Cash Flow - A Deep Drive

Course Fee: ₹ 5000/- Festive Price: ₹2000/-
plus GST

ENROLL NOW

Course Description

While carrying out financial analysis and assessing the financial needs of the customers, the credit analyst is primarily focused on the figures / numbers reflected in the Balance Sheet and Profit & Loss Statement and other financial statements. However, the understanding of the ability of a business to generate sufficient cash for honouring its ongoing and maturing liabilities without default, is of paramount importance. Though an enterprise may be generating enough profits, there could develop positions of inadequate cash or cash equivalents at a point when liabilities are maturing, which could cause defaults leading to disastrous consequences on the financial health, credit rating and sustainability of the enterprise. On the other hand, holding of cash levels much above the minimum requirement leads to financial loss for the enterprise. It is therefore imperative that the cash management is prudent and the cash flow statement is properly analysed by the financial analyst as a sound approach towards establishing the credit worthiness of the enterprise. State Bank Institute of Credit & Risk Management (SBICRM) is bringing out this course on Cash Flows, which will be a resource of utmost relevance to the targeted learners.

Course Outline

- ✓ Introduction of cash flow statement
- ✓ Preparation of cash flow statement
- ✓ Analysis of cash flows and various scenarios
- ✓ Assessment of financial needs based on cash flows

Ratio Analysis

Course Fee: ₹ 5500/- Festive Price: ₹ 2200/-
