The NSE on Wednesday said its unique registered investors crossed the 110 million mark, with the latest 10 million addition taking place in just five months, reflecting investor participation in India's stock market via direct means.

Investor registrations at the NSE witnessed a remarkable acceleration in recent times, with a 3.6 times rise in the last five years. It took 14 years since the NSE's commencement of operations in 1994 to reach 10 million investors. The pace then quickened, with the next 10 million registrations taking about seven years, followed by another 3.5 years for the next 10 million and the subsequent milestone of adding the next

10 million took just over a year.

"The rate of growth since quickened significantly, with each additional 10 million investors being added in 6-7 months, while the last 10 million investors were added in just over five months, reflecting a shift in investor enthu-

si-asm and participation in stock market via direct means," NSE said in a statement.

In the last five months, daily new unique investor registrations have consistently ranged between 47,000 and 73,000. This growth has been driven by several key factors, includ-

ing the rapid advancement of digitisation, heightened investor awareness, financial inclusion efforts, and strong market performance.

In 2024, the Nifty 50 index delivered a return of 8.8% while Nifty 500 index saw an impressive 15.2% gain. Indian markets

have had positive returns for the past nine consecutive years.

"As a new year begins, the capital markets have achieved a significant milestone, with the number of registered investors at NSE exceeding the 110 million mark. This rapid growth, with over 10 million new investors added in just five months since crossing the 100 million mark in August,

reflects rising confidence of the Indian public in the stock market as a trusted avenue for wealth creation," said Sriram Krishnan, NSE's chief business development officer.

With this, the total number of client codes (accounts) registered with the exchange

stands at 210 million. It includes all client registration done till date.

Notably, clients can register with more than one trading member.

Krishnan said factors such as enhanced digital accessibility, increased investor education and government initiatives promoting financial inclusion, a young, tech-savvy population and rising awareness have led to the surge.

In the last five months, daily new registrations have ranged 47,000 to 73,000, adding a massive 10 million investors

The unique registered investor base on the National Stock Exchange of India crossed the 11-crore mark on January 20, it said in a release. The total number of client codes (accounts) registered with the NSE stands above 21 crore. Investor registrations have jumped 3.6 times in the last 5 years and 7x in the last 10 years.

In the last 5 months, daily new unique investor registrations have consistently ranged between 47,000 and 73,000 due to key factors, including the rapid advancement of digitisation and heightened investor awareness, NSE said.

GUJARAT ACCOUNTS FOR ESTIMATED 9% OF NEW INVESTORS ADDED IN 5 MONTHS

As NSE crosses 11cr registered investors, Gujarat ranks third in participation

Parag Dave
@timesofindia.com

Ahmedabad: The National Stock Exchange (NSE) on Wednesday announced that its unique registered investors have surpassed the 11-crore mark, with the last 1 crore being added in just over five months. This milestone underscores the growing appetite for equity investments among Indian investors.

Gujarat emerged as a significant contributor to this growth, accounting for an estimated 9% of new investors added during this period.

Between July and Nov 2024, the state recorded 9.39 lakh new investors, reflecting a strong surge in direct market participation.

According to NSE data, Gujarat ranks third in India with 98 lakh registered investors, trailing Maharashtra (1.8 crore) and Uttar Pradesh (1.2 crore).

Together, these three sta-

tes account for 36.6% of the country's 11 crore investors.

"IPOs have been a major driver of new investor growth. Many investors are eager to participate in IPOs, especially when reputed companies go public. While market conditions were somewhat volatile over the past six months, with slow growth, we estimate that 1.25-1.5 crore new investors could have been added if the market were more stable and bullish," said Gunjan Chokshi,

managing director of a stock-broking firm.

Investor registrations at NSE witnessed a dramatic rise, with a 3.6-fold increase over the last five years.

The pace of growth accelerated significantly, with each successive 1 crore investors added in just six to seven months.

The most recent milestone—crossing the 11-crore mark—took just over five months, highlighting a shift in investor enthusiasm.

In the past five months, NSE consistently recorded 47,000 to 73,000 daily new investor registrations.

This surge is attributed to factors such as rapid digitisation, increased financial awareness, efforts towards financial inclusion, and robust market performance.

In 2024, the Nifty 50 index delivered a return of 8.8%, while the Nifty 500 index recorded an impressive 15.2% gain.

Notably, the Indian markets delivered positive returns for nine consecutive years, bolstering investor confidence.

"As the new year begins, India's capital markets reached a significant milestone with over 11 crore registered investors at NSE. The addition of over 1 crore investors in just five months reflects the growing confidence of the Indian public in the stock market as a trusted avenue for wealth creation," said Sriram Krishnan, chief business development officer at NSE.

एनएसईने ५ महिन्यांत १ कोटी गुंतवणूकदार जोडले

नवी दिल्ली : नॅशनल स्टॉक एक्स्चेंजने (एनएसई) बुधवारी सांगितले की, त्यांच्या नोंदणीकृत गुंतवणूकदारांनी ११ कोटींचा टप्पा ओलांडला असून, अवघ्या पाच महिन्यांत १ कोटी गुंतवणूकदारांची भर घातली आहे. एनएसईमधील गुंतवणूकदारांमध्ये गेल्या पाच वर्षांत ३.६ पट वाढ झाली आहे. १९९४

मध्ये एनएसईचे कामकाज सुरू झाल्यापासून १ कोटी गुंतवणूकदारांपर्यंत पोहोचण्यास १४ वर्षे लागली. त्यानंतर वेग वाढला, पुढील १ कोटी नोंदणींना सुमारे सात वर्षे लागली, त्यानंतर पुढील कोटीसाठी आणखी ३.५ वर्षे आणि त्यानंतरच्या चौथ्या कोटी नोंदणीसाठी फक्त एक वर्ष लागले.

1 करोड़ नए निवेशक आए NSE में अब निवेशक 11 करोड़ के पार

■ मुंबई, नवभारत न्यूज नेटवर्क, नेशनल स्टॉक एक्सचेंज (एनएसई) के पंजीकृत निवेशकों की संख्या 11 करोड़ को पार हो गई है. इसमें अंतिम एक करोड़ पंजीकरण सिर्फ 5 महीनों में हुए हैं. यह निवेशकों की प्रत्यक्ष माध्यमों से शेयर बाजार में बढ़ती भागीदारी को बताता है. शीप शेयर बाजार एनएसई में निवेशक पंजीकरण में हाल के दिनों में उल्लेखनीय तेजी देखी गई है और पिछले पांच वर्षों में इसमें 3.6 गुना उछाल आया है. साल 1994 में एनएसई के परिचालन की शुरुआत के बाद से एक करोड़ निवेशकों तक पहुंचने में 14 साल लग गए. इसके बाद यह गति तेज हुई. अगले एक करोड़ पंजीकरण में लगभग सात साल लगे, उसके बाद अगले एक करोड़ के लिए 3.5 साल और फिर चौथे करोड़ को जोड़ने में एक साल से थोड़ा ज्यादा समय लगा. एनएसई ने बचान में कहा कि उसके बाद से वृद्धि दर उल्लेखनीय रूप से बढ़ी है. प्रत्येक अतिरिक्त एक करोड़ निवेशक लगभग छह-सात महीनों में जुड़ रहे हैं, जबकि अंतिम एक करोड़ निवेशक केवल पांच महीनों में जुड़े हैं.

बढ़ता जन विश्वास

एनएसई के मुख्य व्यवसाय विकास अधिकारी श्रीराम कुण्ठन ने कहा कि एनएसई में पंजीकृत निवेशकों की संख्या 11 करोड़ के आंकड़े को पार कर गई है. महज पांच महीनों में एक करोड़ से अधिक नए निवेशकों के जुड़ने के साथ यह तीव्र वृद्धि, संपत्ति सृजन के एक विश्वसनीय माध्यम के रूप में शेयर बाजार में भारतीय जनता के बढ़ते विश्वास को दर्शाती है. इसके साथ ही एक्सचेंज में पंजीकृत क्लाइंट कोड (खाता) की कुल संख्या 21 करोड़ हो गई है. इसमें आज तक किए गए सभी पंजीकरण शामिल हैं. विशेष बात यह है कि ग्राहक एक से अधिक ट्रेडिंग सदस्यों के साथ पंजीकरण करा सकते हैं.

यह शेयर बाजार में निवेशकों के प्रत्यक्ष रूप से निवेश को उत्साह और भागीदारी में बदलाव को बताता है. पिछले साल मानक सूचकांक निफ्टी50 ने 8.8% का रिटर्न दिया.

న్యూఢిల్లీ: నేషనల్ స్టాక్ ఎక్స్చేంజ్ (ఎన్ఎస్ఈ) ఇన్వెస్టర్ల సంఖ్య 11 కోట్ల మార్కును (2024 ఆగస్టు నాటికి) అధిగమించింది. చివరి కోటి మంది ఇన్వెస్టర్లు కేవలం ఐదు నెలల్లోనే చేరినట్లు ఎన్ఎస్ఈ ప్రకటించింది. ఇటీవలి కాలంలో ఎన్ఎస్ఈ వద్ద ఇన్వెస్టర్ల రిజిస్ట్రేషన్లు వేగాన్ని అందుకున్నాయని, గత ఐదేళ్లలో 9.6 రెట్లు పెరిగినట్లు తెలిపింది. ఎన్ఎస్ఈ 1994లో కార్యకలాపాలు ప్రారంభించిన తర్వాత మొదటి కోటి ఇన్వెస్టర్ల చేరికకు 14 ఏళ్లు పట్టగా, తదుపరి కోటి మందికి ఏడేళ్లు పట్టింది. ఆ తర్వాత కోటి కోటి మంది ఇన్వెస్టర్లు కేవలం 3.5 ఏళ్లలోనే చేరారు. ఆ తర్వాత కోటి

మంది చేరికకు కేవలం ఏడాది సమయం తీసుకుంది. నేరుగా స్టాక్ మార్కెట్లో పాల్గొనేందుకు ఇన్వెస్టర్లలో నెలకొన్న ఆసక్తికి ఇది నిదర్శనమని ఎన్ఎస్ఈ పేర్కొంది. "గత ఐదు నెలల నుంచి రోజువారీ యూనిక్ ఇన్వెస్టర్ల రిజిస్ట్రేషన్లు 47,000 నుంచి 73,000 మధ్య ఉంటున్నాయి. డిజిటల్ షేర్ వేగాన్ని ప్రంజాకోవడం, ఇన్వెస్టర్లలో అవగాహన, అందరికీ ఆర్థిక సేవల చేరువ దిశగా ప్రభుత్వం తీసుకుంటున్న చర్యలు, మార్కెట్ పనితీరు బలంగా ఉండడం వంటివి దోహదం చేశాయి" అని ఎన్ఎస్ఈ వివరించింది.

11 करोड़ हुए एनएसई के यूनिक निवेशक

नई दिल्ली, ग्रेट: नेशनल स्टॉक एक्सचेंज (एनएसई) ने बुधवार को कहा कि उसके यूनिक पंजीकृत निवेशकों ने 11 करोड़ का आंकड़ा पार कर लिया है। खास बात यह है कि पिछले पांच महीनों के दौरान निवेशकों की संख्या में एक करोड़ की वृद्धि हुई है।

हाल के दिनों में एनएसई में निवेशक पंजीकरण में उल्लेखनीय वृद्धि देखी गई है और पिछले पांच

सालों के दौरान इसमें 3.6 गुना वृद्धि हुई है। भौगोलिक दृष्टि से देखें तो महाराष्ट्र 1.8 करोड़ पंजीकृत निवेशकों के साथ सबसे आगे है। इसके बाद उत्तर प्रदेश 1.2 करोड़ के साथ दूसरे और गुजरात 98 लाख के साथ तीसरे स्थान पर है। 11 करोड़ निवेशकों में इन तीन राज्यों की हिस्सेदारी 36.6 प्रतिशत है। इसके साथ ही एक्सचेंज में पंजीकृत खातों की कुल संख्या 21 करोड़ हो गई है।

एनएसई पर यूनिक इन्वेस्टर्स की संख्या पहली बार 11 करोड़ के पार

सवेरा न्यूज़/एजेंसी

मुंबई, 22 जनवरी : नेशनल स्टॉक एक्सचेंज (एनएसई) ने बुधवार को ऐलान किया कि एक्सचेंज पर यूनिक इन्वेस्टर्स (यूनिक पैन) की संख्या पहली बार 11 करोड़ को पार कर गई है। इसके साथ ही कुल क्लाइंट अकाउंट की संख्या 21 करोड़ से अधिक हो गई है। भारत में शेयर बाजार का चलन बढ़ने के कारण बीते कुछ वर्षों में एनएसई पर निवेशकों की संख्या में बड़ा उछाल देखने को मिला है और यह 5 साल में 3.6 गुना हो गई है। 1994 में एनएसई के ऑपरेशन शुरू होने के बाद एक करोड़ यूनिक इन्वेस्टर होने में करीब 14 वर्ष का समय लगा था, लेकिन इसके बाद अगले एक करोड़ नए इन्वेस्टर्स आने में 7 वर्ष और अगले एक करोड़ इन्वेस्टर्स और जुड़ने में 3.5 वर्ष और फिर अगले करोड़ इन्वेस्टर्स जुड़ने में एक वर्ष से अधिक का समय लगा था। एनएसई ने नोट में कहा कि यूनिक इन्वेस्टर्स की संख्या में पिछले कुछ समय में काफी बढ़ाव हुआ है। 6 से 7 महीने में अतिरिक्त 1 करोड़ निवेशक जुड़े हैं, वहीं आखिरी एक करोड़ इन्वेस्टर्स पिछले 5 महीने में आए हैं, जो बाजार में बढ़ती इन्वेस्टर्स की भागीदारी को दिखाता है।

» માત્ર પાંચ મહિનામાં એક કરોડ વધ્યા: યુવા વર્ગની સામેલગીરીમાં સતત વૃદ્ધિ

બિઝનેસ ડેવલપમેન્ટ ઓફિસર શ્રીરામ કૃષ્ણને કહ્યું છે કે નવા વર્ષના પ્રારંભ બાદ એનએસઈના રજિસ્ટર્ડ રોકાણકારોની સંખ્યા ૧૧ કરોડને પાર કરી ગઈ છે. ગયા ઓગસ્ટમાં રોકાણકારોની

સંખ્યા ૧૦ કરોડ હતી. છેલ્લા એક કરોડ રોકાણકારોની વૃદ્ધિ તો માત્ર પાંચ મહિનામાં થઈ છે. આ ઝડપી વૃદ્ધિ દેશની જનતાના સંપત્તિ સર્જન માટે મુટીબજારમાં વધેલા વિશ્વાસનું પ્રતિબિંબ છે.

જ્યારે પ્રથમવાર એક કરોડની સંખ્યા થઈ હતી ત્યારે તેને આ આંકડા પર પહોંચતા ૧૪ વરસ લાગ્યા હતા.

ઈન્વેસ્ટર્સની સંરેરાશ

વય ૩૨

અન્યારે નવા રોકાણકારોની સંરેરાશ વય ૩૨ છે, જેમાંથી ૪૦ ટકાથી અધિકની વય ૩૦થી ઓછી છે. પાંચ વર્ષ પૂર્વે જે સ્થિતિ હતી, તેનાથી આ સ્થિતિ ઘણી

બદલાયેલી છે. અગાઉ બજારમાં રોકાણ કરનારાઓની સંરેરાશ વય ૩૮થી અધિકની હતી. આમ યુવા વર્ગનો રસ બજારમાં વધી રહ્યો છે. બીજો એક ફેરફાર એ છે કે હવે મહિલાઓની સંખ્યા પણ વધવા લાગી છે. એ ઉપરાંત રોકાણકારોનો વ્યાપ હવે માત્ર શહેરો પુરતો રહ્યો નથી. રજિસ્ટર્ડ રોકાણકારોમાં ૪૦ ટકા ઉત્તર ભારત, પશ્ચિમ ભારતના ૨૦

ટકા, દક્ષિણના ૨૦ ટકા અને પૂર્વ ભારતના ૧૨ ટકા રોકાણકારો છે. સૌથી વધુ રોકાણકારો ઉત્તર પ્રદેશ અને મહારાષ્ટ્રના રહ્યા છે. રોકાણકારોની શેરબજારમાં પરોલ સામેલગીરી પણ વધી રહી છે. જુલાઈ અને ડિસેમ્બર, ૨૦૨૪ વચ્ચે નવાં ૩.૭ કરોડ નવાં એસઆઈપી (સિસ્ટેમેટિક ઈન્વેસ્ટમેન્ટ પ્લાન) એકાઉન્ટ્સ ખોલવામાં આવ્યાં હતાં.

નોંધાયેલા રોકાણકારોની સંખ્યા ૧૧ કરોડને પાર

અમે પાંચ મહિનામાં જ ૧ કરોડ રોકાણકારો ઉમેર્યા : એનએસઈ

પીટીઆઈ નવી દિલ્હી, તા. ૨૨ નેશનલ સ્ટોક એક્સચેન્જ (એનએસઈ) એ બુધવારે જણાવ્યું હતું કે તેના અન્ય નોંધાયેલા રોકાણકારોએ ૧૧ કરોડનો આંકડો પાર કરી લીધો છે, જેમાં તાજેતરના ૧ કરોડનો ઉમેરો માત્ર પાંચ મહિનામાં થયો છે, જે સીધા માધ્યમથી શેરબજારમાં રોકાણકારોની ભાગીદારીને પ્રતિબિંબિત કરે છે. એનએસઈ ખાતે રોકાણકારોના રજિસ્ટ્રેશનમાં તાજેતરના સમયમાં નોંધપાત્ર વધારો થયો

છે, જેમાં છેલ્લાં પાંચ વર્ષમાં ૩.૬ ગણો ઉછાળો નોંધાયો છે. વર્ષ ૧૯૯૪માં એનએસઈની કામગીરી શરૂ થયાને ૧ કરોડ રોકાણકારો સુધી પહોંચવામાં ૧૪ વર્ષનો સમય લાગ્યો હતો. ત્યારબાદ આ ગતિ ઝડપી બની હતી અને ત્યાર પછીના ૧ કરોડ રજિસ્ટ્રેશનમાં સાત વર્ષનો સમય લાગ્યો હતો, ત્યારબાદ બીજા ૩.૫ વર્ષ પછીના કરોડ માટે અને ત્યારબાદ ચોથા કરોડને ઉમેરવાના માઇલસ્ટોનને માત્ર એક વર્ષ જેટલો સમય લાગ્યો હતો. ઉલ્લેખનીય છે કે, ગ્રાહકો

એકથી વધુ ટ્રેડિંગ એકાઉન્ટ સાથે રજિસ્ટ્રેશન કરાવી શકે છે. કુખ્તને જણાવ્યું હતું કે ડિજિટલ સુલભતામાં વધારો, રોકાણકારોના શિક્ષણમાં વધારો અને નાણાકીય સર્વસમાવેશકતાને પ્રોત્સાહન આપતી સરકારની પહેલ જેવા પરિબલોએ આ ઉછાળાને આગળ ધપાવ્યો છે. તદુપરાંત, યુવા, ટેક-સેવી વસ્તી અને ઇકિવટી રોકાણોના ફાયદાઓ વિશે વધતી જાગૃતિએ આ વલણને વધુ વેગ આપ્યો છે. રોકાણકારોનો વિકાસ શહેરી

કેન્દ્રોથી પણ આગળ વધ્યો છે, જેમાં દેશના ૩૦ પિન કોડને બાદ કરતા તમામ પિન કોડમાં રોકાણકારોએ એક્સચેન્જમાં નોંધણી કરાવી છે. જે દેશમાં ૯૯.૮૪ ટકાનું કવરેજ સૂચવે છે. ભૂગોળની દ્રષ્ટિએ મહારાષ્ટ્ર ૧.૮ કરોડ રજિસ્ટર્ડ રોકાણકારો સાથે મોખરે છે, ત્યારબાદ ઉત્તર પ્રદેશ ૧.૨ કરોડ અને ગુજરાત ૯૮ લાખ સાથે મોખરે છે અને આ ત્રણ રાજ્યો ૧૧ કરોડ રોકાણકારોમાં ૩૬.૬ ટકા હિસ્સો ધરાવે છે.

NSE's total unique investors base crosses 11 crore for first time

Mumbai, Jan 22 (IANS) Total unique investors' base (unique PANs) on the National Stock Exchange (NSE) crossed the 11-crore mark for the first time, and total client accounts registered with the exchange now stands more than 21 crore, it was announced on Wednesday.

Investor registrations at the NSE experienced acceleration in recent year due to surge in stock market participation, with 3.6 times jump in the last five years. It took 14 years from the NSE's commencement of operations in 1994 to reach 1 crore investors. The pace then quickened, with the next 1 crore registrations taking about seven years, followed by another 3.5 years for the next crore and the subsequent milestone of adding the fourth crore took just over a year. "The rate of growth has since quickened significantly, with each additional 1 crore investors being added in roughly 6-7 months, while the last 1 crore investors were added in just over five months, reflecting a shift in investor enthusiasm and participation in the stock market through direct means," the NSE noted. The exchange said that in the last five months, daily new unique investor registrations have consistently ranged between 47,000 and 73,000.

एनएसई ने पांच महीनों में एक करोड़ निवेशक जोड़े

एजेंसी

नयी दिल्ली। शेयर बाजार नेशनल स्टॉक एक्सचेंज (एनएसई) ने बुधवार को कहा कि उसके पंजीकृत निवेशकों की संख्या 11 करोड़ को पार हो गई है। इसमें अंतिम एक करोड़ पंजीकरण सिर्फ पांच महीनों में हुए हैं। यह निवेशकों की प्रत्यक्ष माध्यमों से शेयर बाजार में बढ़ती भागीदारी को बताता है।

एनएसई में निवेशक पंजीकरण में हाल के दिनों में उल्लेखनीय तेजी देखी गई है और पिछले पांच वर्षों में इसमें 3.6 गुना उछाल आया है। साल 1994 में एनएसई के परिचालन की शुरुआत के बाद से एक

करोड़ निवेशकों तक पहुंचने में 14 साल लग गए। इसके बाद यह गति तेज हुई। अगले एक करोड़ पंजीकरण में लगभग सात साल लगे, उसके बाद अगले एक करोड़ के लिए 3.5 साल और फिर चौथे करोड़ को जोड़ने में एक साल से थोड़ा ज्यादा समय लगा। एनएसई ने बयान में कहा, उसके बाद से वृद्धि दर उल्लेखनीय रूप से बढ़ी है। प्रत्येक अतिरिक्त एक करोड़ निवेशक लगभग छह-सात महीनों में जुड़ रहे हैं, जबकि अंतिम एक करोड़ निवेशक केवल पांच महीनों में जुड़े हैं। यह शेयर बाजार में निवेशकों के प्रत्यक्ष रूप से निवेश को उत्साह और भागीदारी में बदलाव को बताता है।

एनएसई पर यूनिक इन्वैस्टर्स की संख्या पहली बार 11 करोड़ के पार

सवेरा न्यूज/एजेंसी

मुंबई, 22 जनवरी : नेशनल स्टॉक एक्सचेंज (एनएसई) ने बुधवार को ऐलान किया कि एक्सचेंज पर यूनिक इन्वैस्टर्स (यूनिक पैर) की संख्या पहली बार 11 करोड़ को पार कर गई है। इसके साथ ही कुल क्लाइंट अकाउंट की संख्या 21 करोड़ से अधिक हो गई है। भारत में शेयर बाजार का चलन बढ़ने के कारण बीते कुछ वर्षों में एनएसई पर निवेशकों की संख्या में बड़ा उछाल देखने को मिला है और यह 5 साल में 3.6 गुना हो गई है। 1994 में एनएसई के अप्रिशन शुरू होने के बाद एक करोड़ यूनिक इन्वैस्टर होने में करीब 14 वर्ष का समय लगा था, लेकिन इसके बाद अगले एक करोड़ नए इन्वैस्टर्स आने में 7 वर्ष और अगले एक करोड़ इन्वैस्टर्स और जुड़ने में 3.5 वर्ष और फिर अगले करोड़ इन्वैस्टर्स जुड़ने में एक वर्ष से अधिक का समय लगा था। एनएसई ने नोट में कहा कि यूनिक इन्वैस्टर्स की संख्या में पिछले कुछ समय में काफी बढ़ोतरी हुई है। 6 से 7 महीने में अविरक्त 1 करोड़ निवेशक जुड़े हैं, वहीं आखिरी एक करोड़ इन्वैस्टर्स पिछले 5 महीने में आए हैं, जो बाजार में बढ़ती इन्वैस्टर्स की भागीदारी को दिखाता है।

Headline: NSE registered investor base crosses 11 crore unique investors and over 21 crore total accounts

<https://economictimes.indiatimes.com/mf/mf-news/nse-registered-investor-base-crosses-11-crore-unique-investors-and-over-21-crore-total-accounts/articleshow/117450424.cms?from=mdr>

The unique registered investor base on the National Stock Exchange of India crossed the 11-crore mark on January 20, 2025. The total number of client codes (accounts) registered with the exchange stood above 21 crore, which includes all client registrations done to date, with clients being able to register with more than one trading member.

Investor registrations at the NSE have experienced remarkable acceleration in recent times, with a 3.6 times jump in the last five years. It took 14 years from the NSE's commencement of operations in 1994 to reach 1 crore investors. The pace then quickened, with the next 1 crore registrations taking about seven years, followed by another 3.5 years for the next crore, and the subsequent milestone of adding the fourth crore took just over a year, according to a release by the exchange.

The rate of growth has significantly quickened since then, with each additional 1 crore investors being added in roughly 6-7 months, and the last 1 crore investors being added in just over five months. This reflects a shift in investor enthusiasm and participation in the stock market through direct means, the release noted.

In the last five months, daily new unique investor registrations have consistently ranged between 47,000 and 73,000. This growth has been driven by several key factors, including the rapid advancement of digitization, heightened investor awareness, financial inclusion efforts, and strong market performance.

In 2024, the Nifty 50 index delivered a return of 8.8%, while the Nifty 500 index saw an impressive 15.2% gain. Indian markets have had positive returns for the past nine consecutive years. Over the five-year period ending December 2024, the Nifty 50 and Nifty 500 have generated annualized returns of 14.2% and 17.8%, respectively, further boosting investor confidence.

The last 10 years have seen nearly a seven-fold jump in investor participation, from 1.65 crore investors as of May 1, 2014, to 11 crore investors today. Twenty percent of Indian households now invest in the markets directly. Small investors from the remotest corners, be it Jammu or Jorhat, invest their hard-earned money in companies across the country, reflecting the trust placed in Indian markets.

The market capitalization of NSE-listed companies has increased nearly six-fold, from Rs 73.5 lakh crore as of May 1, 2014, to Rs 425 lakh crore today. This reflects the country's burgeoning middle class in alignment with Prime Minister Narendra Modi's philosophy of 'Sabka Saath, Sabka Vikas, Sabka Vishwas.'

The new investors entering the market reflect a significant demographic shift. Today, the median age of these investors is around 32 years, with 40% of them under the age of 30. This is a marked change from just five years ago, when the median age was 38, highlighting growing interest in the stock market among younger investors. Furthermore, one in four investors today is a woman, signaling rising gender diversity in direct market participation, according to the release.

Investor growth has also expanded beyond urban centers, with all but 30 pin codes in the country having investors registered with the exchange, implying 99.84% coverage across the country. Regionally, among the latest one crore registrations, 40% come from North India, followed by 28% from West India, 20% from South India, and 12% from East India.

The big states of Uttar Pradesh and Maharashtra continue to lead in investor registrations, together accounting for over a quarter of these

new investors. Notably, 47.6% of the last one crore investor registrations originated from districts beyond the top 100, while 62% came from districts beyond the top 50, signaling the expanding reach and trust that investors from smaller towns place in the market. Currently, Maharashtra leads with 1.8 crore (18 million) registered investors, followed by Uttar Pradesh at 1.2 crore (12 million), and Gujarat at 98 lakh (9.8 million), with these three states accounting for 36.6% of the 11 crore investors.

Indirect market participation has also seen impressive growth, with nearly 3.7 crore (37 million) new SIP accounts opened between July and December 2024. In addition, average monthly SIP inflows during this period stood at Rs 24,748 crore (Rs 247 billion), rising from Rs 19,972 crore (Rs 200 billion) in the preceding six months (Jan–Jun 2024), demonstrating increased investor engagement and confidence in the market.

“As the new year begins, India’s capital markets have achieved a significant milestone, with the number of registered investors at NSE exceeding the 11-crore mark. This rapid growth, with over one crore new investors added in just five months since crossing the 10-crore mark in August, reflects the rising confidence of the Indian public in the stock market as a trusted avenue for wealth creation. Factors such as enhanced digital accessibility, increased investor education, and government initiatives promoting financial inclusion have driven this surge,” said Sriram Krishnan, Chief Business Development Officer, NSE.

“Additionally, a younger, tech-savvy population and growing awareness of the benefits of equity investments have further accelerated this trend. This milestone highlights a transformative shift in India’s investment landscape, empowering millions to actively participate in the nation’s economic growth and contributing to the deepening of the capital markets,” he added.

Headline: As NSE crosses 11cr registered investors, Gujarat ranks third in participation

<https://timesofindia.indiatimes.com/city/ahmedabad/as-nse-crosses-11cr-registered-investors-gujarat-ranks-third-in-participation/articleshow/117466768.cms>

The National Stock Exchange (NSE) on Wednesday announced that its unique registered investors have surpassed the 11-crore mark, with the last 1 crore being added in just over five months. This milestone underscores the growing appetite for equity investments among Indian investors.

Gujarat emerged as a significant contributor to this growth, accounting for an estimated 9% of new investors added during this period.

Between July and Nov 2024, the state recorded 9.39 lakh new investors, reflecting a strong surge in direct market participation.

According to NSE data, Gujarat ranks third in India with 98 lakh registered investors, trailing Maharashtra (1.8 crore) and Uttar Pradesh (1.2 crore).

Together, these three states account for 36.6% of the country's 11 crore investors.

"IPOs have been a major driver of new investor growth. Many investors are eager to participate in IPOs, especially when reputed companies go public. While market conditions were somewhat volatile over the past six months, with slow growth, we estimate that 1.25–1.5 crore new investors could have been added if the market were more stable and bullish," said Gunjan Chokshi, managing director of a stockbroking firm.

Investor registrations at NSE witnessed a dramatic rise, with a 3.6-fold increase over the last five years.

The pace of growth accelerated significantly, with each successive 1 crore investors added in just six to seven months.

The most recent milestone—crossing the 11-crore mark—took just over five months, highlighting a shift in investor enthusiasm.

In the past five months, NSE consistently recorded 47,000 to 73,000 daily new investor registrations.

This surge is attributed to factors such as rapid digitisation, increased financial awareness, efforts towards financial inclusion, and robust market performance.

In 2024, the Nifty 50 index delivered a return of 8.8%, while the Nifty 500 index recorded an impressive 15.2% gain.

Notably, the Indian markets delivered positive returns for nine consecutive years, bolstering investor confidence.

"As the new year begins, India's capital markets reached a significant milestone with over 11 crore registered investors at NSE. The addition of over 1 crore investors in just five months reflects the growing confidence of the Indian public in the stock market as a trusted avenue for wealth creation," said Sriram Krishnan, chief business development officer at NSE.

The National Stock Exchange of India (NSE) has achieved a historic milestone, crossing 11 crore (110 million) unique investors on January 20, 2025. Additionally, the total number of client codes registered with the exchange has surpassed 21 crore (210 million), reflecting the growing enthusiasm for stock market participation across the country.

Investor registrations Seen S 3.6x Surge

Investor registrations have seen a 3.6x surge in the last five years, showcasing the rapid pace of financial inclusion and digitization.

The journey from 1 crore investors in 2008 to 11 crore today reflects a sharp acceleration, with the most recent 1 crore investors added in just over five months.

Daily new registrations now range between 47,000 and 73,000, driven by robust market performance and heightened awareness.

Past 5 Year Performance

In 2024, Indian markets delivered impressive returns, with the Nifty 50 gaining 8.8% and the Nifty 500 soaring 15.2%.

Over the past five years, these indices have achieved annualized returns of 14.2% and 17.8%, respectively, contributing to sustained investor confidence.

The market capitalization of NSE-listed companies has grown nearly sixfold in a decade, from Rs 73.5 lakh crore in 2014 to Rs 425 lakh crore today.

Demographic Profile of Investors

The demographic profile of investors has transformed, with the median age dropping to 32 years, and 40% of investors under 30. Women now account for one in four investors, signaling rising gender diversity.

The reach of the NSE is now nearly universal, covering 99.84% of India's pin codes, with 62% of the latest registrations originating from districts beyond the top 50 cities.

Regional Participation Continues To Grow

Regional participation continues to grow, with Uttar Pradesh and Maharashtra leading investor registrations, contributing over 25% of new investors.

Maharashtra tops the list with 1.8 crore investors, followed by Uttar Pradesh with 1.2 crore, and Gujarat at 98 lakh. Notably, 47.6% of new registrations came from districts outside the top 100, highlighting the expanding reach of the Indian stock market.

Indirect market participation has also surged, with 3.7 crore new SIP accounts opened between July and December 2024.

Average monthly SIP inflows rose from Rs 19,972 crore in the first half of 2024 to Rs 24,748 crore in the latter half, reflecting increasing investor engagement and trust in the markets.

Headline: NSE registered investor base crosses 11 crore unique investors; market capitalisation hits ₹425L cr

<https://government.economictimes.indiatimes.com/news/economy/nse-registered-investor-base-crosses-11-crore-unique-investors-market-capitalisation-hits-425l-cr/117453807>

The unique registered investor base on the National Stock Exchange of India crossed the 11-crore (110 million) mark on January 20, 2025. The total number of client codes (accounts) registered with the exchange stands above 21 crore (210 million) includes all client registrations done till date (clients can register with more than one trading member).

Investor registrations at the NSE have experienced a remarkable acceleration in recent times, with 3.6 times jump in the last five years. It

took 14 years from the NSE's commencement of operations in 1994 to reach 1 crore investors. The pace then quickened, with the next 1 crore registrations taking about seven years, followed by another 3.5 years for the next crore and the subsequent milestone of adding the fourth crore took just over a year. The rate of growth has since quickened significantly, with each additional 1 crore investors being added in roughly 6-7 months, while the last 1 crore investors were added in just over five months, reflecting a shift in investor enthusiasm and participation in the stock market through direct means.

In the last five months, daily new unique investor registrations have consistently ranged between 47,000 and 73,000. This growth has been driven by several key factors, including the rapid advancement of digitisation, heightened investor awareness, financial inclusion efforts, and strong market performance. In 2024, the Nifty 50 index delivered a return of 8.8%, while the Nifty 500 index saw an impressive 15.2% gain. Indian markets have had positive returns for the past nine consecutive years. Over the five-year period ending December 2024, the Nifty 50 and Nifty 500 have generated annualised returns of 14.2% and 17.8% respectively, further boosting investor confidence.

The last 10 years have seen a nearly seven-fold jump in investor participation from 1.65 crore investors as of May 1st, 2014, to 11 crore investors today. 20% of Indian households today invest into the markets directly. Small investors from remotest corners be it Jammu or Jorhat invest their hard-earned money in companies in other parts of the country given the trust reposed with Indian markets.

Market capitalisation of NSE listed companies has increased nearly 6 times from ₹73.5 lakh crore as of May 1, 2014 to ₹425 lakh crore today. This reflects India's burgeoning middle class segment in the country in the last 10 years aligning with Prime Minister Narendra Modi's philosophy of 'Sabka Saath, Sabka Vikas, Sabka Vishwas', NSE said in a statement.

The new investors coming into the market reflect a significant demographic shift. Today, the median age of these investors is now

around 32 years, with 40% of them under the age of 30. This is a marked change from just five years ago, when the median age was 38, highlighting a growing interest in the stock market among younger investors. Furthermore, one in four investors today is a woman, a sign of rising gender diversity through direct participation into the market, it said.

Investor growth has also expanded beyond the urban centers, with all but 30 pin codes in the country having investors registered with the exchange, implying a coverage of 99.84% in the country. Regionally, among the latest one crore registrations, 40% come from north India, followed by 28% from west India, 20% from south India, and 12% from east India. The big states of Uttar Pradesh and Maharashtra continue to lead in investor registrations, together accounting for over a quarter of these new investors.

Notably, 47.6% of the last one crore investor registrations originated from districts beyond the top 100, while 62% came from districts beyond top 50, signaling the expanding reach and trust that investors from smaller towns hold in the market. Currently, Maharashtra leads with 1.8 crore (18 million) registered investors, followed by Uttar Pradesh at 1.2 crore (12 million), and Gujarat at 98 lakh (9.8 million), with these three states accounting for 36.6% of the 11 crore investors.

Indirect market participation has also seen impressive growth, with nearly 3.7 crore (37 million) new SIP accounts opened between July and December 2024. In addition, average monthly SIP inflows during this period stood at Rs 24,748 crore (Rs 247 billion), rising from Rs 19,972 crore (nearly Rs 200 billion) in the preceding six months (Jan'24-Jun'24), demonstrating increased investor engagement and confidence in the market.

Sriram Krishnan, Chief Business Development Officer, NSE, said: "As the new year begins, India's capital markets have achieved a significant milestone, with the number of registered investors at NSE exceeding the 11-crore mark. This rapid growth, with over one crore new investors added in just five months since crossing the 10-crore mark in August,

reflects rising confidence of the Indian public in the stock market as a trusted avenue for wealth creation. Factors such as enhanced digital accessibility, increased investor education, and government initiatives promoting financial inclusion have driven this surge. Additionally, a younger, tech-savvy population and growing awareness of the benefits of equity investments have further accelerated this trend. This milestone highlights a transformative shift in India's investment landscape, empowering millions to actively participate in the nation's economic growth and contributing to the deepening of the capital markets."

The National Stock Exchange of India (NSE) announced a significant milestone on 20 January 2025, surpassing 11 crore unique registered investors, a testament to the burgeoning interest in India's capital markets.

The total number of accounts registered with the exchange stands above 21 crore (Includes all client registrations done till date; clients can register with more than one trading member). This surge in participation reflects a number of factors, including rapid digitization, heightened investor awareness, and a string of positive market performances.

The pace of investor registrations has accelerated dramatically in recent years, with the last 1 crore investors added in a mere five months, underscoring a growing confidence among the Indian public in the stock market as a trusted avenue for wealth creation. This trend is further evidenced by the consistent daily addition of 47,000 to 73,000 new unique investors in the past five months.

A major shift in investor demographics is also evident, with a younger investor base emerging. The median age of new investors has declined to around 32 years, with 40% of them under 30 years old. This demographic shift, coupled with a significant increase in female participation (one in four investors is now a woman), signifies a broadening and diversifying investor base.

The reach of the stock market has also expanded geographically, with investor registrations now present in all but 30 pin codes across India. Notably, 47.6% of the latest 1 crore investor registrations originated from

districts beyond the top 100, indicating a growing participation from smaller towns and cities.

Currently, Maharashtra leads with 1.8 crore registered investors, followed by Uttar Pradesh at 1.2 crore, and Gujarat at 98 lakh, with these three states accounting for 36.6% of the 11 crore investors.

This surge in investor participation has been accompanied by a significant increase in indirect market participation, with nearly 3.7 crore new Systematic Investment Plan (SIP) accounts opened between July and December 2024. Average monthly SIP inflows during this period also witnessed a substantial increase, demonstrating a growing confidence in long-term market investments.

Sriram Krishnan, chief business development officer, NSE said: "This rapid growth, with over one crore new investors added in just five months since crossing the 10-crore mark in August, reflects rising confidence of the Indian public in the stock market as a trusted avenue for wealth creation. Factors such as enhanced digital accessibility, increased investor education, and government initiatives promoting financial inclusion have driven this surge. India's largest stock exchange now has over 11 crore unique registered investors even as it eyes an initial public offering amid the country's heightened market participation.

The number of registered individual investors on NSE's database crossed the 11-crore mark on Jan. 20th, five months after it crossed the 10-crore mark.

"Investor registrations at the NSE [saw a] 3.6 times jump in the last five years. It took 14 years from the NSE's commencement of operations in 1994 to reach 1 crore investors," the exchange said in a press release.

The number includes all client registrations done with NSE till date, and clients can register with more than one trading member.

NSE attributed the growth in investor base to several factors including the advancement of digitisation, heightened investor awareness, financial inclusion efforts, and strong market performance.

Uttar Pradesh and Maharashtra continued to lead in investor registrations, together accounting for over a quarter of the net addition of 1 crore new investors. "The median age of these investors is now around 32 years, with 40% of them under the age of 30," NSE said.

The exchange's data also highlighted indirect market participation, with 3.7 crore new systematic investment plan accounts opened between July and December, 2024. It also said that average monthly SIP inflows during this six-month period stood at Rs 24,748 crore, up 24% from the preceding six months' Rs 19,972 crore.

NSE began operations in 1994 and is ranked as the largest stock exchange in India in terms of total and average daily turnover for equity shares.

The National Stock Exchange of India (NSE) announced that its registered investor base has surpassed 11 crore unique investors as of January 20, 2025. The total number of client accounts registered with the exchange has also crossed 21 crore, marking a significant milestone in India's capital market growth.

NSE registrations rise 3.6x in 5 years

NSE reported a remarkable acceleration in new investor registrations in recent years, with a 3.6-fold increase over the last five years.

"It took 14 years from the NSE's commencement of operations in 1994 to reach 1 crore investors. The pace then quickened, with the next 1 crore registrations taking about seven years, followed by another 3.5 years for the next crore and the subsequent milestone of adding the fourth crore took just over a year. The rate of growth has since quickened significantly, with each additional 1 crore investors being added in roughly 6-7 months, while the last 1 crore investors were added in just over five months, reflecting a shift in investor enthusiasm and participation in the stock market through direct means," NSE said in a statement.

Why is market participation rising?

The surge in investor registrations has been driven by multiple factors, including the rise of digital accessibility, heightened financial literacy, government initiatives on financial inclusion, and strong market performance. In 2024, the Nifty 50 index recorded a return of 8.8%, while the broader Nifty 500 index saw a 15.2% increase, adding to investor confidence. Over the past five years, the Nifty 50 has delivered an annualised return of 14.2%, further fuelling optimism in the markets.

Since May 2014, the number of NSE investors has nearly increased sevenfold, growing from 1.65 crore to 11 crore today. According to the exchange, 20% of Indian households are now directly invested in the stock market, with small investors from even the remotest areas, such as Jammu and Jorhat, actively participating in the Indian equity markets.

Sriram Krishnan, Chief Business Development Officer, NSE said: “This rapid growth, with over one crore new investors added in just five months since crossing the 10-crore mark in August, reflects rising confidence of the Indian public in the stock market as a trusted avenue for wealth creation. Factors such as enhanced digital accessibility, increased investor education, and government initiatives promoting financial inclusion have driven this surge. Additionally, a younger, tech-savvy population and growing awareness of the benefits of equity investments have further accelerated this trend.”

Youth share in investor base rises as median age drops to 32

The new registrations reflect a shift in investor demographics, with the median age of investors now around 32 years, a notable decrease from 38 years five years ago. Additionally, 40% of new investors are under the age of 30, while one in four investors is a woman. The geographical spread of new investors shows that 99.84% of Indian pin codes now have market participants, with 47.6% of new investors coming from districts outside the top 100, highlighting the expanding reach of the market.

Maharashtra continues to lead with 1.8 crore registered investors, followed by Uttar Pradesh with 1.2 crore, and Gujarat with 98 lakh. These three states account for 36.6% of the total investor base.

In 2024, the Nifty 50 index delivered a return of 8.8 per cent, while the Nifty 500 index saw an impressive 15.2 per cent gain.

Indian markets have had positive returns for the past nine consecutive years.

Over the five-year period ending December 2024, the Nifty 50 and Nifty 500 have generated annualised returns of 14.2 per cent and 17.8 per cent, respectively, further boosting investor confidence.

Market capitalisation of NSE-listed companies has increased nearly 6 times from Rs 73.5 lakh crore as of May 1, 2014 to Rs. 425 lakh crore as of now.

Headline: NSE adds 1 crore investors in 5 months; surpasses 11 cr mark

<https://www.ptinews.com/story/business/NSE-adds-1-crore-investors-in-5-months;-surpasses-11-cr-mark=/2224605>

The National Stock Exchange (NSE) on Wednesday said its unique registered investors have crossed the 11 crore mark, with the latest 1 crore addition taking place in just five months, reflecting investor participation in the stock market through direct means.

Investor registrations at the NSE have experienced a remarkable acceleration in recent times, with a 3.6 times jump in the last five years.

It took 14 years since the NSE's commencement of operations in 1994 to reach 1 crore investors. The pace then quickened, with the next 1 crore registrations taking about seven years, followed by another 3.5 years for the next crore and the subsequent milestone of adding the fourth crore took just over a year.

"The rate of growth has since quickened significantly, with each additional 1 crore investors being added in roughly 6-7 months, while the last 1 crore investors were added in just over five months, reflecting a shift in investor enthusiasm and participation in the stock market through direct means," NSE said in a statement.

In the last five months, daily new unique investor registrations have consistently ranged between 47,000 and 73,000. This growth has been driven by several key factors, including the rapid advancement of digitisation, heightened investor awareness, financial inclusion efforts, and strong market performance.

In 2024, the Nifty 50 index delivered a return of 8.8 per cent while the Nifty 500 index saw an impressive 15.2 per cent gain. Indian markets have had positive returns for the past nine consecutive years.

"As the new year begins, India's capital markets have achieved a significant milestone, with the number of registered investors at NSE exceeding the 11-crore mark. This rapid growth, with over one crore new investors added in just five months since crossing the 10-crore mark in August, reflects rising confidence of the Indian public in the stock market as a trusted avenue for wealth creation," Sriram Krishnan, Chief Business Development Officer at NSE, said.

With this, the total number of client codes (accounts) registered with the exchange stands at 21 crore. This includes all client registrations done till date.

Notably, clients can register with more than one trading member.

Krishnan said that factors such as enhanced digital accessibility, increased investor education, and government initiatives promoting financial inclusion have driven this surge. Additionally, a younger, tech-savvy population and growing awareness of the benefits of equity investments have further accelerated this trend.

Investor growth has also expanded beyond the urban centres, with all but 30 pin codes in the country having investors registered with the exchange, implying a coverage of 99.84 per cent in the country.

In terms of geography, Maharashtra leads with 1.8 crore registered investors, followed by Uttar Pradesh at 1.2 crore, and Gujarat at 98 lakh and these three states account for 36.6 per cent of the 11 crore investors.

Headline: NSE's investor base grows at an even faster pace to cross the 11 crore mark

<https://www.moneycontrol.com/news/business/markets/nse-unique-investor-base-crosses-11-crore-mark-12916880.html>

The registered investor base of National Stock Exchange (NSE) has crossed the mark of 11 crore unique registered investors, with total number of registered accounts at over 21 crore, the exchange said on January 22.

The pace of investor registrations at NSE has risen by 3.6-fold in past five years, and the last one crore investors were added in just over five months. This rapid rate of growth in investor addition has seen each additional one crore investors being added in roughly 6-7 months, while the last one crore were added at an even quicker pace. This, NSE said, reflects a 'shift in investor enthusiasm', as well as willing for direct participation in the equity market.

This rapid growth, with over one crore new investors added in just five months since crossing the 10-crore mark in August, reflects rising confidence of the Indian public in the stock market as a trusted avenue for wealth creation," Sriram Krishnan, Chief Business Development Officer, NSE said. The last one decade has seen a near seven-fold rise in investor participation in equities, from 1.65 crore investors as of May 2014 to 11 crore investors in January 2025. During this period, the market capitalisation of NSE-listed companies has risen by nearly six-folds from Rs 73.5 lakh crore to Rs 425 lakh crore as of today.

NSE said it took them 14 years since the start of operations in 1994 to reach the one crore investor mark, underscoring the exponential pace of growth. "In the last five months, daily new unique investor registrations have consistently ranged between 47,000 and 73,000", said NSE.

Maharashtra, Uttar Pradesh, and Gujarat account for [one-third of the investor base](#), according to National Stock Exchange's (NSE's) 2024 report of highlights of the past year.

The growing equity culture has been attributed to increased investor awareness and strong market performance. Benchmark indices have delivered positive returns for the past nine consecutive years. During the last five calendar years, Nifty 50 and Nifty 500 have delivered annualised returns of 14.2% and 17.8%, respectively.

NSE said that as many as 20% of India's households now invest in equity markets directly. India's younger, tech-savvy investors have increasingly participated in this trend of equity investments, have further accelerating the growth. This demographic shift has meant that the median age of equity investors is now around 32 years, with 40% of them below the age of 30.

The National Stock Exchange (NSE) reported a remarkable growth in 2024 with [1.52 crore active investors](#) added, with over 65 percent—or around 1 crore—coming from three leading discount brokers: Groww, Angel One, and Zerodha. These platforms have solidified their dominance, driving a significant portion of the market's investor expansion.

Headline: NSE registered investor base crosses 11 crore unique investors

<https://www.etnownews.com/markets/nse-registered-investor-base-crosses-11-crore-unique-investors-article-117449552>

NSE registered investors : The unique registered investor base on the National Stock Exchange of India (NSE) crossed the 11 crore mark on January 20, 2025, announced the exchange in a press release on Wednesday, January 22. The unique registered investor base on the NSE had crossed the 10-crore mark earlier in August 2024.

The total number of client codes registered with the exchange has exceeded 21 crore, NSE said in the release.

Shri Sriram Krishnan, Chief Business Development Officer, NSE said, "This rapid growth, with over one crore new investors added in just five months since crossing the 10-crore mark in August, reflects rising confidence of the Indian public in the stock market as a trusted avenue for wealth creation."

"This milestone highlights a transformative shift in India's investment landscape, empowering millions to actively participate in the nation's economic growth and contributing to the deepening of the capital markets," he added.

Pace of registrations accelerates

Investor registrations at the NSE have seen a "remarkable acceleration in recent times," growing 3.6 times in the last five years. It took 14 years from its launch in 1994 to register the first crore investors. After that, the pace picked up—the second crore took seven years, the third took 3.5 years, and the fourth was added in just over a year. Lately, the growth has been even faster, with every additional crore investors joining in just 6-7 months, and the most recent crore being added in just over five months.

47,000 to 73,000 daily new registrations

In the last five months, daily new unique investor registrations have consistently ranged between 47,000 and 73,000, as per the release.

According to the NSE CBDO Shriram Krishnan, "Factors such as enhanced digital accessibility, increased investor education, and government initiatives promoting financial inclusion have driven this surge. Additionally, a younger, tech-savvy population and growing awareness of the benefits of equity investments have further accelerated this trend."

Nifty 50 Return in 2024

In 2024, the Nifty 50 index delivered a return of 8.8%, while the Nifty 500 index saw an impressive 15.2% gain.

Indian markets have had positive returns for the past nine consecutive years. Over the five-year period ended December 2024, the Nifty 50 and Nifty 500 have generated annualised returns of 14.2% and 17.8% respectively.

The last 10 years have seen a nearly seven-fold jump in investor participation from 1.65 crore investors as of May 1, 2014, to 11 crore investors today. About 20% of Indian households today invest into the markets directly, NSE said.

Small investors from remotest corners be it Jammu or Jorhat invest their hard-earned money in companies in other parts of the country given the trust reposed with Indian markets, the release said.

NSE Market Cap

Market capitalisation of NSE listed companies has increased nearly 6 times from Rs 73.5 lakh crore as of May 1, 2014 to Rs 425 lakh crore today. This reflects India's burgeoning middle class segment in the country in the last 10 years, said NSE. This growth aligns with Prime Minister Narendra Modi's vision of "Sabka Saath, Sabka Vikas, Sabka Vishwas."

The National Stock Exchange (NSE) on Wednesday said its unique registered investor base has crossed the 11 crore mark, with fresh inflows of 1 crore investors in just five months, reflecting investor participation in the stock market through direct channels. Investor registrations on the NSE have seen a significant rise in recent times, growing 3.6 times in the last five years.

The NSE started operations in 1994, after which it took 14 years to reach 1 crore investors. The pace accelerated thereafter, taking about seven years for the next 1 crore registrations, then it took 3.5 years to add up the next 1 crore investors and now, it took just over a year to reach the milestone of adding 4 crore people.

"The rate of growth has since quickened significantly, with each additional 1 crore investors being added in roughly 6-7 months, while the last 1 crore investors were added in just over five months, reflecting a shift in investor enthusiasm and participation in the stock market through direct means," NSE said in a statement.

Uttar Pradesh Tops The List

Geographically, Uttar Pradesh tops the list with 18 million registered investors, followed by Gujarat with 12 million, with these three states accounting for 36.6 per cent of the 110 million investors.

Key Factors Behind Growth

Daily new single investor registrations have consistently been between 47,000 and 73,000 in the last five months. This growth was driven by several key factors, including rapid progress in digitisation, rising investor awareness, financial inclusion efforts and strong market performance.

The Nifty 50 is expected to grow 8.8 per cent in 2024, while the Nifty 500 will grow 15.2 per cent. Indian markets have delivered positive returns for the last 9 years. This brings the total number of client codes (accounts) registered on the exchange to 210 million. This includes all client registrations so far.

The special thing is that clients can register with more than one trading member.

"As the new year begins, India's capital markets have achieved a significant milestone, with the number of registered investors at NSE exceeding the 11-crore mark. This rapid growth, with over one crore new investors added in just five months since crossing the 10-crore mark in August, reflects rising confidence of the Indian public in the stock market as a trusted avenue for wealth creation," Sriram Krishnan, Chief Business Development Officer at NSE, said.

Investor growth has spread beyond urban centres, with investors from all but 30 zip codes in the country registered on the exchanges, representing 99.84 per cent coverage in the country.

Headline: NSE Investor Base Crosses 11 Crore Milestone

<https://www.siliconindia.com/news/general/nse-investor-base-crosses-11-crore-milestone-nid-234005-cid-1.html>

The National Stock Exchange of India (NSE) reached a milestone on January 20, 2025, when its unique registered investor base crossed 11 crore, and the total number of client accounts exceeded 21 crore. This figure includes all accounts registered with the exchange, as clients can register with multiple trading members. This growth highlights a remarkable increase in investor participation, with the journey to this milestone accelerating notably in recent years.

Since its inception in 1994, the NSE took 14 years to register its first 1 crore investors. Subsequent milestones were reached progressively faster, with the latest 1 crore investors added in just over five months. Daily registrations in the last five months ranged between 47,000 and 73,000, driven by digitization, increased investor education, financial inclusion initiatives, and strong market performance. In 2024, the Nifty 50 index returned 8.8%, while the Nifty 500 index delivered a 15.2% gain, marking

the ninth consecutive year of positive returns for Indian markets. Over the five years ending December 2024, the Nifty 50 and Nifty 500 posted annualized returns of 14.2% and 17.8%, respectively, reinforcing investor confidence.

The investor participation has risen nearly seven-fold in the last decade, from 1.65 crore in May 2014 to 11 crore today. This not only shows the increased penetration of equity investments but also the trust of Indian households, 20% of which now invest directly in the markets. The market capitalization of NSE-listed companies has also expanded significantly, increasing from Rs 73.5 lakh crore in May 2014 to Rs 425 lakh crore in January 2025. This growth aligns with Prime Minister Narendra Modi's vision of 'Sabka Saath, Sabka Vikas, Sabka Vishwas', emphasizing inclusive economic progress.

The demographic profile of investors has undergone a significant shift. The median age has declined from 38 to 32 over the last five years, and 40% of new investors are below the age of 30. Women now constitute one in four investors, which is a reflection of increasing gender diversity in market participation. Geographically, nearly all corners of the country are represented, with investors registered from all but 30 pin codes. Among the latest 1 crore registrations, 40% are from North India, 28% from the West, 20% from the South, and 12% from the East. Maharashtra tops the states with 1.8 crore registered investors, followed by Uttar Pradesh with 1.2 crore and Gujarat with 98 lakh. The three states account for 36.6% of the total investor base. Importantly, 47.6% of the new additions came from districts outside the top 100, with 62% from districts beyond the top 50, reflecting increasing confidence of smaller towns in the equity market.

Indirect market participation through Systematic Investment Plans (SIPs) has also seen a significant rise. During July-December 2024, 3.7 crore new SIP accounts were opened. Average monthly SIP inflows during this period stood at Rs 24,748 crore, up from Rs 19,972 crore during the first half of the year. This growth reflects increased investor engagement and confidence in mutual funds as a wealth creation tool. The rise in SIPs can be attributed to improved digital access, targeted financial literacy

programs, and government efforts to promote financial inclusion. A younger, tech-savvy population has further fueled this trend.

Sriram Krishnan, Chief Business Development Officer of NSE, expressed his thoughts on this milestone, stating, "As the new year begins, India's capital markets have achieved a significant milestone, with the number of registered investors at NSE exceeding the 11-crore mark. This rapid growth, with over 1 crore new investors added in just five months since crossing the 10-crore mark in August, reflects the rising confidence of the Indian public in the stock market as a trusted avenue for wealth creation. He highlighted the role of enhanced digital accessibility, investor education, and government initiatives in driving this surge. Krishnan also added that a more youthful, tech-savvy population now realizes the advantages of equity investments, and that is a change that empowers millions to actively participate in India's economic growth and deepens the capital markets".

The milestone reached by the NSE underscores a robust growth trajectory for India's equity markets. With increased participation from younger demographics, women, and investors from non-urban regions, the markets are set to play an even more significant role in wealth creation and economic inclusivity. As financial literacy and digital infrastructure continue to advance, investor participation is likely to deepen further, cementing India's position as a leading global investment destination.

नेशनल स्टॉक एक्सचेंज (एनएसई) ने बुधवार को ऐलान किया कि एक्सचेंज पर यूनिक इन्वेस्टर्स (यूनिक पैर) की संख्या पहली बार 11 करोड़ को पार कर गई है। इसके साथ ही कुल क्लाइंट अकाउंट की संख्या 21 करोड़ से अधिक हो गई है।

भारत में शेयर बाजार का चलन बढ़ने के कारण बीते कुछ वर्षों में एनएसई पर निवेशकों की संख्या में बड़ा उछाल देखने को मिला है और यह पांच साल में 3.6 गुना हो गई है।

1994 में एनएसई के ऑपरेशन शुरू होने के बाद एक करोड़ यूनिक इन्वेस्टर होने में करीब 14 वर्ष का समय लगा था, लेकिन इसके बाद अगले एक करोड़ नए इन्वेस्टर्स आने में सात वर्ष और अगले एक करोड़ इन्वेस्टर्स और जुड़ने में 3.5 वर्ष और फिर अगले करोड़ इन्वेस्टर्स जुड़ने में एक वर्ष से अधिक का समय लगा था।

एनएसई ने नोट में कहा कि यूनिक इन्वेस्टर्स की संख्या में पिछले कुछ समय में काफी बढ़ोतरी हुई है। 6 से 7 महीने में अतिरिक्त 1 करोड़ निवेशक जुड़े हैं। वहीं, आखिरी एक करोड़ इन्वेस्टर्स पिछले पांच महीने में आए हैं, जो बाजार में बढ़ती इन्वेस्टर्स की भागीदारी को दिखाता है।

एक्सचेंज के मुताबिक, बीते पांच महीनों से प्रतिदिन करीब 47,000 से लेकर 73,000 के बीच में यूनिक इन्वेस्टर्स के पंजीकरण हो रहे हैं। इसका कारण वित्तीय सेवाओं का अंतिम व्यक्ति तक पहुंचना, डिजिटलाइजेशन बढ़ना और शेयर बाजार का मजबूत प्रदर्शन है।

2024 में निफ्टी 50 इंडेक्स ने 8.8 प्रतिशत का रिटर्न दिया, जबकि निफ्टी 500 इंडेक्स में 15.2 प्रतिशत की बढ़ हुई थी।

भारतीय बाजारों में इन्वेस्टर्स को पिछले नौ लगातार वर्षों से सकारात्मक रिटर्न मिला है।

दिसंबर 2024 को समाप्त होने वाली पांच साल की अवधि में निफ्टी 50 और निफ्टी 500 ने क्रमशः 14.2 प्रतिशत और 17.8 प्रतिशत का वार्षिक रिटर्न दिया है, जिससे निवेशकों का विश्वास और बढ़ा है।

एनएसई-सूचीबद्ध कंपनियों का बाजार पूंजीकरण 1 मई, 2014 को 73.5 लाख करोड़ रुपये से लगभग 6 गुना बढ़कर अब 425 लाख करोड़ रुपये हो गया है।

Headline: NSE registered investor base crosses 11 crore (110 million) unique investors (unique PANs) and over 21 crore (210 million) total accounts

<https://newspatrolling.com/nse-registered-investor-base-crosses-11-crore-110-million-unique-investors-unique-pans-and-over-21-crore-210-million-total-accounts/>

Bengaluru, January 22, 2025: The unique registered investor base on the National Stock Exchange of India crossed the

11-crore (110 million) mark on January 20th, 2025. The total number of client codes (accounts) registered with the exchange stands above 21 crore (210 million) (Includes all client registrations done till date; clients can register with more than one trading member).

Investor registrations at the NSE have experienced a remarkable acceleration in recent times, with 3.6 times jump in the last five years. It took 14 years from the NSE's commencement of operations in 1994 to reach 1 crore investors. The pace then quickened, with the next 1 crore

registrations taking about seven years, followed by another 3.5 years for the next crore and the subsequent milestone of adding the fourth crore took just over a year. The rate of growth has since quickened significantly, with each additional 1 crore investors being added in roughly 6-7 months, while the last 1 crore investors were added in just over five months, reflecting a shift in investor enthusiasm and participation in the stock market through direct means.

In the last five months, daily new unique investor registrations have consistently ranged between 47,000 and 73,000. This growth has been driven by several key factors, including the rapid advancement of digitisation, heightened investor awareness, financial inclusion efforts, and strong market performance. In 2024, the Nifty 50 index delivered a return of 8.8%, while the Nifty 500 index saw an impressive 15.2% gain. Indian markets have had positive returns for the past nine consecutive years. Over the five-year period ending December 2024, the Nifty 50 and Nifty 500 have generated annualised returns of 14.2% and 17.8% respectively, further boosting investor confidence.

The last 10 years have seen a nearly seven-fold jump in investor participation from 1.65 crore investors as of May 1st, 2014, to 11 crore investors today. 20% of Indian households today invest into the markets directly. Small investors from remotest corners be it Jammu or Jorhat invest their hard-earned money in companies in other parts of the country given the trust reposed with Indian markets. Market capitalisation of NSE listed companies has increased nearly 6 times from Rs 73.5 lakh crore as of May 1st, 2014 to Rs. 425 lakh crore today. This reflects India's burgeoning middle class segment in the country in the last 10 years aligning with our Hon'ble Prime Minister Shri Narendra Modiji's philosophy of 'Sabka Saath, Sabka Vikas, Sabka Vishwas.'

The new investors coming into the market reflect a significant demographic shift. Today, the median age of these investors is now

around 32 years, with 40% of them under the age of 30. This is a marked change from just five years ago, when the median age was 38, highlighting a growing interest in the stock market among younger investors. Furthermore, one in four investors today is a woman, a sign of rising gender diversity through direct participation into the market.

Investor growth has also expanded beyond the urban centers, with all but 30 pin codes in the country having investors registered with the exchange, implying a coverage of 99.84% in the country. Regionally, among the latest one crore registrations, 40% come from North India, followed by 28% from West India, 20% from South India, and 12% from East India. The big states of Uttar Pradesh and Maharashtra continue to lead in investor registrations, together accounting for over a quarter of these new investors. Notably, 47.6% of the last one crore investor registrations originated from districts beyond the top 100, while 62% came from districts beyond top 50, signaling the expanding reach and trust that investors from smaller towns hold in the market. Currently, Maharashtra leads with 1.8 crore (18 million) registered investors, followed by Uttar Pradesh at 1.2 crore (12 million), and Gujarat at 98 lakh (9.8 million), with these three states accounting for 36.6% of the 11 crore investors.

Indirect market participation has also seen impressive growth, with nearly 3.7 crore (37 million) new SIP accounts opened between July and December 2024. In addition, average monthly SIP inflows during this period stood at Rs 24,748 crore (Rs 247 billion), rising from Rs 19,972 crore (~Rs 200 billion) in the preceding six months (Jan'24-Jun'24), demonstrating increased investor engagement and confidence in the market.

Shri Sriram Krishnan, Chief Business Development Officer, NSE said: "As the new year begins, India's capital markets have achieved a significant milestone, with the number of registered investors at NSE exceeding the 11-crore mark. This rapid growth, with over one crore new investors

added in just five months since crossing the 10-crore mark in August, reflects rising confidence of the Indian public in the stock market as a trusted avenue for wealth creation. Factors such as enhanced digital accessibility, increased investor education, and government initiatives promoting financial inclusion have driven this surge. Additionally, a younger, tech-savvy population and growing awareness of the benefits of equity investments have further accelerated this trend. This milestone highlights a transformative shift in India's investment landscape, empowering millions to actively participate in the nation's economic growth and contributing to the deepening of the capital markets."

Headline: शेयर बाजार में बढ़ती दिलचस्पी, NSE पर निवेशकों की संख्या 11 करोड़ पार

<https://www.india.com/hindi-news/business-hindi/nse-crosses-110-million-investors-reflecting-growing-market-participation-7558074/>

NSE पर यूनिक निवेशकों की संख्या 11 करोड़ पार हो गई है। डिजिटलाइजेशन, जागरूकता और बाजार के मजबूत प्रदर्शन से निवेश बढ़ा है। निफ्टी इंडेक्स ने अच्छा रिटर्न दिया, जिससे निवेशकों की भागीदारी तेजी से बढ़ रही है।

नेशनल स्टॉक एक्सचेंज (NSE) ने घोषणा की है कि पहली बार यूनिक इन्वेस्टर्स (यूनिक पैन) की संख्या 11 करोड़ के पार पहुंच गई है। इसके साथ ही कुल क्लाइंट अकाउंट्स की संख्या 21 करोड़ से अधिक हो गई है।

बीते वर्षों में तेज वृद्धि

भारत में शेयर बाजार में निवेश का रुझान लगातार बढ़ा है। बीते पांच वर्षों में NSE पर निवेशकों की संख्या 3.6 गुना बढ़ गई है। 1994 में NSE की शुरुआत के बाद पहले एक करोड़ निवेशक जोड़ने में 14 वर्ष लगे थे।

इसके बाद निवेशकों की संख्या तेजी से बढ़ी. अगले:

- 1 करोड़ इन्वेस्टर्स जुड़ने में 7 साल लगे.
- फिर 1 करोड़ निवेशक जुड़ने में 3.5 साल लगे.
- अगले 1 करोड़ निवेशकों के जुड़ने में सिर्फ 1 साल से अधिक का समय लगा.

हर महीने जुड़ रहे लाखों निवेशक

पिछले 6-7 महीनों में 1 करोड़ नए इन्वेस्टर्स जुड़े हैं. खास बात यह है कि अंतिम 1 करोड़ इन्वेस्टर्स सिर्फ 5 महीनों में आए हैं. यह शेयर बाजार में बढ़ती भागीदारी को दर्शाता है.

NSE के अनुसार, हर दिन 47,000 से 73,000 नए इन्वेस्टर्स पंजीकरण कर रहे हैं.

तेजी के कारण

शेयर बाजार में बढ़ती दिलचस्पी के पीछे कई कारण हैं:

डिजिटलीकरण – निवेश करना अब आसान हुआ है.

फाइनेंशियल अवेयरनेस – निवेश को लेकर लोगों में जागरूकता बढ़ी है.

शेयर बाजार का मजबूत प्रदर्शन – निवेशकों को लगातार अच्छा रिटर्न मिल रहा है.

शेयर बाजार से लगातार अच्छा रिटर्न

- 2024 में निफ्टी 50 इंडेक्स ने 8.8% और निफ्टी 500 इंडेक्स ने 15.2% का रिटर्न दिया.
- पिछले 9 सालों से भारतीय बाजारों में निवेशकों को सकारात्मक रिटर्न मिल रहा है. 2019-2024 के बीच:
- निफ्टी 50 ने 14.2% का वार्षिक रिटर्न दिया.
- निफ्टी 500 ने 17.8% का सालाना रिटर्न दिया.

बाजार पूंजीकरण में जबरदस्त इजाफा

2014 में NSE-सूचीबद्ध कंपनियों का बाजार पूंजीकरण 73.5 लाख करोड़ रुपये था. अब यह लगभग 6 गुना बढ़कर 425 लाख करोड़ रुपये हो गया है.

शेयर बाजार में निवेश की नई लहर

शेयर बाजार में निवेशकों की संख्या तेजी से बढ़ रही है. नए निवेशकों की भागीदारी से बाजार को मजबूती मिल रही है. डिजिटल प्लेटफॉर्म और जागरूकता बढ़ने से भविष्य में यह संख्या और तेजी से बढ़ सकती है.

Headline: NSE's Investor Base Surges Past 11 Crore Mark

<https://www.devdiscourse.com/article/headlines/3234777-nse-investor-base-surges-past-11-crore-mark>

The National Stock Exchange (NSE) announced a significant milestone on Wednesday, surpassing 11 crore registered investors. The latest crore of investors was added within just five months, illustrating a growing trend of direct participation in the stock market.

Over the past five years, the NSE has seen investor registrations increase by a staggering 3.6 times. Initially, the exchange took 14 years to reach the first crore of investors after starting operations in 1994. The pace accelerated significantly in recent times, with each subsequent crore added in a progressively shorter timeframe.

The recent surge in investor numbers is attributed to the rapid advancement of digital technology, enhanced investor awareness, government-backed financial inclusion initiatives, and notable market returns, such as the 8.8% increase of the Nifty 50 index in 2024.

Geographically, Maharashtra, Uttar Pradesh, and Gujarat are leading with the highest number of registered investors.

NSE's registered investor base has crossed 11 crore, with 1 crore added in just 5 months, reflecting growing investor participation in the stock market. Factors like digitization, investor awareness, and market performance are driving this growth.

New Delhi, Jan 22 (PTI) The National Stock Exchange (NSE) on Wednesday said its unique registered investors have crossed the 11 crore mark, with the latest 1 crore addition taking place in just five months, reflecting investor participation in the stock market through direct means.

Investor registrations at the NSE have experienced a remarkable acceleration in recent times, with a 3.6 times jump in the last five years.

It took 14 years since the NSE's commencement of operations in 1994 to reach 1 crore investors. The National Stock Exchange (NSE) said on Wednesday, January 22 that its unique registered investors have surpassed the 11 crore mark, recording more than one crore additions in the past five months. The recent surge highlights the increased investor participation in the stock market directly. Investor registrations have increased by over 3.5 times in the last five years.

Since the beginning of NSE's operations in 1994, it took the stock exchange 14 years to reach one crore investors. The next one crore registrations came in quickly, taking nearly seven years, followed by an

ever-quicker pace of taking 3.5 years for the next crore. All this was topped off by the milestone of the fourth crore taking just over a year.

"The rate of growth has since quickened significantly, with each additional one crore investors being added in roughly six to seven months, while the last one crore investors were added in just over five months, reflecting a shift in investor enthusiasm and participation in the stock market through direct means," NSE said in a statement.

The daily new unique investor registrations have consistently ranged between 47,000 and 73,000 over the past five months. The uptrend is seen on the back of many factors including the rapid advancement of digitisation, heightened investor awareness, financial inclusion efforts and strong market performance.

Last year, the Nifty 50 index delivered a return of 8.8%, while the Nifty 500 index ended with an impressive 15.2% gain. Indian markets have experienced positive returns for the last nine consecutive years.

"As the new year begins, India's capital markets have achieved a significant milestone, with the number of registered investors at NSE exceeding the 11-crore mark. This rapid growth, with over one crore new investors added in just five months since crossing the 10-crore mark in August, reflects rising confidence of the Indian public in the stock market as a trusted avenue for wealth creation," PTI quoted Sriram Krishnan, Chief Business Development Officer at NSE, as saying.

The total number of accounts (client codes) registered with the NSE, adding this, now stands at 21 crore. Notably, clients can register with more than one trading member.

Factors like enhanced digital accessibility, increased investor education and government initiatives promoting financial inclusion have driven this surge, Krishnan said to PTI. Moreover, a younger, tech-savvy population and growing awareness of the benefits of equity investments have fueled this trend further.

The growth of investors has expanded beyond the urban areas, with nearly all pin codes (except 30) in India having investors registered with the exchange. This means that there is 99.84% coverage in the country. Maharashtra leads with 1.8 crore registered investors, followed by Uttar Pradesh at 1.2 crore and Gujarat at 98 lakh. These three states account for 36.6% of the total 11 crore investors.

<https://www.indiablooms.com/finance/nse-registered-investors-cross-11-cr-with-1-cr-added-in-5-months/details>

The National Stock Exchange (NSE) announced on Wednesday that the number of unique registered investors on its platform has surpassed 11 crore, with the most recent 1 crore registrations being achieved in just five months, media reports said.

This milestone highlights the growing participation of individuals directly engaging with the stock market.

Investor registrations at the NSE have witnessed significant momentum, increasing by 3.6 times over the past five years, reported Business Standard.

It took 14 years from the NSE's inception in 1994 to reach the 1 crore investor mark.

However, the pace of growth has since accelerated.

The second crore was achieved in seven years, the third crore in 3.5 years, and the fourth crore in just over a year.

NSE CEO Ashishkumar Chauhan attributed this rapid growth to factors such as improved digital accessibility, heightened investor education, and government efforts to promote financial inclusion.

A younger, tech-savvy demographic and increased awareness about the advantages of equity investments have also played a critical role in boosting market participation.

The rise in investors is not limited to urban centres, as registrations have extended to all but 30 pin codes across India, representing 99.84% geographical coverage.

Maharashtra leads with 1.8 crore registered investors, followed by Uttar Pradesh with 1.2 crore and Gujarat with 98 lakh, together accounting for 36.6% of the total 11 crore investors.

नेशनल स्टॉक एक्सचेंज (एनएसई) पर कुल अद्वितीय निवेशकों (अद्वितीय पैन) की संख्या पहली बार 11 करोड़ के पार पहुंच गई है और एक्सचेंज में पंजीकृत कुल ग्राहक खाते अब 21 करोड़ से अधिक हो गए हैं, यह बुधवार को घोषित किया गया।

शेयर बाजार में भागीदारी में उछाल के कारण हाल के वर्षों में एनएसई में निवेशक पंजीकरण में तेजी देखी गई है, पिछले पांच वर्षों में इसमें 3.6 गुना वृद्धि हुई है।

1994 में परिचालन शुरू करने के बाद से एनएसई को 1 करोड़ निवेशकों तक पहुंचने में 14 साल लग गए।

इसके बाद गति तेज हो गई, अगले 1 करोड़ पंजीकरण में लगभग सात साल लगे, उसके बाद अगले एक करोड़ के लिए 3.5 साल और चौथे करोड़ को जोड़ने में एक साल से थोड़ा अधिक समय लगा।

एनएसई ने कहा, “इसके बाद से विकास की दर में उल्लेखनीय वृद्धि हुई है, प्रत्येक अतिरिक्त 1 करोड़ निवेशक लगभग 6-7 महीनों में जुड़ रहे हैं, जबकि पिछले 1 करोड़ निवेशक सिर्फ पाँच महीनों में जुड़े थे, जो प्रत्यक्ष माध्यमों से शेयर बाजार में निवेशकों के उत्साह और भागीदारी में बदलाव को दर्शाता है।” एक्सचेंज ने कहा कि पिछले पाँच महीनों में, दैनिक नए अद्वितीय निवेशक पंजीकरण लगातार 47,000 से 73,000 के बीच रहे हैं।

यह वृद्धि कई कारकों से प्रेरित है, जिसमें मज़बूत बाजार प्रदर्शन, निवेशकों की बढ़ती जागरूकता, वित्तीय समावेशन प्रयास और डिजिटलीकरण की तेज़ प्रगति शामिल है। 2024 में, निफ्टी 50 इंडेक्स ने 8.8 प्रतिशत का रिटर्न दिया, जबकि निफ्टी 500 इंडेक्स ने 15.2 प्रतिशत की प्रभावशाली बढ़त देखी। पिछले नौ लगातार वर्षों से

भारतीय बाज़ारों में सकारात्मक रिटर्न रहा है। दिसंबर 2024 को समाप्त होने वाली पांच साल की अवधि में, निफ्टी 50 और निफ्टी 500 ने क्रमशः 14.2 प्रतिशत और 17.8 प्रतिशत का वार्षिक रिटर्न अर्जित किया है, जिससे निवेशकों का विश्वास और बढ़ा है।

एनएसई-सूचीबद्ध कंपनियों का बाजार पूंजीकरण 1 मई, 2014 को 73.5 लाख करोड़ रुपये से लगभग 6 गुना बढ़कर अब 425 लाख करोड़ रुपये हो गया है।

The exchange said that in the last five months, daily new unique investor registrations have consistently ranged between 47,000 and 73,000.

This growth has been driven by many factors, including the strong market performance, heightened investor awareness, financial inclusion efforts and rapid advancement of digitisation.

In 2024, the Nifty 50 index delivered a return of 8.8 per cent, while the Nifty 500 index saw an impressive 15.2 per cent gain.

Indian markets have had positive returns for the past nine consecutive years.

Over the five-year period ending December 2024, the Nifty 50 and Nifty 500 have generated annualised returns of 14.2 per cent and 17.8 per cent. respectively, further boosting investor confidence.

Market capitalisation of NSE-listed companies has increased nearly 6 times from Rs 73.5 lakh crore as of May 1, 2014 to Rs. 425 lakh crore as of now.

Total unique investors' base (unique PANs) on the National Stock Exchange (NSE) crossed the 11-crore mark for the first time, and total client accounts registered with the exchange now stands more than 21 crore, it was announced on Wednesday.

Investor registrations at the NSE experienced acceleration in recent year due to surge in stock market participation, with 3.6 times jump in the last five years.

It took 14 years from the NSE's commencement of operations in 1994 to reach 1 crore investors.

The pace then quickened, with the next 1 crore registrations taking about seven years, followed by another 3.5 years for the next crore and the subsequent milestone of adding the fourth crore took just over a year.

“The rate of growth has since quickened significantly, with each additional 1 crore investors being added in roughly 6-7 months, while the last 1 crore investors were added in just over five months, reflecting a shift in investor enthusiasm and participation in the stock market through direct means,” the NSE noted.

The unique registered investor base on the National Stock Exchange of India crossed the 11-crore (110 million) mark on January 20th, 2025. The total number of client codes (accounts) registered with the exchange stands above 21 crore (210 million) (Includes all client registrations done till date; clients can register with more than one trading member).

Investor registrations at the NSE have experienced a remarkable acceleration in recent times, with 3.6 times jump in the last five years. It took 14 years from the NSE’s commencement of operations in 1994 to reach 1 crore investors. The pace then quickened, with the next 1 crore registrations taking about seven years, followed by another 3.5 years for the next crore and the subsequent milestone of adding the fourth crore took just over a year. The rate of growth has since quickened significantly, with each additional 1 crore investors being added in roughly 6-7 months, while the last 1 crore investors were added in just over five months, reflecting a shift in investor enthusiasm and participation in the stock market through direct means.

In the last five months, daily new unique investor registrations have consistently ranged between 47,000 and 73,000. This growth has been driven by several key factors, including the rapid advancement of

digitisation, heightened investor awareness, financial inclusion efforts, and strong market performance. In 2024, the Nifty 50 index delivered a return of 8.8%, while the Nifty 500 index saw an impressive 15.2% gain. Indian markets have had positive returns for the past nine consecutive years. Over the five-year period ending December 2024, the Nifty 50 and Nifty 500 have generated annualised returns of 14.2% and 17.8% respectively, further boosting investor confidence.

The last 10 years have seen a nearly seven-fold jump in investor participation from 1.65 crore investors as of May 1st, 2014, to 11 crore investors today. 20% of Indian households today invest into the markets directly. Small investors from remotest corners be it Jammu or Jorhat invest their hard-earned money in companies in other parts of the country given the trust reposed with Indian markets. Market capitalisation of NSE listed companies has increased nearly 6 times from Rs 73.5 lakh crore as of May 1st, 2014 to Rs. 425 lakh crore today. This reflects India's burgeoning middle class segment in the country in the last 10 years aligning with our Hon'ble Prime Minister Shri Narendra Modi's philosophy of 'Sabka Saath, Sabka Vikas, Sabka Vishwas.'

The new investors coming into the market reflect a significant demographic shift. Today, the median age of these investors is now around 32 years, with 40% of them under the age of 30. This is a marked change from just five years ago, when the median age was 38, highlighting a growing interest in the

stock market among younger investors. Furthermore, one in four investors today is a woman, a sign of rising gender diversity through direct participation into the market.

Investor growth has also expanded beyond the urban centers, with all but 30 pin codes in the country having investors registered with the exchange, implying a coverage of 99.84% in the country. Regionally, among the latest one crore registrations, 40% come from North India, followed by 28% from West India, 20% from South India, and 12% from East India. The big states of Uttar Pradesh and Maharashtra continue to lead in investor

registrations, together accounting for over a quarter of these new investors. Notably, 47.6% of the last one crore investor registrations originated from districts beyond the top 100, while 62% came from districts beyond top 50, signaling the expanding reach and trust that investors from smaller towns hold in the market. Currently, Maharashtra leads with 1.8 crore (18 million) registered investors, followed by Uttar Pradesh at 1.2 crore (12 million), and Gujarat at 98 lakh (9.8 million), with these three states accounting for 36.6% of the 11 crore investors.

Indirect market participation has also seen impressive growth, with nearly 3.7 crore (37 million) new SIP accounts opened between July and December 2024. In addition, average monthly SIP inflows during this period stood at Rs 24,748 crore (Rs 247 billion), rising from Rs 19,972 crore (~Rs 200 billion) in the preceding six months (Jan'24-Jun'24), demonstrating increased investor engagement and confidence in the market.

Shri Sriram Krishnan, Chief Business Development Officer, NSE said: “As the new year begins, India’s capital markets have achieved a significant milestone, with the number of registered investors at NSE exceeding the 11-crore mark. This rapid growth, with over one crore new investors added in just five months since crossing the 10-crore mark in August, reflects rising confidence of the Indian public in the stock market as a trusted avenue for wealth creation. Factors such as enhanced digital accessibility, increased investor education, and government initiatives promoting financial inclusion have driven this surge. Additionally, a younger, tech-savvy population and growing awareness of the benefits of equity investments have further accelerated this trend. This milestone highlights a transformative shift in India’s investment landscape, empowering millions to actively participate in the nation’s economic growth and contributing to the deepening of the capital markets.”

Headline: Investor Boom: NSE Registers 1 Crore New Investors In 5 Months, Reaches 11 Crore Milestone

<https://www.newsx.com/business/investor-boom-nse-registers-1-crore-new-investors-in-5-months-reaches-11-crore-milestone/>

The National Stock Exchange (NSE) has announced that its unique registered investor count has exceeded 11 crore, with the latest addition of 1 crore investors in just five months, highlighting a surge in direct market participation.

Investor registrations on the NSE have seen remarkable growth, with the number of investors increasing by 3.6 times over the past five years. It took 14 years for the NSE to reach 1 crore investors after its inception in 1994. However, the pace has accelerated in recent years: the next 1 crore investors were added in about seven years, followed by 3.5 years for the next addition, and the fourth crore was reached in just over a year.

The rate of growth has rapidly increased, with each subsequent 1 crore added in about 6 to 7 months. Notably, the most recent crore was added in a record 5 months, signaling a strong surge in investor enthusiasm and market participation through direct investments, according to an NSE statement.

In the past five months, the exchange has consistently registered between 47,000 and 73,000 new investors daily. This growth can be attributed to several factors, including the advancement of digital technologies, greater investor awareness, government-led financial inclusion initiatives, and a robust stock market performance. In 2024, the Nifty 50 index posted an 8.8% return, while the Nifty 500 index saw a gain of 15.2%. Indian markets have delivered positive returns for the past nine years.

Sriram Krishnan, Chief Business Development Officer at NSE, noted that this milestone demonstrates the rising confidence of the Indian public in the stock market as a wealth-creation tool. He added that over 1 crore

investors have been added since August, reflecting the growing trust in the equity market.

Currently, the total number of client accounts registered with the NSE stands at 21 crore, although some clients hold accounts with multiple trading members. This growth has not been limited to urban centers; almost all regions of India are now covered, with only 30 pin codes in the country not having registered investors, indicating a 99.84% coverage across India.

Geographically, Maharashtra leads with 1.8 crore investors, followed by Uttar Pradesh with 1.2 crore and Gujarat with 98 lakh, together accounting for 36.6% of the total 11 crore investors.

बढ़ रहा शेयर बाजार से कमाई का चस्का, अब 11 करोड़ लोग कर रहे निवेश

शेयर बाजार से कमाई का चस्का बढ़ता जा रहा है. ये बात हम नहीं बल्कि आंकड़े कह रहे हैं. आंकड़ों के मुताबिक अब 11 करोड़ लोग शेयर बाजार से कमाई कर रहे हैं. शेयर बाजार नेशनल स्टॉक एक्सचेंज (एनएसई) ने कहा कि उसके पंजीकृत निवेशकों की संख्या 11 करोड़ को पार हो गई है. इसमें अंतिम एक करोड़ पंजीकरण सिर्फ पांच महीनों में हुए हैं. यह निवेशकों की प्रत्यक्ष माध्यमों से शेयर बाजार में बढ़ती भागीदारी को बताता है.

पिछले 5 साल में सबसे ज्यादा बढ़े इन्वेस्टर

एनएसई में निवेशक पंजीकरण में हाल के दिनों में तेजी देखी गई है और पिछले पांच वर्षों में इसमें 3.6 गुना उछाल आया है. साल 1994 में एनएसई के परिचालन की शुरुआत के बाद से एक करोड़ निवेशकों तक पहुंचने में 14 साल लग गए. इसके बाद यह गति तेज हुई. अगले एक करोड़ पंजीकरण में लगभग सात साल लगे, उसके बाद अगले एक करोड़ के लिए 3.5 साल और फिर चौथे करोड़ को जोड़ने में एक साल से थोड़ा ज्यादा समय लगा.

हर महीने जुड़ रहे 1 करोड़ यूजर

एनएसई ने बयान में कहा, उसके बाद से वृद्धि दर उल्लेखनीय रूप से बढ़ी है। प्रत्येक अतिरिक्त एक करोड़ निवेशक लगभग छह-सात महीनों में जुड़ रहे हैं, जबकि अंतिम एक करोड़ निवेशक केवल पांच महीनों में जुड़े हैं। यह शेयर बाजार में निवेशकों के प्रत्यक्ष रूप से निवेश को उत्साह और भागीदारी में बदलाव को बताता है। पिछले साल मानक सूचकांक निफ्टी50 ने 8.8 प्रतिशत का रिटर्न दिया जबकि निफ्टी 500 सूचकांक में 15.2 प्रतिशत की शानदार बढ़त देखने को मिली। पिछले नौ साल से भारतीय बाजारों में सकारात्मक रिटर्न देखने को मिल रहा है।

एनएसई के मुख्य व्यवसाय विकास अधिकारी श्रीराम कृष्णन ने कहा, एनएसई में पंजीकृत निवेशकों की संख्या 11 करोड़ के आंकड़े को पार कर गई है। महज पांच महीनों में एक करोड़ से अधिक नए निवेशकों के जुड़ने के साथ यह तीव्र वृद्धि, संपत्ति सृजन के एक विश्वसनीय माध्यम के रूप में शेयर बाजार में भारतीय जनता के बढ़ते विश्वास को दर्शाती है। इसके साथ ही एक्सचेंज में पंजीकृत क्लाइंट कोड (खातों) की कुल संख्या 21 करोड़ हो गई है। इसमें आज तक किए गए सभी पंजीकरण शामिल हैं। विशेष बात यह है कि ग्राहक एक से अधिक ट्रेडिंग सदस्यों के साथ पंजीकरण करा सकते हैं।

नेशनल स्टॉक एक्सचेंज (NSE) ने बुधवार को ऐलान किया कि एक्सचेंज पर यूनिक इन्वेस्टर्स (यूनिक पैन) की संख्या पहली बार 11 करोड़ को पार कर गई है। इसके साथ ही कुल क्लाइंट अकाउंट की संख्या 21 करोड़ से अधिक हो गई है। भारत में शेयर बाजार का चलन बढ़ने के कारण बीते कुछ वर्षों में NSE पर निवेशकों की संख्या में बड़ा उछाल देखने को मिला है और यह पांच साल में 3.6 गुना हो गई है।

पिछले एक दशक में बढ़ी निवेशकों की संख्या

1994 में NSE के ऑपरेशन शुरू होने के बाद एक करोड़ यूनिक इन्वेस्टर होने में करीब 14 वर्ष का समय लगा था, लेकिन इसके बाद अगले एक करोड़ नए इन्वेस्टर्स आने में सात साल और अगले एक करोड़ इन्वेस्टर्स जुड़ने में 3.5 साल लगे थे, जबकि अगले करोड़ इन्वेस्टर्स जुड़ने में एक साल से अधिक का समय लगा था।

निवेशकों की संख्या में तेज वृद्धि

एनएसई ने नोट में कहा कि यूनिक इन्वेस्टर्स की संख्या में पिछले कुछ समय में काफी बढ़ोतरी हुई है। 6 से 7 महीने में अतिरिक्त 1 करोड़ निवेशक जुड़े हैं। वहीं, आखिरी 1 करोड़ इन्वेस्टर्स पिछले पांच महीने में आए हैं, जो बाजार में बढ़ती इन्वेस्टर्स की भागीदारी को दर्शाता है।

रोजाना औसतन 47,000 से 73,000 निवेशक हुए रजिस्टर

एक्सचेंज के मुताबिक, बीते पांच महीनों में प्रतिदिन करीब 47,000 से लेकर 73,000 के बीच यूनिक इन्वेस्टर्स के रजिस्ट्रेशन हो रहे हैं। इसका कारण फाइनेंशियल सर्विस का एंड-टू-एंड एक्सेस, डिजिटलाइजेशन का बढ़ना और शेयर बाजार का मजबूत प्रदर्शन है।

निफ्टी 50 और निफ्टी 500 इंडेक्स में अच्छा रिटर्न

2024 में निफ्टी 50 इंडेक्स ने 8.8 प्रतिशत का रिटर्न दिया, जबकि निफ्टी 500 इंडेक्स में 15.2 प्रतिशत की बढ़ोतरी हुई थी। भारतीय बाजारों में निवेशकों को पिछले नौ लगातार वर्षों से सकारात्मक रिटर्न मिला है। दिसंबर 2024 को समाप्त होने वाली पांच साल की अवधि में निफ्टी 50 और निफ्टी 500 ने क्रमशः 14.2 प्रतिशत और 17.8 प्रतिशत का वार्षिक रिटर्न दिया है, जिससे निवेशकों का विश्वास और बढ़ा है।

एनएसई-सूचीबद्ध कंपनियों का मार्केट कैप 1 मई, 2014 को 73.5 लाख करोड़ रुपये से लगभग 6 गुना बढ़कर अब 425 लाख करोड़ रुपये हो गया है।

नेशनल स्टॉक एक्सचेंज (एनएसई) ने बुधवार को कहा कि उसके अद्वितीय पंजीकृत निवेशकों ने 11 करोड़ का आंकड़ा पार कर लिया है, जिसमें नवीनतम 1 करोड़ की वृद्धि सिर्फ पांच महीनों में हुई है, जो प्रत्यक्ष माध्यमों से शेयर बाजार में निवेशकों की भागीदारी को दर्शाता है।

एनएसई में निवेशक पंजीकरण में हाल के दिनों में उल्लेखनीय तेजी देखी गई है, पिछले पांच वर्षों में इसमें 3.6 गुना वृद्धि हुई है।

1994 में एनएसई के परिचालन की शुरुआत के बाद से 1 करोड़ निवेशकों तक पहुंचने में 14 साल लग गए। इसके बाद गति तेज हो गई, अगले 1 करोड़ पंजीकरण में लगभग सात साल लगे, इसके बाद अगले एक करोड़ के लिए 3.5 साल और चौथे करोड़ को जोड़ने के लिए एक साल से थोड़ा अधिक समय लगा।

एनएसई ने एक बयान में कहा, “इसके बाद से विकास की दर में काफी तेजी आई है, प्रत्येक अतिरिक्त 1 करोड़ निवेशक लगभग 6-7 महीनों में जुड़ रहे हैं, जबकि

पिछले 1 करोड़ निवेशक सिर्फ पाँच महीनों में जुड़े थे, जो प्रत्यक्ष माध्यमों से शेयर बाज़ार में निवेशकों के उत्साह और भागीदारी में बदलाव को दर्शाता है।”

पिछले पाँच महीनों में, दैनिक नए अद्वितीय निवेशक पंजीकरण लगातार 47,000 से 73,000 के बीच रहे हैं। यह वृद्धि कई प्रमुख कारकों से प्रेरित है, जिसमें डिजिटलीकरण की तीव्र प्रगति, निवेशकों की बढ़ती जागरूकता, वित्तीय समावेशन प्रयास और मज़बूत बाज़ार प्रदर्शन शामिल हैं। 2024 में, निफ्टी 50 इंडेक्स ने 8.8 प्रतिशत का रिटर्न दिया, जबकि निफ्टी 500 इंडेक्स ने 15.2 प्रतिशत की प्रभावशाली बढ़त देखी। पिछले नौ लगातार वर्षों से भारतीय बाज़ारों में सकारात्मक रिटर्न रहा है।

नए साल की शुरुआत के साथ ही भारत के पूंजी बाजारों ने एक महत्वपूर्ण उपलब्धि हासिल की है, जिसमें NSE में पंजीकृत निवेशकों की संख्या 11 करोड़ के आंकड़े को पार कर गई है। अगस्त में 10 करोड़ के आंकड़े को पार करने के बाद से सिर्फ पाँच महीनों में एक करोड़ से ज़्यादा नए निवेशकों के जुड़ने के साथ यह तेज़ वृद्धि, संपत्ति सृजन के एक भरोसेमंद माध्यम के रूप में शेयर बाज़ार में भारतीय जनता के बढ़ते भरोसे को दर्शाती है,” NSE के मुख्य व्यवसाय विकास अधिकारी श्रीराम कृष्णन ने कहा।

इसके साथ ही एक्सचेंज में पंजीकृत क्लाइंट कोड (खातों) की कुल संख्या 21 करोड़ हो गई है। इसमें आज तक किए गए सभी क्लाइंट पंजीकरण शामिल हैं। विशेष रूप से, क्लाइंट एक से ज़्यादा ट्रेडिंग सदस्यों के साथ पंजीकरण कर सकते हैं। कृष्णन ने कहा कि बढ़ी हुई डिजिटल पहुँच, निवेशकों की बढ़ती शिक्षा और वित्तीय समावेशन को बढ़ावा देने वाली सरकारी पहल जैसे कारकों ने इस उछाल को बढ़ावा दिया है। इसके अलावा, युवा, तकनीक-प्रेमी आबादी और इक्विटी निवेश के लाभों के बारे में बढ़ती जागरूकता ने इस प्रवृत्ति को और तेज़ कर दिया है।

Total unique investors' base (unique PANs) on the National Stock Exchange (NSE) crossed the 11-crore mark for the first time, and total client accounts registered with the exchange now stands more than 21 crore, it was announced on Wednesday.

Investor registrations at the NSE experienced acceleration in recent year due to surge in stock market participation, with 3.6 times jump in the last five years. It took 14 years from the NSE's commencement of operations in 1994 to reach 1 crore investors.

The pace then quickened, with the next 1 crore registrations taking about seven years, followed by another 3.5 years for the next crore and the subsequent milestone of adding the fourth crore took just over a year.

"The rate of growth has since quickened significantly, with each additional 1 crore investors being added in roughly 6-7 months, while the last 1 crore investors were added in just over five months, reflecting a shift in investor enthusiasm and participation in the stock market through direct means," the NSE noted.

The exchange said that in the last five months, daily new unique investor registrations have consistently ranged between 47,000 and 73,000. This growth has been driven by many factors, including the strong market performance, heightened investor awareness, financial inclusion efforts and rapid advancement of digitisation.

In 2024, the Nifty 50 index delivered a return of 8.8 per cent, while the Nifty 500 index saw an impressive 15.2 per cent gain. Indian markets have had positive returns for the past nine consecutive years. Over the five-year period ending December 2024, the Nifty 50 and Nifty 500 have

generated annualised returns of 14.2 per cent and 17.8 per cent. respectively, further boosting investor confidence.

Market capitalisation of NSE-listed companies has increased nearly 6 times from Rs 73.5 lakh crore as of May 1, 2014, to Rs. 425 lakh crore as of now.
