G. Description on the historic use of the KPIs by our Company to analyze, track or monitor the operational and/or financial performance of our Company

In evaluating our business, we consider and use certain KPIs, as presented above, as a supplemental measure to review and assess our financial and operating performance. The presentation of these KPIs are not intended to be considered in isolation or as a substitute for the Restated Consolidated Financial Information. We use these KPIs to evaluate our financial and operating performance. Some of these KPIs are not defined under Ind AS and are not presented in accordance with Ind AS. These KPIs have limitations as analytical tools. Further, these KPIs may differ from the similar information used by other companies and hence their comparability may be limited. Therefore, these metrics should not be considered in isolation or construed as an alternative to Ind AS measures of performance or as an indicator of our operating performance, liquidity, profitability or results of operation. Although these KPIs are not a measure of performance calculated in accordance with applicable accounting standards, our Company's management believes that it provides an additional tool for investors to use in evaluating our ongoing operating results and trends and in comparing our financial results with other companies in our industry because it provides consistency and comparability with past financial performance, when taken collectively with financial measures prepared in accordance with Ind AS.

Investors are encouraged to review the Ind AS financial measures and to not rely on any single financial or operational metric to evaluate our business. See "Risk Factors – Certain Non-GAAP financial measures and other statistical information relating to our operations and financial performance have been included in the Red Herring

Prospectus. These Non-GAAP financial measures are not measures of operating performance or liquidity defined by Ind AS and may not be comparable with those presented by other companies" on page 52 of the RHP.

Total number of active clients

We believe that tracking our active clients (clients from whom we have earned \$0.25 million or more in revenues for the last twelve months preceding the relevant date) helps us assess the number of existing clients and those added during the year, and evaluate our ability to retain and add clients.

Revenue from operations

We believe that tracking our revenue from operations enables us to track our (i) Revenue from Enterprise Commercial Solutions; (ii) Revenue from Omnichannel Activation solutions; (iii) Revenue from Enterprise Medical Solutions; and (iv) Revenue from others. For further details see "Management's Discussion and Analysis of Financial Condition and Results of Operations – Key Components of our Statement of Profit and Loss" on page 316 of the RHP. This in turn helps us assess the overall financial performance of our Company and size of our business.

YoY revenue growth from operations

We believe that tracking YoY revenue growth from operations helps analyse the relative business and financial performance of our Company and assists in understanding the market opportunities and our ability to focus, scale and deliver. We track this matrix annually and have provided for the above reported period.

EBITDA

We believe that tracking EBITDA helps us identify underlying trends in our business and facilitates evaluation of year-on-year operating performance of our operations. For further details see "Other Financial Information-Reconciliation of Non-GAAP Measures" on page 296 of the RHP.

Adjusted EBITDA

We believe that tracking our Adjusted EBITDA helps us identify underlying trends in our business and facilitates evaluation of year-on-year operating performance by adjusting EBITDA for exceptional items and Share of (loss)/profit in an associate. We also believe that Adjusted EBITDA provides useful information about our operating results, enhances the overall understanding of our past performance and future prospects, with respect to key metrics we use for financial and operational decision-making. For further details see "Other Financial Information-Reconciliation of Non-GAAP Measures" on page 296 of the RHP.

Adjusted EBITDA Margin

We believe that tracking our Adjusted EBITDA Margin helps us evaluate our Company's operational and financial performance.

Restated profit from continuing operations after tax

We believe that tracking our profit/loss from continuing operations after tax for the period/year enables us to monitor the overall results of operations and financial performance of our Company.

Profit margin

We believe that tracking our Profit margin helps us evaluate our Company's operational and financial performance.

For further information on our key performance indicators, see "Our Business – Key Performance Indicators" and "Management's Discussion and Analysis of Financial Condition and Results of Operations – Key Performance Indicators" on pages 144 and 301 of the RHP.
