RISK TO INVESTORS

(For details refer to section titled “Risk Factors” on page 34 of the RHP.)

1. **Dependency on HMC:** We depend on HMC, our Promoter, for our operations, including for parts and materials (such as engines and transmission assembly) and research and development. We have entered into and may continue to enter into related party transactions with HMC and companies within the Hyundai Motor Group that may involve conflicts of interest, which could adversely impact our business. Any adverse change in our relationship with HMC and the companies in the Hyundai Motor Group could have an adverse impact on our business, reputation, financial condition, and results of operations.

2. **Risk regarding conflict of interest:** Two of our Group Companies, Kia Corporation and Kia India Private Limited, are in a similar line of business as us which may involve conflict of interests, which could adversely impact our business. Further, our Promoter, Hyundai Motor Company (“HMC”), including certain companies in the Hyundai Motor Group, are engaged in businesses which may be similar to ours. While exercising their rights as our shareholder, HMC may consider the interest of all their subsidiaries and affiliates, which may not align with our interests.

3. **Dependency on Mobis India Limited (“Mobis”):** We depend primarily on our Group Company, (being a subsidiary of Hyundai Mobis Co., Ltd. which is specialised in after-sale parts business for HMC Group Companies), to supply spare parts for after sale services to us and our dealers. Further, we also depend on Mobis to supply modular parts to us that we use in the manufacturing process of passenger vehicles and parts and constituted 17.91% of our total parts and materials supplied in the three months ended June 30, 2024. Any failure by Mobis to supply these parts could adversely impact our business. Further, Mobis may engage in transactions with us and other HMC Group Companies that may give rise to conflict situations.

4. **Royalty Agreement with HMC:** We have entered into the Royalty Agreement with HMC pursuant to which we are required to pay an amount to HMC equal to 3.5% of our sales revenue (which is to be determined as set forth the Royalty Agreement), arising from the sale of passenger vehicles or parts. Termination of the Royalty Agreement could adversely impact our business and results of operations. The following table provides the royalty expenses paid to HMC, pursuant to the Royalty Agreement and erstwhile royalty arrangements, for the periods indicated:

	Three months ended June 30,		Fiscal		
	2024	2023	2024	2023	2022
Royalty expense (₹ millions)	4,769.70	3,802.71	15,584.42	14,386.98	11,008.13
Royalty expense as a percentage of revenue from operations (%)	2.75	2.29	2.23	2.39	2.32

Any increase in the royalty fee payable by our Company to HMC under the Royalty Agreement, including up to and exceeding the limits of 5% of the annual consolidated turnover of our Company as prescribed under the SEBI Listing Regulations, could adversely impact our profitability metrics, including our earnings per share.

5. **Special Dividend to HMC:** Our ability to utilise our internal accruals and cash and bank balances to invest in the business has been reduced and have been adversely impacted on account of the special dividend aggregating to ₹ 107,824.20 million paid to HMC, our Promoter, in March 2024. As a result, we may need to borrow and incur borrowing costs which could impact our profitability, key financial ratios and results of operations.

6. **Risk regarding parts and materials consumed:** We source parts such as trims, engines and transmissions, and materials such as steel for our manufacturing operations from a combination of domestic and foreign suppliers of the total purchase of parts and materials in Fiscal 2024, we sourced 78.04% from India and 21.96% from outside India.

7. **Dependency on Suppliers:** We depend on a limited number of suppliers for the procurement of parts and materials required for our manufacturing operations. The table below highlights the percentage of supplies sourced from our top-five suppliers, top-10 suppliers, related parties and suppliers in India and Korea for the periods indicated:

% of parts and materials sourced from other than India and South Korea	4.83%	4.47%	5.36%	3.08%	3.49%

(1) Three of our top-five suppliers during the three months ended June 30, 2024 and 2023 and Fiscals 2024 and 2023 and two of our top-five suppliers during Fiscal 2022 are from related parties.

8. **Dependency on sale of non-EV passenger vehicles:** A significant portion of our sales volumes are derived from the sale of non-EV passenger vehicles, and there is no assurance that we will be able to adopt our EV strategy successfully and cost-efficiently or at all. The following table provides a breakdown of our sales volumes by powertrain for the periods indicated:

Particulars	Three months ended June 30,				Fiscal					
	2024		2023		2024		2023		2022

EV	117	0.08%	608	0.41%	2,120	0.34%	975	0.17%	131	0.03%

9. **Risk regarding evolving customer demands:** Our success depends on our and HMC’s ability to identify market trends, including technological trends, and meet evolving customer demands, while maintaining or improving our profitability. If we are unable to do so, our sales volumes, business and results of operations would be adversely affected.

10. **Dependency on HMC for Exports:** Our global operations involve challenges and risks that could increase our costs, adversely affect our results of operations and require increased time and attention from our management. Further, we primarily depend on HMC for our exports business and revenue generated from our exports sales constitutes 22.34% and 23.70% of our revenue from operations in Fiscal 2024 and in the three months ended June 30, 2024, and also need their prior permission for exports, including regarding the model and jurisdiction of our exports. Any failure or delay by HMC or us in accessing the export markets could have a material adverse effect on our results of operations and prospects.

11. **Risk regarding manufacturing capacity:** We currently manufacture our passenger vehicles and parts only at the Chennai Manufacturing Plants. Our manufacturing plants currently operate at high capacity utilisation levels. For Fiscal 2024 our capacity utilisation was 97.10% and we may not be able to meet additional demand for our products until we are able to increase our capacity by operationalising Talegaon manufacturing plant which is expected to commence commercial operations partly in the second half of Fiscal 2026. Further, if we underestimate or

...continued from previous page.

overestimate the demand for our products, the capacity utilisation of our manufacturing plants may be under-utilised or over-utilised, respectively, which could adversely affect our manufacturing schedules and related costs.

	Three months ended June 30,		Fiscal
