1.2 Introduction of the single filing system through API-based integration between Stock Exchanges²

This is in reference to the SEBI's consultation paper dated June 26, 2024, titled '*Recommendations of the Expert Committee for facilitating ease of doing business and harmonization of the provisions of ICDR and LODR regulations*'. The Committee had recommended that filing done on one Stock Exchange should be automatically disseminated to other Stock Exchange. Both the Exchanges had jointly initiated the development for the API integration to facilitate the same.

In this connection, the first phase for the single filing system shall be implemented for "equity" listed and "equity and debt" listed companies for disclosure of Grievance Redressal Mechanism falling under Regulation 13(3) of SEBI LODR from October 01, 2024, onwards, which will be effective for the disclosures to be filed for quarter ended September 30, 2024. Once the aforesaid disclosure is filed on one Exchange it should be ensured that the acknowledgment is received from both the Exchanges. However, post filing as a measure of abundant precaution the listed entities have to check that the filings are available on both the Exchanges websites.

The listed entities will have an option for filing the aforesaid disclosure and revision in filings at any one Exchange.

It may be noted that for exclusively Debt listed companies, REITs and INVITs the said disclosure will fall under API integration in subsequent phase. In view of the same, the said companies would continue to make the disclosures on both the Exchanges as per the current practice.

The aforesaid single filing system will be applicable to the entities which are listed on both the Stock Exchanges i.e. NSE and BSE. The listed entities exclusively listed on respective Stock Exchanges will continue to file the disclosure on their respective Stock Exchanges where they are listed.

Since the aforesaid implementation is being aimed at enabling single filing system, the Listed Entities are requested to avoid multiple filings of the same disclosure on both the Exchanges.

In case any Exchange seeks any clarification post submission, for any queries/clarifications, the company shall be required to respond to the Exchange which has sought the clarification.

In case any queries concerning the captioned subject, please reach out to the respective team members on the contact details available in the NEAPS platform at path NEAPS > Help > Contact Us > Listing Compliance or send an email to takeover@nse.co.in.

2.1 Frequently Asked Questions (FAQs) – Disclosure of Related Party Transactions ('RPT') under regulation 23 of SEBI (LODR) Regulations, 2015¹

1. This has reference to SEBI Circular No. SEBI/HO/CFD/CMD1/CIR/P/2021/662 dated November 22, 2021, issued by the Securities and Exchange Board of India (SEBI) titled “Disclosure obligations of listed entities in relation to Related Party Transactions”.
2. Please find annexed the FAQs on aforementioned circular.
3. Companies are requested to comply with the requirement of listing regulations and other applicable regulations as amended from time to time. The FAQs can be referred only for guidance purposes.

Annexure- FAQs

Q1. What does ‘Where a transaction is undertaken between members of the consolidated entity (between the listed entity and its subsidiary or between subsidiaries), it may be reported once’ in point 2 of notes in new SEBI format, mean?

Yes, XML file generated from BSE utility file can be uploaded in NEAPS. Further in case of any problem faced while uploading you may email the error on nsexbrl@nse.co.in.

Answer: All related party transactions entered into by the listed entity and its subsidiaries must be reported, however, when transaction is undertaken between the listed entity and its subsidiary or between subsidiaries, the disclosure of that transaction shouldn't be repeated from the point of view of each member of the consolidated entity. For e.g., X Ltd is a holding listed company and Y Ltd is a subsidiary of X Ltd. X Ltd sold goods worth Rs. 10 crores to Y Ltd. At the time of reporting RPT disclosures, this transaction must be reported only once, either from the point of view of X Ltd (holding reporting company) as sale of goods or from the point of Y Ltd (subsidiary company) as purchase of goods.

Q2. From which period is the new format, as prescribed by SEBI in the annexure to circular dated November 22, 2021, applicable for submitting RPT disclosure?

Answer: Listed entities are required to submit the RPT disclosures in the new SEBI format, for reporting period for the half year end commencing from 01 October 2021 to 31 March 2022.

Q3. Are the companies required to provide RPT disclosures for the second half year, on a year-to-date basis or on six-months end basis?

Answer: As per the SEBI circular, the disclosure must be on a six-month end basis for both first half and second half year.

Q4. Whether the definitions/provisions effective from April 01, 2022, apply on transactions for the half year ended commencing from 01 October 2021 to 31 March 2022, that are required to be disclosed in the new SEBI format?

Answer: No, the definitions / provisions that are specifically mentioned to be effective from April 01, 2022, shall be applicable on transactions undertaken from April 01, 2022, onwards.

¹NSE/CML/2022/18 dated April 25, 2022

Q5. Whether the disclosure must be on a standalone or consolidated basis?

Answer: As per the new format of SEBI, the column header is "Details of the party (listed entity /subsidiary) entering into the transaction", therefore, the intent of SEBI is that the companies should disclose all the RPT transactions of itself and its subsidiaries. Therefore, the concept of disclosure on a standalone or consolidated basis has been done away with and all the transactions must be disclosed.

Q6. Is the RPT disclosures required even if there are no related party transactions during the reporting period?

Answer: Yes, as per point 1 of notes in the new SEBI format, "opening and closing balances, including commitments, to be disclosed for existing related party transactions even if there is no new related party transaction during the reporting period".

Q7. Materiality criteria for brand usage or royalty is defined separately in regulation 23 (1A). Does it mean that even if the threshold in proviso to regulation 23 (1) substituted w.e.f. 01 April, 2022, is exceeded in case of brand usage or royalty, still it shall not be disclosed if threshold in regulation 23 (1A) is not exceeded?

Answer: Yes, transactions involving brand usage or royalty shall only be tested with the materiality threshold provided in regulation 23 (1A) and be disclosed only if the threshold therein is exceeded.

Q8. Whether banks are also required to submit the RPT disclosures in SEBI's new format? Answer:

Yes, banks are also required to submit the RPT disclosures in SEBI's new format.

Q9. As per first proviso to definitions in regulation 2 (1) (zc), "acceptance of fixed deposits by banks/Non- Banking Finance Companies at the terms uniformly applicable/offered to all shareholders/public" shall not be a related party transaction, subject to disclosure of the same along with the disclosure of related party transactions every six months to the stock exchange(s), in the format as specified by the Board.

Further, as per point 9 of notes in new SEBI format, "Transactions such as acceptance of fixed deposits by banks/NBFCs, undertaken with related parties, at the terms uniformly applicable /offered to all shareholders/ public shall also be reported."

For banks/NBFC, whether such disclosure is required in the new SEBI format or as a declaration statement that "acceptance of fixed deposits by the banks/Non-Banking Finance Companies are at the terms uniformly applicable/offered to all shareholders/public"?

Eg.: RPT disclosures is mandatory for the FY 2021-22 (criteria as on March 31, 2021, paid up capital-Rs. 10 cr, net worth Rs. 25.01 cr).

RPT regulations shall become applicable for the FY 2022-23 even if the specified threshold is reduced (paid up capital Rs. 10 cr and net worth-Rs. 25 cr) and continue to remain applicable for the FYs 2022-23 to 2024-25.

Q13. As per point 8 of notes in new disclosure format, "PAN will not be displayed on the website of the Stock Exchange(s)". How are the companies required to disclose the RPT in new SEBI format?

Answer: In case companies are filing the RPT disclosures in PDF, PAN details should not be included in such PDF of RPT disclosure. **PART 2 - GENERAL OBSERVATIONS & GUIDELINES ON FILING OF BUSINESS
RESPONSIBILITY AND SUSTAINABILITY REPORT
(BRSR / BRSR Core)**

Exchange Observations based on the BRSR Submissions F.Y. 2022-23

In order to have consistent, comparable, and useful information available to the investors and to provide guidance to the listed Companies with respect to filing of the disclosure requirements for BRSR, the disclosure made by the listed Companies with the Exchange for F.Y. 2022-23 have been reviewed and the principal areas of BRSR submissions and general observations pertaining to the submission received by the Exchange have been discussed hereunder.

There are a number of variations and lack of uniformity noticed in disclosures made under the BRSR submissions made by the listed Companies.

Below are some of the observations on BRSR submissions made by the listed Companies along with the specificity on what Companies must disclose, which will produce more useful information for the investors.

SECTION A, B & C: GENERAL DISCLOSURE, MGT & PROCESS DISCLOSURE & PRINCIPLE 1

- It may be noted that the BRSR format requires Companies to provide a Yes/ No response to a set of questions on Policy formulation across 9 principles. However, some Companies have either not disclosed information in the prescribed format or not provided mapping of answers to questions under BRSR format with their sustainability report (applicable in case sustainability report is published).
- With regards to providing the links of the Policies under the BRSR format (wherever applicable), some Companies only provide link of their website and not specific document link.
- In case of turnover rate for permanent employees and workers, Companies have provided an overall turnover rate instead of actual turnover rate for individual category.
- If the Company has hired differently abled employees and workers, details for the same shall be provided.
- Companies have not provided details like break up of contract workers enrolled, break up of employees or workers or break up of permanent and non-permanent employees.
- For products / Services sold by the company (accounting for 90% of the Company's Turnover), Companies shall provide bifurcation based on the various products and various NIC codes and the total shall not exceed 100%.

PRINCIPLE 2

- For Point 1, some Companies have disclosed absolute values instead of percentage as required in Percentage of R&D and capital expenditure investments.
- For Point 2 a. & b. Details pertaining to procedures in place for sustainable sourcing and percentage of inputs sourced sustainably, lack of uniformity was observed in disclosures made under this category. Details for the percentage of inputs sourced sustainably is expected to be provided for total sourcing.
- In case of Point 3 for the details of processes in place to safely reclaim products for reusing, recycling, and disposing at the end of life, Companies must mandatorily provide this information and if the same is not applicable to the Company, the reason for the same shall be provided.

PRINCIPLE 3

- A lack of uniformity was observed between disclosures made under measures of well-being of employees / workers and the disclosures under the employees and workers (including differently abled) provided in General Disclosure – Point 21a. & b. If there is any difference in either of the categories, the reason for such difference shall be provided in “Add notes” column.
- Percentage of employees / workers covered under maternity benefits to be disclosed as a percentage of only female employees / workers and not total employees. (same shall be followed for paternity benefits).
- It was observed that some Companies have carried out assessment for the year but details for corrective actions were not provided in the relevant section i.e. under Point 15.
- Companies are required to disclose skill upgradation training provided to employees and workers whether permanent or non-permanent. It was observed that Companies have provided the said disclosures only for permanent employees and have not included non- permanent employees and workers under the skill upgradation data.

PRINCIPLE 5

- Companies have provided the details of actual remuneration for total employees however median remuneration was not disclosed for employees.

PRINCIPLE 6

- Wide divergence was observed in some Companies within the same industry, indicating that although Companies are operating within same industry yet there is asymmetry in disclosure made with regards to environmentally sustainable practices and disclosure.
- For details of total energy consumption (in Joules or multiples) and energy intensity, some Companies have disclosed the data in units other than joules. Few Companies disclosed the data on energy consumption, however, have failed to precisely disclose the measurement units in the following format. As per the updated XBRL, a dropdown for unit column has now been provided in the utility for uniformity of disclosures.
- Some Companies have provided the disclosure under the Performance, Achieve and Trade (PAT) Scheme irrespective of applicability of the said Scheme. This point of PAT scheme is applicable only to certain class of industries which have been identified under PAT Scheme of the Government of India and identified as designated consumers. The Companies are advised to mention as “Not Applicable” if the Scheme is not applicable.
- For applicability of total energy consumption and energy intensity / air emissions (other than GHG emissions) / greenhouse gas emissions (Scope 1 and Scope 2 emissions) the Companies shall select Yes / No based on their applicability. The Companies if selects Yes – needs to select the applicable Unit from drop down.
- While the Financial Services industry on one hand claims GHG emissions are not materially relevant while making disclosures on environmental parameters, GHG emission in Financial Services Industry was greater than the emission in Automobiles industry.
- The disclosures of Air Emission are not uniform across industries.
- Few Companies have not provided adequate disclosures on renewable energy, while some companies have not made any detailed updates whereas some Companies have provided disclosures on the initiatives on renewable energy, but not disclosed any data on the same. Maximum number of Companies not disclosing data are from financial services sector.

- Few Companies from Consumer Durables and Oil Gas & Consumable Fuels Industries have disclosed data on water discharge. Whereas a significant number of Companies in Consumer Services and Other Industries have not made these disclosures.
- For disclosures related to water, although as per their data size, Companies have used varied decimal options, i.e. reported either in Litres, Kilo Litres, '000 Kilolitres, Million KL, Mega KL, Million Cubic Meter (MCM), etc.
- Companies have provided the disclosures of waste management at an aggregated level instead of providing details in a bifurcated manner as provided under the format for specific heads (i.e. e-waste, plastic waste etc.).
- Companies have made disclosures for waste management in Metric tonnes or kilograms or kilo tonnes. Companies are advised to provide the said details in Metric tonnes only.
- Some companies from industries like Construction Materials, Cement, Power and FMCG, have disclosed total waste recovered or disposed more than the total waste generated. However, companies have not provided adequate justification in this regard.
- Most Companies under the Financial Services industry have stated that given the nature of their business, disclosures relating to waste have limited applicability to them. However, they should provide adequate disclosures on waste generated such as e-waste, battery waste, paper waste and plastic waste from their operations.

PRINCIPLE 9

- For Information relating to data breaches, the Companies have provided reference relating to general complaints which do not pertain to data breach and have provided little to no disclosures regarding instances of data breaches during the year. Companies shall ensure to provide the details only for data breach under this category.
- Companies from industries such as Consumer Durables and Metals & Mining have not recorded any complaints regarding the irresponsible Advertising, Delivery of Essential Services and Restrictive/ Unfair Trade practices i.e. all their customer complaints were classified under other matters.

*****The listed Companies must carefully consider the above points while submitting BRSR XBRL utility. Further the Companies are advised to ensure that there are no deviations in the submissions made in XBRL and PDF. *****

2.4- Industry Standards Note on Business Responsibility and Sustainability Report (BRSR) Core.

Circular Ref. No: NSE/CML/2024/41

Date: December 20, 2024

BRSR-CORE REPORTING STANDARD

The BRSR Core Reporting Standard are prepared with the objective to help companies comply with the disclosure requirements on BRSR core made mandatory pursuant to Regulation 34(2) of SEBI LODR, 2015 and read with SEBI issued Circular SEBI/HO/CFD/CFD-SEC-2/P/CIR/2023/122 that incorporated BRSR Core into the BRSR Reporting Format.

This Reporting Standard has a normative reference to the BRSR Guidance note issued by SEBI for principle-specific guidance¹.

Main aspects covered:

Part A General Requirements

Part B Attribute-wise requirements

Part A General Requirements

1. Intensity-based calculations

Applicable to GHG Footprint (Attribute 1), Water Footprint (Attribute 2), Energy Footprint (Attribute 3), Embracing Circularity (Attribute 4)

Reporting entities should report GHG emission intensity (Scope 1 and Scope 2 emissions), Water consumption intensity, Energy intensity, and Waste intensity. Entities have to report intensity ratio for revenue adjusted for Purchasing Power Parity and Output-based intensity.

Revenue adjusted intensity for Purchase Power Parity

I. Purchasing Power Parity Calculation

Purchasing Power Parities (PPPs) are the rates of currency conversion that try to equalise the purchasing power of different currencies, by eliminating the differences in price levels among countries. As of April 2024, conversion factor for purchasing power parity for India is 22.4 (Local Currency Units, that is INR) per international dollar (the purchasing power of 1 international US\$ is equivalent to the purchasing power of 1 US\$ in the United States). In other words, for example, in 2024, INR 22.4 had the same buying power in India as 1 US\$ had in the US.

Calculating PPP Adjusted Revenue

PPP Adjusted Revenue in USD = Revenue in INR/IMF PPP Conversion Factor

Source of PPP rates: The International Monetary Fund (IMF) publishes the PPP conversion rates for all currencies. Use the latest rate available for India on their website and disclose by way of note in BRSR the rate that has been used. For FY2023-24 disclosures, the reporting entity shall use the same PPP conversion rate for the previous financial year also.

PPP conversion rate (latest available is for 2024) = 22.4 INR/Int. US\$

PPP adjusted revenue (US\$) for 2023-24 for company A= (10,000/22.4) = 446 USD million

Example calculation for intensity based on PPP-adjusted revenue Environmental Parameter

Environmental Parameter	Total Footprint	PPP-Adjusted Revenue (million \$)	Intensity (Units of footprint/million \$)
Scope 1+ Scope 2	10,000 tCO ₂ e	446	22.4 tCO ₂ e/million US\$
Water consumption	10,000 kL	446	22.4 kL/million US\$
Energy consumption	10,000 GJ	446	22.4 GJ/million US\$
Waste generation	10,000 MT	446	22.4 MT/million US\$

II. Output based intensity calculation

Output varies for the Manufacturing and Service sectors.

Manufacturing entities should use the total output of products, i.e., Total **Production**, to report intensity figures

Services entities should use input measures of **Full Time Equivalent** to report intensity figures

Example calculation
Manufacturing – Steel Company
Total production of crude steel: 20tonnes
Total Scope 1 and Scope 2 emissions: 60tCO ₂ e
GHG emission intensity: 60/20 = 3
Service – Information Technology company
Total Full Time Equivalent: 6,00,000
Total Scope1 and Scope 2 emissions: 95,000tCO ₂ e
GHG emission intensity: 95000/600000 = 0.15

Reference BRSR Guidance Note Principle 6, Q No. 1, 3, and 6, entities may on voluntary basis provide intensity ratio based on other metrics – unit of product, production volume, size, number of full-time employees.

2. Spend-based Approach to Estimating Environmental Footprint:

While calculating emissions, energy consumption, and/or water consumption, where a reporting entity does not have primary data and only have annual spend data for the item, the reporting entity may use a spend-based approach to estimate the corresponding emissions, energy consumption, and/or water consumption. Refer Appendix I for detailed guidance on spend-based methodology.

1. Introduction

Based on recent stakeholder inputs from the [Industry Standards Forum \(ISF\)](#), a significant number of Indian enterprises find it challenging to quantify their carbon footprint accurately using the quantity-based methodologies laid out in the SEBI BRSR Core guidance ([Annexure](#)). A meaningful barrier to this process is the lack of direct access to quantity-based data for fuel, refrigerant and electricity consumption. While it is vital that Indian companies improve their ability to internally aggregate and organise quantitative data around fuel consumption, electricity use and fugitive emissions to comply with BRSR requirements, there is a need for short-term guidance around a standardised, accessible and flexible carbon and energy accounting methodology that is based on more easily available ‘spend data’ for fuel, refrigerant and electricity consumption.

This document outlines a provisional ‘spend-based’ methodology for calculating Scope 1 and 2 carbon emissions that can be leveraged by enterprises in India for their BRSR Core disclosures in the absence of these companies having access to the more granular data required to undertake ‘quantity-based’ calculations. This approach leverages readily available financial data on fuel, refrigerant and electricity expenses, making the calculations simple and quick, with the goal of making carbon and energy accounting exercises more accessible to the thousands of enterprises.

There exists a precedent for similar spend-based guidance in international standards. For instance, the [GHG Protocol](#) allows for the use of multiple methodologies (quantity-based, spend-based, distance-based, supplier-specific, etc.) for estimating Scope 3 emissions. The US EPA provides similar guidance around using spend-based proxies for the emissions estimation of certain types of activities when quantity-based information is not available. This methodology extends the same principle to create a Scope 1 and Scope 2 carbon emissions and energy accounting framework for organisations that do not have access to quantity-based fuel, refrigerant and energy information. While the approach is conceptually aligned with international spend-based methods, it is important to note that these global frameworks do not typically recommend using spend-based estimations for Scope 1 and Scope 2 calculations. However, by providing a standard set of representative emission factors based on credible sources, this methodology is intended to enable Indian enterprises to estimate their carbon and energy footprint in a manner that allows for internal decision-making and external benchmarking.

The Annexures in this provisional Carbon & Energy Proxy (CEPA) document aggregate pricing information from official public sources with credible self-reported pricing information when no public source is available. However, there are inherent uncertainties when using spend-based methods, and this approach should thus be used only when access to more granular quantity-based data is unavailable. Our recommendation is that enterprises phase out the CEPA spend-based approach at the earliest stage possible in favour of a more accurate quantity-based methodology in compliance with the GHG Protocol.

2. Need for Provisional Spend-Based Methodology

Large enterprises in India often operate across diverse locations and regulatory environments, complicating the direct measurement of fuel and electricity usage. A quantity-based reporting of energy and carbon emissions requires precise data on the units and quantities of the fuels & electricity units consumed by the organization, which may not be readily available or accurately measurable for all entities. This data gap significantly hinders the ability of these enterprises to comply with the regulatory disclosure requirements laid out in the BRSR Core guidance. A spend-based methodology to estimate carbon emissions offers a viable alternative by leveraging audited financial data, which is readily available and subject to a high degree of rigour in accordance with generally accepted audit practices.

3. Spend-Based Methodology Explained

The Carbon & Energy Proxy Accounting (CEPA) methodology estimates the direct (Scope 1) and indirect (Scope 2) carbon dioxide emissions (in units of kgCO₂) by:

- First, using a spend-based approach to convert fuels, refrigerants and electricity usage data (in INR) to quantity estimates using credible pricing information.
- Then, using the existing BRSR guidance for applying quantity-based Intergovernmental Panel on Climate Change (IPCC) emission factors (or factors from other sources when IPCC factors are unavailable) to convert the above data (fuel / electricity usage) to emissions estimates.

The CEPA approach involves the following steps:

- **Data Collection:** Gathering relevant data from existing financial/accounting systems on expenses related to fuels, refrigerants and electricity use across the organisation, classified state-wise, where possible;
- **Price Adjustments:** Using the CEPA pricing database consisting of credible pricing information (price factors) to convert spend-based data to quantity-based data for each type of fuel and electricity unit consumed;
- **Application of Emission Factors:** Applying the appropriate IPCC quantity-based emission factors and energy factors to the estimated quantities in order to calculate carbon dioxide (CO₂) emissions and total energy consumption.
- **Aggregation:** Aggregating the calculated CO₂ emissions across all the relevant categories to derive the total Scope 1 and Scope 2 emissions footprint.

$$\text{Carbon Emissions} = \sum \left(\frac{\text{Spend Data}_i}{\text{Price Factor}_i} \times \text{QuantityBased Emission Factor} \right)$$

$$\text{Energy Consumption} = \sum \left(\frac{\text{Spend Data}_i}{\text{Price Factor}_i} \times \text{QuantityBased Energy Factor} \right)$$

4. Uncertainties

While the spend-based approach facilitates carbon accounting for enterprises lacking quantity-based data, it inherently carries some uncertainties. These include:

- **Price Factor Inaccuracy due to Variability in Pricing Information:** Public pricing data (and the derived price factors) may not reflect actual prices paid due to negotiated contracts, bulk discounts, seasonal shifts or other factors. While standard deviations are provided for most pricing data (see Annexures), they might not be representative of dispersion due to the small number of data points in many instances. Users should assume these price factors carry an inherent uncertainty.
- **Methodological Inaccuracy due to Heterogeneity in Location / Business Unit Information:** Since the price factors are based on averaged proxies, incorrect or mislabeled financial entries on expenditure could result in inaccuracies in estimated emissions if users apply incorrect price factors to their expenditures.
- **Challenges with Baselineing, Intercomparisons & Target-Setting:** Comparisons of carbon accounting estimations using spend-based approaches are inherently hard to reconcile due to limited consistency in pricing information. Enterprises should note that there is a significant benefit to shifting to quantity-based approaches at the earliest in order to estimate baselines, set targets and track performance.
- **Incomplete System Boundary:** The CEPA approach DOES NOT include a methodology to estimate a number of less common fuels, refrigerants and process emissions due to the lack of credible spend-based pricing data across these categories. Additionally, the quantity-based emission factors assumed here (for fuels and electricity) only provide estimates of CO₂ emissions and do not estimate other greenhouse gases like CH₄ and N₂O.

Despite these uncertainties, the CEPA methodology should provide an accessible starting point for **enterprises** aiming to navigate the complexities of carbon and energy accounting. This methodology is developed to empower enterprises to overcome some of the data gathering requirements involved in the direct accounting of quantity-based emissions estimations when they are early in their sustainability journey. The goal of this methodology document is to provide an avenue for action and directional progress in the absence of perfect data, while emphasising the importance of continuous improvement and verification.

5. Conclusion

The adoption of the CEPA methodology for energy and carbon accounting offers a practical solution for enterprises in India that do not have quantity-based data readily available, enabling them to estimate their carbon and energy footprint and engage in meaningful carbon management practices. However, we recommend that enterprises only adopt this provisional approach in the event that they are unable to follow the official guidance in the BRSR. Enterprises should phase out the use of this approach as soon as possible via the collection of quantity-based data.

Annexure-III Refrigerant Leakage (Scope 1)
Spend-to-Quantity Conversion Price Factors for CEPA

- Refrigerant prices (as of March 2024) are obtained from various public sources (such as marketplaces) and validated on the basis of credible inputs from private stakeholders in this domain when possible. Users should note that marketplace price estimates are likely higher than the wholesale prices offered to most users. Users might consider using lower price factors when possible to be conservative in their disclosures.
- Scope 1 emissions from this source are a result of leakage of the underlying refrigerant.
- Users should note that the lack of standardised official pricing data for refrigerants in India means that prices can often vary by a multiple of **3-5 times** depending on the quantity, location and vendor. Users should assume the values indicated below are generally indicative but not necessarily representative of their own purchases. Using these factors could therefore lead to large errors in certain cases.
- Our recommendation to users is that they acquire and use the price factors that are specific to their operations by engaging with their vendors directly.**
- Quantity-based EFs are taken from IPCC AR6 and are in units of carbon dioxide equivalents (kgCO₂e) unless otherwise mentioned in the methodology column.

Annexure-IV Electricity Consumption (Scope 2)
Spend-to-Quantity Conversion Price Factors for CEPA

- State-specific average electricity prices are taken from the Central Electricity Authority's (CEA) publication, 'Electricity Tariff & Duty & Average Rates of Electricity Supply in India.'
- The analysis leverages consumption pricing for various consumer categories defined by their sanctioned load and consumption units to estimate the average electricity price.
- Data from the most recent edition (FY 2022-2023) was used to represent current pricing structures. Users should note the FY 2023-2024 pricing might differ from these numbers.
- For both commercial and industrial connection categories, state-wise price slabs reported by CEA were equally weighed to determine average prices for sanctioned loads.
- Below is a list of average price tables along with the corresponding sanction loads for each category considered in the average price calculation. Users should note that their specific rates might differ from these averages.
- Standard deviations are reported to provide a sense of variation. However, given the small number of data points, standard deviations might not be representative of dispersion.
- A common national grid emission factor of 0.716 tCO₂/kWh for the FY 2022-2023 is assumed based on guidance from the CEA. **Users should note that the grid factor for FY 2023-2024 might differ.**

Annexure - V Example Usage

Example 1: Fuel Combustion (Scope 1)

- Assume that a firm (named ABC) has spent INR 5 lakhs in FY24 on Diesel used in DG Sets at the corporate office and 3 lakhs on CNG in FY24 for vehicles owned by the company.
- To compute the emissions and energy consumption from both diesel and CNG, the following steps should be followed;

Available data from company ABC for FY24: ● Spend_Data_Diesel = INR 5,00,000

● Spend_Data_CNG = INR 3,00,000

Available Data from the CEPA methodology for FY24: (Figures based on Annexure-I)

- Price_Factor_Diesel = 92.63 INR/litre
- Price_Factor_CNG = 86.83 INR/kg
- QuantityBasedEF_Diesel = 2.68 kgCO₂/litre
- QuantityBasedEF_CNG = 2.69 kgCO₂/kg
- EnergyFactor_Diesel = 36,120 KJ/litre
- EnergyFactor_CNG = 48,000 KJ/kg

$$\text{Carbon Emissions} = \sum \left(\frac{\text{Spend Data}_i}{\text{Price Factor}_i} \times \text{QuantityBased Emission Factor} \right)$$

$$\text{Carbon_Emissions (kgCO}_2\text{) from Diesel} = \frac{5,00,000}{92.63} \times 2.68 = 14,466.16 \text{ kgCO}_2$$

$$\text{Carbon_Emissions (kgCO}_2\text{) from CNG} = \frac{3,00,000}{86.83} \times 2.69 = 9,294.02 \text{ kgCO}_2$$

Scope 1 Carbon Emissions (kgCO₂) =

$$\begin{aligned} & \text{Carbon_Emissions (kgCO}_2\text{) from Diesel} + \text{Carbon_Emissions (kgCO}_2\text{) from CNG} \\ &= 14,466.16 + 9,294.02 \\ &= \mathbf{23,760.18 \text{ kgCO}_2} \end{aligned}$$

$$\text{Energy Consumption} = \sum \left(\frac{\text{Spend Data}_i}{\text{Price Factor}_i} \times \text{QuantityBased Energy Factor} \right)$$

$$\text{Energy (KJ) from Diesel} = \frac{5,00,000}{92.63} \times 36,120 = 19,49,69,232.43 \text{ KJ} = 194.97 \text{ GJ}$$

$$\text{Energy (KJ) from CNG} = \frac{3,00,000}{86.83} \times 48,000 = 16,58,41,299.09 \text{ KJ} = 165.84 \text{ GJ}$$

Fuel Energy Consumption (KJ) =

$$\begin{aligned} & \text{Energy (KJ) from Diesel} + \text{Energy (KJ) from CNG} \\ &= 194.97 + 165.84 \\ &= \mathbf{360.81 \text{ GJ}} \end{aligned}$$

Example 2: Electricity Consumption (Scope 2)

- Assume that a firm (named ABC) spent 1.0 lakh in FY23 on electricity from the grid at one of its **offices** which is located in **Maharashtra** with a **sanction load (electricity supply) of 5 kW**.
- To compute the carbon emissions from electricity, the following steps need to be followed;

Available data from company ABC for FY23:

- Spend_Data_Electricity (Grid) = INR 1,00,000
- State = Maharashtra

Available Data from the CEPA methodology for FY23: (Figures based on Annexure IV)

- Type of Operations: Commercial (Corporate Office)
- Sanction load = < 10 kW

The above sanction load and type of operation decide which table to use from **Annexure IV** for factors. in this case, it is **Table- “State-wise Price for Commercial Connection (Sanctioned Load ≤ 10 kW)”**

- Price_Factor_Electricity (Grid) for Maharashtra = 11.30 INR/kWh
- NationalGridEF_Electricity (Grid) for Maharashtra = 0.716 kgCO₂/kWh

$$\text{Carbon Emissions} = \sum \left(\frac{\text{Spend Data}_i}{\text{Price Factor}_i} \times \text{QuantityBased Emission Factor} \right)$$

$$\begin{aligned} \text{Carbon_Emissions (kgCO}_2\text{) from Electricity (Grid)} &= \frac{1,00,000}{11.30} \times 0.716 \\ &= 6,336.28 \text{ kgCO}_2 \end{aligned}$$

Users can emulate the approach above to obtain the carbon emissions and energy consumption for other emission sources (e.g. coal and refrigerants).

5.4 Disclosure of Default/ Inter Creditor Agreement (ICA)⁴

RBI vide circular dated June 07, 2019 has issued directions regarding early recognition, reporting and time bound resolution of stressed assets. The framework provides for lenders to take a prima facie review of defaulting borrowers within 30 days (Review Period) of default. During this review period, the lenders may decide on a resolution strategy which may include putting in place a resolution plan or alternatively initiate legal proceedings under the Insolvency and Bankruptcy Code.

1. In cases where Resolution Plan is to be implemented, all lenders shall enter into an Inter-Creditor Agreement (ICA), during the Review Period, to provide for ground rules for finalisation and implementation of the Resolution Plan in respect of borrowers with credit facilities from more than one lender.
2. As per the provisions of Regulation 30 of SEBI (Listing Obligations and Disclosure Requirements) (LODR) Regulations 2015, the listed entities are required to ensure timely and accurate disclosure on all material matters including the financial situation, performance, ownership, and governance of the listed entity, etc.
3. It has been observed that the developments related to the Inter-Creditor Agreement (ICA) are likely to have significant impact on the prices of the securities of the listed entities whose assets have been deemed to be 'stressed' on account of default or delay of interest / principal payments. Hence, as per the provisions of SEBI (LODR) Regulations, 2015, the developments such as signing of Inter Creditor Agreement (ICA) by the lenders of the listed company, is **deemed to be 'material'** as it is likely to have significant impact on the ownership and governance of the Company.

Hence the following directions are being issued in consultation with SEBI and will be applicable to all listed entities with immediate effect:

- (i) Listed entities shall promptly disclose to the Exchange regarding the 'material' developments pertaining to default and/or Inter Creditor Agreement (ICA), in terms of Regulation 30(1) and 30(2) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations 2015 and all amendments and circulars issued thereunder.
- (ii) All participants, who have acquired confidential information in the course of developments pertaining to default and/or ICA, shall maintain the confidentiality of such information, until the same is publicly disclosed to Exchange. Such participants shall include the companies, lenders and any other entities who may have access to unpublished price sensitive information (UPSI) as defined in SEBI (PIT) Regulations, 2015.
- (iii) Such participants shall continue to ensure that a strong and robust framework to maintain confidentiality of the unpublished price sensitive information and ensure that persons (including the lenders and any other entities who may have access to UPSI as defined in SEBI (PIT) Regulations, 2015) are put through necessary restrictions as required under the provisions of the SEBI (Prohibition of Insider Trading) Regulations 2015.
- (iv) Companies shall on their own promptly confirm or deny (as the case may be) and clarify to stock exchanges regarding any rumours or news on developments pertaining to default and/or Inter Creditor Agreement (ICA).

Listed companies are required to take note of the above directions and comply accordingly.

5.5 Guidance note on communications by Listed Entities⁵

One of the mediums being used by listed entities to communicate with their stakeholders is the Exchange platform provided in the form of its website. Apart from regulatory filings, entities provide updates on their performance, awards/recognition received worldwide, positioning themselves as a leader, etc. There are also instances wherein Key Managerial Personnel or any other person representing the listed entity is seen disclosing the company's prospects, future plans, etc while being interviewed. While all this may be significant to survive in an ecosystem in which the company operates, stakeholder interest is of paramount importance as well. The company shall ensure that no price-sensitive information is disclosed unless the same has been first disclosed to the stock exchanges.

The below is an indicative list of things that shall be kept in mind by the listed entities while publicizing the company:

- a. The statement made shall be truthful, fair, evidence-based and shall not be manipulative or deceptive or distorted and the listed entity shall not make any statement, promise, or forecast which is untrue or misleading.
- b. The information shall contain clear, concise, and understandable language.
- c. If the listed entity presents any financial data, data for the past three years shall also be included along with particulars relating to sales, gross profit, net profit, share capital, reserves, earnings per share, dividends, debts, and the book values. The companies should also provide a link to the company's website where the details are available and can be verified.
- d. Listed entities shall use simple and easy-to-understand language without using extensive technical, legal terminology, or complex language. The details provided should be adequate and appropriate so that the investors are not distracted with excessive details.
- e. The company should provide information only with respect to publicly reported financial information and not provide any forward-looking statement.
- f. Non-factual and unsubstantiated statements shall not be made.
- g. The company can position itself as a leader, pioneer, expert, or any word indicating it as the best only based on factual data, which is widely available and not based on single source, unless such source is a recognized source and has third-party certification. The company shall also indicate the source based on which such claim is being made and the information on such source should be in the public domain and verifiable.
- h. In case of receipt of awards/recognition, disclosure shall include whether the listed entity has any relations with the awarding agency along with the number of participants that were evaluated, recognition of the awarding agency in the field in which award is given, and publicly available information relating to the awarding agency.

5.6 Guidance Note on Analyst/ Institutional Investors meet⁶

The Securities and Exchange Board of India vide notification dated May 05, 2021 have made various amendments to the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (“LODR Regulations”). One of the amendments includes enhanced disclosure requirement w.r.t. point 15 of para A of Part A of Schedule III on LODR Regulations. Many companies have sought clarity on this amendment. Thus, the Exchange in consultation with SEBI is providing clarification on the below points:

- Disclosure of group meetings (including schedule and post meeting disclosures) shall be mandatory, whereas disclosure with respect to one-on-one meetings shall not be mandatory
- All Audio or video recordings and transcripts of post earnings/quarterly calls, by whatever name called, conducted physically or through digital means, either conducted by listed entity or any other entity shall be disclosed to the recognized stock exchange

Further in order to strengthen the disclosure requirements, Exchanges have been advised to issue the below guidance under SEBI (Prohibition of Insider Trading) Regulations, 2015 to listed entities in the surveillance meeting held between SEBI and Exchanges on June 04, 2021. Kindly note that the below disclosure shall only be applicable in case if Unpublished Price Sensitive Information is shared during the meet:

- SEBI (Prohibition of Insider Trading) Regulations, 2015 provides for fair disclosure of Unpublished Price Sensitive Information (UPSI).
- It has been observed that in cases where the analysts / research personnel / investor meet (attended by persons representing the listed companies, whether one on one or group meet) has not been organised by the listed company, the possibility of the company sharing UPSI during these meetings cannot be ruled out. If any price sensitive information has been shared in such meetings, it will tantamount to ‘selective disclosure’ and create information asymmetry affecting the market integrity, resulting in non-compliance with the extant regulatory framework.
- In order to avoid such information asymmetry, to ensure market integrity and to safeguard the interest of investors, all listed companies shall be required to disclose audio recordings or transcripts of all such information (as mentioned in the previous point) where UPSI is shared, irrespective of whether the meeting was organised by the listed company or by any other entity.
- The above disclosure is mandated in terms of Regulation 8(1) of Chapter IV (i.e. codes of fair disclosure and conduct) read with Schedule A of SEBI (PIT) Regulations, 2015.

Companies are requested to comply with the requirement of the applicable regulations as amended from time to time.

5.9 Guidance note on disclosures pertaining to analysts / institutional investors meet and best practices⁹

SEBI (Listing Obligation and Disclosure Requirements) Regulations, 2015 ('LODR Regulations') provide for disclosures pertaining to analysts or institutional investors meets or calls under the provisions of point 15 of para A of Part A of Schedule III. In consonance of which the Exchange had issued a guidance note bearing circular number NSE/CML/2021/24 dated June 29, 2021, titled 'Guidance Note on Analyst/Institutional Investors meet' providing further clarification for ease of compliance.

Attached is a guidance note in continuation to the above stated circular to further acquaint the listed companies with the existing regulatory requirement and the industry best practices surrounding the reporting of analysts / institutional investor meet / conference calls made to Exchange to encourage listed companies to proactively disclose all material information that not only help investors in decision making but also helps listed entities in building trust with various stakeholders.

Companies are requested to comply with the requirement of listing regulations and other applicable regulations as amended from time to time. The guidance note can be used only for benchmarking reporting procedures and for reference purpose.

This is for your information please.

Guidance Note

Listed companies under the LODR Regulations are required to provide disclosures at various stages of an analyst / institutional investor meet / call. Therefore, the below guidance note is divided in stages of disclosures for better understanding.

Prior to the meet / call

The listed companies are required to submit schedule of analysts or institutional investors meet to the Exchange as per the timelines mentioned under the provisions of LODR Regulations irrespective of it being an earnings call or otherwise. On pursuing best practices followed by top Indian listed company it was understood that the notice of an earnings / open ended call / meet was hosted on company's website and submitted to the Exchange well in advance. Further, the listed companies are recommended to provide the following minimum but not limited to the said details in disclosures of schedule: details pertaining to the meet / call, mode of attending, details pertaining to registrations, disclaimers/note to complete/ease registration/attending the call, details regarding specific platform requirements, if any, inclusions/exclusions of audience/participants if any, such other details as applicable. Adding to the best practice in the industry it is also noticed that the presentation of earnings / open ended meet / call are submitted to the Exchange and uploaded on company's website in advance of such meet / call.

Securities Exchange Board of India (SEBI) vide its amendment dated May 05, 2021, made only the disclosure of the schedule of group meetings / conference calls conducted physically or through digital means mandatory thereby making disclosure of one-to-one meeting voluntary. Also, it is best practice to submit disclosures pertaining to meets / calls / interviews which a listed entity attend to promote transparency and awareness.

⁹NSE/CML/2022/38 dated July 29, 2022

During the meet / call

Regulations around the analysts / institutional investors meet / call seek disclosure of adequate and timely information to enable investors to track the performance of a listed company. It is noticed that minority shareholders are not privy to the information shared with a select group of investors, thereby creating information asymmetry among different classes of shareholders. In order to avoid such imbalance in the market and promote good corporate governance, the listed companies, under SEBI (Prohibition of Insider Trading) Regulations, 2015 are required to avoid sharing any Unpublished Price Sensitive Information (UPSI) in any meet / call. If any UPSI is shared in any meet / call irrespective of organised by the listed company or attended, one-to-one or group, physical or virtual listed companies shall be required to disclose audio recordings or transcripts of all such information wherein UPSI was shared within the timelines prescribed in applicable Regulations.

In EU/UK province, Market Abuse Regulation (MAR) prevents selective disclosure of material non-public information (MNPI). MAR requires that the companies must not disclose MNPI selectively at the investor meetings. If they do, an immediate announcement would be required but it would still be a breach of the regulations.

On studying disclosures of top listed companies, it was observed that a disclaimer / confirmation is added in the disclosure stating that 'Company will be referring to publicly available documents for discussions during interaction in the meet/call' or 'No unpublished price sensitive information is proposed to be shared during the meeting / call' to create confidence and maintain sanctity of the meet / call. It is recommended that listed companies shall avoid disclosing an UPSI during discussion in any meet / call; if disclosed whether voluntarily / involuntarily, is mandated under regulations to provide a prompt disclosure on occurrence of such instance.

Post the meet / call

LODR Regulations mandates listed companies to submit audio or video recordings and transcripts of post earnings/quarterly calls, by whatever name called, conducted physically or through digital means. The recording and transcript of earnings/quarterly calls are required to be submitted to Exchange irrespective if UPSI is shared in such meets / calls. The mannerism of submitting the same as follows:

(i) the presentation and the audio/video recordings shall be promptly made available on the website and in any case, before the next trading day or within twenty-four hours from the conclusion of such calls, whichever is earlier

For example:

(a) if the meet / call is scheduled on Tuesday, July 05, 2022 at 11:00 AM IST then, the audio/video recordings shall be submitted to Exchange and made available on company's website not later than Wednesday, July 06, 2022 09:00 AM IST.

(b) if the meet / call is scheduled on Friday, July 01, 2022 at 05:00 PM IST then, the audio/video recordings shall be submitted to Exchange and made available on company's website not later than Saturday, July 02, 2022.

(ii) the transcripts of such calls shall be made available on the website within five working days of the conclusion of such calls

For example: if the call was scheduled on Friday, July 01, 2022 then, the transcript of such call shall be submitted to Exchange and made available on company's website not later than Friday, July 08, 2022 before end of the day.

The recordings and transcripts are mandated to enable minority shareholders and genuine institutional investors to make an informed investment decisions and in order to benchmark the said submission the below are few recommendations that listed companies can undertake to improvise the disclosures and record keeping:

- (i) Attachment of the copy of transcript to the corporate announcement submitted to the Exchange.
- (ii) Providing exact web link to the website of the listed company instead of the home page where the document is uploaded.
- (iii) List of management attendees.
- (iv) Recording the dialogues including but not limited to the presentation, the Q&As', any assents / dissents and open points.
- (v) Confirmation that no unpublished price sensitive information was shared/discussed in the meeting / call.
- (vi) Readable pdf to be uploaded.

Further the LODR Regulations seek the listed companies that the presentation and the audio/video recordings shall be hosted on the website of the listed company for a minimum period of five years and thereafter as per the archival policy of the listed entity, as disclosed on its website. However, the recordings shall be maintained until the time of closure of any investigation undertaken on the business of the said meeting / call. Additionally, the transcripts of the meets / calls shall be hosted on the website of the listed company and preserved in permanently as required under the LODR Regulations.

3. Even if the market rumour is specific and impending, a confirmation/ denial/ clarification under Regulation 30(11) will be required only if the market rumour results in a material price movement.

- 3.1 Even if the market rumour is specific and impending, the market rumour shall require a specific confirmation/ denial/ clarification under Regulation 30(11), only if the market rumour results in a material price movement, as per the framework issued by the stock exchanges (referred to below as “**Material Price Movement**”).
- 3.2 The parameter of Material Price Movement should be applied by listed companies, specifically for evaluating whether an impending and specific market rumour requires a confirmation/ denial/ clarification under Regulation 30(11). It is clarified that Regulation 30(11) shall not be applicable to market rumours that do not result in a Material Price Movement, as per the framework issued by the stock exchanges. Further, in this regard, please note that:
- (i) The aforesaid parameter of Material Price Movement should be applied by listed companies, specifically for rumour verification under Regulation 30(11), and does not extend to evaluation of disclosure of material events/ information, under the other provisions of Regulation 30, read with Para A and Para B of Part A of Schedule III of the LODR Regulations; and

Appropriate disclosures may be made by the company as required under Regulation 30 read with Schedule III of the LODR Regulations, following the conclusion of the Board meeting.
- 4.2 However, if the rumour is in respect of actions/ events distinct from the subject of the pre- intimation notice, that may potentially take place at a future date, a specific confirmation/ denial/ clarification of the rumour may be required.
- 4.3 Illustratively, post issuance of the pre-intimation notice in relation to a preferential issue, if there is a rumour in respect of the persons/ entities who will be subscribing to equity shares as a part of a proposed preferential issue, no confirmation/ denial/ clarification will be required in respect of the names of the proposed allottees. However, if there is a rumour that the proceeds of the preferential allotment will be used to fund an acquisition of a specific target, then a rumour in respect of the manner of utilisation of the proceeds may require a specific confirmation/ denial/ clarification subject to and in accordance with the provisions of Regulation 30(11).

Part B – M&A Transaction-Specific Aspects

Note: This part is applicable to market rumours in respect of potential M&A transactions. The expression “**M&A transaction**” includes the following types/ categories of transactions:

5. Rumour verification standards for various stages of a potential M&A transaction

- 5.1 The disclosure standards for various customary stages of an M&A transaction are set out below. The M&A transaction stages have been divided into 2 (two) broad categories, being (i) **preparatory stages** (where the name of the target/ counter party is not disclosable); and (ii) **advanced stages** (where the name of the target/ counter-party is disclosable) ⁵.

B. Advanced Stages of an M&A Transaction

Sr No.	Stage at which market rumour occurs	Disclosure Standard
1.	When a multi-party bid process is ongoing, in respect of acquisition of or from a listed company, and there is a market rumour in respect of the potential M&A deal, or in respect of the names of the bidders.	<p>So long as the market rumour provides specifically identifiable details of the matter/ event (in line with the parameters set out above), illustrative language for the disclosure that the listed bidder(s) and the listed target, as the case may be, may make at this stage is provided below:</p> <p><i>For Listed Bidder(s):</i></p>

Sr No.	Stage at which market rumour occurs	Disclosure Standard

3.	When a binding term-sheet is signed in respect of an M&A transaction where the target is a listed company, including with an exclusivity arrangement.	<p>So long as the market rumour provides specifically identifiable details of the matter/ event (in line with the parameters set out above), a confirmation of the market rumour will be required to be made by the listed acquirer and the listed target, as the case may be, in accordance with the illustrative disclosure language provided below:</p> <p><i>“This is to confirm that the company has executed a binding term-sheet with [●] [insert name of the counter-party], in respect of a potential [●] [insert publicly available details of the potential deal].</i></p> <p><i>Please note that the parties are still in negotiations and no binding agreement has been entered into for giving effect to the potential deal. 4.	When all material commercial terms have been agreed between the parties, and the management decides to take the transaction to the Board (or a delegated Board committee) for its consideration and final approval.	<p>So long as the market rumour provides specifically identifiable details of the matter/event (in line with the parameters set out above), a confirmation of the market rumour will be required to be made by the listed acquirer, listed bidder, listed target, as the case may be, in accordance with the illustrative disclosure language provided below:</p> <p><i>“This is to confirm that the company is in advanced negotiations with [●] [Insert Name of Counter Party], for a potential [●] [Insert Nature of Transaction].</i></p>

The execution and ultimate consummation of the deal is subject to various factors including receipt of approval by the Board of Directors of the company and execution of binding agreements between the parties, and there can be no guarantee or assurance of the execution/ consummation of the potential deal.</i>

5.2 The above parameters for responding to market rumours will also be applicable for the purpose of responding to queries raised by the stock exchanges under Regulation 30(11), in relation to rumours of a potential M&A deal/ transaction.

5.3 The requirement to confirm a market rumour under Regulation 30(11) shall not be applicable for transactions undertaken in the ordinary course of business, which includes the following types/ categories of transactions:

- (i) An on-market block deal transaction or an on-market bulk deal transaction, in respect of the securities of the listed company;
- (ii) An on-market treasury transaction or an on-market non-strategic transaction, undertaken by a listed company in respect of another listed company. For the avoidance of doubt, it is clarified that an 'on-market treasury transaction' refers to an on-market transaction undertaken by a listed company in respect of another listed company, pursuant to its treasury management policies/ objectives. Illustratively, if Listed Company A invests its surplus funds through an on-market transaction to acquire a 0.5% equity stake in Listed Company B, on a non-strategic basis, this will be regarded as an 'on-market treasury transaction'.

6. Considering Unaffected Price for Situations where Rumour Verification Impacts Price

6.1 If disclosure is required under Regulation 30(11), of an M&A transaction that is:

- (i) a preferential issue of securities, including as part of a scheme of arrangement; or
- (ii) a qualified institutions placement, undertaken in accordance with Chapter VI of the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018; or
- (iii) which triggers a tender offer under applicable SEBI Regulations i.e. under the SEBI (Substantial Acquisition of Shares and Takeovers) Regulations, 2011 ("**Takeover Code**"), or
- (iv) a delisting offer under the SEBI (Delisting of Equity Shares) Regulations, 2021; or
- (v) a buyback under the SEBI (Buy-Back of Securities) Regulations, 2018; or

- (vi) scheme of arrangement involving a listed company (irrespective of whether the scheme involves a preferential issue or not), undertaken in compliance with the requirements of the SEBI Master Circular on Schemes of Arrangement, dated June 20, 2023⁶; or
- (vii) any other transaction where the pricing is regulatorily required to be linked to the traded price of the scrip, including but not limited to cross border transactions involving the equity instruments⁷ of a listed company (i.e. purchase, sale, issuance of such equity instruments)⁸,

then the effect on the equity shares of the listed entity due to Material Price Movement and confirmation of the rumour pertaining to the transaction will be excluded for calculation of the price (*including i.e. the floor price or open offer price, as applicable*) for that transaction as per the framework issued by SEBI for considering unaffected price. The above mentioned framework for considering unaffected price will be applicable in situations where details of the deal are confirmed, at the 4 (four) advanced stages set out in the table provided at Paragraph 5.1 above.

6.2 In respect of the applicability of the framework for considering unaffected price, the following aspects are clarified:

- (i) *Time-Period for considering unaffected price:*
 - (a) Unaffected price will be available for a period of 60 (sixty) days from the date of confirmation of the market rumour, in the following situations, as also referred at Sr. Nos 2,3 and 4 of the table setting out disclosure standards for advanced stages of an M&A transaction, at Paragraph 5.1(B) above:
 - A. When a binding term-sheet is signed in respect of an M&A transaction where the target is a listed company; or
 - B. When all the material commercial terms have been agreed between the parties, and the management decides to take the transaction to the Board (or a delegated Board committee) for its consideration and final approval; or
 - C. In respect of the securities of a listed bidder or listed acquirer, as the case may be, in case the transaction involves the securities of a listed bidder/ listed acquirer as well, and a confirmation in this regard is made as a part of the rumour verification.
 - (b) If there is a competitive bidding process for a potential M&A deal, in respect of acquisition of or from a listed company (as also referred at Sr. No. 1 of the table setting out disclosure standards for advanced stages of an M&A

⁶ SEBI Circular No. SEBI/HO/CFD/POD-2/P/CIR/2023/93, titled – “**Master Circular on (i) Scheme of Arrangement by Listed Entities and (ii) Relaxation under Sub- rule (7) of rule 19 of the Securities Contracts (Regulation) Rules, 1957**”, dated June 20, 2023.

⁷ The expression ‘equity instruments’ shall have the meaning assigned to it under Rule 2(k) of the Foreign Exchange Management (Non-debt Instruments) Rules, 2019, as amended from time to time.

⁸ In respect of cross border transactions involving the equity instruments of a listed company, the pricing guidelines under the Foreign Exchange Management Act, 1999 read with the Foreign Exchange Management (Non-debt Instruments) Rules, 2019 (“**FEMA Pricing Guidelines**”) provide that the preferential issue pricing norms (as set out under Chapter V of the SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018) will be applicable.

transaction, at Paragraph 5.1(B) above), and a confirmation in respect of the bid process is made by the listed target or by one or more bidders, then unaffected price will be available to all the bidders (irrespective of being referred to in any rumour or confirmation), for a time-period of 180 (one hundred and eighty) days from the date of confirmation of the market rumour. For the avoidance of doubt, it is clarified that in this scenario, unaffected price will be available to all bidders, irrespective of whether the name of the specific bidder has been confirmed, while responding to the market rumour.

- (c) The framework for considering unaffected price will be applicable in respect of the shares of listed companies which are either referred to in the rumour confirmed, or in the confirmation issued, and to all parties who are involved in that specific transaction (i.e. to the listed target as well as to a bidder/ acquirer, in case the bidder/ acquirer in respect of acquisition of or from a listed company is a listed company and the transaction involves a transaction at the bidder/ acquirer level as well (such as schemes of arrangement, share swap or fund raising by bidder/ acquirer to acquire the listed target), and such bidder/ acquirer-level potential transaction is also confirmed in the rumour verification). For instance, in case Company A verifies a rumour in respect of potential acquisition of Company B by Company A, then in case the transaction involves (i) share acquisition of Company B by Company A, then unaffected price on shares of Company B, and (ii) merger or demerger involving Company A and Company B, then unaffected price on both the shares of Company A and Company B. In case of share acquisition of Company B by Company A, if Company A also raises capital and confirms a potential fund-raising as a part of rumour verification, then Company A will also receive unaffected price in respect of this fund-raising.
- (d) The framework for considering unaffected price will also be applicable for the bidder/ acquirer and the seller, in situations where the target is not a party to the deal, and the deal is disclosed by the target or a potential bidder under Regulation 30(11). For instance, in case Company A (target) verifies a rumour regarding a potential transaction involving acquisition of Company A's shares by Company B (acquirer) from the promoters of Company A (being the sellers) – for the potential acquisition transaction that has been confirmed by Company A as a part of rumour verification, unaffected price on the shares of Company A will be available to the acquirer and the seller. Similarly, if for this transaction, the rumour is verified by Company B (acquirer), unaffected price will be available on the shares of Company A, for the transaction being undertaken, including for all the bidders who participate in the bid process.

7. Scenarios where the company is not party to the deal/ does not have knowledge of the M&A transaction

- 7.1 In cases where the company is not a party to the deal, or does not have knowledge about the rumoured transaction/ deal, a specific confirmation/ denial would not be required, and a disclosure by the listed entity stating that it does not have knowledge of the deal (or its details) and can neither confirm nor deny the rumour, would serve as sufficient compliance with the requirements of Regulation 30(11).

- 7.2 The expression ‘knowledge of the deal’ refers to specific knowledge of the Board of the target entity (through Board processes) and/ or of the officers⁹ of the target entity, about material terms of the proposed deal.
- 7.3 In case the transaction involves the promoter of the company, in this specific situation, the company will be obligated to check with the promoter in respect of the market rumour. The information received/ absence thereof from the promoter (pursuant to the company’s request) shall be disclosed by the company. It is clarified that the aforementioned requirement on the company to seek a clarification is limited to a rumour concerning a transaction involving a promoter of the company, and not any other third party or public shareholder.

Part C - Non- M&A Transaction related Aspects

8. **Guiding Principles for rumour verification in non-M&A transaction scenarios**

- 8.1 In respect of market rumours for non-M&A transaction related scenarios, companies may evaluate disclosability based on the following parameters:

Further, as stated above at Paragraph 2, Regulation 30(11) shall not be applicable to market rumours that are vague or general in nature.
 - (ii) The market rumour should be in respect of an impending event: The expression ‘impending’ *inter alia* refers to an event that is imminent, close at hand or about to happen.
 - (iii) Material Price Movement: The market rumour should result in a Material Price Movement, as per the framework issued by the Stock Exchanges, which is set out above at Paragraph 3.

Industry Standards for Compliance

1. **Applicability of numerical thresholds to certain companies for Para A(1) of Part A of Schedule III**

- 1.1. For insurance companies and non-banking financial companies (“NBFC(s)”), including, core investment companies, registered with the Reserve Bank of India (“RBI”), the stipulation in Explanation (1)(ii)(c) to Para A(1) of Part A of Schedule III, should be understood as follows:
 - 1.1.1. In case of acquisitions of listed (or to be listed) equity, convertible or debt securities of another entity, a disclosure of an acquisition would be required to be made only if the cost of acquisition or the price at which the listed (or to be listed) equity, convertible or debt securities are acquired exceeds the threshold specified in Regulation 30(4)(i)(c)(2), i.e., two percent of net worth, as per the last audited consolidated financial statements of the investor entity. In such instances, the materiality thresholds specified in Regulation 30(4)(i)(c)(1) and Regulation 30(4)(i)(c)(3) would not be applicable.
 - 1.1.2. For any other type of acquisition, each of the prescribed materiality thresholds under Regulation 30(4)(i)(c) would continue to apply to assess whether a disclosure of the acquisition is triggered.
- 2. Interpretation of “value or the expected impact in terms of value” under Regulation 30(4)(i)(c)**
 - 2.1. In computing the “expected impact in terms of value” of an event/information, a listed entity should, where applicable, consider the expected impact in the four ensuing quarters (including the quarter in which the event occurs if the event occurs in the first 60 days of the quarter). Illustration in this regard are provided below:
 - 2.1.1. If an event has occurred on May 29, 2023, which is a date in the first 60 days of the quarter, then the computation of the four ensuing quarters for the purposes of assessing the expected impact of the event would include the ongoing quarter beginning April 1, 2023. Accordingly, the period of assessment would be the four quarters beginning April 1, 2023, till March 31, 2024.
 - 2.1.2. However, if an event has occurred on June 1, 2023, which is date not in the first 60 days of the quarter, then the computation of four ensuing quarters for the purposes of assessing the expected impact of the event would not include the ongoing quarter. Accordingly, the period of assessment would then be from July 1, 2023 till June 30, 2024.
 - 2.2. Disclosure / non-disclosure would typically be in compliance with the regulatory requirements if while undertaking the assessment of the “value” and “expected impact in terms of value”, the listed entity places reliance on the principles for measurement set out under the applicable accounting standards (such as the PPR test formulated basis the principles for measurement set out under Ind AS 37), so as to ensure consistency between the disclosures made to the stock exchanges, and the disclosures made in the financial statements. For instance, if the outcome for a matter (above the materiality threshold) falls within probable or possible category then it may be disclosed, however, if it falls within remote category then disclosure may not be required under Para B(8) of Part A of Schedule III.
 - 2.3. Disclosure of an event under Para B of Part A of Schedule III would be required to be made if the gross amount involved in such event exceeds the materiality threshold. However, listed entities may disclose details of indemnity and insurance claims which could mitigate the expected impact, if any, in respect of such event to provide more context while making the disclosure.
 - 2.4. In certain instances, all of the three parameters specified under Regulation 30(4)(i)(c) (viz., profit / net worth / turnover) may not be relevant to an event. As such, while assessing whether an event exceeds the materiality thresholds, listed entities should refer to **Annexure A** for guidance on which of the relevant and appropriate parameter ought to be considered for determination of materiality for different types of events under Para B of Part A of Schedule III.
- 3. Interpretation of “last audited consolidated financial statements” under Regulation 30(4)(i)(c)**

- 3.1. The reference to last audited consolidated financial statements in this Regulation shall mean the annual audited consolidated financial statements of the listed entity.

4. Interpretation of “significant market reaction” under Regulation 30(4)(i)(b)

- 4.1. Significant market reaction may differ from company to company. Significant market reaction may be assessed against scrip price, as per the parameters specified by the stock exchange(s).

5. Materiality for disclosure under Para A(20) of Part A of Schedule III

- 5.1. For disclosure of imposition of fine or penalty under Para A(20) of Part A of Schedule III:

- 5.1.1. **Action taken or Order Passed by Sector Regulator / Enforcement Authority:** Action taken or order passed by the sector regulator / enforcement authority of the listed entity would be required to be disclosed, if such action or order, where quantifiable, exceeds the threshold specified by SEBI. The listed entity may refer to **Annexure B** for identifying its sector regulator / enforcement authority. Listed entities may also include other sector regulator/ enforcement authorities depending on their business, in their materiality policy.
- 5.1.2. **Action taken or Order Passed by all other Regulators / Authorities (Other than Regulators under paragraph 5.1.1 above):** Action taken or order passed by a regulatory/statutory/enforcement/judicial/quasi-judicial authority would be required to be disclosed only if such action or order, where quantifiable, exceeds the threshold specified by SEBI.
- 5.2. Further, imposition of fine or penalty below the quantifiable thresholds mentioned in paragraphs 5.1.1 and 5.1.2 above, should be disclosed by the listed entity on a quarterly basis.

- 7.1. For litigations or disputes having similar question of law and/or factual matrix such that there is a likelihood of similar outcome of proceedings, the listed entity should disclose such matters, if the aggregate / cumulative amount involved in all such matters cross the materiality threshold. The requirement of aggregation / cumulation will not be applicable only on the account of (i) the opposite party being the same person in more than one matter, or (ii) the litigation involving listed entity and its subsidiaries. It is clarified that the likelihood of similar outcome of proceedings, shall refer to a negative outcome for the listed entity in one proceeding which may lead to similar negative outcomes in the other matters.
- 7.2. For instance, in case of tax matters, the tax authorities may initiate different proceedings against a listed entity for different financial years or in different states, around the same set of facts and legal issues. If it is expected that if one proceeding is held against the entity on merit or law, then the others will also be held against the listed entity, then all such matters should be cumulated. However, matters involving the tax authorities (as common opposite party) with different facts and outcome of which are not inter-related, should not be cumulated. Similarly, matters initiated by or against the listed entity and its subsidiary against or by a common opposite party, with different facts and outcome of which are not inter-related, should not be cumulated.

8. Disclosure of show cause notices under: (i) Para A(20) of Part A of the Schedule III and (ii) Para B(8) of Part A of Schedule III

- 8.1. Receipt of a show cause notice would not trigger a disclosure requirement under Para A(20) of Part A of the Schedule III. However, receipt of a show cause notice from any regulatory, statutory, enforcement authority would come under Para B(8) of Part A of the Schedule III, and require disclosure upon application of the guidelines for materiality, as specified in Regulation 30(4).

9. Disclosure of confidential litigation / dispute / order / action initiated or taken under (i) Para A(19) and (20) of Part A of the Schedule III, and (ii) Para B(8) of Part A of Schedule III

- 9.1. Listed entities while evaluating the expected impact (and subsequently, the disclosure requirement) of pending litigation / dispute / order / action initiated or taken may also consider whether the same is confidential in nature under any applicable law and/or requirement / direction of any regulatory, statutory, judicial or quasi-judicial authority, or any tribunal.

- 10.2. It shall be a defence for non-compliance with the timelines prescribed if there is any reasonable delay on account of (i) a force majeure event, (ii) time taken for completion of prima facie assessment of materiality for certain relevant events (such as orders, fraud, winding-up petitions, action initiated, claims made against listed entity, etc.), or (iii) information / event relating to subsidiary, director, key managerial personnel, senior management or promoter (where listed entity is not directly involved), etc. In such events, explanation for the delay should be provided along with the disclosure of the event / information.

Further, the listed entities will be required to make final disclosure once the investigation is fully concluded.

- 13.2. Annexure A

Guidance on appropriate parameter (profit / net-worth / turnover) to be considered for determination of materiality for different types of events under Para B of Part A of Schedule III of LODR Regulations

As per regulation 30(4)(i)(c) of SEBI (Listing Obligations and Disclosure Requirements), Regulations, 2015 ('**LODR Regulations**'),

(i) The listed entity shall consider the following criteria for determination of materiality of events/ information:

- (c) the omission of an event or information, whose value or the expected impact in terms of value, exceeds the lower of the following:*
- (1) two percent of turnover, as per the last audited consolidated financial statements of the listed entity;*
 - (2) two percent of net worth, as per the last audited consolidated financial statements of the listed entity, except in case the arithmetic value of the net worth is negative;*
 - (3) five percent of the average of absolute value of profit or loss after tax, as per the last three audited consolidated financial statements of the listed entity.*

Thus, it is understood that any event/ information shall be considered as material for the Company if the value of such transaction or the expected impact of such event/ information in terms of value is lower of the turnover or net worth or profits after tax as calculated under the above stated provisions.

However, in certain instances, all of the three parameters specified under Regulation 30(4)(i)(c) (viz, profit / net worth / turnover) may not be relevant to an event. Applying the principle of *Reddendo Singula Singulis* to the materiality provisions of LODR Regulations, it can be said that since there are separate thresholds of 2% of turnover, 2% of net worth and 5% of average PAT, each of such values can be applied individually and a particular threshold would be relevant and applicable depending on the nature of the event/ information being assessed. For instance, any event which has an impact on the turnover or profits of the Company can be considered material by comparing the value of such event/ information with 2% of the consolidated turnover or 5% of the average PAT respectively.

Similarly, if there is any event/ information which has a capital cost involved, then the materiality of such event/ information can be identified by comparing the value of such event/ information with 2% of the consolidated net worth of the Company and if the value of event exceeds such threshold, then the event would be considered as material.

Based on the above, an analysis as to which of the three parameters should be applied for events or information stated in Schedule III, Part A, Para B is suggested below for uniform approach by the listed entities:

For considering a company's case for waiver of penalty, the company would be required to disclose to the Exchange, the events that prevent / impact filing of compliances as mentioned in SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015('Listing Regulations'), as amended from time to time, either immediately or as soon as practically possible. Further, a case for waiver or reduction of fine shall be considered only where the applicant company has fully complied with all its compliances under the Listing Regulations, other applicable regulations and circulars issued thereunder.

The events referred to below, shall be disclosed along with the relevant supporting documents evidencing the same, including the impact assessment of the event, duly certified by the Company Secretary or the Compliance Officer. In case of impact on filing of Financials, the same shall be certified by the Statutory Auditor of the company.

Non-disclosure of the events preventing / impacting filing of compliances in a timely manner may result in rejection of request for waiver / reduction of fine.

The indicative list of events that may be considered by the Exchange for granting waiver or reduction of fine levied under SOP for compliance with Listing Regulations are mentioned below along with criteria to be considered:

1. Natural calamity (Act of GOD)

In the event of Natural calamity, the following will be considered while approving such request:

- a. Whether the event had occurred during the period under review or during the period of filing the compliances.
- b. Where did the event occur and how it impacted the requisite disclosure from being made in time bound manner.
- c. Event is notified to the Exchange as soon as possible, along with periodic updates.
- d. In order to claim the waiver/reduction of penalty, company will have to adequately demonstrate that the said Natural Calamity resulted in the company not being able to comply with the applicable Regulations.

2. Seizure / Capture of books / computers etc., by regulatory / statutory authorities

On account of seizure of documents / computer hardware / software, etc., as the case may be, by regulatory or statutory authorities:

1. The event should have been intimated as a material event at the time of seizure / capture along with the relevant documentation evidencing the same, including the impact assessment of the event duly certified by the Company Secretary or the Compliance Officer e.g. seizure report / panchnama.
2. The seizure / capture should have occurred during the periods under review or during the period of filing the compliances

Accidental reasons, including those mentioned in the Listing Regulations, e.g. strikes, lockouts and other reasons. The event shall be disclosed to the Exchange as per Regulation 51 of Listing Regulations. PRE-CONDITIONS FOR ACCEPTING APPLICATIONS FOR FULL / PARTIAL WAIVER OF FINES

1. The above list of events may be revised from time to time by the Exchanges after joint consultation and disseminated on the Exchange websites. The Exchanges may jointly consider any event which is not mentioned in the above list that deserves full or partial exemption / waiver based on reasons recorded in writing. 2. Companies should file their application in the prescribed mode as mentioned in the notice of levy of penalty, requesting for waiver of fines along with specific reasons for claiming the same, within 15 days from the date of Exchange communication intimating about levy of fines, failing which such application shall be liable for rejection.

3. Further the happening of any event listed above does not automatically confer any right or entitlement to waiver of fine and request for waiver/ reduction in penalty shall be considered only upon the company applying for the waiver with full underlying facts and evidences and after ascertaining the facts in the matter. It may be noted that the decision of the Exchange shall be final and repeated applications for waivers that are

declined earlier, would not be entertained, unless there are any mitigating fresh facts. The Exchange reserves the right to accede to or deny the request for waiver/reduction in penalty, for reasons to be recorded in writing.

4. An illustrative list of scenarios which cannot be considered to fall within the ambit of “events” entailing waiver or reduction of fine is given below

Till the time the waiver request is decided by the Exchange, further actions such as non-allowance of securities issuance and further listings, etc. prescribed under the SEBI SOP Circular dated November 13, 2020 / December 29, 2021 (as applicable) may be kept on hold **only for those companies whose requests for waivers fall under the Criteria (1) to (5) given above.**

In case of impact on filing of Financials, the same shall be certified by the Statutory Auditor of the company.

The indicative list of events that may be considered by the Exchange for granting waiver or reduction of fine levied under SOP for compliance with Listing Regulations are mentioned below along with criteria to be considered:

1. Natural calamity (Act of GOD)

In the event of Natural calamity, the following will be considered while approving such request:

- c) casual vacancy caused on account of resignation/ removal/ death/ disappearance of directors or KMPs in such cases, the company has to provide evidence that it has taken adequate steps to remedy the non-compliance within the stipulated time. Such evidence shall, inter alia, include proof of communication sent to the approving

authority seeking approval for the appointment / receipt of communication from the authorities appointing a nominee director that resulted in existing compliance becoming non-compliance. In case of the former, such communication should have been sent by the company to the relevant authority, prior to the last due date of compliance. 9.3 Processing of waiver applications by the Exchanges in case of commonly listed entities - Equity Background

SEBI vide SOP Circular ref. no. SEBI/HO/CFD/CMD1/CIR/P/2020/48 dated January 22, 2020 (erstwhile circular ref. no. SEBI/HO/CFD/CMD/CIR/P/2018/77 dated May 03, 2018) directed the Exchanges to put in place a framework to monitor submissions made by listed entities and to initiate actions such as levy of penalties, moving of security to 'Z' category, freezing of promoter holdings and suspension of trading in securities of non-compliant listed entities.

Further, SEBI vide its abovementioned SOP Circular has directed the Exchanges that they may deviate from the actions prescribed in SOP Circulars, if found necessary, only after recording reasons in writing.

In view of the above, the Exchanges have jointly formulated a "Policy for Exemption of Fines" and the same was noted by SEBI on January 22, 2020. The Exchanges have also constituted Internal Committees for reviewing the requests received for waiver of SOP fines.

As per the abovementioned "Policy for exemption of fines" the non-compliant companies are required to file an application for waiver of fine only on achieving compliance with provisions of Listing regulation/s.

Procedure

The Exchanges in consultation with SEBI have agreed upon the following procedure for allocating the listed companies:

- ☐ The Exchanges shall segregate the commonly listed companies amongst themselves. The process shall be done in such a way that approximately equal number of companies are allocated to each Exchange.

After completion of six months, the group of companies will be exchanged between both the Exchanges for the next six months.

Note: - Commonly listed companies here mean companies which are listed and are also non-compliant at both Exchanges. Commonly listed companies will not include companies-

- a) which are non-compliant at only one Exchange e.g., if ABC Limited is listed on both the Exchanges, falls under the group which is to be handled by NSE but observed to be non-compliant at BSE only, the same shall be disposed of by BSE only.
- b) whose compliance at the other exchange is later than the Exchange in whose bucket the company falls for that period. E.g., if ABC Limited is listed on both the Exchanges, falls under the group which is to be handled by BSE but has delayed compliance at both the Exchanges, but delay is greater at NSE or non-compliance continues at NSE, the same shall be disposed of by NSE only and BSE will not consider the exemption application. This will ensure that compliance is met at both the Exchanges and the Exchange where there is a larger delay will be able to consider the justification for the delay.

- ☐ The companies shall be segregated based on the date of application. i.e. all applications received during a 6-month period will be considered by one exchange.
- ☐ Companies making an application seeking waiver of fines, along with applicable processing fees, should have cleared their earlier dues, including fines and fees, to all the Exchanges where it is listed, prior to making an application. Companies shall also make detailed submission seeking waiver of SOP Fines considering the extant Policy for Exemption of Fines and shall indicate whether it intends to seek personal hearing before the concerned Committee.
- ☐ Companies are advised to submit all the supporting documents along with the application and shall desist from filing response or supporting documents/information on a piece meal basis.

- ☐ The decision taken by one Exchange on waiver requests will be applicable to the same waiver requests received by other Exchanges to maintain the uniformity in decision at both Exchanges.
- ☐ Second time waiver (Review) requests received from companies will be placed before the committee of the Exchange which had handled the request for the first time, irrespective of the date of receipt of applications.

For example: The waiver application by ABC Limited was handled by BSE Limited (other Exchange) when the company was falling under group allocated to BSE Limited. If ABC Limited files a review application against the rejection order filed by BSE Limited after the completion of the 6-month period of interchanging the companies between the Exchanges, the same shall continue to be handled by BSE Limited only.

Though the company may fall under the group which is to be handled by other Exchange (NSE), the second application of review will be placed at BSE (the Exchange which had handled the initial application of the Company).

- ☐ Newly listed companies shall be added to the segregation every quarter.

The above procedure shall be effective for applications seeking waiver of SOP fines, submitted to the exchanges on or after April 1, 2022.

Personal Hearing:

Personal hearing, if sought by the companies, will be conducted only by the Exchange which is handling (disposing) the waiver requests for that Company/Group for that period.

Processing Fees

Exchanges shall levy processing fees for considering the waiver requests on the following basis

- 1) Fees shall be levied on companies which apply for waiver.
- 2) Waiver processing fees shall be Rs. 10,000 per application. Companies may submit a single application for multiple requests for waiver pertaining to different regulations/period.
It may be noted that the application for waiver is to be submitted at all the exchanges where the fines have been levied. However, processing fees are to be submitted only to the designated exchange.

The Companies are advised to pay waiver processing fees in the same account where they pay Annual Listing Fees. Please refer Unique Account Code used for paying Annual Listing fees to the Exchange.
- 3) In case the Company is not satisfied with the decision of the Exchange and intends to apply for review, the fees applicable for such review shall be Rs. 20,000 per application.
- 4) In the event that the waiver request is accepted fully, the Exchange shall refund the processing fees charged. In case of Partial waiver of the fines, processing fees of Rs. 5000 shall be refunded and balance fees may either be refunded / adjusted against outstanding fines.
- 5) No processing fees shall be charged if the fine amount for which waiver is requested is less than Rs. 5000.
- 6) Time limit for filing of waiver/ review request shall be 3 months from the date of compliance by the Company. If any Company wishes to apply for waiver beyond this timeline, the same shall only be admitted by the Exchange if it can demonstrate circumstances to the satisfaction of the Exchange.
