Our business and results of operations depend on our ability to raise both, debt and equity from various external sources on suitable terms and in a timely manner, along with the costs associated therewith and any disruption in our sources of financing could have an adverse effect on our business, results of operations and financial condition.
- As of September 30, 2023 and September 30, 2022, and March 31, 2023, March 31, 2022 and March 31, 2021, our stage 3 assets (gross) representing the gross carrying amount pertaining to loans which are non-performing assets aggregated to ₹439.27 million and ₹880.96 million, and ₹418.96 million, ₹570.39 million and ₹391.67 million, respectively, constituting 1.00% and 2.79%, and 1.13%, 2.12% and 1.92% of the gross carrying amount as of the last day of the relevant period, respectively. The credit quality of our loan book may deteriorate, and if we are unable to implement effective monitoring and collection methods, our results of operation may be adversely affected.
- We focus on first-time home loan takers in Tier II and Tier III cities in India, and serve low and middle income self-employed customers who are often considered high risk due to their increased exposure to fluctuations in cash flows on account of adverse economic conditions. The risk of non-payment or default by our customers may adversely affect our business, results of operations and financial condition. The table below sets forth the break-up of our AUM from our customers based on their employment status.

- We may not be able to sustain growth in the future as our business is subject to factors such as competition and customer requirements. Our lack of success in our growth strategy or the sub-optimal performance of our new branches could adversely affect our business, results of operations, financial condition and cash flows.
- Our business is affected by volatility in interest rates for both our lending and treasury operations, which could cause our net interest income to vary and consequently affect our profitability. As of September 30, 2023, March 31, 2023, March 31, 2022 and March 31, 2021, our floating interest-bearing liabilities aggregated to ₹24,726.38 million, ₹23,631.40 million, ₹17,489.35 million and ₹11,848.31 million, respectively.

- The states of Rajasthan, Maharashtra and Madhya Pradesh contributed to 62.7% and 63.4% of our assets under management for the six months ended September 30, 2023 and the Financial Year 2023, respectively. Any adverse developments in these states could have an adverse effect on our business, results of operations and financial condition.

Financing Risk

- Our inability to comply with the covenants under our debt financing arrangements could adversely affect our business, results of operations and financial condition. This could lead to relevant lenders declaring us to be in default under the terms of our agreements or accelerating the maturity of our obligations.

Regulatory Risks

- We are subject to periodic inspections by the NHB and the RBI and non-compliance with observations made during any such inspections could result in penalties and fines, and could adversely affect our reputation, business, financial condition, results of operations and cash flows.
