products.

Further, we are subject to stringent labour laws that regulate employment conditions, worker safety, dispute resolution, and retrenchment. These laws impose financial and procedural obligations on employers, and if labour laws become more stringent, it may become more difficult for us to maintain flexible human resource policies or downsize workforce when required. Any of the above factors could materially and adversely affect our business, financial condition, results of operations, cash flows, and prospects.

27. Our ability to effectively utilize our installed manufacturing capacities is subject to various factors, and the disclosed capacity and utilization levels are based on management estimates and assumptions that may differ from actual performance.

The capacity utilization of our manufacturing facilities depends on several factors, including uninterrupted operations, demand for our Low-Voltage (“LV”) and Medium-Voltage (“MV”) electrical panels and automation systems, timely availability of raw materials and skilled labour, customer procurement practices, seasonal demand trends, and overall market conditions. Any inability to achieve optimal utilization of our installed capacities could materially and adversely impact our business, growth prospects, and financial performance.

For Fiscals 2025, 2024, and 2023, our unit-wise overall capacity utilization is set out below:

Machine Name	Unit of Measurement	2022-23	2023-24	2024-25
Navi Mumbai & Pune Unit				
Installed Capacity				
LV Modules Manufactured	Unit	5,000	5,000	7,150
MV Modules Manufactured	Unit	250	300	350
Total		5,250	5,300	7,500
Actual Production				
LV Modules Manufactured	Unit	2,277	3,223	4,910
MV Modules Manufactured	Unit	157	259	282
Total		2,434	3,482	5,192
% Utilisation		46.40%	65.70%	69.23%

Note: Installed capacity has been considered on a per annum basis, assuming a single operating shift of 8 hours per day. The information relating to installed capacities is based on the certificate received from Mr. Karan Rajendra Mody, Chartered Engineer, AKV Consulting LLP, dated September 17, 2025.

Further, the information relating to installed capacities and historical utilization disclosed in this Draft Red Herring Prospectus is based on management estimates and assumptions, including with respect to the availability and quality of raw materials, product mix, operational efficiencies, and proposed levels of operations. In certain instances, such data has also been subject to rounding off. Although certain information has been certified by Mr. Karan Rajendra Mody, Chartered Engineer, AKV Consulting LLP, actual utilization rates achieved by us may differ significantly from the estimated installed capacities or historical utilization levels due to factors beyond our control, such as demand fluctuations, supply chain disruptions, labour availability, and operational constraints.

Accordingly, undue reliance should not be placed on the installed capacity or historical utilization information disclosed in this Draft Red Herring Prospectus. Any sustained inability to optimally utilize our installed capacities could adversely affect our business, financial condition, results of operations, and growth prospects.

28. *If we are unable to manage our growth effectively and further expand into new markets our business, future financial performance and results of operations could be materially and adversely affected.*

The success of our business will depend on our ability to effectively implement our business and growth strategies. As part of our growth strategy, we aim to strengthen our product portfolio of Low-Voltage (“LV”) and Medium-Voltage (“MV”) electrical panels and automation systems, focus on cost efficiencies, maintain consistently high quality standards, attract and retain skilled employees, and expand into new geographies and customer segments.

As we pursue growth and enter newer markets, we may face several challenges, including:

- acquiring new customers and expanding our customer base;
- identifying customer requirements and preferences in different markets;
- obtaining approvals, certifications and meeting regulatory standards for our products in such jurisdictions;
- accurately estimating and allocating the resources required for expansion;
- preserving a uniform organizational culture, values, and work environment across multiple locations;
- strengthening our internal administrative, operational, financial, communication and internal control systems;
- recruiting, training, and retaining qualified management, technical and marketing personnel;
- ensuring high levels of customer satisfaction across different markets; and
- maintaining adherence to performance, safety, and quality standards expected in our industry.

Further, execution of our growth strategy will require significant capital investment and cash outlays, which may materially impact our cash flows and results of operations. Our operating expenses and working capital requirements may increase substantially as we expand our operations. Effective management of growth will require us to accurately forecast sales, manufacturing capacity, and financial requirements, as well as to strengthen our management controls and reporting systems.

If we are unable to successfully implement our business strategies, manage our growth effectively, expand into new markets, or secure the required funding on favorable terms or at all, it could materially and adversely affect our business, financial condition, cash flows, and results of operations.

29. *Any failure to protect or enforce our rights to own or use trademarks and brand names and identities could have an adverse effect on our business and competitive position.*

Our Company has applied for trademark registration in relation to our Company. The application made by our Company for registration of trademark  under Class 9 and Class 35 of the Trademark Act has been Applied via dated August 04, 2025 and their last status was formalities chk pass. Further, the application has also been made by our Company for registration

of trademark  under Class 9 and Class 35 of the Trademark Act has been Applied via dated April 10, 2025 and their last status was formalities chk pass. We cannot assure you that these trademark applications will proceed to registration or that they will not be opposed by third parties. In the absence of such registrations, our ability to initiate infringement actions against unauthorized use by third parties may be limited, which could dilute our brand value and adversely impact our business. For further details on our intellectual property, see the chapters titled “***Our Business – Intellectual Property***” and “***Government and Other Statutory Approvals***” on page 122 and 245, respectively, of this Draft Red Herring Prospectus.

Our brand and trademarks form an integral part of our identity and are important in differentiating our Low-Voltage (“LV”) and Medium-Voltage (“MV”) electrical panels and automation systems from those of competitors. If we are unable to maintain and protect our brand identity, we may lose our competitive advantage, which could negatively affect our ability to attract customers and retain market share, thereby impacting our financial performance and profitability.

Although we take precautions to avoid infringing third-party intellectual property rights, there can be no assurance that we are not infringing, or will not in the future infringe, any existing intellectual property rights. Any claim of infringement against us could result in costly litigation, divert management’s time and resources, subject us to significant liabilities, require us to enter into royalty or licensing arrangements on unfavorable terms, or force us to modify or discontinue certain offerings.

Further, the legal framework in India relating to intellectual property rights is still evolving, and the outcome of proceedings is often uncertain. Our efforts to protect our intellectual property may not be adequate and could lead to erosion of our brand value. Any

inability to secure trademark registrations, prevent infringement, or defend against intellectual property claims could materially and adversely affect our business, financial condition, results of operations and prospects.

30. The performance, safety, and reliability of our Low-Voltage (“LV”) and Medium-Voltage (“MV”) electrical panels and automation systems depend significantly on proper installation and commissioning, which in most cases are carried out by third parties.

A majority of our products are installed and commissioned by customers, contractors, or other third-party service providers, either under our supervision or independently, over whom we have limited or no control. Improper installation practices—such as incorrect wiring, faulty integration with existing systems, or non-adherence to technical specifications may impair the functioning of our products, create safety hazards, or reduce operational efficiency. Such failures could lead to customer complaints, warranty claims, reputational harm, or liability exposure, even when our products are free of defects.

In certain projects where we undertake or supervise installation and commissioning, we are subject to risks such as shortage of skilled manpower, project delays, cost overruns, on-site accidents, or allegations of defective workmanship. These risks may result in additional costs, contractual penalties, disputes, or potential regulatory liabilities.

Accordingly, any improper or delayed installation and commissioning whether due to actions of third parties, under our supervision, or by us could materially and adversely affect our business, financial condition, results of operations, and prospects.

31. Any Penalty or demand raised by statutory authorities in future will affect our financial position of the Company.

Our business operations are subject to the provisions of taxation laws, including Goods and Services Tax and Income Tax, as well as labour laws such as contributions towards Provident Fund and Employee State Insurance. Any delay or default in compliance with these requirements, or any demand, penalty, or interest levied by the relevant authorities, may result in additional financial burden and adversely impact our financial position. In the past, there have been instances of delay in statutory filings and payments, including GST returns and employee-related contributions, for which late fees and penalties were paid. We cannot assure you that we will not face similar instances in the future, and any such non-compliance may materially and adversely affect our business, financial condition, results of operations and prospects.

32. The Statutory Auditor of the Company in its report has given emphasis on certain matter.

The Statutory Auditor, in his independent audit reports for the financial years ended March 31, 2019, March 31, 2020, March 31, 2021, March 31, 2022 and March 31, 2023, included an emphasis of matter paragraph stating that the Company had not complied with the provisions of Sections 185 and 186 of the Companies Act, 2013, in respect of loans, investments, guarantees and security.

However, as on the date of this Draft Red Herring Prospectus, the Company has complied with the provisions of Sections 185 and 186 of the Companies Act, 2013, in respect of loans, investments, guarantees and security.

33. Our Company may not be successful in penetrating new export markets, and we are also exposed to foreign exchange fluctuation risks.

Expansion into new export markets subjects us to various challenges, including lack of familiarity with the culture and economic conditions of such regions, language barriers, difficulties in staffing and managing operations, and absence of an established reputation. In addition, risks involved in entering new geographic markets and expanding operations may be higher than anticipated, and we may face significant competition. By expanding into new geographical regions, we could also be subject to additional risks such as compliance with diverse laws and regulations, exposure to government actions, and political, economic, or social instability.

Although our business is primarily domestic, we have undertaken minimal exports and may explore further opportunities in international markets. Consequently, we are exposed to foreign exchange fluctuation risks, albeit to a limited extent. Any depreciation of the Indian Rupee against foreign currencies could reduce the competitiveness of our products or adversely affect realizations from export sales, while appreciation of the Rupee may impact margins. Since we do not currently follow a formal hedging policy, adverse currency movements could affect our financial performance and results of operations, especially if our export operations increase in the future.

34. Our contingent liabilities and commitments as stated in our Restated Financial Statements could affect our financial condition.

Our contingent liabilities as stated in our Restated Financial Statements could affect our financial condition. Our contingent liabilities as on March 31, 2025 is Rs. 1,475.92 lakhs. For further details of the contingent liabilities and commitments of our Company as on March 31, 2025, see “*Restated Financial Statements*” on page 175 of this Draft Red Herring Prospectus. If a

significant portion of these liabilities materialize, fully or partly, it could have an effect on our results of operations and financial condition. Further, there can be no assurance that we will not incur similar or increased levels of contingent liabilities in the future.

35. Our Business is Subject to Seasonality, with a Significant Portion of Revenues Typically Earned in the Second Half of Each Fiscal Year, Which May Result in Volatility in Our Results of Operations and Cash Flows

Our revenues have historically exhibited a seasonal pattern, with a larger proportion of revenues typically recognized in the second half of each fiscal year. This seasonality arises from factors such as the procurement and execution cycles of our customers, year-end budget utilizations, and the timing of deliveries and installations in the electrical panel and automation systems industry. As a result, financial performance in the first half of a fiscal year may not be indicative of the results for the full year.

The contribution of revenues from operations in the first and second halves of the last three fiscal years is as follows:

Half Year	2024-25	%	2023-24	%	2022-23	%
H1 (First Half Year)	5399.80	34.8%	4243.77	47.8%	2623.22	44.2%
H2 (Second Half Year)	10096.54	65.2%	4641.29	52.2%	3308.23	55.8%
Total	15496.34	100.00	8885.07	100.00	5931.45	100.00

If we are unable, for any reason, to complete a substantial portion of anticipated deliveries in the second half of a fiscal year, due to delays in customer approvals, disruptions in the availability of raw materials, or postponements by clients—our business, financial condition, and results of operations may be materially and adversely affected. Further, this seasonal pattern in revenue recognition results in significant variations in our working capital requirements between the first and second halves of a fiscal year, particularly in the second half, which could place pressure on our liquidity and financing arrangements.

36. We are dependent on third-party transportation providers for delivery of our raw materials and finished products, and any disruption or increase in related costs may adversely affect our business, financial condition, results of operations and prospects.

We do not maintain an in-house transportation facility and rely on third-party service providers for the movement of raw materials to our facilities and the delivery of finished products to customers. Any disruption in these services, including due to strikes, shortages of transport operators, delays or unavailability of vehicles, could adversely affect our supply chain and timely fulfillment of customer orders.

Transportation costs in India have been steadily rising, and any further increase in fuel prices, freight rates or export tariffs may increase our operating expenses. If we are unable to pass on such increased costs to customers, our margins may be adversely impacted. Freight expenses (inward and outward) represented 3.71%, 3.99% and 3.88% of our total revenue from operations during Fiscals 2025, 2024 and 2023, respectively, highlighting our sensitivity to changes in transportation costs.

Further, India's infrastructure constraints, including underdeveloped road networks, traffic congestion, inadequate logistics support and disruptions in public utilities, could also impair timely receipt of raw materials and dispatch of finished products. Any significant increase in transportation costs or unavailability of reliable transportation services could disrupt our operations and have a material adverse effect on our business, financial condition, results of operations and prospects.

37. Activities involving our manufacturing process can cause injury to people or property in certain circumstances. A significant disruption at any of our manufacturing facility may adversely affect our production schedules, costs, sales and ability to meet customer demand.

Although we employ safety procedures in the operation of our manufacturing facilities and maintain what we believe to be adequate insurance, our business involves inherent risks associated with the assembly, wiring, busbar fabrication, and high-voltage testing of Low-Voltage ("LV") and Medium-Voltage ("MV") electrical panels and automation system. There is a risk that accidents such as electrical shocks, short circuits, arc flashes, or fires may occur, which could result in personal injury to employees, damage to property or equipment, environmental hazards, disruption of operations, or suspension of manufacturing activities. Such incidents may also lead to litigation, penalties, or regulatory action, the outcome and costs of which are difficult to quantify and may be significant. In addition to workplace accidents, factors such as equipment failure, natural disasters, power outages, labour disputes, terrorism, or other unforeseen events could also disrupt our manufacturing activities, delay committed delivery schedules, and adversely impact our ability to meet customer demand. While we have not experienced any major interruption in the past, any future disruption may increase costs, reduce sales, necessitate substantial capital expenditure to restore operations, and negatively affect our profitability, financial condition, results of operations, and cash flows.

38. *We operate in a competitive business environment with relatively low entry barriers, and our inability to compete effectively or adapt to technological changes may materially and adversely affect our business, results of operations, financial condition and cash flows.*

The Low-Voltage (“LV”) and Medium-Voltage (“MV”) electrical panels and automation systems manufacturing industry in India is highly competitive, with the presence of both organized and unorganized players. Entry barriers are relatively low, enabling smaller workshops and new entrants to compete with established manufacturers. In addition, larger domestic players and, to a lesser extent, international manufacturers have greater financial resources, wider product portfolios, established customer relationships, and stronger distribution networks, enabling them to respond more quickly to market developments.

Competition in this sector is also increasingly influenced by technological developments such as digital switchgear, intelligent panel systems, advanced automation, and integration with IoT/Industry 4.0 platforms. If we are unable to upgrade our manufacturing capabilities or product offerings in line with such changes in a timely and cost-effective manner, our products may become less competitive or obsolete. This could result in loss of customers, pricing pressures, reduced margins, and erosion of market share.

Further, certain customers may also choose to engage contract manufacturers or in-house fabrication teams for their Low-Voltage (“LV”) and Medium-Voltage (“MV”) electrical panels and automation systems requirements at lower cost, which could reduce demand for our products. There can be no assurance that we will be able to compete successfully against existing or future competitors, or that competitive and technological pressures will not adversely affect our business, financial condition, results of operations, and growth prospects.

39. *Our operations are subject to risks inherent in our business, and our insurance coverage may not adequately protect us against all potential losses.*

Our operations are subject to risks such as accidents, fire, earthquakes, floods, other force majeure events, acts of terrorism, and explosions, which may cause injury or loss of life, or result in damage to property, plant and machinery, equipment, and the environment. We maintain certain insurance policies, including coverage for building, plant and machinery, stock, furniture, employee compensation, keyman health, public liability, and vehicles. However, these insurance policies may not be adequate to cover all risks or losses that we may encounter in the course of our operations. For details of insurance policies, see “**Our Business**” on page 122 of this Draft Red Herring Prospectus.

Further, we have not obtained group health insurance policy for our employees, Machinery Breakdown Insurance or property insurance for our property situated at Plot No. A-163, TTC Industrial Area, M.I.D.C, Khairane, Navi Mumbai – 400710, Maharashtra, India. There can be no assurance that our existing insurance coverage will be sufficient to cover all potential losses, that such insurance will be available to us in the future on commercially reasonable terms, or that insurers will not dispute or reject claims made by us. In the event we suffer a significant uninsured loss, or if any claim made by us is rejected or exceeds the amount of coverage, our business, financial condition, and results of operations could be materially and adversely affected.

40. *Our profitability and business operations are significantly dependent on our ability to anticipate industry trends and customer requirements, and any failure to do so may adversely affect our business, financial condition, results of operations, cash flows, and reputation.*

Our profitability and success depend on our ability to ensure continued demand for our Low-Voltage (“LV”) and Medium-Voltage (“MV”) electrical panels and automation systems in existing and proposed markets, which requires us to anticipate and respond to customer requirements and preferences in a timely manner. If we fail to anticipate customer requirements or are unable to modify our existing product portfolio or develop new products promptly, we may lose customers and market share.

While we are committed to product innovation to address evolving technology and industry requirements, there can be no assurance that we will be successful in developing new products that meet such changes or that these products will gain acceptance in existing or new markets. The development and introduction of new or enhanced offerings involves significant time and resource commitments and is subject to risks, including ensuring timely deployment of new products, adapting to emerging industry standards and technological developments by competitors, and operating effectively with the technologies, systems, or applications of existing and prospective clients.

Furthermore, the emergence of alternative technologies or a fundamental shift in key market technologies could adversely impact our business. Failure to accurately anticipate trends and adapt to the evolving technological environment may lead to reduced demand for our products, which could materially and adversely affect our revenue, reputation, financial condition, results of operations, and cash flows.

41. Our Company will not receive any proceeds from the Offer for Sale portion, and the Selling Shareholder shall be entitled to the Offer Proceeds to the extent of the Equity Shares offered by the Selling Shareholder in the Offer for Sale.

The Offer consists of a Fresh Issue and Offer for Sale, where, offer for Sale will be made by the Selling Shareholder. The entire proceeds of the Offer for Sale will be transferred to the Selling Shareholder and will not result in any creation of value for us or in respect of your investment in our Company. The entire proceeds from the Offer for Sale will be paid to the Selling Shareholder, and our Company will not receive any proceeds from the Offer for Sale. For further details, see “**Objects of the Offer**” on page 87 of this Draft Red Herring Prospectus.

42. Our historical performance is not indicative of our future growth or financial results and we may not be able to sustain our historical growth rates.

Our revenue from operations increased from ₹5,932.56 lakhs in FY 2022-23 to ₹8,890.83 lakhs in FY 2023-24 and ₹15,529.32 lakhs in FY 2024-25. Sustaining this growth will require significant investments, including in assets, and will put pressure on our ability to effectively manage and mitigate both historical and emerging risks. The expansion of our business, along with the increasing scope and complexity of our operations, may strain our internal control framework and processes, potentially resulting in delays, increased costs, and compromises in product and service quality. We may not be able to effectively manage this growth or achieve the desired profitability within the expected timeframe or at all.

In the Low-Voltage ("LV") and Medium-Voltage ("MV") electrical panels and automation systems manufacturing industry, we operate competition from both organized and unorganized players from various regions in India. These competitors offer products similar to ours, potentially gaining a competitive edge in aspects such as pricing, durability, product quality, user experience, operational efficiency, timely delivery, and reliability. Keeping pace with the ever-changing technology landscape in the industry is crucial, and our ability to adapt will significantly impact our competitive standing.

Additionally, several of our strategic initiatives are currently in their nascent stages. While initial success is a possibility, the long-term success of these initiatives is not guaranteed. The inherent uncertainties in the early stages of strategic endeavours necessitate a cautious approach, and we cannot assure sustained success without potential challenges and adjustments along the way. We remain vigilant and adaptable, ready to navigate the evolving landscape and optimize our strategies for long-term success.

43. Our Group Company had incurred losses and any operating losses in the future could adversely affect the results of operations and financial conditions of our group company.

Our Group Company i.e. Vivid Infrasonolutions Private Limited., incorporated in December 3, 2012, had incurred loss in F.Y 2021-22, F.Y 2022-23, and F.Y. 2023-24 for an amount of Rs. 9.69 Lakhs, 5.13 lakhs and Rs. 1.72 Lakhs, respectively. Any operating losses could adversely affect the overall operations of the group and financial conditions and also divert the attention of the management and promoter towards the group company which could have an adverse effect on our operations and financials. For more information, regarding the Company, please refer chapter titled “**Our Group Companies**” beginning on page 253 of this Draft Red Herring Prospectus.

44. We are subject to restrictive covenants under our credit facilities that limit our operational flexibility.

The loan agreements entered into by us with bank contain specific covenants which require us to obtain the prior approval/permission from the bank on the occurrence of certain events such as formulation of any scheme of amalgamation or reconstruction, undertaking of any new project or expansion, making any substantial change in our management set up, any change in our capital structure resulting in reduction of capital, etc. We are required to obtain consent/ approval from our lender before undertaking any such steps which have been mentioned in the loan agreements. There can be no assurance that we will be able to comply with the financial covenants under our financing arrangements. In the event we breach any financial or other covenants contained in any of our financing arrangements, we may be required under the terms of such financing arrangements to immediately repay our borrowings either in whole or in part, together with any related costs. This may adversely impact our results of operations and cash flows. For further details on the Cash Credit Limits and other banking facilities, please see “**Statement of Financial Indebtedness**” on page 223 of this Draft Red Herring Prospectus.

45. We have incurred indebtedness which exposes us to various risks which may have an effect on our business and results of operations.

Our ability to borrow and the terms of our borrowings will depend on our financial condition, the stability of our cash flows, general market conditions, economic and political conditions in the markets where we operate and our capacity to service debt. As on March 31, 2025, our total outstanding indebtedness was Rs. 423.11 lakhs. Further, company availed additional borrowings after March 31, 2025 which includes term loan facility from ICICI bank.

Our significant indebtedness in future may result in substantial amount of debt service obligations which could lead to:

1. increasing our vulnerability to general adverse economic, industry and competitive conditions;
2. limiting our flexibility in planning for, or reacting to, changes in our business and the industry;
3. affecting our credit rating;
4. limiting our ability to borrow more money both now and in the future; and
5. increasing our interest expenditure and adversely affecting our profitability.

For further details regarding our indebtedness, see “*Statement of Financial Indebtedness*” on page 223 of this Draft Red Herring Prospectus.

46. Compliance with and changes in safety, health and environmental laws and regulations may adversely affect our business, prospects, financial condition and results of operations.

Due to the nature of our business, we expect to be or continue to be subject to extensive and increasingly stringent environmental, health and safety laws and regulations and various labour, workplace and related law and regulations. We are also subject to environmental laws and regulations, including but not limited to:

- Environment (Protection) Act, 1986
- Air (Prevention and Control of Pollution) Act, 1981
- Water (Prevention and Control of Pollution) Act, 1974
- Hazardous Waste Management & Handling Rules, 2008
- Other regulations promulgated by the Ministry of Environment and Forests and the Pollution Control Boards of the state of Maharashtra

which govern the discharge, emission, storage, handling and disposal of a variety of substances that may be used in or result from the operations of our business. The scope and extent of new environmental regulations, including their effect on our operations, cannot be predicted and hence the costs and management time required to comply with these requirements could be significant. Amendments to such statutes may impose additional provisions to be followed by our Company and accordingly the Company needs to incur clean-up and remediation costs, as well as damages, payment of fines or other penalties, closure of production facilities for non-compliance, other liabilities and related litigation, could adversely affect our business, prospects, financial condition and results of operations

47. Our business is dependent on key industries, and any downturn in these sectors may adversely affect our operations and financial performance.

We cater to industries such as Data Centre & Technology, Infrastructure, Metro Projects, Construction & Real Estate, Solar & Renewable Energy, Industrial Manufacturing. The demand for our products is closely linked to the growth, investment cycles, and regulatory environment of these sectors. Any slowdown, delay in project execution, or reduction in capital expenditure in these areas could adversely affect our order inflows, revenues, and profitability. Factors such as economic slowdowns, changes in government policies, delays in infrastructure projects, supply chain disruptions, and fluctuations in raw material prices may further impact demand for our products. In addition, technological advancements, shifts in customer preferences, or evolving industry standards and sustainability requirements may necessitate product modifications or investments in new technologies. Failure to adapt to such changes, or a downturn in the sectors we serve, could materially and adversely affect our business, financial condition, and growth prospects.

48. We are dependent on our Board, Promoters, key managerial personnel and senior management, and the loss of, or our inability to attract or retain, such persons could affect our business, results of operations, financial condition and cash flows.

Our performance depends largely on the efforts and abilities of our board, promoters, key managerial personnel and senior management. They have gained experience in this line of business and have over the years built relations with suppliers, third party service providers, customers, regulators and other persons who are connected with us and have been actively involved in the day to day operations and management, further we believe that the inputs and experience of our promoters and senior management, in particular, are valuable for product development and manufacturing activities, successful delivery of products and our overall business operations and the strategic directions taken by our Company. For details in relation to the experience of our Key Management Personnel, see “*Our Management*” on page 156 of this Draft Red Herring Prospectus. We cannot assure you that these individuals or any other member of our senior management team will not leave us or join a competitor or that we will be able to retain such personnel or find adequate replacements in a timely manner, or at all. We may require a long period of time to hire and train replacement personnel when qualified personnel terminate their employment with our Company. We may also be required to increase our levels of employee compensation more rapidly than in the past to remain competitive in attracting employees that our business requires. The loss of the services of such persons may have an effect on our business, results of operations, financial

condition and cash flows.

49. *Our business is exposed to risks arising from employee misconduct, fraud, theft, negligence, or damage to our inventory and assets, which may be difficult to detect and could adversely affect our operations, financial performance, and reputation.*

Our business depends on the integrity, competence, and conduct of our employees and third-party vendors. Instances of misconduct, such as non-compliance with internal controls, breach of regulations, negligence in handling client or supplier relationships, operational errors, or fraudulent practices, could expose us to regulatory sanctions, contractual liabilities, customer dissatisfaction, and reputational harm. In addition, our operations are subject to risks of theft, vendor-related malpractice, and security lapses, which may lead to the loss of raw materials, finished goods, inventory, or other assets. Physical risks such as fire, breakage, or other forms of damage to inventory or assets may also disrupt our supply chain, increase costs, and adversely affect our ability to fulfil customer commitments.

Although we maintain certain insurance coverage, there can be no assurance that such coverage will be adequate to recover potential losses or that claims, if any, will be settled in a timely manner. While we have not experienced any such major instances in the past, we cannot assure you that they will not occur in the future. Any such incident of employee misconduct, fraud, theft, negligence, or asset damage could increase operating costs, reduce profitability, and materially and adversely affect our business, financial condition, results of operations, and goodwill.

50. *We may not be successful in implementing our business strategies.*

The success of our business depends substantially on our ability to effectively implement our business strategies, including expanding our product portfolio, enhancing manufacturing capacity, maintaining cost efficiency, and strengthening our customer base across sectors such as Data Centre & Technology, Infrastructure, Metro Projects, Construction & Real Estate, Solar & Renewable Energy, Industrial Manufacturing. While we have successfully executed our business strategies in the past, there can be no assurance that we will be able to continue implementing them in a timely manner, within the estimated budget, or in line with the expectations of our customers. Our strategies may also be affected by factors beyond our control, such as delays in procurement of critical raw materials and components, changes in technical standards applicable to Low-Voltage ("LV") and Medium-Voltage ("MV") panels and automation system, regulatory requirements, or shifts in customer demand. Failure to effectively implement our business strategies may adversely affect our growth prospects, business operations, financial condition, and results of operations.

51. *Loans availed by Our Company has been secured on personal guarantees of our Director. Our business, financial condition, results of operations, cash flows and prospects may be adversely affected in case of invocation of any personal guarantees provided by our Directors.*

Our Promoters, Sameer Vishvanath Attavar and Meeta Sameer Attavar has provided personal guarantee to secure a significant portion of our existing borrowings taken from the banks and may continue to provide such guarantees and other security post listing. In case of a default under our loan agreements, any of the personal guarantees provided by the aforesaid may be invoked which could negatively impact their reputation and net worth. Also, we may face certain impediments in taking decisions in relation to our Company, which in turn would result in a material adverse effect on our financial condition, business, results of operations and prospects and would negatively impact our reputation. We may also not be successful in procuring alternate guarantees/ alternate security satisfactory to the lenders, as a result may need to repay outstanding amounts under such facilities or seek additional sources of capital, which could affect our financial condition and cash flows. For further details regarding loans availed by our Company, please refer "*Statement of Financial Indebtedness*" on page 223 of this Draft Red Herring Prospectus.

52. *Excessive dependence on ICICI Bank Limited and Kotak Mahindra Bank Limited in respect of Loan facilities obtained by our Company.*

Our company has been sanctioned Overdraft and term loan facility by Kotak Mahindra Bank Limited and ICICI Bank Limited. The Company is dependent on such facilities and any default under such arrangement with such lender may create problem for operation of the Company, which may affect the financial stability of the Company. At the same time this may result into difficulty in arranging for funds for re-payment and may also adversely affect the financial position of the Company.

53. *Our lenders have charge over properties in respect of finance availed by us.*

We have secured our lenders by creating a charge over our movable properties of the company along with immovable properties of our directors, in respect of Overdraft limit and term loan availed by us from ICICI Bank Limited and Kotak Mahindra Bank Limited. We have been extended such loan against hypothecation of our Company's current assets and immovable assets of directors. For further information on the financing and loan agreements along with the total amounts outstanding and the details of the repayment schedule, please refer to chapter "*Statement of Financial Indebtedness*" beginning on page 223 of this Draft Red Herring Prospectus.

54. *We have not identified any alternate source of funding and hence any failure or delay on our part to mobilize the required resources or any shortfall in the Offer proceeds may delay the implementation schedule.*

The proposed fund requirement as detailed in the section titled “**Objects of the Offer**” is to be funded from the proceeds of this Issue. We have not identified any alternate source of funding and hence any failure or delay on our part to mobilize the required resources or any shortfall in the Offer proceeds may delay the implementation schedule. We therefore, cannot assure that we would be able to execute our future plans/strategy within the given timeframe. For details, please refer to the Chapter titled “**Objects of the Offer**” beginning on page 87 of this Draft Red Herring Prospectus.

55. *Adverse publicity regarding our products could negatively impact us.*

Adverse publicity regarding any of our products or similar products marketed or sold by others could negatively affect us. If any studies raise or substantiate concerns regarding the efficacy or safety of our products or other concerns, our reputation could be harmed and demand for our products could diminish, which could have a material adverse effect on growth in new customers and sales of our product, leading to a decline in revenues, cash collections, and ultimately our ability to meet operating cash flow requirements.

56. *Fraud, theft, or damage to our inventory and assets could materially and adversely affect our results of operations and financial condition.*

Our operations are exposed to risks of fraud, theft, vendor-related malpractice, employee negligence, and other security lapses, which may lead to loss of inventory, raw materials, finished goods, or other assets. Additionally, incidents such as fire, breakage, or other forms of physical damage may cause disruptions in our supply chain and increase our costs. While we have not experienced any such incidents in the past, there can be no assurance that they will not occur in the future. Further, while we maintain insurance coverage for certain risks, there is no assurance that such coverage will be adequate to recover losses or that claims will be settled in a timely manner. Any such incidents could result in increased operating costs, reduced profitability, and adversely affect our financial condition and results of operations.

57. *We have in the past entered into related party transactions and may continue to do so in the future. There can be no assurance that such transactions, individually or in the aggregate, will not have an adverse effect on our Company’s financial condition and results of operations.*

Our Company has entered into various transactions with our directors, promoters and group companies. These transactions, inter-alia includes purchases, sales, loans and advances etc. For details, please refer to “**Note 30- Related Party Transactions**” under Section titled “**Financial Information of the Company**” and Chapter titled “**Capital Structure**” beginning on page 213 and 71 respectively of this Draft Red Herring Prospectus. Our Company has entered into such transactions due to easy proximity and quick execution. Although all related-party transactions that we may enter into in the future are subject to approval by our Audit Committee, Board or shareholders, as required under the Companies Act, we cannot assure you that such future transactions or any other future transactions, individually or in aggregate, will not have an adverse effect on our financial condition and results of operations or that we could not have achieved more favorable terms if such transactions are not entered into with related parties.

Furthermore, it is likely that we may enter into related party transactions in the future. Any future transactions with our related parties could potentially involve conflicts of interest. Accordingly, there can be no assurance that such transactions, individually or in the aggregate, will not have a material adverse effect on our business, financial condition, cash flows, results of operations and prospects.

58. *If we fail to maintain an effective system of internal controls, our ability to manage operations and accurately report our financial results may be adversely affected.*

As a manufacturer of Low-Voltage ("LV") and Medium-Voltage ("MV") electrical panels and automation systems, our business involves procurement of raw materials, design and engineering, manufacturing, quality control, inventory management, and delivery of products, all of which require a robust system of internal controls to ensure efficiency, accuracy, and compliance. Effective internal controls are critical to preparing reliable financial reports, safeguarding assets, and preventing and detecting frauds, errors, or misuse of funds.

There can be no assurance that deficiencies in our internal controls may not arise in the future, or that we will be able to identify and rectify such deficiencies in a timely manner. Any weakness in internal controls, delayed identification of risks, or inability to implement corrective measures may result in financial misstatements, operational inefficiencies, regulatory non-compliance, or reputational harm. Such instances may adversely affect our business operations, cash flows, financial condition, and results of operations.

59. Our ability to pay any dividends will depend upon future earnings, financial condition, cash flows, working capital requirements and capital expenditures.

We may retain all our future earnings, if any, for use in the operations and expansion of our business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors and will depend on factors that our Board of Directors deem relevant, including among others, our results of operations, financial condition, cash requirements, business prospects and any other financing arrangements. Accordingly, realization of a gain on shareholders investments may largely depend upon the appreciation of the price of our Equity Shares. There can be no assurance that our Equity Shares will appreciate in value. For details of our Dividend history refer to the Section “**Dividend Policy**” on page 174 of the Draft Red Herring Prospectus.

60. Any future issuance or sale of Equity Shares by our Company or significant shareholders may dilute your shareholding and adversely affect the trading price of our Equity Shares.

We may, in the future, issue additional Equity Shares, convertible securities, or other instruments linked to Equity Shares to meet our capital requirements, pursue growth opportunities, or for other general corporate purposes. Any such issuance of securities may dilute your shareholding in our Company and could adversely affect the trading price of our Equity Shares. Further, any perception by investors that such issuances or sales might occur may also negatively impact the market price of our Equity Shares. In addition, the disposal, pledge, or encumbrance of Equity Shares by any of our significant shareholders, or the perception that such transactions may take place, could adversely affect the trading price of our Equity Shares. There can be no assurance that we will not issue further Equity Shares in the future or that such shareholders will not dispose of, pledge, or encumber their shareholding, which may materially affect your investment in our Company.

61. Certain data mentioned in this Draft Red Herring Prospectus has not been independently verified.

We have not independently verified data from industry publications contained herein and although we believe these sources to be reliable, we cannot assure that they are complete or reliable. Such data may also be produced on a different basis from comparable information compiled with regard to other countries. Therefore, discussions of matters relating to India and its economy are subject to the limitation that the statistical and other data upon which such discussions are based have not been verified by us and may be incomplete or unreliable.

62. The average cost of acquisition of Equity Shares by our Promoters, is lower than the face value of Equity Share.

The average cost of acquisition of Equity Shares of our Promoter i.e., Sameer Vishvanath Attavar and Meeta Sameer Attavar are lower than the face value of Equity Shares i.e., Rs. 10/-. For further details regarding the average cost of acquisition of Equity Shares by our Promoters in our Company and build-up of Equity Shares of our Promoters in our Company, please see Chapter titled “**Capital Structure**” beginning on page 71 of this Draft Red Herring Prospectus

63. Our Promoters and the Promoter Group will jointly continue to retain majority shareholding in our Company post offer, which will allow them to determine the outcome of the matters requiring the approval of shareholders.

Our promoters along with the promoter group will continue to hold collectively [●]% of the post offer equity share capital of the company. As a result of the same they will be able to exercise significant influence over the control of the outcome of the matter that requires approval of the majority shareholder’s vote. Such a concentration of the ownership may also have the effect of delaying, preventing or deterring any change in the control of our company. In addition to the above, our promoters will continue to have the ability to take actions that are not in, or may conflict with our interest or the interest of some or all of our minority shareholders, and there is no assurance that such action will not have any adverse effect on our future financials or results of operations.

64. The Offer price of our Equity Shares may not be indicative of the market price of our Equity Shares after the Offer and the market price of our Equity Shares may decline below the Offer price and you may not be able to sell your Equity Shares at or above the Offer Price.

The Offer price of the equity shares has been based on many factors and may not be indicative of the market price of our Equity Shares after the Offer. For further information please refer the section titled “**Basis for Offer Price**” beginning on page 99 of the Draft Red Herring Prospectus. The market price of our Equity Shares could be subject to significant fluctuations after the Offer, and may decline below the Offer Price. We cannot assure you that you will be able to sell your Equity Shares at or above the Offer Price.

65. Industry information included in this Draft Red Herring Prospectus has been derived from industry sources. There can be no assurance that such third-party statistical, financial and other industry information is complete, reliable or accurate.

This Draft Red Herring Prospectus includes information on Industry in which we operate from various sources. For further details, please see **“Industry Overview”** beginning on page 110. The data has been furnished by independent agency on their websites and has no relationship with our Company, its Promoters, Directors, or the Book Running Lead Manager as on the date of this Draft Red Herring Prospectus. The data used in these sources may have been reclassified by us for the purposes of presentation and may also not be comparable. Industry sources and publications generally state that the information contained therein has been obtained from sources generally believed to be reliable, but that their accuracy, completeness and underlying assumptions are not guaranteed and their reliability cannot be assured. Industry sources and publications are also prepared based on information as of specific dates and may no longer be current or reflect current trends. Industry sources and publications may also base their information on estimates, projections, forecasts and assumptions that may prove to be incorrect. Accordingly, investors must rely on their independent examination of, and should not place undue reliance on, or base their investment decision solely on this information. The recipient should not construe any of the contents in this report as advice relating to business, financial, legal, taxation or investment matters and are advised to consult their own business, financial, legal, taxation, and other advisors concerning the transaction.

66. We have issued Equity Shares in the last 12 months at a price lower than the Offer Price.

In the preceding 12 months, we have issued and allotted 35,01,900 Equity Shares as bonus shares at a price which is lower than the Offer Price. Accordingly, investors who were allotted such Equity Shares have enjoyed a lower cost of acquisition compared to investors subscribing in the Offer. For details relating to such allotment, including the list of allottees and date of allotment, please refer to the section titled **“Capital Structure”** on page 71 of this Draft Red Herring Prospectus.

67. Significant differences exist between Indian GAAP and other accounting principles, such as Ind AS, IFRS and U.S. GAAP, which may be material to investors’ assessments of our financial condition, result of operations and cash flows.

Our restated summary statements of assets and liabilities, restated summary statements of profit and loss and cash flows for the Fiscals 2025, 2024 and 2023 have been prepared in accordance with the Indian GAAP. We have not attempted to quantify the impact of US GAAP, IFRS or any other system of accounting principles on the financial data included in this Draft Red Herring Prospectus, nor do we provide a reconciliation of our financial statements to those of US GAAP, IFRS or any other accounting principles. Ind AS, US GAAP and IFRS differ in significant respects from Indian GAAP. Accordingly, the degree to which the Restated Financial Information included in this Draft Red Herring Prospectus will provide meaningful information is entirely dependent on the reader’s level of familiarity with Ind AS, Indian GAAP and the SEBI ICDR Regulations. Any reliance by persons not familiar with Indian accounting practices on the financial disclosures presented in this Draft Red Herring Prospectus should accordingly be limited.

68. There is no guarantee that the Equity Shares issued pursuant to the Offer will be listed on the SME Platform of NSE (NSE Emerge) in a timely manner or at all.

In accordance with Indian law and practice, permission for listing and trading of the Equity Shares issued pursuant to the Offer will not be granted until after the Equity Shares have been issued and allotted. Approval for listing and trading will require all relevant documents authorizing the issuance of Equity Shares to be submitted. There could be a failure or delay in listing the Equity Shares on the SME Platform of NSE. Any failure or delay in obtaining the approval would restrict your ability to dispose of your Equity Shares.

69. The Objects of the Offer for which funds are being raised have not been appraised by any bank or financial institution. Any variation between the estimation and actual expenditure as estimated by the management could result in execution delays or influence our profitability adversely.

The fund requirement and deployment, as mentioned in the **“Objects of the Offer”** on page 87 of this Draft Red Herring Prospectus is based on the estimates of our management and has not been appraised by any bank or financial institution or any other independent agency. These fund requirements are based on our current business plan. We cannot assure that the current business plan will be implemented in its entirety or at all. In view of the highly competitive and dynamic nature of our business, we may have to revise our business plan from time to time and consequently these fund requirements. The deployment of the funds as stated under chapter **“Objects of the Offer”** is at the discretion of our Board of Directors and will be subject to monitoring by an external independent agency appointed for the purpose. Further, we cannot assure that the actual costs or schedule of implementation as stated under chapter **“Objects of the Offer”** will not vary from the estimated costs or schedule of implementation. Any such variance may be on account of one or more factors, some of which may be beyond our control. Occurrence of any such event may delay our business plans and/or may have an adverse bearing on our expected revenues and earnings.

70. We may be subject to surveillance measures, such as the Additional Surveillance Measures (ASM) and the Graded Surveillance Measures (GSM) by the Stock Exchanges which may adversely affect trading price of our Equity Shares.

SEBI and Stock Exchanges in order to enhance market integrity and safeguard interest of investors, have been introducing various

enhanced pre-emptive surveillance measures. The main objective of these measures is to alert and advice investors to be extra cautious while dealing in these securities and advice market participants to carry out necessary due diligence while dealing in these securities. Accordingly, SEBI and Stock Exchanges have provided for (a) GSM on securities where such trading price of such securities does not commensurate with financial health and fundamentals such as earnings, book value, fixed assets, net-worth, price per equity multiple and market capitalization; and (b) ASM on securities with surveillance concerns based on objective parameters such as price and volume variation and volatility. On listing, we may be subject to general market conditions which may include significant price and volume fluctuations. The price of our Equity Shares may also fluctuate after the offer due to several factors such as volatility in the Indian and global securities market, our profitability and performance, performance of our competitors, changes in the estimates of our performance or any other political or economic factor. The occurrence of any of the abovementioned factors may trigger the parameters identified by SEBI and the Stock Exchanges for placing securities under the GSM or ASM framework such as net worth and net fixed assets of securities, high low variation in securities, client concentration and close to close price variation. In the event our Equity Shares are subject to such pre-emptive surveillance measures implemented by the Stock Exchange, we may be subject to certain additional restrictions in connection with trading of our Equity Shares such as limiting trading frequency (for example, trading either allowed once in a week or a month) or freezing of price on upper side of trading which may have an adverse effect on the market price of our Equity Shares or may in general cause disruptions in the development of an active trading market for our Equity Shares.

71. We may require additional financing in the future, and any equity issuance may lead to dilution of shareholding while debt financing may increase our leverage

Our growth is dependent on having a strong balance sheet to support our activities. In addition to the IPO Proceeds and our internally generated cash flow, we may need other sources of financing to meet our capital needs which may include entering into new debt facilities with lending institutions or raising additional equity in the capital markets. We may need to raise additional capital from time to time, dependent on business conditions. The factors that would require us to raise additional capital could be business growth beyond what the current balance sheet can sustain; additional capital requirements imposed due to changes in regulatory regime or significant depletion in our existing capital base due to unusual operating losses. Any fresh issue of shares or convertible securities would dilute existing holders, and such issuance may not be done at terms and conditions, which are favourable to the then existing shareholders of our Company. If our Company decides to raise additional funds through the incurrence of debt, our interest obligations will increase, and we may be subject to additional covenants, which could further limit our ability to access cash flows from our operations. Such financings could cause our debt to equity ratio to increase or require us to create charges or liens on our assets in favor of lenders. We cannot assure you that we will be able to secure adequate financing in the future on acceptable terms, in time, or at all. Our failure to obtain sufficient financing could result in the delay or abandonment of our expansion plans. Our business and future results of operations may be affected if we are unable to implement our expansion strategy.

Any future issuance of Equity Shares by our Company may dilute shareholding of investors in our Company; and hence affect the trading price of our Company's Equity Shares and its ability to raise capital through an issue of its securities. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of our Company's Equity Shares. Additionally, the disposal, pledge or encumbrance of Equity Shares by any of our Company's major shareholders, or the perception that such transactions may occur may affect the trading price of the Equity Shares. No assurance may be given that our Company will not issue Equity Shares or that such shareholders will not dispose of, pledge or encumber their Equity Shares in the future

72. The Equity Shares have never been publicly traded, and, after the Offer, the Equity Shares may experience price and volume fluctuations, and an active trading market for the Equity Shares may not develop. Further, the price of the Equity Shares may be volatile, and you may be unable to resell the Equity Shares at or above the Offer Price, or at all.

Prior to the Offer, there has been no public market for the Equity Shares, and an active trading market on the Stock Exchanges may not develop or be sustained after the Offer. Listing and quotation do not guarantee that a market for the Equity Shares will develop, or if developed, the liquidity of such market for the Equity Shares. The Offer Price of the Equity Shares is proposed to be determined in accordance with the SEBI ICDR Regulations and may not be indicative of the market price of the Equity Shares at the time of commencement of trading of the Equity Shares or at any time thereafter. The market price of the Equity Shares may be subject to significant fluctuations in response to, among other factors, variations in our operating results of our Company, market conditions specific to the industry we operate in, developments relating to India, volatility in securities markets in jurisdictions other than India, variations in the growth rate of financial indicators, variations in revenue or earnings estimates by research publications, and changes in economic, legal and other regulatory factors.

73. Any of the Bidders are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid.

Pursuant to the SEBI ICDR Regulations, Any of the Bidders are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid. While we are required to complete Allotment, listing and commencement of trading pursuant to the Offer within three (3) Working Days from the Bid/ Offer Closing Date, events affecting

the Bidders' decision to invest in our Equity Shares, including adverse changes in international or national monetary policy, financial, political or economic conditions, our business, results of operations, cash flows and financial condition may arise between the date of submission of the Bid and Allotment, listing and commencement of trading. We may complete the Allotment, listing and commencement of trading of our Equity Shares even if such events occur and such events may limit the Bidders' ability to sell our Equity Shares Allotted pursuant to the Offer or may cause the trading price of our Equity Shares to decline on listing

EXTERNAL RISK FACTORS

74. Financial instability in both Indian and international financial markets could adversely affect our results of operations and financial condition.

The Indian market and the Indian economy are influenced by economic and market conditions in other countries, including conditions in the United States, Europe and certain emerging economies in Asia. Financial turmoil in Asia, Russia and elsewhere in the world in recent years has adversely affected the Indian economy. Any worldwide financial instability may cause increased volatility in the Indian financial markets and, directly or indirectly, adversely affect the Indian economy and financial sector and us. Although economic conditions vary across markets, loss of investor confidence in one emerging economy may cause increased volatility across other economies, including India. Financial instability in other parts of the world could have a global influence and thereby negatively affect the Indian economy. Financial disruptions could materially and adversely affect our business, prospects, financial condition, results of operations and cash flows. Further, economic developments globally can have a significant impact on our principal markets. Concerns related to a trade war between large economies may lead to increased risk aversion and volatility in global capital markets and consequently have an impact on the Indian economy. Recent developments in the ongoing conflict between Russia and Ukraine has resulted in and may continue to result in a period of sustained instability across global financial markets, induce volatility in commodity prices, increase borrowing costs, cause outflow of capital from emerging markets and may lead to overall slowdown in economic activity in India.

75. Global economic, political and social conditions may harm our ability to do business, increase our costs and negatively affect our stock price.

Global economic and political factors that are beyond our control, influence forecasts directly affect performance. These factors include interest rates, rates of economic growth, fiscal and monetary policies of governments, inflation, deflation, foreign exchange fluctuations, consumer credit availability, fluctuations in commodities markets, consumer debt levels, unemployment trends and other matters that influence consumer confidence, spending and tourism. Increasing volatility in financial markets may cause these factors to change with a greater degree of frequency and magnitude, which may negatively affect our stock prices.

76. If certain labour laws become applicable to us, our profitability may be adversely affected.

India has stringent labour legislations that protect the interests of workers, including legislation that sets forth detailed procedures for dispute resolution and employee removal and legislation that imposes certain financial obligations on employers upon retrenchment. Any change or modification in the existing labour laws may affect our flexibility in formulating labour related policies.

77. A slowdown in economic growth in India may adversely affect our business, financial condition, cash flows, results of operations and prospects.

The performance and growth of our business are necessarily dependent on economic conditions prevalent in India, which may be materially and adversely affected by centre or state political instability or regional conflicts, a general rise in interest rates, inflation, and economic slowdown elsewhere in the world or otherwise. There have been periods of slowdown in the economic growth of India. India's economic growth is affected by various factors including domestic consumption and savings, balance of trade movements, namely export demand and movements in key imports (oil and oil products), global economic uncertainty and liquidity crisis, volatility in exchange currency rates and annual rainfall which affects agricultural production. Any continued or future slowdown in the Indian economy or a further increase in inflation could have a material adverse effect on the price of our raw materials and demand for our products and, as a result, on our business and financial results. The Indian financial market and the Indian economy are influenced by economic and market conditions in other countries, particularly in emerging market in Asian countries. Financial turmoil in Asia, Europe, the U.S. and elsewhere in the world in recent years has affected the Indian economy. Although economic conditions are different in each country, investors' reactions to developments in one country can have adverse effects on the securities of companies in other countries, including India. A loss in investor confidence in the financial systems of other emerging markets may cause increased volatility in Indian financial markets and, indirectly, in the Indian economy in general. Any worldwide financial instability, including the financial crisis and fluctuations in the stock markets in China and further deterioration of credit conditions in the U.S. or European markets, could also have a negative impact on the Indian economy. Financial disruptions may occur again and could harm our business and financial results.

78. Changing laws, rules and regulations and legal uncertainties in India, including adverse application of tax laws and regulations, may adversely affect our business and financial performance.

Our business and financial performance could be adversely affected by changes in law or interpretations of existing, or the promulgation of new, laws, rules and regulations in India applicable to us and our business. For further details please refer to the chapter “**Government and Other Statutory Approvals**” on page 245 for details of the laws currently applicable to us. The governmental and regulatory bodies in India and other jurisdictions where we operate may notify new regulations and/or policies, which may require us to obtain approvals and licenses from the government and other regulatory bodies, or impose onerous requirements and conditions on our operations, in addition to those which we are undertaking currently. Any such changes and the related uncertainties with respect to the implementation of new regulations may have a material adverse effect on our business, financial condition, results of operations and cash flows. In addition, unfavourable changes in or interpretations of existing, or the promulgation of new, laws, rules and regulations including foreign investment laws governing our business, operations and investments in our Company by non-residents, could result in us being deemed to be in contravention of such laws and/or may require us to apply for additional approvals. Tax and other levies imposed by the central and state governments in India that affect our tax liability include central and state taxes and other levies, income tax, turnover tax, goods and services tax, stamp duty and other special taxes and surcharges which are introduced on a temporary or permanent basis from time to time. The final determination of our tax liabilities involves the interpretation of local tax laws and related regulations in each jurisdiction as well as the significant use of estimates and assumptions regarding the scope of future operations and results achieved and the timing and nature of income earned and expenditures incurred. We are involved in various disputes with tax authorities. For details of these disputes, see “**Outstanding Litigation and Material Developments**” on page 234. Moreover, any change in Indian tax laws could have an effect on our operations. Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may impact the viability of our current business or restrict our ability to grow our business in the future.

79. Instability in financial markets could materially and adversely affect our results of operations and financial condition. The Indian economy and financial markets are significantly influenced by worldwide economic, financial and market conditions.

Any financial turmoil, especially in the United States of America or Europe, may have a negative impact on the Indian economy. Although economic conditions differ in each country, investors’ reactions to any significant developments in one country can have adverse effects on the financial and market conditions in other countries. A loss in investor confidence in the financial systems, particularly in other emerging markets, may cause increased volatility in Indian financial markets. The global financial turmoil, an outcome of the sub-prime mortgage crisis which originated in the United States of America, led to a loss of investor confidence in worldwide financial markets. Indian financial markets have also experienced the contagion effect of the global financial turmoil, evident from the sharp decline in SENSEX, BSE’s benchmark index. Any prolonged financial crisis may have an adverse impact on the Indian economy and us, thereby resulting in a material and adverse effect on our business, operations, financial condition, profitability and price of our Equity Shares.

80. An outbreak of other infectious or virulent diseases, if uncontrolled, may have an adverse effect on our operations.

An outbreak of any infectious or virulent diseases, such as severe acute respiratory syndrome, the COVID-19 virus, the H1N1 virus, avian influenza (bird flu), the Zika virus or the Ebola virus, if uncontrolled, may have a material adverse effect on the economies of certain countries and our operations. If any of our employees or the employees of our suppliers and/or customers are infected with such diseases or if a significant portion of our workforce refuses to work for fear of contracting an infectious disease, our Company, our suppliers and/or our customers may be required to shut down operations for a period of time, and this could adversely affect our business, results of operations and financial condition.

81. Natural calamities could have a negative impact on the Indian economy and cause Our Company’s business to suffer.

India has experienced natural calamities such as earthquakes, tsunamis, floods etc. In recent years, the extent and severity of these natural disasters determine their impact on the Indian economy. Prolonged spells of abnormal rainfall or other natural calamities could have a negative impact on the Indian economy, which could adversely affect our business, prospects, financial condition and results of operations as well as the price of the Equity Shares.

82. Government regulation of foreign ownership of Indian securities may have an adverse effect on the price of the Equity Shares. Foreign ownership of Indian securities is subject to government regulation.

Under foreign exchange regulations currently in affect in India, transfer of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally,

shareholders who seek to convert the rupees proceeds from the sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the Income Tax authorities. There can be no assurance that any approval required from the RBI or any other government agency can be obtained.

83. *Our performance is linked to the stability of policies and the political situation in India.*

The Government of India has traditionally exercised, and continues to exercise, a significant influence over many aspects of the economy. Our business, and the market price and liquidity of our Equity Shares, may be affected by interest rates, changes in government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. Any political instability in India may adversely affect the Indian securities markets in general, which could also adversely affect the trading price of our Equity Shares. Any political instability could delay the reform of the Indian economy and could have a material adverse effect on the market for our Equity Shares. There can be no assurance to the investors that these liberalization policies will continue under the newly elected government. Protests against privatization could slow down the pace of liberalization and deregulation. The rate of economic liberalization could change, and specific laws and policies affecting companies in the ESDM sectors, foreign investment, currency exchange rates and other matters affecting investment in our securities could change as well. A significant change in India's economic liberalization and deregulation policies could disrupt business and economic conditions in India and thereby affect our business.

84. *Terrorist attacks, civil unrests and other acts of violence or war involving India or other countries could adversely affect the financial markets, our business, financial condition and the price of our Equity Shares.*

Any major hostilities involving India or other acts of violence, including civil unrest or similar events that are beyond our control, could have a material adverse effect on India's economy and our business. Incidents such as the terrorist attacks in India, other incidents such as those in US, Indonesia, Madrid and London, and other acts of violence may adversely affect the Indian stock markets where our Equity Shares will trade as well the global equity markets generally. Such acts could negatively impact business sentiment as well as trade between countries, which could adversely affect our Company's business and profitability. Additionally, such events could have a material adverse effect on the market for securities of Indian companies, including the Equity Shares.

85. *Any downgrading of India's sovereign rating by an independent agency may harm our ability to raise financing.*

Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing may be available. This could have an adverse effect on our business and future financial performance, our ability to obtain financing for capital expenditures and the trading price of our Equity Shares

86. *The extent and reliability of Indian infrastructure could adversely affect our Company's results of operations and financial condition.*

India's physical infrastructure is in developing phase compared to that of many developed nations. Any congestion or disruption in its port, rail and road networks, electricity grid, communication systems or any other public facility could disrupt our Company normal business activity. Any deterioration of India physical infrastructure would harm the national economy, disrupt the transportation of goods and supplies, and add costs to doing business in India. These problems could interrupt our Company's business operations, which could have an adverse effect on its results of operations and financial condition.

(IST) on the Bid/ Offer Closing Date. Any time mentioned in this Draft Red Herring Prospectus is IST. Bidders are cautioned that, in the event a large number of Bid Cum Application Forms are received on the Bid/Offer Closing Date, as is typically experienced in public Offer, some Bid Cum Application Forms may not get uploaded due to the lack of sufficient time. Such Bid Cum Application Forms that cannot be uploaded will not be considered for allocation under this Offer. Applications will be accepted only on Working Days, i.e., Monday to Friday (excluding any public holidays). Neither our Company nor the Book Running Lead Manager is liable for any failure in uploading the Bid Cum Application Forms due to faults in any software/hardware system or otherwise.

In accordance with SEBI (ICDR) Regulations, Bidders are not allowed to withdraw or lower the size of their Application (in terms of the quantity of the Equity Shares or the Application amount) at any stage.

In case of discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical Bid Cum Application Form, for a particular Bidder, the details as per the file received from Stock Exchange may be taken as the final data for the purpose of Allotment. In case of discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical or electronic Bid Cum Application Form, for a particular ASBA Bidder, the Registrar to the Offer shall ask the relevant SCSBs/ RTAs / DPs / stock brokers, as the case may be, for the rectified data.

- The investors with holdings less than the minimum lot size shall be allowed to offer their holding to the Market Maker(s) (individually or jointly) in that scrip provided that he sells his entire holding in that scrip in one lot along with a declaration to the effect to the selling broker.
- The Market Maker shall not sell in lots less than the minimum contract size allowed for trading on the SME Platform of National Stock Exchange of India Limited (in this case currently the minimum trading lot size is [●] equity shares of face value of ₹10 each; however, the same may be changed by the SME Platform of NSE from time to time).

- After a period of three (3) months from the market making period, the Market Maker would be exempted to provide quote if the Shares of Market Maker in our company reaches to 25% of Offer Size. Any Equity Shares allotted to Market Maker under this Offer over and above 25% of Offer Size would not be taken in to consideration of computing the threshold of 25% of Offer Size. As soon as the Shares of Market Maker in our Company reduces to 24% of Offer Size, the Market Maker will resume providing 2 way quotes.
- There shall be no exemption/threshold on downside. However, in the event the Market Maker exhausts his inventory through market making process, NSE may intimate the same to SEBI after due verification.
- Execution of the order at the quoted price and quantity must be guaranteed by the Market Maker(s), for the quotes given by him.
- There would not be more than five Market Makers for a script at any point of time and the Market Makers may compete with other Market Makers for better quotes to the investors.
- On the first day of the listing, there will be pre-opening session (call auction) and there after the trading will happen as per the equity market hours. The circuits will apply from the first day of the listing on the discovered price during the pre-open call auction.
- The Market maker may also be present in the opening call auction, but there is no obligation on him to do so.
- There will be special circumstances under which the Market Maker may be allowed to withdraw temporarily/fully from the market – for instance due to system problems, any other problems. All controllable reasons require prior approval from the Exchange, while *force-majeure* will be applicable for non-controllable reasons. The decision of the Exchange for deciding controllable and non-controllable reasons would be final.
- The Market Maker(s) shall have the right to terminate said arrangement by giving a six months' notice or on mutually acceptable terms to the Merchant Banker, who shall then be responsible to appoint a replacement Market Maker(s) and execute a fresh arrangement.
- In case of termination of the above-mentioned Market Making agreement prior to the completion of the compulsory Market Making period, it shall be the responsibility of the Book Running Lead Manager to arrange for another Market Maker in replacement during the term of the notice period being served by the Market Maker but prior to the date of releasing the existing Market Maker from its duties in order to ensure compliance with the requirements of regulation 261 of the SEBI (ICDR) Regulations, 2018, as amended. Further our Company and the Book Running Lead Manager reserve the right to appoint other Market Makers either as a replacement of the current Market Maker or as an additional Market Maker subject to the total number of Designated Market Makers does not exceed five or as specified by the relevant laws and regulations applicable at that particulars point of time. The Market Making Agreement is available for inspection at our office from 10.00 a.m. to 5.00 p.m. on working days.
- **Risk containment measures and monitoring for Market Makers:** SME Platform of National Stock Exchange of India Limited ("NSE Emerge") will have all margins which are applicable on the NSE Main Board viz., Mark-to-Market, Value-At Risk (VAR) Margin, Extreme Loss Margin, Special Margins and Base Minimum Capital etc. NSE can impose any other margins as deemed necessary from time-to-time.
- **Punitive Action in case of default by Market Makers:** The Exchange will monitor the obligations on a real time basis and punitive action will be initiated for any exceptions and/or non-compliances. Penalties / fines may be imposed by the Exchange on the Market Maker, in case he is not able to provide the desired liquidity in a particular security as per the specified guidelines. These penalties / fines will be set by the Exchange from time to time. The Exchange will impose a penalty on the Market Maker in case he is not present in the market (offering two-way quotes) for at least 75% of the time. The nature of the penalty will be monetary as well as suspension in market making activities / trading membership. The Department of Surveillance and Supervision of the Exchange would decide and publish the penalties / fines / suspension for any type of misconduct/ manipulation/ other irregularities by the Market Maker from time to time.
- **Price Band and Spreads:** The price band shall be 20% and the market maker spread (difference between the sell and the buy quote) shall be within 10% or as intimated by Exchange from time to time.
- The SEBI Circular bearing reference no: CIR/MRD/DP/ 02/2012 dated January 20, 2012, has laid down that for Offer size up to ₹250 crores, the applicable price bands for the first day shall be:

- i. In case equilibrium price is discovered in the Call Auction, the price band in the normal trading session shall be 5% of the equilibrium price.
- ii. In case equilibrium price is not discovered in the Call Auction, the price band in the normal trading session shall be 5% of the Offer price.

All the above-mentioned conditions and systems regarding the Market Making Arrangement are subject to change based on changes or additional regulations and guidelines from SEBI and Stock Exchange from time to time.

- Pursuant to SEBI Circular number CIR/MRD/DSA/31/2012 dated November 27, 2012, limits on the upper side for market makers during market making process has been made applicable, based on the Offer size and as follows:

Offer Size	Buy quote exemption threshold (including mandatory initial inventory of 5% of the Offer Size)	Re-Entry threshold for buy quote (including mandatory initial inventory of 5% of the Offer Size)
Up to ₹20 Crore	25%	24%
₹20 to ₹50 Crore	20%	19%
₹50 to ₹80 Crore	15%	14%
Above ₹80 Crore	12%	11%

The Market Making arrangement, trading and other related aspects including all those specified above shall be subject to the applicable provisions of law and/or norms issued by SEBI / National Stock Exchange of India Limited from time to time.

OBJECTS OF THE OFFER

The Offer comprises a Fresh Offer of upto 18,84,000 Equity Shares of face value of ₹10/- each aggregating up to ₹[●] lakhs and an Offer for Sale of upto 4,68,000 Equity Shares of face value of ₹10 each aggregating up to ₹[●] lakhs by the Selling Shareholder:

Offer for Sale:

Our Company will not receive any proceeds received from the Offer for Sale by the Selling Shareholder. However, except for the listing fees which shall be solely borne by our Company, all offer expenses will be shared, upon successful completion of the Offer, between our Company and the Selling Shareholder on a pro-rata basis, in proportion to the Equity Shares offered and allotted by our Company in the Fresh Issue and the offered shares sold by the Selling Shareholder in the Offer for Sale. The proceeds of the Offer for Sale, shall be received by the Selling Shareholder to their respective portion of the proceeds from the Offer for Sale in proportion of the Equity Shares offered by the respective Selling Shareholder as part of the Offer for Sale and, will not form part of the Net Proceeds.

Fresh Issue:

Our Company proposes to utilize the Net Proceeds from the Fresh Issue towards funding the following objects:

1. Funding the capital expenditure requirements towards setting up of a new manufacturing unit.
2. Repayment of certain borrowings availed by the Company
3. To meet working capital Requirements of our Company
4. General Corporate Purpose

(Collectively referred as the “Objects”)

The main objects and objects incidental and ancillary to the main objects of our Memorandum of Association enable our Company to undertake (i) existing activities, and (ii) the activities proposed to be funded from the Net Proceeds. We believe that listing will enhance our corporate image and visibility of brand name of our Company. In addition, our Company expects to receive the benefits of listing of Equity Shares on the SME Platform of NSE (“NSE Emerge”) including enhancing our visibility and our brand image among our existing and potential customers and creating a public market for our Equity Shares in India.

Fresh Issue Proceeds

After deducting the Offer-related expenses from the Gross Proceeds, we estimate the net proceeds of the Fresh Issue to be ₹[●] lakhs (“Net Proceeds”). The details of the Net Proceeds of the fresh issue are summarized in the table below:

(₹ in Lakhs)	
Particulars	Amount
Gross Proceeds of the Fresh Issue	[●]
Less: Offer related expenses in relation to Fresh Issue*	[●]
Net Issue Proceeds**	[●]

* Except for the Listing fees, which will be borne by our Company, all other expenses relating to the Offer as mentioned above will be borne by our Company and the Selling Shareholder in proportion to the Equity Shares contributed in the offer.

**To be finalised upon determination of the Offer Price and updated in the Prospectus prior to filing with the RoC.

Requirement of Funds and Utilization of Net Proceeds

The Net Proceeds are proposed to be used in accordance with the details as set forth below:

(₹ in Lakhs)		
S. No.	Particulars	Amount
1.	Funding the capital expenditure requirements towards setting up of a new manufacturing unit.	4,787.95
2.	Repayment of certain borrowings availed by the Company	975.00
3.	To meet working capital requirements of our Company	4,000.00
4.	General Corporate Purpose	[●]
	Total	[●]

*To be finalised upon determination of the Offer Price and updated in the Prospectus prior to filing with the RoC.

Our fund requirements and deployment thereof are based on internal management estimates of our current business plans and have not been appraised by any bank or financial institution. These are based on current conditions and are subject to change in light of changes in external circumstances or costs or in other financial conditions, business strategy, as discussed further below.

Means of Finance

We intend to finance our Objects of Offer through Net Offer Proceeds which is as follows:

		(₹ in Lakhs)
Sr. No	Particulars	Amount
1.	Net Offer Proceeds	[●]
	Total	[●]

Since, the entire fund requirement is to be funded from the proceeds of the Issue, there is no requirement to make firm arrangements of finance under Regulation 230(1)(e) of the SEBI ICDR Regulations through verifiable means towards at least 75% of the stated means of finance, excluding the amounts to be raised through the proposed Issue.

In case of any increase in the actual utilization of funds earmarked for the Objects, such additional funds for a particular activity will be met by way of means available to our Company, including from internal accruals. If the actual utilization towards any of the Objects is lower than the proposed deployment such balance will be used for future growth opportunities including funding existing objects, if required. In case of delays in raising funds from the Issue, our Company may deploy certain amounts towards any of the above-mentioned Objects through a combination of Internal Accruals or Unsecured Loans (Bridge Financing) and in such case the Funds raised shall be utilized towards repayment of such unsecured Loans or recouping of Internal Accruals. However, we confirm that no bridge financing has been availed as on date, which is subject to being repaid from the Offer Proceeds.

As we operate in competitive environment, our Company may have to revise its business plan from time to time and consequently our fund requirements may also change. Our Company's historical expenditure may not be reflective of our future expenditure plans. Our Company may have to revise its estimated costs, fund allocation and fund requirements owing to various factors such as economic and business conditions, increased competition and other external factors which may not be within the control of our management. This may entail rescheduling or revising the planned expenditure and funding requirements, including the expenditure for a particular purpose at the discretion of the Company's management.

For further details on the risks involved in our business plans and executing our business strategies, please see the section titled **"Risk Factors"** beginning on page 29 of this Draft Red Herring Prospectus.

Details of Utilization of Net Proceeds

The details of utilization of the Net Proceeds are set forth herein below:

1. Funding the capital expenditure requirements towards setting up of a new manufacturing unit

Our Company is an ISO 9001:2015 certified manufacturer of low-voltage ("LV") and medium-voltage ("MV") electrical panels and automation systems and has an operational track record of over three decades. We propose to utilize a portion of the Net Proceeds aggregating to approximately ₹4,787.95 lakhs towards capital expenditure for establishing a new manufacturing facility at Village Nahren, Taluka Ambernath, District Thane, Maharashtra. The proposed facility is intended to supplement our existing infrastructure and enable consolidation of operations that are currently carried out across multiple locations. The Board of Directors of our Company, at its meeting held on September 12, 2025 approved an allocation of up to ₹4,787.95 lakhs from the Net Proceeds for this purpose.

The estimated capital expenditure for the proposed facility includes construction of the factory building and administrative block, internal roads, drainage, and other civil works necessary for operational readiness. It also includes procurement and installation of plant and machinery such as PSBB (Punching, Shearing, Buffering, and Bending) line, Powder Coating Plant with Automatic Booth, CNC Busbar Processing Machine, CNC Bending Machine, Prima Power Fab Line, Transformer for Compact Substation (CSS), 500 kVA Diesel Generator Set, UPS for the Fab Line, and Air Compressor, along with support utilities including power supply, lighting, and ventilation systems. The machinery and equipment have been identified based on preliminary technical assessments and indicative quotations from suppliers, and their final selection and installation are subject to further evaluation and approvals. The estimated total cost of the project has not been appraised by any bank, financial institution, or independent agency.

The proposed facility is expected to improving operational efficiency, coordination, and reducing movement between sites. It is also expected to increase production capacity to meet growing demand for Low-Voltage ("LV") and Medium-Voltage ("MV") electrical panels and automation systems, while incorporating new equipment and automation systems to enhance output, maintain product quality, and reduce manual intervention. Overall, upon successful implementation, the facility is expected to strengthen our manufacturing capabilities and improve operational performance.

The implementation of the proposed project is subject to risks including delays in procurement or installation of machinery and civil works, cost overruns due to variations in construction, equipment, or raw material costs, and unforeseen technical, regulatory, or environmental challenges, which may impact the timelines, capital expenditure, and the intended benefits of the project.

6	Factory License, Joint Director Industrial Safety and Health, Maharashtra	Before commercial commissioning of the factory operations

Notes:

- Quotation received from the vendor mentioned above is valid as on the date of this Draft Red Herring Prospectus. However, we have not entered into any definitive agreements with any of the vendor and there can be no assurance that the same vendor would be engaged to eventually supply the Machinery or other works at the same costs. If there is any increase in the costs, the additional costs shall be paid by our Company from its internal accruals see “**Risk Factor– “If there are delays in setting up the Proposed manufacturing unit or if the costs of setting up and the possible time or cost overruns related to the Proposed manufacturing unit or the purchase of plant and machinery for the Proposed manufacturing unit are higher than expected, it could have a material adverse effect on our financial condition, results of operations and growth prospects.”**” on page 29 of this Red Herring Prospectus.
- All costs are based on the present estimates of management. The Management shall have the flexibility to revise such estimates (including but not limited to changes in vendors, changes in machinery, modifications/additions/deletions to property specifications, or decisions related to property, such as acquiring adjacent land, relocating to a different property, expanding existing property, or altering the intended use or structure of the property) at the time of actual placement of the order. In such cases, the Management can utilize any surplus proceeds, if any, arising at the time of actual placement of the order, to meet the cost of such other equipment, utilities, property adjustments, or related requirements as deemed necessary. Furthermore, if any surplus from the proceeds remains after meeting the total cost for the aforesaid purpose, the same will be used for general corporate purposes, as mentioned in the Draft Red Herring Prospectus, shall not exceed 15% of the Gross Proceeds raised by our Company through this Offer or ₹ 1,000 Lakhs whichever is lower.
- Our Company proposes to deploy the entire Net Proceeds towards the Objects. If the Net Proceeds are not utilized (in full or in part) for the Objects of the Offer during the period stated above due to factors such as (i) the timing of completion of the Offer; (ii) market conditions outside the control of our Company; and (iii) any other business and commercial considerations, the

remaining Net Proceeds shall be utilized (in part or full) in subsequent periods as may be determined by our Company, in accordance with applicable laws.

- d) We are not acquiring any second-hand machinery.
- e) The quotations relied upon by us in arriving at the above estimated cost (which including applicable taxes) are valid for a specific period of time and may lapse after the expiry of the said period. Consequent upon which, there could be a possible escalation in the cost of machinery proposed to be acquired by us at the actual time of purchase, resulting in increase in the estimated cost. Further, cost could be escalated on account of freight expenses, installation charges, packaging & forwarding, exchange rate fluctuations, custom duty etc. Such cost escalation would be met out either of surplus portion of net offer proceeds (if any) or our internal accruals.

Other confirmations relating to the proposed expansion:

Our Promoters, Directors and Key Managerial Personnel do not have any interest in the proposed acquisition of the machinery or in the entities from whom we have obtained quotation in relation to such activities. Our Company has confirmed that such entities do not form part of our Promoter Group or Group Company.

The proposed Schedule of Implementation for setting up of a new manufacturing unit is as follows:

Particular	Estimated Month of

Assumptions for working capital requirements:

Provided below are details of the holding levels (days) considered and is derived from the audited financial information for the Financial Years 2023, 2024 and 2025. Further, we have also provided estimates holding levels (days) for Financial Years 2026 and 2027:

Particulars	31.03.2023	31.03.2024	31.03.2025	31.03.2026*	31.03.2027*
Trade Receivable Holding Period (in days)	126	79	98	107	107
Inventory Holding Period (in days)	38	31	30	36	36
Trade Payables Holding Period (in days)	168	146	127	77	80

*Based on the Closing Balance

Verification of Assumption made by Management:

Debtors	The historical holding days of average trade receivables has been ranging from 126 days to 79 days during Fiscal 2023 to Fiscal 2025. As per the current credit terms, the holding level for debtors is anticipated at 107 Days of total revenue from operations during Fiscal 2026 and 2027.
Inventory	The historical holding days of inventories has been ranging from 38 days to 30 days during Fiscal 2023 to Fiscal 2025. The company generally maintain a high level of inventory during the whole year for the increased production and to meet the increased target of sales. Further, considering the expansion plans, we further expect to maintain the inventories of 36 days for the Fiscal year 2026 & 2027.
Creditors	Past trend of average trade payables holding days has been in the range of 168 days to 127 days approximately during Fiscal 2023 to Fiscal 2025. However, with additional working capital funding, our Company intends to reduce average trade payables to 77 days during Fiscal 2026 and to 80 days during Fiscal 2027 to avail cash discount as well as competitive purchase price for the products to increase overall profitability of our Company. By reducing the time, it takes to settle our payables we aim to negotiate more favourable terms and conditions with our suppliers, enabling us to access competitive pricing for the products we purchase.

The above certificate has been issued based on the Audited financials of the Company issued by **M/s YRKDAJ & Co**, Chartered Accountants, dated September 12, 2025.

Working Capital Requirement Justification**FY 2023-24 vs FY 2022-23:**

Revenue from operations increased from ₹5,931.45 lakhs in FY 2022-23 to ₹8,885.07 lakhs in FY 2023-24, representing an increase of 49.9%. This increase in revenue led to higher trade receivables of ₹2,261.52 lakhs in FY 2023-24, compared to ₹1,598.45 lakhs in FY 2022-23, resulting in a corresponding increase in the working capital requirement.

FY 2024-25 vs FY 2023-24:

Revenue from operations increased from ₹8,885.07 lakhs in FY 2023-24 to ₹15,531.82 lakhs in FY 2024-25, representing an increase of 74.7%. Consequently, trade receivables increased to ₹6,055.31 lakhs in FY 2024-25 from ₹2,261.52 lakhs in FY 2023-24. Inventory levels also increased from ₹633.75 lakhs to ₹1,895.12 lakhs during the same period. These factors collectively resulted in an increase in the working capital requirement for FY 2024-25.

FY 2025-26 and FY 2026-27:

The company foresees a rise in working capital needs on account of continuous increase in the revenue from business operations of the company in F.Y. 2025-26 and F.Y. 2026-27. The Inventory levels will also increase to the levels of Rs. 2013.09 lakhs and Rs. 2913.55 lakhs in FY 2025-26 & FY 2026-27 respectively.

The trade receivables of the company are estimated at Rs. 6000.00 Lakhs in FY 2025-26 and Rs. 8700.00 Lakhs in FY 2026-27 which is in commensurate with the revenue from operations of the company in respective years. The estimated trade payables of the company is expecting to decrease to Rs. 3179.21 Lakhs and Rs. 4919.97 Lakhs in F.Y. 2025-26 and FY 2026-27 respectively. The estimated trade payables holding period are estimated at 77 days and 80 days respectively for the F.Y. 2025-26 and F.Y. 2026-27 as compared to 127 days in F.Y. 2024-25 as company aims to improve its creditability in the market with timely payments to its creditors thereby reducing its overall trade payable days. All these combined has resulted in the increase in working capital requirement of the company.

Proposed Schedule of Implementation:

The proposed year wise break up of deployment of funds and Schedule of Implementation of Net Offer Proceeds is as under:

(Amount in ₹ Lakhs)

S. No.	Particulars	F.Y. 2025-26	F.Y. 2026-27
1.	Funding the capital expenditure requirements towards setting up of a new manufacturing unit.	4787.95	-
2.	Repayment of certain borrowings availed by the Company	975.00	-
3.	To Meet working capital Requirements of our Company	2500.00	1500.00
4.	General Corporate Purpose	-	[●]
	Total	[●]	[●]

To the extent our Company is unable to utilize any portion of the Net Proceeds towards the Objects, as per the estimated schedule of deployment specified above, our Company shall deploy the Net Proceeds in the subsequent Financial Years towards the Objects.

Means of finance of the project

Since, the fund requirement is to be funded from the proceeds of the Fresh Issue and existing identifiable internal accruals, and bridge financing, there is no requirement to make firm arrangements of finance under Regulation 230(1)(e) of the SEBI ICDR Regulations through verifiable means towards at least 75% of the stated means of finance. In case of a shortfall in the Proceeds from the Fresh Issue or any increase in the actual utilisation of funds earmarked for the Objects, our Company may explore a range of options including utilizing our internal accruals and/or seeking additional debt from existing and/or other lenders. For further details on the risks involved in our business plans and executing our business strategies, please see the section titled “**Risk Factors**” beginning on page 29 of the Draft Red Herring Prospectus.

Appraisal

None of the Objects have been appraised by any bank or financial institution or any other independent third-party organization. The funding requirements of our Company and the deployment of the proceeds of the Offer are currently based on available quotations and management estimates. The funding requirements of our Company are dependent on a number of factors which may not be in the control of our management, including but not limited to variations in interest rate structures, changes in our financial condition and current commercial conditions of our Business and are subject to change in light of changes in external circumstances or in our financial condition, business or strategy.

Shortfall of Funds

Any shortfall in meeting the fund requirements will be met by way of internal accruals and or unsecured Loans.

Bridge Financing Facilities

As on the date of this Draft Red Herring Prospectus, we have not entered into any bridge finance arrangements that will be repaid from the Net Proceeds. However, in case of delay in the IPO and consequent delay in accessing the net proceeds of the Issue, we may draw down such amounts, as may be required, from an overdraft arrangement / cash credit / term loan facility with our lenders or through unsecured loans to finance setting up of facilities as described in the section ‘**Objects of the Issue**’ until completion of the Issue. Any amount that is drawn down from such facility availed from any Bank/NBFC or Financial Institution or through unsecured loans during this period to finance ‘Objects of the Issue’ will be repaid from the Net Proceeds of the Issue.

Monitoring Utilization of Funds

In accordance with Regulation 262 of the SEBI ICDR Regulations, our Company has appointed [●] as the Monitoring Agency (“Monitoring Agency”) to monitor the utilisation of the Gross Proceeds. Our Company undertakes to place the Gross Proceeds in a separate bank account which shall be monitored by the Monitoring Agency for utilisation of the Gross Proceeds. Our Company undertakes to place the report(s) of the Monitoring Agency on receipt before the Audit Committee without any delay and in accordance with the applicable laws. Our Company will disclose the utilisation of the Gross Proceeds, including interim use under a separate head in its balance sheet for such financial year/periods as required under the SEBI ICDR Regulations, the SEBI Listing Regulations and any other applicable laws or regulations, specifying the purposes for which the Gross Proceeds have been utilised. Our Company will also, in its balance sheet for the applicable financial year, provide details, if any, in relation to all such gross Proceeds that have not been utilised, if any, of such currently unutilized Gross Proceeds.

The reports of the monitoring agency on the utilization of the Gross Proceeds shall indicate the deployment of the Gross Proceeds under the following heads:

1. Funding the capital expenditure requirements towards setting up of a new manufacturing unit.
2. Repayment of certain borrowings availed by the Company
3. To Meet working capital requirements of our Company
4. General Corporate Purpose
5. Public Offer Expenses

Pursuant to Regulation 32(3) of the SEBI Listing Regulations, our Company shall, on a Quarterly basis, disclose to the Audit Committee the uses and applications of the Gross Proceeds. On an annual basis, our Company shall prepare a statement of funds utilised for purposes other than those stated in the Draft Red Herring Prospectus and place it before the Audit Committee and make other disclosures as may be required until such time as the Gross Proceeds remain unutilized. Such disclosure shall be made only until such time that all the Gross Proceeds have been utilized in full. The statutory auditor of our Company will also provide report/certificate on the utilization of the Gross Proceeds to the monitoring agency.

Furthermore, in accordance with Regulation 32(1) of the SEBI Listing Regulations, our Company shall furnish to the Stock Exchanges on a Quarterly basis, a statement indicating (i) deviations, if any, in the actual utilization of the proceeds of the Fresh Issue from the Objects; and (ii) details of category wise variations in the actual utilization of the proceeds of the Fresh Issue from the objects of the Fresh Issue as stated above. This information will also be uploaded on our website i.e. <https://vividgroup.in/>

Interim Use of Proceeds

Pending utilization of the Offer proceeds for the purposes described above, our Company will deposit the Net Proceeds with scheduled commercial banks included in schedule II of the RBI Act.

Our Company confirms that it shall not use the Net Proceeds for buying, trading or otherwise dealing in shares of any listed company or for any investment in the equity markets or investing in any real estate product or real estate linked products.

Variation in Objects

In accordance with Section 27 of the Companies Act, 2013, our Company shall not vary the objects of the Offer without our Company being authorized to do so by the Shareholders by way of a special resolution. In addition, the notice issued to the Shareholders in relation to the passing of such special resolution shall specify the prescribed details as required under the Companies Act and shall be published in accordance with the Companies Act and the rules there under. As per the current provisions of the Companies Act, our Promoters or controlling Shareholders would be required to provide an exit opportunity to such shareholders who do not agree to the proposal to vary the objects, at such price, and in such manner, as may be prescribed by SEBI, in this regard.

Other confirmations

There are no material existing or anticipated transactions with our Promoter, our Directors, our Company’s key Managerial personnel, in relation to the utilization of the Net Proceeds. No part of the Net Proceeds will be paid by us as consideration to our Promoters, our Directors or key managerial personnel except in the normal course of business and in compliance with the applicable laws.

STATEMENT OF SPECIAL TAX BENEFITS

To,

The Board of Directors,
Vivid Electromech Limited
A-173/7, TTC Industrial Area,
MIDC Industrial Area,
Kopar Khairane,
Navi Mumbai - 400 710.

Dear Sirs/ Madam,

Sub: Statement of Special Tax Benefits ('The Statement') available to Vivid Electromech Limited ('The Company') and its shareholders under the Direct and Indirect Tax Laws in India

We hereby report that the enclosed annexure prepared by the management of **Vivid Electromech Limited**, states the special tax benefits available to the Company and the shareholders of the Company under the Income-Tax Act, 1961, the Central Goods and Services Tax Act, 2017, the Integrated Goods and Services Tax Act, 2017, the Union Territory Goods and, respective State Goods and Services Tax Act, 2017 (collectively the "GST Act") presently in force in India. Several of these benefits are dependent on the Company or its shareholders fulfilling the conditions prescribed under the relevant provisions of the Act. Hence, the ability of the Company or its shareholders to derive the tax benefits is dependent upon fulfilling such conditions which, based on business imperatives which the Company may face in the future, the Company may or may not choose to fulfill.

The benefits discussed in the enclosed Annexure cover only special tax benefits available to the Company and do not cover any general tax benefits available to the Company. Further, the preparation of enclosed statement and the contents stated therein is the responsibility of the Company's management. We are informed that; this Statement is only intended to provide general information to the investors and is neither designed nor intended to be a substitute for professional tax advice. In view of the individual nature of the tax consequences and the changing tax laws, each investor is advised to consult his or her own tax consultant with respect to the specific tax implications arising out of their participation in the proposed initial public offering of Equity shares ("**the Issue**") by the Company.

We do not express any opinion or provide any assurance as to whether:

- a) The Company or its shareholders will continue to obtain these benefits in future; or
- b) The conditions prescribed for availing the benefits have been/would be met.

The contents of the enclosed statement are based on information, explanations and representations obtained from the Company and on the basis of our understanding of the business activities and operations of the Company.

Limitations:

Our views are based on facts and assumptions indicated to us and the existing provisions of tax law and its interpretations, which are subject to change or modification from time to time by subsequent legislative, regulatory, administrative, or judicial decisions. Any such changes, which could also be retrospective, could have an effect on the validity of our views stated herein.

We assume no obligation to update this statement on any events subsequent to its issue, which may have a material effect on the discussions herein. This report including enclosed annexure are intended solely for your information and for the inclusion in the Draft Red Herring Prospectus/ Red Herring Prospectus/Prospectus or any other issue related material in connection with the proposed initial public offer of the Company and is not to be used, referred to or distributed for any other purpose without our prior written consent.

This statement has been prepared solely in connection with the Proposed Offer by the Company under the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended.

Yours faithfully,
For YRKDAJ and Associates LLP

ANNEXURE TO THE STATEMENT OF SPECIAL TAX BENEFITS

The information provided below sets out the special tax benefits available to the Company and the Equity Shareholders under the Income Tax Act, 1961 presently in force in India. It is not exhaustive or comprehensive and is not intended to be a substitute for professional advice. Investors are advised to consult their own tax consultant with respect to the tax implications of an investment in Equity Shares particularly in view of the fact that certain recently enacted legislation may not have a direct legal precedent or may have a different interpretation on the benefits, which an investor can avail.

A. SPECIAL DIRECT AND INDIRECT TAX BENEFITS TO THE COMPANY:

- The Company is not entitled to any special tax benefits under the Income Tax Act, 1961 and GST Act.

B. SPECIAL DIRECT AND INDIRECT TAX BENEFITS TO THE SHAREHOLDERS:

- The Shareholders of the Company are not entitled to any special tax benefits under the Income Tax Act, 1961 and GST Act.

NOTES:

1. The above Annexure of special tax benefits sets out the provisions of Tax Laws in a summary manner only and is not a complete analysis or listing of all potential tax consequences of the purchase, ownership and disposal of shares.
2. The above Annexure covers only the special tax benefits under the Act, read with the relevant rules, circulars and notifications and does not cover any benefit under any other law in force in India. This Annexure also does not discuss any tax consequences, in the country outside India, of an investment in the shares of an Indian company.
3. The above Annexure of special tax benefits is as per the current direct tax laws relevant for the assessment year 2025-26. Several of these benefits are dependent on the Company or its shareholders fulfilling the conditions prescribed under the relevant provisions of the Tax Laws.
4. In respect of non-residents, the tax rates and consequent taxation mentioned above will be further subject to any benefits available under the relevant Double Taxation Avoidance Agreement, if any, entered into between India and the country in which the non-resident has fiscal domicile.
5. A new Section 115BAA has been inserted by the Taxation Laws (Amendment) Act, 2019 ('the Amendment Act, 2019') with effect from Financial Year 2019-20 granting an option to domestic companies to compute corporate tax at a reduced rate of 25.168% (22% plus surcharge of 10% and cess of 4%), provided such companies do not avail specified exemptions/ incentives. The option under section 115BAA of the Act once exercised cannot be subsequently withdrawn for any future financial year. The Amendment Act, 2019 further provides that domestic companies availing such option will not be required to pay Minimum Alternate Tax ('MAT') under Section 115JB. The CBDT has further issued Circular 29/2019 dated October 02, 2019 clarifying that since the MAT provisions under Section 115JB itself would not apply where a domestic company exercises option of lower tax rate under Section 115BAA, MAT credit would not be available.

In such a case, the Company is not allowed to claim any of the following deductions/ exemptions under the Act: -

- ✓ Deduction under the provisions of Section 10AA.
- ✓ Deduction under clause (iia) of sub-section (1) of Section 32 (additional depreciation).
- ✓ Deduction under section 32AD or Section 33AB or Section 33ABA
- ✓ Deduction under section 35AD or Section 35CCC
- ✓ Deduction under section 80G

Lower corporate tax rate under Section 115BAA of the Act and Minimum Alternate Tax ('MAT') credit under section 115JAA of the Act which are in general available and hence may not be treated as special tax benefits.

Accordingly, the company has evaluated and decided to exercise the option permitted under section 115BAA of the Act for the purpose of computing its income tax liability for the Financial year 2023-24 and onwards.

6. This Annexure is intended only to provide general information to the investors and is neither designed nor intended to be a substitute for professional tax advice. In view of the individual nature of tax consequences, each investor is advised to consult his or her tax advisor with respect to specific tax consequences of his/her investment in the shares of the Company.

7. For the purpose of reporting here, we have not considered the general tax benefits available to the company or shareholders.
8. The above statement covers only certain relevant direct tax law benefits and indirect tax law benefits or benefit.
9. No assurance is given that the revenue authorities/ courts will concur with the views expressed herein. The views are based on the existing provisions of law and its interpretation, which are subject to changes from time to time. We do not assume responsibility to update the views consequent to such changes. We shall not be liable to any claims, liabilities or expenses relating to this assignment except to the extent of fees relating to this assignment, as finally judicially determined to have resulted primarily from bad faith or intentional misconduct. We will not be liable to any other person in respect of this statement

GLOBAL ECONOMIC OUTLOOK

After a succession of adverse shocks in recent years, the global economy is facing another substantial headwind, with increased trade tension and heightened policy uncertainty. This is contributing to a deterioration in prospects across most of the world’s economies. For emerging market and developing economies (EMDEs), the ability to narrow per capita income gaps with richer countries, boost job creation, and reduce extreme poverty remains insufficient. Downside risks to the outlook predominate, including an escalation of trade barriers, persistent policy uncertainty, rising geopolitical tensions, and an increased incidence of extreme climate events. Conversely, policy uncertainty and trade tensions may ease if major economies succeed in reaching lasting agreements that address ongoing trade disputes. The challenging global context faced by EMDEs is compounded by the fact that foreign direct investment inflows into these economies have fallen to less than half of their peak level in 2008 and are likely to remain subdued. Global cooperation is needed to restore a more stable and transparent global trade environment and scale up support for vulnerable countries grappling with conflict, debt burdens, and climate change. Across EMDEs, domestic policy action is also critical to contain inflation risks, strengthen fiscal resilience through improved revenue mobilization, and reprioritize spending. To unlock job creation and long-term growth, structural reforms must focus on raising institutional quality, attracting private investment, and strengthening human capital and labor markets. In particular, countries in fragile and conflict situations (FCS) face daunting development challenges that will require tailored domestic policy reforms, underpinned by well-coordinated multilateral support.

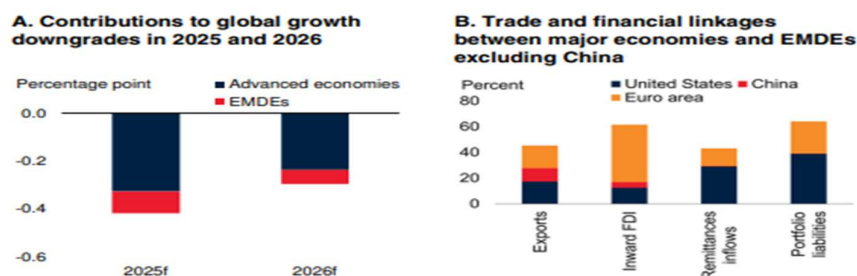

Global growth is slowing due to a substantial rise in trade barriers and the pervasive effects of an uncertain global policy environment. Growth is expected to weaken to 2.3 percent in 2025, with deceleration in most economies relative to last year. This would mark the slowest rate of global growth since 2008, aside from outright global recessions. In 2026-27, a tepid recovery is expected, leaving global output materially below January projections. Progress by emerging market and developing economies (EMDEs) in closing per capita income gaps with advanced economies and reducing extreme poverty is anticipated to remain insufficient. The outlook largely hinges on the evolution of trade policy globally. Growth could turn out to be lower if trade restrictions escalate or if policy uncertainty persists, which could also result in a build-up of financial stress. Other downside risks include weaker-than-expected growth in major economies with adverse global spillovers, worsening conflicts, and extreme weather events. On the upside, uncertainty and trade barriers could diminish if major economies reach lasting agreements that address trade tensions. The ongoing global headwinds underscore the need for determined multilateral policy efforts to foster a more predictable and transparent environment for resolving trade tensions, some of which stem from macroeconomic imbalances. Global policy efforts are also needed to confront the deteriorating circumstances of vulnerable EMDEs amid prevalent conflict and debt distress, while addressing long-standing challenges, including the effects of climate change. National policy makers need to contain risks related to inflation as well as strengthen their fiscal positions by raising additional domestic revenues and reprioritizing spending. To facilitate job creation and boost long-term growth prospects in EMDEs, reforms are essential to enhance institutional quality, stimulate private investment growth, develop human capital, and improve labor market functioning.

After being buffeted by a series of adverse shocks over 2020-24, the global economy is facing another significant headwind this year, with increased trade barriers and heightened policy uncertainty leading to a notable deterioration of the outlook relative to January. In particular, global output is expected to grow at its weakest pace since 2008, aside from outright global recessions. The sharp increase in tariffs and the ensuing uncertainty are contributing to a broad-based growth slowdown and deteriorating prospects in most of the world’s economies. Subdued global growth prospects are unlikely to improve materially without policy actions to address increasing trade restrictions, geopolitical tensions, heightened uncertainty, and limited fiscal space. The global outlook is predicated on tariff rates close to those of late May prevailing throughout the forecast horizon. Accordingly, pauses to previously announced tariff hikes between the United States and its trading partners are assumed to persist. This baseline nonetheless entails

the highest U.S. average effective tariff rate in nearly a century. In addition, in view of recent rapid shifts in trade policies and the potential for a return to even higher tariffs, consumers and businesses continue to grapple with unusually elevated uncertainty. In this context, a prospective recovery in global trade and investment—two important drivers of long-term development that have been relatively subdued in recent years—has been disrupted.

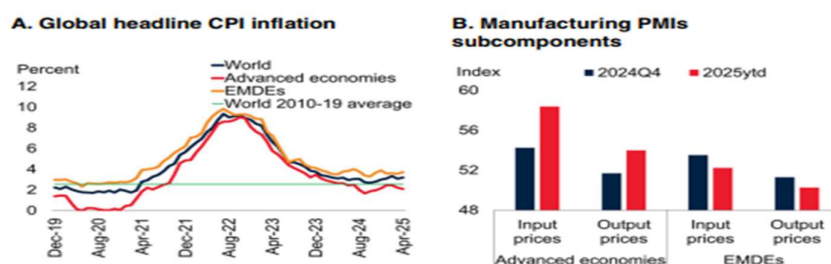

Against this backdrop, global growth is set to slow this year, to 2.3 percent—substantially weaker than previously projected amid the impact of higher trade barriers, elevated uncertainty, increased financial volatility, and weakened confidence. Thereafter, growth is forecast to firm to about 2.5 percent over 2026-27, as trade flows continue adjusting to higher tariffs such that global trade edges up, while policy uncertainty moderates from record-high levels. The downgrade to global growth this year is principally driven by advanced economies. This slowdown is projected to be concentrated on investment, including foreign direct investment (FDI) and portfolio flows—which tend to respond more to demand shifts than aggregate output—and trade, with widespread adverse spillovers to other economies.

Global trade conditions experienced a large shock in early April when the United States announced prospective tariffs on most trading partners, with rates proportional to bilateral goods trade deficits, in addition to previously announced tariffs. A sharp escalation of trade barriers between China and the United States followed. Subsequently, country-specific tariffs were reduced to a universal 10 percent—including in the case of China, with initially prohibitively high tariff rates being rolled back sharply in May. However, other tariff increases remain on China and other large trade partners. As a result, the effective U.S. tariff rate has been brought to levels not seen in almost a century. Tariff rates in effect as of May 27 are assumed to prevail throughout the forecast period, but there is notable uncertainty in this regard. The baseline projections for global trade also incorporate important carve-outs for USMCA-compliant goods, pharmaceuticals, semiconductors, bullion, energy, copper, and other critical minerals, as well as retaliatory measures in place as of late May. Shifting policy announcements have led to heightened global trade policy uncertainty, measures of which reached historical highs over the past few months. This reflects uncertainty over whether current tariff rates will endure, their implementation, and the scale and timing of potential retaliatory responses. New tariff measures mark an intensification of the upward trend in trade-restrictive measures seen in recent years, with a significant risk of further escalation in trade barriers, as announced policies could generate substantial spillovers to third markets. These markets may respond by adopting protectionist measures to shield domestic industries from a surge in imports.

Global headline consumer price inflation has remained elevated above pre-pandemic norms over the past year, briefly edging higher in some advanced economies in early 2025. Continued tightness in labor markets has kept core inflation at a somewhat elevated level in many economies. In EMDEs, monthly headline inflation readings were volatile earlier this year, with a pickup in core inflation partly reflecting rising services prices and wage pressures. The outlook for global inflation has become more uncertain since last year due to a combination of shocks. Most notably, substantial tariff hikes are set to exert upward pressure on consumer inflation in key economies by raising prices for imported consumer goods and inputs into production and redirecting demand toward domestic production that is relatively inelastic in the short run (Barbiero and Stein 2025). Indeed, manufacturing purchasing managers in advanced economies have already reported accelerating input and output prices so far this year. Even so, outside economies where import duties have significantly increased, higher trade barriers are likely to be generally deflationary as they weaken external demand. There may nevertheless be other upside risks to inflation in these economies that are indirectly associated with trade restrictions. These include the potential for damage to global supply chains to push up prices in unpredictable ways, and the possibility of sizable currency depreciations.

Against the backdrop of a more challenging external environment, EMDE growth is forecast to slow significantly in 2025, to 3.8 percent, with only a modest projected pickup in 2026-27. The expected rate of growth is well below prepandemic averages and the pace that is needed to create sufficient jobs to meet working-age population growth and make progress in closing large per capita income gaps with advanced economies. The deterioration in EMDE growth prospects is driven in large part by economies with a high degree of trade and investment openness. In these economies, large manufacturing sectors high global value chain participation, and reliance on global financial markets amplify the negative spillovers from the recent shocks to global trade and confidence and the sharp rises in uncertainty and financial market volatility. However, the softness in the EMDE outlook is anticipated to be broad-based, with growth expected to slow in nearly 60 percent of EMDEs in 2025. More generally, the capacity of many EMDEs to respond to negative shocks has diminished due to sharp pandemic-related increases in debt, elevated poverty rates, and waning official development assistance.

INDIAN ECONOMY OUTLOOK

Introduction

India's economic journey over the past few years has been marked by remarkable growth and a steady rise in its position on the global stage. After overtaking the United Kingdom (UK) to become the fifth largest economy in Q1 FY23, India has continued this upward trajectory to surpass Japan in June 2025 to become the fourth largest economy in the world. With a nominal Gross Domestic Product (GDP) of Rs. 3,31,03,000 crore (US\$ 3.78 trillion), India's growth reflects a combination of strong domestic demand and policy reforms positioning the country as a key destination for global capital.

Further, India is projected to reach a GDP of Rs. 4,26,45,000 crore (US\$ 5 trillion) by 2027 and is on course to surpass Germany by 2028. Rising employment and increasing private consumption, supported by rising consumer sentiment, will support GDP growth in the coming months.

Market size

India's economy shows robust expansion, with real GDP for FY25 estimated at Rs. 1,87,97,000 crore (US\$ 2.20 trillion), from Rs. 1,76,51,000 crore (US\$ 2.06 trillion) in FY24 with a growth rate of 6.5%. This growth is driven by rising employment and stronger private consumption, supported by improving consumer sentiment, which is expected to keep the momentum going in the near future.

Trade remains a critical pillar of India's growth story with exports reaching Rs. 37,31,000 crore (US\$ 436.6 billion) in FY25, led by Engineering Goods (26.88%), Petroleum Products (13.86%) and Electronic Goods (8.89%). These exports helped the economy stay resilient during the pandemic when other sectors slowed. Union Minister of Commerce and Industry, Mr. Piyush Goyal projects exports to reach Rs. 85,44,000 crore (US\$ 1 trillion) by 2030.

India's ability to attract Foreign Direct Investment (FDI) has also strengthened. The country received record FDI inflows amounting to Rs. 4,21,929 crore (US\$ 49.3 billion) in FY25 a 15% increase over FY24, supported by a stable policy environment, a large domestic market and steady economic growth positioning the country as a key destination for global capital. This capital inflow also complements government plans for increased investment in infrastructure and asset-building projects to further boost economic growth.

India's external economic position is improving. The current account deficit narrowed to Rs. 1,98,726 crore (US\$ 23.30 billion), or 0.6% of GDP, in FY25 from Rs. 2,21,754 crore (US\$ 26.00 billion), or 0.7% of GDP, in FY24. This improvement was due to higher net receipts from services and secondary income, according to the Reserve Bank of India (RBI).

Recent Developments

India is primarily a domestic demand-driven economy, with consumption and investments contributing to 70% of the economic activity. With India's economy showing resilient growth, supported by strong domestic demand, policy reforms, and a healthy investment pipeline, several new projects and developments are underway across key sectors. This positive development across key sectors is evident from following key economic data points.

- According to the Department for Promotion of Industry and Internal Trade (DPIIT), India's cumulative FDI inflow stood at Rs. 91,45,988 crore (US\$ 1.07 trillion) between April 2000-March 2025 with major share coming from Mauritius at Rs. 15,36,849 crore (US\$ 180.19 billion) with a total share of 25%, followed by Singapore at 24% with Rs. 14,91,603 crore (US\$ 174.88 billion), the United States (US) at 10% with Rs. 6,02,574 crore (US\$ 70.65 billion), the Netherlands at 7% with Rs. 4,54,613 crore (US\$ 53.3 billion), and Japan at 6% with Rs. 3,78,653 crore (US\$ 44.39 billion).
- As of July 4, 2025, India's foreign exchange reserves stood at Rs. 59,68,048 crore (US\$ 699.74 billion).
- In May 2025, private equity (PE) and venture capital (VC) investments reached Rs. 20,470 crore (US\$ 2.4 billion) across 97 deals.
- Foreign Institutional Investors (FII) outflows in FY25 were close to Rs. 1,27,000 crore (US\$ 14.89 billion), while Domestic Institutional Investors (DII) bought in Rs. 6,00,000 crore (US\$ 70.34 billion) in the same period.
- The HSBC India Manufacturing Purchasing Managers' Index (PMI) rose to a 14-month high of 58.4 in June 2025 from 57.6 in May, indicating a strong improvement in manufacturing conditions. Robust domestic and international demand drove sharp increases in output and new orders, while employment saw a record rise as firms expanded their workforce to meet rising workloads. New export orders surged, marking the third-fastest growth since the survey began in 2005. Although input cost inflation eased, producer prices increased as companies passed on higher freight and labour costs to customers.
- India saw a robust 10.35% growth in passengers carried by domestic airlines at 431.98 lakh in FY25, from 391.46 lakh in FY24, according to the Directorate General of Civil Aviation (DGCA).
- India secured 39th position out of 133 economies in the Global Innovation Index 2024. India rose from 81st position in 2015 to 39th position in 2024. India ranks third position in the global number of scientific publications.
- In FY25, the Goods and Services Tax (GST) recorded its highest-ever gross collection at Rs. 22,08,000 crore (US\$ 258 billion), registering a YoY growth of 9.4%. The average monthly collection stood at Rs. 1,84,000 crore (US\$ 21.57 billion).
- In May 2025, the overall Index of Industrial Production (IIP) stood at 156.6 (base 2011-12 = 100), reflecting a YoY growth of 1.2%. The mining, manufacturing and electricity sectors stood at 136.6, 154.3 and 216, respectively.

- According to data released by the Ministry of Statistics & Programme Implementation (MoSPI), India's Consumer Price Index (CPI) - Combined inflation was 3.34% in March 2025 against 4.85% in March 2024.
- India's wheat procurement for FY26 has reached 29.7 million tonnes as of May 22, 2025, the highest in four years and up 13.5% YoY. Strong production of 115.43 million tonnes, favourable weather, and bonuses above the Minimum Support Price (MSP) in key states have driven this growth. The Food Corporation of India expects procurement to hit 32.5 million tonnes by season end, raising stocks to 44 million tonnes, well above the 18.4 million tonnes needed for the Public Distribution System.

Government Initiatives

Over the years, the Indian government has introduced many initiatives to strengthen the nation's economy. The Indian government has been effective in developing policies and programmes that are not only beneficial for citizens to improve their financial stability but also for the overall growth of the economy. Over recent decades, India's rapid economic growth has led to a substantial increase in its demand for exports. Besides this, several of the government's flagship programmes, including Make in India, Start-up India, Digital India, the Smart City Mission, and the Atal Mission for Rejuvenation and Urban Transformation, is aimed at creating immense opportunities in India. In this regard, some of the initiatives taken by the government to improve the economic condition of the country are mentioned below:

- On July 5, 2025, the Union Cabinet approved the Rs. 1,00,000 crore (US\$ 11.72 billion) Research, Development and Innovation (RDI) Scheme, launching long-term, low- or zero-interest funding via a special purpose fund under the ANRF to jump-start India's R&D ecosystem and support deep-tech and startup innovation.
- On March 27, 2025, the Reserve Bank of India proposed doubling the investment cap for individual foreign investors in listed firms from 5% to 10%, with a combined foreign individual limit increasing to 24%, to counter Foreign Portfolio Investment (FPI) outflows.
- According to a report by Wood Mackenzie in January 2025, India, the US, and West Asia are expected to collectively add 100 Gigawatts (GW) of solar capacity by 2025, while China is anticipated to continue its leadership in the solar industry.
- In July 2024, the Ministry of Finance held the Union Budget and announced that for 2024-25, the total receipts other than borrowings and the total expenditure are estimated at Rs. 32,07,000 crore (US\$ 375 billion) and Rs. 48,21,000 crore (US\$ 564 billion), respectively.
- In February 2024, the Finance Ministry announced the total expenditure in Interim 2024-25 estimated at Rs. 47,65,768 crore (US\$ 571.64 billion) of which total capital expenditure is Rs. 11,11,111 crore (US\$ 133.27 billion).
- On January 22, 2024, Prime Minister Mr. Narendra Modi announced the 'Pradhan Mantri Suryodaya Yojana'. Under this scheme, one crore households will receive rooftop solar installations.
- On September 17, 2023, Prime Minister Mr. Narendra Modi launched the Central Sector Scheme PM-VISHWAKARMA in New Delhi. The new scheme aims to provide recognition and comprehensive support to traditional artisans & craftsmen who work with their hands and basic tools. This initiative is designed to enhance the quality, scale, and reach of their products, as well as to integrate them with Micro, Small and Medium Enterprises (MSME) value chains.
- On August 6, 2023, Amrit Bharat Station Scheme was launched to transform and revitalize 1,309 railway stations across the nation. This scheme envisages development of stations on a continuous basis with a long-term vision.
- On June 28, 2023, the Ministry of Environment, Forests, and Climate Change introduced the 'Draft Carbon Credit Trading Scheme, 2023'.
- From April 1, 2023, Foreign Trade Policy 2023 was unveiled to create an enabling ecosystem to support the philosophy of 'Aatmanirbhar Bharat' and 'Local goes Global'.
- To enhance India's manufacturing capabilities by increasing investment and production in the sector, the government of India has introduced the Production Linked Incentive Scheme (PLI) for Pharmaceuticals.
- Prime Minister's Development Initiative for North-East Region (PM-DevINE) was announced in the Union Budget 2022-23 with a financial outlay of Rs. 1,500 crore (US\$ 182.35 million).
- Prime Minister Mr Narendra Modi has inaugurated a new food security scheme for providing free food grains to Antyodaya Ann Yojna (AAY) & Primary Household (PHH) beneficiaries, called Pradhan Mantri Garib Kalyan Ann Yojana (PMGKAY) from January 1, 2023.

Road Ahead

India's economy grew by 6.5% in FY25. With a 7.4% growth rate in Q4 FY25, with RBI projecting a growth rate of 6.5% in FY26 as well. India's comparatively strong position in the external sector reflects the country's positive outlook for economic growth and rising employment rates. In 2024, India rose to 15th place globally in FDI rankings and retained its position as South Asia's top recipient.

In H1 FY25, India's growth-focused approach was underscored by the government's capital expenditure outlay of Rs. 15,02,000 crore (US\$ 176 billion), reinforcing its commitment to infrastructure-led development.

In the Union Budget of FY26, capital expenditure took lead by steeply increasing the capital expenditure outlay by 10% to Rs. 11,21,000 crore (US\$ 131 billion) over Rs. 10,18,000 crore (US\$ 119 billion) in FY25. Stronger revenue generation because of improved tax compliance, increased profitability of the company, and increasing economic activity also contributed to rising capital spending levels.

India's total goods and service exports surged by 76% over the past decade, touching Rs. 70,36,425 crore (US\$ 825 billion) in FY25, driven by strong performance in engineering goods, electronics, and pharmaceuticals. With a reduction in port congestion, supply networks are being restored.

With a proactive set of administrative actions by the government, flexible monetary policy, and a softening of global commodity prices and supply-chain bottlenecks, inflationary pressures in India look to be on the decline overall.

INDIAN ELECTRICAL CONTROL PANEL & SWITCHGEAR MARKET OUTLOOK

India's Capital Goods manufacturing industry serves as a strong base for its engagement across sectors such as Engineering, Construction, Infrastructure and Consumer goods, amongst others.

The engineering sector is the largest of the industrial sectors in India. It accounts for 27% of the total factories in the industrial sector and represents 63% of the overall foreign collaborations. Demand for engineering sector services is being driven by capacity expansion in industries like infrastructure, electricity, mining, oil and gas, refinery, steel, automobiles, and consumer durables. India has a competitive advantage in terms of manufacturing costs, market knowledge, technology, and innovation in various engineering sub-sectors. India's engineering sector has witnessed remarkable growth over the last few years, driven by increased investment in infrastructure and industrial production. The engineering sector, being closely associated with the manufacturing and infrastructure sectors, is of huge strategic importance to India's economy.

The development of the engineering sector of the economy is also significantly aided by the policies and initiatives of the Indian government. The engineering industry has been de-licensed and allows 100% Foreign Direct Investment (FDI). Additionally, it has grown to be the biggest contributor to the nation's overall merchandise exports.

India became a permanent member of the Washington Accord (WA) in June 2014. it is now part of an exclusive group of 17 countries that are permanent signatories of the WA, an elite international agreement on engineering studies and the mobility of engineers.

ADVANTAGES IN INDIA

ROBUST DEMAND

- Ministry of Road Transport & Highways aims for 13,814 km of national highway construction in FY 2024 and a network to 2 lakh km by 2025.
- In the Union Budget FY26, the government announced capex of Rs. 11,21,000 crore (US\$ 128.42 billion) (3.1% of GDP).
- An Urban Infrastructure Development Fund (UIDF) will be managed by National Housing Bank, which will enable creation of infrastructure in Tier 2 and 3 cities by supporting viability gap funding, enabling creation of more bankable projects, enhancing access to external funding, among others.

ATTRACTIVE OPPORTUNITIES

- Ministry of Road Transport & Highways aims for 13,814 km of national highway construction in FY 2024 and a network to 2 lakh km by 2025.
- In the Union Budget 2025-26, the government announced capex of Rs. 11,21,000 crore (US\$ 128.42 billion) (3.1% of GDP).
- An Urban Infrastructure Development Fund (UIDF) will be managed by National Housing Bank, which will enable creation of infrastructure in Tier 2 and 3 cities by supporting viability gap funding, enabling creation of more bankable projects, enhancing access to external funding, among others.

POLICY SUPPORT

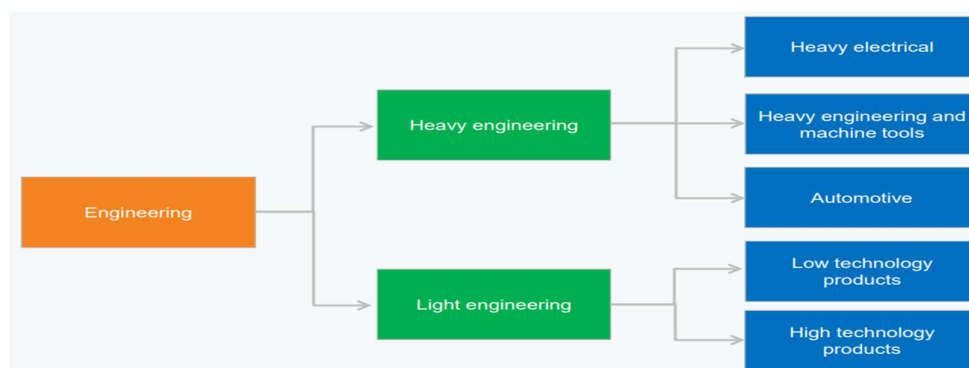

- De-licensed engineering sector; 100% FDI permitted.
- Ministry of Heavy Industries has notified the Scheme on Enhancement of Competitiveness in the Indian Capital Goods Sector- Phase-II for providing assistance to Common Technology Development and Services Infrastructure. The scheme has a financial outlay of Rs. 1207 crores (US\$ 145.1 million) with budgetary support of Rs. 975 crore (US\$ 117.2 million) and industry contribution of Rs.232 crore (US\$ 27.9 million).

- The Indian Electrical Equipment Industry Mission Plan (2012-22), aimed to make India a preferred destination for the production of electrical equipment to achieve an output of US\$ 100 billion by balancing the trade deficit in the sector.
- In October 2022, NSIC signed a MoU with Phillips Machine Tools India Pvt. Ltd. For Skill Development Training in Additive Technologies.

INVESTMENTS

- To enhance opportunities for private investment in infrastructure - Infrastructure Finance Secretariat is being established who will assist all stakeholders for more private investment in infrastructure, including railways, roads, urban infrastructure, and power.

TWO MAJOR SEGMENTS

Heavy Electrical – Key Segments

1. Boilers

- India steam boiler systems market size is expected to reach nearly US\$ 22.56 billion by 2027 with the CAGR of 4.63% during the forecast period.
- The boiler market in India is expected to grow from US\$ 704.6 million in FY19 to US\$ 1.1 billion in FY30 with an expected CAGR of 3.8%

2. Turbines and Generator Sets

- The India generator sets market is expected to grow at a CAGR of more than 5% over the period of 2020-25.
- The India diesel gensets (generator sets) market is expected to reach US\$ 2.78 billion by 2030 compared to US\$ 1.48 billion by 2022 at a CAGR of 8.20%.
- The current annual production capacity of domestic wind turbines is about 15,000 MW.
- In 2022, GE Steam Power signed a US\$ 165 million contract with Bharat Heavy Electricals Ltd to supply 3 nuclear steam turbines for India's domestic nuclear power programmer

3. Transformers

- The India power transformer market generated a revenue of Rs. 16,063 crore (US\$ 1.9 billion) in FY22 and is expected to reach Rs. 28,744 crore (US\$ 3.4 billion) by FY30.
- Factors such as increasing power generation capacity to meet energy demand and expansion of transmission and distribution systems are likely to drive the India power transformer market.
- A whole range of power and distribution transformers, including a special type of transformer required for furnaces, electric tracts and rectifiers, are manufactured in India.

4. Switchgear and Control Gear

- India switchgear market size was estimated at US\$ 9.75 million in 2022 and is expected to grow at CAGR of 7.12% reaching a value of US\$ 18.23 million by 2029.

5. Auto components

- Indian auto components industry, which accounts for 2.3% of India's GDP currently, is set to become the third largest globally by 2025.
- The industry clocked highest-ever turnover of US\$ 69.7 billion for the period of April 2022 to March 2023, registering a YoY growth of 32.8%.
- According to the Automotive Component Manufacturers Association of India, the autocomponents industry of India is expected to grow by 10-15% in FY24, which would be driven by both domestic and export market demand.

KEY PLAYERS

	Company	Revenue (Q3 FY25)	Products
	Larsen and Toubro	Rs. 64,667.78 crore (US\$ 7.65 billion)	Engineering and construction, cement, electrical and electronics
	Bharat Heavy Electricals Ltd.	Rs. 7,277.09 crore (US\$ 860.80 million)	Power generation, transmission, transportation
	ABB India Ltd.	Rs. 3,326.88 crore (US\$ 393.40 million)	Transformers, switch gears, control gears
	CG Power and Industrial Solutions Ltd (Q4 FY25).	Rs. 2,563.40 crore (US\$ 303.20 million)	Power generation and transmission equipment

NOTABLE TRENDS IN THE INDUSTRY**1. Diversification**

- Creation of a significant number of special economic zones (SEZs) across the country has been approved.
- Reliance Defense and Engineering Ltd has signed an agreement with the US Navy for undertaking service, maintenance and repair of Seventh Fleet of US Navy at the Reliance Shipyard at Pipavav in Gujarat.

2. Entry of international companies

- With 100% FDI allowed through the automatic route, major international players such as Cummins, GE, ABB and Alfa Laval have entered the Indian engineering sector due to growth opportunities.
- American plane maker Boeing Corporation has launched the Boeing India Engineering & Technology Centre in Bengaluru.

3. Partnership

- In December 2023, Adani Green Energy has formed a joint venture (JV) with Total Energies Renewables Singapore, encompassing 1GW portfolio of energy projects in India.
- In October 2023, the Automotive Research Association of India (ARAI) signed an agreement with IIT Guwahati to set up a common engineering facility center 'Digital Twin Center for Emerging Automotive Systems' in a hub and spoke model.
- In July 2023, Bharat Heavy Electricals Limited (BHEL) signed a Technical Assistance and License Agreement with General Electric Technology GmbH Switzerland for Gas Turbines.
- In February 2023, Reliance Industries Limited (RIL) and its vehicle partner Ashok Leyland unveiled India's first Hydrogen Internal Combustion Engine (H2-ICE) technology solution for heavy duty trucks at the India Energy Week in Bengaluru.
- State-run PSUs Nuclear Power Corporation of India Ltd (NPCIL) and Bharat Heavy Electricals Ltd (BHEL) have signed a memorandum of understanding (MoU) in April, 2023 to jointly pursue business opportunities in the area of Nuclear Power Plants based on Pressurized Heavy Water Reactor (PHWR) technology.

STRATEGIES ADOPTED**1. Demonstrate capabilities**

- As on September 2023, 13 of India's top 15 listed capital goods and engineering firms, for which data for the September 2023 quarter was available, had a total orderbook worth Rs 8.45 lakh crore (US\$ 101.6 billion) highest since 2018-19.
- At least 2 of the top 15 companies Ashoka Buildcon and Thermax Global have reported their current orderbooks to be the highest ever.
- The Ministry of Heavy Industries, in March 2023, sanctioned Rs. 800 crore (US\$ 97.3 million) under FAME India Scheme Phase-II to 3 PSU oil marketing companies (OMC) for setting up 7,432 public fast charging EV stations across the country.

2. Operational efficiency

- Making process changes including the adjustment of a company's physical footprint, outsourcing or offshoring of particular processes, changes to organizational structure can help increase efficiency.
- Strong analytical capacity will allow companies to slice and dice their operational data, identifying opportunities to make operations more efficient such as workforce planning.

3. Acquisitions

- In January 2023, L&T Technology Services Limited announced to acquire the Smart World & Communication (SWC) Business of L&T, to combine synergies and take offerings in Next- Gen Communications, Sustainable Spaces and Cybersecurity to the global market.

4. Skill improvement

- To increase the employability of engineering graduates in the country, AICTE (All India council of Technical education) leadership is taking a lot of efforts and recommends model curriculum for engineering programs like AI, IoT, Robotics, Block chain, Machine learning, Data Science and Cyber security.
- In October 2022, NSIC Signs MoU with Phillips Machine Tools India Pvt. Ltd. for Skill Development Training in Additive Technologies which is the future of manufacturing.

GROWTH DRIVERS FOR THE INDIAN ENGINEERING AND CAPITAL GOODS SECTOR

POLICIES

- MHI is implementing the Scheme for 'Enhancement of Competitiveness in the Indian Capital Goods Sector Phase 2' in order to facilitate adoption of Industry 4.0 and to promote investments in manufacturing sector, indigenization of technologies and creation / augmentation of common service infrastructure / Testing facilities. Rs. 250 crores (US\$ 30 million) has been allocated under this Scheme for FY24.

DEMAND-SIDE DRIVERS

- Capacity addition for power generation.
- Increase in infrastructure spending.
- Demand in the engineering industry segment is driven by investments and capacity creation in core sectors like power, infrastructure developments, mining, oil and other sectors like the general manufacturing sector, automotive and process industries, and consumer goods industry

INVESTMENT

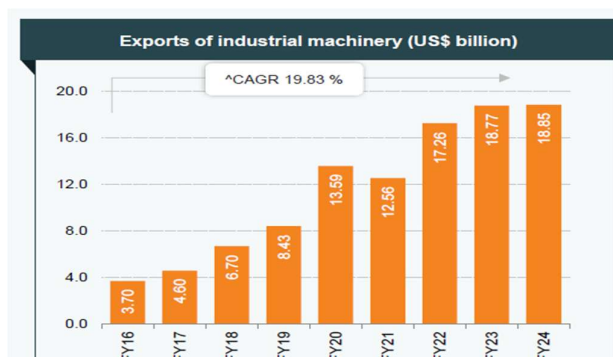

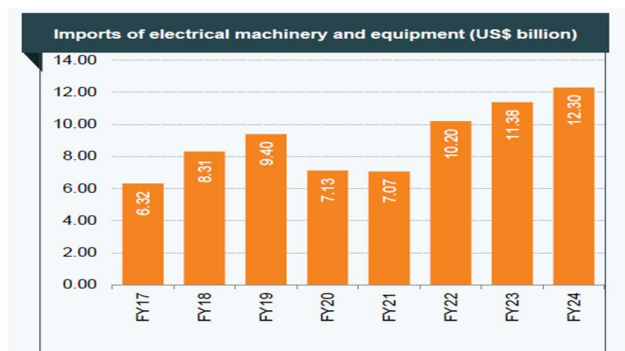

- With 100% FDI allowed through the automatic route, major international players such as Cummins, GE, ABB and Alfa Laval have entered the Indian engineering sector due to growth opportunities.
- To enhance opportunities for private investment in infrastructure - Infrastructure Finance Secretariat is being established who will assist all stakeholders for more private investment in infrastructure, including railways, roads, urban infrastructure, and power.

STRONG POLICY SUPPORT CRUCIAL FOR THE SECTOR

- **Make in India**
Mr. Dharmendra Pradhan, Minister of Skill Development and Entrepreneurship and Education, said growth of capital goods sector is correlated to the success of Make in India program
- **Special Economic Zones (SEZs)**
The government approved 15 SEZs for the engineering sector, & electrical machinery is a part of the sector. The Delhi Mumbai Industrial Corridor (DMIC) is being developed across 7 states and is expected to bolster the sector.
- **Tariffs and custom duties**
In budget 2023, customs duty exemption is being provided to import of specified capital goods and machinery required for manufacture of lithium-ion cells for batteries used in electric vehicles and mobile handsets.
- **De-licensing**
The electrical machinery industry has been de-licensed, along with 100% FDI allowed in this sector. This has facilitated the entry of major global players into the electrical machinery industry in India.
- **Production Linked Incentive Schemes**
The Ministry of Heavy Industries (MHI) launched 2 Production Linked Incentive (PLI) Schemes, namely PLI Scheme for Automobile and Auto Component Industry, and PLI Scheme for National Programme on Advanced Chemistry Cell (ACC)

Battery Storage. The PLI Scheme for the automobile and auto components industry has been launched with a total budgetary outlay of Rs. 25,938 crore (US\$ 3.17 billion) for a period of five years (FY23 to FY27).

RISING DEMAND FOR ELECTRICAL EQUIPMENT

- Imports of Electrical Machinery in India increased to US\$ 12.30 billion in FY24.
- The Indian electrical equipment industry comprises 2 broad segments, Generation equipment (boilers, turbines, generators) and Transmission & Distribution (T&D) and allied equipment like transformers, cables, transmission lines, etc.
- The sector contributes about 8% to the manufacturing sector in terms of value, and 1.5% to overall GDP.
- Incentives for capacity addition in power generation will further increase the demand for electrical machinery.
- The electrical equipment market share in India is expected to increase by US\$ 52.98 billion from 2022 to reach US\$ 124.83 billion in 2027, and the market's growth momentum will accelerate at a CAGR of 11.68%.
- The electrical equipment market is valued at US\$ 71.85 in FY22.
- Production of generation equipment (boilers, turbines and generators) in India was estimated to be around US\$ 5.7 billion by 2022.
- The electrical machinery segment grew nearly 13% with shipments jumping to US\$ 10.19 billion in the April-December 2023 from US\$ 9.06 billion in the year-ago period.

GROWTH OPPORTUNITIES IN THE ENGINEERING SECTOR

Auto components

- The automobile component industry turnover stood at Rs. 3.3 lakh crore (US\$ 39.6 billion) during first half of FY25, registering a revenue growth of 11.3% as compared to first half of FY24.
- By FY28, the Indian auto industry aims to invest Rs. 58,000 crore (US\$ 7 billion) to boost localization of advanced components like electric motors and automatic transmissions, reducing imports and leveraging 'China Plus One' trend.
- In February 2024, ZF inaugurated its 19th manufacturing plant in India at Oragadam in Tamil Nadu. With an Rs. 1,800 crore (US\$ 215 million) project outlay, ZF plans to strengthen its manufacturing presence and expansion in India with investment realization by 2030. In May 2023, JBM announced to invest Rs. 350 crore (US\$ 42.1 million) for setting-up auto component manufacturing plants in Haryana and Gujarat.
- The Indian government has outlined US\$ 7.8 billion for the automobile and auto components sector in production-linked incentive (PLI) schemes under the Department of Heavy Industries.

Power transmission and distribution (T&D)

- T&D expenditure is set to increase on growth in power generation and privatization of distribution.
- By 2030, India has plans to invest US\$ 34.2 billion to set up an interstate transmission network (ISTS) in order to evacuate renewable energy.

Machine tools

- The Indian machine tool market size reached US\$ 1.5 billion in 2023 and is expected to reach US\$ 3.2 billion by 2032, exhibiting a growth rate (CAGR) of 8.2% during 2024-32.
- The growing prominence of automation across numerous manufacturing processes, to enhance their productivity and meet quality standards, is currently driving the India machine tools market.

Material handling equipment

- The India Automated Material Handling market size is estimated at US\$ 1.47 billion in 2024, and is expected to reach US\$ 2.66 billion by 2029, growing at a CAGR of 12.70% during the forecast period (2024-2029). The Indian material handling

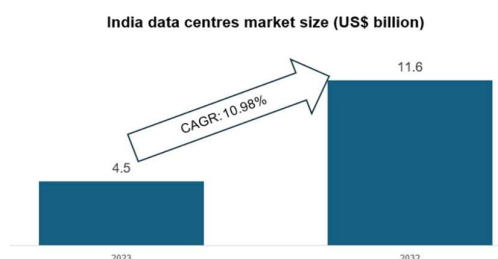

sector has observed a momentous growth in recent years due to rising investment in infrastructure development, increased demand for higher automation, and safe working practices in the manufacturing area.

Overview of Data Centres in India

The data centre industry has experienced significant expansion in both advanced and developing economies. This is due to the growing willingness of enterprises to invest in new data storage and deployment infrastructure. India's data centre sector is witnessing robust growth during the era of digitalisation. The nation is strategically situated to emerge as a worldwide epicentre for data centres, particularly those specializing in cloud computing, with a promising trajectory for future expansion.

According to Cushman & Wakefield report, India's current data centre capacity across the top seven cities is 977 MW. Looking ahead, India's data centre capacity is projected to experience considerable growth. The current under-construction capacity additions are estimated to reach 1.03 GW by 2028. Additionally, there are plans for further capacity expansion of 1.29 GW, bringing the total projected data centre capacity in India to 3.29 GW by 2028.

India's data centre market value is expected to increase from US\$ 4.5 billion in 2023 to a projected US\$ 11.6 billion by 2032, boasting a CAGR of 10.98%.

Factors Driving Data Centre Growth in India

- RBI mandate of storing financial data in India**
 The financial sector has become increasingly dependent on digital solutions, from online banking to algorithmic trading. This [digital transformation](#) has necessitated secure and reliable data storage, rendering data centres an integral component of their infrastructure. In 2018, the Reserve Bank of India's (RBI) mandated storing financial data within India. This regulation ensures that sensitive financial data is securely stored and processed locally, leading to increased investment and development in India's data centre infrastructure.
- Increased digitalisation and internet penetration**
 At the beginning of CY24, India had an internet user base of 751.5 million, representing an internet penetration rate of 52.4%. The growing reliance on mobile internet, with India being one of the global leaders in this domain, has further highlighted the need for efficient data processing and storage capabilities. This trend has resulted in a remarkable expansion of data centre networks within the country.
- Government initiatives and policies promoting data centre development**
 The government's crucial role in establishing clear regulations and supportive policies has created a stable and appealing environment for investors and operators. This, in turn, cultivates a sense of assurance within the market, drawing in investment and propelling the establishment of state-of-the-art data centre infrastructure.
- Rise in cloud computing services and demand for data storage**
 Cloud service providers represent a crucial factor fuelling the demand for data centres. As organisations of all scales transition towards cloud-based platforms for applications and data storage, the imperative for well-equipped data centres to host and oversee this continuously expanding information repository has become increasingly critical.

THE ROAD AHEAD

- Edge computing and its implications**
 The rise of edge computing and its implications have been widely embraced, with the vast majority of businesses now leveraging cloud services for at least a portion of their operations. Edge computing is the next step in cloud technology. The

adoption of edge computing in sectors such as smart cities, finance and banking is increasing rapidly, leading to a projected market worth US\$7 billion by 2025. Consequently, companies will need to change how they manage and update their data centres and also include edge expenses in their Operating Expenses (OPEX).

- **Adoption of green technologies in data centres**

The adoption of green technologies in data centres, recent advances in renewable energy sources, efficient cooling systems, AI, modular designs and energy-efficient hardware have considerably reduced the environmental impact of enterprise data centres. For example, moving forward into the future development will comprise quantum computing advancements on top of sound materials' science knowledge, edge computing frameworks like hydrogen fuel cell rose carbon capture for instance that can help enhance sustainability around data centre infrastructure.

- **Incremental investment in Data center industry**

India accounts for 20% of the worldwide data production but has only 3% of its data centre capacity. Further, data consumption in India could triple as a result of the adoption of 5G, IoT and AI technologies. The potential expansion of capacity is expected to double by 2026 to approximately 2,000 MW, leading to inclusive investment opportunities, with a projected capital expenditure of US\$ 6 billion (Rs. 50,000 crore) over the next three years until 2026.

India possesses the potential to emerge as a global data centre hub due to several favourable factors, including the lower cost of construction, land and power compared to other countries. Additionally, India already has well-established IT infrastructure, talented workforce and a digitally enabled services ecosystem, which serves as a strong foundation for the development of a robust data centre industry.

India's data centre capacity set to surpass 4,500 megawatts (MW) by 2030, backed by Rs. 2,13,550 crore (US\$ 25 billion) investments:

India's data centre (DC) market is undergoing a transformative shift, marked by the expansion of hyperscale data centres across both metro hubs and Tier II/III cities. Mumbai and Chennai jointly dominate, holding nearly two-thirds of the nation's DC capacity, with Mumbai at 41%, Chennai at 23%, and the Delhi NCR region at 14%. Over the past six to seven years, the DC real estate footprint across the seven major cities has tripled; according to the Colliers report "The Digital Backbone: Data Centre Growth Prospects in India," DC capacity is expected to surpass 4,500 megawatts (MW) by 2030, driven by rising demand from cloud services, Artificial Intelligence (AI) workloads, and edge computing. This will expand the sector's footprint to nearly 55 million sq ft.

Between 2020 and April 2025, India added 859 MW of new DC supply, with Mumbai contributing 44%, followed by Chennai and Delhi NCR at 42% combined. From 2025 to 2030, the primary DC markets are projected to see 3,000–3,700 MW in fresh capacity, with Mumbai and Hyderabad each adding 1,000–1,200 MW, positioning Hyderabad as an emerging hub. Investments have been robust, with Rs. 1,25,000 crore (US\$ 14.63 billion) already committed since 2020 and an additional Rs. 1,70,840–2,13,550 lakh crore (US\$ 20–25 billion) expected by 2030. Major projects include AdaniConneX's 100 MW campus in Chennai, Yotta Infrastructure's Rs. 39,000 crore (US\$ 4.56 billion) hyperscale developments, and CapitaLand Investment's Rs. 1,940 crore (US\$ 227 million) Navi Mumbai facility. By 2030, DCs above 50 MW will account for nearly two-thirds of total inventory, reflecting the shift to AI-ready, high-density infrastructure. Green-certified data centers, currently at 25%, are projected to rise to 30–40%, highlighting the sector's commitment to sustainability and renewable energy integration.

Overview

Our Company is an ISO 9001:2015 certified manufacturer of Low-Voltage (“LV”) and Medium-Voltage (“MV”) electrical panels and automation systems, with an operational history of over 30 years. We are engaged in panel manufacturing and system integration, offering electrical and automation solutions that cover engineering, design, fabrication, assembly, testing, and commissioning of control and automation systems. Our products are intended for applications in power distribution, load management, process control, and industrial automation across multiple sectors.

We manufacture a range of LV electrical panels, including Power Control Centre (PCC) Panels, Intelligent Motor Control Centre (IMCC) Panels, Soft Starter Panels, Drawout Motor Control Centre (MCC) Panels, DG Synchronisation Panels, Power Distribution Boards and Units, and Outdoor Panels. Our MV electrical panel product range covers 3.3 kV to 36 kV panels and includes specialised products such as 6.6 kV and 11 kV Variable Frequency Drive (VFD) Panels, 11 kV DG Synchronisation Panels, Load Sharing Panels, Control and Relay Panels, Vacuum Circuit Breaker and Contactor Panels, and MV Automatic Power Factor Correction (APFC) Panels. All our products are type-tested in accordance with applicable standards including IEC 61439-1 & 2, IEC 61641, and IEC 62271-200. In addition, we also supply certain electrical goods and bus ducts tailored to specific customer requirements.

Our products cater to sectors such as Data Centre & Technology, Infrastructure, Metro Projects, Construction & Real Estate, Solar & Renewable Energy, Industrial Manufacturing. We maintain OEM associations with ABB, Lauritz Knudsen Electrical & Automation (LK), and Schneider Electric. We are licensed by ABB India Limited to manufacture and integrate ArTu K low-voltage switchboards using ABB components.

We operate two manufacturing facilities in Navi Mumbai and Pune, Maharashtra. The Navi Mumbai unit, located at Plot No. A-173/7, T.T.C Industrial Area, MIDC, Kharine, Navi Mumbai- 400710- Maharashtra, India, undertakes the complete manufacturing of Low-Voltage (“LV”) and Medium-Voltage (“MV”) electrical panels and automation systems, including fabrication, surface treatment, powder coating, assembly, and testing, and is equipped with CNC-enabled fabrication lines, robotic polyurethane (PU) gasketing systems, busbar processing machines, and an in-house powder coating unit. The Pune unit, located at Plot No. 12, 13, 14, 16 16A 16B 16C, 17, 18/11/01 Pune City, Telco Road, Bhosari, Pimpri Chinchwad, Pune-411026-Maharashtra, India is focused on panel assembly operations, for which prefabricated and coated components are supplied from Navi Mumbai. Both facilities are certified under ISO 9001:2015 (Quality Management Systems), ISO 14001:2015 (Environmental Management Systems), and ISO 45001:2018 (Occupational Health and Safety Management Systems), and together have an installed capacity of 7,500 units per annum as of the date of this Draft Red Herring Prospectus.

We generate revenue primarily from domestic sales, with limited contribution from exports. Export revenue accounted for 1.44%, 2.79% and 0.70% of total revenue, while domestic revenue accounted for 98.56%, 97.21%, 99.30%, for the financial years ended March 31, 2025, 2024 and 2023 respectively. During these periods, we catered to clients in countries such as Kenya, Solomon Islands, United Arab Emirates, Cameroon, Sri Lanka, Indonesia, Tanzania.

Our primary raw materials include Cold Rolled Close Annealed (CRCA) sheets, Galvanized Iron (GI) sheets, aluminium and copper bus bars, electrical wires, and industrial paints, which are sourced mainly from domestic suppliers. Switchgear components are procured from original equipment manufacturers (OEMs). The cost of materials consumed (including purchases of stock-in-trade and changes in inventories) accounted for 68.63%, 73.71% and 76.64% of revenue from operations for the financial years ended March 31, 2025, 2024 and 2023, respectively.

Our Company was initially managed under the leadership of Vishvanath Dayanand Attavar. The management was subsequently taken over by Sameer Vishvanath Attavar, Chairman and Managing Director and Promoter, and Meeta Sameer Attavar, Whole-Time Director and Promoter. Sameer Vishvanath Attavar has over 25 years of experience in the electrical panel manufacturing

industry and is responsible for overseeing the Company's overall operations, including business planning, production, quality assurance, finance, and compliance. Meeta Attavar has approximately 19 years of experience and is involved in functions relating to human resources, administration, and general operations. The Promoters are supported by professionals across sales, marketing, engineering, production, finance, and other functional areas. The sector-specific experience of the Promoters, combined with the support of senior management, has contributed to the Company's growth and operations.

Awards & Accreditations:

1. Business Excellence Award from ABB India Limited (ArTu K Partner Summit 2024)
2. Best Techno-Commercial Support Partner Award by Godrej
3. Partner-in-Progress Award by L&T Automation (2005–06)
4. Certificate of Appreciation from NTT for data centre project completion in 2023
5. Platinum Award at the ABB ArTuK Business Excellence Awards 2022.

Certifications & Memberships:

- ISO 9001:2015 for Quality Management
- ISO 14001:2015 for Environmental Management System
- ISO 45001:2018 Occupational Health and Safety Management Systems
- ArTu K Licence Partner Certificate from ABB
- MV Panel Builder Certificate from ABB
- ZED Bronze Certification (Zero Effect, Zero Defect)
- Authorised Franchise Certificate from L&T Electrical & Automation
- Accreditation from Schneider Electric for use of LV switchgear components
- Membership with Control Panel and Switchgear Manufacturers' Association (COSMA)
- SMERA rating of SE2B (High performance and financial strength)

We have a strong track record of revenue growth and profitability. The following table sets forth certain key performance indicators for the years indicated:

Key Performance Indicators of our company:

(₹ in Lakhs except percentages and ratios)

Key Financial Performance	As at the Period/Year ended		
	FY 2024-25	FY 2023-24	FY 2022-23

Notes:

⁽¹⁾ Revenue from operation means Revenue from Operations as appearing in the Restated Financial Statements

⁽²⁾ EBITDA is calculated as Profit before tax + Depreciation + Finance Cost - Other Income

⁽³⁾ 'EBITDA Margin' is calculated as EBITDA divided by Revenue from Operations

⁽⁴⁾ PAT is calculated as Profit before tax – Tax Expenses

⁽⁵⁾ 'PAT Margin' is calculated as PAT for the period/ year divided by Revenue from Operations.

⁽⁶⁾ Return on Equity is ratio of Profit after Tax and Average Shareholder Equity.

⁽⁷⁾ Return on Capital Employed is calculated as EBIT divided by capital employed, which is defined as shareholders' equity plus total borrowings {current & non-current}.

⁽⁸⁾ Net Worth = Equity Share Capital + Reserve and Surplus (including surplus in the Statement of Profit & Loss) - Preliminary Expenses to the extent not written-off

WHAT IS ELECTRICAL PANEL

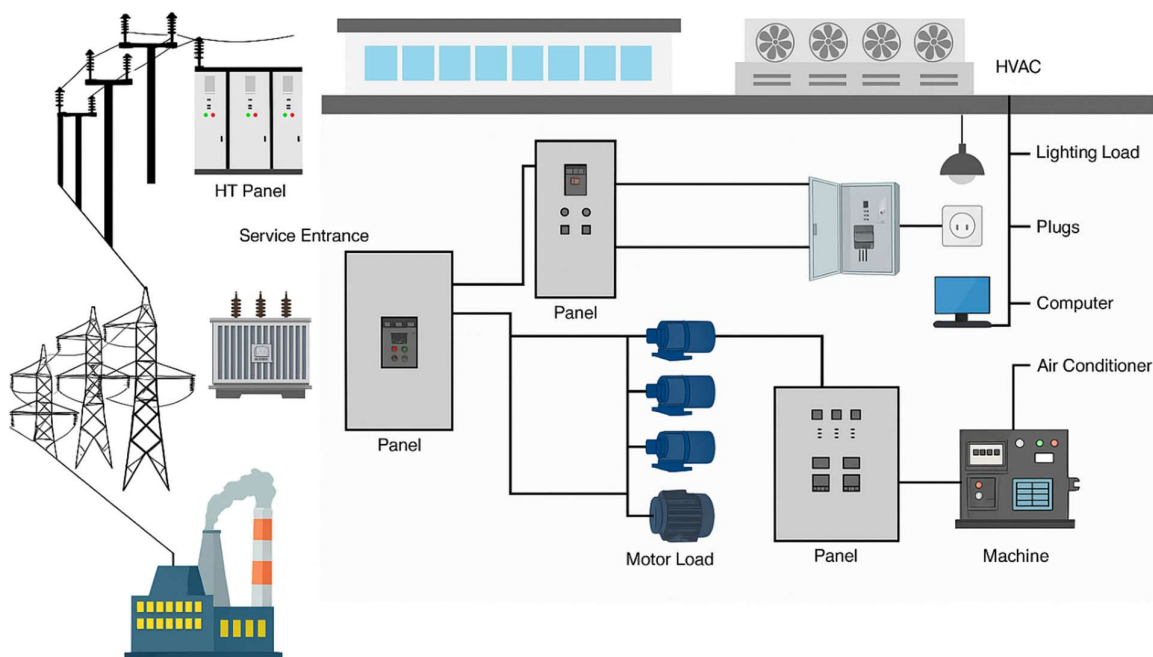

An electrical panel, also referred to as a distribution board or switchboard, is an enclosure that houses components such as circuit breakers, switches, relays, busbars, meters, and wiring assemblies. It serves as a central point for managing and distributing electrical power within a facility, ensuring safe and controlled power flow across systems.

Low Voltage (LV) Panel

A Low Voltage (LV) panel is an electrical panel designed to operate at voltages up to 1,000 volts. LV electrical panels are typically used in residential, commercial, and industrial applications to control and distribute electrical power to various loads and equipment.

Medium Voltage (MV) Panel

A Medium Voltage (MV) panel is an electrical panel designed to handle voltages between 1 kilovolt (kV) and 33 kilovolts (kV). MV electrical panels are commonly used in utility networks, substations, infrastructure projects, and large industrial facilities for medium-scale power distribution and control.

Our Competitive Strength

Integrated Manufacturing Facilities

We operate fully integrated manufacturing units in Navi Mumbai and Pune, covering over 34000 sq. ft. These facilities enable us to carry out the entire production process in-house including design, engineering, fabrication, assembly, wiring, and testing. This setup allows us to maintain consistent product quality, reduce turnaround time, and adapt to specific client requirements. Our equipment includes CNC turret punching machines, CNC bending machines, PU gasketing machines, a powder coating plant, CNC busbar bending machines, and CNC busbar punching machines, supporting precise and efficient operations. We also undertake in-house testing to ensure compliance with industry standards. In-house manufacturing reduces dependence on third-party vendors and allows greater control over production timelines and quality.

Diverse Product Portfolio with Wide Geographic Reach

Our product offerings include Low Voltage (LV) and Medium Voltage (MV) electrical switchboards and busbar systems for industrial and infrastructure applications across India and selected international markets. The LV electrical panel product range comprises PCC Panels, IMCC Panels, Soft Starter Panel, MCC Panels, DG Synchronisation Panels, and Outdoor Panels. We also manufacture Medium Voltage (MV) panels up to 33kV, VFD Panels, Power Distribution Boards, Control Relay Panel and LV & MV APFC Panels.

We provide both standard and customised panels based on client specifications. Our products are deployed in segments such as data centres, manufacturing, infrastructure, utilities, and power generation. Our distribution footprint spans several Indian states, with limited exports to international clients. The capability to manufacture across multiple voltage classes enables us to serve a wide range of industries and operational environments.

Growing Presence in the Data Centre Segment

We have established a presence in the data centre segment, which is among the rapidly growing infrastructure sectors in India. Our Company manufactures and supplies both medium voltage ("MV") and low voltage ("LV") electrical panels, which are used for power distribution and maintaining continuous operations in data centres. During the fiscal year ended March 31, 2025, revenues from data centre-related projects constituted approximately 35.80% of our total revenue. Our Company provides end-to-end solutions for the design, manufacturing, and installation of MV and LV panels tailored to the specific reliability requirements of data centres. We supply our products and services to data centre developers and operators in India.

Strategic Partnerships with Leading Brands

We are authorised partners for Larsen & Toubro (L&T) Enersys LV electrical Panels and ABB's ArTu K LT Switchboards. These partnerships allow us to manufacture type-tested panels that comply with the OEMs' quality and design specifications. Through these associations, we cater to industrial and infrastructure applications with validated product offerings.

Commitment to Quality Control and Safety

We maintain quality control and safety procedures across all stages of our manufacturing operations, from procurement of raw materials to final inspection and dispatch. Our operations are ISO 9001:2015, ISO 14001: 2015 and ISO 45001: 2018 certified, and Our products are fully type-tested in accordance with standards such as IEC 61439-1 & 2, IEC 61641 and IEC 62271-200. Our in-house testing facilities are equipped with a 6000 Amp current Primary Injection Test setup, High Voltage Test Kits (75KV, 5KV and 2.5KV), Winding Resistance Meter, Contact Resistance Meters, Conductivity Meter, CT Polarity Test Kit, Coat Gauge etc. We also operate a powder coating lab equipped for surface treatment testing. We carry out quality control through inspections, testing, and documentation to ensure compliance with specifications and consistency in performance.

Experienced promoters and senior management team

We are led by our Promoters, Sameer Vishvanath Attavar and Meeta Sameer Attavar, who have extensive experience of 25 years and 19 years, respectively, in the electrical panel manufacturing industry. Sameer Vishvanath Attavar has been associated with the Company since 2000 and has led various growth and operational initiatives. Meeta Sameer Attavar has also played an active role in the Company's development over the years. The Promoters have established relationships with suppliers and industry participants, which have supported the Company's operations, and they are actively involved in the day-to-day management of the Company. The management team also includes senior management personnel with experience in production, finance, and marketing. For details on the qualifications and experience of our Promoters and senior management team, please refer to the section titled '***Our Management***' beginning on page 156 of this Draft Red Herring Prospectus

Our Business Strategies

Setting up of new integrated manufacturing unit.

We are in the process of setting up an integrated manufacturing facility at survey numbers 75/1C (part), 75/6 (part), 75/7 and 75/10 (part), located at Village Nahren, Taluka Ambernath, District Thane, 421501, Maharashtra, India measuring 7,977 sq. mtrs., for the manufacture of Low-Voltage ("LV") and Medium-Voltage ("MV") electrical panels and automation systems. This facility is proposed to be equipped with advanced fabrication and coating equipment, including a PSBB (Punching + Shearing + Buffering + Bending) line from PRIMA Power (Finland), 3D CNC Busbar Bending and Punching Machine, and an automatic powder coating plant. The total estimated project cost is Rs. 6673.56 Lakhs, including land acquisition, civil construction, and machinery, of which Rs. 4,787.95 Lakhs is proposed to be funded from the Net Proceeds of the Issue. We expect that this facility will support the Company's manufacturing operations and will contribute to improvements in production capacity and processes.

Going forward, we intend to continue investing in capacity expansion and modernization of our equipment and facilities to support our production operations. We aim to utilize our manufacturing capacity efficiently and maintain consistent production levels. For further details, please refer to the chapter titled '***Objects of the Issue***' beginning on page 87 of this Draft Red Herring Prospectus.

Expansion of our geographical footprint

For Fiscal 2025, 2024, and 2023, our revenue from operations was Rs. 15529.32 Lakhs, Rs. 8890.83 Lakhs, and Rs. 5932.56 Lakhs, respectively, of which 98.56%, 97.21%, 99.30% were from domestic markets and 1.44%, 2.79% and 0.70% were from international markets, for the respective periods. As of March 31, 2025, we have served customers located in approximately 14 states in India and have derived a portion of revenue from export to Kenya. We intend to expand our operations gradually to other regions in India in a phased manner. Expansion into new geographies will be evaluated based on operational feasibility and market demand. Geographic diversification of operations is expected to reduce dependence on specific regions and may mitigate risks arising from business concentration in limited areas.

Maintaining cordial relationship with our Suppliers and Customer

We believe in maintaining long standing relationship with our suppliers and customers which are the most important factor to keep our Company growing. Our efficient and timely delivery of products has helped us build strong relationships with our existing customers over a number of years. We also engage with suppliers on a long-term basis, which supports stability in our supply chain and procurement processes. Further, retention of employees over a longer period contributes to operational continuity by reducing training requirements and supporting efficiency.

Strengthen our marketing network

We seek to enhance our business operations by expanding our customer base through marketing initiatives. Our marketing approach is based on understanding customer requirements and providing products in line with industry standards. As of June 30, 2025, we have 14 personnel appointed in our Sales and Marketing department. We intend to strengthen our marketing team by adding qualified and experienced personnel to support business development in domestic and international markets.

We also use the Government e-Marketplace (GeM) portal and other digital platforms to reach a wider customer base and increase visibility of our electrical control panels and automation solutions. Our marketing efforts are focused on highlighting product features such as safety, reliability, and efficiency to potential customers.

Focus on Post-Sales Services and Customer Support

We intend to continue strengthening our post-sales services to address customer queries, concerns, and technical issues in a timely manner. This approach is aimed at supporting uninterrupted operations for our customers and fostering long-term business relationships. Going forward, we plan to enhance our customer support systems and resources, with the objective of maintaining customer satisfaction and encouraging repeat engagement. We also intend to incorporate sustainability aspects into our operations, in accordance with applicable industry practices.

Expand Presence in High-Growth Data Centre Sector

We intend to strengthen our presence in the data centre segment by targeting projects from both existing and new data centre developers and operators in India. This includes participation in new projects, expansions of existing facilities, and upgrading electrical distribution systems. We provide design, manufacturing, and commissioning of medium voltage (“MV”) and low voltage (“LV”) panels and automation system for data centres to support reliability, safety, and operational requirements. Our approach involves engaging with developers at the planning stage, offering solutions aligned with technical specifications, and executing projects within agreed timelines, in line with the expected growth of the data centre sector in India.

Developing Partnerships with Established Brands and OEMs

We intend to explore and develop partnerships with established brands and original equipment manufacturers (OEMs) as part of our business growth strategy. Such partnerships may support access to new technologies, product development opportunities, and wider market reach. We plan to pursue these collaborations selectively, with the objective of strengthening our product portfolio and expanding our presence in both domestic and international markets.

OUR PRODUCTS

We manufacture a range of Low Voltage (LV) and Medium Voltage (MV) electrical panels, along with automation systems, that are used across industrial, commercial, and infrastructure sectors. Our products are generally designed based on customer specifications and applicable industry standards. The major categories of our products are as follows:

Low Voltage (LV) Panel (Up to 1,000 V)

Our Manufacturing Process

The manufacturing process commences once manufacturing clearance is obtained from the customer. Based on the approved technical specifications, our in-house engineering team prepares detailed electrical and mechanical designs, including general arrangement drawings, single line diagrams, wiring schematics, and bills of materials.

We undertake the manufacturing of Low Voltage (“LV”) and Medium Voltage (“MV”) electrical panels and automation systems through a structured process intended to ensure compliance with applicable technical, functional, and safety requirements. The key stages of the process are outlined below:

The manufacturing process is broadly divided into the following stages:

1. Design and Engineering

Detailed General Arrangement (GA) drawings, Single Line Diagrams (SLDs), wiring schematics, and BoMs are prepared using specialised design software. All designs undergo internal review and, where required, customer approval, prior to the commencement of production.

2. Material Procurement and Quality Inspection

Raw materials and electrical components, such as circuit breakers, relays, meters, and control accessories, are procured from approved vendors in accordance with the BoM. On receipt, the materials undergo Incoming Quality Control (“IQC”) to verify conformity with drawings, technical specifications, and relevant quality standards. Certifications, wherever applicable, are checked for compliance with contractual and customer requirements.

3. Sheet Metal Fabrication

Panel enclosures are fabricated either in-house or through authorised subcontractors using Computer Numerical Control (“CNC”) based equipment for cutting, punching, and bending. Punching operations are carried out using AMADA machines, while bending operations are undertaken using Amada and Hindustan Hydraulics machines. Fabrication is performed strictly as per project-specific requirements and approved designs.

4. Busbar Fabrication

We undertake in-house fabrication of copper and aluminium busbars for integration into our Low-Voltage (“LV”) and Medium-Voltage (“MV”) electrical panels and automation systems. Busbars are not sold as standalone products and are manufactured solely for captive use in panel assemblies. The process is carried out in accordance with project-specific design specifications and internal quality control procedures.

The fabrication process involves:

- **Cutting:** Raw copper or aluminium bars of specified grades and dimensions are cut to required lengths using hydraulic or CNC-operated cutting machines.
- **Punching and Drilling:** Slots or holes are created for terminals and joint connections as per approved engineering drawings.

- **Bending:** Bars are bent into required shapes using hydraulic or CNC bending machines to ensure proper alignment and fitment within panel structures.
- **Finishing:** Deburring and surface cleaning are performed to remove burrs, sharp edges, and oxidation.
- **Surface Treatment (where applicable):** Tin plating or insulation sleeves are applied to meet design-based functional and safety requirements.

Each batch of fabricated busbars undergoes visual and dimensional inspection to confirm compliance with design parameters. Documentation is maintained for traceability, and the processed busbars are then transferred to the panel assembly section for integration.

5. Surface Treatment and Powder Coating

Fabricated enclosures and parts requiring finishing are sent for powder coating. This involves application of dry powder using electrostatic charge, followed by curing in an oven to achieve a uniform and durable finish. Powder coating provides corrosion resistance and ensures a longer operational life compared to conventional paint.

6. Assembly and Integration

Post surface treatment, the panels undergo staged assembly and integration as follows:

- **Kitting:** Preparation of project-specific kits comprising busbars, supports, and electrical components.
- **Panel Structure Assembly:** Assembly of fabricated structures including doors, partitions, and mounting plates in accordance with approved GA drawings.
- **Component Mounting:** Installation of electrical components such as circuit breakers, switchgears, relays, and meters as per the layout specifications.
- **Busbar Assembly:** Installation, alignment, and fixing of busbars with appropriate supports and insulation.
- **Wiring:** Execution of power and control wiring as per approved schematics, with proper segregation, routing, ferruling, and labelling, in line with industry practices.

7. Testing and Quality Control

Completed panels are tested in compliance with applicable IEC standards. The testing process generally includes:

- **Insulation Resistance (IR) testing;**
- **Functional checks of electrical circuits and protective devices and**
- **Mechanical operation and interlock verification**

All testing is carried out by a dedicated quality control team using calibrated instruments, with results recorded for traceability and documentation purpose.

8. Customer Inspection and Factory Acceptance Testing (FAT)

Where stipulated by the contract, customers or their authorised representatives conduct FAT at the Company's manufacturing facility. Any observations or deviations noted are reviewed and addressed by the engineering and production teams prior to clearance for dispatch.

9. Packing and Dispatch

Following successful testing and inspection, panels are cleaned, labelled, and packed using protective materials suited for handling, transportation, and site storage. Packaging methods include wooden crating, bubble wrapping, or stretch film, depending on customer and project requirements. Each dispatch is accompanied by:

- Test certificates;
- Operation and Maintenance ("O&M") manuals;
- Installation and wiring diagrams; and
- Material traceability records, where applicable.

Dispatch is undertaken in accordance with defined logistics protocols to ensure safe and timely delivery to customer locations, both domestic and international.

PLANT AND MACHINERY

Our manufacturing operations are supported by machinery used for sheet metal punching, cutting, bending, surface treatment, gasketing, and busbar processing.

Machinery Description	Quantity	Purpose/Usage
A. Sheet Metal Processing		
CNC Turret Punch Press	1	Used to punch precise holes and shapes in sheet metal
Power Shearing Machine	1	Used to cut large sheets of metal into smaller, required dimensions.
CNC Bending Machines	3	Used to bend sheet metal into specified angles and forms with precision.
Cutting Machinery	1	Used for Channel Cutting
Co2 Welding Machine	8	CRCA Welding
Electrostatic Powder Coating Gun	3	Sheet Metal Coating
B. Surface Treatment and Gasketing		
Powder Coating Booth/Oven	1	To apply and cure powder coating on metal surfaces for corrosion resistance.
Gasketing Machine	1	To dispense PU foam gaskets on panel doors to ensure proper sealing.
C. Busbar Processing		
Heat Sleeving Machine	1	Busbar Sleeving
Intelligent 3D Busbar Punching & Cutting Machine	1	Used to punch and cut copper/aluminium busbars to required shapes and sizes.
Multi Punch Presses	2	Used to punch holes in busbars for electrical connections and mounting.
Energy Mission Bending Machines	1	Used to bend busbars to precise angles as per panel design specifications.

SALES AND MARKETING:

Our sales & distribution network is aided by our capable in-house sales and marketing team of 14 employees. This initiative allows us to engage with new customers and potential clients on a broader scale, reaching every presence in different states. Our team time to time participate in the various business exhibitions. Our marketing team along with our promoters through their experience and good rapport with customers owing to timely and quality delivery of service plays an instrumental role in creating and expanding the sales network of our Company. Further, our success lies in the strength of our relationship with our OEMs. Our OEMs provides us various leads which may convert into prospective clients. Our Quality certifications such as ISO 9001:2015, ISO 45001:2018 and ISO 14001: 2015 certify the quality of our products and the compliance with international standards. We regularly leverage these certifications in our marketing strategy.

COMPETITION

We operate in a highly competitive industry with relatively low entry barriers, which makes us susceptible to competition from new entrants. The market comprises both organized and unorganized participants. Competition is based on factors such as pricing, quality, product range, customer relationships, and service capability. Some competitors have greater financial resources and a wider product portfolio. We compete with both regional and product line-based strategies. Our ability to compete depends on our relationships with clients, industry experience, market understanding, and operational capabilities. There can be no assurance that increased competition will not adversely affect our business, results of operations, or financial condition.

INFRASTRUCTURE & UTILITIES:

Raw Material: Our Company utilizes a diverse range of switchgears, Cold Rolled Close Annealed (CRCA) sheets, Galvanized Iron (GI) sheets, aluminium and copper bus bars, electrical wires, and industrial paints as the primary raw material for manufacturing of Low-Voltage ("LV") and Medium-Voltage ("MV") electrical panels and automation systems. We do not import any raw material from outside India.

Power: We have made necessary arrangements for regular uninterrupted power supply at our manufacturing unit and registered office. The requirement of power for our operations, like power for lighting and operating the plant/machinery/equipment is met through the state electricity board.

Also, we have installed a generator set for power backup with a capacity of 125 KVA.

Water: The existing water requirement are efficiently managed from the municipal water system for our manufacturing units is met from local resources.

HUMAN RESOURCES

Our Company believe that our employees are key contributors to our business success and its ability to maintain growth depends to a large extent on our strength in attracting, training, motivating and retaining employees. We focus on attracting and retaining the best possible talent. Our Company looks for specific skill-sets, interests and background that would be an asset for its kind of business.

We hereby confirm that, as on June 30, 2025, our company has employed 192 permanent full-time employees including managerial personnel. The breakup of our manpower is as follows:

KEY INDUSTRY REGULATIONS AND POLICIES

The following description is a summary of the relevant regulations and policies as prescribed by the Government of India and other regulatory bodies that are applicable to our business. The information detailed in this chapter has been obtained from various legislations, including rules and regulations promulgated by the regulatory bodies that are available in the public domain. The regulations and policies set out below may not be exhaustive, and are only intended to provide general information to the investors and are neither designed nor intended to be a substitute for professional legal advice. The Company may be required to obtain licenses and approvals depending upon the prevailing laws and regulations as applicable. For details of such approvals, please see the section titled “Government and other Approvals” on page 245 of this Draft Red Herring Prospectus –

This chapter has been classified as under:

- A. Core Business Laws**
- B. Corporate and Commercial laws**
- C. Industrial Laws, Labour and Employment Laws**
- D. Environmental Laws**
- E. Tax Laws**
- F. Foreign Regulations**
- G. Intellectual Property Laws**

A. CORE BUSINESS LAWS

The Electricity Act, 2003 and The Electricity Rules, 2005

The Electricity Act, 2003 (“Electricity Act”) was enacted to regulate the generation, transmission, distribution, trading and use of electricity by authorizing a person to carry on the above acts either by availing a license or by seeking an exemption under the Electricity Act. Additionally, the Electricity Act states no person other than Central Transmission Utility or State Transmission Utility, or a licensee shall transmit or use electricity at a rate exceeding 250 watts and 100 volts in any street or place which is a factory within the meaning of the Factories Act, 1948 or a mine within the meaning of the Mines Act, 1952 or any place in which 100 or more persons are ordinarily likely to be assembled. An exception to the said rule is given by stating that the applicant shall apply by giving not less than 7 days’ notice in writing of his intention to the Electrical Inspector and to the District Magistrate or the Commissioner of Police, as the case may be, containing the particulars of electrical installation and plant, if any, the nature and purpose of supply of such electricity. The Electricity Act also lays down the requirement of mandatory use of meters to regulate the use of electricity and authorizes the Commission so formed under the Electricity Act, to determine the tariff for such usage. The Electricity Act also authorizes the State Government to grant subsidy to the consumers or class of consumers it deems fit from paying the standard tariff required to be paid.

Central Electricity Authority (Measures relating to Safety and Electric Supply) Regulations, 2023 (“Safety and Electric Supply Regulations”)

The Safety and Electric Supply Regulations provides for general safety requirements pertaining to construction, installation, protection, operation and maintenance of electric supply lines and apparatus and lays down that all electric supply lines and apparatus shall be of sufficient rating for power, insulation and estimated fault current and of sufficient mechanical strength, for the duty cycle which they may be required to perform under the environmental conditions of installation, and shall be constructed, installed, protected, worked and maintained in such a manner as to ensure safety of human beings, animals and property. It further provides for general conditions relating to use and supply of electricity, safety provisions for electrical installations and apparatus of voltage above and below 650V, safety requirements for overhead lines and underground cables, additional safety requirements for electric traction, mines & oilfields, renewable generating stations, electric vehicle charging station and high voltage direct current.

Electrical Equipment (Quality Control) Order, 2020

The Electrical Equipment (Quality Control) Order, 2020, as amended, has been issued under the Bureau of Indian Standards Act, 2016 to ensure that electrical equipment meets prescribed quality and safety standards. The Order mandates that certain classes of electrical products—including low-voltage switchgear and control gear such as circuit breakers, contactors, switches, disconnectors, fuse units, and control circuit devices—must conform to relevant Indian Standards (IS/IEC 60947 series) and be certified by the Bureau of Indian Standards (BIS). The Order provides for: (a) Compulsory BIS certification and ISI marking on all covered products; (b) Phased implementation timelines based on product category, voltage/current ratings, and test requirements, with compliance deadlines ranging from May 2025 to May 2028; (c) Submission of test reports and declarations confirming conformity with performance and electromagnetic compatibility (EMC) standards specified in the IS/IEC norms.

This Quality Control Order is intended to safeguard public safety, promote fair trade practices, improve product reliability, and align Indian manufacturing with global technical standards. Non-compliance may result in regulatory actions including withdrawal from market, penalties, or cancellation of BIS licenses.

International Electro-technical Commission (IEC) Standards

IEC is the leading standards organization that prepares and publishes International Standards for all electronic goods around the world. IEC standards cover a vast range of technologies from power generation, transmission and distribution to home appliances and office equipment, semiconductors, fiber optics, batteries, solar energy, nanotechnology and marine energy as well as many others. Currently, 89 countries are IEC members while another 85 participate in the Affiliate Country Program, which is not a form of membership but is designed to help industrializing countries get involved with the IEC. India is one of the full members of IEC. The international standards examine if the control panels satisfy market requirements and are safe for use. Considering the growing uncertainty of electronic markets, the IEC examines control panels under various standards that need to be kept in mind during the construction of panels.

The new IEC 61439 standard govern the safety and performance of electrical control panels and harmonises, as far as practical, all of the general rules and requirements that apply to switchgear and control gear assemblies and aims to align the requirements for assemblies, promote consistency in the verification of assemblies, and eliminates the need for designers and installers to verify their work to other standards. Specific subjects of wide interest, such as temperature rises and dielectric properties, have been gathered in Part 1 of the IEC 61439 series as general rules. More specific assembly standards are included as Part 2. Each assembly must meet both parts to comply with the standard.

Bureau of Indian Standards Act, 2016

The Bureau of Indian Standards Act, 2016, as amended, provides for the standardization, marking and quality certification of goods or articles of any scheduled industry, process, system or service which it considers necessary in the public interest or for the protection of human, animal or plant health, safety of the environment, or prevention of unfair trade practices, or national security. The Bureau of Indian Standards Act provides for the functions of the bureau which include, among others (a) recognize as an Indian standard, any standard established for any goods, article, process, system or service by any other institution in India or elsewhere; (b) specify a standard mark to be called the Bureau of Indian Standards Certification Mark; and (c) make such inspection and take such samples of any material or substance as may be necessary.

Bureau of Indian Standards Rules, 2018 (“Bureau of Indian Standards Rules”)

The Bureau of Indian Standards Rules have been notified, in supersession of the Bureau of Indian Standards Rules, 1987, in so far as they relate to Chapter IV A of the said rules relating to registration of the articles notified by the Central Government, and in supersession of the Bureau of Indian Standards Rules, 2017 except in relation to things done or omitted to be done before such supersession. Under the Bureau of Indian Standards Rules, the bureau is required to establish Indian standards in relation to any goods, article, process, system or service and shall reaffirm, amend, revise or withdraw Indian standards so established as may be necessary.

B. CORPORATE AND COMMERCIAL LAWS

The Micro, Small and Medium Enterprises Development Act, 2006

The Micro, Small, and Medium Enterprises Development (MSMED) Act, 2006, in India categorizes MSMEs based on investment levels and promotes their growth through registration benefits such as easier credit access and government support schemes. It mandates banks to offer collateral-free credit to MSMEs, encourages technological advancement, and simplifies statutory compliance. The Act aims to enhance MSMEs' competitiveness, foster innovation, and provide efficient dispute resolution mechanisms to support their contribution to the national economy.

Companies Act, 1956/2013

Companies Act primarily regulates the formation, financing, functioning and restructuring of separate legal entity as companies. The Act provides regulatory and compliance mechanism regarding all relevant aspects including organizational, financial and managerial aspects of companies. The provisions of the Act state the eligibility, procedure and execution for various functions of the company, the relation and action of the management and that of the shareholders. The law lays down transparency, corporate governance and protection of shareholders & creditors. The Companies Act plays the balancing role between these two competing factors, namely, management autonomy and investor protection.

Competition Act, 2002

The Competition Act, 2002 came into effect on June 1, 2011 and has been enacted to “prohibit anti- competitive agreements, abuse of dominant positions by enterprises” and regulates “combinations” in India. The Competition Act also established the Competition Commission of India (the “CCI”) as the authority mandated to implement the Competition Act. The Act prohibits Combinations which are likely to cause an appreciable adverse effect on competition in a relevant market in India. The CCI may enquire into all combinations, even if taking place outside India, or between parties outside India, if such combination is likely to have an appreciable adverse effect on competition in India.

Indian Contract Act, 1872

Indian Contract Act codifies the way we enter into a contract, execute a contract, implementation of provisions of a contract and effects of breach of a contract. The Act consists of limiting factors subject to which contract may be entered into, executed and breach enforced as amended from time to time. It determines the circumstances in which promise made by the parties to a contract shall be legally binding on them.

The Sale of Goods Act, 1930 (“Sale of Goods Act”)

Initially, a Committee of the Legislature had enacted the *Indian Sale of Goods Act, 1930* (III of 1930), section 65 of which repealed Chapter VII of the Indian Contract Act, 1872 which provides for Sale of Goods. Later, with an amendment in 1963, the name of the Act was changed to ***The Sale of Goods Act, 1930***. The Act governs contracts relating to the sale of goods. The contracts for sale of goods are subject to the general principles of the law relating to contracts, i.e., the Indian Contract Act, 1872. A contract for sale of goods has, however, certain peculiar features such as, transfer of ownership of the goods, delivery of goods, rights and duties of the buyer and seller, remedies for breach of contract, conditions and warranties implied under a contract for sale of goods, etc. which are the subject matter of the provisions of the Sale of Goods Act.

The Specific Relief Act, 1963

The Specific Relief Act is complimentary to the provisions of the Contract Act and the Transfer of Property Act, as the Act applies both to movable property and immovable property. The Act applies in cases where the Court can order specific performance of a contract. Specific relief can be granted only for purpose of enforcing individual civil rights and not for the mere purpose of enforcing a civil law. Specific performance means Court will order the party to perform his part of agreement, instead of imposing on him any monetary liability to pay damages to other party.

Negotiable Instruments Act, 1881

In India, any negotiable instruments such as cheques are governed by this Act, Section 138 of the Act, makes dishonour of cheques a criminal offence if the cheque is dishonoured on the ground of insufficiency of funds in the account maintained by a person who draws the cheque which is punishable with imprisonment as well as fine.

The Registration Act, 1908 (“Registration Act”)

The Registration Act was passed to consolidate the enactments relating to the registration of documents. The main purpose for which the Registration Act was designed to ensure information about all deals concerning land so that correct land records could be maintained. The Registration Act is used for proper recording of transactions relating to other immovable property also. The Registration Act provides for registration of other documents also, which can give these documents more authenticity. Registering authorities have been provided in all the districts for this purpose.

Indian Stamp Act, 1899 (the “Stamp Act”)

Under the Indian Stamp Act, 1899 (the “Stamp Act”) stamp duty is payable on instruments evidencing a transfer or creation or extinguishment of any right, title or interest in immovable property. Stamp duty must be paid on all instruments specified under the Stamp Act at the rates specified in the schedules to the Stamp Act. The applicable rates for stamp duty on instruments chargeable with duty vary from state to state. Instruments chargeable to duty under the Stamp Act, which are not duly stamped, are incapable of being admitted in court as evidence of the transaction contained therein and it also provides for impounding of instruments that are not sufficiently stamped or not stamped at all.

The Arbitration and Conciliation Act, 1996

This act was enacted by Parliament in the Forty-seventh Year of the Republic of India to consolidate and amend the law relating to domestic arbitration, international commercial arbitration and enforcement of foreign arbitral awards as also to define the law relating to conciliation.

The Insolvency and Bankruptcy Code, 2016

The Insolvency and Bankruptcy Code, 2016 (the “code”) cover Insolvency of individuals, unlimited liability partnerships, Limited Liability partnerships (LLPs) and companies. The Insolvency Regulator (The Insolvency and Bankruptcy Board of India) has been established to exercise regulatory oversight over (a) Insolvency Professionals, (b) Insolvency Professional Agencies and (c) Information Utilities.

The Consumer Protection Act, 2019

The Consumer Protection Act provides better protection to the interests of consumers. This is enabled with the establishment of consumer councils and other authorities for the settlement of consumers’ disputes and matters connected therewith. The Consumer Protection Act protects the consumers against any unfair/restrictive trade practice that has been adopted by any trader or service provider or if the goods purchased by him suffer from any defect or deficiency. In case of consumer disputes, the same can be referred to the redressal forums set up under the Act.

The Payment and Settlement Systems Act, 2007

The Act provides for the regulation and supervision of payment systems in India and to designate the Reserve Bank of India as the authority for that purpose and for matters connected therewith or incidental thereto. The Act states that no person shall commence or operate a payment system without authorization of the RBI. Legal Entity Identifier [LEI] is a unique identity code assigned to a person by an issuer for the purpose of identifying that person in such derivatives or financial transactions, as may be specified by the Reserve Bank from time to time.

C. INDUSTRIAL LAWS, LABOUR AND EMPLOYMENT LAWS

Industrial (Development and Regulation) Act, 1951 along with the Registration and Licensing of Industrial Undertakings Rules, 1952

This Act has been liberalized under the New Industrial Policy dated July 24th, 1991, and all industrial undertakings have been made exempt from licensing except for certain industries such as distillation and brewing of alcoholic drinks, cigars and cigarettes of tobacco and manufactured tobacco substitutes, all types of electronic aerospace and defense equipment, industrial explosives including detonating fuses, safety fuses, gun powder, nitrocellulose and matches and hazardous chemicals and those reserved for the small scale sector. An industrial undertaking, which is exempt from licensing, is required to file an Industrial Entrepreneurs Memorandum (“IEM”) with the Secretariat for Industrial Assistance, Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India, and no further approvals are required.

The Registration and Licensing of Industrial Undertakings Rules, 1952, provides the rules for granting registration certificates and licenses to industrial undertakings. These rules are related to the Industries (Development and Regulation) Act, 1951 (IDRA), which regulates the development and control of certain industries in India. The IDRA was enacted to ensure fair competition and equitable distribution of economic opportunities.

The Maharashtra Labour Welfare Fund Act, 1953 and The Maharashtra Labour Welfare Fund Rules, 1953

The Maharashtra Labour Welfare Fund Act, 1953 and its Rules, 1953 mandate the registration of establishments with the Maharashtra Labour Welfare Board (MLWB) and require periodic contributions to a Labour Welfare Fund by both employers and employees. These contributions, typically made biannually, are used to finance welfare initiatives such as healthcare, education, housing, and recreational facilities for workers. Employers must also file returns and maintain relevant records for compliance. The Act applies to factories, commercial establishments, and other notified sectors in Maharashtra. Non-compliance with the provisions can result in penalties and legal action under the Act.

Child Labour (Prohibition and Regulation) Act, 1986

This statute prohibits employment of children below 14 years of age in certain occupations and processes and provides for regulation of employment of children in all other occupations and processes. The main objective of the Child Labour (Prohibition and Regulation) Act is to regulate, prevent and protect underage children from being employed in hazardous occupations and to regulate the working conditions in other occupations.

The Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013 (“SHWW Act”)

The Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013 provides for the protection of women at work place and prevention of sexual harassment at work place. The Act also provides for a redressal mechanism to manage complaints in this regard. Sexual harassment includes one or more of the following acts or behaviour namely, physical contact and

advances or a demand or request for sexual favours or making sexually coloured remarks, showing pornography or any other unwelcome physical, verbal or non-verbal conduct of sexual nature. The Act makes it mandatory for every employer of a workplace to constitute an Internal Complaints Committee which shall always be presided upon by a woman. It also provides for the manner and time period within which a complaint shall be made to the Internal Complaints Committee i.e. a written complaint is to be made within a period of 3 (three) months from the date of the last incident. If the establishment has less than 10 (ten) employees, then the complaints from employees of such establishments as also complaints made against the employer himself shall be received by the Local Complaints Committee. The penalty for non-compliance with any provision of the SHWW Act shall be punishable with a fine extending to Rs. 50,000/- (Rupees Fifty Thousand Only).

The Employees Provident Fund and Miscellaneous Provisions Act, 1952 ("EPF Act") and the schemes formulated there under ("schemes")

The Employees Provident Funds and Miscellaneous Provisions Act, 1952 ("EPF Act") was introduced with the object to institute compulsory provident fund for the benefit of employees in factories and other establishments. The EPF Act provides for the institution of provident funds and pension funds for employees in establishments where more than 20 (twenty) persons are employed and factories specified in Schedule I of the EPF Act. Under the EPF Act, the Central Government has framed the "Employees Provident Fund Scheme", "Employees Deposit-linked Insurance Scheme" and the "Employees Family Pension Scheme". Liability is imposed on the employer and the employee to contribute to the funds mentioned above, in the manner specified in the statute. There is also a requirement to maintain prescribed records and registers and filing of forms with the concerned authorities. The EPF Act also prescribes penalties for avoiding payments required to be made under the abovementioned schemes.

Employees' Compensation Act, 1923

The Employee's Compensation Act, 1923 has been enacted with the objective to provide for the payment of compensation by certain classes of employers to their workmen or their survivors for industrial accidents and occupational diseases resulting in the death or disablement of such workmen. The Act makes every employer liable to pay compensation in accordance with the Act if a personal injury/disablement/loss of life is caused to a workman (including those employed through a contractor) by an accident arising out of and in the course of his employment. In case the employer fails to pay compensation due under the Act within one month from the date it falls due, the Commissioner may direct the employer to pay the compensation amount along with interest and may also impose a penalty.

The Employees State Insurance Act, 1948

All the establishments to which the Employees State Insurance (ESI) Act applies are required to be registered under the Act with the Employees State Insurance Corporation. The Act applies to those establishments where 20 or more persons are employed. The Act requires all the employees of the factories and establishments to which the Act applies to be insured in the manner provided under the Act. Further, employer and employees both are required to make contribution to the fund. The return of the contribution made is required to be filed with the ESI department. The Employees' State Insurance Rules, 1950 ensure implementation of the provisions of the Employees' State Insurance Act, 1948.

Factories Act, 1948

The Factories Act, 1948 ("Factories Act") seeks to regulate labour employed in factories and makes provisions for the safety, health and welfare of the workers. The term 'factory', as defined under the Factories Act, means any premises which employs or has employed on any day in the previous 12 (twelve) months, 10 (ten) or more workers and in which any manufacturing process is carried on with the aid of power, or any premises wherein 20 (twenty) or more workmen are employed at any day during the preceding 12 (twelve) months and in which any manufacturing process is carried on without the aid of power. An occupier of a factory under the Factories Act, means the person who has ultimate control over the affairs of the factory. The occupier or manager of the factory is required to obtain a registration for the factory. The Factories Act also requires inter alia the maintenance of various registers dealing with safety, labour standards, holidays and extent of child labour including their conditions. Further, notice of accident or dangerous occurrence in the factory is to be provided to the inspector by the manager of the factory. State Government sets out rules in respect of the prior submission of plans, their approval for the registration of the establishment, and licensing of factories.

The Maharashtra Factories Rules 1963

According to the Maharashtra Factories Rules, No building in a factory shall be constructed reconstructed or extended nor shall any manufacturing process be carried or in any building constructed or extended or taken into use as a factory or part of a factory after the date of the enforcement of this rule, unless previous permission in writing is obtained from the State Government or the Chief Inspector.

According to the Factories Act, any person who wants to construct, extend or take into use any building a factory in any state including Maharashtra has to get prior permission from the respective authority in advance before the commencement of the manufacturing business. The Act is applicable to all factories, including State and Central Government, in the premises wherein:

- 10 or more workers are employed with the use of power.
- 20 or more workers are employed without the use of power.
- Less than 10 workers, if activity is notified by the State Government.
- Engaged in manufacturing activities.

Maharashtra Fire Prevention and Life Safety Measures Act, 2006; Maharashtra Fire Prevention and Life Safety Rules in 2009; and Maharashtra Fire Prevention and Life Safety Measures (Amendment) Act, 2023

The Maharashtra Fire Prevention and Life Safety Measures Act, 2006, also known as the Fire Act, is a law that establishes fire safety standards and regulations for buildings in the state of Maharashtra. Building owners must comply with these norms to obtain occupancy certificate. In the year 2009, the Maharashtra Fire Prevention and Life Safety Rules were notified by the Government of Maharashtra. These rules are in addition to the Act, and covered specific issues and procedures relating to fire inspections, license applications, and reporting, among others. The Government of Maharashtra on June 27, 2023, published the Maharashtra Fire Prevention and Life Safety Measures (Amendment) Act, 2023 to further amend the Maharashtra Fire Prevention and Life Safety Measures Act, 2006.

Industrial Employment Standing Orders Act, 1946

The Industrial Employment Standing Orders Act, 1946 is an act of the Parliament of India that provides a framework for regulating conditions of employment in certain industries. It was enacted as a part of the post-independence labour reform efforts. The Act defines an 'industrial establishment' as one where at least 100 persons are employed at any time during the preceding 12 months. A standing order is a rule made by an employer establishing a system or method of working or regulating any aspect of employment in an industrial establishment. The standards ensure that employees have access to safe working conditions, social security benefits, education facilities etc. These agreements must be registered with a labour officer, who can enforce compliance with them.

The Industrial Employment Standing Orders Act seeks to improve the living and working conditions of workers by providing better pay and benefits such as leave, health care, etc. It also aims to ensure that employers do not abuse their power by making unilateral decisions about wages, benefits or other conditions of employment without consulting workers' representatives (if any).

Industrial Disputes Act, 1947

The act was drafted to make provision for the investigation and settlement of industrial disputes and to secure industrial peace and harmony by providing mechanisms and procedures for the investigation and settlement of industrial disputes by conciliation, arbitration and adjudication which is provided under the statute.

This Act was passed with the key objective of “Maintenance of Peaceful work culture in the Industry in India” which is mentioned under the Statement of Objects & Reasons of the statute.

The Industrial Dispute Act also lays down:

1. The provision for payment of compensation to the workman on account of closure or layoff or retrenchment.
2. The procedure for prior permission of the appropriate Government for laying off or retrenching the workers or closing down industrial establishments
3. The actions to be taken against unfair labour practices on the part of an employer, a trade union or workers.

The other Labour laws applicable to the Company are:

- Minimum Wages Act, 1948
- Payment Of Wages Act, 1936
- Employees' Provident Funds and Miscellaneous Provisions Act, 1952
- Payment Of Gratuity Act, 1972
- Payment Of Bonus Act, 1965
- The Maternity Benefit Act, 1961
- The Equal Remuneration Act, 1976 And Equal Remuneration Rules, 1976
- The Child and Adolescent Labour (Prohibition And Regulation) Act, 1986
- Apprentices Act, 1961

The Government of India has consolidated 29 central Labour laws into four Codes namely Code of Wages 2019, The Code on Social Security, 2020, The Industrial Relations Code, 2020 and Occupational Safety, Health and Working

Conditions Code, 2020. All these codes have received the assent of President of India. Brief descriptions of each of the codes are given below:

Code of Wages, 2019

The Code aims to consolidate the laws relating to wages and bonus and matters connected therewith or incidental thereto. It received the assent of President of India on August 08, 2019. The Code contains procedure for fixing minimum wage, limit for fines and deductions in wages, minimum and maximum bonus, calculation of allocable and available surplus, as well as gender neutral consideration in fixing wages. The Code has given the power to Central Government to fix a “floor wage” and the State governments cannot fix any minimum wage less than the “floor wage”. The Code will apply to all employees. The central government will make wage-related decisions for employments such as railways, mines, and oil fields, among others. State governments will make decisions for all other employments. Wages include salary, allowance, or any other component expressed in monetary terms. This does not include bonus payable to employees or any travelling allowance, among others. The central or state government may fix the number of hours that constitute a normal working day. In case employees work in excess of a normal working day, they will be entitled to overtime wage, which must be at least twice the normal rate of wages. The Code prohibits gender discrimination in matters related to wages and recruitment of employees for the same work or work of similar nature. Work of similar nature is defined as work for which the skill, effort, experience, and responsibility required are the same.

The Code on Social Security, 2020

The Code on Social Security, 2020, is a comprehensive legislation in India designed to consolidate and amend existing laws relating to social security with the aim of extending social security benefits to all employees and workers, including those in the unorganized sector. This Code merges nine existing laws: the Employees’ Provident Funds and Miscellaneous Provisions Act, 1952; the Employees’ State Insurance Act, 1948; the Employees’ Compensation Act, 1923; the Maternity Benefit Act, 1961; the Payment of Gratuity Act, 1972; the Cine Workers Welfare Fund Act, 1981; the Building and Other Construction Workers Welfare Cess Act, 1996; the Unorganized Workers’ Social Security Act, 2008; and the Employment Exchanges (Compulsory Notification of Vacancies) Act, 1959.

The Code on Social Security, 2020, aims to create a universal social security system for all workers, including those in the gig and platform economy. It mandates the establishment of a Social Security Fund to provide benefits such as provident fund, employment injury benefits, housing, educational schemes for children, skill upgradation, funeral assistance, and old-age homes. The Code also outlines the roles and responsibilities of various bodies such as the Central Board of Trustees of the Employees’ Provident Fund and the Employees’ State Insurance Corporation in administering social security schemes. Additionally, the Code includes provisions for the registration of all employees and workers to ensure they receive their entitled benefits. It emphasizes the use of technology for the implementation and monitoring of social security schemes to improve transparency and efficiency. Employers are required to contribute to various social security funds, and the government may provide financial support to ensure the sustainability of these schemes.

The Industrial Relations Code, 2020

This Code received the assent of President of India on September 28, 2020 though the implementation of the same is yet to be notified. The Code aims to streamline the laws regulating industrial disputes and trade unions in India. For the benefit of the employers, the Code has introduced various aspects such as increasing the threshold of workers to three hundred (300) for obtaining the consent of the concerned government in case of lay off, retrenchment or closure of the establishment, notice of change not required to be given subject to the conditions stipulated in the Code, increasing the wage threshold to INR 18,000 (Indian Rupees Eighteen Thousand) for exclusion from the definition of worker, etc. the Industrial Relations Code also introduces the concept of deemed certification of standing orders. The Code subsumes three labour laws relating to industrial relations, namely, the Trade Unions Act, 1926, the Industrial Employment (Standing Orders) Act, 1946 and the Industrial Disputes Act, 1947

Occupational Safety, Health and Working Conditions Code, 2020

The Occupational Safety, Health and Working Conditions Code, 2020 (OSH Code) is one of three new labor codes that will consolidate the bulk of labor legislation in India and streamline labor compliance besides expanding the social security net for workers. This Code received the assent of President of India on September 28, 2020 though the implementation of the same is yet to be notified. Rules to implement the Code are expected to be finalized in the next few weeks.

New establishments covered by the OSH Code must register themselves (within 60 days of commencement of the Code) with registering officers appointed by the appropriate government. Establishments already registered under any other federal law will not be required to register again.

Every employer is directed to undertake the following obligations by the OSH Code:

- Ensure that the workplace is free from hazards can cause injury or occupational disease to the employees and comply with the OSH Code and the government’s directions on the same;

- Provide free annual health examination or testing, free of cost, to certain classes of employees;
- Provide and maintain, as reasonably practical, a working environment that is safe and without risk to the health of the employees;
- Issue letters of appointments to employees; and
- Ensure that no charge is levied on any employee for maintenance of safety and health at workplace, including the conduct of medical examination and investigation for the purpose of detecting occupational diseases.

This Code shall subsume more than 10 labour laws including Factories Act 1948, Contract Labour Act 1970 and Mines Act 1952.

D. ENVIRONMENTAL LAWS

Environment Protection Act, 1986 and Environment (Protection) Rules, 1986 (“Environment Rules”) and Guidelines to regulate and control ground water extraction in India, 2020 as amended in 2023

The Environmental Protection Act, 1986 is an "umbrella" legislation designed to provide a framework for coordination of the activities of various central and state authorities established under various laws. The potential scope of the Act is broad, with "environment" defined to include water, air and land and the interrelationships which exist among water, air and land, and human beings and other living creatures, plants, micro-organisms and property.

The Environment Rules were notified by the Central Government, in exercise of its powers under the Environment Act. Pursuant to the Environment Rules, every person who carries on an industry, operation or process requiring consent under Water (Prevention and Control of Pollution) Act, 1974 or Air (Prevention and Control of Pollution) Act, 1981, shall submit to the concerned Pollution Control Board (“PCB”) an environmental statement for that financial year in the prescribed form.

The Environment Impact Assessment Notification 2006, under India's Environment Protection Act, 1986, mandates environmental assessments for projects with potential ecological impacts. It requires prior Environmental Clearance (EC) for activities in sectors like industry, infrastructure, and mining. Projects are categorized into Category A (central-level appraisal) and Category B (state-level appraisal) based on their environmental impact. The process involves Screening, Scoping, Public Consultation, and Appraisal, ensuring public participation and sustainable development.

For a wire manufacturing unit, the notification applies if the unit's operations involve significant use of resources, hazardous chemicals, or emissions affecting air, water, or soil quality. Depending on the scale and impact, such units might require EC, ensuring compliance with environmental norms and sustainable practices before establishment or expansion.

The Guidelines to regulate and control Groundwater Extraction ensure sustainable use through mandatory registration and NOCs for industries and commercial users. Areas are categorized as safe, semi-critical, critical, or over-exploited based on groundwater levels. Exemptions may apply to agriculture and rural drinking water. Monitoring mechanisms track extraction and ensure compliance. Violations attract penalties to prevent over-extraction and misuse. These measures balance development needs with groundwater sustainability.

Water (Prevention and Control of Pollution) Act, 1974

The Water (Prevention and Control of Pollution) Act, 1974 prohibits the discharge of pollutants into water bodies beyond a given standard, and lays down penalties for non-compliance. The Water Act also provides that the consent of the State Pollution Control Board must be obtained prior to opening of any new outlets or discharges, which is likely to discharge sewage or effluent.

The Water (Prevention and Control of Pollution) Cess Act, 1977

Provides for the levy and collection of a cess on water consumed by persons carrying on certain industries and by local authorities, with a view to augment the resources of the Central Board and the State Boards for the prevention and control of water pollution constituted under the Water (Prevention and Control of Pollution) Act, 1974.

Air (Prevention and Control of Pollution) Act, 1981 (“Air Act”)

The Air Act aims to prevent, control and abate air pollution, and stipulates that no person shall, without prior consent of the relevant state pollution control board, establish or operate any industrial plant which emits air pollutants in an air pollution control area. Such person also cannot discharge or cause or permit to be discharged the emission of any air pollutant in excess of the standards laid down by the State Boards. The central pollution control board and the state pollution control boards constituted under the Water Act perform similar functions under the Air Act as well. Pursuant to the provisions of the Air Act, any person establishing or operating any industrial plant within an air pollution control area, must obtain the consent of the relevant state pollution control board prior to establishing or operating such industrial plant.

The Noise Pollution (Regulation & Control) Rules 2000 (“Noise Regulation Rules”)

The Noise Regulation Rules regulate noise levels in industrial, commercial and residential zones. The Noise Regulation Rules also establish zones of silence of not less than 100 meters near schools, courts, hospitals, etc. The rules also assign regulatory authority for these standards to the local district courts. Penalty for non-compliance with the Noise Regulation Rules shall be under the provisions of the Environment (Protection) Act, 1986.

Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016 (“Hazardous Waste Rules”) as amended by the Hazardous and Other Wastes (Management and Transboundary Movement) Amendment Rules, 2022

The Hazardous Waste Rules regulate the management, treatment, storage and disposal of hazardous waste by imposing an obligation on every occupier and operator of a facility generating hazardous waste to dispose of such waste without harming the environment. The term “hazardous waste” has been defined in the Hazardous Waste Rules and any person who has, control over the affairs of the factory or the premises or any person in possession of the hazardous waste has been defined as an “occupier”. Every occupier and operator of a facility generating hazardous waste must obtain authorization from the relevant state pollution control board. Further, the occupier, importer or exporter is liable for damages caused to the environment resulting from the improper handling and disposal of hazardous waste and must pay any financial penalty that may be levied by the respective state pollution control board.

E-waste Management Rules, 2016 (Amended on 01.04.2023 as E-waste Management Rule, 2022)

These rules shall apply to every manufacturer, producer refurbisher, dismantler and recycler involved in manufacture, sale, transfer, purchase, refurbishing, dismantling, recycling and processing of e-waste or electrical and electronic equipment listed in Schedule I including their components, consumables, parts and spares which make the product operational but the said rules will not apply to waste batteries, packaging plastics, radio-active wastes as they are covered under their respective rules separately.

It is mandatory for all the entities to get registration under the category of Manufacturer, producer, refurbisher or recycler. All the refurbisher shall have the responsibility to collect e-waste generated during process of refurbishing and hand over the waste to registered recycler and upload information on the portal and they are required to file annual and quarterly returns in the laid down form on the portal. All the refurbisher shall ensure that the refurbished equipment shall be as per compulsory registration scheme of the Ministry of Electronics and Information Technology and Standards of Bureau of Indian Standards framed for this purpose.

Any person, who provides incorrect information required under these rules for obtaining extended producer responsibility certificates, uses or causes to be used false or forged extended producer responsibility certificates in any manner, willfully violates the directions given under these rules or fails to cooperate in the verification and audit proceedings, may be prosecuted under section 15 of the Act, 1986 and this prosecution shall be in addition to the environmental compensation levied under rule 22.

Plastic Waste Management Rules, 2022

The Plastic Waste Management Rules 2022 India will have a far-reaching impact on the environment. The new rules will prohibit the use of certain types of plastic including rigid plastics and mandate the recycling of others. They will also establish standards for the collection and disposal of plastic waste. The said rules mandate the generators of plastic waste to take steps to minimize generation of plastic waste, not to litter the plastic waste, ensure segregated storage of waste at source & hand over segregated waste in accordance with rules. Under this act, it shall be ensured that standard biodegradable plastic, other than compostable plastics, undergoes complete degradation by biological processes under ambient environment (terrestrial or in water) conditions, in specified time periods, without leaving any micro plastics, or visible, distinguishable or toxic residue, which has adverse environment impacts, following appropriate standards developed by Bureau of Indian Standards and certified by Central Pollution Control Board.

Guidelines on Implementing Liabilities for Environmental Damages due to Handling and Disposal of Hazardous Waste and Penalty, 2016

Organizations generating hazardous waste must comply with environmental laws and adhere to principles like the Polluter Pays Principle and Extended Producer Responsibility (EPR). They are required to identify, document, and dispose of hazardous waste safely through approved methods, such as incineration or secure landfills. Non-compliance can result in penalties, including fines, operational restrictions, criminal charges, or mandates to restore affected environments. Companies must implement preventive measures like waste segregation, proper storage, and regular environmental audits. For manufacturing units, such as wire factories, liabilities apply to improper disposal of heavy metals, chemical solvents, and non-biodegradable polymers. Ensuring compliance minimizes environmental harm and legal risks.

The Public Liability Insurance Act, 1991

An Act to provide for public liability insurance for the purpose of providing immediate relief to the persons affected by accident occurring while handling any hazardous substance and for matters connected therewith or incidental thereto. This act came into force as on 1st April, 1991, vide notification no. G.S.R 253, dated 27th March, 1991.

The maintenance of Books of Accounts and relevant supporting documents and registers are mandatory under the Act. Filing of returns of Income is compulsory for all assesses. The maintenance of Books of Accounts and relevant supporting documents and registers are mandatory under the Act.

The Central Goods and Services Tax Act, 2017

The Central Goods and Services Tax Act, 2017 received assent of the President on 12th April 2017 and came into force from 1st July 2017. Goods and Service Tax (GST) is an indirect tax levied on the supply of goods and services. This law has replaced many indirect tax laws that previously existed in India such as Service tax, Central Excise Act, Entry Tax, Octroi, Additional customs duty and other draconian indirect taxes. There are 3 taxes applicable under this system- CGST, SGST, IGST.

CGST: is collected by the Central Government on an intra-state sale;

SGST: Collected by the State Government on an intra-state sale;

IGST: Collected by the Central Government for inter-state sale.

Following laws which have been subsumed in GST Acts were applicable to the Company till 30th June 2017 and shall remain applicable here after as stated in the GST ACTS.

Central Excise Act, 1944 and Excise Regulations

The Central Excise Act, 1944 sought to impose an excise duty on excisable goods which are produced or manufactured in India. Excise duty was levied on production of goods but the Liability of excise duty arose only on removal of goods from the place of storage, i.e., factory or warehouse.

Central Sales Tax Act, 1956

Central Sales Tax ("CST") was levied in accordance with the Central Sales Tax Act, 1956 on movable goods sold in the course of inter-state trade or commerce. CST was payable by a dealer (i.e. a person who carries on the business of buying, selling, supplying or distributing goods) on his sales turnover at the rate prescribed in the VAT statute of the State from where the movement of the goods originate.

State laws governing Entry Tax

Entry Tax provides for the levy and collection of tax on the entry of goods into the local areas of the state for consumption, use or sale therein and matters incidental thereto and connected therewith. It was levied at such rate as may be specified by the State Government and different rates may be specified for different goods.

Service Tax, (the 'Finance Act, 1994')

Service tax was charged on taxable services as defined in Chapter V of Finance Act, 1994, which required a service provider of taxable services to collect service tax from a service recipient and pay such tax to the Government.

There are other indirect taxes which are now subsumed under GST and these are Additional Duties of Excise, Cess, Purchase Tax, Taxes on advertisements.

Customs Act, 1962

The provisions of the Customs Act, 1962 and rules made there under are applicable at the time of import of goods i.e. bringing into India from a place outside India or at the time of export of goods i.e. taken out of India to a place outside India. Any Company requiring to import or export any goods is first required to get it registered and obtain an IEC (Importer Exporter Code).

The Maharashtra Goods and Services Tax Act, 2017

The Goods and Services Tax Act, 2017 contains provisions for the levy and collection of tax on intra-state supply of goods or services or both. It lays down eligibility and conditions for taking input tax credit, provisions relating to audit, inspection, search, seizure, arrest, demands and recovery and also prescribes penalties for offences under the Act.

The Maharashtra State Tax on Professions, Trades, Callings and Employments Act, 1975

The **Maharashtra Professional Tax Act, 1975** regulates the levy of professional tax on individuals engaged in professions, trades, employments, and businesses in Maharashtra. Employers are responsible for deducting the tax from salaries and remitting it, while self-employed individuals must register and pay directly. The tax is based on income slabs, with a maximum annual limit of ₹2,500. Returns and payments must be made monthly or annually as applicable. Non-compliance results in penalties and interest. Certain groups, such as senior citizens and individuals with disabilities, are exempt. The Act generates state revenue and is administered by the Profession Tax Officer.

F. FOREIGN REGULATIONS

The Foreign Trade (Development & Regulation) Act, 1992

The Foreign Trade (Development & Regulation) Act, 1992 [herein after FTA], provides for the development and regulation of foreign trade by facilitating imports into and augmenting exports from India and for matters connected therewith or incidental thereto. As per the provisions of the FTA, the Government: (i) may make provisions for facilitating and controlling foreign trade; (ii) may prohibit, restrict and regulate exports and imports, in all or specified cases as well as subject them to exemptions; (iii) is authorized to formulate and announce an export and import policy and also amend the same from time to time, by notification in the Official Gazette; (iv) is also authorized to appoint a 'Director General of Foreign Trade' for the purpose of the Act, including formulation and implementation of the Export-Import Policy. FTA read with the Indian Foreign Trade Policy inter-alia provides that no export or import can be made by a company without an Importer-Exporter Code number unless such company is specifically exempt. An application for an Importer-Exporter Code number has to be made to the office of the Joint Director General of Foreign Trade, Ministry of Commerce.

Importer-Exporter Code (IEC)

The Foreign Trade (Development and Regulation) Act, 1992, defines importer-exporter code in Section 2 clause (f). IEC is a key business identification number which is mandatory for Exports or Imports. No person shall make any import or export except under an IEC Number granted by the DGFT. In case of import or export of services or technology, the IEC shall be required only when the service or technology provider is taking benefits under the Foreign Trade Policy or is dealing with specified services or technologies

Foreign Exchange Management Act, 1999 (“the FEMA”) and Rules and Regulations thereunder

Export of goods and services outside India is governed by the provisions of the Foreign Exchange Management Act, 1999 (“FEMA”), read with the applicable regulations. The Foreign Exchange Management (Export of goods and services) Regulations, 2000 have been superseded by the Foreign Exchange Management (Export of Goods and Services) Regulations, 2015 ("Export of Goods and Services Regulations 2015") issued by the RBI on January 12, 2016 [last amended on June 23, 2017]. The RBI has also issued a Master Circular on Export of Goods and Services. The export is governed by these Regulations which make provisions such as declaration of exports, procedure of exports as well as exemptions.

Foreign Trade Policy 2023

Foreign Trade Policy 2023 The Central Government of India in exercise of powers conferred under Section 5 of the Foreign Trade (Development & Regulation) Act, 1992 (No. 22 of 1992) [FT (D&R) Act], as amended, has notified Foreign Trade Policy (FTP) 2023 which is effective from April 01, 2023, and shall continue to be in operation unless otherwise specified or amended. It provides for a framework relating to export and import of goods and services. All exports and imports made up to 31.03.2023 shall, accordingly, be governed by the relevant FTP, unless otherwise specified.

G. INTELLECTUAL PROPERTY LAWS

The Trademarks Act, 1999 (“Trademarks Act”)

Under the Trademarks Act, a trademark is a mark capable of being represented graphically and which is capable of distinguishing the goods or services of one person from those of others used in relation to goods and services to indicate a connection in the course of trade between the goods and some person having the right as proprietor to use the mark. Section 18 of the Trademarks Act requires that any person claiming to be the proprietor of a trade mark used or proposed to be used by him, must apply for registration in writing to the registrar of trademarks. The right to use the mark can be exercised either by the registered proprietor or a registered user. The present term of registration of a trademark is 10 (ten) years, which may be renewed for similar periods on payment of a prescribed renewal fee.

DIVIDEND POLICY

Under the Companies Act, 2013, our Company can pay dividends upon a recommendation by its Board of Directors and approval by a majority of the shareholders at the General Meeting and as per provisions of Articles of Association of our Company. The shareholders of the Company have the right to decrease but not to increase the amount of dividend recommended by the Board of Directors. The dividends may be paid out of profits of our Company in the year in which the dividend is declared or out of the undistributed profits or reserves of previous fiscal years or out of both.

The Articles of Association of our Company also gives the discretion to our Board of Directors to declare and pay interim dividends. No dividend shall be payable for any financial year except out of profits of our Company for that year or that of any previous financial year or years, which shall be arrived at after providing for depreciation in accordance with the provisions of Companies Act, 2013. All Dividends upon recommendation by our Board of Directors and approved by the shareholders at the General Meeting will be paid to credit of registered shareholders by way of cheque or warrant or in any electronic mode.

Our Company does not have a formal dividend policy for declaration of dividend in respect of Equity shares. The declaration and payment of dividend will be recommended by our Board of Directors and approved by the shareholders of our Company at their discretion and will depend on a number of factors, including the results of operations, earnings, capital requirements and surplus, general financial conditions, applicable Indian legal restrictions and other factors considered relevant by our Board of Directors.

Our Company has not declared any dividend on the Equity Shares in the last three financial years. Further, Our Company has not declared any dividend in the current Fiscal. There is no guarantee that any dividends will be declared or paid in future. Our Company's corporate actions pertaining to payment of dividends in the past are not to be taken as being indicative of the payment of dividends by our Company in the future. For details in relation to the risk involved, please refer section titled "**Risk Factors**" on Page No. 29 of this Draft Red Herring Prospectus.

ANNEXURE - IV: SIGNIFICANT ACCOUNTING POLICIES AND NOTES TO THE RESTATED SUMMARY STATEMENTS

A. BACKGROUND

VIVID ELECTROMECH LIMITED (FORMERLY KNOWN AS VIVID ELECTROMECH PRIVATE LIMITED) was originally incorporated as a private limited company on 10th August, 1990 with CIN: U31200MH1990PTC057679 under the provisions of the Companies Act, 1956. The company has its registered office at A-173/7, TTC Industrial Area, MIDC Industrial Area, Kopar Khairane, Navi Mumbai - 400 710.

Subsequently, Company was converted into Public Limited Company vide special resolution passed by our shareholders at the Extra Ordinary General Meeting held on 21st December, 2024 and the name of the Company was changed to VIVID ELECTROMECH LIMITED ('the Company' or the "Issuer") pursuant to issuance of Fresh Certificate of Incorporation dated 12th February, 2025 Registrar of Companies, Mumbai with CIN: U31200MH1990PLC057679.

The company is engaged in the business of Manufacturing electricity distribution and control apparatus [electrical apparatus for switching or protecting electrical circuits (e.g. switches, fuses, voltage limiters, surge suppressors, junction boxes etc.) for a voltage exceeding 1000 volts; similar apparatus (including relays, sockets etc.) for a voltage not exceeding 1000 volts; boards, panels, consoles, cabinets and other bases equipped with two or more of the above apparatus for electricity control or distribution of electricity including power capacitors.]

B. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

1. Basis for Preparation

The summary statement of restated assets and liabilities of the Company as at 31st March, 2025, 31st March 2024, and 31st March, 2023 and the related summary statement of restated profit and loss and cash flows for the year ended 31st March 2025, 31st March 2024 & 31st March 2023 (collectively referred to as the "Restated summary of financial information") have been prepared specifically for the purpose of inclusion in the offer document to be filed by the Company in connection with the proposed Initial Public Offering (hereinafter referred to as 'IPO').

The financial statements of the Company have been prepared in accordance with the Generally Accepted Accounting Principles in India (Indian GAAP) to comply with the Accounting standards specified under section 133 of the Companies Act, 2013, of the Companies (Accounts) Rules, 2014 and the relevant provisions of the Companies Act, 2013 ("the 2013 Act"), as applicable and Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) regulations 2018, as amended (the "Regulations"). The financial statements have been prepared on accrual basis under the historical cost convention. The accounting policies adopted in the preparation of the financial statements are consistent with those followed in the previous year.

The financial statements are presented in INR, which is also the Company's functional currency and all values are rounded to the nearest lakhs, except when otherwise indicated.

2. Use of Estimates

The preparation of the financial statements in conformity with Generally Accepted Accounting Principles requires the Management to make estimates and assumptions that affect the reported balances of assets and liabilities and disclosures relating to contingent assets and liabilities as at the date of the financial statements and the reported amounts of income and expenses during the year. Examples of such estimates include provisions for doubtful debts, income taxes, and the useful lives of Property Plant and Equipments and intangible assets.

3. Revenue Recognition

Revenue is recognized in accordance with AS 9 – Revenue Recognition, as follows:

Sale of Goods and Services: Revenue is recognized on an accrual basis, when significant risks and rewards of ownership are transferred to the buyer, there is reasonable certainty of ultimate collection, and no significant obligations remain.

Interest Income: Recognized on an accrual basis using the time proportion method, considering the amount outstanding and the applicable interest rate.

Dividend Income: Recognized when the right to receive the income is established, usually when the dividend is declared.

Export Incentives: Recognized on an accrual basis only when there is reasonable certainty of realization.

Other Income: Recognized on an accrual basis, considering the going concern assumption, and following generally accepted accounting principles.

4. Property, plant and equipment

Property, Plant, and Equipment are stated at historical cost less accumulated depreciation and impairment losses, if any. Cost comprises the purchase price net of any trade discounts and rebates, any import duty and other taxes (other than those subsequently recoverable from the tax authorities), any directly attributable cost of bringing the asset to its working condition of its intended use, other incidental expenses and interest on borrowings attributable to acquisitions of qualifying property plant and equipment upto the date the asset is ready for its intended use. Any subsequent expenses related to a Property plant and equipment is added to its book value only if it increases the future benefits from the existing asset beyond its previously assessed standard of performance. All other day to day repairs and maintenance expenditure and the cost of replacing parts, are charged to the Statement of Profit and Loss for the year during which such expenses are incurred.

5. Revaluation of Assets

The Company has adopted the revaluation model for certain classes of Property, Plant and Equipment (PPE) in accordance with the Accounting Standard (AS) 10. PPE is initially recognized at cost and subsequently revalued at fair value at periodic intervals. Any increase in value on revaluation is credited to the Revaluation Reserve under Other Equity, while any decrease is charged to the Statement of Profit and Loss, except where it offsets an existing surplus in the Revaluation Reserve for the same asset. Depreciation is provided on the revalued amount over the remaining useful life of the asset.

6. Depreciation & Amortisation

The Company provides depreciation on Written Down Value (WDV) method, in accordance with Schedule II of the Companies Act, 2013.

The depreciation rates are determined based on the estimated useful life of each asset category as prescribed under Schedule II of the Companies Act, 2013.

Intangible Assets are amortised on a straight line basis over a period of 3 years.

7. Impairment

In accordance with Accounting Standard (AS) 28 - Impairment of Assets, the carrying amount of PPE is reviewed at each balance sheet date to assess whether there is any indication of impairment.

If such an indication exists, the recoverable amount of the asset is estimated, and an impairment loss is recognized in the Statement of Profit and Loss if the carrying amount exceeds the recoverable amount

8. Other intangible assets

Intangible assets are stated at cost less accumulated amortization and impairment. Intangible assets are amortized over their respective individual estimated useful lives on a SLM basis, from the date that they are available for use. The estimated useful life of an identifiable intangible asset is based on a number of factors including the effects of obsolescence, demand, competition, and other economic factors (such as the stability of the industry, and known technological advances), and the level of maintenance expenditures required to obtain the expected future cash flows from the asset. Amortization methods and useful lives are reviewed periodically including at each financial year end.

9. Foreign Currency Transactions:

Transactions in foreign currencies are accounted at the exchange rate prevailing on the date of transactions. Foreign currency monetary assets and liabilities are translated at year end exchange rates. Exchange difference arising on settlement of transactions and translation of monetary items are recognised as income or expense in the year in which they arise.

10. Government Grants / Subsidies

Revenue Grants (related to income):

Government grants in the nature of revenue grants are recognized in the Statement of Profit and Loss on an accrual basis, when there is reasonable assurance that the Company has complied with the conditions attached to such grants and the grants will be received. Such grants are either presented as part of "Other Operating Income" or deducted in reporting the related expense, depending upon the nature of the grant.

Capital Grants (related to specific assets):

Government grants in the nature of capital grants, i.e., those relating to acquisition of Property, Plant and Equipment, are presented in the Balance Sheet by either deducting the grant from the gross value of the concerned asset, or treating it as Deferred Income, which is recognized in the Statement of Profit and Loss on a systematic basis over the useful life of the asset.

Refund of Grants:

Grants that become refundable are accounted for prospectively by adjusting against unamortized deferred credit or charged immediately to the Statement of Profit and Loss, depending on the original treatment adopted.

11. Employee Benefits:

Post-Employment Benefits:

Defined Benefit Plan:

Short-term employee Benefits

Benefits such as salaries, wages and performance incentives are charged to the statement of profit and loss at the actual amounts due in the period in which the employee renders the related service.

Defined Contribution Plans

Payments made to defined contribution plans such as provident and pension fund are charged as an expense based on the amount of contribution required to be made as and when services are rendered by the employees.

Defined Benefit Plans

All defined benefit plans obligations are determined based on valuations, as at the Balance Sheet date, made by independent actuary using the projected unit credit method. Actuarial gains and losses are recognised immediately in the statement of profit and loss. The fair value of the plan assets is reduced from the gross obligation under the defined benefit plan, to recognise the obligation on net basis.

Leave Encashment:

Leave encashment is provided for based on actuarial valuation carried out as at the Balance Sheet date using the projected unit credit method. The liability for leave encashment is bifurcated into:

Short-term employee benefits – expected to be settled wholly within 12 months after the end of the annual reporting period, and recognised on an undiscounted basis.

Other long-term employee benefits – expected to be settled beyond 12 months, and recognised based on actuarial valuation.

Actuarial gains or losses are recognised in the Statement of Profit and Loss in the period in which they arise.

12. Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are charged to revenue in the period they occur.

13. Taxes on Income:

Income Tax expense is accounted for in accordance with AS-22 "Accounting for Taxes on Income" for both Current Tax and Deferred Tax stated below:

A. Current Tax:

Provision for current tax is made in accordance with the provisions of the Income Tax Act, 1961.

B. Deferred Tax:

Deferred tax is recognised, subject to the consideration of prudence, as the tax effect of timing difference between the taxable income and accounting income computed for the current accounting year using the tax rates and tax laws that have been enacted or substantially enacted by the balance sheet date.

Deferred tax assets are recognised and carried forward to the extent that there is a reasonable certainty, except arising from unabsorbed depreciation and carried forward losses, that sufficient future taxable income will be available against which such deferred tax assets can be realised.

14. Provisions

A provision is recognized when there exists a present obligation as a result of past events and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the

amount of the obligation. Provisions are not discounted to present value and are determined based on best estimates required to settle the obligation at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates.

15. Contingent liabilities:

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation.

A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably, the Company does not recognize a contingent liability but discloses its existence in the financial statements.

16. Earnings Per Share

In determining earnings per share, the Company considers the net profit after tax attributable to equity shareholders. The number of shares used in computing basic earnings per share is the weighted average number of equity shares outstanding during the year. The number of equity shares used in computing diluted earnings per share comprises weighted average number of equity shares considered for deriving basic earnings per share and also weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares.

17. Cash and Cash Equivalents:

Cash and cash equivalents comprise Cash-in-hand, Current Accounts, Fixed Deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value. Other Bank Balances are short-term balance (with original maturity is more than three months but less than twelve months).

18. Cash Flow Statement:

Cash flows are reported using indirect method, whereby net profit/loss before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

19. Investments:

Investments, which are readily realizable and intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as Non current investments.

Non Current investments are carried at acquisition cost and investments intended to be held for less than one year are classified as current investments and are carried at lower of cost and market value. Non-Current Investments which have suffered other than temporary diminution in their value are revalued at their current value.

20. Corporate Social Responsibility (CSR):

The Company incurs expenditure on Corporate Social Responsibility (CSR) activities in accordance with Section 135 of the Companies Act, 2013 and the rules framed thereunder. CSR expenditure is recognized in the Statement of Profit and Loss in the year in which it is incurred. Amounts remaining unspent on non-ongoing projects, if any, are disclosed as liabilities, whereas for ongoing projects, the unspent amount is transferred to a separate bank account and disclosed as "Other Bank Balances". Any surplus arising out of CSR activities is not included in business profits and is utilized in accordance with CSR rules.

21. Segment Accounting

Business Segment

(a) The business segment has been considered as the primary segment.

(b) The Company's primary business segments are reflected based on principal business activities, the nature of service, the differing risks and returns, the organization structure and the internal financial reporting system.

(c) The Company's primary business includes manufacturing electricity distribution and control apparatus such as electrical apparatus for switching or protecting electrical circuits for a voltage exceeding 1000 volts; similar apparatus for a voltage not exceeding 1000 volts; boards, panels, consoles, cabinets and other bases equipped with two or more of the above apparatus for

electricity control or distribution of electricity including power capacitors accordingly this is the only segment as envisaged in Accounting Standard 17 'Segment Reporting' therefore disclosure for Segment reporting is not applicable.

Geographical Segment:

The Company's operations are primarily confined within India. Export sales during the year ended March 2025, March 2024 and March 2023 constitute less than 10% of the total revenue and are not significant in the context of AS 17 "Segment Reporting". Accordingly, no separate geographical segment disclosures have been made.

C. CHANGES IN ACCOUNTING POLICIES IN THE YEARS COVERED IN THE RESTATED FINANCIAL STATEMENTS

During the periods covered under the Restated Financial Statements, the Company has made the following changes in accounting policies to align its practices with the requirements of the Companies Act, 2013, the SEBI (ICDR) Regulations, and applicable Accounting Standards:

1. Depreciation on Property, Plant and Equipment

In the audited financial statements, depreciation was charged based on the rates prescribed under the Companies Act, 1956. In the Restated Financial Statements, depreciation has been recomputed in accordance with the useful lives of assets as prescribed under Schedule II of the Companies Act, 2013.

The change has resulted in variation in depreciation expense and corresponding adjustments to the carrying amounts of assets and reserves.

2. Employee Benefits – Gratuity and Leave Encashment

Earlier, gratuity and leave encashment were accounted for on a cash basis at the time of payment.

In the Restated Financial Statements, these benefits have been recognized on an accrual basis in accordance with AS-15, Employee Benefits, based on actuarial valuation.

This change ensures a more accurate reflection of employee benefit obligations.

3. Government Grants and Subsidies

The Company had been recognizing government grants/subsidies on a receipt basis in the audited financials, which was not in compliance with AS-12, Accounting for Government Grants.

In the Restated Financial Statements, revenue grants are recognized in the periods in which there is reasonable assurance that the conditions attached to the grants have been fulfilled and the grants will be received.

Necessary adjustments have been made to reflect this change and ensure compliance with AS-12.

D. NOTES ON RESTATEMENTS MADE IN THE RESTATED FINANCIALS

1. The financial statements including other financial information have been prepared after making such regroupings and adjustments, considered appropriate to comply with the same. As result of these regroupings and adjustments, the amount reported in the financial statements/information may not necessarily be same as those appearing in the respective audited financial statements for the relevant years.

2. Amount due to entities covered under Micro, Small and Medium Enterprises as defined in the Micro, Small, Medium Enterprises Development Act, 2006, have been reported to the extent of information memorandum received from the suppliers.

3. Employee benefits:

The Company has adopted the Accounting Standard 15 (revised 2005) on Employee Benefits as per an actuarial valuation carried out by an independent actuary. The disclosures as envisaged under the standard are given at Annexure - 35.

4. Provisions, Contingent Liabilities and Contingent Assets (AS 29)

Contingent liabilities and commitments (to the extent not provided for) is disclosed in Annexure - 36 of the enclosed restated financial statements.

5. Related Party Disclosure (AS 18)

Related party transactions are reported as per AS-18 of Companies (Accounting Standards) Rules, 2006, as amended, in the Annexure – 34 of the enclosed restated financial statements.

6. Accounting For Taxes on Income (AS 22)

Deferred Tax liability/Asset in view of Accounting Standard – 22: “Accounting for Taxes on Income” as at the end of the year is reported as in Annexure - 13 of the enclosed restated financials statements.

7. Contingencies and events occurring after the Balance Sheet Date (AS -4)

Events that occur between balance sheet date and date on which these are approved, might suggest the requirement for an adjustment(s) to the assets and the liabilities as at balance sheet date or might need disclosure. Adjustments are required to assets and liabilities for events which occur after balance sheet date which offer added information substantially affecting the determination of the amounts which relates to the conditions that existed at the balance sheet date. The details of such events are reported in the Annexure – 37.

8. Extraordinary, Exceptional, Prior Period Items And Changes In Accounting Policies

a. Income or expenses that arise from events or transactions that are clearly distinct from the ordinary activities of the Company are classified as extraordinary items. Specific disclosure of such events/transactions is made in the financial statements. Similarly, any external event beyond the control of the Company, significantly impacting income or expense, is also treated as extraordinary item and disclosed as such.

b. On certain occasions, the size, type or incidence of an item of income or expense, pertaining to the ordinary activities of the Company, is such that its disclosure improves an understanding of the performance of the Company. Such income or expense is classified as an exceptional item and accordingly disclosed in the notes to accounts.

9. Disclosure under Micro, Small and Medium Enterprises Development Act, 2006

Disclosure of the outstanding dues of Micro or Small-Scale Industrial Enterprise(s) as per The Micro, Small & Medium Enterprise Development Act-2006, the Company has disclosed in the Annexure - 7 of the restated financial statements, the same as required by Schedule III to the Companies Act, 2013.

10. Contractual liabilities

All other contractual liabilities connected with business operations of the Company have been appropriately provided for in the Restated financial statements.

ANNEXURE - V: ADJUSTMENTS MADE IN RESTATED FINANCIAL STATEMENTS / REGROUPING NOTES**MATERIAL ADJUSTMENTS (AS PER THE ICDR REGULATION)**

Appropriate adjustments have been made in the restated financial statements, whenever required, by reclassification of the corresponding items of assets, liabilities and cash flow statement, in order to ensure consistency and compliance with requirement of Company Act 2013, and Accounting Standards.

Net Profit after Tax as per Restated Accounts	2,024.40	428.00	6.29

Explanation to Adjustments:**a) Adjustment of Gratuity & Leave Encashment**

In the audited financials, liability towards gratuity and leave encashment was earlier accounted on a cash basis. In the Restated Financial Statements, such employee benefit obligations have been actuarially valued and provided in accordance with the requirements of Accounting Standard (AS) 15 – Employee Benefits, ensuring recognition of liability on an accrual basis and better compliance with applicable accounting standards.

b) Reclassification of Investment Property and Change in Depreciation Method

In the Restated Financial Statements, Investment Property which was earlier presented under the Fixed Assets schedule in the audited financials has been reclassified and disclosed as Non-Current Investments, and the revaluation adjustments appearing in the audited financials have been eliminated. Further, depreciation which was earlier provided as per the rates prescribed under the erstwhile Companies Act has now been aligned with the useful life of assets prescribed under Schedule II of the Companies Act, 2013, resulting in a change in method from the old rates to Schedule II useful lives.

c) Reclassification of Sale of Property, Plant and Equipment

In the audited financials, sale proceeds of Property, Plant and Equipment (PPE) were earlier presented under Revenue from Operations. In the Restated Financial Statements, such proceeds have been correctly shown under Sale of PPE, and the difference between the sale consideration and the written down value (WDV) of the assets has been presented separately as Loss on Sale of Assets.

d) Recognition of Drawback Income

In the audited financials, Drawback Income was earlier accounted for on a receipt basis. In the Restated Financial Statements, the same has been recognized on an accrual basis, in line with applicable accounting principles, ensuring that income is recorded in the period in which the right to receive arises.

e) Recognition of Rental Income – Unbilled Revenue

In the Restated Financial Statements, Rental Income relating to a property under tenant dispute has been recognized as Unbilled Revenue, since the tenant has not vacated the premises despite issuance of legal notices. The recognition has been made on the basis that the Company continues to retain ownership and the right to rental accruals, though billing and actual recovery remain subject to resolution of the dispute.

f) Write-off of Non-Existent Deposits

In the audited financials, certain deposits which were no longer existent continued to be carried in the books. In the Restated Financial Statements, such non-existent deposits have been written off, ensuring that the assets reflected represent only realizable and valid balances.

g) Recognition of Prior Period Expenses

In the audited financials, royalty expenses pertaining to FY 2021–22 to FY 2023–24 were recognized in FY 2024–25. In the Restated Financial Statements, these expenses have been restated and apportioned to the respective financial years to which they relate. Further, Portfolio Management Services expenses, which were not booked in the audited financials of earlier periods, have been appropriately accounted for in FY 2023–24 and FY 2024–25 in the Restated Financial Statements.

h) Interest on MSME Dues

In the audited financials, interest payable on delayed payments to MSME creditors was not recognized. In the Restated Financial Statements, such interest liability has been duly accounted for, in compliance with the requirements of the Micro, Small and Medium Enterprises Development Act, 2006, thereby ensuring correct presentation of expenses and liabilities.

i) Accounting of Certain Expenses on Accrual Basis

In the audited financials, interest on Bank/NBFC loans was recognized in line with the repayment schedule; in the Restated Financial Statements, such interest has been provided on a monthly accrual basis in accordance with loan statements. Similarly, TDS interest and late fees, which were earlier recognized on a payment basis, have now been accrued in the respective periods to which they relate. Further, property tax, earlier recorded on a payment basis, has been restated on an accrual basis to ensure proper matching of costs with reporting periods.

j) Deferred Tax

Earlier limited to depreciation differences; now includes employee benefits, property tax, MSME provisions, 43B(h) liabilities, and revised depreciation/revaluation adjustments.

k) Provision for Income Tax

Adjusted to reflect the impact of above changes in accounting treatments and deferred tax provisions.

All immovable properties classified under Property, Plant and Equipment in the financial statements are held in the name of the Company as on the balance sheet date. There are no instances where title deeds are held in the name of any other person or entity.

The Company has revalued its Property, Plant, and Equipment during the financial year 2022-23, based on a valuation report issued by a registered valuer in accordance with Rule 2 of the Companies (Registered Valuers and Valuation) Rules, 2017. The valuation was conducted on 03rd February 2023, and the report was issued on 04th February 2023. Specifically, the Land and Building located at Plot No. A-173/7, Vashi was revalued by independent valuers.

Pursuant to the revaluation, the useful life of Building was reassessed based on the actuarial/technical assessment, which differs from the useful life prescribed under Schedule II of the Companies Act, 2013. The incremental depreciation arising from the revaluation has been charged to the Statement of Profit and Loss. An equivalent amount has been adjusted against the Revaluation Reserve and transferred to the General Reserve.

In cases where assets are fully depreciated, any balance in the Revaluation Reserve relating to such assets is transferred to the General Reserve.

Bank balance as on 31 March 2024 reflects a negative figure. This is due to the Company having issued a cheque towards payment of Property Tax under an amnesty scheme, which mandated payment before 31 March 2024. Although the cheque was issued within the stipulated date, it was cleared after 2–3 days. In the interim, the bank had auto-swept the available funds into a fixed deposit, resulting in the temporary negative balance.

1) The ratios have been computed as below:

a) Basic and Diluted earnings per share (Rs.): Net profit after tax as restated for calculating diluted EPS / Weighted average number of equity shares outstanding at the end of the period or year for diluted EPS.

b) Return on net worth (%): Net profit after tax (as restated) / Net worth at the end of the period or year.

c) Net assets value per share -: Net Worth at the end of the period or year / Total number of equity shares outstanding at the end of the period or year.

2) Weighted average number of equity shares is the number of equity shares outstanding at the beginning of the period/year adjusted by the number of equity shares issued during period/year multiplied by the time weighting factor. The time weighting factor is the number of days for which the specific shares are outstanding as a proportion of total number of days during the period/year.

3) Subsequent to the reporting date, the Company has issued bonus shares in the ratio of 1:1. In accordance with the requirements of Accounting Standard (AS) 20 – Earnings Per Share, the number of equity shares outstanding for all periods presented has been adjusted retrospectively, as if the bonus issue had occurred at the beginning of the earliest period reported. Consequently, the basic and diluted earnings per share for all comparative periods have been restated to reflect the impact of the bonus issue, ensuring consistency and comparability across reporting periods.

4) Subsequent to the balance sheet date, the Company has sub-divided its equity shares having a face value of ₹100 each into 10 equity shares of ₹10 each, therefore, In accordance with Accounting Standard (AS) 20 – Earnings Per Share, the number of equity shares outstanding for all periods presented in the restated financial statements has been retrospectively adjusted to reflect the sub-division. The sub-division was done on 27-06-2025

5) Net worth for ratios mentioned in note 1(c) and 1(d) is = Equity share capital + Reserves and surplus (including Securities Premium, if any, General Reserve, if any and surplus in statement of profit and loss).

6) EBITDA has been calculated as Profit before tax + Depreciation + Finance cost - Other Income

7) The figures disclosed above are based on the standalone restated summary statements of financial information of the Company.

8) The above statement should be read with the significant accounting policies and notes to restated summary statements of assets and liabilities, profits and losses and cash flows appearing in Annexures IV, I, II and III.

NOTE 35. STATEMENT OF PROVISION FOR GRATUITY AND LEAVE ENCASHMENT, AS RESTATED**1. Basis of Preparation:**

The provision for leave encashment and gratuity has been determined based on AS 15 (Revised) – Employee Benefits.

The liability for leave encashment and gratuity is actuarially valued (Projected Unit Credit Method) / based on management estimates.

2. Leave Encashment Policy:

Employees are entitled to encash unutilized earned leave at the time of resignation/retirement.

Short-term provision includes leave expected to be availed within the next 12 months.

Long-term provision represents accrued liability payable beyond 12 months.

3. Gratuity Policy:

Gratuity is payable to employees under the Payment of Gratuity Act, 1972 after completion of five years of service.

Gratuity is calculated as 15 days of basic salary for each completed year of service.

The provision is actuarially determined based on assumptions such as discount rate, salary escalation rate, and attrition rate.

4. Payments & Settlements:

Any payments made during the year are deducted from the respective provisions.

The remaining liability is carried forward and classified as short-term (current) or long-term (non-current).

NOTE 37. STATEMENT OF EVENTS OCCURRING AFTER BALANCE SHEET DATE, AS RESTATED

The Company evaluates events and transactions that occur subsequent to the balance sheet date but prior to approval of the financial statements to determine the necessity for recognition and/or reporting of any of these events and transactions in the financial statements.

Events Required Adjustment in Financial Statements: Nil**Non-Adjusting Events:****1. Issue of Bonus:**

Subsequent to the balance sheet date, the Company has issued bonus equity shares in the ratio of 1:1 in terms of ordinary resolution passed by shareholders of the company in their Extra Ordinary General Meeting dated 14th July, 2025.

In accordance with AS 4, this constitutes a non-adjusting event, and accordingly, no adjustments have been made in the financial statements for the year ended 31st March, 2025.

However, as per the requirements of AS 20 – Earnings Per Share, the EPS for all periods presented has been restated to reflect the bonus issue, as if it had occurred at the beginning of the earliest period reported.

2. Sub-Division of Equity Shares:

Subsequent to the balance sheet date, the Company has sub-divided its equity shares having a face value of ₹100 each into 10 equity shares of ₹10 each, pursuant to the resolution passed by the shareholders at the Extraordinary General Meeting held on 27th June, 2025.

The sub-division has been carried out with a view to improve liquidity, enhance affordability, and encourage wider participation from retail investors in the Company's equity.

In accordance with Accounting Standard (AS) 20 – Earnings Per Share, the number of equity shares outstanding for all periods presented in the restated financial statements has been retrospectively adjusted to reflect the sub-division.

Consequently, ratios such as Earnings Per Share (EPS), Net Asset Value per Share, and Face Value per Share have been restated to ensure comparability.

3. Increase in Authorised Share Capital:

Subsequent to the balance sheet date, the Company has increased its authorised share capital from ₹700 lakhs comprising 70,00,000 equity shares of ₹10 each to ₹1000 lakhs comprising 1,00,00,000 equity shares of ₹10 each, pursuant to a resolution passed by the shareholders at the Extraordinary General Meeting held on 27th June, 2025.

The increase in authorised share capital was undertaken to facilitate the sub-division of equity shares and to enable greater flexibility for future capital raising initiatives, with the objective of enhancing shareholder base and encouraging wider retail participation.

4. Acquisition of Property at Palava :

As at 31 March 2025, the Company had paid advances amounting to ₹1.68 Crore towards acquisition of property situated at Palava, disclosed under Capital Advances.

Subsequent to the balance sheet date, the Company completed registration of the said property.

Further payments aggregating ₹15.92 Crores have been made till date, out of which ₹10 Crores have been funded by way of long-term borrowings from ICICI Bank.

5. Advance to East West Freight Carriers Ltd:

The Company had paid advances to East West Freight Carriers Ltd towards purchase of property.

Subsequent to the balance sheet date, the transaction was cancelled, and the advance is recoverable from the said party.

Necessary accounting treatment for recovery will be given effect in the subsequent financial statements.

6. Issue and Allotment of Equity Shares to the Public (Initial Public Offer) :

Subsequent to the balance sheet date, the Board of Directors of the Company, at its meeting held on 20-08-2025, approved a proposal to undertake an Initial Public Offering (IPO) and to list the equity shares of the Company on SME Platform of a recognized Stock Exchange, subject to necessary approvals from the shareholders, regulatory authorities, and stock exchanges.

The IPO will be undertaken in compliance with the applicable provisions of the Companies Act, 2013, the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended, and other relevant laws and regulations.

This event occurred subsequent to the balance sheet date and does not affect the financial position as at that date. Accordingly, it has been disclosed as a non-adjusting event.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITIONS AND RESULTS OF OPERATIONS

You should read the following discussion in conjunction with our restated financial statements attached in the chapter titled “Financial Information of the Company” beginning on page 175. You should also read the section titled “Risk Factors” on page 29 and the section titled “Forward Looking Statements” on page 20 of this Draft Red Herring Prospectus, which discusses a number of factors and contingencies that could affect our financial condition and results of operations. The following discussion relates to us, and, unless otherwise stated or the context requires otherwise, is based on our Restated Financial Statements.

Our financial statements have been prepared in accordance with Indian GAAP, the Companies Act and the SEBI (ICDR) Regulations and restated as described in the report of our auditor dated September 11, 2025 which is included in this Draft Red Herring Prospectus under “Financial Statements”. The Restated Financial Information has been prepared on a basis that differs in certain material respects from generally accepted accounting principles in other jurisdictions, including US GAAP and IFRS. Our financial year ends on March 31 of each year, and all references to a particular financial year are to the twelve-month period ended March 31 of that year.

Business Overview

Our Company is an ISO 9001:2015 certified manufacturer of Low-Voltage (“LV”) and Medium-Voltage (“MV”) electrical panels and automation systems, with an operational history of over 30 years. We are engaged in panel manufacturing and system integration, offering electrical and automation solutions that cover engineering, design, fabrication, assembly, testing, and commissioning of control and automation systems. Our products are intended for applications in power distribution, load management, process control, and industrial automation across multiple sectors.

We manufacture a range of LV panels, including Power Control Centre (PCC) Panels, Intelligent Motor Control Centre (IMCC) Panels, Soft Starter Panels, Drawout Motor Control Centre (MCC) Panels, DG Synchronisation Panels, Power Distribution Boards and Units, and Outdoor Panels. Our MV electrical panel product range covers 3.3 kV to 36 kV panels and includes specialised products such as 6.6 kV and 11 kV Variable Frequency Drive (VFD) Panels, 11 kV DG Synchronisation Panels, Load Sharing Panels, Control and Relay Panels, Vacuum Circuit Breaker and Contactor Panels, and MV Automatic Power Factor Correction (APFC) Panels. All our products are type-tested in accordance with applicable standards including IEC 61439-1 & 2, IEC 61641, and IEC 62271-200. In addition, we also supply certain electrical goods and bus ducts tailored to specific customer requirements.

Our products cater to sectors such as Data Centre & Technology, Infrastructure, Metro Projects, Construction & Real Estate, Solar & Renewable Energy, Industrial Manufacturing. We maintain OEM associations with ABB, Lauritz Knudsen Electrical & Automation (LK), and Schneider Electric. We are licensed by ABB India Limited to manufacture and integrate ArTu K low-voltage switchboards using ABB components.

We operate two manufacturing facilities in Navi Mumbai and Pune, Maharashtra. The Navi Mumbai unit, located at Plot No. A-173/7, T.T.C Industrial Area, MIDC, Kharine, Navi Mumbai- 400710- Maharashtra, India undertakes the complete manufacturing of Low-Voltage (“LV”) and Medium-Voltage (“MV”) electrical panels and automation systems, including fabrication, surface treatment, powder coating, assembly, and testing, and is equipped with CNC-enabled fabrication lines, robotic polyurethane (PU) gasketing systems, busbar processing machines, and an in-house powder coating unit. The Pune unit, located at Plot No. 12, 13, 14, 16 16A 16B 16C, 17, 18/11/01 Pune City, Telco Road, Bhosari, Pimpri Chinchwad, Pune-411026-Maharashtra, India is focused on panel assembly operations, for which prefabricated and coated components are supplied from Navi Mumbai. Both facilities are certified under ISO 9001:2015 (Quality Management Systems), ISO 14001:2015 (Environmental Management Systems), and ISO 45001:2018 (Occupational Health and Safety Management Systems), and together have an installed capacity of 7,500 units per annum as of the date of this Draft Red Herring Prospectus.

We generate revenue primarily from domestic sales, with limited contribution from exports. Export revenue accounted for 1.44%, 2.79% and 0.70% of total revenue, while domestic revenue accounted for 98.56%, 97.21%, 99.30%, for the financial years ended March 31, 2025, 2024 and 2023 respectively. During these periods, we catered to clients in countries such as Kenya, Solomon Islands, United Arab Emirates, Cameroon, Sri Lanka, Indonesia, Tanzania.

Our primary raw materials include Cold Rolled Close Annealed (CRCA) sheets, Galvanized Iron (GI) sheets, aluminium and copper bus bars, electrical wires, and industrial paints, which are sourced mainly from domestic suppliers. Switchgear components are procured from original equipment manufacturers (OEMs). The cost of materials consumed (including purchases of stock-in-trade and changes in inventories) accounted for 68.63%, 73.71% and 76.64% of revenue from operations for the financial years ended March 31, 2025, 2024 and 2023, respectively.

Our Company was initially managed under the leadership of Vishvanath Dayanand Attavar. The management was subsequently taken over by Sameer Vishvanath Attavar, Chairman and Managing Director and Promoter, and Meeta Sameer Attavar, Whole-Time Director and Promoter. Sameer Vishvanath Attavar has over 25 years of experience in the electrical panel manufacturing industry and is responsible for overseeing the Company's overall operations, including business planning, production, quality assurance, finance, and compliance. Meeta Attavar has approximately 19 years of experience and is involved in functions relating to human resources, administration, and general operations. The Promoters are supported by professionals across sales, marketing, engineering, production, finance, and other functional areas. The sector-specific experience of the Promoters, combined with the support of senior management, has contributed to the Company's growth and operations.

E. OUTSTANDING DUES TO SMALL SCALE UNDERTAKINGS OR ANY OTHER CREDITORS

In accordance with the Materiality Policy, the Board of Directors of our Company considers dues exceeding 5% of our Company's trade payables as per the last Restated financial statements, to small scale undertakings and other creditors, as material dues for our Company.

As per Restated Financial Statements, the trade payables of our Company as on March 31, 2025 were Rs. 5787.04 lakhs. Accordingly, a creditor has been considered 'material' if the amount due to such creditor exceeds Rs. 289.35 lakhs as on March 31, 2025. This materiality threshold has been approved by our Board of Directors pursuant to the resolution passed on September 12, 2025. As on March 31, 2025, there are 2 creditors to each of whom our Company owes amounts exceeding 5.00% of our Company's total trade payables and the aggregate outstanding dues to them being approximately Rs. 3813.10 lakhs.

Based on this criterion, details of outstanding dues (trade payables) owed to micro, small and medium enterprises (as defined under Section 2 of the Micro, Small and Medium Enterprises Development Act, 2006), material creditors and other creditors, as at March 31, 2025, by our Company, are set out below:

(Amount in Rs. Lakhs)

Type of Creditors	No. of Creditors	Total Amount Outstanding	No of Material Creditors	Amount of Material Creditors	No of other Creditors	Amount of other Creditors
Dues to micro, small and medium enterprises	10	6.82	-	-	10	6.82
Dues to other Creditors	181	5780.22	2	3813.10	179	1967.13
Total	191	5787.04	2	3813.10	189	1973.94

* As defined under the Micro, Small and Medium Enterprises Development Act, 2006.

Details of outstanding dues to creditors (including micro and small enterprises as defined under the Micro, Small and Medium Enterprises Development Act, 2006) as required under the SEBI (ICDR) Regulations have been disclosed on our website at <https://vividgroup.in/>. It is clarified that such details available on our website do not form a part of this Draft Red Herring Prospectus.

Note ¹Our Company in consultation with the Book Running Lead Manager, may consider participation by Anchor Investors in accordance with the SEBI ICDR Regulations. The Anchor Investor Bid/Offer Period shall be one Working Day prior to the Bid/Offer Opening Date in accordance with the SEBI ICDR Regulations

²Our Company in consultation with the Book Running Lead Manager, consider closing the Bid/Offer Period for QIBs one Working Day prior to the Bid/Offer Closing Date in accordance with the SEBI ICDR Regulations.

³UPI mandate end time and date shall be at 5.00 p.m. on Bid/Offer Closing Date

*In case of any delay in unblocking of amounts in the ASBA Accounts (including amounts blocked through the UPI Mechanism) exceeding four Working Days from the Bid/ Offer Closing Date, the Bidder shall be compensated at a uniform rate of ₹ 100 per day for the entire duration of delay exceeding four Working Days from the Bid/ Offer Closing Date by the intermediary responsible for causing such delay in unblocking. The *Book Running Lead Manager* shall, in their sole discretion, identify and fix the liability on such intermediary or entity responsible for such delay in unblocking. For the avoidance of doubt, the provisions of the SEBI circular dated March 16, 2021, as amended pursuant to SEBI circular dated June 2, 2021 shall be deemed to be incorporated in the agreements to be entered into by and between the Company and the relevant intermediaries, to the extent applicable.

The above timetable is indicative and does not constitute any obligation on our Company or the Book Running Lead Manager. Whilst our Company and selling shareholder shall ensure that all steps for the completion of the necessary formalities for the listing and the commencement of trading of the Equity Shares on the Stock Exchange are taken within three Working Days of the Bid/ Offer Closing Date, the timetable may change due to various factors, such as extension of the Bid/ Offer Period by our Company, revision of the Price Band or any delays in receiving the final listing and trading approval from the Stock Exchange. The Commencement of trading of the Equity Shares will be entirely at the discretion of the Stock Exchange and in accordance with the applicable laws.

Any circulars or notifications from the SEBI after the date of this Draft Red Herring Prospectus may result in changes to the above-mentioned timelines. Further, the offer procedure is subject to change to any revised circulars issued by the SEBI to this effect.

In terms of the UPI Circulars, in relation to the Offer, the BRLMs will be required to submit reports of compliance with listing timelines and activities prescribed by the SEBI, identifying non-adherence to timelines and processes and an analysis of entities responsible for the delay and the reasons associated with it.

Bid-Cum- Application Forms and any revisions to the same will be accepted only between 10:00 A.M. to 4:00 P.M. (IST) during the Offer Period (except for the Bid/ Offer Closing Date). On the Bid/ Offer Closing Date, the Bid-Cum- Application Forms will be accepted only between 10:00 A.M. to 03:00 P.M. (IST) for all bidders. The time for applying for Individual Bidders Applicants on Bid/ Offer Closing Date maybe extended in consultation with the Book Running Lead Manager, RTA and NSE taking into account the total number of applications received up to the closure of timings.

On the Bid/ Offer Closing Date, the Bids shall be uploaded until 4.00 P.M. IST in case of Bids by QIBs, Non-Institutional Bidders and Individual Bidders.

On the Bid/ Offer Closing Date, extension of time will be granted by the Stock Exchange only for uploading Bids received from Individual Bidders after taking into account the total number of Bids received and as reported by the Book Running Lead Manager to the Stock Exchange.

The SCSBs shall unblock such applications by the closing hours of the Working Day and submit the confirmation to the Book Running Lead Manager and the RTA on a daily basis.

It is clarified that Bids not uploaded on the electronic bidding system or in respect of which the full Bid Amount is not blocked by SCSBs or not blocked under the UPI Mechanism in the relevant ASBA Account, as the case may be, would be rejected.

Due to the limitation of time available for uploading the Bid-Cum-Application Forms on the Bid/ Offer Closing Date, Bidders are advised to submit their applications one (1) day prior to the Bid/ Offer Closing Date and, in any case, not later than 3.00 P.M. (IST) on the Bid/ Offer Closing Date. Any time mentioned in this Draft Red Herring Prospectus is IST. Bidders are cautioned that, in the event a large number of Bid-Cum- Application Forms are received on the Bid/ Offer Closing Date, as is typically experienced in public Offer, some Bid-Cum- Application Forms may not get uploaded due to the lack of sufficient time. Such Bid-Cum-Application Forms that cannot be uploaded will not be considered for allocation under this Offer. Applications will be accepted only on Working Days, i.e., Monday to Friday (excluding any public holidays). Neither our Company nor the BRLM is liable for any failure in uploading the Bid-Cum- Application Forms due to faults in any software/hardware system or otherwise.

In accordance with SEBI (ICDR) Regulations, Bidders are not allowed to withdraw or lower the size of their Application (in terms of the quantity of the Equity Shares or the Application amount) at any stage.

In case of discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical Bid-Cum- Application Form, for a particular Bidder, the details as per the file received from Stock Exchange may be taken as the final data for the purpose of Allotment. In case of discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical or electronic Bid-Cum- Application Form, for a particular ASBA Bidder, the Registrar to the Offer shall ask the relevant SCSBs / RTAs / DPs / stock brokers, as the case may be, for the rectified data.

Our Company in consultation with the Book Running Lead Manager, reserves the right to revise the Price Band during the Bid/ Offer Period. The revision in the Price Band shall not exceed 20% on either side, i.e. the Floor Price can move up or down to the extent of 20% of the Floor Price and the Cap Price will be revised accordingly. The Floor Price shall not be less than the face value of the Equity Shares.

In case of any revision to the Price Band, the Bid/ Offer Period will be extended by at least three additional Working Days following such revision of the Price Band, subject to the Bid/ Offer Period not exceeding a total of 10 Working Days. In cases of force majeure, banking strike or similar circumstances, our Company in consultation with the Book Running Lead Manager, for reasons to be recorded in writing, extend the Bid/ Offer Period for a minimum of one Working Day, subject to the Bid/ Offer Period not exceeding 10 Working Days. Any revision in the Price Band and the revised Bid/ Offer Period, if applicable, will be widely disseminated by notification to the Stock Exchange, by issuing a public notice, and also by indicating the change on the respective websites of the Book Running Lead Manager and the terminals of the Syndicate Members, if any and by intimation to SCSBs, other Designated Intermediaries and the Sponsor Bank, as applicable. In case of revision of Price Band, the Bid Lot shall remain the same.

Minimum Subscription and Underwriting

Minimum subscription in the Offer is 90% and the Offer is 100% underwritten As per Section 39 of the Companies Act, 2013, if the stated minimum amount has not been subscribed and the sum payable on application is not received within a period of 30 days from the date of the Prospectus, or such other period as may be specified by the SEBI the application money has to be returned within such period as may be prescribed. If the stated minimum amount has not been subscribed and the sum payable on application is not received within the period specified therein, then the application money shall be repaid within a period of fifteen days from the closure of the Offer and if any such money is not so repaid within such period, the directors of the company who are officers in default shall jointly and severally be liable to repay that money with interest at the rate of fifteen percent per annum.

Subject to applicable law, the Promoter Selling Shareholders shall not be responsible to pay interest for any delay, unless such delay is solely and directly attributable to an act or omission of such Promoter Selling Shareholder, in which case such liability shall be on a several and not joint basis.

The requirement of minimum subscription is not applicable to the Offer for Sale.

In case of undersubscription in the Offer, the Equity Shares in the Fresh Issue will be issued prior to the sale of Equity Shares in the Offer for Sale.

Further, in accordance with Regulation 268(1) of the SEBI (ICDR) Regulations, our Company shall ensure that the number of prospective allottees to whom the Equity Shares will allotted will not be less than 200 (Two Hundred).

In terms of Regulation 272(2) of SEBI ICDR Regulations, in case the Company fails to obtain listing or trading permission from

the stock exchanges where the specified securities are proposed to be listed, it shall refund through verifiable means the entire monies received within four days of receipt of intimation from stock exchange(s) rejecting the application for listing of specified securities, and if any such money is not repaid within four days after the issuer becomes liable to repay it, the issuer and every director of the company who is an officer in default shall, on and from the expiry of the fourth day, be jointly and severally liable to repay that money with interest at the rate of fifteen per cent per annum.

In terms of Regulation 260 of the SEBI (ICDR) Regulations, 2018, the Offer is 100% underwritten. For details of underwriting arrangement, kindly refer the chapter titled **“General Information - Underwriting”** on page 67 of this Draft Red Herring Prospectus.

Further, in accordance with Regulation 267 of the SEBI (ICDR) Regulations, 2018, the minimum application size in terms of number of specified securities shall not be less than Two (2) Lots. Provided that minimum application size shall be above ₹2 lakhs.

Migration to Main Board

As per the provisions of the Chapter IX of the SEBI (ICDR) Regulation, 2018 read with SEBI ICDR (Amendment) Regulations, 2025 to the extent applicable, our Company may migrate to the main board of NSE from the SME Exchange on a later date subject to the following:

As per Regulation 280(2) of the SEBI ICDR Regulation, 2018 read along with SEBI ICDR (Amendment) Regulations, 2025, Where the post-issue paid up capital of the Company listed on a NSE EMERGE is likely to increase beyond twenty-five crore rupees by virtue of any further issue of capital by the Company by way of rights issue, preferential issue, bonus issue, etc. the Company shall migrate its equity shares listed on NSE EMERGE to the Main Board and seek listing of the equity shares proposed to be issued on the Main Board subject to the fulfilment of the eligibility criteria for listing of equity shares laid down by the Main Board:

Provided that no further issue of capital shall be made unless –

- the shareholders have approved the migration by passing a special resolution through postal ballot wherein the votes cast by shareholders other than promoters in favour of the proposal amount to at least two times the number of votes cast by shareholders other than promoter shareholders against the proposal;
- the Company has obtained an in principle approval from the Main Board for listing of its entire specified securities on it.

Provided further that where the post-issue paid-up capital pursuant to further issue of capital including by way of rights issue, preferential issue, bonus issue, is likely to increase beyond ₹25 crores, the Company may undertake further issuance of capital without migration from SME exchange to the main board, subject to the undertaking to comply with the provisions of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, as applicable to companies listed on the main board of the stock exchange(s)."

If the Paid-up Capital of the company is more than ₹10 crores but below ₹25 crores, we may still apply for migration to the main board if the same has been approved by a special resolution through postal ballot wherein the votes cast by the shareholders other than the promoters in favour of the proposal amount to at least two times the number of votes cast by shareholders other than promoter shareholders against the proposal.

Additionally, all Applicants may refer to the General Information Document for information in relation to (i) Category of investor eligible to participate in the Offer; (ii) maximum and minimum Offer size; (iii) price discovery and allocation; (iv) Payment Instructions for ASBA Applicants; (v) Issuance of CAN and Allotment in the Offer; (vi) General instructions (limited to instructions for completing the Application Form); (vii) designated date; (viii) disposal of applications; (ix) submission of Application Form; (x) other instructions (limited to joint applications in cases of individual, multiple applications and instances when an application would be rejected on technical grounds); (xi) applicable provisions of Companies Act, 2013 relating to punishment for fictitious applications; (xii) mode of making refunds; and (xiii) interest in case of delay in Allotment or refund.

SEBI through its UPI Circular no. SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 1, 2018 read with its circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/50 dated April 3, 2019 and circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/76 dated June 28, 2019, has introduced an alternate payment mechanism using Unified Payments Interface (UPI) and consequent reduction in timelines for listing in a phased manner. From January 1, 2019, the UPI Mechanism for Individual Investors applying through Designated Intermediaries was made effective along with the existing process and existing timeline of T+6 days (“UPI Phase I”). The UPI Phase I was effective till June 30, 2019.

Subsequently, for applications by Individual Investors through Designated Intermediaries, the process of physical movement of forms from Designated Intermediaries to SCSBs for blocking of funds has been discontinued and only the UPI Mechanism with existing timeline of T+6 days is applicable for a period of three months or launch of five main board public issues, whichever is later (“UPI Phase II”), with effect from July 1, 2019, by SEBI circular (SEBI/HO/CFD/DIL2/CIR/P/2019/76) dated June 28, 2019, read with circular (SEBI/HO/CFD/DIL2/CIR/P/2019/85) dated July 26, 2019. Further, as per the SEBI circular (SEBI/HO/CFD/DCR2/CIR/P/2019/133) dated November 8, 2019, the UPI Phase II had been extended until March 31, 2020. However, due to the outbreak of COVID-19 pandemic, UPI Phase II has been further extended by SEBI until further notice, by its circular (SEBI/HO/CFD/DIL2/CIR/P/2020/50) dated March 30, 2020. Thereafter, the final reduced timeline of T+3 days may be made effective using the UPI Mechanism for applications by Individual Investors (“UPI Phase III”), as may be prescribed by SEBI. Further, SEBI, vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021, and circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021, has introduced certain additional measures for streamlining the process of initial public offers and redressing investor grievances. This circular is effective for initial public offers opening on or after May 1, 2021, except as amended pursuant to SEBI circular SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021, and SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022, and the provisions of this circular are deemed to form part of this Draft Offer Document/ Offer Document. Furthermore, pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/P/2022/45 dated April 5, 2022, all individual Investors in initial public offerings (opening on or after May 1, 2022) whose application sizes are up to ₹500,000 shall use the UPI Mechanism.

Furthermore, SEBI vide press release bearing number 12/2023 has approved the proposal for reducing the time period for listing of shares in public Offer from existing 6 working days to 3 working days from the date of the closure of the Offer. The revised timeline of T+3 days shall be made applicable in two phases i.e. voluntary for all public Offers opening on or after September 1, 2023 and mandatory on or after December 1, 2023. Further, SEBI has vide its circular no. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 reduced the time taken for listing of specified securities after the closure of a public Offer to three Working Days. Accordingly, the Offer will be made under UPI Phase III on a mandatory basis, subject to any circulars, clarification or notification issued by the SEBI from time to time.

The list of Banks that have been notified by SEBI as Issuer Banks for UPI are provided on <https://www.sebi.gov.in/sebiweb/other/OtherAction.do?doRecognisedFpi=yes&intmId=40>. The list of Stockbrokers, Depository Participants (DP), Registrar to an Offer and Share Transfer Agent (RTA) that have been notified by SME Platform of National Stock Exchange of India Limited (“NSE EMERGE”) to act as intermediaries for submitting Application Forms are provided on www.nseindia.com For details on their designated branches for submitting Application Forms, please see the above mentioned website of Platform of National Stock Exchange of India Limited (“NSE EMERGE”).

Please note that the information stated/covered in this section may not be complete and/or accurate and as such would be subject to modification/change. Our Company and Book Running Lead Manager do not accept any responsibility for the completeness and accuracy of the information stated in this section and the General Information Document. Our Company and Book Running Lead Manager would not be able to include any amendment, modification or change in applicable law, which may occur after the date of Prospectus. Applicants are advised to make their independent investigations and ensure that their application do not exceed the investment limits or maximum number of Equity Shares that can be held by them under applicable law or as specified in the Draft Offer Document/ Offer Document.

All SCSBs offering facility of making application in public issues shall also provide facility to make application using the UPI Mechanism. The Issuers will be required to appoint one of the SCSBs as a sponsor bank to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and / or payment instructions of the Individual Applicants into the UPI mechanism.

Further, the Company and the BRLM are not liable for any adverse occurrence's consequent to the implementation of the UPI Mechanism for application in this Offer.

Phased implementation of Unified Payments Interface

SEBI has issued the UPI Circulars in relation to streamlining the process of public Offer of inter alia, equity shares. Pursuant to the SEBI circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 1, 2018, SEBI circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2019/50 dated April 3, 2019, SEBI circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2019/76 dated June 28, 2019, SEBI circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2019/85 dated July 26, 2019, SEBI circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020 ("Previous UPI Circulars") and Pursuant to the UPI Circulars, the UPI Mechanism has been introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under ASBA) for applications by UPI Bidders through Designated Intermediaries with the objective to reduce the time duration from public Offer closure to listing from six Working Days to up to three Working Days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI payment mechanism, the UPI Circulars and the Previous UPI Circulars have introduced the UPI Mechanism in three phases in the following manner:

Phase I: This phase was applicable from January 1, 2019 until March 31, 2019 or floating of five main board public Offers, whichever is later. Subsequently, the timeline for implementation of Phase I was extended till June 30, 2019. Under this phase, an Individual Investors had the option to submit the ASBA Form with any of the Designated Intermediary and use his/ her UPI ID for the purpose of blocking of funds. The time duration from public Offer closure to listing continued to be six working days.

Phase II: This phase has become applicable from July 1, 2019. SEBI vide its circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019 had extended the timeline for implementation of UPI Phase II till March 31, 2020. Further, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020 dated March 30, 2020 decided to continue Phase II of UPI with ASBA until further notice. Under this phase, submission of the ASBA Form by Individual Investors through Designated Intermediaries (other than SCSBs) to SCSBs for blocking of funds will be discontinued and will be replaced by the UPI Mechanism. However, the time duration from public Offer closure to listing would continue to be six Working Days during this phase.

Phase III: This phase has become applicable on a voluntary basis for all Offers opening on or after September 1, 2023 and on a mandatory basis for all Offers opening on or after December 1, 2023, vide SEBI circular bearing number SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 ("T+3 Notification"). In this phase, the time duration from public Offer closure to listing has been reduced to three Working Days. The Offer shall be undertaken pursuant to the processes and procedures as notified in the T+3 Notification as applicable, subject to any circulars, clarification or notification issued by the SEBI from time to time, including any circular, clarification or notification which may be issued by SEBI.

The Offer is being made under Phase III of the UPI (on a mandatory basis).

All SCSBs offering facility of making application in public Offers shall also provide facility to make application using the UPI Mechanism. The Issuers will be required to appoint one of the SCSBs as a sponsor bank to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and / or payment instructions of the Individual Applicants into the UPI Mechanism.

For further details, refer to the General Information Document available on the websites of the Stock Exchanges and the Book Running Lead Manager.

PART A

Book Building Procedure

In terms of Rule 19(2)(b) of the Securities Contracts (Regulation) Rules, 1957, as amended (the “SCRR”) read with Regulation 252 of SEBI ICDR Regulations, 2018, the Offer is being made for at least 25% of the post-offer paid-up Equity Share capital of our Company. The Offer is being made under Regulation 229(1) of Chapter IX of SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018 via book building process wherein not more than 50% of the Offer shall be allocated on a proportionate basis to QIBs, provided that our Company and may, in consultation with the BRLM, allocate up to 60% of the QIB Portion to Anchor Investors on a discretionary basis in accordance with the SEBI ICDR Regulations, of which one-third shall be reserved for domestic Mutual Funds, subject to valid Bids being received from domestic Mutual Funds at or above the Anchor Investor Allocation Price. In the event of under-subscription, or non-allocation in the Anchor Investor Portion, the balance Equity Shares shall be added to the QIB Portion. Further, 5% of the QIB Portion (excluding the Anchor Investor Portion) shall be available for allocation on a proportionate basis only to Mutual Funds, and the remainder of the QIB Portion shall be available for allocation on a proportionate basis to all QIBs (other than Anchor Investors), including Mutual Funds, subject to valid Bids being received at or above the Offer Price. Further, not less than 15% of the Offer shall be available for allocation on a proportionate basis to Non-Institutional Investors (of which one third of the Non-Institutional Portion shall be reserved for Bidders with an application size of more than two lots and up to such lots equivalent to not more than ₹10 lakhs; and two-thirds of the Non-Institutional Portion shall be reserved for Bidders with an application size of more than ₹10 lakhs) and under-subscription in either of these two sub-categories of Non-Institutional Portion may be allocated to Bidders in the other subcategory of Non-Institutional Portion, subject to valid Bids being received at or above the Offer Price and not less than 35% of the Net Offer shall be available for allocation to Individual Investors in accordance with the SEBI ICDR Regulations, subject to valid Bids being received at or above the Offer Price.

Subject to valid Bids being received at or above the Offer Price, undersubscription, if any, in any category, except the QIB Portion, would be allowed to be met with spill-over from any other category or a combination of categories at the discretion of our Company, in consultation with the BRLM, and the Designated Stock Exchange. However, under-subscription, if any, in the QIB Portion will not be allowed to be met with spill-over from other categories or a combination of categories.

The Equity Shares, on Allotment, shall be traded only in the dematerialized segment of the Stock Exchanges.

Investor should note that the Equity Shares will be Allotted to all successful Bidders only in dematerialized form. - c) Each Bid cum Application Form will give the Bidder the choice to Bid for up to three optional prices (for details refer to the paragraph titled “Bids at Different Price Levels and Revision of Bids” below) within the Price Band and specify the demand (i.e., the number of Equity Shares Bid for) in each option. The price and demand options submitted by the Bidder in the Bid cum Application Form will be treated as optional demands from the Bidder and will not be cumulated. After determination of the Offer Price, the maximum number of Equity Shares Bid for by a Bidder/Applicant at or above the Offer Price will be considered for allocation/Allotment and the rest of the Bid(s), irrespective of the Bid Amount, will become automatically invalid.
- d) The Bidder/ Applicant cannot Bid through another Bid cum Application Form after Bids through one Bid cum Application Form have been submitted to a Book Running Lead Manager or the SCSBs. Submission of a second Bid cum Application Form to either the same or to another Book Running Lead Manager or SCSB will be treated as multiple Bid and is liable to be rejected either before entering the Bid into the electronic bidding system, or at any point of time prior to the allocation or Allotment of Equity Shares in this Offer. However, the Bidder can revise the Bid through the Revision Form, the procedure for which is detailed under the paragraph “Buildup of the Book and Revision of Bids”.
- e) Except in relation to the Bids received from the Anchor Investors, the Book Running Lead Manager /the SCSBs will enter each Bid option into the electronic bidding system as a separate Bid and generate a Transaction Registration Slip, (“TRS”), for each price and demand option and give the same to the Bidder. Therefore, a Bidder can receive up to three TRSs for each Bid cum Application Form
- f) The Book Running Lead Manager shall accept the Bids from the Anchor Investors during the Anchor Investor Bid/ Offer Period i.e. one working day prior to the Bid/ Offer Opening Date. Bids by QIBs under the Anchor Investor Portion and the QIB Portion shall not be considered as multiple Bids.
- g) Along with the Bid cum Application Form, Anchor Investors will make payment in the manner described in “Escrow Mechanism - Terms of payment and payment into the Escrow Accounts” in the section “**Offer Procedure**” beginning on page 282 of this Draft Red Herring Prospectus

- h) Upon receipt of the Bid cum Application Form, submitted whether in physical or electronic mode, the Designated Branch of the SCSB shall verify if sufficient funds equal to the Bid Amount are available in the ASBA Account, as mentioned in the Bid cum Application Form prior to uploading such Bids with the Stock Exchange.
- i) If sufficient funds are not available in the ASBA Account, the Designated Branch of the SCSB shall reject such Bids and shall not upload such Bids with the Stock Exchange.
- j) If sufficient funds are available in the ASBA Account, the SCSB shall block an amount equivalent to the Bid Amount mentioned in the Bid cum Application Form and will enter each Bid option into the electronic bidding system as a separate Bid and generate a TRS for each price and demand option. The TRS shall be furnished to the ASBA Bidder on request.
- k) The Bid Amount shall remain blocked in the aforesaid ASBA Account until finalization of the Basis of Allotment and consequent transfer of the Bid Amount against the Allotted Equity Shares to the Public Offer Account, or until withdrawal/failure of the Offer or until withdrawal/rejection of the Bid cum Application Form, as the case may be. Once the Basis of Allotment is finalized, the Registrar to the Offer shall send an appropriate request to the SCSB for unblocking the relevant ASBA Accounts and for transferring the amount allocable to the successful Bidders to the Public Offer Account. In case of withdrawal/failure of the Offer, the blocked amount shall be unblocked on receipt of such information from the Registrar to the Offer.

BIDS AT DIFFERENT PRICE LEVELS AND REVISION OF BIDS

- a) Our Company in consultation with the Book Running Lead Manager, and without the prior approval of, or intimation, to the Bidders, reserves the right to revise the Price Band during the Bid/ Offer Period, provided that the Cap Price shall be less than or equal to 120% of the Floor Price and the Floor Price shall not be less than the face value of the Equity Shares. The revision in Price Band shall not exceed 20% on the either side i.e. the floor price can move up or down to the extent of 20% of the floor price disclosed. If the revised price band decided, falls within two different price bands than the minimum application lot size shall be decided based on the price band in which the higher price falls into.
- b) Our Company in consultation with the Book Running Lead Manager, will finalize the Offer Price within the Price Band, without the prior approval of, or intimation, to the Bidders.
- c) The Bidders can Bid at any price within the Price Band. The Bidder has to Bid for the desired number of Equity Shares at a specific price.
- d) The price of the specified securities offered to an anchor investor shall not be lower than the price offered to other applicants.

Participation by Associates /Affiliates of BRLM and the Syndicate Members

The BRLM and the Syndicate Members, if any, shall not be allowed to purchase in this Offer in any manner, except towards fulfilling their underwriting obligations. However, the associates and affiliates of the BRLM and the Syndicate Members, if any, may subscribe the Equity Shares in the Offer, either in the QIB Category or in the Non-Institutional Category as may be applicable to such Bidders, where the allocation is on a proportionate basis and such subscription may be on their own account or on behalf of their clients. All categories of investors, including associates or affiliates of the BRLMs and Syndicate Members, shall be treated equally for the purpose of allocation.

Neither the BRLM nor any persons related to the BRLM (other than Mutual Funds sponsored by entities related to the BRLM), Promoters and Promoter Group can apply in the Offer under the Anchor Investor Portion. Further, the member of the Promoter Group shall not participate by applying for Equity Shares. Further, persons related to the Promoter and Promoter Group shall not apply in the Offer under the Anchor Investor Portion.

Further, an Anchor Investor shall be deemed to be an associate of the BRLMs, if: (a) either of them controls, directly or indirectly through its subsidiary or holding company, not less than 15% of the voting rights in the other; or (b) either of them, directly or indirectly, by itself or in combination with other persons, exercises control over the other; or (c) there is a common director, excluding a nominee director, among the Anchor Investor and the BRLMs.

Option to Subscribe in the Offer

- a) As per Section 29(1) of the Companies Act 2013, allotment of Equity Shares shall be made in dematerialized form only. Investors will not have the option of getting allotment of specified securities in physical form.
- b) The Equity Shares, on allotment, shall be traded on the Stock Exchange in demat segment only.

- c) A single application from any investor shall not exceed the investment limit/minimum number of Equity Shares that can be held by him/her/it under the relevant regulations/statutory guidelines and applicable law.

- 11) The Book Running Lead Manager, our Promoters, Promoter Group or any person related to them (except for Mutual Funds sponsored by entities related to the Book Running Lead Manager) will not participate in the Anchor Investor Portion. The parameters for selection of Anchor Investors will be clearly identified by the Book Running Lead Manager and made available as part of the records of the Book Running Lead Manager for inspection by SEBI.
- 12) Bids made by QIBs under both the Anchor Investor Portion and the QIB Portion will not be considered multiple Bids.
- 13) Anchor Investors are not permitted to Bid in the Offer through the ASBA process.

BIDS BY ELIGIBLE NRIS:

Eligible NRIs may obtain copies of Bid cum Application Form from the offices of the BRLM and the Designated Intermediaries. Eligible NRI Bidders bidding on a repatriation basis by using the Non- Resident Forms should authorize their SCSB to block their Non-Resident External (“NRE”) accounts, or Foreign Currency Non-Resident (“FCNR”) ASBA Accounts, and eligible NRI Bidders bidding on a non-repatriation basis by using Resident Forms should authorize their SCSB to block their Non- Resident Ordinary (“NRO”) accounts for the full Bid Amount, at the time of the submission of the Bid cum Application Form.

- Eligible NRIs bidding on non-repatriation basis are advised to use the Bid cum Application Form for residents ([●] in colour).

- Eligible NRIs bidding on a repatriation basis are advised to use the Bid cum Application Form meant for Non-Residents ([●] in colour).

BIDS BY FPI INCLUDING FIIP'S:

In terms of the SEBI FPI Regulations, the issue of Equity Shares to a single FPI including its investor group (which means multiple entities registered as FPIs and directly or indirectly having common ownership of more than 50% or common control) must be below 10% of the post-Offer paid-up capital.

In case of Bids made by FPIs, a certified copy of the certificate of registration issued under the SEBI FPI Regulations is required to be attached to the Bid cum Application Form, failing which our Company reserves the right to reject any Bid without assigning any reason. FPIs who wish to participate in the Offer are advised to use the Bid cum Application Form for Non-Residents ([●] in colour).

If the total holding of an FPI increases beyond 10% of the total paid-up Equity Share capital, on a fully diluted basis or 10% or more of the paid-up value of any series of debentures or preference shares or share warrants issued that may be issued by our Company, the total investment made by the FPI will be re-classified as FDI subject to the conditions as specified by SEBI and the RBI in this regard and our Company and the investor will be required to comply with applicable reporting requirements. Further, the total holdings of all FPIs put together, with effect from April 1, 2020, can be up to the sectoral cap applicable to the sector in which our Company operates.

In terms of the FEMA Regulations, for calculating the aggregate holding of FPIs in a company, holding of all registered FPIs shall be included.

The FEMA Non-Debt Instruments Rules was enacted on October 17, 2019 in supersession of the Foreign Exchange Management (Transfer or Issue of Security by a Person Resident Outside India) Regulations, 2017, except as respects things done or omitted to be done before such supersession. FPIs are permitted to participate in the Offer subject to compliance with conditions and restrictions which may be specified by the Government from time to time.

To ensure compliance with the above requirement, SEBI, pursuant to its circular dated July 13, 2018, has directed that at the time of finalisation of the Basis of Allotment, the Registrar shall (i) use the PAN issued by the Income Tax Department of India for checking compliance for a single FPI; and (ii) obtain validation from Depositories for the FPIs who have invested in the Offer to ensure there is no breach of the investment limit, within the timelines for offer procedure, as prescribed by SEBI from time to time.

Subject to compliance with all applicable Indian laws, rules, regulations, guidelines and approvals in terms of Regulation 21 of the SEBI FPI Regulations, an FPI, may issue, subscribe to or otherwise deal in offshore derivative instruments (as defined under the SEBI FPI Regulations as any instrument, by whatever name called, which is issued overseas by a FPI against securities held by it in India, as its underlying) directly or indirectly, only in the event (i) such offshore derivative instruments are issued only by persons registered as Category I FPIs; (ii) such offshore derivative instruments are issued only to persons eligible for registration as Category I FPIs; (iii) such offshore derivative instruments are issued after compliance with 'know your client' norms as specified by SEBI; and (iv) such other conditions as may be specified by SEBI from time to time.

An FPI is required to ensure that the transfer of an offshore derivative instruments issued by or on behalf of it, is subject to (a) the transfer being made to persons which fulfil the criteria provided under the SEBI FPI Regulations (as mentioned above from points (a) to (d)); and (b) prior consent of the FPI is obtained for such transfer, except in cases, where the persons to whom the offshore derivative instruments are to be transferred, are pre-approved by the FPI.

Bids by following FPIs, submitted with the same PAN but with different beneficiary account numbers, Client IDs and DP IDs shall not be treated as multiple Bids:

- FPIs which utilise the multi investment manager ("MIM") structure
- Offshore derivative instruments which have obtained separate FPI registration for ODI and proprietary derivative investments
- Sub funds or separate class of investors with segregated portfolio who obtain separate FPI registration
- FPI registrations granted at investment strategy level/sub fund level where a collective investment scheme or fund has multiple investment strategies/sub-funds with identifiable differences and managed by a single investment manager
- Multiple branches in different jurisdictions of foreign bank registered as FPIs
- Government and Government related investors registered as Category I FPIs; and
- Entities registered as collective investment scheme having multiple share classes.

The Bids belonging to any of the above mentioned seven structures and having same PAN may be collated and identified as

a single Bid in the Bidding process. The Equity Shares allotted in the Bid may be proportionately distributed to the applicant FPIs (with same PAN).

In order to ensure valid Bids, FPIs making multiple Bids using the same PAN, and with different beneficiary account numbers, Client IDs and DP IDs, are required to provide a confirmation along with each of their Bid cum Application Forms that the relevant FPIs making multiple Bids utilize any of the above-mentioned structures and indicate the name of their respective investment managers in such confirmation. In the absence of such confirmation from the relevant FPIs, such multiple Bids shall be rejected.

The FPIs who wish to participate in the Offer are advised to use the Bid cum Application Form for non-residents.

BIDS BY SEBI REGISTERED VCF'S, AIF'S AND FVCI'S:

The SEBI FVCI Regulations and the SEBI AIF Regulations inter-alia prescribe the investment restrictions on the VCFs, FVCIs and AIFs registered with SEBI. Further, the SEBI AIF Regulations prescribe, among others, the investment restrictions on AIF's.

The holding by any individual VCF registered with SEBI in one venture capital undertaking should not exceed 25% of the corpus of the VCF. Further, VCFs and FVCIs can invest only up to 33.33% of the investible funds by way of subscription to an initial public offering.

The category I and II AIFs cannot invest more than 25% of the corpus in one Investee Company. A category III AIF cannot invest more than 10% of the corpus in one Investee Company. A venture capital fund registered as a category I AIF, as defined in the SEBI AIF Regulations, cannot invest more than 1/3rd of its corpus by way of subscription to an initial public offering of a venture capital undertaking. Additionally, the VCFs which have not re-registered as an AIF under the SEBI AIF Regulations shall continue to be regulated by the VCF Regulation until the existing fund or scheme managed by the fund is wound up and such funds shall not launch any new scheme after the notification of the SEBI AIF Regulations.

All FIIs and FVCIs should note that refunds, dividends and other distributions, if any, will be payable in Indian Rupees only and net of Bank charges and commission.

Our Company or the BRLM will not be responsible for loss, if any, incurred by the Bidder on account of conversion of foreign currency.

There is no reservation for Eligible NRIs, FPIs and FVCIs and all Bidders will be treated on the same basis with other categories for the purpose of allocation.

BIDS BY HUFs:

Hindu Undivided Families or HUFs, in the individual name of the Karta. The Bidder should specify that the Application is being made in the name of the HUF in the Bid cum Application Form as follows: "Name of sole or first Applicant: XYZ Hindu Undivided Family applying through XYZ, where XYZ is the name of the Karta". Bid cum Applications by HUFs may be considered at par with Bid cum Applications from individuals.

BIDS BY MUTUAL FUNDS:

No Mutual Fund scheme shall invest more than 10% of its net asset value in equity shares or equity related instruments of any single company provided that the limit of 10% shall not be applicable for investments in index funds or sector or industry specific funds. No Mutual Fund under all its schemes should own more than 10% of any company's paid-up share capital carrying voting rights.

With respect to Bids by Mutual Funds, a certified copy of their SEBI registration certificate must be lodged with the Bid cum Application Form. Failing this, our Company reserves the right to accept or reject any Bid cum Application in whole or in part, in either case, without assigning any reason thereof.

In case of a mutual fund, a separate Bid cum Application can be made in respect of each scheme of the mutual fund registered with SEBI and such Applications in respect of more than one scheme of the mutual fund will not be treated as multiple applications provided that the Bids clearly indicate the scheme concerned for which the Bids has been made.

The Bids made by the asset management companies or custodians of Mutual Funds shall specifically state the names of the concerned schemes for which the Applications are made.

BIDS BY SYSTEMATICALLY IMPORTANT NON-BANKING FINANCIAL COMPANIES:

BIDS BY BANKING COMPANY:

In case of Bids made by banking companies registered with RBI, certified copies of: (i) the certificate of registration issued by RBI, and (ii) the approval of such banking company's investment committee are required to be attached to the Bid cum Application Form, failing which our Company reserves the right to reject any Bid by a banking company without assigning any reason.

The investment limit for banking companies in non-financial services companies as per the Banking Regulation Act, 1949, as amended (the "Banking Regulation Act"), and the Reserve Bank of India (Financial Services provided by Banks) Directions, 2016, is 10% of the paid-up share capital of the investee company not being its subsidiary engaged in non-financial services or 10% of the banks' own paid-up share capital and reserves, whichever is lower. However, a banking company would be permitted to invest in excess of 10% but not exceeding 30% of the paid-up share capital of such investee company if (i) the investee company is engaged in non-financial activities permitted for banks in terms of Section 6(1) of the Banking Regulation Act, or (ii) the additional acquisition is through restructuring of debt / corporate debt restructuring / strategic debt restructuring, or to protect the banks' interest on loans / investments made to a company. The bank is required to submit a time bound action plan for disposal of such shares within a specified period to RBI. A banking company would require a prior approval of RBI to make (i) investment in a subsidiary and a financial services company that is not a subsidiary (with certain exception prescribed), and (ii) investment in a nonfinancial services company in excess of 10% of such investee company's paid-up share capital as stated in 5(a)(v)(c)(i) of the Reserve Bank of India (Financial Services provided by Banks) Directions, 2016.

BIDS BY SCSB'S:

SCSBs participating in the Offer are required to comply with the terms of the SEBI circulars dated September 13, 2012 and January 2, 2013. Such SCSBs are required to ensure that for making Bid cum Applications on their own account using ASBA, they should have a separate account in their own name with any other SEBI registered SCSBs. Further, such account shall be used solely for the purpose of making Bid cum application in public Offers and clear demarcated funds should be available in such account for such Bid cum applications.

In accordance with existing regulations issued by the RBI, OCBs cannot participate in the Issue.

The Equity Shares offered in the Offer have not been and will not be registered under the U.S. Securities Act of 1933, as amended, or any state securities laws in the United States, and unless so registered may not be offered or sold within the United States, except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable state securities laws. Accordingly, such Equity Shares are being offered and sold outside of the United States in offshore transactions in reliance on Regulation S under the U.S. Securities Act and the applicable laws of the jurisdiction where those offers and sales occur.

The above information is given for the benefit of the Bidders. Our Company, the Promoter and the BRLMs are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Draft Red Herring Prospectus. Bidders are advised to make their independent investigations and ensure that any single Bid from them does not exceed the applicable investment limits or maximum number of the Equity Shares that can be held by them under applicable law or regulation or as specified in this Draft Red Herring Prospectus, or as will be specified in the Red Herring Prospectus/Prospectus.

ISSUANCE OF A CONFIRMATION NOTE ("CAN") AND ALLOTMENT IN THE OFFER:

1. Upon approval of the basis of allotment by the Designated Stock Exchange, the Book Running Lead Manager or Registrar to the Offer shall send to the SCSBs a list of their Bidders who have been allocated Equity Shares in the Offer.
2. The Registrar will then dispatch a CAN to their Bidders who have been allocated Equity Shares in the Offer. The dispatch of a CAN shall be deemed a valid, binding and irrevocable contract for the Bidder

Build of the Book

- a) Bids received from various Bidders through the Designated Intermediaries may be electronically uploaded on the Bidding Platform of the Stock Exchange on a regular basis. The book gets built up at various price levels. This information may be available with the Book Running Lead Manager at the end of the Bid/ Offer Period.
- b) Based on the aggregate demand and price for Bids registered on the Stock Exchange Platform, a graphical representation of consolidated demand and price as available on the websites of the Stock Exchange may be made available at the Bidding centres during the Bid/ Offer Period.

Withdrawal of Bids

None of the bidders can withdraw their Bids or lower the size of their Bids at any stage.

Price Discovery and Allocation

- a) Based on the demand generated at various price levels, our Company in consultation with the Book Running Lead Manager, shall finalise the Offer Price and the Anchor Investor Offer Price.
- b) The SEBI ICDR Regulations, 2018 specify the allocation or Allotment that may be made to various categories of Bidders in an Offer depending on compliance with the eligibility conditions. Certain details pertaining to the percentage of Offer size available for allocation to each category is disclosed overleaf of the Bid cum Application Form and in the RHP. For details in relation to allocation, the Bidder may refer to the RHP.
- c) Under-subscription in any category (except QIB Category) is allowed to be met with spillover from any other category or combination of categories at the discretion of the Issuer and the in consultation with the Book Running Lead Manager and the Designated Stock Exchange and in accordance with the SEBI ICDR Regulations. Unsubscribed portion in QIB Category is not available for subscription to other categories.

- d) In case of under subscription in the Offer, spill-over to the extent of such under-subscription may be permitted from the Reserved Portion to the Offer. For allocation in the event of an undersubscription applicable to the Issuer, Bidders may refer to the Red Herring Prospectus.
- e) In case if the Individual Investor category is entitled to more than the allocated portion on proportionate basis, the category shall be allotted that higher percentage.
- f) Allocation to Anchor Investors shall be at the discretion of our Company and in consultation with the Book Running Lead Manager, subject to compliance with the SEBI Regulations.

Illustration of the Book Building and Price Discovery Process: Bidders should note that this example is solely for illustrative purposes and is not specific to the Offer; it also excludes Bidding by Anchor Investors. Bidders can bid at any price within the Price Band. For instance, assume a Price Band of ₹20 to ₹ 24 per share, Offer size of 3,000 Equity Shares and receipt of five Bids from Bidders, details of which are shown in the table below. The illustrative book given below shows the demand for the Equity Shares of the Issuer at various prices and is collated from Bids received from various investors.

Bid Quantity	Bid Amount (₹)	Cumulative Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%
2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the Issuer is able to Offer the desired number of Equity Shares is the price at which the book cuts off, i.e., ₹ 22.00 in the above example. The Issuer, in consultation with the **Book Running Lead Manager**, may finalise the Offer Price at or below such Cut-Off Price, i.e., at or below ₹ 22.00. All Bids at or above this Offer Price are valid Bids and are considered for allocation in the respective categories.

BASIS OF ALLOCATION

- a) The SEBI (ICDR) Regulations specify the allocation or Allotment that may be made to various categories of Bidders in an Offer depending on compliance with the eligibility conditions. Certain details pertaining to the percentage of Offer size available for allocation to each category is disclosed overleaf of the Bid cum Application Form and in the DRHP. For details in relation to allocation, the Bidder may refer to the RHP.
- b) Under-subscription in any category (except QIB Category) is allowed to be met with spill over from any other category or combination of categories at the discretion of the Issuer and in consultation with the BRLM and the Designated Stock Exchange and in accordance with the SEBI (ICDR) Regulations, Unsubscribed portion in QIB Category is not available for subscription to other categories.
- c) In case of under subscription in the Offer, spill-over to the extent of such under- subscription may be permitted from the Reserved Portion to the Offer. For allocation in the event of an under-subscription applicable to the Issuer, Bidders may refer to the RHP.

ALLOTMENT PROCEDURE AND BASIS OF ALLOTMENT

The allotment of Equity Shares to Bidders other than Individual Investors may be on proportionate basis. No Individual Investors will be allotted less than the minimum Bid Lot subject to availability of shares in Individual Investors Category.

Flow of Events from the closure of Bidding period (T DAY) Till Allotment:

- On T Day, RTA to validate the electronic bid details with the depository records and also reconcile the final certificates received from the Sponsor Bank for UPI process and the SCSBs for ASBA and Syndicate ASBA process with the electronic bid details
- RTA identifies cases with mismatch of account number as per bid file / FC and as per applicant's bank account linked to depository demat account and seek clarification from SCSB to identify the applications with third party account for rejection.
- Third party confirmation of applications to be completed by SCSBs on T+1 day.
- RTA prepares the list of final rejections and circulates the rejections list with BRLM(s)/ Company for their review/ comments.
- Post rejection, the RTA submits the basis of allotment with the Designated Stock Exchange (DSE).
- The DSE, post verification approves the basis and generates drawal of lots wherever applicable, through a random number generation software.
- The RTA uploads the drawal numbers in their system and generates the final list of allottees as per process mentioned below.

Process for generating list of Allottees: -

- Instruction is given by RTA in their Software System to reverse category wise all the application numbers in the ascending order and generate the bucket /batch as per the allotment ratio. For example, if the application number is 78654321 then system reverses it to 12345687 and if the ratio of allottees to applicants in a category is 2:7 then the system will create lots of 7. If the drawal of lots provided by Designated Stock Exchange (DSE) is 3 and 5 then the system will pick every 3rd and 5th application in each of the lot of the category and these applications will be allotted the shares in that category.
- In categories where there is proportionate allotment, the Registrar will prepare the proportionate working based on the oversubscription times.
- In categories where there is undersubscription, the Registrar will do full allotment for all valid applications.
- On the basis of the above, the RTA will work out the allottees, partial allottees and non- allottees, prepare the fund transfer letters and advice the SCSBs to debit or unblock the respective accounts.

BASIS OF ALLOTMENT

a. For Individual Bidders

Bids received from the Individual Bidders at or above the Offer Price shall be grouped together to determine the total demand under this category. The Allotment to all the successful Individual Bidders will be made at the Offer Price.

The Offer size less Allotment to Non-Institutional and QIB Bidders shall be available for Allotment to Individual Bidders who have Bid in the Offer at a price that is equal to or greater than the Offer Price. If the aggregate demand in this category is less than or equal to [●] Equity Shares at or above the Offer Price, full Allotment shall be made to the Individual Bidders to the extent of their valid Bids.

If the aggregate demand in this category is greater than [●] Equity Shares of face value of Rs. 10/- at or above the Offer Price, the Allotment shall be made by draw of lots in such manner that the total numbers of shares allotted in that category is equal to the number of Shares allotted.

In the event of the Offer being over-subscribed, the Issuer may finalise the Basis of Allotment in consultation with the NSE Emerge (The Designated Stock Exchange).

b. For Non-Institutional Bidders

Bids received from Non-Institutional Bidders at or above the Offer Price shall be grouped together to determine the total demand under this category. The Allotment to all successful Non- Institutional Bidders will be made at the Offer Price. The allotment of specified securities to each non-institutional investor shall not be less than the minimum application size in the non-institutional investor category, and the remaining shares, if any, shall be allotted on proportionate basis.

The Offer size less Allotment to QIBs and Individual Investor shall be available for Allotment to Non- Institutional Bidders who have Bid in the Offer at a price that is equal to or greater than the Offer Price. If the aggregate demand in this category is less than or equal to [●] Equity Shares at or above the Offer Price, full Allotment shall be made to Non-Institutional Bidders to the extent of their demand.

In case the aggregate demand in this category is greater than [●] Equity Shares of face value of ₹10/- each at or above the Offer Price, Allotment shall be made on a proportionate basis up to a minimum of [●] Equity Shares of face value of ₹10/- each and in multiples of [●] Equity Shares of face value of ₹10/- each thereafter. The allocation may be made in marketable lots on proportionate basis as set forth hereunder:

- a) The number of Equity Shares to be allocated to the successful Bidders in a particular category shall be determined.
- b) The successful Bidders, from amongst all valid Bidders in that category, shall be determined by a draw of lots, such that the total number of Equity Shares allotted in that category equals the number of Equity Shares allocated.
- c) If the proportionate allotment to any Bidder results in a number that is not a multiple of [●] Equity Shares of face value ₹10/- each, the number of Equity Shares allotted shall be rounded off to the nearest multiple of [●] Equity Shares of face value ₹10/- each, subject to a minimum allotment of [●] Equity Shares of face value ₹10/- each.

If as a result of the process of rounding off to the nearest multiple of [●] Equity Shares of face value of ₹10/- each, results in the actual allotment being higher than the shares Issued, the final allotment may be higher at the sole discretion of the Board of Directors, up to 110% of the size of the Offer specified under the Capital Structure mentioned in this Draft Red Herring Prospectus.

c. For QIBs

For the Basis of Allotment to Anchor Investors, Bidders/Applicants may refer to the SEBI ICDR Regulations or RHP / Prospectus. Bids received from QIBs Bidding in the QIB Category (net of Anchor Portion) at or above the Offer Price may be grouped together to determine the total demand under this category. The QIB Category may be available for Allotment to QIBs who have Bid at a price that is equal to or greater than the Offer Price. Allotment may be undertaken in the following manner: Allotment shall be undertaken in the following manner:

- a) In the first instance allocation to Mutual Funds for [●]% of the QIB Portion shall be determined as follows:
 - In the event that Bids by Mutual Fund exceeds [●]% of the QIB Portion, allocation to Mutual Funds shall be done on a proportionate basis for [●]% of the QIB Portion.

- In the event that the aggregate demand from Mutual Funds is less than [●]% of the QIB Portion then all Mutual Funds shall get full Allotment to the extent of valid Bids received above the Offer Price.
- Equity Shares remaining unsubscribed, if any, not allocated to Mutual Funds shall be available for Allotment to all QIB Bidders as set out in (b) below;

b) In the second instance Allotment to all QIBs shall be determined as follows:

- In the event that the oversubscription in the QIB Portion, all QIB Bidders who have submitted Bids above the Offer Price shall be allotted Equity Shares on a proportionate basis, upto a minimum of [●] Equity Shares and in multiples of [●] Equity Shares thereafter for [●]% of the QIB Portion.
- Mutual Funds, who have received allocation as per (a) above, for less than the number of Equity Shares Bid for by them, are eligible to receive Equity Shares on a proportionate basis, upto a minimum of [●] Equity Shares and in multiples of [●] Equity Shares thereafter, along with other QIB Bidders.
- Under-subscription below [●]% of the QIB Portion, if any, from Mutual Funds, would be included for allocation to the remaining QIB Bidders on a proportionate basis. The aggregate Allotment to QIB Bidders shall not be more than [●] Equity Shares.

d. ALLOTMENT TO ANCHOR INVESTOR (IF APPLICABLE)

a) Allocation of Equity Shares to Anchor Investors at the Anchor Investor Allocation Price will be at the discretion of the Issuer, in consultation with the BRLM, subject to compliance with the following requirements:

- i) not more than 60% of the QIB Portion will be allocated to Anchor Investors;
- ii) one-third of the Anchor Investor Portion shall be reserved for domestic Mutual Funds, subject to valid Bids being received from domestic Mutual Funds at or above the price at which allocation is being done to other Anchor Investors; and
- iii) allocation to Anchor Investors shall be on a discretionary basis and subject to:
 - a maximum number of two Anchor Investors for allocation up to ₹ 2 crores;
 - a minimum number of two Anchor Investors and maximum number of 15 Anchor Investors for allocation of more than ₹ 2 crores and up to ₹ 25 crores subject to minimum allotment of ₹ 1 crores per such Anchor Investor; and
 - in case of allocation above twenty five crore rupees; a minimum of 5 such investors and a maximum of 15 such investors for allocation up to twenty five crore rupees and an additional 10 such investors for every additional twenty five crore rupees or part thereof, shall be permitted, subject to a minimum allotment of one crore rupees per such investor.

b) A physical book is prepared by the Registrar on the basis of the Anchor Investor Application Forms received from Anchor Investors. Based on the physical book and at the discretion of the Issuer, in consultation with the BRLM, selected Anchor Investors will be sent a CAN and if required, a revised CAN.

c) In the event that the Offer Price is higher than the Anchor Investor Allocation Price:

Anchor Investors will be sent a revised CAN within one day of the Pricing Date indicating the number of Equity Shares allocated to such Anchor Investor and the pay-in date for payment of the balance amount. Anchor Investors are then required to pay any additional amounts, being the difference between the Offer Price and the Anchor Investor Allocation Price, as indicated in the revised CAN within the pay-in date referred to in the revised CAN. Thereafter, the Allotment Advice will be issued to such Anchor Investors

d) In the event the Offer Price is lower than the Anchor Investor Allocation Price:

Anchor Investors who have been Allotted Equity Shares will directly receive Allotment Advice.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and Foreign Exchange Management Act, 1999 ("FEMA"). While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The government bodies responsible for granting foreign investment approvals are the Reserve Bank of India ("RBI") and Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India ("DIPP").

The Government of India has from time to time made policy pronouncements on FDI through press notes and press releases. The DPIIT issued the Consolidated Foreign Direct Investment Policy notified by the DPIIT File No. 5(2)/2020-FDI Policy dated October 15, 2020, with effect from October 15, 2020 (the "FDI Policy"), which consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT or the DPIIT that were in force and effect prior to October 15, 2020. The Government of India proposes to update the consolidated circular on FDI Policy once every year and therefore, the FDI Policy will be valid until the DPIIT issues an updated circular.

In terms of the FEMA NDI Rules, a person resident outside India may make investments into India, subject to certain terms and conditions, and provided that an entity of a country, which shares land border with India or the beneficial owner of an investment into India who is situated in or is a citizen of any such country, shall invest only with government approval.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the RBI, provided that (i) the activities of the investee company are under the automatic route under the foreign direct investment policy and transfer does not attract the provisions of the Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the FDI policy; and (iii) the pricing is in accordance with the guidelines prescribed by the SEBI / RBI.

Further, in accordance with Press Note No. 3 (2020 Series), dated April 17, 2020 issued by the DPIIT and the Foreign Exchange Management (Non-debt Instruments) Amendment Rules, 2020 which came into effect from April 22, 2020, any investment, subscription, purchase or sale of equity instruments by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country ("Restricted Investors"), will require prior approval of the Government, as prescribed in the Consolidated FDI Policy and the FEMA Rules. Further, in the event of transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction/ purview, such subsequent change in the beneficial ownership will also require approval of the Government. Furthermore, on April 22, 2020, the Ministry of Finance, Government of India has also made a similar amendment to the FEMA Rules. Pursuant to the Foreign Exchange Management (Non-debt Instruments) (Fourth Amendment) Rules, 2020, a multilateral bank or fund, of which India is a member, shall not be treated as an entity of a particular country nor shall any country be treated as the beneficial owner of the investments of such bank or fund in India. Each Bidder should seek independent legal advice about its ability to participate in the Offer. In the event such prior approval of the Government of India is required, and such approval has been obtained, the Bidder shall intimate our Company and the Registrar to the Offer in writing about such approval along with a copy thereof within the Offer Period.

As per the existing policy of the Government of India, OCBs cannot participate in this Offer and in accordance with the extant FDI guidelines on sectoral caps, pricing guidelines etc. as amended by Reserve bank of India, from time to time. Investors are advised to confirm their eligibility under the relevant laws before investing and / or subsequent purchase or sale transaction in the Equity Shares of our Company. Investors will not offer, sell, pledge or transfer the Equity Shares of our Company to any person who is not eligible under applicable laws, rules, regulations, guidelines. Our Company, the Underwriters and their respective directors, officers, agents, affiliates and representatives, as applicable, accept no responsibility or liability for advising any investor on whether such investor is eligible to acquire Equity Shares of our Company.

Investment conditions/restrictions for overseas entities

Under the current FDI Policy 2020, the maximum amount of Investment (sectoral cap) by foreign investor in an issuing entity is composite unless it is explicitly provided otherwise including all types of foreign investments, direct and indirect, regardless of whether it has been made for FDI, FPI, NRI/OCI, LLPs, FVCI, Investment Vehicles and DRs under Foreign Exchange Management (Non-debt Instruments) Rules, 2019. Any equity holding by a person resident outside India resulting from conversion of any debt instrument under any arrangement shall be reckoned as foreign investment under the composite cap.

Portfolio Investment up to aggregate foreign investment level of 49% or sectoral/statutory cap, whichever is lower, will not be subject to either Government approval or compliance of sectoral conditions, if such investment does not result in transfer of ownership and/or control of Indian entities from resident Indian citizens to non-resident entities. Other foreign investments will be

subject to conditions of Government approval and compliance of sectoral conditions as per FDI Policy. The total foreign investment, direct and indirect, in the issuing entity will not exceed the sectoral/statutory cap.

Investment by FPIs under Portfolio Investment Scheme (PIS)

With regards to purchase/sale of capital instruments of an Indian company by an FPI under PIS the total holding by each FPI or an investor group as referred in SEBI (FPI) Regulations, 2014 shall not exceed 10% of the total paid-up equity capital on a fully diluted basis or less than 10% of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all FPIs put together shall not exceed 24% of paid-up equity capital on fully diluted basis or paid-up value of each series of debentures or preference shares or share warrants. The said limit of 10% and 24% will be called the individual and aggregate limit, respectively. However, this limit of 24 % may be increased up to sectoral cap/statutory ceiling, as applicable, by the Indian company concerned by passing a resolution by its Board of Directors followed by passing of a special resolution to that effect by its general body.

Investment by NRI or OCI on repatriation basis:

The purchase/sale of equity shares, debentures, preference shares and share warrants issued by an Indian company (hereinafter referred to as "Capital Instruments") of a listed Indian company on a recognized stock exchange in India by Non-Resident Indian (NRI) or Overseas Citizen of India (OCI) on repatriation basis is allowed subject to certain conditions under Foreign Exchange Management (Non-debt Instruments) Rules, 2019.

The total holding by any individual NRI or OCI shall not exceed 5% of the total paid-up equity capital on a fully diluted basis or should not exceed 5% of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all NRIs and OCIs put together shall not exceed 10% of the total paid-up equity capital on a fully diluted basis or shall not exceed 10% of the paid-up value of each series of debentures or preference shares or share warrants; provided that the aggregate ceiling of 10% may be raised to 24% if a special resolution to that effect is passed by the general body of the Indian company.

Investment by NRI or OCI on non-repatriation basis

As per current FDI Policy 2020, Foreign Exchange Management (Non-debt Instruments) Rules, 2019, Purchase/ sale of Capital Instruments or convertible notes or units or contribution to the capital of an LLP by a NRI or OCI on non- repatriation basis – will be deemed to be domestic investment at par with the investment made by residents. This is further subject to remittance channel restrictions.

The Equity Shares have not been and will not be registered under the U.S. Securities Act of 1933, as amended ("US Securities Act") or any other state securities laws in the United States of America and may not be sold or offered within the United States of America, or to, or for the account or benefit of "US Persons" as defined in Regulation S of the U.S. Securities Act, except pursuant to exemption from, or in a transaction not subject to, the registration requirements of US Securities Act and applicable state securities laws. Accordingly, the equity shares are being offered and sold only outside the United States of America in an offshore transaction in reliance upon Regulation S under the US Securities Act and the applicable laws of the jurisdiction where those offers and sale occur.

Further, no offer to the public (as defined under Directive 2003/71/EC, together with any amendments) and implementing measures thereto, (the "Prospectus Directive") has been or will be made in respect of the Offer in any member State of the European Economic Area which has implemented the Prospectus Directive except for any such Issue made under exemptions available under the Prospectus Directive, provided that no such Issue shall result in a requirement to publish or supplement a prospectus pursuant to the Prospectus Directive, in respect of the Issue. Any forwarding, distribution or reproduction of this document in whole or in part may be unauthorized. Failure to comply with this directive may result in a violation of the Securities Act or the applicable laws of other jurisdictions. Any investment decision should be made on the basis of the final terms and conditions and the information contained in this Draft Red Herring Prospectus.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and Application may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

The above information is given for the benefit of the Applicants. Our Company and the Book Running Lead Manager are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Draft Red Herring Prospectus. Applicants are advised to make their independent investigations and ensure that the Applications are not in violation of laws or regulations applicable to them and do not exceed the applicable limits under the laws and regulations.

In respect of any share or shares held jointly by several persons, the company shall not be bound to issue more than one certificate, and delivery of a certificate for a share to one of several joint holders shall be sufficient delivery to all such holders.</p>
3.	<p>i. If any share certificate be worn out, defaced, mutilated or torn or if there be no further space on the back for endorsement of transfer, then upon production and surrender thereof to the company, a new certificate may be issued in lieu thereof, and if any certificate is lost or destroyed then upon proof thereof to the satisfaction of the company and on execution of such indemnity as the company deem adequate, a new certificate in lieu thereof shall be given. Every certificate under this Article shall be issued on payment of twenty rupees for each certificate.</p> <p>ii. The provisions of Articles (2) and (3) shall mutatis mutandis apply to debentures of the company.</p>
4.	Except as required by law, no person shall be recognised by the company as holding any share upon any trust, and the company shall not be bound by, or be compelled in any way to recognise (even when having notice thereof) any equitable, contingent, future or partial interest in any share, or any interest in any fractional part of a share, or (except only as by these regulations or by law otherwise provided) any other rights in respect of any share except an absolute right to the entirety thereof in the registered holder.
5.	<p>i. The company may exercise the powers of paying commissions conferred by sub-section (6) of section 40, provided that the rate per cent or the amount of the commission paid or agreed to be paid shall be disclosed in the manner required by that section and rules made thereunder.</p> <p>ii. The rate or amount of the commission shall not exceed the rate or amount prescribed in rules made under sub-section (6) of section 40.</p> <p>iii. The commission may be satisfied by the payment of cash or the allotment of fully or partly paid shares or partly in the one way and partly in the other.</p>
6.	<p>i. If at any time the share capital is divided into different classes of shares, the rights attached to any class (unless otherwise provided by the terms of issue of the shares of that class) may, subject to the provisions of section 48, and whether or not the company is being wound up, be varied with the consent in writing of the holders of three-fourths of the issued shares of that class, or with the sanction of a special resolution passed at a separate meeting of the holders of the shares of that class.</p> <p>ii. To every such separate meeting, the provisions of these regulations relating to general meetings shall mutatis mutandis apply, but so that the necessary quorum shall be at least two persons holding at least one-third of the issued shares of the class in question.</p>
7.	The rights conferred upon the holders of the shares of any class issued with preferred or other rights shall not, unless otherwise expressly provided by the terms of issue of the shares of that class, be deemed to be varied by the creation or issue of further shares ranking <i>pari-passu</i> therewith.
8.	Subject to the provisions of section 55, any preference shares may, with the sanction of an ordinary resolution, be issued on the terms that they are to be redeemed on such terms and in such manner as the company before the issue of the shares may, by special resolution, determine.
LIEN	
9.	<p>i. The company shall have a first and paramount lien:</p> <p>a. on every share (not being a fully paid share), for all monies (whether presently payable or not) called, or payable at a fixed time, in respect of that share; and</p> <p>b. on all shares (not being fully paid shares) standing registered in the name of a single person, for all monies presently payable by him or his estate to the company:</p> <p>Provided that the Board of directors may at any time declare any share to be wholly or in part exempt from the provisions of this clause.</p> <p>ii. The company's lien, if any, on a share shall extend to all dividends payable and bonuses declared from time to time in respect of such shares.</p>

	<p>iii. That fully paid shares shall be free from all lien and that in the case of partly paid shares the Issuer's lien shall be restricted to moneys called or payable at a fixed time in respect of such shares.</p>
10.	<p>The company may sell, in such manner as the Board thinks fit, any shares on which the company has a lien: Provided that no sale shall be made-</p> <p>a. unless a sum in respect of which the lien exists is presently payable; or</p> <p>b. until the expiration of fourteen days after a notice in writing stating and demanding payment of such part of the amount in respect of which the lien exists as is presently payable, has been given to the registered holder for the time being of the share or the person entitled thereto by reason of his death or insolvency.</p>
11.	<p>i. To give effect to any such sale, the Board may authorise some person to transfer the shares sold to the purchaser thereof</p> <p>ii. The purchaser shall be registered as the holder of the shares comprised in any such transfer.</p> <p>iii. The purchaser shall not be bound to see to the application of the purchase money, nor shall his title to the shares be affected by any irregularity or invalidity in the proceedings in reference to the sale.</p>
12.	<p>i. The proceeds of the sale shall be received by the company and applied in payment of such part of the amount in respect of which the lien exists as is presently payable.</p> <p>ii. The residue, if any, shall, subject to a like lien for sums not presently payable as existed upon the shares before the sale, be paid to the person entitled to the shares at the date of the sale.</p>
CALLS ON SHARES	
13.	<p>i. The Board may, from time to time, make calls upon the members in respect of any monies unpaid on their shares (whether on account of the nominal value of the shares or by way of premium) and not by the conditions of allotment thereof made payable at fixed times:</p> <p>Provided that no call shall exceed one-fourth of the nominal value of the share or be payable at less than one month from the date fixed for the payment of the last preceding call.</p> <p>ii. Each member shall, subject to receiving at least fourteen days' notice specifying the time or times and place of payment, pay to the company, at the time or times and place so specified, the amount called on his shares.</p> <p>iii. A call may be revoked or postponed at the discretion of the Board.</p> <p>iv. That any amount paid up in advance of calls on any share may carry interest but shall not in respect thereof confer a right to dividend or to participate in profits.</p>
14.	A call shall be deemed to have been made at the time when the resolution of the Board authorizing the call was passed and may be required to be paid by installments.
15.	The joint holders of a share shall be jointly and severally liable to pay all calls in respect thereof.
16.	<p>If a sum called in respect of a share is not paid before or on the day appointed for payment thereof, the person from whom the sum is due shall pay interest thereon from the day appointed for payment thereof to the time of actual payment at ten per cent per annum or at such lower rate, if any, as the Board may determine.</p> <p>The Board shall be at liberty to waive payment of any such interest wholly or in part.</p>
17.	<p>i. Any sum which by the terms of issue of a share becomes payable on allotment or at any fixed date, whether on account of the nominal value of the share or by way of premium, shall, for the purposes of these regulations, be deemed to be a call duly made and payable on the date on which by the terms of issue such sum becomes payable.</p>

	<ul style="list-style-type: none"> ii. In case of non-payment of such sum, all the relevant provisions of these regulations as to payment of interest and expenses, forfeiture or otherwise shall apply as if such sum had become payable by virtue of a call duly made and notified.
18.	<p>The Board -</p> <ul style="list-style-type: none"> a. may, if it thinks fit, receive from any member willing to advance the same, all or any part of the monies uncalled and unpaid upon any shares held by him and b. upon all or any of the monies so advanced, may (until the same would, but for such advance, become presently payable) pay interest at such rate not exceeding, unless the company in general meeting shall otherwise direct, twelve per cent per annum, as may be agreed upon between the Board and the member paying the sum in advance.
TRANSFER OF SHARES	
19.	<ul style="list-style-type: none"> i. The instrument of transfer of any share in the company shall be executed by or on behalf of both the transferor and transferee. ii. The transferor shall be deemed to remain a holder of the share until the name of the transferee is entered in the register of members in respect thereof. iii. That a common form of transfer shall be used.
20.	<ul style="list-style-type: none"> i. The Board may, subject to the right of appeal conferred by section 58 decline to register— ii. the transfer of a share, not being a fully paid share, to a person of whom they do not approve; or iii. any transfer of shares on which the company has a lien.
21.	<p>The Board may decline to recognise any instrument of transfer unless—</p> <ul style="list-style-type: none"> a. the instrument of transfer is in the form as prescribed in rules made under sub-section (1) of section 56; b. the instrument of transfer is accompanied by the certificate of the shares to which it relates, and such other evidence as the Board may reasonably require to show the right of the transferor to make the transfer; and c. the instrument of transfer is in respect of only one class of shares. <p>That registration of transfer shall not be refused on the ground of the transferor being either alone or jointly with any other person or persons indebted to the Issuer on any account whatsoever.</p>
22.	<p>On giving not less than seven days' previous notice in accordance with section 91 and rules made thereunder, the registration of transfers may be suspended at such times and for such periods as the Board may from time to time determine:</p> <p>Provided that such registration shall not be suspended for more than thirty days at any one time or for more than forty-five days in the aggregate in any year.</p>
TRANSMISSION OF SHARES	
23.	<ul style="list-style-type: none"> i. On the death of a member, the survivor or survivors where the member was a joint holder, and his nominee or nominees or legal representatives where he was a sole holder, shall be the only persons recognised by the company as having any title to his interest in the shares ii. Nothing in clause (i) shall release the estate of a deceased joint holder from any liability in respect of any share which had been jointly held by him with other persons. iii. That a common form of transmission shall be used.
24.	<ul style="list-style-type: none"> i. Any person becoming entitled to a share in consequence of the death or insolvency of a member may, upon such evidence being produced as may from time to time properly be required by the Board and subject as hereinafter provided, elect, either- <ul style="list-style-type: none"> a. to be registered himself as holder of the share; or

	<p>b. to make such transfer of the share as the deceased or insolvent member could have made.</p> <p>ii. The Board shall, in either case, have the same right to decline or suspend registration as it would have had, if the deceased or insolvent member had transferred the share before his death or insolvency.</p>
25.	<p>i. If the person so becoming entitled shall elect to be registered as holder of the share himself, he shall deliver or send to the company a notice in writing signed by him stating that he so elects.</p> <p>ii. If the person aforesaid shall elect to transfer the share, he shall testify his election by executing a transfer of the share.</p> <p>iii. All the limitations, restrictions and provisions of these regulations relating to the right to transfer and the registration of transfers of shares shall be applicable to any such notice or transfer as aforesaid as if the death or insolvency of the member had not occurred and the notice or transfer were a transfer signed by that member.</p>
26.	<p>A person becoming entitled to a share by reason of the death or insolvency of the holder shall be entitled to the same dividends and other advantages to which he would be entitled if he were the registered holder of the share, except that he shall not, before being registered as a member in respect of the share, be entitled in respect of it to exercise any right conferred by membership in relation to meetings of the company:</p> <p>Provided that the Board may, at any time, give notice requiring any such person to elect either to be registered himself or to transfer the share, and if the notice is not complied with within ninety days, the Board may thereafter withhold payment of all dividends, bonuses or other monies payable in respect of the share, until the requirements of the notice have been complied with.</p>
FORFEITURE OF SHARES	
27.	If a member fails to pay any call, or installment of a call, on the day appointed for payment thereof, the Board may, at any time thereafter during such time as any part of the call or installment remains unpaid, serve a notice on him requiring payment of so much of the call or installment as is unpaid, together with any interest which may have accrued.
28.	<p>The notice aforesaid shall-</p> <p>a. name a further day (not being earlier than the expiry of fourteen days from the date of service of the notice) on or before which the payment required by the notice is to be made; and</p> <p>b. state that, in the event of non-payment on or before the day so named, the shares in respect of which the call was made shall be liable to be forfeited.</p>
29.	If the requirements of any such notice as aforesaid are not complied with, any share in respect of which the notice has been given may, at any time thereafter, before the payment required by the notice has been made, be forfeited by a resolution of the Board to that effect.
30.	<p>i. A forfeited share may be sold or otherwise disposed of on such terms and in such manner as the Board thinks fit.</p> <p>ii. At any time before a sale or disposal as aforesaid, the Board may cancel the forfeiture on such terms as it thinks fit.</p>
31.	<p>i. A person whose shares have been forfeited shall cease to be a member in respect of the forfeited shares, but shall, notwithstanding the forfeiture, remain liable to pay to the company all monies which, at the date of forfeiture, were presently payable by him to the company in respect of the shares.</p> <p>ii. The liability of such person shall cease if and when the company shall have received payment in full of all such monies in respect of the shares.</p>
32.	<p>i. A duly verified declaration in writing that the declarant is a director, the manager or the secretary, of the company, and that a share in the company has been duly forfeited on a date stated in the declaration, shall be conclusive evidence of the facts therein stated as against all persons claiming to be entitled to the share;</p> <p>ii. The company may receive the consideration, if any, given for the share on any sale or disposal thereof and may execute a transfer of the share in favour of the person to whom the share is sold or disposed of;</p> <p>iii. The transferee shall thereupon be registered as the holder of the share; and</p>

	iv. The transferee shall not be bound to see to the application of the purchase money, if any, nor shall his title to the share be affected by any irregularity or invalidity in the proceedings in reference to the forfeiture, sale or disposal of the share.
33.	The provisions of these regulations as to forfeiture shall apply in the case of non-payment of any sum which, by the terms of issue of a share, becomes payable at a fixed time, whether on account of the nominal value of the share or by way of premium, as if the same had been payable by virtue of a call duly made and notified.

DIVIDENDS AND RESERVE	
77.	The company in general meeting may declare dividends, but no dividend shall exceed the amount recommended by the Board.
78.	Subject to the provisions of section 123, the Board may from time to time pay to the members such interim dividends as appear to it to be justified by the profits of the company.
79.	<ul style="list-style-type: none"> i. The Board may, before recommending any dividend, set aside out of the profits of the company such sums as it thinks fit as a reserve or reserves which shall, at the discretion of the Board, be applicable for any purpose to which the profits of the company may be properly applied, including provision for meeting contingencies or for equalizing dividends; and pending such application, may, at the like discretion, either be employed in the business of the company or be invested in such investments (other than shares of the company) as the Board may, from time to time, think fit.

	ii. The Board may also carry forward any profits which it may consider necessary not to divide, without setting them aside as a reserve.
80.	<p>i. Subject to the rights of persons, if any, entitled to shares with special rights as to dividends, all dividends shall be declared and paid according to the amounts paid or credited as paid on the shares in respect whereof the dividend is paid, but if and so long as nothing is paid upon any of the shares in the company, dividends may be declared and paid according to the amounts of the shares.</p> <p>ii. No amount paid or credited as paid on a share in advance of calls shall be treated for the purposes of this regulation as paid on the share.</p> <p>iii. All dividends shall be apportioned and paid proportionately to the amounts paid or credited as paid on the shares during any portion or portions of the period in respect of which the dividend is paid; but if any share is issued on terms providing that it shall rank for dividend as from a particular date such share shall rank for dividend accordingly. That there shall be no forfeiture of unclaimed dividends before the claim becomes barred by law.</p>
81.	The Board may deduct from any dividend payable to any member all sums of money, if any, presently payable by him to the company on account of calls or otherwise in relation to the shares of the company.
82.	<p>i. Any dividend, interest or other monies payable in cash in respect of shares may be paid by cheque or warrant sent through the post directed to the registered address of the holder or, in the case of joint holders, to the registered address of that one of the joint holders who is first named on the register of members, or to such person and to such address as the holder or joint holders may in writing direct.</p> <p>ii. Every such cheque or warrant shall be made payable to the order of the person to whom it is sent.</p>
83.	Any one of two or more joint holders of a share may give effective receipts for any dividends, bonuses or other monies payable in respect of such share.
84.	Notice of any dividend that may have been declared shall be given to the persons entitled to share therein in the manner mentioned in the Act.
85.	No dividend shall bear interest against the company.
ACCOUNTS	
86.	<p>i. The Board shall from time to time determine whether and to what extent and at what times and places and under what conditions or regulations, the accounts and books of the company, or any of them, shall be open to the inspection of members not being directors.</p> <p>ii. No member (not being a director) shall have any right of inspecting any account or book or document of the company except as conferred by law or authorised by the Board or by the company in general meeting.</p>
WINDING UP	
87.	<p>Subject to the provisions of Chapter XX of the Act and rules made thereunder-</p> <p>i. If the company shall be wound up, the liquidator may, with the sanction of a special resolution of the company and any other sanction required by the Act, divide amongst the members, in specie or kind, the whole or any part of the assets of the company, whether they shall consist of property of the same kind or not.</p> <p>ii. For the purpose aforesaid, the liquidator may set such value as he deems fair upon any property to be divided as aforesaid and may determine how such division shall be carried out as between the members or different classes of members.</p> <p>iii. The liquidator may, with the like sanction, vest the whole or any part of such assets in trustees upon such trusts for the benefit of the contributories if he considers necessary, but so that no member shall be compelled to accept any shares or other securities whereon there is any liability.</p>
INDEMNITY	
88.	Every officer of the company shall be indemnified out of the assets of the company against any liability incurred by him in defending any proceedings, whether civil or criminal, in which judgment is given in his favour or in which he is acquitted or in which relief is granted to him by the court or the Tribunal.
SECURITY	

89.	No member shall be entitled to visit or inspect the Company's works without the permission of the Directors or to require discovery of or any information respecting any detail of the Company's trading or any matter which is or may be in the nature of trade secret, mystery of trade or secret process which may relate to the conduct of the business of the Company and which in the opinion of the Directors it will be inexpedient in the interest of the members of the Company to communicate to the public.
OTHERS	
90.	Wherever in the said Act, it has been provided that the Company shall have any right, privilege or authority that the Company could carry out any transaction only if the Company is so authorised by its Articles, then and in that case this regulation hereby authorises and empowers the Company to have such right, privilege or authority and to carry such transaction as has been permitted by the Act, without there being any specific regulation in that behalf herein provided.
