ELIGIBILITY

A basic understanding of financial markets and trading concepts, or prior experience in technical analysis, is beneficial but not mandatory. This course is open to individuals seeking to enhance their trading skills and is suitable for intermediate and advanced traders refining their technical analysis capabilities.

COURSE OBJECTIVE

The objective of this course is to reveal the intricacies of Japanese Candlestick Charting Techniques, aiming to achieve the following goals: proficiently identify and interpret basic formations, breakout patterns, and support/resistance levels within a 1-day chart; construct logical frameworks for analyzing Japanese Candlesticks across diverse time frames, facilitating strategic trading decisions; and explore various Japanese chart patterns, including the island reversal, bullish and bearish variations, hook reversals, San-Ku (Three Gaps) Pattern, and Kicker Pattern.
