China credit shrinks for first time, loan growth disappoints

BLOOMBERG  
May 12

CHINA'S CREDIT IN April shrank for the first time as government bond sales slowed, while loan expansion was worse than expected in a sign of weak demand.

Aggregate financing, a broad measure of credit, decreased by almost 200 billion yuan (\$27.7 billion) in April from the previous month, according to Bloomberg calculations of data released by the People's Bank of China on Saturday. That's the first time the measure has declined since comparable data began in 2017, reflecting a contraction in financing activity.

Looking back further, using a smaller data set that excludes things like government funding, it was the first decrease since October 2005, according to Bloomberg Economics.

A breakdown of the data shows that more government bonds were repaid than sold in the month, contributing to the decline. Financing from shadow banking—which refers to activities outside the formal banking system—also recorded a drop, weighing on overall credit.

Financial institutions offered 731 billion yuan of new loans in April, lower than a projected 916 billion yuan. The year-on-year growth rate of out-

standing loans edged down to 9.1% from 9.2% in March.

"The volatility in this month's data is tolerable because the government will issue ultra-long government bonds soon, so credit expansion in May and June may make up for it," said Bruce Pang, chief economist for Greater China at Jones Lang LaSalle.

The government has sold bonds at a slower-than-expected pace so far this year, helping fuel a rally in sovereign bonds as demand outpaced supply. China's top leaders at a Politburo meeting last month called for faster issuance of special sovereign and local government special bonds—a major source

of funding for infrastructure projects. Beijing plans to issue 1 trillion yuan worth of special sovereign bonds this year.

Pang said the drop in shadow financing shows authorities' focus on preventing risks, as the PBOC has stressed in recent months its intention to avoid money idling in the financial system.

April is typically a slow month of borrowing activity, as banks are not in a rush to meet their quarterly lending targets. The PBOC has also refrained from easing monetary policy in recent weeks, to avoid putting more depreciation pressure on the yuan and adding fuel to a government bond rally that's

raised concerns.

The PBOC has emphasized that markets shouldn't look at the absolute growth rate of credit over the past few months, citing reasons including improving structure of credit that allows emerging industries to get more financial support. In a report published Friday, the central bank said that slower credit expansion is still sufficient to support the economy.

In a sign of sluggish business activity, the money supply measure M1—which includes cash in circulation and some corporate demand deposits—fell 1.4% in April from a year earlier, the first time it has dropped in more than two years.

Israel sends tanks in north Gaza, 19 killed

NIDAL AL-MUGHRABI  
CAIRO, MAY 12

ISRAEL SENT TANKS into eastern Jabalia in the northern Gaza Strip early on Sunday, after a night of heavy aerial and ground bombardments, killing 19 people and wounding dozens of others, health officials said.

The death toll in Israel's military operation in Gaza has now passed at least 35,000 Palestinians, according to Gaza's health ministry. The bombardment has laid waste to the coastal enclave and caused a deep humanitarian crisis.

The war was triggered by a Hamas-led attack on southern Israel on October 7 in which some 1,200 people were killed and more than 250 people taken hostage, according to Israeli tallies.

Israel says 620 soldiers have been killed in the fighting.

Jabalia is the biggest of Gaza's eight historic refugee camps and is home to more than 100,000 people, most of whom were descendants of Palestinians who were driven from towns and villages in what is now Israel during the 1948 Arab-Israeli war that led to the creation of the state of Israel.

Late on Saturday, the Israeli

Displaced Palestinians flee Rafah, after Israeli forces launched a ground and air operation in the eastern part of the southern Gaza city amid the ongoing conflict between Israel and Hamas in Rafah, on Sunday.

military said forces operating in Jabalia are preventing Hamas, which controls Gaza, from re-establishing its military capabilities there.

"We identified in the past weeks attempts by Hamas to rehabilitate its military capabilities in Jabalia. We are operating there to eliminate those attempts," said Rear Admiral Daniel Hagari, Israel's military spokesperson, during a briefing to reporters.

Hagari also said that Israeli forces operating in Gaza City's Zeitoun district killed about 30 Palestinian militants.

The army sent tank tanks back into Al-Zeitoun, an eastern suburb of Gaza City, as well as Al-Sabra, where residents also reported heavy bombardments that destroyed several houses, including high-rise residential buildings.

The army had claimed to have gained control of most of these areas months ago.

The Israeli Defence Forces said air sirens had sounded in the southern Kerem Shalom area and it had successfully intercepted two rockets launched from the vicinity of Rafah.

At least 4,000 flee as Russia launches fresh attacks in Kharkiv

THOUSANDS MORE CIVILIANS have fled Russia's renewed ground offensive in Ukraine's northeast that has targeted towns and villages with a barrage of artillery and mortar fire, officials said on Sunday.

The intense battles have forced at least one Ukrainian unit to withdraw in the Kharkiv region, capitulating more land to Russian forces across less defended settlements in the so-called contested "gray zone" along the Russian border.

By Sunday afternoon, the town of Vovchansk, with a pre-war population of 17,000, emerged as a focal point in the battle. Volodymyr Tymoshko, the head of the Kharkiv regional police, said Russian forces were in the outskirts of the town and approaching from three directions.

A Russian tank was spotted along a major road leading to the town, Tymoshko said, illustrating Moscow's confidence to deploy heavy weaponry.

Analysts say the Russian push is designed to exploit ammunition shortages before promised Western supplies can reach the front line.
