- <u>Dependence on Carraro Group:</u> We depend partially on other entities in the Carraro Group for our operations, such as the license of the Carraro brand, customer sourcing, procurement, R&D and general support of our operations. The Carraro Group was our largest customer in the six months ended September 30, 2024 and 2023 and Fiscals 2024, 2023 and 2022. For the six months ended September 30, 2024 and Fiscal 2024, we derived 33.27% and 33.91% of our total revenue from the Carraro Group and have purchased 3.81% and 4.91% of our raw materials from the Carraro Group, respectively. Any disruption in this relationship could have a material adverse impact on our operations.
- Related party transactions with Carraro Group: We have entered into and may continue to enter into related party transactions with the Carraro Group, Directors and Key Managerial Personnel. We incurred 33.89% and 34.67% of our total income and 6.70% and 8.63% of our total expenses in transactions with related parties in the six months ended September 30, 2024 and Fiscal 2024, respectively. Such transactions may require significant capital outlay and there can be no assurance that we will be able to make a return on these transactions or
- <u>Industry Risk</u> We are dependent on the performance of the tractor and construction vehicle markets, as our agricultural tractors sector and construction vehicles sector constituted 45.05% and 41.29% of our revenue from product sector only for Fiscal 2024, 49.37% and 38.43% of our revenue for Fiscal 2023 and 50.59% and 36.12% of our revenue for Fiscal 2022,

- respectively. Any adverse changes in the conditions affecting the tractor or construction vehicles markets can adversely impact our business, financial condition, results of operations, cash flows and prospects.
- Financial Performance Risk Our EBITDA margins and PAT margins were lower than the EBITDA margins and PAT margins of our industry peers in the six months ended September 30, 2024 and September 30, 2023 and Fiscals 2024, 2023 and 2022, as disclosed in this Red Herring Prospectus, and we cannot assure you that we will be able to continue to improve our EBITDA margins and PAT margins in comparison to our competitors or at all.
- Seasonality Risk: The sales of our agricultural tractor products are influenced by the cyclicality and seasonality of demand in the countries in which we operate. According to the Markets and Markets Report, in the Indian agricultural market, tractor demand typically peaks between June and November, which is driven by the arrival of the monsoon, the Kharif crop season, preparations for the upcoming rabi planting season, increased harvesting activities, and improved rural cash flow during this period. The demand for our exported products also depends on the cyclicality and seasonality of agricultural tractors in each country.
- Manufacturing Risk: We currently manufacture our axles, transmissions and gears at our manufacturing plants in Pune, India. Any disruptions or stoppages at our manufacturing plants could adversely impact our operations, financial condition and results of operations.
- Revenue Concentration: We rely on our extensive global customer base of original equipment manufacturers ("OEM") to whom we sell our products in India and across the world. The following table sets forth the geographical breakdown of our revenue (including revenue from ultimate customers which we sourced through Carraro Drive Tech Italia S.p.A.) for the six months ended September 30, 2024 and 2023 and the past three Fiscals:
