During the year ended 31 March 2023, PCHFL, wholly owned subsidiary, had recovered ₹ 309.14 crores from 6 parties, against whom Avoidance Applications were filed by the Administrator, by way of settlement agreements entered by the Group with these parties under Section 7 of Insolvency and Bankruptcy Code, 2016 as full and final settlement of financial dues and withdrawal of all pending cases against these parties in connection with the disputes and / or finance documents and / or financial debt, if any, before any forum / court / tribunal / authority and / or otherwise, under any / all applicable laws. The management is of the considered view that these amounts are not required to be paid to Committee of Creditors (CoC) and continues to pursue for recovery against these parties w.r.t. Avoidance Application filed by the administrator. However, considering the complexity of the matter, amount of ₹ 274.95 crores (after adjustment of recovery against Section 66) has not been recognized as income and shown as liability in financial statements. During the year, out of this, income has been recognised for ₹ 227.51 crores and remaining amount shown as COC liability.

Nature and purpose of other equity

Capital Reserve

Capital reserve has been created on account of business combination of earlier years.

Securities Premium

Securities premium is used to record the premium on issue of shares. It can be utilised in accordance with the provisions of the Companies Act, 2013.

Capital Redemption Reserve

This reserve was created as per requirements of Companies Act 2013 pursuant to buyback of equity shares and redemption of preference shares.

Debenture Redemption Reserve

The Debenture redemption reserve was created in previous years, as per the requirements of Rule 18(7) of the Companies (Share Capital and Debentures) Rules, 2014. Debenture redemption reserve has not been created in respect of privately placed debentures in accordance with the Companies (Share Capital and Debentures) Rules, 2014.

General Reserve

General Reserve represent amounts set aside from retained profits as a reserve to be utilised for permissible general purpose as per Law.

Foreign Currency Translation Reserve

Exchange differences arising on translation of foreign operations are recognised in other comprehensive income and accumulated in a separate reserve within equity. The cumulative amount is reclassified to profit or loss when the net investment is disposed off.

Reserve Fund u/s 45-IC (1) of Reserve Bank of India Act, 1934

Reserve fund is created as per the terms of section 45 IC(1) of the Reserve Bank of India Act, 1934 as a statutory reserve.

Reserve Fund u/s 29C of the National Housing Bank Act, 1987

Reserve Fund is required to be maintained u/s 29C of the National Housing Bank Act, 1987 for Housing Finance Companies.

FVTOCI - Equity Instruments

The Group has elected to recognise changes in the fair value of certain investments in equity securities in other comprehensive income. These changes are accumulated within the FVTOCI equity investments reserve within equity. The Group transfers amounts from this reserve to retained earnings when the relevant equity securities are derecognised.

FVTOCI - Debt Instruments

The Group has elected to recognise changes in the fair value of certain investments in debt securities in other comprehensive income. These changes are accumulated within the FVTOCI debt investments reserve within equity. The Group transfers amounts from this reserve to Consolidated statement of profit & loss when the relevant debt securities are derecognised.

FVTOCI - Cash Flow Hedging Reserve

The Group uses hedging instruments as part of its management of interest rate risk associated with investment in floating rate bonds. For hedging interest rate risk, the Group uses interest rate swaps which is also designated as cash flow hedges. To the extent these hedges are effective; the changes in fair value of the hedging instrument is recognised in the cash flow hedging reserve. Amount recognised in the cash flow hedging reserve is reclassified to profit or loss when the hedged item affects Statement of profit or loss (e.g. interest payments). (refer note 58(e)).

Retained Earnings

Retained earnings represents the surplus in profit and loss account and net amount of appropriations made to/from retained earnings.

Amalgamation Adjustment Reserve

Amalgamation adjustment reserve has been created on account of business combinations

Stock option reserve

Share options outstanding account is created as required by Ind AS 102 'Share Based Payments' on the Employee Stock Option Scheme. Stock Options outstanding represents amount of reserve created by recognition of compensation cost at grant date fair value on stock options vested but not exercised by employees and unvested stock options in the Statement of profit and loss in respect of equity-settled share options granted to the eligible employees of the Group in pursuance of the Employee Stock Option Plan (refer note 80)

For movement in other equity during the year, refer Statement of Changes in Equity.

(Currency : ₹ in crores, unless otherwise stated)

* Includes Insurance claims in Legal Matters net of provision and reinsurance (Gross Value of Litigated Claims ₹ 31.59 crores (31 March 2023 : ₹ 29.86 crores), out of which reinsured claims ₹ 9.93 crores (31 March, 2023 : ₹ 9.22 crores) and Provision held ₹ 7.58 crores (31 March 2023 : ₹ 5.89 crores))

Note: Future cash outflows in respect of 1 and 2(i) above are determinable only on receipt of judgments/decisions pending with various forums/authorities.

The Group has a process whereby periodically all long term contracts are assessed for material foreseeable losses. At year end the Group has reviewed and ensured that adequate provision as required under any law / accounting standards for material foreseeable losses on such long term contracts has been made in the books of accounts.

Also, the Group has also reviewed all its pending litigations and proceedings and has adequately provided for where provisions are required and disclosed the contingent liabilities where applicable, in its financial statements. The Group does not expect the outcome of these proceedings to have a materially adverse effect on its financial results.

B. Commitments

(a) Estimated amount of contracts remaining to be executed on capital account and not provided for	244.33	227.59
(b) Other commitments	0.18	0.18

Refer note 58 in case of loan commitments and other commitments

45 Earnings per share (EPS)

In accordance with Ind AS 33 'Earnings per share', Basic EPS is calculated by dividing the profit / loss for the year attributable to equity holders of the Holding Company by the weighted average number of equity shares outstanding during the year.

Diluted EPS is calculated by dividing the profit / (loss) attributable to equity holders of the Holding Company by the weighted average number of equity shares outstanding during the year plus the weighted average number of equity shares that would be issued on conversion of all the dilutive potential equity shares into equity shares of the Holding Company.

The following reflects the income and share data used in the basic and diluted EPS computations:

Description	For the year ended	
	31 March 2024	31 March 2023
(a) Basic and diluted EPS for the year		
Net profit / (loss) from operations attributable to equity shareholders	(1,683.53)	9,968.58
Weighted average number of equity shares outstanding during the year for calculation of basic EPS (in nos.)	23,12,04,684	23,86,63,700
Weighted average number of equity shares outstanding during the year for calculation of diluted EPS (in nos.)	23,29,66,341	23,94,55,874
Basic EPS of face value of ₹ 2 per share (in ₹)	(72.82)	417.68
Diluted EPS of face value of ₹ 2 per share (in ₹) *	(72.82)	416.30

* In view of loss for the year ended 31/03/2024, equity shares which are anti-dilutive have been ignored in the calculation of diluted earnings per share.

(b) Weighted average number of shares used in calculation of basic and diluted earnings per share

Weighted Average Number of Equity Shares for calculating Basic EPS (in nos.)	23,12,04,684	23,86,63,700
Weighted Average Potential Equity Shares in respect of		
(i) Right shares reserved for erstwhile CCD holders and right shares held in abeyance (in nos.)	24,573	24,573
(ii) Outstanding stock options (in nos.)	17,37,084	7,67,601
Weighted Average Number of Equity Shares for calculating Diluted EPS (in nos.)	23,29,66,341	23,94,55,874

Piramal Enterprises Limited**Notes to the consolidated financial statements (Continued)**

For the year ended 31 March 2024

(Currency : ₹ in crores, unless otherwise stated)

46 (a) Property, Plant & Equipment, Investment in Non Convertible Debentures, Inter Corporate Deposits and Other Financial Assets are mortgaged / hypothecated to the extent of ₹ 68,585.87 crores (As on 31 March 2023: ₹ 71,532.95 crores) as a security against secured borrowings as at 31 March 2024.

(b) Piramal Capital & Housing Limited ('PCHFL'), wholly owned subsidiary, has a covenant in its borrowing documents, which states that it shall comply with RBI Regulations in order to qualify as Non-Banking Finance Company – Housing Finance Company within 31 March 2024 or as extended by RBI. PCHFL could not fulfill the PBC criteria as on 31 March 2024 (refer note 49) and is in the process of converting to NBFC.

47 Disclosures in compliance with the Regulation 52 (4) of the SEBI (Listing Obligation and Disclosure Requirements) Regulation, 2015 for the financial year ended 31 March 2024

Particulars	For the year ended 31 March 2024	For the year ended 31 March 2023
(a) Debt-Equity ratio ([Debt securities+Borrowings (other than debt securities) + Deposits+Subordinated debts] / Total Equity ^	2.36	1.60
(b) Net Worth [Total Equity] (₹ in crore) @	22,673.68	31,059.08
(c) Net Profit / (loss) after tax (₹ in crore)	(1,683.53)	9,968.58
(d) Earnings per share (continuing and discontinued operations)		
(i) Basic (₹)	(72.82)	417.68
(ii) Diluted (₹) *	(72.82)	416.30
(e) Total debts to total assets ratio ([Debt securities+Borrowings (other than debt securities) + Deposits+ Subordinated debts] / Total Assets)	64.90%	59.20%
(f) Net profit / (loss) margin [Profit / (loss) after tax / Total Income]	-16.54%	20.94%
(g) Sector specific equivalent ratio, as applicable		
(i) Gross NPA (stage 3 asset, gross) ratio	2.37%	3.76%
(ii) Net NPA (stage 3 asset, net) ratio	0.83%	1.93%

@ "Net worth" as of 31 March 2024 is computed as per section 2(57) of the Companies Act, 2013

^ [Debt Securities + Borrowings (other than debt securities) + Deposits + Subordinated debt] / Net Worth

* In view of loss for the year ended 31/03/2024, equity shares which are anti-dilutive have been ignored in the calculation of diluted earnings per share.

48 Segment reporting

The Holding Company and its subsidiaries are primarily engaged in the business of financing and accordingly there are no separate reportable segmental information as per Ind AS 108.

Further, no single customer represents 10% or more of the Group's total revenue for the year ended 31 March 2024 and 31 March 2023. Based on the geographic information analyses the Group's revenues and assets by the country of domicile, all the Group's revenues and assets other than financial assets and tax assets are predominately based in India.

49 As per para 4.1.17 of Non-Banking Financial Group – Housing Finance Group (Reserve Bank) Directions, 2021 ('RBI Directions'), Piramal Capital & Housing Finance Limited ('PCHFL') was required to comply with Principal Business Criteria ('PBC') for Housing Finance Companies (HFCs). However, the Group could not fulfill the PBC criteria as on March 31, 2024.

As per above referred RBI Directions, para 5.3, HFCs that are unable to fulfil the PBC criteria as on 31 March 2024 shall be required to approach the Reserve Bank of India (RBI) for conversion of their Certificate of Registration from HFC to NBFC – Investment and Credit Companies ('NBFC-ICC'). In line with the above, the Board of Directors has approved the conversion of its Certificate of Registration from HFC to NBFC-ICC in its meeting dated 8 May 2024 and PCHFL will submit the application to the RBI along with necessary documents as required under the said RBI Directions.

PCHFL has been advised by the National Housing Bank ('NHB'), to continue compliance with the Master Directions and other circulars issued by RBI as applicable to HFCs and submit all required returns to the National Housing Bank (NHB), till the receipt of new Certification of Registration as NBFC-ICC.

Piramal Enterprises Limited

Notes to the consolidated financial statements (Continued)

For the year ended 31 March 2024

(Currency : ₹ in crores, unless otherwise stated)

The Board of Directors of PCHFL, in its meeting dated 8 May 2024, has approved a Composite Scheme of Arrangement (“Scheme”) under sections 230 to 232 read with section 66 and section 52 and other applicable provisions of the Companies Act, 2013 for amalgamation of Piramal Enterprises Limited (“PEL”) with the Group as a reverse merger. This amalgamation is set to take effect from appointed date i.e. 1 April 2024, by way of reverse merger by absorption pursuant to a scheme of arrangement under the provisions of Sections 230 – 232 read with section 66 and section 52 and other relevant provisions of the Companies Act, 2013 (including the rules thereunder).

The proposed scheme is subject to various approvals, including the approval from shareholders, lenders, regulators, the National Group Law Tribunal (“NCLT”) and other regulatory/statutory approvals, as may be required. The proposed amalgamation aims to simplify group structure including the regulatory developments and reforms including higher regulatory standards for NBFCs, optimize capital, strengthen the balance sheet, and enhance operational and financial effectiveness.

(ii) Carrying amount of Lease liabilities recognised and movement during the year:

Particulars	Year Ended	
	31 March 2024	31 March 2023
Balance as of 1 April	238.90	160.07
Add: Additions during the year	143.35	144.95
Add: Interest on lease liabilities	36.90	22.45
Less: Deletions / others during the year	(88.05)	(51.08)
Less: Lease rental payments	(66.84)	(37.49)
Balance as of 31 March	264.26	238.90

(iii) Amounts recognised in the statement of profit or loss - Lease under Ind AS - 116

Particulars	Year Ended	
	31 March 2024	31 March 2023
The statement of profit or loss shows the following amounts relating to leases :		
Interest expense on lease liabilities (included in finance cost)	36.90	7.76
Income from sub-leasing right-of-use assets	0.98	1.18
Expense relating to short-term leases (included in operating expenses)	20.63	2.74
(Gain)/loss on pre-mature lease closure	2.01	-
Depreciation	55.54	60.45
Expense relating to leases of low-value assets (other than short term leases as disclosed above) (included in operating expenses)	3.14	-

The weighted average incremental borrowing rate applied to lease liabilities as at April 1, 2023 ranges between 8.52 % to 13.19% (Previous Year :8.91 % to 11.54%).

The bifurcation below provides details regarding the contractual maturities of lease liabilities on an undiscounted basis:

Particulars	As at	
	31 March 2024	31 March 2023
1 year	103.98	63.63
1-3 years	216.13	106.99
3-5 years	100.19	76.28
More than 5 years	86.74	55.50

51 Goodwill

Particulars	As at	
	31 March 2024	31 March 2023
Opening balance	272.17	1,294.70
Add: Addition due to acquisition during the year (Refer Note 70(i))	-	2.00
Add: Currency translation differences	8.02	5.97
Less: Impairment on goodwill	(278.19)	-
Less: Adjustments on account of composite scheme of arrangement (Refer Note 75)	-	(1,030.50)
Closing balance	2.00	272.17

Piramal Enterprises Limited
Notes to the consolidated financial statements (Continued)
For the year ended 31 March 2024
(Currency : ₹ in crores, unless otherwise stated)

For the purpose of impairment testing, goodwill acquired in a business combination is allocated to the cash generating units (CGU) or group of CGUs, which are benefited from the synergies of the acquisition. Goodwill is reviewed for any impairment at the operating segment, which is represented through group of CGUs.

The following table presents the allocation of goodwill to reportable segments:

Particulars	As at	
	31 March 2024	31 March 2023
Financial Services	2.00	272.17
	2.00	272.17

The recoverable amount of a CGU is the higher of its fair value less cost to sell and its value - in - use.

CGUs to which goodwill has been allocated are tested for impairment annually, or more frequently when there is indication for impairment. The financial projections basis which the future cash flows have been estimated consider (a) reassessment of the discount rates, (b) revisiting the growth rates factored while arriving at terminal value and subjecting these variables to sensitivity analysis. If the recoverable amount of a CGU is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit on a pro-rata basis of the carrying amount of each asset in the unit.

The management believes that any possible changes in the key assumptions would not cause the carrying amount to exceed the recoverable amount of cash generating unit.

Based on review of internal and external factors, the Group has reassessed the assumptions, strategy and business model pertaining to its Real Estate fund management business. Accordingly, it has impaired the related goodwill amounting to ₹ 278.19 crores during the year ended 31 March 2024 (31 March 2023: Nil) and has recorded the same under "Other expenses".

52 Movement in Provisions :

Particulars	Litigations / Disputes		Onerous Contracts	
	As at 31 March		As at 31 March	
	2024	2023	2024	2023
Balances as at the beginning of the year	3.50	3.50	-	0.08
Amount transferred as per composite scheme of arrangement (refer note 75)	-	-	-	(0.08)
Balances as at the end of the year	3.50	3.50	-	-

(a) Provision for litigation / disputes represents claims against the Group not acknowledged as debts that are expected to materialise in respect of matters under litigation. Future cash outflows are determinable only on receipt of judgments/decisions pending with various forums/authorities.

(b) Provision for Onerous contracts represents the amounts provided for contracts where the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received under it.

53 Transfer of Financial Assets

Transferred financial assets that are not derecognised in their entirety

The following tables provide a summary of financial assets that have been transferred in such a way that part or all of the transferred financial assets do not qualify for derecognition, together with the associated liabilities:

Securitisations	As at	
	31 March 2024	31 March 2023
Carrying amount of transferred assets measured at amortised cost (held as Collateral)	3,399.41	1,094.36
Carrying amount of associated liabilities (Borrowings) (other than securities)- measured at amortized cost	3,489.40	1,091.57
Fair Value of Assets	3,399.41	1,094.36
Fair Value of Associated Liabilities	3,489.40	1,091.57
Net Position at Fair Value	(89.99)	2.79

Note : Transferred Financial Assets that are derecognised in their entirety

The Group has assigned loans (earlier measured at amortized cost) by way of direct assignment. As per the terms of deals, since substantial risk and rewards related to these assets were transferred to the buyer, the assets have been de-recognised from the Group's Balance Sheet. The table below summarised the carrying amount of the derecognised financial assets.

Direct Assignment (excluding 100% direct assignment (including co-lending))	As at	
	31 March 2024	31 March 2023
Carrying amount of transferred assets measured at amortised cost	9,177.18	11,237.57
Carrying amount of exposures retained by the Group at amortized cost	1,064.07	1,415.98

54 Interests in other entities

6	India Resurgence Fund - Scheme - 4	India	50.00%
7	Pramerica Life Insurance Limited	India	50.00%

Investment in India Resurgence ARC Private Limited

India Resurgence ARC Private Limited was a wholly owned subsidiary of the Group till 18 July 2017. On 19 July 2017, the Group has entered into a joint venture agreement with Bain Capital Credit India Investments (a Group existing under the laws of the Republic of Mauritius) to sell its shares to the latter.

The contractual arrangement states that the Group and the other shareholder shall nominate one director each to the board in addition to the two independent directors. For any meeting of the board, the quorum shall be two directors provided that one director from each party is present. This gives both the parties a joint control over India Resurgence ARC Private Limited.

Hence with effect from 19 July 2017, the investment in India Resurgence ARC Private Limited is considered as investment in Joint Venture and accordingly this is accounted as per the equity method.

Investment in India Resurgence Asset Management Business Private Limited

India Resurgence Asset Management Business Private Limited was a wholly owned subsidiary of the Group till 6 February 2018. On 7 February 2018, the Group has entered into a joint venture agreement with Bain Capital Mauritius (a private limited Group incorporated in Mauritius) to sell its shares to the latter.

The contractual arrangement states that the Group and the other shareholder shall nominate one director each to the board in addition to the two independent directors. For any meeting of the board, the quorum shall be two directors provided that one director from each party is present. This gives both the parties a joint control over India Resurgence Asset Management Business Private Limited.

Hence with effect from 7 February 2018, the investment in India Resurgence Asset Management Business Private Limited is considered as investment in Joint Venture and accordingly this is accounted as per the equity method.

Investment in Asset Resurgence Mauritius Manager

Asset Resurgence Mauritius Manager is a Joint Venture between Bain Capital Credit Member LLC and Piramal Fund Management Private Limited, wholly owned subsidiary Asset Resurgence Mauritius Manager was incorporated in the Republic of Mauritius as a private Group under the Mauritius Companies Act 2001 on October 10, 2017 and holds a Category 1 Global Business License and a CIS Manager issued by the Financial Services Commission. The principal activity of Asset Resurgence Mauritius Manager is to provide investment management services.

Share of profits from Joint Ventures (including other comprehensive income)	226.93	317.72
Share of profits from Associates	-	-
Total share of profits from Associates and Joint Ventures	226.93	317.72

55 Employee Benefits :

Brief description of the Plans:

Other Long Term Employee Benefit Obligations:

Leave Encashment, which are expected to be availed or encashed beyond 12 months from the end of the year are treated as other long term employee benefits. The Group's liability is actuarially determined (using the Projected Unit Credit method) at the end of each year. Actuarial losses/ gains are recognised in the Consolidated Statement of Profit and Loss in the year in which they arise.

Long Term Service Awards are recognised as a liability at the present value of the defined benefit obligation as at the balance sheet date.

Defined Contribution plans:

The Group's defined contribution plans are Provident Fund (in case of certain employees), Superannuation, Employees State Insurance Fund and Employees' Pension Scheme (under the provisions of the Employees' Provident Funds and Miscellaneous Provisions Act, 1952). The Group has no further obligation beyond making contributions to such plans.

Post-employment benefit plans:

Gratuity for employees in India is paid as per the Payment of Gratuity Act, 1972. Employees who are in continuous service for a period of 5 years are eligible for gratuity. The amount of gratuity payable on retirement/termination is the employees last drawn basic salary per month computed proportionately for the number of years of service. The Group has both funded and non funded plans and makes contributions to recognised funds in India in case of funded plans.

The Group's Gratuity Plan is administered by an insurer and the Investments are made in various schemes of the trust. The Group funds the plan on a periodical basis.

In case of certain employees, the Provident fund is administered through an in-house trust. Periodic contributions to the trust are invested in various instruments considering the return, maturity, safety, etc., within the overall ambit of the Provident Fund Trust Rules and investment pattern notified through the Ministry of Labour investment guidelines for exempted provident funds.

These plans typically expose the Group to actuarial risks such as: investment risk, interest rate risk, longevity risk and salary risk.

Investment risk

The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds. Plan investment is a mix of investments in government securities, equity, mutual funds and other debt instruments.

Interest risk

A decrease in the bond interest rate will increase the plan liability; however, this will be partially offset by an increase in the return on the plan's debt investments.

Longevity risk

The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

Salary risk

The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

The Group has both funded and non funded plans and makes contributions to recognised funds in India in case of funded plans. The Group does not fully fund the liability and maintains a target level of funding to be maintained over a period of time based on estimations of expected gratuity payments. In respect of certain employees, Provident Fund contributions are made to a Trust administered by the Group. The contributions made to the trust are recognised as plan assets. Plan assets in the Provident fund trust are governed by local regulations, including limits on contributions in each class of investments.

The Group actively monitors how the duration and the expected yield of the investments are matching the expected cash outflows arising from the employee benefit obligations, with the objective that assets of the gratuity / provident fund obligations match the benefit payments as they fall due. Investments are well diversified, such that the failure of any single investment would not have a material impact on the overall level of assets.

A large portion of assets consists of government and corporate bonds, although the Group also invests in equities, cash and mutual funds. The plan asset mix is in compliance with the requirements of the regulations in case of Provident fund.

I. Charge to the Consolidated Statement of Profit and Loss based on Defined Contribution Plans:

Particulars	Year Ended	
	31 March 2024	31 March 2023
Employer's contribution to Regional Provident Fund Office	57.22	21.65

E. Expenses Recognized in the Other Comprehensive Income (OCI) for Current Year

Particulars	(Funded)	
	Gratuity	
	Year Ended 31 March	
	2024	2023
Actuarial (Gains)/Losses on Obligation For the Period - Due to changes in demographic assumptions	0.65	(4.32)
Actuarial (Gains)/Losses on Obligation For the Period - Due to changes in financial assumptions	0.82	0.38
Actuarial (Gains)/Losses on Obligation For the Period - Due to experience adjustment	8.33	0.62
Return on Plan Assets, Excluding Interest Income	(1.21)	1.01
Change in Asset Ceiling	-	-
Net (Income) / Expense For the Period Recognized in OCI	8.59	(2.31)

F. Significant Actuarial Assumptions:

Particulars	(Funded)					
	Gratuity		Pension		Provident Fund	
	As at 31 March		As at 31 March		As at 31 March	
	2024	2023	2024	2023	2024	2023
Discount Rate (per annum)	7.14% to 7.44%	6.84% to 7.41%	NA	NA	7.18%	7.35%
Salary escalation rate	6.5% to 10%	6.50% to 10%	NA	NA	NA	NA
Expected Rate of return on Plan Assets (per annum)	7.14% to 7.44%	6.70% to 7.41%	NA	NA	8.25%	7.35%

The expected rate of return on plan assets is based on market expectations at the closing of the year. The rate of return on long-term bonds is taken as reference for this purpose.

In case of certain employees, the Provident Fund contribution is made to a Trust administered by the Group. In terms of the Guidance note issued by the Institute of Actuaries of India, the actuary has provided a valuation of Provident fund liability based on the assumptions listed above and determined that there is no shortfall at the end of each reporting period.

G. Movements in the present value of net defined benefit obligation are as follows:

Particulars	(Funded)				(Non-Funded)	
	Gratuity		Pension		Gratuity	
	As at 31 March		As at 31 March		As at 31 March	
	2024	2023	2024	2023	2024	2023
Opening Net Liability/(asset)	13.83	35.83	-	-	-	0.71
Transfer of Liability from Non funded to Funded	-	-	-	-	-	-
Expenses Recognized in Statement of Profit or Loss	7.38	8.91	-	-	-	0.27

I. Other Details

Funded Gratuity

Particulars	As at	
	31 March 2024	31 March 2023
Number of Active Members	13,673	12,209
Per Month Salary For Active Members	28.42	22.91
Average Expected Future Service (Years)	1 to 6 Years	2 to 7 Years
Projected Benefit Obligation (PBO) (₹ In crores)	73.02	56.95
Prescribed Contribution For Next Year (12 Months) (₹ In crores)	13.88	6.08

J. Cash Flow Projection: From the Fund

Projected Benefits Payable in Future Years From the Date of Reporting	Estimated for the year ended	
	31 March 2024	31 March 2023
1st Following Year	29.68	24.08
2nd Following Year	9.75	8.37
3rd Following Year	9.08	6.50
4th Following Year	7.91	5.50
5th Following Year	6.82	4.74
Sum of Years 6 To 10 Years	17.18	13.04

The Group's Gratuity Plan is administered by an insurer and the Investments are made in various schemes of the trust. The Group funds the plan on a periodical basis.

In case of certain employees, the Provident fund is administered through an in-house trust. Periodic contributions to the trust are invested in various instruments considering the return, maturity, safety, etc., within the overall ambit of the Provident Fund Trust Rules and investment pattern notified through the Ministry of Labour investment guidelines for exempted provident funds.

Weighted average duration of the defined benefit obligation is in the range of 4-9 years (Previous year 3-10 years)

K. Sensitivity Analysis

Projected Benefit Obligation	Gratuity - Funded		Pension - Funded		Gratuity - Non Funded	
	As at 31 March 2024	As at 31 March 2023	As at 31 March 2024	As at 31 March 2023	As at 31 March 2024	As at 31 March 2023
	Impact of +1% Change in Rate of Discounting	(1.84)	(1.38)	-	-	NA
Impact of -1% Change in Rate of Discounting	1.60	1.51	-	-	NA	NA
Impact of +1% Change in Rate of Salary Increase	1.54	1.46	-	-	NA	NA
Impact of -1% Change in Rate of Salary Increase	(1.81)	(1.15)	-	-	NA	NA

The above sensitivity analyses are based on change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the balance sheet.

The estimates of future salary increases, considered in actuarial valuation, take account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

III. Compensated absences

Particulars	(Funded)	
	For the year ended 31 March	
	2024	2023
Expense recognised in the Statement of Profit and Loss	736	1527
Discount rate (p a)	7.20% p a	7.20% p a
Salary escalation rate (p a)	6.5-10% p a	6.5-10% p a
Amount recognised in the Balance Sheet		
Present Value of Benefit Obligation at the end of the year*	(29.13)	(25.39)
Fair Value of Plan Assets at the end of the year	(5.93)	(17.76)
Funded Status (surplus/ (deficit))	(23.21)	(7.63)
Net (Liability) / Asset Recognized in the Balance Sheet	(23.21)	(7.63)

*includes Short term compensated absences of Nil (31 March 2023 - ₹ 1.22 crores)

The liability for compensated absences (Non - Funded) as at year end is ₹ 16.70 crores (31 March 2023 ₹ 14.65 crores)

IV. Long term service employee benefits

The liability for Long term Service Awards (Non - Funded) as at year end is ₹ 0.17 crores (Previous year - ₹ 0.13 crores)

V. For liability for Stock options - Refer note 80

57 Capital Management

The Group's capital management strategy is to effectively determine, raise and deploy capital so as to create value for its shareholders. The same is done through a mix of either equity and/or combination of short term /long term debt as may be appropriate. The Group determines the amount of capital required on the basis of operations, capital expenditure and strategic investment plans. The capital structure is monitored on the basis of net debt to equity and maturity profile of overall debt portfolio. The primary objectives of the Group's capital management policy are to ensure that it complies with capital requirements and maintains strong credit ratings and healthy capital ratios in order to support its business and to maximise shareholder value.

The Regulated entities within the group are subject to the capital adequacy requirements of the Reserve Bank of India (RBI) and National Housing Bank (NHB). Under regulatory capital adequacy guidelines, these Companies are required to maintain a capital adequacy ratio consisting of Tier I and Tier II Capital. The minimum capital ratio as prescribed by respective regulators as applicable, consisting of Tier I and Tier II capital, shall not be less than 15% of its aggregate risk weighted assets on-balance sheet and of risk adjusted value of off-balance sheet.

The applicable group companies has complied with all regulatory requirements related capital and capital adequacy ratios as prescribed by RBI and NHB. Refer Consolidated Statement of Changes in Equity for dividend paid and proposed by the Holding Company.

58 Risk Management

Risk Management is an integral part of the Group's business strategy. The Risk Management oversight structure includes Committees of the Board and Management Committees. Group's risk philosophy is to develop and maintain a healthy portfolio which is within its risk appetite and the regulatory framework. While the Group is exposed to various types of risks, the most important among them are liquidity risk, interest rate risk, credit risk, regulatory risk and fraud and operational risk. The measurement, monitoring and management of risks remain a key focus area for the Group.

The Risk Management Committee of the Board provides direction to and monitors the quality of the internal audit function and also monitors compliance with NHB, RBI and other regulators of the group entities.

The Group's risk management strategy is based on a clear understanding of various risks, disciplined risk assessment and measurement procedures and continuous monitoring. The policies and procedures established for this purpose are continuously benchmarked with market best practices.

The Audit and Risk Management Committee of the Board ("ARMC") reviews compliance with risk policies, monitors risk tolerance limits, reviews and analyse risk exposure and provides oversight of risk across the organization. The ARMC nurtures a healthy and independent risk management function to inculcate a strong risk management culture in the Group and broadly perceives the risk arising from (i) liquidity risk; (ii) interest rate risk (iii) other price risks; (iv) foreign currency risks; (v) cash flow hedge; (vi) credit risk; (vii) regulatory risk (viii) fraud risk and operational risk

The Sustainability & Risk Management Committee of the Board ("SRMC") reviews compliance with risk policies, monitors risk tolerance limits, reviews and analyse risk exposure and provides oversight of risk across the organization. The SRMC nurtures a healthy and independent risk management function to inculcate a strong risk management culture in the Group and broadly perceives the risk arising from (i) liquidity risk; (ii) interest rate risk (iii) other price risks; (iv) foreign currency risks; (v) cash flow hedge; (vi) credit risk; (vii) regulatory risk (viii) fraud risk and operational risk

a. Liquidity Risk Management

Liquidity Risk refers to insufficiency of funds to meet the financial obligations. Liquidity Risk Management implies maintenance of sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit lines to meet obligations when due.

The Holding Company & PCHFL has formulated an Asset Liability Management Policy in line with NHB/RBI guidelines for Non- Banking Financial Companies / Housing Finance Companies. The Asset Liability Management Committee (ALCO) is responsible for the management of the companies funding and liquidity requirements. The Group's liquidity risk by maintaining sufficient cash and marketable securities, unutilised banking facilities, credit lines and by continuously monitoring forecast and actual cash flows, and by assessing the maturity profiles of financial assets and liabilities. The liquidity risk and funding function are managed by the Group's treasury team under liquidity risk management framework through various means like HQLA, liquidity buffers, sourcing of long-term funds, positive asset liability mismatch, keeping strong pipeline of sanctions from banks and assignment of loans to counter liquidity situation under the guidance of ALCO and Board.

The Group has the following undrawn credit lines available as at the end of the reporting period.

Particulars	As at	
	31 March 2024	31 March 2023
- Expiring within one year (including bank overdraft)	46.00	100.00
- Expiring beyond one year	-	-
	46.00	100.00

Note: This includes Non-Convertible Debentures, Inter Corporate Deposits and Commercial Papers where only credit rating has been obtained and which can be issued, if required, within a short period of time. Further, the facilities related to Commercial Papers are generally rolled over.

The following tables detail the Group's remaining contractual maturity for its financial liabilities with agreed repayment periods. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. The tables include both interest and principal cash flows. To the extent that interest flows are floating rate, the rate applicable as of 31 March 2024 and 31 March 2023 respectively has been considered. The contractual maturity is based on the earliest date on which the Group may be required to pay.

Maturities of Financial Liabilities	As at March 31, 2024			
	Upto 1 year	1 to 3 years	3 to 5 years	5 years & above
Borrowings	18,961.92	21,349.46	13,470.76	15,610.02
Trade Payables	294.52	-	-	-
Other Financial Liabilities	758.70	161.15	77.12	402.41
	20,015.14	21,510.61	13,547.88	16,012.43

Piramal Enterprises Limited
Notes to the consolidated financial statements (Continued)
For the year ended 31 March, 2024
(Currency : ₹ in crores, unless otherwise stated)

Maturities of Financial Liabilities	As at March 31, 2023			
	Upto 1 year	1 to 3 years	3 to 5 years	5 years & above
Borrowings	19,159.85	17,649.91	10,878.07	14,025.41
Trade Payables	399.27	-	-	-
Other Financial Liabilities	1,446.01	106.99	76.28	55.50
	21,005.13	17,756.90	10,954.35	14,080.91

The following table details the Group's expected maturity for its non-derivative financial assets. The table has been drawn up based on the undiscounted contractual maturities of the financial assets including interest that will be earned on those assets. The inclusion of information on non-derivative financial assets is necessary in order to understand the Group's liquidity risk management as the liquidity is managed on a net asset and liability basis. Hence, maturities of the relevant assets have been considered below.

Maturities of Financial Assets	As at 31 March, 2024			
	Upto 1 year	1 to 3 years	3 to 5 years	5 years & above
Investments & Loans #	23,784.24	30,403.02	16,574.45	24,128.41
Other financial assets*	899.85	-	-	64.16
Receivables	66.46	-	-	-
	24,750.55	30,403.02	16,574.45	24,192.57

Maturities of Financial Assets	As at 31 March 2023			
	Upto 1 year	1 to 3 years	3 to 5 years	5 years & above
Investments & Loans #	27,308.66	23,589.42	16,494.77	22,588.44
Other financial assets*	835.16	-	-	106.72
Receivables	19.40	-	-	-
	28,163.22	23,589.42	16,494.77	22,695.16

*to the extent considered for the group liquidity management
Investments includes Assets held for sale and Investment Property

The balances disclosed in the table above are the contractual undiscounted cash flows.

In assessing whether the going concern assumption is appropriate, the Group has considered a range of factors relating to current and expected profitability, debt repayment schedule and potential sources of replacement financing. The Group has performed sensitivity analysis on such factors considered and based on current indicators of future economic conditions; there is a reasonable expectation that the Group has adequate resources to continue in operational existence for the foreseeable future.

In case of commitments, the expected maturities are as under:

(A) Loan commitments

Particulars	As at	
	31 March 2024	31 March 2023
Commitment to invest in Loans / Inter Group Deposits including cancellable commitments	7,270.22	4,342.45

The Group has below commitments to invest in AIF in addition to above which will be invested as and when suitable investment opportunity arises:

Commitment as on 31 March 2024

Fund Name	Total Commitment (USD Mio)	Balance Commitment (USD Mio)	Total Commitment (Rs. Crores)	Balance Commitment (Rs. Crores)
Asia Real Estate Opportunities Fund	-	-	3,285.27	119.31

b. Interest rate risk and sensitivity analysis

The Group is exposed to interest rate risk as it has assets and liabilities based on both fixed and floating interest rates. The Group has an approved Asset and Liability Management Policy which empowers the Asset and Liability Management Committee (ALCO) to assess the interest rate risk run by it and provide appropriate guidelines to the Treasury to manage the risk. The ALCO reviews the interest rate risk on periodic basis and decides on the asset profile and the appropriate funding mix. The ALCO reviews the interest rate gap statement and the interest rate sensitivity analysis.

The sensitivity analysis below have been determined based on the exposure to interest rates for assets and liabilities at the end of the reporting period. For floating rate assets and liabilities, the analysis is prepared assuming the amount of the liability outstanding at the end of the reporting period was outstanding for the whole year and the rates are reset as per the applicable reset dates. The basis risk between various benchmarks used to reset the floating rate assets and liabilities has been considered to be insignificant.

The exposure of the Group's borrowing to interest rate changes at the end of the reporting period are as follows:

Particulars	As at	
	31 March 2024	31 March 2023
Variable rate borrowings	22,805.42	17,572.33
Fixed rate borrowings	30,805.66	32,010.48
	53,611.08	49,582.81

If interest rates related to borrowings had been 100 basis points higher/lower and all other variables were held constant for INR loans, the Group's

- Profit before tax for the year ended / Other Equity (pre tax) as on 31 March 2024 would decrease/increase by ₹ 228.05 crores (31 March 2023: ₹ 175.72 crores) respectively. This is attributable to the Group's exposure to borrowings at floating interest rates.

If interest rates related to loans given / debentures invested had been 100 basis points higher/lower and all other variables were held constant, the Group's :

- Profit before tax for the year ended / Other Equity (pre tax) as on 31 March 2024 would increase/decrease by ₹ 593.89 crores (31 March 2023: ₹ 577.47 Crores) respectively. This is attributable to the Group's exposure to lendings at floating interest rates.

c. Other price risks

The Group is exposed to equity price risks arising from equity investments and classified in the balances sheet at fair value through Other Comprehensive Income.

Equity price sensitivity analysis:

The table below summarises the impact of increases/decreases on the Group's Equity and OCI for the period. Analysis is based on the assumption that equity index had increased/decreased by 5% with all the other variables held constant, and these investments moved in the line with the index.

Particulars	Impact on OCI	
	As at	
	31 March 2024	31 March 2023
Equity Index, Increase by 5%	-	7.45
Equity Index, Increase by 5%	-	(7.45)

The Group has designated the following securities as FVTOCI Investments (Refer note 8):

- Shriram City Union Finance Limited (upto 9 November 2022)
- Clarivate Plc (liquidated in FY 23-24)

The Group chose this presentation alternative because the investment were made for strategic purposes rather than with a view to profit on subsequent sale, and there were no plans to dispose of these investments.

d. Foreign Currency Risk Management

The Group is exposed to foreign exchange risk arising from foreign currency transactions, primarily with respect to the USD. Foreign exchange risk arises from future commercial transactions and recognised assets and liabilities denominated in a currency that is not the Group's functional currency i.e. INR. The Group has taken foreign currency floating rate borrowing which is linked to LIBOR. The risk is measured through a forecast of highly probable foreign currency cash flows. The risk is hedged with the objective of minimising the volatility of the INR cash flows of highly probable forecast transactions.

The Group has entered into cross-currency interest rate swap (CCIRS) for the entire loan liability to manage the foreign exchange risk along with interest rate risk arising from changes in LIBOR on such borrowings. As per the Group's policy, the critical terms of hedging instrument must align with the hedged items. Also refer note 58(e) for accounting and disclosure for foreign currency borrowings, for the cash flow hedge and impact of hedge accounting on the statement of profit and loss / other comprehensive income.

Particulars of unhedged foreign currency exposures as at the reporting date

Currencies	As at 31 March 2024		As at 31 March 2023	
	Trade receivables		Trade receivables	
	FC in Millions	Rs. In Crores	FC in Millions	Rs. In Crores
USD	-	-	0.02	0.14
GBP	-	-	0.01	0.06

Holding all the variables constant

e. Accounting for cash flow hedge

The Group has taken foreign currency floating rate borrowings which are linked to LIBOR. For managing the foreign currency risk and interest rate risk arising from changes in LIBOR on such borrowings, the Group has entered into cross-currency interest rate swap (CCIRS) for the entire loan liability. The Group has designated the CCIRS (hedging instrument) and the borrowing (hedged item) into a hedging relationship and applies hedge accounting.

Under the terms of the CCIRS, the Group pays interest at the fixed rate to the swap counterparty in INR and receives the floating interest payments based on LIBOR in foreign currency. As the critical terms of the hedged item and the hedging instrument (notional, interest periods, underlying and fixed rates) are matching and the interest cashflows are off-setting, an economic relationship exists between the two. This ensures that the hedging instrument and hedged item have values that generally move in the opposite direction.

As at 31 March 2024, the Group has invested in floating rate government securities/bonds which are linked to treasury bill rate. For managing the interest rate risk arising from changes in treasury bill rate on such investments, the company has entered into an interest rate swaps (IRS) for the investments. The Group has designated the IRS (hedging instrument) and the investment (hedged item) into a hedging relationship and applied hedge accounting.

Under the terms of the IRS, the Group receives interest at fixed rate and pays interest at the floating rate based on daily compounded overnight FBIL MIBOR. As the critical terms of the hedged item and the hedging instrument (notional, interest periods, underlying fixed rates) are not exactly matched, the Group uses the hypothetical derivative method to assess effectiveness. The interest cash flows of the hypothetical derivative and interest rate swap are off-setting, an economic relationship exists between the two. This ensures that the hedging instrument (interest rate swap) and hedged item (hypothetical derivative) have values that generally move in the opposite direction.

Hedge Effectiveness Testing is assessed at designation date of the hedging relationship, and on an ongoing basis. The ongoing assessment is performed at a minimum at each reporting date or upon a significant change in circumstances affecting the hedge effectiveness requirements, whichever comes first.

Following table provides quantitative information regarding the hedging instrument as on 31 March 2024.

Type of hedge and risks	Nominal value	Carrying amount of hedging instruments (included under "Financial assets")	Maturity date	Hedge ratio	Average contracted fixed interest rate	Changes in fair value of hedging instrument used as the basis for recognising hedge effectiveness	Changes in the value of hedged item used as the basis for recognising hedge effectiveness
Cash Flow Hedge							
Cash Flow Hedge Foreign currency and Interest rate risk	261.32	51.12	Jun-24	1:1	9.30%	3.56	(3.56)
Cash Flow Hedge - Interest rate risk	175.00	2.86	Sep-33	1:1	6.67%	0.57	(0.59)
Cash Flow Hedge - Interest rate risk	25.00	0.20	Aug-33	1:1	6.54%	0.46	(0.44)

Following table provides the effects of hedge accounting on financial performance for the year ended 31 March 2024.

Type of hedge	Changes in the value of hedging instruments recognised in Other comprehensive income	Hedge ineffectiveness recognised in profit or loss	Amount reclassified from cash flow hedge reserve to profit or loss	Line-item affected in statement of profit or loss because of reclassification
Cash flow hedge				
Interest Rate risk and Foreign Exchange Risk	3.49	13.31	(0.88)	Finance Cost/Interest income
			(5.28)	Foreign Exchange (gain)/loss

Following table provides quantitative information regarding the hedging instrument as on 31 March, 2023.

Type of hedge and risks	Nominal value	Carrying amount of hedging instruments (included under "Financial assets")	Maturity date	Hedge ratio	Average contracted fixed interest rate	Changes in fair value of hedging instrument used as the basis for recognising hedge effectiveness	Changes in the value of hedged item used as the basis for recognising hedge effectiveness
Cash Flow Hedge							
Foreign currency and Interest rate risk	522.64	95.12	Jun-24	1:1	9.30%	67.64	57.19
Cash Flow Hedge - Interest rate risk	125.00	2.99	Sep-23	1:1	6.76%	4.14	(4.29)

Following table provides the effects of hedge accounting on financial performance for the year ended 31 March 2023.

Type of hedge	Changes in the value of hedging instruments recognised in Other comprehensive income	Hedge ineffectiveness recognised in profit or loss	Amount reclassified from cash flow hedge reserve to profit or loss	Line-item affected in statement of profit or loss because of reclassification
Cash flow hedge				
Interest Rate risk and Foreign Exchange Risk	70.63	-	(8.48)	Finance Cost
			(48.71)	Foreign Exchange (gain)/loss

The table below provides a profile of the timing of the nominal amounts of the Company's hedging instruments (based on residual tenor) along with the rate as applicable by risk category.

	As at 31 March 2024			
	Total	Less than 1 year	1-5 years	Over 5 years
Foreign currency risk:				
Net exposure (in INR)	261.32	261.32	-	-
INR USD forward contract rate	70	70	-	-
Interest rate risk:				
Net exposure (in INR)	0.15	(0.18)	0.28	0.06
Average fixed interest rate	9.30%	9.30%	9.30%	9.30%
Interest rate risk:				
Net exposure (in INR)	1.65	(0.09)	1.20	0.54
Average fixed interest rate	6.54% - 6.67%	6.54% - 6.67%	6.54% - 6.67%	6.54% - 6.67%

e. Accounting for cash flow hedge

As at 31 March 2023				
	Total	Less than 1 year	1-5 years	Over 5 years
Foreign currency risk:				
Net exposure (in INR)	522.64	261.32	261.32	-

Average fixed interest rate	9.30%	9.30%	9.30%	9.30%
Interest rate risk:				
Net exposure (in INR)	3.17	0.03	2.78	0.36
Average fixed interest rate	6.76%	6.76%	6.76%	6.76%

The following table provides a reconciliation by risk category of the components of equity and analysis of OCI items resulting from hedge accounting

Particulars	Movement in Cash flow hedge reserve for the years ended	
	31 March 2024	31 March 2023
Opening balance	3.81	(6.25)
Effective portion of changes in fair value:		
a) Interest rate and foreign currency risk	3.49	70.63
Tax on movements on reserves during the year	(0.88)	(17.78)
Net amount reclassified to profit or loss:		
a) Interest rate risk	0.88	8.48
b) Foreign currency risk	5.28	48.71
Tax on movements on reserves during the year	(1.54)	(14.39)
Closing balance	1.80	3.81

(f) Credit Risk

The Group is exposed to Credit Risk through its lending activity. Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the Group. The Group has adopted a policy of dealing with creditworthy counterparties and obtaining sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults.

Retail lending:

For retail lending the credit policy has been reviewed and approved by Risk Team. The Credit Risk management structure includes credit policies and procedures. The Credit Policy defines customer segments, income assessment criteria, underwriting standards, target market definition, appraisal and approval processes, product limits, Delegation of Authority metrics (DoA) and cover risk assessment for product offerings etc. to ensure consistency of credit buying patterns.

Wholesale lending:

The Group's Risk management team has developed proprietary internal rating models to evaluate risk return trade-off for the loans and investments made by the Group. The output of traditional credit rating model is an estimate of probability of default. These models are different from the traditional credit rating models as they integrate both probability of default and loss given default into a single model.

Credit Risk Management

For retail lending business, credit risk management is achieved by considering various factors like:

- Assessment of borrower's capability to pay – detailed assessment of borrower's capability to pay is conducted. The approach to the assessment is uniform across the entire Group and is spelt out in the Credit Policy. For construction finance deals, the underlying project, the financial capability, past track record of repayments of the promoters is assessed by an independent risk team.
- Security cover – this is an assessment of the value of security under stress scenario which is further adjusted for factors like liquidity, enforceability, transparency in valuation, etc of the collateral.
- Geographic region – the Group monitors loan performances in a particular region to assess if there is any stress due to natural calamities, etc impacting the performance of loans in a particular geographic region

For wholesale lending business, credit risk management is achieved by considering various factors like :

- Promoter strength – This is an assessment of the promoter from financial, management and performance perspective.
- Industry & micro-market risk – This is an assessment of the riskiness of the industry and/or micro-market to which the borrower/project belongs
- Project risk – This is an assessment of the standalone project from which interest servicing and principal repayment is expected to be done.
- Structure risk – This is an assessment of the loan structure which is characterized by its repayment tenor, moratorium, covenants, etc.
- Security cover – This is an assessment of the value of the security under stress scenario which is further adjusted for factors like liquidity, enforceability, transparency in
- Exit – This is an assessment of the liquidity of the loan or investment.

Each of the above components of the risk analysis are assigned a specific weight which differ based on type of loan. The weights are then used with the scores of individual components for conversion to a risk rating.

Based on the above assessment the risk team categorises the deals in to the below Risk Grades

Risk Grading	Description
Dark Green	Extremely good loan
Green	Good loan
Yellow	Moderate loan
Amber	Weak loan
Red	Extremely weak loan

Further, a periodic review of the performance of the portfolio is also carried out by the Risk Group. The Risk Group adjusts the stress case considered during the initial approval based on actual performance of the deal, developments in the sector, regulatory changes etc. The deal level output is combined to form a portfolio snapshot. The trends from portfolio are used to provide strategic inputs to the management.

The credit risk on liquid funds and other financial instruments is limited because the counterparties are banks with high credit-ratings assigned credit-rating agencies or mutual funds.

Provision for Expected Credit Loss

The Group has assessed the credit risk associated with its financial assets for provision of Expected Credit Loss (ECL) as at the reporting dates. The Group makes use of various reasonable supportive forward looking parameters which are both qualitative as well as quantitative while determining the change in credit risk and the probability of default. These parameters have been detailed out in Note No.vi of Significant Accounting Policies. Based on the result yielded by the above assessment the Financial assets are classified into (1) Standard (Performing) Asset, (2) Significant Credit Deteriorated (Under-Performing) Asset (3) Default (Non-Performing) Asset (Credit Impaired).

For the purpose of expected credit loss analysis the Group defines default as any asset with more than 90 days overdues. This is also as per the rebuttable presumption provided by the standard.

The Group provides for expected credit loss based on the following:

Category - Description	Stage	Basis for Recognition of Expected Credit Loss
Very high quality liquid assets	Stage 1	No ECL
Assets for which credit risk has not significantly increased from initial recognition	Stage 1	12 month ECL
Assets for which credit risk has increased significantly but not credit impaired	Stage 2	Life time ECL
Assets for which credit risk has increased significantly and credit impaired	Stage 3	Loss Given Default (LGD)

For the year ended 31 March 2024 and 31 March 2023 the Group has developed a PD Matrix after considering some parameters as stated below :

The key parameters for various scorecards are highlighted as follows -Real Estate products (Construction Finance, Structured Debt, LRD) - (1) Developer Grade (2) Past Overdue History (3) Tenant profile (4) Status from monthly Asset Monitoring report (5) Stage of the project (6) Geography etc. Some of the Parameters for Non Real Estate products (Senior lending, mezzanine, project finance etc) - (1) Sponsor strength (2) Overdues (3) Average debt service coverage ratio (4) Regulatory Risk (5) Stability of EBITDA (6) Quality of underlying assets etc. Based on these parameters the Company has computed the PD. The Company has also built in model scorecards to determine the internal LGD. However, due to lack of default history to statistically substantiate the internal LGD, the Company has made use of a combination of both internal as well as external LGD. The Company also maintains Expected Credit Loss for undisbursed limits after applying the credit conversion factor (CCF). CCF for these limits is computed based on historical default trends observed across various products.

i) Expected Credit Loss as at the end of the reporting period:

As at 31 March 2024				
Particulars	Asset Group	Exposure at Default	Expected Credit Loss	Net amount
Assets for which credit risk has not significantly increased from initial recognition	Investments at amortised cost	819.03	19.32	799.72
	Loans at amortised cost	50,293.10	1,508.22	48,784.89
Assets for which credit risk has increased significantly but are not credit impaired	Investments at amortised cost	-	-	-
	Loans at amortised cost	4,460.82	927.87	3,532.95
Assets for which credit risk has increased significantly and are credit impaired	Investments at amortised cost	18.33	18.33	-
	Loans at amortised cost	1,411.60	916.11	495.49
Purchased or Originated credit impaired (POCI)	Loans at amortised cost	1,020.26	-	1,020.26
Total		58,023.14	3,389.85	54,633.31

As at 31 March 2023				
Particulars	Asset Group	Exposure at Default	Expected Credit Loss	Net amount
Assets for which credit risk has not significantly increased from initial recognition	Investments at amortised cost	2,629.64	116.93	2,512.71
	Loans at amortised cost	40,571.88	1,416.12	39,155.76
Assets for which credit risk has increased significantly but are not credit impaired	Investments at amortised cost	710.34	99.04	611.30
	Loans at amortised cost	4,842.27	1,276.11	3,566.16
Assets for which credit risk has increased significantly and are credit impaired	Investments at amortised cost	451.98	248.10	203.88
	Loans at amortised cost	1,531.19	729.70	801.49
Purchased or Originated credit impaired (POCI)	Loans at amortised cost	1,425.00	-	1,425.00
Total		52,162.30	3,886.00	48,276.30

During the year ended 31 March 2023, pursuant to review by the Risk Management Committee ('RMC') and considering economic environment, a management overlay of ₹ 600.07 crores was recognised, of which ₹ 217 crores was continuing as on 31 March 2024.

During the quarter ended 31 March 2024, to cover for any possible uncertainties in the near future, the Group has created additional management overlay provision on certain real estate wholesale portfolio amounting to ₹ 729 crores. This has been duly approved by the RMC and the Board of Directors of the respective companies. The total management overlay as on 31 March 2024 was ₹ 946 crores.

Gross Carrying Value represents instruments valued at amortised cost.

ii) Reconciliation of Loss Allowance

For the year ended 31 March 2024				
Investments and Loans	Loss allowance measured at 12 month expected losses	Loss allowance measured at life-time expected losses		
		Financial assets for which credit risk has increased significantly and not credit-impaired	Financial assets which are credit-impaired	Purchased or Originated credit impaired (POCI)
Balance at the beginning of the year	1,533.05	1,375.15	977.80	-
Transferred to 12-month ECL	69.19	(41.68)	(27.51)	-
Transferred to Lifetime ECL not credit impaired	(152.81)	157.68	(4.87)	-
Transferred to Lifetime ECL credit impaired	(85.33)	(33.26)	118.59	-
Bad debts written off	(130.56)	(406.65)	(637.12)	-
<u>Charge to Statement of Profit and Loss</u>				
On Account of Rate Change	56.66	192.40	575.18	-
On Account of Disbursements	484.87	68.16	141.13	-
On Account of Repayments	(247.53)	(383.93)	(208.76)	-
Balance at the end of the year	1,527.54	927.87	934.44	-

For the year ended 31 March 2023				
Investments and Loans	Loss allowance measured at 12 month expected losses	Loss allowance measured at life-time expected losses		
		Financial assets for which credit risk has increased significantly and not credit-impaired	Financial assets which are credit- impaired	Purchased or Originated credit impaired (POCI)
Balance at the beginning of the year	1,008.32	1,372.83	1,229.99	-
Transferred to 12-month ECL	9.33	(4.09)	(5.26)	-
Transferred to Lifetime ECL not credit impaired	(158.48)	160.13	(1.65)	-
Transferred to Lifetime ECL credit impaired	(81.66)	(11.37)	93.03	-
Bad debts written off	(20.21)	(1,255.48)	(894.29)	-
Charge to Statement of Profit and Loss				
On Account of Rate Change	471.41	1,016.29	753.21	-
On Account of Disbursements	518.70	136.21	76.68	-
On Account of Repayments	(214.36)	(39.37)	(273.91)	-
Balance at the end of the year	1,533.05	1,375.15	977.80	-

iii) **Expected Credit Loss on undrawn loan commitments / letter of comfort:**

Particulars	31 March 2024	31 March 2023
Opening balance	78.26	113.72
Movements during the year	(39.11)	(35.46)
Closing balance	39.15	78.26

- iv) The amounts of Financial Assets outstanding in the Balance Sheet along with the undisbursed loan commitments and letter of comforts issued (refer note 58 (a)) as at the end of the reporting period represent the maximum exposure to credit risk.

Description of Collateral held as security and other credit enhancements

The Group has set benchmarks on appropriate level of security cover for various types of deals. The Group periodically monitors the quality as well as the value of the security to meet the prescribed limits. The collateral held by the Group varies on case to case basis and includes:

- First / Subservient charge on the Land and / or Building of the project or other projects
 - First / Subservient charge on the fixed and current assets of the borrower
 - Hypothecation over receivables from funded project or other projects of the borrower
 - Pledge on Shares of the borrower or their related parties
 - Pledge on investment in shares made by borrower entity
 - Guarantees of Promoters / Promoter Undertakings
 - Post dated / Undated cheques
- v) The credit impaired assets as at the reporting dates were secured by charge on land, building, properties, vehicles and project receivables amounting to:

Particulars	As at 31 March 2024	As at 31 March 2023
Value of Security	1,001.51	1,454.29

g. Regulatory risk:

The Group requires certain statutory and regulatory approvals for conducting business and failure to obtain retain or renew these approvals in a timely manner, may adversely affect operations. Any change in laws or regulations made by the government or a regulatory body that governs the business of the Company may increase the costs of operating the business, reduce the attractiveness of investment and / or change the competitive landscape.

h. Fraud risk and operational risk:

Operational risk refers to the potential loss or disruption resulting from inadequate or failed internal processes, people, systems, or external events. It encompasses risks related to human error, technology failures, legal and compliance issues, and business continuity disruptions that can impact the operations of a finance company.

Operational Risk Management policy provides the structure and techniques that will facilitate consistent functioning of Operational Risk Management (ORM) framework. This Policy is focused on Operational Risk arising on account of People, Process, Systems, and external events. Company has Operational Risk Management Committee (ORMC) consisting of senior executives which monitors the ORM framework.

Fraud Risk Management policy focuses on prevention, detection, investigation of fraud and actions that the Group should take in the event of fraud. Company has formulated Fraud Risk Management Committee (FRMC) consisting of senior executives. The group has also established a channel for employees to report frauds and related concern in timely manner.

The Group has a robust Risk Management framework to identify, measure and mitigate business risks and opportunities. This framework seeks to create transparency, minimize adverse impact on the business strategy and enhance the Group's competitive advantage. This risk framework thus helps in managing market, credit, operational and fraud risks and quantifies potential impact at Group level.

The Group has an elaborate system of internal audit commensurate with the size, scale and complexity of its operations and covers funding operations, financial reporting, fraud control and compliance with laws and regulations.

59 Income taxes relating to operations

a) Tax expense recognised in statement of profit and loss

	Year ended	
	31 March 2024	31 March 2023
Current tax :		
In respect of the current year	54.68	2.69
In respect of prior years	(544.79)	(3,327.21)
	<u>(490.11)</u>	<u>(3,324.52)</u>
Deferred tax:		
Deferred Tax, net	(1,104.76)	(743.90)
	<u>(1,104.76)</u>	<u>(743.90)</u>
Total tax expense recognised	<u>(1,594.87)</u>	<u>(4,068.42)</u>

b) Tax (expense)/ benefits recognised in other comprehensive income

	Year ended	
	31 March 2024	31 March 2023
Deferred tax		
Arising on income and expenses recognised in other comprehensive income		
Exchange loss on long term loans transferred to OCI	-	(4.26)
Fair value remeasurement of hedging instruments entered into for cash flow hedges	0.68	3.38
Changes in fair values of equity and debt instruments	(20.27)	(14.05)
Remeasurement of defined benefit obligation	2.20	0.67
Total tax expense recognised	<u>(17.39)</u>	<u>(14.26)</u>

c) Deferred tax balances

	As at	
	31 March 2024	31 March 2023
The following is the analysis of deferred tax assets / (liabilities) presented in the consolidated Balance sheet		
Deferred tax assets (net)	2,875.55	1,847.18
	<u>2,875.55</u>	<u>1,847.18</u>

Deferred tax assets and liabilities are recognized for the future tax consequences of temporary differences between the carrying values of assets and liabilities and their respective tax bases, and unutilized business loss and depreciation carry-forwards and tax credits. Deferred tax assets are recognized to the extent that it is probable that future taxable income will be available against which the deductible temporary differences, unused tax losses, depreciation carry-forwards and unused tax credits could be utilized.

Movement of deferred tax during the year ended 31 March 2024

Particulars	Opening balance	Recognised in statement of profit and loss	Foreign Currency Translation Impact	Recognised in other comprehensive income	Others	Closing balance
Deferred tax (liabilities) / assets in relation to:						
Measurement of financial assets / liabilities at amortised cost / fair value	(96.19)	189.80	-	(18.79)	(59.00)	15.82
Provision for expected credit loss on financial & non-financial assets (including commitments and other provisions)	1,064.51	571.11	-	-	-	1,635.62
Receivable on assigned loans	(76.12)	(27.12)	-	-	-	(103.24)
Disallowances for items allowed on payment basis	47.94	(0.89)	-	1.40	-	48.45
Property, Plant and Equipment, intangible assets and right of use assets	21.33	(4.66)	-	-	-	16.67
Business & brought forward losses	867.31	367.89	-	-	-	1,235.20
Other temporary differences	18.40	8.63	-	-	-	27.03
Total	1,847.18	1,104.76	-	(17.39)	(59.00)	2,875.55

Movement of deferred tax during the year ended 31 March 2023

Property, Plant and Equipment, intangible assets and right of use assets	(347.95)	78.72	-	-	290.56	21.33
Brought forward losses	319.56	867.31	-	-	(319.56)	867.31
Other temporary differences	10.17	(9.90)	-	(23.09)	41.22	18.40
Total	1,175.72	743.90	-	14.26	(86.70)	1,847.18

* Refers to Acquisition through Business combination (refer note 70) and divestments as per composite scheme of arrangement (refer note 75)

59 Income taxes relating to operations

The income tax expense for the year can be reconciled to the accounting profit as follows:

Particulars	Year ended		Effective tax rate reconciliation	
	31 March 2024	31 March 2023	31 March 2024	31 March 2023
Consolidated loss before tax and after exceptional items *	(3,432.13)	(2,862.03)		
Income tax expense / (credit) calculated at 25.17%	(863.87)	(720.37)	25.17%	25.17%
Effect of expenses / (incomes) that are not deductible / (allowable) in determining taxable profit	21.48	50.69	-0.63%	-1.77%
Permanent / temporary differences for which no deferred income tax was recognised	(36.49)	11.50	1.06%	-0.40%
Effect of capital gains on sale of investments in shares of Investment	(40.00)	(73.31)	1.17%	2.56%
Additional Deferred tax assets on Business Losses	(232.10)	-	6.76%	0.00%
Tax credit not recognised on losses	106.72	-	-3.11%	0.00%
Others	(5.82)	(9.72)	0.17%	0.34%
Income tax expense / (credit) recognised in statement of profit and loss	(1,050.08)	(741.21)	30.60%	25.90%
Tax adjustment for earlier years	(544.79)	(3,327.21)		
Total Income tax expense / (credit) recognised in the statement of profit and loss	(1,594.87)	(4,068.42)		
Effective tax rate	30.60%	25.90%		

*Including exceptional item of ₹2,086.59 crores (31 March 2023 ₹397.83 crores)

The tax rate used for the reconciliations above is the corporate tax rate of 25.17%, payable by corporate entities in India on taxable profits under tax law in Indian jurisdiction

In assessing the realizability of deferred tax assets, the Group considers the extent to which it is probable that the deferred tax asset will be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable profits during the periods in which those temporary differences and tax loss carry-forwards become deductible. The Group considers the expected reversal of deferred tax liabilities, projected future taxable income and tax planning strategies in making this assessment. Based on this, the Group believes that it is probable that the Group will realize the benefits of these deductible differences. The amount of deferred tax asset considered realizable, however, could be reduced in the near term if the estimates of future taxable income during the carry-forward period are reduced. Based on the level of historical taxable income and projections for future taxable income over the periods in which the deferred income taxes are deductible, the Group believes that it is probable that the Group will realize the benefits of this deferred tax asset. The amount of deferred tax asset considered realizable, however, could be reduced in the near term if the estimates of future taxable income during the carry-forward period are reduced.

Deferred income taxes are not recognised on the undistributed earnings of subsidiaries, associates or joint ventures, where it is expected that the earnings will not be distributed in the foreseeable future or where the tax credit can be availed by the Group.

During the year ended 31 March 2023, Piramal Capital & Housing Limited ('PCHFL') had received an Assessment Order under section 143(3) of the Income Tax Act, 1961 from Income Tax Department for the financial year ended 31 March 2021 wherein PCHFL's submissions relating to the above said matters were accepted by the Assessing Officer. Further, for financial year ended 31 March 2020, the assessment is time barred as per Section 153 of the Income Tax Act 1961. Accordingly, the Group has reversed the provision of ₹ 3,327.54 crores (Out of the total contingent tax liabilities provided earlier of ₹ 3,437 crores) and disclosed the same as "Tax adjustments of earlier years" in these financial statements.

During the current year, PCHFL has reversed excess provision for tax of ₹405.25 crores for assessment year 2022-23 post receipt of assessment order. Further, the Group has recognised tax refund for eDHFL for assessment year 2020-21 from income tax department of ₹124.07 crores as "Tax adjustments of earlier years".

59 Income taxes relating to operations

a) Tax expense recognised in statement of profit and loss

	Year ended	
	31 March 2024	31 March 2023
Current tax :		
In respect of the current year	54 68	2 69
In respect of prior years	(544 79)	(3,327 21)
	<u>(490.11)</u>	<u>(3,324.52)</u>
Deferred tax:		
Deferred Tax, net	(1,104 76)	(743 90)
	<u>(1,104.76)</u>	<u>(743.90)</u>
Total tax expense recognised	<u>(1,594.87)</u>	<u>(4,068.42)</u>

b) Tax (expense)/ benefits recognised in other comprehensive income

	Year ended	
	31 March 2024	31 March 2023
Deferred tax		
Arising on income and expenses recognised in other comprehensive income		
Exchange loss on long term loans transferred to OCI	-	(4 26)
Fair value remeasurement of hedging instruments entered into for cash flow hedges	0 68	3 38
Changes in fair values of equity and debt instruments	(20 27)	(14 05)
Remeasurement of defined benefit obligation	2 20	0 67
Total tax expense recognised	<u>(17.39)</u>	<u>(14.26)</u>

c) Deferred tax balances

	As at	
	31 March 2024	31 March 2023
The following is the analysis of deferred tax assets / (liabilities) presented in the consolidated Balance sheet		
Deferred tax assets (net)	2,875 55	1,847 18
	<u>2,875.55</u>	<u>1,847.18</u>

Deferred tax assets and liabilities are recognized for the future tax consequences of temporary differences between the carrying values of assets and liabilities and their respective tax bases, and unutilized business loss and depreciation carry-forwards and tax credits. Deferred tax assets are recognized to the extent that it is probable that future taxable income will be available against which the deductible temporary differences, unused tax losses, depreciation carry-forwards and unused tax credits could be utilized.

Movement of deferred tax during the year ended 31 March 2024

Particulars	Opening balance	Recognised in statement of profit and loss	Foreign Currency Translation Impact	Recognised in other comprehensive income	Others	Closing balance
Deferred tax (liabilities) / assets in relation to:

Effective tax rate	30.60%	25.90%		

*Including exceptional item of ₹2,086.59 crores (31 March 2023 ₹397.83 crores)

The tax rate used for the reconciliations above is the corporate tax rate of 25.17%, payable by corporate entities in India on taxable profits under tax law in Indian jurisdiction

In assessing the realizability of deferred tax assets, the Group considers the extent to which it is probable that the deferred tax asset will be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable profits during the periods in which those temporary differences and tax loss carry-forwards become deductible. The Group considers the expected reversal of deferred tax liabilities, projected future taxable income and tax planning strategies in making this assessment. Based on this, the Group believes that it is probable that the Group will realize the benefits of these deductible differences. The amount of deferred tax asset considered realizable, however, could be reduced in the near term if the estimates of future taxable income during the carry-forward period are reduced. Based on the level of historical taxable income and projections for future taxable income over the periods in which the deferred income taxes are deductible, the Group believes that it is probable that the Group will realize the benefits of this deferred tax asset. The amount of deferred tax asset considered realizable, however, could be reduced in the near term if the estimates of future taxable income during the carry-forward period are reduced.

Deferred income taxes are not recognised on the undistributed earnings of subsidiaries, associates or joint ventures, where it is expected that the earnings will not be distributed in the foreseeable future or where the tax credit can be availed by the Group.

During the year ended 31 March 2023, Piramal Capital & Housing Limited ('PCHFL') had received an Assessment Order under section 143(3) of the Income Tax Act, 1961 from Income Tax Department for the financial year ended 31 March 2021 wherein PCHFL's submissions relating to the above said matters were accepted by the Assessing Officer. Further, for financial year ended 31 March 2020, the assessment is time barred as per Section 153 of the Income Tax Act 1961. Accordingly, the Group has reversed the provision of ₹ 3,327.54 crores (Out of the total contingent tax liabilities provided earlier of ₹ 3,437 crores) and disclosed the same as "Tax adjustments of earlier years" in these financial statements.

During the current year, PCHFL has reversed excess provision for tax of ₹405.25 crores for assessment year 2022-23 post receipt of assessment order. Further, the Group has recognised tax refund for eDHL for assessment year 2020-21 from income tax department of ₹124.07 crores as "Tax adjustments of earlier years".

60 Fair Value Measurement

a) Financial Instruments by category :

Particulars	31 March 2024			31 March 2023		
	FVTPL	FVTOCI	Amortised Cost	FVTPL	FVTOCI	Amortised Cost
Financial Assets						
Investments (Gross of Expected Credit Loss) *	7,908.46	190.71	2,420.27	14,427.76	1,596.27	5,134.31
Loans (Gross of Expected Credit Loss)*	1,110.16	-	57,185.78	1,446.22	-	48,372.72
Cash & Bank Balances # ^	-	-	4,446.80	-	-	4,649.08

Other Financial Liabilities #	-	-	1,399.38	-	-	1,684.78
	-	-	55,304.98	-	-	51,666.86

* Loans and investments at amortised cost are disclosed in above table before ECL provision

The Group has not disclosed the fair value of cash & cash equivalents, bank balances, other financial assets, trade payables and other financial liabilities, because their carrying amounts are a reasonable approximation of fair value

Investments in an associate (except for held for sale which are measured in accordance with IND AS 105) and joint venture companies are accounted using Equity method and therefore the above disclosure is not applicable for the same

^ Cash & Bank Balances comprises of cash & cash equivalents and other bank balances

b) Fair Value Hierarchy and Method of Valuation

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the group has classified its financial instruments into the three levels prescribed under the applicable Indian Accounting Standard. An explanation of each level follows underneath the table.

Particulars	31 March 2024					
	Notes	Carrying Value	Level 1	Level 2	Level 3	Total
Financial Assets						
Measured at FVTPL - Recurring Fair Value Measurements						
Investments						
Investments in Shares	ii & iv	7.02	-	-	7.02	7.02
Investment in Debentures	i & ii	394.01	-	-	394.01	394.01
Investments in Mutual Funds	ii	231.11	231.11	-	-	231.11
Investment in Alternative Investment Funds	vi	1,361.39	-	-	1,361.39	1,361.39
Investments - Others	i, iv & vi	5,914.93	-	-	5,914.93	5,914.93
Loans						
Term Loans	i	1,110.16	-	-	1,110.16	1,110.16
Measured at FVTOCI						
Derivative Financial Assets	iii	54.18	-	54.18	-	54.18
Investments	ii	190.71	-	-	190.71	190.71
Measured at Amortised Cost for which fair values are disclosed						
Investments (Gross of Expected Credit Loss)	iv	2,420.27	1,580.91	-	3,403.14	4,984.04
Loans						
Term Loans (Gross of Expected Credit Loss)	iv	57,185.78	-	-	60,251.47	60,251.47

Financial Liabilities						
Measured at Amortised Cost for which fair values are disclosed						
Borrowings (Gross)	v	49,582.81	-	-	48,851.77	48,851.77

Except for those financial instruments for which the carrying amounts are mentioned in the above table, the Group considers that the carrying amounts recognised in the financial statements approximate their fair values. For financial assets that are measured at fair value, the carrying amounts are equal to the fair values.

Level 1 Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments, traded bonds and mutual funds that have quoted price. The fair value of all equity instruments (including bonds) which are traded in the stock exchanges is valued using the closing price as at the reporting period. The mutual funds are valued using the closing NAV.

Level 2 The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3 If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities, contingent consideration, Debentures, Term Loans, investment in Alternate Investment Funds and ICDs included in level 3.

Valuation techniques used to determine the fair values:

- i Discounted cash flow method has been used to determine the fair value. The yield used for discounting has been determined based on trades, market polls, levels for similar issuer with same maturity, spread over matrices, etc. For instruments where the returns are linked to the share price of the investee company the equity price has been derived using Monte Carlo simulation and local volatility model using the inputs like spot rate, volatility surface, term structures and risk free rates from globally accepted third party vendor for these data.
- ii This includes listed equity instruments, non convertible debentures and mutual funds which are fair valued using quoted prices and closing NAV in the market.
- iii This includes forward exchange contracts and cross currency interest rate swap. The fair value of the forward exchange contract is determined using forward exchange rate at the balance sheet date. The fair value of cross currency interest rate swap is calculated as the present value of future cash flow based on observable yield curves and forward exchange rates.
- iv Discounted cash flow method has been used to determine the fair value. The discounting factor used has been arrived at after adjusting the rate of interest for the financial assets and financial liabilities by the difference in the G-SEC rates from date of initial recognition to the reporting dates.
- v Fair values of borrowings are based on discounted cash flow using a current borrowing rate. They are classified as Level 3 values hierarchy due to the use of unobservable inputs, including own credit risk. The discounting factor used has been arrived at after adjusting the rate of interest for the financial liabilities by the difference in the Government Securities rates from date of initial recognition to the reporting dates.
- vi Investments in Alternative Investment Funds (other than those covered in RBI Circular as explained in 66) and Security Receipts is valued basis the Net Asset Value (NAV), with appropriate adjustments as required by Ind AS 113. The Group obtains valuation of the Security Receipts on a 6-monthly basis as permitted under regulatory requirements.

c) Fair value measurements using significant unobservable inputs (level 3)

The following table presents the changes in level 3 items for the period ended 31 March 2024 and 31 March 2023

Particulars	Term loans	Debentures	Other Investments	Total
As at 1 April 2022	3,057.26	2,960.43	4,956.85	10,974.54
Transfer in/ (Out)	-	-	1,192.13	1,192.13
Realisations / impairment	(310.03)	(515.68)	(116.46)	(942.17)
Gains / (Losses) recognised in profit or loss/ Other comprehensive income	250.15	(63.52)	(397.33)	(210.70)
Acquisitions / Disposals / reclassifications during the year (net)	(1,551.16)	(1,809.61)	4,793.18	1,432.40
As at 31 March 2023	1,446.22	571.62	10,428.37	12,446.21
Transfer in/ (Out)	-	-	-	-
Realisations / impairment / Regulatory provisions*	(103.55)	(348.11)	(3,274.99)	(3,726.65)
Gains / (Losses) recognised in profit or loss/ Other comprehensive income	265.31	(129.51)	(740.19)	(604.39)
Acquisitions / Disposals / reclassifications during the year (net)	(497.82)	300.01	1,060.86	863.05
As at 31 March 2024	1,110.16	394.01	7,474.05	8,978.22

* Includes regulatory provision on investments in AIF's (refer note 66)

d) Valuation Process

The Group engages external valuation consultants to fair value below mentioned financial instruments measured at FVTPL. The main level 3 inputs used for investment in AIF / Venture capital fund, contingent consideration, term loans and debentures are as follows:

1) For Non-convertible Debentures, Waterfall approach has been used to arrive at the yields for securities held by the Group. For determining the equity prices Monte Carlo simulations and local volatility model using the inputs like spot rate, volatility surface, term structures and risk free rates from globally accepted 3rd party vendor for these data have been used.

The current market borrowing rates of the Group are compared with relevant market matrices as at the reporting dates to arrive at the discounting rates.

For determining the equity prices Monte Carlo simulations and local volatility model using the inputs like spot rate, volatility surface, term structures and risk free rates from globally accepted 3rd party vendor for these data have been used.

2) For Preference Shares and Optionally Convertible Debentures, considered the value as maximum of debt value or equity value as on valuation date. For computation of debt value, discounted cash flow method has been used. For computation of equity value, market approach - comparable company multiple approach, the price to earnings multiple of peer companies in particular has been used.

e) Sensitivity for instruments:

The following table summarises the valuation techniques together with the significant unobservable inputs used to measure Level 3 financial assets. Relationships between unobservable inputs (discount rate and projected cash flows) have been incorporated in this table.

	Fair Value of Level 3 financial asset	Reporting Date	Increase / (Decrease) in the unobservable input	Sensitivity Impact on statement of profit and loss	
				Favourable	Unfavourable
Discounted Cash Flow Model	8,978.22	31 March 2024	2.00%	179.56	(179.56)
Discounted Cash Flow Model	12,446.21	31 March 2023	2.00%	248.92	(248.92)

Discount rates used when calculating the present value of future cash flows are adjusted to spreads to the benchmark rate for discounting the future expected cash flows. Hence, these spreads reduce the net present value of an asset. Cash flows estimated reflect the estimated realisation to the Group. Realisation rates for less liquid instruments are usually unobservable and are estimated based on historical data.

f) Management uses its best judgment in estimating the fair value of its financial instruments. However, there are inherent limitations in any estimation technique. Therefore, for substantially all financial instruments, the fair value estimates presented above are not necessarily indicative of all the amounts that the Group could have realized or paid in sale transactions as of respective dates. As such, the fair value of the financial instruments subsequent to the respective reporting dates may be different from the amounts reported at each year end.

Piramal Enterprises Limited
Notes to the consolidated financial statements (Continued)

For the year ended 31 March, 2024

(Currency : ₹ in crores, unless otherwise stated)

61 Disaggregate revenue information

63 Acquisition of office premises from AASAN Corporate Solutions Private Limited by Piramal Corporate Tower Private Limited ('PCTPL')

On 26 December 2023 ('the acquisition date'), PCTPL had acquired a commercial property located at Lower Parel ('Piramal Tower'), for a net consideration of ₹889.82 crores (which includes Gross consideration of ₹ 875 crores, net working capital of ₹ (38.07) crores and incurred transaction cost of ₹52.89 crores). The management had applied the optional concentration test, under Ind AS 103, and concluded that the acquired set of activities and assets is not a business because substantially all of the fair value of the gross assets acquired is concentrated in investment properties, with similar risk characteristics. Accordingly, this transaction has been accounted for as an asset acquisition. The management identified and recognized the individual identifiable assets acquired and liabilities assumed; and allocated the purchase consideration to the individual identifiable assets and liabilities on the basis of their relative fair values at the date of acquisition.

The details in respect of business combination is provided below:

Particulars	Amount
Assets	
Investment property (refer note below)	927.90
Security deposits	1.46
Trade receivables	0.44
Prepaid expenses	0.08

Liabilities	
Security deposits from licensees	40.06
Total liabilities (B)	40.06
Net Assets (A-B)	889.82

Piramal Enterprises Limited

Notes to the consolidated financial statements (Continued)

For the year ended 31 March, 2024

(Currency : ₹ in crores, unless otherwise stated)

Note : PCTPL purchased the Building - Piramal Tower ('the Structure') from Aasan Corporate Solutions Private Limited ('the Vendor') comprising of all units as mentioned in the underlying Deed of Conveyance ('the Deed') and the proportionate undivided share, right, title and interest in the common areas and facilities appurtenant to the said Structure along with the proportionate undivided share, right, title and interest in the said Land i.e. all that piece and parcel bearing the dimensions mentioned as per the Deed, including the common areas and facilities appurtenant to the said Land together with all the estate, right, title, interest and benefit therein and arising therefrom but except the development potential retained by the vendor in terms this Deed.

64 (a) During the year ended 31 March 2024, Piramal Dutch IM Holdco BV ("PDIMBV"), a non-operative, non-material wholly owned subsidiary, had completed its liquidation, based upon the struck off confirmation received by Netherlands Chamber of Commerce on 8 September 2023. Consequent to which, PDIMBV ceases to be a wholly-owned subsidiary of the Holding Company which resulted in gain of ₹ 0.09 crores, post completion of liquidation of

(b) During the year ended 31 March 2024, Piramal International ("PINT"), a non-operative, non-material wholly owned subsidiary, had completed its liquidation, based upon the struck off confirmation received by Director of Insolvency Service at Mauritius on 21 September 2023. Consequent to which, PINT ceases to be a wholly-owned subsidiary of the Holding Company. No income / expense was recorded by the Holding Company had recorded, post completion of liquidation of the entity.

65 In furtherance to the order of the Hon'ble the Delhi High Court in W.P.(CRL) 2555/2023 dated 5th September, 2023 and 20th September, 2023, Piramal Fund Management Private Limited, a wholly owned subsidiary, has agreed to refund/return the principal amounts to all investors of Indiareit Domestic Real Estate Strategy I ("Indiareit PMS") as a one-time payment without admission of any liability and without prejudice basis. Accordingly, a loss of ₹ 63.91 crores was recognised in the statement of profit and loss during the year ended 31 March 2024. The same has been disclosed under exceptional items due to the nature and amount.

66 Regulatory AIF's provisions

During the year ended 31 March 2024, the Group made regulatory provision of ₹ 2,022.68 crores in respect of investments in Alternative Investment Funds (AIF) pursuant to the RBI circular dated 19 December 2023 and further clarifications vide RBI circular dated 27 March 2024. The same has been disclosed under exceptional items due to the nature and amount of provision. The Management remains confident of full recovery of the balance AIF investment.

67 Events after reporting date

There have been no material events after the reporting date that require adjustments / disclosures in the consolidated financial statements for the year ended 31 March 2024, other than the proposed scheme of arrangement for merger of the Holding Company with PCHFL, wholly owned subsidiary. Refer Note 49.

68 Amalgamation of Dewan Housing Finance Corporation Limited with erstwhile Piramal Capital & Housing Finance Limited ('PCHFL')

During the financial year 2021-22, pursuant to the Resolution plan, as approved by the Mumbai bench of the Hon'ble National Group Law Tribunal, Piramal Capital & Housing Finance Limited ("PCHFL"), wholly owned subsidiary, merged into DHFL (Dewan Housing Finance Corporation Limited) to conclude acquisition on 30th September 2021 (Implementation Date). This business combination was treated as a reverse acquisition for financial reporting purposes in accordance with Ind AS 103.

At the time of aforesaid merger, based on the expert opinion, net deferred tax assets potentially amounting to ₹ 6,209 crores relating to the fair value adjustments considered in aforementioned business combination had not been recognized due to uncertainty associated with allowability of such adjustments under the applicable tax laws.

Based on the tax position taken by PCHFL and assessment order received for assessment year 2022-23 from the income tax authorities and further based on assessment of probable future taxable profits against which these unadjusted tax losses and credits can be utilised, PCHFL has recognised deferred tax assets amounting to ₹ 647.61 crores in current financial year.

As on 31 March, 2024, based on the assessment of the probable future taxable profits against which these unadjusted tax losses and tax credits can be utilised, the Group has recognised Deferred Tax Assets of ₹ 1,072.97 crores on unadjusted tax losses.

PCHFL holds 100% of equity share capital of DHFL Investments Limited (DIL). The wholly owned subsidiary of PCHFL, DIL holds 50% of equity share capital of Pramerica Life Insurance Company Limited (PLIL). Pursuant to the approval of the Resolution Plan by the Hon'ble NCLT, WGC and a limited liability partnership by the name of TDH Realty LLP, have pursued litigations in relation to the Resolution Plan, purportedly as the ultimate beneficiary of the CCDs. However, the litigation initiated by TDH Realty LLP before the NCLAT was disposed of as withdrawn by an order dated 27 September 2023, pursuant to settlement between the parties. Based on the approval of the Resolution Plan by Hon'ble NCLT, the Company has considered DIL as a subsidiary given its ability to exercise control over DIL with effect from the implementation date as per the Resolution Plan. Based on the evaluation of rights available under the shareholders agreement, PLIL has been considered as a joint venture and has been accounted based on equity method of accounting in the consolidated financial statements. Accordingly, the consolidated statement of profit and loss includes the PCHFL's share of profit / (loss) of PLIL with effect from the implementation date.

According to the Resolution Plan, while the fraudulent loan accounts are valued at Re. 1, the distribution of proceeds from recovery of fraudulent loans should go to the Successful Resolution Applicant (SRA). There is a litigation with respect to distribution of such recoveries pending before the appropriate forum. According to PCHFL, the DHFL acquisition remains unaffected by the above said order. Further there will be no adverse impact on the consolidated financial statements for the year ended 31 March 2023 and 2024 even in the eventuality of the matter being decided against PCHFL.

70 Acquisition of PRL Agastya Private Limited by Piramal Capital & Housing Finance Limited

During the previous year, Piramal Capital & Housing Finance Limited ('PCHFL'), a wholly owned subsidiary, has acquired 100% stake in PRL Agastya Private Limited ('PRL Agastya') from PRL Developers Private Limited on 12 December 2022 for a cash consideration of ₹ 90.12 crores. Consequent to which, PRL Agastya is a wholly owned subsidiary of the Group.

The details in respect of business combination is provided below:

Particulars	Amount
Consideration transferred	
Cash *	90.12
Total consideration (A)	90.12
Fair value of assets identifiable assets and liabilities recognised as a result of the Acquisition	
Net assets	
(a) Total assets acquired	1,012.48
(b) Total liabilities acquired	924.36
Net assets recognised (B) = (a-b)	88.12
Goodwill/(Capital Reserve) (A-B)	2.00

Goodwill represents the loss on bargain purchase which is directly recognized in the Balance Sheet.

* includes stamp duty of ₹ 0.12 crores.

During the current year, the Group recorded a loss of ₹ 7.58 crores due to fair value adjustments pertaining to payment of contingent consideration arising from the acquisition of its wholly-owned subsidiary, Piramal Agastya Offices Private Limited (formerly known as PRL Agastya Private Limited), in December 2022 from PRL Developer Private Limited ('PDPL'). The additional purchase consideration has been paid to PDPL, as outlined in the Share Purchase Agreement, which includes a provision for additional payments to PDPL.

Liabilities	
Trade payables	0.63
Total liabilities (II)	0.63
Net assets disposed off (I-II)	30.33

(iii) Loss on disposal

Particulars	Amount
Consideration received	1.65
Less: Net assets disposed off	(30.33)
Loss on disposal	(28.68)

72 Composite Scheme of Arrangement and Amalgamation in Shriram group

During the year ended 31 March 2023, pursuant to Composite Scheme of Arrangement and Amalgamation in Shriram group, the Holding Company received shares of Shriram Finance Limited (SFL), Shriram LI Holdings Private Limited (SLIH), Shriram GI Holdings Private Limited (SGIH) and Shriram Investment Holdings Limited (SIHL) against the shares of Shriram City Union Finance Limited (SCUF) and Shrelekha Business Consultancy Private Limited (Shrelekha). These shares have been initially recognised as per the requirement of Ind AS 109 as follows:

- Shares received against investment in SCUF resulted in gain of ₹ 172.10 crores accounted in other comprehensive income.
- Shares received against investment in Shrelekha resulted in gain of ₹ 717.44 crores accounted in profit and loss under "other operating income"
- Further, during the year ended 31 March 2024, the Holding Company had sold its entire stake in Shriram Finance Limited for a net consideration of ₹ 4,788.58 crores resulting in profit of ₹ 854.68 crores which has been recorded under "Net gain / (loss) on fair value changes".

73 Assets held for sale

(a) During the year ended 31 March 2023, on conclusion of a strategic review of its investments, the Group initiated identification and evaluation of potential buyers for its associate investments, Shriram LI Holdings Private Limited, Shriram GI Holdings Private Limited and Shriram Investment Holdings Limited. The Group anticipates completion of the sale in foreseeable future and accordingly, investments amounting to ₹ 2,277.54 crores in respect of these associates have been reclassified under 'assets held for sale'.

On reclassification, these investments has been measured at the lower of carrying amount and fair value less cost to sell. No impairment provision was required to be recognised in the consolidated statement of profit and loss for the year ended 31 March 2024, on these investments.

(b) Shriram Investment Holdings Private Limited

In addition to point (a) above, during the year ended 31 March 2024, the Holding Company has entered into share purchase agreement to sell its entire direct investment of 20% equity held in Shriram Investment Holdings Private Limited (formerly known as Shriram Investment Holdings Limited), classified as assets held for sale, to Shriram Ownership Trust, for a cash consideration of ₹ 1,439.89 crores. Accordingly, a gain of ₹ 870.69 crores is accounted in the books of the Holding Company on completion of the transaction.

Piramal Enterprises Limited

Notes to the consolidated financial statements (Continued)

For the year ended 31 March, 2024

(Currency : ₹ in crores, unless otherwise stated)

(c) Shriram LI Holdings Private Limited and Shriram GI Holdings Private Limited

(i) Pursuant to the restructuring of Shriram Group in November 2022, the Holding Company ('PEL') had received shares in multiple Shriram Group companies, as explained in note 72 of the financial statements. It includes PEL's ownership of 20% in both Shriram GI Holdings Private Limited and Shriram LI Holdings Pvt Limited (Holding Companies). On receipt of these shares, PEL's intention was to dispose them off and hence were classified as 'assets held for sale'. These Holding Companies own stakes in Shriram General Insurance Company Limited and Shriram Life Insurance Company Limited (Operating Companies) respectively.

Subsequently, Shriram Group has proposed to merge Holding Companies into the respective Operating Companies, which will result in PEL holding direct stakes in these Operating Companies. Based on discussions with prospective buyers, the feedback is that there is a preference towards owning direct stakes in the Operating Companies rather than in Holding Companies. Hence, these prospective buyers are inclined to wait for the said merger process to get completed. However, this merger process is subject to the approval from regulators particularly IRDA.

In light of the above, it has been decided to wait for the completion of the said merger process. However, the Group remains committed to its plans to divest its stakes in these non-core investments and does not intend to hold these investments in the long term.

(ii) The Holding Company received ₹ 9.88 crores & ₹ 39.70 crores from Shriram LI Holdings Private Limited and Shriram GI Holdings Private Limited respectively during the year ended 31 March 2024.

74 On 8 May, 2024, a dividend of ₹ 10 per equity share (Face value of ₹ 2/- each) was recommended by the Board of Directors of the Holding Company, which is subject to shareholders approval. If approved, there would be cash outflow amounting to approximately ₹ 225 crores.

Piramal Enterprises Limited**Notes to the consolidated financial statements (Continued)**

For the year ended 31 March, 2024

(Currency : ₹ in crores, unless otherwise stated)

75 Composite Scheme of Arrangement - Discontinuing operations

The board of directors of the Holding Company, at their meeting held on 7 October 2021, had inter alia, approved the composite Scheme of Arrangement under applicable provisions of the Companies Act, 2013 between Holding Company (PEL), Piramal Pharma Limited ('PPL'), Convergence Chemicals Private Limited ('CCPL'), Hemmo Pharmaceuticals Private Limited ('HPPL'), PHL Fininvest Private Limited ('PFPL') and their respective shareholders and creditors ('Scheme'). The Scheme inter alia provides for the following:

(i) the transfer by way of demerger of the Demerged Undertaking (as set out in the Scheme) from Holding Company to PPL, a subsidiary of PEL

(ii) the amalgamation of CCPL and HPPL (both being wholly owned subsidiaries of PPL) into PPL.

(iii) the amalgamation of PFPL (a wholly owned subsidiary of PEL) into Holding Company ('FS Amalgamation').

The Scheme was approved by the Hon'ble National Group Law Tribunal on 12 August 2022. Accordingly, the Scheme became operative from Appointed date i.e. 1 April 2022.

The Holding Company has given effect to accounting as follows:

All assets and liabilities pertaining to demerged Pharma undertaking have been classified as non-cash assets held for transfer to Piramal Pharma Limited / shareholders as on 1 April 2022 being the appointed date. The difference between book values of the assets and liabilities transferred is recognised as gains in Profit and loss account amounting to ₹ 7,613.96 crores as per the requirements of Appendix A to Ind AS 10. At the date of approval of scheme, the liability was subsequently remeasured resulting in remeasurement gain of ₹ 759.76 crores. The corresponding aggregate charge was recognised in retained earnings (reserve) as per the requirements of the aforesaid Ind AS. The nature of the gain (including remeasurement gains) being non-recurring in nature was classified as an exceptional item by the Holding Company.

Costs incidental / consequential to the arrangement aggregating to ₹ 397.83 crores incurred by the Holding Company was considered as exceptional items being non-recurring in nature.

Particulars	As on 1 April 2022
(A) Fair value of the of Pharma undertaking at date of derecognition	12,982.55
(B) Analysis of asset and liabilities over which control was lost	
Assets	
Financial assets	3,856.28
Non- financial assets	8,793.16
Total Assets (a)	12,649.44
Liabilities	
Financial liabilities	5,428.34
Non- Financial liabilities	504.73
Total liabilities (b)	5,933.07
Non-Controlling Interest (c)	1,347.78
Net assets disposed off [B= (a-b-c)]	5,368.59
Gains on transfer of the pharma undertaking at date of derecognition (C)=[A-B]	7,613.96
Gains on subsequent remeasurement - (D)	759.76
Gain on transfer of the pharma undertaking [C+D]	8,373.72
Total amount distributed (A+D)	13,742.31

Outstanding as on 31 March 2024*	17,40,884	2.00	
Exercisable as on 31 March 2024	17,40,884	2.00	

*Includes 25,413 options granted to Key managerial personnel of the Holding Company.

#Includes options granted to group company employees

The Black Scholes Valuation model has been used for computing the weighted average fair value of stock options granted during the year considering the following inputs:

Grant date	No. of Years vesting	Fair value per option	Option Granted
31-Mar-23	2.34 years	INR 631.84 - INR 639.48	4,38,388
31-Mar-23	3.18 years	INR 628.66 - INR 638.53	3,09,663
31-Mar-23	4.34 years	INR 624.83 - INR 631.84	21,971
13-Apr-23	3.13 years	INR 640.39 - INR 653.93	4,76,406
17-Jul-23	3 years	INR 895.03 - INR 916.08	5,75,059

The fair value has been calculated using the Black Scholes Options Pricing Model and the significant assumptions made in this regard are as follows:

Grant dated	31-Mar-23	31-Mar-23	31-Mar-23	13-Apr-23	17-Jul-23
No. of Years vesting	2.34 - Years	3.18 - Years	4.34 - Years	3.13 - Years	3 - Years
Risk free interest rate	6.91% - 6.92%	6.90% - 6.93%	6.92% - 6.93%	6.79% - 6.88%	6.81% - 6.84%
Expected life	3 - 3.67 years	3.05 - 4.09 years	3.67 - 4.67 years	3.55 - 5.64 years	3.5 - 5.5 years
Expected volatility	55.62% - 58.71%	56.00% - 58.73%	55.10% - 57.16%	53.77% - 56.24%	52.14% - 55.12%
Expected dividend yield	1.87% - 1.9%	1.8% - 1.92%	1.71% - 1.87%	1.58% - 1.91%	1.74% - 2.07%
Exercise Price (INR)	2	2	2	2	2
Stock Price (INR)	678.35	678.35	678.35	701.4	986.6

Method used to account for the Scheme (Intrinsic or fair value):

The Group recognises compensation expense relating to share based payments in accordance with Ind AS 102 Share-based Payment. Stock options granted by the Group are accounted as equity settled options. Accordingly, the estimated fair value of options granted that is determined on the date of grant, is charged to statement of Profit and Loss over the vesting period of options which is the requisite service period, with corresponding increase in the equity.

During the year ended 31 March 2024, ₹71.97 crores (31 March 2023: ₹ 0.06 crores) has been charged to statement of profit & loss with a corresponding increase in Stock option reserve. [Refer note 25 and 39]

81 The previous year's figures have been regrouped / reclassified wherever necessary, to conform to the current year's classification / presentation.

82 The consolidated financial statements have been approved for issue by the Holding Company's Board of Directors on 8 May 2024.

Independent Auditor's Report

**To The Members of
Piramal Enterprises Limited**

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of Piramal Enterprises Limited ("the Company"), which comprises of Standalone Balance Sheet as at March 31, 2024, the Standalone Statement of Profit and Loss (including Other Comprehensive Income), the Standalone Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and notes to the standalone financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March 2024, its profit, total other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics.

We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the Standalone Financial Statements section of our report, including in relation to these matters.

Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the standalone financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying standalone financial statements.

Sr. No.	Key Audit Matters	Auditors Response
1.	<p>Expected Credit Loss allowance on financial assets and net loss on derecognition of financial instruments under amortised cost category.</p> <p>Refer to accounting policy information in Note 2A (v) to the standalone financial statements and Notes 2B (i), (iv) and (vi), 5, 6, 17, 25, 26 and 41.3 to the standalone financial statements.</p>	
	<p>In accordance with Ind AS 109 "Financial Instruments", allowance for loan losses are determined using the expected credit loss (ECL) approach. ECL approach adopted by the Company involves significant management judgement and estimates. The key areas where we identified greater levels of management judgement and therefore increased levels of audit focus in the Company's ECL approach are:</p> <ul style="list-style-type: none"> • The application of ECL model requires several data inputs, inherently judgements in nature, to calculate Probability of Default ("PDs"), Loss Given Default ("LGD") and Exposure at Default (EAD). • Estimating Management overlay (including additional overlay) for economic uncertainty, forward-looking information, macro-economic factors and impact of market risk for portfolio of real-estate loans • Accuracy of the data from internal and external sources used in the Models. Qualitative and quantitative factors used in staging the loan assets. <p>Considering the significance of ECL to the overall standalone financial statements and the degree of Management's estimates and judgements involved in this matter that requires significant auditors' attention. We have considered the expected credit loss allowance on financial assets to be a key audit matter.</p> <p>The disclosures regarding the Company's application of Ind AS 109 are key to explaining the key judgements and material inputs to ECL and net loss on derecognition of financial instruments under</p>	<p>Principal audit procedures followed:</p> <ul style="list-style-type: none"> ➤ Reviewed the Board / Sustainability and Risk Management Committee of Board approved loss allowance policy and verified the alignment of methodology adopted for computation of ECL provision as per the policies approved. ➤ Tested the design and operating effectiveness of the key controls over the completeness and accuracy of data, inputs and assumptions into the ECL model. ➤ Evaluated whether the methodology applied by the Company is compliant with the requirements of the relevant accounting standards, Reserve Bank of India's ('RBI') master directions relating to Prudential norms on Income Recognition, Asset Classification and Provisioning pertaining to Advances and confirmed that the calculations are performed in accordance with the approved methodology and ECL amounts has been approved by the Management and the Audit committee. ➤ Tested on sample basis key inputs, data and assumptions impacting ECL calculations to assess the accuracy and relevance of data and reasonableness of economic forecasts and model assumptions applied. ➤ Review of note placed before the Sustainability and Risk Management

	<p>amortised category. Further, disclosures to be provided as per RBI circulars with regards to non-performing assets and provisions will also be an area of focus as these are related to an area of significant estimate.</p>	<p>Committee of Board for Management overlay / General provision.</p> <ul style="list-style-type: none"> ➤ Tested the arithmetical accuracy of the computation of ECL provision performed by the Company in spreadsheets. ➤ Verified the adjustments to the output of the ECL model are consistent with the documented rationale and basis for such adjustments which has been approved by the Audit Committee of the Board of Directors. ➤ Assessed whether the disclosures on key judgements, assumptions and quantitative data with respect to impairment loss allowance in standalone financial statements are appropriate and sufficient.
<p>2.</p>	<p>Determination of fair value / recoverable value for the purpose of measurement of certain financial assets measured at fair value and for the purpose of impairment assessment of investments in subsidiary, joint venture or associate companies measured at cost, investment in Alternative Investment Fund (AIF) and investment property measured at cost: Refer to accounting policy information in Notes 2A (iii), (iv), (vi), (ix) and (x) and Notes 2B (ii), (iv), (v), (vi), 6, 10, 21, 28, 30, 35, 39 and 44.</p>	
	<p>The Company's investments in certain unquoted instruments (other than investment in subsidiaries, joint ventures and associates) are measured at fair value at each reporting date as per the requirements of Ind AS 109. These fair value measurements impact on the Company's financial performance. Further, certain investments in AIF are subjected to RBI Regulations. The Company's investments in subsidiaries, joint ventures and associates and investment property are measured at cost less provision for impairment, if any, as per the requirements of Ind AS 27 and Ind AS 40 respectively.</p> <p>The valuation for the purpose of measurement and impairment assessment requires significant judgement due to unavailability of quoted prices and limited liquidity.</p> <p>The disclosures regarding the Company's fair value estimation and impairment are key to explaining the key estimation and judgements including material inputs to the estimated valuation / recoverable amount figures.</p>	<p>Principal audit procedures followed:</p> <ul style="list-style-type: none"> ➤ Understood the process, evaluated the design and testing the operating effectiveness of such controls in respect of valuation of investments / impairment assessment / estimation of recoverable amount by the Company's Management. ➤ Evaluated Management's controls over collation of relevant information used for determining estimates for valuation and recoverable amount and impairment testing of investments. ➤ Tested appropriate implementation of policies of valuation and impairment testing by the Company's Management. ➤ Reconciled the financial information in the estimates relating to fair valuation,

		<p>recoverable amount and impairment to underlying source details.</p> <ul style="list-style-type: none"> ➤ Verified the independent valuation reports for unquoted investments and investment property obtained by the Company's Management. ➤ Tested the reasonableness of Management's estimates considered in such assessment. ➤ Assessed the competence, capabilities and objectivity of the experts used by Management in the process of valuation models. ➤ Assessed the Company's application of and compliance with regulatory requirements with respect to investment in AIFs. ➤ Assessed the factual accuracy conclusion reached by the Management and appropriateness of the disclosures made in the standalone financial statements in respect of investments, investment property and impairment of non-financial assets.
--	--	--

Information Other than the Standalone Financial Statements and Auditors' report thereon

The Company's Management and Board of Directors are responsible for the other information. The other information comprises the information included in the Board Report including annexures to the Board report but does not include the standalone financial statement and our auditors' report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and those charged with Governance for the Standalone Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance (including other comprehensive income), cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards (Ind AS) specified under Section 133 of the Act.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, the Management and the Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal

financial controls with reference to the standalone financial statements in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the entity to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that individually or in aggregate makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work and (ii) to evaluate the effect of identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. Pursuant to the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of Sub-Section (11) of Section 143 of the Act, , and on the basis of such checks of the books and records of the Company as we considered appropriate and according to the information and explanations given to us, we give in the Annexure "A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

2. As required by Section 143(3) of the Act, we report that:
- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - (c) The Balance sheet, the Statement of Profit & Loss (including other comprehensive income), the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.
 - (d) In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended.
 - (e) On the basis of the written representation received from the directors as on March 31, 2024 taken on records by the Board of Directors, none of the directors are disqualified as on March 31, 2024 from being appointed as a Directors in terms of Section 164(2) of the Act.
 - (f) With respect to the adequacy of the internal financial controls with reference to standalone financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in Annexure "B". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls with reference to standalone financial statements.
 - (g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of Section 197(16) of the Act, as amended, in our opinion and to the best of our information and explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.
 - (h) With respect to the other matters to be included in the Auditor's report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements. (Refer note 32 (a) to standalone financial statements)
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There has been no delay in transferring amounts required to be transferred to the Investor Education and Protection Fund by the Company.
 - iv. (a) The Management has represented, that to the best of their knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend to or invest in other persons or entities identified in any manner whatsoever by or on behalf of the

Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

- (b) The Management has represented, that to the best of their knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend to or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
- (c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representation under Sub Clause (i) and (ii) of Rule 11(e) of The Companies (Audit and Auditors) Rules, 2014, as provided under (a) and (b) above, contains any material misstatement. [Refer note 46 (ix) and 46 (x) to the standalone financial statements.]
- v. As stated in note 20 to the standalone financial statements, the Board of Directors of the Company has proposed dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The dividend declared is in compliance with Section 123 of the Act. The dividend paid by the Company during the year is in accordance with Section 123 of the Act.
- vi. Based on our examination which included test checks, the Company has used an accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with.

As proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 is applicable from April 1, 2024, reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 on preservation of audit trail as per the statutory requirements for record retention is not applicable for the financial year ended March 31, 2024.

Annexure "A" referred to in "Report on Other Legal and Regulatory Requirements" section of our report to the members of Piramal Enterprises Limited of even date:

- i. a. In respect of Company's Property, Plant and Equipment (PPE) and Intangible Assets:
 - A. The Company has maintained proper records, showing full particulars, including quantitative details and situation of PPE and relevant details of right-of-use assets.
 - B. The Company has maintained proper records showing full particulars of intangible assets and investment property.
 - b. According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has program of physical verification of property, plant and equipment, investment property and right of use assets so as to cover all the items once every three years which, in our opinion, is reasonable having regard to size of the Company and the nature of its assets. Pursuant to the program, physical verification was carried out by the Management during the year. According to the information and explanations given to us, no material discrepancies were noticed on such verification.
 - c. According to the information and explanations given to us and the records examined by us and based on the examination of the registered sale deed/ transfer deed/ conveyance deed/ court orders approving scheme of arrangements/ amalgamation/ confirmation from custodians, provided to us, we report that, the title deeds of all the immovable properties, (other than immovable properties where the Company is the lessee and the lease agreements are duly executed in favour of the Company) disclosed in the financial statements included in PPE are held in the name of the Company as at the balance sheet date. Further, based on examination of Letter of intent, independent architect certificate, the purchase agreements executed by the Company and deeds of transfer, we report that, the investment property in the nature of the beneficial interest of the underlying land development rights is held in name of the Company.
 - d. The Company has not revalued any of its PPE (including right- of-use assets) and intangible assets during the year and hence reporting under Clause 3(i)(d) of the Order is not applicable to the Company.
 - e. According to the information and explanations given to us and on the basis of our examination of records, no proceedings have been initiated during the year or are pending as at March 31, 2024 for holding any benami property under the Benami Transactions (Prohibition) Act, 1988, as amended, and Rules made thereunder and hence reporting under Clause 3(i)(e) of the Order is not applicable to the Company.
- ii. (a) As at March 31, 2024, the Company does not hold any inventories and hence reporting under Clause 3(ii)(a) of the Order is not applicable to the Company.
 - (b) According to the information and explanations given to us and on the basis of our examination of records, the Company has been sanctioned working capital limits in excess of five crores rupees, in aggregate from banks on the basis of security of current assets during the year. In our opinion, the quarterly statements filed with banks are in agreement with the books of account.
- iii. During the year, in the ordinary course of its business, the Company has made investments in, and granted loans and advances in the nature of loans, secured and unsecured, to companies, firms,

limited liability partnerships and other parties. In respect of such Investment in, provided security or granted any loans or advances in the nature of loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or any other parties:

- (a) The principal business of the Company is to give loans, hence the requirement to report on Clause 3(iii)(a) of the Order is not applicable to the Company.
- (b) In our opinion and according to information and explanations given to us and based on the audit procedures performed by us, having regard to the nature of the Company's business, the investments made and the terms and conditions of the grant of all the loans and advances in the nature of loans are, prima facie, not prejudicial to the interest of the Company. The Company has not provided any guarantee or security during the year.
- (c) In respect of loans granted by the Company, the schedule of repayment of principal and payment of interest has been stipulated. Repayment of principal amounts and receipts of interest are regular except in delay in certain cases. However, having regard to the nature of business and the volume of the information involved, it is not practicable to provide an itemized list of loan assets where delinquencies during the year in the repayment of principal and interest have been identified for loans. Following delays were observed as at March 31, 2024:

Particulars	Total Overdue amount (Principal and Interest) * (Rs. in Crores)	Number of cases
1-30 days	179.12	Wholesale 2; Retail – 5,704
31-60 days	18.93	Wholesale 1; Retail – 2,641
61 - 90 days	24.14	Wholesale-1; Retail- 1,436
90 days or more	3.62	Retail – 496

* Excluding cases which are technical write off and restructured during the year

- (d) According to information and explanations given to us and on the basis of our examination of records of the Company, total amount (Principal and Interest) overdue for more than ninety days in respect of loans granted by the Company aggregates to Rs. 3.62 crores as at March 31, 2024, excluding the cases which are technical write off and restructured during the year. In accordance with the policies and procedures adopted, the Management has taken reasonable steps for recovery of principal amounts and interests.
- (e) The principal business of the Company is to give loans, hence the requirement to report on Clause 3(iii)(e) of the Order is not applicable to the Company.
- (f) The Company has not granted any loans or advances in the nature of loans during the year either payable on demand or without specifying any terms or period of repayment during the year and hence reporting under Clause 3(iii)(f) of the Order is not applicable to the Company.
- iv. The Company is a NBFC and engaged in the business of financing. In our opinion and according to the information and explanation given to us, the Company has complied with the provisions of Section 186 (1) of the Act in respect of the investments made. Section 185 and other provisions of Section 186 of the Act are not applicable to the Company.
- v. According to the information and explanations given to us and on the basis of our examination of records of the Company, no deposits or amounts which are deemed to be deposits within the meaning of Section 73 to 76 or any other relevant provisions of the Act and the Companies

(Acceptance of Deposits) Rules, 2014 have been accepted by the Company and hence reporting under Clause 3(v) of the Order is not applicable to the Company.

- vi. The Central Government has not specified the maintenance of cost records under Section 148(1) of the Act for the services of the Company and hence reporting under Clause 3(vi) of the Order is not applicable to the Company.
- vii. (a) According to the information and explanations given to us and on the basis of our examination of the records, the Company is generally regular in depositing undisputed statutory dues including Goods and Services tax, provident fund, employees' state insurance, income tax, sales tax, custom duty, duty of excise, value added tax, cess and other material statutory dues during the year with the appropriate authorities. No undisputed amounts payable in respect of the aforesaid statutory dues were outstanding as at the last day of the financial year for a period of more than six months from the date they became payable.
- (b) According to the information and explanations given to us and on the basis of our examination of the records, there are no statutory dues mentioned in Clause vii (a) which have been not deposited on account of any dispute except as disclosed below:

Name of the Statute	Nature of the dues	Forum where dispute is pending	Period to which the Amount Relates	Gross amount of dispute (Rs in Crores)	Amount Unpaid (Rs in Crores)
Income Tax Act, 1961	Income Tax	Appellate Tribunal	AY2013-14	0.15	0.15
		Appellate Authority up to Commissioner's level	AY 2006-07, 2010-11, 2011-12, 2012-13, 2014-15, 2016-17, 2019-20, 2020-21, 2021-22 and 2022-23	81.35	81.35
		High Court	AY 2002-03 and 2010-11	71.86	71.86
Central Excise Laws	Excise Duty & Service Tax including interest and penalty, as applicable.	CESTAT	1996-97 to 2000-01, 2004-05 to 2014-15	48.80	48.57
		Appellate Authority up to Commissioner's level	1989-90, 1995-96, 1998-99, 2004-05 to 2005-06 and 2013-18	6.13	6.12
Sales Tax Laws	Sales Tax	Tribunal	1990-91, 1995-96, 1997-98 to 2004-05, 2006-07 to 2010-11, 2012-13 to 2013-14	4.22	2.53
		Appellate Authority up to Commissioner's level	1998-99 to 2011-12, 2014-15	4.68	2.10
		High Court	2009-10	0.71	0.32

Goods & Service Tax Act, 2017	Goods & Service Tax	Appellate Authority up to Commissioner's level	2018-19	0.35	0.35
Stamp Act	Stamp Duty	High Court	1997-98,1999-2000,2001-02	9.37	9.37

- viii. According to the information and explanations given to us and on the basis of our examination of the records, there were no amounts to be recorded in the books of accounts that have been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (43 of 1961).
- ix. (a) Based on our audit procedures and on the basis of information and explanations given to us, we are of the opinion that the Company has not defaulted in the repayment of loans or other borrowings or in the repayment of interest thereon to the lenders and hence reporting under Clause 3(ix)(a) of the Order is not applicable to the Company.
- (b) On the basis of information and explanations given to us and on the basis of our examination of the records, the Company has not been declared as willful defaulter by any bank or financial institution or other lender.
- (c) To the best of our knowledge and belief, in our opinion and according to the information and explanations given to us and on the basis of our examination of the records, term loans have been applied for the purposes for which they have been raised.
- (d) On an overall examination of the standalone financial statements, in our opinion the Company has, prima facie, not utilized funds raised on short term basis for long-term purposes.
- (e) Based on our audit procedures and on the basis of information and explanations given to us, the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries or joint venture or associate and hence reporting under Clause 3(ix)(e) of the Order is not applicable to the Company.
- (f) Based on our audit procedures and on the basis of information and explanations given to us, during the year the Company has not raised term loans on the pledge of securities held in its subsidiary or joint venture.
- x. (a) In our opinion and according to the information and explanations given to us and on the basis of our examination of the records, the Company has utilised the money raised by way of initial public offer (including debt instruments) for the purposes for which they were raised:
- (b) According to the information and explanations given to us and on the basis of our examination of the records, the Company has not made any preferential allotment, private placement of shares or fully or partly convertible debentures during the year and hence reporting under Clause 3(x)(b) of the Order is not applicable to the Company.
- xi. (a) During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India and according to the information and explanations given to us, we have neither come across any instance of material fraud by or on the Company, noticed or reported during the year, nor have we been informed of such case by the Management.

- (b) During the year and up to the date of this report, no report under Sub Section 12 of Section 143 of the Act has been filed in Form ADT-4 as prescribed in Rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government.
- (c) We have taken into consideration the whistleblower complaints received by the Company during the year while determining the nature, timing and extent of audit procedures.
- xii. According to the information and explanations given to us and based on our examination of the records of the Company, the Company is not a Nidhi Company and hence reporting under Clause 3(xii) of the Order is not applicable to the Company.
- xiii. According to the information and explanations given to us and based on our examination of the records of the Company, all the transactions with related parties are in compliance with Section 177 and 188 of the Act and all the details have been disclosed in the standalone financial statements as required by the applicable Accounting Standards. (Refer note 37 to the standalone financial statements)
- xiv. a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has an adequate internal audit system commensurate with the size and nature of its business.
- (b) We have considered the internal audit reports for the year under audit, issued to the Company during the year and till date, in determining the nature, timing and extent of our audit procedure.
- xv. According to the information and explanations given to us and on the basis of our examination of the records, the Company has not entered into any non-cash transactions prescribed under Section 192 of the Act with directors or persons connected with them during the year and hence provisions of section 192 of the Act are not applicable to the Company.
- xvi. (a) The Company being a NBFC is registered under Section 45-IA of the Reserve Bank of India Act, 1934 ('RBI Act').
- (b) The Company has conducted the non-banking financial activities with a valid certificate of registration.
- (c) In our opinion, the Company is not a Core Investment Company (CIC) as defined in the regulations made by the Reserve Bank of India and accordingly reporting under paragraph 3(xvi)(c) of the Order is not applicable to the Company.
- (d) Based on the information and explanations given to us and as represented by the Management of the Company, the Group (as defined in Core Investment Companies (Reserve Bank) Directions, 2016) has one CIC as part of the Group.
- xvii. The Company has not incurred cash losses during the financial year covered by our audit and in the immediately preceding financial year.
- xviii. There has been no resignation of the statutory auditor of the Company during the year and hence reporting under Clause 3(xviii) of the Order is not applicable to the Company.

- xix. According to the information and explanations given to us and on the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information accompanying the standalone financial statements and our knowledge of the Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that the Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.
- xx. According to the information and explanations given to us and on the basis of our examination of the records, there are no amounts unspent in respect of corporate social responsibility towards ongoing or other than ongoing projects and hence reporting under Clause 3(xx) (a) and (b) of the Order is not applicable to the Company.

Annexure “B” referred to in “Report on Other Legal and Regulatory Requirements” section of our report to the members of Piramal Enterprises Limited of even date:

Report on the Internal Financial Controls with reference to standalone financial statement under Clause (i) of Sub-Section 3 of Section 143 of the Act

We have audited the internal financial controls with reference to standalone financial statement of the Piramal Enterprises Limited (“the Company”) as of March 31, 2024 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control with reference to standalone financial statement criteria established by the Company considering the essential component of internal control stated in the Guidance Note on Audit of Internal Financial Controls with reference to standalone financial statement issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls with reference to standalone financial statement based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing deemed to be prescribed under Section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to standalone financial statement was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to standalone financial statement and their operating effectiveness. Our audit of internal financial controls with reference to standalone financial statement included obtaining an understanding of internal financial controls with reference to standalone financial statement, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls with reference to the standalone financial statement.

Meaning of Internal Financial Controls with reference to standalone financial statements

A Company's internal financial control with reference to standalone financial statement is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles.

A Company's internal financial control with reference to standalone financial statement includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the entity are being made only in accordance with authorisations of Management (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the entity's assets that could have a material effect on the standalone financial statements and (4) also provide reasonable assurance by the internal auditors through their internal audit reports given to the organisation from time to time.

Inherent Limitations of Internal Financial Controls with reference to standalone financial statements

Because of the inherent limitations of internal financial controls with reference to standalone financial statement, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to standalone financial statement to future periods are subject to the risk that the internal financial control with reference to standalone financial statement may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

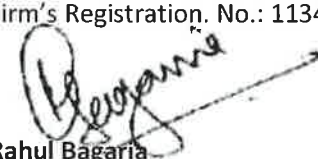

In our opinion, to the best of our information and according to the explanations given to us, the Company has, broadly, in all material respects, an adequate internal financial controls with reference to standalone financial statements and such internal financial controls with reference to standalone financial statement were operating effectively as at March 31, 2024, based on the internal control with reference to standalone financial statement criteria established by the Company considering the essential Component of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

1A Company Information

Piramal Enterprises Limited ('the Company'), incorporated in India, is a public limited company, headquartered in Mumbai. On 26 July 2022, the Company received Certificate of Registration from the Reserve Bank of India (RBI) to carry on the business of Non-Banking Financial Institution - Systematically Important Non-Deposit taking. The Company is engaged in providing finance. Under the Scale Based Regulations of the RBI, the Company is classified as a Non-Banking Finance Company - Middle Layer (NBFC-ML). The equity shares of the Company are listed on the National Stock Exchange of India Limited ("NSE") and the BSE Limited ("BSE") in India. The Company's registered office is at Piramal Ananta, Agastya Corporate Park, Opposite Fire Brigade, Kamani Junction, LBS Marg, Kuria (West), Mumbai - 400 070.

Piramal Enterprises Ltd. ("PEL") is a leading diversified NBFC with presence across retail lending, wholesale lending, and fund-based platforms. PEL Group has built a technology platform driven by artificial intelligence (AI), with innovative financial solutions that cater to the needs of varied industry verticals.

In retail lending, Group is one of the leading players that addresses the diverse financing needs of the under-served and unserved people of the 'Bharat' market. It offers multiple products, including home loans, loan against property, used car loans, small business loans to Indian budget conscious customers at the periphery of metros and in Tier I, II and III cities.

Within wholesale lending, Group provides financing to real estate developers, as well as corporate clients in select sectors. PEL has also formed strategic partnerships with leading financial institutions such as CPPIB, APG and Ivanhoe Cambridge (CDPQ) across various investment platforms. Piramal Alternatives, the fund management business, provides customised financing solutions to high-quality corporates through - 'Performing Credit Fund', a sector-agnostic Credit fund with capital commitment from CDPQ; and 'IndiaRF', a distressed asset investing platform with Bain Capital Credit, which invests in equity and/or debt across sectors.

1B Basis of Preparation

Compliance with Ind AS

The standalone financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 ("the Act") read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, and other relevant provisions of the Act., the Master Direction - Non-Banking Financial Company - Systemically Important Non-Deposit taking Company and Deposit taking Company (Reserve Bank) Directions, 2016 ('the NBFC Master Directions'), notification for Implementation of Indian Accounting Standards issued by RBI vide circular RBI/2019-20/170 DOR(NBFC).CC.PD. No.109/22.10.106/2019-20 dated 13 March 2020 ('RBI notification for Implementation of Ind AS') and other applicable RBI circulars/notifications.

The Balance Sheet, the Statement of Profit and Loss and the Statement of Changes in Equity are prepared and presented in the format prescribed in the Division III of Schedule III to the Companies Act, 2013 (the "Act"). The Statement of Cash Flows has been prepared and presented as per the requirements of Ind AS 7 "Statement of Cash Flows". The Balance Sheet, Statement of Profit and Loss, Statement of Cash Flow, Statement of Changes in Equity, summary of the Material Accounting Policy information and other explanatory information are together referred as the financial statements of the Company.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to the existing accounting standard requires a change in the accounting policy hitherto in use.

On 26 July 2022, the Company has received Certificate of Registration to carry on the business of Non-Banking Financial Institution. Hence, the Company is required to prepare and present financial statements as per the format prescribed in Division III of Schedule III to Companies Act, 2013. The Company commenced its NBFC business on 18 August 2022.

The standalone financial statements are presented in Indian Rupee (₹), which is also the functional currency of the Company, in denomination of crore with rounding off to two decimals as permitted by Schedule III to the Act.

Historical Cost convention

The standalone financial statements have been prepared on the historical cost basis except for certain financial instruments and plan assets of defined benefit plans, which are measured at fair value. The financial statements are prepared on a going concern basis as the Management is satisfied that the Company shall be able to continue its business for the foreseeable future and no material uncertainty exists that may cast significant doubt on the going concern assumption.

New Ind AS standards applicable for the first time in current financial year had no impact on the Company's financial statements.

Definition of Accounting Estimates - Amendments to Ind AS 8: The amendments to Ind AS 8 clarify the distinction between changes in accounting estimates, changes in accounting policies and the correction of errors. They also clarify how entities use measurement techniques and inputs to develop accounting estimates. The amendments had no impact on the Company's financial statements.

Disclosure of Accounting Policies - Amendments to Ind AS 1: The amendments to Ind AS 1 provided guidance and examples to help entities apply materiality judgements to accounting policy disclosures. The amendments aim to help entities provide accounting policy disclosures that are more useful by replacing the requirement for entities to disclose their 'significant' accounting policies with a requirement to disclose their 'material' accounting policies and adding guidance on how entities apply the concept of materiality in making decisions about accounting policy disclosures. The amendments have had an impact on the Company's disclosures of accounting policies, but not on the measurement, recognition or presentation of any items in the Company's financial statements.

Deferred Tax related to Assets and Liabilities arising from a Single Transaction - Amendments to Ind AS 12: The amendments to Ind AS 12 Income Tax narrow the scope of the initial recognition exception, so that it no longer applies to transactions that give rise to equal taxable and deductible temporary differences such as leases and decommissioning liabilities. The amendments had no impact on the Company's financial statements.

Notes to the standalone financial statements

as at 31 March 2024

2A MATERIAL ACCOUNTING POLICY INFORMATION

The material accounting policy information related to preparation of the financial statements have been discussed below.

i. Revenue recognition

Interest Income

Interest income is recognised in Statement of profit and loss using the effective interest method for all financial instruments measured at amortised cost, debt instruments measured at Fair Value through Other Comprehensive Income (FVOCI) and debt instruments designated at Fair Value through Profit & Loss (FVTPL). The 'effective interest rate' is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument. The calculation of the effective interest rate includes transaction costs and fees that are an integral part of the contract. Transaction costs include incremental costs that are directly attributable to the acquisition of financial asset.

If expectations regarding the cash flows on the financial asset are revised for reasons other than credit risk, the adjustment is recorded as a positive or negative adjustment to the carrying amount of the asset in the balance sheet with an increase or reduction in interest income. The adjustment is subsequently amortised through interest income in the Statement of profit and loss.

The Company calculates interest income by applying the EIR to the gross carrying amount of financial assets other than credit-impaired assets.

When a financial asset becomes credit-impaired, the Company calculates interest income by applying the effective interest rate to the net amortised cost of the financial asset. If the default is cured and the financial asset is no longer credit-impaired, the Company reverts to calculating interest income on a gross basis. Penal / Default interest income is booked on receipt basis.

Fee and commission income

The Company earns fee and commission income from financial services it provides to its customers. Fee and commission income is recognised at an amount that reflects the consideration to which the Company expects to be entitled in exchange for providing the services.

The performance obligations, as well as the timing of their satisfaction, are identified, and determined, at the inception of the contract.

Fee based income are recognised when they become measurable and when it is probable to expect their ultimate collection. Commission and brokerage income earned for the services rendered are recognised as and when they are due. Loan processing fees income is accounted for on effective interest basis except for processing fees income collected from the customers which approximates to the corresponding file cost incurred. Arranger fees income is accounted for on accrual basis. Foreclosure charges are collected from loan customers for early payment/closure of loan and are recognised on realisation.

When the Company provides a service to its customers, consideration is invoiced and generally due immediately upon satisfaction of a service provided at a point in time. Services provided where the Company's performance obligations are satisfied at a point in time are recognised once control of the services is transferred to the customer. This is typically on completion of the underlying transaction or service or, for fees or components of fees that are linked to a certain performance, after fulfilling the corresponding performance criteria.

Dividend Income

Dividend income from investments is recognised when the Company's right to receive payment has been established (provided that it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably).

Net gain on fair value changes

The Company designates certain financial assets (investments in debt instruments) for subsequent measurement at fair value through profit or loss (FVTPL) or fair value through other comprehensive income (FVOCI) as per the criteria in Ind AS 109. The Company recognises gains on fair value change of financial assets measured at FVTPL and realised gains on derecognition of financial asset measured at FVTPL and FVOCI on net basis.

Other Operating revenue

The Items of financial instruments acquired in exchange for a non-monetary asset or assets, or a combination of monetary and non-monetary assets, are measured at fair value unless (a) the exchange transaction lacks commercial substance or (b) the fair value of neither the asset received nor the asset given up is reliably measurable. If the Company is able to measure reliably the fair value of either the asset received or the asset given up, then the fair value of the asset given up is used to measure the cost of the asset received unless the fair value of the asset received is more clearly evident. The difference between the fair value of the financial instrument acquired and the carrying amount of the asset given up is recognised in statement of profit and loss.

The Company recognises income on recoveries of financial assets previously written off on realisation or when the right to receive the same without any uncertainties of recovery is established.

ii. Expenditures

Fees and commission expense

Fees and commission expenses which are not directly linked to the sourcing of financial assets, such as commission/incentive incurred on value added services and products distribution, recovery charges, fees paid under guarantee scheme and fees payable for management of portfolio etc., are recognised in the Statement of Profit and Loss on an accrual basis.

Other expenses

Expenses are recognised on accrual basis net of the goods and services tax, except where credit for the input tax is not statutorily permitted.

Notes to the standalone financial statements

as at 31 March 2024

iii. Financial instruments

Initial Recognition

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments. Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Investments and Other Financial Assets Classification

Investments and Other Financial Assets Classification

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

Subsequent Measurement

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income. The Company reclassifies debt investments when and only when its business model for managing those assets changes.

Debt instruments

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the group classifies its debt instruments:

Amortised cost

Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at amortised cost and is not part of a hedging relationship is recognised in profit or loss when the asset is derecognised or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method. Subsequently, these are measured at amortised cost using the Effective Interest Method less any impairment losses.

Fair value through other comprehensive income (FVTOCI)

Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVTOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in the statement of profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to the statement of profit or loss and recognised in other gains/ (losses). Interest income from these financial assets is included in other income using the effective interest rate method.

Fair value through profit or loss (FVTPL)

Assets that do not meet the criteria for amortised cost or FVTOCI are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognised in the statement of profit and loss and presented net in the statement of profit and loss within other gains/(losses) in the period in which it arises. Interest income from these financial assets is included in other income. Accounting policy for investments in Alternative Investment Funds covered by RBI Circular have been disclosed below.

Investments in Alternative Investment Funds (AIF) covered by RBI Circular

Investment in AIF units are classified as investments at fair value through profit and loss. Pursuant to the requirements of RBI circular dated 19 December 2023 read with clarifications dated 27 March 2024, the Company has measured the AIF investments that are covered under the said RBI circular/clarification net of regulatory provision equivalent to the carrying amount of the investments. There is no subsequent remeasurement of the fair value of the covered AIF investments. Subsequent realisation/ recoveries from these covered investments are recognised as reversals of regulatory provision. Excess realisation/ recoveries arising from the disposal of the investments is recognised as gain under 'Net gain on fair value changes' in statement of profit and loss.

Equity instruments

The Company subsequently measures all equity investments at fair value. Where, in case of long term investments, the Company's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification on derecognition of fair value gains and losses to the statement of profit and loss. Dividends from such investments are recognised in the statement of profit and loss when the Company's right to receive payments is established. Changes in the fair value of financial assets at fair value through profit or loss are recognised in the statement of profit and loss.

The Company transfers a portion of the FVTOCI reserve to retained earnings when the relevant equity securities are derecognised.

Notes to the standalone financial statements

as at 31 March 2024

iv. Determination of fair value

In order to show how fair values have been derived, financial instruments are classified based on a hierarchy of valuation techniques, as summarised below:

- Level 1 financial instruments – Those where the inputs used in the valuation are unadjusted quoted prices from active markets for identical assets or liabilities that the Company has access to at the measurement date. The Company considers markets as active only if there are sufficient trading activities with regards to the volume and liquidity of the identical assets or liabilities and when there are binding and exercisable price quotes available on the balance sheet date.

- Level 2 financial instruments

Those where the inputs that are used for valuation and are significant, are derived from directly or indirectly observable market data available over the entire period of the instrument's life. Such inputs include quoted prices for similar assets or liabilities in active markets, quoted prices for identical instruments in inactive markets and observable inputs other than quoted prices such as interest rates and yield curves, implied volatilities, and credit spreads. In addition, adjustments may be required for the condition or location of the asset or the extent to which it relates to items that are comparable to the valued instrument. However, if such adjustments are based on unobservable inputs which are significant to the entire measurement, the Company will classify the instruments as Level 3.

- Level 3 financial instruments

Those that include one or more unobservable input that is significant to the measurement as whole.

The fair value of financial instruments is generally measured on an individual basis. However, in cases where the Company manages a group of financial assets and liabilities on the basis of its net market or credit risk exposure, the fair value of the group of financial instruments is measured on a net basis, however the underlying financial assets and liabilities are presented separately in the financial statements, unless they satisfy the Ind AS offsetting criteria.

v. Impairment of financial assets

The Company applies the expected credit loss model for recognising impairment loss on financial assets measured at amortised cost, loan commitments and other contractual rights to receive cash or other financial asset.

Expected credit loss is a product of exposure at default (including applicable undisbursed commitments), probability of default and loss given default. The Company has devised an internal model to evaluate the probability of default and loss given default based on the parameters set out in Ind AS 109. Accordingly, the financial instruments are classified into Stage 1 – Standard Assets with 1 to 29 days past due (DPD), Stage 2 – Significant Credit Deterioration or overdue between 30 to 89 days and Stage 3 – Default Assets with overdue for 90 or more days.

The Company also takes into account the below qualitative parameters in determining the increase in credit risk for the wholesale financial assets:

1. Significant negative deviation in the business plan of the borrower
2. Current and expected financial performance of the borrower
3. Need for refinancing of loan due to change in cash flow of the project
4. Significant decrease in the value of collateral
5. Change in market conditions and industry trends

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

Default Assets wherein the management does not expect any realistic prospect of recovery are written off to the Statement of Profit and Loss.

Retail Lending

The Company uses ECL allowance for financial assets measured at amortised cost, which are not individually significant, and comprise of a large number of homogeneous loans that have similar characteristics. The expected credit loss is a product of exposure at default, probability of default and loss given default. Due to lack of sufficient internal data, the Company uses external PD/LGD data from credit bureau agency (TransUnion up to Dec-22) for potential credit losses. Further, the estimates from the above sources have been adjusted with forward looking inputs from anticipated change in future macro-economic conditions to comply with Ind AS 109.

Derecognition of financial assets

A financial asset is derecognised only when:

- The Company has transferred the rights to receive cash flows from the financial asset or
- Retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Securitization and direct assignment

The Company transfers loans through securitisation and direct assignment transactions. The transferred loans are de-recognised and gains/losses are accounted for, only if the Company transfers substantially all risks and rewards specified in the underlying assigned loan contract.

vi. Investments in subsidiaries, associates, joint operations and joint ventures Subsidiaries

Subsidiaries are all entities (including structured entities) over which the group has control. The Company controls an entity when the Company is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity.

Notes to the standalone financial statements

as at 31 March 2024

Associates:

An associate is an entity over which the Company has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

Joint Arrangements:

Under Ind AS 111 Joint Arrangements, investments in joint arrangements are classified as either joint operations or joint ventures. The classification depends on the contractual rights and obligations of each investor, rather than the legal structure of the joint arrangement. The Company has only joint ventures.

A joint operation is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the assets and obligations for the liabilities relating to the arrangement.

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement.

The Company recognises its direct right to the assets, liabilities, revenues and expenses of joint operations and its share of any jointly held or incurred assets, liabilities, revenues and expenses. These have been incorporated in the financial statements under the appropriate headings, if any.

Investments in subsidiaries, associate and joint ventures :

Investments in subsidiaries, associate and joint ventures are measured at cost less accumulated impairment, if any. List of the Company's subsidiaries, associate and joint ventures are provided in Note 37.

vii. Property, Plant and Equipment

All items of Property Plant & Equipment (other than freehold land) are stated at cost of acquisition, less accumulated depreciation and accumulated impairment losses, if any. Freehold Land is carried at historical cost. Direct costs are capitalised until the assets are ready for use and includes freight, duties, taxes and expenses incidental to acquisition and installation. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to the statement of profit and loss during the reporting period in which they are incurred. Subsequent expenditures related to an item of Property Plant & Equipment are added to its carrying value only when it is probable that the future economic benefits from the asset will flow to the Company and cost can be reliably measured. Losses arising from the retirement of, and gains or losses arising from disposal of Property, Plant and Equipment are recognised in the Statement of Profit and Loss.

Depreciation is provided on a pro rata basis on the straight line method ('SLM') over the estimated useful lives of the assets specified in Schedule II of the Companies Act, 2013 / on the basis of technical evaluation, which are as follows:

Asset Class	Useful life
Office Equipment	3 years - 15 years
Furniture & Fixtures	3 years - 15 years
Buildings	60 years
Plant & Equipment	3 years - 20 years
Motor Vehicles	8 years

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

viii. Intangible Assets

Intangible assets are stated at acquisition cost, net of accumulated amortisation and accumulated impairment losses, if any. Gains or losses arising from the retirement or disposal of an intangible asset are determined as the difference between the disposal proceeds and the carrying amount of the asset and are recognised as income or expense in the Statement of Profit and Loss.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

Asset Class	Useful life
Computer Software	3 - 6 years amortised using SLM method

ix. Investment property

Investment property is property held either to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business, use in the production or supply of goods or services or for administrative purposes. Upon initial recognition, an investment property is measured at cost. Cost of an investment property comprises its purchase price and any directly attributable expenditure, including transaction costs. Subsequent to initial recognition, investment property (other than property represented by the Company's interest in underlying land) is measured at cost less accumulated depreciation and accumulated impairment losses, if any. An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss on disposal of an investment property is recognised in statement of profit or loss.

The Company does not hold any investment property which is required to be depreciated under Ind AS 40/ Ind AS 16.

x. Impairment of Assets

The Company assesses at each Balance Sheet date whether there is any indication that an asset may be impaired. For the purposes of assessing impairment, the smallest identifiable group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or group of assets, is considered as a cash generating unit. If any such indication exists, the Company estimates the recoverable amount of the asset.

The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognised in the Statement of Profit and Loss. If at the Balance Sheet date there is an indication that a previously assessed impairment loss no longer exists or may have decreased, the recoverable amount is reassessed and the asset is reflected at the recoverable amount.

The Company's significant assets that are subjected to impairment assessment as stated above include investments in subsidiaries/ associates/ joint arrangements and Investment property.

Notes to the standalone financial statements

as at 31 March 2024

xi. Assets held for sale

The Group classifies non-current assets and disposal groups as held for sale if their carrying amounts will be recovered principally through a sale transaction rather than through continuing use. Assets held for sale are measured at the lower of carrying amount or fair value less costs to sell. The determination of fair value less costs to sell includes use of management estimates and assumptions. Costs to sell are the incremental costs directly attributable to the disposal of an asset (disposal group), excluding finance costs and income tax expense. The fair value of the assets held for sale has been estimated using valuation techniques (including income and market approach) which includes unobservable inputs. Non-current assets and Disposal Group that ceases to be classified as held for sale shall be measured at the lower of carrying amount before the non-current asset and Disposal Group was classified as held for sale and its recoverable amount at the date of the subsequent decision not to sell.

The criteria for held for sale classification is regarded as met only when the sale is highly probable, and the asset or disposal group is available for immediate sale in its present condition. Actions required to complete the sale should indicate that it is unlikely that significant changes to the sale will be made or that the decision to sell will be withdrawn. Management must be committed to the plan to sell the asset and the sale expected to be completed within one year from the date of the classification. An extension of the period required to complete a sale does not preclude the non-current asset or Disposal group from being classified as held for sale if the delay is caused by events or circumstances beyond the Company's control and there is sufficient evidence that the management remains committed to its plan to sell the asset or disposal group.

Assets and liabilities classified as held for sale are presented separately as current items in the balance sheet.

xii. Financial liabilities and equity instruments

Classification as debt or equity

Debt and equity instruments issued by a Company entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity Instrument

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued are recognised at the proceeds received, net of direct issue costs.

Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at FVTPL.

Financial liabilities are classified as at FVTPL when the financial liability is either contingent consideration recognised by the Company as an acquirer in a business combination to which Ind AS 103 applies or is held for trading or it is designated as at FVTPL.

Financial liabilities that are not held-for-trading and are not designated as at FVTPL are measured at amortised cost. The carrying amounts of financial liabilities that are subsequently measured at amortised cost are determined based on the effective interest method.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the amortised cost of a financial liability.

Derecognition of financial assets under amortised cost category

Loans and investments debt instruments are written off when the Company has no reasonable expectations of recovering the financial asset (either in its entirety or a portion of it). This is the case when the Company determines that the borrower does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. A write-off constitutes a derecognition event. The Company may apply enforcement activities to financial assets written off/ may assign / sell loan exposure to ARC / Bank / a financial institution for a negotiated consideration. Net loss on derecognition of financial assets measured at amortised cost is calculated as the difference between the book value (including impairment) and the proceeds received. Recoveries resulting from the Company's enforcement activities could result in income recognised under 'other operating income' in the statement of profit and loss. The Company has a Board approved policy on Write off and one time settlement of loans.

Derecognition of financial liabilities

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired. An exchange between with a lender of debt instruments with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability.

Derivatives and hedging activities

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured to their fair value at the end of each reporting period.

The accounting for subsequent changes in fair value depends on whether the derivative is designated as a hedging instrument, and if so, the nature of the item being hedged and the type of hedge relationship designated.

Offsetting Financial Instruments

Financial Assets and Liabilities are offset and the net amount is reflected in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle the liability simultaneously.

The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or counterparty.

xiii. Employee Benefits

(i) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

Notes to the standalone financial statements

as at 31 March 2024

(ii) Other long-term employee benefit obligations

The liabilities for earned leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in profit or loss. The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur. Long-Term Service Awards are recognised as a liability at the present value of the defined benefit obligation as at the balance sheet date.

(iii) Post-employment obligations

The Company operates the following postemployment schemes:

- Defined Contribution plans such as provident fund, superannuation, pension, employee state insurance scheme
- Defined Benefit plans such as provident fund and Gratuity

In case of Provident fund, contributions are made to a Trust administered by the Company, except in case of certain employees, where the Contributions are made to the Regional Provident Fund Office.

Defined Contribution Plans

The Company's contribution to provident fund (in case of contributions to the Regional Provident Fund office), pension and employee state insurance scheme are considered as defined contribution plans, as the Company does not carry any further obligations apart from the contributions made on a monthly basis and are charged as an expense based on the amount of contribution required to be made.

Defined Benefit Plan

The liability or asset recognised in the balance sheet in respect of defined benefit provident and gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation denominated in INR is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

Remeasurement gains and losses arising from experience adjustments, changes in actuarial assumptions and return on plan assets (excluding interest income) are recognised in the period in which they occur, directly in other comprehensive income.

They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

xiv. Provisions and Contingent Liabilities

Provisions are recognised when there is a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a reliable estimate of the amount of the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material). The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

xv. Exceptional Items

When items of income and expense within profit or loss from ordinary activities are of such size, nature or incidence that their disclosure is relevant to explain the performance of the enterprise for the period, the nature and amount of such items is disclosed separately as Exceptional items.

xvi. Leases and Right-of-Use assets

The Company's lease asset classes primarily consist of leases for land, buildings and IT assets. At the date of commencement of the lease, the Company recognises a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognises the lease payments as an operating expense on a straight line basis over the term of the lease. The right-of-use assets are initially recognised at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses. Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable.

At the time of initial recognition, the Company measures lease liability as present value of all lease payments discounted using the Company's incremental cost of borrowing and directly attributable costs. Subsequently, the lease liability is -

- (i) increased by interest on lease liability;
 - (ii) reduced by lease payments made; and
 - (iii) remeasured to reflect any reassessments or lease modifications specified in Ind AS 116 'Leases', or to reflect revised fixed lease payments.
- Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

Notes to the standalone financial statements

as at 31 March 2024

xvii. Taxes on Income

Tax expense for the period, comprising current tax and deferred tax, are included in the determination of the net profit or loss for the period. Current tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income Tax Act, 1961.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the separate financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Current and deferred tax are recognised in the statement of profit and loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

xviii. Cash and Cash Equivalents

Cash and cash equivalents includes cash on hand, cheques/drafts on hand, demand deposits with banks, other short-term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts.

xix. Borrowing Costs

General and specific borrowing costs directly attributable to acquisition or construction of qualifying assets (i.e. those Property Plant & Equipment which necessarily take a substantial period of time to get ready for their intended use) are capitalised. Other borrowing costs are recognised as an expense using the EIR method under the head 'Finance Cost' in statement of profit and loss.

xx. Segment Reporting

In accordance with Ind AS 108, Operating Segment, the Chief Executive Officer and Managing Director is the Company's chief operating decision maker ("CODM"). The Company has identified only one reportable business segment as it deals mainly in provision of lending business.

xxi. Equity Share Capital and Dividends

Ordinary shares are classified as equity share capital. Incremental costs directly attributable to share buyback are recognized as a direct deduction from reserves, net of any tax effects.

The Company recognises a liability to make cash distributions to equity holders when the distribution is authorised and the distribution is no longer at the discretion of the Company. As per the Companies Act, 2013, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in other equity.

xxii. Earnings per share

Basic earnings per share

The basic earnings per share is computed by dividing the net profit attributable to the equity shareholders by weighted average number of equity shares outstanding during the reporting year.

Diluted earnings per share

Number of equity shares used in computing diluted earnings per share comprises the weighted average number of shares considered for deriving basic earnings per share and also weighted average number of equity shares which would have been issued on the conversion of all dilutive potential shares. In computing diluted earnings per share only potential equity shares that are dilutive are included.

xxiii. Share based Payment

The Company carries out fair value cost assessment of employee stock options on the grant date using Black Scholes model. The cost towards employees of the Company is recognised as employee benefits expenses and that pertaining to employees of subsidiaries are recovered from subsidiaries, over the period in which the service conditions are fulfilled. The cumulative expense/recharge recognised for equity settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has not expired and the Company's best estimate of the number of equity instruments that will ultimately vest. No expense is recognised for grants that do not ultimately vest because of non fulfilment of service conditions. Service conditions are not taken into account while determining the grant date fair value of options, but the likelihood of the conditions being met is assessed as part of the Company's best estimate of the number of equity instruments that will ultimately vest.

xxiv. Statement of Cash Flows

Cash flows are reported using indirect method as permitted under Ind AS 7, whereby profit before tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments.

Cash receipt and payment for borrowings in which the turnover is quick, the amounts are large, and the maturities are short are defined as short term borrowings and shown on net basis in the statement of cash flows. Such items include commercial papers, debt securities, cash credit, overdraft facility, working capital demand loan and triparty repo dealing and settlement. All other borrowings are terms as long term borrowings. Cash flows from deposits are shown on net basis as permitted under Ind AS 7.

Cash flows arising from interest paid and interest and dividends received are classified as cash flows arising from operating activities as permitted under Ind AS 7, since the Company is a financing entity.

Notes to the standalone financial statements

as at 31 March 2024

xxv. Standards issued but not yet effective

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the financial year beginning from 1 April 2024, MCA has not notified any new standards or amendments to the existing standards applicable to the Company.

2B CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTIES

The preparation of the financial statements in conformity with Ind AS requires the Management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) and the reported income and expenses during the year. The Management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Future results could differ due to these estimates and the differences between the actual results and the estimates are recognised in the periods in which the results are known/materialise.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected. The Company uses the following critical accounting judgements, estimates and assumptions in preparation of its financial statements:

I. Significant judgements

In the process of applying the Company's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognised in the financial statements.

i. Impairment losses on financial assets

In determining the expected credit losses, the Company makes the following judgments See Note 41.3 for further details.

• Significant increase in credit risk (SICR)

In assessing whether a significant increase in credit risk (SICR) has occurred for an exposure since initial recognition, the Company considers both quantitative and qualitative information and analysis. In doing so, the Company makes judgements about the appropriate indicators used as SICR triggers. The triggers that the Company has determined as appropriate include the 30-day backstop, movement in PD and other qualitative factors, such as moving a customer/facility to the watch list, or the account becoming forborne.

• Multiple economic scenarios

The Company in its measurement of ECL makes judgements about the type and number of macroeconomic scenarios in order to reflect the Company's exposure to credit risk.

ii. Fair Value

Significant judgement is exercised in the classification of fair value instruments as Level 3 as the valuation of such instruments is driven by significant unobservable inputs. The Company considers an instrument to be classified as valued using significant unobservable inputs where more than 10% of the instrument's valuation is determined by unobservable inputs.

II. Significant estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

iii. Expected Credit Loss Impairment and Net Loss arising on Derecognition of financial asset:

The measurement of impairment losses under Ind AS 109 across all categories of financial assets in scope requires assumptions, in particular, in the estimation of the amount and timing of future cash flows and collateral values when determining impairment losses and the assessment of a significant increase in credit risk. These estimates are driven by a number of factors, changes in which can result in different levels of allowances. The Company's ECL calculations are outputs of complex models with a number of underlying assumptions regarding the variable inputs and their interdependencies. Elements of the ECL calculation that involve assumptions include:

- The weights assigned to parameters in the scorecards used for calculation of PD and LGD
- In addition to the judgements outlined above with regards to SICR triggers, there is also an assessment of qualitative criteria to determine if there has been a significant increase in credit risk. These supplementary factors (such as sectorial approaches), result in significant assumptions
- Selection of macroeconomic variables to derive the economic inputs into the ECL model
- Additional ECL provision (including management overlay) used in circumstances where management judges that the existing inputs, assumptions and model techniques do not capture all the risk factors relevant to the Company's lending portfolios.

It has been the Company's policy to regularly review its model in the context of actual loss experience, macro economic factors and adjust when necessary.

Loans and investments debt instruments are written off when the Company has no reasonable expectations of recovering the financial asset (either in its entirety or a portion of it). This involves the Management's assessment of whether the the borrower does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off.

Refer to Note 41.3 for further details.

iv. Estimation of uncertainty relating to current macro economic scenario

In assessing the recoverability of loans, investments and investment property, the Company has considered internal and external sources of information, including credit reports, economic forecasts and industry reports up to the date of approval of these standalone financial statements. The Company has performed sensitivity analysis on the assumptions used and based on current indicators of future economic conditions, the carrying amount of these assets represent the Company's best estimate of the recoverable amounts. As a result of the macro economic uncertainties, the impact may be different from those estimated as on the date of approval of these financial statements and the Company will continue to monitor any changes to the future economic conditions.

Notes to the standalone financial statements

as at 31 March 2024

v. Fair Valuation:

Certain financial assets of the Company are measured at fair value for financial reporting purposes. In estimating the fair value of an asset and a liability, the Company uses market observable data to the extent it is available. When the fair value of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques. In such cases, the Company usually engages third party qualified external valuer to establish the appropriate valuation techniques and inputs to the valuation model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, estimation is required in establishing fair values. Judgements include considerations of inputs such as, liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of assets. Further, information about the valuation techniques and inputs used in determining the fair value of various assets and liabilities are disclosed in Note 39.

vi. Impairment loss in Investments and investment property carried at cost:

The Company conducts impairment reviews of investments in subsidiaries/ associates/ joint arrangements and Investment property, whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. Impairment exists when the carrying value of an asset exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based valuation techniques based on available data for similar assets or observable market prices less incremental costs of disposing of the asset. The recoverable amount is sensitive to the assumptions and inputs used for the fair valuation as well as the expected future cash-inflows used for valuation purposes. The key assumptions used to determine the recoverable amount are disclosed and further explained in Note 6.1 and Note 35.

vii. Income taxes and Deferred Tax Asset

The Company uses estimates and judgements based on the relevant rulings in the areas of allocation of revenue, costs, allowances and disallowances which is exercised while determining the provision for income tax. A deferred tax asset is recognised to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilised. Deferred tax assets are recognised in respect of tax losses to the extent that it is probable that future taxable profit will be available against which the tax losses can be utilised. Judgement is required to determine the amount of deferred tax assets that can be recognised, based on the likely timing and level of future taxable profits, together with future tax-planning strategies.

Refer to Note 31 for further details.

viii. Demerger of Pharma undertaking in the previous year

All assets and liabilities pertaining to demerged Pharma undertaking have been classified as non-cash assets held for transfer to Piramal Pharma Limited / shareholders as on 1st April 2022 being the appointed date. The difference between book values of the assets and liabilities transferred is recognised as gains in Profit and loss account as per the requirements of Appendix A to Ind AS 10. At the date of approval of the Scheme, the Company remeasured the liability to distribute non-cash assets as a dividend to its owners at the fair value of the assets to be distributed. The corresponding aggregate charge was recognised in retained earnings (reserve).

The nature of the gain (including remeasurement gain) being non-recurring in nature was classified as exceptional item by the Company.

As per the requirements of Ind AS 105, the income and expense pertaining to Pharma business in the previous comparable periods were presented in a separate line item – discontinued operations.

Refer to Note 42 for further details.

ix. Non-current assets held for sale and discontinued operations

Non-current assets (including disposal groups) are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable.

Non-current assets classified as held for sale are measured at lower of their carrying amount and fair value less cost to sell. Non-current assets classified as held for sale are not depreciated or amortised from the date when they are classified as held for sale.

Non-current assets classified as held for sale and the assets and liabilities of a disposal group classified as held for sale are presented separately from the other assets and liabilities in the Standalone Balance Sheet.

A discontinued operation is a component of the entity that has been disposed off or is classified as held for sale and:

- represents a separate major line of business or geographical area of operations and;
- is part of a single co-ordinated plan to dispose of such a line of business or area of operations.

The results of discontinued operations are presented separately in the Statement of Profit and Loss.

The presentation and disclosures relating to the statement of profit and loss pertaining to discontinued operations by the end of the current period are re-presented in the financial statements. There is no reclassification or re-presentation of amounts presented for non-current assets or for the assets and liabilities of disposal groups classified as held for sale in the balance sheets for prior periods to reflect the classification in the balance sheet for the latest period presented.

Refer to Note 43 for further details.

Notes :-

- 6.1 During the year ended 31 March 2023, pursuant to Composite Scheme of Arrangement and Amalgamation in Shriram group, the Company received shares of Shriram Finance Limited (SFL), Shriram LI Holdings Private Limited (SLIH), Shriram GI Holdings Private Limited (SGIH) and Shriram Investment Holdings Limited (SIHL) against the shares of Shriram City Union Finance Limited (SCUF) and Shrilakha Business Consultancy Private Limited (Shrilakha). These shares have been initially recognised as per the requirement of Ind AS 109 as follows:
- (a) Shares received against investment in SCUF resulted in gain of ₹ 172.10 crores accounted in other comprehensive income.
- (b) Shares received against investment in Shrilakha resulted in gain of ₹ 2,857.44 crores accounted in profit and loss under "other operating income"
- (c) Further, during the year ended 31 March 2024, the Company had sold its entire stake in Shriram Finance Limited for a net consideration of ₹ 4,788.58 crores resulting in profit of ₹ 854.68 crores which has been recorded under "Net gain / (loss) on fair value changes".
- 6.2 During the year ended 31 March 2023, the Company has divested its stake in Piramal Holdings (Suisse) SA ('PHSA'), a non-operative, non-material wholly owned subsidiary of the Company to Heather Investment in Commercial Enterprises & Management Co. LLC, UAE, for a consideration of ₹ 1.65 crores. Consequent to the divestment, PHSA ceases to be a wholly-owned subsidiary of the Company.
- 6.3 During the year ended 31 March 2024, Piramal Dutch IM Holdco BV ("PDIMBV"), a non-operative, non-material wholly owned subsidiary, had completed its liquidation, based upon the struck off confirmation received by Netherlands Chamber of Commerce on 8 September 2023. Consequent to which, PDIMBV ceases to be a wholly-owned subsidiary of the Company.
- 6.4 During the year ended 31 March 2024, Piramal International ("PINT"), a non-operative, non-material wholly owned subsidiary, had completed its liquidation, based upon the struck off confirmation received by Director of Insolvency Service at Mauritius on 21 September 2023. Consequent to which, PINT ceases to be a wholly-owned subsidiary of the Company.
- 6.5 Based on review of internal and external factors, the management has reassessed the assumptions, strategy and business model pertaining to its overall exposure in Real Estate fund management business. The recoverable amount of the Company's investment in equity shares of Piramal Fund Management Private Limited of ₹ 63.61 crores as at 31 March 2024 has been determined based on a value in use calculation as per the requirements of Ind AS 36 determined by the Company. The projected cash flows used reflect the management's assessment of the net cash flows available to the Company from the operations of the subsidiary. It was concluded that the fair value less costs of disposal did not exceed the value in use. As a result of this analysis, management has recognised an impairment charge of ₹ 44.65 crores towards investments in equity shares of the subsidiary (recorded under 'Other expense' in the statement of profit or loss); Fair value loss of ₹ 105 crores towards investments in preference shares of the subsidiary (recorded under 'Net gain on fair value changes' in the statement of profit or loss) and expected credit loss charge of ₹ 110.16 crores towards loans outstanding from the subsidiary (recorded under 'Impairment on financial instruments' in the statement of profit or loss).
- 6.6 Government securities of ₹ 5 Crore (previous year Nil) is pledge for triparty repo dealing and settlement (TREP)s
- 6.7 During the year ending March 31, 2024, the Company has invested in 2,00,00,00,000 equity shares through a right issue at a face value of ₹ 10 each, aggregating to ₹ 2,000 crores into its wholly owned subsidiary, Piramal Capital & Housing Finance Ltd.

31 Income Taxes

	For the year ended	
	31 March 2024	31 March 2023
a. Recognised in Standalone Statement of Profit and Loss		
Current Tax		
In respect of the current year	52.00	-
Prior year tax	2.31	-
Deferred Tax charge / (credit)		
In respect of the current year	8.38	(112.77)
Total income taxes	62.69	(112.77)

b. The income tax expense for the year can be reconciled to the accounting profit as follows:

	Year ended		Effective tax rate reconciliation	
	31 March 2024	31 March 2023	Year ended	Year ended
Profit before tax*	536.74	2,000.68		
Income tax expense calculated at 25.17% (Previous year at 25.17%)	135.10	503.57	25.17%	25.17%
Tax effect of disallowance:				
Effect of expenses that are not deductible in determining taxable profit	5.49	13.24	1.02%	0.66%
Effect of capital gains on sale of investments in shares	(40.00)	(660.02)	-7.45%	-32.99%
Effect of deduction from dividend income	(40.60)	-	-7.56%	0.00%
Effect of EIR and unamortised expenses	-	23.68	0.00%	1.18%
Others	0.40	6.76	0.07%	0.34%
Income tax expense recognised in profit or loss	60.38	(112.77)	11.25%	-5.64%

*Including exceptional item of ₹ 397.83 crores in for the year ended 31 March 2023

The tax rate used for the reconciliations above is the corporate tax rate of 25.17% for the year 2023-24 and 2022-23

In assessing the realizability of deferred tax assets, the Company considers the extent to which it is probable that the deferred tax asset will be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable profits during the periods in which those temporary differences and tax loss carry-forwards become deductible. The Company considers the expected reversal of deferred tax liabilities, projected future taxable income and tax planning strategies in making this assessment. Based on this, the Company believes that it is probable that the Company will realize the benefits of these deductible differences. The amount of deferred tax asset considered realizable, however, could be reduced in the near term if the estimates of future taxable income during the carry-forward period are reduced.

	As at 31 March 2024	As at 31 March 2023	As at 31 March 2024	As at 31 March 2023
Current service cost	0.80	0.56	5.30	3.88
Interest cost	1.28	1.13	-	-
Past service cost	0.22	-	-	-
Total expenses / (income) recognised in the Standalone Statement of Profit and Loss	2.30	1.69	5.30	3.88

F. Expenses recognized in the Other Comprehensive Income (OCI) for current year

Particulars	Gratuity	
	As at 31 March 2024	As at 31 March 2023
Actuarial (gains)/losses on obligation due to change in demographic assumptions	0.37	-
Actuarial (gains)/losses on obligation due to change in financial assumptions	0.70	(0.08)
Actuarial (gains)/losses on obligation due to experience	2.25	(1.50)
Return on plan assets, excluding interest income	(0.14)	0.21
Change in asset ceiling	-	-
Net (income)/expense For the year recognized in OCI	3.18	(1.37)

G. Significant actuarial assumptions:

Particulars	Gratuity		Provident Fund	
	Year Ended 31 March 2024	Year Ended 31 March 2023	Year Ended 31 March 2024	Year Ended 31 March 2023
Expected return on plan assets	7.18%	7.35%	8.25%	8.15%
Rate of discounting	7.18%	7.35%	7.18%	7.35%
Rate of salary increase	10.00%	9% for 3 years then 6%	N.A.	N.A.

H. Movement in present value of net defined benefit obligation are as follows

Particulars	Gratuity	
	As at 31 March 2024	As at 31 March 2023
Opening net liability	17.47	25.74
Expenses recognized in Standalone Statement of Profit or Loss	2.30	1.69
Expenses recognized in OCI	3.18	(1.37)
Net liability transfer in	2.18	-
Net (liability)/asset transfer out	-	-
Benefit paid directly by the employer	(1.71)	(3.16)
Benefit paid - contribution to the fund	(5.10)	(5.43)
Net liability/(asset) recognized in the Standalone Balance Sheet	18.32	17.47

Projected benefit obligation (PBO)	24.85	18.67
Prescribed contribution for next year (12 months)	3.85	3.27

K. Cash flow projection: from the fund

Projected benefits payable in future years from the date of reporting	Gratuity Estimated for the year ended	
	31 March 2024	31 March 2023
1st Following Year	18.26	13.23
2nd Following Year	1.12	0.67
3rd Following Year	1.25	0.46
4th Following Year	1.04	0.66
5th Following Year	1.14	0.64
Sum of Years 6 to 10	2.98	2.67
Sum of Years 11 and above	9.81	5.18

L. Sensitivity analysis

Projected benefits payable in future years from the date of reporting	Gratuity	
	As at 31 March 2024	As at 31 March 2023
Delta effect of +1% change in rate of discounting	(0.29)	(0.37)
Delta effect of -1% change in rate of discounting	0.32	0.42
Delta effect of +1% change in rate of salary increase	0.31	0.42
Delta effect of -1% change in rate of salary increase	(0.29)	(0.38)
Delta effect of +1% change in rate of employee turnover	(0.07)	0.01
Delta effect of -1% change in rate of employee turnover	0.08	(0.02)

Notes:

Gratuity is payable as per company' scheme as detailed in the report.

Actuarial gains/losses are recognized in the period of occurrence under Other Comprehensive Income (OCI). All above reported figures of OCI are gross of taxation.

Salary escalation and attrition rate are considered as advised by the company; they appear to be in line with the industry practice considering promotion and demand and supply of the employees.

Cash flow projection is done considering future salary, attrition and death in respective year for members as mentioned above.

These plans typically expose the Company to actuarial risks such as: investment risk, interest rate risk, longevity risk and salary risk.

Investment risk

The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds. Plan investment is a mix of investments in government securities, and other debt instruments.

Interest risk

A decrease in the bond interest rate will increase the plan liability; however, this will be partially offset by an increase in the return on the plan's debt investments.

Piramal Enterprises Limited

Notes to the standalone financial statements (Continued)

as at 31 March 2024

(₹ in Crores, unless otherwise stated)

38 Employee benefits:

Longevity risk

The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

Salary risk

The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

39 Fair value disclosures

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e., an exit price), regardless of whether that price is directly observable or estimated using a valuation technique. In order to show how fair values have been derived, financial instruments are classified based on a hierarchy of valuation techniques.

The Company determines fair values of its financial instruments according to the fair value hierarchy as explained in Note 2 (iv).

This note describes the fair value measurement of both financial and non-financial instruments.

The Company's valuation framework includes:

- Benchmarking prices against observable market prices or other independent sources;
- Development and validation of fair valuation models using model logic, inputs, outputs and adjustments.
- Use of fair values as determined by the derivative counter parties.

These valuation models are subject to a validation before they become operational and are continuously calibrated. The Company ensures that the fair values are in compliance with the requirements of accounting standards.

a) Categories of financial instruments:	31 March 2024			31 March 2023

Notes:

Valuation methodologies adopted

- i. Investments in quoted instruments are fair valued using quoted prices or closing Net Asset Value (NAV), with appropriate adjustments as required by Ind AS 113.
 - ii. Investments in Alternative Investment Funds (other than those covered in RBI Circular as explained in Note 44) and Security Receipts is valued basis the Net Asset Value (NAV), with appropriate adjustments as required by Ind AS 113. The Company obtains valuation of the Security Receipts on a 6-monthly basis as permitted under regulatory requirements.
 - iii. Valuation has been determined by using discounted cash flow method on the basis of the contractual cash flows. The discounting factor used has been arrived at after adjusting the rate of interest for the financial assets by the difference in the government securities rates from date of initial recognition to the reporting dates.
 - iv. Fair values of borrowings are based on discounted cash flow using a current borrowing rate. They are classified as Level 3 values hierarchy due to the use of unobservable inputs, including own credit risk. The discounting factor used has been arrived at after adjusting the rate of interest for the financial liabilities by the difference in the government securities rates from date of initial recognition to the reporting dates.
- # The Company has not disclosed the fair value of cash & cash equivalents, bank balances, other financial assets, trade payables and other financial liabilities, because their carrying amounts are a reasonable approximation of fair value.
- Investments in subsidiaries and joint venture companies are measured at cost less provision for impairment, if any and therefore the above disclosure is not applicable for the same.

c) Fair value measurements using significant unobservable inputs (Level 3)

The following table presents the changes in Level 3 items for the year ended 31 March 2024 and 31 March, 2023

Particulars	Investments in Project receivables	Investments in security receipts and AIF	Preference Shares	Debentures (NCD & OCD)	Loans - FVTPL	Total
As at March 31, 2022		2,149.80	106.84	559.31	416.03	3,231.98
Acquisitions	-	634.33	4.17	5.25	-	643.75
Realisations / impairment	-	(116.46)	-	(515.68)	(310.03)	(942.17)
Income recognised in standalone statement of profit and loss	-	201.16	(0.01)	(0.00)	1.54	202.68
As at March 31, 2023		2,868.82	111.00	48.88	107.54	3,136.24
Acquisitions	273.64	470.63	-	300.00	-	770.63
Realisations / impairment / Regulatory provision*	(4.34)	(1,612.97)	(105.00)	(348.11)	(103.55)	(2,169.63)
Income recognised in standalone statement of profit and loss	-	50.56	0.87	(0.77)	(3.99)	46.67
As at March 31, 2024	269.30	1,777.04	6.87	-	-	1,783.91

* Includes regulatory provision on investment in AIF (refer note 44)

Piramal Enterprises Limited

Notes to the standalone financial statements (Continued)

as at 31 March 2024

(₹ in Crores, unless otherwise stated)

d) Valuation Process

The Company engages external valuation consultants to fair value below mentioned financial instruments measured at FVTPL . The main level 3 inputs used for preference shares and debentures are as follows:

For Non-convertible Debentures, Waterfall approach has been used to arrive at the yields for securities held by the Company. For determining the equity prices Monte Carlo simulations and local volatility model using the inputs like spot rate, volatility surface, term structures and risk free rates from globally accepted 3rd party vendor for these data have been used.

The current market borrowing rates of the Company are compared with relevant market matrices as at the reporting dates to arrive at the discounting rates

For determining the equity prices Monte Carlo simulations and local volatility model using the inputs like spot rate, volatility surface, term structures and risk free rates from globally accepted 3rd party vendor for these data have been used.

For Preference Shares and Optionally Convertible Debentures, considered the value as maximum of debt value or equity value as on valuation date. For computation of debt value, discounted cash flow method has been used. For computation of equity value, market approach - comparable company multiple approach, the price to earnings multiple of peer companies in particular has been used.

e) Sensitivity for FVTPL Instruments measured at Level 3

The following table summarises the valuation techniques together with the significant unobservable inputs used to measure Level 3 financial assets. Relationships between unobservable inputs (discount rate and projected cash flows) have been incorporated in this table.

	Fair Value of Level 3 financial asset	Reporting Date	Increase / (Decrease) in the unobservable input	Sensitivity Impact on statement of profit and loss	
				Favourable	Unfavourable
Discounted Cash Flow Model	2,053.36	31 March 2024	2%	41.07	(41.07)
Discounted Cash Flow Model	3,136.39	31 March 2023	2%	62.73	(62.73)

Discount rates used when calculating the present value of future cash flows are adjusted to spreads to the benchmark rate for discounting the future expected cash flows. Hence, these spreads reduce the net present value of an asset.

Cash flows estimated reflect the estimated realisation to the Company. Realisation rates for less liquid instruments are usually unobservable and are estimated based on historical data.

Piramal Enterprises Limited

Notes to the standalone financial statements (Continued)

as at 31 March 2024

(₹ in Crores, unless otherwise stated)

40 Capital management

The Company's capital management strategy is to effectively determine, raise and deploy capital so as to create value for its shareholders. The same is done through a mix of either equity and/or combination of short term /long term debt as may be appropriate. The Company determines the amount of capital required on the basis of operations, capital expenditure and strategic investment plans. The capital structure is monitored on the basis of net debt to equity and maturity profile of overall debt portfolio. The primary objectives of the Company's capital management policy are to ensure that it complies with capital requirements and maintains strong credit ratings and healthy capital ratios in order to support its business and to maximise shareholder value.

The Company is subject to the capital adequacy requirements of the Reserve Bank of India (RBI). Under RBI's capital adequacy guidelines, the Company is required to maintain a capital adequacy ratio consisting of Tier I and Tier II Capital. The minimum capital ratio as prescribed by RBI guidelines and applicable to the Company, consisting of Tier I and Tier II capital, shall not be less than 15% of its aggregate risk weighted assets on-balance sheet and of risk adjusted value of off-balance sheet.

The Company has complied with all regulatory requirements related to capital and capital adequacy ratios as prescribed by RBI. Refer note 47 for capital adequacy and related disclosures. Refer note 20.10 for dividend paid and proposed by the Company.

41 Risk management

Risk Management is an integral part of the Company's business strategy. The Risk Management oversight structure includes Committees of the Board and Management Committees. Company's risk philosophy is to develop and maintain a healthy portfolio which is within its risk appetite and the regulatory framework. While the Company is exposed to various types of risks, the most important among them are liquidity risk, interest rate risk, credit risk, regulatory risk and fraud and operational risk. The measurement, monitoring and management of risks remain a key focus area for the Company.

The Audit Committee of the Board provides direction to and monitors the quality of the internal audit function and also monitors compliance with RBI and other regulators.

The Company's risk management strategy is based on a clear understanding of various risks, disciplined risk assessment and measurement procedures and continuous monitoring. The policies and procedures established for this purpose are continuously benchmarked with market best practices.

The Sustainability & Risk Management Committee of the Board ("SRMC") reviews compliance with risk policies, monitors risk tolerance limits, reviews and analyse risk exposure and provides oversight of risk across the organization. The SRMC nurtures a healthy and independent risk management function to inculcate a strong risk management culture in the Company and broadly perceives the risk arising from (i) credit risk, (ii) liquidity risk, (iii) interest rate risk and (iv) fraud risk and operational risk (v) regulatory risk

41.1 Liquidity risk

Liquidity Risk refers to insufficiency of funds to meet the financial obligations. Liquidity Risk Management implies maintenance of sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit lines to meet obligations when due.

The Company has formulated an Asset Liability Management Policy in line with RBI guidelines for Non-Banking Financial Company. The Asset Liability Management Committee (ALCO) is responsible for the management of the companies funding and liquidity requirements. The company manages liquidity risk by maintaining sufficient cash and marketable securities, unutilised banking facilities, credit lines and by continuously monitoring forecast and actual cash flows, and by assessing the maturity profiles of financial assets and liabilities. The liquidity risk and funding function are managed by the Company's treasury team under liquidity risk management framework through various means like HQLA, liquidity buffers, sourcing of long-term funds, positive asset liability mismatch, keeping strong pipeline of sanctions from banks and assignment of loans to counter liquidity situation under the guidance of ALCO and Board.

The following tables detail the Company's remaining contractual maturity for its financial liabilities with agreed repayment periods. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay. The tables include both interest and principal cash flows. To the extent that interest flows are floating rate, the rate applicable as of March 31, 2024 and March 31, 2023 respectively has been considered. The contractual maturity is based on the earliest date on which the Company may be required to pay.

RBI vide circular No. RBI/2019-20/88 DOR.NBFC (PD) CC. No.102/03.10.001/2019-20 has issued guidelines on liquidity risk framework for NBFCs. It covers various aspects of Liquidity risk management such as granular level classification of buckets in structural liquidity statement, tolerance limits thereupon, and liquidity risk management principles. The Company has a Asset Liabilities Management Guidelines which covers liquidity risk management policy, strategies and practices, liquidity coverage ratio (LCR), stress testing, maturity profiling, liquidity risk measurement, interest rate risk and liquidity risk monitoring framework.

The Company exceeds the regulatory requirement of LCR which mandate maintaining prescribed coverage of expected net cash outflows for a stressed scenario in the form of high quality liquid assets (HQLA). Refer note 54 (xxix) for LCR disclosures. LCR requirement have moved to 85% from 1 December 2023 and would be moving to 100% by December 2024.

41.2 Interest rate risk and sensitivity analysis

The Company is exposed to interest rate risk as it has assets and liabilities based on both fixed and floating interest rates. The Company has an approved Asset and Liability Management Policy which empowers the Asset and Liability Management Committee (ALCO) to assess the interest rate risk run by it and provide appropriate guidelines to the Treasury to manage the risk. The ALCO reviews the interest rate risk on periodic basis and decides on the asset profile and the appropriate funding mix. The ALCO reviews the interest rate gap statement and the interest rate sensitivity analysis.

The sensitivity analysis below have been determined based on the exposure to interest rates for assets and liabilities at the end of the reporting period. For floating rate assets and liabilities, the analysis is prepared assuming the amount of the liability outstanding at the end of the reporting period was outstanding for the whole year and the rates are reset as per the applicable reset dates. The basis risk between various benchmarks used to reset the floating rate assets and liabilities has been considered to be insignificant.

The exposure of the Company's borrowings to the interest rate risk at the end of the year for variable rate borrowing is of carrying value ₹ 4,512.88 crores (March 31, 2023 ₹ 5,300.80 crores) and fixed rate borrowings are ₹ 3,358.66 crores (March 31, 2023 - ₹ 3,414.46 crores)

Piramal Enterprises Limited

Impact on the Company's profit before tax if interest rates had been 100 basis points higher / lower is given below:

Sensitivity analysis on floating rate instruments	As At 31 March, 2024		As At 31 March, 2023	
	Higher	Lower	Higher	Lower
Sensitivity analysis on floating rate debts securities, borrowings other than debt securities and deposits	(45.13)	45.13	(53.01)	53.01
Sensitivity analysis on floating rate assets	62.79	(62.79)	65.99	(65.99)

Refer note 41.6 for interest rate risk on cash flow hedge

Piramal Enterprises Limited

Notes to the standalone financial statements (Continued)

as at 31 March 2024

(₹ in Crores, unless otherwise stated)

41.3 Credit risk

The Company is exposed to credit risk through its lending activity. Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the Company. The Company has adopted a policy of dealing with creditworthy counterparties and obtaining sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults.

For both Wholesale & Retail business, a 'Risk Management Policy' is in place which oversees credit risk. The Company's Risk management team has developed proprietary internal risk rating models to evaluate the credit risk for the loans and investments made by the Company. The output of traditional credit rating model is an estimate of probability of default. For wholesale business, The Company's proprietary risk rating models are different from the traditional credit rating models as they integrate both probability of default and loss given default into a single model.

Credit risk management

Credit risk for retail is managed through models and credit policies for various products. Credit risk management for wholesale is achieved by considering various factors like :

- Promoter strength – This is an assessment of the promoter from financial, management and performance perspective.
- Industry & micro-market risk – This is an assessment of the riskiness of the industry and/or micro-market to which the borrower/project belongs
- Project risk – This is an assessment of the standalone project from which interest servicing and principal repayment is expected to be done.
- Structure risk – This is an assessment of the loan structure which is characterized by its repayment tenor, moratorium, covenants, etc.
- Security cover – This is an assessment of the value of the security under stress scenario which is further adjusted for factors like liquidity, enforceability, transparency in valuation etc. of the collateral.
- Exit – This is an assessment of the liquidity of the loan or investment.

Each of the above components of the risk analysis are assigned a specific weight which differ based on type of loan. The weights are then used with the scores of individual components for conversion to a risk rating.

Based on the above assessment the risk team categorises the deals in to the below Risk Grades

Risk Grading	Description
Dark Green	Extremely good loan
Green	Good loan
Yellow	Moderate loan
Amber	Weak loan
Red	Extremely weak loan

Further, a periodic review of the performance of the portfolio is also carried out by the Risk Group. The Risk Group adjusts the stress case considered during the initial approval based on actual performance of the deal, developments in the sector, regulatory changes etc. The deal level output is combined to form a portfolio snapshot. The trends from portfolio are used to provide strategic inputs to the management.

The credit risk on liquid funds and other financial instruments is limited because the counterparties are banks with high credit-ratings assigned credit-rating agencies or mutual funds.

Provision for expected credit loss

The Company has assessed the credit risk associated with its financial assets for provision of Expected Credit Loss (ECL) as at the reporting dates. The Company makes use of various reasonable supportive forward looking parameters which are both qualitative as well as quantitative while determining the change in credit risk and the probability of default. These parameters have been detailed out in Note No.iii of Significant Accounting Policies. Based on the result yielded by the above assessment the Financial assets are classified into (1) Standard (Performing) Asset, (2) Significant Credit Deteriorated (Under-Performing) Asset (3) Default (Non-Performing) Asset (Credit Impaired).

For the purpose of expected credit loss analysis the Company defines default as any asset with more than 90 days overdue. This is also as per the rebuttable presumption provided by the standard.

The Company provides for expected credit loss based on the following:

Category - Description	Stage	Basis for recognition of Expected credit loss
Very High quality liquid assets	Stage 1	No ECL
Assets for which credit risk has not significantly increased from initial recognition	Stage 1	12 month ECL
Assets for which credit risk has increased significantly but not credit impaired	Stage 2	Life time ECL
Assets for which credit risk has increased significantly and credit impaired	Stage 3	Loss Given Default

Piramal Enterprises Limited

Notes to the standalone financial statements (Continued)

as at 31 March 2024

(₹ in Crores, unless otherwise stated)

For the year ended March 31, 2024 and March 31, 2023 the Company has developed a PD Matrix after considering some parameters as stated below :

For provisioning on the wholesale financial assets, the key parameters for various scorecards are highlighted as follows -Real Estate products (Construction Finance, Structured Debt, LRD) - (1) Developer Grade (2) Past Overdue History (3) Remaining Tenure (4) Status from monthly Asset Monitoring report (5) Stage of the project (6) Geography etc . Some of the Parameters for Non Real Estate products (Senior lending, mezzanine, project finance etc) - (1) Sponsor strength (2) Overdues (3) Average debt service coverage ratio (4) Regulatory Risk (5) Stability of EBITDA (6) Quality of underlying assets etc. Based on these parameters the Company has computed the PD. The Company has also built in model scorecards to determine the internal LGD. However, due to lack of default history to statistically substantiate the internal LGD, the Company has made use of a combination of both internal as well as external LGD. The Company also maintains Expected Credit Loss for undisbursed limits.

The Company uses ECL allowance for retail financial assets measured at amortised cost, which are not individually significant, and comprise of a large number of homogeneous loans that have similar characteristics. The expected credit loss is a product of exposure at default, probability of default and loss given default. Due to lack of sufficient internal data, the Company uses external data from credit bureau agency (TransUnion upto Dec-22) for potential credit losses. Further, the estimates from the above sources have been adjusted with forward looking inputs from anticipated change in future macro-economic conditions to comply with IndAS 109.

Expected credit loss as at the reporting period:

As at 31 March, 2024				
Particulars	Asset group	Amortised Cost	Expected credit loss	Net amount
Assets for which credit risk has not significantly increased from initial recognition	Investments	323.38	6.58	316.79

b) Expected credit loss on undrawn loan commitments and letter of comfort:

Particulars	31 March, 2024	31 March, 2023
ECL on undrawn loan commitments (refer note 18)	4.04	23.33

c) Description of collateral held as security and other credit enhancements

The Company has set benchmarks on appropriate level of security cover for various types of deals. The Company periodically monitors the quality as well as the value of the security to meet the prescribed limits. The collateral held by the Company varies on case to case basis and includes:

- First / Subservient charge on the Land and / or Building of the project or other projects
- First / Subservient charge on the fixed and current assets of the borrower
- Hypothecation over receivables from funded project or other projects of the borrower
- Pledge on shares of the borrower or their related parties
- Guarantees of promoters / promoter undertakings
- Post dated / undated cheques

d) The credit impaired assets as at the reporting dates were secured by charge on land and building and project receivables amounting to:

Particulars	31 March, 2024	31 March, 2023
Value of Security (at Fair Value considered for LGD)	15.67	223.47

41.4 Regulatory risk:

The Company requires certain statutory and regulatory approvals for conducting business and failure to obtain retain or renew these approvals in a timely manner, may adversely affect operations. Any change in laws or regulations made by the government or a regulatory body that governs the business of the Company may increase the costs of operating the business, reduce the attractiveness of investment and / or change the competitive landscape.

41.5 Fraud risk and operational risk:

Operational risk refers to the potential loss or disruption resulting from inadequate or failed internal processes, people, systems, or external events. It encompasses risks related to human error, technology failures, legal and compliance issues, and business continuity disruptions that can impact the operations of a finance company.

Operational Risk Management policy provides the structure and techniques that will facilitate consistent functioning of Operational Risk Management (ORM) framework. This Policy is focused on Operational Risk arising on account of People, Process, Systems, and external events. Company has Operational Risk Management Committee (ORMC) consisting of senior executives which monitors the ORM framework.

Fraud Risk Management policy focuses on prevention, detection, investigation of fraud and actions that Company should take in the event of fraud. Company has formulated Fraud Risk Management Committee (FRMC) consisting of senior executives. Company has also established a channel for employees to report frauds and related concern in timely manner.

Piramal Enterprises Limited

Notes to the standalone financial statements (Continued)

as at 31 March 2024

(₹ in Crores, unless otherwise stated)

The Company has a robust Risk Management framework to identify, measure and mitigate business risks and opportunities. This framework seeks to create transparency, minimize adverse impact on the business strategy and enhance the Company's competitive advantage. This risk framework thus helps in managing market, credit, operational and fraud risks and quantifies potential impact at a Company level.

The Company has an elaborate system of internal audit commensurate with the size, scale and complexity of its operations and covers funding operations, financial reporting, fraud control and compliance with laws and regulations.

Piramal Enterprises Limited

Notes to the standalone financial statements (Continued)

as at 31 March 2024

(₹ in Crores, unless otherwise stated)

41.6 Accounting for cash flow hedge

As at March 31, 2024, the Company has invested in floating rate government securities/bonds which are linked to treasury bill rate. For managing the interest rate risk arising from changes in treasury bill rate on such investments, the Company has entered into an interest rate swaps (IRS) for the investments. The Company has designated the IRS (hedging instrument) and the investment (hedged item) into a hedging relationship and applied hedge accounting.

Under the terms of the IRS, the Company receives interest at fixed rate and pays interest at the floating rate based on daily compounded overnight FBIL MIBOR. As the critical terms of the hedged item and the hedging instrument (notional, interest periods, underlying fixed rates) are not exactly matched, the Company uses the hypothetical derivative method to assess effectiveness. The interest cash flows of the hypothetical derivative and interest rate swap are off-setting, an economic relationship exists between the two. This ensures that the hedging instrument (interest rate swap) and hedged item (hypothetical derivative) have values that generally move in the opposite direction. There was no such contract outstanding as on March 31, 2023.

Hedge Effectiveness Testing is assessed at designation date of the hedging relationship, and on an ongoing basis. The ongoing assessment is performed at a minimum at each reporting date or upon a significant change in circumstances affecting the hedge effectiveness requirements, whichever comes first.

Following table provides quantitative information regarding the hedging instrument as on March 31, 2024:

Type of risk/ hedge position	Nominal value	Carrying amount of hedging instruments	Maturity date	Hedge ratio	Average contracted fixed interest rate	Changes in fair value of hedging instrument used as a basis for recognising hedge effectiveness	Changes in value of hedged item used as a basis for recognising hedge effectiveness
Cash Flow Hedge - Interest rate risk	25.00	0.20	07-Aug-33	1:1	6.54%	0.46	-0.44

Following table provides quantitative information regarding the hedging instrument as on March 31, 2024:

Type of hedge	Changes in the value of hedging instruments recognised in Other comprehensive income	Hedge ineffectiveness recognised in profit or loss	Amount reclassified from cash flow hedge reserve to profit or loss	Line-item affected in statement of profit or loss because of reclassification
Cash Flow Hedge Interest rate risk	(0.21)	0.01	0.01	Interest income

The table below provides a profile of the timing of the nominal amounts of the Company's hedging instruments (based on residual tenor) along with the rate as applicable by risk category:

	As at March 31, 2024			
	Total	Less than 1 year	1-5 years	Over 5 years
Interest rate risk:				
Net exposure (in INR)	0.29	(0.04)	0.28	0.06
Average fixed interest rate	6.54%	6.54%	6.54%	6.54%

The following table provides a reconciliation by risk category of the components of equity and analysis of OCI items resulting from hedge accounting:

Movement in Cash flow hedge reserve for the year ended	March 31, 2024
Opening balance	-
Effective portion of changes in fair value:	
Interest rate risk	0.21
Tax on movements on reserves during the year	(0.05)
Net amount reclassified to profit or loss:	
Interest rate risk	(0.01)
Tax on movements on reserves during the year	0.00
Closing balance	0.15

42 Composite Scheme of Arrangement - Discontinued Operations

Disposal Of Pharmaceutical Business

The board of directors of the Company, at their meeting held on 7 October 2021, had inter alia, approved the composite Scheme of Arrangement under applicable provisions of the Companies Act, 2013 between Company, Piramal Pharma Limited ('PPL'), Convergence Chemicals Private Limited ('CCPL'), Hemmo Pharmaceuticals Private Limited ('HPPL'), PHL Fininvest Private Limited ('PFPL') and their respective shareholders and creditors ('Scheme'). The Scheme inter alia provides for the following:

- (i) the transfer by way of demerger of the Demerged Undertaking (as set out in the Scheme) from Company to PPL, a subsidiary of PEL
- (ii) the amalgamation of CCPL and HPPL (both being wholly owned subsidiaries of PPL) into PPL.
- (iii) the amalgamation of PFPL (a wholly owned subsidiary of PEL) into company ('FS Amalgamation').

The Scheme was approved by the Hon'ble National Company Law Tribunal on 12 August 2022. Accordingly, the Scheme became operative from Appointed date i.e. 1 April 2022.

The composite scheme of arrangement ("the Scheme") for demerger of Pharma undertaking and merger of PHL Fininvest Private Limited, a wholly owned subsidiary company, into the Company was approved by the Hon'ble National Company Law Tribunal on 12 August 2022. Accordingly, the Scheme became operative from Appointed date i.e. 1 April 2022.

The Company had given effect to accounting as follows:

All assets and liabilities pertaining to demerged Pharma undertaking had been classified as non-cash assets held for transfer to Piramal Pharma Limited / shareholders as on 1st April 2022 being the appointed date. The difference between book values of the assets and liabilities transferred is recognised as gains in Profit and loss account amounting to ₹ 11,459.96 crores as per the requirements of Appendix A to Ind AS 10. At the date of approval of the Scheme, the liability was subsequently remeasured resulting in remeasurement gain of ₹ 759.76 crores. The corresponding aggregate charge was recognised in retained earnings (reserve) as per the requirements of the aforesaid Ind AS. The nature of the gain (including remeasurement gain) being non-recurring in nature was classified as exceptional item by the Company. As per the requirements of Ind AS 105, the income and expense pertaining to Pharma business in the previous comparable periods were presented in a separate line item – discontinued operations.

Costs incidental / consequential to the arrangement aggregating to ₹ 397.83 crores incurred by the Company was considered as exceptional items being non-recurring in nature.

Particulars	As on 1 April 2022
(i) Fair value of the of Pharma undertaking at date of derecognition	12,982.55
(ii) Analysis of asset and liabilities over which control was lost	
Assets	
Financial assets	1,667.52
Non- financial assets	332.28
Total Assets (A)	1,999.80
Liabilities	
Financial liabilities	462.76
Provisions	7.41
Deferred tax liabilities	4.22
Other non- financial liabilities	2.78
Non- Financial liabilities	14.41
Total liabilities (B)	477.17
Net assets disposed off [C= (A-B)]	1,522.63
Gain on transfer of the pharma undertaking at date of derecognition[i-ii]	11,459.92
Gain on Subsequent remeasurement	759.76
Total Gain recognised in profit and loss	12,219.68
Distribution of Investments in Piramal Pharma Limited	1,463.45
Other Distribution in the composite scheme	59.18
Total amount distributed	13,742.31

Merger of PHL Fininvest Private Limited

Pursuant to above composite scheme of arrangement, all assets and liabilities of PHL Fininvest Private Limited had been recorded at book values as appearing in the financial statement after eliminating all inter-company transactions and balances. All prior period comparative information was restated as per the requirements of Appendix A to Ind AS 103. Accordingly, capital reserve of ₹ 4.66 crores was recognised by the Company.

Piramal Enterprises Limited

Notes to the standalone financial statements (Continued)

as at 31 March 2024

(₹ in Crores, unless otherwise stated)

43 Assets held for sale

(a) During the year ended 31 March 2023, on conclusion of a strategic review of its investments, the Group initiated identification and evaluation of potential buyers for its associate investments, Shriram LI Holdings Private Limited, Shriram GI Holdings Private Limited and Shriram Investment Holdings Limited. The Company anticipated completion of the sale in foreseeable future and accordingly, investments amounting to ₹ 2,277.54 crores in respect of these associates had been reclassified under 'assets held for sale'. On reclassification, these investments have been measured at the lower of carrying amount and fair value less cost to sell.

(b) Shriram Investment Holdings Private Limited

In addition to point (a) above, during the year ended 31 March 2024, the Company has entered into share purchase agreement to sell its entire direct investment of 20% equity held in Shriram Investment Holdings Private Limited (formerly known as Shriram Investment Holdings Limited), classified as assets held for sale, to Shriram Ownership Trust, for a cash consideration of ₹1,439.89 crores. Accordingly, a gain of ₹ 870.69 crores is accounted in the books of the Company on completion of the transaction and classified under other operating income.

(c) Shriram LI Holdings Private Limited and Shriram GI Holdings Private Limited

(i) Pursuant to the restructuring of Shriram Group in November 2022, the Company had received shares in multiple Shriram Group companies, as explained in note 6.1 of the financial statements. It includes Company's ownership of 20% in both Shriram GI Holdings Private Limited and Shriram LI Holdings Pvt Limited (Holding Companies). On receipt of these shares, the Company's intention was to dispose them off and hence were classified as 'assets held for sale'. These Holding Companies own stakes in Shriram General Insurance Company Limited and Shriram Life Insurance Company Limited (Operating Companies) respectively.

Subsequently, Shriram Group has proposed to merge Holding Companies into the respective Operating Companies, which will result in the Company's holding direct stakes in these Operating Companies. Based on discussions with prospective buyers, the feedback is that there is a preference towards owning direct stakes in the Operating Companies rather than in Holding Companies. Hence, these prospective buyers are inclined to wait for the said merger process to get completed. However, this merger process is subject to the approval from regulators particularly IRDA.

In light of the above, it has been decided to wait for the completion of the said merger process. However, the Company remains committed to its plans to divest its stakes in these non-core investments and does not intend to hold these investments in the long term. Accordingly these investments are classified as held for sale under Ind AS 105.

(ii) The Company received dividend of ₹ 9.88 crores and ₹ 39.70 crores from Shriram LI Holdings Private Limited and Shriram GI Holdings Private Limited respectively during the year ended 31 March 2024.

(iii) Based on valuation reports of independent external valuer, no impairment provision was required for the year ended 31 March 2024 on these investments.

44 Regulatory AIF provisions

During the year ended 31 March 2024, the Company made regulatory provision of ₹ 365.00 crores in respect of investments in Alternative Investment Funds (AIFs) pursuant to the RBI circular dated 19 December 2023 and further clarifications vide RBI circular dated 27 March 2024. The same has been disclosed under exceptional items due to the nature and amount of provision. The Management remains confident of full recovery of the balance AIF investment.

45 Corporate social responsibility expenditure

50 Foreign Currency Risk Management

The Company is exposed to Currency Risk arising from its trade exposures and Capital receipt / payments denominated, in other than the Functional Currency. The Company has a detailed policy which includes setting of the recognition parameters, benchmark targets, the boundaries within which the treasury has to perform and also lays down the checks and controls to ensure the effectiveness of the treasury function.

The Company has defined strategies for addressing the risks for each category of exposures (e.g. for exports, for imports, for loans, etc.). The centralised treasury function aggregates the foreign exchange exposure and takes prudent measures to hedge the exposure based on prevalent macro-economic conditions.

a) Particulars of foreign currency exposures as at the reporting date

The Company had formulated Employees' Stock Ownership Plan - 2015 ("ESOP Scheme 2015"), under which, such eligible employees of the Company and its subsidiaries can exercise Stock Options that were vested in them under such ESOP Scheme 2015

The ESOP Scheme 2015 were approved by the Nomination and Remuneration Committee and the effective date of the same is 31 March 2023

Under the ESOP Scheme 2015, 18,21,487 (Previous year 7,70,022) stock options are granted on various grant dates, of which 14,04,690 (Previous year 5,88,194) stock options were granted to employees of group companies.

Number and weighted average exercise prices (WAEP) of, and movements in, share options during the year

Particulars	As at 31 March 2024		As at 31 March 2023	
	Number of options#	Weighted- Average Exercise Price	Number of options#	Weighted- Average Exercise Price
Outstanding as on April 01	7,70,022	₹ 2	-	-
Granted during the year*	10,51,465	₹ 2	7,70,022	₹ 2
Exercised during the year	-	-	-	-
Forfeited/lapsed during the year	80,603	₹ 2	-	-
Outstanding as on March 31, 2024*	17,40,884	₹ 2	7,70,022	₹ 2
Exercisable as on March 31, 2024	17,40,884	₹ 2	7,70,022	₹ 2
Weighted Average Remaining Contractual life	5.9 years		5 years	

*Includes 25,413 (as at 31 March 2023 - 12,256) options granted to Key managerial personnel of the Company.

#Includes Options granted to group Company employees

The Black Scholes Valuation model has been used for computing the weighted average fair value of stock options granted during the year considering the following input:

Grant date	No. of Years vesting	Fair value per option	Option Granted
31-Mar-23	2.34 - Years	₹ 631.84 - ₹ 639.48	4,38,388
31-Mar-23	3.18 - Years	₹ 628.66 - ₹ 638.53	3,09,663
31-Mar-23	4.34 - Years	₹ 624.83 - ₹ 631.84	21,971
13-Apr-23	3.13 - Years	₹ 640.39 - ₹ 653.93	4,76,406
17-Jul-23	3 - Years	₹ 895.03 - ₹ 916.08	5,75,059

The fair value has been calculated using the Black Scholes Options Pricing Model and the significant assumptions made in this regard are as follows:

Grant dated	31-Mar-23	31-Mar-23	31-Mar-23	13-Apr-23	17-Jul-23
No. of Years vesting	2.34 - Years	3.18 - Years	4.34 - Years	3.13 - Years	3 - Years
Risk free interest rate	6.91% - 6.92%	6.90% - 6.93%	6.92% - 6.93%	6.79% - 6.88%	6.81% - 6.84%
Expected life	3 - 3.67 years	3.05 - 4.09 years	3.67 - 4.67 years	3.55 - 5.64 years	3.5 - 5.5 years
Expected volatility	55.62% - 58.71%	56.00% - 58.73%	55.10% - 57.16%	53.77% - 56.24%	52.14% - 55.12%
Expected dividend yield	1.87% - 1.9%	1.8% - 1.92%	1.71% - 1.87%	1.58% - 1.91%	1.74% - 2.07%
Exercise Price (₹)	2	2	2	2	2
Stock Price (₹)	678.35	678.35	678.35	701.4	986.6

53 The Board of Directors of Piramal Capital & Housing Finance Limited ("PCHFL"), in its meeting dated 8th May, 2024, has approved a Composite Scheme of Arrangement ("Scheme") under sections 230 to 232 read with section 66 and section 52 and other applicable provisions of the Companies Act, 2013 for amalgamation of the Company with PCHFL as a reverse merger. This amalgamation is set to take effect from appointed date i.e. 1 April, 2024, by way of reverse merger by absorption pursuant to a scheme of arrangement under the provisions of Sections 230 - 232 read with section 66 and section 52 and other relevant provisions of the Companies Act, 2013 (including the rules thereunder).

The proposed scheme is subject to various approvals, including the approval from shareholders, lenders, regulators, the National Company Law Tribunal ("NCLT") and other regulatory/statutory approvals, as may be required. The proposed amalgamation aims to simplify group structure including the regulatory developments and reforms including higher regulatory standards for NBFCs, optimize capital, strengthen the balance sheet, and enhance operational and financial effectiveness.

(xv) **Movement of NPAs**

Particulars		31 March 2024	31 March 2023
(i)	Net NPA to net advances (%)	0.14%	2.27%
(ii)	Movement of NPAs (Gross)		
	(a) Opening balance	511.53	1,016.17
	(b) Additions during the year	497.72	989.36
	(c) Reductions during the year due to recoveries	(726.41)	(1,494.00)
	(d) Closing balance	282.84	511.53
(iii)	Movement of NPAs (Net)		
	(a) Opening balance	223.47	427.24
	(b) Additions during the year	149.09	262.28
	(c) Reductions during the year	(356.90)	(466.05)
	(d) Closing balance	15.66	223.47
(iv)	Movement of provisions for NPAs (excluding provision on standard asset)		
	(a) Opening balance	288.06	588.93
	(b) Provisions made during the year	348.63	727.08
	(c) Write-off/ Write-back of excess provisions	(369.51)	(1,027.95)
	(d) Closing balance	267.18	288.06

(xvi) **Structured product issued**

The Company has not issued any structured product during the current and previous year ended 31 March 2024 and 31 March 2023 respectively.

(xvii) **Summary of Significant Accounting Policies**

The accounting policies regarding key areas of operations are disclosed in note 2 to the standalone financial statements.

(xviii) **Capital to Risk Assets Ratio (CRAR)**

Sr No	Particulars	31 March 2024	31 March 2023 (Refer note 5 below)
1	CRAR (%)	35.49%	30.31%
2	CRAR - Tier I capital (%)	34.24%	29.06%
3	CRAR - Tier II capital (%)	1.25%	1.25%
4	Amount of subordinated debt raised as Tier-2 capital	-	-
5	Amount raised by issue of perpetual debt instruments	-	-

For the purpose of calculating CRAR, below points have been considered:

- 1 Provision is calculated as per the Expected Credit loss ('ECL') model as given in Note 2 (v) of the standalone financial statements.
- 2 Stage 3 assets are considered as NPA and Stage 1 and 2 assets are considered as Standard assets.
- 3 The amortised cost of loans and advances and Investments and fair value in case of FVTPL instruments as per Ind AS as given in Note 2 (iii) of the standalone financial statement.
- 4 Amount for contingent liabilities and undrawn committed credit lines under non-funded exposures have been considered as per note 32 (a) of the standalone financial statements.
- 5 During the course of inspection for the position as on 31 March 2023, the Reserve Bank of India ("RBI") had observed certain deficiencies pertaining to the adequacy of the Company's system and documentation with respect to direct assignment transactions, particularly, non-compliance with Guidelines on Transfer of Loans Exposures dated 24 September 2021. Consequentially, the RBI had increased the capital weightage to the Company's loans purchased from other financial entities (other than PCHFL) through direct assignment by way of additional risk weighted assets ("RWAs") at 567%. Subsequently, on account of remedial measures taken by the Company and submission of compliance thereof, RBI vide their email dated 14 March 24 has accepted the Company's submission and also allowed the Company to maintain the capital charge on risk weighted assets as per extant RBI guidelines for the acquired loans which are transferred from other financial entities.

Based on this, as on 31 March 2024, the Company has calculated CRAR using the capital weightage as per the extant RBI guidelines and directives. Management believes that the Company continues to be compliant with RBI guidelines on Transfer of Loans Exposures dated 24 September 2021.

Qualitative disclosures

- The Company has implemented the guidelines on Liquidity Risk Management Framework prescribed by the Reserve Bank of India requiring maintenance of Liquidity Coverage Ratio (LCR), which aim to ensure that an NBFC maintains an adequate level of unencumbered HQLAs that can be used to meet its liquidity needs for the next month under a significantly severe liquidity stress scenario.
- LCR = Stock of High-Quality Liquid Assets (HQLAs)/Total Net Cash Outflows over the next 30 calendar days.
- For the purpose of HQLA, the company considers: (1) Unencumbered government securities (2) Cash and Bank Balances and (3) Treasury Bills
- Since the Company commenced its NBFC business from 18th August 2022, hence the company has prepared the LCR disclosure basis simple averages of balances from 18th August 2022.
- The cash inflows include amount based on contractual basis for Loans & Advances that are standard in nature.
- Other Contingent Funding Obligations include the undisbursed loan amount only of those loans which have non-cancellable clauses.
- The Liquidity Risk Management framework of the Company is governed by its Asset Liability Management Policy approved by the Board. The Asset Liability Management Committee (ALCO) oversees the implementation of liquidity risk management framework of the Company and ensure adherence to the risk tolerance / limits set by the Board.
- As prescribed by the RBI Guidelines, Total net cash outflows are arrived after taking into consideration total expected cash outflows minus total expected cash inflows for the subsequent month.
- Total net cash outflows over the next 30 days = Stressed Outflows - [Min (stressed inflows; 75% of stressed outflows)].
- Total expected cash outflows (stressed outflows) are calculated by multiplying the outstanding balances of various categories or types of liabilities by 115% (15% being the rate at which they are expected to run off further or be drawn down).
- Total expected cash inflows (stressed inflows) are calculated by multiplying the outstanding balances of various categories of contractual receivables by 75% (25% being the rate at which they are expected to under-flow).
- The company has maintained healthy Liquidity Coverage Ratio (LCR) for the time period under consideration. The company had LCR of 718.67% as of March 31, 2024, 661.29% as of December 31, 2023, 490.69% as of September 30, 2023 and 617.64% as of June 30, 2023 which is higher than LCR mandated by RBI. The company regularly reviews the maturity position of assets and liabilities and liquidity buffers, and ensures maintenance of sufficient quantum of High Quality Liquid Assets.

Notes

- Since the total impairment allowances under Ind AS 109 is higher than the total provisioning required under IRACP (including standard asset provisioning) as at 31st March, 2024, no amount is required to be transferred to 'Impairment Reserve'. The balance in the 'Impairment Reserve' (if and when created) shall not be reckoned for regulatory capital. Further, no withdrawals shall be permitted from this reserve without prior permission from the Department of Supervision, RBI.
- In terms of recommendations as per above referred notification, the Company has adopted the same definition of default for accounting purposes as guided by the definition used for regulatory purposes.

2 Notional principal amount of exchange traded IR derivatives outstanding as on 31st March 24	-	-
3 Notional principal amount of exchange traded IR derivatives outstanding and not "highly effective" (instrument wise)	-	-
4 Mark-to-market value of exchange traded IR derivatives outstanding and not "highly effective" (instrument wise)	-	-

(c) **Disclosures on Risk Exposure in Derivatives**

Qualitative Disclosures

As at March 31, 2024, the Company has invested in floating rate government securities/bonds which are linked to treasury bill rate. For managing the interest rate risk arising from changes in treasury bill rate on such investments, the Company has entered into an interest rate swaps (IRS) for the investments. The Company has designated the IRS (hedging instrument) and the investment (hedged item) into a hedging relationship and applied hedge accounting.

Under the terms of the IRS, the Company receives interest at fixed rate and pays interest at the floating rate based on daily compounded overnight FBIL MIBOR. As the critical terms of the hedged item and the hedging instrument (notional, interest periods, underlying fixed rates) are not exactly matched, the Company uses the hypothetical derivative method to assess effectiveness. The interest cash flows of the hypothetical derivative and interest rate swap are off-setting, an economic relationship exists between the two. This ensures that the hedging instrument (interest rate swap) and hedged item (hypothetical derivative) have values that generally move in the opposite direction. There was no such contract outstanding as on March 31, 2023.

Hedge Effectiveness Testing is assessed at designation date of the hedging relationship, and on an ongoing basis. The ongoing assessment is performed at a minimum at each reporting date or upon a significant change in circumstances affecting the hedge effectiveness requirements, whichever comes first.

Quantitative Disclosures

Particulars	31 March 2024		31 March 2023

INDEPENDENT AUDITORS' REPORT

To,
The Members of
Piramal Enterprises Limited

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of **Piramal Enterprises Limited** ("the Holding Company") and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group") which includes the Group's share of profit in its associates and joint ventures, which comprise the Consolidated Balance Sheet as at 31 March 2023, and the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), Consolidated Statement of Changes in Equity and Consolidated Cash Flow Statement for the year then ended, and notes to the financial statements, including a summary of the significant accounting policies and other explanatory information (hereinafter referred to as the "consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, and based on the consideration of reports of the other auditors on separate financial statements / financial information of the subsidiaries, associates and joint ventures referred to in the Other Matters section below, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards (Ind AS) prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at 31 March 2023 and their consolidated profit, their consolidated total comprehensive income, their consolidated cash flows and their consolidated changes in equity for the year ended on that date.

Basis for opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditors' responsibilities for the audit of the consolidated financial statements section of our report. We are independent of the Group, its associates and joint ventures in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us and audit evidence obtained by other auditors in terms of their reports referred to in "Other Matters" paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Emphasis of Matter – Business Combination

In case of one subsidiary, their auditors have drawn attention to matters as stated in Note 66(ii) of the consolidated financial statements for the year ended March 31, 2023 with regards to:

- (a) approval of the resolution plan submitted by the erstwhile Piramal Capital & Housing Finance Limited ('ePCHFL') in respect of the Corporate Insolvency Resolution Process of Dewan Housing Finance Corporation Limited ("DHFL") under Section 31 of the Insolvency and Bankruptcy Code, 2016, consequent to which ePCHFL had merged into DHFL with effect from 30 September 2021 (hereinafter referred to as 'the business combination'). As is more fully described in the aforesaid note, the aforesaid business combination had been given effect in the consolidated financial statement for the year ended 31 March 2022 in line with the accounting principles prescribed for reverse acquisition business combinations under Ind AS 103, Business Combinations, and other applicable Indian Accounting Standards, except to the extent effect given in accordance with the accounting treatment prescribed in the resolution plan approved by the National Company Law Tribunal vide their order dated 7 June 2021.
- (b) opinion of legal and tax experts, the subsidiary company had not recognized certain deferred tax assets and had recognized a provision against contingent tax liabilities pertaining to income tax obligation of DHFL for the year ended 31 March 2020 and 31 March 2021, while determining the fair value of assets and liabilities acquired by way of the business combination. As explained in Note 66 (ii) to the accompanying consolidated financial statement during the year ended 31 March 2023, the subsidiary company received assessment order from Income Tax Department completing the assessment proceedings u/s 143(3) of the Income Tax Act, 1961 for the financial year ended 31 March 2021 wherein subsidiary company's submissions relating to uncertain tax position of DHFL were accepted by the assessing officer. Further, in view of the management of the subsidiary company, the tax assessment for the financial year ended 31 March 2020 is time barred. Accordingly, as disclosed in the said Note 58, the subsidiary company has reversed the contingent tax provision of Rs. 3,327.54 crores in the current year and disclosed the same as "Reversal of Tax Provision – Earlier Years" in the consolidated financial statements.

Our opinion is not modified in respect of this matter.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the consolidated financial statements section of our report, including in relation to these matters.

Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated financial statements.

Sr. No.	Key Audit Matters	Auditors' Response
1.	<p>Expected Credit Loss allowance on financial assets and net loss on derecognition of financial instruments under amortised cost category.</p> <p>Refer to accounting policies in Note 2 (A) (vii) to the consolidated financial statements; Impairment and net loss on derecognition of financial instruments under amortised cost category – Notes 36, 37 and 57(f) to the consolidated financial statements.</p>	
	<p>Under Ind AS 109, Financial Instruments, allowance for loan losses are determined using expected credit loss (ECL) estimation model. The estimation of ECL on financial instruments involves significant judgement and estimates. The key areas where we and subsidiary auditors identified greater levels of management judgement and therefore increased levels of audit focus in the Group's estimation of ECL are:</p> <ul style="list-style-type: none"> • The application of ECL model requires several data inputs to calculate Probability of Default ("PDs"), Loss Given Default ("LGD") and Exposure at Default (EAD). Inherently judgmental inputs / model used to estimate ECL which involves determination of PD, LGD and EAD. • The PD and the LGD are the key drivers of estimation complexity in the ECL and as a result are considered as a significant judgmental aspect of the Group modelling approach. • Estimating Management overlay for economic uncertainty, forward-looking information, and macro-economic factors. • Qualitative adjustments are made by the Management to the results obtained from ECL models to address any identified impairment or emerging trends as well as risks not captured by models. These adjustments are inherently subjective and significant management judgement is involved in estimating these amounts. • In respect of purchased or originated credit impaired financial assets, cumulative 	<p>Principal audit procedures followed by us and followed by auditors of one subsidiary and as communicated to us:</p> <ul style="list-style-type: none"> ➤ Reviewed the Board approved loss allowance policy and verified the alignment of methodology adopted for computation of ECL that addresses the policies approved by the Board of Directors. ➤ Tested the design and operating effectiveness of the key controls over the completeness and accuracy of data, inputs and assumptions into the ECL Model. ➤ Evaluated whether the methodology applied by the Group is compliant with the requirements of the relevant accounting standards, RBI's master directions relating to Prudential norms on Income Recognition, Asset Classification and Provisioning pertaining to Advances and confirmed that the calculations are performed in accordance with the approved methodology and ECL amounts has been approved by the management and the Audit committee. ➤ Tested on sample basis key inputs, data and assumptions impacting ECL calculations to assess the completeness, accuracy and relevance of data and reasonableness of economic forecasts and model assumptions applied. ➤ Tested the arithmetical accuracy of the computation of ECL provision performed by the Group in spreadsheets. ➤ Assessed the appropriateness and adequacy of the related presentation and disclosures made in the standalone and consolidated

	<p>changes, at the portfolio level, in lifetime expected credit losses since initial recognition are recognised as a loss allowance. Significant management judgement is applied to assess such changes.</p> <ul style="list-style-type: none"> • Completeness and accuracy of the data from internal and external sources used in the Models. Qualitative and quantitative factors used in staging the loan assets. <p>Considering the significance of ECL to the overall consolidated financial statements and the degree of Management's estimates and judgements involved in this matter that requires significant auditors' attention. We along with subsidiary auditor have considered the expected credit loss allowance on financial assets to be a key audit matter.</p> <p>The disclosures regarding the Group's application of Ind AS 109 are key to explaining the key judgements and material inputs to the Ind AS 109 ECL and net loss on derecognition of financial instruments under amortised category. Further, disclosures to be provided as per RBI circulars in financial statements with regards to non-performing assets and provisions will also be an area of focus, particularly as this will be the first year, in case of Holding Company, some of these disclosures will be presented and are related to an area of significant estimate.</p>	<p>financial statements in accordance with the applicable accounting standards and related RBI circulars and guidelines, as applicable.</p> <p>Additionally, audit oversight procedures carried out by us over the work performed by the Auditors of one subsidiary consisted of:</p> <ul style="list-style-type: none"> ➤ Inquiring about the audit procedures performed by the Auditors of one subsidiary. ➤ Discussion with the Component's Management to understand the key assumptions (i.e., staging, EAD, PD and LGD rates) and other inputs, including macro-economic factors, used in the computation of ECL provision. ➤ Discussion with the Auditors of one subsidiary on their evaluation of events up to the date of the audit report and obtaining communication in this regard.
<p>2.</p>	<p>Information Technology (IT) systems and controls impacting financial reporting.</p>	
	<p>The IT environment of the Group is complex and involves a number of independent and interdependent IT systems used in the operations of the Group for processing and recording a large volume of transactions. As a result, there is a high degree of reliance and dependency on such IT systems for the financial reporting process of the Group.</p> <p>Appropriate IT general controls and IT application controls are required to ensure that such IT systems are able to process the data as required, completely, accurately, and consistently for reliable financial reporting.</p>	<p>Principal audit procedures followed by us and followed by auditors of one subsidiary and as communicated to us:</p> <ul style="list-style-type: none"> ➤ In assessing the controls over the IT systems of the Group, involved our technology specialists to obtain an understanding of IT environment, IT infrastructure and IT systems. ➤ Evaluated and tested relevant IT general controls and IT application controls of the "in-scope" IT systems identified as relevant

	<p>Identification of certain key IT systems (“in-scope” IT systems) which have an impact on the financial reporting process and the related control testing as a key audit matter because of the high level of automation, significant number of systems being used by the Group for processing financial transactions, the complexity of the IT architecture and its impact.</p>	<p>for audit of the financial statements and financial reporting process of the Group.</p> <ul style="list-style-type: none"> ➤ On such “in-scope” IT systems, tested key IT general controls as follows: <ul style="list-style-type: none"> • Program change management, which includes that program changes are moved to production environment as per defined procedures. • User access management, which includes user access provisioning, de-provisioning, access review, password management, sensitive access rights and segregation of duties to ensure that privilege access to applications, operating system and databases in the production environment were granted only to authorized personnel. • Program development, which comprises IT operations and system development life cycle for relevant in-scope applications, operating systems, and databases, which are relied upon for financial reporting. ➤ Other areas that were assessed under the IT control environment included backup management, business continuity, disaster recovery, incident management, interface, batch processing and monitoring. ➤ Evaluated the design and tested the operating effectiveness of key IT application controls within key business processes, which included testing automated calculations, automated accounting procedures, system interfaces, system reconciliation controls and key system generated reports. ➤ Where control deficiencies were identified, testing of compensating controls or performed alternative audit procedures, where necessary.
3	<p>Principal Business Criteria and Impairment Assessment of Goodwill Refer Note 48 to the consolidated financial statements.</p>	

<p>The key audit matter provided below is as communicated by the auditors of one subsidiary:</p> <p>A wholly owned subsidiary had recognized Rs. 10,256.81 crores as Goodwill arising from the merger of erstwhile Piramal Housing Finance Limited with Piramal Finance Limited and Piramal Capital Limited on 31 March 2018 in line with the scheme of arrangement approved by the NCLT. Further, during the current year the wholly owned subsidiary has impaired Goodwill amounting to Rs. 10,256.81 crores.</p> <p>As per the requirements of Non-Banking Financial Company – Housing Finance Company (Reserve Bank) Directions, 2021 ('RBI Directions') a Housing Finance Company ('HFC') is required to comply with the Principal Business Criteria ('PBC') to be eligible to continue to hold the Housing Finance Company license. In order to meet the PBC, the wholly owned subsidiary company has adopted a revised business strategy to reduce the Assets under Management ('AUM') in the wholesale lending business, acquired as above, as further described in Note 48 to the consolidated financial statements.</p> <p>In accordance with the requirements of Ind AS 36 Impairment of Assets, the Component tests Goodwill allocated to various cash generating units (CGUs) for impairment annually, or more frequently when there is an indication that the Goodwill may be impaired.</p> <p>In performing such impairment assessment, management of the component compared the carrying value of the separately identifiable CGU with the respective value in use based on discounted cash flow forecast to determine if any impairment loss should be recognised. The management of the subsidiary company has used an external valuation specialist in assessing the recoverable amount of the cash generating unit as aforesaid. The preparation of discounted cashflow forecasts for the purpose of assessing impairment of Goodwill involves estimating future cash flows, growth</p>	<p>Principal audit procedures followed by auditors of one subsidiary and as communicated to us:</p> <ul style="list-style-type: none"> Assessed the management's identification of CGU, the allocation of assets and the methodology adopted by the management in its impairment assessment of Goodwill with reference to the requirements of the prevailing accounting standards; Evaluated the assumptions adopted in the preparation of the cash flow forecasts for the purpose of the impairment assessment of the Goodwill, including projected future growth rates for income and expenses. Obtained the Board approved revised business strategy of the Company to further reduce the Asset Under Management (AUM) in the wholesale lending business of the Company to achieve the PBC threshold as stated in the RBI Directions. Compared this with actual reduction in AUM of wholesale lending business and increase in retail housing business and assessed the impact of shortfall in meeting PBC (if any) on financial statements and reporting thereof. Obtained and reviewed the external valuation reports, considered by the Company for its impairment assessment and assessed the competence, capabilities and objectivity of the experts engaged; Involved our valuation specialists to assess the appropriateness of the valuation methodology used for calculation of the recoverable value in the valuation report obtained by the management. Assessed the impact of changes in the key assumptions, i.e., growth rates and the discount rates, adopted in the discounted cash flow forecasts on the conclusions reached in the impairment assessments and assessed whether there were any indicators of the management bias in the selection of these assumptions;
---	---

	<p>rates and discount rates considering the impact of revision in business strategy to maintain PBC criteria which are judgmental and inherently uncertain.</p> <p>In the consolidated financial statements, the aforesaid goodwill, being resultant from a past intra-group transaction, has never been recognised. Therefore, the aforesaid impairment provision is eliminated in the consolidated financial statements.</p> <p>Given the complexity and judgement involved in assessment of impairment of Goodwill made by the Subsidiary Company and the criticality of meeting the PBC for a HFC, these matters have been considered of most significance and hence, the same has been considered as key audit matter.</p> <p>The above matter is also considered to be fundamental to the understanding of the users of the consolidated financial statements.</p>	<ul style="list-style-type: none"> • Tested the arithmetical accuracy of the computation of recoverable amounts of cash generating units; • Evaluated the adequacy of financial statement disclosures, including disclosures of key assumptions and judgements in accordance with applicable accounting standards. <p>Additionally, audit oversight procedures carried out by us over the work performed by the Auditors of one subsidiary consisted of:</p> <ul style="list-style-type: none"> ➤ Inquiring about the audit procedures performed by the Auditors of one subsidiary. ➤ Discussion with the Component's Management to understand the subsidiary company's plan for planned compliance with the PBC criteria within the regulatory timelines and key assumptions for impairment provision. ➤ Discussion with the Auditors of one subsidiary on their evaluation of events up to the date of the audit report and obtaining communication in this regard.
<p>4.</p>	<p>Determination of fair value for the purpose of measurement of certain financial assets measured at fair value and for the purpose of impairment assessment of investments in joint venture or associate companies measured at cost, goodwill and investment property:</p> <p>Refer to Accounting policies in Notes 2(A) (iv), (v)(b), (vi), (vii) and (xxi) to the consolidated financial statements; Investment measured at fair value, net gain on fair value changes and other operating income – Notes 7 and 35 to the consolidated financial statements; Assets classified as held for sale– Note 69 to the consolidated financial statements; Goodwill – Note 50 to the consolidated financial statements; Investment property – Note 12 to the consolidated financial statements; Fair value disclosures – Note 59 to the consolidated financial statements.</p>	
	<p>The Holding Company's investments in unquoted instruments (other than investment in joint ventures and associates) are measured at fair value at each reporting date and these fair value measurements significantly impact the Holding Company's financial performance. The Holding Company's investments in joint ventures and associates and investment property are measured at cost less provision for</p>	<p>We performed the following audit procedures:</p> <ul style="list-style-type: none"> ➤ Understood the process, evaluating the design and testing the operating effectiveness of such controls in respect of valuation of investments by management. ➤ Evaluated management's controls over collation of relevant information used for

	<p>impairment, if any. Goodwill is tested for impairment at least annually. Investments in assets classified as held for sale are measured at lower of their carrying amount and fair value less cost to sell.</p> <p>The valuation for the purpose of measurement and impairment assessment requires significant judgement because of quoted prices being unavailable and limited liquidity.</p> <p>The disclosures regarding the Holding Company's fair value estimation are key to explaining the key estimation and judgements including material inputs to the estimated valuation figures.</p>	<p>determining estimates for valuation and impairment testing of investments.</p> <ul style="list-style-type: none"> ➤ Tested appropriate implementation of policy of valuation and impairment testing by management. ➤ Reconciled the financial information mentioned in fair valuation and impairment testing to underlying source details. ➤ Obtained independent valuation reports of unquoted investments. ➤ Tested the reasonableness of management's estimates considered in such assessment. ➤ Assessed the competence, capabilities and objectivity of the experts used by management in the process of valuation models. ➤ Assessed the factual accuracy conclusion reached by the management and appropriateness of the disclosures made in the consolidated financial statements in respect of investments.
--	--	---

Information other than the consolidated financial statements and auditor's report thereon

The Holding Company's Board of Directors is responsible for the other information. The other information comprises the information included in Board Report including Annexures thereon but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements, or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's responsibility for the audit of the consolidated financial statements

The Holding Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to preparation of these consolidated financial statements that give a true and fair view

of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated changes in equity and the consolidated cash flows of the Group including its associates and joint ventures in accordance with the Indian Accounting Standards (Ind AS) and other accounting principles generally accepted in India.

The respective Board of Directors of the companies included in the Group and of its associates and joint ventures are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and its associates and joint ventures and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group and of its associates and joint ventures are responsible for assessing the ability of the respective entities to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors either intends to liquidate their respective entities or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and of its associates and joint ventures are responsible for overseeing the financial reporting process of the Group and of its associates and joint ventures.

Auditor's responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole, are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Holding Company has adequate internal financial controls in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its associates and joint ventures to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associates and joint ventures to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

We communicate with those charged with governance of the Holding Company of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other matters

- a) The following other matter paragraph is given by a component auditor of Pramerica Life Insurance Limited ('PLIL'), the Joint Venture of a subsidiary company, which is reproduced as under:
- The actuarial valuation of liabilities for life policies in force is the responsibility of the company's appointed actuary ("the Appointed Actuary"). The actuarial valuation of liabilities for policies in force as at 31 March 2023 has been duly certified by the Appointed Actuary. The Appointed Actuary has also certified that the assumptions for such valuation are in accordance with the guidelines and norms issued by the Insurance Regulatory and Development Authority of India (IRDAI) and the Institute of Actuaries of India in concurrence with IRDAI. We have relied upon the Appointed Actuary's certificate in this regard.
 - The valuation of liability of embedded derivatives in insurance contracts as at 31 March 2023 has been duly certified by the Appointed Actuary. We have relied upon the Appointed Actuary's certificate in this regard.
 - The Statement includes figures for the corresponding year ended 31 March 2022 which have been approved by the company's Board of Directors but have not been subjected to audit or limited review by us or any other auditor.
- b) We did not audit the financial statements of 11 subsidiaries, and, whose financial statements reflect total assets of Rs. 62,566.41 crores as at 31 March, 2023, total revenues of Rs. 6,724.86 crores and net cash flows amounting to Rs. (2,632.36) crores for the year ended on that date, as considered in the consolidated financial statements. The consolidated financial statements also include the Group's share of net profit of Rs. 20.96 crores for the year ended 31 March, 2023, as considered in the consolidated financial statements, in respect of one joint venture, whose financial statements have not been audited by us. These financial statements have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and the joint venture, and our report in terms of subsection (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries and the joint venture is based solely on the reports of the other auditors.
- c) We did not audit the financial information of 12 subsidiaries, whose financial information reflect total assets of Rs. 453.05 crores as at 31 March, 2023, total revenues of Rs. 12.75 crores and net cash flows amounting to Rs. 47.61 crores for the year ended on that date, as considered in the consolidated financial statements. The consolidated financial statements also include the Group's share of net profit of Rs. 367.64 crores for the year ended 31 March, 2023, as considered in the consolidated financial statements, in respect of two associates and six joint ventures, whose financial information have not been audited by us. This financial information are unaudited and have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, joint ventures and associates, is based solely on such unaudited

financial information. In our opinion and according to the information and explanations given to us by the Management, this financial information are not material to the Group.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the financial information certified by the Management.

- d) The comparative financial information for the year ended 31 March 2022, prepared in accordance with Ind AS, included in these consolidated financial statements have been audited by the predecessor auditors. The report of the predecessor auditors on this comparative financial information dated 26 May 2022 expressed an unmodified opinion.
- e) The comparative financial information of the Group for the year ended 31 March, 2022 have been restated pursuant to:
- the Holding Company receiving the Certificate of Registration from the Reserve Bank of India, to carry on the business of non-banking financial company, the Group has prepared and presented its consolidated financial statements as per the format prescribed in Division III of Schedule III to Companies Act, 2013. (Refer Note 1(B)); and
 - the National Company Law Tribunal approval of Composite Scheme of Arrangement for demerger of Pharma undertaking, effective from April 1, 2022 (Refer Note 71)

Our opinion on the consolidated financial statements is not modified in respect of matters under Paragraph (a), (b), (c), (d) and (e) above.

Report on other Legal and Regulatory requirements

1. (A) As required by Section 143(3) of the Act, based on our audit and on the consideration of reports of the other auditors on the separate financial statements/financial information of the subsidiaries, associates and joint ventures referred to in the Other Matters section above we report, to the extent applicable, that:
- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
- (b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors.
- (c) The Consolidated balance sheet, the Consolidated Statement of Profit and Loss including Other Comprehensive Income, the Consolidated Statement of Cash Flows and the Consolidated Statement of Changes in Equity dealt with by this Report are in agreement with the books of account maintained for the purpose of preparation of the consolidated financial statements.
- (d) In our opinion, the aforesaid consolidated financial statements comply with the Ind AS specified under section 133 of the Act.

- (e) On the basis of the written representations received from the directors of the Holding Company as on 31 March 2023 taken on record by the Board of Directors of the Holding Company and the reports of the statutory auditors of its subsidiary companies, associates companies and joint venture companies incorporated in India, none of the directors of the Group companies, its associates companies and joint venture companies is disqualified as on 31 March 2023 from being appointed as a director in terms of Section 164(2) of the Act.
- (f) With respect to the adequacy of the internal financial controls over financial reporting and the operating effectiveness of such controls, refer to our separate Report in "Annexure A" which is based on the auditors' reports of the Holding company, subsidiary companies, associate companies and joint venture companies incorporated in India. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of internal financial controls over financial reporting of those companies.
- (g) in our opinion and to the best of our information and explanations given to us, the Holding Company has complied with the provisions of Section 197 read with Schedule V of the Act.
- (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditor's) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the reports of the other auditors on separate financial statements of subsidiary companies, associate companies and joint venture companies, as noted in the 'Other Matters' paragraph:
- The consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group, its associates and joint ventures; (Refer Note 43 to the consolidated financial statements)
 - Provision has been made in the consolidated financial statements, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts, as detailed in Note 57 to the consolidated financial statements;
 - Following are the instances of delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund ('IEPF') by a subsidiary company incorporated in India.

Unclaimed Dividend Amount (Rs. In Crores)	Due date for transferring amounts to IEPF	Date of Payment
0.06	28 December 2019	19 August 2022
0.08	28 September 2020	23 August 2022
0.18	28 March 2021	23 August 2022
0.13	29 September 2021	23 August 2022
0.12	27 December 2021	19 August 2022

Refer Note 20 for reasons of delay in transferring the above amounts.

- iv. (a) The respective Managements of the Holding Company, its subsidiary companies, joint ventures and associate companies which are companies incorporated in India whose financial statements have been audited under the Act, have represented to us and the other auditors of such subsidiaries, joint venture and associates respectively that, to the best of their knowledge and belief as disclosed in Note 72 of

the consolidated financial statements, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Holding Company or any of such subsidiaries, joint venture and associate companies to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the holding Company or any of such subsidiaries, joint venture and associate companies ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

- (b) The respective Managements of the Holding Company, its subsidiaries, joint venture and associates companies, which are companies incorporated in India whose financial statements have been audited under the Act, have represented to us and the other auditors of such subsidiaries, joint venture and associates companies respectively that, to the best of their knowledge and belief as disclosed in Note 72 of the consolidated financial statements, no funds (which are material either individually or in the aggregate) have been received by the Holding Company or any of such subsidiaries, joint venture and associate companies from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Holding Company or any of such subsidiaries, joint venture and associates companies shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
- (c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances performed by us and those performed by the auditors of the subsidiaries companies incorporated in India whose financial statements have been audited under the Act, nothing has come to our or other auditor's notice that has caused us or the other auditors to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
- (v) The dividend declared or paid during the year by the Holding Company is in compliance with the Section 123 of the Act, as applicable.

2. With respect to the matters specified in clause (xxi) of paragraph (3) and paragraph 4 of the Companies (Auditor's Report) Order, 2020 ("CARO"/"the Order") issued by the Central Government in terms of Section 143(11) of the Act, according to the information and explanations given to us, and based on the CARO reports issued by us and by the auditors of respective companies included in the consolidated financial statements to which reporting under CARO is applicable, as provided to us by the Management of the Holding Company, we report that in respect of those companies where audits have been completed under section 143 of the Act, there are no qualifications or adverse remarks by the respective auditors in the CARO reports of the said companies included in the consolidated financial statements. Further, in respect of the 5 subsidiaries, 2 joint venture companies and 1 associate company, which are incorporated in India, included in the consolidated financial statements based on unaudited financial statements and, the CARO report as applicable in respect of those companies are not available and consequently have not been provided to us as on the date of this audit report.

ANNEXURE A TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 1A(f) under the heading 'Report on Other Legal and Regulatory Requirements' of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended 31 March 2023, we have audited the internal financial controls with reference to Consolidated Financial Statements of **Piramal Enterprises Limited** (hereinafter referred to as "the Holding Company") and its subsidiary and its subsidiary companies, associate companies and joint ventures, which are companies incorporated in India, as of that date.

Management's responsibility for internal financial controls

The respective Board of Directors of the Holding Company, its subsidiary companies, its associate companies and joint ventures, which are the companies incorporated in India are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ("the ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting with reference to Consolidated Financial Statements of the Holding Company, its subsidiary companies, its associate companies and joint ventures, which are the companies incorporated in India, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI (the "Guidance Note") and the Standards on Auditing prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls with reference to Consolidated Financial Statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to Consolidated Financial Statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to Consolidated Financial Statements and their operating effectiveness. Our audit of internal financial controls with reference to Consolidated Financial Statements included obtaining an understanding of internal financial controls with reference to Consolidated Financial Statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors by the other auditors of the subsidiary companies, associate companies and joint ventures, which are companies incorporated in India, in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to Consolidated Financial Statements of the Company, its subsidiary companies, its associate companies and joint ventures, which are the companies incorporated in India.

Meaning of internal financial controls with reference to Consolidated Financial Statements

A company's internal financial control over financial reporting with reference to Consolidated Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to Consolidated Financial Statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent limitations of internal financial controls with reference to Consolidated Financial Statements

Because of the inherent limitations of internal financial controls with reference to Consolidated Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to Consolidated Financial Statements to future periods are subject to the risk that the internal financial control over financial reporting with reference to Consolidated Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion and to the best of our information and according to the explanations given to us and based on consideration of reporting of the other auditors as mentioned in the Other Matters paragraph below, the Company, its subsidiary companies, its associate companies and joint ventures, which are the companies incorporated in India have broadly, in all material respects, adequate internal financial controls with reference to Consolidated Financial Statements and such internal financial controls with reference to Consolidated Financial Statements were operating effectively as at 31 March 2023, based on the internal control over financial reporting criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

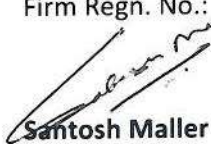

Other Matters

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to consolidated financial statements, insofar as it relates to, audited 10 subsidiary companies and 1 joint venture company, incorporated in India, is based on the corresponding reports of the other auditors and insofar as it relates to, unaudited 5 subsidiary companies, 1 associate company and 2 joint venture companies, incorporated in India, is based on representation received from the management (also refer Other Matters paragraphs b & c of the Independent Auditors' Report above).

Our opinion is not modified in respect of the above matter.

I. (A) Corporate Information

Piramal Enterprises Limited (‘the Holding Company’), incorporated in India, is a public limited company, headquartered in Mumbai. On 26 July 2022, the Company received Certificate of Registration from the Reserve Bank of India (RBI) to carry on the business of Non-Banking Financial Institution -Systematically Important Non-Deposit taking. The Company is engaged in providing finance. Under the Scale Based Regulations of the RBI, the Company is classified as a NonBanking Finance Company - Middle Layer (NBFC-ML). The equity shares of the Company are listed on the National Stock Exchange of India Limited (‘NSE’) and the BSE Limited (‘BSE’) in India. The Company’s registered office is at Piramal Ananta, Agastya Corporate Park, Opposite Fire Brigade, Kamani Junction, LBS Marg, Kurla (West), Mumbai – 400 070. Piramal Enterprises Limited (the ‘Company’) was incorporated under the Companies Act, 1956, with its registered and operational office in Mumbai.

The Holding Company and its subsidiaries (collectively referred to as the ‘Group’) are primarily engaged in the business of financial services comprising of lending / investing. Accordingly, the Group provides comprehensive financing solutions to various companies. It provides both wholesale and retail funding opportunities across sectors. In real estate, the platform provides housing finance and other financing solutions across the entire capital stack ranging from early stage private equity, structured debt, senior secured debt, construction finance, and flexi lease rental discounting. The wholesale business in non-real estate sector includes separate verticals - Corporate Finance Group (CFG) and Emerging Corporate Lending (ECL). CFG provides customized funding solutions to companies across sectors such as infrastructure, renewable energy, roads, industrials, auto components etc. while ECL focuses on lending towards Small and Medium Enterprises (SMEs). The Group has also launched Distressed Asset Investing platform that invests in equity and/or debt in assets across sectors (other than real estate) to drive restructuring with active participation in turnaround.

The Group also has strategic alliances with top global funds such as APG Asset Management, Bain Capital Credit, CPPIB Credit Investment Inc. and Ivanhoé Cambridge (CDPQ). The Group has equity investments in Shriram Group, a leading financial conglomerate in India.

(B) Basis of preparation

Compliance with Ind AS

The consolidated financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (‘the Act’) read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, and other relevant provisions of the Act., the Master Direction – Non-Banking Financial Company – Systemically Important Non-Deposit taking Company and Deposit taking Company (Reserve Bank) Directions, 2016 (‘the NBFC Master Directions’), notification for Implementation of Indian Accounting Standards issued by RBI vide circular RBI/2019-20/170 DOR(NBFC).CC PD. No.109/22.10.106/2019-20 dated 13 March 2020 (‘RBI notification for Implementation of Ind AS’) and other applicable RBI circulars/notifications.

The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss and the Consolidated Statement of Changes in Equity are prepared and presented in the format prescribed in the Division III of Schedule III to the Companies Act, 2013 (the ‘Act’). The Consolidated Statement of Cash Flows has been prepared and presented as per the requirements of Ind AS 7 ‘Statement of Cash Flows’. The Consolidated Balance Sheet, Consolidated Statement of Profit and Loss, Consolidated Statement of Cash Flow, Consolidated Statement of Changes in Equity, summary of the significant accounting policies and other explanatory information are together referred as the ‘Consolidated financial statements’ of the Holding Company.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to the existing accounting standard requires a change in the accounting policy hitherto in use.

Until the financial year ended 31 March 2022, the Group used to prepare and present consolidated financial statements as per the format prescribed in Division II of Schedule III to Companies Act, 2013. On 26 July 2022, the holding company has received Certificate of Registration to carry on the business of Non-Banking Financial Institution. Hence, the Holding Company is required to prepare and present financial statements as per the format prescribed in Division III of Schedule III to Companies Act, 2013. The format and figures in the consolidated statement of profit and loss and balance sheet of the previous period in the consolidated financial statements have been accordingly restated and reclassified to conform to the new format. The Holding Company commenced its NBFC business on 18 August 2022.

The consolidated financial statements are presented in Indian Rupee (₹), which is also the functional currency of the Holding Company, in denomination of crore with rounding off to two decimals as permitted by Schedule III to the Act.

Basis of Accounting

The consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period and accounting for business combination carried out by the Group during the year (as more fully explained in note 66). The consolidated financial statements are prepared and presented on going concern basis.

Use of Estimates and Judgements

The preparation of the consolidated financial statements in conformity with Indian Accounting Standards (‘Ind AS’) requires The management to make Estimates, Judgements and assumptions. These Estimates, Judgements and assumptions affect The application of Accounting policies and The reported amounts of assets and liabilities, The disclosure of contingent assets and liabilities at The date of The financial statements and The reported amounts of revenues and expenses during The year. Accounting Estimates could change from Period to period. Actual results could differ from those estimates. Revisions to Accounting Estimates are recognised prospectively. The management believes that The Estimates used in preparation of The financial statements are prudent and reasonable. Future results could differ due to These Estimates and The differences between The Actual results and The Estimates are recognised in The periods in which The results are known / materialise.

Following areas entail a high degree of estimate and judgement or complexity in determining the carrying amount of some assets and liabilities. Following areas entail a high degree of estimate and judgement or complexity in determining the carrying amount of certain assets and liabilities.

1. Business Combination - Note 66
2. Measurement of defined benefit obligations; key actuarial assumptions – Note 54
3. Fair Valuation of financial assets and liabilities - Note 59
4. Impairment of financial assets – Note 57(f)
5. Income tax - Note 2(xvi)
6. Evaluation of business Model - Note 2 (vii)
7. Provision and Liabilities - Note 2(xi)
8. Useful Life of Property, Plant and Equipment (PPE) and Intangible assets - Note 2 (iii) & (v)
9. Impairment of Goodwill - Note 2(v)(b)

2 (A) Significant Accounting Policies

i) Principles of consolidation and equity accounting

a) Subsidiaries:

Subsidiaries are all entities (including Structured entities) over which the group has control. Control is achieved when the Group has power over the investee, is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to use its power to affect its returns. Subsidiaries are fully consolidated from the date on which control is transferred to the group. They are deconsolidated from the date that control ceases.

The acquisition method of accounting is used to account for business combinations by the group.

The group combines the financial statements of the parent and its subsidiaries line by line adding together like items of assets, liabilities, equity, income and expenses. Intercompany transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the group.

Non-controlling interests in the results and equity of subsidiaries are shown separately in the consolidated statement of profit and loss, consolidated statement of changes in equity and balance sheet respectively.

b) Associates:

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies. Investments in associates are accounted for using the equity method of accounting (see below), after initially being recognised at cost. Wherever necessary, adjustments are made to financial statements of associates to bring there accounting policies in line with those used by the other members of group.

c) Joint Arrangements:

Under Ind AS 111 Joint Arrangements, investments in joint arrangements are classified as either joint operations or joint ventures. The classification depends on the contractual rights and obligations of each investor, rather than the legal structure of the joint arrangement.

A joint operation is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the assets and obligations for the liabilities relating to the arrangement.

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement.

Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The Group recognises its direct right to the assets, liabilities, revenues and expenses of joint operations and its share of any jointly held or incurred assets, liabilities, revenues and expenses. These have been incorporated in the financial statements under the appropriate headings.

Interests in joint ventures are accounted for using the equity method (see below), after initially being recognised at cost in the consolidated balance sheet.

d) Equity method:

Under the equity method of accounting, the investments are initially recognised at cost and adjusted thereafter to recognise the Group's share of post acquisition profits or losses of the investee in profit and loss, and the group's share of other comprehensive income of the investee in other comprehensive income. Dividends received or receivable from associates or joint ventures are recognised as a reduction in the carrying amount of the investment.

Unrealised gains on transactions between the group and its associates and joint ventures are eliminated to the extent of the group's interest in these entities.

Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred.

The carrying amount of equity accounted investments are tested for impairment.

The Group does not apply equity method of accounting to associates that meet the criteria to be classified as held for sale under Ind AS 105. Such investments in associates are accounted for using the requirements of Ind AS 105 until disposal of the investment. Refer (iv) below for accounting policies with respect to Assets held for sale.

e) Changes in ownership interests

The group treats transactions with non-controlling interests that do not result in loss of control as transactions with equity owners of the group. A change in the ownership interest results in an adjustment between the carrying amounts of the controlling and non-controlling interests to reflect their relative interests in the subsidiary. Any difference between the amount of the adjustment to non-controlling interests and any consideration paid or received is recognised within equity.

ii) Business Combinations

The acquisition method of accounting is used to account for all business combinations, regardless of whether equity instruments or other assets are acquired. The consideration transferred for the acquisition of a subsidiary comprises the:

- fair values of the assets transferred;
- liabilities incurred to the former owners of the acquired business;
- equity interests issued by the group; and
- fair value of any asset or liability resulting from a contingent consideration arrangement.

Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are, with limited exceptions, measured initially at their fair values at the acquisition date. The group recognises any non-controlling interest in the acquired entity on an acquisition-by-acquisition basis at the non-controlling interest's proportionate share of the acquired entity's net identifiable assets.

Acquisition-related costs are expensed as incurred.

The excess of the

- consideration transferred;
- amount of any non-controlling interest in the acquired entity, and
- acquisition-date fair value of any previous equity interest in the acquired entity

Over the fair value of the net identifiable assets acquired is recorded as goodwill. If these amounts are less than the fair value of the net identifiable assets of the business acquired, the difference is recognised in other comprehensive income and accumulated in equity as capital reserve provided there is clear evidence of the underlying reasons for classifying the business combination as a bargain purchase. In other cases, the bargain purchase gain is recognised directly in equity as capital reserve.

Where settlement of any part of cash consideration is deferred, the amounts payable in the future are discounted to their present value as at the date of exchange. The discount rate used is the entity's incremental borrowing rate, being the rate at which a similar borrowing could be obtained from an independent financier under comparable terms and conditions.

Contingent consideration is classified either as equity or a financial liability. Amounts classified as a financial liability are subsequently remeasured to fair value with changes in fair value recognised in profit or loss.

If the business combination is achieved in stages, the acquisition date carrying value of the acquirer's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date. Any gains or losses arising from such remeasurement are recognised in profit or loss or other comprehensive income, as appropriate.

Common control transactions

Business combinations involving entities that are controlled by the group are accounted for using the pooling of interests method as follows:

- 1) The assets and liabilities of the combining entities are reflected at their carrying amounts.
- 2) No adjustments are made to reflect fair values, or recognise any new assets or liabilities. Adjustments are only made to harmonise accounting policies.
- 3) The balance of the retained earnings appearing in the financial statements of the transferor is aggregated with the corresponding balance appearing in the financial statements of the transferee or is adjusted against general reserve.
- 4) The identity of the reserves are preserved and the reserves of the transferor become the reserves of the transferee.
- 5) The difference, if any, between the amounts recorded as share capital issued plus any additional consideration in the form of cash or other assets and the amount of share capital of the transferor is transferred to capital reserve and is presented separately from other capital reserves.
- 6) The financial information in the financial statements in respect of prior periods is restated as if the business combination had occurred from the beginning of the preceding period in the financial statements, irrespective of the actual date of combination. However, where the business combination had occurred after that date, the prior period information is restated only from that date.
- 7) The Group presents a third balance sheet as at the beginning of the preceding period in addition to the minimum comparative financial statements, if it applies accounting policies retrospectively, makes retrospective restatement of items in its financial statements or reclassifies items in its financial statements and the same has material impact on the third balance sheet.

iii) Property, Plant and Equipment

All items of Property Plant & Equipment (other than freehold land except for fair valued assets on business combination (Refer note 66) are stated at cost of acquisition, less accumulated depreciation and accumulated impairment losses, if any. Freehold Land is carried at historical cost. Direct costs are capitalised until the assets are ready for use and includes freight, duties, taxes and expenses incidental to acquisition and installation.

The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to the statement of profit and loss during the reporting period in which they are incurred. Subsequent expenditures related to an item of Property Plant & Equipment are added to its carrying value only when it is probable that the future economic benefits from the asset will flow to the Company and cost can be reliably measured. Losses arising from the retirement of, and gains or losses arising from disposal of Property, Plant and Equipment are recognised in the Statement of Profit and Loss.

Depreciation is provided on a pro rata basis on the straight line method ('SLM') over the estimated useful lives of the assets specified in Schedule II of the Companies Act, 2013 on the basis of technical evaluation, which are as follows:

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

The estimated useful lives of Property, Plant & Equipment are as stated below:

Asset Class	Useful life
Buildings*	3 years - 60 years
Roads	10 years
Plant & Equipment	3 - 20 years
Continuous Process Plant	25 years
Office Equipment	3 years - 15 years
Motor Vehicles #	4 - 8 years
Helicopter	20 years
Ships	13 years/28 Years
Furniture & fixtures	3 - 15 years

*Useful life of leasehold improvements is as per lease period

For vehicles given to employee as a perquisite and forming the part of their employment, amortisation is done basis the employment agreement which may vary between 3 to 5 years.

(iv) Assets held for sale

Assets held for sale are measured at the lower of carrying amount or fair value less costs to sell. The determination of fair value less costs to sell includes use of management estimates and assumptions. The fair value of the assets held for sale has been estimated using valuation techniques (including income and market approach) which includes unobservable inputs. Non-current assets and Disposal Group that ceases to be classified as held for sale shall be measured at the lower of carrying amount before the non-current asset and Disposal Group was classified as held for sale and its recoverable amount at the date of the subsequent decision not to sell.

(v) (a) Intangible Assets

Intangible assets except for fair valued assets on business combination (Refer note 66) are stated at acquisition cost, net of accumulated amortisation and accumulated impairment losses, if any.

Gains or losses arising from the retirement or disposal of an intangible asset are determined as the difference between the disposal proceeds and the carrying amount of the asset and are recognised as income or expense in the Statement of Profit and Loss.

The research and development (R&D) cost is accounted in accordance with Ind AS - 38 'Intangibles'.

Research

Research costs, including patent filing charges, technical know-how fees, testing charges on animal and expenses incurred on development of a molecule till the stage of Pre-clinical studies and till the receipt of regulatory approval for commencing phase I trials are treated as revenue expenses and charged off to the Statement of Profit and Loss of respective year.

Development

Development costs relating to design and testing of new or improved materials, products or processes are recognized as intangible assets and are carried forward under Intangible Assets under Development until the completion of the project when they are capitalised as Intangible assets, if the following conditions are satisfied:

- it is technically feasible to complete the asset so that it will be available for use;
- management intends to complete the asset and use or sell it;
- there is an ability to use or sell the asset;
- it can be demonstrated how the asset will generate probable future economic benefits;
- adequate technical, financial and other resources to complete the development and to use or sell the asset are available; and
- the expenditure attributable to the asset during its development can be reliably measured.

Intangible Assets with finite useful lives are amortized on a straight line basis over the following period:

Asset Class	Useful life
Brands and Trademarks	5 - 25 years
Copyrights, Know-how (including qualifying Product Development Cost) and Intellectual property rights	4 - 25 years
Computer Software (including acquired database)	2 - 9 years
Customer relationships	8 - 14 years

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

Certain trademarks are assessed as Intangible Assets with indefinite useful lives.

Self generated software:

The Group recognises internally generated intangible assets when it is certain that the future economic benefit attributable to the use of such intangible assets are probable to flow to the Group and the expenditure incurred for development of such intangible assets can be measured reliably. The cost of an internally generated intangible asset comprises all directly attributable costs necessary to create, produce, and prepare the asset to be capable of operating in the manner intended by the Company. The intangible assets including those internally generated are amortised using the straight line method over a period of five years, which is the Management's estimate of its useful life. The useful lives of intangible assets are reviewed at each financial year end and adjusted prospectively, if appropriate.

(v) (b) Goodwill

Goodwill on acquisition is included in intangible assets. Goodwill and intangible assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired.

Goodwill is carried at cost less accumulated impairment losses.

vi) Impairment of Assets

The Group assesses at each Balance Sheet date whether there is any indication that an asset may be impaired. For the purposes of assessing impairment, the smallest identifiable group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or group of assets, is considered as a cash generating unit. If any such indication exists, the Company estimates the recoverable amount of the asset.

The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognised in the Statement of Profit and Loss. If at the Balance Sheet date there is an indication that a previously assessed impairment loss no longer exists or may have decreased, the recoverable amount is reassessed and the asset is reflected at the recoverable amount.

vii) Financial instruments

Financial assets and financial liabilities are recognised when a Group entity becomes a party to the contractual provisions of the instruments. Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss. Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Investments and Other Financial assets

Classification:

The Group classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the Group has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

The Group reclassifies debt investments when and only when its business model for managing those assets changes.

Debt instruments

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the group classifies its debt instruments:

Amortised cost:

Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at amortised cost and is not part of a hedging relationship is recognised in profit or loss when the asset is derecognised or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method. Subsequently, these are measured at amortised cost using the Effective Interest Method less any impairment losses.

Effective interest rate method:

Income is recognised on an effective interest rate basis for financial assets other than those financial assets classified as at FVTPL. The 'effective interest rate' is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument.

The calculation of the effective interest rate includes transaction costs and fees that are an integral part of the contract. Transaction costs include incremental costs that are directly attributable to the acquisition of financial asset.

If expectations regarding the cash flows on the financial asset are revised for reasons other than credit risk, the adjustment is recorded as a positive or negative adjustment to the carrying amount of the asset in the balance sheet with an increase or reduction in interest income. The adjustment is subsequently amortised through Interest income in the statement of profit and loss.

The Group calculates interest income by applying the EIR to the gross carrying amount of financial assets other than credit-impaired assets.

When calculating the effective interest rate for financial instruments other than purchased or originated credit-impaired ('POCI') assets, the Group estimates future cash flows considering all contractual terms of the financial instrument, but not ECL. For purchased or originated credit-impaired financial assets, a credit-adjusted effective interest rate is calculated using estimated future cash flows including ECL.

Fair value through other comprehensive income (FVTOCI):

Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVTOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other gains/ (losses). Interest income from these financial assets is included in other income using the effective interest rate method.

Fair value through profit or loss (FVTPL):

Assets that do not meet the criteria for amortised cost or FVTOCI are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognised in profit or loss and presented net in the statement of profit and loss within other gains/(losses) in the period in which it arises. Interest income from these financial assets is included in other income.

Equity instruments

The Group subsequently measures all equity investments at fair value. Where the Group's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit or loss. Dividends from such investments are recognised in profit or loss when the Group's right to receive payments is established.

Changes in the fair value of financial assets at fair value through profit or loss are recognised in the consolidated statement of profit and loss.

Securitization and direct assignment

The Group transfers loans through securitisation and direct assignment transactions. The transferred loans are derecognised and gains/losses are accounted for, only if the Group transfers substantially all risks and rewards specified in the underlying assigned loan contract. In accordance with the Ind AS 109, on derecognition of a financial asset under assigned transactions for a fee, the Group recognises the fair value of future service fee income over service obligations cost on net basis as service fee income in the statement of profit and loss and, correspondingly creates a service asset in balance sheet. The Group recognises either a servicing asset or a servicing liability for servicing contract. If the fee to be received is not expected to compensate the Group adequately for performing the servicing activities, a servicing liability for the servicing obligation is recognised at its fair value. If the fee to be received is expected to be more than adequate compensation for the servicing activities, a servicing asset is recognised. Corresponding amount is recognised in Statement of Profit and Loss.

Impairment of financial assets

The Group applies the expected credit loss model for recognising impairment loss on financial assets measured at amortised cost, loan commitments, trade receivables and other contractual rights to receive cash or other financial asset.

For trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 115, the Group always measures the loss allowance at an amount equal to lifetime expected credit losses.

Further, for the purpose of measuring lifetime expected credit loss ("ECL") allowance for trade receivables, the Group has used a practical expedient as permitted under Ind AS 109. This expected credit loss allowance is computed based on a provision matrix which takes into account historical credit loss experience and adjusted for forward-looking information.

In case of other than trade receivables, the expected credit loss is a product of exposure at default, probability of default and loss given default. The Group has devised an internal model to evaluate the probability of default and loss given default based on the parameters set out in Ind AS 109. Accordingly, the financial instruments are classified into Stage 1 – Standard Assets with zero to thirty days past due (DPD), Stage 2 – Significant Credit Deterioration or overdue between 31 to 90 days and Stage 3 – Default Assets with overdue for more than 90 days. The Group also takes into account the below qualitative parameters in determining the increase in credit risk for the financial assets:

- 1) Significant negative deviation in the business plan of the borrower
- 2) Internal rating downgrade for the borrower or the project
- 3) Current and expected financial performance of the borrower
- 4) Need for refinance of loan due to change in cash flow of the project
- 5) Significant decrease in the value of collateral
- 6) Change in market conditions and industry trends

For recognition of impairment loss on other financial assets and risk exposure (including off Balance Sheet commitments), the Group determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

Default Assets wherein the management does not expect any realistic prospect of recovery are written off to the Statement of Profit and Loss.

Retail lending:

The Group uses ECL allowance for financial assets measured at amortised cost, which are not individually significant, and comprise of a large number of homogeneous loans that have similar characteristics. The expected credit loss is a product of exposure at default, probability of default and loss given default. Due to lack of 5-year internal PD/LGD data, the Group uses external PD/LGD data from credit bureau agency (TransUnion for Mar-22) for potential credit losses. Further, the estimates from the above sources have been adjusted with forward looking inputs from anticipated change in future macro-economic conditions to comply with IndAS 109. The forward looking macro-economic conditions based adjustment is driven through a multi linear regression model which forecasts systemic gross non-performing assets under baseline future economic scenarios.

Foreign exchange gains and losses

The fair value of financial assets denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of each reporting period. For foreign currency denominated financial assets measured at amortised cost and FVTPL, the exchange differences are recognised in profit or loss except for those which are designated as hedging instruments in a hedging relationship.

Derecognition of financial assets

A financial asset is derecognised only when:

- The Group has transferred the rights to receive cash flows from the financial asset or
- retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Group evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Foreign exchange gains and losses

The fair value of financial assets denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of each reporting period. For foreign currency denominated financial assets measured at amortised cost and FVTPL, the exchange differences are recognised in profit or loss except for those which are designated as hedging instruments in a hedging relationship.

Financial liabilities and equity instruments

Classification as debt or equity

Debt and equity instruments issued by a Group entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity Instrument

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued are recognised at the proceeds received, net of direct issue costs.

Compulsorily Convertible Debenture

Convertible instruments are separated into liability and equity components based on the terms of the contract. On issuance of the convertible debentures, the fair value of the liability component is determined using a market rate for an equivalent non-convertible instrument. This amount is classified as a financial liability measured at amortised cost (net of transaction costs) until it is extinguished on conversion or redemption. The remainder of the proceeds is allocated to the conversion option that is recognised and included in equity since conversion option meets Ind AS 32 criteria for fixed to fixed classification. Transaction costs are apportioned between the liability and equity components of the convertible debentures based on the allocation of proceeds to the liability and equity components when the instruments are initially recognised.

Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at FVTPL.

Financial liabilities are classified as at FVTPL when the financial liability is either contingent consideration recognised by the Group as an acquirer in a business combination to which Ind AS 103 applies or is held for trading or it is designated as at FVTPL.

Financial liabilities that are not held-for-trading and are not designated as at FVTPL are measured at amortised cost at the end of subsequent accounting periods. The carrying amounts of financial liabilities that are subsequently measured at amortised cost are determined based on the effective interest method.

Effective Interest Rate Method

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the amortised cost of a financial liability.

Foreign exchange gains and losses

For financial liabilities that are denominated in a foreign currency and are measured at amortised cost at the end of each reporting period, the foreign exchange gains and losses are determined based on the amortised cost of the instruments.

Financial Guarantee Contracts

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due in accordance with the terms of a debt instrument.

Financial guarantee contracts issued by the Group are initially measured at their fair values and are subsequently measured at the higher of:

- the amount of the loss allowance determined in accordance with Ind AS 109; and
- the amount initially recognised less, where appropriate, cumulative amortisation recognised in accordance with the revenue recognition policies.

Derecognition of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. An exchange between with a lender of debt instruments with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability.

Derivatives and hedging activities

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured to their fair value at the end of each reporting period. The accounting for subsequent changes in fair value depends on whether the derivative is designated as a hedging instrument, and if so, the nature of the item being hedged and the type of hedge relationship designated.

(i) Cash flow hedges that qualify for hedge accounting:

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognised in the other comprehensive income in cash flow hedging reserve within equity, limited to the cumulative change in fair value of the hedged item on a present value basis from the inception of the hedge. The gain or loss relating to the ineffective portion is recognised immediately in profit or loss, within other gains/(losses).

(ii) Derivatives that are not designated as hedges:

The group enters into certain derivative contracts to hedge risks which are not designated as hedges. Such contracts are accounted for at fair value through profit or loss.

Embedded derivatives

Derivatives embedded in a host contract that is an asset within the scope of Ind AS 109 are not separated. Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Derivatives embedded in all other host contract are separated only if the economic characteristics and risks of the embedded derivative are not closely related to the economic characteristics and risks of the host and are measured at fair value through profit or loss. Embedded derivatives closely related to the host contracts are not separated.

Offsetting Financial Instruments

Financial Assets and Liabilities are offset and the net amount is reflected in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle the liability simultaneously.

The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or counterparty.

viii) Trade Receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment.

ix) Inventories

Inventories comprise of Raw and Packing Materials, Work-in-Progress, Finished Goods (Manufactured and Traded) and Stores and Spares. Inventories are valued at the lower of cost and the net realisable value after providing for obsolescence and other losses, where considered necessary. Cost is determined on Weighted Average basis. Cost includes all charges in bringing the goods to their present location and condition, including octroi and other levies, transit insurance and receiving charges. The cost of Work-in progress and Finished Goods comprises of materials, direct labour, other direct costs and related production overheads and Excise duty as applicable. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

x) Employee Benefits

Post-employment obligations

The Group operates the following post-employment schemes:

- Defined Contribution plans such as provident fund, superannuation, pension, employee state insurance scheme and other social security schemes in overseas jurisdictions

- Defined Benefit plans such as provident fund and Gratuity, Pension fund (in case of a subsidiary)

In case of Provident fund, contributions are made to a Trust administered by the Group, except in case of certain employees, where the Contributions are made to the Regional Provident Fund Office.

Defined Contribution Plans

The Group's contribution to provident fund (in case of contributions to the Regional Provident Fund office), pension and employee state insurance scheme and other social security schemes in overseas jurisdictions are considered as defined contribution plans, as the Group does not carry any further obligations apart from the contributions made on a monthly basis and are charged as an expense based on the amount of contribution required to be made.

In case of 401(k) contribution plan (in case of US subsidiaries), contribution by the Group is discretionary. Any contribution made is charged to the Statement of Profit and Loss.

Defined Benefit Plan

The liability or asset recognised in the balance sheet in respect of defined benefit provident and gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

Except in case of an overseas subsidiary, the present value of the defined benefit obligation denominated in INR is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

In case of an overseas subsidiary, where pension is classified as a Defined Benefit Scheme, assets are measured using market values and liabilities are measured using a Projected Unit Credit method and discounted using market yields determined by reference to high-quality corporate bonds that are denominated in the currency in which benefits will be paid, and that have terms approximating to the terms of the related obligation. Shortfall, if any, is provided for in the financial statements.

Remeasurement gains and losses arising from experience adjustments, changes in actuarial assumptions and return on plan assets (excluding interest income) are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the condensed statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in condensed statement of profit or loss as past service cost.

Bonus Plans - The Group recognises a liability and an expense for bonuses. The group recognises a provision where contractually obliged or where there is a past practice that has created a constructive obligation.

xi) Provisions and Contingent Liabilities

Provisions are recognised when there is a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a reliable estimate of the amount of the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material). The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

xii) Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable.

Interest income

Interest income is recognised in Statement of profit and loss using the effective interest method for all financial instruments measured at amortised cost, debt instruments measured at FVOCI and debt instruments designated at FVTPL. The 'effective interest rate' is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument.

The calculation of the effective interest rate includes transaction costs and fees that are an integral part of the contract. Transaction costs include incremental costs that are directly attributable to the acquisition of financial asset.

If expectations regarding the cash flows on the financial asset are revised for reasons other than credit risk, the adjustment is recorded as a positive or negative adjustment to the carrying amount of the asset in the balance sheet with an increase or reduction in interest income. The adjustment is subsequently amortised through interest income in the Statement of profit and loss.

The Group calculates interest income by applying the EIR to the gross carrying amount of financial assets other than credit-impaired assets.

When a financial asset becomes credit-impaired, the Group calculates interest income by applying the effective interest rate to the net amortised cost of the financial asset. If the default is cured and the financial asset is no longer credit-impaired, the Company reverts to calculating interest income on a gross basis.

Penal / Default interest income is booked on receipt basis.

Fees and commission income

Fee based income are recognised when they become measurable and when it is probable to expect their ultimate collection.

Commission and brokerage income earned for the services rendered are recognised as and when they are due.

Loan processing fees income is accounted for on effective interest basis except for processing fees income collected from the customers which approximates to the corresponding file cost incurred. Arranger fees income is accounted for on accrual basis.

Net gain on fair value changes

The Company designates certain financial assets for subsequent measurement at fair value through profit or loss (FVTPL) or fair value through other comprehensive income (FVOCI) as per the criteria in Ind AS 109. The Company recognises gains on fair value change of financial assets measured at FVTPL and realised gains on derecognition of financial asset measured at FVTPL and FVOCI on net basis.

Sale of goods:

Revenue from the sale of goods is recognised when the Group transfers Control of the product. Control of the product transfers upon shipment of the product to the customer or when the product is made available to the customer, provided transfer of title to the customer occurs and the Group has not retained any significant risks of ownership or future obligations with respect to the product shipped. Amounts disclosed as revenue are net off returns, trade allowances, rebates and indirect taxes.

Sale of Services:

In contracts involving the rendering of services/development contracts, revenue is recognised at the point in time in which services are rendered. In case of fixed price contracts, the customer pays a fixed amount based on the payment schedule. If the services rendered by the Group exceed the payment, a Contract asset (Unbilled Revenue) is recognised. If the payments exceed the services rendered, a contract liability (Deferred Revenue) is recognised.

If the contracts involve time-based billing, revenue is recognised in the amount to which the Group has a right to invoice.

Other Operating revenue

The Items of financial instruments acquired in exchange for a non-monetary asset or assets, or a combination of monetary and non-monetary assets, are measured at fair value unless (a) the exchange transaction lacks commercial substance or (b) the fair value of neither the asset received nor the asset given up is reliably measurable. If the Company is able to measure reliably the fair value of either the asset received or the asset given up, then the fair value of the asset given up is used to measure the cost of the asset received unless the fair value of the asset received is more clearly evident. The difference between the fair value of the financial instrument acquired and the carrying amount of the asset given up is recognised in statement of profit and loss.

Dividend Income:

Dividend income from investments is recognised when the shareholder's right to receive payment has been established (provided that it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably).

xiii) Foreign Currency Transactions

In preparing the financial statements of each individual Company entity, transactions in currencies other than the entity's functional currency (foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in profit or loss. Non-monetary items carried at fair value that are denominated in foreign currencies are translated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences on monetary items are recognised in profit or loss in the period in which they arise.

For the purpose of presenting consolidated financial statements, the assets and liabilities of the Company's foreign operations that have a functional currency other than presentation currency i.e. Indian Rupees are translated using exchange rates prevailing at the reporting date. Income and expense items are translated at the average exchange rates for the period. Exchange differences arising, if any, are recognized in other comprehensive income and held in foreign currency translation reserve (FCTR), a component of equity, except to the extent that the translation difference is allocated to non-controlling interest. When a foreign operation is disposed off, the relevant amount recognized in FCTR is transferred to the statement of income as part of the profit or loss on disposal. Goodwill and fair value adjustments arising on the acquisition of a foreign operation are treated as assets and liabilities of the foreign operation and translated at the exchange rate prevailing at the reporting date.

Foreign currency differences arising from translation of intercompany receivables or payables relating to foreign operations, the settlement of which is neither planned nor likely in the foreseeable future, are considered to form part of net investment in foreign operation and are recognized in FCTR.

xiv) Exceptional Items

When items of income and expense within statement of profit or loss from ordinary activities are of such size, nature or incidence that their disclosure is relevant to explain the performance of the enterprise for the period, the nature and amount of such items is disclosed separately as Exceptional items.

xv) Leases

The Group recognises right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment.

The Group measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using incremental borrowing rate. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Group is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments. The Group recognises the amount of the re-measurement of lease liability due to modification as an adjustment to the right-of-use asset and statement of profit and loss depending upon the nature of modification. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Group recognises any remaining amount of the re-measurement in statement of profit and loss.

The Group has elected not to apply the requirements of Ind AS 116. Leases to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognized as an expense on a straight-line basis over the lease term.

The following is the summary of practical expedients elected on initial application:

1. Applied a single discount rate to a portfolio of leases of similar assets in similar economic environment with a similar end date
 2. Applied the exemption not to recognize right-of-use assets and liabilities for leases with less than 12 months of lease term on the date of initial application
 3. Applied the practical expedient to grandfather the assessment of which transactions are leases.
- Accordingly, Ind AS 116 is applied only to contracts that were previously identified as leases under Ind AS 17.

xvi) Taxes on Income

Tax expense for the period, comprising current tax and deferred tax, are included in the determination of the net profit or loss for the period. Current tax is measured at the amount expected to be paid to the tax authorities in accordance with the taxation laws prevailing in the respective jurisdictions.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

Current tax assets and current tax liabilities are offset when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle the asset and the liability on a net basis. Deferred tax assets and deferred tax liabilities are offset when there is a legally enforceable right to set off assets against liabilities representing current tax and where the deferred tax assets and the deferred tax liabilities relate to taxes on income levied by the same governing taxation laws.

Deferred tax liabilities are not recognised for temporary differences between the carrying amount and tax bases of investments in subsidiaries, associates and interest in joint arrangements where the group is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

Deferred tax assets are not recognised for temporary differences between the carrying amount and tax bases of investments in subsidiaries, associates and interest in joint arrangements where it is not probable that the differences will reverse in the foreseeable future and taxable profit will not be available against which the temporary difference can be utilised.

xvii) Cash and Cash Equivalents

In the cash flow statement, cash and cash equivalents includes cash on hand, demand deposits with banks, other short-term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in the consolidated balance sheet.

xviii) Borrowing Costs

Borrowing costs directly attributable to acquisition or construction of qualifying assets (i.e. those fixed assets which necessarily take a substantial period of time to get ready for their intended use) are capitalised.

Borrowing costs include interest expense calculated using the EIR method. EIR includes interest, amortization of ancillary cost, incurred in connection with the borrowing of funds. Other borrowing costs are recognised as an expense in the period in which they are incurred.

xix) Segment Reporting

The Chairman has been identified as the Chief Operating Decision Maker (CODM) as defined by Ind AS 108, "Operating Segments."

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision makers.

The accounting policies adopted for segment reporting are in conformity with the accounting policies adopted for the Group. Revenue and expenses have been identified to segments on the basis of their relationship to the operating activities of the segment. Income / Costs which relate to the Group as a whole and are not allocable to segments on a reasonable basis, have been included under Unallocated Income / Costs. Interest income and expense are not allocated to respective segments (except in case of Financial Services segment).

xx) Dividends

The Group recognises a liability to make cash distributions to equity holders when the distribution is authorised and the distribution is no longer at the discretion of the Company. As per the Companies Act, 2013, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in other equity.

xxi) Investment property

Investment property is property held either to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business, use in the production or supply of goods or services or for administrative purposes. Upon initial recognition, an investment property is measured at cost. Cost of an investment property comprises its purchase price and any directly attributable expenditure. Subsequent to initial recognition, investment property is measured at cost less accumulated depreciation and accumulated impairment losses, if any. An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss on disposal of an investment property is recognised in profit or loss.

xxii) Rounding of amounts

All amounts disclosed in the financial statements and notes have been rounded off to the nearest crores as per the requirement of Division III, Schedule III, unless otherwise stated.

xiii) Standards issued but not yet effective

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On 31 March 2023, MCA amended the Companies (Indian Accounting Standards) Rules, 2015 by issuing the Companies (Indian Accounting Standards) Amendment Rules, 2023, applicable from 1 April 2023, as below:

Ind AS 1 – Presentation of Financial Statements The amendments require companies to disclose their material accounting policies rather than their significant accounting policies. Accounting policy information, together with other information, is material when it can reasonably be expected to influence decisions of primary users of general purpose financial statements. The Group does not expect this amendment to have any significant impact in its consolidated financial statements.

Ind AS 12 – Income Taxes The amendments clarify how companies account for deferred tax on transactions such as leases and decommissioning obligations. The amendments narrowed the scope of the recognition exemption in paragraphs 15 and 24 of Ind AS 12 (recognition exemption) so that it no longer applies to transactions that, on initial recognition, give rise to equal taxable and deductible temporary differences. The Group is evaluating the impact, if any, in its consolidated financial statements.

Ind AS 8 – Accounting Policies, Changes in Accounting Estimates and Errors The amendments will help entities to distinguish between accounting policies and accounting estimates. The definition of a change in accounting estimates has been replaced with a definition of accounting estimates. Under the new definition, accounting estimates are "monetary amounts in financial statements that are subject to measurement uncertainty". Entities develop accounting estimates if accounting policies require items in financial statements to be measured in a way that involves measurement uncertainty. The Group does not expect this amendment to have any significant impact in its consolidated financial statements.

(B) Critical Accounting Judgements And Key Sources Of Estimation Uncertainties

The preparation of the consolidated financial statements in conformity with Ind AS requires the Management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) and the reported income and expenses during the year. The Management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Future results could differ due to these estimates and the differences between the actual results and the estimates are recognised in the periods in which the results are known/materialise.

i. Estimation of uncertainty relating to current macro economic scenario

In assessing the recoverability of loans, receivables, intangible assets and investments, the Group has considered internal and external sources of information, including credit reports, economic forecasts and industry reports up to the date of approval of these financial statements. The Group has performed sensitivity analysis on the assumptions used and based on current indicators of future economic conditions, the carrying amount of these assets represent the Group's best estimate of the recoverable amounts.

ii. Fair Valuation:

Certain financial assets of the Group are measured at fair value for financial reporting purposes. In estimating the fair value of an asset and liability, the Group uses market observable data to the extent it is available. When the fair value of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques. In such cases, the Company usually engages third party qualified external valuer to establish the appropriate valuation techniques and inputs to the valuation model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments. Information about the valuation techniques and inputs used in determining the fair value of various assets and liabilities are disclosed in Note 59.

iii. Expected Credit Loss Impairment and Net Loss arising on Derecognition of financial asset:

The measurement of impairment losses on loan assets and commitments, requires judgement, in estimating the amount and timing of future cash flows and recoverability of collateral values while determining the impairment losses and assessing a significant increase in credit risk.

When determining the provision for impairment loss on financial assets carried at amortised cost and Loan commitments, in line with Expected Credit Loss model, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort for determining the Probability of default (PD) and Loss Given default (LGD). The Group's Expected Credit Loss (ECL) calculation is the output of a complex model with a number of underlying assumptions regarding the choice of variable inputs and their interdependencies. Elements of the ECL model that are considered accounting judgements and estimates include both quantitative and qualitative information and analysis, based on the Group's historical experience and credit assessment and including forward-looking information. Key estimation uncertainties of ECL include:

- The Group's criteria for assessing if there has been a significant increase in credit risk
- The segmentation of financial assets when their ECL is assessed on a collective basis
- Development of ECL model, including the various formulae and the choice of inputs
- Selection of forward-looking macroeconomic scenarios and their probability weights, to derive the economic inputs into the ECL model
- Additional ECL provision (including management overlay) used in circumstances where management judges that the existing inputs, assumptions and model techniques do not capture all the risk factors relevant to the Group's lending portfolios.

The inputs used and process followed by the Group in determining the impairment loss in line with Expected Credit loss model have been detailed in Note 57(f). It has been the Company's policy to regularly review its model in the context of actual loss experience, macro economical factors and adjust when necessary.

iv. Impairment loss in Investments and investment property carried at cost:

The Group conducts impairment reviews of investments in subsidiaries/ associates/ joint arrangements and Investment property, whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable or tests for impairment annually. Determining whether an asset is impaired requires an estimation of the recoverable amount, which requires the Company to estimate the value in use which is based on future cash flows and a suitable discount rate in order to calculate the present value.

v. Income taxes and Deferred Taxes

The Group uses estimates and judgements based on the relevant rulings in the areas of allocation of revenue, costs, allowances and disallowances which is exercised while determining the provision for income tax. A deferred tax asset is recognised to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilised. Accordingly, the Company exercises its judgement to reassess the carrying amount of deferred tax assets at the end of each reporting period.

vi. Effective Interest Rate (EIR) Method

The Group recognises interest income / expense using a rate of return that represents the best estimate of a constant rate of return over the expected life of the loans given / taken. This estimation, by nature, requires an element of judgement regarding the expected behaviour and life-cycle of the instruments, as well as expected changes to other fee income/expense that are integral parts of the instrument.

vii. Going Concern

The financial statements of the Holding Company are prepared on a going concern basis. Management is of the view that it is considered appropriate to prepare these financial statements on a going concern basis as the Company expects to generate sufficient cash flows from operating activities and unused lines of credit to meet its obligations in the foreseeable future.

viii. Demerger of Pharma undertaking

All assets and liabilities pertaining to demerged Pharma undertaking have been classified as non-cash assets held for transfer to Piramal Pharma Limited / shareholders as on 1st April 2022 being the appointed date. The difference between carrying values of the assets and liabilities transferred is recognised as gains in Profit and loss account as per the requirements of Appendix A to Ind AS 10. At the date of approval of the Scheme, the Holding Company remeasured the liability to distribute non-cash assets as a dividend to its owners at the fair value of the assets to be distributed. The corresponding aggregate charge was recognised in retained earnings (reserve).

The nature of the gain (including remeasurement gain) being non-recurring in nature was classified as exceptional item by the Company.

As per the requirements of Ind AS 105, the income and expense pertaining to Pharma business in the previous comparable periods were presented in a separate line item – discontinued operations.

ix. Non-current assets held for sale and discontinued operations

Non-current assets (including disposal groups) are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable.

Non-current assets classified as held for sale are measured at lower of their carrying amount and fair value less cost to sell. Non-current assets classified as held for sale are not depreciated or amortised from the date when they are classified as held for sale.

Non-current assets classified as held for sale and the assets and liabilities of a disposal group classified as held for sale are presented separately from the other assets and liabilities in the Standalone Balance Sheet.

A discontinued operation is a component of the entity that has been disposed off or is classified as held for sale and:

- represents a separate major line of business or geographical area of operations and;
- is part of a single co-ordinated plan to dispose of such a line of business or area of operations.

The results of discontinued operations are presented separately in the Statement of Profit and Loss.

The presentation and disclosures relating to the statement of profit and loss pertaining to discontinued operations by the end of the current period are re-presented in the financial statements. There is no reclassification or re-presentation of amounts presented for non-current assets or for the assets and liabilities of disposal groups classified as held for sale in the balance sheets for prior periods to reflect the classification in the balance sheet for the latest period presented.

x. Share based Payments

The Group recognises compensation expense relating to share based payments in accordance with Ind AS 102 Share-based Payment. Stock options granted by the Company to its employees are accounted as equity settled options. Accordingly, the estimated fair value of options granted that is determined on the date of grant, is charged to statement of Profit and Loss on a straight line basis over the vesting period of options which is the requisite service period, with a corresponding increase in equity.

- No trade receivables are due from firms or private companies respectively in which any director is a partner, a director or a member, other than those disclosed under note 55 (3)

In the Pharmaceuticals Manufacturing and Services business, the credit period on sale of goods ranges from 7 to 150 days.

The Group has a documented Credit Risk Management Policy for its Pharmaceuticals Manufacturing and Services business. For every new customer (except established large pharma companies), the group performs a credit rating check using an external credit agency. If a customer clears the credit rating check, the credit limit for that customer is derived using internally documented scoring systems. The credit limits for all the customers are reviewed on an ongoing basis.

The Group has used a practical expedient by computing the expected credit loss allowance for External Trade Receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience, adjusted for forward looking information including the likelihood of increased credit risk. Based on external sources of information the group has concluded that the carrying amount of the trade receivables represent the Group's best estimate of the recoverable amounts'. The expected credit loss allowance is based on the ageing of the days the receivables are due and the Group's stated policy.

12 Investment property (continued)

Additional details with respect to investment properties held by the Group are as follows:

(i) Land development rights

Investment property, recorded at a carrying value of Rs. 1,335.31 crores, consists of land development rights, without any restriction on its realisability and is being held for capital appreciation and eventual monetization by exploring various options.

In accordance with Ind AS 113, the fair value of investment property is determined by the Group at Rs. 1,471 crores (Previous Year: Rs. 1,734 crores) following the risk-adjusted discounted cash flow method and based on Level 3 inputs from an independent valuation expert, as defined under rule 2 of Companies (Registered Valuers and Valuation) Rules, 2017. The fair valuation is based on current real estate prices in the active market for similar properties. The main inputs used are area, location, construction cost, demand, weighted-average cost of capital and trend of real estate market at the location.

(ii) Commercial property

The Group's investment property and investment property under construction consists of commercial property situated at Kurla, Mumbai. As on 31 March 2023 the fair value of investment property is Rs. 980.51 crores. The valuation is performed by an accredited registered independent valuer in accordance with the framework specified under Ind AS .

Description of hierarchy, valuation technique used and key inputs to valuation are as below 31 March 2023:

	Fair Value Hierarchy	Valuation Technique	Significant unobservable inputs	31-Mar-23
Wing D- Land	Level 3	Discounted Cash Flow and Residual Method (M22); Capitalisation rate method (M21)	Rent growth p.a.	5.12% p.a.
			Capitalisation rate	78% p.a.
			Occupancy rate	95%
Wing A- Land	Level 2	Market Survey Method	Based on the land (38,000 sq. m.) sold to Lodha group @ INR 120 Crores	
Wing A- Building	Level 3	Depreciated Replacement Cost method	Based on the book value of building	

Under the valuation technique as mentioned above, fair value is estimated using assumptions regarding the benefits and liabilities of ownership over the asset's life including an exit or terminal value. This method involves the projection of a series of cash flows on a real property interest.

The duration of the cash flows and the specific timing of inflows and outflows are determined by events such as rent reviews, lease renewal and related re-letting, redevelopment, or refurbishment. The appropriate duration is typically driven by market behaviour that is a characteristic of the class of real property. Periodic cash flow is typically estimated as gross income less vacancy, non-recoverable expenses, collection losses, lease incentives, maintenance cost, agent and commission costs and other operating and management expenses. The series of periodic net operating income, along with an estimate of the terminal value anticipated at the end of the projection period, is then discounted.

Significant increases/ (decreases) in estimated rental value and rent growth per annum in isolation would result in a significantly higher/ (lower) fair value of the properties. Significant increases/ (decreases) in occupancy rate and discount rate/capitalisation rate in isolation would result in a significantly lower (higher) fair value.

Lease income

The Group's investment property consist of one commercial property in Kurla, Mumbai. The management has determined that the investment property consist of - Piramal Agastya Corporate Park (Phase I) based on the nature, characteristics and risks of property.

Depreciation for the year includes depreciation amounting to Rs. 7.88 Crores (Previous Year Rs. 8.38 Crores) on assets used for Research and Development locations at Emore and Mumbai.

All immovable properties are held in the name of the Group company except for certain assets which were transferred on account of business combination and are in the name of erstwhile Dewan Housing Finance Corporation Limited (wholly-owned subsidiary).

[^] The Group has a 25% share in joint ownership of Helicopter

There has been no revaluation of property, plant and equipment ("PPE") and intangibles during the year ended 31 March 2022

Considering internal and external sources of information, the Group has evaluated at the end of the reporting period, whether there is any indication that any intangible asset may be impaired. Where such indication exists, the Group has estimated the recoverable amount of the intangible assets based on 'value in use' method. The financial projections on the basis of which the future cash flows have been estimated consider (a) reassessment of the discount rates, (b) revisiting the growth rates factored while arriving at terminal value, and these variables have been subjected to a sensitivity analysis.

The carrying amount of the intangible assets represent the Group's best estimate of the recoverable amounts.

TOTAL	1,684.78	1,421.43

*(includes liability towards sold portfolio etc.)

During the year ended 31 March 2023, PCHFL, wholly owned subsidiary, has recovered Rs. 309.14 crores from 6 parties, against whom Avoidance Applications were filed by the Administrator, by way of settlement agreements entered by the entity with these parties under Section 7 of Insolvency and Bankruptcy Code, 2016 as full and final settlement of financial dues and withdrawal of all pending cases against these parties in connection with the disputes and / or finance documents and / or financial debt, if any, before any forum / court / tribunal / authority and / or otherwise, under any / all applicable laws. The Group is of the view that these amounts are not required to be paid to Committee of Creditors (CoC) and continues to pursue for recovery against these parties w.r.t. Avoidance Application filed by the administrator. However, considering the complexity of the matter, amount of Rs. 274.95 crores (after adjustment of recovery against Section 66) has not been recognized as income and shown as liability in financial statements.

In previous year, amount of Rs.0.53 crores of unclaimed dividend which was due for payment to the investor education and protection fund under section 125 of the Companies Act 2013 was paid during the year.

Pursuant to the corporate insolvency resolution process initiated by the Reserve Bank of India (RBI) in PCHFL(i.e. the erstwhile Dewan Housing Finance Corporation Limited (DHFL) and the subsequent order of the Hon'ble National Company Law Tribunal (NCLT), a Moratorium was imposed on DHFL in terms of the Insolvency and Bankruptcy Code, 2016 (Code) w.e.f. from 3 December 2019.

On account of Moratorium, alienation of any assets of DHFL was prohibited until the completion of the insolvency process. Consequently, the Administrator decided that the amount lying in the bank accounts of DHFL (including unclaimed dividend accounts) shall not be alienated or transferred in any manner, and that any such alienation/transfer, while Moratorium is in force, would result in violation of Section 14 of the Code. Further, all bank accounts of DHFL, including unclaimed dividend accounts, were frozen for any debit transactions.

The implementation of the insolvency resolution plan, as approved by the NCLT, was completed on 30 September 2021 and the new board of directors was instated on 30 September 2021 subsequent to which PCHFL was able to take practical steps to reactivate the relevant unclaimed dividend accounts.

As on 31 March 2023, the Group is in compliance of requirements and there is no delays.

Nature and purpose of other equity

Capital Reserve

This reserve is outcome of business combinations carried out during previous years.

Securities Premium

Securities premium is used to record the premium on issue of shares. The reserve is utilised in accordance with the provision of the Companies Act, 2013.

Capital Redemption Reserve

This reserve was created as per requirements of Companies Act 2013 pursuant to buyback of equity shares and redemption of preference shares.

Debenture Redemption Reserve

The Debenture redemption reserve was created in previous years, as per the requirements of Rule 18(7) of the Companies (Share Capital and Debentures) Rules, 2014. Debenture redemption reserve has not been created in respect of privately placed debentures in accordance with the Companies (Share Capital and Debentures) Rules, 2014.

General Reserve

General reserve is created from time to time by way of transfer of profits from retained earnings for appropriation purposes. It is created by a transfer from one component of equity to another and is not an item of other comprehensive income.

Foreign Currency Translation Reserve

Exchange differences arising on translation of foreign operations are recognised in other comprehensive income and accumulated in a separate reserve within equity. The cumulative amount is reclassified to profit or loss when the net investment is disposed off.

Reserve Fund u/s 45-IC (1) of Reserve Bank of India Act, 1934

Reserve Fund is required to be maintained u/s 45-IC(1) of the Reserve Bank of India Act, 1934 for Non Banking Financial Companies. During the year ended 31 March 2023, the Group has transferred an amount of Rs. 484.27 Crores (Previous year Rs. 85.06 Crores), being 20% of profit after tax computed in accordance with Ind AS.

Reserve Fund u/s 29C of the NHB Act, 1987

Reserve Fund is required to be maintained u/s 29C of the NHB Act, 1987 for Housing Finance Companies. During the year ended 31 March 2023, the Group has transferred an amount of Nil (Previous year Rs. 105.15 Crores), being 20% of profit after tax. Reserve Fund is required to be maintained u/s 29C of the NHB Act, 1987 for Housing Finance Companies.

FVTOCI - Equity Instruments

The Group has elected to recognise changes in the fair value of certain investments in equity securities in other comprehensive income. These changes are accumulated within the FVTOCI equity investments reserve within equity. The Group transfers amounts from this reserve to retained earnings when the relevant equity securities are derecognised.

FVTOCI - Debt Instruments

The Group has elected to recognise changes in the fair value of certain investments in debt securities in other comprehensive income. These changes are accumulated within the FVTOCI debt investments reserve within equity. The Group transfers amounts from this reserve to Consolidated statement of profit & loss when the relevant debt securities are derecognised.

Cash Flow Hedging Reserve

The Group uses hedging instruments as part of its management of foreign currency risk associated with its Foreign Currency Non-repatriable loans and for forecasted sales. Amounts recognised in cash flow hedging reserve is reclassified to Consolidated Statement of Profit and Loss when the hedged items affect the statement of Profit and Loss. To the extent these hedges are effective, the change in the fair value of hedging instrument is recognised in the Cash Flow Hedging Reserve (Refer Note 57(e)).

Retained Earnings

Retained earnings are the profits that Group has earned to date, less any dividends or other distributions paid to investors.

On 26 May 2022, a Dividend of Rs. 33 per equity share (Face value of Rs. 2/- each) amounting to Rs. 787.59 Crores has been recommended by the Board of Directors of the Holding Company which was approved of the Shareholders in annual general meeting on 29 July 2022.

On 5 May 2023, a Dividend of Rs. 31 per equity share (Face value of Rs. 2/- each) amounting to Rs. 739.86 Crores has been recommended by the Board of Directors of the Holding Company which is subject to approval of the Shareholders. The amounts calculated are based on the number of shares likely to be entitled for dividend as estimated on 5 May 2023.

Amalgamation Adjustment Reserve

Amalgamation adjustment reserve has been created on account of business combination (refer note 66(ii)).

Employee stock option reserve

Share options outstanding account is created as required by Ind AS 102 'Share Based Payments' on the Employee Stock Option Scheme operated by the Holding Company for employees of the Group.

(a) Estimated amount of contracts remaining to be executed on capital account and not provided for	207.01	292.45
(b) The Group has imported raw materials at concessional rates, under the Advance License Scheme of the Government of India, to fulfil conditions related to quantified exports in stipulated period	-	29.51
(c) Other commitments	20.76	11.28

The Group has a process whereby periodically all long term contracts are assessed for material foreseeable losses. At year end the Group has reviewed and ensured that adequate provision as required under any law / accounting standards for material foreseeable losses on such long term contracts has been made in the books of accounts.

The Group has also reviewed all its pending litigations and proceedings and has adequately provided for where provisions are required and disclosed the contingent liabilities where applicable, in its financial statements. The Group does not expect the outcome of these proceedings to have a materially adverse effect on its financial results.

Refer note 57 in case of loan commitments and other commitments

44 Earnings per share (EPS)

In accordance with Ind AS 33 'Earnings per share', Basic EPS is calculated by dividing the profit for the year attributable to equity holders of the Holding Company by the weighted average number of equity shares outstanding during the year.

Diluted EPS is calculated by dividing the profit attributable to equity holders of the Holding Company by the weighted average number of equity shares outstanding during the year plus the weighted average number of equity shares that would be issued on conversion of all the dilutive potential equity shares into equity shares of the Holding Company.

The following reflects the income and share data used in the basic and diluted EPS computations:

Description	For the year ended	
	31 March 2023	31 March 2022
(a) Basic and diluted EPS for the year from continuing operations		
Net profit from continuing operations attributable to equity shareholders	9,968.58	1,662.24
Weighted average number of equity shares outstanding during the year for calculation of basic EPS	23,86,63,700	23,82,93,390
Weighted average number of equity shares outstanding during the year for calculation of diluted EPS	23,94,55,874	23,91,86,403
Basic EPS of face value of Rs.2 from continuing operations	417.68	69.75
Diluted EPS of face value of Rs.2 from continuing operations	416.30	69.50
(b) Basic and diluted EPS for the year from discontinued operations		
Net profit from discontinued operations attributable to equity shareholders	-	260.87
Weighted average number of equity shares outstanding during the year for calculation of basic EPS	-	23,82,93,390
Weighted average number of equity shares outstanding during the year for calculation of Diluted EPS	-	23,91,86,403
Basic EPS of face value of Rs.2 from discontinued operations	-	10.95
Diluted EPS of face value of Rs.2 from discontinued operations	-	10.90
(c) EPS for the year from continuing and discontinued operations		
Basic EPS	417.68	80.70
Diluted EPS	416.30	80.40
(d) Weighted average number of shares used in calculation of basic and diluted earnings per share		
Weighted Average Number of Equity Shares for calculating Basic EPS (nos.)	23,86,63,700	23,82,93,390
Weighted Average Potential Equity Shares in respect of		
(i) Right shares reserved for CCD holders and right shares held in abeyance (nos.)	24,573	8,93,013
(i) Outstanding stock options (nos.)	7,67,601	-
Weighted Average Number of Equity Shares for calculating Diluted EPS (nos.)	23,94,55,874	23,91,86,403

Piramal Enterprises Limited**Notes to the consolidated financial statements (Continued)**

For the year ended 31 March 2023

(Currency : Rs in crores)

45 Property, Plant & Equipment, Brands and Trademarks, Investment in Non Convertible Debentures, Inter Corporate Deposits and Other Financial Assets are mortgaged / hypothecated to the extent of Rs. 71,532.95 Crores (As on 31 March 2022: Rs.55,608.16 crores) as a security against secured borrowings as at 31 March, 2023.

46 Disclosures in compliance with the Regulation 52 (4) of the SEBI (Listing Obligation and Disclosure Requirements) Regulation, 2015 for the financial year ended 31 March 2023

Particulars	For the year ended 31 March 2023
(a) Debt-Equity ratio ([Debt securities+Borrowings (other than debt securities)+Deposits+Subordinated debts] /	1.60
(b) Net Worth [Total Equity] (Rs. in crores)	31,059.08
(c) Net Profit after tax (Rs. in crores)	9,968.58
(d) Earnings per share (continuing and discontinued operations)	
(i) Basic (Rs.)	417.68
(ii) Diluted (Rs.)	416.30
(e) Total debts to total assets ratio ([Debt securities+Borrowings (other than debt securities) + Deposits+ Subordinated debts] / Total Assets)	59.20%
(f) Net profit margin [Profit after tax / Total Income]	20.94%
(g) Sector specific equivalent ratio, as applicable	
(i) Gross NPA (stage 3 asset, gross) ratio	3.76%
(ii) Net NPA (stage 3 asset, net) ratio	1.93%

On July 26, 2022, The Holding Company had received the Certificate of Registration to carry on the business of Non Banking Financial Institution. Hence, the previous years figures in the above disclosure have not been provided.

47 Segment reporting

With effect from 1 April 2022, the Holding Company and its subsidiaries are primarily engaged in the business of financing and accordingly there are no separate reportable segmental information as per Ind AS 108. Further, since Pharmaceuticals is part of discontinuing operation (refer note 70 & 71), the same has not been presented as segmental information for previous year as per the guidance in Ind AS 105. To that extent, the segment information pertaining to previous year are not comparable and relevant.

48 Piramal Capital & Housing Finance Limited ("PCHFL"), wholly owned subsidiary, is required to comply with Principal Business Criteria ('PBC') as stated in paragraph 5.3 of Non-Banking Financial Company – Housing Finance Company (Reserve Bank) Directions, 2021 ('RBI Directions'). PCHFL had submitted a detailed business plan to the RBI in April and June 2022 detailing the roadmap to comply with the principal business criteria by 31 March 2024. Based on submission, the RBI advised PCHFL to ensure compliance with the submitted business plan, as the same shall be monitored at regular intervals by the RBI and NHB. PCHFL is currently trailing in meeting committed PBC thresholds for the year ended 31 March 2023, however, the management believes that PCHFL will be able to meet the required PBC thresholds latest by 31 March 2024. In order to achieve the above, PCHFL has changed its business strategy to shift focus majorly on housing finance loans and has decided to further reduce the Assets Under Management (AUM) in wholesale lending business in next few years.

49 Leases

(i) Amounts recognised in the balance sheet

Following are the changes in the carrying value of right of use assets for the year ended 31 March 2023

Category of Asset	Opening as on 1 April 2022	Deductions as per composite scheme of arrangement (refer note 71)	Additions during 2022-23	Deductions / Adjustments during 2022-23	Amortisation for 2022-23	Foreign currency translation impact	Closing as on 31 March 2023
Building	246.74	98.33	141.27	8.98	60.45	-	220.25
Leasehold Land	65.84	65.84	-	-	-	-	-
Storage unit	0.00	0.00	-	-	-	-	-
Guest House	0.29	0.29	-	-	-	-	-
Equipments	0.75	0.75	-	-	-	-	-
IT Assets	1.09	1.09	-	-	-	-	-
Total	314.73	166.31	141.27	8.98	60.45	-	220.25

Lease liabilities as on 1 April 2022 251.98

Lease liabilities as on 31 March 2023 238.90

Following are the changes in the carrying value of right of use assets for the year ended 31 March 2022

Category of Asset	Opening as on 1 April 2021	Acquisition through business combination *	Additions during 2021-22	Deductions during 2021-22	Amortisation for 2021-22 #	Foreign currency translation impact	Closing as on 31 March 2022
Building	182.30	86.27	43.42	2.53	67.17	4.47	246.74
Leasehold Land	5.81	54.09	6.68	0.47	0.27	-	65.84
Storage unit	0.08	-	-	0.08	-	-	0.00
Guest House	0.52	-	-	-	0.23	-	0.29

IT Assets	3.92	-	-	-	2.83	-	1.09
Total	193.40	140.86	50.10	3.08	71.03	4.47	314.73

Lease liabilities as on 1 April 2021 187.90

Lease liabilities as on 31 March 2022 251.98

* Refer Note 66

Includes depreciation of Rs.27.84 crores forming part discontinued operations

(ii) Amounts recognised in the statement of profit or loss

Particulars	Year Ended	
	31 March 2023	31 March 2022
The statement of profit or loss shows the following amounts relating to leases:		
Interest expense on lease liabilities (included in finance cost) (also forming part of discontinued operations in the previous year)	7.76	12.96
Income from sub-leasing right-of-use assets	0.14	1.18
Expense relating to short-term leases (included in Operating Expenses and discontinuing operations) (also forming part of discontinued operations in the previous year)	2.74	10.21
Expense relating to leases of low-value assets (other than short term leases as disclosed above) (included in Operating expenses) (also forming part of discontinued operations in the previous year)	-	28.62

The weighted average incremental borrowing rate applied to lease liabilities as at April 1, 2022 ranges between 8.91 % to 11.54% (Previous Year :2.51% to 11.77%).

The bifurcation below provides details regarding the contractual maturities of lease liabilities on an undiscounted basis:

Particulars	As at	
	31 March 2023	31 March 2022
1 year	63.63	77.22
1-3 years	106.99	126.68
3-5 years	76.28	42.44
More than 5 years	55.50	129.22

50 Goodwill

Movement in Goodwill during the year:

Particulars	As at	
	31 March 2023	31 March 2022
Opening balance	1,294.70	1,114.28
Add: Addition due to acquisition during the year (Refer Note 66(iii))	2.00	145.06
Add: Currency translation differences	5.97	35.36
Less: Adjustments on account of composite scheme of arrangement (Refer Note 71)	(1,030.50)	-
Closing balance	272.17	1,294.70

For the purpose of impairment testing, goodwill acquired in a business combination is allocated to the cash generating units (CGU) or group of CGUs, which are benefited from the synergies of the acquisition. Goodwill is reviewed for any impairment at the operating segment, which is represented through group of CGUs.

The following table presents the allocation of goodwill to reportable segments:

Particulars	As at	
	31 March 2023	31 March 2022
Pharmaceuticals	-	1,030.50
Financial Services	272.17	264.20
	272.17	1,294.70

The recoverable amount of a CGU is the higher of its fair value less cost to sell and its value - in - use.

CGUs to which goodwill has been allocated are tested for impairment annually, or more frequently when there is indication for impairment. The financial projections basis which the future cash flows have been estimated consider (a) the increase in economic uncertainties due to COVID-19, (b) reassessment of the discount rates, (c) revisiting the growth rates factored while arriving at terminal value and subjecting these variables to sensitivity analysis. If the recoverable amount of a CGU is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit on a pro-rata basis of the carrying amount of each asset in the unit.

The recoverable amount was computed using the discounted cash flow method for which the estimated cash flows for a period of 5 years were developed using internal forecasts, and a pre-tax discount rate of 38.64% (31 March 2022: 10.77% to 24.14%).

The management believes that any possible changes in the key assumptions would not cause the carrying amount to exceed the recoverable amount of cash generating unit.

Based on the above, no impairment was identified as of 31 March 2023 and 31 March 2022 as the recoverable value exceeded the carrying values.

51 Movement in Provisions :

Particulars	Litigations / Disputes		Onerous Contracts	
	As at 31 March		As at 31 March	
	2023	2022	2023	2022
Balances as at the beginning of the year	3.50	3.50	0.08	0.08
Amount transferred as per composite scheme of arrangement (refer note 71)	-	-	(0.08)	-
Revaluation of closing balances	-	-	-	*
Balances as at the end of the year	3.50	3.50	-	0.08

* below rounding off norms adopted by the Group

(a) Provision for litigation / disputes represents claims against the Group not acknowledged as debts that are expected to materialise in respect of matters under litigation. Future cash outflows are determinable only on receipt of judgments/decisions pending with various forums/authorities.

(b) Provision for Onerous contracts represents the amounts provided for contracts where the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received under it.

52 Transfer of Financial Assets

Transferred financial assets that are not derecognised in their entirety

The following tables provide a summary of financial assets that have been transferred in such a way that part or all of the transferred financial assets do not qualify for derecognition, together with the associated liabilities.

	Securitisations	Year Ended	
		31 March 2023	31 March 2022
Carrying amount of transferred assets measured at amortised cost (held as Collateral)		1,094.36	2,808.39
Carrying amount of associated liabilities (Borrowings) (other than securities)- measured at amortized cost		1,091.57	2,669.65
Fair Value of Assets		1,094.36	2,808.39
Fair Value of Associated Liabilities		1,091.57	2,669.65
Net Position at Fair Value		2.79	138.74

Note : Transferred Financial Assets that are derecognised in their entirety

The Group has assigned loans (earlier measured at amortized cost) by way of direct assignment. As per the terms of deals, since substantial risk and rewards related to these assets were transferred to the buyer, the assets have been de-recognised from the Group's Balance Sheet. The table below summarised the carrying amount of the derecognised financial assets.

	Direct Assignment	As at	
		31 March 2023	31 March 2022
Carrying amount of transferred assets measured at amortised cost		11,237.57	16,220.42
Carrying amount of exposures retained by the Group at amortized cost		1,415.98	2,162.69

53 Interests in other entities

(a) Subsidiaries

The Group's subsidiaries at 31 March 2023 are set out below.

Unless otherwise stated, they have share capital consisting solely of equity shares that are held directly by the group, and the proportion of ownership interests held equals the voting rights held by the group.

The country of incorporation or registration is also their principal place of business.

Total share of profits from Associates and Joint Ventures	317.72	575.61

54 Employee Benefits :

Brief description of the Plans:

Other Long Term Employee Benefit Obligations:

Leave Encashment, which are expected to be availed or encashed beyond 12 months from the end of the year are treated as other long term employee benefits. The Group's liability is actuarially determined (using the Projected Unit Credit method) at the end of each year. Actuarial losses/ gains are recognised in the Consolidated Statement of Profit and Loss in the year in which they arise.

Long Term Service Awards are recognised as a liability at the present value of the defined benefit obligation as at the balance sheet date.

Defined Contribution plans:

The Group's defined contribution plans are Provident Fund (in case of certain employees), Superannuation, Overseas Social Security Plans, Employees State Insurance Fund and Employees' Pension Scheme (under the provisions of the Employees' Provident Funds and Miscellaneous Provisions Act, 1952) and 401(k) plan contribution(in case of US subsidiaries). The Group has no further obligation beyond making contributions to such plans.

Post-employment benefit plans:

Gratuity for employees in India is paid as per the Payment of Gratuity Act, 1972. Employees who are in continuous service for a period of 5 years are eligible for gratuity. The amount of gratuity payable on retirement/termination is the employees last drawn basic salary per month computed proportionately for the number of years of service. The Group has both funded and non funded plans and makes contributions to recognised funds in India in case of funded plans.

The Group's Gratuity Plan is administered by an insurer and the Investments are made in various schemes of the trust. The Group funds the plan on a periodical basis.

In case of certain employees, the Provident fund is administered through an in-house trust. Periodic contributions to the trust are invested in various instruments considering the return, maturity, safety, etc., within the overall ambit of the Provident Fund Trust Rules and investment pattern notified through the Ministry of Labour investment guidelines for exempted provident funds.

In case of a foreign subsidiary, the subsidiary sponsors a defined benefit retirement plan. The benefits are based on employees' years of experience and final remuneration. The plan was funded through a separate trustee-administered fund. The pension cost for the main defined plans is established in accordance with the advice of independent qualified actuary. This fund was closed to future accrual of benefits with effect from November 15, 2017 and there are no active members.

These plans typically expose the Group to actuarial risks such as: investment risk, interest rate risk, longevity risk and salary risk.

Investment risk

The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds. Plan investment is a mix of investments in government securities, equity, mutual funds and other debt instruments.

Interest risk

A decrease in the bond interest rate will increase the plan liability; however, this will be partially offset by an increase in the return on the plan's debt investments.

Longevity risk

The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

Salary risk

The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

The Group has both funded and non funded plans and makes contributions to recognised funds in India in case of funded plans. The Group does not fully fund the liability and maintains a target level of funding to be maintained over a period of time based on estimations of expected gratuity payments. In respect of certain employees, Provident Fund contributions are made to a Trust administered by the Group. The contributions made to the trust are recognised as plan assets. Plan assets in the Provident fund trust are governed by local regulations, including limits on contributions in each class of investments.

The Group actively monitors how the duration and the expected yield of the investments are matching the expected cash outflows arising from the employee benefit obligations, with the objective that assets of the gratuity / provident fund obligations match the benefit payments as they fall due. Investments are well diversified, such that the failure of any single investment would not have a material impact on the overall level of assets.

A large portion of assets consists of government and corporate bonds, although the Group also invests in equities, cash and mutual funds. The plan asset mix is in compliance with the requirements of the regulations in case of Provident fund.

In case of an overseas subsidiary, the pension plans were funded through a separate trustee-administered fund. The subsidiary employs a building block approach in determining the long term rate of return on pension plan assets. Historical markets are studied and assets with higher volatility are assumed to generate higher returns consistent with widely accepted capital market principles.

I. Charge to the Consolidated Statement of Profit and Loss based on Defined Contribution Plans:

Particulars	Year Ended	
	31 March 2023	31 March 2022
Employer's contribution to Regional Provident Fund Office	21.65	21.57

Net (Income) / Expense For the Period Recognized in OCI	(2.31)	(0.96)	-	-	-	-	-	0.50

F. Significant Actuarial Assumptions:

Particulars	(Funded)						(Non-Funded)	
	Gratuity		Pension		Provident Fund		Gratuity	
	As at 31 March		As at 31 March		As at 31 March		As at 31 March	
	2023	2022	2023	2022	2023	2022	2023	2022
Discount Rate (per annum)	6.84% to 7.41%	6.05% to 6.84%	NA	2%	7.35%	6.84%	NA	5.18%
Salary escalation rate	6.50% to 10%	6% to 10%	NA	NA	NA	NA	NA	7.00%
Expected Rate of return on Plan Assets (per annum)	6.70% to 7.41%	6.05% to 6.84%	NA	2%	7.35%	6.84% to 8.10%	NA	NA

The expected rate of return on plan assets is based on market expectations at the closing of the year. The rate of return on long-term bonds is taken as reference for this purpose.

In case of certain employees, the Provident Fund contribution is made to a Trust administered by the Group. In terms of the Guidance note issued by the Institute of Actuaries of India, the actuary has provided a valuation of Provident fund liability based on the assumptions listed above and determined that there is no shortfall at the end of each reporting period.

G. Movements in the present value of net defined benefit obligation are as follows:

I. Other Details

Funded Gratuity

Particulars	As at	
	31 March 2023	31 March 2022
Number of Active Members	12,209	7,519
Per Month Salary For Active Members	22.91	28.42
Average Expected Future Service (Years)	2 to 7 Years	5 to 8 Years
Projected Benefit Obligation (PBO) (Rs. In crores)	56.95	124.50
Prescribed Contribution For Next Year (12 Months) (Rs. In crores)	6.08	29.93

J. Cash Flow Projection: From the Fund

Projected Benefits Payable in Future Years From the Date of Reporting	Estimated for the year ended	
	31 March 2023	31 March 2022
1st Following Year	24.08	25.21
2nd Following Year	8.37	11.62
3rd Following Year	6.50	11.73
4th Following Year	5.50	11.15
5th Following Year	4.74	10.44
Sum of Years 6 To 10 Years	13.04	50.04

The Group's Gratuity Plan is administered by an insurer and the investments are made in various schemes of the trust. The Group funds the plan on a periodical basis.

In case of certain employees, the Provident fund is administered through an in-house trust. Periodic contributions to the trust are invested in various instruments considering the return, maturity, safety, etc., within the overall ambit of the Provident Fund Trust Rules and investment pattern notified through the Ministry of Labour investment guidelines for exempted provident funds.

Weighted average duration of the defined benefit obligation is in the range of 3-10 years (Previous year 7- 10 years)

K. Sensitivity Analysis

Projected Benefit Obligation	Gratuity - Funded		Pension - Funded		Gratuity - Non Funded	
	As at 31 March	As at 31 March	As at 31 March	As at 31 March	As at 31 March	As at 31 March
Impact of +1% Change in Rate of Discounting	(1.38)	(6.16)	-	-	NA	NA
Impact of -1% Change in Rate of Discounting	1.51	4.54	-	-	NA	NA
Impact of +1% Change in Rate of Salary Increase	1.46	6.37	-	-	NA	NA
Impact of -1% Change in Rate of Salary Increase	(1.15)	(6.13)	-	-	NA	NA

The above sensitivity analyses are based on change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the balance sheet.

The estimates of future salary increases, considered in actuarial valuation, take account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

The liability for Long term Service Awards (Non - Funded) as at year end is Rs. 0.16 Crores (Previous year - Rs. 3.77 crores)

The liability for Leave Encashment (Non - Funded) as at year end is Rs. 22.13 Crores (Previous year Rs. 19.20 Crores)

56 Capital Management

The Group's capital management strategy is to effectively determine, raise and deploy capital so as to create value for its shareholders. The same is done through a mix of either equity and/or combination of short term /long term debt as may be appropriate. The Group determines the amount of capital required on the basis of operations, capital expenditure and strategic investment plans. The capital structure is monitored on the basis of net debt to equity and maturity profile of overall debt portfolio.

Certain group companies are subjected to the capital adequacy requirements of the Reserve Bank of India (RBI). Under RBI's capital adequacy guidelines, the certain Group Companies is required to maintain a capital adequacy ratio consisting of Tier I and Tier II Capital.

Capital at any point of time, shall not exceed 100 percent of Tier I Capital. The minimum capital ratio as prescribed by RBI guidelines and applicable to certain group companies, consisting of Tier I and Tier II capital, shall not be less than 15% of its aggregate risk weighted assets on-balance sheet and of risk adjusted value of off-balance sheet.

The applicable group companies has complied with all regulatory requirements related capital and capital adequacy ratios as prescribed by RBI and NHB. Refer Note 26 for dividend paid and proposed by the Holding Company.

57 Risk Management

Risk Management is an integral part of the Group's business strategy. The Risk Management oversight structure includes Committees of the Board and Management Committees. Group's risk philosophy is to develop and maintain a healthy portfolio which is within its risk appetite and the regulatory framework. While the Group is exposed to various types of risks, the most important among them are liquidity risk, interest rate risk, credit risk, regulatory risk and fraud and operational risk. The measurement, monitoring and management of risks remain a key focus area for the Group.

The Risk Management Committee of the Board provides direction to and monitors the quality of the internal audit function and also monitors compliance with NHB, RBI and other regulators of the group entities.

The Group's risk management strategy is based on a clear understanding of various risks, disciplined risk assessment and measurement procedures and continuous monitoring. The policies and procedures established for this purpose are continuously benchmarked with market best practices.

The Audit and Risk Management Committee of the Board ("ARMC") reviews compliance with risk policies, monitors risk tolerance limits, reviews and analyse risk exposure and provides oversight of risk across the organization. The ARMC nurtures a healthy and independent risk management function to inculcate a strong risk management culture in the Group and broadly perceives the risk arising from (i) credit risk, (ii) liquidity risk, (iii) interest rate risk and (iv) fraud risk and operational risk (v) regulatory risk

a. Liquidity Risk Management

Liquidity Risk refers to insufficiency of funds to meet the financial obligations. Liquidity Risk Management implies maintenance of sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit lines to meet obligations when due.

The Group has an Asset Liability Management Policy in place, which is in line with NHB/RBI guidelines for Housing and Non- Banking Finance Companies. The ALCO is responsible for the management of the companies funding and liquidity requirements. The Group manages liquidity risk by maintaining unutilised banking facilities, credit lines and by continuously monitoring forecast and actual cash flows, and by assessing the maturity profiles of financial assets and liabilities.

The Group has the following undrawn credit lines available as at the end of the reporting period.

Particulars	As at	
	31 March 2023	31 March 2022
- Expiring within one year (including bank overdraft)	100.00	7,677.35
- Expiring beyond one year	-	-
	100.00	7,677.35

Note: This includes Non-Convertible Debentures, Inter Corporate Deposits and Commercial Papers where only credit rating has been obtained and which can be issued, if required, within a short period of time. Further, the facilities related to Commercial Papers are generally rolled over.

The following tables detail the Group's remaining contractual maturity for its financial liabilities with agreed repayment periods. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. The tables include both interest and principal cash flows. To the extent that interest flows are floating rate, the rate applicable as of 31 March 2023 and 31 March 2022 respectively has been considered. The contractual maturity is based on the earliest date on which the Group may be required to pay.

Maturities of Financial Liabilities	As at March 31, 2023			
	Upto 1 year	1 to 3 years	3 to 5 years	5 years & above
Borrowings	19,159.85	17,649.91	10,878.07	14,025.41
Trade Payables	399.27	-	-	-
Lease Liabilities	63.63	106.99	76.28	55.50
Other Financial Liabilities	1,684.78	-	-	-
	21,307.54	17,756.91	10,954.36	14,080.91
Maturities of Financial Liabilities	As at March 31, 2022			
	Upto 1 year	1 to 3 years	3 to 5 years	5 years & above
Borrowings	15,698.17	21,678.30	13,958.64	19,629.72
Trade Payables	1,696.93	-	-	-
Lease Liabilities	77.22	126.68	42.44	129.22
Other Financial Liabilities	1,421.43	-	-	-
	18,893.75	21,804.99	14,001.07	19,758.94

The following table details the Group's expected maturity for its non-derivative financial assets. The table has been drawn up based on the undiscounted contractual maturities of the financial assets including interest that will be earned on those assets. The inclusion of information on non-derivative financial assets is necessary in order to understand the Group's liquidity risk management as the liquidity is managed on a net asset and liability basis. Hence, maturities of the relevant assets have been considered below.

Maturities of Financial Assets	As at 31 March, 2023			
	Upto 1 year	1 to 3 years	3 to 5 years	5 years & above
Investments & Loans	27,308.66	23,589.42	16,494.77	22,588.44
Other financial assets*	835.16	-	-	106.72
Trade Receivables	19.40	-	-	-
	28,163.22	23,589.42	16,494.77	22,695.16

Maturities of Financial Assets	As at 31 March 2022			
	Upto 1 year	1 to 3 years	3 to 5 years	5 years & above
Investments & Loans	18,756.38	30,380.57	17,322.68	29,121.64
Other financial assets*	3.52	139.10	-	-
Trade Receivables	1,621.22	-	-	-
	20,381.12	30,519.66	17,322.68	29,121.64

*to the extent considered for the group liquidity management

The balances disclosed in the table above are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as at 31 March 2023.

In assessing whether the going concern assumption is appropriate, the Group has considered a range of factors relating to current and expected profitability, debt repayment schedule and potential sources of replacement financing. The Group has performed sensitivity analysis on such factors considered and based on current indicators of future economic conditions; there is a reasonable expectation that the Group has adequate resources to continue in operational existence for the foreseeable future.

In case of commitments, the expected maturities are as under:

(A) Loan commitments

Particulars	As at	
	31 March 2023	31 March 2022
Commitment to invest in Loans / Inter Company Deposits	4,342.45	3,576.48

(B) Other commitments

Particulars	As at 31 March, 2023		As at 31 March, 2022	
	Upto 1 year	1 to 3 years	Upto 1 year	1 to 3 years
Commitment to invest in AIF	-	69.00	-	78.09
TOTAL	-	69.00	-	78.09

The Group has below commitments to invest in AIF in addition to above which will be invested as and when suitable investment opportunity arises:

Commitment as on 31 March 2023

Fund Name	Total Commitment (USD Mio)	Balance Commitment (USD Mio)	Total Commitment (Rs. Crores)	Balance Commitment (Rs. Crores)
Asia Real Estate Opportunities Fund	-	-	2,021.13	119.31
India Resurgence Fund - Scheme 2	100.00	59.03	737.37	485.28
Piramal Structured Credit Opportunities Fund	-	-	532.00	194.40

Commitment as on 31 March 2022

Fund Name	Total Commitment (USD Mio)	Balance Commitment (USD Mio)	Total Commitment (Rs. Crores)	Balance Commitment (Rs. Crores)
Asia Real Estate Opportunities Fund	-	-	3,383.02	153.27
India Resurgence Fund - Scheme 2	100.00	66.04	737.37	500.61
Piramal Structured Credit Opportunities Fund	-	-	532.00	320.00

The table below shows the contractual maturity profile of carrying value of assets and liabilities

ASSETS	As at 31 March 2023		Total
	Within 12 months	After 12 months

Total Liabilities and Equity	18,740.25	65,011.91	83,752.16

The Holding company used to present the consolidated financial statements under the Division II format of Schedule III until the previous year. To provide impact to the composite scheme of arrangement, the Holding Company has adopted the Division III format. Hence, the previous year figures have not been presented.

b. Interest Rate Risk Management

Retail lending:

The Group is exposed to minimal interest rate risk as its assets and liabilities are based on floating interest rates. The Group has an approved Asset and Liability Management Policy which empowers the ALCO to assess the interest rate risk run by it and provide appropriate guidelines to the Treasury to manage the risk.

Wholesale lending:

The Group is exposed to interest rate risk as it has assets and liabilities based on both fixed and floating interest rates. The Holding Company has an approved Asset and Liability Management Policy which empowers the Asset and Liability Management Committee (ALCO) to assess the interest rate risk run by it and provide appropriate guidelines to the Treasury to manage the risk. The ALCO reviews the interest rate risk on periodic basis and decides on the asset profile and the appropriate funding mix. The ALCO reviews the interest rate gap statement and the interest rate sensitivity analysis.

The sensitivity analysis below has been determined based on the exposure to interest rates for assets and liabilities at the end of the reporting period. For floating rate assets and liabilities, the analysis is prepared assuming the amount of the liability outstanding at the end of the reporting period was outstanding for the whole year and the rates are reset as per the applicable reset dates. The basis risk between various benchmarks used to reset the floating rate assets and liabilities has been considered to be insignificant.

The Group is exposed to interest rate risk as it has assets and liabilities based on floating interest rates as well. The Group has an approved Asset and Liability Management Policy which empowers the Asset and Liability Management Committee (ALCO) to assess the interest rate risk run by it and provide appropriate guidelines to the Treasury to manage the risk. The ALCO reviews the interest rate risk on periodic basis and decides on the asset profile and the appropriate funding mix. The ALCO reviews the interest rate gap statement and the interest rate sensitivity analysis.

The exposure of the Group's borrowing to interest rate changes at the end of the reporting period are as follows:

Particulars	As at	
	31 March 2023	31 March 2022
Variable rate borrowings	17,572.33	18,856.48
Fixed rate borrowings	32,010.48	36,594.51
	49,582.81	55,450.99

The sensitivity analysis below has been determined based on the exposure to interest rates for assets and liabilities at the end of the reporting period. For floating rate assets and liabilities, the analysis is prepared assuming the amount of the liabilities/assets outstanding at the end of the reporting period was outstanding for the whole year and the rates are reset as per the applicable reset dates. The basis risk between various benchmarks used to reset the floating rate assets and liabilities has been considered to be insignificant.

If interest rates related to borrowings had been 100 basis points higher/lower and all other variables were held constant for INR loans, the Group's

- Profit before tax for the year ended / Other Equity (pre tax) as on 31 March 2023 would decrease/increase by Rs. 175.72 Crores (Previous year Rs. 153.99 Crores) respectively. This is attributable to the Group's exposure to borrowings at floating interest rates.

If the interest rates related to borrowings had been 25 basis points higher / lower and all other variables were held constant for the Foreign currency loans, the Group's

- Profit before tax for the year ended / Other Equity (pre tax) as on 31 March 2023 would decrease/increase by Rs. 1.57 Crores (Previous year Rs. 8.95 Crores) respectively. This is attributable to the Group's exposure to borrowings at floating interest rates.

If interest rates related to loans given / debentures invested had been 100 basis points higher/lower and all other variables were held constant, the Group's

- Profit before tax for the year ended / Other Equity (pre tax) as on 31 March 2023 would increase/decrease by Rs. 577.47 Crores (Previous year: Rs. 569.94 Crores) respectively. This is attributable to the Group's exposure to lendings at floating interest rates.

c. Other price risks

The Group is exposed to equity price risks arising from equity investments and classified in the balances sheet at fair value through Other Comprehensive Income.

Equity price sensitivity analysis:

The table below summarises the impact of increases/decreases on the Group's Equity and OCI for the period. Analysis is based on the assumption that equity index had increased/decreased by 5% with all the other variables held constant, and these investments moved in the line with the index.

Particulars	Impact on OCI	
	As at	
	31 March 2023	31 March 2022
Equity Index, Increase by 5%	7.45	71.82
Equity Index, Decrease by 5%	(7.45)	(71.82)

The Group has designated the following securities as FVTOCI Investments (Refer note 7):

Shriram City Union Finance Limited (upto 9 November 2022)
Clarivate Plc

The Group chose this presentation alternative because the investment were made for strategic purposes rather than with a view to profit on subsequent sale, and there are no plans to dispose of these investments.

d. Foreign Currency Risk Management

The Group is exposed to Currency Risk arising from its trade exposures and Capital receipts / payments denominated, in other than the Functional Currency. The Group has a detailed policy which includes setting of the recognition parameters, benchmark targets, the boundaries within which the treasury has to perform and also lays down the checks and controls to ensure the continuing success of the treasury function. Foreign exchange risk arises from future commercial transactions and recognised assets and liabilities denominated in a currency that is not the Group's functional currency i.e. INR. The Group has taken foreign currency floating rate borrowing which is linked to LIBOR. The risk is measured through a forecast of highly probable foreign currency cash flows. The risk is hedged with the objective of minimising the volatility of the INR cash flows of highly probable forecast transactions.

The Group has entered into cross-currency interest rate swap (CCIRS) for the entire loan liability to manage the foreign exchange risk along with interest rate risk arising from changes in LIBOR on such borrowings. As per the Group's policy, the critical terms of hedging instrument must align with the hedged items. The Group has defined strategies for addressing the risks for each category of exposures (e.g. for exports, for imports, for loans, etc.). The centralised treasury function aggregates the foreign exchange exposure and takes prudent measures to hedge the exposure based on prevalent macro-economic conditions.

Holding all the variables constant

e. Accounting for cash flow hedge

(i) Cross-currency Interest Rate Swap

The Group has taken foreign currency floating rate borrowings which are linked to LIBOR. For managing the foreign currency risk and interest rate risk arising from changes in LIBOR on such borrowings, the Group has entered into cross-currency interest rate swap (CCIRS) for the entire loan liability. The Group has designated the CCIRS (hedging instrument) and the borrowing (hedged item) into a hedging relationship and applies hedge accounting.

Under the terms of the CCIRS, the Group pays interest at the fixed rate to the swap counterparty in INR and receives the floating interest payments based on LIBOR in foreign currency. As the critical terms of the hedged item and the hedging instrument (notional, interest periods, underlying and fixed rates) are matching and the interest cashflows are off-setting, an economic relationship exists between the two. This ensures that the hedging instrument and hedged item have values that generally move in the opposite direction.

Hedge Effectiveness Testing is assessed at designation date of the hedging relationship, and on an ongoing basis. The ongoing assessment is performed at a minimum at each reporting date or upon a significant change in circumstances affecting the hedge effectiveness requirements, whichever comes first.

As at 31 March 2023, the Group has invested in floating rate government securities/bonds which are linked to treasury bill rate. For managing the interest rate risk arising from changes in treasury bill rate on such investments, the company has entered into an interest rate swaps (IRS) for the investments. The Group has designated the IRS (hedging instrument) and the investment (hedged item) into a hedging relationship and applied hedge accounting.

Under the terms of the IRS, the Group receives interest at fixed rate and pays interest at the floating rate based on daily compounded overnight FBIL MIBOR. As the critical terms of the hedged item and the hedging instrument (notional, interest periods, underlying fixed rates) are not exactly matched, the Company uses the hypothetical derivative method to assess effectiveness. The interest cash flows of the hypothetical derivative and interest rate swap are off-setting, an economic relationship exists between the two. This ensures that the hedging instrument (interest rate swap) and hedged item (hypothetical derivative) have values that generally move in the opposite direction. There was no such contract outstanding as on 31 March 2022.

Hedge Effectiveness Testing is assessed at designation date of the hedging relationship, and on an ongoing basis. The ongoing assessment is performed at a minimum at each reporting date or upon a significant change in circumstances affecting the hedge effectiveness requirements, whichever comes first.

During the year ended 31 March 2022, the date on which CCIRS and the borrowings were designated into hedging relationship is later than the date on which the respective contracts were entered into. This timing difference has caused hedge ineffectiveness to a certain extent, the effect of which has been recognised in profit or loss under the head Net Fair Value Changes.

Following table provides quantitative information regarding the hedging instrument as on 31 March 2023:

Type of hedge and risks	Nominal value	Carrying amount of hedging instruments (included under "Financial assets")	Maturity date	Hedge ratio	Average contracted fixed interest rate	Changes in fair value of hedging instrument used as the basis for recognising hedge effectiveness	Changes in the value of hedged item used as the basis for recognising hedge effectiveness
Cash Flow Hedge							
Foreign currency and Interest rate risk	522.64	95.12	Jun-24	1 : 1	9.30%	67.64	57.19
Cash Flow Hedge - Interest rate risk	125.00	2.99	Sep-23	1 : 1	6.76%	4.14	(4.29)

Following table provides the effects of hedge accounting on financial performance for the year ended 31 March 2023:

Type of hedge	Changes in the value of hedging instruments recognised in Other comprehensive income	Hedge ineffectiveness recognised in profit or loss	Amount reclassified from cash flow hedge reserve to profit or loss	Line-item affected in statement of profit or loss because of reclassification
Cash flow hedge				
Interest Rate risk and Foreign Exchange Risk	70.63		(8.48)	Finance Cost
			(48.71)	Foreign Exchange (gain)/loss

Following table provides quantitative information regarding the hedging instrument as on 31 March, 2022:

Type of hedge and risks	Nominal value	Carrying amount of hedging instruments (included under "Financial assets")	Maturity date	Hedge ratio	Average contracted fixed interest rate	Changes in fair value of hedging instrument used as the basis for recognising hedge effectiveness	Changes in the value of hedged item used as the basis for recognising hedge effectiveness
Cash Flow Hedge							
Foreign currency and Interest rate risk	522.64	27.49	Jun-24	1 : 1	9.30%	33.28	20.29

Following table provides the effects of hedge accounting on financial performance for the year ended 31 March 2022:

Type of hedge	Changes in the value of hedging instruments recognised in Other comprehensive income	Hedge ineffectiveness recognised in profit or loss	Amount reclassified from cash flow hedge reserve to profit or loss	Line-item affected in statement of profit or loss because of reclassification
Cash flow hedge				
Interest Rate risk and Foreign Exchange Risk	33.28	-	0.09	Finance Cost
			20.21	Foreign Exchange (gain)/loss

e. Accounting for cash flow hedge

(i) Cross-currency Interest Rate Swap

The following table provides a reconciliation by risk category of the components of equity and analysis of OCI items resulting from hedge accounting

Particulars	Movement in Cash flow hedge reserve for the years ended	
	March 31, 2023	March 31, 2022
Opening balance	(6.25)	(15.96)
Effective portion of changes in fair value:		
a) Interest rate and foreign currency risk risk	70.63	33.28
Tax on movements on reserves during the year	(17.78)	(8.38)
Net amount reclassified to profit or loss:		
a) Interest rate risk	8.48	0.09
b) Foreign currency risk	48.71	20.21
Tax on movements on reserves during the year	(14.39)	(5.11)
Closing balance	3.81	(6.25)

(ii) Accounting for cash flow hedge

The objective of hedge accounting is to represent, in the Group's financial statements, the effect of the Group's use of financial instruments to manage exposures arising from particular risks that could affect profit or loss. As part of its risk management strategy, the Group makes use of financial derivative instruments, such as foreign currency range forwards and forward exchange contracts for hedging the risk arising on account of highly probable foreign currency forecast sales.

The Group has a Board approved policy on assessment, measurement and monitoring of hedge effectiveness which provides a guideline for the evaluation of hedge effectiveness, treatment and monitoring of the hedge effective position from an accounting and risk monitoring perspective. Hedge effectiveness is ascertained at the time of inception of the hedge and periodically thereafter. The Group assesses hedge effectiveness on prospective basis. The prospective hedge effectiveness test is a forward looking evaluation of whether or not the changes in the fair value or cash flows of the hedging position are expected to be highly effective in offsetting the changes in the fair value or cash flows of the hedged position over the term of the relationship.

For derivative contracts designated as hedge, the Group documents, at inception, the economic relationship between the hedging instrument and the hedged item, the hedge ratio, the risk management objective for undertaking the hedge and the methods used to assess the hedge effectiveness. The derivative contracts have been taken to hedge foreign currency fluctuations risk arising on account of highly probable foreign currency forecast sales.

The Group applies cash flow hedge to hedge the variability arising out of foreign exchange currency fluctuations on account of highly probable forecast sales. Such contracts are generally designated as cash flow hedges.

The Group determines the existence of an economic relationship between the hedging instrument and hedged item based on the currency, amount and timing of their respective cash flows. The forward exchange forward contracts are denominated in the same currency as the highly probable future sales, therefore the hedge ratio is 1:1. Further, the entity has excluded the foreign currency basis spread and takes such excluded element through the income statement. Accordingly, the Group designates only the spot rate in the hedging relationship.

Hedge effectiveness is assessed through the application of dollar offset method and designation of spot rate as the hedging instrument. The excluded portion of the foreign currency basis spread is taken directly through income statement.

The table below enumerates the Group's hedging strategy, typical composition of the Group's hedge portfolio, the instruments used to hedge risk exposures and the type of hedging relationship for the year ended 31 March 2023:

Sr No	Type of risk/hedge position	Hedged item	Description of hedging strategy	Hedging instrument	Description of hedging instrument	Type of hedging relationship
1	Foreign Currency hedge	Highly probable forecast sales	Foreign currency denominated highly probable forecast sales is converted into functional currency using a forward contract.	Foreign exchange forward contracts	Forward contracts are contractual agreements to buy or sell a specified financial instrument at a specific price and date in the future. These are customized contracts transacted in the over-the-counter market. Further, the foreign currency basis spread is separated and accounted for at FVTPL. Accordingly, only the spot rate has been designated in the hedging relationship.	Cash flow hedge

The tables below provide details of the derivatives that have been designated as cash flow hedges for the periods presented:

As at 31 March 2023

	Notional principal amounts	Derivative Financial Instruments - Assets	Derivative Financial Instruments - Liabilities	Change in fair value for the year recognized in OCI	Ineffectiveness recognized in profit or loss	Line item in profit or loss that includes hedge ineffectiveness	Amount reclassified from cash flow hedging reserve to profit or loss	Line item in profit or loss affected by the reclassification
Cash Flow Hedge - Interest rate risk	-	-	-	-	-	-	-	-

As at 31 March 2022

	Notional principal amounts	Derivative Financial Instruments - Assets	Derivative Financial Instruments - Liabilities	Change in fair value for the year recognized in OCI	Ineffectiveness recognized in profit or loss	Line item in profit or loss that includes hedge ineffectiveness	Amount reclassified from cash flow hedging reserve to profit or loss	Line item in profit or loss affected by the reclassification
Foreign exchange forward contracts	13.00 (USD)	6.26	-	0.53	-	Not applicable	5.95	Revenue

(ii) Accounting for cash flow hedge

The table below provides a profile of the timing of the notional amounts of the Group's hedging instruments (based on residual tenor) along with the average price or rate as applicable by risk category:

	As at 31 March 2023				As at 31 March 2022			
	Total	Upto 1 year	1-5 years	Over 5 years	Total	Upto 1 year	1-5 years	Over 5 years
Foreign currency risk:								
Forward exchange contracts			-	-	13.00 (USD)	13.00 (USD)	-	-
Average INR:USD forward contract rate			-	-	77.87	77.87	-	-

Movement in Cash flow hedge reserve	March 31, 2023
As on 1 April 2021	5.74
Effective portion of changes in fair value:	
Foreign exchange forward contracts	0.71
Tax on movements on reserves during the year	(0.18)
Net amount reclassified to profit or loss:	
Foreign exchange forward contracts	7.82
Tax on movements on reserves during the year	(2.00)
As on 31 March 2022	12.09
Less: Transferred as per composite scheme of arrangement (refer note 71)	(12.09)
As on 31 March 2023	-

(f) Credit Risk

The Group is exposed to Credit Risk through its lending activity. Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the Group. The Group has adopted a policy of dealing with creditworthy counterparties and obtaining sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults.

Retail lending:

For retail lending the credit policy has been reviewed and approved by Risk Team. The Credit Risk management structure includes credit policies and procedures. The Credit Policy defines customer segments, income assessment criteria, underwriting standards, target market definition, appraisal and approval processes, product limits, Delegation of Authority metrics (DoA) and cover risk assessment for product offerings etc. to ensure consistency of credit buying patterns.

Wholesale lending:

The Group's Risk management team has developed proprietary internal rating models to evaluate risk return trade-off for the loans and investments made by the Group. The output of traditional credit rating model is an estimate of probability of default. These models are different from the traditional credit rating models as they integrate both probability of default and loss given default into a single model.

Credit Risk Management

For retail lending business, credit risk management is achieved by considering various factors like:

- Assessment of borrower's capability to pay – detailed assessment of borrower's capability to pay is conducted. The approach to the assessment is uniform across the entire Group and is spelt out in the Credit Policy. For construction finance deals, the underlying project, the financial capability, past track record of repayments of the promoters is assessed by an independent risk team.
- Security cover – this is an assessment of the value of security under stress scenario which is further adjusted for factors like liquidity, enforceability, transparency in valuation, etc of the collateral.
- Geographic region – the Group monitors loan performances in a particular region to assess if there is any stress due to natural calamities, etc impacting the performance of loans in a particular geographic region

For wholesale lending business, credit risk management is achieved by considering various factors like :

- Promoter strength – This is an assessment of the promoter from financial, management and performance perspective.
- Industry & micro-market risk – This is an assessment of the riskiness of the industry and/or micro-market to which the borrower/project belongs
- Project risk – This is an assessment of the standalone project from which interest servicing and principal repayment is expected to be done.
- Structure risk – This is an assessment of the loan structure which is characterized by its repayment tenor, moratorium, covenants, etc.
- Security cover – This is an assessment of the value of the security under stress scenario which is further adjusted for factors like liquidity, enforceability, transparency in
- Exit – This is an assessment of the liquidity of the loan or investment.

Each of the above components of the risk analysis are assigned a specific weight which differ based on type of loan. The weights are then used with the scores of individual components for conversion to a risk rating.

Based on the above assessment the risk team categorises the deals in to the below Risk Grades

Risk Grading	Description
Dark Green	Extremely good loan
Green	Good loan
Yellow	Moderate loan
Amber	Weak loan
Red	Extremely weak loan

Further, a periodic review of the performance of the portfolio is also carried out by the Risk Group. The Risk Group adjusts the stress case considered during the initial approval based on actual performance of the deal, developments in the sector, regulatory changes etc. The deal level output is combined to form a portfolio snapshot. The trends from portfolio are used to provide strategic inputs to the management.

The credit risk on liquid funds and other financial instruments is limited because the counterparties are banks with high credit-ratings assigned credit-rating agencies or mutual funds.

Provision for Expected Credit Loss

The Group has assessed the credit risk associated with its financial assets for provision of Expected Credit Loss (ECL) as at the reporting dates. The Group makes use of various reasonable supportive forward looking parameters which are both qualitative as well as quantitative while determining the change in credit risk and the probability of default. These parameters have been detailed out in Note No.vi of Significant Accounting Policies. Based on the result yielded by the above assessment the Financial assets are classified into (1) Standard (Performing) Asset, (2) Significant Credit Deteriorated (Under-Performing) Asset (3) Default (Non-Performing) Asset (Credit Impaired). For the purpose of expected credit loss analysis the Group defines default as any asset with more than 90 days overdue. This is also as per the rebuttable presumption provided by the standard.

The Group provides for expected credit loss based on the following:

Credit Risk Management

The credit risk on liquid funds and other financial instruments is limited because the counterparties are banks with high credit-ratings assigned by credit-rating agencies or mutual funds.

For retail lending business, credit risk management is achieved by considering various factors like :

- Assessment of borrower's capability to pay – a detailed assessment of borrower's capability to pay is conducted. The approach to the assessment is uniform across the entire Group and is spelt out in the Credit Policy. For construction finance deals, the underlying project, the financial capability, past track record of repayments of the promoters are assessed by an independent risk team.
- Security cover – this is an assessment of the value of security under stress scenario which is further adjusted for factors like liquidity, enforceability, transparency in valuation, etc of the collateral.
- Geographic region – the Group monitors loan performances in a particular region to assess if there is any stress due to natural calamities, etc impacting the performance of loans in a particular geographic region.

For wholesale lending business, credit risk management is achieved by considering various factors like :

- Cash flow at risk – This is an assessment of the standalone project or business from which interest servicing and principal repayment is expected to be done.
- Security cover – This is an assessment of the value of the security under stress scenario which is further adjusted for factors like liquidity, enforceability, transparency in valuation etc. of the collateral.
- Promoter strength – This is an assessment of the promoter from financial, management and performance perspective.
- Exit – This is an assessment of the liquidity of the loan or investment.

The output from each of the analysis is converted to a risk weight equivalent. Each of the four components of the risk analysis are assigned a specific weight which differ based on type of investment. The risk weight is then converted into capital requirement. The required capital and the return is combined to create a metric which is used for deal assessment.

Based on the above assessment the risk team categorises the deals in to the below Risk Grades

- Good Deals with very high risk adjusted returns
- Investment Grade Deals with high risk adjusted returns
- Management Review Grade Deals with risk adjusted returns required as per lending policy
- Not Advisable Grade Deals with lower than required risk adjusted returns

Further, a periodic review of the performance of the portfolio is also carried out by the Group's risk team. The Group's risk team adjusts the stress case considered during the initial approval based on actual performance of the deal, developments in the sector, regulatory changes etc. The deal level output is combined to form a portfolio snapshot. The trends from portfolio are used to provide strategic inputs to the management.

Provision for Expected Credit Loss

The Group considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period. To assess whether there is a significant increase in credit risk the Group compares the risk of a default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition. It considers available reasonable and supportive forward-looking parameters, which are both qualitative and quantitative. These parameters have been detailed in note no. ix of Significant Accounting Policies. Based on the result yielded by the above assessment the Financial assets are classified into (1) Standard (Performing) Asset, (2) Significant Credit Deteriorated (Under-Performing) Asset (3) Default (Non-Performing) Asset (Credit Impaired). Macroeconomic information (such as regulatory changes, market interest rate or growth rates) is incorporated as part of the internal rating model. In general, it is presumed that credit risk has significantly increased since initial recognition if the payments are more than 30 days past due. For the purpose of expected credit loss analysis the Group defines default as any asset with more than 90 days overdues. This is also as per the rebuttable presumption provided by the standard.

The Group provides for expected credit loss based on the following:

Category - Description	Stages	Basis for Recognition of Expected Credit Loss
Assets for which credit risk has not significantly increased from initial recognition	Stage 1 - Standard (Performing) Assets	12 month ECL
Assets for which credit risk has increased significantly but not credit impaired	Stage 2 - Significant Credit Deteriorated Assets	Life time ECL
Assets for which credit risk has increased significantly and credit impaired	Stage 3 - Default (Non-Performing) Assets (Credit Impaired)	Loss Given Default (LGD)
Purchased or Originated credit impaired (POCI)	POCI	Life time ECL

For the year ended 31 March 2023 and 31 March 2022, the Group has developed a PD Matrix after considering some parameters as stated below :

The key parameters for various scorecards are highlighted as follows -Real Estate products (Construction Finance, Structured Debt, LRD) - (1) Developer Grade (2) Past Overdue History (3) Tenant profile (4) Status from monthly Asset Monitoring report (5) Stage of the project (6) Geography etc. Some of the Parameters for Non Real Estate products (Senior lending, mezzanine, project finance etc) - (1) Sponsor strength (2) Overdues (3) Average debt service coverage ratio (4) Regulatory Risk (5) Stability of EBITDA (6) Quality of underlying assets etc. Based on these parameters the Group has computed the PD. The Group has also built in model scorecards to determine the internal LGD. However, due to lack of default history to statistically substantiate the internal LGD, the Group has made use of a combination of both internal as well as external LGD. The Group also maintains Expected Credit Loss for undisbursed limits after applying the credit conversion factor (CCF). CCF for these limits is computed based on historical disbursement trends observed across various products.

Expected Credit Loss as at the end of the reporting period:

As at 31 March 2023				
Particulars	Asset Group	Exposure at Default	Expected Credit Loss	Net amount
Assets for which credit risk has not significantly increased from initial recognition	Investments at amortised cost	2,629.64	116.93	2,512.71
	Loans at amortised cost	40,571.88	1,416.12	39,155.76
Assets for which credit risk has increased significantly but are not credit impaired	Investments at amortised cost	710.34	99.04	611.30
	Loans at amortised cost	4,842.27	1,276.11	3,566.16
Assets for which credit risk has increased significantly and are credit impaired	Investments at amortised cost	451.98	248.10	203.88
	Loans at amortised cost	1,531.19	729.70	801.49
Purchased or Originated credit impaired (POCI)	Loans at amortised cost	1,425.00	-	1,425.00
Total		52,162.30	3,886.00	48,276.30

As at 31 March 2022

Particulars	Asset Group	Exposure at Default	Expected Credit Loss	Net amount
Assets for which credit risk has not significantly increased from initial recognition	Investments at amortised cost	6,676.02	192.00	6,484.02
	Loans at amortised cost	45,620.98	816.32	44,804.66
Assets for which credit risk has increased significantly but are not credit impaired	Investments at amortised cost	1,613.81	811.24	802.57
	Loans at amortised cost	2,164.12	561.59	1,602.53
Assets for which credit risk has increased significantly and are credit impaired	Investments at amortised cost	517.33	289.68	227.65
	Loans at amortised cost	2,005.57	940.31	1,065.26
Purchased or Originated credit impaired (POCI)	Loans at amortised cost	3,465.00	-	3,465.00
Total		62,062.83	3,611.14	58,451.69

a) Reconciliation of Loss Allowance

For the year ended 31 March 2023

Investments and Loans	Loss allowance measured at 12 month expected losses	Loss allowance measured at life-time expected losses		
		Financial assets for which credit risk has increased significantly and not credit-impaired	Financial assets which are credit- impaired	Purchased or Originated credit impaired (POCI)
Balance at the beginning of the year	1,008.32	1,372.83	1,229.99	-
Transferred to 12-month ECL	9.33	(4.09)	(5.26)	-
Transferred to Lifetime ECL not credit impaired	(158.48)	160.13	(1.65)	-
Transferred to Lifetime ECL credit impaired	(81.66)	(11.37)	93.03	-
Bad debts written off	(20.21)	(1,255.48)	(894.29)	-
<u>Charge to Statement of Profit and Loss</u>				
On Account of Rate Change	471.41	1,016.29	753.21	-
On Account of Disbursements	518.70	136.21	76.68	-
On Account of Repayments	(214.37)	(39.36)	(273.90)	-
Balance at the end of the year	1,533.05	1,375.15	977.80	-

For the year ended 31 March 2022

Investments and Loans	Loss allowance measured at 12 month expected losses	Loss allowance measured at life-time expected losses		
		Financial assets for which credit risk has increased significantly and not credit-impaired	Financial assets which are credit- impaired	Purchased or Originated credit impaired (POCI)
Balance at the beginning of the year	1,095.73	574.65	1,039.55	-
Transferred to 12-month ECL	84.50	(88.27)	(1.42)	-
Transferred to Lifetime ECL not credit impaired	(28.93)	28.93	-	-
Transferred to Lifetime ECL credit impaired	(11.09)	(0.79)	11.89	-
Bad debts written off	-	-	(30.58)	(16.45)
<u>Charge to Statement of Profit and Loss</u>				
On Account of Rate Change	(14.87)	737.91	245.05	16.45
On Account of Disbursements	242.76	135.77	0.98	-
On Account of Repayments	(359.78)	(15.37)	(35.48)	-
Balance at the end of the year	1,008.32	1,372.83	1,229.99	-

b) Expected Credit Loss on undrawn loan commitments / letter of comfort:

Particulars	31 March 2023	31 March 2022
Opening balance	113.72	109.83
Movements during the year	(35.46)	3.89
Closing balance	78.26	113.72

c) The amounts of Financial Assets outstanding in the Balance Sheet along with the undisbursed loan commitments and letter of comforts issued (refer note 57 (a)) as at the end of the reporting period represent the maximum exposure to credit risk.

Description of Collateral held as security and other credit enhancements

The Group has set benchmarks on appropriate level of security cover for various types of deals. The Group periodically monitors the quality as well as the value of the security to meet the prescribed limits. The collateral held by the Group varies on case to case basis and includes:

- i) First / Subservient charge on the Land and / or Building of the project or other projects
 - ii) First / Subservient charge on the fixed and current assets of the borrower
 - iii) Hypothecation over receivables from funded project or other projects of the borrower
 - iv) Pledge on Shares of the borrower or their related parties
 - v) Pledge on investment in shares made by borrower entity
 - vi) Guarantees of Promoters / Promoter Undertakings
 - vii) Post dated / Undated cheques
- d) The credit impaired assets as at the reporting dates were secured by charge on land and building, shares of listed entities, lease rentals and project receivables amounting to:

Particulars	As at 31 March 2023	As at 31 March 2022
Value of Security	1,005.37	1,292.91

58 Income taxes relating to operations

a) Tax expense recognised in statement of profit and loss

	Year ended	
	31 March 2023	31 March 2022
Current tax (for continuing and discontinued operations):		
In respect of the current year	2.69	934.77
In respect of prior years	(3,327.21)	-
	<u>(3,324.52)</u>	<u>934.77</u>
Deferred tax (for continuing and discontinued operations):		
Deferred Tax, net	(653.53)	(423.98)
	<u>(653.53)</u>	<u>(423.98)</u>
Total tax expense recognised	<u>(3,978.05)</u>	<u>510.79</u>
Total tax expense attributable to		
from continuing operations	(3,978.05)	406.19
from discontinued operations	-	104.60

b) Tax (expense)/ benefits recognised in other comprehensive income

	Year ended	
	31 March 2023	31 March 2022
Deferred tax:		
Arising on income and expenses recognised in other comprehensive income:		
Exchange loss on long term loans transferred to OCI	(4.26)	(5.38)
Fair value remeasurement of hedging instruments entered into for cash flow hedges	3.38	16.21
Changes in fair values of equity instruments	(14.05)	(47.97)
Remeasurement of defined benefit obligation	0.67	0.26
Total tax expense recognised	<u>(14.26)</u>	<u>(36.88)</u>

c) Deferred tax balances

	As at	
	31 March 2023	31 March 2022
The following is the analysis of deferred tax assets / (liabilities) presented in the consolidated Balance sheet		
Deferred tax assets (net)	1,847.18	1,367.92
Deferred tax liabilities (net)	-	(192.20)
	<u>1,847.18</u>	<u>1,175.73</u>

Deferred tax assets and liabilities are recognized for the future tax consequences of temporary differences between the carrying values of assets and liabilities and their respective tax bases, and unutilized business loss and depreciation carry-forwards and tax credits. Deferred tax assets are recognized to the extent that it is probable that future taxable income will be available against which the deductible temporary differences, unused tax losses, depreciation carry-forwards and unused tax credits could be utilized.

Movement of deferred tax during the year ended 31 March 2023

Particulars	Opening balance	Recognised in statement of profit and loss	Foreign Currency Translation Impact	Recognised in other comprehensive income	Acquisitions/ (Divestments) *	Closing balance
Deferred tax (liabilities) / assets in relation to:

Unrealised profit margin on inventory	29.41	(5.04)	-	-	-	24.37
Goodwill on merger of wholly owned subsidiaries	-	8.85	-	-	(8.85)	-
Property, Plant and Equipment and Intangible assets	(265.28)	(81.35)	(3.59)	-	-	(350.22)
Fair value measurement of derivative contracts	(4.46)	18.91	-	(16.21)	-	(1.76)
Exchange differences on long term loans designated as net investments transferred to OCI	-	(5.38)	-	5.38	-	-
Brought forward losses	239.88	69.29	10.39	-	-	319.56
Other temporary differences	11.11	(2.04)	0.95	-	-	10.02
Total	714.56	423.98	9.14	36.88	(8.85)	1,175.72

The income tax expense for the year can be reconciled to the accounting profit as follows:

Particulars	Year ended		Effective tax rate reconciliation	
	31 March 2023	31 March 2022	31 March 2023	31 March 2022
Consolidated Profit before tax *	(2,862.03)	1,856.68		
Income tax expense / (credit) calculated at 25.17%	(720.37)	467.33	25.17%	25.17%
Effect of expenses that are not deductible in determining taxable profit	27.01	14.32	-0.94%	0.77%
Utilisation of previously unrecognised tax losses	-	(21.97)	0.00%	-1.18%
Effect of incomes which are taxed at different rates	-	(9.28)	0.00%	-0.50%
Effect of incomes which are exempt from tax	-	(1.37)	0.00%	-0.07%
Deferred tax asset created on unrecognised tax losses of previous years	-	(47.94)	0.00%	-2.58%
Temporary differences for which no deferred income tax was recognised	11.50	68.16	-0.40%	3.67%
Effect of capital gains on sale of investments in shares of subsidiaries	(73.31)	-	2.56%	0.00%
Unrealised profit margin on inventory on which deferred tax asset is not created	-	(0.82)	0.00%	-0.04%
Effect of EIR and unamortised expenses	23.68	-	-0.83%	0.00%
Effect of deduction in tax for interest on Compulsory Convertible Debentures	-	(8.05)	0.00%	-0.43%
Tax on exceptional items	90.37	-	-3.16%	0.00%
Effect of deduction from dividend income	-	(10.18)	0.00%	-0.55%
Others	(9.72)	60.59	0.34%	3.26%
Income tax expense / (credit) recognised in statement of profit and loss	(650.84)	510.79	22.74%	27.51%
Tax adjustment for earlier years	(3,327.21)	-		
Total Income tax expense / (credit) recognised in statement of profit and loss	(3,978.05)	510.79		
Effective tax rate	22.74%	27.51%		

*Including exceptional item of Rs. 397.83 Crores in FY 22-23 and Including Discounting operations in FY 21-22

The tax rate used for the reconciliations above is the corporate tax rate of 25.17%, payable by corporate entities in India on taxable profits under tax law in Indian jurisdiction.

In assessing the realizability of deferred tax assets, the Group considers the extent to which it is probable that the deferred tax asset will be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable profits during the periods in which those temporary differences and tax loss carry-forwards become deductible. The Group considers the expected reversal of deferred tax liabilities, projected future taxable income and tax planning strategies in making this assessment. Based on this, the Group believes that it is probable that the Group will realize the benefits of these deductible differences. The amount of deferred tax asset considered realizable, however, could be reduced in the near term if the estimates of future taxable income during the carry-forward period are reduced.

Based on the level of historical taxable income and projections for future taxable income over the periods in which the deferred income taxes are deductible, the Group believes that it is probable that the Group will realize the benefits of this deferred tax asset. The amount of deferred tax asset considered realizable, however, could be reduced in the near term if the estimates of future taxable income during the carry-forward period are reduced.

In addition to this, during the current year ended 31 March 2023, the Group has recognized Deferred Tax Asset of Rs. NIL (Previous Year Rs. 47.94 Crores) on unused tax losses, considering profits in the past 2 years and reasonable certainty of realisation of such deferred tax asset in the future years.

Deferred income taxes are not recognised on the undistributed earnings of subsidiaries, associates or joint ventures, where it is expected that the earnings will not be distributed in the foreseeable future or where the tax credit can be availed by the holding company.

As given in note 66(ii), contingent tax liabilities of Rs. 3,437 crores pertaining to financial years ended 31 March 2020 and 31 March 2021, were recognized pursuant to uncertain tax positions as on the acquisition of DHFL.

During the year, Piramal Capital Housing & Finance Limited ("PCHFL"), wholly owned subsidiary, had received an Assessment Order under section 143(3) of the Income Tax Act, 1961 from Income Tax Department for the financial year ended 31 March 2021 wherein PCHFL's submissions relating to the above said matters were accepted by the Assessing Officer. Further, for financial year ended 31 March 2020, the assessment is time barred as per Section 153 of the Income Tax Act 1961. Accordingly, PCHFL has reversed the provision of Rs. 3,327.54 crores (Out of the total contingent tax liabilities provided earlier of Rs. 3,437 crores) and disclosed the same as "Tax adjustments of earlier years" in these financial statements.

59 Fair Value Measurement

a) Financial Instruments by category :

Particulars	31 March 2023			31 March 2022		
	FVTPL	FVTOCI	Amortised Cost	FVTPL	FVTOCI	Amortised Cost
Financial Assets						
Investments	14,427.76	1,596.27	5,134.31	9,857.20	1,468.82	9,090.68
Loans	1,446.22	-	52,649.73	3,057.26	-	48,578.94

Other Financial Liabilities	-	-	1,684.78	-	-	1,421.43
	-	-	51,666.86	-	-	58,569.35

b) Fair Value Hierarchy and Method of Valuation

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the group has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

Particulars	March 31, 2022					
	Notes	Carrying Value	Level 1	Level 2	Level 3	Total
Financial Assets						
Measured at FVTPL - Recurring Fair Value Measurements						
Investments						
Investments in Shares	ii & iv	58.99	6.81	-	52.18	58.99
Investment in Debentures	i	1,149.83	-	-	1,149.83	1,149.83
Investments in Mutual Funds	ii	1,972.05	1,972.05	-	-	1,972.05
Investment in Alternative Investment Fund	vi	4,164.86	-	-	4,164.86	4,164.86
Investments - Others	i & iv	2,511.47	-	-	2,511.47	2,511.47
Loans

Measured at Amortised Cost for which fair values are disclosed						
Borrowings (Gross)	v	49,582.81	-	-	49,582.81	49,582.81

Except for those financial instruments for which the carrying amounts are mentioned in the above table, the Company considers that the carrying amounts recognised in the financial statements approximate their fair values. For financial assets that are measured at fair value, the carrying amounts are equal to the fair values

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments, traded bonds and mutual funds that have quoted price. The fair value of all equity instruments (including bonds) which are traded in the stock exchanges is valued using the closing price as at the reporting period. The mutual funds are valued using the closing NAV

Level 2: The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over-the-counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities, contingent consideration, Debentures, Term Loans, investment in Alternate Investment Funds and ICDs included in level 3

Valuation techniques used to determine the fair values:

- i) Discounted cash flow method has been used to determine the fair value. The yield used for discounting has been determined based on trades, market polls, levels for similar issuer with same maturity, spread over matrices, etc. For instruments where the returns are linked to the share price of the investee company the equity price has been derived using Monte Carlo simulation and local volatility model using the inputs like spot rate, volatility surface, term structures and risk free rates from globally accepted 3rd party vendor for these data.
- ii) This includes listed equity instruments, non convertible debentures and mutual funds which are fair valued using quoted prices and closing NAV in the market.
- iii) This includes forward exchange contracts and cross currency interest rate swap. The fair value of the forward exchange contract is determined using forward exchange rate at the balance sheet date. The fair value of cross currency interest rate swap is calculated as the present value of future cash flow based on observable yield curves and forward exchange rates.
- iv) Discounted cash flow method basis contractual cash flow has been used to determine the fair value. The discounting factor used has been arrived at after adjusting the rate of interest for the financial assets by the difference in the Government Securities rates from date of initial recognition to the reporting dates. Credit risk adjustment has not been considered while arriving at the values.
- v) Fair values of borrowings are based on discounted cash flow using a current borrowing rate. They are classified as Level 3 values hierarchy due to the use of unobservable inputs, including own credit risk. The discounting factor used has been arrived at after adjusting the rate of interest for the financial liabilities by the difference in the Government Securities rates from date of initial recognition to the reporting dates.
- vi) Investments in Alternative Investment Funds and other funds are valued basis the net asset value received from the fund house
- vii) Discounted cash flow method has been used to determine the fair value of contingent consideration.

c) Fair value measurements using significant unobservable inputs (level 3)

The following table presents the changes in level 3 items for the period ended 31 March 2023 and 31 March 2022

Particulars	Term loans	Debentures	Other Investments	Total
As at 1 April 2021	1,551.39	2,612.29	3,134.35	7,298.04
Transfer in/ (Out)	-	217.95	244.66	462.61
Transfer on account of reverse merger	1,942.50	-	-	1,942.50
Gains / (Losses) recognised in profit or loss/ Other comprehensive income	70.80	(702.32)	464.87	(166.65)
Exchange Fluctuations	-	-	0.74	0.74
Acquisitions/Disposal during the year (Net)	(507.43)	832.51	1,112.23	1,437.31
As at 31 March 2022	3,057.26	2,960.43	4,956.85	10,974.54
Transfer in/ (Out)	(116.46)	-	1,192.13	1,075.67
Gains / (Losses) recognised in profit or loss/ Other comprehensive income	250.15	(63.52)	(397.33)	(210.70)
Acquisitions / Disposals / reclassifications during the year (net)	(1,744.73)	(2,325.29)	4,676.72	606.70
As at 31 March 2023	1,446.22	571.62	10,428.37	12,446.21

d) Valuation Process

The Company engages external valuation consultants to fair value below mentioned financial instruments measured at FVTPL. The main level 3 inputs used for investment in AIF / Venture capital fund, contingent consideration, term loans and debentures are as follows.

- 1) For Non Convertible Debentures and Term Loans, Waterfall approach has been used to arrive at the yields for securities held by the Company. For determining the equity prices Monte Carlo simulations and local volatility model using the inputs like spot rate, volatility surface, term structures and risk free rates from globally accepted third party vendor for these data have been used.
- 2) For Alternative Investment Fund/Venture Capital Fund, Discounted cash flow method has been used to determine the fair value. The discounting factor has been computed using a mix of past trends as well as likely rate of return of the underlying projects.
- 3) For Contingent consideration, fair value has been estimated by allocating probability to achievement of financial milestones. Discount rate is determined using Capital Asset Pricing Model.

e) Sensitivity for instruments:

Nature of the instrument	Significant unobservable inputs*	Increase / Decrease in the unobservable inputs	Sensitivity Impact for the year ended 31 March 2023		Sensitivity Impact for the year ended 31 March 2022	
			FV Increase	FV Decrease	FV Increase	FV Decrease
Non Convertible Debentures	Discount rate	0.7%	-	-	(3.51)	3.54
Term Loans	Discount rate	0.7%	0.76	(0.75)	(1.90)	2.22
	Sale Price	5%	10.96	(8.97)	31.70	(31.70)
Investments	Sale Price	5%	16.66	(15.08)	71.20	71.30

* There were no significant inter-relationships between unobservable inputs that materially affect fair values

- f) Management uses its best judgment in estimating the fair value of its financial instruments (including impact on account of Covid-19). However, there are inherent limitations in any estimation technique. Therefore, for substantially all financial instruments, the fair value estimates presented above are not necessarily indicative of all the amounts that the Group could have realized or paid in sale transactions as of respective dates. As such, the fair value of the financial instruments subsequent to the respective reporting dates may be different from the amounts reported at each year end.

60 Disaggregate revenue information

Type of services	For the year ended	
	31 March 2023	31 March 2022
- processing / arranger fees	180.27	45.61
- other operating income	107.16	61.77
- Guarantee commission	4.21	28.05
	291.64	135.43
Timing of revenue recognition		
Services transferred at a point in time	287.43	125.08
Services transferred over time	4.21	28.05
	291.64	153.13

61 Disclosure for Insurance commission as required under Insurance regulatory and development Authority (IRDA)

Particulars	For the year ended	
	31 March 2023	31 March 2022
Cholamandalam MS General Insurance Company Limited	1.43	-
Pramerica Life Insurance Limited	9.46	0.88
	10.89	0.88

62 Prior to the Composite scheme of arrangement, mentioned under note 71, the Group conducted research and development to find new sustainable chemical routes for pharmaceutical & herbal products. The Group had undertaken development activities for Oral Solids and Sterile Injectables, apart from other Active Pharmaceutical Ingredients. The Group's research and development centers were in Mumbai, Ennore and Ahmedabad.

Details of additions to Property Plant & Equipments, Intangibles under Development and Revenue Expenditure for Department of Scientific & Industrial Research (DSIR) Recognised research and development facilities / division of the Group at Mumbai, Ennore and Ahmedabad for the year are as follows;

Description	For the year ended	
	31 March 2023	31 March 2022
Revenue Expenditure*	-	138.26
TOTAL	-	138.26
Capital Expenditure, Net		
Additions to Property Plant & Equipments	-	7.00
Additions to Intangibles under Development	-	8.74
Total	-	15.74

* The R & D Expenses (Net) included in discontinued operations does not include expenditure relating to Ahmedabad location of Rs. 86.82 Crores.

63 Events after reporting date

There have been no events after the reporting date that require adjustments / disclosures in the consolidated financial statements.

64 (a) (i) On 19 December 2019, 115,894 Compulsorily Convertible Debentures ("CCD") having face value of Rs. 151,000 per CCD were allotted to Caisse de dépôt et placement du Québec for an aggregate amount of Rs. 1,749.99 crores. Each CCD is convertible into 100 equity shares having face value of Rs. 2 each. During the year ended 31 March 2022, the Holding Company has allotted 1,15,89,400 equity shares (face value of Rs. 2 each) pursuant to the compulsory conversion of these CCDs.

(b) (i) On 24 December 2019, the Holding Company offered 27,929,649 equity shares under Rights Issue at a price of Rs.1,300 per share (including premium of Rs.1,298 per share). Out of the aforesaid issue, 26,385,861 equity shares were allotted by the Holding Company on 29 January 2020 and 1,535,944 Rights Equity shares have been reserved for the CCD Holder (as per regulation 74(1) of Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018) and 7,844 Rights Equity Shares have been kept in abeyance. Further, the Holding Company on 28 June 2021 had allotted 1,535,944 right shares to the CCD Holder out of the portion reserved under the Right Issue made by the Holding Company vide Letter of offer dated 24 December, 2019.

(ii) On 8 March 2018, the Holding Company had issued 8,310,275 equity shares under Rights Issue at a price of Rs. 2,380 per share (including premium of Rs.2,378 per share). Out of this rights issue, 11,298 and 7,485,574 equity shares were allotted by the Company during the year ended March 31, 2019 and year ended March 31, 2018, respectively.

During the three months ended 30 June 2019 and 30 September 2019, 213,392 and 66 equity shares, respectively, were allotted by the Holding Company under Rights Issue at a price of Rs. 2,380 per share (including premium of Rs.2,378 per share) to the CCD holders out of the Right Equity shares reserved for them (as per regulation 53 of erstwhile Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009) and shares held in abeyance.

As on 31 March 2021, 24,573 Rights equity shares have been kept in abeyance. 575,372 Rights equity shares reserved for the CCD holders (as per regulation 53 of erstwhile Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009) have not been subscribed by them and these unsubscribed rights shall be dealt with by the Board of Directors of the Company, in accordance with the law and hence are considered to be dilutive in nature.

During the year ended 31 March 2022, the Board at its meeting held on February 10, 2022 had approved cancellation of the unsubscribed portion of the issued capital representing 575,372 equity shares of Rs.2 each aggregating to Rs. 1,150,744, which was reserved in favour of the Compulsorily Convertible Debentures holders under rights issue of the Company. Consequently, the issued share capital stands at Rs.477,376,546/- consisting of 238,688,273 equity shares of face value of Rs.2 each fully paid.

(c) Proceeds from the rights issue have been utilised upto 31 March 2022 in the following manner :

Particulars	Planned	Actual till 31 March 2022
a) Repayment or prepayment, in full or in part, of certain borrowings in Piramal Enterprises Ltd & Piramal Capital Housing Finance Ltd	2,900.00	2,900.00
b) General Corporate Purposes	718.31	718.31
Add: Issue related expenses	12.54	12.54
Total	3,630.85	3,630.85

66 Business Combinations

Summary of acquisitions

(i) Acquisition of Hemmo Pharmaceuticals Private Limited (Hemmo)

On 22 June 2021, the Group completed the acquisition of 100% stake in Hemmo Pharmaceuticals Private Limited ('Hemmo') pursuant to an agreement entered on 31 March 2021 for an upfront cash consideration of Rs. 775 crores and earn-outs linked to achievement of milestones. The Group has completed the purchase price allocation of the assets/liabilities acquired and consequently, measurement period changes have been adjusted to the goodwill. Balance consideration payable is Rs 89.91 crores. The acquisition will add peptide API development and manufacturing capabilities.

(a) The fair value of assets and liabilities recognised as a result of the acquisition are as follows:

Particulars	Amount
Assets	
Property, Plant and Equipment	36.13
Capital work in progress	0.11
Intangible assets	405.62
Intangible asset under development	197.87
Right of use assets	54.59
Investments	0.11
Other Non-current Assets	0.38
Inventory	26.34
Trade Receivables	20.44
Cash and cash equivalents & bank balances	77.02
Loans	0.40
Other Non-Current Financial Assets	0.44
Other current Assets	20.68
Deferred Tax Assets	0.95
Total Assets	841.08
Liabilities	
Trade payable	63.94
Other Current Liabilities	17.30
Lease Liability	0.06
Other Liabilities	0.03
Non-current Provisions	1.34
Current tax liabilities	1.57
Current Provisions	0.43
Total Liabilities	84.67
Net identifiable assets acquired	756.41

(b) Calculation of goodwill

Particulars	Amount
Purchase consideration	901.47
Less: Net identifiable assets acquired	756.41
Goodwill	145.06

Goodwill is attributable to the synergies expected to arise from the combination of the acquired technical knowhow and the Piramal Group's global sales and marketing network which will augment the CDMO offering and allow PPL to provide integrated offerings across the pharmaceutical development cycle. Goodwill is not deductible for tax purpose.

(c) Revenue and profit contribution

The revenues and profits contributed to the group for the year ended 31 March 2022 are as follows:

Particulars	Amount
Revenue	121.62
Profit before tax	35.55

(d) Credit/Charge to P&L

Acquisition costs of Rs. 15.08 Crores were charged to Consolidated Statement of Profit and Loss for the year ended 31 March 2022 under the head - Exceptional items.

(e) Acquired Receivables

Particulars	Amount
Fair value of acquired trade receivables	20.44
Gross contractual amount for trade receivables	20.44
Contractual cash flows not expected to be collected	-

(f) Purchase consideration - cash outflow

Particulars	Amount
Net outflow of cash - investing activities	790.74

(ii) Amalgamation of Dewan Housing Finance Corporation Limited with Piramal Capital & Housing Finance Limited

Vide Order dated 7 June 2021, the Mumbai bench of the Hon'ble National Company Law Tribunal ("NCLT") approved the Resolution Plan submitted by Piramal Capital & Housing Finance Limited ("PCHFL"), wholly-owned subsidiary of Piramal Enterprises Limited, for the Corporate Insolvency resolution process of Dewan Housing Finance Limited ("DHFL") under Section 31 of the Insolvency and Bankruptcy Code, 2016. After receiving necessary approvals, PCHFL has discharged its obligation under the resolution plan by paying Rs. 34,250 crores on September 28, 2021 through cash consideration of Rs. 14,717.47 crores (of which Rs. 12,800 crores paid out of acquired cash) and issue of Debentures of Rs. 19,532.53 crores and further, pursuant to the Resolution plan, PCHFL merged into DHFL to conclude acquisition on September 30, 2021 (Implementation Date).

The acquisition of DHFL fits well into the Group's strategy to diversify the loan book and helps achieve scale its retail lending business.

The business combination has been treated as a reverse acquisition for financial reporting purposes in accordance with Ind AS 103, with PCFHL as the accounting acquirer and DHFL as the accounting acquiree/legal acquirer.

Accordingly, these consolidated reporting package issued represent the continuation of the financials of PCHFL (accounting acquirer) and reflects the assets and liabilities of PCHFL measured at their pre-acquisition carrying value and acquisition date fair value of the identified assets acquired and liabilities taken over with respect to DHFL. Merged financial statements are issued in the name of Piramal Capital and Housing Finance Limited (formerly known as Dewan Housing Finance Corporation Limited).

The balances in reserves and surplus of DHFL as of the Appointed Date and the statutory reserve and hedging reserve of PCHFL shall be recognised separately. Any resultant difference arising from such recognition of reserves shall be in the first instance recognised as Amalgamation Adjustment Reserve and debit balance, if any, arising in the Amalgamation Adjustment Reserve may be offset with credit balance in reserves and surplus of the merged entity (first to be adjusted with surplus balance in profit and loss account and then with general reserve, if any).

The Group has also incurred a transaction cost of Rs. 142.72 crores and reported this as an acquisition related cost included in Exceptional item in FY 21-22.

Details in respect of business combination is provided below:

Particulars	Amount
Consideration transferred	
Fair value of shares deemed to be issued on reverse acquisition	
Cash (including acquired cash of Rs. 12,800 crores)	14,717.47
Fair value of Debentures	19,123.69
Total consideration (A)	33,841.16
Fair value of assets identifiable assets and liabilities recognised as a result of the Reverse Acquisition	
Assets	
Loan Book	22,614.50
Investments	3,074.91
Cash & Cash Equivalents	14,625.91
Property, Plant & Equipment	452.87
Other assets	1,084.54
Total assets acquired (a)	41,852.72
Liabilities	
CDO Liability	(3,226.49)
Other Financial Liabilities	(720.60)
Trade Payables	(317.92)
Provisions	(55.89)
Other Non-Financial Liabilities	(81.03)
Tax liabilities	(3,437.00)
Total liabilities acquired (b)	(7,838.93)
Net assets recognised pursuant to the Scheme (B)=(a-b)	34,013.79
Capital Reserve (A-B)	(172.63)

Capital reserve represents the gain on bargain purchase which is directly recognized in other equity as capital reserve.

The acquisition date fair value of accounting acquiree's identifiable assets and liabilities under the reverse acquisition are based on independent valuations obtained by the Group.

Based on opinions obtained from legal and tax experts, the above-mentioned fair value of net assets includes contingent tax liabilities of Rs. 3,437 crores pertaining to income tax obligation of DHFL for the financial years ended 31 March, 2020 and 2021, recognized pursuant to uncertain tax positions relating to DHFL as on the implementation date. Further, based on the expert opinions, net deferred tax assets potentially amounting to Rs. 6,209 crores relating to the fair value adjustments considered above have presently not been recognized due to uncertainty associated with allowability of such adjustments. The Fair value of assets also includes Investment in a Jointly controlled entity which was being litigated and where the Group expected a favourable outcome of the proceedings as on date of signing of financial statement for financial year ended 31 March 2022.

Further, during year ended 31 March 2023, PCHFL had received an Assessment Order under section 143(3) of the Income Tax Act, 1961 from Income Tax Department for the financial year ended 31 March 2021 wherein PCHFL's submissions relating to the above said matters were accepted by the Assessing Officer. Further, for financial year ended 31 March 2020, the assessment is time barred as per Section 153 of the Income Tax Act 1961. Accordingly, PCHFL has reversed the provision of Rs. 3,327.54 crores (Out of the total contingent tax liabilities provided earlier of Rs. 3,437 crores) and disclosed the same as "Tax adjustments of earlier years" in these financial results.

Following the successful implementation of the resolution plan pertaining to the insolvency resolution process of DHFL, the Group has replaced the nominee directors appointed by the erstwhile management under the Administrator with new directors.

Pursuant to the merger becoming effective from 30 September 2021, DHFL has allotted 2,13,646.92 lakhs shares of face value of INR 10 each on November 11, 2021, to the existing shareholders who were holding shares of PCHFL. These shares are issued against the total net worth of PCHFL on the Appointed Date, adjusted for statutory reserves and hedging reserves. Further the existing share capital held by shareholders of DHFL were cancelled/written back upon implementation of the Scheme.

Accounting for conversion of PCHFL reserves aggregating to Rs 2,080.96 crores into Share Capital and continuation of balance of reserves aggregating to Rs. 485.54 crores and recognition of reserves of DHFL on the implementation date aggregating to Rs 4,047.84 crores, in the merged financial statements has been done in accordance with the accounting treatment prescribed in the Resolution plan approved by the NCLT which, is different from the accounting treatment prescribed by Ind AS 103 for reverse acquisition business combinations.

Piramal Enterprises Limited
Notes to the consolidated financial statements (Continued)
For the year ended 31 March, 2023
(Currency : Rs in crores)

The Group holds 100% of equity share capital of DHFL Investments Limited (DIL). DIL had issued Compulsory Convertible Debentures (CCDs) to Wadhawan Global Capital Private Limited ("WGC"). Tri-partite agreement dated 31 March 2017 was entered between DIL, DHFL and Wadhawan Global Capital Private Limited (WGC). This agreement assigned controlling rights in favor of WGC and accordingly DIL was not considered as a subsidiary. The approved Resolution Plan contained prayers inter alia seeking nullification of the Compulsory Convertible Debentures (CCDs) and extinguishment of rights pursuant to these CCDs. WGC and a limited liability partnership by the name of TDH Realty LLP have pursued the litigation against the Resolution Plan purportedly as the ultimate beneficiary of the CCDs. The matter is still under consideration of Hon'ble NCLT. Based on the approval of the Resolution Plan by Hon'ble NCLT and merits of these litigations, the Group has considered DIL as a subsidiary based on its ability to exercise control over DIL with effect from the implementation date.

DIL holds 50% of equity share capital of DHFL Pramerica Life Insurance Limited (DPLI). Based on the evaluation of rights available under the shareholders agreement, DPLI has been considered as a joint venture and has been accounted based on equity method of accounting in the consolidated financial statements. Accordingly, the consolidated statement of profit and loss includes the DIL share of profit / (loss) of DPLI with effect from the implementation date.

In view of the foregoing, the financial statements of the accounting acquiree have been included from the implementation date i.e. 30 September 2021. The consolidated financial statements presented above are not comparable with the previous year's consolidated financial statements for the year ended 31 March 2022 which comprise of the result of 6 months operation of DHFL and twelve months of PCHFL.

Further, following subsidiaries, associate and joint venture have been consolidated from 30 September 2021.

- a. Subsidiary Company
 - i. DHFL Investments Limited
 - ii. DHFL Holdings Limited
 - iii. DHFL Advisory & Investments Private Limited
- b. Associate
 - i. DHFL Venture Trustee Company Limited (through DHFL Investments Limited)
- c. Joint Venture
 - i. Pramerica Life Insurance Limited (through DHFL Investments Limited)

According to the Resolution Plan, the distribution of proceeds from recovery of fraudulent loans should go to Successful Resolution Applicant (SRA) only to the extent of Re. 1 as per the Fair Value assigned in the Resolution Plan and the balance should be distributed to the creditors. There is a litigation with respect to reconsideration of the value assigned for the fraudulent loan book by Committee of Creditors. According to Group, the DHFL acquisition remains unaffected by the above said order and the business integration continues as envisaged. Further there will be no adverse impact on the consolidated financial statements for the year ended March 31, 2022 and 2023 even in the eventuality of the matter being decided against Group.

Revenue and profit contribution

The acquired business contributed revenue from operation of Rs. 1,549.15 crores and profit of Rs. 750.58 crores to the Company for the period 31 March 2022.

(iii) Acquisition of PRL Agastya Private Limited by Piramal Capital & Housing Finance Limited

Piramal Capital & Housing Finance Limited ("PCHFL"), a wholly owned subsidiary, has acquired 100% stake in PRL Agastya Private Limited ("PRL Agastya") from PRL Developers Private Limited on 12 December 2022 for a cash consideration of Rs. 90 crores. Consequent to which, PRL Agastya is a wholly owned subsidiary of the Group. The consolidated financial statements presented are not comparable with the previous period consolidated financial statements for the year ended 31 March 2022 which comprise the consolidated financial statements of the Group without considering PRL Agastya Private Limited.

The details in respect of business combination is provided below:

Particulars	Amount
Consideration transferred	
Cash *	90.12
Total consideration (A)	90.12

(b) Total liabilities acquired	924.36
Net assets recognised pursuant to the Scheme (B)- (a-b)	88.13
Goodwill/(Capital Reserve) (A-B)	2.00

Goodwill represents the loss on bargain purchase which is directly recognized in the balance sheet.

* includes stamp duty of Rs. 0.12 crores.

67 Divestment of Piramal Holdings (Suisse) SA (subsidiary)

On 9 December 2022, the Holding Company has signed documents to divest its entire stake in Piramal Holdings (Suisse) SA ('PHSA'), a non-operative, non-material wholly owned subsidiary of the Holding Company to Heather Investment in Commercial Enterprises & Management Co. LLC, UAE, for a consideration of Rs.1.65 crores (USD 200,436). Consequent to the divestment, PHSA ceases to be a wholly-owned subsidiary of the Holding Company. Further, the divestment is not a related party transaction and the Buyer does not belong to the promoter/ promoter group/ promoter group companies.

The Group has given effect to accounting as follows:

(i) Consideration received

Particulars	Amount
Consideration received in cash and cash equivalents	1.65
Total consideration received	1.65

(ii) Statement of assets and liabilities over which control was lost as on date of sale:

Particulars	Amount
Assets:	
Cash and cash equivalents	30.96
Total Assets (I)	30.96
Liabilities	
Trade payables	0.63
Total liabilities (II)	0.63
Net assets disposed off (I-II)	30.33

(iii) Loss on disposal

Particulars	Amount
Consideration received	1.65
Less: Net assets disposed off	30.33
Loss on disposal	(28.68)

68 Composite Scheme of Arrangement and Amalgamation in Shriram group

During the year, pursuant to Composite Scheme of Arrangement and Amalgamation in Shriram group, the Group received shares of Shriram Finance Limited (SFL), Shriram LI Holdings Private Limited (SLIH), Shriram GI Holdings Private Limited (SGIH) and Shriram Investment Holdings Limited (SIHL) against the shares of Shriram City Union Finance Limited(SCUF) and Shrelekh Business Consultancy Private Limited(Shrelekh). These shares have been initially recognised as per the requirement of Ind AS 109 as follows:

- (a) Shares received against investment in SCUF resulted in gain of Rs. 172.10 crores accounted in other comprehensive income.
- (b) Shares received against investment in Shrelekh resulted in gain of Rs. 717.44 crores accounted in profit and loss as other operating income.

69 Assets held for sale

During the year ended 31 March 2023, on conclusion of a strategic review of its investments, the Group initiated identification and evaluation of potential buyers for its associate investments, Shriram LI Holdings Private Limited, Shriram GI Holdings Private Limited and Shriram Investment Holdings Limited. The Group anticipates completion of the sale in foreseeable future and accordingly, investments amounting to Rs. 2,277.54 crores in respect of these associates have been reclassified under 'assets held for sale'.

On reclassification, these investments has been measured at the lower of carrying amount and fair value less cost to sell. No impairment provision was required to be recognised in the consolidated statement of profit and loss for the year ended 31 March 2023, on these investments.

70 Until the previous year, the Group used to prepare and present financial statements as per the format prescribed in Division II of Schedule III to Companies Act, 2013. On 26 July 2022, the Holding Company has received Certificate of Registration to carry on the business of Non-Banking Financial Institution. Hence, the Group is required to prepare and present financial statements as per the format prescribed in Division III of Schedule III to Companies Act, 2013. The figures of the consolidated financial statements of the previous year have been accordingly restated and reclassified to conform to the new format.

71 Composite Scheme of Arrangement - Discontinuing operations

The board of directors of the Holding Company, at their meeting held on 7 October 2021, had inter alia, approved the composite Scheme of Arrangement under applicable provisions of the Companies Act, 2013 between Holding Company(PEL), Piramal Pharma Limited ('PPL'), Convergence Chemicals Private Limited ('CCPL'), Hemmo Pharmaceuticals Private Limited ('HPPL'), PHL Fininvest Private Limited ('PFPL') and their respective shareholders and creditors ('Scheme'). The Scheme inter alia provides for the following:

- (i) the transfer by way of demerger of the Demerged Undertaking (as set out in the Scheme) from Holding Company to PPL, a subsidiary of PEL
- (ii) the amalgamation of CCPL and HPPL (both being wholly owned subsidiaries of PPL) into PPL.
- (iii) the amalgamation of PFPL (a wholly owned subsidiary of PEL) into Holding Company ('FS Amalgamation').

The Scheme was approved by the Hon'ble National Company Law Tribunal on 12 August 2022. Accordingly, the Scheme became operative from Appointed date i.e. 1 April 2022.

In view of the above, the previously issued consolidated financial statements for the year ended 31 March 2022 have been restated to give impact of the Scheme.

The Holding Company has given effect to accounting as follows:

All assets and liabilities pertaining to demerged Pharma undertaking have been classified as non-cash assets held for transfer to Piramal Pharma Limited / shareholders as on 1 April 2022 being the appointed date. The difference between book values of the assets and liabilities transferred is recognised as gains in Profit and loss account amounting to Rs. 7,613.96 crores as per the requirements of Appendix A to Ind AS 10. At the date of approval of scheme, the liability was subsequently remeasured resulting in remeasurement gain of Rs. 759.76 crores. The corresponding aggregate charge was recognised in retained earnings (reserve) as per the requirements of the aforesaid Ind AS. The nature of the gain (including remeasurement gains) being non-recurring in nature was classified as an exceptional item by the Holding Company.

As per the requirements of Ind AS 105, the income and expense pertaining to pharma business in the previous comparable year were presented in a separate line item – discontinued operations.

Costs incidental / consequential to the arrangement aggregating to Rs 307.46 crores (net of tax) incurred by the Holding Company was considered as exceptional items being non-recurring in nature.

Particulars	As on 1 April 2022
(i) Fair value of the of Pharma undertaking at date of derecognition - (A)	12,982.55
(ii) Analysis of asset and liabilities over which control was lost	
Assets	
Financial assets	3,856.28
Non- financial assets	8,793.16
Total Assets (A)	12,649.44
Liabilities	
Financial liabilities	5,428.34

Borrowings including debt securities and subordinated debt liabilities (net)	38,783.43	(6,095.93)	20.21	22,743.29	55,450.99

* Includes acquisitions/ (divestments)

76 Employee Stock Option Plan

The Group had formulated Employees' Stock Ownership Plan - 2015 ("ESOP Scheme 2015"), under which, such eligible employees of the Holding Company and its subsidiaries can exercise Stock Options that were vested in them under such ESOP Scheme 2015

The ESOP Scheme 2015 were approved by the Nomination and Remuneration Committee and the effective date of the same is 31 March 2023.

Under the ESOP Scheme 2015, 7,70,022 stock options are granted during the year ended 31 March 2023.

Number and weighted average exercise prices (WAEP) of, and movements in, share options during the year

Particulars	Number of options	Weighted-Average Exercise Price	Weighted-Average Remaining Contractual Life (Years)
Outstanding as on 1 April 2022	-	-	-
Granted during the year*	7,70,022	2.00	5
Exercised during the year	-	-	-
Forfeited/lapsed during the year	-	-	-
Outstanding as on 31 March 2023*	7,70,022	2.00	5
Exercisable as on 31 March 2023	7,70,022		

*Includes 12,256 options granted to Key managerial personnel of the Holding Company.

The Black Scholes valuation model has been used for computing the weighted average fair value of stock options granted during the year, considering the following inputs:

Grant Date	March 31, 2023
Vesting Date:	3 Equal months on the expiry of at least 12 months, 16 months and 28 months or 3 Equal months on the expiry of at least 28 months, 40 months and 52 months 3 Equal months on the expiry of at least 13 months, 14 months, 26 months and 38 months
Risk free interest rate	6.91% - 6.92%
Expected life	3.0 to 3.7 years
Expected Volatility	55.62% - 58.71%
Expected dividend yield	55.62% - 58.71%
Exercise Price	Rs. 2
Stock Price	Rs. 678.35
Option fair Value	Rs. 631.84 - Rs. 639.48
Exercise Period	5 years from date of vesting

The expected life of the share options is based on historical data and current expectations and is not necessarily indicative of exercise patterns that may occur. The expected volatility reflects the assumption that the historical volatility over a period similar to the life of the options is indicative of future trends, which may not necessarily be the actual outcome.

Method used to account for the Scheme (Intrinsic or fair value):

The Group recognises compensation expense relating to share based payments in accordance with Ind AS 102 Share-based Payment. Stock options granted by the Group are accounted as equity settled options. Accordingly, the estimated fair value of options granted that is determined on the date of grant, is charged to statement of Profit and Loss over the vesting period of options which is the requisite service period, with corresponding increase in the equity.

During the year ended 31 March 2023, Rs. 0.06 crores has been charged to statement of profit & loss with a corresponding increase in Share based payment reserve of Rs. 0.06 crores. [Refer note 26 and 38]

Independent Auditor's Report

To The Members of
Piramal Enterprises Limited

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of Piramal Enterprises Limited ("the Company"), which comprises of Standalone Balance Sheet as at March 31, 2023, the Standalone Statement of Profit and Loss (including Other Comprehensive Income), the Standalone Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and notes to the standalone financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March 2023, its profit, total other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics.

We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the Standalone Financial Statements section of our report, including in relation to these matters.

Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the standalone financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying standalone financial statements.

Sr. No.	Key Audit Matters	Auditors Response
1.	<p>Expected Credit Loss allowance on financial assets and net loss on derecognition of financial instruments under amortised cost category.</p> <p>Refer to accounting policies in Note 2 (iii) to the standalone financial statements; Impairment and net loss on derecognition of financial instruments under amortised cost category – Notes 18, 25, 26 and 40.3 to the standalone financial statements.</p>	
	<p>Under Ind AS 109, Financial Instruments, allowance for loan losses are determined using expected credit loss (ECL) estimation model. The estimation of ECL on financial instruments involves significant judgement and estimates. The key areas where we identified greater levels of management judgement and therefore increased levels of audit focus in the Company's estimation of ECL are:</p> <ul style="list-style-type: none"> • The application of ECL model requires several data inputs to calculate Probability of Default ("PDs"), Loss Given Default ("LGD") and Exposure at Default (EAD). Inherently judgmental inputs / model used to estimate ECL which involves determination of PD, LGD and EAD. • The PD and the LGD are the key drivers of estimation complexity in the ECL and as a result are considered as a significant judgmental aspect of the Company's modelling approach. • Estimating Management overlay for economic uncertainty, forward-looking information, and macro-economic factors. • Completeness and accuracy of the data from internal and external sources used in the Models. Qualitative and quantitative factors used in staging the loan assets. <p>Considering the significance of ECL to the overall standalone financial statements and the degree of Management's estimates and judgements involved in this matter that requires significant auditors'</p>	<p>Principal audit procedures followed:</p> <ul style="list-style-type: none"> ➤ Reviewed the Board approved loss allowance policy and verified the alignment of methodology adopted for computation of ECL that addresses the policies approved by the Board of Directors. ➤ Tested the design and operating effectiveness of the key controls over the completeness and accuracy of data, inputs and assumptions into the ECL Model. ➤ Evaluated whether the methodology applied by the Company is compliant with the requirements of the relevant accounting standards, Reserve Bank of India's ('RBI') master directions relating to Prudential norms on Income Recognition, Asset Classification and Provisioning pertaining to Advances and confirmed that the calculations are performed in accordance with the approved methodology and ECL amounts has been approved by the management and the Audit committee. ➤ Tested on sample basis key inputs, data and assumptions impacting ECL calculations to assess the completeness, accuracy and relevance of data and reasonableness of economic forecasts and model assumptions applied.

	<p>attention. We have considered the expected credit loss allowance on financial assets to be a key audit matter.</p> <p>The disclosures regarding the Company's application of Ind AS 109 are key to explaining the key judgements and material inputs to ECL and net loss on derecognition of financial instruments under amortised category. Further, disclosures to be provided as per RBI circulars with regards to non-performing assets and provisions will also be an area of focus, particularly as this will be the first year some of these disclosures will be presented and are related to an area of significant estimate.</p>	<ul style="list-style-type: none"> ➤ Tested the arithmetical accuracy of the computation of ECL provision performed by the Company in spreadsheets. ➤ Assessed whether the disclosures on key judgements, assumptions and quantitative data with respect to impairment loss allowance in standalone financial statements are appropriate and sufficient.
<p>2.</p>	<p>Determination of fair value for the purpose of measurement of certain financial assets measured at fair value and for the purpose of impairment assessment of investments in subsidiary, joint venture or associate companies measured at cost and investment property: Refer to Accounting policies in Notes 2 (iv), 2 (vii) and 2 (xi) to the standalone financial statements; Investment measured at fair value, net gain on fair value changes and other operating income – Notes 6, 21 (iv) and 21 (v) to the standalone financial statements; Investment in subsidiary, joint venture and associate companies and provision thereon – Notes 6,28 and 43 to the standalone financial statements; Investment property – Note 34 to the standalone financial statements; Fair value disclosures – Note 38 to the standalone financial statements.</p>	
	<p>The Company's investments in unquoted instruments (other than investment in subsidiaries, joint ventures and associates) are measured at fair value at each reporting date and these fair value measurements significantly impact the Company's financial performance. The Company's investments in subsidiaries, joint ventures and associates and investment property are measured at cost less provision for impairment, if any.</p> <p>The valuation for the purpose of measurement and impairment assessment requires significant judgement because of quoted prices being unavailable and limited liquidity.</p> <p>The disclosures regarding the Company's fair value estimation are key to explaining the key estimation and judgements including material inputs to the estimated valuation figures.</p>	<p>Principal audit procedures followed:</p> <ul style="list-style-type: none"> ➤ Understood the process, evaluating the design and testing the operating effectiveness of such controls in respect of valuation of investments by management. ➤ Evaluated management's controls over collation of relevant information used for determining estimates for valuation and impairment testing of investments. ➤ Tested appropriate implementation of policy of valuation and impairment testing by management. ➤ Reconciled the financial information mentioned in fair valuation and impairment testing to underlying source details. ➤ Obtained independent valuation reports of unquoted investments.

		<ul style="list-style-type: none"> ➤ Tested the reasonableness of management's estimates considered in such assessment. ➤ Assessed the competence, capabilities and objectivity of the experts used by management in the process of valuation models. ➤ Assessed the factual accuracy conclusion reached by the management and appropriateness of the disclosures made in the standalone financial statements in respect of investments.
--	--	---

3. Information Technology (IT) systems and controls impacting financial reporting.

	<p>The IT environment of the Company is complex and involves a number of independent and interdependent IT systems used in the operations of the Company for processing and recording a large volume of transactions. As a result, there is a high degree of reliance and dependency on such IT systems for the financial reporting process of the Company.</p> <p>Appropriate IT general controls and IT application controls are required to ensure that such IT systems are able to process the data as required, completely, accurately, and consistently for reliable financial reporting.</p> <p>We have identified certain key IT systems ("in-scope" IT systems) which have an impact on the financial reporting process and the related control testing as a key audit matter because of the high level of automation, significant number of systems being used by the Company for processing financial transactions, the complexity of the IT architecture and its impact.</p>	<p>Principal audit procedures followed:</p> <ul style="list-style-type: none"> ➤ In assessing the controls over the IT systems of the component, involved our technology specialists to obtain an understanding of IT environment, IT infrastructure and IT systems. ➤ Evaluated and tested relevant IT general controls and IT application controls of the "in-scope" IT systems identified as relevant for our audit of the Company's standalone financial statements and financial reporting process of the Company. ➤ On such "in-scope" IT systems, tested key IT general controls as follows: <ul style="list-style-type: none"> • Program change management, which includes that program changes are moved to production environment as per defined procedures. • User access management, which includes user access provisioning, de-provisioning, access review, password management, sensitive access rights and segregation of duties to ensure that privilege access to applications, operating system and databases in the production environment were granted only to authorized personnel.
--	--	---

		<ul style="list-style-type: none"> • Program development, which comprises IT operations and system development life cycle for relevant in-scope applications, operating systems, and databases, which are relied upon for financial reporting. ➤ Other areas that were assessed under the IT control environment included backup management, business continuity, disaster recovery, incident management, interface, batch processing and monitoring. ➤ Evaluated the design and tested the operating effectiveness of key IT application controls within key business processes, which included testing automated calculations, automated accounting procedures, system interfaces, system reconciliation controls and key system generated reports.
--	--	--

Information Other than the Standalone Financial Statements and Auditor’s report thereon

The Company’s Board of Directors is responsible for the other information. The other information comprises the information included in the Board Report including annexures to the Board report but does not include the standalone financial statement and our auditor’s report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and those charged with Governance for the Standalone Financial Statements

The Company’s Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance (including other comprehensive income), cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under Section 133 of the Act.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, the management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to the standalone financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are

based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the entity to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that individually or in aggregate makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work and (ii) to evaluate the effect of identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters:

- (i) The standalone financial statements of the Company for the year ended March 31, 2022 included in these standalone financial statements, were audited by the predecessor auditor. The report of the predecessor auditor of this comparative information dated May 26, 2022 expressed an unmodified opinion on those statements.
- (ii) The comparative Standalone Financial Statements, as mentioned above in para (i) above, of the Company for year ended 31 March, 2022 have been restated pursuant to:
 - (a) the Company on receiving the Certificate of Registration from the Reserve Bank of India, to carry on the business of non-banking financial company. The Company has prepared and presented its standalone financial statements as per the format prescribed in Division III of Schedule III to Companies Act, 2013, (Refer note 1B to the standalone financial statements); and
 - (b) the National Company Law Tribunal approval of Composite Scheme of Arrangement for demerger of Pharma undertaking and merger of PHL Fininvest Private Limited, a wholly owned subsidiary, into the Company, effective from April 1, 2022 (Refer Note 42 to the standalone financial statements).

Our opinion is not modified in respect of these matters.

Report on Other Legal and Regulatory Requirements

1. Pursuant to the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of Sub-Section (11) of Section 143 of the Act, , and on the basis of such checks of the books and records of the Company as we considered appropriate and according to the information and explanations given to us, we give in the Annexure "A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - (c) The Balance sheet, the Statement of Profit & Loss (including other comprehensive income), the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.
 - (d) In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended.
 - (e) On the basis of the written representation received from the directors as on March 31, 2023 taken on records by the Board of Directors, none of the directors are disqualified as on March 31, 2023 from being appointed as a Directors in terms of Section 164(2) of the Act.
 - (f) With respect to the adequacy of the internal financial controls with reference to standalone financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in Annexure "B". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls with reference to standalone financial statements.
 - (g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of Section 197(16) of the Act, as amended, in our opinion and to the best of our information and explanations given to us, the Company has complied with the provisions of Section 197 read with Schedule V of the Act.
 - (h) With respect to the other matters to be included in the Auditor's report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements. (Refer note 32 (a) to standalone financial statements)
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There has been no delay in transferring amounts required to be transferred to the Investor Education and Protection Fund by the Company.

- iv. (a) The management has represented, that to the best of their knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend to or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
- (b) The management has represented, that to the best of their knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend to or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
- (c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representation under Sub Clause (i) and (ii) of Rule 11(e) of The Companies (Audit and Auditors) Rules, 2014, as provided under (a) and (b) above, contains any material misstatement. [Refer note 45 (ix) and 45 (x) to the standalone financial statements.]
- v. The dividend declared or paid during the year by the Company is in compliance with the Section 123 of the Act.
- vi. Proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 for maintaining books of account using accounting software which has a feature of recording audit trail (edit log) facility is applicable to the Company with effect from April 1, 2023, and accordingly, reporting under Rule 11(g) of Companies (Audit and Auditors) Rules, 2014 is not applicable for the financial year ended March 31, 2023.

Annexure "A" referred to in "Report on Other Legal and Regulatory Requirements" section of our report to the members of Piramal Enterprises Limited of even date:

- i. a. In respect of Company's Property, Plant and Equipment (PPE) and Intangible Assets:
 - A. The Company has maintained proper records, showing full particulars, including quantitative details and situation of PPE, Investment property and relevant details of right-of-use assets.
 - B. The Company has maintained proper records showing full particulars of intangible assets.
 - b. According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has program of physical verification of property, plant and equipment, investment property and right of use assets so as to cover all the items once every three years which, in our opinion, is reasonable having regard to size of the Company and the nature of its assets. Pursuant to the program, physical verification was carried out by the Management during the year. According to the information and explanations given to us, no material discrepancies were noticed on such verification.
 - c. According to the information and explanations given to us and the records examined by us and based on the examination of the registered sale deed/ transfer deed/ conveyance deed/ court orders approving scheme of arrangements/ amalgamation/ confirmation from custodians, provided to us, we report that, the title deeds of all the immovable properties, (other than immovable properties where the Company is the lessee and the lease agreements are duly executed in favour of the Company) disclosed in the financial statements included in PPE are held in the name of the Company as at the balance sheet date. Further, based on examination of Letter of intent, independent architect certificate, the purchase agreements executed by the Company and deeds of transfer, we report that, the investment property in the nature of land development rights is held in name of the Company.
 - d. The Company has not revalued any of its PPE (including right- of-use assets) and intangible assets during the year and hence reporting under Clause 3(i)(d) of the Order is not applicable to the Company.
 - e. According to the information and explanations given to us and on the basis of our examination of records, no proceedings have been initiated during the year or are pending as at March 31, 2023 for holding any benami property under the Benami Transactions (Prohibition) Act, 1988, as amended, and Rules made thereunder and hence reporting under Clause 3(i)(e) of the Order is not applicable to the Company.
- ii. (a) As at March 31, 2023, the Company does not hold any inventories and hence reporting under Clause 3(ii)(a) of the Order is not applicable to the Company. (Refer Note no. 8 to standalone financial statements)
 - (b) According to the information and explanations given to us and on the basis of our examination of records, the Company has not been sanctioned working capital limits in excess of Rs. 5 crores on the basis of security of current assets by banks and financial institutions during the year and hence reporting under Clause 3(ii)(b) of the Order is not applicable to the Company.

- iii. As explained in note no. 1A to the financial statements, the Company has received Certificate of Registration to carry on business of Non-Banking Financial Company ('NBFC') from the Reserve Bank of India ('RBI') and as a part of its business activities is engaged in the business of lending across various types of loans.

During the year, in the ordinary course of its business, the Company has made investments in, provided guarantee/security to and granted loans and advances in the nature of loans, secured and unsecured, to companies, firms, limited liability partnerships and other parties. In respect of such Investment in, provided any guarantee or security or granted any loans or advances in the nature of loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or any other parties:

- (a) Reporting under Clause 3(iii)(a) and 3(iii)(e) of the Order is not applicable to the Company as its principal business is to give loans.
- (b) In our opinion and according to information and explanations given to us and based on the audit procedures performed by us, having regard to the nature of the Company's business, the investments made, guarantees provided, security given and the terms and conditions of the grant of all the loans and advances in the nature of loans and guarantees provided are, prima facie, not prejudicial to the interest of the Company.
- (c) In respect of loans granted by the Company, the schedule of repayment of principal and payment of interest has been stipulated and the repayment of principal amounts and receipts of interest has been delayed in certain cases. However, having regard to the nature of business and the volume of the information involved, it is not practicable to provide an itemized list of loan assets where delinquencies during the year in the repayment of principal and interest have been identified for loans other than derecognised during the year. Following delays were observed as at March 31, 2023:

Particulars	Total Overdue amount (Principal and Interest) (Rs. in Crores)	Number of cases
1-29 days	9.65	3,248
30 - 90 days	38.65	1,936
More than 90 days	70.16	1,567

- (d) In respect of loans granted by the Company, which has been overdue for more than 90 days at the balance sheet date, loans other than derecognized during the year, as explained to us and on the basis of our examination of records, the Management has taken reasonable steps for recovery of principal amounts and interests.

Number of cases	Principal amount overdue (Rs. in Crores)	Interest Overdue (Rs. in Crores)	Total Overdue (Rs. in Crores)
3 – Wholesale loan cases	23.04	45.43	68.47
1,564 – Retail loan cases	1.49	0.20	1.69

As per the Company's stated accounting policy, it has not recognized interest income on loans which are overdue for 90 days or above.

- (e) The reporting under clause 3(iii)(e) of the Order are not applicable to the Company as its principal business is to give loans.

- (f) The Company has not granted any loans or advances in the nature of loans during the year either payable on demand or without specifying any terms or period of repayment during the year and hence reporting under Clause 3(iii)(f) of the Order is not applicable to the Company.
- iv. The Company is a NBFC and engaged in the business of financing. In our opinion and according to the information and explanation given to us, the Company has complied with the provisions of Section 186 (1) of the Companies Act, 2013 in respect of the investments made. Section 185 and other provisions of Section 186 are not applicable to the Company.
- v. According to the information and explanations given to us and on the basis of our examination of records of the Company, no deposits or amounts which are deemed to be deposits within the meaning of Section 73 to 76 or any other relevant provisions of the Act and the Companies (Acceptance of Deposits) Rules, 2014 have been accepted by the Company and hence reporting under Clause 3(v) of the Order is not applicable to the Company.
- vi. On July 26, 2022, the Company had received Certificate of Registration to carry on the business of Non-Banking Financial Institution. The Central Government has not specified the maintenance of cost records under Section 148(1) of the Act for the services of the Company and hence reporting under Clause 3(vi) of the Order is not applicable to the Company.
- vii. (a) According to the information and explanations given to us and on the basis of our examination of the records, the Company is generally regular in depositing undisputed statutory dues including Goods and Services tax, provident fund, employees' state insurance, income tax, sales tax, custom duty, duty of excise, value added tax, cess and other material statutory dues during the year with the appropriate authorities. No undisputed amounts payable in respect of the aforesaid statutory dues were outstanding as at the last day of the financial year for a period of more than six months from the date they became payable.
- (b) According to the information and explanations given to us and on the basis of our examination of the records, there are no statutory dues mentioned in Clause vii (a) which have been not deposited on account of any dispute except as disclosed below:

Name of the Statute	Nature of the dues	Forum where dispute is pending	Period to which the Amount Relates	Gross amount of dispute (Rs in Crores)	Amount Unpaid (Rs in Crores)
Income Tax Act, 1961	Income Tax	Appellate Tribunal	AY 2003-04, 2005-06 to 2007-08, 2012-13, 2013-14, 2019-20	78.43	0.15
		Appellate Authority up to Commissioner's level	AY 2005-06, 2006-07, 2010-11, 2011-12, 2012-13, 2014-15, 2016-17, 2019-20 and 2020-21	89.99	59.52
		High Court	AY 2002-03 and 2008-09 to 2010-11	155.78	6.65

Central Excise Laws	Excise Duty & Service Tax including interest and penalty, as applicable.	CESTAT	1996-97 to 2000-01, 2004-05 to 2014-15	48.80	48.57
		Appellate Authority up to Commissioner's level	1989-90, 1995-96, 1998-99, 2004-05 to 2005-06 and 2013-18	6.13	6.12
Sales Tax Laws	Sales Tax	Tribunal	1990-91, 1995-96, 1997-98 to 2004-05, 2006-07 to 2010-11, 2012-13 to 2013-14	4.22	2.53
		Appellate Authority up to Commissioner's level	1998-99 to 2011-12, 2014-15	4.81	2.23
		High Court	2009-10	0.71	0.32
Stamp Act	Stamp Duty	High Court	1997-98, 1999-2000, 2001-02	9.37	9.37

- viii. According to the information and explanations given to us and on the basis of our examination of the records, there were no amounts to be recorded in the books of accounts that have been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (43 of 1961).
- ix. (a) Based on our audit procedures and on the basis of information and explanations given to us, we are of the opinion that the Company has not defaulted in the repayment of loans or other borrowings or in the repayment of interest thereon to the lenders and hence reporting under Clause 3(ix)(a) of the Order is not applicable to the Company.
- (b) On the basis of information and explanations given to us and on the basis of our examination of the records, the Company has not been declared as wilful defaulter by any bank or financial institution or other lender.
- (c) To the best of our knowledge and belief, in our opinion and according to the information and explanations given to us and on the basis of our examination of the records, the term loans have been applied for the purposes for which they have been raised.
- (d) On an overall examination of the standalone financial statements, in our opinion the Company has, prima facie, not utilized funds raised on short term basis for long term purposes.
- (e) Based on our audit procedures and on the basis of information and explanations given to us, the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries or joint venture or associate and hence reporting under Clause 3(ix)(e) of the Order is not applicable to the Company.
- (f) Based on our audit procedures and on the basis of information and explanations given to us, during the year the Company has raised term loan on the pledge of securities held in its associate company and has not defaulted in repayment of such loans as per details below:

Nature of loan taken	Name of lender	Amount of loan	Name of the subsidiary, joint venture, associate	Relation	Details of security pledged	Whether there is default in repayment of loan?
Term Loan	Standard Chartered Bank	Rs. 1,500 Crores	Shriram GI Holdings Private Limited	Associate	Equity Shares	No

Based on our audit procedures and on the basis of information and explanations given to us, during the year the Company has not raised term loans on the pledge of securities held in its subsidiary or joint venture.

- x. (a) In our opinion and according to the information and explanations given to us and on the basis of our examination of the records, the Company has not raised any money by way of Initial public offer or further public offer (including debt instrument) during the year and hence reporting under Clause 3(x)(a) of the Order is not applicable to the Company.
- (b) According to the information and explanations given to us and on the basis of our examination of the records, the Company has not made any preferential allotment, private placement of shares or fully or partly convertible debentures during the year and hence reporting under Clause 3(x)(b) of the Order is not applicable to the Company.
- xi. (a) During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India and according to the information and explanations given to us, we have neither come across any instance of material fraud by or on the Company, noticed or reported during the year, nor have we been informed of such case by the management.
- (b) During the year and up to the date of this report, no report under Sub Section 12 of Section 143 of the Act has been filed in Form ADT-4 as prescribed in Rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government.
- (c) We have taken into consideration the whistleblower complaints received by the Company during the year while determining the nature, timing and extent of audit procedures.
- xii. According to the information and explanations given to us and based on our examination of the records of the Company, the Company is not a Nidhi Company and hence reporting under Clause 3(xii) of the Order is not applicable to the Company.
- xiii. According to the information and explanations given to us and based on our examination of the records of the Company, all the transactions with related parties are in compliance with Section 177 and 188 of the Act and all the details have been disclosed in the standalone financial statements as required by the applicable Accounting Standards. (Refer note 36 to the standalone financial statements)
- xiv. (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has an adequate internal audit system commensurate with the size and nature of its business.

- (b) We have considered the internal audit reports for the year under audit, issued to the Company during the year and till date, in determining nature, timing and extent of our audit procedure.
- xv. According to the information and explanations given to us and on the basis of our examination of the records, the Company has not entered into any non-cash transactions prescribed under Section 192 of the Act with directors or persons connected with them during the year and hence provisions of section 192 of the Act are not applicable to the Company.
- xvi. (a) The Company being a NBFC is registered under Section 45-IA of the Reserve Bank of India Act, 1934 ('RBI Act').
- (b) On July 26, 2022, the Company has received Certificate of Registration to carry on the business of Non-Banking Financial Institution. The Company has conducted the non-banking financial activities with a valid certificate of registration.
- (c) In our opinion, the Company is not a Core Investment Company (CIC) as defined in the regulations made by the Reserve Bank of India and accordingly reporting under paragraph 3(xvi)(c) of the Order is not applicable to the Company.
- (d) Based on the information and explanations given to us and as represented by the management of the Company, the Group (as defined in Core Investment Companies (Reserve Bank) Directions, 2016) has only one CIC as part of the Group.
- xvii. The Company has not incurred cash losses during the financial year covered by our audit and in the immediately preceding financial year.
- xviii. There have been no resignation of the statutory auditor of the Company during the year and hence reporting under Clause 3(xviii) of the Order is not applicable to the Company.
- xix. According to the information and explanations given to us and on the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information accompanying the standalone financial statements and our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that the Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.

Annexure "B" referred to in "Report on Other Legal and Regulatory Requirements" section of our report to the members of Piramal Enterprises Limited of even date:

Report on the Internal Financial Controls with reference to standalone financial statement under Clause (i) of Sub-Section 3 of Section 143 of the Act

We have audited the internal financial controls with reference to standalone financial statement of the Piramal Enterprises Limited ("the Company") as of March 31, 2023 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control with reference to standalone financial statement criteria established by the Company considering the essential component of internal control stated in the Guidance Note on Audit of Internal Financial Controls with reference to standalone financial statement issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to standalone financial statement based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing deemed to be prescribed under Section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to standalone financial statement was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to standalone financial statement and their operating effectiveness. Our audit of internal financial controls with reference to standalone financial statement included obtaining an understanding of internal financial controls with reference to standalone financial statement, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to standalone financial statement.

Meaning of Internal Financial Controls with reference to standalone financial statements

A Company's internal financial control with reference to standalone financial statement is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles.

A Company's internal financial control with reference to standalone financial statement includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the entity are being made only in accordance with authorisations of management (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the entity's assets that could have a material effect on the standalone financial statements and (4) also provide reasonable assurance by the internal auditors through their internal audit reports given to the organisation from time to time.

Inherent Limitations of Internal Financial Controls with reference to standalone financial statements

Because of the inherent limitations of internal financial controls with reference to standalone financial statement, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to standalone financial statement to future periods are subject to the risk that the internal financial control with reference to standalone financial statement may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, broadly, in all material respects, an adequate internal financial controls with reference to standalone financial statements and such internal financial controls with reference to standalone financial statement were operating effectively as at March 31, 2023, based on the internal control with reference to standalone financial statement criteria established by the Company considering the essential Component of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Piramal Enterprises Limited

Notes to the Standalone Financial Statements

For the year ended 31 March, 2023

(Currency : Rs in crores)

1A Company Information

Piramal Enterprises Limited ('the Company'), incorporated in India, is a public limited company, headquartered in Mumbai. On 26 July 2022, the Company received Certificate of Registration from the Reserve Bank of India (RBI) to carry on the business of Non-Banking Financial Institution - Systematically Important Non-Deposit taking. The Company is engaged in providing finance. Under the Scale Based Regulations of the RBI, the Company is classified as a NonBanking Finance Company - Middle Layer (NBFC-ML). The equity shares of the Company are listed on the National Stock Exchange of India Limited ("NSE") and the BSE Limited ("BSE") in India. The Company's registered office is at Piramal Ananta, Agastya Corporate Park, Opposite Fire Brigade, Kamani Junction, LBS Marg, Kurla (West), Mumbai - 400 070.

The Group provides comprehensive financing solutions to various companies. It provides both wholesale and retail funding opportunities across sectors. In real estate, the platform provides housing finance and other financing solutions across the entire capital stack ranging from early stage private equity, structured debt, senior secured debt, construction finance, and flexi lease rental discounting. The wholesale business in non-real estate sector includes separate verticals - Corporate Finance Group (CFG) and Emerging Corporate Lending (ECL). CFG provides customised funding solutions to companies across sectors such as infrastructure, renewable energy, roads, industrials, auto components etc. while ECL focuses on lending towards Small and Medium Enterprises (SMEs). The Group has also launched Distressed Asset Investing platform that invests in equity and/or debt in assets across sectors (other than real estate) to drive restructuring with active participation in turnaround. The Group also has strategic alliances with top global funds such as APG Asset Management, Bain Capital Credit, CPPIB Credit Investment Inc. and Ivanhoé Cambridge (CDPQ). The Group has equity investments in Shriram Group, a leading financial conglomerate in India.

1B Basis of Preparation

Compliance with Ind AS

The standalone financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 ("the Act") read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, and other relevant provisions of the Act, the Master Direction - Non-Banking Financial Company - Systemically Important Non-Deposit taking Company and Deposit taking Company (Reserve Bank) Directions, 2016 ('the NBFC Master Directions'), notification for Implementation of Indian Accounting Standards issued by RBI vide circular RBI/2019-20/170 DOR(NBFC).CC.PD. No.109/22.10.106/2019-20 dated 13 March 2020 ('RBI notification for Implementation of Ind AS') and other applicable RBI circulars/notifications.

The Balance Sheet, the Statement of Profit and Loss and the Statement of Changes in Equity are prepared and presented in the format prescribed in the Division III of Schedule III to the Companies Act, 2013 (the "Act"). The Statement of Cash Flows has been prepared and presented as per the requirements of Ind AS 7 "Statement of Cash Flows". The Balance Sheet, Statement of Profit and Loss, Statement of Cash Flow, Statement of Changes in Equity, summary of the significant accounting policies and other explanatory information are together referred as the financial statements of the Company.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to the existing accounting standard requires a change in the accounting policy hitherto in use.

Until the financial year ended 31 March 2022, the Company used to prepare and present financial statements as per the format prescribed in Division II of Schedule III to Companies Act, 2013. On 26 July 2022, the holding company has received Certificate of Registration to carry on the business of Non-Banking Financial Institution. Hence, the Company is required to prepare and present financial statements as per the format prescribed in Division III of Schedule III to Companies Act, 2013. The format and figures in the statement of profit and loss and balance sheet of the previous period in the financial statements have been accordingly restated and reclassified to conform to the new format.

The Company commenced its NBFC business on 18 August 2022

The standalone financial statements are presented in Indian Rupee (₹), which is also the functional currency of the Company, in denomination of crore with rounding off to two decimals as permitted by Schedule III to the Act.

Historical Cost convention

The standalone financial statements have been prepared on the historical cost basis except for certain financial instruments and plan assets of defined benefit plans, which are measured at fair value. The financial statements are prepared on a going concern basis as the Management is satisfied that the Company shall be able to continue its business for the foreseeable future and no material uncertainty exists that may cast significant doubt on the going concern assumption.

2 SIGNIFICANT ACCOUNTING POLICIES

i. Revenue recognition

Interest Income

Interest income is recognised in Statement of profit and loss using the effective interest method for all financial instruments measured at amortised cost, debt instruments measured at FVOCI and debt instruments designated at FVTPL. The 'effective interest rate' is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument. The calculation of the effective interest rate includes transaction costs and fees that are an integral part of the contract. Transaction costs include incremental costs that are directly attributable to the acquisition of financial asset.

If expectations regarding the cash flows on the financial asset are revised for reasons other than credit risk, the adjustment is recorded as a positive or negative adjustment to the carrying amount of the asset in the balance sheet with an increase or reduction in interest income. The adjustment is subsequently amortised through interest income in the Statement of profit and loss.

The Company calculates interest income by applying the EIR to the gross carrying amount of financial assets other than credit-impaired assets.

When a financial asset becomes credit-impaired, the Company calculates interest income by applying the effective interest rate to the net amortised cost of the financial asset. If the default is cured and the financial asset is no longer credit-impaired, the Company reverts to calculating interest income on a gross basis. Penal / Default interest income is booked on receipt basis.

Fee and commission income

Fee based income are recognised when they become measurable and when it is probable to expect their ultimate collection. Commission and brokerage income earned for the services rendered are recognised as and when they are due. Loan processing fees income is accounted for on effective interest basis except for processing fees income collected from the customers which approximates to the corresponding file cost incurred. Arranger fees income is accounted for on accrual basis.

Piramal Enterprises Limited

Notes to the Standalone Financial Statements

For the year ended 31 March, 2023

(Currency : Rs in crores)

Dividend Income

Dividend income from investments is recognised when the Company's right to receive payment has been established (provided that it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably).

Net gain on fair value changes

The Company designates certain financial assets for subsequent measurement at fair value through profit or loss (FVTPL) or fair value through other comprehensive income (FVOCI) as per the criteria in Ind AS 109. The Company recognises gains on fair value change of financial assets measured at FVTPL and realised gains on derecognition of financial asset measured at FVTPL and FVOCI on net basis.

Other Operating revenue

The Items of financial instruments acquired in exchange for a non-monetary asset or assets, or a combination of monetary and non-monetary assets, are measured at fair value unless (a) the exchange transaction lacks commercial substance or (b) the fair value of neither the asset received nor the asset given up is reliably measurable. If the Company is able to measure reliably the fair value of either the asset received or the asset given up, then the fair value of the asset given up is used to measure the cost of the asset received unless the fair value of the asset received is more clearly evident. The difference between the fair value of the financial instrument acquired and the carrying amount of the asset given up is recognised in statement of profit and loss.

Sale of goods

Revenue from the sale of goods is recognised when the Company transfers Control of the product. Control of the product transfers upon shipment of the product to the customer or when the product is made available to the customer, provided transfer of title to the customer occurs and the Company has not retained any significant risks of ownership or future obligations with respect to the product shipped. Amounts disclosed as revenue are net off returns, trade allowances, rebates and indirect taxes.

Sale of Services

In contracts involving the rendering of services/development contracts, revenue is recognised at the point in time in which services are rendered. In case of fixed price contracts, the customer pays a fixed amount based on the payment schedule. If the services rendered by the Company exceed the payment, a Contract asset (Unbilled Revenue) is recognised. If the payments exceed the services rendered, a contract liability (Deferred Revenue) is recognised. If the contracts involve time-based billing, revenue is recognised in the amount to which the Company has a right to invoice.

ii. Financial instruments

Initial Recognition

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments. Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Investments and Other Financial Assets Classification

Investments and Other Financial Assets Classification

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

Subsequent Measurement

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income. The Company reclassifies debt investments when and only when its business model for managing those assets changes.

Debt instruments

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the group classifies its debt instruments:

Amortised cost

Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at amortised cost and is not part of a hedging relationship is recognised in profit or loss when the asset is derecognised or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method. Subsequently, these are measured at amortised cost using the Effective Interest Method less any impairment losses.

Fair value through other comprehensive income (FVTOCI)

Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVTOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in the statement of profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to the statement of profit or loss and recognised in other gains/ (losses). Interest income from these financial assets is included in other income using the effective interest rate method.

Fair value through profit or loss (FVTPL)

Assets that do not meet the criteria for amortised cost or FVTOCI are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognised in the statement of profit and loss and presented net in the statement of profit and loss within other gains/(losses) in the period in which it arises. Interest income from these financial assets is included in other income.

Piramal Enterprises Limited

Notes to the Standalone Financial Statements

For the year ended 31 March, 2023

(Currency : Rs in crores)

Equity instruments

The Company subsequently measures all equity investments at fair value. Where, in case of long term investments, the Company's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification on derecognition of fair value gains and losses to the statement of profit and loss. Dividends from such investments are recognised in the statement of profit and loss when the Company's right to receive payments is established. Changes in the fair value of financial assets at fair value through profit or loss are recognised in the statement of profit and loss.

The Company transfers amounts from FVTOCI reserve to retained earnings when the relevant equity securities are derecognised.

Reclassification of financial assets and liabilities:

After initial recognition of financial assets and liabilities, no re-classification is made except for financial assets where there is a change in the business model for managing those assets. The Company's management determines change in the business model as a result of external or internal changes which are significant to the Company's operations. Such changes are evident to external parties. If the Company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Company does not restate any previously recognized gains, losses (including impairment gains or losses) or interest.

iii. Impairment of financial assets

The Company applies the expected credit loss model for recognising impairment loss on financial assets measured at amortised cost, loan commitments, trade receivables and other contractual rights to receive cash or other financial asset. For trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 115, the Company always measures the loss allowance at an amount equal to lifetime expected credit losses.

Further, for the purpose of measuring lifetime expected credit loss ("ECL") allowance for trade receivables, the Company has used a practical expedient as permitted under Ind AS 109. This expected credit loss allowance is computed based on a provision matrix which takes into account historical credit loss experience and adjusted for forward-looking information."

In case of other than trade receivables, the expected credit loss is a product of exposure at default, probability of default and loss given default. The Company has devised an internal model to evaluate the probability of default and loss given default based on the parameters set out in Ind AS 109. Accordingly, the financial instruments are classified into Stage 1 – Standard Assets with zero to thirty days past due (DPD), Stage 2 – Significant Credit Deterioration or overdue between 31 to 90 days and Stage 3 – Default Assets with overdue for more than 90 days.

The Company also takes into account the below qualitative parameters in determining the increase in credit risk for the financial assets:

1. Significant negative deviation in the business plan of the borrower
2. Internal rating downgrade for the borrower or the project
3. Current and expected financial performance of the borrower
4. Need for refinance of loan due to change in cash flow of the project
5. Significant decrease in the value of collateral
6. Change in market conditions and industry trends

For recognition of impairment loss on other financial assets and risk exposure (including off Balance Sheet Commitments), the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

Default Assets wherein the management does not expect any realistic prospect of recovery are written off to the Statement of Profit and Loss.

Derecognition of financial assets

A financial asset is derecognised only when:

- The Company has transferred the rights to receive cash flows from the financial asset or
- Retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Securitization and direct assignment

The Company transfers loans through securitisation and direct assignment transactions. The transferred loans are de-recognised and gains/losses are accounted for, only if the Company transfers substantially all risks and rewards specified in the underlying assigned loan contract.

iv. Investments in subsidiaries, associates, joint operations and joint ventures Subsidiaries

Subsidiaries are all entities (including structured entities) over which the group has control. The Company controls an entity when the Company is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity.

Associates:

An associate is an entity over which the Company has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

Piramal Enterprises Limited

Notes to the Standalone Financial Statements

For the year ended 31 March, 2023

(Currency : Rs in crores)

Joint Arrangements:

Under Ind AS 111 Joint Arrangements, investments in joint arrangements are classified as either joint operations or joint ventures. The classification depends on the contractual rights and obligations of each investor, rather than the legal structure of the joint arrangement. The Company has only joint ventures.

A joint operation is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the assets and obligations for the liabilities relating to the arrangement.

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement.

The Company recognises its direct right to the assets, liabilities, revenues and expenses of joint operations and its share of any jointly held or incurred assets, liabilities, revenues and expenses. These have been incorporated in the financial statements under the appropriate headings, if any.

Investments in subsidiaries, associate and joint ventures :

Investments in subsidiaries, associate and joint ventures are measured at cost less accumulated impairment, if any.

v. Property, Plant and Equipment

All items of Property Plant & Equipment (other than freehold land) are stated at cost of acquisition, less accumulated depreciation and accumulated impairment losses, if any. Freehold Land is carried at historical cost. Direct costs are capitalised until the assets are ready for use and includes freight, duties, taxes and expenses incidental to acquisition and installation. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to the statement of profit and loss during the reporting period in which they are incurred. Subsequent expenditures related to an item of Property Plant & Equipment are added to its carrying value only when it is probable that the future economic benefits from the asset will flow to the Company and cost can be reliably measured. Losses arising from the retirement of, and gains or losses arising from disposal of Property, Plant and Equipment are recognised in the Statement of Profit and Loss.

Depreciation is provided on a pro rata basis on the straight line method ('SLM') over the estimated useful lives of the assets specified in Schedule II of the Companies Act, 2013 / on the basis of technical evaluation, which are as follows:

Asset Class	Useful life
Office Equipment	3 years - 15 years
Furniture & Fixtures	3 years - 15 years
Buildings	10 years - 60 years
Roads	10 years
Plant & Equipment	3 years - 20 years
Continuous Process Plant	25 years
Motor Vehicles	8 years
Helicopter	20 years
Ships	13 years

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

vi. Intangible Assets

Intangible assets are stated at acquisition cost, net of accumulated amortisation and accumulated impairment losses, if any. Gains or losses arising from the retirement or disposal of an intangible asset are determined as the difference between the disposal proceeds and the carrying amount of the asset and are recognised as income or expense in the Statement of Profit and Loss.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

Asset Class	Useful life
Brands and Trademarks	10 - 15 years
Computer Software	3 - 6 years

vii. Investment property

Investment property is property held either to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business, use in the production or supply of goods or services or for administrative purposes. Upon initial recognition, an investment property is measured at cost. Cost of an investment property comprises its purchase price and any directly attributable expenditure. Subsequent to initial recognition, investment property is measured at cost less accumulated depreciation and accumulated impairment losses, if any. An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss on disposal of an investment property is recognised in profit or loss.

viii. Impairment of Assets

The Company assesses at each Balance Sheet date whether there is any indication that an asset may be impaired. For the purposes of assessing impairment, the smallest identifiable group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or group of assets, is considered as a cash generating unit. If any such indication exists, the Company estimates the recoverable amount of the asset.

The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognised in the Statement of Profit and Loss. If at the Balance Sheet date there is an indication that a previously assessed impairment loss no longer exists or may have decreased, the recoverable amount is reassessed and the asset is reflected at the recoverable amount.

ix. Retail lending:

The Company uses ECL allowance for financial assets measured at amortised cost, which are not individually significant, and comprise of a large number of homogeneous loans that have similar characteristics. The expected credit loss is a product of exposure at default, probability of default and loss given default. Due to lack of 5-year internal PD/LGD data, the Company uses external PD/LGD data from credit bureau agency (TransUnion for Mar-22) for potential credit losses. Further, the estimates from the above sources have been adjusted with forward looking inputs from anticipated change in future macro-economic conditions to comply with IndAS 109. The forward looking macro-economic conditions based adjustment is driven through a multi linear regression model which forecasts systemic gross non-performing assets under baseline future economic scenarios.

Foreign exchange gains and losses

The fair value of financial assets denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of each reporting period. For foreign currency denominated financial assets measured at amortised cost and FVTPL, the exchange differences are recognised in profit or loss except for those which are designated as hedging instruments in a hedging relationship.

Piramal Enterprises Limited

Notes to the Standalone Financial Statements

For the year ended 31 March, 2023

(Currency : Rs in crores)

xi. Assets held for sale

Assets held for sale are measured at the lower of carrying amount or fair value less costs to sell. The determination of fair value less costs to sell includes use of management estimates and assumptions. The fair value of the assets held for sale has been estimated using valuation techniques (including income and market approach) which includes unobservable inputs. Non-current assets and Disposal Group that ceases to be classified as held for sale shall be measured at the lower of carrying amount before the non-current asset and Disposal Group was classified as held for sale and its recoverable amount at the date of the subsequent decision not to sell.

xii. Financial liabilities and equity instruments

Classification as debt or equity

Debt and equity instruments issued by a Company entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity Instrument

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued are recognised at the proceeds received, net of direct issue costs.

Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at FVTPL.

Financial liabilities are classified as at FVTPL when the financial liability is either contingent consideration recognised by the Company as an acquirer in a business combination to which Ind AS 103 applies or is held for trading or it is designated as at FVTPL.

Financial liabilities that are not held-for-trading and are not designated as at FVTPL are measured at amortised cost. The carrying amounts of financial liabilities that are subsequently measured at amortised cost are determined based on the effective interest method.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the amortised cost of a financial liability.

Derecognition of financial assets

Loans and investments debt instruments are written off when the Company has no reasonable expectations of recovering the financial asset (either in its entirety or a portion of it). This is the case when the Company determines that the borrower does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. A write-off constitutes a derecognition event. The Company may apply enforcement activities to financial assets written off/ may assign / sell loan exposure to ARC / Bank / a financial institution for a negotiated consideration. Recoveries resulting from the Company's enforcement activities could result in impairment gains. The Company has a Board approved policy on Write off and one time settlement of loans.

Foreign exchange gains and losses

For financial liabilities that are denominated in a foreign currency and are measured at amortised cost at the end of each reporting period, the foreign exchange gains and losses are determined based on the amortised cost of the instruments

Financial Guarantee Contracts

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due in accordance with the terms of a debt instrument.

Financial guarantee contracts issued by a Company are initially measured at their fair values and, if not designated as at FVTPL, are subsequently measured at the higher of:

- the amount of loss allowance determined in accordance with impairment requirements of Ind AS 109 - Financial Instruments; and
- the amount initially recognised less, when appropriate, the cumulative amount of income recognised in accordance with the principles of Ind AS 115 - Revenue from Contracts with Customers.

Derecognition of financial liabilities

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired. An exchange between with a lender of debt instruments with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability.

Derivatives and hedging activities

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured to their fair value at the end of each reporting period.

The accounting for subsequent changes in fair value depends on whether the derivative is designated as a hedging instrument, and if so, the nature of the item being hedged and the type of hedge relationship designated.

The full fair value of a hedging derivative is classified as a non-current asset or liability when the remaining maturity of the hedged item is more than 12 months; it is classified as a current asset or liability when the remaining maturity of the hedged item is less than 12 months.

Embedded derivatives

Derivatives embedded in a host contract that is an asset within the scope of Ind AS 109 are not separated. Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest. Derivatives embedded in all other host contract are separated only if the economic characteristics and risks of the embedded derivative are not closely related to the economic characteristics and risks of the host and are measured at fair value through profit or loss. Embedded derivatives closely related to the host contracts are not separated.

Offsetting Financial Instruments

Financial Assets and Liabilities are offset and the net amount is reflected in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle the liability simultaneously.

The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or counterparty.

Piramal Enterprises Limited

Notes to the Standalone Financial Statements

For the year ended 31 March, 2023

(Currency : Rs in crores)

xiii. Trade Receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment.

xiv. Inventories

Inventories comprise of Raw and Packing Materials, Work-in-Progress, Finished Goods (Manufactured and Traded) and Stores and Spares. Inventories are valued at the lower of cost and the net realisable value after providing for obsolescence and other losses, where considered necessary. Cost is determined on Weighted Average basis. Cost includes all charges in bringing the goods to their present location and condition, including octroi and other levies, transit insurance and receiving charges. The cost of Work-in-progress and Finished Goods comprises of materials, direct labour, other direct costs and related production overheads and Excise duty as applicable. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

xv. Employee Benefits

(i) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

(ii) Other long-term employee benefit obligations

The liabilities for earned leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in profit or loss. The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur. Long-Term Service Awards are recognised as a liability at the present value of the defined benefit obligation as at the balance sheet date.

(iii) Post-employment obligations

The Company operates the following postemployment schemes:

- Defined Contribution plans such as provident fund, superannuation, pension, employee state insurance scheme
- Defined Benefit plans such as provident fund and Gratuity

In case of Provident fund, contributions are made to a Trust administered by the Company, except in case of certain employees, where the Contributions are made to the Regional Provident Fund Office.

Defined Contribution Plans

The Company's contribution to provident fund (in case of contributions to the Regional Provident Fund office), pension and employee state insurance scheme are considered as defined contribution plans, as the Company does not carry any further obligations apart from the contributions made on a monthly basis and are charged as an expense based on the amount of contribution required to be made.

Defined Benefit Plan

The liability or asset recognised in the balance sheet in respect of defined benefit provident and gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation denominated in INR is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

Remeasurement gains and losses arising from experience adjustments, changes in actuarial assumptions and return on plan assets (excluding interest income) are recognised in the period in which they occur, directly in other comprehensive income.

They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

xvi. Provisions and Contingent Liabilities

Provisions are recognised when there is a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a reliable estimate of the amount of the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material). The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

xvii. Foreign Currency Transactions

In preparing the financial statements of the Company, transactions in currencies other than the Company's functional currency viz. Indian Rupee are recognised at the rates of exchange prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in the statement of profit and loss. Non-monetary items carried at fair value that are denominated in foreign currencies are translated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated. Exchange differences on monetary items are recognised in profit or loss in the period in which they arise.

Piramal Enterprises Limited

Notes to the Standalone Financial Statements

For the year ended 31 March, 2023

(Currency : Rs in crores)

xviii. Exceptional Items

When items of income and expense within profit or loss from ordinary activities are of such size, nature or incidence that their disclosure is relevant to explain the performance of the enterprise for the period, the nature and amount of such items is disclosed separately as Exceptional items.

xix. Leases

The Company's lease asset classes primarily consist of leases for land, buildings and IT assets. At the date of commencement of the lease, the Company recognises a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognises the lease payments as an operating expense on a straightline basis over the term of the lease. The right-of-use assets are initially recognised at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses. Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

The following is the summary of practical expedients elected on initial application effective April 1, 2019:

1. Applied a single discount rate to a portfolio of leases of similar assets in similar economic environment with a similar end date.
2. Applied the exemption not to recognise right-of-use assets and liabilities for leases with less than 12 months of lease term on the date of initial application.
3. Applied the practical expedient to grandfather the assessment of which transactions are leases

xx. Taxes on Income

Tax expense for the period, comprising current tax and deferred tax, are included in the determination of the net profit or loss for the period. Current tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income Tax Act, 1961.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the separate financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Current and deferred tax are recognised in the statement of profit and loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

xxi. Cash and Cash Equivalents

Cash and cash equivalents includes cash on hand, demand deposits with banks, other short-term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts.

xxii. Borrowing Costs

General and specific borrowing costs directly attributable to acquisition or construction of qualifying assets (i.e. those Property Plant & Equipments which necessarily take a substantial period of time to get ready for their intended use) are capitalised. Other borrowing costs are recognised as an expense in the period in which they are incurred.

xxiii. Segment Reporting

In accordance with Ind AS 108, Segment Reporting, the Chief Executive Officer and Managing Director is the Company's chief operating decision maker ("CODM"). The Company has identified only one reportable business segment as it deals mainly in provision of lending business.

xxiv. Dividends

The Company recognises a liability to make cash distributions to equity holders when the distribution is authorised and the distribution is no longer at the discretion of the Company. As per the Companies Act, 2013, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in other equity.

xxv. Earnings per share

Basic earnings per share

The basic earnings per share is computed by dividing the net profit attributable to the equity shareholders by weighted average number of equity shares outstanding during the reporting year.

Diluted earnings per share

Number of equity shares used in computing diluted earnings per share comprises the weighted average number of shares considered for deriving basic earnings per share and also weighted average number of equity shares which would have been issued on the conversion of all dilutive potential shares. In computing diluted earnings per share only potential equity shares that are dilutive are included.

Piramal Enterprises Limited

Notes to the Standalone Financial Statements

For the year ended 31 March, 2023

(Currency : Rs in crores)

xvii. Standards issued but not yet effective

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 31, 2023, MCA amended the Companies (Indian Accounting Standards) Rules, 2015 by issuing the Companies (Indian Accounting Standards) Amendment Rules, 2023, applicable from April 1, 2023, as below:

Ind AS 1 – Presentation of Financial Statements The amendments require companies to disclose their material accounting policies rather than their significant accounting policies. Accounting policy information, together with other information, is material when it can reasonably be expected to influence decisions of primary users of general purpose financial statements. The Company does not expect this amendment to have any significant impact in its financial statements.

Ind AS 12 – Income Taxes The amendments clarify how companies account for deferred tax on transactions such as leases and decommissioning obligations. The amendments narrowed the scope of the recognition exemption in paragraphs 15 and 24 of Ind AS 12 (recognition exemption) so that it no longer applies to transactions that, on initial recognition, give rise to equal taxable and deductible temporary differences. The Company is evaluating the impact, if any, in its financial statements.

Ind AS 8 – Accounting Policies, Changes in Accounting Estimates and Errors The amendments will help entities to distinguish between accounting policies and accounting estimates. The definition of a change in accounting estimates has been replaced with a definition of accounting estimates. Under the new definition, accounting estimates are "monetary amounts in financial statements that are subject to measurement uncertainty". Entities develop accounting estimates if accounting policies require items in financial statements to be measured in a way that involves measurement uncertainty. The Company does not expect this amendment to have any significant impact in its financial statements

2B CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTIES

The preparation of the financial statements in conformity with Ind AS requires the Management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) and the reported income and expenses during the year. The Management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Future results could differ due to these estimates and the differences between the actual results and the estimates are recognised in the periods in which the results are known/materialise.

i. Estimation of uncertainty relating to current macro economic scenario

In assessing the recoverability of loans, receivables, intangible assets and investments, the Company has considered internal and external sources of information, including credit reports, economic forecasts and industry reports up to the date of approval of these standalone financial statements. The Company has performed sensitivity analysis on the assumptions used and based on current indicators of future economic conditions, the carrying amount of these assets represent the Company's best estimate of the recoverable amounts. As a result of the uncertainties resulting from COVID-19, the impact of this pandemic may be different from those estimated as on the date of approval of these financial statements and the Company will continue to monitor any changes to the future economic conditions.

ii. Fair Valuation:

Certain financial assets of the Company are measured at fair value for financial reporting purposes. In estimating the fair value of an asset and liability, the Company uses market observable data to the extent it is available. When the fair value of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques. In such cases, the Company usually engages third party qualified external valuer to establish the appropriate valuation techniques and inputs to the valuation model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments. Information about the valuation techniques and inputs used in determining the fair value of various assets and liabilities are disclosed in Note 38.

iii. Expected Credit Loss Impairment and Net Loss arising on Derecognition of financial asset:

The measurement of impairment losses on loan assets and commitments, requires judgement, in estimating the amount and timing of future cash flows and recoverability of collateral values while determining the impairment losses and assessing a significant increase in credit risk.

When determining the provision for impairment loss on financial assets carried at amortised cost and Loan commitments, in line with Expected Credit Loss model, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort for determining the Probability of default (PD) and Loss Given default (LGD). The Company's Expected Credit Loss (ECL) calculation is the output of a complex model with a number of underlying assumptions regarding the choice of variable inputs and their interdependencies. Elements of the ECL model that are considered accounting judgements and estimates include both quantitative and qualitative information and analysis, based on the Company's historical experience and credit assessment and including forward-looking information. Key estimation uncertainties of ECL include:

- The Company's criteria for assessing if there has been a significant increase in credit risk
- The segmentation of financial assets when their ECL is assessed on a collective basis
- Development of ECL model, including the various formulae and the choice of inputs
- Selection of forward-looking macroeconomic scenarios and their probability weights, to derive the economic inputs into the ECL model
- Additional ECL provision (including management overlay) used in circumstances where management judges that the existing inputs, assumptions and model techniques do not capture all the risk factors relevant to the Company's lending portfolios.

The inputs used and process followed by the Company in determining the impairment loss in line with Expected Credit loss model have been detailed in Note 40.3. It has been the Company's policy to regularly review its model in the context of actual loss experience, macro economical factors and adjust when necessary.

iv. Impairment loss in Investments and investment property carried at cost:

The Company conducts impairment reviews of investments in subsidiaries/ associates/ joint arrangements and Investment property, whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable or tests for impairment annually. Determining whether an asset is impaired requires an estimation of the recoverable amount, which requires the Company to estimate the value in use which is based on future cash flows and a suitable discount rate in order to calculate the present value.

v. Income taxes and Deferred Tax Asset

The Company uses estimates and judgements based on the relevant rulings in the areas of allocation of revenue, costs, allowances and disallowances which is exercised while determining the provision for income tax. A deferred tax asset is recognised to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilised. Accordingly, the Company exercises its judgement to reassess the carrying amount of deferred tax assets at the end of each reporting period.

Piramal Enterprises Limited

Notes to the Standalone Financial Statements

For the year ended 31 March, 2023

(Currency : Rs in crores)

vi. Effective Interest Rate (EIR) Method

The Company recognises interest income / expense using a rate of return that represents the best estimate of a constant rate of return over the expected life of the loans given / taken. This estimation, by nature, requires an element of judgement regarding the expected behaviour and life-cycle of the instruments, as well as expected changes to other fee income/expense that are integral parts of the instrument.

vii. Going Concern

The financial statements of the Company are prepared on a going concern basis. Management is of the view that it is considered appropriate to prepare these financial statements on a going concern basis as the Company expects to generate sufficient cash flows from operating activities and unused lines of credit to meet its obligations in the foreseeable future.

viii. Demerger of Pharma undertaking

All assets and liabilities pertaining to demerged Pharma undertaking have been classified as non-cash assets held for transfer to Piramal Pharma Limited / shareholders as on 1st April 2022 being the appointed date. The difference between book values of the assets and liabilities transferred is recognised as gains in Profit and loss account as per the requirements of Appendix A to Ind AS 10. At the date of approval of the Scheme, the Company remeasured the liability to distribute non-cash assets as a dividend to its owners at the fair value of the assets to be distributed. The corresponding aggregate charge was recognised in retained earnings (reserve).

The nature of the gain (including remeasurement gain) being non-recurring in nature was classified as exceptional item by the Company.

As per the requirements of Ind AS 105, the income and expense pertaining to Pharma business in the previous comparable periods were presented in a separate line item – discontinued operations.

ix. Non-current assets held for sale and discontinued operations

Non-current assets (including disposal groups) are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable.

Non-current assets classified as held for sale are measured at lower of their carrying amount and fair value less cost to sell. Non-current assets classified as held for sale are not depreciated or amortised from the date when they are classified as held for sale.

Non-current assets classified as held for sale and the assets and liabilities of a disposal group classified as held for sale are presented separately from the other assets and liabilities in the Standalone Balance Sheet.

A discontinued operation is a component of the entity that has been disposed off or is classified as held for sale and:

- represents a separate major line of business or geographical area of operations and;
- is part of a single co-ordinated plan to dispose of such a line of business or area of operations.

The results of discontinued operations are presented separately in the Statement of Profit and Loss.

The presentation and disclosures relating to the statement of profit and loss pertaining to discontinued operations by the end of the current period are re-presented in the financial statements. There is no reclassification or re-presentation of amounts presented for non-current assets or for the assets and liabilities of disposal groups classified as held for sale in the balance sheets for prior periods to reflect the classification in the balance sheet for the latest period presented.

x. Business Combination under Common Control

Business combinations arising from transfers of interests in entities that are under the common control are accounted at historical costs. The difference between any consideration given and the aggregate historical carrying amount of assets and liabilities of the acquired entity are recorded in shareholders' equity.

In case of bargain purchase, before recognising gain in respect thereof, the Company determines whether there exists clear evidence of the underlying reasons for classifying the business combination as a bargain purchase. Thereafter, the Company reassesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and recognizes any additional assets or liabilities that are identified in that reassessment. The Company then reviews the procedures used to measure the amount that Ind AS requires for the purposes of calculating the bargain purchase. If the gain remains after this reassessment and review, the Group recognises it in other comprehensive income and accumulates the same in equity as capital reserve. This gain is attributed to the acquirer. If there does not exist clear evidence of the underlying reasons for classifying the business combination as a bargain purchase, the Company recognises the gain, after reassessing and reviewing, directly in equity as capital reserve.

The Company presents a third balance sheet as at the beginning of the preceding period in addition to the minimum comparative financial statements, if it applies accounting policies retrospectively, makes retrospective restatement of items in its financial statements or reclassifies items in its financial statements and the same has material impact on the third balance sheet.

xi. Share based Payment

The Company recognises compensation expense relating to share based payments in accordance with Ind AS 102 Share-based Payment. Stock options granted by the Company to its employees are accounted as equity settled options. Accordingly, the estimated fair value of options granted that is determined on the date of grant, is charged to statement of Profit and Loss on a straight line basis over the vesting period of options which is the requisite service period, with a corresponding increase in equity.

4 TRADE RECEIVABLES

	As at 31 March, 2023	As at 31 March, 2022 (Restated)
(a) Secured - Considered Good	-	0.09
(b) Unsecured - Considered Good	-	146.08
Less: Expected Credit Loss on (b)	-	(0.40)
	-	145.77
(c) Unsecured - Considered Doubtful	-	10.45
Less: Expected Credit Loss on (c)	-	(10.45)
	-	-
TOTAL	-	145.77

For previous year

a) The credit period on sale of goods generally ranged from 7 to 150 days

b) The Company has a documented Credit Risk Management Policy for its Pharmaceuticals Manufacturing and Services business. For every new customer (except established large pharma companies), Company performs a credit rating check using an external credit agency. If a customer clears the credit rating check, the credit limit for that customer is derived using internally documented scoring systems. The credit limits for all the customers are reviewed on an ongoing basis.

Of the Trade Receivables balance as at March 31, 2023 of Rs. Nil (as at March 31, 2022 of 156.62 Crores), the top 3 customers of the Company represent the balance of Rs. Nil as at March 31, 2023 (as at March 31, 2022 - 57.91 Crores). as at March 31, 2022 there were five customers who represent more than 5% of total balance of Trade Receivables.

The Company has used a practical expedient by computing the expected credit loss allowance for External Trade Receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience, adjusted for forward looking information including the likelihood of increased credit risk considering emerging situations due to COVID-19 based on external sources of information. The expected credit loss allowance is based on the ageing of the days the receivables are due and the rates as given in the provision matrix. The provision matrix at the end of the reporting period is as follows:

Ageing of Trade receivable as at 31 March, 2022

Statutory reserve fund (refer note 20.7)	709.95	225.68
Employee stock options reserve (refer note 20.8)	0.02	-
Retained earnings (refer note 20.9)	3,491.65	3,680.91
Total other equity	23,986.73	24,037.79

20.1 Capital Reserve

Opening balance	2,747.13	2,826.50
Addition/reduction during the year	-	(79.37)
Closing balance	2,747.13	2,747.13

This reserve is outcome of business combinations carried out during the current year and previous years

20.2 Security premium

Opening balance	11,427.97	9,703.57
Add: Issue and conversion of Compulsorily Convertible Debentures -Equity Component	-	1,525.03
Add: Rights Issue of Equity shares	-	199.37
Closing balance	11,427.97	11,427.97

Security premium is used to record the premium received on issue of shares. It can be utilised in accordance with the provisions of the Companies Act, 2013.

20.3 Capital Redemption Reserve

Opening balance	61.73	61.73
Addition during the year	-	-
Closing balance	61.73	61.73

This reserve was created as per requirements of Companies Act pursuant to buyback of equity shares and redemption of preference shares.

20.4 Debenture Redemption Reserve

Opening balance	2.00	4.16
Transfer during the year	(2.00)	(2.16)
Closing balance	-	2.00

The Debenture redemption reserve is created as per the requirements of Rule18(7) of the Companies (Share Capital and Debentures) Rules, 2014.

20.5 General reserve

Opening balance	5,798.55	5,798.55
Addition / (reduction) during the year	-	-
Closing balance	5,798.55	5,798.55

The general reserve is used from time to time to transfer profits from retained earnings for appropriation purposes. As the general reserve is created by transfer from one component of equity to another and is not an item of other comprehensive income, items included in general reserve will not be reclassified subsequently to profit or loss.

20.6 FVTOCI - Equity & Debt Instruments

Opening balance	93.82	65.51
Addition during the year	144.20	28.31
Transfer to Retained Earnings	(488.29)	-
Closing balance	(250.27)	93.82

The Company has elected to recognise changes in the fair value of certain investments in equity securities in Other Comprehensive Income. These changes are accumulated within the FVTOCI equity investments reserve within equity. The Company transfers amounts from this reserve to retained earnings when the relevant equity securities are derecognised.

Piramal Enterprises Limited

Notes to the standalone financial statements (Continued)

as at 31 March, 2023

(Currency : Rs in crores)

	As at 31 March, 2023	As at 31 March, 2022 (Restated)

from continuing operations	(112.77)	213.03
from discontinuing operations	-	4.03

b. The income tax expense for the year can be reconciled to the accounting profit as follows:

	Year ended 31 March, 2023	Year ended 31 March, 2022	Effective tax rate reconciliation	
			Year ended 31 March, 2023	Year ended 31 March, 2022
Profit before tax*	2,000.68	1,224.94		
Income tax expense calculated at 25.17% (Previous year at 25.17%)	503.57	308.32	25.17%	25.17%
<u>Tax effect of disallowance:</u>				
Effect of expenses that are not deductible in determining taxable profit	13.24	7.45	0.66%	0.61%
Effect of deduction in tax for interest on Compulsorily Convertible Debentures	-	(7.99)	0.00%	-0.65%
Effect of capital gains on sale of investments in shares of subsidiaries	(660.02)	(6.00)	-32.99%	-0.49%
Effect of deduction from dividend income	-	(96.06)		(7.84)%
Effect of EIR and unamortised expenses	23.68	0.86	1.18%	0.07%
Effect of ETR	-	-	0.00%	0.00%
Others	6.76	10.47	0.34%	0.85%
Income tax expense recognised in profit or loss	(112.77)	217.06	-5.64%	17.72%
Effective tax rate	-5.64%	17.72%		

*Including exceptional item of Rs. 397.83 Crores in FY 23 and Including Discounting operations in FY 22

The tax rate used for the reconciliations above is the corporate tax rate of 25.17% for the year 2022-23 and 2021-22

In assessing the realizability of deferred tax assets, the Company considers the extent to which it is probable that the deferred tax asset will be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable profits during the periods in which those temporary differences and tax loss carry-forwards become deductible. The Company considers the expected reversal of deferred tax liabilities, projected future taxable income and tax planning strategies in making this assessment. Based on this, the Company believes that it is probable that the Company will realize the benefits of these deductible differences. The amount of deferred tax asset considered realizable, however, could be reduced in the near term if the estimates of future taxable income during the carry-forward period are reduced.

32 (a) Contingent liabilities and Commitments

Particulars	31 March, 2023	31 March, 2022
A. Contingent Liabilities :		
1. Claim against the Company not acknowledged as debt		
Vide Demand dated June 5, 1984, the Government has asked for payment to the credit of the Drugs Prices Equalisation Account, the difference between the common sale price and the retention price on production of Vitamin 'A' Palmitate (Oily Form) from January 28, 1981 to March 31, 1985 which is not accepted by the Company. The Company has been legally advised that the demand is untenable.	Nil	0.61
2. Others		
i. Appeal filed in respect of disputed demands		
Income Tax		
-where the Company is in appeal	324.20	333.86
-where the department is in appeal	321.05	369.29
Sales Tax	9.73	14.86
Central / State Exercise / Service Tax / Customs	54.93	62.11
Stamp Duty	9.37	9.37
Legal Case	3.23	3.88
B. Commitments		
(a) Estimated amount of contracts remaining to be executed on capital account and not provided for	207.01	0.30
(b) The Company has imported raw materials at concessional rates, under the Advance License Scheme of the Government of India, to fulfil conditions related to quantified exports in stipulated period	Nil	1.14
(c) Undisbursed loan commitments	1,055.15	410.61

The Company has a process whereby periodically all long term contracts are assessed for material foreseeable losses. At year end the Company has reviewed and ensured that adequate provision as required under any law / accounting standards for material foreseeable losses on such long term contracts has been made in the books of accounts.

The Company has also reviewed all its pending litigations and proceedings and has adequately provided for where provisions are required and disclosed the contingent liabilities where applicable, in its financial statements. The Company does not expect the outcome of these proceedings to have a materially adverse effect on its financial results.

33 Segment reporting

In accordance with Ind AS 108 'Operating Segments', segment information has been given in the consolidated financial statements of the Company, which are presented in the same Annual Report and therefore, no separate disclosure on segment information is given in these financial statements.

Piramal Enterprises Limited

Notes to the standalone financial statements (Continued)

For the year ended 31 March, 2023

(Currency : Rs in crores)

34 Investment Property

Investment property, recorded at a carrying value of Rs. 1,335.31 crores, consists of land development rights, without any restriction on its realisability and is being held for capital appreciation and eventual monetization by exploring various options.

In accordance with Ind AS 113, the fair value of investment property is determined by the Company at Rs. 1,471 crores (Previous Year: Rs. 1,734 crores) following the risk-adjusted discounted cash flow method and based on Level 3 inputs from an independent valuation expert, as defined under rule 2 of Companies (Registered Valuers and Valuation) Rules, 2017. The fair valuation is based on current real estate prices in the active market for similar properties. The main inputs used are area, location, construction cost, demand, weighted-average cost of capital and trend of real estate market at the location.

35 Lease disclosure as Lessee

The Company has office premises on lease basis. The lease period range from 3 years to 5 years. Details for the lease as lessee are as under:

J. Other details

Particulars	Gratuity	
	As at March 31, 2023	As at March 31, 2022
No of active members	174	411
Per month salary for active members	3.27	3.61
Average expected future service (years)	6.00	7.00
Projected benefit obligation (PBO)	18.67	26.93
Prescribed contribution for next year (12 months)	3.27	3.61

K. Cash flow projection: from the fund

Projected benefits payable in future years from the date of reporting	Gratuity Estimated for the year ended March 31,	
	2023	2022
1st Following Year	13.23	13.97
2nd Following Year	0.67	3.58
3rd Following Year	0.46	1.81
4th Following Year	0.66	0.98
5th Following Year	0.64	1.04
Sum of Years 6 to 10	2.67	5.26

L. Sensitivity analysis

Projected benefits payable in future years from the date of reporting	Gratuity	
	As at March 31, 2023	As at March 31, 2022
Delta effect of +1% change in rate of discounting	(0.37)	(0.69)
Delta effect of -1% change in rate of discounting	0.42	(1.57)
Delta effect of +1% change in rate of salary increase	0.42	0.41
Delta effect of -1% change in rate of salary increase	(0.38)	(0.70)
Delta effect of +1% change in rate of employee turnover	0.01	(0.02)
Delta effect of -1% change in rate of employee turnover	(0.02)	0.02

Notes:

Gratuity is payable as per company' scheme as detailed in the report.

Actuarial gains/losses are recognized in the period of occurrence under Other Comprehensive Income (OCI). All above reported figures of OCI are gross of taxation.

Salary escalation and attrition rate are considered as advised by the company; they appear to be in line with the industry practice considering promotion and demand and supply of the employees.

Cash flow projection is done considering future salary, attrition and death in respective year for members as mentioned above.

These plans typically expose the Company to actuarial risks such as: investment risk, interest rate risk, longevity risk and salary risk.

Investment risk

The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds. Plan investment is a mix of investments in government securities, and other debt instruments.

Interest risk

A decrease in the bond interest rate will increase the plan liability; however, this will be partially offset by an increase in the return on the plan's debt investments.

Longevity risk

The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

Salary risk

The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

For the year ended 31 March, 2023

(Currency : Rs in crores)

38 Fair Value Disclosures (Continued)

Notes:

- i. The fair value of the preference shares has been calculated by using discounted cash flow method.
- ii. This includes listed instruments which are fair valued using quoted prices or closing NAV in the market.
- iii. Investments in Alternative Investment Funds and Security Receipts is valued basis the net asset value received from the fund house.
- iv. Discounted cash flow method basis contractual cash flow has been used to determine the fair value. The discounting factor used has been arrived at after adjusting the rate of interest for the financial assets by the difference in the Government Securities rates from date of initial recognition to the reporting dates. Credit risk adjustment has not been considered while arriving at the fair values.
- v. Fair values of borrowings are based on discounted cash flow using a current borrowing rate. They are classified as Level 3 values hierarchy due to the use of unobservable inputs, including own credit risk. The discounting factor used has been arrived at after adjusting the rate of interest for the financial liabilities by the difference in the Government Securities rates from date of initial recognition to the reporting dates.
- # The Company has not disclosed the fair value of cash and bank balances, other financial assets, trade payables and other financial liabilities, because their carrying amounts are a reasonable approximation of fair value.

Investments in subsidiaries and joint venture companies are measured at cost less provision for impairment, if any and therefore the above disclosure is not applicable for the same.

c) Fair value measurements using significant unobservable inputs (Level 3)

The following table presents the changes in Level 3 items for the year ended 31 March 2023 and 31 March, 2022.

Particulars	Investments in security receipts and AIF	Preference Shares	Debentures (NCD & OCD)	Loans - FVTPL	Total
As at April 1, 2021	1,631.08	105.00	554.60	680.67	2,971.35
Acquisitions	844.15	1.84	46.50	44.96	937.45
Transfer from / (to) Piramal Capital & Housing Finance Limited	-	-	-	368.51	368.51
Realisations	(785.53)	-	(55.26)	(746.92)	(1,587.71)
Income recognised in standalone statement of profit and loss	460.10	-	13.47	68.81	542.38
As at March 31, 2022	2,149.80	106.84	559.31	416.03	3,231.98
Acquisitions	634.33	4.17	5.25	-	643.75
Realisations	(116.46)	-	(515.68)	(310.03)	(942.17)
Income recognised in standalone statement of profit and loss	201.16	(0.01)	(0.00)	1.54	202.68
As at March 31, 2023	2,868.82	111.00	48.88	107.54	3,136.24

d) Valuation Process

The Company engages external valuation consultants to fair value below mentioned financial instruments measured at FVTPL. The main level 3 inputs used for preference shares and debentures are as follows:

For Non-convertible Debentures, Waterfall approach has been used to arrive at the yields for securities held by the Company. For determining the equity prices Monte Carlo simulations and local volatility model using the inputs like spot rate, volatility surface, term structures and risk free rates from globally accepted 3rd party vendor for these data have been used.

The current market borrowing rates of the Company are compared with relevant market matrices as at the reporting dates to arrive at the discounting rates

For determining the equity prices Monte Carlo simulations and local volatility model using the inputs like spot rate, volatility surface, term structures and risk free rates from globally accepted 3rd party vendor for these data have been used.

For Preference Shares and Optionally Convertible Debentures, considered the value as maximum of debt value or equity value as on valuation date. For computation of debt value, discounted cash flow method has been used. For computation of equity value, market approach - comparable company multiple approach, the price to earnings multiple of peer companies in particular has been used.

e) Sensitivity for FVTPL Instruments

Impact on the Company's profit before tax if discount rates had been 70 basis points (previous year 70 basis points) higher / lower and if equity had been 500 basis points (previous year 500 basis points) higher / lower is given below:

Method	Nature of Instrument	Significant unobservable inputs	Increase / Decrease in the unobservable input	Sensitivity Impact	
				Yield increase	Yield Decrease
Discounted Cash Flow Model as at March 31, 2023	Term Loan	Discount rate	0.7%	-	-
	Term Loan	Equity	5%	-	-
Discounted Cash Flow Model as at March 31, 2022	Term Loan	Discount rate	0.7%	(93)	124
	Term Loan	Equity	5%	-	-

Piramal Enterprises Limited

Notes to the standalone financial statements (Continued)

For the year ended 31 March, 2023

(Currency : Rs in crores)

39 Capital management

The Company's capital management strategy is to effectively determine, raise and deploy capital so as to create value for its shareholders. The same is done through a mix of either equity and/or combination of short term /long term debt as may be appropriate. The Company determines the amount of capital required on the basis of operations, capital expenditure and strategic investment plans. The capital structure is monitored on the basis of net debt to equity and maturity profile of overall debt portfolio.

The Company is subject to the capital adequacy requirements of the Reserve Bank of India (RBI). Under RBI's capital adequacy guidelines, the Company is required to maintain a capital adequacy ratio consisting of Tier I and Tier II Capital. Capital at any point of time, shall not exceed 100 percent of Tier I Capital. The minimum capital ratio as prescribed by RBI guidelines and applicable to the Company, consisting of Tier I and Tier II capital, shall not be less than 15% of its aggregate risk weighted assets on-balance sheet and of risk adjusted value of off-balance sheet.

The Company has complied with all regulatory requirements related capital and capital adequacy ratios as prescribed by RBI. Refer Note 54 for capital adequacy and related disclosures. Refer Note 20.9 for dividend paid and proposed by the Company.

40 Risk management

Risk Management is an integral part of the Company's business strategy. The Risk Management oversight structure includes Committees of the Board and Management Committees. Company's risk philosophy is to develop and maintain a healthy portfolio which is within its risk appetite and the regulatory framework. While the Company is exposed to various types of risks, the most important among them are liquidity risk, interest rate risk, credit risk, regulatory risk and fraud and operational risk. The measurement, monitoring and management of risks remain a key focus area for the Company.

The Audit Committee of the Board provides direction to and monitors the quality of the internal audit function and also monitors compliance with RBI and other regulators.

The Company's risk management strategy is based on a clear understanding of various risks, disciplined risk assessment and measurement procedures and continuous monitoring. The policies and procedures established for this purpose are continuously benchmarked with market best practices.

The Risk Management Committee of the Board ("RMC") reviews compliance with risk policies, monitors risk tolerance limits, reviews and analyse risk exposure and provides oversight of risk across the organization. The RMC nurtures a healthy and independent risk management function to inculcate a strong risk management culture in the Company and broadly perceives the risk arising from (i) credit risk, (ii) liquidity risk, (iii) interest rate risk and (iv) fraud risk and operational risk (v) regulatory risk

40.1 Liquidity risk

Liquidity Risk refers to insufficiency of funds to meet the financial obligations. Liquidity Risk Management implies maintenance of sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit lines to meet obligations when due.

The Company has formulated an Asset Liability Management Policy in line with RBI guidelines for Non-Banking Financial Company. The Asset Liability Management Committee (ALCO) is responsible for the management of the companies funding and liquidity requirements. The company manages liquidity risk by maintaining sufficient cash and marketable securities, unutilised banking facilities, credit lines and by continuously monitoring forecast and actual cash flows, and by assessing the maturity

The following tables detail the Company's remaining contractual maturity for its financial liabilities with agreed repayment periods. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay. The tables include both interest and principal cash flows. To the extent that interest flows are floating rate, the rate applicable as of March 31, 2023 and March 31, 2022 respectively has been considered. The contractual maturity is based on the earliest date on which the Company may be required to pay.

Maturities of financial liabilities	31 March, 2023			
	Up to 1 year	1 to 3 years	3 to 5 years	5 years and above
Debt securities	3,215.91	1,270.30	143.89	-
Borrowings (other than debt securities)	3,987.45	509.45	171.71	-

Piramal Enterprises Limited

Notes to the standalone financial statements (Continued)

For the year ended 31 March, 2023

(Currency : Rs in crores)

The following table details the Company's expected maturity for its non-derivative financial assets. The table has been drawn up based on the undiscounted contractual maturities of the financial assets including interest that will be earned on those assets. The inclusion of information on non-derivative financial assets is necessary in order to understand the Company's liquidity risk management as the liquidity is managed on a net asset and liability basis.

Maturities of financial assets	31 March, 2023			
	Up to 1 year	1 to 3 years	3 to 5 years	5 years and above
Investments	5,649.49	1,589.64	668.98	10,067.15

In previous year the Company used to present financials in division II format and after giving effect to restructuring previous year's figures has not been presented (refer note 42)

40.2 Interest rate risk and sensitivity analysis

The Company is exposed to interest rate risk as it has assets and liabilities based on both fixed and floating interest rates. The Company has an approved Asset and Liability Management Policy which empowers the Asset and Liability Management Committee (ALCO) to assess the interest rate risk run by it and provide appropriate guidelines to the Treasury to manage the risk. The ALCO reviews the interest rate risk on periodic basis and decides on the asset profile and the appropriate funding mix. The ALCO reviews the interest rate gap statement and the interest rate sensitivity analysis.

The sensitivity analysis below have been determined based on the exposure to interest rates for assets and liabilities at the end of the reporting period. For floating rate assets and liabilities, the analysis is prepared assuming the amount of the liability outstanding at the end of the reporting period was outstanding for the whole year and the rates are reset as per the applicable reset dates. The basis risk between various benchmarks used to reset the floating rate assets and liabilities has been considered to be insignificant.

The exposure of the Company's borrowings to the interest rate risk at the end of the year for variable rate borrowing is of carrying value Rs. 5,300.80 crores (March 31, 2022 405.98 crores) and fixed rate borrowings are Rs. 3,414.46 crores (March 31, 2022- Rs. 10,836.44 crores)

Impact on the Company's profit before tax if interest rates had been 100 basis points higher / lower is given below:

Sensitivity analysis on floating rate instruments	As At		As At	
	31 March, 2023	31 March, 2022	31 March, 2022	31 March, 2022
	Higher	Lower	Higher	Lower
Sensitivity analysis on floating rate debts securities, borrowings other than debt securities and deposits	(53.01)	53.01	(4.06)	4.06
Sensitivity analysis on floating rate assets	65.99	(65.99)	74.33	(74.33)

Piramal Enterprises Limited

Notes to the standalone financial statements (Continued)

For the year ended 31 March, 2023

(Currency : Rs in crores)

40.3 Credit risk

The Company is exposed to credit risk through its lending activity. Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the Company. The Company has adopted a policy of dealing with creditworthy counterparties and obtaining sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults.

The Company's Risk management team has developed proprietary internal risk rating models to evaluate the credit risk for the loans and investments made by the Company. The output of traditional credit rating model is an estimate of probability of default. The Company's proprietary risk rating models are different from the traditional credit rating models as they integrate both probability of default and loss given default into a single model.

The lending exposure includes lending to the below sectors:

Sectors	Exposure as at	
	31 March, 2023	31 March, 2022
Real estate	74.18%	65.25%
Infrastructure loans	1.28%	4.08%
Others	24.54%	30.67%

Credit risk management

Credit risk management is achieved by considering various factors like :

- Promoter strength – This is an assessment of the promoter from financial, management and performance perspective.
- Industry & micro-market risk – This is an assessment of the riskiness of the industry and/or micro-market to which the borrower/project belongs
- Project risk – This is an assessment of the standalone project from which interest servicing and principal repayment is expected to
- Structure risk – This is an assessment of the loan structure which is characterized by its repayment tenor, moratorium, covenants,
- Security cover – This is an assessment of the value of the security under stress scenario which is further adjusted for factors like liquidity, enforceability, transparency in valuation etc. of the collateral.
- Exit – This is an assessment of the liquidity of the loan or investment.

Each of the above components of the risk analysis are assigned a specific weight which differ based on type of loan. The weights are then used with the scores of individual components for conversion to a risk rating.

Based on the above assessment the risk team categorises the deals in to the below Risk Grades

Risk Grading	Description
Dark Green	Extremely good loan
Green	Good loan
Yellow	Moderate loan
Amber	Weak loan
Red	Extremely weak loan

Further, a periodic review of the performance of the portfolio is also carried out by the Risk Group. The Risk Group adjusts the stress case considered during the initial approval based on actual performance of the deal, developments in the sector, regulatory changes etc. The deal level output is combined to form a portfolio snapshot. The trends from portfolio are used to provide strategic inputs to the management.

The credit risk on liquid funds and other financial instruments is limited because the counterparties are banks with high credit-ratings assigned credit-rating agencies or mutual funds.

Provision for expected credit loss

The Company has assessed the credit risk associated with its financial assets for provision of Expected Credit Loss (ECL) as at the reporting dates. The Company makes use of various reasonable supportive forward looking parameters which are both qualitative as well as quantitative while determining the change in credit risk and the probability of default. These parameters have been detailed out in Note No.iii of Significant Accounting Policies. Based on the result yielded by the above assessment the Financial assets are classified into (1) Standard (Performing) Asset, (2) Significant Credit Deteriorated (Under-Performing) Asset (3) Default (Non-Performing) Asset (Credit Impaired).

For the purpose of expected credit loss analysis the Company defines default as any asset with more than 90 days overdues. This is also as per the rebuttable presumption provided by the standard.

Piramal Enterprises Limited

Notes to the standalone financial statements (Continued)

For the year ended 31 March, 2023

(Currency : Rs in crores)

The Company provides for expected credit loss based on the following:

Category - Description	Stage	Basis for recognition of Expected credit loss
Assets for which credit risk has not significantly increased from initial recognition	Stage 1	12 month ECL
Assets for which credit risk has increased significantly but not credit impaired	Stage 2	Life time ECL
Assets for which credit risk has increased significantly and credit impaired	Stage 3	Loss Given Default

For the year ended March 31, 2023 and March 31, 2022 the Company has developed a PD Matrix after considering some parameters as stated below :

The key parameters for various scorecards are highlighted as follows -Real Estate products (Construction Finance, Structured Debt, LRD) - (1) Developer Grade (2) Past Overdue History (3) Tenant profile (4) Status from monthly Asset Monitoring report (5) Stage of the project (6) Geography etc . Some of the Parameters for Non Real Estate products (Senior lending, mezzanine, project finance etc) - (1) Sponsor strength (2) Overdues (3) Average debt service coverage ratio (4) Regulatory Risk (5) Stability of EBITDA (6) Quality of underlying assets etc. Based on these parameters the Company has computed the PD. The Company has also built in model scorecards to determine the internal LGD. However, due to lack of default history to statistically substantiate the internal LGD, the Company has made use of a combination of both internal as well as external LGD. The Company also maintains Expected Credit Loss for undisbursed limits after applying the Credit conversion factor (CCF). CCF for these limits is computed based on historical disbursement trends observed across various products.

Expected credit loss as at the reporting period:

As at 31 March, 2023

Particulars	Asset group	Amortised Cost	Expected credit loss	Net amount
Assets for which credit risk has not significantly increased from initial recognition*	Investments	371.89	19.68	352.21

On account of disbursements	57.18	2.32	0.98
On account of repayments	(139.72)	(6.67)	(6.86)
Balance at the end of the year	233.52	154.14	589.00

b) Expected credit loss on undrawn loan commitments and letter of comfort:

Particulars	31 March, 2023	31 March, 2022
ECL on undrawn loan commitments and letter of comfort (refer note 18)	23.33	12.59

c) Description of collateral held as security and other credit enhancements

The Company has set benchmarks on appropriate level of security cover for various types of deals. The Company periodically monitors the quality as well as the value of the security to meet the prescribed limits. The collateral held by the Company varies on case to case basis and includes:

- First / Subservient charge on the Land and / or Building of the project or other projects
- First / Subservient charge on the fixed and current assets of the borrower
- Hypothecation over receivables from funded project or other projects of the borrower
- Pledge on shares of the borrower or their related parties
- Guarantees of promoters / promoter undertakings
- Post dated / undated cheques

As at the reporting date, the value of the collateral held as security for the credit impaired financial assets is higher than the exposure at default for these assets.

d) The credit impaired assets as at the reporting dates were secured by charge on land and building and project receivables amounting

Particulars	31 March, 2023	31 March, 2022
Value of Security (at Fair Value considered for LGD)	223.47	426.71

40.4 Regulatory risk:

The Company requires certain statutory and regulatory approvals for conducting business and failure to obtain retain or renew these approvals in a timely manner, may adversely affect operations. Any change in laws or regulations made by the government or a regulatory body that governs the business of the Company may increase the costs of operating the business, reduce the attractiveness of investment and / or change the competitive landscape.

40.5 Fraud risk and operational risk:

The Company has a robust Risk Management framework to identify, measure and mitigate business risks and opportunities. This framework seeks to create transparency, minimize adverse impact on the business strategy and enhance the Company's competitive advantage. This risk framework thus helps in managing market, credit, operational and fraud risks and quantifies potential impact at a Company level.

The Company has an elaborate system of internal audit commensurate with the size, scale and complexity of its operations and covers funding operations, financial reporting, fraud control and compliance with laws and regulations.

Piramal Enterprises Limited

Notes to the standalone financial statements (Continued)

For the year ended 31 March, 2023

(Currency : Rs in crores)

41 Employee Stock Option Plan

The Company had formulated Employees' Stock Ownership Plan - 2015 ("ESOP Scheme 2015"), under which, such eligible employees of the Company and its subsidiaries can exercise Stock Options that were vested in them under such ESOP Scheme 2015

The ESOP Scheme 2015 were approved by the Nomination and Remuneration Committee and the effective date of the same is 31 March 2023

Under the ESOP Scheme 2015, 1,81,828 stock options are granted during the year ended March 31, 2023.

Number and weighted average exercise prices (WAEP) of, and movements in, share options during the year

	Number of options	Weighted-Average Exercise Price	Weighted- Average Remaining Contractual Life (Years)
Outstanding as on April 01, 2022			
Granted during the year*	1,81,828	2.00	5.0
Exercised during the year	-	-	-
Forfeited/lapsed during the year	-	-	-
Outstanding as on March 31, 2023*	1,81,828	2.00	5.0
Exercisable as on March 31, 2023	1,81,828		

*Includes 12,256 options granted to Key managerial personnel of the Company.

The Black Scholes Valuation model has been used for computing the weighted average fair value of stock options granted during the year considering the following input:

Grant Date	March 31, 2023
Vesting Date	3 Equal months on the expiry of at least 12 months, 16 months and 28 months or 3 Equal months on the expiry of at least 28 months, 40 months and 52 months 3 Equal months on the expiry of at least 13 months, 14 months, 26 months and 38 months
Risk free interest rate	6.91% - 6.92%
Expected life	3.0 to 3.7 years
Expected Volatility	55.62% - 58.71%
Expected dividend yield	55.62% - 58.71%
Exercise Price	Rs. 2
Stock Price	Rs. 678.35
Option fair Value	Rs. 631.84 - Rs. 639.48
Exercise Period	5 years from date of vesting

The expected life of the share options is based on historical data and current expectations and is not necessarily indicative of exercise patterns that may occur. The expected volatility reflects the assumption that the historical volatility over a period similar to the life of the options is indicative of future trends, which may not necessarily be the actual outcome.

Method used to account for the Scheme (Intrinsic or fair value):

The Company recognises compensation expense relating to share based payments in accordance with Ind AS 102 Share-based Payment. Stock options granted by the Company are accounted as equity settled options. Accordingly, the estimated fair value of options granted that is determined on the date of grant, is charged to statement of Profit and Loss over the vesting period of options which is the requisite service period, with corresponding increase in the equity.

During the year ended March 31, 2023, Rs. 0.02 crores has been charged to statement of profit & loss account with a corresponding increase in employee stock options reserves of Rs. 0.02 crores. [Refer note no. 20.8 and 27]

Piramal Enterprises Limited

Notes to the standalone financial statements (Continued)

(Currency : Rs in crores)

42 Composite Scheme of Arrangement - Discontinued Operations

Disposal Of Pharmaceutical Business

The board of directors of the Company, at their meeting held on 7 October 2021, had inter alia, approved the composite Scheme of Arrangement under applicable provisions of the Companies Act, 2013 between Company, Piramal Pharma Limited ('PPL'), Convergence Chemicals Private Limited ('CCPL'), Hemmo Pharmaceuticals Private Limited ('HPPL'), PHL Fininvest Private Limited ('PFPL') and their respective shareholders and creditors ('Scheme'). The Scheme inter alia provides for the following:

- (i) the transfer by way of demerger of the Demerged Undertaking (as set out in the Scheme) from Company to PPL, a subsidiary of PEL
- (ii) the amalgamation of CCPL and HPPL (both being wholly owned subsidiaries of PPL) into PPL.
- (iii) the amalgamation of PFPL (a wholly owned subsidiary of PEL) into company ('FS Amalgamation').

The Scheme was approved by the Hon'ble National Company Law Tribunal on 12 August 2022. Accordingly, the Scheme became operative from Appointed date i.e. 1 April 2022.

The composite scheme of arrangement ("the Scheme") for demerger of Pharma undertaking and merger of PHL Fininvest Private Limited, a wholly owned subsidiary company, into the Company was approved by the Hon'ble National Company Law Tribunal on 12 August 2022. Accordingly, the Scheme became operative from Appointed date i.e. 1 April 2022.

In view of the above, the previously issued standalone financials for the year ended 31 March 2022 have been restated to give impact of the Scheme.

The Company has given effect to accounting as follows:

All assets and liabilities pertaining to demerged Pharma undertaking have been classified as non-cash assets held for transfer to Piramal Pharma Limited / shareholders as on 1st April 2022 being the appointed date. The difference between book values of the assets and liabilities transferred is recognised as gains in Profit and loss account amounting to Rs. 11,459.96 crores as per the requirements of Appendix A to Ind AS 10. At the date of approval of the Scheme, the liability was subsequently remeasured resulting in remeasurement gain of Rs 759.76 crores. The corresponding aggregate charge was recognised in retained earnings (reserve) as per the requirements of the aforesaid Ind AS.

The nature of the gain (including remeasurement gain) being non-recurring in nature was classified as exceptional item by the Company.

As per the requirements of Ind AS 105, the income and expense pertaining to Pharma business in the previous comparable periods were presented in a separate line item – discontinued operations.

Costs incidental / consequential to the arrangement aggregating to Rs 307.46 crores (net of tax) incurred by the Company was considered as exceptional items being non-recurring in nature.

49 Foreign Currency Risk Management

The Company is exposed to Currency Risk arising from its trade exposures and Capital receipt / payments denominated, in other than the Functional Currency. The Company has a detailed policy which includes setting of the recognition parameters, benchmark targets, the boundaries within which the treasury has to perform and also lays down the checks and controls to ensure the effectiveness of the treasury function.

The Company has defined strategies for addressing the risks for each category of exposures (e.g. for exports, for imports, for loans, etc.). The centralised treasury function aggregates the foreign exchange exposure and takes prudent measures to hedge the exposure based on prevalent macro-economic conditions.

Notes

- Since the total impairment allowances under Ind AS 109 is higher than the total provisioning required under IRACP (including standard asset provisioning) as at 31st March, 2023, no amount is required to be transferred to 'Impairment Reserve'. The balance in the 'Impairment Reserve' (if and when created) shall not be reckoned for regulatory capital. Further, no withdrawals shall be permitted from this reserve without prior permission from the Department of Supervision, RBI.
- In terms of recommendations as per above referred notification, the Company has adopted the same definition of default for accounting purposes as guided by the definition used for regulatory purposes.
- Policy for sales / transfers out of amortised cost business model portfolios

Sale/ transfer of portfolios out of amortised cost business model:

As a short-term financing approach, the Company has been transferring or selling certain pools of fixed rate loan receivables by entering in to direct assignment transactions with Asset reconstruction companies for consideration received in cash and security receipts at the inception of the transaction. With an objective of better liquidity and risk management, the Company, during the course of the year, obtains approval of Asset Liability Committee (ALCO) and Risk Management Committee (RMC) of the Board of Directors for undertaking direct assignment transactions of certain value of loan assets comprising the collateral based loan receivables at appropriate times during the year. These transactions are carried out after complying with extant RBI guidelines. Besides direct assignment as alternate financing tool, it is also being used as a effective Balance sheet management through better liquidity and risk management by transfer of assets from risk averse to risk takers. Such sale/transfer does not change the Company's business objective of holding financial assets to collect contractual cash flows. The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset. The Company has sold certain stressed portfolio classified under amortised cost for liquidity and recovery management strategy of the Company. Such sale of loans will not lead to change in business model as per the company's board approved policy and management's evaluation of business model.

1 Funding Concentration based on significant counterparty (both deposits and borrowings)

Sr. No.	Number of Significant Counterparties	Amount	% of Total Deposits	% of Total Liabilities
1	14	6,228.15	NA	68.67%

2 Top 20 large deposits (amount in ₹ crores and % of total deposits)

Not Applicable

3 Top 10 borrowings (amount in ₹ crores and % of total borrowings)

Amount	% of Total Borrowings
5,811.76	66.68%

Note

- For points 1 to 3 above, we are considering Clearing Corporation of India as a single counterparty for CROMS borrowing since counterparties cannot be ascertained for the said instrument.

4 Funding Concentration based on significant instrument/product

Sr. No.	Name of the instrument/product	Amount	% of Total Liabilities
1	Redeemable Non Convertible Debentures (secured)	4,322.18	47.66%
2	Term loan (secured) from banks	2,080.24	22.94%
3	Commercial paper (Unsecured)	1,902.90	20.98%
4	CROMS Borrowings (Clearing Corporation of India)	339.53	3.74%

5 Stock Ratios:

Sr. No.	Particulars	Mar 31, 2023
(a)	(i) Commercial papers as a % of total public funds	21.83%
	(ii) Commercial papers as a % of total liabilities	20.98%
	(iii) Commercial papers as a % of total assets	5.75%
(b)	(i) Non-convertible debentures (original maturity of less than one year) as a % of total public funds	17.44%
	(ii) Non-convertible debentures (original maturity of less than one year) as a % of total liabilities	16.76%
	(iii) Non-convertible debentures (original maturity of less than one year) as a % of total assets	4.59%
(c)	(i) Other short-term liabilities, if any as a % of total public funds	43.12%
	(ii) Other short-term liabilities, if any as a % of total liabilities	41.43%
	(iii) Other short-term liabilities, if any as a % of total assets	11.35%

6 Institutional set-up for liquidity risk management

- The Asset Liability Committee (ALCO) is responsible for the management of the companies funding and liquidity requirements, within the board approved framework and extant regulations.
- The Company manages liquidity risk by maintaining an appropriate mix of unutilised banking facilities, credit lines as necessary and by continuously monitoring expected and actual cash flows, and by assessing the maturity profiles of financial assets and liabilities.

Qualitative disclosures

- The Company has implemented the guidelines on Liquidity Risk Management Framework prescribed by the Reserve Bank of India requiring maintenance of Liquidity Coverage Ratio (LCR), which aim to ensure that an NBFC maintains an adequate level of unencumbered HQLAs that can be used to meet its liquidity needs for the next month under a significantly severe liquidity stress scenario.
- LCR = Stock of High-Quality Liquid Assets (HQLAs)/Total Net Cash Outflows over the next 30 calendar days
- For the purpose of HQLA, the company considers: (1) Unencumbered government securities (2) Unencumbered Cash and Bank Balances and (3) Treasury Bills
- Since the Company commenced its NBFC business from 18th August 2022, hence the company has prepared the LCR disclosure basis simple averages of balances from 18th August 2022.

Qualitative disclosures (Continued)

- The cash inflows include amount based on contractual basis for Loans & Advances that are standard in nature.
- Other Contingent Funding Obligations includes the undisbursed loan amount only of those obligations which have non-cancellable clauses.
- The Liquidity Risk Management framework of the Company is governed by its Asset Liability Management Policy approved by the Board. The Asset Liability Management Committee (ALCO) oversees the implementation of liquidity risk management framework of the Company and ensure adherence to the risk tolerance / limits set by the Board.
- As prescribed by the RBI Guidelines, Total net cash outflows are arrived after taking into consideration total expected cash outflows minus total expected cash inflows for the subsequent month
- Total net cash outflows over the next 30 days = Stressed Outflows - [Min (stressed inflows; 75% of stressed outflows)].
- Total expected cash outflows (stressed outflows) are calculated by multiplying the outstanding balances of various categories or types of liabilities by 115% (15% being the rate at which they are expected to run off further or be drawn down)
- Total expected cash inflows (stressed inflows) are calculated by multiplying the outstanding balances of various categories of contractual receivables by 75% (25% being the rate at which they are expected to under-flow)
- The company has maintained healthy Liquidity Coverage Ratio (LCR) for the time period under consideration. The company had LCR of 825% as of March 31, 2023, 235% as of December 31, 2022 and 210% as of September 30, 2022 which is higher than LCR mandated by RBI. The company regularly reviews the maturity position of assets and liabilities and liquidity buffers, and ensures maintenance of sufficient quantum of High Quality Liquid Assets.

INDEPENDENT AUDITOR'S REPORT

**To The Members of Piramal Enterprises Limited
Report on the Audit of the Consolidated Financial Statements**

Opinion

We have audited the accompanying consolidated financial statements of Piramal Enterprises Limited ("the Parent"/ "the Holding Company") and its subsidiaries, (the Parent/ Holding Company and its subsidiaries together referred to as "the Group") which includes the Group's share of profit in its associates and joint ventures, which comprise the Consolidated Balance Sheet as at March 31, 2022, and the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Cash Flow Statement and the Consolidated Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, and based on the consideration of reports of the other auditors on separate financial statements / financial information of the subsidiaries, associates and joint ventures referred to in the Other Matters section below, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ('Ind AS'), and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2022, and their consolidated profit, their consolidated total comprehensive income, their consolidated cash flows and their consolidated changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing specified under section 143 (10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibility for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group, its associates and joint ventures in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in the sub-paragraphs (a) and (b) of the Other Matters section below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Emphasis of Matter

In case of one subsidiary, the Component auditors have drawn attention to matters stated in note 56(A)(ii) to the consolidated financial statements with respect to certain elements of business combination accounting as per Ind AS 103- Business Combination, for acquisition of Dewan Housing Finance Limited (DHFL) under Section 31 of the Insolvency and Bankruptcy Code, 2016, consequent to which PCHFL has merged into DHFL with effect from September 30, 2021.

Our opinion is not modified in respect of above matters.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Sr. No.	Key Audit Matter	Auditor's Response
1	<p>Impairment loss allowance on loans and Investments pertaining to finance business</p> <p>Charge: Rs. 905.08 crores for the year ended March 31, 2022 Provision: Rs. 3,724.85 crores at March 31, 2022 (including on loan commitments of Rs. 113.71 crore)</p> <p>Refer to the accounting policies in Note 2(a)(ix), Note 2(b)(iv) and Note 48(f) to the consolidated financial statements</p>	
1(a)	<p>Of Rs. 3,724.85 crores of expected credit loss provisioning as at March 31, 2022, Rs. 2,727.30 crores (including on loan commitment of Rs. 101.12 crores), are audited by Other Auditors of the Component.</p> <p>The Component is in the business of wholesale and retail lending primarily to the real estate and infrastructure sector.</p> <p>The key audit matter provided below is as communicated by the Other Auditors:</p> <p>The estimation of ECL on financial assets is complex and involves significant management judgement and estimates, including the following:</p> <ul style="list-style-type: none"> • Models used to estimate ECL are inherently judgmental with high estimation uncertainty which involves determining Probability of Default (PD), Loss Given Default (LGD) and Exposure at Default (EAD). • Completeness and accuracy of the data from internal and external sources used in the 	<p>1) As principal auditors, we had issued written communication to the auditor of the component ('Other Auditors') for key audit procedures to be performed by them.</p> <p>In accordance with such communication, below is summary of procedures performed by the Other Auditors, as reported by them-</p> <p>The Other Auditors focused on assessing the appropriateness of the models used including management's judgment and estimates used in the impairment analysis through procedures that included, but were not limited to, the following:</p> <ul style="list-style-type: none"> • Considered the component's accounting policies for expected credit loss of financial assets and assessed compliance of the policies in terms of Ind AS 109. • Understood management's processes, systems and controls implemented in relation to ECL allowance process. Evaluated the design and tested the operating effectiveness of key internal financial controls over such process. • Assessed the governance framework over validation, implementation and model monitoring as per approval from Board of

<p>models.</p> <ul style="list-style-type: none"> • Ind AS 109 requires the component to measure ECLs on a forward-looking basis reflecting future economic conditions. Significant management judgement is applied in determining the economic scenario used and probability weights applied to them. • Qualitative adjustments are made by the Management to the results obtained from ECL models to address any identified impairment or emerging trends as well as risks not captured by models. These adjustments are inherently subjective and significant management judgement is involved in estimating these amounts. • In respect of purchased or originated credit impaired financial assets, cumulative changes, at the portfolio level, in lifetime expected credit losses since initial recognition are recognised as a loss allowance. Significant management judgement is applied to assess such changes. <p>Further, RBI announced various relief measures for the borrowers to address situations arising out of COVID-19 which have been collectively considered by the management in identification, classification and provisioning of loan assets for impairment.</p> <p>The disclosures prescribed under Ind AS 109 and RBI directives is also an area of focus for the management and auditors.</p> <p>Considering the significance of ECL to the component’s overall consolidated financial statements and the degree of management’s estimates and judgments involved in this matter that requires significant auditor attention,</p>	<p>Directors.</p> <ul style="list-style-type: none"> • Obtained an understanding of the modelling techniques adopted by the component including the key inputs and assumptions. Since modelling assumptions and parameters are based on historical as well as external data, we assessed whether the same were relevant and representative of current circumstances. • Assessed the critical assumptions and input data used in the estimation of expected credit loss for specific key credit risk parameters, such as the classification of loan assets into stages as described in the accounting policy, Exposure at default (EAD), probability of default (PD) or loss given default (LGD); • On sample basis tested the completeness and accuracy of the input data used for determining the PD and LGD rates and agreed the data with the underlying books of accounts and records; • Evaluated whether the methodology applied by the component is compliant with the requirements of the relevant accounting standards and confirmed that the calculations are performed in accordance with the approved methodology, including mathematical accuracy of the workings. <p>2) Additionally, audit oversight procedures carried out by us over the work performed by the Other Auditors consisted of:</p> <ul style="list-style-type: none"> • Reviewing a written summary of the audit procedures performed by the Other Auditors. • Discussion with the Component’s Management to understand the key assumptions (i.e., staging, EAD, PD and LGD rates) and other inputs, including macro-economic factors, used in the computation of ECL provision. • Discussion with the Other Auditors on their assessment and conclusions relating to impact of COVID-19, macro-economic factors, triggers for significant increase in credit risk and other inputs used in computation of ECL provision. • On a sample basis, independently retesting loan contracts and evaluating the key assumptions used in the computation of

Information Other than the Financial Statements and Auditor’s Report Thereon

- The Parent’s Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board’s Report including Annexures to Board’s Report, Business Responsibility Report, Corporate Governance, but does not include the consolidated financial statements, standalone financial statements and our auditor’s report thereon.
- Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

- In connection with our audit of the consolidated financial statements, our responsibility is to read the other information, compare with the financial statements of the subsidiaries, joint ventures and associates audited by the other auditors, to the extent it relates to these entities and, in doing so, place reliance on the work of the other auditors and consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. Other information so far as it relates to the subsidiaries, joint ventures and associates, is traced from their financial statements audited by the other auditors.
- If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Consolidated Financial Statements

The Parent's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated changes in equity of the Group including its associates and joint ventures in accordance with the Ind AS and other accounting principles generally accepted in India. The respective Board of Directors of the companies included in the Group and of its associates and joint ventures are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and its associates and its joint ventures and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Parent, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group and of its associates and joint ventures are responsible for assessing the ability of the respective entities to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors either intends to liquidate their respective entities or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and of its associates and joint ventures are also responsible for overseeing the financial reporting process of the Group and of its associates and joint ventures.

Auditor's Responsibility for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

Deloitte Haskins & Sells LLP

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Parent has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its associates and joint ventures to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associates and joint ventures to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the Group and its associates and joint ventures to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by the other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

We communicate with those charged with governance of the Parent and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

- (a) We did not audit the financial statements of 27 subsidiaries, and, whose financial statements reflect total assets of Rs. 93,427.68 crores as at March 31, 2022, total revenues of Rs. 10,232.07 crores and net cash inflows amounting to Rs. 617.96 crores for the year ended on that date, as considered in the consolidated financial statements. The consolidated financial statements also include the Group's share of net profit of Rs. 399.07 crores for the year ended March 31, 2022, as considered in the consolidated financial statements, in respect of an associate and two joint ventures, whose financial statements have not been audited by us. These financial statements have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, joint ventures and associates, and our report in terms of subsection (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries, joint ventures and associates is based solely on the reports of the other auditors.
- (b) We did not audit the financial information of 17 subsidiaries, whose financial information reflect total assets of Rs. 4,501.81 crores as at March 31, 2022, total revenues of Rs. 604.98 crores and net cash inflows/ (outflows) amounting to Rs. 70.26 crores for the year ended on that date, as considered in the consolidated financial statements. The consolidated financial statements also include the Group's share of net profit of Rs. 251.56 crores for the year ended March 31, 2022, as considered in the consolidated financial statements, in respect of three associates and six joint ventures, whose financial information have not been audited by us. These financial information are unaudited and have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, joint ventures and associates, is based solely on such unaudited financial information. In our opinion and according to the information and explanations given to us by the Management, these financial information are not material to the Group.

Our opinion on the consolidated financial statements above and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the financial information certified by the Management.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit and on the consideration of the reports of the other auditors on the separate financial statements/ financial information of the subsidiaries, associates and joint ventures referred to in the Other Matters section above we report, to the extent applicable that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
- b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books, returns and the reports of the other auditors.
- c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss including Other Comprehensive Income, the Consolidated Statement of Cash Flows and the Consolidated Statement of Changes in Equity dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements .
- d) In our opinion, the aforesaid consolidated financial statements comply with the Ind AS specified under Section 133 of the Act.
- e) On the basis of the written representations received from the directors of the Parent as on March 31, 2022 taken on record by the Board of Directors of the Company and the reports of the statutory auditors of its subsidiary companies, associate companies and joint venture companies incorporated in India, none of the directors of the Group companies, its associate companies and joint venture companies incorporated in India is disqualified as on March 31, 2022 from being appointed as a director in terms of Section 164(2) of the Act.
- f) With respect to the adequacy of the internal financial controls over financial reporting and the operating effectiveness of such controls, refer to our separate Report in "Annexure A" which is based on the auditors' reports of the Parent, subsidiary companies, associate companies and joint venture companies incorporated in India. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of internal financial controls over financial reporting of those companies.
- g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended. In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Parent to its directors during the year is in accordance with the provisions of section 197 read with Schedule V of the Act.
- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
 - i) The consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group, its associates and joint ventures;
 - ii) Provision has been made in the consolidated financial statements, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts;

- iii) Following are the instances of delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund ('IEPF') by a subsidiary company incorporated in India.

Due date for transferring amounts to IEPF	Unclaimed Dividend Amount (Rs. in Crore)	No. of days in delay as on reporting date (*)
December 28, 2019	0.05	824
September 28, 2020	0.08	549
March 28, 2021	0.18	368
September 29, 2021	0.12	183
December 27, 2021	0.10	94

(*) The above amounts are pending to transferred to IEPF as on date of this report.

- iv) (a) The respective Managements of the Parent and its subsidiaries which are companies incorporated in India whose financial statements have been audited under the Act have represented to us and the other auditors of such subsidiaries respectively that, to the best of their knowledge and belief, as disclosed in the notes to the accounts, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Parent or any of such subsidiaries to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Parent or any of such subsidiaries ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

(b) The respective Managements of the Parent and its subsidiaries which are companies incorporated in India whose financial statements have been audited under the Act have represented to us and the other auditors of such subsidiaries respectively that, to the best of their knowledge and belief, as disclosed in the notes to accounts, no funds (which are material either individually or in the aggregate) have been received by the Parent or any of such subsidiaries from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Parent or any of such subsidiaries shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

(c) Based on the audit procedures that has been considered reasonable and appropriate in the circumstances performed by us and those performed by the auditors of the subsidiaries which are companies incorporated in India whose financial statements have been audited under the Act, nothing has come to our or other auditor's notice that has caused us or the other auditors to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.

- v) (a) As stated in note 17 to the consolidated financial statements, the final dividend proposed in the previous year, declared and paid by the Parent during the year is in accordance with section 123 of the Act, as applicable.

(b) No interim dividend has been declared and paid by the Company during the year.

(c) As stated in note 17 to the financial statements, the Board of Directors of the Company have proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The amount of dividend proposed is in accordance with section 123 of the Act, as applicable.

Deloitte Haskins & Sells LLP

2. With respect to the matters specified in clause (xxi) of paragraph 3 and paragraph 4 of the Companies (Auditor's Report) Order, 2020 ("CARO"/ "the Order") issued by the Central Government in terms of Section 143(11) of the Act, according to the information and explanations given to us, and based on the CARO reports issued by us and the auditors of respective companies included in the consolidated financial statements to which reporting under CARO is applicable, as provided to us by the Management of the Parent/ Holding Company, we report that there are no qualifications or adverse remarks by the respective auditors in the CARO reports of the said respective companies included in the consolidated financial statements except for the following:

ANNEXURE "A" TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph (f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated Ind AS financial statements of the Company as of and for the year ended March 31, 2022, we have audited the internal financial controls over financial reporting of Piramal Enterprises Limited (hereinafter referred to as "the Holding Company" / "Parent") and its subsidiary companies, its associate companies and joint ventures, which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Parent, its subsidiary companies, its associate companies and joint ventures, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective Companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Parent, its subsidiary companies, its associate companies and its joint ventures, which are companies incorporated in India, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing, prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors of the subsidiary companies, associate companies and joint ventures, which are companies incorporated in India, in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Parent, its subsidiary companies, its associate companies and its joint ventures, which are companies incorporated in India.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion to the best of our information and according to the explanations given to us and based on the consideration of the reports of the other auditors referred to in the Other Matters paragraph below, the Parent, its subsidiary companies, its associate companies and joint ventures, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2022, based on the criteria for internal financial control over financial reporting established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting insofar as it relates to seventeen subsidiary companies, one associate company and two joint ventures, which are companies incorporated in India, is based solely on the corresponding reports of the auditors of such companies incorporated in India.

Our opinion is not modified in respect of the above matter.

PIRAMAL ENTERPRISES LIMITED

Notes to the Consolidated financial statements for the year ended March 31, 2022

1. GENERAL INFORMATION

Piramal Enterprises Limited (PEL) (including its subsidiaries) (together referred to as Group) is one of India's large diversified companies, with a presence in Pharmaceuticals and Financial Services.

In Pharmaceuticals business, through end-to-end manufacturing capabilities across 13 global facilities and a large global distribution network to over 100 countries, the Group sells a portfolio of niche differentiated pharma products and provides an entire pool of pharma services (including in the areas of injectable, HPAPI etc.). The Group is also strengthening its presence in the Consumer Products segment in India.

In Financial Services, Group provides comprehensive financing solutions to various companies. It provides both wholesale and retail funding opportunities across sectors. In real estate, the platform provides housing finance and other financing solutions across the entire capital stack ranging from early stage private equity, structured debt, senior secured debt, construction finance, and flexi lease rental discounting. The wholesale business in non-real estate sector includes separate verticals - Corporate Finance Group (CFG) and Emerging Corporate Lending (ECL). CFG provides customized funding solutions to companies across sectors such as infrastructure, renewable energy, roads, industrials, auto components etc. while ECL focuses on lending towards Small and Medium Enterprises (SMEs). The Group has also launched Distressed Asset Investing platform that invests in equity and/or debt in assets across sectors (other than real estate) to drive restructuring with active participation in turnaround. The Group also has strategic alliances with top global funds such as APG Asset Management, Bain Capital Credit, CPPIB Credit Investment Inc. and Ivanhoé Cambridge (CDPQ). The Group has long term equity investments in Shriram Group, a leading financial conglomerate in India.

PEL is a public limited Company incorporated and domiciled in India and has its registered office at Mumbai, India. It is listed on the BSE Limited and the National Stock Exchange of India Limited in India.

2a. SIGNIFICANT ACCOUNTING POLICIES

i) Basis of preparation

Compliance with Ind AS

The Consolidated financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) read with Companies (Indian Accounting Standards) Rules, 2015, as amended, and other relevant provisions of the Act.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to the existing accounting standard requires a change in the accounting policy hitherto in use.

The Separate financial statements are presented in addition to the consolidated financial statements presented by the Group.

Historical Cost convention

The Consolidated financial statements have been prepared on the historical cost basis except for the following:

- a) certain financial instruments and contingent consideration - measured at fair value
- b) assets classified as held for sale - measured at fair value less cost to sell
- c) cash settled stock appreciation rights - measured at fair value
- d) plan assets of defined benefit plans, which are measured at fair value

ii) Principles of consolidation and equity accounting

a) Subsidiaries:

Subsidiaries are all entities (including Structured entities) over which the group has control. Control is achieved when the Group has power over the investee, is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to use its power to affect its returns. Subsidiaries are fully consolidated from the date on which control is transferred to the group. They are deconsolidated from the date that control ceases.

The acquisition method of accounting is used to account for business combinations by the group.

The group combines the financial statements of the parent and its subsidiaries line by line adding together like items of assets, liabilities, equity, income and expenses. Intercompany transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the group.

Non-controlling interests in the results and equity of subsidiaries are shown separately in the consolidated statement of profit and loss, consolidated statement of changes in equity and balance sheet respectively.

b) Associates:

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies. Investments in associates are accounted for using the equity method of accounting (see (d) below), after initially being recognised at cost. Wherever necessary, adjustments are made to financial statements of associates to bring their accounting policies in line with those used by the other members of group.

c) Joint Arrangements:

Under Ind AS 111 Joint Arrangements, investments in joint arrangements are classified as either joint operations or joint ventures. The classification depends on the contractual rights and obligations of each investor, rather than the legal structure of the joint arrangement.

A joint operation is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the assets and obligations for the liabilities relating to the arrangement.

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement.

Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

PIRAMAL ENTERPRISES LIMITED

Notes to the Consolidated financial statements for the year ended March 31, 2022

The Group recognises its direct right to the assets, liabilities, revenues and expenses of joint operations and its share of any jointly held or incurred assets, liabilities, revenues and expenses. These have been incorporated in the financial statements under the appropriate headings.

Interests in joint ventures are accounted for using the equity method (see (d) below), after initially being recognised at cost in the consolidated balance sheet.

d) Equity method:

Under the equity method of accounting, the investments are initially recognised at cost and adjusted thereafter to recognise the Group's share of post acquisition profits or losses of the investee in profit and loss, and the group's share of other comprehensive income of the investee in other comprehensive income. Dividends received or receivable from associates or joint ventures are recognised as a reduction in the carrying amount of the investment.

Unrealised gains on transactions between the group and its associates and joint ventures are eliminated to the extent of the group's interest in these entities. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred.

The carrying amount of equity accounted investments are tested for impairment in accordance with the policy mentioned in Note 2a (viii) below.

e) Changes in ownership interests

The group treats transactions with non-controlling interests that do not result in loss of control as transactions with equity owners of the group. A change in the ownership interest results in an adjustment between the carrying amounts of the controlling and non-controlling interests to reflect their relative interests in the subsidiary. Any difference between the amount of the adjustment to non controlling interests and any consideration paid or received is recognised within equity.

iii) Business Combinations

The acquisition method of accounting is used to account for all business combinations, regardless of whether equity instruments or other assets are acquired. The consideration transferred for the acquisition of a subsidiary comprises the:

- fair values of the assets transferred;
- liabilities incurred to the former owners of the acquired business;
- equity interests issued by the group; and
- fair value of any asset or liability resulting from a contingent consideration arrangement.

Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are, with limited exceptions, measured initially at their fair values at the acquisition date. The group recognises any non-controlling interest in the acquired entity on an acquisition-by-acquisition basis at the non-controlling interest's proportionate share of the acquired entity's net identifiable assets.

Acquisition-related costs are expensed as incurred.

The excess of the

- consideration transferred;
- amount of any non-controlling interest in the acquired entity, and
- acquisition-date fair value of any previous equity interest in the acquired entity

over the fair value of the net identifiable assets acquired is recorded as goodwill. If those amounts are less than the fair value of the net identifiable assets of the business acquired, the difference is recognised in other comprehensive income and accumulated in equity as capital reserve provided there is clear evidence of the underlying reasons for classifying the business combination as a bargain purchase. In other cases, the bargain purchase gain is recognised directly in equity as capital reserve.

Where settlement of any part of cash consideration is deferred, the amounts payable in the future are discounted to their present value as at the date of exchange. The discount rate used is the entity's incremental borrowing rate, being the rate at which a similar borrowing could be obtained from an independent financier under comparable terms and conditions.

Contingent consideration is classified either as equity or a financial liability. Amounts classified as a financial liability are subsequently remeasured to fair value with changes in fair value recognised in profit or loss.

If the business combination is achieved in stages, the acquisition date carrying value of the acquirer's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date. Any gains or losses arising from such remeasurement are recognised in profit or loss or other comprehensive income, as appropriate.

Common control transactions

Business combinations involving entities that are controlled by the group are accounted for using the pooling of interests method as follows:

- 1) The assets and liabilities of the combining entities are reflected at their carrying amounts.
- 2) No adjustments are made to reflect fair values, or recognise any new assets or liabilities. Adjustments are only made to harmonise accounting policies.
- 3) The balance of the retained earnings appearing in the financial statements of the transferor is aggregated with the corresponding balance appearing in the financial statements of the transferee or is adjusted against general reserve.
- 4) The identity of the reserves are preserved and the reserves of the transferor become the reserves of the transferee.
- 5) The difference, if any, between the amounts recorded as share capital issued plus any additional consideration in the form of cash or other assets and the amount of share capital of the transferor is transferred to capital reserve and is presented separately from other capital reserves.
- 6) The financial information in the financial statements in respect of prior periods is restated as if the business combination had occurred from the beginning of the preceding period in the financial statements, irrespective of the actual date of combination. However, where the business combination had occurred after that date, the prior period information is restated only from that date.

iv) (a) **Property, Plant and Equipment**

Freehold Land is carried at historical cost. All other Items of Property Plant & Equipments are stated at cost of acquisition, less accumulated depreciation and accumulated impairment losses, if any. Direct costs are capitalised until the assets are ready for use and includes freight, duties, taxes and expenses incidental to acquisition and installation.

The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Subsequent expenditures related to an item of Property Plant & Equipment are added to its carrying value only when it is probable that the future economic benefits from the asset will flow to the Company & cost can be reliably measured.

Losses arising from the retirement of, and gains or losses arising from disposal of Property, Plant and Equipment are recognised in the Statement of Profit and Loss.

Depreciation

Depreciation is provided on a pro-rata basis on the straight line method ('SLM') over the estimated useful lives of the assets specified in Schedule II of the Companies Act, 2013 / estimated useful lives as determined by the management of respective subsidiaries based on technical evaluation. The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

The estimated useful lives of Property, Plant & Equipment are as stated below:

Asset Class	Useful life
Buildings*	3 years - 60 years
Roads	10 years
Plant & Equipment	3 - 20 years
Continuous Process Plant	25 years
Office Equipment	3 years - 15 years
Motor Vehicles	4 - 8 years
Helicopter	20 years
Ships	13 years/28 Years
Furniture & fixtures	3 - 15 years

*Useful life of leasehold improvements is as per lease period

iv) (b) **Non current assets held for sale**

Assets held for sale are measured at the lower of carrying amount or fair value less costs to sell. The determination of fair value less costs to sell includes use of management estimates and assumptions. The fair value of the assets held for sale has been estimated using valuation techniques (including income and market approach) which includes unobservable inputs. Noncurrent assets and Disposal Group that ceases to be classified as held for sale shall be measured at the lower of carrying amount before the non-current asset and Disposal Group was classified as held for sale and its recoverable amount at the date of the subsequent decision not to sell.

v) **Intangible Assets**

Intangible assets are stated at acquisition cost, net of accumulated amortisation and accumulated impairment losses, if any. Gains or losses arising from the retirement or disposal of an intangible asset are determined as the difference between the disposal proceeds and the carrying amount of the asset and are recognised as income or expense in the Consolidated Statement of Profit and Loss.

The research and development (R&D) cost is accounted in accordance with Ind AS - 38 'Intangibles'.

Research

Research costs, including patent filing charges, technical know-how fees, testing charges on animal and expenses incurred on development of a molecule till the stage of Pre-clinical studies and till the receipt of regulatory approval for commencing phase I trials are treated as revenue expenses and charged off to the Statement of Profit and Loss of respective year.

Development

Development costs relating to design and testing of new or improved materials, products or processes are recognized as intangible assets and are carried forward under Intangible Assets under Development until the completion of the project when they are capitalised as Intangible assets, if the following conditions are satisfied:

- it is technically feasible to complete the asset so that it will be available for use;
- management intends to complete the asset and use or sell it;
- there is an ability to use or sell the asset;
- it can be demonstrated how the asset will generate probable future economic benefits;
- adequate technical, financial and other resources to complete the development and to use or sell the asset are available; and
- the expenditure attributable to the asset during its development can be reliably measured.

Intangible Assets with finite useful lives are amortized on a straight line basis over the following period:

Asset Class	Useful life
Brands and Trademarks	5 - 25 years
Copyrights, Know-how (including qualifying Product Development Cost) and Intellectual property rights	4 - 25 years
Computer Software (including acquired database)	2 - 9 years
Customer relationships	8 - 14 years

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

Certain trademarks are assessed as Intangible Assets with indefinite useful lives.

vi) **Goodwill**

Goodwill on acquisition is included in intangible assets. Goodwill and intangible assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired.

Goodwill is carried at cost less accumulated impairment losses.

vii) **Investment property**

Investment property is property held either to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business, use in the production or supply of goods or services or for administrative purposes. Upon initial recognition, an investment property is measured at cost. Cost of a investment property comprises its purchase price and any directly attributable expenditure. Subsequent to initial recognition, investment property is measured at cost less accumulated depreciation and accumulated impairment losses, if any.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss on disposal of an investment property is recognised in profit or loss.

viii) **Impairment of Assets**

The Group assesses at each Balance Sheet date whether there is any indication that an asset may be impaired. For the purposes of assessing impairment, the smallest identifiable group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets, is considered as a cash generating unit. If any such indication exists, the Group estimates the recoverable amount of the asset. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognised in the Consolidated Statement of Profit and Loss. If at the Balance Sheet date there is an indication that if a previously assessed impairment loss no longer exists or may have decreased, the recoverable amount is reassessed and the asset is reflected at the recoverable amount.

ix) **Financial instruments**

Financial assets and financial liabilities are recognised when a Group entity becomes a party to the contractual provisions of the instruments. Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss. Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Investments and Other Financial assets

Classification:

The Group classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the Group has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

The Group reclassifies debt investments when and only when its business model for managing those assets changes.

Measurement

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Debt Instruments

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the group classifies its debt instruments:

Amortised cost:

Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at amortised cost and is not part of a hedging relationship is recognised in profit or loss when the asset is derecognised or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method. Subsequently, these are measured at amortised cost using the Effective Interest Method less any impairment losses.

Fair value through other comprehensive income (FVTOCI):

Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVTOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other gains/ (losses). Interest income from these financial assets is included in other income using the effective interest rate method.

Fair value through profit or loss (FVTPL):

Assets that do not meet the criteria for amortised cost or FVTOCI are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognised in profit or loss and presented net in the statement of profit and loss within other gains/(losses) in the period in which it arises. Interest income from these financial assets is included in other income.

Equity instruments

The Group subsequently measures all equity investments at fair value. Where the Group's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit or loss. Dividends from such investments are recognised in profit or loss when the Group's right to receive payments is established.

Changes in the fair value of financial assets at fair value through profit or loss are recognised in the consolidated statement of profit and loss.

Impairment of financial assets

The Company applies the expected credit loss model for recognising impairment loss on financial assets measured at amortised cost, loan commitments, trade receivables and other contractual rights to receive cash or other financial asset.

POCI financial assets are assets that are credit-impaired on initial recognition. For POCI assets, lifetime ECL are incorporated into the calculation of the effective interest rate on initial recognition. Consequently, POCI assets do not carry an impairment allowance on initial recognition. The amount recognised as a loss allowance subsequent to initial recognition is equal to the changes in lifetime ECL since initial recognition of the asset. A favourable change for such assets create an impairment gain.

For trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 115, the Company always measures the loss allowance at an amount equal to lifetime expected credit losses.

Further, for the purpose of measuring lifetime expected credit loss ("ECL") allowance for trade receivables, the Company has used a practical expedient as permitted under Ind AS 109. This expected credit loss allowance is computed based on a provision matrix which takes into account historical credit loss experience and adjusted for forward-looking information.

In case of other than trade receivables, the expected credit loss is a product of exposure at default, probability of default and loss given default. The company has devised an internal model to evaluate the probability of default and loss given default based on the parameters set out in Ind AS 109. Accordingly, the financial instruments are classified into Stage 1 – Standard Assets with zero to thirty days past due (DPD), Stage 2 – Significant Credit Deterioration or overdue between 31 to 90 days and Stage 3 – Default Assets with overdue for more than 90 days. The Company also takes into account the below qualitative parameters in determining the increase in credit risk for the financial assets:

- 1) Significant negative deviation in the business plan of the borrower
- 2) Internal rating downgrade for the borrower or the project
- 3) Current and expected financial performance of the borrower
- 4) Need for refinance of loan due to change in cash flow of the project
- 5) Significant decrease in the value of collateral
- 6) Change in market conditions and industry trends

For recognition of impairment loss on other financial assets and risk exposure (including off Balance Sheet commitments), the Group determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL. Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

Default Assets wherein the management does not expect any realistic prospect of recovery are written off to the Statement of Profit and Loss.

Derecognition of financial assets

A financial asset is derecognised only when:

- The Group has transferred the rights to receive cash flows from the financial asset or
- retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Group evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Foreign exchange gains and losses

The fair value of financial assets denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of each reporting period. For foreign currency denominated financial assets measured at amortised cost and FVTPL, the exchange differences are recognised in profit or loss except for those which are designated as hedging instruments in a hedging relationship.

Financial liabilities and equity instruments

Classification as debt or equity

Debt and equity instruments issued by a Group entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity Instrument

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued are recognised at the proceeds received, net of direct issue costs.

Compulsorily Convertible Debenture

Convertible instruments are separated into liability and equity components based on the terms of the contract. On issuance of the convertible debentures, the fair value of the liability component is determined using a market rate for an equivalent non-convertible instrument. This amount is classified as a financial liability measured at amortised cost (net of transaction costs) until it is extinguished on conversion or redemption. The remainder of the proceeds is allocated to the conversion option that is recognised and included in equity since conversion option meets Ind AS 32 criteria for fixed to fixed classification. Transaction costs are apportioned between the liability and equity components of the convertible debentures based on the allocation of proceeds to the liability and equity components when the instruments are initially recognised.

Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at FVTPL.

Financial liabilities are classified as at FVTPL when the financial liability is either contingent consideration recognised by the Group as an acquirer in a business combination to which Ind AS 103 applies or is held for trading or it is designated as at FVTPL.

Financial liabilities that are not held-for-trading and are not designated as at FVTPL are measured at amortised cost at the end of subsequent accounting periods. The carrying amounts of financial liabilities that are subsequently measured at amortised cost are determined based on the effective interest method.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the amortised cost of a financial liability.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the Group does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.

Foreign exchange gains and losses

For financial liabilities that are denominated in a foreign currency and are measured at amortised cost at the end of each reporting period, the foreign exchange gains and losses are determined based on the amortised cost of the instruments.

Financial Guarantee Contracts

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due in accordance with the terms of a debt instrument.

Financial guarantee contracts issued by the Group are initially measured at their fair values and are subsequently measured at the higher of:

- the amount of the loss allowance determined in accordance with Ind AS 109; and
- the amount initially recognised less, where appropriate, cumulative amortisation recognised in accordance with the revenue recognition policies.

Derecognition of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. An exchange between with a lender of debt instruments with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability.

Derivatives and hedging activities

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured to their fair value at the end of each reporting period. The accounting for subsequent changes in fair value depends on whether the derivative is designated as a hedging instrument, and if so, the nature of the item being hedged and the type of hedge relationship designated.

The full fair value of a hedging derivative is classified as a non-current asset or liability when the remaining maturity of the hedged item is more than 12 months; it is classified as a current asset or liability when the remaining maturity of the hedged item is less than 12 months. Trading derivatives are classified as a current asset or liability.

(i) Cash flow hedges that qualify for hedge accounting:

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognised in the other comprehensive income in cash flow hedging reserve within equity, limited to the cumulative change in fair value of the hedged item on a present value basis from the inception of the hedge. The gain or loss relating to the ineffective portion is recognised immediately in profit or loss, within other gains/(losses).

PIRAMAL ENTERPRISES LIMITED

Notes to the Consolidated financial statements for the year ended March 31, 2022

(ii) Derivatives that are not designated as hedges:

The group enters into certain derivative contracts to hedge risks which are not designated as hedges. Such contracts are accounted for at fair value through profit or loss.

Embedded derivatives

Derivatives embedded in a host contract that is an asset within the scope of Ind AS 109 are not separated. Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Derivatives embedded in all other host contract are separated only if the economic characteristics and risks of the embedded derivative are not closely related to the economic characteristics and risks of the host and are measured at fair value through profit or loss. Embedded derivatives closely related to the host contracts are not separated.

Offsetting Financial Instruments

Financial Assets and Liabilities are offset and the net amount is reflected in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Group or counterparty.

x) Trade Receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment.

xi) Inventories

Inventories comprise of Raw and Packing Materials, Work in Progress, Finished Goods (Manufactured and Traded) and Stores and Spares. Inventories are valued at the lower of cost and the net realisable value after providing for obsolescence and other losses, where considered necessary. Cost is determined on Weighted Average basis. Cost includes all charges in bringing the goods to their present location and condition, including octroi and other levies, transit insurance and receiving charges. The cost of Work-in-progress and Finished Goods comprises of materials, direct labour, other direct costs and related production overheads and Excise duty as applicable. Net realizable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

xii) Employee Benefits

(i) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

(ii) Other long-term employee benefit obligations

The liabilities for earned leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in profit or loss. The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur. Long Term Service Awards are recognised as a liability at the present value of the defined benefit obligation as at the balance sheet date.

(iii) Post-employment obligations

The Group operates the following post-employment schemes:

- Defined Contribution plans such as provident fund, superannuation, pension, employee state insurance scheme and other social security schemes in overseas jurisdictions

- Defined Benefit plans such as provident fund and Gratuity, Pension fund (in case of a subsidiary)

In case of Provident fund, contributions are made to a Trust administered by the Group, except in case of certain employees, where the Contributions are made to the Regional Provident Fund Office.

Defined Contribution Plans

The Group's contribution to provident fund (in case of contributions to the Regional Provident Fund office), pension and employee state insurance scheme and other social security schemes in overseas jurisdictions are considered as defined contribution plans, as the Group does not carry any further obligations apart from the contributions made on a monthly basis and are charged as an expense based on the amount of contribution required to be made.

In case of 401(k) contribution plan (in case of US subsidiaries), contribution by the Group is discretionary. Any contribution made is charged to the Statement of Profit and Loss.

Defined Benefit Plan

The liability or asset recognised in the balance sheet in respect of defined benefit provident and gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

Except in case of an overseas subsidiary, the present value of the defined benefit obligation denominated in INR is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

In case of an overseas subsidiary, where pension is classified as a Defined Benefit Scheme, assets are measured using market values and liabilities are measured using a Projected Unit Credit method and discounted using market yields determined by reference to high-quality corporate bonds that are denominated in the currency in which benefits will be paid, and that have terms approximating to the terms of the related obligation. Shortfall, if any, is provided for in the financial statements.

Remeasurement gains and losses arising from experience adjustments, changes in actuarial assumptions and return on plan assets (excluding interest income) are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

Bonus Plans - The Group recognises a liability and an expense for bonuses. The group recognises a provision where contractually obliged or where there is a past practice that has created a constructive obligation.

xiii) Provisions and Contingent Liabilities

Provisions are recognised when there is a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a reliable estimate of the amount of the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material). The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the Group or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

xiv) Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable.

Sale of goods: Revenue from the sale of goods is recognised when the Group transfers Control of the product. Control of the product transfers upon shipment of the product to the customer or when the product is made available to the customer, provided transfer of title to the customer occurs and the Group has not retained any significant risks of ownership or future obligations with respect to the product shipped. Amounts disclosed as revenue are net off returns, trade allowances, rebates and indirect taxes.

Sale of Services: In contracts involving the rendering of services/development contracts, revenue is recognised at the point in time in which services are rendered. Advisory fees are accounted on an accrual basis in accordance with the Investment Management Agreement and Advisory Services Agreement.

In case of fixed price contracts, the customer pays a fixed amount based on the payment schedule and the Group recognises revenue on the basis of input method. If the services rendered by the Group exceed the payment, a Contract asset (Unbilled Revenue) is recognised. If the payments exceed the services rendered, a contract liability (Deferred Revenue/Advance from Customers) is recognised.

If the contracts involve time-based billing, revenue is recognised in the amount to which the Group has a right to invoice.

Interest: Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the amortised cost and at the effective interest rate applicable. Penal / Default interest income is booked on receipt basis, any penal / default interest if not received is to be received / waived at the time of closure of Loan

Dividend: Dividend income from investments is recognised when the shareholder's right to receive payment has been established (provided that it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably).

xv) Foreign Currency Transactions

In preparing the financial statements of each individual Company entity, transactions in currencies other than the entity's functional currency (foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in profit or loss. Non-monetary items carried at fair value that are denominated in foreign currencies are translated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences on monetary items are recognised in profit or loss in the period in which they arise.

For the purpose of presenting consolidated financial statements, the assets and liabilities of the Company's foreign operations that have a functional currency other than presentation currency i.e. Indian Rupees are translated using exchange rates prevailing at the reporting date. Income and expense items are translated at the average exchange rates for the period. Exchange differences arising, if any, are recognized in other comprehensive income and held in foreign currency translation reserve (FCTR), a component of equity, except to the extent that the translation difference is allocated to non-controlling interest. When a foreign operation is disposed off, the relevant amount recognized in FCTR is transferred to the statement of income as part of the profit or loss on disposal. Goodwill and fair value adjustments arising on the acquisition of a foreign operation are treated as assets and liabilities of the foreign operation and translated at the exchange rate prevailing at the reporting date.

Foreign currency differences arising from translation of Intercompany receivables or payables relating to foreign operations, the settlement of which is neither planned nor likely in the foreseeable future, are considered to form part of net investment in foreign operation and are recognized in FCTR.

xvi) **Exceptional Items**

When items of income and expense within profit or loss from ordinary activities are of such size, nature or incidence that their disclosure is relevant to explain the performance of the enterprise for the period, the nature and amount of such items is disclosed separately as Exceptional items.

xvii) **Government Grants**

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the group will comply with all attached conditions.

Government grants relating to income are deferred and recognised in the profit or loss over the period necessary to match them with the costs that they are intended to compensate and presented within other income.

Government grants relating to purchase of property, plant and equipment are included in non-current liabilities as deferred income and are credited to profit or loss on a straight line basis over the expected lives of the related assets and presented within other income.

xviii) **Leases**

Effective April 01, 2019, the Company has adopted Ind AS 116 "Leases", applied to all lease contracts existing on April 1, 2019 using the modified retrospective method of transition. The Company's lease asset classes primarily consist of leases for land, buildings and IT assets.

At the date of commencement of the lease, the Group recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Group recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of the leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the group changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

The following is the summary of practical expedients elected on initial application:

1. Applied a single discount rate to a portfolio of leases of similar assets in similar economic environment with a similar end date
2. Applied the exemption not to recognize right-of-use assets and liabilities for leases with less than 12 months of lease term on the date of initial application
3. Applied the practical expedient to grandfather the assessment of which transactions are leases. Accordingly, Ind AS 116 is applied only to contracts that were previously identified as leases under Ind AS 17.

xix) **Taxes on Income**

Tax expense for the period, comprising current tax and deferred tax, are included in the determination of the net profit or loss for the period. Current tax is measured at the amount expected to be paid to the tax authorities in accordance with the taxation laws prevailing in the respective jurisdictions.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

Current tax assets and current tax liabilities are offset when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle the asset and the liability on a net basis. Deferred tax assets and deferred tax liabilities are offset when there is a legally enforceable right to set off assets against liabilities representing current tax and where the deferred tax assets and the deferred tax liabilities relate to taxes on income levied by the same governing taxation laws.

Deferred tax liabilities are not recognised for temporary differences between the carrying amount and tax bases of investments in subsidiaries, associates and interest in joint arrangements where the group is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

PIRAMAL ENTERPRISES LIMITED

Notes to the Consolidated financial statements for the year ended March 31, 2022

Deferred tax assets are not recognised for temporary differences between the carrying amount and tax bases of investments in subsidiaries, associates and interest in joint arrangements where it is not probable that the differences will reverse in the foreseeable future and taxable profit will not be available against which the temporary difference can be utilised.

xx) Cash and Cash Equivalents

In the cash flow statement, cash and cash equivalents includes cash on hand, demand deposits with banks, other short-term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

xxi) Borrowing Costs

General and specific borrowing costs directly attributable to acquisition or construction of qualifying assets (i.e. those Property, Plant & Equipments which necessarily take a substantial period of time to get ready for their intended use) are capitalised. Other borrowing costs are recognised as an expense in the period in which they are incurred.

xxii) Segment Reporting

The Chairman has been identified as the Chief Operating Decision Maker (CODM) as defined by Ind AS 108, "Operating Segments." Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision makers. The accounting policies adopted for segment reporting are in conformity with the accounting policies adopted for the Group. Revenue and expenses have been identified to segments on the basis of their relationship to the operating activities of the segment. Income / Costs which relate to the Group as a whole and are not allocable to segments on a reasonable basis, have been included under Unallocated Income / Costs. Interest income and expense are not allocated to respective segments (except in case of Financial Services segment).

xxiii) Dividends

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

xxiv) Share appreciation rights

Liabilities for the group's share appreciation rights are recognised as employee benefit expense over the relevant service period. The liabilities are remeasured to fair value at each reporting date and are presented as employee benefit obligations in the balance sheet.

xxv) Securitization and direct assignment

The Group transfers loans through securitisation and direct assignment transactions. The transferred loans are de-recognised and gains/losses are accounted for, only if the Group transfers substantially all risks and rewards specified in the underlying assigned loan contract. In accordance with the Ind AS 109, on de-recognition of a financial asset under assigned transactions for a fee, the Group recognises the fair value of future service fee income over service obligations cost on net basis as service fee income in the statement of profit and loss and, correspondingly creates a service asset in balance sheet. The Group recognises either a servicing asset or a servicing liability for servicing contract. If the fee to be received is not expected to compensate the Group adequately for performing the servicing activities, a servicing liability for the servicing obligation is recognised at its fair value. If the fee to be received is expected to be more than adequate compensation for the servicing activities, a servicing asset is recognised. Corresponding amount is recognised in Statement of Profit and Loss.

xxvi) Standards issued but not yet effective

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 23, 2022, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2022, applicable from April 1st, 2022, as below:

Ind AS 103 - Reference to Conceptual Framework

The amendments specify that to qualify for recognition as part of applying the acquisition method, the identifiable assets acquired and liabilities assumed must meet the definitions of assets and liabilities in the Conceptual Framework for Financial Reporting under Indian Accounting Standards (Conceptual Framework) issued by the Institute of Chartered Accountants of India at the acquisition date. These changes do not significantly change the requirements of Ind AS 103. The Company does not expect the amendment to have any significant impact in its financial statements.

Ind AS 16 - Proceeds before intended use

The amendments mainly prohibit an entity from deducting from the cost of property, plant and equipment amounts received from selling items produced while the company is preparing the asset for its intended use. Instead, an entity will recognise such sales proceeds and related cost in profit or loss. The Company does not expect the amendments to have any impact in its recognition of its property, plant and equipment in its financial statements.

Ind AS 37 - Onerous Contracts - Costs of Fulfilling a Contract

The amendments specify that the 'cost of fulfilling' a contract comprises the 'costs that relate directly to the contract'. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract (examples would be direct labour, materials) or an allocation of other costs that relate directly to fulfilling contracts. The amendment is essentially a clarification and the Company does not expect the amendment to have any significant impact in its financial statements.

Ind AS 109 - Annual Improvements to Ind AS (2021)

The amendment clarifies the treatment of any cost or fees incurred by an entity in the process of derecognition of financial liability in case of repurchase of the debt instrument by the issuer. The Company does not expect the amendment to have any significant impact in its financial statements.

Ind AS 106 - Annual Improvements to Ind AS (2021)

The amendments remove the illustration of the reimbursement of leasehold improvements by the lessor in order to resolve any potential confusion regarding the treatment of lease incentives that might arise because of how lease incentives were described in that illustration. The Company does not expect the amendment to have any significant impact in its financial statements.

xxvii) **Rounding of amounts**

All amounts disclosed in the financial statements and notes have been rounded off to the nearest crores as per the requirement of Division II, Schedule III, unless otherwise stated.

2b. Critical accounting judgements and key sources of estimation uncertainties

The preparation of the financial statements in conformity with Ind AS requires the Management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) and the reported income and expenses during the year. The Management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Future results could differ due to these estimates and the differences between the actual results and the estimates are recognised in the periods in which the results are known / materialise.

i) **Estimation of uncertainty relating to COVID-19 global health pandemic:**

In assessing the recoverability of loans, receivables, intangible assets, deferred tax assets and investments, the Group has considered internal and external sources of information, including credit reports, economic forecasts and industry reports up to the date of approval of these Consolidated financial statements. The Group has performed sensitivity analysis on the assumptions used and based on current indicators of future economic conditions, the carrying amount of these assets represent the Group's best estimate of the recoverable amounts. As a result of the uncertainties resulting from COVID-19, the impact of this pandemic may be different from those estimated as on the date of approval of these financial statements and the Group will continue to monitor any changes to the future economic conditions. Also refer note 3. 10. 48 (a). 48 (f). 53.

ii) **Fair Valuation:**

Some of the Group's assets and liabilities are measured at fair value for financial reporting purposes. In estimating the fair value of an asset and liability, the Group uses market observable data to the extent it is available. When Level 1 inputs are not available, the Group engages third party qualified external valuers to establish the appropriate valuation techniques and inputs to the valuation model.

Information about the valuation techniques and inputs used in determining the fair value of various assets and liabilities are disclosed in Note 53.

iii) **Impairment of Goodwill (Refer Note 40)**

Determining whether goodwill is impaired requires an estimation of the recoverable amount of the cash-generating units to which goodwill has been allocated. The recoverable amount is higher of the Value-in-Use and Fair Value Less Cost To Sell (FVLCTS). The value in use calculation requires the directors to estimate the future cash flows expected to arise from the cash-generating unit and a suitable discount rate in order to calculate the present value. Where the actual future cash flows are less than expected, a material impairment loss may arise.

iv) **Expected Credit Loss:**

When determining whether the risk of default on a financial instrument has increased significantly since initial recognition, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Group's historical experience and credit assessment and including forward-looking information.

The inputs used and process followed by the Group in determining the increase in credit risk have been detailed in Note 48(f).

v) **Deferred Taxes**

Deferred tax is recorded on temporary differences between the tax bases of assets and liabilities and their carrying amounts, at the rates that have been enacted or substantively enacted at the reporting date. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable profits during the periods in which those temporary differences and tax loss carry-forwards become deductible. The Group considers the expected reversal of deferred tax liabilities and projected future taxable income in making this assessment. The amount of the deferred tax assets considered realizable, however, could be reduced in the near term if estimates of future taxable income during the carry-forward period are reduced.

vi) **Functional Currency (Refer Note 48(d))**

Functional currency is the currency of the primary economic environment in which the Company and its subsidiaries operate. The Group assesses the factors as per Ind AS 21 in determining the functional currency of the Company and its subsidiaries. If there is any change in underlying transactions, events and conditions in the Company or its subsidiary, the Group reassesses the functional currency.

vii) **Assessment of Significant influence (Refer Note 39 (c))**

Irrespective of the voting rights in an entity, if the Company has a right to appoint Directors or participates in all significant financial and operating decisions of an Investee, there is an existence of significant influence and the investment is considered as an Associate.

viii) **Assessment of Joint control (Refer Note 39 (b))**

Irrespective of the voting rights in an entity, if a contractual arrangement requires unanimous consent from all the parties for the relevant activities and if there is a separation of the legal form of the structure, the arrangement is accounted as a Joint venture.

ix) **Impairment loss in investment property carried at cost:**

The Company conducts impairment reviews of Investment property, whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable or tests for impairment annually. Determining whether an asset is impaired requires an estimation of the recoverable amount, which requires the Company to estimate the value in use which base on future cash flows and a suitable discount rate in order to calculate the present value.

^ Depreciation for the year includes depreciation amounting to Rs. 7.88 Crores (Previous Year Rs. 8.38 Crores) on assets used for Research and Development locations at Ermore and Mumbai.

* All immovable properties are held in the name of the Company except for certain assets which were transferred on account of business combination and are in the name of erstwhile Dewan Housing Finance Corporation Limited (wholly-owned subsidiary).

^ The Company has a 25% share in joint ownership of Helicopter

Considering internal and external sources of information, the Group has evaluated at the end of the reporting period, whether there is any indication that any intangible asset may be impaired. Where such indication exists, the Group has estimated the recoverable amount of the intangible assets based on 'value in use' method. The financial projections on the basis of which the future cash flows have been estimated consider (a) reassessment of the discount rates, (b) revisiting the growth rates factored while arriving at terminal value, and these variables have been subjected to a sensitivity analysis.

The carrying amount of the intangible assets represent the Group's best estimate of the recoverable amounts.

Refer Note 28 B for the contractual capital commitments for purchase of Property, Plant & Equipment

Refer Note 43 for the assets mortgaged as security against borrowings

In the Pharmaceuticals Manufacturing and Services business, the credit period on sale of goods ranges from 7 to 150 days. The Group has a documented Credit Risk Management Policy for its Pharmaceuticals Manufacturing and Services business. For every new customer (except established large pharma companies), the group performs a credit rating check using an external credit agency. If a customer clears the credit rating check, the credit limit for that customer is derived using internally documented scoring systems. The credit limits for all the customers are reviewed on an ongoing basis.

The Group has used a practical expedient by computing the expected credit loss allowance for External Trade Receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience, adjusted for forward looking information including the likelihood of increased credit risk considering emerging situations due to COVID-19. Based on external sources of information the group has concluded that the carrying amount of the trade receivables represent the Group's best estimate of the recoverable amounts'. The expected credit loss allowance is based on the ageing of the days the receivables are due and the rates as given in the provision matrix. The provision matrix at the end of the reporting period is as under:

Ageing - Pharmaceuticals Manufacturing and Services business	Expected credit loss (%) - For external customers
Less than 365 days	0.30%
More than 365 days	100.00%

Ageing	Expected credit loss	
	As at March 31, 2022	As at March 31, 2021

Capital Reserve

This reserve is outcome of business combinations carried out during the current year and previous years

Securities Premium

Securities premium is used to record the premium on issue of shares. The reserve is utilised in accordance with the provision of the Companies Act, 2013.

Equity component of Compulsorily Convertible Debentures

This is the equity component of the issued Compulsorily Convertible Debentures. The liability component is reflected in financial liabilities. (Refer note 18: Non-current borrowings and 24: Other financial liabilities (Included in current maturities of long-term debt). For terms of issue in relation to Compulsorily Convertible Debentures issued during the previous year, refer note 18.

Capital Redemption Reserve

This reserve was created as per requirements of Companies Act pursuant to buyback of equity shares and redemption of preference shares.

Debenture Redemption Reserve

The Debenture redemption reserve is created as per the requirements of Rule 18(7) of the Companies (Share Capital and Debentures) Rules, 2014. Debenture redemption reserve has not been created in respect of subsidiary which has privately placed debentures in accordance with the Companies (Share Capital and Debentures) Rules, 2014.

General Reserve

General reserve is created from time to time by way of transfer of profits from retained earnings for appropriation purposes. It is created by a transfer from one component of equity to another and is not an item of other comprehensive income.

Foreign Currency Translation Reserve

Exchange differences arising on translation of foreign operations are recognised in other comprehensive income and accumulated in a separate reserve within equity. The cumulative amount is reclassified to profit or loss when the net investment is disposed off.

Reserve Fund u/s 45-IC (1) of Reserve Bank of India Act, 1934

Reserve Fund is required to be maintained u/s 45-IC(1) of the Reserve Bank of India Act, 1934 for Non Banking Financial Companies. During the year ended March 31, 2022, the Group has transferred an amount of Rs. 85.06 Crores (Previous year Rs. 99.43 Crores), being 20% of profit after tax computed in accordance with IND AS.

Reserve Fund u/s 29C of the NHB Act, 1987

Reserve Fund is required to be maintained u/s 29C of the NHB Act, 1987 for Housing Finance Companies. During the year ended March 31 2022, the Company has transferred an amount of Rs. 105.15 Crores (Previous year Rs. 206.89 Crores), being 20% of profit after tax.

FVTOCI - Equity Instruments

The Group has elected to recognise changes in the fair value of certain investments in equity securities in other comprehensive income. These changes are accumulated within the FVTOCI equity investments reserve within equity. The Group transfers amounts from this reserve to retained earnings when the relevant equity securities are derecognised.

FVTOCI - Debt Instruments

The Group has elected to recognise changes in the fair value of certain investments in debt securities in other comprehensive income. These changes are accumulated within the FVTOCI debt investments reserve within equity. The Group transfers amounts from this reserve to Consolidated statement of profit & loss when the relevant debt securities are derecognised.

Cash Flow Hedging Reserve

The Group uses hedging instruments as part of its management of foreign currency risk associated with its Foreign Currency Non-repatriable loans and for forecasted sales. Amounts recognised in cash flow hedging reserve is reclassified to Consolidated Statement of Profit and Loss when the hedged items affect the statement of Profit and Loss. To the extent these hedges are effective, the change in the fair value of hedging instrument is recognised in the Cash Flow Hedging Reserve (Refer Note 48(e)).

On May 13, 2021, a Dividend of Rs. 33 per equity share (Face value of Rs. 2/- each) amounting to Rs. 787.59 Crores was recommended by the Board of Directors which was approved by the Shareholders in annual general meeting held on May 13, 2021.

On May 26, 2022, a Dividend of Rs. 33 per equity share (Face value of Rs. 2/- each) amounting to Rs. 787.59 Crores has been recommended by the Board of Directors which is subject to approval of the Shareholders. The amounts calculated are based on the number of shares likely to be entitled for dividend as estimated on May 26, 2022.

Retained Earnings

Retained earnings are the profits that Company has earned to date, less any dividends or other distributions paid to investors.

Amalgamation Adjustment Reserve

Amalgamation adjustment reserve has been created on account of business combination (refer note 56 A(ii)) done during FY 2021-22.

For movement in other equity during the year, refer Statement of Changes in Equity.

	TOTAL		1,167.10		277.23

Note : Includes amount of Rs 0.53 crores of unclaimed dividend which was due for payment to the investor education and protection fund under section 125 of the Companies Act 2013. Pursuant to the corporate insolvency resolution process initiated by the Reserve Bank of India (RBI) in the Company (i.e. the erstwhile Dewan Housing Finance Corporation Limited (DHFL)) and the subsequent order of the Hon'ble National Company Law Tribunal (NCLT), a Moratorium was Imposed on DHFL in terms of the Insolvency and Bankruptcy Code, 2016 (Code) w.e.f. from 3 December 2019.

On account of Moratorium, alienation of any assets of DHFL was prohibited until the completion of the insolvency process. Consequently, the Administrator decided that the amount lying in the bank accounts of DHFL (including unclaimed dividend accounts) shall not be alienated or transferred in any manner, and that any such alienation/transfer, while Moratorium is in force, would result in violation of Section 14 of the Code. Further, all bank accounts of DHFL, including unclaimed dividend accounts, were frozen for any debit transactions.

The implementation of the insolvency resolution plan, as approved by the NCLT, was completed on 30 September 2021 and the new board of directors was instated on 30 September 2021 subsequent to which the Company was able to take practical steps to reactivate the relevant unclaimed dividend accounts. The relevant unclaimed dividend accounts were reactivated in the month of March 2022 and April 2022 after following the due process and the Company (in coordination with Registrar and Transfer Agents and Banks) is in the process of reconciling the details of unclaimed/unpaid dividends and completing the required compliances under Section 124 of the Companies Act, 2013.

^ Note on Common control transactions with subsidiaries

The Group undertook the following common control transaction:

The Board of Directors ('Board') of the Company at their meeting held on June 26, 2020, had inter alia, approved:

a. the sale of the major line of pharmaceutical business ('Pharma Business'), including those held by the Company directly and through its wholly owned subsidiaries, to Piramal Pharma Limited, wholly owned subsidiary of the Company ('PPL').

b. the strategic growth investment by CA Clover Intermediate II Investments (now known as CA Alchemy Investments) ("Carlyle"), an affiliated entity of CAP V Mauritius Limited, an investment fund managed and advised by affiliated entities of The Carlyle Group Inc., for a 20% stake in the fresh equity capital of PPL.

This transaction was successfully closed on October 6th, 2020 on receipt of requisite approvals. As a result, PPL a subsidiary of the Company received Rs.3,523.40 crores as consideration towards 20% equity investment from CA Alchemy Investments. The excess of consideration received over the net assets of the Pharma business attributable to the Non-Controlling shareholder has been adjusted to Equity, in accordance with IND AS 110 "Consolidated Financial Statements".

PIRAMAL ENTERPRISES LIMITED

7	India Resurgence ARC Trust I (investment redeemed on October 14, 2021)	India	50.00%
8	Piramal Structured Credit Opportunities Fund (PSCOF) (w.e.f 26 February 2020)	India	25.00%
9	Pramerica Life Insurance Limited (w.e.f. September 30, 2021)	India	50.00%

Investment in India Resurgence ARC Private Limited

India Resurgence ARC Private Limited was a wholly owned subsidiary of the Company till July 18, 2017. On July 19, 2017, the Company has entered into a joint venture agreement with Bain Capital Credit India Investments (a company existing under the laws of the Republic of Mauritius) to sell its shares to the latter. The contractual arrangement states that the Company and the other shareholder shall nominate one director each to the board in addition to the two Independent directors. For any meeting of the board, the quorum shall be two directors provided that one director from each party is present. This gives both the parties a joint control over India Resurgence ARC Private Limited.

Hence with effect from July 19, 2017, the investment in India Resurgence ARC Private Limited is considered as Investment In Joint Venture and accordingly this is accounted as per the equity method.

Investment in India Resurgence Asset Management Business Private Limited

India Resurgence Asset Management Business Private Limited was a wholly owned subsidiary of the Company till February 6, 2018. On February 7, 2018, the Company has entered into a joint venture agreement with Bain Capital Mauritius (a private limited company incorporated in Mauritius) to sell its shares to the latter. The contractual arrangement states that the Company and the other shareholder shall nominate one director each to the board in addition to the two Independent directors. For any meeting of the board, the quorum shall be two directors provided that one director from each party is present. This gives both the parties a joint control over India Resurgence Asset Management Business Private Limited.

Hence with effect from February 7, 2018, the investment in India Resurgence Asset Management Business Private Limited is considered as investment in Joint Venture and accordingly this is accounted as per the equity method.

Investment in Asset Resurgence Mauritius Manager

Asset Resurgence Mauritius Manager is a Joint Venture between Bain Capital Credit Member LLC and Piramal Fund Management Private Limited. Asset Resurgence Mauritius Manager was incorporated in the Republic of Mauritius as a private company under the Mauritius Companies Act 2001 on October 10, 2017 and holds a Category I Global Business License and a CIS Manager issued by the Financial Services Commission. The principal activity of Asset Resurgence Mauritius Manager is to provide investment management services.

Investment in Piramal Ivanhoe Residential Equity Fund 1

Piramal Ivanhoe Residential Equity Fund - 1 ('Fund') is a contributory determinate investment trust organised under the Indian Trust Act 1882 and has been registered with SEBI as Category II Alternative Investment Fund.

Investment in India Resurgence Fund - Scheme - 2

India Resurgence Fund, is a Category II, SEBI registered AIF which is managed by India Resurgence Asset Management Business Private Limited, a 50:50 joint venture between Piramal Enterprises Limited and Bain Capital. India Resurgence Fund is a trust which has been set up on March 2, 2017 and registered with SEBI on June 28, 2017. India Resurgence Fund has floated India Resurgence Fund Scheme 2 for investments into distressed to control investment opportunities.

India Resurgence ARC Trust I

India Resurgence ARC Trust I ('the Trust') is declared as a Trust of India Resurgence ARC Private Limited in accordance with the Indian Trust Act, 1882 by way of a trust deed dated November 12, 2018. India Resurgence ARC Trust I is being managed by India Resurgence ARC Pvt Ltd(Trustee) and this trustee entity is joint venture between Bain Capital and Piramal Enterprise. Shareholding of Trustee entity is being held 50:50 by Bain Capital & Piramal Enterprise.

Piramal Structured Credit Opportunities Fund

Piramal Structured Credit Opportunities Fund' (the 'Fund') has been established under the provisions of the Indian Trust Act, 1882. Total share of profits from Associates and Joint Venture	652.89	338.43

PIRAMAL ENTERPRISES LIMITED**Notes to the Consolidated financials statements for the year ended March 31, 2022****40. Goodwill**

Movement in Goodwill on Consolidation during the year:

Particulars	(Rs. in Crores)	
	As at March 31, 2022	As at March 31, 2021
Opening balance	1,114.28	1,139.07
Add: Addition due to acquisition during the year (Refer Note 56)	145.06	8.08
Add: Currency translation differences	35.36	(32.87)
Closing balance	1,294.70	1,114.28

For the purpose of Impairment testing, goodwill acquired in a business combination is allocated to the cash generating units (CGU) or group of CGUs, which are benefited from the synergies of the acquisition. Goodwill is reviewed for any Impairment at the operating segment, which is represented through group of CGUs.

The following table presents the allocation of goodwill to reportable segments:

Particulars	(Rs. in Crores)	
	As at March 31, 2022	As at March 31, 2021
Pharmaceuticals	1,030.50	856.74
Financial Services	264.20	257.54
Total	1,294.70	1,114.28

The recoverable amount of a CGU is the higher of its fair value less cost to sell and its value - in - use.

CGUs to which goodwill has been allocated are tested for impairment annually, or more frequently when there is indication for impairment. The financial projections basis which the future cash flows have been estimated consider (a) the increase in economic uncertainties due to COVID-19, (b) reassessment of the discount rates, (c) revisiting the growth rates factored while arriving at terminal value and subjecting these variables to sensitivity analysis. If the recoverable amount of a CGU is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit on a pro-rata basis of the carrying amount of each asset in the unit.

The recoverable amount was computed using the discounted cash flow method for which the estimated cash flows for a period of 5 years in the Pharmaceuticals and Financial Services segment were developed using internal forecasts, and a pre-tax discount rate of 10.77% to 24.14% (March 31, 2021: 10% to 13.50%). The cash flows beyond 5 years have been extrapolated assuming 2.87% to 5% (March 31, 2021: 3% to 5%) growth rates, depending on the cash generating unit and the country of operations.

The management believes that any possible changes in the key assumptions would not cause the carrying amount to exceed the recoverable amount of cash generating unit.

Based on the above, no impairment was identified as of March 31, 2022 and March 31, 2021 as the recoverable value of the segments exceeded the carrying values.

PIRAMAL ENTERPRISES LIMITED

Notes to the Consolidated financials statements for the year ended March 31, 2022

41 Employee Benefits :

Brief description of the Plans:

Other Long Term Employee Benefit Obligations:

Leave Encashment, which are expected to be availed or encashed beyond 12 months from the end of the year are treated as other long term employee benefits. The Group's liability is actuarially determined (using the Projected Unit Credit method) at the end of each year. Actuarial losses/gains are recognised in the Consolidated Statement of Profit and Loss in the year in which they arise.

Long Term Service Awards are recognised as a liability at the present value of the defined benefit obligation as at the balance sheet date.

Defined Contribution plans:

The Group's defined contribution plans are Provident Fund (in case of certain employees), Superannuation, Overseas Social Security Plans, Employees State Insurance Fund and Employees' Pension Scheme (under the provisions of the Employees' Provident Funds and Miscellaneous Provisions Act, 1952) and 401(k) plan contribution (in case of US subsidiaries). The Group has no further obligation beyond making contributions to such plans.

Post-employment benefit plans:

Gratuity for employees in India is paid as per the Payment of Gratuity Act, 1972. Employees who are in continuous service for a period of 5 years are eligible for gratuity. The amount of gratuity payable on retirement/termination is the employees last drawn basic salary per month computed proportionately for the number of years of service. The Group has both funded and non funded plans and makes contributions to recognised funds in India in case of funded plans.

The Group's Gratuity Plan is administered by an insurer and the Investments are made in various schemes of the trust. The Group funds the plan on a periodical basis.

In case of certain employees, the Provident fund is administered through an in-house trust. Periodic contributions to the trust are invested in various instruments considering the return, maturity, safety, etc., within the overall ambit of the Provident Fund Trust Rules and investment pattern notified through the Ministry of Labour investment guidelines for exempted provident funds.

In case of a foreign subsidiary, the subsidiary sponsors a defined benefit retirement plan. The benefits are based on employees' years of experience and final remuneration. The plan was funded through a separate trustee-administered fund. The pension cost for the main defined plans is established in accordance with the advice of independent qualified actuary. This fund was closed to future accrual of benefits with effect from November 15, 2017 and there are no active members.

These plans typically expose the Group to actuarial risks such as: investment risk, interest rate risk, longevity risk and salary risk.

Investment risk

The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds. Plan investment is a mix of investments in government securities, equity, mutual funds and other debt instruments.

Interest risk

A decrease in the bond interest rate will increase the plan liability; however, this will be partially offset by an increase in the return on the plan's debt investments.

Longevity risk

The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

Salary risk

The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

The Group has both funded and non funded plans and makes contributions to recognised funds in India in case of funded plans. The Group does not fully fund the liability and maintains a target level of funding to be maintained over a period of time based on estimations of expected gratuity payments. In respect of certain employees, Provident Fund contributions are made to a Trust administered by the Group. The contributions made to the trust are recognised as plan assets. Plan assets in the Provident fund trust are governed by local regulations, including limits on contributions in each class of investments.

The Group actively monitors how the duration and the expected yield of the investments are matching the expected cash outflows arising from the employee benefit obligations, with the objective that assets of the gratuity / provident fund obligations match the benefit payments as they fall due. Investments are well diversified, such that the failure of any single investment would not have a material impact on the overall level of assets.

A large portion of assets consists of government and corporate bonds, although the Group also invests in equities, cash and mutual funds. The plan asset mix is in compliance with the requirements of the regulations in case of Provident fund.

In case of an overseas subsidiary, the pension plans were funded through a separate trustee - administered fund. The subsidiary employs a building block approach in determining the long term rate of return on pension plan assets. Historical markets are studied and assets with higher volatility are assumed to generate higher returns consistent with widely accepted capital market principles.

Actuarial (Gains)/Losses on Obligation For the Period - Due to changes in financial assumptions	(1.53)	0.33	(60.44)	82.44	-	-	(0.10)	-
Actuarial (Gains)/Losses on Obligation For the Period - Due to experience adjustment	1.69	3.90	-	-	-	-	0.01	-
Return on Plan Assets, Excluding Interest Income	-	(0.10)	(46.85)	(95.52)	-	-	0.59	-
Change in Asset Calling	-	-	107.29	12.08	-	-	-	-
Net (Income)/Expense For the Period Recognized in OCI	(0.96)	3.69	-	-	-	-	0.50	-

F. Significant Actuarial Assumptions:

Particulars	Figures In (%)							
	Gratuity		(Funded) Pension		Provident Fund		(Non-Funded) Gratuity	
	As at March 31, 2022	2021	As at March 31, 2022	2021	As at March 31, 2022	2021	As at March 31, 2022	2021
Discount Rate (per annum)	6.05% to 6.84%	6.26% to 6.57%	2%	1%	6.84%	6.49%	5.18%	NA
Salary escalation rate	6% to 10%	6% to 10%	NA	1%	NA	NA	7.00%	NA
Expected Rate of return on Plan Assets (per annum)	6.05% to 6.84%	6.26% to 6.57%	2%	2%	6.84% to 8.10%	6.49%	NA	NA

The expected rate of return on plan assets is based on market expectations at the closing of the year. The rate of return on long-term bonds is taken as reference for this purpose. In case of certain employees, the Provident Fund contribution is made to a Trust administered by the Group. In terms of the Guidance note issued by the Institute of Actuaries of India, the actuary has provided a valuation of Provident fund liability based on the assumptions listed above and determined that there is no shortfall at the end of each reporting period.

G. Movements in the present value of net defined benefit obligation are as follows:

Particulars	(Rs. In Crores)					
	Gratuity		(Funded) Pension		(Non-Funded) Gratuity	
	As at March 31, 2022	2021	As at March 31, 2022	2021	As at March 31, 2022	2021

I. Other Details

Particulars	(Rs. In crores)	
	As at March 31, 2022	As at March 31, 2021
Number of Active Members	7,519	4,701
Per Month Salary For Active Members	28.42	16.53
Average Expected Future Service (Years)	5 to 8 Years	7 to 8 Years
Projected Benefit Obligation (PBO) (Rs. In crores)	124.50	90.32
Prescribed Contribution For Next Year (12 Months) (Rs. In crores)	29.93	17.92

J. Cash Flow Projection: From the Fund

Projected Benefits Payable in Future Years From the Date of Reporting	(Rs. In crores)	
	Estimated for the year ended March 31, 2022	Estimated for the year ended March 31, 2021
1st Following Year	25.21	19.91
2nd Following Year	11.62	6.01
3rd Following Year	11.73	8.93
4th Following Year	11.15	8.02
5th Following Year	10.44	7.66
Sum of Years 6 To 10 Years	50.04	35.66
Sum of Years 11 Years and above	33.86	15.53

The Group's Gratuity Plan is administered by an insurer and the Investments are made in various schemes of the trust. The Group funds the plan on a periodical basis.

In case of certain employees, the Provident fund is administered through an in-house trust. Periodic contributions to the trust are invested in various instruments considering the return, maturity, safety, etc., within the overall ambit of the Provident Fund Trust Rules and investment pattern notified through the Ministry of Labour investment guidelines for exempted provident funds.

Weighted average duration of the defined benefit obligation is in the range of 7 - 11 years (Previous year 7 - 11 years)

K. Sensitivity Analysis

Projected Benefit Obligation	(Rs. In crores)			
	Gratuity - Funded		Pension - Funded	
	As at March 31, 2022	As at March 31, 2021	As at March 31, 2022	As at March 31, 2021
Impact of +1% Change in Rate of Discounting	(6.16)	(5.32)	-	-
Impact of -1% Change in Rate of Discounting	4.54	5.32	-	-
Impact of +1% Change in Rate of Salary Increase	6.37	5.27	-	-
Impact of -1% Change in Rate of Salary Increase	(6.13)	(4.72)	-	-

The above sensitivity analyses are based on change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the balance sheet.

The estimates of future salary increases, considered in actuarial valuation, take account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

The liability for Long term Service Awards (Non - Funded) as at year end is Rs. 3.77 crores (Previous year - Rs. 3.14 Crores)

The liability for Leave Encashment (Non - Funded) as at year end is Rs. 49.20 Crores (Previous year Rs. 55.04 Crores)

Notes to the Consolidated financial statements for the year ended March 31, 2022

43 Property, Plant & Equipment, Brands and Trademarks, Investment in Non Convertible Debentures, Inter Corporate Deposits and Other Financial Assets are mortgaged / hypothecated to the extent of Rs. 54,828.73 Crores (As on March 31, 2021 Rs. 39,121.92 Crores) as a security against long term secured borrowings as at March 31, 2022.
Plant & Equipment, Inventories, Trade receivables, Investment in Non Convertible Debentures and Inter Corporate Deposits are hypothecated as a security to the extent of Rs. 779.43 Crores (As on March 31, 2021 Rs. 754.28 Crores) against short term secured borrowings as at March 31, 2022.

44 Earnings Per Share (EPS) - EPS is calculated by dividing the profit/ (loss) attributable to the owners of Piramal Enterprises Limited by the weighted average number of equity shares outstanding during the year. The earnings and weighted average numbers of equity shares used in calculating basic and diluted earnings per equity share are as follows:

Particulars	For the year ended March 31, 2022	For the year ended March 31, 2021
Basic EPS for the year (Rs.)		
From continuing operations	80.70	56.19
Total basic EPS	80.70	56.19
Diluted EPS for the year (Rs.)		
From continuing operations	80.40	55.68
Total diluted EPS	80.40	55.68
Face value per share (Rs.)	2.00	2.00

The Profit/ (Loss) attributable to the owners of Piramal Enterprises Limited and weighted average number of equity shares used in calculation of basic and diluted earnings per share are as follows:

(a) Profit/ (Loss) attributable to the owners of Piramal Enterprises Limited used in calculation of basic and diluted earnings per share
(Rs. In Crores)

Particulars	For the year ended March 31, 2022	For the year ended March 31, 2021
Profit/ (Loss) from continuing operations attributable to owners of Piramal Enterprises	1,923.11	1,332.34

(b) Weighted average number of shares used in calculation of basic and diluted earnings per share
(Number of shares)

Particulars	For the year ended March 31, 2022	For the year ended March 31, 2021
1. Weighted Average Number of Equity Shares for calculating Basic EPS (nos.)	23,82,93,390	23,71,27,756
2. Weighted Average Potential Equity Shares in respect of right shares reserved for CCD holders and right shares held in abeyance (nos.)	8,93,013	21,43,733
3. Total Weighted Average Number of Equity Shares for calculating Diluted EPS (nos.) (1+2)	23,91,86,403	23,92,71,489

The following additional information is presented to disclose the effect on net profit/ (loss) from continuing operations after tax and share of profits of associates and joint ventures, Basic and Diluted EPS, without the effect of tax adjustment of prior years (Refer note 51).

Particulars	(Rs. in Crores) For the year ended March 31, 2021
Profit / (Loss) from continuing operations after tax and share of profit of associates and joint ventures As reported in the consolidated financial statements	1,332.34
Add: Impact of Tax adjustment of prior years (Refer Note 51)	1,258.29
Adjusted Profit from continuing operations after tax and share of profit of associates and joint ventures	2,590.63
Basic EPS for the period (Rs.) As reported in the consolidated financial statements	56.19
Add: Impact of Tax adjustment of prior years (Refer Note 51)	53.06
Adjusted Basic EPS	109.25
Diluted EPS for the period (Rs.) As reported in the consolidated financial statements	55.68
Add: Impact of Tax adjustment of prior years (Refer Note 51)	52.59
Adjusted Diluted EPS	108.27

45 (a) The Group conducts research and development to find new sustainable chemical routes for pharmaceutical & herbal products. The Group is undertaking development activities for Oral Solids and Sterile Injectables, apart from other Active Pharmaceutical Ingredients.

The Group's research and development centers are in Mumbai, Ennore and Ahmedabad.

Details of additions to Property Plant & Equipments, Intangibles under Development and Revenue Expenditure for Department of Scientific & Industrial Research (DSIR) Recognised research and development facilities / division of the Group at Mumbai, Ennore and Ahmedabad for the year are as follows:

Description	(Rs. in Crores)	
	For the year ended March 31, 2022	For the year ended March 31, 2021
Revenue Expenditure*		
TOTAL	138.26	102.99
Capital Expenditure, Net		
Additions to Property Plant & Equipments	7.00	11.51
Additions to Intangibles under Development	8.74	6.91
TOTAL	15.74	18.42

* The amount included in Note 36, under R & D Expenses (Net) does not include Rs. 86.82 Crores (Previous year Rs. 79.30 Crores) relating to Ahmedabad location.

(b) In addition to the above, R & D Expenses (Net) included under Note 36 "Other Expenses" also includes other R & D expenditure incurred by the Group.

The results of Piramal International, Hemmo Pharmaceuticals Private Limited, Allergan India Private Limited, Piramal Critical Care Deutschland GmbH, PEL Healthcare LLC, Piramal Pharma Solutions B.V, Piramal Pharma Japan GK, Piramal Healthcare Pension Trustees Limited, Yapan Bio Private Limited, Piramal Holdings Suisse (SA), India Resurgence Asset Management Business Private Limited, India Resurgence Mauritius Manager, India Resurgence Fund Managers Private Limited DHFL Investments Limited, DHFL Advisory & Investments Private Limited, DHFL Holdings Limited, DHFL Ventures Trustee Company Private Limited, Pramerica Life Insurance Limited and Piramal Structured Credit Opportunities Fund are based on management estimates for the year ended March 31, 2022 as audited results were unavailable. The combined Revenues from operations for the year ended March 31, 2022 for all the above companies is Rs. 604.98 Crores. The combined profit (net) for the year ended March 31, 2022 for all the above companies to the Consolidated Profit and Loss is Rs. 138.13 Crores.

PIRAMAL ENTERPRISES LIMITED

Notes to the Consolidated financials statements for the year ended March 31, 2022

47 Capital Management

The Group manages its capital to ensure that it will be able to continue as going concern while maximising the return to stakeholders through the optimisation of the debt and equity balance. The capital structure of the Group consists of net debt (borrowings as detailed in notes 18 and 23 offset by cash and bank balances) and total equity of the Group.

The Group determines the amount of capital required on the basis of annual as well as long term operating plans and other strategic investment plans. The funding requirements are met through convertible and non convertible debt securities or other long-term /short-term borrowings. The Group monitors the capital structure on the basis of total debt to equity ratio and maturity profile of the overall debt portfolio of the Group.

The capital components of the Group are as given below:

	As at March 31, 2022	(Rs in Crores) As at March 31, 2021
Equity		
Total Equity	36,836.91	35,138.96
Borrowings - Non Current	36,836.91	35,138.96
Borrowings - Current	43,778.36	28,096.76
Total Debt	11,672.64	11,272.40
Cash & Cash equivalents	55,451.00	39,369.16
Net Debt	(6,440.16)	(5,719.01)
Debt/Equity Ratio	49,010.84	33,650.15
	1.33	0.96

The terms of the Secured and unsecured loans and borrowings contain certain financial covenants primarily requiring the Company and its subsidiaries to maintain financial ratios like Total Debt to Total Net Worth, Interest Coverage Ratio, Fixed Asset Cover ratio, Minimum net worth conditions, etc. The Company and its subsidiaries are broadly in compliance with the said covenants and banks have generally waived / condoned such covenants.

48 Risk Management

The Group's activities expose it to market risk, liquidity risk and credit risk.

The Group has an independent and dedicated Enterprise Risk Management (ERM) system to identify, manage and mitigate business risks.

Board has approved the Asset Liability Management Policy and the formation of Asset Liability Management Committee (ALCO). The ALCO includes the Group's senior management and an external industry expert. It defines the strategy for managing liquidity and interest rate risks in the business.

This note explains the sources of risk which the group is exposed to and how the group manages the risk and the impact of hedge accounting in the financial statements.

Risk	Exposure arising from	Management
Liquidity risk	Borrowings and other liabilities	ALCO deliberates on the static liquidity gap statement, future asset growth plans, tenor of assets, market liquidity and pricing of various sources of funds. It decides on the optimal funding mix taking into consideration the asset strategy and a focus on diversifying sources of funds.
Market risk - Interest rate	Long-term borrowings at variable rates	ALCO reviews the interest rate gap statement and the mix of floating and fixed rate assets and liabilities. The Risk Management Group has also initiated a scenario analysis to assess the short-term impact of interest rates on net interest income (NII).
Market risk - Securities price risks	Equity Investment	The Group continue to effectively evaluate various risks involved in underlying assets, before and after making any such strategic investments.
Market risk - Foreign exchange	Transactions denominated in foreign currency	The centralised treasury function aggregates the foreign exchange exposure and takes measures to hedge the exposure based on prevalent macroeconomic conditions.
Credit risk	Cash and cash equivalents, trade receivables, derivative financial instruments, financial assets measured at amortised cost.	Diversification of bank deposits, credit limits and letters of credit Each investment in financial services is assessed by the investment team as well as independent risk team on the risk-return framework. The combined analysis of these teams is presented to the Investment Committee for investment decision. The risk is being partly mitigated by setting up a concentration risk framework, which incentivises business units to diversify portfolio across counterparties, sectors and geographies.

a. Liquidity Risk Management

Liquidity Risk refers to insufficiency of funds to meet the financial obligations. Liquidity Risk Management implies maintenance of sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit lines to meet obligations when due.

The Group has formulated an Asset Liability Management Policy. The Asset Liability Management Committee (ALCO) is responsible for the management of the Group's short-term, medium-term and long-term funding and liquidity management requirements. The Group manages liquidity risk by maintaining adequate reserves, banking facilities and by continuously monitoring forecast and actual cash flows, and by assessing the maturity profiles of financial assets and liabilities. The Group has access to undrawn borrowing facilities at the end of each reporting period, as detailed below:

PIRAMAL ENTERPRISES LIMITED

Notes to the Consolidated financials statements for the year ended March 31, 2022

The Group has the following undrawn credit lines available as at the end of the reporting period.

Particulars	(Rs. in Crores)	
	As at March 31, 2022	As at March 31, 2021
- Undrawn credit lines	7,677.35	11,303.81
	7,677.35	11,303.81

Note: This includes Non-Convertible Debentures, Inter Corporate Deposits and Commercial Papers where only credit rating has been obtained and which can be issued, if required, within a short period of time. Further, the facilities related to Commercial Papers are generally rolled over.

The following tables detail the Group's remaining contractual maturity for its financial liabilities with agreed repayment periods. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. The tables include both interest and principal cash flows. To the extent that interest flows are floating rate, the rate applicable as of reporting period ends respectively has been considered.

Maturities of Financial Liabilities	(Rs. in Crores)			
	Upto 1 year	As at March 31, 2022		5 years & above
		1 to 3 years	3 to 5 years	
Borrowings	15,698.17	21,678.30	13,958.64	19,629.72
Trade Payables	1,696.09	-	-	-
Lease Liabilities	77.22	126.68	42.44	129.22
Other Financial Liabilities	1,169.53	-	-	-
	18,641.01	21,804.98	14,001.08	19,758.94

Maturities of Financial Liabilities	(Rs. in Crores)			
	Upto 1 year	As at March 31, 2021		5 years & above
		1 to 3 years	3 to 5 years	
Borrowings	14,708.85	19,128.78	10,836.80	5,258.24
Trade Payables	1,178.39	-	-	-
Derivative Financial Liabilities	6.43	-	-	-
Lease Liabilities	67.35	81.73	47.85	121.09
Other Financial Liabilities	270.80	-	-	-
	16,231.82	19,210.51	10,884.65	5,379.34

The following tables detail the Group's expected maturity for its non-derivative financial assets. The tables have been drawn up based on the undiscounted contractual maturities of the financial assets including interest that will be earned on those assets. The inclusion of information on non-derivative financial assets is necessary in order to understand the Group's liquidity risk management as the liquidity is managed on a net asset and liability basis. Hence, maturities of the relevant assets have been considered below.

Maturities of Financial Assets	(Rs. in Crores)			
	Upto 1 year	As at March 31, 2022		5 years & above
		1 to 3 years	3 to 5 years	
Investments & Loans (Gross of ECL)	18,756.38	30,380.57	17,322.68	29,359.32
Security deposits*	3.52	139.10	-	-
Trade Receivables (Gross of ECL)	1,687.39	-	-	-
	20,447.29	30,519.67	17,322.68	29,359.32

Maturities of Financial Assets	(Rs. in Crores)			
	Upto 1 year	As at March 31, 2021		5 years & above
		1 to 3 years	3 to 5 years	
Investments & Loans (Gross of ECL)	7,697.22	23,408.24	14,070.15	14,059.89
Security deposits*	407.33	398.16	-	-
Trade Receivables (Gross of ECL)	1,600.15	-	-	-
	9,704.70	23,806.40	14,070.15	14,059.89

*to the extent considered for the group liquidity management

The balances disclosed in the table above are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as at March 31, 2022.

In assessing whether the going concern assumption is appropriate, the Group has considered a range of factors relating to current and expected profitability, debt repayment schedule and potential sources of replacement financing. The Group has performed sensitivity analysis on such factors considered and based on current indicators of future economic conditions; there is a reasonable expectation that the Group has adequate resources to continue in operational existence for the foreseeable future. Because of the uncertainties resulting from COVID-19, the impact of this pandemic may be different from those estimated as on the date of approval of these financial statements and the Group will continue to monitor any changes to the future economic conditions.

In case of loan commitments, the expected maturities are as under:

Particulars	(Rs. in Crores)			
	As at March 31, 2022		As at March 31, 2021	
	Upto 1 year	1 to 3 years	Upto 1 year	1 to 3 years
Commitment to invest in Loans / Inter Company Deposits	3,165.83	-	-	-
Commitment to invest in AIF	-	78.09	-	2.66
TOTAL	3,165.83	78.09	-	2.66

Group has below commitments to invest in AIF in addition to above which will be invested as and when suitable investment opportunity arises:

Commitment as on March 31, 2022

Fund Name	Total Commitment (USD Mio)	Balance Commitment (USD Mio)	Total Commitment (Rs. Crores)	Balance Commitment (Rs. Crores)
Asia Real Estate Opportunities Fund	-	-	3,383.02	153.27
India Resurgence Fund - Scheme 2	100.00	66.04	737.37	500.61
Piramal Structured Credit Opportunities Fund	-	-	532.00	320.00

Commitment as on March 31, 2021

Fund Name	Total Commitment (USD Mio)	Balance Commitment (USD Mio)	Total Commitment (Rs. Crores)	Balance Commitment (Rs. Crores)
Asia Real Estate Opportunities Fund	-	-	2,732.27	344.27
India Resurgence Fund - Scheme 2	100.00	75.34	731.15	550.85
Nyca Investment Fund III, LP	5.00	3.13	36.56	22.85
Piramal Structured Credit Opportunities Fund	-	-	2,147.40	1,943.37

b. Interest Rate Risk Management

The Group is exposed to interest rate risk as it has assets and liabilities based on floating interest rates as well. The Group has an approved Asset and Liability Management Policy which empowers the Asset and Liability Management Committee (ALCO) to assess the interest rate risk run by it and provide appropriate guidelines to the Treasury to manage the risk. The ALCO reviews the interest rate risk on periodic basis and decides on the asset profile and the appropriate funding mix. The ALCO reviews the interest rate gap statement and the interest rate sensitivity analysis.

The exposure of the Group's borrowing to interest rate changes at the end of the reporting period are as follows:

Particulars	(Rs. in Crores)	
	As at March 31, 2022	As at March 31, 2021
	Variable rate borrowings	18,856.48
Fixed rate borrowings	36,584.02	20,541.77
	55,440.50	39,506.44

The sensitivity analysis below has been determined based on the exposure to interest rates for assets and liabilities at the end of the reporting period. For floating rate assets and liabilities, the analysis is prepared assuming the amount of the liabilities/assets outstanding at the end of the reporting period was outstanding for the whole year and the rates are reset as per the applicable reset dates. The basis risk between various benchmarks used to reset the floating rate assets and liabilities has been considered to be insignificant.

If interest rates related to borrowings had been 100 basis points higher/lower and all other variables were held constant for INR loans, the Group's

- Profit before tax for the year ended/Other Equity(pre tax) as on March 31, 2022 would decrease/increase by Rs. 153.99 Crores (Previous year Rs.165.06 Crores) respectively. This is attributable to the Group's exposure to borrowings at floating interest rates.

If interest rates related to borrowings had been 25 basis points higher/lower and all other variables were held constant for Foreign currency loans, the Group's

- Profit before tax for the year ended/Other Equity(pre tax) as on March 31, 2022 would decrease/increase by Rs. 8.95 Crores (Previous year Rs. 6.19Crores) respectively. This is attributable to the Group's exposure to borrowings at floating interest rates.

If interest rates related to loans given / debentures invested had been 100 basis points higher/lower and all other variables were held constant, the Group's

- Profit before tax for the year ended/Other Equity(pre tax) as on March 31, 2022 would increase/decrease by Rs. 569.94 Crores (Previous year Rs. 245.39 Crores) respectively. This is attributable to the Group's exposure to lendings at floating interest rates.

c. Other price risks

The Group is exposed to equity price risks arising from equity investments and classified in the balances sheet at fair value through Other Comprehensive Income.

Equity price sensitivity analysis:

The table below summarises the impact of increases/decreases on the Group's Equity and OCI for the period. Analysis is based on the assumption that equity index had increased/decreased by 5% with all the other variables held constant, and these investments moved in the line with the index.

Particulars	(Rs. in crores)	
	Impact on OCI	
	As at March 31, 2022	As at March 31, 2021
Equity Index, Increase by 5%	71.82	72.80
Equity Index, Decrease by 5%	(71.82)	(72.80)

The Group has designated the following securities as FVTOCI Investments (Refer note 4):

Shriram City Union Finance Limited
Clarivate Plc

The Group chose this presentation alternative because the investment were made for strategic purposes rather than with a view to profit on subsequent sale, and there are no plans to dispose of these investments.

d. Foreign Currency Risk Management

The Group is exposed to Currency Risk arising from its trade exposures and Capital receipts / payments denominated, in other than the Functional Currency. The Group has a detailed policy which includes setting of the recognition parameters, benchmark targets, the boundaries within which the treasury has to perform and also lays down the checks and controls to ensure the continuing success of the treasury function. The Group has defined strategies for addressing the risks for each category of exposures (e.g. for exports, for imports, for loans, etc.). The centralised treasury function aggregates the foreign exchange exposure and takes prudent measures to hedge the exposure based on prevalent macro-economic conditions.

Notes to the Consolidated financials statements for the year ended March 31, 2022

e. Accounting for cash flow hedge

(I) Cross-currency Interest Rate Swap

The Group has taken foreign currency floating rate borrowings which are linked to LIBOR. For managing the foreign currency risk and interest rate risk arising from changes in LIBOR on such borrowings, the Group has entered into cross-currency interest rate swap (CCIRS) for the entire loan liability. The Group has designated the CCIRS (hedging instrument) and the borrowing (hedged item) into a hedging relationship and applies hedge accounting.

Under the terms of the CCIRS, the Group pays interest at the fixed rate to the swap counterparty in INR and receives the floating interest payments based on LIBOR in foreign currency. As the critical terms of the hedged item and the hedging instrument (notional, interest periods, underlying and fixed rates) are matching and the interest cashflows are off-setting, an economic relationship exists between the two. This ensures that the hedging instrument and hedged item have values that generally move in the opposite direction.

Hedge Effectiveness Testing is assessed at designation date of the hedging relationship, and on an ongoing basis. The ongoing assessment is performed at a minimum at each reporting date or upon a significant change in circumstances affecting the hedge effectiveness requirements, whichever comes first.

Following table provides quantitative information regarding the hedging instrument as on March 31, 2022:

Type of hedge and risks	Nominal value	Carrying amount of hedging instruments (Included under "other current and non-current financial liabilities")	Maturity date	Hedge ratio	Average contracted fixed interest rate	Changes in fair value of hedging instrument used as the basis for recognising hedge effectiveness	Changes in the value of hedged item used as the basis for recognising hedge effectiveness
	(Liabilities)	(Liabilities)					
Cash Flow Hedge							
Foreign currency and Interest rate risk	522.64	27.49	14-Jun-24	1 : 1	9.30%	33.28	20.29

Following table provides the effects of hedge accounting on financial performance for the year ended March 31, 2022:

Type of hedge	Changes in the value of hedging instruments recognised in Other comprehensive income	Hedge ineffectiveness recognised in profit or loss	(Rs. in crores)	
			Amount reclassified from cash flow hedge reserve to profit or loss	Line-item affected in statement of profit or loss because of reclassification
Cash flow hedge				
Interest Rate risk and Foreign Exchange Risk	33.28	-	0.09	Finance Cost
			20.21	Foreign Exchange (gain)/loss

Following table provides quantitative information regarding the hedging instrument as on March 31, 2021:

Type of hedge and risks	Nominal value	Carrying amount of hedging instruments (Included under "other current and non-current financial liabilities")	Maturity date	Hedge ratio	Average contracted fixed interest rate	Changes in fair value of hedging instrument used as the basis for recognising hedge effectiveness	Changes in the value of hedged item used as the basis for recognising hedge effectiveness
	(Liabilities)	(Liabilities)					
Cash Flow Hedge							
Foreign currency and Interest rate risk	522.64	5.79	14-Jun-24	1:1	9.30%	23.63	(21.67)

Following table provides the effects of hedge accounting on financial performance for the year ended March 31, 2021:

Type of hedge	Changes in the value of hedging instruments recognised in Other comprehensive income	Hedge ineffectiveness recognised in profit or loss	(Rs. in crores)	
			Amount reclassified from cash flow hedge reserve to profit or loss	Line-item affected in statement of profit or loss because of reclassification
Cash flow hedge				
Interest Rate risk and Foreign Exchange Risk	23.63	-	(2.77)	Finance Cost
			(18.90)	Foreign Exchange (gain)/loss

The following table provides a reconciliation by risk category of the components of equity and analysis of OCI items resulting from hedge accounting:

Particulars	(Rs. in crores)
As on March 31, 2020	
Changes in fair value of CCIRS	(14.27)
Amounts reclassified to profit or loss	(23.86)
Deferred taxes related to above	(21.67)
	0.50
As on March 31, 2021	(15.96)
Changes in fair value of CCIRS	(33.28)
Amounts reclassified to profit or loss	20.29
Deferred taxes related to above	(3.27)
As on March 31, 2022	(6.24)

PIRAMAL ENTERPRISES LIMITED
Notes to the Consolidated financial statements for the year ended March 31, 2022

(ii) Accounting for cash flow hedge

The objective of hedge accounting is to represent, in the Group's financial statements, the effect of the Group's use of financial instruments to manage exposures arising from particular risks that could affect profit or loss. As part of its risk management strategy, the Group makes use of financial derivative instruments, such as foreign currency range forwards and forward exchange contracts for hedging the risk arising on account of highly probable foreign currency forecast sales.

The Group has a Board approved policy on assessment, measurement and monitoring of hedge effectiveness which provides a guideline for the evaluation of hedge effectiveness, treatment and monitoring of the hedge effective position from an accounting and risk monitoring perspective. Hedge effectiveness is ascertained at the time of inception of the hedge and periodically thereafter. The Group assesses hedge effectiveness on prospective basis. The prospective hedge effectiveness test is a forward looking evaluation of whether or not the changes in the fair value or cash flows of the hedging position are expected to be highly effective in offsetting the changes in the fair value or cash flows of the hedged position over the term of the relationship.

For derivative contracts designated as hedge, the Group documents, at inception, the economic relationship between the hedging instrument and the hedged item, the hedge ratio, the risk management objective for undertaking the hedge and the methods used to assess the hedge effectiveness. The derivative contracts have been taken to hedge foreign currency fluctuations risk arising on account of highly probable foreign currency forecast sales.

The Group applies cash flow hedge to hedge the variability arising out of foreign exchange currency fluctuations on account of highly probable forecast sales. Such contracts are generally designated as cash flow hedges.

The Group determines the existence of an economic relationship between the hedging instrument and hedged item based on the currency, amount and timing of their respective cash flows. The forward exchange forward contracts are denominated in the same currency as the highly probable future sales, therefore the hedge ratio is 1:1. Further, the entity has excluded the foreign currency basis spread and takes such excluded element through the Income statement. Accordingly, the Group designates only the spot rate in the hedging relationship. Hedge effectiveness is assessed through the application of dollar offset method and designation of spot rate as the hedging instrument. The excluded portion of the foreign currency basis spread is taken directly through Income statement.

The table below enumerates the Group's hedging strategy, typical composition of the Group's hedge portfolio, the instruments used to hedge risk exposures and the type of hedging relationship for the year ended March 31, 2022:

Sr No	Type of risk/hedge position	Hedged Item	Description of hedging strategy	Hedging Instrument	Description of hedging instrument	Type of hedging relationship
1	Foreign Currency hedge	Highly probable forecast sales	Foreign currency denominated highly probable forecast sales is converted into functional currency using a forward contract.	Foreign exchange forward contracts	Forward contracts are contractual agreements to buy or sell a specified financial instrument at a specific price and date in the future. These are customized contracts transacted in the over-the-counter market. Further, the foreign currency basis spread is separated and accounted for at PVPL. Accordingly, only the spot rate has been designated in the hedging relationship.	Cash flow hedge

The tables below provide details of the derivatives that have been designated as cash flow hedges for the periods presented:

As at March 31, 2022 (Rs. in Crores)

	Notional principal amounts	Derivative Financial Instruments - Assets	Derivative Financial Instruments - Liabilities	Change in fair value for the year recognized in OCI	Ineffectiveness recognized in profit or loss	Line item in profit or loss that includes hedge ineffectiveness	Amount reclassified from cash flow hedging reserve to profit or loss	Line item in profit or loss affected by the reclassification
Foreign exchange forward contracts	13.00 (USD)	6.26	-	0.53	-	Not applicable	5.95	Revenue

As at March 31, 2021 (Rs. in Crores)

	Notional principal amounts	Derivative Financial Instruments - Assets	Derivative Financial Instruments - Liabilities	Change in fair value for the year recognized in OCI	Ineffectiveness recognized in profit or loss	Line item in profit or loss that includes hedge ineffectiveness	Amount reclassified from cash flow hedging reserve to profit or loss	Line item in profit or loss affected by the reclassification
Foreign exchange forward contracts	11.30 (USD)	-	16.36	13.41	-	Not applicable	6.64	Revenue

The table below provides a profile of the timing of the notional amounts of the Group's hedging instruments (based on residual tenor) along with the average price or rate as applicable by risk category:

	As at March 31, 2022				As at 31 March 2021			
	Total	Upto 1 year	1-5 years	Over 5 years	Total	Upto 1 year	1-5 years	Over 5 years
Foreign currency risk:								
Forward exchange contracts	13.00 (USD)	13.00 (USD)	-	-	11.30 Crores (USD)	11.30 Crores (USD)	-	-
Average INR:USD forward contract rate	77.87	77.87	-	-	77.11	77.11	-	-

Movement in Cash flow hedge reserve for the years ended	March 31, 2022 (Rs. in Crores)
As on April 1, 2020	(14.32)
Effective portion of changes in fair value:	
Foreign exchange forward contracts	17.19
Tax on movements on reserves during the period	(3.78)
Net amount classified to Profit & Loss	
Foreign exchange forward contracts	8.16
Tax on movements on reserves during the year	(1.51)
As on March 31, 2021	5.74
Effective portion of changes in fair value:	
Foreign exchange forward contracts	0.71
Tax on movements on reserves during the year	(0.18)
Net amount reclassified to profit or loss:	
Foreign exchange forward contracts	7.82
Tax on movements on reserves during the year	(2.00)
Closing balance (As on Mar 31, 2022)	12.09

(f) Credit Risk

Typically, the receivables of the Group can be bifurcated in 2 categories:

1. Pharma Trade Receivables
2. Financial Services Receivables - (i) Loan Book primarily comprising of Real estate developers, Infrastructure Companies, Retail Housing Finance and Others; and (ii) Strategic Investment made in other body corporates.

Please refer Note 10 for risk mitigation techniques followed for Pharma Trade Receivables. Risk mitigation measures for Financial Services business are explained in the note below.

Financial Services business:

The Group is exposed to Credit Risk through its lending activity. Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the Group. The Group has adopted a policy of dealing with creditworthy counterparties and obtaining sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults.

Retail lending:

For retail lending the credit policy has been reviewed and approved by Risk Team. The Credit Risk management structure includes credit policies and procedures. The Credit Policy defines customer segments, income assessment criteria, underwriting standards, target market definition, appraisal and approval processes, product limits, Delegation of Authority metrics (DoA) and cover risk assessment for product offerings etc. to ensure consistency of credit buying patterns.

Wholesale lending:

For wholesale lending business, the Group's Risk management team has developed proprietary internal rating model to evaluate risk return trade-off for the loans and investments made by the Group. The output of traditional credit rating model is an estimate of probability of default. These models are different from the traditional credit rating models as they integrate both probability of default and loss given default into a single model.

The lending exposure includes lending to the below sectors

Sectors	Exposure as at	
	March 31, 2022	March 31, 2021
Real Estate	50.52%	73.33%
Corporate Finance Group	7.24%	10.30%
Retail Housing Finance	38.08%	10.01%
Others	4.16%	6.36%

Credit Risk Management

The credit risk on liquid funds and other financial instruments is limited because the counterparties are banks with high credit-ratings assigned by credit-rating agencies or mutual funds.

For retail lending business, credit risk management is achieved by considering various factors like :

- Assessment of borrower's capability to pay – a detailed assessment of borrower's capability to pay is conducted. The approach to the assessment is uniform across the entire Group and is spelt out in the Credit Policy. For construction finance deals, the underlying project, the financial capability, past track record of repayments of the promoters are assessed by an independent risk team.
- Security cover – this is an assessment of the value of security under stress scenario which is further adjusted for factors like liquidity, enforceability, transparency in valuation, etc of the collateral.
- Geographic region – the Group monitors loan performances in a particular region to assess if there is any stress due to natural calamities, etc impacting the performance of loans in a particular geographic region.

For wholesale lending business, credit risk management is achieved by considering various factors like :

- Cash flow at risk – This is an assessment of the standalone project or business from which interest servicing and principal repayment is expected to be done.
- Security cover – This is an assessment of the value of the security under stress scenario which is further adjusted for factors like liquidity, enforceability, transparency in valuation etc. of the collateral.
- Promoter strength – This is an assessment of the promoter from financial, management and performance perspective.
- Exit – This is an assessment of the liquidity of the loan or investment.

The output from each of the analysis is converted to a risk weight equivalent. Each of the four components of the risk analysis are assigned a specific weight which differ based on type of investment. The risk weight is then converted into capital requirement. The required capital and the return is combined to create a metric which is used for deal assessment.

Based on the above assessment the risk team categorises the deals in to the below Risk Grades

- Good Deals with very high risk adjusted returns
- Investment Grade Deals with high risk adjusted returns
- Management Review Grade Deals with risk adjusted returns required as per lending policy
- Not Advisable Grade Deals with lower than required risk adjusted returns

Further, a periodic review of the performance of the portfolio is also carried out by the Group's risk team. The Group's risk team adjusts the stress case considered during the initial approval based on actual performance of the deal, developments in the sector, regulatory changes etc. The deal level output is combined to form a portfolio snapshot. The trends from portfolio are used to provide strategic inputs to the management.

Provision for Expected Credit Loss

The Group considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period. To assess whether there is a significant increase in credit risk the Group compares the risk of a default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition. It considers available reasonable and supportive forward-looking parameters, which are both qualitative and quantitative. These parameters have been detailed in note no.ix of Significant Accounting Policies. Based on the result yielded by the above assessment the Financial assets are classified into (1) Standard (Performing) Asset, (2) Significant Credit Deteriorated (Under-Performing) Asset (3) Default (Non-Performing) Asset (Credit Impaired).

Macroeconomic information (such as regulatory changes, market interest rate or growth rates) is incorporated as part of the internal rating model.

In general, it is presumed that credit risk has significantly increased since initial recognition if the payments are more than 30 days past due. For the purpose of expected credit loss analysis the Group defines default as any asset with more than 90 days overdues. This is also as per the rebuttable presumption provided by the standard.

The Group provides for expected credit loss based on the following:

Category - Description	Stages	Basis for Recognition of Expected Credit Loss
Assets for which credit risk has not significantly increased from initial recognition	Stage 1 - Standard (Performing) Assets	12 month ECL
Assets for which credit risk has increased significantly but not credit impaired	Stage 2 - Significant Credit Deteriorated Assets	Life time ECL
Assets for which credit risk has increased significantly and credit impaired	Stage 3 - Default (Non-Performing) Assets (Credit Impaired)	Loss Given Default (LGD)
Purchased or Originated credit impaired (POCI)	POCI	Life time ECL

The Company has developed a PD Matrix consisting of various parameters suitably tailored for various facilities like grade of the borrower, past overdue history, status from monthly asset monitoring report, deal IRR, deal tenure remaining etc.

Based on these parameters the Company has computed the PD. The Company has also built in model scorecard to determine the internal LGD. However, since there has been no sufficient default history to substantiate the internal LGD, the Company has made use of a combination of both internal as well as external LGD.

Wholesale Lending:

The key parameters for various scorecards are highlighted as follows -Real Estate products (Construction Finance, Structured Debt, LRD) - (1) Developer Grade (2) Past Overdue History (3) Tenant profile (4) Status from monthly Asset Monitoring report (5) Stage of the project (6) Geography etc. . Some of the Parameters for Non Real Estate products (Senior lending, mezzanine, project finance etc.) - (1) Sponsor strength (2) Overdues (3) Average Debt service coverage ratio (4) Regulatory Risk (5) Stability of EBITDA (6) Quality of underlying assets etc. Based on these parameters the Company has computed the PD. The Company has also built in model scorecards to determine the internal LGD. However, due to lack of sufficient default history to statistically substantiate the internal LGD, the Company has made use of a combination of both internal as well as external LGD. The Company also maintains Expected Credit Loss provision for undisbursed limits after applying the Credit conversion factor (CCF). CCF for these limits is computed based on historical disbursement trends observed across various products.

Retail Lending:

The Group uses ECL allowance for financial assets measured at amortised cost, which are not individually significant, and comprise of a large number of homogeneous loans that have similar characteristics. The expected credit loss is a product of exposure at default, probability of default and loss given default. Due to lack of 5-year internal PD/LGD data, the Group uses external PD/LGD data from credit bureau agency (TransUnion for Mar-22) for potential credit losses. Further, the estimates from the above sources have been adjusted with forward looking inputs from anticipated change in future macro-economic conditions to comply with IndAS 109. The forward looking macro-economic conditions based adjustment is driven through a multi linear regression model which forecasts systemic gross non-performing assets under baseline future economic scenarios.

Impact of Covid -19 pandemic on the credit risk

The outbreak of Covid-19 pandemic across the globe and in India had contributed to a significant decline and volatility in the global and Indian financial markets and slowdown in the economic activities. The Group through it's financial services segment offers long term and short term retail housing finance and wholesale lending primarily to the real estate and infrastructure sector. In accordance with Reserve Bank of India (RBI) guidelines, the Group had proposed a moratorium benefit on the payment of principal instalments and / or interest, to all eligible borrowers classified as standard, even if overdue as on February 29, 2020 excluding the collections already made in the month of March 2020, basis approval by the management on a case to case basis. Accordingly, for all such accounts where the moratorium is granted, the asset classification will remain standstill during the moratorium period. (i.e. the number of days past due shall exclude the moratorium period for the purposes of asset classification as per the policy).

The Group had ran a scenario analysis as on March 31, 2020 using proprietary algorithm-based risk models on the portfolio taking into account the possible impact related to Covid - 19 pandemic.

The Group has, based on available information (internal and external) and economic forecasts, estimated and applied management overlays, for the purpose of determination of the provision for impairment of financial assets. The management continued to consider macroeconomic overlay similar to its previous study.

The revival of economic activity has since improved supported by relaxation of restrictions due to administration of the COVID vaccines to a large population in the country. The extent to which any new wave of COVID19 pandemic will impact the Group's results will depend on ongoing as well as future developments, including, among other things, any new information concerning the severity of the COVID-19 pandemic, and any action to contain its spread or mitigate its impact whether government-mandated or elected by us.

As a result of uncertainties resulting from COVID-19, the impact of this pandemic may be different from those estimated as on the date of approval of these consolidated financial statements and the Group will continue to monitor any changes to the future economic conditions. Based on the current indicators of future economic conditions, the Group considers this provision to be adequate.

Expected Credit Loss as at the end of the reporting period:

As at March 31, 2022

Particulars	Asset Group	Exposure at Default	(Rs. in Crores)	
			Expected Credit Loss	Net amount
Very High quality liquid assets	Other Financial Assets and Loans to related parties and others	1,334.50	-	1,334.50
Assets for which credit risk has not significantly increased from initial recognition*	Investments at amortised cost	6,676.02	192.00	6,484.02
	Loans at amortised cost	45,620.98	816.32	44,804.66
Assets for which credit risk has increased significantly but are not credit impaired	Investments at amortised cost	1,613.81	811.24	802.57
	Loans at amortised cost	2,164.12	561.59	1,602.53
Assets for which credit risk has increased significantly and are credit impaired	Investments at amortised cost	517.33	289.68	227.65
	Loans at amortised cost	2,005.57	940.31	1,065.26
Purchased or Originated credit impaired (POCI)	Loans at amortised cost	3,465.00	-	3,465.00
Total		63,397.33	3,611.14	59,786.19

Provision for litigation / disputes represents claims against the Group not acknowledged as debts that are expected to materialise in respect of matters under litigation. Future cash outflows are determinable only on receipt of judgments/decisions pending with various forums/authorities.

Provision for Onerous contracts represents the amounts provided for contracts where the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received under it.

PIRAMAL ENTERPRISES LIMITED

Notes to the Consolidated financial statements for the year ended March 31, 2022

50 The Chief Operating Decision maker of the Company examines the Group's performance both from a product offerings and from a geographic perspective. From a product perspective, the management has identified the following reportable segments:

1. Pharmaceuticals Manufacturing and Services
2. Financial Services

1. Pharmaceuticals Manufacturing and Services: In this segment, the Group has a strong presence in Pharma Solutions, Critical Care and Consumer Products Services. The Company and certain subsidiaries act as a Contract Development and manufacturing organization offering both APIs and formulations. The Group's critical care business deals in the Inhalation anesthesia market. The group's consumer products business is primarily an India-centric consumer healthcare business with strong brands portfolio.

2. Financial Services: Company's financial services segment offers a complete suite of financial products to meet the diverse needs of its customers. The Company lends to various real estate developers and under special situation opportunities in various sectors and has investments in Shriram Group, through which the Company has exposure to retail financing segments.

Total tax expense recognised	<u>(36.88)</u>	<u>(14.50)</u>

c) Deferred tax balances

The following is the analysis of deferred tax assets / (liabilities) presented in the consolidated

Balance sheet:

Deferred tax assets (net)

Deferred tax liabilities (net)

	(Rs. in Crores)	
	As at March 31, 2022	As at March 31, 2021
Deferred tax assets (net)	1,367.91	937.24
Deferred tax liabilities (net)	(192.20)	(222.68)
	<u>1,175.71</u>	<u>714.56</u>

Deferred tax assets and liabilities are recognized for the future tax consequences of temporary differences between the carrying values of assets and liabilities and their respective tax bases, and unutilized business loss and depreciation carry-forwards and tax credits. Deferred tax assets are recognized to the extent that it is probable that future taxable income will be available against which the deductible temporary differences, unused tax losses, depreciation carry-forwards and unused tax credits could be utilized.

Movement of deferred tax during the year ended March 31, 2022

PIRAMAL ENTERPRISES LIMITED

Notes to the Consolidated financial statements for the year ended March 31, 2022

The income tax expense for the year can be reconciled to the accounting profit as follows:

Particulars	(Rs. in Crores)	
	For the year ended March 31, 2022	For the year ended March 31, 2021
Consolidated Profit before tax from continuing and discontinuing operations (after exceptional items)	1,856.68	3,117.34
Income tax expense calculated at 25.17%	467.33	784.63
Effect of expenses that are not deductible in determining taxable profit	14.32	31.36
Utilisation of previously unrecognised tax losses	(21.97)	(17.83)
Effect of incomes which are taxed at different rates	(9.28)	(5.22)
Effect of incomes which are exempt from tax	(1.37)	-
Deferred tax asset created on unrecognised tax losses of previous years	(47.94)	(49.29)
Tax losses for which no deferred income tax is recognised	-	38.96
Temporary differences for which no deferred income tax was recognised	68.16	14.87
Unrealised profit margin on inventory on which deferred tax asset is not created	(0.82)	(0.22)
Effect of deduction in tax for interest on Compulsory Convertible Debentures	(8.05)	(36.94)
Tax adjustment for earlier years*	-	1,258.29
Effect of difference in amortised cost and carrying amount of loan portfolio	-	(5.89)
Effect of deduction from dividend income	(10.18)	(6.76)
Effect of business loss off set against capital gain recognised in capital reserve	-	8.90
Others	60.59	28.05
Income tax expense recognised in consolidated statement of profit and loss	510.79	2,042.91

The tax rate used for the reconciliations above is the corporate tax rate of 25.17%, payable by corporate entities in India on taxable profits under tax law in Indian jurisdiction.

In assessing the realizability of deferred tax assets, the Group considers the extent to which it is probable that the deferred tax asset will be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable profits (after considering the Covid-19 impact) during the periods in which those temporary differences and tax loss carry-forwards become deductible. The Group considers the expected reversal of deferred tax liabilities, projected future taxable income and tax planning strategies in making this assessment.

Based on the level of historical taxable income and projections for future taxable income over the periods in which the deferred income taxes are deductible, the Group believes that it is probable that the Group will realize the benefits of this deferred tax asset. The amount of deferred tax asset considered realizable, however, could be reduced in the near term if the estimates of future taxable income during the carry-forward period are reduced.

In addition to this, during the current year ended March 31, 2022, the Group has recognized Deferred Tax Asset of Rs. 47.94 Crores (Previous Year: Rs. 49.29 Crores) on unused tax losses, considering profits in the past 2 years and reasonable certainty of realisation of such deferred tax asset in the future years.

Deferred tax asset amounting to Rs. 399.37 crores and Rs. 364.45 crores (excluding the amount already recognised to the extent of Deferred Tax Liabilities amounting to Rs. 113.47 Crores and Rs. 1.57 Crores) as at March 31, 2022 and March 31, 2021, respectively in respect of unused tax losses, temporary differences and tax credits was not recognized by the Group, considering that the Company and its subsidiaries had a history of tax losses for recent years. Unrecognized Deferred tax of Rs. 185.45 Crores and Rs. 124.66 Crores as at March 31, 2022 and March 31, 2021 are attributable to carry forward tax losses which are not subject to expiration dates. The remaining unrecognized deferred tax of Rs. 213.90 Crores and Rs. 239.99 Crores as at March 31, 2022 and March 31, 2021 respectively are attributable to carry forward tax losses which expires in various years upto December 31, 2037.

Deferred income taxes are not recognised on the undistributed earnings of subsidiaries, associates or joint ventures, where it is expected that the earnings will not be distributed in the foreseeable future or where the tax credit can be availed by the holding company

* For the year ended March 31, 2021 -

Pursuant to goodwill being taken out of the purview of tax depreciation w.e.f. April 1, 2020 by Finance Bill enacted in March 2021, the group has, during the year ended March 31, 2021, de-recognized deferred tax asset of Rs. 1,258.29 crores created earlier on certain tax deductible goodwill.

Fair Value Hierarchy and Method of Valuation

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the group has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

Financial Assets	(Rs. in Crores)				
	Notes	Carrying Value	Level 1	Level 2	Level 3
Measured at FVTPL - Recurring Fair Value Measurements

Except for those financial instruments for which the carrying amounts are mentioned in the above table, the Company considers that the carrying amounts recognised in the financial statements approximate their fair values. For financial assets that are measured at fair value, the carrying amounts are equal to the fair values.

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments, traded bonds and mutual funds that have quoted price. The fair value of all equity instruments (including bonds) which are traded in the stock exchanges is valued using the closing price as at the reporting period. The mutual funds are valued using the closing NAV.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over-the-counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities, contingent consideration, Debentures, Term Loans, investment in Alternate Investment Funds and ICDS included in level 3.

Valuation techniques used to determine the fair values:

Discounted cash flow method has been used to determine the fair value. The yield used for discounting has been determined based on trades, market polls, levels for similar issuer with same maturity, spread over matrices, etc. or instruments where the returns are linked to the share price of the investee company the equity price has been derived using Monte Carlo simulation and local volatility model using the inputs like spot rate, volatility surface, term structures and risk free rates from globally accepted 3rd party vendor for these data.

This includes listed equity instruments, non convertible debentures and mutual funds which are fair valued using quoted prices and closing NAV in the market.

his includes forward exchange contracts and cross currency interest rate swap. The fair value of the forward exchange contract is determined using forward exchange rate at the balance sheet date. The fair value of cross currency interest rate swap is calculated as the present value of future cash flow based on observable yield curves and forward exchange rates.

Discounted cash flow method basis contractual cash flow has been used to determine the fair value. The discounting factor used has been arrived at after adjusting the rate of interest for the financial assets by the difference in the government Securities rates from date of initial recognition to the reporting dates. Credit risk adjustment has not been considered while arriving at the values.

Fair values of borrowings are based on discounted cash flow using a current borrowing rate. They are classified as Level 3 values hierarchy due to the use of unobservable inputs, including own credit risk. The discounting factor used has been arrived at after adjusting the rate of interest for the financial liabilities by the difference in the Government Securities rates from date of initial recognition to the reporting dates.

Investments in Alternative Investment Funds and other funds are valued basis the net asset value received from the fund house.

Discounted cash flow method has been used to determine the fair value of contingent consideration.

c) Fair value measurements using significant unobservable inputs (level 3)

The following table presents the changes in level 3 items for the period ended March 31, 2022 and March 31, 2021.

	Term loans	Debentures	Alternative Investment Fund/Venture Capital Fund	Equity Shares	Share Warrants	Others	Total
As at April 1, 2020							
Acquisitions	889.89	2,626.21	565.79	10.33	1.48	-	4,093.70
Additional Accruals	662.35	248.20	2,479.17	5.57	-	-	3,395.28
Gains / (Losses) recognised in profit or loss	-	-	-	-	-	-	-
Gains / (Losses) recognised in other comprehensive income	71.29	(139.23)	84.74	(0.86)	(1.48)	-	14.47

Gains / (Losses) recognised in other comprehensive income	70.80	(702.32)	474.25	17.73	-	(27.11)	(166.65)
Exchange Fluctuations	-	-	-	-	-	-	-
Payments	-	-	-	-	-	-	-
Realisations	-	-	-	0.74	-	-	0.74
As at March 31, 2022	3,057.26	2,960.43	4,164.77	57.02	-	735.05	10,974.54

d) Valuation Process

The Company engages external valuation consultants to fair value below mentioned financial instruments measured at FVTPL. The main level 3 inputs used for investment in AIF / Venture capital fund, contingent consideration, term loans and debentures are as follows:

- 1) For Non Convertible Debentures and Term Loans, Waterfall approach has been used to arrive at the yields for securities held by the Company. For determining the equity prices Monte Carlo simulations and local volatility model using the inputs like spot rate, volatility surface, term structures and risk free rates from globally accepted third party vendor for these data have been used.
- 2) For Alternative Investment Fund/Venture Capital Fund, Discounted cash flow method has been used to determine the fair value. The discounting factor has been computed using a mix of past trends as well as likely rate of return of the underlying projects.
- 3) For Contingent consideration, fair value has been estimated by allocating probability to achievement of financial milestones. Discount rate is determined using Capital Asset Pricing Model.

e) Sensitivity for instruments:

Nature of the instrument	Significant unobservable inputs*	Increase / Decrease in the unobservable input	Sensitivity Impact for the year ended March 31, 2022				Sensitivity Impact for the year ended March 31, 2021			
			Sensitivity Impact for the year ended March 31, 2022		Sensitivity Impact for the year ended March 31, 2021		Sensitivity Impact for the year ended March 31, 2022		Sensitivity Impact for the year ended March 31, 2021	
			FV Increase	FV Decrease	FV Increase	FV Decrease	FV Increase	FV Decrease	FV Increase	FV Decrease
Non Convertible Debentures	Discount rate	0.7%	(3.51)	3.54	(3.07)	3.11				
	Discount rate	0.7%	(1.90)	2.22	(5.39)	5.96				
Term Loans	Sale Price	5%	31.70	(31.70)	-	-				
Investment	Sale Price	5%	71.20	(71.30)	-	-				

* There were no significant inter-relationships between unobservable inputs that materially affect fair values.

f) Management uses its best judgment in estimating the fair value of its financial instruments (including impact on account of Covid-19). However, there are inherent limitations in any estimation technique. Therefore, for substantially all financial instruments, the fair value estimates presented above are not necessarily indicative of all the amounts that the Group could have realized or paid in sale transactions as of respective dates. As such, the fair value of the financial instruments subsequent to the respective reporting dates may be different from the amounts reported at each year end.

(II) Amounts recognised in the statement of profit or loss

The statement of profit or loss shows the following amounts relating to leases

Interest expense on lease liabilities (included in finance cost)	12.96	14.83
Expense relating to short-term leases (included in Operating Expenses)	10.21	15.71
Expense relating to leases of low-value assets (other than short term leases as disclosed above) (included in Operating expenses)	28.62	22.11

The weighted average incremental borrowing rate applied to lease liabilities as at April 1, 2021 ranges between 2.51% to 11.77% (Previous Year 2.51% to 11.77%).

The bifurcation below provides details regarding the contractual maturities of lease liabilities on an undiscounted basis:

(Rs. in Crores)

	As at March 31, 2022	As at March 31, 2021
1 year	77.22	67.35
1-3 years	126.68	81.73
3-5 years	42.44	47.85
More than 5 years	129.22	121.09

PIRAMAL ENTERPRISES LIMITED

Notes to the Consolidated financial statements for the year ended March 31, 2022

55 Investment Property

Investment property, recorded at a carrying value of Rs. 1,335.31 crores, consists of land development rights acquired during the previous year ended March 31, 2021, without any restriction on its realisability and is being held for capital appreciation and eventual monetization by exploring various options.

In accordance with Ind AS 113, the fair value of investment property is determined by the Company at Rs. 1,734 crores (Previous Year: Rs. 1,579 crores) following the risk-adjusted discounted cash flow method and based on Level 3 inputs from an independent valuation expert, as defined under rule 2 of Companies (Registered Valuers and Valuation) Rules, 2017.

PIRAMAL ENTERPRISES LIMITED

Notes to the Consolidated financial statements for the period ended March 31, 2022

56 Business Combinations

A. Summary of acquisitions during the current period

(I) Acquisition of Hemmo Pharmaceuticals Private Limited (Hemmo)

On June 22, 2021, the Group completed the acquisition of 100% stake in Hemmo Pharmaceuticals Private Limited ('Hemmo') pursuant to an agreement entered on March 31, 2021 for an upfront cash consideration of Rs. 775 crores and earn-outs linked to achievement of milestones. The Group has completed the purchase price allocation of the assets/liabilities acquired and consequently, measurement period changes have been adjusted to the goodwill. Balance consideration payable is Rs 89.91 crores. The acquisition will add peptide API development and manufacturing capabilities.

(a) The fair value of assets and liabilities recognised as a result of the acquisition are as follows:

Particulars	Rs. In Crores
Assets	
Property, Plant and Equipment	36.13
Capital work in progress	0.11
Intangible assets	405.62
Intangible asset under development	197.87
Right of use assets	54.59
Investments	0.11
Other Non-current Assets	0.38
Inventory	26.34
Trade Receivables	20.44
Cash and cash equivalents & bank balances	77.02
Loans	0.40
Other Non-Current Financial Assets	0.44
Other current Assets	20.68
Deferred Tax Assets	0.95
Total Assets	841.08
Liabilities	
Trade payable	63.94
Other Current Liabilities	17.30
Lease Liability	0.06
Other Liabilities	0.03
Non-current Provisions	1.34
Current tax liabilities	1.57
Current Provisions	0.43
Total Liabilities	84.67
Net identifiable assets acquired	756.41

(b) Calculation of goodwill

Particulars	Rs. In Crores
Purchase consideration	901.47
Less: Net identifiable assets acquired	756.41
Goodwill	145.06

Goodwill is attributable to the synergies expected to arise from the combination of the acquired technical knowhow and the Piramal Group's global sales and marketing network which will augment the CDMO offering and allow PPL to provide integrated offerings across the pharmaceutical development cycle. Goodwill is not deductible for tax purpose.

(c) Revenue and profit contribution

The revenues and profits contributed to the group for the year ended March 31, 2022 are as follows:

Particulars	Rs. In Crores
Revenue	121.62
Profit before tax	35.55

(d) Credit/Charge to P&L

Acquisition costs of Rs. 15.08 Crores were charged to Consolidated Statement of Profit and Loss for the year ended March 31, 2022 under the head - Exceptional Items.

(e) Acquired Receivables

Particulars	Rs. In Crores
Fair value of acquired trade receivables	20.44
Gross contractual amount for trade receivables	20.44
Contractual cash flows not expected to be collected	-

(f) Purchase consideration - cash outflow

Particulars	Rs. In Crores
Net outflow of cash - Investing activities	790.74

PIRAMAL ENTERPRISES LIMITED

Notes to the Consolidated financial statements for the period ended March 31, 2022

(ii) Amalgamation of Dewan Housing Finance Corporation Limited with Piramal Capital & Housing Finance Limited

Vide Order dated June 7, 2021, the Mumbai bench of the Hon'ble National Company Law Tribunal ("NCLT") approved the Resolution Plan submitted by Piramal Capital & Housing Finance Limited ("PCHFL"), wholly-owned subsidiary of the Piramal Enterprises Limited, for the Corporate Insolvency resolution process of Dewan Housing Finance Corporation Limited ("DHFL") under Section 31 of the Insolvency and Bankruptcy Code, 2016. After receiving necessary approvals, PCHFL has discharged its obligation under the resolution plan by paying Rs. 34,250 crores on September 28, 2021 through cash consideration of Rs. 14,717.47 crores (of which Rs. 12,800 crores paid out of acquired cash) and issue of Debentures of Rs. 19,532.53 crores and further, pursuant to the Resolution plan, PCHFL merged into DHFL to conclude acquisition on September 30, 2021 (Implementation Date).

The acquisition of DHFL fits well into the Group's strategy to diversify the loan book and helps achieve scale its retail lending business. The business combination has been treated as a reverse acquisition for financial reporting purposes in accordance with Ind AS 103, with PCHFL as the accounting acquirer and DHFL as the accounting acquiree/legal acquirer.

Accordingly, these consolidated reporting package issued represent the continuation of the financials of PCHFL (accounting acquirer) and reflects the assets and liabilities of PCHFL measured at their pre-acquisition carrying value and acquisition date fair value of the identified assets acquired and liabilities taken over with respect to DHFL. Merged financial statements are issued in the name of Piramal Capital and Housing Finance Limited (formerly known as Dewan Housing Finance Corporation Limited).

The balances in reserves and surplus of DHFL as of the Appointed Date and the statutory reserve and hedging reserve of PCHFL shall be recognised separately. Any resultant difference arising from such recognition of reserves shall be in the first instance recognised as Amalgamation Adjustment Reserve and debit balance, if any, arising in the Amalgamation Adjustment Reserve may be offset with credit balance in reserves and surplus of the merged entity (first to be adjusted with surplus balance in profit and loss account and then with general reserve, if any).

The Company has also incurred a transaction cost of Rs. 142.72 crores and reported this as an acquisition related cost included in Exceptional Item.

Details in respect of business combination is provided below:

		Rs. In Crores
No	Particulars	Amount
A	Consideration transferred	
	Fair value of shares deemed to be issued on reverse acquisition	
	Cash (including acquired cash of Rs. 12,800 crores)	14,717.47
	Fair value of Debentures	19,123.69
	Total consideration (A)	33,841.16
B	Fair value of assets identifiable assets and liabilities recognised as a result of the Reverse Acquisition	
	Assets	
(i)	Loan Book	22,614.50
(ii)	Investments	3,074.91
(iii)	Cash & Cash Equivalents	14,625.91
(iv)	Property, Plant & Equipment	452.87
(v)	Other assets	1,084.53
	Total assets acquired (a)	41,852.72
	Liabilities	
(i)	CDO Liability	(3,226.49)
(ii)	Other Financial Liabilities	(720.60)
(iii)	Trade Payables	(317.92)
(iv)	Provisions	(55.89)
(v)	Other Non-Financial Liabilities	(81.03)
(vi)	Tax liabilities	(3,437.00)
	Total liabilities acquired (b)	(7,838.93)
	Net assets recognised pursuant to the Scheme (a-b)	34,013.79
C	Goodwill/Capital Reserve (A-B)	(172.63)

Capital reserve represents the gain on bargain purchase which is directly recognized in other equity as capital reserve.

The acquisition date fair value of accounting acquiree's identifiable assets and liabilities under the reverse acquisition are based on independent valuations obtained by the Company.

Based on opinions obtained from legal and tax experts, the above-mentioned fair value of net assets includes contingent tax liabilities of Rs. 3,437 crores pertaining to income tax obligation of DHFL for the financial years ended 31 March, 2020 and 2021, recognized pursuant to uncertain tax positions relating to DHFL as on the implementation date. Further, based on the expert opinions, net deferred tax assets potentially amounting to Rs. 6,209 crores relating to the fair value adjustments considered above have presently not been recognized due to uncertainty associated with allowability of such adjustments. The Fair value of assets also includes Investment in a Jointly controlled entity which is currently being litigated and where the Group expects a favourable outcome of the proceedings.

Following the successful implementation of the resolution plan pertaining to the insolvency resolution process of DHFL, the Group has replaced the nominee directors appointed by the erstwhile management under the Administrator with new directors.

Pursuant to the merger becoming effective from September 30, 2021, DHFL has allotted 2,13,646.92 lakhs shares of face value of INR 10 each on November 11, 2021, to the existing shareholders who were holding shares of PCHFL. These shares are issued against the total net worth of PCHFL on the Appointed Date, adjusted for statutory reserves and hedging reserves. Further the existing share capital held by shareholders of DHFL were cancelled/written back upon implementation of the Scheme.

Accounting for conversion of PCHFL reserves aggregating to Rs 2,080.96 crores into Share Capital and continuation of balance of reserves aggregating to Rs. 485.54 crores and recognition of reserves of DHFL on the implementation date aggregating to Rs 4,047.84 crores, in the merged financial statements has been done in accordance with the accounting treatment prescribed in the Resolution plan approved by the NCLT which, is different from the accounting treatment prescribed by Ind AS 103 for reverse acquisition business combinations.

The Group holds 100% of equity share capital of DHFL Investments Limited (DIL). DIL had issued Compulsory Convertible Debentures (CCDs) to Wadhawan Global Capital Private Limited ("WGC"). Tri-partite agreement dated 31 March 2017 was entered between DIL, DHFL and Wadhawan Global Capital Private Limited (WGC). This agreement assigned controlling rights in favor of WGC and accordingly DIL was not considered as a subsidiary. The approved Resolution Plan contained prayers inter alia seeking nullification of the Compulsory Convertible Debentures (CCDs) and extinguishment of rights pursuant to these CCDs. WGC and a limited liability partnership by the name of TDH Realty LLP have pursued the litigation against the Resolution Plan purportedly as the ultimate beneficiary of the CCDs. The matter is still under consideration of Hon'ble NCLT. Based on the approval of the Resolution Plan by Hon'ble NCLT and merits of these litigations, the Company has considered DIL as a subsidiary based on its ability to exercise control over DIL with effect from the implementation date.

DIL holds 50% of equity share capital of DHFL Pramerica Life Insurance Company Limited (DPLI). Based on the evaluation of rights available under the shareholders agreement, DPLI has been considered as a joint venture and has been accounted based on equity method of accounting in the consolidated financial statements. Accordingly, the consolidated statement of profit and loss includes the Company's share of profit / (loss) of DPLI with effect from the implementation date.

PIRAMAL ENTERPRISES LIMITED

Notes to the Consolidated financial statements for the period ended March 31, 2022

In view of the foregoing, the financial statements of DHFL have been consolidated from the implementation date i.e. September 30, 2021. The previous year financial statements are thus, that of PCHFL. Accordingly, previous year figures are not comparable. Further, following subsidiaries, associate and joint venture have been consolidated from 30 September 2021.

- a. Subsidiary Company
 - i. DHFL Investments Limited
 - ii. DHFL Holdings Limited
 - iii. DHFL Advisory & Investments Private Limited
- b. Associate
 - i. DHFL Venture Trustee Company Limited (through DHFL Investments Limited)
- c. Joint Venture
 - i. Pramerica Life Insurance Limited (through DHFL Investments Limited)

According to the Resolution Plan, the distribution of proceeds from recovery of fraudulent loans should go to Successful Resolution Applicant (SRA) only to the extent of Re. 1 as per the Fair Value assigned in the Resolution Plan and the balance should be distributed to the creditors. There is a litigation with respect to reconsideration of the value assigned for the fraudulent loan book by Committee of Creditors. Accordingly, DHFL acquisition remains unaffected by the above said order and the business integration continues as envisaged. Further there will be no adverse impact on the financial statements for the year ended 31 March 2022 even in the eventuality of the matter being decided against the Group.

Revenue and profit contribution

The acquired business contributed revenue from operation of Rs. 1,549.15 crores and profit of Rs. 750.58 crores to the Company for the period 31 March 2022.

B. Summary of acquisitions during the previous period

(i) Acquisition of G&W PA Laboratories LLC (G&W PA) (now known as PEL Healthcare LLC)

The Group, through its wholly owned subsidiary, PEL Pharma Inc, has acquired 100% stake in G&W PA Laboratories LLC (G&W PA) (now known as PEL Healthcare LLC) in an all cash deal for a total consideration of Rs. 132.29 Crores. Through this, the group has acquired the solid oral dosage drug product manufacturing facility of G&W PA, located in Sellersville, Pennsylvania. The transaction was closed on June 26, 2020.

PIRAMAL ENTERPRISES LIMITED

Notes to the Consolidated financial statements for the year ended March 31, 2022

57 (a) (i) On December 19, 2019, 115,894 Compulsorily Convertible Debentures ("CCD") having face value of Rs. 151,000 per CCD were allotted to Caisse de dépôt et placement du Québec for an aggregate amount of Rs. 1,749.99 crores. Each CCD is convertible into 100 equity shares having face value of Rs. 2 each.

During the year ended March 31, 2022, the Company has allotted 1,15,89,400 equity shares (face value of Rs. 2 each) pursuant to the compulsory conversion of these CCDs.

57 (b) (i) On December 24, 2019, the Company offered 27,929,649 equity shares under Rights Issue at a price of Rs.1,300 per share (including premium of Rs.1,298 per share). Out of the aforesaid issue, 26,385,861 equity shares were allotted by the Company on January 29, 2020 and 1,535,944 Rights Equity shares have been reserved for the CCD Holder (as per regulation 74(1) of Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018) and 7,844 Rights Equity Shares have been kept in abeyance.

Further, the Company on June 28, 2021 had allotted 1,535,944 right shares to the CCD Holder out of the portion reserved under the Right Issue made by the Company vide Letter of offer dated 24th December, 2019.

(ii) On March 8, 2018, the Company had issued 8,310,275 equity shares under Rights Issue at a price of Rs. 2,380 per share (including premium of Rs.2,378 per share). Out of this rights issue, 11,298 and 7,485,574 equity shares were allotted by the Company during the year ended March 31, 2019 and year ended March 31, 2018, respectively.

During the three months ended June 30, 2019 and September 30, 2019, 213,392 and 66 equity shares, respectively, were allotted by the Company under Rights Issue at a price of Rs. 2,380 per share (including premium of Rs.2,378 per share) to the CCD holders out of the Right Equity shares reserved for them (as per regulation 53 of erstwhile Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009) and shares held in abeyance.

As on March 31, 2021, 24,573 Rights equity shares have been kept in abeyance. 575,372 Rights equity shares reserved for the CCD holders (as per regulation 53 of erstwhile Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009) have not been subscribed by them and these unsubscribed rights shall be dealt with by the Board of Directors of the Company, in accordance with the law and hence are considered to be dilutive in nature.

During the year ended March 31, 2022, the Board at its meeting held on February 10, 2022 had approved cancellation of the unsubscribed portion of the issued capital representing 575,372 equity shares of ₹2 each aggregating to ₹1,150,744, which was reserved in favour of the Compulsorily Convertible Debentures holders under rights issue of the Company. Consequently, the issued share capital stands at ₹477,376,546/- consisting of 238,688,273 equity shares of face value of ₹2 each fully paid.

57 (c) Proceeds from the rights issue have been utilised upto March 31, 2022 in the following manner :

Particulars	(Rs. in Crores)	
	Planned	Actual till 31/03/2022
a) Repayment or prepayment, in full or in part, of certain borrowings in Piramal Enterprises Ltd & Piramal Capital Housing Finance Ltd	2,900.00	2,900.00
b) General Corporate Purposes	718.31	718.31
Add: Issue related expenses	12.54	12.54
Total	3,630.85	3,630.85

59 Transfer of Financial Assets

Transferred financial assets that are not derecognised in their entirety

The following tables provide a summary of financial assets that have been transferred in such a way that part or all of the transferred financial assets do not qualify for derecognition, together with the associated liabilities:

Securitisations	Year ended March 31, 2022
Carrying amount of transferred assets measured at amortised cost (held as Collateral)	2,808.39
Carrying amount of associated liabilities (Borrowings) (other than securities)- measured at amortized cost)	2,669.65
Fair Value of Assets	2,808.39
Fair Value of Associated Liabilities	2,669.65
Net Position at Fair Value	138.74

Note : Transferred Financial Assets that are derecognised in their entirety

The Group has assigned loans (earlier measured at amortized cost) by way of direct assignment. As per the terms of deals, since substantial risk and rewards related to these assets were transferred to the buyer, the assets have been de-recognised from the Group's Balance Sheet. The table below summarised the carrying amount of the derecognised financial assets.

Direct Assignment	As at March 31, 2022
Carrying amount of transferred assets measured at amortised cost	16,220.42
Carrying amount of exposures retained by the Company at amortized cost	2,162.69

60 Ageing schedule of trade payables

As at March 31, 2022	Outstanding for following periods from the due date of payment					
	Particulars	Not due	Less than 1 year	1 year - 2 years	2-3 years	More than 3 years

61 The board of directors of the Company, at their meeting held on October 7, 2021, had inter alia, approved the composite Scheme of Arrangement under applicable provisions of the Companies Act, 2013 between Company, Piramal Pharma Limited ('PPL'), Convergence Chemicals Private Limited ('CCPL'), Hemmo Pharmaceuticals Private Limited ('HPPL'), PHL Fininvest Private Limited ('PFPL') and their respective shareholders and creditors ('Scheme'). The Scheme inter alia provides for the following:

- (i) the transfer by way of demerger of the Demerged Undertaking (as set out in the Scheme) from Company to PPL, a subsidiary of PEL
- (ii) the amalgamation of CCPL and HPPL (both being wholly owned subsidiaries of PPL) into PPL.
- (iii) the amalgamation of PFPL (a wholly owned subsidiary of PEL) into company ('FS Amalgamation').

The Company has filed the scheme with the necessary authorities and accordingly the implementation of the scheme is subject to the necessary approvals, sanctions and consents being obtained.

PIRAMAL ENTERPRISES LIMITED

INDEPENDENT AUDITOR'S REPORT

To The Members of Piramal Enterprises Limited Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of Piramal Enterprises Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2022, and the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards (Ind AS) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2022, and its profit, total comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibility for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Sr. No.	Key Audit Matter	Auditor's Response
1.	<p>Impairment loss allowance on loans and investment pertaining to finance business.</p> <p>Charge to the statement of profit and loss of Rs. NIL Provision: Rs. 246.08 crores as at March 31, 2022</p> <p>[Refer to Note 2(a)(vii), 2(b)(iii) and 47(f) to the standalone financial statements]</p>	
	<p>The Company as part of its financial services segment offers long term and short-term wholesale lending primarily to the real estate and infrastructure sector. Loans and investment portfolio in the finance business are measured at amortised cost less impairment allowance for losses. The Company applies the expected credit loss (ECL) model for recognising impairment loss.</p> <p>The Company's assessment of expected credit loss involves use of judgements and estimates, such as determination of probability of default (PD), determination of the staging, loss given default (LGD), exposure at default (EAD), estimating Management overlay for economic uncertainty expected to result from COVID 19 pandemic, forward looking information, and macro-economic factors, in computing the ECL on loans and investments.</p> <p>We identified impairment of loan and investment portfolio in finance business as a key audit matter because the Company exercises significant judgment in calculating the expected credit losses.</p>	<p>We performed the following key audit procedures:</p> <p>We held discussions with the Management and evaluated management's assessment of the ECL provision at each stage including assessment of COVID-19 impact, to determine if the provision was reasonable considering the Company's portfolio, risk profile, credit risk management practices and the macroeconomic environment.</p> <p>We evaluated the design of internal controls relating to the computation of ECL provision, the key assumptions (i.e., staging, EAD, PD and LGD rates) and other inputs used therein, including macro-economic factors</p> <p>We selected a sample of loan contracts and tested the operating effectiveness of controls over computation of ECL provision, the key assumptions and inputs used therein, through inspection of evidence of performance of these controls or independently re-performing the control.</p> <p>Through a sample of loan contracts, we performed substantive procedures, to evaluate adequacy of ECL provisioning made.</p>

Information Other than the Financial Statements and Auditor's Report Thereon

- The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance, but does not include the consolidated financial statements, standalone financial statements and our auditor's report thereon.
- Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.
- In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is

materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

- If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Deloitte Haskins & Sells LLP

- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure, and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit we report, that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

- b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.
- d) In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under Section 133 of the Act.
- e) On the basis of the written representations received from the directors as on March 31, 2022 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2022 from being appointed as a director in terms of Section 164(2) of the Act.
- f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
- g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 read with Schedule V of the Act.
- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements;
 - ii. The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts;
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.
 - iv. (a) The Management has represented that, to the best of its knowledge and belief, as disclosed in the notes to the accounts no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
(b) The Management has represented, that, to the best of its knowledge and belief, as disclosed in the notes to accounts, no funds (which are material either

**Deloitte
Haskins & Sells LLP**

individually or in the aggregate) have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

- (c) Based on the audit procedures that has been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
- v. (a) As stated in note 17 to the financial statements, the final dividend proposed in the previous year, declared, and paid by the Company during the year is in accordance with section 123 of the Act, as applicable.
- (b) No interim dividend has been declared and paid by the Company during the year.
- (c) As stated in note 17 to the financial statements, the Board of Directors of the Company have proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The amount of dividend proposed is in accordance with section 123 of the Act, as applicable.
2. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order.

ANNEXURE "A" TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Piramal Enterprises Limited ("the Company") as of March 31, 2022 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2022, based on the internal financial control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

ANNEXURE B TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 2 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

(i) In respect of its property, plant and equipment:

(a) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment, capital work-in-progress, investment property and relevant details of right-of-use assets.

(b) The Company has maintained proper records showing full particulars of intangible assets.

(c) The Company has a program of verification of property, plant and equipment, capital work-in progress, investment property and right of use assets so as to cover all the items once every three years which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the program, certain Property, Plant and Equipment were due for verification during the year and were physically verified by the Management during the year. According to the information and explanations given to us, no material discrepancies were noticed on such verification.

(d) According to the information and explanations given to us and the records examined by us and based on the examination of the registered sale deed / transfer deed / conveyance deed/ court orders approving scheme of arrangements/ amalgamation/ confirmation from custodians, provided to us, we report that, the title deeds of all the immovable properties, (other than immovable properties where the Company is the lessee and the lease agreements are duly executed in favour of the Company) disclosed in the financial statements included in property, plant and equipment, capital work-in progress are held in the name of the Company as at the balance sheet date. Further, based on examination of Letter of intent, independent architect certificate, the purchase agreements executed by the Company and deeds of transfer, we report that, the investment property in the nature of land development rights is held in name of the Company.

(e) In terms of the information and explanations sought by us and given by the Company and the books of account and records examined by us in the normal course of audit and to the best of our knowledge and belief, we state that the Company has not revalued any of its property, plant and equipment (including Right of Use assets) and intangible assets during the year.

(f) In terms of the information and explanations sought by us and given by the Company and the books of account and records examined by us in the normal course of audit and to the best of our knowledge and belief, we state that no proceedings have been initiated during the year or are pending against the Company as at March 31, 2022 for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (as amended in 2016) and rules made thereunder.

(ii) In respect of its inventories:

(a) The inventories were physically verified during the year by the Management at reasonable intervals. In our opinion and according to the information and explanations given to us, the coverage and procedure of such verification by the Management is appropriate having regard to the size of the Company and the nature of its operations. No discrepancies of 10% or more in the aggregate for each class of inventories were noticed on such physical verification of inventories when compared with books of account.

- (b) According to the information and explanations given to us, at any point of time of the year, the Company has not been sanctioned any working capital facility from banks or financial institutions and hence reporting under clause (ii)(b) of the Order is not applicable.
- (iii) The Company has made investments in, provided guarantee or security and granted unsecured loans or advances in the nature of loans, secured or unsecured, to companies, in respect of which:
- (a) The Company has provided loans during the year and details of which are given below:

Particulars	Loans	Guarantees
A. Aggregate amount granted/ provided during the year:		
-Subsidiaries	Rs. 757.75 crores	NIL
-Joint Ventures	Rs. 43.63 crores	NIL
-Others	NIL	NIL
B. Balances outstanding as at balance sheet date in respect of above cases*#		
-Subsidiaries	Rs. 5,584.74 crores	Rs. 3,199.82 crores
-Joint Ventures	Rs. 56.77 crores	NIL
-Others	Rs. 380.34 crores	NIL

* The amounts reported above are at gross amounts, without considering provisions made.
Includes opening balances.

The Company has not provided any advances in the nature of loans and security to any other entity during the year.

- (b) The investments made and the terms and conditions of the grant of all the above-mentioned loans provided during the year are, in our opinion, prima facie, not prejudicial to the Company's interest.
- (c) In respect of loans granted by the Company, the schedule of repayment of principal and payment of interest has been stipulated and the repayments of principal amounts and receipts of interest are regular as per stipulation, except as reported in sub-clause (iii)(d) below.
- (d) In respect of following loans granted by the Company, which have been overdue for more than 90 days at the balance sheet date, as explained to us, the Management has taken reasonable steps for recovery of the principal amounts and interest:

No. of cases	Principal amount overdue	Interest Overdue*	Total overdue	Remarks, if any
8	Rs. 380.34 crores	Rs. 176.42 crores	Rs. 556.76 crores	

* These loans are classified as credit impaired assets and as per policy of the Company, no income is accrued on the same in books of accounts.

- (e) According to information and explanations given to us and based on the audit procedures performed, no loan granted by the Company which has fallen due during the year, has been renewed or extended or fresh loans granted to settle the overdues of existing loans given to the same parties.
- (f) According to information and explanations given to us and based on the audit procedures performed, the Company has not granted any loans either repayable on demand or without specifying any terms or period of repayment during the year. Hence, reporting under clause (iii)(f) is not applicable.
- (iv) In our opinion and according to the information and explanations given to us, the Company has complied with the provisions of Sections 185 and 186 of the Companies Act, 2013 in respect of grant of loans, making investments and providing guarantees and securities, as applicable.
- (v) According to the information and explanations given to us, the Company has not accepted any deposit or amounts which are deemed to be deposits. Hence, reporting under clause (v) of the Order is not applicable.
- (vi) The maintenance of cost records has been specified by the Central Government under Section 148(1) of the Companies Act, 2013 in respect of its products. We have broadly reviewed the cost records maintained by the Company pursuant to the Companies (Cost Records and Audit) Rules, 2014, as amended, prescribed by the Central Government under sub-section (1) of Section 148 of the Companies Act, 2013, and are of the opinion that prima facie, the prescribed cost records have been made and maintained. We have, however, not made a detailed examination of the cost records with a view to determine whether they are accurate or complete.
- (vii) According to the information and explanations given to us, in respect of statutory dues:
- (a) Undisputed statutory dues, including Goods and Service tax, Provident Fund, Employees' State Insurance, Income-tax, Sales Tax, Service Tax, duty of Custom, duty of Excise, Value Added Tax, cess and other material statutory dues applicable to the Company have been regularly deposited by it with the appropriate authorities in all cases during the year.

There were no undisputed amounts payable in respect of Goods and Service tax, Provident Fund, Employees' State Insurance, Income-tax, Sales Tax, Service Tax, duty of Custom, duty of Excise, Value Added Tax, cess and other material statutory dues in arrears as at March 31, 2022 for a period of more than six months from the date they became payable.

- (b) Details of statutory dues referred to in sub-clause (a) above which have not been deposited as on March 31, 2022 on account of disputes are given below:

Name of Statute	Nature of Dues	Forum where Dispute is Pending	Period to which the Amount Relates	Gross amount of dispute (Rs In Crores)	Amount unpaid (Rs In Crores)
Income Tax Act, 1961	Income Tax	Appellate Tribunal	AY 2003-04 to 2007-08, 2016-17 and 2019-20	87.62	-
		Appellate Authority up to Commissioner's level	AY 2005-06, 2006-07, 2010-11, 2012-13, 2014-15 and 2016-17	30.87	5.19
		High Court	AY 2002-03 and 2008-09 to 2010-11	155.78	6.65

Name of Statute	Nature of Dues	Forum where Dispute is Pending	Period to which the Amount Relates	Gross amount of dispute (Rs In Crores)	Amount unpaid (Rs In Crores)
Central Excise Laws	Excise Duty & Service Tax including interest and penalty, as applicable.	CESTAT	1996-97 to 2000-01, 2004-05 to 2017-18	55.96	54.88
		Appellate Authority up to Commissioner's level	1989-90, 1995-96, 1998-99, 2000-01, 2004-05 to 2005-06 and 2011-18	6.15	6.11
Sales Tax Laws	Sales Tax	Tribunal	1990-91, 1995-96, 1997-98 to 2004-05, 2006-07 to 2010-11, 2012-13 to 2014-15 and 2016-17	4.50	2.42
		Appellate Authority up to Commissioner's level	1998-99 to 2011-12, 2013-14 to 2018-19	9.65	6.54
		High Court	2009-10	0.71	0.32

(viii) There were no transactions relating to previously unrecorded income that were surrendered or disclosed as income in the tax assessments under the Income Tax Act, 1961 (43 of 1961) during the year.

(ix) In respect of its borrowings:

- (a) In our opinion, the Company has not defaulted in the repayment of loans or other borrowings or in the payment of interest thereon to any lender during the year.
- (b) The Company has not been declared wilful defaulter by any bank or financial institution or government or any government authority.
- (c) To the best of our knowledge and belief, in our opinion, term loans availed by the Company were, applied by the Company during the year for the purposes for which the loans were obtained.
- (d) On an overall examination of the financial statements of the Company, funds raised on short-term basis have, prima-facie, not been used during the year for long-term purposes by the Company.
- (e) On an overall examination of the financial statements of the Company, we report that the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries, associates or joint ventures.
- (f) The Company has not raised loans during the year on the pledge of securities held in its subsidiaries or joint ventures or associate companies.

- (x) In respect of money raised by way of initial public offer or further public offer (including debt instruments):
- (a) In our opinion, moneys raised by way of further public offer of the equity shares of the Company during the year, have been, prima facie, applied by the Company during the year for the purposes for which they were raised. The Company has not raised moneys by way of Initial Public Offer/ further public offer through debt instruments.
 - (b) During the year the Company has not made any preferential allotment or private placement of shares or convertible debentures (full or partly or optionally) and hence reporting under clause (x)(b) of the Order is not applicable to the Company.
- (xi) In respect of frauds:
- (a) To the best of our knowledge, no fraud by the Company and no material fraud on the Company has been noticed or reported during the year.
 - (b) To the best of our knowledge, no report under sub-section (12) of section 143 of the Companies Act has been filed in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and up to the date of audit report.
 - (c) As represented to us by the Management, there were no whistle blower complaints received by the Company during the year.
- (xii) The Company is not a Nidhi Company and hence reporting under clause (xii) of the Order is not applicable.
- (xiii) In our opinion and according to the information and explanations given to us, the Company is in compliance with Section 177 and 188 of the Companies Act, 2013, where applicable, for transactions with the related parties and the details of related party transactions have been disclosed in the financial statements as required by the applicable accounting standards.
- (xiv) In respect of internal audits:
- (a) In our opinion the company has an internal audit system commensurate with the size and nature of its business.
 - (b) We have considered, the internal audit reports for the year under audit, issued to the Company during the year and till date when performing our audit.
- (xv) In our opinion during the year the Company has not entered into any non-cash transactions with its directors or persons connected with them and hence provisions of section 192 of the Act are not applicable.
- (xvi) In respect of registration u/s 45-IA:
- (a) The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934 basis the principal business criteria test performed on the last audited financial statements, in line with guidance under Reserve Bank of India Press Release 1998-99/1269 dated April 8, 1999.

- (b) During the year:
- the Company has conducted Non Banking Financial activities, and is in the process of obtaining a Certificate of Registration (CoR) from the Reserve Bank of India (RBI) as per the Reserve Bank of India Act, 1934.
 - the Company has not conducted any Housing Finance activities and is not required to obtain CoR for such activities from the RBI.
- (c) The Company is not Core Investment Company (CIC) as defined in the regulations made by the Reserve Bank of India.
- (d) The Group does not have any CIC as part of the group and accordingly reporting under clause (xvi)(d) of the Order is not applicable.
- (xvii) The company has not incurred cash losses during the financial year covered by our audit and in the immediately preceding financial year.
- (xviii) There has been no resignation of the statutory auditors during the year.
- (xix) On the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the company as and when they fall due.
- (xx) The Company has fully spent the required amount towards Corporate Social Responsibility (CSR) and there are no unspent CSR amounts for the year requiring a transfer to a Fund specified in Schedule VII to the Companies Act or special account in compliance with the provision of sub-section (6) of section 135 of the said Act. Accordingly, reporting under clause (xx) of the Order is not applicable for the year.

PIRAMAL ENTERPRISES LIMITED

Notes to financial statements for the year ended March 31, 2022

1. GENERAL INFORMATION

Piramal Enterprises Limited (PEL) (including its subsidiaries) is one of India's large diversified companies, with a presence in Pharmaceuticals and Financial Services.

In Pharma, through end-to-end manufacturing capabilities across 14 global facilities and a large global distribution network to over 100 countries, The Group sells a portfolio of niche differentiated pharma products and provides an entire pool of pharma services (including in the areas of injectable, HPAPI etc.). The Company is also strengthening its presence in the Consumer Products segment in India.

In Financial Services, Group provides comprehensive financing solutions to various companies. It provides both wholesale and retail funding opportunities across sectors. In real estate, the platform provides housing finance and other financing solutions across the entire capital stack ranging from early stage private equity, structured debt, senior secured debt, construction finance, and flexi lease rental discounting. The wholesale business in non-real estate sector includes separate verticals - Corporate Finance Group (CFG) and Emerging Corporate Lending (ECL). CFG provides customized funding solutions to companies across sectors such as infrastructure, renewable energy, roads, industrials, auto components etc. while ECL focuses on lending towards Small and Medium Enterprises (SMEs). The Group has also launched Distressed Asset Investing platform that invests in equity and/or debt in assets across sectors (other than real estate) to drive restructuring with active participation in turnaround. The Group also has strategic alliances with top global funds such as APG Asset Management, Bain Capital Credit, CPPIB Credit Investment Inc. and Ivanhoé Cambridge (CDPQ). The Group has long term equity investments in Shriram Group, a leading financial conglomerate in India.

PEL is a public limited Company incorporated and domiciled in India and has its registered office at Mumbai, India. It is listed on the BSE Limited and the National Stock Exchange of India Limited in India.

2a. SIGNIFICANT ACCOUNTING POLICIES

i) Basis of preparation of financial statements

Compliance with Ind AS

The standalone financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 ("the Act") read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, and other relevant provisions of the Act.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to the existing accounting standard requires a change in the accounting policy hitherto in use.

Historical Cost convention

The standalone financial statements have been prepared on the historical cost basis except for certain financial instruments and plan assets of defined benefit plans, which are measured at fair value.

ii) Investments in subsidiaries, associates, joint operations and joint ventures

Subsidiaries:

Subsidiaries are all entities (including structured entities) over which the group has control. The Company controls an entity when the company is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity.

Associates:

An associate is an entity over which the Company has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

Joint Arrangements:

Under Ind AS 111 Joint Arrangements, investments in joint arrangements are classified as either joint operations or joint ventures. The classification depends on the contractual rights and obligations of each investor, rather than the legal structure of the joint arrangement. The Company has only joint ventures.

A joint operation is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the assets and obligations for the liabilities relating to the arrangement.

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement.

The Company recognises its direct right to the assets, liabilities, revenues and expenses of joint operations and its share of any jointly held or incurred assets, liabilities, revenues and expenses. These have been incorporated in the financial statements under the appropriate headings, if any.

Investments in Subsidiaries, Associates and Joint ventures are accounted at cost.

PIRAMAL ENTERPRISES LIMITED

Notes to financial statements for the year ended March 31, 2022

iii) **Property, Plant and Equipment**

Freehold Land is carried at historical cost. All other items of Property Plant & Equipment are stated at cost of acquisition, less accumulated depreciation and accumulated impairment losses, if any. Direct costs are capitalised until the assets are ready for use and includes freight, duties, taxes and expenses incidental to acquisition and installation. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to the statement of profit and loss during the reporting period in which they are incurred. Subsequent expenditures related to an item of Property Plant & Equipment are added to its carrying value only when it is probable that the future economic benefits from the asset will flow to the Company and cost can be reliably measured.

Losses arising from the retirement of, and gains or losses arising from disposal of Property, Plant and Equipment are recognised in

Depreciation

Depreciation is provided on a pro-rata basis on the straight line method ('SLM') over the estimated useful lives of the assets specified in Schedule II of the Companies Act, 2013/ on the basis of technical evaluation, which are as follows:

Asset Class	Useful life
Buildings*	10 years - 60 years
Roads	10 years
Furniture & Fixtures	3 years - 15 years
Plant & Equipment	3 years - 20 years
Continuous Process Plant	25 years
Office Equipment	3 years - 15 years
Motor Vehicles	8 years
Helicopter	20 years
Ships	13 years
Land Freehold	25 years

*Useful life of leasehold improvements is as per lease period

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

PIRAMAL ENTERPRISES LIMITED
Notes to financial statements for the year ended March 31, 2022

iv) **Intangible Assets**

Intangible assets are stated at acquisition cost, net of accumulated amortisation and accumulated impairment losses, if any. Gains or losses arising from the retirement or disposal of an intangible asset are determined as the difference between the disposal proceeds and the carrying amount of the asset and are recognised as income or expense in the Statement of Profit and Loss.

The research and development (R&D) cost is accounted in accordance with Ind AS - 38 'Intangibles'.

Research

Research costs, including patent filing charges, technical know-how fees, testing charges on animal and expenses incurred on development of a molecule till the stage of Pre-clinical studies and till the receipt of regulatory approval for commencing phase I trials are treated as revenue expenses and charged off to the Statement of Profit and Loss of respective year.

Development

Development costs relating to design and testing of new or improved materials, products or processes are recognized as intangible assets and are carried forward under Intangible Assets under Development until the completion of the project when they are capitalised as Intangible assets, if the following conditions are satisfied:

- it is technically feasible to complete the asset so that it will be available for use;
- management intends to complete the asset and use or sell it;
- there is an ability to use or sell the asset;
- it can be demonstrated how the asset will generate probable future economic benefits;
- adequate technical, financial and other resources to complete the development and to use or sell the asset are available; and
- the expenditure attributable to the asset during its development can be reliably measured.

Intangible Assets with finite useful lives are amortized on a straight line basis over the following period:

Asset Class	Useful life
Brands and Trademarks	10 - 15 years
Copyrights, Know-how (including qualifying Product Development Cost) and Intellectual property rights	4 - 15 years
Computer Software	3 - 6 years

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

v) **Investment property**

Investment property is property held either to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business, use in the production or supply of goods or services or for administrative purposes. Upon initial recognition, an investment property is measured at cost. Cost of an investment property comprises its purchase price and any directly attributable expenditure. Subsequent to initial recognition, investment property is measured at cost less accumulated depreciation and accumulated impairment losses, if any.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss on disposal of an investment property is recognised in profit or loss.

vi) **Impairment of Assets**

The Company assesses at each Balance Sheet date whether there is any indication that an asset may be impaired. For the purposes of assessing impairment, the smallest identifiable group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or group of assets, is considered as a cash generating unit. If any such indication exists, the Company estimates the recoverable amount of the asset. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognised in the Statement of Profit and Loss. If at the Balance Sheet date there is an indication that a previously assessed impairment loss no longer exists or may have decreased, the recoverable amount is reassessed and the asset is reflected at the recoverable amount.

vii) **Financial instruments**

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Investments and Other Financial Assets

Classification

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

Subsequent Measurement

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

The Company reclassifies debt investments when and only when its business model for managing those assets changes.

Debt instruments

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the group classifies its debt instruments:

Amortised cost:

Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at amortised cost and is not part of a hedging relationship is recognised in profit or loss when the asset is derecognised or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method. Subsequently, these are measured at amortised cost using the Effective Interest Method less any impairment losses.

Fair value through other comprehensive income (FVTOCI):

Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVTOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in the statement of profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to the statement of profit or loss and recognised in other gains/ (losses). Interest income from these financial assets is included in other income using the effective interest rate method.

Fair value through profit or loss (FVTPL):

Assets that do not meet the criteria for amortised cost or FVTOCI are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognised in the statement of profit and loss and presented net in the statement of profit and loss within other gains/(losses) in the period in which it arises. Interest income from these financial assets is included in other income.

Equity instruments

The Company subsequently measures all equity investments at fair value. Where the Company's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification on derecognition of fair value gains and losses to the statement of profit and loss. Dividends from such investments are recognised in the statement of profit and loss when the Company's right to receive payments is established.

Changes in the fair value of financial assets at fair value through profit or loss are recognised in the statement of profit and loss.

Impairment of financial assets

The Company applies the expected credit loss model for recognising impairment loss on financial assets measured at amortised cost, loan commitments, trade receivables and other contractual rights to receive cash or other financial asset.

For trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 115, the Company always measures the loss allowance at an amount equal to lifetime expected credit losses.

Further, for the purpose of measuring lifetime expected credit loss ("ECL") allowance for trade receivables, the Company has used a practical expedient as permitted under Ind AS 109. This expected credit loss allowance is computed based on a provision matrix which takes into account historical credit loss experience and adjusted for forward-looking information.

In case of other than trade receivables, the expected credit loss is a product of exposure at default, probability of default and loss given default. The company has devised an internal model to evaluate the probability of default and loss given default based on the parameters set out in Ind AS 109. Accordingly, the financial instruments are classified into Stage 1 – Standard Assets with zero to thirty days past due (DPD), Stage 2 – Significant Credit Deterioration or overdue between 31 to 90 days and Stage 3 – Default Assets with overdue for more than 90 days. The Company also takes into account the below qualitative parameters in determining the increase in credit risk for the financial assets:

- 1) Significant negative deviation in the business plan of the borrower
- 2) Internal rating downgrade for the borrower or the project
- 3) Current and expected financial performance of the borrower
- 4) Need for refinancing of loan due to change in cash flow of the project
- 5) Significant decrease in the value of collateral
- 6) Change in market conditions and industry trends

For recognition of impairment loss on other financial assets and risk exposure (including off Balance Sheet Commitments), the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL. Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

Default Assets wherein the management does not expect any realistic prospect of recovery are written off to the Statement of Profit and Loss.

Derecognition of financial assets

A financial asset is derecognised only when:

- The Company has transferred the rights to receive cash flows from the financial asset or
- retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Foreign exchange gains and losses

The fair value of financial assets denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of each reporting period. For foreign currency denominated financial assets measured at amortised cost and FVTPL, the exchange differences are recognised in profit or loss except for those which are designated as hedging instruments in a hedging relationship.

Non-current assets held for sale

Assets held for sale are measured at the lower of carrying amount or fair value less costs to sell. The determination of fair value less costs to sell includes use of management estimates and assumptions. The fair value of the assets held for sale has been estimated using valuation techniques (including income and market approach) which includes unobservable inputs. Noncurrent assets and Disposal Group that ceases to be classified as held for sale shall be measured at the lower of carrying amount before the non-current asset and Disposal Group was classified as held for sale and its recoverable amount at the date of the subsequent decision not to sell.

Financial liabilities and equity instruments

Classification as debt or equity

Debt and equity instruments issued by a Company entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity Instrument

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued are recognised at the proceeds received, net of direct issue costs.

PIRAMAL ENTERPRISES LIMITED

Notes to financial statements for the year ended March 31, 2022

Compulsorily Convertible Debenture

Convertible instruments are separated into liability and equity components based on the terms of the contract. On issuance of the convertible debentures, the fair value of the liability component is determined using a market rate for an equivalent non-convertible instrument. This amount is classified as a financial liability measured at amortised cost (net of transaction costs) until it is extinguished on conversion or redemption. The remainder of the proceeds is allocated to the conversion option that is recognised and included in equity since conversion option meets Ind AS 32 criteria for fixed to fixed classification. Transaction costs are apportioned between the liability and equity components of the convertible debentures based on the allocation of proceeds to the liability and equity components when the instruments are initially recognised.

Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at FVTPL.

Financial liabilities are classified as at FVTPL when the financial liability is either contingent consideration recognised by the Company as an acquirer in a business combination to which Ind AS 103 applies or is held for trading or it is designated as at FVTPL.

Financial liabilities that are not held-for-trading and are not designated as at FVTPL are measured at amortised cost. The carrying amounts of financial liabilities that are subsequently measured at amortised cost are determined based on the effective interest method.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the amortised cost of a financial liability.

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the Company does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.

Foreign exchange gains and losses

For financial liabilities that are denominated in a foreign currency and are measured at amortised cost at the end of each reporting period, the foreign exchange gains and losses are determined based on the amortised cost of the instruments

Financial Guarantee Contracts

Financial guarantee contracts are recognised as a financial liability at the time the guarantee is issued. The liability is initially measured at fair value and subsequently at the higher of the amount determined in accordance with Ind AS 37 and the amount initially recognised less cumulative amortisation, where appropriate.

The fair value of financial guarantees is determined as the present value of the difference in net cash flows between the contractual payments under the debt instrument and the payments that would be required without the guarantee, or the estimated amount that would be payable to a third party for assuming the obligations.

Where guarantees in relation to loans or other payables of subsidiaries are provided for no compensation, the fair values are accounted for as contributions and recognised as part of the cost of the investment.

Derecognition of financial liabilities

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired. An exchange between with a lender of debt instruments with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability.

Derivatives and hedging activities

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured to their fair value at the end of each reporting period. The accounting for subsequent changes in fair value depends on whether the derivative is designated as a hedging instrument, and if so, the nature of the item being hedged and the type of hedge relationship designated.

The full fair value of a hedging derivative is classified as a non-current asset or liability when the remaining maturity of the hedged item is more than 12 months; it is classified as a current asset or liability when the remaining maturity of the hedged item is less than 12 months. Trading derivatives are classified as a current asset or liability

(i) Cash flow hedges that qualify for hedge accounting:

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognised in the other comprehensive income in cash flow hedging reserve within equity, limited to the cumulative change in fair value of the hedged item on a present value basis from the inception of the hedge. The gain or loss relating to the ineffective portion is recognised immediately in profit or loss, within other gains/(losses).

(ii) Derivatives that are not designated as hedges:

The Company enters into certain derivative contracts to hedge risks which are not designated as hedges. Such contracts are accounted for at fair value through profit or loss.

Embedded derivatives

Derivatives embedded in a host contract that is an asset within the scope of Ind AS 109 are not separated. Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Derivatives embedded in all other host contract are separated only if the economic characteristics and risks of the embedded derivative are not closely related to the economic characteristics and risks of the host and are measured at fair value through profit or loss. Embedded derivatives closely related to the host contracts are not separated.

Offsetting Financial Instruments

Financial Assets and Liabilities are offset and the net amount is reflected in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or counterparty.

viii) **Trade Receivables**

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment.

PIRAMAL ENTERPRISES LIMITED
Notes to financial statements for the year ended March 31, 2022

ix) Inventories

Inventories comprise of Raw and Packing Materials, Work in Progress, Finished Goods (Manufactured and Traded) and Stores and Spares. Inventories are valued at the lower of cost and the net realisable value after providing for obsolescence and other losses, where considered necessary. Cost is determined on Weighted Average basis. Cost includes all charges in bringing the goods to their present location and condition, including octroi and other levies, transit insurance and receiving charges. The cost of Work-in-progress and Finished Goods comprises of materials, direct labour, other direct costs and related production overheads and Excise duty as applicable. Net realizable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

x) Employee Benefits

(i) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

(ii) Other long-term employee benefit obligations

The liabilities for earned leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in profit or loss.

The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur. Long Term Service Awards are recognised as a liability at the present value of the defined benefit obligation as at the balance sheet date.

(iii) Post-employment obligations

The company operates the following post-employment schemes:

- Defined Contribution plans such as provident fund, superannuation, pension, employee state insurance scheme
- Defined Benefit plans such as provident fund and Gratuity

In case of Provident fund, contributions are made to a Trust administered by the Company, except in case of certain employees, where the Contributions are made to the Regional Provident Fund Office.

Defined Contribution Plans

The Company's contribution to provident fund (in case of contributions to the Regional Provident Fund office), pension and employee state insurance scheme are considered as defined contribution plans, as the Company does not carry any further obligations apart from the contributions made on a monthly basis and are charged as an expense based on the amount of contribution required to be made.

Defined Benefit Plan

The liability or asset recognised in the balance sheet in respect of defined benefit provident and gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation denominated in INR is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

Remeasurement gains and losses arising from experience adjustments, changes in actuarial assumptions and return on plan assets (excluding interest income) are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

Bonus Plans

The Company recognises a liability and an expense for bonuses. The Company recognises a provision where contractually obliged or where there is a past practice that has created a constructive obligation.

xi) Provisions and Contingent Liabilities

Provisions are recognised when there is a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a reliable estimate of the amount of the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material). The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

xii) Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable.

Sale of goods: Revenue from the sale of goods is recognised when the Company transfers Control of the product. Control of the product transfers upon shipment of the product to the customer or when the product is made available to the customer, provided transfer of title to the customer occurs and the Company has not retained any significant risks of ownership or future obligations with respect to the product shipped. Amounts disclosed as revenue are net off returns, trade allowances, rebates and indirect taxes.

Sale of Services: In contracts involving the rendering of services/development contracts, revenue is recognised at the point in time in which services are rendered. In case of fixed price contracts, the customer pays a fixed amount based on the payment schedule. If the services rendered by the Company exceed the payment, a Contract asset (Unbilled Revenue) is recognised. If the payments exceed the services rendered, a contract liability (Deferred Revenue) is recognised. If the contracts involve time-based billing, revenue is recognised in the amount to which the Company has a right to invoice.

Interest: Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the amortised cost and at the effective interest rate applicable.

Dividend: Dividend income from investments is recognised when the shareholder's right to receive payment has been established (provided that it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably).

PIRAMAL ENTERPRISES LIMITED
Notes to financial statements for the year ended March 31, 2022

xiii) Foreign Currency Transactions

In preparing the financial statements of the Company, transactions in currencies other than the company's functional currency viz. Indian Rupee are recognised at the rates of exchange prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in the statement of profit and loss. Non-monetary items carried at fair value that are denominated in foreign currencies are translated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences on monetary items are recognised in profit or loss in the period in which they arise.

xiv) Exceptional Items

When items of income and expense within profit or loss from ordinary activities are of such size, nature or incidence that their disclosure is relevant to explain the performance of the enterprise for the period, the nature and amount of such items is disclosed separately as Exceptional items.

xv) Leases

Effective April 01, 2019, the Company has adopted Ind AS 116 "Leases", applied to all lease contracts existing on April 1, 2019 using the modified retrospective method of transition. The Company's lease asset classes primarily consist of leases for land, buildings and IT assets.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of the leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option. Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

The following is the summary of practical expedients elected on initial application:

1. Applied a single discount rate to a portfolio of leases of similar assets in similar economic environment with a similar end date
2. Applied the exemption not to recognize right-of-use assets and liabilities for leases with less than 12 months of lease term on the date of initial application
3. Applied the practical expedient to grandfather the assessment of which transactions are leases. Accordingly, Ind AS 116 is applied only to contracts that were previously identified as leases under Ind AS 17.

xvi) Taxes on Income

Tax expense for the period, comprising current tax and deferred tax, are included in the determination of the net profit or loss for the period. Current tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income Tax Act, 1961.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the separate financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Current and deferred tax are recognised in the statement of profit and loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

Current tax assets and current tax liabilities are offset when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle the asset and the liability on a net basis. Deferred tax assets and deferred tax liabilities are offset when there is a legally enforceable right to set off assets against liabilities representing current tax and where the deferred tax assets and the deferred tax liabilities relate to taxes on income levied by the same governing taxation laws.

xvii) Cash and Cash Equivalents

In the cash flow statement, cash and cash equivalents includes cash on hand, demand deposits with banks, other short-term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

xviii) Borrowing Costs

General and specific borrowing costs directly attributable to acquisition or construction of qualifying assets (i.e. those Property Plant & Equipments which necessarily take a substantial period of time to get ready for their intended use) are capitalised. Other borrowing costs are recognised as an expense in the period in which they are incurred.

PIRAMAL ENTERPRISES LIMITED

Notes to financial statements for the year ended March 31, 2022

xix) **Segment Reporting**

The Chairman of the Company has been identified as the Chief Operating Decision Maker (CODM) as defined by Ind AS 108, "Operating Segments."

Operating segments are reported in a manner consistent with the internal reporting provided to the CODM. The accounting policies adopted for segment reporting are in conformity with the accounting policies adopted for the Company. Revenue and expenses have been identified to segments on the basis of their relationship to the operating activities of the segment. Income / Costs which relate to the Company as a whole and are not allocable to segments on a reasonable basis, have been included under Unallocated Income / Costs. Interest income and expense are not allocated to respective segments (except in case of Financial Services segment).

In accordance with Ind AS 108 'Operating Segments', segment information has been given in the consolidated financial statements of the Company, which are presented in the same annual report and therefore, no separate disclosure on segment information is given in these financial statements.

xx) **Standards issued but not yet effective**

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 23, 2022, MCA amended the Companies.

Ind AS 103 - Reference to Conceptual Framework

The amendments specify that to qualify for recognition as part of applying the acquisition method, the identifiable assets acquired and liabilities assumed must meet the definitions of assets and liabilities in the Conceptual Framework for Financial Reporting under Indian Accounting Standards (Conceptual Framework) issued by the Institute of Chartered Accountants of India at the acquisition date. These changes do not significantly change the requirements of Ind AS 103. The Company does not expect the amendment to have any significant impact in its financial statements.

Ind AS 16 - Proceeds before intended use

The amendments mainly prohibit an entity from deducting from the cost of property, plant and equipment amounts received from selling items produced while the company is preparing the asset for its intended use. Instead, an entity will recognise such sales proceeds and related cost in profit or loss. The Company does not expect the amendments to have any impact in its recognition of its property, plant and equipment in its financial statements.

Ind AS 37 - Onerous Contracts - Costs of Fulfilling a Contract

The amendments specify that the 'cost of fulfilling' a contract comprises the 'costs that relate directly to the contract'. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract (examples would be direct labour, materials) or an allocation of other costs that relate directly to fulfilling contracts. The amendment is essentially a clarification and the Company does not expect the amendment to have any significant impact in its financial statements.

Ind AS 109 - Annual Improvements to Ind AS (2021)

The amendment clarifies the treatment of any cost or fees incurred by an entity in the process of derecognition of financial liability in case of repurchase of the debt instrument by the issuer. The Company does not expect the amendment to have any significant impact in its financial statements.

Ind AS 106 - Annual Improvements to Ind AS (2021)

The amendments remove the illustration of the reimbursement of leasehold improvements by the lessor in order to resolve any potential confusion regarding the treatment of lease incentives that might arise because of how lease incentives were described in that illustration. The Company does not expect the amendment to have any significant impact in its financial statements.

xxi) **Dividends**

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

xxii) **Rounding of amounts**

All amounts disclosed in the financial statements and notes have been rounded off to the nearest Crores as per the requirement of Division II, Schedule III, unless otherwise stated.

PIRAMAL ENTERPRISES LIMITED

Notes to financial statements for the year ended March 31, 2022

2b. Critical accounting judgements and key sources of estimation uncertainties

The preparation of the financial statements in conformity with Ind AS requires the Management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) and the reported income and expenses during the year. The Management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Future results could differ due to these estimates and the differences between the actual results and the estimates are recognised in the periods in which the results are known / materialise.

Estimation of uncertainty relating to COVID-19 global health pandemic

In assessing the recoverability of loans, receivables, intangible assets and investments, the Company has considered internal and external sources of information, including credit reports, economic forecasts and industry reports up to the date of approval of these standalone financial statements. The Company has performed sensitivity analysis on the assumptions used and based on current indicators of future economic conditions, the carrying amount of these assets represent the company's best estimate of the recoverable amounts. As a result of the uncertainties resulting from COVID-19, the impact of this pandemic may be different from those estimated as on the date of approval of these financial statements and the Company will continue to monitor any changes to

ii Fair Valuation:

Some of the company's assets and liabilities are measured at fair value for financial reporting purposes. In estimating the fair value of an asset and liability, the company uses market observable data to the extent it is available. When Level 1 inputs are not available, the company engages third party qualified external valuer to establish the appropriate valuation techniques and inputs to the valuation model.

Information about the valuation techniques and inputs used in determining the fair value of various assets and liabilities are disclosed

iii Expected Credit Loss:

When determining the provision for impairment loss on financial assets carried at amortised cost and Loan commitments, in line with Expected Credit Loss model, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort for determining the Probability of default (PD) and Loss Given default (LGD). This includes both quantitative and qualitative information and analysis, based on the company's historical experience and credit assessment and including forward-looking information.

The inputs used and process followed by the Company in determining the impairment loss in line with Expected Credit loss model have been detailed in Note 47f.

iv Impairment loss in Investments and investment property carried at cost:

The Company conducts impairment reviews of investments in subsidiaries / associates / joint arrangements and Investment property, whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable or tests for impairment annually. Determining whether an asset is impaired requires an estimation of the recoverable amount, which requires the Company to estimate the value in use which base on future cash flows and a suitable discount rate in order to calculate the present value.

v Deferred Taxes

Deferred tax is recorded on temporary differences between the tax bases of assets and liabilities and their carrying amounts, at the rates that have been enacted or substantively enacted at the reporting date. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable profits during the periods in which those temporary differences and tax loss carry-forwards become deductible. The Company considers the expected reversal of deferred tax liabilities and projected future taxable income in making this assessment. The amount of the deferred tax assets considered realizable, however, could be reduced in the near term if estimates of future taxable income during the carry-forward period are reduced.

Depreciation for the year ended March 31, 2022 includes depreciation amounting to Rs. Nil Crores (Previous Year Rs 4.67 Crores) on assets used for Research and Development locations at Emmore and Mumbai.

^ The Company has a 25% share in joint ownership of Helicopter

Refer Note 39 for the assets mortgaged as security against borrowings.

Refer Note 36B for the contractual capital commitments for purchase of Property, Plant & Equipment

There has been no revaluation of property, plant and equipment ("PPE") and intangibles during the year ended March 31, 2022 and March 31, 2021

The Company holds the title deeds of all the immovable properties in its name.

Considering internal and external sources of information, the Company has evaluated at the end of the reporting period, whether there is any indication that any intangible asset may be impaired. Where such indication exists, the Company has estimated the recoverable amount of the intangible assets based on 'value in use' method. The financial projections on the basis of which the future cash flows have been estimated consider:

(a) reassessment of the discount rates,

(b) revisiting the growth rates factored while arriving at terminal value, and these variables have been subjected to a sensitivity analysis. The carrying amount of the intangible assets represent the Company's best estimate of the recoverable amounts

(b) Unsecured - Considered Good	146.08	155.30
Less: Expected Credit Loss on (b)	(0.40)	(0.40)
(c) Unsecured - Considered Doubtful	10.45	7.39
Less: Expected Credit Loss on (c)	(10.45)	(7.39)
TOTAL	145.77	155.08

The credit period on sale of goods generally ranges from 7 to 150 days (Previous Year: 7 to 90 days)

The Company has a documented Credit Risk Management Policy for its Pharmaceuticals Manufacturing and Services business. For every new customer (except established large pharma companies), Company performs a credit rating check using an external credit agency. If a customer clears the credit rating check, the credit limit for that customer is derived using internally documented scoring systems. The credit limits for all the customers are reviewed on an ongoing basis.

Of the Trade Receivables balance as at March 31, 2022 of Rs. 156.62 Crores (as at March 31, 2021 of 162.87 Crores), the top 3 customers of the Company represent the balance of Rs. 57.91 Crores as at March 31, 2022 (as at March 31, 2021 - 42.03 Crores). There were five customers (Previous year : four customers) who represent more than 5% of total balance of Trade Receivables.

The Company has used a practical expedient by computing the expected credit loss allowance for External Trade Receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience, adjusted for forward looking information including the likelihood of increased credit risk considering emerging situations due to COVID-19 based on external sources of information. The expected credit loss allowance is based on the ageing of the days the receivables are due and the rates as given in the provision matrix. The provision matrix at the end of the reporting period is as follows:

Ageing	Expected credit loss (%) - For external customers
Less than 365 days	0.30%
More than 365 days	100.00%

Ageing of Expected credit loss	(Rs. in Crores)	
	As at March 31, 2022	As at March 31, 2021

The coupon rates for the above debentures are in the range of 8.00% to 9.75 % per annum per annum (Previous Year : 8.55% to 9.75 % per annum)
Refer Note 39 for assets hypothecated/mortgaged as securities against the Secured Borrowings.

Terms and Description of Compulsorily Convertible Debentures:

Compulsorily Convertible debentures (CCD) outstanding as at 31 March 2022 is Nil. Each CCD has a par value of Rs. 151,000 and is convertible at the option of the CCD holder into Equity shares of the Company starting from December 19, 2019 in the ratio of hundred equity share of Rs. 2 each for every one CCD held. Any CCD not converted will be compulsorily converted into equity shares on June 12, 2021 at a price of Rs. 1.510 per share. The CCD carry a coupon of 9.28% per annum, payable in 3 half-yearly instalments. The basis of presentation of the liability and equity portions of these shares is explained in the summary of significant accounting policies. The CCDs allotted and the equity shares arising out of conversion of such CCDs shall not be disposed off for a period of 18 months from the date of trading approval.

During the previous year ended March 31, 2021, outstanding CCD were Rs. 1749.99 Crores.

Refer Note 52(a) for movement in CCDs.

The company has utilised the borrowed funds for general business purposes.

PIRAMAL ENTERPRISES LIMITED
Notes to financial statements for the year ended March 31, 2022

37 Employee Benefits :

Brief description of the Plans:

Other Long Term Employee Benefit Obligations:

Leave Encashment, which are expected to be availed or encashed beyond 12 months from the end of the year are treated as other long term employee benefits. The Company's liability is actuarially determined (using the Projected Unit Credit method) at the end of each year. Actuarial losses/ gains are recognised in the Statement of Profit and Loss in the year in which they arise.

Long Term Service Awards are recognised as a liability at the present value of the defined benefit obligation as at the balance sheet date.

Defined Contribution plans:

The Company's defined contribution plans are Provident Fund (in case of certain employees), Superannuation, Employees State Insurance Fund and Employees' Pension Scheme (under the provisions of the Employees' Provident Funds and Miscellaneous Provisions Act, 1952). The Company has no further obligation beyond making the contributions to such plans.

Post-employment benefit plans:

Gratuity for employees in India is as per the Payment of Gratuity Act, 1972. Employees who are in continuous service for a period of 5 years are eligible for gratuity. The amount of gratuity payable on retirement/termination is the employees last drawn basic salary per month computed proportionately for the number of years of service. The gratuity plan is a funded plan and the Company makes contributions to recognised funds in India.

The Company's Gratuity Plan is administered by an insurer and the Investments are made in various schemes of the trust. The Company funds the plan on a periodical basis.

Provident fund is administered through an in-house trust. Periodic contributions to the trust are invested in various instruments considering the return, maturity, safety, etc., within the overall ambit of the Provident Fund Trust Rules and investment pattern notified through the Ministry of Labour investment guidelines for exempted provident funds.

These plans typically expose the Group to actuarial risks such as: investment risk, interest rate risk, longevity risk and salary risk.

Investment risk

The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds. Plan investment is a mix of investments in government securities, equity, mutual funds and other debt instruments.

Interest risk

A decrease in the bond interest rate will increase the plan liability; however, this will be partially offset by an increase in the return on the plan's debt investments.

Longevity risk

The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

Salary risk

The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

The gratuity plan is a funded plan and the Company makes contributions to trust administered by the Company. The Company does not fully fund the liability and maintains a target level of funding to be maintained over a period of time based on estimations of expected gratuity payments. In respect of certain employees, Provident Fund contributions are made to a Trust administered by the Company. The contributions made to the trust are recognised as plan assets. Plan assets in the Provident fund trust are governed by local regulations, including limits on contributions in each class of investments.

The Company actively monitors how the duration and the expected yield of the investments are matching the expected cash outflows arising from the employee benefit obligations, with the objective that assets of the gratuity / provident fund obligations match the benefit payments as they fall due. Investments are well diversified, such that the failure of any single investment would not have a material impact on the overall level of assets.

A large portion of assets consists of government and corporate bonds, although the Company also invests in equities, cash and mutual funds. The plan asset mix is in compliance with the requirements of the regulations in case of Provident fund.

Particulars	(Funded)			
	Gratuity		Provident Fund	
	Year Ended March 31,		Year Ended March 31,	
	2022	2021	2022	2021
Fair Value of Plan Assets as at beginning of the year	0.73	23.01	299.43	270.77
Interest Income	0.05	1.51	20.76	22.83
Contributions from employer	-	31.01	9.47	20.96
Contributions from plan participants	-	-	-	-
Assets Transferred In for Employees joined	-	-	2.09	13.19
Assets Transferred out for Employees left / Transferred	-	(46.63)	-	-
Benefits Paid from the fund	(0.54)	(7.83)	(146.00)	(28.32)
Return on Plan Assets, Excluding Interest Income	(0.02)	(0.34)	(1.43)	-
Other actuarial adjustments	-	-	10.04	-
Fair Value of Plan Assets as at the end of the year	0.22	0.73	194.36	299.43

C. Amount recognised in the Balance Sheet

(Rs. in Crores)

Particulars	(Funded)			
	Gratuity		Provident Fund	
	As at March 31,		As at March 31,	
	2022	2021	2022	2021
Present Value of Defined Benefit Obligation as at the end of the year	21.92	20.83	194.36	299.43
Fair Value of Plan Assets as at end of the year	0.22	0.73	194.36	299.43
Net Liability recognised in the Balance Sheet (Refer Note 19)	21.70	20.10	-	-
Recognised under:				
Non Current provision (Refer Note 19)	20.65	20.10	-	-
Current provision (Refer Note 24)	1.05	-	-	-

The Provident Fund has a surplus that is not recognised on the basis that future economic benefits are not available to the Company in the form of a reduction in future contributions or a cash refund due to local regulations.

The Company has no legal obligation to settle the deficit in the funded plan (Gratuity), if any, with an immediate contribution or additional one off contributions.

D. Expenses recognised in Statement of Profit and Loss

(Rs. in Crores)

Particulars	(Funded)			
	Gratuity		Provident Fund	
	Year ended March 31,		Year ended March 31,	
	2022	2021	2022	2021
Current Service Cost	0.79	2.01	3.68	7.26
Past Service Cost	0.72	-	-	-
Net interest Cost	1.30	1.01	-	-
Total Expenses / (Income) recognised in the Statement of Profit And Loss*	2.81	3.02	3.68	7.26

*Included in Salaries and Wages, Contribution to Provident and Other Funds, Gratuity Fund and R&D Expenses (Refer Note 31 and 33)

E. Income/ Expenses Recognized in the Other Comprehensive Income (OCI) for Current Year

(Rs. in Crores)

Particulars	Gratuity	
	Year ended March 31,	
	2022	2021
Actuarial (Gains)/Losses on Obligation for the Period - Due to changes in demographic assumptions	(0.00)	(0.05)
Actuarial (Gains)/Losses on Obligation for the Period - Due to changes in financial assumptions	(0.02)	0.04
Actuarial (Gains)/Losses on Obligation for the Period - Due to experience adjustment	0.25	2.88
Return on Plan Assets, Excluding Interest Income	0.02	0.34
Net (Income)/Expense for the Year Recognized in OCI	0.25	3.21

PIRAMAL ENTERPRISES LIMITED
Notes to financial statements for the year ended March 31, 2022

F. Significant Actuarial Assumptions:

Particulars	(Funded) (%)			
	Gratuity		Provident Fund	
	As at March 31,		As at March 31,	
	2022	2021	2022	2021
Discount Rate (per annum)	6.84	6.49	6.84	6.49
Expected Rate of return on Plan Assets (per annum)	6.84	6.49	6.84	6.49
Salary escalation rate	9% for 3 years then 6%	9% for 3 years then 6%	N.A	N.A

The expected rate of return on plan assets is based on market expectations at the closing of the year. The rate of return on long-term government bonds is taken as reference for this purpose.

In case of certain employees, the Provident Fund contribution is made to a Trust administered by the Company. In terms of the Guidance note issued by the Institute of Actuaries of India, the actuary has provided a valuation of Provident fund liability based on the assumptions listed above and determined that there is no shortfall at the end of each reporting period.

G. Movements in the present value of net defined benefit obligation are as follows:

Particulars	(Rs. in Crores)	
	Gratuity	
	As at March 31,	
	2022	2021
Opening Net Liability	20.10	44.88
Expenses Recognized in Statement of Profit or Loss	2.80	3.02
Expenses Recognized in OCI	0.25	3.21
Net Liability/(Asset) Transfer In	-	-
Net (Liability)/Asset Transfer Out	-	-
Benefit Paid Directly by the Employer	-	-
Employer's Contribution	(1.46)	-
Net Liability/(Asset) Recognized in the Balance Sheet	21.69	20.10

H. Category of Assets

Particulars	(Rs. in Crores)			
	Gratuity		Provident Fund	
	As at March 31,		As at March 31,	
	2022	2021	2022	2021
Government of India Assets (Central & State)	-	0.34	79.53	129.72
Cash and Cash Equivalents	-	-	0.41	-
Public Sector Unit Bonds	0.09	-	-	21.06
Corporate Bonds	-	-	-	94.47
Fixed Deposits under Special Deposit Schemes of Central Government*	-	0.19	74.75	28.59
Insurance fund	-	0.04	16.97	-
Equity Shares of Listed Entities / Mutual Funds	0.12	-	-	22.31
Others*	-	0.06	14.07	3.28
Total	0.21	0.71	194.37	299.43

* Except these, all the other investments are quoted.

I. Other Details

Particulars	Gratuity	
	As at March 31,	
	2022	2021
No of Active Members	374	341
Per Month Salary For Active Members (Rs. in Crores)	2.84	2.57
Average Expected Future Service (Years)	7.00	7.00
Projected Benefit Obligation (PBO) (Rs. in Crores)	21.91	20.83
Prescribed Contribution For Next Year (12 Months) (Rs. in Crores)	2.84	2.57

J. Cash Flow Projection: From the Fund

Projected Benefits Payable in Future Years From the Date of Reporting	(Rs. in Crores)	
	Gratuity	
	Estimated for the year ended March 31,	
	2022	2021
1st Following Year	13.41	12.88
2nd Following Year	0.79	0.87
3rd Following Year	1.62	0.71
4th Following Year	0.79	1.23
5th Following Year	0.85	0.69
Sum of Years 6 To 10	4.39	3.78

The Company's Gratuity Plan is administered by an insurer and the Investments are made in various schemes of the trust. The Company funds the plan on a periodical basis.

In case of certain employees, Provident fund is administered through an in-house trust. Periodic contributions to the trust are invested in various instruments considering the return, maturity, safety, etc., within the overall ambit of the Provident Fund Trust Rules and investment pattern notified through the Ministry of Labour investment guidelines for exempted provident funds.

Weighted average duration of the defined benefit obligation is 7 years (Previous year: 7 years)

K. Sensitivity Analysis

Projected Benefit Obligation	(Rs. in Crores)	
	Gratuity	
	As at March 31,	
	2022	2021
Impact of +1% Change in Rate of Discounting	(0.52)	(0.74)
Impact of -1% Change in Rate of Discounting	(1.76)	0.60
Impact of +1% Change in Rate of Salary Increase	0.23	0.59
Impact of -1% Change in Rate of Salary Increase	(0.53)	(0.54)
Impact of +1% Change in Rate of Employee Turnover	0.01	(0.00)
Impact of -1% Change in Rate of Employee Turnover	(0.01)	0.00

The above sensitivity analysis are based on change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the balance sheet.

The estimates of future salary increases, considered in actuarial valuation, take account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

The liability for Leave Encashment (Non - Funded) as at year end is Rs. 12.10 Crores (Previous year Rs. 12.10 Crores).

The liability for Long term Service Awards (Non - Funded) as at year end is Rs. 0.26 Crores (Previous year Rs. 0.26 Crores).

ANNEXURE B: CREDIT RATINGS AND RATING RATIONALES

[This page has been intentionally left blank]

Ref: ICRA/Piramal Enterprises Limited/10122024/02
Date: December 10, 2024

Mr. Lalit Ostwal
Head – Group Treasury
Piramal Enterprises Limited
4th Floor, Piramal Tower, Peninsula Corporate Park
Ganpatrao Kadam Marg, Lower Parel, Mumbai – 400 013.

Dear Sir,

Re: ICRA Credit Rating for below mentioned instruments of Piramal Enterprises Limited.

Please refer to your email requesting ICRA Limited to revalidate the rating letter issued for the below mentioned instruments.

We confirm that the following ratings of the instruments rated by ICRA and last communicated to you vide our letter dated December 29, 2023 stands valid.

Instrument	Rated Amount (Rs. crore)	Rating ¹
Retail NCD	3,000	[ICRA]AA (Stable)

The other terms and conditions for the rating of the aforementioned instrument shall remain the same as communicated vide our letter dated December 29, 2023.

The rating, as aforesaid, however, should not be treated as a recommendation to buy, sell or hold long term debt/non-convertible debenture to be issued by you.

We look forward to further strengthening our existing relationship and assure you of our best services.

With kind regards,

Yours sincerely,

For ICRA Limited

Piramal Enterprises Limited

4th Floor, Piramal Tower, Peninsula Corporate Park

Ganpatrao Kadam Marg, Lower Parel,

Mumbai – 400 013.

Dear Sir,

Re: ICRA Credit Rating for the Rs. 3,000 crore Retail Non-Convertible Debenture(NCD) Programme of Piramal Enterprises Limited.

Please refer to the Rating Agreement/Statement of Work dated May 22, 2023 executed between ICRA Limited (“ICRA”) and your company for carrying out the rating of the aforesaid Retail NCD Programme. The Rating Committee of ICRA, after due consideration, has assigned a **[ICRA]AA** (pronounced as ICRA double A) rating to the captioned Retail NCD Programme. Instruments with this rating indicate high degree of safety regarding timely servicing of financial obligations. Such instruments carry very low credit risk. The outlook on the long-term rating is **Stable**.

In any of your publicity material or other document wherever you are using the above assigned rating, it should be stated as **[ICRA]AA (Stable)**.

We would request if you can provide your acceptance on the above Rating(s) by sending an email or signed attached acknowledgement to us latest by June 30, 2023 as acceptance on the assigned rating. In case you do not communicate your acceptance/non acceptance of the assigned credit rating, or do not appeal against the assigned rating by the aforesaid date, the rating will be treated by us as non accepted and shall be disclosed on ICRA’s website accordingly. This is in accordance with requirements prescribed by the Securities and Exchange Board of India (SEBI) vide SEBI circular dated June 30, 2017.

Any intimation by you about the above rating to any banker/lending agency/government authorities/stock exchange would constitute use of this rating by you and shall be deemed acceptance of the rating.

This rating is specific to the terms and conditions of the proposed issue as was indicated to us by you and any change in the terms or size of the issue would require the rating to be reviewed by us. If there is any change in the terms and conditions or size of the instrument rated, as above, the same must be brought to our notice before the issue of the instrument. If there is any such change after the rating is assigned by us and accepted by you, it would be subject to our review and may result in change in the rating assigned. ICRA reserves the right to review and/or, revise the above at any time on the basis of new information or unavailability of information or such other circumstances, which ICRA believes, may have an impact on the rating assigned to you.

The rating, as aforesaid, however, should not be treated as a recommendation to buy, sell or hold the bonds, debentures and/ or other instruments of like nature to be issued by you.

You are also requested to forthwith inform us about any default or delay in repayment of interest or principal amount of the instrument rated, as above, or any other debt instruments/ borrowing and keep us informed of any other developments which may have a direct or indirect impact on the debt servicing capability of the company including any proposal for re-schedulement or postponement of the repayment programmes of the dues/ debts of the company with any lender(s) / investor(s). Further, you are

requested to inform us immediately as and when the borrowing limit for the instrument rated, as above, or as prescribed by the regulatory authority(ies) is exceeded.

We thank you for your kind cooperation extended during the course of the rating exercise. Should you require any clarification, please do not hesitate to get in touch with us.

We look forward to your communication and assure you of our best services.

With kind regards,

Yours sincerely,

For ICRA Limited

Total	12,340	11,340	

*Instrument details are provided in Annexure I

Rationale

Material event

On May 8, 2024, Piramal Enterprises Limited (PEL) announced that its board of directors (BoD) has approved a composite scheme of arrangement, whereby PEL would be reverse merged with its wholly-owned subsidiary – Piramal Capital & Housing Finance Limited (PCHFL). The merged entity would be renamed Piramal Finance Limited (PFL). Further, PCHFL's BoD approved the conversion of the entity to a non-banking financial company – investment and credit company (NBFC-ICC) from a housing finance company (HFC) because it does not meet the requisite principle business criteria (PBC) applicable to HFCs as per the Master Direction – Non-Banking Financial Company – Housing Finance Company (Reserve Bank) Directions, 2021. Accordingly, PCHFL will submit an application to the Reserve Bank of India (RBI) for an NBFC-ICC licence and continue to operate as an HFC in the interim. The reverse merger would take place after PCHFL receives the NBFC-ICC licence.

Further, as per the RBI's (NBFC – Scale Based Regulation) Master Directions, 2023 (Scale Based Regulations), all NBFCs identified as upper layer NBFCs are mandatorily required to be listed within three years of being identified as such. PCHFL has been identified as an upper layer NBFC and is accordingly required to be listed prior to September 30, 2025. As a part of the proposed scheme, PFL would be listed on the stock exchanges. The transaction is subject to the receipt of approvals from regulatory authorities, stock exchanges, shareholders, creditors, etc. The management estimates a timeline of 9-12 months for completing the transaction.

Impact of material event

ICRA takes a consolidated view of the credit profiles of PEL and PCHFL to arrive at the ratings for both entities as they have operational and business synergies in addition to a shared name and management oversight. The proposed scheme of arrangement is credit neutral from an analytical approach perspective. Moreover, it is unlikely to materially alter the business operations. In this regard, the management has asserted that the merger would result in the simplification of the group structure and the optimisation of resources. Further, as of March 31, 2024, PCHFL did not avail any low-cost borrowings from National Housing Bank (NHB), which could get impacted due to its conversion to an NBFC-ICC from an HFC.

ICRA has taken note of PEL's consolidated financial performance in FY2024, characterised by pressure on profitability owing to the elevated credit costs incurred to expedite the rundown of the legacy (wholesale 1.0) assets under management (AUM) and management overlay to address potential losses while running down the residual legacy book. Moreover, the pre-provisioning operating profit remained subdued due to high operating expenses amid the ongoing retailisation and low yields on legacy wholesale assets. Nonetheless, multiple one-off gains, pertaining to the sale of the stake in Shriram Investment Holdings Pvt. Ltd., the potential reversal of provisions related to alternative investment funds created in FY2024 and the recognition of deferred tax assets, partially offset the higher credit costs, curtailing the impact on the net worth.

PEL's consolidated capitalisation remains comfortable with a gearing of ~2 times as of March 2024. The performance of the growth business (comprising retail and wholesale 2.0 AUM) remains adequate, although the book is yet to season. The initial cost to scale up new businesses, along with credit losses while running down the legacy book has, however, resulted in weak profitability. An improvement in the same remains monitorable for the credit profile, going forward.

The ratings continue to draw support from PEL's capitalisation, its experienced management team, and the increase in the share of retail loans, accounting for 70% of the AUM as of March 2024 compared to 50% as of March 2023. The company has aggressively diversified its retail product offerings, in line with its growth ambitions for the medium term. ICRA also notes the sustained rundown in the legacy wholesale AUM (Rs. 14,572 crore as of March 2024 from Rs. 43,633 crore as of March 2022) accelerated by sales, impairments and write-offs, besides scheduled collections. ICRA notes that the legacy AUM is estimated to comprise less than 10% of the AUM by March 2025. The company had overall provisions of Rs. 3,429 crore as of March 2024 (provision coverage ratio (PCR) of 5.1%) compared to Rs. 3,964 crore as of March 2023 (PCR of 6.2%). It had provisions of Rs. 2,629 crore, as of March 2024, for the wholesale book (PCR of 12.6%) compared to Rs. 3,332 crore as of March 2023 (PCR of 10.5%). However, the ability to curtail losses while running down the residual legacy book remains monitorable.

ICRA has withdrawn the [ICRA]A1+ rating assigned to PEL's Rs. 1,000-crore short-term non-convertible debenture (NCD) programme as no amount is outstanding against the same. This is in accordance with ICRA's policy on the withdrawal of credit ratings. The previous detailed rating rationale, which captures the key rating drivers and their description, liquidity position, rating sensitivities and key financial indicators, is available at the following link: [Click here](#).

Analytical approach

Analytical Approach	Comments
Applicable rating methodologies	Rating Methodology for Non-banking Finance Companies Policy on Withdrawal of Credit Ratings
Parent/Group support	Not applicable
Consolidation/Standalone	Consolidation; To arrive at the ratings, ICRA has taken a consolidated view of the credit profiles of PEL and its wholly-owned subsidiary, i.e. PCHFL, together referred to as PEL or the company, as they have operational and business synergies in addition to a shared name and management oversight.

About the company

Piramal Enterprises Limited (PEL) is a non-banking financial company (NBFC), which was registered with the Reserve Bank of India (RBI) w.e.f. July 22, 2022. It has a presence in retail lending, wholesale lending, and fund-based platforms, primarily through standalone operations and its wholly-owned subsidiary, i.e. Piramal Capital & Housing Finance Limited (PCHFL). The company's consolidated operations are backed by a network of about 487 conventional branches and 194 microfinance branches across 26 states and Union Territories as of March 2024.

PEL received its NBFC licence as a part of a planned corporate restructuring exercise, whereby the pharma business was demerged from PEL [and housed under a separate listed entity – Piramal Pharma Limited (PPL)]. Further, PHL Fininvest Private Limited (PFPL), a wholly-owned subsidiary of PEL and the NBFC arm of the Group, was merged into PEL w.e.f. August 12, 2022.

PEL forayed into the financial services sector with PCHFL, a housing finance company (HFC) that provides both wholesale and retail finance across segments. PCHFL was chosen as the successful resolution applicant by Dewan Housing Finance Corporation Ltd's (DHFL) Committee of Creditors for the resolution of DHFL, an HFC catering to the low-and-middle-income borrower segment. As per the resolution plan approved by the National Company Law Tribunal (NCLT), DHFL's existing liabilities were discharged by the erstwhile PCHFL and a consideration of Rs. 34,250 crore (comprising upfront cash of Rs. 14,700 crore and issuance of debt instruments of Rs. 19,550 crore) was paid to DHFL's creditors. The erstwhile PCHFL was reverse merged with DHFL, with effect from September 30, 2021, and the amalgamated entity (DHFL) was rechristened Piramal Capital & Housing Finance Limited.

Within retail lending, through its multi-product platform, PEL offers home loans to customers in the affordable housing and budget segments, secured and unsecured lending to small businesses, pre-owned car loans, loan against securities, and unsecured finance constituting microfinance, digital purchase finance, salaried personal loans, etc. Within wholesale lending, the business provides financing to real estate developers as well as corporate clients in select sectors.

PEL has also formed strategic partnerships with financial institutions such as the Canada Pension Plan Investment Board, APG Asset Management and Ivanhoe Cambridge (subsidiary of Caisse de dépôt et placement du Québec; CDPQ) across investment platforms. Piramal Alternatives, the fund management business, provides customised financing solutions to select corporates through Piramal Credit Fund, a performing, sector-agnostic credit fund with capital commitment from CDPQ, and IndiaRF, a distressed asset investing platform with Bain Capital Credit, which invests in equity and/or debt across non-real estate sectors. PEL also has a 50% stake in Pramerica Life Insurance (a joint venture with Prudential International Insurance Holdings) and equity investments in Shriram Group.

Status of non-cooperation with previous CRA: Not applicable

Complexity level of the rated instruments

Instrument	Complexity Indicator
NCD	Simple
Retail NCD	Simple
Long term/short term – Fund-based/non-fund based bank lines	Simple
Short-term debt	Simple

The Complexity Indicator refers to the ease with which the returns associated with the rated instrument could be estimated. It does not indicate the risk related to the timely payments on the instrument, which is rather indicated by the instrument's credit rating. It also does not indicate the complexity associated with analysing an entity's financial, business, industry risks or complexity related to the structural, transactional or legal aspects. Details on the complexity levels of the instruments are available on ICRA's website: [Click Here](#)

Dear Sir,

Credit rating for Public Non-Convertible Debentures

Please refer to our letter no. **No. CARE/HO/RL/2024-25/3154** dated November 07, 2024 and your request for revalidation of the rating assigned to the Public Non-Convertible Debenture issue for the company, for a limit of Rs. 3,000.00 crore.

2. The following rating(s) have been reviewed:

Sr. No.	Instrument	Amount (₹ crore)	Rating ¹	Rating Action
1.	Non-Convertible Debentures	3,000.00	CARE AA; Stable	Reaffirmed

3. Please arrange to get the rating revalidated, in case the proposed issue is not made within **six months** from the date of this letter.

4. Please inform us the below-mentioned details of issue immediately, but not later than 7 days from the date of placing the instrument:

Instrument type	ISIN	Issue Size (Rs cr.)	Coupon Rate	Coupon Payment Dates	Terms of Redemption	Redemption date	Name and contact details of Trustee/IP A	Details of top 10 investors
-----------------	------	---------------------	-------------	----------------------	---------------------	-----------------	--	-----------------------------

¹Complete definitions of the ratings assigned are available at www.careedge.in and in other CARE Ratings Ltd.'s publications.

CARE Ratings Ltd. reserves the right to undertake a surveillance/review of the rating from time to time, based on circumstances warranting such review, subject to at least one such review/surveillance every year.

5. CARE Ratings Ltd. reserves the right to revise/reaffirm/withdraw the rating assigned as a result of periodic review/surveillance, based on any event or information which in the opinion of CARE Ratings Ltd. warrants such an action. In the event of failure on the part of the entity to furnish such information, material or clarifications as may be required by CARE Ratings Ltd. so as to enable it to carry out continuous monitoring of the rating of the debt instruments, CARE Ratings Ltd. shall carry out the review on the basis of best available information throughout the life time of such instruments. In such cases the credit rating symbol shall be accompanied by "ISSUER NOT COOPERATING". CARE Ratings Ltd. shall also be entitled to publicize/disseminate all the aforementioned rating actions in any manner considered appropriate by it, without reference to you.
6. Our ratings do not factor in any rating related trigger clauses as per the terms of the facility/instrument, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and if triggered, the ratings may see volatility and sharp downgrades.
7. Users of this rating may kindly refer our website www.careedge.in for latest update on the outstanding rating.
8. CARE Ratings Ltd. ratings are **not** recommendations to buy, sell, or hold any securities.

If you need any clarification, you are welcome to approach us in this regard.

Thanking you,

Yours faithfully,

Details of instruments/facilities in Annexure-1.

Rationale and key rating drivers

Reaffirmation of ratings assigned to the debt instruments and bank facilities of Piramal Enterprises Limited (PEL) continues to factor in long track record of the Piramal group, moderate leverage supported by comfortable capitalisation levels with a consolidated tangible net worth (TNW) of ₹23,460 crore as on March 31, 2024 (June 30, 2024: ₹23,151 crore) and demonstrated financial flexibility through fund raising by diversified sources.

Ratings also take note of the group's plan to bring in more granularity to the loan book by focusing on the retail segment, which would comprise diversified products apart from home loans, while undertaking reduction of legacy wholesale book (wholesale 1.0), largely comprising real estate. In FY24, the proportion of retail loan book increased and stood at 70% of asset under management (AUM) as on March 31, 2024, compared to 50% of AUM as on March 31, 2023. As on June 30, 2024, the retail loan book grew further and stood at 72% of the AUM. The company is building its wholesale lending book (wholesale 2.0), which has relatively lower ticket size and focus across sectors including emerging markets and real estate, where the focus is largely on construction funding. Wholesale 2.0 constituted 9% of AUM as on March 31, 2024, compared to 4% of AUM as on March 31, 2023, which further rose to 10% of the AUM as on June 30, 2024. Ratings remain constrained considering sector concentration within Wholesale 1.0, which is dominated by real estate loans having large ticket-size, and includes Security Receipts, Land Receivables, AIF.

The asset quality parameters remain moderate in FY24 and Q1FY25 with improvement in the last year as PEL reduced in the wholesale 1.0 book through sale to asset reconstruction companies (ARC), exit through recoveries and other means. As on June 30, 2024, ~29% of wholesale 1.0 book continues to be in Stage 2 & Stage 3, 44% of wholesale 1.0 book were in form of Security Receipts, Land Receivables, AIF and balance 27% of wholesale 1.0 book stood in Stage 1. Consolidated Gross stage 3 of the company stood at 2.40% as on March 31, 2024 (2.70% as on June 30, 2024), as against 3.76% as on March 31, 2023. The retail book grew rapidly in the recent past and is largely unseasoned, and its performance needs to be monitored in the medium term.

Scaling up of retail lending franchise, reducing wholesale 1.0 portfolio while maintaining asset quality and capitalisation, improving profitability with stabilisation of credit cost and PEL's ability to raise funds from diverse sources at competitive rates are the key rating monitorable.

CARE Ratings Limited (CARE Ratings) has taken note of PEL's board approval as on May 08, 2024, for a composite scheme of amalgamation whereby PEL (NBFC-ICC) would be reverse merged with its wholly owned subsidiary

¹Complete definition of the ratings assigned are available at www.careedge.in and other CARE Ratings Ltd.'s publications.

Piramal Capital & Housing Finance Limited (PCHFL). The merged entity would be renamed as Piramal Finance Limited. As PCHFL does not comply with the principal business criteria (PBC) applicable to housing finance companies (HFCs) per the Master Direction –Non-Banking Financial Company – Housing Finance Company (Reserve Bank) Directions, 2021, PCHFL is now in process of submitting an application to the RBI for conversion of its HFC license to an NBFC-ICC license. Following the Board approval, the scheme has been filed with the stock exchanges in Q1FY25. Per the RBI's (NBFC –Scale Based Regulation) Master Directions, 2023 (Scale Based Regulations), all NBFCs identified as upper layer NBFCs are mandatorily required to be listed within three years of being identified as such, since PCHFL is an upper-layer NBFC, it is required to be mandatorily listed by September 2025. The management estimates a timeline of ~9-12 months for completing this transaction.

CARE Ratings has withdrawn ratings assigned to one mandate of market-linked debentures, since it was matured and redeemed, is in line with CARE Ratings' withdrawal policy.

Rating sensitivities: Factors likely to lead to rating actions

Positive factors – Factors that could lead to positive rating action/upgrade:

- Significant improvement in asset quality on a sustained basis
- Improvement in the scale of operations along with improvement in the profitability indicators, with a consolidated return on total assets (ROTA) of more than 3% on a sustained basis.

Negative factors – Factors that could lead to negative rating action/downgrade:

- Inability to reduce the exposure to real estate loans in the loan book on a sustained basis.
- Mismatch in asset liability maturities and challenges in raising long-term funding at competitive rates.
- Deterioration in asset quality with net non-performing asset (NNPA)/ net worth of over 10%.
- Increase in the overall net gearing beyond 3.5x.

Analytical approach:

CARE Ratings has taken a consolidated view of PEL. Subsidiaries considered for consolidated are listed under Annexure 6.

Outlook: Stable

The "stable" outlook factors in the continuation of diversification and granularisation of overall portfolio and limited impact on the net worth base and capitalisation levels despite higher credit costs and moderation in profitability. CARE Ratings expects improvement in the financial performance post recognition of stress in wholesale portfolio and improvement in overall asset quality profile.

Detailed description of the key rating drivers:

Key strengths

Comfortable capitalisation and gearing levels

Over the last five years, the Piramal group has raised a significant amount of equity capital which has significantly scaled up the consolidated net worth of PEL. During FY20 and FY21, PEL raised nearly ₹18,173 crore of capital through multiple channels which were used to deleverage the balance sheet and provide capital for its financial services business. During FY23, the group demerged its pharmaceutical (pharma) business from PEL and PEL got converted into a non-banking finance company (NBFC) post receiving the license from RBI on July 21, 2022, and majority of the net worth has been retained in PEL for financial services business post the restructuring. During FY24, PEL sold its entire 8.34% stake of Shriram Finance Limited for ₹4,824 crore and sold its entire 20% stake in Shriram investments for ₹1,440 crore. The liquidity of the company bolstered in FY24 mainly account of these stake sales. The stakes in other unlisted Shriram Group companies viz 20% stake in Shriram GI Holdings Private Limited and 20% in Shriram LI Holdings Private Limited, valued at approximately ₹1,700 crore, continues to be held by PEL.

PEL has a consolidated tangible net worth of ₹23,151 crore as on June 30, 2024 (March 31, 2024: ₹23,460 crore), with an overall gearing of 2.37x (March31, 2024: 2.28x) and total capital adequacy ratio (CAR) of 24.40% as on June 30,2024 (March 31, 2024: 25.60%). PEL has strong fund-raising capability as demonstrated by multiple equity

raise in the past. As the company plans to further reduce its wholesale 1.0 lending book and scale up its retail business, it is expected to see an increase in the gearing levels. CARE Ratings expects the consolidated net gearing to remain under 3.5x over the medium term.

Strong and resourceful promoters along with experienced management team

PEL is the holding company of the Piramal Group headed by the Chairman, Mr. Ajay Piramal. The promoter group has presence in diversified businesses like financial services through PEL, pharma (CDMO, Critical Care, OTC) through Piramal Pharma Ltd (PPL), and real estate development and consulting (through a separate company).

The Board of Directors of PEL comprises eminent individuals from the industry providing their experience and governance to the group. The senior management team comprises of professionals heading various verticals with adequate and relevant experience in their respective fields.

The group has experience of lending in the real estate industry for over a decade and forayed into mortgage lending during the last five years. The focus of the group has now shifted towards building the retail portfolio and rebuilding the wholesale portfolio. Mr. Jairam Sridharan, Managing Director, heads the Retail Lending business and has over two decades of retail domain experience and specializes in setting up and scaling new businesses. Mr. Yesh Nadkarni, CEO Wholesale Lending, has over two decades of investing experience across debt, equity and special situations. The group is in the process of building teams, systems and processes as it undertakes retail book expansion post-acquisition of DHFL.

Increase in retail lending in AUM mix

PEL has been focusing on increasing the proportion of retail lending portfolio and acquisition of erstwhile Dewan Housing Finance Limited (DHFL) during FY23, helped it to acquire a sizeable retail lending book (largely affordable housing). During FY24, PEL has been diversifying its retail book by launching new products, such as unsecured loans, small and medium enterprises (SME) credit, used vehicle financing, personal loans, etc. and have made partnerships with fintech and consumer tech firms to grow its retail financing business.

The AUM, stood at ₹67,220 crore as on March 31, 2024 (June 30, 2024: ₹70,576 crore) as against ₹63,989 crore as on March 31, 2023. The overall wholesale lending portfolio (1.0 and 2.0) has decreased from ₹31,845 crore constituting 49% of total AUM as on March 31, 2023, to ₹20,919 crore constituting 30% of total AUM as on March 31, 2024 (June 30, 2024: ₹20,046 crore viz. 28% of total AUM) while the proportion of retail lending portfolio increased to 70% of AUM as on March 31, 2024 (June 30, 2024: 72%), from 50% of AUM as on March 31, 2023, as the company has increased disbursements in retail and resolved part of wholesale portfolio. Housing loans continue to be the major proportion at 32% of the total AUM (largely on the books of PCHFL), followed by secured MSME lending at 16% and unsecured loans contributing 16% as on June 30, 2024, with the proportion of other newly launched products remaining relatively small.

PEL is also expanding geographically by opening new branches to the already existing branches acquired from DHFL. Retail lending branches increased from 404 conventional branches and 120 microfinance branches in FY23 to 501 conventional branches and 210 microfinance branches in Q1FY25. The retail portfolio is gaining traction as the disbursements have improved quarter-on-quarter post-acquisition of DHFL and have exceeded the run-off rate of the legacy DHFL retail loan book. The reduction of wholesale 1.0 book also helped improve the AUM mix favorably.

Key weaknesses

Concentration risk with sizeable amount of wholesale loan portfolio continuing

The lending portfolio of PEL in the past has predominantly been wholesale with high concentration on the real estate segment. As a current strategy, the group has planned to change the AUM mix by focusing on building a granular wholesale 2.0 book which continues to be dominated by new real estate exposures with smaller ticket sizes targeting large and medium developers and new Corporate Mid-Market Lending (CMML) which is cashflow backed and has better capitalisation. Loans under wholesale 2.0 would be extended to cashflow generating operating companies and not lending at holding company level. Within the wholesale 1.0 segment, management has continuous aim to reduce the book consisting of real estate portfolio by refinancing and resolution of stressed assets especially the larger chunkier group exposures. Currently, as on June 30, 2024, wholesale 1.0 stands at ₹12,975 crore as compared to ₹14,572 crore as on Mar 31, 2024 and ₹29,053 crore as on March 31, 2023.

Moderate asset quality of wholesale and unseasoned retail book

The Gross stage 3 assets on entire loan book stood at 2.7% as on June 30, 2024, as compared with at 2.4% as on March 31, 2024 (March 31, 2023: 3.8%). As on March 31, 2024, PEL had provisioning of 5.10% of overall asset under management (AUM) (4.40% as on June 30, 2024), and 12.57% provisioning on wholesale AUM (10.68% as on June 30, 2024), which provides comfort against future asset quality shocks.

The asset quality of the retail segment continues to be comparatively better with lower delinquencies than wholesale, As on Mar 31, 2024, Stage 3 for retail AUM book stood at 1.2%, although has been marginal uptick in the delinquencies majorly in the unsecured segment during Q1FY25, , As the retail book has witnessed rapid growth in the recent past, its performance needs to be monitored over the medium term.

The wholesale AUM reduced significantly during Q3FY24 and Q4FY24 as PEL wrote off stressed assets and undertook its sale through ARC and others. The wholesale 1.0 and 2.0 gross stage 2 and stage 3 assets represented 18.83% of wholesale AUM as on June 30, 2024, and provisions cover of 37% for gross stage 2 and stage 3 assets. Although, as per the management, the recognition of stress in the wholesale portfolio is largely over with adequate provisioning on the same, the focus is more on resolution of the stress portfolio. CARE Ratings would continue to monitor the asset quality of overall AUM and resolution of wholesale 1.0 portfolio and incremental slippages from Stage 1.

The management has indicated that the stressed assets in the wholesale book have been largely recognised and does not envisage any large slippages over the medium term. Furthermore, the company held total provision coverage ratio of 4.4% on its overall AUM as on June 30, 2024, which provides comfort.

However, the ability of the company to maintain healthy asset quality of its retail book and wholesale 2.0 book as it scales along with any further stress from the wholesale 1.0 which is being scaled down, would remain monitorable.

Modest profitability due to high operating expense and credit cost

The consolidated interest income saw a modest decrease of 6% Y-o-Y to ₹7,314 crore in FY24 as compared with ₹7,799 crore for FY23, primarily driven by a decrease in wholesale AUM (amid ongoing reduction of the wholesale loan book and a shift in the loan book mix towards retail). The yield on AUM fell from 12.07% during FY23 to 11.15% during FY24, change is due to an increase in the retail proportion having lower yields with simultaneous reduction of wholesale along with increase in non-yielding wholesale book assets in overall AUM. Consolidated interest expenses for FY24 increased by 9% y-o-y to ₹4,344 crore from ₹3,994 crore in FY23 due to increase in cost of funds during the year. The consolidated net interest income (calculated as 'Interest Income – Interest expense) decreased by 22% YoY to ₹2,970 crore in FY24. The average cost of borrowings for PEL increased from 7.6% during FY23 to 8.4% during FY24 on account of rising interest rates scenario. The operating expenses (including fee and commission expenses) increased 67% y-o-y primarily due to expenses associated with expansion of the cost intensive retail lending branches from 404 conventional branches and 120 microfinance branches in FY23 to 487 conventional branches and 194 microfinance branches in FY24. Investments in building retail infrastructure like an increase in branch network and employee headcount have led to an increase in the operating expenses. With an increase in book size, economies of scale will help taper this over time. Further during Q4FY24, the company made additional management overlay for wholesale real estate book of ₹729 crore. The net overall provisions/credit cost reduced to ₹2,677 in FY24 from ₹5,295 crore in FY23. Net overall provisions are primarily driven by gain from Shriram stake sale, net loss on de-recognition of assets, AIF write-offs as per RBI circular and write back of provisions. Net loss after tax for FY24 stood at ₹1,684 crore due to higher provisioning/written off done for wholesale 1.0 book as compared with net profit after tax of ₹9,969 crore in FY23 due to exceptional gain of ₹8,066 crore pertaining to demerger-related transaction and a one-time Deferred Tax Liability (DTL) reversal of ₹3,978 crore (related to the DHFL transaction).

Consolidated net interest income for quarter ending Q1FY25 stood at ₹732 crore as compared with ₹734 crore for Q4FY24. The operating expenses (including fee and commission expenses) decreased 51% y-o-y primarily due to one-time impairment of investment property during Q4FY24 of ₹660 crore. Total branches stood at 501 conventional branches and 210 microfinance branches during Q1FY25. Net profit after tax for quarter ending June 30, 2024, stood at ₹182 crore as compared with ₹137 crore for Q4FY24.

Ability to raise funds at competitive rates

Majority of the borrowings of PEL are in the form of non-convertible debentures (NCD) instruments and the largest category of lenders are banks as on March 31, 2024, due to issues of NCDs to the lenders in satisfaction of their claims during DHFL acquisition. These NCDs helped PEL reduce its cost of borrowings, elongate the weighted average tenor of borrowings in addition to increasing the proportion of fixed rate of borrowing. Around 50% of its borrowings are on a fixed rate, whereas 38% of its assets are on fixed rate as on March 31, 2024. However, PEL is currently relying more on bank borrowings than capital markets instruments for its incremental funding requirements. PEL has, in the past, refinanced its debt and lowered its average borrowing cost but its average borrowing cost is still high. The subsidiary of PEL, PCHFL, has raised external commercial borrowings (ECB) during Q1FY25 of \$100 Mn and dollar bond during Q2FY25 of \$300 Mn, to further diversify its resource profile. The ability of PEL to raise long-term funds at competitive rates from varied sources to fund its incremental loan book as well as repay its debt is a key rating sensitivity.

Liquidity: Adequate

PEL on a consolidated basis had liquidity of ₹6,247 crore as on March 31, 2024, and on a standalone basis had liquidity of ₹1,852 crore as on March 31, 2024, and scheduled collections from the loan portfolio provides additional comfort. PEL had a cumulative surplus in all the maturity buckets as on March 31, 2024. Also, PEL on a consolidated basis had liquidity of ₹5,803 crore as on June 30, 2024.

Environment, social, and governance (ESG) risks

- Climate strategies and emissions management.
- Adoption of the 5R waste hierarchy to manage resources including paper and e-waste, promoting responsible usage and disposal.
- Installation of sensor-based taps in corporate office washrooms and monitoring consumption to identify areas for improvement.
- Gender-neutral leave policy for primary caregivers, as well as a 'Parental Support Scheme' applicable to all employees.
- Introduction of second innings initiative which aims to reintroduce experienced female workers to the organisation who have previously taken a sabbatical from their professions.
- By leveraging different perspectives, experience, expertise, gender, and culture, the Board aims to maintain the company's competitive advantage and establish itself as a leading entity. PEL has a Board gender diversity of 36%.

About the company and industry

Industry classification

Macro-Economic Indicator	Sector	Industry	Basic Industry
Financial Services	Financial Services	Finance	Non-Banking Finance Company (NBFC)

Incorporated in April 1947, Piramal Enterprises Limited (PEL) is a systemically important non-deposit taking non-banking financial company (NBFC), which got registered with the Reserve Bank of India (RBI) w.e.f. July 22, 2022. Under the scale-based regulations of the RBI, PEL is classified as NBFC – Middle Layer. PEL along with its 100%

subsidiary, PCHFL collectively called the group has presence across retail lending, wholesale lending, and fund-based platforms. The group provides end-to-end financing solutions in both wholesale and retail funding opportunities across sectors.

Within retail lending, through its multi-product platform, the group offers home loans (through PCHFL), loans for small businesses and loans for working capital to customers in affordable housing and mass affluent segments across tier-I, tier-II, and tier-III cities. Within wholesale lending, the business provides financing to real estate developers, as well as corporate clients in select sectors under corporate mid-market lending.

About us:

Established in 1993, CARE Ratings is one of the leading credit rating agencies in India. Registered under the Securities and Exchange Board of India, it has been acknowledged as an External Credit Assessment Institution by the RBI. With an equitable position in the Indian capital market, CARE Ratings provides a wide array of credit rating services that help corporates raise capital and enable investors to make informed decisions. With an established track record of rating companies over almost three decades, CARE Ratings follows a robust and transparent rating process that leverages its domain and analytical expertise, backed by the methodologies congruent with the international best practices. CARE Ratings has played a pivotal role in developing bank debt and capital market instruments, including commercial papers, corporate bonds and debentures, and structured credit.

Disclaimer:

The ratings issued by CARE Ratings are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse, or recall the concerned bank facilities or to buy, sell, or hold any security. These ratings do not convey suitability or price for the investor. The agency does not constitute an audit on the rated entity. CARE Ratings has based its ratings/outlook based on information obtained from reliable and credible sources. CARE Ratings does not, however, guarantee the accuracy, adequacy, or completeness of any information and is not responsible for any errors or omissions and the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE Ratings have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CARE Ratings or its subsidiaries/associates may also be involved with other commercial transactions with the entity. In case of partnership/proprietary concerns, the rating/outlook assigned by CARE Ratings is, inter-alia, based on the capital deployed by the partners/proprietors and the current financial strength of the firm. The ratings/outlook may change in case of withdrawal of capital, or the unsecured loans brought in by the partners/proprietors in addition to the financial performance and other relevant factors. CARE Ratings is not responsible for any errors and states that it has no financial liability whatsoever to the users of the ratings of CARE Ratings. The ratings of CARE Ratings do not factor in any rating-related trigger clauses as per the terms of the facilities/instruments, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and triggered, the ratings may see volatility and sharp downgrades.

ANNEXURE C: CONSENT OF THE DEBENTURE TRUSTEE

[This page has been intentionally left blank]

Ref No: 8109/ITSL/OPR/2024-25

1. Consent letter from Debenture TrusteeDate: 24th December 2024

To,

The Board of Directors

Piramal Enterprises Limited
Piramal Ananta, Agastya Corporate Park,
Opposite Fire Brigade, Kamani Junction,
LBS Marg, Kurla (West),
Mumbai – 400 070
Maharashtra, India

Dear Sir/Madam,

Re: Proposed Public Issue by Piramal Enterprises Limited ("Company") of secured non-convertible debentures of face value ₹ 1,000 each aggregating upto ₹ 2,000 crore ("NCDs") through one or more tranches ("Issue")

We, IDBI Trusteeship Services Limited, hereby give our consent to our name being included as Debenture Trustee to the Issue in accordance with Schedule I of the Securities and Exchange Board of India (Issue and Listing of Non-Convertible Securities) Regulations, 2021, as amended in the Draft Shelf Prospectus to be filed with BSE Limited and National Stock Exchange of India Limited where the NCDs are proposed to be listed ("Stock Exchanges") for the purposes of receiving public comments and with the Securities and Exchange Board of India ("SEBI"), the Shelf Prospectus and the Tranche Prospectus(es) to be filed with the Registrar of Companies, Maharashtra at Mumbai ("RoC"), the Stock Exchanges and SEBI in respect of the Issue and all other documents, including application forms and abridged prospectus advertisements, and subsequent periodical communications sent to the holders of the NCDs pursuant to the Issue (collectively referred to as the "Offer Documents").

We hereby authorise you / your representative to deliver this letter of consent to the Stock Exchanges, the RoC, SEBI and/or such other regulatory / governmental authority, as may be required by law or in seeking to establish a defense in connection with, or to avoid, any actual, potential or threatened legal, arbitral or regulatory proceeding or investigation and to upload on the website of Company, if required.

The following details with respect to us may be disclosed in the Offer Documents:

Logo:

Name: IDBI Trusteeship Services Limited

Address: Universal Insurance Building, Ground Floor, Sir P.M. Road, Fort, Mumbai - 400001.

Tel: (91) (22) 40807000

Contact Person: Mr. Nikhil Lohana / Mr. Gaurav Jeswani

SEBI Registration Number: IND000000460

CIN: U65991MH2001GOI131154

Compliance Officer: Mr. Sumit Panjabi

We confirm that the above details in relation to us are true, correct and complete in all respects.

IDBI Trusteeship Services Ltd.

CIN : U65991MH2001GOI131154

We certify that we have not been prohibited or debarred by SEBI or any other regulatory authority, court or tribunal to act as an intermediary in securities market issues. We confirm that we are registered with the SEBI and that such registration is valid as on date of this letter. We further confirm that no enquiry / investigation is being conducted by SEBI on us. Copy of our SEBI registration certificate and declaration regarding our registration with SEBI in the required format is attached as **Annexure A**.

We shall immediately intimate the Lead Managers and Company in writing of any changes, additions or deletions in respect of the aforesaid details till the date when the NCDs of the Company offered, issued and allotted pursuant to the Issue, are traded on the Stock Exchanges. In absence of any such communication from us, the above information should be taken as updated information until the listing and commencement of trading of the NCDs on the Stock Exchanges.

We also agree to keep strictly confidential, until such time the proposed Issue is publicly announced by the Company in the form of a press release, (i) the nature and scope of the Issue; and (ii) our knowledge of the Issue of the Company.

This certificate is for information and for inclusion (in part or full) in the Offer Documents or any other Offer-related material, and may be relied upon by the Company, the Lead Managers and the legal counsels appointed by the Company and the Lead Managers in relation to the Issue. I hereby consent to the submission of this certificate as may be necessary to the SEBI, the RoC, the relevant stock exchanges and any other regulatory authority and/or for the records to be maintained by the Lead Managers and in accordance with applicable law.

All capitalized terms used herein and not specifically defined shall have the same meaning as ascribed to them in the draft shelf prospectus/ shelf prospectus/ tranche prospectus(es) filed in relation to the Issue.

Yours faithfully,

For **IDBI Trusteeship Services Limited**
