- Risk related to dependency on Material Subsidiary:** A significant part of our operations are conducted through our Material Subsidiary, Innomech Aerospace Toolings Private Limited (“Innomech”), and we are dependent on the operating income and cash flows generated by Innomech. Any loss or reduction in the business attributable to our subsidiary, or a change in our shareholding in Innomech, could have a material adverse effect on our business, prospects, results of operations, cash flows and financial condition on a consolidated basis.

Set out below are the details of our revenue from operations which is attributable to Innomech for the period indicated:

Negative cash flows may adversely affect our financial condition, results of operations and prospects.

The following table sets forth certain information relating to our cash flows as per the Restated Consolidated Financial Information for the period indicated:

Particulars	Six months ended September 30, 2024 (₹ million)	Fiscal		
		2024	2023	2022
Net cash generated from operating activities	500.26	236.33	13.54	15.28

Cash and cash equivalents at the end of the year	75.48	71.78	18.75	34.49
- Majority of net proceeds will be utilized for investment in Material Subsidiary:** Majority of the Net Proceeds i.e. 67.60% of our Net Proceeds, will be utilised for the Material Subsidiary by funding its capital expenditure, working capital requirements and repayment of its outstanding debt. Any deviation or failure in achieving these objectives may adversely impact the anticipated returns from the issue proceeds which could directly affect the consolidated financial performance of our Company.

Risk related to working capital cycle: Our business works on a longer gestation period wherein, there is considerable time gap of 7 to 28 weeks between the receipt of order and the payment, thereby, affecting our working capital requirements.

Risk related to future growth :While we have achieved substantial revenue growth and expanded manufacturing capacity in recent years, it's important to note that our historical growth rate is partially attributed to a relatively small revenue base. We experienced substantial increase in our revenue from operations i.e. 121.71% in Fiscal 2024 as compared to Fiscal 2023 and such growth may not be replicated in future or be indicative of our Company's future financial performance. There is no assurance that we can sustain this high growth rate in the future. Market conditions, competitive pressures, and economic factors could impact our ability to achieve similar growth levels going forward.

No long-term raw material supply agreements: Our business and profitability is substantially dependent on the availability and cost of our raw materials, and any disruption to the timely and adequate supply of raw materials, or volatility in the prices of raw materials may adversely impact our business, results of operations and financial condition. We depend on these third-party suppliers of raw materials and do not have firm commitments for supply or exclusive arrangements with any of our suppliers and are required to pay advances from time to time. The absence of long-term contracts or exclusive arrangements and non-recovery of advances, exposes us to potential supply chain disruptions which could significantly impact our production capacity, leading to delays in order fulfilment and potential loss of revenue.

Risk related to proposed expansion in Material Subsidiary: Our proposed expansion plans relating to the manufacturing facilities in our Material Subsidiary facility, proposed investment in new facility by our Company in Bengaluru, Karnataka and are subject to the risk of unanticipated delays in implementation and cost overruns.

Lengthy customer-onboarding cycle : Our process of onboarding a customer can take up to three years, which may cause delays in revenue generation and dependency on trust-building for scaling operations and adversely harm our financial condition and future results of operations.

Acquisition of equity by one of the Promoter in last one year: Our Promoter, Anil Kumar P had acquired Equity Shares in the Company on March 29, 2024, which may influence investor perception.

No long-term agreements with customers: We generally do business with our
- customers on a purchase order basis and our customers do not make long-term commitments/ agreements with us and may cancel or change the purchase order as per their production requirements. Such cancellations or changes may adversely affect our financial condition, cash flows and results of operations.
