RISKS TO INVESTORS:

- Location Risk:** All our four (4) showrooms are in one geography namely Jaipur, Rajasthan. Any adverse development affecting such a region may have an adverse effect on our business, prospects, financial condition, and results of operations. For the period ended on June 30, 2023, and in the Fiscal year ending on March 31, 2023, March 31, 2022, and March 31, 2021, 95.58%, 98.22%, 95.98% and 97.68% of our operating revenue, respectively, is generated from Jaipur, Rajasthan.
- Property Risk:** All our four (4) showrooms, including our registered office and one of our manufacturing facilities are on lease premises, owned by our promoters and promoter group companies and one of which is located in residential area. If we fail to renew these leases or if we are unable to manage our lease rental costs and any objection by competent authority/resident for carrying commercial activity on residential area, our results of operations would be materially and adversely affected.
- Litigation Risk:** Our Promoters, Mr. Sanjay Chhabra and Mr. Sandeep Chhabra, in past, were involved in proceedings initiated by investigation agency in relation to betting in the cricket matches of Indian Premier League. Though they have been duly discharged, any re-opening of matter could have an adverse impact on our business and reputation.
- Business Risk:** We are heavily dependent on third parties for supplying our products. We procure 99.84%, 95.50%, 96.98% and 96.52% of goods sold for the period ended on June 30, 2023, and for the fiscal year ended on March 31, 2023, 2022 and 2021 from third party suppliers and our network of job workers. We may be unable to maintain or establish formal arrangements with such third parties, and any disruptions at such third-party production or manufacturing facilities and their supply chains arrangements, or failure of such third parties to adhere to the relevant quality standards may have a negative effect on our reputation, business and financial condition.
- Working capital risk:** We have significant working capital requirements which are funded 53.15%, 53.80%, 55.87%, and 57.39% through borrowings for the period June 30, 2023, and for the fiscal years 2023, 2022 and 2021. If we are unable to secure adequate borrowings on commercially reasonable terms it could have a material adverse effect on our business, financial condition and results of operations.
- Inventory Cost Risk:** High inventory costs may adversely impact our business and financial conditions of Our Company. Due to the nature of our business, we always keep a significant amount of inventory of our items in our showrooms. For the quarter that concluded on June 30, 2023, our company held inventory worth Rs. 33,070.53 Lakhs. Inventory stocking is 95.19%, 92.57%, and 87.08% of our total assets in the fiscal years ended on March 31, 2023, 2022, and 2021, respectively.
- Seasonal Sales Risk:** Our income and sales are subject to seasonal fluctuations and lower income in a peak season may have a

Continued on next page...

...continued from previous page

disproportionate effect on our results of operations. Our sales have historically exhibited certain seasonal fluctuations, reflecting higher sales volumes and profit margins during festival periods and wedding season.

- Utilization of IPO proceeds risk:** We have availed unsecured loans from our promoters and members of promoter group carrying 11.60% Average Rate of Interest and secured loans from scheduled commercial banks and FIs carrying 8.58% Average Rate of Interest. We are making prepayment of borrowings other than auto loans from scheduled commercial banks from the proceeds of IPO carrying lesser Rate of Interest over borrowings availed from promoter and promoter group.

Market Capitalisation to Total Income	1.40	1.48

- Competition Risk:** We face competition in the markets in which we operate and may not be able to effectively compete in the future. Our competitors have achieved significant recognition for their brand names or have considerable financial, distribution, marketing, bargaining power with suppliers and other resources. Industry consolidation, either by virtue of mergers and acquisitions or by a shift in market power among competitors, may accentuate these trends. In addition, some of our competitors in smaller local markets have the advantage of having reputations and established trust with customers in their local markets, which could be difficult for us to challenge or replicate in a sustained manner in the future.
- Regulatory Risk:** We are required to obtain, renew or maintain certain statutory and regulatory permits and approvals required to operate our business. Non-compliance with existing or changes to environmental, health and safety, labour laws and other applicable regulations by us may adversely affect our business, financial condition, results of operations and cash flows.
