NSE Indices launches Nifty500 Multicap Momentum Quality 50 index

NSE's index services subsidiary, NSE Indices Limited today launched a new strategy index – Nifty500 Multicap Momentum Quality 50 index.

The Nifty500 Multicap Momentum Quality 50 index aims to track the performance of the large, mid and small cap stocks which are selected based on the combination of momentum and quality factors from the Nifty 500 index. 10 stocks from the Large cap universe (stock forming part of the Nifty 100 index), 15 stocks from the Midcap universe (stock forming part of the Nifty Midcap 150 index) and 25 stocks from Smallcap universe (stock forming part of the Nifty Smallcap 250 index) based on the combination of momentum and quality factors are selected to be part of the Nifty500 Multicap Momentum Quality 50 index.

The momentum score for each company is determined based on its 6-month and 12-month price return, adjusted for volatility. The quality score for each company is determined based on return on equity (ROE), financial leverage (Debt/Equity Ratio) and earnings (EPS) growth variability analyzed during the previous 5 years. The weight of each stock in the index is based on the combination of composite momentum-quality score and its free-float market capitalization. Stock weights are capped at 5% at the time of index rebalancing.

The base date for the index is April 01, 2005, and the base value is 1000. The index will be reconstituted and rebalanced on a semi-annual basis.

The new index is expected to act as a benchmark for asset managers and be a reference index tracked by passive funds in the form of Exchange Traded Funds (ETFs), index funds and structured products.

About NSE Indices Limited:

NSE Indices Limited (formerly known as India Index Services & Products Ltd. - IISL), a subsidiary of NSE, provides a variety of indices and index related services for the capital markets. The company focuses on the index as a core product. The company owns and manages a portfolio of indices under the Nifty brand of NSE, including the flagship index, the Nifty 50. Nifty equity indices comprises broad-based benchmark indices, sectoral indices, strategy indices, thematic indices, and customised indices. NSE Indices Limited also maintains fixed income indices based on Government of India securities, corporate bonds, money market instruments and hybrid indices. Many investment products based on Nifty indices have been developed within India and abroad. These include index-based derivatives traded on NSE and NSE International Exchange IFSC Limited (NSE IX) and a number of index funds and exchange traded funds. The flagship 'Nifty 50' index is widely tracked and traded as the benchmark for Indian Capital Markets.
