The risk factors as envisaged by the management along with the proposals to address the risk if any. Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify the financial implication of any of the risks described in this section.

In this Draft Red Herring Prospectus, any discrepancies in any table between total and the sums of the amount listed are due to rounding off. Any percentage amounts, as set forth in **“Risk Factors”** on page 17 and **“Management Discussion and Analysis of Financial Condition and Results of Operations”** on page 182 of this Draft Red Herring Prospectus unless otherwise indicated, has been calculated on the basis of the amount disclosed in the “Audited Financial Statements, as restated” prepared in accordance with the Indian GAAP.

2. Major portion of our total revenue is derived from the security services business (Manned Guarding). Any decrease in the demand for our security services may have an adverse impact on our business, financial condition and result of operations.

We derive majority of our revenue from the Manned Guarding service. Below listed are the details of the revenue break-up of our company for fiscal year 2016, 2017 and nine month ended December 2017:-

Particular	Revenue from operations (in lakhs)					
	Nine months Dec 2017		Fiscal Year 2017		Fiscal Year 2016	
	Amount	% of total	Amount	% of total	Amount	% of total
Manned Guarding Service	6158.66	77.27	6064.64	68.57	4163.36	72.54
Cash Handling Service	1535.36	19.26	2144.04	24.24	1471.72	25.64
Logistic Management Service	276.41	3.47	636.04	7.19	104.34	1.82
Total	7970.43	100.00	8844.72	100.00	5739.42	100.00

The portion of our revenue generated from the manned guarding business account for around 70% of the revenue generated by our company. Any reduction in the demand for the manned guarding service due to any shift from manned guarding toward electronic security, alarms, video surveillance and other technology based systems may have an adverse effect on our revenues. Although, we are focusing on development and growth of our other segments i.e. Cash Handling and E-Commerce Logistic management service but the manned guarding business will continue to constitute a significant portion of our revenues and operating profits and any decline in, or adverse impact on, our manned guarding business may have an adverse impact on our business, financial condition and results of operations.

3. Our business is subject to operational risks which are inherent in our business. Any failure on our part to manage such risk may have an adverse impact on our financials and result of operations.

Few operational risks are inherent in our businesses due to the nature of the industry in which we operate. We render manned security service, at customer premises in different environment such as manufacturing facilities, vehicles, hospitals, hotels, corporate canteens and public events and also provide transport and logistics services in relation to cash and valuables. Our employees deliver security, monitoring and crisis response services in these environments, which involve physical inspection and interaction with person associated with our customers and various other member of public. Consequently, our business is associated with numerous safety, privacy and public health concerns. We may be subject to substantial liabilities if we fail to satisfy applicable safety, privacy or health standards or cause harm to individuals or entities in the course of rendering our services.

In our cash logistics business, where we provide transport of cash, valuables and bullion, our personnel are subject to a risk of

injuries and fatalities resulting from criminal acts including looting and armed robbery of cash transportation vehicle, robbery etc.

While we believe that we have in place adequate training and policies, however, any failure to adequately address and manage risks inherent in our business, or any failure to meet the operational requirements of our customers, or failure to develop effective risk mitigation measures, or respond adequately to a crisis situation, could have an adverse effect on our reputation, customer retention, earnings and profitability and thus consequently effect our business, results of operations and financial condition.

4. We may be subjected to risk related to service related claims and losses or employee disruptions which may have an adverse effect on our reputation, business, results of operations and financial condition.

Our business segments includes manned guarding service, cash handling service and e-commerce logistic service and thus require us to deploy our employees across the workplace and other premises of our customers. Our ability to control the workplace environment is limited. The risk associated with the deployment of our workforce includes possible claims relating to actions of our employees which may require us to indemnify our customer for any losses caused due to failure of our employees to perform their duties, violation of any regulations or mistakes committed by our employees, malicious acts by existing or former employees, damage to the customer's facilities or properties due to negligence of our employees and any criminal acts, torts or other negligent action by our employees.

Such claims may give rise to action against us by our customers and claims for damages, which could restrain our resources and result in loss of customers. Any such act or action taken against us may also result in negative publicity and adversely impact our reputation and ultimately have an adverse effect on our reputation, business, results of operations and financial condition.

5. Our businesses are manpower intensive and our inability to attract and retain skilled manpower could have an adverse impact on our growth, business and financial condition.

Our business is manpower intensive and requires us to hire a considerable number of personnel every year to sustain our growth. However, we cannot assure you that we will be able to retain or meet our manpower requirements in future which may adversely impact our growth and business.

Further, we spend significant time and resources in training the manpower we recruit, through our training institute. Our success is substantially dependent on our ability to recruit, train and retain skilled manpower. However, there is relatively higher rate of attrition in the industries in which we operate, especially the manned guarding services industry. Higher attrition rates lead to an increase in our training and recruitment costs, which may have an adverse impact on our profitability and financial condition. High attrition and competition for manpower may limit our ability to attract and retain the skilled manpower necessary for us to meet our future growth requirements. There can be no assurance that skilled manpower will continue to be available in sufficient numbers and at wages suitable to our requirements.

6. There have been certain instances of discrepancies in relation to certain statutory filings made or required to be filed by our Company with the RoC under applicable law and certain other non-compliances under Indian company law.

Our Company has not complied with certain statutory provisions under the Companies Act 1956 /2013, for instance our Company in the past has inadvertently borrowed certain amount which termed as deposits under the purview of Section 58A of Companies Act, 1956/ Section 73 of the Companies Act, 2013. However the same have been repaid and there is no such unsecured loans outstanding as on December 31, 2017. Also, in the past our Company has advanced a nominal amount to director and their related parties which was not permitted under Section 185 of the Companies Act, 2013, however, as on date there is no amount outstanding to be received from them. Further, certain of our corporate records relating to appointment and resignation of directors filed with the ROC in the year 1999 contain inadvertent typographical errors. Also, our company was required to increase its paid up capital to the required minimum during the year 2002 as per the Companies Amendment Act 2000, however the same was later done in year 2004. Further, our company was required to appoint Company Secretary u/s 203 of the Companies Act which was later appointed vide Board meeting dated March 14, 2018 but the Company secretary is yet to join the company. Further, our company has not opened a separate account for payment of dividend to preference shares which was required as per the provision of Section 205 of the Companies act 1956. Although no show cause notice have been issued against the Company till date in respect of above, in the event of any action being taken by the concerned authorities in respect of above, penal actions may be taken against the Company and its directors.

Further, there are certain form which are filed with delayed fees or not filed with the Registrar of Companies such as forms related to

creation and satisfaction of charge, Form 66 and Form MGT 14 required to be filed under section 180 and section 186 of the Companies Act. Also, our Company has not complied with some Accounting Standards in the past such as AS-15 and AS-18. However, now the Company has made necessary compliance in the re-stated financial statements of the Company. Although no show cause notice have been issued against the Company till date in respect of above, in the event of any cognizance being taken by the concerned authorities in respect of above, penal actions may be taken against the Company and its directors, in which event the financials of the Company and its directors shall be affected.

7. *We are subject to several labour legislations and regulations governing welfare, benefits and training of our employees. Any increase in wage and training costs could adversely affect our business, financial condition and cash flows.*

We are subject to laws and regulations relating to employee welfare and benefits such as minimum wage and maximum working hours, overtime, working conditions, non-discrimination, hiring and termination of employees, employee compensation, employee insurance, bonus, gratuity, provident fund, pension, superannuation, leave benefits and other such employee benefits. In case we are not able to fulfil any condition mentioned in the said laws or regulations or the regulations applicable to us are changed, which leads to an increase in employee benefits payable by us, there can be no assurance that we will be able to recover such increased amounts from our customers in a timely manner, or at all. We are required to comply with PSARA and other applicable state laws in India, which prescribe eligibility requirements for employing security personnel, such as minimum age requirements and standards of physical fitness. Any regulatory change in such conditions may limit our ability to recruit new employees or replace leaving employees effectively, thereby impacting our ability to expand our business. Also, if we fail to impart requisite training or do not comply with certain labour welfare legislations, we may be exposed to fines and we may also face the risk of our licenses under applicable legislations being cancelled or suspended. For further details on the labour laws and regulations applicable to us, please refer to "Key Industry Regulations and Policies" on page 110 of this Draft Red Herring Prospectus.

Amendments to labour laws could also affect our business adversely. Further, the regulations may vary from state to state which may make compliance with laws and regulations more complex, time consuming and costly. Additionally, if there is any failure by us to comply with applicable labour laws and regulations, we may be subject to penalties, incur increased costs, have our labour or PSARA Approvals revoked and suffer a disruption in our operations.

8. *Our Company is not in possession of documents pertaining to certain litigation described in the chapter titled "Outstanding Litigation and Material Developments".*

Our Company is not in possession of documents pertaining to certain litigation described in the chapter titled "Outstanding Litigation and Material Developments" beginning on page 195 of this Draft Red Herring Prospectus. Accordingly, reliance has been placed on court orders and undertakings furnished by the Company to describe the facts of litigation in the aforesaid chapter. Therefore, we cannot assure you that all information relating to the litigation is accurate.

9. *Our cash handling business includes additional risk associated with the cash and valuables handled by our employees. Any criminal act during the process or any misconduct by any employee may have an adverse effect on our reputation, business, results of operations and financial condition.*

Our cash handling business exposes us to various security risks and crimes including armed robbery, theft, fraud, embezzlement and other forms of illegal conduct. Security risk against our cash handling business can range from attacks by armed individuals at drop-off and pick-up points, in transit, or while cash is being carried outside of cash transportation vehicle, which can result in the death or serious bodily harm to our employees.

Our cash logistics operations depend substantially on the integrity of our employees and personnel. In the course of our recruitment and background check process when hiring employees, we may be supplied with false or incomplete background information. These situations expose us to risk of thefts, robberies, fraud and other forms of malpractice from our employees and personnel, including shortfalls in cash or the loading of counterfeit cash.

In addition, the scope of our insurance coverage may not be sufficient to cover the resulting liability from such criminal activity and moreover such attacks may reduce our customers confidence in our services and result in negative publicity even though we may not be at fault for the attack and ultimately effect our reputation, business, results of operations, cash flows and financial condition.

10. Our inability to effectively manage the newly started E Commerce logistic business may result in an adverse impact on our prospects and our revenues.

We have newly started the E Commerce logistic business during the year 2015-16. Our E- Commerce operation handles the last Mile (final movement of the goods to the customers) and the First Mile operations (movement of the goods from the E commerce companies to couriers for delivery) for the E - Commerce Companies. Though during the past there has been a growth in the revenue earned from the said business i.e. that revenue grows from 104.4 Lacs in the year 2016 to 636.00 lacs in the year 2017 but the future growth depends on our ability to develop and grow our business segment. We may experience difficulties that could delay or hinder the successful development, introduction and marketing of new businesses. We can give no assurance that we will be able to achieve the business performance, growth and profitability which we expect from our relatively new businesses. Further, our new services may not satisfy the demands of the market, which may result in an adverse effect on our business, results of operations and financial condition.

11. Our security services and cash management businesses include the carrying and handling of firearms and ammunition by certain of our employees. Any misuse or contravention of laws or policies relating to firearms by our personnel may adversely affect our reputation and expose us to potential liabilities.

We are exposed to certain risks associated with the handling of firearms and ammunition by our employees. We are not permitted to procure or license firearms in India directly and instead recruit armed guards and security officers who have procured licenses for the firearms they carry and are responsible for the purchase and maintenance of their firearms and ammunition and renewals of their licenses. This restriction exposes us to significant business and operational risk, particularly with respect to our cash handling business where the ability to carry firearms is usually a requirement in order to ensure enhanced security of high value items.

We may face liability or reputational damage in the event of misuse or contravention of laws or policies in handling arms and ammunition by our employees, resulting in any person, including an employee of a customer, member of the public being injured or killed. There can be no assurance that our employees or personnel will not be involved in an incident which may have an adverse effect on our reputation and expose us to liabilities, resulting in an adverse effect on our business and financial condition.

12. Our business derives a significant portion of its revenue from a few customers any loss of one or more such customers, the deterioration of their financial condition or prospects, or a reduction in their demand for our services could adversely affect our business, results of operations, financial condition and cash flows.

Our business is dependent on a limited number of customers for a significant portion of our revenues. For the period ending December 31, 2017 our top ten customers contributed 56.93% of our revenues from our business, respectively. Any reduction in growth or a slow-down in the business of our customers could result in a reduction of their requirement for our services, and result in a significant decrease in the revenues we derive from these customers. The loss of one or more of our significant customers or a reduction in the amount of business we obtain from them could have an adverse effect on our business and thus our results of operations, financial condition and cash flows. We cannot assure you that we will be able to maintain historic levels of business from such significant customers, or that we will be able to significantly reduce customer concentration in the future.

13. We have not entered into any definitive agreements to utilize a portion of the Net Proceeds. Any failure to enter into arrangements on favourable terms and conditions, in a timely manner or at all, may have an adverse affect on our business and financial results.

Our Company proposes to utilize the part of the net proceeds for acquiring cash vans aggregating to approximately Rs. 597.99 lacs and for Expansion of Branch Network aggregating to approximately Rs. 369.00 lacs. Our Company has identified the cash vans to be procured and has received the quotations from the suppliers, but we have not placed orders for these cash vans. Further, we have presently not identified the location of the Branch nor entered into any definitive agreements for establishment of such Branch. There can be no assurance that we will be able to conclude definitive agreements for such expenditures on terms anticipated by us. Also, we have estimated the cost on the basis of our internal management estimates and other publically available data. Our Company is subject to risks on account of inflation in the price of the cash vans and the estimates made by us for expansion of our branch network. Since the funding is from IPO proceeds, any delay in access to IPO proceeds would eventually delay the process of placing the orders. Any failure to enter into utilization arrangements on favourable terms and conditions in a timely manner or at all may

have an adverse affect on our business and our financial results. For further details read section “Objects of the Issue” beginning on page 81 of the Draft Red Herring Prospectus.

14. Our Company proposes to utilize part of the Proceeds to pre-pay certain secured loans availed by our Company, and accordingly, the utilization of that portion of the Net Proceeds will not result in creation of any tangible assets.

Our Company intends to use some portion of the Net Proceeds for the purposes of pre- payment, in full or part, of certain term secured loans availed by our Company. The details of the loans identified to be repaid or prepaid using the Net Proceeds have been disclosed in the section entitled “Objects of the Issue” on page 81 of this Draft Red Herring Prospectus. However, the repayment of the term loans are subject to various factors including, pre-payment penalty. While we believe that utilization of Net Proceeds for repayment of secured loans would help us to reduce our cost of debt and enable the utilization of our funds for further investment in business growth and expansion, the pre payment of loans will not result in the creation of any tangible assets for our Company.

15. Our company has entered into an agreement with Canbank Venture Capital Fund any breach of the condition of the agreement or any dilution of the stake by them may have an adverse affect on the price movement in the shares of the company.

Our company has entered into a Share Subscription cum Shareholder Agreement dated April 18, 2015 executed between Canbank Venture Capital Fund Limited (“CVCFL”), Our Company and Mr. Sushil Pyarelal Sharma, Sameer Sushilkumar Sharma and Mrs. Anubha Sameer Sharma (Promoters) of our Company. In terms of this agreement company has issued and allotted 45,454 (Forty Five Thousand Four Hundred Fifty Four) CVCFL class A equity shares of Rs. 10 (Rupees Ten) each at a premium of Rs. 210/- (Rupees Two Hundred Ten only) per share and 1,00,00,012 (One Crore and Twelve) Optionally Convertible Cumulative Redeemable Preference Shares (OCCPS) of the Company of Rs.10/- (Rupees Ten) each, aggregating to Rs. 10,00,00,120/- (Rupees Ten Crores One Hundred Twenty only) carrying a fixed rate of dividend of 12% (Twelve percent) per annum which are now converted into Equity shares of the company. For details refer chapter titled “Capital Structure” and “History and Certain Corporate Matters” beginning on page 59 and 118 of the Draft Red Herring Prospectus. There are certain conditions in the agreement with respect to the utilization of the money received from Canbank, appointment of nominee director etc. Any breach of the condition as presented in the agreement shall stand the agreement terminated. Further any sale of stake by Canbank Venture capital Fund to any other party or in the open market may affect the price of the shares of the company.

16. Some of our corporate records are not traceable.

Certain corporate records and regulatory filings made by us, including those in relation to: (i) certain share transfer forms, in relation transactions entered by our Promoters and (ii) resolutions and filings made in relation to allotment of shares made to promoter in the past are not traceable. Additionally, Despite having conducted an extensive search of our records, and a search in the records of the RoC, we have not been able to retrieve the aforementioned documents, and accordingly, have relied on other documents, including our statutory registers of members and share transfer, annual reports and audited financial statements for such matters. We cannot assure you that the abovementioned form filings and resolutions will be available in the future.

17. Our customer agreements include conditions which may limit our ability to carry out our business operations. Certain of our customer agreements may be terminated without cause, which could have an adverse impact on our business.

We enter into various agreements with our customers for rendering services. Some of these agreements require us to comply with the code of conduct and rules and regulations prescribed by our customers. Our customers also have the right to terminate service contracts in the event we do not comply with their requirements of the service contract or our services fail to meet the quality standards set out in our agreements. In the event that we are unable to meet such obligations, our customers may terminate the agreements and we may be required to pay compensation on terms set out in the agreements. Compliance with these requirements may restrict our ability to undertaken certain business operations and may increase our compliance costs.

Further, some of these agreements require us to provide indemnity to our customers, with respect of any negligent act, or omission by or our misconduct of our employees. In the event that there is an increase in the number of customers terminating our contracts without cause, or in case there is increase in claims against us, for which we are not insured and we are unable to secure new contracts to offset the loss of these contracts, our business, financial condition and results of operations may be adversely affected.

18. If we are unable to successfully execute our growth strategies, our business, prospects and results of operations could be materially and adversely affected.

Our growth depends on the continued growth of the industry, and to a large extent, the growth of our clients and any adverse developments in the industry could materially and adversely affect our growth prospects. Our growth is also dependent on our ability to expand our market share and our inability to do so may adversely affect our growth prospects. Our growth strategies could place significant demand on our management and our administrative, operational and financial infrastructure.

We could also encounter difficulties and delays in executing our growth strategies due to a number of factors, including, without limitation, delays in tendering process, lack of trained employees or any other risks that we may or may not have foreseen. Our management may also change its view on the desirability of current strategies, and any change in our strategies could put significant strain on our resources. Further, we may be unable to achieve any synergies or successfully integrate our plans and strategies.

Additionally, expansion into new geographic regions, may subject us to various challenges, including those relating to our lack of familiarity with the social, political, economic and cultural conditions of these new regions, language barriers, difficulties in staffing and managing such operations and the lack of support from authorities and reputation in such regions. We may also encounter other additional anticipated risks and significant competition in such markets. If we are unable to successfully execute our growth strategies, our business, prospects and results of operations could be materially and adversely affected.

19. We are required to obtain, maintain or renew statutory and regulatory licenses in respect of our business, and if we fail to do so, in a timely manner or at all, we may be unable to fully or partially operate our businesses and our results of operations may be adversely affected.

We require various statutory and regulatory licenses, permits and approvals to operate our business. We need to make compliance and applications at appropriate stages of our business to continue our operations. There can be no assurance that the relevant authorities will issue these approvals or licenses, or renewals thereof in a timely manner, or at all. Further any default by our Company in complying with the same may result in the cancellation of such licenses, approvals or registrations which may adversely affect our operations and financial strength.

Our Company is required to obtain registrations under The Carriage by Roads Act, 2007 and Food Safety and Standards Act, 2006 with respect to our e-commerce logistic service business. However, as on date of this Draft Prospectus, we have not obtained registration under The Carriage by Roads Act, 2007 and Food Safety and Standards Act, 2006. We may be penalized for non compliance with the aforementioned laws or may face a disruption in our e-commerce logistic service business till the time we receive the registration under the said Act.

Furthermore, we were a private limited company and have recently converted into a public limited company. Therefore, most of our licenses are in the prior name of the Company. We shall be taking necessary steps for transferring the approval in the new name of our Company. In case we fail to transfer/obtain the same in name of the Company, it will adversely affect our business or we may not be able to carry our business.

Further, certain licenses and registrations obtained by our Company contain certain terms and conditions, which are required to be complied regularly by us. Any default by our Company in complying with the same, may result in inter alia the cancellation of such licenses, consents, authorizations and/or registrations, which may adversely affect our operations. There can be no assurance that the relevant authorities will issue or renew any of such permits or approvals in time or at all. Failure to renew, maintain or obtain the required permits or approvals in time may result in the interruption of our operations and may have a material adverse effect on our business.

For further details, please refer to Chapter titled “Government and Other Approvals” beginning on page 202 of the Draft Red Herring Prospectus.

20. Any decrease in the use of cash as a mode of payment or any condition such as demonetization could have an adverse effect on our cash handling business.

Our cash handling business is significantly dependent on the maintenance and growth of the ATM network in India, increase in the number of bank branches in India and on the use of cash as a mode of payment. The increase in the payment options other than cash, increasing installation of card payment machines at point of sales and on-line purchase activity, could result in a reduced need for cash in the marketplace and a decline in the need for ATMs in the country. Further any event such as the demonetization of old currency note and increasing digitalization of payments could result in the reduction of use of cash. In the event of a decline in the use of cash as a mode of payment, our banking customers may decide not to expand their ATM network or may downsize their current ATM network. Any such decision by our banking customers could have an adverse effect on our business, results of operations, cash flows and financial condition.

Our cash handling businesses may also be adversely affected by any significant reduction in the amount of cash or valuables transported. This might arise through a reduction of cash in circulation or valuables held by our customers, whether generally or in particular geographical locations or markets.

21. *The industry in which we operate is highly competitive, which may adversely affect our business operation and financial condition.*

The industries in which we operate comprise a number of organized and unorganized players, particularly at the local level, with smaller operators competing for local contracts. There is intense pricing competition which may be preferred by certain customers, due to factors such as better pricing, ability to speak the regional language and better coordination with local administrative and law enforcement agencies. Competition in these industries may also intensify if service providers offering limited services begin to offer integrated services. Many of our competitors may also have greater financial, operational, technical, marketing and other resources, more experience in obtaining regulatory approvals, greater geographic reach, broader service offerings or a stronger sales force. In addition to our current competitors, additional competitors may enter the market. Our competitors may succeed in rendering services more effectively and economically than us, which may make our services uncompetitive and adversely affect our business, results of operations and financial condition. For further details of the Industry and Business segment see “Industry Overview” on pages 93 and “Our Business” on page 99 of this Draft Red Herring Prospectus.

22. *Our customers may delay or default in making payments for services rendered by us which could affect our profits, cash flows and liquidity.*

Our ability to collect cash from the customer and the collection period from trade receivables have an impact on our cash receipts and, consequently, on our cash flows. Trade receivables constitute a significant portion of our total assets, and were ₹ 3491.00 Lakhs, ₹ 3322.83 lakhs and ₹ 2283.53 lakhs for period ending on December 31, 2017, fiscal year 2017 and fiscal year 2016 respectively. Our trade receivables outstanding for over six months were ₹ 392.79 lakhs which is 11.25% of our total trade receivables for period ending on December 31, 2017 and Fiscal Year 2017, consequently, we face the risk of the uncertainty regarding the receipt of these outstanding amounts. An increase in bad debts or defaulting customers may lead to greater usage of our operating working capital and increased interest costs. Successful control of the trade receivables process requires development of appropriate contracting, invoicing, credit, collection and financing policies. Our failure to maintain such policies could have an adverse effect on our business, financial condition and cash flows.

The value of the trade receivable outstanding as on December 31, 2017 constitutes around 120.09 percentage of the net-worth of the company. Thus, any non recoverability of the amount from the trade receivables of the company may have an adverse affect on the future growth potential and financial position of the company.

23. *Shortage of owned vehicles for use in our E Commerce Logistic business may result in additional costs for third party hired vehicles. An inability to hire third party vehicles in such circumstances may also lead to consignment delivery delays, leading to customer dissatisfaction and loss of business.*

Although, we have a large fleet of goods transportation vehicles for our E Commerce Logistic Business but, in case of increase in demand due to peak season we may be required to hire vehicles for transportation operations. Third-party vehicles generally yield lower payload capacity compared to our own vehicles. Hiring third party vehicles also significantly increases operational expenses. In addition, availability of third-party vehicles may be uncertain during periods of high demand. In addition, we do not have any control over the servicing and maintenance of these vehicles. Any non-availability of hired vehicles, delay in obtaining them and/ or break down, on-road repairs or service interruptions may result in loss of orders, delays in delivery of cargo which could lead to

customer dissatisfaction and loss of business, which in turn could adversely affect our business, results of operations and financial condition.

24. *The increase in the age of our vehicles and an increase in the prices of new vehicles may adversely affect our business and results of operations.*

We use vehicle such as cash van for our cash handling business and other vehicles for E Commerce Logistics business. As the age of our fleet increases, we expect maintenance costs related to our fleet to also increase. We may also acquire new vehicles to expand our business or to manage operational efficiencies and reduce cost of maintenance. Unless we continue to expand and upgrade our fleet of cash van and goods transportation vehicles and acquire such vehicles on commercially favorable terms, our aging fleet may result in increased operating and maintenance costs. If the price of new cash van or goods transportation vehicles increases significantly, we will also incur increased depreciation expenses which may adversely affect our results of operations.

25. *Our Company has during the preceding one year from the date of the Draft Red Herring Prospectus have allotted Equity Shares at a price which may be lower than the Issue Price.*

In the last 12 months, we have made allotments of Equity Shares to the promoters and their relatives details of which are as follows:-

- Bonus issue in the ratio of 10:1 dated February 27, 2018 issued 67,32,550 Equity shares face value ₹10/- per Equity Share for consideration other than cash.

The Equity Shares allotted to investors pursuant to this Issue may be priced significantly higher due to various reasons including better performance by the Company, better economic conditions and passage of time. For Further details of equity shares issued, please refer to the chapter titled “*Capital Structure*” and “*Basis for Issue Price*” beginning on page 59 & 88 of this Draft Red Herring Prospectus.

26. *We have incurred substantial indebtedness which exposes us to various risks which may have an adverse effect on our business and results of operations*

Our ability to borrow and the terms of our borrowings will depend on our financial condition, the stability of our cash flows, general market conditions, economic and political conditions in the markets where we operate and our capacity to service debt. As on December 31, 2017, our total outstanding indebtedness was ₹ 1466.03 Lakhs.

Our significant indebtedness results in substantial amount of debt service obligations which could lead to:

- increasing our vulnerability to general adverse economic, industry and competitive conditions;
- limiting our flexibility in planning for, or reacting to, changes in our business and the industry;
- affecting our credit rating;
- limiting our ability to borrow more money both now and in the future; and
- increasing our interest expenditure and adversely affecting our profitability.

If the loans are recalled on a short notice, we may be required to arrange for funds to fulfil the necessary requirements. The occurrence of these events may have an adverse effect on our cash flow and financial conditions of the company. For further details regarding our indebtedness, see “*Statement of Financial Indebtedness*” on page 180 of this Draft Red Herring Prospectus.

Our financing arrangements contain restrictive covenants whereby we are required to obtain approval from our lender, regarding, among other things such as major changes in share capital, changes in fixed assets, creation of any other charge, not to issue any personal guarantee by the guarantors etc. There can be no assurance that such consents will be granted or that we will be able to comply with the financial covenants under our financing arrangements. Further, we have high outstanding amount due from our debtors which may result in a high risk in case of non-payment by these debtors. Our Company has availed unsecured loans which may be recalled by its lenders at any time. As on December 31, 2017, such loans amounted to Rs. 22.43 lacs. As a result, any such demand may materially and affect our business, cash flows, financial condition and results of operations. For further details, please see the section entitled “*Statement of Financial Indebtedness*” on page 180 of this Draft Red Herring Prospectus

Our company has obtained insurance coverage in respect of certain risks which consists of group personal accident

While we believe that the insurance coverage which we maintain would be reasonably adequate to cover the normal risks associated with the operation of our businesses, we cannot assure you that any claim under the insurance policies maintained by us will be honored fully, in part or on time, or that we have taken out sufficient insurance to cover all our losses. In addition, our insurance coverage expires from time to time. Apart from the above we have made two applications dated March 07, 2007 for registration of this trademark under Class 42, but the current status of both the trademark applications is "Abandoned" due to non-perusal of application. Any failure to get the same registered in our name may cause any third-party claim and may lead to litigation and our business operations could be affected. Even if our trademarks are registered, we may not be able to detect any unauthorized use or infringement or take appropriate and timely steps to enforce or protect our intellectual property, nor can we provide any assurance that any unauthorized use or infringement will not cause damage to our business prospects.

significant portion of our expenses for Fiscal Year 2017. Our performance, and in particular our margins, depends on our ability to deliver high quality services to our customers at low cost.

We believe that all such transactions have been conducted on arm’s length basis, however, there can be no assurance that we could not have obtained better and more favourable terms than from transaction with related Parties. Our Company may continue to enter into such transactions in future also and we cannot assure that in such an event there would be no adverse effect on results of our operations. For details please refer to **Annexure R on Related Party Transactions** of the Auditor’s Report under Section titled “Financial Information of the Company” beginning on page 176 of the Draft Red Herring Prospectus.

39. Loans availed by our Company have been secured on personal guarantees of our Promoter and Promoter Group member. Our business, financial condition, results of operations, cash flows and prospects may be adversely affected in case of invocation of any personal guarantees or securities of the collateral provided by our Promoter and Promoter Group members.

Our Promoter and Promoter Group Member has provided personal guarantees and their personal property as security to secure a significant portion of our existing borrowings taken from Axis bank Limited, and may continue to provide such guarantees and other security post listing. In case of a default under our loan agreements the personal guarantees provided by our Promoter and Promoter Group Member may be invoked which could negatively impact the reputation and networth of our Promoter. Also, we may face certain impediments in taking decisions in relation to our Company, which in turn would result in a material adverse effect on our financial condition, business, results of operations and prospects and would negatively impact our reputation. In addition, our Promoter and Promoter Group Member may be required to liquidate his shareholding in our Company to settle the claims of the lenders, thereby diluting his shareholding in our Company. We may also not be successful in procuring alternate guarantees/ alternate security satisfactory to the lenders, as a result may need to repay outstanding amounts under such facilities or seek additional sources

of capital, which could affect our financial condition and cash flows. For further details regarding loans availed by our Company, please refer ***“Statement of Financial Indebtedness”*** on page 180 of this Draft Red Herring Prospectus.

40. We are heavily dependent on our Promoters and Key Managerial Personnel for the continued success of our business through their continuing services and strategic guidance and support.

Our success heavily depends upon the continued services of our Key managerial personnel, along with support of our Promoter. We also depend significantly on our Key Managerial Persons for executing our day to day activities. The loss of any of our Promoter and Key Management Personnel, or failure to recruit suitable or comparable replacements, could have an adverse effect on us. The loss of service of the Promoters and other senior management could seriously impair the ability to continue to manage and expand the business efficiently. If we are unable to retain qualified employees at a reasonable cost, we may be unable to execute our growth strategy. For further details of our Directors and key managerial personnel, please refer to Section ***“Our Management”*** on page 123 of this Draft Red Herring Prospectus.

41. Our company has not carried out any independent appraisal of our working capital requirements. Therefore, if our estimation is not accurate or the assumptions we have taken prove to be not correct, we may be required to raise additional debt on terms that may not be totally favorable to us.

Our working capital requirements have been assessed based on the management's estimates and the same have not been independently appraised or evaluated by any bank or financial institution. Further, the estimates of our working capital requirement are totally based on the experience of our management and Promoters. We cannot assure that these estimates may be accurate. If these estimates prove to be wrong, we may be required to raise additional debt, on terms that may not be totally favorable to our Company, which may in turn adversely affect our profitability.

For further details please refer Chapter titled ***“Objects of the Issue”*** on page 81 of Draft Red Herring Prospectus.

42. We have not identified any alternate source for the object of the issue and the deployment of funds is entirely at our discretion and as per the details mentioned in the section titled “Objects of the Issue”.

Our Company has not identified any alternate source of funding for our objects of the issue and hence any failure or delay on our part to mobilize the required resources or any shortfall in the Issue proceeds can adversely affect our growth plan and profitability. The delay/shortfall in receiving these proceeds could result in inadequacy of funds for the objects or may result in borrowing funds on unfavorable terms, both of which scenarios may affect the business operation and financial performance of the company. Further the deployment of the funds raised in the issue will be entirely at the discretion of the management and any revision in the estimates may require us to reschedule our projected expenditure and may have a bearing on our expected revenues and earnings.

For further details of our objects of the Issue, Please refer chapter titled ***“Object for the Issue”*** beginning on page 81 of this Draft Red Herring Prospectus.

43. Our ability to pay any dividends will depend upon future earnings, financial condition, cash flows, working capital requirements and capital expenditures.

We may retain all our future earnings, if any, for use in the operations and expansion of our business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors and will depend on factors that our Board of Directors deem relevant, including among others, our results of operations, financial condition, cash requirements, business prospects and any other financing arrangements. Accordingly, realization of a gain on shareholders investments may largely depend upon the appreciation of the price of our Equity Shares. There can be no assurance that our Equity Shares will appreciate in value. For details of our Dividend history refer to the Section ***“Dividend Policy”*** on page 144 of the Draft Red Herring Prospectus.

44. There is no monitoring agency appointed by Our Company to monitor the utilization of the Issue proceeds.

As per SEBI (ICDR) Regulations, 2009, as amended, appointment of monitoring agency is required only for Issue size above ₹10,000.00 Lacs. Hence, we have not appointed any monitoring agency to monitor the utilization of Issue proceeds. However, the audit committee of our Board will monitor the utilization of Issue proceeds in terms of SEBI (Listing Obligations and Disclosure

Requirements) Regulations, 2015. Further, our Company shall inform about material deviations in the utilization of Issue proceeds to the stock exchange and shall also simultaneously make the material deviations / adverse comments of the audit committee public.

45. Our Promoters and the Promoter Group will jointly continue to retain majority shareholding in our Company after the Offer, which will allow them to determine the outcome of the matters requiring the approval of shareholders.

Our promoters along with the promoter group will continue to hold collectively 51.60 % of the equity share capital of the company. As a result of the same they will be able to exercise significant influence over the control of the outcome of the matter that requires approval of the majority shareholders vote. Such a concentration of the ownership may also have the effect of delaying, preventing or deterring any change in the control of our company. In addition to the above, our promoters will continue to have the ability to take actions that are not in, or may conflict with our interest or the interest of some or all of our minority shareholders, and there is no assurance that such action will not have any adverse effect on our future financials or results of operations.

46. Any future issuance of Equity Shares may dilute the shareholding of the Investor or any sale of Equity Shares by our Promoter or other significant shareholder(s) may adversely affect the trading price of the Equity Shares.

Any future issuance of Equity Shares by our Company could dilute the shareholding of the investor. Any such future issuance of our Equity Shares or sales of our Equity Shares by any of our significant shareholders may adversely affect the trading price of our Equity Shares and could impact our ability to raise capital through an offering of our securities. While the entire Post-Issue paid-up share capital, held by our Promoters or other shareholders will be locked-in for a period of 1 (one) year and minimum promoter contribution subject to a minimum of 20% of our post-Issue paid-up capital will be locked-in for a period of 3 (three) years from the date of allotment of Equity Shares in the Issue, upon listing of our Equity Shares on the Stock Exchanges. For further information relating to such Equity Shares that will be locked-in, please refer to the section titled “**Capital Structure**” beginning on page 59 of the Draft Red Herring Prospectus. Any future issuance or sale of the equity shares of our company by our Promoter or by other significant shareholder(s) or any perception or belief that such sales of Equity Shares might occur may significantly affect the trading price of our Equity Shares.

47. Non-Institutional Investors are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Amount) at any stage after submitting an Application.

Pursuant to the SEBI ICDR Regulations, Non-Institutional Investors are not permitted to withdraw or lower their Application (in terms of quantity of Equity Shares or the Amount) at any stage after submitting an Application. While our Company is required to complete Allotment pursuant to the Issue within six Working Days from the Issue Closing Date, events affecting the Bidders decision to invest in the Equity Shares, including material adverse changes in international or national monetary policy, financial, political or economic conditions, our business, results of operation or financial condition, may arise between the date of submission of the Application and Allotment. Our Company may complete the Allotment of the Equity Shares even if such events occur, and such events limit the bidder’s ability to sell the Equity Shares Allotted pursuant to the Issue or cause the trading price of the Equity Shares to decline on listing.

48. Certain data mentioned in this Draft Red Herring Prospectus has not been independently verified.

We have not independently verified data from industry publications contained herein and although we believe these sources to be reliable, we cannot assure that they are complete or reliable. Such data may also be produced on a different basis from comparable information compiled with regard to other countries. Therefore, discussions of matters relating to India and its economy are subject to the limitation that the statistical and other data upon which such discussions are based have not been verified by us and may be incomplete or unreliable.

EXTERNAL RISK FACTORS

49. Our business is dependent on the Indian economy.

The performance and growth of our business are necessarily dependent on economic conditions prevalent in India, which may be materially and adversely affected by centre or state political instability or regional conflicts, a general rise in interest rates, inflation, and economic slowdown elsewhere in the world or otherwise. There have been periods of slowdown in the economic growth of

India. India's economic growth is affected by various factors including domestic consumption and savings, balance of trade movements, namely export demand and movements in key imports (oil and oil products), global economic uncertainty and liquidity crisis, volatility in exchange currency rates and annual rainfall which affects agricultural production. Any continued or future slowdown in the Indian economy or a further increase in inflation could have a material adverse effect on the price of our raw materials and demand for our products and, as a result, on our business and financial results. The Indian financial market and the Indian economy are influenced by economic and market conditions in other countries, particularly in emerging market in Asian countries. Financial turmoil in Asia, Europe, the U.S. and elsewhere in the world in recent years has affected the Indian economy. Although economic conditions are different in each country, investors' reactions to developments in one country can have adverse effects on the securities market in other countries, including India. A loss in investor confidence in the financial systems of other emerging markets may cause increased volatility in Indian financial markets and, indirectly, in the Indian economy in general. Any worldwide financial instability, including the financial crisis and fluctuations in the stock markets in China and further deterioration of credit conditions in the U.S. or European markets, could also have a negative impact on the Indian economy. Financial disruptions may occur again and could harm our business and financial results.

50. Regional hostilities, terrorist attacks, communal disturbances, civil unrest and other acts of violence or war involving India and other countries may result in a loss of investor confidence and adversely affect the financial markets and our business.

Terrorist attacks, civil unrest and other acts of violence or war may negatively affect the Indian markets on which our Equity Shares will trade and also adversely affect the worldwide financial markets. In addition, the Asian region has from time to time experienced instances of civil unrest and hostilities among neighboring countries. Hostilities and tensions may occur in the future and on a wider scale. Military activity or terrorist attacks in India, may result in investor concern about stability in the region, which may adversely affect the price of our Equity Shares. Events of this nature in the future, as well as social and civil unrest within other countries in the world, could influence the Indian economy and could have an adverse effect on the market for securities of Indian companies, including our Equity Shares.

51. Changing laws, rules and regulations and legal uncertainties in India, including adverse application of tax laws and regulations, may adversely affect our business and financial performance.

Our business and financial performance could be adversely affected by changes in law or interpretations of existing, or the promulgation of new, laws, rules and regulations in India applicable to us and our business. For further details please refer to the chapter "Government and Other Statutory Approvals" on page 202 for details of the laws currently applicable to us. There can be no assurance that the central or the state governments in India may not implement new regulations and policies which will require us to obtain approvals and licenses from the central or the state governments in India and other regulatory bodies or impose onerous requirements and conditions on our operations. Any such changes and the related uncertainties with respect to the implementation of the new regulations may have a material adverse effect on all our business, financial condition and results of operations. In addition, we may have to incur capital expenditures to comply with the requirements of any new regulations, which may also materially harm our results of operations. For instance, the Government has proposed a comprehensive national goods and services tax ("GST") regime that will combine taxes and levies by the Central and state Governments into a unified rate structure. Given the limited availability of information in the public domain concerning the GST, we are unable to provide any assurance as to the tax regime following implementation of the GST. The implementation of this new structure may be affected by any disagreement between certain state Governments, which could create uncertainty. Any such future amendments may affect our overall tax efficiency, and may result in significant additional taxes becoming payable.

52. Instability in financial markets could materially and adversely affect our results of operations and financial condition.

The Indian economy and financial markets are significantly influenced by worldwide economic, financial and market conditions. Any financial turmoil, especially in the United States of America or Europe, may have a negative impact on the Indian economy. Although economic conditions differ in each country, investors' reactions to any significant developments in one country can have adverse effects on the financial and market conditions in other countries. A loss in investor confidence in the financial systems, particularly in other emerging markets, may cause increased volatility in Indian financial markets. The global financial turmoil, an outcome of the sub-prime mortgage crisis which originated in the United States of America, led to a loss of investor confidence in worldwide financial markets. Indian financial markets have also experienced the contagion effect of the global financial turmoil, evident from the sharp decline in SENSEX, BSE's benchmark index. Any prolonged financial crisis may have an adverse impact on

the Indian economy and us, thereby resulting in a material and adverse effect on our business, operations, financial condition, profitability and price of our Equity Shares.

53. *Natural calamities could have a negative impact on the Indian economy and cause Our Company's business to suffer.*

India has experienced natural calamities such as earthquakes, tsunami, floods etc. In recent years, the extent and severity of these natural disasters determine their impact on the Indian economy. Prolonged spells of abnormal rainfall or other natural calamities could have a negative impact on the Indian economy, which could adversely affect our business, prospects, financial condition and results of operations as well as the price of the Equity Shares.

54. *Government regulation of foreign ownership of Indian securities may have an adverse effect on the price of the Equity Shares.*

Foreign ownership of Indian securities is subject to government regulation. Under foreign exchange regulations currently in effect in India, transfer of shares between non residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the rupees proceeds from the sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the Income Tax authorities. There can be no assurance that any approval required from the RBI or any other government agency can be obtained.

55. *Our performance is linked to the stability of policies and the political situation in India.*

The Government of India has traditionally exercised, and continues to exercise, a significant influence over many aspects of the economy. Our business, and the market price and liquidity of our Equity Shares, may be affected by interest rates, changes in government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. Since 1991, successive Indian governments have pursued policies of economic liberalization and financial sector reforms. The current Government has announced its general intention to continue India's current economic and financial sector liberalization and deregulation policies. However there can be no assurance that such policies will be continued and a significant change in the government's policies in the future could affect business and economic conditions in India and could also adversely affect our business, prospects, financial condition and results of operations. Any political instability in India may adversely affect the Indian securities markets in general, which could also adversely affect the trading price of our Equity Shares. Any political instability could delay the reform of the Indian economy and could have a material adverse effect on the market for our Equity Shares. There can be no assurance to the investors that these liberalization policies will continue under the newly elected government. Protests against privatization could slow down the pace of liberalization and deregulation. The rate of economic liberalization could change, and specific laws and policies affecting companies in the industrial equipment manufacturing sectors, foreign investment, currency exchange rates and other matters affecting investment in our securities could change as well. A significant change in India's economic liberalization and deregulation policies could disrupt business and economic conditions in India and thereby affect our business.

SECTION III - INTRODUCTION

SUMMARY OF OUR INDUSTRY

Global Economic Scenario

The past decade has been characterized by fragile growth, high investor uncertainty and periodic spikes in global financial market volatility. As crisis-related fragilities and the adverse effects of other recent shocks gradually subside, the world economy has strengthened. Towards the end of 2016, global economic activity began to see a modest pickup, which extended into 2017.

World industrial production has accelerated, in tandem with a recovery in global trade that has been predominantly driven by stronger demand in East Asia. Confidence and economic sentiment indicators have also generally strengthened, especially in developed economies.

Investment conditions have improved, amid stable financial markets, strong credit growth, and a more solid macroeconomic outlook. In 2017, global economic growth is estimated to have reached 3.0 per cent when calculated at market exchange rates, or 3.6 per cent when adjusted for purchasing power parities — the highest growth rate since 2011. Currently, all major developed economies are experiencing a synchronized upturn in growth. Compared to the previous year, growth strengthened in almost two thirds of countries worldwide in 2017.

(Source: https://www.un.org/development/desa/dpad/wpcontent/uploads/sites/45/publication/WESP2018_Full_Web-1.pdf)

At the global level, world gross product (WGP) is forecast to expand at a steady pace of 3.0 per cent in 2018 and 2019. Developing economies remain the main drivers of global growth. However, stronger economic activity has not been shared evenly across countries and regions, with many parts of the world yet to regain a healthy rate of growth.

Global growth is firming, contributing to an improvement in confidence. A recovery in industrial activity has coincided with a pickup in global trade, after two years of marked weakness (Figure 1.1). In emerging market and developing economies (EMDEs), obstacles to growth among commodity exporters are gradually diminishing, while activity in commodity importers remains generally robust. As a result, and despite substantial policy uncertainty, global growth is projected to accelerate to 2.7 percent in 2017, up from a post-crisis low of 2.4 percent in 2016, before strengthening further to 2.9 percent in 2018-19, broadly in line with January projections.

Indian Economic Overview

India remains the fastest growing economy in the world - economic fundamentals are strong, and reform momentum continues. The fundamentals of the Indian economy remain strong, with robust economic growth, strong fiscal consolidation, low current account deficit, higher agricultural output, growing FDI, low inflation and higher wages in rural areas. Timely and smooth implementation of landmark reforms such as the GST and a new code to deal with bankruptcies, as well as decisive action to resolve the NPA challenge of public sector banks, is crucial to enhance the economy's potential growth.

Despite the slowdown observed in early 2017 and the lingering effects from the demonetization policy, the outlook for India remains largely positive, underpinned by robust private consumption and public investment as well as ongoing structural reforms. GDP growth slowed to 7.0 per cent year-on-year (y/y) during the third quarter of 2016-2017 from 7.3 percent in the first quarter.

As a result, after a modest slowdown in the GDP growth in FY 2016-2017 of 6.8 percent, the growth is expected to recover in FY 2017-2018 to 7.2 percent and is projected to gradually increase to 7.7 percent in FY 2018-2019.

(Source : <https://www.conference-board.org/data/economydatabase/>)

Inflation prospects remain benign across the region. Consumer price inflation reached a multi-year record low of 4.9 per cent in 2017, due to relatively low commodity prices, waning depreciation pressures and good harvest seasons in most countries that have supported lower food prices, notably in India. In 2017, inflation declined to record lows in India and Nepal, while it remained relatively muted in comparison to historical figures in Pakistan, Bangladesh and the Islamic Republic of Iran.

Labour Productivity Growth

Labor productivity growth saw a modest improvement for the aggregate of emerging markets and developing countries in 2016, despite largely unchanged output and employment growth rates. This is because regional employment shares are shifting from countries like China, whose share in regional GDP is increasing, to regions like the Middle East and Africa, where output shares are shrinking or stagnating.

India experienced a modest slowdown in labor productivity growth in 2016 as output growth weakened, but remained among the highest growth rates in the region. Moreover, TFP growth rates were positive and strengthened as India's input growth (especially capital) slowed substantially in 2016. Overall the projection for labor productivity growth in 2017 in emerging markets shows a strengthening trend, in all regions except in Middle East and North Africa, though it remains well below its long-term trend.

The improvement in the world economy since mid-2016 has been accompanied by a moderate pickup in productivity growth. After growing by only 1.3 per cent in both 2015 and 2016, global labour productivity is projected to increase by 1.9 per cent in 2017. The recent upturn in productivity growth has been geographically broad-based, with most developed, developing and transition economies posting gains.

In developing and transition economies, average productivity growth has also improved notably over the past two years, rising from 1.7 per cent in 2015 to an estimated 2.7 per cent in 2017. For the first time since 2011, all regions are expected to record positive labour productivity growth. Despite a modest recovery, however, growth in Africa and Latin America and the Caribbean is still subdued. Furthermore, average productivity growth in these regions remains far lower than in Asian economies, including China and India.

Security Services Industry

The private security industry is a crucial component of security and safety all over the world. The industry was born in the 60's with a handful of players. According to industry sources today, private security is responsible not only for protecting many of the nation's institutions and critical infrastructure systems, but also for protecting intellectual property and sensitive corporate information. Companies also rely heavily on private security for a wide range of functions, including protecting employees and property, conducting investigations, pre-employment screening, providing information technology security, and many other functions.

The private security industry has assumed a more critical role in recent years. It is essential to ensure the security and safety of persons and property, as well as intellectual property and sensitive corporate information. It was the opportunity and nature of the private security industry which enabled employment to a hitherto large section of the populace, which, if not employed in this industry, may have remained outside the fold of formal employment. It is in this sense that contribution of the private security industry to employment generation in India is unique.

With the exponential growth of the Indian economy over the last two decades, the need for security arrangements of industrial complexes, offices, IT parks and other public infrastructures such as airports, metro stations, shopping malls and public utilities has grown manifold. In order to meet this demand, the industry has significantly scaled its operational capabilities to supplement government machinery towards maintaining safety and security of citizens and their assets. The private security industry in India is estimated to be INR 350 billion, is expected to grow exponentially at a CAGR of 20 per cent, operating across 550 districts, directly employing more than 60 lakh individuals, notably finding traction from the youth population of the BPL category as an employment opportunity. This is indeed a sunrise sector, with potential to be the second-largest employment generator and a major source of revenue for the exchequer by way of taxes.

The industry growth could be attributed to the key drivers like growing urbanization and increasing insecurity, mushrooming of shopping malls and self contained townships, frequent terror attacks, shortage of police personnel and last but not the least security agency itself being a profitable business. A more economic justification for engaging private security is that insurance companies particularly fire insurance carriers will give substantial discount to sites as presence of security reduces odds of incidence.

The security industry is a large and expanding area of the economy with an estimated global market worth of 173 billion USD. The private security industry in India, valued at 570 billion INR is also promising. The safety and security industry in India is still at a nascent stage and is poised for a strong growth, in the years ahead. The industry is dominated largely by the unorganized sector which accounts for a larger share in the market. The Indian security equipment and services market is primarily driven by the rapid urbanization and the ongoing globalization wherein, the need for robust and updated security technologies is gaining momentum with each passing day.

India is estimated to be amongst the top 10 security markets in the world by 2020, which leads to significant opportunities to be leveraged. Besides adding to the economy, it has the potential to become an extended arm of law enforcement authorities. It is the most buoyant, emerging and fastest growing market in the world. The flourishing economy and rapid growth in sectors such as airports, construction, energy, ports, telecom, railways, road and retail, coupled with the influx of multinational companies has been the primary driving force for creating demand for the security industry. The unprecedented terrorism incidents in the recent times and ever increasing crime rates have triggered the demand for security and surveillance products.

Growing urbanization, coupled with retail boom and increasing concerns regarding security has led to a rise of organizations catering to the private security segment in the country. Development of infrastructure and industries, residential complexes offers a sea of opportunities to the growing security industry. Government initiatives such as the development of 100 smart cities and 'Make in India' campaign will add to the overall growth of the industry,

(Source: <https://www.export.gov/article?id=India-Safety-and-Security>)

The private security industry is one of the largest employers in India and is continuously growing. The private security industry is amongst the largest employers in India, employing almost 8.5 million people and has the potential to employ 3 million more people by 2020. Manned Security Service accounts for the largest share of security services market with maximum employment and contributing approximately 75-80 percent share in revenues followed by Cash Security Services with 20-25 percent business share.

The 570 billion4 INR private security industry in India is likely to witness rapid expansion, with the market share going up to 990 billion INR by 2020. Government policies like making guards in schools and ATMs mandatory and mandatory installation of CCTV cameras at various locations have also accelerated the demand for private security guards in the country. Considering the growing demand for security services, security firms in India are seeking capital to expand their business.

The challenges faced by the security industry

1. **PSARA 2005 implementation and licensing related issues:** The Private Security Agencies (Regulation) Act 2005 was passed by the parliament. However the states implement this act as per their requirements, based on state-specific guidelines.

Regulatory conditions are different in every state thus makes the uniform management practices difficult. Prospective private security agency faces delays in granting license to start a security agency. For the ease of doing business, there could be one nodal department which the private agencies can contact for the sub-segments.

2. **Compliance requirements & Labour Laws:** Increasing compliance related requirements such as training and minimum wages will lead to escalation of costs. They will also reduce the attractiveness of certain opportunities for leading players, where the unorganized sector, with low compliance costs, will be more cost competitive. Currently security guards are being classified as semiskilled workers. Whereas, a security guard and supervisors performs skilled jobs at many security sensitive establishments like airports, IT parks, metro stations and luxury hotels etc.
3. **Ownership and management restrictions:** Currently, Foreign Direct Investment is allowed only up to 49 percent in the security services industry. Some of the leading players have suggested to increase the FDI limit, so as to have more funds for their growth plans.
4. **Workmen related problems:** Private security officers are expected to provide similar nature of services to their counterparts in the police forces. However, the salary paid to them is much lower than their counterparts and inadequate social security and training. Despite providing highly skilled services, private security person draws minimum wages for the semi-skilled category. This is needed to be corrected to attract much skilled and experienced workforce for better end results.

SECTION IV – ABOUT THE ISSUER COMPANY

INDUSTRY OVERVIEW

Global Economic Scenario

The past decade has been characterized by fragile growth, high investor uncertainty and periodic spikes in global financial market volatility. As crisis-related fragilities and the adverse effects of other recent shocks gradually subside, the world economy has strengthened. Towards the end of 2016, global economic activity began to see a modest pickup, which extended into 2017.

World industrial production has accelerated, in tandem with a recovery in global trade that has been predominantly driven by stronger demand in East Asia. Confidence and economic sentiment indicators have also generally strengthened, especially in developed economies.

Investment conditions have improved, amid stable financial markets, strong credit growth, and a more solid macroeconomic outlook. In 2017, global economic growth is estimated to have reached 3.0 per cent when calculated at market exchange rates, or 3.6 per cent when adjusted for purchasing power parities — the highest growth rate since 2011. Currently, all major developed economies are experiencing a synchronized upturn in growth. Compared to the previous year, growth strengthened in almost two thirds of countries worldwide in 2017.

(Source: https://www.un.org/development/desa/dpad/wp-content/uploads/sites/45/publication/WESP2018_Full_Web-1.pdf)

At the global level, world gross product (WGP) is forecast to expand at a steady pace of 3.0 per cent in 2018 and 2019. Developing economies remain the main drivers of global growth. However, stronger economic activity has not been shared evenly across countries and regions, with many parts of the world yet to regain a healthy rate of growth.

Global growth is firming, contributing to an improvement in confidence. A recovery in industrial activity has coincided with a pickup in global trade, after two years of marked weakness (Figure 1.1). In emerging market and developing economies (EMDEs), obstacles to growth among commodity exporters are gradually diminishing, while activity in commodity importers remains generally robust. As a result, and despite substantial policy uncertainty, global growth is projected to accelerate to 2.7 percent in 2017, up from a post-crisis low of 2.4 percent in 2016, before strengthening further to 2.9 percent in 2018-19, broadly in line with January projections.

Indian Economic Overview

India remains the fastest growing economy in the world - economic fundamentals are strong, and reform momentum continues. The fundamentals of the Indian economy remain strong, with robust economic growth, strong fiscal consolidation, low current account deficit, higher agricultural output, growing FDI, low inflation and higher wages in rural areas. Timely and smooth implementation of landmark reforms such as the GST and a new code to deal with bankruptcies, as well as decisive action to resolve the NPA challenge of public sector banks, is crucial to enhance the economy's potential growth.

Despite the slowdown observed in early 2017 and the lingering effects from the demonetization policy, the outlook for India remains largely positive, underpinned by robust private consumption and public investment as well as ongoing structural reforms. GDP growth slowed to 7.0 per cent year-on-year (y/y) during the third quarter of 2016-2017 from 7.3 percent in the first quarter.

As a result, after a modest slowdown in the GDP growth in FY 2016-2017 of 6.8 percent, the growth is expected to recover in FY 2017-2018 to 7.2 percent and is projected to gradually increase to 7.7 percent in FY 2018-2019.

GDP Growth in Percentage

GDP, Current US\$

Inflation prospects remain benign across the region. Consumer price inflation reached a multi-year record low of 4.9 per cent in 2017, due to relatively low commodity prices, waning depreciation pressures and good harvest seasons in most countries that have supported lower food prices, notably in India. In 2017, inflation declined to record lows in India and Nepal, while it remained relatively muted in comparison to historical figures in Pakistan, Bangladesh and the Islamic Republic of Iran.

Labour Productivity Growth

Labor productivity growth saw a modest improvement for the aggregate of emerging markets and developing countries in 2016, despite largely unchanged output and employment growth rates. This is because regional employment shares are shifting from countries like China, whose share in regional GDP is increasing, to regions like the Middle East and Africa, where output shares are shrinking or stagnating.

India experienced a modest slowdown in labor productivity growth in 2016 as output growth weakened, but remained among the highest growth rates in the region. Moreover, TFP growth rates were positive and strengthened as India's input growth (especially capital) slowed substantially in 2016. Overall the projection for labor productivity growth in 2017 in emerging markets shows a strengthening trend, in all regions except in Middle East and North Africa, though it remains well below its long-term trend.

The improvement in the world economy since mid-2016 has been accompanied by a moderate pickup in productivity growth. After growing by only 1.3 per cent in both 2015 and 2016, global labour productivity is projected to increase by 1.9 per cent in 2017. The recent upturn in productivity growth has been geographically broad-based, with most developed, developing and transition economies posting gains.

In developing and transition economies, average productivity growth has also improved notably over the past two years, rising from 1.7 per cent in 2015 to an estimated 2.7 per cent in 2017. For the first time since 2011, all regions are expected to record positive labour productivity growth. Despite a modest recovery, however, growth in Africa and Latin America and the Caribbean is still subdued. Furthermore, average productivity growth in these regions remains far lower than in Asian economies, including China and India.

Security Services Industry

The private security industry is a crucial component of security and safety all over the world. The industry was born in the 60's with a handful of players. According to industry sources today, private security is responsible not only for protecting many of the nation's institutions and critical infrastructure systems, but also for protecting intellectual property and sensitive corporate information. Companies also rely heavily on private security for a wide range of functions, including protecting employees and property, conducting investigations, pre-employment screening, providing information technology security, and many other functions.

The private security industry has assumed a more critical role in recent years. It is essential to ensure the security and safety of persons and property, as well as intellectual property and sensitive corporate information. It was the opportunity and nature of the private security industry which enabled employment to a hitherto large section of the populace, which, if not employed in this industry, may have remained outside the fold of formal employment. It is in this sense that contribution of the private security industry to employment generation in India is unique.

With the exponential growth of the Indian economy over the last two decades, the need for security arrangements of industrial complexes, offices, IT parks and other public infrastructures such as airports, metro stations, shopping malls and public utilities has grown manifold. In order to meet this demand, the industry has significantly scaled its operational capabilities to supplement government machinery towards maintaining safety and security of citizens and their assets. The private security industry in India is estimated to be INR 350 billion, is expected to grow exponentially at a CAGR of 20 per cent, operating across 550 districts, directly employing more than 60 lakh individuals, notably finding traction from the youth population of the BPL category as an employment opportunity. This is indeed a sunrise sector, with potential to be the second-largest employment generator and a major source of revenue for the exchequer by way of taxes.

The industry growth could be attributed to the key drivers like growing urbanization and increasing insecurity, mushrooming of shopping malls and self contained townships, frequent terror attacks, shortage of police personnel and last but not the least security agency itself being a profitable business. A more economic justification for engaging private security is that insurance companies particularly fire insurance carriers will give substantial discount to sites as presence of security reduces odds of incidence.

The security industry is a large and expanding area of the economy with an estimated global market worth of 173 billion USD. The private security industry in India, valued at 570 billion INR is also promising. The safety and security industry in India is still at a nascent stage and is poised for a strong growth, in the years ahead. The industry is dominated largely by the unorganized sector which accounts for a larger share in the market. The Indian security equipment and services market is primarily driven by the rapid

urbanization and the ongoing globalization wherein, the need for robust and updated security technologies is gaining momentum with each passing day.

India is estimated to be amongst the top 10 security markets in the world by 2020, which leads to significant opportunities to be leveraged. Besides adding to the economy, it has the potential to become an extended arm of law enforcement authorities. It is the most buoyant, emerging and fastest growing market in the world. The flourishing economy and rapid growth in sectors such as airports, construction, energy, ports, telecom, railways, road and retail, coupled with the influx of multinational companies has been the primary driving force for creating demand for the security industry. The unprecedented terrorism incidents in the recent times and ever increasing crime rates have triggered the demand for security and surveillance products.

Growing urbanization, coupled with retail boom and increasing concerns regarding security has led to a rise of organizations catering to the private security segment in the country. Development of infrastructure and industries, residential complexes offers a sea of opportunities to the growing security industry. Government initiatives such as the development of 100 smart cities and 'Make in India' campaign will add to the overall growth of the industry,

The private security industry is one of the largest employers in India and is continuously growing. The private security industry is amongst the largest employers in India, employing almost 8.5 million people and has the potential to employ 3 million more people by 2020. Manned Security Service accounts for the largest share of security services market with maximum employment and contributing approximately 75-80 percent share in revenues followed by Cash Security Services with 20-25 percent business share.

The 570 billion4 INR private security industry in India is likely to witness rapid expansion, with the market share going up to 990 billion INR by 2020. Government policies like making guards in schools and ATMs mandatory and mandatory installation of CCTV cameras at various locations have also accelerated the demand for private security guards in the country. Considering the growing demand for security services, security firms in India are seeking capital to expand their business.

The challenges faced by the security industry

1. **PSARA 2005 implementation and licensing related issues:** The Private Security Agencies (Regulation) Act 2005 was passed by the parliament. However the states implement this act as per their requirements, based on state-specific guidelines. Regulatory conditions are different in every state thus makes the uniform management practices difficult. Prospective private security agency faces delays in granting license to start a security agency. For the ease of doing business, there could be one nodal department which the private agencies can contact for the sub-segments.
2. **Compliance requirements & Labour Laws:** Increasing compliance related requirements such as training and minimum wages will lead to escalation of costs. They will also reduce the attractiveness of certain opportunities for leading players, where the unorganized sector, with low compliance costs, will be more cost competitive. Currently security guards are being classified as semiskilled workers. Whereas, a security guard and supervisors performs skilled jobs at many security sensitive establishments like airports, IT parks, metro stations and luxury hotels etc.
3. **Ownership and management restrictions:** Currently, Foreign Direct Investment is allowed only up to 49 percent in the security services industry. Some of the leading players have suggested to increase the FDI limit, so as to have more funds for their growth plans.
4. **Workmen related problems:** Private security officers are expected to provide similar nature of services to their counterparts in the police forces. However, the salary paid to them is much lower than their counterparts and inadequate social security and training. Despite providing highly skilled services, private security person draws minimum wages for the semi-skilled category. This is needed to be corrected to attract much skilled and experienced workforce for better end results.

Private Security Agencies (Regulation) Act, 2005

The Private Securities Agencies Regulation Act, 2005 ("**PSARA**") is the primary legislation for the regulation of private security agencies in India. Any person or body of persons other than a government agency, department or organisation engaged in the business of (a) providing private security services or (b) providing training to private security guards or their supervisors or (c) providing private security guards to any industrial or business undertaking or a company or any other person or property, are regulated by the PSARA, and are required to obtain a license for undertaking such activities.

Private security agencies licensed under the PSARA are required to obtain prior permission for providing private security services abroad. A license granted under PSARA is valid for a period of five years, unless cancelled earlier. In this regard, the PSARA sets forth eligibility requirements to become a private security guard and eligibility conditions for obtaining a license for employing or engaging of private security guards. It also authorises state governments to frame rules for issuance of licenses and prescribes

conditions for cancellation and suspension of licenses. Carrying on or commencing the business of a private security agency without a valid licence is an offence punishable with imprisonment for a term of up to one year, or with fine which may extend to Rs. 25,000, or with both.

Conditions for commencement of operations and engagement of supervisors outlined in the PSARA require the licensee to *inter alia*, commence activities within six months of obtaining the license, impart training and skills to its private security guards and supervisors and employ such number of supervisors as specified under the state specific rules. Every private security agency is required to maintain a register containing details of its managers, private security guards, customers and other prescribed details as may be specified by respective state governments. In the event of non-compliance with conditions prescribed in the PSARA, namely, appointment of eligible staff or failure to impart requisite training, the private security agency shall be punishable with a fine extending to Rs. 25,000 and can also be subject to suspension or cancellation of its license. Additionally, upon non-compliance with laws mentioned below, the licenses under the PSARA of private security agencies may be cancelled:

Accordingly, the Motor Vehicles Act places a liability on every owner of, or person responsible for, a motor vehicle to ensure that every person who drives a motor vehicle holds an

Further, the Motor Vehicles Act requires that an owner of a motor vehicle bears the responsibility of ensuring that the vehicle is registered in accordance with the provisions of the Motor Vehicles Act and that the certificate of registration of the vehicle has not been suspended or cancelled. Further, the Motor Vehicles Act prohibits a motor vehicle from being used as a transport vehicle unless the owner of the vehicle has obtained the required permits authorising him to use the vehicle for transportation purposes.

Once registered, copyright protection of a work lasts for a period of sixty years from the demise of the author. Reproduction of a copyrighted work for sale or hire, issuing of copies to the public, performance or exhibition in public, making a translation of the work, making an adaptation of the work and making a cinematograph film of the work without consent of the owner of the copyright are all acts which amounts to an infringement of copyright.

The Trademark (Amendment) Act, 2010 has been enacted by the government to amend the Trademark Act to enable Indian nationals as well as foreign nationals to secure simultaneous protection of trademark in other countries. It also seeks to simplify the law relating to transfer of ownership of trademarks by assignment or transmission and to align the law with international practice.

The Patents Act, 1970

In addition to broad requirement that an invention satisfy the requirements of novelty, utility and non-obviousness in order for it to avail patent protection, the Patents Act further provides that patent protection may not be granted to certain specified types of inventions and materials even if they satisfy the above criteria. The Competition Commission of India which became operational from May 20, 2009 has been established under the Competition Act to deal with inquiries relating to anti-competitive agreements and abuse of dominant position and regulate combinations. The Competition Act also provides that the Competition Commission has the jurisdiction to inquire into and pass orders in relation to an anti-competitive agreement, abuse of dominant position or a combination, which even though entered into, arising or taking place outside India or signed between one or more non-Indian parties, but causes an appreciable adverse effect in the relevant market in India.

The Consumer Protection Act, 1986

It forms a basis for identifying the categories of property that are capable of being transferred, the persons competent to transfer property, the validity of restrictions and conditions imposed on the transfer and the creation of contingencies and vested interest in the property. It also provides for the rights and liabilities of the vendor and purchaser in a transaction of sale of land.

The Government of India, from time to time, has made policy pronouncements on Foreign Direct Investment ("**FDI**") through press notes and press releases. The department of Industrial Policy and Promotion ("**DIPP**") has issued consolidated FDI Policy of 2017, which supersedes all previous press notes, press releases and clarifications on FDI Policy issued by the DIPP that were in force. The Reserve Bank of India ("**RBI**") also issued Master Circulars on Foreign investment in India. In terms of the Master Circular, an Indian company may issue fresh shares to people resident outside India. Such Indian companies making fresh issues of shares would be subject to the reporting requirement, inter-alia with respect to consideration for issue of shares and also subject to making certain financial including filing of Form FC-GPR. The Arbitration and Conciliation Act ("**Arbitration Act**") was enacted to consolidate and amend the law relating to domestic arbitration, international commercial arbitration and enforcement of foreign arbitral awards as also to define the law relating to conciliation and for matters connected therewith or incidental thereto. The main objectives of the Act is to comprehensively cover international and commercial arbitration and conciliation as also domestic arbitration and conciliation, to make provision for an

arbitral procedure which is fair, efficient and capable of meeting the needs of the specific arbitration. The Act provides for the arbitral tribunal to give reasons for its arbitral award, to ensure that the arbitral tribunal remains within the limits of its jurisdiction and thus minimizing the supervisory role of courts in the arbitral process. There are many provisions that also permit an arbitral tribunal to use mediation, conciliation or other procedures during the arbitral proceedings to encourage settlement of disputes, to provide that every final arbitral award is enforced in the same manner as if it were a decree of the court, to provide that a settlement agreement reached by the parties as a result of conciliation proceedings will have the same status and effect as an arbitral award on agreed terms on the substance of the dispute rendered by an arbitral tribunal and to provide that, for purposes of enforcement of foreign awards, every arbitral award made in a country to which one of the two International Conventions relating to foreign arbitral awards to which India is a party applies, will be treated as a foreign award.

The financial statements are prepared and presented under the historical cost convention and evaluated on a going-concern basis using the accrual system of accounting in accordance with the accounting principles generally accepted in India (Indian GAAP) and the requirements of the Companies Act, 1956 (up to March 31, 2014), and notified sections, schedules and rules of the Companies Act 2013 (with effect from April 01, 2014), including the Accounting Standards as prescribed by the Companies (Accounting Standards) Rules, 2006 as per section 211(3C) of the Companies Act, 1956 (which are deemed to be applicable as Section 133 of the Companies Act, 2013 (“the Act”) read with Rule 7 of Companies (Accounts) Rules, 2014).

2. USE OF ESTIMATES

The preparation of financial statements in conformity with Generally Accepted Accounting Principles (GAAP) requires the management of the Company to make estimates and assumptions that affect the reported balances of assets and liabilities and disclosures relating to the contingent liabilities, if any, as at the date of the financial statements and reported amounts of income and expenses during the year. Examples of such estimates include provisions for doubtful debts, employee retirement benefit plans, provision for income tax and the useful lives of fixed assets. The difference between the actual results and estimates are recognized in the period in which results are known or materialized.

3. FIXED ASSETS

Fixed assets are stated at historical cost less accumulated depreciation and impairment losses, if any. Cost includes purchase price and all other attributable cost to bring the assets to its working condition for the intended use.

Subsequent expenditures related to an item of tangible asset are added to its book value only if they increase the future benefits from the existing asset beyond its previously assessed standard of performance.

Projects under which assets are not ready for their intended use are shown as Capital Work-in-Progress. Cost includes cost of land, materials, construction, services, borrowing costs and other overheads relating to projects.

Intangible assets are stated at acquisition cost, Net of accumulated amortization and accumulated impairment losses, if any. Intangible assets are amortized on a straight line basis over their estimated useful lives.

Gains or losses arising from the retirement or disposal proceeds and the carrying amount of the asset and recognized as income or expense in the Statement of Profit & Loss.

4. DEPRECIATION

Tangible Fixed Assets

Depreciation on tangible fixed assets is computed based on Straight Line Method considering useful life provided in the Schedule - II of the Act. During the preceding years, the Company was providing depreciation on Straight Line Method basis at the rate prescribed in Schedule XIV of the Companies Act, 1956.

Pursuant to Companies Act, 2013 ('the Act') being effective from April 1, 2014, the Company has revised depreciation rates on tangible fixed assets as per useful life specified in Part 'C' of Schedule II of the Act. And due to the same there has been a change in the estimated useful life of depreciable tangible assets which affects the depreciation in the current period and in each period during the remaining useful life of the assets. As the change is only in regard to accounting estimate requiring an adjustment of the carrying amount of tangible assets. The same do not require adjustment in the financial information for the years ended on March 31, 2014, 2013, and 2012. The Company has consistently calculated depreciation based on SLM method.

5. BORROWING COSTS

Borrowing cost includes interest and amortization of ancillary costs incurred in connection with the arrangement of borrowings. Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur.

6. IMPAIRMENT OF ASSETS

1. The company assesses, at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the company estimates the asset's recoverable amount. An asset's (including goodwill) recoverable amount is the higher of an assets net selling price and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing the value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.
2. After impairment, depreciation/ amortization is provided on the revised carrying amount of the asset over its remaining useful life.

7. INVESTMENTS

Investments, which are readily realizable and intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as long-term investments.

On initial recognition, all investments are measured at cost. The cost comprises purchase price and directly attributable acquisition charges such as brokerage, fees and duties.

Current investments are carried in the financial statements at lower of cost and fair value determined on an individual investment basis. Long-term investments are carried at cost. However, provision for diminution in value is made to recognize a decline other than temporary in the value of the investments.

On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of profit and loss.

8. INVENTORIES

Raw materials, packing materials, store & consumables and finished goods are valued at cost. Cost of inventories comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition.

Cost of semi-finished and finished goods comprise of material cost and conversion cost.

Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act, 1961 enacted in India. The tax rates and tax laws used to compute the amount that are enacted or substantively enacted, at the reporting date.

(i) Deferred income taxes reflect the impact of timing differences between taxable income and accounting income originating during the current year and reversal of timing differences for the earlier years. Deferred tax is measured using the tax rates and the tax laws enacted or substantively enacted at the reporting date.

(ii) Deferred tax liabilities are recognized for all taxable timing differences. Deferred tax assets are recognized for deductible timing differences only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. In situations where the Company has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognized only if there is virtual certainty supported by convincing evidence that they can be realized against future taxable profits.

The carrying amount of deferred tax assets are reviewed at each reporting date. The company writes-down the carrying amount of a deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realized. Any such write-down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

14. CONTINGENT LIABILITIES AND PROVISIONS

Provisions are recognized only when there is a present obligation as a result of past events and when a reliable estimate of the amount of obligation can be made.

- b) Present obligations arising from the past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

c) Contingent Assets are not recognized in the financial statements since this may result in the recognition of income that may never be realized.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation that the likelihood of outflow of resources is remote, no provision or disclosure is made.

15. EARNINGS PER SHARE:

Basic earnings per share is computed by dividing the profit / (loss) after tax (including the post tax effect of extraordinary items, if any) by the weighted average number of equity shares outstanding during the year.

Diluted earnings per share is computed by dividing the profit / (loss) after tax (including the post tax effect of extraordinary items, if any) as adjusted for dividend, interest and other charges to expense or income relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares.

Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per share from continuing ordinary operations. Potential dilutive equity shares are deemed to be converted as at the beginning of the period, unless they have been issued at a later date. The dilutive potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value (i.e. average market value of the outstanding shares). Dilutive potential equity shares are determined independently for each period presented. The number of equity shares and potentially dilutive equity shares are adjusted for share splits / reverse share splits and bonus shares, as appropriate.

Col. Trinayan Saikia ("**the Plaintiff**") was an employee at our Company ("**the Respondent**") and was appointed as the Vice President, North at the Delhi branch. The Plaintiff had sent a legal notice ("**Notice**") dated January 21, 2017 to the Respondent to release an amount of Rs. 6,00,000 (Six Lakh) owed to him on account of unpaid salary for the month of July 2016 to September 2016. On October 15, 2016 the Plaintiff was called to the Company's office in Surat and was given a termination letter. He was informed that this was on account of the Company not being able to pay him his salary. The Plaintiff had also claimed an amount of Rs. 15,000 (Fifteen Thousand) towards expenses incurred by him in view of vouchers dated October 8, 2016 and October 10, 2016. The Respondent replied to the Notice stating that the Plaintiff was terminated from his post due to incompetency and questionable integrity. The Respondent expressed that it had never intended to stop full and final payment of any ex-employee, if he or she completes the exit formalities in a proper manner and gets NOC from his/her branch. The Respondent also stated that during the monthly review meeting, the Plaintiff failed to furnish details about his expenditure and receipt of the amount given to his Delhi branch. An amount of Rs. 4,86,934 was deposited in the Plaintiffs account to meet various expenditures but the Plaintiff was only able to provide a receipt of Rs. 1,64,302 and after umpteenth reminders also, he has not been able to submit a receipt of Rs. 3,22,632. The Respondent denies all allegations made by the Plaintiff and states that the payments made to the Plaintiff were subject to final accounting which the Plaintiff has failed to submit till date. Therefore, the Respondent is not in a position to either admit or deny the claim of the Plaintiff. The Respondent has stated that from the statements of accounts filed by the Plaintiff, the amounts transferred by the Respondent for the expense of the Company were utilized by the Plaintiff towards his personal use. Since the Plaintiff has not submitted any accounts of the amounts remitted in his account, no cause of action arises against the Respondent and the Plaintiff cannot take advantage of his own default. The matter is currently pending before the Hon'ble Court.

An assessment order was passed by the Assessing Officer ("**Assessing Officer**") stating that our Company ("**the Assessee Company**") filed its original returns for the A.Y. 2006-2007 declaring the total income of Rs. 99,75,320. The assessment was completed on December 26, 2008 determining the income at Rs. 1,09,89,390 but reopened subsequently, notices of which were served to the Assessee Company. In response to these notices the Assessee Company made submission and explanations as called for. The Assessing Officer stated that the Assessee Company had credited the contribution to provident fund and ESI to their respective account beyond the due date and therefore cannot be allowed as business expenditure. In response to the show cause, the Assessee Company stated that during the year employee had contributed Rs.57,45,389 towards provident fund, out of which Rs. 49,82,783 was paid after due date specified under the Provident Fund Act and also furnished details of contribution made towards provident fund by employee and employer. However, the Assessing Officer held that the deduction claimed was disallowed and therefore added to the total income of the Assessing Company. The Assessee Company filed an appeal against the order of the Assessing Officer with the Commissioner of Income Tax (Appeals) (**CIT (A)**) stating that the Assessing Officer has erred in law and on facts in re-opening and completing the re-assessment under S. 147 r.w. S.148 of the Act. Furthermore, the addition of employee's contribution towards provident fund of Rs. 49,82,783 and ESIC of Rs. 2,09,885 was paid beyond the due date. However, the CIT(A) upheld the decision of the Assessing Officer and dismissed the appeal. The Assessing Company has filed an appeal to the ITAT, Ahmedabad and the appeal is still pending.

2. *Shiva Industrial Security Agency (Gujarat) Private limited. v. ACIT, Circle-4, Surat.*

Our Company was served with a notice of demand under Section 156 of the Income Tax Act, 1961 for payment of Rs. 53,29,540 for the Assessment Year (A.Y.) of 2010-2011 dated March 29, 2013. Therefore, it was selected for scrutiny by giving notice under S. 143(3) of the Income Tax Act. As per the Assessing officer the amount of Rs. 13,00,000 claimed to have been loan by the Assessee Company was to be treated as unexplained cash credit and added to the total income of the Assessee Company. Furthermore, the Assessee Company was asked to provide documentation for the share subscribers and share premium amount, but the Company was unable to provide the same. Therefore, the amount of Rs. 1,24,00,000 claimed as share capital and share premium was to be treated as cash credit and added to the total income of the Assessee Company. The Assessee Company filed an appeal against the order of the Assessing Officer with the Commissioner of Income Tax (Appeals) (**CIT (A)**) stating that the Assessing Officer no opportunity of hearing was accorded and that the amount of total income derived at is erroneous. The CIT (A) held that the Assessee Company had discharged onus with respect to the transaction of Rs. 13,00,000 and therefore the same is deleted from the addition made to the total income. Furthermore, the CIT (a) stated that Rs. 1,00,00,000 was confirmed in the income but Rs. 24,00,000 was to be deleted from the total additional of Rs. 1,24,00,000. Therefore, a revised demand of Rs. 33,42,229 was outstanding from the Assessee Company. The Assessee Company has filed an appeal to the ITAT, Ahmedabad and the appeal is still pending.

2. *Shiva Industrial Security Agency (Guj.) Private Limited v. Mr. Ganesh Rasker*

Our Company ("**the Petitioner**") sent a legal notice ("**Notice**") to Mr. Ganesh Rasker ("**the Respondent**") dated December 14, 2017 under Section 138 of the Negotiable Instruments Act, 1881. Under this Notice, our Company has alleged that the Respondent who was an employee of the Company, having the post of General Manager-Logistics and was also in-charge of operation of corporate office including marketing activities, was careless during the period of his work and his performance was unsatisfactory, due to which the Company suffered a loss of approximately Rs. 10,00,000. After having computed the accounts on his own, the Respondent agreed to pay Rs. 5,50,000 to the Petitioner vide cheque no. 104952 dated September 20, 2017. However, the cheque was dishonoured by the bank with the reason of "payment stopped by the drawer" on November 22, 2017. From the date of dishonor of cheque till date, the amount hasn't been paid and therefore a notice was sent. The Respondent replied to the notice stating that the Petitioner threatened him and forcefully took a cheque of Rs. 5,50,000 and he also filed a complaint at Pandesara, Police Station, Surat on November 6, 2017 regarding the Petitioners unacceptable behavior. The Respondent further stated that since he was on probation period and therefore cannot stand for the Company and neither does he directly own money from clients and therefore he is not liable for any debt or liability. The Petitioner has filed a plaint in the Court Chief Judicial Magistrate, Surat.

b) **Litigation Involving Actions by Statutory/Regulatory Authorities:**

1. *Shiva Industrial Securities Agency (Gujarat) Private Limited v. Employees Provident Fund Organization*

Our Company ("the Petitioner") has filed a petition in High Court of Gujarat challenging the illegal and arbitrary action on part of the Employee Provident Fund Organization ("the Respondent") where the Petitioner has shown its willingness to pay the amount due under Section 7Q of Employee provident Fund and Miscellaneous Provisions Act, 1952 ("the Act"). It is submitted by the Petitioner that on account of global recession and because of several factors beyond the control of the Petitioner, they were not able to render compliance in respect of provident fund dues in time and the same were remitted belatedly. The Petitioner had already deposited the belated amount for year 20004 to 2009 and 2012 to 2015, yet four orders was passed, two under S. 14B and two under 7Q of the Act against the Petitioner. The Petitioner had appealed orders passed under S. 14B before the EPF Appellate Tribunal ("the EPF Tribunal") and the other before Central Government Industrial Tribunal, Ahmedabad ("CGI Tribunal"). The EPF tribunal directed the Respondents not to proceed for recovery and the CGI Tribunal directed the Respondent to file response with regard to waiver of 75% amount. The appeals before the CGI tribunal were not maintainable and therefore the Petitioners paid the amount of interest as determined by Respondent but before the expiry of the appeal period, the Respondent attached the bank accounts of the Petitioner. Despite repeated requests of the Petitioner, the Respondent did not defreeze the bank accounts of the Petitioner. Furthermore, it was agreed between the Respondent and the petitioner that the amount would be paid in installments, however, subsequently, that too was rejected by the Respondent. Therefore, our Company has filed this petition.

The learned Judge of the Gujarat High Court passed an order whereby our Company was granted interim relief. The respondent was directed to defreeze the bank accounts of the petitioner with ICICI, Ring Road branch, State Bank of India GIDC Pandesara branch, Axis Bank at Godadod Road and HDFC, Makarpura branch and restrain from proceeding with coercive recovery against

the petitioner.

An oral order dated March 22, 2018 has been passed by the High Court whereby the petition has been disposed on the account that the arrangement undertaken to repay the dues will continue till the final dues have been cleared.

5.6 BASIS OF ALLOCATION

- (a) The SEBI ICDR Regulations specify the allocation or Allotment that may be made to various categories of Bidders/Applicants in an Issue depending on compliance with the eligibility conditions. Certain details pertaining to the percentage of Issue size available for allocation to each category is disclosed overleaf of the Bid cum Application Form and in the RHP/Prospectus. For details in relation to allocation, the Bidder/Applicant may refer to the RHP/Prospectus.
- (b) Under-subscription in any category (except QIB Category) is allowed to be met with spillover from any other category or combination of categories at the discretion of the Issuer and in consultation with the BRLMs and the Designated Stock Exchange and in accordance with the SEBI ICDR Regulations. Unsubscribed portion in QIB Category is not available for subscription to other categories.
- (c) In case of under subscription in the Issue, spill-over to the extent of such under-subscription may be permitted from the Reserved Portion to the Issue. For allocation in the event of an under-subscription applicable to the Issuer, Bidders/Applicants may refer to the RHP.
- (d) **Illustration of the Book Building and Price Discovery Process**

Bidders should note that this example is solely for illustrative purposes and is not specific to the Issue; it also excludes Bidding by Anchor Investors.

Bidders can bid at any price within the price band. For instance, assume a price band of ₹20 to ₹ 24 per share, issue size of 3,000 equity shares and receipt of five bids from bidders, details of which are shown in the table below. The illustrative book given below shows the demand for the equity shares of the issuer at various prices and is collated from bids received from various investors.

Bid Quantity	Bid Amount (₹)	Cumulative Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%
2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the Issuer is able to offer the desired number of equity shares is the price at which the book cuts off, i.e., ₹ 22.00 in the above example. The Issuer, in consultation with the book running lead manager, will finalise the issue price at or below such cut-off price, i.e., at or below ₹ 22.00. All bids at or above this issue price and cut-off bids are valid bids and are considered for allocation in the respective categories.

(e) Alternate Method of Book Building

In case of FPOs, Issuers may opt for an alternate method of Book Building in which only the Floor Price is specified for the purposes of Bidding (“**Alternate Book Building Process**”). The Issuer may specify the Floor Price in the RHP or advertise the Floor Price at least one Working Day prior to the Bid/Issue Opening Date. QIBs may Bid at a price higher than the Floor Price and the Allotment to the QIBs is made on a price priority basis. The Bidder with the highest Bid Amount is allotted the number of Equity Shares Bid for and then the second highest Bidder is Allotted Equity Shares and this process continues until all the Equity Shares have been allotted. RIIs, NIIs and Employees are Allotted Equity Shares at the Floor Price and Allotment to these categories of Bidders is made proportionately. If the number of Equity Shares Bid for at a price is more than available quantity then the Allotment may be done on a proportionate basis. Further, the Issuer may place a cap either in terms of number of specified securities or percentage of issued capital of the Issuer that may be Allotted to a single Bidder, decide whether a Bidder be allowed

to revise the bid upwards or downwards in terms of price and/or quantity and also decide whether a Bidder be allowed single or multiple bids.

If the aggregate demand in this category is greater than the allocation to in the Retail Category at or above the Issue Price, then the maximum number of RIIs who can be Allotted the minimum Bid Lot will be computed by dividing the total number of Equity Shares available for Allotment to RIIs by the minimum Bid Lot ("**Maximum RII Allottees**"). The Allotment to the RIIs will then be made in the following manner:

- (a) In the event the number of RIIs who have submitted valid Bids in the Issue is equal to or less than Maximum RII Allottees, (i) all such RIIs shall be Allotted the minimum Bid Lot; and (ii) the balance available Equity Shares, if any, remaining in the Retail Category shall be Allotted on a proportionate basis to the RIIs who have received Allotment as per (i) above for the balance demand of the Equity Shares Bid by them (i.e. who have Bid for more than the minimum Bid Lot).

In the event of the Issue being over-subscribed, the Issuer may finalise the Basis of Allotment in consultation with the Designated Stock Exchange in accordance with the SEBI ICDR Regulations.

The allocation may be made in marketable lots, on a proportionate basis as explained below:

- (a) Bidders may be categorized according to the number of Equity Shares applied for;
- (b) The total number of Equity Shares to be Allotted to each category as a whole may be arrived at on a proportionate basis, which is the total number of Equity Shares applied for in that category (number of Bidders in the category multiplied by the number of Equity Shares applied for) multiplied by the inverse of the over- subscription ratio;
- (c) The number of Equity Shares to be Allotted to the successful Bidders may be arrived at on a proportionate basis, which is total number of Equity Shares applied for by each Bidder in that category multiplied by the inverse of the over-subscription ratio;
- (d) In all Bids where the proportionate Allotment is less than the minimum Bid Lot decided per Bidder, the Allotment may be made as follows: the successful Bidders out of the total Bidders for a category may be determined by a draw of lots in a

manner such that the total number of Equity Shares Allotted in that category is equal to the number of Equity Shares calculated in accordance with (b) above; and each successful Bidder may be Allotted a minimum of such Equity Shares equal to the minimum Bid Lot finalised by the Issuer;

- (e) If the proportionate Allotment to a Bidder is a number that is more than the minimum Bid lot but is not a multiple of one (which is the marketable lot), the decimal may be rounded off to the higher whole number if that decimal is 0.5 or higher. If that number is lower than 0.5 it may be rounded off to the lower whole number. Allotment to all Bidders in such categories may be arrived at after such rounding off; and
- (f) If the Equity Shares allocated on a proportionate basis to any category are more than the Equity Shares Allotted to the Bidders in that category, the remaining Equity Shares available for Allotment may be first adjusted against any other category, where the Allotted Equity Shares are not sufficient for proportionate Allotment to the successful Bidders in that category. RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and FEMA. While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The government bodies responsible for granting foreign investment approvals are the RBI and the relevant ministry or ministries of the Government of India.

The Government has from time to time made policy pronouncements on FDI through press notes and press releases. The Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India (“DIPP”), issued the consolidated FDI policy circular of 2017 (“FDI Policy 2017”), which with effect from August 28, 2017, consolidates and supersedes all previous press notes, press releases and clarifications on FDI policy issued by the DIPP that were in force and effect as on August 28, 2017.

Subject to certain conditions, the transfer of shares by way of sale between an Indian resident and a non-resident does not require the prior approval of the RBI or the relevant ministry or ministries of the Government of India, provided that (i) the activities of the investee company are under the automatic route under the FDI Policy 2017 and transfer does not attract the provisions of the SEBI Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the FDI Policy 2017; and (iii) the pricing is in accordance with the guidelines prescribed by the SEBI and the RBI.

As per the existing policy of the Government of India, OCBs cannot participate in the Offer.

The Equity Shares have not been and will not be registered under the Securities Act or any other applicable law of the United States and, unless so registered, and may not be offered or sold within the United States, except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and applicable state securities laws. Accordingly, the Equity Shares are only being offered and sold (i) within the United States only to persons reasonably believed to be “qualified institutional buyers” (as defined in Rule 144A under the Securities Act and referred to in this Draft Red Herring Prospectus as “U.S. QIBs”, for the avoidance of doubt, the term U.S. QIBs does not refer to a category of institutional investor defined under applicable Indian regulations and referred to in this Draft Red Herring Prospectus as “QIBs”) in transactions exempt from, or not subject to, the registration requirements of the Securities Act, and (ii) outside the United States in offshore transactions in reliance on Regulation S under the Securities Act and the applicable laws of the jurisdiction where those offers and sales occur.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and application may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

The above information is given for the benefit of the applicants. Our Company and the BRLMs are not liable for any amendments or modification or changes in applicable laws.
