

National Stock Exchange of India Limited

Projects approved by the Board of Directors of National Stock Exchange of India Limited (NSEIL) for the FY 2022-23

A common CSR function was created under NSE as a group resource for NSE and its subsidiaries falling under the purview of Section 135, with a common CSR policy, and the actual CSR spend proportionately allocated to the respective Companies.

The Corporate Social Responsibility Rules require CSR activities to be undertaken through a Section 8 company, a registered trust or a registered society, established by the company, either singly or along with any other company. Accordingly, NSE Foundation was incorporated on March 5, 2018, to converge the CSR efforts of NSE Group and all ongoing CSR projects were assigned to NSE Foundation to be implemented further. Under the supervision of its Board, NSE Foundation implements the CSR initiatives of NSE Group companies by partnering with local grass-root level organisations or with other agencies which have technical expertise.

The CSR Committees and Boards of various NSE Group companies which fall under the mandate of Section 135 of The Companies Act 2013, have approved that the Board of NSE Foundation may approve projects and take decisions that would enable the said companies to meet their CSR obligations. The NSE Foundation Board meets every quarter to review ongoing projects, approve new proposals etc. On a biannual basis, the CSR Committees and Boards of the respective NSE Group companies ratify the decisions of NSE Foundation Board, review the status of ongoing projects, approve new projects and receive updates on other events and activities.

The CSR Rules mandate an Annual Action Plan to be approved by the respective NSE Group CSR Committees and Boards. The annual action plan lays out the CSR projects to be undertaken during the course of the financial year. The plan shall also include amongst other things, details of the projects to be undertaken, the focus areas or subjects specified in Schedule VII of the Act, the manner of execution of such projects or programmes, the modalities of utilisation of funds, the implementation schedules, monitoring and reporting mechanism for the projects undertaken by the company.

The annual plan gives the details of the projects approved by the Board of Directors, proposed to be undertaken in FY 2022-23.

Sl. No	Name of the Project	Item from the list of activities in Schedule VII to the Act.	Location of the Project		Financial Year in which the project was commenced.	Project duration	Amount
			State	District.

Total							36.74

Note: The above annual plan gives the list of earlier approved but currently ongoing projects. These will continue to be undertaken in FY 2022-23. The plan may be revised depending on various factors such as ground assessment, capacity of local partner agencies, natural disasters and calamities, events beyond the control of the stakeholders etc., that necessitates course correction. Since a new three year strategy has been approved, the above plan will be rationalised further and new projects will also be brought for approval.

The projects will be implemented by NSE Foundation, a Section 8 company incorporated to undertake the CSR obligations of the NSE Group companies falling under the mandate of the Sec 135 of the Companies Act, 2013.

Additional projects shall be approved by the CSR Committee & Board during the financial year to meet the CSR obligations. The Board on recommendation of the CSR Committee may alter the above annual plan of action at any time during the financial year.

Monitoring & Reporting Mechanism*: The regular programmatic and financial monitoring and evaluation of the programmes are conducted by the independent Project Monitoring and Evaluation (PME) agencies appointed for the purpose. To review the status of the programme activities and expenditure, the PME agencies conduct periodic reviews which include field visits. The programme is assessed on key indicators, and the PME agency suggests modifications in programme design, adoption of best practices, efficient deployment and utilisation of resources, templates for reporting, sustainability, and exit strategies. Based on the income and expenditure statement, after accounting for deficit, surplus, etc., a report and recommendation by the PME agency is made for further release of funds.

Need/Baseline Assessment:** For most projects, data is collected from secondary sources at the proposal stage. On approval of the project, baseline activities are conducted by the on-ground partner agency and refinement in programme implementation plan is incorporated.

Impact Assessment: Thirteen (13) projects across various core focus areas concluded their programmatic activities in FY 2020-21 and impact assessment for these projects was initiated. Due to the COVID pandemic, there had been a delay in conducting field visits, direct interviews with beneficiaries and focus group discussions with the community and other stakeholders. The summary of the findings would be placed before the CSR Committees and Boards. The summary of the assessment and the link of the completed assessment reports will be provided in the Board's report.

The Status of Impact Assessment for Projects concluded in FY 2020-21 and FY 2021-22 is given below:
