Unless stated otherwise or unless the context requires otherwise, the financial data as at and for the year ended March 31, 2024, March 31, 2023 and March 31, 2022 used in Shelf Prospectus and Tranche I Prospectus is derived from the Audited Financial Statements and for the six months period ended September 30, 2024 is derived from our Unaudited Interim Condensed Financial Statements. Accordingly, the degree to which the Audited Financial Statements and Unaudited Interim Condensed Financial Statements in Shelf Prospectus will provide meaningful information is entirely dependent on the reader’s level of familiarity with Ind AS. Any reliance by persons not familiar with Indian accounting practices on the financial disclosures presented in Shelf Prospectus and this Tranche I Prospectus should accordingly be limited.

Unless stated otherwise and unless the context requires otherwise, the financial data used in Shelf Prospectus and this Tranche I Prospectus is on a standalone basis.

Unless stated otherwise, macroeconomic and industry data used throughout Shelf Prospectus and this Tranche I Prospectus has been obtained from publications prepared by providers of industry information, government sources and multilateral institutions. Such publications generally state that the information contained therein has been obtained from sources believed to be reliable but that their accuracy and completeness are not guaranteed and their reliability cannot be assured. Although the Issuer believes that industry data used in Shelf Prospectus and this Tranche I Prospectus is reliable, it has not been independently verified. Further, the extent to which the market and industry data presented in Shelf Prospectus and this Tranche I Prospectus is meaningful depends on the readers’ familiarity with and understanding of methodologies used in compiling such data.

Non-GAAP Financial Measures

Certain non-GAAP financial measures and certain other statistical information relating to our operations and financial performance including Net worth, Assets under management, Total borrowings, Financial assets, Non-financial assets excluding property, plant and equipment, Total Borrowings to total assets, Trade payables, total Borrowings to total Equity Ratio, Bad debts to gross loans (together, “**Non-GAAP Measures**”) and other industry metrics have been included in this section and elsewhere in this document. These non-GAAP measures are supplemental measure of our performance and liquidity that is not required by, or presented in accordance with, Ind AS, Indian GAAP, IFRS or US GAAP. We compute and disclose such non-GAAP financial measures and such other statistical information relating to our operations and financial performance as we consider such information to be useful measures of our business and financial performance, and because such measures are frequently used by securities analysts, investors and others to evaluate the operational performance of financial services businesses. Many financial services businesses provide such non-GAAP financial measures and other statistical and operational information when reporting their financial results. Such non-GAAP measures are not measures of operating performance or liquidity defined by generally accepted accounting principles and should not be considered in isolation or construed as an alternative to cash flows, profit/ (loss) for the years/ period or any other measure of financial performance or as an indicator of our operating performance, liquidity, profitability or cash flows generated by operating, investing or financing activities derived in accordance with Ind AS, Indian GAAP, IFRS or US GAAP.

In addition, these non-GAAP measures are not standardised terms, hence a direct comparison of these Non-GAAP Measures between companies may not be possible. Other companies may calculate these Non-GAAP Measures differently from us, limiting its usefulness as a comparative measure. These non-GAAP financial measures and other statistical and other information relating to our operations and financial performance may not be computed on the basis of any standard methodology that is applicable across industry. Therefore, such non-GAAP measures may not be comparable to financial measures and statistical information of similar nomenclature that may be computed and presented by other banks in India or elsewhere.

Currency and Unit of Presentation

In Shelf Prospectus and this Tranche I Prospectus, all references to ‘Rupees’/‘₹’/‘INR’/ ‘Rs.’ are to Indian Rupees, the official currency of the Republic of India. Except where stated otherwise in the Shelf Prospectus and this Tranche I Prospectus, all figures have been expressed in ‘in crores’. References, if any, to ‘million/million/mn.’ refer to one million, which is equivalent to ‘ten lakh’ or ‘ten lacs’, the word ‘lakh/lacs/lac’ means ‘one hundred thousand’ and ‘crore’ means ‘ten million’ and ‘billion/bn./billions’ means ‘one hundred crore’.

Certain figures contained in the Shelf Prospectus and this Tranche I Prospectus, including financial information, have

been subject to rounding adjustments. Unless set out otherwise, all figures in decimals, including percentage figures, have been rounded off to one decimal point. In certain instances, (i) the sum or percentage change of such numbers may not conform exactly to the total figure given; and (ii) the sum of the numbers in a column or row in certain tables may not conform exactly to the total figure given for that column or row. Further, any figures sourced from third party industry sources may be rounded off to other than one decimal point to conform to their respective sources.

Industry and Market Data

Any industry and market data used in the Shelf Prospectus consists of estimates based on data reports compiled by Government bodies, professional organizations and analysts, data from other external sources including “*Industry report on Housing finance*” dated October, 2024 (“**Industry report on Housing finance**”) prepared and issued by CRISIL MI&A, available in the public domain and knowledge of the markets in which we compete. These publications generally state that the information contained therein has been obtained from publicly available documents from various sources believed to be reliable. The data used in these sources may have been reclassified by us for purposes of presentation. Data from these sources may also not be comparable. The extent to which the industry and market data presented in the Shelf Prospectus is meaningful depends on the reader’s familiarity with and understanding of the methodologies used in compiling such data. There are no standard data gathering methodologies in the industry in which we conduct our business and methodologies and assumptions may vary widely among different market and industry sources.

FORWARD LOOKING STATEMENTS

Certain statements contained in the Shelf Prospectus and this Tranche I Prospectus that are not statements of historical fact constitute “forward-looking statements”. Investors can generally identify forward-looking statements by terminology such as “aim”, “anticipate”, “believe”, “continue”, “could”, “estimate”, “expect”, “intend”, “may”, “objective”, “plan”, “potential”, “project”, “pursue”, “shall”, “seek”, “should”, “will”, “would”, or other words or phrases of similar import. Similarly, statements that describe our strategies, objectives, plans or goals are also forward-looking statements. All statements regarding our expected financial conditions, results of operations, business plans and prospects are forward-looking statements. These forward-looking statements include statements as to our business strategy, revenue and profitability, new business and other matters discussed in the Shelf Prospectus and this Tranche I Prospectus that are not historical facts. All forward-looking statements are subject to risks, uncertainties and assumptions about us that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement. Important factors that could cause actual results, including our financial conditions and results of operations to differ from our expectations include, but are not limited to, the following:

- Our customers may default in their repayment obligations and high levels of customer defaults and the resultant non-performing assets could adversely affect our Company’s business, financial condition, cash flows, results of operations and future financial performance.
- We may not be able to recover, on a timely basis or at all, the full value of collateral or amounts which are sufficient to cover the outstanding amounts due under defaulted loans, and that could have an adverse impact on our business, results of operations, financial condition and cash flows.
- Our business requires substantial capital, and any disruption in funding sources would have a material adverse effect on our liquidity, cash flows and financial condition.
- Our Company extends loans against properties to our customers and any default by a client coupled with a downfall in the property value could result in losses to the company.
- Any change in control of our Promoters on our Company may correspondingly adversely affect our goodwill, operations and profitability.
- Any downgrade in our credit ratings may increase interest rates for raising new debt, refinancing our outstanding debt, which would increase our financing costs, and adversely affect our future issuances of debt and our ability to borrow on a competitive basis.
- We are vulnerable to the volatility in interest rates, and we may face interest rate mismatches between our assets and liabilities in the future which may cause liquidity issues.
- We may face asset-liability mismatches, which could affect our liquidity and consequently affect our operations and financial performance adversely.
- Our Company is subject to certain restrictive covenants in our loan documents, which may restrict our operations and ability to grow and may adversely affect our business.
- We need to obtain consent from specific directors for certain reserved matters
- Our Inability to comply with the requirements stipulated by RBI.

For further discussion of factors that could cause our actual results to differ, see “*Risk Factors*” on page 22 of the Shelf Prospectus.

All forward-looking statements are subject to risks, uncertainties and assumptions about our Company that could cause actual results and valuations to differ materially from those contemplated by the relevant statement. Additional factors that could cause actual results, performance or achievements to differ materially include, but are not limited to, those discussed under the sections titled “*Industry Overview*”, “*Our Business*” and “*Legal and Other Information*” on pages 98, 116 and 227, respectively of the Shelf Prospectus. The forward-looking statements contained in the Shelf Prospectus are based on the beliefs of management, as well as the assumptions made by and information currently available to management. Although our Company believes that the expectations reflected in such forward-looking statements are reasonable at this time, it cannot assure investors that such expectations will prove to be correct or will hold good at all times. Given these uncertainties, investors are cautioned not to place undue reliance on such forward-looking statements. If any of these risks and uncertainties materialise, or if any of our Company’s underlying assumptions prove to be incorrect, our Company’s actual results of operations or financial condition could differ materially from that described herein as anticipated, believed, estimated or expected. All subsequent forward-looking statements attributable to our Company are expressly qualified in their entirety by reference to these cautionary statements.

Neither our Company, its Directors, its KMPs and officers, or the Lead Managers, nor any of their respective affiliates or associates have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition. In accordance with SEBI NCS Regulations, our Company and the Lead Managers will ensure that investors in India are informed of material developments until the time of the grant of listing and trading permission by the Stock Exchanges.

By their nature, certain market risk disclosures are only estimate(s) and could be materially different from what actually occurs in the future. As a result, actual future gains or losses could materially differ from those that have been estimated. Neither our Company, nor the Lead Managers or its respective Directors and officers, nor any of its respective affiliates have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition. In accordance with SEBI NCS Regulations, our Company and the Lead Managers will ensure that investors are informed of material developments between the date of filing the Shelf Prospectus and this Tranche I Prospectus with ROC and the date of receipt of listing and trading permission from the Stock Exchanges for the NCDs issued pursuant to this Tranche I Issue.

STATEMENT OF POSSIBLE TAX BENEFITS AVAILABLE TO THE DEBENTURE HOLDER(S) OF IIFL HOME FINANCE LIMITED ('THE COMPANY')

This Annexure is based on the provisions of the Income-tax Act, 1961 ('IT Act') in force as on the current date, after considering the amendments made by the Finance Act, 2024 ('FA, 2024').

This Annexure intends to provide general information on the applicable provisions of the IT Act. However, in view of the nature of the implications, the investors are best advised to consult their respective tax advisors/consultants for appropriate counsel with respect to the specific tax and other implications arising out of their participation in the Portfolio as indicated herein.

Taxability under the IT Act

Section 50AA of the IT Act

The Finance Act, 2023 has inserted section 50AA to the IT Act to provide for a special provision for computation of capital gains in case of Market Linked Debenture (MLD). For the purposes of the said section, MLD have been defined in the Explanation to Section 50AA to mean "*a security by whatever name called, which has an underlying principal component in the form of a debt security and where the returns are linked to the market returns on other underlying securities or indices, and includes any security classified or regulated as a MLD by the Securities and Exchange Board of India.*"

Based on the definition, MLD has the following essential features:

- It is a security in the nature of debt;
- It has an underlying principal component;
- Returns with respect to such security are linked to market returns on other underlying securities or indices;
- And, by way of extension, it is also provided that any security classified or regulated by SEBI as an MLD, shall for the purposes of section 50AA of the IT Act, be deemed to be an MLD

The Non-Convertible Debentures (NCDs) issued/ proposed to be issued by the issuer creates a borrower-lender relationship between the issuer and subscriber and to that extent, such NCDs constitute a security in the nature of debt.

Further, such NCDs, by their very nature, have a principal component (which is the price at which the subscriber subscribes to such NCDs).

However, the returns with respect to such NCDs (excess of redemption value over the principal component) is a fixed return and is not linked to any market return or underlying security or indices.

Given the same, the NCDs issued by the issuer do not satisfy the first limb of the definition of MLD as provided in the explanation to section 50AA of the IT Act and thus, such NCDs should not constitute an MLD for the purposes of section 50AA of the IT Act.

The second limb of the definition of MLD which deems any security classified or regulated by SEBI as an MLD, to be an MLD for the purposes of section 50AA of the IT Act, is an independent limb and need to be construed as such. We have been given to understand that, at present, the NCD issued/ proposed to be issued by the issuer is neither classified nor regulated by the SEBI as an MLD and accordingly, the NCDs issued by the issuer should not constitute an MLD for the purposes of section 50AA of the IT Act. However, the said fact-pattern would have to be re-visited in light of any amendment in the law as may be notified by SEBI in future.

A. Common provisions applicable to both Resident and Non-Resident debenture holders:

1. Determination of head of income for the purpose of assessability:

The returns received by the investors from the Non-Convertible Debentures ('NCD') in the form of 'interest' and gains on transfer of the NCD, may be characterized under the following broad heads of income for the purposes of taxation under the IT Act:

- Profits and gains of business or profession ('PGBP');
- Capital gains ('CG'); and
- Income from other sources ('IFOS').

For determining the appropriate head of income (as mentioned above) *vis-à-vis* the income or loss earned on/from the NCD, it will be pertinent to analyse whether the NCD are held as 'Investments' i.e. capital asset or

as ‘Stock-in-trade’.

If the NCD are held as ‘Stock-in-trade’, interest income as well as gain or loss on its transfer will be assessed to tax under the head PGBP, whereas, if the NCD are held as ‘Investments’, then the interest income will be assessed to tax under the head IFOS and any gain/ loss on its transfer will be assessed to tax under the head CG (explained in ensuing paragraphs), based on facts of each case.

However, as per section 2(14) of the IT Act, ‘capital asset’ includes, *inter alia*, securities held by a Foreign Institutional Investor (‘FII’) [now known as Foreign Portfolio Investor (‘FPI’)] which has invested in such securities in accordance with the regulations made under Securities and Exchange Board of India Act, 1992. Accordingly, such securities, held by an FPI, will be characterised as ‘capital asset’ and classification as ‘Stock-in-trade’ shall not apply.

The investors may obtain specific advice from their tax advisors regarding the above classification and tax treatment.

2. Taxation of Interest and Gain/ loss on transfer of debentures:

- Taxation of Interest

Income by way of interest received on NCD held as ‘Investments’ (i.e. capital asset) will be charged to tax under the head IFOS at the rates applicable to the investor after deduction of expenses, if any, allowable under section 57 of the IT Act. These are essentially expenses (not being in the nature of capital expenditure) laid out or expended wholly and exclusively for the purpose of earning the interest income. In case of NCD held as ‘Stock-in-trade’, interest received thereon will be charged to tax under the head PGBP. Further, any expenditure specifically laid out or expended wholly and exclusively for the purpose of earning such interest income shall be allowed as deduction while computing income under the head PGBP.

The investors may obtain specific advice from their tax advisors regarding the tax treatment of their Interest income.

- Taxation of gain or loss on transfer

(a) Taxable under the head PGBP

As discussed above, depending on the particular facts of each case, the NCD may, in certain cases, be regarded to be in the nature of ‘Stock-in-trade’ and, accordingly, the gains from the transfer of such NCD should be considered to be in the nature of business income and hence chargeable to tax under the head PGBP.

In such a scenario, the gains from the business of investing in the NCD may be chargeable to tax on a ‘net’ basis (i.e. net of allowable deductions for expenses under the head PGBP/allowances under Chapter IV – Part D of the IT Act).

Based on section 145 of the IT Act, the timing of charging any income to tax would depend on the method of accounting followed by the taxpayer consistently (i.e. cash or mercantile).

Investors should obtain specific advice from their tax advisors regarding the manner of computing business income, the deductions available therefrom and the tax to be paid thereon.

(b) Taxable under the head Capital Gains

As discussed above, based on the particular facts of each case, the NCD may, in certain cases, be regarded to be held as ‘Investments’ in which case the gains or loss from the transfer of such NCD should be chargeable to tax under the head CG.

In such a scenario, the gains / loss from the transfer of such NCD may be chargeable to tax on a ‘net’ basis (i.e. net of acquisition cost of NCD, expenditure incurred in relation to transfer of NCD).

Investors should, however, seek specific advice from their tax advisors/ consultants in respect of characterization of capital gains, the manner of computation and the tax to be paid thereon.

3. Period of holding and Capital gain – long term & short term:

As per section 2(29AA) read with section 2(42A) of the IT Act, listed NCD is treated as a long-term capital asset if the same is held for more than 12 months immediately preceding the date of its transfer and consequently,

the gain/ loss on transfer of such NCD should be treated as long term capital gain/ loss.

Accordingly, if listed NCD is held for upto 12 months immediately preceding the date of its transfer, the same should be treated as a short-term capital asset and the gain/ loss on transfer of such NCD should be treated as short-term capital gain/ loss.

Without prejudice to the fact that the NCDs to be issued by the issuer are not MLD (as has been concluded at the outset), where, for whatsoever reasons, the NCDs are treated as MLDs, then in such cases, as per the amendment by the FA, 2023, the capital gains arising on transfer or redemption or maturity of such NCDs shall be deemed to be capital gains arising from transfer of a short-term capital asset. Further, in computing the capital gains, no deduction shall be allowed on account of Securities Transaction Tax (STT) paid, if any.

4. *Computation of capital gains and tax thereon*

Capital gains is computed after reducing from the consideration received for the transfer of the capital asset [full value of consideration (FVC)], the cost of acquisition (CoA) of such asset and the expenses incurred wholly and exclusively in connection with the transfer. The capital gains so computed will be chargeable to tax at the rates as detailed in the ensuing paragraphs.

5. *Set off of capital losses*

As per section 74 of the IT Act, long-term capital loss incurred during a year can be set-off only against long term capital gains arising in that year or in subsequent years and cannot be set-off against short-term capital gains arising in that year or in subsequent years. The long-term capital loss remaining after set-off, if any, can be carried forward for eight years immediately succeeding the year in which the loss was first computed, to be for set-off against subsequent years' long-term capital gains.

On the other hand, short-term capital loss incurred during a year can be set-off against both, short-term and long-term capital gains of the same year or of subsequent years. The short-term capital loss remaining after set-off, if any, can be carried forward for eight years immediately succeeding the year in which the loss was first computed, to be set-off against subsequent years' short-term as well as long-term capital gains.

B. *Tax benefits available to Resident NCD holders:*

- Interest on NCD received by resident NCD holders would form part of their total income and be subject to tax at the applicable rates of tax (Note 1 and 2 below) in accordance with and subject to the provisions of the IT Act.
- Capital gains on transfer of NCD shall be computed by deducting from the FVC, expenditure incurred wholly and exclusively in connection with the transfer and the CoA of the NCD.

As per section 112 of the IT Act, capital gains arising on the transfer of long-term capital assets being listed debentures are subject to tax at the rate of 12.5% (plus applicable surcharge and health & education cess – Note 2 below) on the capital gains calculated without indexing the cost of acquisition (Fourth *proviso* to Section 48 restricts indexation benefit in case of long-term capital asset being a bond or debenture).

In case of an individual or HUF, being a resident, where the total income as reduced by such long-term capital gains is below the maximum amount which is not chargeable to income-tax, then, such long-term capital gains shall be reduced by the amount by which the total income as so reduced falls short of the maximum amount which is not chargeable to income-tax and the tax on the balance of such long-term capital gains shall be computed at the rate mentioned above.

Short-term capital gains on the transfer of listed debentures, where debentures are held for a period of not more than 12 months would be taxed at the applicable rates of tax (as mentioned in Note 1 and 2 below) in accordance with the provisions of the IT Act.

C. *Tax benefits available to Non-Resident debenture holders:*

- A non-resident Indian has an option to be governed by Chapter XII-A of the IT Act, subject to the provisions contained therein which are given in brief as under:

- As per section 115E of the IT Act, interest income from debentures acquired or purchased with or subscribed to in convertible foreign exchange will be taxable at 20% (plus applicable surcharge and cess), whereas long term capital gains on transfer of such debentures will be taxable at 12.5% (plus applicable surcharge and cess – Note 2 below) of such capital gains without indexation of CoA. Short-term capital gains will be taxable at the applicable rates of tax (as mentioned in Note 1 and 2 below) in accordance with and subject to the provisions contained therein.
- Under section 115F of the IT Act, long term capital gains arising to a non-resident Indian from transfer of debentures acquired or purchased with or subscribed to in convertible foreign exchange will be exempt from capital gain tax if the whole of the net consideration is invested within six months after the date of transfer of the debentures in any specified asset or in any saving certificates referred to in section 10(4B) of the IT Act in accordance with and subject to the provisions contained therein.
- Under section 115G of the IT Act, it shall not be necessary for a non-resident Indian to file a return of income under section 139(1) of the IT Act, if his total income consists only of investment income as defined under section 115C and/or long term capital gains earned on transfer of such investment acquired out of convertible foreign exchange, and the tax has been deducted at source from such income under the provisions of Chapter XVII-B of the IT Act in accordance with and subject to the provisions contained therein.
- Under section 115H of the IT Act, where a non-resident Indian becomes a resident in India in any subsequent year, he may furnish to the Assessing Officer a declaration in writing along with return of income under section 139 for the assessment year for which he is assessable as a resident, to the effect that the provisions of Chapter XII-A shall continue to apply to him in relation to the investment income (other than on shares in an Indian Company) derived from any foreign exchange assets in accordance with and subject to the provisions contained therein. On doing so, the provisions of Chapter XII-A of the IT Act shall continue to apply to him in relation to such income for that assessment year and for every subsequent assessment year until the transfer or conversion (otherwise than by transfer) into money of such assets.
- In accordance with and subject to the provisions of section 115-I of the IT Act, a non-resident Indian may opt not to be governed by the provisions of Chapter XII-A of the IT Act. In such a case, long-term capital gains on transfer of listed debentures would be subject to tax at the rate of 12.5% (plus applicable surcharge and cess – Note 2 below) computed without indexation of CoA.
- Interest income and short-term capital gains on the transfer of listed debentures, where debentures are held for a period of not more than 12 months preceding the date of transfer, would be taxed at the applicable rates of tax (as mentioned in Note 1 and 2 below) in accordance with and subject to the provisions of the IT Act.
- Without prejudice to the fact that the NCDs to be issued by the issuer are not MLD (as has been concluded at the outset), where, for whatsoever reasons, the NCDs are treated as MLDs, then in such cases, as per the amendment by the FA, 2023, the capital gains arising on transfer or redemption or maturity of such NCDs shall be deemed to be capital gains arising from transfer of a short-term capital asset. Further, in computing the capital gains, no deduction shall be allowed for Securities Transaction Tax (STT) paid, if any.
- Where debentures are held as stock-in-trade, the income on transfer of debentures would be taxed as business income in accordance with and subject to the provisions of the IT Act.

No proposal for rematerialisation of NCDs would be considered if the aforementioned documents and details are not submitted along with the request for such rematerialisation.

Pursuant to the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, NCDs held in physical form, pursuant to any rematerialisation, as above, cannot be transferred. However, any trading of the NCDs issued pursuant to the Tranche I Issue shall be compulsorily in dematerialized form only.

Register of NCD Holders

No transfer of title of a NCD will be valid unless and until entered on the Register of NCD Holders (for re materialized NCDs) or the register and index of NCD Holders maintained by the Depository prior to the Record Date. In the absence of transfer being registered, interest and/or Redemption Amount, as the case may be, will be paid to the person, whose name appears first in the Register of NCD Holders maintained by the Depositories and/or our Company and/or the Registrar, as the case may be. In such cases, claims, if any, by the purchasers of the NCDs will need to be settled with the seller of the NCDs and not with our Company or the Registrar. The provisions relating to transfer and transmission and other related matters in respect of our Company's shares contained in the Articles of Association of our Company and the Companies Act shall apply, mutatis mutandis (to the extent applicable) to the NCDs as well.

Restriction on transfer of NCDs

There are no restrictions on transfers and transmission of NCDs allotted pursuant to the Tranche I Issue. NCDs held in physical form, pursuant to any re-materialisation, as above, cannot be transferred except by way of transmission or transposition. However, any trading of the NCDs issued pursuant to the Tranche I Issue shall be compulsorily in dematerialized form only.

Where NCDs are held in joint names and one of the joint holders dies, the survivor(s) will be recognized as the NCD Holder(s). It will be sufficient for our Company to delete the name of the deceased NCD Holder after obtaining satisfactory evidence of his death. Provided, a third person may call on our Company to register his name as successor of the deceased NCD Holder after obtaining evidence such as probate of a will for the purpose of proving his title to the debentures. In the event of demise of the sole or first holder of the Debentures, our Company will recognise the executors or administrator of the deceased NCD Holders, or the holder of the succession certificate or other legal representative as having title to the Debentures only if such executor or administrator obtains and produces probate or letter of administration or is the holder of the succession certificate or other legal representation, as the case may be, from an appropriate court in India. The directors of our Company in their absolute discretion may, in any case, dispense with production of probate or letter of administration or succession certificate or other legal representation. In case of death of NCD Holders who are holding NCDs in dematerialised form, third person is not required to approach our Company to register his name as successor of the deceased NCD Holder. The successor of the deceased NCD Holder shall approach the respective Depository Participant for this purpose and submit necessary documents as required by the Depository Participant.

 Refer to annexure for Details of Instruments & Bank Facilities

Detailed Rationale

CRISIL Ratings has removed its long-term rating on the debt instrument and bank facilities of IIFL Home Finance Limited (IIFL Home) from 'Rating Watch with Developing Implications' and has reaffirmed the rating at 'CRISIL AA/CRISIL PPMLD A1' while assigning a 'Stable' outlook. The short-term rating has been reaffirmed at 'CRISIL A1+'.

The rating action follows lifting of the regulatory embargo on the gold loan business of IIFL Finance, disclosed by the company vide the announcement dated September 19, 2024, thereby allowing the group to resume sanctions and disbursements in this segment as in the normal course of business, as well securitization/assignment/sale of loans. The company has demonstrated track record of profitably scaling its gold loan business - which remains one of its core segments. With the regulatory restriction being removed, and the company having taken requisite corrective measures following the action by the Reserve Bank of India (RBI), the group is expected to focus on regaining its market share in the gold loan business which should support restoration of its market position and profitability, which had moderated during the embargo. The time taken to attain its pre-embargo level of growth and profitability, while ensuring full adherence to compliances and regulations, remains monitorable.

The embargo imposed by RBI on March 04, 2024, had ordered IIFL Finance to cease and desist from sanctioning and disbursing gold loans or assigning/securitising/selling any of its gold loans. However, the RBI allowed the company to continue servicing its existing gold loan portfolio, through usual collection and recovery processes. Subsequently, an RBI instituted special audit was conducted wherein all the corrective measures and compliances implemented by IIFL Finance were reviewed. Basis the findings of this inspection, a detailed audit report and a compliance certificate submitted by the audit committee of the company. This was followed by a regulatory inspection which was recently concluded. With all of the above, the embargo was finally lifted on September 19, 2024.

During the restriction period, gold loan portfolio reduced to around Rs 14,727 crore over June 2024 (from Rs 23,354 crore in March 2024) due to the organic run down. Other key businesses of the group viz, home loans, microfinance, loan against property and others, were not directly impacted by this RBI directive. All the corrective measures on operational processes and compliances, highlighted by RBI have been implemented and the company's ability to revive the momentum of growth in the gold loan business, will continue to be monitored.

The ratings continue to be supported by the group's comfortable capitalisation, its established track record of operations in home loans and microfinance segments, and sustained profitability metrics, supported by stable asset quality. These strengths are partly offset by limited diversity in the resource profile, with moderately higher cost of funds vis-a-vis some of the peers.

Consolidated AUM stood at Rs 69,610 crore as on June 30, 2024, with gold loans accounting for 21%. Housing finance and microfinance, which form 40% and 17%, respectively, are carried out via subsidiaries, IIFL Home Finance Ltd (IIFL Home) and IIFL Samasta Finance Ltd (IIFL Samasta). In terms of the earnings profile, the group reported return on assets (RoA) and managed assets (RoMA) of 3.4% and 2.3%, respectively, for fiscal 2024, vis-a-vis 3.3% and 2.3%, respectively, in fiscal 2023 and 2.7% and 2.1% respectively, in fiscal 2022. This was underpinned by controlled credit cost and upfront income from direct assignment (DA) transactions, and its sustenance considering any potential changes in the business model following the restrictions. RoA and RoMA, on an annualized basis, were 2.2% and 1.6%, respectively, for first quarter of fiscal 2025. Earnings were impacted due to lower net interest margins (NIMs) and increase in operating expenses in the quarter, remains a monitorable. The group has demonstrated ability to raise capital from long-term marquee investors, such as Fairfax, the CDC group and Abu Dhabi Investment Authority (ADIA). However, the resource profile is marked by limited diversity and higher cost of borrowings, compared with peers.

Analytical Approach

CRISIL Ratings has consolidated the business and financial risk profiles of IIFL Finance and its subsidiaries, including IIFL Home and IIFL Samasta. This is because all the companies, collectively referred to as the IIFL Finance group, have significant operational, financial and managerial integration, and operate under a common brand.

Please refer Annexure- List of entities consolidated, which captures the list of entities considered and their analytical treatment to consolidation.

Key Rating Privileges & Rating Strengths

- Comfortable capitalisation, supported by demonstrated ability to raise capital and an asset-light business model
 The group has demonstrated its ability to raise capital from long-term marquee investors, such as Fairfax and the CDC group in the past. IIFL Home has also raised Rs 2,200 crore as primary equity from ADIA in the second quarter of fiscal 2023. Consequently, consolidated networth improved to Rs 12,056 crore as on March 31, 2024 (Rs 10,202 crore as on March 31, 2023) and adjusted gearing to 3.9 times (as against 3.9 times). Further, IIFL Finance raised Rs 1,272 crore via rights issue in May 2024 and consolidated networth stood at Rs 13,701 crore as on June 30, 2024 with adjusted gearing stood at 3.1 times as on June 30, 2024. Networth coverage for net non-performing assets (NPAs) was comfortable at 28 times as on June 30, 2024. Given the capital infusion and the asset-light business model, capitalisation should remain comfortable for the projected scale of operations over the medium term.

IIFL Finance reported a standalone networth and gearing of Rs 5,595 crore and 3.6 times, respectively as on March 31, 2024, 1ier I capital adequacy ratio (CAR) and overall CAR stood at 12.56% and 18.85%, respectively, as on the same date. Networth coverage for net NPAs was around 17 times. IIFL Home had networth and gearing of Rs 6,447 crore and 2.7 times, and 1ier I and overall CAR of 37.6% and 42.8%, respectively, and networth coverage for net NPAs of around 27 times. As on March 31, 2024, IIFL Samasta reported networth and gearing of Rs 2,010 crore and 4.5 times, respectively. 1ier I and overall CAR on the same date were 17.7% and 24.0%, respectively.

- Established track record of operations and extensive branch network; ability to revive market share in the gold loan business will remain a monitorable
 Consolidated AUM witnessed a de-growth of 12% as on June 30, 2024 and stood at Rs 69,610 crore as against Rs 78,960 crore as on March 31, 2024, driven by rundown in gold loan portfolio along with momentary slowdown in microfinance portfolio. Consolidated AUM stood at Rs 64,638 crore as on March 31, 2023, and Rs 51,210 crore, a year earlier. Majority of the book has been deployed in retail asset classes. Two lending subsidiaries, IIFL Home and IIFL Samasta, are engaged in mortgage finance and microfinance, respectively. In the affordable housing space, the group extends loans of average ticket size of Rs 20 lakhs and within this sub-segment, it is a prominent player. Retail loans (ticket size less than Rs 1 crore) accounted for 98% of the consolidated AUM as on June 30, 2024, making the portfolio highly granular. Also, 67% of the portfolio, excluding gold loans, qualified under priority sector lending. As on June 30, 2024, the group was present across five key segments: home loans (40% of AUM), gold loans (21%), LAP (12%), digital loans (6%) and microfinance (17%), which together accounted for 98% of the AUM, up from 67% as on March 31, 2017.

With the embargo being lifted, the organic run down of the gold loan business has been arrested and hereon, disbursements are expected to pick up. Though the ability of the company to restore the run rate to pre-embargo levels, remains a monitorable. Apart from these, there are two non-core, but synergistic segments: construction and real estate (CRE) funding and capital market lending. The group has been consciously scaling down its book under these segments, which together formed only 2% of the AUM. Under CRE, the group finances completion of projects already funded by it and is also looking at providing smaller ticket construction finance through IIFL Home, as it will be synergistic to its core business. In the capital market segment, the group finances retail clients of IIFL Securities Ltd. Market position benefits from a wide network of 478 branches as on June 30, 2024, which allows the group to cross-sell financial products of other IIFL entities.

On a standalone level, IIFL Finance had an AUM of Rs 20,498 crore as on June 30, 2024 (Rs 29,250 crore as on March 31, 2024 and Rs 25,573 crore as on March 31, 2023) primarily comprising gold loans (72%), digital loans (23%), developer and construction finance (3%), loan against property (1%) and capital markets (1%). IIFL Home had an AUM of Rs 35,975 crore as on June 30, 2024 (Rs 35,499 crore as on March 31, 2024 and Rs 28,512 crore as on March 31, 2023), comprising home loans (78%), followed by LAP (20%) and construction finance (2%). IIFL Samasta had an AUM of Rs 13,138 crore as on June 30, 2024 (Rs 14,211 crore as on March 31, 2024 and Rs 10,552 crore as on March 31, 2023).

• **Sustained profitability metrics supported by stable asset quality**

Consolidated RoA and RoMA were 3.4% and 2.3%, respectively, in fiscal 2024 and 3.3% and 2.3%, respectively, for fiscal 2023. On an absolute basis, consolidated net profit was Rs 1,974 crore in the fiscal 2024 and Rs 1,608 crore in fiscal 2023. Earnings were supported by lower credit cost (provisions and write-offs/average managed assets). Credit cost was marginally better at 1.1% during fiscal 2024 vis-a-vis 1.2% in fiscal 2023 (1.6% in fiscal 2022). Consolidated RoA and RoMA were 2.2% and 1.6% respectively, with net profit stood at Rs 338 crore in first quarter of fiscal 2025. Earnings were impacted due to lower net interest margins (NIMs) and increase in operating expenses in the quarter. NIMs (Total net interest income/average managed assets) and operating expenses (operating expenses /average managed assets), on an annualized basis stood at 7.4% and 4.2% in FY25 vis-a-vis 7.7% and 3.6% during fiscal 2024.

On consolidated and standalone basis, gross NPAs (GNPAs) of IIFL Finance stood at 2.3% and 3.7%, respectively, as on March 31, 2024 (1.8% and 1.3%, respectively, as on March 31, 2023, and 3.2% and 2.9%, respectively, as on March 31, 2022). GNPAs spiked during March 2024 due to slippages in gold portfolio. GNPA stood at 2.2% and 3.1%, respectively on consolidated and standalone basis, as on June 30, 2024. Provision coverage ratio¹¹ as on June 30, 2024, stood at 51%, while the total provisions coverage ratio (total provisions/GNPA) was 128%. On a standalone basis, IIFL Home and IIFL Samasta reported GNPAs of 1.5% and 1.9%, respectively, as on March 31, 2024 (2.2% and 2.1%, respectively, on March 31, 2023, and 3.1% and 3.1%, respectively, on March 31, 2022). It stood at 1.7% and 2.3%, respectively, as on June 30, 2024. GNPAs for the home loan segment stood at 1.3%, for the gold loan portfolio at 2.9%, LAP at 3.6%, digital loans at 3.3% and microfinance at 2.3% as on June 30, 2024.

Ability to keep delinquencies under check and manage credit cost will remain critical for sustaining healthy profitability. With regard to the gold loan business, until the restrictions are lifted - the extent of decline in profitability, if any, remains a monitorable.

Weakness:

- Limited diversity in resource profile with comparatively higher cost of funds; ability to restore the volume and quality of funding to pre-embargo levels, is a key rating monitorable

As on June 30, 2024, banks and financial institutions (Fis) constituted 75% of the on-book borrowings of the group-these were primarily in the form of term loans (46%), refinance (17%), short-term borrowings (2%), external commercial borrowings (9%) and others (1%). The remaining 25% of borrowings were in the form of non-convertible debentures (20%), external commercial borrowings from DFIs (4%) and commercial paper (1%). Of this, capital market lenders (such as mutual funds, pension funds, trusts) had limited share. IIFL Finance group has been able to tap the public NCDs route, but the cost of funds remains higher than some of the comparable peers. Nonetheless, the company has a comfortable liquidity profile with no negative cumulative mismatches across time buckets as per the asset liability maturity (ALM) statement dated June 30, 2024.

Over the medium to long term, ability to diversify the resource base at an optimal cost will be a monitorable, given the relatively higher reliance on banks and Fis.

¹¹ Provision coverage ratio = Provisions against GNPAs/GNPAs

Liquidity: Strong

On a provisional basis, as on August 31, 2024, the IIFL Finance group had liquidity of Rs 4595 crore (Rs 3529 crore of cash and equivalents, Rs 354 crore of unutilised cash credit limit and Rs 713 crore of undrawn sanctioned bank limits (including securitisation/DA limit)). Against this, total debt obligation was Rs 3548 crore over the three months through November 2024. On a standalone basis, IIFL Home had surplus cash of Rs 953 crore as on August 31, 2024. This is sufficient to meet debt obligation of Rs 850 crore till November 2024.

Environment, social and governance: (ru:of)2

CRISIL Ratings believes that the ESG profile of the IIFL Finance group supports its credit risk profile.

The ESG profile of financial institutions typically factors in governance as a key differentiator. The sector has reasonable social impact because of its substantial employee and customer base, and its role in promoting financial inclusion. While there is no direct adverse impact on the environment, lending decisions could have a bearing on environmental and other sustainability related factors.

The IIFL Finance group has demonstrated an ongoing focus on strengthening various aspects of its ESG profile.

Key ESG highlights of the IIFL Finance group

IIFL Finance has replaced incandescent lights with light-emitting diode panels across branches. Rainwater harvesting systems have been installed and wastewater is treated and re-used for domestic purposes.

Of the total workforce at IIFL Finance, gender diversity stands at 26%, as on March 31, 2023. One of the nine board members is a woman.

Of the board members, 63% are independent directors and there is a split between positions of the chairman and CEO. Extensive investor grievance redressal disclosures and mechanism are in place.

There is growing importance of ESG among investors and lenders. The group's commitment to ESG will play a key role in enhancing stakeholder confidence, given the substantial share of foreign investors as well as access to domestic capital market.

Outlook: Stable

The IIFL Finance group will likely improve its earnings profile while scaling up operations and maintaining a diversified product mix. The group's capitalisation is expected to remain comfortable.

Rating: BBB

Upward factors:

- Sustained improvement in profitability, with RoMA reaching 2.8-3.0% on a steady state basis
- Diversification of resource profile at optimal cost of funding
- Significant improvement in market position, along with sound asset quality

Downward factors:

- Inability to regain significant market share in the gold loan segment
- Any further regulatory developments resulting in sustained weakening of the business profile
- Restricted ability to raise resources at competitive rates
- Weakening of asset quality, leading to decline in profitability, with consolidated RoMA remaining below 2%

In issuing and maintaining its ratings, India Ratings relies on factual information it receives from issuers and underwriters and from other sources India Ratings believes to be credible. India Ratings conducts a reasonable investigation of the factual information relied upon by it in accordance with its ratings methodology, and obtains reasonable verification of that information from independent sources, to the extent such sources are available for a given security.

The manner of India Ratings factual investigation and the scope of the third-party verification it obtains will vary depending on the nature of the rated security and its issuer, the requirements and practices in India where the rated security is offered and sold, the availability and nature of relevant public information, access to the management of the issuer and its advisers, the availability of pre-existing third-party verifications such as audit reports, agreed-upon procedures letters, appraisals, actuarial reports, engineering reports, legal opinions and other reports provided by third parties, the availability of independent and competent third-party verification sources with respect to the particular security or in the particular jurisdiction of the issuer, and a variety of other factors.

Users of India Ratings ratings should understand that neither an enhanced factual investigation nor any third-party verification can ensure that all of the information India Ratings relies on in connection with a rating will be accurate and complete. Ultimately, the issuer and its advisers are responsible for the accuracy of the information they provide to India Ratings and to the market in offering documents and other reports. In issuing its ratings India Ratings must rely on the work of experts, including independent auditors with respect to financial statements and attorneys with respect to legal and tax matters. Further, ratings are inherently forward-looking and embody assumptions and predictions about future events that by their nature cannot be verified as facts. As a result, despite any verification of current facts, ratings can be affected by future events or conditions that were not anticipated at the time a rating was issued or affirmed.

India Ratings seeks to continuously improve its ratings criteria and methodologies, and periodically updates the descriptions on its website

of its criteria and methodologies for securities of a given type. The criteria and methodology used to determine a rating action are those in effect at the time the rating action is taken, which for public ratings is the date of the related rating action commentary. Each rating action commentary provides information about the criteria and methodology used to arrive at the stated rating, which may differ from the general criteria and methodology for the applicable security type posted on the website at a given time. For this reason, you should always consult the applicable rating action commentary for the most accurate information on the basis of any given public rating.

Ratings are based on established criteria and methodologies that India Ratings is continuously evaluating and updating. Therefore, ratings are the collective work product of India Ratings and no individual, or group of individuals, is solely responsible for a rating. All India Ratings reports have shared authorship. Individuals identified in an India Ratings report were involved in, but are not solely responsible for, the opinions stated therein. The individuals are named for contact purposes only.

Ratings are not a recommendation or suggestion, directly or indirectly, to you or any other person, to buy, sell, make or hold any investment, loan or security or to undertake any investment strategy with respect to any investment, loan or security or any issuer. Ratings do not comment on the adequacy of market price, the suitability of any investment, loan or security for a particular investor (including without limitation, any accounting and/or regulatory treatment), or the tax-exempt nature or taxability of payments made in respect of any investment, loan or security. India Ratings is not your advisor, nor is India Ratings providing to you or any other party any financial advice, or any legal, auditing, accounting, appraisal, valuation or actuarial services. A rating should not be viewed as a replacement for such advice or services. It will be important that you promptly provide us with all information that may be material to the ratings so that our ratings continue to be appropriate. Ratings may be raised, lowered, withdrawn, or placed on Rating Watch due to changes in, additions to, accuracy of or the inadequacy of information or for any other reason India Ratings deems sufficient.

India Ratings Maintains IIFL Home Finance's NCDs on Rating Watch with Negative Implications; Rates New NCDs

Sep 09, 2024 | Financial Institution

India Ratings and Research (Ind-Ra) has taken the following rating actions on IIFL Home Finance Limited's (IIFL Home) debt instruments:

Details of Instruments

Instrument Type	Date of Issuance	Coupon Rate	Maturity Date	Size of Issue (million)	Rating assigned along with Outlook/Watch	Rating Action
Non-convertible debentures ^	-	-	-	INR2,500	IND AA/Rating Watch with Negative Implications	Maintained on Rating Watch with Negative Implications
Non-convertible debentures ^	-	-	-	INR30,000	IND AA/Rating Watch with Negative Implications	Assigned; placed on Rating Watch with Negative Implications

^Yet to be issued

Analytical Approach

Ind-Ra continues to take a fully consolidated view of the business and financial risk profiles of IIFL Finance Ltd ('IND AA'/Rating Watch with Negative Implications) and its subsidiaries - IIFL Home Finance Ltd (79.59% stake; debt rated 'IND AA'/Rating Watch with Negative Implications) and IIFL Samasta Finance Ltd (99.56%; debt rated 'IND AA'/Rating Watch with Negative Implications), collectively referred to as the IIFL Finance group, while arriving at the ratings. This is because of the significant operational, financial and managerial integration among the entities. Also, all the entities operate under a common brand. The rating reflects the sizeable franchisee of the group in segments such as affordable housing finance and microfinance loans. It also factors in the distribution network and geographically widespread presence of the group. Furthermore, the entity is adequately capitalised due to healthy internal accruals, infusion of equity capital in the housing finance business and rights issue in IIFL Finance, which was concluded in May 2024.

Detailed Rationale of the Rating Action

Ind-Ra has maintained the ratings on Rating Watch with Negative Implications in view of the continuance of the ban imposed by the Reserve Bank of India on gold loans. In March 2024, the RBI had imposed restrictions on IIFL from sanctioning/disbursing or assigning/securitising gold loans due to material supervisory concerns. The RBI's main concerns were related to deviations in certifying the purity and net weight of the gold at the time of sanction of loans and at the time of auction upon default; breaches in the loan-to-value ratio; cash collection and disbursements over the statutory limit; and non-compliance with the standard auction process. Ind-Ra would monitor the developments on this front and will resolve the Rating Watch when in the agency's opinion the credit and business profile of IIFL has undergone a change due to the ongoing regulatory proceedings.

List of Key Rating Drivers

Strengths

- Significant player in major segments, but regulatory issue impacting franchisee growth
- Adequate capitalisation
- Asset quality so far under control

Weaknesses

- Profitability at consolidated level under pressure due to regulatory overhang
- Funding mobilisation needs to be closely monitored

Detailed Description of Key Rating Drivers

Significant Player in Major Segments, but Regulatory Issue Impacting Franchisee Growth: IIFL Finance's consolidated asset under management (AUM) declined to INR696.1 billion at 1QFY25 (FY24: INR789.6 billion, FY23: INR646.4 billion), largely due to the embargo placed on gold finance business. The AUM of the gold finance business decreased to INR121.6 billion as on 5 August 2024 (1QFY25: INR147.3 billion). On a consolidated basis, the AUM declined 11.84% qoq in 1QFY25, with off-book forming 35% of the AUM mix, including co-lending, which formed about 14% of the AUM. The sequential AUM decline was led by gold loans (down 36.9%), wholesale construction and real estate book (down 21.2%) and microfinance (down 8.3%). Home loans rose 2.4% qoq and digital loans grew 7.2% qoq in 1QFY25.

Given the restriction on incremental disbursement of gold loans, Ind-Ra expects a rundown of the gold portfolio, which is a shorter tenure book. Although the other segments would continue their normal operations, there would be an impact on overall AUM growth. The embargo on gold loan business and the overleveraging concerns in the microfinance segment can impact the franchisee growth in these segments.

IIFL Home is one of the largest players in the affordable housing segment. It had an AUM of INR359.8 billion at end-June 2024, with 78.1% of home loans and the rest being loans against property and construction finance. The company has reduced the proportion of non-home loan book in overall AUM since FY20 while gradually increasing the proportion of home loans. The company shall keep home loans at a minimum proportion of 70% of the overall loan book, catering primarily to the affordable housing segment, which has an average ticket size of around INR1.6 million. The target segment comprises self-employed customers (around 48% of portfolio at end-June 2024), for which the company has devised a unique scorecard-based underwriting model.

Adequate Capitalisation: IIFL Finance's consolidated capitalisation remained adequate in 1QFY25, with a tangible net worth of INR134.79 billion (FY24: INR118.99 billion FY23: INR100.76 billion). The improvement in net worth during 1QFY25 was supported with the rights issue of INR12.7 billion in IIFL Finance during May 2024. The gross leverage stood at 3.1x at end-June 2024 (FY24: 3.9x FY21: 3.9x). The group's capitalisation is further supported by the increasing share of the off-balance sheet portfolio of 35% at 1QFY25 (1QFY24: 39%). This leads to optimum utilisation of capital and better return ratios. Leverage might not increase substantially from here on, given the lower AUM growth as compared to historical trends.

IIFL Finance, which had previously held 100% in IIFL Home, divested a portion of its stake in the company in FY22 when Abu Dhabi Investment Authority acquired a 20.41% stake in the company for INR22 billion. Abu Dhabi Investment Authority has come in with a long-term investment horizon, as articulated by the management. The equity infusion increased the net worth of the company to INR55.5 billion in FY23 (FY22: INR26.8 billion), with capitalisation improving to tier 1 of 39.24% at end-March 2023 (end-March 2022: 21.05%) and leverage reducing to 2.69x (5.3x). Furthermore, the equity helped the company achieve a loan book growth rate of around 20%, taking the AUM to INR359 billion at end-June 2024 (end-March 2022: INR236.1 billion). The leverage stood at 2.62x at end-December 2023. The company had tier 1 ratio of 41.80% and CRAR of 46.54% at 1QFY25, with leverage of around 2.6x.

IIFL Finance also provides leadership support to the company, wherein the co-promoters, namely Nirmal Jain and R. Venkatraman, act as non-executive directors of IIFL Home. Also, the pan-India presence of the IIFL brand provides visibility to IIFL Home Finance amid the competitive affordable housing market.

Asset Quality so far under Control: IIFL Finance's consolidated gross non-performing assets and net non-performing assets were 2.2% and 1.1%, respectively, during 1QFY25 (FY24: 2.3%/1.2%, FY23: 1.8%/1.1%). The provision coverage ratio stood at 51.30% for 1QFY25, while the total provisions coverage ratio (including standard asset provisioning) was 127.62%. Also, gold (21.2% of AUM at 1QFY25) and home finance (40.4% of AUM), primarily secured, are larger segments of the business, and displayed a resilient performance even during the pandemic, with less volatility in terms of asset quality. Moreover, the MFI business has been performing adequately post the removal of pricing cap, and delinquencies have been in check for the industry post the pandemic. However, Ind-Ra opines that headwinds have appeared for the MFI segment recently due to events such as heatwaves, elections, and field-level attrition. Furthermore, overleveraging in pockets continues to be a cause for concern. IIFL also offers unsecured business loans named as digital loans, and the risk-return trade-off in these loans has been adequate so far. However, being unsecured, the asset quality in this segment can be volatile.

With scale, IIFL Home has maintained stable asset quality, with credit cost on loans standing at 0.8% in 1QFY25 (FY24: 0.57%; FY23: 1%), owing to the settling down of the covid-related asset stress and process-level changes in arenas such as underwriting and collection infrastructure, which were earlier centralised. This improved the gross stage 3 to 1.7% at end-June 2024 (FY23: 2.15%; FY22: 3.10%; FY21: 1.97%) and net stage 3 to 1.2% (1.55%; 2.11%; 1.24%). The company maintained a provision coverage of 0.56% in stage 1, 12.51% in stage 2 and 31% in stage 3 in 1QFY25, and also maintained a total provision coverage ratio of 1.7%.

Profitability at Consolidated Level Under Pressure due to Regulatory Overhang: Gold loans constitute a significant proportion of the AUM, and it is a high yielding book (around 19% yield); therefore, the restrictions on making incremental disbursements have impacted the group's profitability. IIFL Finance, on a standalone basis, reported a loss of INR220 million in 1QFY25, largely due to

lower growth in the AUM, lack of assignment income due to the restrictions, and continuation of operating expenditure since IIFL did not resort to rationalisation of branches and employees. On a consolidated basis, the spreads declined 60bp qoq to 7.3% in 1QFY25, largely due to weaker disbursements in the home (down 17.5% yoy) and MFI segments (down 50% yoy), which impacted the overall yields, though the cost of funds remained flat on a qoq basis at 9.1%. Operating expenditure to AUM increased to 4.01% in 1QFY25 (FY24: 3.91%, FY23: 3.88%), due to which the PPOP declined by 15% yoy and overall PPOP to AUM dipped to 3.70% (FY24:4.85%, FY23: 5.14%). The credit cost in 1QFY25 stood at 2.1% (FY24:2.0%, FY23:2.35%), with the management providing for higher provisions in the real estate and MFI book, and leading to an increase in the provision coverage ratio in stage 2 and stage 3 to 14.3% and 51.3%, respectively, in 1QFY25 (8.4% and 49.1%, respectively, in 4QFY24). In the near term, profitability will depend on the resumption of normal operations.

IIFL Home plans to maintain AUM growth of about 20% yoy and expects to cross INR500 billion in the next 18 months. This would be primarily driven by deepening penetration in branch network, which has expanded over the last two years. The company plans to add 35-40 branches every year for the next two-to-three years. IIFL Home plans to maintain around 35% of the AUM as off-balance sheet book, which consists of assignments and co-lending book. The company maintained stable NIM of 5% in 1QFY25 (FY24: 4.97%, FY23: 4.68%), with ROA of 4% (4.4%, 3.9%). Operating expense to AUM was 1.4% in 1QFY25 (FY23: 1.41%; FY22: 1.14). Over the last 24 months, the company increased the yields for both home loans and LAP loans by 185-225bp in response to the system-level increase in interest rates. The agency expects IIFL Home to maintain adequate profitability, supported by benign credit cost and stable NIMs.

Funding Mobilisation Needs to Be Closely Monitored: Post the embargo, during 5 March-31 July 2024, IIFL mobilised INR27.8 billion of funding through the direct assignment route. Fresh funding lines via term loan that were secured post 4 March 2024 stood at INR31.1 billion. At 1QFY25, on a consolidated basis, excluding securitisation, the borrowings were largely driven by term loans (55%) and refinance (17%); 25% of the funding was through debentures and the remaining through securitisation and others (4%). During FY24, IIFL Home Finance was able to borrow USD50 million from US International Development Financial Corporation for financing affordable housing loans, USD100 million from IFC World Bank and INR25 billion from National Housing Bank ([IND AAA/Stable](#)). Given to the RBI ban, the banking sector could be constrained in taking incremental exposure on the group, and hence, it is a close monitorable for Ind-Ra.

At end-June 2024, IIFL Home had a funding mix consisting of term loans from banks and NBFCs (44% of total borrowings), NCDs (23%), NHB funding lines (28%) and securitisation (1%). Post the embargo, the company was able to raise INR1.5 billion through CP and INR8.4 billion by term loan. It also did direct assignment of INR12.27 billion and co-lending of INR14.245 billion. The company also availed debt from Development Finance Corporation. IIFL Home has a cost of funding advantage, mainly because of the lower cost of funding availed from NHB. In FY24, the company availed debt from NHB under the Green Housing Refinance Scheme for funding its green housing projects.

Liquidity

Adequate: Based on the consolidated ALM (prepared on behavioural basis) for June 2024, IIFL Finance had a cumulative surplus of 15% of assets until one year. The asset liability maturity profile is supported by the short tenure book of gold loans and MFI loans; however, the mortgage book is long tenure. Having said that, the mortgage book's behavioural tenure is shorter than the contractual tenure, which supports the ALM profile. The steady monthly collection of approximately INR10 billion-15 billion on the gold loan book due to the run-down further supports the liquidity. IIFL can raise liquidity by assigning / securitising the loan book. IIFL has not heavily relied on the commercial paper route, which alleviates early redemption pressures to a certain extent. As of August 2024, on a consolidated basis, there were cash and unutilised bank lines of INR45.95 billion, which is sufficient to cover 72% of outflows over the next six months.

On a standalone basis, as per the asset liability maturity profile (behavioral in nature) as of June 2024, there was no negative cumulative surplus in up to one-year bucket and there was a surplus of 2.4%. With pre-payment of around 12% and longer tenor of liability profile, the company has always maintained sufficient liquidity on the books. At end-June 2024, the company had a cash and bank balance of INR6.28 billion, supported by unutilised cash credit of INR0.16 billion, liquid investment of INR35 billion and undrawn bank lines of INR6.6 billion against obligations of INR6.67 billion for the subsequent three months.

India Ratings Affirms IIFL Home Finance's NCDs at 'IND AA'/Stable ; Off Rating Watch with Negative Implications

India Ratings and Research (Ind-Ra) has taken following actions on IIFL Home Finance Limited's non-convertible debentures (NCDs):

Details of Instruments

Non-convertible debentures*	-	-	-	INR32,500	IND AA/Stable	Affirmed; off Rating watch with Negative Implications

*Details in Annexure

Analytical Approach

Ind-Ra continues to fully consolidate the business and financial risk profiles of IIFL Home Finance and its parent IIFL Finance Ltd (NCDs rated at 'IND AA'/Stable; holds 79.59% stake) and its parent's subsidiary IIFL Samasta Finance Ltd (99.56%; debt rated 'IND AA'/Stable), collectively referred to as the group hereafter, while arriving at the ratings. This is because of the significant operational, financial and managerial integration among the entities. Also, all the entities operate under a common brand.

Detailed Rationale of the Rating Action

Ind-Ra has resolved the Rating Watch with Negative Implications following the lifting of restrictions by the Reserve Bank of India on 19 September 2024 on sourcing, sanctioning, and disbursing of gold loans by IIFL Finance. The Reserve Bank of India had imposed the ban on the company on 4 March 2024. This is a significant development for the company, allowing it to focus on building back its gold business. There has been a ramp up in the company's gold loan portfolio post lifting of the embargo. Ind-Ra will continue to monitor the traction on this book complying with all the regulatory requirements. The group's profitability is likely to improve with the resumption of activities in the gold loan business, which is high yielding and offers good risk return trade off.

The rating also factors in IIFL Finance's sizable franchisee, comfortable leverage and adequate resource raising ability. However, Ind-Ra opines that within the group, the asset quality for the microfinance (MFI) segment remains a monitorable and can witness some volatility in the medium term.

List of Key Rating Drivers

Strengths

- Significant player in major segments
- Adequate capitalisation
- Headline asset quality in line with industry for IIFL Home Finance
- Profitability could revive; although, credit cost monitorable for IIFL Finance

Weaknesses

- Funding mobilisation needs to be closely monitored

Detailed Description of Key Rating Drivers

Significant Player in Major Segments: On a consolidated basis, the assets under management (AUM) declined 8.4% yoy to INR669.6 billion in 2QFY25 (FY24: INR789.6 billion, FY23: INR646.4 billion), largely due to the embargo placed on the gold finance business which was down 53.8% YTD in 1HFY25. Thus, regaining of the market share in the gold loan business will remain a rating monitorable. Post the lifting of the ban, IIFL Finance disbursed INR57.2 billion through 2,745 branches between 19 September 2024 and 6 November 2024, which is about 16% of its FY24 disbursements, reflecting tailwinds for the gold loan franchisee. Accordingly, gold AUM increased to INR126.8 billion on 6 November 2024 from INR108.0 billion in 2QFY25 (1QFY25: INR147.3 billion). The off-book was nearly 33.5% of the AUM mix in 2QFY25, including co-lending (about 12.7% of AUM). Furthermore, during the embargo period, IIFL took initiatives to focus on supply chain financing and secured business loan segment through the digital mode, leading to 53% yoy growth in the loan book to INR54.2 billion in 2QFY25. On the other hand, the share of non-core book reduced to 2.7% in 2QFY25 (FY24: 3.6%; FY19: 27%).

IIFL Home is one of the largest players in the affordable housing segment. It had AUM of INR370.1 billion at end-September 2024 with 78.8% of home loans and the remaining being loans against property and construction finance. The company has reduced the proportion of non-home loan book in the overall AUM since FY20 while gradually increasing the home loan proportion. The company shall keep home loans at a minimum proportion of 70% of the overall loan book, catering primarily to the affordable housing segment which has an average ticket size of around INR1.5 million. The target segment comprises self-employed customers (around 76% of portfolio at end-September 2024), for which the company has devised a unique scorecard-based underwriting model.

Adequate Capitalisation: The group's capitalisation remained adequate in 2QFY25 with a tangible net worth of INR137.23 billion (FY24: INR120.56 billion; FY23: INR102.02 billion). The improvement in net worth during 1HFY25 was supported by the rights issue of INR12.7 billion in IIFL Finance during May 2024. The gross leverage (debt/equity) stood at 2.9x in 2QFY25 (FY24: 3.9x; FY21: 3.9x). The group's capitalisation is further supported by the large share of off-balance sheet portfolio of 33.5% at 2QFY25 (FY24: 35.6%; FY23: 38.0%). This leads to optimum utilisation of capital and improved return ratios. Ind-Ra believes the gross leverage is unlikely to increase substantially hereafter, given lower AUM growth than the historical trends.

On a standalone basis, IIFL Finance's capitalisation remained adequate with tier 1 ratio of 20.07% at 2QFY25 (FY24: 12.56%; FY23: 12.85%) and gross leverage of 2.4x (3.6x; 3.4x). IIFL Home Finance's tier 1 ratio was 44.4% at 2QFY25 (FY24: 37.62%; FY23: 39.2%) and gross leverage was 2.4x (2.7x; 2.7x), while IIFL Samasta Finance's tier 1 ratio was 23.88% (17.7%; 13.5%) and gross leverage was 3.6x (4.6x, 5.4x).

IIFL Finance, which previously held 100% in IIFL Home Finance, sold 20.41% stake in the company to Abu Dhabi Investment Authority for INR22 billion in FY22. The equity infusion increased the company's net worth to INR55.5 billion in FY23 (FY22: INR26.8 billion), thereby leading to an improvement in the capitalisation levels with tier 1 of 44% at 1HFY25 (FY24: 37.62%; FY23: 39.24%; FY22: 21.10%) and gross leverage reducing to 2.2x (FY24: 2.7x, FY23: 2.6x).

IIFL Finance also provides leadership support wherein the co-promoters - Nirmal Jain and R. Venkatraman - act as non-executive directors of IIFL Home. Also, the pan-India presence of the IIFL brand provides visibility to IIFL Home Finance amid the competitive affordable housing market.

Headline Asset Quality in line with Industry for IIFL Home Finance: The group's gross non-performing assets were 2.4% in 2QFY25 (FY24: 2.3%; FY23: 1.8%) and net non-performing assets were 1.1% (1.2%; 1.1%). Gold loan (16.1% of AUM at 2QFY25) and home finance (43.5% of AUM), which are larger segments of the business and primarily secured, reported 1+ days past due (dpd) of 25.8% and 9.8%, respectively, higher than comparable peers; delinquency from these segments remains to be seen. The group's credit cost has been declining since FY21 (FY24: 2%; FY23: 2.35%; FY22: 2.69%; FY21 3.77%), however, inched up to 2.75% in 1HFY25 (annualised), largely because of headwinds in the MFI business and the trailing impact of the run down in the gold business. The provision coverage ratio for the consolidated

book for stage 2 and stage 3 stood at 14.6% and 55.5%, respectively, in 2QFY25. The overall provisioning stood at 3.19% of the loan book, which provides comfort. IIFL Finance also offers unsecured business loans such as digital loans; the risk-return trade-off in these loans has been adequate so far. However, being unsecured, the asset quality in this segment can be volatile.

With scale, IIFL Home Finance has maintained stable asset quality with credit cost on loans remaining at 0.7% in 2QFY25 (FY24: 0.57%; FY23: 1%), as the covid-related asset stress has settled down as well as process-level changes have been made in the company such as underwriting and collection infrastructure, which were earlier centralised. This has improved the gross stage assets to 1.6% in 2QFY25 (FY24 : 1.87%; FY23: 2.15%; FY22: 3.10%; FY21: 1.97%) and net non-performing assets to 1.1% (1%; 1.5%; 2.1%; 1.2%).

Profitability Could Revive; Although, Credit Cost Monitorable for IIFL Finance: IIFL Finance's AUM exposure is largely towards high-yielding segments. Ind-Ra expects the company's profitability to revive on scaling up of the gold loan book (about 19 yield). Effective management of credit costs will be key to fully leverage on the benefits of operating scale. Additionally, higher off-balance sheet share in AUM helps to enhance return ratios without heavy capital consumption.

The restrictions on making incremental disbursements during the embargo impacted the group's profitability in 1HFY25. IIFL Finance, on a standalone basis, reported a loss of INR4.64 billion in 1HFY25, largely due to an INR5.87 billion provision for alternate investment fund (AIF) investments, lack of assignment income due to the restrictions, and continuation of operating expenditure since IIFL Finance did not resort to rationalisation of branches and employees. The company's management expects some recovery from the security receipt book due to sale of AIF investment to ARC over the medium term.

On a consolidated basis, the spreads declined 80bp to 7.1% in 1HFY25, largely due to weaker traction in gold and MFI businesses, which impacted the overall yields; although the cost of funds increased only 10bp to 9.2% from 4QFY25. The operating expenditure to AUM increased to 4.05% in 1HFY25 (FY24: 3.91%; FY23: 3.88%), leading to a 20% yoy decline in the pre-provision operating profit (PPOP) to INR13.8 billion and a fall in the overall PPOP/AUM to 4.48% (4.85%; 5.14%). The credit cost stood at 1.8% in 1HFY25 (FY24: 2.0%, FY23: 2.35%) with the management providing for higher provisions in the real estate and MFI book. This led to an increase in the provision coverage ratio in stage 2 and stage 3 to 14.6% and 55.5%, respectively, in 1HFY25 (4QFY24: 8.4% and 49.1%, respectively).

IIFL Home Finance plans to maintain AUM growth of about 20% yoy and expects to cross INR500 billion in the next 18 months. This would be primarily driven by deepening penetration in branch network, which has expanded over the last two years. The company plans to add 35-40 branches each year for the next two-to-three years. IIFL Home Finance plans to maintain around 35% of the AUM as off-balance sheet book, which consists of assignments and co-lending book. The company maintained stable net interest margin of 4.98% in 2QFY25 (FY24: 4.97%; FY23: 4.68%) with return on assets of 4.5% (4.4%, 3.9%) and credit cost of 0.7% (0.57%; 1%). Operating expense to AUM was 1.9% in 2QFY25 (FY24 : 1.8%; FY23: 1.41%; FY22: 1.14%). Over the last 24 months, the company increased yields for both home loans and loan against property loans by 210-240bp in response to the system-level increase in interest rates. The agency expects IIFL Home Finance to maintain adequate profitability supported by stable net interest margins.

Evolving Funding Profile; Mobilisation from Capital Market - Monitorable: During embargo, funding was a key monitorable for IIFL Finance as there were continuous repayments from gold loan book, which was entirely short term and specifically during the embargo from 4 March 2024 to 20 September 2024. IIFL Finance was able to mobilise INR90.8 billion of liquidity, of which INR33.8 billion of funding was through the direct assignment route, INR24.6 billion through term loans, INR16.8 billion through co-lending and INR8.8 billion through the NCD route. Moreover, post 19 September 2024, IIFL raised INR62.8 billion, of which INR21.5 billion was from terms loans, INR9.95 billion through direct assignment route, INR19.7 billion through co-lending, INR3.65 billion through NCDs and INR8 billion through commercial paper (CP). Furthermore, as of 2QFY25, nearly 75% of the entire AUM remains priority sector lending compliant (FY24 :70%, FY23:68%) and can be securitised to raise immediate liquidity.

At 2QFY25, on a consolidated basis, excluding securitisation, the borrowings were largely driven by term loans (52%), followed by debentures (25%), debt refinancing (16%), short-term debt (4%) and CP (2%). During embargo, IIFL Finance has demonstrated its capability to raise capital with the rights issue in May 2024. This, along with the company's ability to

increase its off-book share during stressful periods, strengthens its position in the medium term. However, the share of capital market funding in the borrowing profile remains limited and is a rating monitorable in the medium term.

During FY24, IIFL Home Finance was able to borrow USD50 million from the US International Development Financial Corporation for financing affordable housing loans, USD100 million from IFC World Bank and INR25 billion from National Housing Bank ('[IND AAA/Stable](#)).

Liquidity

Adequate: Based on the consolidated ALM (prepared on behavioural basis) for September 2024, IIFL Finance had a cumulative surplus of 16.4% of assets until one year. The asset-liability maturity profile is supported by the short tenure book of gold loans and MFI loans; however, the mortgage book has a long tenure. The mortgage book's behavioural tenure is shorter than the contractual tenure, which supports the ALM profile. IIFL Finance can raise liquidity by assigning/securing the loan book. IIFL Finance has not heavily relied on the CP route, which alleviates early redemption pressures to a certain extent. As of October 2024, on a consolidated basis, the group had cash and unutilised bank lines of INR46.0 billion, sufficient to cover 104% and 59% of outflows over the next three months and six months, respectively.

On a standalone basis, as per the asset liability maturity profile (behavioral in nature) as of September 2024, there was no negative cumulative surplus in up to one-year bucket and there was a surplus of 4.7%. With pre-payment of around 12% and longer tenor of liability profile, the company has always maintained sufficient liquidity on the books. At end-October 2024, the company had a cash and bank balance of INR9.68billion, supported by undrawn bank lines of INR15.68 billion against obligations of INR7.54 billion for the subsequent three months.

Rating Sensitivities

Positive: Developments that could collectively result in a positive rating action are:

- a significant expansion of the group franchise, along with increasing the market share and maintaining the leadership position in the core business lines, and maintaining capitalisation levels,
 - a continuous demonstration of ability to manage asset quality with minimum volatility through the cycle.
 - an improvement of profitability buffers,
- diversification in the funding profile with optimum proportion of on-book and off-book assets.

Negative: Developments that could individually or collectively, result in a negative rating action include:

- sustained deterioration in the market share or a significant loss of the franchise,
- a sharp increase in the credit cost, leading to sustained depletion of the operating buffers,
- funding challenges and a decline in the liquidity buffer,
- depletion of the capital buffers such that consolidated the gross leverage exceeding 4.5x on a sustained basis.
