This Issue is being made through the Book Building Process, in terms of Rule 19(2)(b) of the Securities Contracts (Regulation) Rules, 1957, as amended (the “SCRR”) read with Regulation 229 of the SEBI ICDR Regulations and in compliance with Regulation 253 (1) and 253 (2) of the SEBI ICDR Regulations 2018, wherein not more than 50.00% of the Net Issue shall be available for allocation on a proportionate basis to Qualified Institutional Buyers (“QIBs”) (the “QIB Portion”), provided that our Company in consultation with the BRLMs may allocate up to 60.00% of the QIB Portion to Anchor Investors on a discretionary basis (“Anchor Investor Portion”). One-third of the Anchor Investor Portion shall be reserved for domestic Mutual Funds, subject to valid Bids being received from the domestic Mutual Funds at or above the Anchor Investor Allocation Price in accordance with the SEBI ICDR Regulations. However, with effect from December 01, 2025, pursuant to the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) (Third Amendment) Regulations, 2025, of which, up to 40% of the Anchor Investor Portion shall be reserved in the following manner: (i) 33.33% shall be available for allocation to domestic Mutual Funds and (ii) 6.67% shall be available for allocation to life insurance companies and pension funds, subject to valid Bids being received from domestic Mutual Funds, life insurance companies, and pension funds at or above the Anchor Investor Allocation Price. In the event of under-subscription under (ii) above, the allocation may be made to domestic Mutual Funds. In the event of under-subscription or non-allocation in the Anchor Investor Portion, the balance Equity Shares shall be added to the remaining QIB Portion (other than the Anchor Investor Portion) (“Net QIB Portion”). Further, 5.00% of the Net QIB Portion shall be available for allocation on a proportionate basis to Mutual Funds only, and the remainder of the Net QIB Portion shall be available for allocation on a proportionate basis to all QIB Bidders, other than Anchor Investors, including Mutual Funds, subject to valid Bids being received at or above the Issue Price. However, if the aggregate demand from Mutual Funds is less than 5.00% of the Net QIB Portion, the balance Equity Shares available for allocation in the Mutual Fund Portion will be added to the remaining Net QIB Portion for proportionate allocation to QIBs. Further, the SEBI ICDR Regulations 2018, states that not less than 35% of the Net Issue shall be available for allocation to Individual Investors who applies for minimum application size. Not less than 15% of the Net Issue shall be available for allocation to Non-Institutional Investors of which one-third of the Non-Institutional Portion will be available for allocation to Bidders with an application size of more than two lots and up to such lots as equivalent to not more than ₹ 10.00 Lakhs and two-thirds of the Non-Institutional Portion will be available for allocation to Bidders with an application size of more than ₹ 10.00 Lakhs and under-subscription in either of these two sub-categories of Non-Institutional Portion may be allocated to Bidders in the other sub-category of Non-Institutional Portion. Subject to the availability of shares in non-institutional investors’ category, the allotment to each Non-Institutional Investors shall not be less than the minimum application size in Non-Institutional Category and the remaining available Equity Shares, if any, shall be allocated on a proportionate basis in accordance with the conditions specified in this regard in Schedule XIII of the SEBI (ICDR) Regulations, 2018. All Potential Bidders, other than Anchor Investors, are required to participate in the Issue by mandatorily utilising the Application Supported by Blocked Amount (“ASBA”) process by providing details of their respective ASBA Account (as defined hereinafter) in which the corresponding Bid Amounts will be blocked by the Self-Certified Syndicate Banks (“SCSBs”) or under the UPI Mechanism, as the case may be, to the extent of respective Bid Amounts. Anchor Investors are not permitted to participate in the Issue through the ASBA process. PRESENTATION OF FINANCIAL INDUSTRY AND MARKET DATA

CERTAIN CONVENTIONS

All references to “India” contained in this Draft Red Herring Prospectus are to the Republic of India and its territories and possessions and all references herein to the “Government”, “Indian Government”, “GoI”, “Central Government” or the “State Government” are to the Government of India, central or state, as applicable. All references to the “U.S.”, “US”, “U.S.A” or “United States” are to the United States of America and its territories and possessions.

Unless otherwise specified, any time mentioned in this Draft Red Herring Prospectus is in Indian Standard Time (“IST”). Unless indicated otherwise, all references to a ‘year’ in this Draft Red Herring Prospectus are to a calendar year.

Unless stated otherwise, all references to page numbers in this Draft Red Herring Prospectus are to the page numbers of this Draft Red Herring Prospectus.

FINANCIAL DATA

Unless stated otherwise, the financial statements in this Draft Red Herring Prospectus are derived from our Restated Financial Statements for the period ended on September 30, 2025 and for the financial years ended on March 31, 2025, 2024, 2023. The Restated Financial Statements comprises of the restated statement of assets and liabilities, the restated statement of profit and loss and the restated statement of cash flows for the period ended on September 30, 2025 and for the financial years ended March 31, 2025, March 31, 2024 and March 31, 2023 and the summary of significant accounting policies and explanatory notes, prepared in terms of the requirements of Section 26 of Part I of Chapter III of the Companies Act, 2013, as amended; the SEBI ICDR Regulations, as amended and the Guidance Note on Reports in Company Prospectuses (Revised 2019) issued by the ICAI, as amended from time to time. For further information, see please refer section titled “*Restated Financial Statements*” beginning on page 236236.

In this Draft Red Herring Prospectus, any discrepancies in any table between the total and the sums of the amounts listed are due to rounding off. All figures in decimals have been rounded off to the second decimal and all percentage figures have been rounded off to two decimal places.

Our Company’s financial year commences on April 1 and ends on March 31 of the next year. Accordingly, all references in this Draft Red Herring Prospectus to a particular FY, Financial Year, Fiscal or Fiscal Year, unless stated otherwise, are to the 12-month period ended on March 31 of that particular calendar year.

There are significant differences between Indian GAAP, Generally Accepted Accounting Principles in the United States of America (the “**U.S. GAAP**”) and IFRS. Our Company does not provide reconciliation of its financial information to IFRS or U.S. GAAP. Our Company has not attempted to explain those differences or quantify their impact on the financial data included in this Draft Red Herring Prospectus and it is urged that you consult your own advisors regarding such differences and their impact on our financial data. Accordingly, the degree to which the financial information included in this Draft Red Herring Prospectus will provide meaningful information is entirely dependent on the reader’s level of familiarity with Indian accounting policies and practices, the Companies Act, IGAAP and the SEBI ICDR Regulations. Any reliance by persons not familiar with Indian accounting policies and practices on the financial disclosures presented in this Draft Red Herring Prospectus should, accordingly, be limited. For risks relating to significant differences between Indian GAAP and other accounting principles, see “*Risk Factor– Significant differences exist between Indian GAAP and other accounting principles, such as US GAAP and IFRS, which may be material to investors assessments of Our Company's financial condition. Our failure to successfully adopt IFRS may have an adverse effect on the price of our Equity Shares. The proposed adoption of IFRS could result in our financial condition and results of operations appearing materially different than under Indian GAAP.*” on page 55.

Unless the context otherwise indicates, any percentage amounts, as set forth in “*Risk Factors*”, “*Our Business*” and “*Management’s Discussion and Analysis of Financial Condition and Results of Operations*” beginning on page 25, 160 and 298 respectively, of this Draft Red Herring Prospectus, and elsewhere in this Draft Red Herring Prospectus have been calculated on the basis of the “*Restated Financial Information*” of our Company as beginning on page 236 of this Draft Red Herring Prospectus.

CURRENCY AND UNITS OF PRESENTATION

All references to “Rupees”, “Rs.” or “₹” are to Indian Rupees, the official currency of the Republic of India. All references to “US\$” or “US Dollars” or “USD” are to United States Dollars, the official currency of the United States of America.

All references to the word “Lakh” or “Lac”, means “One hundred thousand” and the word “Million” means “Ten Lakhs” and the word “Crore” means “Ten Million” and the word “Billion” means “One thousand Million”.

In this Draft Red Herring Prospectus, any discrepancies in any table between the total and the sums of the amounts listed are due to rounding off. All figures derived from our Restated Financial Information in decimals have been rounded off to the second decimal and all percentage figures have been rounded off to two decimal places.

This Draft Red Herring Prospectus may contain conversions of certain US Dollar and other currency amounts into Indian Rupees that have been presented solely to comply with the requirements of the SEBI ICDR Regulations. These conversions should not be construed as a representation that those US Dollar or other currency amounts could have been, or can be converted into Indian Rupees, at any particular rate.

INDUSTRY AND MARKET DATA

Unless stated otherwise, industry data used throughout this Draft Red Herring Prospectus has been obtained or derived from industry and government publications, publicly available information and sources.

Industry publications generally state that the information contained in those publications has been obtained from sources believed to be reliable but that their accuracy and completeness are not guaranteed and their reliability cannot be assured and has not been independently verified by the Company, Book Running Lead Manager or any of their affiliates or advisors. Data from these sources may also not be comparable. Industry sources and publications are also prepared based on information as of specific dates and may no longer be current or reflect current trends. Industry sources and publications may also base their information on estimates and assumptions that may prove to be incorrect. Such data involves risks, uncertainties and numerous assumptions and is subject to change based on various factors, including those discussed in “*Risk Factors*” beginning on pages 25 Accordingly, investment decisions should not be based solely on such information.

Further, the extent to which the industry and market data presented in this Draft Red Herring Prospectus is meaningful depends on the reader's familiarity with and understanding of, the methodologies used in compiling such data. There are no standard data gathering methodologies in the industry in which we conduct our business, and methodologies and assumptions may vary widely among different industry sources.

EXCHANGE RATES

This Draft Red Herring Prospectus contains conversions of certain other currency amounts into Rupees that have been presented solely to comply with the requirements of SEBI ICDR Regulations. Such conversion should not be considered as a representation that such currency amounts have been, could have been or can be converted into Rupees at any particular rate or at all.

The following table sets forth, for the periods indicated, information with respect to the exchange rate between the Indian Rupee and other foreign currencies:

Currency	Exchange Rate as on September 30, 2025	Exchange Rate as at March 31, 2025	Exchange Rate as on March 31, 2024	Exchange Rate as on March 31, 2023
1 USD	88.79	85.58	83.37	82.22
1 EURO	104.22	92.32	90.22	89.61

Note: If the reference rate is not available on a particular date due to a public holiday, exchange rates of the previous Working Day has been disclosed. The reference rates are rounded off to two decimal places.

FORWARD LOOKING STATEMENTS

All statements contained in this Draft Red Herring Prospectus that are not statements of historical fact constitute forward-looking statements. All statements regarding our expected financial condition and results of operations, business, plans and prospects are forward-looking statements. These forward-looking statements include statements with respect to our business strategy, our revenue and profitability, our projects and other matters discussed in this Draft Red Herring Prospectus regarding matters that are not historical facts. Investors can generally identify forward-looking statements by the use of terminology such as “aim”, “anticipate”, “believe”, “expect”, “estimate”, “intend”, “objective”, “plan”, “project”, “may”, “will”, “will continue”, “will pursue”, “contemplate”, “future”, “goal”, “propose”, “will likely result”, “will seek to” or other words or phrases of similar import. However, these are not the exhaustive means of identifying forward looking statements. All forward-looking statements are based on our Company’s current plans, estimates, presumptions and expectations and are subject to risks, uncertainties and assumptions about us that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement. All forward-looking statements (whether made by us or any third party) are predictions and are subject to risks, uncertainties and assumptions about us that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement. Important factors that could cause actual results to differ materially from our expectations include but are not limited to the following:

- Inability to anticipate and respond to changes in the industry trends.
- Failure to successfully upgrade our product portfolio, from time to time;
- Our inability to maintain or enhance our brand recognition;
- Our dependence on a limited number of suppliers for our raw materials;
- Our inability to maintain or enhance our brand recognition;
- Our dependence on a limited number of customers for a significant portion of our revenues;
- Changes in laws and regulations relating to the sectors/areas in which we operate;
- Increases in the prices of raw materials required for our operations;
- Our ability to successfully implement our growth strategy and expansion plans;
- Our failure to keep pace with rapid changes in technology;
- Our ability to meet our further capital expenditure requirements;
- Our operations are subject to high working capital requirements;
- Our ability to attract and retain qualified personnel;
- Conflict of interest with Promoters, the promoter group and other related parties;
- Changes in political and social conditions in India, the monetary and interest rate policies of India and other countries;
- Volatility of loan interest rates and inflation;
- General economic and business conditions in the markets in which we operate and in the local, regional, national and international economies;
- Changes in government policies and regulatory actions that apply to or affect our business;

For further discussions of factors that could cause our actual results to differ, please refer the section titled “*Risk Factors*” and chapter titled “*Our Business*” and “*Management’s Discussion and Analysis of Financial Condition and Results of Operations*” beginning on page 25, 160 and 298 of this Draft Red Herring Prospectus, respectively. By their nature, certain market risk disclosures are only estimating and could be materially different from what actually occurs in the future. As a result, actual gains or losses could materially differ from those that have been estimated.

There can be no assurance to Applicants that the expectations reflected in these forward-looking statements will prove to be correct. Given these uncertainties, Applicants are cautioned not to place undue reliance on such forward-looking statements and not to regard such statements to be a guarantee of our future performance.

Forward-looking statements reflect the current views as of the date of this Draft Red Herring Prospectus and are not a guarantee of future performance. We cannot assure investors that the expectations reflected in these forward-looking statements will prove to be correct. Given these uncertainties, investors are cautioned not to place undue reliance on such forward-looking statements and not to regard such statements as a guarantee of future performance. These statements are based on the management’s beliefs and assumptions, which in turn are based on currently available information. Although our Company believes the assumptions upon which these forward-looking statements are based are reasonable, any of these assumptions could prove to be inaccurate, and the forward-looking statements based on these assumptions could be incorrect. None of our Company, the Directors, the Book Running Lead Manager, or any of their respective affiliates have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition. Our Company and the Directors will ensure that investors in India are informed of material developments until the time of the grant of listing and trading permission by the Stock Exchange.

SECTION II - RISK FACTORS

An investment in Equity Shares involves a high degree of financial risk. Investors should carefully consider all information in this Draft Red Herring Prospectus, including the risks described below, before making an investment in our Equity Shares. If any of the following risks, or other risks that are not currently known or are now deemed immaterial, actually occur, our business, results of operations, cash flows and financial condition could suffer, the price of the Equity Shares could decline, and you may lose all or part of your investment. In making an investment decision, prospective investors must rely on their own examination of us and the terms of the Issue including the merits and risks involved. Investors should consult their tax, financial and legal advisors about particular consequences to them of an investment in the Issue. The risk factors set forth below do not purport to be complete or comprehensive in terms of all the risk factors that may arise in connection with our business or any decision to purchase, own or dispose of the Equity Shares. This section addresses general risks associated with the industry in which we operate and specific risks associated with our Company. However, there are certain risk factors where the financial impact is not quantifiable and, therefore, such financial impact cannot be disclosed in such risk factors. Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify the financial or other implications of any of the risks described in this section. Any of the following risks, as well as the other risks and uncertainties discussed in this Draft Red Herring Prospectus, could have a material adverse effect on our business and could cause the trading price of our Equity Shares to decline and you may lose all or part of your investment.

This Draft Red Herring Prospectus also contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the considerations described below and elsewhere in this Draft Red Herring Prospectus. See chapter titled “Forward Looking Statements” beginning on page 24 of this Draft Red Herring Prospectus.

To obtain a better understanding of our business, you should read this chapter in conjunction with other chapters of this Draft Red Herring Prospectus, including the chapters titled “Our Business”, “Management’s Discussion and Analysis of Financial Condition and Results of Operations”, “Industry Overview” and “Restated Financial Statements” on page 160, 298, 133 and 236 respectively of this Draft Red Herring Prospectus, together with all other Restated Financial Statements contained in this Draft Red Herring Prospectus.

Unless otherwise indicated, the financial information included herein is based on our Restated Financial Statements for the period ended on September 30, 2025 and for the Financial Years ended on March 31, 2025, 2024 and 2023 included in this Draft Red Herring Prospectus. For further information, see “Restated Financial Statements” beginning on page 236 of this Draft Red Herring Prospectus.

MATERIALITY

The Risk factors have been determined on the basis of their materiality. The following factors have been considered for determining the materiality.

- Some events may have material impact quantitatively;
- Some events may have material impact qualitatively instead of quantitatively.
- Some events may not be material individually but may be found material collectively.
- Some events may not be material at present but may be having material impact in future.

INTERNAL RISKS

1. ***A significant portion of our domestic revenue is derived from customers located in Gujarat, Maharashtra and Uttar Pradesh which accounted for 69.00%, 59.22%%, 78.70%% and 88.73% of our revenue from operations for the period ended on September 30, 2025 and for the financial years ended March 31, 2025, 2024 and 2023, respectively. Any adverse developments in these regions may materially and adversely affect our business, financial condition, results of operations and cash flows.***

A significant portion of our revenue is derived from domestic markets, particularly from the States of Gujarat, Maharashtra and Uttar Pradesh, although we also generate a portion of our revenues from international markets. Our domestic revenues continue to constitute a dominant share of our total revenue and are geographically concentrated in these regions. The following table sets forth our revenue from domestic and international markets for the years indicated, which are also expressed as a percentage of our total revenue from operations:

(₹ in Lakhs, except percentages)

Particulars	For the period ended on September 30, 2025		FY 2024-25		FY 2023-24		FY 2022-23

As certified by our Auditor vide their certificate dated March 30, 2026.

The demand for our products, including forged and machined components such as gears, hydraulic components and parts used in construction machinery and other industrial applications, is primarily driven by the performance and capital expenditure cycles of industries operating in these regions. Such demand is influenced by various factors, including industrial growth, infrastructure development, government spending, commodity prices, availability of financing, and overall economic conditions prevailing in these regions. Any adverse changes in regional economic conditions, slowdown in industrial activity, reduction in capital expenditure by OEMs and other customers, or shifts in industry demand in these regions may lead to a decline in demand for our products.

Further, our geographic concentration increases our exposure to region-specific risks, which could materially and adversely affect our revenues, cash flows and overall financial performance. The details of our revenue from operations which are also expressed as a percentage of our total revenue from operations from these major revenue-contributing regions for the period ended on September 30, 2025 and for the financial years ended March 31, 2025, 2024 and 2023, respectively are as follows:

(₹ in Lakhs, except percentages)

Particulars	For the period ended on September 30, 2025		FY 2024-25		FY 2023-24		FY 2022-23	
	Amount	%	Amount	%	Amount	%	Amount	%

Total	2,911.78	69.00%	4,404.32	59.22%	4,001.94	78.70%	4,157.94	88.73%

As certified by our Auditor vide their certificate dated March 30, 2026.

These regions also represent highly competitive markets for our products, with the presence of several established and regional players operating in same industry and manufacturing similar products. Competitive pressures may intensify due to aggressive pricing, design specifications, availability of low-priced alternatives. Such competition may also adversely affect our ability to maintain pricing, volumes and margins in these markets.

Further, our ability to generate and sustain demand in these regions is dependent on our capability to consistently manufacture and supply products in accordance with customer specifications and stringent quality requirements. Any failure to meet such specifications, quality standards or delivery timelines may result in loss of orders, customer dissatisfaction or reduced repeat business.

Any regional disruption affecting logistics, transportation, distribution channels or customer operations may result in delayed deliveries, order cancellations or reduced repeat business. Additionally, dependence on these markets exposes us to region-specific risks such as economic downturns, changes in demand, localised regulatory requirements, political or trade-related restrictions, logistical challenges and adverse weather or natural events. Although we have not faced any material adverse developments in such markets during the period ended on September 30, 2025 and for the financial years ended March 31 2025, 2024 and 2023, respectively, there can be no assurance that such risks will not materialize in the future. Any such developments could adversely impact customer purchasing behaviour or disrupt sales and distribution in these regions which could have an adverse impact on our operations and cash flows. Further, any inability to effectively scale our sales in other regions could restrict our growth prospects and reduce our ability to mitigate risks arising from such concentration. Any such developments could adversely affect our revenue, profitability, cash flows and overall financial condition.

- We depend on a limited number of suppliers for our raw materials and the absence of long-term contractual arrangements with such suppliers exposes us to supply, quality and pricing risks that could adversely affect our business and financial performance.***

The primary raw materials required by our Company for its manufacturing operations include metals such as steel (including carbon steel, alloy steel and stainless steel) and other metals such as aluminium, brass and copper alloys, these metals are procured in the form of ingots, billets and bars from our suppliers. A substantial portion of our purchases is concentrated among a limited supplier. A significant reliance on a limited number of suppliers increases our exposure to risks including supply interruptions, insolvency, changes in pricing, logistical challenges, regulatory or trade restrictions, and the inability to establish alternative supply arrangements in a timely and cost-effective manner. Any such disruption could adversely impact our production schedules, operational efficiency, costs and margins. Our operations require the timely and consistent availability of raw materials. A substantial portion of our purchases is concentrated among a limited number of suppliers. Following are the details of the top Supplier, Top 5 Suppliers and 10 suppliers of our Company for the period ended on September 30, 2025 and financial year ended on March 31, 2025, 2024 and 2023, respectively:

(₹ in Lakhs, except percentages)

Particulars	September 30, 2025		FY 2024-25		FY 2023-24		FY 2022-23	
	Purchases	% of total Purchases	Purchases	% of total Purchases	Purchases	% of total Purchases	Purchases	% of total Purchases
Top Supplier ¹	780.58	28.19%	1,304.70	29.40%	752.18	21.69%	864.37	25.64%
Top Suppliers ⁵	1,503.26	54.29%	2,452.92	55.28%	2,045.62	58.99%	2,301.51	68.26%

We do not have long-term or exclusive contractual arrangements with our suppliers. As a result, our suppliers may not be obligated to prioritise our orders, maintain continuity of supply, adhere to fixed pricing or refrain from supplying similar products or components to our competitors. Any reduction in supplies from one or more of our key suppliers due to capacity constraints, changes in commercial terms, regulatory or trade restrictions, logistical disruptions or other factors could result in delays or interruptions in production, increased procurement costs, adverse impacts on margins or an inability to meet customer demand in a timely manner. We are also dependent on our suppliers for the quality raw materials as per customer specifications. Any failure by suppliers to meet required specifications or delivery schedules could disrupt our business processes, result in rejections, rework or increased inspection costs, adversely affect the quality of our products and may expose us to reputational risk, customer complaints or loss of business.

In addition, our procurement of our raw materials is geographically concentrated within India, with a substantial majority of our purchases sourced from suppliers located in the state of Gujarat Maharashtra and Chhattisgarh, and the balance sourced from a limited number of suppliers located in other states. This geographic concentration exposes us to risks arising from state-specific or region-specific disruptions, including natural calamities, localised lockdowns or shutdowns, labour availability issues, transportation and logistics bottlenecks, changes in state-level regulations, or other force majeure events. Any such disruption affecting one or more of these regions, particularly Gujarat Maharashtra and Chhattisgarh, could interrupt the supply of key raw materials, increase procurement and logistics costs, delay production schedules and adversely affect our operations, margins and timelines. Following is the state-wise purchase bifurcation for the period ended on September 30, 2025 and for the financial years ended March 31, 2025, March 31, 2024 and March 31, 2023:

* This is reversal of previous year.

As certified by our Auditor vide their certificate dated March 30, 2026.

Although we have not experienced any material adverse supply disruptions or significant quality failures during the period ended on September 30, 2025 or during the financial year ended on March 31, 2025, 2024 and 2023, there can be no assurance that such events will not occur in the future. Our ability to maintain stable relationships with existing suppliers, diversify our supplier base, ensure uninterrupted availability of raw materials of consistent quality, and identify and onboard alternative suppliers on commercially reasonable terms will be critical to our operations. Any failure in this regard could materially and adversely affect our business, results of operations, cash flows and financial condition.

3. We depend on a limited number of key customers for a substantial portion of our revenue and the absence of long-term contractual arrangements with such customers exposes us to customer concentration, demand volatility and credit risks that could adversely affect our business and financial performance.

A significant portion of our revenue is derived from a limited number of key customers. We primarily serve domestic and global original equipment manufacturers (“OEMs”) across automotive and non-automotive industries. The following table sets forth our revenue from top customer, top 5 customer, and top 10 customers for the period ended on September 30, 2025 and for the financial years ended March 31, 2025, March 31, 2024 and March 31, 2023, respectively:

(₹ in Lakhs, except percentages)

Particulars	For the period ended on September 30, 2025		FY 2024-25		FY 2023-24		FY 2022-23	
	Revenue	% of revenue from operations	Revenue	% of revenue from operations	Revenue	% of revenue from operations	Revenue	% of revenue from operations

As certified by our Auditor vide their certificate dated March 30, 2026.

Such major revenue from limited customer exposes us to customer concentration risk and the loss of one or more such customers or a material reduction in business from them, could have an adverse impact on our revenues, profitability and cash flows. These customers typically place orders based on specific design preferences, pricing expectations, quality requirements, delivery timelines, product consistency and reliability of supply. Any inability to meet these expectations on a consistent basis may adversely affect our relationships with such customers.

We typically rely on purchase orders issued by our customers from time to time that set out the price per unit of the products that are to be supplied to/ purchased by them from us. Pursuant to the purchase order, our customers provide us the quantities of units to be supplied along with the delivery schedules specifying the details of delivery. Our sales to these customers are transactional and purchase order-based and we do not have long-term agreements or assured repeat business arrangements. As a result, our customers may reduce or discontinue purchases from us at short notice due to changes in their procurement strategies, inventory policies, budget constraints or business priorities, without contractual limitation. Our key customers may replace our products with those of competing suppliers for several reasons, including:

- availability of products on more favorable commercial terms;
- faster turnaround times or more flexible delivery schedules;
- better products in terms of quality requirements;
- ability of competitors to offer similar or alternative options;
- higher incentives, credit terms or support offered by other suppliers; or
- switch to in-house or imported alternatives.

We may also experience pricing pressure from our customers which may adversely affect our gross margin, profitability and ability to increase our prices, which may in turn have a material adverse effect on our results of operations, cash flows and financial condition. Further we are subject to counterparty credit risk and a significant delay in receiving large payments or non-receipt of large payments may adversely impact our results of operations. Our operations involve extending credit to our customers in respect of sale of our products and consequently, we face the risk of the uncertainty regarding the receipt of these outstanding amounts. As a result of such business conditions, we may have high levels of outstanding receivables. Further large customers are in a position to impose extended credit period and compliance requirements that further strain our working capital and increases operational costs, as we may need to fund operations for longer periods without receiving payments and invest additional resources to meet their compliance requirements. There is no assurance that we will

accurately assess the creditworthiness of our customers. Although we have not experienced material loss of major customers or significant payment defaults during the period ended on September 30, 2025 and the financial years ended March 31, 2025, 2024 and 2023, there can be no assurance that any such event will not happen in future. Our inability to retain repeat customers, expand our new customer base or manage customer credit risk effectively could materially and adversely affect our business, results of operations, cash flows and financial condition.

- 4. Our business is dependent and will continue to depend on our manufacturing facility, and we are subject to certain risks in our manufacturing process. Any slowdown or shutdown in our manufacturing operations or strikes, work stoppages or increased wage demands by our employees that could interfere with our operations could have an adverse effect on our business, financial condition and results of operations.**

Our business is dependent on our ability to manage our registered office and manufacturing facility situated at Rajkot, Gujarat. Our Manufacturing facility is spread across a total area of approximately 5,968.51 square meters (approximately 64,244.53 square feet) comprising of four units. Out of these, three units are operational and utilized for our existing business operations, while one unit is presently vacant and proposed to be utilized for the upcoming capital expansion pursuant to the Objects of the Issue.

Following table depicts the present usage of our manufacturing units:

Sr.no	Unit No.	Present Use
1.	Unit I	Registered Office and primarily used for forging, heat treatment, shot blasting and quality control.
2.	Unit II	This unit is equipped with facilities of machining shop, storage of finished products, packaging and dispatch.
3.	Unit III	This unit is primarily used for raw material storage, cutting, die manufacturing and tooling shop.
4.	Unit IV	Presently this is a vacant land, proposed for setting up of the proposed Manufacturing Unit IV as disclosed in the section titled “Object of the Issue”.

The core of our business relies on efficient management of the manufacturing units, however our operations face a spectrum of operational risks, such as (i) the risk of substantial disruption or shutdown due to breakdowns or failure of equipment, natural disasters, storms, fires, explosions, earthquakes, floods and other catastrophic events, which could result in power interruptions and water shortages, potential or suspected epidemic outbreaks, terrorist attacks and wars, labour disputes, strikes, lock-outs, loss of suppliers and industrial accidents, (ii) performance below expected levels of output or efficiency, and (iii) obsolescence. Any prolonged disruption at our manufacturing facility due to such events or unforeseen circumstances may interrupt our production and supply chain. In such situations, we may be required to procure or import materials or products at higher costs, which could impact our profitability. Our machineries are specialized in nature and may be difficult and costly to repair or replace in a timely manner, leading to operational delays. Further, we may face delays or inability in receiving raw materials or delivering finished goods, and may not be able to fulfill purchase orders or customer orders on time, which could result in order cancellations, penalties, or loss of business.

Additionally, such events may cause damage to or loss of raw materials, work-in-progress, or finished goods inventory. Although no such material disruptions have occurred in the past, we cannot assure that similar events will not occur in the future, which could materially and adversely affect our business, results of operations and financial condition. Our manufacturing units are also subject to operating risks arising from any failure to comply with the directives of relevant government authorities or any changes in governmental regulations affecting our business and our facilities, which could lead to a loss of licenses, certifications, permits and the ability to continue operating from our current manufacturing units.

Further our manufacturing units are located at Rajkot, Gujarat which exposes us to risks of geographical concentration. This regional concentration exposes us to risks such as economic slowdowns, social or political unrest, natural calamities, or adverse government policies in these regions. Such geographical concentration of our business in these regions heightens our exposure to adverse developments related to competition, as well as economic and demographic changes in these regions which may adversely affect our business prospects, financial conditions and results of operations.

- 5. We derive significant portion of our revenue from Gears and Transmission Components. Our profitability, business and commercial success is significantly dependent on our ability to successfully anticipate the industry and customer requirements and utilize our resources to enhance and provide our products that efficiently satisfy and meet our client's specific requirements in a timely manner. Any failure on our part to do so, may have an impact on the reputation of our business, which could have an adverse effect on our revenue, reputation, financial conditions, results of operations and cash flows.**

We derive significant portion of our revenue from Gears and Transmission Components. The following table sets forth our product wise revenue for the years indicated, which are also expressed as a percentage of our total revenue from operations:

(₹ in Lakhs, except percentages)

As certified by our Auditor vide their certificate dated March 30, 2026.

Our revenues may be adversely affected on account of any downward trend in the demand for Gears and Transmission Components. Our sales and margins from the said products may decline due to various factors including increased competition, pricing pressures or fluctuation in the demand or supply of these products. If the sales volume or pricing Gears and Transmission Components, declines in the future, our business, financial condition, cash flows and results of operations could be materially adversely affected. While we have not experienced any decrease in demand of Gears and Transmission Components, for the period ended September 30, 2025 and in the past three Fiscals, there can be no assurance that we will not experience any decrease in demand of our Gears and Transmission Components, which may adversely affect our business, financial condition, cash flows and results of operations.

6. Our operations are dependent on our existing machinery, equipment and technology for critical business functions, and any failure to maintain, repair, upgrade or adapt to technological changes may adversely affect our business and results of operations.

Our operations are significantly dependent on the efficient functioning of our manufacturing plant and machinery used in forging, heat treatment, machining, quality inspection, and other processes for manufacture of precision engineered and forged metal components. The performance and maintenance of such machinery are critical to maintain product quality, production efficiency, consistency, and timely fulfillment of customer orders. For details of the key equipment and machines owned by the Company and used for our business operations please refer “Our Business-Plant and Machinery” on Page no 180 of this Draft Red Herring Prospectus.

Any breakdown, malfunction, excessive wear and tear, or operational inefficiency of our machinery and equipment, or any delay in repair, replacement or maintenance, may lead to production interruptions, reduced output, increased rejection rates, and higher operating costs. Further, since certain equipment may require specialized technical expertise or spare parts, any delay in sourcing or servicing may prolong downtime and adversely affect our ability to meet customer delivery schedules and contractual obligations.

Our industry is characterized by continuous advancements in manufacturing technologies, including automation, computer numerical control (CNC) machining, precision engineering techniques, and energy-efficient and environmentally sustainable production processes. Our existing machinery and technology may become obsolete or less competitive over time due to such advancements, evolving industry standards, or changing customer requirements.

Any failure or delay on our part in upgrading, modernizing or adopting new technologies in a timely and cost-effective manner may adversely impact our operational efficiency, cost competitiveness, product quality, and ability to secure new business opportunities. Additionally, the adoption of advanced manufacturing technologies may require significant capital

investment, integration with existing systems, and training of personnel, and there can be no assurance that such investments will result in commensurate benefits.

Further, our dependence on plant and machinery exposes us to risks associated with inadequate maintenance practices, shortage of skilled operators, power supply disruptions, and potential safety hazards. Any failure to adhere to preventive maintenance schedules or to comply with applicable safety, quality, and environmental regulations may result in accidents, penalties, or operational shutdowns. Any prolonged disruption, inefficiency, or obsolescence of our plant, machinery or manufacturing processes could materially and adversely affect our business operations, financial condition, cash flows, and results of operations.

7. *We are dependent on the performance of certain industries in which our customers operate and fluctuations in the performance of such industries may result in a loss of such customers, a decrease in the volume of work we undertake or the price at which we offer our products.,*

We primarily cater to customers operating in industries such as farm equipment and off-highway vehicles, oil and gas, automotive, hydraulic cylinder, general engineering etc. Accordingly, the demand for our forged and machined components is directly linked to the performance, growth and capital expenditure cycles of these industries. The composition of our revenue based on industries served is as follows:

These industries are sensitive to various factors beyond our control, including general economic conditions, industrial growth, infrastructure development, commodity prices, fuel costs, interest rates, government policies, environmental and safety regulations, and geopolitical developments. Any slowdown, cyclical or adverse developments in these sectors may result in reduced demand for our customers' products, which in turn may lead to a decline in demand for our products.

Further, any reduction in orders from our key customers, loss of customers, pricing pressures, or decrease in the volume of work may adversely impact our revenues and profitability. Fluctuations in the performance of these industries may also affect our ability to maintain long-term relationships with customers or secure repeat business. Although we have not experienced any material adverse impact from such factors during the period ended September 30, 2025 and in the last three financial years, we cannot assure that similar circumstances will not arise in the future. Any such developments could materially and adversely affect our business, results of operations and financial condition.

8. *We export our products to various countries and our revenue from customers outside India represented 29.66%, 37.72%, 18.57%, and 9.39% of the total revenue from export for the period ended on September 30, 2025 and for the financial*

years ended March 31, 2025, 2024 and 2023, respectively. Our international operations expose us to risks relating to foreign market conditions, geographic concentration, regulatory requirements and foreign exchange fluctuations which could adversely affect our business, financial condition and results of operations.

We export our products to various countries and our revenue from customers outside India and our export revenues are also geographically concentrated, which exposes us to region-specific risks. Details of our revenue from exports for the period ended on September 30, 2025 and for financial years ended March 31, 2025, March 31, 2024 and March 31, 2023, respectively are as follows:

As certified by our Auditor vide their certificate dated March 30, 2026.

A substantial part of our revenue is derived from exports to select international markets. The scale and concentration of our export revenues expose us to risks arising from adverse economic, regulatory, political and foreign exchange developments in the countries to which we export. Any decline in demand in these markets or our inability to expand and diversify our export base could adversely affect our business, results of operations and financial condition.

Export markets are subject to various challenges including those relating to our lack of familiarity with the economic conditions of these new regions, language barriers, difficulties in managing such operations, and the lack of brand recognition and reputation in such regions. The crisis in the countries we export could materially and adversely affect demand for our products and may adversely affect our business and financial results. From time to time, tariffs, quotas and other tariff and non-tariff trade barriers may be imposed on our products in jurisdictions in which we operate or seek to sell our products. There can be no assurance that the countries where we seek to sell our products will not impose trade restrictions on us in future. Any adverse developments or changes in the demand for our products, applicable regulations and exchange rates, among others, in relation to such countries could have a material adverse effect on our business,

operations, prospects or financial results. We also require various approvals, licenses, registrations and permissions for supplying to our overseas customers which may be denied or delayed by the respective authorities in such jurisdictions. In case we fail to comply with applicable statutory or regulatory requirements, there could be delay in the submission or grant of approval for marketing new products. In the eventuality we are unable to successfully expand into new geographical regions, our growth plans and future performance shall be adversely affected.

Further, a portion of our revenues and receivables is denominated in foreign currencies, primarily the U.S. Dollar and Euro, fluctuations in foreign exchange rates could materially affect the value of such receivables, our revenues, margins and cash flows. We do not currently hedge our foreign currency exposures, and significant exchange rate movements could adversely affect our financial performance. Delays in cross-border settlements, restrictions on repatriation of funds or foreign exchange control regulations in certain markets could also adversely impact our working capital and liquidity position. Any inability to manage these risks, successfully expand into new export markets or mitigate foreign exchange volatility could materially and adversely affect our business, results of operations, financial condition and cash flows.

9. *We are subject to various laws and extensive government regulations and if we fail to obtain, maintain or renew our statutory and regulatory licenses, permits and approvals required in the ordinary course of our business, including environmental, health and fire safety laws and other regulations, our business financial condition, results of operations and cash flows may be adversely affected.*

Our business operations, including forging, heat treatment and machining processes, are subject to various central, state and local laws, regulations, approvals, licenses, registrations and permits. These include, inter alia, laws relating to occupational health and safety, labour welfare, environmental protection, fire safety, factory licensing and pollution control, as well as other applicable statutory compliances. In addition, our products may be subject to mandatory quality standards and certifications. For further details, see “*Key Industrial Regulations and Policies*” on page 197.

In the ordinary course of our business, we are required to obtain new approvals and renew existing licenses, registrations and permits from time to time. For details in relation to material approvals pending renewal or application, see “*Government and Other Statutory Approvals*” on page 326. Any failure or delay in obtaining, renewing or maintaining such approvals, licenses, registrations or permits, including those required pursuant to any change in the constitution of our Company from a private limited company to a public limited company, may adversely affect our ability to operate our business.

The Company has obtained various approvals, licenses, registrations, and permits from relevant authorities; however, registrations under the Factories Act, 1948 for its manufacturing Units II and III are currently pending with the concerned Directorate of Industrial Safety and Health. The Company has applied for the requisite registrations for Units II and III, and approvals of the factory layout plans for both units have been received vide letter no. JDISH/RAJ/PLAN/550/2026 dated February 17, 2026 for Unit II and vide letter no. JDISH/F-PLAN/2026/568 dated February 17, 2026 for Unit III.

In the event that such registrations are not granted within the expected timeframe, or if the applications are rejected or licenses are subsequently suspended or cancelled, the Company may be subject to regulatory actions, including but not limited to penalties, fines, or prosecution under applicable laws. Further, the Company may be required to suspend or cease operations at the concerned units until the requisite approvals are obtained, which could adversely impact its manufacturing activities, business operations, and financial condition. Additionally, any delay or failure in obtaining such registrations may result in reputational risks and increased scrutiny from regulatory authorities.

In the event that such registrations are not granted within the expected timeframe, or if the applications are rejected or licenses are subsequently suspended or cancelled, the Company may be subject to regulatory actions, including but not limited to penalties, fines, or prosecution under applicable laws. Further, the Company may be required to suspend or cease operations at the concerned units until the requisite approvals are obtained, which could adversely impact its manufacturing activities, business operations, and financial condition. Additionally, any delay or failure in obtaining such registrations may result in reputational risks and increased scrutiny from regulatory authorities.

Further, there can be no assurance as well that we will be in compliance at all times with all applicable laws, regulations or the terms and conditions of the approvals, licenses and permits granted to us. Any failure to comply with, or violation of, such laws, regulations or conditions may result in penalties, fines, suspension or cancellation of licenses, closure of facilities, restrictions on operations or other enforcement actions by the relevant authorities.

While we have not been subject to any material penalties or sanctions by regulatory authorities in the past that have had a significant impact on our business, there can be no assurance that such actions will not be taken against us in the future. Any such penalties, sanctions or adverse regulatory actions could negatively affect our business operations, reputation, financial condition and results of operations. Further we have also not faced any rejection in relation to approvals or licenses

applied for in the past, we cannot assure that we will not face rejections in the future in relation to applications for new approvals or renewal of existing approvals.

10. *We have not yet placed orders in relation to the capital expenditure requirements of the Company towards setting up of the proposed Manufacturing Unit IV and upgradation of existing units at manufacturing facility in Rajkot, Gujarat. In the event of any delay in placing the orders, or in the event the vendors are not able to provide the plant and machineries or complete the civil and related works etc. in a timely manner, or at all, the same may result in time and cost over-runs.*

We intend to utilize portions of the Net Proceeds for funding of capital expenditure requirements of the Company towards setting up of the proposed Manufacturing Unit IV and upgradation of existing units at manufacturing facility in Rajkot, Gujarat. While we have procured quotations from various vendors in relation to the capital expenditure to be incurred for the proposed manufacturing unit and upgradation of existing units at manufacturing facility, we have not placed any firm orders for any of them. For details in respect of the foregoing, see “*Objects of the Issue*” beginning on page 106. Such quotations are valid for a certain period of time and may be subject to revisions, and other commercial and technical factors. We cannot assure that we will be able to undertake such capital expenditure at the costs indicated by such quotations or that there will not be cost escalations over and above the contingencies proposed to be funded out of the Net Proceeds. Further, the actual amount and timing of our future capital requirements may differ from our estimates as a result of, among other things, unforeseen delays or cost overruns, unanticipated expenses, regulatory changes, engineering design changes and technological changes.

In the event of any delay in placing the orders, or an escalation in the cost of acquisition of the equipment or completion of the civil and related works, or in the event the vendors are not able to provide the equipment and services in a timely manner, or at all, we may encounter time and cost overruns for the proposed manufacturing unit. Further, if we are unable to procure the requisite plant and machinery, equipment and ancillary items or avail services from the vendors from whom we have procured quotations, we cannot assure you that we may be able to identify alternative vendors to provide us with the similar kind of plant and machinery, equipment and ancillary items and services, which satisfy our requirements at acceptable prices. Our inability to procure the machinery and equipment and services at acceptable prices or in a timely manner, may result in an increase in capital expenditure, extension or variation in the proposed schedule of implementation and deployment of the Net Proceeds, thereby resulting in an adverse effect on our business, prospects and results of operations.

Our proposed manufacturing unit remain subject to the potential problems and uncertainties that construction project face including cost overruns or delays. Problems that could adversely affect our expansion plan include labour shortages, increased costs of equipment or manpower, inadequate performance of the equipment and machinery installed in our manufacturing facilities, delays in completion, defects in design or construction, the possibility of unanticipated future regulatory restrictions, delays in receiving governmental, statutory and other regulatory approvals, incremental pre-operating expenses, taxes and duties, interest and finance charges, working capital margin, environment and ecology costs and other external factors which may not be within the control of our management. Further, there can be no assurance that our budgeted costs may be sufficient to meet our proposed capital expenditure requirements. If our actual capital expenditures significantly exceed our budgets, or even if our budgets were sufficient to cover these projects, we may not be able to achieve the intended economic benefits of these projects, which in turn may materially and adversely affect our financial condition, results of operations, cash flows, and prospects.

11. *Our funding requirements and the proposed deployment of Net Proceeds have not been appraised by a public financial institution or a scheduled commercial bank and our management will have broad discretion over utilization of the Net Proceeds.*

We intend to use Net Proceeds towards meeting the funding of capital expenditure requirements of the Company towards setting up of the proposed Manufacturing Unit IV and upgradation of existing units at manufacturing facility in Rajkot, Gujarat, Full or part repayment and/or prepayment of certain outstanding secured borrowings availed by our Company and general corporate purposes. Our proposed deployment of Net Proceeds has not been appraised by a public financial institution or a scheduled commercial bank and is based on management estimates. Further the deployment of the Net Proceeds will be at the discretion of our Board and the management of our Company will have significant flexibility in applying the proceeds received by our Company from the Issue. However, audit committee will monitor the utilization of the proceeds of this Issue and prepare the statement for utilization of the proceeds of this Issue and as per regulation 262(5) of SEBI ICDR (Amendment) regulations 2025, we shall submit a certificate of the statutory auditor for utilization of money raised through the public issue to exchange while filing the quarterly financial results, till the issue proceeds are fully utilized.

Further in accordance with Section 27 of the Companies Act, 2013, a company shall not vary the objects of the Issue without our Company being authorised to do so by our shareholders by way of special resolution and other compliances in this

regard. Our Promoters shall provide exit opportunity to such shareholders who do not agree to the proposal to vary the objects, at such price, and in such manner, as may be prescribed by SEBI, in this regard. Various risks and uncertainties, including those set forth in this section including inability to obtain necessary approvals for undertaking proposed activities, may limit or delay our efforts to use the Net Proceeds to achieve profitable growth in our business. We cannot assure you that use of the Net Proceeds to meet our future capital requirements, fund our growth and for other purposes identified by our management would result in actual growth of our business, increased profitability or an increase in the value of our business and your investment.

12. *We have certain outstanding litigation against us, an adverse outcome of which may adversely affect our business, reputation and results of operations.*

The amounts claimed in these proceedings have been disclosed to the extent ascertainable and include amounts claimed jointly and severally. If any new developments arise, such as a change in Indian law or rulings against us by appellate courts or tribunals, we may need to make provisions in our financial statements that could increase our expenses and current liabilities.

We cannot assure you that any of the outstanding litigation matters will be settled in our favour or that no additional liabilities will arise out of these proceedings. In addition to the above, we could also be adversely affected by complaints, claims or legal actions brought by persons, including before consumer forums or sector-specific or other regulatory authorities in the ordinary course of business or otherwise, in relation to our business operations, our intellectual property, our branding or marketing efforts or campaigns or our policies. We may also be subject to legal action by our employees and/or former employees in relation to alleged grievances, such as termination of employment. We cannot assure you that such complaints, claims or requests for information will not result in investigations, enquiries or legal actions by any regulatory authority or third persons against us.

For further details of certain material legal proceedings involving our Company, our Promoters, our directors, see “*Outstanding Litigations and Material Developments*” beginning on page 314 of this Draft Red Herring Prospectus.

- 13. *If we do not continually enhance our existing products, develop and market new products, our product portfolio may become obsolete and we may not achieve broad market acceptance and brand recognition. The success of the components manufactured by us depends on the success of the end product of our customer. Reduction in sales of the products of our customer, or defects in our customers’ products which may be attributable to us, may adversely affect our business, financial condition, results of operations and prospects.***

Changes in consumer preferences, regulatory or industry requirements or in competitive technologies may render certain of our products obsolete. Our ability to anticipate changes in technology and regulatory standards and to successfully develop and introduce new and enhanced products on a timely basis is a significant factor in our ability to remain competitive. The market for gears and transmission components, construction machinery components, hydraulic application components and other components manufactured by us is characterized by:

- rapid technological change;
- evolving industry performance standards; and
- changes in customer and end-user requirements.

Any one of these factors could reduce the demand for our products or require us to expend substantial resources for research, design and development of new products and technologies to avoid technological or market obsolescence. Our success will depend on our ability to continually enhance our existing products, design and develop or acquire and market new products in an effort to maintain and increase sales and to improve our gross margins. We cannot assure you that we will have sufficient financial resources or otherwise be able to develop the technological advances necessary for us to remain competitive or that any new products that we develop will be accepted in the marketplace, either at all or on a timely basis or at competitive prices. Any delay or failure by us to respond to these market conditions or to technological advances by our competitors would have a material adverse effect on our business, operating results and financial condition.

Additionally, the success of our business depends on the success of the products of our customers, and the demand for our products is directly related to the production and sales of automotive, hydraulic, construction components and other industrial products (non-automotive) manufactured by our customers. The production and sales volumes of our customers may be affected by a number of factors such as change in economic or industry conditions, change in regulatory requirements, government initiatives, products becoming obsolete or specific model’s vehicles getting discontinued or being phased out. Any decline in the demand for our customers’ products may adversely affect the sales of our components to our customers and in turn may adversely affect our business, financial condition, results of operations and prospects. Further, any defect in our customer’s products, which may be attributable to us, directly or indirectly, may also adversely affect our financial condition and prospects.

- 14. *Our sales and profitability could be harmed if we are unable to maintain or improve our brand image and effective marketing initiatives. Further any negative publicity with respect to our products could adversely affect our brand, business, financial condition and results of operations***

We are operating under the brand “**MTF**” which has significantly contributed to the success of our business. We believe that our success depends on our ability to price the products against its quality and foresee, identify and respond to changing trends in a timely manner. If we are unable to respond in a timely and appropriate manner to changing consumer demand and fail to price our products reasonably, our brand name and brand image may be impaired and may result in a significant decrease in net sales or leave us with a substantial amount of unsold inventory. In addition, any new products or brands that we introduce may not be successfully received by our customers. Although we have expanded, and expect to continue to spend significant resources, financial and otherwise, on establishing and maintaining our brands, no assurance can be given that our brands will be effective in attracting and growing our customer base or that such efforts will be cost-effective. Further our brand may also be affected if there is any negative publicity associated with our products. Any failure to maintain and enhance our brands may negatively affect our business, financial condition and results of operations.

Our revenues are also influenced by marketing plans. If we adopt unsuccessful marketing and advertising campaigns, we may fail to attract new customers or retain existing customers. If our marketing strategies are unsuccessful, our business and results of operations could be materially adversely affected. In addition, the support of our employees is also critical for the success of our marketing programmes, such as local marketing and any new strategic initiatives we seek to undertake. While we can mandate certain strategic initiatives, we need the active support of our employees if the implementation of these initiatives is to be successful. The failure of our employees to support our marketing programmes and strategic

initiatives could adversely affect our ability to implement our business strategy and harm our business, financial condition, results of operations and prospects.

In addition, increased spending by our competitors on marketing or an increase in the cost of advertising in the markets in which we operate, could adversely affect our results of operations and financial condition. Moreover, a material decrease in our funds earmarked for marketing and advertising or an ineffective advertising campaign relative to that of our competitors, could also adversely affect our business and results of operations.

15. Our Order Book may not be representative of our future results. Orders included in our Book may be delayed, cancelled or not fully paid for by our customers, which could materially harm our cash flow position, revenues and earnings.

As on March 01, 2026, our order book was ₹ 2,447.06 Lakhs. Our order book comprises orders from both domestic and international customers. Our order book comprises the estimated revenues from the ongoing orders. However, the realization of such orders is subject to various risks and uncertainties. We could also encounter problems executing the orders or executing it on a timely basis i.e. whether we could be able to execute on an immediate basis or not.

In addition, our international and domestic orders may be affected by geopolitical and geographical conditions prevailing in the relevant regions, including political instability, trade restrictions, regulatory changes, supply chain disruptions, or adverse economic conditions, which may impact execution timelines or lead to cancellation of orders.

Moreover, factors beyond our control or the control of our customers could postpone an order or cause cancellation of such order fully or partially, including delays or failures to obtain necessary permits, authorizations, permissions and other types of difficulties or obstructions for successful completion of such contracts. These changes in the order book could be a result of exercises of our customers' discretion, problems we encounter in order execution, or reasons outside our control or the control of our customers, we cannot predict with certainty when, if or to what extent an order book will be performed.

Even relatively short delays or surmountable difficulties in the execution of an order could result in our failure to receive on a timely basis or at all, all payments otherwise due to us. Our inability to complete or monetize such work in a timely manner, or at all, may adversely affect our business and results of operations. Hence, our order book may not be indicative of our future results due to various factors including delays, reduction in scope, cancellation, execution difficulty, payment postponement or payment default in regard to our order book or any other incomplete orders, or disputes with customers in respect of any of the foregoing business industry which could adversely affect our cash flow position, revenues and earnings.

16. Our Company had negative cash flows in the past years, details of which are given below. Sustained negative cash flow could impact our growth and business.

As per our Restated Financial Statements, our cash flows from operating, investing and financing activities which are as set out below:

(₹ in Lakhs)

Particulars	For the period ended on September 30, 2025	For the Year ended March 31, 2025	For the Year ended March 31, 2024	For the Year ended March 31, 2023

For the financial year ended March 31, 2025

For the financial year ended March 31, 2025, the net cash used in Investing Activities was (₹1,757.78) lakhs. This was mainly on account of Purchase of Property, Plant and Equipment & intangible assets of (₹1,771.46) lakhs, Non-current deposit of (₹47.54) lakhs, increase in long term loans and advances of (₹190.20) lakhs, interest received of ₹13.42 lakhs, Conversion of Capital WIP into Property, Plant and Equipment of ₹201.50 lakhs and Sale of Property, Plant and Equipment of ₹36.50 lakhs.

For the financial year ended March 31, 2024

For the financial year ended March 31, 2024, the net cash used in Investing Activities was (₹574.47) lakhs. This was mainly on account of Purchase of Property, Plant and Equipment and intangible assets of (₹397.89) lakhs, Purchase of Capital WIP of (₹201.50), Interest received of ₹2.21 Lakhs and Conversion of Capital WIP into Property, Plant and Equipment of ₹22.71 lakhs.

For the financial year ended March 31, 2023

For the financial year ended March 31, 2023, the net cash used in Investing Activities was (₹221.76) lakhs. This was mainly on account of Purchase of Property, Plant and Equipment & intangible assets of (₹306.51) lakhs, non-current deposit of (₹11.37) lakhs, Interest received of ₹1.71 lakhs, Purchase of Capital WIP of (₹22.71) lakhs and Conversion of Capital WIP into Property, Plant and Equipment of ₹117.12 lakhs

Cash flow of a company is a key indicator to show the extent of cash generated from operations to meet capital expenditure, pay dividends, repay loans and make new investments without raising finance from external resources. If our Company is not able to generate sufficient cash flows, it may adversely affect our business and financial operations. For further details, please see chapter titled “*Restated Financial Statements*” and “*Management’s Discussion and Analysis of Financial Condition and Results of Operations*” beginning on page 236 and 298 respectively of this Draft Red Herring Prospectus.

17. *There are certain inadvertent errors noticed in some of our corporate records relating to forms filed with the Registrar of Companies and other provisions of Companies Act, 2013. Any penalty or action taken by any regulatory authorities in future, for non-compliance with provisions of corporate and other law could impact the reputation and financial position of the Company to that extent.*

There have been certain inadvertent lapses and discrepancies in the forms and corresponding secretarial records filed by the Company with the Registrar of Companies under the provisions of the Companies Act, 2013. These include, inter alia, instances of typographical errors in resolutions and e-forms, incorrect or inadvertent mention of relevant sections of the Act, omission of item numbers in resolutions, minor differences in reporting relating to board meetings in annual return forms, and instances where certain mandatory information was not mentioned on the Company’s letterheads. Such errors are purely clerical and unintentional in nature, including typographical and topographical mistakes in the forms and resolutions filed, and do not affect the substance or validity of the decisions taken by the Company.

The details of forms filed along with the period of compliance, period of delay occurred and reasons for such delays are mentioned below:

The company has duly filed all the forms along with delayed fees towards corrective measure. Further we cannot confirm that no action from authorities would be taken against the Company pursuant to the above explained instances which may adversely affect our business and financial operations. While no legal proceedings or regulatory action has been initiated against our Company in relation to such non-compliance or incorrect filings or delays in filing statutory forms with the RoC as of the date of this Draft Red Herring Prospectus, we cannot assure you that such legal proceedings or regulatory actions will not be initiated against our Company in future and we cannot assure you that we will not be subject to penalties imposed by concerned regulatory authorities in this respect. Therefore, if the authorities impose monetary penalties on us or take certain punitive actions against our Company in relation to the same, our business, financial condition and results of operations could be adversely affected.

18. *We are subject to strict quality requirements, and the acceptability of our products is largely dependent upon our quality controls and standards. Any failure to comply with quality standards may adversely affect our business prospects and financial performance, including cancellation of existing and future orders.*

Our operations in the forging, heat treatment and machining industry require strict adherence to prescribed quality standards and specifications. We undertake quality checks at multiple stages, including inspection of raw materials prior to commencement of manufacturing, in-process quality checks during production, and final inspection of finished products before dispatch. We have established quality control procedures and utilize various testing equipment and quality control laboratories to ensure that our products meet applicable standards and customer specifications. However, there can be no assurance that such measures will be effective at all times. Any failure on our part to maintain required quality standards, including defects in raw materials, errors in manufacturing processes, or deficiencies in inspection procedures, may result in rejection of products, customer complaints, product recalls, rework costs, loss of business, or damage to our reputation. Additionally, such failures may expose us to contractual liabilities, penalties, or legal claims, which could materially and adversely affect our business operations, financial condition and results of operations. Although, there has not been any such instance during last 3 financial years and for the period ended September 30, 2025.

Our business also requires obtaining and maintaining quality certifications and accreditations from independent certification entities. Such specifications and standards of quality is an important factor in the success and acceptability of our products. For instance, we have been certified with the below mentioned certificates in accordance with the standards of quality management systems –

- IATF 16949:2016 for Manufacture of Forged and Machined Metal Components
- ISO 14001:2015 for Environmental Management System.
- ISO 45001:2018 for Occupational Health and Safety Management Systems.
- ZED BRONZE by Ministry of Micro, Small & Medium Enterprises for sustainability with Zero Effect and Zero Defect.
- PED-2014/68/EU & AD 2000 W0 for Pressure equipments manufacture.

If we fail to comply with applicable quality standards or if the relevant accreditation institute or agency declines to certify our products, or if we are otherwise unable to obtain or renew such quality accreditations in the future, within time or at all, our business prospects and financial performance will be materially and adversely affected.

The quality of our products is critical to the success of our business, and quality depends on the effectiveness of our quality control system, and the implementation and application of our quality control policies and guidelines. Any significant failure or deterioration of our quality control system could result in defective or substandard products, which, in turn, may result in delays in the delivery of our products and the need to replace defective or substandard products. As a result, our reputation, business, results of operations and financial condition could be materially and adversely affected.

19. *We rely on third-party transportation providers for both procurement of our raw materials and distribution of our products. Since we do not have any long-term contractual arrangements with such service providers, any failure by any of our transportation providers to deliver our raw materials or our products on time, or in good condition, or at all, may adversely affect our business, financial condition and results of operations.*

Our suppliers deliver raw materials directly at our manufacturing unit. For the delivery of finished products, we engage third-party logistics companies. The mode of shipment and delivery terms are decided on a case-by-case basis on mutually agreed terms. Since we do not own or operate dedicated logistics infrastructure for raw material procurement and delivery of finished products, we are exposed to various risks arising from reliance on third-party service providers. Transportation carries inherent risks, including accidents, mishandling, theft, fire, or damage in transit. Any such incident could result in not only material loss but also environmental hazards, penalties, and reputational harm. Additionally, disruptions or delays in logistics services due to factors such as strikes, labor disputes, shortage of transport vehicles, capacity constraints, delays at ports, customs clearance issues, inadequate infrastructure, political unrest, natural calamities, or pandemics may adversely affect the timely delivery of raw materials and finished products. Such delays could lead to production downtime, inability to meet customer schedules, and potential cancellation of orders, which may materially and adversely impact our revenue and profitability.

Further, we do not have any long-term contractual arrangements with such service providers, any increases in transportation and freight costs, fluctuations in fuel prices, and changes in government policies relating to logistics, import/export restrictions, or taxation on freight movement could increase our procurement costs. If we are unable to pass on such increased costs to our customers, it may adversely affect our operating margins. While we seek to maintain relationships with multiple suppliers and logistics provider but have not entered into any formal agreement with them, further we cannot assure you that we will not face concentration risks, sudden disruptions, or termination of arrangements by one or more of

our key logistics providers. Any adverse development in third-party logistics arrangements may materially and adversely affect our business operations, cash flows, financial condition, and results of operations. Although we have not experienced any material adverse impact from such factors during the period ended September 30, 2025 and in the last three financial years, we cannot assure that similar circumstances will not arise in the future. Any such developments could materially and adversely affect our business, results of operations and financial condition.

20. *We rely on third-party vendors and job workers for certain manufacturing processes, and the absence of formal long-term agreements with such parties could adversely affect our business, financial condition and results of operations.*

Our manufacturing operations primarily comprise forging, heat treatment and machining activities. While a significant portion of these processes is undertaken in-house, we outsource certain activities to third-party job workers, particularly during periods of higher workload, to meet delivery timelines or when order volumes exceed our in-house production capacity. In addition, we rely on external vendors and accredited laboratories for testing, inspection and quality control services, including independent verification of raw materials or products, where required by customers or industry standards.

Our relationships with such third-party vendors, job workers and laboratories are generally based on commercial terms, work orders and past business relationships. We do not typically enter into long-term agreements governing key aspects such as assured capacity, pricing, delivery timelines or continuity of services. As a result, we are exposed to risks including delays in outsourced processes, non-availability of job workers during peak demand periods, adverse changes in commercial terms, or failure of such parties to meet required quality standards.

Any disruption, delay or deficiency in services from these third-party vendors or job workers could impact our production schedules, lead to increased costs, affect product quality and delay order execution, thereby adversely impacting our customer relationships and reputation. Further, any delays or issues in testing, inspection or certification by external laboratories may affect our ability to meet customer specifications or regulatory requirements.

Although we seek to mitigate these risks through vendor selection, performance monitoring and maintaining relationships with multiple service providers, there can be no assurance that such parties will continue to provide services on acceptable terms or without interruption. Any inability to effectively manage or replace such third-party vendors, job workers or laboratories in a timely manner could have a material adverse effect on our business, financial condition, cash flows and results of operations.

21. *Our business is working capital intensive, and any inability to effectively manage or fund our working capital requirements could adversely affect our business, financial condition, results of operations and cash flows.*

Our operations require a significant amount to working capital, including to finance the purchase of raw materials, sales and marketing and mobilization of resources and other work before payment is received from clients. Any inability to source the required amount of working capital may lead to halt the processes, decreased revenues and a dissatisfied customer base. Further, any delay in the processing of payments by our customers may increase our working capital requirement. In the event a customer defaults in making payments for a product on which we have devoted significant resources, it could affect our profitability and liquidity and decrease the capital reserves that would be otherwise available. Our working capital requirements may increase if we undertake larger orders or if payment terms do not include advance payments or such orders have extended credit terms or otherwise increase our working capital burden.

While we have not faced any instances of difficulties to meet our working capital requirements in the period ended September 30, 2025, and Fiscals 2025, 2024 and 2023, there can be no assurance that such instances will not occur in the future. There can be no assurance that payments will be remitted by our customers to us on a timely basis or that we will be able to effectively manage the level of bad debt arising from defaults. We may also have large cash outflows, including among others, losses resulting from environmental liabilities, litigation costs, adverse political conditions, foreign exchange risks and liability claims. Accordingly, continued increases in our working capital requirements may have an adverse effect on our business, financial condition, cash flows and results of operations.

22. *Inventories and trade receivables form a major part of our current assets. Failure to manage our inventory and trade receivables could have an adverse effect on our sales, profitability, cash flow and liquidity, goodwill, business, financial condition and results of operations.*

Our inventories and trade receivables form a major part of our current assets. The results of operations of our business are dependent on our ability to effectively manage our inventory and trade receivables. An optimal level of inventory is important to our business as it allows us to respond to customer demand effectively. If we overstock inventory, our capital requirements will increase and we will incur additional financing costs. If we under-stock inventory, our ability to meet customer demand and our operating results may be adversely affected. Any mismatch between our planning and actual

consumer consumption could lead to potential excess inventory or out-of-stock situations, either of which could have an adverse effect on our business, financial condition and results of operation. For the period ended on September 30, 2025 and for the financial years ended March 31, 2025, 2024 and 2023 our inventories were ₹ 2,644.43 Lakhs, ₹ 1,841.07 Lakhs, ₹ 1,011.20 Lakhs, and ₹ 416.36 Lakhs respectively. To effectively manage our inventory, we must be able to accurately estimate customer demand / potential orders and supply requirements and purchase new inventory accordingly. However, if we misjudge expected customer demand/ Potential orders, it could cause either a shortage of products or an accumulation of excess inventory.

To effectively manage our trade receivables, we must be able to accurately evaluate the credit worthiness of our customers and ensure that suitable terms and conditions are given to them in order to ensure our continued relationship with them. However, if we fail to accurately evaluate the credit worthiness of our customers, it may lead to bad debts, delays in recoveries and / or write-offs which could lead to a liquidity crunch, thereby adversely affecting our business and results of operations. For the period ended on September 30, 2025 and during the financial year ended March 31, 2025, March 31, 2024 and March 31, 2023 our trade receivables were ₹ 1,873.56 Lakhs, ₹ 1,605.61 Lakhs, ₹ 1,065.36 Lakhs and ₹ 1,032.11 Lakhs, respectively. We may be subject to working capital risks due to delays or defaults in payment by clients, which may restrict our ability to procure raw materials and make payments when due. In addition, any delay or failure on our part to supply the required quantity or quality of products, within the time stipulated by our agreements, to our customers may in turn cause delay in payment or refusal of payment by the customer. Such defaults/delays by our customers in meeting their payment obligations to us may have a material effect on our business, financial condition and results of operations. Such situation may require an additional higher finance cost which will adversely impact our profitability and cashflow.

23. *We could be subject to product liability claims, refunds and recalls or return of products, which may have a material adverse impact, in which case our business and revenues, and ultimately our reputation, could be negatively affected.*

Due to the nature of our business as a manufacturer of forged, machined and precision components, we are exposed to risks associated with product quality, performance, and compliance with customer specifications. Any defects in products may arise due to issues in raw materials, manufacturing processes, heat treatment, machining, or other operational factors. In the event that any of our products are found to be defective or fail to meet required specifications, we may be subject to customer claims, including rejection of products, debit notes, or replacement obligations. Such claims may also lead to loss of customers, reputational damage, and potential financial liabilities.

While we maintain in-house quality control systems, testing facilities, and process controls to ensure product quality, there can be no assurance that such measures will be sufficient to prevent all defects. In certain cases, we may also be required to bear costs relating to rework, replacement, or compensation. Further, any significant quality issues may adversely impact our relationships with customers and could result in loss of future business. In addition, product-related claims or disputes may require management time and resources and could involve legal proceedings.

24. *There may be potential conflicts of interest between our Company and our Promoters, members of our Promoter Group or Group entities in which our Promoters and Directors have an interest, which could adversely affect our business and operations.*

We may face potential conflicts of interest involving our Promoters and certain entities within our Promoter Group and Group Companies. In particular, our group Companies includes M/s. Motiontech Solution LLP and Siddheshwar Technoforge Private Limited which are engaged in a similar line of business as our Company. Such overlap in business activities may give rise to actual or perceived conflicts of interest between our Company and such group companies. In order to mitigate potential conflicts, we have entered into a non-compete agreement with M/s. Motiontech Solution LLP on March 20, 2026 and with M/s. Siddheshwar Technoforge Private Limited on March 28, 2026. These agreement seeks to establish a mutual understanding between the parties to maintain clear boundaries in their respective business operations and, inter alia, restricts the parties from undertaking competing business activities or soliciting the clients, vendors or employees of the other with the intent to influence business relationships, thereby promoting fair business practices. However, there can be no assurance that the non-compete arrangements will be sufficient to fully eliminate conflicts of interest or that such arrangements will be enforced effectively in all circumstances.

Further, we do not have similar non-compete or restrictive contractual arrangements with other Promoter Group entities and Group Companies. As a result, we cannot assure you that such entities will not, in the future, engage in businesses that compete with our existing operations or with any new businesses that we may undertake. Any such competition could result in diversion of business opportunities, management attention or resources, and could adversely affect our competitive position. Additionally, conflicts of interest may arise in situations where our Promoters or Directors are required to balance their fiduciary duties to our Company with their interests in other entities. There can be no assurance that any such conflicts will be resolved in our favour or without an adverse impact on our business, financial condition, results of operations and prospects. Any actual or perceived conflicts of interest between our Company and our Promoters, Promoter Group entities

or Group entities in which our Promoters or Directors have an interest could negatively affect investor confidence and our reputation. For more details regarding our Promoters and Group Companies, please refer chapters titled *"Our Promoters and Promoter Group"*, *"Group Companies"*, *"Our Business"* and *"Restated Financial Statements – Annexure 31 - Restated Statement of Related Party Transactions"* beginning on page 223, 232, 160 and 236 of the Draft Red Herring Prospectus respectively.

25. *Our Company has certain contingent liabilities, the materialization of which could adversely affect our business, financial condition, cash flows and results of operations.*

Our Company has certain contingent liabilities, as disclosed in *"Restated Financial Statements – Annexure-34 - Disclosures related to Contingent Liabilities"* on page 236 of this Draft Red Herring Prospectus. These liabilities primarily relate to claims against the Company that have not been acknowledged as debt. The existence and eventual outcome of such matters are subject to various uncertainties, including judicial or administrative determinations, changes in applicable laws and regulations and the availability of defences and may depend on factors beyond the Company's control. The following is a summary table of our contingent liabilities for the period ended on September 30, 2025 and for the financial years ended on March 31, 2025, 2024 and 2023, respectively:

(₹ in Lakhs)

Particulars	As at September 30, 2025	As at March 31, 2025	As at March 31, 2024	As at March 31, 2023
I. Contingent Liabilities				
(a) Claims against the company not acknowledges as debt	5.76	5.07	1.41	0.42
(b) Other money for which the company is contingently liable	-	-	-	-
Total	5.76	5.07	1.41	0.42

If any of these contingent liabilities were to materialise, whether due to adverse rulings, settlements or otherwise, the Company may be required to make cash payments or provide financial support, which could adversely affect its liquidity position and cash flows. Such outcomes could also result in additional legal costs, management time and resources being diverted from core business operations and may have an adverse impact on the Company's profitability and financial condition. Further, while appropriate disclosures have been made by the Company in respect of its contingent liabilities based on currently available information and legal advice, there can be no assurance that future developments will not require the Company to incur additional liabilities beyond those currently disclosed. Any such additional liabilities, either individually or in aggregate, could adversely affect the Company's business, financial condition, cash flows and results of operations.

26. *Our registered office and our manufacturing facility is not owned by us and is taken on rent/lease basis. If we are unable to renew existing rental/lease agreements or relocate our operations on commercially reasonable terms, there may be a material adverse effect on our business, financial condition, results of operations and cash flows could be adversely affected.*

Our registered office and manufacturing facility is critical to our business operations. Our manufacturing facility comprises four units (Unit I, Unit II, Unit III and Unit IV). Unit I, Unit II and Unit III are currently operational and are utilized for our existing manufacturing activities, including forging, heat treatment, machining and related processes, whereas Unit IV is vacant and proposed to be use for the upcoming capital expansion pursuant to the Objects of the Issue. While only a portion of Unit I is owned by us, the remaining units as well as our registered office are not owned by us and are occupied on a lease or leave and license basis from our Promoters, and Promoter Group members. For further details, see *"Our Business"* beginning on page 194 of this Draft Red Herring Prospectus.

There can be no assurance that such arrangements will be renewed upon expiry or will continue to be available on commercially acceptable terms. In the event such parties decide to discontinue or not renew these arrangements, we may be required to relocate our operations within a short period of time, which may lead to operational disruptions, increased costs and potential delays in execution of orders, thereby adversely affecting our business, results of operations and financial condition.

If we are unable to renew these agreements on commercially reasonable terms, or at all, we may be required to vacate the current premises, and we will have to make alternative arrangements for office space and related infrastructure, and there can be no assurance that such alternative arrangements would be available on commercially acceptable or favourable terms. Any such event could have a material adverse effect on our business, prospects, results of operations, and financial condition. However, there have been no instances of any failure to renew our existing rent agreements or instances of any

major disruptions in our existing premises during the period ended on September 30, 2025 and for the last three financial years which had a material impact on Company's financials or had adversely affected its business operations.

27. Our operations involve activities and materials which are hazardous in nature and could result in a suspension of operations and/or the imposition of civil or criminal liabilities which could adversely affect our business, results of operations, cash flow and financial condition.

Our operations are subject to operating risks associated with forged and machined products manufacturing. Certain operations at our manufacturing facility, including die-grinding, forging or heat treatment can cause accidents during the manufacturing process resulting in serious injuries or death of employees or other persons, if improperly handled, and cause damage to our properties or equipment. For instance, the audiometry of our employees may be impacted by the sound generated from hammering of forged products. Despite ensuring that employee safety manuals covering employee safety and environmental procedures are in place and that hazard identification and risk assessments with respect to our operations are periodically carried out, our operations are subject to significant hazards, including fires, mechanical failures and other operational problems, inclement weather and natural disasters, and other environmental risks.

The occurrence of any of these hazards could result in a suspension of operations and/or the imposition of civil or criminal liabilities. We may also face claims and litigation, filed on behalf of persons alleging injury predominantly as a result of occupational exposure to hazards at our facilities. If these claims and lawsuits, individually or in the aggregate, are resolved against us, our business, results of operations, cash flows and financial condition could be adversely affected. Further, our customers may require us to invest in additional safety protocols which impose incremental expenses and may impact our ability to operate at optimum efficiencies. As of the date of this Draft Red Herring Prospectus, there have been no such occurrences in the past. However, any such action by any of our customers may adversely impact our business, results of operations, cash flows and financial condition.

28. There are certain discrepancies and non-compliances noticed in some of our financial reporting and/or records relating to filing of returns and deposit of statutory dues with the taxation and other statutory authorities.

In the past, our company has at several instances, delayed in filing of GST, TDS, ESIC and EPF Returns, as a result of which, we have been required to pay the late filing fees along with interest on delayed deposit of due taxes and statutory dues and late filing penalties, if we continue this practice, the accumulated amounts of each delay may adversely affect our cash flows. The details of such delay filings for the period ended on September 30, 2025 and for the financial years ended on March 31, 2025, 2024 and 2023, respectively, are as follows:

The reasons for delays in payment were due to delay in reconciliation of accounts with customers or delay in bill settlement. Also, sometimes these delays were also due to administrative and technical issues on the portal during these periods. As a corrective measure, Our Company has filed all the returns due with late filing fees and has appointed compliance officer to ensure that all the compliance related matters are taken care of on real time basis and have further strengthen the internal controls to ensure that the flaws are cured in time. If any action is taken by the concerned authority in the matter and in the event of any penalty being imposed against the Company by the concerned authority, the financials of the company shall be adversely affected.

29. ***Our historical performance is not indicative of our future growth or financial results and we may not be able to sustain or increase our historical growth rates. Our inability to effectively manage our current and future growth could disrupt our business operations and adversely affect our profitability and financial performance***

Our business has experienced growth in prior periods. Our revenue from operations increased from ₹ 4,691.28 Lakhs in F.Y. 2022-23 to ₹ 5,085.09 Lakhs Financial Years 2023-24, to ₹ 7,437.22 Lakhs in Financial Years 2024-25, respectively. The success of our business will depend greatly on our ability to effectively implement our business and growth strategy effectively. Even though we have successfully executed our business strategies in the past, there is no guarantee that we can implement the same on time and within the estimated budget going forward, or that we will be able to meet the expectations of our targeted clients. Our ability to achieve growth will be subject to a range of factors, including, regulatory requirements, ability to identify trends and demands in the industry, competing with existing companies in our markets, continuing to exercise effective quality control, hiring and training qualified personnel. Failure to implement our business strategies would have a material adverse effect on our business and results of operations.

Many of these factors are beyond our control and there is no assurance that we will succeed in implementing our strategies. Our future growth also depends on expanding our sales volume and entering new regions. We face increased risks when we enter new markets, in both India and abroad. Our expansion plans and business growth could strain our managerial, operational and financial resources. Our ability to manage future growth will depend on our ability to continue to implement and improve operational, financial and management information systems and internal controls on a timely basis and to expand, train, motivate and manage our workforce which may place significant demands on our management, financial and other resources. We cannot assure you that our personnel, systems, procedures and controls will be adequate to support our future growth. Failure to effectively manage our expansion may lead to increased costs and reduced profitability and may adversely affect our growth prospects. Although, we have not faced any such instance of failure to implement our strategies, there can be no assurance that we will be able to achieve our business strategy, on time and within our estimated budget, or that our expansion and development plans will increase our profitability. Our inability to manage our business and implement our growth strategy could have a material adverse effect on our business, financial condition and profitability.

30. ***Our Company's manufacturing activities are labour intensive and depend on availability of labour. In case of unavailability of such labour, our business operations could be affected.***

Our operations and manufacturing process are labour intensive and depends on our ability to retain labour. In case such labour is unavailable or we are unable to identify and retain such labour, our business could be adversely affected. We cannot guarantee that we may be able to continue with the same labourers on favourable terms or at all. Any such failure may impact the operations, business process and profitability. Additionally, we have seen an increasing trend in manpower costs in India, which has had a direct impact on our employee costs and consequently, on our margins. Further, the minimum

wage laws in India may be amended leading to upward revisions in the minimum wages payable in one or more states. We may need to increase compensation and other benefits in order to attract and retain key personnel in the future and that may materially affect our costs and profitability. We cannot assure you that as we continue to grow our business in the future, our employee costs and wages coupled with operating expenses will not significantly increase.

31. *Information relating to historical installed capacity of our manufacturing facility included in this Draft Red Herring Prospectus is based on various assumptions and estimates and our future manufacturing operations and capacity utilization may vary. Under-utilization of our existing manufacturing facility and an inability to effectively utilize our manufacturing capacities could have an adverse effect on our business, future prospects, and future financial performance.*

Information relating to our historical installed capacity of our manufacturing facility included in this Draft Red Herring Prospectus is based on various assumptions and estimates of our management and independent chartered engineer, namely, M/s. Patcon Consultancy, Mr. Babulal A. Ughreja, pursuant to their certificate dated March 20, 2026.

Actual and future manufacturing volumes and capacity utilization rates may differ significantly from the estimated manufacturing capacities of our units. Undue reliance should therefore not be placed on the information relating to our installed capacities or historical capacity utilization of our manufacturing units included in this Draft Red Herring Prospectus. Further, there is no guarantee that our future manufacturing or capacity utilization levels will match or exceed our historical levels. Our expected return on capital invested is subject to, among other factors, the ability to ensure satisfactory performance of personnel to further grow our business, our ability to absorb additional infrastructure costs and utilize the expanded capacities as anticipated. The product requirements of, and procurement practice followed by our customers also affect our capacity utilization.

Our ability to maintain our profitability depends on our ability to optimize our product mix, hence, the level of our capacity utilization can impact our operating results. Our capacity utilization levels are dependent on the availability of raw materials, industry/market conditions as well as the requirements of our customers. In the event we face disruptions at our manufacturing units including as a result of labour unrest or we are unable to procure sufficient raw materials, this could result in operational inefficiencies, which could have a material effect on our business and financial condition as we will be unable to achieve full capacity utilization of our current manufacturing units. The success of any capacity expansion and expected return on investment on capital expenditure is subject to, among other factors, the ability to procure requisite regulatory approvals in a timely manner; recruit and ensure satisfactory performance of personnel to further grow our business; and the ability to absorb additional infrastructure costs. For further information, see chapter titled “*Our Business*” under section “*Capacity and Capacity Utilisation*” on page 181. Under-utilization of our manufacturing capacity over extended periods, or significant under-utilization in the short term, could materially and adversely impact our business, growth prospects and future financial performance.

32. *Employee misconduct including misuse of confidential data and failure to maintain confidentiality of information could harm us and is difficult to detect and deter.*

We could be harmed by employee misconduct if our customers’ confidential information is misappropriated by us or our employees, our customers may consider us liable for that act and seek damages and compensation from us, in addition, to seeking termination of the business relationship. While there have been no instances during the period ended on September 30, 2025 and for the financial years ended March 31, 2025, 2024 and 2023, respectively, for information technology breach or instances of cyber-attack, assertions of misappropriation of confidential information or the intellectual property of our customers against us, if successful, could have a material adverse effect on our business, financial condition and results of operations. Even if such assertions against us are unsuccessful, they may cause us to incur reputational harm and substantial cost.

Although we closely monitor our employees, misconduct, including acts of bribery, corruption or fraud by employees or executives, such acts could include binding us to transactions that exceed authorized limits or present unacceptable risks or they may hide unauthorized or unlawful activities from us, which may result in substantial financial losses and damage to our reputation and loss of business from our customers. Employee or executive misconduct could also involve the improper use or disclosure of confidential information, which could result in regulatory sanctions and serious reputational or financial harm, including harm to our reputation. While we have not experienced any such employee misconduct in the past, it is not always possible to deter employee or executive misconduct and the precautions taken and systems put in place to prevent and detect such activities may not be effective in all cases. Any instances of such misconduct could adversely affect our business and our reputation.

33. *Any failure, inadequacy or disruption of our information technology systems or our reliance on manual processes could adversely affect our business operations, financial condition and results of operations.*

Our Company relies on a combination of information technology systems and manual processes to support its operations. We use Tally for accounting and financial reporting, Spine HR for human resource-related functions, and certain enterprise resource planning (“ERP”) systems for procurement, supply chain activities, invoice processing and goods receipt note (GRN) processing. In addition, we utilize design-oriented software such as AutoCAD and NX for product design, development and technical simulations. We also continue to rely on certain manual processes and standalone systems across various operational areas. However, our IT infrastructure is not fully integrated across all key business function, as a result, our operations depend, to a certain extent, on manual intervention and fragmented systems, which may limit real-time visibility and coordination across departments.

Any failure, malfunction, disruption, or security breach affecting our IT systems, including accounting, HR, ERP or design platforms, or any errors arising from manual processes or standalone systems, could adversely impact our business. Such events may result in data loss, system downtime, inaccuracies in financial reporting, delays in processing transactions, disruption of production or supply chain activities, and weakening of internal controls. Additionally, our reliance on manual processes increases the risk of human error, duplication of work, fraud, and inefficiencies.

Further, we may also be exposed to risks relating to cybersecurity threats, including unauthorized access, data breaches, malware attacks, and other forms of cyber incidents, which could compromise sensitive business and employee information. Any such incidents may lead to reputational damage, regulatory scrutiny, financial losses, and potential legal liabilities.

Moreover, our current IT systems may not be adequate to support the requirements of a growing organization or increased transaction volumes. As our operations expand, we may be required to incur significant capital expenditure and deploy management time and resources to upgrade, replace or integrate more robust and comprehensive IT systems. There can be no assurance that such upgrades or implementations will be completed on time, within budget, or without disruption to our existing operations. Any failure or delay in successfully implementing or transitioning to enhanced systems could result in operational inefficiencies, data inconsistencies, and temporary disruptions to our business.

34. *Our loan agreements with lender have several restrictive covenants and certain unconditional rights in favour of the lender, which could influence our ability to expand, in turn affecting our business and results of operations.*

We have entered into agreements for short term and long-term borrowings with lenders of our Company. The total amounts outstanding and payable by us as secured loans were ₹ 2,719.82 Lakhs as on January 31, 2026. The credit facilities availed by our Company are secured by way of mortgage of immovable properties of company, its promoter and promoter group, hypothecation of movable assets. There may have been instances of delay in payment of our dues in time to the banks, in case we are not able to pay our dues in time, the same may amount to a default under the loan documentation and all the penal and termination provisions therein would get triggered and the loans granted to the Company may be recalled with penal interest. This could severely affect our operations and financial condition.

In addition to the above some of the financing arrangements entered into by us include conditions that require our Company to obtain consents/NOCs from respective lenders prior to carrying out certain activities and entering into certain transactions. Failure to meet these conditions or obtain these consents/NOCs could have significant consequences on our business and operations. These covenants vary depending on the requirements of the financial institution extending such loan and the conditions negotiated under each financing agreement. Some of the corporate actions require prior consents/NOCs from or intimations to certain lenders. For details, please see “*Financial Indebtedness*” on page 295. While we all relevant consents/NOCs required for the purposes of this Issue and have complied with these covenants, a failure to comply with such covenants in the future may restrict or delay certain actions or initiatives that we may propose to take from time to time. While we have not defaulted on any covenants, we cannot assure you that this will continue to be the case in the future, which may in turn adversely affect our business, results of operations, cash flows and financial condition. If the obligations under any of our financing arrangements are accelerated, we may have to dedicate a portion of our cash flow from operations to make payments under such financing documents, thereby reducing the availability of cash for our working capital requirements and other general corporate purposes.

Any failure to comply with any condition or covenant under our financing agreements that is not waived by the lending banks or is not otherwise cured by us, may lead to a termination of our credit facilities, acceleration of all amounts due under the said credit facility, which may adversely affect our ability to conduct our business and operations or implement our business plans. Further, the said credit facilities can be renewed/enhanced/cancelled/suspended/reduced and the terms and conditions of the same can be altered by the lending banks, at their discretion. In the event, the lending banks refuse to renew / enhance the credit facilities and/or cancels / suspends / reduces the said credit facilities and/or alters the terms and conditions to the derogation of our Company, our existing operations as well as our future business prospects and financial condition may be severely affected.

35. *Unsecured loans taken by our Company can be recalled by the lenders at any time.*

As on January 31, 2026, our Company has unsecured loans amounting to ₹ 185.21 lakhs from promoters and directors for day to day business operations that are repayable on demand to the relevant lender. For further details, please refer “*Financial Indebtedness*” on page 295 of this Draft Red Herring Prospectus. These loans are not repayable in accordance with any agreed repayment schedule and may be recalled by the relevant lender at any time. In such cases, our Company may be required to repay the entirety of the unsecured loans together with accrued interest. Our Company may not be able to generate sufficient funds at short notice to be able to repay such loans and may resort to refinancing such loans at a higher rate of interest and on terms not favourable to it. Failure to repay unsecured loans in a timely manner may have a material adverse effect on our business, cash flows and financial condition.

36. *Our Promoters have provided personal guarantees to certain loan facilities availed by us, which if revoked may require alternative guarantees, repayment of amounts due or termination of the facilities.*

Our Promoters have provided personal guarantees in relation to certain loan facilities availed of by us. In the event that any of these properties or guarantees are revoked by promoters, the lenders for such facilities may require alternate properties as mortgages/guarantees, repayment of amounts outstanding under such facilities, or may even terminate such facilities. We may not be successful in procuring alternative properties/guarantees satisfactory to the lenders, and as a result may need to repay outstanding amounts under such facilities or seek additional sources of capital, which may not be available on acceptable terms or at all and any such failure to raise additional capital could affect our operations and our financial condition. For more information, please see the chapter titled “*Financial Indebtedness*” beginning on page 295 of this Draft Red Herring Prospectus.

37. *Any increase in interest rates would have an adverse effect on our results of operations and will expose our Company to interest rate risks.*

We are dependent upon the availability of equity, cash balances and debt financing to fund our operations and growth. Any fluctuations in interest rates may directly impact the interest costs of such loans and, in particular, any increase in interest rates could adversely affect our results of operations. Furthermore, our indebtedness means that a material portion of our expected cash flow may be required to be dedicated to the payment of interest on our indebtedness, thereby reducing the funds available to us for use in our general business operations. If interest rates increase, our interest payments will increase and our ability to obtain additional debt and non-fund-based facilities could be adversely affected with a concurrent adverse effect on our business, financial condition and results of operations. For further details, please refer chapter titled “*Financial Indebtedness*” beginning on page 295 of this Draft Red Herring Prospectus.

38. *Our success largely depends upon the knowledge and experience of our Promoters, Directors, our Key Managerial Personnel and Senior Management as well as our ability to attract and retain them. Any loss of our Promoter, Directors, Key Managerial Personnel, Senior Management or our ability to attract and retain them could adversely affect our business, financial condition and results of operations.*

Our success is significantly dependent on the continued services, expertise, and performance of our Promoters, Directors, Key Managerial Personnel and Senior Management, particularly those with expertise related to our industry. Their industry knowledge and experience play a vital role in driving our strategic vision, managing day-to-day operations and ensuring successful company performance. Additionally, our ability to attract, hire, train and retain skilled and experienced personnel across manufacturing, sales & marketing, finance and administrative functions is crucial to our business performance and sustainability.

We are dependent on operators, supervisors, labors managing day to day manufacturing operations and other workers for a significant portion of our operations. The success of our operations depends on the availability of and maintaining good relationships with our workforce. Shortage of workforce or disruptions caused by disagreements with workforce could have an adverse effect on our business, results of operations, financial condition. Further we operate in a competitive industry where there is high demand for skilled personnel and we face significant challenges in retaining and attracting qualified talent. Our competitors, including larger or more established companies, may offer more attractive compensation packages, career advancement opportunities or work conditions that could lure away our existing personnel. If we are unable to match such offerings or maintain a conducive and motivating work environment, we may experience increased attrition, which can disrupt our performance, increase recruitment and training costs and reduce overall operational efficiency. If we cannot attract and retain qualified personnel or effectively implement appropriate succession plans, it could have a material adverse impact on our business, financial condition, and results of operations. Moreover, we may be unable to manage knowledge developed internally, which may be lost in the event of our inability to retain employees. Our operations are human capital intensive, and we are highly dependent on our skilled and unskilled personnel for our business operations due to which we

have experienced a high attrition rate in recent years, which has affected workforce continuity and increased our recruitment and training expenses.

The following table sets forth the attrition rate of our employees during the periods indicated:

Particulars	For the period ended on February 28, 2026	As at March 31, 2025	As at March 31, 2024	As at March 31, 2023
No. of employees at the beginning of the period	123	48	33	23
No. of employees added during the period	103	88	26	13
No. of employees left during the period	38	13	11	3
No. of employees remaining at the closure of the period	188	123	48	33
Attrition Rate %*	20.21%	10.57%	22.92%	9.09%

* Calculated by dividing number of employees left by the number of employees as at respective periods.

As certified by our Auditor vide their certificate dated March 30, 2026.

For further information, please see “Our Management” on page 208 of this Draft Red Herring Prospectus.

39. *Our Company has entered into related party transactions in the past and may continue to enter into related party transactions in the future, which may potentially involve conflicts of interest with the equity shareholders.*

Our Company have entered into certain related party transactions with our Promoters, members of the promoter group, Directors in the past which are in compliance with applicable provisions of Companies Act, 2013 and other applicable laws. Following are the details of transactions with related parties of the Company as defined in AS 18 along with the percentage of total related party transaction to total revenue from operations for the respective periods:

The Percentage of total related party transaction to total revenue is as follows:

For further details, please see “*Restated Financial Statements – Annexure 31 - Restated Statement of Related Party Transactions*” beginning on page 236236 of this Draft Red Herring Prospectus.

While our Company believes that all related party transactions have been conducted on an arm’s length basis and as per the Companies Act, 2013 and other applicable laws, there can be no assurance that it could not have been achieved on more favourable terms had such transactions not been entered into with unrelated parties. Further, it is likely that we may enter into related party transactions in the future and such transactions may potentially involve conflicts of interest. In terms of the Companies Act, 2013 and SEBI LODR Regulations, we are required to adhere to various compliance requirements such as obtaining prior approvals from our Audit Committee, Board and Shareholders for certain related party transactions and we undertake that such related party transactions shall not be done against the interests of the Company and its shareholders as prescribed in the SEBI LODR Regulations. There can be no assurance that such transactions, individually or in the aggregate, will not have an adverse effect on our financial condition and results of operations.

40. *If we are unable to establish and maintain an effective internal controls and compliance system, our business and reputation could be adversely affected.*

We are responsible for establishing and maintaining adequate internal measures commensurate with the size and complexity of operations. Our internal audit functions make an evaluation of the adequacy and effectiveness of internal systems on an ongoing basis so that our operations adhere to our policies, compliance requirements and internal guidelines. We periodically test and update our internal processes and systems and there have been no past material instances of failure to maintain effective internal controls and compliance system. However, we are exposed to operational risks arising from the potential inadequacy or failure of internal processes or systems, and our actions may not be sufficient to ensure effective internal checks and balances in all circumstances.

We take reasonable steps to maintain appropriate procedures for compliance and disclosure and to maintain effective internal controls over our financial reporting so that we produce reliable financial reports and prevent financial fraud. As risks evolve and develop, internal controls must be reviewed on an ongoing basis. While our code of conduct requires our employees and intermediaries to comply with all applicable laws, and we continue to enhance our policies and procedures in an effort to ensure compliance with applicable laws and regulations. If we are not in compliance with applicable laws, we may be subject to criminal and civil penalties, disgorgement and other sanctions and remedial measures, and legal expenses, which could have an adverse impact on our business, financial condition and results of operations. Likewise, any investigation of any potential violations of laws by the relevant authorities could also have an adverse impact on our business and reputation.

41. *Our insurance coverage may not adequately protect us against certain operating risks inherent in our business operations. Any uninsured loss or liability could adversely affect our business, financial condition, results of operations and cash flows.*

Our business operations are exposed to various risks including product defects, equipment malfunction or breakdown, property damage, fire, workplace accidents, theft, loss or damage of goods during transit, natural disasters and other unforeseen events. While we maintain appropriate insurance coverage for our current operations, our insurance coverage is limited in scope and may not be sufficient to cover all potential risks or losses. We currently maintain certain insurance policies which primarily provide coverage for specific risks such as loss or damage to raw materials, stocks, machinery, fire-related incidents and employee compensation risk. The table sets forth the details of amount of assets insured and insured amount as a percentage of total assets of the company for the period ended on September 30, 2025 and for financial years ended March 31, 2025, March 31, 2024 and March 31, 2023 are as follows:

(₹ in Lakhs, except percentage)

Particular	For the period ended on September 30, 2025	For the year ended on March 31, 2025	For the year ended on March 31, 2024	For the year ended on March 31, 2023
Total Assets (PPE)	5,018.52	4,128.80	2,026.80	9,69.78

% of insurance coverage	100.00%	100.00%	91.59%	100.00%

**Total Insured Assets consists of Property, Plant & Equipment and Inventory.*

As certified by our Auditor vide their certificate dated March 30, 2026.

For the period ended on September 30, 2025 and for the financial years ended March 31, 2025, 2024 and 2023, there have been no past instances of insurance claim made by the Company. However, our insurance coverage may not cover all risks associated with our operations, and the coverage limits under such policies may not be adequate to fully compensate us for losses arising from significant or catastrophic events. In the event of a major accident, fire, environmental incident, product-related claim or any other uninsured or underinsured event, we may be required to bear the resultant losses, liabilities or expenses ourselves, which could materially and adversely affect our business, financial condition, results of operations and cash flows.

Further, even where risks are insured, there can be no assurance that claims made by us will be accepted in full or settled in a timely manner. We may face delays in claim settlement, partial recovery of losses, disputes with insurers regarding policy interpretation, exclusions or coverage limits, or increased deductibles. In addition, the renewal of our insurance policies is subject to payment of premiums, compliance with policy terms and conditions and prevailing market conditions. There can be no assurance that such insurance coverage will continue to be available on commercially acceptable terms or at all, or that future premiums will not increase significantly. Any uninsured or underinsured loss, delay or shortfall in insurance recoveries, inability to renew existing policies, or material increase in insurance costs could have a material adverse effect on our business operations, financial condition, results of operations and cash flows.

42. *The deployment of funds raised through this Issue shall not be subject to any Monitoring Agency and shall be purely dependent on the discretion of the management of our Company.*

As per SEBI (ICDR) Regulations, 2018, as amended, appointment of monitoring agency is required only for Issue size above ₹ 5,000.00 Lakhs. Hence, we have not appointed any monitoring agency to monitor the utilization of Issue proceeds and our company will have full discretion in respect of issue proceeds. However, audit committee will monitor the utilization of the proceeds of this Issue and prepare the statement for utilization of the proceeds of this Issue and as per regulation 262(5) of SEBI (ICDR) regulations 2018, we shall submit a certificate of the statutory auditor for utilization of money raised through the public issue to exchange while filing the quarterly financial results, till the issue proceeds are fully utilized. Further, our Company shall inform about material deviations in the utilization of Issue proceeds to the stock exchange and shall also simultaneously make the material deviations / adverse comments of the audit committee public.

43. *We have not made any alternate arrangements for meeting our capital requirements for the Objects of the Issue. Any shortfall in raising / meeting the same could adversely affect our growth plans, operations and financial performance.*

As on date, we have not made any alternate arrangements for meeting our capital requirements for the objects of the Issue. We meet our capital requirements through our bank finance, unsecured loans, owned funds and internal accruals. Any shortfall in our net owned funds, internal accruals and our inability to raise debt in future would result in us being unable to meet our capital requirements, which in turn will negatively affect our financial condition and results of operations. Further we have not identified any alternate source of funding and hence any failure or delay on our part to raise money from this Issue or any shortfall in the Issue proceeds may delay the implementation schedule and could adversely affect our growth plans. For further details please refer to the chapter titled “Objects of the Issue” beginning on page 106 of this Draft Red Herring Prospectus.

44. *We propose to repay or prepay of certain outstanding borrowings availed by our Company. However, no assurance can be made that our Company will not require further funding and that such funding will be available at attractive rates or that by repaying the borrowings, will in fact improve our available funding alternatives.*

Our Company has entered into financial arrangements from time to time, with various banks and financial institutions. The outstanding loan facilities entered into by our Company include secured and unsecured borrowing in the form of loan against property belongs to our company, our promoters and their relatives and personal guarantees of the Promoters. For further details, please refer “Financial Indebtedness” on page 295 of this Draft Red Herring Prospectus. As on January 31, 2026, the aggregate outstanding secured borrowings of our Company, is ₹ 2,719.82Lakhs. Our Company proposes to utilize an estimated amount of ₹ 672.00 Lakhs from the Net Proceeds towards part or full repayment and/or prepayment of borrowings availed by us. For details, see “Objects of the Issue” on page 106. We believe that such repayment or prepayment

will help reduce the outstanding indebtedness of our Company. In addition, we believe that this would help reduce our outstanding indebtedness and our debt servicing costs and enable utilization of our internal accruals for further investment in the growth and expansion of its business. However, no assurance can be made that our Company will not require further funding and that such funding will be available at attractive rates or that by repaying the borrowings, will in fact improve our available funding alternatives.

45. *Promoters and Directors do not have experience of being a director of a public listed company.*

The Promoters and directors of our Company do not have the experience of having held directorship of public listed company. Accordingly, they have limited exposure to management of affairs of the listed company which inter-alia entails several compliance requirements and scrutiny of affairs by shareholders, regulators and the public at large that is associated with being a listed company. As a public listed company, the Company will require to adhere strict standards pertaining to accounting, corporate governance and reporting that it did not require as an unlisted company. The Company will also be subject to the SEBI Listing Regulations, which will require it to file audited annual report and unaudited half yearly reports with respect to its business and financial condition. If the Company experiences any delays, we may fail to satisfy its reporting obligations and/or it may not be able to readily determine and accordingly report any changes in its results of operations as promptly as other listed companies.

Further, as a publicly listed company, the Company will need to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, including keeping adequate records of daily transactions. In order to maintain and improve the effectiveness of the Company's disclosure controls and procedures and internal control over financial reporting, significant resources and management attention will be required. As a result, the Board of Directors of the Company may have to provide increased attention to such procedures and their attention may be diverted from our business concerns, which may adversely affect our business, prospects, results of operations and financial condition. In addition, we may need to hire additional legal and accounting staff with appropriate experience and technical accounting knowledge, but we cannot assure you that we will be able to do so in a timely and efficient manner.

46. *Industry information included in this Draft Red Herring Prospectus has not been commissioned by our Company and has been sourced from third-party reports. There can be no assurance that such statistical, financial and other industry information is complete or accurate.*

We have not commissioned any industry-specific report exclusively for the purpose of this Draft Red Herring Prospectus. We have relied on the reports of Indian Brand Equity Foundation (Manufacturing Sector, Industry Report: www.ibef.org) for purposes of inclusion of such information in this Draft Red Herring Prospectus. The sources from where the industry information is extracted and included in this Draft Red Herring Prospectus are also been duly mentioned in the chapter titled "Industry Overview" on page 133 of this Draft Red Herring Prospectus. These reports are subject to various limitations and based upon certain assumptions that are subjective in nature. We have not independently verified data from such industry reports and other sources. Although, we believe that the data may be considered to be reliable, their accuracy, completeness and underlying assumptions are not guaranteed and their dependability cannot be assured. While we have taken reasonable care in the reproduction of the information, the information has not been prepared or independently verified by us, or any of our respective affiliates or advisors and, therefore, we make no representation or warranty, express or implied, as to the accuracy or completeness of such facts and statistics. Due to possibly flawed or ineffective collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced for other economies and should not be unduly relied upon. 47. *Any failure to compete effectively in the highly competitive forged and machined components industry could have a material adverse effect on our business, financial condition, results of operations and cash flows.*

We face competition in India and overseas in our business, which is based on many factors, including product quality and reliability, breadth of product range, product design and innovation, technology, manufacturing capabilities, scope and quality of service, price and brand recognition. Some of our competitors may have certain advantages, including greater financial, technical and/ or marketing resources, which could enhance their ability to finance acquisitions, fund international growth, respond more quickly to technological changes and/ or operate in more diversified geographies and product portfolios. Some of our competitors may be able to produce similar or equivalent products at lower costs than we can produce them. Accordingly, we may not be able to compete effectively with our competitors or may be required to reduce prices to remain competitive, which may have an adverse effect on our business, profitability margins, financial condition, results of operations and cash flows. Further, manufacturers that do not currently compete with us could expand their product portfolios to include products that would compete directly with ours. Changes in the product focus of larger

manufacturers who may have an existing relationship with our customers that may reduce or entirely replace our business with those customers

48. *Our Promoters, Key Managerial Personnel and Senior Management Personnel hold Equity Shares in our Company and are therefore interested in our Company's performance other than remuneration and reimbursement of expenses.*

our Promoters, key managerial personnel and senior management personnel are interested in our Company, in addition to regular remuneration or benefits and reimbursement of expenses, to the extent of their shareholding in our Company. For further details, see “*Our Management*” on page 208 of this Draft Red Herring Prospectus. There can be no assurance that our promoters, key managerial personnel and senior management personnel will exercise their rights as shareholders to the benefit and best interest of our Company. Further, our Promoters will continue to exercise significant control over us, including being able to control the composition of our Board and determine decisions requiring simple or special majority voting of shareholders, and our other shareholders may be unable to affect the outcome of such voting. Our Promoters may take or block actions with respect to our business, which may conflict with the best interests of our Company or that of minority shareholders.

49. *The average cost of acquisition of Equity Shares held by our Promoters could be lower than the Issue Price.*

Our Promoters’ average cost of acquisition of Equity Shares in our Company may be lower than the Issue Price determined by the Company in consultation with the Book Running Lead Manager. For further details regarding average cost of acquisition of Equity Shares by our Promoters in our Company and build-up of Equity Shares by our Promoters in our Company, please refer to the chapter titled “*Capital Structure*” on page 87 of this Draft Red Herring Prospectus.

50. *We may not be successful in implementing our business strategies. Any failure or delay in implementing our business strategies would have a material adverse effect on our business and results of operations.*

The success of our business depends substantially on our ability to implement our business strategies effectively and in a timely manner. While we have successfully executed certain business strategies in the past, there can be no assurance that we will be able to replicate such success in the future. Our business strategies are dependent on several internal and external factors, many of which are beyond our control. Any failure or delay in implementing these strategies could adversely affect our growth prospects, revenues, profitability, and overall business performance.

Our business strategies primarily include expanding our business and geographical footprint, focusing on enhancing our brand image and purchase of machinery. The successful execution of these strategies involves significant planning, capital expenditure and operational coordination and is subject to several risks and uncertainties as stated below:

- **Regulatory and compliance risks:**

Our operations are subject to various environmental, health, and safety regulations, including laws relating to pollution control, fire safety, occupational safety, scrap handling and product safety. Non-compliance, changes in regulatory requirements, or delays in obtaining approvals may result in penalties, operational disruptions, or increased compliance costs, which could adversely affect our business and growth plans.

- **Technology risks:**

Our industry is driven by continuous process improvements. If we are unable to adopt new technologies or upgrade our processes in line with market trends and customer expectations, our competitiveness may be adversely affected.

- **Execution risks:**

Our expansion plans require timely availability of, raw materials, machinery, equipment, manpower and financing. Any delay in procurement, cost overruns, or execution inefficiencies may adversely impact the schedule and financial viability of our projects.

- **Supply chain and raw material risks:**

Our operations depend on reliable and cost-effective procurement of raw materials. Volatility in prices, shortage of critical inputs or disruption in supply chain logistics could hinder our ability to execute our business strategies efficiently.

- **Human resource risks:**

Implementation of our strategies requires skilled and technical personnel, managerial talent and trained manpower. Inability to attract, retain or effectively utilize qualified professionals could impede execution.

If we are unable to implement our business strategies in a timely manner, within estimated costs or in line with market conditions and customer requirements, our business operations, financial condition, results of operations, cash flows and future prospects may be materially and adversely affected.

51. *Any negative publicity or adverse public perception, whether substantiated or not, against our Company could have a material adverse effect on our financial condition, results of operations and business prospects.*

In the ordinary course of our business, we interact with various stakeholders, including customers, suppliers, vendors, and employees. As a result, we are exposed to the risk of negative publicity arising from dissatisfaction, grievances, disputes or operational issues involving any of these stakeholders. Such negative publicity may arise from a variety of factors, including, but not limited to customer or supplier disputes, product quality concerns, delays in order fulfillment, labour-related issues or allegations regarding our business practices. Any adverse statements, complaints, allegations or reports, whether accurate, exaggerated or unfounded could result in negative public perception of our Company. In particular, adverse publicity disseminated through traditional media, digital platforms or social media channels may spread rapidly and could damage our brand reputation and credibility. Such events may lead to loss of existing customers, difficulty in acquiring new customers, strained relationships with suppliers and business partners, and reduced confidence among investors and other stakeholders.

Further, responding to negative publicity may require us to devote significant management time and resources, incur additional costs and implement corrective or remedial measures, which could divert attention from our core business operations. Even if such allegations or claims are ultimately proven to be without merit, the resultant reputational harm and disruption could have a material adverse effect on our business operations, financial condition, results of operations and future prospects. Accordingly, any sustained negative publicity or adverse public perception against our Company, whether substantiated or not, could materially and adversely affect our business, financial condition, results of operations and prospects.

52. *Our Company's ability to pay dividends in the future will depend on our Company's future results of operations, financial condition, cash flows and working capital and capital expenditure requirements.*

We may retain all our future earnings, if any, for use in the operations and expansion of our business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors and will depend on factors that our Board of Directors deem relevant, including among others, our results of operations, financial condition, cash requirements, business prospects and any other financing arrangements. There can be no assurance that our Equity Shares will appreciate in value. For details of our dividend history, see "Dividend Policy" beginning on page 235 of this Draft Red Herring Prospectus.

53. *Our Promoters and Promoter Group will continue to retain a majority shareholding in our Company after the Issue, which will allow them to determine the outcome of matters submitted to shareholders for approval.*

After the completion of the Issue, our Promoters and Promoter Group is expected to hold [●]% of the Post Issue Equity Share Capital. Further, the involvement of our Promoters in our operations, including through strategy, direction and customer relationships have been integral to our development and business and the loss of any of our Promoters may have a material adverse effect on our business and prospects.

Accordingly, our Promoters and Promoter Group will continue to exercise significant influence over our business and all matters requiring shareholders' approval, including the composition of our Board of Directors, the adoption of amendments to our constitutional documents, the approval of mergers, strategic acquisitions or joint ventures or the sales of substantially all of our assets, and the policies for dividends, investments and capital expenditures. This concentration of ownership may also delay, defer or even prevent a change in control of our Company and may make some transactions more difficult or impossible without the support of our Promoters and Promoter Group. Further, the Promoters' shareholding may limit the ability of a third party to acquire control. The interests of our Promoters and Promoter Group, as our Company's controlling shareholder, could conflict with our Company's interests, your interests or the interests of our other shareholders. There is no assurance that our Promoters and Promoter Group will act to resolve any conflicts of interest in our Company's or in investor favor.

54. *Growing environmental, social, and governance (ESG) compliance requirements and sustainability expectations from stakeholders may necessitate significant additional investments and operational changes which could materially and adversely affect our business, financial condition, results of operations.*

We are subject to a rapidly evolving landscape of ESG regulations and increased sustainability expectations from customers, investors, regulators and the general public regarding our sustainability performance and ethical business practices. These evolving expectations and regulatory frameworks, such as the SEBI's Business Responsibility and Sustainability Reporting (BRSR) framework, could expose us to additional investment and operational changes. We may be required to comply with reporting obligations, including detailed disclosures on environmental and social performance. Meeting these requirements necessitates substantial investments in data collection systems, internal expertise, and potentially third-party assurance or assessment services to verify data accuracy. These costs can be significant, and we may be unable to fully bear them or pass them on to our customers, which could compress our operating margins.

Further aligning our operations with enhanced sustainability standards may require changes to our business model, strategies, and manufacturing processes. For instance, transitioning to sustainable raw materials or renewable energy sources might involve significant capital expenditures and potential disruptions to our production timelines. We may not be able to implement these changes efficiently or cost-effectively. Any failure to meet perceived sustainability standards or the occurrence of negative ESG events (such as environmental incidents, labor rights violations, or governance lapses) could result in negative publicity, reputational harm, and loss of customer and investor confidence.

55. *Significant differences exist between Indian GAAP and other accounting principles, such as US GAAP and IFRS, which may be material to investors assessments of our Company's financial condition. Our failure to successfully adopt IFRS may have an adverse effect on the price of our Equity Shares. The proposed adoption of IFRS could result in our financial condition and results of operations appearing materially different than under Indian GAAP.*

Our restated financial statements, including the financial statements provided in this Draft Red Herring Prospectus, are prepared in accordance with Indian GAAP. We have not attempted to quantify the impact of IFRS or U.S. GAAP on the financial data included in this Draft Red Herring Prospectus, nor do we provide a reconciliation of our financial statements to those of U.S. GAAP or IFRS. U.S. GAAP and IFRS differ in significant respects from Indian GAAP. For details, refer chapter titled "*Presentation of Financial Industry and Market Data*" beginning on page 22 of this Draft Red Herring Prospectus.

Accordingly, the degree to which the Indian GAAP financial statements included in this Draft Red Herring Prospectus will provide meaningful information is entirely dependent on the reader's level of familiarity with Indian accounting practices. Any reliance by persons not familiar with Indian accounting practices on the financial disclosures presented in this Draft Red Herring Prospectus should accordingly be limited. India has decided to adopt the "Convergence of its existing standards with IFRS" and not the "International Financial Reporting Standards" ("IFRS"), which was announced by the MCA, through the press note dated January 22, 2010. These "IFRS based / synchronized Accounting Standards" are referred to in India as IND (AS). Public companies in India, including our Company, may be required to prepare annual and interim financial statements under IND (AS). The MCA, through a press release dated February 25, 2011, announced that it will implement the converged accounting standards in a phased manner after various Offers, including tax related issues, are resolved. Further, MCA Notification dated February 16, 2015, has provided an exemption to the Companies proposing to list their shares on the SME Exchange as per Chapter IX of the SEBI ICDR Regulations and hence the adoption of IND (AS) by a SME exchange listed Company is voluntary. Accordingly, we have made no attempt to quantify or identify the impact of the differences between Indian GAAP and IFRS or to quantify the impact of the difference between Indian GAAP and IFRS as applied to its financial statements. There can be no assurance that the adoption of IND-AS will not affect our reported results of operations or financial condition. Any failure to successfully adopt IND-AS may have an adverse effect on the trading price of our Equity Shares. Currently, it is not possible to quantify whether our financial results will vary significantly due to the convergence to IND (AS), given that the accounting principles laid down in the IND (AS) are to be applied to transactions and balances carried in books of accounts as on the date of the applicability of the converged standards, i.e., IND (AS) and for future periods.

Moreover, if we volunteer for transition to IND (AS) reporting, the same may be hampered by increasing competition and increased costs for the relatively small number of IND (AS)-experienced accounting personnel available as more Indian companies begin to prepare IND (AS) financial statements. Any of these factors relating to the use of converged Indian Accounting Standards may adversely affect our financial condition.

56. *Subsequent to the listing of the Equity Shares, we may be subject to pre-emptive surveillance measures such as the Additional Surveillance Measures and the Graded Surveillance Measures by the Stock Exchanges in order to enhance the integrity of the market and safeguard the interest of investors.*

Subsequent to the listing of the Equity Shares, we may be subject to Additional Surveillance Measures ("ASM") and Graded Surveillance Measures ("GSM") by the Stock Exchanges. These measures are in place to enhance the integrity of the market and safeguard the interest of investors. The criteria for shortlisting any security trading on the Stock Exchanges for ASM

is based on objective criteria, which includes market-based parameters such as high low-price variation, concentration of client accounts, close to close price variation, market capitalization, average daily trading volume and its change, and average delivery percentage, among others. Securities are subject to GSM when its price is not commensurate with the financial health and fundamentals of the issuer. Specific parameters for GSM include net worth, net fixed assets, price to earnings ratio, market capitalization and price to book value, among others. Factors within and beyond our control may lead to our securities being subject to GSM or ASM. In the event our Equity Shares are subject to such surveillance measures implemented by any of the Stock Exchanges, we may be subject to certain additional restrictions in connection with trading of our Equity Shares such as limiting trading frequency (for example, trading either allowed once in a week or a month) or freezing of price on upper side of trading which may have an adverse effect on the market price of our Equity Shares or may in general cause disruptions in the development of an active trading market for our Equity Shares.

EXTERNAL RISKS

57. An investment in the Equity Shares is subject to general risk related to investments in Indian Companies.

Our Company is incorporated in India and all of our assets and employees are located in India. Consequently, our business, results of operations, financial condition and the market price of the Equity Shares will be affected by changes in interest rates in India, policies of the Government of India, including taxation policies along with policies relating to industry, political, social and economic developments affecting India.

58. Our Equity Shares have never been publicly traded, and after the Issue, the Equity Shares may experience price and volume fluctuations, and an active trading market for the Equity Shares may not develop. Further, the price of the Equity Shares may be volatile, and you may be unable to resell the Equity Shares at or above the Issue Price, or at all.

Prior to the Issue, there has been no public market for our Equity Shares, and an active trading market may not develop or be sustained after the Issue. Listing and quotation do not guarantee that a market for our Equity Shares will develop or, if developed, does not guarantee the liquidity of such market for the Equity Shares. Our Company and the Book Running Book Running Lead Manager will appoint Market Maker for the equity shares of our Company. However, the trading price of our Equity Shares may fluctuate after this Issue due to a variety of factors, including our results of operations and the performance of our business, competitive conditions, general economic, political and social factors, the performance of the Indian and global economy and significant developments in India's fiscal regime, volatility in the Indian and global securities market, performance of our competitors, the Indian Capital Markets and Finance industry, changes in the estimates of our performance or recommendations by financial analysts and announcements by us or others regarding contracts, acquisitions, strategic partnership, joint ventures, or capital commitments. Investors might not be able to rapidly sell the Equity Shares at the quoted price if there is no active trading in the Equity Shares. The Issue Price of the Equity Shares will be determined by our Company in consultation with the BRLM through the Book Building Process.

59. The determination of the Price Band is based on various factors and assumptions and the Issue Price of the Equity Shares may not be indicative of the market price of the Equity Shares upon listing on the Stock Exchange.

The determination of the Price Band is based on various factors and assumptions, and will be determined by our Company in consultation with the Book Running Book Running Lead Manager. Furthermore, the Issue Price of the Equity Shares will be determined by our Company in consultation with the Book Running Book Running Lead Manager through the Book Building Process. These will be based on numerous factors, including those described under "Basis for Issue Price" on page 121 of this Draft Red Herring Prospectus, and may not be indicative of the market price of the Equity Shares upon listing on the Stock Exchange. The price of our Equity Shares upon listing on the Stock Exchange will be determined by the market and may be influenced by many factors outside of our control.

60. There is no guarantee that the Equity Shares issued pursuant to the Issue will be listed on the NSE Emerge Platform in a timely manner or at all.

In accordance with Indian law and practice, permission for listing and trading of the Equity Shares issued pursuant to the Issue will not be granted until after the Equity Shares have been issued and allotted. Approval for listing and trading will require all relevant documents authorizing the issuing of Equity Shares to be submitted. There could be a failure or delay in listing the Equity Shares on the NSE Emerge. Any failure or delay in obtaining the approval would restrict your ability to dispose of your Equity Shares.

61. Any future issuance of Equity Shares may dilute your shareholding and sale of our Equity Shares by our Promoters or other shareholders may adversely affect the trading price of the Equity Shares.

Any future equity issuances by us, including in a primary issuance, may lead to the dilution of investors' shareholdings in our Company. Any future equity issuances by us or sales of our Equity Shares by our Promoters or other major shareholders may adversely affect the trading price of the Equity Shares. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of our Equity Shares.

62. *There are restrictions on the overall capping of 90% on the Opening Price/Equilibrium Price discovered during Special Pre-Open session for Initial Public Offer (IPO) on the NSE Emerge platform of the Exchange and also there are restrictions on daily movements in the trading price of the Equity Shares, which may adversely affect a shareholder's ability to sell Equity Shares or the price at which Equity Shares can be sold at a particular point in time.*

Once listed, we would be subject to circuit breakers imposed by the stock exchange, which does not allow transactions beyond specified increases or decreases in the price of the Equity Shares. This circuit breaker operates independently of the index-based market-wide circuit breakers generally imposed by SEBI. The percentage limit on circuit breakers is said by the stock exchange based on the historical volatility in the price and trading volume of the Equity Shares. The stock exchange does not inform us of the percentage limit of the circuit breaker in effect from time to time, and may change it without our knowledge. This circuit breaker limits the upward and downward movements in the price of the Equity Shares. As a result of the circuit breaker, no assurance may be given regarding your ability to sell your Equity Shares or the price at which you may be able to sell your Equity Shares at any time.

63. *Investors may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.*

Under current Indian tax laws, unless specifically exempted, capital gains arising from the sale of equity shares in an Indian company is generally taxable in India. A securities transaction tax ("STT") is levied on and collected by an Indian stock exchange on which equity shares are sold. Any gain realized on the sale of listed equity shares held for more than 12 months may be subject to long-term capital gains tax in India at the specified rates depending on certain factors, such as STT paid, the quantum of gains and any available treaty exemptions. Accordingly, you may be subject to payment of long-term capital gains tax in India, in addition to payment of STT, on the sale of any Equity Shares held for more than 12 months. STT will be levied on and collected by a domestic stock exchange on which the Equity Shares are sold. Further, any gain realized on the sale of our Equity Shares held for a period of 12 months or less will be subject to short-term capital gains tax in India. While non-residents may claim tax treaty benefits in relation to such capital gains income, generally, Indian tax treaties do not limit India's right to impose tax on capital gains arising from the sale of shares of an Indian company.

In terms of the Finance Act, 2024, with effect from July 23, 2024, taxes payable by an assessee on the capital gains arising from transfer of long-term capital assets (introduced as Section 112A of the Income-Tax Act, 1961) shall be calculated on such long-term capital gains at the rate of 12.50%, where the long-term capital gains exceed ₹125,000, subject to certain exceptions in case of resident individuals and Hindu Undivided Families. The stamp duty for transfer of certain securities, other than debentures, on a delivery basis is currently specified at 0.015% and on a non-delivery basis is specified at 0.003% of the consideration amount.

The Government of India announced the Union Budget for Fiscal 2025, pursuant to which the Finance Bill 2025 proposes various amendments. Further, the Income Tax Act, 1961 is proposed to be amended. We cannot predict whether the amendments proposed to be made pursuant to the Finance Act, 2025 or the Income Tax Act, 1961 would have an adverse effect on our business, financial condition, future cash flows and results of operations. More recently, the Union Budget for Fiscal 2026, presented by the Ministry of Finance, has proposed continued rationalisation of tax structures, potential changes in capital gains taxation, and measures impacting capital market transactions and investor participation. Unfavourable changes in or interpretations of existing, or the promulgation of new, laws, rules and regulations including foreign investment and stamp duty laws governing our business and operations could result in us being deemed to be in contravention of such laws and may require us to apply for additional approvals.

64. *Changing regulations in India could lead to new compliance requirements that are uncertain. The regulatory environment in which we operate is evolving and is subject to change.*

The regulatory and policy environment in which we operate is evolving and is subject to change. The GoI may implement new laws or other regulations and policies that could affect our business in general, which could lead to new compliance requirements, including requiring us to obtain approvals and licenses from the Government and other regulatory bodies, or impose onerous requirements.

Additionally, SEBI has issued a notification in the official Gazette vide notification no. SEBI/LAD-NRO/GN/2025/233 dated March 03, 2025 and has amended various regulations of SEBI (Offer of Capital and Disclosure Requirements) Regulations, 2018 and has introduced SEBI (Issue of Capital and Disclosure Requirements) (Amendment), Regulations, 2025, which also includes the amendments pertaining to the SME IPO's for the Company's getting listed over SME

platforms of the stock exchanges which includes, the amendments made in the categories of allocation in case of Book Built Issue and restrictions on the Offer for Sale and such other amendments. We cannot predict whether the amendments made pursuant to the SEBI (Issue of Capital and Disclosure Requirements) (Amendment), Regulations, 2025 would have an adverse effect on our business, financial condition. Unfavourable changes in or interpretations of existing, or the promulgation of new laws, rules and regulations governing our business and operations could result in us being deemed to be in contravention of such laws and may require us to apply for additional approvals.

Further, the Government of India has introduced (a) the Code on Wages, 2019; (b) the Code on Social Security, 2020; (c) the Occupational Safety, Health and Working Conditions Code, 2020; and (d) the Industrial Relations Code, 2020 which consolidate, subsume and replace numerous existing central labour legislations. While the rules for implementation under these codes have not been notified, the implementation of such laws could increase our employee and labour costs, thereby adversely impacting our results of operations, cash flows, business and financial performance.

The application of various Indian tax laws, rules and regulations to our business, currently or in the future, is subject to interpretation by the applicable taxation authorities. For instance, companies can voluntarily opt in favour of a concessional tax regime (subject to no other special benefits/exemptions being claimed), which reduces the rate of income tax payable to 22% subject to compliance with conditions prescribed, from the erstwhile 25% or 30% depending upon the total turnover or gross receipt in the relevant period. Any such future amendments may affect our other benefits such as exemption for income earned by way of dividend from investments in other domestic companies and units of mutual funds, exemption for interest received in respect of tax-free bonds, and long-term capital gains on equity shares if withdrawn by the statute in the future, and the same may no longer be available to us. Any adverse order passed by the appellate authorities/ tribunals/ courts would have an effect on our profitability.

Further, the GoI has announced the union budget for Fiscal 2024, pursuant to which the Finance Bill, 2024 ("Finance Bill"), has introduced various amendments. The Finance Bill has received assent from the President of India on February 15, 2024, and has been enacted as the Finance Act, 2024. We cannot predict whether any amendments made pursuant to the Finance Act, 2024 would have an adverse effect on our business, financial condition and results of operations. Furthermore, changes in capital gains tax or tax on capital market transactions or the sale of shares could affect investor returns. As a result, any such changes or interpretations could have an adverse effect on our business and financial performance.

Additionally, the Union Budget for Fiscal 2025 proposed further changes to tax provisions and capital market regulations. More recently, the Union Budget for Fiscal 2026, presented by the Ministry of Finance, has proposed continued rationalisation of tax structures, potential changes in capital gains taxation, and measures impacting capital market transactions and investor participation. We cannot assure that such amendments or future policy changes will not adversely affect investor sentiment, capital inflows, or our business operations.

Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy in the jurisdictions in which we operate, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may impact the viability of our current business or restrict our ability to grow our business in the future. We may incur increased costs and other burdens relating to compliance with such new requirements, which may also require significant management time and other resources, and any failure to comply may adversely affect our business, financial condition, results of operations and prospects.

65. *Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.*

Under the exchange control regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain restrictions) if they comply with the pricing guidelines and reporting requirements specified by the Reserve Bank of India. If the transfer of shares is not in compliance with such pricing guidelines or reporting requirements or falls under any of the exceptions referred to above, then the approval of the Reserve Bank of India will be required for such transaction to be valid.

Additionally, shareholders who seek to convert Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India require a no-objection or a tax clearance certificate from the Indian income tax authorities. Further, in accordance with Press Note No. 3 (2020 Series), dated April 17, 2020 Issued by the Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India (formerly known as Department of Industrial Policy and Promotion) and the Foreign Exchange Management (Non-debt Instruments) Amendment Rules, 2020 which came into effect from April 22, 2020, any investment, subscription, purchase or sale of equity instruments by entities of a country which shares a land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country, will require prior approval of the Government of

India, as prescribed in the Consolidated FDI Policy and the FEMA Rules. These investment restrictions shall also apply to subscribers of offshore derivative instruments. Neither the Consolidated FDI Policy nor the FEMA Rules provide a definition of the term “beneficial owner”. The interpretation of “beneficial owner” and enforcement of this regulatory change may differ in practice, which may have an adverse effect on our ability to raise foreign capital. We cannot assure you that any required approval from the Reserve Bank of India or any other governmental agency can be obtained on any particular terms or at all.

66. *Natural calamities, climate change and health epidemics could adversely affect the Indian economy and our business, financial condition, and results of operations. In addition, hostilities, terrorist attacks, civil unrest and other acts of violence could adversely affect our business, financial condition and results of operations.*

Our operations including our registered office or manufacturing units may be damaged or disrupted as a result of natural calamities. Such events may lead to the disruption of information systems and telecommunication services for sustained periods. They also may make it difficult or impossible for employees to reach our business locations. Damage or destruction that interrupts our provision of goods and services could adversely affect our reputation, our relationships with our customers, our management team’s ability to administer and supervise our business or it may cause us to incur substantial additional expenditure to repair or replace damaged equipment or rebuild parts of our offices or manufacturing units. Any of the above factors may adversely affect our business, financial condition and results of operations. India has from time-to-time experienced instances of social, religious and civil unrest and hostilities between neighbouring countries. Military activity or terrorist attacks in the future could influence the Indian economy by disrupting communications and making travel more difficult and such political tensions could create a greater perception that investments in Indian companies involve higher degrees of risk. Events of this nature in the future, as well as social and civil unrest within other countries in Asia, could influence the Indian economy and could have a material adverse effect on the market for securities of Indian companies.

67. *Terrorist attacks, civil unrests and other acts of violence or war involving India or other countries could adversely affect the financial markets, our business, financial condition and the price of our Equity Shares.*

India has, in the past, experienced incidents of terrorism and social or political unrest and any future escalation of such events could disrupt economic activity and affect investor confidence. In addition, geopolitical tensions, armed conflicts or instability in neighboring countries or globally including but not limited to hostilities involving major economies or disruptions in global trade may adversely impact financial markets and the performance of Indian capital markets where our Equity Shares will be listed. These events, which are beyond our control, could lead to reduced investor sentiment, impact the movement of capital, delay project execution and affect supply chains, thereby adversely affecting our business, financial condition, cash flows and the market price of our Equity Shares. Furthermore, global events such as the Russia–Ukraine conflict or conflict involving Iran, Israel, and the United States has heightened instability in the Middle East, these events have demonstrated how international developments can have far-reaching implications for emerging markets like India. Any similar events in the future may also impact foreign investment flows, exchange rates and interest rates, all of which could adversely affect our Company’s operations and investor returns.

68. *Our business is substantially affected by prevailing economic, political and other conditions.*

We are incorporated in and substantially all our operations are located in India. As a result, we are highly dependent on prevailing economic conditions in India and our results of operations and cash flows are significantly affected by factors influencing the Indian economy. Factors that may adversely affect the Indian economy, and hence our results of operations and cash flows, may include:

- (a) any increase in Indian interest rates or inflation;
- (b) any exchange rate fluctuations;
- (c) any scarcity of credit or other financing in India, resulting in an adverse impact on economic conditions in India and scarcity of financing for our expansions;
- (d) prevailing income conditions among Indian consumers and Indian corporates;
- (e) volatility in, and actual or perceived trends in trading activity on India’s principal stock exchanges;
- (f) changes in India’s tax, trade, fiscal or monetary policies;
- (g) political instability, terrorism or military conflict in India or in countries in the region or globally, including in India’s various neighbouring countries;
- (h) occurrence of natural or man-made disasters;
- (i) prevailing regional or global economic conditions, including in India’s principal export markets;
- (j) any downgrading of India’s debt rating by a domestic or international rating agency;
- (k) financial instability in financial markets; and
- (l) other significant regulatory or economic developments in or affecting India or its construction sector.

Recent global developments, including continued geopolitical tensions such as the Russia–Ukraine conflict and instability in the Middle East, have contributed to volatility in energy prices, supply chain adjustments, and uncertainty in global financial markets. Additionally, evolving trade policies, inflationary pressures in major economies, and interest rate movements by global central banks have influenced capital flows and currency stability in emerging markets like India. Further, rising tensions along the India–Pakistan border, including escalations in cross-border incidents and diplomatic friction, have raised concerns around regional stability. Any such escalation may lead to heightened geopolitical risks, potential trade disruptions, adverse investor sentiment and volatility in Indian financial markets. The outcome and duration of such geopolitical issues are uncertain and could indirectly affect our business and the broader economy.

In addition, any slowdown or perceived slowdown in the Indian economy, or in specific sectors of the Indian economy, could adversely affect our business, results of operations, cash flows and financial condition and the price of the Equity Shares.

69. Any downgrading of India’s sovereign rating by an independent agency may harm our ability to raise financing.

Any adverse revisions to India’s credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing may be available. This could have an adverse effect on our business and future financial performance, our ability to obtain financing for capital expenditures and the trading price of our Equity Shares.

70. The ability of Indian companies to raise foreign capital may be constrained by Indian law.

As an Indian Company, we are subject to exchange controls that regulate borrowing in foreign currencies, including those specified under FEMA. Such regulatory restrictions limit our financing sources for our projects under development and hence could constrain our ability to obtain financing on competitive terms and refinance existing indebtedness. In addition, we cannot assure you that the required approvals will be granted to us without onerous conditions, or at all. Limitations on foreign debt may adversely affect our business growth, results of operations and financial condition.

71. Financial instability in other countries may cause increased volatility in Indian financial markets.

The Indian financial market and the Indian economy are influenced by economic and market conditions in other countries, particularly in emerging market in Asian countries. Financial turmoil in Asia, Europe, the United States and elsewhere in the world in recent years has affected the Indian economy. Although economic conditions are different in each country, investors’ reactions to developments in one country can have an adverse effect on the securities of companies in other countries, including India. A loss in investor confidence in the financial systems of other emerging markets may cause increased volatility in Indian financial markets and, indirectly, in the Indian economy in general. Any global financial instability, including further deterioration of credit conditions in the U.S. market, could also have a negative impact on the Indian economy. Financial disruptions may occur again and could harm our results of operations and financial condition.

The Indian economy is also influenced by economic and market conditions in other countries. This includes, but is not limited to, the conditions in the United States, Europe and certain economies in Asia. Financial turmoil in Asia and elsewhere in the world in recent years has affected the Indian economy. Any worldwide financial instability may cause increased volatility in the Indian financial markets and, directly or indirectly, adversely affect the Indian economy and financial sector and its business.

Although economic conditions vary across markets, loss of investor confidence in one emerging economy may cause increased volatility across other economies, including India. Financial instability in other parts of the world could have a global influence and thereby impact the Indian economy. Financial disruptions in the future could adversely affect our business, prospects, financial condition and results of operations. The global credit and equity markets have in the past experienced substantial dislocations, liquidity disruptions and market corrections.

72. Inflation in India could have an adverse effect on our profitability and if significant, on our financial condition.

Inflation in India could adversely impact our profitability and, if sustained at elevated levels, may have a material effect on our financial condition. In recent years, India has witnessed inflationary pressures driven by rising crude oil prices, elevated global commodity prices and increased domestic consumer and input costs. Recent geopolitical developments, particularly the ongoing conflict between Russia and Ukraine, have significantly intensified global inflationary pressures, especially in oil and gas markets. Furthermore, the escalating conflict involving Iran, Israel, and the United States has heightened instability in the Middle East. This includes military strikes, retaliatory actions, and threats to critical supply routes such as the Strait of Hormuz, a key global oil transit chokepoint, thereby increasing uncertainty in crude oil supply chains and

contributing to sharp price volatility. These developments have the potential to significantly impact global commodity prices and, consequently, input costs across sectors. Additionally, fluctuations in food and fuel prices, rising logistics costs, and imported inflation due to rupee depreciation continue to exert upward pressure on domestic inflation.

Although the RBI has implemented various monetary policy measures to manage inflation, including repo rate adjustments and liquidity interventions, there is no assurance that such measures will be sufficient or timely. Elevated inflation could increase our operating costs, including expenses relating to procurement of raw materials, construction inputs, logistics and employee compensation. We may not always be able to pass on such cost increases to our clients due to contractual constraints or competitive pricing pressures, which could adversely affect our profit margins. Therefore, sustained high inflation could negatively affect our business operations, reduce our financial flexibility, and impair our results of operations and financial condition.

73. A third-party could be prevented from acquiring control of us post this Issue, because of anti-takeover provisions under Indian Law.

As a listed Indian entity, there are provisions in Indian law that may delay, deter or prevent a future takeover or change in control of our Company. Under the SEBI SAST Regulations, an acquirer has been defined as any person who, directly or indirectly, acquires or agrees to acquire shares or voting rights or control over a company, whether individually or acting in concert with others. Although these provisions have been formulated to ensure that interests of investors/shareholders are protected, these provisions may also discourage a third party from attempting to take control of our Company subsequent to completion of the Issue. Consequently, even if a potential takeover of our Company would result in the purchase of the Equity Shares at a premium to their market price or would otherwise be beneficial to our shareholders, such a takeover may not be attempted or consummated because of SEBI SAST Regulations.

74. Downward Modification and cancellation are not permitted to any of the categories (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid.

Pursuant to the SEBI ICDR Regulations and amendments thereto, Downward Modification and cancellation are not permitted to any of the categories (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid at any stage after submitting a Bid. Therefore, Investors in all the categories will not be able to withdraw or lower their Bids following adverse developments in international or national monetary policy, financial, political or economic conditions, our business, results of operations or otherwise at any stage after the submission of their Bids.

75. Rights of shareholders of companies under Indian law may be different compared to the laws of other jurisdictions.

Our Articles of Association, composition of our Board, Indian laws governing our corporate affairs, the validity of corporate procedures, directors' fiduciary duties, responsibilities and liabilities, and shareholders' rights may differ from those that would apply to a company in another jurisdiction. Shareholders' rights under Indian law may not be as extensive and widespread as shareholders' rights under the laws of other countries or jurisdictions. Investors may face challenges in asserting their rights as a shareholder in an Indian company than as a shareholder of an entity in another jurisdiction.

MARKET MAKER

*[●]

**The Market Maker shall be appointed prior to filing of the Red Herring Prospectus with the ROC.*

DETAILS OF THE MARKET MAKING AGREEMENT

In accordance with Regulation 261 of the SEBI ICDR Regulations, we have entered into an agreement with the Book Running Lead Manager and the Market Maker (duly registered with NSE to fulfil the obligations of Market Making) dated [●] to ensure compulsory Market Making for a minimum period of three years from the date of listing of equity shares offered in this Issue.

[●], registered with NSE will act as the Market Maker and has agreed to receive or deliver of the specified securities in the market making process for a period of three years from the date of listing of our Equity Shares or for a period as may be notified by any amendment to SEBI ICDR Regulations.

The Market Maker shall fulfil the applicable obligations and conditions as specified in the SEBI ICDR Regulations, as amended from time to time and the circulars issued by NSE and SEBI in this matter from time to time.

Following is a summary of the key details pertaining to the Market Making arrangement:

1. The Market Maker shall be required to provide a 2-way quote for 75% of the time in a day. The same shall be monitored by the Stock Exchange. The spread (difference between the sell and buy quote) shall not be more than 10% or as specified by the Stock Exchange from time to time. Further, the Market Maker shall inform the exchange in advance for each and every black out period when the quotes are not being issued by the Market Maker.
2. The prices quoted by the Market Maker shall be in compliance with the Market Maker Spread requirements and other particulars as specified or as per the requirements of NSE and SEBI from time to time.
3. The minimum depth of the quote shall be ₹1,00,000. However, the investors with holdings of value less than ₹1.00 Lakh shall be allowed to issue their holding to the Market Maker in that scrip provided that he sells his entire holding in that scrip in one lot along with a declaration to the effect to the selling broker. Based on the IPO price of ₹ [●]/- per share the minimum application lot size is [●] Equity Shares thus minimum depth of the quote shall be [●] until the same, would be revised by NSE.
4. After a period of three (3) months from the market making period, the market maker would be exempted to provide quote if the Equity Shares of market maker in our Company reaches to 25%. Or upper limit (Including the 5% of Equity Shares ought to be allotted under this Issue). Any Equity Shares allotted to Market Maker under this Issue over and above 25% equity shares would not be taken into consideration of computing the threshold of 25%. As soon as the Shares of market maker in our Company reduce to 24%, the market maker will resume providing 2-way quotes.
5. There shall be no exemption/threshold on downside. However, in the event the market maker exhausts his inventory through market making process, the concerned stock exchange may intimate the same to SEBI after due verification.
6. On the first day of the listing, there will be pre-opening session (call auction) and there after the trading will happen as per the equity market hours. The circuits will apply from the first day of the listing on the discovered price during the pre-open call auction. The securities of the company will be placed in Special Pre-Open Session (SPOS) and would remain in Trade for Trade settlement for 10 days from the date of listing of Equity shares on the Stock Exchange.
7. There will be special circumstances under which the Market Maker may be allowed to withdraw temporarily/fully from the market for instance due to system problems, any other problems. All controllable reasons require prior approval from the Exchange, while force-majeure will be applicable for non-controllable reasons. The decision of the Exchange for deciding controllable and non- controllable reasons would be final.
8. The Inventory Management and Buying/Selling Quotations and its mechanism shall be as per the relevant circulars issued by SEBI and NSE from time to time.
9. Execution of the order at the quoted price and quantity must be guaranteed by the Market Maker, for the quotes given by them.
10. There would not be more than five Market Makers for the Company's Equity Shares at any point of time and the Market Makers may compete with other Market Makers for better quotes to the investors.
11. The shares of the company will be traded in continuous trading session from the time and day the company gets listed on NSE Emerge and market maker will remain present as per the guidelines mentioned under NSE and SEBI circulars.

12. The price band shall be 20% and the Market Maker Spread (difference between the sell and the buy quote) shall be within 10% or as intimated by Exchange from time to time.
13. The Market Maker shall have the right to terminate said arrangement by giving one month notice or on mutually acceptable terms to the Company, who shall then be responsible to appoint a replacement Market Maker.
14. In case of termination of the abovementioned Market Making Agreement prior to the completion of the compulsory Market Making period, it shall be the responsibility of the Company to arrange for another Market Maker(s) in replacement during the term of the notice period being served by the Market Maker but prior to the date of releasing the existing Market Maker from its duties in order to ensure compliance with the requirements of Regulation 261 of the SEBI ICDR Regulations. Further, the Company reserve the right to appoint other Market Maker(s) either as a replacement of the current Market Maker or as an additional Market Maker subject to the total number of Designated Market Makers does not exceed 5 (five) or as specified by the relevant laws and regulations applicable at that particular point of time.
15. **Risk containment measures and monitoring for Market Maker:** NSE will have all margins which are applicable on the Main Board viz., Mark-to-Market, Value-At-Risk (VAR) Margin, Extreme Loss Margin, Special Margins and Base Minimum Capital etc. NSE can impose any other margins as deemed necessary from time-to-time.
16. **Punitive Action in case of default by Market Maker:** NSE will monitor the obligations on a real time basis and punitive action will be initiated for any exceptions and / or non-compliances. Penalties / fines may be imposed by the Exchange on the Market Maker, in case he is not able to provide the desired liquidity in a particular security as per the specified guidelines. These penalties / fines will be set by the Exchange from time to time. The Exchange will impose a penalty on the Market Maker in case he is not present in the market (issuing two-way quotes) for at least 75% of the time. The nature of the penalty will be monetary as well as suspension in market making activities / trading membership. The Department of Surveillance and Supervision of the Exchange would decide and publish the penalties / fines / suspension for any type of misconduct / manipulation / other irregularities by the Market Maker from time to time.
17. **Price Band and Spreads:** SEBI Circular bearing reference no: CIR/MRD/DP/ 02/2012 dated January 20, 2012, has laid down that for Issue size up to ₹250 Crores, the applicable price bands for the first day shall be:
 - In case equilibrium price is discovered in the Call Auction, the price band in the normal trading session shall be 5% of the equilibrium price.
 - In case equilibrium price is not discovered in the Call Auction, the price band in the normal trading session shall be 5% of the Issue price.

Additionally, the trading shall take place in TFT segment for first 10 days from commencement of trading. The price band shall be 20% and the Market Maker Spread (difference between the sell and the buy quote) shall be within 10% or as intimated by Exchange from time to time.

18. The following spread will be applicable on the NSE Emerge:

Sr. No.	Market Price Slab (in ₹)	Proposed spread (in % to sale price)
1.	Up to 50	9
2.	50 to 75	8
3.	75 to 100	7
4.	Above 100	6

19. Pursuant to SEBI Circular number CIR/MRD/DSA/31/2012 dated November 27, 2012, limits on the upper side for Market Maker during market making process has been made applicable, based on the issue size and as follows:

Issue Size	Buy quote exemption threshold (Including mandatory initial inventory of 5% of the Issue Size)	Re-Entry threshold for buy quote (Including mandatory initial inventory of 5% of the Issue Size)
Up to ₹20 Crore	25%	24%
₹20 Crore to ₹50 Crore	20%	19%
₹50 Crore to ₹80 Crore	15%	14%
Above ₹80 Crore	12%	11%

20. The Market Making arrangement, trading and other related aspects including all those specified above shall be subject to the applicable provisions of law and / or norms issued by SEBI/ NSE Emerge from time to time.
21. All the above-mentioned conditions and systems regarding the Market Making Arrangement are subject to change based on changes or additional regulations and guidelines from SEBI and Stock Exchange from time to time.

The amount to be utilised for general corporate purposes will not exceed fifteen percent of the amount being raised by our company or ₹ Rs. 1,000 Lakhs, whichever is lower, as amended from time to time.

The fund requirements, the deployment of funds and the intended use of the Net Proceeds as described herein are based on our current business plan and circumstances, management estimates, prevailing market conditions and other external commercial and technical factors including interest rates, exchange rate fluctuations and other charges, which are subject to change from time to time. However, such fund requirements and deployment of funds have not been verified or appraised by any bank, financial institution, or any other external agency or party. We may have to revise our funding requirements and deployment schedule on account of a variety of factors such as our financial and market condition, business and strategy, competition, contractual terms and conditions and negotiation with lenders, variation in cost estimates and other external factors such as changes in the business environment and interest or exchange rate fluctuations, Environmental conditions and relation with foreign countries which may not be within the control of our management. This may entail rescheduling or revising the planned expenditure and funding requirements, including the expenditure for a particular purpose at the discretion of our management, subject to compliance with applicable laws. For details in relation to the discretion available to our management in respect of use of the Net Proceeds. For further details on the risks involved in our proposed fund utilization as well as executing our business strategies, please refer the section titled “Risk Factors” on page 25 of this Draft Red Herring Prospectus.

In the event that estimated utilization out of the Net Proceeds in a Fiscal is not completely met, due to the reasons stated above, the same shall be utilized in the subsequent fiscals, as may be determined by the Board, in accordance with applicable laws. If the actual utilization towards any of the Objects is lower than the proposed deployment, such balance will be used towards general corporate purposes, to the extent that the total amount to be utilized towards general corporate purposes is within the permissible limits in accordance with the SEBI ICDR Regulations. In case of a shortfall in raising requisite capital from the Net Proceeds or an increase in the total estimated cost of the Objects, business considerations may require us to explore a range of options including utilizing our internal accruals and seeking debt lenders. Further, in case of variations in the actual utilization of funds earmarked for the purposes set forth above, increased fund requirements for a particular purpose may be financed by surplus funds, if any, available in respect of the other purposes for which funds are being raised in the Issue, subject to compliance with applicable laws.

MEANS OF FINANCE

The fund requirements set out for the aforesaid Objects are proposed to be met entirely from the Net Proceeds, internal accruals, net worth and existing debt financing. Accordingly, we confirm that there is no requirement for us to make firm arrangements of finance through verifiable means towards at least 75% of the stated means of finance, excluding the amount to be raised through the Net Proceeds and existing identifiable internal accruals as required under the SEBI ICDR Regulation.

DETAILS OF THE OBJECTS

1. Funding of capital expenditure requirements of the Company towards setting up of the proposed Manufacturing Unit IV and upgradation of existing units at manufacturing facility in Rajkot, Gujarat.

Our Company is engaged in the business of manufacturing of closed die forged and precision-machined components. Our product portfolio comprises a wide range of complex and safety critical forged and precision-machined products, including

big rings, small rings, ball studs, gear blanks with broaching, gears, coupling assemblies and other critical components catering to diverse end-use industries.

As of the date of this Draft Red Herring Prospectus, our Company operates a manufacturing facility located at Rajkot, Gujarat, covering the area of 5,968.51 square meters. which comprises of:

Sr.no	Unit No.	Present Usage of the Unit
1.	Unit I	Registered Office and primarily used for forging, heat treatment, shot blasting and quality control.
2.	Unit II	This unit is equipped with facilities of machining shop, storage of finished products, packaging and dispatch.
3.	Unit III	This unit is primarily used for raw material storage, cutting, die manufacturing and tooling shop.
4.	Unit IV	Presently this is a vacant land, proposed for setting up of the proposed Manufacturing Unit IV.

As mentioned in above table Units I, II and III are operational and utilized for the Company's existing business operations, while Unit IV, is presently vacant and proposed to be utilized for the setting up of manufacturing Unit IV, and manufacturing of existing products in company portfolio. For further details kindly refer the section titled "*Our Properties*" on page 194 of this Draft Red Herring Prospectus.

Our Board in its meeting dated March 30, 2026, took note that an amount of ₹3,081.13 Lakhs is proposed to be utilised from the net proceeds for Funding of capital expenditure requirements of the Company towards setting up of the proposed Manufacturing Unit IV and upgradation of existing units at manufacturing facility in Rajkot, Gujarat. The total estimated cost for the project is as estimated by our management, which has been certified by M/s. Patcon Consultancy, Mr. Babulal A. Ughreja, Chartered Engineer, pursuant to a project report dated March 30, 2026.

Objectives and benefits of capital expenditure towards setting up unit IV and upgradation of existing units:

- **Current capacity utilization and constraints:** At present, our Company has an installed forging and machining capacity of approximately 6,800 metric tons per annum, against which the current utilization stands at approximately 6,097.75 metric tons per annum, translating to a capacity utilization of around 89.67%. Our Company is operating at 89.67% level of capacity utilization, which reflects strong demand from its existing customers. However, the current infrastructure and space availability impose constraints on further capacity expansion, process optimization, and installation of additional machinery.

To address these constraints, our Company proposes to expand its manufacturing capabilities by adding incremental capacity through the installation of additional machinery, to the existing capacity. Further, the Company intends to undertake backward integration by bringing certain processes and components in-house, which are currently outsourced. This is expected to enhance operational efficiency, reduce dependency on third-party vendors, improve quality control, and result in better cost management and profitability.

- **Cost optimization:** Due to the high utilization of existing in-house manufacturing capacity, our Company currently undertakes certain operations through job work and outsourced vendors to meet production requirements. While this approach supports demand fulfilment, it may lead to operational challenges such as increased dependency on third parties, potential delays in delivery schedules, and variability in quality standards. The proposed expansion is expected to enable the Company to bring key processes in-house, including forging, pre-machining, and intermediate operations, thereby reducing reliance on external vendors.

The addition of Unit IV is expected to improve overall plant layout and operational efficiency by enabling better material flow planning and segregation of manufacturing activities. This is expected to reduce internal handling time, improve workflow efficiency, and enhance safety and shopfloor management. This is expected to improve control over production planning, quality consistency, and turnaround time, while minimizing risks associated with delays and rejections arising from outsourced operations. In addition, the reduction in outsourcing is expected to improve cost efficiency and enhance operational performance.

- **Strengthening fully integrated manufacturing model:** The Company follows a fully integrated manufacturing approach under one roof, encompassing design and development, forging, heat treatment, machining, and gear cutting and finishing operations. The proposed expansion is expected to further strengthen this integrated manufacturing model by enhancing end-to-end manufacturing capabilities and increasing our Company's ability to handle technically complex and high-precision components. It is also expected to improve the share of value-added products such as gears and assemblies while

reducing inter-process dependency and improving production efficiency.

- **Technology upgradation and process efficiency:** The upgradation of existing units through the addition of advanced machinery and equipment is expected to significantly enhance the Company's manufacturing capabilities, operational efficiency, and quality standards. The proposed upgrades will improve precision, repeatability, and automation across critical manufacturing processes, enabling the production of high-tolerance, safety-critical, and complex components.

It is also expected to reduce rejection rates, rework, and process variability through improved process control and monitoring. Further, such upgradation will enhance productivity per machine and optimize manpower utilization through improved cycle times and automation, thereby improving overall operational performance.

- **Product diversification and entry into high-value segments:** The expanded capacity and upgraded infrastructure are expected to enable the Company to manufacture complex and high-value components such as gear components, assemblies, and precision parts. This will support our Company's entry into high-growth segments such as electric vehicles, export markets, and industrial applications, and improve overall product realization.
- **Compliance with regulatory and environmental standards:** The proposed expansion is expected to be undertaken in compliance with applicable regulatory requirements, including pollution control, environmental, and safety norms. The Company intends to obtain all necessary approvals from relevant authorities and align operations with ISO standards, ensuring sustainable and compliant operations.
- **Strengthening quality control and customer confidence:** The proposed capital expenditure is expected to strengthen the Company's quality control framework by enhancing in-house inspection and testing capabilities. This will help ensure adherence to customer specifications, reduce rejection rates, and improve customer satisfaction.

Estimated cost for the proposed manufacturing unit IV:

The cost of setting up of the proposed Manufacturing Unit IV and upgradation of existing units includes expenditure towards, civil and structural work, design, fabrication and erection of PEB Shed, electrical work and accessories fitting, purchase machinery and equipment's for production. The total estimated cost for the proposed expansion is ₹3,081.13 lakhs comprising of cost of ₹554.78lakhs towards civil and structural work, design, fabrication and erection of PEB Shed, electrical work and cost of ₹2,526.35 lakhs towards machinery and equipment, as estimated by our management, which has been certified by M/s. Patcon Consultancy, Mr. Babulal A. Ughreja, Chartered Engineer, pursuant to a project report dated March 30, 2026.

The proposed manufacturing Unit IV is located at, Plot No. 7 Revenue Survey No. 296 (Old Revenue Survey No. 129/1 Paiki 4) of Village Padavala, Tal, Kotda Sangani, District Rajkot-360024 Gujarat. covering the area of 788.02 Sq meters. Our Company has taken Unit IV on lease for a period of fifteen (15) years, effective from October 15, 2025, pursuant to a lease agreement dated October 17, 2025, entered into with the lessor, Mr. Kapadiya Prabhaben Keshavbhai.

The total estimated cost and amount to be utilized from Issue proceeds for the proposed expansion comprises the following:
(₹ in Lakhs)

Sr. No.	Particulars	Total Estimated Cost	Amount already incurred	Amount proposed to be funded from the Net Proceeds
i.	Construction and civil work	554.78	-	554.78
ii.	Machinery and Equipment's	2,526.35	-	2,526.35
	Total	3,081.13	-	3,081.13

As per the certificate by M/s. Patcon Consultancy, Mr. Babulal A. Ughreja, Chartered Engineer vide certificate dated March 30, 2026

Break-up of the estimated cost for the proposed expansion:

i. Construction and Civil Work:

We propose to construct a manufacturing unit IV and factory shed at unit III in order to accommodate the machineries to be installed at the expansion site. The total estimated cost for the civil and construction work for the proposed expansion is ₹554.78 lakhs, excluding GST. The detailed bifurcation of the estimated construction and civil cost is as follows:

Notes:

- The quotation dated March 28, 2026 has been obtained by our Company from M/s. Alpa Infrastructure Limited. The validity of the quotation mentioned above is for a period of 365 days.
- We have considered the above quotations for the budgetary estimate purpose and have not placed orders for them. The actual cost of procurement and actual supplier/dealer may vary.
- Quotation received from the vendor mentioned above is valid as on the date of this Draft Red Herring Prospectus. However, we have not entered into any definitive agreements with the vendor and there can be no assurance that the same vendor would be engaged for construction and civil work or would be engaged at the same costs.
- Our Promoters, Directors and KMPs have no interest in the proposed procurements.

ii. Machinery and Equipment's

The machinery and equipment proposed for the expansion are intended for production, quality control, and testing purposes. Certain machines are high-precision and technologically advanced equipment, including gear grinding and finishing machines, which are designed to achieve superior dimensional accuracy and surface finish for critical components. These machines are capable of performing precision operations under controlled conditions and are aligned with stringent industry requirements. Such equipment is engineered to meet specific operational and customer requirements and is capable of handling complex geometries and tight tolerances. These machines also facilitate performance evaluation under actual operating conditions, including load-based checks, ensuring that the manufactured components comply with applicable technical specifications, performance standards, and end-use operational requirements. Our Company has identified the type of machineries and equipments to be purchased towards the said object and obtained quotations from various vendors. The total estimated cost for machineries and equipments is ₹2,526.35 lakhs. We intend to utilize ₹2,526.35 Lakhs for purchase of machineries and equipments from the net proceeds and are yet to place order for 100% of the plant and machinery which is proposed to be financed from the Issue proceeds of the IPO. An indicative list of such machineries and equipment's that we intend to purchase, along with details of the quotations we have received in this respect is set forth below:

(₹ in Lakhs)

Machineries and Equipment's Cost	Amount

Description of Machineries:

- (1) Used for high-force forging and precision forming operations, enabling us to manufacture components requiring controlled deformation and dimensional accuracy.
- (2) These billet heaters are used for controlled heating of raw material prior to forging. Induction heating ensures uniform temperature distribution, improves metallurgical properties, and reduces oxidation losses, thereby enhancing forging quality and reducing rejection rates.
- (3) These presses are utilized for various forging and stamping operations, including trimming, forming, and finishing processes. The availability of multiple capacities allows flexibility in handling different component sizes and production volumes.
- (4) These cranes are used for handling heavy materials, dies, and components across the shop floor. Efficient material handling systems improve operational safety, reduce manual handling, and enhance workflow efficiency.

Description of Machineries:

- (1) This machine is used for high-precision finishing of gear profiles. It enables the Company to achieve accurate tooth geometry and maintain stringent tolerances required for applications such as automotive and industrial gear systems.
- (2) Used for external grinding operations to achieve tight dimensional tolerances and superior surface finish on cylindrical components.
- (3) Used for precision internal diameter grinding, ensuring accuracy in bore dimensions and improving assembly fitment of components.
- (4) This system is used for specialized heat treatment processes, particularly for achieving desired hardness and metallurgical properties in components. It supports controlled quenching processes and enhances product performance.
- (5) Used for movement of raw materials, finished goods, and heavy components within the facility, improving operational efficiency and reducing manual handling.
- (6) Used for vertical stacking and movement of materials, optimizing storage space and improving internal logistics.
- (7) These machines are used for precision machining of components, ensuring repeatability, dimensional accuracy, and higher productivity. The presence of multiple CNC machines enables batch production and supports customer delivery timelines.
- (8) These machines are used for precision machining of components, ensuring repeatability, dimensional accuracy, and higher productivity. The presence of multiple CNC machines enables batch production and supports customer delivery timelines.
- (9) This equipment is used for surface roughness and contour measurement of components. It enables accurate evaluation of surface finish and profile characteristics, which are critical for performance and assembly.
- (10) The CMM is used for high-precision dimensional inspection of components. It enables three-dimensional measurement and validation of critical dimensions, ensuring adherence to design specifications and tight tolerances.
- (11) These machines are used for functional testing of gears by evaluating rolling parameters, including gear meshing and composite errors. This ensures proper gear performance and reduces the risk of operational failure.

- (12) Used for vertical measurement of components and inspection of dimensions such as height, depth, and step features. These instruments support precision measurement during production and final inspection stage.
- (13) Air gauges are used for high-precision measurement of internal diameters and other critical dimensions. These instruments provide quick and accurate readings, supporting high-volume inspection with consistency.
- (14) These systems are used for real-time monitoring and automatic correction of machining parameters. They help maintain dimensional accuracy during production by enabling immediate adjustments, thereby reducing rejection rates and improving process stability.

iv. Details of Machineries and Equipments to be installed at Unit I

Freight, Insurance, Custom Clearance Charges, GST and any other additional cost shall be borne by company from our internal accruals.

Description of Machineries:

- (1) Used for micro-level hardness testing of materials and specific zones within components. It enables detailed analysis of surface and case hardness, which is critical for heat-treated parts.
- (2) Used for metallurgical examination of material structure, including grain size, phase distribution, and microstructural properties. This helps in validating heat treatment processes and material integrity.
- (3) Used for detection of surface and near-surface cracks in components. This process ensures structural integrity without damaging the part.
- (4) Used to determine tensile strength, yield strength, and elongation properties of materials. This ensures that materials meet required mechanical performance standards.
- (5) Used to evaluate toughness and resistance to sudden impact loads. This is critical for components used in dynamic and high-stress applications.

- (6) Used for quick and efficient hardness testing across various materials. It supports routine inspection and quality control during production.
- (7) Used for measuring hardness of larger and coarse-grained materials. It provides reliable results for forged components and bulk material testing.
- (8) Used for analysis of chemical composition of raw materials and finished components. This ensures compliance with specified material grades and standards.
- (9) Used for detecting internal defects such as voids, inclusions, and cracks. It enables inspection of internal quality of components without destructive testing.

Notes:

- GST or any other applicable tax including freight, insurance and custom clearance charges etc shall be paid from our internal accruals.
- Total amount is considered after discount wherever applicable.
- We have considered the above quotations for the budgetary estimate purpose and have not placed orders for them. The actual cost of procurement and actual supplier/dealer may vary.
- Quotation received from the vendor mentioned above are valid as on the date of this Draft Red Herring Prospectus. However, we have not entered into any definitive agreements with the vendor and there can be no assurance that the same vendor would be engaged to eventually supply the machineries/equipment's or at the same costs.
- We are not acquiring any second-hand machinery.
- Our Promoters, Directors and KMPs have no interest in the proposed procurements.

We have procured quotations from vendors and will be placing the orders with vendors based on the competitive cost and proposed delivery schedule of the equipment, plant and machinery. The machineries may have a longer delivery schedule and accordingly we may have to place orders for the same in advance to avoid any time and cost over-runs in implementation of the Proposed Expansion. For further details see *“Risk Factors - We have not yet placed orders in relation to the capital expenditure requirements of the Company towards setting up of the proposed Manufacturing Unit IV and upgradation of existing units at manufacturing facility in Rajkot, Gujarat. In the event of any delay in placing the orders, or in the event the vendors are not able to provide the plant and machineries or complete the civil and related works etc. in a timely manner, or at all, the same may result in time and cost over-runs.”* on page 34.

Implementation Schedule

The proposed schedule of implementation as estimated by our management, which has been certified by M/s. Patcon Consultancy, Mr. Babulal A. Ughreja, Chartered Engineer, pursuant to a project report dated March 30, 2026 is as below:

The project is anticipated to progress through the following phases, each with its respective timeline: -

Phase / Task	Time Estimate
Land	Already leased
Commencement of Construction	Within 1 month of receipt of funds
Commencement of MEP, HVAC, Fire Protection Work	Approximately 6 months post construction starts
Completion of Civil Work	Estimated 9-10 months
Installation of plant and machineries	Estimated 2 months
Commissioning of plant and machineries	Estimated 2 months
Operationalization of Unit	Within 15-18 months of receipt of funds

Utilities:

Raw Material: Raw material includes round bars of alloy or carbon steel etc. for the manufacturing process. Cost of initial raw material will be funded by our Company through internal accruals.

Power and Water: The requirements for power supply for the proposed facility shall be obtained from the local authorities.

Water: The requirements for distilled water supply for manufacturing purpose for the proposed facility shall be obtained from the local vendors.

Government and other Approvals

In relation to the proposed manufacturing unit, we are required to obtain certain approvals, which are routine in nature, from certain governmental or local authorities, the status of which is provided below:

Sr. No.	Approval	Authority	Required At	Status
Before Construction				
1	Application for Consent to Establish Factory	Joint Director, Office of Industrial Safety & Health	Prior to commencement of construction	Application made on February 06, 2026 Approval of Map received under the Factories Act, 1948 JDISH/F-Plans/2026/569 dated. February 17, 2026
After Construction				
2	Application for Power and Electricity Connection	Paschim Gujarat Vij Company Limited	Before Completion of project	Application to be filed at relevant stage
3	Consent to operate under the Water (prevention and Control of Pollution) Act 1974 and (Air prevention and control of Pollution) Act 1981	Gujarat Pollution Control Board	Before Completion of project	Application to be filed at relevant stage
4	Electricity Connection	Paschim Gujarat Vij Company Limited	Before Completion of project	Application to be filed at relevant stage

Note: Our Company undertakes to take all necessary steps to apply for and obtain the requisite approvals from the relevant authorities in accordance with applicable laws.

2. Full or part repayment and/or prepayment of certain outstanding secured borrowings availed by our Company.

As of January 31, 2026, we had outstanding total secured borrowings (long term and short term) of ₹2,719.82 Lakhs. Our Company has entered into various financial arrangements from time to time, with banks and financial institutions. The loan facilities availed by our Company include borrowing in the form of cash credit facility, term loans and other business loans from various secured lenders. For further details, see “Financial Indebtedness” on page 295.

Our Board in its meeting dated March 30, 2026 took note that an amount of ₹ 672.00 Lakhs is proposed to be utilised for repayment/ prepayment, in full or in part, of certain borrowings availed of by our Company. The selection and extent of borrowings proposed to be prepaid and/or repaid by our Company as mentioned below is based on various considerations including, among others, the prepayment charges, the amount of the borrowings outstanding, interest rate of the relevant borrowings, amount and nature of security provided and the remaining tenor of the borrowings. The prepayment or scheduled repayment will help us reduce our outstanding indebtedness and debt servicing costs, assist us in maintaining a favorable debt to equity ratio and enable utilization of our internal accruals for further investment in business growth and expansion. In addition, the improvement in the debt-to-equity ratio of our Company is intended to enable us to raise further resources in the future to fund potential business development opportunities and plans to grow and expand our business in the future.

The following table provides the details of outstanding borrowings availed of by our Company which are proposed to be repaid or prepaid, in full or in part, from the Net Proceeds*:

In evaluating our business, we consider and use certain KPIs, as presented above, as a supplemental measure to review and assess our financial and operating performance. The presentation of these KPIs is not intended to be considered in isolation or as a substitute for Financial Information. We use these KPIs to evaluate our performance. Some of these KPIs are not defined under applicable Accounting Standards and are not presented in accordance with applicable Accounting Standards. These KPIs have limitations as analytical tools. Further, these KPIs may differ from the similar information used by other companies and hence their comparability may be limited. Although these KPIs are not a measure of performance calculated in accordance with applicable accounting standards, our Company's management believes that it provides an additional tool for investors to use in evaluating our ongoing results, when taken collectively with financial measures prepared in accordance with applicable Accounting Standards.

Notes:

(1) Revenue from operation means revenue from sale of our products

(2) EBITDA is calculated as Profit before tax + Depreciation + Finance Costs – Other Income

(3) EBITDA Margin is calculated as EBITDA divided by Revenue from Operations

(4) PAT Margin is calculated as PAT for the period/year divided by revenue from operations

(5) Return on Equity is calculated by comparing the proportion of net income against the amount of average shareholder equity

(6) Return on Capital Employed is calculated as follows: Profit before tax + Finance Costs (EBIT) divided by (Tangible Net Worth + Total Debt + Deferred Tax Liabilities)

(7) Debt to Equity ratio is calculated as Total Debt divided by equity

(8) Net Fixed asset turnover ratio is calculated by dividing the Revenue from Operations by net Fixed Assets of the Company

(9) Current Ratio is calculated by dividing Current Assets to Current Liabilities.

8. Justification for Basis for Issue price

- a) The price per share of our Company based on the primary/ new issue of shares (equity / convertible securities), excluding shares issued under ESOP/ESOS and issuance of bonus shares**

There has been no issuance of Equity Shares (excluding shares issued under ESOP/ESOS and issuance of bonus shares) during the 18 months preceding the date of this Draft Red Herring prospectus, where such issuance is equal to or more than 5% of the fully diluted paid-up share capital of the Company (calculated based on the pre-issue capital before such transaction(s) and excluding employee stock options granted but not vested), in a single transaction or multiple transactions combined together over a span of 30 days.

b) The price per share of our Company based on the secondary sale / acquisition of shares (equity shares)

There have been no secondary sale / acquisitions of Equity Shares, where the promoters, members of the promoter group or shareholder(s) having the right to nominate director(s) in the board of directors of the Company are a party to the transaction (excluding gifts), during the 18 months preceding the date of this Draft Red Herring Prospectus, where either acquisition or sale is equal to or more than 5% of the fully diluted paid-up share capital of the Company (calculated based on the pre-issue share capital before such transaction/s and excluding employee stock options granted but not vested), in a single transaction or multiple transactions combined together over a span of rolling 30 days.

c) Since there are no such transactions to report under (a) and (b), the price per Equity Share of our Company based on the last five primary and secondary transactions in Equity Shares (secondary transactions where the Promoters/Promoter Group entities, or Shareholder(s) having the right to nominate director(s) on the Board are a party to the transaction) not older than three years prior to the date of this Draft Red Herring Prospectus, irrespective of the size of transactions has been computed.

Dear Sir,

Sub: Statement of Tax Benefits ('The Statement') available to Metalic Technoforge Limited ("the Company") and its shareholders under the Direct and Indirect Tax Laws in India

We hereby confirm that the enclosed Annexure, prepared by the **Metalic Technoforge Limited**, states the Special tax benefits available to the Company and to the shareholders of the Company under the Income-tax Act, 1961, the Central Goods and Services Tax Act, 2017, the Integrated Goods and Services Tax Act, 2017, the Union Territory Goods and Services Tax Act, 2017, respective State Goods and Services Tax Act, 2017 (collectively the "**GST Act**") presently in force in India relevant to the financial year 2025-26 and relevant to the assessment year 2026-27. Several of these benefits are dependent on the Company or its shareholders fulfilling the conditions prescribed under the relevant provisions of the Act. Hence, the ability of the Company and its shareholders to derive the tax benefits is dependent upon fulfilling such conditions, which, based on business imperatives the Company may face in the future, the Company may or may not choose to fulfil.

The benefits discussed in the enclosed Annexure cover only special tax benefits available to the Company and do not cover any general tax benefits available to the Company. Further, the preparation of the enclosed statement and the contents stated therein is the responsibility of the Company's management. We are informed that this Statement is only intended to provide general information to the investors and is neither designed nor intended to be a substitute for professional tax advice. In view of the individual nature of the tax consequences and the changing tax laws, each investor is advised to consult his or her own tax consultant with respect to the specific tax implications arising out of their participation in the proposed initial public offering of Equity shares ("**the Issue**") by the Company.

We do not express any opinion or provide any assurance as to whether:

- a) The Company or its shareholders will continue to obtain these benefits in the future; or
- b) The conditions prescribed for availing the benefits have been/would be met.

The contents of the enclosed statement are based on information, explanations, and representations obtained from the Company and on the basis of our understanding of the business activities and operations of the Company.

Limitations:

Our views are based on facts and assumptions indicated to us and the existing provisions of tax law and its interpretations, which are subject to change or modification from time to time by subsequent legislative, regulatory, administrative, or judicial decisions. Any such changes, which could also be retrospective, could have an effect on the validity of our views stated herein.

We assume no obligation to update this statement on any event subsequent to its issue, which may have a material effect on the discussions herein. This report, including enclosed annexure, are intended solely for your information and for the inclusion in the Draft Offer Document/ Offer Document or any other issue related material in connection with the proposed initial public offer of the Company and is not to be used, referred to or distributed for any other purpose without our prior written consent.

This statement has been prepared solely in connection with the Proposed Issue by the Company under the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended.

ANNEXURE TO THE STATEMENT OF SPECIAL TAX BENEFITS

The information provided below sets out the possible special tax benefits available to the Company and the Equity Shareholders under the Income Tax Act presently in force in India. It is not exhaustive or comprehensive and is not intended to be a substitute for professional advice. Investors are advised to consult their own tax consultant with respect to the tax implications of an investment in Equity Shares, particularly in view of the fact that certain recently enacted legislation may not have a direct legal precedent or may have a different interpretation of the benefits which an investor can avail.

A. SPECIAL DIRECT AND INDIRECT TAX BENEFITS TO THE COMPANY:

Under the Income Tax Act, 1961 (“the Act”)

Special tax benefits available to the Company

- The Company is not entitled to any special tax benefits under the Income Tax Act 1961 and GST Act.

B. SPECIAL DIRECT AND INDIRECT TAX BENEFITS TO THE SHAREHOLDERS:

- The Shareholders of the Company are not entitled to any special tax benefits under the Income Tax Act, 1961 and GST Act.

NOTES:

1. The above Annexure of special tax benefits sets out the provisions of Tax Laws in a summary manner only and is not a complete analysis or listing of all potential tax consequences of the purchase, ownership and disposal of shares.
2. The above Annexure covers only the special tax benefits under the Act, read with the relevant rules, circulars and notifications and does not cover any benefit under any other law in force in India. This Annexure also does not discuss any tax consequences, in the country outside India, of an investment in the shares of an Indian company.
3. The above Annexure of special tax benefits is as per the current direct tax laws relevant for the assessment year 2026-27. Several of these benefits are dependent on the Company or its shareholders fulfilling the conditions prescribed under the relevant provisions of the Tax Laws.
4. In respect of non-residents, the tax rates and consequent taxation mentioned above will be further subject to any benefits available under the relevant Double Taxation Avoidance Agreement, if any, entered into between India and the country in which the non-resident has fiscal domicile.
5. A new Section 115BAA has been inserted by the Taxation Laws (Amendment) Act, 2019 (‘the Amendment Act, 2019’) with effect from Financial Year 2019-20 granting an option to domestic companies to compute corporate tax at a reduced rate of 25.168% (22% plus surcharge of 10% and cess of 4%), provided such companies do not avail specified exemptions/ incentives. The option under section 115BAA of the Act once exercised cannot be subsequently withdrawn for any future financial year. The Amendment Act, 2019 further provides that domestic companies availing such option will not be required to pay Minimum Alternate Tax (‘MAT’) under Section 115JB. The CBDT has further issued Circular 29/2019 dated October 02, 2019 clarifying that since the MAT provisions under Section 115JB itself would not apply where a domestic company exercises option of lower tax rate under Section 115BAA, MAT credit would not be available.

In such a case, the Company is not allowed to claim any of the following deductions/ exemptions under the Act: -

- ✓ Deduction under the provisions of Section 10AA.
- ✓ Deduction under clause (iia) of sub-section (1) of Section 32 (additional depreciation).
- ✓ Deduction under section 32AD or Section 33AB or Section 33ABA
- ✓ Deduction under section 35AD or Section 35CCC
- ✓ Deduction under section 80G

Lower corporate tax rate under Section 115BAA of the Act and Minimum Alternate Tax (‘MAT’) credit under section 115JAA of the Act, which are in general available and hence may not be treated as special tax benefits.

The Company has evaluated and decided to continue under old scheme of the Act for the purpose of computing its

income-tax liability.

6. This Annexure is intended only to provide general information to the investors and is neither designed nor intended to be a substitute for professional tax advice. In view of the individual nature of tax consequences, each investor is advised to consult his or her tax advisor with respect to specific tax consequences of his/her investment in the shares of the Company.
7. No assurance is given that the revenue authorities/ courts will concur with the views expressed herein. The views are based on the existing provisions of law and its interpretation, which are subject to changes from time to time. We do not assume responsibility to update the views consequent to such changes.

GLOBAL ECONOMIC OVERVIEW

Global Economy: Steady amid Divergent Forces

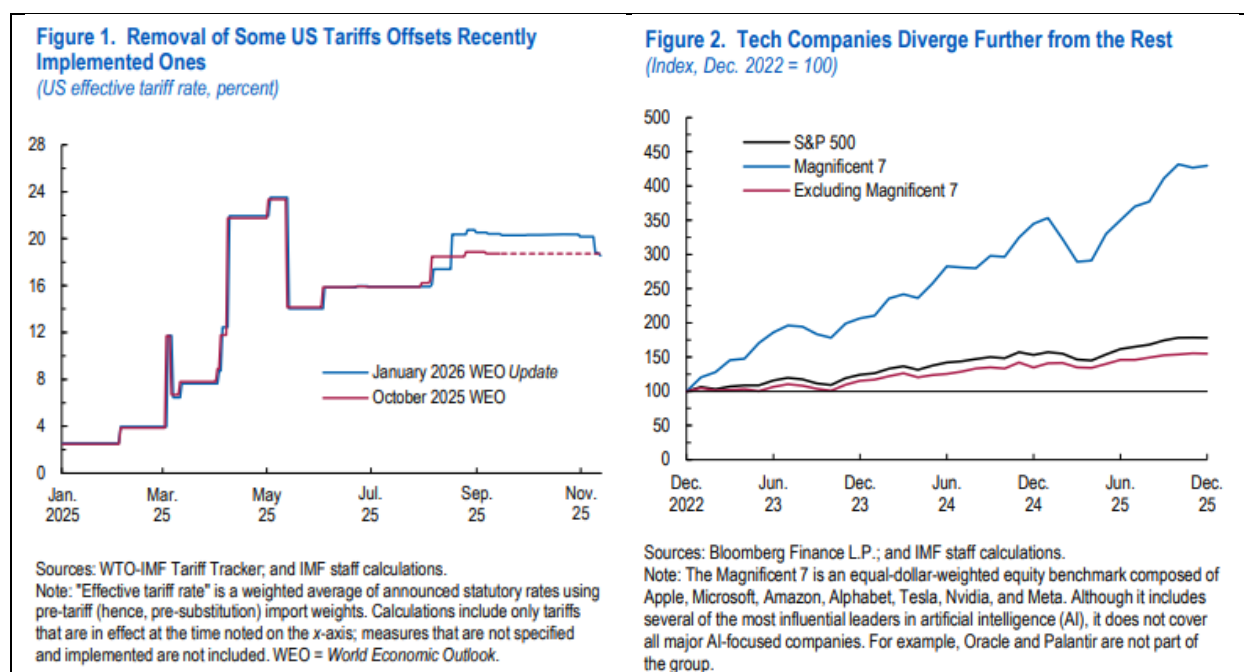

A New Global Economic Landscape Slowly Takes Shape

Global growth is projected to remain resilient at 3.3 percent in 2026 and at 3.2 percent in 2027: rates similar to the estimated 3.3 percent outturn in 2025. The forecast marks a small upward revision for 2026 and no change for 2027 compared with that in the October 2025 World Economic Outlook (WEO). This steady performance on the surface results from the balancing of divergent forces. Headwinds from shifting trade policies are offset by tailwinds from surging investment related to technology, including artificial intelligence (AI), more so in North America and Asia than in other regions, as well as fiscal and monetary support, broadly accommodative financial conditions, and adaptability of the private sector. Global headline inflation is expected to decline from an estimated 4.1 percent in 2025 to 3.8 percent in 2026 and further to 3.4 percent in 2027. The inflation projections are also broadly unchanged from those in October and envisage inflation returning to target more gradually in the United States than in other large economies. Risks to the outlook remain tilted to the downside. Revaluation of productivity growth expectations about AI could lead to a decline in investment and trigger an abrupt financial market correction, spreading from AI-linked companies to other segments and eroding household wealth. Trade tensions could flare up, prolonging uncertainty and weighing more heavily on activity. Domestic political tensions or geopolitical tensions could erupt, introducing new layers of uncertainty and disrupting the global economy through their impact on financial markets, supply chains, and commodity prices. Larger fiscal deficits and high public debt could put pressure on long-term interest rates and, in turn, on broader financial conditions. On the upside, activity could be further lifted by AI-related investment and eventually transform into sustainable growth if faster AI adoption translates into strong productivity gains and increased business dynamism. Activity could also be supported by a sustained easing in trade tensions. Policies to foster stability and sustainably lift medium-term growth prospects require a keen focus on restoring fiscal buffers, preserving price and financial stability, reducing uncertainty, and implementing structural reforms without further delay.

Momentum Is Uneven

Since the October 2025 WEO, trade tensions have continued to abate but remain subject to occasional flare-ups. A dispute between China and the United States involving controls on exports of semiconductors and rare earth minerals was quickly followed by a truce that reduced bilateral tariffs until November 2026 and introduced a pause on export controls. US authorities also removed, for all countries, tariffs on some agricultural products, offsetting the higher tariffs on certain sectors that were previously announced and are now in effect. This leaves the overall US effective tariff rate at about the same level as assumed in the October 2025 WEO (Figure 1), but the changes for specific countries can be meaningful. The US Supreme Court is widely expected to deliver a decision in early 2026 on the president's use of the International Emergency Economic Powers Act. Newly signed bilateral trade and other agreements, often including significant investment and purchase commitments with limited public disclosure, also add a layer of complexity. Policy uncertainty, although lower than it was in October, is still much higher than it was in January 2025. Global financial conditions are still accommodative, despite some volatility and rising sovereign yields (Box 1). Stock prices of major technology companies pulled further apart from prices of other stocks (Figure 2). Financial conditions, overall, changed little or tightened only moderately. The US dollar recovered slightly as the momentum of investors' hedging of exposures slowed but came briefly under renewed pressure following the initiation of an investigation into the Federal Reserve chair. Against this backdrop of stabilizing trade tensions and supportive financial conditions, the global economy has continued to be remarkably resilient, adapting to the shifting landscape and with momentum varying across countries and sectors. In aggregate, global growth in the third quarter of 2025 decelerated to 2.4 percent on an annualized basis, above expectations but with upside surprises in some countries offset by downside surprises in others. A boost from aerospace exports lifted growth to 2.2 percent in France, whereas falling exports continued to weigh on activity in Germany, leaving real GDP unchanged from the second

to the third quarters. Japan's economy contracted by 2.3 percent, with private and government consumption offsetting some of the contraction driven by private residential investment and exports. China's growth decelerated to 2.4 percent (as per staff estimates), with weak domestic demand, especially in the housing sector, partly offset by resilient exports. Growth in the United States accelerated to 4.3 percent, with a pickup in technology investment and expenditure estimated to add about 0.3 percentage point to average annualized GDP growth in the first three quarters of 2025, offsetting the drag from the federal government shutdown in the last quarter of the year. There are also signs that technology-related investment contributed to activity in Spain and the United Kingdom, though not at the same scale as in the United States. The mirror image of soaring investment in information and technology sectors showed up as strong performance in exports of semiconductors and other equipment in Asian economies. Even as signs of moderation have started to appear in high-frequency data, global trade has remained relatively robust, with brisk expansion in technology-related exports offsetting slowing momentum in exports in other product categories (Figure 3). Global inflation has been largely steady. While the global median of sequential inflation has firmed slightly, for both headline and core rates, annual inflation has been stable, surprising mildly on the downside. That said, in the United States, the high cost of living continues to be the most important concern cited in household surveys, and household expectations for one-year-ahead inflation remain elevated, as do input prices in manufacturing purchasing managers' indexes.

Growth and Inflation Outlooks Diverge

IMF staff projections remain based on realtime current trade policy; that is, they assume that policies as they stood at the end of December are permanent. This is so even in regard to measures framed as temporary or pending, meaning that pauses on higher tariffs are assumed to remain in place past their expiration dates, and higher rates are assumed not to take effect. The US effective tariff rate underlying the projections is 18.5 percent, compared with 18.7 percent in the October forecast. The corresponding effective tariff rate for the rest of the world is unchanged at 3.5 percent. Economic policy uncertainty is assumed to remain elevated through 2026. Prices for energy commodities are expected to fall by about 7 percent in 2026, more than projected in the October 2025 WEO. Oil prices remain low and are expected to decrease further on account of tepid global demand growth and strong supply growth. However, a soft price floor is provided by higher-cost producers, Chinese strategic stockpiling, and the approach of OPEC+ (Organization of the Petroleum Exporting Countries plus selected nonmember countries) to avoid a price collapse. Natural gas prices are expected to remain relatively contained amid lower energy demand resulting from uncertainty, more flexible European Union (EU) storage targets, and the prospects of ample liquid natural gas supply in the medium term. Monetary policy rates in the United Kingdom and the United States are expected to continue to decline, though at varying speeds, whereas the IMF staff expects the policy rate in the euro area to remain unchanged and Japan to raise its policy rate gradually. Fiscal policy in advanced economies, particularly Germany, Japan, and the United States, is expected to be stimulative in the near term, pivoting from a tariff-driven mildly contractionary stance in the United States (Figure 4).

Global growth is expected to remain steady, with the momentum in high-tech sectors set to slow but to continue to partly offset the drag elsewhere. While tariffs and uncertainty are projected to continue to weigh on the level of activity, the effect on growth is expected to fade during 2026 and 2027. At 3.3 percent for 2026 and 3.2 percent for 2027, the forecasts mark a slight deceleration from the estimated 3.3 percent achieved in 2025. The forecast for 2026 is revised upward by 0.2 percentage point compared with that in the October 2025 WEO, while the forecast for 2027 is unchanged (Table 1; see also Annex Table 1). There are, however, significant revisions for some countries, with the changes in different directions. Growth in advanced economies is projected to be 1.8 percent in 2026 and 1.7 percent in 2027. In the United States, the economy is projected to expand by 2.4 percent in 2026, supported by fiscal policy and a lower policy rate, while the impact of higher trade barriers also gradually wanes. This 0.3 percentage point upward revision from the October forecast reflects a stronger-than-expected GDP outturn in the third quarter of 2025, a rebound in activity in the first quarter of 2026 compared with that in the fourth quarter of 2025 following the end of the federal government shutdown, and the associated carryover. Growth is projected to remain solid at 2.0 percent in 2027, with a near-term fiscal boost from tax incentives for corporate investment under the One Big Beautiful Bill Act of 2025. Technology-driven momentum is expected to moderate but still provide some offset to lower immigration and moderating consumption. In the euro area, growth is expected to remain steady at 1.3 percent in 2026 and at 1.4 percent in 2027. The slightly faster growth in 2027 reflects projected increases in public spending, notably in Germany, alongside continued strong performance in Ireland and Spain. The forecast is broadly unchanged from that in October, with the subdued growth rate reflecting unresolved structural headwinds. The impact of the planned increase in defense spending is expected to materialize only in subsequent years, given commitments to reach target levels gradually by 2035. Compared with other regions, the euro area benefits less from the recent technology-driven investment boost. Lingering effects of the persistent rise in energy prices after Russia’s invasion of Ukraine will continue to drag on manufacturing, with additional pressure from the real appreciation of the euro relative to currencies of countries exporting similar products. In Japan, growth is projected to moderate from 1.1 percent in 2025 to 0.7 percent in 2026 and to 0.6 percent in 2027. This marks a small upward revision relative to the October figure, reflecting in part the fiscal stimulus package announced by the new government.

2027. Relative to the projection in October, growth in 2025 for China is revised upward by 0.2 percentage point to 5.0 percent. The revision reflects stimulus measures and additional policy bank lending for investment. Growth for 2026 is also revised upward by 0.3 percentage point to 4.5 percent, reflecting the lower US effective tariff rates on Chinese goods as a result of the yearlong trade truce agreed to in November and stimulus measures that are assumed to be implemented over two years. The economy's growth rate is expected to decelerate to 4.0 percent in 2027 as structural headwinds assert themselves. In India, growth is revised upward by 0.7 percentage point to 7.3 percent for 2025, reflecting the better-than-expected outturn in the third quarter of the year and strong momentum in the fourth quarter. Growth is projected to moderate to 6.4 percent in 2026 and 2027 as cyclical and temporary factors wane. In the Middle East and Central Asia, growth is projected to accelerate from 3.7 percent in 2025 to 3.9 percent in 2026 and to 4.0 percent in 2027, supported by higher oil output, resilient local demand, and ongoing reforms. Growth is also expected to accelerate in sub-Saharan Africa, from 4.4 percent in 2025 to 4.6 percent in 2026 and 2027, supported by macroeconomic stabilization and reform efforts in key economies. In Latin America and the Caribbean, growth is projected to moderate to 2.2 percent in 2026 and bounce to 2.7 percent in 2027 as countries in the region approach potential from different cyclical positions. In emerging and developing Europe, a sharp slowdown in 2025 to a growth rate of 2.0 percent is expected to reverse, with economies in the region expanding at an average rate of 2.3 percent in 2026 and 2.4 percent in 2027. In most regions, the rebound also reflects the fading effect of shifting trade policies. World trade volume growth is expected to decline from 4.1 percent in 2025 to 2.6 percent in 2026 and increase to 3.1 percent in 2027. These dynamics reflect patterns of front-loading and trade flow adjustments to new policies. Over the medium term, expansionary fiscal packages in economies with current account surpluses are expected to contribute to declining global imbalances. Countering this force is the technology-driven business investment surge, which is expected to continue to attract capital flows to the United States even as it moderates. Global inflation is projected to continue its decline, with headline inflation falling to 3.8 percent in 2026 and 3.4 percent in 2027. This is virtually unchanged from that in the October 2025 WEO, with overarching trends of softening demand and lower energy prices remaining intact. Divergence between the United States and most other countries lingers (Figure 5). With pass-through from higher tariffs gradually materializing, US core inflation is projected to return to the country's 2 percent target during 2027. Australia and Norway are also projected to see some drawn-out persistence in above-target inflation. In the United Kingdom, inflation, which increased last year partly due to one-off regulated price changes, is expected to return to target by the end of 2026 as a weakening labor market continues to exert downward pressure on wage growth. In Japan, inflation is expected to moderate in 2026 and converge toward the country's target in 2027, as food and commodity prices ease. In the euro area, headline inflation is projected to hover around 2 percent, with core inflation projected to decline to that level in 2027. Inflation in China is projected to start rising from low levels, whereas inflation in India is expected to go back to near target levels after a marked decline in 2025 driven by subdued food prices.

Narrow Base of Drivers Makes Growth Vulnerable

Risks to the outlook for the global economy remain tilted to the downside. The resilience exhibited so far is driven largely by a few sectors and often supported by monetary and fiscal accommodation. It could be disrupted by either sectoral dynamics or shocks disseminating from long-standing broader risk factors. Should expectations about AI-driven productivity gains turn out to be overly optimistic and outcomes disappoint, a sharp drop in real investment in the high-tech sector as well as in spending on AI adoption in other sectors and a more prolonged correction in stock market valuations—which have increasingly been lifted by only a few technology firms—could ensue. The rapid obsolescence of unused or misaligned assets, costly reallocation of capital and labor accompanied by a decline in business dynamism, and negative wealth effects would weigh on private consumption and investment. Spillovers would spread, directly through trade flows, to export-oriented economies specializing in technology products. These would radiate to the rest of the world through the tightening of global financial conditions. The impact on growth is highly uncertain and depends on how financial conditions react. As a reference, under a scenario presented in the October 2025 WEO which includes a moderate correction in AI stock valuations as part of a general tightening of financial conditions, global growth declines by 0.4 percent in 2026 relative to baseline. The fragile balance of trade policy stances underlying the baseline could be disrupted. Additional sector-specific tariffs, especially if imposed on upstream industries, could create supply bottlenecks and impose an outside impact on economic activity and prices. Nontariff measures targeting critical inputs such as rare earth minerals might also disrupt global supply chains. More countries could adopt a protectionist posture, especially if trade diversion and rerouting become disruptive. In such instances, decompression of profit margins could amplify and prolong any inflationary effects. A significant escalation in geopolitical tensions, particularly in the Middle East or Ukraine but possibly also in Asia and Latin America, could trigger substantial negative supply shocks. Disruption to major shipping routes, critical supply chains, and air travel could occur, leading to delays and increased costs. If key infrastructure were damaged, resulting supply constraints could drive commodity prices higher. Spikes in domestic political uncertainty, including but not limited to those around elections, could further elevate and broaden uncertainty, weighing on sentiment and holding back consumption and investment. Political interference in independent economic institutions could raise the risk of policy mistakes and erode public confidence and trust.

Combined with lingering fragilities in financial markets, fiscal vulnerabilities might become more pronounced, with implications for macro financial stability. A particular concern is elevated public debt levels in several major economies, especially those whose currencies and securities are systemically important in international financial markets. Fiscal

sustainability worries in those economies could not only put pressure on their own borrowing costs but also tighten broader financial conditions and amplify financial market volatility. Increased reliance on price-sensitive investors such as money market funds and leveraged hedge funds heightens dislocation risks and may necessitate repeated provision of liquidity backstops by central banks, possibly generating moral hazard and financial dominance concerns. Interactions with geopolitical factors—for instance, events that would trigger a tightening of measures to combat money laundering and financing of terrorism—could be an additional amplifier. Foreign aid cuts add to the fiscal challenges in low-income developing countries. The sovereign-bank nexus could exacerbate the feedback loop between higher yields on public debt and tighter financial conditions for the private sector in a broader set of countries.

On the upside, rapid adoption of AI, possibly facilitated by the ongoing surge in AI-related investment in both hard and soft infrastructure, could significantly improve productivity and boost medium-term growth prospects sooner rather than later. The fast pace of innovations might foster creative destruction and revive business dynamism. As a result, global growth may be lifted by as much as 0.3 percentage points in 2026 and between 0.1 and 0.8 percentage points per year in the medium term, depending on the speed of adoption and improvements in AI readiness globally. The benefits could be shared across the economy, provided that complementary policies to contain the potential impact on energy prices by relaxing power supply constraints, initiatives to scale up the necessary critical intermediate inputs, and labor market programs to manage workforce transitions are in place.

More in the near term, tangible progress in trade talks would stand to lower tariffs, enhance policy predictability, and support global efficiency gains. The gains could be larger if strengthened cooperation extends to services trade, foreign direct investment, and international taxation, boosting investment and bolstering public finances.

Current challenges and the possibility of transformative technological changes could open a window of opportunity for structural reform efforts to gain momentum. Accelerated implementation of reforms that upskill the existing labor force, reduce barriers to labor mobility, streamline and rationalize business regulations, enhance competition, and promote innovation would make it possible to lift the growth potential of economies in a lasting manner while enhancing their resilience and capacity to adapt.

Policies Can Foster Stability and Sustainable Growth

Rebuilding fiscal capacity and maintaining public debt sustainability are crucial, especially as pressing spending needs persist. At a minimum, commitment to credible medium-term fiscal consolidation is required. Efforts to replenish fiscal buffers should be anchored in realistic assumptions, including those regarding long-term spending pressures, and sound debt management practices while seeking to strike the right balance in regard to growth-friendly adjustment. Countries should aim to bolster fiscal revenues, rationalize expenditures, and strengthen expenditure efficiency by, among other things, crowding in private investment. Responses to negative demand shocks should be drawn up without deviating from medium-term fiscal sustainability objectives. They should leverage automatic stabilizers, applied symmetrically over the full business cycle to support macroeconomic smoothing in both downturns and upturns. Any discretionary fiscal interventions must be strictly targeted toward those firms and households most affected by adverse shocks and include explicit sunset provisions that make the actions temporary. Offsetting such measures through nonpriority spending reductions elsewhere or new revenue sources is paramount, particularly where there is limited fiscal space. Broadbased subsidies and other industrial policy measures can be both costly and disruptive. Even when appropriate to use, they should be handled with care. To avoid inefficient resource allocation, particularly given increasingly tighter fiscal constraints, industrial policies must be precisely targeted to address specific market failures and clearly defined externalities and be subject to periodic cost-benefit analyses.

Central banks must tailor monetary policy to uphold price stability amid ongoing shifts in the global economic landscape. Monetary policymakers in countries where inflation is at or close to target should rely on a forecast-centered approach and, if their countries are experiencing negative demand shocks, might consider a gradual reduction in policy rates to cushion economic activity, provided that risks to price stability objectives are contained. By contrast, where inflation is still above target, a more cautious approach that maintains data dependence is warranted. In economies experiencing adverse supply shocks, policymakers face complex tradeoffs in balancing the risk of growth slowdown against the risk of persistent inflation. In such cases, further monetary easing should proceed only with robust evidence of inflation expectations remaining anchored and inflation returning toward target, with the need to remain focused on price stability being vital.

other economies. Meanwhile, better growth performance and prospects could increase fiscal room in some cases, such as that of the United States, while possibly reducing it in others because of the pressure on interest rates. This calls for even more discipline so that any windfalls are used wisely to put public debt on a decisively downward path where fiscal room opens up and so that realistic and robust fiscal consolidation is enacted without further delay where fiscal room shrinks.

Ordinarily, exchange rates should respond flexibly to market signals, thereby facilitating macroeconomic adjustment. Should significant fluctuations in foreign exchange or risk premiums arise, the IMF's Integrated Policy Framework offers guidance for tailored policy responses. In select cases, alongside appropriate monetary and fiscal policy stances, temporary foreign exchange interventions or capital flow management tools may be warranted.

With heightened uncertainty and fragilities in asset valuations, strong prudential oversight is needed to preserve financial stability. In periods of sustained uncertainty such as the current one, expanded use of scenario analysis can enhance macroeconomic policymaking. Readiness to deploy contingency plans for diverse risks ensures resilience should those risks materialize. To stabilize expectations and encourage investment in a broader set of sectors, countries should make reducing policy-driven uncertainty a priority. They should establish and adhere to transparent and coherent trade policy frameworks, aided by pragmatic cooperation. This involves advancing multilateral efforts concerning key global commons, updating international regulations where feasible, and exploring regional or plurilateral solutions where appropriate. Bilateral dialogues should not adversely impact third-party nations. Efforts to ease trade frictions and lower barriers to trade and investment should be aligned with those aiming to address excessive external imbalances resulting from domestic policy decisions (see the 2025 External Sector Report). Achieving lasting resolutions requires reaching a common understanding of underlying distortions and taking action to address them.

Beyond the navigation of near-term trade-offs and challenges, elevating medium-term growth prospects remains the most effective strategy for resolving macroeconomic dilemmas. Structural reforms targeting labor markets, education, regulatory frameworks, and competition will drive productivity, potential output, and job creation. Moreover, harnessing technological progress—through digital transformation, AI adoption, and investment in renewables and energy-efficient systems, among other possibilities—can accelerate productivity gains and expand growth potential. These efforts should not jeopardize but rather be aligned with a rebalancing of the global economy, which is a crucial element of sustainability. Weaving in growth-enhancing measures together with efforts to fortify the EU single market, to chart a credible fiscal consolidation plan to put US public debt on a decisively downward path, and to advance China's reforms to strengthen the social protection system and scale back unwarranted industrial policy support would help diversify the sources of global growth.

INDIAN ECONOMY OVERVIEW

Introduction

India's economic momentum remains strong, underpinned by resilient domestic demand and sustained macroeconomic stability. In FY 2025–26, Real GDP (GDP at Constant Prices) is estimated to reach Rs. 201.90 lakh crore (US\$ 2.24 trillion), rising from the provisional level of Rs. 187.97 lakh crore (US\$ 2.26 trillion) in FY 2024–25, reflecting a robust growth of 7.4%. At current prices, Nominal GDP is projected to reach Rs. 357.14 lakh crore (US\$ 3.96 trillion) in FY 2025–26, from Rs. 330.68 lakh crore (US\$ 3.98 trillion) in the previous year, registering a growth of 8.0%. On the production side, Real Gross Value Added (GVA) is estimated at Rs. 184.50 lakh crore (US\$ 2.04 trillion), up from Rs. 171.87 lakh crore (US\$ 2.07 trillion) in FY 2024–25, indicating a growth of 7.3%, while Nominal GVA is expected to expand to Rs. 323.48 lakh crore (US\$ 3.59 trillion) from Rs. 300.22 lakh crore (US\$ 3.62 trillion), marking a growth of 7.7%. Collectively, these trends highlight India's position as one of the fastest-growing major economies, supported by broad-based expansion across sectors.

Further, India is projected to reach a GDP of Rs. 4,26,45,000 crore (US\$ 5 trillion) by 2027 and is on course to surpass Germany by 2028. Rising employment and increasing private consumption, supported by rising consumer sentiment, will support GDP growth in the coming months..

Market Overview

Source: World Bank

India is home to 126 unicorns, with six new startups achieving unicorn status in 2025.

India's current account deficit moderated in Q2 FY 2025–26 (July–September), supported by a lower merchandise trade deficit. The deficit stood at Rs. 1.02 lakh crore (US\$ 11.7 billion), or 1.3% of GDP, compared with Rs. 1.73 lakh crore (US\$ 20.8 billion), or 2.2% of GDP, in the same quarter last year.

In the preceding quarter, the current account had recorded a relatively modest deficit of Rs. 0.20 lakh crore (US\$ 2.33 billion), equivalent to 0.2%

of GDP, indicating improved external sector resilience. According to Minister of Commerce and Industry, Consumer Affairs, Food and Public Distribution and Textiles Mr. Piyush Goyal, Indian exports are expected to reach US\$ 1 trillion by 2030.

Recent Developments

India is primarily a domestic demand-driven economy, with consumption and investments contributing to 70% of the economic activity. With India's economy showing resilient growth, supported by strong domestic demand, policy reforms, and a healthy investment pipeline, several new projects and developments are underway across key sectors. According to World Bank, India must continue to prioritise lowering inequality while also putting growth-oriented policies into place to boost the economy. In view of this, there have been some developments that have taken place in the recent past. Some of them are mentioned below.

- On the FDI front, according to the Department for Promotion of Industry and Internal Trade (DPIIT), India's cumulative FDI inflow stood at Rs. 99,08,749 crore (US\$ 1.12 trillion) between April 2000–September 2025; with major share of FDI equity inflow, coming from Singapore at Rs. 13,21,127 crore (US\$ 186.82 billion) with a total share of 24.45%, followed by Mauritius at Rs. 11,22,807 crore (US\$ 183.66 billion) with 24.04%, the USA at Rs. 5,50,450 crore (US\$ 77.27 billion) with 10.11%, the Netherlands at Rs. 3,77,094 crore (US\$ 54.93 billion) with 7.19%, and Japan at Rs. 2,93,863 crore (US\$ 45.61 billion) with 5.97%.
- As of January 9, 2026, India's foreign exchange reserves stood at Rs. 61,95,896 crore (US\$ 687.19 billion).
- In November 2025, India recorded 113 Private Equity (PE)–Venture Capital (VC) deals valued at Rs. 46,500 crore (US\$ 5.6 billion), marking a 31% year-on-year increase from Rs. 35,700 crore (US\$ 4.3 billion) in November 2024. On a month-on-month basis, investment value rose by 4% compared to Rs. 44,800 crore (US\$ 5.4 billion) in October 2025. Deal activity also strengthened, with the number of transactions increasing 12% year-on-year from 101 deals in November 2024 and 4% month-on-month from 109 deals in October 2025, reflecting sustained momentum in India's PE/VC investment landscape.
- During FY 2025–26 (up to January 27, 2026), Foreign Portfolio Investor (FPI) activity in India indicated a phase of portfolio optimisation and asset reallocation amid evolving global market conditions. While foreign investors moderated direct equity exposure, debt instruments continued to attract investments of over Rs. 2,100 crore (US\$ 0.25 billion), supported by stable macroeconomic fundamentals and policy continuity. FPIs also channelled Rs. 17,025 crore (US\$ 2.0 billion) into mutual fund schemes, reflecting a preference for diversified and professionally managed market exposure. Domestic Institutional Investors (DIIs) played a stabilising role in the equity cash market during FY 2025–26 (April–December 2025), recording net purchases of around Rs. 5.99 lakh crore (US\$ 66.55 billion). Strong and consistent buying by mutual funds, insurance companies, and pension funds helped offset periods of foreign portfolio moderation.
- India's manufacturing sector continued to expand in December, with the seasonally adjusted HSBC India Manufacturing Purchasing Managers' Index (PMI) remaining firmly in expansionary territory at 55.0, despite easing from 56.6 in November. Importantly, the index stayed above its long-run average, indicating sustained improvement

in overall sector health. New orders continued to rise at a strong pace, supported by steady domestic demand, while output growth, although moderating, reflected ongoing capacity utilisation.

- India's consumer price inflation remained subdued and well-anchored in December 2025, reflecting a stable price environment across the economy. Headline inflation, based on the All-India Consumer Price Index (CPI), stood at 1.33% year-on-year, indicating continued moderation in price pressures. The marginal month-on-month uptick of 62 basis points from November 2025 reflects normal seasonal movements, while overall inflation remained comfortably low, underscoring effective supply management and macroeconomic stability.
- India's GST collections continued to demonstrate underlying revenue resilience, supported by steady economic activity and compliance levels. Total Net GST revenue in December 2025 stood at Rs. 1.45 lakh crore (US\$ 16.17 billion), reflecting normal month-on-month variation. On a cumulative basis, net yearly GST collections in December 2025 reached Rs. 14.25 lakh crore (US\$ 163.59 billion), registering a year-on-year growth of 6.8%, underscoring sustained consumption momentum and the strengthening tax base.
- Passengers carried by domestic airlines during January-November 2025 were 1526.35 lakhs as against 1464.02 lakhs during the corresponding period of the previous year, thereby registering an annual growth of 4.26% and a monthly growth of 6.92%.
- The government is focusing on renewable energy sources and has achieved a major clean energy milestone by generating 50% of its power from renewable sources, five years ahead of its 2030 target. India is committed to achieving the country's ambition of Net Zero Emissions by 2070 through a five-pronged strategy, 'Panchamrit'. Moreover, India ranked 3rd in the renewable energy country attractive index.
- India secured 38th position out of 139 economies in the Global Innovation Index 2025. India rose from 81st position in 2015 to 38th position in 2024. India ranks in 3rd position in the global number of scientific publications.
- India's industrial activity witnessed a strong rebound in November 2025, with the Index of Industrial Production (IIP) growing by 6.7%, a sharp improvement from 0.4% in October 2025, indicating accelerating industrial momentum. The manufacturing sector led this expansion with a robust 8.0% growth, supported by positive performance across 20 out of 23 industry groups at the NIC two-digit level, reflecting a broad-based recovery. Key growth drivers included basic metals (10.2%), pharmaceuticals and medicinal products (10.5%), and motor vehicles and trailers (11.9%), highlighting strength in core, healthcare, and mobility-related industries. Overall, the IIP index rose to 158.0, up from 148.1 in November 2024, underscoring sustained expansion in India's industrial base.
- The government has set a calibrated wheat procurement target of 30 million tonnes for the 2025–26 rabi marketing season, ensuring efficient stock management and smooth market operations. This comes even as wheat production is projected at a record 115 million tonnes in 2024–25, reflecting strong output prospects. To support farmers, the MSP for wheat has been fixed at Rs. 2,425 per quintal, with procurement to be undertaken by FCI and state agencies to meet food security and welfare requirements.

Government Initiatives

Over the years, the Indian government has introduced many initiatives to strengthen the nation's economy. The Indian government has been effective in developing policies and programmes that are not only beneficial for citizens to improve their financial stability but also for the overall growth of the economy. Over recent decades, India's rapid economic growth has led to a substantial increase in its demand for exports. Besides this, a number of the government's flagship programmes, including Make in India, Start-up India, Digital India, the Smart City Mission, and the Atal Mission for Rejuvenation and Urban Transformation, are aimed at creating immense opportunities in India. In this regard, some of the initiatives taken by the government to improve the economic condition of the country are mentioned below:

- Under the Startup India initiative, the Government continues to strengthen the start-up ecosystem through targeted funding, seed support, and credit guarantees. As of October 2025, women-led start-ups received investments and financial support of over Rs. 3,157 crore (US\$ 0.38 billion) through the Fund of Funds for Startups, Startup India Seed Fund Scheme, and Credit Guarantee Scheme, reinforcing inclusive entrepreneurship and early-stage innovation across sectors.
- The Ministry of Labour & Employment signed an MoU with Zomato on October 14, 2025, to enhance employment opportunities through the National Career Service (NCS) portal. Under the agreement, Zomato will list around 2.5 lakh job opportunities annually, supporting the growth of the gig economy and promoting formal, technology-enabled livelihoods across India.

- The Production Linked Incentive (PLI) programme has significantly strengthened India's manufacturing base and export capabilities across priority sectors. As of September 2025, realised investments under PLI schemes stood at Rs. 2,00,000 crore (US\$ 24.2 billion) across 14 sectors, leading to incremental production and sales exceeding Rs. 18,70,000 crore (US\$ 226.5 billion) and generating over 12.6 lakh jobs (direct and indirect).
- In August 2025, Prime Minister Mr. Narendra Modi launched two major agriculture schemes worth Rs. 35,440 crore (US\$ 4 billion), the PM Dhan-Dhaanya Krishi Yojana and the Mission for Aatmanirbharta in Pulses, aimed at boosting self-reliance, productivity, and farmers' income. He also inaugurated and laid foundation stones for projects worth over Rs. 6,200 crore (US\$ 709 million) across agriculture, animal husbandry, fisheries, and food processing sectors.
- In March 2025, the Government announced several measures to boost industrial growth and investments, including initiatives such as Make in India, Start-up India, PM GatiShakti, and Production Linked Incentive (PLI) Schemes. The Cabinet Committee on Economic Affairs also approved 12 new projects worth Rs. 28,602 crore (US\$ 325.02 million) under the National Industrial Corridor Development Programme (NICDP), spanning 10 states, to strengthen India's manufacturing base and attract investments.
- On March 27, 2025, the Reserve Bank of India proposed doubling the investment cap for individual foreign investors in listed firms from 5% to 10%, with a combined foreign individual limit increasing to 24%, to counter Foreign Portfolio Investment (FPI) outflows.
- According to a report by Wood Mackenzie in January 2025, India, the United States, and West Asia are expected to collectively add 100 Gigawatts (GW) of solar capacity by 2025, while China is anticipated to continue its leadership in the solar industry.
- The National e-Governance Division (NeGD) and the Indian Ports Association (IPA) signed an MoU on December 24, 2024, to drive digital transformation in India's maritime sector. The partnership focuses on system integration, software development, and the use of emerging technologies to enhance efficiency and modernise port operations.
- In July 2024, the Ministry of Finance held the Union Budget and announced that for 2024-25, the total receipts other than borrowings and the total expenditure are estimated at Rs. 32.07 lakh crore (US\$ 383.93 billion) and Rs. 48.21 lakh crore (US\$ 577.16 billion), respectively.
- In February 2024, the Finance Ministry announced the total expenditure in Interim 2024-25 estimated at Rs. 47,65,768 crore (US\$ 571.64 billion) of which total capital expenditure is Rs. 11,11,111 crore (US\$ 133.27 billion).
- On January 22, 2024, Prime Minister Mr. Narendra Modi announced the 'Pradhan Mantri Suryodaya Yojana'. Under this scheme, 1 crore households will receive rooftop solar installations.

Road Ahead

India's economic outlook remains robust, supported by strong macroeconomic fundamentals, resilient domestic demand, and sustained investment momentum. With Real GDP growth estimated at 7.4% in FY 2025–26, India continues to rank among the fastest-growing major economies globally, underpinned by broad-based expansion across manufacturing, services, and infrastructure.

A stable external position, reflected in foreign exchange reserves of Rs. 61.96 lakh crore (US\$ 687.19 billion), along with steady foreign capital inflows through FDI, PE–VC investments, and debt instruments, reinforces confidence in India's long-term growth trajectory.

Domestic demand remains a key anchor, supported by subdued inflation, rising air passenger traffic, resilient GST collections, and strong DII participation in capital markets. Manufacturing activity continues to expand, with PMI remaining firmly in expansionary territory and IIP growth accelerating, while the government's focus on renewable energy, innovation, and food security further strengthens structural growth drivers. Collectively, these trends position India favourably to sustain economic momentum, deepen capital formation, and enhance its role as a global growth engine in the years ahead.

GLOBAL MANUFACTURING INDUSTRY

The global manufacturing industry, valued at USD 13.5 trillion in 2023, expanded to USD 14.16 trillion in 2024 and is projected to reach USD 20.76 trillion by 2031, growing at a CAGR of 4.9%. This growth trajectory is supported by the adoption of advanced technologies such as automation, robotics, and Industry 4.0, as well as the increasing demand for customized and sustainable products. Key product segments include automotive manufacturing, valued at USD 2.3 trillion in 2023, alongside electronics, machinery, and consumer goods. The push toward electric vehicles, smart mobility solutions, and semiconductor-based innovations further propels industry development.

Regional performance highlights the pivotal role of emerging economies in shaping the manufacturing landscape. China leads with its dominant share of global output, followed by the United States, Japan, and Germany, each contributing significantly through high-tech industries and engineering excellence. Rapid urbanization and infrastructure development across India, Southeast Asia, and other developing markets are stimulating demand for consumer durables, construction materials, and industrial machinery. Meanwhile, advanced economies are focusing on digital transformation, higher productivity, and premium-quality manufacturing to maintain competitiveness.

The evolution of the manufacturing sector is increasingly characterized by sustainability and regulatory pressures. Manufacturers are adopting circular economy principles, integrating eco-friendly raw materials, and optimizing energy efficiency across production lifecycles. While opportunities in smart manufacturing, robotics, and digitalization continue to expand, challenges such as workforce skill gaps, global supply chain disruptions, and compliance with stricter environmental standards shape the industry's trajectory. As competition intensifies, companies are investing in innovation, resilience, and sustainable practices to secure long-term growth and global competitiveness.

Top Countries Contributing in Manufacturing Market

The global manufacturing industry is dominated by top economies such as China, the United States, Japan, and Germany, supported by advanced infrastructure, skilled workforces, and favorable government policies. Emerging countries like India, Indonesia, and South Korea are also driving growth with industrialization and rising consumer demand, while Italy, France, and the United Kingdom remain vital through sector-specific strengths and technological innovation.

1. China Manufacturing Market Analysis:

Market Size: USD 3834 Billion (2023)

Global Share: 28.4%

Country-Specific Insight: China maintains its global leadership in manufacturing with a vast industrial base and export-oriented economy. Its strengths lie in automotive, electronics, textiles, and machinery, underpinned by strong supply chain networks. Government initiatives emphasizing smart manufacturing, AI, and automation further strengthen competitiveness.

Country Dynamics:

- Drivers: Strong government support and global export dominance
- Trends: Integration of AI, robotics, and green manufacturing
- Restraints: Rising labor costs and trade tensions
- Technology Focus: Smart factories and digital supply chains

2. United States Manufacturing Market Analysis:

Market Size: USD 2241 Billion (2023)

Global Share: 16.6%

Country-Specific Insight: The U.S. market is marked by advanced R&D, high productivity, and dominance in aerospace, pharmaceuticals, and automotive. Global firms such as General Electric and Boeing drive innovation. Manufacturing USA initiatives bolster technology adoption and competitiveness.

Country Dynamics:

- Drivers: Advanced research ecosystem and robust infrastructure
- Trends: Additive manufacturing and automation adoption
- Restraints: Supply chain disruptions and skilled labor shortages
- Technology Focus: Industry 4.0 and AI-driven manufacturing

3. Japan Manufacturing Market Analysis:

Market Size: USD 1013 Billion (2023)

Global Share: 7.5%

Country-Specific Insight: Japan excels in high-precision industries such as automotive, electronics, robotics, and machinery. Firms like Toyota and Sony exemplify innovation through R&D investment and continuous improvement practices. Government backing for Industry 4.0 supports advanced automation.

Country Dynamics:

- Drivers: Precision engineering and strong export base
- Trends: Robotics in production and automotive innovation
- Restraints: Aging workforce and high operational costs
- Technology Focus: Robotics and automation-led smart production

4. Germany Manufacturing Market Analysis

Market Size: USD 783 Billion (2023)

Global Share: 5.8%

Country-Specific Insight: Germany is a global hub for engineering and industrial excellence, specializing in automotive, chemicals, and machinery. Industry 4.0 policies have accelerated smart manufacturing. Volkswagen, Siemens, and BASF lead global technological integration.

Country Dynamics:

- Drivers: Strong engineering expertise and Industry 4.0 adoption
- Trends: Digital twin applications and collaborative robotics
- Restraints: High energy costs and aging labor pool
- Technology Focus: IoT-driven industrial automation

5. India Manufacturing Market Analysis

Market Size: USD 446 Billion (2023)

Global Share: 3.3%

Country-Specific Insight: India's manufacturing industry is growing at a CAGR of 7.5%, supported by Make in India, infrastructure expansion, and a young workforce. Sectors include automotive, pharmaceuticals, and textiles, with global firms investing heavily in industrial corridors.

Country Dynamics:

- Drivers: Favorable policies and low-cost workforce
- Trends: Rapid digitalization and agritech-based manufacturing
- Restraints: Infrastructure gaps and limited advanced R&D
- Technology Focus: Automation and AI in industrial hubs

6. South Korea Manufacturing Market Analysis:

Market Size: USD 405 Billion (2023)

Global Share: 3.0%

Country-Specific Insight: South Korea dominates in electronics, automotive, and shipbuilding, with Samsung and Hyundai leading global exports. Its innovation-led model focuses on R&D and automation for improved productivity.

Country Dynamics:

- Drivers: Government support and strong global brands
- Trends: AI-integrated electronics and smart factories
- Restraints: Export dependence and demographic challenges
- Technology Focus: Advanced robotics and semiconductor-driven production

7. Italy Manufacturing Market Analysis:

Market Size: USD 311 Billion (2023)

Global Share: 2.3%

Country-Specific Insight: Italy is renowned for automotive, textiles, food processing, and luxury goods. Fiat and Luxottica are key contributors, supported by industrial modernization policies and high-quality craftsmanship.

Country Dynamics:

- Drivers: High-quality production and export-oriented economy
- Trends: Growth in food and luxury product manufacturing
- Restraints: Dependence on imports for advanced technology
- Technology Focus: Smart textiles and precision machinery

8. France Manufacturing Market Analysis:

Market Size: USD 257 Billion (2023)

Global Share: 1.9%

Country-Specific Insight: France has diversified industries including aerospace, automotive, and pharmaceuticals, led by Airbus, Renault, and Sanofi. Industry 4.0 initiatives enhance efficiency and sustainability.

Country Dynamics:

- Drivers: Strong aerospace and pharma sectors
- Trends: Adoption of digital manufacturing solutions

- Restraints: Rising labor costs and regulatory hurdles
- Technology Focus: Smart manufacturing and AI-enabled production

9. United Kingdom Manufacturing Market Analysis:

Market Size: USD 243 Billion (2023)

Global Share: 1.8%

Country-Specific Insight: The UK focuses on aerospace, defense, and pharmaceuticals, supported by Rolls-Royce and GlaxoSmithKline. The Industrial Strategy Challenge Fund drives innovation in sustainable manufacturing.

Country Dynamics:

- Drivers: High-tech industries and academic collaboration
- Trends: Sustainable manufacturing and additive production
- Restraints: Post-Brexit uncertainties and supply chain disruptions
- Technology Focus: Advanced materials and digital manufacturing

10. Indonesia Manufacturing Market Analysis:

Market Size: USD 189 Billion (2023)

Global Share: 1.4%

Country-Specific Insight: Indonesia's manufacturing is centered on automotive, textiles, and food processing. Strategic location and government-backed industrialization drive growth, with companies like Toyota and Samsung expanding production.

Country Dynamics:

- Drivers: Abundant resources and young workforce
- Trends: Growing role in electronics and automotive exports
- Restraints: Infrastructure bottlenecks and reliance on imports
- Technology Focus: Smart logistics and digital supply chain systems

PESTEL Analysis of Manufacturing Market

Macroeconomic and policy factors collectively shape the global manufacturing market, influencing competitiveness, investment, and innovation. While technological advancements and sustainability mandates drive industry transformation, challenges from trade policies, labor dynamics, and regulatory standards create ongoing complexities for manufacturers worldwide.

Political Factors

Government policies, subsidies, and trade regulations strongly affect manufacturing competitiveness. Political stability ensures secure supply chains, while tariffs and export restrictions can raise costs. Initiatives such as Make in India and Industry 4.0 underline how state-backed programs fuel industrial growth and modernization.

Economic Factors

GDP expansion, consumer demand, and inflation rates directly impact output and sales. Emerging markets such as India and Brazil are propelling global growth, while developed economies emphasize high-value production. Currency fluctuations and raw material price volatility remain key profitability challenges.

Social Factors

Demographic shifts, including urbanization and aging populations, shape demand for housing, healthcare, and consumer durables. Consumer preference for sustainability and customization is pushing manufacturers toward flexible production systems and eco-friendly products. Workforce skills gaps present risks, making training and upskilling critical.

Technological Factors

Automation, robotics, and IoT are transforming production efficiency and quality control. Smart factories enable predictive maintenance and real-time analytics. Additive manufacturing and digital twin technologies support mass customization and rapid prototyping, while R&D investments sustain competitiveness.

Environmental Factors

Sustainability pressures are reshaping production models. Manufacturers are adopting renewable energy, resource optimization, and waste reduction strategies to comply with emissions standards. Circular economy initiatives, including recycling and reuse, are increasingly integrated into global supply chains.

Legal Factors

Manufacturing operates under strict legal frameworks, covering health and safety, intellectual property, and environmental laws. Compliance with international trade agreements, product liability standards, and labor regulations remains vital. Intellectual property protections encourage innovation while mitigating risks of technology theft.

Leading Manufacturers in the Manufacturing Market

The global manufacturing market is dominated by multinational corporations that drive innovation, shape supply chains, and influence regional growth. These players maintain leadership through R&D investment, sustainability practices, and adoption of Industry 4.0 technologies, while focusing on competitive differentiation across diverse product segments.

1. BASF Group

Revenue: USD 76 Billion (2023) → USD 80 Billion (2024)

R&D Investment: USD 2.5 Billion annually

Key Segment: Chemicals, polymers, industrial solutions

Market Share: 2% globally

Strengths: Diversified portfolio, sustainability focus, European leadership

2. Hon Hai Technology Group (Foxconn)

Revenue: USD 200.54 Billion (2023) → USD 210 Billion (2024)

R&D Investment: USD 5 Billion annually

Key Segment: Consumer electronics, computing, cloud infrastructure

Market Share: 4% globally

Strengths: Large-scale production, cost efficiency, global supply chains

3. Samsung Electronics Inc.

Revenue: USD 207.14 Billion (2023) → USD 215 Billion (2024)

R&D Investment: USD 20 Billion annually

Key Segment: Consumer electronics, semiconductors, displays

Market Share: 5% globally

Strengths: Advanced technology, brand dominance, vertical integration

4. General Motors Company (GM)

Revenue: USD 171.84 Billion (2023) → USD 176 Billion (2024)

R&D Investment: USD 9 Billion annually

Key Segment: Automotive manufacturing, EVs, mobility solutions

Market Share: 3% globally

Strengths: Strong EV portfolio, global presence, autonomous vehicle R&D

5. F. Hoffmann-La Roche Ltd

Revenue: USD 70.07 Billion (2023) → USD 73 Billion (2024)

R&D Investment: USD 14 Billion annually

Key Segment: Pharmaceuticals, diagnostics

Market Share: 1.5% globally

Strengths: Healthcare innovation, diagnostics leadership, strong patent portfolio

Recent developments in Manufacturing Market

In April 2024, BASF announced that the company is expanding its lineup of biomass-balanced ingredients for the detergent and cleaning industry across Europe. The company's expanded Eco Balanced portfolio helps customers achieve sustainability goals without sacrificing product performance by replacing fossil raw materials with renewable resources, reducing carbon footprints.

Conclusion

The global manufacturing industry, projected to reach USD 20.76 trillion by 2031 at a CAGR of 4.9%, is evolving through technological innovation, sustainability initiatives, and rapid adoption of Industry 4.0. Countries such as China, the United States, and Japan remain dominant, while emerging markets like India and Indonesia are reshaping the global balance through industrialization and digitalization.

Sustainability, supply chain resilience, and circular economy practices are becoming central to long-term competitiveness. Companies are increasingly investing in robotics, automation, and renewable energy integration to enhance efficiency and reduce environmental impact. With rising global demand and technological advancements, the industry is positioned for transformative growth, offering ample opportunities for manufacturers that adapt to changing dynamics

INDIAN MANUFACTURING INDUSTRY

Introduction

Manufacturing is emerging as a central pillar of India's economic growth, contributing around 16-17% of GDP and employing over 27 million workers. The sector's strength lies in the performance of key industries such as automotive, engineering, chemicals, pharmaceuticals, consumer durables, electronics, and textiles. Supported by government initiatives like Make in India and production-linked incentive (PLI) schemes, India is targeting manufacturing to account for 25% of GDP in the coming years.

Technology is playing a transformative role in reshaping the industry. Once anchored by the machine tool sector, India is now moving towards automation, digitalisation, and process-driven production. Digital transformation has spurred innovation, improved efficiency, and positioned manufacturers to remain competitive in global markets. The sector's momentum was reflected in July 2025, when the HSBC India Manufacturing PMI hit a 16-month high of 59.1, driven by the fastest increase in factory orders in nearly five years.

India is also carving a niche in specialised global value chains. It has the potential to cater to 10% of the world's wind energy demand by 2030 through its growing capacity in wind power component manufacturing. In electronics, domestic value addition has risen from 30% to 70% and is projected to reach 90% by FY27. Global companies like Apple are expanding local manufacturing, with smartphone export volumes rising to 22.9 million units in the first half of 2025, compared to 15 million a year earlier. With its large workforce and cost competitiveness, India is well-positioned to become a lower-cost alternative to China for advanced technology manufacturing, according to the World Bank.

The government has reinforced this growth with policy support. The National Manufacturing Policy has evolved into the new National Manufacturing Mission, announced in Union Budget 2025-26, which focuses on five key areas: ease and cost of doing business, a future-ready workforce, vibrant MSMEs, access to technology, and quality manufacturing. The mission also seeks to build clean-tech ecosystems across solar PV cells, EV batteries, electrolyzers, wind turbines, and grid-scale batteries. Alongside, a new focus product scheme has been launched to boost India's footwear and leather sector, projected to generate 22 lakh jobs, achieve turnover of Rs. 4 lakh crore (US\$ 45.7 billion), and enable exports worth over Rs. 1.1 lakh crore (US\$ 12.6 billion).

Investment trends further underline the sector's dynamism. FDI inflows into manufacturing have reached Rs. 14.3 lakh crore (US\$ 165.1 billion), a 69% increase over the past decade, with total FDI inflows crossing Rs. 33.3 lakh crore (US\$ 383.5 billion) in the last five years. Under the PLI schemes, Rs. 21,534 crore (US\$ 2.46 billion) has already been disbursed across 12 sectors, attracting investments worth Rs. 1.76 lakh crore (US\$ 20.1 billion). The government is also planning additional incentives of Rs. 18,000 crore (US\$ 2.2 billion) for six new sectors, including chemicals, shipping containers, and vaccine inputs.

Complementing this, India's digital economy is projected to account for 20% of GDP by 2029-30, growing twice as fast as the overall economy. This widespread digitalisation, coupled with manufacturing growth, will reinforce India's role in global supply chains.

A globally competitive manufacturing sector represents one of India's greatest opportunities to drive growth, employment, and exports in the coming decade. With strong policy backing, a skilled workforce, rising FDI, and a shift toward automation and clean technologies, India is making a credible bid to establish itself as a global manufacturing hub.

Market Size

India's exports grew 6% year-on-year to US\$ 210.31 billion in Q1 FY26 (April-June 2025), driven by strong growth in non-petroleum goods and services, with key contributions from pharmaceuticals, electronics, engineering goods, chemicals, and the e-commerce sector.

In FY25, the export of the top six major commodities, which include engineering goods, petroleum products, gems and jewellery, organic and inorganic chemicals, electronics goods, and drugs and pharmaceuticals, stood at Rs. 23,87,731 crore (US\$ 279.69 billion). Electronics exports have been particularly strong, rising from US\$ 29.1 billion in FY24 to US\$ 38.6 billion in FY25, with projections for FY26 expected to touch US\$ 46-50 billion.

Looking ahead, India's e-commerce exports are projected to grow from Rs. 8,757 crore (US\$ 1 billion) to Rs. 35,02,800 crore (US\$ 400 billion) annually by 2030, which will aid in achieving Rs. 1,75,14,000 crore (US\$ 2 trillion) in total exports. By the same year, the Indian middle class is expected to have the second-largest share in global consumption at 17%.

India's manufacturing sector also continues to strengthen, with the potential to reach Rs. 87,57,000 crore (US\$ 1 trillion) by FY26. The country could add more than Rs. 43,43,500 crore (US\$ 500 billion) annually to the global economy by 2030 if it fully realizes its potential as a global manufacturing hub. The display panel market, for instance, is estimated to grow from Rs. 60,809 crore (US\$ 7 billion) in 2021 to Rs. 1,30,305 crore (US\$ 15 billion) in 2025.

The Indian startup ecosystem has also shown resilience and momentum. Between November 18 and 23, 2024, startups secured approximately Rs. 5,177.45 crore (US\$ 596 million) in funding, marking a 226% increase compared to the previous week. This surge was driven by 23 startups, including Zepto raising Rs. 3,040.45 crore (US\$ 350 million) and HealthKart securing Rs. 1,329.11 crore (US\$ 153 million). On average, weekly funding over the past eight weeks has been around Rs. 2,317.43 crore (US\$ 266.77 million), bringing the total raised in 2024 to nearly Rs. 86,870 crore (US\$ 10 billion). This positions the sector on track to surpass the 2023 funding total of Rs. 91,214 crore (US\$ 10.5 billion).

India's overall economy continues to reflect this robust performance. The Nominal GVA for Q1 FY26 (April-June 2025) is estimated at Rs. 78.25 lakh crore (US\$ 890.01 billion), reflecting an 8.8% growth compared to the previous year.

Investment

Some of the major investments and developments in this sector in the recent past are:

- The Defence Acquisition Council, chaired by Union Minister of Defence Mr. Rajnath Singh, has approved Rs. 67,000 crore (US\$ 7.65 billion) worth of projects to strengthen the Indian Army, Navy, and Air Force. The move focuses on boosting 'Make in India' with key roles for Hindustan Aeronautics Limited (HAL), Bharat Electronics Limited (BEL), and Bharat Dynamics Limited (BDL).
- Under the "Make in India" initiative, the Marhowrah Diesel Locomotive Factory in Bihar is set to export 150 Evolution Series ES43ACmi locomotives to Guinea for its Simandou iron ore project. Developed in partnership with Wabtec, this export deal is valued at over Rs. 3,000 crore (US\$ 345.9 million) and significantly expands India's global footprint in railway manufacturing.
- The Department for Promotion of Industry and Internal Trade (DPIIT) has signed a Memorandum of Understanding (MoU) with Electric Vehicle (EV) manufacturer Ather Energy on July 29, 2025, to foster growth and innovation within India's EV and manufacturing startup ecosystem. This collaboration aims to provide strategic mentorship and infrastructure support to deep-tech startups engaged in the EV value chain, including areas such as battery technology, vehicle manufacturing, and clean energy solutions.
- On July 30, 2025, Samsung, has signed a strategic Memorandum of Understanding (MoU) with Startup India, a flagship initiative of the Government of India. The collaboration aims to identify and nurture high-potential talent, especially from Tier II and Tier III cities, by providing access to infrastructure, expert guidance, market linkages, and funding opportunities.
- In July 2025, Startup India has identified Wayanad as the next potential startup hub in Kerala, aiming to build a strong ecosystem for innovation and entrepreneurship in the region. This initiative is part of a broader effort by Startup India the Government of India's flagship program, to foster sustainable economic growth and generate employment opportunities through startups
- According to NITI Aayog report, India can potentially capture a larger global market share, targeting Rs. 2,13,925 crore (US\$ 25 billion) in exports by 2035.
- According to the Council for Leather Exports (CLE), India's leather, non-leather footwear, and products exports increased by 25% at Rs. 48,667 crore (US\$ 5.7 billion) in FY25, may hit Rs. 55,497 crore (US\$ 6.5 billion) in FY26.
- India's GCC sector is expanding rapidly, with 24 centres surpassing Rs. 8,537 crore (US\$ 1 billion) in export revenue in FY24, up from 19 the previous year. These centres, crucial to Fortune 500 firms, generated Rs. 372,213 crore (US\$

43.6 billion) in exports. Experts predict rapid growth, with India poised to host 2,100 GCCs by 2028, driving innovation, job creation, and economic impact.

- The Department for Promotion of Industry and Internal Trade (DPIIT) has partnered with Hafele India to support manufacturing startups by promoting innovation, local sourcing, and global market integration, while providing mentorship, infrastructure, and ecosystem access via Startup India.
- With Rs. 14,93,975 crore (US\$ 175 billion) in funding and 76 IPOs, India is preparing for significant growth in the startup sector.
- Shree Cement has signed a Memorandum of Understanding (MoU) with the Department for Promotion of Industry and Internal Trade (DPIIT) to support manufacturing sector startups by providing infrastructure, mentorship, funding access, and market connections, aiming to enhance India's manufacturing ecosystem and promote self-reliance through domestic innovation.
- India's defence exports reached a record Rs. 23,622 crore (US\$ 2.70 billion) in FY25, a 12% increase from Rs. 21,083 crore (US\$ 2.41 billion) in FY24. The government aims to raise defence exports to Rs. 30,000 crore (US\$ 3.42 billion) in FY26 and Rs. 50,000 crore (US\$ 5.71 billion) by 2029. This growth has been driven by both Defence Public Sector Undertakings, which saw a 42.85% export increase, and a strong private sector contribution.
- Sansera Engineering Limited has signed an MoU with the Karnataka government to invest Rs. 2,100 crore (US\$ 251 million) in a new manufacturing facility in Ramanagara, aiming to create 3,500 jobs and enhance production capacity in the automotive and non-automotive sectors over the next three to five years.
- Google is set to begin manufacturing Pixel smartphones in India, specifically in Tamil Nadu, in collaboration with Foxconn and Dixon Technologies. This production aims to cater primarily to export markets in Europe and the US, with operations expected to start in September 2024. The initiative comes as Google prepares to launch its Pixel 9 series in India on August 13, leveraging India's Production-Linked Incentive (PLI) scheme to enhance manufacturing scalability.
- Maruti Suzuki has begun exporting the Made-in-India Fronx compact SUV to Japan, marking its first SUV launch in the Japanese market. Manufactured at its Gujarat plant, the first shipment of over 1,600 vehicles has already left for Japan, with the official launch planned for autumn 2024.
- India's first 'Made in India' chip will be launched ahead of schedule, supported by the Rs. 76,000 crore (US\$ 8.79 billion) Semicon India program. Foreign investments are also flowing in, with NXP Semiconductors planning to invest Rs. 8,644 crore (US\$ 1 billion) in R&D and Micron Technology setting up a Rs. 23,771 crore (US\$ 2.75 billion) plant in Gujarat. India's semiconductor market is projected to reach Rs. 5,44,572 crore (US\$ 63 billion) by 2026.
- According to Department for Promotion of Industry and Internal Trade (DPIIT), India received a total foreign direct investment (FDI) inflow of Rs. 4,03,251 crore (US\$ 46.42 billion) in FY24.
- In FY25, India received a total foreign direct investment (FDI) inflow of US\$ 81,043 million.
 - Between April 2000-March 2025:
 - The automobile sector received FDI inflows of US\$ 37,854 million.
 - The chemical manufacturing sector (excluding fertilisers) received FDI inflows worth US\$ 23,207 million.
 - The drug and pharmaceutical manufacturing sector received FDI inflows worth US\$ 23,419 million.
 - The Computer Software and Hardware Industries received FDI inflows worth US\$ 110,698 million
- For the month of June 2025, the Quick Estimates of Industrial Production (IIP) with base 2011-12 stands at 153.3. The Indices of Industrial Production for the Mining, Manufacturing and Electricity sectors for the month of June 2025 stand at 123.2, 152.3, and 217.1, respectively.
- The Index of Industrial Production (IIP) from April-January 2025 stood at 154.2.
- The combined index of eight core industries stood at for 166.7 for FY26 (April-June) compared to 164.5 for FY25 (April-June). For the month of June 2025, the combined index of eight core industries stood at 166.5.
- India's manufacturing sector, driven by pharmaceuticals, motor vehicles, and cement, demonstrated resilience despite weak global demand in July-August 2023. PMI remained robust, reflecting domestic economic strength. Capacity

utilization in manufacturing trended upwards, signalling positive investment prospects. RBI MPC maintained policy repo rate to control inflation.

- India aims for Rs. 8,68,700 crore (US\$ 100 billion) annual foreign direct investment (FDI) in the coming years, according to Union Minister of Information and Broadcasting Mr. Ashwini Vaishnaw, as part of the government's strategy focused on infrastructure investment, social upliftment, manufacturing growth, and simplification of business processes, amidst projections of consistent 6-8% economic growth over the next decade.
- At the aggregate level, the capacity utilization (CU) in the manufacturing sector increased to 77.7% in Q4 FY25 from 75.4% in the previous quarter.
- India's manufacturing sector experienced a significant boost in July 2025, with the HSBC India Manufacturing PMI hitting a 16-month high of 59.1. This was driven by the fastest increase in factory orders in nearly five years and a strong expansion in output, especially for intermediate goods.
- In May 2025, the Employees' Provident Fund Organisation (EPFO) added a net total of 20.06 lakh members, which is the highest recorded addition since data tracking began in April 2018, marking a 2.84% YoY growth with 9.42 lakh new members enrolled, largely driven by increased employment opportunities and effective outreach initiatives. Notably, the 18-25 age group accounted for 59.48% of the total new subscribers, adding 5.60 lakh new subscribers. Female membership also saw significant growth, with 2.62 lakh new female subscribers joining, marking a 5.84% YoY growth compared to May 2024, and indicating a shift towards a more inclusive workforce.
- Amazon Inc's cloud computing division, Amazon Web Services, became the latest company to invest in India. The company has planned to invest Rs. 1,12,931 crore (US\$ 13 billion) in India by 2030 to build its cloud infrastructure and create thousands of jobs.
- On February 29, 2024, India approved the construction of three semiconductor plants with investments exceeding Rs. 1,30,305 crore (US\$ 15 billion). These plants aim to establish India as a major chip hub, with Tata Electronics, Tata Semiconductor Assembly and Test Pvt Ltd, and CG Power spearheading the projects in Gujarat and Assam. This initiative aligns with India's goal to bolster its semiconductor ecosystem and create numerous advanced technology jobs.

Government Initiatives

The Government of India has taken several initiatives to promote a healthy environment for the growth of manufacturing sector in the country. Some of the notable initiatives and developments are:

- In the Union Budget 2025-26:
 - The Union Budget 2025-26 has been well received by the renewable energy industry, with experts praising its emphasis on clean power, domestic manufacturing, and sustainability. Key initiatives include the Rs. 20,000 crore (US\$ 2.30 billion) allocation for nuclear energy, legislative reforms for energy security, and the Rs. 20,000 crore (US\$ 2.30 billion) commitment to the PM Surya Ghar Muft Bijli Yojana for rooftop solar expansion.
 - On February 7, 2025, the Union Cabinet has approved the restructuring of the Skill India Programme with an Rs. 8,800 crore (US\$ 1.1 billion) outlay, extending it till 2026 to integrate demand-driven, tech-enabled, industry-aligned training nationwide.
 - The Union Cabinet has announced the merger of Pradhan Mantri Kaushal Vikas Yojana 4.0, Pradhan Mantri National Apprenticeship Promotion Scheme, and Jan Shikshan Sansthan Scheme under the Skill India Programme.
- On the 10th anniversary of the 'Make in India' initiative, Union Commerce and Industry Minister Mr. Piyush Goyal reported significant achievements, including an 85% reduction in mobile imports and a 200% increase in manufacturing jobs from 2022 to 2024. He emphasized that 99% of mobile phones in India are now produced domestically, reflecting the initiative's success in transforming India's manufacturing landscape and attracting substantial Foreign Direct Investment (FDI). He highlighted ongoing efforts to improve the ease of doing business and support the startup ecosystem, aiming to position India as a global manufacturing hub and a developed nation by 2047.

- India's Production-Linked Incentive (PLI) scheme encourages global laptop brands such as Asus, HP, and MSI to shift production from China to India, boosting domestic manufacturing and ecosystem development.
- In April 2025, value addition in electronics manufacturing has significantly increased from 30% to around 70%. According to an Axis Capital report, it will reach 90% by FY27.
- Union Minister of Education and Skill Development & Entrepreneurship, Mr. Dharmendra Pradhan inaugurates Rashtriya Udyamita Vikas Pariyojana under Skill India Mission, empowering PM SVA Nidhi beneficiaries with comprehensive 22-week entrepreneurship training, including theoretical and practical components, in collaboration with Flipkart and focusing on 40% women participation.
- Semiconductor associations IESA and SEMI signed a Memorandum of Understanding (MoU) in Bengaluru to establish India as a global manufacturing hub, focusing on talent development, policies, design, skilling, research, academia, and supply chains, leveraging SEMI's international network and IESA's expertise.
- Under the Skill India mission, Pradhan Mantri Kaushal Vikas Yojana (PMKVY) has trained over 1.40 crore candidates since 2015, as per Skill India Digital data until December 13, 2023. Notably, in the Short-term Training (STT) program, 42% of certified candidates found placement opportunities, with 24.39 lakh candidates successfully placed out of 57.42 lakh certified.
- Ministry of Defence has set a target of achieving a turnover of Rs. 217.18 crore (US\$ 25 million) in aerospace and defence Manufacturing by 2025, which includes Rs. 43,435 crore (US\$ 5 billion) exports.
- Till October 2022, a total of 595 Industrial Licences have been issued to 366 companies operating in Defense Sector.
- By 2030, the Indian government expects the electronics manufacturing sector to be worth Rs. 26,06,100 crore (US\$ 300 billion).
- Initiatives like Make in India, Digital India and Startup India have given the much-needed thrust to the Electronics System Design and Manufacturing (ESDM) sector in India.
- The Scheme for Promotion of Manufacturing of Electronic Components and Semiconductors (SPECs) has been notified with an aim to strengthen the value chain for the manufacturing of electronic products in India.
- The PLI for semiconductor manufacturing is set at Rs. 760 billion (US\$ 9.71 billion), with the goal of making India one of the world's major producers of this crucial component.
- The government approved a PLI scheme for 16 plants for key starting materials (KSMs)/drug intermediates and active pharmaceutical ingredients (APIs). The establishment of these 16 plants would result in a total investment of Rs. 348.70 crore (US\$ 47.01 million) and generation of ~3,042 jobs. The commercial development of these plants is expected to begin by April 2023.
- In India, the market for grain-oriented electrical steel sheet manufacturing is witnessing high demand from power transformer producers, due to the rising demand for electric power and increasing adoption of renewable energy in the country.
- The Mega Investment Textiles Parks (MITRA) scheme to build world-class infrastructure will enable global industry champions to be created, benefiting from economies of scale and agglomeration. Seven Textile Parks will be established over three years.
- The government proposed to make significant investments in the construction of modern fishing harbours and fish landing centres, covering five major fishing harbours in Kochi, Chennai, Visakhapatnam, Paradip, and Petuaghat, along with a multipurpose Seaweed Park in Tamil Nadu. These initiatives are expected to improve exports from the textiles and marine sectors.
- The 'Operation Green' scheme of the Ministry of the Food Processing Industry, which was limited to onions, potatoes, and tomatoes, has been expanded to 22 perishable products to encourage exports from the agricultural sector. This will facilitate infrastructure projects for horticulture products.

Road Ahead

India is rapidly positioning itself as a global manufacturing hub, supported by government initiatives, rising domestic demand, and strong export momentum. The sector is projected to reach Rs. 87,57,000 crore (US\$ 1 trillion) by FY26, with electronics, automotive, and engineering emerging as key growth drivers. According to the Indian Cellular and Electronics Association (ICEA), India could scale its cumulative laptop and tablet manufacturing capacity to US\$ 100 billion by 2025 with the right policy interventions.

The government has introduced several programmes to accelerate this growth. The Ministry for Heavy Industries and Public Enterprises launched SAMARTH Udyog Bharat 4.0, or SAMARTH Advanced Manufacturing and Rapid Transformation Hubs, to foster advanced manufacturing practices and enhance competitiveness in the capital goods market. Alongside, the development of industrial corridors and smart cities is creating integrated ecosystems that support innovation, improve logistics, and promote sustainable industrial growth.

As multinational companies expand their production bases and India strengthens its physical and digital infrastructure, the country is well placed to deepen its role in global supply chains. By combining policy support with technology adoption and a skilled workforce, India has the potential not only to meet domestic demand but also to capture a larger share of global manufacturing opportunities in the coming decade.

GLOBAL AUTOMOTIVE PARTS INDUSTRY ANALYSIS AND CONSULTING

Automotive Parts Industry Overview

The automotive parts industry is a pivotal sector within the global automotive ecosystem, reflecting the rapid technological advancements and evolving consumer demands in vehicle manufacturing. In 2023, the global automotive parts market was valued at USD 620 billion, projected to reach USD 755 billion by 2026, registering a CAGR of 7.5% from 2023 to 2032. Growth is fuelled by rising vehicle production, expansion of electric and hybrid vehicles, and advancements in smart automotive technologies.

The market encompasses various segments including tires, genuine parts, and service channels, with Original Equipment (OE) parts capturing a dominant share of 70.5% in 2023. Regional dynamics play a crucial role: the United States leads with a 35.48% share, followed by China at 29.03%, Japan at 8.06%, and Germany at 7.26%. Emerging markets like India and Brazil are also gaining traction due to urbanization, increasing vehicle ownership, and government incentives promoting automotive manufacturing and electrification.

Market evolution is driven by trends such as electrification, connected and autonomous vehicles, and a growing focus on sustainability and regulatory compliance. Challenges include stringent environmental standards, high EV component costs, and semiconductor shortages. Leading companies are innovating in advanced driver assistance systems (ADAS), electric drivetrains, and lightweight materials, ensuring the industry adapts to shifting market demands while fostering technological and sustainable growth.

Top Countries Contributing in Automotive Parts Market

The global automotive parts market is concentrated in countries with advanced manufacturing capabilities, strong R&D investment, supportive policies, and high consumer demand. These nations dominate due to a combination of industrial expertise, technological adoption, e-commerce penetration, and strategic initiatives for electric and autonomous vehicle development.

1- United States Automotive Parts Market

Market Size: USD 220 billion (2023) → USD 265 billion (2031)

Global Share: 35.48%

Country-Specific Insight: The U.S. automotive parts market benefits from a robust manufacturing base, extensive R&D, and leading automakers like GM, Ford, and Tesla. OE parts dominate, and online retail penetration is steadily increasing, driven by DIY maintenance trends.

Country Dynamics :

Drivers: Advanced automotive manufacturing, high EV adoption, government incentives

Trends: Shift towards electrification, smart mobility solutions

Restraints: High cost of EV components, supply chain challenges

Technology Focus: ADAS, autonomous systems, electric drivetrain components

2-China Automotive Parts Market

Market Size: USD 180 billion (2023) → USD 235 billion (2031)

Global Share: 29.03%

Country-Specific Insight: China's rapid urbanization, rising incomes, and EV incentives drive demand. Manufacturing capabilities and skilled labor ensure strong production and export capacity. E-commerce sales are growing, particularly in aftermarket parts.

Country Dynamics:

Drivers: EV policy support, large domestic vehicle market

Trends: Smart vehicle integration, hybrid technology adoption

Restraints: Supply chain disruptions, regulatory hurdles

Technology Focus: Battery systems, connected car technologies

3-Japan Automotive Parts Market

Market Size: USD 50 billion (2023) → USD 58 billion (2031)

Global Share: 8.06%

Country-Specific Insight: Japan emphasizes precision engineering and high-quality production, supporting domestic automakers like Toyota and Honda. The focus is on hybrid and EV components, with strong exports globally.

Country Dynamics:

Drivers: High-quality manufacturing, export orientation

Trends: Hybrid and EV adoption, autonomous vehicle systems

Restraints: Aging workforce, high production costs

Technology Focus: Powertrain innovations, advanced electronics

4- Germany Automotive Parts Market

Market Size: USD 45 billion (2023) → USD 53 billion (2031)

Global Share: 7.26%

Country-Specific Insight: Germany's automotive parts industry thrives on innovation, precision, and exports from leading automakers like Volkswagen and BMW. Lightweight materials and advanced propulsion systems are key focus areas.

Country Dynamics:

Drivers: Strong R&D, automotive export strength

Trends: Electric mobility, autonomous driving technologies

Restraints: Regulatory compliance costs, competitive pressures

Technology Focus: Chassis, propulsion, and electronic systems

5-South Korea Automotive Parts Market

Market Size: USD 25 billion (2023) → USD 32 billion (2031)

Global Share: 4.03%

Country-Specific Insight: South Korea excels in automotive innovation with major players Hyundai and Kia. Investment in EV components and smart mobility drives market growth.

Country Dynamics:

Drivers: Technological innovation, export-oriented manufacturing

Trends: Electric and autonomous vehicle components

Restraints: Dependence on global supply chains

Technology Focus: Powertrain systems, ADAS, electric mobility

6-India Automotive Parts Market

Market Size: USD 22 billion (2023) → USD 30 billion (2031)

Global Share: 3.55%

Country-Specific Insight: India's automotive parts market is growing due to rising urbanization and government initiatives like "Make in India." The organized segment targets OEMs while the unorganized segment serves aftermarket needs.

Country Dynamics:

Drivers: Government policies, growing vehicle ownership

Trends: EV adoption, digital distribution channels

Restraints: Infrastructure limitations, cost-sensitive consumers

Technology Focus: Battery systems, EV drivetrains

7-France Automotive Parts Market

Market Size: USD 18 billion (2023) → USD 22 billion (2031)

Global Share: 2.90%

Country-Specific Insight: France emphasizes sustainability and technological innovation, with key automakers Renault and Stellantis driving demand for advanced components.

Country Dynamics:

Drivers: Government incentives, green technology focus

Trends: EV component development, e-mobility solutions

Restraints: Regulatory pressures, high production costs

Technology Focus: Electric drivetrains, eco-friendly materials

8-United Kingdom Automotive Parts Market

Market Size: USD 15 billion (2023) → USD 19 billion (2031)

Global Share: 2.42%

Country-Specific Insight: The UK focuses on engineering excellence, EV adoption, and export-oriented production, led by Jaguar Land Rover and MINI.

Country Dynamics:

Drivers: Skilled workforce, innovation incentives

Trends: Electrification, autonomous driving technologies

Restraints: Post-Brexit trade barriers, high R&D costs

Technology Focus: ADAS, electric mobility systems

9-Brazil Automotive Parts Market

Market Size: USD 10 billion (2023) → USD 13 billion (2031)

Global Share: 1.61%

Country-Specific Insight: Brazil's large vehicle population and domestic production create robust demand for automotive components, with a growing focus on modernization and sustainability.

Country Dynamics:

Drivers: Vehicle population growth, domestic manufacturing

Trends: Green technology adoption, aftermarket growth

Restraints: Economic volatility, import dependency

Technology Focus: Lightweight materials, EV components

10-Italy Automotive Parts Market

Market Size: USD 8 billion (2023) → USD 10 billion (2031)

Global Share: 1.29%

Country-Specific Insight: Italy's rich automotive heritage drives demand for high-performance components from manufacturers like Ferrari and Lamborghini, emphasizing craftsmanship and advanced manufacturing.

Country Dynamics:

Drivers: Automotive craftsmanship, innovation culture

Trends: Lightweight components, EV propulsion systems

Restraints: High labor costs, small domestic market

Technology Focus: High-performance materials, powertrain systems

PESTEL Analysis of Automotive Parts Market

The automotive parts industry is influenced by diverse macro-environmental factors, shaping global trends and strategic decisions. Political regulations, economic conditions, social preferences, technological advancements, environmental imperatives, and legal frameworks collectively determine industry growth, competitiveness, and innovation priorities.

Political Factors of Automotive Parts Market

- Government regulations on emissions, safety, and trade significantly influence design, manufacturing, and global supply chains. Policies like Euro 6 standards and NCAP safety ratings dictate product compliance, while tariffs affect international trade.

Economic Factors of Automotive Parts Market

- Vehicle sales and aftermarket demand are impacted by economic cycles, exchange rates, and credit availability. Growth periods boost demand for automotive parts, while recessions or high-interest rates may dampen consumer spending.

Social Factors of Automotive Parts Market

- Consumer preferences for sustainability, EV adoption, and quality influence product development. Demographic changes, urbanization, and rising safety expectations further drive innovation in parts manufacturing and service offerings.

Technological Factors of Automotive Parts Market

- Advancements in AI, IoT, automation, and connected mobility reshape the industry. EV and autonomous vehicle technologies create new demand for powertrain, electronic, and ADAS components. Manufacturing efficiency benefits from digitalization and predictive maintenance solutions.

Environmental Factors of Automotive Parts Market

- Rising ecological awareness and regulatory pressure promote sustainable manufacturing, eco-friendly materials, and low-emission components. EV adoption accelerates a shift away from traditional parts while fostering green mobility innovations.

Legal Factors of Automotive Parts Market

- Compliance with safety, emissions, IP, and labor regulations is crucial. Intellectual property protections safeguard innovation, while environmental standards require continuous adaptation in production processes.

Recent developments in Automotive Parts Market

- Honda and General Motors (GM) have strengthened their collaboration in the North American market to expedite the development and production of electric vehicles (EVs). This partnership focuses on sharing vehicle platforms, engines, and electrified powertrains to reduce production costs and offer significant benefits to consumers. The two companies are working on several models, including the Honda Prologue and Acura ZDX, set to be launched in 2024. (Source- <https://investor.gm.com/news-releases/news-release-details/honda-and-general-motors-sign-mou-toward-establishing-0>)
- March 3: Volkswagen (VW) and Ford have also announced a strategic partnership aimed at enhancing their EV capabilities. Ford will be the first automaker outside of VW to use the Modular Electric Drive Matrix (MEB) platform, which is expected to streamline the development process and lower costs. This collaboration highlights the industry trend towards shared technologies to accelerate EV adoption and production efficiency. (Source- <https://www.volkswagen-group.com/en/press-releases/volkswagen-and-ford-expand-collaboration-on-meb-electric-platform-16817>)

Conclusion

The automotive parts industry is poised for continued growth, driven by rising vehicle production, EV adoption, and advanced technological integration. Countries like the U.S., China, and Japan dominate due to robust manufacturing, innovation, and supportive policies. Sustainability and connected vehicle technologies shape product development, while strategic collaborations and R&D investments ensure competitiveness. Despite challenges such as high EV costs and supply chain disruptions, the industry is positioned to capitalize on electrification, autonomous driving, and global market expansion opportunities.

AUTO COMPONENTS INDUSTRY IN INDIA

Introduction

India has emerged as the fastest-growing economy in the world in recent years. Rising incomes, higher infrastructure spending, and supportive manufacturing incentives have together accelerated the automobile sector, making it a critical pillar of India's growth story. The two-wheeler segment, driven largely by the expanding middle class, continues to dominate the market, with sales reaching 19.6 million units in FY25. This surge in demand has also encouraged the expansion of original equipment and auto component manufacturers, helping India build strong expertise in this space and enhancing global demand for Indian vehicles and components.

The industry is now witnessing a shift towards electrification, though internal combustion engine (ICE) vehicles continue to dominate. In 2024, India produced 100,000 electric cars and 900,000 electric two-wheelers, alongside 20 million two-wheelers and 5 million cars powered by ICE technology. Supporting this growth, the auto component industry has become a vital segment of the economy, spanning large corporations to micro enterprises across manufacturing clusters nationwide. It accounted for 2.3% of India's GDP in FY25 and provided direct employment to over 1.5 million people, a figure expected to rise as the sector's GDP contribution reaches 5-7% by 2026. India's auto-component industry is poised to reach US\$ 200 billion by 2030, supported by its cost competitiveness, skilled workforce, and growing domestic demand, according to a McKinsey report titled Shaping the future of India's auto component industry.

The Indian auto component industry recorded a turnover of Rs. 6,73,000 crore (US\$ 78.74 billion) in FY25, registering a CAGR of 14% between FY20 and FY25. The sector is projected to achieve exports worth Rs. 8,54,700 crore (US\$ 100 billion) by 2030, underscoring its global competitiveness. In FY25, exports stood at Rs. 1,95,726 crore (US\$ 22.9 billion). North America remained the largest export destination with a 32% share, recording 8.4% growth, while Europe, with a 29.5% share, registered a 2.1% decline. Asia accounted for 26% of exports and witnessed robust growth of 15.1%. The key

export items included drive transmission and steering, engine components, body and chassis parts, suspension systems, and braking components. According to a McKinsey report, India's auto component exports are projected to reach US\$ 70-100 billion by FY30, driven by rising demand for electric vehicle (EV) technologies and global supply chain diversification. Indian SMEs could capture US\$ 20-30 billion of this opportunity by leveraging cost advantages and high-quality standards.

Market Size

India's auto components industry has significantly expanded its market share, driven by rising automobile demand from the growing middle class and strong global exports. The sector has attracted both Indian and international players and is broadly classified into organised and unorganised segments. While the unorganised sector primarily caters to the aftermarket with low-value items, the organised sector focuses on supplying high-value precision instruments to Original Equipment Manufacturers (OEMs). India's automobile production further highlights the scale of demand that supports the component industry. In FY26 (April-September), domestic sales stood at 1,02,36,639 units for two-wheelers, 20,51,082 units for passenger vehicles, 4,63,502 units for commercial vehicles, and 3,94,450 units for three-wheelers. In FY26 (April-September), the total production of Passenger Vehicles, Commercial Vehicles, Three Wheelers, Two Wheelers and Quadricycle was 1,65,34,997

Source: ACMA, Note: *- Until September 2025

units.

In FY25, domestic OEM supplies accounted for about 54% of the industry's turnover, followed by the domestic aftermarket at around 10% and exports at 19%. Supplies to OEMs stood at Rs. 5,70,000 crore (US\$ 66.69 billion), reflecting a 10% YoY growth, while the aftermarket segment was valued at Rs. 99,948 crore (US\$ 11.6 billion), recording a 6% increase over FY24. India's Automotive Mission Plan 2047 aims to boost vehicle production to 50 million by 2030 and 200 million by 2047, positioning India among the top two global auto producers. It prioritizes sustainable vehicle production with hydrogen, electric, CNG, and biogas, while not curbing petrol or diesel vehicles immediately.

Investments

The Indian automobile sector recorded an inflow of huge investments from domestic and foreign manufacturers. Foreign Direct Investment (FDI) inflow in the sector stood at Rs. 2,59,753.31 crore (US\$ 39.14 billion) between April 2000-June 2026 which is 5% of the total FDI inflows in India during the same period.

Some of the recent investments made/planned for the auto component sector are as follows:

- Auto components maker Carraro got listed on BSE and NSE on December 2024, and the IPO comprised entirely an OFS of 1.78 crore shares.
- Inalfa Gabriel Sunroof Systems (IGSS) opened a new plant in Chennai which became operational in Q1 2024 is now nearing its full capacity and produced 1,30,000 sunroofs in 2024 alone.
- India's auto component industry is expected to attract Rs. 25,000-30,000 crore (US\$ 2.89-3.46 billion) in FY26 for capacity expansion and EV part localisation, following an estimated investment of Rs. 15,000-20,000 crore (US\$ 1.73-2.31 billion) in FY25.
- As part of the Union Budget 2025-26, the government has announced duty exemptions on lithium-ion battery scrap and other essential minerals. This initiative also includes adding 35 capital goods for electric vehicle production to the exemption list, with the goal of enhancing domestic production.
- Craftsman Automation Ltd., a prominent producer of automotive and industrial components, has disclosed intentions to construct a state-of-the-art manufacturing facility within the SIPCOT Industrial Park in Shoolagiri, Hosur. The company is set to invest approximately Rs. 150 crore (US\$ 17.3 million) in this strategic expansion project.
- A new plant for manufacturing automotive parts for BMW will be set up in Punjab,

- Accuron Technologies and Hyundai CRADLE have co-invested in Xnergy, a startup focused on developing contactless charging solutions for electric and autonomous vehicles.
- India and Uzbekistan signed a Bilateral Investment Treaty (BIT) to enhance investor confidence in both countries. FDI from India to Uzbekistan reached US\$ 20 million from April 2000 to August 2024, with significant investments in pharmaceuticals, amusement parks, automobile components, and hospitality sectors.
- Honda R&D (India) Private Limited, has inaugurated its new Solution R&D Center in Bengaluru, Karnataka. The company has established a global objective to attain carbon neutrality across all its products and corporate activities by the year 2050.
- Apollo tires, which holds a 25% share of India's passenger-car radial segment in the aftermarket, aims to enhance its presence in rural areas across the country.
- Bharat Forge will invest Rs. 1,000 crore (US\$ 119 million) over a period of five years in Tamil Nadu to enhance production capacity for the long term.
- In October 2023, Tata Motors signed a definitive agreement to acquire a 27% stake in Freight Tiger, a software-as-a-service (SaaS) company, for Rs. 150 crore (US\$ 17.99 million).
- Auto components maker Happy Forgings to launch IPO on December 19th, 2023. It comprises a fresh equity issue of Rs. 400 crore (US\$ 47.99 million) and an offer for sale (OFS) of 71.59 lakh shares.
- Ola Electric IPO was the first auto company in India to launch an IPO in over two decades (20 years). It had an IPO size of Rs. 8,500 crore (US\$ 1.01 billion).
- In August 2023, Bosch earmarks Rs. 480 crore (US\$ 58.11 million) for R&D and an additional capex of Rs. 480 crore (US\$ 58.11 million).
- In June 2023, Tata Motors will invest US\$ 2 billion towards developing new products and platforms over the next four years.
- In May 2023, Apollo tires would be making an investment around Rs. 1,100 crore (US\$ 133.17 million) in FY24.
- In May 2023, Gabriel India inks a pact with Inalfa, to invest Rs. 170 crore (US\$ 20.58 million) to set up a new manufacturing facility.
- In May 2023, With Tesla proposing a manufacturing plant in India, the government plans to come out with a modified production-linked incentive scheme (PLI 2.0) for electric vehicles and advanced chemistry cell batteries to invite fresh investments.
- In May 2023, Bridgestone looks to expand its retail footprint in India by 20-25%.
- In May 2023, Tata Technologies on Monday announced a partnership with TiHAN IIT Hyderabad, to collaborate in the areas of Software Defined Vehicles (SDV) and Advanced Driver Assistance Systems (ADAS) that incorporate the latest technologies.
- In April 2023, GreenCell Mobility invested US\$ 181.59 million to double EV buses supply in India
- By 2030, Chinese EV manufacturer BYD hopes to control 40% of the Indian EV market. It already has a manufacturing setup in India, and the current plant's capacity may be increased by another 10,000-15000 units.
- In 2022-23, Tamil Nadu attracted investment proposals worth Rs. 18,063 crore (US\$ 2.20 billion) Tamil Nadu is capitalizing on its previous automotive expertise to enter the EV industry.
- In February 2023, Bridgestone India, a global leader in tires and sustainable mobility solutions, announced that it would be investing over US\$ 73.39 million (Rs. 600 crore) to meet the increasing demand for quality passenger tyres in the country.
- In January 2023, NXP Semiconductors inaugurated a new state-of-the-art Systems & Silicon Innovation lab at NXP Semiconductors Campus in Manyata Tech Park, Bengaluru.

Government Initiatives

The Government has reaffirmed its commitment towards EVs and its mission for 30% electric mobility by 2030. Budget announced customs duty exemption on the import of capital goods and machinery required for the manufacture of lithium-ion batteries that typically power EVs.

The Union Cabinet approved the Production Linked Incentive (PLI) Scheme for the Automobile and Auto Components sector on September 15, 2021, with a budgetary outlay of Rs. 25,938 crore (US\$ 3.03 billion) from FY23 to FY27. The scheme is expected to attract fresh investments of over Rs. 42,500 crore (US\$ 4.9 billion) during this period.

The Bharat New Car Assessment Program (BNCAP) will boost the auto component value chain by driving advanced manufacturing, fostering innovation, and promoting global standards.

The Government of India's Automotive Mission Plan (AMP) 2006-26 has been instrumental in ensuring growth for the sector. The Indian automobile industry is expected to achieve a turnover of US\$ 300 billion by 2026 by expanding at a CAGR of 15% from its current revenue of US\$ 74 billion.

The government's AMP 2016-26 will help the automotive industry grow and will benefit the economy in the following ways:

- The auto industry's GDP contribution will rise to over 12%.
- Additional ~65 million direct and indirect jobs will be created.
- End-of-life policy will be implemented for old vehicles.

ROAD AHEAD

The rapidly globalising world is creating new opportunities for the transportation industry, particularly with the shift towards electric, electronic, and hybrid vehicles that are seen as more efficient, safe, and reliable. Over the next decade, this transition will open new verticals for auto component manufacturers, supported by strong government policy measures. The Indian government has already introduced production incentives and is investing heavily in electric vehicle (EV) infrastructure, including the exemption of customs duties on capital goods and machinery used for producing lithium-ion cells.

The EV ecosystem is expected to expand rapidly, with the number of charging stations projected to rise from 12,146 in February 2024 to 4 lakh by 2026. This will enable the auto component industry to strengthen its capabilities in EV components manufacturing, positioning India as a global hub for clean mobility solutions. As global supply chains realign, India's automotive component trade is expected to expand 4-5% annually to reach US\$ 80 billion by 2026.

At the same time, manufacturers are increasingly focusing on sustainable solutions, lightweight materials, and efficient production processes to meet the evolving needs of the automotive sector. The integration of digitalisation and data analytics is also becoming a priority to optimise operations and enhance product performance. Going forward, collaboration with automakers, continuous investment in research and development, and adaptation to changing regulations will be critical for the industry to stay competitive. With these shifts, the Indian auto component sector is set to play a pivotal role in shaping the future of mobility, reinforcing India's position as the world's third-largest automobile market by both value and volume.

OUR BUSINESS

This chapter, including information with respect to our business plans and strategies, contains forward-looking statements that involve risks and uncertainties. You should read “Forward-Looking Statements” on page 24 for a discussion of the risks and uncertainties related to those statements, the section “Risk Factors” on page 25 for a discussion of the risks that may affect our business, financial condition, or results of operations, and “Restated Financial Information” and “Management’s Discussion and Analysis of Financial Condition and Result of Operations” on pages 236 and 298 respectively, for a discussion of certain factors that may affect our business, financial condition or results of operations. Additionally, please refer to “Definitions and Abbreviations” beginning on page 2 for definition of certain terms used in this chapter. Our actual results may differ materially from those expressed in or implied by these forward-looking statements.

Unless otherwise stated or the context otherwise requires, in relation to business operations, in this chapter of this Draft Red Herring Prospectus, all references to “we”, “us”, “our” and “our Company” are to “Metalic Technoforge Limited”.

Unless otherwise indicated, the financial information included herein is based on our Restated Financial Statements for the period ended on September 30, 2025 and for the Financial Years ended on March 31, 2025, 2024 and 2023 included in this Draft Red Herring Prospectus. For further information, see “Restated Financial Statements” beginning on page 236 of this Draft Red Herring Prospectus.

OVERVIEW

Incorporated in 2016, our Company is engaged in the business of manufacturing of closed die forged and precision-machined components. Our product portfolio comprises a wide range of complex and safety critical forged and precision-machined products, including big rings, small rings, ball studs, gear blanks with broaching, gears, coupling assemblies and other critical components catering to diverse end-use industries. We primarily serve domestic and global original equipment manufacturers (“OEMs”) across automotive and non-automotive industries. In automotive sector, our OEM customers include manufacturers of automobiles, tractors and commercial vehicles, and in non-automotive sector, our OEM customers include manufacturers of agricultural equipment, hydraulic equipment, construction machinery and general engineering products.

Our operations include die manufacturing, forging, heat treatment, shot blasting, precision machining, testing and quality assurance processes. Our products are manufactured using primary raw materials such as carbon steel, alloy steel and stainless steel, as well as non-ferrous metals including aluminum, brass and copper, depending on customer specifications and application requirements. Our Company’s focus on delivering quality products to customers is supported by adherence to internationally recognized standards and management systems. We hold certifications including IATF 16949 for the manufacture of forged and machined metal components, ISO 14001:2015 for environmental management systems, ISO 45001:2018 for occupational health and safety management systems, PED-2014/68/EU & AD 2000 W0 for pressure equipments manufacture and ZED Bronze Certificate.

As of the date of this Draft Red Herring Prospectus, our Company operates a manufacturing facility located in Rajkot, Gujarat, comprising four units. Out of these, three units are operational and used for our existing business operations, while one unit (Unit- IV) is presently vacant and proposed to be use for the upcoming capital expansion pursuant to the Objects of the Issue. For further details, please refer the section titled “*Objects of the Issue*” on page 106. Our manufacturing units are spread across a total area of approximately 5,968.51 square meters (approximately 64,244.53 square feet). Our manufacturing units are equipped with the necessary plant and machinery and other equipment required to support our present business operations. Further to reduce our carbon footprint, we have also established a solar power plant with an installed capacity of 1 MW, spread across 4 acres of land (approximately 16,575 Square meters) owned by us. The solar power plant is located at New Revenue Survey No. 176, Village Navalgadh, Sub-District Dhrangadhra, District Surendranagar, Gujarat – 363320, and currently supports approximately 40%–60% of our total energy requirements. The installation of the solar power plant enables us to partially source renewable energy for our operations and reduce our dependence on conventional power sources.

Our company commenced operations with a single belt drop 1.5 MT hammer machine in the manufacturing facility spread across 960 square meter area. Thereafter in 2019, we expanded our capacity by adding 1 MT hammer, since then we added machinery for forging and CNC processing. Further during the period from 2019 to 2025, we expanded our manufacturing units to a total area approximately 5,968.51 square meters (approximately 64,244.53 square feet). We also strengthened our manufacturing capabilities by adding supporting machinery and equipment, including CNC machines, VMC machines, and gear hobbing machines, to enhance production capacity and technical capabilities. In 2024, we further diversified our

product portfolio by commencing the manufacturing of gears and shafts supported by the installation of modern precision gear manufacturing machinery.

Our manufacturing facility at Unit I comprises a forging department equipped with two belt drop hammers of 1.5 MT and 1 MT capacities. These forging lines are supported by trimming presses and material handling systems including overhead cranes to facilitate smooth production flow. In addition, we operate one 300 MT pneumatic screw press, which is also supported by trimming press and handling infrastructure. All three forging lines are equipped with induction billet heaters with automated temperature control and rejection mechanisms to ensure uniform heating and process consistency prior to forging.

Our heat treatment section at Unit I comprise gas-fired heat treatment furnaces that are fully automatic. The furnaces are equipped with oil quenching arrangements and process monitoring systems to ensure controlled heating and cooling cycles. The automated system enables monitoring of temperature parameters, process timing, and recording of operational data to maintain consistency and traceability. These facilities support heat treatment operations for a range of forged components in accordance with customer specifications and applicable process requirements.

In addition to forging and heat treatment, we have machine shop facilities at Unit – II with CNC machines (including vertical machining centres and turning centres), precision grinding equipment, broaching machines, and inspection facilities. Our gear manufacturing facilities include CNC gear cutting, hobbing, gear shaving, shaping machines along with gear inspection systems, enabling production of gears up to DIN-5 class as per customer requirements. We also have in-house quality control and testing facilities, including coordinate measuring machines (CMM), contour inspection systems, gear profile testers, and other metrology equipment to ensure dimensional and geometric conformance at various stage of production. Further we outsource certain activities to third-party job workers, particularly during periods of higher workload, to meet delivery timelines or when order volumes exceed our in-house production capacity.

Over the years, our Company has expanded its presence across India and has also established an international reach through our customers located in different parts of the world. In addition to our domestic sales, we export our products to countries such as Germany, Finland, United States of America, Italy, China, and Turkey.

Our Promoters, Mr. Gajipara Keyur Dhirajlal, Chairman and Managing Director and Mr. Trambadiya Dhaval Vrajilal, have experience of more than nine years each in the business of manufacturing forged and machined metal components. Additionally, our Promoters and senior management personnel, namely Mr. Vadodariya Satish Rameshbhai, Mr. Kapadiya Vipul K., Mr. Gajipara Ronakkumar Mansukhbhai and Mr. Rupapara Jay Rameshbhai, oversees entire manufacturing processes, including forging, machining and quality control, as well as functional departments such as human resources, finance and administration. With their industry experience, our Promoters manage and oversee the major aspects of our business operations. Our Company is supported by a team of 188 employees, including skilled and semi-skilled workers, who are responsible for carrying out overall manufacturing. For details regarding the management team, please refer to chapter titled "*Our Management*" on page 208 of the Draft Red Herring Prospectus.

OUR LOCATIONS

Our Company operates a manufacturing facility located in Rajkot, Gujarat, comprising four units, each designed to cater to specific aspects of our production and operational requirements:

Unit I	
Location	Plot No.5 & 6 Revenue Survey No. 296 (Old Revenue Survey No. 129/1 Paiki 4) and Plot No. 10 & 11 Revenue Survey No. 294 (Old Revenue Survey No. 129/1 Paiki 6) of Village Padavala, Tal: Kotda Sangani, District Rajkot-360024 Gujarat.
Total Area	1940.99 Sq. Meters
Built up Area	1431.136 Sq. Meters
Present Use	Registered Office and primarily used for forging, heat treatment, shot blasting and quality control.

Unit II	
Location	Plot No. 1,2 3 and 4 Revenue Survey No. 294 (Old Revenue Survey No. 129/1 Paiki 6) of Village Padavala, Tal, Kotda Sangani, District Rajkot-360024 Gujarat.
Total Area	1845.93 Sq. Meters
Built up Area	953.25 Sq. Meters

Present Use	This unit is equipped with facilities of machining shop, storage of finished products, packaging and dispatch.
--------------------	--

Unit III	
Location	Plot No. 8, 9 & 10 Revenue Survey No. 296 (Old Revenue Survey No. 129/1 Paiki 4) of Village Padavala, Tal, Kotdasangani, District Rajkot-360024 Gujarat.
Total Area	1393.57 Sq. Meters
Built up Area	1047.70 Sq. Meters
Present Use	This unit is primarily used for raw material storage, cutting, die manufacturing and tooling shop

Unit IV	
Location	Plot No. 7 Revenue Survey No. 296 (Old Revenue Survey No. 129/1 Paiki 4) of Village Padavala, Tal, Kotda Sangani, District Rajkot-360024 Gujarat.
Total Area	788.02 Sq. Meters
Built up Area	534.00 Sq. Meters
Present Use	Presently this is a vacant land, proposed for setting up of the proposed Manufacturing Unit IV as disclosed in the section titled “ <i>Object of the Issue</i> ”.

Notes:

(1) Revenue from operation means revenue from sale of our products

(2) EBITDA is calculated as Profit before tax + Depreciation + Finance Costs – Other Income

(3) EBITDA Margin is calculated as EBITDA divided by Revenue from Operations

(4) PAT Margin is calculated as PAT for the period/year divided by revenue from operations

(5) Return on Equity is calculated by comparing the proportion of net income against the amount of average shareholder equity

(6) Return on Capital Employed is calculated as follows: Profit before tax + Finance Costs (EBIT) divided by (Tangible Net Worth + Total Debt + Deferred Tax Liabilities)

(7) Debt to Equity ratio is calculated as Total Debt divided by equity

(8) Net Fixed asset turnover ratio is calculated by dividing the Revenue from Operations by net Fixed Assets of the Company

(9) Current Ratio is calculated by dividing Current Assets to Current Liabilities

OUR PRODUCT PORTFOLIO

Our product portfolio comprises a diversified range of precision-engineered components catering to automotive and non-automotive industries. In automotive sector, our OEM customers include manufacturers of automobiles, tractors and commercial vehicles, and in non-automotive sector, our OEM customers include manufacturers of agricultural equipment, hydraulic equipment, construction machinery and general engineering products.

Our products are broadly classified into the following segments:

Gears and Transmission Components: We manufacture a range of precision forged and machined gears and transmission components used in power transmission systems across various industrial and automotive applications. These components are designed to transmit torque and motion efficiently while maintaining durability and dimensional accuracy under demanding operating conditions. Our gear products typically undergo forging, heat treatment, precision machining, gear cutting (including hobbing and shaping), grinding, and quality inspection processes to ensure compliance with customer specifications and applicable standards. The product range includes spur gears, helical gears, transmission shafts, gear blanks, and other customized gear components manufactured as per customer drawings.

These components are widely used in automotive driveline systems, industrial gearboxes, construction equipment transmissions, and other mechanical power transmission assemblies where strength, reliability, and precision are critical.

Construction Machinery Components: We manufacture forged and machined components used in construction and heavy equipment machinery, which are required to withstand high loads, shock conditions, and demanding operational environments. These components are designed to provide structural strength and operational reliability in equipment used for infrastructure development, construction activities, and earthmoving applications. Our product offerings include structural and load-bearing components, linkage parts, brackets, shafts, pins, rings, couplings, ram connections, and other customized forged and machined components manufactured according to customer specifications. These components are produced through controlled forging processes followed by heat treatment, machining, and surface finishing to ensure high strength, durability, and dimensional accuracy.

These components are typically used in concrete mixer equipment, excavators, loaders, cranes, and other construction machinery, where operational reliability and resistance to wear, fatigue, and high mechanical stresses are essential.

Construction Equipment Parts

Hydraulic Application Components: We also manufacture components used in hydraulic systems and fluid power applications, where precision, sealing integrity, and pressure resistance are critical. These components are designed to operate in hydraulic assemblies that transmit power through pressurized fluids in various industrial and mobile equipment. The product range includes forged and machined parts such as hydraulic fittings, housings, connectors, valve components, and other precision parts, produced in accordance with customer drawings and specifications. The manufacturing process involves forging, machining, heat treatment, and inspection processes to ensure dimensional accuracy and mechanical strength.

These components are commonly used in hydraulic cylinders, pumps, valves, and industrial hydraulic systems utilized in sectors such as construction equipment, agricultural machinery, and general industrial machinery.

General Engineering Components: We manufacture a wide range of customized forged and machined components for general engineering applications, catering to diverse industries requiring high-quality metal components. These components are typically manufactured according to customer drawings, specifications, and application requirements. Our general engineering products include forged blanks, machined parts, shafts, flanges, couplings, brackets, and other precision components used across multiple industrial sectors. The manufacturing process involves die manufacturing, forging, heat treatment, machining, surface treatment, and quality inspection to ensure compliance with required technical standards.

These components are supplied to customers operating in automotive, industrial machinery, engineering equipment, and other manufacturing sectors, where reliability, material strength, and dimensional precision are essential.

OUR COMPETITIVE STRENGTHS

1. Our Manufacturing facility

We commenced our operations with a manufacturing facility spread across 960 square meter area. Over the years, we have expanded our infrastructure and currently operate a manufacturing facility spread across an area of 5,968.51 square meters (approximately 64,244.53 square feet). Our manufacturing facility is located in Rajkot and comprise four units, out of which three units are operational and one unit is currently vacant, which is proposed to be use for setting up of the proposed Manufacturing Unit IV pursuant to the objects of the issue. Our manufacturing operations include an integrated facility for forging, heat treatment and machining. We also have in-house capabilities for new product development and design. We have also started gear manufacturing, which has been added to our manufacturing processes. Our manufacturing facility includes forging, machining and gear manufacturing processes under one roof. As of September 2025, our company has an installed forging and machining capacity of 6,800 metric tons per annum. Our units are equipped with modern machinery required for our manufacturing processes, including forging hammers, induction billet heaters, heating furnaces, CNC machines and VMC machines, which enable us to manufacture forged and precision machined components.

Further to reduce our carbon footprint, we have also established a solar power plant with an installed capacity of 1 MW, spread across 4 acres of land (approximately 16,575 Square meters) owned by us. The solar power plant is located at New Revenue Survey No. 176, Village Navalgadh, Sub-District Dhrangadhra, District Surendranagar, Gujarat – 363320, and currently supports approximately 40%–60% of our total energy requirements. The installation of the solar power plant enables us to partially source renewable energy for our operations and reduce our dependence on conventional power sources.

2. Diversified product portfolio

Our company is engaged in the manufacturing of forged and precision machined components catering to a wide range of automotive and non-automotive industries, including farming equipment, construction machinery, hydraulic applications, commercial vehicles, and general engineering industries. We manufacture a variety of products such as gear components, transmission shafts, forged and machined components, hydraulic components, and other general engineering components, which are supplied to customers across different industry segments within India and in overseas market as well.

We also manufacture customized components for Original Equipment Manufacturers (OEMs) based on their design specifications and requirements. Our manufacturing units have the capability to produce forged components ranging from 250 grams to 16 kg, enabling us to cater to different product requirements across industries. We continue to focus on

identifying new product ranges and customers to expand our product portfolio and serve a broader range of industry applications. Following is our product wise revenue break up:

3. Quality Assurance and Control

To ensure compliance with quality standards and customer requirements, we have implemented a quality control mechanism. We examine the products at multiple stages of the manufacturing process to ensure that there are no defects from previous stages. We have quality control department and testing lab that offers metallurgical and metrological testing capabilities for raw material, in-process material, and finished components. Further our manufacturing facility has been accredited with, ISO 14001:2015 for environmental management systems and ISO 45001:2018 for occupational health and safety management systems. We also hold IATF 16949 certifications for the manufacture of forged and machined metal components and ZED Bronze Certificate under MSME Sustainable (ZED) Certification scheme. For further details of metallurgical and metrological testing conducted under our Quality Control Department, please refer to the section titled “*Quality Control*” on page no 189 of this Draft Red Herring Prospectus. As part of our commitment to quality, we provide a 3.1 certificate with our products to our customers. If customers need any additional test reports or certificates, we arrange and provide them through NABL-accredited laboratories.

4. Our Order Book

As on March 01, 2026, our Company has a confirmed order book of approximately ₹ 2,447.06 lakhs (excluding applicable taxes), based on purchase orders received from our customers, as certified by our Auditor pursuant to their certificate dated March 30, 2026. The execution cycle for orders in our business typically ranges from 1 to 3 months, depending on the type of forging component, machining complexity, order size, and specific customer requirements.

Our current order book comprises confirmed orders from customers across domestic and international markets, reflecting a diversified customer base and sustained demand for our forging and precision-machined components. Orders from different product categories and industries, such as automotive, engineering, and industrial applications, show steady demand for our products and help us plan our production and revenue in the near term.

5. Long-Standing Relationship with our customers

Our growth has been supported by repeat orders from existing customers as well as the addition of new customers across different industry segments. We continue to focus on maintaining long-term relationships with our customers by supplying products as per their specifications and requirements. Our company supplies forged and precision machined components to customers operating in industries such as automotive, farming equipment, construction machinery, hydraulic applications, commercial vehicles and general engineering. With the addition of gear manufacturing capabilities, we have further expanded our product offerings, which has also helped us diversify our customer base. We intend to continue strengthening relationships with our existing customers while also focusing on acquiring new customers in domestic and export markets. Below table reflects the trust and satisfaction that our customers place in our products.

The details of our repeated customers and new customers for the period ended on September 30, 2025 and for the financial years ended March 31, 2025, 2024 and 2023, respectively, are as follows:

6. Experienced Promoters and Management team

Our company is led by experienced promoters and supported by a management team with experience in the forging industry. Our Promoters, Mr. Gajipara Keyur Dhirajlal, Chairman and Managing Director and Mr. Trambadiya Dhaval Vrajilal, have experience of more than nine years each in the business of manufacturing forged and machined metal components. Additionally, our Promoters and senior management personnel, namely Mr. Vadodariya Satish Rameshbhai, Mr. Kapadiya Vipul K., Mr. Gajipara Ronakkumar Mansukhbhai and Mr. Rupapara Jay Rameshbhai, oversees entire manufacturing processes, including forging, machining and quality control, as well as functional departments such as human resources, finance and administration. With their industry experience, our Promoters manage and oversee the major aspects of our business operations.

Our company also has 188 employees, including personnel at the managerial level with experience in technical, operational and other aspects of business in the forging industry. The experience of our promoters and management team supports the company in managing its operations and identifying growth opportunities.

OUR STRATEGIES

1. Investment in the proposed Manufacturing Unit IV and upgradation of existing units at manufacturing facility:

Our Company is engaged in the business of manufacturing of closed die forged and precision-machined components. Our product portfolio comprises a wide range of complex and safety critical forged and precision-machined products, including big rings, small rings, ball studs, gear blanks with broaching, gears, coupling assemblies and other critical components catering to diverse end-use industries.

As of the date of this Draft Red Herring Prospectus, our Company operates a manufacturing facility located in Rajkot, Gujarat, comprising four units. Out of these, three units are operational and used for our existing business operations, while one unit (Unit-IV) is presently vacant and proposed to be utilized for the setting up of the proposed Manufacturing Unit IV and also upgradation of existing units at manufacturing facility in Rajkot, Gujarat pursuant to the Objects of the Issue. We believe that our investment in this additional manufacturing facility and upgradation of existing units will add on to our current installed capacity, cost optimization, strengthening fully integrated manufacturing model, technology upgradation and product diversification etc. enabling us to cater to the growing demand from our customers. This helps in strengthening the relationship with the existing customer network through a wide range of products while also onboarding new customers. The addition of Unit IV is expected to improve overall plant layout and operational efficiency by enabling better material flow planning and segregation of manufacturing activities. This is expected to reduce internal handling time, improve

workflow efficiency, and enhance safety and shopfloor management. This is expected to improve control over production planning, quality consistency, and turnaround time, while minimizing risks associated with delays and rejections arising from outsourced operations. In addition, the reduction in outsourcing is expected to improve cost efficiency and enhance operational performance.

Going forward, we intend to diversify our product portfolio and add more products to our portfolio based on our own assessment of market, demand, and supply position. Our Company's strategy is focused towards introducing new product designs to cater to the requirements of our customers as well as garnering the attention of more customers in various industry segments such as household industry. Identifying and developing new products and designs is a continuous exercise that our management team engages into as we believe that there is an immense demand in the global markets for unique designs, good quality and competitively priced products. For further details, please refer the section titled "*Object of the Issue*" on page 106

2. Reduce debt levels and improve Debt to Equity Ratio

As on January 31, 2026 our total outstanding secured borrowings aggregated to ₹2,719.82 Lakhs, as detailed in the chapter titled "*Financial Indebtedness*" on page 295 of this Draft Red Herring Prospectus. A portion of the Net Proceeds of the Issue amounting to ₹672.00 lakhs is proposed to be utilized towards repayment or prepayment, in full or in part, of certain secured borrowings availed by our Company. The proposed repayment is aimed at strengthening our balance sheet by significantly reducing our overall indebtedness, thereby improving our debt-to-equity ratio and enhancing our financial flexibility. The reduction in leverage is expected to result in lower finance costs, improved profitability, and increased internal accruals, enabling us to reinvest in growth opportunities and operational expansion. By adopting a more conservative capital structure, our Company aims to enhance its credit profile, mitigate financial risk and improve the overall return on equity, which in turn is expected to contribute towards long-term value creation for our shareholders.

For further details of the loans proposed to be repaid, including date of sanction, purpose, rate of interest, security, and applicable prepayment charges, please see the chapter titled "*Objects of the Issue*" on page 106 of this Draft Red Herring Prospectus.

3. Enhancing our brand image

We would continue to associate ourselves with esteemed clients and delivering finished products that meet their expectations. We are highly conscious about our brand image and want to enhance that perception by offering high-quality forged and precision machined components that satisfy consumers. In our business, brand recognition is crucial. Brand loyalty among consumers improves a company's chances in that sector. We are highly conscious about our brand image and seek to further strengthen our brand by increasing its visibility through marketing initiatives, supplying qualitative products at competitive prices.

4. Expand our business and geographical footprint

We aim to meet the growing requirements of our existing customers while also expanding our customer base by increasing our geographical presence. Currently, we serve customers across various states in India. Expanding our presence into additional regions will allow us to access larger markets and strengthen our relationships with B2B customers, enabling us to better understand and address their requirements. At present, a significant portion of our domestic sales is derived from the states of Gujarat, Maharashtra and Uttar Pradesh. In addition to our domestic operations, we also intend to expand our presence in international markets. Our company plans to build on its existing export activities and explore opportunities to enter new countries. We also intend to tailor our products to meet the specific requirements of customers in different markets. At present, a significant portion of our export sales is derived from the countries like Germany, Finland, and United States of America. The details of region-wise revenue bifurcation of domestic sales and country wise bifurcation of our export sales is as follows:

OUR KEY BUSINESS OPERATIONS

Set forth below is a description of the key manufacturing processes for forged and machined components at our manufacturing units:

Product Drawing and Designing to Packing and Dispatch

1. Product Drawings

2. Procurement of Raw Material

3. Quality Check

4. Cutting Process

8. Shot Blasting

7. Heat Treatment Process

6. Forging

5. Die Development and Tooling

9. Machining

10. Teeth Cutting

11. Final Inspection and Quality Control

12. Packaging and Dispatch

Product Drawings and Simulation

Design and new product development are integral to our business operations. The dimensional accuracy, strength, and functional performance of forged components are key factors influencing customer acceptance and long-term reliability. Our Company has an in-house design and new product development (“NPD”) department comprising four employees, which supports the development of new products as well as the improvement of existing components. The department is responsible for preparing product designs, developing forged component models and creating three-dimensional drawings based on customer specifications and technical requirements.

Our design team prepares various types of 3D data by converting customer drawings into detailed 3D forged models, which are shared with customers for review and approval. The design process includes feasibility assessment, tooling considerations and optimisation of component geometry. We use computer-aided design tools such as NX (Unigraphics) CAD/CAM software to prepare detailed engineering drawings and 3D models, and simulation techniques are applied in the case of complex component designs to validate forging feasibility and performance. Based on the approved design, detailed technical drawings and specifications are finalised for production. Upon approval of the 3D models by customers, orders are confirmed and the manufacturing process is initiated.

Product Drawings and Simulation

Procurement of Raw Material and Initial Quality Check

Our manufacturing process starts with the procurement of raw materials, primary raw materials required for our manufacturing process consist of steel bars, including all grades of carbon, stainless and alloy steels, along with selected non-ferrous metals such as aluminum, brass, and copper alloys. These materials are procured in compliance with applicable industry standards to ensure the required strength, and durability of the finished products. The selection of appropriate raw materials is also carried out based on customer requirements. Purchase orders are placed in accordance with the technical specifications and drawings provided by the customers.

Upon receipt at our facility, raw materials undergo an initial inspection at our quality control laboratory, which includes visual and surface checks to ensure compliance with specified requirements. Thereafter, where additional certifications or test reports are required by customers, the Company outsources chemical composition verification and mechanical property testing, including spectro analysis and tensile testing, to accredited third-party laboratories. All test certificates issued by the third-party laboratories, along with in-house inspection reports, are reviewed and verified prior to the release of materials for production.

Upon satisfactory inspection, the materials are stored with identification tags to ensure easy traceability throughout the manufacturing process. For a detailed description of the raw material procurement process, please refer to the section titled “*Our Raw Materials*” on page 182 of the DRHP.

Cutting Process

Cutting process for steel bars and other raw materials is carried out at Unit III of our manufacturing facility. Steel bars are cut into billets, ingots of required sizes in accordance with customer specifications and production requirements. Depending

on the type, shape and thickness of the raw material, suitable cutting methods are employed to ensure efficiency and precision.

Band saw cutting machines and CNC automatic circular saw machines are generally used for cutting round bars and thicker sections, enabling precise and straight cuts with minimal material wastage. The cutting process is carried out in a controlled manner to ensure dimensional accuracy and efficient utilisation of raw materials before the material proceeds to the next stage of production.

After cutting, pieces are inspected to verify dimensional accuracy and conformity with specified requirements. The cut pieces are visually inspected and measured for dimensional compliance before being transferred to subsequent manufacturing operations.

Die Development and Tooling

We have an in-house die development and tooling shop at Unit - III of our manufacturing facility. This department handles the design, development, maintenance, and modification of forging dies and tooling. The department is equipped with one Vertical Machining Centre (VMC) and four lathe machines. This setup helps us manufacture precision dies, respond quickly to tooling changes, and maintain consistent process. By having this capability in-house, we are able to reduce dependence on external vendors, and improve overall production flexibility.

Die Manufacturing

Forging Stage

After cutting, the material is transferred to Unit - I of our manufacturing facility for the forging stage, where steel billets are shaped into the required form. The cut pieces are first heated using an induction billet heater to the specified temperature

to make the metal soft and workable. Once the desired temperature is achieved, the heated metal is placed into dies, which are designed as per the shape and dimensions of the final product.

The heated metal is then shaped using a friction screw press and forging hammers. The press exerts controlled and significant force on the heated metal to shape it into the desired form, while hammers are used to strike the heated metal to achieve precise shaping. Our Company has established in-house forging capabilities covering a range of component sizes, and weights, as set out below:

In-House Forging Capability Parameters:

Parameter	Range / Classification
Weight (Kg)	0.25 Kg to 16 Kg
Dimension – Length (mm)	12 mm to 700 mm
Dimension – Diameter (mm)	10 mm to 350 mm
Material Difficulty	M1, M2
Component Complexity	S1, S2, S3

Material difficulty classifications (M1, M2) represent different levels of material machinability and metallurgical requirements, while complexity classes (S1, S2, S3) reflect varying degrees of geometric complexity and process requirements. Within these parameters, the Company is capable of manufacturing a wide range of forged components for automotive and industrial applications.

At our facility, we operate one 300 MT friction screw press and two forging hammers with capacities of 1.0 MT and 1.5 MT, to carry out forging operations. Forging improves the mechanical strength, grain structure, and resistance of the final product. After forging, the parts are cooled in a controlled manner.

We also outsource some of our forging operations to other approved vendors, in situations where relatively simple components are to be manufactured, so as to have an effective utilization of our internal capacity. Forging may also be outsourced when higher order volumes are there, to meet delivery timelines, or when the component size required by customers exceeds our in-house equipment capabilities. In all such cases, forging is carried out through approved vendors strictly in accordance with our technical specifications and quality control requirements to ensure compliance with Company and customer standards.

Heat Treatment Process

After forging, the metal components undergo heat treatment to achieve the required mechanical properties such as hardness, toughness, and wear resistance. Heat treatment process is carried out at Unit – I of our manufacturing facility, using fully automatic, two hardening furnaces with a combined installed capacity of approximately 1,200 MT per month, comprising one furnace with a capacity of about 400 MT per month and another with a capacity of about 800 MT per month. Heat Treatment is given to restore the original structure of the metal, which may otherwise be altered during forging stage. This prevents metal breakage in extreme conditions, and ensures the strength of our products in even the harshest environments.

Heat treatment processes include:

- **Annealing:** This is used to softens the material and refine grain structure.
- **Normalizing:** This is used to improves toughness and stress resistance.
- **Quenching & Tempering:** This Increases hardness while maintaining flexibility of the metal.

While giving heat treatment parameters such as temperature, soaking time, and cooling rate are carefully monitored and controlled to ensure uniform metallurgical properties across the components. After heat treatment, the components are inspected and tested for, hardness and visual examination, to verify that the required mechanical properties have been achieved before proceeding to the machining stage.

Shot Blasting

The heat-treated components often have oxide layers, scale, and surface contaminants that are removed using shot blasting, which is a surface treatment process. Shot blasting involves directing high velocity steel abrasive shots in a controlled manner onto the surface that needs to be treated. Our Company operates two shot blasting machines with capacity of approximately 300 kg per batch each, ensuring improved surface finish and facilitating defect detection prior to machining. Shot blasting is an essential step in our manufacturing process, as it ensures that our components have a clean and uniform surface, free from any contaminants or imperfections. The process also helps in detecting surface cracks and defects before further processing.

Shot Blasting Machine

Certain of our components undergo Non-Destructive Testing (NDT) to ensure structural integrity and defect-free production of the forged parts. The requirement for such testing is generally based on customer specifications and applicable quality standards.

Common NDT methods followed by us includes:

- **Ultrasonic Testing (UT)** – This is used to detect internal defects such as cracks, voids, and inclusions within the material.
- **Magnetic Particle Inspection (MPI)** – This is used to identify surface and near-surface defects in ferrous materials.
- **Dye Penetrant Testing (DPT)** – This is used to detect surface cracks and discontinuities not visible to the naked eye.

After this testing the Components that fail NDT are reworked or rejected to maintain quality standards.

Machining Process

Machining process is carried out at Unit - II of our manufacturing facility, this process involves transforming forged and heat-treated components into finished components with precise specifications in terms of size, shape, and other performance parameters. our company uses CNC (Computer Numerical Control) machines, lathes, milling machines, and drilling machines for this process.

Machining operations are carried out using a combination of CNC and conventional machines, including:

- **Turning:** We have 26 CNC turning machines, for achieving round shapes with tight tolerances.
- **Milling:** We have 11 Vertical Machining Centres equipped with rotary tables and probing systems for precision machining;
- **Grinding:** OD grinding machines for achieving tight dimensional tolerances; and Surface grinding machines for achieving required surface finish and flatness.
- **Drilling & Tapping:** Used to creates holes and internal threads

These facilities collectively support a production capacity of approximately 3.00 lakhs components per month, catering to OEM and industrial customers.

Our Company has implemented an IoT-based monitoring system (**IOT-4**) across major machines, enabling real-time monitoring of machine performance, production tracking, downtime analysis, to improve operational efficiency. After completion of machining, the components undergo inspection before being sent for surface finishing, or dispatch, or teeth cutting as applicable and required by customers.

Teeth Cutting Process

Certain components requiring gears or splines are taken for teeth cutting process at Unit - II of our manufacturing facility. This process is carried out to develop gear teeth or splines as per customer technical specifications. Teeth cutting is done using gear cutting machines to create the required shape and size of the teeth as per the drawing. The process ensures that the teeth fit properly with matching parts, allowing smooth movement, proper power transmission, and even distribution of load during operation.

The process is carried out using gear manufacturing machinery, which we have sourced internationally, for enabling consistent dimensional accuracy. These machineries enable production of gears conforming to precision standards including DIN 5 quality levels, suitable for automotive and industrial gearbox applications.

After teeth cutting process, gear accuracy and geometry are verified using a Klingenberg P40 gear measuring machine, ensuring compliance with profile, lead, pitch, and runout specifications.

Post-Machining Heat Treatment

Certain components may require additional heat treatment after the machining process to enhance dimensional stability, wear resistance, and overall mechanical properties. Post-Machining Heat Treatment is done using carburizing process, which is a surface hardening process used to improve the wear resistance and strength of steel components. In this process, the components are heated at high temperatures in a carbon-rich environment, allowing carbon to diffuse into the surface layer of the material. After carburizing, the components are subjected to quenching and tempering to achieve the required hardness on the surface while maintaining adequate toughness in the core. This process is particularly used for components such as gears, and shafts, that require a hard outer surface for wear resistance and a tough inner core for strength and durability.

Surface Treatment

Depending on customer requirements, the components may further undergo additional surface treatments such as zinc coating, powder coating, or black oxide coating. These surface treatments are not carried out in-house rather they are outsourced to approved external vendors. The time for surface treatment processes typically ranges from 2 to 3 days, depending on the type of treatment, batch size, and vendor scheduling.

Final Inspection and Quality Control

At this stage all our products are checked to meet the prescribed quality standards and customer specifications. To support this, we have testing room equipped with inspection and measuring instruments to verify product conformity. Our testing room is equipped with:

- Gear profile testing equipment;
- Vernier calipers and micrometers;
- Two-dimensional height gauges;
- Surface roughness testers;
- Contour measuring instruments (CMM); and
- Hardness testing equipment.
- Contracer machine

Any non-conforming components identified during inspection are either rejected or sent for rework in accordance with our quality procedures to maintain quality standards. Inspection results are recorded and reflected in quality certificates issued with each batch of dispatch. Where required, additional testing is conducted at NABL-accredited laboratories as per customer specifications. For further details on quality control and inspection, please refer section titled “*Quality Control*” on page no 189 of this Draft Red Herring Prospectus.

Packaging and Dispatch

Once the testing done and components are approved then they are packed securely to prevent damage during storage and transportation. our company uses the wooden crates, bubble wraps, rust-proof coatings, and vacuum-sealed bags for

packaging material to prevent goods from the damage. After packaging, the finished products are dispatched to domestic as well as international customers. Our Company uses various modes of transportation depending on customer location and delivery requirements.

OUR RAW MATERIALS

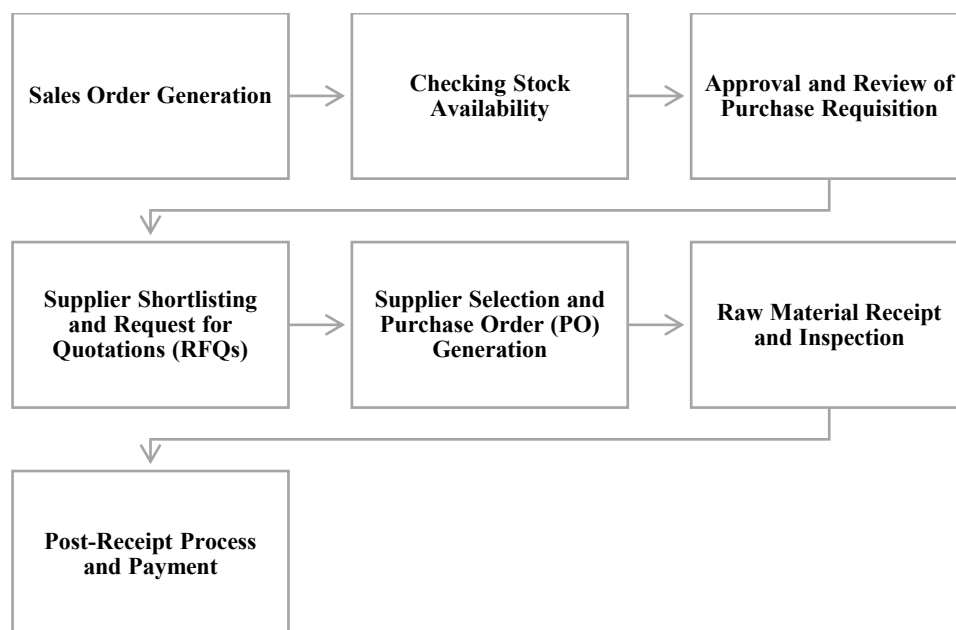

The primary raw material required by our Company for its forging operations is metal, in the form of steel procured as ingots, billets and bars. Depending on the strength, durability, customer suggestion and corrosion-resistance requirements of the end application, the Company uses various grades of steel, including carbon steel, alloy steel and stainless steel. In addition to ferrous metals, the Company also utilizes certain non-ferrous metals such as aluminium, brass and copper alloys for specific applications where weight reduction, electrical conductivity or corrosion resistance is required.

Apart from metals, the Company also procures various consumables and auxiliary materials necessary for the forging process, including die materials (generally hardened or alloy tool steels) used for shaping components, lubricants such as mineral oils, graphite and specialized forging compounds to reduce friction and improve die life, cooling media including water and industrial coolants to control temperature, and packaging materials for storage and dispatch of finished products. We procure all these raw materials from domestic suppliers, majorly located in States of Gujarat, and Maharashtra. We usually do not enter into long-term supply contracts with any of our raw material suppliers and typically source raw materials based on mutual understanding and past established relations.

Additionally, the Company's procurement includes imports, primarily comprising machinery sourced from international markets to support its manufacturing operations.

Raw Material Procurement Process:

Our Company follows a systematic and automated raw material procurement process supported by Enterprise Resource Planning (ERP) systems. The steps involved in the raw material procurement process are as follows:

Sales Order Generation

The procurement process is initiated upon receipt of a customer order. Our sales and marketing team generates a detailed sales order mentioning all product specifications, quantities, delivery timelines and any special instructions specified by customers.

Checking Stock Availability

Upon generation of the sales order, the procurement department is notified of the upcoming production requirements to enable checking of existing stock levels. If sufficient inventory is available, the required raw materials are issued directly for production. In the event of any shortfall, the department raises a purchase requisition (PR) for procurement of the required raw materials. The PR includes details such as the type of raw material, required, quantity, specifications, and the urgency of the order.

Approval and Review of Purchase Requisition

The purchase requisition is checked and approved by the senior management personnel to confirm that the requirement is necessary, within budget and suitable for production needs. If approved, the process moves to supplier engagement. If not approved, the requisition is revised (such as changing quantity or specifications) and submitted again for approval.

Supplier Shortlisting and Request for Quotations (RFQs)

Once the purchase requisition is approved, the procurement team shortlists suppliers based on criteria such as competitive pricing, quality of raw materials and timely delivery. Generally three existing suppliers with a past track record with the Company are shortlisted to ensure competitive sourcing.

Thereafter, Requests for Quotations (RFQs) are issued to the shortlisted suppliers, mentioning product specifications, required quantities, delivery timelines, payment terms and quality requirements. The quotations received are evaluated based on cost, quality standards and ability to meet delivery schedules.

In cases where sufficient approved suppliers are not available or a new supplier offers better benefits, the new supplier is onboarded through a supplier registration process, which includes verification of past performance, quality systems and financial stability before being added to the approved supplier list.

Supplier Selection and Purchase Order (PO) Generation

After receiving the quotations, the procurement team evaluates suppliers based on cost, quality and delivery timelines, and selects the most suitable supplier. The selection decision is documented for record purposes.

Once finalized, a purchase order (PO) is generated specifying the material description, quantity, specifications, agreed price, delivery schedule and payment terms, including applicable conditions or penalties. The PO is then submitted for internal verification and approval of the senior management. Once approved, the PO is documented and shared with the supplier for execution.

Raw Material Receipt and Inspection

Upon arrival at the manufacturing facility, the received raw material is recorded against the purchase order and a Goods Receipt Note (GRN) is generated as proof of receipt.

The sample material then undergoes initial quality inspection, where it is inspected for specifications such as type, dimensions, composition and surface condition. If the material meets the required standards, it is accepted and entered into inventory records. If it does not meet the specifications, it is rejected and either returned to the supplier or kept aside for further review.

Post-Receipt Process and Payment

After passing quality inspection, the material is added to inventory and stored, and the inventory records are updated accordingly. The supplier submits invoice, which is then verified by matching it with the purchase order and goods receipt note to confirm pricing, quantity and terms. Any discrepancies are resolved with the supplier before processing payment. Once verified, the invoice is forwarded to the accounts department for approval and payment as per agreed terms. The transaction is recorded in the financial system, completing the procurement cycle.

SALES AND MARKETING STRATEGY

Our marketing team of 5 employees along with our promoters through their business experience and established relations with customers plays an important role in creating and expanding the sales network of our Company. In order to maintain good relation with our customers, our promoters and our marketing team regularly interacts with them and focuses on gaining an insight into the additional needs of our customers. Our team focuses on finding potential clients within the industries we operate and figuring out the best way to reach them. We stay in regular touch through emails, phone calls, factory visits and meetings to keep the conversation going. Sometimes, we also receive referrals from our existing clients, which helps us connect with new prospects.

We are a business-to-business manufacturer (B2B), supplying our products both in India and internationally, with key markets in Germany, Finland, United States of America, Italy, China, and Turkey. We work with our customers on a purchase-order basis, and there are no long-term supply agreements in place.

1. Exhibitions and industry engagements

As part of our marketing and sales outreach activities, we regularly participate in industry-specific exhibitions, trade fairs and business networking events in India and overseas. These platforms enable us to showcase our product portfolio including new and existing designs, interact with buyers and strengthen business relationships. Participation in such events also facilitates direct engagement with industry participants, allowing us to understand prevailing market preferences, customer requirements and product specifications.

Through these exhibitions and events, we present our products to a wide cross-section of customers and channel partners and undertake discussions relating to product features, design preferences, pricing, order quantities and delivery requirements. Such interactions assist us in identifying potential business opportunities and expanding our customer base. We have participated in the following exhibitions and events:

Agritechnica –Trade fair for agriculture technology held at Hanover, Germany.

2. Digital marketing and online presence

Our company uses its own SEO-optimized website <https://www.metalictechnoforge.com/> as our main marketing platform to attract customers through search engines and provide detailed information about our products and services. We also publish informative blogs and videos on our website to educate our customers and improve our online presence. The company also promotes its content and engages with its audience through social media platforms such as Instagram, Facebook, YouTube, and LinkedIn by sharing updates, educational posts, and videos. In addition, we also use message-based communication tools on these platforms and the website to respond to inquiries, and support customers.

LOGISTICS

Our suppliers deliver raw materials directly at our manufacturing unit. For the delivery of finished products, we engage third-party logistics companies. The mode of shipment and delivery terms are decided on a case-by-case basis, depending on the terms and understanding between the customers and the Company. We currently do not have any long-term or exclusive contracts with any particular transportation or logistics agency and services are availed as per operational requirements and cost considerations.

PRICING

We determine the prices for our products based on various parameters, including market demand, transportation costs, supply costs, raw material cost, inventory levels, credit terms, exchange rates. Our pricing decisions are made after considering the costs associated with product development, manufacturing, materials, labour, overhead, and other relevant expenses.

UTILITIES

Our Registered Office and Manufacturing facility are located in Rajkot, Gujarat. They are well equipped with computer systems, internet connectivity, other communication equipment and other facilities which are required for our business

operations to function smoothly. Our Registered Office and Manufacturing facility are equipped with requisite utilities including the following:

Power

Our power requirements are met through the local electricity authority, Paschim Gujarat Vij Company Limited, for both our manufacturing facility and registered office, and the supply is sufficient for our day-to-day operations. In addition, our company has installed a 1 MW solar power plant at Vrajpar, Gujarat, which currently supplies approximately 40%-60% of our total energy requirements.

Gas

Our Heat treatment process also require a gas connection. For this purpose, we have obtained an industrial gas connection from Gujarat Gas Limited.

Water

To meet our drinking and sanitary water requirements, we procure water supply from the local authorities, which is sufficient for our operational needs. Further, for our manufacturing (Unit I and Unit II), we also utilize a groundwater connection, for which we have duly obtained the necessary permission from the concerned Gram Panchayat.

CORPORATE SOCIAL RESPONSIBILITY

Pursuant to the provisions of Section 135 of the Companies Act, 2013 and the rules made thereunder, our Company is required to undertake Corporate Social Responsibility (“CSR”) activities. Based on the financial parameters prescribed under Section 135 of the Companies Act, 2013, as reflected in our financial statements for the financial year ended March 31, 2025, our Company falls within the applicability threshold for CSR obligations. However, the amount to be spent in CSR activities does not exceed Rs. 50 Lakhs, hence, our Company has not constituted Corporate Social Responsibility Committee.

For further details regarding the CSR expenditure, including amounts pending to be spent, for the respective periods, please refer to the section titled “*Restated Financial Statements*” on pages 236 of this Draft Red Herring Prospectus.

COMPETITION

Our company faces competition in domestic as well as international markets in relation to its products. The forging and machining industry is competitive and key factors include technology, pricing, product design, quality, delivery timelines and engineering capabilities. Our company competes with both domestic and international manufacturers, including larger organizations that may have greater financial resources, patented technologies, underutilized capacities, lower labour costs, lower tax structures and access to export incentives or raw material subsidies. Our company’s competitive position is supported by its engineering experience, diversified product portfolio, ability to meet varying customer requirements and established customer relationships.

INFORMATION TECHNOLOGY

Our company uses modern information technology systems to ensure smooth and efficient operations across departments. We use Tally for accounting and financial management, and Forge ERP to manage enterprise-wide operations such as procurement, supplier management, GRN processing, and invoice generation. For designing and technical work, we use AutoCAD and Nx software and for our human resource management, we use Spine HR software.

QUALITY CONTROL

In our industry, maintaining strict quality standards is crucial to avoid defects and non-compliance with customer design specifications. Any such issues could result in order cancellations and damage to our reputation. To ensure compliance with quality standards and customer requirements, we have implemented a quality control mechanism. We examine the products at multiple stages of the manufacturing process to ensure that there are no defects from previous stages. We have testing lab that offers metallurgical and metrological testing capabilities for raw material, in-process, and finished components.

The process followed for maintaining quality control for our business operations are as follows:

Supplier selection and procurement controls

Suppliers are evaluated and approved based on their technical capability, quality performance, certifications, and ability to meet our specifications and delivery requirements. We maintain an approved vendor list and periodically review supplier performance to ensure consistency in raw material quality.

Incoming quality inspection

All incoming materials are inspected to ensure compliance with purchase specifications. Materials are also tested in-house for visual conformity, hardness, and chemical composition analysis, and reports are prepared accordingly. Where required, additional testing is conducted through NABL-accredited laboratories, and all test certificates and laboratory reports are thoroughly reviewed and verified before the materials are approved for production use.

In-Process and final quality checks

Our company is equipped with the multiple quality testing and measurements machinery to perform the two types of testing:

Metallurgical Testing checks the quality and strength of the metal itself. It is done to ensure that material has the right chemical composition, hardness, and strength before and after production.

	Type of Testing	Equipment used for testing	Whether Testing is done Inhouse/Outsource

11.	Crack Test	Dye Penetrant Testing (DPT) Kit	Outsource
12.	Surface & Coating Tests	Portable Coating Thickness Tester	Inhouse
13.	Surface & Coating Tests	Micro Coating Analyzer	Outsource

Metrological Testing checks the size and measurements of the parts. It is done to ensure sure that finished components match the required dimensions and drawings.

	Type of Testing/Measurement	Equipment used for testing
1.	Linear Dimension Testing	Vernier Caliper Digital Caliper Outside Micrometer Inside Micrometer Depth Micrometer Height Gauge
2.	Precision Measuring Test	Dial Indicator (Plunger Type) Dial Test Indicator (DTI) Bore Gauge (Dial Bore Gauge) Slip Gauges (Gauge Blocks) Air Gauge
3.	Form & Geometry Measurement	Surface Plate (Granite) V-Block Angle Plate Bevel Protractor
4.	Surface & Profile Measurement	Surface Roughness Tester (Ra Tester)

5.	Profile & Contour	Contour Measuring Instrument Gear Tester Klingenberg P40
6.	Coordinate Measurement	CMM (Coordinate Measuring Machine)
7.	Thread & Limit Measurement	Thread Plug Gauge Thread Ring Gauge Plain Plug Gauge Snap Gauge Feeler Gauge Master Setting Ring Gauges

If the Company requires any other testing report, then our company obtains the same from the Third-party laboratories which are Certified with National Accreditation Board for Testing and Calibration Laboratories (NABL).

Only batches that successfully clear the final quality inspection are approved for packaging and dispatch. Packaging is carried out in accordance with product-specific requirements to prevent damage during handling and transit. This approach ensures that the final products dispatched to customers are consistent with the quality standards.

We have been certified with the below mentioned certificates in accordance with the standards of quality management systems –

- IATF 16949:2016 for Manufacture of Forged and Machined Metal Components
- ISO 14001:2015 for Environmental Management System.
- ISO 45001:2018 for Occupational Health and Safety Management Systems.
- ZED BRONZE by Ministry of Micro, Small & Medium Enterprises for sustainability with Zero Effect and Zero Defect.
- PED-2014/68/EU & AD 2000 W0 for Pressure equipments manufacture.

KEY INDUSTRY REGULATIONS AND POLICIES

The following description is a summary of the relevant regulations and policies as prescribed by the GoI and other regulatory bodies that are applicable to our business. The information detailed below has been obtained from various legislations, including rules and regulations promulgated by regulatory bodies, and the bye laws of the respective local authorities that are available in the public domain. The regulations set out below may not be exhaustive and are merely intended to provide general information to the shareholders and neither designed, nor intended to substitute for professional legal advice. For details of government approvals obtained by us, see the section titled “Government and Other Approvals” on page 326 of this Draft Red Herring Prospectus.

THE COMPANIES ACT

The Companies Act primarily regulates the formation, financing, functioning and restructuring of Companies as separate legal entities. The Act provides regulatory and compliance mechanism regarding all relevant aspects including organizational, financial and managerial aspects of companies. The provisions of the Act state the eligibility, procedure and execution for various functions of the company, the relation and action of the management and that of the shareholders. The law laid down transparency, corporate governance and protection of shareholders & creditors. The Companies Act plays the balancing role between these two competing factors, namely, management autonomy and investor protection.

SEBI REGULATIONS

Securities And Exchange Board of India is the regulatory body for securities market transactions including regulation of listing and delisting of securities. It forms various rules and regulations for the regulation of listed entities, transactions of securities, exchange plat forms, securities market and intermediaries thereto. Apart from the SEBI Act, 1992, SCRA 1956, SCRR 1957 and other rules and regulations, listed entities are mainly regulated by SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018 and SEBI (Listing Obligations and Disclosure Requirement) Regulations, 2015, SEBI (Substantial Acquisition of Shares and Take over) Regulations, 2011 and SEBI (Prohibition of Insider Trading) Regulations, 2015.

TAX RELATED REGULATIONS

Income Tax Act, 1961

Income Tax Act, 1961 is applicable to every Domestic / Foreign Company whose income is taxable under the provisions of this Act or Rules made under it depending upon its “Residential Status” and “Type of Income” involved. U/s 139(1) every Company is required to file its Income tax return for every Previous Year by 31st October of the Assessment Year. Other compliances like those relating to Tax Deduction at Source, Advance Tax, Minimum Alternative Tax and like are also required to be complied by every Company.

Goods and Service Tax Act, 2017

The Central Goods and Services Tax Act, 2017 is an Act to make a provision for levy and collection of tax on intra-State supply of goods or services or both by the Central Government and for matters connected there with or incidental thereto. In line with CGST Act, each state Governments has enacted State Goods and Service Tax Act for respective states.

Goods and Services Tax (GST) is a comprehensive indirect tax on manufacture, sale and consumption of goods and services throughout India to replace taxes levied by the central and state governments on goods as services. This method allows GST-registered businesses to claim tax credit to the value of GST they paid on purchase of goods or services or both as part of their normal commercial activity. The mechanism provides for two level taxation of interstate and intra state transactions. When the supply of goods or services happens within a state called as intra-state transactions, then both the CGST and SGST will be collected. Whereas if the supply of goods or services happens between the states called as inter-state transactions and IGST will be collected. Exports are considered as zero-rated supply and imports are levied the same taxes as domestic goods and services adhering to the destination based taxation principle in addition to the Customs Duty which has not been subsumed in the GST.

State Tax on Profession, Trades, Callings and Employment Rules, 1975

The professional tax slabs in India are applicable to those citizens of India who are either involved in any profession or trade. The State Government of each State is empowered with the responsibility of structuring as well as formulating the respective professional tax criteria and is also required to collect funds through professional tax. The professional taxes are charged on the incomes of individuals, profits of business or gains in vocations. The professional tax is charged as per the List II of the Constitution. The professional tax is classified under various tax slabs in India. The tax payable under

the State Acts by any person earning a salary or wage shall be deducted by his employer from the salary or wages payable to such person before such salary or wages is paid to him, and such employer shall, irrespective of whether such deduction has been made or not when the salary and wage is paid to such persons, be liable to pay tax on behalf of such person and employer has to obtain the registration from the assessing authority in the prescribed manner.

Customs Act, 1962

The provisions of the Customs Act, 1962 and rules made there under are applicable at the time of import of goods i.e. bringing into India from a place outside India or at the time of export of goods i.e. taken out of India to a place outside India. Any Company requiring to import or export any goods is first required to get it registered and obtain an IEC (Importer Exporter Code). Imported goods in India attract basic customs duty, additional customs duty and education cess. The rates of basic customs duty are specified under the Customs Tariff Act 1975. Customs duty is calculated on the transaction value of the goods. Customs duties are administrated by Central Board of Excise and Customs under the Ministry of Finance.

Steel and Steel Products (Quality Control) Order, 2020

The Steel and Steel Products (Quality Control) Order, 2020, as amended (the “Quality Control Order 2020”), was notified by the Ministry of Steel, Government of India, to bring 120 steel products under mandatory BIS certification. All manufacturers of steel and steel products are required to apply to the Bureau of Indian Standards for certification and ensure compliance with the Quality Control Order 2020. The Quality Control Order 2020 further provides that every steel and steel products stated therein shall bear the standard mark under a license from Bureau of Indian Standards as provided in Bureau of Indian Standards (Conformity Assessment) Regulations, 2018.

Bureau of Indian Standards Act, 2016

The Bureau of Indian Standards Act, 2016, as amended (the “Bureau of Indian Standards Act”), provides for the establishment of bureau for the standardization, marking and quality certification of goods. The Bureau of Indian Standards Act provides for the functions of the bureau which include, among others (a) recognize as an Indian standard, any standard established for any goods, article, process, system or service by any other institution in India or elsewhere; (b) specify a standard mark to be called the Bureau of Indian Standards Certification Mark which shall be of such design and contain such particulars as may be prescribed to represent a particular Indian standard; and (c) make such inspection and take such samples of any material or substance as may be necessary to see whether any goods, article, process, system or service in relation to which the standard mark has been used conforms to the Indian standard or whether the standard mark has been properly used in relation to any article or process with or without a license.

Bureau of Indian Standards Rules, 2018

The Bureau of India Standards Rules, 2018 (the “Bureau of Indian Standards Rules”) have been notified, in supersession of the Bureau of Indian Standards Rules, 1987, in so far as they relate to Chapter IV A of the said rules relating to registration of the articles notified by the Central Government, and in supersession of the Bureau of Indian Standards Rules, 2017 except in relation to things done or omitted to be done before such supersession. Under the Bureau of Indian Standards Rules, the bureau is required to establish Indian standards in relation to any goods, article, process, system or service and shall reaffirm, amend, revise or withdraw Indian standards so established as may be necessary.

Indian Standards (IS): The Bureau of Indian Standards (BIS) provides comprehensive codes of practice for different welding processes:

ISO 14001:2015 – Environmental Management Systems

ISO 14001:2015, issued by the International Organization for Standardization, is an internationally recognized standard that specifies requirements for establishing and maintaining an Environmental Management System (EMS). The standard provides a structured framework for organizations to manage environmental responsibilities, reduce environmental impact, and ensure compliance with applicable environmental laws and regulations.

For companies engaged in the manufacture of forged and machined metal components, ISO 14001:2015 requires the implementation of systems and procedures to identify, monitor, and control environmental aspects arising from manufacturing operations, including forging, heat treatment, machining, surface finishing, and waste handling. The standard emphasizes effective management of environmental risks such as air emissions from furnaces, disposal of metal scrap and hazardous waste, wastewater discharge, energy consumption, and use of natural resources.

ISO 14001:2015 is based on a continuous improvement model (Plan-Do-Check-Act) and requires organizations to establish an environmental policy, set measurable environmental objectives, implement operational controls, monitor environmental performance, and conduct periodic audits and management reviews. Compliance with this standard helps manufacturing companies enhance environmental performance, strengthen regulatory compliance, improve resource efficiency, and demonstrate commitment to sustainable industrial practices.

Many forging and precision machining manufacturers obtain ISO 14001:2015 certification to align their operations with global environmental standards and to meet the environmental compliance requirements of customers in sectors such as automotive, engineering, oil and gas, and industrial equipment manufacturing.

ISO 45001:2018 – Occupational Health and Safety Management Systems

ISO 45001:2018, issued by the International Organization for Standardization, is an internationally recognized standard that specifies requirements for establishing and maintaining an Occupational Health and Safety Management System (OHSMS). The standard provides a framework for organizations to proactively identify, manage, and reduce workplace health and safety risks and to provide safe and healthy working conditions for employees and other stakeholders.

For companies engaged in the manufacture of forged and machined metal components, ISO 45001:2018 requires the implementation of systematic processes to identify and control occupational hazards associated with manufacturing operations such as forging, heat treatment, machining, material handling, and operation of heavy machinery and equipment. The standard emphasizes risk assessment and mitigation relating to workplace hazards including high temperatures, noise, moving machinery, metal dust, and manual handling of heavy materials.

ISO 45001:2018 is based on a risk-based and continual improvement approach aligned with the Plan-Do-Check-Act (PDCA) model. It requires organizations to establish an occupational health and safety policy, identify workplace hazards, implement preventive and protective measures, ensure worker participation and consultation, conduct training and awareness programs, and regularly monitor and review safety performance through internal audits and management reviews.

Adoption of ISO 45001:2018 helps manufacturing companies strengthen workplace safety practices, reduce the likelihood of occupational injuries and accidents, enhance compliance with applicable health and safety regulations, and improve overall operational efficiency. Certification to this standard is widely recognized across global supply chains and is often expected by customers in sectors such as automotive, engineering, and industrial manufacturing.

The Factories Act, 1948: Requires factory management to ensure safe working conditions, adequate ventilation to prevent accumulation of fumes, and the provision of Personal Protective Equipment (PPE).

REGULATIONS RELATED TO FOREIGN TRADE AND INVESTMENT

The Foreign Direct Investment

The Government of India, from time to time, has made policy pronouncements on Foreign Direct Investment (“FDI”) through press notes and press releases. The Department for Promotion of Industry and Internal Trade (DPIIT), Ministry of Commerce & Industry, Government of India makes policy pronouncements on FDI through Consolidated FDI Policy Circular/Press Notes/Press Releases which are notified by the Department of Economic Affairs (DEA), Ministry of Finance, Government of India as amendments to the Foreign Exchange Management (Non-Debt Instruments) Rules, 2019 under the Foreign Exchange Management Act, 1999 (42 of 1999) (FEMA). DPIIT has issued consolidated FDI Policy Circular of 2020 (“FDI Policy 2020”), which with effect from October 15, 2020, consolidates and supersedes all previous press notes, press releases and clarifications on FDI Policy that were in force. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Policy 2020 will be valid until an updated circular is issued.

The reporting requirements for any investment in India by a person resident outside India under Foreign Exchange Management (Non-Debt Instruments) Rules, 2019 are specified by the RBI. Regulation 4 of the Foreign Exchange Management (Mode of Payment and Reporting of Non-Debt Instruments) Regulations, 2019 vide notification No. FEMA. 395/2019-RB dated 17.10.2019 issued by the RBI stipulates the reporting requirement for any investment in India by a person resident outside India. All the reporting is required to be done through the Single Master Form (SMF) available on the Foreign Investment Reporting and Management System (FIRMS) platform at <https://firms.rbi.org.in>.

Under the current FDI Policy of 2020, foreign direct investment in micro and small enterprises is subject to sectoral caps, entry routes and other sectoral regulations.

Foreign Exchange Management Act, 1999 (“FEMA”) and Regulations framed thereunder

Foreign investment in India is governed primarily by the provisions of the FEMA which relates to regulation primarily by the RBI and the rules, regulations and notifications there under, and the policy prescribed by the Department of Promotion of Industry and Internal Trade, Ministry of Commerce & Industry, Government of India. As laid down by the FEMA Regulations no prior consents and approvals are required from the Reserve Bank of India, for Foreign Direct Investment under the ‘automatic route’ within the specified sectoral caps. In respect of all industries not specified as FDI under the automatic route, and in respect of investment in excess of the specified sectoral limits under the automatic route, approval may be required from the FIF and/or the RBI. The RBI, in exercise of its power under the FEMA, has notified the Foreign Exchange Management (Transfer or Issue of Security by a Person Resident Outside India) Regulations, 2017 ("FEMA Regulations") to prohibit, restrict or regulate, transfer by or issue security to a person resident outside India and Foreign Exchange Management (Export of Goods and Services) Regulations, 2015 for regulation on exports of goods and services.

Ownership restrictions of FIIs

Under the portfolio investment scheme, the total holding of all FIIs together with their sub-accounts in an Indian company is subject to a cap of 24% of the paid-up capital of a company, which may be increased up to the percentage of sectoral cap on FDI in respect of the said company pursuant to a resolution of the board of directors of the company and the approval of the shareholders of the company by a special resolution in a general meeting. The total holding by each FII, or in case an FII is investing on behalf of its sub-account, each sub-account should not exceed 10% of the total paid-up capital of a company.

Laws related to Overseas Investment by Indian Entities

Overseas investment by Indian Entities are governed under Foreign Exchange Management Act, 1999 under which the central Government of India have notified Foreign Exchange Management (Overseas Investment) Rules, 2022 in suppression of Foreign Exchange Management (Transfer or Issue of Any Foreign Security) Regulations, 2004 and the Foreign Exchange Management (Acquisition and Transfer of Immovable Property Outside India) Regulations, 2015. Followed by the rules, RBI has vide notification no. RBI/2022-2023/110, A.P. (DIR Series) Circular No.12 dated August 22, 2022 have issued Foreign Exchange Management (Overseas Investment) Directions, 2022 and Foreign Exchange Management (Overseas Investment) Regulations, 2022. These legislations frame the investment fields, mode and cap for various sectors and regions, by any person resident in India and the reporting requirements.

Foreign Trade Policy 2023

The Central Government of India in exercise of powers conferred under Section 5 of the Foreign Trade (Development & Regulation) Act, 1992 (No. 22 of 1992) [FT (D&R) Act], as amended, has notified Foreign Trade Policy (FTP) 2023 which is effective from April 01, 2023. The Foreign Trade Policy, inter alia, governs the import and export of goods, sets out mandatory documentation required for the import and export of goods, principles of restriction and prohibitions of trade with certain identified jurisdictions and groups. The Foreign Trade Policy also sets out a framework to promote cross border trade in the digital economy and a mechanism of settlement of complaints in connection with the quality of goods and other trade disputes.

LAWS RELATED TO ENVIRONMENTAL LAWS

National Environmental Policy, 2006

The Policy seeks to extend the coverage, and fill in gaps that still exist, in light of present knowledge and accumulated experience. This policy was prepared through an intensive process of consultation within the Government and inputs from experts. It does not displace but builds on the earlier policies. It is a statement of India's commitment to making a positive contribution to international efforts. This is a response to our national commitment to a clean environment, mandated in the Constitution in Articles 48 A and 51 A (g), strengthened by judicial interpretation of Article 21. The dominant theme of this policy is that while conservation of environmental resources is necessary to secure livelihoods and well-being of all, the most secure basis for conservation is to ensure that people dependent on particular resources obtain better livelihoods from the fact of conservation, than from degradation of the resource. Following are the objectives of National Environmental Policy: — • Conservation of Critical Environmental Resources • Intra-generational Equity: Livelihood Security for the Poor • Inter-generational Equity • Integration of Environmental Concerns in Economic and Social Development • Efficiency in Environmental Resource Use • Environmental Governance • Enhancement of resources for Environmental Conservation.

Water (Prevention and Control of Pollution) Act, 1974 (the “Water Act”)

The Water Act provides for one Central Pollution Control Board, as well as state pollution control boards, to be formed to implement its provisions, including enforcement of standards for factories discharging pollutants into water bodies. The Water Act prohibits the use of any stream or well for the disposal of polluting matter, in violation of the standards set down by the State PCB. The Water Act also provides that the consent of the State PCB must be obtained prior to opening of any new outlets or discharges, which are likely to discharge sewage effluent. The Water Act prescribes specific amounts of fine and terms of imprisonment for various contraventions.

The Air (Prevention and Control of Pollution) Act, 1981 (“Air Act”)

One Central Pollution Control Board, as well as state pollution control boards formed under water act shall be deemed to be Central Board & State Board for the Prevention and Control of air Pollution. The Air Act prohibits that no person operating any industrial plant, in any air pollution control area shall discharge or cause or permit to be discharged the emission of any air pollutant in excess of the standards laid down by the State Board. The Air Act prescribes specific amounts of fine and terms of imprisonment for various contraventions.

LAWS RELATING TO INTELLECTUAL PROPERTY

Trademarks Act, 1999

Under the Trademarks Act, 1999 (“Trademarks Act”), a trademark is a mark capable of being represented graphically and which is capable of distinguishing the goods or services of one person from those of others used in relation to goods and services to indicate a connection in the course of trade between the goods and some person having the right as proprietor to use the mark. A ‘mark’ may consist of a device, brand, heading, label, ticket, name signature, word, letter, numeral, shape of goods, packaging or combination of colours or any combination thereof.

The Patent Act, 1970

The Indian Patent Laws are defined by the Indian Patents Act of 1970. Patent rights are granted under this law for inventions that cover a new and inventive process, product, or article of manufacture and meet the novelty, inventive steps, and industrial applicability requirements. To obtain a patent, an invention must meet five key requirements: it must be patentable subject matter, useful, novel, non-obvious, and adequately described (enablement)

LAWS RELATED TO EMPLOYMENT OF MANPOWER

To rationalize and reform labour laws in India, the Government has enacted the following codes:

Code on Wages, 2019, which regulates and amalgamates wage and bonus payments and subsumes four existing laws namely – the Payment of Wages Act, 1936, the Minimum Wages Act, 1948, the Payment of Bonus Act, 1965, and the Equal Remuneration Act, 1976. It regulates, inter alia, the minimum wages payable to employees, the manner of payment and calculation of wages and the payment of bonus to employees.

Industrial Relations Code, 2020, which consolidates and amends laws relating to trade unions, the conditions of employment in industrial establishments and undertakings, and the investigation and settlement of industrial disputes. It subsumes and simplifies the Trade Unions Act, 1926, the Industrial Employment (Standing Orders) Act, 1946 and the Industrial Disputes Act, 1947.

Code on Social Security, 2020, which amends and consolidates laws relating to social security, and subsumes various social security related legislations, inter alia including the Employee’s State Insurance Act, 1948, the Employees’ Provident Funds and Miscellaneous Provisions Act, 1952, the Maternity Benefit Act, 1961 and the Payment of Gratuity Act, 1972. It governs the constitution and functioning of social security organisations such as the employee’s provident fund and the employee’s state insurance corporation, regulates the payment of gratuity, the provision of maternity benefits and compensation in the event of accidents that employees suffer, among others.

Occupational Safety, Health and Working Conditions Code, 2020, which amends and consolidates laws regarding the occupational safety, health and working conditions of persons employed in an establishment. It subsumes various enactments including, among others, the Factories Act, 1948 and the Contract Labour (Regulation and Abolition) Act, 1970.

The Indian government notified the four new labour codes on November 21, 2025: the Code on Wages, 2019, the Industrial Relations Code, 2020, the Code on Social Security, 2020, and the Occupational Safety, Health and Working Conditions Code, 2020. These notifications bring key provisions into effect and are intended to be fully operational from April 1, 2026, after draft rules are pre-published for public feedback. The codes consolidate 29 existing laws to simplify compliance and modernize labour regulations.

Other previous laws which are applicable during the transition period until the new laws are implemented and becomes operational in full:

Employees Provident Fund and Miscellaneous Provisions Act, 1952

Under the Employees' Provident Funds and Miscellaneous Provisions Act, 1952 (EPF Act), compulsory provident fund, family pension fund and deposit linked insurance are payable to employees in factories and other establishments. The legislation provides that an establishment employing more than 20 (twenty) persons, either directly or indirectly, in any capacity whatsoever, is either required to constitute its own provident fund or subscribe to the statutory employee's provident fund. The employer of such establishment is required to make a monthly contribution to the provident fund equivalent to the amount of the employee's contribution to the provident fund. There is also a requirement to maintain prescribed records and registers and filing of forms with the concerned authorities. The EPF Act also prescribes penalties for avoiding payments required to be made under the abovementioned schemes.

Employees State Insurance Act, 1948, as amended (the "ESIC Act")

The ESI Act, provides for certain benefits to employees in case of sickness, maternity and employment injury. All employees in establishments covered by the ESI Act are required to be insured, with an obligation imposed on the employer to make certain contributions in relation thereto. In addition, the employer is also required to register itself under the ESI Act and maintain prescribed records and registers.

Employees Deposit Linked Insurance Scheme (EDLI)

The Employees Deposit Linked Insurance Scheme or EDLI is an insurance cover provided by the EPFO (Employees Provident Fund Organisation) for private sector salaried employees who are members of EPFO. The EDLI scheme was launched in 1976. The registered nominee receives a lump-sum payment in the event of the death of the person insured (employee) during the period of the service

Payment of Gratuity Act, 1972, as amended (the "Gratuity Act")

The Gratuity Act establishes a scheme for the payment of gratuity to employees engaged in every factory, mine, oil field, plantation, port and railway company, every shop or establishment in which ten or more persons are employed or were employed on any day of the preceding twelve months and in such other establishments in which ten or more employees are employed or were employed on any day of the preceding twelve months, as notified by the Central Government from time to time. Penalties are prescribed for non-compliance with statutory provisions.

Under the Gratuity Act, an employee who has been in continuous service for a period of five years will be eligible for gratuity upon his retirement, resignation, superannuation, death or disablement due to accident or disease. However, the entitlement to gratuity in the event of death or disablement will not be contingent upon an employee having completed five years of continuous service. The maximum amount of gratuity payable may not exceed 1 million.

Dear Sir/Ma'am,

We have examined the attached Restated Financial Information of Metalic Technoforge Limited (Formerly known as Metalic Technoforge Private Limited). The Restated Financial Information examined comprised of:

1. The Restated Statement of Assets and Liabilities of Metalic Technoforge Limited as at September 30, 2025, March 31, 2025, and March 31, 2024 and March 31, 2023.
2. The Restated Statements of Profit and Loss of Metalic Technoforge Limited for the Financial Year ended on September 30, 2025, March 31, 2025, March 31st, 2024 and March 31, 2023.
3. The Restated Cash Flow Statement of Metalic Technoforge Limited for the Financial Year ended on September 30, 2025, March 31, 2025, March 31st, 2024 and March 31, 2023.

These Restated Financial Statements have been prepared by the management of the Company and approved by the Board of Directors in their meeting held on March 30th, 2026 for the purpose of inclusion in the Draft Red Herring Prospectus / Red Herring Prospectus / Prospectus prepared by the company in connection with its proposed Initial Public Offer of equity shares (IPO) on EMERGE platform (“IPO” or “EMERGE IPO”) of

National Stock Exchange of India Limited (“NSE”) of the company. These restated summary statements have been prepared in accordance with the requirements of:

- a) Section 26 of Part I of Chapter III of the Companies Act, 2013 as amended;
- b) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 as amended from time to time in pursuance of provisions of Securities and Exchange Board of India Act, 1992 ("ICDR Regulations"); and
- c) The Guidance Note on Reports in Company Prospectuses (Revised 2019) issued by the Institute of Chartered Accountants of India (ICAI), as amended from time to time (the Guidance Note)

Management’s Responsibility for the Restated Financial Information

The Company’s Board of Directors are responsible for the preparation of Restated Financial Information for the purpose of inclusion in the Draft Red Herring Prospectus / Red Herring Prospectus / Prospectus to be filed with the Securities and Exchange Board of India, stock exchange, and Registrar of Companies, in connection with the proposed IPO. The Restated Financial Information has been prepared by the management of the company on the basis of the preparation stated in notes 2.1 to Restated Financial Information. Management’s responsibility includes designing, implementing and maintaining adequate internal control relevant to the preparation and presentation of the Restated Financial Information. Management is also responsible for identifying and ensuring that the Company complies with the Companies Act, ICDR Regulations and the Guidance Note.

Auditor’s Responsibility

We have examined such Restated Financial Information, taking into consideration:

- a) The terms of reference and terms of our engagement are agreed upon with the company in accordance with our engagement letter dated December 12th, 2025, in connection with the proposed IPO of equity shares of the Company;
- b) The Guidance Note also requires that we comply with the ethical requirements of the Code of Ethics issued by the ICAI;
- c) Concepts of test checks and materiality to obtain reasonable assurance based on verification of evidence supporting the Restated Financial Information; and
- d) The requirement of Section 26 of the Act and the ICDR Regulations. Our work was performed solely to assist you in meeting your responsibilities in relation to your compliance with the Act, the ICDR Regulations and the Guidance Note in connection with the IPO.

Restated Financial Information

These Restated Financial Information have been compiled by the management from:

- a) Audited Financial Statements for the Financial Year Ended September 30, 2025, March 31, 2025, March 31, 2024, & March 31, 2023 have been audited on December 12, 2025, September 06, 2025, September 07, 2024 and September 06, 2023 respectively. The Audited Financial Statement have been prepared in accordance with the Accounting principles generally accepted in India by making adjustments for Indian GAAP as applicable to corporates which have been approved by the board of directors.

For the purpose of our examination, we have relied on:

- a) Auditors' Report issued by CA Hetal Patel dated 07th September 2024, 06th September 2023, on the financial statements of the company for the financial year ended March 31, 2024, and March 31, 2023, respectively, as referred in above paragraph.

Reliance has been placed on the restated statement of assets and liabilities and the restated statements of profit and loss and cash flow statements, the Summary Statement of Significant Accounting Policies adopted by the company and notes to the restated financial information (collectively hereinafter referred as "Restated Financial Statement" or "Restated Financial Information") examined by us for the said years.

The "Restated Statement of Assets and Liabilities" as set out in Annexure 1 to this report, of the Company as at September 30, 2025, March 31, 2025, March 31, 2024, March 31, 2023, are prepared by the Company and approved by the Board of Directors. This Statement of Assets and Liabilities, as restated, has been arrived at after making such adjustments and regroupings to the individual Financial Statements of the Company, as in our opinion were appropriate and more fully described in Significant Accounting Policies and Notes to the Restated Summary Statements as set out in Annexure 4(A) to this Report.

The "Restated Statement of Profit and Loss" as set out in Annexure 2 to this report, of the Company for the year ended on September 30, 2025, March 31, 2025, March 31, 2024, and March 31, 2023 are prepared by the Company and approved by the Board of Directors. This Statement of Profit and Loss, as restated, has been arrived at after making such adjustments and regroupings to the individual financial statements of the Company, as in our opinion were appropriate and more fully described in Significant Accounting Policies and Notes to the Restated Summary Statements as set out in Annexure 4(A) to this Report.

The "Restated Statement of Cash Flow" as set out in Annexure 3 to this report, of the Company for the year ended on September 30, 2025, March 31, 2025, March 31, 2024, and March 31, 2023, are prepared by the Company and approved by the Board of Directors. This Statement of Cash Flow, as restated, has been arrived at after making such adjustments and regroupings to the individual financial statements of the Company, as in

our opinion, were appropriate and more fully described in Significant Accounting Policies and Notes to Restated Summary Statements as set out in Annexure 4(A) to this Report.

Based on the above and also as per the reliance placed by us on the audited financial statements of the company and auditor's report thereon which have been prepared by Statutory Auditor of the Company for year ended on September 30, 2025, March 31, 2025, March 31, 2024 and March 31, 2023, we are of the opinion that The Restated Financial Statements or Restated Summary Statements have been made after incorporating:

- a) Adjustments for the changes in accounting policies retrospectively in respective financial years to reflect the same accounting treatment as per the changed accounting policy for all reporting periods, if any;
- b) Adjustment for prior period and other material amounts in the respective financial years have been made to which they relate;
- c) They do not contain any extraordinary items that need to be disclosed separately except as shown in the Restated Financial Information;
- d) There are no qualifications in the Audit Report issued by statutory auditors for the year ended on September 30, 2025, March 31, 2025, March 31, 2024 & March 31, 2023, for Metalic Technoforge Limited, which would require adjustments in this Restated Financial Statement of the Company.
- e) Profits and losses have been arrived after charging all expenses, including depreciation, and after making such adjustments/restatements and regroupings as, in our opinion, are appropriate and are to be read in accordance with the Significant Accounting Policies and Notes to Accounts to this report;
- f) Adjustments in Restated Financial Information or Restated Summary Financial Statement have been made in accordance with the correct accounting policies,
- g) There was no change in accounting policies, which need to be adjusted in the Restated Financial Information or Restated Summary Financial Statement;
- h) There are no revaluation reserves, which need to be disclosed separately in the Restated Financial Information or Restated Summary Financial Statement;
- i) The Company has not paid dividend on its equity shares during the reporting period.
- j) The Company has made provision for gratuity, leave encashment and other retirement benefits as prescribed by Accounting Standard 15 on "Employee Benefits" issued by the Institute of Chartered Accountants of India;

We have also examined the following Restated financial information of the Company set out in the Annexure as prepared by the management and approved by the Board of Directors of the company for the Financial Year ended on September 30, 2025, March 31, 2025, March 31, 2024 and March 31, 2023, proposed to be included in the Draft Red Herring Prospectus / Red Herring Prospectus / Prospectus (“Offer Document”) for the proposed IPO:

2 Significant Accounting Policies

2.1 Basis of Preparation:

The Restated Statement of Assets and Liabilities of the Company as on September 30, 2025, March 31, 2025, March 31, 2024, and March 31, 2023 and the Restated Statement of Profit and Loss and Restated Statements of Cash Flows for the financial year/period ended on September 30, 2025, March 31, 2025, March 31, 2024, and March 31, 2023 and the annexure thereto (collectively, the “Restated Financial Statements”) have been compiled by the management from the Financial Statements of the Company for the financial year ended on September 30, 2025, March 31, 2025, March 31, 2024 and March 31, 2023.

These restated financial statements are prepared in accordance with Indian Generally Accepted Accounting Principles (GAAP) under the historical cost convention on the accrual basis except for certain financial instruments which are measured at fair values. GAAP comprises the Accounting Standards notified u/s Section 133 read with Companies (Accounting Standards) Rules, 2021. Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

2.2 Use of Estimates:

The preparation of the restated financial statements in conformity with the generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of revenues and expenses during the reporting year, the reported amounts of assets and liabilities and the disclosures of contingent liabilities as on the date of the restated financial statements.

Management believes that the estimates used in the preparation of the financial statements are prudent and reasonable and are in their best knowledge of current event and actions.

Examples of such estimates include useful lives of Property Plant and Equipment's, provision for doubtful debts / advances, deferred tax, etc. Actual results could differ from those estimates. Such difference is recognised in the year/s in which the results are known / materialised.

2.3 Property, Plant and Equipment (PPE):

The Company has adopted the cost model as its accounting policy for all its PPE and accordingly, the same are carried at its cost less any accumulated depreciation and any impairment loss. The cost comprises of - purchase price, including import duties, other non-recoverable taxes, and any cost incurred directly attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by management, after deducting trade discounts and rebates.

Intangible assets are stated at cost, less accumulated amortisation. Costs include all expenses incurred to bring the asset to its present condition. Intangible assets are amortised on a straight-line basis over the estimated useful life as specified in Schedule II of the Companies Act 2013. The amortisation expense on intangible assets with finite lives is recognised in the statement of profit and loss.

2.4 Depreciation / Amortisation:

Depreciation on PPE is commenced on when it is available on use, i.e. when it is in the location and condition necessary for it to be capable of operating in the manner intended. Depreciation is provided on the "Written Down Value Method" as per the useful lives specified in Part C of Schedule II to the Companies Act, 2013. The residual value and the useful life of an asset is reviewed at least at each financial year-end and, and if expectations differ from previous estimates, the change is recognised in the statement of profit and loss with appropriate disclosure thereof.

Useful life as per Schedule II of the Companies Act, 2013:

Sr. No.	Particulars	Useful Life
1	Furniture & Fixture	10 Years
2	Office Equipment	5 Years
3	Computers	3 Years
4	Vehicles	8 Years
5	Plant & Machinery	15 Year
6	Intangible Assets	10 Years

2.5 Impairment of Assets:

As on each Balance Sheet date, if internal / external indicators suggest that an asset may be impaired, the carrying amount of the asset is tested for impairment so as to determine, the provision for impairment loss required. No such provision is required to be made.

If at the Balance Sheet date, there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed, and the asset is reflected at the recoverable amount subject to a maximum of depreciable historical cost. Reversal of impairment loss is recognized immediately as income in the profit and loss account. No such reversal is required to be made.

2.6 Inventories:

Raw materials are carried at the lower of cost and net realisable value. Cost is determined on a weighted average basis. Purchased goods are carried at cost. Stores and spare parts are carried at lower of cost and net realisable value. Finished goods produced or purchased by the Company are carried at lower of cost and net realisable value. Cost includes direct material and labour cost and overheads.

2.7 Revenue Recognition:

Sale of Goods and Services:

Revenue is recognised only when significant risk and rewards of ownership has been transferred to the buyer and for Service, as and when services are performed. Revenue is measured at the fair value of the consideration received or receivable, net of returns, trade discounts, and volume rebates.

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured in accordance with AS-9, Revenue Recognition as prescribed under the authority of section 133 of the Companies Act, 2013 read with Companies (Accounts) Rules, 2014 and Companies (Accounting Standards) Rules, 2021. Sales are recognized on accrual basis, and only after transfer of goods to the customer.

Other Income

Interest Income is recognised on a time proportion basis taking into account the amount outstanding and applicable interest rate. Other items of income is recognized on accrual basis and as a going concern basis, and the accounting policies are consistent with the generally accepted accounting policies.

2.8 Foreign Currency Transactions:

(i) Initial Recognition

Foreign currency transactions are recorded, on initial recognition in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

(ii) Measurement:

Foreign currency monetary items are reported using the closing rate. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction.

(iii) Treatment of Foreign Exchange:

Exchange differences arising on settlement/ restatement of foreign currency monetary assets and liabilities of the Company are recognized as income or expenses in the Statement of Profit and Loss.

2.9 Employee Benefits:

Short-term employee benefits

Employee benefits payable wholly within twelve months of rendering the service are short term employee benefits and are recognised in the period in which the employee renders the related services.

Post-employment benefits

Defined Contribution Plan:

Contributions payable to the recognised provident fund, which is a defined contribution scheme, are charged to the statement of profit and loss during the period in which employee renders the related service.

Defined benefits Plan:

The Company has an obligation towards gratuity, a defined benefit retirement plan covering eligible employees. The plan provides for lump sum payment to vested employees at retirement, death while in employment or on termination of employment of an amount equivalent to 15 days salary payable for each completed year of service without any monetary limit. Vesting occurs upon completion of five years of service. The calculation of the Company's obligation is performed annually by a qualified actuary using the projected unit credit method. Provision for gratuity has been made in the books as per actuarial valuation done as at the end of the year/Period.

2.10 Borrowing Costs:

Borrowing costs that are attributable to the acquisition or construction of qualifying assets are capitalised as part of the cost of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for intended use. All other borrowing costs are recognised in Statement of Profit and Loss in the period in which they are incurred.

2.11 Segment Reporting Policies:

i. Primary Segment is identified based on the nature of services, the different risks and returns and the internal business reporting system. Secondary Segment is identified based on the geographic allocation of its customers.

ii. The Company prepares its segment information in conformity with the accounting policies adopted for preparing and presenting the financial statements of the Company as a whole.

2.12 Taxation:

i. Tax on income for the current year is determined on the basis of estimated taxable income and tax credits computed in accordance with the provisions of the Income-tax Act, 1961.

ii. Deferred tax is recognized, subject to consideration of prudence, on timing differences between taxable and accounting income which originates in one period and are capable of reversal in one or more subsequent periods (adjusted for reversals expected during tax holiday period). The tax effect is calculated on accumulated timing differences at the yearend based on tax rates and laws enacted or substantially enacted as of the balance sheet date. In the event of unabsorbed depreciation and carry forward of losses, deferred tax assets are recognised only to the extent that there is virtual certainty that sufficient future taxable income will be available to realise such deferred tax assets. In other situations, deferred tax assets are recognised only to the extent that there is a reasonable certainty that sufficient future taxable income will be available to realise such deferred tax assets. The Company offsets deferred tax assets and deferred tax liabilities if it has a legally enforceable right, and these relate to taxes on income levied by the same governing taxation laws.

iii. The Company offsets, on a year-on-year basis, the current tax assets and liabilities, where it has a legally enforceable right and where it intends to settle such assets and liabilities on a net basis.

2.13 Provisions, Contingent Liabilities and Contingent Assets:

i. Provisions are recognised for liabilities that can be measured only by using a substantial degree of estimation, if the Company has a present obligation as a result of a past event, a probable outflow of resources is expected to settle the obligation, and the amount of the obligation can be reliably estimated.

ii. Reimbursement expected in respect of the expenditure required to settle a provision is recognised only when it is virtually certain that the reimbursement will be received.

iii. Contingent liability is stated in the case of a present obligation arising from a past event, when it is not probable that an outflow of resources will be required to settle the obligation, a possible obligation, unless the probability of outflow of resources is remote.

iv. Contingent assets are neither recognized, nor disclosed.

v. Provisions, contingent liabilities and contingent assets are reviewed at each balance sheet date.

2.14 Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit/loss before extraordinary items and tax is adjusted for the effects of the transactions of non-cash nature and any deferrals or

accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the company are segregated based on the available information.

2.15 Earning Per share

Basic earning per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equities shares outstanding during the year. For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

2.16 Prior Period Items.

The Company identified certain items relating to prior periods that required adjustment. These adjustments have been made in accordance with applicable accounting standards and have been reflected in the financial statements. The impact of these prior period items has been disclosed, and where necessary, comparative figures have been restated to ensure the financial statements provide an accurate representation of the Company's financial position and performance.

2.17 Government Grant.

Government Grants are recognised in the financial statement on accrual basis and the same is adjusted against Expense or Asset for which it is granted in the nature of compensation.

2.18 Cash & Cash Equivalent.

Cash and cash equivalents comprise cash and cash deposits with banks. The Company considers all highly liquid investments with an original maturity at a date of purchase of three months or less and that are readily convertible to known amounts of cash to be cash equivalents.

Notes :-

1) The ratios have been calculated as below:

- Basic Earnings Per Share (Rs.) = Restated PAT attributable to Equity Shareholders/ Weighted Average Number of Equity Shares outstanding during the year.
- Diluted Earnings Per Share (Rs.) = Restated PAT attributable to Equity Shareholders/ Weighted Average Number of Diluted Potential Equity Shares outstanding during the year.
- Return on Net Worth (%) = Restated PAT attributable to Equity Shareholders/ Net Worth X 100
- Restated Net Asset Value per equity share (Rs.) = Restated Net Worth as at the end of the year/ Total Number of Equity Shares outstanding during the year.

2) Earnings Per Share calculation are in accordance with Accounting Standard 20- Earnings Per Share, notified under the Companies (Accounting Standards) Rules 2006, as amended.

3) Net Worth = Equity Share Capital + Reserve and Surplus (including surplus in the Statement of Profit & Loss)

4) Current Ratio = Current assets/Current liabilities of the period ended of the company

5) Debt Equity Ratio = (Long-Term Debt+Short-Term Debt) / Shareholders Equity

6) Debt Service Coverage Ratio = Earning available for Debt Service / Debt Service

7) Return on Capital employed (ROCE) = Profit before interest and tax /(Net worth+ Total Debt-Deferred Tax Liability-Intangible Asset)

8) Net Profit Ratio = Profit After Tax / Revenue from Operation

9) EBITDA = Earning Before Tax + Finance Cost + Depreciation - Other Income

10) The figures disclosed above are based on the Restated Financial Statements of the Company.

Note:-

1. In preceding years, the company did not maintain proper records of quarterly records of inventory. Consequently, discrepancies existed during the year between the inventory statements submitted to the bank and the books of accounts, these were reconciled at year end. In the recent year, i.e. from FY 2024-25 the company has implemented a proper system for maintaining the records of inventories. As a result of that, only minor differences were observed between the books of account and the statements submitted to the banks due to physical verification and pricing adjustment.

2. The difference between the trade payables as per the books of account and those submitted to the bank is primarily due to reporting of creditors for raw materials only, whereas the financial statements reflect the total trade payables of the Company.

BUSINESS OVERVIEW

Incorporated in 2016, our Company is engaged in the business of manufacturing of closed die forged and precision-machined components. Our product portfolio comprises a wide range of complex and safety critical forged and precision-

machined products, including big rings, small rings, ball studs, gear blanks with broaching, gears, coupling assemblies and other critical components catering to diverse end-use industries. We primarily serve domestic and global original equipment manufacturers (“OEMs”) across automotive and non-automotive industries. In automotive sector, our OEM customers include manufacturers of automobiles, tractors and commercial vehicles, and in non-automotive sector, our OEM customers include manufacturers of agricultural equipment, hydraulic equipment, construction machinery and general engineering products.

Our operations include die manufacturing, forging, heat treatment, shot blasting, precision machining, testing and quality assurance processes. Our products are manufactured using primary raw materials such as carbon steel, alloy steel and stainless steel, as well as non-ferrous metals including aluminum, brass and copper, depending on customer specifications and application requirements. Our Company’s focus on delivering quality products to customers is supported by adherence to internationally recognized standards and management systems. We hold certifications including IATF 16949 for the manufacture of forged and machined metal components, ISO 14001:2015 for environmental management systems, ISO 45001:2018 for occupational health and safety management systems, PED-2014/68/EU & AD 2000 W0 for Pressure equipments manufacture and ZED Bronze Certificate.

As of the date of this Draft Red Herring Prospectus, our Company operates a manufacturing facility located in Rajkot, Gujarat, comprising four units. Out of these, three units are operational and used for our existing business operations, while one unit (Unit- IV) is presently vacant and proposed to be use for the upcoming capital expansion pursuant to the Objects of the Issue. For further details, please refer the section titled “*Objects of the Issue*” on page 106. Our manufacturing units are spread across a total area of approximately 5,968.51 square meters (approximately 64,244.53 square feet). Our manufacturing units are equipped with the necessary plant and machinery and other equipment required to support our present business operations. Further to reduce our carbon footprint, we have also established a solar power plant with an installed capacity of 1 MW, spread across 4 acres of land (approximately 16,575 Square meters) owned by us. The solar power plant is located at New Revenue Survey No. 176, Village Navalgadh, Sub-District Dhrangadhra, District Surendranagar, Gujarat – 363320, and currently supports approximately 40%–60% of our total energy requirements. The installation of the solar power plant enables us to partially source renewable energy for our operations and reduce our dependence on conventional power sources.

Our company commenced operations with a single belt drop 1.5 MT hammer machine in the manufacturing facility spread across 960 square meter area. Thereafter in 2019, we expanded our capacity by adding 1 MT hammer, since then we added machinery for forging and CNC processing. Further during the period from 2019 to 2025, we expanded our manufacturing units to a total area approximately 5,968.51 square meters (approximately 64,244.53 square feet). We also strengthened our manufacturing capabilities by adding supporting machinery and equipment, including CNC machines, VMC machines, and gear hobbing machines, to enhance production capacity and technical capabilities. In 2024, we further diversified our product portfolio by commencing the manufacturing of gears and shafts supported by the installation of modern precision gear manufacturing machinery.

Our manufacturing facility at Unit I comprises a forging department equipped with two belt drop hammers of 1.5 MT and 1 MT capacities. These forging lines are supported by trimming presses and material handling systems including overhead cranes to facilitate smooth production flow. In addition, we operate one 300 MT pneumatic screw press, which is also supported by trimming press and handling infrastructure. All three forging lines are equipped with induction billet heaters with automated temperature control and rejection mechanisms to ensure uniform heating and process consistency prior to forging.

Our heat treatment section at Unit - I comprise gas-fired heat treatment furnaces that are fully automatic. The furnaces are equipped with oil quenching arrangements and process monitoring systems to ensure controlled heating and cooling cycles. The automated system enables monitoring of temperature parameters, process timing, and recording of operational data to maintain consistency and traceability. These facilities support heat treatment operations for a range of forged components in accordance with customer specifications and applicable process requirements.

In addition to forging and heat treatment, we have machine shop facilities at Unit – II with CNC machines (including vertical machining centres and turning centres), precision grinding equipment, broaching machines, and inspection facilities. Our gear manufacturing facilities include CNC gear cutting, hobbing, gear shaving, shaping machines along with gear inspection systems, enabling production of gears up to DIN-5 class as per customer requirements. We also have in-house quality control and testing facilities, including coordinate measuring machines (CMM), contour inspection systems, gear profile testers, and other metrology equipment to ensure dimensional and geometric conformance at various stage of production. Further we outsource certain activities to third-party job workers, particularly during periods of higher workload, to meet delivery timelines or when order volumes exceed our in-house production capacity.

Over the years, our Company has expanded its presence across India and has also established an international reach through our customers located in different parts of the world. In addition to our domestic sales, we export our products to countries such as Germany, Finland, United States of America, Italy, China, and Turkey.

Our Promoters, Mr. Gajipara Keyur Dhirajlal, Chairman and Managing Director and Mr. Trambadiya Dhaval Vrajilal, have experience of more than nine years each in the business of manufacturing forged and machined metal components. Additionally, our Promoters and senior management personnel, namely Mr. Vadodariya Satish Rameshbhai, Mr. Kapadiya Vipul K., Mr. Gajipara Ronakkumar Mansukhbhai and Mr. Rupapara Jay Rameshbhai, oversees entire manufacturing processes, including forging, machining and quality control, as well as functional departments such as human resources, finance and administration. With their industry experience, our Promoters manage and oversee the major aspects of our business operations. Our Company is supported by a team of 191 employees, including skilled and semi-skilled workers, who are responsible for carrying out overall manufacturing. For details regarding the management team, please refer to chapter titled "Our Management" on page 208 of the Draft Red Herring Prospectus.

STOCK MARKET DATA OF EQUITY SHARES

This being an initial public offer of the Equity Shares of our Company, the Equity Shares are not listed on any stock exchange and accordingly, no stock market data is available for the Equity Shares.

MECHANISM FOR REDRESSAL OF INVESTOR GRIEVANCES

The Registrar Agreement provides for retention of records with the Registrar to the Issue for a period of three years from the date of listing and commencement of trading of the Equity Shares to enable the Bidders to approach the Registrar to the Issue for redressal of their grievances. The Registrar to the Issue shall obtain the required information from the SCSBs for addressing any clarifications or grievances of ASBA Bidders.

All grievances may be addressed to the Registrar to the Issue with a copy to the relevant Designated Intermediary with whom the ASBA Form was submitted, giving full details such as name of the sole or First Bidder, ASBA Form number, Bidder's DP ID, Client ID, PAN, address of Bidder, number of Equity Shares applied for, ASBA Account number in which the amount equivalent to the Bid Amount was blocked or the UPI ID (for UPI Bidders who make the payment of Bid Amount through the UPI Mechanism), date of ASBA Form and the name and address of the relevant Designated Intermediary where the Bid was submitted. Further, the Bidder shall enclose the Acknowledgment Slip or the application number from the Designated Intermediary in addition to the documents or information mentioned hereinabove. All grievances relating to Bids submitted through Registered Brokers may be addressed to the Stock Exchange with a copy to the Registrar to the Issue.

All grievances of the Anchor Investors may be addressed to the Registrar to the Issue, giving full details such as the name of the sole or First Bidder, Bid cum Application Form number, Bidders' DP ID, Client ID, PAN, date of the Bid cum Application Form, address of the Bidder, number of the Equity Shares applied for, Bid Amount paid on submission of the Bid cum Application Form and the name and address of the Book Running Lead Manager where the Bid cum Application Form was submitted by the Anchor Investor.

In case of any delay in unblocking of amounts in the ASBA Accounts exceeding Two Working Days from the Bid / Issue Closing Date, the Bidder shall be compensated at a uniform rate of ₹ 100 per day for the entire duration of delay exceeding Two Working Days from the Bid / Issue Closing Date by the intermediary responsible for causing such delay in unblocking. The BRLM shall, in their sole discretion, identify and fix the liability on such intermediary or entity responsible for such delay in unblocking.

The processing fees for applications made by UPI Bidders using the UPI Mechanism may be released to the remitter banks (SCSBs) only after such banks provide a written confirmation on compliance with SEBI Master Circular no. SEBI/HO/MIRSD/POD-1/P/CIR/2023/70 dated May 17, 2023 (to the extent applicable) and SEBI Master Circular no. SEBI/HO/CFD/PoD-2/P/CIR/2023/00094 dated June 21, 2023 (to the extent applicable).

In terms of SEBI circular SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021, as amended pursuant to SEBI circular SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021, the SEBI circular SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022, and SEBI master circular no. SEBI/HO/CFD/PoD-2/P/CIR/2023/00094 dated June 21, 2023, and subject to applicable law, any ASBA Bidder whose Bid has not been considered for Allotment, due to failure on the part of any SCSB, shall have the option to seek redressal of the same by the concerned SCSB within three months of the date of listing of the Equity Shares. SCSBs are required to resolve these complaints within 15 days, failing which the concerned SCSB would have to pay interest at the rate of 15% per annum for any delay beyond this period of 15 days.

Further, the investors shall be compensated by the SCSBs in accordance with SEBI circular SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021 in the events of delayed unblock for cancelled/withdrawn/deleted applications, blocking of multiple amounts for the same UPI application, blocking of more amount than the application amount, delayed unblocking of amounts for nonallotted/partially-allotted applications, for the stipulated period. In an event there is a delay in redressal of the investor grievance in relation to unblocking of amounts, the BRLMs shall compensate the investors at the rate higher of ₹100 or 15% per annum of the application amount for the period of such delay. Further, in terms of SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022, the payment of processing fees to the SCSBs shall be undertaken pursuant to an application made by the SCSBs to the BRLMs, and such application shall be made only after (i) unblocking of application amounts for each application received by the SCSB has been fully completed, and (ii) applicable compensation relating to investor complaints has been paid by the SCSB.

The following compensation mechanism has become applicable for investor grievances in relation to Bids made through the UPI Mechanism for public offers opening on or after May 1, 2021, for which the relevant SCSBs shall be liable to compensate the investor:

Scenario	Compensation amount	Compensation period
Delayed unblock for cancelled / withdrawn / deleted applications	₹100 per day or 15% per annum of the Bid Amount, whichever is higher	From the date on which the request for cancellation / withdrawal / deletion is placed on the bidding platform of the Stock Exchange till the date of actual unblock
Blocking of multiple amounts for the same Bid made through the UPI Mechanism	Instantly revoke the blocked funds other than the original application amount and ₹100 per day or 15% per annum of the total cumulative blocked amount except the original Bid Amount, whichever is higher	From the date on which multiple amounts were blocked till the date of actual unblock
Blocking more amount than the Bid Amount	Instantly revoke the difference amount, i.e., the blocked amount less the Bid Amount and ₹100 per day or 15% per annum of the difference amount, whichever is higher	From the date on which the funds to the excess of the Bid Amount were blocked till the date of actual unblock
Delayed unblock for non – Allotted / partially Allotted applications	₹100 per day or 15% per annum of the Bid Amount, whichever is higher	From the Working Day subsequent to the finalisation of the Basis of Allotment till the date of actual unblock

Further, in the event there are any delays in resolving the investor grievance beyond the date of receipt of the complaint from the investor, for each day delayed, the Book Running Lead Manager shall be liable to compensate the investor ₹ 100 per day or 15% per annum of the Bid Amount, whichever is higher. The compensation shall be payable for the period ranging from the day on which the investor grievance is received till the date of actual unblock.

Our Company, the BRLM and the Registrar to the Issue accept no responsibility for errors, omissions, commission or any acts of SCSBs including any defaults in complying with its obligations under applicable SEBI ICDR Regulations.

For helpline details of the Book Running Lead Manager pursuant to the SEBI/HO/CFD/DIL-2/OW/P/2021/2481/1/M dated March 16, 2021, see “*General Information – Book Running Lead Manager*” on page 76 of this Draft Red Herring Prospectus.

Further, the Bidder shall also enclose a copy of the Acknowledgment Slip duly received from the concerned Designated Intermediary in addition to the information mentioned hereinabove.

All grievances relating to Bids submitted with Registered Brokers may be addressed to the Stock Exchanges with a copy to the Registrar to the Issue. The Registrar to the Issue shall obtain the required information from the SCSBs and Sponsor Banks for addressing any clarifications or grievances of ASBA Bidders. Our Company, the BRLM and the Registrar to the Issue accept no responsibility for errors, omissions, commission or any acts of SCSBs including any defaults in complying with its obligations under the SEBI ICDR Regulations.

The Registrar to the Issue shall obtain the required information from the SCSBs and Sponsor Bank for addressing any clarifications or grievances of ASBA Applicants. Applicants can contact our Company Secretary and Compliance officer or the Registrar to the Issue in case of any pre-issue or post-issue related problems such as non-receipt of letters of Allotment, non-credit of Allotted Equity Shares in the respective beneficiary account, non-receipt of refund intimations and non-receipt of funds by electronic mode.

Anchor Investors are required to address all grievances in relation to the Issue to the Book Running Lead Manager.

Further, the Bidder shall also enclose a copy of the Acknowledgment Slip duly received from the concerned Designated Intermediary in addition to the information mentioned herein.

Our Company has also appointed Ms. Parul Wadhawan, Company Secretary and Compliance officer. For details, see “General Information” beginning on page 76.

ALLOTMENT ONLY IN DEMATERIALISED FORM

Pursuant to Section 29 of the Companies Act and the SEBI ICDR Regulations, the Equity Shares shall be allotted only in dematerialized form. As per the SEBI ICDR Regulations, the trading of the Equity Shares shall only be in dematerialised form. In this context, two agreements have been signed amongst our Company, the respective depositories and the Registrar to the Issue:

- i. Tripartite agreement dated January 19, 2026 amongst our Company, CDSL and Registrar to the Company.
- ii. Tripartite agreement dated January 17, 2025 between our Company, NSDL and Registrar to the Company.

For details in relation to the Basis of Allotment, see “*Issue Procedure*” on page 363 of this Draft Red Herring Prospectus.

MINIMUM APPLICATION VALUE, MARKET LOT AND TRADING LOT

In accordance with Regulation 267 (2) of the SEBI ICDR Regulations, our Company shall ensure that the minimum application size shall be two lots per application:

“Provided that the minimum application size shall be above ₹ 2.00 lakhs.”

The trading of the Equity Shares will happen in the minimum contract size of [●] Equity Shares and the same may be modified by the NSE Emerge from time to time by giving prior notice to investors at large. For further details, see “*Issue*

Procedure” on page 363 of this Draft Red Herring Prospectus.

Allocation and allotment of Equity Shares through this Issue will be done in multiples of [●] Equity Shares and is subject to a minimum allotment of [●] Equity Shares to the successful Bidders in terms of the SEBI circular No. CIR/MRD/DSA/06/2012 dated February 21, 2012.

MINIMUM NUMBER OF ALLOTTEES

Further in accordance with the Regulation 268(1) of SEBI ICDR Regulation, 2018, the minimum number of allottees in this Issue shall be 200 shareholders. In case the minimum number of prospective allottees is less than 200, no allotment will be made pursuant to this Issue and all the monies blocked by SCSBs shall be unblocked within two (2) working days of closure of Issue.

JOINT HOLDERS

Subject to the provisions contained in our Articles of Association, where two or more persons are registered as the holders of the Equity Shares, they shall be entitled to hold the same as joint tenants with benefits of survivorship.

JURISDICTION

The courts of Mumbai, Maharashtra, India will have exclusive jurisdiction in relation to this Issue.

The Equity Share have not been and will not be registered under the U.S. Securities Act or any state securities laws in the United States and may not be issued or sold within the United States or to, or for the account or benefit of, U.S. persons (as defined in Regulation S), except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable U.S. state securities laws. Accordingly, the Equity Shares are being issued and sold only outside the United States in off-shore transactions in reliance on Regulation S under the U.S. Securities Act and the applicable laws of the jurisdiction where those issues and sales occur.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be issued or sold, and applications may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

Bidders are advised to ensure that any application from them does not exceed investment limits or the maximum number of Equity Shares that can be held by them under applicable law. Further, each Bidder where required must agree in the allotment advice that such Bidder will not sell or transfer any Equity Shares or any economic interest therein, including any off-shore derivative instruments, such as participatory notes, issued against the Equity Shares or any similar security, other than in accordance with applicable laws.

NOMINATION FACILITY TO THE INVESTOR

In accordance with Section 72 of the Companies Act, 2013, read with Companies (Share Capital and Debentures) Rules, 2014, the sole Bidder, or the first Bidder along with other joint Bidders, may nominate any one person in whom, in the event of the death of sole Bidder or in case of joint Bidders, death of all the Bidders, as the case may be, the Equity Shares allotted, if any, shall vest. A person, being a nominee, entitled to the Equity Shares by reason of the death of the original holder(s), shall be entitled to the same advantages to which he or she would be entitled if he or she were the registered holder of the Equity Share(s). Where the nominee is a minor, the holder(s) may make a nomination to appoint, in the prescribed manner, any person to become entitled to equity share(s) in the event of his or her death during the minority. A nomination shall stand rescinded upon a sale of Equity Share(s) by the person nominating. A buyer will be titled to make a fresh nomination in the manner prescribed. Fresh nomination can be made only on the prescribed form available on request at our registered office or to the registrar and transfer agents of our Company.

Any person who becomes a nominee by virtue of the provisions of Section 72 of the Companies Act shall upon production of such evidence, as may be required by the Board, elect either:

- to register himself or herself as the holder of the equity shares; or
- to make such transfer of the Equity Shares, as the deceased holder could have made.

Further, the Board may at any time give notice requiring any nominee to choose either to be registered himself or herself or to transfer the equity shares, and if the notice is not complied with within a period of ninety (90) days, the Board may thereafter withhold payment of all dividends, bonuses or other monies payable in respect of the equity shares, until the

requirements of the notice have been complied with.

Since the allotment of Equity Shares in the Issue will be made only in dematerialized form, there is no need to make a separate nomination with our Company. Nominations registered with respective depository participant of the Bidder would prevail. If the Bidders require changing of their nomination, they are requested to inform their respective depository participant.

Our Company shall comply with such disclosure and accounting norms as may be specified by SEBI from time to time.

WITHDRAWAL OF THE ISSUE

Our Company in consultation with the BRLM, reserve the right to not to proceed with the Issue after the Issue opening date but before the allotment. In such an event, our Company would issue a public notice in the newspapers in which the pre-Issue advertisements were published, within two (2) days of the Issue closing date or such other time as may be prescribed by SEBI, providing reasons for not proceeding with the Issue. The Book Running Lead Manager, through the Registrar to the Issue, shall notify the SCSBs to unblock the bank accounts of the ASBA Bidders within one (1) working day from the date of receipt of such notification. Our Company shall also inform the same to the Stock Exchange on which Equity Shares are proposed to be listed. If the Issue is withdrawn after the designated date, amounts that have been credited to the public issue account shall be transferred to the refund account.

The BRLM, through the Registrar to the Issue, shall notify the SCSBs and the sponsor banks (in case of UPI Bidders), to unblock the bank accounts of the ASBA Bidders within one working day from the date of receipt of such notification and also inform the Bankers to the Issue to process refunds, as the case may be. The notice of withdrawal will be issued in the same newspapers where the pre-issue advertisements have appeared, and the Stock Exchange will also be informed promptly. In terms of the UPI circulars, in relation to the Issue, the BRLM will submit reports of compliance with the applicable listing timelines and activities, identifying non-adherence to timelines and processes and an analysis of entities responsible for the delay and the reasons associated with it. Further, in case of any delay in unblocking of amounts in the ASBA accounts (including amounts blocked through the UPI Mechanism) exceeding three working days from the Issue closing date, the Bidder shall be compensated at a uniform rate of ₹100/- per day for the entire duration of delay exceeding two working days from the Issue closing date by the intermediary responsible for causing such delay in unblocking. The BRLM shall, in their sole discretion, identify and fix the liability on such intermediary or entity responsible for such delay in unblocking.

Notwithstanding the foregoing, this Issue is also subject to obtaining (i) the final listing and trading approvals of the stock exchange, which our Company shall apply for after allotment (ii) the final RoC approval of the Prospectus after it is filed with the RoC. If our Company in consultation with BRLM withdraws the Issue after the Issue closing date and thereafter determines that it will proceed with an issue, our Company shall file a fresh Prospectus with Stock Exchange.

The above timetable other than the Bid/Issue closing date, is indicative and does not constitute any obligation or liability on our Company or the BRLM.

Any circulars or notifications from the SEBI after the date of this Draft Red Herring Prospectus may result in changes to the timelines. Further, the issue procedure is subject to change to any revised circulars issued by the SEBI to this effect.

Whilst our Company shall ensure that all steps for the completion of the necessary formalities for the listing and the commencement of trading of the Equity Shares on the Stock Exchanges are taken within such time as prescribed by SEBI, the timetable may be extended due to various factors, such as extension of the Issue Period by our Company in consultation with the BRLM or any delay in receiving the final listing and trading approval from the Stock Exchanges. In terms of the SEBI master circular no. SEBI/HO/CFD/PoD-2/P/CIR/2023/00094 dated June 21, 2023, our Company shall within three days from the closure of the Issue, refund the subscription amount received in case of non – receipt of minimum subscription or in case our Company fails to obtain listing or trading permission from the Stock Exchanges for the Equity Shares. The commencement of trading of the Equity Shares will be entirely at the discretion of the Stock Exchange and in accordance with the applicable laws. The Shareholder, severally and not jointly, has specifically confirmed that it shall extend such reasonable support and co-operation required by our Company and the BRLM for completion of the necessary formalities for listing and commencement of trading of the Equity Shares at the Stock Exchange within such time as prescribed by SEBI.

Due to limitation of time available for uploading the Applications on the Issue closing date, the Bidders are advised to submit their applications one day prior to the Issue closing date and, in any case, no later than 3.00 p.m. (IST) on the Issue closing date. All times mentioned in this Draft Red Herring Prospectus are Indian Standard Times. Bidders are cautioned that in the event a large number of Applications are received on the Issue closing date, as is typically experienced in public offerings, some Applications may not get uploaded due to lack of sufficient time. Such Applications that cannot be uploaded will not be considered for allocation under the Issue. Applications will be accepted only on business days. Neither our Company nor the Book Running Lead Manager is liable for any failure in uploading the Applications due to faults in any software/hardware system or otherwise.

SEBI vide circular SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 has reduced the post issue timeline for initial public offerings. The revised timeline of T+3 days has been made applicable in two phases, i.e., voluntary for all public issues opening on or after September 1, 2023 and mandatory on or after December 1, 2023. Accordingly, the Issue will be made under UPI Phase III on mandatory T+3 days listing basis, subject to the timing of the Issue and any circulars, clarification or notification issued by the SEBI from time to time, including with respect to SEBI circular SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023.

The Registrar to the Issue shall submit the details of cancelled/withdrawn/deleted applications to the SCSB's on daily basis within 60 minutes of the Issue closure time from the Issue opening date till the Issue closing date by obtaining the same from the Stock Exchanges. The SCSB's shall unblock such applications by the closing hours of the working day.

In terms of the UPI Circulars, in relation to the Issue, the BRLM will be required to submit reports of compliance with timelines and activities prescribed by SEBI in connection with the allotment and listing procedure within such time as prescribed by SEBI, identifying non-adherence to timelines and processes and an analysis of entities responsible for the delay and the reasons associated with it.

In case of any delay in unblocking of amounts in the ASBA accounts (including amounts blocked through the UPI Mechanism) exceeding two working days from the Issue closing date, the Bidder shall be compensated for the entire duration of delay exceeding two working days from the Issue closing date by the intermediary responsible for causing such delay in unblocking, in the manner specified in the UPI Circulars, to the extent applicable, which for the avoidance of doubt, shall be deemed to be incorporated herein. The BRLM shall, in their sole discretion, identify and fix the liability on such intermediary or entity responsible for such delay in unblocking. Further, the issue procedure is subject to change basis any revised SEBI circulars to this effect.

In case of force majeure, banking strike or similar circumstances, the issuer may, for reasons to be recorded in writing, extend the (Issue) period disclosed in the Prospectus, for a minimum period of one (1) working day, subject to the Issue period not exceeding ten (10) working days.

In case of discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical or the electronic application form, for a particular Bidder, the details as per the file received from the Stock Exchange may be taken as the final data for the purpose of allotment. In case of discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical or electronic application form, for a particular ASBA Bidder, the Registrar to the Issue shall ask the relevant SCSB or the member of the syndicate for rectified data.

Any circulars or notifications from SEBI after the date of this Draft Red Herring Prospectus may result in changes to the listing timelines. Further, the issue procedure is subject to change basis any revised SEBI circulars to this effect.

In cases of force majeure, banking strike or similar circumstances, our Company in consultation with the BRLMs, for reasons to be recorded in writing, may extend the Bid/Issue Period for a minimum of one working day, subject to the Bid/ Issue period not exceeding 10 working days. Any revision in Price Band, and the revised Bid/Issue Period, if applicable, shall be widely disseminated by notification to the Stock Exchanges, by issuing a public announcement and also by indicating the change on the respective websites of the BRLMs and at the terminals of the Syndicate Members and by intimation to the Designated Intermediaries and the Sponsor Bank(s), as applicable. In case of revision of Price Band, the Bid Lot shall remain the same.

MINIMUM SUBSCRIPTION

This Issue is not restricted to any minimum subscription level and is 100% underwritten.

As per Section 39 of the Companies Act, 2013, if the stated minimum amount has not been subscribed and the sum payable on application is not received within a period of 30 days from the date of the Prospectus, the application money has to be returned within such period as may be prescribed. If our Company does not receive the 100% subscription of the issue through the Offer document including devolvement of Underwriters, if any, our company shall forthwith refund the entire subscription amount received in accordance with applicable law including the SEBI master circular no. SEBI/HO/CFD/PoD-2/P/CIR/2023/00094 dated June 21, 2023. If there is a delay beyond two days after our Company becomes liable to pay the amount, our Company and every officer in default will, on and from the expiry of this period, be jointly and severally liable to repay the money, with interest at the rate of 15% per annum or other penalty as prescribed under the SEBI Regulations, the Companies Act 2013 and applicable law.

In accordance with Regulation 260 of the SEBI (ICDR) Regulations, our Issue shall be hundred percent underwritten. Thus, the underwriting obligations shall be for the entire hundred percent of the issue through the Prospectus and shall not be restricted to the minimum subscription level.

Further in accordance with the Regulation 268(1) of SEBI (ICDR) Regulations, the minimum number of allottees in this Issue shall be 200 shareholders. In case the minimum number of prospective allottees is less than 200, no allotment will be made pursuant to this Issue and all the monies blocked by SCSBs shall be unblocked within two (2) working days of closure

of Issue.

Further, in accordance with Regulation 267(2) of the SEBI (ICDR) Regulations, our Company shall ensure that the minimum application size in terms of number of specified securities shall not be less than two lots.

“Provided that the minimum application size shall be above ₹2 lakhs.”

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be issued or sold, and applications may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

ARRANGEMENTS FOR DISPOSAL OF ODD LOTS

The trading of the Equity Shares will happen in the minimum contract size of [●] shares in terms of the SEBI circular No. CIR/MRD/DSA/06/2012 dated February 21, 2012. However, the Market Maker shall buy the entire shareholding of a shareholder in one lot, where value of such shareholding is less than the minimum contract size allowed for trading on the NSE Emerge.

RESTRICTIONS, IF ANY ON TRANSFER AND TRANSMISSION OF EQUITY SHARES

Except for the lock-in of the pre- Issue capital of our Company as provided in “*Capital Structure*” beginning on page 87 and except as provided in our Articles of Association there are no restrictions on transfer of Equity Shares. Further, there are no restrictions on the transmission of shares/debentures and on their consolidation/splitting, except as provided in the Articles of Association. For details, see “*Main Provisions of the Articles of Association*” beginning on page 388.

The above information is given for the benefit of the Bidders. The Bidders are advised to make their own enquiries about the limits applicable to them. Our Company and the Book Running Lead Manager do not accept any responsibility for the completeness and accuracy of the information stated hereinabove. Our Company and the Book Running Lead Manager are not liable to inform the investors of any amendments or modifications or changes in applicable laws or regulations, which may occur after the date of this Draft Red Herring Prospectus. Bidders are advised to make their independent investigations and ensure that the number of Equity Shares applied for do not exceed the applicable limits under laws or regulations.

NEW FINANCIAL INSTRUMENTS

As on the date of this Draft Red Herring Prospectus, there are no outstanding warrants, new financial instruments or any rights, which would entitle the shareholders of our Company, including our Promoter, to acquire or receive any Equity Shares after the Issue. Further, our Company is not issuing any new financial instruments through this Issue.

ALLOTMENT OF SECURITIES IN DEMATERIALIZED FORM

In accordance with the SEBI ICDR Regulations, Allotment of Equity Shares to successful applicants will only be in the dematerialized form. Applicants will not have the option of allotment of the Equity Shares in physical form. The Equity Shares on allotment will be traded only on the dematerialized segment of the Stock Exchange.

APPLICATION BY ELIGIBLE NRIS, FPIS OR VCFS REGISTERED WITH SEBI

It is to be understood that there is no reservation for Eligible NRIs, FPIs or VCF registered with SEBI. Such Eligible NRIs, FPIs or VCF registered with SEBI will be treated on the same basis with other categories for the purpose of allocation.

NRIs, FPIs / FIIs and foreign venture capital investors registered with SEBI are permitted to purchase shares of an Indian company in a public issue without the prior approval of the RBI, so long as the price of the Equity Shares to be issued is not less than the price at which the Equity Shares are issued to residents. The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the FIPB or the RBI, provided that (i) the activities of the investee company are under the automatic route under the foreign direct investment (“FDI”) Policy and the non-resident shareholding is within the sectoral limits under the FDI policy; and (ii) the pricing is in accordance with the guidelines prescribed by the SEBI / RBI.

The current provisions of the Foreign Exchange Management (Transfer or Issue of Security by a Person Resident outside India) Regulations, 2000, provides a general permission for the NRIs, FPIs and foreign venture capital investors registered with SEBI to invest in shares of Indian companies by way of subscription in an IPO. However, such investments would be subject to other investment restrictions under the Foreign Exchange Management (Transfer or Issue of Security by a Person

Resident outside India) Regulations, 2000, RBI and / or SEBI regulations as may be applicable to such investors. The Allotment of the Equity Shares to Non-Residents shall be subject to the conditions, if any, as may be prescribed by the Government of India / RBI while granting such approvals.

AS PER THE EXTENT GUIDELINES OF THE GOVERNMENT OF INDIA, OCBS CANNOT PARTICIPATE IN THIS ISSUE

The current provisions of the Foreign Exchange Management (Transfer or offer of Security by a Person Resident outside India) Regulations, 2000, provides a general permission for the NRIs, FPIs and foreign venture capital investors registered with SEBI to invest in shares of Indian companies by way of subscription in an IPO. However, such investments would be subject to other investment restrictions under the Foreign Exchange Management (Transfer or offer of Security by a Person Resident outside India) Regulations, 2000, RBI and/or SEBI regulations as may be applicable to such investors. The allotment of the Equity Shares to Non-Residents shall be subject to the conditions, if any, as may be prescribed by the Government of India/RBI while granting such approvals.

MIGRATION TO MAIN BOARD

As per the provisions of the Chapter IX of the SEBI (ICDR) Regulation, 2018 to the extent applicable, our Company may migrate to the main board of NSE from the Emerge Platform on a later date subject to the following:

As per Regulation 280(2) of the SEBI ICDR Regulations as amended from time to time, Where the post-issue paid up capital of the Company listed on the NSE Emerge is likely to increase beyond twenty five crore rupees by virtue of any further issue of capital by the Company by way of rights issue, preferential issue, bonus issue, etc. the Company shall migrate its equity shares listed on a SME Platform to the Main Board and seek listing of the equity shares proposed to be issued on the Main Board subject to the fulfilment of the eligibility criteria for listing of equity shares laid down by the Main Board:

Not more than 50% of the Net Issue shall be allotted to QIBs, subject to valid Bids being received at or above the Issue Price.

Further, SEBI through the notification no. SEBI/LAD-NRO/GN/2025/233 - SEBI ICDR (Amendment) Regulations, 2025 dated March 03, 2025 effective from the date of their publication in official gazette, our Company shall ensure that the minimum application size shall be two lots per application:

“Provided that the minimum application size shall be above ₹ 2 lakhs.”

SEBI through the UPI Circulars no. SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 1, 2018 read with its circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/50 dated April 3, 2019, circular no. SEBI/HO/CFD/DIL2/P/CIR/P/2022/45 dated April 5, 2022, circular no. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 and any subsequent circulars or notifications issued by SEBI in this regard, has introduced an alternate payment mechanism using Unified Payments Interface (UPI) and consequent reduction in timelines for listing in a phased manner. UPI has been introduced in a phased manner as a payment mechanism in addition to ASBA for applications by UPI Bidders through intermediaries from January 1, 2019. The UPI Mechanism for UPI Bidders applying through designated intermediaries, in phase I, was effective along with the prior process and timeline of T+6 days (**UPI Phase I**).

With effect from July 1, 2019, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/76 dated June 28, 2019, read with circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2019/85 dated July 26, 2019 with respect to Bids by UPI Bidders through designated intermediaries (other than SCSBs), the existing process of physical movement of forms from such designated intermediaries to SCSBs for blocking of funds has been discontinued and only the UPI Mechanism for such Bids with existing timeline of T+6 days was mandated for a period of three months or launch of five main board public issues, whichever is later ("**UPI Phase II**").

Subsequently, however, SEBI vide its circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019 extended the timeline for implementation of UPI Phase II till March 31, 2020. However, given the prevailing uncertainty due to the COVID-19 pandemic, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020, had decided

to continue with the UPI Phase II till further notice. The final reduced timeline of T+3 days for the UPI Mechanism for applications by UPI Bidders (“**UPI Phase III**”) and modalities of the implementation of UPI Phase III was notified by SEBI vide its circular no. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 and made effective on a voluntary basis for all issues opening on or after September 1, 2023 and on a mandatory basis for all issues opening on or after December 1, 2023.

The Issue will be undertaken pursuant to the processes and procedures under UPI Phase III, subject to any circulars, clarification or notification issued by the SEBI from time to time. Further, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021, as amended pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 and SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022, has introduced certain additional measures for streamlining the process of initial public offers and redressing investor grievances, including the reduction of time period for unblocking of application monies from 15 days to four days. This circular is effective for initial public offers opening on/or after May 1, 2021, except as amended pursuant to SEBI circular SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021, and the provisions of this circular, as amended, are deemed to form part of this Draft Red Herring Prospectus.

The BRLM shall be the nodal entity for any Issues arising out of the public issuance process. In terms of Regulation 23(5) and Regulation 52 of SEBI ICDR Regulations, the timelines and processes mentioned in SEBI RTA Master Circular, shall continue to form part of the agreements being signed between the intermediaries involved in the public issuance process and Book Running Lead Manager shall continue to coordinate with intermediaries involved in the said process.

Furthermore, pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/P/2022/45 dated April 5, 2022, all individual bidders in initial public offerings (opening on or after May 1, 2022) whose application sizes are up to ₹5.00 lakhs shall use the UPI Mechanism and shall also provide their UPI ID in the Bid cum Application Form submitted with Syndicate Members, Registered Brokers, Collecting Depository Participants and Registrar has introduced certain additional measures for streamlining the process of initial public offers and redressing investor grievances. Pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2022/75 dated May 30, 2022; applications made using the ASBA facility in initial public offerings shall be processed only after application monies are blocked in the bank accounts of investors (all categories).

In case of any delay in unblocking of amounts in the ASBA Accounts (including amounts blocked through the UPI Mechanism) exceeding two (2) working days from the Bid/Issue closing date, in accordance with the SEBI master circular no. SEBI/HO/CFD/PoD-2/P/CIR/2023/00094 dated June 21, 2023, the Bidder shall be compensated at a uniform rate of ₹100 per day for the entire duration of delay exceeding two (2) days from the Bid/Issue closing date by the intermediary responsible for causing such delay in unblocking. The BRLM shall, in their sole discretion, identify and fix the liability on such intermediary or entity responsible for such delay in unblocking. Further, SEBI vide its master circular no. SEBI/HO/CFD/PoD-2/P/CIR/2023/00094 dated June 21, 2023, has reduced the timelines for refund of Application money to two days.

Our Company and the BRLM, members of the syndicate do not accept any responsibility for the completeness and accuracy of the information stated in this section and the GID and are not liable for any amendment, modification or change in the applicable law which may occur after the date of this Draft Red Herring Prospectus. Bidders are advised to make their independent investigations and ensure that their Bids are submitted in accordance with applicable laws and do not exceed the investment limits or maximum number of the Equity Shares that can be held by them under applicable law or as specified in the Red Herring Prospectus and the Prospectus, when filed.

Further, our Company and the Members of the Syndicate are not liable for any adverse occurrences consequent to the implementation of the UPI Mechanism for application in the Issue.

BOOK BUILDING PROCEDURE

This Issue is being made in terms of Rule 19(2)(b) of the SCRR, through the Book Building Process in accordance with Regulation 253 of the SEBI ICDR Regulations wherein not more than 50.00% of the Issue shall be allocated on a proportionate basis to QIBs, provided that our Company and may, in consultation with the Book Running Lead Manager, allocate up to 60% of the QIB Portion to Anchor Investors on a discretionary basis in accordance with the SEBI ICDR Regulations and amendments thereof, of which one-third shall be reserved for domestic Mutual Funds, subject to valid Bids being received from domestic Mutual Funds at or above the Anchor Investor Allocation Price. In the event of under-subscription under (ii) above, the allocation

may be made to domestic Mutual Funds. Further, 5.00% of the QIB Portion (excluding the Anchor Investor Portion) shall be available for allocation on a proportionate basis only to Mutual Funds, and the remainder of the QIB Portion shall be available for allocation on a proportionate basis to all QIBs (other than Anchor Investors), including Mutual Funds, subject to valid Bids being received at or above the Issue Price. Further, not less than 35.00% of the Net Issue shall be available for allocation to Individual Bidders who applies for minimum application size. Not less than 15% of the Net Issue shall be available for allocation to Non-Institutional Investors of which one-third of the Non-Institutional Portion will be available for allocation to Bidders with an application size of more than two lots and up to such lots as equivalent to not more than ₹ 10.00 Lakhs and two-thirds of the Non-Institutional Portion will be available for allocation to Bidders with an application size of more than ₹ 10.00 Lakhs and under-subscription in either of these two sub-categories of Non-Institutional Portion may be allocated to Bidders in the other sub-category of Non-Institutional Portion. Subject to the availability of Equity Shares in the Non – Institutional investors category, the allotment to each Non-Institutional Investors shall not be less than the minimum application size in Non-Institutional Category and the remaining available Equity Shares, if any, shall be allocated on a proportionate basis in accordance with the conditions specified in this regard in Schedule XIII of the SEBI (ICDR) Regulations, 2018 and amendments thereof. Not more than 50% of the Net Issue shall be allotted to QIBs, subject to valid Bids being received at or above the Issue Price.

Subject to valid Bids being received at or above the Issue Price, under-subscription, if any, in any category, except in the QIB Portion, would be allowed to be met with spill over from any other category or combination of categories of Bidders at the discretion of our Company, in consultation with the BRLM and the Designated Stock Exchange subject to receipt of valid Bids received at or above the Issue Price. Under- subscription, if any, in the QIB Portion, would not be allowed to be met with spill-over from any other category or a combination of categories.

Bidders must ensure that their PAN is linked with Aadhaar and are in compliance with CBDT notification dated February 13, 2020 and press release dated June 25, 2021 read with press release dated September 17, 2021, and CBDT circular no.7 of 2022, dated March 30, 2022, read with press release dated March 28, 2023.

In accordance with Rule 19(2)(b) of the SCRR, the Issue will constitute at least 25% of the post Issue paid-up Equity Share capital of our Company.

The Equity Shares, on Allotment, shall be traded only in the dematerialized segment of the Stock Exchange.

Investors should note that the Equity Shares will be allotted to all successful Bidders only in dematerialised form. The Bid cum Application Forms which do not have the details of the Bidders' depository account, including DP ID, Client ID, the PAN and UPI ID, for IIs Bidding in the Individual Investor Portion using the UPI Mechanism, shall be treated as incomplete and will be rejected. Bidders will not have the option of being Allotted Equity Shares in physical form. However, they may get their Equity Shares rematerialized subsequent to Allotment of the Equity Shares in the Issue, subject to applicable laws.

PHASED IMPLEMENTATION OF UNIFIED PAYMENTS INTERFACE

SEBI has issued the UPI Circulars in relation to streamlining the process of public issue of inter alia, equity shares. Pursuant to the UPI Circulars, the UPI Mechanism has been introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under ASBA) for applications by IIs through designated intermediaries with the objective to reduce the time duration from public issue closure to listing from six working days to up to three working days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI payment mechanism, the UPI Circulars have introduced the UPI Mechanism in three phases in the following manner:

Phase I: This phase was applicable from January 1, 2019 until March 31, 2019 or floating of five main board public issues, whichever is later. Subsequently, the timeline for implementation of Phase I was extended till June 30, 2019. Under this phase, an RII had the option to submit the ASBA Form with any of the designated intermediary and use his/ her UPI ID for the purpose of blocking of funds. The time duration from public Issue closure to listing continued to be six working days.

Phase II: This phase has become applicable from July 1, 2019. SEBI vide its circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019 had extended the timeline for implementation of UPI Phase II till March 31, 2020. Further, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020 dated March 30, 2020 decided to continue Phase II of UPI with ASBA until further notice. Under this phase, submission of the ASBA Form by IIs through designated intermediaries (other than SCSBs) to SCSBs for blocking of funds will be discontinued and will be replaced by the UPI Mechanism. However, the time duration from public issue closure to listing would continue to be six working days during this phase.

Phase III: This phase has become applicable on a voluntary basis for all issues opening on or after September 1, 2023 and on a mandatory basis for all issues opening on or after December 1, 2023, vide SEBI circular bearing number SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 ("**T+3 Notification**"). In this phase, the time duration from public issue closure to listing has been reduced to three working days. The Issue shall be undertaken pursuant to the processes and procedures as notified in the T+3 notification as applicable, subject to any circulars, clarification or notification issued by the SEBI from time to time, including any circular, clarification or notification which may be issued by SEBI.

The Issue is being made under Phase III of the UPI (on a mandatory basis).

Individual investors bidding under the Non-Institutional Portion bidding for more than ₹ 200,000 and up to ₹ 500,000, using the UPI Mechanism, shall provide their UPI ID in the Bid-cum-Application Form for Bidding through Syndicate, sub-syndicate members, Registered Brokers, RTAs or CDPs, or online using the facility of linked online trading, demat and bank account (3 in 1 type accounts), provided by certain brokers.

Pursuant to the SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021 issued by SEBI, as amended by the SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 and SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022 (the "**UPI Streamlining Circular**"), SEBI has set out specific requirements for redressal of investor grievances for applications that have been made through the UPI Mechanism. The requirements of the UPI Streaming Circular include, appointment of a nodal officer by the SCSB and submission of their details to SEBI, the requirement for SCSBs to send SMS alerts for the blocking and unblocking of UPI mandates, the requirement for the Registrar to submit details of cancelled, withdrawn or deleted applications, and the requirement for the bank accounts of unsuccessful Bidders to be unblocked no later than one working day from the date on which the Basis of Allotment is finalised. Failure to unblock the accounts within the timeline would result in the SCSBs being penalised under the relevant securities law. Additionally, if there is any delay in the redressal of investors' complaints, the relevant SCSB as well as the post-issue BRLM will be required to compensate the concerned investor. Further, in terms of the UPI Circulars, the payment of processing fees to the SCSBs shall be undertaken pursuant to an application made by the SCSBs to the BRLMs, and such application shall be made only after (i) unblocking of application amounts for each application received by the SCSB has been fully completed, and (ii) applicable compensation relating to investor complaints has been paid by the SCSB in compliance with the SEBI RTA Master Circular in a format as prescribed by SEBI, from time to time, and such payment of processing fees to the SCSBs shall be made in compliance with circulars prescribed by SEBI and applicable law. The Issue will be made under UPI Phase III of the UPI Circular.

The processing fees for applications made by UPI Bidders using the UPI Mechanism may be released to the remitter banks (SCSBs) only after such banks provide a written confirmation on compliance with SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 read with SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021 and SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022.

All SCSBs offering facility of making application in public issues shall also provide facility to make application using UPI. Our Company will be required to appoint one of the SCSBs as the Sponsor Bank(s) to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and / or payment instructions of the UPI Bidders.

For further details, refer to the General Information Document available on the websites of the Stock Exchange and the Book Running Lead Manager.

AVAILABILITY OF DRAFT RED HERRING PROSPECTUS, RED HERRING PROSPECTUS, PROSPECTUS AND BID CUM APPLICATION FORMS

* Excluding electronic Bid cum Application Form.

** Bid cum Application Forms for Anchor Investors will be made available at the office of the Book Running Lead Manager. Electronic Bid cum Application forms will also be available for download on the website of NSE (www.nseindia.com).

In case of ASBA forms, the Designated Intermediaries (other than SCSBs) shall submit/deliver the Bid cum Application Form to the respective SCSB, where the Bidder has a bank account and shall not submit it to any non-SCSB bank or any escrow bank. Further, SCSBs shall upload the relevant Bid details (including UPI ID in case of ASBA Forms under the UPI Mechanism) in the electronic bidding system of the Stock Exchanges. Stock Exchanges shall validate the electronic bids with the records of the CDP for DP ID/Client ID and PAN, on a real time basis and bring inconsistencies to the notice of the relevant designated intermediaries, for rectification and re-submission within the time specified by Stock Exchanges. Stock Exchanges shall allow modification of either DP ID/Client ID or PAN ID, bank code and location code in the Bid details already uploaded up to 5.00 p.m. on Bid/ Issue closing date.

The Stock Exchanges shall accept the ASBA applications in their electronic bidding system only with a mandatory confirmation on application monies blocked. For UPI Bidders, the Stock Exchange shall allow modification of either DP ID/Client ID or PAN ID, bank code and location code in the Bid details already uploaded. The Stock Exchange shall share the Bid details (including UPI ID) with the Sponsor Bank(s) on a continuous basis to enable the Sponsor Bank(s) to initiate UPI Mandate Request to UPI Bidders for blocking of funds. For ASBA Forms (other than UPI Bidders) Designated

Intermediaries (other than SCSBs) shall submit/ deliver the ASBA Forms to the respective SCSB where the Bidder has an ASBA bank account and shall not submit it to any non-SCSB bank or any escrow collection bank.

For UPI Bidders, the Stock Exchange shall share the Bid details (including UPI ID) with the Sponsor Bank(s) on a continuous basis through API integration to enable the Sponsor Bank(s) to initiate UPI Mandate Request to UPI Bidders for blocking of funds. The Sponsor Bank(s) shall initiate request for blocking of funds through NPCI to UPI Bidders, who shall accept the UPI Mandate Request for blocking of funds on their respective mobile applications associated with UPI ID linked bank account. The NPCI shall maintain an audit trail for every Bid entered in the Stock Exchange bidding platform, and the liability to compensate the UPI Bidders in case of failed transactions shall be with the concerned entity (i.e., the Sponsor Bank(s), NPCI or the Bankers to the Issue) at whose end the lifecycle of the transaction has come to a halt. The NPCI shall share the audit trail of all disputed transactions/ investor complaints to the Sponsor Bank(s) and the issuer bank. The Sponsor Bank(s) and the Bankers to the Issue shall provide the audit trail to the Book Running Lead Manager for analysing the same and fixing liability.

The Sponsor Bank(s) will undertake a reconciliation of Bid responses received from Stock Exchanges and sent to NPCI and will also ensure that all the responses received from NPCI are sent to the Stock Exchange platform with detailed error code and description, if any. Further, the Sponsor Bank(s) will undertake reconciliation of all Bid requests and responses throughout their lifecycle on daily basis and share reports with the Book Running Lead Manager in the format and within the timelines as specified under the SEBI UPI Circulars. Sponsor Bank(s) and issuer banks shall download UPI settlement files and raw data files from the NPCI portal after every settlement cycle and do a three-way reconciliation with Banks UPI switch data, CBS data and UPI raw data. NPCI is to coordinate with issuer banks and Sponsor Bank(s) on a continuous basis.

For ensuring timely information to investors, SCSBs shall send SMS alerts for mandate block and unblock including details specified in SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021, as amended pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 and the SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022. For all pending UPI Mandate requests, the Sponsor Bank(s) shall initiate requests for blocking of funds in the ASBA Accounts of relevant Bidders with a confirmation cut-off time of 5:00 pm IST on the Bid/Issue Closing Date (“**Cut-Off Time**”). Accordingly, UPI Bidders should accept UPI Mandate requests for blocking off funds prior to the cut-off time and all pending UPI Mandate requests at the cut-off time shall lapse. Further, modification/cancellation of Bids (if any) shall be allowed in parallel during the Bid/Issue period until the cut-off time.

The Sponsor Bank(s) shall host a web portal for intermediaries (closed user group) from the date of Bid/ Issue opening date until the date of listing of the Equity Shares with details of statistics of mandate blocks/unblocks, performance of apps and UPI handles, down-time/network latency (if any) across intermediaries and any such processes having an impact/bearing on the offer bidding process.

The processing fees for applications made by the UPI Bidders using the UPI mechanism may be released to the SCSBs only after such SCSBs provide a written confirmation in compliance with the SEBI RTA master circular, in a format prescribed by SEBI or applicable law.

The Bid cum application form shall contain information about the Bidder and the price and the number of Equity Shares that the Bidders wish to apply for. Bid cum Application Forms downloaded and printed from the websites of the Stock Exchange shall bear a system generated unique application number. Bidders are required to ensure that the ASBA account has sufficient credit balance as an amount equivalent to the full application amount can be blocked by the SCSB or sponsor bank at the time of submitting the application.

It is clarified that Bids not uploaded in the book, would be rejected. In case of discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical Bid form, for a particular bidder, the details as per physical bid cum application form of that Bidder may be taken as the final data for the purpose of allotment. Bids will be accepted only on working days, i.e., Monday to Friday (excluding any public holiday).

BIDS BY FPIs and FIIs

In terms of applicable FEMA Rules and the SEBI FPI Regulations, investments by FPIs in the Equity Shares is subject to certain limits, i.e., the individual holding of an FPI (including its investor group (which means multiple entities registered as foreign portfolio investors and directly or indirectly, having common ownership of more than 50% or common control) shall be below 10% of our post- issue Equity Share capital on a fully diluted basis. In case the total holding of an FPI or investor group increases beyond 10% of the total paid-up Equity Share capital of our Company, on a fully diluted basis, the

total investment made by the FPI or investor group will be re-classified as FDI subject to the conditions as specified by SEBI and the RBI in this regard and our Company and the investor will be required to comply with applicable reporting requirements. Further, the total holdings of all FPIs put together, with effect from April 1, 2020, can be up to the sectoral cap applicable to the sector in which our Company operates (i.e., up to 100%). In terms of the FEMA Rules, for calculating the aggregate holding of FPIs in a company, holding of all registered FPIs shall be included.

In case of Bids made by FPIs, a certified copy of the certificate of registration issued under the SEBI FPI Regulations is required to be attached to the Bid cum Application Form, failing which our Company reserves the right to reject any Bid without assigning any reason. FPIs who wish to participate in the issue are advised to use the Bid cum Application Form for Non-Residents (Blue in colour).

To ensure compliance with the above requirement, SEBI, pursuant to its circular dated July 13, 2018, has directed that at the time of finalisation of the Basis of Allotment, the Registrar shall (i) use the PAN issued by the Income Tax Department of India for checking compliance for a single FPI; and (ii) obtain validation from Depositories for the FPIs who have invested in the issue to ensure there is no breach of the investment limit, within the timelines for issue procedure, as prescribed by SEBI from time to time.

Subject to compliance with all applicable Indian laws, rules, regulations, guidelines and approvals in terms of Regulation 21 of the SEBI FPI Regulations, an FPI is permitted to issue, subscribe to, or otherwise deal in offshore derivative instruments, directly or indirectly, only if it complies with the following conditions:

- i. such offshore derivative instruments are issued only by persons registered as Category I FPIs;
- ii. such offshore derivative instruments are issued only to persons eligible for registration as Category I FPIs;
- iii. such offshore derivative instruments are issued after compliance with 'know your client' norms;
- iv. such other conditions as may be specified by SEBI from time to time.

An FPI issuing offshore derivative instruments is also required to ensure that any transfer of offshore derivative instruments issued by or on its behalf, is carried out subject to inter alia the following conditions:

- a) such offshore derivative instruments are transferred only to persons in accordance with Regulation 22(1) of the SEBI FPI Regulations; and
- b) prior consent of the FPI is obtained for such transfer, except when the persons to whom the offshore derivative instruments are to be transferred to are pre-approved by the FPI

Bids by following FPIs, submitted with the same PAN but with different beneficiary account numbers, Client IDs and DP IDs shall not be treated as multiple Bids:

- a) FPIs which utilise the multi-investment manager structure;
- b) Offshore derivative instruments which have obtained separate FPI registration for ODI and proprietary derivative investments;
- c) Sub funds or separate class of investors with segregated portfolio who obtain separate FPI registration;
- d) FPI registrations granted at investment strategy level / sub fund level where a collective investment scheme or fund has multiple investment strategies / sub-funds with identifiable differences and managed by a single investment manager.
- e) Multiple branches in different jurisdictions of foreign bank registered as FPIs;
- f) Government and Government related investors registered as Category 1 FPIs; and
- g) Entities registered as collective investment scheme having multiple share classes.

The Bids belonging to any of the above mentioned seven structures and having same PAN may be collated and identified as a single Bid in the Bidding process. The Equity Shares allotted in the Bid may be proportionately distributed to the applicant FPIs (with same PAN).

In order to ensure valid Bids, FPIs making multiple Bids using the same PAN, and with different beneficiary account numbers, Client IDs and DP IDs, are required to provide a confirmation along with each of their Bid cum Application Forms that the relevant FPIs making multiple Bids utilize any of the above-mentioned structures and indicate the name of their respective investment managers in such confirmation. In the absence of such compliance from the relevant FPIs with the operational guidelines for FPIs and designated Collecting Depository Participants issued to facilitate implementation of SEBI FPI Regulations, such multiple Bids shall be rejected.

Participation of FPIs in the Issue shall be subject to the FEMA Rules.

There is no reservation for Eligible NRI Bidders, AIFs and FPIs. All Bidders will be treated on the same basis with other categories for the purpose of allocation.

BIDS UNDER POWER OF ATTORNEY

In case of Bids made pursuant to a power of attorney or by limited companies, corporate bodies, registered societies, eligible FPIs, AIFs, Mutual Funds, insurance companies, insurance funds set up by the army, navy or air force of India, insurance funds set up by the Department of Posts, India or the National Investment Fund and provident funds with a minimum corpus of ₹2,500.00 lakhs and pension funds with a minimum corpus of ₹2,500.00 lakhs (in each case, subject to applicable law and in accordance with their respective constitutional documents), a certified copy of the power of attorney or the relevant resolution or authority, as the case may be, along with a certified copy of the memorandum of association and articles of association and/or bye laws, as applicable must be lodged along with the Bid cum Application Form. Failing this, our Company reserve the right to accept or reject any Bid in whole or in part, in either case, without assigning any reasons thereof.

Our Company in consultation with the Book Running Lead Manager in their absolute discretion, reserve the right to relax the above condition of simultaneous lodging of the power of attorney along with the Bid cum Application Form.

BIDS BY SEBI REGISTERED VCFs, AIFs AND FVCIs

The SEBI FVCI Regulations, inter alia, prescribe the investment restrictions on VCFs and FVCIs registered with SEBI. Further, the SEBI AIF Regulations prescribe, amongst others, the investment restrictions on AIFs. Accordingly, the holding in any company by any individual VCF or FVCI registered with SEBI should not exceed 25% of the corpus of the VCF or FVCI. Further, subject to FEMA Rules, VCFs and FVCIs can invest only up to 33.33% of their investible funds in various prescribed instruments, including in public offerings.

Category I AIFs and Category II AIFs cannot invest more than 25% of the investible funds in one investee company. A category III AIF cannot invest more than 10% of the investible funds in one investee company. A VCF registered as a Category I AIF, as defined in the SEBI AIF Regulations, cannot invest more than one-third of its investible funds by way of subscription to an initial public offering of a venture capital undertaking. Pursuant to the repeal of the SEBI VCF Regulations, the VCFs which have not re-registered as an AIF under the SEBI AIF Regulations shall continue to be regulated by the SEBI VCF Regulations until the existing fund or scheme managed by the fund is wound up and such fund shall not launch any new scheme after the notification of the SEBI AIF Regulations. Our Company, the Book Running Lead Manager will not be responsible for loss, if any, incurred by the Bidder on account of conversion of foreign currency. Participation of VCFs, AIFs or FVCIs in the issue shall be subject to the FEMA Rules.

All non-resident investors should note that refunds (in case of Anchor Investors), dividends and other distributions, if any, will be payable in Indian Rupees only and net of bank charges and commission.

BIDS BY LIMITED LIABILITY PARTNERSHIPS

In case of Bids made by limited liability partnerships registered under the Limited Liability Partnership Act, 2008, a certified copy of certificate of registration issued under the Limited Liability Partnership Act, 2008, must be attached to the Bid cum Application Form. Failing this, our Company in consultation with the Book Running Lead Manager, reserve the right to reject any Bid without assigning any reason thereof.

BIDS BY BANKING COMPANIES

In case of Bids made by banking companies registered with the RBI, certified copies of (i) the certificate of registration issued by the RBI, and (ii) the approval of such banking company's investment committee are required to be attached to

the Bid cum Application Form. Failing this, our Company in consultation with the Book Running Lead Manager, reserve the right to reject any Bid without assigning any reason thereof, subject to applicable law.

The investment limit for banking companies in non-financial services companies as per the Banking Regulation Act, 1949, as amended, (the “Banking Regulation Act”), and the Master Directions - Reserve Bank of India (Financial Services provided by Banks) Directions, 2016, as amended, is 10% of the paid-up share capital of the investee company, not being its subsidiary engaged in non-financial services, or 10% of the bank’s own paid-up share capital and reserves, whichever is lower. Further, the aggregate investment by a banking company in subsidiaries and other entities engaged in financial services company cannot exceed 20% of the investee company’s paid-up share capital and reserves. However, a banking company would be permitted to invest in excess of 10% but not exceeding 30% of the paid-up share capital of such investee company if (i) the investee company is engaged in non-financial activities permitted for banks in terms of Section 6(1) of the Banking Regulation Act, or (ii) the additional acquisition is through restructuring of debt/corporate debt restructuring/strategic debt restructuring, or to protect the bank’s interest on loans/investments made to a company. The bank is required to submit a time-bound action plan for disposal of such shares within a specified period to the RBI. A banking company would require a prior approval of the RBI to make (i) investment in excess of 30% of the paid-up share capital of the investee company, (ii) investment in a subsidiary and a financial services company that is not a subsidiary (with certain exceptions prescribed), and (iii) investment in a non-financial services company in excess of 10% of such investee company’s paid-up share capital as stated in 5(a)(v)(c)(i) of the Reserve Bank of India (Financial Services provided by Banks) Directions, 2016, as amended.

BIDS BY SCSBs

SCSBs participating in the Issue are required to comply with the terms of the circulars bearing numbers CIR/CFD/DIL/12/2012 and CIR/CFD/DIL/1/2013 dated September 13, 2012 and January 2, 2013, respectively, issued by SEBI. Such SCSBs are required to ensure that for making applications on their own account using ASBA, they should have a separate account in their own name with any other SEBI registered SCSBs. Further, such account shall be used solely for the purpose of making application in public issues and clear demarcated funds should be available in such account for such applications.

Information for Bidders

The relevant Designated Intermediary will enter a maximum of three Bids at different price levels opted in the Bid cum Application Form and such options are not considered as multiple Bids. It is the Bidder's responsibility to obtain the acknowledgment slip from the relevant Designated Intermediary. The registration of the Bid by the Designated Intermediary does not guarantee that the Equity Shares shall be allocated/allotted. Such Acknowledgement Slip will be non-negotiable and by itself will not create any obligation of any kind. When a Bidder revises his or her Bid, he /she shall surrender the earlier acknowledgement slip and may request for a revised acknowledgment slip from the relevant Designated Intermediary as proof of his or her having revised the previous Bid.

In relation to electronic registration of Bids, the permission given by the Stock Exchange to use their network and software of the electronic bidding system should not in any way be deemed or construed to mean that the compliance with various statutory and other requirements by our Company and/or the Book Running Lead Manager are cleared or approved by the Stock Exchange; nor does it in any manner warrant, certify or endorse the correctness or completeness of compliance with the statutory and other requirements, nor does it take any responsibility for the financial or other soundness of our Company, the management or any scheme or project of our Company; nor does it in any manner warrant, certify or endorse the correctness or completeness of any of the contents of this Draft Red Herring Prospectus or the Red Herring Prospectus; nor does it warrant that the Equity Shares will be listed or will continue to be listed on the Stock Exchange.

The Issue shall be opened after at least three working days from the date of filing of the Red Herring Prospectus with the RoC.

METHOD AND PROCESS OF BIDS

The Designated Intermediaries shall accept bids from the Applicants during the Issue Period.

The Issue Period shall be for a minimum of three working days and shall not exceed 10 working days. The Issue Period may be extended, if required, by an additional three working days, subject to the total Issue Period not exceeding 10 working days.

During the Issue Period, bidders who are interested in subscribing to the Equity Shares should approach the Designated Intermediaries to register their applications.

The bidder cannot apply on another application form after applications on one Application Form have been submitted to the Designated Intermediaries. Submission of a second Application form to either the same or to another Designated Intermediaries will be treated as multiple applications and is liable to be rejected either before entering the application into the electronic collecting system or at any point prior to the allocation or Allotment of Equity Shares in this Issue.

Designated Intermediaries accepting the application forms shall be responsible for uploading the application along with other relevant details in application forms on the electronic bidding system of stock exchange and submitting the form to SCSBs for blocking of funds (except in case of SCSBs, where blocking of funds will be done by respective SCSBs only). All applications shall be stamped and thereby acknowledged by the Designated Intermediaries at the time of receipt.

The Designated Intermediaries will enter each application option into the electronic collecting system as a separate application and generate a TRS and give the same to the applicant.

Upon receipt of the application Form, submitted whether in physical or electronic mode, the Designated Intermediaries shall verify if sufficient funds equal to the application amount are available in the ASBA Account, as mentioned in the application form, prior to uploading such applications with the Stock Exchange.

If sufficient funds are not available in the ASBA Account, the Designated Intermediaries shall reject such applications and shall not upload such applications with the Stock Exchange.

If sufficient funds are available in the ASBA Account, the SCSB shall block an amount equivalent to the application amount mentioned in the Application Form and will enter each application option into the electronic collecting system as a separate application and generate a TRS for each price and demand option. The TRS shall be furnished to the Applicant on request.

The application amount shall remain blocked in the aforesaid ASBA Account until finalization of the basis of allotment and consequent transfer of the application amount against the allotted equity shares to the Public Issue Account, or until withdraw/ failure of the Issue or until withdrawal/ rejection of the application form, as the case may be. Once the basis of allotment is finalized, the Registrar to the Issue shall send an appropriate request to the Controlling Branch of the SCSB for unblocking the relevant ASBA Accounts and for transferring the amount allocable to the successful Applicants to the Public Issue Account. In case of withdrawal/ failure of the Issue, the blocked amount shall be unblocked on receipt of such information from the Registrar to the Issue.

BIDS AT DIFFERENT LEVELS AND REVISION OF BIDS

1. Our Company in consultation with the BRLM, and without the prior approval of, or intimation, to the Bidders, reserves the right to revise the Price Band during the Bid/ Issue Period, provided that the Cap Price shall be less than or equal to 120% of the Floor Price and the Floor Price shall not be less than the face value of the Equity Shares. The revision in Price Band shall not exceed 20% on the either side i.e. the floor price can move up or down to the extent of 20% of the floor price disclosed. If the revised price band decided, falls within two different price bands than the minimum application lot size shall be decided based on the price band in which the higher price falls into.

2. Our Company in consultation with the BRLM, will finalize the Issue Price within the Price Band, without the prior approval of, or intimation, to the Bidders.
3. Placing bids at the Cut-off Price shall not be applicable/ available to any of the category of bidding.
4. The price of the specified securities offered to an anchor investor shall not be lower than the price offered to other applicants.

ALLOTMENT PROCEDURE AND BASIS OF ALLOTMENT

The Allotment of Equity Shares to Bidders other than Individual Investors and Anchor Investors may be on proportionate basis. For basis of allotment to Anchor Investors, Bidders may refer to Draft Red Herring Prospectus. No Individual Investor will be Allotted less than the minimum Bid Lot subject to availability of shares in Individual Investor Category and the remaining available shares, if any will be Allotted on a proportionate basis.

Flow of Events from the closure of bidding period (T DAY) Till Allotment:

- On T Day, RTA to validate the electronic bid details with the depository records and also reconcile the final certificates received from the Sponsor Bank for UPI process and the SCSBs for ASBA and Syndicate ASBA process with the electronic bid details.
- RTA identifies cases with mismatch of account number as per bid file / final certificate and as per applicant's bank account linked to depository demat account and seek clarification from SCSB to identify the applications with third party account for rejection.
- Third party confirmation of applications to be completed by SCSBs on T+1 day.
- RTA prepares the list of final rejections and circulate the rejections list with BRLM(s)/ Company for their review/ comments.
- Post rejection, the RTA submits the basis of allotment with the Designated Stock Exchange (DSE).
- The Designated Stock Exchange (DSE), post verification approves the basis and generates drawl of lots wherever applicable, through a random number generation software.
- The RTA uploads the drawl numbers in their system and generates the final list of allottees as per process mentioned below:

Process for generating list of allottees: -

- Instruction is given by RTA in their Software System to reverse category wise all the application numbers in the ascending order and generate the bucket /batch as per the allotment ratio. For example, if the application number is 78654321 then system reverses it to 12345687 and if the ratio of allottees to applicants in a category is 2:7 then the system will create lots of 7. If the drawl of lots provided by Designated Stock Exchange (DSE) is 3 and 5 then the system will pick every 3rd and 5th application in each of the lot of the category and these applications will be allotted the shares in that category.
- In categories where there is proportionate allotment, the Registrar will prepare the proportionate working based on the oversubscription times.
- In categories where there is undersubscription, the Registrar will do full allotment for all valid applications.
- On the basis of the above, the RTA will work out the allottees, partial allottees and non- allottees, prepare the fund transfer letters and advice the SCSBs to debit or unblock the respective accounts.

Names of entities responsible for finalising the basis of allotment in a fair and proper manner

The authorised employees of the Stock Exchange, along with the Book Running Lead Manager and the Registrar, shall ensure that the basis of allotment is finalised in a fair and proper manner in accordance with the procedure specified in

Method of allotment as may be prescribed by SEBI from time to time

Our Company will not make any allotment in excess of the Equity Shares Issue through the Prospectus except in case of oversubscription for the purpose of rounding off to make allotment, in consultation with the Designated Stock Exchange. Further, upon oversubscription, an allotment of not more than 1% of the Issue to public may be made for the purpose of making allotment in minimum lots. The allotment of Equity Shares to Applicants other than to the Individual Investors, Non-Institutional Investors shall be on a proportionate basis within the respective investor categories and the number of securities allotted shall be rounded off to the nearest integer, subject to minimum allotment being equal to the minimum application size as determined and disclosed. The allotment of Equity Shares to each Individual Investors shall not be

less than the minimum lot, subject to the availability of shares in Individual Investors Portion, and the remaining available shares, if any, shall be allotted on a proportionate basis. The allotment to each Non-Institutional Investors shall not be less than the Minimum NII Application Size, subject to the availability of Equity Shares in the Non-Institutional Portion, and the remaining Equity Shares, if any, shall be allotted on a proportionate basis. SEBI ICDR Regulations.

PAYMENT INTO ANCHOR INVESTOR ESCROW ACCOUNTS

Our Company in consultation with the Book Running Lead Manager will decide the list of Anchor Investors to whom the CAN will be sent, pursuant to which, the details of the Equity Shares allocated to them in their respective names will be notified to such Anchor Investors. For Anchor Investors, the payment instruments for payment into the Anchor Investor Escrow Account should be drawn in favor of:

- a. In case of resident Anchor Investors: “[●]”
- b. In case of Non-Resident Anchor Investors: “[●]”

Anchor Investors should note that the escrow mechanism is not prescribed by SEBI and has been established as an arrangement between our Company, the Syndicate, the Escrow Collection Bank and the Registrar to the Issue to facilitate collections of Bid amounts from Anchor Investors.

ISSUANCE OF CONFIRMATION ON ALLOCATION NOTE AND ALLOTMENT IN THE ISSUE

Upon approval of the basis of allotment by the Designated Stock Exchange, the Book Running Lead Manager or Registrar to the Issue shall send to the SCSBs a list of their Bidders who have been allocated Equity Shares in the Issue.

The Registrar will then dispatch a CAN to their Bidders who have been allocated Equity Shares in the Issue. The dispatch of a CAN shall be deemed a valid, binding and irrevocable contract for the Bidder.

On the basis of approved basis of allotment, the Issuer shall pass necessary corporate action to facilitate the allotment and credit of equity shares. Applicants are advised to instruct their Depository Participants to accept the Equity Shares that may be allotted to them pursuant to the Issue. The BRLM or the Registrar to the Issue will dispatch an allotment advice to their Applicants who have been allocated Equity Shares in the Issue. The dispatch of allotment advice shall be deemed a valid, binding and irrevocable contract for the allotment to such Bidder.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and FEMA. While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The RBI and the concerned ministries/departments are responsible for granting approval for foreign investment. The Government has from time to time made policy pronouncements on foreign direct investment (“**FDI**”) through press notes and press releases. The DPIIT, issued the Consolidated FDI Policy Circular of 2020 (“**FDI Policy**”), which, with effect from October 15, 2020, subsumes and supersedes all press notes, press releases, clarifications, circulars issued by the DPIIT, which were in force as on October 15, 2020. The FDI Policy will be valid until the DPIIT issues an updated circular.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the RBI, provided that: (i) the activities of the investee Company are under the automatic route under the foreign direct investment policy and transfer does not attract the provisions of the SEBI Takeover Regulations; (ii) the non- resident shareholding is within the sectoral limits under the FDI policy; and (iii) the pricing is in accordance with the guidelines prescribed by the SEBI/RBI.

On October 17, 2019, Ministry of Finance, Department of Economic Affairs, had notified the FEMA Rules, which had replaced the Foreign Exchange Management (Transfer and Issue of Security by a Person Resident outside India) Regulations 2017. Foreign investment in this Issue shall be on the basis of the FEMA Rules. Further, in accordance with Press Note No. 3 (2020 Series), dated April 17, 2020 issued by the DPIIT and the Foreign Exchange Management (Non-debt Instruments) Amendment Rules, 2020 which came into effect from April 22, 2020, any investment, subscription, purchase or sale of equity instruments by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country, will require prior approval of the Government, as prescribed in the Consolidated FDI Policy and the FEMA Rules. Further, in the event of transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction/ purview, such subsequent change in the beneficial ownership will also require approval of the Government. Pursuant to the Foreign Exchange Management (Non-debt Instruments) (Fourth Amendment) Rules, 2020 issued on December 8, 2020, a multilateral bank or fund, of which India is a member, shall not be treated as an entity of a particular country nor shall any country be treated as the beneficial owner of the investments of such bank of fund in India.

As per the FDI policy, FDI in companies engaged in the sector in which our Company operates, is permitted up to 100% of the paid-up share capital of such Company under the automatic route.

As per the existing policy of the Government of India, OCBs cannot participate in this Issue. For further details, see “*Issue Procedure*” on page 363 of this Draft Red Herring Prospectus. Each Investor should seek independent legal advice about its ability to participate in the Issue. In the event such prior approval of the Government of India is required, and such approval has been obtained, the Investor shall intimate our Company and the Registrar in writing about such approval along with a copy thereof within the Issue/ Period.

The Equity Shares have not been and will not be registered under the U.S. Securities Act of 1933, as amended (the “U.S. Securities Act”), or the securities laws of any state of the United States and may not be offered or sold within the United States, except pursuant to exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable state securities laws. Accordingly, the Equity Shares are being offered and sold only outside the United States in offshore transactions in reliance on Regulation S under the U.S. Securities Act and the applicable laws of the jurisdiction where those offers and sale occur.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and Applications may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction. The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and Issue may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

The above information is given for the benefit of the Investors. Our Company and the BRLM are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Draft Red Herring Prospectus. Investors are advised to make their independent investigations, seek independent legal advice about its ability to participate in the Issue and ensure that the number of Equity Shares issue for do not exceed the applicable limits.

CALLS		

53.	<p>(a) The Board may, from time to time, subject to the terms on which any shares may have been issued and subject to the conditions of allotment, by a resolution passed at a meeting of the Board and not by a circular resolution, make such calls as it thinks fit, upon the Members in respect of all the money unpaid on the shares held by them respectively and each Member shall pay the amount of every call so made on him to the persons and at the time and places appointed by the Board.</p> <p>(b) A call may be made payable in instalments.</p> <p>(c) The option or right to call of shares shall not be given to any person except with the sanction of the Issuer in general meetings.</p>	Directors may make calls
54.	A call may be revoked or postponed at the discretion of the Board.	Call may be revoked or postponed
55.	Fifteen days' or such other period as the Board may determine, in accordance with the applicable laws, notice in writing of any call shall be given by the Company specifying the time and place of payment, and the person or persons to whom such call shall be paid.	Notice of Calls
56.	A call shall be deemed to have been made at the time when the resolution of the Board of Directors authorizing such call was passed and may be made payable by the members whose names appear on the Register of Members on such date or at the discretion of the Directors on such subsequent date as may be fixed by Directors.	Calls to date from resolution.
57.	Whenever any calls for further share capital are made on shares, such calls shall be made on a uniform basis on all shares falling under the same class. For the purposes of this Article shares of the same nominal value of which different amounts have been paid up shall not be deemed to fall under the same class.	Calls on a uniform basis.
58.	The joint-holders of a share shall be jointly and severally liable to pay all calls in respect thereof.	Liability of Joint-holders
59.	The Board may, from time to time, at its discretion, extend the time fixed for the payment of any call and may extend such time as to all or any of the members who on account of the residence at a distance or other cause, which the Board may deem fairly entitled to such extension, but no member shall be entitled to such extension save as a matter of grace and favour.	Directors may extend the time.
60.	If any Member fails to pay any call due from him on the day appointed for payment thereof, or any such extension thereof as aforesaid, he shall be liable to pay interest on the same from the day appointed for the payment thereof to the time of actual payment at such rate as shall from time to time be fixed by the Board at ten per cent per annum or other rate as the Board determine, but nothing in this Article shall render it obligatory for the Board to demand or recover any interest from any such member.	Calls to carry interest.
61.	<p>(a) If by the terms of issue of any share or otherwise any amount is made payable at any fixed time (whether on account of the nominal value of the share or by way of premium) every such amount or instalment shall be payable as if it were a call duly made by the Directors and of which due notice has been given and all the provisions herein contained in respect of calls shall apply to such amount or instalment accordingly.</p> <p>(b) In case of non-payment of such sum, all the relevant provisions of these Articles as to payment of interest and expenses, forfeiture or otherwise, shall apply mutatis mutandis as if such sum had become payable by virtue of a call duly made and notified.</p>	Sums deemed to be called.
62.	On the trial or hearing of any action or suit brought by the Company against any Member or his representatives for the recovery of any money claimed to be due to the Company in respect of his shares, it shall be sufficient to prove that the name of the Member in respect of whose shares the money is sought to be recovered, was on the Register of Members as the holder, on or subsequent to the date at which the money sought to be recovered is alleged to have become due, of the shares in respect of which such money is sought to be recovered; that such money is due pursuant to the terms on which the share was issued; that the resolution making the call was duly recorded in the minute book; and that notice of such call was duly given to the Member or his representatives sued in pursuance of these Articles; and it shall not be necessary to prove the appointment of the Directors who made such call, nor that a quorum of Directors was present at the Board meeting at which any call was made nor that the meeting at which any call was made was duly convened or constituted nor any other matters whatsoever, but the proof of the matters aforesaid shall be conclusive evidence of the debt.	Proof on a trial of suit for money due on shares.

63.	Neither a judgment nor a decree in favour of the Company for calls or other money due in respect of any shares nor any part payment or satisfaction thereunder nor the receipt by the Company of a portion of any money which shall from time to time be due from any Member of the Company in respect of his shares, either by way of principal or interest or any indulgence granted by the Company in respect of the payment of any such money, shall preclude the Company from thereafter proceeding to enforce forfeiture of such shares as hereinafter provided.	Judgment, decree, partial payment suo motto proceed for forfeiture.
64.	<p>(a) The Board may, if it thinks fit, receive from any Member willing to advance the same, all or any part of the amounts of his respective shares beyond the sums, actually called up and upon the money so paid in advance, or upon so much thereof, from time to time, and at any time thereafter as exceeds the amount of the calls then made upon and due in respect of the shares on account of which such advances are made the Board may pay or allow interest, at such rate as the member paying the sum in advance and the Board agree upon. The Board may agree to repay at any time any amount so advanced or may at any time repay the same upon giving to the Member three months' or such other period as the Board may determine, notice in writing: provided that money paid in advance of calls on shares may carry interest but shall not confer a right to dividend or to participate in profits.</p> <p>(b) No Member paying any such sum in advance shall be entitled to voting rights in respect of the money so paid by him until the same would but for such payment become presently payable. The provisions of this Article shall mutatis mutandis apply to calls on debentures issued by the Company.</p>	calls received in Advance may carry interest
	LIEN	
65.	<p>(a) The Company shall have a first and paramount lien upon all the shares/debentures (other than fully paid-up shares/debentures) registered in the name of each member (whether solely or jointly with others) and upon the proceeds of sale thereof for all money (whether presently payable or not) called or payable at a fixed time in respect of such shares/debentures and no equitable interest in any share shall be created except upon the footing and condition that this Article will have full effect. Such lien shall extend to all dividends, onuses or interest from time to time declared in respect of such shares/ debentures. Unless otherwise agreed the registration of a transfer of shares/debentures shall operate as a waiver of the Company's lien if any, on such shares/debentures.</p> <p>(b) The Directors may at any time declare any shares/debentures wholly or in part to be exempt from the provisions of this clause.</p>	Company to have Lien on shares / debentures.
66.	<p>(a) For the purpose of enforcing such lien the Board may sell the shares subject thereto in such manner as they think fit but no sale shall be made unless a sum in respect of which the lien exists is presently payable and until notice in writing of the intention to sell shall have been served on such Member, his executors or administrators or his committee or other legal representatives as the case may be and default shall have been made by him or them in the payment of the sum payable as aforesaid for seven days or such other period as the Board may determine, after the date of such notice.</p> <p>(b) To give effect to any such sale the Board may authorize some person to transfer the shares sold to the purchaser thereof and the purchaser shall be registered as the holder of the shares comprised in any such transfer.</p> <p>(c) Upon any such sale as the Certificates in respect of the shares sold shall stand cancelled and become null and void and of no effect, and the Directors shall be entitled to issue a new Certificate or Certificates in lieu thereof to the purchaser or purchasers concerned.</p>	As to enforcing lien by sale.
67.	The net proceeds of any such sale shall be received by the Company and applied in or towards payment of such part of the amount in respect of which the lien exists as is presently payable and the residue, if any, shall (subject to lien for sums not presently payable as existed upon the shares before the sale) be paid to the person entitled to the shares at the date of the sale.	Application of proceeds of sale.

	the day appointed for the payment of the same or any such extension thereof, the Directors may, at any time thereafter, during such time as the call or instalment or any part thereof or other money as aforesaid remains unpaid or a judgment or decree in respect thereof remains unsatisfied in whole or in part, serve a notice on such Member or on the person (if any) entitled to the shares by transmission, requiring him to pay such call or instalment of such part thereof or other money as remain unpaid together with any interest that may have accrued and all reasonable expenses (legal or otherwise) that may have been accrued by the Company by reason of such non-payment.	paid, notice may be given.
69.	<p>(a) The notice shall name a day (not being less than fourteen days or such other period as per the applicable laws from the date of notice) and a place or places on and at which such call or instalment and such interest thereon as the Directors shall determine from the day on which such call or instalment ought to have been paid and expenses as aforesaid are to be paid.</p> <p>(b) The notice shall also state that, in the event of the non-payment at or before the time and at the place or places appointed, the shares in respect of which the call was made or instalment is payable will be liable to be forfeited.</p>	Terms of notice.
70.	If the requirements of any such notice as aforesaid shall not be complied with, every or any share in respect of which such notice has been given, may at any time thereafter but before payment of all calls or installments, interest and expenses, due in respect thereof, be forfeited by resolution of the Board to that effect. Such forfeiture shall include all dividends declared or any other money payable in respect of the forfeited share and not actually paid before the forfeiture.	On default of payment, shares are to be forfeited.
71.	When any shares have been forfeited, notice of the forfeiture shall be given to the member in whose name it stood immediately prior to the forfeiture, and an entry of the forfeiture, with the date thereof shall forthwith be made in the Register of Members but no forfeiture shall be in any manner invalidated by any omission or neglect to give such notice or to make any such entry as aforesaid. Provided that the option or right to call of forfeited shares shall not be given to any person.	Notice of forfeiture to a Member
72.	Any shares so forfeited shall be deemed to be the property of the Company and may be sold, re-allotted, or otherwise disposed of, either to the original holder thereof or to any other person, upon such terms and in such manner as the Board in their absolute discretion shall think fit.	Forfeited shares to be the property of the Company and may be sold etc.
73.	Any Member whose shares have been forfeited shall notwithstanding the forfeiture, be liable to pay and shall forthwith pay to the Company, on demand all calls, instalments, interest and expenses owing upon or in respect of such shares at the time of the forfeiture, together with interest thereon from the time of the forfeiture until payment, at such rate not exceeding two per cent per annum more than the bank lending rate as the Board may determine and the Board may enforce the payment of the whole or a portion thereof as if it were a new call made at the date of the forfeiture, but shall not be under any obligation to do so.	Members still liable to pay money owing at time of forfeiture and interest.
74.	The forfeiture shares shall involve extinction at the time of the forfeiture, of all interest in all claims and demands against the Company, in respect of the share and all other rights incidental to the share, except only such of those rights as by these Articles are expressly saved.	Effect of forfeiture.
75.	A declaration in writing that the declarant is a Director or Secretary of the Company and that shares in the Company have been duly forfeited in accordance with these Articles on a date stated in the declaration, shall be conclusive evidence of the facts therein stated as against all persons claiming to be entitled to the shares.	Evidence of Forfeiture.
76.	The Company may receive the consideration, if any, given for the share on any sale, re-allotment or other disposition thereof and the person to whom such share is sold, re-allotted or disposed of may be registered as the holder of the share and he shall not be bound to see to the application of the consideration: if any, nor shall his title to the share be affected by any irregularly or invalidity in the proceedings in reference to the forfeiture, sale, re-allotment or other disposal of the shares.	Title of purchaser and allottee of Forfeited shares.

77.	Upon any sale, re-allotment or other disposal under the provisions of the preceding Article, the certificate or certificates originally issued in respect of the relative shares shall (unless the same shall on demand by the Company have been previously surrendered to it by the defaulting member) stand cancelled and become null and void and of no effect, and the Directors shall be entitled to issue a new certificate or certificates in respect of the said shares to the person or persons entitled thereto.	Directors may issue new certificates
78.	In the meantime, and until any share so forfeited shall be sold, re-allotted or otherwise dealt with as aforesaid, the forfeiture thereof may at the discretion and by a resolution of the Board, be remitted or annulled as a matter of grace and favour but not as of right, upon such terms and conditions as they think fit.	Forfeiture may be remitted or annulled
79.	Upon any sale after forfeiture or for enforcing a lien in purported exercise of the powers hereinbefore given, the Board may appoint some person to execute an instrument of transfer of the Shares sold and cause the purchaser's name to be entered in the Register of Members in respect of the Shares sold, and the purchasers shall not be bound to see to the regularity of the proceedings or to the application of the purchase money, and after his name has been entered in the Register of Members in respect of such Shares, the validity of the sale shall not be impeached by any person and the remedy of any person aggrieved by the sale shall be in damages only and against the Company exclusively.	Validity of sale after forfeiture or enforcement of lien
80.	The Directors may, subject to the provisions of the Act, accept a surrender of any share from or by any Member desirous of surrendering on such terms the Directors may think fit.	Surrender of shares.
TRANSFER AND TRANSMISSION OF SHARES		
81.	The instrument of transfer shall be in the form prescribed under section 56 of the Act and rules made thereunder.	Transfer and Transmission of Shares and Securities held in electronic form
82.	Every holder of securities of the Company who intends to transfer such securities shall get such securities dematerialised before the transfer; Provided that, except in case of transmission or transposition of securities, requests for effecting transfer of securities shall not be processed by the Company unless the securities are held in the dematerialized form with a depository.
