The Issue is being made through the Book Building Process, in terms of Rule 19(2)(b)(i) of the Securities Contracts (Regulation) Rules, 1957, as amended (“SCRR”) read with Regulation 253 of the SEBI ICDR Regulations, as amended, wherein not more than 50% of the Net Issue shall be allocated on a proportionate basis to Qualified Institutional Buyers (“QIBs”, the “QIB Portion”), provided that our Company may, in consultation with the Book Running Lead Managers, allocate up to 60% of the QIB Portion to Anchor Investors on a discretionary basis in accordance with the SEBI ICDR Regulations (“Anchor Investor Portion”), of which one-third shall be reserved for domestic Mutual Funds, subject to valid Bids being received from domestic Mutual Funds at or above the Anchor Investor Allocation Price. In the event of under-subscription, or non-allocation in the Anchor Investor Portion, the balance Equity Shares shall be added to the Net QIB Portion. Further, 5% of the Net QIB Portion shall be available for allocation on a proportionate basis only to Mutual Funds, and the remainder of the Net QIB Portion shall be available for allocation on a proportionate basis to all QIBs, including Mutual Funds, subject to valid Bids being received at or above the Issue Price. However, if the aggregate demand from Mutual Funds is less than 5% of the Net QIB Portion, the balance Equity Shares available for allocation in the Mutual Fund Portion will be added to the remaining Net QIB Portion for proportionate allocation to QIBs. Further, not less than 15% of the Net Issue shall be available for allocation on a proportionate basis to Non-Institutional Investors, out of which (a) one third of such portion was reserved for applicants with application size of more than 2 lots and up to such lots equivalent to not more than ₹ 10 lakhs and (b) two-third of such portion was reserved for applicants with application size of more than ₹ 10 lakhs provided that the unsubscribed portion in either of such subcategories could have been allocated to applicants in the other sub-category of Non-Institutional Bidders and not less than 35% of the Net Issue shall be available for allocation to Individual Bidders in accordance with the SEBI ICDR Regulations, subject to valid Bids being received at or above the Issue Price. All potential Bidders (except Anchor Investors) are required to mandatorily utilize the Application Supported by Blocked Amount (“ASBA”) process providing details of their respective ASBA accounts, and UPI ID in case of IBs using the UPI Mechanism, if applicable, in which the corresponding Bid Amounts will be blocked by the SCSBs or by the Sponsor Bank under the UPI Mechanism, as the case may be, to the extent of respective Bid Amounts. Anchor Investors are not permitted to participate in the Issue through the ASBA process. For details, see “*Issue Procedure*” beginning on page 237 of this Draft Red Herring Prospectus.

### RISK IN RELATION TO THE FIRST ISSUE

This being the first public Issue of our Company, there has been no formal market for the securities of our Company. The face value of the Equity Shares of our Company is ₹10/-each and the Issue Price is [●] times of face value per Equity Share. The Issue Price (has been determined and justified by our Company in consultation with the Book Running Lead Manager, as stated under chapter titled “*Basis for Issue Price*” beginning on page no. 112) should not be taken to be indicative of the market price of the Equity Shares after the Equity Shares are listed. No assurance can be given regarding an active and/or sustained trading in the Equity Shares or regarding the price at which the Equity Shares will be traded after listing.

### GENERAL RISKS

Investments in equity and equity-related securities involve a degree of risk and investors should not invest any funds in the Issue unless they can afford to take the risk of losing their investment. Investors are advised to read the risk factors carefully before taking an investment decision in the Issue. For taking an investment decision, investors must rely on their own examination of our Company and the Issue, including the risks involved. The Equity Shares in the Issue have not been recommended or approved by the Securities and Exchange Board of India (“SEBI”), nor does SEBI guarantee the accuracy or adequacy of the contents of this Draft Red Herring Prospectus. Specific attention of the investors is invited to “*Risk Factors*” on page 29.

Unless stated otherwise, throughout this Draft Red Herring Prospectus, all figures are expressed in Rupees and in Lakhs. Unless otherwise specified, the financial data presented herein is derived from our Restated Financial Statements for the financial years ended March 31, 2025, March 31, 2024, and March 31, 2023, in accordance with Indian GAAP, the Companies Act, 2013, and

the SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018, included under section title “**Restated Financial Statements**” beginning on page 191 of this Draft Red Herring Prospectus along with the significant accounting policies and other explanatory information annexed thereto, as approved by our Board of Directors on September 12, 2025 and have been prepared in accordance with the requirements of Section 26 of Part I of Chapter III of the Companies Act, 2013; Paragraph (A) of Clause 11(I) of Part A of Schedule VI of the SEBI ICDR Regulations, 2018; and the Guidance Note on ‘Reports in Company Prospectuses (Revised 2019)’ issued by the Institute of Chartered Accountants of India, as amended from time to time.

There are significant differences between Indian GAAP, Generally Accepted Accounting Principles in the United States of America (the “U.S. GAAP”) and IFRS. Our Company does not provide reconciliation of its financial information to IFRS or U.S. GAAP. Our Company has not attempted to explain those differences or quantify their impact on the financial data included in this Draft Red Herring Prospectus and it is urged that you consult your own advisors regarding such differences and their impact on our financial data. Accordingly, the degree to which the financial information included in this Draft Red Herring Prospectus will provide meaningful information is entirely dependent on the reader’s level of familiarity with Indian accounting policies and practices, the Companies Act, 2013, Indian GAAP and the SEBI ICDR Regulations. Any reliance by persons not familiar with Indian accounting policies and practices on the financial disclosures presented in this Draft Red Herring Prospectus should, accordingly, be limited. For risks relating to significant differences between Ind AS and other accounting principles, see “*Risk Factors – Significant differences exist between Indian accounting standard and other accounting principles, such as international financial reporting standards and United States generally accepted accounting principles, which investors may be more familiar with and may consider material to their assessment of our financial condition.*” in the chapter titled “**Risk Factors**” beginning on page 29 of this Draft Red Herring Prospectus.

Any percentage amounts, as set forth in “**Risk Factors**”, “**Business Overview**”, “**Management’s Discussion and Analysis of Financial Condition and Results of Operations**” and elsewhere in the Draft Red Herring Prospectus unless otherwise indicated, have been calculated on the basis of our Company’s Restated Financial Statements prepared in accordance with the applicable provisions of the Companies Act, Indian GAAP and restated in accordance with SEBI (ICDR) Regulations, 2018, as stated in the report of our Peer Reviewed Statutory Auditor, set out in section titled “**Restated Financial Statements**” beginning on page 191 of this Draft Red Herring Prospectus. Our fiscal year commences on April 1 of every year and ends on March 31 of every next year.

For additional definitions used in this Draft Red Herring Prospectus, see the section “**Definitions and Abbreviations**” on page 1 of this Draft Red Herring Prospectus. In the section titled “**Description of Equity Shares and Terms of The Articles of Association**”, on page 268 defined terms have the meaning given to such terms in the Articles of Association of our Company.

Certain Non-GAAP Measures and certain other statistical information relating to our operations and financial performance like EBITDA, EBITDA Margin, PAT Margin, and others, have been included in this Draft Red Herring Prospectus. We compute and disclose such non-GAAP measures and such other statistical information relating to our operations and financial performance as we consider such information to be useful measures of our business and financial performance. These Non- GAAP measures and other statistical and other information relating to our operations and financial performance may not be computed on the basis of any methodology that is applicable across the industry and therefore may not be comparable to financial measures and statistical information of similar nomenclature that may be computed and presented by other companies and are not measures of operating performance or liquidity defined by the accounting standards and may not be comparable to similarly titled measures presented by other companies.

## **Use of Industry & Market Data**

Unless otherwise indicated, industry and market data used in this section has been derived from the industry report titled “**Industry Report on Autocomponent Industry in India**” dated September 27, 2025 (the “**D&B Report**”) prepared and issued by Dun & Bradstreet Information Services India Private Limited (“**D&B**”) exclusively commissioned and paid for by us in connection with the Issue. Except where specified, including in the section titled “Industry Overview” throughout the Draft Red Herring Prospectus all figures have been expressed in Lakhs.

In this Draft Red Herring Prospectus, any discrepancies in any table between the total and the sums of the amounts listed are due to rounding off. All figures derived from our Restated Financial Statements in decimals have been rounded off to the second decimal and all percentage figures have been rounded off to two decimal places. However, where any figures may have been sourced from third-party industry sources, such figures may be rounded-off to such number of decimal points as provided in such respective sources. In this Draft Red Herring Prospectus, (i) the sum or percentage change of certain numbers may not conform exactly to the total figure given; and (ii) the sum of the numbers in a column or row in certain tables may not conform exactly to the total figure given for that column or row. Any such discrepancies are due to rounding off.

Any percentage amounts, as set forth in “**Risk Factors**”, “**Business Overview**”, “**Management's Discussion and Analysis of Financial Conditions and Results of Operations**” beginning on page 29, 135 and 196 respectively, unless otherwise indicated, have been calculated based on our restated financial statements prepared in accordance with Indian GAAP.

The Draft Red Herring Prospectus contains conversion of certain US Dollar and other currency amounts into Indian Rupees that have been presented solely to comply with the requirements of the SEBI (ICDR) Regulations. These conversions should not be construed as a representation that those US Dollar or other currency amounts could have been, or can be converted into Indian Rupees, at any particular rate.

## Disclaimer

The Equity Shares offered in the Issue have not been and will not be registered under the U.S. Securities Act or any state securities laws in the United States, and unless so registered, may not be offered or sold within the United States, except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and in accordance with any applicable U.S. state securities laws. Accordingly, the Equity Shares are being offered and sold outside the United States in ‘offshore transactions’ in reliance on Regulation S under the U.S. Securities Act and the applicable laws of the jurisdictions where such offers and sales are made. The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and Bids may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

## Exchange Rates

This Draft Red Herring Prospectus contains conversion of U.S. Dollar into Rupees that have been presented solely to comply with the requirements of the SEBI ICDR Regulations. These conversions should not be considered as a representation that such U.S. Dollar amounts have been, could have been or can be converted into Rupees at any particular rate, the rates stated below or at all. Unless otherwise stated, the exchange rates referred to for the purpose of conversion of U.S. Dollar amounts into Rupee amounts, are as follows:

Currency <sup>(1)</sup>	Exchange rate as on		
	March 31, 2025	March 31, 2024	March 31, 2023
USD	85.58	83.38	82.22

Source: <https://www.rbi.org.in/scripts/referenceratearchive.aspx>

(1) If the reference rate is not available on a particular date due to a public holiday, exchange rates of the previous Working Day has been disclosed. The reference rates are rounded off to two decimal places.

## FORWARD LOOKING STATEMENTS

All statements contained in this Draft Red Herring Prospectus that are not statements of historical fact constitute forward looking statements. All statements regarding our expected financial condition and results of operations, business, plans and prospects are forward-looking statements. These forward-looking statements include statements with respect to our business strategy, our revenue and profitability, our projects and other matters discussed in this Draft Red Herring Prospectus regarding matters that are not historical facts. These forward-looking statements generally can be identified by words or phrases such as “aim”, “anticipate”, “believe”, “expect”, “estimate”, “intend”, “objective”, “plan”, “goal”, “propose”, “project”, “will”, “will continue”, “will pursue”, “is likely to result” or other words or phrases and similar expressions that are “forward-looking statements”. Similarly, statements that describe our strategies, objectives, plans or goals are also forward-looking statements. However, these are not the exclusive means of identifying forward-looking statements.

All forward-looking statements are subject to risks, uncertainties and assumptions about us that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement. Forward-looking statements reflect our current views with respect to future events and are not a guarantee of future performance. These statements are based on our management’s beliefs and assumptions, which in turn are based on currently available information. Although we believe the assumptions upon which these forward-looking statements are based are reasonable, any of these assumptions could prove to be inaccurate, and the forward-looking statements based on these assumptions could be incorrect.

Actual results may differ materially from those suggested by forward-looking statements due to risks or uncertainties associated with expectations relating to, inter alia, regulatory changes pertaining to the industries in India in which we operate and our ability to respond to them, our ability to successfully implement our strategy, our growth and expansion, technological changes, our exposure to market risks, general economic and political conditions in India which have an impact on its business activities or investments, the monetary and fiscal policies of India, inflation, deflation, unanticipated turbulence in interest rates, foreign exchange rates, equity prices or other rates or prices, the performance of the financial markets in India and globally, changes in domestic laws, incidence of any natural calamities and/ or violence, regulations and taxes and changes in competition in the industries in which we operate.

Certain important factors that could cause actual results to differ materially from our expectations include, but are not limited to, the following:

1. We are dependent on Tier-I vendors, whose demand is directly linked to OEM procurement cycles. Any reduction or discontinuance of their demand may adversely affect our business, financial condition and results of operations.
2. A significant portion of the Net Proceeds is proposed to be utilized towards funding our capital expenditure requirements including purchase of plant and machinery for our new manufacturing facility, for which orders have not yet been placed. Any delay in placing such orders or in procurement, delivery or installation of the plant and machinery may delay the schedule of implementation of the new manufacturing facility and could also result in cost overruns, thereby increasing the cost of commissioning the manufacturing unit. Further, our capital expenditure may be subject to operational challenges in implementing such expansion. Such delays or escalations or operational challenges may adversely affect our business operations, growth strategy and the expected benefits from the Objects of the Issue.
3. We are dependent on the supply of raw materials approved by our customers, and any disruption or delay in procurement of such materials could adversely impact our production schedules, result in idle capacity, and affect our relationship with customers.
4. Any increase in raw material prices, volatility in supply or pricing, or failure by suppliers to fulfil their obligations may adversely impact our operations, financial performance, and business results.
5. We are significantly dependent on the automotive sector, and any downturn or change in demand in this sector may adversely affect our business, financial condition and results of operations.
6. Mr. Basant Lal Kheria, who is deemed to be part of the Promoter Group under the SEBI ICDR Regulations, has not provided the requisite information, and our disclosure regarding him is based only on publicly available information.
7. There have been instances of delayed filings in the past with certain Regulatory Authorities. If the Regulatory Authorities impose any monetary penalties on us or take any punitive actions against our Company in relation to the same, our business, financial condition and results of operations could be adversely affected.
8. Our Company has in the past been non-compliant with certain provisions of the Companies Act, 1956 and the Companies Act, 2013, and may be subject to penalties for such non-compliances. Our operations are dependent on injection moulding machines and robotic systems procured from third-party manufacturers. Any failure, breakdown, obsolescence, delay in procurement of spare parts, or inability to adapt to newer technologies could adversely impact our business, financial condition and results of operations.

For further discussion on factors that could cause actual results to differ from expectations, see “**Risk Factors**”, “**Business Overview**” and “**Management’s Discussion and Analysis of Financial Condition and Results of Operations**” beginning on pages 29, 135 and 196. By their nature, certain market risk disclosures are only estimates and could be materially different from what actually occurs in the future. As a result, actual gains or losses could materially differ from those that have been estimated.

There can be no assurance to investors that the expectations reflected in these forward-looking statements will prove to be correct. Given these uncertainties, investors are cautioned not to place undue reliance on such forward-looking statements and not to regard such statements to be a guarantee of our future performance.

Forward-looking statements reflect current views as of the date of this Draft Red Herring Prospectus and are not a guarantee of future performance. These statements are based on our management's beliefs and assumptions, which in turn are based on currently available information. Although we believe the assumptions upon which these forward-looking statements are based are reasonable, any of these assumptions could prove to be inaccurate, and the forward looking statements based on these assumptions could be incorrect.

Neither our Company, our Directors, the Book Running Lead Manager nor any of their respective affiliates have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition. In accordance with the SEBI ICDR Regulations, our Company and the Book Running Lead Manager will ensure that the investors in India are informed of material developments until the time of the grant of listing and trading permission by the Stock Exchange.

## SECTION II – SUMMARY OF THE DRAFT RED HERRING PROSPECTUS

*The section is a general summary of the terms of the Issue, certain disclosures included in this Draft Red Herring Prospectus and is neither exhaustive, nor purports to contain a summary of all the disclosures in this Draft Red Herring Prospectus, or all details relevant to prospective investors. This summary should be read in conjunction with, and is qualified in its entirety by, the more detailed information appearing elsewhere in this Draft Red Herring Prospectus, including the section titled “Risk Factors”, “The Issue”, “Capital Structure”, “Objects of the Issue”, “Industry Overview”, “Business Overview”, “Restated Financial Statements”, “Outstanding Litigation and Material Developments”, “Our Promoter and Promoter Group”, “Issue Structure” and “Description of Equity Shares and Terms of the Articles of Association” on pages 29, 61, 77, 100, 122, 135, 191, 202, 183, 232 and 268, respectively of this Draft Red Herring Prospectus.*

### A. OVERVIEW OF THE BUSINESS

Our Company is an auto ancillary unit engaged in the business of plastic injection moulding. We specialise in the manufacture of plastic injection moulding sub-assembly operations and supplying primarily to the automotive sector. In earlier years, the Company also catered to the white goods segment; however, our present focus is on the manufacture of automotive plastic moulded parts.

We operate as a Tier-II supplier, producing moulded plastic components in accordance with the specifications of Tier-I vendors, who in turn supply to original equipment manufacturers (“OEMs”) in the passenger vehicle categories. Our product range includes interior cabin trims, exterior plastic parts, under-hood components, and heating, ventilation and air-conditioning (HVAC) ducts. These products are supplied for both internal combustion engine and electric vehicles. In addition to component production, we undertake basic sub-assembly operations, such as bolt assembly or the fitting of inserts, wherever required by customers. These activities support integration of the moulded components into larger assemblies at the Tier-I level.

For more details, please refer chapter titled “**Business Overview**” beginning on the page 135 of this Draft Red Herring Prospectus.

### B. OVERVIEW OF THE INDUSTRY

India’s auto component industry has evolved into a critical pillar of the country’s automotive ecosystem, exhibiting a consistent growth trend over the past five years. The Indian auto component market stood at INR 3.5 trillion in FY 2020, before experiencing a slight dip to INR 3.4 trillion in FY 2021, reflecting the pandemic-induced slowdown in automotive production and consumption. From FY 2022 onwards, the sector rebounded sharply, reaching INR 4.2 trillion and further accelerating to INR 5.6 trillion in FY 2023, driven by robust domestic OEM demand, a surge in replacement sales, and a strong export performance. This growth translates into a Compound Annual Growth Rate (CAGR) of approximately 13.6% from FY 2021 to FY 2025, reflecting the sector’s resilience and capacity to scale in response to both domestic and global demand.

The automotive industry is undergoing a fundamental transformation toward lightweight vehicle design, driven by the dual imperatives of improving fuel efficiency and meeting stringent emission standards in internal combustion engine (ICE) vehicles, as well as extending range and performance in electric vehicles (EVs). In response, original equipment manufacturers (OEMs) are increasingly replacing conventional metal components with advanced plastics and polymer composites across multiple vehicle systems. Plastic moulding technologies, including injection moulding, blow moulding, and thermoforming, are playing a pivotal role in this transition.

For more details, please refer chapter titled “**Industry Overview**” beginning on page 122 of this Draft Red Herring Prospectus.

#### **T. SPLIT/CONSOLIDATION OF EQUITY SHARES**

As on this date of Draft Red Herring Prospectus, there has not been any split/consolidation of equity shares since incorporation

#### **U. EXEMPTION FROM COMPLYING WITH ANY PROVISIONS OF SECURITIES LAWS, IF ANY, GRANTED BY SEBI**

As on date of the Draft Red Herring Prospectus, Our Company had filed an exemption application dated May 19, 2025 under Regulation 300 (1) (c) of the SEBI ICDR Regulations (the “SEBI Exemption Application”) seeking an exemption from identifying and disclosing following as members of the Promoter Group i) Basant Lal Kheria (brother and relative of Vinay Kheria, ii) anybody corporate in which 20% or more of the equity share capital is held by him, or a firm or Hindu Undivided Family of which he is a member; iii) and any body corporate in which an entity referred to above holds 20% or more of the equity share capital, in accordance with the SEBI ICDR Regulations.

SEBI pursuant to its letter dated July 11, 2025, has rejected the SEBI Exemption Application and has directed our Company to include Basant Lal Kheria, and his connected entities as part of the Promoter Group and include applicable disclosures based on the information as available in the public domain. Our Company vide letter dated July 12, 2025, has intimated these instructions of SEBI to Basant Lal Kheria.

Accordingly, based on the careful examination of the search results available on public platforms, our Company confirms that Basant Lal Kheria- a) is not debarred or prohibited from accessing capital markets under any order or direction passed by SEBI; and b) have not been declared as Wilful Defaulter or Fraudulent Borrower by an bank of financial institution or consortium thereof, in accordance with the guidelines on willful defaulters or fraudulent borrower issued by Reserve Bank of India.

See ***“Risk Factors – Basant Lal Kheria, who is deemed to be part of the Promoter Group under the SEBI ICDR Regulations, has not provided the requisite information, and our disclosure regarding him is based only on publicly available information.”*** beginning on page 32.

### SECTION III – RISK FACTORS

*An investment in our Equity Shares involves a high degree of financial risk. Prospective investors should carefully consider all the information in the Draft Red Herring Prospectus, particularly the “**Financial Information**” and the related notes, “**Business Overview**” and “**Management’s Discussion and Analysis of Financial Condition and Results of Operations**” on page 191, 135 and 196 respectively of this Draft Red Herring Prospectus and the risks and uncertainties described below, before making a decision to invest in our Equity Shares.*

*The risk factors set forth below are not exhaustive and do not purport to be complete or comprehensive in terms of all the risk factors that may arise in connection with our business or any decision to purchase, own or dispose of the Equity Shares. This section addresses general risks associated with the industry in which we operate and specific risks associated with our Company. Any of the following risks, individually or together, could adversely affect our business, financial condition, results of operations or prospects, which could result in a decline in the value of our Equity Shares and the loss of all or part of your investment in our Equity Shares. While we have described the risks and uncertainties that our management believes are material, these risks and uncertainties may not be the only risks and uncertainties we face. Additional risks and uncertainties, including those we currently are not aware of or deem immaterial, may also have an adverse effect on our business, results of operations, financial condition and prospects.*

*This Draft Red Herring Prospectus contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the considerations described below and elsewhere in this Draft Red Herring Prospectus.*

*The financial and other related implications of risks concerned, wherever quantifiable, have been disclosed in the risk factors below. However, there are risk factors the potential effects of which are not quantifiable and therefore no quantification has been provided with respect to such risk factors. In making an investment decision, prospective investors must rely on their own examination of our Company and the terms of the Issue, including the merits and the risks involved. You should not invest in this Issue unless you are prepared to accept the risk of losing all or part of your investment, and you should consult your tax, financial and legal advisors about the particular consequences to you of an investment in our Equity Shares.*

*Unless otherwise indicated, industry and market data used in this section has been derived from the report entitled “Industry Report on Automotive Component Industry in India”, dated September 27, 2025, prepared and released by Dun & Bradstreet (“D & B Report”), which has been commissioned and paid for by our Company exclusively in connection with this Issue and for the purposes of confirming our understanding of the industry in which we operate. The D & B Report has been prepared pursuant to an engagement letter entered into between our Company and Dun & Bradstreet. A copy of the D & B Report is available for inspection on the website of our Company at <https://www.kheria.com> from the date of the Draft Red Herring Prospectus until the Bid/Issue Closing Date. The data included herein contains excerpts from the D & B Report, which may have been re-ordered or reformatted by us for presentation purposes. There are no parts, data or information (which may be relevant for the proposed Issue), that have been left out or changed in any manner. Unless otherwise indicated, financial, operational, industry and other related information derived from the D & B Report and included herein with respect to any particular year refers to such information for the relevant calendar year.*

#### **Materiality**

*The Risk factors have been determined on the basis of their materiality. The following factors have been considered for determining the materiality.*

- 1. Some events may have material impact quantitatively;*
- 2. Some events may have material impact qualitatively instead of quantitatively.*
- 3. Some events may not be material individually but may be found material collectively.*
- 4. Some events may not be material at present but may be having material impact in future.*

#### **Note:**

*The risk factors as envisaged by the management along with the proposals to address the risk if any. Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify the financial implication of any of the risks described in this section.*

*In this Draft Red Herring Prospectus, any discrepancies in any table between total and the sums of the amount listed are due to rounding off. Any percentage amounts, as set forth in “**Risk Factors**” on page 29 and “**Management Discussion and Analysis of Financial Condition and Results of Operations**” on page 196 of this Draft Red Herring Prospectus unless otherwise indicated, has been calculated on the basis of the amount disclosed in the “**Restated Financial Statements**” on page 191.*

*Unless otherwise stated, references in this section to the “Company” or “our Company” means “Kheria Autocomp Limited”, and “we”, “our” or “us” (including in the context of any financial information) is a reference to our Company.*

1. ***We are dependent on Tier-I vendors, whose demand is directly linked to OEM procurement cycles. Any reduction or discontinuance of their demand may adversely affect our business, financial condition and results of operations.***

We are engaged in the manufacturing of plastic injection moulding sub- assembly operations and supplying primarily to the automotive sector. Our Company operates as a Tier-II supplier, manufacturing products strictly in accordance with the designs and specifications provided by Tier-I vendors, who in turn supply directly to OEMs. Consequently, the growth and sustainability of our business are inherently dependent on (i) the continued demand from Tier-I vendors, and (ii) the order flow and procurement cycles of OEMs in the automotive and white goods sectors.

For the financial years ended March 31, 2025, 2024, and 2023, our top ten customers contributed ₹9,206.56 lakhs, ₹6,229.75 lakhs, and ₹4,983.19 lakhs, respectively, to our total revenue from operations. The extent of our customer concentration during these periods is presented below:

Particulars	Revenue from Top Customer(s) as a percentage (%) of Revenues from Operations		
	March 31, 2025	March 31, 2024	March 31, 2023
From Top 1 Customer	35.19	49.94	55.63
From Top 5 Customers	97.43	98.65	93.27
From Top 10 Customers	99.99	99.96	99.78

This concentration exposes us to significant risk in the event that these Tier-I vendors reduce, delay, or discontinue their purchases from us due to factors such as:

- a slowdown in the production schedules of OEMs;
- vendor rationalization to reduce cost related to procurement from multiple vendors or in-house production of components;
- pricing pressures and cost-reduction initiatives passed down through the supply chain;
- financial stress or insolvency of Tier-I vendors; or
- technological or regulatory changes (for example, shifts between internal combustion engine and electric vehicles).

Further, any adverse development affecting OEM production volumes—such as cyclical downturns in the automotive industry, regulatory restrictions on specific vehicle categories, delays in adoption of new technologies, or fluctuations in consumer demand could directly impact the purchasing requirements of Tier-I vendors and consequently reduce the order flow to our Company. Such developments may result in reduced capacity utilisation, inventory build-up, pressure on margins, and an adverse impact on our financial performance.

While we have expanded our customer base and product range over the years, the risk of dependence on a limited number of Tier-I vendors, coupled with the concentration of revenue from these customers, remains significant. Any inability to maintain, diversify, or expand our existing customer relationships could materially and adversely affect our business, financial condition, and results of operations.

2. ***A significant portion of the Net Proceeds is proposed to be utilized towards funding our capital expenditure requirements including purchase of plant and machinery for our new manufacturing facility, for which orders have not yet been placed. Any delay in placing such orders or in procurement, delivery or installation of the plant and machinery may delay the schedule of implementation of the new manufacturing facility and could also result in cost overruns, thereby increasing the cost of commissioning the manufacturing unit. Further, our capital expenditure may be subject to operational challenges in implementing such expansion. Such delays or escalations or operational challenges may adversely affect our business operations, growth strategy and the expected benefits from the Objects of the Issue.***

A significant portion of the Net Proceeds of this Issue amounting to ₹ 2,366.54 lakhs, representing [●]% of the Net Proceeds, is proposed to be utilized towards funding our capital expenditure requirements including purchase of plant and machinery for our new manufacturing facility. As on the date of this Draft Red Herring Prospectus, our Company has not placed orders for the required plant and machinery. We have, however, received quotations from various vendors. Such quotations are subject to specified validity periods and may not be available on the same terms at the time of actual order placement.

In the event that there are delays in placing orders or if the validity of quotations lapses, the price of the plant and machinery may increase due to several factors beyond our control, including changes in taxes, duties, levies, foreign exchange fluctuations (in case of imported machinery), changes in government policies, or general inflationary trends. Any such increase in the cost of plant and machinery could lead to a shortfall in the Net Proceeds allocated for this purpose, thereby adversely affecting the schedule and cost of implementation of our new manufacturing facility.

If we are unable to procure the machinery within the validity period or at the costs originally envisaged, we may be required to deploy additional internal resources or seek alternate financing, which may not be available on favorable terms. This could delay commissioning of the proposed unit, increase overall project costs, and adversely impact our business operations, financial condition and results of operations. Further, we cannot assure you that we will be able to increase the capacity utilization of our manufacturing facility, including due to any inability to secure orders from customers for our products. Additionally, the capital

expenditure incurred in relation to the manufacturing facility is generally long term in nature and may not generate the expected returns due to market conditions or due to reduced demand from our customers. Significant adverse changes from our expected returns on investment in manufacturing plants could have a material adverse effect on our business, financial condition, results of operation and cash flows

3. ***We are dependent on the supply of raw materials approved by our customers, and any disruption or delay in procurement of such materials could adversely impact our production schedules, result in idle capacity, and affect our relationship with customers.***

Our manufacturing operations require consistent availability of plastic resins and other raw materials, the specifications of which are determined by Tier-I customers. For each customer, we are required to maintain records of raw material batches used, as customers identify and approve the product manufacturing on the basis of these batch records. The quality, colour, grade and other characteristics of the raw materials are critical for compliance with customer requirements.

We procure raw materials only from vendors approved by our customers. Accordingly, our ability to source materials is restricted, and we do not have flexibility to change suppliers or negotiate alternate terms. In the event that such approved vendors are unable to supply raw materials in the required quality, quantity or within agreed timelines, our production schedules may be disrupted. Any such disruption may lead to delay in supply to our customers, expose us to penalties or rejection of consignments, and could result in idle machine time at our facilities, thereby increasing our operating costs.

Our dependence on a limited number of suppliers further exacerbates this risk. The details of raw material purchases from our top suppliers are set out below:

Particulars	March 31, 2025 (Purchases in ₹ lakhs)	Contribution to Purchases in %	March 31, 2024 (Purchases in ₹ lakhs)	Contribution to Purchases in %	March 31, 2023 (purchases in ₹ lakhs)	Contribution to Purchases in %
From Top 1 Supplier	1,079.83	11.73	967.48	15.52	715.70	14.33
From Top 5 Suppliers	3,416.61	37.11	2,819.37	45.24	2,202.66	44.11
From Top 10 Suppliers	4,858.83	52.77	3,472.17	55.72	2,893.23	57.93

Further, raw material supplies are dependent on market availability, petroleum price volatility, and logistics constraints. Any interruption in the supply chain, including delays in transportation or shortages of specific grades or colours of resin, may affect our ability to meet customer schedules. Since our customers rely on us for timely delivery of components forming part of critical sub-assemblies, even short delays can adversely affect our business relationships. Accordingly, any disruption in the supply of customer-approved raw materials could materially and adversely affect our business, financial condition and results of operations.

4. ***Any increase in raw material prices, volatility in supply or pricing, or failure by suppliers to fulfil their obligations may adversely impact our operations, financial performance, and business results.***

The raw materials used in the manufacturing are PP, PP glass filled & talc filled, HIPS, ABS, Nylon 6 & Nylon 6 glass filled material, Polycarbonate, PCABS, TPE, POM which are procured primarily from approved and reliable vendors. For the financial years ended March 31, 2025, 2024, and 2023, the cost of raw materials consumed (including changes in inventories) accounted for 67.10% percent, 63.74% percent, and 67.11% percent of our revenue from operations, respectively.

While fluctuations in raw material prices are generally factored into the pricing arrangements with our customers, thereby reducing direct exposure to price volatility, our operations remain sensitive to the timely availability of such materials. In cases where customers nominate or specify vendors, responsibility for vendor performance ultimately rests with the customer; however, delays in dispatches, transportation constraints, or supply-side challenges may still impact our schedule and operations.

Any shortage of raw materials, delay in procurement, or supply of substandard/off-specification material could disrupt our manufacturing schedules, affect delivery commitments, and impact customer satisfaction. Although our pricing model mitigates direct exposure to raw material price fluctuations, our business and results of operations may still be adversely affected by supply chain disruptions, working capital mismatches, or operational inefficiencies arising from vendor-related issues.

Our ability to maintain profitability is dependent on securing raw materials at competitive prices and ensuring timely availability. Any material increase in raw material prices, shortage in supply, or failure by our suppliers to meet their obligations may adversely affect our cost of production, pricing flexibility, margins, and overall financial performance.

5. ***We are significantly dependent on the automotive sector, and any downturn or change in demand in this sector may adversely affect our business, financial condition and results of operations.***

Our revenues are substantially derived from the supply of plastic injection moulded components and assemblies to Tier-I vendors, who in turn supply directly to OEMs in the automotive sector. Consequently, our performance is intrinsically linked to the

production and sales of automobiles across vehicle categories. Any slowdown in OEM demand could result in reduced procurement by our Tier-I customers, which may materially affect our revenues and profitability.

According to industry reports, in Financial Year 2024 the distribution of domestic auto component sales across automobile categories in India was led by passenger vehicles (44%), followed by two-wheelers (19%), light commercial vehicles (16%), medium and heavy commercial vehicles (9%), tractors (7%), three-wheelers (3%), and construction/earth-moving equipment (2%). While this reflects a balanced demand base, it underscores the structural dominance of the passenger vehicle segment. A downturn in passenger vehicle sales, rural weakness impacting two-wheelers or tractors, or volatility in freight and infrastructure activity affecting commercial vehicles could directly translate into lower order volumes for our Company (*Source: D&B Industry Report*).

The Indian auto component aftermarket, valued at approximately ₹838.7 billion in Financial Year 2024 out of a total market size of ₹6.1 trillion, provides some stability to the industry. However, aftermarket demand is also subject to variations arising from improved durability of OE-fitted parts, adoption of EVs (which require fewer replacement parts), and changes in vehicle usage cycles. As our Company is predominantly focused on OEM-linked supplies with limited participation in the aftermarket, any downturn in OEM demand is likely to have a disproportionate impact on our operations compared to peers with a stronger aftermarket presence (*Source: D&B Industry Report*).

The automotive market is influenced by multiple factors including changes in government policies, regulatory requirements, economic and demographic trends, employment and income levels, interest rates, fuel prices, and consumer preferences. Any adverse change in these factors could reduce OEM demand and, consequently, Tier-I procurement from us.

In the event of a decrease in demand in the passenger vehicle market, or if developments make the supply of components in this segment less economically beneficial, our business and profitability could be disproportionately affected compared to players with more diversified portfolios. In addition, technological shifts such as accelerated adoption of EVs, changes in safety or emission norms, or increased localization of supply chains may alter the component demand profile in the industry. If we are unable to adapt our operations and product portfolio in line with such changes, our results of operations and financial condition may be materially and adversely affected.

6. ***Mr. Basant Lal Kheria, who is deemed to be part of the Promoter Group under the SEBI ICDR Regulations, has not provided the requisite information, and our disclosure regarding him is based only on publicly available information.***

Our Company had filed an exemption application dated May 19, 2025, under Regulation 300(1)(c) of the SEBI ICDR Regulations seeking an exemption from identifying and disclosing Mr. Basant Lal Kheria (Brother of Mr. Tara Chand Kheria and Spouse's Brother of Mrs. Santosh Devi Kheria) as part of the Promoter Group, as he is deemed to be immediate relative of our Promoters in terms of Regulation 2(pp) of the SEBI ICDR Regulations (the "Relevant Persons"):

Despite repeated requests, Mr. Basant Lal Kheria has not provided the requisite confirmations, undertakings, or personal information, including declarations regarding their interests in any body corporates or entities.

SEBI, pursuant to its letter dated July 11, 2025, rejected our exemption request and directed our Company to include him and his connected entities as part of the Promoter Group of our Company and to provide applicable disclosures based on information available in the public domain.

In view of the non-receipt of the relevant confirmations and undertakings from him and in order to comply with the disclosure requirements specified under the SEBI ICDR Regulations, our Company has disclosed such details in the section titled "***Our Promoters and Promoter Group***" of this Draft Red Herring Prospectus at page 183 only to the extent available and accessible to our Company from publicly available sources. However, given that such disclosures are based solely on publicly available information, our Company has not been able to identify any body corporate in which 20% or more of the equity share capital is held by him or by any entities in which he may be member or connected entities. Consequently, our Company has not been able to identify all entities which may be considered as part of the Promoter Group under the SEBI ICDR Regulations or provide factual confirmations required to be made in this regard.

There can be no assurance that all relevant and/or complete disclosures pertaining to him and his connected entities, as member of the Promoter Group of our Company, have been included in this Draft Red Herring Prospectus. To that extent, the incremental disclosures made in the section titled "***Our Promoters and Promoter Group – Our Promoter Group***" on page 183 in relation to the Relevant Persons and/or their connected entities are limited and based solely on information published in the public domain.

7. ***There have been instances of delayed filings in the past with certain Regulatory Authorities. If the Regulatory Authorities impose any monetary penalties on us or take any punitive actions against our Company in relation to the same, our business, financial condition and results of operations could be adversely affected.***

There have been no instances of delayed filings with respect to Goods and Services Tax ("GST") returns, Profession Tax ("PT"), and Employees' State Insurance Corporation ("ESIC") payments. However, there have been instances of delayed filings in the past with respect to Provident Fund ("PF") payments. As on the date of this Draft Red Herring Prospectus, no penalties have been

levied on our Company for such delays. We cannot assure you that such delays will not recur in the future or that no penalties will be levied. In the event that regulatory authorities impose monetary penalties on us or take punitive action in relation to such delays, our business, financial condition and results of operations could be adversely affected.

Delays in PF compliance may result in penalties, late fees, and interest charges, thereby increasing compliance costs and impacting cash flows. Such non-compliances may also attract regulatory scrutiny, including audits, investigations, or other proceedings, which could strain management resources and divert attention from business operations. Furthermore, reputational risks arising from delayed PF compliance may erode stakeholder confidence and adversely affect relationships with employees, customers, suppliers, and business partners.

As confirmed by the certificate dated September 27, 2025 issued by M/s. V. Goyal & Associates, Chartered Accountants, statutory auditors of our Company, there is no statutory amount pending for payment which has become due, and no statutory return filing which has become due is pending as on date. The details of previous delays in PF payments are as under:

#### **PF Payment**

<b>Sr. No.</b>	<b>Month</b>	<b>Due date of Payment</b>	<b>Actual Date of Payment</b>	<b>Delay (in days), if any</b>
1	DEC-2024	15/01/2025	18/01/2025	3
2	SEP-2022	15/10/2022	17/10/2022	2

Any non-compliance with statutory obligations, even if inadvertent, can result in financial penalties, increased compliance costs, reputational harm, and potential scrutiny from regulatory authorities. Any such consequences could divert management attention, strain our administrative resources, and adversely affect our business, financial condition and results of operations. We cannot assure you that our internal compliance systems will be sufficient to prevent future defaults. Any future lapse may result in adverse regulatory consequences or impact stakeholder confidence.

8. ***Our Company has in the past been non-compliant with certain provisions of the Companies Act, 1956 and the Companies Act, 2013, and may be subject to penalties for such non-compliances.***

In the past, there have been discrepancies in filings with the Registrar of Companies (“RoC”) and other non-compliances under the Companies Act, 1956 and the Companies Act, 2013 which may result in penalties. There may have been certain instances of irregularities, discrepancies and non-compliances with respect to certain corporate actions taken by our Company in the past. Consequently, we may be subject to regulatory actions and penalties.

As per the records of the Company, the details of the major discrepancies are as follows:

<b>Particulars</b>	<b>Non-Compliance / Discrepancy</b>
<b>Secured loan – ICICI Bank</b>	Form CHG-1 was not filed by the Company. However, the car loan was repaid by the Company.
<b>Form BEN-2</b>	Delay in reporting of certain significant beneficial ownership by one of our Promoters, Mr. Vinay Kheria. Form BEN-1 was filed on September 24, 2025, and the corresponding Form BEN-2 was filed thereafter with a time lag. No additional fees were levied by the RoC. A suo moto adjudication application was filed with the Ministry of Corporate Affairs by the Promoter on September 27, 2025.

In the past, there have also been instances of delays in filing statutory forms which were subsequently filed by payment of additional fees as specified by the RoC. Further, our Company filed an adjudication application with the RoC for reduction of the minimum number of shareholders below seven, and a penalty was imposed and duly paid by our Company and its Directors.

Our Company has made the requisite filings with payment of additional fees to the Ministry of Corporate Affairs, as applicable. Where required, our Company has also paid penalties or filed adjudication applications to regularise such discrepancies. To mitigate the risk of recurrence of such instances, our Company has appointed a qualified Company Secretary to oversee secretarial compliances and ensure timely and accurate filings. While we endeavour to file the requisite e-forms within the prescribed timelines, there can be no assurance that there will be no delays in the future. Although in the past we have not been subject to any penal action on account of these non-compliances (other than penalties already imposed and paid), we cannot assure that we will not be subject to penal action in the future. In addition, the Company has not maintained some paid challans and therefore the delay in filing of certain forms, if any, with the RoC cannot be determined.

9. ***Our operations are dependent on injection moulding machines and robotic systems procured from third-party manufacturers. Any failure, breakdown, obsolescence, delay in procurement of spare parts, or inability to adapt to newer technologies could adversely impact our business, financial condition and results of operations.***

Our manufacturing operations rely significantly on injection moulding machines and robotic systems procured from third-party manufacturers, such as Milacron. As of the date of this Draft Red Herring Prospectus, we have 30 injection moulding machines with capacities ranging from 120 tons to 1,700 tons installed at our manufacturing facility, in addition to multiple robotic systems and automated assembly lines that ensure consistency and efficiency in production. These machines and systems are capital intensive, require regular maintenance, and have a finite operational life.

Any breakdown, malfunction, or technical failure of our machinery could lead to unplanned stoppages, production delays, or inability to meet customer specifications. Further, sourcing spare parts or technical expertise often requires reliance on equipment manufacturers or authorised suppliers, which may involve significant lead times and costs. Such delays in the procurement of spare parts or technical services could further exacerbate production disruptions.

In addition, technological advances in injection moulding and automation systems are continuous, and our ability to remain competitive depends on adapting to newer technologies, upgrading our machinery, and integrating automation. Failure to adopt new technologies in line with industry trends could result in higher production costs, quality issues, and loss of competitiveness against other suppliers with more advanced facilities. Conversely, any investment in technology upgradation entails significant capital expenditure and may not yield the anticipated benefits within the expected timelines.

Any prolonged downtime, reduced efficiency, or inability to adapt to technological changes could adversely affect our capacity utilisation, ability to fulfil customer orders in a timely manner, quality assurance, and overall profitability.

10. ***We have experienced negative cash flows in the past. Any negative cash flows in the future would adversely affect our cash flow requirements, which may adversely affect our ability to operate our business and implement our growth plans, thereby affecting our financial condition.***

We have experienced negative cash flows in the recent past. The following table sets forth our cash flows for the period and Financial Year indicated as per our Restated Financial Statements:

(₹ in lakhs)			
Particulars	Financial Year 2025	Financial Year 2024	Financial Year 2023
Net cash flow from operating activities	839.94	982.22	1,464.55
Net cash flow generated from (used in) investing activities	(1,797.72)	(1,533.29)	(1,134.56)
Net cash generated from/ (used in) financing activities	968.93	539.17	(334.28)
Net increase / (decrease) in cash and cash equivalents	11.14	(11.89)	(4.29)

We had net cash outflow from the (i) investing activities in last three financial years primarily due to purchase of property, plant and equipment's and increase in fixed deposits; and (ii) financing activities in FY23 which was primarily attributable to repayment of short-term borrowings and payment of interest.

Any negative cash flows in the future could adversely affect our business, results of operations and financial condition. For further details, see “***Management’s Discussion and Analysis of our Financial Condition and Results of Operations – Cash Flows***” on page 200. Negative cash flows over extended periods or significant negative cash flows in the short term, could materially impact our ability to operate our business and implement our growth plans. We cannot assure you that our net cash flows will be positive in the future. In the event we witness negative cash flows in the future, our results of operations, cash flows and financial condition may be adversely affected.

11. ***For our proposed new manufacturing facility, we are required to obtain certain statutory approvals, clearances, and permissions from the relevant authorities in connection with the planned capital expenditure. If we are unable to obtain such approvals in a timely manner, or at all, our proposed expansion may be delayed, which could adversely affect our business, results of operations, cash flows, and financial condition.***

Our operations are subject to various statutory and regulatory approvals, licences, registrations, and permits required under applicable laws. These include approvals relating to environmental, labour, factory operations, fire safety, stability certificates, and other local authority clearances.

In relation to our proposed capacity expansion at Sanand, we have received approval from GIDC Drawing Approval, the Gujarat Pollution Control Board (GPCB) consent to establish. However, we are yet to apply for certain other approvals, including the factory licence, the Gujarat Pollution Control Board (GPCB) consent to operate, fire no-objection certificate (NOC), stability certificate etc.. If we are unable to obtain these approvals, or if there is a delay in obtaining them, our capacity expansion project may be delayed, which could adversely impact our ability to commence commercial production within the envisaged timelines.

Further, any delay in receiving approvals may also increase the overall project cost. This could arise due to factors such as escalation in plant and machinery costs, expiry of supplier quotations, fluctuations in interest rates, labour costs, foreign exchange

rates, or changes in regulatory requirements. Such delays or cost overruns could materially and adversely affect our business operations, financial condition, results of operations, cash flows, and liquidity.

For further details of the approvals required and their current status, please refer to the chapter titled “**Government and Other Approvals**” beginning on page 206 , and for details of our proposed capital expenditure, please refer to the chapter titled “**Objects of the Issue**” beginning on page 100 of this Draft Red Herring Prospectus.

**12. Our insurance coverage could prove inadequate to satisfy potential claims or protect us from potential operational hazards and losses which may have a material adverse effect on our business, results of operations and financial condition.**

We have obtained various insurance policies to support our business operations. For further details, see “**Business Overview – Insurance**” on page 152. While we believe that these policies provide adequate protection for ordinary business contingencies, there can be no assurance that they will cover all potential losses or liabilities that may arise in the course of our operations.

Insurance Coverage on Book Value of Assets:

(₹ in Lakhs)			
Particulars	Insurance	Amount of insurable assets	% of total insurable assets as of March 31, 2025 (in %)
Insurable Assets	9,700.00	7,355.24	131.87%

While we believe that such coverage provides a reasonable safeguard against ordinary risks, the extent of insurance may not fully correspond to the replacement value of our assets or to all potential exposures arising from our operations. Insurance contracts are generally subject to exclusions, deductibles, policy limits, conditions precedent, and procedural requirements which may delay recovery or restrict the amount ultimately receivable. Further, our insurance policies may not cover certain risks, such as political risks, labor unrest, cyber-attacks, unforeseen natural calamities, or claims arising from third-party liabilities, product recalls, or business interruptions. Even where coverage is available, claims may be subject to protracted settlement processes, partial payment, or repudiation by insurers.

To the extent that we suffer any loss, damage, or liability that is uninsured, under-insured, or not recoverable in a timely manner, we may be required to bear such losses from our own resources. This could have an adverse effect on our financial condition, cash flows, and results of operations.

**13. Our Company is party to certain legal proceedings. Any adverse decision in such proceedings may have an adverse effect on our business, results of operations and financial condition.**

Our Company, Promoter and Director are party to certain legal proceedings. These legal proceedings are pending at different levels of adjudication before various courts and forums. Mentioned below are the details of the proceedings involving our Company as on the date of this Draft Red Herring Prospectus along with the amount involved.

For further details, please refer to the chapter titled “**Outstanding Litigations and Material Developments**” on page 202 of this Draft Red Herring Prospectus.

14. ***Our business is subject to stringent quality and certification standards, and any failure to maintain such certifications or comply with customer quality audits could result in loss of business, customer confidence and adversely affect our results of operations.***

We are engaged in the manufacturing of plastic injection moulding sub- assembly operations and supplying primarily to the automotive sector. We are currently certified under IATF 16949, which is an internationally recognised quality management system for automotive production and relevant service parts organisations. Retention of such certifications requires continuous adherence to stringent requirements relating to quality management, process control, documentation, and regular audits by accredited certification bodies.

In addition to third-party certifications, our Tier-I customers and OEMs routinely conduct quality audits, process capability evaluations, and supplier assessments at our facilities. These audits typically cover product specifications, defect rates, process stability, environmental compliance, and consistency in delivery performance. Failure to meet customer-mandated quality standards, audit requirements, or technical specifications could lead to rejections of products, imposition of penalties, withdrawal of supplier approvals, or loss of customer contracts.

Maintaining quality systems also entails significant costs for training, testing, equipment calibration, and continuous monitoring. If we fail to maintain such certifications, or if our customers determine that our processes are non-compliant or inferior to those of competitors, it could materially impact our reputation, result in the loss of existing customers, and limit our ability to secure new business.

Further, in case of product recalls, warranty claims, or field failures attributable to defective components supplied by us, we may be required to incur additional costs, bear liability, or provide replacements at our own expense. This may also lead to suspension or termination of supply arrangements by our Tier-I customers.

Accordingly, our inability to consistently maintain quality standards and certifications, or to comply with customer and regulatory quality requirements, could adversely affect our business, financial condition, and results of operations.

15. ***We may be subject to industrial unrest and increased employee costs, which may adversely affect our business and results of operations.***

As of August 31, 2025, our workforce comprised 113 permanent employees. Our employee benefits expense comprise payments made to all the personnel on our payroll and engaged in our operations.

The table below sets forth our employee benefits expense and such as a percentage of total expenses for the period and Financial Year indicated:

Particulars	Financial Year 2025		Financial Year 2024		Financial Year 2023	
	Revenue from Operations	% of revenue from operations	Revenue from Operations	% of revenue from operations	Revenue from Operations	% of revenue from operations
Employee Benefit Expenses	762.27	8.28%	631.54	10.13%	467.99	9.37%

Our processing operations are significantly dependent on the cooperation and continued support of our workforce, particularly our employees and personnel. Strikes or work stoppages by our workforce at our processing facilities could halt our production activities which could impact our ability to deliver customer orders in a timely manner or at all, which could adversely affect the results of our operations and reputation. We do not have any registered labour unions at our processing facilities and there have been no disruptions to our processing operations during the Financial Year 2025, Financial Year 2024 or Financial Year 2023 on account of labour-related disputes including strikes, lockouts, or collective bargaining arrangements. However, there can be no assurance that we will not experience work disruptions in the future due to disputes or other problems with our workforce. Any such event, at our current facilities or at any new facilities that we may commission in the future, may adversely affect our ability to operate our business and serve our customers, and impair our relationships with certain key customers, which may adversely impact our business, results of operations, cash flows and financial condition.

16. ***Our past performance may not be indicative of our future growth. An inability to effectively manage our growth and expansion may have a material adverse effect on our business prospects and future financial performance.***

We have experienced growth over the past three Financial Years. Our revenue from operations has grown at a CAGR of 35.78% from ₹ 4,994.02 Lakhs in Financial Year 2023 to ₹ 6,231.93 Lakhs in Financial Year 2024 and from ₹ 6,231.93 Lakhs in Financial Year 2024 to ₹ 9,207.17 Lakhs in Financial Year 2025. The table below sets forth provides the details of our revenue from operations for the financial years ended March 31, 2025, March 31, 2024, and March 31, 2023:

(₹ in Lakhs)

Particulars	March 31, 2025	March 31, 2024	March 31, 2023
Revenue from Operations	9,207.17	6,231.93	4,994.02

Sustaining our growth will require investments including in assets and will also put pressure on our ability to effectively manage and control historical and emerging risks. There can be no assurance that our growth strategy will be successful or that we will be able to continue to maintain and expand our production levels at the same rate. Any expansion in the size of our business and the scope and complexity of our operations could strain our internal control framework and processes, which may result in delays, increased costs and lower quality products. We may be unable to effectively manage this growth or achieve the desired profitability in the expected timeframe or at all.

**17. *Our financing agreements impose certain restrictions on our operations, and our failure to comply with operational and financial covenants may adversely affect our business and financial condition.***

As per the Restated Financial Statements, we have total borrowings (long term and short-term including current maturity) outstanding amounting to ₹ 3,090.24 lakhs, ₹ 1,882.62 lakhs and ₹ 1,161.36 lakhs for the Financial Years 2025, 2024 and 2023 respectively. Some of our financing arrangements impose restrictions on the utilization of the loan for certain specified purposes only, such as for the purposes of meeting specific capital expenditure, working capital use and related activities.

We are required to obtain prior consent from the lender prior to undertaking certain matters including any change in the capital structure, promoter shareholding, promoter directorship resulting in change in management control, opening a new current account with any other bank, change in name or trade name of the Company, effect any dividend payout in case of delay in debt servicing or breach of any financial covenants, change in accounting standards and accounting year, amendments in our Company's constitutional documents and enter into any scheme of merger, amalgamation, compromise or reconstruction or do a buy back. Further, in terms of security, we are typically required to create a charge over our movable fixed assets (present and future) and/ or our immovable properties. Our financing agreements also generally contain certain financial covenants including the requirement to maintain, among others, specified debt-to equity ratios. In addition, lenders under our credit facility could foreclose on and sell our assets if we default under our credit facilities. For further details, see "**Financial Indebtedness**" beginning on page 194 of this Draft Red Herring Prospectus.

If we are unable to comply with the covenants and conditions set forth in our financing agreements, or if we fail to obtain the necessary consents from our lenders, this could result in an event of default under such agreements. This may give our lenders the right to enforce their security, accelerate repayment, or impose additional restrictions on our operations, which could adversely impact our business, financial condition, and cash flows. Additionally, failure to comply with these covenants may restrict our ability to raise further financing, which could limit our growth prospects and operational flexibility.

**18. *Delays in the schedule of implementation of our proposed new manufacturing unit may adversely affect our business operations and financial results.***

Our Company has commenced civil construction at the proposed new manufacturing facility site, and the project is expected to be completed by June 2026, with the Commercial Operations Date (COD) scheduled for July 2026 (*Source: Cost Vetting Report issued by D&B*). For further details, refer to "**Objects of the Issue**" on page 100. The successful and timely completion of this project is dependent on several internal and external factors, including receipt of requisite approvals and permits, availability of financing, timely supply of equipment and materials, engagement and performance of contractors, availability of labor, and unforeseen site or environmental conditions.

Any delay in adhering to the proposed implementation schedule, cost overruns, or inability to commission the unit within the expected timelines may result in postponement of commercial operations, escalation in project costs, and loss of anticipated benefits. Such delays could adversely affect our business expansion plans, operational capacity, revenue growth, and overall financial condition.

**19. *Our Promoters/Directors have provided personal guarantees for loan facilities obtained by our Company, and any failure or default by our Company to repay such loans in accordance with the terms and conditions of the financing documents could trigger repayment obligations on them, which may impact their ability to effectively service their obligations as our Promoters/Directors and thereby, impact our business and operations.***

According to the terms and conditions of Bank sanction letter, our Promoters/Directors have provided personal guarantees to our Company to secure our existing borrowings and may, post listing of our Equity Shares, continue to provide such guarantees and other security. In case of a default under our loan agreements, any of the guarantees provided by our Promoter and Director may be invoked, which could negatively impact the reputation of our Company. We may face certain impediments in taking decisions in relation to our Company, which in turn would result in a material adverse effect on our financial condition, business, results of operations and prospects and would negatively impact our reputation.

Furthermore, in the event that our Promoters and Directors withdraw or terminate their guarantees, our lenders for such facilities may ask for alternate guarantees, repayment of amounts outstanding under such facilities, or even terminate such facilities. In

addition, our Promoter and Directors may be required to liquidate his shareholding in our Company to settle the claims of the lenders, thereby diluting his shareholding in our Company. We may also not be successful in procuring alternate guarantees satisfactory to the lenders, as a result may need to repay outstanding amounts under such facilities or seek additional sources of capital, which could affect our financial condition and cash flows. For further details regarding loans availed by our Company, please refer “**Financial Indebtedness**” on page 194 .

20. ***We are required to obtain and maintain statutory and regulatory approvals for our business and manufacturing operations, and any delay or failure in obtaining or renewing them may adversely affect our business.***

Our business and manufacturing operations require us to obtain and maintain several statutory and regulatory licenses, permits, and approvals in India. These include, among others, consents to operate and consents to manufacture under applicable environmental laws, as well as registrations, permissions, and approvals from various government and regulatory authorities. For further details on the approvals obtained by us, including their validity, please refer to “**Government and Other Approvals**” on page 206.

A majority of these approvals are granted for a limited duration and require periodic renewal. While we intend to apply for renewals as and when they fall due, we cannot assure you that such renewals will be granted to us in a timely manner, or at all. In the event of delay or non-receipt of any required approval or renewal, we may be subject to regulatory actions, penalties, or suspension of operations at a facility that does not have the requisite approvals. Any such instance could materially and adversely affect our business, financial condition, results of operations, and cash flows.

21. ***We are dependent on third parties for the supply of utilities such as Power and fuel, and any disruption in the supply of such utilities could adversely affect our manufacturing operations.***

Our manufacturing operations are significantly dependent on uninterrupted access to power and fuel. These utilities are essential for operating our machinery, ensuring product quality, and maintaining hygiene standards during processing, packaging, and storage. Any disruption or inconsistency in the supply of these utilities may adversely impact our ability to meet production schedules and customer demand.

The table below sets forth our expenses on power and fuel along with their proportion to total expenses during the periods indicated:

Particulars	Financial Year 2025		Financial Year 2024		Financial Year 2023	
	Expenses	% of revenue from operations	Expenses	% of revenue from operations	Expenses	% of revenue from operations
<b>Power and fuel</b>	285.78	3.10%	287.40	4.61%	196.05	3.93%

(₹ in Lakhs)

Any prolonged or frequent power outages, fuel supply constraints, or imposition of regulatory curbs on utility consumption could result in downtime, delayed deliveries, or even temporary shutdown of operations. This may result in revenue loss, increased maintenance costs, customer dissatisfaction, and reputational harm.

Moreover, fluctuations in the cost of fuel or electricity, which are influenced by global commodity prices, regulatory changes, and geopolitical developments, may significantly affect our production costs.

As we continue to expand our capacity and scale operations, our dependence on reliable and cost-effective supply of electricity, fuel, and water is expected to increase. Any failure to secure stable utility access at competitive prices could adversely affect our production efficiency, financial performance, and ability to fulfil customer expectations.

22. ***We have long-standing relationships with our suppliers. However, we have not entered into any long term contracts with our suppliers for our raw materials and an increase in the cost of, or a shortfall in the availability of such raw materials or our inability to leverage existing or new relationships with our suppliers could have an adverse effect on our business and results of operations.***

Our business depends significantly on the uninterrupted supply and availability of quality raw materials, which we primarily procure through agents and local suppliers. We have long-standing relationship with our suppliers. However, in the usual course of business, we do not enter into any contracts for the supply of our raw materials. The absence of any contracts at fixed prices exposes us to volatility in the prices of raw materials that we require, and we may or may not be able to pass these additional costs onto our customers, which may reduce our profit margins. For details, please refer heading titled ‘**Raw Material**’ in the ‘**Business Overview**’ on page 149 of this Draft Red Herring Prospectus respectively.

In addition to the above, we also face a risk of one or more of our existing suppliers discontinuing their supply to us and any inability on our part to procure raw materials from alternate suppliers in a timely manner, or on commercially acceptable terms,

may adversely affect our operations. If any of the suppliers of raw materials to our Company fail for any reason to deliver raw materials in a timely manner or at all, it may affect our ability to manage our inventory levels and manufacture our products. This may also result in an increase in our procurement costs which we may or may not be able to pass on to our customers.

Our Company in the last three preceding Financial Years has not faced any instances of discontinuance in supply of raw material by our suppliers. However, even though our Company endeavours to maintain cordial relationships with its raw materials suppliers, there can be no assurance that we will be able to effectively manage the relationships or that we will be able to enter into long term arrangements with new raw materials at attractive terms or at all. If we fail to successfully leverage our existing and new relationships with suppliers, our business and financial performance could be adversely affected.

**23. *Rapid technological changes in the electric vehicle (“EV”) segment may require us to adapt our products and capabilities, and failure to do so could adversely affect our business.***

We supply plastic injection components to Tier-I vendors serving OEMs across both internal combustion engine (ICE) and electric vehicle (EV) platforms. In the EV segment, the use of engineered plastics is increasingly important for under-the-hood components, battery housings, thermal management systems, and modular enclosures for power electronics, driven by the need for battery weight reduction, space optimization, aerodynamic efficiency, and modular vehicle platforms. These factors create new opportunities for plastic moulded parts but also require continuous design adaptation and alignment with evolving OEM requirements.

The EV industry is undergoing rapid technological change, with constant innovations in design, material selection, safety standards, and regulatory specifications. Any shift in OEM requirements, adoption of alternative materials, or stricter regulations may require us to modify our product portfolio, invest in new tooling or processes, and develop enhanced engineering capabilities. While our existing moulding technology is suitable for both ICE and EV platforms, there can be no assurance that it will continue to meet evolving customer expectations in the EV segment. Failure to adapt in a timely and cost-effective manner could limit our ability to capture emerging EV opportunities and may adversely affect our business, financial condition, and results of operations.

**24. *Excess rate of attrition amongst the personnel engaged by our Company may have an adverse impact on our business operations.***

Our operations are dependent on our ability to attract and retain qualified personnel. We currently have adequate qualified personnel for our operations, we may not be able to continuously attract or retain such personnel, or retain them on acceptable terms, given the demand for such personnel.

As set out below are the details of our attrition for our permanent employees for the period indicated:

Particulars	Financial Year 2025	Financial Year 2024	Financial Year 2023
Total Number of Permanent Employees**	82	68	66
Average attrition rate of our permanent employees(%)*	2.86%	3.30%	3.69%

\*Attrition rate has been calculated by dividing the total number of permanent employees who resigned during the year/ period with the average of opening and closing total head count of the permanent employees during the respective year/ period.

\*\* Permanent employees exclude Directors and KMPs.

For further details of the breakdown of our employees by functionalities as of August 31, 2025, see “**Business Overview – Human Resources**” on page 150. We cannot assure you that the attrition rates of our permanent employees will not increase which may lead to an increase in our training and recruitment costs, which may have an adverse impact on our profitability and financial condition. We may require a long period of time to hire and train replacement personnel when qualified personnel terminate their employment with our Company. We may also be required to increase our levels of employee compensation more rapidly than in the past to remain competitive in attracting employees that our business requires. The cost of hiring and retaining our personnel affects our profitability, and is affected by a number of factors, including our ability to hire and assimilate new employees; our ability to manage attrition; our need to devote time and resources to training, professional development and other non-chargeable activities; and our ability to manage our workforce. Our business and the implementation of our strategy is also dependent upon our Key Managerial Personnel who oversee our day-to-day operations, strategy and growth of our business. For further details, see “**Our Management**” on page 170.

If one or more members of our Key Managerial Personnel are unable or unwilling to continue in their present positions, such persons could be difficult to replace in a timely and cost-effective manner. There can be no assurance that we will be able to retain these personnel. The loss of our Key Managerial Personnel or members of our Senior Management or our inability to replace such Key Managerial Personnel may restrict our ability to grow, to execute our strategy, to raise the profile of our brand, to raise funding, to make strategic decisions and to manage the overall running of our operations, which would have a material adverse impact on our business, results of operations, financial position and cash flows.

25. ***Our Company has in the past entered into related party transactions and may continue to do so in the future. There can be no assurance that such transactions, individually or in the aggregate, will not have an adverse effect on our Company's financial condition and results of operations.***

Our Company has entered into various transactions with certain related parties. The table below sets forth the total amount of our related party transactions in the ordinary course of business for the Financial Year stated:

Particulars	Financial Year 2025		Financial Year 2024		Financial Year 2023	
	Revenue from Operations (₹ in lakhs)	% of revenue from operations	Revenue from Operations (₹ in lakhs)	% of revenue from operations	Revenue from Operations (₹ in lakhs)	% of revenue from operations
Total related party transactions	9,207.17	5.05	6,231.93	6.21	4,994.02	11.15

For information on all our related party transactions, see “***Financial Information – Note 40 - Related party disclosure***” and the heading titled ‘***Related Party Transactions***’ in “***Restated Financial Statements***” on page 191 of this Draft Red Herring Prospectus.

While we trust that all such transactions are conducted on arm’s length basis, there can be no assurance that we could not have achieved more favourable terms than the transactions entered into with related parties and are not prejudicial to the interest of our Company. It is likely that we will continue to enter into related party transactions in the future. Some of these transactions may require significant capital outlay and there can be no assurance that we will be able to make a return on these investments. Although all related party transactions that we may enter into will be subject to Audit Committee, Board or shareholder approval, as may be required under the Companies Act, 2013 and the SEBI Listing Regulations, as applicable, we cannot assure you that such transactions, individually or in the aggregate, will perform as expected/ result in the benefit envisaged therein, or that we could not have undertaken such transactions on more favorable terms with any unrelated parties. There can be no assurance that conflicts of interest will not arise which could negatively impact our business and prospects. Further, there can be no guarantee that we will be able to address any such conflicts of interest, that may arise in the future, in our favour.

26. ***Certain sections of this Draft Red Herring Prospectus contain information from D&B Report, which has been commissioned and paid for by our Company and any reliance on such information for making an investment decision in the Issue is subject to inherent risks.***

Certain sections of this Draft Red Herring Prospectus include information based on, or derived from, the D&B Report or extracts of the D&B Report prepared by Dun & Bradstreet, which is not related to our Company, Directors or Promoters. We commissioned and paid for this report for the purpose of confirming our understanding of the industry in connection with the Issue. All such information in this Draft Red Herring Prospectus indicates the D&B as its source. Accordingly, any information in this Draft Red Herring Prospectus derived from, or based on, the D&B Report should be read taking into consideration the foregoing.

Industry sources and publications are also prepared based on information as of specific dates and may no longer be current or reflect current trends. Further, the D&B Report is not a recommendation to invest / disinvest in any company covered in the D&B Report. Accordingly, prospective investors should not place undue reliance on or base their investment decision solely on this information.

In view of the foregoing, you may not be able to seek legal recourse for any losses resulting from undertaking any investment in the Issue pursuant to reliance on the information in this Draft Red Herring Prospectus based on, or derived from, the D&B Report. You should consult your own advisors and undertake an independent assessment of information in this Draft Red Herring Prospectus based on, or derived from, the D&B Report before making any investment decision regarding the Issue. Please see section titled “***Industry Overview***” on page 122. For the disclaimers associated with the D&B Report, please see section titled “***Certain Conventions, Presentation of Financial, Industry and Market Data***” on page 16.

27. ***We are dependent on our manufacturing unit and any disruption, slowdown or shutdown of our manufacturing units may restrict our operations and adversely affect our business and financial condition.***

Our business is heavily reliant on the uninterrupted operations of our manufacturing unit located in Gujarat, where we carry out the complete manufacturing of plastic injection moulded components and assemblies for the automobile and white goods industries. As we do not operate multiple facilities, any disruption at this single unit may materially impact our ability to meet production and delivery schedules. For details of immovable properties of our Company, please see “***Business overview – Immovable Property***” at page 151.

A critical stage in our process is the precision plastic injection moulding of automotive components, which requires strict control over temperature, pressure, and cycle times to ensure consistency, structural integrity, and dimensional accuracy of

the final products. Any issue in plastic moulded components manufacturing, misalignment, or delays in setup can interrupt the manufacturing process and lead to production loss.

Operational risks such as equipment failure, electrical outages, overheating, or even minor mechanical faults in temperature control or quenching units could cause delays in production and require costly repairs or downtime. Additionally, we carry out periodic planned maintenance and may occasionally face short-term production halts due to customer audits, inspections, or testing requirements.

While we have not experienced any major operational breakdowns or safety incidents to date, and we follow preventive maintenance schedules and quality checks, there can be no assurance that such disruptions will not occur in the future. Any significant malfunction or delay in resuming operations may affect our ability to fulfill customer orders, impact revenue recognition, and strain profitability.

**28. *Our agreements with Tier-I customers impose obligations relating to quality standards, timely delivery, and defect liability, and any failure to meet such obligations may impact our business operations.***

We have entered into agreements with certain Tier-I customers under which we are required to supply products in strict compliance with their prescribed quality specifications and delivery schedules. These agreements also contain provisions requiring us to bear the cost of rectifying, replacing, or compensating for any defective products supplied by us. Accordingly, in the event that our products fail to meet the agreed standards, or if there are delays in supply, we may be required to incur additional costs towards replacement, rework, or penalties.

The extent of our liability under such agreements is dependent on the nature and scale of the defect or delay and could range from minor adjustments to significant replacement costs. While we endeavour to maintain consistent quality and timely supply, unforeseen events such as raw material issues, technical breakdowns, labour shortages, or supply chain disruptions may affect our ability to fully comply with these obligations.

Further, any repeated deviations from agreed standards could adversely affect our relationships with Tier-I customers, resulting in reduced order volumes or termination of supply arrangements. Since our Tier-I customers themselves cater directly to OEMs and are subject to strict obligations from them, any non-compliance on our part may have a cascading effect across the supply chain, increasing the risk of claims or reputational harm.

Any such developments could increase our operating costs, affect our margins, and have an adverse impact on our business, financial condition, and results of operations.

**29. *Any non-compliance by our Company with changes in, safety, health and environmental legislations and other applicable laws, may adversely affect our business, results of operations and financial condition.***

The operations of our Company are subject to a broad range of safety, health, environmental, labour, workplace and related laws and regulations in the jurisdictions in which we operate, which impose controls on the disposal air and water discharges; on the storage, handling, discharge and disposal of waste, and other aspects of our operations. Any accidents at our manufacturing plant may result in personal injury or loss of life of our workmen, substantial damage to or destruction of property and equipment resulting in the suspension of operations. Any of the foregoing could subject us to litigation claims which may increase our expenses in the event we are found liable, and could adversely affect our reputation. Additionally, the government or the relevant regulatory bodies may require us to shut down our facilities, which in turn could lead to product shortages that delay or prevent us from fulfilling our obligations to customers.

Our Company being into manufacturing of products, is also subject to the laws and regulations governing relationships with employees such as minimum wage and maximum working hours, overtime wages, working conditions, hiring and termination of employees, contract labour and work permits. Though, there have not been any instances of non-compliances by the Company having adverse impact on the business of the Company, we cannot assure you that we will not be involved in future non-compliances, litigation or other proceedings, or be held liable in any litigation or proceedings including in relation to safety, health and environmental matters, the costs of which could turn out to be significant. Failure to adhere to any applicable regulations could result in severe consequences, such as fines, penalties, or even operational shutdowns mandated by regulatory authorities. In addition to these financial liabilities, we could face legal actions from government bodies, non-governmental organizations, or affected communities, leading to costly and prolonged litigation. The impact of such litigations could extend beyond immediate financial costs. It could harm our Company's reputation, erode customer trust, and negatively affect our relationships with stakeholders, including investors, suppliers, and customers. The adverse publicity resulting from environmental violations could damage our brand image, making it difficult to secure new business opportunities or retain existing clients.

However, as of date, the Company has not faced any instances of regulatory non-compliance that have resulted in operational disruptions or financial penalties. Maintaining strict adherence to all applicable regulations remains a priority to safeguard business continuity, financial stability, and long-term growth for us.

Moreover, the financial burden of environmental litigations could strain our resources, affecting our ability to invest in growth initiatives, innovation, or other critical areas of our business. This, in turn, could hinder our competitive position in the market and impact our future net earnings. Hence, any non-compliance with environmental laws poses a substantial risk to our business, with the potential to cause financial, legal, and reputational damage that could have long-lasting effects on our operations and financial health.

30. ***Any variation in the utilization of the Net Proceeds as disclosed in this Draft Red Herring Prospectus shall be subject to certain compliance requirements, including prior Shareholders' approval.***

The funding requirements and the deployment (including the schedule of deployment) of the Net Proceeds are based on the current business plan and strategy of our Company. Our Company may have to revise these from time to time as a result of variations including changes in estimates and other external factors, which may not be within the control of the management of our Company. This may entail rescheduling, revising or cancelling the planned expenditure and fund requirement and increasing or decreasing the deployment for a particular purpose from its planned expenditure or changing the schedule of deployment of the Net Proceeds at the discretion of the Board of Directors of our Company, in compliance with applicable law. In accordance with Section 27 of the Companies Act, 2013, we cannot undertake any variation in the utilization of the Net Proceeds or the schedule of deployment of the Net Proceeds as disclosed in this Draft Red Herring Prospectus without obtaining the shareholders' approval through a special resolution. In the event of any such circumstances that requires us to undertake variation in the disclosed utilization of the Net Proceeds, we may not be able to obtain the Shareholders' approval in a timely manner, or at all. Any delay or inability in obtaining such Shareholders' approval may adversely affect our business or operations.

Further, our Promoters or controlling shareholders would be required to provide an exit opportunity to the shareholders who do not agree with our proposal to modify the Objects of the Issue as prescribed in the SEBI ICDR Regulations. If our shareholders exercise such exit option, our business and financial condition could be adversely affected. Therefore, we may not be able to undertake variation of Objects of the Issue to use any unutilized proceeds of the Issue, if any, even if such variation is in the interest of our Company, which may restrict our ability to respond to any change in our business or financial condition and may adversely affect our business and results of operations. For further details of the proposed Objects of the Issue, see "***Objects of the Issue***" on page 100.

31. ***Our funding requirements and the proposed deployment of Net Proceeds have not been appraised by any bank or financial institution or any other independent agency and our management will have broad discretion over the use of the Net Proceeds.***

We intend to utilize the Net Proceeds of the Issue as set forth in "***Objects of the Issue- Utilization of Net Fresh Proceeds***" beginning on page 100. The funding requirements mentioned as a part of the Objects of the Issue are based on internal management estimates, and have not been appraised by any bank or financial institution. This is based on current conditions and is subject to change in light of changes in external circumstances, costs, business initiatives, other financial conditions or business strategies. However, the deployment of Net Proceeds will be monitored by a monitoring agency appointed pursuant to the SEBI ICDR Regulations if the issue size is more than ₹ 5000 lakhs. We intend to deploy the Net Proceeds by the end of FY26 but may have to reconsider our estimates or business plans due to changes in underlying factors, some of which are beyond our control, such as interest rate fluctuations. Accordingly, prospective investors in the Issue will need to rely upon our management's judgment with respect to the use of proceeds. If we are unable to deploy the Net Proceeds in a timely or an efficient manner, it may affect our business and results of operations.

Various risks and uncertainties, including those set forth in this section, may limit or delay our efforts to use the Net Proceeds to achieve profitable growth in our business. Accordingly, use of the Net Proceeds for other purposes identified by our management may not result in actual growth of our business, increased profitability or an increase in the value of our business and your investment.

32. ***The Company are exposed to counterparty credit risk and any delay in receiving payments or non-receipt of payments may adversely impact business, financial condition, cash flows and results of operations.***

We are subject to counterparty credit risk and a significant delay in receiving large payments or non-receipt of large payments may adversely impact our results of operations. Our operations involve extending credit to our customers in respect of sale of our products and consequently, we face the risk of the uncertainty regarding the receipt of these outstanding amounts. Consequently, we face the risk of the uncertainty regarding the receipt of these outstanding amounts. There is no assurance that we will accurately assess the creditworthiness of our customers. Timely collection of dues from customers also depends on our ability to complete our commitments and subsequently bill for and collect from our clients. While we have not faced such incidents in the past, if we are unable to meet our obligations, we may experience delays in the collection of, or be unable to collect, our customer balances, which could adversely affect our results of operations and cash flows.

33. ***We have availed unsecured loans that may be recalled at any time. Our Company has availed unsecured loans which are repayable on demand. Any demand from lender(s) for repayment of such unsecured loans, may adversely affect our cash flows.***

As of March 31, 2025, we have availed unsecured loans aggregating ₹ 224.38 lakhs from related parties that are repayable on demand to them. Such loans are not repayable in accordance with any agreed repayment schedule and may be recalled by the relevant lenders at any time. There can be no assurance that the lenders will not recall such borrowings or if we will be able to repay loans advanced to us in a timely manner or at all. In the event that any lender seeks repayment of any such loan, we would need to find alternative sources of financing, which may not be available on commercially reasonable terms, or at all. As a result, if such unsecured loans are recalled at any time, it may adversely affect our financial condition and results of operations. For further details of unsecured loans of our Company, please refer “Note IV-4 -Details of long-term borrowings as restated” under chapter titled “**Restated Financial Statements**” beginning on page 191.

34. ***Our registered office cum factory premises from where we conduct our manufacturing and administrative operations is not owned by us and is on lease.***

Our registered office cum factory premises from where we conduct our manufacturing and administrative operations is not owned by us and is on lease from Tata Motors Limited (“Lessor”) under a lease agreement dated July 31, 2010, for a period of 35 years. As we do not own these premises, we are exposed to the risks associated with leased properties, including non-renewal or early termination of the agreements. Any non-renewal, termination, or inability to continue occupying these premises on favorable commercial terms may adversely affect our ability to conduct business from our current locations.

Further, any adverse legal or regulatory developments affecting the ownership, title, or usage rights of the Promoter or Promoter Group entities over these properties may also impact our continued access and operations from these premises. Since these properties are critical to our operations, any disruption whether due to a requirement to vacate or due to delays in renegotiating or relocating could lead to interruptions in our manufacturing, administrative, or showroom activities.

In the event we are required to vacate or relocate from our current locations, we would need to make alternative arrangements, and there can be no assurance that such arrangements would be available in a timely manner or on commercially acceptable terms. Relocating our factory or showroom may involve additional capital expenditure, logistical challenges, and potential downtime, all of which could adversely affect our business continuity, profitability, and financial condition. For further details of our registered office, please refer to the chapter titled “**Business Overview – Immovable Property**” starting on page 151.

35. ***Promoters and Directors hold Equity Shares in Company and are therefore interested in Company’s performance in addition to their remuneration and reimbursement of expenses.***

Our Promoters and Directors may be deemed to be interested in our Company, in addition to the regular remuneration or benefits, reimbursements of expenses, Equity Shares held by them or their relatives, their dividend or bonus entitlement, benefits arising from their directorship in our Company. Our Promoters and Directors may also be interested to the extent of any transaction entered into by our Company with any other company or firm in which they are directors or partners.

There can be no assurance that our Promoters and Directors will exercise their rights as shareholders to the benefit and best interest of our Company. Our Promoters and members of our Promoter Group will continue to exercise significant control over our Company, including being able to control the composition of our Board of Directors and determine decisions requiring simple or special majority voting of shareholders, and our other shareholders may be unable to affect the outcome of such voting. Our Directors may take or block actions with respect to our business, which may conflict with the best interests of our Company or that of minority shareholders.

36. ***Our Promoters will be able to exercise significant influence and control over us after the Issue and may have interests that are different from or conflict with those of our other shareholders.***

As on the date of this Draft Red Herring Prospectus, our Promoters collectively hold 89.93% of the paid-up Equity Share capital of our Company. Post-Issue, the Promoters will continue to collectively hold substantial shareholding in our Company. For details of their shareholding pre and post-Issue, see “**Capital Structure**” on page 77. By virtue of their shareholding, our Promoters will have the ability to exercise significant control and influence over our Company and our affairs and business, the timing and payment of dividends, the adoption of and amendments to our Memorandum and Articles of Association, the approval of a merger or sale of substantially all of our assets and the approval of most other actions requiring the approval of our shareholders. The interests of our Promoters may be different from or conflict with our interests or the interests of our other shareholders in material aspects and, as such, our Promoters may not make decisions in our best interests.

37. ***We could incur losses under our purchase orders with our customers or be subjected to disputes or contractual penalties as a result of delays in delivery or failures to meet product specifications or delivery schedules, which may have a material adverse effect on our business, results of operations, cash flows, and financial condition.***

Our business model is primarily based on purchase orders placed by Tier-I vendors for specific volumes of plastic injection moulded components and assemblies. These purchase orders set out critical requirements such as product specifications, quality standards, timelines for delivery, and pricing. Unlike long-term contracts, purchase orders are binding only for the short term and place considerable responsibility on us to ensure consistent compliance with technical and delivery requirements.

If we are unable to manufacture and deliver products in accordance with the agreed specifications, timelines, or quality standards, our customers may reject such products, delay payments, impose liquidated damages or penalties, or initiate claims against us. In some cases, customers may also require us to provide replacements at our own cost or discontinue sourcing from us. Such outcomes could result in financial losses, disruption of customer relationships, and reputational damage.

Our obligations are further heightened because many of the components we supply are critical sub-assemblies used in passenger vehicles and white goods. Even minor deviations from agreed specifications or delays in delivery may affect our customers' production schedules, which could expose us to significant claims or penalties. Moreover, with increasing reliance on automation and robotics, any equipment breakdown or process instability could adversely impact our ability to meet customer timelines.

While we have adopted lean manufacturing practices, Kaizen initiatives, and quality control systems to minimise risks of non-conformance, there can be no assurance that disputes, rejections, or penalties will not arise in the future. Any such events could adversely affect our business operations, financial performance, cash flows, and overall financial condition.

38.  ***Our Logo registration status is currently under process. Failure to obtain the trademark registration could lead to difficulties in identification or mistaken association if the trademark is not officially registered under our name. This could potentially result in brand confusion, loss of market recognition, and legal challenges regarding the use of our logo.***

The risk pertains to the current status of our trademark logo, which is under registration process. If we fail to secure the trademark registration, it poses several potential challenges and implications for our brand identity and legal standing. Firstly, without a registered trademark, we lack the legal protection and exclusive rights associated with owning the trademark. This means that other entities could potentially use a similar or identical logo, leading to brand confusion among consumers. Customers may struggle to distinguish our products or services from those of competitors, resulting in a loss of market share and revenue. Moreover, not having our trademark registered under our name opens the door to possible trademark infringement issues. If another entity registers a similar trademark before us, they could legally prevent us from using our own logo. This scenario not only undermines our brand recognition but also puts us at a disadvantage in the marketplace. Additionally, the absence of a registered trademark could hinder our ability to enforce our intellectual property rights. Without a legally recognized trademark, it becomes more challenging to take legal action against unauthorized use or infringement of our logo. This leaves us vulnerable to exploitation by third parties seeking to capitalize on our brand reputation without permission. Overall, the failure to obtain trademark registration poses significant risks to our brand identity, market positioning, and legal standing.

39. ***Our inability to accurately forecast demand for our products and manage our inventory may have an adverse effect on our business, financial condition, results of operations and cash flows.***

The results of operations of our business are dependent on our ability to effectively manage our inventory and stocks. To effectively manage our inventory, we must be able to accurately estimate customer demand and supply requirements and trade inventory accordingly. If our management has misjudged expected customer demand it could adversely impact the results by causing either a shortage of products or an accumulation of excess inventory. Further, if we fail to sell the inventory, we may be required to dispose of our inventory or pay our suppliers without new purchases, or create additional vendor financing, which could have an adverse impact on our income and cash flows. We estimate our sales based on the forecast, demand and requirements and also on the customer specifications. Natural disasters such as earthquakes, extreme climatic or weather conditions such as floods or droughts may adversely impact the supply of our products and local transportation. Should our supply of our products be disrupted, we may not be able to procure an alternate source of supply in time to meet the demands of our customers. Such disruption to supply would materially and adversely affect our business, profitability and reputation.

The following table sets forth details on our inventory levels, as per our Restated Financial Statements, as of and for the years indicated:

Particulars	March 31, 2025	March 31, 2024	March 31, 2023
Inventory (₹ in Lakhs)	185.29	104.16	83.67
Inventory holding days	10.96	9.58	9.12

In the past we have not experienced any instances of disruptions to the delivery of product to our customer occurred for reasons such as poor handling, transportation bottlenecks which could have led to delayed or lost deliveries or damaged products and disrupt supply of these products, but there is not guarantee that these instances will not happen in future to improve our line capability, we try to stock our inventory. An optimal level of inventory is important to our business as it allows us to respond to customer demand effectively. If we overstock inventory, our capital requirements will increase and we will incur additional financing costs.

If we under-stock inventory, our ability to meet customer demand and our operating results may be adversely affected. Any mismatch between our planning and actual consumer consumption could lead to potential excess inventory or out-of-stock situations, either of which could have an adverse effect on our business, financial condition and results of operation.

40. ***Our manufacturing operations are concentrated in a single geographic region, and any adverse developments in this region,***

***or inability to competitively serve other regions, could disrupt our business operations and adversely affect our financial performance***

Our manufacturing activities are concentrated in Ahmedabad, Gujarat equipped for manufacturing our products. We do not have any other manufacturing facilities in other parts of India.

This geographic concentration exposes our business to region-specific risks. Any adverse developments in the Ahmedabad, including industrial unrest, labour strikes, changes in local regulations, environmental restrictions, transportation bottlenecks, or political disturbances, could disrupt our production and supply schedules. Additionally, natural calamities such as floods, earthquakes, or extreme weather events affecting this area could result in partial or complete shutdown of our manufacturing facilities.

Since we do not currently maintain alternate manufacturing locations, any prolonged disruption in operations at our existing facilities could materially impact our ability to fulfil customer orders in a timely manner. This could also lead to penalties under contractual obligations, loss of customers, and reputational harm. The impact of such disruptions could extend to our supply chain as well, as our raw material procurement, vendor network, and distribution arrangements are also largely aligned with the location of our manufacturing units. In the absence of a diversified geographic manufacturing base, our ability to mitigate these risks is limited.

Further, the majority of our current projects and sales are concentrated in certain states and regions. If demand for our products increases in other parts of India, we may not be able to supply our products to those markets at the same cost efficiency as in our current operating regions. Transportation costs, logistical challenges, and regional market dynamics may increase the landed cost of our products in such new geographies, potentially affecting our pricing competitiveness and margins. This could also limit our ability to secure orders in those markets, particularly where we compete with regional manufacturers having local production facilities.

Accordingly, any adverse regional events in or around Ahmedabad, or inability to competitively service markets beyond our current core regions, could have a material adverse effect on our business operations, financial condition, and results of operations.

41. ***We may not be able to prevent unauthorised use of trademarks obtained/ applied for by third parties, which may lead to the dilution of our goodwill. Failure to secure and protect our intellectual property exposes us to infringement, imitation, legal disputes, and potential loss of market share.***

Our Company faces significant risks related to the protection of our intellectual property (IP). Without proper IP protections in place, we are vulnerable to competitors who may copy our products, eroding the uniqueness of our product offerings and potentially leading to loss of market share.

Additionally, there is the risk of inadvertently infringing on the IP rights of other companies, which could result in costly lawsuits and financial penalties. These legal challenges not only threaten our financial stability but could also damage our reputation and disrupt business operations. To mitigate these risks, it is essential for us to invest in robust legal protections to safeguard our innovations.

42. ***Any adverse change in regulations governing our products, may adversely impact our business prospects and results of operations.***

Regulatory requirements affecting our products, are subject to change. Adverse alterations in regulations—such as new licensing requirements, updated technical standards, or more stringent specifications—can significantly impact our operations. We may be required to modify our manufacturing and distribution processes, target different markets, and invest in capital expenditures to comply with these new regulatory demands. As of date, the Company has not faced any instances of non-compliance due to change in regulations governing our products and affecting its ability to manufacture or market its products.

43. ***There is no guarantee that our Equity Shares will be listed on the Emerge Platform of National Stock Exchange of India Limited in a timely manner or at all.***

In accordance with Indian law and practice, permission for listing and trading of our Equity Shares will not be granted until after certain actions have been completed in relation to this Issue and until Allotment of Equity Shares pursuant to this Issue. In accordance with current regulations and circulars issued of SEBI, our Equity Shares are required to be listed on the *Emerge Platform of National Stock Exchange of India Limited* within such time as mandated under UPI Circulars, subject to any change in the prescribed timeline in this regard. However, we cannot assure you that the trading in our Equity Shares will commence in a timely manner or at all. Any failure or delay in obtaining final listing and trading approvals may restrict your ability to dispose of your Equity Shares.

There is no guarantee that we will be able to meet all new regulatory requirements effectively. Non-compliance with updated statutes or regulations could lead to delays in obtaining approvals. Additionally, failure to adhere to the conditions attached to

approvals, licenses, registrations, and permissions could result in regulatory bodies suspending, curtailing, or revoking our ability to market those products.

**44. *Our lenders have charge over our movable and immovable properties in respect of finance availed by us and settlement arrangements may affect perceptions of our credit profile.***

We have secured outstanding debt of ₹ 2,679.00 lakhs as on March 31, 2025 and we have secured our lenders by creating charge over our movable and immovable properties. In the event we default in repayment of the loans availed by us and any interest thereof, our properties may be forfeited by lenders. For further information on the financing and loan agreements along with the total amounts outstanding, please refer to section titled “**Restated Financial Statements**” on page 191.

In the past, our Company had availed a term loan from Allahabad Bank. Due to non-payment of dues, the account was classified as non-performing and subsequently assigned to Omkara Asset Reconstruction Private Limited (“OARPL”). During the financial year 2018–2019, our Company entered into a One Time Settlement (OTS) with OARPL for full and final settlement of outstanding dues amounting to ₹ 1,800 lakhs. Pursuant to the OTS, the matter pending before the Debt Recovery Tribunal (“DRT”) was withdrawn, and the settlement has since been implemented. While this matter is closed, our history of defaults and settlement may affect the perception of our credit profile and could influence our ability to raise funds on favorable terms in the future.

**45. *Certain educational qualification documents of some of our Promoters are currently not traceable.***

Certain copies of educational qualification documents of some of our Promoters are not traceable. In particular, while Mr. Tara Chand Kheria and Mr. Vinay Kheria have furnished marksheets, we do not possess copies of their final passing certificates. Further, in the case of Ms. Santosh Devi Kheria, she does not possess any qualification. As a result, neither we nor the Book Running Lead Manager can independently verify such information, and investors should not place undue reliance on the educational qualifications of these Promoters disclosed in this Draft Red Herring Prospectus. For details of their profiles, see “**Our Management**” on page 170.

We believe that the knowledge, skills, and experience of our Promoters in managing and growing our business is of greater relevance to the operations of our Company than their formal academic qualifications. There can be no assurance that such documents can be traced in the future or that reliance placed on the information provided to us will not be questioned. Any adverse perception regarding the absence of such documents could have an impact on our reputation and, consequently, on our business and operations.

**46. *If we fail to maintain an effective system of internal controls, we may not be able to successfully manage or accurately report our financial risk.***

Effective internal controls are necessary for us to prepare reliable financial reports and effectively prevent and detect any frauds or misuse of funds. Moreover, any internal controls that we may implement, or our level of compliance with such controls, may decline over time. There can be no assurance that additional deficiencies in our internal controls will not arise in the future, or that we will be able to implement and continue to maintain adequate measures to rectify or mitigate any such deficiencies in our internal controls. If internal control weaknesses are identified in a delayed manner, our actions may not be sufficient to correct such internal control weakness. Such instances may also adversely affect our reputation, thereby adversely impacting our business, results of operations and financial condition.

**47. *The weighted average cost of acquisition of Equity Shares held by our Promoters could be lower than the Issue Price.***

Our Promoters’ weighted average cost of acquisition of Equity Shares in our Company may be lower than the Issue Price as may be decided by the Company, in consultation with the Book Running Lead Manager. The details of the average cost of acquisition of Equity Shares held by our Promoters, as at the date of this Draft Red Herring Prospectus is set out below:

Sr. No.	Name	Number of Equity Shares*	Weighted Average cost of acquisition per equity shares (in ₹)
<b>Promoters</b>			
1	Santosh Devi Kheria	34,10,250	8.78
2	Tara Chand Kheria	22,14,500	9.07
3	Vinay Kheria	20,10,250	3.78
4	Sushma Kheria	24,82,250	6.47

\*As certified by M/s. V. Goyal & Associates, Chartered Accountants, being the statutory auditors of our Company, by way of their certificate dated September 27, 2025.

**48. *Reliance on third-party transportation providers for finished goods and the potential impact of transportation disruption.***

Our Company relies heavily on third-party transportation providers for finished goods. These third-party logistics providers are responsible for ensuring the timely and efficient delivery of final goods located domestically. Any failure, delay, or disruption in the transportation services provided by these third parties could have a significant negative impact on our operations.

The risks associated with our reliance on third-party transportation providers include:

1. **Disruptions due to External Factors:** Transportation services may be affected by factors outside our control, such as adverse weather conditions, strikes, labour unrest, political instability, natural disasters, port congestions, or other geopolitical events. Such disruptions can cause delays in delivery of finished goods, leading to customer dissatisfaction or discontinuation.
2. **Logistical Challenges:** Inefficiencies in transportation planning or scheduling, inadequate fleet management, or breakdowns in communication could result in customer discontinuation, further affecting our business growth.
3. **Price Volatility and Rising Costs:** Fuel prices, freight charges, and transportation-related costs are subject to volatility. Any significant increase in these costs could lead to higher operational expenses, potentially reducing our profit margins and affecting the overall cost-efficiency of our supply chain.
4. **Service Quality and Reliability Issues:** If any of our transportation providers fails to deliver finished goods within agreed timelines, it could negatively affect our business. Furthermore, loss or damage to finished goods during transit could result in financial losses and impact our ability to meet customer demand.
5. **Limited Control Over Third-Party Providers:** Since we do not have direct control over the operations of third-party transportation providers, we may face challenges in mitigating risks related to their performance. Any failure on their part to meet our logistical requirements could harm our production efficiency and ability to meet delivery commitments to our customers.

These risks can adversely affect our financial condition, results of operations, and growth prospects.

49. *Safety protocols and programs are developed, implemented and improved. A significant disruption at our manufacturing facilities may adversely affect production schedules, costs, sales and ability to meet customer demand.*

Our business involves complex manufacturing processes that inherently pose risks to employees, equipment, and operations. Despite implementing stringent safety measures and maintaining what we believe to be adequate insurance coverage, the possibility of accidents at our manufacturing facilities cannot be entirely eliminated. Such incidents could lead to property or equipment damage, environmental hazards, production delays, or even temporary suspension of operations. Additionally, accidents may result in litigation, the outcome of which is uncertain and could involve significant legal costs. Any associated negative publicity may further impact our reputation, financial condition, and business prospects.

Production disruptions may also lead to increased costs, reduced sales, and the need for substantial capital expenditures to address damages or defend legal claims. In the event of severe incidents, we may be required to modify or enhance safety measures, which could further impact our profitability. There are no such accidents and events in past, but we cannot assure the same in future. Any prolonged operational downtime or regulatory penalties arising from such events could adversely affect our overall financial performance, growth prospects, and market position.

50. *Technology failures could disrupt operations and adversely affect business operations and financial performance.*

Our business is dependent on the efficient and uninterrupted operation of our technology infrastructure and systems. We leverage our technology infrastructure to maintain our inventory levels and track our production levels, stock and financial data. For further details, see “**Business Overview - Technology**” on page 149.

If we do not allocate and effectively manage the resources necessary to implement and sustain the proper IT infrastructure or tackle instances of employee misconduct and / or frauds, we could be subject to mapping errors and inefficiencies in oversight. Our technology infrastructure is vulnerable to interruption by events beyond our control such as fire, earthquake, power loss, telecommunications or internet failures, terrorist attacks and computer viruses. There have been no such major instances of failures and interruptions to our IT systems in Financial Year 2025, 2024 and 2023 which have adversely affected our business operations.

Unauthorized use of, or inappropriate access to, our networks, computer systems or services could potentially jeopardize the security of confidential information. The techniques used to obtain unauthorized access, disable or degrade service or sabotage systems change frequently and often are not recognized until launched against a target. We may be unable to anticipate these techniques or to implement adequate preventative measures. Non-technical means, such as actions (or inactions) by an employee, can also result in a data breach. We cannot assure you that any security measures taken by us will be effective in preventing these activities. We may need to expend significant resources to protect against security breaches or to address problems caused by such breaches. While there have been no material data breach during the Financial Year 2025, 2024 and 2023 which had a significant impact on our operations, we cannot assure you that such data breaches will not occur in the future.

Any breaches of our IT systems may require us to incur further expenditure on repairs or more advanced security systems. A significant system failure could adversely affect our ability to manage overall operations, thereby adversely affecting our ability

to deliver our services to our customers, our reputation and our revenues. If such interruption is prolonged, our business, results of operations profitability and margins, cash flows and financial condition may be materially and adversely affected. We cannot assure you that our IT systems' service providers will continue to co-operate with us and we will be able to maintain similar relationship with them in the future. In case we decide to change our IT systems' service providers, our services to our customers may get affected.

Further, we may be required to upgrade our technology infrastructure and system to upscale our brand image and maintain the quality of our products. Any significant upgrade to or replacement of our systems could require considerable capital expenditure, which could adversely affect our financial condition. Implementation of technology enhancements also entail risks such as administrative delays and failure to effectively train our personnel to operate new, emerging technologies. In addition, technological advances from time to time may result in our systems, methods or processing facilities becoming obsolete or performing less efficiently compared to newer and better technologies and processes in the future. Certain of our competitors may have access to similar or superior technology or may have better adapted themselves to technological changes. Moreover, we may be unable to anticipate, understand and address the preferences of our existing and prospective customers or to understand evolving industry trends. Our competitors may succeed in developing and offering products that are more effective and cheaper, which may render our products obsolete or uncompetitive. Any of these risks may place us at a competitive disadvantage, limit our growth opportunities and adversely affect our business, results of operations, profitability and margins, cash flows and financial condition.

**51. *Our Company has not paid any dividends in the past and we may not be able to pay dividends in the future.***

Our Company has not declared dividends for any financial year in the past and our Company may not be able to declare dividends in the future. The declaration, payment and amount of any future dividends is subject to the discretion of the Board and Shareholders, and will depend upon various factors, inter alia, our earnings, financial position, capital expenditures and availability of profits, restrictive covenants in our financing arrangements and other prevailing regulatory conditions from time to time. Any of these factors may thus restrict our ability to pay dividends in the future. If we are unable to pay dividends in the future, Realization of a gain on Shareholders' investments will depend on the appreciation of the price of the Equity Shares. There is no guarantee that our Equity Shares will appreciate in value.

**52. *Our Company's future funding requirements, in the form of further issue of capital or other securities and/or loans taken by us, may turn out to be prejudicial to the interest of the shareholders depending upon the terms and conditions on which they are raised.***

Our Company may require additional capital from time to time depending on our business needs and commercial strategies formulated by the management of our Company. However, access to such funding may not always be available on favourable terms or at all. The ability to secure financing depends on various factors, including market conditions, interest rates, credit ratings, and investor confidence in the company's financial performance.

If the Company is unable to raise additional capital when needed, it may have to scale down expansion plans, delay new projects, or seek alternative financing options, which could come at a higher cost. Any further issue of Equity Shares or convertible securities would dilute the shareholding of the existing shareholders and such issuance may be done on terms and conditions, which may not be favorable to the then existing shareholders. If such funds are raised in the form of loans or debt or preference shares, then it may substantially increase our fixed interest/dividend burden and decrease our cash flows, thus adversely affecting our business, results of operations and financial condition.

**53. *Our success depends heavily upon our Promoter, Directors and Key Managerial Personnel for their continuing services, strategic guidance and financial support who are also the natural person in control of our Company.***

Our success heavily depends upon the continued services of our Promoters and Key managerial personnel. We depend significantly on them for executing our day-to-day activities. The loss of any of our Promoters or Key Management Personnel, or failure to recruit suitable or comparable replacements, could have an adverse effect on us. The loss of service of the Promoter and other senior management could seriously impair the ability to continue to manage and expand the business efficiently. If we are unable to retain qualified employees at a reasonable cost, we may be unable to execute our growth strategy. For further details of our Directors and key managerial personnel, please refer to Chapter "***Our Management***" beginning on page 170.

**54. *The Company may undertake acquisitions, investments, joint ventures or other strategic alliances, which may have a material adverse effect on ability to manage business, and such undertakings may be unsuccessful.***

We may not realize the anticipated benefits of future strategic alliances, acquisitions, divestitures, or business strategies. We may in the future enter into strategic alliances, including joint ventures or minority equity investments, with various third parties to further our business purpose from time to time. These investments could subject us to a number of risks, including risks associated with sharing proprietary information with and non-performance by third parties, and increases in expenses in establishing new strategic alliances, any of which may materially and adversely affect our business. We may have limited ability to monitor or control the actions of these third parties. To the extent any of the third parties from our strategic alliance, joint venture, acquisition

or divestiture investments suffers negative publicity or harm to their reputation from events relating to their businesses, we may suffer negative publicity or harm to our reputation by virtue of our association with any such third party.

We cannot assure you that we will be able to identify suitable acquisition opportunities, negotiate favorable terms or successfully acquire identified targets. While we do not believe we are subject to any significant integration risks on account of the acquisition, the success of such acquisition or other acquisitions that we may undertake from time to time depends, in part, on our ability to realize the anticipated growth opportunities and synergies from integrating these businesses, which requires substantial management attention and efforts as well as additional expenditures.

**55. *Certain data mentioned in this Draft Red Herring Prospectus has not been independently verified.***

We have not independently verified data from industry publications contained herein and although we believe these sources to be reliable, we cannot assure that they are complete or reliable. Such data may also be produced on a different basis from comparable information compiled with regard to other countries. Therefore, discussions of matters relating to India and its economy are subject to the limitation that the statistical and other data upon which such discussions are based have not been verified by us and may be incomplete or unreliable.

**56. *We have not made any alternate arrangements in order to meet our capital requirements for the Objects of the Issue.***

We have not identified any alternate source of financing the 'Objects of the Issue'. Any shortfall in raising / meeting the same could adversely affect our growth plans, operations and financial performance. As on date, our Company has not made any alternate arrangements for meeting the capital requirements for the Objects of the Issue. We normally meet our capital requirements through our internal accruals. Any shortfall in the same and our inability to raise debt in future would result in us being unable to meet our capital requirements, which in turn will negatively affect our financial condition and results of operations. Further, we have not identified any alternate source of funding and hence any failure or delay on our part to raise money from this Issue or any shortfall in the Issue proceeds may delay the implementation schedule and could adversely affect our growth plans. For further details, please see "*Objects of the Issue*" beginning on page 100.

**57. *Ability to access capital at attractive costs depends on credit ratings. Non-availability of credit ratings or a poor rating may restrict access to capital and thereby adversely affect business, financial conditions, cash flows and results of operations.***

The cost and availability of capital depends on our credit ratings. Credit ratings reflect the opinion of the rating agency on our management, track record, diversified clientele, increase in scale and operations and margins, medium term revenue visibility and operating cycle. While we have not obtained credit rating in the last three Financial Years, any downgrade in our future credit ratings or our inability to obtain such credit rating in a timely manner in future or any non-availability of credit ratings, or poor ratings, could increase borrowing costs, will give the right to our lenders to review the facilities availed by us under our financing arrangements and adversely affect our access to capital and debt markets, which could in turn adversely affect our interest margins, our business, results of operations, financial condition and cash flows.

**58. *Inability to collect receivables from customers or default in payment by them could result in the reduction of profits and affect cash flows.***

Our business depends on our ability to successfully and timely obtain payments from our customers. Macroeconomic conditions could result in financial difficulties, including insolvency or bankruptcy, for our customers, and as a result could cause customers to delay payments to us or request modifications to their payment arrangements, all of which could increase our receivables or default on their payment obligations to us. Any increase in defaults by our customers in the future may compel us to utilize greater amounts of our operating working capital, thereby adversely affecting our business, results of operations and financial condition. While we have not faced any instances of defaults by our customers in past, there can be no assurance that these instances will not occur in the future.

**59. *The requirements of being a public listed company may strain our resources and impose additional requirements.***

With the increased scrutiny of the affairs of a public listed company by shareholders, regulators and the public at large, we will incur significant legal, accounting, corporate governance and other expenses that we did not incur in the past. We will also be subject to the provisions of the listing agreements signed with the Stock Exchange. In order to meet our financial control and disclosure obligations, significant resources and management supervision will be required. As a result, management's attention may be diverted from other business concerns, which could have an adverse effect on our business and operations. There can be no assurance that we will be able to satisfy our reporting obligations and/or readily determine and report any changes to our results of operations in a timely manner as other listed companies. In addition, we will need to increase the strength of our management team and hire additional legal and accounting staff with appropriate public company experience and accounting knowledge and we cannot assure that we will be able to do so in a timely manner. Failure of our Company to meet the listing requirements of stock exchange could lead to imposition of huge penalties, if any including suspension of trading, imposed by Stock Exchange.

**60. *The Company may not be able to identify or effectively respond to evolving preferences, expectations or trends in a timely***

***manner and a failure to derive the desired benefits from product development efforts may impact competitiveness and profitability.***

The plastic processing industry and automotive components industry is highly influenced by market demand, technological advancements, and evolving consumer preferences. Companies must adapt swiftly to these changes to remain competitive and profitable. Failure to do so can result in reduced market share, declining revenues, and diminished industry relevance.

Factors such as raw material costs, energy prices, and global supply-demand imbalances can increase prices, prompting industries to seek cheaper alternatives like steel, composites, plastics, or copper. This shift could reduce demand, impacting sales and profitability.

Additionally, changing consumer preferences for sustainability present challenges. Companies that fail to adopt sustainable practices risk losing market share to competitors offering more eco-friendly and energy-efficient products.

Delayed product development and lack of innovation also pose risks. Investing in research and development (R&D) is essential to improve product quality and maintain a competitive edge. Failure to innovate or launch new products on time can weaken a company's market position.

Moreover, regulatory and policy changes are reshaping the industry. Stricter environmental laws, carbon emission limits, and recycling mandates can increase operational costs and impact production. Non-compliance may lead to penalties, restricted market access, and reputational damage.

The success of our business depends on our ability to anticipate and respond to evolving consumer trends and preferences. We must continuously innovate and develop new products to meet market demands. However, there is no assurance that our efforts will be successful, timely, or cost-effective. Even if new products are developed, they may not achieve expected sales or market acceptance, affecting growth and profitability.

As we expand our product range and geographic presence, maintaining quality and consistency will become increasingly challenging. Failure to align with consumer expectations or any lapse in quality could harm our brand reputation, customer relationships, and business growth.

To stay competitive, we must continually invest in technology, enhance our product offerings, and monitor market trends. Unexpected shifts in demand or regulatory changes could impact liquidity and financial stability. Adapting swiftly to these changes is crucial for long-term success.

**61. *Failure to successfully implement our business strategies may materially and adversely affect our business, prospects, financial condition and results of operations.***

We aim to implement our business strategies to ensure future business growth, which may be subject to various risks and uncertainties, for business strategies refer “***Business Overview – Business Strategies***” on page 138.

Implementation of our strategies may be subject to a number of risks and uncertainties including the ones mentioned above, some of which are beyond our control. There can be no assurance that we will be able to execute our growth strategy on time and within the estimated costs, or that we will meet the expectations of our clients. In order to manage growth effectively, we must implement and improve operational systems, procedures and controls on a timely basis, which, as we grow and diversify, we may not be able to implement, manage or execute efficiently and in a timely manner or at all, which could result in delays, increased costs and diminished quality and may adversely affect our results of operations and our reputation. Any failure or delay in the implementation of any of our strategies may have a material adverse effect on our business, prospects, financial condition and results of operations.

**62. *Any increase in interest rates would have an adverse effect on our results of operations and will expose our Company to interest rate risks.***

We are dependent upon the availability of equity, cash balances and debt financing to fund our operations and growth. Our secured debt has been availed at floating rates of interest. Any fluctuations in interest rates may directly impact the interest costs of such loans and, in particular, any increase in interest rates could adversely affect our results of operations. Furthermore, our indebtedness means that a material portion of our expected cash flow may be required to be dedicated to the payment of interest on our indebtedness, thereby reducing the funds available to us for use in our general business operations. As per the Restated Financial Statements, we have total borrowings (long term and short-term including current maturity) outstanding amounting to ₹ 3,090.24 lakhs, ₹ 1,882.62 lakhs and ₹ 1,161.36 lakhs for the Financial Years 2025, 2024 and 2023 respectively. Further, for the Financial Years 2025, 2024 and 2023 our Company has incurred ₹ 246.54 lakhs, ₹ 182.22 lakhs, and ₹ 107.06 lakhs towards finance costs respectively.

If interest rates increase, our interest payments will increase and our ability to obtain additional debt and non-fund-based facilities could be adversely affected with a concurrent adverse effect on our business, financial condition and results of operations. For further details, please refer chapter titled “***Financial Indebtedness***” on page 194 of this Draft Red Herring Prospectus.

63. ***Our management will have broad discretion in how we apply the Net Proceeds, including interim use of the Net Proceeds, and there is no assurance that the objects of the Issue will be achieved within the time frame expected or at all, or that the deployment of the Net Proceeds in the manner intended by us will result in any increase in the value of your investment.***

We intend to use Net Proceeds from the Issue towards (a) Part-funding of capital expenditure for setting up of new manufacturing facility for plastic moulded auto components (b) General corporate purposes. For details of the objects of the Issue, see “***Objects of the Issue***” on page 100. Our management will have broad discretion to use the Net Proceeds, and investors will be relying on the judgment of our management regarding the application of the Net Proceeds. Our Company may have to revise its management estimates from time to time on account of various factors beyond its control, such as market conditions, competitive environment, costs of commodities and interest or exchange rate fluctuations and consequently its requirements may change. Additionally, various risks and uncertainties, including those set forth in this section may limit or delay our efforts to use the Net Proceeds to achieve profitable growth in its business.

64. ***Our Promoters, Directors including Independent Directors, does not have any prior experience of directorship in the listed company.***

Our Board comprises of Seven Directors which includes one Managing Director, Three Non – Executive Directors, and Three Independent Directors. We are not a publicly listed company and have not historically been subject to increased scrutiny by shareholders, regulators and the public at large that is associated with being a listed company. Our Board of Directors does not have any prior experience of being a Director in any other listed company in India. While our Board members are qualified and have relevant experience in their respective field, not having any prior experience as being a director in any other listed company in India may present some potential challenges to our Company in effectively meeting with good corporate governance norms and practices. Additionally, having lack of such experience amongst the Board of Directors may impact our Company's credibility and reputation among the investors and other stakeholders. For further details, please see chapter titled “***Our Management***” on page no. 170 of this Draft Red Herring Prospectus.

65. ***The deployment of funds raised through this Issue are based on our management estimates and any bank or financial institution or any independent agency has not appraised the same. The deployment of funds in the project is entirely at our discretion, based on the parameters as mentioned in the chapter titles “Objects of the Issue”.***

The fund requirement and deployment, as mentioned in the “***Objects of the Issue***” on page 100 of this Draft Red Herring Prospectus is based on the estimates of our management and has not been appraised by any bank or financial institution or any other independent agency. These fund requirements are based on our current business plan. We cannot assure that the current business plan will be implemented in its entirety or at all. In view of the highly competitive and dynamic nature of our business, we may have to revise our business plan from time to time and consequently these fund requirements. The deployment of the funds as stated under chapter Objects of the Issue is at the discretion of our Board of Directors and is not subject to monitoring by any external independent agency and the audit committee of the Company will monitor the deployment of funds and provide disclosure for the same as per applicable provisions. Further, we cannot assure that the actual costs or schedule of implementation as stated under chapter Objects of the Issue will not vary from the estimated costs or schedule of implementation. Any such variance may be on account of one or more factors, some of which may be beyond our control. Occurrence of any such event may delay our business plans and/or may have an adverse bearing on our expected revenues and earnings.

66. ***We may require further equity issuance, which will lead to dilution of equity and may affect the market price of our Equity Shares or additional funds through incurring debt to satisfy our capital needs, which we may not be able to procure and any future equity offerings by us.***

Our growth is dependent on having a strong balance sheet to support our activities. In addition to the IPO Proceeds and our internally generated cash flow, we may need other sources of financing to meet our capital needs which may include entering into new debt facilities with lending institutions or raising additional equity in the capital markets. We may need to raise additional capital from time to time, dependent on business conditions. The factors that would require us to raise additional capital could be business growth beyond what the current balance sheet can sustain; additional capital requirements imposed due to changes in regulatory regime or significant depletion in our existing capital base due to unusual operating losses. Any fresh issue of shares or convertible securities would dilute existing holders, and such issuance may not be done at terms and conditions, which are favorable to the then existing shareholders of our Company. If our Company decides to raise additional funds through the incurrence of debt, our interest obligations will increase, and we may be subject to additional covenants, which could further limit our ability to access cash flows from our operations. Such financings could cause our debt-to-equity ratio to increase or require us to create charges or liens on our assets in favour of lenders. We cannot assure you that we will be able to secure adequate financing in the future on acceptable terms, in time, or at all. Our failure to obtain sufficient financing could result in the delay or abandonment of our expansion plans. Our business and future results of operations may be affected if we are unable to implement our expansion strategy.

67. ***Increased losses due to fraud, employee negligence, theft or similar incidents may have an adverse impact on us.***

Our operations involve handling of raw materials, work-in-progress and finished components at our manufacturing facilities. We are therefore exposed to risks of theft, pilferage, employee negligence, misappropriation, and errors in inventory management and logistics. Any increase in such losses may require us to strengthen security and surveillance systems, enhance internal controls, and incur additional expenditure on monitoring and oversight.

While we have implemented certain internal controls to safeguard our assets, we have not adopted a formal code of conduct for employees and there can be no assurance that existing measures will fully prevent or detect such incidents. In addition, there are inherent risks in handling cash, materials, and goods in transit, including theft, robbery, or fraud by employees or third parties. Further, in case of losses due to theft, fire, fraud, or other casualties, there can be no assurance that we will be able to recover the full amount of such losses from our insurers, in a timely manner or at all. If such events occur, our business, financial condition, results of operations and cash flows may be adversely affected.

68. ***We are subject to governmental regulation, and we may incur material liabilities under, or costs in order to comply with, existing or future laws and regulations and our failure to comply may result in enforcements, recalls, and other adverse actions.***

Our business is required to comply with different regulations and laws, and till now we have complied with the same, but there is high probability of change in laws and regulations in the continuous evolving highly volatile industry of our, and there are chances that in future due to unanticipated and unavoidable reasons we may not be able to comply with such rules and regulations and in that case it may result into authorities taking stringent actions against our business, which may lead to delays and laches in completion of our customer's orders, negatively affecting our finances, and may even lead to closure of our business for a short or long period of time.

We have to adhere with certain environment and other statutory requirements and in future at any point of time if due to change in any of the laws including the one's mentioned above, we are not able to comply with such future regulations, it may lead to litigation and which may incur us heavy costs and therefore will impact our financial condition. Apart from that there will be reputational damage of our business as well in such cases which is sometimes irreparable and may hamper our relations with our customers. We are dedicated towards being compliant with all the regulations and laws to avoid any kind of delays or operational and financial problems that may occur in future due to non-compliance with any existing or future laws or regulations.

#### **Issue Specific Risk Factors**

69. ***Subsequent to the listing of the Equity Shares, we may be subject to surveillance measures, such as the Additional Surveillance Measures and the Graded Surveillance Measures by the Stock Exchanges in order to enhance the integrity of the market and safeguard the interest of investors.***

Subsequent to the listing of the Equity Shares, we may be subject to Additional Surveillance Measures ("ASM") and Graded Surveillance Measures ("GSM") by the Stock Exchanges and the Securities and Exchange Board of India. These measures have been introduced to enhance the integrity of the market and safeguard the interest of investors. The criteria for shortlisting any security trading on the Stock Exchanges for ASM is based on objective criteria, which includes market-based parameters such as high low-price variation, concentration of client accounts, close to close price variation, market capitalization, average daily trading volume and its change, and average delivery percentage, among others. A scrip is subject to GSM when the share price is not commensurate with the financial health and fundamentals of the company. Specific parameters for GSM include net worth, net fixed assets, PE, market capitalization and price to book value, among others. Factors within and beyond our control may lead to our securities being subject to GSM or ASM. In the event our Equity Shares are subject to such surveillance measures implemented by SEBI and the Stock Exchanges, we may be subject to certain additional restrictions in connection with trading of our Equity Shares such as limiting trading frequency (for example, trading either allowed once in a week or a month) or freezing of price on upper side of trading which may have an adverse effect on the market price of our Equity Shares or may in general cause disruptions in the development of an active trading market for our Equity Shares.

70. ***The Equity Shares have never been publicly traded, and, after the Issue, the Equity Shares may experience price and volume fluctuations, and an active trading market for the Equity Shares may not develop. Further, the price of the Equity Shares may be volatile, and you may be unable to resell the Equity Shares at or above the Issue Price, or at all.***

Prior to this Issue, there has been no public market for our Equity Shares, and an active trading market may not develop or be sustained upon the completion of this Issue. The initial public offering price of the Equity Shares offered hereby was determined through our discussions with the BRLM and may not be indicative of the market price of the Equity Shares after this Issue. The market price of our Equity Shares after this Issue will be subject to significant fluctuations in response to, among other factors:

- variations in our operating results and the performance of our business;
- regulatory developments in our target markets affecting us, our customers, or our competitors;
- changes in financial estimates by securities research analysts;
- addition or loss of executive officers or key employees;
- loss of one or more significant customers;
- the performance of the Indian and global economy;

- significant developments in India's economic liberalization and deregulation policies, and the fiscal regime;
- volatility in the Indian and global securities markets;
- performance of our competitors and perception in the Indian market about investment in our industry; and
- adverse media reports, if any, on our Company, or the industry.

Many of these factors are beyond our control. There has been volatility in the Indian stock markets and our share price could fluctuate significantly as a result of such volatility in the future. There can be no assurance that an active trading market for our Equity Shares will develop or be sustained after this Issue, or that the price at which our Equity Shares are initially offered will correspond to the prices at which they will trade in the market subsequent to this Issue.

**71. *The investors may not be able to sell immediately on an Indian stock exchange any of the Equity Shares they acquire in the Issue, in case of delay in receipt of Listing and Trading approval.***

We have applied to NSE to use its name as the Stock Exchange in this Issue document for listing our shares on the Emerge Platform of NSE. In accordance with Indian law and practice, permission for listing and trading of the Equity Shares issued pursuant to the Issue will not be granted until after the Equity Shares have been issued and allotted. Approval for listing and trading will require all relevant documents authorizing the issuing of Equity Shares to be submitted. There could be a delay in listing the Equity Shares on the Emerge Platform of NSE. Any delay in obtaining the approval would restrict your ability to dispose of your Equity Shares.

**72. *The Issue price of our Equity Shares may not be indicative of the market price of our Equity Shares after the Issue and the market price of our Equity Shares may decline below the Issue Price and you may not be able to sell your Equity Shares at or above the Issue Price.***

The Issue Price of our Equity Shares will be determined by the book-building method. This price is based on numerous factors and may not be indicative of the market price of our Equity Shares after the Issue. The market price of our Equity Shares could be subject to significant fluctuations after the Issue and may decline below the Issue Price. We cannot assure you that you will be able to sell your Equity Shares at or above the Issue Price. Among the factors that could affect our share price include without limitation, are as under:

- ✓ Half yearly variations in the rate of growth of our financial indicators, such as earnings per share, net income and revenues;
- ✓ Changes in revenue or earnings estimates or publication of research reports by analysts;
- ✓ Speculation in the press or investment community;
- ✓ General market conditions; and
- ✓ Domestic and international economic, legal and regulatory factors unrelated to our performance.

**73. *There are restrictions on daily movements in the price of the Equity Shares, which may adversely affect a shareholder's ability to sell, or the price at which it can sell, Equity Shares at a particular point in time.***

Once listed, we would be subject to circuit breakers imposed by Stock Exchange, which does not allow transactions beyond specified increases or decreases in the price of the Equity Shares. This circuit breaker operates independently of the index-based market-wide circuit breakers generally imposed by SEBI on Indian stock exchanges. The percentage limit on circuit breakers is set by the stock exchanges based on the historical volatility in the price and trading volume of the Equity Shares. This circuit breaker limits the upward and downward movements in the price of the Equity Shares. As a result of this circuit breaker, no assurance may be given regarding your ability to sell your Equity Shares or the price at which you may be able to sell your Equity Shares at any particular time.

**74. *Any future issuance of Equity Shares, or convertible securities or other equity linked securities by our Company may dilute your shareholding and any sale of Equity Shares by our Promoter or members of our Promoter Group may adversely affect the trading price of the Equity Shares.***

Any future issuance of the Equity Shares, convertible securities or securities linked to the Equity Shares by our Company may dilute your shareholding in our Company, adversely affect the trading price of the Equity Shares and our ability to raise capital through an issue of our securities. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of the Equity Shares. We cannot assure you that we will not issue additional Equity Shares. Any sale of our Equity Shares by our Promoter or major shareholders or future equity issuances, by us may adversely affect the trading price of our Equity Shares, which may lead to other adverse consequences including difficulty in raising capital through offering of our Equity Shares or incurring additional debt. In addition, any perception by investors that such issuances or sales might occur may also affect the market price of our Equity Shares. We cannot assure you that we will not issue Equity Shares, convertible securities or securities linked to Equity Shares or that our Shareholders will not dispose of, pledge or encumber their Equity Shares in the future.

**75. *Fluctuation in the exchange rate between the Indian Rupee and foreign currencies may have an adverse effect on the value of our Equity Shares, independent of our operating results.***

On listing, our Equity Shares will be quoted in Indian Rupees on the Stock Exchanges. Any dividends in respect of our Equity Shares will also be paid in Indian Rupees and subsequently converted into the relevant foreign currency for repatriation, if required. Any adverse movement in currency exchange rates during the time that it takes to undertake such conversion may reduce the net dividend to foreign investors. In addition, any adverse movement in currency exchange rates during a delay in repatriating outside India the proceeds from a sale of Equity Shares, for example, because of a delay in regulatory approvals that may be required for the sale of Equity Shares may reduce the proceeds received by equity shareholders. For example, the exchange rate between the Rupee and the U.S. dollar has fluctuated substantially in recent years and may continue to fluctuate substantially in the future, which may have an adverse effect on the trading price of our Equity Shares and returns on our Equity Shares, independent of our operating results.

**76. *Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.***

Under the foreign exchange regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

**77. *You may be subject to Indian taxes arising out of capital gains on sale of Equity Shares.***

Under the current Indian Income Tax provisions, all transactions of purchase and sales of securities on Indian stock exchanges are subject to levy of securities transaction tax (STT) which will be collected by respective stock exchange on which the securities are transacted. Accordingly, the Indian Income Tax Act has special capital gains tax provisions for all transactions of purchase and sale of equity shares carried out on the Indian Stock Exchanges. Under the current Indian Income Tax provisions, unless specifically exempted, capital gains arising from the sale of equity shares in an Indian company are generally taxable in India.

**78. *Rights of shareholders under Indian laws may be more limited than under the laws of other jurisdictions.***

Indian legal principles related to corporate procedures, directors' fiduciary duties and liabilities, and shareholders' rights may differ from those that would apply to a company in another jurisdiction. Shareholders' rights including in relation to class actions, under Indian law may not be as extensive as shareholders' rights under the laws of other countries or jurisdictions. Investors may have more difficulty in asserting their rights as shareholder in an Indian company than as shareholder of a corporation in another jurisdiction.

**79. *QIB and Non-Institutional Investors are not permitted to withdraw or lower their Application (in terms of quantity of Equity Shares or the Application Amount) at any stage after submitting an Application.***

Pursuant to the SEBI ICDR Regulations, QIBs and Non-Institutional Investors are not permitted to withdraw or lower their Applications (in terms of quantity of Equity Shares or the Application Amount) at any stage after submitting an Applications. Individual Investors can revise their Applications during the Issue Period and withdraw their Applications until Issue Closing Date. While our Company is required to complete Allotment pursuant to the Issue within 3 Working Days from the Issue Closing Date, events affecting the Applicants decision to invest in the Equity Shares, including material adverse changes in international or national monetary policy, financial, political or economic conditions, our business, results of operations or financial condition may arise between the date of submission of the Application and Allotment. Our Company may complete the Allotment of the Equity Shares even if such events occur, and such events may limit the Applicant ability to sell the Equity Shares Allotted pursuant to the Issue or cause the trading price of the Equity Shares to decline on listing.

**80. *The Issue Price, market capitalization to total revenue multiple and price to earnings ratio based on the Issue Price of our Company, may not be indicative of the market price of the Equity Shares on listing or thereafter.***

The Issue Price of the Equity Shares is proposed to be determined through a book-building process. The market price of the Equity Shares, market capitalization to total revenue multiple and price to earnings ratio based on the Issue Price may be subject to significant fluctuations in response to, among other factors, variations in our operating results, market conditions specific to the industry we operate in, developments relating to India, volatility in securities markets in jurisdictions other than India, variations in the growth rate of financial indicators, variations in revenue or earnings estimates by research publications, and changes in economic, legal and other regulatory factors. Consequently, the price of our Equity Shares may be volatile, and you may be unable to resell your Equity Shares at or above the Issue Price, or at all. There has been significant volatility in the Indian stock markets in the recent past, and our Equity Share price could fluctuate significantly because of market volatility. A decrease in the market price of our Equity Shares could cause investors to lose some or all of their investment.

**81. *Changing laws, rules and regulations and legal uncertainties in India, including adverse application of tax laws and regulations, may adversely affect our business and financial performance.***

Our business and financial performance could be adversely affected by changes in law or interpretations of existing, or the promulgation of new, laws, rules and regulations in India applicable to us and our business. There can be no assurance that the central or the state governments in India may not implement new regulations and policies which will require us to obtain approvals and licenses from the central or the state governments in India and other regulatory bodies or impose onerous requirements and conditions on our operations. Any such changes and the related uncertainties with respect to the implementation of the new regulations may have a material adverse effect on all our business, financial condition and results of operations. In addition, we may have to incur capital expenditures to comply with the requirements of any new regulations, which may also materially harm our results of operations. For instance, the Government has proposed a comprehensive national goods and services tax ("GST") regime that will combine taxes and levies by the Central and state Governments into a unified rate structure. Given the limited availability of information in the public domain concerning the GST, we are unable to provide any assurance as to the tax regime following implementation of the GST. The implementation of this new structure may be affected by any disagreement between certain state Governments, which could create uncertainty. Any such future amendments may affect our overall tax efficiency, and may result in significant additional taxes becoming payable.

**82. *Investor may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.***

Under current Indian tax laws, unless specifically exempted, capital gains arising from the sale of equity shares in an Indian company are generally taxable in India. Any capital gain, realized on the sale of listed equity shares on a recognized stock exchange, held for more than 12 months immediately preceding the date of transfer, will be subject to long term capital gains in India, at the rate of 12.5% (plus applicable surcharge and cess). This beneficial rate is, inter alia, subject to payment of Securities Transaction Tax ("STT").

Further, any gain realized on the sale of equity shares in an Indian company held for more than 12 months, which are sold using any platform other than a recognized stock exchange and on which no STT has been paid, will be subject to long term capital gains tax in India at the rate of 10% (plus applicable surcharge and cess). Further, any capital gains realized on the sale of listed equity shares held for a period of 12 months or less immediately preceding the date of transfer will be subject to short term capital gains tax in India. Such gains will be subject to tax at the rate of 15% (plus applicable surcharge and cess), subject to STT being paid at the time of sale of such shares. Otherwise, such gains will be taxed at the applicable rates. Capital gains arising from the sale of the Equity Shares will be exempt from taxation in India in cases where the exemption from taxation in India is provided under a treaty between India and the country of which the seller is resident. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on a gain upon the sale of the Equity Shares. Similarly, any business income realized from the transfer of Equity Shares held as trading assets is taxable at the applicable tax rates subject to any treaty relief, if applicable, to a non-resident seller.

Pursuant to the enactment of the Finance Act (No.2), 2024, among other amendments has amended the capital gains tax rates and calculations, with effect from the date of enactment. The Bidders are advised to consult their own tax advisors to understand their tax liability as per the laws prevailing on the date of disposal of Equity Shares. Investors are advised to consult their own tax advisors and to carefully consider the potential tax consequences of owning Equity Shares. Unfavourable changes in or interpretations of existing laws, rules and regulations, or the promulgation of new laws, rules and regulations including foreign investment and stamp duty laws governing our business and operations could result in us being deemed to be in contravention of such laws and may require us to apply for additional approvals.

**83. *Political, economic or other factors that are beyond our control may have an adverse effect on our business and results of operations.***

We are dependent on domestic, regional and global economic and market conditions. Our performance, growth and market price of our Equity Shares are and will be dependent to a large extent on the health of the economy in which we operate. There have been periods of slowdown in the economic growth of India. Demand for our services may be adversely affected by an economic downturn in domestic, regional and global economies. The Government of India has traditionally exercised and continues to exercise influence over many aspects of the economy. Our business and the market price and liquidity of our Equity Shares may be affected by interest rates, changes in Government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. The rate of economic liberalization could change, and specific laws and policies affecting the information technology sector, foreign investment and other matters affecting investment in our securities could change as well. Any significant change in such liberalization and deregulation policies could adversely affect business and economic conditions in India, generally, and our business, prospects, financial condition and results of operations, in particular.

The Government of India has traditionally exercised, and continues to exercise, a significant influence over many aspects of the economy. Our business, and the market price and liquidity of our Equity Shares, may be affected by interest rates, changes in government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. Any political instability in India may adversely affect the Indian securities markets in general, which could also adversely affect

the trading price of our Equity Shares. Any political instability could delay the reform of the Indian economy and could have a material adverse effect on the market for our Equity Shares. There can be no assurance to the investors that these liberalization policies will continue under the newly elected government. Protests against privatization could slow down the pace of liberalization and deregulation. The rate of economic liberalization could change, and specific laws and policies affecting companies in the industrial equipment manufacturing sectors, foreign investment, currency exchange rates and other matters affecting investment in our securities could change as well. A significant change in India's economic liberalization and deregulation policies could disrupt business and economic conditions in India and thereby affect our business.

**84. *The COVID-19 pandemic, or any future pandemic or widespread public health emergency, could materially and adversely impact our business, financial condition, cash flows and results of operations.***

In late 2019, COVID-19 emerged and by March 11, 2020 was declared a global pandemic by The World Health Organization. Governments and municipalities around the world instituted measures in an effort to control the spread of COVID-19, including quarantines, shelter-in-place orders, school closings, travel restrictions, lock down of cities and closure of non-essential businesses. By the end of March, the macroeconomic impacts became significant, exhibited by, among other things, a rise in unemployment and market volatility. The outbreak of COVID-19 in many countries, including India, the United Kingdom and the United States, has significantly and adversely impacted economic activity and has contributed to significant volatility and negative pressure in financial markets, and it is possible that the outbreak of COVID-19 will cause a prolonged global economic crisis, recession or depression, despite monetary and fiscal interventions by governments and central banks globally. On March 24, 2020, the Government of India ordered a national lockdown in response to the spread of COVID-19. Although some governments are beginning to ease or lift these restrictions, the impacts from the severe disruptions caused by the effective shutdown of large segments of the global economy remain unknown and no prediction can be made of when any of the restrictions currently in place will be relaxed or expire, or whether or when further restrictions will be announced.

The outbreak, or threatened outbreak, of any severe communicable disease (particularly COVID-19) could materially adversely affect overall business sentiment and environment, particularly if such outbreak is inadequately controlled. The spread of any severe communicable disease may also adversely affect the operations of our clients and service providers, which could adversely affect our business, financial condition and results of operations. The outbreak of COVID-19 has resulted in authorities implementing several measures such as travel bans and restrictions, quarantines, shelter in place orders, and shutdowns. These measures have impacted and may further impact our workforce and operations, the operations of our clients, and those of our respective service providers. There is currently substantial medical uncertainty regarding COVID-19. A rapid increase in severe cases and deaths where measures taken by governments fail or are lifted prematurely, may cause significant economic disruption in India and in the rest of the world. The scope, duration and frequency of such measures and the adverse effects of COVID-19 remain uncertain and could be severe. If any of our employees were suspected of contracting COVID-19 or any other epidemic disease, this could require us to quarantine some or all of these employees or disinfect the facilities used for our operations. In addition, our revenue and profitability could be impacted to the extent that a natural disaster, health epidemic or other outbreak harms the Indian and global economy in general.

The outbreak has significantly increased economic uncertainty. It is likely that the current outbreak or continued spread of COVID-19 will cause an economic slowdown and it is possible that it could cause a global recession. The spread of COVID-19 has caused us to modify our business practices (including employee travel, employee work locations, and cancellation of physical participation in meetings, events and conferences), and we may take further actions as may be required by government authorities or that we determine are in the best interests of our employees, customers, partners, and suppliers. There is no certainty that such measures will be sufficient to mitigate the risks posed by the outbreak, and our ability to perform critical functions could be harmed. The extent to which the COVID-19 further impacts our results will depend on future developments, which are highly uncertain and cannot be predicted, including new information which may emerge concerning the severity of the coronavirus and the actions taken globally to contain the coronavirus or treat its impact, among others. Existing insurance coverage may not provide protection for all costs that may arise from all such possible events. The degree to which COVID-19 impacts our results will depend on future developments, which are highly uncertain and cannot be predicted, including, but not limited to, the duration and spread of the outbreak, its severity, the actions taken to contain the outbreak or treat its impact, and how quickly and to what extent normal economic and operating conditions can resume. The above risks can threaten the safe operation of our facilities and cause disruption of operational activities, environmental harm, loss of life, injuries and impact the wellbeing of our people.

Further in case the lockdown is extended, it could result in muted economic growth or give rise to a recessionary economic scenario, in India and globally, which could adversely affect the business, prospects, results of operations and financial condition of our Company. The full extent to which the COVID-19 pandemic, or any future pandemic or widespread public health emergency impacts our business, operations and financial results will depend on numerous evolving factors that we may not be able to accurately predict, including: the scope, severity, and duration of the pandemic; actions taken by governments, business and individuals in response to the pandemic; the effect on customer demand for and ability to pay for our products; the impact on our capital expenditure; disruptions or restrictions on our employees' and suppliers' ability to work and travel; any extended period of remote work arrangements; and strain on our or our customers' business continuity plans, and resultant operational risk.

**85. *Terrorist attacks or war or conflicts involving India or other countries could adversely affect consumer and business sentiment and the financial markets and adversely affect our business.***

Terrorist attacks and other acts of violence or war may adversely affect global equity markets and economic growth as well as the Indian economy and stock markets. Such acts negatively impact business and economic sentiment, which could adversely affect our business and profitability. India has historically experienced episodes of terrorism, military conflict, and geopolitical tensions, particularly with neighboring countries. Most recently, on April 22, 2025, a terrorist attack in Pahalgam, Jammu and Kashmir resulted in the death of 26 civilians. In response, India launched Operation Sindoor on May 7, 2025, targeting terrorist infrastructure in Pakistan, including the neutralization of drones across Gujarat and Rajasthan.

India's geopolitical environment remains sensitive. Tensions with Pakistan, particularly regarding border security and terrorism, continue to pose risks. For example, in February 2019, hostilities escalated following the Pulwama terrorist attack and subsequent military retaliation, including air strikes and the downing of fighter aircraft. Any similar future escalations—especially in regions linked to agricultural production or export logistics—could disrupt trade, destabilize currency, impair investor sentiment, and adversely affect economic activity.

Also, India has from time to time experienced, and continues to experience, social and civil unrest and hostilities with neighboring countries. Armed conflicts could disrupt communications and adversely affect the Indian economy. Such events could also create a perception that investments in Indian companies involve a high degree of risk. This, in turn, could have a material adverse effect on the market for securities of Indian companies, including our Equity Shares. The consequences of any armed conflicts are unpredictable and we therefore may not be able to foresee events that could have an adverse effect on our business.

**86. *Global economic, political and social conditions may harm our ability to do business, increase our costs and negatively affect our stock prices.***

Global economic and political factors that are beyond our control, influence forecasts directly affect performance. These factors include interest rates, rates of economic growth, fiscal and monetary policies of governments, inflation, deflation, foreign exchange fluctuations, consumer credit availability, fluctuations in commodities markets, consumer debt levels, unemployment trends and other matters that influence consumer confidence, spending and tourism. Increasing volatility in financial markets may cause these factors to change with a greater degree of frequency and magnitude, which may negatively affect our stock prices.

**87. *The extent and reliability of Indian infrastructure could adversely affect our Company's results of operations and financial condition.***

India's physical infrastructure is in developing phase compared to that of many developed nations. Any congestion or disruption in its port, rail and road networks, electricity grid, communication systems or any other public facility could disrupt our Company's normal business activity. Any deterioration of India's physical infrastructure would harm the national economy, disrupt the transportation of goods and supplies, and add costs to doing business in India. These problems could interrupt our Company's business operations, which could have an adverse effect on its results of operations and financial condition.

**88. *Any downgrading of India's sovereign rating by an independent agency may harm our ability to raise financing.***

Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing may be available. This could have an adverse effect on our business and future financial performance, our ability to obtain financing for capital expenditures and the trading price of our Equity Shares.

**89. *Instability in financial markets could materially and adversely affect our results of operations and financial condition.***

The Indian economy and financial markets are significantly influenced by worldwide economic, financial and market conditions. Any financial turmoil, especially in the United States of America or Europe, may have a negative impact on the Indian economy. Although economic conditions differ in each country, investors' reactions to any significant developments in one country can have adverse effects on the financial and market conditions in other countries. A loss in investor confidence in the financial systems, particularly in other emerging markets, may cause increased volatility in Indian financial markets. The global financial turmoil, an outcome of the sub-prime mortgage crisis which originated in the United States of America, led to a loss of investor confidence in worldwide financial markets. Indian financial markets have also experienced the contagion affect of the global financial turmoil, evident from the sharp decline in stock exchanges benchmark index. Any prolonged financial crisis may have an adverse impact on the Indian economy and us, thereby resulting in a material and adverse effect on our business, operations, financial condition, profitability and price of our Equity Shares.

**90. *Natural calamities could have a negative impact on the Indian economy and cause Our Company's business to suffer.***

India has experienced natural calamities such as earthquakes, tsunami, floods etc. In recent years, the extent and severity of these natural disasters determine their impact on the Indian economy. Prolonged spells of abnormal rainfall or other natural calamities could have a negative impact on the Indian economy, which could adversely affect our business, prospects, financial condition and results of operations as well as the price of the Equity Shares.

91. ***Government regulation of foreign ownership of Indian securities may have an adverse effect on the price of the Equity Shares.***

Foreign ownership of Indian securities is subject to government regulation. Under foreign exchange regulations currently in effect in India, transfer of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the rupees proceeds from the sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the Income Tax authorities. There can be no assurance that any approval required from the RBI or any other government agency can be obtained.

92. ***A slowdown in economic growth in India may adversely affect our business, financial condition, cash flows, results of operations and prospects.***

The performance and growth of our business are necessarily dependent on economic conditions prevalent in India, which may be materially and adversely affected by Centre or state political instability or regional conflicts, a general rise in interest rates, inflation, and economic slowdown elsewhere in the world or otherwise. There have been periods of slowdown in the economic growth of India. India's economic growth is affected by various factors including domestic consumption and savings, balance of trade movements, namely export demand and movements in key imports (oil and oil products), global economic uncertainty and liquidity crisis, volatility in exchange currency rates and annual rainfall which affects agricultural production. Any continued or future slowdown in the Indian economy or a further increase in inflation could have a material adverse effect on the price of our raw materials and demand for our products and, as a result, on our business and financial results. The Indian financial market and the Indian economy are influenced by economic and market conditions in other countries, particularly in emerging market in Asian countries. Financial turmoil in Asia, Europe, the U.S. and elsewhere in the world in recent years has affected the Indian economy. Although economic conditions are different in each country, investor's reactions to developments in one country can have adverse effects on the securities of companies in other countries, including India. A loss in investor confidence in the financial systems of other emerging markets may cause increased volatility in Indian financial markets and, indirectly, in the Indian economy in general. Any worldwide financial instability, including the financial crisis and fluctuations in the stock markets in China and further deterioration of credit conditions in the U.S. or European markets, could also have a negative impact on the Indian economy. Financial disruptions may occur again and could harm our business and financial results.

93. ***We have not prepared, and currently do not intend to prepare, our financial statements in accordance with the International Financial Reporting Standards ("IFRS"). Our transition to IFRS reporting could have a material adverse effect on our reported results of operations or financial condition.***

Public companies in India, including us, may be required to prepare annual and interim financial statements under IFRS in accordance with the roadmap for convergence with IFRS announced by the Ministry of Corporate Affairs, Government of India through a press note dated January 22, 2010 (the "IFRS Convergence Note"). The Ministry of Corporate Affairs by a press release dated February 25, 2011 has notified that 35 Indian Accounting Standards are to be converged with IFRS. The date of implementation of such converged Indian accounting standards has not yet been determined. Our financial condition, results of operations, cash flows or changes in shareholders' equity may appear materially different under IFRS than under Indian GAAP or our adoption of converged Indian Accounting Standards may adversely affect our reported results of operations or financial condition. This may have a material adverse effect on the amount of income recognized during that period and in the corresponding (restated) period in the comparative Fiscal/period.

94. ***Changing laws, rules and regulations and legal uncertainties in India, including adverse application of tax laws and regulations, may adversely affect our business and financial performance.***

Our business and financial performance could be adversely affected by changes in law or interpretations of existing, or the promulgation of new, laws, rules and regulations in India applicable to us and our business. For further details please refer to the chapter "***Government and Other Statutory Approvals***" beginning on page 206 for details of the laws currently applicable to us. The governmental and regulatory bodies in India and other jurisdictions where we operate may notify new regulations and/or policies, which may require us to obtain approvals and licenses from the government and other regulatory bodies, or impose onerous requirements and conditions on our operations, in addition to those which we are undertaking currently. Any such changes and the related uncertainties with respect to the implementation of new regulations may have a material adverse effect on our business, financial condition, results of operations and cash flows.

In addition, unfavorable changes in or interpretations of existing, or the promulgation of new, laws, rules and regulations including foreign investment laws governing our business, operations and investments in our Company by non-residents, could result in us being deemed to be in contravention of such laws and/or may require us to apply for additional approvals. Tax and other levies imposed by the central and state governments in India that affect our tax liability include central and state taxes and other levies, income tax, turnover tax, goods and services tax, stamp duty and other special taxes and surcharges which are introduced on a temporary or permanent basis from time to time. The final determination of our tax liabilities involves the interpretation of local tax laws and related regulations in each jurisdiction as well as the significant use of estimates and assumptions regarding the scope of future operations and results achieved and the timing and nature of income earned and

expenditures incurred. We are involved in various disputes with tax authorities. For details of these disputes, see “**Outstanding Litigation and Material Developments**” beginning on page 202 . Moreover, the central and state tax scheme in India is extensive and subject to change from time to time.

Any change in Indian tax laws could have an effect on our operations. For instance, the Taxation Laws (Amendment) Ordinance, 2019, a new tax ordinance issued by India’s Ministry of Finance on September 20, 2019, prescribes a number of changes to the income tax rate applicable to companies in India. According to this new ordinance, companies can henceforth voluntarily opt for a concessional tax regime (subject to no other special benefits/exemptions being claimed), which would ultimately reduce the effective tax rate for Indian companies. Any such future amendments may affect other benefits such as an exemption for income earned by way of dividend from investments in other domestic companies and units of mutual funds, exemption for interest received in respect of tax-free bonds, and long-term capital gains on equity shares if withdrawn by the statute in the future, and the same may no longer be available to us. Any adverse order passed by the appellate authorities/ tribunals/ courts would influence our profitability.

Our Company may or may not grant the benefit of a tax treaty (where applicable) to a non-resident shareholder for the purposes of deducting tax at source from such dividend. Investors should consult their own tax advisors about the consequences of investing or trading in the Equity Shares. The Government of India has recently announced the Union Budget for Fiscal 2026 (“Budget”), pursuant to which, the Finance Act, 2025 was notified on March 29, 2025. There is no certainty on the impact that the Finance Act may have on our business and operations or on the industry in which we operate. Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may impact the viability of our current business or restrict our ability to grow our business in the future.

**95. *The Equity Shares have never been publicly traded, and the Issue may not result in an active or liquid market for the Equity Shares. Further, the price of the Equity Shares may be volatile, and you may be unable to resell the Equity Shares at or above the Issue Price.***

Prior to the Issue, there has been no public market for the Equity Shares, and an active trading market on the Indian Stock Exchanges may not develop or be sustained after the Issue. Listing and quotation do not guarantee that a market for the Equity Shares will develop, or if developed, there will be liquidity of such market for the Equity Shares. The Issue Price of the Equity Shares may bear no relationship to the market price of the Equity Shares after the Issue. The market price of the Equity Shares after the Issue can be volatile as a result of several factors beyond our control, including volatility in the Indian and global securities markets, our results of operations, the performance of our competitors, developments in the Indian and global machine tools industry, changing perceptions in the market about investments in this sector in India, investor perceptions of our future performance, adverse media reports about us or our sector, changes in the estimates of our performance or recommendations by financial analysts, significant developments in India’s economic liberalisation and deregulation policies, and significant developments in India’s fiscal regulations. In addition, the Stock Exchanges may experience significant price and volume fluctuations, which may have a material adverse effect on the market price of the Equity Shares. General or industry-specific market conditions or stock performance or domestic or international macroeconomic and geopolitical factors unrelated to our performance may also affect the price of the Equity Shares. In particular, the stock market as a whole in the past has experienced extreme price and volume fluctuations that have affected the market price of many companies in ways that may have been unrelated to the companies’ operating performances. For these reasons, investors should not rely on recent trends to predict future share prices, results of operations or cash flow and financial condition.

**96. *The requirements of being a publicly listed company may strain our resources.***

We are not a publicly listed company and have not, historically, been subjected to the increased scrutiny of our affairs by shareholders, regulators and the public at large that is associated with being a listed company. As a listed company, we will incur significant legal, accounting, corporate governance and other expenses that we did not incur as an unlisted company. We will be subject to the SEBI Listing Regulations, which will require us to file audited annual and unaudited quarterly reports with respect to our business and financial condition. If we experience any delays, we may fail to satisfy our reporting obligations and, or, we may not be able to readily determine and accordingly report any changes in our results of operations as promptly as other listed companies. Further, as a publicly listed company, we will need to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, including keeping adequate records of daily transactions. In order to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, significant resources and management attention will be required. As a result, our management’s attention may be diverted from our business concerns, which may adversely affect our business, prospects, results of operations and financial condition.

Any further issuance of Equity Shares, or convertible securities or other equity-linked instruments by us may dilute your shareholding. We may be required to finance our growth through future equity offerings. Any future equity issuances by us, including a primary offering of Equity Shares, convertible securities or securities linked to Equity Shares including through exercise of employee stock options, may lead to the dilution of investors’ shareholdings in our Company. Any future equity issuances by us or sales of our Equity Shares by the Promoter may adversely affect the trading price of the Equity Shares, which may lead to other adverse consequences including difficulty in raising capital through offering of our Equity Shares or incurring

additional debt. In addition, any perception by investors that such issuances or sales might occur may also affect the market price of our Equity Shares. We cannot assure you that we will not issue Equity Shares, convertible securities or securities linked to Equity Shares or that our Shareholders will not dispose of, pledge or encumber their Equity Shares in the future.

**97. *Financial difficulty and other problems in certain long-term lending institutions and investment institutions in India could have a negative impact on our business.***

We are exposed to the risks of the Indian financial system which may be affected by the financial difficulties faced by certain Indian financial institutions because the commercial soundness of many financial institutions may be closely related as a result of credit, trading, clearing or other relationships. This risk, which is referred to as “systemic risk,” may adversely affect financial intermediaries, such as clearing agencies, banks, securities firms and exchanges with whom we interact on a daily basis. Our transactions with these financial institutions expose us to credit risk in the event of default by the counter party, which can be exacerbated during periods of market illiquidity. As the Indian financial system operates within an emerging market, we face risks of a nature and extent not typically faced in more developed economies, including the risk of deposit runs notwithstanding the existence of a national deposit insurance scheme. The problems faced by individual Indian financial institutions and any instability in or difficulties faced by the Indian financial system generally could create adverse market perception about Indian financial institutions and banks. This in turn could adversely affect our business, financial condition, results of operations and cash flows.

**98. *The sale of Equity Shares by our Promoter in future may adversely affect the market price of the Equity Shares.***

After the completion of the Issue, our Promoter will still own a significant percentage of our issued Equity Shares. The sale of a large number of the Equity Shares by our Promoter could adversely affect the market price of the Equity Shares. Similarly, the perception that any such primary or secondary sale may occur, could adversely affect the market price of the Equity Shares. No assurance may be given that our Promoter will not dispose of, pledge or encumber their Equity Shares in the future.

**99. *There is no guarantee that our Equity Shares will be listed on the and the NSE in a timely manner or at all.***

There is no guarantee that our Equity Shares will be listed on the NSE in a timely manner or at all. In accordance with Indian law, permission for listing and trading of our Equity Shares will not be granted until after certain actions have been completed in relation to this Issue and until Allotment of Equity Shares pursuant to this Issue. In accordance with current regulations and circulars issued by SEBI, our Equity Shares are required to be listed on NSE within such time as mandated under UPI Circulars, subject to any change in the prescribed timeline in this regard. However, we cannot assure you that the trading in our Equity Shares will commence in a timely manner or at all. Any failure or delay in obtaining final listing and trading approvals may restrict your ability to dispose of your Equity Shares.

**100. *If certain labour laws become applicable to us, our profitability may be adversely affected.***

India has stringent labour legislations that protect the interests of workers, including legislation that sets forth detailed procedures for dispute resolution and employee removal and legislation that imposes certain financial obligations on employers upon retrenchment. Any change or modification in the existing labour laws may affect our flexibility in formulating labour related policies.

## Notes:

- 1) The Issue is being made in terms of Chapter IX of the SEBI (ICDR) Regulations, 2018, as amended from time to time. This Issue is being made by our company in terms of Regulation of 229(2) of SEBI (ICDR) Regulations read with Rule 19(2)(b)(i) of SCRR wherein not less than 25% of the post – issue paid up equity share capital of our company are being offered to the public for subscription.
- 2) The Issue has been authorized by the Board of Directors vide a resolution passed at its meeting held on July 26, 2025 and by the Shareholders of our Company, vide a special resolution passed pursuant to Section 62(1)(c) of the Companies Act, 2013 at the Extra Ordinary General Meeting held on July 30, 2025.
- 3) The SEBI ICDR Regulations permit the issue of securities to the public through the Book Building Process, which states that, not less than 15% of the Net Issue shall be available for allocation on a proportionate basis to Non Institutional Bidders and not less than 35% of the Net Issue shall be available for allocation on a proportionate basis to Individual Bidders and not more than 50% of the Net Issue shall be allotted on a proportionate basis to QIBs, subject to valid Bids being received at or above the Issue Price. Accordingly, we have allocated the Net Issue i.e., not more than 50% of the Net Issue to QIB and not less than 35% of the Net Issue shall be available for allocation to Individual Investors and not less than 15% of the Net Issue shall be available for allocation on a proportionate basis to non-institutional bidders. Further, (a) 1/3rd of the portion available to NIBs shall be reserved for applicants with application size of more than two lots and up to such lots equivalent to not more than ₹ 10 Lakhs, and (b) 2/3rd of the portion available to NIBs shall be reserved for applicants with application size of more than ₹ 10 Lakhs. Provided that the unsubscribed portion in either of the sub-categories specified in clauses (a) or (b), could be allocated to applicants in the other sub-category of NIBs. The allocation to each NIB shall not be less than the minimum NIB Application Size, subject to availability of Equity Shares in the Non-Institutional Portion and the remaining available Equity Shares, if any, were available for allocation on a proportionate basis in accordance with the conditions specified in this regard in Schedule XIII of the SEBI (ICDR) Regulations.
- 4) Subject to valid Bids being received at or above the Issue Price, under subscription, if any, in any category, except in the QIB Portion, would be allowed to be met with spill-over from any other category or combination of categories of Bidders at the discretion of our Company in consultation with the Book Running Lead Manager and the Designated Stock Exchange, subject to applicable laws.
- 5) In the event of over-subscription, allotment shall be made on a proportionate basis, subject to valid Bids received at or above the Issue Price. Allocation to investors in all categories, except the Individual Investor Portion, shall be made on a proportionate basis subject to valid bids received at or above the Issue Price. The allocation to each Individual Investor shall not be less than the minimum Bid Lot, and subject to availability of Equity Shares in the Individual Investor Portion, the remaining available Equity Shares, if any, shall be allocated on a proportionate basis.
- 6) Our Company may, in consultation with the Book Running Lead Manager, allocate up to 60% of the QIB Portion to Anchor Investors on a discretionary basis in accordance with the SEBI (ICDR) Regulations. One-third of the Anchor Investor Portion shall be reserved for domestic Mutual Funds, subject to valid Bids being received from domestic Mutual Funds at or above the Anchor Investor Allocation Price. In the event of under-subscription in the Anchor Investor Portion, the remaining Equity Shares shall be added to the QIB Portion. Further, 5% of the Net QIB Portion shall be available for allocation on a proportionate basis to Mutual Funds only, and the remainder of the QIB Portion shall be available for allocation on a proportionate basis to all QIB Bidders (other than Anchor Investors), including Mutual Funds, subject to valid Bids being received at or above the Issue Price. However, if the aggregate demand from Mutual Funds is less than 5% of the Net QIB Portion, the balance Equity Shares available for allotment in the Mutual Fund Portion will be added to the Net QIB Portion and allocated proportionately to the QIB Bidders (other than Anchor Investors) in proportion to their Bids. For further details, please refer section titled “**Issue Procedure**” beginning on page 237 of this Draft Red Herring Prospectus.

## TRUSTEES

As this is an issue of Equity Shares, the appointment of Trustees is not required.

## GREEN SHOE OPTION

No Green Shoe Option is applicable for this issue.

## APPRAISING AGENCY AND MONITORING AGENCY

As per Regulation 262(1) of the SEBI (ICDR) Regulations, 2018, appointment of monitoring agency is required only if Issue size exceeds ₹ 5,000 Lakh. As the size of the Issue exceeds ₹ 5,000 Lakh, our Company has appointed [●] as the Monitoring Agency to monitor the utilisation of the Net Proceeds, in accordance with Regulation 262 of the SEBI ICDR Regulations. For details in relation to the proposed utilisation of the Net Proceeds, see “*Objects of the issue*” on page 100. None of the objects for which the Net Proceeds will be utilised have been appraised by any agency.

## UNDERWRITING AGREEMENT

The Company and the Book Running Lead Manager to the Issue hereby confirm that the Issue will be 100% Underwritten by the Underwriter [●] in the Capacity of underwriter to the issue.

After the determination of the Issue Price and allocation of Equity Shares, but prior to the filing of the Prospectus with the RoC, our Company, Underwriter and BRLM intend to enter into an Underwriting Agreement with the Underwriters for the Equity Shares proposed to be offered through the Issue. The Underwriting Agreement is dated [●].

Pursuant to the terms of the Underwriting Agreement dated [●] entered into by Company, Book Running Lead Manager, Syndicate Members and Underwriters the obligations of the Underwriter are subject to certain conditions specified therein. The Details of the Underwriting commitments are as under:

Details of the Underwriter	Number of Equity Shares to be Underwritten	Amount Underwritten (Amount in ₹ Lakhs)	% of the Issue Size Underwritten
[●]	[●]*	[●]	[●]

\*Includes [●] Equity shares of the Market Maker Reservation Portion which are to be subscribed by the Market Maker in order to claim compliance with the requirements of Regulation 261 of the SEBI (ICDR) Regulations, 2018, as amended.

The aforementioned underwriting commitments are indicative and will be finalised prior to filing the Prospectus with the RoC.

As per Regulation 260(2) of SEBI (ICDR) Regulations, 2018, the Book Running Lead Manager has agreed to underwrite to a minimum extent of 15% of the Issue out of its own account. In the opinion of the Board of Directors (based on certificate given by the Underwriters), the resources of the above-mentioned Underwriters are sufficient to enable them to discharge their respective underwriting obligations in full. The above-mentioned Underwriters are registered with SEBI under Section 12(1) of the SEBI Act or registered as broker with the Stock Exchange.

Our Board, at its meeting held on [●], approved the acceptance and entering into the Underwriting Agreement mentioned above on behalf of our Company.

Allocation among the Underwriters may not necessarily be in proportion to their underwriting commitments set forth in the table above. Notwithstanding the above table, the Book Running Lead Manager shall be responsible for ensuring payment with respect to Equity Shares allocated to investors procured by them. In the event of any default in payment, the respective Underwriter, in addition to other obligations defined in the underwriting agreement, will also be required to procure / subscribe to Equity Shares to the extent of the defaulted amount. If the Underwriter(s) fails to fulfil its underwriting obligations as set out in the Underwriting Agreement, the Book Running Lead Manager shall fulfil the underwriting obligations in accordance with the provisions of the Underwriting Agreement.

In case of discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical Bid Cum Application Form, for a particular Bidder, the details as per the file received from Stock Exchange may be taken as the final data for the purpose of Allotment. In case of discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical or electronic Bid Cum Application Form, for a particular ASBA Bidder, the Registrar to the Issue shall ask the relevant SCSBs/ RTAs / DPs / stock brokers, as the case may be, for the rectified data.

## DETAILS OF MARKET MAKING OF THE ISSUE

Our company may, in consultation with the Book Running Lead Manager, shall allot at least 5% of the Issue to the Market Maker under the Market Maker Reservation Portion as per the Regulation 261(4) of the SEBI ICDR Regulations.

Our Company has entered into a Market Making Agreement dated [●] with the following Market Maker for fulfilling the Market Making obligations under this Issue:

<b>Name</b>	[●]
<b>Correspondence Address:</b>	[●]
<b>Tel No.:</b>	[●]
<b>E-Mail Id:</b>	[●]
<b>Website:</b>	[●]
<b>Contact Person:</b>	[●]
<b>SEBI Registration No.:</b>	[●]
<b>Market Maker Registration No.</b>	[●]

Pursuant to NSE Circular no. 54/2023 dated August 31, 2023, the Market Maker shall confirm that it has sufficient net worth to enable them to discharge their respective market making obligations in full.

In accordance with Regulation 261 of the SEBI (ICDR) Regulations, we have entered into an agreement with the Book Running Lead Manager and the Market Maker (duly registered with NSE to fulfill the obligations of Market Making) dated [●] to ensure compulsory Market Making for a minimum period of three years from the date of listing of equity shares offered in this Issuer. [●], registered with Emerge Platform of NSE will act as the Market Maker and has agreed to receive or deliver of the specified securities in the market making process for a period of three years from the date of listing of our Equity Shares or for a period as may be notified by any amendment to SEBI (ICDR) Regulations.

The Market Maker shall fulfill the applicable obligations and conditions as specified in the SEBI (ICDR) Regulations, 2018 and the circulars issued by the NSE and SEBI in this regard from time to time.

### Following is a summary of the key details pertaining to the Market-making arrangement:

1. The Market Maker(s) (individually or jointly) shall be required to provide a 2-way quote for 75% of the time in a day. The same shall be monitored by the stock exchange. Further, the Market Maker(s) shall inform the exchange in advance for each and every black out period when the quotes are not being offered by the Market Maker(s).
2. The prices quoted by Market Maker shall be in compliance with the Market Maker Spread Requirements and other particulars as specified or as per the requirements of the NSE EMERGE and SEBI from time to time.
3. The minimum depth of the quote shall be ₹ 1,00,000/-. However, the investors with holdings of value less than ₹1,00,000/- shall be allowed to offer their holding to the Market Maker(s) (individually or jointly) in that scrip provided that he sells his entire holding in that scrip in one lot along with a declaration to the effect to the selling broker.
4. The Market Maker shall not sell in lots less than the minimum contract size allowed for trading on the NSE EMERGE (in this case currently the minimum trading lot size is [●] equity shares of face value of ₹10/ each; however, the same may be changed by the NSE EMERGE from time to time).
5. After a period of three (3) months from the market making period, the Market Maker would be exempted to provide quote if the Shares of Market Maker in our company reaches to 25% of Issue Size. Any Equity Shares allotted to Market Maker under this Issue over and above 25% of Issue Size would not be taken in to consideration of computing the threshold of 25% of Issue Size. As soon as the Shares of Market Maker in our Company reduces to 24% of Issue Size, the Market Maker will resume providing 2 way quotes.

6. There shall be no exemption/threshold on downside. However, in the event the Market Maker exhausts his inventory through market making process, NSE may intimate the same to SEBI after due verification.
7. Execution of the order at the quoted price and quantity must be guaranteed by the Market Maker(s), for the quotes given by him.
8. There would not be more than five Market Makers for a script at any point of time and the Market Makers may compete with other Market Makers for better quotes to the investors.
9. The shares of the company will be traded in a continuous trading session from the time and day the company gets listed on NSE EMERGE and market makers will remain present as per the guidelines mentioned under NSE and SEBI circulars.
10. On the first day of the listing, there will be pre-opening session (call auction) and there after the trading will happen as per the equity market hours. The circuits will apply from the first day of the listing on the discovered price during the pre-open call auction.
11. The Market maker may also be present in the opening call auction, but there is no obligation on him to do so.
12. There will be special circumstances under which the Market Maker may be allowed to withdraw temporarily/fully from the market – for instance due to system problems, any other problems. All controllable reasons require prior approval from the Exchange, while *force-majeure* will be applicable for non-controllable reasons. The decision of the Exchange for deciding controllable and non-controllable reasons would be final.
13. The Market Maker(s) shall have the right to terminate said arrangement by giving a (3) three months' notice or on mutually acceptable terms to the Merchant Banker, who shall then be responsible to appoint a replacement Market Maker(s) and execute a fresh arrangement. In case of termination of the above-mentioned Market Making agreement prior to the completion of the compulsory Market Making period, it shall be the responsibility of the Book Running Lead Manager to arrange for another Market Maker in replacement during the term of the notice period being served by the Market Maker but prior to the date of releasing the existing Market Maker from its duties in order to ensure compliance with the requirements of regulation 261 of the SEBI (ICDR) Regulations, 2018, as amended. Further our Company and the Book Running Lead Manager reserve the right to appoint other Market Makers either as a replacement of the current Market Maker or as an additional Market Maker subject to the total number of Designated Market Makers does not exceed five or as specified by the relevant laws and regulations applicable at that particulars point of time. The Market Making Agreement is available for inspection at our office from 10.00 a.m. to 5.00 p.m. on working days.
14. **Risk containment measures and monitoring for Market Makers:** NSE Emerge will have all margins which are applicable on the NSE Main Board viz., Mark-to-Market, Value-At-Risk (VAR) Margin, Extreme Loss Margin, Special Margins and Base Minimum Capital etc. NSE can impose any other margins as deemed necessary from time-to-time.
15. **Punitive Action in case of default by Market Makers:** The Exchange will monitor the obligations on a real-time basis and punitive action will be initiated for any exceptions and/or non-compliances. Penalties/fines may be imposed by the Exchange on the Market Maker, in case he is not able to provide the desired liquidity in a particular security as per the specified guidelines. These penalties/fines will be set by the Exchange from time to time. The Exchange will impose a penalty on the Market Maker in case he is not present in the market (offering two-way quotes) for at least 75% of the time. The nature of the penalty will be monetary as well as suspension in market-making activities / trading membership. The Department of Surveillance and Supervision of the Exchange would decide and publish the penalties/ fines / suspension for any type of misconduct/ manipulation/ other irregularities by the Market Maker from time to time.
16. **Price Band and Spreads:** The price band shall be 20% and the market maker spread (difference between the sell and the buy quote) shall be within 10% or as intimated by the Exchange from time to time.

The SEBI Circular bearing reference no: CIR/MRD/DP/ 02/2012 dated January 20, 2012, has laid down that for issue size up to ₹250 crores, the applicable price bands for the first day shall be:

- i. In case equilibrium price is discovered in the Call Auction, the price band in the normal trading session shall be 5% of the equilibrium price.
- ii. In case equilibrium price is not discovered in the Call Auction, the price band in the normal trading session shall be 5% of the issue price.

All the above-mentioned conditions and systems regarding the Market Making Arrangement are subject to change based on changes or additional regulations and guidelines from SEBI and the Stock Exchange from time to time.

33. As on the date of filing of this Draft Red Herring Prospectus, there are no outstanding warrants, options or rights to convert debentures, loans or other financial instruments into our Equity Shares.
34. As per RBI regulations, OCBs are not allowed to participate in this Issue.
35. Our Company has not raised any bridge loan against the proceeds of this Issue. However, depending on business requirements, we may consider raising bridge financing facilities, pending receipt of the Net Proceeds.
36. There are no Equity Shares against which depository receipts have been issued.
37. As on date of this Draft Red Herring Prospectus, other than the Equity Shares, there is no other class of securities issued by our Company.
38. Our Company undertakes that at any given time, there shall be only one denomination for our Equity Shares, unless otherwise permitted by law.
39. An Applicant cannot make an application for more than the number of Equity Shares being issued through this Issue, subject to the maximum limit of investment prescribed under relevant laws applicable to each category of investors.
40. No incentive, whether direct or indirect, in any manner, whether in cash or kind or services or otherwise shall be offered by any person connected with the distribution of the issue to any person for making an application in the Initial Public Offer, except for fees or commission for services rendered in relation to the issue.

41. In terms of Rule 19(2)(b)(i) of the Securities Contracts (Regulation) Rules, 1957, as amended, (the SCRR) the Issue is being made for at least 25% of the post-issue paid-up Equity Shares Share capital of our Company. Further, this Issue is being made in terms of Chapter IX of the SEBI (ICDR) Regulations, 2018, as amended from time to time.

## SECTION – VII PARTICULARS OF THE ISSUE

### OBJECT OF THE ISSUE

This issue includes a Fresh Issue of up to 46,00,000 Equity Shares of our Company at an issue price of ₹ [●] per Equity Share (Including Premium of ₹ [●] per Equity Share) aggregating up to ₹ [●] lakhs subject to finalization of Basis of Allotment. For details, see “**Summary of the Draft Red Herring Prospectus**” and “**The Issue**” on pages 21 and 61, respectively. The gross proceeds raised through the Fresh Issue (“**Gross Proceeds**”), after deducting the Issue related expenses, are estimated to be ₹ [●] lakhs (“**Net Proceeds**”). We intend to utilize the Net Proceeds of the Issue to meet the following objects:

1. Part funding of capital expenditure for setting up of new manufacturing facility for plastic moulded auto components at GIDC Sanand Industrial Park; and
2. General Corporate Purposes

(Collectively, referred as the “Objects”)

In addition to the objects mentioned above, our Company aims to strengthen its capital base, expects to receive the benefits of listing of the Equity Shares and enhancement of our Company’s visibility and brand image and creation of a public market for our Equity Shares in India. This will enhance our brand visibility, improve our corporate image and create a public market for our company, thereby opening opportunities for future growth. This development not only facilitates future financing for potential expansions or diversification but also fosters accessibility and affordability in securing such funding. Furthermore, listing on the platform is poised to attract the attention of investors, both domestic and foreign, thereby broadening our investor base and enhancing market interest in our company. It will also provide liquidity to the existing shareholders and will also create a public trading market for the Equity Shares of our Company.

The main object clause and the ancillary object clause of the Memorandum of Association of our Company enable us to undertake our existing activities and the activities for which we are raising funds through the Issue. The existing activities of our Company are within the object clause of our Memorandum of Association.

#Total estimated cost is as per cost vetting report dated August 29, 2025 and addendum to Cost vetting report dated September 25, 2025

*^As per the certificate issued by M/s V. Goyal & Associates dated September 27, 2025.*

We intend to deploy the Net Proceeds towards the Objects as disclosed in the table above, in accordance with the business needs of our Company. However, the actual funding requirements and deployment of the Net Proceeds as described herein are based on various factors, such as, our current business plan, management estimates, current circumstances of our business, quotations received from vendor, timing of completion of the Issue, market conditions, our Board's analysis of economic trends and business requirements, competitive landscape, as well as general factors affecting our results of operations and financial condition.

Depending on such factors, we may have to reduce, revise or extend the deployment period for the stated Objects, at the discretion of our management and in accordance with applicable laws. In the event that the estimated utilization of the Net Proceeds in a scheduled Fiscal is not completely met, including due to the reasons stated above, then it shall be utilized in the next Fiscal, as may be determined by our Company, in accordance with applicable laws.

For further details, see ***“Risk Factor No. 31 - Any variation in the utilization of the Net Proceeds as disclosed in this Draft Red Herring Prospectus shall be subject to certain compliance requirements, including prior shareholders’ approval”*** on page 42 of this Draft Red Herring Prospectus. Our historical expenditure may not be reflective of our future expenditure plans.

The above fund requirements are based on internal management estimates and prevailing market conditions, other commercial and technical factors including interest rates and other charges, quotations received vendor, all of which are subject to change in the future. The proposed deployment of the Net Proceeds have not been appraised by any bank, financial institution or agency. These are based on current conditions and are subject to revisions in light of changes in costs, our financial condition, our business operations or growth strategy or external circumstances which may not be in our control. We may have to revise our funding requirements and deployment of the Net Proceeds from time to time on account of various factors, such as financial and market conditions, business and strategy, competitive environment and interest or exchange rate fluctuations, increase in labour costs, logistics and transport costs, incremental preoperative expenses, taxes and duties, interest and finance charges, regulatory costs, environmental factors and other external factors, which may not be within the control of our management. Furthermore, if any surplus from the proceeds remains after meeting the total requirements for the aforesaid purpose, the same will be used for our general corporate purposes, subject to limit of 15% of the amount raised by our Company through this Issue or ₹ 10 crores, whichever is lower.

For further information on factors that may affect our internal management estimates, see ***“Risk Factor No. 32 Our funding requirements and the proposed deployment of Net Proceeds have not been appraised by any bank or financial institution or any other independent agency and our management will have broad discretion over the use of the Net Proceeds”*** on page 42 of this Draft Red Herring Prospectus.

In case of any increase in the actual utilization of funds earmarked for the Objects, such additional funds for a particular activity will be met by way of means available to our Company, including from internal accruals. If the actual utilization towards any of the Objects is lower than the proposed deployment such balance will be used for future growth opportunities including funding existing objects, if required. In case of delays in raising funds from the Issue, our Company may deploy certain amounts towards any of the above-mentioned Objects through a combination of Internal Accruals borrowings.

#### **Means of Finance:**

The fund requirements set out for the aforesaid Objects of the Issue are proposed to be met entirely from the Net Proceeds. Accordingly, we confirm that there is no requirement to make firm arrangements of finance under Regulation 230(1)(e) of the SEBI (ICDR) Regulations, 2018 through verifiable means towards at least 75% of the stated means of finance, excluding the amount to be raised through the Net Proceeds and existing identifiable internal accruals.

#### **Details of object of Issue:**

Our Board at its meeting held on September 30, 2025 approved the proposed objects of the Issue and the respective amounts proposed to be funded from the Net Proceeds for each Object.

#### **a) Capital Expenditure on setting up new manufacturing facility:**

Our Company, Kheria Autocomp Limited is engaged in the manufacturing of plastic injection moulded components and assemblies for the automotive and white goods industries. The Company operates as a Tier-II supplier, manufacturing products as per the designs and specifications provided by Tier-I vendors, who in turn supply directly to original equipment manufacturers (“OEMs”) in the passenger vehicle and white goods segment. Its automotive products are supplied for both electric vehicles and internal combustion engine vehicles.

We started our manufacturing facility in the FY 2010-11 at lot No. B6, B7 & B8, Tata Vendor Park Revenue Survey No. 1, Village: North Kothpura Taluka: Sanand, District, Ahmedabad. The detailed capacity utilization is as below:

3	2024-25	4,200		4154.00	98.90%

Capacity utilization certificate dated June 16, 2025 issued by Multi Mulkayankan, INC, Chartered Engineer, bearing membership number 1283681.

Our existing manufacturing unit at Sanand operate at 98.90% of its capacity and there is no adequate space to deploy additional machines. Further to meet increased demand, the Company planned to add one more manufacturing unit at Plot E-560, GIDC Sanand-II Industrial Estate, Village Rasulpura, Taluka Sanand, Dist. Ahmedabad. The land has been taken on a 99-year lease as per the lease agreement with Gujarat Industrial Development Corporation (GIDC) dated 4th February 2025. The land is industrial in nature and has a clear title in the name of our Company. The Company intend to expand manufacturing capacities for existing products by way of setting up new manufacturing unit. This will increase overall capacity of the Company, thereby increase in production and increase revenue with increase in production, the company will also aim at achieving economies of scale, thereby increasing profit margins. The Company has obtained possession of the proposed land at GIDC Sanand-II Industrial Estate and civil construction has started.

The details of available area of the units are as follows:

#### A. Land

Company has obtained the proposed land of 15,900 sq.m. on lease from Gujarat Industrial Development Corporation (GIDC) at Plot E-560, GIDC Sanand-II Industrial Estate, Village Rasulpura, Taluka Sanand, Dist. Ahmedabad, Gujarat. Based on the letter of allotment issued by GIDC dated December 24, 2024, allotment price for the land is ₹ 773.00 lakhs and can be paid by three modes of payment i.e. 100% upfront payment, 30% upfront and balance later along with other payment options. Company has opted for 30% upfront mechanism with balance 70% of allotted price to be paid over 8 years in 32 quarterly installments with interest at the rate of 10.5%.

Further, a number of charges such as welfare fund, development charges etc are to be paid by the Company. Based on the same, the total land cost comes to ₹ 809.95 lakhs (with GST on certain charges).

#### B. Civil cost

The Civil cost includes cost of excavation, foundation i.e. primary civil activities along with cost for Pre-Fabricated Structure. Factory shed includes machine area & raw material. The machine area will accommodate the automatic injection moulding machines with their accessories. The total built up area is around 13585 Sq. mtrs against plot area of 15900 sq.m. The height of the factory will be 13.5M. Further, the FSI Area is around 13255 sq.m. Thus, proposed area of the building is adequate for accommodating the required plant and machinery and provision for godown for raw material, finished products and assembly areas.

The table below shows a detailed breakup of the civil cost:

### C. Plant & Machinery (IIM & Auxiliary Equipment)

The plant and machinery required for manufacturing of plastic injection moulded auto components include automatic injection moulding machines of various capacities, colour mixer, de humidifier drier, grinders, hopper loader etc. Considering the targeted production capacity of the unit, product mix and cycle time for each item, the requirement of injection moulding machines of various capacities has been worked out as 9 nos.

The requirement will be as follows:

Machine Tonnage	Number
550	2
660	2
850	2
1100	2
1500	1
<b>TOTAL</b>	<b>9</b>

The total P&M Machinery Cost for Injection Moulding Machines (IMM) and Auxiliary Machines comes to ₹ 2,650.84 lakhs i.e. ₹ 2,363.54 lakhs for IMMs and ₹ 287.30 lakhs for auxiliary machines. 100% quotations are available for the Plant and Machinery, while the purchase orders for all the machines will be placed soon.

**Re: Proposed initial public offering of equity shares of face value of ₹ 10 each (the “Equity Shares”) of Kheria Autocomp Limited (the “Company” or the “issuer”) comprising a fresh issue of the Equity Shares of the Company (“Fresh Issue”, the “Issue”)**

We, M/s V. Goyal & Associates, Chartered Accountants (Firm Registration Number: 312136E), hereby confirm that the enclosed **Annexure A**, prepared by the Company and initiated by us for identification purpose (“**Statement**”) for the Issue, provides the possible special tax benefits available to the Company, and to its shareholders under direct tax and indirect tax laws presently in force in India, including the Income-tax Act, 1961, Customs Act, 1962 and the Customs Tariff Act, 1975 (read with the rules, circulars and notifications issued in connection thereto). Several of these benefits are dependent on the Company or its shareholders fulfilling the conditions prescribed under the relevant statutory provisions. Hence, the ability of the Company and/or its shareholders identified as per the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirement) to derive the tax benefits is dependent upon fulfilling such conditions, which based on business imperatives the Company faces in the future, the Company may or may not choose to fulfil.

This statement of possible special tax benefits is required as per Schedule VI (Part A)(9)(L) of the SEBI ICDR Regulations. While the term ‘special tax benefits’ has not been defined under the SEBI ICDR Regulations, for the purpose of this Statement, it is assumed that with respect to special tax benefits available to the Company, the same would include those benefits as enumerated in the **Annexure A**. Any benefits under the taxation laws other than those specified in **Annexure A** are considered to be general tax benefits and therefore not covered within the ambit of this Statement. Further, any benefits available under any other laws within or outside India, except for those mentioned in the **Annexure A** have not been examined and covered by this statement.

The benefits discussed in the enclosed Statement are not exhaustive. The Statement is only intended to provide general information to the investors and is neither designed nor intended to be a substitute for professional tax advice. In view of the individual nature of the tax consequences and changing tax laws, each investor is advised to consult his or her own tax consultant with respect to the specific tax implications arising out of their participation in the Issue.

In respect of non-residents, the tax rates and the consequent taxation shall be further subject to any benefits available under the applicable Double Taxation Avoidance Agreement, if any, between India and the country in which the non-resident has fiscal domicile.

We do not express any opinion or provide any assurance as to whether:

1. the Company or its shareholders will continue to obtain these benefits in the future; or
2. the conditions prescribed for availing of the benefits, where applicable have been/would be met with.
3. the revenue authorities/courts will concur with the views expressed herein.

The contents of the enclosed Statement are based on information, explanations and representations obtained from the Company on the basis of our understanding of the business activities and operations of the Company.

We have conducted our review in accordance with the ‘Guidance Note on Reports or Certificates for Special Purposes’ issued by the Institute of Chartered Accountants of India (“**ICAI**”) which requires that we comply with ethical requirements of the Code of Ethics issued by the ICAI. We hereby confirm that while providing this statement we have complied with the Code of Ethics issued by the ICAI.

We hereby consent to be named an “expert” under the Companies Act, 2013, as amended, and our name may be disclosed as an

expert to any applicable legal or regulatory authority insofar as may be required, in relation to the statements contained therein. We further confirm that we are not and have not been engaged or interested in the formation or promotion or management of the Company.

We have carried out our work on the basis of Restated Financial Statements and other documents, public domain and information made available to us by the Company, which has formed substantial basis for this Statement.

We have complied with the relevant applicable requirements of the Standard on Quality Control (SQC) 1, Quality Control for Firms that Perform Audits and Reviews of Historical Financial Information, and Other Assurance and Related Services Engagements.

We hereby consent to our name and the aforementioned details being included in the Issue Documents and/or consent to the submission of this certificate as may be necessary, to any regulatory / statutory authority, stock exchanges, any other authority as may be required and/or for the records to be maintained by the BRLM in connection with the Issue and in accordance with applicable law.

This certificate may be relied on by the BRLM, their affiliates and legal counsel in relation to the Issue and to assist the BRLM in conducting and documenting their investigation of the affairs of the Company in connection with the Issue. We hereby consent to this certificate being disclosed by the BRLM, if required (i) by reason of any law, regulation, order or request of a court or by any governmental or competent regulatory authority, or (ii) in seeking to establish a defence in connection with, or to avoid, any actual, potential or threatened legal, arbitral or regulatory proceeding or investigation.

We undertake to immediately communicate, in writing, any changes to the above information/confirmations to the BRLM and the Company until the equity shares allotted in the Issue commence trading on the relevant stock exchanges. In the absence of any such communication from us, the Company, the BRLM and the legal advisor appointed with respect to Issue can assume that there is no change to the information/confirmations forming part of this certificate and accordingly, such information should be considered to be true and correct.

All capitalized terms used but not defined herein shall have the meaning assigned to them in the Issue Documents.

#### Global Economic Overview

The global economy, which recorded GDP growth at 3.3% in CY 2024, is expected to show moderation by growing at 3.0% in CY 2025. This marks the slowest expansion since 2020 and reflects a -0.3%point downgrade from January 2025 forecast. Moreover, the projection for CY 2026 has also reduced to 3.1%. This slowdown is majorly attributed due to numerous factors such as high inflation in many economies despite central bank effort to curb inflation, continuing energy market volatility driven by geopolitical tensions particularly in Ukraine and Middle East, and the re-election of Donald Trump as US President extended uncertainty around the trade policies as well as overall global economic growth. High inflation and rising borrowing costs affected the private consumption on one hand while fiscal consolidation impacted the government consumption on the other hand. As a result, global GDP growth is projected to slow down from 3.3% in CY 2024 to 3.0% in CY 2025.

#### Global Economic Outlook

The global economy is navigating a period of exceptional uncertainty. Policy shifts, particularly those reshaping trade, have alarmed financial markets and bruised business sentiment. The U.S.’s reciprocal tariffs, which represent additional costs for businesses from almost all countries with which the U.S. trades, charge trade partners an import duty at a discounted rate of approximately half the rate that the trade partner currently imposes on the U.S. According to U.S. President Donald Trump, reciprocal tariffs, ranging from 10% to 50%, are meant to address trade barriers limiting U.S. exports. The *effective* tariff rate includes other tariffs imposed at an earlier date and cumulatively may now be higher than duties charged on U.S. imports. It is

unclear whether the reciprocal tariffs represent a negotiating tool, and may therefore be temporary, or form part of broader long-term protectionist measures and industrial strategy.

The latest [Dun & Bradstreet Global Business Optimism Insights](#) report reveals a further decline in business optimism, though at a more moderate pace than in the prior quarter, as businesses continued to grapple with trade-related policy uncertainty and its broader economic implications. Export-driven sectors such as automotives, electricals, and metals saw sharp declines in optimism, particularly in the U.S., Mexico, South Korea, and Japan, where rising tariffs and shifting trade policies have fuelled cost pressures and demand volatility. Financial risk perceptions remain elevated.

### India Macroeconomic Analysis

India emerged as one of the fastest growth economies amongst the leading advanced economies and emerging economies. In CY 2024, even amidst geopolitical uncertainties, particularly those affecting global energy and commodity markets, India continues to remain one of the fastest growing economies in the world and is expected to grow by 6.2% in CY 2025 and 6.3% in 2026.

The Government stepped spending on infrastructure projects to boost the economic growth had a positive impact on economic growth. The annual growth in capital expenditure of the central government moderated to 7.27% in FY 2025 against the average of 26.52% in the previous two fiscal which translated in moderation GDP growth in 2024 to 6.5% against 9.2% in the previous calendar year. In the Union Budget 2025-2026, the government announced INR 11.21 billion capex on infrastructure (10.12% higher than previous year revised estimates) coupled with INR 1.5 trillion in interest-free loans to states. This has provided much-needed confidence to the private sector and is expected to attract the private investment and support India's economic growth in the current year.

The agriculture sector saw an acceleration, with growth increasing from 2.66% in FY 2024 to 4.63% in FY 2025. However, its contribution to GVA declined marginally from 14.66% in FY 2024 to 14.41% in FY 2025. Overall, Gross Value Added (GVA) growth moderated to 6.41% in FY 2025 from 8.56% in FY 2024.

### Annual & Monthly IIP Growth

Industrial sector performance as measured by IIP index exhibited moderation in FY 2025, recording a 4.02% y-o-y growth against 5.92% increase in the previous year. The manufacturing index showed moderation and grew by 4.08% in FY 2025 against 5.54% in FY 2024. Mining sector index too moderated and exhibited a growth of 3.03% in FY 2025 against 7.51% in the previous years while the Electricity sector Index, also witnessed moderation of 5.19% in FY 2025 against 7.07% in the previous year.

### Industry Analysis

#### Overview

The Indian auto components industry has emerged as a vital pillar of the country's manufacturing sector, playing a crucial role in driving economic growth, industrial development, and global trade integration. Backed by a robust domestic automotive market and increasing international demand, India's auto component sector is poised to become a global manufacturing hub and an essential player in the international automotive value chain. In recent years, the industry has entered a transformative phase characterized by greater global exposure, increased emphasis on technology adoption, and a strategic shift toward research and development (R&D). This evolution is enabling Indian manufacturers to generate intellectual property locally, increase value-added exports, and align more closely with the global trend toward electrification and alternate fuel technologies.

India's auto component industry is a vital pillar of the country's economy, underpinning both its manufacturing strength and employment generation capabilities. It contributes approximately 2.3% to the national GDP and provides direct employment to more than 1.5 million people, while indirectly supporting a vast ecosystem of jobs and ancillary services. Closely tied to the larger automotive sector, which itself accounts for 49% of India's manufacturing GDP and 6% of the total GDP, the component industry plays a crucial role in sustaining the overall industrial value chain.

The sector is diverse and expansive, comprising players of all sizes, from large corporations to micro and small enterprises, strategically distributed across automotive clusters throughout India. This structure has enabled deep regional integration and broad-based participation in manufacturing, technology, and supply chain operations. As global demand for cost-effective, high-quality components grows, Indian suppliers are increasingly being recognized for their capabilities in precision manufacturing, engineering excellence, and adaptability.

Looking ahead, the auto component sector is poised for significant expansion. By 2026, it is expected to contribute between 5% and 7% of India’s GDP, driven by multiple growth engines. These include rising domestic vehicle demand fuelled by a growing middle class, an expanding global footprint as OEMs seek alternative supply sources beyond China, and a flourishing aftermarket servicing a large and aging vehicle population.

The Indian auto component industry is transitioning into a global manufacturing hub, supported by innovation, policy support, and increasing integration with global value chains. Its role in advancing India’s industrial competitiveness and export potential continues to strengthen with each passing year.

**Classification of Auto Components by Material Type**

The auto component industry encompasses the manufacturing of a wide array of parts and subsystems essential for vehicle assembly and operation. These range from powertrain components like engine and transmission parts to chassis systems, electrical and electronic modules, interior trims, and structural body elements. As a crucial part of the automotive value chain, the industry supports Original Equipment Manufacturers (OEMs) by delivering precision-engineered parts that ensure performance, safety, and efficiency.

A notable trend in this sector is the growing adoption of robotic automation. Component manufacturers, responding to stringent quality and consistency demands from OEMs, have implemented robotic technologies across production lines. Unlike full-vehicle assembly plants where large integrated automation lines dominate, the auto component sector typically uses standalone robotic cells, offering flexibility to handle the diverse range of parts and manufacturing processes involved. These robotic systems are deployed across domains such as plastics, metalworking, electronics, and mechanical assembly, enhancing precision, reducing cycle times, and improving quality.

**Insights on key attributes / features of the product**

**Material Type**

Auto components are further classified based on the materials used in their manufacture. Material selection is driven by functional performance, durability, cost, weight, and design flexibility considerations.

**Key Component Category and End-User applications**

Component Category	Key Products	End-User Applications
Engine & Powertrain	Engine blocks, crankshafts, pistons, turbochargers, gearboxes	Internal combustion engines, hybrid systems, transmission assemblies
Chassis & Suspension	Axles, suspension arms, control arms, knuckles, shock absorbers	Vehicle structural integrity, ride comfort, road handling and stability
Electrical & Electronics	Wiring harnesses, ECUs, sensors, battery management systems	Electric vehicles, infotainment systems, ADAS, power distribution
Body & Structural Parts	Doors, bumpers, hoods, body panels, roof frames	Exterior vehicle structure, crash safety, design and aesthetics
Braking System	Brake discs, pads, callipers, ABS components	Vehicle safety, stopping distance reduction, brake control systems
Interior Components	Dashboards, infotainment consoles, HVAC units, seats, trims	Cabin ergonomics, passenger comfort, control and convenience features

Exhaust & Emission Parts	Mufflers, catalytic converters, exhaust manifolds	Emission control, noise reduction, compliance with environmental regulations
Steering System	Steering wheels, columns, racks and pinions	Vehicle manoeuvrability, driver control, steering responsiveness
Lighting & Signalling	Headlamps, tail lights, turn indicators, fog lights	Road visibility, signalling, vehicle safety and compliance

### Indian Auto Component Industry Market Size

India's auto component industry has evolved into a critical pillar of the country's automotive ecosystem, exhibiting a consistent growth trend over the past five years. The market includes supplies to domestic vehicle manufacturers (OEMs), the thriving aftersales/replacement segment, and a growing share of international trade, both exports and imports. After a temporary setback in FY 2021 due to the pandemic, the industry has demonstrated strong recovery and expansion, driven by rising vehicle production, increased localization, growing vehicle parc, and India's emergence as a preferred global sourcing hub.

For FY 2023 - FY2024, India's auto component industry witnessed a 9.8% growth, reaching a market size of INR 6.1 trillion, and is projected to expand further to INR 6.7 trillion in FY 2025. This growth is being driven by a strong performance across domestic OEM supplies, exports, and the aftermarket. While the industry is gradually transitioning towards electric and clean fuel vehicles, the dominance of internal combustion engine (ICE)-based platforms is expected to persist in the near to mid-term. To stay competitive and meet shifting market demands, the industry is increasingly focusing on manufacturing flexibility, modular design capabilities, and greater emphasis on innovation and customization.

Source: ACMA, Industry Sources

The Indian auto component market stood at INR 3.5 trillion in FY 2020, before experiencing a slight dip to INR 3.4 trillion in FY 2021, reflecting the pandemic-induced slowdown in automotive production and consumption. From FY 2022 onwards, the sector rebounded sharply, reaching INR 4.2 trillion and further accelerating to INR 5.6 trillion in FY 2023, driven by robust domestic OEM demand, a surge in replacement sales, and a strong export performance.

This growth translates into a Compound Annual Growth Rate (CAGR) of approximately 13.6% from FY 2021 to FY 2025, reflecting the sector's resilience and capacity to scale in response to both domestic and global demand. The market structure comprises three major segments:

### Market Segmentation

#### Auto Component Distribution Across Functional Categories

Source: ACMA, Annual Report FY 2024

In the overall distribution of auto components supplied to OEMs, the aftermarket, and in trade balances, engine components constitute the largest segment, accounting for 26% of the total. This is followed by suspension and braking systems with a 15% share, and body and chassis parts at 14%. Drive and transmission systems make up 13%, while electrical and electronic components contribute 12%. Non-electronic interior parts represent 11%, consumables account for 7%, and cooling systems form the smallest share at 1%. This distribution highlights the dominance of critical performance parts, particularly engine and drivetrain-related components, in the automotive component supply chain.

The use of plastic injection moulding in these areas supports the industry’s focus on light-weighting, modular design, and cost efficiency, especially in the context of increasing electric vehicle adoption and the shift toward higher performance and design flexibility in auto components. The plastic injection moulding market in India’s auto component sector is poised for strong growth, driven by rising EV adoption, vehicle light-weighting, and increasing demand for high-precision interior and electronic parts. With supportive policies and export momentum, its share is expected to expand steadily through 2030.

**India Plastic Processing Industry**

India’s plastic processing industry is poised for remarkable growth, with the market size expected to more than triple from the current INR 3.5 trillion to INR 10 trillion by FY 2028. This surge reflects the sector's robust annual growth rate of 10-15%, driven by rising domestic demand and increasing global competitiveness. The industry, which currently contributes significantly to the national GDP, comprises around 30,000 processing units employing technologies such as injection moulding, blow moulding, extrusion, and calendaring to produce a diverse range of plastic products. In parallel with domestic expansion, exports are also gaining momentum, projected to rise from INR 0.4 trillion to INR 0.01 trillion, reinforcing India’s potential to become a global hub for plastic manufacturing and supply.

## Demand Scenario

### Growth in the Automobile Sector

India's automobile industry has shown a strong and sustained growth trajectory over the last few years, emerging as a major pillar of the nation's manufacturing and economic landscape. This expansion is not only indicative of rising consumer demand and mobility penetration across urban and rural regions but also underscores the strategic importance of the auto sector in driving ancillary industries, most notably the auto component manufacturing ecosystem. The increase in vehicle production volumes across all major segments, passenger vehicles, commercial vehicles, two-wheelers, three-wheelers, and quadricycles, directly correlates with increased demand for a broad range of components, from powertrain systems and electronics to plastics, rubber parts, and advanced safety modules.

Several factors have contributed to this upward trend. The gradual economic recovery post-COVID, improved infrastructure, favourable government policies such as the Production Linked Incentive (PLI) schemes, and rising aspirations of a growing middle class have all contributed to strong demand for automobiles. Additionally, the acceleration in electric vehicle (EV) adoption, resurgence in fleet modernization, and sustained rural mobility demand are reinforcing production growth. As a result, the auto component sector is experiencing a significant uptick in both capacity utilization and new investments to meet the evolving needs of OEMs.

### Rising Demand for Plastic Moulding and Lightweighting

The automotive industry is undergoing a fundamental transformation toward lightweight vehicle design, driven by the dual imperatives of improving fuel efficiency and meeting stringent emission standards in internal combustion engine (ICE) vehicles, as well as extending range and performance in electric vehicles (EVs). In response, original equipment manufacturers (OEMs) are increasingly replacing conventional metal components with advanced plastics and polymer composites across multiple vehicle systems.

Plastic moulding technologies, including injection moulding, blow moulding, and thermoforming, are playing a pivotal role in this transition. These techniques are widely employed to manufacture a diverse range of components such as instrument panels, door trims, bumpers, dashboard assemblies, HVAC ducts, intake manifolds, engine covers, battery enclosures, fender liners, wheel arches, and various aesthetic elements. The use of plastic materials offers compelling advantages: substantial weight savings, resistance to corrosion, design flexibility, and cost-efficiency in high-volume production.

In the EV segment in particular, where battery weight and space optimization are critical, the use of engineered plastics is gaining prominence in areas such as under-the-hood components, battery housings, thermal management systems, and modular enclosures for power electronics. This shift is further supported by the growing focus on aerodynamic efficiency and modular vehicle platforms, which require complex, lightweight, and seamlessly integrated parts—features ideally suited for plastic moulding.

In India, the trend is gaining further momentum due to regulatory initiatives such as Corporate Average Fuel Economy (CAFE) norms and the rising penetration of EVs and SUVs, both of which rely heavily on moulded plastic parts for interiors, exterior panels, and structural subassemblies. In response, Tier-1 and Tier-2 component suppliers are investing in advanced tooling, multi-material integration, and innovative resin technologies to align with OEM requirements and future-ready vehicle platforms.

This transition toward plastic moulding is not merely a response to material substitution but represents a deeper structural shift aligned with the automotive industry's long-term goals of sustainability, performance, and cost optimization. As such, it stands out as a key demand driver for the auto component industry, creating new opportunities across the value chain for manufacturers equipped to deliver lightweight, high-performance, and design-rich solutions.

### Shift Toward Electrification (EV Adoption)

Electric vehicles require specialized auto components such as battery packs, electric motors, power electronics, thermal management systems, and high-voltage wiring harnesses. Additionally, EVs use lightweight plastic-moulded parts for enclosures, interior trims, and aerodynamic body components to enhance efficiency.

Source: Society of Manufacturers of Electric Vehicles (SMEV)

The exponential growth in electric vehicle (EV) sales in India is emerging as a transformative force for the auto component industry. From just 50,000 units in FY 2021, domestic EV sales surged to over 2 million units by FY 2025, marking a steep and sustained upward trajectory. This momentum is expected to continue in the coming years, driven by supportive government policies, improvements in charging infrastructure, rising fuel costs, and increasing consumer acceptance across two-wheeler, three-wheeler, and passenger vehicle segments.

This surge in EV adoption is significantly reshaping the component landscape, as electric vehicles require a different set of critical parts compared to conventional internal combustion engine (ICE) vehicles. Demand is rising sharply for specialized components such as battery packs, thermal management systems, electric motors, power electronics, lightweight enclosures, regenerative braking systems, high-voltage connectors, and advanced electronics. Additionally, the emphasis on lightweighting to maximize battery efficiency is driving greater use of plastic-moulded and composite parts, particularly for structural and aesthetic applications.

As OEMs and Tier-1 suppliers localize EV production and expand their electric portfolios, the auto component industry is presented with a long-term opportunity for growth and innovation. Suppliers who are agile and capable of adapting to new product

specifications, technologies, and materials are well-positioned to benefit from this shift. In essence, the rapid rise in EV sales is not only a sign of changing consumer demand, it is a structural demand driver that will define the next phase of growth for the auto component industry in India.

### **Demographic Dividend**

India's massive population of approximately 1.46 billion, combined with its favourable demographic profile, is set to play a pivotal role in driving demand for the auto component industry. More than two-thirds of the population, around 68%, falls within the working-age group of 15 to 64 years, and with a projected median age of just 31 by 2030, India will continue to be one of the youngest nations globally. This large, economically active, and aspirational demographic is expected to fuel rising demand for personal mobility, leading to increased vehicle ownership across segments—from two-wheelers to passenger cars and commercial vehicles. As incomes rise and urbanization expands, the demand for both conventional and electric vehicles will accelerate, creating a strong downstream demand for auto components such as engines, powertrains, electronics, braking systems, and EV-specific parts. Moreover, with India projected to achieve annual electric vehicle sales of 10 million units by 2030 and policy support aimed at reducing import dependence, domestic component manufacturers stand to benefit significantly from this demographic-driven growth trajectory.

### **India's Cost Advantage and Evolving Ecosystem**

Today, nearly 25% of India's auto component production is exported, reflecting the global trust in the country's manufacturing capabilities. Domestically, the rapid rise in automobile sales has further boosted component demand. Economic reforms, rising income levels, urbanization, and the expansion of jobs in the service and industrial sectors have all contributed to higher vehicle ownership. Additionally, evolving aspirations, lifestyle changes, and improved access to financing have made automobiles more accessible to a larger population. This dual growth, expanding export potential, and a thriving domestic market, continues to drive robust demand across India's auto component industry.

### **Robust Policy Support**

The Indian auto component industry is receiving strong policy support from the government, aimed at enhancing competitiveness, driving innovation, and accelerating growth across domestic and global markets. In January 2024, the Government of India approved an additional INR 1,500 crore (USD 180.3 million) for the second phase of the FAME-II scheme, reinforcing its commitment to electric mobility and boosting demand for EV-related components. To further encourage investment, the government allows 100% Foreign Direct Investment (FDI) under the automatic route in the auto components sector, making it easier for global players to participate in and strengthen India's manufacturing ecosystem.

Significantly, the government has introduced a production-linked incentive (PLI) scheme with an outlay of USD 7.8 billion for the automobile and auto component sectors under the Department of Heavy Industries. This initiative is expected to attract capital expenditure of INR 74,850 crore (USD 9.58 billion) over the next five years, fostering advanced manufacturing and localization of high-value components. Additionally, the rollout of the Bharat New Car Assessment Program (BNCAP) is set to elevate safety standards, which will stimulate the production of cutting-edge, safety-enhancing components. Together, these policy measures are not only strengthening the auto component value chain but are also positioning India as a global centre for quality, innovation, and next-generation automotive manufacturing.

### **Regulatory Landscape**

The automobile industry has seen the introduction of several policy measures, starting with the Auto Policy in 2002, Automobile Mission Plan 2006-2016, National Automotive Testing and R&D Infrastructure (NATRiP), National Electric Mobility Mission Plan 2020 (NEMMP 2020), and Faster Adoption & Manufacturing of Electric Hybrid Vehicles (FAME) Scheme (I & II). Together, these policies have helped in improving the manufacturing practices, quality standards, and efficiency standards in Indian automobile industry. Being an associated sector, the merits of these policies has spilled over to auto component industry, which has seen significant investments and activities in technology modernization and quality control.

### **Impact of Bharat Stage (BS) VI Emission Norms on the Auto Component Industry**

The transition to Bharat Stage (BS) VI emission standards represents one of the most transformative regulatory shifts for India's automotive and auto component industries. Skipping BS-V and directly implementing BS-VI norms by April 2020 demonstrated India's strong commitment to reducing its carbon footprint under the Paris Climate Agreement, aiming to cut emissions by 33–55% from 2005 levels by 2030. This leap in emission standards has had a profound impact on the auto component sector, driving both technological evolution and increased demand for advanced components.

### **Automotive Mission Plan 2016–2026 (AMP 2026)**

This is a joint strategic vision developed by the Government of India in collaboration with the Indian automotive industry, aiming to position India as one of the top three automotive manufacturing hubs in the world. Building upon the success of the previous AMP 2006–2016, this plan seeks to significantly boost the country's contribution to the global automotive value chain. Its core

objectives include increasing the sector's share in India's GDP to over 12%, creating approximately 65 million direct and indirect jobs, and making India a preferred destination for design, development, and production of vehicles and auto components. A key element of AMP 2026 is the push towards enhancing domestic R&D capabilities, encouraging innovation in electric mobility, and promoting local manufacturing of critical components such as EV batteries, powertrains, and automotive electronics.

### **National Automotive Policy 2018**

The National Automotive Policy 2018 was formulated to guide the comprehensive development of India's automobile sector with a strong focus on growth, sustainability, and innovation. A key emphasis of the policy was on promoting green mobility by accelerating the adoption of electric vehicles and clean technologies to meet environmental commitments and capitalize on emerging global trends. The policy sought to support both existing and new vehicle manufacturers in expanding domestic and export capacities, while also creating a level playing field to encourage competitiveness. For the auto component industry, the draft proposed a strategic push towards higher value-added production, particularly in electronics and electrical systems, to help suppliers move up the value chain and reduce import dependency.

### **Vehicle Scrappage Policy**

The Vehicle Scrappage Policy, officially announced in 2021 and operationalized in subsequent years, is a government initiative aimed at phasing out old, polluting, and unsafe vehicles from Indian roads. Under this policy, private vehicles older than 20 years and commercial vehicles older than 15 years that fail fitness tests will be eligible for voluntary scrapping. The policy is designed to reduce environmental pollution, improve road safety, and stimulate demand in the automotive and auto component sectors.

For the auto component industry, this policy serves as a key demand driver. As older vehicles are scrapped, there is a direct boost in the demand for new vehicles, which in turn generates demand for new and advanced auto components. This includes engines, exhaust systems, braking systems, infotainment units, suspension systems, and electronics.

### **Union Budget 2025-26**

The Union Budget 2025-26, presented by Finance Minister Nirmala Sitharaman on February 1, 2025, marks a pivotal moment for the Indian auto component industry. With an emphasis on electric mobility, domestic manufacturing, MSME support, and increased consumer purchasing power, the budget lays a strong foundation for long-term industry growth and competitiveness.

A major boost for the auto component sector comes from the government's continued policy thrust on electric vehicles (EVs). The removal of customs duties on 35 critical inputs—including lithium-ion battery scrap, cobalt, copper, lead, and other key minerals, will significantly reduce input costs and enhance the availability of raw materials for local battery and EV component manufacturers. This move is expected to improve the cost-efficiency and scalability of domestic EV production, stimulating demand across the component supply chain and encouraging localization of high-value parts.

In terms of direct financial support, the budget has earmarked over INR 7,000 crore for various centrally sponsored schemes related to the auto and EV industries. Key allocations include INR 2,818 crore for the Auto PLI scheme, INR 4,500 crore for the PM E-Drive initiative, INR 155 crore for the Advanced Chemistry Cell (ACC) PLI scheme, and INR 12 crore under the Scheme to Promote Manufacturing of Electric Passenger Cars in India (SMEC). These targeted investments are designed to accelerate technological innovation, incentivize capacity expansion, and promote sustainable practices within the auto component ecosystem.

Another important development is the revised classification norms for MSMEs, which now increase the investment cap by 2.5 times and the turnover threshold by 2 times. This adjustment will bring many Tier-2 and Tier-3 auto component manufacturers into the MSME fold, granting them improved access to credit facilities, tax benefits, and government subsidies. Given the fragmented nature of the supplier base in India, this is expected to support modernization and competitiveness across the value chain.

From a broader macroeconomic perspective, the increase in income tax exemption limit from INR 7 lakh to INR 12 lakh under the new tax regime is set to boost consumer disposable income, indirectly benefiting the auto component industry through higher vehicle sales. With more affordability across passenger cars, two-wheelers, and small commercial vehicles, demand for OEM and aftermarket components is likely to grow, especially in the rural and semi-urban segments.

The budget also introduced agriculture-focused initiatives such as the Dhan-Dhaanya Krishi Yojana and subsidies for agricultural implements like tractors and pump sets. These measures are expected to drive demand for tractors and rural mobility components, creating new growth avenues for component manufacturers catering to the agrarian economy.

Lastly, the simplification of TDS compliance under the PLI framework eases the administrative burden for businesses, supporting smoother cash flow management and reducing transaction costs for auto component suppliers participating in government incentive schemes.

The Union Budget 2025-26 offers a comprehensive package of fiscal incentives, regulatory support, and structural reforms that collectively strengthen the Indian auto component industry. By promoting localization, supporting MSMEs, enabling electric mobility, and improving consumer purchasing power, the budget sets the stage for a more resilient, technologically advanced, and globally competitive component manufacturing ecosystem.

## Make in India and Atmanirbhar Bharat Abhiyan

The Make in India initiative, launched in 2014, is expected to continue playing a pivotal role in strengthening India's manufacturing capabilities, especially in the automobile and auto component sectors. Going forward, the policy is likely to further encourage global and domestic manufacturers to invest in India by offering a favourable regulatory framework, infrastructure development, and incentives aimed at boosting local production. As the country aspires to become a global manufacturing hub, the auto component industry is set to benefit through enhanced production capacities, improved technological capabilities, and deeper integration into international supply chains. This will help reduce import dependency and position India as a competitive exporter of high-quality automotive components.

### .Production Linked Incentive (PLI) Scheme for Auto and Advanced Chemistry Cell (ACC) Batteries

This is a significant government initiative designed to accelerate the growth of India's domestic manufacturing capabilities in cutting-edge automotive technologies. With a substantial total allocation of INR 44,038 crore, comprising INR 25,938 crore under the core PLI scheme and an additional INR 18,100 crore specifically earmarked for ACC battery storage, the program aims to position India as a global hub for advanced electric vehicle (EV) technologies and next-generation energy storage solutions.

This flagship scheme offers attractive financial incentives to original equipment manufacturers (OEMs) and component manufacturers who invest in innovative technologies related to electric mobility, hydrogen fuel cell vehicles, and advanced battery systems. By supporting investments in research, development, and large-scale production, the scheme seeks to enable companies to achieve economies of scale and enhance competitiveness on the international stage.

### Growth Forecast

Backed by strong policy support, rising domestic demand, and global supply chain integration, the Indian auto components industry is expected to witness robust double-digit growth through 2030. This sustained momentum will be driven by expanding EV adoption, export competitiveness, and a flourishing after-sales ecosystem.

Source: ACMA

The Indian auto components industry is poised for transformative growth, with its current estimated market valuation of approximately 6.7 trillion INR projected to nearly triple to around 17.1 trillion INR by 2030. This surge will be driven by multiple powerful factors, including rising domestic income levels that are expected to significantly boost vehicle ownership and domestic sales of auto components. Alongside this, the expanding aftersales market, fuelled by a growing vehicle parc and longer vehicle lifecycles- is creating sustained demand for replacement parts and maintenance services, providing a stable and increasing revenue base for manufacturers. Meanwhile, exports are set to play a critical role in this growth story, with the government targeting a fivefold increase to USD 100 billion in auto component exports by 2030. This ambitious export goal reflects India's determination to establish itself as a leading global hub in automotive manufacturing.

Government-led initiatives such as the Production-Linked Incentive (PLI) schemes are accelerating this growth by incentivizing investments in domestic manufacturing, promoting technology adoption, and enhancing export competitiveness. Additionally, India's rapid shift towards electric vehicles (EVs) and alternative powertrains is opening new avenues for innovation and increasing demand for advanced, high-technology components both domestically and internationally.

Significant investments in infrastructure, such as the development of specialized industrial parks focused on auto component production, are strengthening the sector's ecosystem. These developments support more efficient manufacturing and deeper integration with global supply chains, enhancing access to international markets. Furthermore, heightened emphasis on research and development is empowering OEMs and component manufacturers to lead in innovation and embed sustainability across their manufacturing processes.

Together, these factors create a robust foundation for sustained growth, positioning the Indian auto components industry to emerge by 2030 as a vibrant global manufacturing hub, supported by strong domestic sales, a thriving aftersales market, and a rapidly expanding export footprint.

## KEY DEMAND DRIVERS

- **Growing domestic landscape** – India's large and young population along with rising disposable income and urbanisation is creating a strong demand for both new and used, EV and manual vehicles. This is particularly evident in the passenger vehicle segment of the industry. Growing working population and expanding middle class are expected to continue pushing the demands.
- **Regulatory Push** – Schemes like the Production Linked Incentives (PLI) Scheme for the automobile and the Auto Component Industry, along with the Faster Adoption & Manufacture of (Hybrid &) Electric Vehicles (FAME) Scheme, are encouraging the domestic demand and are facilitating towards its acceleration in revolutionizing to electric mobility and light weight vehicles in passage segment of auto motive industry. This is creating a new demand for advanced components.
- **Aftermarket Demands-** With an increasing demand of vehicles on the road there is a parallel demand generating in the aftermarket segments regarding spare components, maintenance of vehicles on road and used or damaged vehicles. This segment over the years is becoming more organized as India is emerging as a global auto component sourcing hub due to its proximity to key automotive markets such as ASEAN, Europe, Japan and Korea, after enjoying its positioning as the 2nd largest steel producer globally.
- **Sustainability Push-** Government regulations such as CAFE - Corporate Average Fuel Efficiency – are pushing manufacturers to not only opt for more models in the green segment but also to delve into alternative fuel options beyond EVs such as hybrid, CNG, flexi-fuels. Initiatives like Sustainable Alternative Towards Affordable Transportation (SATAT), The National Electric Mobility Mission Plan (NEMMP) 2020, The Production Linked Incentive scheme under the National Programme on Advanced Chemistry Cell (ACC) Battery Storage schemes have acted as the green framework guidelines. These initiatives include imposing stricter regulations on conventional single-fuel vehicles and offering incentives to encourage the adoption of alternative, eco-friendly vehicles and fuels.

### India's Advantages for the Auto component industry

India possesses several key advantages that make it an attractive hub for the auto components industry, primarily driven by its strong domestic market, strategic location and vast skilled workforce. As the world's third largest automotive market, India's large consumer base provides a stable and growing demand for the vehicle and their components. This market is supported by established manufacturing clusters in the major cities like Pune, Chennai, and NCR, that facilitate towards robust demand and support. Furthermore, India's strategic location and well-developed infrastructure, including road, rail, air networks, enhance its positioning in global markets.

### Competitive Landscape

India's auto component industry, while offering vast growth opportunities, poses significant challenges for new entrants due to its complex, competitive, and mature ecosystem. The industry is highly fragmented, with numerous organized and unorganized players vying for market share across the OEM and aftermarket segments. Entry into this space requires high capital investment to meet the evolving technological needs driven by the rise of electric vehicles, connected mobility, and automation. New players must establish advanced manufacturing capabilities, invest in R&D, and comply with strict regulatory standards such as BS-VI emission norms and safety mandates. In addition, long lead times, complex vendor qualification processes, and deep-rooted relationships between OEMs and established suppliers make it difficult for new entrants to secure contracts. These are few companies which are into auto components manufacturing in India: Bharat Forge, Motherson Sumi Systems, Bosch, Sundaram Fasteners, and Exide Industries. The sector is also increasingly shaped by global competition and consolidation, with multinational component makers entering India through joint ventures and acquisitions, further raising the bar on quality, cost efficiency, and innovation.

Cost competitiveness remains a major pressure point, especially in a price-sensitive market like India, where established players benefit from economies of scale, robust supply chains, and established distribution networks. New entrants face volatility in raw material costs, logistical challenges, and the need to build brand trust, especially in the replacement market, where reputation and reach are critical. Furthermore, stringent compliance requirements covering quality certifications, environmental mandates, and localization norms add to operational complexity. Without differentiated offerings or niche specialization, it becomes difficult for new firms to carve out a market share in a landscape dominated by players with strong financial backing, advanced technology, and established relationships across the value chain. Thus, while India's auto component sector continues to grow in strategic importance globally, the path for new entrants is laden with structural, financial, and competitive hurdles that require careful planning, innovation, and strategic alliances to overcome.

### Analysis of entry barriers / other factors

#### Localization as a Strategic Differentiator

India's growing emphasis on localization is emerging as a key strategic lever reshaping the competitiveness of the auto component industry. The push to reduce import dependency, particularly for high-value parts like EV motors, battery components, and precision electronics, is encouraging companies to invest in domestic production capabilities. This shift is not just about cost efficiency, it signals a broader commitment to quality, technological self-reliance, and robust supply chain resilience. Companies that localize successfully are becoming preferred partners for global OEMs who are under pressure to derisk their global supply chains. As a result, localization is now creating strong entry barriers, where smaller or less capitalized

players struggle to match the scale, compliance, and sophistication of established firms. In essence, the ability to localize advanced component manufacturing is no longer optional, it is a defining competitive advantage.

### **Export Orientation and Global Supply Chain Integration**

India's transition from a domestic-focused supplier base to an export-oriented manufacturing hub is accelerating rapidly. Companies that are aligning their production, quality systems, and delivery standards with global norms are successfully positioning themselves in international supply chains. Export-focused firms are increasingly investing in certifications such as IATF 16949, strengthening intellectual property portfolios, and forming strategic alliances with Tier-1 global suppliers. These investments are paying off, allowing Indian players to cater to global demand for technologically advanced, cost-competitive components. Additionally, the push toward clean mobility worldwide is opening new export markets for EV-related parts, power electronics, and lightweight materials. This export orientation offers diversification, buffers domestic market risks, and enhances long-term growth visibility, giving globally integrated firms a significant edge over those with purely local operations.

### **Technological Transition Driven by EV Shift**

The automotive industry's pivot toward electrification is arguably the most disruptive trend reshaping the auto component sector's competitive contours. As the market shifts from internal combustion engines (ICE) to electric vehicles (EVs), the demand structure for components is undergoing a dramatic transformation. Traditional mechanical components are losing prominence, while demand is surging for EV-specific parts such as electric powertrains, battery management systems, charging interfaces, and thermal control modules. Forward-looking component manufacturers are investing heavily in R&D, prototyping, and engineering talent to capture this emerging market. These early adopters are forging alliances with EV startups and established OEMs to co-develop solutions, securing long-term contracts and gaining first-mover advantages. Meanwhile, legacy component firms that are slow to adapt risk obsolescence, as their core products become redundant in the evolving mobility landscape. Technological readiness and adaptability are thus becoming primary competitive differentiators.

### **Rising Barriers to Entry**

The competitive intensity in India's auto components space is being compounded by rising entry thresholds. Beyond capital investment, new entrants must now contend with heightened expectations from OEMs around product complexity, compliance, delivery schedules, and digital capabilities. With the industry moving toward smart manufacturing and next-gen mobility, suppliers are increasingly expected to offer integrated engineering solutions rather than just mechanical parts. Achieving this requires robust R&D setups, precision manufacturing, regulatory adherence, and seamless quality assurance systems. Additionally, OEMs are focusing on fewer, highly capable suppliers who can deliver across markets, platforms, and geographies. As a result, smaller or new firms that lack the scale, experience, or technological depth are finding it increasingly difficult to gain a foothold, especially in the high-growth EV and electronics sub-segments.

### **Infrastructural Bottlenecks Hindering Competitiveness**

Despite substantial investments in national infrastructure through programs like Bharatmala and Gati Shakti, logistical inefficiencies continue to constrain the competitiveness of India's auto component industry. Inconsistent road quality, poor last-mile connectivity, congested ports, and underdeveloped warehousing networks frequently cause delays and cost overruns. These inefficiencies are particularly detrimental in the automotive industry, where just-in-time delivery models dominate, and even minor delays can disrupt entire production lines. Compared to peer countries like China, Germany, or South Korea, where logistics infrastructure is integrated, digitalized, and highly reliable, India still lags. Consequently, Indian suppliers may incur financial penalties, miss out on high-value contracts, or struggle to meet export commitments, weakening their reputation in the global supply chain. Addressing these infrastructure gaps is crucial for India to move up the value chain and gain a larger share of high-tech component manufacturing.

### **Fragmentation and Industry Consolidation**

India's auto component industry has traditionally been fragmented, with thousands of small and mid-sized players serving various segments. However, the rising demands of technology, compliance, and capital investment are pushing the industry toward consolidation. Larger firms with vertical integration, diversified portfolios, and global linkages are expanding aggressively, either organically or through mergers and acquisitions. These players are increasingly favoured by OEMs due to their scale, reliability, and innovation capacity. On the other hand, mid-sized firms are exploring joint ventures, contract manufacturing models, or niche specializations to remain competitive. Smaller firms with limited resources are struggling to upgrade or attract investment, leading to market exits or consolidation. Over time, the competitive landscape is expected to be dominated by fewer, but more capable players with global ambition and execution strength.

### **Cost Competitiveness Under Pressure**

India's historical advantage in low-cost manufacturing is being tested by a combination of rising raw material prices, escalating labour costs, and inflationary pressures in logistics and energy. While cost-efficiency remains important, global OEMs are increasingly prioritizing suppliers who can offer value-added capabilities such as product innovation, design flexibility, embedded electronics, and digital traceability. This shift is compelling Indian firms to evolve beyond cost competition and invest in operational excellence, lean manufacturing, and smart automation. Companies that succeed in combining cost efficiency with quality, precision, and innovation are likely to command a premium and build stronger, long-term customer relationships. In

contrast, those relying solely on price-based differentiation may find themselves squeezed out of strategic supply chains as global expectations continue to rise.

#### Key players operating in the industry:

Peers Name	Company Profile
<p>PPAP Automotive Limited</p>	<p>PPAP Automotive Limited (PPAP), established in 1978 for manufacturing custom made extrusion products. Today, the company along with its subsidiaries and joint venture companies, deliver value added products to various customers in Automotive and Ancillary Industries. The company's core competence is in developing Plastic and Rubber based extrusion systems as well as Plastic injection molding systems for various industries. The company also focuses in developing high precision plastic injection tooling's. Moreover, With the advent of electrification of the Automotive Industry, PPAP has established itself as manufacturers of Li-Ion based Battery pack solution provider for the 2-wheeler and 3-wheeler industry.</p> <p>Its product range includes automotive (automotive sealing systems, interior, and exterior injection moulded products), Industrial Products (Rubber Extrusion, Plastic extrusion, Injection moulding), Plastic injection tooling, Battery pack products (Mobility segment and Storage segment).</p> <p>The Company's customers include prestigious manufacturers like Maruti Suzuki, Honda Cars, Suzuki Motors, Toyota Renault Nissan India, Tata Motors, Skoda Auto – Volkswagen,, Mahindra and Mahindra, MG Motors, Hyundai, KIA, Suzuki Motorcycles along with many Tier-1 makers of these customers</p>
<p>Machino Plastics Limited</p>	<p>Machino Plastics Ltd. Is a major domestic player in Auto components market, incorporated in the year 1986. The company achieved a turnover of US \$42 million in the last financial year and has been listed in the Bombay Stock Exchange, reflects its dominance in the market. The vast infrastructure strength is reflected by their vast manufacturing plants in Gurgaon, Manesar and Pithampur (M.P.), equipped with modern high precision conventional injection moulding machines of 100 Ton to 3150 Ton range. MPL enjoys its competitive advantage by diversifying into design and development withlike services in CAD/CAM/CAE, that are related to New Product Development, Design Engineering and Manufacturing. They exercise these diversified cutting-edge technology in 3D moulding of automotive components, consumer goods and material handling systems, Solid and Surface Modelling, Product Designing, Generation of 2D drawings to 3D models, Reverse Engineering and Prototyping through software models like Autodesk Mouldflow, Power Shape 2019, Power Mill 2019, Unigraphics NX-11 and supported Hardware like Dell-Precision 5820 (Work Stations) and HP Designjet T1500. The company deals in manufacture of diverse Auto components to cater to automotive industry requirements that include Instrument Panel, Panel Floor Console Rear, Box Floor Console Front etc under Interior parts, and Front Bumper, Grill Radiator, Garnish Cowl Top Center etc under Exterior components, Apart from these they also manufacture Under hood parts, Air Intake Manifold, Absorber Front Bumper, Engine Cooling Duct Housing, and Corner Vane, etc. MPL's regulatory assurance is backed with precision quality certifications like the IATF 16949: 2016, ISO 9001: 2015, ISO 14001:2015, OHSAS 18001: 2007 and ISO 9001:2015 (Tool Division). The company has an extensive customer base that includes Maruti Suzuki India, Suzuki Motorcycle India and Volvo Eicher.</p>

## BUSINESS OVERVIEW

*The following information is qualified in its entirety by, and should be read together with, the more detailed financial and other information included in the Red Herring Prospectus, including the information contained in the chapter titled “Risk Factors” beginning on page 29. In this chapter, unless the context requires otherwise, any reference to the terms “We”, “Us”, “Company”, and “Our” refers to our Company. Unless stated otherwise, the financial data in this section is as per our Restated Financial Statements prepared in accordance with Accounting Standard set forth in the Red Herring Prospectus.*

### OVERVIEW

Our Company was originally incorporated as “Company Limited by Shares” on November 12, 2009, under the name “Kheria Autocomp Limited” under the provisions of the Companies Act, 1956 and the Certificate of Incorporation was issued by Registrar of Companies, Ahmedabad, bearing CIN U35923GJ2009PLC058554. For details of change in registered office of our Company, please refer to chapter titled “**History and Certain Corporate Matters**” beginning on page 167.

Our Company is an auto ancillary unit engaged in the business of plastic injection moulding. We specialise in the manufacture of plastic injection moulding sub- assembly operations and supplying primarily to the automotive sector. In earlier years, the Company also catered to the white goods segment; however, our present focus is on the manufacture of automotive plastic moulded parts.

We operate as a Tier-II supplier, producing moulded plastic components in accordance with the specifications of Tier-I vendors, who in turn supply to original equipment manufacturers (“OEMs”) in the passenger vehicle categories. Our product range includes interior cabin trims, exterior plastic parts, under-hood components, and heating, ventilation and air-conditioning (HVAC) ducts. These products are supplied for both internal combustion engine and electric vehicles. In addition to component production, we undertake basic sub-assembly operations, such as bolt assembly or the fitting of inserts, wherever required by customers. These activities support integration of the moulded components into larger assemblies at the Tier-I level.

Our manufacturing facility is situated within the Tata Vendor Park at Sanand, Gujarat, covering an area of approximately 3 acres. The facility is equipped with 30 injection moulding machines with capacities ranging from 120 tons to 1,700 tons, procured majorly from Milacron India Private Limited and other vendors. The facility is supported by automation, including systems tailored to customer-specific requirements, along with vision measuring equipment for dimensional verification of components. As on FY25, the installed capacity of our manufacturing unit is 4,200 MTPA. The Company has progressively adopted automation, including the installation of multiple robotic systems, to enhance consistency in production.

The Company is certified under IATF 16949 and implements lean manufacturing practices supported by standardized operating procedures. Continuous improvement is encouraged through regular process monitoring and review, with a focus on enhancing efficiency, product quality, and cost competitiveness. The Company’s location within the Tata Vendor Park at Sanand also provides logistical advantages, as most of its raw material suppliers and key Tier-I customers are located within close proximity, resulting in reduced lead times and transportation costs.

The Company has installed a 636 kW solar power system at its facility, which supports renewable energy usage and reduces reliance on conventional power sources. Together, these initiatives reflect the Company’s commitment towards responsible and efficient manufacturing practices.

Our Company is promoted and led by Tara Chand Kheria, Promoter & Chairman and Vinay Kheria, Promoter & Managing Director, who has been associated with the Company since its incorporation in November 2009 and has over 3 decades experience in plastic processing industry and over 15 years of experience in the automotive components industry. He has been instrumental in guiding the Company’s strategic direction and overseeing its operations. Pursuant to the Extra-Ordinary General Meeting held on July 18, 2025, he was re-designated as the Managing Director of the Company for a term of five years commencing from July 5, 2025, to July 4, 2030.

The other promoters of the Company include Sushma Kheria, and Santosh Devi Kheria, each of whom has over 14 years of experience in areas such as the automotive components industry, corporate governance, and strategic planning. Collectively, the promoters bring extensive industry knowledge and leadership experience, which provide strategic direction and oversight to the Company’s business. For further details on the promoters, please refer to the section titled “**Our Promoters & Promoter Group**” on page 183 of this Draft Red Herring Prospectus.

In financial terms, the Company’s revenues have increased from ₹ 4,994.02 lakhs in FY FY23 to ₹ 6,231.93 lakhs in FY 24 and further to ₹ 9,207.17 lakhs in FY 25, alongside higher production volumes and improved capacity utilisation. This growth reflects the Company’s ability to expand its product range, increase manufacturing capacity, and strengthen its position within the automotive supply chain.

## AWARDS AND RECOGNITIONS

Over the years, our Company has been the recipient of multiple awards and recognitions from its customers and industry stakeholders. These include awards for overall supplier performance, delivery excellence, quality standards, problem-solving capabilities, innovative product development, and contribution to localization initiatives. Such recognitions reflect the Company's focus on operational excellence, customer satisfaction, and its ability to consistently meet stringent industry requirements.

## OUR COMPETITIVE STRENGTHS

### Experience-Driven Manufacturing Excellence

Our Company, incorporated in 2009 has developed over a decade of operational experience in the field of plastic injection moulding components. As an auto ancillary unit, this experience has enabled us to build a strong understanding of sector-specific requirements, regulatory considerations, and evolving technological developments. Our management and engineering teams work closely to align manufacturing practices with customer needs, focusing on quality, cost efficiency, and timely delivery.

Over the years, we have established and maintained business relationships with several Tier-I automotive component suppliers. These customers, in turn, cater to OEMs in the passenger vehicle segment, including both electric and internal combustion engine models. We manufacture components in accordance with customer specifications and supply products that meet the functional, dimensional, and performance parameters applicable to the automotive ancillary industry.

Our operations are supported by a team comprising experienced directors, qualified engineers, and trained technical personnel. Management's emphasis on process control, resource utilisation, and cost-effective production has contributed to sustained performance in recent years. For the Financial Years ended March 31, 2025, 2024, and 2023, our revenue from operations was ₹

9,207.17 lakhs, ₹ 6,231.93 lakhs, and ₹ 4,994.02 lakhs, respectively, reflecting a compound annual growth rate (“CAGR”) of 35.78%. During the same periods, we reported profit after tax of ₹ 824.49 lakhs, ₹ 330.65 lakhs, and ₹ 274.40 lakhs, respectively. This financial performance, together with investments in plant and equipment, supports our ability to serve both existing and prospective customers.

By leveraging our operational experience and established customer relationships, we aim to maintain stable business operations and adapt to changes in product requirements, technology, and supply chain conditions.

### **Strategically located manufacturing facilities**

Our Company operates a manufacturing facility at the Tata Vendor Park in Sanand, Gujarat. This location offers logistical advantages due to its proximity to major automobile manufacturing hubs in the region, enabling efficient movement of goods and materials. Our location within the Tata Vendor Park provides additional supply chain benefits, with most raw material suppliers located in and around Ahmedabad city and key Tier-I customers are within close proximity to our manufacturing facility. This proximity enables reduced lead times and transportation costs.

For the Financial Years ended March 31, 2025, 2024, and 2023, our freight and carriage outward expenses were ₹164.13 lakhs, ₹154.43 lakhs, and ₹111.59 lakhs, respectively, representing approximately 1.78%, 2.48%, and 2.23% of our total revenue from operations. The strategic location of our facility contributes to maintaining transportation costs at a competitive level relative to our operational scale.

The facility is IATF 16949 certified and is spread across approximately 3 acres of land. The plant layout and available space facilitate streamlined production flows, adequate storage for raw materials and finished goods, and timely dispatch of products to Tier-I automotive component manufacturers. The site’s proximity to industrial and educational clusters also provides access to a skilled workforce, including engineers and technicians from recognised technical institutes.

Our operations at this facility are integral to our ability to fulfil customer requirements in a timely and cost-effective manner. The manufacturing unit is equipped to handle orders of varying sizes while maintaining adherence to customer specifications and industry standards. Investments in plant and equipment have been undertaken periodically to maintain operational efficiency and meet evolving product requirements.

### **Technology-Enabled Manufacturing and Process Engineering Capabilities**

Our Company employs technology-enabled manufacturing systems and process engineering to produce a varied range of plastic injection moulded components. We have progressively invested in automation to improve process efficiency. The first industrial robot was installed in 2020, and we have since expanded to over 15 robots. These are deployed for injection moulding operations.

We have developed experience in working with complex moulding techniques. This includes handling intricate moulds such as core-pulling moulds and unscrewing, which enable us to produce precision components with intricate geometries. These capabilities strengthen our ability to meet stringent dimensional and functional requirements of the automotive ancillary industry. While our primary focus is on automotive interior, exterior, and under-hood components, our experience also extends to select white goods applications such as air-conditioner and air-cooler parts. Our manufacturing systems are designed to cater to varying order sizes while maintaining compliance with customer specifications and quality standards. Continued investments in plant and equipment reflect our commitment to capacity enhancement and technology upgradation.

Our capital work-in-progress and investments in plant and machinery as at March 31, 2025, 2024, and 2023 stood at ₹717.64 lakhs, ₹823.25 lakhs, and ₹825.43 lakhs, respectively, indicating our continued commitment to upgrading production infrastructure.

### **Comprehensive In-House Testing and Quality Control Infrastructure**

Our Company has developed a dedicated in-house quality assurance and testing facility to ensure that all products meet customer specifications and applicable industry standards. This facility enables us to conduct multiple types of testing and inspection during different stages of the production cycle, which helps in detecting and addressing potential issues before dispatch.

Our testing capabilities include:

- **Dimensional Checks** – Measurement of product dimensions using precision instruments to ensure conformance with technical drawings and tolerance limits.
- **Batch Validation** – Sampling and testing of production batches to verify that each batch meets agreed-upon specifications.

These checks are updated as per the specific requirements of the customer and the technical specifications provided. Since the moulds or dies are generally provided by the customer, accuracy in manufacturing is critical to ensure proper fitment and performance in the final application. Accordingly, our production processes are aligned to maintain dimensional and functional accuracy in line with the customer-supplied tooling.

In situations where customers require unique validation, we have the capability to install customized testing equipment for specific raw materials or finished goods. This flexibility strengthens our ability to meet bespoke project requirements.

Our approach to quality control has helped keep quality related expenses within controlled levels. For the Financial Years ended March 31, 2025, 2024, and 2023, our quality-related costs were ₹2.59 lakhs, ₹1.84 lakhs, and ₹1.55 lakhs, respectively, representing less than 1% of our total revenue in each year. Maintaining these costs at such levels reflects the effectiveness of our preventive quality assurance measures.

### **Efficient Raw Material Sourcing and Inventory Management**

We source raw materials from a network of established and approved suppliers, including vendors nominated by customers. This ensures alignment with their approved supplier lists and maintains uniformity in raw material characteristics across production batches. While sourcing, we take into account specific requirements such as colour specifications, quality parameters, and grade certifications to ensure that each batch is consistent with customer expectations.

Our sourcing model is complemented by a lean inventory management approach, which helps in optimizing working capital usage. By aligning raw material procurement schedules with confirmed orders and forecasted production, we maintain sufficient stock to avoid production delays while minimizing the risk of overstocking. This practice also helps maintain batch consistency for a given customer, as we plan procurement to match the specific material requirements for their orders. Efficient sourcing and inventory practices also lower the risk of material obsolescence, improve supply chain reliability, and support effective cash flow management.

### **Long-Standing Customer Relationships**

Our Company has developed and maintained relationships with Tier-I automotive component manufacturers and OEM suppliers over several years. As an automotive ancillary industry, these relationships have been built on consistent delivery performance, adherence to technical specifications, and the ability to align our production capabilities with customer requirements.

Our continued engagement with these customers has resulted in repeat orders, supporting stable production volumes. For the Financial Years ended March 31, 2025, 2024, and 2023, our top five customers accounted for approximately 97.43%, 98.65%, and 93.27% of our total revenue from operations, respectively.

While a concentrated customer base may present business risks, these long-standing relationships provide us with a degree of revenue visibility, assist in production planning, and reduce uncertainties in capacity utilisation. They also offer opportunities for participating in new product development programs alongside our customers.

### **Green Energy and Sustainability Initiatives**

Our Company is engaged in the EV ecosystem, catering to the growing demand for sustainable and future-oriented mobility solutions. Being consistent with this commitment, we have taken steps to integrate sustainable practices into our operations. In line with this, we commissioned a rooftop solar power plant with a capacity of 636 kW. This plant is designed to supply a portion of our total energy requirements, thereby reducing dependence on grid electricity and mitigating exposure to electricity tariff fluctuations.

In addition, we have constructed four groundwater recharge wells to improve water conservation at our site and contribute to groundwater replenishment in the surrounding area. For the Financial Years ended March 31, 2025, 2024, and 2023, our electricity expenses were ₹285.78 lakhs, ₹287.40 lakhs, and ₹196.04 lakhs, respectively, with a portion of these requirements now met through solar generation.

The adoption of these measures reinforces our positioning within the sustainable mobility ecosystem, aligns our operations with the environmental, social, and governance (“ESG”) practices increasingly encouraged by global OEMs, and enhances our ability to meet evolving customer expectations in this area.

## **BUSINESS STRATEGY**

### **Capacity Expansion through New GIDC Facility**

Our Company plans to expand its manufacturing capacity to address the increasing demand from the automotive industry as an auto ancillary unit and to support our future growth plans. This will be achieved by setting up a new manufacturing facility in a Gujarat Industrial Development Corporation (“GIDC”) area. The proposed location is strategically chosen to benefit from the well-developed industrial infrastructure and its proximity to major automotive manufacturing clusters in the region. This will facilitate improved operational efficiency, reduced transportation time and cost, and a more streamlined supply chain.

The new plant will be located in close proximity to our existing facility at Tata Vendor Park, Sanand. The close proximity between the existing and proposed facilities will allow us to optimise resource utilisation, including sharing certain managerial, technical, and administrative functions, reducing logistics costs for inter-plant material movement, and enabling flexible allocation of production between the two sites. This geographical advantage is also expected to reduce the need for duplicating certain infrastructure and to facilitate the transfer of skilled personnel between plants as required.

The new facility is planned to be equipped with advanced injection moulding machinery, automation systems, and supporting utilities to cater to an expanded product portfolio. This will enable us to meet the stringent quality and volume requirements of both existing and potential customers, as well as to reduce production lead times. The construction of the new facility has already started, marking a significant step forward in our expansion strategy

The development of this new plant forms a key part of our strategy to scale up production, increase market reach, and enhance our ability to participate in higher-volume and more complex projects within the automotive ancillary sector. For further details regarding the proposed land acquisition, plant construction, and associated capital expenditure, please refer to the section titled “*Objects of the Issue*” beginning on page 100 of this Draft Red Herring Prospectus.

### **Increase our content per vehicle through new, high-value and more integrated products**

A key element of our growth strategy is to increase the value of our offerings to existing customers by expanding the range and complexity of components and assemblies we supply for each vehicle platform. This approach, often referred to as increasing “content per vehicle,” is aimed at enhancing both our revenue potential and our strategic importance to our customers as an automotive ancillary sector.

Currently, our supplies to Tier-I automotive component manufacturers and OEM suppliers are primarily in the form of individual moulded components. Going forward, we intend to broaden this scope by developing and manufacturing new, high-value, and more integrated products, such as complex sub-assemblies and modular systems. These could include pre-assembled interior modules, multi-component exterior parts, and functional sub-systems that combine injection-moulded parts with additional operations such as trimming, welding, painting, or fitting of inserts.

The shift towards higher-value integrated assemblies offers several strategic benefits:

- **Increased Revenue per Vehicle** – Supplying assemblies rather than single parts increases the monetary value of our contribution to each vehicle platform.
- **Greater Customer Integration** – Providing complete modules or systems embeds our products more deeply into the customer’s value chain, strengthening the commercial relationship and making our role more critical in their sourcing decisions.
- **Enhanced Engineering Involvement** – Integrated products require collaboration with customers’ design and engineering teams at an earlier stage in product development, allowing us to offer design-for-manufacturability input and secure production mandates over the vehicle lifecycle.
- **Operational Efficiencies** – By combining multiple parts into a single integrated assembly, we can streamline our own manufacturing processes, optimise resource use, and potentially reduce overall production costs.
- To enable this transition, we plan to:
- Invest in research and development capabilities.
- Adopt advanced manufacturing technologies that allow for multi-process integration within the same production cell, such as insert moulding, over-moulding, and robotic assembly.
- Strengthen our supplier partnerships for sourcing complementary components that can be integrated into our assemblies.

Over the long term, our goal is to become a preferred partner for customers seeking suppliers that can deliver end-to-end solutions from design assistance and tooling support to fully assembled modules ready for integration into the vehicle assembly line. This approach is expected to increase our average revenue per vehicle platform and improve the stability of our business relationships by positioning us as a solution-oriented manufacturing partner rather than solely a component manufacturer.

### **Diversify and Expand Across Automotive Segments, Including Electric Vehicles**

We aim to broaden our customer base within the passenger vehicle segment while expanding into adjacent and emerging automotive markets, including the rapidly growing electric vehicle (“EV”) segment. This dual-focused approach is designed to reduce dependence on a limited number of customers, capture new market opportunities, and position our Company for sustained growth in a transforming mobility landscape.

In the passenger vehicle segment, our strategy includes targeting additional Original Equipment Manufacturers (“OEMs”) and Tier-I suppliers in India and exploring business opportunities with customers in other major automotive hubs. We intend to leverage our IATF 16949 certification, proven manufacturing capabilities, and strategic location in Sanand to present a compelling value proposition to new clients.

A key focus within this diversification strategy is the EV market. EV platforms require components that are lightweight, durable, and precision-engineered. We plan to develop and supply EV-specific components such as battery enclosures and covers, charging system housings, high-strength interior and exterior trim parts, thermal management system components, and protective casings for power electronics. We also see opportunities in EV-related infrastructure, including moulded housings and covers for charging stations and stationary energy storage systems.

By diversifying across traditional and emerging vehicle platforms, including EVs, we aim to create a more resilient revenue base, reduce reliance on specific customers or segments, and strengthen our positioning as an adaptable Auto Ancillary supplier to the automotive industry.

### **Technology Upgradation**

We intend to continue investing in advanced manufacturing technologies and automation systems, to improve operational efficiency, reduce cycle times, and maintain consistent product quality in line with global standards. These investments are aimed at strengthening our competitive position in the automotive and white goods components industry by increasing productivity, reducing operational costs, and enhancing our ability to meet evolving customer requirements.

Planned areas of technology enhancement include:

- **Expanded Robotics Integration** – Increasing the number of industrial robots for part handling.
- **High-Tonnage injection Moulding Machines** – Introducing machines capable of handling larger and more complex parts, as well as two-shot (multi-material) moulding technology for integrated component manufacturing.
- **Automated Quality Inspection Systems** – Deploying machine-vision and laser-based inspection systems for 100% in-line defect detection, reducing the reliance on manual quality checks and improving accuracy.
- **Automated Material Handling and Feeding Systems** – Installing automated raw material drying, conveying, and dosing systems for precise resin handling, improving material consistency and reducing contamination risks.
- **MES (Manufacturing Execution System) Implementation** – Digitally connecting machines to monitor production in real-time, track cycle times, detect downtime events, and optimise scheduling for better utilisation.
- **Predictive Maintenance Tools** – Integrating IoT-enabled monitoring systems for early detection of equipment wear and maintenance needs, minimising unplanned downtime.
- **Specialised Moulding Technologies** – Expanding into gas-assisted injection moulding, over-moulding, and insert moulding to cater to complex product designs and integrated assemblies.

By systematically upgrading our technology and automation capabilities, we aim to enhance our manufacturing flexibility, improve throughput, reduce lead times, and maintain high repeatability across production batches. These initiatives will also support our ability to meet the increasing demand for complex, high-precision components in both conventional and electric vehicle platforms.

### **Sustainability Alignment and ESG Initiatives**

We recognise the growing importance of sustainability and environmental responsibility within the global automotive supply chain. While plastics present inherent environmental challenges, we are committed to implementing practical measures to reduce the environmental footprint of our operations and to align with the sustainability and ESG (Environmental, Social, and Governance) objectives of our customers, including global Original Equipment Manufacturers (“OEMs”).

One of our key initiatives in this area is the adoption of renewable energy through the commissioning of a rooftop solar power plant with a capacity of 636 kW. This installation meets a portion of our electricity requirements, thereby reducing our reliance on grid-supplied power and lowering our indirect greenhouse gas emissions. We have also taken measures to conserve water resources by constructing four groundwater recharge wells at our manufacturing site. These wells promote groundwater replenishment and contribute to sustainable water usage in our operations.

We have introduced energy-efficiency measures and process optimisation initiatives, including cycle-time reduction, energy-efficient machinery upgrades, and increased automation, to lower the energy consumed per unit of production. Through these initiatives, we aim to progressively improve our environmental performance, align with the sustainability goals of our customers, and position our Company as a responsible Auto Ancillary Unit within the automotive supply chain.

### **Customer Diversification and Value Addition**

A core element of our strategy is to strengthen relationships with existing customers while expanding our presence across a broader range of automotive and related markets. We aim to transition from being viewed primarily as a component supplier to being recognised as a value-added manufacturing partner. This will involve expanding the scope and complexity of products supplied, including integrated sub-assemblies and engineered solutions that play a critical role in customers’ final products.

We intend to work closely with customers in their design and development stages, offering input on manufacturability, material selection, and cost-optimisation opportunities. By increasing the level of integration into customers’ supply chains, we seek to grow our “content per vehicle” and enhance the proportion of business derived from value-added solutions. This approach will not only create opportunities for higher revenue per program but also strengthen customer stickiness by embedding our capabilities deeper into their operations.

Our diversification focus also extends to onboarding new customers within the passenger vehicle, and electric vehicle (“EV”) segments, as well as exploring adjacent opportunities in white goods and industrial components. This will help us broaden our market reach, reduce dependence on a concentrated set of customers, and improve revenue stability.

### **Team Development & HR Policy Enhancement**

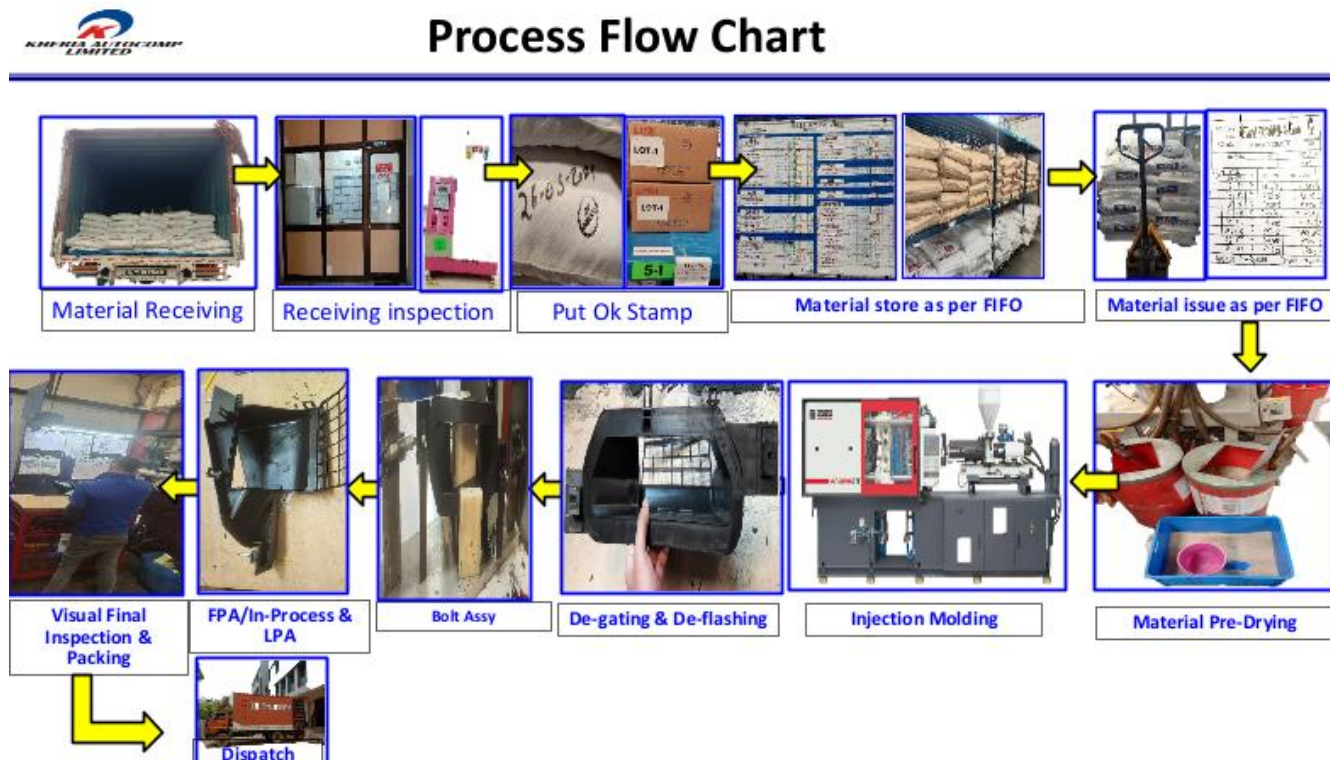

We believe that a skilled, motivated, and engaged workforce is central to achieving sustainable growth and delivering quality products. To support this, we are investing in the development of our human resources function, enhancing our HR policies, and implementing programs aimed at attracting, retaining, and developing top industry talent.

Our initiatives include comprehensive skill-building programs tailored to technical, operational, and managerial roles; the introduction of a structured performance management system to align individual objectives with organisational goals; and programs designed to foster employee engagement and workplace collaboration. We are also focusing on leadership development, succession planning, and initiatives that promote diversity and inclusion within the organisation.

By building a culture of continuous improvement, innovation, and accountability, we aim to create an environment where employees are empowered to contribute meaningfully to the company's objectives. This strong organisational foundation will support our strategic goals, enhance productivity, and help us remain competitive in a fast-evolving manufacturing landscape.

## BUSINESS PROCESS

### MANUFACTURING PROCESS FLOW CHART

### THE STEPS UNDERTAKEN DURING THE MANUFACTURING PROCESS

PROCESS.	MACHINES USED
<b>Raw material</b> - Raw materials, typically plastic granules, are received from approved suppliers. Materials are unloaded and cross-verified with purchase orders and delivery challans to ensure correct type, quantity, and grade. Any damage or discrepancies are recorded for supplier communication. For further details on quality, supply, quantity maintained refer to section " <b>Business – Raw Material</b> " at page 149.	
<b>Receiving Inspection &amp; OK Stamp</b> Incoming raw materials undergo quality inspection to check: <ul style="list-style-type: none"> <li>Physical condition and cleanliness of packaging</li> <li>Conformance to specifications through visual and/or basic lab testing</li> </ul> Once verified, an " <b>OK</b> " stamp is applied on the bags or containers to indicate approval for use.	
<b>Material Storage (FIFO)</b> Approved materials are stored in the warehouse using the First-In-First-Out (FIFO) method. This ensures: <ul style="list-style-type: none"> <li>Oldest material is used first</li> <li>Shelf life is maintained</li> <li>Avoidance of degradation due to long storage</li> </ul>	

PROCESS.	MACHINES USED
Storage areas are clearly labelled, and records are maintained for traceability.	
<b>Material Issue (FIFO)</b> When production requires raw materials, they are issued from the store strictly as per FIFO sequence. Issue slips are recorded for production planning and traceability.	
<b>Pre-Drying of Material</b> Before processing, plastic granules are pre-dried using hot air dryers to remove any absorbed moisture. This step: <ul style="list-style-type: none"> <li>Prevents defects such as bubbles, voids, and surface blemishes in moulded parts</li> <li>Ensures dimensional stability and mechanical strength of finished products</li> </ul>	
<b>Injection Moulding</b> The dried granules are fed into an injection moulding machine where they are: <ul style="list-style-type: none"> <li>Melted by the heating barrel</li> <li>Injected into the mould cavity under controlled pressure</li> <li>Cooled to solidify into the desired shape</li> </ul> Moulding parameters such as temperature, pressure, and cycle time are maintained as per product specifications.	
<b>De-Gating &amp; De-Flashing</b> After moulding, parts often have excess material (flash) or gate marks from where molten plastic entered the mould. These are removed through: <ul style="list-style-type: none"> <li>Manual trimming</li> <li>Cutting tools or automated trimming machines</li> </ul> This step ensures clean, finished edges and maintains dimensional accuracy.	
<b>Bolt Assembly</b> Where the product requires mechanical joining, bolt assembly is carried out. This can include: <ul style="list-style-type: none"> <li>Fixing additional plastic or metal components</li> <li>Tightening with torque-controlled tools to ensure uniform fastening</li> </ul>	

PROCESS.	MACHINES USED
<b>FPA / In-Process &amp; LPA Inspection</b> Quality checks are conducted at this stage: <ul style="list-style-type: none"> <li>• <b>First Piece Approval (FPA):</b> Verification of the first produced part for compliance before bulk production</li> <li>• <b>In-Process Inspection:</b> Regular monitoring during production for defects and dimensional deviations</li> <li>• <b>Layered Process Audits (LPA):</b> Periodic checks to ensure operators follow correct process parameters and standards</li> </ul>	
<b>Visual Final Inspection &amp; Packing</b> Each finished product is visually inspected for: <ul style="list-style-type: none"> <li>• Surface defects</li> <li>• Dimensional consistency</li> <li>• Colour uniformity</li> </ul> Approved products are packed as per customer and internal specifications using protective materials to prevent transit damage.	   
<b>Final Dispatch</b> Packed goods are labelled and loaded onto transport vehicles for delivery to customers.	

## SWOT ANALYSIS

Strength	Weakness	Opportunities	Threats
Long history with deep industry expertise	Limited brand visibility in broader OEM space	Expansion into EV Segment	Client concentration and dependency

## OUR QUALITY TESTING LAB

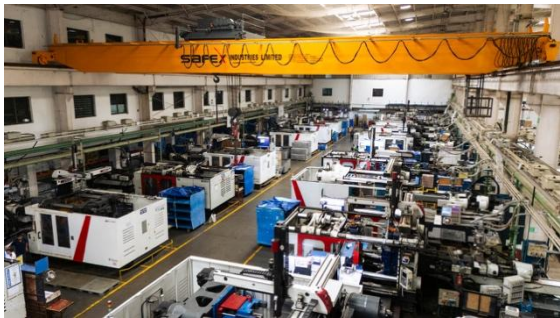

<u>Material Testing Instruments –</u>	Pictures
<b>Melt Flow Index (MFI) Tester</b> Used to measure the flow properties of polymer resins, ensuring material consistency and suitability for moulding applications. –	

<b>Muffle Furnace</b> Used for filler content analysis, ash content testing, and other thermal evaluations to verify raw material composition and stability	
<b>Colour Meter</b> Measures & ensures accurate colour matching and consistency in moulded parts	
<b>Colour cabinet (Colour Matching Cabinet)</b> Ensures accurate shade matching and colour consistency under multiple light sources (daylight, UV, fluorescent, etc.)	

<b><u>Dimensional &amp; Precision Measuring Instruments</u></b>	<b>Pictures</b>
<b>VMM (Vision Measuring Machine)</b> This is a precision instrument that uses cameras, lenses, and software to measure the dimensions of components with high accuracy. It enables non-contact measurement of length, width, height, angles, and complex geometries, making it suitable for delicate or intricate parts. Widely used in the automotive industry, advanced systems also offer 3D measurement and automated inspection, ensuring consistent quality and efficiency in manufacturing.	
<b>Digital Vernier Calipers &amp; Micrometers</b> For precise linear and thickness measurements of moulded components.	
<b>Height Gauge</b> Used to measure vertical dimensions, depths, and step heights of moulded parts.	
<b>Special Purpose Gauges (Pin Gauge)</b> Customised gauges for go/no-go inspection, ensuring part dimensions conform to customer specifications. Standard measuring tools to cover various dimensional checks

## COLLABORATIONS, ANY PERFORMANCE GUARANTEE OR ASSISTANCE IN MARKETING BY THE COLLABORATORS

Our Company has not entered into any collaboration, or performance guarantee or assistance for marketing with any Company.

## MARKETING & DISTRIBUTION

The marketing and distribution function of our Company is led by our Managing Director, Vinay Kheria. Our strategy is centered on developing and maintaining long-term relationships with customers through consistent quality, adherence to delivery schedules, and alignment with their technical requirements. Our performance in these areas has contributed to our recognition as a reliable supplier and enabled repeat business from established Tier-I vendors.

We proactively engage with Tier-I vendors, and in certain cases OEMs, particularly in connection with new vehicle model launches. The lead time associated with such projects is utilised to strengthen our manufacturing capabilities and internal processes, thereby positioning us to participate effectively in upcoming opportunities.

On the distribution side, we operate a structured and responsive system designed to meet customer schedules and ensure timely supply of products. The location of our facility within the Tata Vendor Park provides additional logistical advantages, with proximity to key suppliers and Tier-I customers enabling reduced lead times and transportation costs. This integrated approach

allows us to remain competitive, customer-focused, and well-positioned to support the evolving requirements of the automotive industry.

## **ENVIRONMENT, HEALTH AND SAFETY**

We prioritize the safety and well-being of our employees and the environment by adhering to strict Environmental, Health, and Safety (EHS) guidelines. This involves conducting regular risk assessments, ensuring safe assembling processes and managing waste effectively. Our Assembly unit meets safety standards, and we invest in sustainable technologies to minimize our environmental impact. By following these practices, we aim to protect our workforce, maintain product quality and positively contribute to our communities while complying with environmental regulations.

## **CORPORATE SOCIAL RESPONSIBILITY (CSR)**

As per the provisions of Section 135 of the Companies Act, 2013 and the Companies (Corporate Social Responsibility Policy) Rules, 2014, every company meeting the prescribed criteria of (i) net worth of ₹500 crore or more, or (ii) turnover of ₹1,000 crore or more, or (iii) net profit of ₹5 crore or more during the immediately preceding financial year is required to constitute a Corporate Social Responsibility Committee and undertake CSR activities in accordance with the said provisions.

Our Company has not exceeded any of the above thresholds, including turnover, in the immediately preceding financial years. Accordingly, the provisions relating to Corporate Social Responsibility are presently not applicable to our Company.

However, our Company remains conscious of its social responsibilities and may, at its discretion, undertake initiatives aligned with community development, environment protection, and social welfare from time to time, even though compliance with Section 135 is not mandatory at present.

## **COMPETITION**

The auto component industry in India is highly competitive and fragmented, comprising a mix of organized and unorganized players catering to both OEMs and the aftermarket segment. The sector is mature and complex, with entry barriers that include significant capital investment, advanced technological capabilities, adherence to stringent regulatory and quality standards such as BS-VI norms and IATF certifications, and the ability to align with evolving industry trends such as electric vehicles, connected mobility, and automation. Established participants benefit from economies of scale, robust vendor networks, and long-standing relationships with OEMs, making it difficult for new or smaller players to secure contracts. Further, competition is not limited to pricing but extends to critical factors such as reliability, product quality, timely delivery, and technological adaptability. Companies also face pressure from global competition, as multinational players increasingly enter India through collaborations, acquisitions, and joint ventures, thereby raising expectations in terms of innovation, quality, and cost efficiency. Additionally, challenges such as volatility in raw material costs, logistical complexities, and lengthy vendor qualification processes further intensify the competitive landscape. In this environment, companies like ours must continually enhance operational efficiency, strengthen customer relationships, and explore differentiated offerings or niche specialization to maintain and expand market presence.

## **RAW MATERIAL**

Our Company procures a diverse range of engineering and commodity thermoplastics, including PP, PP glass filled & talc filled, HIPS, ABS, Nylon 6 & Nylon 6 glass filled material, Polycarbonate, PCABS, TPE, POM. These raw materials are primarily sourced from approved and reliable vendors located in proximity to our manufacturing facility, which helps reduce transportation costs, shorten lead times, and enable timely replenishment. Vendors are selected based on customer specific requirements and their ability to consistently meet our stringent quality, technical, and delivery requirements, supported by relevant certifications and proven industry experience. Each batch of raw material undergoes supplier quality checks and is accompanied by a test certificate before dispatch. Upon arrival at our plant, the materials are inspected for compliance with specifications, approved with an "OK" stamp, and stored under a First-In-First-Out (FIFO) system to maintain quality and traceability.

## **TECHNOLOGY**

Our manufacturing operations are supported by modern injection moulding technology, including advanced microprocessor-controlled moulding machines, hot-air dryers for pre-drying of raw materials, and precision moulding tools to ensure dimensional accuracy and consistent quality. To enhance productivity and minimise manual handling, we have integrated robotic systems for tasks such as part removal, thereby improving cycle times, consistency, and workplace safety. The production process is further strengthened by in-process quality control systems, layered process audits, and final inspection protocols to maintain adherence to customer specifications. In addition to manufacturing technology, our Company utilises supporting software solutions such as SAP for integrated accounting, inventory management, and procurement tracking, enabling real-time financial control and operational efficiency. We also employ digital documentation and record-keeping systems to streamline production planning, material traceability, and compliance reporting.

## **UTILITIES & INFRASTRUCTURE FACILITIES**

## INFRASTRUCTURE FACILITIES

Our registered office and-first manufacturing unit are located at Plot No B6/B7/B8, Tata Vendor Park, Survey No. 1, Vill. Northkotpura Tal Sanand, Ahmedabad - 382110, Gujarat and are well equipped manufacturing unit and office with machinery, computer systems, internet connectivity, other communication equipment, security and other facilities, which are required for our business operations to function smoothly.

### POWER

The requirement of power for our operations, including electricity for lighting, operation of plant, machinery, and equipment, is primarily met through supply from the regional electricity distribution company for North Gujarat, namely Uttar Gujarat Vij Company Limited (UGVCL). In addition to the grid supply, we have installed solar panels at our facility with an installed capacity of 636 KW, which contributes to meeting a part of our electricity requirement. The solar power generated is utilised for running plant operations during the day, thereby reducing dependency on grid power, lowering operational costs, and promoting the use of clean and renewable energy. This hybrid power arrangement not only ensures continuity of operations but also supports our commitment to environmental sustainability and energy efficiency.

### WATER

Adequate arrangements have been made to meet our Company's water requirements. Drinking water is sufficiently provided at the offices, ensuring employee safety and hydration. For industrial purposes, water is sourced from Tata Motors Ltd as our facility is located inside Tata Vendor Park.

## HUMAN RESOURCES

Human resource is an asset to any industry. We believe that our employees are the key to the success of our business. Our manpower is a prudent mix of experienced and young personnel which gives us the dual advantage of stability and growth.

As of August 31, 2025, our Company had a team of approximately 113 employees, including skilled, semi-skilled and unskilled staff, working in various roles and departments. As on August 31, 2025, our Company has 47 employees registered with the Employees' Provident Fund and the amount deposited by our Company with the Employee Provident Fund Organization for the month of August 31, 2025, was ₹ 1,45,481. As on August 31, 2025, our Company has 49 employees registered with the Employees State Insurance Corporation and the amount deposited by our Company with the Employees State Insurance Corporation for the month of August 31, 2025, was ₹ 37,929. Below are the details of employees' department wise:

### INDUSTRY SPECIFIC REGULATIONS

#### BUREAU OF INDIAN STANDARDS ACT, 2016 AND BUREAU OF INDIAN STANDARDS RULES, 2018

This Bureau of Indian Act, 2016 (“Act”) provides for establishment of a national standards body for the harmonious development of activities of standardization, conformity assessment and quality assurance of goods, articles, processes, systems, and services whether partly or wholly processed or manufactured in India. The Act seeks to establish and publish Indian standards in relation to any goods, articles, process, systems, or services. Furthermore, the central government is empowered to direct compulsory use of standard mark and impose penalties in the form of pecuniary fines or imprisonment for contravention of the same. The Bureau of India Standards Rules, 2018 (“Rules”) have been notified, in supersession of the Bureau of Indian Standards Rules, 1987, in so far as they relate to Chapter IVA of the said rules relating to registration of the articles notified by the central government, and in supersession of the Bureau of Indian Standards Rules, 2017. The Rules seek to establish Indian standards in relation to any goods, article, process, system, or service and shall reaffirm, amend, revise, or withdraw Indian standards so established as may be necessary.

#### NATIONAL AUTO POLICY AND AUTOMOTIVE MISSION PLAN 2016-2026

The Department of Heavy Industry, Ministry of Heavy Industries and Public Enterprises released the draft National Auto Policy that envisages propelling India amongst the top three nations in the world in engineering, manufacturing and export of automotive vehicles and components. The key policy guidelines prescribed by the National Auto Policy include inter alia measures to increase exports of vehicles and components including by considering a phased increase of duty credit scrips (from 2%) for export of vehicles and auto components in line with comparable products to target countries under Merchandise Export from India Scheme. The Ministry of Heavy Industries and Public Enterprises, GoI released the Automotive Mission Plan 2016-26 (“AMP”) in September 2015 with the objective of making the Indian automotive industry an integral part of the “Make in India” initiative. This plan aims to, among others, promote safe, efficient and comfortable mobility for every person in the country along with environmental protection and affordability through both public and personal transport options.

#### NATIONAL AUTO POLICY

The National Auto Policy, 2002, as amended (“National Auto Policy”) was introduced by the Department of Heavy Industries, Ministry of Heavy Industries and Public Enterprises, GoI in March 2002, with the aim, among others, to promote a globally competitive automotive industry and emerge as a global source for auto components, ensure a balanced transition to open trade at a minimal risk to the Indian economy and local industry, to encourage modernisation of the industry and facilitate indigenous design, research and development and to develop domestic safety and environmental standards at par with international standards.

#### DUTY DRAWBACK SCHEME, 2020

The Duty Drawback Scheme is an option available to exporters. Under this scheme, an exporter of goods is entitled to a refund of the excise duty and integrated goods and services tax paid by him on the inputs used in the products exported by him. It neutralizes the duty impact on the goods exported by giving a relief on customs and central excise duties suffered on the inputs used in the manufacture of export product. The Customs and Central Excise Duties Drawback Rules, 2017, as amended have also been framed outlining the procedure to be followed for the purpose of grant of duty drawback (for both kinds of duties suffered) by the customs authorities processing export documentation. Under the Duty Drawback Scheme, an exporter can opt for either all industry rate of duty drawback scheme or brand rate of Duty Drawback Scheme.

#### THE PUBLIC LIABILITY INSURANCE ACT, 1991

The Public Liability Insurance Act (“PIL Act”) was constituted to provide for public liability insurance for the purpose of providing immediate relief to the persons affected by accident occurring while handling any hazardous substance and for matters connected therewith or incidental thereto. The PIL Act provides for the owner before handling hazardous substances to take insurance cover for protection against claims made by third parties for damages with respect to handling of hazardous substances.

Under the PIL Act, the victims exposed to hazardous substances may file claims before the Collector within 5 years of the accident. The Collector, shall, after giving notice of the application to the owner and after giving the parties an opportunity of being heard, hold an inquiry into the claim or, each of the claims, and may make an award determining the amount of relief which appears to him to be just and specifying the person or persons to whom such amount of relief shall be paid. The PIL Act also provides for the establishment of Environmental Relief Fund to be utilized for payment of reliefs under the award.

### **THE FACTORIES ACT, 1948**

The Factories Act defines a 'factory' to be any premises including the precincts thereof, on which on any day in the previous 12 months, 10 or more workers are or were working and in which a manufacturing process is being carried on or is ordinarily carried on with the aid of power; or where at least 20 workers are or were working on any day in the preceding 12 months and on which a manufacturing process is being carried on or is ordinarily carried on without the aid of power. State governments prescribe rules with respect to the prior submission of plans, their approval for the establishment of factories and the registration and licensing of factories.

The Factories Act provides that the 'occupier' of a factory (defined as the person who has ultimate control over the affairs of the factory and in the case of a company, any one of the directors) shall ensure the health, safety and welfare of all workers while they are at work in the factory, especially in respect of safety and proper maintenance of the factory such that it does not pose health risks, the safe use, handling, storage and transport of factory articles and substances, provision of adequate instruction, training and supervision to ensure workers' health and safety, cleanliness and safe working conditions.

### **THE MICRO, SMALL AND MEDIUM ENTERPRISES DEVELOPMENT ACT, 2006**

In order to promote and enhance the competitiveness of Micro, Small and Medium Enterprise ("MSME") the Micro, Small and Medium Enterprises Development Act, 2006 is enacted. A National Board shall be appointed and established by the Central Government for MSME enterprise with its head office at Delhi in the case of the enterprises engaged in the manufacture or production of goods pertaining to any industry mentioned in first schedule to Industries (Development and Regulation) Act, 1951. The Government, in the Ministry of Micro, Small and Medium Enterprises has issued a notification dated June 1, 2020 revising definition and criterion and the same came into effect from July 1, 2020. The notification revised the definitions as "Micro enterprise", where the investment in plant and machinery or equipment does not exceed one crore rupees and turnover does not exceed five crore rupees; "Small enterprise", where the investment in plant and machinery or equipment does not exceed ten crore rupees and turnover does not exceed fifty crore rupees; "Medium enterprise", where the investment in plant and machinery or equipment does not exceed fifty crore and turnover does not exceed two hundred and fifty crore rupees.

## **LAWS RELATING TO SPECIFIC STATE WHERE THE ESTABLISHMENT IS SITUATED**

### **GUJARAT INDUSTRIAL POLICY, 2020**

The Gujarat Industrial Policy 2020 is a document that outlines the vision, objectives, strategies, and incentives for the industrial development of the state. The policy aims to make Gujarat a global business destination for next-generation sustainable manufacturing and service industry that stimulates sustainable development, inclusive and balanced regional growth. One of the key features of the policy is the support for micro, small and medium enterprises (MSMEs), which are considered the backbone of the state's economy. The policy offers various incentives and schemes for MSMEs, such as interest subsidy, capital subsidy, assistance for innovation, market development, environmental protection, research and development, infrastructure, logistics, etc.

### **GUJARAT FACTORIES RULES, 1963**

The Gujarat Factories Rules, 1963, were established under the Factories Act, 1948, to ensure the health, safety, and welfare of workers in factories within the state of Gujarat. These rules encompass various aspects of factory operations, including the approval of factory plans, registration, and licensing requirements. They mandate the maintenance of health and safety standards, such as proper ventilation, cleanliness, and the provision of drinking water and sanitation facilities. The rules also specify working hours, rest periods, and leave entitlements for workers, ensuring their well-being and fair treatment. Additionally, they outline the responsibilities of factory managers and inspectors in enforcing compliance with these regulations<sup>1</sup>. The Gujarat Factories Rules, 1963, aim to create a safe and conducive working environment, thereby promoting the overall welfare of factory workers in the state.

### **THE GUJARAT STATE TAX ON PROFESSIONS, TRADES, CALLINGS AND EMPLOYMENTS ACT, 1976**

The Gujarat State Tax on Professions, Trades, Callings and Employments Act, 1976 is a state law that imposes a tax on the income earned by persons engaged in various professions, trades, callings and employments in Gujarat. The tax is levied according to the rates and slabs specified in Schedule I of the act. The act also provides for the registration and enrolment of the persons liable to pay the tax. Every employer who is liable to deduct and pay tax on behalf of his employees has to obtain a registration certificate and an enrollment certificate from the prescribed authority within 60 days of the commencement of the act or the date of becoming liable to pay tax, whichever is later.

### **THE GUJARAT SHOPS AND ESTABLISHMENTS (REGULATION OF EMPLOYMENT AND CONDITIONS OF SERVICE) ACT, 2019**

The Gujarat Shops and Establishments (Regulation of Employment and Conditions of service) Act, 2019 is a state law that regulates the working conditions and rights of workers employed in shops and other establishments in Gujarat. The act covers various aspects such as hours of work, overtime, leave, holidays, wages, health, safety, welfare, etc. The act also provides for the registration of shops and establishments with the authorities and the maintenance of records and registers. Section 6 of the act requires every employer to apply for the registration of his establishment within sixty days from the date of commencement of the act or the date on which the establishment commences its work, whichever is later. The employer has to furnish the prescribed particulars and fees along with the application. The registration certificate is valid for a period of ten years and can be renewed thereafter.

### **GUJARAT FIRE PREVENTION AND LIFE SAFETY MEASURES ACT, 2013**

The state legislatures have also enacted fire control and safety rules and regulations such as the Gujarat Fire Prevention and Life Safety Measures Act, 2013 and its Rules and Regulation, which is applicable to our manufacturing units. The legislation includes provisions in relation to provision of fire safety and life saving measures by occupiers of buildings, licensing provisions and penalties for non-compliance.

### **GUJARAT FIRE PREVENTION AND LIFE SAFETY MEASURES (AMENDMENT) RULES, 2021**

The Government of Gujarat has published the Gujarat Fire Prevention and Life Safety Measures (Amendment) Rules, 2021 to further amend the Gujarat Fire Prevention and Life Safety Measures Rules, 2014. It has come into force with effect from January 22, 2021.

Salient features of the amendment are as under:

1. A certificate regarding the compliance of the fire prevention, life safety and fire protection measures in a building may be issued by a licensed agency in Form-B1.
2. The fire safety certificate issued under Rule 23 unless sooner cancelled shall be valid for a period of 3 years from the date of issuance of such certificate.
3. The fire safety officer shall inspect the building to verify the compliance of relevant rules and regulations and then issue a Fire Safety Certificate Renewal in Form-B13.3

The owner or occupier of the building or premises and the fire safety officer shall declare after inspection every six months in Form-B15 that fire prevention, life safety and fire protection measures provided in the building.

## **ENVIRONMENT RELATED LEGISLATIONS**

### **ENVIRONMENT PROTECTION ACT, 1986**

The Environment Act is an umbrella legislation designed to provide a framework for the Central Government to coordinate activities of various state and central authorities established under previous environmental laws. The Environment Act specifies that no person carrying on any industry, operation or process shall discharge or emit or permit to be discharged or emitted any environment pollutants in excess of such standards as may be prescribed. The Environment Act empowers the Central Government to make rules for various purposes viz., to prescribe: (i) the standards of quality of air, water or soil for various areas; (ii) the maximum allowable limits of concentration of various environmental pollutants for different areas; (iii) the procedures and safeguards for the prevention of accidents which may cause environmental pollution and remedial measures for such accidents.

### **ENVIRONMENT (PROTECTION) RULES, 1986**

In exercise of powers conferred under the Environment Act, the Central Government notified the Environment Rules. Pursuant to Environment Rules, every person who carries on an industry, operation or process requiring consent under Water (Prevention and Control of Pollution) Act, 1974 or Air (Prevention and Control of Pollution) Act, 1981 or shall submit to the concerned Pollution Control Board ("PCB") an environmental statement for that financial year in the prescribed form.

### **AIR (PREVENTION AND CONTROL OF POLLUTION) ACT, 1981**

The Air Act requires any individual, industry or institution responsible for emitting smoke or gases by way of use as fuel or chemical reactions, apply in a prescribed form and obtain consent from the PCB prior to commencing any activity. The PCB is required to grant, or refuse, consent within four months of receipt of the application. The consent may contain conditions relating to specifications of pollution control equipment to be installed. Within a period of four months after the receipt of the application for consent the PCB shall, by order in writing and for reasons to be recorded in the order, grant the consent applied for subject to such conditions and for such period as may be specified in the order, or refuse consent.

### **WATER (PREVENTION AND CONTROL OF POLLUTION) ACT, 1974**

The Water Act aims at prevention and control of water pollution as well as restoration of water quality through the establishment of a central PCB and state PCBs. Under the provisions of the Water Act, any individual, industry or institution discharging industrial or domestic waste water or establishing any treatment or disposal system or the using of any new or altered outlet for

the discharge of sewage is required to obtain the consent of the applicable state PCB, which is empowered to establish standards and conditions that are required to be complied with. The consent to operate is granted for a specific period after which the conditions stipulated at the time of granting consent are reviewed by the state PCB. Even before the expiry of the consent period, the state PCB is authorized to carry out random checks on any industry to verify if the standards prescribed are being complied with by the industry. In the event of non-compliance, the state PCB after serving notice to the concerned industry may close the mine or withdraw water supply to the industry or cause magistrates to pass injunctions to restrain such polluters.

### **THE NOISE POLLUTION (REGULATION & CONTROL) RULES, 2000**

The Noise Pollution (Regulation and Control) Rules, 2000, were established under the Environment (Protection) Act, 1986, to regulate and control noise levels in public places to protect human health and well-being. These rules define acceptable noise limits for different areas, including industrial, commercial, residential, and silence zones, and specify the permissible noise levels during day and night. They also outline the responsibilities of authorities, such as the District Magistrate and Police Commissioner, in enforcing these standards. The rules mandate the use of sound level meters for measuring noise levels and provide guidelines for the use of loudspeakers, public address systems, and other noise-emitting devices. By setting clear regulations and enforcement mechanisms, the Noise Pollution (Regulation and Control) Rules, 2000, aim to maintain ambient air quality standards concerning noise and mitigate the adverse effects of noise pollution on public health and the environment.

### **THE PLASTIC WASTE MANAGEMENT RULES, 2016 AND AMENDMENTS THERETO**

The Plastic Waste Management (PWM) Rules, 2016, were established by the Ministry of Environment, Forest and Climate Change to address the growing issue of plastic waste in India. These rules mandate the responsibilities of various stakeholders, including local bodies, gram panchayats, waste generators, retailers, and street vendors, in managing plastic waste. The PWM Rules emphasize the principle of Extended Producer Responsibility (EPR), which requires producers, importers, and brand owners to take responsibility for the collection and recycling of plastic waste generated from their products. The rules also prohibit the manufacture and use of certain plastic products, such as carry bags and sachets, that are less than 50 microns in thickness. Additionally, the PWM Rules promote the use of plastic waste for road construction and energy recovery, thereby encouraging sustainable waste management practices. By setting clear guidelines and responsibilities, the Plastic Waste Management (PWM) Rules, 2016, aim to reduce plastic pollution and promote environmental sustainability in India.

### **HAZARDOUS AND OTHER WASTES (MANAGEMENT AND TRANSBOUNDARY MOVEMENT) RULES, 2016 (“HAZARDOUS WASTE RULES”)**

The Hazardous Waste Rules define the term ‘hazardous waste’ to include any waste which by reason of physical, chemical, biological, reactive, toxic, flammable, explosive or corrosive characteristics cause danger or is likely to cause danger to health or environment, whether alone or in contact with other wastes or substances including waste specified in the schedules to the Hazardous Waste Rules. In terms of the Hazardous Waste Rules, occupiers, being persons who have control over the affairs of a factory or premises or any person in possession of hazardous or other waste, have been, inter alia, made responsible for safe and environmentally sound management of hazardous and other wastes generated in their establishments and are required to obtain license/ authorization from the respective State PCB for handling, generation, collection, storage, packaging, transportation, usage, treatment, processing, recycling, recovery, pre-processing, co-processing, utilization, selling, transferring or disposing hazardous or other waste.

### **NATIONAL ENVIRONMENTAL POLICY, 2006**

The dominant theme of this policy is that while conservation of environmental resources is necessary to secure livelihoods and well-being of all, the most secure basis for conservation is to ensure that people dependent on particular resources obtain better livelihoods from the fact of conservation, than from degradation of the resource.

## **LABOUR LAWS**

### **PAYMENT OF BONUS ACT, 1965\*\***

The Payment of Bonus Act, 1965 imposes statutory liability upon the employers of every establishment covered under this Act to pay bonus to their employees. It further provides for payment of minimum and maximum bonus and linking the payment of bonus with the production and productivity.

### **PAYMENT OF GRATUITY ACT, 1972\***

The Payment of Gratuity Act, 1972 (“PG Act”) applies to every factory and shop or establishment in which ten or more employees are employed. Gratuity is payable to an employee on the termination of his employment after he has rendered continuous service for not less than 5 (five) years:

- a) On his/her superannuation;
- b) On his/her retirement or resignation;
- c) On his/her death or disablement due to accident or disease (in this case the minimum requirement of 5 (five) years does not apply). Gratuity is payable to the employee at the rate of 15 (fifteen) days’ wages for every completed year of service or part thereof in excess of 6 (six) months.

## **THE EMPLOYEE COMPENSATION ACT, 1923\***

The Employee Compensation Act, 1923, formerly known as the Workmen's Compensation Act, mandates employers to provide compensation to employees who suffer injuries, disabilities, or death due to workplace accidents. The Act aims to offer financial protection to workers and their families, ensuring that they receive fair compensation for any loss or injury sustained during employment. It outlines the employer's liability for compensation, including cases of occupational diseases and accidents arising out of and in the course of employment. The Act also specifies the amount of compensation based on the nature and severity of the injury, as well as the method for calculating wages and distributing compensation. By establishing a legal framework for employee compensation, the Act promotes safer work environments and ensures that workers are adequately protected in the event of workplace accidents.

## **MATERNITY BENEFIT ACT, 1961\***

The Maternity Benefit Act, 1961, as amended, regulates the employment of pregnant women and ensures that they get paid leave for a specified period during and after their pregnancy. The Maternity Benefit Act is applicable to establishments in which 10 or more employees are employed, or were employed on any day of the preceding 12 months. Under the Maternity Benefit Act, a mandatory period of leave and benefits should be granted to female employees who have worked in the establishment for a minimum period of 80 days in the preceding 12 months from the date of her expected delivery. Such benefits essentially include payment of average daily wage for the period of actual absence of the female employee. The maximum period for which any woman shall be entitled to maternity benefit shall be 12 weeks, of which not more than six weeks shall precede the date of her expected delivery. Entitlement of six weeks of paid leave is also applicable in case of miscarriage or medical termination of pregnancy.

## **MINIMUM WAGES ACT, 1948**

The Minimum Wages Act, 1948 came into force with an objective to provide for the fixation of a minimum wage payable by the employer to the employee. Every employer is mandated to pay the minimum wages to all employees engaged to do any work skilled, unskilled, and manual or clerical (including out-workers) in any employment listed in the schedule to this Act, in respect of which minimum rates of wages have been fixed or revised under the Act.

## **CONTRACT LABOUR (REGULATION AND ABOLITION) ACT, 1970, AS AMENDED (THE “CLRA ACT”)**

The Contract Labour (Regulation and Abolition) Act, of 1970 (the “CLRA Act”) requires a company to be registered as a principal employer and prescribes certain obligations with respect to the welfare and health of contract labourers. The CLRA vests responsibility in the principal employer of an establishment, to which the CLRA applies, to make an application to the concerned officer for registration of the concerned establishment. In the absence of such registration, contract labour cannot be employed in the concerned establishment. Likewise, every contractor, to whom the CLRA applies, is required to obtain a license and may not undertake or execute any work through contract labour except under and in accordance with the license issued. To ensure the welfare and health of the contract labour, the CLRA imposes certain obligations on the contractor in relation to the establishment of canteens, restrooms, drinking water, washing facilities, first aid, other facilities and payment of wages. However, in the event the contractor fails to provide these amenities, the principal employer is under an obligation to provide these facilities within a prescribed time period. Penalties, including both fines and imprisonment, may be levied for contravention of the provisions of the CLRA.

## **EMPLOYEES’ STATE INSURANCE ACT, 1948\***

It Employees’ State Insurance Act to provide for certain benefits to employees in case of sickness, maternity and employment injury and to make provision for certain other matters in relation thereto. Whereas it is expedient to provide for certain benefits to employees in case of sickness, maternity and employment injury and to make provision for certain other matters in relation thereto; this Act requires all the employees of the establishment to which this act applies to be insured to the manner provided there under. The Employer and Employees both are required to make contribution to the fund. The return of the contribution made is required to be filed with the Employee State Insurance department.

## **EMPLOYEES’ PROVIDENT FUNDS AND MISCELLANEOUS PROVISIONS ACT, 1952 (“EPF ACT”)\***

The EPF Act applies to factories employing over 20 employees and such other establishments and industrial undertakings as notified by the Government of India from time to time. It requires all such establishments to be registered with the State provident fund commissioner and requires such employers and their employees to contribute in equal proportion to the employees’ provident fund the prescribed percentage of basic wages and dearness and other allowances payable to employees. The EPF Act also requires the employer to maintain registers and submit a monthly return to the State provident fund commissioner.

## **PAYMENT OF WAGES ACT, 1936**

The Payment of Wages Act, 1936 as amended (the Payment of Wages Act) has been enacted to regulate the payment of wages in a particular form at regular intervals without unauthorized deductions and to ensure a speedy and effective remedy to employees

against illegal deductions and / or unjustified delay caused in paying wages. It applies to the persons employed in a factory, industrial or other establishment, whether directly or indirectly, through a sub-contractor and provides for the imposition of fines and deductions and lays down wage periods. The Payment of Wages Act is applicable to factories and industrial or other establishments where the monthly wages payable are less than ₹ 6,500 per month.

### **INDUSTRIAL DISPUTES ACT, 1947**

The Industrial Disputes Act, 1947 (Industrial Disputes Act) provides for mechanism and procedure to secure industrial peace and harmony by investigation and settlement of industrial disputes by negotiations. The Industrial Disputes Act extends to whole of India and applies to every industrial establishment carrying on any business, trade, manufacture or distribution of goods and services irrespective of the number of workmen employed therein. Every person employed in an establishment for hire or reward including contract labour, apprentices and part time employees to do any manual, clerical, skilled, unskilled, technical, operational or supervisory work, is covered by the Act. The Act also provides for (a) the provision for payment of compensation to the Workman on account of closure or layoff or retrenchment. (b) the procedure for prior permission of appropriate Government for laying off or retrenching the workers or closing down industrial establishments (c) restriction on unfair labour practices on part of an employer or a trade union or workers.

### **SEXUAL HARASSMENT AT WORKPLACE (PREVENTION, PROHIBITION AND REDRESSAL) ACT, 2013**

The Sexual Harassment at Workplace (Prevention, Prohibition and Redressal) Act, 2013 (SHWPPR Act) provides for protection against sexual harassment at the workplace to women and prevention and redressal of complaints of sexual harassment. The SHWPPR Act defines-Sexual Harassment to include any unwelcome sexually determined behaviour (whether directly or by implication). Workplace under the SHWPPR Act has been defined widely to include government bodies, private and public sector organizations, non-governmental organizations, organizations carrying on commercial, vocational, educational, entertainment, industrial, financial activities, hospitals and nursing homes, educational institutes, sports institutions and stadiums used for training individuals. The SHWPPR Act requires an employer to set up an Internal Complaints Committee at each office or branch, of an organization employing at least 10 employees. The Government in turn is required to set up a Local Complaint Committee at the district level to investigate complaints regarding sexual harassment from establishments where our internal complaints committee has not been constituted.

### **APPRENTICES ACT, 1961**

The Apprentices Act, 1961, as amended (the Apprentices Act) regulates and controls the programme of training of apprentices and matters connected there with. The term Apprentice means a person who is undergoing apprenticeship training in pursuance of a contract of apprenticeship. Apprenticeship Training means a course of training in any industry or establishment undergone in pursuance of a contract of apprenticeship and under prescribed terms and conditions which may be different for different categories of apprentices. Every person engaging as an apprentice is required to enter into a contract of apprenticeship with the employer which is reviewed and registered by the apprenticeship advisor.

### **EQUAL REMUNERATION ACT, 1976\*\***

The Equal Remuneration Act, 1976, as amended (ER Act) provides for the payment of equal remuneration to men and women workers for same or similar nature of work and prevention of discrimination, on the ground of sex, against women in the matter of employment and for matters connected therewith or incidental thereto. Under the ER Act, no discrimination is permissible in recruitment and service conditions, except where employment of women is prohibited or restricted by law. It also provides that every employer should maintain such registers and other documents in relation to the workers employed by him/ her in the prescribed manner.

GST provides for imposition of tax on the supply of goods or services and will be levied by central on intra-state supply of goods or services and by the States including Union territories with legislature/ Union Territories without legislature respectively. A destination-based consumption tax GST would be a dual GST with the central and states simultaneously levying tax with a common base. The GST law is enforced by various acts viz. Central Goods and Services Act, 2017 (CGST), State Goods and Services Tax Act, 2017 (SGST), Union Territory Goods and Services Tax Act, 2017 (UTGST), Integrated Goods and Services Tax Act, 2017 (IGST) and Goods and Services Tax (Compensation to States) Act, 2017 and various rules made thereunder.

Every person liable to take registration under these Acts shall do so within a period of 30 days from the date on which he becomes liable to registration. The Central/State authority shall issue the registration certificate upon receipt of application. The Certificate shall contain fifteen-digit registration numbers known as Goods and Service Tax Identification Number (GSTIN). In case a person has multiple business verticals in multiple locations in a state, a separate application will be made for registration of each and every location. The registered assesses is then required to pay GST as per the rules applicable thereon and file the appropriate returns as applicable thereon. GST has replaced following indirect taxes and duties at the central and state levels.

### **THE GUJARAT STATE TAX ON PROFESSIONS, TRADES, CALLINGS AND EMPLOYMENTS ACT, 1976**

The Gujarat State Tax on Professions, Trades, Callings and Employments Act, 1976 provides the legal framework for the levy and collection of profession tax in the state of Gujarat. The Act mandates that every person engaged in professions, trades, callings, or employments, including individuals, firms, companies, and other entities, is liable to pay tax to the state government, subject to prescribed monetary limits and exemptions. Employers are required to deduct profession tax from the salaries and wages of employees and deposit the same with the government within stipulated timelines. The Act also lays down provisions for registration of employers and enrolment of other liable persons, along with filing of returns, assessments, and penalties for non-compliance. The revenue collected under this Act is utilised by the state for welfare and development purposes. By institutionalising profession tax, the Act ensures a steady source of state revenue while enforcing accountability and compliance among employers and professionals.

## **CUSTOMS REGULATIONS**

All imports into India are subject to duties under the Customs Act, 1962 at the rates specified under the Customs Tariff Act, 1975. However, the Indian Government has the power to exempt certain specified goods from excise duty by notification.

## **FOREIGN INVESTMENT AND TRADE REGULATIONS**

### **FOREIGN INVESTMENT REGULATIONS**

Foreign Investment in India is governed by the provisions of Foreign Exchange Management Act, 1999, as amended, along with the rules, regulations and notifications made by the Reserve Bank of India thereunder, and the consolidated FDI Policy, effective from October 15, 2020, issued by the DPIIT, and any modifications thereto or substitutions thereof, issued from time to time (the “FDI Policy”).

## **THE FOREIGN TRADE (REGULATION AND DEVELOPMENT) ACT, 1992 AND THE RULES FRAMED THEREUNDER (“FTA”)**

The FTA is the main legislation concerning foreign trade in India. The FTA, read along with Foreign Trade (Regulation) Rules, 1993, provides for the development and regulation of foreign trade by facilitating imports into, and augmenting exports from, India and for matters connected therewith or incidental thereto. As per the provisions of the FTA, the Government:- (i) may make provisions for facilitating and controlling foreign trade; (ii) may prohibit, restrict and regulate exports and imports, in all or specified cases as well as subject them to exemptions; (iii) is authorized to formulate and announce an export and import policy and also amend the same from time to time, by notification in the Official Gazette; (iv) is also authorized to appoint a 'Director General of Foreign Trade' for the purpose of the FTA, including formulation and implementation of the Export-Import (“EXIM”) Policy. The FTA prohibits anybody from undertaking any import or export except under an Importer-Exporter Code number (“IEC”) granted by the Director General of Foreign Trade pursuant to Section 7 of the FTA. Hence, every entity in India engaged in any activity involving import/export is required to obtain an IEC unless specifically exempted from doing so. Failure to mention IEC number attracts a penalty of not less than ₹10,000 and not more than five times the value of the goods or services or technology in respect of which any contravention is made or is attempted to be made, whichever is made. The IEC shall be valid until it is cancelled by the issuing authority.

## **FOREIGN TRADE POLICY**

The Foreign Trade Policy provides that no export or import can be made by a person without an IEC unless such person is specifically exempted. The policy provides for all exports and imports made shall be governed by the Foreign Trade Policy, unless otherwise specified. FTP provides for handbook of procedures laying down the procedure to be followed by an exporter or importer or by any Licensing/Regional Authority or by any other authority for purposes of implementing provisions of FT (D&R) Act, the Rules and the Orders made there under and provisions of FTP. Under the Foreign Trade (Development and Regulation) Act, 1992, the Central Government is empowered to periodically formulate the Export Import Policy (the —EXIM Policy) and amend it thereafter whenever it deems fit. All exports and imports must be in compliance with the EXIM Policy. The iron and steel industry has been extended various schemes for the promotion of exports of finished goods and imports of inputs. The major schemes available are the Duty Exemption and Remission Scheme and the Export Promotion of Capital Goods (—EPCG) Scheme. The Duty Exemption Scheme enables duty free imports of inputs required for the production of exports by obtaining an advance license. The Duty Remission Scheme enables post export replenishment/remission of duty on inputs used in the export product. This scheme consists of a Duty Free Import Authorization Scheme (—DFIA), the Duty Drawback Scheme (—DBKL) and the Duty Entitlement Pass Book (the —DEPB). DFIA enables duty free replenishment of inputs used in manufacture of exports. Under the DEPB Scheme, exporters on the basis of notified entitled rates are granted duty credit, which would entitle them to import goods, except capital goods, without duty.

## **FOREIGN EXCHANGE MANAGEMENT ACT, 1999 (“FEMA”) AND REGULATIONS FRAMED THEREUNDER.**

Foreign investment in India is governed primarily by the provisions of the FEMA which relates to regulation primarily by the RBI and the rules, regulations and notifications there under, and the policy prescribed by the Department of Promotion of Industry and Internal Trade. As laid down by the FEMA Regulations no prior consents and approvals are required from the Reserve Bank of India, for Foreign Direct Investment under the ‘automatic route’ within the specified sectoral caps. In respect of all industries not specified as FDI under the automatic route, and in respect of investment in excess of the specified sectoral limits under the automatic route, approval may be required from the FIPB and/or the RBI. The RBI, in exercise of its power under the FEMA, has notified the Foreign Exchange Management (Transfer or Issue of Security by a Person Resident Outside India) Regulations, 2000 (“FEMA Regulations”), as amended from time to time to prohibit, restrict or regulate, transfer by or issue security to a person resident outside India and Foreign Exchange Management (Export of Goods and Services) Regulations, 2000 for regulation on exports of goods and services.

## **GENERAL STATUTORY LEGISLATIONS**

### **COMPANIES ACT, 2013 (“COMPANIES ACT”)**

The Companies Act, 2013, has replaced the Companies Act, 1956 in a phased manner. The Act received the assent of President of India on 29<sup>th</sup> August 2013. Further, Schedule V (read with sections 196 and 197), Part I lays down the conditions to be fulfilled for the appointment of a managing or whole-time director or manager. It provides the list of Acts under which if a person is prosecuted, he cannot be appointed as the director or Managing Director or Manager of a Company. The provisions relating to remuneration of the director’s payable by the companies is under Part II of the said schedule.

## **COMPETITION ACT, 2002**

The Competition Act, 2002 prohibits anti-competitive agreements, abuse of dominant positions by enterprises and regulates combinations in India. The Competition Act also established the Competition Commission of India (the —CCI) as the authority mandated to implement the Competition Act. The provisions of the Competition Act relating to combinations were notified recently on March 4, 2011, and came into effect on June 1, 2011. Combinations which are Likely to cause an appreciable adverse effect on competition in a relevant market in India are void under the Competition Act. A combination is defined under Section 5 of the Competition Act as an acquisition, merger or amalgamation of enterprise(s) that meets certain asset or turnover thresholds. There are also different thresholds for those categorized as Individuals and Group. The CCI may enquire into all combinations, even if taking place outside India, or between parties outside India, if such combination is Likely to have an appreciable adverse effect on competition in India. Effective June 1, 2011, all combinations have to be notified to the CCI within 30 days of the execution of any agreement or other document for any acquisition of assets, shares, voting rights or control of an enterprise under Section 5(a) and (b) of the Competition Act (including any binding document conveying an agreement or decision to acquire control, shares, voting rights or assets of an enterprise); or the board of directors of a company (or an equivalent authority in case of other entities approving a proposal for a merger or amalgamation under Section 5(c) of the Competition Act. The obligation to notify a combination to the CCI falls upon the acquirer in case of an acquisition, and on all parties to the combination jointly in case of a merger or amalgamation.

## **INDIAN CONTRACT ACT, 1872**

The Contract Act is the legislation which lays down the general principles relating to formation, performance and enforceability of contracts. The rights and duties of parties and the specific terms of agreement are decided by the contracting parties themselves, under the general principles set forth in the Contract Act. The Contract Act also provides for circumstances under which contracts will be considered as 'void' or 'voidable'. The Contract Act contains provisions governing certain special contracts, including indemnity, guarantee, bailment, pledge, and agency.

## **SPECIFIC RELIEF ACT, 1963**

The Specific Relief Act, 1963 is complimentary to the provisions of the Contract Act and the Transfer of Property Act, as the Act applies both to movable property and immovable property. The Act applies in cases where the Court can order specific performance of a contract. Specific relief can be granted only for purpose of enforcing individual civil rights and not for the mere purpose of enforcing a civil law. Specific performance means Court will order the party to perform his part of agreement, instead of imposing on him any monetary liability to pay damages to other party.

## **SALE OF GOODS ACT, 1930**

The law relating to the sale of goods is codified in the Sale of Goods Act, 1930. It defines sale and agreement to sell as a contract whereby the seller transfers or agrees to transfer the property in goods to the buyer for a price and provides that there may be a contract of sale between part owner and another and that the contract of sale may be absolute or conditional.

## **THE INSOLVENCY AND BANKRUPTCY CODE, 2016**

The Insolvency and Bankruptcy Code (IBC), 2016, was enacted by the Indian government to consolidate and amend the laws relating to insolvency and bankruptcy of companies, partnerships, and individuals. The primary objective of the IBC is to provide a time-bound resolution process for insolvency, thereby maximizing the value of the debtor's assets and promoting entrepreneurship. The Code introduces a streamlined institutional framework, including the Insolvency and Bankruptcy Board of India (IBBI), insolvency professionals, information utilities, and adjudicatory authorities like the National Company Law Tribunal (NCLT) and its appellate body, the NCLAT. The IBC outlines a two-step process for corporate insolvency: the Insolvency Resolution Process, which involves the active participation of creditors in assessing the viability of the debtor's business, and Liquidation, where the debtor's assets are sold to repay creditors if revival is not feasible. The Code also provides for individual insolvency resolution and bankruptcy.

## **THE REGISTRATION ACT, 1908 (“REGISTRATION ACT”)**

The Registration Act was passed to consolidate the enactments relating to the registration of documents. The main purpose for which the Registration Act was designed to ensure information about all deals concerning land so that correct land records could be maintained. The Registration Act is used for proper recording of transactions relating to other immovable property also. The Registration Act provides for registration of other documents also, which can give these documents more authenticity. Registering authorities have been provided in all the districts for this purpose.

## **CONSUMER PROTECTION ACT, 2019 (“CONSUMER PROTECTION ACT”) AND RULES MADE THEREUNDER**

The Consumer Protection Act was designed and enacted to provide simpler and quicker access to redress consumer grievances. It seeks, amongst other things, to promote and protects the interests of consumers against deficiencies and defects in goods or

services and secure the rights of a consumer against unfair trade practices, which may be practiced by manufacturers, service providers and traders. The definition of “consumer” under the Consumer Protection Act includes persons engaged in offline or online transactions through electronic means or by tele-shopping or direct-selling or multi-level marketing. It provides for the establishment of consumer disputes redressal forums and commissions for the purposes of redressal of consumer grievances. In addition to awarding compensation and/or passing corrective orders, the forums and commissions under the Consumer Protection Act, in cases of misleading and false advertisements, are empowered to impose imprisonment for a term which may extend to two years and fine which may extend to ten lakhs.

In line with the Consumer Protection Act, the Ministry of Consumer Affairs, Food and Public Distribution, Government of India (“Ministry of Consumer Affairs”) has also notified the Consumer Protection (E-Commerce) Rules, 2020 (“E-Commerce Rules”) on July 23, 2020, which provide a framework to regulate the marketing, sale and purchase of goods and services online. The E-Commerce Rules govern e-commerce entities which own, operate, or manage, a digital or electronic facility or platform for electronic commerce, but does not include a seller offering his goods or services for sale on a marketplace e-commerce entity. The Ministry of Consumer Affairs has also released draft amendments to the E-Commerce Rules for public comments. The aforesaid draft amendments require e-commerce entities to, amongst other things, register themselves with the Department for Promotion of Industry and Internal Trade, and appoint a chief compliance officer, a nodal contact person and a resident grievance officer. Additionally, the draft amendments prohibit e-commerce entities from misleading users by manipulating search results, prohibit flash sales and abuse of dominant position, and mandate e-commerce entities to identify sponsored listings of products and services with clear and prominent disclosures.

### **CODE OF CIVIL PROCEDURE, 1908**

The Code of Civil Procedure, 1908 is a procedural law related to the administration of civil proceedings in India. The Civil Procedure Code consolidates and amends the law relating to the procedure of the Courts of Civil jurisdiction. The Code of Civil Procedure is an adjective law it neither creates nor takes away any right. It is intended to regulate the procedure to be followed by Civil Courts. The Civil Procedure Code consists of two parts. 158 Sections form the first part, and the rules and orders contained in Schedule I form the second part. The object of the Code generally is to create jurisdiction while the rules indicate the mode in which the jurisdiction should be exercised.

The Code does not affect any special or local laws, nor does it supersede any special jurisdiction or power conferred or any special form of procedure prescribed by or under any other law for the time being in force. The Code is the general law so that in case of conflict between the Code and the special law the latter prevails over the former. Where the special law is silent on a particular matter the Code applies, but consistent with the special enactment.

The law of criminal procedure is intended to provide a mechanism for the enforcement of criminal law. Without the proper procedural law, the substantive criminal law which defines offences and provides punishment for them would be almost worthless.

### **BHARTIYA NYAYA SANHITA, 2023**

This act supersedes the Indian Penal Code, 1860, this comprehensive legal framework addresses various facets of criminal law, including offenses, penalties, defenses, and procedural guidelines. The Bhartiya Nyaya Sanhita Act largely retains provisions from the Indian Penal Code, 1860, but also introduced new offences including but not limited to cybercrimes, environmental violations, and removed invalidated offences that were earlier there, and enhances penalties for certain offences. Notably, community service replaced the sedition as a form of punishment and terrorism is also explicitly recognizes as an offence. The Bhartiya Nyaya Sanhita Act streamlines legal procedures, ensuring faster trials and emphasizes on witness protection and evidence collection.

### **BHARTIYA NAGRIK SURAKSHA SANHITA ACT, 2023**

This act superseded the Code of Criminal Procedure, 1973 and became the main legislation on procedure for administration of substantive criminal law in India, this act received assent from the president of India on December 25, 2023 and came into effect from July 01, 2024. The Bhartiya Nagrik Suraksha Sanhita Act, introduces specific timelines for investigation and trial, ensures timely FIR registration for complaints submitted through electronic communication, mandates forwarding medical examination reports of rape victims within seven days, and empowers courts to conduct trial in absentia against proclaimed offenders. Additionally, the Act emphasizes prompt judgment pronouncement and requires audio-video recording of search and seizure during investigations. Notably, proceeds of crime can be attached by the court and distributed among victims. The Bhartiya Nagrik Suraksha Sanhita Act aims to expedite proceedings and enhance transparency in the criminal justice system.

### **BHARTIYA SAKSHYA ADHINIYAM ACT, 2023**

This act superseded the Indian Evidence Act, 1872, this act modernizes evidence handling within the Indian legal system, addressing digital evidence and other contemporary issues. This act focuses on procedural aspect of law, governing how rights may be enforced before a court of law. This act introduces changes related to electronic evidence definitions and admissibility procedures. This act received presidential assent on December 25, 2023, and came into effect from July 01, 2024, this act has

omitted certain terms which were earlier present in the Indian Evidence Act and the major change was to include electronic evidence as part of the definition of documentary records and also included the possibility of giving oral evidence electronically.

### **ARBITRATION & CONCILIATION ACT, 1996**

The Arbitration and Conciliation Act, 1996 is an act to consolidate and amend the law relating to domestic arbitration, international commercial arbitration and enforcement of foreign arbitral awards as also to define the law relating to conciliation and for matters connected therewith or incidental thereto. It aims at streamlining the process of arbitration and facilitating conciliation in business matters. The Act recognizes the autonomy of parties in the conduct of arbitral proceedings by the arbitral tribunal and abolishes the scope of judicial review of the award and minimizes the supervisory role of Courts. A significant feature of the Act is the appointment of arbitrators by the Chief Justice of India or Chief Justice of High Court. The Chief Justice may either appoint the arbitrator himself or nominate a person or Institution to nominate the arbitrator. The autonomy of the arbitral tribunal has further been strengthened by empowering them to decide on jurisdiction and to consider objections regarding the existence or validity of the arbitration agreement.

### **NEGOTIABLE INSTRUMENTS ACT, 1881**

In India, cheques are governed by the Negotiable Instruments Act, 1881, which is largely a codification of the English Law on the subject. The Act provides effective legal provision to restrain people from issuing cheques without having sufficient funds in their account or any stringent provision to punish them in the event of such cheque not being honoured by their bankers and returned unpaid. Section 138 of the Act creates statutory offence in the matter of dishonour of cheques on the ground of insufficiency of funds in the account maintained by a person with the banker which is punishable with imprisonment for a term which may extend to two year or with fine which may extend to twice the amount of the cheque, or with both.

### **INDIAN STAMP ACT, 1899**

Under the Indian Stamp Act, 1899 (the “Stamp Act”) stamp duty is payable on instruments evidencing a transfer or creation or extinguishment of any right, title or interest in immovable property. Stamp duty must be paid on all instruments specified under the Stamp Act at the rates specified in the schedules to the Stamp Act. The applicable rates for stamp duty on instruments chargeable with duty vary from state to state. Instruments chargeable to duty under the Stamp Act, which are not duly stamped are incapable of being admitted in court as evidence of the transaction contained therein and it also provides for impounding of instruments that are not sufficiently stamped or not stamped at all.

### **THE DIGITAL PERSONAL DATA PROTECTION ACT, 2023 (“DPDP ACT”)**

The DPDP Act was notified on August 11, 2023 and is yet to come into effect. It replaces the existing data protection provision, as contained in Section 43A of the IT Act. The DPDP Act shall come into force on such date as the Central Government may, by notification in the Official Gazette, appoint and different dates may be appointed for different provisions of the DPDP Act. The DPDP Act seeks to balance the rights of individuals to protect their digital personal data with the need to process personal data for lawful and other incidental purposes. The DPDP Act provides that personal data may be processed only for a lawful purpose after obtaining the consent of the individual. A notice must be given before seeking consent, except in case of legitimate uses as provided under the DPDP Act. It further imposes certain obligations on data fiduciaries including (i) make reasonable efforts to ensure the accuracy and completeness of data, (ii) build reasonable security safeguards to prevent a data breach, (iii) inform the Data Protection Board of India (the “DPB”) and affected persons in the event of a breach, and (iv) erase personal data as soon as the purpose has been met and retention is not necessary for legal purposes (storage limitation). In case of government entities, storage limitation and the right of the data principal to erasure will not apply. The DPDP Act imposes certain additional obligations on a significant data fiduciary, such as appointment of a data protection officer, appointment of an independent data auditor and undertaking of other measures namely, periodic data protection impact assessment, periodic audit and such other measures as may be prescribed under the DPDP Act. The Central Government will establish the DPB. Key functions of the DPB include: (i) monitoring compliance and imposing penalties, (ii) directing data fiduciaries to take necessary measures in the event of a data breach, and (iii) hearing grievances made by affected persons. The DPB members will be appointed for two years and will be eligible for re-appointment. The Central Government will prescribe details such as the number of members of the DPB and the selection process.

## **THE DESIGN ACT, 2000**

The Design Act, which came into force in May 2001, along with the rules made thereunder consolidate and amend the law relating to protection of designs. A design refers to the features of shape, configuration, pattern, ornamentation or composition of lines or colors applied to any article, in two or three dimensional or both forms, by an industrial process or means, whether manual, mechanical or chemical, separate or combined which in the finished article appeal to and is judged solely by the eye. In order to register a design, it must be new or original and must not be disclosed to the public anywhere in India or any other country by publication in tangible form or by use or in any other way prior to the filing date. A design should be significantly distinguishable from known designs or combination of known designs in order for it to be registered. A registered design is valid for a period of 10 years after which the same can be renewed for a second period of five years, before the expiration of the original period of 10 years. After such period, the design is made available to the public by placing it in the public domain.

## GROUP COMPANIES

As per the SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018, for the purpose of identification of Group Companies, our Company has considered those entities as Group Companies which are covered under the applicable accounting standard (AS-18) issued by the Institute of Chartered Accountants of India, as reflected in the Restated Financial Statements, and also other companies as considered material by our Board.

Further, pursuant to a resolution of our Board July 10, 2025 for the purpose of disclosure in relation to Group companies in connection with the Issue, the Materiality Policy framed by the Board covers such Companies as Our Group Companies which fulfils both (i) and (ii) conditions as mentioned below: -

- (i) Companies (other than promoter(s) with which the Company had related party transactions, during the period for which financial information is disclosed, as covered under the Indian Generally Accepted Accounting Principles (IGAAP), i.e. financial information for the period ended March 31, 2025; March 31, 2024, and March 31, 2023; and
- (ii) Companies as considered material by the Board.

Accordingly, based on the parameters outlined above, our Company does not have any group company as on the date of this Draft Red Herring Prospectus.

## DIVIDEND POLICY

The declaration and payment of dividends, if any, will be recommended by our Board of Directors and approved by our shareholders at their discretion in the Annual General meeting, subject to the provision of the Articles of Association and the Companies Act, read with the rules notified thereunder, each as amended. The dividends, if any, will depend on a number of factors, including but not limited to the earnings, capital requirements and overall financial position of our Company. In addition, our ability to pay dividends may be impacted by a number of other factors, including but not limited to, profits earned and available for distribution during the financial year, accumulated reserves including retained earnings, net profit earned during the financial year as per the financial statements, cash flows, debt repayment schedules, if any, fund requirement for contingencies and unforeseen events with financial implications, expansion/diversification of business by the Company, restrictive covenants under the loan or financing documents that we may enter into from time to time.

Further, our Board of Directors may not declare or recommend dividends for a particular period if it is of the view that it would be prudent to conserve capital for ongoing or planned business expansion or other factors which may be considered by the Board.

Our Company has formal dividend policy adopted by board of directors of our Company pursuant to a resolution of our Board dated July 10, 2025 for the declaration of dividends in respect of the Equity Shares. Upon the listing of the Equity Shares of our Company and subject to the SEBI Listing Regulations, we may be required to formulate a dividend distribution policy which shall be required to include, among others, details of circumstances under which the shareholders may or may not expect dividend, the financial parameters that shall be considered while declaring dividend, internal and external factors that shall be considered for declaration of dividend, policy as to how the retained earnings will be utilized and parameters that shall be adopted with regard to various classes of shares, as applicable.

In addition, our ability to pay dividends may be impacted by a number of factors, including restrictive covenants under the loan or financing arrangements our Company is currently availing of or may enter into to finance our fund requirements for our business activities. For further details, please see the section entitled ***“Financial Indebtedness”*** on page 194 of this Draft Red Herring Prospectus.

The Company has not paid any dividend since its incorporation. There is no guarantee that any dividends will be declared or paid or that the amount thereof will not be decreased in the future. For details in relation to the risk involved, please refer section titled ***“Risk Factors”*** beginning on page 29 of this Draft Red Herring Prospectus. The dividend history in the past is not necessarily indicative of our dividend amounts, if any, in the future.

**INDEPENDENT AUDITOR'S EXAMINATION REPORT ON RESTATED FINANCIAL INFORMATION**

To,  
The Board of Directors,  
**Kheria Autocomp Limited**  
Dear Sir,

1. We have examined the attached Restated Financial Information of **Kheria Autocomp Limited** (the "Company") comprising the Restated Statement of Asset and Liabilities as at March 31, 2025, March 31, 2024 and March 31, 2023, the Restated Statement of Profit & Loss and Restated Statement of Cash Flow for the years ended on March 31, 2025, March 31, 2024, March 31, 2023, the summary statement of significant accounting policies, and other explanatory information (collectively, the "Restated Financial Information"), as approved by the Board of Directors of the Company for the purpose of inclusion in the Draft Red Herring Prospectus / Red Herring Prospectus/ Prospectus (Here-in Issue Documents) prepared by the Company in connection with its proposed Initial Public Offer of equity shares ("IPO").

These Restated Summary Statements have been prepared in terms of the requirements of:

- a) Section 26 of Part I of Chapter III of the Companies Act, 2013, as amended (the "Act");
  - b) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended ("ICDR Regulations") and;
  - c) The Guidance Note on Reports in Company Prospectuses (Revised 2019) issued by the Institute of Chartered Accountants of India ("ICAI"), as amended from time to time (the "Guidance Note").
2. The Company's Board of Directors is responsible for the preparation of the Restated Financial Information for the purpose of inclusion in the Draft Red Herring Prospectus / Red Herring Prospectus/ Prospectus to be filed with the Securities and Exchange Board of India, SME platform of BSE/NSE Limited where the equity shares of the Company are proposed to be listed and Registrar of Companies, Gujarat, in connection with the proposed IPO. The Restated Financial Information have been prepared by the management of the Company on the basis of preparation stated in Annexure IV to the Restated Financial Information. The Board of Directors of the Company is responsible for designing, implementing and maintaining adequate internal control relevant to the preparation and presentation of the Restated Financial Information. The Board of Directors is also responsible for identifying and ensuring that the Company complies with the Act, ICDR Regulations and the Guidance Note.
3. We have examined such Restated Financial Information taking into consideration:
    - a) The terms of reference and terms of our engagement agreed upon with you in accordance with our engagement letter Dated November 14<sup>th</sup>, 2024 in connection with the proposed IPO of equity shares of the Company;
    - b) The Guidance Note also requires that we comply with the ethical requirements of the Code of Ethics issued by the ICAI;
    - c) Concepts of test checks and materiality to obtain reasonable assurance based on verification of evidence supporting the Restated Financial Information; and
    - d) The requirements of Section 26 of the Act and the ICDR Regulations. Our work was performed solely to assist you in meeting your responsibilities in relation to your compliance with the Act, the ICDR Regulations and the Guidance Note in connection with the IPO.
  4. These Restated Financial Information have been compiled by the management from:
    - a) Audited financial statements of the Company as at and for the years ended March 31, 2025, March 31, 2024 and March 31, 2023 prepared in accordance with the Accounting Standards (referred to as "AS") as prescribed under Section 133 of the Act, as amended, and other accounting principles generally

- accepted in India, which have been approved in the meeting of the Board of Directors held on 19<sup>th</sup> May, 2025, 05<sup>th</sup> June, 2024 & 18<sup>th</sup> May, 2023 respectively.
5. We have audited the financial information of the Company for the period ended March 31, 2025, March 31, 2024 & March 31, 2023 prepared by the Company in accordance with the AS for the purpose of complying with the requirement of getting its financial statements audited by an audit firm holding a valid peer review certificate issued by the "Peer Review Board" of the ICAI as required by ICDR Regulations in relation to proposed IPO. We have issued our report dated 24<sup>th</sup> May, 2025 on this financial information to the Board of Directors who have approved these in their meeting held on 24<sup>th</sup> May, 2025.
6. For the purpose of our examination, we have relied on:
- a) Auditors' Report issued by us dated May 19<sup>th</sup>, 2025, June 05<sup>th</sup>, 2024 and May 18<sup>th</sup>, 2023 on the financial statements of the Company as at and for the years ended March 31<sup>st</sup>, 2025, March 31<sup>st</sup>, 2024 and March 31<sup>st</sup>, 2023 as referred in Paragraph 4 above.
7. There were no qualifications in the Audit Reports issued by us as at and for the period ended March 31, 2025, year ended March 31, 2024, and March 31, 2023 and which would require adjustments in this Restated Financial Information of the Company.

- **Short-term Employee Benefits:** Short-term employee benefits, including leave encashment, are recognized as an expense in the period in which the related service is rendered. Leave encashment is paid every year and charged off to the Profit & Loss Account.
- **Defined Benefit Plans:** Defined benefit plans, such as gratuity, are provided for based on the present value of the defined benefit obligation at the balance sheet date. The obligation is measured using the projected unit credit method, and actuarial valuations are carried out at each balance sheet date by an independent actuary.
  - Actuarial gains and losses are recognized immediately in the statement of Profit and Loss.
  - Past service costs are recognized immediately in the statement of Profit and Loss.
- **Significant Assumptions:** The calculation of defined benefit obligations is sensitive to various actuarial assumptions. The significant assumptions used in calculating the gratuity obligation include the discount rate, expected rate of salary increase, and employee turnover. These assumptions are reviewed at each balance sheet date and are updated to reflect current economic conditions and expectations.

### **14. EARNINGS PER SHARE:-**

Basic and diluted earnings per share are computed by dividing the net profit after tax attributable to equity shareholders for the year, with the weighted number of equity shares outstanding during the year.

### **15. PROVISIONS & CONTINGENT LIABILITIES:**

## **KHERIA AUTOCOMP LIMITED**

(CIN: U35923GJ2009PLC058554)

- (i) Provisions are recognized when the present obligation of a past event gives rise to a probable outflow, embodying economic benefits on settlement and the amount of obligation can be reliably estimated. Provisions are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.
- (ii) Contingent Liabilities are disclosed after a careful evaluation of facts and legal aspects of the matter involved.

Provisions and Contingent Liabilities are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

### **16. Cash Flow Statement:**

The Company prepares its Cash Flow Statement in accordance with Accounting Standard (AS-3) "Cash Flow Statements", using the indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature, deferrals or accruals of past or future operating cash receipts or payments, and items of income or expense associated with investing or financing cash flows. The cash flows from operating, investing and financing activities are segregated and presented separately.

**Notes to the adjustments:**

1 :- In F.Y.2023-2024- In the Cash Flow Statement, interest paid figure was erroneously linked to wrong cell in Profit & Loss account as a result, Interest paid added back in operating Activiwy was lower by Rs.112.66 Lacs, while in Finance activities. As a result of this error, Cash Flow from Operating Activities was erroneously calculated at lower amount of Rs.112.66 and Cash flow from Financing Activities was shown higher by equivalent amount. Thus, the error is compensating in nature.

2 :- In F.Y.2022-2023- In the Cash Flow Statement, in the investing activities, reduction for Purchase of Fixed Assets was deducted by a lower value of Rs.1.05 Lacs and , Cash and Cash Equivalent Opening Balance Was also taken at lower value of equivalent amount. The error was arithmetical in nature which resulted in lower negative cash flow from investing activities by Rs.104.85 Lacs & equivalent lower figure of cash and cash equivalent opening balance.

3. The Restated Financial Information do not require any adjustment for auditor qualification as there was no qualification in the underlying audit reports of the respective years that required any corrective adjustments.

4. Material Regrouping :- Appropriate adjustments have been made in the Restated Summary Statement of Assets and Liabilities, Profit and Loss and Cash Flows, wherever required, by a reclassification of the corresponding items of income, expenses, assets, liabilities and cash flows in order to bring them in line with the groupings/ disclosures as per the Audited Financial Statements of the Group.

Our Company is providing a link to this website solely to comply with the requirements specified in the SEBI (ICDR) Regulations. The Audited Financial Statements or any other information on such website does not constitute, (i) a part of this Draft Red Herring Prospectus; or (ii) a prospectus, a statement in lieu of a prospectus, an offering circular, an offering memorandum, an advertisement, an Issue or a solicitation of any Issue or an Issue document or recommendation or solicitation to purchase or sell any securities under the Companies Act, the SEBI (ICDR) Regulations, or any other applicable law in India or elsewhere in the world. The Audited Financial Statements should not be considered as part of information that any investor should consider when subscribing for or purchasing any securities of our Company and should not be relied upon or used as a basis for any investment decision. None of our Company or any of its advisors, nor BRLM nor any of their respective employees, directors, affiliates, agents or representatives accept any liability whatsoever for any loss, direct or indirect, arising from reliance placed on any information presented or contained in the Audited Financial Statements, or the opinions expressed therein.

The accounting ratios derived from Restated Financial Statements required to be disclosed under the SEBI (ICDR) Regulations are set forth below:

Particulars	For the period ended		
	March 31, 2025	March 31, 2024	March 31, 2023
Basic Earnings per Equity Share (in ₹)	18.32	7.35	6.10
Diluted Earnings per Equity Share (in ₹)	18.32	7.35	6.10

Net asset value per Equity Share (in ₹)	62.75	44.45	37.12
EBITDA (₹ in lakhs)	1,618.46	976.07	652.63

**Notes:** The ratios on the basis of Restated Consolidated Financial Statements have been computed as below:

Basic Earnings per Equity Share (in ₹)	Net profit/(loss) as restated, attributable to Shareholders divided by Weighted average number of Equity Shares outstanding during the year
Diluted Earnings per Equity Share (in ₹)	Net profit/(loss) as restated, attributable to Shareholders divided by Weighted average number of Equity Shares on diluted basis outstanding during the year.
Return on Net Worth (in ₹)	Restated net profit after tax for the year attributable to the owners of the Company divided by Restated Net worth of the Company.
Net asset value per Equity Share (in ₹)	Consolidated Average Net worth as restated divided Number of weighted average equity shares as at per year end.
EBITDA (in ₹)	Restated profit/(loss) after tax for the respective Fiscal plus tax expenses plus finance costs plus depreciation and amortization.

*Weighted average number of Equity Shares is the number of Equity Shares outstanding at the beginning of the year adjusted by the number of Equity Shares issued during the year multiplied by the time weighting factor. The time weighting factor is the number of days for which the specific shares are outstanding as a proportion of total number of days during the year.*

*“Net worth” means the aggregate value of the paid-up share capital and all reserves created out of the profits and securities premium account and debit or credit balance of profit and loss account, after deducting the aggregate value of the accumulated losses, deferred expenditure and miscellaneous expenditure not written off, but does not include reserves created out of revaluation of assets, write-back of depreciation and amalgamation.*

*The above ratios have been computed on the basis of the Restated Financial Statements.*

## MANAGEMENT'S DISCUSSIONS AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

*You should read the following discussion of our financial condition and results of operations together with our restated financial statements included in the Draft Red Herring Prospectus. You should also read the section entitled “Risk Factors” beginning on page 29, which discusses several factors, risks and contingencies that could affect our financial condition and results of operations. The following discussion relates to our Company and is based on our restated financial statements, which have been prepared in accordance with Indian GAAP, the Companies Act and the SEBI Regulations. Portions of the following discussion are also based on internally prepared statistical information and on other sources. Our fiscal year ends on March 31 of each year, so all references to a particular fiscal year (“Fiscal Year”) are to the twelve-month period ended March 31 of that year.*

The financial statements have been prepared in accordance with Indian GAAP, the Companies Act and the SEBI (ICDR) Regulations and restated as described in the examination report of our auditors dated [•] which is included in this Draft Red Herring Prospectus under the section titled “**Restated Financial Statements**” beginning on page 174 of this Draft Red Herring Prospectus. The restated financial statements have been prepared on a basis that differs in certain material respects from generally accepted accounting principles in other jurisdictions, including US GAAP and IFRS. We do not provide a reconciliation of our restated financial statements to US GAAP or IFRS and we have not otherwise quantified or identified the impact of the differences between Indian GAAP and U.S. GAAP or IFRS as applied to our Restated Financial Statements.

This discussion contains forward-looking statements and reflects our current views with respect to future events and financial performance. Actual results may differ materially from those anticipated in these forward-looking statements as a result of certain factors such as those described under “**Risk Factors**” beginning on pages 29, and elsewhere in this Draft Red Herring Prospectus. Accordingly, the degree to which the financial statements in this Draft Red Herring Prospectus will provide meaningful information depend entirely on such potential investor's level of familiarity with Indian accounting practices. Please also refer to section titled “**Certain Conventions, Presentation of Financial, Industry and Market Data and Currency of Presentation**” beginning on page 16 of this Draft Red Herring Prospectus.

### BUSINESS OVERVIEW

## SECTION X – LEGAL AND OTHER INFORMATION

### OUTSTANDING LITIGATION AND MATERIAL DEVELOPMENTS

*Except as stated in this section, there are no (i) outstanding criminal proceedings (ii) outstanding actions taken by statutory and/or regulatory authorities; (iii) outstanding claims related to direct or indirect taxes; (iv) other pending litigation/arbitration as determined to be material by our Board as per the Materiality Policy, in each case involving our Company, Subsidiaries, Directors, Promoter, Joint Venture and Associate (together the “Relevant Parties”); (v) outstanding criminal proceedings or outstanding actions taken by statutory and/or regulatory authorities involving our Key Managerial Personnel and Senior Management; or (vi) litigation involving our Group Companies which has a material impact on our Company. Further, there are no disciplinary actions including penalties imposed by SEBI or stock exchanges against our Promoter in the last five Fiscals preceding the date of this Draft Red Herring Prospectus, including any outstanding action.*

*Our Company has also disclosed any findings/observations of any of the inspections by SEBI or any other regulator (including the Real Estate Regulatory Authority and enforcement agencies) involving our Company or Subsidiaries or Joint Venture or Associate, which are material, and which need to be disclosed or non-disclosure of which may have bearing on the investment decision.*

*For the purposes of (iv) above, in terms of the Materiality Policy adopted by resolution of our Board dated July 10, 2025 any outstanding litigation / arbitration proceedings (other than as covered in points (i) to (iii) above) involving our Company, Directors, Subsidiaries, Joint Venture, Associate, and Promoter shall be considered material for the purposes of disclosure in this Draft Red Herring Prospectus, if.*

- a. the aggregate monetary claim/dispute amount/ liability involved in such proceeding is in excess of the lower of:*
- b. 2% of the turnover of our Company, being ₹ 184.14 lakhs for the most recent financial year as per the Restated Financial Statements; or*
- c. 2% of the net worth of our Company, being ₹ 56.47 lakhs as at the end of the most recent financial period as per the Restated Financial Statements, except in case the arithmetic value of the net worth is negative; or*
- d. 5% of the average of the absolute value of the profit or loss after tax of our Company, being ₹ 23.83 lakhs for the last three financial years as per the Restated Financial Statements (“Threshold”).*

*For the purpose of (c) above, it is clarified that the average of the absolute value of profit after tax is to be calculated by disregarding the ‘sign’ (positive or negative) that denotes such value. Accordingly, ₹ 23.83 lakhs being the lowest of the above criteria has been considered as the materiality threshold for the purpose of (a) above: or*

*(b) the outcome of such proceeding (including proceedings under the Insolvency and Bankruptcy Code, 2016) could have a material adverse effect on the business, operations, performance, results of operations, cash flows, prospects, financial position or reputation of our Company, irrespective of whether the amount involved in such proceeding exceeds the Threshold or not or whether the monetary liability is not quantifiable in such proceeding; or*

*(c) the decision in such proceeding is likely to affect the decision in similar proceedings, such that the cumulative amount involved in such proceedings exceeds the Threshold, even though the amount involved in an individual proceeding may not exceed the threshold.*

*Further, as regards outstanding litigations involving our Group Companies, it would be considered to have a ‘material impact’ on our Company for the purpose of disclosure in this Draft Red Herring Prospectus, if an adverse outcome from such pending litigation would materially and adversely affect the business, prospects, operations, performance, financial position or reputation of our Company.*

*For the purposes of the above, pre-litigation notices received by the Company, its Directors, Key Managerial Personnel, Senior Management and the Promoters from third parties (excluding those notices and show causes issued by governmental, statutory, regulatory, judicial, quasi-judicial or tax authorities or notices threatening criminal action or first information. Further, pre-litigation notices received/sent by the Relevant Parties from/to third parties (excluding those notices issued by statutory/regulatory/tax authorities or notices threatening criminal action) have not and shall not, be considered as material litigation until such time that the Relevant Parties, as the case may be, are impleaded as a party in proceedings before any judicial/arbitral forum.*

*For the purposes of identification of material creditors, a creditor of our Company, shall be material for the purpose of disclosure in this Draft Red Herring Prospectus and the website of our Company, if outstanding amounts due to such creditor is equal to or in excess of ₹ 23.83 lakhs of the total consolidated trade payables of our Company as at the end of the most recent period covered in the Restated Consolidated Financial Information included in this Draft Red Herring Prospectus.*

In accordance with Section 72 of the Companies Act, 2013, read with Rule 19 of the Companies (Share Capital and Debentures) Rules, 2014, as amended, the sole applicant or the first applicant, along with other joint applicants, may nominate any one person in whom, in the event of the death of sole applicant or in case of joint applicants, death of all the applicants, as the case may be, the Equity Shares allotted, if any, shall vest to the exclusion of all other persons, unless the nomination is varied or cancelled in the prescribed manner. A person, being a nominee, entitled to the Equity Shares by reason of the death of the original holder(s), shall in accordance with Section 72 of the Companies Act, 2013 be entitled to the same advantages to which he or she would be entitled if he or she were the registered holder of the Equity Share(s). Where the nominee is a minor, the holder(s) may make a nomination to appoint, in the prescribed manner, any person to become entitled to Equity Share(s) in the event of his or her death during the minority. A nomination shall stand rescinded upon a sale of equity share(s) by the person nominating. A buyer will be entitled to make a fresh nomination in the manner prescribed. A fresh nomination can be made only on the prescribed form available on request at the Registered Office of our Company or to the Registrar and Transfer Agents of our Company.

**Any Person who becomes a nominee by virtue of Section 72 of the Companies Act, 2013 shall upon the production of such evidence as may be required by the Board, elect either:**

- a) to register himself or herself as the holder of the Equity Shares; or
- b) to make such transfer of the Equity Shares, as the deceased holder could have made.

Further, the Board may at any time give notice requiring any nominee to choose either to be registered himself or herself or to transfer the Equity Shares, and if the notice is not complied with within a period of 90 (ninety) days, the Board may thereafter withhold payment of all dividends, bonuses or other moneys payable in respect of the Equity Shares, until the requirements of the notice have been complied with.

Since the allotment of Equity Shares in the Issue will be made only in dematerialized form, there shall be no requirement for a separate nomination with our Company. Nominations registered with the respective Depository Participant of the applicant would prevail. If the Applications require changing of their nomination, they are requested to inform their respective Depository Participant.

#### **WITHDRAWAL OF THE ISSUE**

Our Company in consultation with the BRLM, reserve the right to not to proceed with the Issue after the Issue Opening Date but before the Allotment. In such an event, our Company would issue a public notice in the newspapers in which the pre-Issue and price band advertisements were published, within two (2) days of the Issue Closing Date or such other time as may be prescribed by SEBI, providing reasons for not proceeding with the Issue. The BRLM through, the Registrar to the Issue, shall notify the SCSBs to unblock the bank accounts of the ASBA applicant within one (1) Working Day from the date of receipt of such notification. Our Company shall also inform the Stock Exchanges on which Equity Shares are proposed to be listed.

If our Company withdraw the Issue after the Bid/Issue Closing Date and subsequently decides to proceed with an Issue of the Equity Shares, our Company will have to file a fresh Draft Red Herring Prospectus with the stock exchange where the Equity Shares may be proposed to be listed

Notwithstanding the foregoing, this Issue is also subject to obtaining (i) the final listing and trading approvals of the Stock Exchange, which our Company shall apply for after Allotment. (ii) the final RoC approval of the Prospectus after it is filed with the RoC. If our Company in consultation with BRLM withdraws the Issue after the Issue Closing Date and thereafter determines

that it will proceed with an issue/issue for sale of the Equity Shares, our Company shall file a fresh Draft Red Herring Prospectus with the Stock Exchange.

\* \*In case of (i) any blocking of multiple amounts for the same ASBA Form (for amounts blocked through the UPI Mechanism), the Bidder shall be compensated at a uniform rate ₹ 100 per day or 15% per annum of the total cumulative blocked amount except the original application amount, whichever is higher from the date on which such multiple amounts were blocked till the date of actual unblock; (ii) any blocking of amounts more than the Bid Amount, the Bidder shall be compensated at a uniform rate of ₹ 100 per day or 15% per annum of the difference in amount, whichever is higher from the date on which such excess amounts were blocked till the date of actual unblock; (iii) any delay in unblocking of non-allotted/ partially allotted Bids, exceeding two Working Days from the Bid/Issue Closing Date, the Bidder shall be compensated at a uniform rate of ₹ 100 per day or 15% per annum of the Bid. The BRLM shall, in their sole discretion, identify and fix the liability on such intermediary or entity responsible for such delay in unblocking. For the avoidance of doubt, the provisions of the SEBI circular dated March 16, 2021, as amended pursuant to SEBI circular dated June 2, 2021 shall be deemed to be incorporated in the agreements to be entered into by and between the Company and the relevant intermediaries, to the extent applicable

The above timetable, other than the Bid/Issue Closing Date, is indicative and does not constitute any obligation on our Company and the BRLM.

Whilst our Company shall ensure that all steps for the completion of the necessary formalities for the listing and commencement of trading of the Equity Shares on the Stock Exchange are taken within three Working Days of the Bid/Issue Closing Date or such other period as may be prescribed by the SEBI, the timetable may be extended due to various factors, such as extension of the Bid/Issue Period by our Company in consultation with the BRLM, revision of the Price Band or any delay in receiving the final listing and trading approval from the Stock Exchange. The commencement of trading of the Equity Shares will be entirely at the discretion of the Stock Exchange and in accordance with the applicable laws.

The SEBI is in the process of streamlining and reducing the post Issue timeline for initial public offerings. Any circulars or notifications from the SEBI after the date of the Draft Red Herring Prospectus may result in changes to the above-mentioned timelines. Further, the Issue procedure is subject to change to any revised circulars issued by the SEBI to this effect.

In accordance with SEBI ICDR Regulations, All Applicants are not allowed to withdraw or lower the size of their application (in terms of the quantity of the Equity Shares or the Application amount) at any stage.

The BRLM will be required to submit reports of compliance with listing timelines and activities, identifying non-adherence to timelines and processes and an analysis of entities responsible for the delay and the reasons associated with it.

**In terms of the UPI Circulars, in relation to the Issue, the BRLM will submit a report of compliance with T+3 listing timelines and activities, identifying non-adherence to timelines and processes and an analysis of entities responsible for the delay and the reasons associated with it.**

#### **Submission of Bids:**

##### **Bid/Issue Period (except the Bid/Issue Closing Date)**

Submission and Revision in Bids: Only between 10.00 a.m. and 5.00 p.m. Indian Standard Time (“IST”)

##### **Bid/Issue Closing Date**

Submission and Revision in Bids: Only between 10.00 a.m. and 4.00 p.m. IST

##### **On the Bid/Issue Closing Date, the Bids shall be uploaded until:**

Submission and uploading of Applications: Only between 10.00 a.m. and 4.00 p.m. IST for all categories.

On the Bid/Issue Closing Date, extension of time may be granted by the Stock Exchange only for uploading Bids received from Individual Bidders after taking into account the total number of Bids received and as reported by the BRLM to the Stock Exchange.

The Registrar to the Issue shall submit the details of cancelled/ withdrawn/ deleted applications to the SCSBs on a daily basis within 60 minutes of the Bid closure time from the Bid/ Issue Opening Date till the Bid/ Issue Closing Date by obtaining the same from the Stock Exchanges. The SCSBs shall unblock such applications by the closing hours of the Working Day and submit the confirmation to the BRLM and the RTA on a daily basis.

To avoid duplication, the facility of re-initiation provided to Syndicate Members, if any shall preferably be allowed only once per Bid/batch and as deemed fit by the Stock Exchange, after closure of the time for uploading Bids.

**It is clarified that Bids not uploaded on the electronic bidding system or in respect of which the full Bid Amount is not blocked by SCSBs or not blocked under the UPI Mechanism in the relevant ASBA Account, as the case may be, would be rejected.**

Due to the limitation of time available for uploading the Bid-Cum-Application Forms on the Bid/ Issue Closing Date, Bidders are advised to submit their applications one (1) day prior to the Bid/ Issue Closing Date and, in any case, not later than 3.00 P.M. (IST) on the Bid/ Issue Closing Date. Any time mentioned in this Draft Red Herring Prospectus is Indian Standard Time (IST). Bidders are cautioned that, in the event a large number of Bid-Cum- Application Forms are received on the Bid/ Issue Closing Date, as is typically experienced in public Issue, some Bid-Cum- Application Forms may not get uploaded due to the lack of sufficient time. Such Bid-Cum- Application Forms that cannot be uploaded will not be considered for allocation under this Issue. Applications will be accepted only on Working Days, i.e., Monday to Friday (excluding any public holidays). None among our Company or any Member of the Syndicate shall be liable for any failure in (i) uploading the Bids due to faults in any software/ hardware system or blocking of application amount by the SCSBs on receipt of instructions from the Sponsor Bank on account of any errors, omissions or non-compliance by various parties involved in, or any other fault, malfunctioning or breakdown in, or otherwise, in the UPI Mechanism.

In accordance with SEBI ICDR Regulations, QIBs and Non-Institutional Applicants are not allowed to withdraw or lower the size of their application (in terms of the quantity of the Equity Shares or the Application amount) at any stage. Individual Applicants can revise or withdraw their Application Forms prior to the Issue Closing Date. Allocation to Individual Applicants, in this Issue will be on a proportionate basis.

In case of discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical Application Form, for a particular Applicant, the details as per the file received from Stock may be taken as the final data for the purpose of Allotment. In case of discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical or electronic Application Form, for a particular ASBA Applicant, the Registrar to the Issue shall ask the relevant SCSBs / RTAs / DPs / stock brokers, as the case may be, for the rectified data.

Our Company in consultation with the Book Running Lead Manager, reserves the right to revise the Price Band during the Bid/ Issue Period. The revision in the Price Band shall not exceed 20% on either side, i.e. the Floor Price can move up or down to the extent of 20% of the Floor Price and the Cap Price will be revised accordingly. The Floor Price shall not be less than the face value of the Equity Shares.

**In case of any revision to the Price Band, the Bid/ Issue Period will be extended by at least three additional Working Days following such revision of the Price Band, subject to the Bid/ Issue Period not exceeding a total of 10 Working Days. In cases of force majeure, banking strike or similar circumstances, our Company in consultation with the Book Running Lead Manager, for reasons to be recorded in writing, extend the Bid/ Issue Period for a minimum of three Working Days, subject to the Bid/ Issue Period not exceeding 10 Working Days. Any revision in the Price Band and the revised Bid/ Issue Period, if applicable, will be widely disseminated by notification to the Stock Exchange, by issuing a public notice, and also by indicating the change on the respective websites of the Book Running Lead Manager and the terminals of the Syndicate Members, if any and by intimation to SCSBs, other Designated Intermediaries and the Sponsor Bank, as applicable. In case of revision of Price Band, the Bid Lot shall remain the same.**

In case of (i) any delay in unblocking of amounts in the ASBA Accounts (including amounts blocked through the UPI Mechanism) for cancelled/ withdrawn/ deleted ASBA Forms, the Applicant shall be compensated at a uniform rate of ₹ 100 per day or 15% per annum of the Application Amount, whichever is higher from the date on which the request for cancellation/ withdrawal/ deletion is placed in the Stock Exchanges Applying platform until the date on which the amounts are unblocked (ii) any blocking of multiple amounts for the same ASBA Form (for amounts blocked through the UPI Mechanism), the Applicant shall be compensated at a uniform rate ₹ 100 per day or 15% per annum of the total cumulative blocked amount except the original application amount, whichever is higher from the date on which such multiple amounts were blocked till the date of actual unblock; (iii) any blocking of amounts more than the Application Amount, the Applicant shall be compensated at a uniform rate of ₹ 100 per day or 15% per annum of the difference in amount, whichever is higher from the date on which such excess amounts were blocked till the date of actual unblock; (iv) any delay in unblocking of non-allotted/ partially allotted Application, exceeding two Working Days from the Issue Closing Date, the Applicant shall be compensated at a uniform rate of ₹ 100 per day or 15% per annum of the Application Amount, whichever is higher for the entire duration of delay exceeding two Working Days from the Issue Closing Date by the SCSB responsible for causing such delay in unblocking. The post Issue BRLM shall be liable for compensating the Applicant at a uniform rate of ₹ 100 per day or 15% per annum of the Application Amount, whichever is higher from the date of receipt of the Investor grievance until the date on which the blocked amounts are unblocked. For the avoidance of doubt, the provisions of the SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021, as amended pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 amended pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022 and SEBI Circular No: SEBI/HO/MIRSD/MIRSD\_RTAMB/P/CIR/2022/75 dated May 30, 2022, which for the avoidance of doubt, shall be deemed to be incorporated in the deemed agreement of the Company with the SCSBs, to the extent applicable shall be deemed to be incorporated in the deemed agreement of the Company with the SCSBs to the extent applicable.

## **MINIMUM SUBSCRIPTION AND UNDERWRITING**

This Issue is not restricted to any minimum subscription level and is 100% underwritten. As per Section 39 of the Companies Act, 2013, if the stated minimum amount has not been subscribed and the sum payable on application is not received within a period of 30 days from the date of the Red Herring Prospectus, the application money has to be returned within such period as may be prescribed.

If our Company does not receive the 100% subscription of the issue through the Issue Document including devolvement of Underwriters, if any, within sixty (60) days from the date of closure of the issue, our Company shall forthwith refund the entire subscription amount received. ## **APPLICATION BY ELIGIBLE NRIS, FPIS/FIIS REGISTERED WITH SEBI, VCFS REGISTERED WITH SEBI AND QFI**

It is to be understood that there is no reservation for Eligible NRIs or FPIs/FIIs registered with SEBI or VCFs or QFIs. Such Eligible NRIs, QFIs, FIIs registered with SEBI will be treated on the same basis with other categories for the purpose of Allocation.

NRIs, FPIs/FIIs and foreign venture capital investors registered with SEBI are permitted to purchase shares of an Indian company in a public issue without the prior approval of the RBI, so long as the price of the equity shares to be issued is not less than the price at which the equity shares are issued to residents. The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the FIPB or the RBI, provided that (i) the activities of the investee company are under the automatic route under the foreign direct investment (“**FDI**”) Policy and the non-resident shareholding is within the sectoral limits under the FDI policy; and (ii) the pricing is in accordance with the guidelines prescribed by the SEBI/RBI.

The current provisions of the Foreign Exchange Management (Transfer or Offer of Security by a Person Resident outside India) Regulations, 2000, provides a general permission for the NRIs, FPIs and foreign venture capital investors registered with SEBI to invest in shares of Indian companies by way of subscription in an IPO. However, such investments would be subject to other investment restrictions under the Foreign Exchange Management (Transfer or Offer of Security by a Person Resident outside India) Regulations, 2000, RBI and/or SEBI regulations as may be applicable to such investors.

The Allotment of the Equity Shares to Non-Residents shall be subject to the conditions, if any, as may be prescribed by the Government of India/RBI while granting such approvals.

## **ARRANGEMENT FOR DISPOSAL OF ODD LOTS**

The trading of the Equity Shares will happen in the minimum contract size of [●] shares in terms of the SEBI circular no. CIR/MRD/DSA/06/2012 dated February 21, 2012. However, the Market Maker shall buy the entire shareholding of a shareholder in one lot, where value of such shareholding is less than the minimum contract size allowed for trading on the NSE.

## **NEW FINANCIAL INSTRUMENTS**

There are no new financial instruments such as deep discounted bonds, debenture with warrants, secured premium notes, etc. issued by our Company.

## **ALLOTMENT OF EQUITY SHARES IN DEMATERIALIZED FORM**

**Note:**

- (1) In terms of Rule 19(2) of the SCRR read with Regulation 252 of the SEBI (ICDR) Regulations, 2018 this is an Issue for at least 25% of the post issue paid-up Equity share capital of the Company. This Issue is being made through Book Building Process, wherein allocation to the public shall be as per Regulation 252 of the SEBI ICDR Regulations.
- (2) Our Company in consultation with the BRLM, allocate up to 60% of the QIB Portion to Anchor Investors Issue Price, on a discretionary basis, subject to there being (i) a maximum of 2 (two) Anchor Investors, where allocation in the Anchor Investor Portion is up to ₹ 200 lakhs, (ii) minimum of 2 (two) and maximum of 15 (fifteen) Anchor Investors, where the allocation under the Anchor Investor Portion is more than ₹200 lakhs but up to ₹2,500 lakhs under the Anchor Investor Portion, subject to a minimum Allotment of ₹100 lakhs per Anchor Investor, and (iii) in case of allocation above ₹2,500 lakhs under the Anchor Investor Portion, a minimum of 5 (five) such investors and

a maximum of 15 (fifteen) Anchor Investors for allocation up to ₹2,500 lakhs, and an additional 10 (ten) Anchor Investors for every additional ₹2,500 lakhs or part thereof will be permitted, subject to minimum allotment of ₹100 lakhs per Anchor Investor. An Anchor Investor will make a minimum Bid of such number of Equity Shares, that the Bid Amount is at least ₹200 lakhs. One-third of the Anchor Investor Portion shall be reserved for domestic Mutual Funds, subject to valid Bids being received from domestic Mutual Funds at or above the Anchor Investor Allocation Price. In the event of under-subscription or non-Allotment in the Anchor Investor Portion, the balance Equity Shares in the Anchor Investor Portion shall be added to the Net QIB Portion.

- (3) Subject to valid Bids being received at or above the Issue Price. The Issue is being made through the Book Building Process in accordance with Regulation 229(2) of the SEBI ICDR Regulations, wherein not more than 50% of the issue shall be available for allocation on a proportionate basis to Qualified Institutional Buyers. Such number of Equity Shares representing 5% of the Net QIB Portion shall be available for allocation on a proportionate basis to Mutual Funds only. The remainder of the Net QIB Portion shall be available for allocation on a proportionate basis to QIBs (other than Anchor Investors), including Mutual Funds, subject to valid Bids being received from them at or above the Issue Price. However, if the aggregate demand from Mutual Funds is less than 5% of the Net QIB Portion, the balance Equity Shares available for allocation in the Mutual Fund Portion will be added to the remaining Net QIB Portion for proportionate allocation to all QIBs. Further, not less than 15% of the Issue shall be available for allocation on a proportionate basis to Non-Institutional Bidders and not less than 35% of the Issue shall be available for allocation to Retail Individual Bidders in accordance with the SEBI ICDR Regulations, subject to valid Bids being received from them at or above the Issue Price. Subject to valid Bids being received at or above the Issue Price, under-subscription, if any, in the Non-Institutional Portion or the Retail Portion would be allowed to be met with spill-over from other categories or a combination of categories at the discretion of our Company in consultation with the BRLM and the Designated Stock Exchange, on a proportionate basis. However, under-subscription, if any, in the QIB Portion will not be allowed to be met with spill-over from other categories or a combination of categories. In the event of under-subscription in the Issue, the Allotment for the valid Bids will be made, in the first instance, towards subscription for 90% of the Fresh Issue. If there remain any balance valid Bids in the Issue, the Allotment for the balance valid Bids will be made towards the balance Fresh Issue. For avoidance of doubt, the balance Equity Shares of the Fresh Issue (i.e., 10% of the Fresh Issue) will be issued only once the entire portion of the Issued Shares are Allotted in the Issue. For further details, please see “**Terms of the Issue**” beginning on page 222.
- (4) Anchor Investors shall pay the entire Bid Amount at the time of submission of the Anchor Investor Bid, provided that any positive difference between the Anchor Investor Allocation Price and the Issue Price, shall be payable by the Anchor Investor Pay-in Date as mentioned in the CAN. In case the Issue Price is lower than the Anchor Investor Allocation Price, the amount in excess of the Issue Price paid by the Anchor Investors shall not be refunded to them.
- (5) Anchor Investors are not permitted to use the ASBA process.
- (6) UPI Bidders are advised to confirm the availability of the UPI Mechanism with their respective brokers, prior to submission of Bids.
- (7) In the event that a Bid is submitted in joint names, the relevant Bidders should ensure that the depository account is also held in the same joint names and the names are in the same sequence in which they appear in the Bid cum Application Form. The Bid cum Application Form should contain only the name of the First Bidder whose name should also appear as the first holder of the beneficiary account held in joint names. The signature of only such First Bidder would be required in the Bid cum Application Form and such First Bidder would be deemed to have signed on behalf of the joint holders. Our Company reserves the right to reject, in its absolute discretion, all or any multiple Bids in any or all categories.

The Bids by FPIs with certain structures as described under “**Issue Procedure - Bids by FPIs**” on page 247 of this, Draft Red Herring Prospectus and having same PAN may be collated and identified as a single Bid in the Bidding process. The Equity Shares Allocated and Allotted to such successful Bidders (with same PAN) may be proportionately distributed.

Bidders will be required to confirm and will be deemed to have represented to our Company, the Underwriters, their respective directors, officers, agents, affiliates and representatives that they are eligible under applicable law, rules, regulations, guidelines and approvals to acquire the Equity Shares.

In case of any revision in the Price Band, the Bid/ Issue Period shall be extended for at least 3 (three) additional Working Days after such revision of the Price Band, subject to the total Bid/ Issue Period not exceeding 10 (ten) Working Days. Any revision in the Price Band, and the revised Bid/ Issue Period, if applicable, shall be widely disseminated by notification to the Stock Exchange by issuing a press release and also by indicating the change on the websites of the BRLM and at the terminals of the members of the Syndicate.

*In case of discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical Bid cum Application Form for a particular Bidder, the details as per the Bid file received from the Stock Exchange may be taken as the final data for the purpose of Allotment.*

## **WITHDRAWAL OF THE ISSUE**

The General Information Document is available on the website of the Stock Exchanges and the BRLM. Please refer to the relevant provisions of the General Information Document which are applicable to the Issue, especially in relation to the process for Bids by UPI Bidders through the UPI Mechanism. The investors should note that the details and process provided in the General Information Document should be read along with this section.

Additionally, all Bidders may refer to the General Information Document for information in relation to (i) category of investors eligible to participate in the Issue; (ii) maximum and minimum Bid size; (iii) price discovery and allocation; (iv) payment instructions for ASBA Bidders; (v) issuance of CAN and Allotment in the issue; (vi) price discovery and allocation; (vii) general instructions (limited to instructions for completing the Bid cum Application Form); (viii) designated date; (ix) disposal of applications and electronic registration of bids; (x) submission of Bid cum Application Form; (xi) other instructions (limited to joint bids in cases of individual, multiple bids and instances when an application would be rejected on technical grounds); (xii) applicable provisions of the Companies Act relating to punishment for fictitious applications; (xiii) mode of making refunds; and (xiv) interest in case of delay in Allotment or refund.

SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 1, 2018 read with its circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/50 dated April 3, 2019, has introduced an alternate payment mechanism using Unified Payments Interface (“**UPI**”) and consequent reduction in timelines for listing in a phased manner. From January 1, 2019, the UPI Mechanism for RIBs applying through Designated Intermediaries was made effective along with the existing process and existing timeline of T+6 days. (“**UPI Phase I**”). The UPI Phase I was effective till June 30, 2019.

With effect from July 1, 2019, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/76 dated June 28, 2019, read with circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2019/85 dated July 26, 2019 with respect to Bids by RIBs through Designated Intermediaries (other than SCSBs), the existing process of physical movement of forms from such Designated Intermediaries to SCSBs for blocking of funds has been discontinued and only the UPI Mechanism for such Bids with existing timeline of T+6 days will continue for a period of three months or launch of five main board public issues, whichever is later (“**UPI Phase II**”). Subsequently however, SEBI vide its circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019 extended the timeline for implementation of UPI Phase II till March 31, 2020. However, given the prevailing uncertainty due to the Covid- 19 pandemic, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020, had decided to continue with the UPI Phase II till further notice. The final reduced timeline of T+3 days was made effective using the UPI Mechanism for applications by UPI Bidders (“**UPI Phase III**”) and modalities of the implementation of UPI Phase III has been notified by SEBI vide its circular no. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 and made effective on a voluntary basis for all issues opening on or after September 1, 2023 and on a mandatory basis for all issues opening on or after December 1, 2023. The Issue will be undertaken pursuant to the processes and procedures under UPI Phase III, subject to any circulars, or notification issued by the SEBI from time to time.

Further, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021, as amended by circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 has introduced certain additional measures for streamlining the process of initial public issue and redressing investor grievances.

This circular has come into force for initial public issue opening on or after May 1, 2021, except as amended pursuant to SEBI circular SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021, and SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022 and SEBI circular no. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023. Subsequently, vide the SEBI master circular bearing reference no. SEBI/HO/MIRSD/POD-1/P/CIR/2023/70 dated May 17, 2023 (“SEBI RTA Master Circular”) and circular (SEBI/HO/CFD/DIL2/P/CIR/2022/75) dated May 30, 2022, has introduced certain additional measures for streamlining the process of initial public offers and redressing investor grievances. The provisions of these circulars are deemed to form part of this Prospectus. Furthermore, pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/P/2022/45 dated April 5, 2022, all individual bidders in initial public offerings (opening on or after May 1, 2022) whose application sizes are up to ₹5,00,000 shall use the UPI Mechanism. Subsequently, pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2022/75 dated May 30, 2022, applications made using the ASBA facility in initial public offerings (opening on or after September 1, 2022) shall be processed only after application monies are blocked in the bank accounts of investors (all categories).

The BRLM shall be the nodal entity for any issues arising out of public issuance process. In terms of Regulation 23(5) and Regulation 52 of SEBI ICDR Regulations, the timelines and processes mentioned in SEBI Circular. No. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 29, 2023 shall continue to form part of the agreements being signed between the intermediaries involved in the public issuance process and BRLM shall continue to coordinate with intermediaries involved in the said process.

In case of any delay in unblocking of amounts in the ASBA Accounts (including amounts blocked through the UPI Mechanism) exceeding two Working Days from the Bid/Issue Closing Date, in accordance with the SEBI master circular no.

SEBI/HO/CFD/PoD2/P/CIR/2023/00094 dated June 21, 2023, the Bidder shall be compensated at a uniform rate of ₹ 100/- per day for the entire duration of delay exceeding four Working Days from the Bid/Issue Closing Date by the intermediary responsible for causing such delay in unblocking. The BRLM shall, in their sole discretion, identify and fix the liability on such intermediary or entity responsible for such delay in unblocking. Further, investors shall be entitled to compensation in the manner specified in the SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021 as amended by SEBI circular no. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023, in case of delays in resolving investor grievances in relation to blocking/unblocking of funds.

Please note that the information stated/covered in this section may not be complete and/or accurate and as such would be subject to modification/change. Our Company, the BRLM and the members of the Syndicate do not accept any responsibility for the completeness and accuracy of the information stated in this section and the General Information Document and are not liable for any amendment, modification or change in the applicable law which may occur after the date of this Prospectus. Bidders are advised to make their independent investigations and ensure that their Bids are submitted in accordance with applicable laws and do not exceed the investment limits or maximum number of Equity Shares that can be held by them under applicable law or as specified in the Prospectus and the Prospectus.

Further, our Company and the Syndicate are not liable for any adverse occurrences consequent to the implementation of the UPI Mechanism for application in this Issue.

- c) Foreign Nationals (except NRIs)
- d) Overseas Corporate Bodies

As per the existing regulations, OCBs are not eligible to participate in this Issue. The RBI has however clarified in its circular, A.P. (DIR Series) Circular No. 44, dated December 8, 2003 that OCBs which are incorporated and are not under the adverse notice of the RBI are permitted to undertake fresh investments as 138 incorporated non-resident entities in terms of Regulation 5(1) of RBI Notification No.20/2000-RB dated May 3, 2000 under FDI Scheme with the prior approval of Government if the investment is through Government Route and with the prior approval of RBI if the investment is through Automatic Route on case by case basis. OCBs may invest in this Issue provided it obtains a prior approval from the RBI. On submission of such approval along with the Bid Cum Application Form, the OCB shall be eligible to be considered for share allocation.

#### **MAXIMUM AND MINIMUM APPLICATION SIZE**

##### **1. For Individual Applicants:**

The bid must be for a minimum of [●] Equity Shares and in multiples of [●] Equity Shares thereafter, so as to ensure that the Bid Price payable by the Applicant exceed ₹ 2,00,000 and bid size of 2 lots. Individual Investors can only revise their Bids upwards and are not allowed to cancel/withdraw their Bids.

##### **2. For Other than Individual Applicants (Non-Institutional Applicants and QIBs):**

The bid must be for a minimum of such number of Equity Shares that the bid Amount does not exceeds ₹ 10,00,000 and bid size of more than 2 lots and in multiples of [●] Equity Shares thereafter. A bid cannot be submitted for more than the Net Issue Size. However, the maximum bid by a QIB investor should not exceed the investment limits prescribed for them by applicable laws. Under existing SEBI Regulations, Non-Institutional Investors and QIBs cannot withdraw their bids and are required to pay 100% Margin upon submission of bid. In case of revision in Bids, the Non-Institutional Investors and QIBs have to ensure that they cannot revise their Bids downwards.

In case of upward revision in bids, the Non-Institutional Applicants, who are individuals, have to ensure that the bid Amount is more than ₹ 2,00,000 with more than 2 lots for being considered for allocation in the Non-Institutional Portion.

**Bidders were advised to ensure that any single Application from them does not exceed the investment limits or maximum number of Equity Shares that can be held by them under applicable law or regulation or as specified in this Draft Red Herring Prospectus.**

The above information is given for the benefit of the Bidders. The Company and the BRLM are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Draft Red Herring Prospectus. Bidders are advised to make their independent investigations and ensure that the number of Equity Shares applied for do not exceed the applicable limits under laws or regulations.

#### **METHOD OF BIDDING PROCESS**

The Price Band and the minimum Bid Lot size for the issue will be decided by our Company, in consultation with the Book Running Lead Manager (“BRLM”), and published by our Company in one widely circulated English language national daily

newspaper; one widely circulated Hindi language national daily newspaper and one regional newspaper with wide circulation where the Registered Office of our Company is situated each with wide circulation at least two Working Days prior to the Bid/ Issue Opening Date. The BRLM and the SCSBs shall accept Bids from the Bidders during the Bid/ Issue Period.

- a) The Price Band and the minimum Bid Lot will be decided by our Company, in consultation with the Book Running Lead Manager (“**BRLM**”), and published by our Company in one widely circulated English language national daily newspaper; one widely circulated Hindi language national daily newspaper and one regional newspaper with wide circulation where the Registered Office of our Company is situated and also by indicating the change on the websites of the Book Running Lead Manager.
- b) During the Bid/ Issue Period, Individual Bidders, should approach the BRLM or their authorized agents to register their Bids. The BRLM shall accept Bids from Anchor Investors and ASBA Bidders in Specified Cities and it shall have the right to vet the Bids during the Bid/ Issue Period in accordance with the terms of the Red Herring/Draft Red Herring Prospectus. ASBA Bidders should approach the Designated Branches or the BRLM (for the Bids to be submitted in the Specified Cities) to register their Bids.
- c) Each Bid cum Application Form will give the Bidder the choice to Bid for up to three optional prices (for details refer to the paragraph titled “**Bids at Different Price Levels and Revision of Bids**” below) within the Price Band and specify the demand (i.e., the number of Equity Shares Bid for) in each option. The price and demand options submitted by the Bidder in the Bid cum Application Form will be treated as optional demands from the Bidder and will not be cumulated. After determination of the Issue Price, the maximum number of Equity Shares Bid for by a Bidder/Applicant at or above the Issue Price will be considered for allocation/Allotment and the rest of the Bid(s), irrespective of the Bid Amount, will become automatically invalid.
- d) The Bidder/ Applicant cannot Bid through another Bid cum Application Form after Bids through one Bid cum Application Form have been submitted to a BRLM or the SCSBs. Submission of a second Bid cum Application Form to either the same or to another BRLM or SCSB will be treated as multiple Bid and is liable to be rejected either before entering the Bid into the electronic bidding system, or at any point of time prior to the allocation or Allotment of Equity Shares in this Issue. However, the Bidder can revise the Bid through the Revision Form, the procedure for which is detailed under the paragraph “**Buildup of the Book and Revision of Bids**”.
- e) Except in relation to the Bids received from the Anchor Investors, the BRLM/the SCSBs will enter each Bid option into the electronic bidding system as a separate Bid and generate a Transaction Registration Slip, (“**TRS**”), for each price and demand option and give the same to the Bidder. Therefore, a Bidder can receive up to three TRSs for each Bid cum Application Form
- f) The BRLM shall accept the Bids from the Anchor Investors during the Anchor Investor Bid/ Issue Period i.e. one working day prior to the Bid/ Issue Opening Date. Bids by QIBs under the Anchor Investor Portion and the QIB Portion shall not be considered as multiple Bids.
- g) Along with the Bid cum Application Form, Anchor Investors had made payment in the manner described in “**Payment Into Escrow Account For Anchor Investors**” in the section “**Issue Procedure**” beginning on page 252 of the Red Herring/Draft Red Herring Prospectus.
- h) Upon receipt of the Bid cum Application Form, submitted whether in physical or electronic mode, the Designated Branch of the SCSB shall verify if sufficient funds equal to the Bid Amount are available in the ASBA Account, as mentioned in the Bid cum Application Form prior to uploading such Bids with the Stock Exchange.
- i) If sufficient funds are not available in the ASBA Account, the Designated Branch of the SCSB shall reject such Bids and shall not upload such Bids with the Stock Exchange.
- j) If sufficient funds are available in the ASBA Account, the SCSB shall block an amount equivalent to the Bid Amount mentioned in the Bid cum Application Form and will enter each Bid option into the electronic bidding system as a separate Bid and generate a TRS for each price and demand option. The TRS shall be furnished to the ASBA Bidder on request.
- k) The Bid Amount shall remain blocked in the aforesaid ASBA Account until finalisation of the Basis of Allotment and consequent transfer of the Bid Amount against the Allotted Equity Shares to the Public Issue Account, or until withdrawal/failure of the Issue or until withdrawal/rejection of the Bid cum Application Form, as the case may be. Once the Basis of Allotment is finalized, the Registrar to the Issue shall send an appropriate request to the SCSB for unblocking the relevant ASBA Accounts and for transferring the amount allocable to the successful Bidders to the Public Issue Account. In case of withdrawal/failure of the Issue, the blocked amount shall be unblocked on receipt of such information from the Registrar to the Issue.

#### **BIDS AT DIFFERENT LEVELS AND REVISION OF BIDS**

1. Our Company in consultation with the BRLM, and without the prior approval of, or intimation, to the Bidders, reserves the right to revise the Price Band during the Bid/ Issue Period, provided that the Cap Price shall be less than or equal to 120% of the Floor Price and the Floor Price shall not be less than the face value of the Equity Shares. The revision in Price Band shall not exceed

20% on either side i.e. the floor price can move up or down to the extent of 20% of the floor price disclosed. If the revised price band decided falls within two different price bands than the minimum application lot size shall be decided based on the price band in which the higher price falls into.

2. Our Company, in consultation with the BRLM, will finalize the Issue Price within the Price Band, without the prior approval of, or intimation, to the Bidders.
3. The Bidders can Bid at any price within the Price Band. Placing bids on cut -off price shall not be applicable to any category of bidding.
4. The price of the specified securities offered to an anchor investor shall not be lower than the price offered to other applicants.
5. Downward modifications and cancellations shall not be applicable to any of the category of bidding.

#### **PARTICIPATION BY ASSOCIATES /AFFILIATES OF BRLM AND THE SYNDICATE MEMBERS**

The BRLM and the Syndicate Members, if any, shall not be allowed to purchase in this Issue in any manner, except towards fulfilling their underwriting obligations. However, the associates and affiliates of the BRLM and the Syndicate Members, if any, may subscribe the Equity Shares in the Issue, either in the QIB Portion or in the Non-Institutional Category as may be applicable to such Bidders, where the allocation is on a proportionate basis and such subscription may be on their own account or on behalf of their clients.

Neither the BRLM nor any persons related to the BRLM (other than Mutual Funds sponsored by entities related to the BRLM), Promoters and Promoter Group can apply in the Issue under the Anchor Investor Portion.

#### **OPTION TO SUBSCRIBE IN THE ISSUE**

1. As per Section 29(1) of the Companies Act 2013, allotment of Equity Shares shall be made in dematerialized form only. Investors will not have the option of getting allotment of specified securities in physical form.
2. The Equity Shares, on allotment, shall be traded on the Stock Exchange in demat segment only.
3. A single application from any investor shall not exceed the investment limit/minimum number of Equity Shares that can be held by him/her/it under the relevant regulations/statutory guidelines and applicable law.

- 4) Bidding for Anchor Investors will open one Working Day before the Bid/ Issue Opening Date and be completed on the same day.
- 5) Our Company in consultation with the BRLM, will finalize allocation to the Anchor Investors on a discretionary basis, provided that the minimum and maximum number of Allottees in the Anchor Investor Portion will be, as mentioned below:
  - a) where allocation in the Anchor Investor Portion is up to ₹ 200.00 Lakhs, maximum of 2 (two) Anchor Investors.
  - b) where the allocation under the Anchor Investor Portion is more than ₹ 200.00 Lakhs but upto ₹ 2500.00 Lakhs, minimum of 2 (two) and maximum of 15 (fifteen) Anchor Investors, subject to a minimum Allotment of ₹ 100.00 Lakhs per Anchor Investor; and
  - c) where the allocation under the Anchor Investor portion is more than ₹ 2500.00 Lakhs: (i) minimum of 5 (five) and maximum of 15 (fifteen) Anchor Investors for allocation upto ₹ 2500.00 Lakhs; and (ii) an additional 10 Anchor Investors for every additional allocation of ₹ 2500.00 Lakhs or part thereof in the Anchor Investor Portion; subject to a minimum Allotment of ₹ 100.00 Lakhs per Anchor Investor
- 6) Allocation to Anchor Investors will be completed on the Anchor Investor Bid/ Issue Period. The number of Equity Shares allotted to Anchor Investors and the price at which the allocation is made will be made available in the public domain by the BRLM before the Bid/Issue Opening Date, through intimation to the Stock Exchange.
- 7) Anchor Investors cannot withdraw or lower the size of their Bids at any stage after submission of the Bid.
- 8) If the Issue Price is greater than the Anchor Investor Allocation Price, the additional amount being the difference between the Issue Price and the Anchor Investor Allocation Price will be payable by the Anchor Investors within 2 (two) Working Days from the Bid/ Issue Closing Date. If the Issue Price is lower than the Anchor Investor Allocation Price, Allotment to successful Anchor Investors will be at the higher price, i.e., the Anchor Investor Issue Price.
- 9) At the end of each day of the bidding period, the demand including allocation made to anchor investors, shall be shown graphically on the bidding terminals of syndicate members and website of stock exchange offering electronically linked transparent bidding facility, for information of public.
- 10) 50% of the Equity Shares Allotted to Anchor Investors in the Anchor Investor Portion shall be locked in for a period of 90 days from the date of Allotment, while the remaining 50% of the Equity Shares Allotted to Anchor Investors in the Anchor Investor Portion shall be locked in for a period of 30 days from the date of Allotment.
- 11) The BRLM, our Promoters, Promoter Group or any person related to them (except for Mutual Funds sponsored by entities related to the BRLM) will not participate in the Anchor Investor Portion. The parameters for selection of Anchor Investors will be clearly identified by the BRLM and made available as part of the records of the BRLM for inspection by SEBI.
- 12) Bids made by QIBs under both the Anchor Investor Portion and the QIB Portion will not be considered multiple Bids.
- 13) Anchor Investors are not permitted to Bid in the Issue through the ASBA process.

#### **BIDS BY ELIGIBLE NRI'S**

Eligible NRIs could obtain copies of ASBA Form from the offices of the Designated Intermediaries. Only Bids accompanied by payment in Indian Rupees or freely convertible foreign exchange will be considered for Allotment. Eligible NRIs Bidding on a repatriation basis were required to authorise their SCSBs or confirm or accept the UPI Mandate Request (in case of UPI Bidders) to block their NRE Accounts, or Foreign Currency Non-Resident (“FCNR”) accounts, and Eligible NRIs Bidding on a non-repatriation basis were required to authorise their SCSBs or confirm or accept the UPI Mandate Request (in case of UPI Bidders) to block their NRO Accounts for the full Bid amount, at the time of submission of the ASBA Form. NRIs applying in the issue through the UPI Mechanism were advised to enquire with the relevant bank, whether their account is UPI linked, prior to submitting a Bid cum Application Form.

Participation of Eligible NRI(s) in the issue was subjected to the FEMA Rules. In accordance with the FEMA Rules, the total holding by any individual NRI, on a repatriation basis, shall not exceed 5% of the total paid-up equity capital on a fully diluted basis or shall not exceed 5% of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all NRIs and OCIs put together shall not exceed 10% of the total paid-up equity capital on a fully diluted basis or shall not exceed 10% of the paid-up value of each series of debentures or preference shares or share warrant. Provided that the aggregate ceiling of 10% may be raised to 24% if a special resolution to that effect is passed by the general body of the Indian company.

Eligible NRIs were permitted to apply in the issue through Channel I or Channel II (as specified in the SEBI UPI Circulars). Further, subject to applicable law, Eligible NRIs could use Channel IV (as specified in the SEBI UPI Circulars) to apply in the issue, provided the UPI facility is enabled for their NRE / NRO Accounts.

Eligible NRIs Bidding on a repatriation basis were advised to use the Bid cum Application Form meant for Non-Residents (Blue in colour).

Eligible NRIs Bidding on non-repatriation basis were advised to use the Bid cum Application Form for residents (White in colour).

By way of Press Note 1 (2021 Series) dated March 19, 2021, issued by the DPIIT, it has been clarified that an investment made by an Indian entity which is owned and controlled by NRIs on a non-repatriation basis, shall not be considered for calculation of indirect foreign investment.

NRIs applying in the Issue using UPI Mechanism are advised to enquire with the relevant bank whether their bank account is UPI linked prior to making such application. For details of restrictions on investment by NRIs, see the section titled “**Restrictions on Foreign Ownership of Indian Securities**” beginning on Page No. 266

## **BIDS BY FPI FOREIGN PORTFOLIO INVESTORS**

In terms of applicable FEMA Rules and the SEBI FPI Regulations, investments by FPIs in the Equity Shares is subject to certain limits, i.e., the individual holding of an FPI (including its investor group (which means multiple entities registered as foreign portfolio investors and directly or indirectly, having common ownership of more than 50% or common control)) shall be below 10% of our post-issue Equity Share capital on a fully diluted basis. In case the total holding of an FPI or investor group increase beyond 10% of the total paid-up Equity Share capital of our Company, on a fully diluted basis, the total investment made by the FPI or investor group will be reclassified as FDI subject to the conditions as specified by SEBI and the RBI in this regard and our Company and the investor will be required to comply with applicable reporting requirements. Further, the total holdings of all FPIs put together can be up to the sectoral cap applicable to the sector in which our Company operates (i.e., up to 100%). In terms of the FEMA Rules, for calculating the aggregate holding of FPIs in a company, holding of all registered FPIs shall be included.

In case of Bids made by FPIs, a certified copy of the certificate of registration issued under the SEBI FPI Regulations was required to be attached to the Bid cum Application Form, failing which our Company in consultation with BRLM, reserved the right to reject any Bid without assigning any reason. FPIs who wished to participate in the issue were advised to use the Bid cum Application Form for Non-Residents (Blue in colour).

To ensure compliance with the above requirement, SEBI, pursuant to its circular dated July 13, 2018, has directed that at the time of finalisation of the Basis of Allotment, the Registrar shall (i) use the PAN issued by the Income Tax Department of India for checking compliance for a single FPI; and (ii) obtain validation from Depositories for the FPIs who have invested in the issue to ensure there is no breach of the investment limit, within the timelines for issue procedure, as prescribed by SEBI from time to time.

**Subject to compliance with all applicable Indian laws, rules, regulations, guidelines and approvals in terms of Regulation 21 of the SEBI FPI Regulations, an FPI is permitted to issue, subscribe to, or otherwise deal in offshore derivative instruments, directly or indirectly, only if it complies with the following conditions:**

- (a) Such offshore derivative instruments are issued only by persons registered as Category I FPIs;
- (b) Such offshore derivative instruments are issued only to persons eligible for registration as Category I FPIs;
- (c) Such offshore derivative instruments are issued after compliance with the ‘know your client’ norms as specified by SEBI; and
- (d) Such other conditions as may be specified by SEBI from time to time.

An FPI is required to ensure that the transfer of an offshore derivative instruments issued by or on behalf of it, is subject to (a) the transfer being made to persons which fulfil the criteria provided under Regulation 21(1) of the SEBI FPI Regulations (as mentioned above from points (a) to (d); and (b) prior consent of the FPI is obtained for such transfer, except in cases, where the persons to whom the offshore derivative instruments are to be transferred, are pre-approved by the FPI.

Bids by following FPIs, submitted with the same PAN but with different beneficiary account numbers, Client IDs and DP IDs were not treated as multiple Bids:

- a) FPIs which utilised the multi-investment manager structure;
- b) Offshore derivative instruments which obtained separate FPI registration for ODI and proprietary derivative investments;
- c) Sub funds or separate class of investors with segregated portfolio who obtained separate FPI registration;
- d) FPI registrations granted at investment strategy level / sub fund level where a collective investment scheme or fund had multiple investment strategies / sub-funds with identifiable differences and managed by a single investment manager.
- e) Multiple branches in different jurisdictions of foreign bank registered as FPIs;
- f) Government and Government related investors registered as Category 1 FPIs; and
- g) Entities registered as collective investment scheme having multiple share classes.

The Bids belonging to any of the above mentioned seven structures and having same PAN were collated and identified as a single Bid in the Bidding process. The Equity Shares allotted in the Bid may be proportionately distributed to the applicant FPIs (with same PAN).

In order to ensure valid Bids, FPIs making multiple Bids using the same PAN, and with different beneficiary account numbers, Client IDs and DP IDs, were required to provide a confirmation along with each of their Bid cum Application Form that the relevant FPIs making multiple Bids utilized any of the above-mentioned structures and indicate the name of their respective investment managers in such confirmation. In the absence of such compliance from the relevant FPIs with the operational guidelines for FPIs and designated Collecting Depository Participants issued to facilitate implementation of SEBI FPI Regulations, such multiple Bids were rejected.

Participation of FPIs in the issue was subject to the FEMA Rules.

#### **BIDS BY SEBI REGISTERED VCF'S, AIF'S AND FVCI'S**

The Securities and Exchange Board of India (Alternative Investment Funds) Regulations, 2012, as amended (the “**SEBI AIF Regulations**”) prescribe, amongst others, the investment restrictions on AIFs. Post the repeal of the Securities and Exchange Board of India (Venture Capital Funds) Regulations, 1996, the venture capital funds which have not re-registered as an AIF under the SEBI AIF Regulations shall continue to be regulated by the Securities and Exchange Board of India (Venture Capital Funds) Regulations, 1996 until the existing fund or scheme managed by the fund is wound up and such fund shall not launch any new scheme after the notification of the SEBI AIF Regulations. The Securities and Exchange Board of India (Foreign Venture Capital Investors) Regulations, 2000, as amended (“**SEBI FVCI Regulations**”) prescribe the investment restrictions on FVCIs.

The category I and II AIFs cannot invest more than 25% of the corpus in one Investee Company. A category III AIF cannot invest more than 10% of the corpus in one Investee Company. A venture capital fund registered as a category I AIF, as defined in the SEBI AIF Regulations, cannot invest more than 1/3rd of its corpus by way of subscription to an initial public offering of a venture capital undertaking. Additionally, the VCFs which have not re-registered as an AIF under the SEBI AIF Regulations shall continue to be regulated by the VCF Regulation until the existing fund or scheme managed by the fund is wound up and such funds shall not launch any new scheme after the notification of the SEBI AIF Regulations.

All FIIs and FVCIs should note that refunds, dividends and other distributions, if any, will be payable in Indian Rupees only and net of Bank charges and commission. Our Company or the BRLM will not be responsible for loss, if any, incurred by the Bidder on account of conversion of foreign currency.

There is no reservation for Eligible NRIs, FPIs and FVCIs and all Bidders will be treated on the same basis with other categories for the purpose of allocation.

Participation of AIFs, VCFs and FVCIs was subject to the FEMA Rules.

Further, the shareholding of VCFs, category I AIFs or category II AIFs and FVCIs holding equity shares of a company prior to an initial public offering being undertaken by such company, shall be exempt from lock-in requirements, provided that such equity shares shall be locked in for a period of at least six months from the date of purchase by the venture capital fund or alternative investment fund I and II or foreign venture capital investor.

#### **BIDS BY HUFs**

Bids by Hindu Undivided Families or HUFs, should be made in the individual name of the Karta. The Bidder should specify that the Bid is being made in the name of the HUF in the Bid cum Application Form as follows: “**Name of sole or first Bidder: XYZ**

***Hindu Undivided Family applying through XYZ, where XYZ is the name of the Karta***". Bid cum Bid/Applications by HUFs may be considered at par with Bid cum Applications from individuals.

#### **BIDS BY MUTUAL FUNDS**

With respect to Bids by Mutual Funds, a certified copy of their SEBI registration certificate must be lodged with the Bid cum Application Form. Failing this, our Company reserves the right to accept or reject any Bid cum Application in whole or in part, in either case, without assigning any reason thereof.

The Bids made by the asset management companies or custodians of Mutual Funds shall specifically state the names of the concerned schemes for which the Applications are made.

No Mutual Fund scheme shall invest more than 10% of its net asset value in equity shares or equity related instruments of any single company provided that the limit of 10% shall not be applicable for investments in index funds or sector or industry specific funds. No Mutual Fund under all its schemes should own more than 10% of any company's paid-up share capital carrying voting rights.

In case of a mutual fund, a separate Bid cum Application can be made in respect of each scheme of the mutual fund registered with SEBI and such Applications in respect of more than one scheme of the mutual fund will not be treated as multiple applications provided that the Bids clearly indicate the scheme concerned for which the Bids has been made.

## **TERMS OF PAYMENT**

The entire Issue price of ₹ [●] per share is payable on application. In case of allotment of lesser number of Equity Shares than the number applied, the Registrar shall instruct the SCSBs to unblock the excess amount paid on Application to the Bidders.

SCSBs will transfer the amount as per the instruction of the Registrar to the Public Issue Account, the balance amount after transfer will be unblocked by the SCSBs.

The Bidders should note that the arrangement with Bankers to the Issue or the Registrar is not prescribed by SEBI and has been established as an arrangement between our Company, Banker to the Issue and the Registrar to the Issue to facilitate collections from the Bidders.

## **PAYMENT MECHANISM**

The Bidders shall specify the bank account number in their Bid cum Application Form and the SCSBs shall block an amount equivalent to the Application Amount in the bank account specified in the Bid cum Application Form. The SCSB shall keep the Application Amount in the relevant bank account blocked until rejection of the Application or receipt of instructions from the Registrar to unblock the Application Amount. However, all Bidders shall neither withdraw nor lower the size of their applications at any stage. In the event of rejection of the Bid Cum Application Form or for unsuccessful Bid Cum Application Forms, the Registrar to the Issue shall give instructions to the SCSBs to unblock the application money in the relevant bank account within one day of receipt of such instruction. The Application Amount shall remain blocked in the ASBA Account until finalization of

the Basis of Allotment in the Issue and consequent transfer of the Application Amount to the Public Issue Account, or until withdrawal/ failure of the Issue or until rejection of the Application by the ASBA Bidder, as the case may be.

Please note that, in terms of SEBI Circular No. CIR/CFD/POLICYCELL/11/2015 dated November 10, 2015 and the SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018, all the investors applying in a public Issue shall use only Application Supported by Blocked Amount (ASBA) process for application providing details of the bank account which will be blocked by the Self-Certified Syndicate Banks (SCSBs) for the same. Further, pursuant to SEBI Circular No. SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 01, 2018, Individual Investors applying in public Issue have to use UPI as a payment mechanism with Application Supported by Blocked Amount for making application.

The above information is given for the benefit of the Bidders. Our Company and the members of Syndicate are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of the Red Herring Prospectus. Bidders are advised to make their independent investigations and ensure that Bid from them does not exceed the applicable investment limits or maximum number of the Equity Shares that can be held by them under applicable laws or regulation or as specified in the Red Herring Prospectus and Prospectus.

  - Locations of the Banker to the Issue or Designated Branch, as applicable, and bank code of the SCSB branch where the ASBA Account is maintained; and
  - Bank account number.
8. In case of submission of the Application by a Bidder through the Electronic Mode, the Bidder shall complete the above-mentioned details and mention the bank account number, except the Electronic ASBA Bid Cum Application Form number which shall be system generated.
9. The aforesaid Designated Intermediaries shall, at the time of receipt of application, give an acknowledgment to the investor, by giving the counter foil or specifying the application number to the investor, as a proof of having accepted the Bid cum Application Form in physical as well as electronic mode. The registration of the Application by the Designated Intermediaries does not guarantee that the Equity Shares shall be allocated / allotted either by our Company.
10. Such acknowledgment will be non-negotiable and by itself will not create any obligation of any kind.
11. In case of Non-Individual Bidders and Individual Bidders, applications would not be rejected except on the technical grounds as was mentioned in the Draft Red Herring Prospectus. The Designated Intermediaries shall have no right to reject applications, except on technical grounds.
12. The permission given by the Stock Exchanges to use their network and software of the Online IPO system should not in any way be deemed or construed to mean that the compliance with various statutory and other requirements by our Company and/or the Book Running Lead Manager are cleared or approved by the Stock Exchanges; nor does it in any manner warrant, certify or endorse the correctness or completeness of any of the compliance with the statutory and other requirements nor does it take any responsibility for the financial or other soundness of our company; our Promoter, our management or any scheme or project of our Company; nor does it in any manner warrant, certify or endorse the correctness or completeness of any of the contents of this Draft Red Herring Prospectus, nor does it warrant that the Equity Shares will be listed or will continue to be listed on the Stock Exchanges.
13. The Designated Intermediaries will be given time till 5.00 p.m. on the Bid/Issue Closing Date to verify the DP ID and Client ID uploaded in the online IPO system during the Issue Period, after which the Registrar to the Issue will receive this data from the Stock Exchange and will validate the electronic application details with Depository's records. In case no corresponding record is available with Depositories, which matches the three parameters, namely DP ID, Client ID and PAN, then such applications are liable to be rejected.
14. The SCSBs shall be given one day after the Bid/Issue Closing Date to send confirmation of Funds blocked (Final certificate) to the Registrar to the Issue.

15. The details uploaded in the online IPO system shall be considered as final and Allotment will be based on such details for applications.

#### **BUILD OF THE BOOK**

- a) Bids received from various Bidders through the Designated Intermediaries may be electronically uploaded on the Bidding Platform of the Stock Exchange on a regular basis. The book gets built up at various price levels. This information may be available with the BRLM at the end of the Bid/ Issue Period.
- b) Based on the aggregate demand and price for Bids registered on the Stock Exchange Platform, a graphical representation of consolidated demand and price as available on the websites of the Stock Exchange may be made available at the Bidding centers during the Bid/ Issue Period.

#### **WITHDRAWAL OF BIDS**

QIBs and Non-Institutional Investors are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid, and Individual Investors are not permitted to withdraw their Bids after Bid/ Issue Closing Date.

#### **PRICE DISCOVERY AND ALLOCATION**

1. Based on the demand generated at various price levels, our Company in consultation with the BRLM, shall finalise the Issue Price and the Anchor Investor Issue Price.
2. The SEBI ICDR Regulations, 2018 specify the allocation or Allotment that may be made to various categories of Bidders in an Issue depending on compliance with the eligibility conditions. Certain details pertaining to the percentage of Issue size available for allocation to each category is disclosed overleaf of the Bid cum Application Form and in the RHP. For details in relation to allocation, the Bidder may refer to the RHP.
3. Under-subscription in any category (except QIB Portion ) is allowed to be met with spillover from any other category or combination of categories at the discretion of the Issuer and the in consultation with the BRLM and the Designated Stock Exchange and in accordance with the SEBI ICDR Regulations. Unsubscribed portion in QIB Portion is not available for subscription to other categories.
4. In case of under subscription in the Issue, spill-over to the extent of such under-subscription may be permitted from the Reserved Portion to the Issue. For allocation in the event of an undersubscription applicable to the Issuer, Bidders may refer to the RHP.
5. In case if the Individual Investor category is entitled to more than the allocated portion on proportionate basis, the category shall be allotted that higher percentage.
6. Allocation to Anchor Investors shall be at the discretion of our Company and in consultation with the BRLM, subject to compliance with the SEBI Regulations.

#### **ILLUSTRATION OF THE BOOK BUILDING AND PRICE DISCOVERY PROCESS**

Bidders should note that this example is solely for illustrative purposes and is not specific to the Issue; it also excludes Bidding by Anchor Investors.

Bidders can bid at any price within the Price Band. For instance, assume a Price Band of ₹20 to ₹ 24 per share, Issue size of 3,000 Equity Shares and receipt of five Bids from Bidders, details of which are shown in the table below. The illustrative book given below shows the demand for the Equity Shares of the Issuer at various prices and is collated from Bids received from various investors.

<b>Bid Quantity</b>	<b>Bid Amount (₹)</b>	<b>Cumulative Quantity</b>	<b>Subscription</b>
500	24	500	16.67%
1000	23	1500	50.00%
1500	22	3000	100.00%
2000	21	5000	166.67%
2500	20	7500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the Issuer is able to Issue the desired number of Equity Shares is the price at which the book cuts off, i.e., ₹ 22.00 in the above example. The Issuer, in consultation with the BRLMs, may finalise the Issue Price at or below such Cut-Off Price, i.e., at or below ₹ 22.00. All Bids at or above this Issue Price are valid Bids and are considered for allocation in the respective categories.

The Issuer is required to receive a minimum subscription of 90% of the Issue. However, in case the Issue is in the nature of Offer for Sale only, then minimum subscription may not be applicable.

#### **Flow of Events from the closure of bidding period (T DAY) Till Allotment:**

- On T Day, RTA to validate the electronic bid details with the depository records and also reconcile the final certificates received from the Sponsor Bank for UPI process and the SCSBs for ASBA and Syndicate ASBA process with the electronic bid details.
- RTA identifies cases with mismatch of account number as per bid file / Final Certificate and as per applicant's bank account linked to depository demat account and seek clarification from SCSB to identify the applications with third party account for rejection.
- Third party confirmation of applications to be completed by SCSBs on T+1 day.
- RTA prepares the list of final rejections and circulate the rejections list with BRLM(s)/ Company for their review/ comments.
- Post rejection, the RTA submits the basis of allotment with the Designated Stock Exchange ("DSE").
- DSE, post verification approves the basis and generates drawal of lots wherever applicable, through a random number generation software.
- The RTA uploads the drawal numbers in their system and generates the final list of allottees as per process mentioned below:

#### **Process for generating list of allottees: -**

- Instruction is given by RTA in their Software System to reverse category wise all the application numbers in the ascending order and generate the bucket /batch as per the allotment ratio. For example, if the application number is 78654321 then system reverses it to 12345687 and if the ratio of allottees to applicants in a category is 2:7 then the system will create lots of 7. If the drawal of lots provided by Designated Stock Exchange (DSE) is 3 and 5 then the system will pick every 3rd and 5<sup>th</sup> application in each of the lot of the category and these applications will be allotted the shares in that category.
- In categories where there is proportionate allotment, the Registrar will prepare the proportionate working based on the oversubscription times.
- In categories where there is undersubscription, the Registrar will do full allotment for all valid applications.

On the basis of the above, the RTA will work out the allottees, partial allottees and non- allottees, prepare the fund transfer letters and advice the SCSBs to debit or unblock the respective accounts

#### **BASIS OF ALLOTMENT**

  - Equity Shares remaining unsubscribed, if any, not allocated to Mutual Funds shall be available for Allotment to all QIB Bidders as set out in (b) below;
- b. **In the second instance Allotment to all QIBs shall be determined as follows:**
  - In the event that the oversubscription in the QIB Portion, all QIB Bidders who have submitted Bids above the Issue Price shall be allotted Equity Shares on a proportionate basis, upto a minimum of [●] Equity Shares and in multiples of [●] Equity Shares thereafter for [●] % of the QIB Portion.
  - Mutual Funds, who have received allocation as per (a) above, for less than the number of Equity Shares Bid for by them, are eligible to receive Equity Shares on a proportionate basis, upto a minimum of [●] Equity Shares and in multiples of [●] Equity Shares thereafter, along with other QIB Bidders.
  - Under-subscription below [●] % of the QIB Portion, if any, from Mutual Funds, would be included for allocation to the remaining QIB Bidders on a proportionate basis. The aggregate Allotment to QIB Bidders shall not be more than [●] Equity Shares.

#### **ALLOTMENT TO ANCHOR INVESTOR (IF APPLICABLE)**

- 1) Allocation of Equity Shares to Anchor Investors at the Anchor Investor Allocation Price will be at the discretion of the Issuer, in consultation with the BRLM, subject to compliance with the following requirements:
  - not more than 60% of the QIB Portion will be allocated to Anchor Investors
  - one-third of the Anchor Investor Portion shall be reserved for domestic Mutual Funds, subject to valid Bids being received from domestic Mutual Funds at or above the price at which allocation is being done to other Anchor Investors; and
  - allocation to Anchor Investors shall be on a discretionary basis and subject to:
    - a) a maximum number of two Anchor Investors for allocation up to ₹ 2 crores;
    - b) a minimum number of two Anchor Investors and maximum number of 15 Anchor Investors for allocation of more than ₹ 2 crores and up to ₹ 25 crores subject to minimum allotment of ₹ 1 crores per such Anchor Investor; and
    - c) in case of allocation above twenty-five crore rupees; a minimum of 5 such investors and a maximum of 15 such investors for allocation up to twenty-five crore rupees and an additional 10 such investors for every additional twenty-five crore rupees or part thereof, shall be permitted, subject to a minimum allotment of one crore rupees per such investor.

2) A physical book is prepared by the Registrar on the basis of the Anchor Investor Application Forms received from Anchor Investors. Based on the physical book and at the discretion of the Issuer, in consultation with the BRLM, selected Anchor Investors will be sent a CAN and if required, a revised CAN.

3) In the event that the Issue Price is higher than the Anchor Investor Allocation Price:

Anchor Investors will be sent a revised CAN within one day of the Pricing Date indicating the number of Equity Shares allocated to such Anchor Investor and the pay-in date for payment of the balance amount. Anchor Investors are then required to pay any additional amounts, being the difference between the Issue Price and the Anchor Investor Allocation Price, as indicated in the revised CAN within the pay-in date referred to in the revised CAN. Thereafter, the Allotment Advice will be issued to such Anchor Investors.

4) In the event the Issue Price is lower than the Anchor Investor Allocation Price:

Anchor Investors who have been allotted Equity Shares will directly receive Allotment Advice.

5) Allocation Price:

Anchor Investors who have been Allotted Equity Shares will directly receive Allotment Advice.

#### **BASIS OF ALLOTMENT FOR QIBS (OTHER THAN ANCHOR INVESTORS) AND NIIS IN CASE OF OVER SUBSCRIBED ISSUE**

In the event of the Issue being Over-Subscribed, the Issuer may finalise the Basis of Allotment in consultation with NSE EMERGE (“**The Designated Stock Exchange**”). The allocation may be made in marketable lots on proportionate basis as set forth hereunder:

- The total number of Shares to be allocated to each category as a whole shall be arrived at on a proportionate basis i.e. the total number of Shares applied for in that category multiplied by the inverse of the oversubscription ratio (number of Bidders in the category multiplied by number of Shares applied for). The number of Shares to be allocated to the successful Bidders will be arrived at on a proportionate basis in marketable lots (i.e. Total number of Shares applied for into the inverse of the over subscription ratio).
- For Bids where the proportionate allotment works out to less than [●] equity shares the allotment will be made as follows:
  - Each successful Bidder shall be allotted [●] equity shares, and
  - The successful Bidder out of the total bidders for that category shall be determined by draw of lots in such a manner that the total number of Shares allotted in that category is equal to the number of Shares worked out as per (b) above.
- If the proportionate allotment to a Bidder works out to a number that is not a multiple of [●] equity shares, the Bidder would be allotted Shares by rounding off to the nearest multiple of [●] equity shares subject to a minimum allotment of [●] equity shares.
- If the Shares allotted on a proportionate basis to any category is more than the Shares allotted to the Bidders in that category, the balance available Shares or allocation shall be first adjusted against any category, where the allotted Shares are not sufficient for proportionate allotment to the successful Bidder in that category, the balance Shares, if any, remaining after such adjustment will be added to the category comprising Bidder applying for the minimum number of Shares. If as a result of the process of rounding off to the nearest multiple of [●] Equity Shares, results in the actual allotment being higher than the shares offered, the final allotment may be higher at the sole discretion of the Board of Directors, up to 110% of the size of the Issue specified under the Capital Structure mentioned in the DRHP.

Individual Investor' means an investor who applies for minimum bid size of 2 lots with minimum application size of above Rs 2.00 Lakhs/-. Investors may note that in case of over subscription allotment shall be on proportionate basis and will be finalized in consultation with NSE.

The Executive Director/ Managing Director of NSE EMERGE, the Designated Stock Exchange in addition to Book Running Lead Manager and Registrar to the Public Issue shall be responsible to ensure that the basis of allotment is finalized in a fair and proper manner in accordance with the SEBI (ICDR) Regulations.

#### **MEHTODOLOGY ON ALLOTMENT AND ILLUSTRATION**

##### **Receipt & Validation of Bid data:**

- Bid data is downloaded from the stock exchange(s) via SFTP and same is validated with depositories to check for Invalid demat accounts, Invalid client status and PAN Mismatch records
- Upon completion of the validation, the error records are marked with respective rejection criteria.

### Collection of FCs and Schedule Data

- RTA will follow up with all SCSBs and collect the Final certificate confirming the total amount blocked and no. of applications along with schedule data comprising of detailed application wise details with number of shares applied and amount blocked.
- Reconciliation of bid data vs Bank schedule data will be completed, upon which applications without funds blocked, will be removed from application master.
- Once reconciliation of Final certificate with applications/ bids are completed, the final valid data with funds blocked will be taken for allotment process
- Technical rejection process as per the terms of letter of offer will be carried out thereafter and total valid applications will be identified for preparation of basis of allotment

### Basis of allotment

- Basis of allotment will be prepared category wise, i.e., Market Maker who are applying with value more than ₹ 2 lakhs, Individual Investors who are applying for minimum bid size of 2 lots and minimum application size above Rs 2.00 lakhs and High Networth Individual Investor who are applying with value more than ₹2 lakhs.
- The applications will be tagged as per above categories and considered for basis of allotment in respective category.
- The allocable shares for each category will as be mentioned in the RHP in the proportion of subscription amongst each category,
- Within each basis of allotment, the number of applications are pooled based on lot category and proportionate eligibility of allotment of shares for each category is calculated as per illustration of HNI basis as shown below:

### Allotment Process:

The entire Basis of allotment is based on Reverse Application number so that the lottery system allotment is truly random and there is absolutely no scope of discretion. The basis will be submitted to stock exchange for their approval and draw of lucky numbers for the ratio. The lucky no's are shared by the Exchange as per the ratio arrived for each category. Once the lucky numbers are assigned, the applications forming part of that category will be taken separately and their application numbers will be reversed. For example, if the application no. is 12345678, after reversal it will become 87654321. After reversing the application numbers, they will be arranged in ascending order and will be assigned with numbers starting from 1 according to the ratio. For example, in the first category of 1000 lot, the 30 application numbers will be reversed and arranged in ascending order. They will be assigned numbers from 1 to 3 repeatedly in loop. If the lucky numbers chosen by stock exchange is 1 & 3 for this category, then those applications which were assigned with numbers 1 & 3 will be allottee applications and the applications assigned with number 2 will be non-allottee application. This Process gets repeated for all the categories where allotment needs to be done on lottery basis.

## **RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES**

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and Foreign Exchange Management Act, 1999 ("**FEMA**"). While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The government bodies responsible for granting foreign investment approvals are the Reserve Bank of India ("**RBI**") and Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India ("**DIPP**").

The Government of India has from time to time made policy pronouncements on FDI through press notes and press releases. The DPIIT issued the Consolidated Foreign Direct Investment Policy notified by the DPIIT File No. 5(2)/2020-FDI Policy dated October 15, 2020, with effect from October 15, 2020 (the "**FDI Policy**"), which consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT or the DPIIT that were in force and effect prior to October 15, 2020. The Government of India proposes to update the consolidated circular on FDI Policy once every year and therefore, the FDI Policy will be valid until the DPIIT issues an updated circular.

In terms of the FEMA NDI Rules, a person resident outside India may make investments into India, subject to certain terms and conditions, and provided that an entity of a country, which shares land border with India or the beneficial owner of an investment into India who is situated in or is a citizen of any such country, shall invest only with government approval.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the RBI, provided that (i) the activities of the investee company are under the automatic route under the foreign direct investment policy and transfer does not attract the provisions of the Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the FDI policy; and (iii) the pricing is in accordance with the guidelines prescribed by the SEBI / RBI.

Further, in accordance with Press Note No. 3 (2020 Series), dated April 17, 2020 issued by the DPIIT and the Foreign Exchange Management (Non-debt Instruments) Amendment Rules, 2020 which came into effect from April 22, 2020, any investment, subscription, purchase or sale of equity instruments by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country ("**Restricted Investors**"), will require prior approval of the Government, as prescribed in the Consolidated FDI Policy and the FEMA Rules. Further, in the event of transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction/ purview, such subsequent change in the beneficial ownership will also require approval of the Government. Furthermore, on April 22, 2020, the Ministry of Finance, Government of India has also made a similar amendment to the FEMA Rules. Pursuant to the Foreign Exchange Management (Non-debt Instruments) (Fourth Amendment) Rules, 2020, a multilateral bank or fund, of which India is a member, shall not be treated as an entity of a particular country nor shall any country be treated as the beneficial owner of the investments of such bank or fund in India. Each Bidder should seek independent legal advice about its ability to participate in the Issue. In the event such prior approval of the Government of India is required, and such approval has been obtained, the Bidder shall intimate our Company and the Registrar to the Issue in writing about such approval along with a copy thereof within the Issue Period.

As per the existing policy of the Government of India, OCBs cannot participate in this Issue and in accordance with the extant FDI guidelines on sectoral caps, pricing guidelines etc. as amended by Reserve bank of India, from time to time. Investors are advised to confirm their eligibility under the relevant laws before investing and / or subsequent purchase or sale transaction in the Equity Shares of our Company. Investors will not Issue, sell, pledge or transfer the Equity Shares of our Company to any person who is not eligible under applicable laws, rules, regulations, guidelines. Our Company, the Underwriters and their respective directors, officers, agents, affiliates and representatives, as applicable, accept no responsibility or liability for advising any investor on whether such investor is eligible to acquire Equity Shares of our Company.

### **Investment conditions/restrictions for overseas entities**

Under the current FDI Policy 2020, the maximum amount of Investment (sectoral cap) by foreign investor in an issuing entity is composite unless it is explicitly provided otherwise including all types of foreign investments, direct and indirect, regardless of whether it has been made for FDI, FPI, NRI/OCI, LLPs, FVCI, Investment Vehicles and DRs under Foreign Exchange Management. (Non-debt Instruments) Rules, 2019. Any equity holding by a person resident outside India resulting from conversion of any debt instrument under any arrangement shall be reckoned as foreign investment under the composite cap.

Portfolio Investment upto aggregate foreign investment level of 49% or sectoral/statutory cap, whichever is lower, will not be subject to either Government approval or compliance of sectoral conditions, if such investment does not result in transfer of ownership and/or control of Indian entities from resident Indian citizens to non-resident entities. Other foreign investments will be subject to conditions of Government approval and compliance of sectoral conditions as per FDI Policy. The total foreign investment, direct and indirect, in the issuing entity will not exceed the sectoral/statutory cap.

### **Investment by FPIs under Portfolio Investment Scheme (PIS)**

With regards to purchase/sale of capital instruments of an Indian company by an FPI under PIS the total holding by each FPI or an investor group as referred in SEBI (FPI) Regulations, 2014 shall not exceed 10% of the total paid-up equity capital on a fully

diluted basis or less than 10% of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all FPIs put together shall not exceed 24% of paid-up equity capital on fully diluted basis or paidup value of each series of debentures or preference shares or share warrants. The said limit of 10% and 24% will be called the individual and aggregate limit, respectively. However, this limit of 24 % may be increased up to sectoral cap/statutory ceiling, as applicable, by the Indian company concerned by passing a resolution by its Board of Directors followed by passing of a special resolution to that effect by its general body.

#### **Investment by NRI or OCI on repatriation basis:**

The purchase/sale of equity shares, debentures, preference shares and share warrants issued by an Indian company (hereinafter referred to as "**Capital Instruments**") of a listed Indian company on a recognised stock exchange in India by Non-Resident Indian (NRI) or Overseas Citizen of India (OCI) on repatriation basis is allowed subject to certain conditions under Foreign Exchange Management (Non-debt Instruments) Rules, 2019.

The total holding by any individual NRI or OCI shall not exceed 5% of the total paid-up equity capital on a fully diluted basis or should not exceed 5% of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all NRIs and OCIs put together shall not exceed 10% of the total paid-up equity capital on a fully diluted basis or shall not exceed 10% of the paid-up value of each series of debentures or preference shares or share warrants; provided that the aggregate ceiling of 10% may be raised to 24% if a special resolution to that effect is passed by the general body of the Indian company.

#### **Investment by NRI or OCI on non-repatriation basis**

As per current FDI Policy 2020, Foreign Exchange Management (Non-debt Instruments) Rules, 2019, Purchase/ sale of Capital Instruments or convertible notes or units or contribution to the capital of an LLP by a NRI or OCI on non- repatriation basis – will be deemed to be domestic investment at par with the investment made by residents. This is further subject to remittance channel restrictions.

The Equity Shares have not been and will not be registered under the U.S. Securities Act of 1933, as amended ("**US Securities Act**") or any other state securities laws in the United States of America and may not be sold or offered within the United States of America, or to, or for the account or benefit of "**US Persons**" as defined in Regulation(s) of the U.S. Securities Act, except pursuant to exemption from, or in a transaction not subject to, the registration requirements of US Securities Act and applicable state securities laws.

Accordingly, the equity shares are being offered and sold only outside the United States of America in an offshore transaction in reliance upon Regulation S under the US Securities Act and the applicable laws of the jurisdiction where those offers and sale occur.

Further, no issue to the public (as defined under Directive 20003/71/EC, together with any amendments) and implementing measures thereto, (the "**Draft Red Herring Prospectus Directive**") has been or will be made in respect of the issue in any member State of the European Economic Area which has implemented the Draft Red Herring Prospectus Directive except for any such issue made under exemptions available under the Draft Red Herring Prospectus Directive, provided that no such Issue shall result in a requirement to publish or supplement a Draft Red Herring Prospectus pursuant to the Draft Red Herring Prospectus Directive, in respect of the Issue.

Any forwarding, distribution or reproduction of this document in whole or in part may be unauthorised. Failure to comply with this directive may result in a violation of the Securities Act or the applicable laws of other jurisdictions. Any investment decision should be made on the basis of the final terms and conditions and the information contained in this Draft Red Herring Prospectus.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and Application may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

The above information is given for the benefit of the Applicants. And such lien shall extend to all dividends and bonuses from time to time declared in respect of such shares/debentures. Unless otherwise agreed the registration of a transfer of shares/debentures shall operate as a waiver of the Company's lien if any, on such shares/debentures. The Directors may at any time declare any shares/debentures wholly or in part to be exempt from the provisions of this clause.</p> <p>Provided that the fully paid shares shall be free from all lien, while in the case of partly paid shares, the company's lien, if any, shall be restricted to moneys called or payable at a fixed time in respect of such shares.</p>	<b>Company to have Lien on shares.</b>
46.	For the purpose of enforcing such lien the Directors may sell the shares subject thereto in such manner as they shall think fit, but no sale shall be made until such period as aforesaid shall have arrived and until notice in writing of the intention to sell shall have been served on such member or the person(if any)entitled by transmission to the shares and default shall have been made by him in payment, fulfillment of discharge of such debts, liabilities or engagements for seven days after such notice. To give effect to any such sale the Board may authorize some person to transfer the shares sold to the purchaser thereof and purchaser shall be registered as the holder of the shares comprised in any such transfer. Upon any such sale as the Certificates in respect of the shares sold shall stand cancelled and become null and void and of no effect, and the Directors shall be entitled to issue a new Certificate or Certificates in lieu thereof to the purchaser or purchasers concerned.	<b>As to enforcing lien by sale.</b>
47.	The net proceeds of any such sale shall be received by the Company and applied in or towards payment of such part of the amount in respect of which the lien exists as is presently payable and the residue, if any, shall (subject to lien for sums not presently payable as existed upon the shares before the sale) be paid to the person entitled to the shares at the date of the sale.	<b>Application of proceeds of sale.</b>

<b>FORFEITURE AND SURRENDER OF SHARES</b>		
<b>48.</b>	If any Member fails to pay the whole or any part of any call or installment or any moneys due in respect of any shares either by way of principal or interest on or before the day appointed for the payment of the same, the Directors may, at any time thereafter, during such time as the call or installment or any part thereof or other moneys as aforesaid remains unpaid or adjudgment or decree in respect thereof remains unsatisfied in whole or in part, serve a notice on such Member or on the person (if any) entitled to the shares by transmission, requiring him to pay such call or installment of such part thereof or other moneys as remain unpaid together with any interest that may have accrued and all reasonable expenses (legal or otherwise) that may have been accrued by the Company by reason of such non-payment. Provided that no such shares shall be forfeited if any moneys shall remain unpaid in respect of any call or installment or any part thereof as aforesaid by reason of the delay occasioned in payment due to the necessity of complying with the provisions contained in the relevant exchange control laws or other applicable laws of India, for the time being in force.	<b>If call or installment not paid, notice may be given.</b>
<b>49.</b>	The notice shall name a day (not being less than fourteen days from the date of notice) and a place or places on and at which such call or installment and such interest thereon as the Directors shall determine from the day on which such call or installment ought to have been paid and expenses as aforesaid are to be paid.
