To obtain a more complete understanding, you should read this section together with sections and chapters titled, “**Our Business**”, “**The Offer**”, “**Industry Overview**”, “**Restated Financial Statement**”, “**Outstanding Litigation and Material Development**”, and “**Management’s Discussion and Analysis of Financial Condition and Results of Operations**” beginning on page numbers 118, 52, 101, 176, 221 and 207 respectively, as well as the other financial and statistical information contained in this Draft Red Herring Prospectus.

Any of the following risks, as well as the other risks and uncertainties discussed in this Draft Red Herring Prospectus, could have an adverse effect on our business, financial condition, results of operations and prospects and could cause the trading price of our Equity Shares to decline, which could result in the loss of all or a part of your investment. The risks and uncertainties described in this section are not the only risks that we may face. Additional risks and uncertainties not known to us or that we currently believe to be immaterial may also have an adverse effect on our business, results of operations, financial conditions, Red Herring Prospectus and Prospects.

This Draft Red Herring Prospectus contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements because of certain factors, including the considerations described below and elsewhere in this Draft Red Herring Prospectus.

The financial and other related implications of risks concerned, wherever quantifiable, have been disclosed in the risk factors mentioned below. However, there are certain risk factors where the effect is not quantifiable and hence has not been disclosed in such risk factors. You should not invest in this Issuing unless you are prepared to accept the risk of losing all or part of your investment, and you should consult your tax, financial and legal advisors about the consequences to you of an investment in the Equity Shares.

The financial information in this section is, unless otherwise stated, derived from our Restated Standalone Financial Statements prepared in accordance with Indian GAAP, as per the requirements of the Companies Act, 2013, and SEBI (ICDR) Regulations.

The Risk factors have been determined on the basis of their materiality. The following factors have been considered for determining the materiality.

1. Some risks may not be material individually but may be material when considered collectively.
2. Some risks may have material impact qualitatively instead of quantitatively.
3. Some risks may not be material at present but may have a material impact in the future.

INTERNAL RISK FACTORS

1. **Our business is significantly dependent upon a few customers and the loss of, or a significant reduction in the award of contracts by such customers could adversely affect our business.**

We have established and will continue to focus on strengthening long-standing relationships with our customers across the end use industries that we cater to. However, we depend on certain customers who have contributed a substantial portion of our total revenue from operations. The details of contribution by our top 5 Customers to our revenue is given below:

(Amount in ‘000, except %)

Top 5 Customers	September 2024	FY 2024	FY 2023	FY 2022
Revenue from Operations	6,25,319.58	10,24,754.01	4,66,768.57	1,46,117.00
% of Revenue	100%	100%	100%	100%

There is no guarantee that we will retain the business of our existing key customers or maintain the current level of business with each of these customers, the loss of these customers or a loss of revenue from these customers may materially affect our business, financial condition, results of operations and cash flow. However, the composition and revenue generated from these clients might change as we continue to add new clients in the normal course of business. We intend to retain our clients by delivering the quality premium content. This helps us in providing better value to each client thereby increasing our engagement with our new and existing

customers that presents a substantial opportunity for growth. For further information, please refer to the chapter titled “*Our Business*” on page 118 of this Draft Red Herring Prospectus.

2. *Our financial condition and business prospects could be materially and adversely affected if we do not complete the project as planned or if they experience delays or cost overruns.*

There are substantial financial risks relating to the production and completion of episodes. The Indian Soap industry has traditionally been controlled by family run enterprises, with relatively low levels of corporatization. While the growth of corporate serial production companies has in recent times increased levels of accountability, the Soap industry continues to be relatively unorganized. Actual film costs may exceed their budgets and factors such as labour disputes, unavailability of a star performer, equipment shortages, disputes with production teams or adverse weather conditions may cause cost overruns and delay or hamper completion of a production.

We are responsible for all cost overruns on our own productions and as such this production method exposes us to the greatest execution risk. While we try to maintain efficiency for our projects and we intend to continue such practices, we cannot assure you that any cost overruns will be adequately addressed. In the event of substantial budget overruns, we may be required to seek additional financing from outside sources to complete a project, which may not be available on terms acceptable to us or at all. Any such delays in production, failure to complete projects and costs overruns could result in us not recovering our costs and could have a material adverse effect on our business, prospects, financial condition and results of operations, and harm our reputation.

The development of projects involves various risks, including, among others, regulatory risk, financing risk and the risk that these projects may ultimately prove to be unprofitable. Entering into such projects may also pose significant challenges to our management, administrative, financial and operational resources. Our projects under production may be delayed or terminated due to a number of factors including: surrounding factors to complete the project on time, within budget or to the standards specified to them; failure to obtain necessary government approvals in time or at all; occurrence of force majeure events; unanticipated cost increases or changes in scope of work granted under the respective concession; accidents or other incidents and contractual disputes with our actors; and inability to obtain adequate financing to complete project.

A delay on account of any of the factors enumerated above could increase the financing costs associated with the project and cause us to exceed the forecasted budget. We may also be unable to recover the amounts we have invested in the project if the projections contained in the detailed project study/ feasibility report for these projects do not materialize. Although there are no such instances in the past, we cannot assure that it will not happen in future.

3. *Our Business is dependent upon the taste and preferences of the audience. Any shift in consumer taste and preference will have a negative impact on our business.*

The entertainment industry is prone to unforeseen shifts in tastes and preferences of audiences, which can significantly impact our Company’s operations. Production of content/Serials to various Indian and Indian subcontinent TV Channels and digital platforms, demand for which depends substantially on consumer tastes or preferences that often change in unpredictable ways. This unpredictability makes it crucial for us to consistently produce entertainment that meets the dynamic and evolving tastes of the broad consumer market within Indian and Indian sub-continent. The popularity and economic success of our TV series, web series and other digital content depends on many factors including general public tastes, key talent involved, the promotion and marketing of the serials, the quality and acceptance of other competing programs released into, general economic conditions, and other tangible & intangible factors, all of which can change, are factors that we cannot predict with certainty and which may be beyond our control. If we are unable to produce the content that appeal to audiences or to accurately judge audience acceptance of content, the commercial success of such serials will be in doubt, which could result in costs exceeding revenues generated or anticipated profits not being realized, which could have a material adverse effect on our business, prospects, financial condition and results of operations.

4. *Our business is dependent on the contractual arrangements entered into by us. Many of our client contracts can be terminated with or without cause by providing notice and without termination-related penalties.*

We enter contracts with our clients which impose several contractual obligations upon us. If we are unable to meet these contractual obligations and / or our clients perceive any deficiency in our services, we may face legal liabilities and consequent damage to our reputation which may in-turn adversely impact our business, financial

condition and results of operations. There are also some contracts, which terminable by our clients in writing upon committing any breach or non-observance of any conditions of the Agreements entered into viz. fraud by our Company or any misconduct of our associate employees which could adversely affect the reputation of our clients. While, we consider all factors internally prior to entering into such contractual agreements, we cannot assure you that such clients may choose to terminate their agreements with our Company based on the terms stated above. Further, the non-compliance or breach of the terms of the contractual arrangements by either party to the agreements may lead to, among other things, damages, penalties or termination of the agreements, which may consequently result in our inability to attract further business in the future. We have faced following instances in the past related to termination of contracts for our shows:

Broadcasted on	Show Name	Contracted Episodes	Terminated After	Termination Year
Colors TV	Bahu Begam	260	134	2020
Sony TV	Beyhadh 2	260	86	2020
Zee TV	Teri Meri Ek Jindri	260	228	2021
Sony TV	Pukaar – Dil Se Dil Tak	260	90	2024

5. We depend on our relationships with production house, channels and serial directors and other industry participants to exploit our Serial content.

We generate projects through our relationship with production house, channels and serial directors and other industry participants. Our company's ability to generate projects largely depends on these relationships. If the company fails to nurture or sustain these connections, we could struggle to secure new projects or fail to capitalize on emerging opportunities. This could significantly hinder business growth, as our company may be unable to access necessary resources or collaborations for creating and distributing content.

Furthermore, inability to develop new relationships with industry players could stifle innovation, limit access to key partnerships, and restrict our ability to expand our project pipeline. Over time, this could have a substantial negative impact on our company's long-term financial health, prospects, and overall operational performance. In short, the company's business model is highly dependent on these relationships, and any disruption could have material consequences for our financial stability.

6. Some viewers or civil society organisations may find our serial content objectionable.

It is possible that some viewers in India or abroad may object to serial content produced by us based on religious, political, ideological or any other positions held by such viewers. This is particularly true of content that is graphic in nature, including violent or romantic scenes and serials that are politically oriented or targeted at a particular segment of the serial audience. Viewers or civil society organisations, including interest groups, political parties, religious or other organisations may assert legal claims, seek to ban the exhibition of our serials, protest against us or our serials or object in a variety of other ways.

Any of the foregoing could harm our reputation and could have a material adverse effect on our business, prospects, financial condition and results of operations. The film content that we produce and distribute could result in claims being asserted, prosecuted or threatened against us based on a variety of grounds, including defamation, hurting religious sentiments, invasion of privacy, negligence, obscenity or facilitating illegal activities, any of which could have a material adverse effect on our business, prospects, financial condition or results of operations.

7. Our Company relies on Distributors, Broadcasters, TV Channels for display of the shows. Any delay in payment from these distributors, TV Channels will significantly affect our revenues and profitability.

Our company is heavily dependent on the functioning and performance of TV operators, such as broadcasters, cable networks, and streaming platforms, for the successful display and distribution of the contents we produce. Any failure or disruption on the part of TV operators, including technical failures, scheduling issues, or a lack of willingness to air or promote our content, could significantly hinder our ability to reach our intended audience. If TV operators fail to display our serialized content as agreed, it may lead to reduced visibility, lower viewership, and ultimately, a decline in revenue from advertising, subscriptions, or syndication deals. Additionally, any failure by TV operators to fulfil contractual obligations could harm our company's reputation in the industry, damage relationships with stakeholders, and negatively impact future partnerships with TV

networks or platforms. Such disruptions could have a material adverse effect on our business operations, financial performance, and long-term growth prospects.

Although we enter into distribution agreements with the Broadcasters, and we expect timely payment and advances and for meeting our business requirements.

Delays in payment from these entities can have a significant impact on our revenues and profitability. In such cases, we may face difficulties in meeting our financial obligations and funding future productions. In case of termination of agreement, we would require another distributor or Broadcaster on short notice. We might not be able to enter into new distribution agreements on favourable terms or at all, and there can be no assurance that any new distribution arrangements would be sufficient to effectively exploit our content in markets. We strive to maintain positive relationships with our Broadcasters or distributors and have implemented financial and contractual safeguards to minimize the risk of delayed payments. However, there is no guarantee that such measures will always be effective.

- 8. *The success of our business is highly dependent on the skills, creativity, and availability of a few key individuals. Any loss of these individuals, or their unavailability, inability to attract and maintain qualified technical personnel, could have a significant negative impact on the business and its operations, potentially leading to increased costs, decreased revenue, and damage to the business's reputation.***

The success of our business is largely dependent on the talents and expertise of a few key individuals, such as scriptwriters, artists, actors and technicians. These individuals are the backbone of the creative process, and their unique skills and creativity are not readily replaceable. Thereby, the entire success of a project or production depends on the abilities and contributions of these few people. Additionally, their availability and timely delivery of services are also crucial for the smooth execution of a project. In the event that a scriptwriter, artist, or technician is not available when needed, this could cause significant delays and disruption to the production timeline, potentially leading to increased costs and decreased revenue. Further, loss of any of these key personnel due to any reason, such as disputes, illness, or other unforeseen circumstances, can have a significant negative impact on a project. The loss of a key scriptwriter, for example, could mean that the story development process comes to a halt, leading to a significant delay in production. This could impact the reputation of the business and its ability to attract and retain talent in the future. Furthermore, our inability to attract additional skilled artists, particularly script writers and other technical personnel could have a material adverse effect on our business, financial condition and results of operations.

As on the date of DRHP, we have 16 employees. We are dependent on significant number of our employees who are skilled and due to the limited pool of available skilled personnel, we face strong competition to recruit and retain skilled and professionally qualified staff. Our continued future success also depends upon our ability to recruit and retain a large group of experienced professionals and staff. The loss of the services of our senior management or our inability to recruit, train or retain a sufficient number of experienced personnel could have a material adverse effect on our operations and profitability. Our ability to retain experienced staff members as well as senior management will in part depend on our maintaining appropriate staff remuneration and incentive schemes in accordance with the prevailing private sector industry standards. We cannot assure you that the remuneration and incentive schemes we have in place will be sufficient to retain the services of our senior management and skilled employees.

For further details of our business, please refer to chapter titled “*Our Business*” beginning on Page 118 of this Draft Red Herring Prospectus.

- 9. *If we are unable to attract new clients or our existing clients do not renew their contract, the growth of our business and cash flows will be adversely affected.***

Our top five clients contributed approximately Rs 6,25,319.58 thousands, 10,24,754.01 thousands, Rs. 4,66,768.57 thousands and Rs 1,46,117.00 thousands upto the period ending September 30, 2024, March 31, 2024, March 31, 2023 and March 31, 2022 respectively, which is 100% of the revenue of our company. To increase our revenue and cash flows, we must regularly add new clients. If we are unable to generate sufficient sales leads through our marketing programs, or if our existing or new clients do not perceive our services to be of sufficiently high value and quality, we may not be able to increase sales and our operating results would be adversely affected.

In addition, our existing clients have no obligation to repeat contracts / award new projects to us due to various factors including clients' satisfaction with our services, acceptance of our creative work by the viewers, changing preference of viewers, our prices and the prices of competing service providers. If we fail to achieve repetitive projects from existing clients or to add new clients, our operating results will suffer, and our revenue growth, cash flows and profitability may be materially and adversely affected.

- 10. We operate in an industry which is highly sensitive with regard to maintenance of secrecy of the projects and its contents. Any failure on our part to maintain secrecy of our projects, will have an adverse effect on our results of operations and financial condition.**

We operate in an industry which is highly sensitive with regard to maintenance of secrecy of the projects and its contents. We have put in place firewall, security systems and procedures to protect the projects and its contents. Piracy of project content, its information, digital effects including internet piracy and the sale of counterfeit consumer products, may decrease revenue from the exploitation of our products. There was no incident of breach of our firewall, security systems and procedures in the past. However, there is no assurance that such breach will not occur in future also. Any failure on our part to maintain secrecy of our projects, will have an adverse effect on our results of operations and financial condition.

- 11. Our registered office and studios are not located on land owned by us and we have only leasehold rights. In the event we lose or are unable to renew such leasehold rights, our business, results of operations, financial condition and cash flows may be adversely affected.**

The table below provides information of our registered office and studios which are not located on land owned by us:

If we are unable to renew these leases or relocate on commercially suitable terms, it may have an adverse effect on our business, results of operation, financial condition and cash flows. Though there have not been any such instances in the last three Fiscals and as on the date of this DRHP we cannot assure you that in future such instance may not arise.

Our Company has entered into related party transactions with our Promoter, Directors and the Promoter Group aggregating ₹ 26,423.14 thousands for the Period ended September 2024. While our Company believes that all such transactions have been conducted on the arm's length basis, there can be no assurance that it could not have been achieved on more favorable terms had such transactions not been entered into with related parties. The company undertakes that the related party transactions entered into by the company are in compliance with the provisions of Companies Act, 2013 and rules made thereunder. Furthermore, it is likely that our Company will enter into related party transactions in the future. There can be no assurance that such transactions, individually or in aggregate, will not have an adverse effect on our financial condition and results of operation. For details, please refer to "Note 29 – Related Party Disclosure" on page no. 202 of this Draft Red Herring Prospectus.

13. *The objects of the Offer include funding capital expenditure and working capital requirements of our Company, which is based on certain assumptions and estimates.*

The objects of the Offer include capital expenditure and funding working capital requirements of our Company, which is based on management estimates and certain assumptions. For more information in relation to such management estimates and assumptions, please see "**Objects of the Offer**" on page 79 of this Draft Red Herring Prospectus. Our working capital requirements may be subject to change due to factors beyond our control including force majeure conditions, an increase in defaults by our customers, non-availability of funding from banks or financial institutions.

Accordingly, such working capital requirements may not be indicative of the actual requirements of our Company in the future and investors are advised to not place undue reliance on such estimates of future working capital requirements.

14. *Our management will have broad discretion in how we apply the Net Proceeds, including interim use of the Net Proceeds, and there is no assurance that the objects of the Offer will be achieved within the time frame expected or at all, or that the deployment of the Net Proceeds in the manner intended by us will result in any increase in the value of your investment.*

We intend to use Net Proceeds from the Offer towards (a) Funding capital expenditure requirements for the construction of studios (b) Part funding working capital requirements (c) General corporate purposes. For details of the objects of the Offer, see "**Objects of the Offer**" on page 79. Our management will have broad discretion to use the Net Proceeds, and investors will be relying on the judgment of our management regarding the application of the Net Proceeds. Our Company may have to revise its management estimates from time to time on account of various factors beyond its control, such as market conditions, competitive environment, costs of commodities and interest or exchange rate fluctuations and consequently its requirements may change. Additionally, various risks and uncertainties, including those set forth in this section may limit or delay our efforts to use the Net Proceeds to achieve profitable growth in its business.

15. *Intensified competition may restrict our ability to access content and/or talent.*

Our industry is highly competitive, and we face intense competition from various players in the market. As competition intensifies, the price of content and talent may escalate, which may restrict our ability to access quality content and/or talent. We face intense competition from both Indian and foreign competitors, many of which are substantially larger and have greater financial resources than us. Growth in the entertainment industry in recent years has attracted new industry participants and competitors. The entry of such competitors may change the media and entertainment industry in ways that may not favour us. The ability to secure quality content and talent is a key driver of our business, and any inability to access them may adversely affect our operations and financial performance. We may not be able to compete effectively in the market, which may lead to a decline in our market share and revenues. Further, any significant increase in the price of content and talent may lead to a rise in our production costs, which may adversely impact our margins and profitability. We may also face difficulties in passing on such cost increases to our customers, which may further impact our financial performance.

For further information on our peers, please refer to chapter titled "**Our Business**" on page no. 118 of this Draft Red Herring Prospectus.

16. Any failure to protect or enforce our rights to own or use our trademark could have an adverse effect on our business and competitive position.

We have been assigned and has applied for following trademark registrations in relation to the logos of our Company. The details of our trademark registration and applications are as follows:

Trademark	Trademark Type	Registration Status	Class	Date of Application	Application no.
	Device mark	Registered	41	November 26, 2017	3643874
	Device mark	Application made (Current status: Formalities Chk Pass)	41	November 23, 2024	6722848

If we do not maintain our brand identity, which is an important factor that differentiates us from our competitors, we may not be able to maintain our competitive edge. If we are unable to compete successfully, we could lose our customers, which would negatively affect our financial performance and profitability. Moreover, our ability to protect, enforce or utilize our brand is subject to risks, including general litigation risks. While we endeavour to ensure that we comply with the intellectual property rights, there can be no assurance that we will not face any intellectual property infringement claims brought by third parties. Any claims of infringement, regardless of merit or resolution of such claims, could force us to incur significant costs in responding to, defending and resolving such claims and may divert the efforts and attention of our management away from our business. We could be required to change the name of our Company, pay third party infringement claims or obtain fresh licenses resulting from a name change. The occurrence of any of the foregoing could result in unexpected expenses.

We are currently using this logos for our business. There can be no assurance that we will be able to successfully obtain the said registration in a timely manner or at all. Any unauthorized or inappropriate use of our brand, trademarks and other related intellectual property rights by others in their corporate names or product brands or otherwise could harm our brand image, competitive advantages and business, and dilute or harm our reputation and brand recognition. For more details, refer “**Our Business**” on page 118 of this Draft Red Herring Prospectus.

17. We have not identified any alternate source of funding and hence any failure or delay on our part to mobilize the required resources or any shortfall in the Offer proceeds may delay the implementation schedule.

The proposed fund requirement for our Capital Expenditure and Working Capital requirements, as detailed in the chapter titled “**Objects of the Offer**” is to be funded from the proceeds of this IPO. We have not identified any alternate source of funding and hence any failure or delay on our part to mobilize the required resources or any shortfall in the Issue proceeds may delay the implementation schedule. We, therefore, cannot assure that we would be able to execute our future plans/strategy within the given timeframe. For details, please refer to the Chapter titled “**Objects of the Offer**” beginning on page 79 of this Draft Red Herring Prospectus.

- 19. Our company does not have succession policy it may be exposing us to significant risks, especially in the event of unexpected leadership transitions, such as the departure, illness, or retirement of key executives or employees. A lack of succession planning can create uncertainty, disrupt operations, and impact the company's long-term stability and growth.**

Our companies’ operations are highly dependent upon the skills and knowledge of our promoters, directors, key executives and employees and as on the date of this DRHP our company has not yet formulated a formal business succession policy. While the company has put in place certain internal guidelines for leadership continuity, a comprehensive, formalized succession plan is still under development. The absence of such a policy may stem from various factors, such as the company’s size, organizational structure, or reliance on current leadership for the near term. However, this lack of a formal succession plan presents several risks to the business including the company may face significant risks that could impact its operations and long-term stability. Leadership instability is a key concern, as unexpected departures or incapacitation of key executives could create confusion, delays in decision-making, and a lack of direction, undermining stakeholder confidence. Without a formal succession plan, leadership transitions could be inefficient, leaving critical functions vulnerable to neglect and mismanagement, disrupting ongoing projects, and straining client relationships. This lack of planning also threatens business continuity, particularly for family-owned or closely-held businesses where leadership is often tied to specific individuals. Without a structured approach to knowledge transfer and role delegation, the company could struggle to maintain its competitive advantage or adapt to changing market conditions. Additionally, investors, employees, and stakeholders may view the absence of a succession policy as a sign of poor governance and a lack of long-term planning, potentially damaging the company's reputation and causing a loss of investor confidence. Finally, depending on the regulatory environment, failure to implement a succession policy may lead to legal risks, as some jurisdictions require businesses to have formal succession plans, especially for key executive roles, which could result in non-compliance, fines, or further reputational harm.

- 20. Our success largely depends upon our ability to attract and retain our Promoters, Directors, Key Managerial personnel and Senior Management with technical expertise. Our inability to attract and retain them and other personnel with technical expertise could adversely affect our business, financial condition and results of operations.**

Our success largely depends upon our ability to attract and retain our Promoters, Directors, Key Managerial personnel with technical expertise. Our inability to attract and retain them and other personnel with technical expertise could adversely affect our business, financial condition and results of operations. There is significant competition for management and other skilled personnel in our industry in which we operate, and it may be difficult to attract and retain the personnel we require in the future. There can be no assurance that our competitors will not offer better compensation packages, incentives and other perquisites to such skilled personnel. If we are not able to attract and retain talented employees as required for conducting our business, or if we experience high attrition levels which are largely out of our control, or if we are unable to motivate and retain existing employees, our business, financial condition and results of operations may be adversely affected. For further information, see “*Our Management*” on page 146 of this Draft Red Herring Prospectus.

- 21. Our ability to remain competitive may be adversely affected by rapid technological changes and our ability to access such technology**

The Indian media and entertainment industry is rapidly evolving, and the use of technology is becoming increasingly important. We rely on technology for a number of our core activities, including the creation,

production, and distribution of our visual effects. We may not be successful in adopting new visual effect methods or may lose market share to our competitors if the methods that we adopt are not as technologically sound, user-friendly, widely accessible or appealing to consumers as those adopted by our competitors. Further, advances in technologies or alternative methods or changes in consumer behaviour driven by these or other technologies, could have a negative effect on our business. Other competitor companies may have greater financial strength to adopt new growing technological trends ahead of us. In order to remain competitive, we would be required to upgrade our technology, and any failure to do so could have a material adverse effect on our business, prospects, financial condition and results of operations.

22. *There have been certain delays in payment of statutory dues in the past. Any delay in payment of statutory dues in future, may result in the imposition of interest, late fines and penalties which in turn may have an adverse effect on our business, financial condition, results of operation and cash flows.*

Our Company is required to pay certain statutory dues as per the taxes governed by the laws of the land in India. Though our company is regular in payment of all the statutory dues, there have been certain instances of delays in payment of statutory dues in the past by us which have been belatedly paid by us with an additional fee or an interest. The details of such delays are set out below:

GST Returns Delay Filings:

Financial Year	Month	Number of Days Delay	Reason for Delay
2024-25	October 2024	01	The delays in GST payment have occurred due to operational inefficiencies and reliance on external consultants, which led to lapses in timely compliance. To mitigate this risk, the management has strengthened internal processes, established a dedicated in-house compliance team, automated GST filings and payments, and improved cash flow management. These measures aim to ensure full compliance with the applicable regulations and minimize the risk of penalties, interest, or regulatory scrutiny.

While our Company has subsequently made payment of all pending dues, we cannot assure you that there will not be any delays in the future. Any delay in payment of statutory dues in future, may result in the imposition of penalties and in turn may have an adverse effect on our business, financial condition, results of operation and cash flows.

23. *Some of our Promoters may be interested in us other than in terms of remuneration and loan accepted or loan repaid, and this may result in conflict of interest with us.*

In future certain of our Promoters may be interested in us, in addition to regular remuneration or benefits and Loans accepted or loans repaid, to the extent of their shareholding, direct and indirect, and benefits arising therefrom. Our Promoters are also interested in us to the extent of their shareholding in us and any other benefits that may arise from the shareholding therefrom. We cannot assure you that our Promoters will exercise their rights as shareholders to our benefit and best interest.

24. *Our contingent liabilities on a restated consolidated basis could materially and adversely affect our business, results of operations and financial condition.*

Our contingent liabilities as per our Restated Financial Statement as at September 30, 2024, March 31, 2024, March 31, 2023 and March 31, 2022 are described below:

(Amount in '000)

Particular	For the period ended on September 30, 2024	For the Financial Year March 31, 2024	For the Financial Year March 31, 2023	For the Financial Year March 31, 2022
GST Disputed	12,262.44	12,262.44	8,842.26	-
Non-Tax	Nil	Nil	Nil	Nil

For more details, please refer Note 28 of the chapter “*Restated Financial Statements*” on page 176 of this Draft Red Herring Prospectus.

Most of the liabilities have been incurred in the normal course of business. If these contingent liabilities were to fully materialize or materialize at a level higher than we expect, it may materially and adversely impact our business, results of operations and financial condition.

25. *Strikes by writers, actors or other participants in the audio visual entertainment industry could negatively affect our revenues.*

Strikes by writers, actors, or other participants in the audio visual entertainment industry could disrupt production schedules, leading to delays in the release of new content. This may result in reduced viewer engagement, lower subscriber retention, and decreased revenue. Additionally, prolonged labour disputes can increase production costs and strain relationships with key talent, further affecting the ability to create high-quality content and maintain a competitive edge in the market, which could have a material adverse effect on our business, financial condition, cash flow and results of operations. Although, there are no such instances in the past, we cannot assure that it will not occur in the future.

26. *Any variation in the utilization of the Net Proceeds as disclosed in this Draft Red Herring Prospectus shall be subject to certain compliance requirements, including prior approval of the shareholders of our Company*

We propose to utilize the Net Proceeds towards meeting, capital expenditure, working capital and general corporate purposes. For further details of the proposed objects of the Offer, see “*Objects of the Offer*” beginning on page 79 of this Draft Red Herring Prospectus. Further, we cannot determine with any certainty if we would require the Net Proceeds to meet any other expenditure or fund any exigencies arising out of the competitive environment, business conditions, economic conditions or other factors beyond our control. In accordance with the Companies Act, 2013 and the SEBI ICDR Regulations, we cannot undertake variation in the utilization of the Net Proceeds as disclosed in this Draft Red Herring Prospectus without obtaining the approval of the Shareholders through a special resolution. In the event of any such circumstances that require us to vary the disclosed utilization of the Net Proceeds, we may not be able to obtain the approval of the Shareholders in a timely manner, or at all. Any delay or inability in obtaining such approval of the Shareholders may adversely affect our business or operations. Further, our Promoters or controlling shareholders, if applicable, would be required to provide an exit opportunity to the shareholders of our Company who do not agree with our proposal to modify the objects of the Offer, at a price and manner as prescribed by SEBI.

Further, we cannot assure you that our Promoters or the controlling shareholders of our Company if applicable, will have adequate resources at their disposal at all times to enable them to provide an exit opportunity. In light of these factors, we may not be able to vary the objects of the Offer to use any unutilized proceeds of the Fresh Issue, if any, even if such variation is in the interest of our Company. This may restrict our Company’s ability to respond to any change in our business or financial condition by re-deploying the unutilized portion of Net Proceeds, if any, which may adversely affect our business, financial conditions, cash flows and results of operations.

27. *We may require additional working capital in the future. A failure in obtaining such additional financing at all or on terms favourable to us could have an adverse effect on our results of operations and financial condition.*

Our business requires additional amount of working capital and major portion of our working capital is utilized towards employee cost, hiring talents, studio rentals and equipment rentals. Our growing scale and expansion, if any, may result in increase in the quantum of current assets. Our inability to maintain sufficient cash flow, credit facility and other sourcing of funding, in a timely manner, or at all, to meet the requirement of working capital or pay out debts, could adversely affect our financial condition and result of our operations. Further, we have high outstanding amount due from our debtors which may adversely affect our cash flows and our business operations.

28. *Delays or defaults in client payments could affect our operations*

We may be subject to working capital risks due to delays or defaults in payment by distribution houses, which may restrict our ability to function efficiently and make payments to others when due. In addition, any delay or failure on our part to produce the shows, within the time stipulated by agreements, if presigned, to our clients

may in turn cause delay in payment or refusal of payment by the client. Such defaults/delays by our clients in meeting their payment obligations to us may have a material effect on our business, financial condition and results of operations. There are no such instances in the past we cannot assure that it will not happen in the future.

29. Our Company has issued Equity Shares during the last twelve months at a price which may be lower than the Offer Price.

We have, in the 12 months preceding the filing of this Draft Red Herring Prospectus, issued Equity Shares at prices that may be lower than the Offer Price to Promoters and other shareholders. For details of issues, please refer, page 65 of the chapter “*Capital Structure*” of this Draft Red Herring Prospectus.

The details of the allotment made during the preceding 12 months are as follows:

S.No	Date	Number of Equity Shares	Face Value	Issue Price	Consideration	Type of Allotment
1.	July 22, 2024	1,997	10	10	Cash	Right Issue
2.	July 26, 2024	47,98,800	10	Nil	Other than cash	Bonus issue (Ratio 400:1)
3.	November 07, 2024	33,67,554	10	Nil	Other than cash	Bonus issue (Ratio 7:10)

30. We cannot predict or forecast the success of our business.

We cannot predict or forecast if a story will be successful. The revenue from the sale of rights of a content is dependent on the likelihood of the content to achieve success from its distribution. In addition, changing consumer behaviour compromise our ability to predict the success of TV business in India and internationally. Consumer’s negative behavior could adversely affect our business and damage our Company’s reputation, any of which could have a material adverse effect on the Company’s business, financial condition and results of operations.

31. We require certain approvals and licenses in the ordinary course of business and are required to comply with certain rules and regulations to operate our business, and the failure to obtain, retain and renew such approvals and licences or comply with such rules and regulations, and the failure to obtain or retain them in a timely manner or at all may adversely affect our operations.

We require several statutory and regulatory permits, licenses and approvals to operate our business and may differ for different Shows. Many of these approvals are granted for fixed period of time and need renewal from time to time. Non-renewal of the said permits and licenses would adversely affect our Company’s operations, thereby having a material adverse effect on our business, results of operations and financial condition. There can be no assurance that the relevant authorities will issue any of such permits or approvals in the timeframe anticipated by us or at all. Further, some of our permits, licenses and approvals are subject to several conditions and we cannot provide any assurance that we will be able to continuously meet such conditions or be able to comply with such conditions, which may lead to the cancellation, revocation or suspension of relevant permits, licenses or approvals. Any failure by us to apply in time, to renew, maintain or obtain the required permits, licenses or approvals, or the cancellation, suspension or revocation of any of the permits, licenses or approvals may result in the interruption of our operations and may have a material adverse effect on the business. If we fail to comply with all applicable regulations or if the regulations governing our business change, we may incur increased costs, be subject to penalties or suffer a disruption in our business activities, any of which could adversely affect our results of operations. For further details, please refer to chapters titled “*Key Regulations and Policies*” and “*Government and Other Statutory Approvals*” beginning on pages 133 and 226 respectively of this Draft Red Herring Prospectus.

32. Our Promoters and members of the Promoter Group will continue jointly to retain majority control over our Company even after the Offer which will allow them to determine the outcome of matters submitted to shareholders for approval.

Post this Offer, our Promoters and Promoter Group will collectively own ~ 73.50 % of our post issue equity share capital. As a result, our Promoters, together with the members of the Promoter Group, will continue to exercise a significant degree of influence over the Company and will be able to control the outcome of any proposal that can be approved by a majority shareholder vote, including, the election of members to our Board,

in accordance with the Companies Act, 2013 and our Articles of Association. Such a concentration of ownership may also have the effect of delaying, preventing or deterring a change in control of our Company. In addition, our Promoters will continue to have the ability to cause us to take actions that are not in, or may conflict with, our interests or the interests of some or all of our creditors or other shareholders, and we cannot assure you that such actions will not have an adverse effect on our future financial performance or the price of our Equity Shares.

33. *Our funding requirements and the proposed deployment of Net Proceeds are based on management estimates and we have not entered into any definitive arrangements to utilize certain portions of the Net Proceeds of the Offer.*

Our funding requirement is based management estimates, current circumstances of our business and prevailing market conditions, which are subject to changes in external factors, such as financial and market conditions, market feedback and demand of our products, competition, business strategy and interest/exchange rate fluctuations, which may not be within the control of our management. The objects of the Offer have not been appraised by any bank or financial institution. Based on the competitive nature of our industry, we may have to revise our business plan and/or management estimates from time to time and consequently our funding requirements may also change. Such internal estimates may differ from the value that would have been determined by third party appraisals, which may require us to reschedule or reallocate our expenditure, subject to applicable laws. In case of increase in actual expenses or shortfall in requisite funds, additional funds for a particular activity will be met by any means available to us, including internal accruals and additional equity and/or debt arrangements, and may have an adverse impact on our business, results of operations, financial condition and cash flows. Accordingly, investors in our Equity Shares will be relying on the judgment of our management regarding the application of the Net Proceeds. Further, pursuant to Section 27 of the Companies Act and other applicable law, any variation in the Objects of the Issue would require a special resolution of the shareholders and the promoter or controlling shareholders will be required to provide an exit opportunity to the shareholders who do not agree to such proposal to vary the Objects of the Offer, at such price and in such manner in accordance with applicable law. For details on the objects of the Offer, please refer chapter “*Objects of the Offer*” on page 79 of this draft red herring prospectus. Our Company, in accordance with the applicable law and to attain the objects set out above, will have the flexibility to deploy the Net Proceeds. Pending utilization of the Net Proceeds for the purposes described above, our Company may temporarily deposit the Net Proceeds within one or more scheduled commercial banks included in the Second Schedule of Reserve Bank of India Act, 1934 as may be approved by our Board.

34. *We may not be able to sustain effective implementation of our business and growth strategy.*

The success of our business will largely depend on our ability to effectively implement our business and growth strategy. In the past we have generally been successful in execution of our business plan but there can be no assurance that we will be able to execute our strategy on time and within the estimated budget in the future. If we are unable to implement our business and growth strategy, this may have an adverse effect on our business, financial condition and results of operations.

35. *Our insurance coverage may not be adequate to protect us against certain operating hazards and this may have a material adverse effect on our business.*

At present, our company has taken insurance policies as given in chapter “*Our Business*” beginning on page no. 131 of this Draft Red Herring Prospectus, for our assets including properties, equipment used in our shows. Any risk of damage may be controlled but not eliminated. Although we have liability insurance cover for stocks properties and shoot cancellations, we cannot assure you that this insurance coverage is adequate or that any losses will be adequately compensated by our insurers in the event of a liability claim. As a result, it may adversely affect our results of operations and financial conditions. The following claims have been made by us related to the insured amount from past three years upto stub period ending September 30, 2024:

(₹ in ‘000)

Year	Nature of Loss	Amount Claimed	Amount Received
2021-2022	Loss due to unseasonal rain	617.93	261.53
	Heavy rains flooded the set, due to which property stored in set premises destroyed.	2,000.00	710.65
	Loss of Footage	350.00	Nil

2022-2023	Loss of shooting due to fire on the set	736.39	Nil
2023-2024	Due to fluctuation in power supply, the camera stopped working	700.00	Nil

36. *Failure or disruption of our IT, automation systems may adversely affect our business, financial condition and results of operations.*

We have implemented various information technology (“IT”) systems to cover key areas of our operations, procurement and accounting. These systems are potentially vulnerable to damage or interruption from a variety of sources, which could result from (among other causes) cyber-attacks on or failures of such infrastructure or compromises to its physical security, as well as from damaging weather or other acts of nature. A significant or largescale malfunction or interruption of one or more of our IT systems or automation systems could adversely affect our ability to keep our operations running efficiently and affect our services. In addition, it is possible that a malfunction of our data system security measures could enable unauthorized persons to access sensitive business data, including information relating to our intellectual property or business strategy or those of our customers. While we have not faced significant disruptions in past, any such malfunction or disruptions in future could cause economic losses for which we could be held liable or cause damage to our reputation. Any of these developments, alone or in combination, could have a material adverse effect on our business, financial condition and results of operations. Further, unavailability of, or failure to retain, well trained employees capable of constantly servicing our IT and automation systems may lead to inefficiency or disruption of our operations and thereby adversely affecting our business, financial condition and results of operations. No such instances occurred in the past, however we cannot assure that it will not happen in the future.

37. *Our ability to pay dividends will depend upon future earnings, financial condition, cash flows, working capital requirements, capital expenditures and other factors.*

We may retain all our future earnings, if any, for use in the operations and expansion of our business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors and will depend on factors that our Board of Directors deem relevant, including among others, our results of operations, financial condition, cash requirements, business prospects and any other financing arrangements. Accordingly, realization of a gain on shareholders’ investments may largely depend upon the appreciation of the price of our Equity Shares. There can be no assurance that our Equity Shares will appreciate in value. For details of our dividend history, see “*Dividend Policy*” on page 175 of this Draft Red Herring Prospectus.

38. *Regulatory compliance and litigation risk can cause business disruptions and increase in compliance costs.*

In our industry, regulatory compliance and litigation risk are significant factors that can cause business disruptions and increase operational costs. As our industry is highly regulated, with numerous laws governing intellectual property, labour rights, safety standards, and content distribution, companies must continually ensure adherence to these regulations to avoid legal consequences. Failure to comply can result in costly litigation, fines, and potential damage to a brand's reputation. Moreover, the entertainment industry is vulnerable to intellectual property disputes, such as copyright infringement or trademark violations, which can lead to prolonged legal battles and financial losses. Regulatory changes, such as stricter content censorship rules or new tax regulations, can also impact production costs and profitability. Additionally, the increasing scrutiny on data privacy laws, especially concerning the collection and use of consumer information, adds another layer of risk. Therefore, managing compliance and litigation risks is crucial for entertainment companies to minimize disruptions and protect their bottom line.

39. *The deployment of funds raised through this Issue shall not be subject to any Monitoring Agency and shall be purely dependent on the discretion of the management of our Company.*

Since the Offer size is less than INR 10,00,000 thousands, there is no mandatory requirement of appointing an Independent Monitoring Agency for overseeing the deployment of utilization of funds raised through this Offer. The deployment of these funds raised through this Offer, is hence, at the discretion of the management and the Board of Directors of our Company and will not be subject to monitoring by any independent agency. However, as per the Section 177 of the Companies Act, 2013 and applicable laws, the Audit Committee of our Company would be monitoring the utilization of the Offer Proceeds. Any inability on our part to effectively utilize the Offer proceeds could adversely affect our finances.

40. *If we are unable to source business opportunities effectively, we may not achieve our financial objectives.*

Our capacity to achieve our financial objectives will depend on our ability to identify, evaluate and accomplish business opportunities. To grow our business there is significant importance to find, hire, train, supervise and manage efficient employees and also to establish such process of business operations which is proficient enough to effectively achieve our growth. Instead of putting keen efforts, as mentioned here, we cannot assure that any such employees will contribute to the success of our business or that we will implement such systems effectively. Our failure to source business opportunities effectively could have a material adverse effect on our business, financial condition and results of operations. It is also possible that the strategies used by us in the future may be different from those presently in use.

41. *We have not commissioned an industry report for the disclosures made in the section titled ‘Industry Overview’ and made disclosures on the basis of the data available on the internet and such data has not been independently verified by us.*

We have not commissioned an industry report, for the disclosures which need to be made in the chapter titled “**Industry Overview**” beginning on page 101 of this Draft Red Herring Prospectus. We have made disclosures in the said chapter based on the relevant industry related data available online for which relevant consents have been obtained wherever necessary. We have not independently verified such data. We cannot assure you that any assumptions made are correct or will not change and, accordingly, our position in the market may differ from that presented in this Draft Red Herring Prospectus. Further, the industry data mentioned in this Draft Letter of Offer or sources from which the data has been collected are not recommendations to invest in our Company. Accordingly, investors should read the industry related disclosure in this Draft Red Herring Prospectus in this context.

42. *We could be harmed by employee misconduct or errors that are difficult to detect and any such incidences could adversely affect our financial condition, results of operations and reputation.*

Employee misconduct or errors could expose us to business risks or losses, including serious harm to our reputation. There can be no assurance that we will be able to detect or deter such misconduct. Moreover, the precautions we take to prevent and detect such activity may not be effective in all cases. Our employees may also commit errors that could subject us to claims and proceedings for alleged negligence, as well as regulatory actions on account of which our business, financial condition, results of operations and goodwill could be adversely affected. There are no such instances in the past however, we cannot assure occurring of such instances in future.

43. *We will not receive any proceeds from the Offer for Sale. The Promoter Selling Shareholders will receive the net proceeds from the Offer for Sale.*

The Offer consists of a Fresh Issue and an Offer for Sale. The Promoter Selling Shareholders shall be entitled to the net proceeds from the Offer for Sale, which comprise proceeds from the Offer for Sale net of Offer expenses shared by the Promoter Selling Shareholder, and our Company will not receive any proceeds from the Offer for Sale.

44. *The requirements of being a public listed company may strain our resources and impose additional requirements.*

With the increased scrutiny of the affairs of a public listed company by shareholders, regulators and the public at large, we will incur significant legal, accounting, corporate governance and other expenses that we were not required to incur in the past. We will also be subject to the provisions of the listing agreements signed with the Stock Exchange. In order to meet our financial control and disclosure obligations, significant resources and management supervision will be required. As a result, management’s attention may be diverted from other business concerns, which could have an adverse effect on our business and operations. There can be no assurance that we will be able to satisfy our reporting obligations. In addition, we will need to increase the strength of our management team and hire additional legal and accounting staff with appropriate public company experience and accounting knowledge, and we cannot assure that we will be able to do so in a timely manner. Failure of our Company to meet the listing requirements of stock exchange, if any, could lead to imposition of penalties, including suspension of trading in shares of the Company.

EXTERNAL RISKS

45. *A slowdown in economic growth in India could adversely affect our business.*

The structure of the Indian economy has undergone considerable changes in the last decade. These include increasing importance of external trade and of external capital flows. Any slowdown in the growth of the Indian economy or the Television Industry, could adversely affect our business, financial condition and results of operations. India's economy could be adversely affected by a general rise in interest rates, fluctuations in currency exchange rates, adverse conditions affecting housing and tourism and electricity prices or various other factors. Further, conditions outside India, such as slowdowns in the economic growth of other countries, could have an impact on the growth of the Indian economy and government policy may change in response to such conditions. The Indian economy and financial markets are also significantly influenced by worldwide economic, financial and market conditions. Any financial turmoil, especially in the United States, Europe or China or Asian emerging market countries, may have an impact on the Indian economy. Although economic conditions differ in each country, investors' reactions to any significant developments in one country can have adverse effects on the financial and market conditions in other countries. A loss of investor confidence in the financial systems, particularly in other emerging markets, may cause increased volatility in Indian financial markets, and could have an adverse effect on our business, financial condition and results of operations and the price of the Equity Shares.

46. *The occurrence of natural or man-made disasters could adversely affect our results of operations, cash flows and financial condition. Hostilities, terrorist attacks, civil unrest and other acts of violence could adversely affect the financial markets and our business.*

The occurrence of natural disasters, including cyclones, storms, floods, earthquakes, tsunamis, tornadoes, fires, explosions, pandemic and man-made disasters, including acts of terrorism and military actions, could adversely affect our results of operations, cash flows or financial condition. Terrorist attacks and other acts of violence or war may adversely affect the Indian securities markets. In addition, any deterioration in international relations, especially between India and its neighbouring countries, may result in investor concern regarding regional stability which could adversely affect the price of the Equity Shares. In addition, India has witnessed local civil disturbances in recent years and it is possible that future civil unrest as well as other adverse social, economic or political events in India could have an adverse effect on our business. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse effect on our business and the market price of the Equity Shares.

47. *Changing laws, rules and regulations and legal uncertainties in India and other countries may adversely affect our business and financial performance.*

The regulatory and policy environment in which we operate is evolving and subject to change. Such changes may adversely affect our business, results of operations and prospects, to the extent that we are unable to suitably respond to and comply with any such changes in applicable law and policy. For example, the Government of India implemented a comprehensive national goods and services tax ("GST") regime with effect from July 1, 2017, that combined multiple taxes and levies by the Central and State Governments into unified tax structure. Our business and financial performance could be adversely affected by any unexpected or onerous requirements or regulations resulting from the introduction of GST or any changes in laws or interpretation of existing laws, or the promulgation of new laws, rules and regulations relating to GST, as it is implemented. The Government has enacted the GAAR which have come into effect from April 1, 2017.

Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may impact the viability of our current businesses or restrict our ability to grow our businesses in the future.

48. *Any changes in regulations or applicable government incentives would materially adversely affect our Company's operations and growth prospects.*

Our Company is subject to regulations in India. Our Company's business and prospects could be adversely affected by changes in any of these regulations and policies, or if any or all of the incentives currently available cease to be, including the introduction of new laws, policies or regulations or changes in the interpretation or application of existing laws, policies and regulations. However, there can be no assurance that our Company

will succeed in obtaining all requisite approvals in the future for its operations or that compliance issues will not be raised in respect of its operations, either of which would have a material adverse effect on our Company's operations and financial results. For further details, please refer to the chapter titled "**Key Regulations and Policies**" on page 133 of this Draft Red Herring Prospectus.

49. *Financial instability in other countries may cause increased volatility in Indian financial markets.*

The Indian market and the Indian economy are influenced by economic and market conditions in other countries, including conditions in the United States, Europe and certain emerging economies in Asia. Financial turmoil in Asia, Russia and elsewhere in the world in recent years has adversely affected the Indian economy. Any worldwide financial instability may cause increased volatility in the Indian financial markets and, directly or indirectly, adversely affect the Indian economy and financial sector and us. Although economic conditions vary across markets, loss of investor confidence in one emerging economy may cause increased volatility across other economies, including India. Financial instability in other parts of the world could have a global influence and thereby negatively affect the Indian economy. Financial disruptions could materially and adversely affect our business, prospects, financial condition, results of operations and cash flows. Further, economic developments globally can have a significant impact on our principal markets. Concerns related to a trade war between large economies may lead to increased risk aversion and volatility in global capital markets and consequently have an impact on the Indian economy.

The ongoing Russia Ukraine conflict and the conflict between Israel and Palestine could adversely affect our results of operations, cash flows or financial condition.

In addition, China is one of India's major trading partners and there are rising concerns of a possible slowdown in the Chinese economy as well as a strained relationship with India, which could have an adverse impact on the trade relations between the two countries. In response to such developments, legislators and financial regulators in the United States and other jurisdictions, including India, implemented a number of policy measures designed to add stability to the financial markets. However, the overall long-term effect of these and other legislative and regulatory efforts on the global financial markets is uncertain, and they may not have the intended stabilizing effects. Any significant financial disruption could have a material adverse effect on our business, financial condition and results of operation. These developments, or the perception that any of them could occur, have had and may continue to have a material adverse effect on global economic conditions and the stability of global financial markets and may significantly reduce global market liquidity, restrict the ability of key market participants to operate in certain financial markets or restrict our access to capital. This could have a material adverse effect on our business, financial condition and results of operations and reduce the price of the Equity Shares.

50. *We may be affected by competition laws and labour laws, the adverse application or interpretation of which could adversely affect our business.*

The Competition Act, 2002, of India, as amended ("Competition Act"), regulates practices having an appreciable adverse effect on competition in the relevant market in India ("AAEC"). Under the Competition Act, any formal or informal arrangement, understanding or action in concert, which causes or is likely to cause an AAEC is considered void and may result in the imposition of substantial penalties. Further, any agreement among competitors which directly or indirectly involves the determination of purchase or sale prices, limits or controls production, supply, markets, technical development, investment or the provision of services or shares the market or source of production or provision of services in any manner, including by way of allocation of geographical area or number of customers in the relevant market or directly or indirectly results in bid-rigging or collusive bidding is presumed to have an AAEC and is considered void. The Competition Act also prohibits abuse of a dominant position by any enterprise.

On March 4, 2011, the Government notified and brought into force the combination regulation (merger control) provisions under the Competition Act with effect from June 1, 2011. These provisions require acquisitions of shares, voting rights, assets or control or mergers or amalgamations that cross the prescribed asset and turnover based thresholds to be mandatorily notified to and pre-approved by the Competition Commission of India (the "CCI"). Additionally, on May 11, 2011, the CCI issued Competition Commission of India (Procedure for Transaction of Business Relating to Combinations) Regulations, 2011, as amended, which sets out the mechanism for implementation of the merger control regime in India.

The Competition Act aims to, among others, prohibit all agreements and transactions which may have an AAEC

in India. Consequently, all agreements entered into by us could be within the purview of the Competition Act. Further, the CCI has extra-territorial powers and can investigate any agreements, abusive conduct or combination occurring outside India if such agreement, conduct or combination has an AAEC in India. However, the impact of the provisions of the Competition Act on the agreements entered into by us cannot be predicted with certainty at this stage. However, since we pursue an acquisition driven growth strategy, we may be affected, directly or indirectly, by the application or interpretation of any provision of the Competition Act, or any enforcement proceedings initiated by the CCI, or any adverse publicity that may be generated due to scrutiny or prosecution by the CCI or if any prohibition or substantial penalties are levied under the Competition Act, it would adversely affect our business, results of operations, cash flows and prospects.

The Government of India has passed new laws relating to social security, occupational safety, industrial relations and wages namely, the Code on Social Security, 2020, the Occupational Safety, Health and Working Conditions Code, 2020, the Industrial Relations Code, 2020 and the Code on Wages, 2019, respectively which were to take effect from April 1, 2021 (collectively, the “Labour Codes”). The Government of India has deferred the effective date of the Labour Codes and they shall come into force from such date as may be notified by the Government. Further, the Code on Social Security, 2020 (“Social Security Code”) will impact overall employee expenses and, in turn, could impact the profitability of our Company. Under the Social Security Code, a new concept of deemed remuneration has been introduced, such that where an employee receives more than half (or such other percentage as may be notified by the Central Government), of their total remuneration in the form of allowances and other amounts that are not included within the definition of wages under the Social Security Code, the excess amount received shall be deemed as remuneration and accordingly be added to wages for the purposes of the Social Security Code and the compulsory contribution to be made towards the employees’ provident fund. We may incur increased costs and other burdens relating to compliance with such new requirements, which may also require significant management time and other resources, and any failure to comply may adversely affect our business, results of operations and prospects. Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may impact the viability of our current businesses or restrict our ability to grow our businesses in the future.

51. *A third-party could be prevented from acquiring control of us post this Offer, because of anti-takeover provisions under Indian law.*

As a listed Indian entity, there are provisions in Indian law that may delay, deter or prevent a future takeover or 'change in control of our Company. Under the Takeover Regulations, an acquirer has been defined as any person who, directly or indirectly, acquires or agrees to acquire shares or voting rights or control over a company, whether individually or acting in concert with others. Although these provisions have been formulated to ensure that interests of investors/shareholders are protected, these provisions may also discourage a third party from attempting to take control of our Company subsequent to completion of the Offer. Consequently, even if a potential takeover of our Company would result in the purchase of the Equity Shares at a premium to their market price or would otherwise be beneficial to our shareholders, such a takeover may not be attempted or consummated because of Takeover Regulations.

52. *We are subject to regulatory, economic, social and political uncertainties and other factors beyond our control.*

We are incorporated in India, and we conduct our corporate affairs and our business in India. Our Equity Shares are proposed to be listed on NSE. Consequently, our business, operations, financial performance and the market price of our Equity Shares will be affected by interest rates, government policies, taxation, social and ethnic instability and other political and economic developments affecting India.

Factors that may adversely affect the Indian economy, and hence our results of operations may include:

- any exchange rate fluctuations, the imposition of currency controls and restrictions on the right to convert or repatriate currency or export assets;
- any scarcity of credit or other financing in India, resulting in an adverse effect on economic conditions in India and scarcity of financing for our expansions;
- prevailing income conditions among Indian customers and Indian corporations;
- epidemic or any other public health in India or in countries in the region or globally, including in India’s various neighbouring countries;

- macroeconomic factors and central bank regulation, including in relation to interest rates movements which may in turn adversely impact our access to capital and increase our borrowing costs;
- volatility in, and actual or perceived trends in trading activity on, India's principal stock exchanges;
- decline in India's foreign exchange reserves which may affect liquidity in the Indian economy;
- downgrading of India's sovereign debt rating by rating agencies; and
- difficulty in developing any necessary partnerships with local businesses on commercially acceptable terms and/or a timely basis.

Any slowdown or perceived slowdown in the Indian economy, or in specific sectors of the Indian economy or certain regions in India, could adversely affect our business, results of operations and financial condition and the price of the Equity Shares. For example, our manufacturing facilities are located in western India, hence any significant disruption, including due to social, political or economic factors or natural calamities or civil disruptions, impacting this region may adversely affect our operations.

53. *If inflation were to rise in India, we might not be able to increase the prices of our services at a proportional rate in order to pass costs on to our customers and our profits might decline.*

Inflation rates in India have been volatile in recent years, and such volatility may continue in the future. India has experienced high inflation in the recent past. Increased inflation can contribute to an increase in interest rates and increased costs to our business, including increased costs of salaries, and other expenses relevant to our business.

High fluctuations in inflation rates may make it more difficult for us to accurately estimate or control our costs. Any increase in inflation in India can increase our expenses, which we may not be able to pass on to our customers, whether entirely or in part, and the same may adversely affect our business and financial condition. In particular, we might not be able to reduce our costs or increase our rates to pass the increase in costs on to our customers. In such case, our business, results of operations, cash flows and financial condition may be adversely affected.

Further, the GoI has previously initiated economic measures to combat high inflation rates, and it is unclear whether these measures will remain in effect. There can be no assurance that Indian inflation levels will not worsen in the future.

54. *Adverse geopolitical conditions such as an increased tension between India and its neighbouring countries, Russia-Ukraine conflict, could adversely affect our business, results of operations and financial condition.*

Adverse geopolitical conditions such as increased tensions between India and its neighbouring countries, resulting in any military conflict in the region could adversely affect our business and operations. Such events may lead to countries including the Government of India imposing restrictions on the import or export of products or components, among others, and affect our ability to procure raw materials required for our business operations. We could also be affected by the introduction of or increase in the levy of import tariffs in India, or changes in trade agreements between countries. For instance, the government of India has imposed additional tariffs in the nature of countervailing duty and anti-dumping duty on a number of items imported from China. Any such measure or reciprocal duties imposed on Indian products by China or other countries may adversely affect our results of operations and financial condition. Further, prolonged Russia-Ukraine conflict that is currently impacting, inter alia, global trade, prices of oil and gas could have an inflationary impact on the Indian economy.

55. *A downgrade in ratings of India, may affect the trading price of the Equity Shares.*

Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing and the interest rates and other commercial terms at which such financing is available, including raising any overseas additional financing. A downgrading of India's credit ratings may occur, for example, upon a change of government tax or fiscal policy, which are outside our control. This could have an adverse effect on our ability to fund our growth on favourable terms or at all, and consequently adversely affect our business and financial performance and the price of our Equity Shares.

RISKS RELATING TO THE EQUITY SHARES AND THE OFFER

56. *An investment in the Equity Shares is subject to general risk related to investments in Indian Companies.*

Our Company is incorporated in India and all of our assets and employees are located in India. Consequently, our business, results of operations, financial condition and the market price of the Equity Shares will be affected by changes in interest rates in India, policies of the Government of India, including taxation policies along with policies relating to industry, political, social and economic development affecting India.

57. *Investors bear the risk of fluctuations in the price of Equity Shares and there can be no assurance that a liquid market for our Equity Shares will develop following the listing of our Equity Shares on the Stock Exchanges.*

There has been no public market for our Equity Shares prior to the Offer. The purchase price of our Equity Shares in the Offer will be determined by our Company in consultation with the BRLM, pursuant to the Book Building Process. This price will be based on numerous factors, as described under in “*Basis Of Offer Price*” on page 91 of this Draft Red Herring Prospectus. This price may not necessarily be indicative of the market price of our Equity Shares after the Offer is completed. You may not be able to re-sell your Equity Shares at or above the Offer price and may as a result lose all or part of your investment.

Our Equity Shares are expected to trade on SME Platform of NSE after the Offer, but there can be no assurance that active trading in our Equity Shares will develop after the Offer, or if such trading develops that it will continue. Investors may not be able to sell our Equity Shares at the quoted price if there is no active trading in our Equity Shares.

The price at which our Equity Shares will trade at after the Offer will be determined by the marketplace and may be influenced by many factors, including:

- Our financial condition, results of operations and cash flows
- The history and prospects for our business
- An assessment of our management, our past and present operations and the prospects for as well as timing of our future revenues and cost structures
- The valuation of publicly traded companies that are engaged in business activities similar to ours
- quarterly variations in our results of operations
- Results of operations that vary from the expectations of securities analysts and investors
- Results of operations that vary from those of our competitors
- Changes in expectations as to our future financial performance, including financial estimates by research analysts and investors
- A change in research analysts’ recommendations
- Announcements by us or our competitors of significant acquisitions, strategic alliances, joint operations or capital commitments
- Announcements of significant claims or proceedings against us
- New laws and government regulations that directly or indirectly affecting our business
- Additions or departures of Key Managerial Personnel
- Changes in the interest rates
- Fluctuations in stock market prices and volume
- General economic conditions

The Indian stock markets have, from time to time, experienced significant price and volume fluctuations that have affected market prices for the securities of Indian companies. As a result, investors in our Equity Shares may experience a decrease in the value of our Equity Shares regardless of our financial performance or prospects.

58. *Fluctuations in the exchange rate of the Rupee and other currencies could have a material adverse effect on the value of the Equity Shares, independent of our operating results.*

The Equity Shares are quoted in Rupees on the EMERGE Platform of NSE. Any dividends in respect of the Equity Shares will be paid in Rupees and subsequently converted into appropriate foreign currency for repatriation. Any adverse movement in exchange rates during the time it takes to undertake such conversion may reduce the net dividend to investors. In addition, any adverse movement in exchange rates during a delay

in repatriating the proceeds from a sale of Equity Shares outside India, for example, because of a delay in regulatory approvals that may be required for the sale of Equity Shares may reduce the net proceeds received by shareholders. The exchange rate of the Rupee has changed substantially in the last two decades and could fluctuate substantially in the future, which may have a material adverse effect on the value of the Equity Shares and returns from the Equity Shares, independent of our operating results.

59. *There are restrictions on daily movements in the trading price of the Equity Shares, which may adversely affect a shareholder's ability to sell Equity Shares or the price at which Equity Shares can be sold at a particular point in time.*

Following the Offer, our listed Equity Shares will be subject to a daily "circuit breaker" imposed on listed companies by the Stock Exchanges, which does not allow transactions beyond certain volatility in the trading price of the Equity Shares. This circuit breaker operates independently of the index-based market-wide circuit breakers generally imposed by SEBI on Indian Stock Exchanges. The percentage limit on the Equity Shares' circuit breaker will be set by the Stock Exchanges based on historical volatility in the price and trading volume of the Equity Shares. The Stock Exchanges are not required to inform our Company of the percentage limit of the circuit breaker, and they may change the limit without our knowledge. This circuit breaker would effectively limit the upward and downward movements in the trading price of the Equity Shares beyond the circuit breaker limit set by the Stock Exchanges. As a result of this circuit breaker, we cannot give you any assurance regarding the ability of shareholders to sell Equity Shares or the price at which shareholders may be able to sell their Equity Shares.

60. *The determination of the Price Band and the Offer Price is based on various factors and assumptions and the Offer Price of the Equity Shares may not be indicative of the market price of the Equity Shares after the Offer.*

The determination of the Price Band is based on various factors and assumptions and will be determined by our Company in consultation with the BRLM. Furthermore, the Offer Price of the Equity Shares will be determined by our Company in consultation with the BRLM through the Book Building Process. These will be based on numerous factors, including factors as described under '*Basis of Offer Price*' on page 91 of this Draft Red Herring Prospectus and may not be indicative of the market price for the Equity Shares after the Offer. The factors that could affect the market price of the Equity Shares include, among others, broad market trends, our financial performance and results post-listing, and other factors beyond our control. We cannot assure you that an active market will develop, or sustained trading will take place in the Equity Shares or provide any assurance regarding the price at which the Equity Shares will be traded after listing.

61. *There is no guarantee that our Equity Shares will be listed on the NSE in a timely manner or at all.*

There is no guarantee that our Equity Shares will be listed on the NSE in a timely manner or at all. In accordance with Indian law, permission for listing and trading of our Equity Shares will not be granted until after certain actions have been completed in relation to this Offer and until Allotment of Equity Shares pursuant to this Offer. In accordance with current regulations and circulars issued by SEBI, our Equity Shares are required to be listed on SME Platform of the NSE (NSE Emerge) within such time as mandated under UPI Circulars, subject to any change in the prescribed timeline in this regard. However, we cannot assure you that the trading in our Equity Shares will commence in a timely manner or at all. Any failure or delay in obtaining final listing and trading approvals may restrict your ability to dispose of your Equity Shares.

62. *Investors may not be able to enforce a judgment of a foreign court against us, our Directors, the BRLM or any of their directors and executive officers in India respectively, except by way of a lawsuit in India.*

Our Company is a company incorporated under the laws of India. A majority of our assets, our Key Managerial Personnel and officers are located in India. As a result, it may not be possible for investors to affect service of process upon our Company or such persons in jurisdictions outside India, or to enforce judgments obtained against such parties outside India. Furthermore, it is unlikely that an Indian court would enforce foreign judgments if that court was of the view that the amount of damages awarded was excessive or inconsistent with public policy, or if judgments are in breach or contrary to Indian law. In addition, a party seeking to enforce a foreign judgment in India is required to obtain approval from the RBI to execute such a judgment or to repatriate outside India any amounts recovered. Recognition and enforcement of foreign judgments is provided for under Section 13 and Section 44A of the Code of Civil Procedure, 1908. India is not a party to any international treaty in relation to the recognition or enforcement of foreign judgments. India has reciprocal

recognition and enforcement of judgments in civil and commercial matters with only a limited number of jurisdictions, such as the United Kingdom, United Arab Emirates, Singapore and Hong Kong. In order to be enforceable, a judgment from a jurisdiction with reciprocity must meet certain requirements established in the Indian Code of Civil Procedure, 1908. The CPC only permits the enforcement and execution of monetary decrees in the reciprocating jurisdiction, not being in the nature of any amounts payable in respect of taxes, other charges, fines or penalties. Judgments or decrees from jurisdictions which do not have reciprocal recognition with India, including the United States, cannot be enforced by proceedings in execution in India. Therefore, a final judgment for the payment of money rendered by any court in a non-reciprocating territory for civil liability, whether or not predicated solely upon the general laws of the non-reciprocating territory, would not be directly enforceable in India. The party in whose favour a final foreign judgment in a non-reciprocating territory is rendered may bring a fresh suit in a competent court in India based on the final judgment within three years of obtaining such final judgment. However, it is unlikely that a court in India would award damages on the same basis as a foreign court if an action were brought in India or that an Indian court would enforce foreign judgments if it viewed the amount of damages as excessive or inconsistent with the public policy in India. Further, there is no assurance that a suit brought in an Indian court in relation to a foreign judgment will be disposed of in a timely manner. In addition, any person seeking to enforce a foreign judgment in India is required to obtain the prior approval of the RBI to repatriate any amount recovered, and we cannot assure that such approval will be forthcoming within a reasonable period of time, or at all, or that conditions of such approval would be acceptable. Such an amount may also be subject to income tax in accordance with applicable law.

63. *Under Indian law, foreign investors are subject to investment restrictions that limit our ability to attract foreign investors, which may adversely affect the trading price of the Equity Shares.*

Under foreign exchange regulations currently in force in India, transfer of shares between non-residents and residents are freely permitted (subject to certain restrictions), if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or falls under any of the exceptions referred to above, then a prior regulatory approval will be required. Additionally, shareholders who seek to convert Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India require a no-objection or a tax clearance certificate from the Indian income tax authorities. In addition, pursuant to the Press Note No. 3 (2020 Series), dated April 17, 2020, issued by the DPIIT, which has been incorporated as the proviso to Rule 6(a) of the FEMA Non-debt Rules, all investments under the foreign direct investment route by entities of a country or where the beneficial owner of the Equity Shares is situated in or is a citizen of any such country, can only be made through the Government approval route, as prescribed in the Consolidated FDI Policy dated October 15, 2020 and the FEMA Rules. While the term “beneficial owner” is defined under the Prevention of Money-Laundering (Maintenance of Records) Rules, 2005 and the General Financial Rules, 2017, neither the foreign direct investment policy nor the FEMA Rules provide a definition of the term “beneficial owner”. The interpretation of “beneficial owner” and enforcement of this regulatory change involves certain uncertainties, which may have an adverse effect on our ability to raise foreign capital. Further, there is uncertainty regarding the timeline within which the said approval from the GoI may be obtained, if at all. We cannot assure investors that any required approval from the RBI or any other governmental agency can be obtained on any particular terms or at all. For further information, see “***Restrictions on Foreign Ownership of Indian Securities***” on page 291 of this Draft Red Herring Prospectus.

64. *Any future issuance of Equity Shares by us or sales of Equity Shares by our Promoter could adversely affect the trading price of our Equity Shares and in the case of the issuance of Equity Shares by us result in the dilution of our then current Shareholders.*

Any future issuance of the Equity Shares, convertible securities or securities linked to the Equity Shares by us may dilute your shareholding in the Company, adversely affect the trading price of the Equity Shares and our ability to raise capital through an issue of our securities. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of the Equity Shares. No assurance may be given that we will not issue additional Equity Shares. The disposal of Equity Shares by any of our significant shareholders, or the perception that such sales may occur may significantly affect the trading price of the Equity Shares. We cannot assure you that we will not issue Equity Shares or that such shareholders will not dispose off, pledge or encumber their Equity Shares in the future.

As disclosed in “***Capital Structure***” on page 65 of this Draft Red Herring Prospectus, an aggregate of 20% of

our fully diluted post-Offer capital held by our Promoter shall be considered as minimum Promoter's Contribution and locked in for a period as prescribed from the date of Allotment. Except for the customary lock-in on our ability to issue equity or equity-linked securities discussed in "*Capital Structure*" on page 65 of this Draft Red Herring Prospectus, there is no restriction on disposal of Equity Shares by promoter. As such, there can be no assurance that our Company will not issue additional Equity Shares after the lock-in period expires or that our Promoter will not sell, pledge or encumber his Equity Shares after the lock-in periods expire. Future issuances of Equity Shares or convertible securities and the sale of the underlying Equity Shares could dilute the holdings of our Shareholders and adversely affect the trading price of our Equity Shares. Such securities may also be issued at prices below the then trading price of our Equity Shares or the Offer Price. Sales of Equity Shares by the Promoter could also adversely affect the trading price of our Equity Shares.

65. *You will not be able to immediately sell any of the Equity Shares you purchase in this Offer on the Stock Exchange.*

The Equity Shares will be listed on the Stock Exchange. Pursuant to the applicable Indian laws and practice, permission for listing of the Equity Shares will not be granted till the Equity Shares in this Offer have been issued and allotted and all relevant documents are submitted to the Stock Exchange. Further, certain actions must be completed prior to the commencement of listing and trading of the Equity Shares such as the Investor's book entry or 'demat' accounts with the depository participants in India, expected to be credited within one (1) Working Day of the date on which the Basis of Allotment is finalized with the Designated Stock Exchange. In addition, the Allotment of Equity Shares in the Offer and the credit of such Equity Shares to the applicant's demat account with the depository participant could take approximately five Working Days from the Bid/Offer Closing Date and trading in Equity Shares upon receipt of listing and trading approval from the Stock Exchanges, trading of Equity Shares is expected to commence within six Working Days from Bid/ Offer Closing Date. Any failure or delay in obtaining the approval or otherwise commence trading in Equity Shares would restrict your ability to dispose of your Equity Shares. We cannot assure you that the Equity Shares will be credited to investors' demat accounts or that trading in the Equity Shares will commence in a timely manner (as specified herein) or at all. We could also be required to pay interest at the applicable rates if the allotment is not made, refund orders are not dispatched or demat credits are not made to investors within the prescribed time periods.

66. *Investors may be restricted in their ability to exercise pre-emptive rights under Indian law and thereby may suffer future dilution of their ownership position.*

Under the Companies Act, a company having share capital and incorporated in India must offer its holders of equity shares pre-emptive rights to subscribe and pay for a proportionate number of shares to maintain their existing ownership percentages before the issuance of any new equity shares, unless the pre-emptive rights have been waived by adoption of a special resolution by holders of three-fourths of the equity shares voting on such resolution. However, if the law of the jurisdiction the investors are in, does not permit them to exercise their pre-emptive rights without our Company filing an offering document or registration statement with the applicable authority in such jurisdiction, the investors will be unable to exercise their pre-emptive rights unless our Company makes such a filing. If we elect not to file a registration statement, the new securities may be issued to a custodian, who may sell the securities for the investor's benefit. The value such custodian receives on the sale of such securities and the related transaction costs cannot be predicted. In addition, to the extent that the investors are unable to exercise pre-emptive rights granted in respect of the Equity Shares held by them, their proportional interest in our Company would be reduced.

67. *You may be subject to Indian taxes arising out of capital gains on the sale of our Equity Shares.*

Previously, any gain realized on the sale of listed equity shares on or before March 31, 2018 on a stock exchange held for more than 12 months was not subject to long term capital gains tax in India if Securities Transaction Tax ("STT") was paid on the sale transaction and additionally, as stipulated by the Finance Act, 2017, STT had been paid at the time of acquisition of such equity shares on or after October 1, 2004, except in the case of such acquisitions of Equity Shares which are not subject to STT, as notified by the Central Government under notification no. 43/2017/F. No. 370142/09/2017-TPL on June 5, 2017. However, the Finance Act, 2024, now seeks to tax on such long-term capital gains exceeding ₹ 1,25,000 arising from sale of equity shares on or after April 1, 2024, while continuing to exempt the unrealised capital gains earned up to January 31, 2018, on such Equity Shares. Accordingly, you may be subject to payment of long-term capital gains tax in India, in addition to payment of STT, on the sale of any Equity Shares held for more than 12 months. STT will be levied on and collected by a domestic stock exchange on which the Equity Shares are sold.

Further, any gain realized on the sale of listed equity shares held for a period of 12 months or less will be subject to short-term capital gains tax in India. Capital gains arising from the sale of the Equity Shares will be exempt from taxation in India in cases where the exemption from taxation in India is provided under a treaty between India and the country of which the seller is resident. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on a gain upon the sale of the Equity Shares.

68. *QIBs and Non-Institutional Investors are not permitted to withdraw or lower their applications (in terms of quantity of Equity Shares or the Application Amount) at any stage after submitting an Application and Retail Individual Investors are not permitted to withdraw their Applications after Application/Offer Closing Date.*

Pursuant to the SEBI ICDR Regulations, QIBs and Non-Institutional Investors are required to pay the Application Amount on submission of the Application and are not permitted to withdraw or lower their Application (in terms of quantity of Equity Shares or the Application Amount) at any stage after submitting an Application. Retail Individual Investors can revise their Application during the Offer Period and withdraw their Application until Offer Closing Date.

Therefore, QIBs and Non-Institutional Investors would not be able to withdraw or lower their Application, notwithstanding adverse changes in international or national monetary policy, financial, political or economic conditions, our business, results of operations, or otherwise, at any stage after the submission of their Applications.

69. *Rights of shareholders of our Company under Indian law may be more limited than under the laws of other jurisdictions.*

Our Articles of Association, composition of our Board, Indian laws governing our corporate affairs, the validity of corporate procedures, directors' fiduciary duties, responsibilities and liabilities, and shareholders' rights may differ from those that would apply to a company in another jurisdiction. Shareholders' rights under Indian law may not be as extensive and wide-spread as shareholders' rights under the laws of other countries or jurisdictions. Investors may face challenges in asserting their rights as shareholder of our Company than as a shareholder of an entity in another jurisdiction.

Justification for "Holding Period" levels derived from our Restated Financial Statements

S. No.	Particulars
Current Assets	
Inventory	<p>Inventories include WIP, untelecasted TV serials, Music Album, and OTT Series. The work in progress days during the fiscal years 2022, 2023 and 2024 were 17 days, 8 days and 3 days respectively as all the shows were at on Air Stage as on 31st March.</p> <p>Looking ahead to the fiscal years 2025, 2026 and 2027, the projected Work in progress days are increasing to 13 days, 39 days and 68 days respectively as the existing shows of the company are close and company is planning to introduce/produce new shows during the current fiscal year and hence company need to maintain inventory of 15 episodes for each of the show.</p> <p>Furthermore Company is also diversifying into the music business and will also produce the OTT content where the shows are needed to be produced in advance and are released in "one go" instead of episodic basis like TV shows,</p>

S. No.	Particulars
	<p>Holding cost of OTT Content is much high than the TV Shows.</p> <p>The company anticipates that its ongoing efforts to optimize operational efficiency and refine production workflows will result in a more streamlined content creation process like Music Album and OTT Series.</p> <p>Additionally, market insights and audience feedback play a crucial role in shaping these projections, ensuring that the content produced remains both timely and of high quality, aligning with viewer preferences and industry trends.</p>
Trade Receivables	<p>The receivable days during the fiscal years 2022, 2023 and 2024 were 58, 60 and 69 respectively. Looking ahead to the fiscal years 2025, 2026 and 2027, the projected receivable days are 84-85 days for Music Album and OTT series. This estimation is based on the industry standards, as the company anticipates that its customers will follow an industry standard timeline of approx 3 months for repaying the company after the delivery of its products. The projected increase in trade receivables days is a strategic decision aimed at fostering higher sales growth. We intend to provide our customers with extended credit periods, allowing them more time to settle their invoices.</p>
Current Liabilities	
Trade Payables	<p>The payable days for the company during the fiscal years 2022, 2023 and 2024 were 80 days, 74 days and 85 days, respectively. Since the company deals with many MSME Vendors, it needs to pay them within 45 days as per requirement of MSME Act. Further to improve profitability, the company regularly explore various commercial negotiation strategies including availing discounts by offering advance payments or decreasing credit period. Such strategies help to optimize costs but leads to reduce the Trade Payable Cycle requiring more working capital.</p> <p>Looking ahead, the company anticipates that payable days will decrease to upto 58 days by the fiscal year 2027. By reducing the time it takes to settle our payables we aim to negotiate more favourable terms and conditions with our suppliers, enabling us to access competitive pricing for the services we received.</p>

MACROECONOMIC OVERVIEW

Forces Shaping the Outlook

The global economic recovery from the COVID-19 pandemic, Russia’s invasion of Ukraine, and the cost-of-living crisis is proving surprisingly resilient. Inflation is falling faster than expected from its 2022 peak, with a smaller-than-expected toll on employment and activity, reflecting favorable supply-side developments and tightening by central banks, which has kept inflation expectations anchored. At the same time, high interest rates aimed at fighting inflation and a withdrawal of fiscal support amid high debt are expected to weigh on growth in 2024.

Growth resilient in major economies. Economic growth is estimated to have been stronger than expected in the second half of 2023 in the United States, and several major emerging market and developing economies. In several cases, government and private spending contributed to the upswing, with real disposable income gains supporting consumption amid still-tight—though easing—labor markets and households drawing down on their accumulated pandemic-era savings. A supply-side expansion also took hold, with a broad-based increase in labor force participation, resolution of pandemic-era supply chain problems, and declining delivery times. The rising momentum was not felt everywhere, with notably subdued growth in the euro area, reflecting weak consumer sentiment, the lingering effects of high energy prices, and weakness in interest-rate-sensitive manufacturing and business investment. Low-income economies continue to experience large output losses compared with their pre-pandemic (2017–19) paths amid elevated borrowing costs.

Inflation subsiding faster than expected. Amid favorable global supply developments, inflation has been falling faster than expected, with recent monthly readings near the pre-pandemic average for both headline and underlying (core) inflation (Figure 1). Global headline inflation in the fourth quarter of 2023 is estimated to have been about 0.3 percentage point lower than predicted in the October 2023 WEO on a quarter-over-quarter seasonally adjusted basis. Diminished inflation reflects the fading of relative price shocks—notably those to energy prices—and their associated pass-through to core inflation.¹ The decline also reflects an easing in labor market tightness, with a decline in job vacancies, a modest rise in unemployment, and greater labor supply, in some cases associated with a strong inflow of immigrants. Wage growth has generally remained contained, with wage-price spirals—in which prices and wages accelerate together—not taking hold. Near-term inflation expectations have fallen in major economies, with long-term expectations remaining anchored.

Figure 1. Global Inflation: Rise and Fall
(Month-over-month annualized percent change, seasonally adjusted)

Sources: Haver Analytics; and IMF staff calculations.
Note: The figure plots the median of a sample of 57 economies that accounts for 78 percent of World Economic Outlook world GDP (in weighted purchasing-power-parity terms) in 2023. Vertical axes are cut off at –4 percent and 16 percent. The bands depict the 10th to 90th percentiles of inflation across economies. “Core inflation” is the percent change in the consumer price index for goods and services, excluding food and energy (or the closest available measure). AEs = advanced economies; EMDEs = emerging market and developing economies.

¹ The annual average oil price is estimated to have declined by about 16 percent in 2023. In October 2023, in the context of the conflict in Gaza and Israel, oil prices initially increased, followed by a retrenchment as concerns about a regional escalation of the conflict declined.

High borrowing costs cooling demand. To reduce inflation, major central banks raised policy interest rates to restrictive levels in 2023, resulting in high mortgage costs, challenges for firms refinancing their debt, tighter credit availability, and weaker business and residential investment. Commercial real estate has been especially under pressure, with higher borrowing costs compounding post pandemic structural changes. But with inflation easing, market expectations that future policy rates will decline have contributed to a reduction in longer-term interest rates and rising equity markets (Box 1). Still, long-term borrowing costs remain high in both advanced and emerging market and developing economies, partly because government debt has been rising. In addition, central banks' policy rate decisions are becoming increasingly asynchronous. In some countries with falling inflation—including Brazil and Chile, where central banks tightened policy earlier than in other countries—interest rates have been declining since the second half of 2023. In China, where inflation has been near zero, the central bank has eased monetary policy. The Bank of Japan has kept short-term interest rates near zero.

Fiscal policy amplifying economic divergences. Governments in advanced economies eased fiscal policy in 2023. The United States, where GDP had already exceeded its prepandemic path, eased policy more than did euro area and other economies in which the recovery was incomplete. In emerging market and developing economies, in which output has on average fallen even further below the prepandemic trend, on average the fiscal stance is estimated to have been neutral. The exceptions include Brazil and Russia, where fiscal policy eased in 2023. In low-income countries, liquidity squeezes and the elevated cost of interest payments—averaging 13 percent of general government revenues, about double the level 15 years ago—crowded out necessary investments, hampering the recovery of large output losses compared with prepandemic trends. In 2024, the fiscal policy stance is expected to tighten in several advanced and emerging market and developing economies to rebuild budgetary room for maneuver and curb the rising path of debt, and this shift is expected to slow growth in the near term.

THE FORECAST

Growth Outlook: Resilient but Slow

Global growth, estimated at 3.1 percent in 2023, is projected to remain at 3.1 percent in 2024 before rising modestly to 3.2 percent in 2025 (Table 1). Compared with that in the October 2023 WEO, the forecast for 2024 is about 0.2 percentage point higher, reflecting upgrades for China, the United States, and large emerging market and developing economies. Nevertheless, the projection for global growth in 2024 and 2025 is below the historical (2000–19) annual average of 3.8 percent, reflecting restrictive monetary policies and withdrawal of fiscal support, as well as low underlying productivity growth. Advanced economies are expected to see growth decline slightly in 2024 before rising in 2025, with a recovery in the euro area from low growth in 2023 and a moderation of growth in the United States. Emerging market and developing economies are expected to experience stable growth through 2024 and 2025, with regional differences.

World trade growth is projected at 3.3 percent in 2024 and 3.6 percent in 2025, below its historical average growth rate of 4.9 percent. Rising trade distortions and geoeconomic fragmentation are expected to continue to weigh on the level of global trade. Countries imposed about 3,200 new restrictions on trade in 2022 and about 3,000 in 2023, up from about 1,100 in 2019, according to Global Trade Alert data.

These forecasts are based on assumptions that fuel and nonfuel commodity prices will decline in 2024 and 2025 and that interest rates will decline in major economies. Annual average oil prices are projected to fall by about 2.3 percent in 2024, whereas nonfuel commodity prices are expected to fall by 0.9 percent. IMF staff projections are for policy rates to remain at current levels for the Federal Reserve, the European Central Bank, and the Bank of England until the second half of 2024, before gradually declining as inflation moves closer to targets. The Bank of Japan is projected to maintain an overall accommodative stance.

ADVANCED ECONOMIES

For advanced economies, growth is projected to decline slightly from 1.6 percent in 2023 to 1.5 percent in 2024 before rising to 1.8 percent in 2025. An upward revision of 0.1 percentage point for 2024 reflects stronger-than-expected US growth, partly offset by weaker-than-expected growth in the euro area.

- In the United States, growth is projected to fall from 2.5 percent in 2023 to 2.1 percent in 2024 and 1.7 percent in 2025, with the lagged effects of monetary policy tightening, gradual fiscal tightening, and a softening in labor

markets slowing aggregate demand. For 2024, an upward revision of 0.6 percentage point since the October 2023 WEO largely reflects statistical carryover effects from the stronger-than-expected growth outcome for 2023.

- Growth in the euro area is projected to recover from its low rate of an estimated 0.5 percent in 2023, which reflected relatively high exposure to the war in Ukraine, to 0.9 percent in 2024 and 1.7 percent in 2025. Stronger household consumption as the effects of the shock to energy prices subside and inflation falls, supporting real income growth, is expected to drive the recovery. Compared with the October 2023 WEO forecast, however, growth is revised downward by 0.3 percentage point for 2024, largely on account of carryover from the weaker-than-expected outcome for 2023.

Among other advanced economies, growth in the United Kingdom is projected to rise modestly, from an estimated 0.5 percent in 2023 to 0.6 percent in 2024, as the lagged negative effects of high energy prices wane, then to 1.6 percent in 2025, as disinflation allows an easing in financial conditions and permits real incomes to recover. The markdown to growth in 2025 of 0.4 percentage point reflects reduced scope for growth to catch up in light of recent upward statistical revisions to the level of output through the pandemic period. Output in Japan is projected to remain above potential as growth decelerates from an estimated 1.9 percent in 2023 to 0.9 percent in 2024 and 0.8 percent in 2025, reflecting the fading of one-off factors that supported activity in 2023, including a depreciated yen, pent-up demand, and a recovery in business investment following earlier delays in implementing projects.

In emerging market and developing economies, growth is expected to remain at 4.1 percent in 2024 and to rise to 4.2 percent in 2025. An upward revision of 0.1 percentage point for 2024 since October 2023 reflects upgrades for several regions.

GROWTH IN EMERGING AND DEVELOPING

- Growth in emerging and developing Asia is expected to decline from an estimated 5.4 percent in 2023 to 5.2 percent in 2024 and 4.8 percent in 2025, with an upgrade of 0.4 percentage point for 2024 over the October 2023 projections, attributable to China's economy. Growth in China is projected at 4.6 percent in 2024 and 4.1 percent in 2025, with an upward revision of 0.4 percentage point for 2024 since the October 2023 WEO. The upgrade reflects carryover from stronger-than-expected growth in 2023 and increased government spending on capacity building against natural disasters. Growth in India is projected to remain strong at 6.5 percent in both 2024 and 2025, with an upgrade from October of 0.2 percentage point for both years, reflecting resilience in domestic demand.

- Growth in emerging and developing Europe is projected to pick up from an estimated 2.7 percent in 2023 to 2.8 percent in 2024, before declining to 2.5 percent in 2025. The forecast upgrade for 2024 of 0.6 percentage point over October 2023 projections is attributable to Russia's economy. Growth in Russia is projected at 2.6 percent in 2024 and 1.1 percent in 2025, with an upward revision of 1.5 percentage points over the October 2023 figure for 2024, reflecting carryover from stronger-than-expected growth in 2023 on account of high military spending and private consumption, supported by wage growth in a tight labor market.

- In Latin America and the Caribbean, growth is projected to decline from an estimated 2.5 percent in 2023 to 1.9 percent in 2024 before rising to 2.5 percent in 2025, with a downward revision for 2024 of 0.4 percentage point compared with the October 2023 WEO projection. The forecast revision for 2024 reflects negative growth in Argentina in the context of a significant policy adjustment to restore macroeconomic stability. Among other major economies in the region, there are upgrades of 0.2 percentage point for Brazil and 0.6 percentage point for Mexico, largely due to carryover effects from stronger-than-expected domestic demand and higher-than-expected growth in large trading-partner economies in 2023.

- Growth in the Middle East and Central Asia is projected to rise from an estimated 2.0 percent in 2023 to 2.9 percent in 2024 and 4.2 percent in 2025, with a downward revision of 0.5 percentage point for 2024 and an upward revision of 0.3 percentage point for 2025 from the October 2023 projections. The revisions are mainly attributable to Saudi Arabia and reflect temporarily lower oil production in 2024, including from unilateral cuts and cuts in line with an agreement through OPEC+ (the Organization of the Petroleum Exporting Countries, including Russia and other non-OPEC oil exporters), whereas non-oil growth is expected to remain robust.

- In sub-Saharan Africa, growth is projected to rise from an estimated 3.3 percent in 2023 to 3.8 percent in 2024 and 4.1 percent in 2025, as the negative effects of earlier weather shocks subside and supply issues gradually improve. The downward revision for 2024 of 0.2 percentage point from October 2023 mainly reflects a weaker

projection for South Africa on account of increasing logistical constraints, including those in the transportation sector, on economic activity.

INFLATION OUTLOOK: STEADY DECLINE TO TARGET

Global headline inflation is expected to fall from an estimated 6.8 percent in 2023 (annual average) to 5.8 percent in 2024 and 4.4 percent in 2025. The global forecast is unrevised for 2024 compared with October 2023 projections and revised down by 0.2 percentage point for 2025. Advanced economies are expected to see faster disinflation, with inflation falling by 2.0 percentage points in 2024 to 2.6 percent, than are emerging market and developing economies, where inflation is projected to decline by just 0.3 percentage point to 8.1 percent. The forecast is revised down for both 2024 and 2025 for advanced economies, while it is revised up for 2024 for emerging market and developing economies, mainly on account of Argentina where the realignment of relative prices and elimination of legacy price controls, past currency depreciation, and the related pass-through into prices is expected to increase inflation in the near term. The drivers of declining inflation differ by country but generally reflect lower core inflation as a result of still-tight monetary policies, a related softening in labor markets, and pass-through effects from earlier and ongoing declines in relative energy prices.

Overall, about 80 percent of the world's economies are expected to see lower annual average headline and core inflation in 2024. Among economies with an inflation target, headline inflation is projected to be 0.6 percentage point above target for the median economy by the fourth quarter of 2024, down from an estimated gap of 1.7 percentage points at the end of 2023. Most of these economies are expected to reach their targets (or target range midpoints) by 2025. In several major economies, the downward revision to the projected path of inflation, combined with a modest upgrade to economic activity, implies a softer-than-expected landing.

Indian Economic Overview

Strong economic growth in the first quarter of FY23 helped India overcome the UK to become the fifth-largest economy after it recovered from the COVID-19 pandemic shock. Nominal GDP or GDP at Current Prices in the year 2023-24 is estimated at Rs. 293.90 lakh crores (US\$ 3.52 trillion), against the First Revised Estimates (FRE) of GDP for the year 2022-23 of Rs. 269.50 lakh crores (US\$ 3.23 trillion). The growth in nominal GDP during 2023-24 is estimated at 9.1% as compared to 14.2% in 2022-23. Strong domestic demand for consumption and investment, along with Government's continued emphasis on capital expenditure are seen as among the key driver of the GDP in the first half of FY24. During the period January-March 2024, India's exports stood at US\$ 119.10 billion, with Engineering Goods (25.01%), Petroleum Products (17.88%) and Organic and Inorganic Chemicals (7.65%) being the top three exported commodity. Rising employment and increasing private consumption, supported by rising consumer sentiment, will support GDP growth in the coming months.

Future capital spending of the government in the economy is expected to be supported by factors such as tax buoyancy, the streamlined tax system with low rates, a thorough assessment and rationalisation of the tariff structure, and the digitization of tax filing. In the medium run, increased capital spending on infrastructure and asset-building projects is set to increase growth multipliers. The contact-based services sector has demonstrated promise to boost growth by unleashing the pent-up demand. The sector's success is being captured by a number of HFIs (High-Frequency Indicators) that are performing well, indicating the beginnings of a comeback.

India has emerged as the fastest-growing major economy in the world and is expected to be one of the top three economic powers in the world over the next 10-15 years, backed by its robust democracy and strong partnerships.

India's appeal as a destination for investments has grown stronger and more sustainable because of the current period of global unpredictability and volatility, and the record amounts of money raised by India-focused funds in 2022 are evidence of investor faith in the "Invest in India" narrative.

MARKET SIZE

Real GDP or GDP at Constant (2011-12) Prices in the year 2023-24 is estimated at Rs. 172.90 lakh crores (US\$ 2.07 trillion), against the First Revised Estimates (FRE) of GDP for the year 2022-23 of Rs. 160.71 lakh crores (US\$ 1.92 trillion). The growth in real GDP during 2023-24 is estimated at 7.6% as compared to 7.0% in 2022-23. There are 113 unicorn startups in India, with a combined valuation of over US\$ 350 billion. As many as 14 tech startups are expected to list in 2024 Fintech sector poised to generate the largest number of future unicorns in India. With India presently has the third-largest unicorn base in the world. The government is also focusing on renewable sources by achieving 40% of its energy from non-fossil sources by 2030. India is committed to achieving the country's ambition of Net Zero Emissions by 2070 through a five-pronged strategy, 'Pancharit'. Moreover, India ranked 3rd in the

renewable energy country attractive index.

According to the McKinsey Global Institute, India needs to boost its rate of employment growth and create 90 million non-farm jobs between 2023 to 2030 in order to increase productivity and economic growth. The net employment rate needs to grow by 1.5% per annum from 2023 to 2030 to achieve 8-8.5% GDP growth between same time period. India's current account deficit (CAD) narrowed to 1.2% of GDP in the October-December quarter. The CAD stood at US\$ 10.5 billion for the third quarter of 2023-24 compared to US\$ 11.4 billion or 1.3% of GDP in the preceding quarter. This was largely due to higher service exports.

Exports fared remarkably well during the pandemic and aided recovery when all other growth engines were losing steam in terms of their contribution to GDP. Going forward, the contribution of merchandise exports may waver as several of India's trade partners witness an economic slowdown. According to Minister of Commerce and Industry, Consumer Affairs, Food and Public Distribution and Textiles Mr. Piyush Goyal, Indian exports are expected to reach US\$ 1 trillion by 2030.

ROAD AHEAD

In the second quarter of FY24, the growth momentum of the first quarter was sustained, and high-frequency indicators (HFIs) performed well in July and August of 2023. India's comparatively strong position in the external sector reflects the country's positive outlook for economic growth and rising employment rates. India ranked 5th in foreign direct investment inflows among the developed and developing nations listed for the first quarter of 2022.

India's economic story during the first half of the current financial year highlighted the unwavering support the government gave to its capital expenditure, which, in 2023-24, stood 37.4% higher than the same period last year. In the budget of 2023-24, capital expenditure took lead by steeply increasing the capital expenditure outlay by 37.4 % in BE 2023-24 to Rs.10 lakh crore (US\$ 120.12 billion) over Rs. 7.28 lakh crore (US\$ 87.45 billion) in RE 2022-23. The ratio of revenue expenditure to capital outlay increased by 1.2% in the current year,

signalling a clear change in favour of higher-quality spending. Stronger revenue generation because of improved tax compliance, increased profitability of the company, and increasing economic activity also contributed to rising capital spending levels. In February 2024, the Finance Ministry announced the total expenditure in Interim 2024-25 estimated at Rs. 47,65,768 crore (US\$ 571.64 billion) of which total capital expenditure is Rs. 11,11,111 crore (US\$ 133.27 billion).

With a reduction in port congestion, supply networks are being restored. The CPI-C inflation reduction from June 2022 already reflects the impact. In September 2023 (Provisional), CPI-C inflation was 5.02%, down from 7.01% in June 2022. With a proactive set of administrative actions by the government, flexible monetary policy, and a softening of global commodity prices and supply-chain bottlenecks, inflationary pressures in India look to be on the decline overall.

GROWTH DRIVERS

INCOME FACTOR DRIVING GROWTH

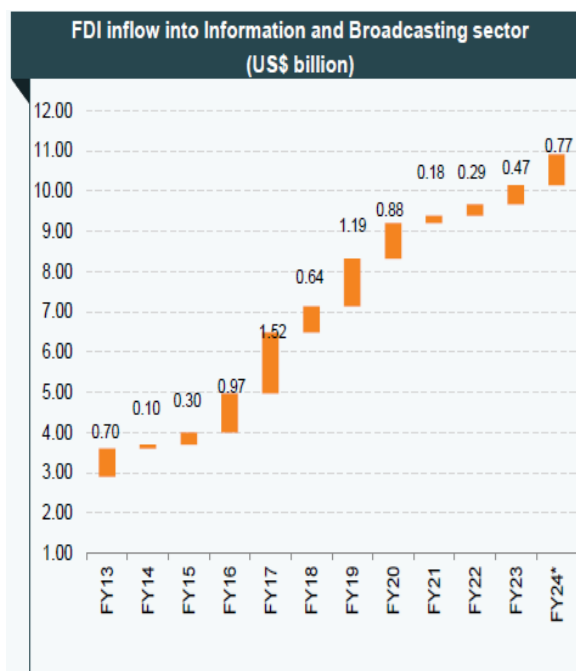

- Apart from the impact of rising income, widening of the consumer base will also be aided by the expansion of the middle-class, increasing urbanisation and changing lifestyles.
- The entertainment industry will also benefit from a continued rise in the propensity to spend among individuals. Empirical evidences point to the fact that decreasing dependency ratio leads to higher discretionary spending on entertainment.
- Traditionally, only advertising has been a key source of revenue for the M&E industry, but off late, revenue from subscription and value-added services has also contributed significantly. With consumers willing to pay for content and extra services, the subscription segment is going to play an important role in the post-digitisation era.
- Rising per capita incomes have also led to the significant growth of ticketed events, with music concerts, comedy performances, sports and other entertainment events all growing in 2023.
- Brand extensions by large Indian companies and international brand launches, all of which require the reach of TV, as India moves towards becoming one of the top three economies in the world (India's per capita income is expected to grow from approximately US\$ 2,500 in 2022 to US\$ 3,000 by 2025 which will keep driving consumption and grow the middle class significantly)

Note: Income distribution is calculated in constant 2015 dollars; \$1=65. Because of rounding, not all percentages add up to 100. F – Forecast

INCREASING FDI INFLOWS INTO THE SECTOR

- FDI inflows in the information and broadcasting sector (including print media) stood at US\$ 10.91 million between April 2000-December 2023.
- Demand growth, supply advantages and policy support are the key drivers in attracting FDI.
- The Government has increased the FDI limit from 74% to 100%.
- FDI limit in radio including private FM channels have been increased from 26% to 49%.
- FDI investment of up to 26% in an Indian firm dealing with publication of newspaper and periodicals.
- FDI investment of up to 26% in publications of Indian editions of foreign magazines.
- FDI investment of up to 100% in publications of scientific and technical magazines/ specialty journals/ periodicals.
- In February 2021, Prasar Bharati (India) and PSM (the official State Media of Maldives) inked an agreement to facilitate collaboration and capacity building in the field of broadcasting.

The Company's management has recast the financial statements in the form required by Schedule III of the Companies Act, 2013 for the purpose of restated financials statements (referred as the "Restated Summary Statements")

The restated financial statements of the Company have been prepared in accordance with the Generally Accepted Accounting Principles in India (Indian GAAP) to comply with the accounting standards specified under section 133 of the Companies Act, 2013, of the Companies (Accounts) Rules, 2014 and the relevant provisions of the Companies Act, 2013 ("the 2013 Act"), as applicable and Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) regulations 2009, as amended (the "Regulations"). The restated financial statements have been prepared on accrual basis under the historical cost convention. The accounting policies adopted in the preparation of the restated financial statements are consistently applied.

III USE OF ESTIMATES

The preparation of the restated financial statements in conformity with Generally Accepted Accounting Principles requires the Management to make estimates and assumptions that affect the reported balances of assets and liabilities and disclosures relating to contingent assets and liabilities as at the date of the restated financial statements and the income and expenses during the period /year. Examples of such estimates include provisions for doubtful debts, income taxes, post - sales customer support reported amounts of and the useful lives of Property Plant and Equipments and intangible assets.

IV REVENUE RECOGNITION:

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured in accordance with AS-9, Revenue Recognition. Sales are recognized on accrual basis, and only after transfer of services to the customer.

The Company derives revenue from producing television programs and selling them to the various television broadcasting channels. The Company identifies and evaluate each performance obligation under the contract. Revenue recognition is based on the delivery of performance obligations and an assessment of when control is transferred to the customer. Revenue is recognized either when the performance obligation in the contract has been performed ('point in time' recognition) or 'over time' as control of the performance obligation is transferred to the customer.

Revenue generated from the commissioned television programs produced for broadcasters is recognized over the period of time over the contract period. Revenue excludes any taxes and duties collected on behalf of the government.

Interest Income: Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's carrying amount on initial recognition.

Dividend Income: Dividend Income is recognised when the owners right to receive payment is established and it is probable that the economic benefits associated with the dividend will flow to the Company, and the amount of the dividend can be measured reliably.

Other Income : Other items of income and expenditure are recognized on accrual basis and as a going concern basis, and the accounting policies are consistent with the generally accepted accounting policies.

V PROPERTY, PLANT AND EQUIPMENT

Property Plant and Equipments are stated at cost, less accumulated depreciation and any accumulated impairment loss. Cost includes cost of

acquisition of an asset and expenditure that is directly attributable to the acquisition of the asset like freight, installation cost, duties and taxes to the extent input credit is unavailable, and other incidental expenses, incurred up to the installation stage, related to such acquisition.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance expenses are charged to Statement of Profit and Loss during the reporting period in which they are incurred.

Gains or losses arising from the retirement or disposal of a tangible asset are determined as the difference between the net disposal proceeds and the carrying amount of the asset and recognised as income or expense in the Statement of Profit and Loss.

Intangible assets that are acquired by the Company are measured initially at cost. After initial recognition, an intangible asset is carried at its cost less any accumulated amortization and any accumulated impairment loss.

VI DEPRECIATION AND AMORTIZATION

The Company has applied the estimated useful lives as specified in Schedule II of the Companies Act 2013 and calculated the depreciation as per the Written Down Value (WDV) method to allocate the cost of the asset, net of their residual values. Depreciation on new assets acquired during the year is provided at the rates applicable from the date of acquisition to the end of the financial year. In respect of the assets sold during the year, depreciation is provided from the beginning of the year till the date of its disposal.

The residual values are not more than 5% of the original cost of the asset. The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is higher than its estimated recoverable amount.

Intangible assets are amortized on a straight-line basis over the estimated useful life as specified in Schedule II of the Companies Act 2013. The amortisation expense on intangible assets with finite lives is recognised in the statement of profit and loss. In respect of the assets sold during the year, amortization is provided from the beginning of the year till the date of its disposal.

The estimated useful lives of assets are as follows:

Useful life of Property, Plant and Equipments

Category	Useful Life
Computer & Accessories	3-6 Years
Furniture & Fittings	10 Years
Vehicles	8 Years
Intangibles	5 Years

VII EMPLOYEE BENEFITS

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognized as an expense during the period when the employees render the services.

VIII TAXES ON INCOME:

Tax expense comprises both current and deferred tax at the applicable enacted/ substantively enacted rates. Current tax represents the amount of income tax payable/ recoverable in respect of the taxable income/ loss for the reporting period.

The Provision for current income tax charge is calculated on the basis of the tax laws enacted (i.e Income Tax Act, 1961) or substantively enacted at the end of the reporting period in the country where the Company generates taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred Tax represents the effect of "timing differences" between taxable income and accounting income for the reporting period that originate in one period and capable of reversal in one or more subsequent periods. Deferred Tax Assets are recognized only on reasonable certainty of realization and on unabsorbed depreciation and brought forward losses only on virtual certainty.

Deferred Tax assets are recognised for all deductible temporary differences, unused tax losses and carry forward tax credits only if it is probable that future taxable amounts will be available to utilise those temporary differences, tax losses and tax credits.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in the Statement of Profit and Loss.

IX PROVISIONS AND CONTINGENCIES:

A provision is recognized when the company has a legal and constructive obligation as a result of a past event, for which it is probable that cash outflow will be required and a reliable estimate can be made of the amount of the obligation. Provisions are measured at the present value

of managements best estimate of the expenditure required to settle the present obligation at the end of the reporting period. Provisions are not recognized for future operating losses. Contingent liabilities are disclosed when the company has a possible or present obligation where it is not probable that outflow of resources will be required to settle it. Contingent assets are neither recognized nor disclosed.

The company exercises judgment in measuring and recognising provisions and the exposures to contingent liabilities which is related to pending litigation or other outstanding claims. Judgment is necessary in assessing the likelihood that a pending claim will succeed, or a liability will arise, and to quantify the possible range of the financial settlement. Because of the inherent uncertainty in this evaluation process, actual liability may be different from the originally estimated as provision or contingent liability.

X EARNING PER SHARE:

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting preference dividends and attributable taxes) by the weighted average number of equity shares outstanding during the period.

For the purpose of calculating diluted earning per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of equity shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

XI CASH AND CASH EQUIVALENTS:

Cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. For the purpose of Cash Flow Statement, Cash and cash equivalents are considered net of outstanding overdrafts, if any, as they are considered an integral part of Company's cash management.

XII INVESTMENTS

PHASED IMPLEMENTATION OF UNIFIED PAYMENTS INTERFACE

SEBI has issued UPI Circulars in relation to streamlining the process of public issues of equity shares and convertibles. Pursuant to the UPI Circulars, UPI will be introduced in a phased manner as a payment mechanism (in addition to the mechanism of blocking funds in the account maintained with SCSBs under the ASBA) for applications by RIIs through intermediaries with the objective of reducing the time duration from public issue closure to listing from six Working Days to up to three Working Days. Considering the time required for making necessary changes to the systems and to ensure a complete and smooth transition to the UPI Mechanism, the UPI Circulars proposes to introduce and implement the UPI Mechanism in three phases in the following manner:

1. **Phase I:** This phase was applicable from January 01, 2019, and lasted till June 30, 2019. Under this phase, a Retail Individual applicant, besides the modes of Bidding available prior to the UPI Circulars, also had the option to submit the Bid cum Application Form with any of the intermediaries and use his / her UPI ID for the purpose of blocking of funds. The time duration from public issue closure to listing continued to be six Working Days.
2. **Phase II:** This phase commenced on completion of Phase I i.e. with effect from July 01, 2019, and was to be continued for a period of three months or the launch of five main board public issues, whichever is later. Further, as per the SEBI circular SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019, the UPI Phase II was extended until March 31, 2020. Further still, as per SEBI circular SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020, the current Phase II of Unified Payments Interface with Application Supported by Blocked Amount be continued till further notice. Under this phase, submission of the Application Form by a Retail Individual Applicant through intermediaries to SCSBs for blocking of funds will be discontinued and will be replaced by the UPI Mechanism. However, the time duration from public issue closure to listing would continue to be six Working Days during this phase.
3. **Phase III:** The commencement period of Phase III is notified pursuant to the SEBI press release bearing number 12/2023 and as per the SEBI Circular No. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 09, 2023, where the revised timeline of T+3 days shall be made applicable in two phases i.e. (i) voluntary for all public issues opening on or after September 01, 2023; and (ii) mandatory on or after December 01, 2023. The Offer will be made under UPI Phase III of the UPI Circulars.

All SCSBs offering the facility of making applications in public issues are required to provide a facility to make applications using the UPI Mechanism. Further, in accordance with the UPI Circulars, our Company has appointed [●] as the Sponsor Bank to act as a conduit between the Stock Exchanges and NPCI in order to facilitate the collection of requests and/or payment instructions of the Retail Individual Investors into the UPI mechanism.

Pursuant to the UPI Circular, SEBI has set out specific requirements for the redressal of investor grievances for applications that have been made through the UPI Mechanism. The requirements of the UPI Circular include the appointment of a nodal officer by the SCSB and submission of their details to SEBI, the requirement for SCSBs to send SMS alerts for the blocking and unblocking of UPI mandates, the requirement for the Registrar to submit details of canceled, withdrawn or deleted applications, and the requirement for the bank accounts of unsuccessful Bidders to be unblocked no later than one day from the date on which the Basis of Allotment is finalized. Failure to unblock the accounts within the timeline would result in the SCSBs being penalized under the relevant securities law. Additionally, if there is any delay in the redressal of investors' complaints in this regard, the relevant SCSB as well as the post-offer BRLM will be required to compensate the concerned investor.

SEBI through its circular (SEBI/HO/CFD/DIL2/CIR/P/2022/45) dated April 05, 2022, has prescribed that all individual investors applying in initial public offerings opening on or after May 01, 2022, where the application amount is up to ₹ 5,00,000, shall use UPI. Individual investors bidding under the non-institutional portion bidding for more than ₹ 200,000 and up to ₹ 5,00,000, using the UPI Mechanism, shall provide their UPIID in the Bid-cum-Application Form for Bidding through Syndicate, sub-syndicate members, Registered Brokers, RTAs or

CDPs, or online using the facility of linked online trading, demat and bank account (3 in 1 type accounts), provided by certain brokers.

The processing fees for applications made by Retail Individual Bidders using the UPI Mechanism may be released to the remitter banks (SCSBs) only after such banks provide a written confirmation of compliance with SEBI Circular No: SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 02, 2021 read with SEBI Circular No: SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021.

METHOD OF ALLOTMENT AS MAY BE PRESCRIBED BY SEBI FROM TIME TO TIME

The below outline summarizes the steps followed from the receipt of applications to the final allotment:
Allotment Process Methodology

1. Post-Approval of Basis of Allotment from the Exchange

Once the basis of allotment is approved by the stock exchange, the following steps are initiated:

- **Random Allocation:** The basis of allotment is based on a reverse application number to ensure a random lottery system, eliminating any discretion in the allotment process.
- **Sharing of Lucky Numbers:** The Exchange provides the lucky numbers based on the ratio determined for each investor category.

2. Reversal of Application Numbers

- **Reversal Process:** For each valid application, the application number is reversed. For example, an application number of 12345678 becomes 87654321 after reversal.
 - **Arrangement:** All reversed application numbers are arranged in ascending order for each investor category.

3. Segregation into Buckets

- **Bucket Creation:** If the ratio for allotment is determined to be 2:5, the applications are segregated into buckets of five. This allows for a structured allocation approach.
- **Selection of Lucky Numbers:** The Exchange assigns lucky numbers (e.g., 3 and 4) to determine which applications will receive shares from each bucket.

4. Allotment Determination

- **Allocating Shares:** For every bucket of applications:
Applications numbered 3 and 4 in each bucket will be selected for allotment.
This process is repeated for all categories that require allotment via the lottery system.

Note on Allotment Process

1. Receipt & Validation of Bid Data

- **Data Download:** Bid data is downloaded from the stock exchanges through SFTP (Secure File Transfer Protocol)
 - **Validation Checks:** The data is validated against depository records to check for:
 - Invalid demat accounts
 - Invalid client status
 - PAN mismatch records
 - **Error Marking:** Any errors identified are marked with the corresponding rejection criteria.

2. Collection of Final Certificates (FCs) and Schedule Data

- Follow-Up: The RTA follows up with Self-Certified Syndicate Banks (SCSBs) to collect Final Certificates confirming:

The total amount blocked.
The number of applications.

- Reconciliation Process:

A reconciliation is performed between bid data and bank schedule data. Applications without funds blocked are removed from the master list.

Post-reconciliation, a valid dataset of applications is prepared for the allotment process.

3. Technical Rejection Process

- Identification of Valid Applications: The technical rejection process as per the terms outlined in the letter of offer is executed, which identifies valid applications eligible for the basis of allotment.

4. Basis of Allotment

- Category-wise Allocation: The basis of allotment is prepared for different categories:

Market Makers
Eligible Employees
Retail Individual Investors (RII) (applications under ₹2 lakhs)
High Net worth Individual Investors (HNI) (applications over ₹2 lakhs)

- Tagging Applications: Applications are tagged according to the above categories for allotment processing.

- Allocable Shares Calculation: Allocable shares for each category are determined as per the RHP and in proportion to subscriptions among each category.

Illustration of HNI Basis of Allotment

Assuming the following:

- Lot Size: 1,000 shares
- Allocable Shares as per RHP: 75,000 shares

No. of Shares applied for (Category wise)	Number of applications received	Total No. of Shares applied in each category	% to total	Proportionate shares available	Allocation per Applicant (Before rounding off)	Allocation per Applicant (After rounding off)	Ratio of allottees to applicants	Number of successful applicants (after rounding off)	Total No. of Shares allocated/ allotted	Surplus/ Deficit [14]-[7]

						1000	14:15		14000	347
		115000		75000						0

Allotment Process

1. Submission to Stock Exchange: The basis of allotment is submitted to the stock exchange for approval.
2. Draw of Lucky Numbers: The exchange assigns lucky numbers to each application category.

3. Application Number Reversal: Valid application numbers are reversed and sorted in ascending order.
4. Allocation Process: Based on the lucky numbers and the sorted application numbers, allotment is determined according to the previously defined ratio. For example, in the first category of 1000 lot, the 30 application numbers will be reversed and arranged in ascending order. They will be assigned numbers from 1 to 3 repeatedly in loop. If the lucky numbers chosen by stock exchange is 1 & 3 for this category, then those applications which were assigned with numbers 1 & 3 will be allottee applications and the applications assigned with number 2 will be non-allottee application.
5. Final Confirmation: Successful applicants are notified, and shares are credited to their demat accounts. Refunds for unsuccessful applications are processed accordingly.

Conclusion

This comprehensive methodology outlines the RTA's operational process from receiving applications to final allotment. By implementing these steps, the RTA ensures a fair, transparent, and efficient allotment process in accordance with regulatory guidelines and market practices.
