All Members,

## Enhancement in Extranet Functionality – API and FAQs Update

This is in reference to Exchange circular NSE/MSD/55065 dated December 30, 2022 and NSE/MSD/55362 dated January 27, 2023 regarding Enhanced Extranet Functionality.

Based on feedback received from the market participants, Exchange has introduced new feature in Extranet API where the admin user of the member can now provide controlled access to its sub users for specific segments / services (Segments -CM, CD, FO, DEBT, CO, SLB and Services- Extranet-Common). The procedure for the same is provided in Annexure 1.

Exchange has updated API specification document and FAQs for this new feature in Extranet API facility and the same is attached as Annexure 2 & 3 respectively. Below are the new error codes and their descriptions which are incorporated in Extranet API:

Validations Error Codes	Validation Messages	Description
720	Unauthorized Segment	User does not have access to the segment
721	Unauthorized Service	User does not have access to the service

The above enhancement is extended to the members of the Exchange only and the same is now available for testing in Extranet API UAT. The go live dates for this new feature will be shared subsequently.

As communicated in our aforesaid circular members may please note that access to Extranet for internet users via Internet FTP (<ftp://ftp.connect2nse.com>) and usage of Guest login credentials (for lease line and internet ftp) shall be available only till February 18, 2023 and shall be discontinued thereafter.
