8	Description objective of the scheme	The investment objective of the scheme is to generate income by taking advantage of the arbitrage opportunities that potentially exists between cash and derivative market and within the derivative segment along with investments in debt securities & money market instruments.
9	Stated asset allocation	Under normal circumstances, the anticipated asset allocation would be: Equities and equity related instruments, Derivatives including index futures, stock futures, index options, & stock options, etc. # – 65%-90%, Debt and Money market instruments (including investments in securitized debt upto 30%) -10%-35%. When adequate arbitrage opportunities are not available in the Derivative and Equity markets, the anticipated alternate asset allocation on defensive considerations would be: Equities and equity related instruments, Derivatives including index futures, stock futures, index options, & stock options, etc. (Only arbitrage opportunities) # - 0%-65%, Debt and Money market instruments (including investments in securitized debt upto 30%) - 10%-35%, Short term Debt and Money market instruments not exceeding tenure of 91 days** (including investments in securitized debt) # the exposure to derivatives shown in the above asset allocation tables is exposure taken against the underlying equity investments and should not be considered for calculating the total asset allocation and/or investment restrictions on the issuer. The idea is not to take additional asset allocation with the use of derivative. The margin money deployed on these positions would be included in Money Market category.
