The risks and uncertainties described in this section are not the only risks that we may face. Additional risks and uncertainties not known to us or that we currently believe to be immaterial may also have an adverse effect on our business, results of operations, financial condition and prospects.

If any of the following risks, or other risks that are not currently known or are now deemed immaterial, actually occur, our cash flows, business, financial condition and results of operations could suffer, the price of our Equity Shares could decline, and you may lose all or part of your investment. The financial and other related implications of risks concerned, wherever quantifiable, have been disclosed in the risk factors mentioned below. However, there are risks where the impact is not quantifiable and hence the same has not been disclosed in such risk factors. Investment in equity and equity related securities involve a degree of risk and investors should not invest any funds in this Issue unless they can afford to take the risk of losing their investment. Investors are advised to read the risk factors carefully before taking an investment decision in this Issue. Before making an investment decision, investors must rely on their own examination of the Issue and us.

This Red Herring Prospectus contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the considerations described below and elsewhere in this Red Herring Prospectus. Materiality

The Risk factors have been determined and disclosed on the basis of their materiality. The following factors have been considered for determining the materiality:

1. Some events may have material impact quantitatively;
2. Some events may have material impact qualitatively instead of quantitatively;
3. Some events may not be material individually but may be found material collectively;
4. Some events may not be material at present but may be having material impact in future.

INTERNAL RISK FACTORS

- 1. *There is a risk that patrons may intentionally or unintentionally cause damage to cinema screens, which may lead to financial losses and operational disruptions.***

Our cinema screens are essential to delivering a quality viewing experience, but they are vulnerable to damage from patrons, whether accidental or deliberate. Incidents such as vandalism, inappropriate use of objects, or unintentional damage caused during crowded or high-energy events can result in significant harm to these costly assets. While we employ measures such as regular monitoring by staff, surveillance systems, and strict rules to minimize the chances of damage, there is no assurance that these precautions will completely prevent such incidents.

Damage to cinema screens can lead to immediate financial losses due to the high costs of repairs or replacements, as well as potential operational disruptions if screenings need to be canceled or postponed while repairs are conducted. Furthermore, repeated incidents could harm our reputation for maintaining facilities, negatively impacting customer trust and satisfaction. We have not encountered these losses in the past; however, there is a possibility that we may face them in the future. Although we have established partnerships with vendors for quick repairs and regularly educate staff on monitoring audience behavior, there remains

an inherent risk. While we endeavor to safeguard these assets with all available resources, it is not guaranteed that unforeseen circumstances will not cause operational disruptions or additional expenses, affecting our financial stability and reputation. For further details, please refer chapter titled “Business Overview” on Page 123 of this Red Herring Prospectus.

2. *Inadequate audience turnout could result in a decline in revenue, adversely affecting overall profitability and disrupting business operations.*

Our ability to maintain consistent revenue largely depends on a steady stream of customers visiting our cinemas. If audience turnout declines, whether due to market shifts, economic challenges, or increasing competition from home entertainment alternatives, our revenue generation may be significantly impacted. A reduced number of patrons directly affects ticket sales and related revenue streams, such as concessions, which are critical to sustaining profitability. Low audience turnout can lead to underutilization of cinema facilities, driving up the per-customer operational cost, and making it harder to cover fixed expenses such as staffing and utilities. This imbalance between costs and revenue could erode our profit margins, forcing us to adjust operational strategies, including reducing service hours or cutting marketing efforts, which may in turn further weaken attendance. Although, we implement dynamic pricing models, run targeted marketing campaigns, and offer exclusive promotions to boost attendance during non-peak times. Additionally, we diversify revenue streams by offering private screenings and special events. However, despite these efforts, it remains challenging to fully eliminate the risks associated with fluctuating attendance patterns, which may continue to affect profitability and overall business stability.

3. *There is a risk of equipment breakdowns and rising costs of premium technology installations, which could result in operational disruptions, increased capital expenditure, and reduced profit margins, ultimately impacting customer satisfaction and profitability.*

Our cinema operations depend on the smooth functioning of equipment, such as projectors, sound systems, and lighting, to deliver an optimal viewing experience. Any breakdown in this equipment—whether due to wear and tear, technical malfunctions, or insufficient maintenance—could cause significant disruptions in movie screenings. These disruptions not only lead to immediate financial losses from canceled or delayed shows but also impact our reputation, potentially leading to a decline in customer trust and future attendance. The cost of repairs and operational downtime can further strain our financial performance. Simultaneously, rising costs of acquiring, installing, and maintaining this premium technology pose another challenge. There is no assurance that we can manage these escalating expenses without affecting profitability. As capital expenditures for technology continue to rise, we may face reduced profit margins, limiting our ability to invest in other growth areas. This financial strain could also force us to increase ticket prices, which may negatively affect customer demand. For further details, please refer chapter titled “Business Overview” on Page 123 of this Red Herring Prospectus.

4. *Poor management of franchise operations may result in operational inefficiencies and brand dilution which could ultimately lead to financial losses.*

Effective franchise management is crucial for maintaining the consistency and quality of our cinema operations across multiple locations. Inadequate oversight, inconsistent enforcement of operational standards, or weak communication with franchise partners can lead to significant operational inefficiencies. This may manifest in the form of inconsistent customer service, failure to adhere to brand guidelines, or underperformance in key areas such as marketing and customer engagement. The number of cinemas under franchise models are detailed as follows:

Franchisee Model	Number of Screens (as on)		
	March 31, 2025	March 31, 2024	March 31, 2023
FOFO	63	49	24
FOCO	03	0	0
Total	66	49	24

When franchisees do not operate at the expected level, the brand’s reputation can suffer, causing customer dissatisfaction and a potential decline in business. This brand dilution may negatively affect not only the underperforming franchises but also our entire network, as customers perceive a decline in the overall quality of the brand. Over time, this can lead to decreased foot traffic, loss of revenue, and missed growth opportunities. Although, we provide comprehensive training programs, regular audits, and enhanced support to ensure franchisees meet operational standards and maintain consistency. Additionally, we foster open communication channels to quickly resolve any issues that arise. However, despite these efforts, there is no assurance that all franchises will operate in alignment with our expectations, and ongoing challenges in franchise management may still impact our overall financial performance and brand value. For further details, please refer chapter titled “Business Overview” on Page 123 of this Red Herring Prospectus.

5. *If we fail to keep up with technological advancements, it could result in operational inefficiencies and a loss of advantage in the market, which may lead to decreased profitability.*

Our cinema business relies on the implementation of technology, including projection systems, sound equipment, and digital ticketing platforms, to provide an exceptional customer experience and maintain a market advantage. However, there is a risk that failing to adopt new technological advancements in a timely manner could lead to operational inefficiencies, such as outdated equipment, slower service processes, or diminished viewing quality. This, in turn, could result in customer dissatisfaction and reduced attendance. In a rapidly evolving industry where competitors continuously invest in the latest technology, lagging behind could harm our market position. Without consistent upgrades to technology, we may struggle to meet customer expectations, which could lead to declining customer loyalty and reduced profitability. Furthermore, failing to innovate may limit our ability to optimize operational efficiencies, leading to higher costs and reduced profit margins.

6. *There is a risk that fluctuations in food and beverage sales could adversely affect overall revenue, potentially leading to financial instability and reduced profitability.*

Food and beverage sales are a significant contributor to our overall revenue, complementing our core income from ticket sales. However, there is a risk that fluctuations in this revenue stream, caused by changing customer preferences, economic downturns, or increased competition from external food outlets, could negatively impact our financial stability. Inconsistent sales can directly affect our ability to maintain profit margins, especially since food and beverage offerings typically provide higher margins compared to other revenue streams. The service-wise revenue bifurcation is as follows:

Products/Services	Fiscal 2025		Fiscal 2024		Fiscal 2023	
	(In Lakhs)	(In %)	(In Lakhs)	(In %)	(In Lakhs)	(In %)
Sales Ticket	3,497.50	36.58	2631.22	43.64	1306.73	51.51

If food and beverage sales decline, the financial pressure to maintain profitability could increase, forcing us to adjust pricing strategies or reduce costs in other areas, such as staffing or promotions, which could further impact our business operations. There is no assurance that our current marketing and product offerings will consistently drive sales across different customer segments. Although, we regularly update our food and beverage offerings to align with current trends, introduce promotional packages, and explore new partnerships with food vendors to enhance variety. Despite these efforts, it remains difficult to completely mitigate the risk of fluctuating sales. While these strategies help maintain some stability, external factors and shifts in customer behavior may still pose challenges to our overall revenue and financial performance. For further details regarding Business, please refer chapter titled “Business Overview” on Page 123 of this Red Herring Prospectus.

7. *Changes in movie release schedules could result in resource inefficiencies and lower audience attendance, affecting operational continuity and revenue generation.*

Our cinema business heavily relies on the steady release of popular films to maintain audience turnout and generate consistent revenue. However, inconsistencies in movie release schedules—due to production delays, fewer blockbusters, or shifts in industry focus—can disrupt this flow, leading to periods of low attendance. With fewer movies attracting large audiences, the risk of underutilized theaters increases, raising operational costs while lowering revenue from ticket sales and concessions.

This mismatch between available content and customer demand not only leads to inefficient use of resources but also affects our ability to manage staffing and other operational elements effectively. In the absence of high-demand films, our facilities may struggle to reach capacity, reducing the overall return on our investments in infrastructure and marketing efforts.

8. *Our Restated Financial Statements are prepared and signed by the Peer Review Auditor who is not Statutory Auditor of our Company as required under the provisions of ICDR.*

The Restated Financial Statements of our Company for the year ended March 31 2025, 2024 and 2023 are signed by M/s A Y & Co, Chartered Accountants, the Peer Review Auditor of our Company who is not statutory auditor of our Company. Our statutory auditor does not possess a valid peer-reviewed certificate, thus the task of providing the restated financial statements was entrusted to the aforementioned peer-reviewed chartered accountant. For further details regarding Financial Statements, please refer chapter titled “Financial Statements of company” on Page 194 of this Red Herring Prospectus.

9. *Inability to maintain high grade standards in theaters may lead to a decline in customer satisfaction and erode our market advantage, potentially driving high-value customers away and weakening our market position.*

Our brand is built on providing a cinema experience, which sets us apart from competitors and attracts high-value customers who expect premium service, amenities, and comfort. However, the risk of failing to consistently maintain these standards—whether due to inadequate maintenance, outdated facilities, or a lack of investment in modern technologies—could lead to a significant decline in customer satisfaction. If our theaters do not meet the expectations of discerning customers, they may choose alternative entertainment options, leading to a loss of repeat business and diminished loyalty. Our company offers three distinct models that cater to varying market segments and customer preferences. The number of screens model wise is as follows:

Particulars (No. of Screens)	For the period/year ended		
	March 31, 2025	March 31, 2024	March 31, 2023
Express Model	22	25	18
Signature Model	28	18	6
Luxuriance Model	16	6	0

A failure to uphold standards can also result in brand dilution, where customers perceive a reduction in the quality of our offerings. This could affect not only individual locations but the overall perception of our brand, reducing our appeal to both existing and potential customers. Over time, this could drive high-value patrons to competitors, weakening our position and market share. For further details, please refer chapter titled “Business Overview” on Page 123 of this Red Herring Prospectus.

10. *There have been certain instances of regulatory non-compliances or delays or errors in the past. We may be subject to regulatory actions and penalties for any such past or future non-compliance or delays or errors and our business, financial condition and reputation may be adversely affected.*

Our Company is required to make filings under various rules and regulations as applicable under the Companies Act, 2013, few of which have not been done within the stipulated time periods at some instances. Due to these delays in filings, our Company has on those occasions paid the requisite additional fees and made the filings with the RoC in compliance with the Companies Act. Such past delays and non-compliance may render us liable to statutory penalties and could have serious consequences on our operations. While we will ensure to make the filings on time, we cannot give any assurances that there may not be similar instances of delays in the future. In addition to above here are few discrepancies noticed in some of our corporate records relating to e-forms filed with the Registrar of Companies in the past, which inter-alia include clerical and typographical errors / incorrect/incomplete information by our Company with the ROC. The errors identified in the Annual Return are clerical or typographical in nature and cannot be rectified. However, the Annual Return for the subsequent year was filed accurately, reflecting the correct shareholding pattern and transfers. These errors have not created any impact on the business performance and are immaterial to the business of the company. Additionally, the company has appointed a full-time Company Secretary to oversee clerical and typographical matters, ensuring that such errors are prevented in the future. In addition to above, DIR 12 form filed for Change in Designation from Additional Director to Director regarding Mr. Anish Tulshibhai Patel and Rahul Kamleshbhai Dhyani are not available to us. We have relied on search report issued by Practicing Company Secretary A B Udani & Associates dated December 24, 2024 for the above data. Although no cognizance has been taken by the authority in any of the above matters till date and no notice in respect of same have been served by the concerned authorities till date, we are not sure that no such notice shall be issued in future or at all and in any such event we may be subjected to a penalty. However, if any action is taken by the concerned authority in the matter and in the event of any penalty being imposed against the Company by the concerned authority, the business, financial conditions and result of operations of the company shall be adversely affected. As regards corrective measure company has appointed compliance officer to ensure that all the compliance related matters are taken care of on real time basis and have further the internal controls to ensure that the flaws are cured in time.

11. *Our top ten suppliers contribute majority of our purchases. Any loss of business with one or more of them may adversely affect our business operations and profitability*

Our top ten suppliers contributed approximately 39.19%, 56.02% and 71.56% of our total purchases and Direct Cost for the years ended March 31, 2025, March 31, 2024 and March 31, 2023 based on Restated Financial Statements. However, our top suppliers may vary from period to period depending on the demand-supply mechanism and thus the supply process from these suppliers might change as we continue to seek more cost-effective suppliers in normal course of business. Since our business is concentrated among relatively significant suppliers, we could experience a reduction in our purchases and business operations if we lose one or more of these suppliers, including but not limited on account of any dispute or disqualification. While we believe we have maintained good and long-term relationships with our other suppliers too, there can be no assurance that we will continue to have such long-term relationship with them. We cannot assure that we shall do the same quantum of business, or any business at all, with these customers, and loss of business with one or more of them may adversely affect our purchases and business operations.

12. *Security breaches in booking systems could result in financial losses, reputational damage, and legal liabilities, undermining customer trust and impacting business operations*

Our booking systems handle sensitive customer information, including personal and payment data, making them a prime target for cyberattacks. In the event of a security breach, there is a risk that this data could be compromised, leading to significant financial losses due to fraud, system downtime, or potential theft of sensitive information. Furthermore, such breaches could cause substantial reputational damage, as customers lose trust in our ability to safeguard their data, resulting in a decline in bookings and revenue. A data breach could also expose the company to legal liabilities, including fines and sanctions under data protection regulations such as GDPR or other applicable laws. The costs associated with legal proceedings, compensation for affected customers, and system recovery efforts could further strain financial resources and disrupt business operations. While we employ cybersecurity measures, including encryption, firewalls, and regular system audits to minimize the risk of breaches, there is no guarantee that these efforts will prevent all threats. As cyberattacks become increasingly sophisticated, maintaining strong security remains a challenge, and any breach could severely impact our financial stability, customer relationships, and regulatory standing.

13. *Our company may face challenges due to fluctuating demand during non-peak seasons and underutilization of cinema space during off-peak times. These factors could lead to revenue volatility, operational inefficiencies, and reduced profitability, ultimately affecting overall business stability and resource optimization.*

Our cinema operations face significant fluctuations in demand, particularly during off-peak times, leading to underutilization of space, staff, and resources. This underutilization creates operational inefficiencies, as fixed costs such as staffing, utilities, and maintenance remain constant regardless of occupancy levels. When cinemas are not operating at full capacity, the cost-per-customer increases, reducing overall profitability. Empty theatres and underused concessions also result in wasted resources and potential revenue loss, which can impact our ability to maintain a consistent cash flow and reinvest in growth or infrastructure upgrades. During non-peak seasons, when fewer blockbuster films are released or seasonal factors reduce audience turnout, revenue volatility further strains our ability to cover fixed expenses like rent and utilities. These inefficiencies not only reduce profit margins but also divert resources away from future investments.

14. *Any Penalty or demand raise by statutory authorities in future will affect our financial position of the Company.*

Our Company is mainly engaged in exhibition and distribution of films which attracts tax liability such as Income tax & Goods and Service Tax and other applicable provision of the Acts. However, the Company has been depositing the return under above applicable acts but any demand or penalty raise by concerned authority in future for any previous year and current year will affect the financial position of the Company.

Further in past, on 30.11.2024, the company purchased goods, including speakers, subwoofers, surround speakers, and other items, from Noida for delivery to Patna. However, the bill was issued with an address that was neither registered under the buyer's name nor included in the GSTIN as an additional place of business. The State Tax Officer inspected the truck and found that the delivery address was not registered in the GST certificate, leading to the issuance of a notice with a proposed penalty of ₹13,79,716. The company paid the penalty, and the goods were subsequently released. We had filed an appeal on 04.03.2025 with the Appellate Authority, requesting that the demand for tax and penalty under Form GST MOV-09, which claimed an IGST of ₹13,79,716, be set aside and that the amount be refunded. The final order from the Appellate Authority as received as on 08.05.2025 which was in our favour to get the amount as back as refund. For detail, please refer "Outstanding Litigations and Material Development" beginning on page 207 of this Draft Red Herring Prospectus. Any such penalty arising in future may lead to financial loss to our Company.

- 15. The Company is yet to place orders for 100% of the equipment for our proposed object, as specified in the Objects of the Issue. Any delay in placing orders, procurement of projectors and screens may delay our implementation schedule and may also lead to increase in price of these equipments, further affecting our revenue and profitability.**

Although we have identified the type of projectors and screens required to be bought however, we are yet to place orders for 100% of the equipments worth Rs 2444.00 lakhs as detailed in the “Objects of the Issue” beginning on page 80 of this Red Herring Prospectus. In addition to above our company has entered into Letter of Intent (LOI) for purchase of corporate office, but the same is yet to be purchase from issue proceeds. These are based on our estimates and on third-party quotations, which are subject to a number of variables, including possible cost overruns, changes in management’s views of the desirability of current plans, change in supplier of Equipments among others and change in broker for real estate property or change in property proposed to be purchase, which may have an adverse effect on our business and results of operations. Further, we cannot assure that we would be able to procure these Equipments and property, or procure the same within budgeted costs and timelines. Delays in acquisition of the same could result in the cost and time overrun, which would have a material adverse effect on our business, results of operations and financial condition. For further details, please refer to the chapter titled “Objects of the Issue” beginning on page 80 of this Red Herring Prospectus.

- 16. Increased competition from alternative entertainment forms, including home entertainment options, may reduce customer attendance and revenue generation, which will affect our market share.**

The growing availability of alternative entertainment options, particularly home-based streaming platforms and other digital content services, presents a significant challenge to our cinema operations. Customers now have the option to enjoy a wide variety of content from the comfort of their homes, often at a lower cost than attending a movie theater. This shift in consumer behavior could result in decreased foot traffic in our cinemas, leading to a reduction in ticket sales and concession revenue. With fewer customers choosing to visit cinemas, our revenue streams may become increasingly strained, and the underutilization of our facilities could drive up the cost per customer. This could also weaken our position in the market, as other forms of entertainment continue to grow in popularity, pulling customers away from traditional cinema experiences. The competition from home entertainment and other alternative platforms remains fierce, and there is no assurance that we can fully offset the impact on customer attendance and revenue generation. Continued erosion of market share could pose a significant threat to our long-term profitability and position within the entertainment industry.

- 17. Our success is dependent on our Promoters, management team and skilled manpower. Our inability to attract and retain key personnel or the loss of services of our Promoter or Managing Director, Whole Time Directors and Executive Directors may have an adverse effect on our business prospects.**

Our Promoters have significantly contributed to the growth of our business, and our future success is dependent on the continued services of our management team. Our Promoter and Managing Director Mr. Anish Tulshibhai Patel and our Promoter and Joint Managing Director Mr. Rahul Kamleshbhai Dhyan are having experience of 06 years each in the Cinema Industry which turn out beneficial for the Company. An inability to retain any key managerial personnel may have an adverse effect on our operations. Our ability to execute contracts and to obtain new clients also depends on our ability to attract, train, motivate and retain highly skilled professionals, particularly at managerial levels. We might face challenges in recruiting suitably skilled personnel, particularly as we continue to grow and diversify our operations. In the future, we may also not be unable to compete with other larger companies for suitably skilled personnel due to their ability to offer more compensation and benefits. The loss of any of the members of our senior management team, our directors or other key personnel or an inability on our part to manage the attrition levels; may materially and adversely impact our business, results of operations, financial condition and growth prospects. For further details of our Promoters and Management, please refer chapter titled “Our Promoters and Promoter Group” and “Our Management” beginning on Page 189 & 174 of this Red Herring Prospectus.

- 18. There are outstanding legal proceedings involving our Company, Directors and Promoters. Any adverse decision in such proceedings may have a material adverse effect on our business, results of operations and financial condition.**

We are involved in certain legal proceedings which are pending at different levels of adjudication before various courts, tribunals, enquiry officers, and appellate authorities. We cannot provide assurance that these legal proceedings will be decided in our favour. Any adverse decisions in any of the proceedings may have a significant adverse effect on our business, results of operations, cash flows and financial condition. A summary of the pending civil and other proceedings involving the Company is provided below:

We cannot assure you that any of the outstanding litigation matters will be settled in our favour or that no additional liabilities will arise out of these proceedings. In addition to the above, we could also be adversely affected by complaints, claims or legal actions brought by persons, including before consumer forums or sector-specific or other regulatory authorities in the ordinary course of business or otherwise, in relation to our business operations, our intellectual property, our branding or marketing efforts or campaigns or our policies. We may also be subject to legal action by our employees and/or former employees in relation to alleged grievances, such as termination of employment. We cannot assure you that such complaints, claims or requests for information will not result in investigations, enquiries or legal actions by any regulatory authority or third persons against us. For further details of legal proceedings involving the Company, please see “Outstanding Litigations and Material Developments” beginning on page 207 of this Red Herring Prospectus.

19. We have experienced negative cash flows in the past. Any such negative cash flows in the future could affect our business, results of operations and prospects.

Our Company had reported certain negative cash flows from investing activities and financing activities in the previous years as per the Restated Financial Statements and the same are summarized as under:

(Rs. in Lakhs)

Particulars	For the year ended March 31,		
	2025	2024	2023
Cash flow from Operating Activities	280.29	402.46	882.68
Cash flow from Investing Activities	(460.89)	(439.26)	(616.41)
Cash flow from Financing Activities	33.63	(10.66)	23.47

Cash flow of a company is a key indicator to show the extent of cash generated from operations to meet capital expenditure, pay dividends, repay loans and make new investments without raising finance from external resources. If our Company is not able to generate sufficient cash flows, it may affect our business and financial operations. For further please refer chapter titled “Financial Information of our company” beginning on Page 194 of this Red Herring Prospectus.

20. The properties used by the Company for the purpose of its operations are not owned by us. Any termination of the relevant lease agreements or rent agreements in connection with such properties or our failure to renew the same could adversely affect our operations.

Our registered office is located at Block C-1001, Krish Cubical, Opp. Avalon Hotel, Nr. Govardhan Party Plot, Thaltej, Dascroi Ahmedabad -380059, Gujarat, India and the same is not owned by us. We have obtained this property from Dreamland Infratech Pvt Ltd through a Lease deed dated August 07, 2024 for a period of 9 years. Further, cinema houses are also taken on lease. Any termination of the lease in connection with the above property or our failure to renew the same, in a timely manner or at all could adversely affect our operations. If we are required to vacate the current premises, we would be required to make alternative arrangements for our business activities and we cannot assure that the new arrangements will be on commercially acceptable/favourable terms. If we are required to relocate our business operations during this period, we may suffer a disruption in our operations or have to pay higher charges, which could have an adverse effect on our business, prospects, results of operations and financial condition. For details regarding properties taken on lease refer the Section titled —Properties – “Business Overview” beginning on page no. 123 of this Red Herring Prospectus.

21. Any downturn in the Indian or international cinema industries could materially adversely affect the business.

The cinema industry is influenced by multiple external factors, including economic downturns, changing consumer preferences, regulatory developments, and shifts in content consumption patterns. A decline in the Indian or international cinema industry—whether due to lower box office performance, reduced film production, or audience migration to alternative entertainment platforms—could result in decreased footfall at our theaters, directly affecting ticket sales and concession revenue. This could significantly impact our financial performance, making it difficult to maintain profitability and sustain operational costs. A downturn in the industry could also lead to a reduction in good quality content availability, limiting our ability to attract audiences with blockbuster releases. Additionally, if international markets experience a decline, the supply of globally successful films could decrease, further restricting our programming options. This could weaken our positioning and reduce our ability to draw large crowds consistently. These downturns may negatively impact revenue generation and overall business performance, leading to financial instability and operational challenges.

22. Dependence on relationships and agreements with exhibitors, and any failure to maintain these relationships, or to establish and capitalise on new relationships, could materially adversely affect the business.

Our business success is significantly reliant on strong relationships and agreements with exhibitors, who play a crucial role in film distribution and screening. Any strain on these relationships—whether due to contractual disputes, changing market dynamics, or shifts in industry partnerships—could disrupt our ability to secure favorable screening terms or access high-demand films. Without stable and mutually beneficial agreements, we may face difficulties in ensuring a consistent lineup of films that attract audiences, which could lead to lower ticket sales and a decline in overall revenue. Additionally, failure to establish and capitalize on new relationships with exhibitors could limit our ability to expand into emerging markets or secure premium screening opportunities. If competitors secure better agreements with key exhibitors, we risk losing access to preferred screening slots or facing unfavorable revenue-sharing terms, potentially weakening our market positioning. Over time, this could impact our growth strategy and limit our ability to compete effectively. Although we actively engage in long-term partnerships, negotiate strategically beneficial agreements, and explore new collaboration opportunities to strengthen our industry presence. However, despite these efforts, there is no assurance that all relationships will remain stable or that new partnerships will yield the desired results. Any deterioration in exhibitor relationships or inability to form new ones could materially affect our business prospects and financial performance.

23. Dependence on relationships with advertisers, and any failure to maintain these relationships, or to establish and capitalise on new relationships, could materially adversely affect the business.

Advertising revenue is a critical component of our business model, complementing income from ticket sales and concessions. Our ability to attract and retain advertisers depends on maintaining strong relationships and offering effective promotional opportunities within our cinema network. Any deterioration in these relationships—whether due to shifting advertiser preferences, market downturns, or failure to deliver expected advertising reach—could result in reduced advertising revenue, impacting overall profitability. Additionally, failure to establish and capitalize on new advertising partnerships may limit our ability to diversify revenue streams. As competitors enhance their advertising platforms or digital alternatives become more attractive, advertisers may choose to allocate their budgets elsewhere, reducing our share of advertising expenditure. This could impact our ability to sustain pricing for advertisers and diminish the financial contributions of this revenue stream. Although we actively engage with advertisers, offer tailored marketing solutions, and invest in digital and in-theater advertising innovations to enhance brand visibility. While these initiatives help strengthen our position, there is no assurance that advertiser demand will remain consistent or that emerging advertising trends will not disrupt traditional cinema advertising models. Any prolonged decline in advertising partnerships could lead to revenue instability and hinder long-term business growth.

24. Our company may face challenges in expanding into new states and securing prime locations, which could lead to delayed market entry, increased costs, and limited growth opportunities, ultimately affecting our business.

Expanding into new states is essential for growing our cinema network and capturing untapped market potential. However, challenges such as differing state regulations, complex licensing processes, and unfamiliar market dynamics can delay our entry into these markets. These delays can increase operational costs, as we may face extended pre-opening expenses, such as rent and staffing, without corresponding revenue generation. The longer these delays persist, the more difficult it becomes to maintain operational momentum and profitability.

The number of operational screens in various states is as follows:

Particulars	For the period/year ended		
	March 31, 2025	March 31, 2024	March 31, 2023
Gujarat	35	31	11
Bihar	19	10	6

Maharashtra	3	3	3
Chhattisgarh	4	0	0
Telangana	2	2	2
Himachal Pradesh	0	0	2
Odisha	2	2	0
Rajasthan	1	1	0
Total	66	49	24

As certified by Kapil Pathak, Chartered Engineer vide certificate dated July 11, 2025.

Additionally, the difficulty in securing prime locations for new cinemas makes these challenges even worse. Securing high-traffic, desirable locations is critical for ensuring a strong market presence and attracting a consistent customer base. If we are unable to acquire prime real estate due to pressures, high costs, or limited availability, our growth potential could be severely restricted. This would reduce our ability to compete effectively, as prime locations often provide a significant advantage in terms of visibility and customer accessibility. For further details, please refer chapter titled “Business Overview” on Page 123 of this Red Herring Prospectus.

25. *We require certain approvals and licenses in the ordinary course of business and the failure to successfully obtain such registrations would adversely affect our operations, results of operations and financial condition.*

We are governed by various laws and regulations for our business and operations. We are required, and will continue to be required, to obtain and hold relevant licenses, approvals and permits at state and central government levels for doing our business. The approvals, licenses, registrations and permits obtained by us may contain conditions, some of which could be onerous. While we have obtained a significant number of approvals, licenses, registrations and permits from the relevant authorities. There can be no assurance that the relevant authority will issue an approval or renew expired approvals within the applicable time period or at all. Any delay in receipt or non-receipt of such approvals, licenses, registrations and permits could result in cost and time overrun or which could affect our related operations. Furthermore, under such circumstances, the relevant authorities may initiate penal action against us, restrain our operations, impose fines/penalties or initiate legal proceedings for our inability to renew/obtain approvals in a timely manner or at all.

These laws and regulations governing us are increasingly becoming stringent and may in the future create substantial compliance or liabilities and costs. While we endeavour to comply with applicable regulatory requirements, it is possible that such compliance measures may restrict our business and operations, result in increased cost and onerous compliance measures, and an inability to comply with such regulatory requirements may attract penalty. In case of franchisee model, all the relevant licences like cinema exhibition licence, FSSAI licences, Corporation’s / Local authority’s approval, Fire Safety, Electric safety are to be obtained from the respective authority, which is the main responsibility of the franchisee and it is also obtained in the name of the franchise. For further details regarding the material approvals, licenses, registrations and permits, which have not been obtained by our Company or are, pending renewal, see “Government and Other Approvals” on page 213 of this Red Herring Prospectus. Furthermore, we cannot assure you that the approvals, licenses, registrations and permits issued to us will not be suspended or revoked in the event of non-compliance or alleged non-compliance with any terms or conditions thereof, or pursuant to any regulatory action. Any suspension or revocation of any of the approvals, licenses, registrations and permits that has been or may be issued to us may affect our business and results of operations.

26. *We have an outstanding indebtedness, which requires significant cash flows to service and are subject to certain conditions and restrictions in terms of our financing arrangements, which restricts our ability to conduct our business and operations in the manner we desire.*

As of March 31, 2025, our long-term borrowings were ₹ 57.65 Lakhs & short-term borrowings were ₹ 14.06 Lakhs and we will continue to incur additional indebtedness in the future. Our level of indebtedness has important consequences to us, such as:

- increasing our vulnerability to general adverse economic, industry conditions;
- limiting our ability to borrow additional amounts in the future;
- affecting our capital adequacy requirements; and
- Increasing our finance costs.

In the event we breach any financial or other covenants contained in any of our financing arrangements or in the event we had breached any terms in the past which is noticed in the future, we may be required to immediately repay our borrowings either in whole or in part, together with any related costs. If the lenders of a material amount of the outstanding loans declare an event of default simultaneously, our Company may be unable to pay its debts when they fall due. For further details of our Company’s borrowings, see “Financial Information of our Company” on page 194 of this Red Herring Prospectus.

27. *We may not be able to prevent unauthorised use of trademarks obtained/ applied for by third parties, which may lead to the dilution of our goodwill*

We have obtained trademark registrations of our brands, including “CONNPLEX CINEMAS” and its variants under class 29, 30, 41 and 43 under the Trade Marks Act, 1999 (“Trade Marks Act”), any unauthorized use of our trademarks, by unrelated third parties may damage our reputation and brand. Preventing trademark infringement, particularly in India, is difficult, costly and time-consuming. The measures we take to protect our trademarks may not be adequate to prevent unauthorized use by third parties, which may affect our brand and in turn adversely affect our business, financial condition, results of operations and prospects.

Further, we cannot assure you that any application for registration of our trademark in future by our Company will be granted by the relevant authorities in a timely manner or at all. Also one of trademark is objected. Our efforts to protect our intellectual property may not be adequate and may lead to erosion of our business value and our operations could be adversely affected. We may need to litigate in order to determine the validity of such claims and the scope of the proprietary rights of others. Any such litigation could be time consuming and costly and the outcome cannot be guaranteed. We may not be able to detect any unauthorized use or take appropriate and timely steps to enforce or protect our intellectual property. For further details, please refer to chapter titled “Government and Other Approvals” beginning on page 213 of the Red Herring Prospectus.

28. *Our inability to effectively manage our growth or to successfully implement our business plan and growth strategy could have an effect on our business, results of operations and financial condition.*

The success of our business will depend greatly on our ability to effectively implement our business and growth strategy. Our growth strategy involves focusing on Optimal Utilization of Resources and to developed relationships with customer. For further details, see the section titled “Business Overview” on page 123 of this Red Herring Prospectus. Our success in implementing our growth strategies may be affected by:

- Our ability to identify new markets to expand;
- Our ability to maintain the quality of our service;
- Changes in the Indian regulatory environment in field of Cinema & Media industry

There can be no assurance that we will be able to execute our strategy on time and within our estimated budget, or that our expansion and development plans will increase our profitability. Any of these factors could impact our results of operations. We cannot assure you that we will not face any time or cost overruns in respect of implementation of our strategies in the future. Further, we expect our growth strategy to place significant demands on our management, financial and other resources and require us to continue developing and improving our operational, financial and other internal controls. Our inability to manage our business and implement our growth strategy could have effect on our business, financial condition and profitability.

29. *Our company may face challenges due to supply chain disruptions for food and beverages, leading to inventory shortages, higher costs, and poor customer experiences, which could impact overall profitability.*

Our cinema operations rely heavily on a steady supply of food and beverages to enhance the customer experience and drive revenue. Any disruption in the supply chain—whether due to logistical challenges, supplier issues, or external factors such as economic downturns or natural disasters—can lead to inventory shortages, leaving us unable to meet customer demand. These shortages can negatively affect customer satisfaction, as popular items may be unavailable, which could deter repeat business and harm our reputation. In addition to affecting customer experiences, supply chain disruptions can lead to increased costs as we may need to source products from alternative, potentially more expensive, suppliers on short notice. This can further strain operational budgets and reduce profit margins, particularly if disruptions are prolonged or frequent.

Although we have established relationships with multiple suppliers to provide redundancy and ensure flexibility in sourcing. We also monitor market trends and maintain safety stock levels where feasible. Despite these efforts, external factors beyond our control may still lead to supply chain interruptions, which could impact customer satisfaction, increase costs, and ultimately affect our profitability. For further details, please refer chapter titled “Business Overview” on Page 123 of this Red Herring Prospectus.

30. *Our company has issued the guarantee in connection with leasing a property which exposes to certain financial risks.*

Our company has issued a guarantee in connection with the lease of a property which is currently sub-lease to franchisee for cinemas at Second Floor, 201, 202, 203, 204, Turquoise 3, South Bopal Road, Bopal, Ahmedabad, Gujarat, 380057. The Property is secured by a lien over ₹100.00 Lakhs in fixed deposits held with HDFC Bank. It is given in favour of Ratnabhumi Buildspace LLP, lessor of property. The guarantee is valid until 19th January 2029, with a claim period extending until 19th January 2030. This guarantee serves as financial security for lease obligations related to the property in Ahmedabad and follows an annual reduction schedule. The guarantee may only be invoked in the event of a breach of the lock-in period or failure to meet agreed obligations. In such cases, the bank is required to process payments within five working days upon the beneficiary’s written request. The guarantee remains irrevocable and enforceable, irrespective of any disputes or changes in ownership or structure.

In the event that the company is unable to fulfill its obligations under the lease agreement, bank may seize the fixed deposits to cover any unpaid liabilities or costs related to the lease. This would result in a direct financial loss for the company, which could have otherwise been used for other investments or operational needs. Furthermore, if the company's financial situation deteriorates, it may face difficulties in meeting the terms of the guarantee, such as failing to make timely payments. This could further strain its cash flow, reduce available liquidity, and potentially weaken its financial position. In the worst-case scenario, the company could lose the security provided by the fixed deposits, which may exacerbate its financial challenges and hinder its ability to operate effectively. For further details regarding Financial Statements, please refer chapter titled “Financial Statements of company” on Page 194 of this Red Herring Prospectus.

31. *We have entered into and may enter into related party transactions in the future also.*

Our Company in the past has entered into Related Party Transactions and may continue to do so in future also. Our Company had entered into various transactions with our Promoters, Promoter Group, Directors and their Relatives and Group Companies. These transactions, inter-alia includes salary, remuneration, revenue share to franchisee, sales etc. Our Company entered into such transactions due to easy proximity and quick execution.

We confirm that all related party transactions have been conducted on an arm's length basis and are in full compliance with the applicable laws and regulations. These transactions have been carried out in accordance with the principles of fairness and transparency, ensuring that the terms and conditions reflect those that would apply in transactions between unrelated parties. Additionally, we have adhered to all relevant legal requirements, including those outlined under the Companies Act, 2013, and the Income Tax Act, 1961, as well as any other applicable statutory provisions regarding related party transactions. We cannot assure you that we may not have achieved more favorable terms had such transactions been entered into with unrelated parties. There can be no assurance that such transactions, individually or taken together, will not have an adverse effect on our business, prospects, results of operations and financial condition, including because of potential conflicts of interest or otherwise. In addition, our business and growth prospects may decline if we cannot benefit from our relationships with them in the future. For further details of our related party transactions, please refer chapter titled “Financial Information of our Company” beginning on Page 194 of this Red Herring Prospectus.

32. *Poor customer service during peak hours may result in a decline in customer satisfaction, loss of repeat business, and reputational damage, undermining long-term customer loyalty.*

Providing consistent and quality customer service during peak hours is essential to ensuring a positive cinema experience. However, the challenge of managing increased demand during busy times—such as long wait times, crowded facilities, or insufficient staffing—can result in service lapses. If customers experience poor service during these critical periods, it can lead to immediate dissatisfaction and reduce the likelihood of repeat visits. A decline in customer satisfaction during peak hours can have a cascading effect on our business. Dissatisfied customers may share negative feedback through online reviews or word-of-mouth, which can damage our brand's reputation and make it harder to attract new patrons. Over time, persistent issues with customer service could erode customer loyalty, leading to a loss of repeat business and reduced revenue. Although, we have not encountered any major issues related to poor customer service. However, should any customer complaints arise in the future, we will take them seriously and provide prompt resolutions. Additionally, customers can reach out to us via email for any such concerns. The unpredictable nature of peak-hour demand may still pose challenges, and lapses in service quality during these times can have lasting effects on our reputation and profitability.

33. *If there is a change in policies related to tax, duties or other such levies applicable to us, it may affect our results of operations.*

We benefit from certain general tax regulations and incentives that accord favorable treatment to certain of our operations as well as for our activities. These tax benefits include income tax deductions and other taxes. For details regarding income tax deductions, please refer to the chapter “Statement of Possible Tax Benefits” on page 97 of this Red Herring Prospectus.

New or revised accounting policies or policies related to tax, duties or other such levies promulgated from time to time by the relevant authorities may significantly affect our results of operations. We cannot assure you that we would continue to be eligible for such lower tax rates or any other benefits. The reduction or termination of our tax incentives, or non-compliance with the conditions under which such tax incentives are made available, will increase our tax liability and affect our business, prospects, results of operations and financial condition.

34. *Our ability to pay dividends in the future may be affected by any material adverse effect on our future earnings, financial condition or cash flows.*

Our ability to pay dividends in future will depend on our earnings, financial condition and capital requirements. We may be unable to pay dividends in the near or medium term, and our future dividend policy will depend on our capital requirements and financing

arrangements in respect of our operations, financial condition and results of operations. Our Company has not declared dividends in the past, and there can be no assurance that our Company will declare dividends in the future also. For further details, please refer to the chapter titled “Dividend Policy” on page 193 of this Red Herring Prospectus.

35. *Failure to negotiate favorable terms with movie distribution houses may result in increased costs and reduced profit margins, affecting overall financial performance*

Our ability to negotiate favorable terms with movie distribution houses is crucial for maintaining a healthy cost structure and ensuring consistent access to high-demand films. If we are unable to secure beneficial agreements, we may face higher distribution fees or less favorable revenue-sharing models, which can significantly increase operational costs. This could strain our financial resources and directly impact our profit margins, making it more difficult to sustain profitability over time. As a national cinema chain, we receive movies from producers and distributors based on regular terms and conditions, with rates determined on a national scale. For blockbuster movies, producers and distributors may increase the rates. Higher distribution costs may force us to adjust ticket prices or reduce promotional spending to offset the increased expenses, which could negatively impact customer turnout and revenue generation. Furthermore, failure to negotiate terms could limit our access to popular films, weakening our ability to attract large audiences and maintain a position in the market.

36. *Our Promoters and Directors hold Equity Shares in our Company and are therefore interested in the Company’s performance in addition to their remuneration and reimbursement of expenses.*

Our Promoters and Directors are interested in our Company, in addition to regular remuneration or benefits and reimbursement of expenses, to the extent of their shareholding in our Company. We cannot assure you that our Promoters will exercise their rights as shareholders to the benefit and best interest of our Company. Our Promoter may take or block actions with respect to our business which may conflict with the best interests of the Company or that of minority shareholders. For further information on the interest of our Promoter and Directors of our Company, other than reimbursement of expenses incurred or normal remuneration or benefits, see “Our Management” and “Our Promoter and Promoter Group” on pages 174 and 189 respectively of this Red Herring Prospectus.

37. *Our insurance coverage may not be adequate to protect us against all potential losses to which we may be subject and this may have a material effect on our business and financial condition.*

While we maintain insurance coverage, in amounts which we believe are commercially appropriate, including related to our movable property, we may not have sufficient insurance coverage to cover all possible economic losses, including when the loss suffered is not easily quantifiable and in the event of severe damage to our business. Even if we have made a claim under an existing insurance policy, we may not be able to successfully assert our claim for any liability or loss under such insurance policy. Additionally, there may be various other risks and losses for which we are not insured either because such risks are uninsurable or not insurable on commercially acceptable terms. Although we have not encountered any such situations in the past except small claims in the past. The occurrence of an event for which we are not adequately or sufficiently insured could have an effect on our business, results of operations, financial condition and cash flows.

In addition, in the future, we may not be able to maintain insurance of the types or at levels which we deem necessary or adequate or at rates which we consider reasonable. The occurrence of an event for which we are not adequately or sufficiently insured or the successful assertion of one or more large claims against us that exceed available insurance coverage, or changes in our insurance policies (including premium increases or the imposition of large deductible or co-insurance requirements), could have an effect on our business, results of operations, financial condition and cash flows. For further details of Insurances taken by Company, please refer chapter titled “Business Overview” beginning on Page 123 of this Red Herring Prospectus.

38. *Our company may face challenges due to inconsistent quality across franchise locations, which could lead to customer dissatisfaction, damage to our brand reputation, and hinder franchise growth.*

Maintaining consistent quality across all franchise locations is critical for ensuring a positive customer experience and protecting the integrity of our brand. When operational standards, service quality, or facility upkeep vary significantly between franchise locations, it can lead to customer dissatisfaction. Patrons who experience lower-than-expected service at one location may develop negative perceptions about the entire brand, even if other franchise locations maintain higher standards. Although we have specific standards for quality at our cinema locations and insist that franchisees procure products from our approved vendors to avoid any customer dissatisfaction, which also helps maintain our brand reputation. Inconsistent quality can also lead to brand dilution, weakening the overall appeal of our cinemas and making it more difficult to attract and retain customers. As customers lose trust in the reliability of our brand, their loyalty may decrease, leading to a potential decline in repeat business and word-of-mouth referrals. This deterioration in brand reputation can also hinder franchise growth, as potential franchisees may be reluctant to invest in a brand perceived as inconsistent. Although, we implement strict quality control measures, offer regular training programs, and

conduct routine audits to ensure franchisees meet the company's operational standards, there is no guarantee that all franchisees will adhere to the established guidelines. Inconsistencies in quality may still occur, potentially resulting in long-term damage to our brand reputation and reduced growth opportunities in the franchise sector.

39. *We are subject to the risk of failure of, or a material weakness in, our internal control systems and major fraud, lapses of internal control or system failures could adversely impact the company's business.*

We are exposed to risks arising from the inadequacy or failure of internal systems or processes, and any actions we may take to mitigate these risks may not be sufficient to ensure an effective internal control environment. Given our high volume of transactions, errors may be repeated or compounded before they are discovered and rectified. Our management information systems and internal control procedures may not be able to identify non-compliance or suspicious transactions in a timely manner, or at all. Where internal control weaknesses are identified, our actions may not be sufficient to fully correct such weaknesses. In addition, several of our collection related processes are yet to be fully automated, which may increase the risk that human error, tampering or manipulation will result in losses that may be difficult to detect. As a result, we may incur expenses or suffer monetary losses, which may not be covered by our insurance policies and may result in a material effect on our business, financial condition and results of operations. Our Company is vulnerable to risk arising from the failure of employees to adhere to approved procedures, system controls, fraud, system failures, information system disruptions, communication systems failure and interception during transmission through external communication channels or networks. Failure to protect fraud or breach in security may adversely affect our Company's operations and financial performance. Our reputation could also be adversely affected by significant fraud committed by our employees, agents, customers or third parties.

40. *Our business is substantially affected by prevailing economic, political and other prevailing conditions in India.*

Our Company is incorporated in India, and our assets and employees are located in India. As a result, we are highly dependent on prevailing economic conditions in India and our results of operations are significantly affected by factors influencing the Indian economy. Factors that may adversely affect the Indian economy, and hence our results of operations, may include:

- any increase in Indian interest rates or inflation;
- any scarcity of credit or other financing in India, resulting in an adverse impact on economic conditions in India and scarcity of financing for our expansions;
- prevailing income conditions among Indian consumers and Indian corporations;
- volatility in, and actual or perceived trends in trading activity on, India's principal stock exchanges;
- changes in India's tax, trade, fiscal or monetary policies;
- political instability, terrorism or military conflict in India or in countries in the region or globally, including in India's various neighbouring countries;
- occurrence of natural or man-made disasters
- prevailing regional or global economic conditions
- Other significant regulatory or economic developments in or affecting India or its cinema industry.

Any slowdown or perceived slowdown in the Indian economy, or in specific sectors of the Indian economy, could adversely impact our business, results of operations and financial condition and the price of the Equity Shares.

41. *The future operating results are difficult to predict and may fluctuate or adversely vary from the past performance.*

The company's operating results may fluctuate or adversely vary from past performances in the future due to a number of factors, many of which are beyond the company's control. The results of operations during any financial year or from period to period may differ from one another or from the expected results operation. Its business, results of operations and financial condition may be adversely affected by, inter alia, a decrease in the growth and demand for the products and services offered by the us or any strategic alliances which may subsequently become a liability or non-profitable. Due to various reasons including the above, the future performance may fluctuate or adversely vary from our past performances and may not be predictable. In addition, we have experienced fluctuations in profit margins i.e., in Financial Year ended 2023, our revenue from operations was Rs 2536.91 Lakhs and profit After Tax was Rs.164.84 Lakhs, comparing to Financial Year 2024, our revenue from operations Rs 6029.74 Lakhs and profit After Tax was Rs. 408.75 Lakhs. Further in the Financial year ended 2025 our revenue from operations was Rs 9560.96 Lakhs and profit After Tax was Rs. 1900.99 Lakhs. The reason for this fluctuation in profit margin is last year we focused on market penetration by reducing price and delivering superior quality product at price. Additionally, we recruited staff to meet our future requirement. In the current year, we strategically adjusted our pricing to reflect its true value and this approach led to an improved revenue and scale towards long term profitability. For further details of our operating results, section titled "Financial Information of our Company" beginning on Page 194 of this Red Herring Prospectus.

42. *Inability to meet financial obligations and debt covenants under financing arrangements may lead to default risks and constrain operational flexibility affecting creditworthiness and liquidity.*

Our business operations involve debt financing arrangements that are subject to specific financial and non-financial covenants. Any failure to meet these obligations—whether due to revenue shortfalls, increased expenses, or delayed cash flows—could result in breaches of these covenants. This may trigger penalties, accelerated repayment obligations, or restrictions on further borrowings, placing considerable strain on our financial position. Non-compliance with debt terms could adversely affect our credit profile, limiting access to additional financing in the future and impacting our ability to pursue expansion or operational enhancements. Furthermore, any default could lead to legal proceedings or enforcement actions, which may disrupt operations and erode stakeholder confidence. While we closely monitor our financial metrics and maintain regular communication with lenders to ensure timely compliance with all covenants, there is no assurance that unforeseen circumstances will not impact our ability to meet these obligations. If we are unable to adhere to the terms of our financing agreements, it could significantly affect our financial stability, operational continuity, and long-term strategic objectives.

43. *Proposed deployment of Net Proceeds and funding estimates are based solely on internal assumptions without external appraisal which may lead to suboptimal fund allocation and project execution risks.*

The utilization of Net Proceeds from this issue is planned based on internal management estimates and has not been independently appraised or validated by any external agency. As such, these projections are subject to assumptions regarding timing, cost, and returns on investment, which may not materialize as expected. Inaccurate estimations may lead to misallocation of resources, cost overruns, or delays in the execution of planned projects. In the absence of independent due diligence or third-party validation, there is a heightened risk of deviations between projected and actual outcomes. If the expected benefits from fund deployment are not realized, it could impact the financial return on investment and affect our ability to achieve intended growth targets. Although our management has experience in strategic planning and resource allocation, and project feasibility is assessed internally, there is no assurance that the projected outcomes will be achieved. Any shortfall in results may affect business expansion, operational performance, and investor confidence.

44. *Inability to manage growth effectively may result in operational inefficiencies, reduced service quality, and disruption in organizational control impacting long-term scalability and business performance.*

As we expand our operations and footprint, the ability to manage growth efficiently becomes critical to sustaining long-term success. Rapid expansion—whether through new locations, service diversification, or increased workforce—can place substantial pressure on our existing systems, processes, and management bandwidth. If not managed effectively, this growth may lead to fragmented operations, inconsistent service delivery, and weakened internal oversight. Challenges in scaling operations may include delays in recruitment and training, lack of process standardization, difficulty in maintaining service quality across locations, and overextension of key resources. These issues can disrupt customer experiences, strain vendor relationships, and reduce overall operational agility. Furthermore, failure to integrate new units seamlessly into the existing business structure may result in duplication of efforts, communication breakdowns, or misalignment in strategic priorities. To navigate these challenges, we have implemented scalable systems, strengthened our leadership team, and adopted structured planning models to guide expansion. We also invest in continuous training, performance monitoring, and technology to ensure cohesion across operational units. However, despite these initiatives, there is no assurance that all aspects of growth will be managed without strain. Ineffective growth management may affect organizational efficiency, customer satisfaction, and our ability to achieve targeted outcomes, potentially impacting long-term profitability and positioning.

45. *Engagement of contract workers may expose us to compliance risks, labor disputes, and operational uncertainties impacting service delivery and reputation.*

We engage a significant number of contract workers for various operational roles, including making of cinemas. While this model provides flexibility and cost efficiency, it also exposes us to potential risks related to labor law compliance, contractor reliability, and service consistency. Any non-compliance by third-party staffing agencies—such as underpayment of wages, non-adherence to statutory obligations, or unsafe working conditions—could result in legal liabilities and reputational harm. Contractual relationships may also limit our control over workforce quality, training, and conduct, which can affect service standards and customer satisfaction. In addition, dependence on external vendors may create uncertainties in workforce availability, particularly during high-demand periods or in the event of industrial actions. Although we vet third-party contractors carefully and implement regular compliance audits, there is no assurance that all obligations will be fulfilled consistently. Any disruption caused by contract labor issues may affect our service delivery, expose us to regulatory scrutiny, and impact operational efficiency.

46. *Negative publicity of the Company or its franchisees may damage brand perception and reduce customer trust resulting in revenue loss and long-term reputational impact.*

Our brand reputation is a critical asset that influences customer loyalty, investor confidence, and overall market perception. Any adverse media coverage, public criticism, or online backlash—whether directed at the Company or any of its franchisees—may negatively impact stakeholder trust. Incidents involving poor customer experiences, service disruptions, or regulatory violations at franchise locations may be publicly associated with our brand, regardless of our direct involvement. Such negative publicity can spread rapidly through digital platforms and social media, magnifying its impact. This can lead to reduced customer footfall, difficulty in attracting new franchisees, and a decline in goodwill among business partners. In the past, certain franchise-operated cinemas were reported for non-compliance with operational standards. To address this, we maintain brand integrity through detailed SOPs, conduct franchise audits, and issue brand usage guidelines. However, despite these efforts, there is no assurance that reputational risks can be fully controlled, especially when caused by third-party behavior. Any negative public perception may continue to affect long-term brand value and financial performance.

47. *There may be potential conflicts of interest if our Promoters or Directors are involved in any business activities that compete with or are in the same line of activity as our business operations.*

Certain entities forming part of the Group i.e. Connplex Home Theatre Pvt Ltd, Connplex Sky Theatre Pvt Ltd and Nilkanth Film Fiesta are engaged in similar line of business and may have business interests that overlap or are aligned with similar sectors, including entertainment and media. The existence of such common pursuits, while legally permitted, could give rise to actual or perceived conflicts of interest, especially where strategic decisions or resource allocations intersect. Further, we have not entered into any non-compete agreement with the said entities. We cannot assure you that our Promoters who has common interest in said entities will not favour the interest of the said entities as a result; conflicts of interests may arise in allocating business opportunities amongst our Company and our Promoter Group Entity in circumstances where our respective interests diverge. There can be no assurance that our Promoters or our Promoter Group Entity or members of the Promoter Group will not compete with our existing business or any future business that we may undertake or that their interests will not conflict with ours. Any such present and future conflicts could have a material adverse effect on our reputation, business, results of operations and financial condition which may adversely affect our profitability and results of operations.

48. *There may have Seasonal variations in customer footfall which result in fluctuating revenue patterns and underutilization of resources affecting operational consistency.*

The cinema business is inherently seasonal, with peak attendance typically concentrated around holidays, weekends, and major film releases. During off-peak periods, reduced footfall may lead to underutilization of cinema capacity, inventory wastage in concessions, and inefficient staff deployment. These fluctuations create challenges in forecasting revenue and managing operational costs efficiently. Extended non-peak durations may lead to elevated cost-per-customer ratios and strain on overall cash flows. This imbalance between fixed operating expenses and variable revenue generation may impact profitability and reduce flexibility in planning future investments. To address these challenges, we implement dynamic pricing strategies, introduce special screenings and events, and promote off-peak attendance through marketing campaigns. Despite these efforts, seasonality remains an uncontrollable external factor. Prolonged periods of low demand may continue to impact our resource optimization and revenue consistency across the year.

49. *The Rise of OTT platforms and changing content consumption patterns may reduce cinema footfall and impact long-term business viability.*

The emergence and growing popularity of Over-the-Top (OTT) content platforms have transformed consumer viewing habits, offering convenient and cost-effective alternatives to traditional cinema-going. The shift toward on-demand digital entertainment may lead to a reduction in cinema attendance, especially among audiences who prioritize flexibility and content variety.

This evolving preference could affect box office collections, lower demand for theatrical releases, and reduce concession revenue, all of which form the core of our business model. Furthermore, if studios increasingly choose direct-to-digital releases for select films, the availability of exclusive theatrical content could decline, limiting our ability to attract consistent footfall. To stay relevant, we have invested in premium viewing experiences and curated content offerings that distinguish the in-theater experience. However, the influence of OTT platforms continues to grow, and there is no assurance that consumer behavior will revert to traditional formats. This shift may pose long-term challenges to growth, customer engagement, and content acquisition.

50. *The Non-compliance with standard operating procedures by franchisees may disrupt uniform service quality and affect brand consistency across locations.*

Franchisees are required to follow strict Standard Operating Procedures (SOPs) covering customer service, hygiene, ticketing, and

brand presentation. However, there have been instances in the past where franchisees failed to comply with these standards. Such deviations may adversely impact customer experience and harm the brand's perception. Inconsistent adherence to SOPs can result in reputational damage, legal scrutiny, or reduced customer retention at affected locations. Furthermore, the inability to enforce standards uniformly can dilute operational excellence and create inconsistencies in performance measurement. We conduct regular audits, provide continuous training, and maintain compliance protocols to uphold SOPs across the franchise network. Despite these initiatives, complete adherence depends on individual franchisee commitment, and lapses may still occur. Any sustained non-compliance could compromise brand equity and effect our business operations of the Company.

51. *The Heavy reliance on a single franchisee for operation of multiple cinema locations may expose us to concentrated risk affecting operational control and business continuity*

In cases where a single franchisee is responsible for operating multiple cinema properties, the Company's dependence on that partner increases substantially. Should this franchisee face financial difficulties, operational lapses, or non-compliance, the disruption could affect a large portion of our network simultaneously, thereby amplifying its impact. This dependency may also limit our flexibility in enforcing brand standards, rolling out network-wide changes, or addressing localized challenges swiftly. Additionally, the franchisee's internal policies or priorities may not always align with ours, increasing the risk of operational misalignment or reputational fallout. We regularly evaluate franchisee performance, diversify partnerships, and retain contractual rights to intervene in case of continued non-compliance. However, there is no assurance that sudden disruptions from a key franchisee can be averted without affecting continuity. High dependency on a single entity may therefore increase business risk and operational exposure.

52. *We have not independently verified certain data in this Red Herring Prospectus.*

We have not independently verified data from the industry and related data contained in chapter titled "Industry Overview" beginning on Page 100 of this Red Herring Prospectus and although we believe the sources mentioned in the report to be reliable, we cannot assure you that they are complete or reliable. Such data may also be produced on a different basis from comparable information compiled with regards to other countries. Therefore, discussions of matters relating to India, its economy or the industries in which we operate that is included herein are subject to the caveat that the statistical and other data upon which such discussions are based have not been verified by us and may be incomplete, inaccurate or unreliable. Due to incorrect or ineffective data collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced elsewhere and should not be unduly relied upon. Further, we cannot assure you that they are stated or compiled on the same basis or with the same degree of accuracy, as the case may be, elsewhere.

53. *We are susceptible to risks relating to unionization of our workers employed by us.*

None of our workers are currently represented by a recognized collective bargaining agreement. We cannot assure you that our workers will not unionize at our facility or at our manufacturing partners facility, or attempt to unionize in the future, that they will not otherwise seek higher wages and enhanced employee benefits. Although we have not faced any unionization of employees till date. We also cannot assure you that we will not experience disruptions in our work due to disputes or other problems with our workforce. If not resolved in a timely manner, these risks could limit our ability to provide our products to our clients, cause clients to limit their use of our products or result in an increase in our cost of employee benefits and other expenses. If any of these risks materialize, our business, results of operations and financial condition could be affected.

54. *We have not identified any alternate source of raising the fund for capital expenditure and working capital mentioned as our 'Objects of the Issue'. Any shortfall in raising / meeting the same could adversely affect our growth plans, operations and financial performance.*

Our Company has not identified any alternate source of funding our capital expenditure and our working capital requirement and for general corporate purposes and hence any failure or delay on our part to mobilize the required resources or any shortfall in the Issue proceeds can adversely affect our growth plan and profitability. The delay/shortfall in receiving these proceeds could result in inadequacy of working capital or may require our Company to borrow funds on unfavorable terms, both of which scenarios may affect the business operation and financial performance of the Company. For further details of our Object for the Issue, please refer chapter titled "Object for the Issue" beginning on Page 80 of this Red Herring Prospectus.

55. *Any variation in the utilization of the Net Proceeds as disclosed in this Red Herring Prospectus shall be subject to certain compliance requirements, including prior approval of the shareholders of our Company.*

We propose to utilize the Net Proceeds for raising funds for capital expenditure and working capital Requirement. For further details of the proposed objects of the Issue, please refer the chapter titled "Objects of the Issue" beginning on Page No. 80 of this

Red Herring Prospectus. At this juncture, we cannot determine with any certainty if we would require the Net Proceeds to meet any other expenditure or fund any exigencies arising out of the environment, business conditions, economic conditions or other factors beyond our control. In accordance with Section 27 of the Companies Act, 2013, we cannot undertake any variation in the utilization of the Net Proceeds as disclosed in this Red Herring Prospectus without obtaining the approval of shareholders of our Company through a special resolution. In the event of any such circumstances that require us to vary the disclosed utilization of the Net Proceeds, we may not be able to obtain the approval of the shareholders of our Company in a timely manner, or at all. Any delay or inability in obtaining such approval of the shareholders of our Company may adversely affect our business or operations. Further, our Promoter or controlling shareholders would be required to provide an exit opportunity to the shareholders of our Company who do not agree with our proposal to modify the objects of the Issue, at a price and manner as prescribed by SEBI. Additionally, the requirement on Promoter or controlling shareholders to provide an exit opportunity to such dissenting shareholders of our Company may deter the Promoters or controlling shareholders from agreeing to the variation of the proposed utilization of the Net Proceeds, even if such variation is in the interest of our Company. Further, we cannot assure you that the Promoters or the controlling shareholders of our Company will have adequate resources at their disposal at all times to enable them to provide an exit opportunity. In light of these factors, we may not be able to vary the objects of the Issue to use any unutilized proceeds of the Issue, if any, even if such variation is in the interest of our Company. This may restrict our Company's ability to respond to any change in our business or financial condition by re-deploying the unutilized portion of Net Proceeds, if any, which may adversely affect our business and results of operations.

56. *Portion of our Issue Proceeds are proposed to be utilized for general corporate purposes which constitute [●] of the Issue Proceed. As on date we have not identified the use of such funds.*

Portion of our Issue Proceeds are proposed to be utilized for general corporate purposes which constitute [●] of the Issue Proceed. We have not identified the general corporate purposes for which these funds may be utilized. The deployment of such funds is entirely at the discretion of our management in accordance with policies established by our Board of Directors from time to time and subject to compliance with the necessary provisions of the Companies Act. For details please refer the chapter titled "Objects of the Issue" beginning on Page No. 80 of this Red Herring Prospectus.

57. *We have in the last 12 months issued Equity Shares at a price that may be at lower than the Issue Price.*

In the last 12 months we may have issued fresh Equity Shares to the promoter and other shareholders of our Company which are as follows:-

- Bonus issue in the ratio of 27:1 dated November 21, 2024 issuing 1,35,00,000 Equity shares face value ₹ 10/- per Equity Share for consideration other than cash.

The Equity Shares allotted to investors pursuant to this Issue is being priced significantly higher due to various reasons including better performance by the Company, better economic conditions and passage of time. For Further details of equity shares issued, please refer to the chapter titled "Capital Structure" beginning on page 61 of the Red Herring Prospectus.

58. *The average cost of acquisition of Equity Shares by our Promoter could be lower than the Issue Price.*

Our Promoters average cost of acquisition of Equity Shares in our Company is lower than the Issue Price decided by the Company in consultation with the Book Running Lead Manager. For further details regarding average cost of acquisition of Equity Shares by our Promoters in our Company and build-up of Equity Shares by our Promoter in our Company, please refer to the chapters "Capital Structure" beginning on pages 61 of this Red Herring Prospectus.

59. *We will continue to be controlled by our Promoters and Promoter Group after the completion of the Issue, which will allow them to influence the outcome of matters submitted for approval of our shareholders.*

As on the date of this Red Herring Prospectus, our Promoters and Promoter Group hold 95.36% of the issued and outstanding paid-up share capital of our Company. Following the completion of the Issue, our Promoter and Promoter Group will continue to hold together 69.90% of our post-Issue Equity Share capital. As a result, they will have the ability to influence matters requiring shareholders' approval, including the ability to appoint Directors to our Board and the right to approve significant actions at Board and at shareholders' meetings, including the issue of Equity Shares and dividend payments, business plans, mergers and acquisitions, any consolidation or joint venture arrangements, any amendment to our Memorandum of Association and Articles of Association, and any other business decisions. We cannot assure you that our Promoters and Promoter Group will not have conflicts of interest with other shareholders or with our Company. Any such conflict may adversely affect our ability to execute our business strategy or to operate our business. For further details regarding our shareholding, please refer to chapter titled "Capital Structure" beginning on Page 61 of this Red Herring Prospectus.

60. *Our Equity Shares have never been publicly traded and may experience price and volume fluctuations following the completion of the Issue, an active trading market for the Equity Shares may not develop, the price of our Equity Shares may be volatile and you may be unable to resell your Equity Shares at or above the Issue Price or at all.*

Prior to the Issue, there has been no public market for our Equity Shares, and an active trading market may not develop or be sustained after the Issue. Listing and quotation does not guarantee that a market for our Equity Shares will develop or, if developed, the liquidity of such market for the Equity Shares. The Issue Price of the Equity Shares is determined considering various financial factors of the Company and may not be indicative of the market price of the Equity Shares at the time of commencement of trading of the Equity Shares or at any time thereafter. There has been significant volatility in the Indian stock markets in the recent past, and the trading price of our Equity Shares after this Issue could fluctuate significantly as a result of market volatility or due to various internal or external risks, including but not limited to those described in this Red Herring Prospectus. A decrease in the market price of our Equity Shares could cause you to lose some or all of your investment

61. *Rights of shareholders under Indian laws may be more limited than under the laws of other jurisdictions.*

Indian legal principles related to corporate procedures, directors' fiduciary duties and liabilities may differ from those that would apply to a company in another jurisdiction. Investors may have more difficulty in asserting their rights as shareholders in an Indian company than as shareholder of a corporation in another jurisdiction. Shareholders' rights under Indian law may not be as extensive as shareholders' rights under the laws of other jurisdictions. Under the Companies Act, prior to issuance of any new equity shares, a public limited company incorporated under Indian law must offer its equity shareholders pre-emptive rights to subscribe to a proportionate number of equity shares to maintain existing ownership, unless such pre-emptive rights are waived by a special resolution by a three-fourths majority of the equity shareholders voting on such resolution. If you are a foreign investor and the law of the foreign jurisdiction that you are in does not permit the exercise of such pre-emptive rights without our filing an offering document or registration statement with the applicable authority in such foreign jurisdiction, you will be unable to exercise such pre-emptive rights, unless we make such a filing. If we elect not to file an offering document or a registration statement, the new securities may be issued to a custodian, who may sell the securities for your benefit. The value such custodian receives on the sale of any such securities and the related transaction costs cannot be predicted. To the extent that you are unable to exercise pre-emptive rights granted in respect of our Equity Shares, your proportional interest in our Company would decline.

62. *The Issue Price of our Equity Shares may not be indicative of the market price of our Equity Shares after the Issue and the market price of our Equity Shares may decline below the Issue Price and you may not be able to sell your Equity Shares at or above the Issue Price.*

The Issue Price of our Equity Shares has been determined through the Book building process. This price is based on numerous factors. For further information, see "Basis for Issue Price" beginning on page 92 of this Red Herring Prospectus and may not be indicative of the market price of our Equity Shares after the Issue. The market price of our Equity Shares could be subject to significant fluctuations after the Issue, and may decline below the Issue Price. We cannot assure you that you will be able to sell your Equity Shares at or above the Issue Price. Among the factors that could affect our share price are:

- Quarterly variations in the rate of growth of our financial indicators, such as earnings per share, net income and revenues;
- Changes in revenue or earnings estimates or publication of research reports by analysts;
- Speculation in the press or investment community;
- Domestic and international economic, legal and regulatory factors unrelated to our performance.

63. *A third party could be prevented from acquiring control of our Company because of anti-takeover provisions under Indian law.*

There are provisions in Indian law that may delay, deter or prevent a future takeover or change in control of our Company, even if a change in control would result in the purchase of your Equity Shares at a premium to the market price or would otherwise be beneficial to you. Such provisions may discourage or prevent certain types of transactions involving actual or threatened change in control of us. Under the takeover regulations in India, an acquirer has been defined as any person who, directly or indirectly, acquires or agrees to acquire shares or voting rights or control over a company, whether individually or acting in concert with others. Although these provisions have been formulated to ensure that interests of investors/shareholders are protected, these provisions may also discourage a third party from attempting to take control of our Company. Consequently, even if a potential takeover of our Company would result in the purchase of the Equity Shares at a premium to their market price or would otherwise be beneficial to its stakeholders, it is possible that such a takeover would not be attempted or consummated because of the Indian takeover regulations.

- 64. *We may require further equity issuance, which will lead to dilution of equity and may affect the market price of our Equity Shares or additional funds through incurring debt to satisfy our capital needs, which we may not be able to procure and any future equity offerings by us.***

Our growth is dependent on having a balance sheet to support our activities. In addition to the IPO Proceeds and our internally generated cash flow, we may need other sources of financing to meet our capital needs which may include entering into new debt facilities with lending institutions or raising additional equity in the capital markets. We may need to raise additional capital from time to time, dependent on business conditions. The factors that would require us to raise additional capital could be business growth beyond what the current balance sheet can sustain; additional capital requirements imposed due to changes in regulatory regime or significant depletion in our existing capital base due to unusual operating losses. Any fresh issue of shares or convertible securities would dilute existing holders, and such issuance may not be done at terms and conditions, which are favourable to the existing shareholders of our Company. If our Company decides to raise additional funds through the incurrence of debt, our interest obligations will increase, and we may be subject to additional covenants, which could further limit our ability to access cash flows from our operations. Such financings could cause our debt to equity ratio to increase or require us to create charges or liens on our assets in favour of lenders. We cannot assure you that we will be able to secure adequate financing in the future on acceptable terms, in time, or at all. Our failure to obtain sufficient financing could result in the delay or abandonment of our expansion plans. Our business and future results of operations may be affected if we are unable to implement our expansion strategy.

Any future issuance of Equity Shares by our Company may dilute shareholding of investors in our Company; and hence affect the trading price of our Company's Equity Shares and its ability to raise capital through an issue of its securities. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of our Company's Equity Shares. Additionally, the disposal, pledge or encumbrance of Equity Shares by any of our Company's major shareholders, or the perception that such transactions may occur may affect the trading price of the Equity Shares. No assurance may be given that our Company will not issue Equity Shares or that such shareholders will not dispose of, pledge or encumber their Equity Shares in the future.

EXTERNAL RISK FACTORS

- 65. *The occurrence of natural or man-made disasters could adversely affect our results of operations, cash flows and financial condition. Hostilities, terrorist attacks, civil unrest and other acts of violence could adversely affect the financial markets and our business.***

The occurrence of natural disasters, including cyclones, storms, floods, earthquakes, tsunamis, tornadoes, fires, explosions, pandemic disease and man-made disasters, including acts of terrorism and military actions, could adversely affect our results of operations, cash flows or financial condition. Terrorist attacks and other acts of violence or war in India or globally may adversely affect the Indian securities markets. In addition, any deterioration in international relations, especially between India and its neighbouring countries, may result in investor concern regarding regional stability which could adversely affect the price of the Equity Shares. In addition, India has witnessed local civil disturbances in recent years and it is possible that future civil unrest as well as other adverse social, economic or political events in India could have an adverse effect on our business. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse effect on our business and the market price of the Equity Shares.

- 66. *Our business and activities may be further regulated by the Competition Act and any adverse application or interpretation of the Competition Act could materially and adversely affect our business, financial condition and results of operations.***

The Competition Act seeks to prevent business practices that have or are likely to have an appreciable adverse effect on competition in India and has established the Competition Commission of India (the "CCI"). Under the Competition Act, any arrangement, understanding or action, whether formal or informal, which has or is likely to have an appreciable adverse effect on competition is void and attracts substantial penalties. Any agreement among competitors which, directly or indirectly, determines purchase or sale prices, results in bid rigging or collusive bidding, limits or controls the production, supply or distribution of goods and services, or shares the market or source of production or providing of services by way of allocation of geographical area or type of goods or services or number of customers in the relevant market or in any other similar way, is presumed to have an appreciable adverse effect on competition and shall be void. Further, the Competition Act prohibits the abuse of a dominant position by any enterprise. If it is proven that a breach of the Competition Act committed by a company took place with the consent or connivance or is attributable to any neglect on the part of, any director, manager, secretary or other officer of such company, that person shall be guilty of the breach themselves and may be punished as an individual. If we, or any of our employees are penalized under the Competition Act, our business may be adversely affected. Further, the Competition Act also regulates combinations and requires approval of the CCI for effecting any acquisition of shares, voting rights, assets or control or mergers or amalgamations above the prescribed asset and turnover based thresholds. On March 4, 2011, the Government of India notified and brought into force new provisions under the Competition Act in relation to combined entities (the "Combination Regulation Provisions"), which came into effect from June 1, 2011. The Combination Regulation Provisions require that any acquisition of shares, voting rights, assets

or control or mergers or amalgamations, which cross the prescribed asset and turnover based thresholds, must be notified to and preapproved by the CCI. In addition, on May 11, 2011, the CCI issued the final Competition Commission of India (Procedure in regard to the transaction of business relating to combinations) Regulations, 2011 (as amended). These regulations, as amended, set out the mechanism for the implementation of the Combination Regulation Provisions under the Competition Act.

67. *The COVID-19 pandemic has had an adverse effect, and any future pandemic may have adverse effects on our business, results of operations, financial condition and cash flows.*

COVID-19 pandemic or any future pandemic, may have a negative impact on our business and operations because they affect the markets and communities in which we, our franchisees, our manufacturing partners and suppliers from whom we source our raw materials operate, as well as our customers. The COVID-19 outbreak, which was initially reported in December 2019, has spread globally and the virus has undergone multiple mutations, however the created vaccinations have typically lowered infection rates and fatalities. Any pandemic or widespread public health crises could have effects on regional, national, and international financial markets, as the COVID-19 pandemic has. The COVID-19 outbreak has had a major and negative impact on economic activity, added to significant volatility, and put pressure on financial markets in several nations and regions, including India. Public health officials and governmental authorities across the globe have reacted to the COVID-19 pandemic's rapidly changing effects by implementing measures, including in India, where our business operations are based. These measures include prohibiting large-scale gatherings of people, enforcing quarantines, limiting travel, issuing "stay-at-home" orders, and restricting the kinds of businesses that may continue to operate, among many others. India's declaration of COVID-19 as a "notified disaster" for the purposes of the Disaster Management Act, 2005 on March 14, 2020, and the subsequent imposition of a state-wide lockdowns beginning on March 25, 2020, have had an effect on business operations in the sector in which we are engaged.

68. *The Indian tax regime is currently undergoing substantial changes which could adversely affect our business.*

The goods and service tax ("GST") that has been implemented with effect from July 1, 2017 combines taxes and levies by the GoI and state governments into a unified rate structure, and replaces indirect taxes on goods and services such as central excise duty, service tax, customs duty, central sales tax, state VAT, cess and surcharge and excise that were being collected by the GoI and state governments. As regards the General Anti-Avoidance Rules ("GAAR"), The general anti avoidance rules ("GAAR") provisions have been made effective from assessment year 2018-19 onwards, i.e.; financial Year 2017-18. The GAAR provisions intend to declare an arrangement as an "impermissible avoidance arrangement", if the main purpose or one of the main purposes of such arrangement is to obtain a tax benefit, and satisfies at least one of the following tests (i) creates rights, or obligations, which are not ordinarily created between persons dealing at arm's length; (ii) results, directly or indirectly, in misuse, or abuse, of the provisions of the Income Tax Act, 1961; (iii) lacks commercial substance or is deemed to lack commercial substance, in whole or in part; or (iv) is entered into, or carried out, by means, or in a manner, that is not ordinarily engaged for bona fide purposes. If GAAR provisions are invoked, the tax authorities will have wider powers, including denial of tax benefit or a benefit under a tax treaty. In the absence of any precedents on the subject, the application of these provisions is uncertain. As the taxation regime in India is undergoing a significant overhaul, its consequent effects on economy cannot be determined at present and there can be no assurance that such effects would not adversely affect our business, future financial performance and the trading price of the Equity Shares.

69. *You may be restricted in your ability to exercise pre-emptive rights under Indian law and may be adversely affected by future dilution of your ownership position.*

Under the Companies Act, a company incorporated in India must offer its shareholders pre-emptive rights to subscribe and pay for a proportionate number of shares to maintain their existing ownership percentages before the issuance of any new shares, unless the pre-emptive rights have been waived by adoption of a special resolution by holders of three-fourths of the shares who have voted on the resolution, or unless the company has obtained approval from the Government of India to issue without such special resolution, subject to votes being cast in favour of the proposal exceeding the votes cast against such proposal. However, if the law of the jurisdiction you are in does not permit you to exercise your pre-emptive rights without our Company filing an offering document or a registration statement with the applicable authority in the jurisdiction you are in, you will be unable to exercise your pre-emptive rights unless our Company makes such a filing. To the extent that you are unable to exercise pre-emptive rights granted in respect of the Equity Shares, your proportional interest in our Company would be reduced.

70. *Political, economic or other factors that are beyond our control may have an adverse effect on our business, results of operations and cash flows.*

We currently operate only in India and are dependent on domestic, regional and market conditions. Our performance, growth and market price of our Equity Shares are and will be dependent on the Textile & Apparel industry of the Indian economy. There have been periods of slowdown in the economic growth of India. For instance, the present situation of lock-down is prevailing in India due to pandemic Covid-19 spread in India and all other parts of world. If such condition prevail for longer time the Demand for

our products & services may be adversely affected by an economic downturn in domestic, regional and global economies. India's economic growth is also affected by various other factors including domestic consumption and savings, balance of trade movements, namely export demand and movements in key imports, global economic uncertainty and liquidity crisis, volatility in exchange currency rates. Consequently, any future slowdown in the Indian economy could harm our business, results of operations, cash flows and financial condition. Also, a change in the Government or a change in the economic and deregulation policies could affect economic conditions prevalent in the areas in which we operate in general and our business in particular and high rates of inflation in India could increase our costs without proportionately increasing our revenues, and as such decrease our operating margins.

71. *Companies in India are required to prepare financial statements under the new Indian Accounting Standards. In addition, all income-tax assessee in India will be required to follow the Income Computation and Disclosure Standards.*

The Ministry of Corporate Affairs ("MCA"), Government of India, has through notification dated February 16, 2015 issued the Indian Accounting Standards Rules, 2015 ("Ind AS") which have come into effect from April 1, 2015 and are applicable to companies which fulfill certain conditions. Further, there can be no assurance that the adoption of Ind AS will not affect our reported results of operations or financial condition. Any of these factors relating to the use of Ind AS may adversely affect our financial condition and results of operations. Further, the Ministry of Finance, Government of India has issued a notification dated September 29, 2016 notifying Income Computation and Disclosure Standards ("ICDS"), thereby creating a new framework for computation of taxable income. The ICDS shall apply from the assessment year 2017-2018 and subsequent years. The adoption of ICDS is expected to significantly alter the way companies compute their taxable income, as ICDS deviates from several concepts that are followed under general accounting standards, including Indian GAAP and Ind AS. In addition, ICDS shall be applicable for the computation of income for tax purposes but shall not be applicable for the computation of income for minimum alternate tax. There can be no assurance that the adoption of ICDS will not adversely affect our business, results of operations and financial condition.

72. *Our business is substantially affected by prevailing economic, political and other prevailing conditions in India.*

Our Company is incorporated in India, and the majority of our assets and employees are located in India. As a result, we are highly dependent on prevailing economic conditions in India and our results of operations are significantly affected by factors influencing the Indian economy. Factors that may adversely affect the Indian economy, and hence our results of operations, may include:

- the macroeconomic climate, including any increase in Indian interest rates or inflation;
- Any scarcity of credit or other financing in India, resulting in an adverse impact on economic conditions in India and scarcity of financing for our expansions;
- Prevailing income conditions among Indian consumers and Indian corporations;
- volatility in, and actual or perceived trends in trading activity on, India's principal stock exchanges;
- changes in India's tax, trade, fiscal or monetary policies;
- political instability, terrorism or military conflict in India or in countries in the region or globally, including in India's various neighbouring countries;
- international business practices that may conflict with other customs or legal requirements to which we are subject, including anti-bribery and anti-corruption laws;

73. *A significant change in the Government of India's economic liberalization and deregulation policies could adversely affect our business and the price of our Equity Shares.*

The Government of India has traditionally exercised, and continues to exercise, a dominant influence over many aspects of the economy. Unfavorable government policies including those relating to the internet and e-commerce, consumer protection and data-privacy, could adversely affect business and economic conditions in India, and could also affect our ability to implement our strategy and our future financial performance. Since 1991, successive governments, including coalition governments, have pursued policies of economic liberalization, including significantly relaxing restrictions on the private sector and encouraging the development of the Indian financial sector. However, the members of the Government of India and the composition of the coalition in power are subject to change. As a result, it is difficult to predict the economic policies that will be pursued by the Government of India. For example, there may be an increasing number of laws and regulations pertaining to the internet and e-commerce, which may relate to liability for information retrieved from or transmitted over the internet or mobile networks, user privacy, content restrictions and the quality of services and products sold or provided through the internet. The rate of economic liberalization could change and specific laws and policies affecting the financial services industry, foreign investment, currency exchange and other matters affecting investment in our securities could change as well. Any significant change in India's economic liberalization and deregulation policies could adversely affect business and economic conditions in India generally and our business in particular.

Illustration of the Book Building and Price Discovery Process: Bidders should note that this example is solely for illustrative purposes and is not specific to the Issue; it also excludes Bidding by Anchor Investors. Bidders can bid at any price within the Price Band. For instance, assume a Price Band of ₹20 to ₹ 24 per share, Issue size of 3,000 Equity Shares and receipt of five Bids from Bidders, details of which are shown in the table below. The illustrative book given below shows the demand for the Equity Shares of the Issuer at various prices and is collated from Bids received from various investors.

Bid Quantity	Bid Amount (₹)	Cumulative Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%
2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the Issuer is able to Issue the desired number of Equity Shares is the price at which the book cuts off, i.e., ₹22 in the above example. The Company in consultation with the BRLM, may finalise the Issue Price at or below such Cut-Off Price, i.e., at or below ₹22. All Bids at or above this Issue Price and cut-off Bids are valid Bids and are considered for allocation in the respective categories.

As of the date of this RHP the registered office as well as all other place of businesses as mentioned in Place of business under chapter title Business Overview at page number 123 are taken on lease by the company. This proposed expenditure will not only lead to creation of an asset for the company but will also add to the profitability of the company which will enhance our company's image, optimize operations, and support future growth. Currently, the company operates from a leased registered office, which may soon become inadequate given its rapid expansion over the next one to two years. Rather than continuing with a rental or lease arrangement, the company has strategically decided to invest in its own office space to accommodate its growing workforce and ensure long-term operational stability. Since the company's registered office and its promoters are based in Ahmedabad, acquiring office space in the same city will provide better oversight and management of staff handling operations across multiple states. A centrally located, owned office will enhance efficiency, improve coordination, and strengthen the company's operational control. Beyond addressing our immediate space requirements, purchasing an office space will offer several added advantages, the rationale for the Proposed Usage of the Corporate Office Space (7,174.85 sq. ft. approx.) are detailed below:

- Experiment Centre for Future Cinema Ideas:** The office can become an Innovation Hub for testing new technologies like VR, immersive sound, 4DX, digital walls, LED Screens and any other such technology. This allows the company to experiment and fine-tune ideas before they reach the public.
- Training Space for Cinema Theatre Employees:** A dedicated space for training in customer service, technical skills, and emergency response, with virtual options for staff in other locations, ensuring everyone is prepared.
- Food Testing Lab for Cinema F&B:** A space to test new food ideas, like healthy snacks or themed packaging, to create a

unique experience for cinema-goers and gather feedback for future improvements.

4. **Display Room & Storage:** A dedicated area to display cinema materials and securely store important files, keeping everything organized and accessible.
5. **Conference Room:** A versatile space for meetings with franchisees—both new and existing—and teams from marketing, procurement, accounts, finance, and investor relations.
6. **Data Center Room:** A spacious room to store and manage all technical data for theaters, equipped with the right software and hardware to ensure easy access and smooth operation.

Cost-Benefit Analysis:

1. **Rental vs. Ownership Considerations:** When deciding between renting and owning, several factors come into play, including rising costs, relocation expenses, time required for moving, operational disruptions, and the need to update business addresses with various authorities, customers, vendors, and distributors. Relocating often comes with additional complications and administrative overhead that can be avoided by investing in a permanent office.
2. **Estimated Cost of New Premises:** The total estimated cost for acquiring the office premises, covering 7,174.85 sq. ft. of carpet area, is Rs. 14.79 Crores. In comparison, the annual rental cost for such a space would currently amount to approximately Rs. 60.00 Lakhs.
3. **Long-Term Financial Benefits:** While rental payments are a recurring expense, purchasing office space offers the advantage of long-term capital appreciation. Real estate prices in Ahmedabad have been consistently rising over the past two to three years, making it a strong investment opportunity that will likely increase in value over time.
4. **Additional Rental Costs for External Events:** Holding external events, meetings, or marketing activities in rented venues would incur additional rental costs. By investing in our own office space, the company can eliminate these recurring expenses while creating a dedicated venue for company's office and events.
5. **Enhanced Goodwill and Brand Image:** Owning a permanent office space will also contribute positively to the company's goodwill and brand image. A permanent and established presence enhances the company's reputation, which can help attract new business and strengthen relationships with clients and stakeholders.
6. **Employee Productivity and Retention:** A permanent office space will improve internal communication, comfort, and accessibility for employees, boosting their confidence and job satisfaction. This, in turn, will help with employee retention and support the company's long-term objectives. Additionally, the smooth functioning of all departments—such as cinema development, operations, finance, and marketing—will be better facilitated in a well-organized, dedicated space.

The current leasehold office is inadequate to meet the company's long-term needs and anticipated business growth. The proposed space of 7,174.85 sq. ft. will address these requirements, supporting both operational expansion and the strategic objectives of the company.

2. Funding capital expenditure requirement for purchase of LED Screens and Projectors

Our company is committed to continuing its investment in technology for our cinema operations, specifically focusing on the purchase of LED screens and projectors. This investment is integral to enhancing the viewing experience for our customers and maintaining the edge of our cinema facilities. As part of this strategy, we have identified the types of LED screens and projectors to be purchased, having already obtained quotations from reputable vendors. However, we are yet to place any orders or enter into definitive agreements for these purchases. To meet our capital expenditure requirements, our company proposes to allocate up to ₹2444.00 Lakhs from the Net Issue Proceeds towards the purchase of LED screens and projectors. The total estimated cost for procuring these essential assets for our cinemas is detailed in the table below. These purchases are expected to contribute significantly to providing a superior movie-watching experience, with high-definition visuals and projection technologies that are in line with current industry standards.

For the financial year 2025-26, the company anticipates the operational launch of 60 screens. The LED screens and projectors intended to be procured using the proceeds from the IPO will be installed at these locations. The company has already secured Letters of Intent (LOIs) for all identified sites.

Currently, the rental or hire-purchase costs for each projector and LED screen stand at Rs. 17,500 and Rs. 92,000 per month, respectively. By directly purchasing this equipment using company funds, these recurring expenses can be eliminated, leading to substantial cost savings. Additionally, with the continuous rise in LED screen and projector prices, procuring these items in bulk for ongoing projects will further optimize costs and enhance financial efficiency.

The company anticipates the following benefits from the installation of its own LED screens and projectors:

Higher Advertising Revenue

- Owning the LED screens and projectors allows the company to earn 70% of the revenue from on-screen advertisements, compared to just 30% when operating under a rental model.
- Enhanced technology attracts higher payment from advertisers, resulting in increased earnings

Additional Revenue from Virtual Print Fee (VPF)

- By owning the projectors, the company earns a Virtual Print Fee (VPF) each time a movie is screened.
- This VPF revenue is sufficient to recover the cost of the projector in approximately three years, after which all VPF earnings contribute directly to profits.

Cost Savings & Better-Quality Control

- Renting projectors and screens incurs ongoing costs, which increase over time. Purchasing eliminates these recurring expenses.
- Owning the technology ensures consistent, viewing experiences without relying on third-party vendors.

It is important to note that LED screens and projectors are essential components for every cinema built by the company. The company has three options for acquiring these assets: (1) Ownership, (2) Hire Purchase, and (3) Rental. Historically, the company has relied on either rental or hire purchase arrangements for these assets. After gaining hands-on experience with both the rental and hire purchase models, and thoroughly evaluating the outcomes, the company has decided to shift to owning these assets. This decision is primarily driven by the evolving technological demands for LED screens, which are not readily available on rental or hire purchase terms, making ownership the most viable and future-proof option.

Cost Benefit Analysis: Renting has the lowest upfront cost (Rs. 2,10,000/- per year) but no ownership or no additional revenue benefits, hire purchase requires Rs. 9,00,000/- upfront plus Rs. 92,000/- per month for 24 months (total Rs. 31,08,000/-) with ownership after 2 years, while outright ownership costs Rs. 27,50,000/- one-time, ensuring the lowest amortized cost (Rs. 1,83,333/- per year) and maximum revenue benefits from day one. Hence, purchasing is the most feasible option for the long term, as it minimizes recurring costs, increases asset value, and maximizes revenue streams.

The option of renting and Hire purchase will affect regular monthly cash flow while the asset base of the company will also increase due to one-time cash flow in case of purchase of own LED screen / projectors.

Operational Benefits of Owning LED Screens and Projectors:

- Cost Optimization:** With the continuous rise in prices of LED screens and projectors, purchasing these items in bulk for ongoing projects will help optimize costs and improve financial efficiency, providing long-term savings.
- Increased Earnings through Enhanced Technology:** Upgrading to technology allows the company to attract higher payments from advertisers, leading to increased earnings due to better visibility and engagement.
- Revenue Recovery through VPF:** The Virtual Print Fee (VPF) revenue is sufficient to recover the cost of the projectors in approximately three years. After that, all VPF earnings directly contribute to the company's profits.
- Elimination of Recurring Rental Costs:** Renting projectors and screens involves ongoing costs that rise over time. By purchasing the equipment, it can eliminate these recurring expenses and avoid inflationary rental increases.
- Flexibility and Resource Optimization:** Owning the projectors and screens gives the company the flexibility to move them between different cinema locations as needed, optimizing the use of the equipment and ensuring that resources are allocated efficiently.
- Quick Replacement and Maintenance:** If any projectors or screens malfunction, owning the equipment ensures that replacements or repairs can be made quickly without waiting for external rentals or service providers. This minimizes disruptions, ensuring movie showings proceed on schedule and customer satisfaction is maintained.
- Avoiding Technical Issues with Rentals:** Rental options often provide older or used equipment, which may be more prone to technical issues that can cause show cancellations. Ownership allows the company to ensure the reliability and quality of its equipment.

Note:

- (1) The amount included in the quotation may be subject to price revisions, basis inter alia prevailing market conditions. In case of an increase in quoted amount due to a price revision, we will bear the difference out of internal accruals.
- (2) The amount included in the quotation does not include certain additional charges, inter alia installation, insurance, technician expense, transportation, duties and levies which may be payable by our Company under applicable law. We will bear the cost of such additional charges, as applicable, out of our internal accruals.
- (3) The purchased Equipments are not second hand.

The LED screens and projectors to be acquired from the issue proceeds will be used to enhance the movie-watching experience at our cinemas across various locations, as per the operational requirements of each facility. In addition to that, our company has signed a Letter of Intent (LOI) and an initial information sheet to establish franchise locations where the installation of projectors and LED screens is planned.

All quotations received from the vendors mentioned above are valid as on the date of this Red Herring Prospectus. However, we are yet to place any orders for the total capital expenditure. We have not entered into any definitive agreements with any of these vendors and there can be no assurance that the same vendors would be engaged to eventually supply the equipment or provide the service at the same costs. If there is any increase in the costs of equipment, the additional costs shall be paid by our Company from its internal accruals. The quantity of equipment to be purchased is based on the present estimates of our management and could be subject to change in the future. We may have to revise our funding requirements and deployment on account of a variety of factors such as our financial and market condition, business and strategy, competition and interest or exchange rate fluctuations and other external factors, which may not be within the control of our management. This may entail rescheduling or revising the planned expenditure and funding requirements, including the expenditure for a particular purpose at the discretion of our management. Our Company shall have the flexibility to deploy such equipment in relation to the capital expenditure or such other equipment as may be considered appropriate, according to the business or engineering requirements of such facilities, subject to the total amount to be utilized towards purchase of such equipment not exceeding ₹2444.00 Lakhs.

Our Directors, Key Managerial Personnel, Senior Management Personnel and Group Companies do not have any interest in above-mentioned Object or in the entities from whom we have obtained quotations in relation to such proposed expenses.

Apart from above there are other working capital requirements such as Cash and Cash Equivalents, Other Current assets, loans and advances, short term provisions and other current liabilities. Details of which are given below:

Loans and Advances	Loans and advances mainly include Retention money for works contracts with govt. dept., electricity deposits and EMD. Loans and advances are estimated based on previous years outstanding amount and for expected Business requirement of company.
Other Current Assets	Other Current Assets mainly include TDS Receivable and other amounts receivable from authorities. Other Current Assets is for expected business requirement of company.
Other Current liabilities	Other Liabilities mainly include Advance from customers and statutory liabilities. Other current liabilities are estimated based on previous years outstanding amount and for expected Business requirement of company
Short-term provisions	Short-term provisions mainly include Provision for employee benefits and provision of other expenses. Short-term provisions are estimated based on previous years outstanding amount and for expected Business requirement of company

Justification of working Capital Requirement:

Trade Receivables: The average levels of debtors in the past years for the year 2022-23, 2023-24 and 2024-25 has been 18 days, 23 days and 50 days respectively. On account of expected increase in the volume of business, the debtor's level is estimated to rise to 61 days for the year 2025-26 & 2026-27 respectively, which is the normal credit period which is required to be granted to the customers.

Trade Payable: During the year 2022-23, 2023-24 and 2024-25 the level of creditors has been 58 days, 62 days and 61 days respectively on account of change in the level of activity and actual available funds in the business. However, the company proposes to reduce the level of creditors at 8 days for the year 2025-26 & 2026-27 to purchase the goods at less credit to take the benefit of discount and to procure the goods timely to finish the cinemas in reasonable period of time.

Inventories: The level of inventory was 37 days, 33 days and 44 days for the year 2022-23, 2023-24 and 2024-25 respectively on account of increase in the volume of business. The said level has increased during the year 2024-25 due to stocking of inventories for the new cinemas. On the basis of expected volume of business of new cinemas/screens for the year 2025-26 & 2026-27, the level of inventories of stock of materials for making cinemas is likely to increase to 96 and 95 days respectively.

Other Current Assets: The amount of other current assets includes balances with revenue authority and other short-term advances etc. The said level has been lowered on account of volume of business during the year 2022-23 & 2023-24. Further it has been increased in year 2024-25 due in increase in revenue and it is expected to rise in the coming years due to increase in the volume of business in the future.

Short Term Provisions & Other Current Liabilities: The said amount includes the provision for income tax and other provisions which has been rising in the past as per the volume of business in the past years. The said amounts are expected to rise in the future years on account of increase in the volume of business in the future years when the numbers of cinemas to be increased on year and year basis.

Justification for the estimated significant increase in the Inventories of the Company in FY26 and FY27.

- Currently, the company is facing a shortage of working capital due to the absence of bulk procurement for multiple cinemas. As materials are purchased in smaller quantities, costs are higher, and project completion is delayed. Consequently, the launch of cinemas is postponed, leading to delays in generating revenue from ticket sales and food & beverage services.
- The company is intent to increase the revenues by expanding its cinema operations and plans to add 60 new screens in 2025-26 and 75 screens in 2026-27, which will significantly contribute to gross revenue.
- To speedily manage the construction of cinemas across various locations in India for achieving target of opening 60 new screens in 2025-26 and 75 screens in 2026-27, the company required to maintain a large inventory of raw materials, semi-finished goods, and finished goods at a central warehouse. This will streamline operations by ensuring that materials are readily available, avoiding delays in the construction process and saving of cost on bulk buying.
- Projected total inventories for 2025-26 and 2026-27 are Rs. 2405.79 lakhs and Rs. 3326.07 lakhs, respectively of raw materials, semi-finished goods, and finished goods. The materials required for cinema construction include items like chairs, carpets, sound systems, signage, and F&B materials, all of which have longer ordering timelines. To mitigate potential delays, the company has opted for a centralized procurement system, with ordering and storage to ensure timely availability across all sites.
- As of March 31, 2025 the company had completed 66 screens. The overall plan focuses on efficient inventory management and timely cinema construction to meet projected sales and deadlines.
- Timely procurement of inventories in lot by making investment through working capital funds will save cost and time. The revenue from making of cinemas will also accrue fast. Generating the revenue of tickets and F & B will also accordingly accrue early.

Justification for the estimated significant increase in the Trade Receivables of the Company in FY26 and FY27.

The company has decided to adopt a new business model where, instead of waiting for customer payments, it will proactively procure materials and continue cinema construction by offering credit for work done at each site. Since the Letters of Intent (LOIs) are signed and customers or franchisees have already made partial investments, the risk of default is minimized as their future earnings depend on the timely completion of cinemas. The company is considering two options for managing receivables:

Option I: Grant credit to increase the number of screens from 66 to 126 by March 31, 2026. The company plans to offer a credit period of 60 to 90 days (estimated at 61 days), in line with market trends. This will be essential to attract customers from majorly tier 2, 3, and 4 cities. Since cinema construction takes a long time, credit is necessary to ensure timely completion. Many customers also rely on bank financing, which requires a payment delay of 60 to 90 days.

Option II: Wait for customers to provide funds at each stage of the cinema's construction, which would result in delays in starting projects.

In conclusion, the company is leaning towards providing credit to customers to accelerate cinema development and ensure timely completion which will ultimately grow the business.

Justification for the estimated significant increase in the Trade Payable of the Company in FY26 and FY27.

Until now, the company has been receiving credit from raw material suppliers, resulting in an average creditor period of 62 days and 61 days for the year 2023-24 and 2024-25 respectively. Moving forward, the company plans to reduce the creditor period to 8 days for the years 2025-26, and 2026-27. This adjustment will allow the company to purchase goods with less credit, enabling it to take advantage of discounts and procure materials in a timely manner, ensuring the completion of cinemas within a reasonable timeframe.

Creditors are one of the key sources of working capital for the company, although there are several challenges associated with this approach, as experienced over the past three to four years. When customers or franchisees delay payments, the company often relies on supplier credit. However, obtaining credit from suppliers typically leads to an increase in the cost of purchases. While purchasing in bulk with discounts can enhance profitability, it is generally difficult to secure extended credit periods from suppliers. Furthermore, new customers in the market usually do not receive credit or discounts from suppliers. The company sources materials from a wide range of vendors for its cinema construction projects, including well-known suppliers of air-conditioning and sound systems, many of whom do not offer credit or require partial advance payments and full payment upon delivery.

Additionally, items such as chairs, carpets, acoustic ceilings, curtains, and projection screen fabrics often require full advance payments, as these are custom-made with Connplex branding and are not readily available. The customization involves significant labour, for which supplier credit is typically not extended.

Given the company's expansion plans to add 60 new screens in FY 2025–26 and 75 screens in FY 2026–27, relying on extended supplier credit would significantly increase costs. To address this, the company intends to utilize IPO proceeds to strengthen its working capital, enabling faster construction of cinemas. By purchasing materials in bulk at discounted rates and storing them in hired warehouses, the company aims to reduce costs effectively. As a result, it anticipates maintaining an average credit period of around eight days in the coming years.

The reasons for such change in the % of NWC to Revenue for past years are as under:

Please find below the year wise Net working Capital to turnover ratio:

Year	2022-23	2023-24	2024-25
Revenue (in Lakhs)	2536.91	6029.74	9560.96
Net Working Capital (in Lakhs)	861.74	822.38	2296.97
NWC % to Revenue	33.97%	13.64%	24.02%

Justification of working capital requirement for previous years:

For 2023-24: - The decline in the Net Working Capital (NWC) percentage is primarily driven by a sharp increase in revenue. The company's earnings surged from Rs. 2,536.91 lakhs in FY 2022-23 to Rs. 6,029.74 lakhs in FY 2023-24, more than doubling within a year. Additionally, the number of screens also doubled, expanding from 24 in FY 2022-23 to 49 in FY 2023-24. With this substantial revenue growth, the NWC-to-revenue ratio fell to 13.64% in FY 2023-24, reflecting the company's improved cash flow management and higher income generation. As the cinema business expands, factors such as enhanced operational efficiency, better cash flow management, and favourable credit terms with suppliers contribute to reduced dependence on working capital.

FY 2024-25: - The revenue for the year 2024-25 has increased by 58.56% on account of addition in theatres as well as increase in regular incomes. On account of this, the net working capital has increased from Rs. 822.38 lakhs as on 31.3.2024 to Rs. 2296.97 lakhs. This shows that the company's net investment in Current Assets has also been increasing due to increase in the volume of business as evidenced from the increase in the revenue during the financial year 2024-25. The increase in level of inventories and receivables has contributed to the increase in the net working capital of the company. Additionally, the company planned to make early payments to creditors to avail of supplier discounts, which has contributed to cost savings and improved overall profitability. While this approach has led to a temporary rise in NWC, and has resulted in strengthening long-term financial efficiency by reducing procurement costs and optimizing cash flow management.

Justification for increase in Working for future years:

FY 2025-26: - During this period, the company plans to expand significantly by adding 60 new screens, necessitating a corresponding increase in inventory to support operations. Additionally, to facilitate smoother relationships with franchisees, the company intends to offer extended payment terms to debtors, enhancing business convenience and fostering stronger collaborations. To support this expansion, the company has already signed a Letter of Intent (LOI) for these new screens. This strategic shift, coupled with the growing number of operational screens, is expected to drive substantial revenue and profit growth, reinforcing the company's market position and long-term financial stability.

FY 2026-27: - This year the company intends to add 75 new screens during the year, which will require a significant increase in inventory stocking to ensure smooth operations. Expanding the number of screens will not only boost revenue but also necessitate additional working capital to support the procurement of equipment, concessions, and other operational essentials. Additionally, the company plans to extend debtor payment terms, allowing franchisees more flexibility in managing their finances. While this move may temporarily increase the NWC requirement, it is aimed at strengthening long-term relationships, attracting more franchisees, and ensuring a steady stream of revenue.

4. Funding General Corporate Purposes

Our management, in accordance with the policies of our Board, will have flexibility in utilizing the proceeds earmarked for general corporate purposes. GLOBAL OUTLOOK

Global growth is expected to remain stable yet underwhelming. At 3.2 percent in 2024 and 2025, the growth projection is virtually unchanged from those in both the July 2024 World Economic Outlook Update and the April 2024 World Economic Outlook. However, notable revisions have taken place beneath the surface, with upgrades to the forecast for the United States offsetting downgrades to those for other advanced economies—in particular, the largest European countries. Likewise, in emerging market and developing economies, disruptions to production and shipping of commodities—especially oil—conflicts, civil unrest, and extreme weather events have led to downward revisions to the outlook for the Middle East and Central Asia and that for sub-Saharan Africa. These have been compensated for by upgrades to the forecast for emerging Asia, where surging demand for semiconductors and electronics, driven by significant investments in artificial intelligence, has bolstered growth. The latest forecast for global growth five years from now—at 3.1 percent—remains mediocre compared with the pre-pandemic average. Persistent structural headwinds—such as population aging and weak productivity—are holding back potential growth in many economies. Cyclical imbalances have eased since the beginning of the year, leading to a better alignment of economic activity with potential output in major economies. This adjustment is bringing inflation rates across countries closer together and on balance has contributed to lower global inflation. Global headline inflation is expected to fall from an annual average of 6.7 percent in 2023 to 5.8 percent in 2024 and 4.3 percent in 2025, with advanced economies returning to their inflation targets sooner than emerging market and developing economies. As global disinflation continues to progress, broadly in line with the baseline, bumps on the road to price stability are still possible. Goods prices have stabilized, but services price inflation remains elevated in many regions, pointing to the importance of understanding sectoral dynamics and of calibrating monetary policy.

Risks to the global outlook are tilted to the downside amid elevated policy uncertainty. Sudden eruptions in financial market volatility—as experienced in early August—could tighten financial conditions and weigh on investment and growth, especially in developing economies in which large near-term external financing needs may trigger capital outflows and debt distress. Further disruptions to the disinflation process, potentially triggered by new spikes in commodity prices amid persistent geopolitical tensions, could prevent central banks from easing monetary policy, which would pose significant challenges to fiscal policy and financial stability. Deeper- or longer-than-expected contraction in China’s property sector, especially if it leads to financial instability, could weaken consumer sentiment and generate negative global spillovers given China’s large footprint in global trade. An intensification of protectionist policies would exacerbate trade tensions, reduce market efficiency, and further disrupt supply chains. Rising social tensions could prompt social unrest, hurting consumer and investor confidence and potentially delaying the passage and implementation of necessary structural reforms. As cyclical imbalances in the global economy wane, near-term policy priorities should be carefully calibrated to ensure a smooth landing. In many countries, shifting gears on fiscal policy is urgently needed to ensure that public debt is on a sustainable path and to rebuild fiscal buffers; the pace of adjustment should be tailored to country-specific circumstances. Structural reforms are necessary to lift medium-term growth prospects, but support for the most vulnerable should be maintained. Multilateral cooperation is needed more than ever to accelerate the green transition and to support debt-restructuring efforts. Mitigating the risks of geoeconomic fragmentation and strengthening rules-based multilateral frameworks are essential to ensure that all economies can reap the benefits of future growth.

The past four years have put the resilience of the global economy to the test. A once-in-a-century pandemic, eruption of geopolitical conflicts, and extreme weather events have disrupted supply chains, caused energy and food crises, and prompted governments to take unprecedented actions to protect lives and livelihoods. The global economy has demonstrated resilience overall, but this masks uneven performance across regions and lingering fragilities. The negative supply shocks to the global economy since 2020 have had lasting effects on output and inflation, with varied impacts across individual countries and country groups. The sharpest contrasts are between advanced and developing economies. Whereas the former have caught up with activity and inflation projected before the pandemic, the latter are showing more permanent scars (see the October 2023 World Economic Outlook), with large output short falls and persistent inflation (Figure 1.1). They also remain more vulnerable to the types of commodity price surges that followed Russia’s invasion of Ukraine (Figure 1.2; October 2023 and April 2024 World Economic Outlook). Since the beginning of the year, signs have emerged that cyclical imbalances are being gradually resorbed, with economic activity

in major economies better aligned with their potential. These developments may have helped bring inflation rates across countries closer together, but the momentum in global disinflation appears to have slowed in the first half of the year (July 2024 World Economic Outlook Update). Goods prices have stabilized, and some are declining, but services price inflation remains high in many countries, partly reflecting rapid wage increases, as pay is still catching up with the inflation surge of 2021–22. This has forced some central banks to delay their policy-easing plans, putting public finances under more pressure, especially in countries where debt-servicing costs are already high and refinancing needs significant.

Now, as before, the global outlook will be shaped largely by fiscal and monetary choices, their international spillovers, the intensity of geoeconomic fragmentation forces, and the ability of governments to implement long-overdue structural reforms. With inflation approaching central bank targets and governments striving to manage debt dynamics, the policy mix is expected to shift from monetary to fiscal tightening as monetary policy rates are brought down, closer to their natural levels. How fast such rotations occur in individual countries will have consequences for capital flows and exchange rates. The level of uncertainty surrounding the outlook is high. Newly elected governments (about half of the world population has gone or will go to the polls in 2024) could introduce significant shifts in trade and fiscal policy. Moreover, the return of financial market volatility over the summer has stirred old fears about hidden vulnerabilities. This has heightened anxiety over the appropriate monetary policy stance—especially in countries where inflation is persistent, and signs of slowdown are emerging. Further intensification of geopolitical rifts could weigh on trade, investment, and the free flow of ideas. This could affect long-term growth, threaten the resilience of supply chains, and create difficult trade-offs for central banks. On the upside, governments could succeed in building the necessary consensus around overdue and difficult-to-pass structural reforms, which would boost growth and enhance fiscal sustainability and financial stability.

Baseline Outlook: Stable Growth amid Continuing Disinflation

Global growth is expected to remain broadly flat—decelerating from 3.3 percent in 2023 to 3.1 percent by 2029—and is largely unchanged from World Economic Outlook forecasts in April 2024 and October 2023 (Tables 1.1 and 1.2; Figure 1.12). Under the surface, however, offsetting revisions have brought major economies closer together as cyclical forces wane and GDP moves closer to potential. As inflation recedes, policy rates are expected to follow suit, preventing undue increases in real interest rates. Interest rates are expected to gradually descend toward their natural levels: the levels of risk-free real interest rates compatible with output at potential and inflation at target. Although global revisions to the forecast since April have been minimal, offsetting shifts at the country group level reflect recent shocks and policies, most notably in emerging market and developing economies. Cuts in production and shipping of commodities (oil in particular), conflicts, and civil unrest have led to downward revisions to the regional outlooks for the Middle East and Central Asia and for sub-Saharan Africa. At the same time, surging demand for semi-conductors and electronics, driven by significant investment in artificial intelligence, has fuelled stronger growth in emerging Asia.

INDIAN ECONOMY OVERVIEW

Introduction

Strong economic growth in the first quarter of FY23 helped India overcome the UK to become the fifth-largest economy after it recovered from the COVID-19 pandemic shock. Nominal GDP or GDP at Current Prices in the year 2023-24 is estimated at Rs. 293.90 lakh crores (US\$ 3.52 trillion), against the First Revised Estimates (FRE) of GDP for the year 2022-23 of Rs. 269.50 lakh crores (US\$ 3.23 trillion). The growth in nominal GDP during 2023-24 is estimated at 9.1% as compared to 14.2% in 2022-23. Strong domestic demand for consumption and investment, along with Government's continued emphasis on capital expenditure are seen as among the key driver of the GDP in the first half of FY24. During the period January-March 2024, India's exports stood at US\$ 119.10 billion, with Engineering Goods (25.01%), Petroleum Products (17.88%) and Organic and Inorganic Chemicals (7.65%) being the top three exported commodity. Rising employment and increasing private consumption, supported by rising consumer sentiment, will support GDP growth in the coming months.

India has emerged as the fastest growing major economy in the world and is expected to be one of the top three economic powers in the world over the next 10-15 years, backed by its robust democracy and strong partnerships.

India's appeal as a destination for investments has grown stronger and more sustainable as a result of the current period of global unpredictability and volatility, and the record amounts of money raised by India-focused funds in 2022 are evidence of investor faith in the "Invest in India" narrative.

Market size

- Real GDP or GDP at Constant (2011-12) Prices in the year 2023-24 is estimated at Rs. 172.90 lakh crores (US\$ 2.07 trillion), against the First Revised Estimates (FRE) of GDP for the year 2022-23 of Rs. 160.71 lakh crores (US\$ 1.92 trillion).
- The growth in real GDP during 2023-24 is estimated at 7.6% as compared to 7.0% in 2022-23.,
- India is the third-largest unicorn base in the world with more than 113 unicorns valued at US\$ 350 billion, as per the Economic Survey.
- The government is also focusing on renewable sources to generate energy and is planning to achieve 40% of its energy from non-fossil sources by 2030.
- India is committed to achieving the country's ambition of Net Zero Emissions by 2070 through a five-pronged strategy, 'Panchamrit'.
- India needs to increase its rate of employment growth and create 90 million non-farm jobs between 2023 to 2030s, for productivity and economic growth according to McKinsey Global Institute. The net employment rate needs to grow by 1.5% per year from 2023 to 2030 to achieve 8-8.5% GDP growth between 2023 and 2030.
- According to Mr. Piyush Goyal, Minister of Commerce and Industry, Consumer Affairs, Food and Public Distribution and Textiles, Indian exports are expected to reach US\$ 1 trillion by 2030.

Recent Developments

India is primarily a domestic demand-driven economy, with consumption and investments contributing to 70% of the economic activity. With an improvement in the economic scenario and the Indian economy recovering from the Covid-19 pandemic shock, several investments and developments have been made across various sectors of the economy. In view of this, there have been some developments that have taken place in the recent past. Some of them are mentioned below.

Road Ahead

In the second quarter of FY 24, the growth momentum of the first quarter was sustained, and high-frequency indicators (HFIs) performed well in July and August of 2023. India's comparatively strong position in the external sector reflects the country's generally positive outlook for economic growth and rising employment rates. India ranked fifth in foreign direct investment inflows among the developed and developing nations listed for the first quarter of 2022.

India's economic story during the first half of the current financial year highlighted the unwavering support the government gave to its capital expenditure, which, in 2023-24, stood 37.4% higher than the same period last year. In the budget of 2023-24, capital expenditure took lead by steeply increasing the capital expenditure outlay by 37.4 % in BE 2023-24 to Rs.10 lakh crore (US\$ 120.12 billion) over Rs. 7.28 lakh crore (US\$ 87.45 billion) in RE 2022-23. The ratio of revenue expenditure to capital outlay increased by 1.2% in the current year, signalling a clear change in favour of higher-quality spending. Stronger revenue generation because of improved tax compliance, increased profitability of the company, and increasing economic activity also contributed to rising capital spending levels.

India's resilient growth despite the global pandemic, India's exports climbed at the second-highest rate with a year-over-year (YoY) growth of 8.39% in merchandise exports and a 29.82% growth in service exports till April 2023. With a reduction in port congestion, supply networks are being restored. The CPI-C inflation reduction from June 2022 already reflects the impact. In September 2023 (Provisional), CPI-C inflation was 5.02%, down from 7.01% in June 2022. With a proactive set of administrative actions by the government, flexible monetary policy, and a softening of global commodity prices and supply-chain bottlenecks, inflationary pressures in India look to be on the decline overall.

On February 25, 2021, the government outlined the Information Technology (Intermediary Guidelines and Digital Media Ethics Code) Rules 2021 to establish a progressive institutional mechanism and a three-tier grievance redressal framework for news publishers and OTT platforms on the digital media.

In February 2021, the digital entertainment committee of the Internet and Mobile Association of India (IAMAI) finalised a code of conduct to form the basis for self-regulation code for OTT content. The code has been endorsed by 17 OTT platforms including Netflix, Amazon Prime Video, Disney+ Hotstar, ZEE5 and Voot.

In February 2021, Prasar Bharati (India) and PSM (the official State Media of Maldives) inked an agreement to facilitate collaboration and capacity building in the field of broadcasting.

Digital audio-visual content including films and web shows on over-the-top (OTT) streaming platforms, as well as news and current affairs on online platforms, have been brought under the Ministry of Information and Broadcasting in November 2020.

ROAD AHEAD

The Indian M&E industry is on an impressive growth path. The industry is expected to grow at a much faster rate than the global average rate. This can be majorly credited to rising incomes, increasing internet penetration and a growing push toward digital adoption.

In the long run, growth in the M&E industry is expected in retail advertisement on the back of several players entering the food and beverages segment, E-commerce gaining more popularity in the country, and domestic companies testing out the waters. India's rural regions are expected to be the next regions for growth. India has also gotten on board with 5G and is already planning for 6G well ahead of the future. This push towards digital adoption especially in the rural regions will provide advertisers and publishers with an immense opportunity to capture untapped markets and help grow India's media and entertainment industry forward.

Filmed Entertainment

Executive Summary

These are good times for the filmed entertainment segment. Theatrical collections touched unprecedented highs in the past months, and the increasing affluence of audiences indicates that the growth trajectory will continue. The industry would undergo changes in the coming times and reinvention would be a core theme across different channels, content types and operational models.

The segment grew 15% to reach an all-time high of INR197 billion

	2020	2021	2022	2023
Domestic theatricals	25	39	105	120
Overseas theatricals	3	6	16	19
Broadcast rights	7	7	14	15
Digital/ OTT rights	35	40	33	35
In-cinema advertising	2	1	5	8
Total	72	93	172	197

INR billion (gross of taxes) | EY estimates

- 1,796 films released in theaters during 2023, 11% higher than in 2022
- Screen count increased 4%, but remained at just 9,742, which shows that the cinema experience remains a luxury for most Indians
- Admissions continued to decline from 944 million to just over 900 million, a fall of 5%; less than 100 million people visited a cinema hall in 2023
- Domestic theatricals grossed INR120 billion for the first time, led by a growth in ticket prices
- 339 Indian films released across 38 countries, up from 33 countries in the previous year
- Digital platforms rationalized their direct to digital premiums; consequently, the number of direct to digital films reduced significantly, and theatrical performance became an important element in determining the value of digital rights
- Broadcast rights remained soft as film channels struggled with ratings and monetization
- In-cinema advertising recovered 50%
- We expect the segment to grow at a CAGR of 7% to INR238 billion by 2026, led by increased affluence, more high-quality mass content, and innovations in pricing, infrastructure and distribution.

Monetization

Domestic theatricals

I. Film releases grew 11% over 2022

Comscore

- 1,796 films released in theaters in 2023 across languages and dubbed versions
- The highest number of films were released in Telugu (317), Tamil (271), Kannada (241), Malayalam and Hindi (218 each)
- Screen count increased 4% to reach 9,742 screens² led by the north-east, which added 10% new screens and then Hindi speaking markets, which added 6%

II. Box office revenues crossed the INR100 billion mark for the second consecutive year

- Gross box office revenues increased 14% to INR120 billion in 2023, an all-time high
- The growth was driven by Hindi cinema's revival at the box office
- Admissions continued to decline from 944 million to just over 900 million, a fall of 5%³
- Industry discussions indicate that less than 100 million people visit cinema halls in India, showing that it remains a luxury experience out of the reach of 94% of the population
- Compared to year 2022, Hollywood films' collections in India decreased by 23%
- A key trend noted in 2023 was that cinema-goers waited for movie reviews and only then took a call on whether to watch the film in a cinema, or wait for its OTT or television release. This made a very strong case for making films "worth it" by providing an incomparable theatrical experience, and getting the marketing right.

III. Thirty-six releases grossed INR 1 billion or more at the box office

- 36 films grossed INR1 billion or more in 2023 as compared to 22 such films in 2022
- Out of the top ten movies that crossed the INR1 billion mark, six were in Hindi and the remaining four were in South Indian languages
- Other language films comprised 15 south Indian language films and one Punjabi language film
- As audiences gravitated toward larger cinematic experiences, mid and smaller films did not fare as well in cinemas as they had done in previous years

International theatricals continued to grow

- 339 films released across 38 countries, up from 33 countries in the previous year
- They generated a gross box office collection of INR19 billion, 19% more than 2022
- While significant progress has been made in growing overseas theatricals independently, further tapping into the Chinese market can be a crucial growth driver
-

Broadcast rights were impacted by lower monetization on film channels

- Film viewership remains a very important part of television; film channels generated 26% of total TV viewership in 2023, up from 25% in 2022
- However, monetizing films was a challenge in 2023 due to fragmentation of audiences which, according to several industry sources, led to lower ratings per new movie
- Several film channels experimented with simultaneous release of TV premieres on multiple movie and/ or GEC channels, by increasing marketing spends and increased interactivity
- The number of films shown on television also experienced a 4% decline in 2023 compared to 2022, led by international films (-9%) and Hindi language films (-6%)
- Consequently, broadcast rights grew just 9% in 2023

Digital rights rationalized their direct release premiums

- Over 400 films released on digital platforms in 2023, a growth of 30% over 2022
- The number of direct to digital releases almost halved from 105 in 2022 to just 57 in 2023 as platforms rationalized their direct to digital premiums
- While digital rights volumes increased a healthy 30%, the average spend per film came down as platforms focused on tent pole properties and lower cost properties, but reduced focus on mid-range content, resulting in a relatively muted 8%

increase in digital rights values over 2022

- The subscription model is expected to remain a key driver of growth for OTT platforms, propelling the expansion of this rapidly evolving market, and hence the demand for digital rights is expected to remain robust in the near future

In-cinema advertising recovered

- INR7.5 billion was generated from cinema advertising in 2023, a 50% rise attributed to successful movies and the scarcity of avenues to reach affluent audiences

Future outlook

We expect the sector to reach INR238 billion by 2026

	2023	2024E	2026E
Domestic theatricals	120	126	146
Overseas theatricals	19	20	23
Broadcast rights	15	15	16
Digital/ OTT rights	35	37	42
In-cinema advertising	7.5	8.5	10
Total	197	207	238

INR billion (gross of taxes) | EY estimates

- We expect the film segment to continue to grow, driven by theatrical revenues as Hindi movies go mass market in their storytelling, incorporate more VFX to enhance the movie-going experience and expand more aggressively into tier-II and III cities
- Broadcast rights will remain soft as pay TV homes continue to fall, but the gap will be made up through digital rights, as CTV homes are expected to grow significantly
- Growth in overseas revenues will depend on opening-up of culturally similar markets like China and the middle east
- As OTT platforms focus on profitability, they will continue to invest in tentpole properties, but fewer than before, and reduce investments in mid-range films

Reinventing films

Segment theatrical experiences

- We expect the theater-going audience size to increase as India's affluence increases: the estimates of per capita income increasing from US\$2,500 in 2022 to US\$3,000 by 2025 are an indicator supporting the above hypothesis
- Investments will increase in cinema infrastructure by way of affordable "janta cinemas" (a level between the multi-plex and the single screen) where middle and upper middle classes can feel comfortable in enjoying an evening out with their families
- As part of the smart city initiatives having intelligent transportation networks to save time and reduce parking struggles, there will be a surge in the construction of modern cinema complexes. This symbiotic relationship between smart city initiatives and a thriving cinematic landscape would grow footfalls
- Bridging the gap between travel and entertainment, exploring the potential of 24/7 cinemas at transport hubs like airports and railway/ bus stations, hospitals, business districts, and large housing colonies/ gated communities, can be explored

Focus on mass escapism

- If we take away anything from 2023, it is that mass escapism is what works across audience classes
- 80% of production houses we surveyed expected to see an increase in formula-based films with more 'masala' content, given the successes of 2023. The focus on AVOD will also necessitate that the segment focusses more on mass content
- We expect that more mass content will be created to attract wider audiences and propel increased footfalls beyond the current 0.9 billion admissions, mainly in non-multi-plex screens

- The average number of VFX shots per large scale films has increased significantly, and we expect more VFX to become the norm in films that aim for theatrical releases

Develop Talent

- Our survey of production houses indicated that the biggest issue being faced was the shortage of quality writing and directing
- The film industry needs to develop the required talent through funding writers' rooms, crowdsourcing stories and sourcing directors from smaller towns and not just metros

Innovate around pricing

- Exploring innovative pricing strategies – especially in Tier II and III cities – such as introducing loyalty passes, group passes, or bundled offerings including food and beverages, and merchandise, will be undertaken as pilot initiatives to assess their effectiveness in driving footfalls and consequently, revenue growth

Create discrete films for the broadcast market

- Broadcast rights will remain muted as they have become a distant third window after theatrical and digital releases. Further, films viewership will be determined by content type, and will not grow until film content is created for the masses as against the classes. In effect, content that appeals to multiplex and OTT audiences will be different than content that appeals to single-screen and television audiences
- Hence, we expect that a separate set of films may be commissioned for Tier-III markets and television audiences, including FTA audiences, with separate themes and lower price points
- At the other end, tent pole films will continue to be produced but will be released on a wider swath of TV channels, with staggered windows and pricing options

Build D2C relationships

- The total TVOD opportunity on digital platforms is estimated by us at approaching US\$0.5 billion by 2024 end, a portion of which relates to films
- The acceptance of the “sachet model” by the middle classes across a range of different impulse purchases will result in the growth of pay-per-view and pay-per-download film experiences, across rural and urban markets

Rethink business Models

- The era of sub-scaled production houses has lasted several years, and the need to scale has never been stronger as content travels more and monetization opportunities expand
- Funding from institutional investors, foreign funds and strategic investors will continue to flow into film IP, particularly for products with global reach and appeal

	March 31, 2025	March 31, 2024	March 31, 2023
FOFO	63	49	24
FOCO	03	0	0
Total	66	49	24

3. *Strong Diversified Revenue Stream*

Our business model drive multiple streams of revenue, thereby not limited to the revenue of box office along but our reliance is also making of cinema, sale of / sharing of revenue of food and beverages sector, advertising, other income. This approach not only enhances our financial stability but also allows us to adapt to market fluctuations. 4. *Strategic Location in Emerging Markets*

Our strategic emphasis on emerging markets, major focus on Tier 2, 3, and 4 cities, positions us as a player in regions where larger competitors and major cinema chains have been reluctant to establish a presence. We have identified high-potential markets with limited competition, where our cost-effective cinema model has successfully captured substantial market share. By entering areas with high demand and low existing supply, we are able to build a strong presence in underserved and relatively rural communities. This expansion strategy not only fills a gap in entertainment offerings for these regions but also creates new growth opportunities, allowing us to maintain our edge while catering to a growing and enthusiastic audience base.

The bifurcation of the number of cinemas/screens operated in cities in the past three fiscal years is as follows:

Particulars	Number of Screens (as on)		
	March 31, 2025	March 31, 2024	March 31, 2023
Tier 1 (Ahmedabad)	21	21	9
Tier 2 (Baroda, Patna, Ahmednagar, Kodad, Nawada, Rajkot, Gandhinagar, Bhagalpur, Umerkote)	27	20	9
Tier 3 (Siddhpur, Dhrangadhra, Baddi, Bilaspur, Bettiah, Balotra, Mehsana, Siwan)	16	6	4
Tier 4 (Katihar, Bihar)	02	2	2
Total	66	49	24

Rationale for Developing Cinemas in Tier 4 Cities: It has been a strategic plan to develop cinemas in Tier 4 cities, as these areas typically have smaller populations and limited infrastructure. Residents of these cities often need to travel to nearby larger cities to watch movies, which increases their entertainment expenses. The company has consistently focused on identifying and developing cinemas in such emerging cities. While these locations may currently fall under Tier 4, they have the potential to evolve into Tier 3 cities in the future.

5. Variety of Cinema Formats

We have developed a range of cinema formats to ensure we meet the diverse needs of our audience. Our Express Model is ideal for compact spaces in densely populated areas, providing a quick and efficient cinema experience without compromising on standards. The Signature Model offers a more elevated experience, with premium design elements and personalized services that cater to customers seeking a high-end, immersive environment. Our flagship Luxuriance Model delivers the ultimate in opulence, combining cutting-edge technology with luxurious interiors to create an unparalleled cinema experience. 	March 31, 2025	March 31, 2024	March 31, 2023
Express Model	22	25	18
Signature Model	28	18	6
Luxuriance Model	16	6	0

OUR STRATEGIES

1. Expand Our Screen Network and Offer a Wide Range of Content

Our strategy focuses on expanding the number of screens along with providing entertainment across existing and new markets, both in urban including Tier 1 and Tier 2, 3, and 4 cities. By doing so, we aim to meet the increasing demand for cinema experiences in areas that are either underserved or entirely new to premium cinema offerings. Expansion not only increases market penetration but also allows us to diversify the content we offer. Alongside blockbuster films, we will introduce a wide range of content, including regional films, foreign films, documentaries, independent films, and live events such as concerts or sports screenings. This broad content offering will cater to various demographics, boosting footfall and creating consistent revenue streams throughout the year, especially during off-peak movie release periods.

The current number of operational screens in various states is as follows:

Particulars	For the period/year ended		
	March 31, 2025	March 31, 2024	March 31, 2023
Gujarat	35	31	11
Bihar	19	10	6
Maharashtra	3	3	3
Chhattisgarh	4	0	0
Telangana	2	2	2
Himachal Pradesh	0	0	2
Odisha	2	2	0

2. Focus on Premium and Experience Offerings

Our commitment to providing a premium experience will remain a cornerstone of our Company. This strategy involves continuous investment in enhancing the customer experience through innovative technology, superior comfort, and personalized service. We will expand our cinema formats, offering more recliner seating, gourmet food and beverage options, and immersive sound systems like Dolby Atmos. By focusing on high-end services and exclusivity, we can attract a discerning audience willing to pay a premium for an exceptional movie-going experience, thereby maximizing profitability per customer.

3. Focus on Improving Revenue from Ancillary Revenue Streams

Our strategy includes enhancing revenue from non-ticket sources to ensure diversified and stable income streams. These ancillary revenue streams include food and beverage sales, in-cinema advertising, and private events. By offering regionally tailored, F&B options and dynamic pricing, we can maximize sales during peak times. Additionally, we will leverage our strong brand presence to collaborate with advertisers, offering on-screen and off-screen promotional opportunities for businesses. Another focus will be on renting out our cinemas for corporate events, private screenings, and special occasions. This will allow us to capitalize on underutilized screening times, generating revenue even during non-peak hours. Expanding partnerships with local and international brands for product placements and in-cinema activations will further strengthen this revenue segment.

Our current revenue streams are as follows:

While expanding is crucial, we will not lose sight of maximizing revenue from our current cinemas. We will implement revenue-boosting strategies such as dynamic ticket pricing based on demand, optimizing F&B offerings, and introducing premium and comfortable seating options in existing locations. Additionally, upgrading technology in older cinemas will help maintain a edge ensuring repeat engagement of audiences. Continued customer engagement through loyalty programs and personalized marketing campaigns will help drive repeat visits. We will also explore opportunities to host alternative events, such as live sports screenings, gaming events, and private functions, to maximize the use of cinema space outside standard movie schedules. By continually refining the experience at our existing locations, we ensure that each cinema contributes to overall profitability.

5. *Rationalize Near-Term Costs, Enhance Liquidity, and Optimize Cash Flows*

To maintain a strong financial position, our strategy will focus on optimizing costs and ensuring healthy cash flow management. We will review operational efficiencies across our network to identify areas where costs can be reduced without compromising the customer's expectations. This includes renegotiating supplier contracts, reducing energy consumption through sustainable technologies, and automating non-critical processes. We will also implement stricter cost controls for non-essential expenditures, ensuring that liquidity is preserved for growth initiatives. In parallel, we will look to enhance liquidity by improving cash collection cycles, offering pre-booking incentives, and securing favorable financing terms for new projects. By optimizing cash flows, we ensure that the business remains resilient in the face of market fluctuations and is well-positioned to invest in future opportunities.

Our Geographical presence:

The above operational cinema model is running with two franchisee mechanism:

A. Franchise-Owned, Franchise-Operated (FOFO) Model

Under the Franchise-Owned, Franchise-Operated (FOFO) model, we provide franchisees the opportunity to own and operate a cinema while benefiting from our well-established brand's goodwill, operational efficiency, and comprehensive support. This model is structured to empower franchisees to take charge of their cinema's day-to-day operations while adhering to the high standards and guidelines we have established for consistency and quality. By owning operations, franchisees have significant autonomy in running their cinemas, enabling them to directly impact customer satisfaction and operational outcomes. In this model, franchisees handle staffing, on-ground marketing, and customer engagement with our guidance to ensure the brand's integrity is consistently maintained. This decentralized approach allows franchisees to leverage their local market knowledge, making real-time decisions that are tailored to regional preferences and audience behaviors.

Our company charges an initial Franchisee Fee of Rs. 5,00,000 plus GST per screen. This fee is fixed and represents a one-time, non-refundable payment that grants franchisees the right to operate a Connplex cinema under our established brand. In addition to the initial franchise fee, the overall franchisee fees also include advisory fees and management fees, which are designed to support the franchisee throughout the setup, operational, and ongoing management phases of the cinema.

Additionally, the company generates revenue through a Revenue Sharing Model, which covers the variable fees associated with the franchise operations. These include a share of the convenience fees collected by our collection partners and a percentage of the revenue generated from the sale of food and beverages at the cinemas. This flexible revenue-sharing structure is designed to align

the interests of both Connplex and its franchisees, ensuring that both parties benefit as the business grows and performs well. In the FOFO (Franchisee Owned, Franchisee Operated) model, the company enters into a franchise agreement where the royalty percentage is determined at the time of signing the agreement. This percentage may vary over time based on written or verbal agreements between the franchisor and the franchisee. Generally, there is no minimum guaranteed royalty, nor is there a requirement for upfront fees related to royalty payments. The company charges royalty based on the ongoing business generated, such as the sale of movie tickets, food and beverages, and other related revenue streams.

To support franchisees effectively, we provide extensive training and resources, ensuring they have all the tools and information needed to run their locations successfully. Each franchisee receives dedicated guidance on cinema setup, staff training, customer service protocols, and inventory management. Our teams assist with complete cinema setup, including site selection, design, and construction processes, to ensure the cinema meets our operational standards. Under the FOFO model, collection is consolidated into our main bank account, where all collections from box office sales, food and beverage, and other ancillary services is deposited. From this central account, we manage weekly payouts to the franchisee, after deducting expenses such as company's brand royalty, F&B packaging and raw materials cost, distributor's share and applicable taxes. Further, the franchisee is liable to pay the applicable show tax to the respective concerned departments. This centralized approach ensures financial transparency and operational efficiency, while providing franchisees with a consistent and streamlined income model. The cinema license and the FASSAI License shall be obtained in the name of franchisee at its own expenses. Once established, we continuously support franchisees with marketing resources, promotional strategies, and technical assistance. We also implement a feedback system, allowing franchisees to communicate any needs or concerns, ensuring that operations are not only consistent but also responsive to local market trends. By providing this level of support, we empower franchisees to create memorable experiences for audiences while achieving their business objectives. Ultimately, the FOFO model allows for both our brand and the franchisees to grow collaboratively, aligning profitability with the ability to deliver a premium movie-going experience across diverse regions.

We have implemented a feedback system that is designed to ensure open and transparent communication between our company and franchisees. This system serves as an essential tool for franchisees to communicate their needs, concerns, and any operational challenges they may encounter, fostering a continuous dialogue. Through this system, franchisees can share their feedback regarding customer preferences, service quality, or any local market trends, allowing us to remain agile and responsive to the ever-evolving entertainment landscape.

In addition to the feedback system, we conduct regular reviews and audits of service standards across all locations. These audits assess a wide range of operational aspects, such as service quality, customer satisfaction, staff performance, and adherence to brand guidelines. Our internal teams perform these audits both remotely and on-site, ensuring consistency and the alignment of operations with the company's high standards.

The feedback collected from franchisees, combined with insights from the audits, allows us to identify opportunities for improvement and quickly implement necessary changes. This proactive approach helps maintain a high level of service excellence and ensures that we remain present in the marketplace.

B. Franchise-Owned, Company-Operated (FOCO) Model

In the Franchise-Owned, Company-Operated (FOCO) model, franchisees invest in the ownership of cinema locations, while we take full responsibility for operating these cinemas. This model is ideal for investors looking to benefit from the cinema industry without the complexities of day-to-day management. In this structure, franchisees manage the cinema premises, while our team manages all operational aspects, including staffing, scheduling, marketing, and customer experience. The FOCO model provides a streamlined approach for franchisees who may lack direct experience in cinema operations but seek to leverage our expertise and established goodwill and brand reputation for consistent returns. By entrusting us with operational management, franchisees are assured that each location adheres strictly to our standards, from service quality to compliance, creating a unified brand experience across all locations.

Our operational oversight includes comprehensive management of customer service, inventory, and financial controls, ensuring the cinema operates efficiently and profitably. Under the FOCO model, revenue is centralized through our main bank account, where all income from box office, food and beverage, and ancillary services is deposited. From there, we handle weekly payouts to the franchisee after deducting expenses such as company's brand royalty, F&B packaging and raw materials cost, distributor's share and applicable taxes. This centralized revenue system enables us to maintain financial transparency and operational efficiency while allowing franchisees to benefit from a predictable and streamlined income model. Franchisees also benefit from our strong marketing capabilities, gaining access to national campaigns and region-specific promotions that drive customer traffic and brand loyalty. Overall, the FOCO model combines the franchisee's investment strength with our operational expertise, offering a seamless investment opportunity that prioritizes quality, consistency, and sustainable growth in every market where we operate.

Convenience fees represent an additional revenue stream in our business, applied when customers use our online platforms or mobile apps or third party platforms like BookMyShow for booking movie tickets. This fee is charged for the ease and flexibility provided to customers by allowing them to book tickets in advance from the comfort of their homes or while on the go, without the need to visit the cinema in person.

Key Elements in Convenience fees include:

- a) **Online Booking and Ticketing:** With the growing trend of online ticket booking, convenience fees are applied to all transactions completed via our website or mobile app and other third-party online platforms. This small fee compensates for the operational costs associated with providing a seamless online experience, including payment gateway services, server maintenance, and customer support. Customers are willing to pay this fee in exchange for the ability to reserve tickets ahead of time, select preferred seating, and avoid long lines at the box office.

Convenience fees contribute a significant portion to our non-box office revenue. While individually modest, the volume of transactions across our online and app-based platforms ensures that these fees add up to a substantial revenue stream. This additional income helps to cover the costs associated with maintaining our digital infrastructure and enhances overall profitability without directly impacting ticket or F&B pricing. While convenience fees are an additional cost, we prioritize transparency in how these fees are communicated to customers. By clearly outlining the purpose and benefits of the convenience fee—such as ease of booking, priority seating, and the elimination of wait times—we ensure that customers view it as a value-added service rather than an unwarranted charge. Furthermore, offering discounts or waivers on convenience fees for loyalty program members or during promotional periods helps build customer satisfaction and loyalty. Our convenience fee system is fully automated through our digital platforms, ensuring a seamless transaction process for customers. The fee is integrated into the final purchase total, and customers are made aware of it before completing their transaction. This automation allows for efficient and transparent processing and reduces the likelihood of errors, ensuring that both the customer experience and our revenue collection processes remain smooth and efficient.

In conclusion, convenience fees play a vital role in our business, providing an additional and steady revenue stream while offering customers the flexibility and ease of booking their tickets and services online. By delivering a high level of convenience and transparency, we ensure that customers are satisfied with the overall experience, making this an integral part of our operational and financial strategy.

Impairment of tangible and intangible assets:

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. Deferred income taxes reflect the impact of timing differences between taxable income and accounting income originating during the current year and reversal of timing differences for the earlier year. Deferred tax is measured using the tax rates and the tax laws enacted or substantively enacted at the reporting date.

Deferred tax liabilities are recognized for all taxable timing differences. Deferred tax assets are recognized for deductible timing differences only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. In situation where the company has unabsorbed depreciation on carry forward tax losses all deferred tax assets are recognized only if there is virtual certainty supported in convincing evidence that they can be realized against future taxable profits.

Fiscal 2025 compared with Fiscal 2024

Revenue from Operations

Revenue from operations increased significantly by 58.56% from ₹6,029.74 lakhs in Fiscal 2024 to ₹9,560.96 lakhs in Fiscal 2025. This growth was primarily attributable to higher income from setting up cinema operations (including franchisee fees), which increased from ₹2,719.05 lakhs to ₹4,895.89 lakhs, alongside notable increases in ticket sales and advertisement revenue, indicating expanded operations and enhanced monetization across screens.

Justification for increase in Revenue of the Company in FY25 as compared to FY24.

The revenue growth from ₹6,029.74 lakhs in FY 2023-24 to ₹9,560.96 lakhs in FY 2024-25 were primarily driven by the full-year operational performance of existing screens, including earnings from ticket sales and food & beverage (F&B) sales, along with revenue generated from the development of new cinemas.

During this year, the company added a total of 17 new cinemas, further strengthening its market presence. A major contributor to this growth of revenue was the Rs. 4895.89 lakhs earned specifically from cinema development, which significantly enhanced overall revenue.

Other Income

Other income rose by 118.98% to ₹117.22 lakhs in Fiscal 2025 from ₹53.53 lakhs in Fiscal 2024. The surge was mainly due to a profit of ₹58.33 lakhs on sale of fixed assets and higher short-term capital gains from overnight fund collections.

Purchases of Stock-in-Trade

Purchases increased by 15.91%, from ₹3,156.20 lakhs in Fiscal 2024 to ₹3,658.33 lakhs in Fiscal 2025. This was driven by increased distributor charges and project volume, reflecting higher film and content acquisition aligned with expansion.

Changes in Inventories

Inventory change reported a higher negative adjustment of ₹(298.81) lakhs in Fiscal 2025 versus ₹(236.14) lakhs in Fiscal 2024, owing to increased year-end work-in-progress inventory levels, suggesting a buildup of in-process installations and expansion-linked stock holding.

Professional Charges & Direct Expenses

This cost head increased by 38.47% to ₹2,089.74 lakhs from ₹1,509.15 lakhs, primarily due to higher franchisee share payouts and increased right-to-use server expenses, reflecting scaling of operations and digital platform costs.

Employee Benefit Expenses

Employee cost rose by 47.96%, from ₹354.54 lakhs to ₹524.59 lakhs, attributed to increased workforce engagement and salary increments in line with operational growth.

Finance Costs

Finance costs almost doubled to ₹11.14 lakhs from ₹5.65 lakhs, driven by higher interest on MSME creditors and other financial charges associated with increased business volume.

Depreciation and Amortization

Depreciation expense increased by 34.62% to ₹156.00 lakhs from ₹115.88 lakhs, largely due to capitalization of assets linked to new screens and technological upgrades.

Other Expenses

Other expenses saw a 53.16% rise to ₹959.56 lakhs from ₹626.53 lakhs, led by increased rent of cinema properties, marketing expenses, legal and professional consultancy charges, and administrative costs associated with expanded operations.

Total Expenses

Overall, total expenses rose by 28.36% from ₹5,531.80 lakhs in Fiscal 2024 to ₹7,100.54 lakhs in Fiscal 2025, in line with operational scaling and cost structure expansion.

Profit Before Tax

Profit before tax increased substantially by 367.41%, from ₹551.47 lakhs in Fiscal 2024 to ₹2,577.64 lakhs in Fiscal 2025, driven by strong top-line growth and relatively slower expense growth.

Tax Expenses

Tax expenses increased from ₹142.72 lakhs to ₹676.65 lakhs, in line with higher profitability. Deferred tax adjustments remained negligible.

Profit After Tax

Net profit increased sharply from ₹408.75 lakhs in Fiscal 2024 to ₹1,900.99 lakhs in Fiscal 2025, reflecting operational leverage and improved business performance.

Fiscal 2024 compared with Fiscal 2023

Revenue from Operation

Revenue from operations had increased by 137.68 % from ₹ 2536.91 lakhs in Fiscal 2023 to ₹ 6029.74 lakhs in Fiscal 2024 was due to increase in sales of products and other operating revenue during the year.

Justification for increase in Revenue of the Company in FY24 as compared to FY23.

The revenue growth from Rs. 2,536.91 lakhs in FY 2022-23 to Rs. 6,029.74 lakhs in FY 2023-24 were primarily driven by the full-year operational performance of existing screens, including earnings from ticket sales and food & beverage (F&B) sales, along with revenue generated from the development of new cinemas.

During this year, the company added a total of 25 new screens, further strengthening its market presence. A major contributor to this growth of revenue was the Rs. 2,719.05 lakhs earned specifically from cinema development, which significantly enhanced overall revenue.

For FY 2021-22 was a transitional period for the company, during which revenue from cinema development did not fully translate into earnings from ticket bookings and food & beverage (F&B) sales, as most screens became operational only toward the end of the financial year. Consequently, the financial impact of these new screens was not fully realized in that year.

However, in FY 2022-23, the company experienced a notable increase in revenue due to the full-year operation of screens that had been launched late in FY 2021-22.

This allowed the company to maximize earnings from ticket sales and F&B, resulting in stronger financial performance. Additionally, despite the growth in revenue, operating expenses remained relatively stable during this period. This operational efficiency played a key role in improving profitability, leading to a higher PAT (Profit After Tax)-to-sales ratio.

Other Income

Other income had increased by 123.97 % from ₹ 23.90 lakhs in Fiscal 2023 to ₹ 53.53 lakhs in Fiscal 2024 majorly due to Increase in interest on FDR which increased from 16.21 lakhs in Fiscal 2023 to 38.27 Lakhs in Fiscal 2024, Increase in other incomes which increased from 6.01 lakhs in Fiscal 2023 to 11.43 Lakhs in Fiscal 2024, Increase in profit on sale of fixed assets which increased from nil in Fiscal 2023 to 2.92 Lakhs in Fiscal 2024,

Purchase of stock in trade

Purchase of stock in trade had increased by 230.85 % from ₹ 953.96 lakhs in Fiscal 2023 to ₹ 3156.20 lakhs in Fiscal 2024. This increase was primarily due to Increase in Purchases which increased from Rs. 381.98 Lakhs in Fiscal 2023 to Rs. 2106.10 Lakhs in Fiscal 2024 & increase in distributors charges which increased from Rs. 571.98 Lakhs in Fiscal 2023 to Rs.1134.95 Lakhs in Fiscal 2024.

Changes in Inventories of Finished Goods & WIP

Changes in Inventories of Finished Goods, WIP & Stock in Trade had increased by 23.98 % from ₹ (190.46) lakhs in Fiscal 2023 to ₹ (236.14) lakhs in Fiscal 2024. This decrease was primarily due to higher closing inventories during the year.

Changes in Inventories of Finished Goods and WIP to be read along with purchase of stock in trade and Revenue Earned. Overall total Cost of Changes in Inventories and Cost of purchase of stock in trade has increased to 48 % of total revenue earned during Fiscal Year 2024 as against 29.81 % in Fiscal Year 2023. Since the increase in cost was not passed on to the consumers.

Professional Charge & Direct Expense:

Professional Charge & Direct Expense had increased by 54.56% from ₹ 976.43 lakhs in Fiscal 2023 to ₹ 1509.15 lakhs in Fiscal 2024. Other expenses had increased by 87.86 % from ₹ 333.51 lakhs in Fiscal 2023 to ₹ 626.53 lakhs in Fiscal 2024. The Company's tax expenses had increased by 166 % from ₹ 53.69 lakhs in the Fiscal 2023 to ₹ 142.72 lakhs in Fiscal 2024. This was primarily due to increase in current tax expenses during the year.

Profit after Tax

After accounting for taxes at applicable rates, our Company reported a net profit of ₹ 408.75 lakhs in Fiscal 2024 as compared to a net profit of ₹ 164.84 lakhs in Fiscal 2023.

Reasons for the increase in Profit after Tax is mainly due to the increase in revenue from operations from ₹ 2536.91 lakhs in fiscal 2023 to ₹ 6029.74 lakhs in fiscal 2024.

Justification for increase in PAT of the Company in FY24 as compared to FY23.

The Profit After Tax (PAT) grew from Rs. 164.84 lakhs in FY 2022-23 to Rs. 408.75 lakhs in FY 2023-24, primarily driven by the expansion of operations while fixed costs remained relatively stable until additional expenses were required. Additionally, there is typically a time lag between the launch of new cinemas and the realization of full-year earnings from ticket sales and food & beverage (F&B) revenue.

Some screens may be set up in one financial year, generating revenue from cinema development, but they may not operate for the entire year, delaying the full revenue impact from ticket bookings and F&B sales until the following year. This staggered effect in revenue realization significantly contributed to the increase in PAT. Furthermore, during this period, 25 new screens were developed with higher profit margins, further enhancing overall profitability.

To every such separate meeting, the provisions of these Articles relating to general meetings shall mutatis mutandis apply</p>	
7. 8.	<p>i. A person subscribing to shares offered by the Company shall have the option either to receive certificates for such shares or hold the shares in a dematerialized state with a depository. Where a person opts to hold any share with the depository, the Company shall intimate such depository the details of allotment of the share to enable the depository to enter in its records the name of such person as the beneficial owner of that share. In such a situation, the rights and obligations of the parties concerned and matters connected therewith shall be governed by the provisions of the Depositories Act, 1996, as amended from time to time, or any statutory modification thereto or re-enactment thereof.</p> <p>ii. Subject to the provisions of the Act, the Board shall have the power to issue or re-issue preference shares of one or more classes which are liable to be redeemed, or converted to equity shares, on such terms and conditions and in such manner as determined by the Board in accordance with the Act.</p> <p>iii. The Company shall have a first and paramount lien:</p> <ol style="list-style-type: none"> on every share (not being a fully paid share), for all monies (whether presently payable or not) called, or payable at a fixed time, in respect of that share. on all shares (not being fully paid shares) standing registered in the name of a member, for all monies presently payable by him or his estate to the Company: Provided that the Board may at any time declare any share to be wholly or in part exempt from the provisions of this clause. Every fully paid share shall be free from all lien, and in the case of partly paid shares, the Issuer's lien shall be restricted to monies called or payable at a fixed time in respect 	

	<p>of such shares.</p> <p>ii. The Company's lien, if any, on a share shall extend to all dividends or interest, as the case may be, payable and bonuses declared from time to time in respect of such shares for any money owing to the Company.</p> <p>iii. Unless otherwise agreed by the Board, the registration of a transfer of shares shall operate as a waiver of the Company's lien</p>	
10.	<p>The Company may sell, in such manner as the Board thinks fit, any shares on which the Company has a lien:</p> <p>Provided that no sale shall be made—</p> <p>a. unless a sum in respect of which the lien exists is presently payable; or</p> <p>b. until the expiration of fourteen days after a notice in writing stating and demanding payment of such part of the amount in respect of which the lien exists as is presently payable, has been given to the registered holder for the time being of the share, or to the person entitled thereto by reason of his death, insolvency, or otherwise.</p>	
11.	<p>i. To give effect to any such sale, the Board may authorize some person to transfer the shares sold to the purchaser thereof.</p> <p>ii. The purchaser shall be registered as the holder of the shares comprised in any such transfer.</p> <p>iii. The receipt of the Company for the consideration (if any) given for the share on the sale thereof shall (subject, if necessary, to execution of an instrument of transfer or a transfer by the relevant system, as the case may be) constitute a good title to the share, and the purchaser shall be registered as the holder of the share.</p> <p>iv. The purchaser shall not be bound to see to the application of the purchase money, nor shall his title to the shares be affected by any irregularity or invalidity in the proceedings with reference to the sale.</p>	
12.	<p>i. The proceeds of the sale shall be received by the Company and applied in payment of such part of the amount in respect of which the lien exists as is presently payable.</p> <p>ii. The residue, if any, shall, subject to a like lien for sums not presently payable as existed upon the shares before the sale, be paid to the person entitled to the shares at the date of the sale.</p> <p>iii. In exercising its lien, the Company shall be entitled to treat the registered holder of any share as the absolute owner thereof and accordingly shall not (except as ordered by a court of competent jurisdiction or unless required by any statute) be bound to recognize any equitable or other claim to, or interest in, such share on the part of any other person, whether a creditor of the registered holder or otherwise. The Company's lien shall prevail notwithstanding that it has received notice of any such claim.</p> <p>iv. The provisions of these Articles relating to lien shall mutatis mutandis apply to any other securities, including debentures, of the Company.</p>	
	CALLS ON SHARES	
13.	<p>i. The Board may, from time to time, make calls upon the members in respect of any monies unpaid on their shares (whether on account of the nominal value of the shares or by way of premium) and not made payable at fixed times by the conditions of allotment thereof.</p> <p>ii. Each member shall, subject to receiving at least fourteen days' notice specifying the time or times and place of payment, pay to the Company, at the time or times and place so specified, the amount called on his shares.</p> <p>iii. The Board may, from time to time, at its discretion, extend the time fixed for the payment of any call in respect of one or more members as the Board may deem appropriate in any circumstances.</p> <p>iv. A call may be revoked or postponed at the discretion of the Board.</p>	
14.	A call shall be deemed to have been made at the time when the resolution of the Board	

	authorizing the call was passed and may be required to be paid by installments.	
15.	The joint holders of a share shall be jointly and severally liable to pay all calls in respect thereof.	
16.	<p>i. If a sum called in respect of a share is not paid before or on the day appointed for payment thereof (the "due date"), the person from whom the sum is due shall pay interest thereon from the due date to the time of actual payment at such rate as may be fixed by the Board.</p> <p>ii. The Board shall be at liberty to waive payment of any such interest wholly or in part.</p>	
17.	<p>i. Any sum which by the terms of issue of a share becomes payable on allotment or at any fixed date, whether on account of the nominal value of the share or by way of premium, shall, for the purposes of these Articles, be deemed to be a call duly made and payable on the date on which, by the terms of issue, such sum becomes payable.</p> <p>ii. In case of non-payment of such sum, all the relevant provisions of these Articles as to payment of interest and expenses, forfeiture, or otherwise, shall apply as if such sum had become payable by virtue of a call duly made and notified.</p>	
18.	<p>i. The Board –</p> <p>a. may, if it thinks fit, receive from any member willing to advance the same, all or any part of the monies uncalled and unpaid upon any shares held by him; and</p> <p>b. upon all or any of the monies so advanced, may (until the same would, but for such advance, become presently payable) pay interest at such rate as may be fixed by the Board. Nothing contained in this clause shall confer on the member (a) any right to participate in profits or dividends or (b) any voting rights in respect of the moneys so paid by him until the same would, but for such payment, become presently payable by him.</p> <p>ii. If by the conditions of allotment of any shares, the whole or part of the amount of issue price thereof shall be payable by installments, then every such installment shall, when due, be paid to the Company by the person who, for the time being and from time to time, is or shall be the registered holder of the share or the legal representative of a deceased registered holder.</p> <p>iii. All calls shall be made on a uniform basis on all shares falling under the same class. Explanation: Shares of the same nominal value on which different amounts have been paid-up shall not be deemed to fall under the same class.</p> <p>iv. Neither a judgment nor a decree in favor of the Company for calls or other moneys due in respect of any shares, nor any part payment or satisfaction thereof, nor the receipt by the Company of a portion of any money which shall from time to time be due from any member in respect of any shares either by way of principal or interest, nor any indulgence granted by the Company in respect of payment of any such money, shall preclude the forfeiture of such shares as herein provided.</p> <p>v. The provisions of these Articles relating to calls shall mutatis mutandis apply to any other securities, including debentures, of the Company.</p> <p>vi. Where capital is paid in advance of calls on the footing that the same shall carry interest, such capital shall not, whilst carrying interest, confer a right to participate in profits.</p>	
TRANSFER OF SHARES		
19.	<p>i. The securities or other interest of any member shall be freely transferable, provided that any contract or arrangement between two or more persons in respect of the transfer of securities shall be enforceable as a contract. A common form of transfer shall be used in the case of the transfer of shares. The instrument of transfer shall be in writing and shall be executed by or on behalf of both the transferor and transferee and shall be in conformity with all the provisions of Section 56 of the Act and any statutory modification thereof for the time being, and shall be duly complied with in respect of all transfers of shares and the registration thereof.</p> <p>ii.</p> <p>a. The instrument of transfer of any share in the Company shall be duly executed by or on</p>	

	<p>behalf of both the transferor and transferee.</p> <p>b. The transferor shall be deemed to remain a holder of the share until the name of the transferee is entered in the register of members in respect thereof.</p>	
20.	<p>The Board may, subject to the right of appeal conferred by the Act, decline to register –</p> <p>a. the transfer of a share, not being a fully paid share, to a person of whom they do not approve; or</p> <p>b. any transfer of shares on which the Company has a lien.</p>	
21.	<p>The Board may decline to recognize any instrument of transfer unless—</p> <p>a. the instrument of transfer is in the form as prescribed in the rules made under sub-section (1) of section 56 of the Act;</p> <p>b. the instrument of transfer is accompanied by the certificate of the shares to which it relates, and such other evidence as the Board may reasonably require to show the right of the transferor to make the transfer; and</p> <p>c. the instrument of transfer is in respect of only one class of shares.</p>	
22.	<p>i. Where shares are converted into stock:</p> <p>a. The holders of stock may transfer the same or any part thereof in the same manner as, and subject to the same regulations under which, the shares from which the stock arose might before the conversion have been transferred, or as near thereto as circumstances admit; provided that the Board may, from time to time, fix the minimum amount of stock transferable, so, however, that such minimum shall not exceed the nominal amount of the shares from which the stock arose.</p> <p>b. The holders of stock shall, according to the amount of stock held by them, have the same rights, privileges, and advantages as regards dividends, voting at meetings of the Company, and other matters, as if they held the shares from which the stock arose; but no such privilege or advantage (except participation in the dividends and profits of the company and in the assets on winding up) shall be conferred by an amount of stock which would not, if existing in shares, have conferred that privilege or advantage.</p> <p>ii. Save as otherwise provided in the Act or any applicable law, no transfer of a share shall be registered unless a proper instrument of transfer, duly stamped and executed by or on behalf of the transferor and by or on behalf of the transferee, has been delivered to the Company, together with the certificate or certificates of shares, and if no such certificate is in existence, then the letter of allotment of the shares. Application for the registration of the transfer of a share may be made either by the transferor or by the transferee, provided that where such application is made by the transferor, no registration shall, in the case of a partly paid share, be affected unless the Company gives notice of the application to the transferee in the manner prescribed under the Act. Subject to the provisions of the Articles, the Company shall, unless objection is made by the transferee, within two weeks from the date of receipt of the notice, enter in the register the name of the transferee in the same manner and subject to the same conditions as if the application for registration of the transfer was made by the transferee. On giving not less than seven days' previous notice in accordance with the Act or any other time period as may be specified by law, the registration of transfers may be suspended at such times and for such periods as the Board may from time to time determine, provided that such registration shall not be suspended for more than thirty days at any one time or for more than forty-five days in the aggregate in any year.</p> <p>iii. Subject to the provisions of the Act, the Articles, the Securities (Contracts) Regulation Act, 1956, as amended, any listing agreement entered into with any recognized stock exchange and other applicable provisions of the Act or any other law for the time being in force, the Board may refuse, whether in pursuance of any power of the Company under the Articles or otherwise, to register the transfer of, or the transmission by operation of law of the right to, any shares or interest of a member in or debentures of the Company. The Company shall,</p>	

	<p>within one month from the date on which the instrument of transfer, or the intimation of such transmission, as the case may be, was delivered to the Company, send notice of the refusal to the transferee and the transferor or to the person giving intimation of such transmission, as the case may be, giving reasons for such refusal. Provided that the registration of a transfer shall not be refused on the ground of the transferor being either alone or jointly with any other person or persons indebted to the Company on any account whatsoever, except where the Company has a lien on shares or other securities.</p> <p>iv. Only fully paid shares or debentures shall be transferred to a minor acting through his/her legal or natural guardian. Under no circumstances shall shares or debentures be transferred to any insolvent or a person of unsound mind.</p> <p>v. The instrument of transfer shall, after registration, be retained by the Company and shall remain in their custody. All instruments of transfer which the Directors may decline to register shall, on demand, be returned to the persons depositing the same. The Directors may cause to be destroyed all transfer deeds lying with the Company after such period as they may determine.</p> <p>vi. No fee shall be charged for registration of transfer, transmission, probate, succession certificate and letters of administration, certificate of death or marriage, power of attorney, or similar other documents.</p> <p>vii. The Company may close the register of members, the register of debenture-holders, or the register of other security holders for any period or periods not exceeding in the aggregate forty-five days in each year, but not exceeding thirty days at any one time, subject to giving previous notice of at least seven days or such lesser period as may be specified by SEBI.</p> <p>viii. The provisions of these Articles relating to the transfer of shares shall mutatis mutandis apply to any other securities, including debentures, of the Company.</p>	
TRANSMISSION OF SHARES		
23.	<p>i. On the death of a Member, the survivor or survivors, where the Member was a joint holder of the shares, and his nominee or nominees or legal representatives, where he was a sole holder, shall be the only person(s) recognized by the Company as having any title to his interest in the shares.</p> <p>ii. Nothing in clause (i) shall release the estate of a deceased joint holder from any liability in respect of any share which had been jointly held by him with other persons.</p>	
24.	<p>i. Any person becoming entitled to a share in consequence of the death or insolvency of a member may, upon such evidence being produced as may from time to time properly be required by the Board and subject as hereinafter provided, elect either:</p> <p>a. to be registered himself as holder of the share; or</p> <p>b. to make such transfer of the share as the deceased or insolvent member could have made.</p> <p>All the limitations, restrictions, and provisions of the Articles relating to the right to transfer and the registration of transfers of shares shall be applicable to any such notice or transfer as aforesaid as if the death or insolvency of the member had not occurred and the notice or transfer were a transfer signed by that member.</p> <p>ii. The Board shall, in either case, have the same right to decline or suspend registration as it would have had if the deceased or insolvent member had transferred the share before his death or insolvency.</p> <p>iii. The Company shall be fully indemnified by such person from all liability, if any, by actions taken by the Board to give effect to such registration or transfer.</p>	
25.	<p>i. If the person so becoming entitled shall elect to be registered as holder of the share himself, he shall deliver or send to the Company a notice in writing signed by him stating that he so elects.</p> <p>ii. If the person aforesaid shall elect to transfer the share, he shall testify his election by</p>	

	<p>executing a transfer of the share.</p> <p>iii. All the limitations, restrictions, and provisions of these regulations relating to the right to transfer and the registration of transfers of shares shall be applicable to any such notice or transfer as aforesaid as if the death or insolvency of the member had not occurred and the notice or transfer were a transfer signed by that member.</p>	
26.	<p>A person becoming entitled to a share by reason of the death or insolvency of the holder shall be entitled to the same dividends and other advantages to which he would be entitled if he were the registered holder of the share, except that he shall not, before being registered as a member in respect of the share, be entitled in respect of it to exercise any right conferred by membership in relation to meetings of the Company.</p> <p>Provided that the Board may, at any time, give notice requiring any such person to elect either to be registered himself or to transfer the share, and if the notice is not complied with within ninety days, the Board may thereafter withhold payment of all dividends, bonuses, or other monies payable in respect of the share, until the requirements of the notice have been complied with.</p>	
27.	The provisions of these Articles relating to transmission by operation of law shall mutatis mutandis apply to any other securities including debentures of the Company.	
FORFEITURE OF SHARES		
28.	If a member fails to pay any call, or instalment of a call or any money due in respect of any share, on the day appointed for payment thereof, the Board may, at any time thereafter during such time as any part of the call or instalment remains unpaid or a judgement or decree in respect thereof remains unsatisfied in whole or in part, serve a notice on him requiring payment of so much of the call or instalment or other money as is unpaid, together with any interest which may have accrued and all expenses that may have been incurred by the Company by reason of non-payment	
29.	<p>The notice aforesaid shall:</p> <p>a. name a further day (not being earlier than the expiry of fourteen days from the date of service of the notice) on or before which the payment required by the notice is to be made; and</p> <p>b. state that, in the event of non-payment on or before the day so named, the shares in respect of which the call was made shall be liable to be forfeited.</p>	
30.	If the requirements of any such notice as aforesaid are not complied with, any share in respect of which the notice has been given may, at any time thereafter, before the payment required by the notice has been made, be forfeited by a resolution of the Board to that effect.	
31.	<p>i. A forfeited share shall be deemed to be the property of the Company and may be sold, re-allotted, or otherwise disposed of either to the person who was, before such forfeiture, the holder thereof or entitled thereto, or to any other person, on such terms and in such manner as the Board thinks fit.</p> <p>ii. At any time before a sale, re-allotment, or disposal as aforesaid, the Board may cancel the forfeiture on such terms as it thinks fit.</p>	
32.	<p>i. A person whose shares have been forfeited shall cease to be a member in respect of the forfeited shares, but shall, notwithstanding the forfeiture, remain liable to pay, and shall pay, to the Company all monies which, at the date of forfeiture, were presently payable by him to the Company in respect of the shares.</p> <p>ii. All such monies payable shall be paid together with interest thereon at such rate as the Board may determine, from the time of forfeiture until payment or realization. The Board may, if it thinks fit, but without being under any obligation to do so, enforce the payment of the whole or any portion of the monies due, without any allowance for the value of the shares at the time of forfeiture, or waive payment in whole or in part.</p>	

	<p>iii. The liability of such person shall cease if and when the Company shall have received payment in full of all such monies in respect of the shares.</p>	
33.	<p>i. A duly verified declaration in writing that the declarant is a director, the manager, or the secretary of the Company, and that a share in the Company has been duly forfeited on a date stated in the declaration, shall be conclusive evidence of the facts therein stated as against all persons claiming to be entitled to the share;</p> <p>ii. The Company may receive the consideration, if any, given for the share on any sale, re-allotment, or disposal thereof and may execute a transfer of the share in favor of the person to whom the share is sold or disposed of;</p> <p>iii. The transferee shall thereupon be registered as the holder of the share; and</p> <p>iv. The transferee shall not be bound to see to the application of the purchase money, if any, nor shall his title to the share be affected by any irregularity or invalidity in the proceedings in reference to the forfeiture, sale, re-allotment, or disposal of the share.</p> <p>v. Upon any sale after forfeiture or for enforcing a lien in exercise of the powers hereinabove given, the Board may, if necessary, appoint some person to execute an instrument for the transfer of the shares sold and cause the purchaser's name to be entered in the register of members in respect of the shares sold, and after his name has been entered in the register of members in respect of such shares, the validity of the sale shall not be impeached by any person.</p> <p>vi. Upon any sale, re-allotment, or other disposal under the provisions of the preceding Articles, the certificate(s), if any, originally issued in respect of the relative shares shall (unless the same shall, on demand by the Company, have been previously surrendered to it by the defaulting member) stand cancelled and become null and void and of no effect, and the Board shall be entitled to issue a duplicate certificate(s) in respect of the said shares to the person(s) entitled thereto.</p>	
34.	<p>i. Neither the receipt by the Company for a portion of any money which may from time to time be due from any member in respect of his shares, nor any indulgence that may be granted by the Company in respect of payment of any such money, shall preclude the Company from thereafter proceeding to enforce a forfeiture in respect of such shares as herein provided. Such forfeiture shall include all dividends declared or any other moneys payable in respect of the forfeited shares and not actually paid before the forfeiture. Provided, there shall be no forfeiture of unclaimed dividend before the claim for such dividend becomes barred by law. The Company shall comply with the provisions of the Act in respect of any dividend remaining unpaid or unclaimed with the Company.</p> <p>ii. When any share shall have been so forfeited, notice of the forfeiture shall be given to the defaulting member and an entry of the forfeiture with the date thereof shall forthwith be made in the register of members, but no forfeiture shall be invalidated by any omission, neglect, or failure to give such notice or make such entry as aforesaid.</p> <p>iii. The forfeiture of a share shall involve extinction at the time of forfeiture of all interest in and all claims and demands against the Company in respect of the share and all other rights incidental to the share.</p> <p>iv. The Board may, subject to the provisions of the Act, accept a surrender of any share from or by any member desirous of surrendering them on such terms as they think fit.</p> <p>v. The provisions of these Articles as to forfeiture shall apply in the case of non-payment of any sum which, by the terms of issue of a share, becomes payable at a fixed time, whether on account of the nominal value of the share or by way of premium, as if the same had been</p>	

	payable by virtue of a call duly made and notified.	
	vi. The provisions of these Articles relating to forfeiture of shares shall mutatis mutandis apply to any other securities including debentures of the Company.	
ALTERATION OF CAPITAL		
35.	<p>Subject to the provisions of the Act, the Company may, by ordinary resolution –</p> <ol style="list-style-type: none"> increase the share capital by such sum, to be divided into shares of such amount as it thinks expedient; consolidate and divide all or any of its share capital into shares of larger amount than its existing shares; Provided that any consolidation and division which results in changes in the voting percentage of members shall require applicable approvals under the Act; convert all or any of its fully paid-up shares into stock, and reconvert that stock into fully paid-up shares of any denomination; sub-divide its existing shares or any of them into shares of smaller amount than is fixed by the memorandum; Cancel any shares which, at the date of the passing of the resolution, have not been taken or agreed to be taken by any person.
