

# Andaman to see key military infra facelift

Longer runways, road expansion, jetty in the works

AMRITA NAYAK DUTTA & MAHENDER SINGH MANRAL  
New Delhi, April 9

WITH REVAMPED AIRFIELDS and jetties to additional logistics and storage facilities, habitat for troops to a robust surveillance infrastructure, the strategic Andaman and Nicobar Islands are in the middle of a major military infrastructure upgrade, senior officials familiar with the developments have told *The Indian Express*.

The enhanced infrastructure is aimed to facilitate deployment of additional military forces, facilities for larger and more warships, aircraft, missile batteries and troops.

The ongoing large-scale construction activities come amid growing Chinese attempts to expand its influence in the region, which includes construction of a military facility at Myanmar's Coco Islands lying 55 km north of A&N Islands. There are 836 islands in A&N.

Key military infra upgrade in the works for Andaman & Nicobar Islands of which only 38 are inhabited. The Andaman and Nicobar Command (ANC) is the first and only tri-service command in the islands and was established in 2001.

Sources said there are plans to significantly enhance the surveillance infrastructure at one of

the northern islands of A&N, and to construct a permanent habitat for troops there.

The sources said that work on increasing the length of an airstrip at a vital naval air station is being carried out in phases to enable landing of bigger aircraft like P8Is and fighter jets. Its jetty is also being expanded for use by larger ships.

As part of the infrastructure upgrade, a road from the north of the islands to Port Blair in the south is being improved for more traffic. Other major infrastructure upgrades include upgrading an IAF station to hold fighter squadrons, and for longer durations. This includes plans to expand the runway to nearly 3,000 metres and creation of infrastructure for maintenance of assets.

The Centre is also working to construct a container transshipment terminal alongside associated infrastructure to support

traffic and operations.

Last year, Chief of Defence Staff (CDS) General Anil Chauhan inaugurated a modern Hangar and Dispersal system at INS Utkrosh in Port Blair. In February this year, Navy chief Admiral R Hari Kumar inaugurated a Precision Approach Radar (PAR) at INS Utkrosh to enable accurate horizontal and vertical guidance to land an aircraft safely in low visibility conditions as well as the Integrated Underwater Harbour Defence and Surveillance System, the Navy said.

Earlier this month, the Centre is learnt to have asked the National Remote Sensing Centre (NRSC) to increase its manpower to analyse satellite imagery, technical capacity of NRSC analysis and dissemination of analysed data to enhance surveillance of 55 inhabited islands in Andaman and Nicobar Islands and Lakshadweep.

# ED makes fresh arrest in money laundering case against Soren

THE ENFORCEMENT DIRECTORATE has made a fresh arrest in connection with its ongoing alleged land grab

linked money-laundering investigation against former Jharkhand chief minister Hemant Soren, official

sources said. Mohammed Saddam Hussain was lodged in jail as part of a separate money launder-

ing case linked to a similar alleged land scam case of Jharkhand and the central agency took his custody in the

instant case after an application was made to the court, the sources said.

# Exports blow: More sugar likely to flow to ethanol

PRATIK PARIJA  
April 9

THE GOVERNMENT MAY allow sugar mills to use more of the sweetener to make ethanol, in a move likely to reduce the odds of easing export curbs any time soon, according to a person familiar with the matter.

The government is considering a proposal to permit factories to use an additional 800,000 tonne of sugar for biofuel this year, as the crop is likely to be higher than predicted, said the person, who asked not to be identified as the talks are confidential. That would be on top of 1.7 million tonne allocated earlier. A spokesperson representing both the food and commerce

An additional 800,000 tonne of sugar may be used to make biofuel this year, reducing the odds of easing export curbs any time soon

ministries didn't immediately comment.

The second-biggest sugar producer will refrain from releasing any export quota in the near future, said the person, damping industry's hopes of shipping as much as 1 million tonne in the current season ending September. The move is likely to support global sugar prices that have fallen in April.

The Centre extended its export restrictions in October

to protect domestic supplies ahead of elections. The administration of Prime Minister Narendra Modi, who is seeking a third five-year term in polls starting this month, has taken several steps to contain high food prices. It curbed shipments of wheat and rice, sold grains from state reserves in the open market and cracked down on hoarding.

The move would help sugar mills and ethanol distillers that have invested as much as ₹15,000 crore in three years to increase cane-based ethanol capacity. It will also help the factories make timely payments to farmers. The country has a goal to blend 15% of ethanol in gasoline in 2023-24.

# Flagging hydropower raises coal use

INDIA IS RAMPING up coal use after recording a sharp decline in hydropower output, as the country braces for rising power demand and potential blackouts during the hot season ahead of the polls this month.

Coal's share in power out-

put rose to 77% in the first week of April, about two percentage points higher than a year earlier, according to data from the Grid Controller of India, making up for shortfalls in hydropower output.

Inadequate rainfall last year continues to weigh on

hydroelectricity production, with March output falling 11% from last year. The government is now counting on normal monsoons for hydropower to bounce back, according to a power ministry statement last week.
