ELIGIBILITY

- **Educational Background:** Undergraduate students, MBA candidates, or finance professionals with a basic understanding of financial concepts.
- **Prerequisites:** Basic knowledge of accounting and financial management is recommended. Familiarity with financial statements and elementary finance principles will be beneficial.
- **Professionals:** Entry-level to mid-level finance professionals, analysts, accountants, and investment advisors.

IDEAL FOR

- **Students:** Those pursuing degrees in finance, accounting, business administration, or related fields who want to deepen their understanding of valuation and financial analysis.
- **Finance Professionals:** Individuals working in investment banking, equity research, portfolio management, corporate finance, and financial consulting.
- **Entrepreneurs and Business Owners:** Those looking to understand the financial health and valuation of their businesses for investment, expansion, or exit strategies.
- **Aspiring Analysts:** Individuals aiming to build a career as financial analysts, valuation experts, or financial advisors.

OBJECTIVES:

- Analyze the statement of profit and loss, balance sheet, and cash flow statement.
- Compute the cost of equity using the CAPM model, cost of debt, and WACC.
- Apply valuation models such as Gordon's Dividend Growth Model and relative valuation methods (P/E, P/BV, EV/EBITDA, Market Cap/Sales).
- Conduct practical valuations through case studies of listed companies.
- Identify red flags in financial statements using forensic accounting techniques.
- Develop effective screening criteria for shortlisting and analyzing companies.

PROGRAM FEE

**Fees: ₹ 15,000+ 18% GST
(Rs 17,700 inclusive of GST)**
