गुंतवणूकदारांना वित्तीय बाजाराची समज

'एनएसई'चे एमडी आशीष कुमार चौहान यांचे प्रतिपादन; म्युच्युअल फंडांमध्ये संधी

मुंबई, ता. ३ : पायाभूत सुविधांच्या विकासावर सरकारचे लक्ष असून पायाभूत सुविधांमध्ये वाढ हा निफ्टी ५० निर्देशांकांच्या प्रगतीतील एक महत्त्वाचा घटक आहे. त्यातच या कालावधीत भारतीय गुंतवणूकदारही परिपक्व झाला असून त्याने अत्यंत चांगल्या प्रकारे संयम आणि वित्तीय बाजाराची समज दाखवल्याचेही प्रतिपादन 'एनएसई'चे एमडी व सीईओ आशिष कुमार चौहान यांनी केले.

संमत २०८१ च्या सुरुवातीला राष्ट्रीय शेअर बाजार पंचवीस हजारांच्या महत्त्वाच्या टप्प्याच्या आसपास आहे,; त्यानिमित्ताने त्यांनी ही माहिती दिली. सरकारने रस्ते, रेल्वे, बंदरे आदी पायाभूत सुविधा आणि गृहनिर्माण यात मोठ्या प्रमाणावर गुंतवणूक केली आहे. यामुळे बांधकाम क्षेत्रासह वाहननिर्मिती, एफ. एम. सी. जी. यासारख्या क्षेत्रातही विकासाच्या मोठ्या संधीसमोर आल्या आहेत. पायाभूत सुविधा प्रकल्पांमुळे रोजगार निर्मिती होते, उत्पादकता वाढते आणि मोठ्या आर्थिक घडामोडींना चालना मिळते. या सर्व क्षेत्रांची निफ्टीमधील कामगिरी सध्या अत्यंत उत्तम असल्यामुळे पायाभूत सुविधांना सरकारने चालना दिल्याचे महत्त्व कळून येते, असेही चौहान यांनी सांगितले.

मुंबई : 'एनएसई'चे एमडी आशीष कुमार चौहान यांच्या हस्ते शुक्रवारी सायंकाळी घंटा वाजवून मुहूर्त ट्रेडिंगची सुरुवात करण्यात आली.

भारताचे आर्थिक चित्र गेल्या दशकात मोठ्या प्रमाणावर बदलले आहे. तंत्रज्ञान, पायाभूत सुविधा, वित्तीय सेवा या क्षेत्रात भारताने प्रगती केली आहे. निफ्टी ५० निर्देशांकाची वाढ हे त्या बदलाचे सर्वोत्तम प्रतिबिंब आहे. आर्थिक क्षेत्र हा विकसनशील अर्थव्यवस्थेचा पाया असून या सेवांच्या वाढीमुळे नागरिकांना तर फायदा मिळालाच, पण पायाभूत सुविधा विकास झाला आणि उद्योगांचीही वाढ झाली. आयटी क्षेत्राच्या वाढीमुळे आर्थिक क्षेत्रातील पायाभूत सुविधांचा मोठ्या प्रमाणावर प्रसार झाला. डिजिटल पेमेंट आणि यूपीआय सेवांनी या क्षेत्रात मोठाच बदल घडविल्याची माहिती त्यांनी यावेळी दिली.

गुंतवणूकदारांच्या संख्येत तिप्पट वाढ

1 भारतीय गुंतवणूकदारही परिपक्व झाला असून निफ्टीवर आधारित म्युच्युअल फंडांकडे गुंतवणुकीची चांगली संधी म्हणून म्हणतो पहात आहे. गेल्या चार वर्षात 'एनएसई'वरील नोंदणीकृत गुंतवणूकदारांची संख्या तिप्पट वाढली आहे. फक्त वीस टक्के भारतीय कुटुंबे शेअर बाजारात सक्रिय गुंतवणूक करतात.

2 यात भविष्यात मोठ्या वाढीची संधी आहे. तरुणांची मोठी लोकसंख्या हा भारताच्या उज्वल भविष्याचा गाभा आहे. या सर्व बाबींमुळे भारताचा आर्थिक विस्तार निश्चितपणे सुरू राहील आणि भारत हा एक जागतिक पॉवर हाऊस होईल. निफ्टी ५० ही एक दुर्बीण असून त्याद्वारे जागतिक स्तरावर आर्थिक नेता म्हणून भारताकडे पाहिले जाते, असेही 'एनएसई'चे एमडी व सीईओ आशीष कुमार चौहान यांनी सांगितले.

Mumbai: Across-the-board buying helped the sensex reclaim the 80,000-level after the recent slide in the stock market during Friday's hour-long Muhurat trading session with the benchmark closing at 79,724 points, up 335 points or 0.4% from Thursday's close. In percentage terms, the closing was on a par with the trading in the last four years, BSE data showed. The Nifty rose by 99 points to 24,304.

The Muhurat trading session, held on Diwali, marks the start of the Vikram Samvat year, the new year according to one of the Hindu calendars that is followed mainly by the Gujarati trading community that dominates Dalal Street. This Friday marked the start of Samvat year 2081.

Traditionally, during the Muhurat session local brokers and traders only put in 'buy' orders and refrain from selling any stock. Given the absence of institutional investors during the special session due to Diwali holiday, indices rarely close lower during Muhurat sessions. The Samvat year 2081 marked the 150th year for the BSE and the 30th year for the NSE. In Friday's special session, sensex opened about 650 points up at 80,024 points, which was also the day's high, slid marginally to tread steady through the session. Of the 30 sensex stocks, 27 closed with gains, BSE data showed.

During Friday's session auto stocks led the pack of gainers, backed mainly by robust October sales numbers, brokers and analysts said. M&M was up 3.3%, Tata Motors 1.1% while Hyundai was up 0.6% and Maruti closed with a marginal 0.3% gain. BSE's auto index closed 1.2% up, the highest among all the sectoral indices on the exchange. Midcap and smallcap stocks also attracted buying interest. As a result, BSE's midcap index closed 0.7% up while the smallcap index was up 1.2%.

Oil Rallies On Fears Of Iran-Israel Flare-Up

Oil jumped on a report that Iran may be preparing to attack Israel from Iraqi territory in the coming days, jolting the market's attention back to a potential flare-up of Middle East hostilities.

WTI surged as much as 3.2% to trade near $71 a barrel, while Brent rallied above $74. Iran is planning a strike through militias that it backs in Iraq, with the assault expected to be carried out using drones and ballistic missiles, Axios reported, citing two Israeli sources it didn't identify.

Prices held onto gains after US economic data showed the nation added fewer jobs than expected last month, though the figures were distorted by storms and labour disputes. Crude has regained most of the ground it lost at the start of the week, which followed Israel's attack on Iran in response to an Oct 1 missile barrage. Some analysts warned that the market had "relaxed too quickly". BLOOMBERG

7th consecutive year of gains in *Muhurat* trading

SUNDAR SETHURAMAN
Mumbai, 1 November

Domestic equities markets ushered in Samvat 2081 with gains of nearly half a per cent, as all sectors made positive contributions. Following the one-hour ceremonial trading session, the Sensex closed at 79,724, up 335 points, or 0.42 per cent, while the Nifty 50 index finished at 24,304, rising 99 points, or 0.41 per cent.

The broader Nifty Midcap 100 and Smallcap 100 outperformed, rising 0.7 per cent and 1 per cent, respectively. Overall, 3,038 stocks closed with gains, while only 539 ended in the red on the BSE.

Bourses conduct a special one-hour ceremonial *Muhurat* trading session every year to mark the beginning of a new Hindu calendar year. This is the seventh consecutive year that equity markets have closed with gains on *Muhurat* trading day.

While domestic markets were closed for normal trading, global cues were mixed as investors awaited the Federal Reserve rate verdict and the outcome of US elections due next week.

Oct mkt correction triggers anxiety

US equities rose by about 1 per cent after disappointing jobs data bolstered hopes of a rate cut. Markets are entering Samvat 2081 on a turbulent note. Both the Sensex and the Nifty have dropped over 7 per cent each from their highs on September 26. The Nifty Midcap 100 is down nearly 7.2 per cent, while the Nifty Smallcap 100 is down over 3.9 per cent from their respective peaks.

While markets added ₹125 trillion in value during Samvat 2080, India's market capitalisation (mcap) is down by ₹30 trillion from its highs.

Some believe the ongoing correction in the market provides a good entry point for investors who have been waiting on the sidelines for over a year. However, navigating the market landscape may not be straightforward, as equities face headwinds from factors like muted earnings growth this financial year, persistent geopolitical tensions, and relentless selling by overseas funds amid the appeal of a more attractively priced Chinese market.

In October, FPIs pulled out a record ₹87,639 crore from domestic stocks, triggering a 6.22 per cent drop in the Nifty — its largest monthly fall since March 2020.

"The Nifty returned 25 percent in Samvat 2080, so investors should be happy. However, the correction in October — the first monthly fall of over 5 per cent in 54 months — has triggered anxiety over the market performance going forward. One serious concern is the relentless FPI selling. Given India's elevated valuations and concerns over deceleration in earnings growth, the selling might continue, impacting the benchmark indices. In such a scenario, investors should focus on stock-specific investment and companies with good earnings visibility," said V K Vijayakumar, chief investment strategist, Geojit Financial Services.

With more companies missing earnings estimates than meeting them, analysts are lowering earnings growth expectations for FY25 from 10 per cent to below 3 per cent. This limits how much the markets can rally from here. Despite the recent decline, the Nifty trades at 21.8 times its 12-month forward earnings, slightly above its long-term average of 20.7 times. Also, the broader Nifty Midcap 100 trades at high valuations of 31x, compared to its 10-year average of 17x.

"While the long-term growth story for Indian equities remains strong, current valuations leave limited room for expansion. This means that growth in corporate earnings will be a pivotal driver of market returns. Stock picking with a balance of growth — at a reasonable price — and quality will be critical to achieving good returns over the coming year," said Pranav Haridasan, managing director and chief executive officer of Axis Securities.

Samvat 2081 begins on bullish note as Sensex, Nifty witness solid gains

ENS ECONOMIC BUREAU
MUMBAI, NOVEMBER 1

STOCK MARKETS on Friday ushered in Samvat 2081 on a positive note with the BSE Sensex rising 0.42 per cent or 335 points, to close at 79,724.12, and the NSE Nifty gaining 99 points (0.41 per cent) to settle at 24,304.35 on all-round buying support.

The small-cap index increased by 1.16 per cent, while the mid-cap grew by 0.69 per cent, indicating the broad optimism in the market during the special Muhurat trading between 6 pm and 7 pm.

The Sensex lost 5.82 per cent in October due to heavy selling by foreign investors.

According to analysts, despite the recent fall in the markets, the optimism during the Muhurat trading signifies positive investor sentiment. "It is likely that the current correction in the markets is likely to start correcting itself in the next few weeks. Possibly, somewhere between November 15 to January 15, the markets should start stabilising and demonstrate a definite trend, most likely positive," said Vikas Gupta, CEO, Omniscience Capital.

"It is clear that the obvious investment opportunity lies in the large-cap space. Of course, the small caps could also offer lots of investment opportunities given that there are nearly 1,000 small caps in the Indian stock markets. However, the mid-cap space is where one has to be careful. With only 150 mid-caps, it is unlikely that one would find lot of opportunities when the index itself is so overvalued," Gupta said.

As far as macro fundamentals are concerned, the GDP growth is expected to be 7 per cent plus in real terms, inflation is within the central bank's target range and interest rates are likely to be cut across the globe over the next year. "Except for black swans which could derail the supply chains from Asia to Europe, the coast is clear for the markets. With the large caps significantly undervalued, and expectations of large earnings gains, it is likely that the Nifty 50 and Sensex could deliver an outsized gain in Samvat 2081," he said.

The special one-hour Muhurat trading session on Friday saw benchmark indices end with modest gains, marking a positive start to the new year for the seventh straight year.

The Sensex closed at 79,724, gaining 335 points or 0.42 per cent, while the Nifty rose 0.41 per cent to 24,304.

GAINERS, LAGGARDS

Mahindra & Mahindra topped the Nifty gainers, surging 3.59 per cent, followed by ONGC (2.95 per cent) and Adani Ports (1.32 per cent).

Dr. Reddy's Laboratories, down 0.96 per cent and HCL Technologies, down 0.51 per cent, were the key laggards. The market breadth remained positive, with 3,038 advances against 539 declines on the BSE, and 118 stocks making 52-week highs.

TREAD WITH CAUTION

Ashishkumar Chauhan, MD & CEO, NSE, asked retail investors to pursue sustainable wealth creation through long-term investment and encouraged them to conduct thorough research before making any investment decisions. Pranav Haridasan, MD and CEO, Axis Securities, said the new year could see one or two rate cuts by the Reserve Bank of India, depending on the trajectory of growth and inflation.

"While the long-term growth story for Indian equities remains stronger than ever, current valuations leave limited room for expansion. Stock picking with a balance of growth — at a reasonable price — and quality will be critical to achieving good returns over the coming year," Haridasan said.

VK Vijayakumar, Chief Investment Strategist, Geojit Financial Services, said FPI selling could continue to weigh on the indices, given India's elevated valuations and concerns over deceleration in earnings growth.

https://economictimes.indiatimes.com/tech/artificial-intelligence/ai-driven-trading-could-blur-the-line-between-truth-and-lies-warns-nse-md/articleshow/114870688.cms

Marking its 30th anniversary on Diwali, the National Stock Exchange of India (NSE) celebrated its legacy of innovation with the launch of a multi-language website and mobile apps, enhancing accessibility for investors across India.

During the Muhurat Trading session, a tradition held on Diwali, NSE managing director Ashish Kumar Chauhan extended warm wishes for the New Year, Vikram Samvat 2081, and highlighted NSE's commitment to providing accurate and reliable information to the trading community.

Chauhan said, "Some people leave their decisions to trade and invest on software, just like driver-less cars. This and many more dangerous uses of AI are being made. With persistent use of AI, the line between truth and lies will become blurred."

Reflecting on NSE's origins, Chauhan noted, "NSE came into being on 3 November 1994, on Diwali, so today marks 30 years of NSE. Traditionally, Gujarati and Marwadi businessmen close their account books today, marking the last day of the year. Muhurat trading holds great importance for the country." He emphasized the significance of this auspicious occasion, when many investors participate in a ceremonial trade to mark the beginning of a prosperous financial year.

In its efforts to support investors across linguistic backgrounds, NSE introduced its website in eight additional regional languages, bringing the total to twelve, including Assamese, Bengali, Kannada, Malayalam, Oriya, Punjabi, Tamil, and Telugu, along with previously supported English, Hindi, Marathi, and Gujarati.

Additionally, new NSE mobile apps for Android and iOS were launched, providing users with market updates and tools to make informed decisions on the go.

Chauhan said, "People often spread rumours and tips on trading. All information required by information from a trusted source will be provided by NSE. Today, we have launched NSE India websites in 8 languages, with 4 languages provided earlier, making it a total of 12 languages now. Android and ioS mobile apps have also been launched by the NSE."

On Muhurat Trading in the NSE on the occasion of Diwali, NSE MD Ashish Kumar Chauhan said, "I wish a good and prosperous New Year Vikram Samvat 2081 to everyone. NSE came into being on 3 November 1994, on Diwali, so today marks 30 years of NSE. Traditionally, Gujarati and Marwadi businessmen close their account books today marking the last day of the year... રોકાણકારોનું સશક્તિકરણઃ એનએસઈની મોબાઈલ એપ્લિકેશન (NSEIndia) અને બહુભાષીય વેબસાઈટ દિવાળી પર લાઈવ થઈ

દિવાળીના શુભ પ્રસંગે નેશનલ સ્ટોક એક્સચેન્જ ઓફ ઈન્ડિયા (એનએસઈ)એ રોકાણકારોની સુલભતાને વધારવા માટે એક મહત્વપૂર્ણ પગલું લીધું છે. ૧૧ પ્રાદેશિક ભાષાઓને સપોર્ટ કરતા એનએસઈએ તેની ઓફિશિયલ એનએસઈ મોબાઈલ એપ (**NSEIndia**) લોન્ચ કરી છે અને તેની કોર્પોરેટ વેબસાઈટ **www.nseindia.com**ને વિસ્તારી છે. આ બંને સુવિધાઓનું લોન્ચિંગ સમગ્ર દેશમાં રોકાણકારો માટે વધુ સમાવેશક નાણાંકીય ઈકોસિસ્ટમ ઊભી કરવાની એનએસઈની પ્રતિબદ્ધતા દર્શાવે છે. આ લોન્ચ અંગે વાત કરતા એનએસઈના એમડી અને સીઈઓ શ્રી આશિષકુમાર ચૌહાણે કહ્યું કે, "સૌને ખુશહાલ અને સમૃદ્ધ દિવાળીની શુભેચ્છાઓ. આજે એનએસઈ તેના કામકાજના ૩૦ વર્ષો પૂરા કરી રહી છે, ત્યારે અમે હાલની અંગ્રેજી, હિન્દી, મરાઠી અને ગુજરાતી ઉપરાંત આસામી, બંગાળી, કન્નડા, મલયાલમ, ઓરિયા, પંજાબી, તમિળ અને તેલુગુ જેવી અન્ય ૮ ભારતીય ભાષાઓમાં વેબસાઈટ્સ ઉપરાંત મોબાઈલ એપ લોન્ચ કરી છે. આ વર્ષે એનએસઈ પર મુહૂર્ત ટ્રેડિંગ અનેરું મહત્વ ધરાવે છે. આ સીમાચિહ્નરૂપ સફર ભારતના નાણાંકીય ક્ષેત્રે વિશ્વાસ, નવીનતા અને વૃદ્ધિનું પ્રતીક છે. રોકાણકારોને કોઈપણ રોકાણના નિર્ણયો લેતા પહેલા યોગ્ય રીતે સંશોધન કરવા માટે પ્રોત્સાહિત કરવામાં આવે છે કારણ કે રોકાણકાર જાગૃતતાને પ્રોત્સાહન એનએસઈની પ્રાથમિકતાઓ પૈકીની એક રહી છે. અમે રિટેલ રોકાણકારોને લાંબા ગાળાના રોકાણ દ્વારા ટકાઉ સંપત્તિ સર્જનમાં આગળ વધવા અપીલ કરીએ છીએ." આ પ્લેટફોર્મ આધુનિક રોકાણકારોની જરૂરિયાતોને પૂરી કરે તેવા ફીચર્સના લોન્ચ માટેનો પાયો બનશે. તે એક્સેસિબિલિટી, સુરક્ષા અને યુઝરના અનુભવ પ્રત્યે એનએસઈની વર્તમાન પ્રતિબદ્ધતા દર્શાવે છે. આ શુભ પ્રસંગે એનએસઈના ચીફ બિઝનેસ ડેવલપમેન્ટ ઓફિસર શ્રી શ્રીરામ કૃષ્ણને જણાવ્યું હતું કે "આ દિવાળી ભારતના મૂડી બજારમાં એનએસઈની વર્તમાન પ્રતિબદ્ધતામાં વધુ એક સીમાચિહ્ન છે. અમારી નવી મોબાઈલ એપ અને અમારી વેબસાઈટનું ૧૧ પ્રાદેશિક ભાષાઓમાં વિસ્તરણ એ વધુ સમાવેશક અને સુલભ નાણાંકીય ઈકોસિસ્ટમ તરફના પરિવર્તનકારી પગલાં છે. આ પહેલ ઝડપી ટૂલ્સ, રિયલ-ટાઈમના જેવી ઈનસાઈટ્સ તથા પોતાની માતૃ ભાષામાં બજારની માહિતી મેળવવાની સુગમતા દ્વારા રોકાણકારોને સશક્ત બનાવવા તૈયાર કરવામાં આવી છે. અમે બજારોને દરેક વ્યક્તિની નજીક લઈ જતા ગર્વ અનુભવીએ છીએ અને સુનિશ્ચિત કરીએ છીએ કે તેઓ ગમે તે બેકગ્રાઉન્ડના હોય પરંતુ ભારતની આર્થિક સફરમાં આત્મવિશ્વાસભેર ભાગ લઈ શકે છે."

Diwali Muhurat Trading: NSE CEO Ashish Kumar Chauhan, exclusively speaking to ET NOW, gave three key tips for investors and for those who are aspiring to become investors.

National Stock Exchange (NSE), one of the leading stock exchanges of India, today, November 1 completed 30 years of its operations.

Diwali Mahalakshmi Puja is of huge significance to most Indians, but it is even more important to NSE as the equities market trading commenced in NSE on November 3, 1994, evening during Diwali Puja, said the stock exchange.

As NSE completed 30 years, which commemorates with Diwali Muhurat Trading, CEO Ashish Kumar Chauhan, exclusively speaking to ET NOW, gave three key tips for investors and for those who are aspiring to become investors.

“Don't believe in tips, don't trade continuously and try to be investors. Investors don't trade every day. They invest and stay on for longer period. And, of course the world has started moving faster but 3 to 5 years could be a good time frame to look at, rather than trying to do things every day. And, of course don't trade in derivatives if you are not equipped to handle that,” Chauhan stressed. Speaking on the growth of the stock market, he said, “I have always seen that more tightening has happened and the markets have become safer. This is attracting even more customers because the customers who have been away from the markets for long assuming that this market is volatile. The tightening by the regulators in the interest of the small investors always helps in bringing more and more investors and I hope there are more investors that will come and they remain investors.” “Hopefully, they will not believe in tips and will not go through the WhatsApp messages which keep on giving them all sorts of bad information.”

Chauhan also urged new investors to stay away from F&O trading if they are not well versed with it. “If the investors are not attuned, they have not been trained, they shouldn't participate in derivatives market either,” he said.

On NSE completing 30 years, he said, “Wishing everyone a very happy and prosperous Diwali. Muhurat Trading at the NSE this year holds unparalleled significance, commemorating 30 years of NSE’s operations this remarkable journey symbolizes trust, innovation, and growth within India’s financial landscape. Investors are encouraged to conduct thorough research before making any investment decisions, as promoting investor awareness has been one of NSE’s priorities. Domestic equity indices (BSE Sensex and NSE Nifty) will be open for an hour on Friday (November 1) for Muhurat Trading on Diwali. The trading will mark the beginning of Samvat 2081, the Hindu New Year. The special session is meant to give a window to investors to make trades on the auspicious day. The traditional business community also open their books of account on Diwali.

This year, the Muhurat trading session will begin at 6:15 pm and end at 7:15 pm. The timings will be similar for commodity derivatives, currency derivatives, equity futures and options (F&O), and securities lending and borrowing (SLB).

Benchmark NSE said it will launch its website in eight Indian languages and mobile app. "Stay Tuned! Watch the live celebration of Diwali Puja and the launch of the NSE website in 8 Indian Languages & NSE Mobile App," the exchange said on X (formerly twitter).

Looking ahead to Muhurat Trading, market experts have identified resistance for Nifty at 24,300-24,400. Shrikant Chouhan from Kotak Securities noted, "If the index trades above 24,200, we could see a technical bounce to 24,300 or higher." However, if Nifty dips below 24,200, it could test levels between 24,100 and 24,050.

Hrishikesh Yedve from Asit C Mehta Investment Intermediates added, "Nifty's recent red candle on the daily chart indicates weakness, with consolidation between 24,000 and 24,500. A breakout could set the next trend."

For Nifty Bank, immediate support lies at 51,000-51,150, with resistance near 52,580.

Foreign investors have remained net sellers for 24 straight sessions, offloading stocks worth Rs 1.25 lakh crore. Domestic investors, however, continued as net buyers for the 28th session. On Thursday, Foreign Portfolio Investors (FPIs) sold Rs 5,813.3 crore, while Domestic Institutional Investors (DIIs) bought Rs 3,514.6 crore.

https://www.vtvgujarati.com/news-details/how-nse-become-the-sixth-largest-stock-exchange-in-the-world

દેશનાં શેરબજારનો ઇતિહાસ 1875થી શરૂ થયો હોવાનો કહેવાય છે, પરંતુ 1991માં નરસિમ્હા સરકાર દ્વારા વિદેશી કંપનીઓ માટે દેશનાં દરવાજા ખોલી દેતાં અને ગ્લોબલાઇઝેશનનો સમય શરૂ થતાં, શેરબજારે નવી ઝડપ પકડી. આ ઝડપ હર્ષદ મહેતાના કૌભાંડથી જુદી હતી. આ જ સમયમાં નેશનલ સ્ટોક એક્સચેન્જ (NSE) શરૂ થયું, જેના કારણે ભારતીય શેરબજારે નવા આયામો હાંસલ કર્યા. માત્ર ત્રણ દાયકામાં NSE દુનિયાનું છઠ્ઠું સૌથી મોટું એક્સચેન્જ બની ગયું છે. વર્તમાન સમયમાં NSE પર વેપાર કરતા રોકાણકારોની સંખ્યા 20 કરોડને પાર પહોંચી ગઇ છે, જેને એક મોટી ઉપલબ્ધિ માનવામાં આવે છે.

ભલે દેશની અર્થવ્યવસ્થા હજુ 5 ટ્રિલિયન ડોલરના સ્તરે ન પહોંચી હોય, પરંતુ NSEની માર્કેટ કેપ 5 ટ્રિલિયન ડોલરને પાર થઇ ગઇ છે. છેલ્લા થોડાં વર્ષોમાં નિફ્ટીએ અન્ય મોટાં એક્સચેન્જોની તુલનામાં સારુ રિટર્ન આપ્યું છે. આજે તેના ઇતિહાસના પાનાંઓ પર નજર કરીએ અને સમજીએ કે નેશનલ સ્ટોક એક્સચેન્જની શરૂઆત કેમ અને ક્યારે થઈ? આ એક્સચેન્જ શરૂ કરવાનો શું ઉદ્દેશ્ય હતો? અને હવે 3 દાયકા પછી આ એક્સચેન્જ ક્યાં સુધી પહોંચી ગઇ છે?

NSE ક્યારે શરૂ થયું?

ભારતીય શેરબજારમાં પારદર્શિતા લાવવા માટે વર્ષ 1993માં નેશનલ સ્ટોક એક્સચેન્જનો સમાવેશ થયો હતો. NSEની સ્થાપના 1991માં ફેરવાણી સમિતિની ભલામણો પર ભારતીય સરકારના આદેશથી કરવામાં આવી હતી. તેનું માળખું પાંચ સભ્યો - રવિ નારાયણ, રાઘવન પુથરણ, કે.કુમાર, ચિત્રા શંકરન અને આશિષ કુમાર ચૌહાણે RH પાટિલ અને SS નાડકર્ણી સાથે મળીને તૈયાર કર્યું, જેમને 1992માં IDBI દ્વારા નિયુક્ત કરવામાં આવ્યા હતા. ટ્રેડિંગ મેમ્બરશિપને માત્ર બ્રોકરોના સમૂહ પૂરતી મર્યાદિત રાખવા બદલે, NSEએ તમામ તે લોકોને ટ્રેડિંગની પરવાનગી આપી, જેમણે લાયકાત, અનુભવ અને ન્યૂનતમ નાણાકીય માપદંડો પૂરા કર્યા હોય.

NSEએ 30 જૂન 1993ના રોજ હોલસેલ ડેટ માર્કેટ સેગમેન્ટ અને 3 નવેમ્બર 1994ના રોજ ઇક્વિટી સેગમેન્ટથી શરૂઆત કરી. તે ઇલેક્ટ્રોનિક ટ્રેડિંગ સુવિધા શરૂ કરનાર ભારતનું પ્રથમ એક્સચેન્જ હતું. તેની શરૂઆતના એક વર્ષમાં, NSE પર રોજનું ટ્રેડિંગ BSE કરતાં વધુ થઇ ગયું. 12 જૂન 2000ના રોજ NSEએ ડેરિવેટિવ સેગમેન્ટની શરૂઆત કરી, અને ત્યારબાદ 2008માં, કરન્સી ડેરિવેટિવનો પ્રારંભ કર્યો.

દુનિયાનું છઠ્ઠું સૌથી મોટું સ્ટોક એક્સચેન્જ

હાલમાં માર્કેટ કેપના દ્રષ્ટિકોણે NSE દુનિયાનું છઠ્ઠું સૌથી મોટું સ્ટોક એક્સચેન્જ છે, જેની માર્કેટ કેપ 5.29 ટ્રિલિયન ડોલર છે. BSE 5.33 ટ્રિલિયન ડોલર સાથે પાંચમું સૌથી મોટું સ્ટોક એક્સચેન્જ છે. ચોથા સ્થાને ટોક્યો, ત્રીજું સ્થાન શંઘાઇ, બીજું નાસ્ડાક અને પ્રથમ સ્થાન ન્યુયોર્ક સ્ટોક એક્સચેન્જ છે. ખાસ વાત એ છે કે ભારતની અર્થવ્યવસ્થા હજી સુધી 5 ટ્રિલિયન ડોલર સુધી પહોંચી નથી. આ એકથી દોઢ વર્ષમાં પહોંચી શકે છે, જ્યારે NSE આગામી એકથી દોઢ વર્ષમાં 7 ટ્રિલિયન ડોલરની સ્તરે પહોંચી શકે છે.

રિટર્ન આપવા મામલે કોઈથી ઓછું નથી

NSE રોકાણકારોને રિટર્ન આપવા મામલે પણ કોઈથી ઓછું નથી. હાલમાં NSEના મુખ્ય ઇન્ડેક્સ નિફ્ટીએ 2024માં અત્યાર સુધીમાં 11.79% રિટર્ન આપ્યું છે, જ્યારે વર્ષમાં 26.38%નો ઉછાળો મળ્યો છે. બીજીતરફ, BSEના મુખ્ય ઇન્ડેક્સ સેન્સેક્સે આ વર્ષે 10.31% અને વર્ષમાં 23.86% રિટર્ન આપ્યો છે. NYSEએ 2024માં 14.32% અને વર્ષમાં 24.42%નો રિટર્ન આપ્યું છે, જ્યારે નાસ્ડાકે 23.53% અને વર્ષમાં 35.33%ની કમાણી કરાવી છે. શંઘાઇએ આ વર્ષે 10.46% અને વર્ષમાં 7.96%નો રિટર્ન આપ્યું છે.

દોસ્તો, તમને જણાવી દઈએ કે ફિલ્મ ‘ધ સાબરમતી રિપોર્ટ’ની રિલીઝ માટેની તૈયારીઓએ જોર પકડયું છે. હવે તે રીલીઝ થવા માટે સંપૂર્ણપણે તૈયાર છે. તેના રીલીઝની વાત સાથે જ હવે દર્શકોમાં પણ ભારે ઉત્સાહ જોવા મળી રહ્યો છે. જ્યારે આ ફિલ્મનું ટીઝર બહાર આવ્યું હતું ત્યારે ફિલ્મના ટીઝરે દર્શકોમાં આ ફિલ્મની હાર્ડ-હિટિંગ સ્ટોરી સૌ સામે મૂકી દીધી હતી. ત્યારથી જ તેણે દર્શકોમાં ભારે ઉત્સાહ જનમાવ્યો છે. હવે તેના સૉન્ગ લોન્ચિંગ (Launch Song Raja Ram)એ નવો ઇતિહાસ રચ્યો છે.

ફર્સ્ટ સૉન્ગ ‘રાજા રામ’ રીલીઝ- નેશનલ સ્ટોક એક્સચેન્જ પર મુહૂર્ત ટ્રેડિંગ બેલ વગડાવીને લોન્ચિંગ થયું

ખૂબ જ ખુશીનાં સમાચાર તો એ છે કે આ ફિલ્મનાં ફર્સ્ટ સૉન્ગ ‘રાજા રામ’ને ખૂબ જ અદભૂત ઓપનિંગ (Launch Song Raja Ram) મળ્યું હતું. ફિલ્મનાં મેકર્સે તેમના પહેલા ગીત ‘રાજા રામ’ની રિલીઝ સાથે મોટી સિદ્ધિ પ્રાપ્ત કરી હોય તેમ કહેવામાં કોઈ અતિશયોક્તિ નથી. આ સૉન્ગને નેશનલ સ્ટોક એક્સચેન્જ પર મુહૂર્ત ટ્રેડિંગ બેલ વગડાવીને લોન્ચ કરવામાં આવ્યું હતું. દિવાળીના આ મોટા પૂજા ઇવેન્ટ વખતે આ રીતે કોઈ સૉન્ગ લોન્ચ થયું હોય એવી આ ફર્સ્ટ ફિલ્મ બની છે!

એટલું જરૂર કહી શકીએ કે સૉન્ગ ‘રાજા રામ’ના (Launch Song Raja Ram) આ અભૂતપૂર્વ અને શાનદાર રિલીઝની સાથે જ ફિલ્મ ‘ધ સાબરમતી રિપોર્ટ’એ દેશના ઇતિહાસમાં એક વિશેષ સ્થાન મેળવી લીધું છે. આ પહેલી એવી ફિલ્મ છે જેના ગીતના લોન્ચિંગ સાથે સાથે નેશનલ સ્ટોક એક્સચેન્જના મુહૂર્ત ટ્રેડિંગ બેલ રિંગિંગ સેરેમનીની શરૂઆત કરવામાં આવી છે.

આ ફિલ્મનાં ટીઝરમાં વિક્રાંત મેસ્સીનો એક સરસ ડાયલોગ આવે છે જેમાં તે કહે છે કે, ‘અમારો દેશ સમગ્ર વિશ્વમાં સૌથી મોટી લોકશાહીનો દેશ છે. જજ સાહેબ." આ લાઇન ભારતની શક્તિ અને એકતાને દર્શાવે છે અને નેતાઓને યાદ અપાવે છે કે ભારત વિશ્વની સૌથી મોટી લોકશાહી છે, જેમાં દરેક નાગરિકને ન્યાય મળવો જોઈએ.

૨૦ વર્ષ બાદ હવે જ્યારે એકતા આર કપૂર તેના હિટ ટીવી શૉ ‘ક્યૂંકી સાસ ભી કભી બહુ થી’ના પ્રખ્યાત ગીત `રામ રામ` સાથે ટેલિવિઝન ઇતિહાસનો એક ભાગ પાછો લાવી રહી છે. હવે `રાજા રામ` તરીકે ઓળખાતું, આ ગીત મૂળ શૉની યાદોને એક નવા સિનેમેટિક સંસ્કરણ રજૂ કરે છે જે ભાવકોના દીલને અચૂક સ્પર્શી જશે, એમાં કોઇ બેમત નથી.

Launch Song Raja Ram: મિત્રો, `ધ સાબરમતી રિપોર્ટ`માં વિક્રાંત મેસ્સી, રાશી ખન્ના અને રિદ્ધિ ડોગરા લીડ રોલમાં જોવા મળવાના છે. આ ફિલ્મ ધીરજ સરનાએ ડિરેક્ટ કરી છે અને શોભા કપૂર, એકતા આર કપૂર, અમૂલ વી મોહન અને અંશુલ મોહન દ્વારા પ્રોડ્યુસ કરવામાં આવી છે. આ ફિલ્મ 15 નવેમ્બર 2024ના રોજ રિલીઝ થવાની છે. તો તૈયાર છો ને?

Headline: NSE, this is how it started, today included in the world's top 10

https://www.money9live.com/business/30-years-of-nse-how-indias-national-stock-exchange-transformed-the-stock-market-landscape-article-10860.html

भारत में 1990 के दशक की शुरुआत में आर्थिक सुधारों की आहट हो रही थी. उस वक्त देश के नरसिम्हा राव सरकार ने विदेशी कंपनियों के लिए देश के दरवाजे खोल दिए और इसी के साथ ग्लोबलाइजेशन का दौर शुरू हुआ. ये वो वक्त था जब भारतीय बाजार को खोलने की कोशिशें शुरू हुई थीं, और इस बदलाव में एक नया अध्याय लिखा गया- नेशनल स्टॉक एक्सचेंज (NSE). आज एनएसई ने अपने 30 वर्षों का सफर पूरा कर लिया है. एक्सचेंज के लिए ये एक ऐतिहासिक पल है. एनएसई ने ऑपरेशन्स का शुभारंभ 3 नवंबर, 1994 को दीवाली की पूजा के दौरान शाम के वक्त किया था.

1994 में, जब आर्थिक सुधारों के नायक और उस वक्त के वित्त मंत्री डॉ. मनमोहन सिंह ने एनएसई का उद्घाटन किया तो भारतीय पूंजी बाजार में पारदर्शिता और विश्वसनीयता का एक नया दौर शुरू हुआ. एनएसई आज इस मुकाम पर है कि इसमें आज 5.6 ट्रिलियन डॉलर की इक्विटी का कारोबार किया जाता है.

पुराने दौर से आधुनिक व्यापार तक का सफर
1980-90 के दशक में, भारत का शेयर बाजार एक संगठित और पारदर्शी प्रणाली से बहुत दूर था. शेयर बाजार में उन दिनों व्यापार काफी मुश्किल और असुविधाजनक था, और कई तरह के धोखाधड़ी और धांधली की घटनाएं भी सामने आती थीं. शेयरों की खरीद-बिक्री में हफ्तों और कभी-कभी महीनों का समय लग जाता था. उस समय व्यापारियों और निवेशकों के पास एक सुरक्षित और पारदर्शी प्लेटफ़ॉर्म का अभाव था. ऐसे माहौल में एनएसई की शुरुआत ने भारतीय पूंजी बाजार की दिशा ही बदल दी.

एनएसई का मकसद था देशभर के निवेशकों को एकीकृत करना और उन्हें एक सुरक्षित और विश्वसनीय प्लेटफॉर्म मुहैया करना, जहां वे बिना किसी झंझट के व्यापार कर सकें. एनएसई ने न केवल व्यापार को सुगम बनाया बल्कि इसमें इलेक्ट्रॉनिक ट्रेडिंग प्रणाली की शुरुआत करके इसे आधुनिक और तकनीकी रूप से सशक्त बनाया है.

हर्षद मेहता स्कैम बना एक्सचेंज के शुरुआत की वजह
CNN News18 को दिए एक इंटरव्यू में एक्सचेंज की शुरुआत के बारे में NSE के सीईओ आशीष कुमार चौहान ने कहा कि हर्षद मेहता स्कैम के बाद फेरवानी कमेटी ने सुझाव दिया कि आपको एक मॉडल एक्सचेंज की जरूरत है जो यह सुनिश्चित करें कि दूसरे एक्सचेंज भी इससे सीख लें. लेकिन मौटे तौर पर यह नतीजा था बड़े हर्षद स्कैम का." उन्होंने आगे कहा, "यह सरकार का नया पॉलिसी फैसला था. उन्हें ऐसा एक्सचेंज चाहिए था जिसमें ब्रोकर्स का कोई हाथ ना हो और सब कुछ टेक ड्रिवेन हो."

1994 में एनएसई की शुरुआत के साथ ही एक्सचेंज ने नेशनल एक्सचेंज फॉर ऑटोमेटेड ट्रेडिंग (NEAT) सिस्टम को लागू किया, जिससे ऑर्डर-ड्रिवन मार्केट की शुरुआत हुई. इसके जरीए से एनएसई ने भारत के पूंजी बाजार

को अंतरराष्ट्रीय स्तर पर प्रतिस्पर्धी बनाया, जिससे न केवल स्थानीय बल्कि विदेशी निवेशकों ने भी भारतीय बाजार में निवेश करना शुरू किया.

एनएसई ने हासिल की कई उपलब्धियां
पिछले 30 वर्षों में एनएसई ने कई मील के पत्थर हासिल किए हैं. 2021 में, एनएसई ने ट्रेडिंग वॉल्यूम के मामले में दुनिया के चौथे सबसे बड़े स्टॉक एक्सचेंज के रूप में अपनी पहचान बनाई.हालांकि मौजूदा समय में एनएसई मार्केट कैप के लिहाज से दुनिया का छठा सबसे बड़ा स्टॉक एक्सचेंज हैं. इस उपलब्धि ने भारतीय शेयर बाजार को वैश्विक स्तर पर एक नई पहचान दी.अप्रैल 2023 तक एनएसई की कुल बाजार पूंजी लगभग 3.26 ट्रिलियन अमेरिकी डॉलर थी, जिससे यह दुनिया के टॉप 10 एक्सचेंज के लिस्ट में शामिल हुआ.

हालांकि अमेरिका में कॉर्पोरेट क्षेत्र का जीडीपी में योगदान लगभग 70% है, वहीं भारत में यह प्रतिशत 12-14% है. इसके बावजूद एनएसई ने उस छोटे से कॉर्पोरेट बाजार को भी मजबूती दी और इसे बढ़ावा देने में अहम भूमिका निभाई.

एनएसई ने अपने 30वें वर्षगांठ के अवसर पर 8 नई भारतीय भाषाओं में अपनी वेबसाइट्स और मोबाइल ऐप लॉन्च की हैं. ये भाषाएं हैं असमिया, बंगाली, कन्नड़, मलयालम, ओडिया, पंजाबी, तमिल और तेलुगु. अब एनएसई की सेवाएं कुल 12 भाषाओं में उपलब्ध होंगी, जिसमें पहले से मौजूद हिंदी, अंग्रेजी, मराठी और गुजराती भी शामिल हैं. इस पहल का उद्देश्य देश के ज्यादा से ज्यादा निवेशकों तक अपनी सेवाएं पहुंचाना है.

https://www.tv9hindi.com/business/nse-journey-started-30-years-ago-know-the-story-of-the-worlds-6th-largest-stock-exchange-2923377.html

देश में शेयर बाजार का इतिहास कहने को 1875 से है, लेकिन साल 1991 में नरसिम्हा सरकार ने विदेशी कंपनियों के लिए देश के दरवाजे खोले और ग्लोबलाइजेशन का दौर शुरू हुआ तो शेयर बाजार ने अपनी एक अलग तरह की रफ्तार पकड़ी. वो रफ्तार हर्षद मेहता के स्कैम से अलग थी. इसी दौर में नेशनल स्टॉक एक्सचेंज (NSE) शुरू हुआ, जिसने शेयर बाजार को नए आयाम दिए. महज 3 दशक में ही दुनिया का छठा सबसे बड़ा एक्सचेंज बन गया. मौजूदा समय में नेशनल स्टॉक एक्सचेंज पर कारोबार करने वाले निवेशकों की संख्या 20 करोड़ के पार चली गई है. जिसे एक बड़ी उपलब्धि माना जा सकता है.

भले ही देश की इकोनॉमी 5 ट्रिलियन डॉलर के पार ना पहुंची हो, लेकिन शेयर बाजार के इस प्रमुख एक्सचेंज का मार्केट कैप 5 ट्रिलियन डॉलर के पार चला गया. बीते कुछ बरस में निफ्टी का रिटर्न दुनिया के तमाम बड़े एक्सचेंजों के मुकाबले काफी बेहतर देखने को मिला है. आइए आज इसके इतिहास के पन्नों को पलटकर समझने की कोशिश करते हैं कि आखिर नेशनल स्टॉक एक्सचेंज की शुरूआत क्यों और किस लिए की गई? आखिर इस एक्सचेंज को शुरू करने का क्या मकसद था? अब 3 दशकों के बाद ये एक्सचेंज कहां तक पहुंच गया है?

कब शुरू हुआ था एनएसई?
भारतीय शेयर बाजार में पारदर्शिता लाने के लिए साल 1993 में नेशनल स्टॉक एक्सचेंज को शामिल किया गया. एनएसई की स्थापना 1991 में फेरवानी समिति की सिफारिशों के आधार पर भारत सरकार के आदेश पर हुई थी. इसका खाका पांच सदस्यों रवि नारायण, राघवन पुथरन, के कुमार, चित्रा शंकरन और आशीष कुमार चौहान की एक टीम ने आरएच पाटिल और एसएस नाडकर्णी के साथ, जिन्हें 1992 में आईडीबीआई द्वारा प्रतिनियुक्त किया गया था, के साथ तैयार किया था. ट्रेडिंग मेंबरशिप को दलालों के एक ग्रुप तक सीमित रखने के बजाय, एनएसई ने उन तमाम लोगों को ट्रेड करने की इजाजत दी जो योग्य, अनुभवी और न्यूनतम वित्तीय आवश्यकताओं को पूरा करते हों.

एनएसई ने 30 जून 1993 को होलसेल डेट मार्केट सेगमेंट और 3 नवंबर 1994 को इक्विटी सेगमेंट से शुरुआत की. यह इलेक्ट्रॉनिक ट्रेडिंग सुविधा शुरू करने वाला भारत का पहला एक्सचेंज था. इसके शुरू होने के एक वर्ष के भीतर, एनएसई पर रोज का ट्रेड बीएसई से ज्यादा हो गया. 12 जून 2000 को एनएसई ने डेरिवेटिव सेगमेंट की शुरुआत की. उसके 8 साल के बाद यानी अगस्त 2008 में, एनएसई ने करेंसी डेरिवेटिव शुरू किया.

एफएंडओ पर रचा इतिहास
एनएसई ने 12 जून 2000 को इंडेक्स फ्यूचर के लॉन्च के साथ डेरिवेटिव में ट्रेडिंग की शुरुआत की. एनएसई के फ्यूचर और ऑप्शन सेगमेंट ने ग्लोबल पहचान बनाई है. एफएंडओ सेगमेंट में निफ्टी 50 इंडेक्स, निफ्टी आईटी इंडेक्स, निफ्टी बैंक इंडेक्स, निफ्टी नेक्स्ट 50 इंडेक्स और सिंगल स्टॉक फ्यूचर्स में ट्रेडिंग उपलब्ध है. निफ्टी 50

पर मिनी निफ्टी फ्यूचर्स एंड ऑप्शंस और लॉन्ग टर्म ऑप्शंस में ट्रेडिंग भी उपलब्ध है. वित्त वर्ष अप्रैल 2013 से मार्च 2014 के दौरान एक्सचेंज के एफएंडओ सेगमेंट में औसत दैनिक कारोबार 18 बिलियन डॉलर था.

3 मई 2012 को नेशनल स्टॉक एक्सचेंज ने यूके इक्विटी स्टॉक मार्केट के व्यापक रूप से ट्रैक किए जाने वाले सूचकांक एफटीएसई 100 पर डेरिवेटिव कांट्रैक्ट (फ्यूचर और ऑप्शन) लॉन्च किया. यह भारत में लॉन्च किया गया यूके इक्विटी शेयर बाजार का अपनी तरह का पहला इंडेक्स था. एफटीएसई 100 में यूके-लिस्टिड 100 सबसे बड़ी ब्लू-चिप कंपनियां शामिल हैं और इसने तीन सालों में निवेश पर 17.8 फीसदी का रिटर्न दिया है. यह सूचकांक यूके के इक्विटी मार्केट कैप का 85.6 फीसदी है.

दुनिया का छठा सबसे बड़ा स्टॉक एक्सचेंज
मौजूदा समय में नेशनल स्टॉक एक्सचेंज मार्केट कैप के लिहाज से दुनिया का छठा सबसे बड़ा स्टॉक एक्सचेंज है. जिसका मार्केट कैप मौजूदा समय में 5.29 ट्रिलियन डॉलर है. बांबे स्टॉक एक्सचेंज 5.33 ट्रिलियन डॉलर के साथ दुनिया का 5वां सबसे बड़ा स्टॉक एक्सचेंज है. चौथे नंबर पर टोक्यो स्टॉक एक्सचेंज, तीसरे पर शंघाई स्टॉक एक्सचेंज और दूसरे पर नैस्डैक और पहले नंबर पर न्यूयॉर्क स्टॉक एक्सचेंज है. खास बात तो ये है कि देश की इकोनॉमी अभी तक 5 ट्रिलियन डॉलर तक नहीं पहुंची है. जिसे पहुंचने में अभी भी एक से डेढ़ साल का समय लग सकता है. वहीं नेशनल स्टॉक एक्सचेंज अगले एक से डेढ़ साल में 7 ट्रिलियन डॉलर के लेवल को भी पार सकता है.

रिटर्न देने के मामले में किसी से कम नहीं
नेशनल स्टॉक एक्सचेंज शेयर बाजार निवेशकों को रिटर्न देने के मामले में भी किसी से कम नहीं है. मौजूदा साल में नेशनल स्टॉक एक्सचेंज का प्रमुख सूचकांक निफ्टी मौजूदा साल में 11.79 फीसदी का रिटर्न दे चुका है. जबकि एक साल में 26.38 फीसदी की तेजी देखने को मिल चुकी है. वहीं दूसरी ओर बांबे स्टॉक एक्सचेंज का प्रमुख सूचकांक सेंसेक्स मौजूदा साल में 10.31 फीसदी और एक साल में 23.86 फीसदी का रिटर्न दिया है. वहीं न्यूयॉर्क स्टॉक एक्सचेंज ने निवेशकों को 14.32 फीसदी और साल में 24.42 फीसदी का रिटर्न दिया है. वहीं नैस्डैक ने निवेशकों को मौजूदा साल में 23.53 फीसदी और एक साल में 35.33 फीसदी की कमाई कराई है. शंघाई ने निवेशकों को मौजूदा साल में 10.46 फीसदी और एक साल में 7.96 फीसदी का रिटर्न दिया है.

The National Stock Exchange of India (NSE) has marked a significant milestone in its commitment to financial accessibility by launching its new mobile app, NSEIndia, which went live on Diwali, November 1, 2024. This launch is accompanied by the expansion of the NSE website to support a total of 11 regional languages, alongside English.

In addition to English, the newly added regional languages include Assamese, Bengali, Kannada, Malayalam, Oriya, Punjabi, Tamil, and Telugu. Previously, Hindi, Marathi, and Gujarati were already available on the website (www.nseindia.com).

This strategic move aims to enhance investor engagement and inclusivity across the nation, allowing users to access financial information in their native languages.

“This dual launch underlines NSE's dedication to creating a more inclusive financial ecosystem for investors across the nation,” the exchange stated in a press release.

NSE Mobile App: Key Features

The NSE mobile app, available on both the Apple App Store (iOS) and Google Play Store (Android), offers a user-friendly interface packed with essential features. Some of the app's key offerings include:

Market at a Glance: Access to indices, market snapshots, trends, and turnover information.

Capital Market Insights: Summaries of Nifty 50's top gainers, losers, active stocks, stock search, and personalized watchlists.

Derivatives Market Access: Dedicated options trading data, insights for active calls, puts, and Open Interest (OI).

A Transformative Step

Sriram Krishnan, Chief Business Development Officer at NSE, described the launch as “another milestone” for the organization. He emphasized the significance of these initiatives in empowering investors: “Our new mobile app and the expansion of our website into 11 regional languages are transformative steps towards a more inclusive and accessible financial ecosystem.

These initiatives are crafted to empower investors by offering intuitive tools, near real-time insights, and the convenience of accessing market information in their native language.”

Krishnan further added, “We are proud to bring the markets closer to every individual, ensuring that all investors—regardless of their background—can confidently participate in India’s economic journey.”

NSE's Legacy

Founded in 1994, the NSE was the first exchange in India to implement electronic or screen-based trading. It has consistently ranked as the largest stock exchange in India in terms of total and average daily turnover for equity shares since 1995, according to data from the Securities and Exchange Board of India (SEBI).

Furthermore, the NSE is recognized as the world’s largest derivatives exchange by trading volume (contracts) for the calendar year 2023, according to statistics from the Futures Industry Association (FIA). It is also ranked third globally in the equity segment by the number of trades (electronic order book) in 2023, as per data from the World Federation of Exchanges (WFE).

With these significant developments, the NSE continues to pave the way for a more inclusive financial landscape, fostering a stronger connection between investors and the financial markets.

રોકાણકારોનું સશક્તિકરણઃ એનએસઈની મોબાઇલ એપ્લિકેશન (NSEIndia) અને બહુભાષીય વેબસાઇટ દિવાળી પર લાઇવ થઇ

એનએસઈની વેબસાઇટમાં હાલની અંગ્રેજી, હિન્દી, મરાઠી અને ગુજરાતીની સાથે આસામી, બંગાળી, કન્નડા, મલયાલમ, ઓરિયા, પંજાબી, તમિળ અને તેલુગુ ભાષાઓ ઉમેરાઇ

દિવાળીના શુભ પ્રસંગે નેશનલ સ્ટોક એક્સચેન્જ ઓફ ઇન્ડિયા (એનએસઈ)એ રોકાણકારોની સુલભતાને વધારવા માટે એક મહત્વપૂર્ણ પગલું લીધું છે. 11 પ્રાદેશિક ભાષાઓને સપોર્ટ કરતા એનએસઈએ તેની ઓફિશિયલ એનએસઈ મોબાઇલ એપ (NSEIndia) લોન્ચ કરી છે અને તેની કોર્પોરેટ વેબસાઇટ www.nseindia.comને વિસ્તારી છે. આ બંને સુવિધાઓનું લોન્ચિંગ સમગ્ર દેશમાં રોકાણકારો માટે વધુ સમાવેશક નાણાંકીય ઇકોસિસ્ટમ ઊભી કરવાની એનએસઈની પ્રતિબદ્ધતા દર્શાવે છે.

આ લોન્ચ અંગે વાત કરતા એનએસઈના એમડી અને સીઈઓ શ્રી આશિષકુમાર ચૌહાણે કહ્યું કે, “સૌને ખુશહાલ અને સમૃદ્ધ દિવાળીની શુભેચ્છાઓ. આજે એનએસઈ તેના કામકાજના 30 વર્ષો પૂરા કરી રહી છે, ત્યારે અમે હાલની અંગ્રેજી, હિન્દી, મરાઠી અને ગુજરાતી ઉપરાંત આસામી, બંગાળી, કન્નડા, મલયાલમ, ઓરિયા, પંજાબી, તમિળ અને તેલુગુ જેવી અન્ય 8 ભારતીય ભાષાઓમાં વેબસાઇટ્સ ઉપરાંત મોબાઇલ એપ લોન્ચ કરી છે. આ વર્ષે એનએસઈ પર મુહૂર્ત ટ્રેડિંગ અનેરું મહત્વ ધરાવે છે.

આ સીમાચિહ્નરૂપ સફર ભારતના નાણાંકીય ક્ષેત્રે વિશ્વાસ, નવીનતા અને વૃદ્ધિનું પ્રતીક છે. રોકાણકારોને કોઇપણ રોકાણના નિર્ણયો લેતા પહેલા યોગ્ય રીતે સંશોધન કરવા માટે પ્રોત્સાહિત કરવામાં આવે છે કારણ કે રોકાણકાર જાગૃતતાને પ્રોત્સાહન એનએસઈની પ્રાથમિકતાઓ પૈકીની એક રહી છે. અમે રિટેલ રોકાણકારોને લાંબા ગાળાના રોકાણ દ્વારા ટકાઉ સંપત્તિ સર્જનમાં આગળ વધવા અપીલ કરીએ છીએ.”

આ પ્લેટફોર્મ આધુનિક રોકાણકારોની જરૂરિયાતોને પૂરી કરે તેવા ફીચર્સના લોન્ચ માટેનો પાયો બનશે. તે એક્સેસિબિલિટી, સુરક્ષા અને યુઝરના અનુભવ પ્રત્યે એનએસઈની વર્તમાન પ્રતિબદ્ધતા દર્શાવે છે.

આ શુભ પ્રસંગે એનએસઈના ચીફ બિઝનેસ ડેવલપમેન્ટ ઓફિસર શ્રી શ્રીરામ કૃષ્ણને જણાવ્યું હતું કે “આ દિવાળી ભારતના મૂડી બજારમાં એનએસઈની વર્તમાન પ્રતિબદ્ધતામાં વધુ એક સીમાચિહ્ન છે. અમારી નવી મોબાઇલ એપ અને અમારી વેબસાઇટનું 11 પ્રાદેશિક ભાષાઓમાં વિસ્તરણ એ વધુ સમાવેશક અને સુલભ નાણાંકીય ઇકોસિસ્ટમ તરફના પરિવર્તનકારી પગલાં છે.

આ પહેલ ઝડપી ટૂલ્સ, રિયલ-ટાઇમના જેવી ઇનસાઇટ્સ તથા પોતાની માતૃ ભાષામાં બજારની માહિતી મેળવવાની સુગમતા દ્વારા રોકાણકારોને સશક્ત બનાવવા તૈયાર કરવામાં આવી છે. અમે બજારોને દરેક

વ્યક્તિની નજીક લઇ જતા ગર્વ અનુભવીએ છીએ અને સુનિશ્ચિત કરીએ છીએ કે તેઓ ગમે તે બેકગ્રાઉન્ડના હોય પરંતુ ભારતની આર્થિક સફરમાં આત્મવિશ્વાસભેર ભાગ લઇ શકે છે."

दिवाली (मुहूर्त ट्रेडिंग) पर एनएसई के एमडी और सीईओ श्री आशीषकुमार चौहान का संदेश

सभी को बहुत खुश और समृद्ध दिवाली की शुभकामनाएं। एनएसई के संचालन के 30 साल पूरे होने के उपलक्ष्य में इस वर्ष एनएसई में मुहूर्त ट्रेडिंग अद्वितीय महत्व रखती है। यह उल्लेखनीय यात्रा भारत के वित्तीय परिदृश्य में विश्वास, इनोवेशन और विकास का प्रतीक है। निवेशकों को कोई भी निवेश निर्णय लेने से पहले गहन शोध करने के लिए प्रोत्साहित किया जाता है, क्योंकि निवेशक जागरूकता को बढ़ावा देना एनएसई की प्राथमिकताओं में से एक रहा है। हम खुदरा निवेशकों से लंबे समय में निवेश के माध्यम से स्थायी धन सृजन करने की अपील करते हैं। अधिकांश भारतीयों के लिए दिवाली महालक्ष्मी पूजा का बहुत महत्व है, लेकिन एनएसई के लिए यह और भी महत्वपूर्ण है क्योंकि 3 नवंबर, 1994 की शाम को दिवाली पूजा के दौरान एनएसई में इक्विटी बाजार में कारोबार शुरू हुआ था। आज, एनएसई ने अपने परिचालन के 30 वर्ष पूरे कर लिए हैं।

इस अवसर को चिह्नित करने के लिए हमने कुल मिलाकर 8 अतिरिक्त भारतीय भाषाओं यानी असमिया, बंगाली, कन्नड़, मलयालम, उड़िया, पंजाबी, तमिल और तेलुगु से लेकर मौजूदा अंग्रेजी, हिंदी, मराठी और गुजराती में एक मोबाइल ऐप और वेबसाइटें लॉन्च की हैं। एनएसई पर समर्थित भाषाओं की संख्या 12 हो गई है।
