# 1. Fundamentals of Marketing

 **10 Hours**

Course offered by

Course Access: **2 Years**

The realm of marketing also deals with identifying and reaching the target customers successfully, creating relationships by understanding the customer life cycle and eventually retaining the customers and making them loyal. It is also essential to understand the customer buying process and the life cycle to be able to market effectively and communicate the value of the product or service effectively. At the core, it is the customer-centric approach adopted by organizations and marketing professionals that helps them re-align the focus from product to customers. Being customer-focused, it helps organizations reap the benefits of customer loyalty and advocacy. The course endeavors to provide comprehensive and engaging learning of marketing fundamentals, concepts, and skills needed to be successful in marketing.

## Course Outline

- **Marketing concepts and evolution**
- **Service Marketing**
- **Understanding and Leveraging Customer Life Cycle, Customer Centricity and Customer Value Proposition**
- **Understanding the Selling process – Communication skills**
- **Presentation Skills & Negotiation Skills**

## 2. Customer Experience (CX) in Bank 4.0

 **4 Hours**

Course offered by

Course Access: **2 Years**

India's consumer markets are well-positioned to gain from favorable macroeconomic and demographic factors. India has one of the youngest populations among large countries. It has become one of the major flag-bearers of development across the globe. The generation of these new age customers is entering the workforce and influencing the consumer market. Their influence also defines how they are perceived, so that organizations can try to understand how to engage with them. The influence they wield has created economic effects and impacted the Banking & Financial Sectors also. Due to the rapid penetration of the Internet and access to information, they are ready to drive the banking industry onto a whole new track soon.

### Course Outline

- **Evolution of Banking and digital disruption**
- **Introduction to Customer Experience (CX) and Customer Life Cycle**
- **Innovation & impact of exponential technology in Customer Experience (CX)**
- **Key drivers of implementing Bank 4.0**

# 3. Business Valuation

 **6 Hours**

**Course offered by**

**Course Access: 2 Years**

This curriculum teaches the fundamentals of valuing public and private companies through a case study approach. It covers the different methodologies and focuses on the Discounted Cash Flow (DCF) method as participants build a DCF analysis for an actual acquisition, using each component of the DCF model: projected free cash flows, Weighted Average Cost of Capital (WACC) and terminal value. The program concludes with an introduction to sensitivity and scenario analysis, which is used to improve the base case valuation.

## Course Outline

- **Introduction of Business Valuation**
- **The Foundations of free cash flow**
- **The weighted average cost of capital**
- **Terminal Value**
- **The DCF approach to business valuation**
- **The limitations of the DCF approach**

# 4. Fundamental of Customer Experience

 **2.5 Hours**

**Course offered by**

**DEAKINCo.**

**Course Access: 2 Years**

Customer experience is a crucial part of marketing and business success. Being able to see the business from the customer's perspective, understand their needs or requirements and how they interact with an organization helps shape the customer experience being delivered.

In this foundational customer experience course, you will learn how to provide customers with a quality experience by focusing on their needs and requirements. You will be taught industry tools and techniques to help analyze, monitor and gain insights into the customer experience. We'll look at common customer experience tools, techniques for customer engagement and how a strong customer experience can support valued repeat business from customers as well as attract new customers.

## Course Outline

- **Module 1: Customer experience tools**
- **Module 2: Customer identification**
- **Module 3: Customer engagement**
- **Module 4: Customer perspective**
- **Module 5: Course completion**

# 5. Insights and Trend in data driven Marketing

 **4 Hours**

Course offered by

**DEAKINCo.**

**Course Access: 2 Years**

This foundational data-driven marketing course explores how to find, analyze, and put relevant marketing data into action. This includes knowing your customer, understanding how best to communicate with them and understanding the marketing process from initial research through to putting a plan into action. You will be taught how to collect, synthesize, and report on data from routine sources to draw out insights, focusing on customer experience, brand, product, or campaign performance.

## Course Outline

- **Module 1: Marketing data**
- **Module 2: Marketing reports**
- **Module 3: Marketing processes**
- **Module 4: Marketing campaigns**

# 6. Digital Fundamentals in Connected world

 **2.5 Hours**

**Course offered by**

**DEAKINCo.**

**Course Access: 2 Years**

This foundational digital literacy course teaches you how to use standard software and hardware to create, edit, organize, store and retrieve information. You will learn how to identify a range of digital tools to communicate, create and share information online, and gain an awareness of how data is tracked, retained and used. You will learn how to use technology to improve the productivity, efficiency and effectiveness of your work and your communication with friends, colleagues and customers.

## Course Outline

- **Module 1: Digital technologies**
- **Module 2: Digital communication**
- **Module 3: Digital information**
- **Module 4: Digital technologies**
- **Module 5: Course completion**

# 7. Build Marketing Insights

 **4 Hours**

Course offered by

**DEAKINCo.**

Course Access: **2 Years**

Building market insights explores marketing data analysis, trends, and strategies. In your current role you will have experience of some, or all of these functions and you will already be familiar with the concepts. Data-driven marketing is essential in all workplaces and includes undertaking data analysis, understanding marketing trends, and evaluating marketing strategies.

## Course Outline

- **Module 1 Marketing data analysis**
- **Module 2 Marketing trends**
- **Module 3 Marketing strategies**

# 8. Sales Quest - Managing Sales Pipeline

 **3.5 Hours**

**Course offered by**

**Course Access: 2 Years**

The Sales Quest course and simulation is designed to help participants develop sales capabilities and provides organizations with a scalable and cost-effective solution for imparting sales process training. The simulation puts participants in the role of a sales executive, who is tasked with selling a B2B product to clients.

To succeed, participants are expected to generate leads, qualify them, and with increased interactions, convert them into revenue.

## Course Outline

- **Understand the characteristics of a Rockstar salesperson**
- **Identify the various stages in the sales process**
- **Employ effective questioning techniques to understand customers' needs**
- **Develop the right attitude for closing sales**

# 9. DataWhiz - Data Visualization for Informed Decision Making

 **3 Hours**

**Course offered by**

**Course Access: 2 Years**

Data-driven culture has become a necessity for organizations today because of the explosion of data. To deal with it, organizations need more people with the ability to interpret data, visualize it effectively and make meaningful decisions. To develop these skills, enrol in this DataWhiz course - the Data Visualization and Interpretation simulation!

This course and embedded simulation help learners understand how to interpret different forms and formats of data, identify what is relevant, generate insights and present the findings in an effective manner. It places learners into a virtual taskforce where they must apply their skills and knowledge in using and presenting data in ways that would help the organization's leadership take confident, informed strategic decisions about the future of the organization.

## Course Outline

- **Data Visualization Score**
- **Performance against Objectives**
- **Data Representation Score**
- **Visual Clarity Score**
- **Data Interpretation Score**
