Name of combining entities	Description of shares issued	Number of shares issued	% of entity's equity share exchanged to extent of business combination
Shareholders of Transferor Company 1 - PIMPL	Equity Shares	8,63,74,063	57.94%
Demerged Company 1 - MOPE	Equity Shares	9,60,120	0.61%
Transferor Company 2 - MORE I	Equity Shares	5,00,325	0.38%
Demerged Company 2 - MORE II	Equity Shares	1,72,000	0.25%
Transferor Company 4 - MORE III	Equity Shares	24,000	0.02%

(iv) The amount of any difference between the consideration and the value of net identifiable assets acquired and the treatment thereof: Nil

**Note: 62** Additional regulatory information required under (WB) (xvi) of Division III of Schedule III amendment, disclosure of ratios, is not applicable to the Company as it is not an NBFC registered under Section 45-IA of Reserve Bank of India Act, 1934.

**Note: 63** The Group does not have any material transactions with the companies struck off under section 248 of Companies Act, 2013 or section 360 of Companies Act, 1956 during the year ended 31 March 2022 and 31 March 2021

**Note: 64** The Code on Social Security, 2020 ('Code') relating to employee benefits during employment and post-employment benefits received presidential assent in September 2020. The Code has been published in the Gazette of India. However, the date on which the Code will come into effect has not been notified and the final rules/interpretation have not yet been issued. The Group will assess the impact of the Code when it comes into effect and will record any related impact in the period the Code becomes effective.

**Note 66: Negative price settlement of Futures April West Texas Intermediate(WTI) Contract**

Exceptional item in the year ended 31 March 2021 comprises of bad debts of Rs. 8,810 Lakhs on account of outstanding dues from client towards settlement obligation. MCX vide its circular dated 21 April 2020 has considered the negative price for settlement of futures contract on expiry. Thus the customers who entered on the buy side of the contract had to settle for negative price on expiry. While entering into the contract, the customers were required to pay only the margin as was required by the exchange including mark to market losses. Since MCX has effected the settlement of such contract upon expiry at negative price, the client's account was debited with above amount as settlement obligation on account of negative price settlement in respect of its outstanding contract. Since the client have defaulted to honour the settlement obligation required by MCX, Company has paid the said amount to MCX on behalf of its clients. For recovering the said amount from client, Company has filed an arbitration claim for recovery of outstanding dues, against the clients before Arbitral Tribunal of MCX, and the Company has received arbitration awards amounting to Rs. 8,676 Lakhs in its favour. However the clients have filed an appellate arbitrations before Appellate Arbitral Tribunal of MCX, challenging the awards passed in favour of the Company. Client's appeal has been dismissed vide order dated 25 October 2021. The client has filed an application u/s 34 of Arbitration Act to challenge the Award of Appellate Arbitral Tribunal and the same is currently pending. Further, the Company has filed petition u/s 9 of Arbitration Act before the courts and the courts have directed the clients not to dispose of their assets till the next date of hearing.

**Moulati Oswal Financial Services Limited**  
**Summary of significant accounting policies and other explanatory information**

**1A. Corporate information**

Moulati Oswal Financial Services Limited ("MOFSL" or "the Holding Company") is a public limited company and incorporated under the provisions of Companies Act. The Company is domiciled in India and the addresses of its registered office and principal place of business are disclosed in the introduction to the annual report. The Holding Company is listed on the Bombay Stock Exchange (BSE) and the National Stock Exchange (NSE).

Moulati Oswal Financial Services Limited, its subsidiaries and associate entity (collectively, the Group) are engaged in stock broking, asset management and mutual funds, private equity, investment banking, home finance, wealth management services, distribution of financial products, proprietary investments and other activities in financial services.

These consolidated financial statements contain financial information of the Group and were authorized for issue by the Board of Directors on 28 April 2022.

Information on the Group's structure is provided in note 58.

**1B. Business Combination under Common Control**

A common control business combination, involving entities or businesses in which all of the combining entities or businesses are ultimately controlled by the same party or parties both before and after the business combination and where the control is not transitory, is accounted for in accordance with Appendix C to Ind AS 103 'Business Combinations'.

Business combinations involving entities or businesses under common control are accounted for using the pooling of interest method as follows:

- The assets and liabilities of the combining entities are reflected at their carrying amounts.
- No adjustments are made to reflect fair values, or recognize new assets or liabilities. Adjustments are made only to harmonize significant accounting policies.
- The financial information in the financial statements in respect of prior periods are restated as if the business combination had occurred from the beginning of the preceding period in the financial statements.
- The identity of the reserves are preserved and appear in the financial statements of the transferee in the same form in which they appeared in the financial statements of the transferor.

The difference, if any, between the amounts recorded as share capital issued plus any additional consideration in the form of cash or other assets and the amount of share capital of the transferor is transferred to capital reserve and is presented separately from other capital reserves with disclosure of its nature and purpose in the notes (Refer Note 6) for additional details)

## 2. Significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to the existing accounting standard requires a change in the accounting policy hitherto in use.

### 2.1. Basis of preparation

#### (i) Compliance with Ind AS

The consolidated financial statements of the Group comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 ("the Act") read with Companies (Indian Accounting Standards) Rules, 2015 as amended and other relevant provisions of the Act.

The Balance Sheet, the Statement of Changes in Equity, the Statement of Profit and Loss and disclosures are presented in the format prescribed under Division III of Schedule III of the companies Act, as amended from time to time that are required to comply with Ind AS. The Statement of Cash Flows has been presented as per the requirements of Ind AS 7 Statement of Cash Flows

#### (ii) Historical cost convention

The consolidated financial statements have been prepared on a historical cost and on accrual basis, except for the following:

- Certain Financial instruments are measured at fair values;
- Assets held for sale – measured at fair value less cost to sell;
- Defined benefit plans – plan assets measured at fair value; and
- Share based payments – fair value as on the grant date

#### (iii) Preparation of consolidated financial statements

The Holding Company is covered in the definition of Non-Banking Financial Group as defined in Companies (Indian Accounting Standards) (Amendment) Rules, 2016. As per the format prescribed under Division III of Schedule III to the Companies Act, 2013 on 24 October 2018 and as amended on 24 March 2021, the Holding Company presents the Balance Sheet, the Statement of Profit and Loss and the Statement of Changes in Equity in the order of liquidity. A maturity analysis of recovery or settlement of assets and liabilities within 12 months after the reporting date and more than 12 months after the reporting date is presented in note 5-I.

#### (iv) Use of estimates and judgements

The preparation of consolidated financial statements in conformity with Ind AS which requires management to make estimates, judgements, and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities (including contingent liabilities) and disclosures

**Motilal Oswal Financial Services Limited**  
**Summary of significant accounting policies and other explanatory information**

as of the date of consolidated financial statements and the reported amounts of revenue and expenses for the reporting period. Actual results could differ from these estimates. Accounting estimates and underlying assumptions are reviewed on an ongoing basis and could change from period to period. Appropriate changes in estimates are recognized in the period in which the Group becomes aware of the changes in circumstances surrounding the estimates. Any revisions to accounting estimates are recognized prospectively in the period in which the estimate is revised and future periods. The estimates and judgements that have significant impact on carrying amount of assets and liabilities at each balance sheet date are discussed at note 3.

**2.2. Principles of consolidation and equity accounting**

(i) Subsidiaries

The consolidated financial statement has comprised financial statements of the Company and its subsidiaries. Subsidiaries are all the entities (including structured entities) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

The acquisition method of accounting is used to account for business combinations by the Group.

The Group combines the financial statements of the Holding Company and its subsidiaries line by line adding together like items of assets, liabilities, equity, income and expenses. Intercompany transactions, balances and unrealized gains on transactions within the Group are eliminated. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Non-controlling interests in the results and equity of subsidiaries are shown separately in the consolidated statement of profit or loss, consolidated statement of changes in equity and balance sheet respectively. Statement of Profit and Loss including Other Comprehensive Income (OCI) is attributable to the equity holders of the Holding Company and to the non-controlling interest basis the respective ownership interest and such balance is attributed even if this results in controlling interest is having a deficit balance.

(ii) Associates

Associates are all entities over which the Group has significant influence but not control or joint control. This is generally the case where the Group holds between 20% and 50% of the voting rights. Investments in associates are accounted for using the equity method of accounting (see (iii) below), after initially being recognized at cost.

(iii) Equity method

Under the equity method of accounting, the investments are initially recognized at cost and adjusted thereafter to recognize the Group's share of the post-acquisition profits or losses of the investee in profit or loss, and the Group's share of other comprehensive income of the investee in other comprehensive

**Motilal Oswal Financial Services Limited**  
**Summary of significant accounting policies and other explanatory information**

income. Dividends received or receivable from associates are recognized as a reduction in the carrying amount of the investment.

When the Group's share of losses in an equity-accounted investment equals or exceeds its interest in the entity, including any other unsecured long-term receivables, the Group does not recognize further losses, unless it has incurred obligations or made payments on behalf of the other entity.

Unrealized gains on transactions between the Group and its associates are eliminated to the extent of the Group's interest in these entities. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of equity accounted investees have been changed where necessary to ensure consistency with the policies adopted by the Group.

(iv) Changes in ownership interests

The Group treats transactions with non-controlling interests that do not result in a loss of control as transactions with equity owners of the Group. A change in ownership interest results in an adjustment between the carrying amounts of the controlling and non-controlling interests to reflect their relative interests in the subsidiary. Any difference between the amount of the adjustment to non-controlling interests and any consideration paid or received is recognized within equity.

When the Group ceases to consolidate or equity account for an investment because of a loss of control, joint control or significant influence, any retained interest in the entity is re-measured to its fair value with the change in carrying amount recognized in profit or loss. This fair value becomes the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate or financial asset. In addition, any amounts previously recognized in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognized in other comprehensive income are reclassified to profit or loss.

If the ownership interest in an associate is reduced but joint control or significant influence is retained, only a proportionate share of the amounts previously recognized in other comprehensive income are reclassified to profit or loss where appropriate.

### **2.3. Revenue Recognition**

The Group recognises revenue from contracts with customers based on a five step model as set out in Ind AS 115, Revenue from Contracts with Customers, to determine when to recognize revenue and at what amount. Revenue is measured based on the consideration specified in the contract with a customer. Revenue from contracts with customers is recognised when services are provided and it is highly probable that a significant reversal of revenue is not expected to occur.

Revenue is measured at fair value of the consideration received or receivable. Revenue is recognized when (or as) the Group satisfies a performance obligation by transferring a promised good or service (i.e. an asset) to a customer. An asset is transferred when (or as) the customer obtains control of that asset.

When (or as) a performance obligation is satisfied, the Group recognizes as revenue the amount of the transaction price (excluding estimates of variable consideration) that is allocated to that performance obligation.

Motilal Oswal Financial Services Limited  
Summary of significant accounting policies and other explanatory information

The Group applies the five-step approach for recognition of revenue:

- Identification of contract(s) with customers: A contract is defined as an agreement between two or more parties that creates enforceable rights and obligations and sets out the criteria for every contract that must be met.
- Identification of the separate performance obligations in the contract: A performance obligation is a promise in a contract with a customer to transfer a good or service to the customer.
- Determination of transaction price: The transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.
- Allocation of transaction price to the separate performance obligations: For a contract that has more than one performance obligation, the Company allocates the transaction price to each performance obligation in an amount that depicts the amount of consideration to which the Company expects to be entitled in exchange for satisfying each performance obligation.
- Recognition of revenue when (or as) each performance obligation is satisfied.

**(i) Brokerage fee income**

It is recognised on trade date basis and is exclusive of goods and service tax and securities transaction tax (STT) wherever applicable.

**(ii) Interest income**

Interest income on a financial asset at amortised cost is recognised on a time proportion basis taking into account the amount outstanding and the effective interest rate ('EIR'). The EIR is the rate that exactly discounts estimated future cash flows of the financial asset through the expected life of the financial asset or, where appropriate, a shorter period, to the net carrying amount of the financial instrument. The internal rate of return on financial asset after netting off the fees received and cost incurred approximates the effective interest rate method of return for the financial asset. The future cash flows are estimated taking into account all the contractual terms of the instrument.

The interest income is calculated by applying the EIR to the gross carrying amount of non-credit impaired financial assets (i.e. at the amortised cost of the financial asset before adjusting for any expected credit loss allowance). For credit-impaired financial assets the interest income is calculated by applying the EIR to the amortised cost of the credit-impaired financial assets (i.e. the gross carrying amount less the allowance for ECLs).

**(iii) Portfolio management fee income**

Performance obligations are satisfied over a period of time and portfolio management fees are recognized in accordance with the Portfolio Management Agreement entered with respective clients, which is as follows:

- a) Processing fees is recognized on upfront basis in the year of receipt;
- b) Management fees is recognized as a percentage of the unaudited net asset value at the end of each month;
- c) Return based fees is recognized as a percentage of annual profit, in accordance with the terms of the agreement with clients on the completion of the period.

**(iv) Mutual fund management fee income**

Performance obligations are satisfied over a period of time and mutual fund management fee is recognized on monthly basis in accordance with Investment Management Agreement and SEBI (Mutual Fund) Regulations, 1996, based on daily average assets under management (AUM) of the Schemes of Motilal Oswal Mutual Fund.

**Motilal Oswal Financial Services Limited**  
**Summary of significant accounting policies and other explanatory information**

**(v) Private equity fund management fee income**

Performance obligations are satisfied over a period of time and private equity fund management fee is recognized on monthly basis in accordance with Private Placement Memorandum based on capital commitment / capital contribution of the Fund.

**(vi) Alternative investment fund management fee income**

Performance obligations are satisfied over a period of time and alternate investment management fee is recognized on monthly basis in accordance with Private Placement Memorandum.

**(vii) Investment advisory fees**

Performance obligations are satisfied over a period of time and investment advisory fee is recognized on monthly basis in accordance with the terms of the contract with the clients.

**(viii) Research and advisory fees**

Performance obligations are satisfied over a period of time and investment advisory fee is recognized on monthly basis in accordance with the terms of the contract with the clients.

**(ix) Dividend income**

Dividend income is recognized in the statement of profit or loss on the date that the Group's right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the entity and the amount of dividend can be reliably measured. This is generally when the shareholders approve the dividend.

**2.4. Distribution cost**

**Portfolio Management Services**

Distribution cost for Portfolio Management Services are charged to Statement of Profit and Loss on accrual basis. Upfront distribution cost paid till 30th September 2020 is amortised over the contractual period. On this account, an asset (prepaid expenses) is recognised at the time of actual payment or becoming due for payment and charged evenly to the Statement of Profit and Loss over the commitment period of the respective investor.

**Alternate Investment Fund Services**

Distribution cost for Alternate Investment Fund Management Services are charged to Statement of Profit and Loss on accrual basis. On this account, an asset (prepaid expenses) is recognised at the time of actual payment or becoming due for payment and charged to the Statement of Profit and Loss over the period of the scheme.

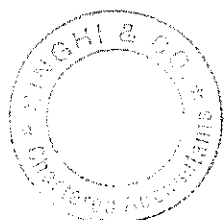

**Fund related expenses**

**New fund offer expenses**

Expenses relating to initial issue of Mutual Fund Schemes of the Fund are charged to the Statement of Profit and Loss in the year in which such expenses are incurred which is in compliance with SEBI (Mutual Funds) Regulations, 1996.

**Recurring fund expenses**

Expenses incurred (inclusive of advertisement / brokerage expenses) on behalf of schemes of Motilal Oswal Mutual Fund till 22<sup>nd</sup> October 2019 are recognised in the Statement of Profit and Loss unless

**Motilal Oswal Financial Services Limited**  
**Summary of significant accounting policies and other explanatory information**

considered recoverable from the schemes of the Fund in accordance with the provisions of SEBI (Mutual Fund) Regulations, 1996.

## **2.5. Income Tax**

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses. Current and deferred tax is recognized in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity, respectively.

### **Current Tax:**

Current tax is measured at the amount of tax expected to be payable on the taxable income for the year as determined in accordance with the provisions of the Income Tax Act, 1961. Current tax assets and current tax liabilities are off set when there is a legally enforceable right to set off the recognized amounts and there is an intention to settle the asset and the liability on a net basis.

### **Deferred Tax:**

Deferred tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, deferred tax liabilities are not recognized if they arise from the initial recognition of goodwill. Deferred tax is also not accounted for, if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss). Deferred tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

Deferred tax assets are recognized for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilize those temporary differences and losses. Deferred tax liabilities are not recognized for temporary differences between the carrying amount and tax bases of investments in subsidiaries and associates where the Group is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority.

## **2.6. Investment Property**

Property that is held for long-term rental yields or for capital appreciation or both, and that is not used by the group for business purposes, is classified as investment property. Investment property is measured initially at its cost, including related transaction costs and where applicable borrowing costs. Subsequent expenditure is capitalised to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the group and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred. When part of an investment property is replaced, the carrying amount of the replaced part is derecognised.

**Motilal Oswal Financial Services Limited**  
**Summary of significant accounting policies and other explanatory information**

Depreciation on investment property is calculated using the straight-line method to write down the cost of property and equipment to their residual values over their estimated useful lives in the manner prescribed in Schedule II of the Act.

**2.7. Leases**

For any new contracts entered into on or after 1 April 2019, the Company considers whether a contract is, or contains a lease. A lease is defined as 'a contract, or part of a contract, that conveys the right to use an asset (the underlying asset) for a period of time in exchange for consideration'. The Company assess whether it has the right to direct 'how and for what purpose' the asset is used throughout the period of use.

**Measurement and recognition of leases as a lessee**

The Company has adopted Ind AS 116 "Leases" using the cumulative catch-up approach. Company has recognised Right of Use assets as at 1 April 2019 for leases previously classified as operating leases and measured at an amount equal to lease liability (adjusted for related prepayments/ accruals). The Company has discounted lease payments using the incremental borrowing rate for measuring the lease liability.

The Company depreciates the right-of-use assets on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The Company also assesses the right-of-use asset for impairment when such indicators exist.

Lease payments included in the measurement of the lease liability are made up of fixed payments (including in substance fixed), variable payments based on an index or rate, amounts expected to be payable under a residual value guarantee and payments arising from options reasonably certain to be exercised.

Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. It is remeasured to reflect any reassessment or modification, or if there are changes in in-substance fixed payments.

When the lease liability is remeasured, the corresponding adjustment is reflected in the right-of-use asset, or profit and loss if the right-of-use asset is already reduced to zero.

The Company has elected to account for short-term leases and leases of low-value assets using the practical expedients. Instead of recognising a right-of-use asset and lease liability, the payments in relation to these are recognised as an expense in profit or loss on a straight-line basis over the lease term.

When the Company revises its estimate of the term of any lease, it adjusts the carrying amount of the lease liability to reflect the payments to make over the revised term, which are discounted using a revised discount rate. The carrying value of lease liabilities is similarly revised when the variable element of future lease payments dependent on a rate or index is revised, except the discount rate remains unchanged. In both cases an equivalent adjustment is made to the carrying value of the right-of-use asset, with the revised carrying amount being amortised over the remaining (revised) lease term. If the carrying amount of the right-of-use asset is adjusted to zero, any further reduction is recognised in statement of profit and loss.

For contracts that both convey a right to the Company to use an identified asset and require services to be provided to the Company by the lessor, the Company has elected to account for the entire contract as

**Motilal Oswal Financial Services Limited**  
**Summary of significant accounting policies and other explanatory information**

a lease, i.e. it does not allocate any amount of the contractual payments to, and account separately for, any services provided by the supplier as part of the contract.

## 2.8. Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Outstanding bank overdrafts are not considered integral part of the Company's cash management.

## 2.9. Financial instruments

### Initial recognition and measurement

Financial assets and financial liabilities are recognized when the entity becomes a party to the contractual provisions of the instrument. Regular way purchases and sales of financial assets are recognized on trade-date, the date on which the Group commits to purchase or sell the asset.

At initial recognition, the Group measures a financial asset or financial liability at its fair value plus or minus, in the case of a financial asset or financial liability not at fair value through profit or loss, transaction costs that are incremental and directly attributable to the acquisition or issue of the financial asset or financial liability, such as fees and commissions. Transaction costs of financial assets and financial liabilities carried at fair value through profit or loss are expensed in profit or loss. Immediately after initial recognition, an expected credit loss allowance (ECL) is recognized for financial assets measured at amortized cost.

When the fair value of financial assets and liabilities differs from the transaction price on initial recognition, the entity recognizes the difference as follows:

- a) When the fair value is evidenced by a quoted price in an active market for an identical asset or liability (i.e. a Level 1 input) or based on a valuation technique that uses only data from observable markets, the difference is recognized as a gain or loss.
- b) In all other cases, the difference is deferred and the timing of recognition of deferred day one profit or loss is determined individually. It is either amortized over the life of the instrument, deferred until the instrument's fair value can be determined using market observable inputs, or realized through settlement.

When the Group revises the estimates of future cash flows, the carrying amount of the respective financial assets or financial liability is adjusted to reflect the new estimate discounted using the original effective interest rate. Any changes are recognized in profit or loss.

### Fair value of financial instruments

Some of the Group's assets and liabilities are measured at fair value for financial reporting purpose. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date regardless of whether that price is directly observable or estimated using another valuation technique.

Information about the valuation techniques and inputs used in determining the fair value of various assets and liabilities are disclosed in note 54

Motilal Oswal Financial Services Limited  
Summary of significant accounting policies and other explanatory information

**Financial assets**

(i) Classification and subsequent measurement

The Group has applied Ind AS 109 and classifies its financial assets in the following measurement categories:

- Fair value through profit or loss (FVTPL);
- Fair value through other comprehensive income (FVOCI); or
- Amortised cost.

**1. Financial assets carried at amortised cost**

A financial asset is measured at the amortised cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in interest income in the Statement of Profit and Loss.

**2. Equity instruments**

Equity instruments are instruments that meet the definition of equity from the issuer's perspective: that is, instruments that do not contain a contractual obligation to pay and that evidence a residual interest in the issuer's net assets.

All investments in equity instruments classified under financial assets are initially measured at fair value, the Group may, on initial recognition, irrevocably elect to measure the same either at FVOCI or FVTPL. The Group makes such election on an instrument-by-instrument basis. Fair value changes on an equity instrument is recognised as revenue from operations in the Statement of Profit and Loss unless the Group has elected to measure such instrument at FVOCI. Fair value changes excluding dividends, on an equity instrument measured at FVOCI are recognized in OCI. Amounts recognised in OCI are not subsequently reclassified to the Statement of Profit and Loss. Dividend income on the investments in equity instruments are recognised as 'Revenue from operations' in the Statement of Profit and Loss.

**3. Investments in mutual funds**

Investments in mutual funds are measured at fair value through profit and loss (FVTPL).

(ii) Impairment

The Group recognizes impairment allowances using Expected Credit Losses ("ECL") method on all the financial assets that are not measured at FVTPL:

ECL are probability-weighted estimate of credit losses. They are measured as follows:

**Motilal Oswal Financial Services Limited**  
**Summary of significant accounting policies and other explanatory information**

- Financial assets that are not credit impaired – as the present value of all cash shortfalls that are possible within 12 months after the reporting date.
- Financial assets with significant increase in credit risk - as the present value of all cash shortfalls that result from all possible default events over the expected life of the financial assets.
- Financial assets that are credit impaired - as the difference between the gross carrying amount and the present value of estimated cash flows.

Financial assets are written off/fully provided for when there is no reasonable of recovering a financial assets in its entirety or a portion thereof.

However, financial assets that are written off could still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognised in the Statement of Profit and Loss.

(iii) Derecognition

A financial asset is derecognised only when:

The Group has transferred the rights to receive cash flows from the financial asset or retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the Group has transferred an asset, the Group evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the Group has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Group has not retained control of the financial asset. Where the Group retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

**Financial liabilities**

(i) Initial recognition and measurement

All financial liabilities are recognised when the Company becomes a party to the contractual provisions of the financial instrument and are measured initially at fair value adjusted for transaction costs.

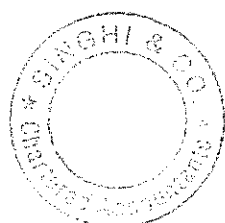

(ii) Subsequent measurement

Financial liabilities are subsequently measured at amortised cost using the EIR method. Financial liabilities carried at fair value through profit or loss are measured at fair value with all changes in fair value recognised in the Statement of Profit and Loss.

(iii) Derecognition

A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or expires.

**2.10. Offsetting financial instruments**

Motilal Oswal Financial Services Limited  
Summary of significant accounting policies and other explanatory information

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Group or the counterparty.

**2.11. Derivative Financial Instruments and Hedge Accounting:**

The Company enters into forward contracts to hedge the foreign currency risk of firm commitments and highly probable forecast transactions. Derivatives are initially recognised at fair value at the date the derivative contracts are entered into and are subsequently re-measured to their fair value at the end of each reporting period. The resulting gain or loss is recognised in the Statement of Profit and Loss immediately unless the derivative is designated and effective as a hedging instrument, in which event the timing of the recognition in the Statement of Profit and Loss depends on the nature of the hedging relationship and the nature of the hedged item.

The Company enters into derivative financial instruments viz. foreign exchange forward contracts, interest rate swaps and cross currency swaps to manage its exposure to interest rate and foreign exchange rate risks. The Company does not hold derivative financial instruments for speculative purposes.

**Hedge Accounting:** The Company designates certain hedging instruments in respect of foreign currency risk and interest rate risk as cash flow hedges. Such hedges are expected to be highly effective in achieving offsetting changes in fair value or cash flows, and are assessed on an ongoing basis to determine that they actually have been highly effective throughout the financial reporting periods for which they were designated. The effective portion of changes in the fair value of the designated portion of derivatives that qualify as cash flow hedges is recognised in Other Comprehensive Income and accumulated under the heading of cash flow hedging reserve.

The gain or loss relating to the ineffective portion is recognised immediately in the Statement of Profit and Loss. Amounts previously recognised in Other Comprehensive Income and accumulated in other equity relating to (effective portion as described above) are re-classified to the Statement of Profit and Loss in the periods when the hedged item affects profit or loss. However, when the hedged forecast transaction results in the recognition of a non-financial asset or a non-financial liability, such gains and losses are transferred from equity and included in the initial measurement of the cost of the non-financial asset or non-financial liability. Hedge accounting is discontinued when the hedging instrument expires, terminated, or exercised, without replacement or rollover (as part of the hedging strategy), or if its designation as a hedge is revoked, or when it no longer qualifies for hedge accounting. Any gain or loss recognised in Other Comprehensive Income and accumulated in other equity at that time remains in other equity and is recognised when the forecast transaction is ultimately recognised in Statement of Profit and Loss. When a forecast transaction is no longer expected to occur, the gain or loss accumulated in other equity is recognised immediately in the Statement of Profit and Loss.

**2.12. Financial guarantee contracts and loan commitments**

Financial guarantee contracts are contracts that require the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due, in accordance with the terms of a debt instrument. Such financial guarantees are given to banks, financial institutions and others on behalf of customers to secure loans, overdrafts and other banking facilities.

Financial guarantee contracts are initially measured at fair value and subsequently measured at the higher of:

- The amount of the loss allowance; and
- The premium received on initial recognition less income recognized in accordance with the principles of Ind AS 115.

Motilal Oswal Financial Services Limited  
Summary of significant accounting policies and other explanatory information

### 2.13. Property, plant and equipment

Property, plant and equipment are stated at cost of acquisition less accumulated depreciation. Cost includes expenditure that is directly attributable to the acquisition and installation of the assets.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Depreciation methods, estimated useful lives and residual value

Depreciation is calculated using the straight-line method to allocate their cost, net of their residual values, over their estimated useful life prescribed under Schedule II to the Companies Act, 2013. The Group provides pro-rata depreciation from the month of installation till the date assets are sold or disposed. Leasehold improvements are amortised over the term of underlying lease.

Assets	Useful life
Building	60 years
Furniture and Fixtures	10 years
Office Equipments	5 years
Computers and Network Equipments	3 to 6 years
Plant and Machinery	15 years
Electrical Equipments	10 years
Vehicles	8 to 10 years
Leasehold Improvements	Over the primary lease period or useful life. Whichever is less.

#### Derecognition:

The carrying amount of an item of property, plant and equipment is derecognized on disposal or when no future economic benefits are expected from its use or disposal. Gains and losses on disposals are determined by comparing proceeds with carrying amount and are recognized in the statement of profit and loss when the asset is derecognized.

### 2.14. Intangible assets

#### Measurement at initial recognition:

Intangible assets are recognized where it is probable that the future economic benefit attributable to the assets will flow to the Group and its cost can be reliably measured. Intangible assets are stated at cost of acquisition less accumulated amortization and impairment, if any.

Expenditure incurred on acquisition/development of intangible assets which are not put/ready to use at the reporting date is disclosed under intangible assets under development. The Group amortizes intangible assets on a straight-line basis over the five years commencing from the month in which the asset is first put to use. The Group provides pro-rata amortization from the day the asset is put to use.

## Motilal Oswal Financial Services Limited

### Summary of significant accounting policies and other explanatory information

Asset	Useful life
Computer Software	5 years
Licences	Over the license period
Customer rights	5 years

#### Derecognition:

The carrying amount of an intangible asset is derecognized on disposal or when no future economic benefits are expected from its use or disposal. Gains and losses on disposals are determined by comparing proceeds with carrying amount and are recognized in the statement of profit and loss when the asset is derecognized.

#### **2.15. Impairment of non-financial assets**

At each reporting date, the Group assesses whether there is any indication based on internal/external factors, that an asset may be impaired. If any such indication exists, the Group estimates the recoverable amount of the asset. The recoverable amount of asset is the higher of its value in use or its fair value. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects the current market assessment of time value of money and the risks specific to it. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount and the reduction is treated as an impairment loss and is recognised in the statement of profit and loss. All assets are subsequently reassessed for indications that an impairment loss previously recognised may no longer exist. An impairment loss is reversed if there has been a change in estimates used to determine the recoverable amount. Such a reversal is made only to the extent that the assets carrying amount would have been determined, net of depreciation or amortization, had no impairment loss been recognised.

#### **2.16. Expected credit loss (ECL) model:**

The Company applies the ECL model in accordance with Ind AS 109 for recognising impairment loss on financial assets. The ECL allowance is based on the credit losses expected to arise from all possible default events over the expected life of the financial asset ('lifetime ECL'), unless there has been no significant increase in credit risk since origination, in which case, the allowance is based on the 12-month ECL. The 12-month ECL is a portion of the lifetime ECL, which results from default events that are possible within 12 months after the reporting date.

ECL is calculated on a collective basis, considering the retail nature of the underlying portfolio of financial assets.

The impairment methodology applied depends on whether there has been a significant increase in credit risk. When determining whether the risk of default on a financial asset has increased significantly since initial recognition, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis based on a provision matrix which takes into account the Company's historical credit loss experience, current economic conditions, forward looking information and scenario analysis.

The expected credit loss is a product of exposure at default ('EAD'), probability of default ('PD') and loss given default ('LGD'). The Company has devised an internal model to evaluate the PD and LGD based

**Motilal Oswal Financial Services Limited**  
**Summary of significant accounting policies and other explanatory information**

on the parameters set out in Ind AS 109. Accordingly, the financial assets have been segmented into three stages based on the risk profiles. The three stages reflect the general pattern of credit deterioration of a financial asset. The company categorises financial assets at the reporting date into stages based on the days past due ('DPD') status as under:

- Stage 1: Low credit risk, i.e. 0 to 30 days past due
- Stage 2: Significant increase in credit risk, i.e. 31 to 90 days past due
- Stage 3: Impaired assets, i.e. more than 90 days past due

LGD is an estimate of loss from a transaction given that a default occurs. PD is defined as the probability of whether the borrowers will default on their obligations in the future. For assets which are in Stage 1, a 12-month PD is required. For Stage 2 assets a lifetime PD is required while Stage 3 assets are considered to have a 100% PD. EAD represents the expected exposure in the event of a default and is the gross carrying amount in case of the financial assets held by the Company.

The Company incorporates forward looking information into both assessments of whether the credit risk of an instrument has increased significantly since its initial recognition and its measurement of ECL. Based on the consideration of external actual and forecast information, the Company forms a 'base case' view of the future direction of relevant economic variables. This process involves developing two or more additional economic scenarios and considering the relative probabilities of each outcome. The base case represents a most likely outcome while the other scenarios represent more optimistic and more pessimistic outcomes.

The measurement of impairment losses across all categories of financial assets requires judgement, in particular, the estimation of the amount and timing of future cash flows and collateral values when determining impairment losses and the assessment of a significant increase in credit risk. These estimates are driven by a number of factors, changes in which can result in different levels of allowances. The Company's ECL calculations are outputs of complex models with a number of underlying assumptions regarding the choice of variable inputs and their interdependencies. The inputs and models used for calculating ECLs may not always capture all characteristics of the market at the date of the financial statements. The Company regularly reviews its models in the context of actual loss experience and makes adjustments when such differences are significantly material.

The amount of ECL (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognised is recognised as an impairment gain or loss in profit or loss.

After initial recognition, trade receivables are subsequently measured at amortised cost using the effective interest method, less provision for impairment. The Company follows the simplified approach required by Ind AS 109 for recognition of impairment loss allowance on trade receivables, which requires lifetime ECL to be recognised at each reporting date, right from initial recognition of the receivables.

**2.17. Provisions and contingencies:**

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the Balance Sheet date.

## Motilal Oswal Financial Services Limited

### Summary of significant accounting policies and other explanatory information

Provisions are determined by discounting the expected future cash flows (representing the best estimate of the expenditure required to settle the present obligation at the balance sheet date) at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognized as finance cost. Expected future operating losses are not provided for

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made. Contingent assets are neither recognised nor disclosed in the financial statements.

#### 2.18. Employee benefits

##### (i) Short-term obligations

Short-term employee benefits are recognized as an expense at the undiscounted amount in the Statement of Profit and Loss for the year in which the related services are rendered. The Group recognises the costs of bonus payments when it has a present obligation to make such payments as a result of past events and a reliable estimate of the obligation can be made.

##### Compensated absences

The Group does not have a policy of encashment of unavailed leaves for its employees but are permitted to be carried forward subject to some prescribed maximum days. Provision is made on actual basis of accumulating compensated absences as a result of unused leave entitlement which has accumulated as at the balance sheet date.

##### (ii) Post-employment obligations

##### Defined contribution plan:

Contribution paid/payable to the recognised provident fund, which is a defined contribution scheme, is charged to the Statement of Profit and Loss in the period in which they occur.

##### Defined benefits plan:

Gratuity is post-employment benefit and is in the nature of defined benefit plan. The liability recognised in the Balance Sheet in respect of gratuity is the present value of defined benefit obligation at the Balance Sheet date together with the adjustments for unrecognised actuarial gain or losses and the past service costs. The defined benefit obligation is calculated at or near the Balance Sheet date by an independent actuary using the projected unit credit method. Actuarial gains and losses comprise experience adjustment and the effects of changes in actuarial assumptions are recognized in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

##### National Pension Scheme and Employee State Insurance Corporation

Contribution paid/payable to the recognised NPS and ESIC, which is a defined contribution scheme, is charged to the Statement of Profit and Loss in the period in which they occur.

**Motilal Oswal Financial Services Limited**  
**Summary of significant accounting policies and other explanatory information**

(iii) Other long-term employee benefit obligations

**Heritage club benefit**

Heritage club benefits are recognised as liability at the present value of defined benefits obligation as at the Balance Sheet date. The defined obligation benefit is calculated at the Balance Sheet date by an independent actuary using the projected unit credit method.

**2.19. Share-based payments**

**Employee Stock Option Scheme (ESOS)**

The Employees Stock Options Scheme ("the Scheme") has been established by the Group. The Scheme provides that employees are granted an option to subscribe to equity share of the Group that vest on the satisfaction of vesting conditions. The fair value of options granted under ESOS is recognized as an employee benefits expense with a corresponding increase in equity. The total amount to be expensed is determined reference to the fair value of the options granted excluding the impact of any service conditions. Information about the valuation techniques and inputs used in determining the fair value of options disclosed in note 51.

The total expense is recognized over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied. At the end of each period, the entity revises its estimates of the number of options that are expected to vest based on the service conditions. It recognizes the impact of the revision to original estimates, if any, in profit or loss, with a corresponding adjustment to equity.

**2.20. Foreign currency translation**

(i) Functional and presentation currency

Items included in consolidated financial statements of the Group are measured using the currency of the primary economic environment in which the Group operates ('the functional currency'). The consolidated financial statements are presented in Indian rupee (INR), which is Group's functional and presentation currency.

(ii) Translation and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are recognized in profit or loss.

**2.21. Dividends**

Provision is made for the amount of any dividend declared, being appropriately authorized and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

**2.22. Earnings per share**

a) Basic earnings per share

Basic earnings per share is calculated by dividing the net profit for the period (excluding other comprehensive income) attributable to equity share holders of the Group by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus element in equity shares issued during the year

b) Diluted earnings per share

Diluted earnings per share is computed by dividing the net profit for the period (excluding other comprehensive income) attributable to equity shareholders by the weighted average number of shares outstanding during the period as adjusted for the effects of all diluted potential equity shares except where the results are anti-dilutive. Further, when a subsidiary issues the potential ordinary shares that are convertible into the ordinary shares of the subsidiary, to parties other than the parent and if these potential ordinary shares of the subsidiary have a dilutive effect on the basic earnings per share of the reporting entity, they are included in the calculation of diluted earnings per share.

### 2.23. Borrowing Costs

Expenses related to borrowing cost are accounted using effective interest rate. Borrowing costs are interest and other costs (including exchange differences relating to foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs) incurred in connection with the borrowing of funds. Borrowing costs directly attributable to acquisition or construction of an asset which necessarily take a substantial period of time to get ready for their intended use are capitalised as part of the cost of that asset. Other borrowing costs are recognised as an expense in the period in which they are incurred. The difference between the discounted amount mobilised and redemption value of commercial papers is recognised in the statement of profit and loss over the life of the instrument using the EIR.

### 2.24. Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker of the Group.

The power to assess the financial performance and position of the Group and make strategic decisions is vested in the managing director who has been identified as the Chief Operating Decision Maker.

The primary business of the Group comprises of "Capital market", "Fund based activities", "Asset Management and Advisory" and "Home Finance". The business segments have been identified considering the nature of services, the differing risks and returns, the organization structure and the internal financial reporting system. Capital market activities includes Broking services to clients, research and advisory services, financial product distribution, depository services and investment banking. Fund based activities include investment activities (Investment in securities and property) and financing activity. Asset management and advisory includes fee based services for management of assets. Home Finance represents interest and other related income from affordable housing finance business.

### 2.25. Rounding of amounts

All amounts disclosed in the consolidated financial statements and notes have been rounded off to the nearest lakh as per the requirements.

Motilal Oswal Financial Services Limited  
Summary of significant accounting policies and other explanatory information

2.26. Events after reporting date

Where events occurring after the balance sheet date provide evidence of conditions that existed at the end of the reporting period, the impact of such events is adjusted within the consolidated financial statements. Otherwise, events after the balance sheet date of material size or nature are only disclosed.

2.27. Recent accounting developments

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On 23 March, 2022, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2022, applicable from 01 April, 2022, as below:

Ind AS 16 – Property Plant and equipment - The amendment clarifies that excess of net sale proceeds of items produced over the cost of testing, if any, shall not be recognised in the profit or loss but deducted from the directly attributable costs considered as part of cost of an item of property, plant, and equipment. The effective date for adoption of this amendment is annual periods beginning on or after 01 April, 2022. The Company has evaluated the amendment and there is no impact on its financial statements.

Ind AS 37 – Provisions, Contingent Liabilities and Contingent Assets – The amendment specifies that the 'cost of fulfilling' a contract comprises the 'costs that relate directly to the contract'. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract (examples would be direct labour, materials) or an allocation of other costs that relate directly to fulfilling contracts (an example would be the allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract). The effective date for adoption of this amendment is annual periods beginning on or after 01 April, 2022, although early adoption is permitted. The Company has evaluated the amendment there is no impact on its financial statements.

3. Key accounting estimates and judgements

The preparation of consolidated financial statements requires management to make judgments, estimates and assumptions in the application of accounting policies that affect the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Continuous evaluation is done on the estimation and judgments based on historical experience and other factors, including expectations of future events that are believed to be reasonable. Revisions to accounting estimates are recognised prospectively.

Information about critical judgments in applying accounting policies, as well as estimates and assumptions that have the most significant effect to the carrying amounts of assets and liabilities within the next financial year, are included in the following notes:

(a) Provision and contingent liability: On an ongoing basis, Group reviews pending cases, claims by third parties and other contingencies. Contingent losses that are considered probable, an estimated loss is recorded as an accrual in consolidated financial statements. Loss Contingencies that are considered possible are not provided for but disclosed as Contingent liabilities in the consolidated financial statements. Contingencies the likelihood of which is remote are not disclosed in the consolidated financial statements. Gain contingencies are not recognized until the contingency has been resolved and amounts are received or receivable.

(b) Allowance for impairment of financial asset: Judgements are required in assessing the recoverability of overdue loans and determining whether a provision against those loans is required. Factors considered

**Motilal Oswal Financial Services Limited**

**Summary of significant accounting policies and other explanatory information**

include the aging of past dues, value of collateral and any possible actions that can be taken to mitigate the risk of non-payment.

(c) Recognition of deferred tax assets - Deferred tax assets are recognised for unused tax-loss carryforwards and unused tax credits to the extent that realisation of the related tax benefit is probable. The assessment of the probability with regard to the realisation of the tax benefit involves assumptions based on the history of the entity and budgeted data for the future.

(d) Defined benefit plans - The cost of defined benefit plans and the present value of the defined benefit obligations are based on actuarial valuation using the projected unit credit method. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long - term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

(e) Share based payment – The Group account for share based payment by measuring and recognizing as compensation expense the fair value of all share-based payment awards made to employees based on estimated grant date fair values. The determination of fair value involves a number of significant estimates. The Group uses the Black Scholes option pricing model to estimate the value of employee stock options which requires a number of assumptions to determine the model inputs. These include the expected volatility of Group's stock and employee exercise behavior which are based on historical data as well as expectations of future developments over the term of the option. As stock-based compensation expense is based on awards ultimately expected to vest. Management's estimate of exercise is based on historical experience but actual exercise could differ materially as a result of voluntary employee actions and involuntary actions which would result in significant change in our share based compensation expense amounts in the future.

(f) Property, plant and equipment and Intangible Assets - Management reviews the estimated useful lives and residual values of the assets annually in order to determine the amount of depreciation to be recorded during any reporting period. The useful lives and residual values as per schedule II of the Companies Act, 2013 or are based on the Group's historical experience with similar assets and taking into account anticipated technological changes, whichever is more appropriate.

(g) Leases - The Group evaluates if an arrangement qualifies to be a lease as per IND AS 116.  
- The Group determines lease term as a non-cancellable period of a lease, together with both the period covered by an option to extend the lease if the Company is reasonably certain to exercise lessee options.  
- The determination of the incremental borrowing rate used to measure lease liabilities

## INDEPENDENT AUDITOR'S REPORT

To

The Members of **Motilal Oswal Financial Services Limited**

### Opinion

1. We have audited the accompanying consolidated financial statements of **Motilal Oswal Financial Services Limited** (the "Holding Company") and its subsidiaries (Holding company and its subsidiaries together referred to as the "Group") and its associate for the year ended March 31, 2022 attached herewith, which comprise the Consolidated Balance Sheet as at 31 March 2022, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Cash Flow Statement and the Consolidated Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information.
2. In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of the other auditors on separate audited financial statements and on the other financial information of the subsidiaries and associate, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including Indian Accounting Standards ("Ind AS") specified under section 133 of the Act, of the consolidated state of affairs of the Group and its associate as at 31 March 2022, and their consolidated profit (including other comprehensive income), consolidated cash flows and the consolidated changes in equity for the year ended on that date.

### Basis for Opinion

3. We conducted our audit of the s in accordance with the Standards on Auditing (SA's) specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are Independent of the Group and its associate in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (the "ICAI") together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act, 2013 ("the Act") and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidences obtain by us and by other auditor in terms of their reports referred to in the paragraph 19 of other matter section below, is sufficient and appropriate to provide a basis for our opinion.

## Emphasis of Matter

4. We draw your attention to Note 42 of the consolidated financial results, as regards the management's assessment of the financial impact due to restrictions and conditions related to COVID-19 pandemic situation in respect of one of the subsidiary Company.

Our opinion is not modified in respect of this matter.

## Key Audit Matters

5. Key audit matters are those matters that, in our professional judgment and based on the consideration of the reports of the other auditors on separate financial statements and on the other financial information of the subsidiaries and associate, were of most significance in our audit of the consolidated financial statements of the current year. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.
6. We have determined the matters described below to be the key audit matters to be communicated in our report.

Sr. No.	Key audit matters	How our audit addressed the key audit matter
1.	<p><b>Impairment of loans and advances to customers</b></p> <p>Refer to the accounting policies in "Note 2.9 (ii) to the financial statements: Impairment", "Note 3 (b) to the consolidated Financial Statements: Significant Accounting Policies - use of estimates and judgement" and "Note 7 to the consolidated Financial Statements: Loans"</p> <p>As at March 31, 2022, Motilal Oswal Home Finance Limited ('MOHFL') has reported the carrying value of loan assets measured at amortised cost, aggregated Rs. 3,43,455 lakhs (net of allowance of ECL Rs. 8,533 lakhs). The estimation of ECL on financial instruments involves significant judgement and estimates. As part of our risk assessment, we determined that the allowance for ECL on loan assets has a high degree of estimation uncertainty, with a potential range of reasonable outcomes for the financial statements.</p>	<p><b>Our Audit Approach:</b></p> <p>Our audit approach was a combination of test of internal controls and substantive procedures which included the following:</p> <p>a) Testing the design and effectiveness of internal controls over the following:</p> <ul style="list-style-type: none"><li>➤ key controls over the completeness and accuracy of the key inputs, data and assumptions into the Ind AS 109 impairment models.</li><li>➤ key controls over the application of the staging criteria consistent with the definitions applied in accordance with the policy approved by the Board of Directors including the appropriateness of the qualitative factors.</li><li>➤ management's controls over authorisation and calculation of post model adjustments and management overlays to the output of the ECL model.</li></ul> <p>b) Also, for a sample of ECL allowance on loan assets tested:</p> <ul style="list-style-type: none"><li>➤ Sample testing over key inputs, data and assumptions impacting ECL calculations to assess the completeness, accuracy and relevance of data, reasonableness of</li></ul>

Sr. No.	Key audit matters	How our audit addressed the key audit matter
	<p>The elements of estimating ECL which involved increased level of audit focus are the following:</p> <p>a) Data inputs - The application of ECL model requires several data inputs.</p> <p>b) Model estimations – Inherently judgmental models are used to estimate ECL which involves determining Probabilities of Default (“PD”), Loss Given Default (“LGD”), and Exposures at Default (“EAD”). The PD and the LGD are the key drivers of estimation complexity in the ECL and as a result are</p> <p>c) considered the most significant judgmental aspect of the Company’s modelling approach.</p> <p>d) Qualitative and quantitative factors used in staging the loan assets measured at amortised cost.</p> <p>e) Economic scenarios – Ind AS 109 requires the Company to measure ECLs on an unbiased forward-looking basis reflecting a range of future economic conditions. Significant management judgement is applied in determining the economic scenarios used and the probability weights applied to them especially when considering the current uncertain economic environment arising from ongoing COVID-19 pandemic.</p> <p>f) Adjustments to model driven ECL results to address emerging trends.</p>	<p>economic forecasts, weights, and model assumptions applied.</p> <p>➤ we evaluated reasonableness of LGD estimates by comparing actual recoveries post the loan asset becoming credit impaired with estimates of LGD; and</p> <p>➤ we tested the mathematical accuracy and computation of the allowances by using the same input data used by the Company.</p> <p>c) We also evaluated the adequacy of the adjustment after stressing the inputs used in determining the output as per the ECL Model and ensured that the adjustment was in conformity with the amount approved by the Audit Committee.</p> <p>d) Testing management’s controls on compliance with disclosures to confirm the compliance with the provisions of relevant provisions of Ind AS 109 and the RBI.</p> <p>e) Evaluating the appropriateness of the Company’s Ind AS 109 impairment methodologies and reasonableness of assumptions used, including management overlays.</p> <p>f) For models which were changed or updated during the year, evaluating whether the changes were appropriate by assessing the updated model methodology.</p> <p>g) The reasonableness of the Company’s considerations of the impact of the current ongoing economic environment due to COVID-19 on the ECL determination.</p> <p>h) Read and assessed the disclosures included in the Ind AS financial statements in respect of expected credit losses with the requirements of Ind AS 107 and Ind AS 109.</p>

Sr. No.	Key audit matters	How our audit addressed the key audit matter
2.	<p><b>Information Technology (IT) Systems and Controls</b></p> <p>The Motilal Oswal Financial Services Limited and Motilal Oswal Home Finance Limited key financial accounting and reporting processes are highly dependent on the automated controls over the Company's information systems, such that there exists a risk that gaps in the IT general control environment could result in a misstatement of the financial accounting and reporting records. Accordingly, we have considered user access management, segregation of duties and controls over system change over key financial accounting and reporting systems, as a key audit matter.</p>	<p><b>Our Audit Approach:</b></p> <p>Our audit approach was a combination of test of internal controls and substantive procedures which included the following:</p> <p><b>General IT controls design, observation and operation:</b></p> <ul style="list-style-type: none"> <li>➤ Tested key controls operating over the information technology in relation to financial accounting and reporting systems, including system access and system change management, program development and computer operations.</li> </ul> <p><b>User access controls operation:</b></p> <ul style="list-style-type: none"> <li>➤ Obtained management's evaluation of the access rights granted to applications relevant to financial accounting and reporting systems and tested resolution of a sample of expectations.</li> <li>➤ Further, we assessed the operating effectiveness of controls over granting, removal and appropriateness of access rights.</li> </ul> <p><b>Application controls:</b></p> <ul style="list-style-type: none"> <li>➤ We tested the design and operating effectiveness of automated controls critical to financial accounting and reporting.</li> <li>➤ For any identified deficiencies, tested the design and operating effectiveness of compensating controls and, where necessary, extended the scope of our substantive audit procedure.</li> </ul>
3.	<p><b>Valuation of equity investments carried at fair value</b></p> <p><b>Refer note 2.9 (2) for significant accounting policies and note 55 for financial disclosures</b></p> <p>As at 31 March 2022, the Company held investment in Shubham Housing Development Finance Company Private Limited amounting to Rs. 67.97 crores which represents 0.63 %</p>	<p>Our audit procedures in relation to valuation of investment with the involvement of our valuation experts included, but were not limited to, the following:</p> <p><b>Design/Controls:</b></p> <ul style="list-style-type: none"> <li>➤ Obtained a detailed understanding of the management's process and controls for determining the fair valuation of this investment. The understanding was obtained by performance of</li> </ul>

Sr. No.	Key audit matters	How our audit addressed the key audit matter
	<p>of the total assets of the Company as at 31 March 2022.</p> <p>This investment is not traded in the active market. The fair valuation of this investment is determined by a management appointed independent valuation expert based on discounted cash flow method. The process of computation of fair valuation of investment includes use of unobservable inputs and management judgements and estimates which are complex.</p> <p>The key assumptions underpinning management's assessment of fair value of this investment, includes application of liquidity discounts; calculation of discounting rates and the estimation of projections of revenues, projections of future cash flows and growth rates. The valuation of this investment was considered to be one of the areas which required significant auditor attention on and was one of the matters of most significance in the financial statements due to the materiality of total value of investment to the financial statements and the complexity involved in the valuation of this investment.</p>	<p>walkthroughs which included inspection of documents produced by the Company and discussion with those involved in the process of valuation;</p> <ul style="list-style-type: none"> <li>➤ Evaluated the design and the operational effectiveness of relevant key controls over the valuation process, including the Company's review and approval of the estimates and assumptions used for the valuation including key authorization and data input controls, independent price verification performed by the management expert and model governance and valuation.</li> </ul> <p><b>Substantive tests:</b></p> <ul style="list-style-type: none"> <li>➤ Assessed the appropriateness of the valuation methodology used for the of this investment in accordance with the Company's policy and tested the mathematical accuracy of the management's model adopted;</li> <li>➤ Obtained the valuation report from management's expert and assessed the expert's competence, objectivity and independence in performing the valuation of these investments;</li> <li>➤ Assessed the appropriateness of the valuation model used by the management and the assumptions used relating to projected cash flows and the discounting factor.</li> <li>➤ Ensured the appropriateness of the carrying value of these investments in the financial statements and the gain or loss recognised in the financial statements as a result of such fair valuation; and</li> <li>➤ Ensured the appropriateness and adequacy of disclosures in accordance with the applicable accounting standards.</li> </ul>

7. The auditors Aneel Lasod and Associates, Chartered Accountants, of Motilal Oswal Commodities Broker Private Limited (MOCBPL) vide their audit report dated April 25, 2022, have expressed an unmodified opinion on the financial statements. Based on consideration of their report and information submitted by them, we have reproduced the matter described below to be the key audit matter to be communicated in our report.

Key Audit Matters	Audit Procedures performed
<p><b>Legal &amp; Regulatory Risk:</b></p> <p>Refer Note 6 point 3 of the Consolidated financial statements</p> <p>Following default at National Spot Exchange Limited ('NSEL') in 2012 and initial investigations by Economic Offences Wing (EOW) and complaints received from investors against the broker of the now defunct spot exchange, NSEL and EOW in March and April 2015 had requested SEBI to take appropriate actions. However, In EOW report there was no allegation against Motilal Oswal Commodities Broker Private Limited (MOCBPL).</p> <p>In this manner, SEBI has issued Show Cause Notice to MOCBPL in financial year i.e. 2017-18 relating to NSEL Scam, for which management has replied accordingly.</p> <p>SEBI vide its order dated 22nd February 2019, rejected MOCBPL's registration application on the grounds that it is not fit and proper person to hold, directly or indirectly, the certificate of registration as commodity derivatives broker.</p>	<p>Following are the areas where risks are assessed &amp; procedures were followed.</p> <ul style="list-style-type: none"> <li>• <b>Recording of Receivables &amp; Dues - NSEL:</b> After scrutinising the books of accounts and discussion with the management it has been found that the amounts receivable from NSEL (Exchange) and due to the clients have direct nexus and MOCBPL has the role of a broker only. Hence, the amount receivable from Exchange has not been provided for Doubtful debts as they are directly payable to the Clients.</li> <li>• <b>Impact of SEBI order on the MOCBPL business:</b> The Company has already ceased its Commodity Broking business from April 2018. Also, the order of SEBI signifies that MOCBPL's registration application as Commodities Broker may be rejected; however the management doesn't plan to continue its Commodities Broking business under the company (MOCBPL). The company has also filed an appeal against the order of SEBI before the Securities Appellate Tribunal (SAT) &amp; the same is currently pending.</li> <li>• MOCBPL may have to refund the brokerage charged from the clients against which the management has already made provision in the books of accounts.</li> </ul> <p>Our procedures with respect to approaching the KAM:</p> <p>–<b>Enquiring with Accounts and Finance Team:</b> We have discussed with Finance team, Management and have scrutinised books of account.</p> <p>– Assessing management's conclusions and ensuring that updates regarding the</p>

	<p>manner are informed to us on timely basis.</p> <p>Our results: Based on the above procedures, whilst noting the inherent uncertainty with such legal matters, we concluded treatment of the matter as satisfactory.</p>
--	--

8. The auditors Shah & Savla LLP Chartered Accountants, of Motilal Oswal Finvest Limited vide their audit report dated April 27, 2022, have expressed an unmodified opinion on the financial statements. Based on consideration of their report and information submitted by them, we have reproduced the matter described below to be the key audit matter to be communicated in our report.

Key Audit Matter	Principal audit procedures performed
<p><b>1. Information Technology system for the financial reporting process</b></p> <p>The Company is highly dependent on its information technology (IT) systems for carrying on its operations which require large volume of transactions to be processed on a daily basis. Further, the Company's accounting and financial reporting processes are dependent on the automated controls enabled by IT systems which impacts key financial accounting and reporting items such as Interest income, Loan Balance, Non Performing Assets amongst others. The controls implemented by the Company in its IT environment determine the integrity, accuracy, completeness and validity of data that is processed by the applications and is ultimately used for financial reporting. Accordingly, since our audit strategy has focused on key IT systems and controls due to pervasive impact on the financial statements and performing testing of automated process controls and General controls; we have determined the same as a key audit matter for current year audit.</p>	<p>Our key audit procedures were relying on the work carried out by the IT specialists audit team, but were not limited to, the following:</p> <ul style="list-style-type: none"> <li>• Obtained an understanding of the Company's IT environment and conducted risk assessment and identified IT applications, databases and operating systems that are relevant to our audit. Also, obtained an understanding of key automated controls operating over such identified IT applications; For deficiencies identified if any by the IT specialist, specialist team tested compensating controls or performed alternative procedures.</li> </ul>

2. Impairment of loans	Principal audit procedures performed
<p>Ind AS 109, Financial Instruments requires the Company to provide for impairment of its financial assets using the expected credit loss ('ECL') approach which involves estimates for probability of loss on the financial assets over their life, unless there has been no significant increase in credit risk since origination, in which case, the allowance is based on the 12- month ECL, considering reasonable and supportable information about past events, current conditions and forecasts of future economic conditions which could impact the credit quality of the Company's financial assets. In this process, substantial judgement has been applied by the management in assessing the 'significant increase in credit risk' in respect of following matters:</p> <p>a) The Company has grouped its loan portfolio based on days past due and other qualitative criteria as mentioned in the Credit-risk section. Loans grouped under a particular category are assumed to represent a homogenous pool thereby expected to demonstrate similar credit characteristics.</p> <p>b) Staging of loans and estimation of behavioral life.</p> <p>c) Estimation of expected loss from historical observations.</p> <p>d) Estimation of losses in respect of those groups of loans which had no/ minimal defaults in the past.</p> <p>Considering the significance of above model for impairment to the overall financial statements and the degree of management's estimates and judgments involved including the regulatory announcement of moratorium facility and restructuring facility for eligible customers, this area required significant auditor attention to test such complex accounting estimates. Therefore, we have determined this to be a key audit matter for the current year audit</p>	<p>a) Assessed and tested the design and operating effectiveness of key internal financial controls over the loan impairment process used to calculate the impairment</p> <p>b) Assessed the critical assumptions used by the management for expected credit losses as at 31 March 2022.</p> <p>c) Assessed the assumptions used by the Company for grouping and staging of loan portfolio into various categories and default buckets based on their past-due status and other qualitative factors identified by the management which indicate significant increase in credit risk. For a sample of exposures, we tested the appropriateness of such staging.</p> <p>d) Understood and checked the key data sources and assumptions for data used in the ECL model used by the Company to determine impairment provisions.</p> <p>e) On sample basis tested the completeness and accuracy of the input data used and agreed the data with the underlying books of accounts and records.</p> <p>Tested the arithmetical accuracy of computation of ECL provision performed by the Company.</p>

<p>3. Management estimates impairment provision using Expected Credit loss model for the loan exposure as per the Board approved policy which is in line with Ind AS and the Regulations. Measurement of loan impairment involves application of significant judgement by the management. The most significant judgements are</p> <p>a) Timely identification and classification of the impaired loans, including classification of assets to stage 1, 2, or 3 using criteria in accordance with Ind AS 109 which also include considering the impact of RBI's regulatory circulars,</p> <p>b) The segmentation of financial assets when their ECL is assessed on a collective basis</p> <p>c) Determination of probability of defaults (PD) and loss given defaults (LGD) based on the default history of loans, subsequent recoveries made and other relevant factors and</p> <p>d) Assessment of qualitative factors having an impact on the credit risk.</p>	<p>We examined Board Policy that address policies, procedures and controls for assessing and measuring credit risk on all lending exposures, commensurate with the size, complexity and risk profile specific to the borrowers.</p> <p>We evaluated the design and operating effectiveness of controls across the processes relevant to ECL, including the judgements and estimates.</p> <p>We tested the completeness of loans and advances included in the Expected Credit Loss calculations as of March 31, 2022 by reconciling it with the balances as per loan balance register as on that date.</p> <p>We tested assets in stage 1, 2 and 3 on sample basis to verify that they were allocated to the appropriate stage.</p>

**Information other than the Consolidated Financial Statements and Auditor's Report thereon**

9. The Holding Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Report on Corporate Governance (but does not include the Consolidated Financial Statements and our auditor's report thereon) which we obtained prior to the date of this auditor's report and Board's Report, Management Discussion and Analysis and Business Responsibility Report, which is expected to be made available to us after that date.
- Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.
- In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the Consolidated Financial Statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.
- When we read the other information included in the above reports, if we conclude that there is material misstatement therein, we are required to communicate the matter to

those charged with governance and determine the actions under the applicable laws and regulations.

### **Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements**

10. The Holding Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with regard to the preparation and presentation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated changes in equity and consolidated cash flows of the Group including its associate in accordance with the accounting principles generally accepted in India, including the Ind AS specified under section 133 of the Act. The respective Board of Directors/management of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.
11. In preparing these consolidated financial statements, the respective Board of Directors/ Management of the companies included in the Group and of its associate are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.
12. Those respective Board of Directors/Management included in the Group and of its associate are also responsible for overseeing the Group's financial reporting process.

### **Auditor's Responsibilities for the Audit of the Consolidated Financial Statements**

13. Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

14. As part of an audit in accordance with Standards on auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
- i. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
  - ii. Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
  - iii. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
  - iv. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its associate to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associate to cease to continue as a going concern.
  - v. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
  - vi. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the of which we are the independent auditors, to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.
15. Materiality is the magnitude of the misstatement in the statement that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the statement may be influenced. We consider quantitative

materiality and qualitative factors in; (i) planning the scope of our audit work and evaluating the results of our work; and (ii) to evaluate the effects of any identified misstatements in the consolidated financial statements.

16. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
17. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
18. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### **Other Matters**

19. We did not audit the financial statements of eight subsidiaries, whose financial statements reflects total assets of Rs. 3,27,428 lakhs as at March 31, 2022, total revenue of Rs. 58,699 lakhs, total net profit after tax of Rs. 23,678 lakhs for the year ended March 31, 2022 respectively, total comprehensive income of Rs. 25,647 lakhs for the year ended March 31, 2022, as considered in the consolidated financial Statements. The consolidated financial Statements also includes the Group's share of the net profit after tax and total comprehensive income of Rs. 178 lakhs for the year ended March 31, 2022, in respect of one associate, whose financial statements have not been audited by us. These financial statements have been audited by other auditors whose audit report have been furnished to us by the management, and our opinion in so far as it relates to the amount and disclosures included in respect of those subsidiaries/associate is based solely on the audit report of such other auditors, and the procedure performed by us as stated in the paragraph 3 above.

Our opinion above on the consolidated financial statements, and our report on other legal and regulatory requirements below, are not modified in respect of the above matters with respect to our reliance on the work done by and the reports of the other auditors.

20. The consolidated financial statements includes the consolidated financial statements of four subsidiaries which have not been audited, whose annual financial statements reflect total assets of Rs. 4,003 lakhs as at March 31, 2022, total revenue of Rs. 12,241 lakhs, total net profit after tax and total comprehensive income of Rs. 8,013 lakhs for the year ended March 31, 2022 respectively. These financial statements have been furnished to

us by the Holding Company's management. Our opinion is so far as it relates to the amounts and disclosures included in respect of aforesaid subsidiaries is based solely on such unaudited financial statements. In our opinion, and accordance to the information and explanation given to us by the management, are not material to the Group.

Our opinion above on the consolidated financial statements, and our report on other legal and regulatory requirements below, are not modified in respect of the above matter with respect to our reliance on the financial statements certified by the management.

21. As mentioned in note no. 61 of the consolidated financial statements, figures for the year ended March 31, 2021 as shown in the consolidated financial statements are the figures which have been arrived after giving effect to the scheme of arrangement, which is based on the audited accounts of the transferor and transferee Company, which were audited by the respective auditors of that period. Hence, these merged figures are neither audited nor reviewed. The Company has given effect to the scheme of arrangement with effect from the appointed date April 1, 2020. Accordingly, we, do not express any opinion, as the case may be, on the figures reported in the financial statements for the year ended March 31, 2021.

#### **Report on Other Legal and Regulatory Requirements**

22. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, based on our audit and on the consideration of report of the other auditors on separate financial statements and the other financial information of the subsidiary companies, as noted in the 'Other Matter' paragraph we give in the "Annexure A" a statement on the matters specified in paragraph 3(xxi) of the Order.
23. As required by Section 143(3) of the Act, based on our audit and on the consideration of report of the other auditors on separate financial statements and the other financial information of subsidiaries and associate as noted in the 'other matter' paragraph we report, to the extent applicable, that:
  - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the aforesaid consolidated financial statements;
  - b. In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors.
  - c. The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss including the Statement of Other Comprehensive income, the Consolidated Cash Flow Statement and Consolidated Statement of Changes in Equity dealt with by this Report are in agreement with the books of account maintained for the purpose of preparation of the consolidated financial statements;

- d. In our opinion, the aforesaid consolidated financial statements comply with the Ind AS specified under section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended;
- e. On the basis of written representations received from the directors of the Holding Company as on March 31, 2022, taken on record by the Board of Directors of the Holding Company and reports of the statutory auditors who are appointed under Section 139 of the Act, of its subsidiary companies, none of the directors of the Group's companies, is disqualified as on 31 March, 2022 from being appointed as a director in terms of Section 164 (2) of the Act.
- f. With respect to the adequacy of the internal financial controls with reference to the consolidated financial statements of the Group and the operating effectiveness of such controls, we request you to refer to our separate Report in "Annexure B" to this report.
- g. In our opinion and based on the consideration of reports of other statutory auditors of the subsidiaries, the managerial remuneration for the year ended March 31, 2022 has been paid/provided by the Group to their directors is in accordance with the provisions of Section 197 read with Schedule V to the Act.
- h. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the report of the other auditors on separate financial statements as also the other financial information of the subsidiaries and associate:
- i. The consolidated financial statements disclose the impact of pending litigations on its consolidated financial position of the Group and associate, in its consolidated financial statements – refer note 39 to the consolidated financial statements;
- ii. The Group and associate did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses as at 31 March 2022;
- iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Group during the year ended 31 March 2022;
- iv. (a) The respective managements of the Group and associate whose financial statements have been audited under the Act have represented to us and the other auditors of such subsidiaries respectively that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Holding Company or any of such subsidiaries or associate to or in any other person or entity, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the respective Holding Company or any of such subsidiaries or associate ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

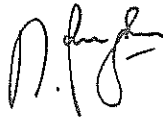

(b) The respective managements of the Group and associate whose financial statements have been audited under the Act have represented to us and the other auditors of such subsidiaries respectively that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the respective Holding Company or any of such subsidiaries from any person or entity, including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Holding Company or any of such subsidiaries or associate shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and

(c) Based on audit procedures that have been considered reasonable and appropriate in the circumstances; nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.

v. The dividend declared or paid during the year and subsequent to the year- end by the Group and associate is in compliance with Section 123 of the Act.

**Annexure B to the Independent Auditor's Report of even date on the Consolidated Financial Statements of Motilal Oswal Financial Services Limited**

Referred to in paragraph [23(f)] under Report on Other Legal and Regulatory Requirements of our report of even date

**Report on the Internal Financial Controls over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

In conjunction with our audit of the consolidated financial statements of Motilal Oswal Financial Services Limited (hereinafter referred to as the "Holding Company") as of and for the year ended March 31, 2022, we have audited the internal financial controls with reference to consolidated financial statements of the Holding Company and its subsidiaries (the Holding Company and its subsidiaries together referred to as the "Group"), as of that date.

**Management's Responsibility for Internal Financial Controls**

The respective Board of Directors of the Holding Company and its subsidiary companies, which are companies covered under the Act are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Holding Company and subsidiary considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

**Auditor's Responsibility**

Our responsibility is to express an opinion on the Holding Company's and its subsidiaries companies internal financial controls with reference to consolidated financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing as specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls and both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting with reference to consolidated financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting with reference to consolidated financial statements and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed

risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matter paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to consolidated financial statements.

### **Meaning of Internal Financial Controls over Financial Reporting with reference to consolidated financial statements**

A Company's internal financial control over financial reporting with reference to consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that:

(1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;

(2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and

(3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

### **Inherent Limitations of Internal Financial Controls over Financial Reporting with reference to consolidated financial statements**

Because of the inherent limitations of internal financial controls over financial reporting with reference to consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting with reference to consolidated financial statements to future periods are subject to the risk that the internal financial control over financial reporting with reference to consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

## Opinion

In our opinion and based on the consideration of the reports of the other auditors on internal financial controls with reference to financial statements of the subsidiary companies, the Group covered under the Act, have in all material respects, adequate internal financial controls with reference to financial statements and such controls were operating effectively as at 31 March 2022, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

## Other Matter

Our report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to consolidated financial statements of the Holding Company, in so far as it relates to the eight subsidiaries which are audited by other auditors, is based on the corresponding reports of the auditors of such subsidiaries. Further as associate is a Limited Liability Partnership (LLP) firm, hence report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls is not applicable to it.

b) Unsecured, considered good	49,436	46,782
c) Credit impaired	846	599
Less : Allowances for impairment losses	(2,403)	(1,668)
	<u>1,00,309</u>	<u>91,123</u>
<b>(ii) Other receivables</b>		
a) Other	23	60
	<u>23</u>	<u>60</u>
	<u>1,00,332</u>	<u>91,184</u>

\* Secured against securities given as collateral by the customers.

1) Trade receivables are recognised initially at fair value and subsequently measured at amortised cost less loss allowances. The Group applies the Ind AS 109 simplified approach to measuring expected credit losses (ECLs) for trade receivables at an amount equal to lifetime ECLs. The ECLs on trade receivables are calculated based on actual historic credit loss experience over the preceding three to five years on the total balance of non-credit impaired trade receivables. The Group considers a trade receivable to be credit impaired when one or more detrimental events have occurred, such as significant financial difficulty of the client or it becoming probable that the client will enter bankruptcy or other financial reorganization. When a trade receivable is credit impaired, it is written off against trade receivables and the amount of the loss is recognised in the profit and loss statement. Subsequent recoveries of amounts previously written off are credited to the income statement. In line with the Group's historical experience, and after consideration of current credit exposures, the Group has recognised Rs. 735 lakhs (Previous year: Rs. 510 lakhs) as the ECL provision for the current year.

2) No trade or other receivable are due from directors or other officers of the Group either severally or jointly with any other person. Nor any trade or other receivable are due from firms or private companies respectively in which any director is a partner, a director or a member.

3) Trade receivables in case of the Group includes Rs. 24,994 Lakhs (Previous year Rs. 24,994 Lakhs) receivable from National Spot Exchange Limited on behalf of customers and the same is also shown as Other Trade payable to customers at Rs. 24,576 Lakhs (Previous year Rs.24,576 Lakhs) which will become due only on receipt from National Spot Exchange Limited.

**b) Terms/rights attached to shares :**

**Equity shares**

The Company has one class of equity shares having a par value of Rs. 1 each (previous year having a par value of Rs. 1 each). Each holder of equity shares is entitled to one vote per share. In the event of liquidation of the Company, the holder of the equity shares will be entitled to receive any of the remaining assets of the Company, after distribution of all the preferential amounts. The distribution will be in proportion to the number of equity shares held by the shareholders. The Company declares and pays dividend in Indian rupees. The dividend proposed by the Board of Directors is subject to the approval of shareholders in the ensuing Annual General Meeting.

During the year ended 31 March 2022, dividend recognized as distribution to equity shareholders was Rs. 5.00 per share consisting of final dividend of Rs. 5.00 per share for year ended 31 March 2021 and interim dividend of Rs. 7.00 per share for year ended 31 March 2022. The total dividend appropriated amounts to Rs. 7,304 lakhs (previous year Rs. 4991 lakhs).

**Preference shares**

The Company has only one class of preference shares having a par value of Rs. 100 and there are no preference shares issued and subscribed as at 31 March 2022 and 31 March 2021.

**c) Shares reserved for issue under options**

Information relating to the Employee Stock Option Scheme (ESOS), including details regarding options issued, exercised and lapsed during the year and options outstanding at the end of the reporting period is set out in note 51.

**d) Details of shareholders holding more than 5% of the shares in the Company**

## Motilal Oswal Financial Services Limited

### Summary of significant accounting policies and other explanatory information to the consolidated financial statements

(All amounts are in INR Lakhs, unless otherwise stated)

#As per Para 78 of scheme of arrangement, all costs, charges, taxes including duties, levies and all other expenses, if any (save as expressly otherwise agreed) arising out of or incurred in carrying out and implementing Part B of the Scheme and matters incidental thereto shall be borne by the Promoters of the Transferor Company i.e. Passionate Investment Management Private Limited/Transferor Company 1 and no cost shall be incurred by public shareholders of the Transferee Company i.e. Motilal Oswal Financial Services Limited.

In line with above paragraph, Transferor Company 1 has created a provision for stamp duty payable of Rs 3,000 lakhs on the transfer of shareholding from PIMPL to its shareholders and simultaneously claiming Deferred tax benefit of Rs 755 lakhs thereon. The said expense has not been routed through Profit and Loss statement but utilized from reserves of PIMPL and corresponding PD has been created to give the effect. Thus there is no impact on the profit and loss account of the merged entity and is cashflow neutral to the shareholders of the transferor and transferee company with respect to the retrospective accounting.

Thus, Transferor Company 1 (PIMPL) has created sufficient Free Reserve pursuant to scheme of merger against which the Stamp duty net of taxes of Rs. 2,245 lakhs can be reduced to that extent.

#### i) Other comprehensive income

Balance at the beginning of the year	41,899	12,707
Add: Other comprehensive income for the year	4,106	29,192
	<u>46,005</u>	<u>41,899</u>

#### j) Impairment reserve

Balance at the beginning of the year	62	62
Add: Transferred from statement of profit and loss	28	-
	<u>90</u>	<u>62</u>
	<u>5,65,946</u>	<u>4,44,657</u>

Nature and purpose of Other Reserve :

#### Statutory Reserve

The Company creates a reserve fund in accordance with the provisions of section 290 of The National Housing Bank Act, 1987 and section 45-IC of the Reserve Bank of India Act, 1951 and transfers therein an amount of equal to/more than twenty per cent of its net profit of the year, before declaration of dividend.

#### Capital Redemption Reserve

The capital redemption reserve is created to be utilised towards redemption of preference shares. The reserve will be utilised in accordance with provision of the Act.

#### Securities Premium

Security premium account is use to record the premium received on issue of shares. The reserve will be utilised in accordance with the provisions of the Act.

#### Employee stock options outstanding reserve

Share option outstanding account is used to recognize the grant date fair value of equity settle instruments issued to employees under the stock option scheme of the company.

#### Capital reserve on consolidation

Capital reserve is the excess of net assets taken over cost of consideration paid for subsidiaries.

#### General reserve

The general reserve is used from time to time to transfer profits from retained earnings for appropriation purposes. As the general reserve is created by a transfer from one component of equity to another and is not an item of other comprehensive income, items included in the general reserve will not be reclassified subsequently to statement of profit and loss. general reserve is used to transfer to debenture redemption reserve.

#### Debenture redemption reserve

Debenture Redemption Reserve is created as per Rule 18(7)(b)(iii) of Companies (Share Capital and Debentures) Rules, 2014, the same should be created before redemption of Non convertible debenture starts. Debenture Redemption Reserve is being created by transferring from general reserve.

**Motilal Oswal Financial Services Limited**

**Summary of significant accounting policies and other explanatory information to the consolidated financial statements**

(All amounts are in INR Lakhs, unless otherwise stated)

**Foreign currency translation reserve**

Foreign currency translation reserve is created out of Exchange differences in translating the financial statements of foreign operations.

**Impairment reserve**

Where impairment allowance under Ind AS 109 is lower than the provisioning required under prudential norms on Income Recognition, Asset Classification and Provisioning (IRACP), including standard asset provisioning, NBFCs /HFCs shall appropriate the difference from their net profit or loss after tax to a separate 'Impairment Reserve'. The balance in the 'Impairment Reserve' shall not be reckoned for regulatory capital. Further, no withdrawals shall be permitted from this reserve without prior permission from the Department of Supervision, RBI.

**Retained earnings**

Retained earnings represents accumulated profits of the company.

**Other comprehensive income**

Other comprehensive income consists of cumulative gains on the fair valuation of equity instruments measured at fair value through other comprehensive income and remeasurement gains/loss on defined benefit plan.

**Mutual Oswal Financial Services Limited**

**Summary of significant accounting policies and other explanatory information to the consolidated financial statements**

(All amounts are in INR Lakhs, unless otherwise stated)

**Note : 38.1 Tax expense**

The Company pays taxes according to the rates applicable in India. Most taxes are recorded in the income statement and relate to taxes payable for the reporting period (current tax), but there is also a charge or credit relating to tax payable for future periods due to income or expenses being recognised in a different period for tax and accounting purposes (deferred tax). Tax is charged to equity when the tax benefit exceeds the cumulative income statement expense on share plans. The Company provides for current tax according to the tax laws of India using tax rates that have been enacted or substantively enacted by the balance sheet date. Management periodically evaluates positions taken in tax returns in respect of situations in which applicable tax regulation is subject to interpretation. It establishes provisions, where appropriate, on the basis of amounts expected to be paid to the tax authorities. Deferred tax is provided, using the liability method, on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes. Deferred tax is recognised in respect of all temporary differences that have originated but not reversed at the balance sheet date, where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the balance sheet date. A deferred tax asset is recognised when it is considered recoverable and hence recognised only when, on the basis of all available evidence, it can be regarded as probable that there will be suitable taxable profits against which to recover carried forward tax losses and from which the future reversal of underlying temporary differences can be deducted. Deferred tax is measured at the average tax rates that are expected to apply in the periods in which the temporary differences are expected to reverse, based on tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

**Note 39 Contingent liabilities and commitments to the extent not provided for**

(A) (i). The Group has provided bank guarantees aggregating to Rs. 1,28,258 lakhs (Previous year - Rs. 1,02,029 lakhs) as on 31 March 2022 for the following purposes:

- 1) Bombay Stock Exchange Limited - Rs. Nil lakhs (Previous year - 10,000 lakhs) for meeting margin requirements
- 2) National Stock exchange - Rs.1,36,668 lakhs (Previous year - Rs.12,560 lakhs) for meeting margin requirements
- 3) Multi Commodity Exchange - Rs. Nil (Previous year Rs.4,000 lakhs) for meeting margin requirements.
- 4) Unique Identification Authority - Rs. 25 lakhs (Previous year Rs.25 lakhs) for security deposit
- 5) Hindalco Industries Limited - Rs.1,500 lakhs (Previous year Rs.1,500 lakhs) for margin deposit
- 6) Municipal Corporation of Greater Mumbai - Rs. 3 lakhs (Previous year Rs. 3 lakhs) lakhs for security deposit
- 7) Bombay High Court - Rs. 35 lakhs for security deposit (Previous year - Rs.35 lakhs)
- 8) Bank of Maharashtra - Rs. 3 lakhs for security deposit (Previous year - Rs. 3 lakhs)
- 9) The Company has given corporate guarantees of Rs. Nil (Previous year Rs. 74,339 lakhs) to Bank's and SCD providers for its subsidiary Motilal Oswal Loan Disbursement Co.

(ii). The Group has pledged fixed deposits with banks aggregating Rs. 64,899 lakhs (Previous year Rs. 14,568 lakhs) for obtaining Bank guarantee.

(iii). The Hon'ble Supreme Court of India ("SC") by their order dated 25 February 2019, in the case of Surya Rohan Limited & others v/s EPLFO, set out the principles based on which allowances paid to the employees should be identified for inclusion in basic wages for the purposes of computation of Provident Fund contribution. Pending directions from the EPLFO for the applicability of SC judgement for the past period, if any, the impact is not ascertainable at present and consequently no effect has been given in the books of account.

(B) Particulars	As at 31 March 2022	As at 31 March 2021
Demand in respect of income tax matters for which appeal is pending (refer note 6)	4,193	4,126

(i) Demand in respect of Income Tax matters for which appeal is pending is Rs. 4,193 lakhs (Previous year Rs. 4,126 lakhs). This is disputed by the Company and hence not provided for. The Company has paid demand of Rs. 468 lakhs till date (Previous year Rs. 517 lakhs) under protest. These does not include interest @ 23.46% & @ 23.4% as same in the books of accounts depends on the outcome of demand.

The Group is contesting the demands and the management believes that its position will likely be upheld in the appellum process. No tax expenses has been accrued in the financial statement for the tax demand raised. The management believes that ultimate outcome of this proceeding will not have a material adverse effect on the Group's financial position and operating results.

**Motilal Oswal Financial Services Limited**

**Summary of significant accounting policies and other explanatory information to the consolidated financial statements**

(All amounts are in INR Lakhs, unless otherwise stated)

**Note 42 Impact of COVID-19**

The SARS-CoV-2 virus responsible for COVID-19 continues to spread across the globe and India. On 11 March 2020, the COVID-19 outbreak was declared as a global pandemic by the World Health Organization. Governments and companies including Motilal Oswal Home Finance Limited have introduced & continued a variety of measures to contain the spread of the virus.

The economic fallout on account of the Covid-19 pandemic has led to significant financial stress for borrowers across the board. RBI in view of same on 6 August 2020 & 5 May 2021 came up with resolution plan Framework for COVID-19-related Stress. The intent was to facilitate revival of real estate sector activities and mitigate the impact on the ultimate borrowers, it has been decided to provide a window under the Prudential Framework, to enable the lenders to implement a resolution plan in respect of eligible borrowers.

In cognizance of above RBI Circular, Company duly implemented measure to offer the facility of restructuring to its eligible customers identified base RBI circular on resolution plan & joint decision of credit, risk, collection & legal departments of the company. The Company has Board approved policy dated 29 October 2020 for implementation of resolution plan.

The Company has recognised provisions as on 31 March 2022 towards its loans based on the information available at this point of time including economic forecasts, in accordance with the Expected Credit Loss method. The Company believes that it has taken into account all the possible impact of known events arising out of COVID-19 pandemic in the preparation of financial results. However the impact assessment of COVID-19 is a continuing process given its nature and duration. The Company will continue to monitor for any material changes to future economic conditions.

**Note 43 Earnings per share**

**Basic earnings per share**

Basic earnings per share (EPS) is calculated by dividing the profit for the year by the weighted average number of ordinary shares outstanding during the year.

**Diluted earnings per share**

Diluted EPS is calculated by dividing the profit for the year by the weighted average number of ordinary shares outstanding during the year for the purpose of basic EPS plus the weighted average number of ordinary shares that would be issued on the conversion of all the dilutive potential ordinary shares into ordinary shares.

Particulars	For the year ended 31 March 2022	For the year ended 31 March 2021
Net Profit attributable to equity shareholders [A]	1,30,978	1,26,044

## INDEPENDENT AUDITOR'S REPORT

To

The Members of **Motilal Oswal Financial Services Limited**

### 1. Opinion

We have audited the accompanying standalone financial statements of **Motilal Oswal Financial Services Limited** (the "Company"), which comprise the Balance Sheet as at March 31, 2022, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Cash Flows and Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2022, and its profit, total comprehensive income, its cash flows and the changes in equity for the year ended on that date.

### 2. Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the Financial Statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the standalone financial statements.

### 3. Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current year. These matters were addressed in the context of our audit of the Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Sr. No.	Key audit matters	How our audit addressed the key audit matter
1.	<p><b>Business combination arising pursuant to the scheme of arrangement</b></p> <p>Accounting for business combination from the appointed date 1<sup>st</sup> April, 2020, where the scheme of arrangement became effective from 30<sup>th</sup> March, 2022 between Passionate Investment Management Pvt. Ltd. (transferor Company 1) and MOPE Investment Advisors Pvt. Ltd. (the transferee Company 2 / the demerged Company / the transferor Company 3) and Motilal Oswal Real Estate Investment Advisors Pvt. Ltd. (the transferor Company 2) and Motilal Oswal Real Estate Investment Advisors II Pvt. Ltd. (the demerged Company 2 / the transferor Company 4) and MO Alternate Investment Advisors Pvt. Ltd. (the resulting Company) and Motilal Oswal Financial Services Ltd. (the transferee Company 1 / the holding Company of the resulting Company) and the respective shareholders. The Company accounted for the merger as per Appendix C of Ind AS 103 under the principles of common control. We have determined this to be a key audit matter in view of the nature of the transaction, number of Companies involved in the scheme of arrangement, complexity involved in demerging the businesses operations and getting it merged between the Company and its subsidiary Company / resulting Company, significant management judgment involved with respect to identification of uniform accounting policies, estimates &amp; accounting for minimum alternate tax of the transferor Company and recognition of share issue related costs.</p>	<p>Our audit procedures included but were not limited to the following:</p> <ul style="list-style-type: none"> <li>• Read the scheme of arrangement.</li> <li>• Evaluated the appropriateness of 'Pooling of interest' method of accounting adopted by the management to account for the business combination.</li> <li>• Corroborated management's alignment of accounting policies and estimates by comparing the significant accounting policies and estimates of all the Companies which were part of the scheme of arrangement and comparing with the Company's accounting policies and estimates.</li> <li>• Assessed accounting for non-routine transaction, estimates and judgements in respect of the recognition and measurement of the minimum alternate tax of the transferor company, share issue expenses etc..</li> <li>• Verified that the reserves of the transferor Companies are aggregated with the respective reserves of the transferee Company and the identity of the reserves are preserved.</li> <li>• Verified that the assets and liabilities of the Transferor Companies are recognised at the carrying value (as appearing in their respective books immediately prior to the appointed date) in the transferred Company.</li> <li>• Examined the disclosures in respect of this transaction of business combination including those disclosures related to significant accounting judgements and estimates.</li> </ul>

Sr. No.	Key audit matters	How our audit addressed the key audit matter
2.	<p><b>Information Technology (IT) Systems and Controls</b></p> <p>The Company's key financial accounting and reporting processes are highly dependent on the automated controls over the Company's information systems, such that there exists a risk that gaps in the IT general control environment could result in a misstatement of the financial accounting and reporting records. Accordingly, we have considered user access management, segregation of duties and controls over system change over key financial accounting and reporting systems, as a key audit matter.</p>	<p><b>Our Audit Approach:</b></p> <p>Our audit approach was a combination of test of internal controls and substantive procedures which included the following:</p> <p><b>General IT controls design, observation and operation:</b></p> <ul style="list-style-type: none"> <li>➤ Tested key controls operating over the information technology in relation to financial accounting and reporting systems, including system access and system change management, program development and computer operations.</li> </ul> <p><b>User access controls operation:</b></p> <ul style="list-style-type: none"> <li>➤ Obtained management's evaluation of the access rights granted to applications relevant to financial accounting and reporting systems and tested resolution of a sample of expectations.</li> <li>➤ Further, we assessed the operating effectiveness of controls over granting, removal and appropriateness of access rights.</li> </ul> <p><b>Application controls:</b></p> <ul style="list-style-type: none"> <li>➤ We tested the design and operating effectiveness of automated controls critical to financial accounting and reporting.</li> <li>➤ For any identified deficiencies, tested the design and operating effectiveness of compensating controls and, where necessary, extended the scope of our substantive audit procedure.</li> </ul>
3.	<p><b>Valuation of equity investments carried at fair value</b></p> <p><b>Refer note 2.6 for significant accounting policies and note 54 for financial disclosures</b></p> <p>As at 31 March 2022, the Company held investment in Shubham Housing Development Finance Company Private Limited amounting to Rs. 67.97 crores which represents 0.63 %</p>	<p>Our audit procedures in relation to valuation of investment with the involvement of our valuation experts included, but were not limited to, the following:</p> <p><b>Design/Controls:</b></p> <ul style="list-style-type: none"> <li>➤ Obtained a detailed understanding of the management's process and controls for determining the fair valuation of this investment. The understanding was obtained by performance of</li> </ul>

Sr. No.	Key audit matters	How our audit addressed the key audit matter
	<p>of the total assets of the Company as at 31 March 2022.</p> <p>This investment is not traded in the active market. The fair valuation of this investment is determined by a management appointed independent valuation expert based on discounted cash flow method. The process of computation of fair valuation of investment includes use of unobservable inputs and management judgements and estimates which are complex.</p> <p>The key assumptions underpinning management's assessment of fair value of this investment, includes application of liquidity discounts; calculation of discounting rates and the estimation of projections of revenues, projections of future cash flows and growth rates. The valuation of this investment was considered to be one of the areas which required significant auditor attention on and was one of the matters of most significance in the standalone financial statements due to the materiality of total value of investment to the standalone financial statements and the complexity involved in the valuation of this investment.</p>	<p>walkthroughs which included inspection of documents produced by the Company and discussion with those involved in the process of valuation;</p> <ul style="list-style-type: none"> <li>➤ Evaluated the design and the operational effectiveness of relevant key controls over the valuation process, including the Company's review and approval of the estimates and assumptions used for the valuation including key authorization and data input controls, independent price verification performed by the management expert and model governance and valuation.</li> </ul> <p><b>Substantive tests:</b></p> <ul style="list-style-type: none"> <li>➤ Assessed the appropriateness of the valuation methodology used for the of this investment in accordance with the Company's policy and tested the mathematical accuracy of the management's model adopted;</li> <li>➤ Obtained the valuation report from management's expert and assessed the expert's competence, objectivity and independence in performing the valuation of these investments;</li> <li>➤ Assessed the appropriateness of the valuation model used by the management and the assumptions used relating to projected cash flows and the discounting factor.</li> <li>➤ Ensured the appropriateness of the carrying value of these investments in the financial statements and the gain or loss recognised in the financial statements as a result of such fair valuation; and</li> <li>➤ Ensured the appropriateness and adequacy of disclosures in accordance with the applicable accounting standards.</li> </ul>

#### **4. Information other than the Financial Statements and Auditor's Report thereon**

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Report on Corporate Governance (but does not include the Financial Statements and our auditor's report thereon) which we obtained prior to the date of this auditor's report and Board's Report, Management Discussion and Analysis and Business Responsibility Report, which is expected to be made available to us after that date.

Our opinion on the Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the Financial Statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the other information included in the above reports, if we conclude that there is material misstatement therein, we are required to communicate the matter to those charged with governance and determine the actions under the applicable laws and regulations.

#### **5. Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements**

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India, including the accounting standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

## 6. Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Standards on auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- i. Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ii. Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- iii. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- iv. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Company to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- v. Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of the misstatement in the statement that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the statement may be influenced. We consider quantitative materiality and qualitative factors in; (i) planning the scope of our audit work and evaluating the results of our work; and (ii) to evaluate the effects of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

## 7. Other Matters

- i. The comparative standalone financial statements of the Company as stated in the Financial Statements for the year ended March 31, 2021, were audited by the predecessor auditor who expressed an unmodified opinion on those financial statements on April 29, 2021. Accordingly, we do not express any opinion on the figures reported in the Financial Statements for the year ended March 31, 2021.
- ii. As mentioned in note no. 60 of the standalone financial statements, figures for the year ended March 31, 2021 as shown in the financial statements are the figures which have been arrived after giving effect to the scheme of arrangement, which is based on the audited accounts of the transferor and transferee Company, which were audited by the respective auditors of that period. Hence, these merged figures are neither audited nor reviewed. The Company has given effect to the scheme of arrangement with effect from the appointed date April 1, 2020. Accordingly, we, do not express any opinion, as the case may be, on the figures reported in the financial statements for the year ended March 31, 2021.
- iii. Share of profit from investment in a limited liability partnership aggregating to Rs. 255 lakhs for the year ended March 31, 2022, included in the Statement, is based on the audited financial statements of such entity. These financial statements have been furnished to us by the Management and our opinion on the Statement, in so far as it relates to the amounts and disclosures included in respect of this entity, is based solely on the report of the other auditor.

Our opinion is not modified in respect of the above matters.

## 8. Report on Other Legal and Regulatory Requirements

- i. As required by the Companies (Auditor's report) Order, 2020 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.
- ii. As required by section 143 (3) of the Act, based on our audit we report that:

- a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
- b. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- c. The standalone Balance Sheet, Statement of Profit and Loss including Other Comprehensive Income, the Statement of Cash Flow and Statement of Changes in Equity dealt with by this report are in agreement with the relevant books of account.
- d. In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended;
- e. On the basis of written representations received from the directors as on March 31, 2022, taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2022, from being appointed as a director in terms of section 164 (2) of the Act.
- f. With respect to the adequacy of the internal financial controls with reference to the financial statements of the Company and the operating effectiveness of such controls, we request you to refer to our separate Report in "Annexure B" to this report.
- g. With respect to the requirements of section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us the managerial remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.
- h. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
  - i. The Company has disclosed the impact of pending litigations on the financial position in its financial statements – Refer Note 38 to the financial statements;
  - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;
  - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company during the year ended March 31, 2022;
  - iv. (a) The Management has represented that to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner

whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.;

(b) The Management has represented that to the best of its knowledge and belief, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

(c) Based on audit procedures that have been considered reasonable and appropriate in the circumstances; nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.

- v. As stated in note 23 of the standalone financial statements, the dividend declared / paid during the year and declared during the year but paid subsequent to the year-end by the Company till the date of this report, is in compliance with Section 123 of the Act. Further, as stated in note 49 of the standalone financial statements the Board of Directors of the Company have proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The amount of dividend proposed is in accordance with section 123 of the Act.

**Annexure A to the Independent Auditor's Report of even date on the standalone financial statements of Motilal Oswal Financial Services Limited**

**Referred to in paragraph [8(i)] under Report on Other Legal and Regulatory Requirements of our report of even date**

According to the information and explanations sought by us and given by the Company and the books of account and records examined by us in the normal course of audit and to the best of our knowledge and belief, we state that:

- (i) a) A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment and relevant details of Right-of-use Assets.  
B) The Company has maintained proper records showing full particulars including quantitative details and situation of Intangible Assets.
- b) The Company has a program of physical verification of property, plant and equipment whereby all the items of property, plant and equipment are verified once in three years. The property, plant and equipment were physically verified during the previous year by the Management with a regular programme of verification, In our opinion, the periodicity of the physical verification is reasonable having regard to the size of the Company and the nature of its assets. According to the information and explanations given to us, no material discrepancies were noticed on such verification carried out during the previous year.
- c) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the title deeds of immovable properties included in Property, Plant and Equipment are held in the name of the Company.
- d) The Company has not revalued its Property, Plant and Equipment (including Right of Use assets) or Intangible Assets during the year.
- e) According to the information and explanations and representation given to us, no proceedings have been initiated or is pending against the Company during the year for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (45 of 1988) and rules made thereunder.
- (ii) a) The Company's business does not involve inventory and accordingly, paragraph 3(ii)(a) of the Order is not applicable to the Company.
- b) As disclosed in Note 16 to the financial statements, the Company has been sanctioned working capital limits in excess of five crore rupees, in aggregate, from banks on the basis of security of current assets. The Company has not obtained any sanction from financial institutions in this regard. Basis the information and explanation provided to us and basis our audit procedures undertaken, we have not come across any material difference between the information submitted in the quarterly returns / statements filed by the Company with such banks when compared with the books of account and other relevant information provided by the Company.
- (iii) a) The Company is in the business of providing loans which are called as margin trading funding (MTF). According to the explanations and representations given to us by the Company, this is one of the principal business of the Company which is also described in its object clause specified in Memorandum of Association. Accordingly, clause (iii)(a) is not applicable to the Company.

- b) In our opinion, having regard to the nature of the Company's business, the investments made and the terms and conditions of the grant of all loans and advances in the nature of loans are prima facie, not prejudicial to the Company's interest. Further, during the year the Company has not provided guarantees, given security and granted loans and advances in the nature of guarantees to companies, firms, Limited Liability Partnerships or any other parties. Accordingly, the requirement to report on these is not applicable to the Company.
- c) According to the information and explanations given to us, in case of loans given in the nature of MTF, the schedule of payment of interest has been stipulated but the schedule of repayment of such loans are not stipulated. In respect of loans and advances in the nature of loans other than MTF given by the Company, the Company has stipulated the schedule of repayment of principal and payment of interest. Repayment of such other loans are regular.
- d) In respect of loans granted and advances in the nature of loans provided by the Company, there is no overdue amount for more than ninety days as at the Balance Sheet date.
- e) The Company is in the business of providing loans which are MTF. According to the explanations and representations given to us by the Company, this is one of the principal business of the Company which is also described in its object clause specified in Memorandum of Association. Accordingly, clause (iii) (e) is not applicable to the Company.
- f) In our opinion and according to the information and explanations given to us there are no loans/advances given during the year in the nature of loans granted to promoters or related parties as defined in clause (76) of section 2 of the Companies Act, 2013 which are repayable on demand or without specifying any terms or period of repayment. Accordingly, the requirement to report on this clause is not applicable to the Company.
- (iv) In our opinion and according to the information and explanations given to us, the Company has complied with the provisions of section 185 and 186 of the Companies Act, 2013 with respect to the loans and investments. Further, as no guarantees/security has been given towards the parties specified in section 185 clause with regard to these matters are not applicable to the Company.
- (v) According to the information and explanations given to us, the Company has not accepted any deposit during the year and does not have any unclaimed deposit as at March 31, 2022 and therefore, the provisions of Sections 73 to 76 or any other relevant provisions of the Companies Act, 2013 and the rules made thereunder are not applicable to the Company. We are informed by the management that no order has been passed by the Company Law Board, National Company Law Tribunal or Reserve Bank of India or any Court or any other Tribunal against the Company in this regard.
- (vi) The maintenance of cost records has not been specified by the Central Government under Section 148(1) of the Companies Act, 2013 for the business activities carried out by the Company. Thus, reporting under paragraph 3(vi) of the Order is not applicable to the Company.
- (vii) In respect of Statutory dues:
- a) The Company has generally been regular in depositing undisputed statutory dues, including provident fund, employees' state insurance, income tax, goods and service

tax, cess and other material statutory dues applicable to it to the appropriate authorities. As explained to us, the Company did not have any dues on account of sales tax, wealth tax, duty of customs, duty of excise and value added tax.

- b) There were no undisputed amounts payable in respect of provident fund, employees' state insurance, income tax, goods and services tax, cess and other material statutory dues which were outstanding, at the year end, for a period of more than six months from the date they became payable.
- c) The details of statutory dues referred to in sub- clause (a) above which have not been deposited as on 31 March 2022, on account of disputes are given below:

Name of the Statute	Nature of Due	Amount (Rs. in Lakhs)	Amount paid under Protest (Rs. In Lakhs)	Period to which amount relates	Forum where dispute is pending
Income Tax Act, 1961	Income Tax	2	15.21	F.Y 2008-09	Income Tax Appellate Tribunal
Income Tax Act, 1961	Income Tax	4		F.Y 2008-09	Commissioner of Income Tax (Appeals)
Income Tax Act, 1961	Income Tax	41	20	F.Y 2011-12	Commissioner of Income Tax (Appeals)
Income Tax Act, 1961	Income Tax	41	-	F.Y 2012-13	ITAT referred back to AO
Income Tax Act, 1961	Income Tax	140	19	F.Y 2012-13	Commissioner of Income Tax (Appeals)
Income Tax Act, 1961	Income Tax	2,269	168	F.Y 2013-14	Commissioner of Income Tax (Appeals)
Income Tax Act, 1961	Income Tax	1,220	92	F.Y 2014-15	Commissioner of Income Tax (Appeals)
Income Tax Act, 1961	Income Tax	1,610	137	F.Y 2015-16	Commissioner of Income Tax (Appeals)
Income Tax Act, 1961	Income Tax	2,720	-	F.Y 2016-17	Commissioner of Income Tax (Appeals)
Income Tax Act, 1961	Income Tax	553	-	F.Y 2017-18	Commissioner of Income Tax (Appeals)
	Total	8,600	451		

- (viii) According to the information and explanations given to us, there are no transactions which have not been recorded in the books of account but have been surrendered or disclosed as income in the tax assessments under the Income Tax Act, 1961 (43 of 1961) during the year.
- (ix) a) According to the information and explanations given to us, the Company has not defaulted in repayment of loans or borrowings or in the payment of interest thereon to any lender.
- b) Basis the information and explanation provided to us, the Company has not been declared a wilful defaulter by any bank or financial institution or other lender.
- c) The Company has not availed any term loans accordingly, reporting under paragraph 3(ix)(c) of the Order is not applicable to the Company.

- d) According to the information and explanations given to us, and the procedures performed by us, and on an overall examination of the financial statements of the company, we report that no funds raised on short-term basis have been used for long-term purposes by the company.
- e) On an overall examination of the financial statements of the Company, the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries and associate during the year.
- f) According to the information and explanations given to us and procedures performed by us, we report that the company has raised loans during the year on the pledge of securities held in its subsidiaries as per details below. Further, the company has not defaulted in repayment of such loans raised.

Nature of loan taken	Name of lender	Amount of loan	Name of the subsidiary	Relation	Details of security pledged
Working Capital Demand Loan	Kotak Mahindra Bank Limited	7,500 Lakh	Motilal Oswal Asset Management Company	Subsidiary	Mutual Funds

- (x) a) The Company has not raised any money by way of initial public offer or further public offer (including debt instruments) during the year and hence reporting under paragraph 3 (x)(a) of the Order is not applicable to the Company.
- b) The Company has not made any preferential allotment or private placement of shares or convertible debentures (fully, partially or optionally convertible) during the year and hence reporting under paragraph 3 (x)(b) of the Order is not applicable to the Company.
- (xi) a) According to the Information, explanation and representations given to us no fraud by the Company or no fraud on the Company has been noticed or reported during the year.
- b) According to the information, explanation and representations given to us and to the best of our knowledge, no report under sub-section (12) of section 143 of the Act has been filed in Form ADT- 4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and upto the date of this report.
- c) According to the information and explanations given to us by the management there were no whistle blower complaints received by the Company during the year and hence reporting under paragraph 3 (xi)(c) of the Order is not applicable to the Company.
- (xii) The Company is not a nidhi company and hence reporting under paragraph 3 (xii) of the Order is not applicable to the Company.
- (xiii) According to the information and explanations given by the management, all the transactions with the related parties are in compliance with section 177 and 188 of the Act where applicable, and the details of related party transactions have been disclosed in the notes to the financial statements etc, as required by the applicable accounting standards.
- (xiv) a) In our opinion, the Company has an adequate internal audit system commensurate with the size and the nature of its business.

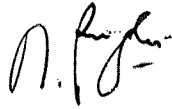

- b) We have taken into consideration, the internal audit reports for the period under audit issued to the Company till the date while determining the nature, timing and extent of audit procedures.
- (xv) According to the information and explanations given by the management, the Company has not entered into any non-cash transactions with directors or persons connected with them as referred to in section 192 of the Act. Thus, paragraph 3(xv) of the Order is not applicable to the Company.
- (xvi) a) The Company is not required to be registered under section 45-IA of the Reserve Bank of India (RBI) Act, 1934.
- b) The Company has not conducted any Non- Banking Financial or Housing Finance Activities without obtaining a valid Certificate of Registration (CoR) from Reserve Bank of India as per the Reserve Bank of India Act, 1934.
- c) The Company is not a Core Investment Company (CIC) as defined in the regulations made by the Reserve Bank of India and hence reporting under paragraph 3 (xvi)(c) of the Order is not applicable.
- d) According to the information and explanations given to us, there is no CIC in the Group.
- (xvii) According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not incurred cash losses during the financial year covered by our audit and the immediately preceding financial year.
- (xviii) There has been a resignation of the Statutory Auditors during the year. No issues, objections or concerns were raised by the outgoing auditor.
- (xix) According to the information and explanations given to us and on the basis of the ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information accompanying the financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that the Company is not capable of meeting its liabilities existing at the date of Balance Sheet as and when they fall due within a period of one year from the Balance Sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the Balance Sheet date, will get discharged by the Company as and when they fall due.
- (xx) a) There are no unspent amounts towards Corporate Social Responsibility ('CSR'). Accordingly, reporting under paragraph 3(xx)(a) of the Order is not applicable for the year.
- b) The Company does not have any ongoing projects in accordance with the requirements of CSR guidelines and hence, reporting under paragraph 3(xx)(b) of the Order is not applicable for the year.

- (xxi) As the Company is also preparing its consolidated financial statements, reporting under paragraph 3 (xxi) is given in the consolidated audit report.

**Annexure B to the Independent Auditor's Report of even date on the Standalone financial statements of Motilal Oswal Financial Services Limited**

**Referred to in paragraph [8(ii)(f)] under Report on Other Legal and Regulatory Requirements of our report of even date**

**Report on the Internal Financial Controls over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

We have audited the internal financial controls over financial reporting with reference to the Standalone Financial Statements of Motilal Oswal Financial Services Limited (the "Company") as of March 31, 2022 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

**Management's Responsibility for Internal Financial Controls**

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

**Auditor's Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing as specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls and both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

## **Meaning of Internal Financial Controls over Financial Reporting**

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that:

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

## **Inherent Limitations of Internal Financial Controls over Financial Reporting**

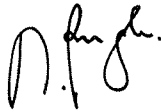

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

## Opinion

In our opinion, to the best of our information and according to the explanations given to us the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2022 based on the criteria for internal financial control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("the Guidance Note") issued by the Institute of Chartered Accountants of India.

## Motilal Oswal Financial Services Limited

### Summary of significant accounting policies and other explanatory information

#### 1A. Corporate Information

Motilal Oswal Financial Services Limited ("MOFSL" or 'the Company') is a public limited company and incorporated under the provisions of Companies Act. The Company is domiciled in India and the addresses of its registered office and principal place of business is Motilal Oswal Tower (Mumbai).

The Company is registered with Securities and Exchange Board of India ('SEBI') under the Stock brokers and sub brokers Regulations, 1992 and is a member of Bombay Stock Exchange Limited, National Stock Exchange of India Limited, Multi Commodity Exchange of India Ltd. and National Commodity and Derivatives Exchange Limited. The Company acts as a stock broker and commodities broker to execute proprietary trades and also trades on behalf of its clients which include retail customers (including high net worth individuals), mutual funds, foreign institutional investors, financial institutions and corporate clients. It is registered with Central Depository Services (India) Limited and National Securities Depository Limited in the capacity of Depository Participant and also registered with SEBI in capacity of Research Analyst and Investment Advisor.

The Financial statements were approved for issuance by the Company's Board of Director on 28 April 2022.

#### 1B. Business Combination under Common Control

A common control business combination, involving entities or businesses in which all of the combining entities or businesses are ultimately controlled by the same party or parties both before and after the business combination and where the control is not transitory, is accounted for in accordance with Appendix C to Ind AS 103 'Business Combinations'.

Business combinations involving entities or businesses under common control are accounted for using the pooling of interest method as follows:

- The assets and liabilities of the combining entities are reflected at their carrying amounts.
- No adjustments are made to reflect fair values, or recognize new assets or liabilities. Adjustments are made only to harmonize significant accounting policies.
- The financial information in the financial statements in respect of prior periods are restated as if the business combination had occurred from the beginning of the preceding period in the financial statements.
- The identity of the reserves are preserved and appear in the financial statements of the transferee in the same form in which they appeared in the financial statements of the transferor.

The difference, if any, between the amounts recorded as share capital issued plus any additional consideration in the form of cash or other assets and the amount of share capital of the transferor is transferred to capital reserve and is presented separately from other capital reserves with disclosure of its nature and purpose in the notes (Refer Note 60 for additional details)

## Motilal Oswal Financial Services Limited

### Summary of significant accounting policies and other explanatory information

#### 2. Significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below.

##### 2.1 Basis of preparation

###### (i) Compliance with Ind AS

The financial statements of the Company comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 ("the Act") read with Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time and other relevant provisions of the Act.

The financial statements have been prepared using the significant accounting policies and measurement bases summarized as below. Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to the existing accounting standard requires a change in the accounting policy hitherto in use.

###### (ii) Historical cost convention

The financial statements have been prepared on a historical cost basis, except for the following:

- Certain Financial instruments are measured at fair value;
- Assets held for sale – measured at fair value less cost to sell;
- Defined benefit plans – plan assets measured at fair value; and
- Share based payments

###### (iii) Preparation of financial statements

The Company is covered in the definition of Non-Banking Financial Company as defined in Companies (Indian Accounting Standards) (Amendment) Rules, 2016. As per the format prescribed under Division III of Schedule III to the Companies Act, 2013 on 11 October 2018 (as amended), the Company presents the Balance Sheet, the Statement of Profit and Loss and the Statement of Changes in Equity in the order of liquidity. A maturity analysis of recovery or settlement of assets and liabilities within 12 months after the reporting date and more than 12 months after the reporting date is presented in note 57.

###### (iv) Use of estimates and judgments

The preparation of financial statements in conformity with Ind AS which requires management to make estimates, judgments, and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities (including contingent liabilities) and disclosures as of the date of financial statements and the reported amounts of revenue and expenses for the reporting period. Actual results could differ from these estimates. Accounting estimates and underlying assumptions are reviewed on an ongoing basis and could change from period to period. Appropriate changes in estimates are recognized in the period in which the Company becomes aware of the changes in circumstances surrounding the estimates. Any revisions to accounting estimates are recognized prospectively in the period in which the estimate is revised and future periods. The estimates and judgments that have significant impact on carrying amount of assets and liabilities at each balance sheet date are discussed at note 3.

###### (v) Determining whether an arrangement contains a lease

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgment. The Company uses significant judgment in assessing the lease term (including anticipated renewals) and the applicable discount rate. The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option.

## Motilal Oswal Financial Services Limited

### Summary of significant accounting policies and other explanatory information

#### 2.2 Revenue Recognition

The Company recognizes revenue from contracts with customers based on a five step model as set out in Ind AS 115, Revenue from Contracts with Customers, to determine when to recognize revenue and at what amount. Revenue is measured based on the consideration specified in the contract with a customer. Revenue from contracts with customers is recognised when services are provided and it is highly probable that a significant reversal of revenue is not expected to occur.

Revenue is measured at fair value of the consideration received or receivable. Revenue is recognised when (or as) the Company satisfies a performance obligation by transferring a promised service (i.e. an asset) to a customer. An asset is transferred when (or as) the customer obtains control of that asset.

When (or as) a performance obligation is satisfied, the Company recognizes as revenue the amount of the transaction price (excluding estimates of variable consideration) that is allocated to that performance obligation.

The Company applies the five-step approach for recognition of revenue:

- Identification of contract(s) with customers;
- Identification of the separate performance obligations in the contract;
- Determination of transaction price;
- Allocation of transaction price to the separate performance obligations; and
- Recognition of revenue when (or as) each performance obligation is satisfied.

##### (i) Brokerage fee income

It is recognised on trade date basis and is exclusive of goods and service tax and securities transaction tax (STT) wherever applicable.

##### (ii) Research and advisory income

Research and advisory income is accounted for on an accrual basis in accordance with the terms of the respective agreements entered into between the Company and the counter party.

##### (iii) Interest income

Interest income on a financial asset at amortised cost is recognised on a time proportion basis taking into account the amount outstanding and the effective interest rate ('EIR'). The EIR is the rate that exactly discounts estimated future cash flows of the financial assets through the expected life of the financial asset or, where appropriate, a shorter period, to the net carrying amount of the financial instrument. The internal rate of return on financial assets after netting off the fees received and cost incurred approximates the effective interest rate method of return for the financial asset. The future cash flows are estimated taking into account all the contractual terms of the instrument.

##### (iv) Dividend income

Dividend income is recognized in the Statement of profit and loss on the date that the Company's right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the entity and the amount of dividend can be reliably measured. This is generally when the shareholders approve the dividend.

##### (v) Portfolio management commission income

Portfolio management commissions is recognised on an accrual basis in accordance with the terms of the agreement entered with asset management company.

##### (vi) Rental income

Lease income from operating leases where the Company is a lessor is recognized in income on a straight-line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases. The respective leased assets are included in the balance sheet based on their nature.

##### (vii) Profit and loss from partnership firm / LLP

Profit and loss from partnership firm / LLP are accounted on accrual basis and as per terms of respective Partnership / LLP agreement.

## Motilal Oswal Financial Services Limited

### Summary of significant accounting policies and other explanatory information

#### 2.3 Income Tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses. Current and deferred tax is recognized in Statement of profit and loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity, respectively.

##### Current Tax

Current tax is measured at the amount of tax expected to be payable on the taxable income for the year as determined in accordance with the provisions of the Income Tax Act, 1961. Current tax assets and current tax liabilities are off set when there is a legally enforceable right to set off the recognized amounts and there is an intention to settle the asset and the liability on a net basis.

##### Deferred Tax

Deferred tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. However, deferred tax liabilities are not recognized if they arise from the initial recognition of goodwill. Deferred tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

Deferred tax assets are recognized for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilize those temporary differences and losses.

Deferred tax liabilities are not recognized for temporary differences between the carrying amount and tax bases of investments in subsidiaries and associates where the Company is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority.

#### 2.4 Leases

##### Company as a Lessee

For any new contracts entered into on or after 1 April 2019, the Company considers whether a contract is, or contains a lease. A lease is defined as 'a contract, or part of a contract, that conveys the right to use an asset (the underlying asset) for a period of time in exchange for consideration'. The Company assess whether it has the right to direct 'how and for what purpose' the asset is used throughout the period of use.

##### Measurement and recognition of leases as a lessee

The Company has adopted Ind AS 116 "Leases" using the cumulative catch-up approach. Company has recognized Right of Use assets as at 1 April 2019 for leases previously classified as operating leases and measured at an amount equal to lease liability (adjusted for related prepayments/ accruals). The Company has discounted lease payments using the incremental borrowing rate for measuring the lease liability.

The Company depreciates the right-of-use assets on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The Company also assesses the right-of-use asset for impairment when such indicators exist.

Lease payments included in the measurement of the lease liability are made up of fixed payments (including in substance fixed), variable payments based on an index or rate, amounts expected to be payable under a residual value guarantee and payments arising from options reasonably certain to be exercised.

Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. It is remeasured to reflect any reassessment or modification, or if there are changes in in-substance fixed payments

When the lease liability is remeasured, the corresponding adjustment is reflected in the right-of-use asset, or profit and loss if the right-of-use asset is already reduced to zero.

## Motilal Oswal Financial Services Limited

### Summary of significant accounting policies and other explanatory information

The Company has elected to account for short-term leases and leases of low-value assets using the practical expedients. Instead of recognising a right-of-use asset and lease liability, the payments in relation to these are recognized as an operating expense in Statement of profit and loss on a straight-line basis over the lease term.

When the Company revises its estimate of the term of any lease, it adjusts the carrying amount of the lease liability to reflect the payments to make over the revised term, which are discounted using a revised discount rate. The carrying value of lease liabilities is similarly revised when the variable element of future lease payments dependent on a rate or index is revised, except the discount rate remains unchanged. In both cases an equivalent adjustment is made to the carrying value of the right-of-use asset, with the revised carrying amount being amortised over the remaining (revised) lease term. If the carrying amount of the right-of-use asset is adjusted to zero, any further reduction is recognised in statement of profit and loss.

For contracts that both convey a right to the Company to use an identified asset and require services to be provided to the Company by the lessor, the Company has elected to account for the entire contract as a lease, i.e. it does not allocate any amount of the contractual payments to, and account separately for, any services provided by the supplier as part of the contract.

#### Company as a Lessor

Leases for which the Company is a lessor is classified as a finance or operating lease. Whenever the term of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

#### 2.5 Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Outstanding bank overdrafts are not considered integral part of the Company's cash management.

#### 2.6 Financial instruments

##### Initial recognition and measurement:

Financial assets and financial liabilities are recognized when the entity becomes a party to the contractual provisions of the instrument. Regular way purchases and sales of financial assets are recognized on trade-date, the date on which the Company commits to purchase or sell the asset.

At initial recognition, the Company measures a financial asset or financial liability at its fair value plus or minus, in the case of a financial asset or financial liability not at fair value through profit or loss, transaction costs that are incremental and directly attributable to the acquisition or issue of the financial asset or financial liability, such as fees and commissions. Transaction costs of financial assets and financial liabilities carried at fair value through profit or loss are expensed in Statement of profit and loss. Immediately after initial recognition, an expected credit loss allowance (ECL) is recognized for financial assets measured at amortized cost.

When the fair value of financial assets and liabilities differs from the transaction price on initial recognition, the entity recognizes the difference as follows:

- a) When the fair value is evidenced by a quoted price in an active market for an identical asset or liability (i.e. a Level 1 input) or based on a valuation technique that uses only data from observable markets, the difference is recognized as a gain or loss.
- b) In all other cases, the difference is deferred and the timing of recognition of deferred day one profit or loss is determined individually. It is either amortized over the life of the instrument, deferred until the instrument's fair value can be determined using market observable inputs, or realized through settlement.

When the Company revises the estimates of future cash flows, the carrying amount of the respective financial assets or financial liability is adjusted to reflect the new estimate discounted using the original effective interest rate. Any changes are recognized in Statement of profit and loss.

## Motilal Oswal Financial Services Limited

### Summary of significant accounting policies and other explanatory information

#### Fair value of financial instruments:

Some of the Company's assets and liabilities are measured at fair value for financial reporting purpose. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date regardless of whether that price is directly observable or estimated using another valuation technique.

Fair value measurements under Ind AS are categorized into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurement are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company can access at measurement date
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly; and
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs) that the Company can access at measurement date.

Information about the valuation techniques and inputs used in determining the fair value of various assets and liabilities are disclosed in note 54..

#### Financial assets

##### (i) Classification and subsequent measurement

The Company has applied Ind AS 109 and classifies its financial assets in the following measurement categories:

- Fair value through profit or loss (FVTPL);
- Fair value through other comprehensive income (FVOCI); or
- Amortised cost.

##### 1. Financial assets carried at amortised cost

A financial asset is measured at the amortised cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in interest income in the Statement of Profit and Loss.

##### 2. Equity instruments

Equity instruments are instruments that meet the definition of equity from the issuer's perspective; that is, instruments that do not contain a contractual obligation to pay and that evidence a residual interest in the issuer's net assets.

All investments in equity instruments classified under financial assets are initially measured at fair value, the Company may, on initial recognition, irrevocably elect to measure the same either at FVOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis. Fair value changes on an equity instrument is recognised as revenue from operations in the Statement of Profit and Loss unless the Company has elected to measure such instrument at FVOCI. Fair value changes excluding dividends, on an equity instrument measured at FVOCI are recognized in OCI. Amounts recognised in OCI are not subsequently reclassified to the Statement of Profit and Loss. Dividend income on the investments in equity instruments are recognised as 'Revenue from operations' in the Statement of Profit and Loss.

##### 3. Investment in Subsidiaries

Investments in subsidiaries, joint ventures and associates are recognised at cost as per Ind AS 27. Except where investments accounted for at cost shall be accounted for in accordance with Ind AS 105, Non-current Assets Held for Sale and Discontinued Operations, when they are classified as held for sale

## Motilal Oswal Financial Services Limited

### Summary of significant accounting policies and other explanatory information

#### 4. Investments in mutual funds

Investments in mutual funds are measured at fair value through profit and loss (FVTPL).

##### (ii) Impairment

The Company recognizes impairment allowances using Expected Credit Losses ("ECL") method on all the financial assets that are not measured at Fair value through profit or loss (FVTPL):

ECL are probability-weighted estimate of credit losses. They are measured as follows:

- Financials assets that are not credit impaired – as the present value of all cash shortfalls that are possible within 12 months after the reporting date.
- Financials assets with significant increase in credit risk - as the present value of all cash shortfalls that result from all possible default events over the expected life of the financial assets.
- Financials assets that are credit impaired – as the difference between the gross carrying amount and the present value of estimated cash flows.

Financial assets are written off/fully provided for when there is no reasonable of recovering financial assets in its entirety or a portion thereof.

However, financial assets that are written off could still be subject to enforcement activities under the Company's recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognised in the Statement of Profit and Loss.

##### (iii) Derecognition

A financial asset is derecognised only when:

The Company has transferred the rights to receive cash flows from the financial asset or retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the Company has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the Company has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

#### Financial liabilities

##### (i) Initial recognition and measurement

All financial liabilities are recognised when the Company becomes a party to the contractual provisions of the financial instrument and are measured initially at fair value adjusted for transaction costs.

##### (ii) Subsequent measurement

Financial liabilities are subsequently measured at amortised cost using the EIR method. Financial liabilities carried at fair value through profit or loss is measured at fair value with all changes in fair value recognised in the Statement of Profit and Loss.

##### (iii) Derecognition

A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or expires.

**Motilal Oswal Financial Services Limited**  
**Summary of significant accounting policies and other explanatory information**

**2.7 Offsetting financial instruments**

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

**2.8 Financial guarantee contracts and loan commitments**

Financial guarantee contracts are contracts that require the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due, in accordance with the terms of a debt instrument. Such financial guarantees are given to banks, financial institutions and others on behalf of customers to secure loans, overdrafts and other banking facilities.

Financial guarantee contracts are initially measured at fair value and subsequently measured at the higher of:

- The amount of the loss allowance; and
- The premium received on initial recognition less income recognized in accordance with the principles of Ind AS 115.

**2.9 Property, plant and equipment**

Property, plant and equipment are stated at cost of acquisition less accumulated depreciation. Cost includes expenditure that is directly attributable to the acquisition and installation of the assets.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are charged to Statement of profit and loss during the reporting period in which they are incurred.

**Depreciation methods, estimated useful lives and residual value**

Depreciation is calculated using the straight-line method to allocate their cost, net of their residual values, over their estimated useful life prescribed under Schedule II to the Companies Act, 2013. The Company provides pro-rata depreciation from the month in which the asset is first put to use, till date the assets are sold or disposed. Leasehold improvements are amortised over the term of underlying lease.

<b>Assets</b>	<b>Useful life</b>
Building	60 years
Furniture and Fixtures	10 years
Office Equipment's	5 years
Plant and Machinery	3 to 5 years
Vehicles	8 to 10 years
Leasehold Improvements	Over the primary lease period or useful life. Whichever is less.

**Derecognition:**

The carrying amount of an item of property, plant and equipment is derecognized on disposal or when no future economic benefits are expected from its use or disposal. Gains and losses on disposals are determined by comparing proceeds with carrying amount and are recognized in the statement of profit and loss when the asset is derecognized.

**2.10 Intangible assets**

**Measurement at recognition:**

Intangible assets are recognized where it is probable that the future economic benefit attributable to the assets will flow to the Company and its cost can be reliably measured. Intangible assets are stated at cost of acquisition less accumulated amortization and impairment, if any.

## Motilal Oswal Financial Services Limited

### Summary of significant accounting policies and other explanatory information

Expenditure incurred on acquisition/development of intangible assets which are not put/ready to use at the reporting date is disclosed under intangible assets under development. The Company amortizes intangible assets on a straight-line basis over the five years commencing from the month in which the asset is first put to use. The Company provides pro-rata amortization from the day the asset is put to use.

Asset	Useful life
Computer Software	5 years
Customer rights	5 years

#### Derecognition:

The carrying amount of an intangible asset is derecognized on disposal or when no future economic benefits are expected from its use or disposal. Gains and losses on disposals are determined by comparing proceeds with carrying amount and are recognized in the statement of profit and loss when the asset is derecognized.

#### 2.11 Investment Property

Property that is held for long-term rental yields or for capital appreciation or both, and that is not used by the group for business purposes, is classified as investment property. Investment property is measured initially at its cost, including related transaction costs and where applicable borrowing costs. Subsequent expenditure is capitalised to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the group and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred. When part of an investment property is replaced, the carrying amount of the replaced part is derecognized.

Depreciation on investment property is calculated using the straight-line method to write down the cost of property and equipment to their residual values over their estimated useful lives in the manner prescribed in Schedule II of the Act.

#### 2.12 Impairment of non-financial assets

At each reporting date, the Company assesses whether there is any indication based on internal/external factors, that an asset may be impaired. If any such indication exists, the Company estimates the recoverable amount of the asset. The recoverable amount of asset is the higher of its fair value or value in use. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects the current market assessment of time value of money and the risks specific to it. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount and the reduction is treated as an impairment loss and is recognised in the statement of profit and loss. All assets are subsequently reassessed for indications that an impairment loss previously recognised may no longer exist. An Impairment loss is reversed if there has been a change in estimates used to determine the recoverable amount. Such a reversal is made only to the extent that the assets carrying amount would have been determined, net of depreciation or amortization, had no impairment loss been recognised.

#### 2.13 Provisions and contingencies:

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the reporting date.

Provisions are determined by discounting the expected future cash flows (representing the best estimate of the expenditure required to settle the present obligation at the balance sheet date) at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognized as finance cost. Expected future operating losses are not provided for.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made. Contingent assets are neither recognised nor disclosed in the financial statements.

## Motilal Oswal Financial Services Limited

### Summary of significant accounting policies and other explanatory information

#### 2.14 Employee benefits

##### (i) Short-term obligations

Short-term employee benefits are recognized as an expense at the undiscounted amount in the Statement of Profit and Loss for the year in which the related services are rendered. The Company recognises the costs of bonus payments when it has a present obligation to make such payments as a result of past events and a reliable estimate of the obligation can be made.

##### Compensated absences

The Company does not have a policy of encashment of unavailed leaves for its employees but are permitted to carry forward subject to a prescribed maximum day. Provision is made on actual basis for expected cost of accumulating compensated absences as a result of unused leave entitlement which has accumulated as at the balance sheet date.

##### (ii) Post-employment obligations

###### Defined contribution plan:

Contribution paid/payable to the recognised provident fund and Employee State Insurance Corporation, which is a defined contribution scheme, is charged to the Statement of Profit and Loss in the period in which they occur.

###### Defined benefits plan:

Gratuity is post-employment benefit and is in the nature of defined benefit plan. The liability recognised in the Balance Sheet in respect of gratuity is the present value of defined benefit obligation at the Balance Sheet date together with the adjustments for unrecognised actuarial gain or losses and the past service costs. The defined benefit obligation is calculated at or near the Balance Sheet date by an independent actuary using the projected unit credit method. Actuarial gains and losses comprise experience adjustment and the effects of changes in actuarial assumptions are recognized in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

##### (iii) Other long-term employee benefits obligations

###### Heritage club benefit

Heritage club benefits are recognised as liability at the present value of defined benefits obligation as at the Balance Sheet date. The defined obligation benefit is calculated at the Balance Sheet date by an independent actuary using the projected unit credit method.

#### 2.15 Share-based payments

##### Employee Stock Option Scheme (ESOS)

The Employees Stock Options Scheme ("the Scheme") has been established by the Company. The Scheme provides that employees are granted an option to subscribe to equity share of the Company that vests on the satisfaction of vesting conditions. The fair value of options granted under ESOS is recognized as an employee benefits expense with a corresponding increase in equity. The total amount to be expensed is determined reference to the fair value of the options granted excluding the impact of any service conditions. Information about the valuation techniques and inputs used in determining the sale value of assets and liabilities disclosed in note 52.

The total expense is recognized over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied. At the end of each period, the entity revises its estimates of the number of options that are expected to vest based on the service conditions. It recognizes the impact of the revision to original estimates, if any, in Statement of profit and loss, with a corresponding adjustment to equity.

## Motilal Oswal Financial Services Limited

### Summary of significant accounting policies and other explanatory information

The stock options of the Subsidiary Company, granted to employees pursuant to the Company's Stock Options Schemes, are measured at the fair value of the options at the grant date as per Black and Scholes model. The fair value of the options is treated as discount and accounted as employee compensation cost, with a corresponding increase in other equity, over the vesting period on a straight line basis. The amount recognised as expense in each year is arrived at based on the number of grants expected to vest. If a grant lapses after the vesting period, the cumulative discount recognised as expense, with a corresponding increase in other equity, in respect of such grant is transferred to the General reserve within other equity.

#### 2.16 Foreign currency translation

##### (i) Functional and presentation currency

Items included in financial statements of the Company are measured using the currency of the primary economic environment in which the Company operates ('the functional currency'). The financial statements are presented in Indian rupee (INR), which is MOFSL's functional and presentation currency.

##### (ii) Translation and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are recognized in Statement of profit and loss.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss. For example, translation differences on non - monetary assets and liabilities such as equity instruments held at fair value through profit or loss are recognized in Statement of profit and loss as part of the fair value gain or loss and translation differences on non-monetary assets such as equity investments classified as FVOCI are recognized in other comprehensive income.

#### 2.17 Dividends

Provision is made for the amount of any dividend declared, being appropriately authorized and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

#### 2.18 Earnings per share

##### a) Basic earnings per share

Basic earnings per share is calculated by dividing the net profit for the period (excluding other comprehensive income) attributable to equity share holders of the Company by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus element in equity shares issued during the year.

##### b) Diluted earnings per share

Diluted earnings per share is computed by dividing the net profit for the period attributable to equity shareholders by the weighted average number of shares outstanding during the period as adjusted for the effects of all diluted potential equity shares except where the results are anti-dilutive.

#### 2.19 Borrowing Costs

Expenses related to borrowing cost are accounted using effective interest rate. Borrowing costs are interest and other costs (including exchange differences relating to foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs) incurred in connection with the borrowing of funds. Borrowing costs directly attributable to acquisition or construction of an asset which necessarily take a substantial period of time to get ready for their intended use are capitalised as part of the cost of that asset. Other borrowing costs are recognised as an expense in the period in which they are incurred. The difference between the discounted amount mobilised and redemption value of commercial papers is recognised in the statement of profit and loss over the life of the instrument using the EIR.

**Motilal Oswal Financial Services Limited**  
**Summary of significant accounting policies and other explanatory information**

**2.20 Rounding of amounts**

All amounts disclosed in the financial statements and notes have been rounded off to the nearest lakhs as per the requirements.

**2.21 Events after reporting date**

Where events occurring after the balance sheet date provide evidence of conditions that existed at the end of the reporting period, the impact of such events is adjusted within the financial statements. Otherwise, events after the balance sheet date of material size or nature are only disclosed.

**2.22 Recent Pronouncements**

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On 23 March, 2022, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2022, applicable from 01 April, 2022, as below:

Ind AS 16 – Property Plant and equipment - The amendment clarifies that excess of net sale proceeds of items produced over the cost of testing, if any, shall not be recognised in the profit or loss but deducted from the directly attributable costs considered as part of cost of an item of property, plant, and equipment. The effective date for adoption of this amendment is annual periods beginning on or after 01 April, 2022. The Company has evaluated the amendment and there is no impact on its financial statements.

Ind AS 37 – Provisions, Contingent Liabilities and Contingent Assets – The amendment specifies that the 'cost of fulfilling' a contract comprises the 'costs that relate directly to the contract'. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract (examples would be direct labour, materials) or an allocation of other costs that relate directly to fulfilling contracts (an example would be the allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract). The effective date for adoption of this amendment is annual periods beginning on or after 01 April, 2022, although early adoption is permitted. The Company has evaluated the amendment there is no impact on its financial statements.

**3. Key accounting estimates and judgements**

The preparation of financial statements requires management to make judgments, estimates and assumptions in the application of accounting policies that affect the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on ongoing basis. Any changes to accounting estimates are recognized prospectively.

Information about critical judgments in applying accounting policies, as well as estimates and assumptions that have the most significant effect on the amounts recognised in the financial statements are included in the following notes:

(a) Business Model Assessment: Classification and measurement of financial assets depends on the results of the SPPI (Solely Payments of Principal and Interest) and the business model test. The Company determines the business model at a level that reflects how groups of financial assets are managed together to achieve a particular business objective. This assessment includes judgement reflecting all relevant evidence including how the performance of the assets is evaluated and their performance measured, the risks that affect the performance of the assets and how these are managed. The Company monitors financial assets measured at amortised cost or fair value through other comprehensive income that are derecognised prior to their maturity to understand the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held. Fair value through profit or loss (FVTPL), where the assets are managed in accordance with an approved investment strategy that triggers purchase and sale decisions based on the fair value of such assets. Such assets are subsequently measured at fair value, with unrealised gains and losses arising from changes in the fair value being recognised in the standalone statement of profit and loss in the period in which they arise.

(b) Provision and contingent liability: On an ongoing basis, Company reviews pending cases, claims by third parties and other contingencies. For contingent losses that are considered probable, an estimated loss is recorded as an accrual in financial statements. Loss Contingencies that are considered possible are not provided for but disclosed as Contingent liabilities in the financial statements. Contingencies the likelihood of which is remote are not disclosed in the financial statements. Gain contingencies are not recognized until the contingency has been resolved and amounts are received or receivable.

(c) Effective Interest Rate (EIR) Method : The Company's EIR methodology, recognises interest income / expense using a rate of return that represents the best estimate of a constant rate of return over the expected behavioral life of loans given / taken and recognises the effect of potentially different interest rates at various stages and other characteristics of the financial instruments.

## Motilal Oswal Financial Services Limited

### Summary of significant accounting policies and other explanatory information

This estimation, by nature, requires an element of judgment regarding the expected behavior and life-cycle of the instruments, as well expected changes to India's base rate and other fee income/ expense that are integral parts of the instrument.

(d) Allowance for impairment of financial asset: The Company applies expected credit loss model (ECL) for measurement and recognition of impairment loss. The Company recognises lifetime expected losses for all contract assets and / or all trade receivables that do not constitute a financing transaction. At each reporting date, the Company assesses whether the loans have been impaired. The Company is exposed to credit risk when the customer defaults on his contractual obligations. For the computation of ECL, the loan receivables are classified into three stages based on the default and the aging outstanding. The Company recognises life time expected credit loss for trade receivables and has adopted simplified method of computation as per Ind AS 109. The Company considers outstanding overdue for more than 90 days for calculation of expected credit loss.

(e) Recognition of deferred tax assets: Deferred tax assets are recognised for unused tax-loss carry forwards and unused tax credits to the extent that realisation of the related tax benefit is probable. The assessment of the probability with regard to the realisation of the tax benefit involves assumptions based on the history of the entity and budgeted data for the future.

(f) Defined benefit plans: The cost of defined benefit plans and the present value of the defined benefit obligations are based on actuarial valuation using the projected unit credit method. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long - term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

(g) Share based payment: The Company account for share based payment by measuring and recognizing as compensation expense the fair value of all share-based payment awards made to employees based on estimated grant date fair values. The determination of fair value involves a number of significant estimates. The Company uses the Black Scholes option pricing model to estimate the value of employee stock options which requires a number of assumptions to determine the model inputs. These include the expected volatility of Company's stock and employee exercise behavior which are based on historical data as well as expectations of future developments over the term of the option. As stock-based compensation expense is based on awards ultimately expected to vest. Management's estimate of exercise is based on historical experience but actual exercise could differ materially as a result of voluntary employee actions and involuntary actions which would result in significant change in our share based compensation expense amounts in the future.

(h) Property, plant and equipment and Intangible Assets: Management reviews the estimated useful lives and residual values of the assets annually in order to determine the amount of depreciation to be recorded during any reporting period. The useful lives and residual values as per schedule II of the Companies Act, 2013 or are based on the Company's historical experience with similar assets and taking into account anticipated technological changes, whichever is more appropriate.

(i) Leases The Company evaluates if an arrangement qualifies to be a lease as per IND AS 116. The Company determines lease term as a non-cancellable period of a lease, together with both the period covered by an option to extend the lease if the Company is reasonably certain to exercise lessee options.

- The determination of the incremental borrowing rate used to measure lease liabilities.

Pursuant to the Order dated March 11, 2022 passed by the Hon'ble National Company Law Tribunal, Mumbai Bench ("NCLT"), the Scheme of Arrangement between Passionate Investment Management Private Limited ("the Transferor Company 1" or "PIMPL") and MOPE Investment Advisors Private Limited ("the Transferee Company 2" or "the Demerged Company 1" or "the Transferor Company 3" or "MOPE") and Motilal Oswal Real Estate Investment Advisors Private Limited ("the Transferor Company 2" or "MORE") and Motilal Oswal Real Estate Investment Advisors II Private Limited ("the Demerged Company 2" or "the Transferor Company 4" or "MORE II") and MO Alternate Investment Advisors Private Limited ("the Resulting Company" or "MO Alternate") and Motilal Oswal Financial Services Limited ("the Transferee Company 1" or "the Holding Company of the Resulting Company" or "MOFSL") and their respective Shareholders (the Scheme) was made effective on March 30, 2022. Further, the Company had allotted new 18,68,445 equity shares to the shareholders of the transferor Companies on March 30, 2022. The said shares are pending for listing and are forming part of Public category.

Issued capital is net off of buyback of shares, shares acquired and cancelled in the scheme of arrangement and re-issuance of shares.

**23.1 Terms/rights attached to shares**

**Equity shares :**

The Company has one class of equity shares having a par value of Re. 1 each (previous year: having a par value of Re. 1 each). Each holder of equity shares is entitled to one vote per share. In the event of liquidation of the Company, the holder of the equity shares will be entitled to receive any of the remaining assets of the Company, after distribution of all the preferential amounts. However, no such preferential amounts exists currently. The distribution will be in proportion to the number of equity shares held by the shareholders. The Company declares and pays dividend in Indian rupees. The dividend proposed by the Board of Directors is subject to the approval of shareholders in the ensuing Annual General Meeting.

During the year ended 31 March 2022, dividend recognized as distribution to equity shareholders was Rs. 12.00 per share consisting of final dividend of Rs. 5.00 per share for previous year ended 31 March 2021 and

interim dividend of Rs. 7 per share for year ended 31 March 2022. The total dividend appropriated amounts to Rs. 7,365 lakhs (Previous Year: Rs. 3,081 lakhs)

**Preference shares :**

The Company has only one class of preference shares having a par value of Rs. 100 each and there are no preference shares issued and subscribed as on 31 March 2022 and 31 March 2021.

**23.2 Reconciliation of number of shares outstanding**

## Statutory Reserve of Rs.5,233 lakhs (acquired from PIMPL on account of merger) , has been transferred to general reserve after taking appropriate board approval, as the same was not required to be maintained at MOFSL as per RBI regulations.

**Motilal Oswal Financial Services Limited****Summary of significant accounting policies and other explanatory information**

(All amounts are in INR Lakhs, unless otherwise stated)

**Retained earnings**

Balance at the beginning of the reporting year		
Transfer from Statement of Profit and Loss	2,52,746	1,87,606
Interim dividend	70,682	75,066
Final dividend	(6,023)	(3,081)
Impact due to scheme of arrangement	(1,342)	-
Provision for Stamp duty (Net of Tax impact)#	(7,032)	(4,025)
Buyback Transaction cost	(2,245)	-
<b>Balance at the end of the reporting year</b>	<b>3,06,787</b>	<b>2,57,746</b>

#As per Para 78 of scheme of arrangement, all costs, charges, taxes including duties, levies and all other expenses, if any (save as expressly otherwise agreed) arising out of or incurred in carrying out and implementing Part B of the Scheme and matters incidental thereto shall be borne by the Promoters of the Transferor Company 1 i.e. Passionate Investment Management Private Limited/Transferor Company 1 and no cost shall be incurred by public shareholders of the Transferee Company 1 i.e.; Motilal Oswal Financial Services Limited.

In line with above paragraph, Transferor Company 1 has created a provision for stamp duty payable of Rs 3,000 lakhs on the transfer of shareholding from PIMPL to its shareholders and simultaneously claiming Deferred tax benefit of Rs 755 lakhs thereon. The said expense has not been routed through Profit and Loss statement but utilized from reserves of PIMPL and corresponding FD has been created to give the effect. Thus there is no impact on the profit and loss account of the merged entity and is cashflow neutral to the shareholders of the transferor and transferee company with respect to the retrospective accounting.

Thus, Transferor Company 1 (PIMPL) has created sufficient Free Reserve pursuant to scheme of merger against which the Stamp duty net of taxes of Rs. 2,245 lakhs can be reduced to that extent.

**Other comprehensive income**

Balance at the beginning of the reporting year	30,863	6,466
Add : Other comprehensive income for the year	2,038	24,397
<b>Balance at the end of the reporting year</b>	<b>32,901</b>	<b>30,863</b>
	<b>4,22,720</b>	<b>3,60,173</b>

**Capital Redemption reserve**

The capital redemption reserve is created to be utilised towards redemption of preference shares. The reserve will be utilised in accordance with provision of the Act.

**Capital reserve**

It has been created during the Business Combinations in earlier periods.

**Securities premium**

Securities premium reserve is used to record the premium on issue of shares. The reserve is utilised in accordance with the provision of the Companies Act, 2013.

**Share based payment reserve**

Share based payment expense pertaining to outstanding portion of the option not yet exercised.

**General reserve**

The general reserve is used from time to time to transfer profits from retained earnings for appropriation purposes. As the general reserve is created by a transfer from one component of equity to another and is not an item of other comprehensive income, items included in the general reserve will not be reclassified subsequently to statement of profit and loss. General reserve is used to transfer to debenture redemption reserve.

**Statutory reserve**

These reserve represent the identity of reserves transferred on merger from PIMPL.

**Retained earnings**

Retained earnings represents surplus/accumulated earnings of the Company and are available for distribution to shareholders.

**Other comprehensive income**

Other comprehensive income consist of remeasurement gains/ losses on defined benefit plans, gain/(loss) of equity instruments carried through FVTOCI.

**Motilal Oswal Financial Services Limited**  
**Summary of significant accounting policies and other explanatory information**  
 (All amounts are in INR Lakhs, unless otherwise stated)

**Note 38: Contingent liability and commitment (to the extent not provided for)**

Particulars	As at 31 March 2022	As at 31 March 2021
<b>Contingent liabilities:</b>		
(i) Guarantees / securities given (Refer note a)	1,28,258	1,02,429
(ii) Demand in respect of income tax matters for which appeal is pending (Refer note b)	2,982	2,761
(iii) Claim against the company (Refer note c)	725	1,060
<b>Capital &amp; other commitments:</b>		
(i) Estimated amount of contracts remaining to be executed on capital account (Net of advances)		
(ii) Uncalled liability on shares and other investments partly paid:	2,123	2,470
1) India Business Excellence Fund III	381	1,129
2) India Realty Excellence Fund IV	140	200
3) India Business Excellence Fund IV	450	
4) India Realty Excellence Fund V	365	

(a) Guarantees and securities given  
 1) The Company has given Corporate Guarantees of Rs. Nil (Previous year: Rs. 74,339 lakhs) to Banks and NCD holders for its subsidiary Motilal Oswal Home Finance Limited.  
 2) The Company has provided bank guarantees aggregating to Rs 1,28,258 lakhs (Previous year : Rs.28,090) as on 31 March 2022 for the following purposes to:  
 i) National Stock exchange - Rs.1,26,668 lakhs (Previous year : Rs. 12,500 lakhs) for meeting margin requirements.  
 ii) Bombay Stock exchange - Nil (Previous year: Rs.10,000 lakhs) for meeting margin requirements.  
 iii) MCX - Nil(Previous year: Rs.4,000 lakhs) for meeting margin requirements.  
 iv) Unique Identification Authority - Rs.25 lakhs (Previous year: Rs. 25 lakhs) for security deposit.  
 v) Hindalco Industries Limited - Rs.1,500 lakhs(Previous year: Rs. 1,500 lakhs) for margin deposit.  
 vi) Municipal Corporation of Greater Mumbai - Rs. 5 lakhs(Previous year: Rs.5 lakhs) for security deposit.  
 vii) Bombay High Court - Rs. 55 lakhs (Previous year: Rs.55 lakhs) for security deposit.  
 viii) Bank of Maharashtra - Rs. 5 lakhs(Previous year: Rs.5 lakhs) for security deposit.  
 The Company has pledged fixed deposits with banks aggregating of Rs 64,844 lakhs (Previous year Rs. 14,868 lakhs)for obtaining bank guarantee and for meeting margin requirements.

(b) Demand in respect of income tax matters for which appeal is pending is Rs.2,982 lakhs (Previous year Rs. 2,761 lakhs). This is disputed by the Company and hence not provided for in the books of accounts. The Company has paid demand by way of deposit of Rs. 451 lakhs (Previous year Rs. 484 lakhs) till date. Above liability does not include interest u/s 234B and 234C as the same depends on the outcome of the demand.

The Company is contesting the demands and the management believes that its position will likely be upheld in the appellate process. No tax expenses has been accrued in the financial statement for the tax demand raised. The management believes that ultimate outcome of this proceeding will not have a material adverse effect on the Company's financial position and results of operations.

(c) Claims against the Company:

Pending against forum	Number of cases as on 31 March 2022	As at 31 March 2022	Number of cases as on 31 March 2021	As at 31 March 2021
Civil cases	21	725	25	1,060
<b>Total</b>	<b>21</b>	<b>725</b>	<b>25</b>	<b>1,060</b>

Note :

The proceedings/ Appeals held at Supreme court/ High court/District court are considered as "Civil cases".

(d) The Hon'ble Supreme Court has in its recent decision dated 28 February 2019, ruled that special allowance would form part of basic wages for computing the Provident Fund (PF) contribution. While the Company is evaluating the implications of the order, the company taken impact of its PF contribution prospectively and would record any further effect in its financial statements, on receiving additional clarity on the subject.

Motilal Oswal Financial Services Limited

Summary of significant accounting policies and other explanatory information

(All amounts are in INR Lakhs, unless otherwise stated)

**Employees' Stock Options Scheme (ESOS) :**

Particulars	Scheme V	Scheme VI	Scheme VII	Scheme VIII	Scheme IX
Date of grant	Various Dates	Various Dates	Various Dates	Various Dates	28-Oct-2021
Date of board approval	Various Dates	Various Dates	Various Dates	Various Dates	29-Apr-2021
Date of Shareholder's approval	4 December 2007	8 July 2008	22 August 2014	27 July 2017	9-Aug-2021
Method of settlement	Equity shares	Equity shares	Equity shares	Equity shares	Equity Shares
Vesting period	1 year to 5 years	1 year to 5 years	1 year to 7 years	1 year to 4 years	1 Years to 5 Years
Weighted average remaining contractual life (Vesting period)					
Granted but not vested	0 years (Previous year 3.51 years)	5.67 years (Previous year 3.51 years)	5.67 years (Previous year 3.51 years)	4.75 years (Previous year 5.23 years)	0.13 Years (Previous year. NA)
Vested but not exercised	0 years (Previous year 1.62 years)	1.62 years (Previous year 2.51 years)	1.14 years (Previous year 2.03 years)	0.35 years (Previous year 2.20 years)	0 years (Previous year. NA)
Weighted average share price at the date of exercise for stock options exercised during the year	Rs. 539.43 (Previous year Rs. 654.01)	Rs. 572.3 (Previous year - NA)	Rs. 555.35 (Previous year 644.81)	Rs. 557.96 (Previous year Rs. 610.85)	NA (Previous year. NA)
Exercise period	Within 1 to 3 years of vesting of options				
Vesting conditions	Vesting of options would be subject to continued employment with the Company and/or its holding/ subsidiary and thus the options would vest on passage of time. In addition to this, the Remuneration/ Compensation Committee may also specify certain performance parameters subject to which the options would vest. In case of performance based vesting, the options would vest on achievement of performance parameters irrespective of the time horizon.				
Weighted Average Fair Value of options (granted but not vested) as on grant date	NIL (Previous year Rs. 246.22)	Rs. 196.08 (Previous year Rs. 246.41)	Rs. 195.83 (Previous year Rs. 246.41)	Rs. 250.22 (Previous year Rs. 260.74)	Rs 776.71 (Previous year. NA)

**Fair Value Methodology:**

The fair value of options have been estimated on the date of grant using Black-Scholes model as under. The key assumptions used in Black-Scholes model for calculating fair value are as under:

Particulars	Scheme V	Scheme VI	Scheme VII	Scheme VIII	Scheme IX
Range of Risk free interest rate	6.05% - 7.8%	6.05% - 7.8%	6.97% - 7.8%	6.18% - 7.37%	5.63% - 6.18%
Dividend yield	1%	1%	1%	0.5% - 1.38%	0.5% - 1.38%
Expected volatility	40%	40%	40%	40%	40%

**Exercise Pricing Formula**

**Scheme V**

Exercise price shall be the closing price of the Company's equity shares quoted on the BSE immediately preceding the date of Grant of the Stock Options, which for this purpose shall be the date on which the Committee grant the Stock Options, discounted by such percentage as may be determined by the Committee in the best interest of the various stakeholders in the prevailing market conditions

**Scheme VI**

Exercise price shall be the closing price of the Company's Equity Shares, prior to the date of grant of the Options, on the Stock Exchanges where the highest trading volume is recorded, discounted/increased by such percentage as may be determined by the Committee.

**Scheme VII**

Exercise price shall be the closing price of the Company's Equity Shares, prior to the date of grant of the Options, on the Stock Exchanges where the highest trading volume is recorded, discounted/increased by such percentage as may be determined by the Committee.

**Scheme VIII**

Exercise price shall be the closing price of the Company's Equity Shares, prior to the date of grant of the Options, on the Stock Exchanges where the highest trading volume is recorded, discounted/increased by such percentage as may be determined by the Committee.

**Scheme IX**

Exercise price shall be the closing price of the Company's Equity Shares, prior to the date of grant of the Options, on the Stock Exchanges where the highest trading volume is recorded, discounted/increased by such percentage as may be determined by the Committee.

**Other Information regarding employee share based payment plan is as below :**

Particulars	For the year ended 31 March 2022	For the year ended 31 March 2021
Expense arising from employee share based payment plans	1,264	1,262
Total carrying amount at the end of the period of Share based payment reserve	6,250	4,958

The Company provides a sensitivity analysis to show the impact to the Company's profit before taxation in the event that forfeiture and performance condition assumptions exceed or are below the Company's estimations by the stated percentages.

Impact on the income statement of a change in lever assumptions	For the year ended 31 March 2022	For the year ended 31 March 2021

(-)5%	222	78

**Motilal Oswal Financial Services Limited**  
**Summary of significant accounting policies and other explanatory information**  
 All amounts are in INR Lakhs unless otherwise stated

**Note 53: Tax Expense**

The company pays taxes according to the rates applicable in India. Most taxes are recorded in the income statement and relate to taxes payable for the reporting period (current tax), but there is also a charge or credit relating to tax payable for future periods due to income or expenses being recognised in a different period for tax and accounting purposes (deferred tax). Tax is charged to equity when the tax benefit exceeds the cumulative income statement expense on share plans. The Company provides for current tax according to the tax laws of India using tax rates that have been enacted or substantively enacted by the balance sheet date. Management periodically evaluates positions taken in tax returns in respect of situations in which applicable tax regulation is subject to interpretation. It establishes provisions, where appropriate, on the basis of amounts expected to be paid to the tax authorities. Deferred tax is provided, using the liability method, on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes. Deferred tax is recognised in respect of all temporary differences that have originated but not reversed at the balance sheet date, where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the balance sheet date. A deferred tax asset is recognised when it is considered recoverable and therefore recognised only when, on the basis of all available evidence, it can be regarded as probable that there will be suitable taxable profits against which to recover carried forward tax losses and from which the future reversal of underlying temporary differences can be deducted. Deferred tax is measured at the average tax rates that are expected to apply in the periods in which the temporary differences are expected to reverse, based on tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Particulars	Year ended 31 March 2022	Year ended 31 March 2021
<b>Current tax expense</b>

<b>Applicable tax rate</b>		
<b>Particulars</b>	<b>Year ended 31 March 2022</b>	<b>Year ended 31 March 2021</b>
Tax rate	25.168%	25.168%

In the financial year 2019-20, the government enacted a change in income tax rate from 30% basic rate to 22% and from 12% of surcharge to 10%. However, the government had given an option to either opt for new tax regime or continue with old tax regime and in the context of the same the company has opted for new tax regime. Accordingly the effective income tax rate for financial year is 25.168%.

**Motilal Oswal Financial Services Limited**  
**Summary of significant accounting policies and other explanatory information**  
 (All amounts are in INR Lakhs, unless otherwise stated)

Level 1: The fair value of financial instruments traded in active markets (such as publicly traded derivatives, and equity securities) is based on quoted market prices at the end of the reporting period. The quoted market price used for financial assets held by the group is the current bid price. These instruments are included in level 1.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities and investment in private equity funds, real estate funds.

**II. Valuation techniques used to determine fair value**

Specific valuation techniques used to value financial instruments include:

- Quoted equity investments - Quoted closing price on stock exchange
- Mutual fund - net asset value of the scheme
- Alternative investment funds - net asset value of the scheme
- Unquoted equity investments - price multiples of comparable companies.
- Private equity investment fund - NAV of the audited financials of the funds
- Real estate fund - net asset value, based on the independent valuation report or financial statements of the company income approach or market approach based on the independent valuation report.

**III. Financial instruments not measured at fair value**

Financial assets not measured at fair value includes cash and cash equivalents, trade receivables, loans and other financial assets. These are financial assets whose carrying amounts approximate fair value, due to their short-term nature.

Additionally, financial liabilities such as trade payables and other financial liabilities are not measured at FVTPL, whose carrying amounts approximate fair value, because of their short-term nature.

Fair value measurements using significant unobservable inputs (level 3)

The following table presents the changes in level 3 items for the periods ended 31 March 2022 and 31 March 2021:

Particulars	PE - Business Excellence Funds	PE - Real Estate Funds	Unquoted Shares	Total
<b>As at March 31, 2020</b>	28,062	22,281	3,197	53,540
Additions	9,235	2,212	0	11,447
Disposals	(16,260)	(8,530)	-	(24,790)
Gains/(losses) recognised in statement of profit and loss	18,660	(1,651)	2,666	19,675
<b>As at March 31, 2021</b>	39,697	14,312	5,863	59,872
Additions	1,868	231	9,996	12,095
Disposals	(433)	(3,737)	-	(4,170)
Gains/(losses) recognised in statement of profit and loss	1,960	294	934	3,188
<b>As at March 31, 2022</b>	43,092	11,100	16,793	70,986

Valuation inputs and relationships to fair value

The quantitative information about the significant unobservable inputs used in level 3 fair value measurements is summarised below:

Particulars	As at March 31 2022	As at March 31 2021
Fair value of PE funds	54,192	54,609
<b>Significant unobservable inputs</b>		
NAV of the fund at Fair value		
- increase by 100 bps	542	540
- decrease by 100 bps	(542)	(540)
Fair value of Unquoted shares	16,793	5,863
<b>Significant unobservable inputs</b>		
Price Multiple		
- increase by 10 %	1,679	586
- decrease by 10 %	(1,679)	(586)

**Motilal Oswal Financial Services Limited**  
**Summary of significant accounting policies and other explanatory information**  
 (All amounts are in INR Lakhs, unless otherwise stated)

**Note 55: Financial risk management**

Company has operations in India. Whilst risk is inherent in the Company's activities, it is managed through an integrated risk management framework, including on-going identification, measurement and monitoring, subject to risk limits and other controls. This process of risk management is critical to the Company's continuing profitability and each individual within the Company is accountable for the risk exposures relating to his or her responsibilities. The Company is exposed to credit risk, liquidity risk and market risk. It is also subject to various operating and business risks.

**A. Credit risk**

Credit risk is the risk that the Company will incur a loss because its customers or counterparties fail to discharge their contractual obligation. The Company manages and controls credit risk by setting limits on the amount of risk it is willing to accept for individual counterparties, and by monitoring exposures in relations to such limits.

The maximum exposure to credit risk for each class of financial instruments is the carrying amount of that class of financial instruments presented in the financial statements. The Company's major classes of financial assets are cash and cash equivalents, loans, investment in mutual fund units, term deposits, trade receivables and security deposits.

Deposits with banks are considered to have negligible risk or nil risk, as they are maintained with high rated banks/ financial institutions as approved by the Board of directors.

Investments primarily include investment in liquid mutual fund units that are marketable securities of eligible financial institutions for a specified time period with high credit rating given by domestic credit rating agencies.

The management has established accounts receivable policy under which customer accounts are regularly monitored. The Company has a dedicated risk management team, which monitors the positions, exposures and margins on a continuous basis.

Following provides exposure to credit risk for trade receivables and margin trading facility loans

	As at March 31, 2022	As at March 31, 2021
Trade Receivables (Net of impairment)	66,621	61,611
Margin trading facility loans (Net of impairment)	88,318	77,115

The financial instruments covered within the scope of ECL, include financial assets measured at amortised cost such as trade receivables and loans.

**Trade Receivables :**

The loss allowance has been measured using lifetime ECL, except for financial assets on which there has been no significant increase in credit risk since initial recognition. At each reporting date, the Company assesses whether financial assets carried at amortised cost is credit-impaired. A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred since initial recognition.

A simplified approach has been considered for measuring expected credit losses (ECLs) of trade receivables at an amount equal to lifetime ECLs. The ECLs on trade receivables are calculated based on actual historic credit loss experience over the preceding three to five years on the total balance of trade receivables. For the purpose of computation of ECLs, the term default implies an event where amount due towards margin requirement and / or mark to market losses for which the client was unable to provide funds / collaterals to bridge the shortfall, the same is termed as margin call triggered.

Based on the Industry practices and business environment in which the entity operates, Management considers unsecured receivables as default if the payment is overdue for more than 90 days for direct customer. For franchisee customers, Aggregate of unsecured receivables as reduced by Franchisee deposit/ future brokerages are considered as default. Management would also consider balance in client's family accounts and collaterals in form other than the securities while considering the secured position of the client. Management would also consider impairment on client balance which are unsecured and overdue for less than 90 days on case to case basis, based on their scope of recoverability. For litigation cases, management could provide enhanced provision if the probability of outflow of economic resource is higher. If there are specific cases which are overdue for more than 90 days and the management is very confident of its recovery in near future, impairment loss would not be provided for such cases based on the approval of business head for each reporting period. Probability of default (PD) on these receivables is considered at 100% and treated as credit impaired

**Loans :**

Loans includes Margin Trading Facility(MTF), Loans to staff and loans to subsidiaries for which staged approach is taken into consideration for determination of ECL.

**Stage 1.**

All positions in the MTF loan book are considered as stage 1 asset for computation of expected credit loss. For exposures where there has not been a significant increase in credit risk since initial recognition and that is not credit impaired upon origination. Margin trading facility, Loans to subsidiaries and loans to staff are considered in stage 1 for determination of ECL. Exposure to credit risk in stage 1 is computed considering historical probability of default, market movements and macro-economic environment

**Motilal Oswal Financial Services Limited**

**Summary of significant accounting policies and other explanatory information**

(All amounts are in INR Lakhs, unless otherwise stated)

**Stage 2.**

Exposures under stage 2 include overdues up to 90 days pertaining to principal amount, interest and any other charges on the MTF loan book which are unsecured. While arriving at the secured position of the client, management would also consider balance in client's family accounts, securities in other segment and collaterals in form other than the securities while considering the secured position of the client. At each reporting date, the Company assesses whether there has been a significant increase in credit risk for financial assets since initial recognition. In determining whether credit risk has increased significantly since initial recognition, the Company uses days past due information and other qualitative factors to assess deterioration in credit quality of a financial asset.

For credit exposures where there has been a significant increase in credit risk since initial recognition but that are not credit impaired, a lifetime ECL is recognised.

**Stage 3.**

Exposures under stage 3 include overdues past 90 days pertaining to principal amount, interest and any other charges on MTF loan book which are unsecured.

Financial assets are assessed as credit impaired when one or more events that have a detrimental impact on the estimated future cash flows of the asset have occurred. For financial assets that have become credit impaired, a lifetime ECL is recognised.

Following table provide information about exposure to credit risk and ECL on Margin Trading Facility loans.

Stage	As at March 31 2022		As at March 31 2021	
	Carrying value	ECL	Carrying value	ECL
	Stage 1	88,462	221	77,258
Stage 2	-	-	-	-
Stage 3	-	-	-	-

The movement in the allowance for impairment in respect of trade receivables is as follows

Particulars	Carrying amount	Carrying amount
	As at March 31 2022	As at March 31 2021
Opening balance	1,612	1,103
Impairment loss recognised	731	509
Closing balance	2,343	1,612

**B. Liquidity risk**

Liquidity risk is the risk that the entity will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The entity's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the entity's reputation.

Prudent liquidity risk management requires sufficient cash and marketable securities and availability of funds through adequate committed credit facilities to meet obligations when due and to close out market positions.

The Company has a view of maintaining liquidity with minimal risks while making investments. The Company invests its surplus funds in short term liquid assets in bank deposits and liquid mutual funds. The Company monitors its cash and bank balances periodically in view of its short term obligations associated with its financial liabilities.

Refer Note 57 For analysis of maturities of financial assets and financial liabilities.

**Motilal Oswal Financial Services Limited****Summary of significant accounting policies and other explanatory information**

(All amounts are in INR Lakhs, unless otherwise stated)

**C. Market Risk**

Market risk is the risk that the fair value or future Cash flows of a financial instrument will fluctuate because of changes in market prices. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

**(i) Foreign currency risk**

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates.

**Foreign currency risk management**

In respect of the foreign currency transactions, the company does not hedge the exposures since the management believes that the same is insignificant in nature and will not have a material impact on the Company.

The company's exposure to foreign currency risk at the end of reporting period is shown in note 49

**(ii) Interest rate risk**

The Company is exposed to Interest risk if the fair value or future cash flows of its financial instruments will fluctuate as a result of changes in market interest rates. Fair value interest rate risk is the risk of changes in fair values of fixed interest bearing investments because of fluctuations in the interest rates.

The Company's interest rate risk arises from interest bearing deposits with bank and loans given to customers. Such instruments exposes the Company to fair value interest rate risk. Management believe that the interest rate risk attached to this financial assets are not significant due to the nature of this financial assets.

**Interest rate risk exposure**

The exposure of the Company's borrowing to interest rate changes at the end of the reporting period are as follows:

Particulars	As at 31 March 2022	As at 31 March 2021
<b>Loans:</b>		
Loans	88,318	77,115
<b>Total Loans</b>	<b>88,318</b>	<b>77,115</b>
<b>Borrowings:</b>		
Variable rate borrowing	28,296	47,337
Fixed rate borrowing	1,88,797	1,60,572
<b>Total Borrowing</b>	<b>2,17,093</b>	<b>2,07,909</b>

**Sensitivity**

Profit or loss is sensitive to higher/lower interest expense from borrowings as a result of changes in interest rates.

The following table demonstrates the sensitivity to a reasonably possible change in interest rates (all other variables being constant) of the Company's statement of profit and loss and equity.

Particulars	Impact on profit after tax	
	31 March 2022	31 March 2021
<b>Loans:</b>		
Interest rates – increase by 1%	883	771
Interest rates – decrease by 1%	(883)	(771)
<b>Borrowings:</b>		
Interest rates – increase by 1%	(209)	(350)
Interest rates – decrease by 1%	209	350

**(iii) Market price risks**

The Company is exposed to market price risk, which arises from FVTPL and FVOCI investments. The management monitors the proportion of these investments in its investment portfolio based on market indices. Material investments within the portfolio are managed on an individual basis and all buy and sell decisions are approved by the appropriate authority.

Particulars	As at 31 March 2022	As at 31 March 2021
Exposure to price risk	2,60,219	2,47,688

**Sensitivity to price risk**

The following table summarises the impact of sensitivity of NAVs / price with all other variables held constant. The below impact on the Company's profit before tax is based on changes in the NAVs / price of the investments held at FVTPL/FVOCI at balance sheet date:

Sensitivity	As at March 31 2022	As at March 31 2021
Impact on profit before tax for 10% increase in NAV/price	26,022	24,769
Impact on profit before tax for 10% decrease in NAV/price	(26,022)	(24,769)

**Motilal Oswal Financial Services Limited**

**Summary of significant accounting policies and other explanatory information**

(All amounts are in INR Lakhs, unless otherwise stated)

**Note 58: Revenue from contract with customers**

The Company derives revenue primarily from the share broking business. Its other major revenue sources are the Portfolio management fees and commission income and Interest income.

**Disaggregate revenue information**

The table below presents disaggregate revenues from contracts with customers for the year ended 31 March 2022 and 31 March 2021. The Company believes that this disaggregation best depicts how the nature, amount, timing and uncertainty of revenue and cash flows are affected by market and other economic factors.

**Nature of Services**

- (a) **Broking Income** - Income from services rendered as a broker is recognised upon rendering of the services, in accordance with the terms of contract.
- (b) **Portfolio management fees and commission income** - Fees for subscription based services are received periodically but are recognised as earned on a pro-rata basis over the term of the contract. Commissions from distribution of financial products are recognised upon allotment of the securities to the applicant or as the case may be. Commissions and fees recognised as aforesaid are exclusive of goods and service tax, securities transaction tax, stamp duties and other levies by SEBI and stock exchanges.
- (c) **Interest Income** - Interest is earned on delayed payments from clients and amounts funded to them. Interest income is recognised on a time proportion basis taking into account the amount outstanding from customers or on the financial instrument and the rate applicable.
- (d) **Depository Income** - Income from services rendered on behalf of depository is recognised upon rendering of the services, in accordance with the terms of contract.

**2. Disaggregate revenue information**

<b>Particulars</b>	<b>For the year ended 31 March 2022</b>	<b>For the year ended 31 March 2021</b>
Operating segment:		
Brokerage income	1,58,070	1,18,433
Portfolio management fees and commission income	18,605	10,157
Interest income	33,145	18,544
Depository income	6,527	4,459

**3. Nature, timing of satisfaction of the performance obligation and significant payment terms.**

- (i) Income from services rendered as a broker is recognised upon rendering of the services.
- (ii) Fees for subscription based services are received periodically but are recognised as earned on a pro-rata basis over the term of the contract.
- (iii) Commissions from distribution of financial products are recognised upon allotment of the securities to the applicant or as the case may be, on issue of the insurance policy to the applicant.
- (iv) Interest is earned on delayed payments from clients and amounts funded to them as well as term deposits with banks.
- (v) Interest income is recognised on a time proportion basis taking into account the amount outstanding from customers or on the financial instrument and the rate applicable.
- (vi) Income from services rendered on behalf of depository is recognised upon rendering of the services, in accordance with the terms of contract.

The above services are point in time in nature, and no performance obligation remains once the transaction is executed.

Fees for subscription based services are received periodically but are recognised as earned on a pro-rata basis over the term of the contract, and are over the period in nature.

(All amounts are in INR Lakhs, unless otherwise stated)

**Note 60 : Business Combinations**

**Compliance with approved Scheme of Arrangements**

(a) The Board of Directors of the Company at its Meeting held on 24 December 2020 has, inter-alia, subject to approval of shareholders of the Company and other applicable statutory and regulatory approvals including the approval of Hon'ble National Company Law Tribunal, Mumbai Bench ("NCLT"), approved the Scheme of Arrangement between Passionate Investment Management Private Limited (Ultimate Holding Company of Motilal Oswal Financial Services Limited) ("the Transferor Company 1") and MOPE Investment Advisors Private Limited ("the Transferee Company 2" or "the Demerged Company 1" or "the Transferor Company 3") and Motilal Oswal Real Estate Investment Advisors Private Limited ("the Transferor Company 2") and Motilal Oswal Real Estate Investment Advisors II Private Limited ("the Demerged Company 2" or "the Transferor Company 4") and MO Alternate Investment Advisors Private Limited (erstwhile Motilal Oswal Fincap Private Limited) ("the Resulting Company") and Motilal Oswal Financial Services Limited ("the Transferee Company 1" or "the Holding Company of the Resulting Company" or "the Company") and their respective shareholders ("the Scheme") under Sections 230-232 of the Companies Act, 2013. Further, pursuant to the provisions of Regulation 37 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, the Company has received No Objection Certificate from Stock Exchanges and the Company has filed an application with Hon'ble NCLT. Pursuant to the directions issued by Hon'ble NCLT, the Meeting of equity shareholders was scheduled on 16 December 2021 and the Scheme was approved by shareholders with requisite majority. Consequently, the Hon'ble NCLT approved the Scheme of Arrangement vide order dated 11 March 2022. The effect of the said Scheme was given on 30 March 2022 from the appointed date of 01 April 2020 by restating the financial statement for the year ended 31 March 2021.

(b) The accounting treatment of the said Scheme given in the books of accounts is in accordance with the Scheme and in conformity with the accounting standards prescribed under section 133 of the Companies Act, 2013. Further, figures for the year ended 31 March 2021 as shown above are the restated figures based on the audited accounts of the Transferor, Transferee and Resulting Company.

**Accounting treatment given in the books for the Scheme:**

**1. Amalgamation And Vesting Of Assets And Liabilities And Entire Business Of The Transferor Company 1**

1.1 The Transferee Company 1 shall give effect to the amalgamation in its books of accounts as per the applicable accounting principles prescribed under the Companies (Indian Accounting Standards) Rules, 2015 (Ind AS) notified under Section 133 of the Companies Act, 2013, as may be amended from time to time and on the date determined in accordance with applicable Ind AS.

1.2 Upon effectiveness of the Scheme, the net assets of the Transferor Company 1 (excluding shares of the Transferee Company 1 held by the Transferor Company 1 which shall get cancelled) will be reflected at fair value as at the Effective Date.

1.3 The inter-company deposits/ inter-company loans and advances, if any, in the books of accounts of the Transferee Company 1 and the Transferor Company 1 shall stand cancelled as at the Effective Date.

1.4 The difference, if any, being excess or deficit arising pursuant to the amalgamation, after giving effect to the above adjustments, shall be accounted based on generally adopted accounting principles under Ind AS.

1.5 The Transferee Company 1 shall without any application or deed, issue and allot equity shares of face value of Re. 1/- each, credited as fully paid up, to the extent indicated below, to the equity shareholders holding fully paid up equity shares of the Transferor Company 1 and whose name appear in the register of members of the Transferor Company 1 on the Record Date or to such of their respective heirs, executors, administrators or other legal representatives or other successors in title as may be recognized by the Board of Directors of the Transferor Company 1/ the Transferee Company 1.

**Motilal Oswal Financial Services Limited**

**Summary of significant accounting policies and other explanatory information**

(All amounts are in INR Lakhs, unless otherwise stated)

**2. Amalgamation And Vesting Of Assets And Liabilities And Entire Business Of The Transferor Company 2**

The Transferee Company 2 shall account for the amalgamation in its books/ financial statements as per "Pooling of Interests Method" under Appendix C of "Indian Accounting Standard (Ind-AS)" 103, Business Combinations and any other relevant Ind AS notified under the Companies (Indian Accounting Standards) Rules, 2015, as amended from time to time including as provided herein below:

2.1 The Transferee Company 2 shall record the assets and liabilities of the Transferor Company 2, transferred to and vested in it at their respective carrying values as appearing in the books of the Transferor Company 2 in accordance with Para 9(iii) of Appendix C of Ind AS 103.

2.2 The Transferee Company 2 shall preserve the identity of the reserves of the Transferor Company 2 transferred to and vested in it and shall record in its books in the same form in which they appear in the books of the Transferor Company 2 and it shall be aggregated with the corresponding balance appearing in the financial statements of the Transferee Company 2.

2.3 The shares held by the Transferee Company 2 in the Transferor Company 2 on the Effective Date shall be cancelled.

2.4 Loans and advances, receivables, payables and other dues outstanding between the Transferor Company 2 and the Transferee Company 2 will stand cancelled and there shall be no further obligation / outstanding in that behalf.

2.5 The difference between the net assets transferred to the Transferee Company 2 pursuant to Clause 2.1 as reduced by Reserves recorded in the Transferee Company 2 pursuant to Clause 2.2 and after giving effect Clause 2.3 and 2.4, the difference shall be adjusted against Capital Reserve of the Transferee Company 2.

2.6 In case of any difference in accounting policy between the Transferor Company 2 and the Transferee Company 2, the accounting policies followed by the Transferee Company 2 shall prevail and the difference till the Appointed Date will be quantified and adjusted as per Ind AS, to ensure that the financial statements of Transferee Company 2 reflects the financial position on the basis of consistent accounting policy.

2.7 The Transferor Company 2 is a wholly owned subsidiary of the Transferee Company 2 and therefore on amalgamation of the Transferor Company 2 into the Transferee Company 2 there shall be no issue of shares by the Transferee Company 2 in this regard as consideration.

**3. Demerger of The Fund Management Undertaking 1 From The Demerged Company 1 Into The Resulting Company**

3.1 The Demerged Company 1 shall account for the Scheme from the Appointed Date in its books/ financial statements upon receipt of all relevant/ requisite approvals for the Scheme, in accordance with applicable Indian Accounting Standards (Ind-AS) notified under the Companies (Indian Accounting Standards) Rules, 2015, as amended from time to time including as provided herein below:

Accounting treatment in the books of the Demerged Company 1

3.1.1 The Demerged Company 1 shall reduce the carrying value of assets and liabilities pertaining to the Fund Management Undertaking 1, transferred to and vested in the Resulting Company from the carrying value of assets and liabilities as appearing in its books.

3.1.2 Loans and advances, receivables, payables and other dues outstanding between the Demerged Company 1 and the Resulting Company relating to the Fund Management Undertaking 1 will stand cancelled and there shall be no further obligation / outstanding in that behalf.

3.1.3 The Demerged Company 1, as on the Appointed Date, shall transfer the balances of all the reserves to the Resulting Company, in the proportion of the net assets transferred to the Resulting Company and the net assets retained by the Demerged Company 1 ("Transferred Reserves")

3.1.4 The difference, being the excess of carrying value of assets over the carrying value of liabilities transferred pursuant to Clause 3.1.1 and after giving effect to clause 3.1.2 and clause 3.1.3 above shall be adjusted to the other equity of the Demerged Company 1.

Accounting treatment in the books of the Holding Company of the Resulting Company.

3.1.5 The Holding Company of the Resulting Company shall credit its share capital with the aggregate face value of the equity shares issued and corresponding debit shall be made to Investment in Resulting Company Account.

**Motilal Oswal Financial Services Limited**

(All amounts are in INR Lakhs, unless otherwise stated)

**6. Amalgamation Of The Transferor Company 4 With The Transferee Company 1**

The Transferee Company 1 shall account for the amalgamation in its books/ financial statements as per "Pooling of Interests Method" under Appendix C of "Indian Accounting Standard (Ind-AS)" 103. Business Combinations and any other relevant Ind AS notified under the Companies (Indian Accounting Standards) Rules, 2015, as amended from time to time including as provided herein below:

6.1. The Transferee Company 1 shall record the assets and liabilities of the Transferor Company 4, transferred to and vested in it at their respective carrying values as appearing in the books of the Transferor Company 4 in accordance with Para 9(iii) of Appendix C of Ind AS 103.

6.2. The Transferee Company 1 shall preserve the identity of the reserves of the Transferor Company 4 transferred to and vested in it and shall record in its books in the same form in which they appear in the books of the Transferor Company 4 and it shall be aggregated with the corresponding balance appearing in the financial statements of the Transferee Company 1.

6.3. The shares held by the Transferee Company 1 in the Transferor Company 4 on the Effective Date shall be cancelled.

6.4. The Transferee Company 1 shall credit to its share capital in its books the aggregate face value of the equity shares issued by it to shareholders of the Transferor Company 4 pursuant to Clause 62 of this Scheme.

6.5. Loans and advances, receivables, payables and other dues outstanding between the Transferor Company 4 and the Transferee Company 1 will stand cancelled and there shall be no further obligation / outstanding in that behalf.

6.6. The difference between the net assets transferred to the Transferee Company 1 pursuant to Clause 6.1 as reduced by Reserves recorded in the Transferee Company 1 pursuant to Clause 5.6 and after giving effect to Clause 6.3 to 6.5, the difference shall be adjusted against Capital Reserve of the Transferee Company 1.

6.7. In case of any difference in accounting policy between the Transferor Company 4 and the Transferee Company 1, the accounting policies followed by the Transferee Company 1 shall prevail and the difference till the Appointed Date will be quantified and adjusted as per Ind AS, to ensure that the financial statements of Transferee Company 1 reflects the financial position on the basis of consistent accounting policy.

6.8. Upon the Scheme becoming effective, i.e., on amalgamation of the Transferor Company 3 with the Transferee Company 1, the Transferor Company 4 will become a subsidiary of the Transferee Company 1.

Upon the Scheme becoming effective and upon the amalgamation of the Transferor Company 4 with the Transferee Company 1 in terms of this Scheme, the Transferee Company 1 shall without any application or deed, issue and allot New Equity Shares of face value of Re. 1/- each, credited as fully paid up, to the extent indicated below, to the equity shareholders holding fully paid up equity shares of the Transferor Company 4 (except shares held by the Transferee Company 1) and whose name appear in the register of members of the Transferor Company 4 on the Record Date or to such of their respective heirs, executors, administrators or other legal representatives or other successors in title as may be recognized by the Board of Directors of the Transferee Company 1.

(a) Total amount required to be spent during the year	684	813
(b) Total amount of expenditure incurred during the year	684	870
(c) Shortfall at the end of the year	-	-
(d) Total amount of previous years shortfall	-	-
(e) Reason for shortfall	NA	NA
(f) Nature of CSR activities	Refer Note 1	
(g) Details of related party transactions	Refer Note 3	
(h) Where a provision is made with respect to a liability incurred by entering into a contractual obligation, the movements in the provision during the year should be shown separately	NA	NA

**Notes:**

1. The Company undertakes the following activities in the nature of Corporate social responsibility (CSR):
- Promoting education, including special education and employment enhancing vocational skills, especially among children, women, and elderly, contribution to COVID relief program, PM cares fund;
  - Promotion of health care, including preventive health care and sanitation;
  - Measures for the benefit of armed forces veterans, war widows, and their dependents;
  - Ensuring environmental sustainability, ecological balance, protection of flora and fauna, animal welfare, agroforestry, conservation of natural resources.

2. Amount of Rs. Nil (Previous Year : Rs.400 lakhs) has been spent by the Company for the construction/ acquisition of a new asset.  
 3. Contribution of Rs. 616 lakhs (Previous year Rs. 788 lakhs) to Motilal Oswal Foundation which is classified as related party under Ind AS 24- "Related Party Disclosures"

**Note 62:** The Company does not have any material transactions with the companies struck off under section 248 of Companies Act, 2013 or section 560 of Companies Act, 1956 during the year ended 31 March 2022 and 31 March 2021.

**Note 63:** Additional regulatory information required under (WB) (xvi) of Division III of Schedule III amendment, disclosure of ratios, is not applicable to the Company as it is in broking business and not an NBFC registered under Section 45-1A of Reserve Bank of India Act, 1934.

**Note 64: Negative price settlement of Futures April West Texas Intermediate(WTI) Contract**

Exceptional item in the year ended 31 March 2021 comprises of bad debts of Rs. 8,810 Lakhs on account of outstanding dues from client towards settlement obligation. MCX vide its circular dated 21 April 2020 has considered the negative price for settlement of futures contract on expiry. Thus the customers who entered on the buy side of the contract had to settle for negative price on expiry. While entering into the contract, the customers were required to pay only the margin as was required by the exchange including mark to market losses. Since MCX has effected the settlement of such contract upon expiry at negative price, the client's account was debited with above amount as settlement obligation on account of negative price settlement in respect of its outstanding contract. Since the client have defaulted to honour the settlement obligation required by MCX, Company has paid the said amount to MCX on behalf of its clients. For recovering the said amount from client, Company has filed an arbitration claim for recovery of outstanding dues, against the clients before Arbitral Tribunal of MCX, and the Company has received arbitration awards amounting to Rs. 8,676 Lakhs in its favour. However the clients have filed an appellate arbitrations before Appellate Arbitral Tribunal of MCX, challenging the awards passed in favour of the Company. Client's appeal has been dismissed vide order dated 25 October 2021. The client has filed an application u/s 34 of Arbitration Act to challenge the Award of Appellate Arbitral Tribunal and the same is currently pending. Further, the Company has filed petition u/s 9 of Arbitration Act before the courts and the courts have directed the clients not to dispose of their assets till the next date of hearing.

**Note 65:** The Code on Social Security, 2020 ("Code") relating to employee benefits during employment and post-employment benefits received Presidential assent in September, 2020. The Code has been published in the Gazette of India. However, the date on which the Code will come into effect has not been notified and the final rules/interpretation have not yet been issued. The Company will assess the impact of the Code when it comes into effect and will record any related impact in the period the Code becomes effective.

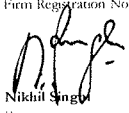

**Note 66:** The amounts reflected as "0" in the financial information are values with less than rupees fifty thousands.

**Note 67:** Previous year figures have been regrouped/reclassified wherever necessary.

b) Terms/rights attached to shares :

Equity shares

The Company has one class of equity shares having a par value of Re. 1 each (previous year: having a par value of Re. 1 each). Each holder of equity shares is entitled to one vote per share. In the event of liquidation of the Company, the holder of the equity shares will be entitled to receive any of the remaining assets of the Company, after distribution of all the preferential amounts. However, no such preferential amounts exists currently. The distribution will be in proportion to the number of equity shares held by the shareholders. The Company declares and pays dividend in Indian rupees. The dividend proposed by the Board of Directors is subject to the approval of shareholders in the ensuing Annual General Meeting.

During the year ended 31 March 2023, dividend recognized as distribution to equity shareholders was Rs. 10.00 per share consisting of final dividend of Rs. 3.00 per share for previous year ended 31

March 2022 and interim dividend of Rs. 7 per share for year ended 31 March 2023. The total dividend appropriated amounts to Rs.14,823 lakhs (Previous Year: Rs.7,365 lakhs)

c) Shares reserved for issue under options

Less:- Transfer to Non-controlling interest	(125)	(7,171)
<b>Balance as at end of the year</b>	<b>4,98,950</b>	<b>4,30,698</b>

# As per Para 78 of scheme of arrangement, all costs, charges, taxes including duties, levies and all other expenses, if any (save as expressly otherwise agreed) arising out of or incurred in carrying out and implementing Part B of the Scheme and matters incidental thereto shall be borne by the Promoters of the Transferor Company 1 i.e. Passionate Investment Management Private Limited/Transferor Company 1 and no cost shall be incurred by public shareholders of the Transferee Company 1 i.e.; Motilal Oswal Financial Services Limited.

In line with above paragraph, Transferor Company 1 has created a provision for stamp duty payable of Rs 3,000 lakhs on the transfer of shareholding from PIMPL to its shareholders and simultaneously claiming Deferred tax benefit of Rs 755 lakhs thereon. The said expense has not been routed through Profit and Loss statement but utilized from reserves of PIMPL and corresponding FD has been created to give the effect. Thus there is no impact on the profit and loss account of the merged entity and is cashflow neutral to the shareholders of the transferor and transferee company with respect to the retrospective accounting.

Thus, Transferor Company 1 (PIMPL) has created sufficient Free Reserve pursuant to scheme of merger against which the Stamp duty net of taxes of Rs. 2,245 lakhs can be reduced to that extent.

**i) Other comprehensive income**

Balance at the beginning of the year	45,025	41,050
Add : Other comprehensive income for the year	(4,774)	3,975

**j) Impairment reserve**

Balance at the beginning of the year	90	62
Add: Transferred from statement of profit and loss	-	28
	<u>90</u>	<u>90</u>
	<u>6,23,745</u>	<u>5,65,946</u>

**Nature and purpose of Other Reserve :**

**Statutory Reserve**

The Company creates a reserve fund in accordance with the provisions of section 29C of The National Housing Bank Act, 1987 and section 45-1C of the Reserve Bank of India Act, 1934 and transfers therein an amount of equal to/more than twenty per cent of its net profit of the year, before declaration of dividend.

**Capital Redemption Reserve**

The capital redemption reserve is created to be utilised towards redemption of preference shares and it also includes addition arising on account of buyback of shares. The reserve will be utilised in accordance with provision of the Act.

**Securities Premium**

Security premium account is used to record the premium received on issue of shares and it also includes transfer from ESOS reserve when the options are exercised. The reserve will be utilised in accordance with the provisions of the Act.

**Employee stock options outstanding reserve**

Share option outstanding account is used to recognize the grant date fair value of equity settle instruments issued to employees under the stock option scheme of the company.

**Capital reserve on consolidation**

Capital reserve is the excess of net assets taken over cost of consideration paid for subsidiaries.

**General reserve**

The general reserve is used from time to time to transfer profits from retained earnings for appropriation purposes. As the general reserve is created by a transfer from one component of equity to another and is not an item of other comprehensive income, items included in the general reserve will not be reclassified subsequently to statement of profit and loss. general reserve is used to transfer to debenture redemption reserve.

**Foreign currency translation reserve**

Foreign currency translation reserve is created out of Exchange differences in translating the financial statements of foreign operations.

**Impairment reserve**

Where impairment allowance under Ind AS 109 is lower than the provisioning required under prudential norms on Income Recognition, Asset Classification and Provisioning (IRACP) (including standard asset provisioning), NBFCS /HFCs shall appropriate the difference from their net profit or loss after tax to a separate 'Impairment Reserve'. The balance in the 'Impairment Reserve' shall not be reckoned for regulatory capital. Further, no withdrawals shall be permitted from this reserve without prior permission from the Department of Supervision, RBI.

**Retained earnings**

Retained earnings represents accumulated profits of the company.

**Other comprehensive income**

Other comprehensive income consists of cumulative gains on the fair valuation of equity instruments measured at fair value through other comprehensive income.

	<b>38,818</b>	<b>31,185</b>

**Note : 38.1 Tax expense**

The Group pays taxes according to the rates applicable in India and tax laws of foreign countries. Most taxes are recorded in the income statement and relate to taxes payable for the reporting period (current tax), but there is also a charge or credit relating to tax payable for future periods due to income or expenses being recognised in a different period for tax and accounting purposes (deferred tax). Tax is charged to equity when the tax benefit exceeds the cumulative income statement expense on share plans. The Group provides for current tax according to the tax laws of India using tax rates that have been enacted or substantively enacted by the balance sheet date. Management periodically evaluates positions taken in tax returns in respect of situations in which applicable tax regulation is subject to interpretation. It establishes provisions, where appropriate, on the basis of amounts expected to be paid to the tax authorities. Deferred tax is provided, using the liability method, on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes. Deferred tax is recognised in respect of all temporary differences that have originated but not reversed at the balance sheet date, where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the balance sheet date. A deferred tax asset is recognised when it is considered recoverable and therefore recognised only when, on the basis of all available evidence, it can be regarded as probable that there will be suitable taxable profits against which to recover carried forward tax losses and from which the future reversal of underlying temporary differences can be deducted. Deferred tax is measured at the average tax rates that are expected to apply in the periods in which the temporary differences are expected to reverse, based on tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

\*Expected volatility has been calculated of listed holding company shares of Motilal Oswal Financial Services Limited long term average since listing.

**The exercise pricing formula for MOAMC ESOP schemes are as under:**

**Scheme I**

The Committee shall have the authority to determine the Exercise Price having regard to the valuation report of an independent practicing chartered accountant that may be based on such valuation method, as may be considered suitable by him, including but not restricted to the Net Asset Value Method, Discounted Cash Flow Method, Earnings Capitalisation Method, Dividend Yield Model, etc. and may also rely upon the future projections of the Company which would be prepared by the management from time to time having regard to the future potential and prospects of the Company.

The Committee shall in its absolute discretion, have the authority to grant the Options at such discount as it may deem fit.

**Scheme II**

The Committee shall have the authority to determine the Exercise Price having regard to the valuation report of an independent practicing chartered accountant that may be based on such valuation method, as may be considered suitable by him, including but not restricted to the Net Asset Value Method, Discounted Cash Flow Method, Earnings Capitalisation Method, Dividend Yield Model, etc. and may also rely upon the future projections of the Company which would be prepared by the management from time to time having regard to the future potential and prospects of the Company.

The Committee shall in its absolute discretion, have the authority to grant the Options at such discount as it may deem fit.

**The exercise pricing formula for MOWML ESOP schemes are as under:**

The Committee shall have the authority to determine the Exercise Price having regard to the valuation report of an independent practicing chartered accountant that may be based on such valuation method, as may be considered suitable by him, including but not restricted to the Net Asset Value Method, Discounted Cash Flow Method, Earnings Capitalisation Method, Dividend Yield Model, etc. and may also rely upon the future projections of the Company which would be prepared by the management from time to time having regard to the future potential and prospects of the Company.

The Committee shall in its absolute discretion, have the authority to grant the Options at such discount as it may deem fit.

**The exercise pricing formula for MOFSL ESOP schemes are as under:**

**Scheme V**

Exercise price shall be the closing price of the Company's equity shares quoted on the BSE immediately preceding the date of Grant of the Stock Options, which for this purpose shall be the date on which the Committee grant the Stock Options, discounted by such percentage as may be determined by the Committee in the best interest of the various stakeholders in the prevailing market conditions

**Scheme VI**

Exercise price shall be the closing price of the Company's Equity Shares, prior to the date of grant of the Options, on the Stock Exchanges where the highest trading volume is recorded, discounted/increased by such percentage as may be determined by the Committee.

**Motilal Oswal Financial Services Limited**  
**Notes to the consolidated financial statements**  
 (All amounts are in INR Lakhs, unless otherwise stated)

**Scheme VII**

Exercise price shall be the closing price of the Company's Equity Shares, prior to the date of grant of the Options, on the Stock Exchanges where the highest trading volume is recorded, discounted/increased by such percentage as may be determined by the Committee.

**Scheme VIII**

Exercise price shall be the closing price of the Company's Equity Shares, prior to the date of grant of the Options, on the Stock Exchanges where the highest trading volume is recorded, discounted/increased by such percentage as may be determined by the Committee.

**Scheme IX**

Exercise price shall be the closing price of the Company's Equity Shares, prior to the date of grant of the Options, on the Stock Exchanges where the highest trading volume is recorded, discounted/increased by such percentage as may be determined by the Committee.

**The exercise pricing formula for MOHFL ESOS 2014, MOHFL ESOS 2016, MOHFL ESOS 2017 & MOHFL ESOS 2017 H Co are as under:**

The nomination and remuneration committee shall have the authority to determine the exercise price having regard to the valuation report of an independent practicing chartered accountant that may be based on such valuation method, as may be considered suitable by him, including but not restricted to the Net Asset Value Method, Discounted Cash Flow Method, Earnings Capitalisation Method, Dividend Yield Model, etc. and may also rely upon the future projections of the Company, which would be prepared by the management from time to time having regard to the future potential and prospects of the Company. The said committee shall in its absolute discretion, have the authority to grant the options at such discount as it may deem fit.

**Other Information regarding Employee Share Based Payment Plan is as below**

The Company provides a sensitivity analysis to show the impact to the Company's profit before taxation in the event that forfeiture and performance condition assumptions exceed or are below the Company's estimations by the stated percentages.

Impact on the income statement on account of change in the assumption of estimate of exercising of options	Year ended 31 March 2023	Year ended 31 March 2022
(+)5%	(171)	(228)
(-)5%	171	228

**Motilal Oswal Financial Services Limited**  
**Notes to the consolidated financial statements**  
(All amounts are in INR Lakhs, unless otherwise stated)

**Note 51 Segment Reporting**

The Chief Operating Decision Maker monitors the operating results of the business segment separately for the purpose of making decision about resource allocation and performance assessment. Segment performance evaluated based on profit or loss and is measured consistently with profit or loss in the financial statements. The operating segments have been identified considering the nature of services, the differing risks and returns, the organization structure and the internal financial reporting system.

The business segment has been considered as the primary segment for disclosure. The primary business of the Group comprises of "Capital market", "Fund based activities", "Asset Management and Advisory" and "Home Finance".

Capital market activities includes broking services to clients, research and advisory services, financial product distribution, depository services, investment banking, margin trading funding, etc.

Fund based activities include investment activities (including investment in securities and property) and financing activity.

Asset Management and Advisory includes fee based services for management of assets.

Home Finance represents interest and other related income from affordable housing finance business.

Since the business operations of the Group are primarily concentrated in India, the Group is considered to operate only in the domestic segment.

The accounting principles consistently used in the preparation of the financial statements are also consistently applied to record income and expenditure of individual segments.

Income and direct expenses in relation to segments are categorized based on items that can be individually identifiable to that segment. Certain expenses such as taxes, etc. are not specifically allocable to specific segments.

Assets / Liabilities to the extent directly identifiable to a segment have been categorized separately; others have been shown as "unallocable" in the total column. Other balance sheet items such as deferred tax liability are similarly not allocated to segments.

<b>Total segment liabilities</b>	<b>16,72,676</b>	<b>11,22,269</b>

\*Home Finance segment derives a majority of its revenue from interest. Management primarily relies on net interest revenue, not the gross revenue and expense amounts, in managing that segment. Therefore, as permitted by paragraph 23 of Ind AS 108 only the net amount is disclosed.

The Group determines revenue recognition through the following steps:

1. Identification of the contract, or contracts, with a customer.
2. Identification of the performance obligations in the contract.
3. Determination of the transaction price.
4. Allocation of the transaction price to the performance obligations in the contract.
5. Recognition of revenue when, or as, we satisfy a performance obligation.

**a) Nature of services**

(i) Broking and other related activities - Income from services rendered as a broker is recognised upon rendering of the services, in accordance with the terms of contract. Income from services rendered on behalf of depository is recognised upon rendering of the services, in accordance with the terms of contract.

(ii) Interest income on home loan, loan against shares, MTF and other interest - Interest is earned from clients on amounts funded to them and on delayed payments. Interest income is recognised on a time proportion basis taking into account the amount outstanding from customers or on the financial instrument and the rate applicable.

(iii) Portfolio management fee, Investment management and advisory fees - The Group is an Investment Manager and provide, investment management and administrative services to the Schemes of Motilal Oswal Mutual Fund ('the Fund'), provides Portfolio Management Services ('PMS') to clients, investment management services to Alternate Investment Funds and provide investment advisory services to onshore and offshore clients. The Group earns managements fees from respective businesses.

**b) Disaggregation of revenue**

**Revenue from contracts with customers:**

<b>Particulars</b>	<b>31 March 2023</b>	<b>31 March 2022</b>
(i) Broking and other related activities	1,89,140	1,74,619
(ii) Interest income	1,22,829	1,03,425
(iii) Portfolio management fee, Investment management and advisory fees	84,201	86,112
	<b>3,96,170</b>	<b>3,64,156</b>

Revenue disaggregation by business segment has been included in segment information (refer note 51).

**c) Contract balances**

Receivables - The outstanding balance as at 31 March 2023 : INR 1,02,912 lakhs, 31 March 2022: INR 1,00,332 lakhs (also refer note 6).

Loans and advances - The outstanding balance as at 31 March 2023 : Rs. 7,21,764 lakhs, 31 March 2022: Rs. 4,90,452 lakhs (also refer note 7).

**d) Performance obligations and timing of revenue recognition**

(i) Broking and other related activities:-

Income from services rendered as a broker & referral fees is recognised upon rendering of the services.

Fees for subscription based services & training fees are received periodically but are recognised as earned on a pro-rata basis over the term of the contract.

Commissions from distribution of financial products are recognised upon allotment of the securities to the applicant or as the case may be, on issue of the insurance policy to the applicant.

(ii) Interest income on loans and MTF:-

Interest income is recognised on a time proportion basis taking into account the amount outstanding from customers or on the financial instrument and the rate applicable.

Interest is earned on delayed payments from clients and amounts funded to them as well as term deposits with banks.

(iii) Portfolio management fee, Investment management fees and advisory:-

Performance obligation of fee from asset management and portfolio management services are completed as per the terms and conditions of the asset management agreement. The usual payment term for the performance obligation of the company is one to three month.

Income from advisory services is recognised upon rendering of the services.

**Note 53 Maturity analysis of assets and liabilities**

The table below shows an analysis of assets and liabilities analysed according to when they are expected to be recovered or settled.

Particulars	As at 31 March 2023			As at 31 March 2022		
	Within 12 months	After 12 months	Total	Within 12 months	After 12 months	Total

**b) Fair value hierarchy**

The fair values of the financial assets and liabilities are included at the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

This section explains the judgments and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost. To provide an indication about the reliability of the inputs used in determining fair value, the Group has classified its financial instruments into the three levels prescribed under the Indian Accounting standard. An explanation of each level follows underneath the table.

**Level 1:** Level 1 hierarchy includes financial instruments measured using unadjusted quoted prices. For example, listed equity instruments that have quoted market price.

**Level 2:** The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over-the-counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

**Level 3:** If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities, contingent consideration and indemnification asset included in level 3.

**As at 31 March 2023**

Assets and liabilities measured at fair value - recurring fair value measurements	Level 1	Level 2	Level 3	Total
<b>Financial assets</b>				
Financial investments at FVTPL				
- Mutual funds	2,11,398	-	-	2,11,398
- Quoted equity and preference shares	2,428	-	-	2,428
- Alternative Investment funds	-	15,613	-	15,613
- Private equity funds	-	-	99,227	99,227
- Real estate funds	-	-	25,390	25,390
- Unquoted equity and preference shares	-	-	32,671	32,671
- Unquoted Security receipts	-	-	19,646	19,646
- Debentures and Bonds - Unquoted	-	-	5,470	5,470
<b>Financial Investments at FVOCI</b>

**II. Valuation techniques used to determine fair value**

Specific valuation techniques used to value financial instruments include :

- Quoted equity investments - Quoted closing price on stock exchange
- Mutual fund - net asset value of the scheme
- Alternative investment funds - net asset value of the scheme
- Unquoted equity and preference investments - price multiples of comparable companies.
- Private equity funds - NAV of the audited financials of the funds.
- The fair values for investment in security receipt are based on the quoted market prices given by independent rating agency.
- Real estate funds - net asset value, based on the independent valuation report or financial statements of the company income approach or market approach based on the independent valuation report.

**III. Fair value of financial instrument measured at amortised cost**

Financial assets not measured at fair value includes cash and cash equivalents, trade receivables, loans and other financial assets. These are financial assets whose carrying amounts approximate fair value, due to their short-term nature.

Additionally, financial liabilities such as trade payables and other financial liabilities are not measured at FVTPL, whose carrying amounts approximate fair value, because of their short-term nature.

c) Fair value measurements using significant unobservable inputs (level 3)

The following table presents the changes in level 3 items for the year ended 31 March 2023 and 31 March 2022:

Particulars	Private Equity Funds	Real Estate Funds	Debentures and Bonds	Security receipts	Unquoted Shares	Total
As at 1 April 2021	67,980	20,683	3,013	21,617	5,863	1,19,156
Additions	9,622	3,768	16,781	7,310	21,459	58,940
Disposals	(433)	(4,217)	(11,781)	(5,711)	-	(22,141)
Gains/(losses) recognised in statement of profit and loss	8,040	161	23	(1,470)	8,875	15,628
As at 31 March 2022	85,208	20,395	8,036	21,746	36,197	1,71,583
Additions	18,841	13,129	2,310	5,048	150	39,478
Disposals	(6,127)	(8,329)	(4,876)	(5,618)	(920)	(25,870)
Gains/(losses) recognised in statement of profit and loss	1,302	195	-	(1,530)	(2,772)	(2,805)
As at 31 March 2023	99,226	25,390	5,470	19,646	32,655	1,82,386

d) Transfers between levels 2 and 3

There are no transfers between Level 2 and Level 3 during the year

e) Valuation inputs and relationships to fair value

The quantitative information about the significant unobservable inputs used in level 3 fair value measurements is summarised below.

Sensitivity analysis

Particulars	As at 31 March 2023	As at 31 March 2022
Fair value of instruments	1,82,404	1,71,582
<b>Significant unobservable inputs</b>		
Net worth of the fund at Fair value		
- increase by 1000 bps	18,240	17,158
- decrease by 1000 bps	(18,240)	(17,158)

**Note 55: Financial risk management**

The Group is exposed primarily to fluctuations in credit, liquidity and price risk which may adversely impact the fair value of its financial instrument. The Group has a risk management policy which covers risk associated with the financial assets and liabilities. The focus of the risk management is to assess the unpredictability of the financial environment and to mitigate potential adverse effect on the financial performance of the Group. The Group's principal financial liabilities comprises of borrowings from bank/financial institutions, trade and other payables. The main purpose of these financial liabilities is to finance the Group's operations. The Group's principal financial assets include Investments, loans, receivables and cash and cash equivalents that derive directly from its operations.

**A Credit risk**

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's loans and advances to customers. For risk management reporting purposes, the Group considers and consolidates all elements of credit risk exposure.

**Management of credit risk**

The Board of Directors has delegated responsibility for the oversight of credit risk to the Risk Management Committee, which in turn has appointed the Interest Rate Reset Committee (IRRC) which is the Internal committee and the meeting of the said committee (IRRC) is conducted on a monthly basis, the objective of which is to determine the retail prime lending rates (RPLR) based on market scenarios such as borrowing costs of the Group, repo rates by Reserve Bank of India (RBI), the Interest Rate Reset Committee recommends the Asset Liability Management Committee for the changes in the prevailing RPLR for their further approval.

The Risk Management Committee develops the credit risk management framework, policies, procedures, reviews the same on periodic basis which is further noted and approved by the Board of Directors. The Risk Management Committee also reviews delinquent accounts and makes decisions on recovery actions. Credit reviews are conducted regularly to monitor the health of the loan portfolio and to detect early signs of weaknesses and deviations.

The Risk Management Committee manages risk on a portfolio-wide basis and recommends alternative portfolio strategies, analyses results of portfolio management actions and develops portfolio limits for each portfolio segment for approval of the Board of Directors. Credit risk concentration is addressed by setting a credit portfolio mix limit and monitoring the limits on a regular basis. Credit stress tests are also conducted periodically to determine the impact of security values and other stress parameters on the loan portfolio. The Group also conducts annual valuation of delinquent accounts, to determine the actual value and marketability of the collateral which is adequately factored in Capital Adequacy Ratio. This allows the Group to assess the potential financial impact of losses arising from plausible adverse scenarios on the Group's loan portfolio.

**Expected credit loss measurements**

**(I) Expected credit loss measurement for Loans :**

Ind AS 109 outlines a 'three-stage' model for impairment based on changes in credit quality since initial recognition as summarised below:

1. A financial instrument that is not credit-impaired on initial recognition is classified in 'Stage 1' and has its credit risk continuously monitored by the Group.
  2. If a significant increase in credit risk ('SICR') since initial recognition is identified, the financial instrument is moved to 'Stage 2' but is not yet deemed to be credit-impaired.
  3. If the financial instrument is credit-impaired, the financial instrument is then moved to 'Stage 3'.
- Financial instruments in Stage 1 have their ECL measured at an amount equal to the portion of lifetime expected credit losses that result from default events possible within the next 12 months. Instruments in Stages 2 or 3 have their ECL measured based on expected credit losses on a lifetime basis.

The following diagram summarises the impairment requirements under Ind AS 109 (other than purchased or originated credit-impaired financial assets):

**Change in credit quality since initial recognition**

The key judgments and assumptions adopted by the Group in addressing the requirements of the standard are discussed below:

**Significant increase in credit risk (SICR)**

The Group considers a financial instrument to have experienced a significant increase in credit risk when one or more of the following quantitative, qualitative or backstop criteria have been met:

**a. Quantitative criteria:**

When days passed dues from the borrower is more than 30 days but less than 90 days.

**b. Qualitative criteria:**

If the borrower meets one or more of the following criteria:

- a. In short-term forbearance
- b. Direct debit cancellation
- c. Extension to the terms granted.
- d. Previous arrears within the last [12] months

**Default and credit-impaired assets**

The Group defines a financial instrument as in default, which is fully aligned with the definition of credit impaired, when it meets one or more of the following criteria:

**a. Quantitative criteria**

The borrower is more than 90 days past due on its contractual payments.

**b. Qualitative criteria**

The borrower meets unlikeliness to pay criteria, which indicates the borrower is in significant financial difficulty. These are instances where:

- a. The borrower is in long-term forbearance
- b. The borrower is deceased
- c. The borrower is insolvent
- d. Concessions have been made by the lender relating to the borrower's financial difficulty
- e. It is becoming probable that the borrower will enter bankruptcy

The criteria above have been applied to home finance loans consistent with the definition of default used for internal credit risk management purposes. The default definition has been applied consistently to model the Probability of Default (PD), Exposure at Default (EAD) and Loss given Default (LGD) throughout the Group's expected loss calculations.

In accordance with the RBI guidelines relating to COVID-19 Regulatory Package dated 27 March 2020 & subsequent guidelines dated 17 April 2020 and 23 May 2020, the subsidiary company Motilal Oswal Home Finance Limited granted a moratorium of six months on payments of instalments and/ or interest falling due between 1 March 2020 and 31 August 2020 to eligible borrowers. For such accounts where the moratorium is granted, the asset /Stage-wise classification stood still during the moratorium period. (i.e. the number of days past-due shall exclude the moratorium period for the purposes of asset classification)."

**Measuring ECL - Explanation of inputs, assumptions and estimation techniques**

The Expected Credit Loss (ECL) is measured on either a 12-month basis (12M) or Lifetime basis depending on whether a significant increase in credit risk has occurred since initial recognition or whether an asset is considered to be credit-impaired. Expected credit losses are the discounted product of the Probability of Default (PD), Exposure at Default (EAD), and Loss Given Default (LGD), defined as follows:

- The PD represents the likelihood of a borrower defaulting on its financial obligation (as per "Definition of default and credit-impaired" above), either over the next 12 months (12M PD), or over the remaining lifetime (Lifetime PD) of the obligation.
- The exposure at default (EAD) represents the gross carrying amount of the financial instruments subject to the impairment calculation, addressing both the client's ability to increase its exposure while approaching default and potential early repayments too.

To calculate the EAD for a Stage 1 loan, the Group assesses the possible default events within 12 months for the calculation of the 12M ECL. For stage 2, Stage 3 Financial Assets, the exposure at default is considered for events over the lifetime of the instruments.

- Loss Given Default (LGD) represents the Group's expectation of the extent of loss on a defaulted exposure. LGD varies by type of counterparty, type and seniority of claim and availability of collateral or other credit support. LGD is expressed as a percentage loss per unit of exposure at the time of default. LGD is calculated on a 12-month or lifetime basis, where 12-month LGD is the percentage of loss expected to be made if the default occurs in the next 12 months and Lifetime LGD is the percentage of loss expected to be made if the default occurs over the remaining expected lifetime of the loan.

The ECL is determined by projecting the PD, LGD and EAD for each three bucket explained above and for each individual exposure or collective segment. These three components are multiplied together and adjusted for the likelihood of survival (i.e. the exposure has not prepaid or defaulted in an earlier month). This effectively calculates an ECL for each three buckets, which is then discounted back to the reporting date and summed. The discount rate used in the ECL calculation is the original effective interest rate or an approximation thereof.

The Lifetime PD is developed by applying a maturity profile to the current 12M PD. The maturity profile looks at how defaults develop on a portfolio from the point of initial recognition throughout the lifetime of the loans. The maturity profile is based on historical observed data and is assumed to be the same across all assets within a portfolio and credit grade band. This is supported by historical analysis.

The 12-month and lifetime EADs are determined based on the expected payment profile. Estimate of an exposure at a future default date – expected changes in exposure after the reporting date, including repayment of principal and interest, and expected drawdowns on committed facilities. This is based on the contractual repayments owed by the borrower over a 12month or lifetime basis. This will also be adjusted for any expected overpayments made by a borrower. Early repayment/refinance assumptions are also incorporated into the calculation.

The 12-month and lifetime LGDs are determined based on the factors which impact the recoveries made post default. These vary by collateral type.

- For secured products, this is primarily based on collateral type and projected collateral values, historical discounts to market/book values due to forced sales, time to repossession and recovery costs observed. the Group given its experience of sale of properties taken into possession we have experienced that there is 22.5 % loss incurred on the Outstanding amount (Principal + Interest). Hence the Group have taken 22.5% as LGD for computation of ECL on Stage 1 / 2 and 3 books.
- For unsecured products basically written off cases , LGD's has been maintained at 100% as loss given default as the Group don't foresee any cash flow on those assets.

Forward-looking economic variable/assumptions used are – such as how the maturity profile of the PDs and how collateral values change etc. – are monitored and reviewed on a quarterly basis. While estimating the expected credit losses, the Group reviews macro-economic developments occurring in the economy and market it operates in. On a periodic basis, the Group analyses if there is any relationship between key economic trends like GDP, inflations rates set by International Monetary Fund, inflation etc. with the estimate of PD, LGD determined by the Group based on its internal data. While the internal estimates of PD, LGD rates by the Group may not be always reflective of such relationships, temporary overlays are embedded in the methodology to reflect such macro-economic trends reasonably.

#### **Impact of RBI Circular on subsidiary company Motilal Oswal Home Finance Limited- COVID-19 – Regulatory Package**

As per Ind AS 109 - Financial Instruments, the subsidiary company Motilal Oswal Home Finance Limited has rebut the presumption that the credit risk on a financial asset has increased significantly since initial recognition when contractual payments are due for more than 30 days, for the customers who have availed moratorium relief through the RBI circular of COVID-19 - Regulatory Package. The default period criteria of 90 days for the cases where moratorium is granted, the asset classification was kept stand still during the moratorium period.

RBI on 6 August 2020 came up with resolution plan Framework for COVID-19-related Stress, it has been decided to provide a window under the Prudential Framework to enable the lenders to implement a resolution plan in respect of eligible borrowers. Company in view of same duly implemented one time measure to offer the facility of restructuring to its eligible customers identified basis RBI circular on resolution plan & joint decision of credit, risk, collection & legal departments of the Company.

Company is of the view that the restructuring under the disruption scenario is not indicative of increase in credit risk. Accordingly, the same should ideally not be considered as a factor for considering SICR and in turn, should not result in shifting of the financial instruments from one stage to another. However, considering the requirements of RBI circular on resolution plan, Company's management has recognised provisions in terms of the requirements of the circular.

The Company has identified certain pool of assets where as per Company's internal evolution risk is higher considering their repayment history, behaviour during moratorium period, post moratorium period & valuation of its collaterals, basis this evaluation the company has decided to recognise additional provision on such pool of assets.

#### **Loss allowance**

The loss allowance recognised in the period is impacted by a variety of factors, as described below:

- a. Transfers between Stage 1 and Stages 2 or 3 due to financial instruments experiencing significant increases (or decreases) of credit risk or becoming credit-impaired in the period, and the consequent “step up” between 12-month and Lifetime ECL;
- b. Additional allowances for financial instruments de-recognised in the period;
- c. Impact on the measurement of ECL due to changes in PDs, EADs and LGDs in the period, arising from regular refreshing of inputs to models;
- d. Financial assets derecognised during the period and write-offs of allowances related to assets that were written off during the period.

#### **Write-off policy**

The Group writes off financial assets, in whole or in part, when it has exhausted all practical recovery efforts and has concluded there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include

- (i) ceasing enforcement activity and
- (ii) where the Group's recovery method is foreclosing on collateral and the value of the collateral is such that there is no reasonable expectation of recovering in full.

The Group may write-off financial assets that are still subject to enforcement activity. The Group may still seek to recover amounts it is legally entitled to recover in full, but which have been fully / partially written off due to no reasonable expectation of full recovery.

#### **Modification of financial assets**

The Group sometimes modifies the terms of home loans provided to customers due to commercial renegotiations, or for distressed loans, with a view to maximising recovery.

Such restructuring activities include extended payment term arrangements, payment holidays and payment forgiveness. Restructuring policies and practices are based on indicators or criteria which, in the judgement of management, indicate that payment will most likely continue. These policies are kept under continuous review.

The risk of default of such assets after modification is assessed at the reporting date and compared with the risk under the original terms at initial recognition, when the modification is not substantial and so does not result in derecognition of the original asset. The Group monitors the subsequent performance of modified assets and it may determine that the credit risk has significantly improved after restructuring, so that the assets are moved from Stage 3 or Stage 2 (Lifetime ECL) to Stage 1 (12-month ECL). This is only the case for assets which have performed in accordance with the new terms for a year or more. Currently there has not been any such case.

**(II) Expected credit loss measurement for Trade receivables :**

The loss allowance has been measured using lifetime ECL except for financial assets on which there has been no significant increase in credit risk since initial recognition. At each reporting date, the Company assesses whether financial assets carried at amortised cost is credit-impaired. A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred since initial recognition.

A simplified approach has been considered for measuring expected credit losses (ECLs) of trade receivables at an amount equal to lifetime ECLs. The ECLs on trade receivables are calculated based on actual historic credit loss experience over the preceding three to five years on the total balance of trade receivables. For the purpose of computation of ECL, the term default implies an event where amount due towards margin requirement and / or mark to market losses for which the client was unable to provide funds / collaterals to bridge the shortfall, the same is termed as margin call triggered.

Based on the Industry practices and business environment in which the entity operates, Management considers unsecured receivables as default if the payment is overdue for more than 90 days for direct customer. For franchisee customers, aggregate of unsecured receivables as reduced by franchisee deposit/ future brokerages are considered as default. Management would also consider balance in client's family accounts and collaterals in form other than the securities while considering the secured position of the client. Management would also consider impairment on client balance which are unsecured and overdue for less than 90 days on case to case basis, based on their scope of recoverability. For litigation cases, management could provide enhanced provision if the probability of outflow of economic resource is higher. If there are specific cases which are overdue for more than 90 days and the management is very confident of its recovery in near future, impairment loss would not be provided for such cases based on the approval of business head for each reporting period. Probability of default (PD) on these receivables is considered at 100% and treated as credit impaired.

**(III) Expected credit loss measurement for Margin Trading Facility(MTF) loan :**

Loans includes Margin Trading Facility(MTF), Loans to staff and loans to subsidiaries for which staged approach is taken into consideration for determination of ECL.

Stage 1 : All positions in the MTF loan book are considered as stage 1 asset for computation of expected credit loss. For exposures where there has not been a significant increase in credit risk since initial recognition and not credit impaired post origination. Loan to subsidiary and staff are considered in stage 1 for determination of ECL. Exposure to credit risk in stage 1 is computed considering historical probability of default, market movements and macro-economic environment.

Stage 2 : Exposures under stage 2 include dues up to 90 days pertaining to principal amount, interest and any other charges on the MTF loan book which are unsecured. While arriving at the secured position of the client, management would also consider balance in client's family accounts, securities in other segment and collaterals in form other than the securities while considering the secured position of the client. At each reporting date, the Company assesses whether there has been a significant increase in credit risk for financial assets since initial recognition. In determining whether credit risk has increased significantly since initial recognition, the Company uses days past due information and other qualitative factors to assess deterioration in credit quality of a financial asset. For credit exposures where there has been a significant increase in credit risk since initial recognition but that are not credit impaired, a lifetime ECL is recognised.

Stage 3 : Exposures under stage 3 include dues past 90 days pertaining to principal amount, interest and any other charges on MTF loan book which are unsecured.

Financial assets are assessed as credit impaired when one or more events that have a detrimental impact on the estimated future cash flows of the asset have occurred. For financial assets that have become credit impaired, a lifetime ECL is recognised.

**B Liquidity risk and funding management**

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Due to the dynamic nature of the underlying businesses, the Company's treasury maintains flexibility in funding by maintaining availability under committed credit lines.

Management monitors rolling forecasts of the Company's liquidity position (comprising the undrawn borrowing facilities below) and cash and cash equivalents on the basis of expected cash flows. In addition, the Company's liquidity management policy involves projecting cash flows and considering the level of liquid assets necessary to meet these, monitoring balance sheet liquidity ratios against internal and external regulatory requirements and maintaining debt financing plans.

(i) Analysis of financial assets and liabilities by remaining contractual maturities

The table below summarises the maturity profile of the Company's financial assets and liabilities.

As at 31 March 2023

Contractual maturities of assets and liabilities	Less than 1 year	1 to 5 years	Above 5 Years	Total
<b>Financial assets</b>				
Cash and cash equivalents	2,57,631	-	-	2,57,631
Bank balance other than cash and cash equivalents above	5,87,812	38,248	-	6,26,060

<b>Total financial liabilities</b>	<b>7,99,792</b>	<b>2,69,343</b>	-	<b>10,69,135</b>

C Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: Foreign currency risk, interest rate risk and price risk.

(i) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates.

**Foreign currency risk management**

In respect of the foreign currency transactions, the Group hedges part of the exposures in foreign currency. However, the management believes that the same is insignificant in nature and will not have a material impact on the Group.

**(ii) Cash flow and fair value interest rate risk**

The Group's main interest rate risk arises from long-term borrowings/ debt securities and loans with variable rates, which expose the Group to cash flow interest rate risk. The Group is exposed to interest rate risk as it is involved in lending business. Interest rate risk can arise from either macro events in economy or due to company's financial position. Group tries to mitigate this risk by taking all positive measures which can boost profitability and strengthens company's balance sheet. Group takes continuous efforts to reduce its cost of funds by diversifying its liability mix and deepening its relationship with lenders.

The Group's fixed rate borrowings are not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

**Interest rate risk exposure**

Out of the total Assets and Liabilities, exposure to the interest rate risk of the Group is mainly towards borrowings/ debt securities (other than non-convertible debentures and term loans) and loan assets.

**Sensitivity**

Profit or loss is sensitive to higher/lower interest expense from borrowings as a result of changes in interest rates. Other components of equity change as a result of an increase/decrease in the fair value of the cash flow hedges related to borrowings.

The following table demonstrates the sensitivity to a reasonably possible change in interest rates (all other variables being constant) of the Group's statement of profit and loss and equity.

Particulars	Impact on profit after tax	
	31 March 2023	31 March 2022
<b>Loans</b>		
Interest rates – increase by 100 basis points	5,225	3,665
Interest rates – decrease by 100 basis points	(5,225)	(3,665)
<b>Borrowings</b>		
Interest rates – increase by 100 basis points	(2,996)	(2,342)
Interest rates – decrease by 100 basis points	2,996	2,342

**Exposure of price risk**

The company is exposed to price risk from its investment in mutual funds, equity shares, exchange traded funds classified in the balance sheet at fair value through profit and loss or fair value through other comprehensive income.

The Investments held by the Company are ancillary to the Investment management business objective.

The investment in long term mutual fund is for high-RoE opportunities. They also serve as highly liquid "resources" available for future investments in business, if required.

Particulars	31 March 2023	31 March 2022
Exposure to price risk	4,73,569	4,66,188

**Sensitivity to price risk**

The following table summarises the impact of sensitivity of NAVs / price with all other variables held constant. The below impact on the Company's profit before tax is based on changes in the NAVs / price of the investments held at FVTPL/FVOCI at balance sheet date:

Sensitivity	31 March 2023	31 March 2022
Impact on profit before tax for 10% increase in NAV/price	47,357	46,619
Impact on profit before tax for 10% decrease in NAV/price	(47,357)	(46,619)

**Sensitivity to foreign currency risk**

The following table demonstrates the sensitivity to a reasonably possible change in foreign exchange rates (all other variables being constant) of the Group's net receivable/(payable).

Particulars	31 March 2023	31 March 2022
Exposure to foreign currency risk	79	65

Sensitivity	31 March 2023	31 March 2022
Impact on profit before tax for 10% increase foreign exchange rate	8	6
Impact on profit before tax for 10% decrease foreign exchange rate	(8)	(6)

**Note 56 : Capital management**

The Group manages its capital to ensure that the Group will be able to continue as going concern while maximizing the return to stakeholder through the optimization of the debt and equity balance.

For the purpose of the Group's capital management, capital includes issued capital and other equity reserves. The primary objective of the Group's capital management is to maximize shareholders value. The Group manages its capital structure and makes adjustments in the light of changes in economic environment and the requirements of the financial covenants.

The capital composition is as follows:

Particulars	31 March 2023	31 March 2022
Gross debt*	10,30,980	6,22,811
Cash and cash equivalents	(2,57,631)	(2,13,754)
<b>Net debt (A)</b>	<b>7,73,349</b>	<b>4,09,057</b>
Total equity (B)	6,28,318	5,70,065
<b>Gearing ratio (A / B)</b>	<b>1.23</b>	<b>0.72</b>

\*Debt includes debt securities and borrowings (other than debt securities) including outstanding interest.

**Motilal Oswal Financial Services Limited****Notes to the consolidated financial statements**

(All amounts are in INR Lakhs, unless otherwise stated)

**Note: 57 Principles and assumptions used for consolidated financial statements and proforma adjustments:**

a) The Consolidated Financial Statements have been prepared by applying the principles laid in the Indian Accounting Standard (Ind AS) - 110 "Consolidated Financial Statements" and (Ind AS) - 28 "Investments in Associates and Joint Ventures" issued by the Institute of Chartered Accountants of India for the purposes of these Consolidated Balance Sheet, Consolidated Statement of Profit and Loss, Consolidated Statement of Cash Flows, Consolidated Statement of Changes in Equity and Summary of significant accounting policies and other explanatory information to the consolidated financial statements, together referred to in as 'Consolidated Financial Statements.'

**The list of subsidiaries and associates in the consolidated financial statement are as under :-**

**Motilal Oswal Financials Securities Limited**  
**Notes to the Consolidated Financial Statements**  
(All amounts are in INR Lakhs, unless otherwise stated)

**Note 60 : Business Combinations**

**(A) Summary of Acquisition:**

The parent entity acquired 100 % stake in MO Alternative IFSC Private Ltd. from its erstwhile shareholders, resulting MO Alternative IFSC Private Ltd. becoming a subsidiary w.e.f. 12th December 2022. The acquisition would bring synergies to the Group as MO Alternative IFSC Private Ltd. is in the same line of business as the Motilal Oswal Group is.

1. Purchase consideration – Rs. 5 Lakhs

2. For the purpose of preparation of the Group's audited consolidated financial statements, MO Alternative IFSC Private Ltd. has been considered as a subsidiary with effect from close of business on 11th December 2022.

The assets and liabilities recognised as a result of the acquisition as on 30th November 2022 are as follows:

Particulars	Fair value (Rs. In Lakhs)
Property, plant and equipment	48
<b>Total non - current assets</b>	<b>48</b>
<b>Current assets</b>	
Trade receivables	503
Cash & cash equivalents	131
Loans	0
Other financial assets	9
Other Non - financial assets	926
<b>Total current assets</b>	<b>1,569</b>
<b>Total assets - (1)</b>	<b>1,617</b>
<b>Financial liabilities</b>	
(i) Payables	994
(ii) Other financial liabilities	53
<b>Total non - current liabilities</b>	<b>1,047</b>
<b>Current liabilities</b>	
Other non-financial liabilities	0
<b>Total current liabilities</b>	<b>0</b>
<b>Contingent liabilities</b>	<b>-</b>
<b>Total liabilities - (2)</b>	<b>1,047</b>
<b>Net assets - (3) = (1) - (2)</b>	<b>570</b>

Note: The above figures are from the unaudited financials of MO Alternative IFSC Private Ltd. as on 30th November 2022. There are no material changes in the above figures between the acquisition date and 30th November 2022

3

Calculation of Capital Reserve / Goodwill	(Rs. In lakhs)
Total Consideration	5
Add: NCI based on Fair Value of net assets	-
Less: Net assets acquired	(604)
<b>Goodwill / (Capital Reserve) arising on acquisition</b>	<b>(599)</b>

**Motilal Oswal Financials Securities Limited**  
**Notes to the Consolidated Financial Statements**  
(All amounts are in INR Lakhs, unless otherwise stated)

**(B) Accounting policy choice of non-controlling interest:**

The group recognises non-controlling interest in an acquired entity at the present ownership instruments' proportionate share in the recognised amounts of the acquiree's identifiable net assets.

**(C) Revenue and profit / (loss) contribution:**

Revenue from operations of Rs. 365 Lakhs and Profit after Tax of Rs. 340 Lakhs has been included in the Current Year's Consolidated Statement of Profit & Loss.

**(D) Purchase Consideration – Cash Outflow:**

Particulars	(Rs. In lakhs)
<b>Outflow of cash to acquire the stake</b>	
Cash Consideration	5
Less: Balance acquired	(131)
<b>Net Outflow of Cash – Investing Activities</b>	<b>(126)</b>

(E) There are no acquisition related costs to acquire the stake in this Company.

(F) The revenue and profit before tax of the combined entity for the current reporting period would have increased by Rs. 945 lakhs and Rs. 381 lakhs approximately, if the acquisition date for the business combination occurred during the year in MO Alternative IFSC Private Ltd. had been as of the beginning of the annual reporting period (i.e. 1st April, 2022).

**Note: 61 Compliance with approved Scheme of Arrangements**

(a). The Board of Directors of the holding Company at its Meeting held on 24 December 2020 has, inter-alia, subject to approval of shareholders of the holding Company and other applicable statutory and regulatory approvals including the approval of Hon'ble National Company Law Tribunal, Mumbai Bench ("NCLT"), approved the Scheme of Arrangement between Passionate Investment Management Private Limited (Ultimate Holding Company of Motilal Oswal Financial Services Limited) ("PIMPL" or "the Transferor Company 1") and MOPE Investment Advisors Private Limited ("MOPE" or "the Transferee Company 2" or "the Demerged Company 1" or "the Transferor Company 3") and Motilal Oswal Real Estate Investment Advisors Private Limited ("MORE" or "the Transferor Company 2") and Motilal Oswal Real Estate Investment Advisors II Private Limited ("MORE II" or "the Demerged Company 2" or "the Transferor Company 4") and MO Alternate Investment Advisors Private Limited (erstwhile Motilal Oswal Fincap Private Limited) ("MOAIA" or "the Resulting Company") and Motilal Oswal Financial Services Limited ("MOFSL" or "the Transferee Company 1" or "the Holding Company of the Resulting Company" or "the Company") and their respective shareholders ("the Scheme") under Sections 230-232 of the Companies Act, 2013. Further, pursuant to the provisions of Regulation 37 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, the Company has received No Objection Certificate from Stock Exchanges and the Company has filed an application with Hon'ble NCLT. Pursuant to the directions issued by Hon'ble NCLT, the Meeting of equity shareholders was scheduled on 16 December 2021 and the Scheme was approved by shareholders with requisite majority. Consequently, the Hon'ble NCLT approved the Scheme of Arrangement vide order dated 11 March 2022. The effect of the said Scheme was given on 30 March 2022 from the appointed date of 01 April 2020 by restating the financial statement for the year ended 31 March 2021.

(b). The accounting treatment of the said Scheme given in the books of accounts is in accordance with the Scheme and in conformity with the accounting standards prescribed under section 133 of the Companies Act, 2013. Further, figures for the year ended 31 March 2021 as shown above are the restated figures based on the audited accounts of the Transferor, Transferee and Resulting Company.

**Accounting treatment given in the books for the Scheme:**

**1. Amalgamation And Vesting Of Assets And Liabilities And Entire Business Of The Transferor Company 1**

1.1 The Transferee Company 1 shall give effect to the amalgamation in its books of accounts as per the applicable accounting principles prescribed under the Companies (Indian Accounting Standards) Rules, 2015 (Ind AS) notified under Section 133 of the Companies Act, 2013, as may be amended from time to time and on the date determined in accordance with applicable Ind AS.

1.2 Upon effectiveness of the Scheme, the net assets of the Transferor Company 1 (excluding shares of the Transferee Company 1 held by the Transferor Company 1 which shall get cancelled) will be reflected at fair value as at the Effective Date.

1.3 The inter-company deposits/ inter-company loans and advances, if any, in the books of accounts of the Transferee Company 1 and the Transferor Company 1 shall stand cancelled as at the Effective Date.

1.4 The difference, if any, being excess or deficit arising pursuant to the amalgamation, after giving effect to the above adjustments, shall be accounted based on generally adopted accounting principles under Ind AS.

1.5 The Transferee Company 1 shall without any application or deed, issue and allot equity shares of face value of Re. 1/- each, credited as fully paid up, to the extent indicated below, to the equity shareholders holding fully paid up equity shares of the Transferor Company 1 and whose name appear in the register of members of the Transferor Company 1 on the Record Date or to such of their respective heirs, executors, administrators or other legal representatives or other successors in title as may be recognized by the Board of Directors of the Transferor Company 1/ the Transferee Company 1.

**2. Amalgamation And Vesting Of Assets And Liabilities And Entire Business Of The Transferor Company 2**

The Transferee Company 2 shall account for the amalgamation in its books/ financial statements as per "Pooling of Interests Method" under Appendix C of "Indian Accounting Standard (Ind-AS)" 103, Business Combinations and any other relevant Ind AS notified under the Companies (Indian Accounting Standards) Rules, 2015, as amended from time to time including as provided herein below:

2.1 The Transferee Company 2 shall record the assets and liabilities of the Transferor Company 2, transferred to and vested in it at their respective carrying values as appearing in the books of the Transferor Company 2 in accordance with Para 9(iii) of Appendix C of Ind AS 103.

2.2 The Transferee Company 2 shall preserve the identity of the reserves of the Transferor Company 2 transferred to and vested in it and shall record in its books in the same form in which they appear in the books of the Transferor Company 2 and it shall be aggregated with the corresponding balance appearing in the financial statements of the Transferee Company 2.

2.3 The shares held by the Transferee Company 2 in the Transferor Company 2 on the Effective Date shall be cancelled.

2.4 Loans and advances, receivables, payables and other dues outstanding between the Transferor Company 2 and the Transferee Company 2 will stand cancelled and there shall be no further obligation / outstanding in that behalf.

2.5 The difference between the net assets transferred to the Transferee Company 2 pursuant to Clause 2.1 as reduced by Reserves recorded in the Transferee Company 2 pursuant to Clause 2.2 and after giving effect Clause 2.3 and 2.4, the difference shall be adjusted against Capital Reserve of the Transferee Company 2.

2.6 In case of any difference in accounting policy between the Transferor Company 2 and the Transferee Company 2, the accounting policies followed by the Transferee Company 2 shall prevail and the difference till the Appointed Date will be quantified and adjusted as per Ind AS, to ensure that the financial statements of Transferee Company 2 reflects the financial position on the basis of consistent accounting policy.

2.7 The Transferor Company 2 is a wholly owned subsidiary of the Transferee Company 2 and therefore on amalgamation of the Transferor Company 2 into the Transferee Company 2 there shall be no issue of shares by the Transferee Company 2 in this regard as consideration.

2.8 Upon the Scheme coming into effect, all equity shares of the Transferor Company 2 held by the Transferee Company 2 (held either directly or through its nominees) shall stand cancelled without any further application, act or deed.

### 3. Demerger of The Fund Management Undertaking 1 From The Demerged Company 1 Into The Resulting Company

3.1 The Demerged Company 1 shall account for the Scheme from the Appointed Date in its books/ financial statements upon receipt of all relevant/ requisite approvals for the Scheme, in accordance with applicable Indian Accounting Standards (Ind-AS) notified under the Companies (Indian Accounting Standards) Rules, 2015, as amended from time to time including as provided herein below:

#### Accounting treatment in the books of the Demerged Company 1

3.1.1 The Demerged Company 1 shall reduce the carrying value of assets and liabilities pertaining to the Fund Management Undertaking 1, transferred to and vested in the Resulting Company from the carrying value of assets and liabilities as appearing in its books.

3.1.2 Loans and advances, receivables, payables and other dues outstanding between the Demerged Company 1 and the Resulting Company relating to the Fund Management Undertaking 1 will stand cancelled and there shall be no further obligation / outstanding in that behalf.

3.1.3 The Demerged Company 1, as on the Appointed Date, shall transfer the balances of all the reserves to the Resulting Company, in the proportion of the net assets transferred to the Resulting Company and the net assets retained by the Demerged Company 1 ("Transferred Reserves").

3.1.4 The difference, being the excess of carrying value of assets over the carrying value of liabilities transferred pursuant to Clause 3.1.1 and after giving effect to clause 3.1.2 and clause 3.1.3 above shall be adjusted to the other equity of the Demerged Company 1.

#### Accounting treatment in the books of the Holding Company of the Resulting Company

3.1.5 The Holding Company of the Resulting Company shall credit its share capital with the aggregate face value of the equity shares issued and corresponding debit shall be made to Investment in Resulting Company Account.

Upon the Scheme becoming effective and upon the demerger of the Fund Management Undertaking 1 of the Demerged Company 1 into the Resulting Company in terms of this Scheme, the Holding Company of the Resulting Company shall without any application or deed, issue and allot New Equity Shares of face value of Re. 1/- each, credited as fully paid up, to the extent indicated below, to the equity shareholders holding fully paid up equity shares of the Demerged Company 1 (except shares held by the Holding Company of the Resulting Company) and whose name appear in the register of members of the Demerged Company 1 on the Record Date or to such of their respective heirs, executors, administrators or other legal representatives or other successors in title as may be recognized by the Board of Directors of the Demerged Company 1/ the Holding Company of the Resulting Company.

### 4. Amalgamation Of The Transferor Company 3 With The Transferee Company 1

The Transferee Company 1 shall account for the amalgamation in its books/ financial statements as per "Pooling of Interests Method" under Appendix C of "Indian Accounting Standard (Ind-AS)" 103, Business Combinations and any other relevant Ind AS notified under the Companies (Indian Accounting Standards) Rules, 2015, as amended from time to time including as provided herein below:

4.1 The Transferee Company 1 shall record the assets and liabilities of the Transferor Company 3, transferred to and vested in it at their respective carrying values as appearing in the books of the Transferor Company 3 in accordance with Para 9(iii) of Appendix C of Ind AS 103.

4.2 The Transferee Company 1 shall preserve the identity of the reserves of the Transferor Company 3 transferred to and vested in it and shall record in its books in the same form in which they appear in the books of the Transferor Company 3 and it shall be aggregated with the corresponding balance appearing in the financial statements of the Transferee Company 1.

4.3 The shares held by the Transferee Company 1 in the Transferor Company 3 on the Effective Date shall be cancelled.

4.4 The Transferee Company 1 shall credit to its share capital in its books the aggregate face value of the equity shares issued by it to shareholders of the Transferor Company 3.

4.5 Loans and advances, receivables, payables and other dues outstanding between the Transferor Company 3 and the Transferee Company 1 will stand cancelled and there shall be no further obligation / outstanding in that behalf.

4.5.1 The difference between the net assets transferred to the Transferee Company 1 pursuant to Clause 4.1 as reduced by Reserves recorded in the Transferee Company 1 pursuant to Clause 4.2 and after giving effect to Clause 4.3 to 4.5, the difference shall be adjusted against Capital Reserve of the Transferee Company 1.

4.6 In case of any difference in accounting policy between the Transferor Company 3 and the Transferee Company 1, the accounting policies followed by the Transferee Company 1 shall prevail and the difference till the Appointed Date will be quantified and adjusted as per Ind AS, to ensure that the financial statements of Transferee Company 1 reflects the financial position on the basis of consistent accounting policy.

4.7 Upon the Scheme becoming effective and upon the amalgamation of the Transferor Company 3 with the Transferee Company 1 in terms of this Scheme, the Transferee Company 1 shall without any application or deed, issue and allot New Equity Shares of face value of Re. 1/- each, credited as fully paid up, to the extent indicated below, to the equity shareholders holding fully paid up equity shares of the Transferor Company 3 (except shares held by the Transferee Company 1) and whose name appear in the register of members of the Transferor Company 3 on the Record Date or to such of their respective heirs, executors, administrators or other legal representatives or other successors in title as may be recognized by the Board of Directors of the Transferee Company.

#### 5. Demerger Of The Fund Management Undertaking 2 From The Demerged Company 2 Into The Resulting Company

5.1. The Demerged Company 2 shall account for the Scheme from the Appointed Date in its books/ financial statements upon receipt of all relevant/ requisite approvals for the Scheme, in accordance with applicable Indian Accounting Standards (Ind-AS) notified under the Companies (Indian Accounting Standards) Rules, 2015, as amended from time to time including as provided herein below:

##### Accounting treatment in the books of the Demerged Company 2

5.1.1 The Demerged Company 2 shall reduce the carrying value of assets and liabilities pertaining to the Fund Management Undertaking 2, transferred to and vested in the Resulting Company from the carrying value of assets and liabilities as appearing in its books.

5.1.2 Loans and advances, receivables, payables and other dues outstanding between the Demerged Company 2 and the Resulting Company relating to the Fund Management Undertaking 3 will stand cancelled and there shall be no further obligation / outstanding in that behalf.

5.1.3 The Demerged Company 2, as on the Appointed Date, shall transfer the balances of all the reserves to the Resulting Company, in the proportion of the net assets transferred to the Resulting Company and the net assets retained by the Demerged Company 2 ("Transferred Reserves").

5.1.4 The difference, being the excess of carrying value of assets over the carrying value of liabilities transferred pursuant to Clause 5.1.1 and after giving effect to clause 5.1.2 and clause 5.1.3 above shall be adjusted to the other equity of the Demerged Company 2.

5.2 The Holding Company of the Resulting Company shall account for the Scheme in its respective books/ financial statements upon receipt of all relevant/ requisite approvals for the Scheme, in accordance with applicable Indian Accounting Standards (Ind-AS) notified under the Companies (Indian Accounting Standards) Rules, 2015, as amended from time to time including as provided herein below:

##### Accounting treatment in the books of the Holding Company of the Resulting Company

The Holding Company of the Resulting Company shall credit its share capital with the aggregate face value of the equity shares issued pursuant to Clause 52 of this Scheme and corresponding debit shall be made to Investment in Resulting Company Account.

5.3 Upon the Scheme becoming effective, i.e., on amalgamation of the Transferor Company 3 with the Transferee Company 1, the Demerged Company 2 will become a subsidiary of the Holding Company of the Resulting Company.

Upon the Scheme becoming effective and upon the demerger of the Fund Management Undertaking 2 of the Demerged Company 2 into the Resulting Company in terms of this Scheme, the Holding Company of the Resulting Company shall without any application or deed, issue and allot New Equity Shares of face value of Re. 1/- each, credited as fully paid up, to the extent indicated below, to the equity shareholders holding fully paid up equity shares of the Demerged Company 2 (except shares held by the Holding Company of the Resulting Company) and whose name appear in the register of members of the Demerged Company 2 on the Record Date or to such of their respective heirs, executors, administrators or other legal representatives or other successors in title as may be recognized by the Board of Directors of the Demerged Company 2/ the Holding Company of the Resulting Company.

#### 6. Amalgamation Of The Transferor Company 4 With The Transferee Company 1

The Transferee Company 1 shall account for the amalgamation in its books/ financial statements as per "Pooling of Interests Method" under Appendix C of "Indian Accounting Standard (Ind-AS)" 103, Business Combinations and any other relevant Ind AS notified under the Companies (Indian Accounting Standards) Rules, 2015, as amended from time to time including as provided herein below:

6.1. The Transferee Company 1 shall record the assets and liabilities of the Transferor Company 4, transferred to and vested in it at their respective carrying values as appearing in the books of the Transferor Company 4 in accordance with Para 9(iii) of Appendix C of Ind AS 103.

6.2. The Transferee Company 1 shall preserve the identity of the reserves of the Transferor Company 4 transferred to and vested in it and shall record in its books in the same form in which they appear in the books of the Transferor Company 4 and it shall be aggregated with the corresponding balance appearing in the financial statements of the Transferee Company 1.

6.3. The shares held by the Transferee Company 1 in the Transferor Company 4 on the Effective Date shall be cancelled.

6.4. The Transferee Company 1 shall credit to its share capital in its books the aggregate face value of the equity shares issued by it to shareholders of the Transferor Company 4 pursuant to Clause 62 of this Scheme.

6.5. Loans and advances, receivables, payables and other dues outstanding between the Transferor Company 4 and the Transferee Company 1 will stand cancelled and there shall be no further obligation / outstanding in that behalf.

6.6. The difference between the net assets transferred to the Transferee Company 1 pursuant to Clause 6.1 as reduced by Reserves recorded in the Transferee Company 1 pursuant to Clause 6.2 and after giving effect to Clause 6.3 to 6.5, the difference shall be adjusted against Capital Reserve of the Transferee Company 1.

6.7. In case of any difference in accounting policy between the Transferor Company 4 and the Transferee Company 1, the accounting policies followed by the Transferee Company 1 shall prevail and the difference till the Appointed Date will be quantified and adjusted as per Ind AS, to ensure that the financial statements of Transferee Company 1 reflects the financial position on the basis of consistent accounting policy.

6.8. Upon the Scheme becoming effective, i.e., on amalgamation of the Transferor Company 3 with the Transferee Company 1, the Transferor Company 4 will become a subsidiary of the Transferee Company 1.

Upon the Scheme becoming effective and upon the amalgamation of the Transferor Company 4 with the Transferee Company 1 in terms of this Scheme, the Transferee Company 1 shall without any application or deed, issue and allot New Equity Shares of face value of Re. 1/- each, credited as fully paid up, to the extent indicated below, to the equity shareholders holding fully paid up equity shares of the Transferor Company 4 (except shares held by the Transferee Company 1) and whose name appear in the register of members of the Transferor Company 4 on the Record Date or to such of their respective heirs, executors, administrators or other legal representatives or other successors in title as may be recognized by the Board of Directors of the Transferee Company 1.

Demerged Company 1 - MOPE	Investment Manager of Private Equity funds
Transferor Company 2 - MORE	Investment Manager of Real Estate funds
Demerged Company 2 - MORE II	Investment Manager of Real Estate funds

(m). Description and number of shares issued, together with the % of each entity's equity shares exchanged to effect the business combination

Name of combining entities	Description of shares issued	Number of shares issued	% of entity's equity share exchanged to extent of business combination
Shareholders of Transferor Company 1 - PIMPL	Equity Shares	8,63,74,063	57.94%
Demerged Company 1 - MOPE	Equity Shares	9,06,120	0.61%
Transferor Company 3 - MOPE	Equity Shares	5,66,325	0.38%
Demerged Company 2 - MORE II	Equity Shares	3,72,000	0.25%
Transferor Company 4 - MORE II	Equity Shares	24,000	0.02%

(n). The amount of any difference between the consideration and the value of net identifiable assets acquired and the treatment thereof : Nil

**Note: 62** Additional regulatory information required under (WB) (xvi) of Division III of Schedule III amendment, disclosure of ratios, is not applicable to the Company as it is not an NBFC registered under Section 45-IA of Reserve Bank of India Act, 1934.

**Note: 63** The Group does not have any transactions with the companies struck off under section 248 of Companies Act, 2013 or section 560 of Companies Act, 1956 during the year ended 31 March 2023 and 31 March 2022.

**Note: 64** The Company has bought back 14,54,545 equity shares amounting to Rs.19,843 lakhs under Tender Offer on July 18, 2022 (i.e. settlement date) and the said shares have been extinguished on 22 July 2022.

**Note 65.** No proceedings have been initiated or pending against the Company for holding any Benami property under the Benami Transactions (Prohibition) Act, 1988 and rules made thereunder, as at 31 March 2023 and 31 March 2022.

**Note 66.** The Company is not a declared wilful defaulter by any bank or financial Institution or other lender, in accordance with the guidelines on wilful defaulters issued by the Reserve Bank of India, during the year ended 31 March 2023 and 31 March 2022.

**Note 67.** The Company has not advanced or loaned or invested (either from borrowed funds or share premium or any other sources or other kind of funds) to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

The Company has not received any funds (which are material either individually or in the aggregate) from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

**Note 68.** The Company have no satisfaction of charges which are pending to be filed with ROC.

**Note 69:** Amendments issued but not yet effective

**a. Newly issued standards**

There were no standards notified by the Ministry of Corporate Affairs (MCA) during the year ended 31 March 2023.

**b. Amendments in prevailing standards but not effective**

Ministry of Corporate Affairs (MCA) notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On 31 March 2023, MCA amended the Companies (Indian Accounting Standards) Rules, 2015. The effective date for adoption of these amendments is annual period beginning on or after 01 April 2023. The significant amendments are as below.

**(i) Ind AS 1 - Presentation of Financial Statements**

This amendment requires the entities to disclose their material accounting policies rather than their significant accounting policies. The Company has evaluated the amendment and the impact of the amendment is insignificant on its financial statements.

**(ii) Ind AS 8 - Accounting Policies, Changes in Accounting Estimates and Errors**

This amendment has introduced a definition of 'accounting estimates' and included amendments to Ind AS 8 to help entities distinguish changes in accounting policies from changes in accounting estimates. The Company has evaluated the amendment and the impact of the amendment is insignificant on its financial statements.

**(iii) Ind AS 12 - Income Taxes**

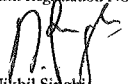

This amendment has narrowed the scope of the initial recognition exemption so that it does not apply to transactions that give rise to equal and offsetting temporary differences. The Company has evaluated the amendment and the impact of the amendment is insignificant on its financial statements.

**Note 70:** Amounts below 0.50 lakhs are rounded off and shown as "0".

**Note 71:** Previous year figures have been regrouped/reclassified wherever necessary.

### INDEPENDENT AUDITOR'S REPORT

To

The Members of **Motilal Oswal Financial Services Limited**

#### Opinion

1. We have audited the accompanying consolidated financial statements of **Motilal Oswal Financial Services Limited** (the "Holding Company") and its subsidiaries (Holding company and its subsidiaries together referred to as the "Group") and its associate for the year ended March 31, 2023 attached herewith, which comprise the Consolidated Balance Sheet as at March 31, 2023, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Cash Flow Statement and the Consolidated Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information.
2. In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of the other auditors on separate audited financial statements and on the other financial information of the subsidiaries and associate, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including Indian Accounting Standards ("Ind AS") specified under section 133 of the Act, of the consolidated state of affairs of the Group and its associate as at March 31, 2023, and their consolidated profit (including other comprehensive income), consolidated cash flows and the consolidated changes in equity for the year ended on that date.

#### Basis for Opinion

3. We conducted our audit of the financial statements in accordance with the Standards on Auditing (SA's) specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are Independent of the Group and its associate in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (the "ICAI") together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act, 2013 ("the Act") and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidences obtain by us and by other auditor in terms of their reports referred to in the paragraph 18 of other matter section below, is sufficient and appropriate to provide a basis for our opinion.

**Key Audit Matters**

4. Key audit matters are those matters that, in our professional judgment and based on the consideration of the reports of the other auditors on separate financial statements and on the other financial information of the subsidiaries and associate, were of most significance in our audit of the consolidated financial statements of the current year. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.
5. We have determined the matters described below to be the key audit matters to be communicated in the auditor's report issued by us for the Holding Company and of its Subsidiary:

Sr. No.	Key audit matters	How our audit addressed the key audit matter
1.	<p><b>Expected Credit Loss (ECL) on Loans and Advances (MOHFL)</b></p> <p>Ind AS 109 requires the Group to provide for impairment of its loan receivables (designated at amortised cost and fair value through other comprehensive income) using the expected credit loss (ECL) approach.</p> <p>As at March 31, 2023 (Motilal Oswal Home Finance Limited, (MOHFL)), the carrying value of loan assets measured at amortised cost, aggregated Rs. 3,77,173 lakhs (net of allowance of ECL Rs. 7,080 lakhs).</p> <p>The estimation of ECL on financial instruments involves significant judgement and estimates. As part of our risk assessment, we determined that the allowance for ECL on loan assets has a high degree of estimation uncertainty, with a potential range of reasonable outcomes for the financial statements.</p> <p>The elements of estimating ECL which involved increased level of audit focus are the following:</p> <p>a) Data inputs - The application of ECL model requires several data inputs.</p>	<p><b>Our Audit Approach:</b></p> <p>Our audit approach was a combination of test of internal controls and substantive procedures which included the following:</p> <p>a) Testing the design and effectiveness of internal controls over the following:</p> <ul style="list-style-type: none"><li>➤ key controls over the completeness and accuracy of the key inputs, data and assumptions into the Ind AS 109 impairment models.</li><li>➤ key controls over the application of the staging criteria consistent with the definitions applied in accordance with the policy approved by the Board of Directors including the appropriateness of the qualitative factors.</li><li>➤ management's controls over authorisation and calculation of post model adjustments and management overlays to the output of the ECL model.</li></ul> <p>b) Also, for a sample of ECL allowance on loan assets tested:</p> <ul style="list-style-type: none"><li>➤ Sample testing over key inputs, data and assumptions impacting ECL calculations to assess the completeness, accuracy and relevance of data, reasonableness of economic forecasts, weights, and model assumptions applied.</li><li>➤ we evaluated reasonableness of LGD estimates by comparing actual recoveries post the loan asset</li></ul>

Sr. No.	Key audit matters	How our audit addressed the key audit matter
	<p>b) Model estimations – Inherently judgmental models are used to estimate ECL which involves determining Probabilities of Default (“PD”), Loss Given Default (“LGD”), and Exposures at Default (“EAD”). The PD and the LGD are the key drivers of estimation complexity in the ECL and as a result are</p> <p>c) considered the most significant judgmental aspect of the Group’s modelling approach.</p> <p>d) Qualitative and quantitative factors used in staging the loan assets measured at amortised cost.</p> <p>e) Economic scenarios – Ind AS 109 requires the Group to measure ECLs on an unbiased forward-looking basis reflecting a range of future economic conditions. Significant management judgement is applied in determining the economic scenarios used and the probability weights applied to them.</p> <p>f) Adjustments to model driven ECL results to address emerging trends.</p> <p>Refer Note 30 of the Financial Statements. (MOHFL)</p>	<p>becoming credit impaired with estimates of LGD; and</p> <p>➤ we tested the mathematical accuracy and computation of the allowances by using the same input data used by the Group.</p> <p>c) We also evaluated the adequacy of the adjustment after stressing the inputs used in determining the output as per the ECL Model and ensured that the adjustment was in conformity with the amount approved by the Audit Committee.</p> <p>d) Testing management’s controls on compliance with disclosures to confirm the compliance with the provisions of relevant provisions of Ind AS 109 and the RBI.</p> <p>e) Evaluating the appropriateness of MOHFL’s Ind AS 109 impairment methodologies and reasonableness of assumptions used, including management overlays.</p> <p>f) For models which were changed or updated during the year, evaluating whether the changes were appropriate by assessing the updated model methodology.</p> <p>g) Read and assessed the disclosures included in the Ind AS financial statements in respect of expected credit losses with the requirements of Ind AS 107 and Ind AS 109.</p>
2.	<p><b>Information Technology (IT) Systems and Controls – MOFSL and MOHFL (Enterprises)</b></p> <p>The Enterprise’s key financial accounting and reporting processes are highly dependent on the automated controls over the Enterprises’s information systems.</p> <p>MOHFL has separate software applications for management of its loan portfolio from origination to</p>	<p><b>Our Audit Approach:</b></p> <p>With the help of our IT specialists, we obtained an understanding of the Enterprise’s IT applications, databases and operating systems relevant to financial reporting and the control environment. Our audit approach was a combination of test of internal controls and substantive procedures which included the following:</p>

Sr. No.	Key audit matters	How our audit addressed the key audit matter
	<p>servicing and closure and for the routine accounting. Transfer of data from/to this software are critical for accurate compilation of financial information.</p> <p>Due to extensive volumes, variety and complexity of transactions the operating system is functioning, consistently and accurately, specifically with respect to following:</p> <ul style="list-style-type: none"> <li>• Interest, Fee income and other charges collected on Loans</li> <li>• Bifurcation of the Loan Portfolio based on maturity pattern and Assets Classification based on ageing of default</li> </ul> <p>So, there exists a risk that gaps in the IT general control environment which could result in a misstatement of the financial accounting and reporting records of the Enterprises. Accordingly, we have considered user access management, segregation of duties and controls over system change over key financial accounting and reporting systems, as a key audit matter for the Enterprises.</p>	<p><b>General IT controls design, observation and operation:</b></p> <ul style="list-style-type: none"> <li>➤ Tested key controls operating over the information technology in relation to financial accounting and reporting systems, including system access and system change management, program development and computer operations.</li> </ul> <p><b>User access controls operation:</b></p> <ul style="list-style-type: none"> <li>➤ Obtained management's evaluation of the access rights granted to applications relevant to financial accounting and reporting systems and tested resolution of a sample of expectations.</li> <li>➤ Further, we assessed the operating effectiveness of controls over granting, removal and appropriateness of access rights.</li> </ul> <p><b>Application controls:</b></p> <ul style="list-style-type: none"> <li>➤ We tested the design and operating effectiveness of automated controls critical to financial accounting and reporting.</li> <li>➤ For any identified deficiencies, tested the design and operating effectiveness of compensating controls and, where necessary, extended the scope of our substantive audit procedure.</li> </ul>
3.	<p><b>Valuation of equity investments carried at fair value</b>  <b>Refer note 2.6 for significant accounting policies and note 54 for financial disclosures (MOFSL)</b></p> <p>As at March 31, 2023, the MOFSL held investments in –</p> <ul style="list-style-type: none"> <li>i) Shubham Housing Development Finance Company Private Limited whose carrying amount is of Rs. 73.8 crores which represents 0.53 % of the total assets of the Company.</li> </ul>	<p>Our audit procedures in relation to valuation of investment with the involvement of our valuation experts included, but were not limited to, the following:</p> <p><b>Design/Controls:</b></p> <ul style="list-style-type: none"> <li>➤ Obtained a detailed understanding of the management's process and controls for determining the fair valuation of this investment. The understanding was obtained by performance of walkthroughs which included inspection of documents produced by the Company and discussion with those involved in the process of valuation;</li> </ul>

Sr. No.	Key audit matters	How our audit addressed the key audit matter
	<p>ii) Bundl Technologies Private Limited whose carrying amount is of Rs. 64.48 crores which represents 0.46 % of the total assets of the Company.</p> <p>These investments are not traded in the active market. The fair valuation of these investments are determined by a management appointed independent valuation expert. The process of computation of fair valuation of investment includes use of unobservable inputs and management judgements and estimates which are complex.</p> <p>The valuation of these investments were considered to be one of the areas which required significant auditor attention on and was one of the matters of most significance in the standalone financial statements of MOFSL due to the materiality of total value of investments to such standalone financial statements and the complexity involved in the valuation of these investments.</p>	<p>➤ Evaluated the design and the operational effectiveness of relevant key controls over the valuation process, including the Company's review and approval of the estimates and assumptions used for the valuation including key authorization and data input controls, independent price verification performed by the management expert and model governance and valuation.</p> <p><b>Substantive tests:</b></p> <p>➤ Assessed the appropriateness of the valuation methodology used for the of this investment in accordance with the Company's policy and tested the mathematical accuracy of the management's model adopted;</p> <p>➤ Obtained the valuation report from management's expert and assessed the expert's competence, objectivity and independence in performing the valuation of these investments;</p> <p>➤ Assessed the appropriateness of the valuation model used by the management and the assumptions used relating to projected cash flows and the discounting factor.</p> <p>➤ Ensured the appropriateness of the carrying value of these investments in the financial statements and the gain or loss recognised in the financial statements as a result of such fair valuation; and</p> <p>➤ Ensured the appropriateness and adequacy of disclosures in accordance with the applicable accounting standards.</p>

6. The auditors Aneel Lasod and Associates, Chartered Accountants, of Motilal Oswal Commodities Broker Private Limited (MOCBPL) vide their audit report dated April 25, 2023, have expressed an unmodified opinion on the financial statements. Based on consideration of their report and information submitted by them, we have reproduced the matter described below to be the key audit matter to be communicated in our report.

Key Audit Matters	Audit Procedures performed
<p><b>Legal &amp; Regulatory Risk:</b></p> <p>Refer Note 6 point 3 of the Consolidated financial statements</p> <p>Following default at National Spot Exchange Limited ('NSEL') in 2012 and initial investigations by Economic Offences Wing (EOW) and complaints received from investors against the broker of the now defunct spot exchange, NSEL and EOW in March and April 2015 had requested SEBI to take appropriate actions. However, In EOW report there was no allegation against Motilal Oswal Commodities Broker Private Limited (MOCBPL).</p> <p>In this manner, SEBI has issued Show Cause Notice to MOCBPL in financial year i.e. 2017-18 relating to NSEL Scam, for which management has replied accordingly.</p> <p>SEBI vide its order dated 22nd February 2019, rejected MOCBPL's registration application on the grounds that it is not fit and proper person to hold, directly or indirectly, the certificate of registration as commodity derivatives broker.</p>	<p>Following are the areas where risks are assessed &amp; procedures were followed.</p> <ul style="list-style-type: none"> <li>• <b>Recording of Receivables &amp; Dues - NSEL:</b> After scrutinising the books of accounts and discussion with the management it has been found that the amounts receivable from NSEL (Exchange) and due to the clients have direct nexus and MOCBPL has the role of a broker only. Hence, the amount receivable from Exchange has not been provided for Doubtful debts as they are directly payable to the Clients.</li> <li>• <b>Impact of SEBI order on the MOCBPL business:</b> The Company has already ceased its Commodity Broking business from April 2018. Also, the order of SEBI signifies that MOCBPL's registration application as Commodities Broker may be rejected; however the management doesn't plan to continue its Commodities Broking business under the company (MOCBPL). The company has also filed an appeal against the order of SEBI before the Securities Appellate Tribunal (SAT) &amp; the same is currently pending.</li> <li>• MOCBPL may have to refund the brokerage charged from the clients against which the management has already made provision in the books of accounts.</li> </ul> <p>Our procedures with respect to approaching the KAM:</p> <p><b>–Enquiring with Accounts and Finance Team:</b> We have discussed with Finance team, Management and have scrutinised books of account.</p>

	<p>– Assessing management’s conclusions and ensuring that updates regarding the manner are informed to us on timely basis.</p> <p>Our results: Based on the above procedures, whilst noting the inherent uncertainty with such legal matters, we concluded treatment of the matter as satisfactory.</p>
--	---

7. The auditors Shah & Savla LLP Chartered Accountants, of Motilal Oswal Finvest Limited vide their audit report dated April 26, 2023, have expressed an unmodified opinion on the financial statements. Based on consideration of their report and information submitted by them, we have reproduced the matter described below to be the key audit matter to be communicated in our report.

Key Audit Matter	Principal audit procedures performed
<p><b>1. Information Technology system for the financial reporting process</b></p> <p>The Company is highly dependent on its information technology (IT) systems for carrying on its operations which require large volume of transactions to be processed on a daily basis. Further, the Company’s accounting and financial reporting processes are dependent on the automated controls enabled by IT systems which impacts key financial accounting and reporting items such as Interest income, Loan Balance, Non Performing Assets amongst others. The controls implemented by the Company in its IT environment determine the integrity, accuracy, completeness and validity of data that is processed by the applications and is ultimately used for financial reporting. Accordingly, since our audit strategy has focused on key IT systems and controls due to pervasive impact on the financial statements and performing testing of automated process controls and General controls; we have determined the same as a key audit matter for current year audit.</p> <p><b>2. Impairment of loans</b></p> <p>Ind AS 109, Financial Instruments requires the Company to provide for impairment of its financial assets using</p>	<p>Our key audit procedures were relying on the work carried out by the IT specialists audit team, but were not limited to, the following:</p> <ul style="list-style-type: none"> <li>• Obtained an understanding of the Company’s IT environment and conducted risk assessment and identified IT applications, databases and operating systems that are relevant to our audit. Also, obtained an understanding of key automated controls operating over such identified IT applications; For deficiencies identified if any by the IT specialist, specialist team tested compensating controls or performed alternative procedures.</li> </ul> <p><b>Principal audit procedures performed</b></p> <p>a) Assessed and tested the design and operating effectiveness of key internal financial controls over the loan impairment process used to calculate the impairment.</p> <p>b) Assessed the critical assumptions used by the management for expected credit losses as at March 31, 2023.</p>

<p>the expected credit loss ('ECL') approach which involves estimates for probability of loss on the financial assets over their life, unless there has been no significant increase in credit risk since origination, in which case, the allowance is based on the 12- month ECL, considering reasonable and supportable information about past events, current conditions and forecasts of future economic conditions which could impact the credit quality of the Company's financial assets. In this process, substantial judgement has been applied by the management in assessing the 'significant increase in credit risk' in respect of following matters:</p> <p>a) The Company has grouped its loan portfolio based on days past due and other qualitative criteria as mentioned in the Credit-risk section. Loans grouped under a particular category are assumed to represent a homogenous pool thereby expected to demonstrate similar credit characteristics.</p> <p>b) Staging of loans and estimation of behavioral life.</p> <p>c) Estimation of expected loss from historical observations.</p> <p>d) Estimation of losses in respect of those groups of loans which had no/ minimal defaults in the past.</p> <p>Considering the significance of above model for impairment to the overall financial statements and the degree of management's estimates and judgments involved including the regulatory announcement of moratorium facility and restructuring facility for eligible customers, this area required significant auditor attention to test such complex accounting estimates. Therefore, we have determined this to be a key audit matter for the current year audit.</p> <p>3. Management estimates impairment provision using Expected Credit loss model for the loan exposure as per the Board approved policy which is in line with Ind AS and the Regulations. Measurement of loan impairment involves application of significant</p>	<p>c) Assessed the assumptions used by the Company for grouping and staging of loan portfolio into various categories and default buckets based on their past-due status and other qualitative factors identified by the management which indicate significant increase in credit risk. For a sample of exposures, we tested the appropriateness of such staging.</p> <p>d) Understood and checked the key data sources and assumptions for data used in the ECL model used by the Company to determine impairment provisions.</p> <p>e) On sample basis tested the completeness and accuracy of the input data used and agreed the data with the underlying books of accounts and records.</p> <p>Tested the arithmetical accuracy of computation of ECL provision performed by the Company.</p> <p>We examined Board Policy that address policies, procedures and controls for assessing and measuring credit risk on all lending exposures, commensurate with the size, complexity and risk profile specific to the borrowers.</p> <p>We evaluated the design and operating effectiveness of controls across the processes relevant to ECL, including the judgements and estimates.</p> <p>We tested the completeness of loans and advances included in the Expected Credit Loss calculations as of March 31, 2023 by reconciling it with the balances as per loan balance register as on that date.</p> <p>We tested assets in stage 1, 2 and 3 on sample basis to verify that they were allocated to the appropriate stage.</p>
---	--

<p>judgement by the management. The most significant judgements are:</p> <p>a) Timely identification and classification of the impaired loans, including classification of assets to stage 1, 2, or 3 using criteria in accordance with Ind AS 109 which also include considering the impact of RBI's regulatory circulars,</p> <p>b) The segmentation of financial assets when their ECL is assessed on a collective basis</p> <p>c) Determination of probability of defaults (PD) and loss given defaults (LGD) based on the default history of loans, subsequent recoveries made and other relevant factors and</p> <p>d) Assessment of qualitative factors having an impact on the credit risk.</p>	
---	--

**Information other than the Consolidated Financial Statements and Auditor's Report thereon**

8. The Holding Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Report on Corporate Governance (but does not include the Consolidated Financial Statements and our auditor's report thereon) which we obtained prior to the date of this auditor's report and Board's Report, Management Discussion and Analysis and Business Responsibility and Sustainability Report, which is expected to be made available to us after that date.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the Consolidated Financial Statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

When we read the other information included in the above reports, if we conclude that there is material misstatement therein, we are required to communicate the matter to

those charged with governance and determine the actions under the applicable laws and regulations.

**Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements**

9. The Holding Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with regard to the preparation and presentation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated changes in equity and consolidated cash flows of the Group including its associate in accordance with the accounting principles generally accepted in India, including the Ind AS specified under section 133 of the Act. The respective Board of Directors/management of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.
10. In preparing of these consolidated financial statements, the respective Board of Directors/ Management of the companies included in the Group and of its associate are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.
11. Those respective Board of Directors/Management included in the Group and of its associate are also responsible for overseeing the Group's financial reporting process.

**Auditor's Responsibilities for the Audit of the Consolidated Financial Statements**

12. Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.
13. As part of an audit in accordance with Standards on auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
  - i. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
  - ii. Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
  - iii. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
  - iv. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its associate to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associate to cease to continue as a going concern.
  - v. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
  - vi. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the of which we are the independent

auditors, to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

14. Materiality is the magnitude of the misstatement in the statement that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the statement may be influenced. We consider quantitative materiality and qualitative factors in; (i) planning the scope of our audit work and evaluating the results of our work; and (ii) to evaluate the effects of any identified misstatements in the consolidated financial statements.
15. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
16. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
17. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### **Other Matters**

18. We did not audit the financial statements of eight subsidiaries, whose financial statements reflects total assets of Rs. 5,62,858 lakhs as at March 31, 2023, total revenue of Rs. 59,414 lakhs, total net profit after tax of Rs. 12,461 lakhs, net cash (outflow) / inflow of Rs. 48,483 lakhs and total comprehensive income of Rs. 11,210 lakhs for the year ended March 31, 2023 respectively, as considered in the consolidated financial Statements. The consolidated financial Statements also includes the Group's share of the net profit after tax and total comprehensive income of Rs. 262 lakhs for the year ended March 31, 2023, in respect of one associate, whose financial statements have not been audited by us. These financial statements have been audited by other

auditors whose audit report have been furnished to us by the management, and our opinion in so far as it relates to the amount and disclosures included in respect of those subsidiaries/associate is based solely on the audit report of such other auditors, and the procedure performed by us as stated in the paragraph 3 above.

Our opinion above on the consolidated financial statements, and our report on other legal and regulatory requirements below, are not modified in respect of the above matters with respect to our reliance on the work done by and the reports of the other auditors.

19. The consolidated financial statements includes the consolidated financial statements of four subsidiaries which have not been audited, whose annual financial statements reflect total assets of Rs. 4,448 lakhs as at March 31, 2023, total revenue of Rs. 1,349 lakhs, total net profit after tax of Rs. (217) lakhs, net cash (outflow) / inflow of Rs. 392 lakhs and total comprehensive income of Rs. (217) lakhs for the year ended March 31, 2023 respectively. These financial statements have been furnished to us by the Holding Company's management. Our opinion is so far as it relates to the amounts and disclosures included in respect of aforesaid subsidiaries is based solely on such unaudited financial statements. In our opinion, and accordance to the information and explanation given to us by the management, are not material to the Group.

Our opinion above on the consolidated financial statements, and our report on other legal and regulatory requirements below, are not modified in respect of the above matter with respect to our reliance on the financial statements certified by the management.

#### **Report on Other Legal and Regulatory Requirements**

20. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, based on our audit and on the consideration of report of the other auditors on separate financial statements and the other financial information of the subsidiary companies, as noted in the 'Other Matter' paragraph we give in the "Annexure A" a statement on the matters specified in paragraph 3(xxi) of the Order.
21. As required by Section 143(3) of the Act, based on our audit and on the consideration of report of the other auditors on separate financial statements and the other financial information of subsidiaries and associate as noted in the 'other matter' paragraph we report, to the extent applicable, that:
- We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the aforesaid consolidated financial statements;
  - In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors.

- c. The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss including the Statement of Other Comprehensive income, the Consolidated Cash Flow Statement and Consolidated Statement of Changes in Equity dealt with by this Report are in agreement with the books of account maintained for the purpose of preparation of the consolidated financial statements;
- d. In our opinion, the aforesaid consolidated financial statements comply with the Ind AS specified under section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended;
- e. On the basis of written representations received from the directors of the Holding Company as on March 31, 2023, taken on record by the Board of Directors of the Holding Company and reports of the statutory auditors who are appointed under Section 139 of the Act, of its Indian subsidiary companies, none of the directors of the Group's companies, is disqualified as on March 31, 2023 from being appointed as a director in terms of Section 164 (2) of the Act.
- f. With respect to the adequacy of the internal financial controls with reference to the consolidated financial statements of the Group and the operating effectiveness of such controls, we request you to refer to our separate Report in "Annexure B" to this report.
- g. In our opinion and based on the consideration of reports of other statutory auditors of the subsidiaries, the managerial remuneration for the year ended March 31, 2023 has been paid/provided by the Group to their Directors is in accordance with the provisions of Section 197 read with Schedule V to the Act.
- h. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the report of the other auditors on separate financial statements as also the other financial information of the subsidiaries and associate:
  - i. The consolidated financial statements disclose the impact of pending litigations on its consolidated financial position of the Group and associate, in its consolidated financial statements – Refer Note 39 to the consolidated financial statements;
  - ii. The Group and associate did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses as at March 31, 2023;
  - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Group during the year ended March 31, 2023;
  - iv. (a) The respective managements of the Group and associate which are Companies incorporated in India whose financial statements have been audited under the Act have represented to us and the other auditors of such subsidiaries respectively that, to the best of its knowledge and belief, no funds have been

advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Holding Company or any of such subsidiaries or associate to or in any other person or entity, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf

of the respective Holding Company or any of such subsidiaries or associate ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(b) The respective managements of the Group and associate which are Companies incorporated in India whose financial statements have been audited under the Act have represented to us and the other auditors of such subsidiaries respectively that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the respective Holding Company or any of such subsidiaries from any person or entity, including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Holding Company or any of such subsidiaries or associate shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and

(c) Based on audit procedures that have been considered reasonable and appropriate in the circumstances; nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.

- v. The dividend declared or paid during the year and subsequent to the year- end by the Group and associate is in compliance with Section 123 of the Act.
- vi. Proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 for maintaining books of account using accounting software which has a feature of recording audit trail (edit log) facility is applicable to the Group and associate w.e.f. April 1, 2023, and accordingly, reporting under Rule 11(g) of Companies (Audit and Auditors) Rules, 2014 is not applicable for the financial year ended March 31, 2023.

**Annexure B to the Independent Auditor's Report of even date on the Consolidated Financial Statements of Motilal Oswal Financial Services Limited**

**Referred to in paragraph [21(f)] under Report on Other Legal and Regulatory Requirements of our report of even date**

**Report on the Internal Financial Controls over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

In conjunction with our audit of the consolidated financial statements of Motilal Oswal Financial Services Limited (hereinafter referred to as the "Holding Company") as of and for the year ended March 31, 2023, we have audited the internal financial controls with reference to consolidated financial statements of the Holding Company and its subsidiaries (the Holding Company and its subsidiaries together referred to as the "Group"), as of that date.

**Management's Responsibility for Internal Financial Controls**

The respective Board of Directors of the Holding Company and its subsidiary companies, which are companies covered under the Act are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Holding Company and subsidiary considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

**Auditor's Responsibility**

Our responsibility is to express an opinion on the Holding Company's and its subsidiaries companies internal financial controls with reference to consolidated financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing as specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls and both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting with reference to consolidated financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting with reference to consolidated financial statements and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed

risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matter paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to consolidated financial statements.

**Meaning of Internal Financial Controls over Financial Reporting with reference to consolidated financial statements**

A Company's internal financial control over financial reporting with reference to consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that:

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

**Inherent Limitations of Internal Financial Controls over Financial Reporting with reference to consolidated financial statements**

Because of the inherent limitations of internal financial controls over financial reporting with reference to consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting with reference to consolidated financial statements to future periods are subject to the risk that the internal financial control over financial reporting with reference to consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**Opinion**

In our opinion and based on the consideration of the reports of the other auditors on internal financial controls with reference to financial statements of such subsidiary companies, the Group which comprises of the companies incorporated in India, have in all material respects, adequate internal financial controls with reference to financial statements and such controls were operating effectively as at March 31, 2023, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

**Other Matter**

Our report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to consolidated financial statements of the Holding Company, in so far as it relates to the eight subsidiaries which are audited by other auditors, is based on the corresponding reports of the auditors of such subsidiaries. Further as associate is a Limited Liability Partnership (LLP) firm, hence report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls is not applicable to it.

Motilal Oswal Financial Services Limited  
Notes to the Consolidated Financial Statements  
(All amounts are in INR Lakhs, unless otherwise stated)

\*Refer note 61 on the Scheme of arrangement

\*\*Equity investments which are not held for trading, where an irrevocable election is made at the initial recognition to classify the instruments at FVOCI, all subsequent changes in fair value are recognised in Other Comprehensive Income. On disposal of investments the cumulative change in fair value is net recycled to profit or loss. However, at such time, it is transferred from OCI to General reserve.

The accompanying notes are integral part of these financial statements.  
This is the statement of changes in equity referred to in our report of even date.

# Actuarial gains/(losses) on post retirement benefit plans which was part of Other Comprehensive Income has been reclassified to Retained Earnings.

Note: NCI stands for Non Controlling Interest unless specifically specified to be else.

**Motilal Oswal Financial Services Limited**  
**Summary of significant accounting policies and other explanatory information**

**1A. Corporate information**

Motilal Oswal Financial Services Limited (“MOFSL” or ‘the Holding Company’) is a public limited company and incorporated under the provisions of Companies Act. The Company is domiciled in India and the addresses of its registered office and principal place of business are disclosed in the introduction to the annual report. The Holding Company is listed on the Bombay Stock Exchange (BSE) and the National Stock Exchange (NSE).

Motilal Oswal Financial Services Limited, its subsidiaries and associate entity (collectively, the Group) are engaged in stock broking, asset management and mutual funds, private equity, investment banking, home finance, wealth management services, distribution of financial products, proprietary investments and other activities in financial services.

These consolidated financial statements contain financial information of the Group and were authorized for issue by the Board of Directors on 27 April 2023.

Information on the Group’s structure is provided in note 57.

**1B. Business Combination under Common Control**

A common control business combination, involving entities or businesses in which all of the combining entities or businesses are ultimately controlled by the same party or parties both before and after the business combination and where the control is not transitory, is accounted for in accordance with Appendix C to Ind AS 103 'Business Combinations'.

Business combinations involving entities or businesses under common control are accounted for using the pooling of interest method as follows:

- The assets and liabilities of the combining entities are reflected at their carrying amounts.
- No adjustments are made to reflect fair values, or recognize new assets or liabilities. Adjustments are made only to harmonize significant accounting policies.
- The financial information in the financial statements in respect of prior periods are restated as if the business combination had occurred from the beginning of the preceding period in the financial statements.
- The identity of the reserves are preserved and appear in the financial statements of the transferee in the same form in which they appeared in the financial statements of the transferor.

The difference, if any, between the amounts recorded as share capital issued plus any additional consideration in the form of cash or other assets and the amount of share capital of the transferor is transferred to capital reserve and is presented separately from other capital reserves with disclosure of its nature and purpose in the notes (Refer Note 61 for additional details)

**1C. Business Combination under Acquisition method**

The Group applies the acquisition method in accounting for business combinations for the businesses which are not under common control. The cost of an acquisition is measured as the aggregate of the consideration transferred measured at acquisition date fair value and the amount of any non-controlling interests in the acquiree. For each business combination, the Group elects whether to measure the non-

## Motilal Oswal Financial Services Limited

### Summary of significant accounting policies and other explanatory information

controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition related costs are expensed as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their acquisition date fair values. For this purpose, the liabilities assumed include contingent liabilities representing present obligation and they are measured at their acquisition fair values irrespective of the fact that outflow of resources embodying economic benefits is not probable. However, the following assets and liabilities acquired in a business combination are measured at the basis indicated below:

- a) Deferred tax assets or liabilities and the assets or liabilities related to employee benefit arrangements are recognised and measured in accordance with Ind AS 12 'Income Tax' and Ind AS 19 'Employee Benefits' respectively.
- b) Potential tax effects of temporary differences and carry forwards of an acquiree that exist at the acquisition date or arise as a result of the acquisition are accounted in accordance with Ind AS 12.
- c) Reacquired rights are measured at a value determined on the basis of the remaining contractual term of the related contract. Such valuation does not consider potential renewal of the reacquired right.

Any contingent consideration to be transferred by the acquirer is recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability that is a financial instrument and within the scope of Ind AS 109 'Financial Instruments', is measured at fair value with changes in fair value recognised in profit or loss. If the contingent consideration is not within the scope of Ind AS 109, it is measured in accordance with the appropriate Ind AS.

Contingent consideration that is classified as equity is not re-measured at subsequent reporting dates and its subsequent settlement is accounted for within equity.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date.

If the business combination is achieved in stages, any previously held equity interest is re-measured at its acquisition date fair value and any resulting gain or loss is recognised in profit or loss or OCI, as appropriate. (Refer Note 60 for additional details)

## 2. Significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to the existing accounting standard requires a change in the accounting policy hitherto in use.

### 2.1. Basis of preparation

- (i) Compliance with Ind AS

The consolidated financial statements of the Group comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 ("the Act") read with Companies (Indian Accounting Standards) Rules, 2015 as amended and other relevant provisions of the Act.

The Balance Sheet, the Statement of Changes in Equity, the Statement of Profit and Loss and disclosures are presented in the format prescribed under Division III of Schedule III of the companies Act, as

## Motilal Oswal Financial Services Limited

### Summary of significant accounting policies and other explanatory information

amended from time to time that are required to comply with Ind AS. The Statement of Cash Flows has been presented as per the requirements of Ind AS 7 Statement of Cash Flows.

#### (ii) Historical cost convention

The consolidated financial statements have been prepared on a historical cost and on accrual basis, except for the following:

- Certain Financial instruments are measured at fair values;
- Assets held for sale – measured at fair value less cost to sell;
- Defined benefit plans – plan assets measured at fair value; and
- Share based payments – fair value as on the grant date

#### (iii) Preparation of consolidated financial statements

The Holding Company is covered in the definition of Non-Banking Financial Group as defined in Companies (Indian Accounting Standards) (Amendment) Rules, 2016. As per the format prescribed under Division III of Schedule III to the Companies Act, 2013 on 11 October 2018 and as amended on 24 March 2021, the Holding Company presents the Balance Sheet, the Statement of Profit and Loss and the Statement of Changes in Equity in the order of liquidity. A maturity analysis of recovery or settlement of assets and liabilities within 12 months after the reporting date and more than 12 months after the reporting date is presented in note 53.

#### (iv) Use of estimates and judgements

The preparation of consolidated financial statements in conformity with Ind AS which requires management to make estimates, judgements, and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities (including contingent liabilities) and disclosures as of the date of consolidated financial statements and the reported amounts of revenue and expenses for the reporting period. Actual results could differ from these estimates. Accounting estimates and underlying assumptions are reviewed on an ongoing basis and could change from period to period. Appropriate changes in estimates are recognized in the period in which the Group becomes aware of the changes in circumstances surrounding the estimates. Any revisions to accounting estimates are recognized prospectively in the period in which the estimate is revised and future periods. The estimates and judgements that have significant impact on carrying amount of assets and liabilities at each balance sheet date are discussed at note 3.

## 2.2. Principles of consolidation and equity accounting

#### (i) Subsidiaries

The consolidated financial statement has comprised financial statements of the Company and its subsidiaries. Subsidiaries are all the entities (including structured entities) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

**Motilal Oswal Financial Services Limited**  
**Summary of significant accounting policies and other explanatory information**

The acquisition method of accounting is used to account for business combinations by the Group.

The Group combines the financial statements of the Holding Company and its subsidiaries line by line adding together like items of assets, liabilities, equity, income and expenses. Intercompany transactions, balances and unrealized gains on transactions within the Group are eliminated. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Non-controlling interests in the results and equity of subsidiaries are shown separately in the consolidated statement of profit or loss, consolidated statement of changes in equity and balance sheet respectively. Statement of Profit and Loss including Other Comprehensive Income (OCI) is attributable to the equity holders of the Holding Company and to the non-controlling interest basis the respective ownership interest and such balance is attributed even if this results in controlling interest is having a deficit balance.

(ii) Associates

Associates are all entities over which the Group has significant influence but not control or joint control. This is generally the case where the Group holds between 20% and 50% of the voting rights. Investments in associates are accounted for using the equity method of accounting (see (iii) below), after initially being recognized at cost.

(iii) Equity method

Under the equity method of accounting, the investments are initially recognized at cost and adjusted thereafter to recognize the Group's share of the post-acquisition profits or losses of the investee in profit or loss, and the Group's share of other comprehensive income of the investee in other comprehensive income. Profit distribution from associates are recognized as a reduction in the carrying amount of the investment.

When the Group's share of losses in an equity-accounted investment equals or exceeds its interest in the entity, including any other unsecured long-term receivables, the Group does not recognize further losses, unless it has incurred obligations or made payments on behalf of the other entity.

Unrealized gains on transactions between the Group and its associates are eliminated to the extent of the Group's interest in these entities. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of equity accounted investees have been changed where necessary to ensure consistency with the policies adopted by the Group.

(iv) Changes in ownership interests

The Group treats transactions with non-controlling interests that do not result in a loss of control as transactions with equity owners of the Group. A change in ownership interest results in an adjustment between the carrying amounts of the controlling and non-controlling interests to reflect their relative interests in the subsidiary. Any difference between the amount of the adjustment to non-controlling interests and any consideration paid or received is recognized within equity.

When the Group ceases to consolidate or equity account for an investment because of a loss of control, joint control or significant influence, any retained interest in the entity is re-measured to its fair value with

the change in carrying amount recognized in profit or loss. This fair value becomes the initial carrying - amount for the purposes of subsequently accounting for the retained interest as an associate or financial asset. In addition, any amounts previously recognized in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognized in other comprehensive income are reclassified to profit or loss.

If the ownership interest in an associate is reduced but joint control or significant influence is retained, only a proportionate share of the amounts previously recognized in other comprehensive income are reclassified to profit or loss where appropriate.

### **2.3. Revenue Recognition**

The Group recognises revenue from contracts with customers based on a five step model as set out in Ind AS 115, Revenue from Contracts with Customers, to determine when to recognize revenue and at what amount. Revenue is measured based on the consideration specified in the contract with a customer. Revenue from contracts with customers is recognised when services are provided and it is highly probable that a significant reversal of revenue is not expected to occur.

Revenue is measured at fair value of the consideration received or receivable. Revenue is recognized when (or as) the Group satisfies a performance obligation by transferring a promised good or service (i.e. an asset) to a customer. An asset is transferred when (or as) the customer obtains control of that asset.

When (or as) a performance obligation is satisfied, the Group recognizes as revenue the amount of the transaction price (excluding estimates of variable consideration) that is allocated to that performance obligation.

The Group applies the five-step approach for recognition of revenue:

- Identification of contract(s) with customers: A contract is defined as an agreement between two or more parties that creates enforceable rights and obligations and sets out the criteria for every contract that must be met.
- Identification of the separate performance obligations in the contract: A performance obligation is a promise in a contract with a customer to transfer a good or service to the customer.
- Determination of transaction price: The transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.
- Allocation of transaction price to the separate performance obligations: For a contract that has more than one performance obligation, the Company allocates the transaction price to each performance obligation in an amount that depicts the amount of consideration to which the Company expects to be entitled in exchange for satisfying each performance obligation.
- Recognition of revenue when (or as) each performance obligation is satisfied.

#### **(i) Brokerage fee income**

It is recognised on trade date basis and is exclusive of goods and service tax and securities transaction tax (STT) wherever applicable.

## Motilal Oswal Financial Services Limited

### Summary of significant accounting policies and other explanatory information

#### (ii) Interest income

Interest income on a financial asset at amortised cost is recognised on a time proportion basis taking into account the amount outstanding and the effective interest rate ('EIR'). The EIR is the rate that exactly discounts estimated future cash flows of the financial asset through the expected life of the financial asset or, where appropriate, a shorter period, to the net carrying amount of the financial instrument. The internal rate of return on financial asset after netting off the fees received and cost incurred approximates the effective interest rate method of return for the financial asset. The future cash flows are estimated taking into account all the contractual terms of the instrument.

The interest income is calculated by applying the EIR to the gross carrying amount of non-credit impaired financial assets (i.e. at the amortised cost of the financial asset before adjusting for any expected credit loss allowance). For credit-impaired financial assets the interest income is calculated by applying the EIR to the amortised cost of the credit-impaired financial assets (i.e. the gross carrying amount less the allowance for ECLs).

#### (iii) Portfolio management fee income

Performance obligations are satisfied over a period of time and portfolio management fees are recognized in accordance with the Portfolio Management Agreement entered with respective clients, which is as follows:

- a) Processing fees is recognized on upfront basis in the year of receipt;
- b) Management fees is recognized as a percentage of the unaudited net asset value at the end of each month;
- c) Return based fees is recognized as a percentage of annual profit, in accordance with the terms of the agreement with clients on the completion of the period.

#### (iv) Mutual fund management fee income

Performance obligations are satisfied over a period of time and mutual fund management fee is recognized on monthly basis in accordance with Investment Management Agreement and SEBI (Mutual Fund) Regulations, 1996, based on daily average assets under management (AUM) of the Schemes of Motilal Oswal Mutual Fund.

#### (v) Private equity fund management fee income

Performance obligations are satisfied over a period of time and private equity fund management fee is recognized on monthly basis in accordance with Private Placement Memorandum based on capital commitment / capital contribution of the Fund.

#### (vi) Alternative investment fund management fee income

Performance obligations are satisfied over a period of time and alternate investment management fee is recognized on monthly basis in accordance with Private Placement Memorandum.

#### (vii) Investment advisory fees

Performance obligations are satisfied over a period of time and investment advisory fee is recognized on monthly basis in accordance with the terms of the contract with the clients.

#### (viii) Research and advisory fees

Performance obligations are satisfied over a period of time and investment advisory fee is recognized on monthly basis in accordance with the terms of the contract with the clients.

## Motilal Oswal Financial Services Limited

### Summary of significant accounting policies and other explanatory information

#### (ix) Dividend income

Dividend income is recognized in the statement of profit or loss on the date that the Group's right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the entity and the amount of dividend can be reliably measured. This is generally when the shareholders approve the dividend.

#### (x) Net gain on fair value changes.

The Company designates certain financial assets for subsequent measurement at fair value through profit or loss (FVTPL) or fair value through other comprehensive income (FVOCI). The Company recognizes gains on fair value change of financial assets measured at FVTPL and realized gains on de-recognition of financial asset measured at FVTPL and FVOCI on net basis in profit or loss.

#### (xi) Trustee fees

Performance obligations are satisfied over a period of time and trustee fees are recognized at the specific rates/amount approved by the Board of Directors of the Company, within the limits specified under the Trust Deed and is applied on the assets under management of each scheme of Motilal Oswal Mutual Fund.

#### (xii) Depository services income

Revenue from depository services on account of annual maintenance charges have been accounted for over the period of the performance obligation.

Revenue from depository services on account of transaction charges is recognized point in time when the performance obligation is satisfied.

#### (xiii) Delayed payment charges

Interest is earned on delayed payments from customers and is recognised on a time proportion basis taking into account the amount outstanding from customers and the rates applicable.

## 2.4. Distribution cost

### Portfolio Management Services

Distribution cost for Portfolio Management Services are charged to Statement of Profit and Loss on accrual basis. Upfront distribution cost paid till 30th September 2020 is amortised over the contractual period. On this account, an asset (prepaid expenses) is recognised at the time of actual payment or becoming due for payment and charged evenly to the Statement of Profit and Loss over the commitment period of the respective investor.

### Alternate Investment Fund Services

Distribution cost for Alternate Investment Fund Management Services are charged to Statement of Profit and Loss on accrual basis. On this account, an asset (prepaid expenses) is recognised at the time of actual payment or becoming due for payment and charged to the Statement of Profit and Loss over the period of the scheme.

### Fund related expenses

#### New fund offer expenses

Expenses relating to initial issue of Mutual Fund Schemes of the Fund are charged to the Statement of Profit and Loss in the year in which such expenses are incurred which is in compliance with SEBI (Mutual Funds) Regulations, 1996.

**Motilal Oswal Financial Services Limited**  
**Summary of significant accounting policies and other explanatory information**

**Recurring fund expenses**

Expenses incurred (inclusive of advertisement / brokerage expenses) on behalf of schemes of Motilal Oswal Mutual Fund till 22<sup>nd</sup> October 2019 are recognised in the Statement of Profit and Loss unless considered recoverable from the schemes of the Fund in accordance with the provisions of SEBI (Mutual Fund) Regulations, 1996.

**2.5. Income Tax**

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses. Current and deferred tax is recognized in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity, respectively.

**Current Tax:**

Current tax is measured at the amount of tax expected to be payable on the taxable income for the year as determined in accordance with the provisions of the Income Tax Act, 1961. Current tax assets and current tax liabilities are off set when there is a legally enforceable right to set off the recognized amounts and there is an intention to settle the asset and the liability on a net basis.

**Deferred Tax:**

Deferred tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, deferred tax liabilities are not recognized if they arise from the initial recognition of goodwill. Deferred tax is also not accounted for, if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss). Deferred tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled. Deferred tax assets are recognized for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilize those temporary differences and losses. Deferred tax liabilities are not recognized for temporary differences between the carrying amount and tax bases of investments in subsidiaries and associates where the Group is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority.

**Motilal Oswal Financial Services Limited**  
**Summary of significant accounting policies and other explanatory information**

**2.6. Leases**

For any new contracts entered into on or after 1 April 2019, the Company considers whether a contract is, or contains a lease. A lease is defined as 'a contract, or part of a contract, that conveys the right to use an asset (the underlying asset) for a period of time in exchange for consideration'. The Company assess whether it has the right to direct 'how and for what purpose' the asset is used throughout the period of use.

**Measurement and recognition of leases as a lessee**

The Company has adopted Ind AS 116 "Leases" using the cumulative catch-up approach. Company has recognised Right of Use assets as at 1 April 2019 for leases previously classified as operating leases and measured at an amount equal to lease liability (adjusted for related prepayments/ accruals). The Company has discounted lease payments using the incremental borrowing rate for measuring the lease liability.

The Company recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any re-measurement of lease liabilities.

The Company depreciates the right-of-use assets on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The Company also assesses the right-of-use asset for impairment when such indicators exist.

Lease payments included in the measurement of the lease liability are made up of fixed payments (including in substance fixed), variable payments based on an index or rate, amounts expected to be payable under a residual value guarantee and payments arising from options reasonably certain to be exercised.

Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. It is re-measured to reflect any reassessment or modification, or if there are changes in in-substance fixed payments.

When the lease liability is re-measured, the corresponding adjustment is reflected in the right-of-use asset, or profit and loss if the right-of-use asset is already reduced to zero.

The Company has elected to account for short-term leases and leases of low-value assets using the practical expedients. Instead of recognising a right-of-use asset and lease liability, the payments in relation to these are recognised as an expense in profit or loss on a straight-line basis over the lease term.

When the Company revises its estimate of the term of any lease, it adjusts the carrying amount of the lease liability to reflect the payments to make over the revised term, which are discounted using a revised discount rate. The carrying value of lease liabilities is similarly revised when the variable element of future lease payments dependent on a rate or index is revised, except the discount rate remains unchanged. In both cases an equivalent adjustment is made to the carrying value of the right-of-use asset, with the revised carrying amount being amortised over the remaining (revised) lease term. If the carrying amount of the right-of-use asset is adjusted to zero, any further reduction is recognised in statement of profit and loss.

For contracts that both convey a right to the Company to use an identified asset and require services to be provided to the Company by the lessor, the Company has elected to account for the entire contract as

**Motilal Oswal Financial Services Limited**  
**Summary of significant accounting policies and other explanatory information**

a lease, i.e. it does not allocate any amount of the contractual payments to, and account separately for, any services provided by the supplier as part of the contract.

**2.7. Cash and cash equivalents**

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Outstanding bank overdrafts are not considered integral part of the Company's cash management.

**2.8. Financial instruments**

Initial recognition and measurement

Financial assets and financial liabilities are recognized when the entity becomes a party to the contractual provisions of the instrument. Regular way purchases and sales of financial assets are recognized on trade-date, the date on which the Group commits to purchase or sell the asset.

At initial recognition, the Group measures a financial asset or financial liability at its fair value plus or minus, in the case of a financial asset or financial liability not at fair value through profit or loss, transaction costs that are incremental and directly attributable to the acquisition or issue of the financial asset or financial liability, such as fees and commissions. Transaction costs of financial assets and financial liabilities carried at fair value through profit or loss are expensed in profit or loss. Immediately after initial recognition, an expected credit loss allowance (ECL) is recognized for financial assets measured at amortized cost.

When the fair value of financial assets and liabilities differs from the transaction price on initial recognition, the entity recognizes the difference as follows:

- a) When the fair value is evidenced by a quoted price in an active market for an identical asset or liability (i.e. a Level 1 input) or based on a valuation technique that uses only data from observable markets, the difference is recognized as a gain or loss.
- b) In all other cases, the difference is deferred and the timing of recognition of deferred day one profit or loss is determined individually. It is either amortized over the life of the instrument, deferred until the instrument's fair value can be determined using market observable inputs, or realized through settlement.

When the Group revises the estimates of future cash flows, the carrying amount of the respective financial assets or financial liability is adjusted to reflect the new estimate discounted using the original effective interest rate. Any changes are recognized in profit or loss.

Fair value of financial instruments

Some of the Group's assets and liabilities are measured at fair value for financial reporting purpose. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date regardless of whether that price is directly observable or estimated using another valuation technique.

**Motilal Oswal Financial Services Limited**  
**Summary of significant accounting policies and other explanatory information**

Fair value measurements under Ind AS are categorized into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurement are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company can access at measurement date
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly; and
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs) that the Company can access at measurement date.

Information about the valuation techniques and inputs used in determining the fair value of various assets and liabilities are disclosed in note 54.

**Financial assets**

**(i) Classification and subsequent measurement**

The Group has applied Ind AS 109 and classifies its financial assets in the following measurement categories:

- Fair value through profit or loss (FVTPL);
- Fair value through other comprehensive income (FVOCI); or
- Amortised cost.

Classification and subsequent measurement of financial assets depends on:

- The Company's business model for managing the asset; and
- The cash flow characteristics of the asset.

**1. Financial assets carried at:**

**a. Amortised cost**

A financial asset is measured at the amortised cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in interest income in the Statement of Profit and Loss.

**b. Fair value through other comprehensive income**

Financial assets that are held within a business model whose objective is achieved by both, selling financial assets and collecting contractual cash flows that are solely payments of principal and interest, are subsequently measured at fair value through other comprehensive income. Fair value movements are recognized in the other comprehensive income (OCI). Interest income measured using the EIR method and impairment losses, if any are recognised in the Statement of Profit and Loss. On derecognition, cumulative gain or loss previously recognised in OCI is reclassified from the equity to 'other income' in the Statement of Profit and Loss.

c. Fair value through profit or loss

A financial asset not classified as either amortised cost or FVOCI, is classified as FVTPL. Such financial assets are measured at fair value with all changes in fair value, including interest income and dividend income if any, recognised as 'other income' in the Statement of Profit and Loss.

2. Equity instruments

Equity instruments are instruments that meet the definition of equity from the issuer's perspective; that is, instruments that do not contain a contractual obligation to pay and that evidence a residual interest in the issuer's net assets.

All investments in equity instruments classified under financial assets are initially measured at fair value, the Group may, on initial recognition, irrevocably elect to measure the same either at FVOCI or FVTPL. The Group makes such election on an instrument-by-instrument basis. Fair value changes on an equity instrument is recognised as revenue from operations in the Statement of Profit and Loss unless the Group has elected to measure such instrument at FVOCI. Fair value changes excluding dividends, on an equity instrument measured at FVOCI are recognized in OCI. Amounts recognised in OCI are not subsequently reclassified to the Statement of Profit and Loss. Dividend income on the investments in equity instruments are recognised as 'Revenue from operations' in the Statement of Profit and Loss.

3. Investments in mutual funds

Investments in mutual funds are measured at fair value through profit and loss (FVTPL).

(ii) Impairment

The Group recognizes impairment allowances using Expected Credit Losses ("ECL") method on all the financial assets that are not measured at FVPTL:

ECL are probability-weighted estimate of credit losses. They are measured as follows:

- Financials assets that are not credit impaired – as the present value of all cash shortfalls that are possible within 12 months after the reporting date.
- Financials assets with significant increase in credit risk - as the present value of all cash shortfalls that result from all possible default events over the expected life of the financial assets.
- Financials assets that are credit impaired – as the difference between the gross carrying amount and the present value of estimated cash flows.

Financial assets are written off/fully provided for when there is no reasonable of recovering a financial assets in its entirety or a portion thereof.

However, financial assets that are written off could still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognised in the Statement of Profit and Loss.

**Motilal Oswal Financial Services Limited**  
**Summary of significant accounting policies and other explanatory information**

**(iii) Derecognition**

A financial asset is derecognised only when:

The Group has transferred the rights to receive cash flows from the financial asset or retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the Group has transferred an asset, the Group evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the Group has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Group has not retained control of the financial asset. Where the Group retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

Transfer of loans through assignment transaction can be made only after continuing involvement in loans i.e retaining a minimum specific percentage of loan but without retaining any substantial risk and reward in the loan assigned. The assigned portion of loans is derecognized and gains/losses are accounted for, only if the Company transfers substantially all risks and rewards specified in the underlying assigned loan contracts. Gain/loss arising on such assignment transactions is recorded upfront in the Statement of Profit and Loss and the corresponding loan is derecognized from the Balance Sheet immediately. Further, if the transfer of loan qualifies for derecognition, entire interest spread at its present value (discounted over the life of the asset) is recognized on the date of derecognition itself as interest strip receivable (interest strip on assignment) and correspondingly presented as gain/loss on derecognition of financial asset.

**Financial liabilities**

**(i) Initial recognition and measurement**

All financial liabilities are recognised when the Company becomes a party to the contractual provisions of the financial instrument and are measured initially at fair value adjusted for transaction costs.

**(ii) Subsequent measurement**

Financial liabilities are subsequently measured at amortised cost using the EIR method. Financial liabilities carried at fair value through profit or loss are measured at fair value with all changes in fair value recognised in the Statement of Profit and Loss.

**(iii) Derecognition**

A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or expires.

**Motilal Oswal Financial Services Limited**  
**Summary of significant accounting policies and other explanatory information**

**2.9. Offsetting financial instruments**

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Group or the counterparty.

**2.10. Derivative Financial Instruments and Hedge Accounting:**

The Company enters into forward contracts to hedge the foreign currency risk of firm commitments and highly probable forecast transactions. Derivatives are initially recognised at fair value at the date the derivative contracts are entered into and are subsequently re-measured to their fair value at the end of each reporting period. The resulting gain or loss is recognised in the Statement of Profit and Loss immediately unless the derivative is designated and effective as a hedging instrument, in which event the timing of the recognition in the Statement of Profit and Loss depends on the nature of the hedging relationship and the nature of the hedged item.

The Company enters into derivative financial instruments viz. foreign exchange forward contracts, interest rate swaps and cross currency swaps to manage its exposure to interest rate and foreign exchange rate risks. The Company does not hold derivative financial instruments for speculative purposes.

**Hedge Accounting:** The Company designates certain hedging instruments in respect of foreign currency risk and interest rate risk as cash flow hedges. Such hedges are expected to be highly effective in achieving offsetting changes in fair value or cash flows, and are assessed on an ongoing basis to determine that they actually have been highly effective throughout the financial reporting periods for which they were designated. The effective portion of changes in the fair value of the designated portion of derivatives that qualify as cash flow hedges is recognised in Other Comprehensive Income and accumulated under the heading of cash flow hedging reserve.

The gain or loss relating to the ineffective portion is recognised immediately in the Statement of Profit and Loss. Amounts previously recognised in Other Comprehensive Income and accumulated in other equity relating to (effective portion as described above) are re-classified to the Statement of Profit and Loss in the periods when the hedged item affects profit or loss. However, when the hedged forecast transaction results in the recognition of a non-financial asset or a non-financial liability, such gains and losses are transferred from equity and included in the initial measurement of the cost of the non-financial asset or non-financial liability. Hedge accounting is discontinued when the hedging instrument expires, terminated, or exercised, without replacement or rollover (as part of the hedging strategy), or if its designation as a hedge is revoked, or when it no longer qualifies for hedge accounting. Any gain or loss recognised in Other Comprehensive Income and accumulated in other equity at that time remains in other equity and is recognised when the forecast transaction is ultimately recognised in Statement of Profit and Loss. When a forecast transaction is no longer expected to occur, the gain or loss accumulated in other equity is recognised immediately in the Statement of Profit and Loss.

**2.11. Financial guarantee contracts and loan commitments**

Financial guarantee contracts are contracts that require the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due, in accordance with the terms of a debt instrument. Such financial guarantees are given to banks, financial institutions and others on behalf of customers to secure loans, overdrafts and other banking facilities.

Financial guarantee contracts are initially measured at fair value and subsequently measured at the higher of:

- The amount of the loss allowance; and

**Motilal Oswal Financial Services Limited**  
**Summary of significant accounting policies and other explanatory information**

- The premium received on initial recognition less income recognized in accordance with the principles of Ind AS 115.

**2.12. Repossessed collateral**

Reposessed collateral represents non-financial assets acquired by the Company in settlement of overdue loans. Any collateral obtained as a result of foreclosure is not recognized as a separate asset unless it is acquired by the Company in settlement of overdue loans.

**2.13. Property, plant and equipment**

Property, plant and equipment are stated at cost of acquisition less accumulated depreciation. Cost includes expenditure that is directly attributable to the acquisition and installation of the assets.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under other non-financial assets and the cost of assets not put to use before such date are disclosed under 'Capital work-in-progress'.

**Depreciation methods, estimated useful lives and residual value**

Depreciation is calculated using the straight-line method to allocate their cost, net of their residual values, over their estimated useful life prescribed under Schedule II to the Companies Act, 2013. The Group provides pro-rata depreciation from the month of installation till the date assets are sold or disposed. Leasehold improvements are amortised over the term of underlying lease.

Assets	Useful life
Building	60 years
Furniture and Fixtures	10 years
Office Equipments	5 years
Computers and Network Equipments	3 to 6 years
Plant and Machinery	5 years
Electrical Equipments	10 years
Vehicles	8 to 10 years
Leasehold Improvements	Over the primary lease period or useful life. Whichever is less.

**Derecognition:**

The carrying amount of an item of property, plant and equipment is derecognized on disposal or when no future economic benefits are expected from its use or disposal. Gains and losses on disposals are determined by comparing proceeds with carrying amount and are recognized in the statement of profit and loss when the asset is derecognized.

**Motilal Oswal Financial Services Limited**  
**Summary of significant accounting policies and other explanatory information**

**2.14. Intangible assets**

Measurement at initial recognition:

Intangible assets are recognized where it is probable that the future economic benefit attributable to the assets will flow to the Group and its cost can be reliably measured. Intangible assets are stated at cost of acquisition less accumulated amortization and impairment, if any.

Expenditure incurred on acquisition/development of intangible assets which are not put/ready to use at the reporting date is disclosed under intangible assets under development. The Group amortizes intangible assets on a straight-line basis over the five years commencing from the month in which the asset is first put to use. The Group provides pro-rata amortization from the day the asset is put to use.

Asset	Useful life
Computer Software	5 years
Licences	Over the license period
Customer rights	5 years

Derecognition:

The carrying amount of an intangible asset is derecognized on disposal or when no future economic benefits are expected from its use or disposal. Gains and losses on disposals are determined by comparing proceeds with carrying amount and are recognized in the statement of profit and loss when the asset is derecognized

**2.15. Impairment of non-financial assets**

At each reporting date, the Group assesses whether there is any indication based on internal/external factors, that an asset may be impaired. If any such indication exists, the Group estimates the recoverable amount of the asset. The recoverable amount of asset is the higher of its value in use or its fair value. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects the current market assessment of time value of money and the risks specific to it. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount and the reduction is treated as an impairment loss and is recognised in the statement of profit and loss. All assets are subsequently reassessed for indications that an impairment loss previously recognised may no longer exist. An Impairment loss is reversed if there has been a change in estimates used to determine the recoverable amount. Such a reversal is made only to the extent that the assets carrying amount would have been determined, net of depreciation or amortization, had no impairment loss been recognised.

**2.16. Expected credit loss (ECL) model:**

The Company applies the ECL model in accordance with Ind AS 109 for recognising impairment loss on financial assets. The ECL allowance is based on the credit losses expected to arise from all possible default events over the expected life of the financial asset ('lifetime ECL'), unless there has been no significant increase in credit risk since origination, in which case, the allowance is based on the 12-month ECL. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

**Motilal Oswal Financial Services Limited**  
**Summary of significant accounting policies and other explanatory information**

ECL is calculated on a collective basis, considering the retail nature of the underlying portfolio of financial assets.

The impairment methodology applied depends on whether there has been a significant increase in credit risk. When determining whether the risk of default on a financial asset has increased significantly since initial recognition, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis based on a provision matrix which takes into account the Company's historical credit loss experience, current economic conditions, forward looking information and scenario analysis.

The expected credit loss is a product of exposure at default ('EAD'), probability of default ('PD') and loss given default ('LGD'). The Company has devised an internal model to evaluate the PD and LGD based on the parameters set out in Ind AS 109. Accordingly, the financial assets have been segmented into three stages based on the risk profiles. The three stages reflect the general pattern of credit deterioration of a financial asset. The company categorises financial assets at the reporting date into stages based on the days past due ('DPD') status as under:

- Stage 1: Low credit risk, i.e. 0 to 30 days past due
- Stage 2: Significant increase in credit risk, i.e. 31 to 90 days past due
- Stage 3: Impaired assets, i.e. more than 90 days past due

LGD is an estimate of loss from a transaction given that a default occurs. PD is defined as the probability of whether the borrowers will default on their obligations in the future. For assets which are in Stage 1, a 12-month PD is required. For Stage 2 assets a lifetime PD is required while Stage 3 assets are considered to have a 100% PD. EAD represents the expected exposure in the event of a default and is the gross carrying amount in case of the financial assets held by the Company.

The Company incorporates forward looking information into both assessments of whether the credit risk of an instrument has increased significantly since its initial recognition and its measurement of ECL. Based on the consideration of external actual and forecast information, the Company forms a 'base case' view of the future direction of relevant economic variables. This process involves developing two or more additional economic scenarios and considering the relative probabilities of each outcome. The base case represents a most likely outcome while the other scenarios represent more optimistic and more pessimistic outcomes.

The measurement of impairment losses across all categories of financial assets requires judgement, in particular, the estimation of the amount and timing of future cash flows and collateral values when determining impairment losses and the assessment of a significant increase in credit risk. These estimates are driven by a number of factors, changes in which can result in different levels of allowances. The Company's ECL calculations are outputs of complex models with a number of underlying assumptions regarding the choice of variable inputs and their interdependencies. The inputs and models used for calculating ECLs may not always capture all characteristics of the market at the date of the financial statements. The Company regularly reviews its models in the context of actual loss experience and makes adjustments when such differences are significantly material.

The amount of ECL (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognised as an impairment gain or loss in profit or loss.

**Motilal Oswal Financial Services Limited**  
**Summary of significant accounting policies and other explanatory information**

After initial recognition, trade receivables are subsequently measured at amortised cost using the effective interest method, less provision for impairment. The Company follows the simplified approach required by Ind AS 109 for recognition of impairment loss allowance on trade receivables, which requires lifetime ECL to be recognised at each reporting date, right from initial recognition of the receivables.

**2.17. Provisions and contingencies:**

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the Balance Sheet date.

Provisions are determined by discounting the expected future cash flows (representing the best estimate of the expenditure required to settle the present obligation at the balance sheet date) at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognized as finance cost. Expected future operating losses are not provided for.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made. Contingent assets are neither recognised nor disclosed in the financial statements.

**2.18. Employee benefits**

(i) Short-term obligations

Short-term employee benefits are recognized as an expense at the undiscounted amount in the Statement of Profit and Loss for the year in which the related services are rendered. The Group recognises the costs of bonus payments when it has a present obligation to make such payments as a result of past events and a reliable estimate of the obligation can be made.

**Compensated absences**

The Group does not have a policy of encashment of unavailed leaves for its employees but are permitted to be carried forward subject to some prescribed maximum days. Provision is made on actual basis of accumulating compensated absences as a result of unused leave entitlement which has accumulated as at the balance sheet date.

(ii) Post-employment obligations

**Defined contribution plan:**

Contribution paid/payable to the recognised provident fund, which is a defined contribution scheme, is charged to the Statement of Profit and Loss in the period in which they occur.

**Motilal Oswal Financial Services Limited**  
**Summary of significant accounting policies and other explanatory information**

**Defined benefits plan:**

Gratuity is post-employment benefit and is in the nature of defined benefit plan. The liability recognised in the Balance Sheet in respect of gratuity is the present value of defined benefit obligation at the Balance Sheet date together with the adjustments for unrecognised actuarial gain or losses and the past service costs. The defined benefit obligation is calculated at or near the Balance Sheet date by an independent actuary using the projected unit credit method. Actuarial gains and losses comprise experience adjustment and the effects of changes in actuarial assumptions are recognized in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

**National Pension Scheme and Employee State Insurance Corporation**

Contribution paid/payable to the recognised NPS and ESIC, which is a defined contribution scheme, is charged to the Statement of Profit and Loss in the period in which they occur.

(iii) Other long-term employee benefit obligations

**Heritage club benefit**

Heritage club benefits are recognised as liability at the present value of defined benefits obligation as at the Balance Sheet date. The defined obligation benefit is calculated at the Balance Sheet date by an independent actuary using the projected unit credit method.

**2.19. Share-based payments**

**Employee Stock Option Scheme (ESOS)**

The Employees Stock Options Scheme (“the Scheme”) has been established by the Group. The Scheme provides that employees are granted an option to subscribe to equity share of the Group that vest on the satisfaction of vesting conditions. The fair value of options granted under ESOS is recognized as an employee benefits expense with a corresponding increase in equity. The total amount to be expensed is determined reference to the fair value of the options granted excluding the impact of any service conditions. Information about the valuation techniques and inputs used in determining the fair value of options disclosed in note 50.

The total expense is recognized over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied. At the end of each period, the entity revises its estimates of the number of options that are expected to vest based on the service conditions. It recognizes the impact of the revision to original estimates, if any, in profit or loss, with a corresponding adjustment to equity.

**2.20. Foreign currency translation**

(i) Functional and presentation currency

Items included in consolidated financial statements of the Group are measured using the currency of the primary economic environment in which the Group operates (“the functional currency”). The consolidated financial statements are presented in Indian rupee (INR) in lakhs rounded off to two decimal places except when otherwise stated as permitted by Schedule III to the Companies Act, 2013, which is Group’s functional and presentation currency.

**Motilal Oswal Financial Services Limited**  
**Summary of significant accounting policies and other explanatory information**

(ii) Translation and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are recognized in profit or loss.

(iii) Translation of foreign subsidiaries.

All income and expense items are converted at the average rate of exchange applicable for the period. All assets and liabilities are translated at the closing rate as on the balance sheet date. The exchange difference arising out of the year-end translation is debited or credited to Translation Reserve of the respective subsidiary and is disclosed in Reserves and surplus.

## 2.21. Dividends

Provision is made for the amount of any dividend declared, being appropriately authorized and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

## 2.22. Earnings per share

a) Basic earnings per share

Basic earnings per share is calculated by dividing the net profit for the period (excluding other comprehensive income) attributable to equity share holders of the Group by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus element in equity shares issued during the year.

b) Diluted earnings per share

Diluted earnings per share is computed by dividing the net profit for the period (excluding other comprehensive income) attributable to equity shareholders by the weighted average number of shares outstanding during the period as adjusted for the effects of all diluted potential equity shares except where the results are anti-dilutive. Further, when a subsidiary issue the potential ordinary shares that are convertible into the ordinary shares of the subsidiary, to parties other than the parent and if these potential ordinary shares of the subsidiary have a dilutive effect on the basic earnings per share of the reporting entity, they are included in the calculation of diluted earnings per share.

## 2.23. Borrowing Costs

Expenses related to borrowing cost are accounted using effective interest rate. Borrowing costs are interest and other costs (including exchange differences relating to foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs) incurred in connection with the borrowing of funds. Borrowing costs directly attributable to acquisition or construction of an asset which necessarily take a substantial period of time to get ready for their intended use are capitalised as part of the cost of that asset. Other borrowing costs are recognised as an expense in the period in which they are incurred. The difference between the discounted amount mobilised and redemption value of commercial papers is recognised in the statement of profit and loss over the life of the instrument using the EIR.

**Motilal Oswal Financial Services Limited**  
**Summary of significant accounting policies and other explanatory information**

**2.24. Segment Reporting**

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker of the Group.

The power to assess the financial performance and position of the Group and make strategic decisions is vested in the managing director who has been identified as the Chief Operating Decision Maker.

The primary business of the Group comprises of "Capital market", "Fund based activities", "Asset Management and Advisory" and "Home Finance". The business segments have been identified considering the nature of services, the differing risks and returns, the organization structure and the internal financial reporting system. Capital market activities includes Broking services to clients, research and advisory services, financial product distribution, depository services and investment banking. Fund based activities include investment activities (Investment in securities and property) and financing activity. Asset management and advisory includes fee based services for management of assets. Home Finance represents interest and other related income from affordable housing finance business.

**2.25. Rounding of amounts**

All amounts disclosed in the consolidated financial statements and notes have been rounded off to the nearest lakh as per the requirements.

**2.26. Events after reporting date**

Where events occurring after the balance sheet date provide evidence of conditions that existed at the end of the reporting period, the impact of such events is adjusted within the consolidated financial statements. Otherwise, events after the balance sheet date of material size or nature are only disclosed.

**2.27. Fiduciary assets**

Assets held by the Company in its own name, but on the account of third parties, are not reported in the balance sheet. Commissions received from fiduciary activities are shown in fee and commission income.

**3. Key accounting estimates and judgements**

The preparation of consolidated financial statements requires management to make judgments, estimates and assumptions in the application of accounting policies that affect the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Continuous evaluation is done on the estimation and judgments based on historical experience and other factors, including expectations of future events that are believed to be reasonable. Revisions to accounting estimates are recognised prospectively.

Information about critical judgments in applying accounting policies, as well as estimates and assumptions that have the most significant effect to the carrying amounts of assets and liabilities within the next financial year, are included in the following notes:

(a) Provision and contingent liability: On an ongoing basis, Group reviews pending cases, claims by third parties and other contingencies. Contingent losses that are considered probable, an estimated loss is

## Motilal Oswal Financial Services Limited

### Summary of significant accounting policies and other explanatory information

recorded as an accrual in consolidated financial statements. Loss Contingencies that are considered possible are not provided for but disclosed as Contingent liabilities in the consolidated financial statements. Contingencies the likelihood of which is remote are not disclosed in the consolidated financial statements. Gain contingencies are not recognized until the contingency has been resolved and amounts are received or receivable.

(b) Allowance for impairment of financial asset: Judgements are required in assessing the recoverability of overdue loans and determining whether a provision against those loans is required. Factors considered include the aging of past dues, value of collateral and any possible actions that can be taken to mitigate the risk of non-payment.

(c) Recognition of deferred tax assets - Deferred tax assets are recognised for unused tax-loss carryforwards and unused tax credits to the extent that realisation of the related tax benefit is probable. The assessment of the probability with regard to the realisation of the tax benefit involves assumptions based on the history of the entity and budgeted data for the future.

(d) Defined benefit plans - The cost of defined benefit plans and the present value of the defined benefit obligations are based on actuarial valuation using the projected unit credit method. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long - term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

(e) Share based payment – The Group account for share based payment by measuring and recognizing as compensation expense the fair value of all share-based payment awards made to employees based on estimated grant date fair values. The determination of fair value involves a number of significant estimates. The Group uses the Black Scholes option pricing model to estimate the value of employee stock options which requires a number of assumptions to determine the model inputs. These include the expected volatility of Group's stock and employee exercise behavior which are based on historical data as well as expectations of future developments over the term of the option. As stock-based compensation expense is based on awards ultimately expected to vest. Management's estimate of exercise is based on historical experience but actual exercise could differ materially as a result of voluntary employee actions and involuntary actions which would result in significant change in our share based compensation expense amounts in the future.

(f) Property, plant and equipment and Intangible Assets - Management reviews the estimated useful lives and residual values of the assets annually in order to determine the amount of depreciation to be recorded during any reporting period. The useful lives and residual values as per schedule II of the Companies Act, 2013 or are based on the Group's historical experience with similar assets and taking into account anticipated technological changes, whichever is more appropriate.

(g) Leases - The Group evaluates if an arrangement qualifies to be a lease as per IND AS 116.

- The Group determines lease term as a non-cancellable period of a lease, together with both the period covered by an option to extend the lease if the Company is reasonably certain to exercise lessee options.

- The determination of the incremental borrowing rate used to measure lease liabilities.

(h) Business Model assessment - Classification and measurement of financial assets depends on the results of the business model test. The Company determines the business model at a level that reflects how groups of financial assets are managed together to achieve a particular business objective. This

## Motilal Oswal Financial Services Limited

### Summary of significant accounting policies and other explanatory information

assessment includes judgement reflecting all relevant evidence including how the performance of the assets is evaluated and their performance measured, the risks that affect the performance of the assets and how these are managed and how the managers of the assets are compensated. The Company considers the frequency, volume and timing of sales in prior years, the reason for such sales, and its expectations about future sales activity. However, information about sales activity is not considered in isolation, but as part of a holistic assessment of how company's stated objective for managing the financial assets is achieved and how cash flows are realized. Therefore, the Company considers information about past sales in the context of the reasons for those sales, and the conditions that existed at that time as compared to current conditions.

Monitoring is part of the Company's continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and so a prospective change to the classification of those assets.

(i) De-recognition of financial instruments - In case of transfer of loans through securitisation and direct assignment transactions, the transferred loans are de-recognised and gains/losses are accounted for, only if the Company transfers substantially all risks and rewards specified in the underlying assigned loan contract. In accordance with the Ind AS 109, on de-recognition of a financial asset under assigned transactions, the difference between the carrying amount and the consideration received are recognised in the Statement of Profit and Loss.

\* Secured against securities given as collateral by the customers

1) Trade receivables are recognised initially at fair value and subsequently measured at amortised cost less loss allowances. The Group applies the Ind AS 109 simplified approach to measuring expected credit losses (ECLs) for trade receivables at an amount equal to lifetime ECLs. The ECLs on trade receivables are calculated based on actual historic credit loss experience over the preceding three to five years on the total balance of non-credit impaired trade receivables. The Group considers a trade receivable to be credit impaired when one or more detrimental events have occurred, such as significant financial difficulty of the client or it becoming probable that the client will enter bankruptcy or other financial reorganization. When a trade receivable is credit impaired, it is written off against trade receivables and the amount of the loss is recognised in the profit and loss statement. Subsequent recoveries of amounts previously written off are credited to the income statement. In line with the Group's historical experience, and after consideration of current credit exposures, the Group has recognised the ECL provision for the current year except for receivables outstanding for more than 90 days which are considered to be under significant increase in credit risk and full credit loss is booked.

2) No trade or other receivable are due from directors or other officers of the Group either severally or jointly with any other person. Nor any trade or other receivable are due from firms or private companies respectively in which any director is a partner, a director or a member.

3) Trade receivables in case of the Group includes Rs. 24,994 Lakhs (Previous year Rs. 24,994 Lakhs) receivable from National Spot Exchange Limited on behalf of customers and the same is also shown as Other Trade payable to customers at Rs. 24,575 Lakhs (Previous year Rs.24,575 Lakhs) which will become due only on receipt from National Spot Exchange Limited.

Pursuant to the Order dated 11 March 2022 passed by the Hon'ble National Company Law Tribunal, Mumbai Bench ("NCLT"), the Scheme of Arrangement between Passionate Investment Management Private Limited ("the Transferor Company 1" or "PIMPL") and MOPE Investment Advisors Private Limited ("the Transferee Company 2" or "the Demerged Company 1" or "the Transferor Company 3" or "MOPE") and Motilal Oswal Real Estate Investment Advisors Private Limited ("the Transferor Company 2" or "MORE") and Motilal Oswal Real Estate Investment Advisors II Private Limited ("the Demerged Company 2" or "the Transferor Company 4" or "MORE II") and MO Alternate Investment Advisors Private Limited ("the Resulting Company" or "MO Alternate") and Motilal Oswal Financial Services Limited ("the Transferee Company 1" or "the Holding Company of the Resulting Company" or "MOFSL") and their respective Shareholders (the Scheme) was made effective on March 30, 2022. Further, the Company had allotted new 18,68,445 equity shares to the shareholders of the transferor Companies on March 30, 2022. The said shares were pending as on 31 March 2022 for listing and were forming part of Public category. Subsequently it got listed on 17 May 2022.

Issued capital is net off of buyback of shares, shares acquired and cancelled in the scheme of arrangement and re-issuance of shares.

### 23.1 Terms/rights attached to shares

#### Equity shares :

The Company has one class of equity shares having a par value of Re. 1 each (previous year: having a par value of Re. 1 each). Each holder of equity shares is entitled to one vote per share. In the event of liquidation of the Company, the holder of the equity shares will be entitled to receive any of the remaining assets of the Company, after distribution of all the preferential amounts. However, no such preferential amounts exists currently. The distribution will be in proportion to the number of equity shares held by the shareholders. The Company declares and pays dividend in Indian rupees. The dividend proposed by the Board of Directors is subject to the approval of shareholders in the ensuing Annual General Meeting.

During the year ended 31 March 2023, dividend recognized as distribution to equity shareholders was Rs. 10.00 per share consisting of final dividend of Rs. 3.00 per share for previous year ended 31 March 2022 and interim dividend of Rs. 7 per share for year ended 31 March 2023. The total dividend appropriated amounts to Rs.14,823 lakhs (Previous Year: Rs.7,365 lakhs)

<b>Balance at the end of the reporting year</b>	<b>3,44,331</b>	<b>3,07,292</b>

**Note 24: Reserve & surplus- continued**

# As per Para 78 of scheme of arrangement, all costs, charges, taxes including duties, levies and all other expenses, if any (save as expressly otherwise agreed) arising out of or incurred in carrying out and implementing Part B of the Scheme and matters incidental thereto shall be borne by the Promoters of the Transferor Company 1 i.e. Passionate Investment Management Private Limited/Transferor Company 1 and no cost shall be incurred by public shareholders of the Transferee Company 1 i.e.; Motilal Oswal Financial Services Limited.

In line with above paragraph, Transferor Company 1 has created a provision for stamp duty payable of Rs 3,000 lakhs on the transfer of shareholding from PIMPL to its shareholders and simultaneously claiming Deferred tax benefit of Rs 755 lakhs thereon. The said expense has not been routed through Profit and Loss statement but utilized from reserves of PIMPL and corresponding FD has been created to give the effect. Thus there is no impact on the profit and loss account of the merged entity and is cashflow neutral to the shareholders of the transferor and transferee company with respect to the retrospective accounting.

Thus, Transferor Company 1 (PIMPL) has created sufficient Free Reserve pursuant to scheme of merger against which the Stamp duty net of taxes of Rs. 2,245 lakhs can be reduced to that extent.

**Other comprehensive income**

Balance at the beginning of the reporting year	32,396	30,338
Add : Other comprehensive income for the year	(3,514)	2,058
Less : Transfer to general reserve	(18,957)	-
Balance at the end of the reporting year	<u>9,925</u>	<u>32,396</u>
	<u>4,43,875</u>	<u>4,22,720</u>

**Capital Redemption reserve**

The capital redemption reserve is created to be utilised towards redemption of preference shares and it also includes addition arising on account of buyback of shares. The reserve will be utilised in accordance with provision of the Act.

**Capital reserve**

It has been created during the Business Combinations in earlier periods.

**Securities Premium**

Security premium account is used to record the premium received on issue of shares and it also includes transfer from ESOS reserve when the options are exercised. The reserve will be utilised in accordance with the provisions of the Act.

**Share based payment reserve**

Share based payment expense pertaining to outstanding portion of the option not yet exercised.

**General reserve**

The general reserve is used from time to time to transfer profits from retained earnings for appropriation purposes. As the general reserve is created by a transfer from one component of equity to another and is not an item of other comprehensive income, items included in the general reserve will not be reclassified subsequently to statement of profit and loss. General reserve is used to transfer to debenture redemption reserve.

**Statutory reserve**

These reserve represent the identity of reserves transferred on merger from PIMPL.

**Retained earnings**

Retained earnings represents surplus/accumulated earnings of the Company and are available for distribution to shareholders.

**Other comprehensive income**

Other comprehensive income consist of gain/(loss) of equity instruments carried through FVTOCI.

**Note 38: Contingent liability and commitment (to the extent not provided for)**

Particulars	As at	As at
	31 March 2023	31 March 2022
<b>Contingent liabilities:</b>		
(i) Guarantees / securities given (Refer note a)	3,23,380	1,28,258
(ii) Demand in respect of income tax matters for which appeal is pending (Refer note b)	1,920	2,982
(iii) Claim against the company (Refer note c)	992	725
<b>Capital &amp; other commitments:</b>		
(i) Estimated amount of contracts remaining to be executed on capital account (Net of advances)	4,406	2,123
(ii) Uncalled liability on shares and other investments partly paid:		
1) India Business Excellence Fund III	-	381
2) India Realty Excellence Fund IV	-	140
3) India Business Excellence Fund IV	270	450
4) India Realty Excellence Fund V	130	365

(a) Guarantees and securities given

The Company has provided bank guarantees aggregating to Rs 3,23,380 lakhs (Previous year :Rs 1,28,258 lakhs) as on 31 March 2023 for the following purposes to:

- National Stock exchange - Rs. 2,87,375 lakhs (Previous year : Rs.1,26,668 lakhs) for meeting margin requirements.
- NCDEX -Rs. 4,500 lakhs (Previous year: Nil) for meeting margin requirements.
- MCX - Rs. 30,000 lakhs (Previous year: Nil) for meeting margin requirements.
- Unique Identification Authority - Rs. Nil (Previous year: Rs.25 lakhs) for security deposit.
- Hindalco Industries Limited - Rs.1,500 lakhs (Previous year: Rs. 1,500 lakhs) for margin deposit.
- Municipal Corporation of Greater Mumbai - Rs. 5 lakhs (Previous year: Rs.5 lakhs) for security deposit.
- Bombay High Court - Rs. Nil (Previous year: Rs.55 lakhs) for security deposit.
- Bank of Maharashtra - Rs. Nil (Previous year: Rs.5 lakhs) for security deposit.

(b) Demand in respect of income tax matters for which appeal is pending is Rs.1,920 lakhs (Previous year: Rs.2,982 lakhs). This is disputed by the Company and hence not provided for in the books of accounts. The Company has paid demand by way of deposit (It doesn't include Income Tax refund adjusted against demand raised) of Rs.451 lakhs (Previous year Rs. 451 lakhs) till date. Above liability does not include interest u/s 234B and 234C as the same depends on the outcome of the demand

The Company is contesting the demands and the management believes that its position will likely be upheld in the appellant process. No tax expenses has been accrued in the financial statement for the tax demand raised. The management believes that ultimate outcome of this proceeding will not have a material adverse effect on the Company's financial position and results of operations.

(c) Claims against the Company:

Pending against forum	Number of cases as on 31	As at	Number of cases as on 31	As at

**Employees' Stock Options Scheme (ESOS) :**

Particulars	Scheme V	Scheme VI	Scheme VII	Scheme VIII	Scheme IX
Date of grant	Various Dates	Various Dates	Various Dates	Various Dates	Various Dates
Date of board approval	Various Dates	Various Dates	Various Dates	Various Dates	Various Dates
Date of Shareholder's approval	4 December 2007	8 July 2008	22 August 2014	27 July 2017	9-Aug-2021
Method of settlement	Equity shares	Equity shares	Equity shares	Equity shares	Equity Shares
Vesting period	1 year to 5 years	1 year to 5 years	1 year to 7 years	1 year to 4 years	1 Years to 6 Years
Weighted average remaining contractual life (Vesting period)					
Granted but not vested	3.59 years (Previous year 0 years)	4.62 years (Previous year 5.67 years)	4.58 years (Previous year 5.67 years)	4.27 years (Previous year 4.75 years)	2.25 years (Previous year 0.13 years)
Vested but not exercised	0.75 years (Previous year 0 years)	1 years (Previous year 1.62 years)	0.41 years (Previous year 1.14 years)	0.79 years (Previous year 0.35 years)	0.02 years (Previous year 0 years)
Weighted average share price at the date of exercise for stock options exercised during the year	Rs. 777.40 (Previous year Rs. 539.43)	NA (Previous year Rs. 572.3)	Rs. 746.87 (Previous year Rs.555.35)	Rs. 742.04 (Previous year Rs. 557.96)	Rs. 662.04 (Previous year. NA)
Exercise period	Within 1 to 3 years of vesting of options				
Vesting conditions	Vesting of options would be subject to continued employment with the Company and/or its subsidiary and thus the options would vest on passage of time. In addition to this, the Remuneration/ Compensation Committee may also specify certain performance parameters subject to which the options would vest. In case of performance based vesting, the options would vest on achievement of performance parameters irrespective of the time horizon.				
Weighted Average Fair Value of options (granted but not vested) as on grant date	Rs. 351.13 (Previous year Rs. Nil)	Rs. 240.45 (Previous year Rs. 196.08)	Rs. 244.72 (Previous year Rs. 195.83)	Rs. 257.82 (Previous year Rs. 250.22)	Rs. 382.12 (Previous year Rs. 776.71)

**Fair Value Methodology:**

The fair value of options have been estimated on the date of grant using Black-Scholes model as under:

The key assumptions used in Black-Scholes model for calculating fair value are as under:

Particulars	Scheme V	Scheme VI	Scheme VII	Scheme VIII	Scheme IX
Range of Risk free interest rate	6.05% - 7.8%	5.63% - 7.8%	5.63% - 8.04%	6.18% - 7.72%	5.63% - 7.38%
Dividend yield	1%	1%	1%	0.5% - 1.38%	0.5% - 1.38%
Expected volatility	40%	40%	40%	40%	40%

**Exercise Pricing Formula**

**Scheme V**

Exercise price shall be the closing price of the Company's equity shares quoted on the BSE immediately preceding the date of Grant of the Stock Options, which for this purpose shall be the date on which the Committee grant the Stock Options, discounted by such percentage as may be determined by the Committee in the best interest of the various stakeholders in the prevailing market conditions

**Scheme VI**

Exercise price shall be the closing price of the Company's Equity Shares, prior to the date of grant of the Options, on the Stock Exchanges where the highest trading volume is recorded, discounted/increased by such percentage as may be determined by the Committee.

**Scheme VII**

Exercise price shall be the closing price of the Company's Equity Shares, prior to the date of grant of the Options, on the Stock Exchanges where the highest trading volume is recorded, discounted/increased by such percentage as may be determined by the Committee.

**Scheme VIII**

Exercise price shall be the closing price of the Company's Equity Shares, prior to the date of grant of the Options, on the Stock Exchanges where the highest trading volume is recorded, discounted/increased by such percentage as may be determined by the Committee.

**Scheme IX**

Exercise price shall be the closing price of the Company's Equity Shares, prior to the date of grant of the Options, on the Stock Exchanges where the highest trading volume is recorded, discounted/increased by such percentage as may be determined by the Committee.

**Other Information regarding employee share based payment plan is as below :**

Particulars	For the year ended 31 March 2023	For the year ended 31 March 2022
Expense arising from employee share based payment plans	1,119	1,264
Total carrying amount at the end of the period of Share based payment reserve	8,816	6,250

The Company provides a sensitivity analysis to show the impact to the Company's profit before taxation in the event that forfeiture and performance condition assumptions exceed or are below the Company's estimations by the stated percentages.

Impact on the income statement on account of change in the assumption on estimate of exercising of options.	For the year ended 31 March 2023	For the year ended 31 March 2022
(+)5%	(171)	(222)
(-)5%	171	222

**Note 53: Tax Expense**

The Company pays taxes according to the rates applicable in India. Most taxes are recorded in the income statement and relate to taxes payable for the reporting period (current tax), but there is also a charge or credit relating to tax payable for future periods due to income or expenses being recognised in a different period for tax and accounting purposes (deferred tax). Tax is charged to equity when the tax benefit exceeds the cumulative income statement expense on share plans. The Company provides for current tax according to the tax laws of India using tax rates that have been enacted or substantively enacted by the balance sheet date. Management periodically evaluates positions taken in tax returns in respect of situations in which applicable tax regulation is subject to interpretation. It establishes provisions, where appropriate, on the basis of amounts expected to be paid to the tax authorities. Deferred tax is provided, using the liability method, on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes. Deferred tax is recognised in respect of all temporary differences that have originated but not reversed at the balance sheet date, where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the balance sheet date. A deferred tax asset is recognised when it is considered recoverable and therefore recognised only when, on the basis of all available evidence, it can be regarded as probable that there will be suitable taxable profits against which to recover carried forward tax losses and from which the future reversal of underlying temporary differences can be deducted. Deferred tax is measured at the average tax rates that are expected to apply in the periods in which the temporary differences are expected to reverse, based on tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Level 1: The fair value of financial instruments traded in active markets (such as publicly traded derivatives, and equity securities) is based on quoted market prices at the end of the reporting period. The quoted market price used for financial assets held by the group is the current bid price. These instruments are included in level 1.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities and investment in private equity funds, real estate funds.

**II. Valuation techniques used to determine fair value**

Specific valuation techniques used to value financial instruments include :

- Quoted equity investments - Quoted closing price on stock exchange
- Mutual fund - net asset value of the scheme
- Alternative investment funds - net asset value of the scheme
- Unquoted equity investments - price multiples of comparable companies.
- Private equity investment fund - NAV of the audited financials of the funds.
- Real estate fund - net asset value, based on the independent valuation report or financial statements of the company income approach or market approach based on the independent valuation report.

**III. Financial instruments not measured at fair value**

Financial assets not measured at fair value includes cash and cash equivalents, trade receivables, loans and other financial assets. These are financial assets whose carrying amounts approximate fair value, due to their short-term nature.

Additionally, financial liabilities such as trade payables and other financial liabilities are not measured at FVTPL, whose carrying amounts approximate fair value, because of their short-term nature.

Fair value measurements using significant unobservable inputs (level 3)

The following table presents the changes in level 3 items for the year ended 31 March 2023 and 31 March 2022:

Particulars	PE - Business Excellence Funds	PE - Real Estate Funds	Unquoted Shares	Total
As at March 31, 2021	39,696	14,312	5,864	59,872
Additions	1,867	231	9,996	12,094
Disposals	(433)	(3,736)	-	(4,169)
Gains/(losses) recognised in statement of profit and loss	1,960	294	934	3,188
As at March 31, 2022	43,090	11,101	16,794	70,985
Additions	561	393	150	1,104
Disposals	(786)	(1,965)	(295)	(3,046)
Gains/(losses) recognised in statement of profit and loss	1,640	132	(2,671)	(899)
Ag at March 31, 2023	44,505	9,661	13,978	68,144

Valuation inputs and relationships to fair value

The quantitative information about the significant unobservable inputs used in level 3 fair value measurements is summarised below.

Particulars	As at March 31 2023	As at March 31 2022
Fair value of PE funds	54,166	54,191
<b>Significant unobservable inputs</b>		
NAV of the fund at Fair value		
- increase by 100 bps	542	542
- decrease by 100 bps	(542)	(542)
Fair value of Unquoted shares	13,978	16,794
<b>Significant unobservable inputs</b>		
Price Multiple		
- increase by 10 %	1,398	1,679
- decrease by 10 %	(1,398)	(1,679)

*This space is intentionally kept blank*

**Note 55: Financial risk management**

Company has operations in India. Whilst risk is inherent in the Company's activities, it is managed through an integrated risk management framework, including on-going identification, measurement and monitoring, subject to risk limits and other controls. This process of risk management is critical to the Company's continuing profitability and each individual within the Company is accountable for the risk exposures relating to his or her responsibilities. The Company is exposed to credit risk, liquidity risk and market risk. It is also subject to various operating and business risks.

**A. Credit risk**

Credit risk is the risk that the Company will incur a loss because its customers or counterparties fail to discharge their contractual obligation. The Company manages and controls credit risk by setting limits on the amount of risk it is willing to accept for individual counterparties, and by monitoring exposures in relations to such limits.

The maximum exposure to credit risk for each class of financial instruments is the carrying amount of that class of financial instruments presented in the financial statements. The Company's major classes of financial assets are cash and cash equivalents, loans, investment in mutual fund units, term deposits, trade receivables and security deposits.

Deposits with banks are considered to have negligible risk or nil risk, as they are maintained with high rated banks/financial institutions as approved by the Board of directors.

Investments primarily include investment in liquid mutual fund units that are marketable securities of eligible financial institutions for a specified time period with high credit rating given by domestic credit rating agencies.

The management has established accounts receivable policy under which customer accounts are regularly monitored. The Company has a dedicated risk management team, which monitors the positions, exposures and margins on a continuous basis.

Following provides exposure to credit risk for trade receivables and margin trading facility loans

	As at 31 March 2023	As at 31 March 2022
Trade Receivables (Net of impairment)	66,918	66,621
Margin trading facility loans (Net of impairment)	1,32,872	88,318

The financial instruments covered within the scope of ECL include financial assets measured at amortised cost such as trade receivables and loans.

**Trade Receivables :**

The loss allowance has been measured using lifetime ECL except for financial assets on which there has been no significant increase in credit risk since initial recognition. At each reporting date, the Company assesses whether financial assets carried at amortised cost is credit-impaired. A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred since initial recognition.

A simplified approach has been considered for measuring expected credit losses (ECLs) of trade receivables at an amount equal to lifetime ECLs. The ECLs on trade receivables are calculated based on actual historic credit loss experience over the preceding three to five years on the total balance of trade receivables. For the purpose of computation of ECL, the term default implies an event where amount due towards margin requirement and / or mark to market losses for which the client was unable to provide funds / collaterals to bridge the shortfall, the same is termed as margin call triggered.

Based on the Industry practices and business environment in which the entity operates, Management considers unsecured receivables as default if the payment is overdue for more than 90 days for direct customer. For franchisee customers, Aggregate of unsecured receivables as reduced by Franchisee deposit/ future brokerages are considered as default. Management would also consider balance in client's family accounts and collaterals in form other than the securities while considering the secured position of the client. Management would also consider impairment on client balance which are unsecured and overdue for less than 90 days on case to case basis, based on their scope of recoverability. For litigation cases, management could provide enhanced provision if the probability of outflow of economic resource is higher. If there are specific cases which are overdue for more than 90 days and the management is very confident of its recovery in near future, impairment loss would not be provided for such cases based on the approval of business head for each reporting period. Probability of default (PD) on these receivables is considered at 100% and treated as credit impaired.

**Loans :**

Loans includes Margin Trading Facility(MTF), Loans to staff and loans to subsidiaries for which staged approach is taken into consideration for determination of ECL.

**Stage 1.**

All positions in the MTF loan book are considered as stage 1 asset for computation of expected credit loss. For exposures where there has not been a significant increase in credit risk since initial recognition and that is not credit impaired upon origination. Margin trading facility, Loans to subsidiaries and loans to staff are considered in stage 1 for determination of ECL. Exposure to credit risk in stage 1 is computed considering historical probability of default, market movements and macro-economic environment.

**Motilal Oswal Financial Services Limited**  
**Notes to Standalone Financial Statements**  
(All amounts are in INR Lakhs, unless otherwise stated)

**Stage 2.**

Exposures under stage 2 include overdues up to 90 days pertaining to principal amount, interest and any other charges on the MTF loan book which are unsecured. While arriving at the secured position of the client, management would also consider balance in client's family accounts, securities in other segment and collaterals in form other than the securities while considering the secured position of the client. At each reporting date, the Company assesses whether there has been a significant increase in credit risk for financial assets since initial recognition. In determining whether credit risk has increased significantly since initial recognition, the Company uses days past due information and other qualitative factors to assess deterioration in credit quality of a financial asset.

For credit exposures where there has been a significant increase in credit risk since initial recognition but that are not credit impaired, a lifetime ECL is recognised.

**Stage 3.**

Exposures under stage 3 include overdues past 90 days pertaining to principal amount, interest and any other charges on MTF loan book which are unsecured.

Financial assets are assessed as credit impaired when one or more events that have a detrimental impact on the estimated future cash flows of the asset have occurred. For financial assets that have become credit impaired, a lifetime ECL is recognised.

Following table provide information about exposure to credit risk and ECL on Margin Trading Facility loans.

Stage	As at 31 March 2023		As at 31 March 2022	
	Carrying value	ECL	Carrying value	ECL
Stage 1	1,32,782	550	88,462	239
Stage 2	-	-	-	-
Stage 3	-	-	-	-

The movement in the allowance for impairment in respect of trade receivables is as follows

Particulars	Carrying amount	Carrying amount
	As at 31 March 2023	As at 31 March 2022
Opening balance	2,343	1,612
Impairment loss recognised	126	731
Closing balance	2,469	2,343

**B. Liquidity risk**

Liquidity risk is the risk that the entity will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The entity's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the entity's reputation.

Prudent liquidity risk management requires sufficient cash and marketable securities and availability of funds through adequate committed credit facilities to meet obligations when due and to close out market positions.

The Company has a view of maintaining liquidity with minimal risks while making investments. The Company invests its surplus funds in short term liquid assets in bank deposits and liquid mutual funds. The Company monitors its cash and bank balances periodically in view of its short term obligations associated with its financial liabilities.

Refer Note 57 For analysis of maturities of financial assets and financial liabilities.

**C. Market Risk**

Market risk is the risk that the fair value or future Cash flows of a financial instrument will fluctuate because of changes in market prices. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

**(i) Foreign currency risk**

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates.

**Foreign currency risk management**

In respect of the foreign currency transactions, the company does not hedge the exposures since the management believes that the same is insignificant in nature and will not have a material impact on the Company.

The company's exposure to foreign currency risk at the end of reporting period is shown in note 49

**Motilal Oswal Financial Services Limited**  
**Notes to Standalone Financial Statements**  
(All amounts are in INR Lakhs, unless otherwise stated)

**(ii) Interest rate risk**

The Company is exposed to Interest risk if the fair value or future cash flows of its financial instruments will fluctuate as a result of changes in market interest rates. Fair value interest rate risk is the risk of changes in fair values of fixed interest bearing investments because of fluctuations in the interest rates.

The Company's interest rate risk arises from interest bearing deposits with bank and loans given to customers. Such instruments exposes the Company to fair value interest rate risk. Management believe that the interest rate risk attached to this financial assets are not significant due to the nature of this financial assets.

**Interest rate risk exposure**

The exposure of the Company's borrowing to interest rate changes at the end of the reporting period are as follows:

Particulars	As at 31 March 2023	As at 31 March 2022
<b>Loans:</b>		
Loans	1,32,872	88,318
<b>Total Loans</b>	<b>1,32,872</b>	<b>88,318</b>
<b>Borrowings:</b>		
Variable rate borrowing	99,387	28,296
Fixed rate borrowing	2,74,163	1,88,797
<b>Total Borrowing</b>	<b>3,73,550</b>	<b>2,17,093</b>

**Sensitivity**

Profit or loss is sensitive to higher/lower interest expense from borrowings as a result of changes in interest rates.

The following table demonstrates the sensitivity to a reasonably possible change in interest rates (all other variables being constant) of the Company's statement of profit and loss and equity.

Particulars	Impact on profit after tax	
	31 March 2023	31 March 2022
<b>Loans:</b>		
Interest rates – increase by 1%	1,329	883
Interest rates – decrease by 1%	(1,329)	(883)
<b>Borrowings:</b>		
Interest rates – increase by 1%	(735)	(209)
Interest rates – decrease by 1%	735	209

**(iii) Market price risks**

The Company is exposed to market price risk, which arises from FVTPL and FVOCI investments. The management monitors the proportion of these investments in its investment portfolio based on market indices. Material investments within the portfolio are managed on an individual basis and all buy and sell decisions are approved by the appropriate authority.

Particulars	As at 31 March 2023	As at 31 March 2022
Exposure to price risk	2,35,796	2,60,219

**Sensitivity to price risk**

The following table summarises the impact of sensitivity of NAVs / price with all other variables held constant. The below impact on the Company's profit before tax is based on changes in the NAVs / price of the investments held at FVTPL/FVOCI at balance sheet date:

Sensitivity	As at March 31 2023	As at March 31 2022
Impact on profit before tax for 10% increase in NAV/price	23,580	26,022
Impact on profit before tax for 10% decrease in NAV/price	(23,580)	(26,022)

**Motilal Oswal Financial Services Limited**  
**Notes to Standalone Financial Statements**

(All amounts are in INR Lakhs, unless otherwise stated)

**Note 58: Revenue from contract with customers**

The Company derives revenue primarily from the share broking business. Its other major revenue sources are the Portfolio management fees and commission income and Interest income.

**Disaggregate revenue information**

The table below presents disaggregate revenues from contracts with customers for the year ended 31 March 2023 and 31 March 2022. The Company believes that this disaggregation best depicts how the nature, amount, timing and uncertainty of revenue and cash flows are affected by market and other economic factors.

**Nature of Services**

- (a) Broking Income - Income from services rendered as a broker is recognised upon rendering of the services, in accordance with the terms of contract.
- (b) Portfolio management fees and commission income - Fees for subscription based services are received periodically but are recognised as earned on a pro-rata basis over the term of the contract. Commissions from distribution of financial products are recognised upon allotment of the securities to the applicant or as the case may be. Commissions and fees recognised as aforesaid are exclusive of goods and service tax, securities transaction tax, stamp duties and other levies by SEBI and stock exchanges.
- (c) Interest Income - Interest is earned on delayed payments from clients and amounts funded to them as well as term deposits with banks. Interest income is recognised on a time proportion basis taking into account the amount outstanding from customers or on the financial instrument and the rate applicable.
- (d) Depository Income - Income from services rendered on behalf of depository is recognised upon rendering of the services, in accordance with the terms of contract.

**2. Disaggregate revenue information**

Particulars	For the year ended 31 March 2023	For the year ended 31 March 2022
Operating segment :		
Brokerage income	1,67,485	1,58,070
Portfolio management fees and commission income	18,449	18,605
Interest income	47,291	33,145
Depository income	7,099	6,527

**Nature, timing of satisfaction of the performance obligation and significant payment term:**

- (i) Income from services rendered as a broker is recognised upon rendering of the services.
- (ii) Fees for subscription based services are received periodically but are recognised as earned on a pro-rata basis over the term of the contract.
- (iii) Commissions from distribution of financial products are recognised upon allotment of the securities to the applicant or as the case may be, on issue of the insurance policy to the applicant.
- (iv) Interest is earned on delayed payments from clients and amounts funded to them as well as term deposits with banks.
- (v) Interest income is recognised on a time proportion basis taking into account the amount outstanding from customers or on the financial instrument and the rate applicable.
- (vi) Income from services rendered on behalf of depository is recognised upon rendering of the services, in accordance with the terms of contract.

The above services are point in time in nature, and no performance obligation remains once the transaction is executed.

Fees for subscription based services are received periodically but are recognised as earned on a pro-rata basis over the term of the contract, and are over the period in nature.

**Note 60 : Business Combinations**

**Compliance with approved Scheme of Arrangements**

The Board of Directors of the Company at its Meeting held on 24 December 2020 has, inter-alia, subject to approval of shareholders of the Company and other applicable statutory and regulatory approvals including the approval of Hon'ble National Company Law Tribunal, Mumbai Bench ("NCLT"), approved the Scheme of Arrangement between Passionate Investment Management Private Limited (Ultimate Holding Company of Motilal Oswal Financial Services Limited) ("the Transferor Company 1") and MOPE Investment Advisors Private Limited ("the Transferee Company 2" or "the Demerged Company 1" or "the Transferor Company 3") and Motilal Oswal Real Estate Investment Advisors Private Limited ("the Transferor Company 2") and Motilal Oswal Real Estate Investment Advisors II Private Limited ("the Demerged Company 2" or "the Transferor Company 4") and MO Alternate Investment Advisors Private Limited (erstwhile Motilal Oswal Fincap Private Limited) ("the Resulting Company") and Motilal Oswal Financial Services Limited ("the Transferee Company 1" or "the Holding Company of the Resulting Company" or "the Company") and their respective shareholders ("the Scheme") under Sections 230-232 of the Companies Act, 2013. Further, pursuant to the provisions of Regulation 37 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, the Company has received No Objection Certificate from Stock Exchanges and the Company has filed an application with Hon'ble NCLT. Pursuant to the directions issued by Hon'ble NCLT, the Meeting of equity shareholders was scheduled on 16 December 2021 and the Scheme was approved by shareholders with requisite majority. Consequently, the Hon'ble NCLT approved the Scheme of Arrangement vide order dated 11 March 2022. The effect of the said Scheme was given on 30 March 2022 from the appointed date of 01 April 2020 by restating the financial statement for the year ended 31 March 2021.

(b) The accounting treatment of the said Scheme given in the books of accounts is in accordance with the Scheme and in conformity with the accounting standards prescribed under section 133 of the Companies Act, 2013. Further, figures for the year ended 31 March 2021 as shown above are the restated figures based on the audited accounts of the Transferor, Transferee and Resulting Company.

**Accounting treatment given in the books for the Scheme:**

**1. Amalgamation And Vesting Of Assets And Liabilities And Entire Business Of The Transferor Company 1**

1.1 The Transferee Company 1 shall give effect to the amalgamation in its books of accounts as per the applicable accounting principles prescribed under the Companies (Indian Accounting Standards) Rules, 2015 (Ind AS) notified under Section 133 of the Companies Act, 2013, as may be amended from time to time and on the date determined in accordance with applicable Ind AS.

1.2 Upon effectiveness of the Scheme, the net assets of the Transferor Company 1 (excluding shares of the Transferee Company 1 held by the Transferor Company 1 which shall get cancelled) will be reflected at fair value as at the Effective Date.

1.3 The inter-company deposits/ inter-company loans and advances, if any, in the books of accounts of the Transferee Company 1 and the Transferor Company 1 shall stand cancelled as at the Effective Date.

1.4 The difference, if any, being excess or deficit arising pursuant to the amalgamation, after giving effect to the above adjustments, shall be accounted based on generally adopted accounting principles under Ind AS.

1.5 The Transferee Company 1 shall without any application or deed, issue and allot equity shares of face value of Re. 1/- each, credited as fully paid up, to the extent indicated below, to the equity shareholders holding fully paid up equity shares of the Transferor Company 1 and whose name appear in the register of members of the Transferor Company 1 on the Record Date or to such of their respective heirs, executors, administrators or other legal representatives or other successors in title as may be recognized by the Board of Directors of the Transferor Company 1/ the Transferee Company 1.

**Motilal Oswal Financial Services Limited**  
**Notes to Standalone Financial Statements**  
(All amounts are in INR Lakhs, unless otherwise stated)

**Note 60 : Business Combinations**

**2. Amalgamation And Vesting Of Assets And Liabilities And Entire Business Of The Transferor Company 2**

The Transferee Company 2 shall account for the amalgamation in its books/ financial statements as per "Pooling of Interests Method" under Appendix C of "Indian Accounting Standard (Ind-AS)" 103, Business Combinations and any other relevant Ind AS notified under the Companies (Indian Accounting Standards) Rules, 2015, as amended from time to time including as provided herein below:

2.1 The Transferee Company 2 shall record the assets and liabilities of the Transferor Company 2, transferred to and vested in it at their respective carrying values as appearing in the books of the Transferor Company 2 in accordance with Para 9(iii) of Appendix C of Ind AS 103.

2.2 The Transferee Company 2 shall preserve the identity of the reserves of the Transferor Company 2 transferred to and vested in it and shall record in its books in the same form in which they appear in the books of the Transferor Company 2 and it shall be aggregated with the corresponding balance appearing in the financial statements of the Transferee Company 2.

2.3 The shares held by the Transferee Company 2 in the Transferor Company 2 on the Effective Date shall be cancelled.

2.4 Loans and advances, receivables, payables and other dues outstanding between the Transferor Company 2 and the Transferee Company 2 will stand cancelled and there shall be no further obligation / outstanding in that behalf.

2.5 The difference between the net assets transferred to the Transferee Company 2 pursuant to Clause 2.1 as reduced by Reserves recorded in the Transferee Company 2 pursuant to Clause 2.2 and after giving effect Clause 2.3 and 2.4, the difference shall be adjusted against Capital Reserve of the Transferee Company 2.

2.6 In case of any difference in accounting policy between the Transferor Company 2 and the Transferee Company 2, the accounting policies followed by the Transferee Company 2 shall prevail and the difference till the Appointed Date will be quantified and adjusted as per Ind AS, to ensure that the financial statements of Transferee Company 2 reflects the financial position on the basis of consistent accounting policy.

2.7 The Transferor Company 2 is a wholly owned subsidiary of the Transferee Company 2 and therefore on amalgamation of the Transferor Company 2 into the Transferee Company 2 there shall be no issue of shares by the Transferee Company 2 in this regard as consideration.

**3. Demerger of The Fund Management Undertaking 1 From The Demerged Company 1 Into The Resulting Company**

3.1 The Demerged Company 1 shall account for the Scheme from the Appointed Date in its books/ financial statements upon receipt of all relevant/ requisite approvals for the Scheme, in accordance with applicable Indian Accounting Standards (Ind-AS) notified under the Companies (Indian Accounting Standards) Rules, 2015, as amended from time to time including as provided herein below:

Accounting treatment in the books of the Demerged Company 1

3.1.1 The Demerged Company 1 shall reduce the carrying value of assets and liabilities pertaining to the Fund Management Undertaking 1, transferred to and vested in the Resulting Company from the carrying value of assets and liabilities as appearing in its books.

3.1.2 Loans and advances, receivables, payables and other dues outstanding between the Demerged Company 1 and the Resulting Company relating to the Fund Management Undertaking 1 will stand cancelled and there shall be no further obligation / outstanding in that behalf.

3.1.3 The Demerged Company 1, as on the Appointed Date, shall transfer the balances of all the reserves to the Resulting Company, in the proportion of the net assets transferred to the Resulting Company and the net assets retained by the Demerged Company 1 ("Transferred Reserves").

3.1.4 The difference, being the excess of carrying value of assets over the carrying value of liabilities transferred pursuant to Clause 3.1.1 and after giving effect to clause 3.1.2 and clause 3.1.3 above shall be adjusted to the other equity of the Demerged Company 1.

Accounting treatment in the books of the Holding Company of the Resulting Company

3.1.5 The Holding Company of the Resulting Company shall credit its share capital with the aggregate face value of the equity shares issued and corresponding debit shall be made to Investment in Resulting Company Account.

**b. Amendments in prevailing standards but not effective**

Ministry of Corporate Affairs (MCA) notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 31, 2023, MCA amended the Companies (Indian Accounting Standards) Rules, 2015. The effective date for adoption of these amendments is annual period beginning on or after April 1, 2023. The significant amendments are as below.

**(i) Ind AS 1 - Presentation of Financial Statements**

This amendment requires the entities to disclose their material accounting policies rather than their significant accounting policies. The Company has evaluated the amendment and the impact of the amendment is insignificant on its financial statements.

**(ii) Ind AS 8 - Accounting Policies, Changes in Accounting Estimates and Errors**

This amendment has introduced a definition of 'accounting estimates' and included amendments to Ind AS 8 to help entities distinguish changes in accounting policies from changes in accounting estimates. The Company has evaluated the amendment and the impact of the amendment is insignificant on its financial statements.

**(iii) Ind AS 12 - Income Taxes**

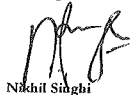

This amendment has narrowed the scope of the initial recognition exemption so that it does not apply to transactions that give rise to equal and offsetting temporary differences. The Company has evaluated the amendment and the impact of the amendment is insignificant on its financial statements.

**Note 71:** The amounts reflected as "0" in the financial information are values with less than rupees fifty thousands.

**Note 72:** Previous year figures have been regrouped/reclassified wherever necessary.

## INDEPENDENT AUDITOR'S REPORT

To

The Members of **Motilal Oswal Financial Services Limited**

Report on the Audit of the Standalone Financial Statements

### 1. Opinion

We have audited the accompanying standalone financial statements of **Motilal Oswal Financial Services Limited** (the "Company"), which comprise the Balance Sheet as at March 31, 2023, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Cash Flows and Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2023, and its profit, total comprehensive income, its cash flows and the changes in equity for the year ended on that date.

### 2. Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act ('SA's). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the Financial Statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the standalone financial statements.

### 3. Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current year. These matters were addressed in the context of our audit of the Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Sr. No.	Key audit matters	How our audit addressed the key audit matter
1.	<p><b>Information Technology (IT) Systems and Controls</b></p> <p>The Company's key financial accounting and reporting processes are highly dependent on the automated controls over the Company's information systems, such that there exists a risk, that gaps in the IT general control environment could result in a misstatement of the financial accounting and reporting records. Accordingly, we have considered user access management, segregation of duties and controls over system change over key financial accounting and reporting systems, as a key audit matter.</p>	<p><b>Our Audit Approach:</b></p> <p>With the help of our IT specialists, we obtained an understanding of the Company's IT applications, databases and operating systems relevant to financial reporting and the control environment. Our audit approach was a combination of test of internal controls and substantive procedures which included the following:</p> <p><b>General IT controls design, observation and operation:</b></p> <ul style="list-style-type: none"> <li>➤ Tested key controls operating over the information technology in relation to financial accounting and reporting systems, including system access and system change management, program development and computer operations.</li> </ul> <p><b>User access controls operation:</b></p> <ul style="list-style-type: none"> <li>➤ Obtained management's evaluation of the access rights granted to applications relevant to financial accounting and reporting systems and tested resolution of a sample of expectations.</li> <li>➤ Further, we assessed the operating effectiveness of controls over granting, removal and appropriateness of access rights.</li> </ul> <p><b>Application controls:</b></p> <ul style="list-style-type: none"> <li>➤ We tested the design and operating effectiveness of automated controls critical to financial accounting and reporting.</li> <li>➤ For any identified deficiencies, tested the design and operating effectiveness of compensating controls and where necessary, extended the scope of our substantive audit procedure.</li> </ul>
2.	<p><b>Valuation of equity investments carried at fair value</b></p> <p>Refer note 2.6 for significant accounting policies and note 54 for financial disclosures</p>	<p>Our audit procedures in relation to valuation of investment with the involvement of our valuation experts included, but were not limited to, the following:</p>

Sr. No.	Key audit matters	How our audit addressed the key audit matter
	<p>As at March 31, 2023, the Company held investments in –</p> <p>i) Shubham Housing Development Finance Company Private Limited whose carrying amount is of Rs. 73.8 crores which represents 0.53 % of the total assets of the Company.</p> <p>ii) Bundl Technologies Private Limited whose carrying amount is of Rs. 64.48 crores which represents 0.46 % of the total assets of the Company.</p> <p>These investments are not traded in the active market. The fair valuation of these investments are determined by a management appointed independent valuation expert. The process of computation of fair valuation of investment includes use of unobservable inputs and management judgements and estimates which are complex.</p> <p>The valuation of these investments were considered to be one of the areas which required significant auditor attention on and was one of the matters of most significance in the standalone financial statements due to the materiality of total value of investments to the standalone financial statements and the complexity involved in the valuation of these investments.</p>	<p><b>Design/Controls:</b></p> <ul style="list-style-type: none"> <li>➤ Obtained a detailed understanding of the management's process and controls for determining the fair valuation of this investment. The understanding was obtained by performance of walkthroughs which included inspection of documents produced by the Company and discussion with those involved in the process of valuation;</li> <li>➤ Evaluated the design and the operational effectiveness of relevant key controls over the valuation process, including the Company's review and approval of the estimates and assumptions used for the valuation including key authorization and data input controls, independent price verification performed by the management expert and model governance and valuation.</li> </ul> <p><b>Substantive tests:</b></p> <ul style="list-style-type: none"> <li>➤ Assessed the appropriateness of the valuation methodology used for these investments in accordance with the Company's policy and tested the mathematical accuracy of the management's model adopted;</li> <li>➤ Obtained the valuation report from management's expert and assessed the expert's competence, objectivity and independence in performing the valuation of these investments;</li> <li>➤ Assessed the appropriateness of the valuation model used by the management and the assumptions used relating to projected cash flows and the discounting factor.</li> <li>➤ Ensured the appropriateness of the carrying value of these investments in the financial statements and the gain or loss recognised in the financial statements as a result of such fair valuation; and</li> </ul>

Sr. No.	Key audit matters	How our audit addressed the key audit matter
		➤ Ensured the appropriateness and adequacy of disclosures in accordance with the applicable accounting standards.

**4. Information other than the Financial Statements and Auditor’s Report thereon**

The Company’s Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Report on Corporate Governance (but does not include the Financial Statements and our auditor’s report thereon) which we obtained prior to the date of this auditor’s report and Board’s Report, Management Discussion and Analysis and Business Responsibility and Sustainability Report, which is expected to be made available to us after that date.

Our opinion on the Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the Financial Statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor’s report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

When we read the other information included in the above reports, if we conclude that there is material misstatement therein, we are required to communicate the matter to those charged with governance and determine the actions under the applicable laws and regulations.

**5. Responsibilities of Management and those Charged with Governance for the Standalone Financial Statements**

The Company’s Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India, including the accounting standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company’s ability to continue as a going concern, disclosing, as applicable, matters related to

going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

## 6. Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Standards on auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- i. Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ii. Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- iii. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- iv. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Company to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- v. Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of the misstatement in the statement that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user

of the statement may be influenced. We consider quantitative materiality and qualitative factors in; (i) planning the scope of our audit work and evaluating the results of our work; and (ii) to evaluate the effects of any identified misstatements in the financial statement.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of standalone financial statements for the financial year ended March 31, 2023 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

## 7. Other Matters

Share of profit from investment in a limited liability partnership aggregating to Rs. 196 lakhs for the year ended March 31, 2023, included in the Statement, is based on the audited financial statements of such entity. These financial statements have been furnished to us by the Management and our opinion on the Statement, in so far as it relates to the amounts and disclosures included in respect of this entity, is based solely on the report of the other auditor.

Our opinion is not modified in respect of the above matter.

## 8. Report on Other Legal and Regulatory Requirements

- i. As required by the Companies (Auditor's report) Order, 2020 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.
- ii. As required by section 143 (3) of the Act, based on our audit we report that:
  - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
  - b. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
  - c. The standalone Balance Sheet, Statement of Profit and Loss including Other Comprehensive Income, the Statement of Cash Flow and Statement of Changes in Equity dealt with by this report are in agreement with the relevant books of account.
  - d. In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended;

- e. On the basis of written representations received from the directors as on March 31, 2023, taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2023, from being appointed as a director in terms of section 164 (2) of the Act.
- f. With respect to the adequacy of the internal financial controls with reference to the financial statements of the Company and the operating effectiveness of such controls, we request you to refer to our separate Report in "Annexure B" to this report. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls with reference to financial statements.
- g. With respect to the requirements of section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us the managerial remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.
- h. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
  - i. The Company has disclosed the impact of pending litigations on the financial position in its financial statements – Refer Note 38 to the financial statements;
  - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;
  - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company during the year ended March 31, 2023;
  - iv. (a) The Management has represented that to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.;  
  
(b) The Management has represented that to the best of its knowledge and belief, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.  
  
(c) Based on audit procedures that have been considered reasonable and appropriate in the circumstances; nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.

# *Singhi & Co.*

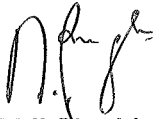

Chartered Accountants

- v. As stated in note 23 of the standalone financial statement, the dividend declared / paid during the year and declared during the year but paid subsequent to the year-end by the Company till the date of this report, is in compliance with Section 123 of the Act. Further, as stated in note 49 of the standalone financial statement the Board of Directors of the Company have proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The amount of dividend proposed is in accordance with section 123 of the Act.
- vi. Proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 for maintaining books of account using accounting software which has a feature of recording audit trail (edit log) facility is applicable to the Company w.e.f. April 1, 2023, and accordingly, reporting under Rule 11(g) of Companies (Audit and Auditors) Rules, 2014 is not applicable for the financial year ended March 31, 2023.

**Annexure A to the Independent Auditor's Report of even date on the standalone financial statements of Motilal Oswal Financial Services Limited**

**Referred to in paragraph [8(i)] under Report on Other Legal and Regulatory Requirements of our report of even date**

According to the information and explanations sought by us and given by the Company and the books of account and records examined by us in the normal course of audit and to the best of our knowledge and belief, we state that:

- (i) a) A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment and relevant details of Right-of-use Assets.
- B) The Company has maintained proper records showing full particulars of Intangible Assets.
- b) The Company has a program of physical verification of property, plant and equipment whereby all the items of property, plant and equipment are verified once in three years. The property, plant and equipment were not physically verified during the year by the Management as it was not due. In our opinion, the periodicity of the physical verification is reasonable having regard to the size of the Company and the nature of its assets.
- c) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the title deeds of immovable properties included in Property, Plant and Equipment are held in the name of the Company.
- d) The Company has not revalued its Property, Plant and Equipment (including Right of Use assets) or Intangible Assets during the year.
- e) According to the information and explanations and representation given to us, no proceedings have been initiated or is pending against the Company during the year for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (45 of 1988) and rules made thereunder.
- (ii) a) The Company's business does not involve inventory and accordingly, paragraph 3(ii)(a) of the Order is not applicable to the Company.
- b) As disclosed in Note 16 to the financial statements, the Company has been sanctioned working capital limits in excess of five crore rupees, in aggregate, from banks on the basis of security of current assets. The Company has not obtained any sanction from financial institutions in this regard. Basis the information and explanation provided to us and basis our audit procedures undertaken, we have not come across any material difference between the information submitted in the quarterly returns / statements filed by the Company with such banks when compared with the audited/unaudited books of account and other relevant information provided by the Company.
- (iii) a) The Company is in the business of providing loans which are called as margin trading funding (MTF). According to the explanations and representations given to us by the Company, this is one of the principal business of the Company which is also described in its object clause specified in Memorandum of Association. Accordingly, clause (iii)(a) is not applicable to the Company.

- b) In our opinion, having regard to the nature of the Company's business, the investments made and the terms and conditions of the grant of all loans and advances in the nature of loans are prima facie, not prejudicial to the Company's interest. Further, during the year the Company has not provided guarantees, given security and granted loans and advances in the nature of guarantees to companies, firms, Limited Liability Partnerships or any other parties. Accordingly, the requirement to report on these is not applicable to the Company.
  - c) According to the information and explanations given to us, in case of loans given in the nature of MTF, the schedule of payment of interest has been stipulated but the schedule of repayment of principal amount of such loans are not stipulated. In respect of loans and advances in the nature of loans other than MTF given by the Company, the Company has stipulated the schedule of repayment of principal and payment of interest. Repayment of such other loans are regular.
  - d) In respect of loans granted and advances in the nature of loans provided by the Company, there is no overdue amount for more than ninety days as at the Balance Sheet date.
  - e) The Company is in the business of providing loans which are MTF. According to the explanations and representations given to us by the Company, this is one of the principal business of the Company which is also described in its object clause specified in Memorandum of Association. Accordingly, clause (iii) (e) is not applicable to the Company.
  - f) In our opinion and according to the information and explanations given to us there are no loans/advances given during the year in the nature of loans granted to promoters or related parties as defined in clause (76) of section 2 of the Companies Act, 2013 which are repayable on demand or without specifying any terms or period of repayment. Accordingly, the requirement to report on this clause is not applicable to the Company.
- (iv) In our opinion and according to the information and explanations given to us, the Company has complied with the provisions of section 185 and 186 of the Companies Act, 2013 with respect to the loans and investments. Further, as no guarantees/security has been given towards the parties specified in section 185 clause with regard to these matters are not applicable to the Company.
- (v) According to the information and explanations given to us, the Company has not accepted any deposit during the year and does not have any unclaimed deposit as at March 31, 2023 and therefore, the provisions of Sections 73 to 76 or any other relevant provisions of the Companies Act, 2013 and the rules made thereunder are not applicable to the Company. We are informed by the management that no order has been passed by the Company Law Board, National Company Law Tribunal or Reserve Bank of India or any Court or any other Tribunal against the Company in this regard.
- (vi) The maintenance of cost records has not been specified by the Central Government under Section 148(1) of the Companies Act, 2013 for the business activities carried out by the Company. Thus, reporting under paragraph 3(vi) of the Order is not applicable to the Company.
- (vii) In respect of Statutory dues:
- a) The Company has generally been regular in depositing undisputed statutory dues, including provident fund, employees' state insurance, income tax, goods and service tax,

cess and other material statutory dues applicable to it to the appropriate authorities. As explained to us, the Company did not have any dues on account of sales tax, wealth tax, duty of customs, duty of excise and value added tax.

- b) There were no undisputed amounts payable in respect of provident fund, employees' state insurance, income tax, goods and services tax, cess and other material statutory dues which were outstanding, at the year end, for a period of more than six months from the date they became payable.
- c) The details of statutory dues referred to in sub- clause (a) above which have not been deposited as on March 31, 2023, on account of disputes are given below:

Name of the Statute	Nature of Due	Amount (Rs. in Lakhs)	Amount paid under Protest (Rs. In Lakhs)	Period to which the amount relates	Forum where dispute is pending
Income Tax Act, 1961	Income Tax	43	-	F.Y 2012-13	Commissioner of Income Tax (Appeals)
Income Tax Act, 1961	Income Tax	1,922	168	F.Y 2013-14	Commissioner of Income Tax (Appeals)
Income Tax Act, 1961	Income Tax	1,229	92	F.Y 2014-15	Commissioner of Income Tax (Appeals)
Income Tax Act, 1961	Income Tax	17	-	F.Y 2015-16	Commissioner of Income Tax (Appeals)
Income Tax Act, 1961	Income Tax	19	-	F.Y 2016-17	Commissioner of Income Tax (Appeals)
Income Tax Act, 1961	Income Tax	15	-	F.Y 2017-18	Commissioner of Income Tax (Appeals)
Income Tax Act, 1961	Income Tax	699	-	F.Y 2019-20	Commissioner of Income Tax (Appeals)
	<b>Total</b>	<b>3,944</b>	<b>260</b>		

- (viii) According to the information and explanations given to us, there are no transactions which have not been recorded in the books of account but have been surrendered or disclosed as income in the tax assessments under the Income Tax Act, 1961 (43 of 1961) during the year.
- (ix) a) According to the information and explanations given to us, the Company has not defaulted in repayment of loans or borrowings or in the payment of interest thereon to any lender.
- b) Basis the information and explanation provided to us, the Company has not been declared a wilful defaulter by any bank or financial institution or other lender.

- c) The Company has not availed any term loans accordingly, reporting under paragraph 3(ix)(c) of the Order is not applicable to the Company.
- d) According to the information and explanations given to us, and the procedures performed by us, and on an overall examination of the financial statements of the company, we report that no funds raised on short-term basis have been used for long-term purposes by the company.
- e) On an overall examination of the financial statements of the Company, the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries and associate during the year.
- f) According to the information and explanations given to us and procedures performed by us, we report that the company has not raised any loans during the year on the pledge of securities held in its subsidiaries. Hence the requirement to report on clause ix (f) of the order is not applicable to the Company.
- (x) a) The Company has not raised any money by way of initial public offer or further public offer (including debt instruments) during the year and hence reporting under paragraph 3 (x)(a) of the Order is not applicable to the Company.  
b) The Company has not made any preferential allotment or private placement of shares or convertible debentures (fully, partially or optionally convertible) during the year and hence reporting under paragraph 3 (x)(b) of the Order is not applicable to the Company.
- (xi) a) According to the information, explanation and representations given to us no fraud by the Company or no fraud on the Company has been noticed or reported during the year.  
b) During the year, no report under sub-section (12) of Section 143 of the Companies Act, 2013 has been filed by secretarial auditor or by us in Form ADT – 4 as prescribed under Rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government.  
c) We have taken into consideration the whistle blower complaint received by the Company during the year (and upto the date of this report) and provided to us, while determining the nature, timing and extent of our audit procedures.
- (xii) The Company is not a nidhi company and hence reporting under paragraph 3 (xii) of the Order is not applicable to the Company.
- (xiii) According to the information and explanations given by the management, all the transactions with the related parties are in compliance with section 177 and 188 of the Act where applicable, and the details of related party transactions have been disclosed in the notes to the financial statements etc, as required by the applicable accounting standards.
- (xiv) a) In our opinion, the Company has an adequate internal audit system commensurate with the size and the nature of its business.  
b) We have taken into consideration, the internal audit reports for the period under audit issued to the Company till the date while determining the nature, timing and extent of audit procedures.
- (xv) According to the information and explanations given by the management, the Company has not entered into any non-cash transactions with directors or persons connected with them as

referred to in section 192 of the Act. Thus, paragraph 3(xv) of the Order is not applicable to the Company.

- (xvi) a) The Company is not required to be registered under section 45-IA of the Reserve Bank of India (RBI) Act, 1934.
  - b) The Company has not conducted any Non- Banking Financial or Housing Finance Activities without obtaining a valid Certificate of Registration (CoR) from Reserve Bank of India as per the Reserve Bank of India Act, 1934.
  - c) The Company is not a Core Investment Company (CIC) as defined in the regulations made by the Reserve Bank of India and hence reporting under paragraph 3 (xvi)(c) of the Order is not applicable.
  - d) According to the information and explanations given to us, there is no CIC in the Group.
- (xvii) According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not incurred cash losses during the financial year covered by our audit and the immediately preceding financial year.
- (xviii) There has been no resignation of the Statutory Auditors during the year and accordingly requirement to report on clause 3(xviii) of the order is not applicable.
- (xix) According to the information and explanations given to us and on the basis of the ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information accompanying the financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that the Company is not capable of meeting its liabilities existing at the date of Balance Sheet as and when they fall due within a period of one year from the Balance Sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the Balance Sheet date, will get discharged by the Company as and when they fall due.

Chartered Accountants

- (xx) (a) There are no unspent amounts towards Corporate Social Responsibility ('CSR'). Accordingly, reporting under paragraph 3(xx)(a) of the Order is not applicable for the year.
- (b) The Company does not have any ongoing projects in accordance with the requirements of CSR guidelines and hence, reporting under paragraph 3(xx)(b) of the Order is not applicable for the year.
- (xxi) As the Company is also preparing its consolidated financial statement, reporting under paragraph 3 (xxi) is given in the consolidated audit report.

**Annexure B to the Independent Auditor's Report of even date on the financial statements of Motilal Oswal Financial Services Limited**

**Referred to in paragraph [8(ii)(f)] under Report on Other Legal and Regulatory Requirements of our report of even date**

**Report on the Internal Financial Controls over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

We have audited the internal financial controls over financial reporting with reference to the Financial Statements of Motilal Oswal Financial Services Limited (the "Company") as of March 31, 2023 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

**Management's Responsibility for Internal Financial Controls**

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

**Auditor's Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing as specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls and both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

### **Meaning of Internal Financial Controls over Financial Reporting**

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that:

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

### **Inherent Limitations of Internal Financial Controls over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

*Singhi & Co.*

Chartered Accountants

**Opinion**

In our opinion, to the best of our information and according to the explanations given to us the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2023 based on the criteria for internal financial control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("the Guidance Note") issued by the Institute of Chartered Accountants of India.

**Motilal Oswal Financial Services Limited**  
**Standalone Financial Statements**  
**Summary of significant accounting policies and other explanatory information**

**1A. Corporate Information**

Motilal Oswal Financial Services Limited (“MOFSL” or ‘the Company’) is a public limited company and incorporated under the provisions of Companies Act. The Company is domiciled in India and the addresses of its registered office and principal place of business is Motilal Oswal Tower (Mumbai).

The Company is registered with Securities and Exchange Board of India (‘SEBI’) under the Stock brokers and sub brokers Regulations, 1992 and is a member of Bombay Stock Exchange Limited, National Stock Exchange of India Limited, Multi Commodity Exchange of India Ltd. and National Commodity and Derivatives Exchange Limited. The Company acts as a stock broker and commodities broker to execute proprietary trades and also trades on behalf of its clients which include retail customers (including high net worth individuals), mutual funds, foreign institutional investors, financial institutions and corporate clients. It is registered with Central Depository Services (India) Limited and National Securities Depository Limited in the capacity of Depository Participant and also registered with SEBI in capacity of Research Analyst and Investment Advisor.

The Financial statements were approved for issuance by the Company’s Board of Director on 27 April 2023.

**1B. Business Combination under Common Control**

A common control business combination, involving entities or businesses in which all of the combining entities or businesses are ultimately controlled by the same party or parties both before and after the business combination and where the control is not transitory, is accounted for in accordance with Appendix C to Ind AS 103 'Business Combinations'.

Business combinations involving entities or businesses under common control are accounted for using the pooling of interest method as follows:

- The assets and liabilities of the combining entities are reflected at their carrying amounts.
- No adjustments are made to reflect fair values, or recognize new assets or liabilities. Adjustments are made only to harmonize significant accounting policies.
- The financial information in the financial statements in respect of prior periods are restated as if the business combination had occurred from the beginning of the preceding period in the financial statements.
- The identity of the reserves are preserved and appear in the financial statements of the transferee in the same form in which they appeared in the financial statements of the transferor.

The difference, if any, between the amounts recorded as share capital issued plus any additional consideration in the form of cash or other assets and the amount of share capital of the transferor is transferred to capital reserve and is presented separately from other capital reserves with disclosure of its nature and purpose in the notes. (Refer Note 60 for additional details)

**Motilal Oswal Financial Services Limited**  
**Standalone Financial Statements**  
**Summary of significant accounting policies and other explanatory information**

**2. Significant accounting policies**

The principal accounting policies applied in the preparation of these financial statements are set out below.

**2.1 Basis of preparation**

(i) Compliance with Ind AS

The financial statements of the Company comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (“the Act”) read with Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time and other relevant provisions of the Act.

The financial statements have been prepared using the significant accounting policies and measurement bases summarized as below. Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to the existing accounting standard requires a change in the accounting policy hitherto in use.

(ii) Historical cost convention

The financial statements have been prepared on a historical cost basis, except for the following:

- Certain Financial instruments are measured at fair value;
- Assets held for sale – measured at fair value less cost to sell;
- Defined benefit plans – plan assets measured at fair value; and
- Share based payments

(iii) Preparation of financial statements

The Company is covered in the definition of Non-Banking Financial Company as defined in Companies (Indian Accounting Standards) (Amendment) Rules, 2016. As per the format prescribed under Division III of Schedule III to the Companies Act, 2013 on 11 October 2018 (as amended), the Company presents the Balance Sheet, the Statement of Profit and Loss and the Statement of Changes in Equity in the order of liquidity. A maturity analysis of recovery or settlement of assets and liabilities within 12 months after the reporting date and more than 12 months after the reporting date is presented in note 57.

(iv) Use of estimates and judgments

The preparation of financial statements in conformity with Ind AS which requires management to make estimates, judgments, and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities (including contingent liabilities) and disclosures as of the date of financial statements and the reported amounts of revenue and expenses for the reporting period. Actual results could differ from these estimates. Accounting estimates and underlying assumptions are reviewed on an ongoing basis and could change from period to period. Appropriate changes in estimates are recognized in the period in which the Company becomes aware of the changes in circumstances surrounding the estimates. Any revisions to accounting estimates are recognized prospectively in the period in which the estimate is revised and future periods. The estimates and judgments that have significant impact on carrying amount of assets and liabilities at each balance sheet date are discussed at note 3.

**Motilal Oswal Financial Services Limited**  
**Standalone Financial Statements**  
**Summary of significant accounting policies and other explanatory information**

(v) Determining whether an arrangement contains a lease

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgment. The Company uses significant judgment in assessing the lease term (including anticipated renewals) and the applicable discount rate. The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option.

## 2.2 Revenue Recognition

The Company recognizes revenue from contracts with customers based on a five step model as set out in Ind AS 115, Revenue from Contracts with Customers, to determine when to recognize revenue and at what amount. Revenue is measured based on the consideration specified in the contract with a customer. Revenue from contracts with customers is recognised when services are provided and it is highly probable that a significant reversal of revenue is not expected to occur.

Revenue is measured at fair value of the consideration received or receivable. Revenue is recognised when (or as) the Company satisfies a performance obligation by transferring a promised service (i.e. an asset) to a customer. An asset is transferred when (or as) the customer obtains control of that asset.

When (or as) a performance obligation is satisfied, the Company recognizes as revenue the amount of the transaction price (excluding estimates of variable consideration) that is allocated to that performance obligation.

The Company applies the five-step approach for recognition of revenue:

- Identification of contract(s) with customers;
- Identification of the separate performance obligations in the contract;
- Determination of transaction price;
- Allocation of transaction price to the separate performance obligations; and
- Recognition of revenue when (or as) each performance obligation is satisfied.

(i) Brokerage fee income

It is recognised on trade date basis in accordance with the terms of contract and is exclusive of goods and service tax and securities transaction tax (STT) wherever applicable.

(ii) Research and advisory income

Research and advisory income is accounted for on an accrual basis in accordance with the terms of the respective agreements entered into between the Company and the counter party.

(iii) Interest income

Interest income on a financial asset at amortised cost is recognised on a time proportion basis taking into account the amount outstanding and the effective interest rate ('EIR'). The EIR is the rate that exactly discounts estimated future cash flows of the financial assets through the expected life of the financial asset or, where appropriate, a shorter period, to the net carrying amount of the financial instrument. The internal rate of return on financial assets after netting off the fees received and cost incurred approximates the effective interest rate method of return for the financial asset. The future cash flows are estimated taking into account all the contractual terms of the instrument.

(iv) Dividend income

Dividend income is recognized in the Statement of profit and loss on the date that the Company's right to receive payment is established, it is probable that the economic benefits associated with the dividend will

**Motilal Oswal Financial Services Limited**  
**Standalone Financial Statements**  
**Summary of significant accounting policies and other explanatory information**

flow to the entity and the amount of dividend can be reliably measured. This is generally when the shareholders approve the dividend.

(v) Portfolio management commission income

Portfolio management commissions is recognised on an accrual basis in accordance with the terms of the agreement entered with asset management company.

(vi) Rental income

Lease income from operating leases where the Company is a lessor is recognized in income on a straight-line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases. The respective leased assets are included in the balance sheet based on their nature.

(vii) Profit and loss from partnership firm / LLP

Profit and loss from partnership firm / LLP are accounted on accrual basis and as per terms of respective Partnership / LLP agreement.

viii) Depository services income

Revenue from depository services on account of annual maintenance charges have been accounted for over the period of the performance obligation.

Revenue from depository services on account of transaction charges is recognized point in time when the performance obligation is satisfied.

ix) Delayed payment charges

Interest is earned on delayed payments from customers and is recognised on a time proportion basis taking into account the amount outstanding from customers and the rates applicable.

### 2.3 Income Tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses. Current and deferred tax is recognized in Statement of profit and loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity, respectively.

#### Current Tax

Current tax is measured at the amount of tax expected to be payable on the taxable income for the year as determined in accordance with the provisions of the Income Tax Act, 1961. Current tax assets and current tax liabilities are off set when there is a legally enforceable right to set off the recognized amounts and there is an intention to settle the asset and the liability on a net basis.

#### Deferred Tax

Deferred tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. However, deferred tax liabilities are not recognized if they arise from the initial recognition of goodwill. Deferred tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

Deferred tax assets are recognized for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilize those temporary differences and losses.

**Motilal Oswal Financial Services Limited**  
**Standalone Financial Statements**  
**Summary of significant accounting policies and other explanatory information**

Deferred tax liabilities are not recognized for temporary differences between the carrying amount and tax bases of investments in subsidiaries and associates where the Company is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority.

## 2.4 Leases

### Company as a Lessee

For any new contracts entered into on or after 1 April 2019, the Company considers whether a contract is, or contains a lease. A lease is defined as 'a contract, or part of a contract, that conveys the right to use an asset (the underlying asset) for a period of time in exchange for consideration'. The Company assess whether it has the right to direct 'how and for what purpose' the asset is used throughout the period of use.

#### Measurement and recognition of leases as a lessee

The Company has adopted Ind AS 116 "Leases" using the cumulative catch-up approach. Company has recognized Right of Use assets as at 1 April 2019 for leases previously classified as operating leases and measured at an amount equal to lease liability (adjusted for related prepayments/ accruals). The Company has discounted lease payments using the incremental borrowing rate for measuring the lease liability.

The Company depreciates the right-of-use assets on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The Company also assesses the right-of-use asset for impairment when such indicators exist.

Lease payments included in the measurement of the lease liability are made up of fixed payments (including in substance fixed), variable payments based on an index or rate, amounts expected to be payable under a residual value guarantee and payments arising from options reasonably certain to be exercised.

Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. It is remeasured to reflect any reassessment or modification, or if there are changes in in-substance fixed payments

When the lease liability is remeasured, the corresponding adjustment is reflected in the right-of-use asset, or profit and loss if the right-of-use asset is already reduced to zero.

The Company has elected to account for short-term leases and leases of low-value assets using the practical expedients. Instead of recognising a right-of-use asset and lease liability, the payments in relation to these are recognized as an operating expense in Statement of profit and loss on a straight-line basis over the lease term.

When the Company revises its estimate of the term of any lease, it adjusts the carrying amount of the lease liability to reflect the payments to make over the revised term, which are discounted using a revised discount rate. The carrying value of lease liabilities is similarly revised when the variable element of future lease payments dependent on a rate or index is revised, except the discount rate remains unchanged. In both cases an equivalent adjustment is made to the carrying value of the right-of-use asset, with the revised carrying amount being amortised over the remaining (revised) lease term. If the carrying amount of the right-of-use asset is adjusted to zero, any further reduction is recognised in statement of profit and loss.

For contracts that both convey a right to the Company to use an identified asset and require services to be provided to the Company by the lessor, the Company has elected to account for the entire contract as a lease, i.e. it does allocate any amount of the contractual payments to, and account separately for, any services provided by the supplier as part of the contract

## **Company as a Lessor**

Leases for which the Company is a lessor is classified as a finance or operating lease. Whenever the term of the lease transfers substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

## **2.5 Cash and cash equivalents**

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Outstanding bank overdrafts are not considered integral part of the Company's cash management.

## **2.6 Financial instruments**

### **Initial recognition and measurement:**

Financial assets and financial liabilities are recognized when the entity becomes a party to the contractual provisions of the instrument. Regular way purchases and sales of financial assets are recognized on trade-date, the date on which the Company commits to purchase or sell the asset.

At initial recognition, the Company measures a financial asset or financial liability at its fair value plus or minus, in the case of a financial asset or financial liability not at fair value through profit or loss, transaction costs that are incremental and directly attributable to the acquisition or issue of the financial asset or financial liability, such as fees and commissions. Transaction costs of financial assets and financial liabilities carried at fair value through profit or loss are expensed in Statement of profit and loss. Immediately after initial recognition, an expected credit loss allowance (ECL) is recognized for financial assets measured at amortized cost.

When the fair value of financial assets and liabilities differs from the transaction price on initial recognition, the entity recognizes the difference as follows:

- a) When the fair value is evidenced by a quoted price in an active market for an identical asset or liability (i.e. a Level 1 input) or based on a valuation technique that uses only data from observable markets, the difference is recognized as a gain or loss.
- b) In all other cases, the difference is deferred and the timing of recognition of deferred day one profit or loss is determined individually. It is either amortized over the life of the instrument, deferred until the instrument's fair value can be determined using market observable inputs, or realized through settlement.

When the Company revises the estimates of future cash flows, the carrying amount of the respective financial assets or financial liability is adjusted to reflect the new estimate discounted using the original effective interest rate. Any changes are recognized in Statement of profit and loss.

### **Fair value of financial instruments:**

Some of the Company's assets and liabilities are measured at fair value for financial reporting purpose. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date regardless of whether that price is directly observable or estimated using another valuation technique.

**Motilal Oswal Financial Services Limited**  
**Standalone Financial Statements**  
**Summary of significant accounting policies and other explanatory information**

Fair value measurements under Ind AS are categorized into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurement are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company can access at measurement date
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly; and
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs) that the Company can access at measurement date.

Information about the valuation techniques and inputs used in determining the fair value of various assets and liabilities are disclosed in note 54.

**Financial assets**

*(i)* **Classification and subsequent measurement**

The Company has applied Ind AS 109 and classifies its financial assets in the following measurement categories:

- Fair value through profit or loss (FVTPL);
- Fair value through other comprehensive income (FVOCI); or
- Amortised cost.

**1. Financial assets carried at amortised cost**

A financial asset is measured at the amortised cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in interest income in the Statement of Profit and Loss.

**2. Equity instruments**

Equity instruments are instruments that meet the definition of equity from the issuer's perspective; that is, instruments that do not contain a contractual obligation to pay and that evidence a residual interest in the issuer's net assets.

All investments in equity instruments classified under financial assets are initially measured at fair value, the Company may, on initial recognition, irrevocably elect to measure the same either at FVOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis. Fair value changes on an equity instrument is recognised as revenue from operations in the Statement of Profit and Loss unless the Company has elected to measure such instrument at FVOCI. Fair value changes excluding dividends, on an equity instrument measured at FVOCI are recognized in OCI. Amounts recognised in OCI are not subsequently reclassified to the Statement of Profit and Loss. Dividend income on the investments in equity instruments are recognised as 'Revenue from operations' in the Statement of Profit and Loss.

### **3. Investment in Subsidiaries**

Investments in subsidiaries, joint ventures and associates are recognised at cost as per Ind AS 27. Except where investments accounted for at cost shall be accounted for in accordance with Ind AS 105, Non-current Assets Held for Sale and Discontinued Operations, when they are classified as held for sale

### **4. Investments in mutual funds**

Investments in mutual funds are measured at fair value through profit and loss (FVTPL).

#### **(ii) Impairment**

The Company recognizes impairment allowances using Expected Credit Losses (“ECL”) method on all the financial assets that are not measured at Fair value through profit or loss (FVTPL):

ECL are probability-weighted estimate of credit losses. They are measured as follows:

- Financials assets that are not credit impaired – as the present value of all cash shortfalls that are possible within 12 months after the reporting date.
- Financials assets with significant increase in credit risk - as the present value of all cash shortfalls that result from all possible default events over the expected life of the financial assets.
- Financials assets that are credit impaired – as the difference between the gross carrying amount and the present value of estimated cash flows.

Financial assets are written off/fully provided for when there is no reasonable of recovering financial assets in its entirety or a portion thereof.

However, financial assets that are written off could still be subject to enforcement activities under the Company’s recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognised in the Statement of Profit and Loss.

#### **(iii) Derecognition**

A financial asset is derecognised only when:

The Company has transferred the rights to receive cash flows from the financial asset or retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the Company has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the Company has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

### **Financial liabilities**

#### **(i) Initial recognition and measurement**

All financial liabilities are recognised when the Company becomes a party to the contractual provisions of the financial instrument and are measured initially at fair value adjusted for transaction costs.

**Motilal Oswal Financial Services Limited**  
**Standalone Financial Statements**  
**Summary of significant accounting policies and other explanatory information**

**(ii) Subsequent measurement**

Financial liabilities are subsequently measured at amortised cost using the EIR method. Financial liabilities carried at fair value through profit or loss is measured at fair value with all changes in fair value recognised in the Statement of Profit and Loss.

**(iii) Derecognition**

A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or expires.

**2.7 Offsetting financial instruments**

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

**2.8 Financial guarantee contracts and loan commitments**

Financial guarantee contracts are contracts that require the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due, in accordance with the terms of a debt instrument. Such financial guarantees are given to banks, financial institutions and others on behalf of customers to secure loans, overdrafts and other banking facilities.

Financial guarantee contracts are initially measured at fair value and subsequently measured at the higher of:

- The amount of the loss allowance; and
- The premium received on initial recognition less income recognized in accordance with the principles of Ind AS 115.

**2.9 Property, plant and equipment**

Property, plant and equipment are stated at cost of acquisition less accumulated depreciation. Cost includes expenditure that is directly attributable to the acquisition and installation of the assets.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are charged to Statement of profit and loss during the reporting period in which they are incurred.

Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under other non-financial assets and the cost of assets not put to use before such date are disclosed under 'Capital work-in progress'

**Motilal Oswal Financial Services Limited**  
**Standalone Financial Statements**  
**Summary of significant accounting policies and other explanatory information**

**Depreciation methods, estimated useful lives and residual value**

Depreciation is calculated using the straight-line method to allocate their cost, net of their residual values, over their estimated useful life prescribed under Schedule II to the Companies Act, 2013. The Company provides pro-rata depreciation from the month in which the asset is first put to use, till date the assets are sold or disposed. Leasehold improvements are amortised over the term of underlying lease.

Assets	Useful life
Building	60 years
Furniture and Fixtures	10 years
Office Equipment's	5 years
Plant and Machinery	3 to 5 years
Vehicles	8 to 10 years
Leasehold Improvements	Over the primary lease period or useful life. Whichever is less.

**Derecognition:**

The carrying amount of an item of property, plant and equipment is derecognized on disposal or when no future economic benefits are expected from its use or disposal. Gains and losses on disposals are determined by comparing proceeds with carrying amount and are recognized in the statement of profit and loss when the asset is derecognized.

**2.10 Intangible assets**

**Measurement at recognition:**

Intangible assets are recognized where it is probable that the future economic benefit attributable to the assets will flow to the Company and its cost can be reliably measured. Intangible assets are stated at cost of acquisition less accumulated amortization and impairment, if any.

Expenditure incurred on acquisition/development of intangible assets which are not put/ready to use at the reporting date is disclosed under intangible assets under development. The Company amortizes intangible assets on a straight-line basis over the five years commencing from the month in which the asset is first put to use. The Company provides pro-rata amortization from the day the asset is put to use.

Asset	Useful life
Computer Software	5 years
Customer rights	5 years

**Derecognition:**

The carrying amount of an intangible asset is derecognized on disposal or when no future economic benefits are expected from its use or disposal. Gains and losses on disposals are determined by comparing proceeds with carrying amount and are recognized in the statement of profit and loss when the asset is derecognized.

**2.11 Investment Property**

Property that is held for long-term rental yields or for capital appreciation or both, and that is not used by the group for business purposes, is classified as investment property. Investment property is measured initially at its cost, including related transaction costs and where applicable borrowing costs. Subsequent expenditure is capitalised to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the group and the cost of the item can be measured

**Motilal Oswal Financial Services Limited**  
**Standalone Financial Statements**  
**Summary of significant accounting policies and other explanatory information**

reliably. All other repairs and maintenance costs are expensed when incurred. When part of an investment property is replaced, the carrying amount of the replaced part is derecognized.

Depreciation on investment property is calculated using the straight-line method to write down the cost of property and equipment to their residual values over their estimated useful lives in the manner prescribed in Schedule II of the Act.

## **2.12 Impairment of non-financial assets**

At each reporting date, the Company assesses whether there is any indication based on internal/external factors, that an asset may be impaired. If any such indication exists, the Company estimates the recoverable amount of the asset. The recoverable amount of asset is the higher of its fair value or value in use. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects the current market assessment of time value of money and the risks specific to it. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount and the reduction is treated as an impairment loss and is recognised in the statement of profit and loss. All assets are subsequently reassessed for indications that an impairment loss previously recognised may no longer exist. An Impairment loss is reversed if there has been a change in estimates used to determine the recoverable amount. Such a reversal is made only to the extent that the assets carrying amount would have been determined, net of depreciation or amortization, had no impairment loss been recognised.

## **2.13 Provisions and contingencies:**

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the reporting date.

Provisions are determined by discounting the expected future cash flows (representing the best estimate of the expenditure required to settle the present obligation at the balance sheet date) at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognized as finance cost. Expected future operating losses are not provided for.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made. Contingent assets are neither recognised nor disclosed in the financial statements.

## **2.14 Employee benefits**

### **(i) Short-term obligations**

Short-term employee benefits are recognized as an expense at the undiscounted amount in the Statement of Profit and Loss for the year in which the related services are rendered. The Company recognises the costs of bonus payments when it has a present obligation to make such payments as a result of past events and a reliable estimate of the obligation can be made.

### Compensated absences

The Company does not have a policy of encashment of unavailed leaves for its employees but are permitted to carry forward subject to a prescribed maximum day. Provision is made on actual basis for expected cost of accumulating compensated absences as a result of unused leave entitlement which has accumulated as at the balance sheet date.

### (ii) Post-employment obligations

#### Defined contribution plan:

Contribution paid/payable to the recognised provident fund and Employee State Insurance Corporation, which is a defined contribution scheme, is charged to the Statement of Profit and Loss in the period in which they occur.

#### Defined benefits plan:

Gratuity is post-employment benefit and is in the nature of defined benefit plan. The liability recognised in the Balance Sheet in respect of gratuity is the present value of defined benefit obligation at the Balance Sheet date together with the adjustments for unrecognised actuarial gain or losses and the past service costs. The defined benefit obligation is calculated at or near the Balance Sheet date by an independent actuary using the projected unit credit method. Actuarial gains and losses comprise experience adjustment and the effects of changes in actuarial assumptions are recognized in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

#### National Pension Scheme and Employee State Insurance Corporation

Contribution paid/payable to the recognised NPS and ESIC, which is a defined contribution scheme, is charged to the Statement of Profit and Loss in the period in which they occur.

### (iii) Other long-term employee benefits obligations

#### Heritage club benefit

Heritage club benefits are recognised as liability at the present value of defined benefits obligation as at the Balance Sheet date. The defined obligation benefit is calculated at the Balance Sheet date by an independent actuary using the projected unit credit method.

## 2.15 Share-based payments

### Employee Stock Option Scheme (ESOS)

The Employees Stock Options Scheme ("the Scheme") has been established by the Company. The Scheme provides that employees are granted an option to subscribe to equity share of the Company that vests on the satisfaction of vesting conditions. The fair value of options granted under ESOS is recognized as an employee benefits expense with a corresponding increase in equity. The total amount to be expensed is determined reference to the fair value of the options granted excluding the impact of any service conditions. Information about the valuation techniques and inputs used in determining the sale value of assets and liabilities disclosed in note 52.

The total expense is recognized over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied. At the end of each period, the entity revises its estimates of the number of options that are expected to vest based on the service conditions. It recognizes the impact of the revision to original estimates, if any, in Statement of profit and loss, with a corresponding adjustment to equity.

**Motilal Oswal Financial Services Limited**  
**Standalone Financial Statements**  
**Summary of significant accounting policies and other explanatory information**

The stock options of the Subsidiary Company, granted to employees pursuant to the Company's Stock Options Schemes, are measured at the fair value of the options at the grant date as per Black and Scholes model. The fair value of the options is treated as discount and accounted as employee compensation cost, with a corresponding increase in other equity, over the vesting period on a straight line basis. The amount recognised as expense in each year is arrived at based on the number of grants expected to vest. If a grant lapses after the vesting period, the cumulative discount recognised as expense, with a corresponding increase in other equity, in respect of such grant is transferred to the General reserve within other equity.

## **2.16 Foreign currency translation**

### **(i) Functional and presentation currency**

Items included in financial statements of the Company are measured using the currency of the primary economic environment in which the Company operates ("the functional currency"). The financial statements are presented in Indian rupee (INR), which is MOFSL's functional and presentation currency.

### **(ii) Translation and balances**

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are recognized in Statement of profit and loss.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss. For example, translation differences on non-monetary assets and liabilities such as equity instruments held at fair value through profit or loss are recognized in Statement of profit and loss as part of the fair value gain or loss and translation differences on non-monetary assets such as equity investments classified as FVOCI are recognized in other comprehensive income.

## **2.17 Dividends**

Provision is made for the amount of any dividend declared, being appropriately authorized and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

## **2.18 Earnings per share**

### **a) Basic earnings per share**

Basic earnings per share is calculated by dividing the net profit for the period (excluding other comprehensive income) attributable to equity share holders of the Company by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus element in equity shares issued during the year.

### **b) Diluted earnings per share**

Diluted earnings per share is computed by dividing the net profit for the period attributable to equity shareholders by the weighted average number of shares outstanding during the period as adjusted for the effects of all diluted potential equity shares except where the results are anti-dilutive.

## **2.19 Borrowing Costs**

Expenses related to borrowing cost are accounted using effective interest rate. Borrowing costs are interest and other costs (including exchange differences relating to foreign currency borrowings to the extent that

**Motilal Oswal Financial Services Limited**  
**Standalone Financial Statements**  
**Summary of significant accounting policies and other explanatory information**

they are regarded as an adjustment to interest costs) incurred in connection with the borrowing of funds. Borrowing costs directly attributable to acquisition or construction of an asset which necessarily take a substantial period of time to get ready for their intended use are capitalised as part of the cost of that asset. Other borrowing costs are recognised as an expense in the period in which they are incurred. The difference between the discounted amount mobilised and redemption value of commercial papers is recognised in the statement of profit and loss over the life of the instrument using the EIR.

### **2.20 Rounding of amounts**

All amounts disclosed in the financial statements and notes have been rounded off to the nearest lakhs as per the requirements.

### **2.21 Events after reporting date**

Where events occurring after the balance sheet date provide evidence of conditions that existed at the end of the reporting period, the impact of such events is adjusted within the financial statements. Otherwise, events after the balance sheet date of material size or nature are only disclosed.

## **3. Key accounting estimates and judgements**

The preparation of financial statements requires management to make judgments, estimates and assumptions in the application of accounting policies that affect the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on ongoing basis. Any changes to accounting estimates are recognized prospectively.

Information about critical judgments in applying accounting policies, as well as estimates and assumptions that have the most significant effect on the amounts recognised in the financial statements are included in the following notes:

(a) Business Model Assessment: Classification and measurement of financial assets depends on the results of the SPPI (Solely Payments of Principal and Interest) and the business model test. The Company determines the business model at a level that reflects how groups of financial assets are managed together to achieve a particular business objective. This assessment includes judgement reflecting all relevant evidence including how the performance of the assets is evaluated and their performance measured, the risks that affect the performance of the assets and how these are managed. The Company monitors financial assets measured at amortised cost or fair value through other comprehensive income that are derecognised prior to their maturity to understand the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held. Fair value through profit or loss (FVTPL), where the assets are managed in accordance with an approved investment strategy that triggers purchase and sale decisions based on the fair value of such assets. Such assets are subsequently measured at fair value, with unrealised gains and losses arising from changes in the fair value being recognised in the standalone statement of profit and loss in the period in which they arise.

(b) Provision and contingent liability: On an ongoing basis, Company reviews pending cases, claims by third parties and other contingencies. For contingent losses that are considered probable, an estimated loss is recorded as an accrual in financial statements. Loss Contingencies that are considered possible are not provided for but disclosed as Contingent liabilities in the financial statements. Contingencies the likelihood of which is remote are not disclosed in the financial statements. Gain contingencies are not recognized until the contingency has been resolved and amounts are received or receivable.

(c) Effective Interest Rate (EIR) Method : The Company's EIR methodology, recognises interest income / expense using a rate of return that represents the best estimate of a constant rate of return over the expected behavioral life of loans given / taken and recognises the effect of potentially different interest rates at various stages and other characteristics of the financial instruments.

**Motilal Oswal Financial Services Limited**  
**Standalone Financial Statements**  
**Summary of significant accounting policies and other explanatory information**

This estimation, by nature, requires an element of judgment regarding the expected behavior and life-cycle of the instruments, as well expected changes to India's base rate and other fee income/ expense that are integral parts of the instrument.

(d) Allowance for impairment of financial asset: The Company applies expected credit loss model (ECL) for measurement and recognition of impairment loss. The Company recognises lifetime expected losses for all contract assets and / or all trade receivables that do not constitute a financing transaction. At each reporting date, the Company assesses whether the loans have been impaired. The Company is exposed to credit risk when the customer defaults on his contractual obligations. For the computation of ECL, the loan receivables are classified into three stages based on the default and the aging outstanding. The Company recognises life time expected credit loss for trade receivables and has adopted simplified method of computation as per Ind AS 109. The Company considers outstanding overdue for more than 90 days for calculation of expected credit loss.

(e) Recognition of deferred tax assets: Deferred tax assets are recognised for unused tax-loss carry forwards and unused tax credits to the extent that realisation of the related tax benefit is probable. The assessment of the probability with regard to the realisation of the tax benefit involves assumptions based on the history of the entity and budgeted data for the future.

(f) Defined benefit plans: The cost of defined benefit plans and the present value of the defined benefit obligations are based on actuarial valuation using the projected unit credit method. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long - term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

(g) Share based payment: The Company account for share based payment by measuring and recognizing as compensation expense the fair value of all share-based payment awards made to employees based on estimated grant date fair values. The determination of fair value involves a number of significant estimates. The Company uses the Black Scholes option pricing model to estimate the value of employee stock options which requires a number of assumptions to determine the model inputs. These include the expected volatility of Company's stock and employee exercise behavior which are based on historical data as well as expectations of future developments over the term of the option. As stock-based compensation expense is based on awards ultimately expected to vest. Management's estimate of exercise is based on historical experience but actual exercise could differ materially as a result of voluntary employee actions and involuntary actions which would result in significant change in our share based compensation expense amounts in the future.

(h) Property, plant and equipment and Intangible Assets: Management reviews the estimated useful lives and residual values of the assets annually in order to determine the amount of depreciation to be recorded during any reporting period. The useful lives and residual values as per schedule II of the Companies Act, 2013 or are based on the Company's historical experience with similar assets and taking into account anticipated technological changes, whichever is more appropriate.

(i) Leases - The Company evaluates if an arrangement qualifies to be a lease as per IND AS 116.

- The Company determines lease term as a non-cancellable period of a lease, together with both the period covered by an option to extend the lease if the Company is reasonably certain to exercise lessee options.

- The determination of the incremental borrowing rate used to measure lease liabilities.

**Independent Auditor's Limited Review Report on the Unaudited Consolidated Financial Results of Motilal Oswal Financial Services Limited for the quarter and half year ended September 30, 2023, pursuant to the Regulation 33 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulation, 2015 (as amended)**

**To the Board of Directors of Motilal Oswal Financial Services Limited**

1. We have reviewed the accompanying statement of unaudited consolidated financial results of **Motilal Oswal Financial Services Limited** ('the Holding Company') and its subsidiaries (the Holding Company and its subsidiaries together referred to as 'the Group'), its associate (refer Annexure 1 for the list of subsidiaries and associate included in the Statement) for the quarter and half year ended September 30, 2023 ('the Statement') attached herewith, being submitted by the Holding Company pursuant to the requirements of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended (the 'Listing Regulations'), including relevant circulars issued by the SEBI from time to time.
2. This Statement, which is the responsibility of the Holding Company's management and approved by the Holding Company's Board of Directors, has been prepared in accordance with the recognition and measurement principles laid down in Indian Accounting Standard 34, Interim Financial Reporting ('Ind AS 34'), prescribed under section 133 of the Companies Act, 2013 ('the Act'), and other accounting principles generally accepted in India and is in compliance with the presentation and disclosure requirements of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (as amended), including relevant circulars issued by the SEBI from time to time. Our responsibility is to express a conclusion on the Statement based on our review.
3. We conducted our review of the Statement in accordance with the Standard on Review Engagements (SRE) 2410, Review of Interim Financial Information Performed by the Independent Auditor of the Entity, issued by the Institute of Chartered Accountants of India. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with the Standards on Auditing specified under section 143(10) of the Act, and consequently, does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

We also performed procedures in accordance with the circular issued by the SEBI under Regulation 33 (8) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended, to the extent applicable.

4. Based on our review conducted and procedures performed as stated in paragraph 3 above and upon consideration of the review reports of the other auditors referred to in paragraph 5 below, nothing has come to our attention that causes us to believe that the accompanying Statement, prepared in accordance with the recognition and measurement principles laid down in Ind AS 34, prescribed under Section 133 of the Act and other accounting principles generally accepted in India, has not disclosed the information required to be disclosed in accordance with the requirements of Regulation 33 of the Listing Regulations, including the manner in which it is to be disclosed, or that it contains any material misstatement.

**Emphasis of Matter**

5. Attention is invited to:

Note 5 of the unaudited consolidated financial results of the Company, regarding the Scheme of

# Singhi & Co.

## Chartered Accountants

Arrangement to restructure the business of the Company and two of its wholly owned subsidiaries w.e.f.

April 1, 2023, for which subsequent to the approval of the relevant Board of such Companies, the Holding Company has initiated the process of obtaining necessary statutory and regulatory approvals and approval of its Shareholders. Post receipt of the required approvals and on completion of the related procedural aspects towards the scheme, effect of such scheme will be given in the respective books of accounts.

Our conclusion is not modified in respect of this matter.

### Other Matters

6. We did not review the interim financial results of eight subsidiaries included in the Statement, whose financial results before consolidation adjustments reflects total assets of Rs. 6,87,879 Lakh as at September 30, 2023, total revenues of Rs. 22,341 Lakh and Rs. 50,179 Lakh, total net profit after tax of Rs. 4,862 Lakh and Rs. 13,643 Lakh, total comprehensive income of Rs. 6,383 Lakh and Rs. 16,305 Lakh for the quarter and half year ended September 30, 2023 respectively and net cash outflows of Rs. (42,317) Lakh for the period from April 1, 2023 to September 30, 2023. These interim financial results have been reviewed by other auditors whose review reports have been furnished to us by the Holding Company's management, and our conclusion in so far as it relates to the amounts and disclosures included in respect of these subsidiaries is based solely on the review reports of such other auditors and the procedures performed by us as stated in paragraph 3 above.
7. The Statement includes the interim financial results of seven subsidiaries, which have not been reviewed by their auditors, whose interim financial results before consolidation adjustments reflects total assets of Rs. 7,149 Lakh as at September 30, 2023, total revenues of Rs. 619 Lakh and Rs. 1,193 Lakh, net profit after tax of Rs. 323 Lakh Rs. and Rs. 530 Lakh, total comprehensive income of Rs. 323 Lakh and Rs. 530 Lakh for quarter and half year ended September 30, 2023 respectively and net cash outflows of Rs. (62) Lakh for the period from April 1, 2023 to September 30, 2023. The Statement also includes the Group's share of net profit after tax of Rs. (120) Lakh and Rs. 24 Lakh for the quarter and half year ended September 30, 2023 respectively in respect of one associate, based on its interim financial results, which have not been reviewed by its auditor, and have been furnished to us by the Holding Company's management. Our conclusion on the Statement in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and associate are based solely on such management certified unreviewed interim financial results. According to the information and explanations given to us by the management, these interim financial results are not material to the Group.

Our conclusion is not modified in respect of these matters.

\*Home Finance segment derives a majority of its revenue from interest. Management primarily relies on net interest revenue, not the gross revenue and expense amounts, in managing that segment. Therefore, as permitted by paragraph 23 of Ind AS 108 only the net amount is disclosed.

The group has reported segment information as per Indian Accounting Standard 108 on 'Operating Segments'. As per Ind AS 108, segments are identified based on management's evaluation of financial information for allocating resources and assessing performance. Accordingly, the Group has identified four reportable segments, namely i) Capital market ii) Asset and wealth management iii) Home finance and iv) Fund based activities. The balance is shown as unallocated items.

4) CRISIL Limited has reaffirmed its ratings at CRISIL AA/Stable for Non-Convertible Debentures and CRISIL A1+ to the Commercial Paper Programme of the Motilal Oswal Financial Services Limited. ICRA Limited has reaffirmed [ICRA]AA (Stable) on Non-Convertible Debentures and [ICRA]AA (Stable) on Bank Lines of the Motilal Oswal Financial Services Limited and PP-MLD [ICRA]AA (Stable) on Principal Protected Market Linked Debentures of the Motilal Oswal Financial Services Limited. The ICRA Limited also reaffirmed and assigned for the enhanced amount [ICRA]A1+ to the Commercial Paper Programme of the Motilal Oswal Financial Services Limited. Further, India Ratings & Research Private Limited has assigned and affirmed credit rating of IND A1+ on Commercial Paper Programme of the Motilal Oswal Financial Services Limited. India Ratings & Research Private Limited has also affirmed IND AA/Stable on Non-Convertible Debentures and Bank Lines of the Motilal Oswal Financial Services Limited and IND PP-MLD AA/Stable on Principal Protected Market Linked Debentures of the Motilal Oswal Financial Services Limited.

5) The Board of Directors of the Company at their Meeting held on July 27, 2023 has, inter-alia, subject to approval of Shareholders of the Company and other applicable statutory & regulatory approvals including the approval of the Hon'ble National Company Law Tribunal ("NCLT"), Mumbai Bench, approved the Scheme of Arrangement between Motilal Oswal Financial Services Limited ("the Transferor Company" or "the Resulting Company" or "MOFSL") and Motilal Oswal Broking and Distribution Limited (formerly Glide Tech Investment Advisory Private Limited & converted into Public Limited Company) ("the Transferee Company" or "MOBDL") and Motilal Oswal Wealth Limited ("the Demerged Company" or "MOWL") and their respective Shareholders ("the Scheme"), under Sections 230-232 of the Companies Act, 2013. The appointed date subject to approval of the NCLT is April 01, 2023. Further, pursuant to the provisions of Regulation 37 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, the Company has filed the Scheme along with necessary documents with Stock Exchange(s).

6) Pursuant to the exercise of Employee Stock Options under various Employee Stock Options Scheme, the Company has allotted 2,86,359 and 2,90,359 equity shares to the employees during the quarter ended 30 September 2023 and period ended 30 September 2023 respectively.

7) The amounts reflected as "0" in the Financial Information are values with less than rupees one lakhs.

8) The previous quarter/period figures have been regrouped/reclassified wherever necessary to confirm to the current quarter/period presentation.

**Independent Auditor's Limited Review Report on the Unaudited Standalone Financial Results of Motilal Oswal Financial Services Limited for the quarter and half year ended September 30, 2023, pursuant to the Regulation 33 and 52 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulation, 2015 (as amended)**

## To the Board of Directors of Motilal Oswal Financial Services Limited

1. We have reviewed the accompanying statement of unaudited standalone financial results of **Motilal Oswal Financial Services Limited** ('the Company') for the quarter and half year ended September 30, 2023 (the "Statement") attached herewith, being submitted by the Company pursuant to the requirements of Regulation 33 and Regulation 52 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended (the "Listing Regulations"), including relevant circulars issued by the SEBI from time to time.
2. This Statement, which is the responsibility of the Company's management and approved by the Company's Board of Directors, has been prepared in accordance with the recognition and measurement principles laid down in Indian Accounting Standard 34, Interim Financial Reporting ('Ind AS 34'), prescribed under Section 133 of the Companies Act, 2013 ('the Act') and other accounting principles generally accepted in India and is in compliance with the presentation and disclosure requirements of Regulation 33 and Regulation 52 of the Listing Regulations. Our responsibility is to express a conclusion on the Statement based on our review.
3. We conducted our review of the Statement in accordance with the Standard on Review Engagements (SRE) 2410, Review of Interim Financial Information Performed by the Independent Auditor of the Entity, issued by the Institute of Chartered Accountants of India. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with the Standards on Auditing specified under section 143(10) of the Act, and consequently, does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
4. Based on our review conducted as above, nothing has come to our attention that causes us to believe that the accompanying Statement, prepared in accordance with the recognition and measurement principles laid down in Ind AS 34, prescribed under Section 133 of the Act and other accounting principles generally accepted in India, has not disclosed the information required to be disclosed in accordance with the requirements of Regulation 33 and Regulation 52 of the Listing Regulations, including the manner in which it is to be disclosed, or that it contains any material misstatement.

## Emphasis of Matter

5. Attention is invited to:

Note 6 of the unaudited standalone financial results of the Company, regarding the Scheme of Arrangement to restructure the business of the Company w.e.f. April 1, 2023, for which subsequent to the approval of the Board, the Company has initiated the process of obtaining necessary statutory and regulatory approvals and approval of its Shareholders. Post receipt of the required approvals and on completion of the related procedural aspects towards the scheme, effect of such scheme will be given in the books of accounts.

Our conclusion is not modified in respect of this matter.

**Other Matter**

6. Share of profit from investment in a limited liability partnership aggregating to Rs. (120) lakhs and Rs 24 lakhs for the quarter and half year ended September 30, 2023 respectively included in the Statement, is based on the management accounts of such entity. These accounts have been furnished to us by the Management and our opinion on the Statement, in so far as it relates to the amounts, is based solely on the report of such management accounts.

Our conclusion is not modified in respect of this matter.

**Statement of Standalone Financial Results for the quarter and half year ended 30 September 2023**

**Standalone Notes:-**

- 1) The standalone financial results have been reviewed by the Audit Committee and approved by the Board of Directors of the Motilal Oswal Financial Services Limited (the 'Company') at its Meeting held on Wednesday 01 November 2023. The results for the quarter and half year ended 30 September 2023 have been reviewed by the Statutory Auditors, M/s. Singhi & Co., Chartered Accountants.
- 2) This statement has been prepared in accordance with recognition and measurement principles of the Companies (Indian Accounting Standards) Rules, 2015 ('IndAS') prescribed under Section 133 of the Companies Act, 2013.
- 3) Pursuant to Regulation 52(4) of SEBI (Listing Obligations and Disclosures Requirements) Regulations, 2015 (Listing Regulations), SEBI's Operational circular SEBI/HO/DDHS/P/CIR/2021 /613 dated 10 August 2021 to the extent applicable to Commercial Papers, information as required for half year ended 30 September 2023 in respect of Non-convertible Debentures and Commercial Papers of the Company is enclosed as Annexure A.
- 4) Pursuant to Regulation 54 of Listing Regulations, we state that all secured Market Linked Debentures (MLDs) issued by the Company and outstanding as on 30 September 2023 are fully secured by first pari passu charge created over all present and future trade receivables and Margin Trading Facility receivables of the Company (with a minimum cover of 1 times of MLDs outstanding and interest due on MLDs). Accordingly, the Company is maintaining the asset cover of 1x or such higher asset cover required as per the terms & conditions given in the offer document/information memorandum. The Details of security cover as per prescribed format under Regulation 54(3) of Listing Regulation is enclosed as Annexure B.
- 5) CRISIL Limited has reaffirmed its ratings at CRISIL AA/Stable for Non-Convertible Debentures and CRISIL A1+ to the Commercial Paper Programme of the Company. ICRA Limited has reaffirmed [ICRA]AA (Stable) on Non-Convertible Debentures and [ICRA]AA (Stable) on Bank Lines of the Company and PP-MLD[ICRA]AA (Stable) on Principal Protected Market Linked Debentures of the Company. The ICRA Limited also reaffirmed and assigned for the enhanced amount [ICRA]A1+ to the Commercial Paper Programme of the Company. Further, India Ratings & Research Private Limited has assigned and affirmed credit rating of IND A1+ on Commercial Paper Programme of the Company. India Ratings & Research Private Limited has also affirmed IND AA/Stable on Non-Convertible Debentures and Bank Lines of the Company and IND PP-MLD AA/Stable on Principal Protected Market Linked Debentures of the Company.
- 6) The Board of Directors of the Company at their Meeting held on July 27, 2023 has, inter-alia, subject to approval of Shareholders of the Company and other applicable statutory & regulatory approvals including the approval of the Hon'ble National Company Law Tribunal ("NCLT"), Mumbai Bench, approved the Scheme of Arrangement between Motilal Oswal Financial Services Limited ("the Transferor Company" or "the Resulting Company" or "MOFSL") and Motilal Oswal Broking and Distribution Limited (formerly Glide Tech Investment Advisory Private Limited & converted into Public Limited Company) ("the Transferee Company" or "MOBDL") and Motilal Oswal Wealth Limited ("the Demeerged Company" or "MOWL") and their respective Shareholders ("the Scheme"), under Sections 230-232 of the Companies Act, 2013. The appointed date subject to approval of the NCLT is April 01, 2023. Further, pursuant to the provisions of Regulation 37 of the SEBI (Listing Obligations and Disclosures Requirements) Regulations, 2015, the Company has filed the Scheme along with necessary documents with Stock Exchange(s). Post receipt of shareholder's approval, this event will be considered as highly probable for the purposes of disclosure requirement under IND AS 105 "Non-Current Assets held for sale in discontinued operations".
- 7) As per Ind AS 108 'Operating Segments', Segment has been disclosed in consolidated financial results, Hence no separate disclosure has been given in standalone financial results of the Company.
- 8) Pursuant to the exercise of Employee Stock Options under various Employee Stock Options Scheme, the Company has allotted 2,86,359 and 2,90,359 equity shares to the employees during the quarter ended 30 September 2023 and period ended 30 September 2023 respectively.
- 9) The amounts reflected as "0" in the Financial information are values with less than rupees one lakhs.
- 10) The previous quarter/period figures have been regrouped/reclassified wherever necessary to confirm to the current quarter/period presentation.

For and on behalf of the Board of  
Motilal Oswal Financial Services Limited

**Motilal Oswal**  
Managing Director and Chief Executive Officer  
(DIN 00024503)

Place: Mumbai,  
Date: 01 November 2023

Annexure A

Pursuant to Regulation 52(4) of SEBI (Listing Obligations and Disclosures Requirements) Regulations, 2015 (Listing Regulations), SEBI's Operational circular SEBI/HO/DDHS/P/CIR/2021/613 dated August 10, 2021 to the extent applicable to Commercial Papers, information as required for the half year ended September 30, 2023 in respect of Non-convertible Debentures and Commercial Papers of the Company is as mentioned below:

**Independent Auditor's Limited Review Report on the Unaudited Consolidated Financial Results of Motilal Oswal Financial Services Limited for the quarter and nine months ended December 31, 2023, pursuant to the Regulation 33 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulation, 2015 (as amended)**

**To the Board of Directors of Motilal Oswal Financial Services Limited**

1. We have reviewed the accompanying Statement of Unaudited Consolidated financial results of **Motilal Oswal Financial Services Limited** ("the Holding Company") and its Subsidiaries (the Holding Company and its Subsidiaries together referred to as "the Group"), its Associate (refer Annexure 1 for the list of Subsidiaries and Associate included in the Statement) for the quarter and nine months ended December 31, 2023 ("the Statement") attached herewith, being submitted by the Holding Company pursuant to the requirements of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended (the "Listing Regulations"), including the relevant circulars issued by the SEBI from time to time.
2. This Statement, which is the responsibility of the Holding Company's Management and approved by the Board of Directors of the Holding Company, has been prepared in accordance with the recognition and measurement principles laid down in Indian Accounting Standard 34, Interim Financial Reporting ("Ind AS 34"), prescribed under Section 133 of the Companies Act, 2013 as amended read with the relevant rules issued thereunder ("the Act"), and other accounting principles generally accepted in India and is in compliance with the presentation and disclosure requirements of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (as amended), including relevant circulars issued by the SEBI from time to time. Our responsibility is to express a conclusion on the Statement based on our review.
3. We conducted our review of the Statement in accordance with the Standard on Review Engagements (SRE) 2410, Review of Interim Financial Information Performed by the Independent Auditor of the Entity, issued by the Institute of Chartered Accountants of India. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with the Standards on Auditing specified under section 143(10) of the Act, and consequently, does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

We also performed procedures in accordance with the Circular issued by the SEBI under Regulation 33 (8) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended, to the extent applicable.

4. Based on our review as conducted above and the procedures performed by us as stated in paragraph 3 above and upon consideration of the review reports of the other auditors referred to in paragraph 5 below, nothing has come to our attention that causes us to believe that the accompanying Statement, prepared in accordance with the recognition and measurement principles laid down in Ind AS 34, prescribed under Section 133 of the Act and other accounting principles generally accepted in India, has not disclosed the information required to be disclosed in accordance with the requirements of Regulation 33 of the Listing Regulations, including the manner in which it is to be disclosed, or that it contains any material misstatement.

## Emphasis of Matter

5. Attention is invited to:

Note 6 of the Unaudited Consolidated financial results of the Company, regarding the Scheme of Arrangement to restructure the business of the Company and two of its wholly owned subsidiaries w.e.f. April 1, 2023, for which subsequent to the approval of the relevant Board of such Companies, the Holding Company has initiated the process of obtaining necessary statutory and regulatory approvals and approval of its Shareholders. Post receipt of the required approvals and on completion of the related procedural aspects towards the scheme, effect of such scheme will be given in the respective books of account.

Our conclusion is not modified in respect of this matter.

## Other Matters

6. We did not review the interim financial results of eight subsidiaries included in the Statement, whose financial results before consolidation adjustments reflects total revenues of Rs. 27,296 Lakh and Rs. 77,475 lakhs, total net profit after tax of Rs. 8,449 lakhs and Rs. 22,092 lakhs, total comprehensive income of Rs. 10,602 lakhs and Rs.26,906 lakhs for the quarter and nine months ended December 31, 2023 respectively. These interim financial results have been reviewed by other auditors whose review reports have been furnished to us by the Holding Company's Management, and our conclusion on the Statement in so far as it relates to the amounts and disclosures included in respect of these subsidiaries is based solely on the review reports of such other auditors and the procedures performed by us as stated in paragraph 3 above.
7. The Statement includes the interim financial results of seven subsidiaries, which have not been reviewed by their auditors, whose interim financial results before consolidation adjustments reflects total revenues of Rs.610 lakhs and Rs. 1,812 lakhs, net profit after tax of Rs. 227 lakhs and Rs. 764 lakhs and total comprehensive income of Rs. 227 lakhs and Rs.764 lakhs for the quarter and nine months ended December 31, 2023 respectively. The Statement also includes the Group's share of net profit/ (loss) after tax of Rs. (25) lakhs and Rs. (1) lakh for the quarter and nine months ended December 31, 2023 respectively in respect of one associate, based on its interim financial results, which have not been reviewed by its auditor, and have been furnished to us by the Holding Company's Management. Our conclusion on the Statement in so far as it relates to the amounts and disclosures included in respect of these Subsidiaries and Associate are based solely on such management certified unreviewed interim financial results. According to the information and explanations given to us by the Management, these interim financial results are not material to the Group.

Our conclusion on the Statement in respect of matters. stated in para 6 and 7 above is not modified in respect of our reliance on the work done and the reports of other auditors and the financial results certified by the Management.

(a) Capital market	19,40,887	18,21,140	12,41,441	19,40,887	12,41,441	13,07,592
(b) Asset and Wealth Management	13,462	18,084	14,999	13,462	14,999	15,608
(c) Home finance	2,97,425	2,81,107	2,94,928	2,97,425	2,94,928	2,99,749
(d) Treasury Investments	48,152	37,368	16,225	48,152	16,225	35,677
(e) Unallocated	40,945	34,938	27,429	40,945	27,429	26,681
Less : Inter segment liabilities	(18,842)	(24,013)	(12,858)	(18,842)	(12,858)	(12,631)
<b>Total segment liabilities</b>	<b>23,22,029</b>	<b>21,68,624</b>	<b>15,82,164</b>	<b>23,22,029</b>	<b>15,82,164</b>	<b>16,72,676</b>

The group has reported segment information as per Indian Accounting Standard 108 on 'Operating Segments'. As per Ind AS 108, segments are identified based on management's evaluation of financial information for allocating resources and assessing performance. Accordingly, the Group has identified four reportable segments, namely i) Capital market ii) Asset and wealth management iii) Home finance and iv) Treasury Investments. The balance is shown as unallocated items.

4) CRISIL Limited has reaffirmed its ratings at CRISIL AA/Stable for Non-Convertible Debentures and CRISIL A1+ to the Commercial Paper Programme of the Motilal Oswal Financial Services Limited. ICRA Limited has reaffirmed [ICRA]AA (Stable) on Non-Convertible Debentures and [ICRA]AA (Stable) on Bank Lines of the Motilal Oswal Financial Services Limited and PP-MLD[ICRA]AA (Stable) on Principal Protected Market Linked Debentures of the Motilal Oswal Financial Services Limited. The ICRA Limited also reaffirmed and assigned for the enhanced amount [ICRA]A1+ to the Commercial Paper Programme of the Motilal Oswal Financial Services Limited. Further, India Ratings & Research Private Limited has assigned and affirmed credit rating of IND A1+ on Commercial Paper Programme of the Motilal Oswal Financial Services Limited. India Ratings & Research Private Limited has also affirmed IND AA/Stable on Non-Convertible Debentures and Bank Lines of the Motilal Oswal Financial Services Limited and IND PP-MLD AA/Stable on Principal Protected Market Linked Debentures of the Motilal Oswal Financial Services Limited.

5) The Board of Directors at its meeting held on 24 January 2024 has declared an interim dividend of Rs. 14/- per equity share (on face value of Rs.1/- per equity share) for the financial year 2023-24

6) The Board of Directors of the Company at their Meeting held on July 27, 2023 has, inter-alia, subject to approval of Shareholders of the Company and other applicable statutory & regulatory approvals including the approval of the Hon'ble National Company Law Tribunal ("NCLT"), Mumbai Bench, approved the Scheme of Arrangement between Motilal Oswal Financial Services Limited ("the Transferor Company" or "the Resulting Company" or "MOFSL") and Motilal Oswal Broking and Distribution Limited (formerly Glide Tech Investment Advisory Private Limited & converted into Public Limited Company) ("the Transferee Company" or "MOBDL") and Motilal Oswal Wealth Limited ("the Demerged Company" or "MOWL") and their respective Shareholders ("the Scheme"), under Sections 230-232 of the Companies Act, 2013. The appointed date subject to approval of the NCLT is April 01, 2023. Further, pursuant to the provisions of Regulation 37 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, the Company has filed the Scheme along with necessary documents with Stock Exchange(s). Post receipt of shareholder's approval, this event will be considered as highly probable for the purposes of disclosure requirement under IND AS 105 "Non-Current Assets held for sale in discontinued operations".

7) The Board of Directors of the Company has considered and approved the proposal of issuance of Non-Convertible Debentures not exceeding Rs.3,000 Crore by way of Public Issue in one or more tranches.

**Statement of Standalone Financial Results for the quarter and nine months ended 31 December 2023**

**Standalone Notes:-**

- 1) The standalone financial results have been reviewed by the Audit Committee and approved by the Board of Directors of the Motilal Oswal Financial Services Limited (the 'Company') at its Meeting held on Wednesday 24 January 2024. The results for the quarter and nine months ended 31 December 2023 have been reviewed by the Statutory Auditors, M/s. Singhi & Co., Chartered Accountants.
- 2) This statement has been prepared in accordance with recognition and measurement principles of the Companies (Indian Accounting Standards) Rules, 2015 ('IndAS') prescribed under Section 133 of the Companies Act, 2013.
- 3) Pursuant to Regulation 52(4) of SEBI (Listing Obligations and Disclosures Requirements) Regulations, 2015 (Listing Regulations), SEBI's Operational circular SEBI/HO/DDHS/P/CIR/2021 /613 dated 10 August 2021 to the extent applicable to Commercial Papers, information as required for nine months ended 31 December 2023 in respect of Non-convertible Debentures and Commercial Papers of the Company is enclosed as Annexure A.
- 4) Pursuant to Regulation 54 of Listing Regulations, we state that all secured Market Linked Debentures (MLDs) issued by the Company and outstanding as on 31 December 2023 are fully secured by first pari passu charge created over all present and future trade receivables and Margin Trading Facility receivables of the Company (with a minimum cover of 1 times of MLDs outstanding and interest due on MLDs). Accordingly, the Company is maintaining the asset cover of 1x or such higher asset cover required as per the terms & conditions given in the offer document/information memorandum. The Details of security cover as per prescribed format under Regulation 54(3) of Listing Regulation is enclosed as Annexure B.
- 5) CRISIL Limited has reaffirmed its ratings at CRISIL AA/Stable for Non-Convertible Debentures and CRISIL A1+ to the Commercial Paper Programme of the Company. ICRA Limited has reaffirmed [ICRA]AA (Stable) on Non-Convertible Debentures and [ICRA]AA (Stable) on Bank Lines of the Company and PP-MLD[ICRA]AA (Stable) on Principal Protected Market Linked Debentures of the Company. The ICRA Limited also reaffirmed and assigned for the enhanced amount [ICRA]A1+ to the Commercial Paper Programme of the Company. Further, India Ratings & Research Private Limited has assigned and affirmed credit rating of IND A1+ on Commercial Paper Programme of the Company. India Ratings & Research Private Limited has also affirmed IND AA/Stable on Non-Convertible Debentures and Bank Lines of the Company and IND PP-MLD AA/Stable on Principal Protected Market Linked Debentures of the Company.
- 6) The Board of Directors at its meeting held on 24 January 2024 has declared an interim dividend of Rs. 14/- per equity share (on face value of Rs.1/- per equity share) for the financial year 2023-24.
- 7) The Board of Directors of the Company at their Meeting held on July 27, 2023 has, inter-alia, subject to approval of Shareholders of the Company and other applicable statutory & regulatory approvals including the approval of the Hon'ble National Company Law Tribunal ("NCLT"), Mumbai Bench, approved the Scheme of Arrangement between Motilal Oswal Financial Services Limited ("the Transferor Company" or "the Resulting Company" or "MOFSL") and Motilal Oswal Broking and Distribution Limited (formerly Glide Tech Investment Advisory Private Limited & converted into Public Limited Company) ("the Transferee Company" or "MOBDL") and Motilal Oswal Wealth Limited ("the Demerged Company" or "MOWL") and their respective Shareholders ("the Scheme"), under Sections 230-232 of the Companies Act, 2013. The appointed date subject to approval of the NCLT is April 01, 2023. Further, pursuant to the provisions of Regulation 37 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, the Company has filed the Scheme along with necessary documents with Stock Exchange(s). Post receipt of shareholder's approval, this event will be considered as highly probable for the purposes of disclosure requirement under IND AS 105 "Non-Current Assets held for sale in discontinued operations".
- 8) The Board of Directors of the Company has considered and approved the proposal of issuance of Non-Convertible Debentures not exceeding Rs.3,000 crore by way of Public Issue in one or more tranches.
- 9) As per Ind AS 108 'Operating Segments', Segment has been disclosed in consolidated financial results, Hence no separate disclosure has been given in standalone financial results of the Company.
- 10) Pursuant to the exercise of Employee Stock Options under various Employee Stock Options Scheme, the Company has allotted 2,93,131 and 5,83,490 equity shares to the employees during the quarter ended 31 December 2023 and nine months ended 31 December 2023 respectively.
- 11) The amounts reflected as "0" in the Financial Information are values with less than rupees one lakhs.
- 12) The previous quarter/period figures have been regrouped/reclassified wherever necessary to confirm to the current quarter/period presentation.

**Independent Auditor's Limited Review Report on the Unaudited Consolidated Financial Results of Motilal Oswal Financial Services Limited for the quarter and nine months ended December 31, 2023, pursuant to the Regulation 33 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulation, 2015 (as amended)**

**To the Board of Directors of Motilal Oswal Financial Services Limited**

1. We have reviewed the accompanying Statement of Unaudited Consolidated financial results of **Motilal Oswal Financial Services Limited** ("the Holding Company") and its Subsidiaries (the Holding Company and its Subsidiaries together referred to as "the Group"), its Associate (refer Annexure 1 for the list of Subsidiaries and Associate included in the Statement) for the quarter and nine months ended December 31, 2023 ("the Statement") attached herewith, being submitted by the Holding Company pursuant to the requirements of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended (the "Listing Regulations"), including the relevant circulars issued by the SEBI from time to time.
2. This Statement, which is the responsibility of the Holding Company's Management and approved by the Board of Directors of the Holding Company, has been prepared in accordance with the recognition and measurement principles laid down in Indian Accounting Standard 34, Interim Financial Reporting ("Ind AS 34"), prescribed under Section 133 of the Companies Act, 2013 as amended read with the relevant rules issued thereunder ("the Act"), and other accounting principles generally accepted in India and is in compliance with the presentation and disclosure requirements of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (as amended), including relevant circulars issued by the SEBI from time to time. Our responsibility is to express a conclusion on the Statement based on our review.
3. We conducted our review of the Statement in accordance with the Standard on Review Engagements (SRE) 2410, Review of Interim Financial Information Performed by the Independent Auditor of the Entity, issued by the Institute of Chartered Accountants of India. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with the Standards on Auditing specified under section 143(10) of the Act, and consequently, does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

We also performed procedures in accordance with the Circular issued by the SEBI under Regulation 33 (8) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended, to the extent applicable.

4. Based on our review as conducted above and the procedures performed by us as stated in paragraph 3 above and upon consideration of the review reports of the other auditors referred to in paragraph 5 below, nothing has come to our attention that causes us to believe that the accompanying Statement, prepared in accordance with the recognition and measurement principles laid down in Ind AS 34, prescribed under Section 133 of the Act and other accounting principles generally accepted in India, has not disclosed the information required to be disclosed in accordance with the requirements of Regulation 33 of the Listing Regulations, including the manner in which it is to be disclosed, or that it contains any material misstatement.

## Emphasis of Matter

### 5. Attention is invited to:

Note 6 of the Unaudited Consolidated financial results of the Company, regarding the Scheme of Arrangement to restructure the business of the Company and two of its wholly owned subsidiaries w.e.f. April 1, 2023, for which subsequent to the approval of the relevant Board of such Companies, the Holding Company has initiated the process of obtaining necessary statutory and regulatory approvals and approval of its Shareholders. Post receipt of the required approvals and on completion of the related procedural aspects towards the scheme, effect of such scheme will be given in the respective books of account.

Our conclusion is not modified in respect of this matter.

## Other Matters

6. We did not review the interim financial results of eight subsidiaries included in the Statement, whose financial results before consolidation adjustments reflects total revenues of Rs. 27,296 Lakh and Rs. 77,475 lakhs, total net profit after tax of Rs. 8,449 lakhs and Rs. 22,092 lakhs, total comprehensive income of Rs. 10,602 lakhs and Rs.26,906 lakhs for the quarter and nine months ended December 31, 2023 respectively. These interim financial results have been reviewed by other auditors whose review reports have been furnished to us by the Holding Company's Management, and our conclusion on the Statement in so far as it relates to the amounts and disclosures included in respect of these subsidiaries is based solely on the review reports of such other auditors and the procedures performed by us as stated in paragraph 3 above.

7. The Statement includes the interim financial results of seven subsidiaries, which have not been reviewed by their auditors, whose interim financial results before consolidation adjustments reflects total revenues of Rs.610 lakhs and Rs. 1,812 lakhs, net profit after tax of Rs. 227 lakhs and Rs. 764 lakhs and total comprehensive income of Rs. 227 lakhs and Rs.764 lakhs for the quarter and nine months ended December 31, 2023 respectively. The Statement also includes the Group's share of net profit/ (loss) after tax of Rs. (25) lakhs and Rs. (1) lakh for the quarter and nine months ended December 31, 2023 respectively in respect of one associate, based on its interim financial results, which have not been reviewed by its auditor, and have been furnished to us by the Holding Company's Management. Our conclusion on the Statement in so far as it relates to the amounts and disclosures included in respect of these Subsidiaries and Associate are based solely on such management certified unreviewed interim financial results. According to the information and explanations given to us by the Management, these interim financial results are not material to the Group.

Our conclusion on the Statement in respect of matters. stated in para 6 and 7 above is not modified in respect of our reliance on the work done and the reports of other auditors and the financial results certified by the Management.

Independent Auditor's Limited Review Report on the Unaudited Standalone Financial Results of Motilal Oswal Financial Services Limited for the quarter and half year ended September 30, 2023, pursuant to the Regulation 33 and 52 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulation, 2015 (as amended)

## To the Board of Directors of Motilal Oswal Financial Services Limited

1. We have reviewed the accompanying statement of unaudited standalone financial results of Motilal Oswal Financial Services Limited ('the Company') for the quarter and half year ended September 30, 2023 (the "Statement") attached herewith, being submitted by the Company pursuant to the requirements of Regulation 33 and Regulation 52 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended (the "Listing Regulations"), including relevant circulars issued by the SEBI from time to time.
2. This Statement, which is the responsibility of the Company's management and approved by the Company's Board of Directors, has been prepared in accordance with the recognition and measurement principles laid down in Indian Accounting Standard 34, Interim Financial Reporting ('Ind AS 34'), prescribed under Section 133 of the Companies Act, 2013 ('the Act') and other accounting principles generally accepted in India and is in compliance with the presentation and disclosure requirements of Regulation 33 and Regulation 52 of the Listing Regulations. Our responsibility is to express a conclusion on the Statement based on our review.
3. We conducted our review of the Statement in accordance with the Standard on Review Engagements (SRE) 2410, Review of Interim Financial Information Performed by the Independent Auditor of the Entity, issued by the Institute of Chartered Accountants of India. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with the Standards on Auditing specified under section 143(10) of the Act, and consequently, does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
4. Based on our review conducted as above, nothing has come to our attention that causes us to believe that the accompanying Statement, prepared in accordance with the recognition and measurement principles laid down in Ind AS 34, prescribed under Section 133 of the Act and other accounting principles generally accepted in India, has not disclosed the information required to be disclosed in accordance with the requirements of Regulation 33 and Regulation 52 of the Listing Regulations, including the manner in which it is to be disclosed, or that it contains any material misstatement.

## Emphasis of Matter

5. Attention is invited to:

Note 6 of the unaudited standalone financial results of the Company, regarding the Scheme of Arrangement to restructure the business of the Company w.e.f. April 1, 2023, for which subsequent to the approval of the Board, the Company has initiated the process of obtaining necessary statutory and regulatory approvals and approval of its Shareholders. Post receipt of the required approvals and on completion of the related procedural aspects towards the scheme, effect of such scheme will be given in the books of accounts.

Our conclusion is not modified in respect of this matter.

**Other Matter**

6. Share of profit from investment in a limited liability partnership aggregating to Rs. (120) lakhs and Rs 24 lakhs for the quarter and half year ended September 30, 2023 respectively included in the Statement, is based on the management accounts of such entity. These accounts have been furnished to us by the Management and our opinion on the Statement, in so far as it relates to the amounts, is based solely on the report of such management accounts.

Our conclusion is not modified in respect of this matter.

## Statement of Standalone Financial Results for the quarter and half year ended 30 September 2023

## Standalone Notes:-

- 1) The standalone financial results have been reviewed by the Audit Committee and approved by the Board of Directors of the Motilal Oswal Financial Services Limited (the 'Company') at its Meeting held on Wednesday 01 November 2023. The results for the quarter and half year ended 30 September 2023 have been reviewed by the Statutory Auditors, M/s. Singhi & Co., Chartered Accountants.
- 2) This statement has been prepared in accordance with recognition and measurement principles of the Companies (Indian Accounting Standards) Rules, 2015 ('IndAS') prescribed under Section 133 of the Companies Act, 2013.
- 3) Pursuant to Regulation 52(4) of SEBI (Listing Obligations and Disclosures Requirements) Regulations, 2015 (Listing Regulations), SEBI's Operational circular SEBI/HO/DDHS/P/CIR/2021/613 dated 10 August 2021 to the extent applicable to Commercial Papers, information as required for half year ended 30 September 2023 in respect of Non-convertible Debentures and Commercial Papers of the Company is enclosed as Annexure A.
- 4) Pursuant to Regulation 54 of Listing Regulations, we state that all secured Market Linked Debentures (MLDs) issued by the Company and outstanding as on 30 September 2023 are fully secured by first pari passu charge created over all present and future trade receivables and Margin Trading Facility receivables of the Company (with a minimum cover of 1 times of MLDs outstanding and interest due on MLDs). Accordingly, the Company is maintaining the asset cover of 1x or such higher asset cover required as per the terms & conditions given in the offer document/information memorandum. The Details of security cover as per prescribed format under Regulation 54(3) of Listing Regulation is enclosed as Annexure B.
- 5) CRISIL Limited has reaffirmed its ratings at CRISIL AA/Stable for Non-Convertible Debentures and CRISIL A1+ to the Commercial Paper Programme of the Company, ICRA Limited has reaffirmed [ICRA]AA (Stable) on Non-Convertible Debentures and [ICRA]AA (Stable) on Bank Lines of the Company and PP-MLD[ICRA]AA (Stable) on Principal Protected Market Linked Debentures of the Company. The ICRA Limited also reaffirmed and assigned for the enhanced amount [ICRA]A1+ to the Commercial Paper Programme of the Company. Further, India Ratings & Research Private Limited has assigned and affirmed credit rating of IND A1+ on Commercial Paper Programme of the Company. India Ratings & Research Private Limited has also affirmed IND AA/Stable on Non-Convertible Debentures and Bank Lines of the Company and IND PP-MLD AA/Stable on Principal Protected Market Linked Debentures of the Company.
- 6) The Board of Directors of the Company at their Meeting held on July 27, 2023 has, Inter-alia, subject to approval of Shareholders of the Company and other applicable statutory & regulatory approvals including the approval of the Hon'ble National Company Law Tribunal ("NCLT"), Mumbai Bench, approved the Scheme of Arrangement between Motilal Oswal Financial Services Limited ("the Transferor Company" or "the Resulting Company" or "MOFSL") and Motilal Oswal Broking and Distribution Limited (formerly Glide Tech Investment Advisory Private Limited & converted into Public Limited Company) ("the Transferee Company" or "MOBDL") and Motilal Oswal Wealth Limited ("the Demerged Company" or "MOWL") and their respective Shareholders ("the Scheme"), under Sections 230-232 of the Companies Act, 2013. The appointed date subject to approval of the NCLT is April 01, 2023. Further, pursuant to the provisions of Regulation 37 of the SEBI (Listing Obligations and Disclosures Requirements) Regulations, 2015, the Company has filed the Scheme along with necessary documents with Stock Exchange(s). Post receipt of shareholder's approval, this event will be considered as highly probable for the purposes of disclosure requirement under IND AS 105 "Non-Current Assets held for sale in discontinued operations".
- 7) As per Ind AS 108 'Operating Segments', Segment has been disclosed in consolidated financial results, Hence no separate disclosure has been given in standalone financial results of the Company.
- 8) Pursuant to the exercise of Employee Stock Options under various Employee Stock Options Scheme, the Company has allotted 2,86,359 and 2,90,359 equity shares to the employees during the quarter ended 30 September 2023 and period ended 30 September 2023 respectively.
- 9) The amounts reflected as "0" in the Financial Information are values with less than rupees one lakhs.
- 10) The previous quarter/period figures have been regrouped/reclassified wherever necessary to confirm to the current quarter/period presentation.

For and on behalf of the Board of  
 Motilal Oswal Financial Services Limited

  
 Motilal Oswal  
 Managing Director and Chief Executive Officer  
 (DIN 00024503)

Place: Mumbai,

Net Profit Margin (%) <sup>12</sup>	30.68%	21.34%

<sup>1</sup> Debt Equity Ratio = Debt (Borrowings + Accrued Interest) / Equity (Equity share capital + Other Equity)

<sup>2</sup> Debt Service Coverage Ratio = Profit/Loss before exceptional items, Interest and tax (excludes unrealized gains/losses and interest costs on leases as per IND AS 116 on Leases) / Interest expenses (excludes interest costs on leases as per IND AS 116 on Leases) + Principal Repayments

<sup>3</sup> Interest Service Coverage Ratio = Profit/Loss before exceptional items, Interest and tax (excludes unrealized gains/losses and interest costs on leases as per IND AS 116 on Leases) / Interest expenses (excludes interest costs on leases as per IND AS 116 on Leases)

<sup>4</sup> Net Worth = As per Sec. 2(57) of Companies Act, 2013

<sup>5</sup> Current Ratio = Current Assets / Current Liabilities

<sup>6</sup> Long Term Debt to Working Capital Ratio = Long Term Borrowing / Working Capital

<sup>7</sup> Bad debt includes provision made on doubtful debts. Accounts receivable includes trade receivables and MTF

<sup>8</sup> Current Liability Ratio = Current Liabilities / Total Liabilities

<sup>9</sup> Total Debts to Total Assets = Total Debts (Borrowings + Debt Securities) / Total Assets

<sup>10</sup> Debtors Turnover Ratio = Fee and Commission Income / Average Trade Receivables

<sup>11</sup> Operating Margin = Profit before tax / Total Revenue from operations

<sup>12</sup> Net Profit Margin = Profit after tax / Total Revenue from operations

**Independent Auditor's Limited Review Report on the Unaudited Consolidated Financial Results of Motilal Oswal Financial Services Limited for the quarter and half year ended September 30, 2023, pursuant to the Regulation 33 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulation, 2015 (as amended)**

**To the Board of Directors of Motilal Oswal Financial Services Limited**

1. We have reviewed the accompanying statement of unaudited consolidated financial results of **Motilal Oswal Financial Services Limited** ('the Holding Company') and its subsidiaries (the Holding Company and its subsidiaries together referred to as 'the Group'), its associate (refer Annexure 1 for the list of subsidiaries and associate included in the Statement) for the quarter and half year ended September 30, 2023 ('the Statement') attached herewith, being submitted by the Holding Company pursuant to the requirements of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended (the 'Listing Regulations'), including relevant circulars issued by the SEBI from time to time.
2. This Statement, which is the responsibility of the Holding Company's management and approved by the Holding Company's Board of Directors, has been prepared in accordance with the recognition and measurement principles laid down in Indian Accounting Standard 34, Interim Financial Reporting ('Ind AS 34'), prescribed under section 133 of the Companies Act, 2013 ('the Act'), and other accounting principles generally accepted in India and is in compliance with the presentation and disclosure requirements of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (as amended), including relevant circulars issued by the SEBI from time to time. Our responsibility is to express a conclusion on the Statement based on our review.
3. We conducted our review of the Statement in accordance with the Standard on Review Engagements (SRE) 2410, Review of Interim Financial Information Performed by the Independent Auditor of the Entity, issued by the Institute of Chartered Accountants of India. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with the Standards on Auditing specified under section 143(10) of the Act, and consequently, does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

We also performed procedures in accordance with the circular issued by the SEBI under Regulation 33 (8) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended, to the extent applicable.

4. Based on our review conducted and procedures performed as stated in paragraph 3 above and upon consideration of the review reports of the other auditors referred to in paragraph 5 below, nothing has come to our attention that causes us to believe that the accompanying Statement, prepared in accordance with the recognition and measurement principles laid down in Ind AS 34, prescribed under Section 133 of the Act and other accounting principles generally accepted in India, has not disclosed the information required to be disclosed in accordance with the requirements of Regulation 33 of the Listing Regulations, including the manner in which it is to be disclosed, or that it contains any material misstatement.

**Emphasis of Matter**

5. Attention is invited to:

Note 5 of the unaudited consolidated financial results of the Company, regarding the Scheme of

Arrangement to restructure the business of the Company and two of its wholly owned subsidiaries w.e.f.

April 1, 2023, for which subsequent to the approval of the relevant Board of such Companies, the Holding Company has initiated the process of obtaining necessary statutory and regulatory approvals and approval of its Shareholders. Post receipt of the required approvals and on completion of the related procedural aspects towards the scheme, effect of such scheme will be given in the respective books of accounts.

Our conclusion is not modified in respect of this matter.

**Other Matters**

6. We did not review the interim financial results of eight subsidiaries included in the Statement, whose financial results before consolidation adjustments reflects total assets of Rs. 6,87,879 Lakh as at September 30, 2023, total revenues of Rs. 22,341 Lakh and Rs. 50,179 Lakh, total net profit after tax of Rs. 4,862 Lakh and Rs. 13,643 Lakh, total comprehensive income of Rs. 6,383 Lakh and Rs. 16,305 Lakh for the quarter and half year ended September 30, 2023 respectively and net cash outflows of Rs. (42,317) Lakh for the period from April 1, 2023 to September 30, 2023. These interim financial results have been reviewed by other auditors whose review reports have been furnished to us by the Holding Company's management, and our conclusion in so far as it relates to the amounts and disclosures included in respect of these subsidiaries is based solely on the review reports of such other auditors and the procedures performed by us as stated in paragraph 3 above.
7. The Statement includes the interim financial results of seven subsidiaries, which have not been reviewed by their auditors, whose interim financial results before consolidation adjustments reflects total assets of Rs. 7,149 Lakh as at September 30, 2023, total revenues of Rs. 619 Lakh and Rs. 1,193 Lakh, net profit after tax of Rs. 323 Lakh Rs. and Rs. 530 Lakh, total comprehensive income of Rs. 323 Lakh and Rs. 530 Lakh for quarter and half year ended September 30, 2023 respectively and net cash outflows of Rs. (62) Lakh for the period from April 1, 2023 to September 30, 2023. The Statement also includes the Group's share of net profit after tax of Rs. (120) Lakh and Rs. 24 Lakh for the quarter and half year ended September 30, 2023 respectively in respect of one associate, based on its interim financial results, which have not been reviewed by its auditor, and have been furnished to us by the Holding Company's management. Our conclusion on the Statement in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and associate are based solely on such management certified unreviewed interim financial results. According to the information and explanations given to us by the management, these interim financial results are not material to the Group.

Our conclusion is not modified in respect of these matters.

\*Home Finance segment derives a majority of its revenue from interest. Management primarily relies on net interest revenue, not the gross revenue and expense amounts, in managing that segment. Therefore, as permitted by paragraph 23 of Ind AS 108 only the net amount is disclosed.

The group has reported segment information as per Indian Accounting Standard 108 on 'Operating Segments'. As per Ind AS 108, segments are identified based on management's evaluation of financial information for allocating resources and assessing performance. Accordingly, the Group has identified four reportable segments, namely i) Capital market ii) Asset and wealth management iii) Home finance and iv) Fund based activities. The balance is shown as unallocated items.

4) CRISIL limited has reaffirmed its ratings at CRISIL AA/Stable for Non-Convertible Debentures and CRISIL A1+ to the Commercial Paper Programme of the Motilal Oswal Financial Services Limited. ICRA Limited has reaffirmed [ICRA]AA (Stable) on Non-Convertible Debentures and [ICRA]AA (Stable) on Bank Lines of the Motilal Oswal Financial Services Limited and PP-MLD[ICRA]AA (Stable) on Principal Protected Market Linked Debentures of the Motilal Oswal Financial Services Limited. The ICRA Limited also reaffirmed and assigned for the enhanced amount [ICRA]A1+ to the Commercial Paper Programme of the Motilal Oswal Financial Services Limited. Further, India Ratings & Research Private Limited has assigned and affirmed credit rating of IND A1+ on Commercial Paper Programme of the Motilal Oswal Financial Services Limited. India Ratings & Research Private Limited has also affirmed IND AA/Stable on Non-Convertible Debentures and Bank Lines of the Motilal Oswal Financial Services Limited and IND PP-MLD AA/Stable on Principal Protected Market Linked Debentures of the Motilal Oswal Financial Services Limited.

5) The Board of Directors of the Company at their Meeting held on July 27, 2023 has, inter-alia, subject to approval of Shareholders of the Company and other applicable statutory & regulatory approvals including the approval of the Hon'ble National Company Law Tribunal ("NCLT"), Mumbai Bench, approved the Scheme of Arrangement between Motilal Oswal Financial Services Limited ("the Transferor Company" or "the Resulting Company" or "MOFSU") and Motilal Oswal Broking and Distribution Limited (formerly Glide Tech Investment Advisory Private Limited & converted into Public Limited Company) ("the Transferee Company" or "MOBDL") and Motilal Oswal Wealth Limited ("the Demerged Company" or "MOWL") and their respective Shareholders ("the Scheme"), under Sections 230-232 of the Companies Act, 2013. The appointed date subject to approval of the NCLT is April 01, 2023. Further, pursuant to the provisions of Regulation 37 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, the Company has filed the Scheme along with necessary documents with Stock Exchange(s).

6) Pursuant to the exercise of Employee Stock Options under various Employee Stock Options Scheme, the Company has allotted 2,86,359 and 2,90,359 equity shares to the employees during the quarter ended 30 September 2023 and period ended 30 September 2023 respectively.

7) The amounts reflected as "0" in the Financial Information are values with less than rupees one lakhs.

8) The previous quarter/period figures have been regrouped/reclassified wherever necessary to confirm to the current quarter/period presentation

### INDEPENDENT AUDITOR'S REPORT

To

The Members of **Motilal Oswal Financial Services Limited**

Report on the Audit of the Standalone Financial Statements

#### 1. Opinion

We have audited the accompanying standalone financial statements of **Motilal Oswal Financial Services Limited** (the "Company"), which comprise the Balance Sheet as at March 31, 2023, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Cash Flows and Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2023, and its profit, total comprehensive income, its cash flows and the changes in equity for the year ended on that date.

#### 2. Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act ('SA's). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the Financial Statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the standalone financial statements.

#### 3. Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current year. These matters were addressed in the context of our audit of the Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Sr. No.	Key audit matters	How our audit addressed the key audit matter
1.	<p><b>Information Technology (IT) Systems and Controls</b></p> <p>The Company's key financial accounting and reporting processes are highly dependent on the automated controls over the Company's information systems, such that there exists a risk, that gaps in the IT general control environment could result in a misstatement of the financial accounting and reporting records. Accordingly, we have considered user access management, segregation of duties and controls over system change over key financial accounting and reporting systems, as a key audit matter.</p>	<p><b>Our Audit Approach:</b></p> <p>With the help of our IT specialists, we obtained an understanding of the Company's IT applications, databases and operating systems relevant to financial reporting and the control environment. Our audit approach was a combination of test of internal controls and substantive procedures which included the following:</p> <p><b>General IT controls design, observation and operation:</b></p> <ul style="list-style-type: none"> <li>➤ Tested key controls operating over the information technology in relation to financial accounting and reporting systems, including system access and system change management, program development and computer operations.</li> </ul> <p><b>User access controls operation:</b></p> <ul style="list-style-type: none"> <li>➤ Obtained management's evaluation of the access rights granted to applications relevant to financial accounting and reporting systems and tested resolution of a sample of expectations.</li> <li>➤ Further, we assessed the operating effectiveness of controls over granting, removal and appropriateness of access rights.</li> </ul> <p><b>Application controls:</b></p> <ul style="list-style-type: none"> <li>➤ We tested the design and operating effectiveness of automated controls critical to financial accounting and reporting.</li> <li>➤ For any identified deficiencies, tested the design and operating effectiveness of compensating controls and where necessary, extended the scope of our substantive audit procedure.</li> </ul>
2.	<p><b>Valuation of equity investments carried at fair value</b></p> <p>Refer note 2.6 for significant accounting policies and note 54 for financial disclosures</p>	<p>Our audit procedures in relation to valuation of investment with the involvement of our valuation experts included, but were not limited to, the following:</p>

Sr. No.	Key audit matters	How our audit addressed the key audit matter
	<p>As at March 31, 2023, the Company held investments in –</p> <p>i) Shubham Housing Development Finance Company Private Limited whose carrying amount is of Rs. 73.8 crores which represents 0.53 % of the total assets of the Company.</p> <p>ii) Bundi Technologies Private Limited whose carrying amount is of Rs. 64.48 crores which represents 0.46 % of the total assets of the Company.</p> <p>These investments are not traded in the active market. The fair valuation of these investments are determined by a management appointed independent valuation expert. The process of computation of fair valuation of investment includes use of unobservable inputs and management judgements and estimates which are complex.</p> <p>The valuation of these investments were considered to be one of the areas which required significant auditor attention on and was one of the matters of most significance in the standalone financial statements due to the materiality of total value of investments to the standalone financial statements and the complexity involved in the valuation of these investments.</p>	<p><b>Design/Controls:</b></p> <ul style="list-style-type: none"> <li>➤ Obtained a detailed understanding of the management's process and controls for determining the fair valuation of this investment. The understanding was obtained by performance of walkthroughs which included inspection of documents produced by the Company and discussion with those involved in the process of valuation;</li> <li>➤ Evaluated the design and the operational effectiveness of relevant key controls over the valuation process, including the Company's review and approval of the estimates and assumptions used for the valuation including key authorization and data input controls, independent price verification performed by the management expert and model governance and valuation.</li> </ul> <p><b>Substantive tests:</b></p> <ul style="list-style-type: none"> <li>➤ Assessed the appropriateness of the valuation methodology used for these investments in accordance with the Company's policy and tested the mathematical accuracy of the management's model adopted;</li> <li>➤ Obtained the valuation report from management's expert and assessed the expert's competence, objectivity and independence in performing the valuation of these investments;</li> <li>➤ Assessed the appropriateness of the valuation model used by the management and the assumptions used relating to projected cash flows and the discounting factor.</li> <li>➤ Ensured the appropriateness of the carrying value of these investments in the financial statements and the gain or loss recognised in the financial statements as a result of such fair valuation, and</li> </ul>

Sr. No.	Key audit matters	How our audit addressed the key audit matter
		➤ Ensured the appropriateness and adequacy of disclosures in accordance with the applicable accounting standards.

**4. Information other than the Financial Statements and Auditor's Report thereon**

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Report on Corporate Governance (but does not include the Financial Statements and our auditor's report thereon) which we obtained prior to the date of this auditor's report and Board's Report, Management Discussion and Analysis and Business Responsibility and Sustainability Report, which is expected to be made available to us after that date.

Our opinion on the Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the Financial Statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

When we read the other information included in the above reports, if we conclude that there is material misstatement therein, we are required to communicate the matter to those charged with governance and determine the actions under the applicable laws and regulations.

**5. Responsibilities of Management and those Charged with Governance for the Standalone Financial Statements**

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India, including the accounting standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to

going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

## 6. Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Standards on auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- i. Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ii. Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- iii. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- iv. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Company to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- v. Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of the misstatement in the statement that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user

of the statement may be influenced. We consider quantitative materiality and qualitative factors in; (i) planning the scope of our audit work and evaluating the results of our work; and (ii) to evaluate the effects of any identified misstatements in the financial statement.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of standalone financial statements for the financial year ended March 31, 2023 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

## 7. Other Matters

Share of profit from investment in a limited liability partnership aggregating to Rs. 196 lakhs for the year ended March 31, 2023, included in the Statement, is based on the audited financial statements of such entity. These financial statements have been furnished to us by the Management and our opinion on the Statement, in so far as it relates to the amounts and disclosures included in respect of this entity, is based solely on the report of the other auditor.

Our opinion is not modified in respect of the above matter.

## 8. Report on Other Legal and Regulatory Requirements

- i. As required by the Companies (Auditor's report) Order, 2020 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.
- ii. As required by section 143 (3) of the Act, based on our audit we report that:
  - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
  - b. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
  - c. The standalone Balance Sheet, Statement of Profit and Loss including Other Comprehensive Income, the Statement of Cash Flow and Statement of Changes in Equity dealt with by this report are in agreement with the relevant books of account.
  - d. In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended;

- e. On the basis of written representations received from the directors as on March 31, 2023, taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2023, from being appointed as a director in terms of section 164 (2) of the Act.
- f. With respect to the adequacy of the internal financial controls with reference to the financial statements of the Company and the operating effectiveness of such controls, we request you to refer to our separate Report in "Annexure B" to this report. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls with reference to financial statements.
- g. With respect to the requirements of section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us the managerial remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.
- h. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
  - i. The Company has disclosed the impact of pending litigations on the financial position in its financial statements – Refer Note 38 to the financial statements;
  - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;
  - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company during the year ended March 31, 2023;
  - iv. (a) The Management has represented that to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.;  
  
(b) The Management has represented that to the best of its knowledge and belief, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.  
  
(c) Based on audit procedures that have been considered reasonable and appropriate in the circumstances; nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.

*Chartered Accountants*

- v. As stated in note 23 of the standalone financial statement, the dividend declared / paid during the year and declared during the year but paid subsequent to the year-end by the Company till the date of this report, is in compliance with Section 123 of the Act. Further, as stated in note 49 of the standalone financial statement the Board of Directors of the Company have proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The amount of dividend proposed is in accordance with section 123 of the Act.
- vi. Proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 for maintaining books of account using accounting software which has a feature of recording audit trail (edit log) facility is applicable to the Company w.e.f. April 1, 2023, and accordingly, reporting under Rule 11(g) of Companies (Audit and Auditors) Rules, 2014 is not applicable for the financial year ended March 31, 2023.

**Annexure A to the Independent Auditor's Report of even date on the standalone financial statements of Motilal Oswal Financial Services Limited**

**Referred to in paragraph [8(i)] under Report on Other Legal and Regulatory Requirements of our report of even date**

According to the information and explanations sought by us and given by the Company and the books of account and records examined by us in the normal course of audit and to the best of our knowledge and belief, we state that:

- (i) a) A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment and relevant details of Right-of-use Assets.
- B) The Company has maintained proper records showing full particulars of Intangible Assets.
- b) The Company has a program of physical verification of property, plant and equipment whereby all the items of property, plant and equipment are verified once in three years. The property, plant and equipment were not physically verified during the year by the Management as it was not due. In our opinion, the periodicity of the physical verification is reasonable having regard to the size of the Company and the nature of its assets.
- c) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the title deeds of immovable properties included in Property, Plant and Equipment are held in the name of the Company.
- d) The Company has not revalued its Property, Plant and Equipment (including Right of Use assets) or Intangible Assets during the year
- e) According to the information and explanations and representation given to us, no proceedings have been initiated or is pending against the Company during the year for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (45 of 1988) and rules made thereunder.
- (ii) a) The Company's business does not involve inventory and accordingly, paragraph 3(ii)(a) of the Order is not applicable to the Company.
- b) As disclosed in Note 16 to the financial statements, the Company has been sanctioned working capital limits in excess of five crore rupees, in aggregate, from banks on the basis of security of current assets. The Company has not obtained any sanction from financial institutions in this regard. Basis the information and explanation provided to us and basis our audit procedures undertaken, we have not come across any material difference between the information submitted in the quarterly returns / statements filed by the Company with such banks when compared with the audited/unaudited books of account and other relevant information provided by the Company.
- (iii) a) The Company is in the business of providing loans which are called as margin trading funding (MTF). According to the explanations and representations given to us by the Company, this is one of the principal business of the Company which is also described in its object clause specified in Memorandum of Association. Accordingly, clause (iii)(a) is not applicable to the Company.

- b) In our opinion, having regard to the nature of the Company's business, the investments made and the terms and conditions of the grant of all loans and advances in the nature of loans are prima facie, not prejudicial to the Company's interest. Further, during the year the Company has not provided guarantees, given security and granted loans and advances in the nature of guarantees to companies, firms, Limited Liability Partnerships or any other parties. Accordingly, the requirement to report on these is not applicable to the Company.
  - c) According to the information and explanations given to us, in case of loans given in the nature of MTF, the schedule of payment of interest has been stipulated but the schedule of repayment of principal amount of such loans are not stipulated. In respect of loans and advances in the nature of loans other than MTF given by the Company, the Company has stipulated the schedule of repayment of principal and payment of interest. Repayment of such other loans are regular.
  - d) In respect of loans granted and advances in the nature of loans provided by the Company, there is no overdue amount for more than ninety days as at the Balance Sheet date.
  - e) The Company is in the business of providing loans which are MTF. According to the explanations and representations given to us by the Company, this is one of the principal business of the Company which is also described in its object clause specified in Memorandum of Association. Accordingly, clause (iii) (e) is not applicable to the Company.
  - f) In our opinion and according to the information and explanations given to us there are no loans/advances given during the year in the nature of loans granted to promoters or related parties as defined in clause (76) of section 2 of the Companies Act, 2013 which are repayable on demand or without specifying any terms or period of repayment. Accordingly, the requirement to report on this clause is not applicable to the Company.
- (iv) In our opinion and according to the information and explanations given to us, the Company has complied with the provisions of section 185 and 186 of the Companies Act, 2013 with respect to the loans and investments. Further, as no guarantees/security has been given towards the parties specified in section 185 clause with regard to these matters are not applicable to the Company.
- (v) According to the information and explanations given to us, the Company has not accepted any deposit during the year and does not have any unclaimed deposit as at March 31, 2023 and therefore, the provisions of Sections 73 to 76 or any other relevant provisions of the Companies Act, 2013 and the rules made thereunder are not applicable to the Company. We are informed by the management that no order has been passed by the Company Law Board, National Company Law Tribunal or Reserve Bank of India or any Court or any other Tribunal against the Company in this regard.
- (vi) The maintenance of cost records has not been specified by the Central Government under Section 148(1) of the Companies Act, 2013 for the business activities carried out by the Company. Thus, reporting under paragraph 3(vi) of the Order is not applicable to the Company.
- (vii) In respect of Statutory dues:
- a) The Company has generally been regular in depositing undisputed statutory dues, including provident fund, employees' state insurance, income tax, goods and service tax,

cess and other material statutory dues applicable to it to the appropriate authorities. As explained to us, the Company did not have any dues on account of sales tax, wealth tax, duty of customs, duty of excise and value added tax.

- b) There were no undisputed amounts payable in respect of provident fund, employees' state insurance, income tax, goods and services tax, cess and other material statutory dues which were outstanding, at the year end, for a period of more than six months from the date they became payable.
- c) The details of statutory dues referred to in sub- clause (a) above which have not been deposited as on March 31, 2023, on account of disputes are given below:

Name of the Statute	Nature of Due	Amount (Rs. in Lakhs)	Amount paid under Protest (Rs. In Lakhs)	Period to which the amount relates	Forum where dispute is pending
Income Tax Act, 1961	Income Tax	43	-	F.Y 2012-13	Commissioner of Income Tax (Appeals)
Income Tax Act, 1961	Income Tax	1,922	168	F.Y 2013-14	Commissioner of Income Tax (Appeals)
Income Tax Act, 1961	Income Tax	1,229	92	F.Y 2014-15	Commissioner of Income Tax (Appeals)
Income Tax Act, 1961	Income Tax	17	-	F.Y 2015-16	Commissioner of Income Tax (Appeals)
Income Tax Act, 1961	Income Tax	19	-	F.Y 2016-17	Commissioner of Income Tax (Appeals)
Income Tax Act, 1961	Income Tax	15	-	F.Y 2017-18	Commissioner of Income Tax (Appeals)
Income Tax Act, 1961	Income Tax	699	-	F.Y 2019-20	Commissioner of Income Tax (Appeals)
	<b>Total</b>	<b>3,944</b>	<b>260</b>		

- (viii) According to the information and explanations given to us, there are no transactions which have not been recorded in the books of account but have been surrendered or disclosed as income in the tax assessments under the Income Tax Act, 1961 (43 of 1961) during the year.
- (ix) a) According to the information and explanations given to us, the Company has not defaulted in repayment of loans or borrowings or in the payment of interest thereon to any lender.
- b) Basis the information and explanation provided to us, the Company has not been declared a wilful defaulter by any bank or financial institution or other lender.

- c) The Company has not availed any term loans accordingly, reporting under paragraph 3(ix)(c) of the Order is not applicable to the Company.
- d) According to the information and explanations given to us, and the procedures performed by us, and on an overall examination of the financial statements of the company, we report that no funds raised on short-term basis have been used for long-term purposes by the company.
- e) On an overall examination of the financial statements of the Company, the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries and associate during the year.
- f) According to the information and explanations given to us and procedures performed by us, we report that the company has not raised any loans during the year on the pledge of securities held in its subsidiaries. Hence the requirement to report on clause ix (f) of the order is not applicable to the Company.
- (x) a) The Company has not raised any money by way of initial public offer or further public offer (including debt instruments) during the year and hence reporting under paragraph 3 (x)(a) of the Order is not applicable to the Company.
- b) The Company has not made any preferential allotment or private placement of shares or convertible debentures (fully, partially or optionally convertible) during the year and hence reporting under paragraph 3 (x)(b) of the Order is not applicable to the Company.
- (xi) a) According to the information, explanation and representations given to us no fraud by the Company or no fraud on the Company has been noticed or reported during the year.
- b) During the year, no report under sub-section (12) of Section 143 of the Companies Act, 2013 has been filed by secretarial auditor or by us in Form ADT – 4 as prescribed under Rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government.
- c) We have taken into consideration the whistle blower complaint received by the Company during the year (and upto the date of this report) and provided to us, while determining the nature, timing and extent of our audit procedures.
- (xii) The Company is not a nidhi company and hence reporting under paragraph 3 (xii) of the Order is not applicable to the Company.
- (xiii) According to the information and explanations given by the management, all the transactions with the related parties are in compliance with section 177 and 188 of the Act where applicable. and the details of related party transactions have been disclosed in the notes to the financial statements etc, as required by the applicable accounting standards.
- (xiv) a) In our opinion, the Company has an adequate internal audit system commensurate with the size and the nature of its business.
- b) We have taken into consideration, the internal audit reports for the period under audit issued to the Company till the date while determining the nature, timing and extent of audit procedures.
- (xv) According to the information and explanations given by the management, the Company has not entered into any non-cash transactions with directors or persons connected with them as

referred to in section 192 of the Act. Thus, paragraph 3(xv) of the Order is not applicable to the Company.

- (xvi) a) The Company is not required to be registered under section 45-IA of the Reserve Bank of India (RBI) Act, 1934.
  - b) The Company has not conducted any Non- Banking Financial or Housing Finance Activities without obtaining a valid Certificate of Registration (CoR) from Reserve Bank of India as per the Reserve Bank of India Act, 1934.
  - c) The Company is not a Core Investment Company (CIC) as defined in the regulations made by the Reserve Bank of India and hence reporting under paragraph 3 (xvi)(c) of the Order is not applicable.
  - d) According to the information and explanations given to us, there is no CIC in the Group.
- (xvii) According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not incurred cash losses during the financial year covered by our audit and the immediately preceding financial year.
- (xviii) There has been no resignation of the Statutory Auditors during the year and accordingly requirement to report on clause 3(xviii) of the order is not applicable.
- (xix) According to the information and explanations given to us and on the basis of the ageing and expected dates of realisation of financial assets and payment of financial liabilities. other information accompanying the financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that the Company is not capable of meeting its liabilities existing at the date of Balance Sheet as and when they fall due within a period of one year from the Balance Sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the Balance Sheet date, will get discharged by the Company as and when they fall due.

**Annexure B to the Independent Auditor's Report of even date on the financial statements of Motilal Oswal Financial Services Limited**

**Referred to in paragraph [8(ii)(f)] under Report on Other Legal and Regulatory Requirements of our report of even date**

**Report on the Internal Financial Controls over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

We have audited the internal financial controls over financial reporting with reference to the Financial Statements of Motilal Oswal Financial Services Limited (the "Company") as of March 31, 2023 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

**Management's Responsibility for Internal Financial Controls**

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

**Auditor's Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing as specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls and both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

### **Meaning of Internal Financial Controls over Financial Reporting**

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that:

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

### **Inherent Limitations of Internal Financial Controls over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

*Singhi & Co.*

Chartered Accountants

**Opinion**

In our opinion, to the best of our information and according to the explanations given to us the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2023 based on the criteria for internal financial control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("the Guidance Note") issued by the Institute of Chartered Accountants of India.

**Motilal Oswal Financial Services Limited**  
**Standalone Financial Statements**  
**Summary of significant accounting policies and other explanatory information**

**1A. Corporate Information**

Motilal Oswal Financial Services Limited ("MOFSL" or 'the Company') is a public limited company and incorporated under the provisions of Companies Act. The Company is domiciled in India and the addresses of its registered office and principal place of business is Motilal Oswal Tower (Mumbai).

The Company is registered with Securities and Exchange Board of India ("SEBI") under the Stock brokers and sub brokers Regulations, 1992 and is a member of Bombay Stock Exchange Limited, National Stock Exchange of India Limited, Multi Commodity Exchange of India Ltd. and National Commodity and Derivatives Exchange Limited. The Company acts as a stock broker and commodities broker to execute proprietary trades and also trades on behalf of its clients which include retail customers (including high net worth individuals), mutual funds, foreign institutional investors, financial institutions and corporate clients. It is registered with Central Depository Services (India) Limited and National Securities Depository Limited in the capacity of Depository Participant and also registered with SEBI in capacity of Research Analyst and Investment Advisor.

The Financial statements were approved for issuance by the Company's Board of Director on 27 April 2023.

**1B. Business Combination under Common Control**

A common control business combination, involving entities or businesses in which all of the combining entities or businesses are ultimately controlled by the same party or parties both before and after the business combination and where the control is not transitory, is accounted for in accordance with Appendix C to Ind AS 103 'Business Combinations'.

Business combinations involving entities or businesses under common control are accounted for using the pooling of interest method as follows:

- The assets and liabilities of the combining entities are reflected at their carrying amounts.
- No adjustments are made to reflect fair values, or recognize new assets or liabilities. Adjustments are made only to harmonize significant accounting policies.
- The financial information in the financial statements in respect of prior periods are restated as if the business combination had occurred from the beginning of the preceding period in the financial statements.
- The identity of the reserves are preserved and appear in the financial statements of the transferee in the same form in which they appeared in the financial statements of the transferor.

The difference, if any, between the amounts recorded as share capital issued plus any additional consideration in the form of cash or other assets and the amount of share capital of the transferor is transferred to capital reserve and is presented separately from other capital reserves with disclosure of its nature and purpose in the notes. (Refer Note 60 for additional details)

**Motilal Oswal Financial Services Limited**  
**Standalone Financial Statements**  
**Summary of significant accounting policies and other explanatory information**

**2. Significant accounting policies**

The principal accounting policies applied in the preparation of these financial statements are set out below.

**2.1 Basis of preparation**

**(i) Compliance with Ind AS**

The financial statements of the Company comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (“the Act”) read with Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time and other relevant provisions of the Act.

The financial statements have been prepared using the significant accounting policies and measurement bases summarized as below. Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to the existing accounting standard requires a change in the accounting policy hitherto in use.

**(ii) Historical cost convention**

The financial statements have been prepared on a historical cost basis, except for the following:

- Certain Financial instruments are measured at fair value;
- Assets held for sale – measured at fair value less cost to sell;
- Defined benefit plans – plan assets measured at fair value; and
- Share based payments

**(iii) Preparation of financial statements**

The Company is covered in the definition of Non-Banking Financial Company as defined in Companies (Indian Accounting Standards) (Amendment) Rules, 2016. As per the format prescribed under Division III of Schedule III to the Companies Act, 2013 on 11 October 2018 (as amended), the Company presents the Balance Sheet, the Statement of Profit and Loss and the Statement of Changes in Equity in the order of liquidity. A maturity analysis of recovery or settlement of assets and liabilities within 12 months after the reporting date and more than 12 months after the reporting date is presented in note 57.

**(iv) Use of estimates and judgments**

The preparation of financial statements in conformity with Ind AS which requires management to make estimates, judgments, and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities (including contingent liabilities) and disclosures as of the date of financial statements and the reported amounts of revenue and expenses for the reporting period. Actual results could differ from these estimates. Accounting estimates and underlying assumptions are reviewed on an ongoing basis and could change from period to period. Appropriate changes in estimates are recognized in the period in which the Company becomes aware of the changes in circumstances surrounding the estimates. Any revisions to accounting estimates are recognized prospectively in the period in which the estimate is revised and future periods. The estimates and judgments that have significant impact on carrying amount of assets and liabilities at each balance sheet date are discussed at note 3.

**Motilal Oswal Financial Services Limited**  
**Standalone Financial Statements**  
**Summary of significant accounting policies and other explanatory information**

(v) Determining whether an arrangement contains a lease

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgment. The Company uses significant judgment in assessing the lease term (including anticipated renewals) and the applicable discount rate. The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option.

## 2.2 Revenue Recognition

The Company recognizes revenue from contracts with customers based on a five step model as set out in Ind AS 115, Revenue from Contracts with Customers, to determine when to recognize revenue and at what amount. Revenue is measured based on the consideration specified in the contract with a customer. Revenue from contracts with customers is recognised when services are provided and it is highly probable that a significant reversal of revenue is not expected to occur.

Revenue is measured at fair value of the consideration received or receivable. Revenue is recognised when (or as) the Company satisfies a performance obligation by transferring a promised service (i.e. an asset) to a customer. An asset is transferred when (or as) the customer obtains control of that asset.

When (or as) a performance obligation is satisfied, the Company recognizes as revenue the amount of the transaction price (excluding estimates of variable consideration) that is allocated to that performance obligation.

The Company applies the five-step approach for recognition of revenue:

- Identification of contract(s) with customers;
- Identification of the separate performance obligations in the contract;
- Determination of transaction price;
- Allocation of transaction price to the separate performance obligations; and
- Recognition of revenue when (or as) each performance obligation is satisfied.

(i) Brokerage fee income

It is recognised on trade date basis in accordance with the terms of contract and is exclusive of goods and service tax and securities transaction tax (STT) wherever applicable.

(ii) Research and advisory income

Research and advisory income is accounted for on an accrual basis in accordance with the terms of the respective agreements entered into between the Company and the counter party.

(iii) Interest income

Interest income on a financial asset at amortised cost is recognised on a time proportion basis taking into account the amount outstanding and the effective interest rate ('EIR'). The EIR is the rate that exactly discounts estimated future cash flows of the financial assets through the expected life of the financial asset or, where appropriate, a shorter period, to the net carrying amount of the financial instrument. The internal rate of return on financial assets after netting off the fees received and cost incurred approximates the effective interest rate method of return for the financial asset. The future cash flows are estimated taking into account all the contractual terms of the instrument.

(iv) Dividend income

Dividend income is recognized in the Statement of profit and loss on the date that the Company's right to receive payment is established, it is probable that the economic benefits associated with the dividend will

flow to the entity and the amount of dividend can be reliably measured. This is generally when the shareholders approve the dividend.

*(v)* Portfolio management commission income

Portfolio management commissions is recognised on an accrual basis in accordance with the terms of the agreement entered with asset management company.

*(vi)* Rental income

Lease income from operating leases where the Company is a lessor is recognized in income on a straight-line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases. The respective leased assets are included in the balance sheet based on their nature.

*(vii)* Profit and loss from partnership firm / LLP

Profit and loss from partnership firm / LLP are accounted on accrual basis and as per terms of respective Partnership / LLP agreement.

*viii)* Depository services income

Revenue from depository services on account of annual maintenance charges have been accounted for over the period of the performance obligation.

Revenue from depository services on account of transaction charges is recognized point in time when the performance obligation is satisfied.

*ix)* Delayed payment charges

Interest is earned on delayed payments from customers and is recognised on a time proportion basis taking into account the amount outstanding from customers and the rates applicable.

### **2.3 Income Tax**

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses. Current and deferred tax is recognized in Statement of profit and loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity, respectively.

#### **Current Tax**

Current tax is measured at the amount of tax expected to be payable on the taxable income for the year as determined in accordance with the provisions of the Income Tax Act, 1961. Current tax assets and current tax liabilities are off set when there is a legally enforceable right to set off the recognized amounts and there is an intention to settle the asset and the liability on a net basis.

#### **Deferred Tax**

Deferred tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. However, deferred tax liabilities are not recognized if they arise from the initial recognition of goodwill. Deferred tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

Deferred tax assets are recognized for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilize those temporary differences and losses.

Deferred tax liabilities are not recognized for temporary differences between the carrying amount and tax bases of investments in subsidiaries and associates where the Company is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority.

## **2.4 Leases**

### **Company as a Lessee**

For any new contracts entered into on or after 1 April 2019, the Company considers whether a contract is, or contains a lease. A lease is defined as 'a contract, or part of a contract, that conveys the right to use an asset (the underlying asset) for a period of time in exchange for consideration'. The Company assess whether it has the right to direct 'how and for what purpose' the asset is used throughout the period of use.

#### **Measurement and recognition of leases as a lessee**

The Company has adopted Ind AS 116 "Leases" using the cumulative catch-up approach. Company has recognized Right of Use assets as at 1 April 2019 for leases previously classified as operating leases and measured at an amount equal to lease liability (adjusted for related prepayments/ accruals). The Company has discounted lease payments using the incremental borrowing rate for measuring the lease liability.

The Company depreciates the right-of-use assets on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The Company also assesses the right-of-use asset for impairment when such indicators exist.

Lease payments included in the measurement of the lease liability are made up of fixed payments (including in substance fixed), variable payments based on an index or rate, amounts expected to be payable under a residual value guarantee and payments arising from options reasonably certain to be exercised.

Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. It is remeasured to reflect any reassessment or modification, or if there are changes in in-substance fixed payments

When the lease liability is remeasured, the corresponding adjustment is reflected in the right-of-use asset, or profit and loss if the right-of-use asset is already reduced to zero.

The Company has elected to account for short-term leases and leases of low-value assets using the practical expedients. Instead of recognising a right-of-use asset and lease liability, the payments in relation to these are recognized as an operating expense in Statement of profit and loss on a straight-line basis over the lease term.

When the Company revises its estimate of the term of any lease, it adjusts the carrying amount of the lease liability to reflect the payments to make over the revised term, which are discounted using a revised discount rate. The carrying value of lease liabilities is similarly revised when the variable element of future lease payments dependent on a rate or index is revised, except the discount rate remains unchanged. In both cases an equivalent adjustment is made to the carrying value of the right-of-use asset, with the revised carrying amount being amortised over the remaining (revised) lease term. If the carrying amount of the right-of-use asset is adjusted to zero, any further reduction is recognised in statement of profit and loss.

For contracts that both convey a right to the Company to use an identified asset and require services to be provided to the Company by the lessor, the Company has elected to account for the entire contract as a lease, i.e. it does allocate any amount of the contractual payments to, and account separately for, any services provided by the supplier as part of the contract

**Motilal Oswal Financial Services Limited**  
**Standalone Financial Statements**  
**Summary of significant accounting policies and other explanatory information**

**Company as a Lessor**

Leases for which the Company is a lessor is classified as a finance or operating lease. Whenever the term of the lease transfers substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

**2.5 Cash and cash equivalents**

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Outstanding bank overdrafts are not considered integral part of the Company's cash management.

**2.6 Financial instruments**

**Initial recognition and measurement:**

Financial assets and financial liabilities are recognized when the entity becomes a party to the contractual provisions of the instrument. Regular way purchases and sales of financial assets are recognized on trade-date, the date on which the Company commits to purchase or sell the asset.

At initial recognition, the Company measures a financial asset or financial liability at its fair value plus or minus, in the case of a financial asset or financial liability not at fair value through profit or loss, transaction costs that are incremental and directly attributable to the acquisition or issue of the financial asset or financial liability, such as fees and commissions. Transaction costs of financial assets and financial liabilities carried at fair value through profit or loss are expensed in Statement of profit and loss. Immediately after initial recognition, an expected credit loss allowance (ECL) is recognized for financial assets measured at amortized cost.

When the fair value of financial assets and liabilities differs from the transaction price on initial recognition, the entity recognizes the difference as follows:

- a) When the fair value is evidenced by a quoted price in an active market for an identical asset or liability (i.e. a Level 1 input) or based on a valuation technique that uses only data from observable markets, the difference is recognized as a gain or loss.
- b) In all other cases, the difference is deferred and the timing of recognition of deferred day one profit or loss is determined individually. It is either amortized over the life of the instrument, deferred until the instrument's fair value can be determined using market observable inputs, or realized through settlement.

When the Company revises the estimates of future cash flows, the carrying amount of the respective financial assets or financial liability is adjusted to reflect the new estimate discounted using the original effective interest rate. Any changes are recognized in Statement of profit and loss.

**Fair value of financial instruments:**

Some of the Company's assets and liabilities are measured at fair value for financial reporting purpose. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date regardless of whether that price is directly observable or estimated using another valuation technique.

**Motilal Oswal Financial Services Limited**  
**Standalone Financial Statements**  
**Summary of significant accounting policies and other explanatory information**

Fair value measurements under Ind AS are categorized into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurement are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company can access at measurement date
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly; and
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs) that the Company can access at measurement date.

Information about the valuation techniques and inputs used in determining the fair value of various assets and liabilities are disclosed in note 54.

**Financial assets**

*(i)* **Classification and subsequent measurement**

The Company has applied Ind AS 109 and classifies its financial assets in the following measurement categories:

- Fair value through profit or loss (FVTPL);
- Fair value through other comprehensive income (FVOCI); or
- Amortised cost.

**1. Financial assets carried at amortised cost**

A financial asset is measured at the amortised cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in interest income in the Statement of Profit and Loss.

**2. Equity instruments**

Equity instruments are instruments that meet the definition of equity from the issuer's perspective; that is, instruments that do not contain a contractual obligation to pay and that evidence a residual interest in the issuer's net assets.

All investments in equity instruments classified under financial assets are initially measured at fair value, the Company may, on initial recognition, irrevocably elect to measure the same either at FVOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis. Fair value changes on an equity instrument is recognised as revenue from operations in the Statement of Profit and Loss unless the Company has elected to measure such instrument at FVOCI. Fair value changes excluding dividends, on an equity instrument measured at FVOCI are recognized in OCI. Amounts recognised in OCI are not subsequently reclassified to the Statement of Profit and Loss. Dividend income on the investments in equity instruments are recognised as 'Revenue from operations' in the Statement of Profit and Loss.

### **3. Investment in Subsidiaries**

Investments in subsidiaries, joint ventures and associates are recognised at cost as per Ind AS 27. Except where investments accounted for at cost shall be accounted for in accordance with Ind AS 105, Non-current Assets Held for Sale and Discontinued Operations, when they are classified as held for sale

### **4. Investments in mutual funds**

Investments in mutual funds are measured at fair value through profit and loss (FVTPL).

#### **(ii) Impairment**

The Company recognizes impairment allowances using Expected Credit Losses ("ECL") method on all the financial assets that are not measured at Fair value through profit or loss (FVTPL):

ECL are probability-weighted estimate of credit losses. They are measured as follows:

- Financials assets that are not credit impaired – as the present value of all cash shortfalls that are possible within 12 months after the reporting date.
- Financials assets with significant increase in credit risk - as the present value of all cash shortfalls that result from all possible default events over the expected life of the financial assets.
- Financials assets that are credit impaired – as the difference between the gross carrying amount and the present value of estimated cash flows.

Financial assets are written off/ fully provided for when there is no reasonable of recovering financial assets in its entirety or a portion thereof.

However, financial assets that are written off could still be subject to enforcement activities under the Company's recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognised in the Statement of Profit and Loss.

#### **(iii) Derecognition**

A financial asset is derecognised only when:

The Company has transferred the rights to receive cash flows from the financial asset or retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the Company has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the Company has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

### **Financial liabilities**

#### **(i) Initial recognition and measurement**

All financial liabilities are recognised when the Company becomes a party to the contractual provisions of the financial instrument and are measured initially at fair value adjusted for transaction costs.

**Motilal Oswal Financial Services Limited**  
**Standalone Financial Statements**  
**Summary of significant accounting policies and other explanatory information**

**(ii) Subsequent measurement**

Financial liabilities are subsequently measured at amortised cost using the EIR method. Financial liabilities carried at fair value through profit or loss is measured at fair value with all changes in fair value recognised in the Statement of Profit and Loss.

**(iii) Derecognition**

A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or expires.

**2.7 Offsetting financial instruments**

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

**2.8 Financial guarantee contracts and loan commitments**

Financial guarantee contracts are contracts that require the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due, in accordance with the terms of a debt instrument. Such financial guarantees are given to banks, financial institutions and others on behalf of customers to secure loans, overdrafts and other banking facilities.

Financial guarantee contracts are initially measured at fair value and subsequently measured at the higher of:

- The amount of the loss allowance; and
- The premium received on initial recognition less income recognized in accordance with the principles of Ind AS 115.

**2.9 Property, plant and equipment**

Property, plant and equipment are stated at cost of acquisition less accumulated depreciation. Cost includes expenditure that is directly attributable to the acquisition and installation of the assets.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are charged to Statement of profit and loss during the reporting period in which they are incurred.

Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under other non-financial assets and the cost of assets not put to use before such date are disclosed under 'Capital work-in progress'

**Motilal Oswal Financial Services Limited**  
**Standalone Financial Statements**  
**Summary of significant accounting policies and other explanatory information**

**Depreciation methods, estimated useful lives and residual value**

Depreciation is calculated using the straight-line method to allocate their cost, net of their residual values, over their estimated useful life prescribed under Schedule II to the Companies Act, 2013. The Company provides pro-rata depreciation from the month in which the asset is first put to use, till date the assets are sold or disposed. Leasehold improvements are amortised over the term of underlying lease.

Assets	Useful life
Building	60 years
Furniture and Fixtures	10 years
Office Equipment's	5 years
Plant and Machinery	3 to 5 years
Vehicles	8 to 10 years
Leasehold Improvements	Over the primary lease period or useful life. Whichever is less.

**Derecognition:**

The carrying amount of an item of property, plant and equipment is derecognized on disposal or when no future economic benefits are expected from its use or disposal. Gains and losses on disposals are determined by comparing proceeds with carrying amount and are recognized in the statement of profit and loss when the asset is derecognized.

**2.10 Intangible assets**

**Measurement at recognition:**

Intangible assets are recognized where it is probable that the future economic benefit attributable to the assets will flow to the Company and its cost can be reliably measured. Intangible assets are stated at cost of acquisition less accumulated amortization and impairment, if any.

Expenditure incurred on acquisition/development of intangible assets which are not put/ready to use at the reporting date is disclosed under intangible assets under development. The Company amortizes intangible assets on a straight-line basis over the five years commencing from the month in which the asset is first put to use. The Company provides pro-rata amortization from the day the asset is put to use.

Asset	Useful life
Computer Software	5 years
Customer rights	5 years

**Derecognition:**

The carrying amount of an intangible asset is derecognized on disposal or when no future economic benefits are expected from its use or disposal. Gains and losses on disposals are determined by comparing proceeds with carrying amount and are recognized in the statement of profit and loss when the asset is derecognized.

**2.11 Investment Property**

Property that is held for long-term rental yields or for capital appreciation or both, and that is not used by the group for business purposes, is classified as investment property. Investment property is measured initially at its cost, including related transaction costs and where applicable borrowing costs. Subsequent expenditure is capitalised to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the group and the cost of the item can be measured

reliably. All other repairs and maintenance costs are expensed when incurred. When part of an investment property is replaced, the carrying amount of the replaced part is derecognized.

Depreciation on investment property is calculated using the straight-line method to write down the cost of property and equipment to their residual values over their estimated useful lives in the manner prescribed in Schedule II of the Act.

### **2.12 Impairment of non-financial assets**

At each reporting date, the Company assesses whether there is any indication based on internal/external factors, that an asset may be impaired. If any such indication exists, the Company estimates the recoverable amount of the asset. The recoverable amount of asset is the higher of its fair value or value in use. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects the current market assessment of time value of money and the risks specific to it. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount and the reduction is treated as an impairment loss and is recognised in the statement of profit and loss. All assets are subsequently reassessed for indications that an impairment loss previously recognised may no longer exist. An impairment loss is reversed if there has been a change in estimates used to determine the recoverable amount. Such a reversal is made only to the extent that the assets carrying amount would have been determined, net of depreciation or amortization, had no impairment loss been recognised.

### **2.13 Provisions and contingencies:**

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the reporting date.

Provisions are determined by discounting the expected future cash flows (representing the best estimate of the expenditure required to settle the present obligation at the balance sheet date) at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognized as finance cost. Expected future operating losses are not provided for.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made. Contingent assets are neither recognised nor disclosed in the financial statements.

### **2.14 Employee benefits**

#### **(i) Short-term obligations**

Short-term employee benefits are recognized as an expense at the undiscounted amount in the Statement of Profit and Loss for the year in which the related services are rendered. The Company recognises the costs of bonus payments when it has a present obligation to make such payments as a result of past events and a reliable estimate of the obligation can be made.

### **Compensated absences**

The Company does not have a policy of encashment of unavailed leaves for its employees but are permitted to carry forward subject to a prescribed maximum day. Provision is made on actual basis for expected cost of accumulating compensated absences as a result of unused leave entitlement which has accumulated as at the balance sheet date.

### **(ii) Post-employment obligations**

#### **Defined contribution plan:**

Contribution paid/payable to the recognised provident fund and Employee State Insurance Corporation, which is a defined contribution scheme, is charged to the Statement of Profit and Loss in the period in which they occur.

#### **Defined benefits plan:**

Gratuity is post-employment benefit and is in the nature of defined benefit plan. The liability recognised in the Balance Sheet in respect of gratuity is the present value of defined benefit obligation at the Balance Sheet date together with the adjustments for unrecognised actuarial gain or losses and the past service costs. The defined benefit obligation is calculated at or near the Balance Sheet date by an independent actuary using the projected unit credit method. Actuarial gains and losses comprise experience adjustment and the effects of changes in actuarial assumptions are recognized in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

#### **National Pension Scheme and Employee State Insurance Corporation**

Contribution paid/payable to the recognised NPS and ESIC, which is a defined contribution scheme, is charged to the Statement of Profit and Loss in the period in which they occur.

### **(iii) Other long-term employee benefits obligations**

#### **Heritage club benefit**

Heritage club benefits are recognised as liability at the present value of defined benefits obligation as at the Balance Sheet date. The defined obligation benefit is calculated at the Balance Sheet date by an independent actuary using the projected unit credit method.

## **2.15 Share-based payments**

### **Employee Stock Option Scheme (ESOS)**

The Employees Stock Options Scheme ("the Scheme") has been established by the Company. The Scheme provides that employees are granted an option to subscribe to equity share of the Company that vests on the satisfaction of vesting conditions. The fair value of options granted under ESOS is recognized as an employee benefits expense with a corresponding increase in equity. The total amount to be expensed is determined reference to the fair value of the options granted excluding the impact of any service conditions. Information about the valuation techniques and inputs used in determining the sale value of assets and liabilities disclosed in note 52.

The total expense is recognized over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied. At the end of each period, the entity revises its estimates of the number of options that are expected to vest based on the service conditions. It recognizes the impact of the revision to original estimates, if any, in Statement of profit and loss, with a corresponding adjustment to equity.

**Motilal Oswal Financial Services Limited**  
**Standalone Financial Statements**  
**Summary of significant accounting policies and other explanatory information**

The stock options of the Subsidiary Company, granted to employees pursuant to the Company's Stock Options Schemes, are measured at the fair value of the options at the grant date as per Black and Scholes model. The fair value of the options is treated as discount and accounted as employee compensation cost, with a corresponding increase in other equity, over the vesting period on a straight line basis. The amount recognised as expense in each year is arrived at based on the number of grants expected to vest. If a grant lapses after the vesting period, the cumulative discount recognised as expense, with a corresponding increase in other equity, in respect of such grant is transferred to the General reserve within other equity.

## **2.16 Foreign currency translation**

### **(i) Functional and presentation currency**

Items included in financial statements of the Company are measured using the currency of the primary economic environment in which the Company operates ("the functional currency"). The financial statements are presented in Indian rupee (INR), which is MOFSL's functional and presentation currency.

### **(ii) Translation and balances**

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are recognized in Statement of profit and loss.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss. For example, translation differences on non-monetary assets and liabilities such as equity instruments held at fair value through profit or loss are recognized in Statement of profit and loss as part of the fair value gain or loss and translation differences on non-monetary assets such as equity investments classified as FVOCI are recognized in other comprehensive income.

## **2.17 Dividends**

Provision is made for the amount of any dividend declared, being appropriately authorized and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

## **2.18 Earnings per share**

### **a) Basic earnings per share**

Basic earnings per share is calculated by dividing the net profit for the period (excluding other comprehensive income) attributable to equity share holders of the Company by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus element in equity shares issued during the year.

### **b) Diluted earnings per share**

Diluted earnings per share is computed by dividing the net profit for the period attributable to equity shareholders by the weighted average number of shares outstanding during the period as adjusted for the effects of all diluted potential equity shares except where the results are anti-dilutive.

## **2.19 Borrowing Costs**

Expenses related to borrowing cost are accounted using effective interest rate. Borrowing costs are interest and other costs (including exchange differences relating to foreign currency borrowings to the extent that

they are regarded as an adjustment to interest costs) incurred in connection with the borrowing of funds. Borrowing costs directly attributable to acquisition or construction of an asset which necessarily take a substantial period of time to get ready for their intended use are capitalised as part of the cost of that asset. Other borrowing costs are recognised as an expense in the period in which they are incurred. The difference between the discounted amount mobilised and redemption value of commercial papers is recognised in the statement of profit and loss over the life of the instrument using the EIR.

### **2.20 Rounding of amounts**

All amounts disclosed in the financial statements and notes have been rounded off to the nearest lakhs as per the requirements.

### **2.21 Events after reporting date**

Where events occurring after the balance sheet date provide evidence of conditions that existed at the end of the reporting period, the impact of such events is adjusted within the financial statements. Otherwise, events after the balance sheet date of material size or nature are only disclosed.

## **3. Key accounting estimates and judgements**

The preparation of financial statements requires management to make judgments, estimates and assumptions in the application of accounting policies that affect the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on ongoing basis. Any changes to accounting estimates are recognized prospectively.

Information about critical judgments in applying accounting policies, as well as estimates and assumptions that have the most significant effect on the amounts recognised in the financial statements are included in the following notes:

(a) Business Model Assessment: Classification and measurement of financial assets depends on the results of the SPPI (Solely Payments of Principal and Interest) and the business model test. The Company determines the business model at a level that reflects how groups of financial assets are managed together to achieve a particular business objective. This assessment includes judgement reflecting all relevant evidence including how the performance of the assets is evaluated and their performance measured, the risks that affect the performance of the assets and how these are managed. The Company monitors financial assets measured at amortised cost or fair value through other comprehensive income that are derecognised prior to their maturity to understand the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held. Fair value through profit or loss (FVTPL), where the assets are managed in accordance with an approved investment strategy that triggers purchase and sale decisions based on the fair value of such assets. Such assets are subsequently measured at fair value, with unrealised gains and losses arising from changes in the fair value being recognised in the standalone statement of profit and loss in the period in which they arise.

(b) Provision and contingent liability: On an ongoing basis, Company reviews pending cases, claims by third parties and other contingencies. For contingent losses that are considered probable, an estimated loss is recorded as an accrual in financial statements. Loss Contingencies that are considered possible are not provided for but disclosed as Contingent liabilities in the financial statements. Contingencies the likelihood of which is remote are not disclosed in the financial statements. Gain contingencies are not recognized until the contingency has been resolved and amounts are received or receivable.

(c) Effective Interest Rate (EIR) Method : The Company's EIR methodology, recognises interest income / expense using a rate of return that represents the best estimate of a constant rate of return over the expected behavioral life of loans given / taken and recognises the effect of potentially different interest rates at various stages and other characteristics of the financial instruments.

**Motilal Oswal Financial Services Limited**  
**Standalone Financial Statements**  
**Summary of significant accounting policies and other explanatory information**

This estimation, by nature, requires an element of judgment regarding the expected behavior and life-cycle of the instruments, as well expected changes to India's base rate and other fee income/ expense that are integral parts of the instrument.

(d) Allowance for impairment of financial asset: The Company applies expected credit loss model (ECL) for measurement and recognition of impairment loss. The Company recognises lifetime expected losses for all contract assets and / or all trade receivables that do not constitute a financing transaction. At each reporting date, the Company assesses whether the loans have been impaired. The Company is exposed to credit risk when the customer defaults on his contractual obligations. For the computation of ECL, the loan receivables are classified into three stages based on the default and the aging outstanding. The Company recognises life time expected credit loss for trade receivables and has adopted simplified method of computation as per Ind AS 109. The Company considers outstanding overdue for more than 90 days for calculation of expected credit loss.

(e) Recognition of deferred tax assets: Deferred tax assets are recognised for unused tax-loss carry forwards and unused tax credits to the extent that realisation of the related tax benefit is probable. The assessment of the probability with regard to the realisation of the tax benefit involves assumptions based on the history of the entity and budgeted data for the future.

(f) Defined benefit plans: The cost of defined benefit plans and the present value of the defined benefit obligations are based on actuarial valuation using the projected unit credit method. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long - term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

(g) Share based payment: The Company account for share based payment by measuring and recognizing as compensation expense the fair value of all share-based payment awards made to employees based on estimated grant date fair values. The determination of fair value involves a number of significant estimates. The Company uses the Black Scholes option pricing model to estimate the value of employee stock options which requires a number of assumptions to determine the model inputs. These include the expected volatility of Company's stock and employee exercise behavior which are based on historical data as well as expectations of future developments over the term of the option. As stock-based compensation expense is based on awards ultimately expected to vest. Management's estimate of exercise is based on historical experience but actual exercise could differ materially as a result of voluntary employee actions and involuntary actions which would result in significant change in our share based compensation expense amounts in the future.

(h) Property, plant and equipment and Intangible Asscts: Management reviews the estimated useful lives and residual values of the assets annually in order to determine the amount of depreciation to be recorded during any reporting period. The useful lives and residual values as per schedule II of the Companies Act, 2013 or are based on the Company's historical experience with similar assets and taking into account anticipated technological changes, whichever is more appropriate.

(i) Leases - The Company evaluates if an arrangement qualifies to be a lease as per IND AS 116.

- The Company determines lease term as a non-cancellable period of a lease, together with both the period covered by an option to extend the lease if the Company is reasonably certain to exercise lessee options.

- The determination of the incremental borrowing rate used to measure lease liabilities.

Pursuant to the Order dated 11 March 2022 passed by the Hon'ble National Company Law Tribunal, Mumbai Bench ("NCLT"), the Scheme of Arrangement between Passionate Investment Management Private Limited ("the Transferor Company 1" or "PIMPL") and MOPE Investment Advisors Private Limited ("the Transferor Company 2" or "the Demerged Company 1" or "the Transferor Company 3" or "MOPE") and Motilal Oswal Real Estate Investment Advisors Private Limited ("the Transferor Company 2" or "MORE") and Motilal Oswal Real Estate Investment Advisors II Private Limited ("the Demerged Company 2" or "the Transferor Company 4" or "MORE II") and MO Alternate Investment Advisors Private Limited ("the Resulting Company" or "MO Alternate") and Motilal Oswal Financial Services Limited ("the Transferee Company 1" or "the Holding Company of the Resulting Company" or "MOFSL") and their respective Shareholders (the Scheme) was made effective on March 30, 2022. Further, the Company had allotted new 18,68,445 equity shares to the shareholders of the transferor Companies on March 30, 2022. The said shares were pending as on 31 March 2022 for listing and were forming part of Public category. Subsequently it got listed on 17 May 2022.

Issued capital is net off of buyback of shares, shares acquired and cancelled in the scheme of arrangement and re-issuance of shares.

**23.1 Terms/rights attached to shares**  
**Equity shares :**

The Company has one class of equity shares having a par value of Re. 1 each (previous year: having a par value of Re. 1 each). Each holder of equity shares is entitled to one vote per share. In the event of liquidation of the Company, the holder of the equity shares will be entitled to receive any of the remaining assets of the Company, after distribution of all the preferential amounts. However, no such preferential amounts exists currently. The distribution will be in proportion to the number of equity shares held by the shareholders. The Company declares and pays dividend in Indian rupees. The dividend proposed by the Board of Directors is subject to the approval of shareholders in the ensuing Annual General Meeting.

During the year ended 31 March 2023, dividend recognized as distribution to equity shareholders was Rs. 10.00 per share consisting of final dividend of Rs. 3.00 per share for previous year ended 31 March 2022 and interim dividend of Rs. 7 per share for year ended 31 March 2023. The total dividend appropriated amounts to Rs.14,823 lakhs (Previous Year: Rs.7,365 lakhs)

**23.2 Reconciliation of number of shares outstanding**

<b>Balance at the end of the reporting year</b>	<b>3,44,331</b>	<b>3,07,292</b>

**Note 24: Reserve & surplus- continued**

# As per Para 78 of scheme of arrangement, all costs, charges, taxes including duties, levies and all other expenses, if any (save as expressly otherwise agreed) arising out of or incurred in carrying out and implementing Part B of the Scheme and matters incidental thereto shall be borne by the Promoters of the Transferor Company 1 i.e. Passionate Investment Management Private Limited/Transferor Company 1 and no cost shall be incurred by public shareholders of the Transferee Company 1 i.e., Motilal Oswal Financial Services Limited.

In line with above paragraph, Transferor Company 1 has created a provision for stamp duty payable of Rs 3,000 lakhs on the transfer of shareholding from PIMPL to its shareholders and simultaneously claiming Deferred tax benefit of Rs 755 lakhs thereon. The said expense has not been routed through Profit and Loss statement but utilized from reserves of PIMPL, and corresponding FD has been created to give the effect. Thus there is no impact on the profit and loss account of the merged entity and is cashflow neutral to the shareholders of the transferor and transferee company with respect to the retrospective accounting.

Thus, Transferor Company 1 (PIMPL) has created sufficient Price Reserve pursuant to scheme of merger against which the Stamp duty net of taxes of Rs. 2,245 lakhs can be reduced to that extent.

**Other comprehensive income**

Balance at the beginning of the reporting year	32,396	30,338
Add : Other comprehensive income for the year	(3,514)	2,058
Less : Transfer to general reserve	(18,957)	-
Balance at the end of the reporting year	<b>9,925</b>	<b>32,396</b>
	<b>4,43,875</b>	<b>4,22,720</b>

**Capital Redemption reserve**

The capital redemption reserve is created to be utilised towards redemption of preference shares and it also includes addition arising on account of buyback of shares. The reserve will be utilised in accordance with provision of the Act.

**Capital reserve**

It has been created during the Business Combinations in earlier periods.

**Securities Premium**

Securities premium account is used to record the premium received on issue of shares and it also includes transfer from ESOS reserve when the options are exercised. The reserve will be utilised in accordance with the provisions of the Act.

**Share based payment reserve**

Share based payment expense pertaining to outstanding portion of the option not yet exercised.

**General reserve**

The general reserve is used from time to time to transfer profits from retained earnings for appropriation purposes. As the general reserve is created by a transfer from one component of equity to another and is not an item of other comprehensive income, items included in the general reserve will not be reclassified subsequently to statement of profit and loss. General reserve is used to transfer to debenture redemption reserve.

**Statutory reserve**

These reserve represent the identity of reserves transferred on merger from PIMPL.

**Retained earnings**

Retained earnings represents surplus/accumulated earnings of the Company and are available for distribution to shareholders.

**Other comprehensive income**

Other comprehensive income consist of gain / (loss) of equity instruments carried through FVTOCI.

**Note 38: Contingent liability and commitment (to the extent not provided for)**

Particulars	As at	As at
	31 March 2023	31 March 2022
<b>Contingent Liabilities:</b>		
(i) Guarantees / securities given (Refer note 2)	3,23,380	1,28,258
(ii) Demand in respect of income tax matters for which appeal is pending (Refer note b)	1,920	2,982
(iii) Claims against the company (Refer note c)	992	725
<b>Capital &amp; other commitments:</b>		
(i) Estimated amount of contracts remaining to be executed on capital account (Net of advances)	4,406	2,123
(ii) Uncalled liability on shares and other investments partly paid:		
1) India Business Excellence Fund III		361
2) India Realty Excellence Fund IV	-	140
3) India Business Excellence Fund IV	270	450
4) India Realty Excellence Fund V	130	365

**(a) Guarantees and securities given**

The Company has provided bank guarantees aggregating to Rs. 3,23,380 lakhs (Previous year: Rs. 1,28,258 lakhs) as on 31 March 2023 for the following purposes to:

- National Stock exchange - Rs. 2,87,375 lakhs (Previous year: Rs. 1,26,668 lakhs) for meeting margin requirements
- NCDDEX - Rs. 4,500 lakhs (Previous year: Nil) for meeting margin requirements.
- MCS - Rs. 30,000 lakhs (Previous year: Nil) for meeting margin requirements.
- Unique Identification Authority - Rs. Nil (Previous year: Rs. 25 lakhs) for security deposit.
- Hindustan Industries Limited - Rs. 1,500 lakhs (Previous year: Rs. 1,500 lakhs) for margin deposit.
- Municipal Corporation of Greater Mumbai - Rs. 5 lakhs (Previous year: Rs. 5 lakhs) for security deposit
- Bombay High Court - Rs. Nil (Previous year: Rs. 55 lakhs) for security deposit.
- Bank of Maharashtra - Rs. Nil (Previous year: Rs. 5 lakhs) for security deposit

(b) Demand in respect of income tax matters for which appeal is pending is Rs. 1,920 lakhs (Previous year: Rs. 2,982 lakhs). This is disputed by the Company and hence not provided for in the books of accounts. The Company has paid demand by way of deposit (it doesn't include Income Tax refund adjusted against demand raised) of Rs. 451 lakhs (Previous year: Rs. 451 lakhs) till date. Above liability does not include interest u/s 234B and 234C, as the same depends on the outcome of the demand.

The Company is contesting the demands and the management believes that its position will likely be upheld in the appellate process. No tax expenses has been accrued in the financial statement for the tax demand raised. The management believes that ultimate outcome of this proceeding will not have a material adverse effect on the Company's financial position and results of operations.

**Employees' Stock Options Scheme (ESOS):**

Particulars	Scheme V	Scheme VI	Scheme VII	Scheme VIII	Scheme IX
Date of grant	Various Dates	Various Dates	Various Dates	Various Dates	Various Dates
Date of board approval	Various Dates	Various Dates	Various Dates	Various Dates	Various Dates
Date of Shareholder's approval	4 December 2007	8 July 2008	22 August 2014	27 July 2017	9-Aug-2021
Method of settlement	Equity shares	Equity shares	Equity shares	Equity shares	Equity Shares
Vesting period	1 year to 5 years	1 year to 5 years	1 year to 7 years	1 year to 4 years	1 Years to 6 Years
Weighted average remaining contractual life (Vesting period)					
Granted but not vested	3.59 years (Previous year 0 years)	4.62 years (Previous year 5.67 years)	4.58 years (Previous year 5.67 years)	4.27 years (Previous year 4.75 years)	2.25 years (Previous year 0.13 years)
Vested but not exercised	0.75 years (Previous year 0 years)	1 years (Previous year 1.62 years)	0.41 years (Previous year 1.14 years)	0.79 years (Previous year 0.35 years)	0.02 years (Previous year 0 years)
Weighted average share price at the date of exercise for stock options exercised during the year	Rs. 777.40 (Previous year Rs. 539.43)	NA (Previous year Rs. 572.3)	Rs. 746.87 (Previous year Rs.555.35)	Rs. 742.04 (Previous year Rs. 557.96)	Rs. 662.04 (Previous year. NA)
Exercise period	Within 1 to 3 years of vesting of options				
Vesting conditions	Vesting of options would be subject to continued employment with the Company and/or its subsidiary and thus the options would vest on passage of time. In addition to this, the Remuneration/ Compensation Committee may also specify certain performance parameters subject to which the options would vest. In case of performance based vesting, the options would vest on achievement of performance parameters irrespective of the time horizon.				
Weighted Average Fair Value of options (granted but not vested) as on grant date	Rs. 351.13 (Previous year Rs. Nil)	Rs. 240.45 (Previous year Rs. 196.08)	Rs. 244.72 (Previous year Rs. 195.83)	Rs. 257.82 (Previous year Rs. 250.22)	Rs. 382.12 (Previous year Rs. 776.71)

**Fair Value Methodology:**

The fair value of options have been estimated on the date of grant using Black-Scholes model as under:

The key assumptions used in Black-Scholes model for calculating fair value are as under:

Particulars	Scheme V	Scheme VI	Scheme VII	Scheme VIII	Scheme IX
Range of Risk free interest rate	6.05% - 7.8%	5.63% - 7.8%	5.63% - 8.04%	6.18% - 7.72%	5.63% - 7.38%
Dividend yield	1%	1%	1%	0.5% - 1.38%	0.5% - 1.38%
Expected volatility	40%	40%	40%	40%	40%

**Exercise Pricing Formula**

**Scheme V**

Exercise price shall be the closing price of the Company's equity shares quoted on the BSE immediately preceding the date of Grant of the Stock Options, which for this purpose shall be the date on which the Committee grant the Stock Options, discounted by such percentage as may be determined by the Committee in the best interest of the various stakeholders in the prevailing market conditions

**Scheme VI**

Exercise price shall be the closing price of the Company's Equity Shares, prior to the date of grant of the Options, on the Stock Exchanges where the highest trading volume is recorded, discounted/increased by such percentage as may be determined by the Committee.

**Scheme VII**

Exercise price shall be the closing price of the Company's Equity Shares, prior to the date of grant of the Options, on the Stock Exchanges where the highest trading volume is recorded, discounted/increased by such percentage as may be determined by the Committee.

**Scheme VIII**

Exercise price shall be the closing price of the Company's Equity Shares, prior to the date of grant of the Options, on the Stock Exchanges where the highest trading volume is recorded, discounted/increased by such percentage as may be determined by the Committee.

**Scheme IX**

Exercise price shall be the closing price of the Company's Equity Shares, prior to the date of grant of the Options, on the Stock Exchanges where the highest trading volume is recorded, discounted/increased by such percentage as may be determined by the Committee.

Other Information regarding employee share based payment plan is as below :

Particulars	For the year ended 31 March 2023	For the year ended 31 March 2022
Expense arising from employee share based payment plans	1,119	1,264
Total carrying amount at the end of the period of Share based payment reserve	8,816	6,250

The Company provides a sensitivity analysis to show the impact to the Company's profit before taxation in the event that forfeiture and performance condition assumptions exceed or are below the Company's estimations by the stated percentages.

Impact on the income statement on account of change in the assumption on estimate of exercising of options.	For the year ended 31 March 2023	For the year ended 31 March 2022
(+)%5	(171)	(222)
(-)%5	171	222

**Note 53: Tax Expense**

The Company pays taxes according to the rates applicable in India. Most taxes are recorded in the income statement and relate to taxes payable for the reporting period (current tax), but there is also a charge or credit relating to tax payable for future periods due to income or expenses being recognised in a different period for tax and accounting purposes (deferred tax). Tax is charged to equity when the tax benefit exceeds the cumulative income statement expense on share plans. The Company provides for current tax according to the tax laws of India using tax rates that have been enacted or substantively enacted by the balance sheet date. Management periodically evaluates positions taken in tax returns in respect of situations in which applicable tax regulation is subject to interpretation. It establishes provisions, where appropriate, on the basis of amounts expected to be paid to the tax authorities. Deferred tax is provided, using the liability method, on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes. Deferred tax is recognised in respect of all temporary differences that have originated but not reversed at the balance sheet date, where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the balance sheet date. A deferred tax asset is recognised when it is considered recoverable and therefore recognised only when, on the basis of all available evidence, it can be regarded as probable that there will be suitable taxable profits against which to recover carried forward tax losses and from which the future reversal of underlying temporary differences can be deducted. Deferred tax is measured at the average tax rates that are expected to apply in the periods in which the temporary differences are expected to reverse, based on tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Level 1: The fair value of financial instruments traded in active markets (such as publicly traded derivatives and equity securities) is based on quoted market prices at the end of the reporting period. The quoted market price used for financial assets held by the group is the current bid price. These instruments are included in level 1.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities and investment in private equity funds, real estate funds.

**Motilal Oswal Financial Services Limited**  
**Notes to Standalone Financial Statements**  
 (All amounts are in INR Lakhs, unless otherwise stated)

**II. Valuation techniques used to determine fair value**

Specific valuation techniques used to value financial instruments include :

- Quoted equity investments - Quoted closing price on stock exchange
- Mutual fund - net asset value of the scheme
- Alternative investment funds - net asset value of the scheme
- Unquoted equity investments - price multiples of comparable companies
- Private equity investment fund - NAV of the audited financials of the funds.
- Real estate fund - net asset value, based on the independent valuation report or financial statements of the company income approach or market approach based on the independent valuation report

**III. Financial instruments not measured at fair value**

Financial assets not measured at fair value includes cash and cash equivalents, trade receivables, loans and other financial assets. These are financial assets whose carrying amounts approximate fair value, due to their short-term nature.

Additionally, financial liabilities such as trade payables and other financial liabilities are not measured at FVTPL, whose carrying amounts approximate fair value, because of their short-term nature.

Fair value measurements using significant unobservable inputs (level 3)

The following table presents the changes in level 3 items for the year ended 31 March 2023 and 31 March 2022:

Particulars	PE - Business Excellence Funds	PE - Real Estate Funds	Unquoted Shares	Total
<b>As at March 31, 2021</b>	39,696	14,312	5,864	59,872
Additions	1,867	231	9,996	12,094
Disposals	(433)	(3,736)	-	(4,169)
Gains/(losses) recognised in statement of profit and loss	1,960	294	954	3,188
<b>As at March 31, 2022</b>	43,090	11,101	16,794	70,985
Additions	561	393	150	1,104
Disposals	(786)	(1,965)	(295)	(3,046)
Gains/(losses) recognised in statement of profit and loss	1,640	132	(2,671)	(899)
<b>As at March 31, 2023</b>	<b>44,505</b>	<b>9,661</b>	<b>13,978</b>	<b>68,144</b>

**Valuation inputs and relationships to fair value**

The quantitative information about the significant unobservable inputs used in level 3 fair value measurements is summarised below:

Particulars	As at March 31 2023	As at March 31 2022
Fair value of PE funds	54,166	54,191
<b>Significant unobservable inputs</b>		
NAV of the fund at Fair value		
- increase by 100 bps	542	542
- decrease by 100 bps	(542)	(542)
Fair value of Unquoted shares	13,978	16,794
<b>Significant unobservable inputs</b>		
Price Multiple		
- increase by 10 %	1,398	1,679
- decrease by 10 %	(1,398)	(1,679)

**Motilal Oswal Financial Services Limited**  
**Notes to Standalone Financial Statements**  
 (All amounts are in INR Lakhs, unless otherwise stated)

**Note 55: Financial risk management**

Company has operations in India. Whilst risk is inherent in the Company's activities, it is managed through an integrated risk management framework, including on-going identification, measurement and monitoring, subject to risk limits and other controls. This process of risk management is critical to the Company's continuing profitability and each individual within the Company is accountable for the risk exposures relating to his or her responsibilities. The Company is exposed to credit risk, liquidity risk and market risk. It is also subject to various operating and business risks.

**A. Credit risk**

Credit risk is the risk that the Company will incur a loss because its customers or counterparties fail to discharge their contractual obligation. The Company manages and controls credit risk by setting limits on the amount of risk it is willing to accept for individual counterparties, and by monitoring exposures in relation to such limits.

The maximum exposure to credit risk for each class of financial instruments is the carrying amount of that class of financial instruments presented in the financial statements. The Company's major classes of financial assets are cash and cash equivalents, loans, investment in mutual fund units, term deposits, trade receivables and security deposits.

Deposits with banks are considered to have negligible risk or nil risk, as they are maintained with high rated banks/financial institutions as approved by the Board of directors.

Investments primarily include investment in liquid mutual fund units that are marketable securities of eligible financial institutions for a specified time period with high credit rating given by domestic credit rating agencies.

The management has established accounts receivable policy under which customer accounts are regularly monitored. The Company has a dedicated risk management team, which monitors the positions, exposures and margins on a continuous basis.

Following provides exposure to credit risk for trade receivables and margin trading facility loans

	As at 31 March 2023	As at 31 March 2022
Trade Receivables (Net of impairment)	66,918	66,621
Margin trading facility loans (Net of impairment)	1,32,872	88,318

The financial instruments covered within the scope of ECL include financial assets measured at amortised cost such as trade receivables and loans.

**Trade Receivables :**

The loss allowance has been measured using lifetime ECL except for financial assets on which there has been no significant increase in credit risk since initial recognition. At each reporting date, the Company assesses whether financial assets carried at amortised cost is credit-impaired. A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred since initial recognition.

A simplified approach has been considered for measuring expected credit losses (ECLs) of trade receivables at an amount equal to lifetime 12CLs. The ECLs on trade receivables are calculated based on actual historic credit loss experience over the preceding three to five years on the total balance of trade receivables. For the purpose of computation of ECL, the term default implies an event where amount due towards margin requirement and / or mark to market losses for which the client was unable to provide funds / collaterals to bridge the shortfall, the same is termed as margin call triggered.

Based on the Industry practices and business environment in which the entity operates, Management considers unsecured receivables as default if the payment is overdue for more than 90 days for direct customer. For franchisee customers, Aggregate of unsecured receivables as reduced by Franchisee deposit/ future brokerages are considered as default. Management would also consider balance in client's family accounts and collaterals in form other than the securities while considering the secured position of the client. Management would also consider impairment on client balance which are unsecured and overdue for less than 90 days on case to case basis, based on their scope of recoverability. For litigation cases, management could provide enhanced provision if the probability of outflow of economic resource is higher. If there are specific cases which are overdue for more than 90 days and the management is very confident of its recovery in near future, impairment loss would not be provided for such cases based on the approval of business head for each reporting period. Probability of default (PD) on these receivables is considered at 100% and treated as credit impaired.

**Loans :**

Loans includes Margin Trading Facility(MTF), Loans to staff and loans to subsidiaries for which staged approach is taken into consideration for determination of ECL.

**Stage 1.**

All positions in the MTF loan book are considered as stage 1 asset for computation of expected credit loss. For exposures where there has not been a significant increase in credit risk since initial recognition and that is not credit impaired upon origination. Margin trading facility, Loans to subsidiaries and loans to staff are considered in stage 1 for determination of ECL. Exposure to credit risk in stage 1 is computed considering historical probability of default, market movements and macro-economic environment.

**Motilal Oswal Financial Services Limited**  
**Notes to Standalone Financial Statements**  
 (All amounts are in INR Lakhs, unless otherwise stated)

**Stage 2**

Exposures under stage 2 include overdues up to 90 days pertaining to principal amount, interest and any other charges on the MTF loan book which are unsecured. While arriving at the secured position of the client, management would also consider balance in client's family accounts, securities in other segment and collaterals in form other than the securities while considering the secured position of the client. At each reporting date, the Company assesses whether there has been a significant increase in credit risk for financial assets since initial recognition. In determining whether credit risk has increased significantly since initial recognition, the Company uses days past due information and other qualitative factors to assess deterioration in credit quality of a financial asset.

For credit exposures where there has been a significant increase in credit risk since initial recognition but that are not credit impaired, a lifetime ECL is recognised.

**Stage 3**

Exposures under stage 3 include overdues past 90 days pertaining to principal amount, interest and any other charges on MTF loan book which are unsecured.

Financial assets are assessed as credit impaired when one or more events that have a detrimental impact on the estimated future cash flows of the asset have occurred. For financial assets that have become credit impaired, a lifetime ECL is recognised.

Following table provide information about exposure to credit risk and ECL on Margin Trading Facility loans.

Stage	As at 31 March 2023		As at 31 March 2022	
	Carrying value	ECL	Carrying value	ECL
Stage 1	1,32,782	550	88,462	239
Stage 2	-	-	-	-
Stage 3	-	-	-	-

The movement in the allowance for impairment in respect of trade receivables is as follows

Particulars	Carrying amount	Carrying amount
	As at 31 March 2023	As at 31 March 2022
Opening balance	2,343	1,612
Impairment loss recognised	126	731
Closing balance	2,469	2,343

**B. Liquidity risk**

Liquidity risk is the risk that the entity will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The entity's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the entity's reputation.

Prudent liquidity risk management requires sufficient cash and marketable securities and availability of funds through adequate committed credit facilities to meet obligations when due and to close out market positions.

The Company has a view of maintaining liquidity with minimal risks while making investments. The Company invests its surplus funds in short term liquid assets in bank deposits and liquid mutual funds. The Company monitors its cash and bank balances periodically in view of its short term obligations associated with its financial liabilities.

Refer Note 57 for analysis of maturities of financial assets and financial liabilities.

**C. Market Risk**

Market risk is the risk that the fair value or future Cash flows of a financial instrument will fluctuate because of changes in market prices. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

**(i) Foreign currency risk**

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates.

**Foreign currency risk management**

In respect of the foreign currency transactions, the company does not hedge the exposures since the management believes that the same is insignificant in nature and will not have a material impact on the Company.

The company's exposure to foreign currency risk at the end of reporting period is shown in note 49

**Motilal Oswal Financial Services Limited**  
**Notes to Standalone Financial Statements**  
 (All amounts are in INR Lakhs, unless otherwise stated)

**(ii) Interest rate risk**

The Company is exposed to Interest risk if the fair value or future cash flows of its financial instruments will fluctuate as a result of changes in market interest rates. Fair value interest rate risk is the risk of changes in fair values of fixed interest bearing investments because of fluctuations in the interest rates.

The Company's interest rate risk arises from interest bearing deposits with bank and loans given to customers. Such instruments exposes the Company to fair value interest rate risk. Management believe that the interest rate risk attached to this financial assets are not significant due to the nature of this financial assets.

**Interest rate risk exposure**

The exposure of the Company's borrowing to interest rate changes at the end of the reporting period are as follows:

Particulars	As at 31 March 2023	As at 31 March 2022
<b>Loans:</b>		
Loans	1,32,872	88,318
<b>Total Loans</b>	<b>1,32,872</b>	<b>88,318</b>
<b>Borrowings:</b>		
Variable rate borrowing	99,387	28,296
Fixed rate borrowing	2,74,163	1,88,797
<b>Total Borrowing</b>	<b>3,73,550</b>	<b>2,17,093</b>

**Sensitivity**

Profit or loss is sensitive to higher/lower interest expense from borrowings as a result of changes in interest rates.

The following table demonstrates the sensitivity to a reasonably possible change in interest rates (all other variables being constant) of the Company's statement of profit and loss and equity.

Particulars	Impact on profit after tax	
	31 March 2023	31 March 2022
<b>Loans:</b>		
Interest rates – increase by 1%	1,329	883
Interest rates – decrease by 1%	(1,329)	(883)
<b>Borrowings:</b>		
Interest rates – increase by 1%	(735)	(209)
Interest rates – decrease by 1%	735	209

**(iii) Market price risks**

The Company is exposed to market price risk, which arises from FVTPL and FVOCI investments. The management monitors the proportion of these investments in its investment portfolio based on market indices. Material investments within the portfolio are managed on an individual basis and all buy and sell decisions are approved by the appropriate authority.

Particulars	As at 31 March 2023	As at 31 March 2022
Exposure to price risk	2,35,796	2,60,219

**Sensitivity to price risk**

The following table summarises the impact of sensitivity of NAVs / price with all other variables held constant. The below impact on the Company's profit before tax is based on changes in the NAVs / price of the investments held at FVTPL/FVOCI at balance sheet date:

Sensitivity	As at March 31 2023	As at March 31 2022
Impact on profit before tax for 10% increase in NAV/price	23,580	26,022
Impact on profit before tax for 10% decrease in NAV/price	(23,580)	(26,022)

**Motilal Oswal Financial Services Limited**  
**Notes to Standalone Financial Statements**

(All amounts are in INR Lakhs, unless otherwise stated)

**Note 58: Revenue from contract with customers**

The Company derives revenue primarily from the share broking business. Its other major revenue sources are the Portfolio management fees and commission income and Interest income.

**Disaggregate revenue information**

The table below presents disaggregate revenues from contracts with customers for the year ended 31 March 2023 and 31 March 2022. The Company believes that this disaggregation best depicts how the nature, amount, timing and uncertainty of revenue and cash flows are affected by market and other economic factors.

**Nature of Services**

(a) Broking Income - Income from services rendered as a broker is recognised upon rendering of the services, in accordance with the terms of contract.

(b) Portfolio management fees and commission income - Fees for subscription based services are received periodically but are recognised as earned on a pro-rata basis over the term of the contract. Commissions from distribution of financial products are recognised upon allotment of the securities to the applicant or as the case may be. Commissions and fees recognised as aforesaid are exclusive of goods and service tax, securities transaction tax, stamp duties and other levies by SEBI and stock exchanges.

(c) Interest Income - Interest is earned on delayed payments from clients and amounts funded to them as well as term deposits with banks. Interest income is recognised on a time proportion basis taking into account the amount outstanding from customers or on the financial instrument and the rate applicable.

(d) Depository Income - Income from services rendered on behalf of depository is recognised upon rendering of the services, in accordance with the terms of contract.

**2. Disaggregate revenue information**

Particulars	For the year ended 31 March 2023	For the year ended 31 March 2022
Operating segment :		
Brokerage income	1,67,485	1,58,070
Portfolio management fees and commission income	18,449	18,605
Interest income	47,291	33,145
Depository income	7,099	6,527

**Nature, timing of satisfaction of the performance obligation and significant payment term:**

(i) Income from services rendered as a broker is recognised upon rendering of the services.

(ii) Fees for subscription based services are received periodically but are recognised as earned on a pro-rata basis over the term of the contract.

(iii) Commissions from distribution of financial products are recognised upon allotment of the securities to the applicant or as the case may be, on issue of the insurance policy to the applicant.

(iv) Interest is earned on delayed payments from clients and amounts funded to them as well as term deposits with banks.

(v) Interest income is recognised on a time proportion basis taking into account the amount outstanding from customers or on the financial instrument and the rate applicable.

(vi) Income from services rendered on behalf of depository is recognised upon rendering of the services, in accordance with the terms of contract.

The above services are point in time in nature, and no performance obligation remains once the transaction is executed.

Fees for subscription based services are received periodically but are recognised as earned on a pro-rata basis over the term of the contract, and are over the period in nature.

**Compliance with approved Scheme of Arrangements**

The Board of Directors of the Company at its Meeting held on 24 December 2020 has, inter-alia, subject to approval of shareholders of the Company and other applicable statutory and regulatory approvals including the approval of Hon'ble National Company Law Tribunal, Mumbai Bench ("NCLT"), approved the Scheme of Arrangement between Passionate Investment Management Private Limited (Ultimate Holding Company of Motilal Oswal Financial Services Limited) ("the Transferor Company 1") and MOPI Investment Advisors Private Limited ("the Transferee Company 2" or "the Demerged Company 1" or "the Transferor Company 3") and Motilal Oswal Real Estate Investment Advisors Private Limited ("the Transferor Company 2") and Motilal Oswal Real Estate Investment Advisors II Private Limited ("the Demerged Company 2" or "the Transferor Company 4") and MO Alternate Investment Advisors Private Limited (erstwhile Motilal Oswal Pincap Private Limited) ("the Resulting Company") and Motilal Oswal Financial Services Limited ("the Transferee Company 1" or "the Holding Company of the Resulting Company" or "the Company") and their respective shareholders ("the Scheme") under Sections 230-232 of the Companies Act, 2013. Further, pursuant to the provisions of Regulation 37 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, the Company has received No Objection Certificate from Stock Exchanges and the Company has filed an application with Hon'ble NCLT. Pursuant to the directions issued by Hon'ble NCLT, the Meeting of equity shareholders was scheduled on 16 December 2021 and the Scheme was approved by shareholders with requisite majority. Consequently, the Hon'ble NCLT approved the Scheme of Arrangement vide order dated 11 March 2022. The effect of the said Scheme was given on 30 March 2022 from the appointed date of 01 April 2020 by restating the financial statement for the year ended 31 March 2021.

(b) The accounting treatment of the said Scheme given in the books of accounts is in accordance with the Scheme and in conformity with the accounting standards prescribed under section 133 of the Companies Act, 2013. Further, figures for the year ended 31 March 2021 as shown above are the restated figures based on the audited accounts of the Transferor, Transferee and Resulting Company.

**Accounting treatment given in the books for the Scheme:**

**1. Amalgamation And Vesting Of Assets And Liabilities And Entire Business Of The Transferor Company 1**

1.1 The Transferee Company 1 shall give effect to the amalgamation in its books of accounts as per the applicable accounting principles prescribed under the Companies (Indian Accounting Standards) Rules, 2015 (Ind AS) notified under Section 133 of the Companies Act, 2013, as may be amended from time to time and on the date determined in accordance with applicable Ind AS.

1.2 Upon effectiveness of the Scheme, the net assets of the Transferor Company 1 (excluding shares of the Transferee Company 1 held by the Transferor Company 1 which shall get cancelled) will be reflected at fair value as at the Effective Date.

1.3 The inter-company deposits/ inter-company loans and advances, if any, in the books of accounts of the Transferee Company 1 and the Transferor Company 1 shall stand cancelled as at the Effective Date.

1.4 The difference, if any, being excess or deficit arising pursuant to the amalgamation, after giving effect to the above adjustments, shall be accounted based on generally adopted accounting principles under Ind AS.

1.5 The Transferee Company 1 shall without any application or deed, issue and allot equity shares of face value of Re. 1/- each, credited as fully paid up, to the extent indicated below, to the equity shareholders holding fully paid up equity shares of the Transferor Company 1 and whose name appear in the register of members of the Transferor Company 1 on the Record Date or to such of their respective heirs, executors, administrators or other legal representatives or other successors in title as may be recognized by the Board of Directors of the Transferor Company 1/ the Transferee Company 1.

**Motilal Oswal Financial Services Limited**  
**Notes to Standalone Financial Statements**  
(All amounts are in INR Lakhs, unless otherwise stated)

**Note 60 : Business Combinations**

**2. Amalgamation And Vesting Of Assets And Liabilities And Entire Business Of The Transferor Company 2**

The Transferee Company 2 shall account for the amalgamation in its books/ financial statements as per "Pooling of Interests Method" under Appendix C of "Indian Accounting Standard (Ind-AS)" 103, Business Combinations and any other relevant Ind AS notified under the Companies (Indian Accounting Standards) Rules, 2015, as amended from time to time including as provided herein below:

2.1 The Transferee Company 2 shall record the assets and liabilities of the Transferor Company 2, transferred to and vested in it at their respective carrying values as appearing in the books of the Transferor Company 2 in accordance with Para 9(ii) of Appendix C of Ind AS 103.

2.2 The Transferee Company 2 shall preserve the identity of the reserves of the Transferor Company 2 transferred to and vested in it and shall record in its books in the same form in which they appear in the books of the Transferor Company 2 and it shall be aggregated with the corresponding balance appearing in the financial statements of the Transferee Company 2.

2.3 The shares held by the Transferee Company 2 in the Transferor Company 2 on the Effective Date shall be cancelled.

2.4 Loans and advances, receivables, payables and other dues outstanding between the Transferor Company 2 and the Transferee Company 2 will stand cancelled and there shall be no further obligation / outstanding in that behalf.

2.5 The difference between the net assets transferred to the Transferee Company 2 pursuant to Clause 2.1 as reduced by Reserves recorded in the Transferee Company 2 pursuant to Clause 2.2 and after giving effect Clause 2.3 and 2.4, the difference shall be adjusted against Capital Reserve of the Transferee Company 2.

2.6 In case of any difference in accounting policy between the Transferor Company 2 and the Transferee Company 2, the accounting policies followed by the Transferee Company 2 shall prevail and the difference till the Appointed Date will be quantified and adjusted as per Ind AS, to ensure that the financial statements of Transferee Company 2 reflects the financial position on the basis of consistent accounting policy.

2.7 The Transferor Company 2 is a wholly owned subsidiary of the Transferee Company 2 and therefore on amalgamation of the Transferor Company 2 into the Transferee Company 2 there shall be no issue of shares by the Transferee Company 2 in this regard as consideration.

**3. Demerger of The Fund Management Undertaking 1 From The Demerged Company 1 Into The Resulting Company**

3.1 The Demerged Company 1 shall account for the Scheme from the Appointed Date in its books/ financial statements upon receipt of all relevant/ requisite approvals for the Scheme, in accordance with applicable Indian Accounting Standards (Ind-AS) notified under the Companies (Indian Accounting Standards) Rules, 2015, as amended from time to time including as provided herein below:

Accounting treatment in the books of the Demerged Company 1

3.1.1 The Demerged Company 1 shall reduce the carrying value of assets and liabilities pertaining to the Fund Management Undertaking 1, transferred to and vested in the Resulting Company from the carrying value of assets and liabilities as appearing in its books.

3.1.2 Loans and advances, receivables, payables and other dues outstanding between the Demerged Company 1 and the Resulting Company relating to the Fund Management Undertaking 1 will stand cancelled and there shall be no further obligation / outstanding in that behalf.

3.1.3 The Demerged Company 1, as on the Appointed Date, shall transfer the balances of all the reserves to the Resulting Company, in the proportion of the net assets transferred to the Resulting Company and the net assets retained by the Demerged Company 1 ("Transferred Reserves").

3.1.4 The difference, being the excess of carrying value of assets over the carrying value of liabilities transferred pursuant to Clause 3.1.1 and after giving effect to clause 3.1.2 and clause 3.1.3 above shall be adjusted to the other equity of the Demerged Company 1.

Accounting treatment in the books of the Holding Company of the Resulting Company

3.1.5 The Holding Company of the Resulting Company shall credit its share capital with the aggregate face value of the equity shares issued and corresponding debit shall be made to Investment in Resulting Company Account.

**Note 60 : Business Combinations**

**4. Amalgamation Of The Transferor Company 3 With The Transferee Company 1**

The Transferee Company 1 shall account for the amalgamation in its books/ financial statements as per "Pooling of Interests Method" under Appendix C of "Indian Accounting Standard (Ind-AS)" 103, Business Combinations and any other relevant Ind AS notified under the Companies (Indian Accounting Standards) Rules, 2015, as amended from time to time including as provided herein below:

4.1 The Transferee Company 1 shall record the assets and liabilities of the Transferor Company 3, transferred to and vested in it at their respective carrying values as appearing in the books of the Transferor Company 3 in accordance with Para 9(iii) of Appendix C of Ind AS 103.

4.2 The Transferee Company 1 shall preserve the identity of the reserves of the Transferor Company 3 transferred to and vested in it and shall record in its books in the same form in which they appear in the books of the Transferor Company 3 and it shall be aggregated with the corresponding balance appearing in the financial statements of the Transferee Company 1.

4.3 The shares held by the Transferee Company 1 in the Transferor Company 3 on the Effective Date shall be cancelled.

4.4 The Transferee Company 1 shall credit to its share capital in its books the aggregate face value of the equity shares issued by it to shareholders of the Transferor Company 3.

4.5 Loans and advances, receivables, payables and other dues outstanding between the Transferor Company 3 and the Transferee Company 1 will stand cancelled and there shall be no further obligation / outstanding in that behalf.

4.5.1 The difference between the net assets transferred to the Transferee Company 1 pursuant to Clause 4.1 as reduced by Reserves recorded in the Transferee Company 1 pursuant to Clause 4.2 and after giving effect to Clause 4.3 to 4.5, the difference shall be adjusted against Capital Reserve of the Transferee Company 1.

4.6 In case of any difference in accounting policy between the Transferor Company 3 and the Transferee Company 1, the accounting policies followed by the Transferee Company 1 shall prevail and the difference till the Appointed Date will be quantified and adjusted as per Ind AS, to ensure that the financial statements of Transferee Company 1 reflects the financial position on the basis of consistent accounting policy.

4.7 Upon the Scheme becoming effective and upon the amalgamation of the Transferor Company 3 with the Transferee Company 1 in terms of this Scheme, the Transferee Company 1 shall without any application or deed, issue and allot New Equity Shares of face value of Re. 1/- each, credited as fully paid up, to the extent indicated below, to the equity shareholders holding fully paid up equity shares of the Transferor Company 3 (except shares held by the Transferee Company 1) and whose name appear in the register of members of the Transferor Company 3 on the Record Date or to such of their respective heirs, executors, administrators or other legal representatives or other successors in title as may be recognized by the Board of Directors of the Transferee Company.

**Note 60 : Business Combinations**

**5. Demerger Of The Fund Management Undertaking 2 From The Demerged Company 2 Into The Resulting Company**

5.1. The Demerged Company 2 shall account for the Scheme from the Appointed Date in its books/ financial statements upon receipt of all relevant/ requisite approvals for the Scheme, in accordance with applicable Indian Accounting Standards (Ind-AS) notified under the Companies (Indian Accounting Standards) Rules, 2015, as amended from time to time including as provided herein below:

Accounting treatment in the books of the Demerged Company 2

5.1.1 The Demerged Company 2 shall reduce the carrying value of assets and liabilities pertaining to the Fund Management Undertaking 2, transferred to and vested in the Resulting Company from the carrying value of assets and liabilities as appearing in its books.

5.1.2 Loans and advances, receivables, payables and other dues outstanding between the Demerged Company 2 and the Resulting Company relating to the Fund Management Undertaking 3 will stand cancelled and there shall be no further obligation / outstanding in that behalf.

5.1.3 The Demerged Company 2, as on the Appointed Date, shall transfer the balances of all the reserves to the Resulting Company, in the proportion of the net assets transferred to the Resulting Company and the net assets retained by the Demerged Company 2 ("Transferred Reserves").

5.1.4 The difference, being the excess of carrying value of assets over the carrying value of liabilities transferred pursuant to Clause 5.1.1 and after giving effect to clause 5.1.2 and clause 5.1.3 above shall be adjusted to the other equity of the Demerged Company 2.

5.2 The Holding Company of the Resulting Company shall account for the Scheme in its respective books/ financial statements upon receipt of all relevant/ requisite approvals for the Scheme, in accordance with applicable Indian Accounting Standards (Ind-AS) notified under the Companies (Indian Accounting Standards) Rules, 2015, as amended from time to time including as provided herein below:

Accounting treatment in the books of the Holding Company of the Resulting Company

The Holding Company of the Resulting Company shall credit its share capital with the aggregate face value of the equity shares issued pursuant to Clause 52 of this Scheme and corresponding debit shall be made to Investment in Resulting Company Account.

5.3 Upon the Scheme becoming effective, i.e., on amalgamation of the Transferor Company 3 with the Transferee Company 1, the Demerged Company 2 will become a subsidiary of the Holding Company of the Resulting Company.

Upon the Scheme becoming effective and upon the demerger of the Fund Management Undertaking 2 of the Demerged Company 2 into the Resulting Company in terms of this Scheme, the Holding Company of the Resulting Company shall without any application or deed, issue and allot New Equity Shares of face value of Re. 1/- each, credited as fully paid up, to the extent indicated below, to the equity shareholders holding fully paid up equity shares of the Demerged Company 2 (except shares held by the Holding Company of the Resulting Company) and whose name appear in the register of members of the Demerged Company 2 on the Record Date or to such of their respective heirs, executors, administrators or other legal representatives or other successors in title as may be recognized by the Board of Directors of the Demerged Company 2/ the Holding Company of the Resulting Company.

**6. Amalgamation Of The Transferor Company 4 With The Transferee Company 1**

The Transferee Company 1 shall account for the amalgamation in its books/ financial statements as per "Pooling of Interests Method" under Appendix C of "Indian Accounting Standard (Ind-AS)" 103, Business Combinations and any other relevant Ind AS notified under the Companies (Indian Accounting Standards) Rules, 2015, as amended from time to time including as provided herein below:

6.1. The Transferee Company 1 shall record the assets and liabilities of the Transferor Company 4, transferred to and vested in it at their respective carrying values as appearing in the books of the Transferor Company 4 in accordance with Para 9(iii) of Appendix C of Ind AS 103.

6.2. The Transferee Company 1 shall preserve the identity of the reserves of the Transferor Company 4 transferred to and vested in it and shall record in its books in the same form in which they appear in the books of the Transferor Company 4 and it shall be aggregated with the corresponding balance appearing in the financial statements of the Transferee Company 1.

6.3. The shares held by the Transferee Company 1 in the Transferor Company 4 on the Effective Date shall be cancelled.

6.4. The Transferee Company 1 shall credit to its share capital in its books the aggregate face value of the equity shares issued by it to shareholders of the Transferor Company 4 pursuant to Clause 62 of this Scheme.

6.5. Loans and advances, receivables, payables and other dues outstanding between the Transferor Company 4 and the Transferee Company 1 will stand cancelled and there shall be no further obligation / outstanding in that behalf.

6.6. The difference between the net assets transferred to the Transferee Company 1 pursuant to Clause 6.1 as reduced by Reserves recorded in the Transferee Company 1 pursuant to Clause 5.6 and after giving effect to Clause 6.3 to 6.5, the difference shall be adjusted against Capital Reserve of the Transferee Company 1.

6.7. In case of any difference in accounting policy between the Transferor Company 4 and the Transferee Company 1, the accounting policies followed by the Transferee Company 1 shall prevail and the difference till the Appointed Date will be quantified and adjusted as per Ind AS, to ensure that the financial statements of Transferee Company 1 reflects the financial position on the basis of consistent accounting policy.

6.8. Upon the Scheme becoming effective, i.e., on amalgamation of the Transferor Company 3 with the Transferee Company 1, the Transferor Company 4 will become a subsidiary of the Transferee Company 1.

Upon the Scheme becoming effective and upon the amalgamation of the Transferor Company 4 with the Transferee Company 1 in terms of this Scheme, the Transferee Company 1 shall without any application or deed, issue and allot New Equity Shares of face value of Re. 1/- each, credited as fully paid up, to the extent indicated below, to the equity shareholders holding fully paid up equity shares of the Transferor Company 4 (except shares held by the Transferee Company 1) and whose name appear in the register of members of the Transferor Company 4 on the Record Date or to such of their respective heirs, executors, administrators or other legal representatives or other successors in title as may be recognized by the Board of Directors of the Transferee Company 1.

**Note 69:** The Company acquired shares of MO Alternative IFSC Private Limited on December 12, 2022. From this date onwards, MO Alternative IFSC Private Limited has become a wholly owned subsidiary company.

*This space is intentionally kept blank*

**Note 70: Amendments issued but not yet effective**

**a. Newly issued standards**

There were no standards notified by the Ministry of Corporate Affairs (MCA) during the year ended March 31, 2023.

**b. Amendments in prevailing standards but not effective**

Ministry of Corporate Affairs (MCA) notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 31, 2023, MCA amended the Companies (Indian Accounting Standards) Rules, 2015. The effective date for adoption of these amendments is annual period beginning on or after April 1, 2023. The significant amendments are as below.

**(i) Ind AS 1 - Presentation of Financial Statements**

This amendment requires the entities to disclose their material accounting policies earlier than their significant accounting policies. The Company has evaluated the amendment and the impact of the amendment is insignificant on its financial statements.

**(ii) Ind AS 8 - Accounting Policies, Changes in Accounting Estimates and Errors**

This amendment has introduced a definition of 'accounting estimates' and included amendments to Ind AS 8 to help entities distinguish changes in accounting policies from changes in accounting estimates. The Company has evaluated the amendment and the impact of the amendment is insignificant on its financial statements.

**(iii) Ind AS 12 - Income Taxes**

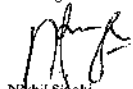

This amendment has narrowed the scope of the initial recognition exemption so that it does not apply to transactions that give rise to equal and offsetting temporary differences. The Company has evaluated the amendment and the impact of the amendment is insignificant on its financial statements.

**Note 71:** The amounts reflected as "0" in the financial information are values with less than rupees fifty thousands.

**Note 72:** Previous year figures have been regrouped/reclassified wherever necessary.

### INDEPENDENT AUDITOR'S REPORT

To

The Members of **Motilal Oswal Financial Services Limited**

#### Opinion

1. We have audited the accompanying consolidated financial statements of **Motilal Oswal Financial Services Limited** (the "Holding Company") and its subsidiaries (Holding company and its subsidiaries together referred to as the "Group") and its associate for the year ended March 31, 2023 attached herewith, which comprise the Consolidated Balance Sheet as at March 31, 2023, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Cash Flow Statement and the Consolidated Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information.
2. In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of the other auditors on separate audited financial statements and on the other financial information of the subsidiaries and associate, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including Indian Accounting Standards ("Ind AS") specified under section 133 of the Act, of the consolidated state of affairs of the Group and its associate as at March 31, 2023, and their consolidated profit (including other comprehensive income), consolidated cash flows and the consolidated changes in equity for the year ended on that date.

#### Basis for Opinion

3. We conducted our audit of the financial statements in accordance with the Standards on Auditing (SA's) specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are Independent of the Group and its associate in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (the "ICAI") together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act, 2013 ("the Act") and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidences obtain by us and by other auditor in terms of their reports referred to in the paragraph 18 of other matter section below, is sufficient and appropriate to provide a basis for our opinion.

**Key Audit Matters**

4. Key audit matters are those matters that, in our professional judgment and based on the consideration of the reports of the other auditors on separate financial statements and on the other financial information of the subsidiaries and associate, were of most significance in our audit of the consolidated financial statements of the current year. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.
5. We have determined the matters described below to be the key audit matters to be communicated in the auditor's report issued by us for the Holding Company and of its Subsidiary:

Sr. No.	Key audit matters	How our audit addressed the key audit matter
1.	<p><b>Expected Credit Loss (ECL) on Loans and Advances (MOHFL)</b></p> <p>Ind AS 109 requires the Group to provide for impairment of its loan receivables (designated at amortised cost and fair value through other comprehensive income) using the expected credit loss (ECL) approach.</p> <p>As at March 31, 2023 (Motilal Oswal Home Finance Limited, (MOHFL)), the carrying value of loan assets measured at amortised cost, aggregated Rs. 3,77,173 lakhs (net of allowance of ECL Rs. 7,080 lakhs).</p> <p>The estimation of ECL on financial instruments involves significant judgement and estimates. As part of our risk assessment, we determined that the allowance for ECL on loan assets has a high degree of estimation uncertainty, with a potential range of reasonable outcomes for the financial statements.</p> <p>The elements of estimating ECL which involved increased level of audit focus are the following:</p> <p>a) Data inputs - The application of ECL model requires several data inputs.</p>	<p><b>Our Audit Approach:</b></p> <p>Our audit approach was a combination of test of internal controls and substantive procedures which included the following:</p> <p>a) Testing the design and effectiveness of internal controls over the following:</p> <ul style="list-style-type: none"> <li>➤ key controls over the completeness and accuracy of the key inputs, data and assumptions into the Ind AS 109 impairment models.</li> <li>➤ key controls over the application of the staging criteria consistent with the definitions applied in accordance with the policy approved by the Board of Directors including the appropriateness of the qualitative factors.</li> <li>➤ management's controls over authorisation and calculation of post model adjustments and management overlays to the output of the ECL model.</li> </ul> <p>b) Also, for a sample of ECL allowance on loan assets tested:</p> <ul style="list-style-type: none"> <li>➤ Sample testing over key inputs, data and assumptions impacting ECL calculations to assess the completeness, accuracy and relevance of data, reasonableness of economic forecasts, weights, and model assumptions applied.</li> <li>➤ we evaluated reasonableness of LGD estimates by comparing actual recoveries post the loan asset</li> </ul>

Sr. No.	Key audit matters	How our audit addressed the key audit matter
	<p>b) Model estimations – Inherently judgmental models are used to estimate ECL which involves determining Probabilities of Default ("PD"), Loss Given Default ("LGD"), and Exposures at Default ("EAD"). The PD and the LGD are the key drivers of estimation complexity in the ECL and as a result are</p> <p>c) considered the most significant judgmental aspect of the Group's modelling approach.</p> <p>d) Qualitative and quantitative factors used in staging the loan assets measured at amortised cost.</p> <p>e) Economic scenarios – Ind AS 109 requires the Group to measure ECLs on an unbiased forward-looking basis reflecting a range of future economic conditions. Significant management judgement is applied in determining the economic scenarios used and the probability weights applied to them.</p> <p>f) Adjustments to model driven ECL results to address emerging trends.</p> <p>Refer Note 30 of the Financial Statements. (MOHFL)</p>	<p>becoming credit impaired with estimates of LGD; and</p> <p>➤ we tested the mathematical accuracy and computation of the allowances by using the same input data used by the Group.</p> <p>c) We also evaluated the adequacy of the adjustment after stressing the inputs used in determining the output as per the ECL Model and ensured that the adjustment was in conformity with the amount approved by the Audit Committee.</p> <p>d) Testing management's controls on compliance with disclosures to confirm the compliance with the provisions of relevant provisions of Ind AS 109 and the RBI.</p> <p>e) Evaluating the appropriateness of MOHFL's Ind AS 109 impairment methodologies and reasonableness of assumptions used, including management overlays.</p> <p>f) For models which were changed or updated during the year, evaluating whether the changes were appropriate by assessing the updated model methodology.</p> <p>g) Read and assessed the disclosures included in the Ind AS financial statements in respect of expected credit losses with the requirements of Ind AS 107 and Ind AS 109.</p>
2.	<p><b>Information Technology (IT) Systems and Controls – MOFSL and MOHFL (Enterprises)</b></p> <p>The Enterprise's key financial accounting and reporting processes are highly dependent on the automated controls over the Enterprises's information systems.</p> <p>MOHFL has separate software applications for management of its loan portfolio from origination to</p>	<p><b>Our Audit Approach:</b></p> <p>With the help of our IT specialists, we obtained an understanding of the Enterprise's IT applications, databases and operating systems relevant to financial reporting and the control environment. Our audit approach was a combination of test of internal controls and substantive procedures which included the following:</p>

Sr. No.	Key audit matters	How our audit addressed the key audit matter
	<p>servicing and closure and for the routine accounting. Transfer of data from/to this software are critical for accurate compilation of financial information.</p> <p>Due to extensive volumes, variety and complexity of transactions the operating system is functioning, consistently and accurately, specifically with respect to following:</p> <ul style="list-style-type: none"> <li>• Interest, Fee income and other charges collected on Loans</li> <li>• Bifurcation of the Loan Portfolio based on maturity pattern and Assets Classification based on ageing of default</li> </ul> <p>So, there exists a risk that gaps in the IT general control environment which could result in a misstatement of the financial accounting and reporting records of the Enterprises. Accordingly, we have considered user access management, segregation of duties and controls over system change over key financial accounting and reporting systems, as a key audit matter for the Enterprises.</p>	<p><b>General IT controls design, observation and operation:</b></p> <ul style="list-style-type: none"> <li>➤ Tested key controls operating over the information technology in relation to financial accounting and reporting systems, including system access and system change management, program development and computer operations.</li> </ul> <p><b>User access controls operation:</b></p> <ul style="list-style-type: none"> <li>➤ Obtained management's evaluation of the access rights granted to applications relevant to financial accounting and reporting systems and tested resolution of a sample of expectations.</li> <li>➤ Further, we assessed the operating effectiveness of controls over granting, removal and appropriateness of access rights.</li> </ul> <p><b>Application controls:</b></p> <ul style="list-style-type: none"> <li>➤ We tested the design and operating effectiveness of automated controls critical to financial accounting and reporting.</li> <li>➤ For any identified deficiencies, tested the design and operating effectiveness of compensating controls and, where necessary, extended the scope of our substantive audit procedure.</li> </ul>
3.	<p><b>Valuation of equity investments carried at fair value</b>  <b>Refer note 2.6 for significant accounting policies and note 54 for financial disclosures (MOFSL)</b></p> <p>As at March 31, 2023, the MOFSL held investments in –</p> <ul style="list-style-type: none"> <li>i) Shubham Housing Development Finance Company Private Limited whose carrying amount is of Rs. 73.8 crores which represents 0.53 % of the total assets of the Company.</li> </ul>	<p>Our audit procedures in relation to valuation of investment with the involvement of our valuation experts included, but were not limited to, the following:</p> <p><b>Design/Controls:</b></p> <ul style="list-style-type: none"> <li>➤ Obtained a detailed understanding of the management's process and controls for determining the fair valuation of this investment. The understanding was obtained by performance of walkthroughs which included inspection of documents produced by the Company and discussion with those involved in the process of valuation;</li> </ul>

Sr. No.	Key audit matters	How our audit addressed the key audit matter
	<p>ii) Bundl Technologies Private Limited whose carrying amount is of Rs. 64.48 crores which represents 0.46 % of the total assets of the Company.</p> <p>These investments are not traded in the active market. The fair valuation of these investments are determined by a management appointed independent valuation expert. The process of computation of fair valuation of investment includes use of unobservable inputs and management judgements and estimates which are complex.</p> <p>The valuation of these investments were considered to be one of the areas which required significant auditor attention on and was one of the matters of most significance in the standalone financial statements of MOFSL due to the materiality of total value of investments to such standalone financial statements and the complexity involved in the valuation of these investments.</p>	<p>➤ Evaluated the design and the operational effectiveness of relevant key controls over the valuation process, including the Company's review and approval of the estimates and assumptions used for the valuation including key authorization and data input controls, independent price verification performed by the management expert and model governance and valuation.</p> <p><b>Substantive tests:</b></p> <p>➤ Assessed the appropriateness of the valuation methodology used for the of this investment in accordance with the Company's policy and tested the mathematical accuracy of the management's model adopted;</p> <p>➤ Obtained the valuation report from management's expert and assessed the expert's competence, objectivity and independence in performing the valuation of these investments;</p> <p>➤ Assessed the appropriateness of the valuation model used by the management and the assumptions used relating to projected cash flows and the discounting factor.</p> <p>➤ Ensured the appropriateness of the carrying value of these investments in the financial statements and the gain or loss recognised in the financial statements as a result of such fair valuation; and</p> <p>➤ Ensured the appropriateness and adequacy of disclosures in accordance with the applicable accounting standards.</p>

6. The auditors Aneel Lasod and Associates, Chartered Accountants, of Motilal Oswal Commodities Broker Private Limited (MOCBPL) vide their audit report dated April 25, 2023, have expressed an unmodified opinion on the financial statements. Based on consideration of their report and information submitted by them, we have reproduced the matter described below to be the key audit matter to be communicated in our report.

Key Audit Matters	Audit Procedures performed
<p><b>Legal &amp; Regulatory Risk:</b></p> <p>Refer Note 6 point 3 of the Consolidated financial statements</p> <p>Following default at National Spot Exchange Limited ('NSEL') in 2012 and initial investigations by Economic Offences Wing (EOW) and complaints received from investors against the broker of the now defunct spot exchange, NSEL and EOW in March and April 2015 had requested SEBI to take appropriate actions. However, In EOW report there was no allegation against Motilal Oswal Commodities Broker Private Limited (MOCBPL).</p> <p>In this manner, SEBI has issued Show Cause Notice to MOCBPL in financial year i.e. 2017-18 relating to NSEL Scam, for which management has replied accordingly.</p> <p>SEBI vide its order dated 22nd February 2019, rejected MOCBPL's registration application on the grounds that it is not fit and proper person to hold, directly or indirectly, the certificate of registration as commodity derivatives broker.</p>	<p>Following are the areas where risks are assessed &amp; procedures were followed.</p> <ul style="list-style-type: none"> <li>• <b>Recording of Receivables &amp; Dues - NSEL:</b> After scrutinising the books of accounts and discussion with the management it has been found that the amounts receivable from NSEL (Exchange) and due to the clients have direct nexus and MOCBPL has the role of a broker only. Hence, the amount receivable from Exchange has not been provided for Doubtful debts as they are directly payable to the Clients.</li> <li>• <b>Impact of SEBI order on the MOCBPL business:</b> The Company has already ceased its Commodity Broking business from April 2018. Also, the order of SEBI signifies that MOCBPL's registration application as Commodities Broker may be rejected; however the management doesn't plan to continue its Commodities Broking business under the company (MOCBPL). The company has also filed an appeal against the order of SEBI before the Securities Appellate Tribunal (SAT) &amp; the same is currently pending.</li> <li>• MOCBPL may have to refund the brokerage charged from the clients against which the management has already made provision in the books of accounts.</li> </ul> <p>Our procedures with respect to approaching the KAM:</p> <p><b>-Enquiring with Accounts and Finance Team:</b> We have discussed with Finance team, Management and have scrutinised books of account.</p>

	<p>– Assessing management’s conclusions and ensuring that updates regarding the manner are informed to us on timely basis.</p> <p>Our results: Based on the above procedures, whilst noting the inherent uncertainty with such legal matters, we concluded treatment of the matter as satisfactory.</p>
--	---

7. The auditors Shah & Savla LLP Chartered Accountants, of Motilal Oswal Finvest Limited vide their audit report dated April 26, 2023, have expressed an unmodified opinion on the financial statements. Based on consideration of their report and information submitted by them, we have reproduced the matter described below to be the key audit matter to be communicated in our report.

Key Audit Matter	Principal audit procedures performed
<p><b>1. Information Technology system for the financial reporting process</b></p> <p>The Company is highly dependent on its information technology (IT) systems for carrying on its operations which require large volume of transactions to be processed on a daily basis. Further, the Company’s accounting and financial reporting processes are dependent on the automated controls enabled by IT systems which impacts key financial accounting and reporting items such as Interest income, Loan Balance, Non Performing Assets amongst others. The controls implemented by the Company in its IT environment determine the integrity, accuracy, completeness and validity of data that is processed by the applications and is ultimately used for financial reporting. Accordingly, since our audit strategy has focused on key IT systems and controls due to pervasive impact on the financial statements and performing testing of automated process controls and General controls; we have determined the same as a key audit matter for current year audit.</p> <p><b>2. Impairment of loans</b></p> <p>Ind AS 109, Financial Instruments requires the Company to provide for impairment of its financial assets using</p>	<p>Our key audit procedures were relying on the work carried out by the IT specialists audit team, but were not limited to, the following:</p> <ul style="list-style-type: none"> <li>• Obtained an understanding of the Company’s IT environment and conducted risk assessment and identified IT applications, databases and operating systems that are relevant to our audit. Also, obtained an understanding of key automated controls operating over such identified IT applications; For deficiencies identified if any by the IT specialist, specialist team tested compensating controls or performed alternative procedures.</li> </ul> <p><b>Principal audit procedures performed</b></p> <p>a) Assessed and tested the design and operating effectiveness of key internal financial controls over the loan impairment process used to calculate the impairment.</p> <p>b) Assessed the critical assumptions used by the management for expected credit losses as at March 31, 2023.</p>

<p>the expected credit loss ('ECL') approach which involves estimates for probability of loss on the financial assets over their life, unless there has been no significant increase in credit risk since origination, in which case, the allowance is based on the 12- month ECL, considering reasonable and supportable information about past events, current conditions and forecasts of future economic conditions which could impact the credit quality of the Company's financial assets. In this process, substantial judgement has been applied by the management in assessing the 'significant increase in credit risk' in respect of following matters:</p>	<p>c) Assessed the assumptions used by the Company for grouping and staging of loan portfolio into various categories and default buckets based on their past-due status and other qualitative factors identified by the management which indicate significant increase in credit risk. For a sample of exposures, we tested the appropriateness of such staging.</p>
<p>a) The Company has grouped its loan portfolio based on days past due and other qualitative criteria as mentioned in the Credit-risk section. Loans grouped under a particular category are assumed to represent a homogenous pool thereby expected to demonstrate similar credit characteristics.</p>	<p>d) Understood and checked the key data sources and assumptions for data used in the ECL model used by the Company to determine impairment provisions.</p>
<p>b) Staging of loans and estimation of behavioral life.</p>	<p>e) On sample basis tested the completeness and accuracy of the input data used and agreed the data with the underlying books of accounts and records.</p>
<p>c) Estimation of expected loss from historical observations.</p>	<p>Tested the arithmetical accuracy of computation of ECL provision performed by the Company.</p>
<p>d) Estimation of losses in respect of those groups of loans which had no/ minimal defaults in the past.</p>	<p>We examined Board Policy that address policies, procedures and controls for assessing and measuring credit risk on all lending exposures, commensurate with the size, complexity and risk profile specific to the borrowers.</p>
<p>Considering the significance of above model for impairment to the overall financial statements and the degree of management's estimates and judgments involved including the regulatory announcement of moratorium facility and restructuring facility for eligible customers, this area required significant auditor attention to test such complex accounting estimates. Therefore, we have determined this to be a key audit matter for the current year audit.</p>	<p>We evaluated the design and operating effectiveness of controls across the processes relevant to ECL, including the judgements and estimates.</p>
<p>3. Management estimates impairment provision using Expected Credit loss model for the loan exposure as per the Board approved policy which is in line with Ind AS and the Regulations. Measurement of loan impairment involves application of significant</p>	<p>We tested the completeness of loans and advances included in the Expected Credit Loss calculations as of March 31, 2023 by reconciling it with the balances as per loan balance register as on that date.</p>
	<p>We tested assets in stage 1, 2 and 3 on sample basis to verify that they were allocated to the appropriate stage.</p>

<p>judgement by the management. The most significant judgements are:</p> <p>a) Timely identification and classification of the impaired loans, including classification of assets to stage 1, 2, or 3 using criteria in accordance with Ind AS 109 which also include considering the impact of RBI's regulatory circulars,</p> <p>b) The segmentation of financial assets when their ECL is assessed on a collective basis</p> <p>c) Determination of probability of defaults (PD) and loss given defaults (LGD) based on the default history of loans, subsequent recoveries made and other relevant factors and</p> <p>d) Assessment of qualitative factors having an impact on the credit risk.</p>	
---	--

**Information other than the Consolidated Financial Statements and Auditor's Report thereon**

8. The Holding Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Report on Corporate Governance (but does not include the Consolidated Financial Statements and our auditor's report thereon) which we obtained prior to the date of this auditor's report and Board's Report, Management Discussion and Analysis and Business Responsibility and Sustainability Report, which is expected to be made available to us after that date.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the Consolidated Financial Statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

When we read the other information included in the above reports, if we conclude that there is material misstatement therein, we are required to communicate the matter to

those charged with governance and determine the actions under the applicable laws and regulations.

**Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements**

9. The Holding Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with regard to the preparation and presentation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated changes in equity and consolidated cash flows of the Group including its associate in accordance with the accounting principles generally accepted in India, including the Ind AS specified under section 133 of the Act. The respective Board of Directors/management of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.
10. In preparing of these consolidated financial statements, the respective Board of Directors/ Management of the companies included in the Group and of its associate are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.
11. Those respective Board of Directors/Management included in the Group and of its associate are also responsible for overseeing the Group's financial reporting process.

**Auditor's Responsibilities for the Audit of the Consolidated Financial Statements**

12. Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.
13. As part of an audit in accordance with Standards on auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
  - i. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
  - ii. Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
  - iii. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
  - iv. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its associate to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associate to cease to continue as a going concern.
  - v. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
  - vi. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the of which we are the independent

auditors, to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

14. Materiality is the magnitude of the misstatement in the statement that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the statement may be influenced. We consider quantitative materiality and qualitative factors in; (i) planning the scope of our audit work and evaluating the results of our work; and (ii) to evaluate the effects of any identified misstatements in the consolidated financial statements.
15. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
16. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
17. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### **Other Matters**

18. We did not audit the financial statements of eight subsidiaries, whose financial statements reflects total assets of Rs. 5,62,858 lakhs as at March 31, 2023, total revenue of Rs. 59,414 lakhs, total net profit after tax of Rs. 12,461 lakhs, net cash (outflow) / inflow of Rs. 48,483 lakhs and total comprehensive income of Rs. 11,210 lakhs for the year ended March 31, 2023 respectively, as considered in the consolidated financial Statements. The consolidated financial Statements also includes the Group's share of the net profit after tax and total comprehensive income of Rs. 262 lakhs for the year ended March 31, 2023, in respect of one associate, whose financial statements have not been audited by us. These financial statements have been audited by other

auditors whose audit report have been furnished to us by the management, and our opinion in so far as it relates to the amount and disclosures included in respect of those subsidiaries/associate is based solely on the audit report of such other auditors, and the procedure performed by us as stated in the paragraph 3 above.

Our opinion above on the consolidated financial statements, and our report on other legal and regulatory requirements below, are not modified in respect of the above matters with respect to our reliance on the work done by and the reports of the other auditors.

19. The consolidated financial statements includes the consolidated financial statements of four subsidiaries which have not been audited, whose annual financial statements reflect total assets of Rs. 4,448 lakhs as at March 31, 2023, total revenue of Rs. 1,349 lakhs, total net profit after tax of Rs. (217) lakhs, net cash (outflow) / inflow of Rs. 392 lakhs and total comprehensive income of Rs. (217) lakhs for the year ended March 31, 2023 respectively. These financial statements have been furnished to us by the Holding Company's management. Our opinion is so far as it relates to the amounts and disclosures included in respect of aforesaid subsidiaries is based solely on such unaudited financial statements. In our opinion, and accordance to the information and explanation given to us by the management, are not material to the Group.

Our opinion above on the consolidated financial statements, and our report on other legal and regulatory requirements below, are not modified in respect of the above matter with respect to our reliance on the financial statements certified by the management.

#### **Report on Other Legal and Regulatory Requirements**

20. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, based on our audit and on the consideration of report of the other auditors on separate financial statements and the other financial information of the subsidiary companies, as noted in the 'Other Matter' paragraph we give in the "Annexure A" a statement on the matters specified in paragraph 3(xxi) of the Order.
21. As required by Section 143(3) of the Act, based on our audit and on the consideration of report of the other auditors on separate financial statements and the other financial information of subsidiaries and associate as noted in the 'other matter' paragraph we report, to the extent applicable, that:
- We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the aforesaid consolidated financial statements;
  - In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors.

- c. The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss including the Statement of Other Comprehensive income, the Consolidated Cash Flow Statement and Consolidated Statement of Changes in Equity dealt with by this Report are in agreement with the books of account maintained for the purpose of preparation of the consolidated financial statements;
- d. In our opinion, the aforesaid consolidated financial statements comply with the Ind AS specified under section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended;
- e. On the basis of written representations received from the directors of the Holding Company as on March 31, 2023, taken on record by the Board of Directors of the Holding Company and reports of the statutory auditors who are appointed under Section 139 of the Act, of its Indian subsidiary companies, none of the directors of the Group's companies, is disqualified as on March 31, 2023 from being appointed as a director in terms of Section 164 (2) of the Act.
- f. With respect to the adequacy of the internal financial controls with reference to the consolidated financial statements of the Group and the operating effectiveness of such controls, we request you to refer to our separate Report in "Annexure B" to this report.
- g. In our opinion and based on the consideration of reports of other statutory auditors of the subsidiaries, the managerial remuneration for the year ended March 31, 2023 has been paid/provided by the Group to their Directors is in accordance with the provisions of Section 197 read with Schedule V to the Act.
- h. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the report of the other auditors on separate financial statements as also the other financial information of the subsidiaries and associate:
  - i. The consolidated financial statements disclose the impact of pending litigations on its consolidated financial position of the Group and associate, in its consolidated financial statements – Refer Note 39 to the consolidated financial statements;
  - ii. The Group and associate did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses as at March 31, 2023;
  - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Group during the year ended March 31, 2023;
  - iv. (a) The respective managements of the Group and associate which are Companies incorporated in India whose financial statements have been audited under the Act have represented to us and the other auditors of such subsidiaries respectively that, to the best of its knowledge and belief, no funds have been

advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Holding Company or any of such subsidiaries or associate to or in any other person or entity, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf

of the respective Holding Company or any of such subsidiaries or associate ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(b) The respective managements of the Group and associate which are Companies incorporated in India whose financial statements have been audited under the Act have represented to us and the other auditors of such subsidiaries respectively that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the respective Holding Company or any of such subsidiaries from any person or entity, including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Holding Company or any of such subsidiaries or associate shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and

(c) Based on audit procedures that have been considered reasonable and appropriate in the circumstances; nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.

- v. The dividend declared or paid during the year and subsequent to the year- end by the Group and associate is in compliance with Section 123 of the Act.
- vi. Proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 for maintaining books of account using accounting software which has a feature of recording audit trail (edit log) facility is applicable to the Group and associate w.e.f. April 1, 2023, and accordingly, reporting under Rule 11(g) of Companies (Audit and Auditors) Rules, 2014 is not applicable for the financial year ended March 31, 2023.

**Annexure B to the Independent Auditor's Report of even date on the Consolidated Financial Statements of Motilal Oswal Financial Services Limited**

**Referred to in paragraph [21(f)] under Report on Other Legal and Regulatory Requirements of our report of even date**

**Report on the Internal Financial Controls over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

In conjunction with our audit of the consolidated financial statements of Motilal Oswal Financial Services Limited (hereinafter referred to as the "Holding Company") as of and for the year ended March 31, 2023, we have audited the internal financial controls with reference to consolidated financial statements of the Holding Company and its subsidiaries (the Holding Company and its subsidiaries together referred to as the "Group"), as of that date.

**Management's Responsibility for Internal Financial Controls**

The respective Board of Directors of the Holding Company and its subsidiary companies, which are companies covered under the Act are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Holding Company and subsidiary considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

**Auditor's Responsibility**

Our responsibility is to express an opinion on the Holding Company's and its subsidiaries companies internal financial controls with reference to consolidated financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing as specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls and both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting with reference to consolidated financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting with reference to consolidated financial statements and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed

risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matter paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to consolidated financial statements.

**Meaning of Internal Financial Controls over Financial Reporting with reference to consolidated financial statements**

A Company's internal financial control over financial reporting with reference to consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that:

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

**Inherent Limitations of Internal Financial Controls over Financial Reporting with reference to consolidated financial statements**

Because of the inherent limitations of internal financial controls over financial reporting with reference to consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting with reference to consolidated financial statements to future periods are subject to the risk that the internal financial control over financial reporting with reference to consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**Opinion**

In our opinion and based on the consideration of the reports of the other auditors on internal financial controls with reference to financial statements of such subsidiary companies, the Group which comprises of the companies incorporated in India, have in all material respects, adequate internal financial controls with reference to financial statements and such controls were operating effectively as at March 31, 2023, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

*Singhi & Co.*

Chartered Accountants

**Other Matter**

Our report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to consolidated financial statements of the Holding Company, in so far as it relates to the eight subsidiaries which are audited by other auditors, is based on the corresponding reports of the auditors of such subsidiaries. Further as associate is a Limited Liability Partnership (LLP) firm, hence report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls is not applicable to it.

\*Refer note 61 on the Scheme of arrangement

\*\*Equity investments which are not held for trading, where an irrevocable election is made at the initial recognition to classify the instruments at FVOCI, all subsequent changes in fair value are recognised in Other Comprehensive Income. On disposal of investments the cumulative change in fair value is not recycled to profit or loss. However, at such time, it is transferred from OCI to General reserve.  
The accompanying notes are integral part of these financial statements.  
This is the statement of changes in equity referred to in our report of even date.

# Actuarial gains/(losses) on post retirement benefit plans which was part of Other Comprehensive Income has been reclassified to Retained Earnings.  
Note: NCI stands for Non Controlling Interest unless specifically specified to be else.

**Motilal Oswal Financial Services Limited**  
**Summary of significant accounting policies and other explanatory information**

**1A. Corporate information**

Motilal Oswal Financial Services Limited ("MOFSL" or 'the Holding Company') is a public limited company and incorporated under the provisions of Companies Act. The Company is domiciled in India and the addresses of its registered office and principal place of business are disclosed in the introduction to the annual report. The Holding Company is listed on the Bombay Stock Exchange (BSE) and the National Stock Exchange (NSE).

Motilal Oswal Financial Services Limited, its subsidiaries and associate entity (collectively, the Group) are engaged in stock broking, asset management and mutual funds, private equity, investment banking, home finance, wealth management services, distribution of financial products, proprietary investments and other activities in financial services.

These consolidated financial statements contain financial information of the Group and were authorized for issue by the Board of Directors on 27 April 2023.

Information on the Group's structure is provided in note 57.

**1B. Business Combination under Common Control**

A common control business combination, involving entities or businesses in which all of the combining entities or businesses are ultimately controlled by the same party or parties both before and after the business combination and where the control is not transitory, is accounted for in accordance with Appendix C to Ind AS 103 'Business Combinations'.

Business combinations involving entities or businesses under common control are accounted for using the pooling of interest method as follows:

- The assets and liabilities of the combining entities are reflected at their carrying amounts.
- No adjustments are made to reflect fair values, or recognize new assets or liabilities. Adjustments are made only to harmonize significant accounting policies.
- The financial information in the financial statements in respect of prior periods are restated as if the business combination had occurred from the beginning of the preceding period in the financial statements.
- The identity of the reserves are preserved and appear in the financial statements of the transferee in the same form in which they appeared in the financial statements of the transferor.

The difference, if any, between the amounts recorded as share capital issued plus any additional consideration in the form of cash or other assets and the amount of share capital of the transferor is transferred to capital reserve and is presented separately from other capital reserves with disclosure of its nature and purpose in the notes (Refer Note 61 for additional details)

**1C. Business Combination under Acquisition method**

The Group applies the acquisition method in accounting for business combinations for the businesses which are not under common control. The cost of an acquisition is measured as the aggregate of the consideration transferred measured at acquisition date fair value and the amount of any non-controlling interests in the acquiree. For each business combination, the Group elects whether to measure the non-

## Motilal Oswal Financial Services Limited

### Summary of significant accounting policies and other explanatory information

controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition related costs are expensed as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their acquisition date fair values. For this purpose, the liabilities assumed include contingent liabilities representing present obligation and they are measured at their acquisition fair values irrespective of the fact that outflow of resources embodying economic benefits is not probable. However, the following assets and liabilities acquired in a business combination are measured at the basis indicated below:

- a) Deferred tax assets or liabilities and the assets or liabilities related to employee benefit arrangements are recognised and measured in accordance with Ind AS 12 'Income Tax' and Ind AS 19 'Employee Benefits' respectively.
- b) Potential tax effects of temporary differences and carry forwards of an acquiree that exist at the acquisition date or arise as a result of the acquisition are accounted in accordance with Ind AS 12.
- c) Reacquired rights are measured at a value determined on the basis of the remaining contractual term of the related contract. Such valuation does not consider potential renewal of the reacquired right.

Any contingent consideration to be transferred by the acquirer is recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability that is a financial instrument and within the scope of Ind AS 109 'Financial Instruments', is measured at fair value with changes in fair value recognised in profit or loss. If the contingent consideration is not within the scope of Ind AS 109, it is measured in accordance with the appropriate Ind AS.

Contingent consideration that is classified as equity is not re-measured at subsequent reporting dates and its subsequent settlement is accounted for within equity.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date.

If the business combination is achieved in stages, any previously held equity interest is re-measured at its acquisition date fair value and any resulting gain or loss is recognised in profit or loss or OCI, as appropriate. (Refer Note 60 for additional details)

## 2. Significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to the existing accounting standard requires a change in the accounting policy hitherto in use.

### 2.1. Basis of preparation

- (i) Compliance with Ind AS

The consolidated financial statements of the Group comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 ("the Act") read with Companies (Indian Accounting Standards) Rules, 2015 as amended and other relevant provisions of the Act.

The Balance Sheet, the Statement of Changes in Equity, the Statement of Profit and Loss and disclosures are presented in the format prescribed under Division III of Schedule III of the companies Act, as

## Motilal Oswal Financial Services Limited

### Summary of significant accounting policies and other explanatory information

amended from time to time that are required to comply with Ind AS. The Statement of Cash Flows has been presented as per the requirements of Ind AS 7 Statement of Cash Flows.

#### (ii) Historical cost convention

The consolidated financial statements have been prepared on a historical cost and on accrual basis, except for the following:

- Certain Financial instruments are measured at fair values;
- Assets held for sale – measured at fair value less cost to sell;
- Defined benefit plans – plan assets measured at fair value; and
- Share based payments – fair value as on the grant date

#### (iii) Preparation of consolidated financial statements

The Holding Company is covered in the definition of Non-Banking Financial Group as defined in Companies (Indian Accounting Standards) (Amendment) Rules, 2016. As per the format prescribed under Division III of Schedule III to the Companies Act, 2013 on 11 October 2018 and as amended on 24 March 2021, the Holding Company presents the Balance Sheet, the Statement of Profit and Loss and the Statement of Changes in Equity in the order of liquidity. A maturity analysis of recovery or settlement of assets and liabilities within 12 months after the reporting date and more than 12 months after the reporting date is presented in note 53.

#### (iv) Use of estimates and judgements

The preparation of consolidated financial statements in conformity with Ind AS which requires management to make estimates, judgements, and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities (including contingent liabilities) and disclosures as of the date of consolidated financial statements and the reported amounts of revenue and expenses for the reporting period. Actual results could differ from these estimates. Accounting estimates and underlying assumptions are reviewed on an ongoing basis and could change from period to period. Appropriate changes in estimates are recognized in the period in which the Group becomes aware of the changes in circumstances surrounding the estimates. Any revisions to accounting estimates are recognized prospectively in the period in which the estimate is revised and future periods. The estimates and judgements that have significant impact on carrying amount of assets and liabilities at each balance sheet date are discussed at note 3.

## 2.2. Principles of consolidation and equity accounting

#### (i) Subsidiaries

The consolidated financial statement has comprised financial statements of the Company and its subsidiaries. Subsidiaries are all the entities (including structured entities) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

**Motilal Oswal Financial Services Limited**  
**Summary of significant accounting policies and other explanatory information**

The acquisition method of accounting is used to account for business combinations by the Group.

The Group combines the financial statements of the Holding Company and its subsidiaries line by line adding together like items of assets, liabilities, equity, income and expenses. Intercompany transactions, balances and unrealized gains on transactions within the Group are eliminated. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Non-controlling interests in the results and equity of subsidiaries are shown separately in the consolidated statement of profit or loss, consolidated statement of changes in equity and balance sheet respectively. Statement of Profit and Loss including Other Comprehensive Income (OCI) is attributable to the equity holders of the Holding Company and to the non-controlling interest basis the respective ownership interest and such balance is attributed even if this results in controlling interest is having a deficit balance.

(ii) Associates

Associates are all entities over which the Group has significant influence but not control or joint control. This is generally the case where the Group holds between 20% and 50% of the voting rights. Investments in associates are accounted for using the equity method of accounting (see (iii) below), after initially being recognized at cost.

(iii) Equity method

Under the equity method of accounting, the investments are initially recognized at cost and adjusted thereafter to recognize the Group's share of the post-acquisition profits or losses of the investee in profit or loss, and the Group's share of other comprehensive income of the investee in other comprehensive income. Profit distribution from associates are recognized as a reduction in the carrying amount of the investment.

When the Group's share of losses in an equity-accounted investment equals or exceeds its interest in the entity, including any other unsecured long-term receivables, the Group does not recognize further losses, unless it has incurred obligations or made payments on behalf of the other entity.

Unrealized gains on transactions between the Group and its associates are eliminated to the extent of the Group's interest in these entities. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of equity accounted investees have been changed where necessary to ensure consistency with the policies adopted by the Group.

(iv) Changes in ownership interests

The Group treats transactions with non-controlling interests that do not result in a loss of control as transactions with equity owners of the Group. A change in ownership interest results in an adjustment between the carrying amounts of the controlling and non-controlling interests to reflect their relative interests in the subsidiary. Any difference between the amount of the adjustment to non-controlling interests and any consideration paid or received is recognized within equity.

When the Group ceases to consolidate or equity account for an investment because of a loss of control, joint control or significant influence, any retained interest in the entity is re-measured to its fair value with

## Motilal Oswal Financial Services Limited

### Summary of significant accounting policies and other explanatory information

the change in carrying amount recognized in profit or loss. This fair value becomes the initial carrying - amount for the purposes of subsequently accounting for the retained interest as an associate or financial asset. In addition, any amounts previously recognized in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognized in other comprehensive income are reclassified to profit or loss.

If the ownership interest in an associate is reduced but joint control or significant influence is retained, only a proportionate share of the amounts previously recognized in other comprehensive income are reclassified to profit or loss where appropriate.

### 2.3. Revenue Recognition

The Group recognises revenue from contracts with customers based on a five step model as set out in Ind AS 115, Revenue from Contracts with Customers, to determine when to recognize revenue and at what amount. Revenue is measured based on the consideration specified in the contract with a customer. Revenue from contracts with customers is recognised when services are provided and it is highly probable that a significant reversal of revenue is not expected to occur.

Revenue is measured at fair value of the consideration received or receivable. Revenue is recognized when (or as) the Group satisfies a performance obligation by transferring a promised good or service (i.e. an asset) to a customer. An asset is transferred when (or as) the customer obtains control of that asset.

When (or as) a performance obligation is satisfied, the Group recognizes as revenue the amount of the transaction price (excluding estimates of variable consideration) that is allocated to that performance obligation.

The Group applies the five-step approach for recognition of revenue:

- Identification of contract(s) with customers: A contract is defined as an agreement between two or more parties that creates enforceable rights and obligations and sets out the criteria for every contract that must be met.
- Identification of the separate performance obligations in the contract: A performance obligation is a promise in a contract with a customer to transfer a good or service to the customer.
- Determination of transaction price: The transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.
- Allocation of transaction price to the separate performance obligations: For a contract that has more than one performance obligation, the Company allocates the transaction price to each performance obligation in an amount that depicts the amount of consideration to which the Company expects to be entitled in exchange for satisfying each performance obligation.
- Recognition of revenue when (or as) each performance obligation is satisfied.

#### (i) Brokerage fee income

It is recognised on trade date basis and is exclusive of goods and service tax and securities transaction tax (STT) wherever applicable.

## Motilal Oswal Financial Services Limited

### Summary of significant accounting policies and other explanatory information

#### (ii) Interest income

Interest income on a financial asset at amortised cost is recognised on a time proportion basis taking into account the amount outstanding and the effective interest rate ('EIR'). The EIR is the rate that exactly discounts estimated future cash flows of the financial asset through the expected life of the financial asset or, where appropriate, a shorter period, to the net carrying amount of the financial instrument. The internal rate of return on financial asset after netting off the fees received and cost incurred approximates the effective interest rate method of return for the financial asset. The future cash flows are estimated taking into account all the contractual terms of the instrument.

The interest income is calculated by applying the EIR to the gross carrying amount of non-credit impaired financial assets (i.e. at the amortised cost of the financial asset before adjusting for any expected credit loss allowance). For credit-impaired financial assets the interest income is calculated by applying the EIR to the amortised cost of the credit-impaired financial assets (i.e. the gross carrying amount less the allowance for ECLs).

#### (iii) Portfolio management fee income

Performance obligations are satisfied over a period of time and portfolio management fees are recognized in accordance with the Portfolio Management Agreement entered with respective clients, which is as follows:

- a) Processing fees is recognized on upfront basis in the year of receipt;
- b) Management fees is recognized as a percentage of the unaudited net asset value at the end of each month;
- c) Return based fees is recognized as a percentage of annual profit, in accordance with the terms of the agreement with clients on the completion of the period.

#### (iv) Mutual fund management fee income

Performance obligations are satisfied over a period of time and mutual fund management fee is recognized on monthly basis in accordance with Investment Management Agreement and SEBI (Mutual Fund) Regulations, 1996, based on daily average assets under management (AUM) of the Schemes of Motilal Oswal Mutual Fund.

#### (v) Private equity fund management fee income

Performance obligations are satisfied over a period of time and private equity fund management fee is recognized on monthly basis in accordance with Private Placement Memorandum based on capital commitment / capital contribution of the Fund.

#### (vi) Alternative investment fund management fee income

Performance obligations are satisfied over a period of time and alternate investment management fee is recognized on monthly basis in accordance with Private Placement Memorandum.

#### (vii) Investment advisory fees

Performance obligations are satisfied over a period of time and investment advisory fee is recognized on monthly basis in accordance with the terms of the contract with the clients.

#### (viii) Research and advisory fees

Performance obligations are satisfied over a period of time and investment advisory fee is recognized on monthly basis in accordance with the terms of the contract with the clients.

**Motilal Oswal Financial Services Limited**  
**Summary of significant accounting policies and other explanatory information**

**(ix) Dividend income**

Dividend income is recognized in the statement of profit or loss on the date that the Group's right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the entity and the amount of dividend can be reliably measured. This is generally when the shareholders approve the dividend.

**(x) Net gain on fair value changes.**

The Company designates certain financial assets for subsequent measurement at fair value through profit or loss (FVTPL) or fair value through other comprehensive income (FVOCI). The Company recognizes gains on fair value change of financial assets measured at FVTPL and realized gains on de-recognition of financial asset measured at FVTPL and FVOCI on net basis in profit or loss.

**(xi) Trustee fees**

Performance obligations are satisfied over a period of time and trustee fees are recognized at the specific rates/amount approved by the Board of Directors of the Company, within the limits specified under the Trust Deed and is applied on the assets under management of each scheme of Motilal Oswal Mutual Fund.

**(xii) Depository services income**

Revenue from depository services on account of annual maintenance charges have been accounted for over the period of the performance obligation.

Revenue from depository services on account of transaction charges is recognized point in time when the performance obligation is satisfied.

**(xiii) Delayed payment charges**

Interest is earned on delayed payments from customers and is recognised on a time proportion basis taking into account the amount outstanding from customers and the rates applicable.

**2.4. Distribution cost**

**Portfolio Management Services**

Distribution cost for Portfolio Management Services are charged to Statement of Profit and Loss on accrual basis. Upfront distribution cost paid till 30th September 2020 is amortised over the contractual period. On this account, an asset (prepaid expenses) is recognised at the time of actual payment or becoming due for payment and charged evenly to the Statement of Profit and Loss over the commitment period of the respective investor.

**Alternate Investment Fund Services**

Distribution cost for Alternate Investment Fund Management Services are charged to Statement of Profit and Loss on accrual basis. On this account, an asset (prepaid expenses) is recognised at the time of actual payment or becoming due for payment and charged to the Statement of Profit and Loss over the period of the scheme.

**Fund related expenses**

**New fund offer expenses**

Expenses relating to initial issue of Mutual Fund Schemes of the Fund are charged to the Statement of Profit and Loss in the year in which such expenses are incurred which is in compliance with SEBI (Mutual Funds) Regulations, 1996.

**Recurring fund expenses**

Expenses incurred (inclusive of advertisement / brokerage expenses) on behalf of schemes of Motilal Oswal Mutual Fund till 22<sup>nd</sup> October 2019 are recognised in the Statement of Profit and Loss unless considered recoverable from the schemes of the Fund in accordance with the provisions of SEBI (Mutual Fund) Regulations, 1996.

**2.5. Income Tax**

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses. Current and deferred tax is recognized in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity, respectively.

**Current Tax:**

Current tax is measured at the amount of tax expected to be payable on the taxable income for the year as determined in accordance with the provisions of the Income Tax Act, 1961. Current tax assets and current tax liabilities are off set when there is a legally enforceable right to set off the recognized amounts and there is an intention to settle the asset and the liability on a net basis.

**Deferred Tax:**

Deferred tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, deferred tax liabilities are not recognized if they arise from the initial recognition of goodwill. Deferred tax is also not accounted for, if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss). Deferred tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

Deferred tax assets are recognized for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilize those temporary differences and losses. Deferred tax liabilities are not recognized for temporary differences between the carrying amount and tax bases of investments in subsidiaries and associates where the Group is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority.

**2.6. Leases**

For any new contracts entered into on or after 1 April 2019, the Company considers whether a contract is, or contains a lease. A lease is defined as 'a contract, or part of a contract, that conveys the right to use an asset (the underlying asset) for a period of time in exchange for consideration'. The Company assess whether it has the right to direct 'how and for what purpose' the asset is used throughout the period of use.

**Measurement and recognition of leases as a lessee**

The Company has adopted Ind AS 116 "Leases" using the cumulative catch-up approach. Company has recognised Right of Use assets as at 1 April 2019 for leases previously classified as operating leases and measured at an amount equal to lease liability (adjusted for related prepayments/ accruals). The Company has discounted lease payments using the incremental borrowing rate for measuring the lease liability.

The Company recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any re-measurement of lease liabilities.

The Company depreciates the right-of-use assets on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The Company also assesses the right-of-use asset for impairment when such indicators exist.

Lease payments included in the measurement of the lease liability are made up of fixed payments (including in substance fixed), variable payments based on an index or rate, amounts expected to be payable under a residual value guarantee and payments arising from options reasonably certain to be exercised.

Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. It is re-measured to reflect any reassessment or modification, or if there are changes in in-substance fixed payments.

When the lease liability is re-measured, the corresponding adjustment is reflected in the right-of-use asset, or profit and loss if the right-of-use asset is already reduced to zero.

The Company has elected to account for short-term leases and leases of low-value assets using the practical expedients. Instead of recognising a right-of-use asset and lease liability, the payments in relation to these are recognised as an expense in profit or loss on a straight-line basis over the lease term.

When the Company revises its estimate of the term of any lease, it adjusts the carrying amount of the lease liability to reflect the payments to make over the revised term, which are discounted using a revised discount rate. The carrying value of lease liabilities is similarly revised when the variable element of future lease payments dependent on a rate or index is revised, except the discount rate remains unchanged. In both cases an equivalent adjustment is made to the carrying value of the right-of-use asset, with the revised carrying amount being amortised over the remaining (revised) lease term. If the carrying amount of the right-of-use asset is adjusted to zero, any further reduction is recognised in statement of profit and loss.

For contracts that both convey a right to the Company to use an identified asset and require services to be provided to the Company by the lessor, the Company has elected to account for the entire contract as

**Motilal Oswal Financial Services Limited**  
**Summary of significant accounting policies and other explanatory information**

a lease, i.e. it does not allocate any amount of the contractual payments to, and account separately for, any services provided by the supplier as part of the contract.

**2.7. Cash and cash equivalents**

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Outstanding bank overdrafts are not considered integral part of the Company's cash management.

**2.8. Financial instruments**

Initial recognition and measurement

Financial assets and financial liabilities are recognized when the entity becomes a party to the contractual provisions of the instrument. Regular way purchases and sales of financial assets are recognized on trade-date, the date on which the Group commits to purchase or sell the asset.

At initial recognition, the Group measures a financial asset or financial liability at its fair value plus or minus, in the case of a financial asset or financial liability not at fair value through profit or loss, transaction costs that are incremental and directly attributable to the acquisition or issue of the financial asset or financial liability, such as fees and commissions. Transaction costs of financial assets and financial liabilities carried at fair value through profit or loss are expensed in profit or loss. Immediately after initial recognition, an expected credit loss allowance (ECL) is recognized for financial assets measured at amortized cost.

When the fair value of financial assets and liabilities differs from the transaction price on initial recognition, the entity recognizes the difference as follows:

- a) When the fair value is evidenced by a quoted price in an active market for an identical asset or liability (i.e. a Level 1 input) or based on a valuation technique that uses only data from observable markets, the difference is recognized as a gain or loss.
- b) In all other cases, the difference is deferred and the timing of recognition of deferred day one profit or loss is determined individually. It is either amortized over the life of the instrument, deferred until the instrument's fair value can be determined using market observable inputs, or realized through settlement.

When the Group revises the estimates of future cash flows, the carrying amount of the respective financial assets or financial liability is adjusted to reflect the new estimate discounted using the original effective interest rate. Any changes are recognized in profit or loss.

Fair value of financial instruments

Some of the Group's assets and liabilities are measured at fair value for financial reporting purpose. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date regardless of whether that price is directly observable or estimated using another valuation technique.

**Motilal Oswal Financial Services Limited**  
**Summary of significant accounting policies and other explanatory information**

Fair value measurements under Ind AS are categorized into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurement are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company can access at measurement date
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly; and
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs) that the Company can access at measurement date.

Information about the valuation techniques and inputs used in determining the fair value of various assets and liabilities are disclosed in note 54.

**Financial assets**

**(i) Classification and subsequent measurement**

The Group has applied Ind AS 109 and classifies its financial assets in the following measurement categories:

- Fair value through profit or loss (FVTPL);
- Fair value through other comprehensive income (FVOCI); or
- Amortised cost.

Classification and subsequent measurement of financial assets depends on:

- The Company's business model for managing the asset; and
- The cash flow characteristics of the asset.

**1. Financial assets carried at:**

**a. Amortised cost**

A financial asset is measured at the amortised cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in interest income in the Statement of Profit and Loss.

**b. Fair value through other comprehensive income**

Financial assets that are held within a business model whose objective is achieved by both, selling financial assets and collecting contractual cash flows that are solely payments of principal and interest, are subsequently measured at fair value through other comprehensive income. Fair value movements are recognized in the other comprehensive income (OCI). Interest income measured using the EIR method and impairment losses, if any are recognised in the Statement of Profit and Loss. On derecognition, cumulative gain or loss previously recognised in OCI is reclassified from the equity to 'other income' in the Statement of Profit and Loss.

c. Fair value through profit or loss

A financial asset not classified as either amortised cost or FVOCI, is classified as FVTPL. Such financial assets are measured at fair value with all changes in fair value, including interest income and dividend income if any, recognised as 'other income' in the Statement of Profit and Loss.

**2. Equity instruments**

Equity instruments are instruments that meet the definition of equity from the issuer's perspective; that is, instruments that do not contain a contractual obligation to pay and that evidence a residual interest in the issuer's net assets.

All investments in equity instruments classified under financial assets are initially measured at fair value, the Group may, on initial recognition, irrevocably elect to measure the same either at FVOCI or FVTPL. The Group makes such election on an instrument-by-instrument basis. Fair value changes on an equity instrument is recognised as revenue from operations in the Statement of Profit and Loss unless the Group has elected to measure such instrument at FVOCI. Fair value changes excluding dividends, on an equity instrument measured at FVOCI are recognized in OCI. Amounts recognised in OCI are not subsequently reclassified to the Statement of Profit and Loss. Dividend income on the investments in equity instruments are recognised as 'Revenue from operations' in the Statement of Profit and Loss.

**3. Investments in mutual funds**

Investments in mutual funds are measured at fair value through profit and loss (FVTPL).

**(ii) Impairment**

The Group recognizes impairment allowances using Expected Credit Losses ("ECL") method on all the financial assets that are not measured at FVTPL:

ECL are probability-weighted estimate of credit losses. They are measured as follows:

- Financials assets that are not credit impaired – as the present value of all cash shortfalls that are possible within 12 months after the reporting date.
- Financials assets with significant increase in credit risk - as the present value of all cash shortfalls that result from all possible default events over the expected life of the financial assets.
- Financials assets that are credit impaired – as the difference between the gross carrying amount and the present value of estimated cash flows.

Financial assets are written off/fully provided for when there is no reasonable of recovering a financial assets in its entirety or a portion thereof.

However, financial assets that are written off could still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognised in the Statement of Profit and Loss.

**Motilal Oswal Financial Services Limited**  
**Summary of significant accounting policies and other explanatory information**

**(iii) Derecognition**

A financial asset is derecognised only when:

The Group has transferred the rights to receive cash flows from the financial asset or retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the Group has transferred an asset, the Group evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the Group has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Group has not retained control of the financial asset. Where the Group retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

Transfer of loans through assignment transaction can be made only after continuing involvement in loans i.e. retaining a minimum specific percentage of loan but without retaining any substantial risk and reward in the loan assigned. The assigned portion of loans is derecognized and gains/losses are accounted for, only if the Company transfers substantially all risks and rewards specified in the underlying assigned loan contracts. Gain/loss arising on such assignment transactions is recorded upfront in the Statement of Profit and Loss and the corresponding loan is derecognized from the Balance Sheet immediately. Further, if the transfer of loan qualifies for derecognition, entire interest spread at its present value (discounted over the life of the asset) is recognized on the date of derecognition itself as interest strip receivable (interest strip on assignment) and correspondingly presented as gain/loss on derecognition of financial asset.

**Financial liabilities**

**(i) Initial recognition and measurement**

All financial liabilities are recognised when the Company becomes a party to the contractual provisions of the financial instrument and are measured initially at fair value adjusted for transaction costs.

**(ii) Subsequent measurement**

Financial liabilities are subsequently measured at amortised cost using the EIR method. Financial liabilities carried at fair value through profit or loss are measured at fair value with all changes in fair value recognised in the Statement of Profit and Loss.

**(iii) Derecognition**

A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or expires.

**Motilal Oswal Financial Services Limited**  
**Summary of significant accounting policies and other explanatory information**

**2.9. Offsetting financial instruments**

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Group or the counterparty.

**2.10. Derivative Financial Instruments and Hedge Accounting:**

The Company enters into forward contracts to hedge the foreign currency risk of firm commitments and highly probable forecast transactions. Derivatives are initially recognised at fair value at the date the derivative contracts are entered into and are subsequently re-measured to their fair value at the end of each reporting period. The resulting gain or loss is recognised in the Statement of Profit and Loss immediately unless the derivative is designated and effective as a hedging instrument, in which event the timing of the recognition in the Statement of Profit and Loss depends on the nature of the hedging relationship and the nature of the hedged item.

The Company enters into derivative financial instruments viz. foreign exchange forward contracts, interest rate swaps and cross currency swaps to manage its exposure to interest rate and foreign exchange rate risks. The Company does not hold derivative financial instruments for speculative purposes.

**Hedge Accounting:** The Company designates certain hedging instruments in respect of foreign currency risk and interest rate risk as cash flow hedges. Such hedges are expected to be highly effective in achieving offsetting changes in fair value or cash flows, and are assessed on an ongoing basis to determine that they actually have been highly effective throughout the financial reporting periods for which they were designated. The effective portion of changes in the fair value of the designated portion of derivatives that qualify as cash flow hedges is recognised in Other Comprehensive Income and accumulated under the heading of cash flow hedging reserve.

The gain or loss relating to the ineffective portion is recognised immediately in the Statement of Profit and Loss. Amounts previously recognised in Other Comprehensive Income and accumulated in other equity relating to (effective portion as described above) are re-classified to the Statement of Profit and Loss in the periods when the hedged item affects profit or loss. However, when the hedged forecast transaction results in the recognition of a non-financial asset or a non-financial liability, such gains and losses are transferred from equity and included in the initial measurement of the cost of the non-financial asset or non-financial liability. Hedge accounting is discontinued when the hedging instrument expires, terminated, or exercised, without replacement or rollover (as part of the hedging strategy), or if its designation as a hedge is revoked, or when it no longer qualifies for hedge accounting. Any gain or loss recognised in Other Comprehensive Income and accumulated in other equity at that time remains in other equity and is recognised when the forecast transaction is ultimately recognised in Statement of Profit and Loss. When a forecast transaction is no longer expected to occur, the gain or loss accumulated in other equity is recognised immediately in the Statement of Profit and Loss.

**2.11. Financial guarantee contracts and loan commitments**

Financial guarantee contracts are contracts that require the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due, in accordance with the terms of a debt instrument. Such financial guarantees are given to banks, financial institutions and others on behalf of customers to secure loans, overdrafts and other banking facilities.

Financial guarantee contracts are initially measured at fair value and subsequently measured at the higher of:

- The amount of the loss allowance; and

**Motilal Oswal Financial Services Limited**  
**Summary of significant accounting policies and other explanatory information**

- The premium received on initial recognition less income recognized in accordance with the principles of Ind AS 115.

**2.12. Repossessed collateral**

Repossessed collateral represents non-financial assets acquired by the Company in settlement of overdue loans. Any collateral obtained as a result of foreclosure is not recognized as a separate asset unless it is acquired by the Company in settlement of overdue loans.

**2.13. Property, plant and equipment**

Property, plant and equipment are stated at cost of acquisition less accumulated depreciation. Cost includes expenditure that is directly attributable to the acquisition and installation of the assets.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under other non-financial assets and the cost of assets not put to use before such date are disclosed under 'Capital work-in-progress'.

**Depreciation methods, estimated useful lives and residual value**

Depreciation is calculated using the straight-line method to allocate their cost, net of their residual values, over their estimated useful life prescribed under Schedule II to the Companies Act, 2013. The Group provides pro-rata depreciation from the month of installation till the date assets are sold or disposed. Leasehold improvements are amortised over the term of underlying lease.

Assets	Useful life
Building	60 years
Furniture and Fixtures	10 years
Office Equipments	5 years
Computers and Network Equipments	3 to 6 years
Plant and Machinery	5 years
Electrical Equipments	10 years
Vehicles	8 to 10 years
Leasehold Improvements	Over the primary lease period or useful life. Whichever is less.

**Derecognition:**

The carrying amount of an item of property, plant and equipment is derecognized on disposal or when no future economic benefits are expected from its use or disposal. Gains and losses on disposals are determined by comparing proceeds with carrying amount and are recognized in the statement of profit and loss when the asset is derecognized.

**Motilal Oswal Financial Services Limited**  
**Summary of significant accounting policies and other explanatory information**

**2.14. Intangible assets**

Measurement at initial recognition:

Intangible assets are recognized where it is probable that the future economic benefit attributable to the assets will flow to the Group and its cost can be reliably measured. Intangible assets are stated at cost of acquisition less accumulated amortization and impairment, if any.

Expenditure incurred on acquisition/development of intangible assets which are not put/ready to use at the reporting date is disclosed under intangible assets under development. The Group amortizes intangible assets on a straight-line basis over the five years commencing from the month in which the asset is first put to use. The Group provides pro-rata amortization from the day the asset is put to use.

Asset	Useful life
Computer Software	5 years
Licences	Over the license period
Customer rights	5 years

Derecognition:

The carrying amount of an intangible asset is derecognized on disposal or when no future economic benefits are expected from its use or disposal. Gains and losses on disposals are determined by comparing proceeds with carrying amount and are recognized in the statement of profit and loss when the asset is derecognized

**2.15. Impairment of non-financial assets**

At each reporting date, the Group assesses whether there is any indication based on internal/external factors, that an asset may be impaired. If any such indication exists, the Group estimates the recoverable amount of the asset. The recoverable amount of asset is the higher of its value in use or its fair value. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects the current market assessment of time value of money and the risks specific to it. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount and the reduction is treated as an impairment loss and is recognised in the statement of profit and loss. All assets are subsequently reassessed for indications that an impairment loss previously recognised may no longer exist. An Impairment loss is reversed if there has been a change in estimates used to determine the recoverable amount. Such a reversal is made only to the extent that the assets carrying amount would have been determined, net of depreciation or amortization, had no impairment loss been recognised.

**2.16. Expected credit loss (ECL) model:**

The Company applies the ECL model in accordance with Ind AS 109 for recognising impairment loss on financial assets. The ECL allowance is based on the credit losses expected to arise from all possible default events over the expected life of the financial asset ('lifetime ECL'), unless there has been no significant increase in credit risk since origination, in which case, the allowance is based on the 12-month ECL. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

**Motilal Oswal Financial Services Limited**  
**Summary of significant accounting policies and other explanatory information**

ECL is calculated on a collective basis, considering the retail nature of the underlying portfolio of financial assets.

The impairment methodology applied depends on whether there has been a significant increase in credit risk. When determining whether the risk of default on a financial asset has increased significantly since initial recognition, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis based on a provision matrix which takes into account the Company's historical credit loss experience, current economic conditions, forward looking information and scenario analysis.

The expected credit loss is a product of exposure at default ('EAD'), probability of default ('PD') and loss given default ('LGD'). The Company has devised an internal model to evaluate the PD and LGD based on the parameters set out in Ind AS 109. Accordingly, the financial assets have been segmented into three stages based on the risk profiles. The three stages reflect the general pattern of credit deterioration of a financial asset. The company categorises financial assets at the reporting date into stages based on the days past due ('DPD') status as under:

- Stage 1: Low credit risk, i.e. 0 to 30 days past due
- Stage 2: Significant increase in credit risk, i.e. 31 to 90 days past due
- Stage 3: Impaired assets, i.e. more than 90 days past due

LGD is an estimate of loss from a transaction given that a default occurs. PD is defined as the probability of whether the borrowers will default on their obligations in the future. For assets which are in Stage 1, a 12-month PD is required. For Stage 2 assets a lifetime PD is required while Stage 3 assets are considered to have a 100% PD. EAD represents the expected exposure in the event of a default and is the gross carrying amount in case of the financial assets held by the Company.

The Company incorporates forward looking information into both assessments of whether the credit risk of an instrument has increased significantly since its initial recognition and its measurement of ECL. Based on the consideration of external actual and forecast information, the Company forms a 'base case' view of the future direction of relevant economic variables. This process involves developing two or more additional economic scenarios and considering the relative probabilities of each outcome. The base case represents a most likely outcome while the other scenarios represent more optimistic and more pessimistic outcomes.

The measurement of impairment losses across all categories of financial assets requires judgement, in particular, the estimation of the amount and timing of future cash flows and collateral values when determining impairment losses and the assessment of a significant increase in credit risk. These estimates are driven by a number of factors, changes in which can result in different levels of allowances. The Company's ECL calculations are outputs of complex models with a number of underlying assumptions regarding the choice of variable inputs and their interdependencies. The inputs and models used for calculating ECLs may not always capture all characteristics of the market at the date of the financial statements. The Company regularly reviews its models in the context of actual loss experience and makes adjustments when such differences are significantly material.

The amount of ECL (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognised as an impairment gain or loss in profit or loss.

**Motilal Oswal Financial Services Limited**  
**Summary of significant accounting policies and other explanatory information**

After initial recognition, trade receivables are subsequently measured at amortised cost using the effective interest method, less provision for impairment. The Company follows the simplified approach required by Ind AS 109 for recognition of impairment loss allowance on trade receivables, which requires lifetime ECL to be recognised at each reporting date, right from initial recognition of the receivables.

**2.17. Provisions and contingencies:**

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the Balance Sheet date.

Provisions are determined by discounting the expected future cash flows (representing the best estimate of the expenditure required to settle the present obligation at the balance sheet date) at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognized as finance cost. Expected future operating losses are not provided for.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made. Contingent assets are neither recognised nor disclosed in the financial statements.

**2.18. Employee benefits**

(i) Short-term obligations

Short-term employee benefits are recognized as an expense at the undiscounted amount in the Statement of Profit and Loss for the year in which the related services are rendered. The Group recognises the costs of bonus payments when it has a present obligation to make such payments as a result of past events and a reliable estimate of the obligation can be made.

**Compensated absences**

The Group does not have a policy of encashment of unavailed leaves for its employees but are permitted to be carried forward subject to some prescribed maximum days. Provision is made on actual basis of accumulating compensated absences as a result of unused leave entitlement which has accumulated as at the balance sheet date.

(ii) Post-employment obligations

**Defined contribution plan:**

Contribution paid/payable to the recognised provident fund, which is a defined contribution scheme, is charged to the Statement of Profit and Loss in the period in which they occur.

**Motilal Oswal Financial Services Limited**  
**Summary of significant accounting policies and other explanatory information**

**Defined benefits plan:**

Gratuity is post-employment benefit and is in the nature of defined benefit plan. The liability recognised in the Balance Sheet in respect of gratuity is the present value of defined benefit obligation at the Balance Sheet date together with the adjustments for unrecognised actuarial gain or losses and the past service costs. The defined benefit obligation is calculated at or near the Balance Sheet date by an independent actuary using the projected unit credit method. Actuarial gains and losses comprise experience adjustment and the effects of changes in actuarial assumptions are recognized in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

**National Pension Scheme and Employee State Insurance Corporation**

Contribution paid/payable to the recognised NPS and ESIC, which is a defined contribution scheme, is charged to the Statement of Profit and Loss in the period in which they occur.

(iii) Other long-term employee benefit obligations

**Heritage club benefit**

Heritage club benefits are recognised as liability at the present value of defined benefits obligation as at the Balance Sheet date. The defined obligation benefit is calculated at the Balance Sheet date by an independent actuary using the projected unit credit method.

**2.19. Share-based payments**

Employee Stock Option Scheme (ESOS)

The Employees Stock Options Scheme ("the Scheme") has been established by the Group. The Scheme provides that employees are granted an option to subscribe to equity share of the Group that vest on the satisfaction of vesting conditions. The fair value of options granted under ESOS is recognized as an employee benefits expense with a corresponding increase in equity. The total amount to be expensed is determined reference to the fair value of the options granted excluding the impact of any service conditions. Information about the valuation techniques and inputs used in determining the fair value of options disclosed in note 50.

The total expense is recognized over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied. At the end of each period, the entity revises its estimates of the number of options that are expected to vest based on the service conditions. It recognizes the impact of the revision to original estimates, if any, in profit or loss, with a corresponding adjustment to equity.

**2.20. Foreign currency translation**

(i) Functional and presentation currency

Items included in consolidated financial statements of the Group are measured using the currency of the primary economic environment in which the Group operates ('the functional currency'). The consolidated financial statements are presented in Indian rupee (INR) in lakhs rounded off to two decimal places except when otherwise stated as permitted by Schedule III to the Companies Act, 2013, which is Group's functional and presentation currency.

## Motilal Oswal Financial Services Limited

### Summary of significant accounting policies and other explanatory information

#### (ii) Translation and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are recognized in profit or loss.

#### (iii) Translation of foreign subsidiaries.

All income and expense items are converted at the average rate of exchange applicable for the period. All assets and liabilities are translated at the closing rate as on the balance sheet date. The exchange difference arising out of the year-end translation is debited or credited to Translation Reserve of the respective subsidiary and is disclosed in Reserves and surplus.

### 2.21. Dividends

Provision is made for the amount of any dividend declared, being appropriately authorized and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

### 2.22. Earnings per share

#### a) Basic earnings per share

Basic earnings per share is calculated by dividing the net profit for the period (excluding other comprehensive income) attributable to equity share holders of the Group by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus element in equity shares issued during the year.

#### b) Diluted earnings per share

Diluted earnings per share is computed by dividing the net profit for the period (excluding other comprehensive income) attributable to equity shareholders by the weighted average number of shares outstanding during the period as adjusted for the effects of all diluted potential equity shares except where the results are anti-dilutive. Further, when a subsidiary issue the potential ordinary shares that are convertible into the ordinary shares of the subsidiary, to parties other than the parent and if these potential ordinary shares of the subsidiary have a dilutive effect on the basic earnings per share of the reporting entity, they are included in the calculation of diluted earnings per share.

### 2.23. Borrowing Costs

Expenses related to borrowing cost are accounted using effective interest rate. Borrowing costs are interest and other costs (including exchange differences relating to foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs) incurred in connection with the borrowing of funds. Borrowing costs directly attributable to acquisition or construction of an asset which necessarily take a substantial period of time to get ready for their intended use are capitalised as part of the cost of that asset. Other borrowing costs are recognised as an expense in the period in which they are incurred. The difference between the discounted amount mobilised and redemption value of commercial papers is recognised in the statement of profit and loss over the life of the instrument using the EIR.

**Motilal Oswal Financial Services Limited**  
**Summary of significant accounting policies and other explanatory information**

**2.24. Segment Reporting**

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker of the Group.

The power to assess the financial performance and position of the Group and make strategic decisions is vested in the managing director who has been identified as the Chief Operating Decision Maker.

The primary business of the Group comprises of "Capital market", "Fund based activities", "Asset Management and Advisory" and "Home Finance". The business segments have been identified considering the nature of services, the differing risks and returns, the organization structure and the internal financial reporting system. Capital market activities includes Broking services to clients, research and advisory services, financial product distribution, depository services and investment banking. Fund based activities include investment activities (Investment in securities and property) and financing activity. Asset management and advisory includes fee based services for management of assets. Home Finance represents interest and other related income from affordable housing finance business.

**2.25. Rounding of amounts**

All amounts disclosed in the consolidated financial statements and notes have been rounded off to the nearest lakh as per the requirements.

**2.26. Events after reporting date**

Where events occurring after the balance sheet date provide evidence of conditions that existed at the end of the reporting period, the impact of such events is adjusted within the consolidated financial statements. Otherwise, events after the balance sheet date of material size or nature are only disclosed.

**2.27. Fiduciary assets**

Assets held by the Company in its own name, but on the account of third parties, are not reported in the balance sheet. Commissions received from fiduciary activities are shown in fee and commission income.

**3. Key accounting estimates and judgements**

The preparation of consolidated financial statements requires management to make judgments, estimates and assumptions in the application of accounting policies that affect the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Continuous evaluation is done on the estimation and judgments based on historical experience and other factors, including expectations of future events that are believed to be reasonable. Revisions to accounting estimates are recognised prospectively.

Information about critical judgments in applying accounting policies, as well as estimates and assumptions that have the most significant effect to the carrying amounts of assets and liabilities within the next financial year, are included in the following notes:

(a) Provision and contingent liability: On an ongoing basis, Group reviews pending cases, claims by third parties and other contingencies. Contingent losses that are considered probable, an estimated loss is

## Motilal Oswal Financial Services Limited

### Summary of significant accounting policies and other explanatory information

recorded as an accrual in consolidated financial statements. Loss Contingencies that are considered possible are not provided for but disclosed as Contingent liabilities in the consolidated financial statements. Contingencies the likelihood of which is remote are not disclosed in the consolidated financial statements. Gain contingencies are not recognized until the contingency has been resolved and amounts are received or receivable.

(b) Allowance for impairment of financial asset: Judgements are required in assessing the recoverability of overdue loans and determining whether a provision against those loans is required. Factors considered include the aging of past dues, value of collateral and any possible actions that can be taken to mitigate the risk of non-payment.

(c) Recognition of deferred tax assets - Deferred tax assets are recognised for unused tax-loss carryforwards and unused tax credits to the extent that realisation of the related tax benefit is probable. The assessment of the probability with regard to the realisation of the tax benefit involves assumptions based on the history of the entity and budgeted data for the future.

(d) Defined benefit plans - The cost of defined benefit plans and the present value of the defined benefit obligations are based on actuarial valuation using the projected unit credit method. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long - term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

(e) Share based payment – The Group account for share based payment by measuring and recognizing as compensation expense the fair value of all share-based payment awards made to employees based on estimated grant date fair values. The determination of fair value involves a number of significant estimates. The Group uses the Black Scholes option pricing model to estimate the value of employee stock options which requires a number of assumptions to determine the model inputs. These include the expected volatility of Group's stock and employee exercise behavior which are based on historical data as well as expectations of future developments over the term of the option. As stock-based compensation expense is based on awards ultimately expected to vest. Management's estimate of exercise is based on historical experience but actual exercise could differ materially as a result of voluntary employee actions and involuntary actions which would result in significant change in our share based compensation expense amounts in the future.

(f) Property, plant and equipment and Intangible Assets - Management reviews the estimated useful lives and residual values of the assets annually in order to determine the amount of depreciation to be recorded during any reporting period. The useful lives and residual values as per schedule II of the Companies Act, 2013 or are based on the Group's historical experience with similar assets and taking into account anticipated technological changes, whichever is more appropriate.

(g) Leases - The Group evaluates if an arrangement qualifies to be a lease as per IND AS 116.

- The Group determines lease term as a non-cancellable period of a lease, together with both the period covered by an option to extend the lease if the Company is reasonably certain to exercise lessee options.

- The determination of the incremental borrowing rate used to measure lease liabilities.

(h) Business Model assessment - Classification and measurement of financial assets depends on the results of the business model test. The Company determines the business model at a level that reflects how groups of financial assets are managed together to achieve a particular business objective. This

## Motilal Oswal Financial Services Limited

### Summary of significant accounting policies and other explanatory information

assessment includes judgement reflecting all relevant evidence including how the performance of the assets is evaluated and their performance measured, the risks that affect the performance of the assets and how these are managed and how the managers of the assets are compensated. The Company considers the frequency, volume and timing of sales in prior years, the reason for such sales, and its expectations about future sales activity. However, information about sales activity is not considered in isolation, but as part of a holistic assessment of how company's stated objective for managing the financial assets is achieved and how cash flows are realized. Therefore, the Company considers information about past sales in the context of the reasons for those sales, and the conditions that existed at that time as compared to current conditions.

Monitoring is part of the Company's continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and so a prospective change to the classification of those assets.

(i) De-recognition of financial instruments - In case of transfer of loans through securitisation and direct assignment transactions, the transferred loans are de-recognised and gains/losses are accounted for, only if the Company transfers substantially all risks and rewards specified in the underlying assigned loan contract. In accordance with the Ind AS 109, on de-recognition of a financial asset under assigned transactions, the difference between the carrying amount and the consideration received are recognised in the Statement of Profit and Loss.

1) Trade receivables are recognised initially at fair value and subsequently measured at amortised cost less loss allowances. The Group applies the Ind AS 109 simplified approach to measuring expected credit losses (ECLs) for trade receivables at an amount equal to lifetime ECLs. The ECLs on trade receivables are calculated based on actual historic credit loss experience over the preceding three to five years on the total balance of non-credit impaired trade receivables. The Group considers a trade receivable to be credit impaired when one or more detrimental events have occurred, such as significant financial difficulty of the client or it becoming probable that the client will enter bankruptcy or other financial reorganization. When a trade receivable is credit impaired, it is written off against trade receivables and the amount of the loss is recognised in the profit and loss statement. Subsequent recoveries of amounts previously written off are credited to the income statement. In line with the Group's historical experience, and after consideration of current credit exposures, the Group has recognised the ECL provision for the current year except for receivables outstanding for more than 90 days which are considered to be under significant increase in credit risk and full credit loss is booked.

2) No trade or other receivable are due from directors or other officers of the Group either severally or jointly with any other person. Nor any trade or other receivable are due from firms or private companies respectively in which any director is a partner, a director or a member.

3) Trade receivables in case of the Group includes Rs. 24,994 Lakhs (Previous year Rs. 24,994 Lakhs) receivable from National Spot Exchange Limited on behalf of customers and the same is also shown as Other Trade payable to customers at Rs. 24,575 Lakhs (Previous year Rs.24,575 Lakhs) which will become due only on receipt from National Spot Exchange Limited.

b) Terms/rights attached to shares :

Equity shares

The Company has one class of equity shares having a par value of Re. 1 each (previous year: having a par value of Re. 1 each). Each holder of equity shares is entitled to one vote per share. In the event of liquidation of the Company, the holder of the equity shares will be entitled to receive any of the remaining assets of the Company, after distribution of all the preferential amounts. However, no such preferential amounts exists currently. The distribution will be in proportion to the number of equity shares held by the shareholders. The Company declares and pays dividend in Indian rupees. The dividend proposed by the Board of Directors is subject to the approval of shareholders in the ensuing Annual General Meeting.

During the year ended 31 March 2023, dividend recognized as distribution to equity shareholders was Rs. 10.00 per share consisting of final dividend of Rs. 3.00 per share for previous year ended 31 March 2022 and interim dividend of Rs. 7 per share for year ended 31 March 2023. The total dividend appropriated amounts to Rs 14,823 lakhs (Previous Year: Rs 7,365 lakhs)

c) Shares reserved for issue under options

Less: Transfer to Non-controlling interest	(125)	(7,171)
<b>Balance as at end of the year</b>	<b>4,98,950</b>	<b>4,30,698</b>

# As per Para 78 of scheme of arrangement, all costs, charges, taxes including duties, levies and all other expenses, if any (save as expressly otherwise agreed) arising out of or incurred in carrying out and implementing Part B of the Scheme and matters incidental thereto shall be borne by the Promoters of the Transferor Company 1 i.e. Passionate Investment Management Private Limited/Transferee Company 1 and no cost shall be incurred by public shareholders of the Transferee Company 1 i.e. Motilal Oswal Financial Services Limited.

In line with above paragraph, Transferor Company 1 has created a provision for stamp duty payable of Rs 3,000 lakhs on the transfer of shareholding from PIMPL to its shareholders and simultaneously claiming Deferred tax benefit of Rs 755 lakhs thereon. The said expense has not been routed through Profit and Loss statement but utilized from reserves of PIMPL and corresponding ICD has been created to give the effect. Thus there is no impact on the profit and loss account of the merged entity and is cashflow neutral to the shareholders of the transferor and transferee company with respect to the retrospective accounting.

Thus, Transferor Company 1 (PIMPL) has created sufficient Free Reserve pursuant to scheme of merger against which the Stamp duty net of taxes of Rs. 2,245 lakhs can be reduced to that extent.

**i) Other comprehensive income**

Balance at the beginning of the year	45,025	41,050
Add : Other comprehensive income for the year	(4,774)	3,975
Less : Transfer to general reserve	(18,957)	-
	<u>21,294</u>	<u>45,025</u>

**j) Impairment reserve**

Balance at the beginning of the year	90	62
Add: Transferred from statement of profit and loss	-	28
	<u>90</u>	<u>90</u>
	<u>6,23,745</u>	<u>5,65,946</u>

**Nature and purpose of Other Reserve :**

**Statutory Reserve**

The Company creates a reserve fund in accordance with the provisions of section 29C of The National Housing Bank Act, 1987 and section 45-1C of the Reserve Bank of India Act, 1934 and transfers therein an amount of equal to/more than twenty per cent of its net profit of the year, before declaration of dividend.

**Capital Redemption Reserve**

The capital redemption reserve is created to be utilised towards redemption of preference shares and it also includes addition arising on account of buyback of shares. The reserve will be utilised in accordance with provision of the Act.

**Securities Premium**

Security premium account is used to record the premium received on issue of shares and it also includes transfer from ESOS reserve when the options are exercised. The reserve will be utilised in accordance with the provisions of the Act.

**Employee stock options outstanding reserve**

Share option outstanding account is used to recognize the grant date fair value of equity settle instruments issued to employees under the stock option scheme of the company.

**Capital reserve on consolidation**

Capital reserve is the excess of net assets taken over cost of consideration paid for subsidiaries.

**General reserve**

The general reserve is used from time to time to transfer profits from retained earnings for appropriation purposes. As the general reserve is created by a transfer from one component of equity to another and is not an item of other comprehensive income, items included in the general reserve will not be reclassified subsequently to statement of profit and loss. general reserve is used to transfer to debenture redemption reserve.

**Foreign currency translation reserve**

Foreign currency translation reserve is created out of Exchange differences in translating the financial statements of foreign operations.

**Impairment reserve**

Where impairment allowance under Ind AS 109 is lower than the provisioning required under prudential norms on Income Recognition, Asset Classification and Provisioning (IRACP) (including standard asset provisioning), NBFCs /IFIs shall appropriate the difference from their net profit or loss after tax to a separate 'Impairment Reserve'. The balance in the 'Impairment Reserve' shall not be reckoned for regulatory capital. Further, no withdrawals shall be permitted from this reserve without prior permission from the Department of Supervision, RBI.

**Retained earnings**

Retained earnings represents accumulated profits of the company.

**Other comprehensive income**

Other comprehensive income consists of cumulative gains on the fair valuation of equity instruments measured at fair value through other comprehensive income.

**Note : 38.1 Tax expense**

The Group pays taxes according to the rates applicable in India and tax laws of foreign countries. Most taxes are recorded in the income statement and relate to taxes payable for the reporting period (current tax), but there is also a charge or credit relating to tax payable for future periods due to income or expenses being recognised in a different period for tax and accounting purposes (deferred tax). Tax is charged to equity when the tax benefit exceeds the cumulative income statement expense on share plans. The Group provides for current tax according to the tax laws of India using tax rates that have been enacted or substantively enacted by the balance sheet date. Management periodically evaluates positions taken in tax returns in respect of situations in which applicable tax regulation is subject to interpretation. It establishes provisions, where appropriate, on the basis of amounts expected to be paid to the tax authorities. Deferred tax is provided, using the liability method, on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes. Deferred tax is recognised in respect of all temporary differences that have originated but not reversed at the balance sheet date, where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the balance sheet date. A deferred tax asset is recognised when it is considered recoverable and therefore recognised only when, on the basis of all available evidence, it can be regarded as probable that there will be suitable taxable profits against which to recover carried forward tax losses and from which the future reversal of underlying temporary differences can be deducted. Deferred tax is measured at the average tax rates that are expected to apply in the periods in which the temporary differences are expected to reverse, based on tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Note:

- The company offsets tax assets and liabilities if and only if it has legally enforceable rights to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities related to income tax levied by the same tax authorities.
- Deferred tax recognised through profit and loss also includes deferred tax on associates

**Note : 38.1 Tax expense**

The Group pays taxes according to the rates applicable in India and tax laws of foreign countries. Most taxes are recorded in the income statement and relate to taxes payable for the reporting period (current tax), but there is also a charge or credit relating to tax payable for future periods due to income or expenses being recognised in a different period for tax and accounting purposes (deferred tax). Tax is charged to equity when the tax benefit exceeds the cumulative income statement expense on share plans. The Group provides for current tax according to the tax laws of India using tax rates that have been enacted or substantively enacted by the balance sheet date. Management periodically evaluates positions taken in tax returns in respect of situations in which applicable tax regulation is subject to interpretation. It establishes provisions, where appropriate, on the basis of amounts expected to be paid to the tax authorities. Deferred tax is provided, using the liability method, on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes. Deferred tax is recognised in respect of all temporary differences that have originated but not reversed at the balance sheet date, where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the balance sheet date. A deferred tax asset is recognised when it is considered recoverable and herefore recognised only when, on the basis of all available evidence, it can be regarded as probable that there will be suitable taxable profits against which to recover carried forward tax losses and from which the future reversal of underlying temporary differences can be deducted. Deferred tax is measured at the average tax rates that are expected to apply in the periods in which the temporary differences are expected to reverse, based on tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Particulars	Year ended 31 March 2023	Year ended 31 March 2022

Note : As the liabilities for defined benefit plans are provided on actuarial basis for the Company as a whole, the amounts pertaining to Key Management Personnel are not included above.

\*Other related parties includes Associate and Enterprises over which Key Management Personnel/Relative of Key Management Personnel exercise control/significant influence.

\*\* The above numbers are in the nature of Short term employee benefits as per IND AS 24. Managerial remuneration does not include provision for gratuity and Insurance premiums for medical and life.

Note 49 Disclosure pursuant to Ind AS -19 "Employee benefits" is given as below:

**a) Defined Contribution Plan**

Contribution to defined contribution plans, recognised as expense for the year is as under :

Particulars	31 March 2023	31 March 2022
Contribution to Provident Fund and Administrative Expenses	2,750	2,079
Contribution to ESIC	188	218
Contribution to Labour welfare fund	4	3
Contribution to NPS	154	88
<b>Total</b>	<b>3,096</b>	<b>2,388</b>

**(b) Defined benefit plan**

The Group provides for gratuity benefit which is a defined benefit plan covering all its eligible employees. This plan is unfunded. The gratuity benefits are subject to a maximum limit of up to Rs. 20 lakhs.

The following table set out the status of the gratuity plan as specified under section 133 of the Companies Act, 2013, read with Rule 7 of the Companies (Accounts) Rules 2014 (as amended) under Ind AS 19 "Employee benefits" and the reconciliation of opening and closing balances of the present value of the defined benefit obligation.
