

Financial Modelling and Valuation

Program Details :

Financial Modelling course is designed to provide you with a highly approachable & time-efficient way to learn more about how to create your own financial models and review those created by others. We cover each component of statement financial model from creating detailed forecast assumptions to modelling out each of the financial statements (P&L, Cash Flow Statement, Balance Sheet) within Excel. We use a highly practical learning approach with a student-led case study completed during the course.

WHO WILL BENEFIT FROM THIS?

Students | Investors/Clients | Traders | Sub-Brokers/Dealers | Working Executives | Other Financial Intermediaries | Any person who is interested in the financial modelling and valuation
