RISKS TO INVESTORS:

For details, refer to “Risk Factors” on page 34 of the RHP.

1. Risk related to transfer of shares during the preceding one year - Some of our Investors have transferred 266,644 Equity Shares to Rajesh Kumar Naidu Yabaji, one of our Promoters in the month of October 2024 as a gift for ₹ 1 per Equity Share. These transfers did not involve any quid pro quo arrangements and were not contingent on the Company achieving certain business / financial milestone or listing of Equity Shares on the Stock Exchanges. There was no agreement subsisting prior to the DRHP to effect these transfers and accordingly were not disclosed in the DRHP. The said transfers will result in a gain of ₹72.74 million at the upper end of the price band to Rajesh Kumar Naidu Yabaji.
2. Risk related to Gross Transaction Value - GTV payments is defined as the rupee value of total transactions made in our payments business. A transaction comprises all successful swipes by our customers in our tolling business (FASTags) in partnership with FASTag Partner Banks and all recharges by our customers in the fueling business. Our customers recharge for tolling and fueling through our BlackBuck App into the payment instrument of the FASTag and fuel partners. Significant portion of this amount is deposited into our account and onward remitted to our partners' account. GTV payments do not represent the revenue of our Company. Our commission income in any period/year is only an agreed percentage of the total GTV payments in that period/year. Our methodology of disclosing the GTV may not be comparable to the methodology used by other platform companies. For further details on our commission income, see "*Management's Discussion and Analysis of Financial Condition and Results of Operations – Results of Operations*" on page 354 of the RHP.

Further, while our Company will receive proceeds from the Fresh Issue, it will not receive any proceeds from the Offer for Sale. The Selling Shareholders will be entitled to the net proceeds from the Offer for Sale, which comprises proceeds from the Offer for Sale net of Offer Expenses shared by the Selling Shareholders, and we will not receive any proceeds from the Offer for Sale.
8. **Risk related to Revenue Concentration** - Our primary sources of revenue are generated through

our payments (tolling and fueling), telematics, loads marketplace and vehicle financing offerings which include: (a) commission margins from FASTag Bank Partners on the toll transaction flowthrough; (b) commission margin from OMCs in fueling transaction flowthrough; (c) subscription fees charged to truck operators; (d) subscription fees charged to shippers; and (e) interest income, loan service fees and other fees charged to borrowers in the process of loan disbursal and collections. We derive a significant portion of our revenues from our commission income and subscription fees. Set out below is a breakdown of our revenue from continuing operations for the period/years indicated:

* Others includes interest income from loans given, and revenues from other ancillary activities, which do not fall under any of the previous categories of revenue

9. BFPL received its non-deposit-taking NBFC license on August 1, 2023 and commenced lending operations in October 2023. Blackbuck Finserve Private Limited does not have an established operating history as the NBFC by which its past performance may be assessed. Notes:

- (3) *Third party agents and channel partners include independent contractors that work on a principle-to-principle commission basis to distribute products or services of the Company*

11. **Risk related to increase in Operating Expenses** - Our sales and marketing initiatives are critical to our business operations and growth. Our sales and marketing initiatives include digital marketing campaign, development and distribution of marketing collaterals such as marketing videos, presence of our on-ground sales and marketing workforce across geographies in key transport hubs and toll plazas, on-boarding of channel partners for developing reach and presence of our product and service offerings across geographies, and tele-based inbound and outbound communication.

12. Risk related to change in pricing model - We generate a significant portion of our revenue through subscription plans for our vehicle tracking solutions, fuel sensors and FASTag Gold (a subscription service which provides value added services to subscribers such as guaranteed double deduction refund, priority customer support and protection from getting blacklisted at the toll plaza through auto-recharge and free tag replacement). Set out below are details of our subscription fees for the periods/years indicated:

Changes in our subscription or pricing models could adversely affect our business, results of operations and financial condition. Further, loss of customers including due to customers switching over to our competitors could reduce our subscription fees which may negatively impact our business, revenue from operations and financial condition.
