- Accessibility, frontage and visibility – Based on our market research, it was observed that the land parcels having superior frontage along the access road or by virtue of it being a two side or a three-side corner plot would command a premium vis-à-vis the other Assets. Further, it was observed that the Assets located on wider access roads command premium vis-à-vis Assets located along narrow access roads.
- Zoning and requisite clearances - Based on our market research, it was observed that the land parcels with industrial / multipurpose / residential use zoning would command a premium in comparison to the land parcels under agricultural use /conservation zone. Further, we understand that the land parcels with the requisite clearances in place such as NALA (Non-Agricultural Land Assessment) conversions, etc. command a premium over the agricultural land parcels.
- Physical conditions of the asset/ownership - Based on our market research, it was observed that the land parcels with site improvements such as compound wall, bore well, etc. command a premium. In addition, Assets with single owner would attract a premium as compared to the Assets with multiple owners.

### 5.3.2 Income Approach

The income approach is based on the premise that value of an income - producing asset is a function of future benefits and income derived from that asset. There are two commonly used methods of the income approach in real estate valuation namely, direct capitalization and discounted cash flow (DCF).

A. Direct Capitalization Method

Direct capitalization involves capitalizing a 'normalized' single - year net income estimated by an appropriate yield. This approach is best utilized with stable revenue producing assets, whereby there is little volatility in the net annual income.

B. Discounted Cash Flow Method

A Discounted Cash Flow Analysis is based upon estimates of future financial performance. The methodology begins with a set of assumptions regarding income and expenses of the Asset and future economic conditions in the local market. The income and expense figures are asseted with adjustments for estimated changes in economic conditions and any contractual commitments. The resultant value is considered the best estimate but is not to be construed as a prediction or guarantee and is fully dependent upon the reasonableness of the assumptions with respect to income, expenses, and market conditions, which are based on information available as at the valuation date.

## 5.4 Approach and Methodology Adopted

Considering the objective of this exercise, the nature of asset involved and the purpose of the valuation viz. to assess the Market Value (MV) of the Subject Assets for the purpose of the offer of units through private placement of TVS Infrastructure Trust InvIT under the SEBI (Infrastructure Investment Trust) Regulations, 2014 'Regulation', we have adopted the methodology considering Chapter 1 section 2 point (i) of the InvIT regulation, which states that, the assets forming part of InvIT should meet among the below criteria as follow:

1. The infrastructure asset has achieved the commercial operations date as defined under the relevant asset agreement including concession agreement, power purchase agreement or any other agreement of a similar nature entered into in relation to the operation of the asset or in any agreement entered into with the lenders
2. The infrastructure asset has received all the requisite approvals and certifications for commencing operations
3. The infrastructure asset has been generating revenue from operations for a period of not less than one year

Hence owing to the above stated conditions, we are of the opinion that the income approach which is appropriate to value such asset based on the premise that value of an income - producing asset is a function of future benefits and income derived from that asset.

Under the Income approach, Discounted Cash Flow Analysis is based upon estimates of future financial performance which also considers the income and expenses of the Asset accounting for the future fluctuations due to expected market dynamics.

Hence, for the purpose of this valuation exercise, we have adopted Discounted Cash Flow Method (using rent reversion approach).

For the purpose of this valuation exercise, we have analysed the tenancy details provided by the Client to identify variances vis-à-vis prevailing marginal rent. In the event the contracted rent is within the threshold (15.0%), we have assumed that the tenant will continue on the current agreed terms. In the event the rent is higher than the marginal rent threshold, we have assumed that the lease would be renegotiated to marginal rent terms (at the time of the lock-in expiry, next escalation, etc.).

Asset-specific Review:

1. As the first step to the valuation of the asset, the lease deeds were reviewed to identify tenancy characteristics with respect to contractual commitments and commercial covenants.
2. Title documents and architect certificates were reviewed for validation of area details, ownership of the asset.
3. The Valuer has undertaken physical site inspections to assess the status of the subject assets in terms of their physical configuration, capacity and upkeep.

Micromarket Review/Market Rental Assessment:

The micromarket is situated in close proximity to SIPCOT Vallam Industrial Park (a large-scale industrial estate) comprising of numerous small, medium and large-scale industrial units. With robust development of SIPCOT industrial park, the subject micromarket has also been witnessing developments of a few small-scale industrial units and warehousing/ logistics Park. The burgeoning industrial activity has propelled developers to launch a few residential developments (in terms of apartment complexes, villa developments) in the subject micromarket.

A primary research exercise has been carried out in the catchment area to ascertain the prevalent activity levels in terms of quoted / transacted evidence of the recent leasing activity for warehousing facility. This has been achieved through interactions with various market players such as local real estate brokers, developers, owners, etc. Based on the same, we understand that variance across rentals is primarily due to factors such as type of asset, developer brand, location, accessibility, overall tenant mix, quantum of vacant stock in the development, specifications, and additional improvements, etc.

For the micromarket review and market rental assessment we have relied upon the report on 'Market Analysis of Warehousing assets in Identified locations pan India' prepared by CBRE South Asia Private Limited, hereafter referred as 'CBRE' (an independent agency appointed by the Client to undertake market research, provide market summary and data for the purpose of this assignment)

Cash Flow Assertions:

We have assessed future cash flows from the Subject Assets based on existing lease terms and contractual lease payments for the operational area until the expiry of the leases or re-negotiation (using the variance analysis), whichever is earlier.

Based on a detailed review of the leases for the Subject Asset, we noted that it is approx. 100% leased out as on date of valuation. Since the real estate industry is dynamic and is influenced by various factors (such as existing supply, tenants looking at spaces, quality of spaces available in the market, overall health of the economy, existing rent, future growth plans, etc.) at a particular point in time, negotiated rent may tend to move away from the prevalent market rent over a period of time. It has also been witnessed that the market rent for some Assets or micromarkets increase or decrease at a rate significantly different from those agreed to in initial leases. These factors reinforce the need to review each of these leases in isolation to assess the intrinsic value of the asset under review.

Post this, the lease terms have been aligned with market rentals. For vacant area, the Valuer has asserted the market rent led cash flows factoring appropriate lease-up time frame for vacant/under-construction/proposed area. These cash flows have been asserted for 10-year duration from the date of valuation and for 11th year (for assessment of terminal value). These future financial benefits are then discounted to a present-day value (valuation date) at an appropriate discount rate.

## 5.5 Information Sources for Valuation

Asset related information referred to for the valuation exercise have been provided by the Client unless otherwise mentioned. We have assumed the documents to be a true copy of the original. The rent rolls have been cross-checked with the lease deeds on a sample basis to verify the authenticity. Additionally, wherever possible, we have independently revalidated the information by reviewing the originals as provided by the Client.

Table below highlights various data points referred throughout the course of this valuation report and the data sources for the same:

Table below highlights various data points referred throughout the course of this valuation report and the data sources for the same. Asset related documents referred to in the table below have been provided to the Valuer by the Client unless otherwise mentioned. The Valuer have assumed the documents to be a true copy of the original.

# 6 Value Assessment

## 6.1 Value Assessment

### 6.1.1 Adopted Methodology

We acknowledge that the approaches to valuation differ considerably and that for a particular purpose, alternative approaches to the valuation can be utilized. Considering the objective of this exercise and the nature of asset involved, the value of the Subject Asset has been assessed through the following approaches:

| Asset Name | Valuation Methodology (Completed Blocks) | Valuation Methodology (Under-construction Blocks) |
|---|---|---|
| TVS Industrial and Logistics Park | Discounted Cash Flow (Using rent reversion approach) | N.A. |

The sections below highlight the detailed valuation workings for the Subject Asset.

## 6.2 Operational Assumptions

### 6.2.1 Area statement

Based on information from inputs shared by the client, we understand that Subject Asset is an operational warehousing facility. Further, the table below highlights the area configuration of the Subject Asset:

| Block | Total Area (sft) | Operational Area (sft) |
|---|---|---|
| Vaipur Park – Block I | 94,955 | 94,955 |
| Vaipur Park – Block II | 59,985 | 59,985 |
| Vaipur Park – Block III | 34,280 | 34,280 |
| Vaipur Park – Block IV | 23,204 | 23,204 |
| Total | 2,12,424 | 2,12,424 |

*Source: Architect certificate, Rent roll provided by the Client; (Please note according to the lease agreements provided by the Client, it is understood that the rent is paid on the chargeable area, which has been considered for the valuation exercise)*

| Tenant | Leased Area (sft) | % of area leased | Total In-place rental (INR psf pm) | Total In-place rental (INR Mn pm) |
|---|---|---|---|---|
| TVS Industrial and Logistics Park | 2,12,424 | 100% | 40.2 | 8.5 |

*Source: Client inputs and lease deed*

## 6.3 Tenancy Analysis

### 6.3.1 Historical Occupancy Rates

The table below highlights the historical occupancy rates at the subject development:

| Particulars | Occupancy % |
|---|---|
| Occupancy (completed blocks) | 100% |
| Pre-Commitment (under construction blocks) | N.A. |

*Source: Lease deed and Client inputs;*

### 6.3.2 Lease Rent Analysis

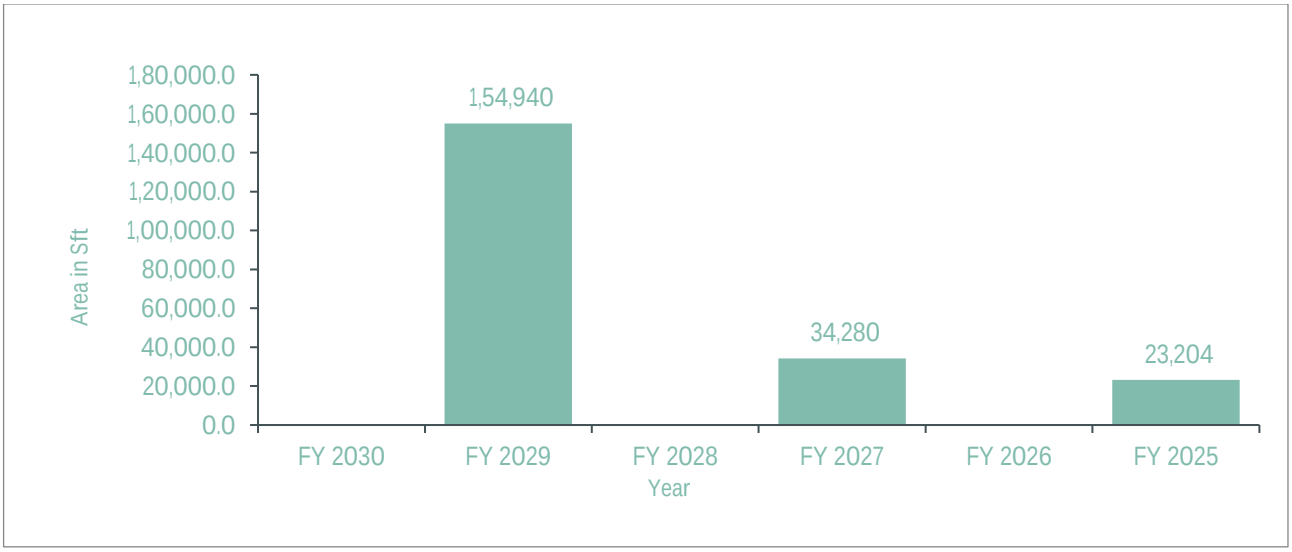
Based on the review of the Lease Deed provided by the client, we understand that the lease agreements were signed between TVS infrastructure Pvt ltd and the tenants, details of which are mentioned below:

| Tenant | Particulars | Details |
|---|---|---|
| Logistics Company | Lease Commencement Date | 01st January 2020 |
| | Rent Commencement Date | 01st January 2020 |
| | Lock-in Period | 3 Years |
| | Lease Tenure/Remaining Tenure | 10.0/5.2 Years |
| | Lease Rent Escalation Terms | 5% every year |
| Logistics Company | Lease Commencement Date | 01st January 2020 |
| | Rent Commencement Date | 01st January 2020 |
| | Lock-in Period | 3 Years |
| | Lease Tenure/Remaining Tenure | 10/5.2 Years |
| | Lease Rent Escalation Terms | 5% every year |
| Manufacturing Company | Lease Commencement Date | 01st October 2024 |
| | Rent Commencement Date | 01st October 2024 |
| | Lock-in Period | 3 Years |
| | Lease Tenure/Remaining Tenure | 5.0/5 Years |
| | Lease Rent Escalation Terms | 5% every year |
| Manufacturing Company | Lease Commencement Date | 01st January 2023 |
| | Rent Commencement Date | 01st January 2023 |
| | Lock-in Period | 3 Years |
| | Lease Tenure/Remaining Tenure | 5.0/3.2 Years |
| | Lease Rent Escalation Terms | 5% every year |
| Manufacturing Company | Lease Commencement Date | 01st May 2020 |
| | Rent Commencement Date | 01st May 2020 |
| | Lock-in Period | 3 Years |
| | Lease Tenure/Remaining Tenure | 5.0/0.6 Years |
| | Lease Rent Escalation Terms | 5% every year |

*Source: Lease deed and Client inputs;*

### 6.3.3 Lease Expiry Profile

The Weighted Average Lease Expiry (WALE) of the Subject Asset is 4.35 years, with 68% of occupied area expiring in FY 2029 as shown in the chart below:



*Source:* Valuer Workings; The expiry profile has been plotted only for the warehouse areas

### 6.3.4 Tenant Obligations

Based on the review of the lease deed, we understand that the operational expenses listed below will have to be borne by the Tenant.

| S. No | Description of operational expenses |
|---|---|
| 1 | Regular Maintenance |
| 2 | Taxes |
| 3 | Insurance |
| 4 | General Wear and Tear |
| 5 | Other Expenses such as utility charges towards any Governmental authorities or Concerned service provider. |

*Source: Client Inputs*

Contractual Rental Details

| Tenant | Leased Area (sft) | % of area leased | Total In-place rental (INR psf pm) | Total In-place rental (INR Mn pm) |
|---|---|---|---|---|
| TVS Industrial and Logistics Park | 2,12,424 | 100% | 40.2 | 8.5 |

*Source: Leased Deed and Information provided by the client*

Based on the recent transaction witnessed in the micromarket as highlighted in the table above and transaction witnessed in the Subject Asset, we understand that the Subject Asset would command a marginal rental (for warehouse space) of INR 26.0 – 28.0 per sf per month (say an average rental of INR 27.0 per sf per month of leasable area). Note: in place rental is inclusive of BTS rental.

### 6.3.5 Construction Timelines

#### 6.3.5.1 Completed Blocks

The asset was completed in a phase-wise manner with Phase 1 (Block 1) completed and operationalised in the year 2020, Phase 2 (Block 2) completed and operationalised in the year 2009, Phase 3 (Block 3) completed and operationalised in the year 2009 and Phase 4 (Block 4) completed and operationalised in the year 2009.

#### 6.3.5.2 Under-Construction/ Proposed Blocks

Based on visual inspection during the site visit and information provided by the client, we understand the subject asset is completed and fully operational.

### 6.3.6 Absorption/ Leasing Velocity and Occupancy Profile

#### 6.3.6.1 Completed Blocks

As per the rent roll provided by the client, we understand that the completed blocks have an occupancy of 100% as on date of valuation. Further, in order to arrive at the future absorption levels at the Subject Asset, we have analysed the historical demand and supply trends coupled with the estimation of future supply proposed to be introduced in the subject micromarket.

#### 6.3.6.2 Under-Construction/ Proposed Blocks

Based on visual inspection during the site visit and information provided by the client, we understand the subject asset is completed and fully operational.

### 6.3.7 Revenue Assumptions (Warehouse + Industrial)

#### 6.3.7.1 Warehouse Component

For the purpose of this valuation exercise, the lease rent adopted for the area already leased is based on the rent roll/lease deeds shared by the Client. Further, the Valuer have undertaken an in-depth market research exercise to assess the prevailing rent values in the subject micromarket. The same has been adopted for the vacant space for the purpose of this valuation exercise.

Based on our market study and based on the analysis of the rent roll provided by the client, following rent has been adopted for the purpose of value assessment of the completed blocks at the Subject Asset. The detailed rent assessment workings are highlighted in the lease rent analysis section presented above.

| Component | Leasable Area (sft) | Leased Area (sft) | Basis | Rent Adopted* (INR psf pm) |
|---|---|---|---|---|
| Warehouse | 2,12,424 | 2,12,424 | Current Rent for Leased area | 40.2* |
| | | | Market rent for reversion/ vacant area | 39.4^ |

*Source: Lease deed provided by the Client; Valuer's assessment *In place rental, Please note considering the market dynamics we have adopted a market call of INR 27 psf per month for the property. However, considering the historical evidence and the nature of space occupied by the tenants, and basis confirmation from the Client, we have adopted differential market rental for the 2 leases with par with their current rentals as on date of valuation.*

The above market rent assumption is adopted for the entire subject development. In addition to undertaking an in-depth market analysis, a detailed analysis of the rent rolls was also undertaken to understand aspects such as area occupied, current rent and expiry analysis of the key tenants in the park.

For the purpose of this valuation exercise, the lease rent adopted for the area already leased is based on the lease deed shared by the Client. Further, an in-depth market research exercise has been undertaken to assess the expected economic rental value of the Subject Asset.

Based on our market study, we understand that the contracted rental of the Subject Asset is in line with the expected economic rental values. Hence, we have considered contracted rentals for the purpose of value assessment at the Subject Asset:

#### 6.3.7.2 Non-Warehouse Component

As per the information provided by the client, it is understood that the subject asset does not include open space area/ mezzanine area.

### 6.3.8 Rent Escalation

Based on an analysis of existing lease rolls and recent leasing at the Subject Asset, it was observed that the typical escalation clause in the Subject Asset is approx. 5.0% every year, which is in-line with the trend observed in the market. The same has been adopted for renewals at the Subject Asset.

Escalation on renewal - Based on the analysis of terms of lease deed, it was observed that the typical escalation clause in the Subject Asset is 5% per annum, which is in-line with the trend observed in the market. The same has been adopted by the Valuer.

| Particulars | Unit | Details |
|---|---|---|
| Lease Rental Escalations | % p.a. | 5.0% |

*Source: Valuer's assessment*

Market Rent Escalation - Based on the trend observed in the market and based on review of the Industry Assessment report, the valuer has considered a market escalation of 5% per annum effective from the date of valuation. The assumption for market rent for this appraisal exercise is as follows:

| Particulars | Sept 2024 | March 2025 | March 2026 | March 2027 Onwards |
|---|---|---|---|---|
| Market Rent Escalation | 39.4 | 41.27 | 43.33 | 5% escalation year on year |

*Source: Valuer's assessment*

### 6.3.9 Other Revenues

In addition to lease rent revenues, assets typically have additional sources of revenue. These include revenues on account of security deposit (refunded at the time of lease expiry / exit), other miscellaneous income etc.

The assumptions considered for the aforementioned revenue heads for the purpose of this valuation exercise are based on the rent roll & lease deeds provided by the Client. The same has been cross-checked with the prevailing market norms for other revenues and were found to be broadly in line.

The assumptions adopted for other revenues are as tabulated below:

| Nature of Income | Details | Units |
|---|---|---|
| Security Deposit ( For vacant spaces) | 6.0 | No. of months' warm shell rental |
| CAM Income (For vacant area and Development component) | 1.0 | INR per sft per month |
| Other Income (For vacant area and Development component) | 1.8% | % of total revenue |

*Source: Valuer's assessment*

### 6.3.10 Capital Expenditure

#### 6.3.10.1 Development Cost

The subject property is an operational warehousing facility.

#### 6.3.10.2 Major Repair and improvements

As per information provided by the client, we understand that there are no major repairs and improvement proposed in the said asset.

### 6.3.11 Operating Cost

An Asset typically has few recurring operation expenses required for the upkeep running of the development.

In addition to capital expenditure, an asset typically has few recurring operational expenses required for the up-keep and running of the asset. Based on information provided by the client and market assessment, following recurring expense assumptions have been adopted for the purpose of this valuation exercise.

Completed Blocks

| Nature of Expense | Details |
|---|---|
| Asset Management Fee^ | 3.0% of rental income |
| Property Tax* | INR 1.1 Mn |
| Insurance* | INR 0.8 Mn |
| Vacancy Allowance during operations | 1.0% |
| Vacancy Allowance on Exit | 2.5% |
| Refurbishment Reserve | 3.0% of rental income |
| Repair Margin | 3.0% of rental income |

*Source: Client input; Valuer's assessment; *As per the lease terms and the information provided by the Client; ^Asset Management fees has been considered as below the NOI line item.*

### 6.3.12 Other Assumptions

#### 6.3.12.1 Vacancy provision

Based on review of the rent roll provided, we understand that that the completed portion of the Subject Asset is substantially occupied with significantly long lease periods. Considering the same alongside other asset level parameters (location, amenities, grade, infrastructure etc) and market benchmarks, the valuer has adopted a vacancy provision as follows:

| Description | Completed Blocks |
|---|---|
| Vacancy Provision | During Operations – 1.0%<br>Assessment at the time of exit – 2.5% |

*Source: Valuer's assessment*

#### 6.3.12.2 Revenue escalation

Based on prevailing market condition, historical rent growth achieved by the Subject Asset and our interactions with market participants, we are of the opinion that the annual marginal rent growth of 5.0% has been considered for the FY 2024 and year on year thereafter.

#### 6.3.12.3 Rent-free period

Based on the rent roll provided by the client, it is understood that the existing leases have a rent-free period ranging from 0.5 months to 1.5 months from the lease-commencement date. However, based on recent market trends in the subject micromarket, we have considered a rent-free period of 1 months for new-leases and for re-leasing effective from the lease commencement date.

#### 6.3.12.4 Brokerage

Based on prevalent market dynamics, we have considered brokerage equivalent to 0.4 month of rental income for future / new leases

#### 6.3.12.5 CAM Cashflows

CAM Cashflows for the Subject Asset have been assessed both during the holding period and at the time of notional exit. Margin on CAM and CAM Recoveries are included in the financials as per the CAM Charge based on historical performance of the Subject Asset as per the inputs provided by the Client and market benchmarks. The same is a pass-through expense.

Based on the subsequent information provided by the client, we understand that the 100% of the CAM Income would be received by the Client entity/ InvIT entity and 100% of the CAM Expense would be borne by SPV.

## 6.4 Financial Assumptions

### 6.4.1 Exit Capitalization Rate Adopted

The capitalization rate adopted for valuing the assets has been based on factors such as:

- Historical entry yields (going in cap rates) for yield/ core warehousing asset transactions across various key markets in India have steadily shown a downward trend over last 7 - 8 years from 10.0- 12.0% to about 7.0% - 8.5% in last 1-2 years.
- The increased appetite for income producing assets and availability of various modes of finance (real estate credit flows) backing such acquisitions.
- Yields for warehousing assets across various markets in India have a range of 7.5 – 8.5% in Tier I locations, with Tier II locations having cap rate approx. 50 – 100 bps on the higher vis-a-vis the Tier I location
- Liquidity associated with InvIT listed/ public listings (multiplicity of buyers and relatively lower budgets per buyer)

Based on the above highlighted attributes, the following cap rate has been adopted for the purpose of our valuation:

| Asset Name | SPV/Hold Co | Status of the Asset | Details |
|---|---|---|---|
| Vaipur Park | Durgeshwari Industrial & Logistics Parks Private Limited | Completed | 8.0% |

*Source: Valuer's assessment*

### 6.4.2 Discount Rate Adopted

For discounting the cash flows, an appropriate discount rate has been calculated on the basis of estimated 'Weighted Average Cost of Capital' (WACC).

### 6.4.3 Cost of Equity

The Valuer has computed the cost of equity as per the Capital Asset Pricing Model (CAPM), which is derived as follows:

Cost of equity = Risk Free Rate (Rf) + Beta (**β**) * (Market Return (Rm) **–** Risk Free Rate (Rf))

As mentioned above, the cost of equity computed using CAPM constitutes of the following components:

- Risk free rate (Rf) i.e., long term (10-year) treasury bond rate in India
- Market return (Rm) based on the r eturns of Sensex index for the past 10 years
- Computation of 'Beta (β)' of key listed realty stocks and REITs/ InvITs in India with respect to the Broad-Based BSE 500 stock index

The cost of equity adopted for specific assets has been adjusted for market/ asset specific risk pertaining to a real estate asset such as execution risk (construction status), marketing risk, etc. and adjusted for taxation. While the assumptions regarding the quantum of these risks have no quantitative basis, we have adopted them based on our understanding of the market and our opinion on the asset performance.

### 6.4.4 Cost of Debt

Completed Blocks

The cost of debt for this asset has been considered based on prevalent Lease Rental Discounting (LRD) rates for Grade A warehousing developments across Chennai micromarkets which are in the range of 7.0% – 9.0% depending upon the location, asset quality, occupancy, etc.

### 6.4.5 Weighted Average Cost of Capital (WACC)

As highlighted earlier, the cost of debt has been assumed based on the prevalent LRD rates and construction financing for under-construction assets, while the cost of equity assumed has been adjusted for asset and market specific attributes to reflect the market expectations from an operational institutional development. Further, the proportion of debt and equity has been derived considering the prevalent LRD tenures and its contribution in the overall asset value.

Completed Blocks

Based on above, the following WACC rate has been assumed for the completed assets forming part of the InvIT portfolio:

| Asset Name | SPV/Hold Co | Particular | Proportion | Cost | WACC |
|---|---|---|---|---|---|
| Vaipur Park | Durgeshwari Industrial & Logistics Parks Private Limited | Debt | 35.0% | 8.0% | 11.58% |
| | | Equity | 65.0% | 13.5% | |

*Source: Valuer's assessment; Please note that the cash flows are assumed to realize evenly during the course of every quarter; hence a mid-quarter discounting convention has been adopted for the purpose of this valuation. Additionally, we have not factored any cash flows attributable to working capital requirement/expenses for valuation as the same is immaterial.*

## 6.5 Value of the Subject Asset

The Valuer is of the opinion that subject to the overriding stipulations contained within the body of this report and to there being no onerous restrictions or unusual encumbrances of which he has no knowledge, the opinion of value of the complete ownership interest in the Subject Asset comprising land and improvements thereon, as explained above, as on 30th September 2024 is as follows:

| Asset Name | Component | Market Value (INR Mn) |
|---|---|---|
| Vaipur Park | Constructed | 1406.8 |
| Total Value of the asset | | 1406.8 |

*Source: Valuer's assessment*

# 7 Exhibits and Addendums

## 7.1 Other Mandatory Disclosures

### 7.1.1 Details of On-going material litigations including tax disputes in relation to the assets

As per our interaction with the Client, the Client has confirmed that there are no material litigation details pertaining to the asset. Please note that the Valuer has not investigated nor has been provided with any supporting documents.

Please refer to the section on litigations in the draft Offer Document for details on material litigations for various assets.

### 7.1.2 Details of options or rights of pre-emption and other encumbrances

As per our interaction with the Client and our scope of services, please note that the Valuer has not investigated nor has been provided with any supporting documents.

Please refer to the section on litigations in the draft Offer Document for details on material litigations for various assets

### 7.1.3 Vulnerability to natural or induced hazards that may not have been covered in town planning/ building control.

As per our interaction with the Client, the Client has confirmed that there are no vulnerabilities pertaining to the asset. Please note that the Valuer has not investigated nor has been provided with any supporting documents.

Also, in our professional judgment based on site inspection, there were no visible vulnerabilities.

### 7.1.4 Details of Revenue Pendencies including local authority taxes associated with InvIT asset and compounding.

As per our interaction with the Client, the Client has confirmed that there is no revenue pendencies to the asset. Please note that the Valuer has not investigated nor has been provided with any supporting documents.

Assumptions, Disclaimers, Limitations & Qualifications

*This valuation report is provided subject to assumptions, disclaimers, limitations and qualifications detailed throughout this report which are made in conjunction with those included within the Assumptions, Disclaimers, Limitations & Qualifications section located within this report.*

*Reliance on this report and extension of our liability is conditional upon the reader's acknowledgement and understanding of these statements. This valuation is for the use of the party to whom it is addressed and for no other purpose. No responsibility is accepted to any third party who may use or rely on the whole or any part of the content of this valuation. The valuer has no pecuniary interest that would conflict with the proper valuation of the asset.*

*Please note that is an executive summary and it is advisable that the report should be the valuation*

Heightened Market Volatility:

We draw your attention to current heightened geopolitical tensions, low economic growth in many major countries, and a "higher for longer" interest rate sentiment which have increased the potential for constrained credit markets, negative capital value movements and continued volatility in some property markets over the short-to-medium term.

Experience has shown that consumer and investor behaviour can quickly change during periods of such heightened volatility. Lending or investment decisions should reflect any heightened level of volatility and potential for changing market conditions. Lending and investment caution is advised in this regard.

It is important to note that the conclusions set out in this report are valid as at the valuation date only. Where appropriate, we recommend that the valuation is closely monitored, as we continue to track how markets respond to evolving events.

Notice

This Executive Summary [/Valuation Certificate] should be read in conjunction with the entire valuation report and should not be relied upon in isolation.

Valuer Declaration:

i. the valuer is competent to undertake the valuation

ii. the valuer is independent and has prepared the report on a fair and unbiased basis

iii. the valuer has valued the assets based on the valuation standards as specified under sub-regulation 10 of regulation 21

iVAS Partners
Valuer Registration Number: IBBI/RV-E/02/2020/112

Official Signatory:

Name: Mr. Shubhendu Saha
Designation: Partner, iVAS Partners
Valuer Registration Number: IBBI/RV/05/2019/11552

# 2 Instruction

iVAS Partners ( Valuer Registration Number: IBBI/RV-E/02/2020/112; hereinafter referred as 'Valuer') represented by its partner Mr. Shubhendu Saha, a registered valuer under the Companies Act 2013 with IBBI (Valuer Registration Number: IBBI/RV/05/2019/11552) (the 'Valuer'), has been instructed by TVS Industrial & Logistics Parks Private Limited (hereinafter referred as the "Instructing Party", or the "Client") to estimate upon the Market Value (MV) of an operational warehousing asset located , located in close proximity to NH – 45, Singadivakkam Village, Kancheepuram, Tamil Nadu.

Based on information provided by the Client, we understand that the underlying land parcel of the Subject Asset admeasures approx. 10.74 acres with total leasable area of approx. 4,53,711 sft and a cumulative chargeable area of approx. 2,73,399 sft.

iVAS Partners is referred to as the **'Valuer'** for the purpose of this report.

The details of the Subject Asset under the purview of this valuation exercise are tabulated below:

| Asset Name | SPV/Hold Co | Asset Type | Location | Land area | No. of Blocks |
|---|---|---|---|---|---|
| TVS Industrial & Logistics Parks | Durgeshwari Industrial & Logistics Parks Private Limited | Warehouse | Singadivakkam | 10.74 acres | 6 |

*Source: Client Inputs*

For clarity, we are valuing the Property/ Asset only, not the SPV/Hold Co, which has been provided for reference only.

## 2.1 Purpose

As per our instructions the valuation is required by the Client for a proposed offer of units through private placement (the "Private Placement") as defined under the Securities and Exchange Board of India (Infrastructure Investment Trust) Regulations, 2014, as amended, together with clarifications, guidelines and notifications issued thereunder, on the Indian stock exchanges. In relation to the Private Placement, the Valuation report, a summary thereof and/or extracts of the report are intended to be included in the Offer Documents filed by the TVS Infrastructure Trust with the Securities and Exchange Board of India (SEBI) and the stock exchanges where the units of the InvIT are proposed to be listed.

In addition, other documents in relation to the Private Placement such as publicity material, research reports, presentations and press releases will also be prepared, wherein copies or extracts of the Summary Report are intended to be included.

## 2.2 Reliant Party

The Reliant Parties to this Summary Report will be the Client and TVS Infrastructure Trust, TVS Infrastructure Investment Manager Private Limited in its capacity as Investment Manager and TVS Industrial and Logistics Park Private Limited in its capacity as Sponsor for the purpose of the valuation as highlighted in this report. for the purpose of the valuation as highlighted in this report.

The valuation has been prepared strictly and only for the use of the parties as stated above (Reliant Parties) and for the Purpose specifically stated. The Client would make all Reliant Parties aware of the terms and conditions of this agreement under which this exercise is being undertaken and take due acknowledgements to the same effect.

## 2.3 Limitation and Disclaimers to Liability

- Valuer is not operating under any financial services license when providing the Valuation Report ("Valuation Report") and this document does not constitute financial product advice. Investors should consider obtaining independent advice from their financial advisor before making any decision to invest in TVS Infrastructure Trust InvIT.

- This Valuation Report is strictly limited to the matters contained within this report, and are not to be read as extending, by implication or otherwise, to any other matter in any Offer/ Draft Placement Memorandum/ Placement Memorandum/ Final Placement Memorandum ("Offer Document"). Valuer does not approve or endorse any part of the Offer Document. Any reference to the valuer or this Valuation Report within the Offer Document must be read in conjunction with this Valuation Report.

- Valuers disclaims any liability to any person in the event of an omission from, or false and misleading statements included in the Offer Document, other than in respect of the information provided within the Valuation Report. Valuers shall not make any warranty or representation as to the accuracy of the information in any part of the Offer Document, other than in respect of the methodology used for the preparation of the information provided within the Valuation Report.

- The liability of Valuer is limited to the Instructing Party, and any Reliant Party nominated within this report only. No accountability, obligation or liability to any third parties is accepted by the valuer. Valuer disclaims all liability to any investor.

- No liability is accepted for any loss, harm, cost or damage (including special, consequential or economic harm or loss) suffered as a consequence of fluctuations in the infrastructure development subsequent to the date of valuation. Valuer shall not be liable for any indirect, special, punitive or consequential loss or damage howsoever caused, whether in contract, tort or otherwise, arising from or in connection with this Valuation Report.

- Valuer accepts no responsibility or liability whatsoever (i) unless full disclosure of all information and matters that may have an impact upon the value and marketability of the asset has been made by the Instructing Party or (ii) for any matter arising out of or in relation to possible environmental site contamination or any failure to comply with environmental legislation which may affect the value of the asset.

- None of our employees, directors or valuers individually has a contract with the Instructing Party or owes them a duty of care.

- Valuer has prepared the Valuation Report relying on and referring to information provided by the Instructing Party and/or third parties including financial and market information ("Information"). Valuers have assumed that the Information is accurate, reliable and complete and has not independently verified such Information.

- The Valuation Report draws attention to the key issues and considerations impacting value and provides a detailed assessment and analysis as well as key critical assumptions, general assumptions, disclaimers, limitations and qualifications and recommendations. As commercial investments of this nature are inherently complex and the market conditions have changed and/or have been uncertain in recent times, valuer recommends that any references to value within the Offer Document must be read and considered together with the Valuation Report.

- This Valuation Report may not be reproduced in whole or in part without the prior written approval of the valuer.

- The Valuation Report does not purport to contain all the information that a potential investor or any other interested party may require. It does not consider the individual circumstances, financial situation, investment objectives or requirements. It is intended to be used as guide and for information purposes only and does not constitute advice including without any limitation, investment, tax, legal or any other type of advice. The valuations stated are only best estimates and are not to be construed as a guarantee. Potential investors should not rely on any material contained in the Valuation Report as a statement or representation of fact but should satisfy themselves as to its correctness by independent investigation and review of the Valuation Report to understand the assumptions and methodologies stated in the reports.

- For the avoidance of doubt, all references to "Offer Document" herein shall include any Offer Document, final Offer Document, prospectus and/or any other accompanying documents required under the SEBI (InvIT) Regulations 2014.

## 2.4 Limitation and Qualification

Valuation has been conducted solely for the benefit and use of the Instructing Party, and any Reliant Party nominated within this Valuation Report. The report and valuations should not be used for any other purpose other than the expressly intended purpose as mentioned in the Valuation Report. They are not to be used, circulated, quoted or otherwise referred to for any other purpose, nor are they to be filed with or referred to in whole or in part in any document without the prior written consent of valuer where such consent to be given at the absolute, exclusive discretion of valuer, which shall not be unreasonably withheld. Where they are to be used with the valuer's written consent, they shall be used only in their entirety and no part shall be used without referring to the whole report unless otherwise expressly agreed in writing by valuer.

Neither the whole nor any part of our report, nor any reference thereto, may be included in any published document, circular or statement, nor published in any way nor disclosed orally or in communication to a third party, including the form and context in which it is to appear without valuer's prior written consent.

The valuer does not purport to provide a site or structural survey in respect of the asset(s) valued. The valuer does not purport to be suitably qualified to provide professional advice in respect of building or site contamination. The Reliant Party(ies) should seek independent advice on these issues. The Services are provided on the basis that the client has disclosed to the valuer all information which may affect the Services. All opinions expressed by the valuer, or its employees are subject to any conditions contained in the valuation report.

## 2.5 Valuer Capability

iVAS Partners, (Valuer Registration Number: IBBI/RV-E/02/2020/112), represented by its partner Mr. Shubhendu Saha (Valuer Registration Number: IBBI/RV/05/2019/11552) delivers independent valuation (across categories viz. land & building and plant & machinery), advisory and technical due diligence services, that combine professional expertise with comprehensive databases, analytics and market intelligence across various asset classes and locations in India.

Mr. Shubhendu Saha is registered as a valuer with the Insolvency and Bankruptcy Board of India (IBBI) for the asset class Land and Building under the provisions of The Companies (Registered valuers and valuation) Rules, 2017 since 15 May 2019. He completed his Bachelor in Planning from the School of Planning and Architecture,

New Delhi in 1997 and master's in client studies from Motilal Nehru National Institute of Technology, Allahabad in 1999.

## 2.6 Scope of Valuation

The valuation has been undertaken to ascertain the market value of the Subject Asset forming part of the proposed TVS Infrastructure Trust InvIT as of the valuation date. The valuer has estimated the market value of each individual asset, not the value of the portfolio of Assets, if sold in one transaction. In consideration of the same, a detailed assessment of the site and surroundings has been undertaken with respect to the prevalent activities, change in dynamics impacting the values and the optimal use of the Subject Asset vis-à-vis the surrounding micromarket, etc.

The primary catchment for the valuation has been defined as Oragadam - Singadivakkam micromarket and the surrounding areas. An in-depth research exercise has been conducted in the catchment area of the Subject Asset to ascertain the prevalent activity levels in terms of infrastructural segment in the vicinity of Subject Asset. This has been achieved through interactions with various market players such as local real brokers, developers, end-users, etc.

The location, micromarket and catchment area for the Subject Asset is tabulated below:

| Asset Name | SPV/Hold Co | City | Micromarket/ Catchment Area |
|---|---|---|---|
| TVS Industrial & Logistics Parks | Durgeshwari Industrial & Logistics Parks Private Limited | Kancheepuram | Oragadam - Singadivakkam |

*Source: Client Inputs*

## 2.7 Valuer's Interest

The Valuer certify that; he/they do not have a pecuniary interest, financial or otherwise, that could conflict with the proper valuation of the asset (including the parties with whom our instructing party is dealing, including the lender or selling agent, if any; accepts instructions to value the asset only from the Client.

## 2.8 Qualifications/ Valuation Standards

This valuation is prepared in accordance with the International Valuation Standards (IVS) 2022.

The team involved in this engagement comprises of valuers registered with IBBI and RICS members with significant experience of valuations in Indian infrastructure and real estate market.

- The Valuer shall before accepting any assignment from any related party to the TVS Infrastructure Trust InvIT, disclose to the TVS Infrastructure Trust InvIT, any direct or indirect consideration which the Valuer may have in respect of such assignment
- The Valuer shall disclose to the trustee of the TVS Infrastructure Trust InvIT, any pending business transactions, contracts under negotiation and other arrangements with the client or any other party whom the

TVS Infrastructure Trust InvIT is contracting with and any other factors which may interfere with the Valuer's ability to give an independent and professional valuation of the asset; as on the date of valuation, there are no impediments for Valuer to give an independent professional value opinion of the asset

- The Valuer has not made false, misleading or exaggerated claims in order to secure assignments.
- The Valuer has not and shall not provide misleading valuation, either by providing incorrect information or by withholding relevant information
- The Valuer has not accepted and shall not accept an assignment that includes reporting of the outcome based on predetermined opinions and conclusions required by the TVS Infrastructure Trust InvIT
- The Valuer has not accepted the said assignment which interferes with its ability to do fair valuation
- The valuation undertaken by the valuer abides by International Valuation Standards for valuation in compliance with The Companies (Registration of Valuers and Valuation) Rules, 2017
- The Valuer understands that most of these assets are wholly/partly owned/ tenanted by related parties, hence, any transactions related to these assets from the related parties being valued would be related party transactions.
- The Valuer notes that there are encumbrances, however, no options or pre-emptions rights in relation to the assets based on the title report prepared by Cyril Amarchand Mangaldas (hereinafter collectively referred to as 'Legal Counsels'). The Valuer does not have the expertise or the preview to verify the veracity or quantify these encumbrances, disputes or claims. For the purpose of this valuation, the valuer has assumed that the respective assets have title deeds that are clear and marketable.

## 2.10 Assumptions, Disclaimers, Limitations & Qualifications to Valuation

| | |
|---|---|
| Valuation Subject to Change: | The subject valuation exercise is based on prevailing market dynamics as on the date of valuation and does not take into account any unforeseeable developments which could impact the same in the future |
| Our Investigations: | The Valuers are not engaged to carry out all possible investigations in relation to the Subject Asset. Where in our report the Valuer identify certain limitations to our investigations, this is to enable the reliant party to instruct further investigations were considered appropriate or where the Valuer recommend as necessary prior to reliance. The Valuer are not liable for any loss occasioned by a decision not to conduct further investigations |
| Assumptions: | Assumptions are a necessary part of undertaking valuations. The Valuer adopts assumptions for the purpose of providing valuation advice because some matters are not capable of accurate calculation or fall outside the scope of our expertise, or our instructions. Assumptions adopted by iVAS Partners will be formulated on the basis that they could reasonably be expected from a professional and experienced valuer. The Reliant Party accepts that the valuation contains certain specific assumptions, and acknowledges and accepts the risk that if any of the assumptions adopted in the valuation are incorrect, then this may have an effect on the valuation |
| Information Supplied by Others: | The valuations are based on the information provided by the client (TVS Industrial & Logistics Parks). The same has been assumed to be correct and has been used for valuation exercise. Where it is stated in the report that another party has supplied information to the 'Valuer', this information is believed to be reliable, but the 'Valuer' can accept no responsibility if this should prove not to be so.<br>We have assumed that where any information relevant to our valuation is supplied by the Instructing Party, or by any third party at Instructing Party's instigation, it is correct and comprehensive and can be safely relied upon by us in preparing our valuation.<br>We would recommend that before any financial transaction is entered into based on the valuations, you obtain verification of any third-party information provided. We also recommend that you check the validity of the assumptions we have adopted in our report (where we have been unable to verify the facts through our own observations or experience) |
| Matters which affect or may affect the valuation | If the Reliant Party becomes aware of any matters which affect or may affect the valuation, then Valuer must be advised of those matters. The Reliant Party's failure to do so will disentitle the Reliant Party to place reliance on the valuation and reliance must not be placed on the valuation/s under any circumstance |
| Future Matters: | To the extent that the valuation includes any statement as to a future matter, that statement is provided as an estimate and/or opinion based on the information known to the 'Valuer' at the date of this document. The 'Valuer' does not warrant that such statements are accurate or correct |
| Map and Plans: | Any sketch, plan or map in this report is included to assist reader while visualizing the Assets and the Valuers assume no responsibility in connection with such matters.<br>Further. all maps and plans quoted in our report are solely for illustration purposes only. While they are extracted from public sources, they may be not to scale. Valuer does not warrant that such dimensions shown are accurate. |
| Site Details: | Based on title due-diligence and other information provided by the client, the valuer understands that the Subject Asset is free from any encroachments and are available as on the date of the valuation |
| Asset Title: | For the purpose of this valuation exercise, the Valuer has relied on the Title Reports prepared by the Legal Counsels for each of the Assets and has made no further enquiries with the relevant local authorities in this regard. The Valuer understands that the Subject Asset may have encumbrances, disputes and claims. The Valuer does not have the expertise or the preview to verify the veracity or quantify these encumbrances, disputes or claims. For the purpose of this valuation, the Valuer has assumed that the respective assets have title deeds that are clear and marketable. We recommend that a suitable Asset Lawyer or similar reviews these assumptions and confirm they are reasonable before relying in this report. |
| Environmental Conditions: | In preparing our valuation we assume that no contaminative or potentially contaminative use is, or has been, carried out at the property. We do not undertake any investigation into the past or present uses of either the property or any adjoining or nearby land, to establish whether there is any potential for contamination from these uses and assume that none exists. Should it, however, be subsequently established that such contamination exists at the property or on any adjoining land or that any premises have been or are being put to contaminative use, this may have a detrimental effect on the value reported |

| | |
|---|---|
| Town Planning: | The current zoning of the Subject Asset has been adopted on the basis of review of various documents (title deeds & approval documents) provided by the Client and the current land use maps for the subject micromarket. The same has been considered for the purpose of this valuation exercise. Further, it has been assumed that the development on the Subject Asset adheres/ would adhere to the development regulations as prescribed by the relevant authorities. The Valuer has not made any enquiries with the relevant development authorities to validate the legality of the same.<br><br>Our valuations are prepared on the assumption that the premises comply with all relevant statutory enactments and Building Acts and Regulations, that a valid and up-to-date Fire Certificate has been issued. We assume that all necessary consents, licenses and authorizations for the use of the asset and the process carried out therein have been obtained and will continue to subsist and are not subject to any onerous conditions.<br><br>In the event that a legal requisition or other relevant planning information or document is obtained, and the information therein is found to be materially different to the town planning information in the report, the valuation must not be relied upon before first consulting iVAS Partners to reassess any effect on the valuation/s |
| Area: | The total leasable area considered for the purpose of this valuation exercise is based on the inputs shared by the Client. It must be noted that the above information has been provided by the client and has been verified based on the approvals/ layout plans/building plans provided by the client. However, the Valuer has not undertaken additional verification and physical measurement for the purpose of this valuation exercise |
| Condition & Repair: | In the absence of any information to the contrary, the Valuer has assumed that there are no abnormal ground conditions, nor archaeological remains present which might adversely affect the current or future occupation, development or value of the asset; the asset is free from rot, infestation, structural or latent defect; no currently known deleterious or hazardous materials or suspect techniques will be used in the construction of or subsequent alterations or additions to the asset and comments made in the asset details do not purport to express an opinion about, or advice upon, the condition of uninspected parts and should not be taken as making an implied representation or statement about such parts |
| Not a Structural Survey: | The Valuer states that this is a valuation report and not a structural survey |
| Legal: | Unless specifically disclosed in the report, the Valuer has not made any allowances with respect to any existing or proposed local legislation relating to taxation on realization of the sale value of the Subject Asset.<br><br>We do not read legal documentation. Where legal documentation is provided to us, we will have regard to the matters therein but recommend that reliance should not be placed on our interpretation thereof without prior verification by your legal advisors. Unless disclosed to us, we assume that there are no outstanding statutory breaches or impending litigation in respect of the property. We further assume that all documentation is satisfactorily drawn and that unless disclosed to us, there are no unusual or onerous restrictions, easements, covenants or other outgoings which would adversely affect the value of the relevant interest(s). In respect of leasehold Assets, we will assume that your landlord will give any necessary consents to an assignment. Unless notified to the contrary we assume that each property has a good and marketable title and is free from any pending litigation |
| Others: | Considering the unorganized nature of real estate markets in India, all comparable evidence (if any) provided in the valuation report has been limited to the basic details such as the area of asset, rate at which transacted, broad location, etc. other specific details would be provided only if the information is available in public domain |
| Other Assumptions: | Please note that all the factual information such as tenants' leasable area, lease details such as lease rent, lease commencement and lease end date, lock – in period, escalation terms, etc. pertaining to the Subject Asset is based on the rent roll provided by the Client and the same has been adopted for the purpose of this valuation exercise. The rent rolls have been cross-checked with copies of the lease deeds on a sample basis as shared with the valuer to verify the authenticity. Any change in the above information will have an impact on the assessed value and in that case the Valuer will have to relook at the assessed value. The relevant information sources are represented in section 5.5.<br><br>All measurements, areas and ages quoted in our report are approximate.<br><br>We are not advisors with respect to legal, tax and regulatory matters for the transaction. No investigation of the respective Special Purpose Vehicles (SPVs) holding the assets' claim to title of assets has been made for the purpose of this Report and the SPVs' claim to such rights have been assumed to be valid. No consideration |

| | |
|---|---|
| | has been given to liens or encumbrances against the assets. Therefore, no responsibility is assumed for matters of a legal nature.<br>As per the details provided by the client, the rental revenue has been calculated and other analysis are performed on chargeable area. Further, Leasable area mentioned is in accordance with the information shared by the client comprising rent rolls and lease agreements. |
| Flooding risk: | We have assumed that either there is no flooding risk or, if there is, that sufficient flood defenses are in place and that appropriate building insurance could be obtained at a cost that would not materially affect the capital value. |
| Site Conditions: | We do not commission site investigations to determine the suitability of ground conditions and services, nor do we undertake environmental or geotechnical surveys. We have assumed that these aspects are satisfactory and also that the site is clear of underground mineral or other workings, methane gas or other noxious substances.<br>In the case of property which may have redevelopment potential, we proceed on the basis that the site has load bearing capacity suitable for the anticipated form of redevelopment without the need for additional and expensive foundations or drainage systems (unless stated otherwise) |
| Hazardous & deleterious materials | Unless otherwise noted, we have assumed that the improvements are free of Asbestos and Hazardous Materials, or should these materials be present then they do not pose significant risk to human health, nor require immediate removal. We assume the site is free of subsoil asbestos and have made no allowance in our valuation for site remediation works.<br>Our visual inspection is an inconclusive indicator of the actual condition/presence of asbestos/hazardous materials within the property. We make no representation as to the actual status of the Property. If a test is undertaken at some time in the future to assess the degree, if any, of the presence of any asbestos/hazardous materials on site and this is found to be positive, this valuation must not be relied upon before first consulting iVAS Partners to reassess any effect on the valuation.<br>Unless specifically instructed, we do not carry out investigations to ascertain whether any building has been constructed or altered using deleterious materials or methods. Unless specifically notified, our valuation assumes that no such materials or methods have been used |
| Unregistered interests | We have assumed that there are no unregistered interests or interests not captured by the applicable Regulatory Authority in the country which services are to be carried out which may affect market value. In the event that the Reliant Party becomes aware of any further or pending easements, encumbrances or unregistered interests, this valuation must not be relied upon before first consulting iVAS Partners in writing to reassess any effect on the valuation |
| Heightened Market Volatility | We draw your attention to current heightened geopolitical tensions, low economic growth in many major countries, and a "higher for longer" interest rate sentiment which have increased the potential for constrained credit markets, negative capital value movements and continued volatility in some property markets over the short-to-medium term.<br>Experience has shown that consumer and investor behaviour can quickly change during periods of such heightened volatility. Lending or investment decisions should reflect any heightened level of volatility and potential for changing market conditions. Lending and investment caution is advised in this regard.<br>It is important to note that the conclusions set out in this report are valid as at the valuation date only. Where appropriate, we recommend that the valuation is closely monitored, as we continue to track how markets respond to evolving events. |

# 3 Chennai – Market Structure and Conditions

## 3.1 Information

For the purpose of the valuation exercise, reliance has been made on the deliverables of CBRE South Asia Private Limited, an independent agency appointed by TVS to undertake market research, provide market commentary, and data as a part of a report (the "Industry Assessment Report") for the purpose of this assignment.

## 3.2 Demand and Supply

### 3.2.1 Demand and Supply Trends – Chennai and micromarket

Total completed stock in Chennai as of Q3, CY 2024 is 46.12 msf, out of which Oragadam micromarket account for Approx. 10.9%

| Particulars | Details |
|---|---|
| Cumulative completed warehouse stock (Q3 2024) | Approx. 46.12 msf |
| Cumulative occupied stock (Q3 2024) | Approx. 41.07 msf |
| Current vacancy (Q3 2024) | Approx. 10.9 % |
| Future supply (2024 – 2026) | 5.0 to 6.0 Mn Sft |

*Source: Industry Assessment Report dated of Q3 2024*

Chennai has approx. 46.12 mn sft of operational warehouse stock out of which approx. 41.07 mn sft is occupied. The stretches of NH 16 belt (stretch 1) and Western Vector constitute to approx. 54% of the cities total supply. Industrial and Warehousing market of Chennai is primarily driven by the demand arising from Third party logistics, Auto and Auto Components, Electric and Electronic goods, FMCG etc. The city predominantly houses Grade A developments (approx. 49.4%), Grade B developments (approx. 46.2%) & Grade C developments (approx. 4.4%).

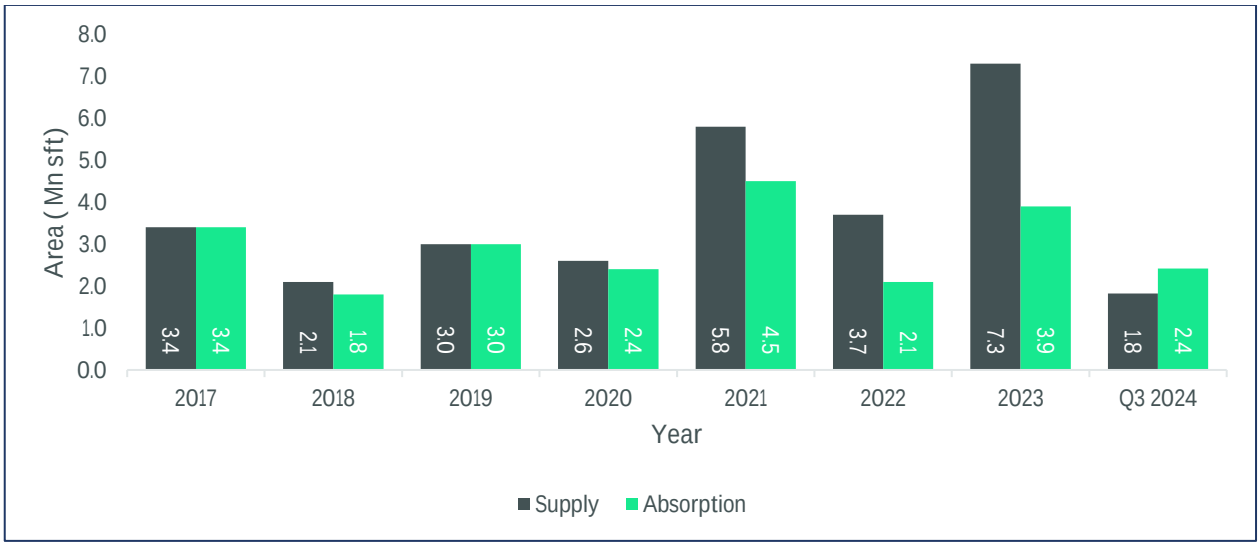
Demand – Supply Dynamics of City: Chennai



*Source: Industry Assessment Report. Vacancy – calculated based on cumulative supply and absorption*

Snapshot of West Oragadam Warehousing Market

| COMPLETED SUPPLY | VACANCY | GRADE A SUPPLY | GRADE A VACANCY | SHARE OF GRADE A SUPPLY IN CHENNAI | UPCOMING SUPPLY | LAND VALUES (INR MN/ACRE) |
|---|---|---|---|---|---|---|
| 12.2 Mn sft | 10– 11% | 10.3 Mn sft | 11 – 12% | 44% | 4.5 – 5.4 Mn sft | 40 - 45 |

Source: CBRE Research; Updated as of Q3 2024

Presence of SIPCOT Industrial Park, connectivity via SH 57 (proposed Peripheral Ring Road) and proximity to National Highway 48 and availability of large tracts of developable land parcels have resulted in this location in becoming a hub for warehousing activity. Oragadam vector emerged as a spill over demand from NH-48 corridor that houses the prominent fortune 500 companies and major Global automotive companies.

The tenants in this market predominantly prefer quality Grade A warehousing space due to requirements of high roofing and load bearing capacity of floor. Demand for warehousing space in this region is predominantly driven by Auto and Auto ancillary industries located within and outside the SIPCOT industrial parks.

Automobile, Logistics and FMCG are key industries in the micro-market with tenants such as Nissan Motor, Royal Enfield, Reliance, SV Global Logistics, TPI Composites.

#### 3.2.1.1 Key Developments in Micromarket

The table below highlights the prominent developments in the subject micromarket:

| Building Name | Year of Establishment | Leasable Area (sft) | Average Lease Rental (INR per sft pm) |
|---|---|---|---|
| Development 1 | 2023 | 60,000 | 24 – 25 |
| Development 2 | 2023 | 150,000 | 23 – 24 |
| Development 3 | 2023 | 250,000 | 24 – 25 |
| Development 4 | 2022 | 600,000 | 22 – 24 |

*Source: Industry Assessment Report*

#### 3.2.1.2 Future Supply

Based on the market research, we understand that the micromarket has an upcoming supply of approx. 1.5 Mn sft expected to be completed in 2025. The details of the same are as below:

| Building Name | Year of Completion | Status | Location | Leasable Area (sft) |
|---|---|---|---|---|
| Development 1 | 2025 | Planned | Oragadam | 1,200,000 |
| Development 2 | 2025 | Planned | Oragadam | 300,000 |

*Source: Industry Assessment Report*

### 3.2.2 Market Rent

The table below highlights the recent lease transactions in the micromarket:

| Date of Transaction | Chargeable Area (sft) | Lessee | Name of the Building | Total Rent (INR per sft per month) | Description |
|---|---|---|---|---|---|
| Q2 2024 | 1,20,000 | Pegatron | Indospace Vallam | 30 | Base Rental |
| Q3 2023 | 40,000 | Amphenol | Individual Developer-Oragadam-Phase I-Box 1 | 25 | Base Rental |
| Q1 2023 | 60,000 | Checkpoint Logistics | ESR Group-Oragadam-Phase I-Box 3 | 24 | Base Rental |

*Source: Industry Assessment Report*

As can be observed from the table above and our interactions with other market players, the rental value in the micromarket ranges between INR 24 - 25/sft/month (base rentals). However, the Subject Asset, despite being located in the Oragadam vector has limited industrial developments as majority are concentrated towards north of Oragadam

Industrial corridor. The Oragadam Industrial corridor, which is the primary hub for automotive manufacturing is 25kms away from Singadivakkam, where the Subject Asset is located. The stretch of Oragadam to Walajabad or Oragadam to Sunguvarchatram vector has been subdued in terms of rentals, commanding around INR 18 to 20/sft/month (base rentals) depending upon location, accessibility, overall tenant mix, quantum of vacant stock in the development, proximity to industrial corridor, specifications of the block, park level infrastructure, additional improvements, etc.

## 3.3 Market Outlook

Based on the market research, we understand that the Excellent connectivity, proximity to critical industrial centres, land availability, and the presence of a warehousing ecosystem are the primary demand drivers for this market. There is a projected supply of approximately 5.0 to 6.0 mn sft in Oragadam over the next 3-5 years. Based on the historical absorption observed in the Oragadam market, it is reasonable to anticipate a demand of approximately 1.5 to 2.0 mn sft....

The demand driver for this vector is primarily driven by being located within the expansion of the Oragadam industrial corridor with small scale manufacturing activities happening in Sunguvarchatram and adjoining markets. connectivity, proximity to critical industrial centres, land availability, and the presence of a warehousing ecosystem are the primary demand drivers for this vector.

Chennai markets have been witnessing linear growth in the supply and demand over the past 4-5 years for warehousing spaces. While the western part of Chennai is considered a prominent segment for Manufacturing the North is chosen by logistic players given its easy access to Chennai port. Singadivakkam by virtue of falling in the western part of Chennai is gaining traction due to its access to manufacturing hub of Chennai. Enormous small to mid-scale glass manufacturers, automobile manufacturers, electronic and home appliances manufacturers have their facilities set up in closer vicinity to Sriperumbudur. This is expected to further bolster the growth prospects of Singadivakkam especially for warehousing market given the availability of larger land parcels and development potential.

Further, the Subject Asset is well positioned in the market to attract interest from occupiers owing to its location, specifications and amenities, developer's reputation, etc. Therefore, keeping in perspective the subject property's location, leasing in the micromarket, quantum of leasable area, quality of construction, developer's reputation, type of space, etc., we are of the opinion that the subject property would command a lease rental of approx. INR 18 - 20 / sft / month as on date of valuation.

# 4 Subject Asset – TVS Singadivakkam

## 4.1 Asset Description

The subject development christened 'TVS Industrial & Logistics Parks' is an operational warehousing facility with total leasable area of 2,72,535 sft located at Survey No: 561/3B, 561/4, 561/5, 581/2A, 581/3, 582/1B, 583/1C1B, 582/1C2A, 582/1C2B, 582/2A, 582/2B, 583/1, 584/1A1, 584/1B1, of Singadivakkam Village, Kancheepuram. The Subject Asset is located in an internal road which emanates from Mumbai Highway (NH – 48).

The Subject Asset is spread across a land area of approx. 10.74 acres having 6 blocks with total leasable area of approx. 4,53,711 sft and a cumulative chargeable area of approx. 2,73,399 sft comprising of completed blocks (Block – I, Block – II, Block – III, Block IV, Block V, Block VI, and open space/ mezzanine area).

Further, it was observed that the Subject Asset is contiguous in nature, even in terrain, is broadly regular in shape and on the same level as abutting road and adjoining properties. Also, the Subject Asset has adequate frontage along the primary access road. The primary access road abuts the Subject Asset in its southern side.

The Subject Asset is a grade A warehouse with PEB structures having all requisite facilities such as DG and Transformer Yard, Sewage Treatment Plant – STP (30KLD), Storm water network (300mm HDPE pipe drain with Rainwater Sump), Fire Fighting Systems of NFPA/NBC standard, FM2 flooring type with floor load of 5T per sqm and a power load with Maximum demand of 2000 KVA.

As at the valuation date the Subject Asset is fully let to a single tenant at a total current annual rent of 46.97 Mn (including mezzanine area rentals) and with a Weighted average lease expiry (WALE) of 6.8 years. The Subject Asset is entirely occupied by a manufacturing company.

| Brief Description | |
|---|---|
| Particulars | Details |
| Asset Name | TVS Industrial & Logistics Parks |
| Address | Survey No: 561/3B, 561/4, 561/5, 581/2A, 581/3, 582/1B, 583/1C1B, 582/1C2A, 582/1C2B, 582/2A, 582/2B, 583/1, 584/1A1, 584/1B1, of Singadivakkam Village, Kancheepuram. |
| Land Area | Based on review of the sale deed shared by the client, it is understood that the Subject Asset is built over a land measuring approx. 10.74 acres |
| Leasable Area | 4,53,711 sft |
| Chargeable Area | 2,73,399 sft |
| Built-up Area | 4,53,711 sft |

*Source: Architect certificate, rent roll provided by the Client; (Please note according to the lease agreements provided by the Client, it is understood that the rent is paid on the chargeable area, which has been considered for the valuation exercise).*

### 4.1.1 Site Details

Situation: Subject Asset – 'TVS Industrial & Logistics Parks' is an operational warehousing facility located in Singadivakkam Village, Kancheepuram, Tamil Nadu.

Location:

The Subject Asset is located in an internal road which emanates from Mumbai Highway (NH – 48). The Subject Asset is located in Singadivakkam Village, Kancheepuram, Tamil Nadu.

The distances from key hubs to the Subject Asset are presented in the table below:

| Landmark | Distance (Km) |
|---|---|
| National Highway - 48 | 0 – 1 |
| SIPCOT Industrial Park Vallam | 20 - 21 |
| Chennai International Airport | 48 - 49 |
| Nungambakkam (CBD of Chennai) | 57 – 58 |
| Chennai Central Railway Station | 61 - 62 |

*Source: Valuer's research*

Catchment Analysis:

The primary catchment for the purpose of this valuation has been defined as Singadivakkam Village and its adjoining micromarkets such as sunguvarchatram, santhavelur etc which are predominantly characterized by small to mid-scale industrial/warehousing facility. The proximity of the Subject Asset to NH 48 provides excellent connectivity between the surrounding industrial areas. Some of the notable industrial developments in the micromarket includes Indo Tech Transformers Limited, L&T Ltd, Myunghwa Automotive India Pvt Ltd, Stahl India Pvt Ltd, Fritzmeier Motherson Cabin Engg Ltd (FMCEL) etc. Further, the subject micromarket is strategically located in proximity to a number of established industrial hubs such as Sriperumbudur, Kunnam, Oragadam, Vallam, etc., and these micromarkets house many national and international industrial companies.

Surrounds:

The Subject Asset is surrounded as follows:

- North: Private Property
- South: Access Road
- East: Private Property
- West: Private Property

Potential changes in surroundings:

By virtue of being located in proximity to NH – 48 (Mumbai Highway) coupled with the proximity to key economic hubs viz. industrial hubs of Oragadam, Vallam, Sriperumbudur, etc., the subject micromarket is well poised to attract increased demand for industrial segment. The proposed international airport at Parandur (located at 16-18 kms from Singadivakkam) which is expected to be operational by 2030 would boost the industrial activity along the western micromarkets of Chennai.

Further, infrastructure initiatives such as Chennai Bangalore Expressway, Chennai Outer Ring Road, Chennai Peripheral Ring Road etc., is also expected to propel organised infra structural activity along this corridor as the same would ensure easy and hassle-free connectivity to other parts of Chennai City.

| | |
|---|---|
| Suitability of existing use: | As per information received from the client, we understand that the Subject Asset is an under-construction warehousing facility. The current use of the asset i.e. 'Warehousing facility' is as per the usage permitted by the Director of Town and Country Planning (DTCP) . We have not verified the same from DTCP or inspected any documentary evidence to the same.<br><br>Also considering the nature of Subject Asset coupled with the location and profile of the surrounding developments, the use of the Subject Asset is opined to be in conformity with the envisaged development. |

The following map indicates the location of the Subject Asset and surrounding developments:

Location Map for the Subject Asset

*Source: Industry Assessment Report*

| | |
|---|---|
| Shape: | Based on the site plan provided by the client and visual inspection during the site visit, it is understood that the underlying land is broadly regular in shape. |
| Topography: | Based on the site plan and as corroborated with our site visit, the site appears to be even and is at the same level as abutting access roads and adjoining Assets. |

| | |
|---|---|
| Frontage: | Based on review of site plan and visual inspection, we understand that the Subject Asset has adequate frontage along the primary access road. |
| Accessibility: | Based on the site plan provided by the client and visual inspection, the primary access to the Subject Asset in an internal road which emanates from Mumbai Highway (NH – 48), Singadivakkam Village, Kancheepuram. By virtue of the same the asset enjoys excellent accessibility and frontage.<br><br>Please refer Section 7.0 Exhibit & Addendums for the site plan of the Subject Asset. |

### 4.1.2 Review of sale deed or Lease agreement

As per the sanctioned layout plan provided by the client, we understand that the exact address of the Subject Asset is Singadivakkam Village, Kancheepuram, Tamil Nadu. Additionally, it is understood that the Subject Asset is owned by TVS Infrastructure Private Limited and is freehold in nature.

### 4.1.3 Title Details

This valuation exercise is based on the premise that the Subject Asset has a clear title and is free from any encumbrances, disputes, claims, etc. Valuer has not made any inquiries in this regard with the relevant legal/ statutory authorities with the understanding this level of due diligence will be undertaken by the appropriate lawyers and then advised to the Valuer accordingly. We strongly recommend the assumption the asset has a clear title is confirmed before relying on the report.

### 4.1.4 Town Planning

| | |
|---|---|
| Zoning | As per information received from the client, we understand that the Subject Asset is an operational warehousing facility. The current use of the asset i.e. 'Warehousing facility' is as per the usage permitted by the Director of Town and Country Planning (DTCP). We have not verified the same from DTCP or inspected any documentary evidence to the same.<br><br>For the purpose of this exercise, it has been assumed that all developments (existing / under construction / proposed) adhere to building regulations as prescribed by the relevant authorities. Valuer has not validated the information provided by the client with the relevant development authorities. |
| Approved Usage: | The Subject Asset is an operational warehousing facility. The current use of the Subject Asset is broadly in agreement with the rules and regulations as prescribed by the local development authority. However, valuer has not made any enquiries with the relevant local panchayat or relevant authorities to validate the same for its specific applicability to the Subject Asset. |
| Restrictions: | As per feedback received from the client, there are no other restrictions on the current use of the asset. |
| Natural or induced hazards: | We have not carried out any investigations or tests or been supplied with any information from Client or from any relevant expert that determines the presence or otherwise of pollution or contaminative substances in the Subject Asset or any other land (including any ground water). |

For the purpose of assessing the vulnerability of the Subject Asset to any natural or induced disaster the location of the property with respect to risks pertaining to earthquakes, high winds/cyclone and flooding was studied. Singadivakkam Village where the Subject Asset is located falls in Seismic Zone II (least active) with low risk. The city faces low risk in terms of high winds or cyclones too given that the subject property falls in high-lying area as per the topographic map. No hazardous activity was noted in the vicinity of the Subject Asset which may expose it for any induced disaster.

Approvals: As per the documents provided by Client, we understand that the approvals mentioned in section 4.1.5.1 for the asset have been. Please refer annexures for the details.

For the purpose of this exercise, it has been assumed that all developments adhere to building regulations as prescribed by the relevant authorities. Valuers have not validated the information provided by the client with the relevant development authorities

### 4.1.5 Statutory Approvals, Sanctions & Approvals

#### 4.1.5.1 Statutory Approvals received and to be received (One-time Sanctions & Periodic Clearances)

As per the review of documents provided by the client, we understand that all requisite approvals have been received for the Subject Asset.

The table below highlights the status of approvals for the Subject Asset:

| Approval/NOC | Status (Applied / Received) | Authority | Date of Issue (DD-MM-YY) | Date of Expiry (DD-MM-YY) |
|---|---|---|---|---|
| Fire NOC | Received | Fire and Rescue Department | 16-07-2023 | NA |
| Building Permit/Planning Approval | Received | Director of Panchayath Union, Walajabad | 14-06-2022 | NA |
| Ground Water Abstraction NOC | Received | Water Resource Department, Government of Tamil Nadu | 17-05-2023 | 16-05-2026 |
| Structural Stability Certificate | Received | Jayam Consultants Private Limited | 27-03-2017 | NA |
| Land Use Conversion NOC | Received | Collectorate, Kancheepuram | 25-06-2015 | NA |

*Source: Approval and NOC documents provided by the client*

#### 4.1.5.2 List of up to date/overdue periodic clearances

As per the details provided by the client, we understand that there are no overdue periodic clearances. Please refer section 7.3 for any further details

### 4.1.6 Area Details, Type and Age of Existing Structures

The table below highlights the age of the completed blocks of the Subject Asset

| Block | Leasable Area (sft) | Operational Area (sft)* | Under-Construction Area (sft)* | Year of Completion |
|---|---|---|---|---|
| Singadivakkam Park – Block I | 22,334 | 22,334 | - | Q4 2022 |
| Singadivakkam Park – Block II | 1,37,414 | 70,831 | - | Q2 2021 |
| Singadivakkam Park – Block III | 39,942 | 21,000 | - | Q2 2021 |
| Singadivakkam Park – Block IV | 73,702 | 52,980 | - | Q2 2021 |
| Singadivakkam Park – Block V | 1,02,296 | 55,181 | - | Q2 2021 |
| Singadivakkam Park – Block VI | 53,675 | 26,725 | - | Q2 2021 |
| Singadivakkam Park – Mezzanine Area | 12,135 | 12,135 | - | Q1 2023 |
| Singadivakkam Park – Mezzanine Area | 11,349 | 11,349 | - | Q4 2022 |
| Singadivakkam Park – Mezzanine Area | 864 | 864 | - | Q2 2024 |
| Total Area | 4,53,711 | 2,73,399 | - | |

*Source: Architect certificate, rent roll provided by the Client; (Please note according to the lease agreements provided by the Client, it is understood that the rent is paid on the chargeable area, which has been considered for the valuation exercise)*

The table below highlights the area details of the Subject Asset:

| Blocks | Leasable Area (sft) | Chargeable Area (sft) |
|---|---|---|
| Singadivakkam Park – Block I | 22,334 | 22,334 |
| Singadivakkam Park – Block II | 1,37,414 | 70,831 |
| Singadivakkam Park – Block III | 39,942 | 21,000 |
| Singadivakkam Park – Block IV | 73,702 | 52,980 |
| Singadivakkam Park – Block V | 1,02,296 | 55,181 |
| Singadivakkam Park – Block VI | 53,675 | 26,725 |

| Singadivakkam Park – Mezzanine Area | 11,349 | 11,349 |
| Singadivakkam Park – Mezzanine Area | 864 | 864 |
| Total Area | 4,53,711 | 2,73,399 |

*Source: Architect certificate, rent roll provided by the Client; (Please note according to the lease agreements provided by the Client, it is understood that the rent is paid on the chargeable area, which has been considered for the valuation exercise)*

### 4.1.7 Site Services and Finishes

| Particulars | Completed Blocks |
|---|---|
| Handover condition | Warm Shell |
| Type of Structure | PEB |
| Firefighting services | Provided. Fire NOC Available |
| Lift provision | No Lifts |
| Floor Finish | FM2 Concrete floor |
| Floor Strength | 5 MT/Sqm |

*Source: Information provided by the client, Site visit*

### 4.1.8 Condition & Repair

Based on information provided by the client and corroborated with our visual inspection during the site visit, it is understood that the Subject Asset is in good condition and is maintained well.

### 4.1.9 Asset Photographs

Please refer to the Annexure section 7.1

4.1.11 Nature of the interest the InvIT holds or proposes to hold in the asset, percentage of interest of the InvIT in the asset

Please refer to the Annexure section 7.1

4.1.12 Structure of ownership of the asset by the InvIT

Please refer to the Annexure section 7.1

4.1.13 Description of key agreements and restrictions relevant to the asset such as terms of concession agreement, power purchase agreements, etc.

Please refer to the Annexure section 7.1

4.1.14 Life of the asset (both contractually and physical life requiring maintenance, replacement and right available to extend this life

Please refer to the Annexure section 7.1

4.1.15 Valuation of the asset in the previous 3 years

As of the date of this valuation report, the Subject Asset is not part of the Infrastructure Investment Trust (InVIT)

# 5 Valuation Approach & Methodology

## 5.1 Scope of Valuation

The valuation exercise is to assess the Market Value (MV) of the Subject Asset for the purpose of the offer of units through private placement of TVS Infrastructure Trust InvIT under the SEBI (Infrastructure Investment Trust) Regulations, 2014, as amended. The valuations have been conducted in accordance with the IVSC International Valuation Standards, (effective 31 January 2022) and in accordance with the requirements of the SEBI (Infrastructure Investment Trust) Regulations, 2014, as amended from time to time.

This valuer has assessed the Market Value of each individual Subject Asset, not the value of the portfolio, if all Assets were sold in one transaction. Where a summation of the individual Assets is provided, this is purely for reference only and should not be construed as the value of the portfolio. Kindly refer to the summary report section 1.0 for list of Subject Asset forming part of the portfolio.

## 5.2 Basis of Valuation

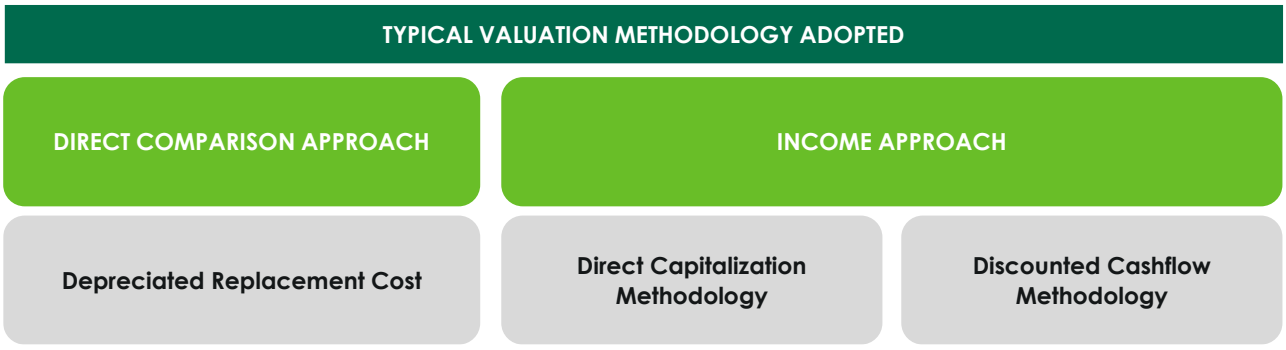
The valuations have been conducted in accordance with the IVSC International Valuation Standards issued in July 2021, effective from 31 January 2022), Regulation 21 and Schedule V of the SEBI (InvIT) Regulations, 2014 and is in compliance with the International Valuation Standards (IVS). The valuation exercise has been undertaken by appropriately qualified Valuer and will be assessing the Market Value of the ownership Interest in the Subject Asset.

As per the Valuation and Guidance Notes issued by the IVS, the market value is defined as:

***'The estimated amount for which** an asset or liability should exchange on the valuation date between a **willing buyer and a willing seller in an arm's length transaction, after proper marketing and where the parties had each acted knowledgeably, prudently and without compulsion'.***

## 5.3 Approach and Methodology

The purpose of this valuation exercise is to estimate the Market Value (MV) of the Subject Asset. Market Value can be derived through the following Methodologies:



### 5.3.1 Direct Comparison Approach

Under the 'Direct Comparison Approach', the asset is compared to similar Assets that have actually been sold in an arms-length transaction or are offered for sale (after deducting for value of built-up structure located thereon). The comparable evidence gathered during research is adjusted for premiums and discounts based on asset specific attributes to reflect the underlying value of the asset.

The value of the land component under this approach has been assessed based on comparison with similar Assets that have actually been sold in arms-length transaction or are offered for sale in the subject micromarket.

Based on our interactions with the local market players, we understand that the market has few Assets of comparable sizes which are currently available for sale in the market. Therefore, the value of the subject land parcel has been estimated through a direct comparison approach utilizing the seller quotes available in the market as well as few reported transactions.

The values for these comparable Assets are further adjusted for various premiums and discounts (viz. towards size, location, accessibility, frontage, visibility, ownership status, profile of the surrounding developments, zoning, etc.) vis-à-vis the Subject Asset to determine the achievable market value for the Subject Asset.

Based on the market research undertaken, it is understood that the capital values for land parcels in the subject micromarket are primarily governed by parameters which are as follows:

- Location & profile of surrounding developments – Based on our market study, it was identified that land parcels located in proximity to highway would command higher capital values in comparison to the land parcels located further away on internal village roads. In addition, based on our interactions with local market players, we understand that the land parcels located in proximity to existing village catchments command higher capital values as compared to those located further away from the existing village catchments.
- Size of the land parcel – Based on our interactions with the local market players, it was understood that the small-medium sized land parcels (approx. 1 – 5 acres) attract almost negligible discount on account of lesser quantum of investment involved and a shorter marketing timeframe required for disposal of such land parcels.
- Accessibility, frontage and visibility – Based on our market research, it was observed that the land parcels having superior frontage along the access road or by virtue of it being a two side or a three-side corner plot would command a premium vis-à-vis the other Assets. Further, it was observed that the Assets located on wider access roads command premium vis-à-vis Assets located along narrow access roads.
- Zoning and requisite clearances - Based on our market research, it was observed that the land parcels with industrial / multipurpose / residential use zoning would command a premium in comparison to the land parcels under agricultural use /conservation zone. Further, we understand that the land parcels with the requisite clearances in place such as NALA (Non-Agricultural Land Assessment) conversions, etc. command a premium over the agricultural land parcels.
- Physical conditions of the asset/ownership - Based on our market research, it was observed that the land parcels with site improvements such as compound wall, bore well, etc. command a premium. In addition, Assets with single owner would attract a premium as compared to the Assets with multiple owners.

### 5.3.2 Income Approach

The income approach is based on the premise that value of an income - producing asset is a function of future benefits and income derived from that asset. There are two commonly used methods of the income approach in real estate valuation namely, direct capitalization and discounted cash flow (DCF).

A. Direct Capitalization Method

Direct capitalization involves capitalizing a 'normalized' single - year net income estimated by an appropriate yield. This approach is best utilized with stable revenue producing assets, whereby there is little volatility in the net annual income.

B. Discounted Cash Flow Method

A Discounted Cash Flow Analysis is based upon estimates of future financial performance. The methodology begins with a set of assumptions regarding income and expenses of the Asset and future economic conditions in the local market. The income and expense figures are assessed with adjustments for estimated changes in economic conditions and any contractual commitments. The resultant value is considered the best estimate but is not to be construed as a prediction or guarantee and is fully dependent upon the reasonableness of the assumptions with respect to income, expenses, and market conditions, which are based on information available as at the valuation date.

## 5.4 Approach and Methodology Adopted

Considering the objective of this exercise, the nature of asset involved and the purpose of the valuation viz. to assess the Market Value (MV) of the Subject Asset for the purpose of the offer of units through private placement of TVS Infrastructure Trust InvIT under the SEBI (Infrastructure Investment Trust) Regulations, 2014 'Regulation', we have adopted the methodology considering Chapter 1 section 2 point (i) of the InvIT regulation, which states that, the assets forming part of InvIT should meet among the below criteria as follow:

1. The infrastructure asset has achieved the commercial operations date as defined under the relevant asset agreement including concession agreement, power purchase agreement or any other agreement of a similar nature entered into in relation to the operation of the asset or in any agreement entered into with the lenders
2. The infrastructure asset has received all the requisite approvals and certifications for commencing operations
3. The infrastructure asset has been generating revenue from operations for a period of not less than one year

Hence owing to the above stated conditions, we are of the opinion that the income approach which is appropriate to value such asset based on the premise that value of an income - producing asset is a function of future benefits and income derived from that asset.

Under the Income approach, Discounted Cash Flow Analysis is based upon estimates of future financial performance which also considers the income and expenses of the Asset accounting for the future fluctuations due to expected market dynamics.

Hence, for the purpose of this valuation exercise, we have adopted Discounted Cash Flow Method (using rent reversion approach).

For the purpose of this valuation exercise, we have analysed the tenancy details provided by the Client to identify variances vis-à-vis prevailing marginal rent. In the event the contracted rent is within the threshold (15.0%), we have assumed that the tenant will continue on the current agreed terms. In the event the rent is higher than the marginal rent threshold, we have assumed that the lease would be renegotiated to marginal rent terms (at the time of the lock-in expiry, next escalation, etc.).

Asset-specific Review:

1. As the first step to the valuation of the asset, the lease deeds were reviewed to identify tenancy characteristics with respect to contractual commitments and commercial covenants.
2. Title documents and architect certificates were reviewed for validation of area details, ownership of the asset.

3. The Valuer has undertaken physical site inspections to assess the status of the subject assets in terms of their physical configuration, capacity and upkeep.

Micromarket Review/Market Rental Assessment:

The primary catchment for the purpose of the valuation has been defined as Singadivakkam Village and its adjoining micromarkets. The micromarket is situated in close proximity to Sriperumbudur (a large-scale industrial estate) comprising of numerous small, medium and large-scale industrial units. As a consequence of development of SIPCOT industrial park, the subject micromarket has also been witnessing development of a few small-scale industrial units and warehousing/ logistics Park.

A primary research exercise has been carried out in the catchment area to ascertain the prevalent activity levels in terms of quoted / transacted evidence of the recent leasing activity for warehousing facilities. This has been achieved through interactions with various market players such as local real estate brokers, developers, owners, etc. Based on the same, we understand that variance across rentals is primarily due to factors such as type of asset, developer brand, location, accessibility, overall tenant mix, quantum of vacant stock in the development, specifications, and additional improvements, etc.

For the micromarket review and market rental assessment we have relied upon the report on 'Market Analysis of Warehousing assets in Identified locations pan India' prepared by CBRE South Asia Private Limited, hereafter referred as 'CBRE' (an independent agency appointed by the Client to undertake market research, provide market summary and data for the purpose of this assignment)

Cash Flow Assertions:

We have assessed future cash flows from the Subject Asset based on existing lease terms and contractual lease payments for the operational area until the expiry of the leases or re-negotiation (using the variance analysis), whichever is earlier.

Based on a detailed review of the leases for the Subject Asset, we noted that it is approx. 100% leased out as on date of valuation. Since the real estate industry is dynamic and is influenced by various factors (such as existing supply, tenants looking at spaces, quality of spaces available in the market, overall health of the economy, existing rent, future growth plans, etc.) at a particular point in time, negotiated rent may tend to move away from the prevalent market rent over a period of time. It has also been witnessed that the market rent for some Assets or micromarkets increase or decrease at a rate significantly different from those agreed to in initial leases. These factors reinforce the need to review each of these leases in isolation to assess the intrinsic value of the asset under review.

Post this, the lease terms have been aligned with market rentals. For vacant area the Valuer has asserted the market rent led cash flows factoring appropriate lease-up time frame for vacant/under-construction/proposed area. These cash flows have been asserted for 10-year duration from the date of valuation and for 11th year (for assessment of terminal value). These future financial benefits are then discounted to a present-day value (valuation date) at an appropriate discount rate.

## 5.5 Information Sources for Valuation

Asset related information referred to for the valuation exercise have been provided by the client unless otherwise mentioned. We have assumed the documents to be a true copy of the original. The rent rolls have been cross-checked with the lease deeds on a sample basis to verify the authenticity. Additionally, wherever possible, we have independently revalidated the information by reviewing the originals as provided by the client.

Table below highlights various data points referred throughout the course of this valuation report and the data sources for the same:

Table below highlights various data points referred throughout the course of this valuation report and the data sources for the same. Asset related documents referred to in the table below have been provided to the Valuer by the Client unless otherwise mentioned. The Valuer have assumed the documents to be a true copy of the original.

# 6 Value Assessment

## 6.1 Value Assessment

### 6.1.1 Adopted Methodology

We acknowledge that the approaches to valuation differ considerably and that for a particular purpose, alternative approaches to the valuation can be utilized. Considering the objective of this exercise and the nature of asset involved, the value of the Subject Asset has been assessed through the following approaches:

| Asset Name | Valuation Methodology (Completed Blocks) | Valuation Methodology (Under-construction Blocks) |
|---|---|---|
| TVS Industrial and Logistics Park, Singadivakkam | Discounted Cash Flow (Using rent reversion approach) | Discounted Cash Flow |

The sections below highlight the detailed valuation workings for the Subject Asset.

## 6.2 Operational Assumptions

### 6.2.1 Area statement

Based on information from inputs shared by the client, we understand that Subject Asset is a completed warehousing facility. Further, the table below highlights the area configuration of the Subject Asset:

| Block | Total Area(sft) | Operational Area (sft) [2] |
|---|---|---|
| Singadivakkam Park – Block I | 22,334 | 22,334 |
| Singadivakkam Park – Block II | 1,37,414 | 70,831 |
| Singadivakkam Park – Block III | 39,942 | 21,000 |
| Singadivakkam Park – Block IV | 73,702 | 52,980 |
| Singadivakkam Park – Block V | 1,02,296 | 55,181 |
| Singadivakkam Park – Block VI | 53,675 | 26,725 |
| Singadivakkam Park – Mezzanine Area | 12,135 | 12,135 |
| Singadivakkam Park – Mezzanine Area | 11,349 | 11,349 |
| Singadivakkam Park – Mezzanine Area | 864 | 864 |
| Total Area | 4,53,711 | 2,73,399 |

*Source: Client Inputs, *Area mentioned in chargeable area*

[2] *As per the details provided by the client, the rental revenue has been calculated and other analysis are performed on chargeable area. Further, leasable area mentioned is in accordance with the information shared by the Client comprising rent rolls and lease agreements.*

| Tenant | Chargeable Area (sft) | % of area leased | Total In-place rental (INR psf pm) | Total In-place rental (INR Mn pm) |
|---|---|---|---|---|
| TVS Industrial and Logistics Park, Singadivakkam | 2,73,399 | 100% | 14.6 | 3.99 |

| Occupancy (completed blocks) | 100% |
| Pre-Commitment (under construction blocks) | N. A |

## 6.3 Tenancy Analysis

### 6.3.1 Historical Occupancy Rates

The table below highlights the historical occupancy rates at the subject development:

*Source: Information provided by the client.*

### 6.3.2 Lease Rent Analysis

Based on the review of the Lease Deed provided by the client, we understand that the lease agreements were signed between TVS infrastructure Pvt ltd and the tenants, details of which are mentioned below:

| Tenant | Particulars | Details |
|---|---|---|
| Manufacturing Company | Lease Commencement Date | 23rd November 2022 |
| | Rent Commencement Date | 23rd November 2022 |
| | Lock-in Period | 5 Years |
| | Lease Tenure/Remaining Tenure | 8.7/7.0 Years |
| | Lease Rent Escalation Terms | 5% every year |
| Manufacturing Company | Lease Commencement Date | 01st June 2021 |
| | Rent Commencement Date | 01st June 2021 |
| | Lock-in Period | 5 Years |
| | Lease Tenure/Remaining Tenure | 10.2/7.0 Years |
| | Lease Rent Escalation Terms | 2% every year |
| Manufacturing Company | Lease Commencement Date | 01st June 2021 |
| | Rent Commencement Date | 01st June 2021 |
| | Lock-in Period | 5 Years |
| | Lease Tenure/Remaining Tenure | 10.2/7.0 Years |
| | Lease Rent Escalation Terms | 2% every year |
| Manufacturing Company | Lease Commencement Date | 01st June 2021 |
| | Rent Commencement Date | 01st May 2022 |
| | Lock-in Period | 5 Years |
| | Lease Tenure/Remaining Tenure | 10.2/7.0 Years |
| | Lease Rent Escalation Terms | 2% every year |
| Manufacturing Company | Lease Commencement Date | 01st June 2021 |
| | Rent Commencement Date | 01st June 2022 |
| | Lock-in Period | 5 Years |
| | Lease Tenure/Remaining Tenure | 10.2/7.0 Years |
| | Lease Rent Escalation Terms | 2% every year |
| Manufacturing Company | Lease Commencement Date | 01st June 2021 |
| | Rent Commencement Date | 13th October 2022 |
| | Lock-in Period | 5 Years |
| | Lease Tenure/Remaining Tenure | 10.2/7.0 Years |
| | Lease Rent Escalation Terms | 2% every year |
| Manufacturing Company | Lease Commencement Date | 01st February 2023 |
| | Rent Commencement Date | 01st February 2023 |
| | Lock-in Period | 5 Years |
| | Lease Tenure/Remaining Tenure | 8.5/6.9 Years |
| | Lease Rent Escalation Terms | 3% every year |
| Manufacturing Company | Lease Commencement Date | 13th October 2022 |
| | Rent Commencement Date | 13th October 2022 |
| | Lock-in Period | 5 Years |
| | Lease Tenure/Remaining Tenure | 9.1/7.0 Years |
| | Lease Rent Escalation Terms | 3% every year |
| Manufacturing Company | Lease Commencement Date | 22nd April 2024 |
| | Rent Commencement Date | 22nd April 2024 |
| | Lock-in Period | 2 Years |
| | Lease Tenure/Remaining Tenure | 7.0/6.5 Years |
| | Lease Rent Escalation Terms | 3% every year |

*Source: Lease Deed and Client Inputs*

### 6.3.3 Lease Expiry Profile

The Weighted Average Lease Expiry (WALE) of the Subject Asset is 6.8 years, single tenant (manufacturing company) occupying the entire block. The lease expiry for the same is in FY 2031.

### 6.3.4 Tenant Obligations

Based on the review of the lease deed, we understand that the operational expenses listed below will have to be borne by the Tenant.

| S. No | Description of operational expenses |
|---|---|
| 1 | Regular Maintenance |
| 2 | Taxes |
| 3 | Insurance |
| 4 | General Wear and Tear |
| 5 | Other Expenses such as utility charges towards any Governmental authorities or Concerned service provider. |

*Source: Client Inputs*

Contractual Rental Details

| Tenant | Chargeable Area (sft) | % of area leased | Total In-place rental (INR psf pm) | Total In-place rental (INR Mn pm) |
|---|---|---|---|---|
| TVS Industrial and Logistics Park | 2,73,399 | 100% | 14.6 | 3.99 |

*Source: Leased Deed and Information provided by the client*

Based on the recent transaction witnessed in the micromarket as highlighted in the table above and transaction witnessed in the Subject Asset, we understand that the Subject Asset would command a marginal rental (for warehouse space) of INR 18.0 – 20.0 per sf per month (say an average rental of INR 19.0 per sf per month of leasable area).

### 6.3.5 Construction Timelines

#### 6.3.5.1 Completed Blocks

The asset was completed in a phase-wise manner Block 2, 3, 4, 5 & 6 completed and operationalised during Q2 2021, Block 1 & Mezzanine Area completed and operationalised during Q4 2022

#### 6.3.5.2 Under-Construction/ Proposed Blocks

Based on visual inspection during the site visit and information provided by the client, we understand the Subject Asset is completed and fully operational.

### 6.3.6 Absorption/ Leasing Velocity and Occupancy Profile

#### 6.3.6.1 Completed Blocks

As per the rent roll provided by the client, we understand that the completed blocks have an occupancy of 100% as on date of valuation. Further, in order to arrive at the future absorption levels at the Subject Asset, we have analysed the historical demand and supply trends coupled with the estimation of future supply proposed to be introduced in the subject micromarket.

#### 6.3.6.2 Under-Construction/ Proposed Blocks

Based on visual inspection during the site visit and information provided by the client, we understand the Subject Asset is completed and fully operational.

### 6.3.7 Revenue Assumptions (Warehouse + Industrial)

#### 6.3.7.1 Warehouse Component

For the purpose of this valuation exercise, the lease rent adopted for the area already leased is based on the rent roll/lease deeds shared by the client. Further, the Valuer have undertaken an in-depth market research exercise to assess the prevailing rent values in the subject micromarket. The same has been adopted for the vacant space for the purpose of this valuation exercise.

Based on our market study and based on the analysis of the rent roll provided by the Client, following rent has been adopted for the purpose of value assessment of the completed blocks at the Subject Asset. The detailed rent assessment workings are highlighted in the lease rent analysis section presented above.

| Component | Leasable Area (sft) | Chargeable Area (sft) | Leased Area – Chargeable (sft) | Basis | Rent Adopted* (INR psf pm) |
|---|---|---|---|---|---|
| Warehouse | 4,53,711 | 2,73,399 | 2,73,399 | Current Rent for Leased area | 14.6 |
| | | | | Market rent for reversion/ vacant area | 19.0 |

*Source: Lease deed provided by the Client; Valuer's assessment*

The above market rent assumption is adopted for the entire Subject Asset. In addition to undertaking an in-depth market analysis, a detailed analysis of the rent rolls was also undertaken to understand aspects such as area occupied, current rent and expiry analysis of the key tenants in the park.

For the purpose of this valuation exercise, the lease rent adopted for the area already leased is based on the lease deed shared by the client. Further, an in-depth market research exercise has been undertaken to assess the expected economic rental value of the Subject Asset.

Based on our market study, we understand that the contracted rental of the Subject Asset is in line with the expected economic rental values. Hence, we have considered contracted rentals for the purpose of value assessment at the Subject Asset:

#### 6.3.7.2 Non-Warehouse Component

As per the information provided by the client, it is understood that an industrial open space area/ mezzanine area measuring approx. 23,484 sf of which 100% is leased out. The Mezzanine area will operate as ancillary/ (comment on the utility) providing convenience to the tenants in the Subject Asset as well as surrounding development.

The Valuers have undertaken an in-depth market research exercise to assess the prevailing rent values in the subject micromarket and existing leases of Subject Asset. The same has been adopted for the vacant space for the purpose of this valuation exercise. Given the above, we have assumed market rent in the range of INR 5.0 to 6.0 psf pm (say INR 5.5 psf pm) as on date of valuation.

### 6.3.8 Rent Escalation

Based on an analysis of existing lease rolls and recent leasing at the Subject Asset, it was observed that the typical escalation clause in the Subject Asset is approx. 5.0% every year, which is in-line with the trend observed in the market. The same has been adopted for the vacant area and for the renewals at the Subject Asset.

Escalation on renewal - Based on the analysis of terms of lease deed, it was observed that the typical escalation clause in the Subject Asset is 5% per annum, which is in-line with the trend observed in the market. The same has been adopted by the Valuer.

| Particulars | Unit | Details |
|---|---|---|
| Lease Rental Escalations | % p.a. | 5.0% |

*Source: Valuer's assessment*

Market Rent Escalation - Based on the trend observed in the market and based on review of the Industry Assessment report, the valuer has considered a market escalation of 5% per annum effective from the date of valuation. The assumption for market rent for this appraisal exercise is as follows:

| Particulars | Sept 2024 | March 2025 | March 2026 | March 2027 Onwards |
|---|---|---|---|---|
| Market Rent Escalation | 14.2^ | 14.9 | 15.7 | 5% escalation year on year |

*Source: Valuer's assessment; ^Weighted Average Market Rentals*

### 6.3.9 Other Revenues

In addition to lease rent revenues, assets typically have additional sources of revenue. These include revenues on account of security deposit (refunded at the time of lease expiry / exit), other miscellaneous income etc.

The assumptions considered for the aforementioned revenue heads for the purpose of this valuation exercise are based on the rent roll & lease deeds provided by the client. The same has been cross-checked with the prevailing market norms for other revenues and were found to be broadly in line.

The assumptions adopted for other revenues are as tabulated below:

| Nature of Income | Details | Units |
|---|---|---|
| Security Deposit (For vacant spaces) | 6.0 | No. of months' warm shell rental |
| CAM Income (For vacant area and Development component) | 1 | INR per sft per month |
| Other Income (For vacant area and Development component) | 3% | % of total revenue |

*Source: Valuer's assessment*

### 6.3.10 Capital Expenditure

#### 6.3.10.1 Development Cost

Based on visual inspection during the site visit and information provided by the client, we understand that all the blocks construction are completed and fully operational.

#### 6.3.10.2 Major Repair and improvements

As per information provided by the client, we understand that there are no major repairs and improvement proposed in the said asset.

### 6.3.11 Operating Cost

An Asset typically has few recurring operation expenses required for the upkeep running of the development.

In addition to capital expenditure, an asset typically has few recurring operational expenses required for the up-keep and running of the asset. Based on information provided by the client and market assessment, following recurring expense assumptions have been adopted for the purpose of this valuation exercise.

Completed Blocks

| Nature of Expense | Details |
|---|---|
| Asset Management Fee^ | 3.0% of rental income |
| Property Tax* | INR 0.35 Mn |
| Insurance* | INR 0.62 Mn |
| Vacancy Allowance during operations | 1.0% |
| Vacancy Allowance on Exit | 2.5% |
| Refurbishment Reserve | 1.5% of rental income |
| Repair Margin | 0.5% of rental income |

*Source: Client input; Valuer's assessment; *As per the lease terms and the information provided by the Client; ^Asset Management fees has been considered as below the NOI line item.*

### 6.3.12 Other Assumptions

#### 6.3.12.1 Vacancy provision

Based on review of the rent roll provided, we understand that that the completed portion of the Subject Asset is substantially occupied with significantly long lease periods. Considering the same alongside other asset level parameters (location, amenities, grade, infrastructure etc) and market benchmarks, the valuer has adopted a vacancy provision as follows:

| Description | Completed Blocks |
|---|---|
| Vacancy Provision | During Operations – 1.0%<br>Assessment at the time of exit – 2.5% |

*Source: Valuer's assessment*

#### 6.3.12.2 Revenue escalation

Based on prevailing market condition, historical rent growth achieved by the Subject Asset and our interactions with market participants, we are of the opinion that the annual marginal rent growth of 5.0% has been considered for the FY 2024 and year on year thereafter.

#### 6.3.12.3 Rent-free period

Based on the rent roll provided by the client, it is understood that the existing leases have a rent-free period ranging from 0.5 months to 1.5 months from the lease-commencement date. However, based on recent market trends in the subject micromarket, we have considered a rent-free period of 1 months for new-leases and for re-leasing effective from the lease commencement date.

#### 6.3.12.4 Brokerage

Based on prevalent market dynamics, we have considered brokerage equivalent to 0.4 month of rental income for future / new leases

#### 6.3.12.5 CAM Cashflows

CAM Cashflows for the Subject Asset have been assessed both during the holding period and at the time of notional exit. Margin on CAM and CAM Recoveries are included in the financials as per the CAM Charge based on historical performance of the Subject Asset as per the inputs provided by the client and market benchmarks. The same is a pass-through expense.

Based on the subsequent information provided by the client, we understand that the entire maintenance for the facility would be carried out by the tenant (manufacturing company).

## 6.4 Financial Assumptions

### 6.4.1 Exit Capitalization Rate Adopted

The capitalization rate adopted for valuing the assets has been based on factors such as:

- Historical entry yields (going in cap rates) for yield/ core warehousing asset transactions across various key markets in India have steadily shown a downward trend over last 7 - 8 years from 10.0- 12.0% to about 7.0% - 8.5% in last 1-2 years.
- The increased appetite for income producing assets and availability of various modes of finance backing such acquisitions.
- Yields for warehousing assets across various markets in India have a range of 7.5 – 8.5% in Tier I locations, with Tier II locations having cap rate approx. 50 – 100 bps on the higher vis-a-vis the Tier I location.
- Liquidity associated with InvIT listed/ public listings (multiplicity of buyers and relatively lower budgets per buyer)

Based on the above highlighted attributes, the following cap rate has been adopted for the purpose of our valuation:

| Asset Name | SPV/Hold Co | Status of the Asset | Details |
|---|---|---|---|
| TVS Industrial and Logistics Park, | Durgeshwari Industrial & Logistics Parks Private Limited | Completed | 8.0% |

*Source: Valuer's assessment*

### 6.4.2 Discount Rate Adopted

For discounting the cash flows, an appropriate discount rate has been calculated on the basis of estimated 'Weighted Average Cost of Capital' (WACC).

### 6.4.3 Cost of Equity

The Valuer has computed the cost of equity as per the Capital Asset Pricing Model (CAPM), which is derived as follows:

Cost of equity = Risk Free Rate (Rf) + Beta (**β**) * (Market Return (Rm) **–** Risk Free Rate (Rf))

As mentioned above, the cost of equity computed using CAPM constitutes of the following components:

- Risk free rate (Rf) i.e., long term (10-year) treasury bond rate in India
- Market return (Rm) based on the returns of Sensex index for the past 10 years
- Computation of 'Beta (β)' of key listed realty stocks and REITs/ InvITs in India with respect to the Broad-Based BSE 500 stock index

The cost of equity adopted for specific assets has been adjusted for market/ asset specific risk pertaining to a real estate asset such as execution risk (construction status), marketing risk, etc. and adjusted for taxation. While the assumptions regarding the quantum of these risks have no quantitative basis, we have adopted them based on our understanding of the market and our opinion on the asset performance.

### 6.4.4 Cost of Debt

Completed Blocks

The cost of debt for this asset has been considered based on prevalent Lease Rental Discounting (LRD) rates for Grade A warehousing developments across the Chennai micromarkets which are in the range of 8.0% – 9.0% depending upon the location, asset quality, occupancy, etc.

### 6.4.5 Weighted Average Cost of Capital (WACC)

As highlighted earlier, the cost of debt has been assumed based on the prevalent LRD rates and construction financing for under-construction assets, while the cost of equity assumed has been adjusted for asset and market specific attributes to reflect the market expectations from an operational institutional development. Further, the proportion of debt and equity has been derived considering the prevalent LRD tenures and its contribution in the overall asset value.

Completed Blocks

Based on above, the following WACC rate has been assumed for the completed TVS Industrial and Logistics Park, Singadivakkam assets forming part of the InvIT portfolio:

| Asset Name | SPV/Hold Co | Particular | Proportion | Cost | WACC |
|---|---|---|---|---|---|
| Singadivakkam Park | Durgeshwari Industrial & Logistics Parks Private Limited | Debt | 35.0% | 8.0% | 11.58% |
| | | Equity | 65.0% | 13.5% | |

*Source: Valuer's assessment; Please note that the cash flows are assumed to realize evenly during the course of every quarter; hence a mid-quarter discounting convention has been adopted for the purpose of this valuation. Additionally, we have not factored any cash flows attributable to working capital requirement/expenses for valuation as the same is immaterial.*

## 6.5 Value of the Subject Asset

The Valuer is of the opinion that subject to the overriding stipulations contained within the body of this report and to there being no onerous restrictions or unusual encumbrances of which he has no knowledge, the opinion of value of the complete ownership interest in the Subject Asset comprising land and improvements thereon, as explained above, as on 30th September 2024 is as follows:

| Asset Name | Component | Market Value (INR Mn) |
|---|---|---|
| Singadivakkam Park | Operational | 653.0 |
| Total Value of the Asset | | 653.0 |

*Source: Valuer's assessment*

# 7 Exhibits and Addendums

## 7.1 Other Mandatory Disclosures

### 7.1.1 Details of On-going material litigations including tax disputes in relation to the assets

As per our interaction with the client, the client has confirmed that there are no material litigation details pertaining to the asset. Please note that the valuer has not investigated nor has been provided with any supporting documents.

Please refer to the section on litigations in the draft Offer Document for details on material litigations for various assets.

### 7.1.2 Details of options or rights of pre-emption and other encumbrances

As per our interaction with the client and our scope of services, please note that the Valuer has not investigated nor has been provided with any supporting documents.

Please refer to the section on litigations in the draft Offer Document for details on material litigations for various assets

### 7.1.3 Vulnerability to natural or induced hazards that may not have been covered in town planning/ building control.

As per our interaction with the Client, the Client has confirmed that there are no vulnerabilities pertaining to the asset. Please note that the Valuer has not investigated nor has been provided with any supporting documents.

Also, in our professional judgment based on site inspection, there were no visible vulnerabilities.

### 7.1.4 Details of Revenue Pendencies including local authority taxes associated with InvIT asset and compounding.

As per our interaction with the client, the client has confirmed that there is no revenue pendency to the asset. Please note that the valuer has not investigated nor has been provided with any supporting documents.

Please refer to the section on litigations in the draft Offer Document for details on material litigations for various assets.

Our assessment is under the assumption the asset has a clear title and is free from any encumbrances, disputes, claims that would affect the value. This should be verified by an asset lawyer prior to relying on this valuation.

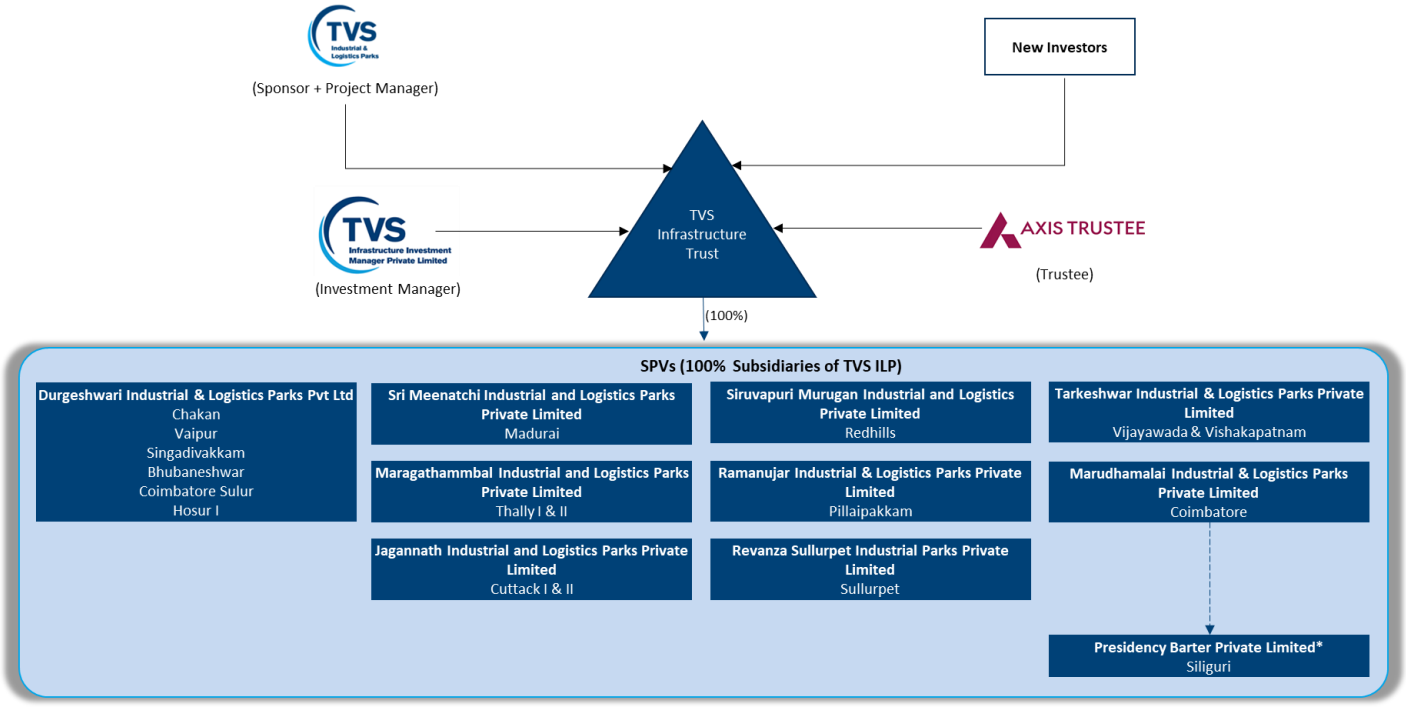
### 7.1.5 Details of the asset including whether the transaction is a related party transaction

The asset is proposed to be acquired from the Sponsor, which is identified as related party under SEBI (InviT) Regulations

### 7.1.6 Nature of the interest the InvIT holds or proposes to hold in the asset, percentage of interest of the InvIT in the asset

As per our interaction with the Client, the Client has confirmed that 100% to be help by the InvIT.

### 7.1.7 Structure of ownership of the asset by the InvIT



*Presidency Barter Private Limited is a 100% subsidiary of Marudhamalai Industrial & Logistics Parks Private Limited

### 7.1.8 Description of key agreements and restrictions relevant to the asset such as terms of concession agreement, power purchase agreements, etc.

As per our interaction with the Client, the Client has confirmed that the same is not applicable to their business.

### 7.1.9 Life of the asset (both contractually and physical life requiring maintenance, replacement and right available to extend this life

| S. No | Particulars | Details |
|---|---|---|
| 1 | Remaining Physical Life of the Building asset requiring maintenance | Remaining period of Building 1 is 23.2 years and Building 2 is 26.5 years |
| 2 | Remaining Contractual Life of underlying Land | Perpetual, since the underlying land is freehold in nature |
| 3 | Right to extend the contractual life of land | Not applicable. The underlying land is freehold in nature |

## 7.2 Site Plan

**"Legal Notice and Disclaimer"**

This valuation report (the "Report") has been prepared by iVAS Partners. ("iVAS") exclusively for TVS Industrial & Logistics Parks Private Limited (the "Instructing Party"), in accordance with the Agreement entered into between iVAS and the Instructing Party dated 1st February 2024 (the "Agreement"). The Report is confidential to the Instructing Party and any other Addressees named herein and the Instructing Party and the Addressees may not disclose the Report unless expressly permitted to do so under the Agreement.

Where iVAS has expressly agreed that persons other than the Instructing Party or the Addressees can rely upon the Report (a "Reliant Party" or "Reliant Parties") then iVAS shall have no greater liability to any Reliant Party than it would have if such party had been named as a joint client under the Agreement.

iVAS's maximum aggregate liability to the Instructing Party and to any Reliant Parties howsoever arising under, in connection with or pursuant to this Report and/or the Agreement together, whether in contract, tort, negligence or otherwise shall be limited as defined under the terms of the Agreement.

iVAS shall not be liable for any indirect, special or consequential loss or damage howsoever caused, whether in contract, tort, negligence or otherwise, arising from or in connection with this Report. Nothing in this Report shall exclude liability which cannot be excluded by law.

If you are neither the Instructing Party, an Addressee nor a Reliant Party then you are viewing this Report on a non-reliance basis and for informational purposes only. You may not rely on the Report for any purpose whatsoever and iVAS shall not be liable for any loss or damage you may suffer (whether direct, indirect or consequential) as a result of unauthorized use of or reliance on this Report. iVAS gives no undertaking to provide any additional information or correct any inaccuracies in the Report.

For the avoidance of doubt, nothing in our Report will constitute any recommendation, investment advice or an offer or solicitation for the purpose of or for sale of any securities, financial instrument or products or other services. Any investors should make their own investment decisions in relation to any investments. If you do not understand this legal notice, then it is recommended that you seek independent legal advice.

# 1 Executive Summary

| | |
|---|---|
| Asset Name: | Hosur Park (the "Subject Asset") |
| Asset Address: | Survey No: 466/1A2,1B2, Thally Road, Mathigiri Village, Hosur Taluk, Krishnagiri District - 635 110 |
| Instructing Party: | TVS Industrial & Logistics Parks Private Limited (the "Client") |
| SPV Name: | Durgeshwari Industrial & Logistics Parks Private Limited |
| Interest Valued: | 100% Freehold Interest |
| Land Area: | As per our review of the sanctioned layout, it is understood that the total underlying land area of the Subject Asset is approx. 29.83 acres. |
| Brief Description: | Based on the review of sanction layout provided by the Client and subsequent site visit, it is understood that the Subject Asset is an operational warehousing facility located along Thally Road, Mathigiri Village, Hosur Taluk, Krishnagiri District. The Subject Asset "TVS Industrial & Logistics Parks, Hosur-Park I" is a warehousing facility. The asset is located along Hosur-Thally Road, a prominent arterial road in the micromarket. By virtue of being located along Hosur-Thally Road and in proximity to Bengaluru – Chennai Highway, the asset enjoys excellent connectivity to major consumption hubs in and around the city. The micromarket is also in close proximity to the manufacturing hubs such as Bommasandra-Jigani, Attibele, Hosur and Bidadi. A few of the prominent warehousing facilities in the micromarket include TVS Industrial & Logistics Parks, Hosur-Park I (Subject Asset), TVS Industrial & Logistics Parks, Hosur-Park II, Avigna Industrial and Logistics Park, Horizon Industrial Parks- Bagur, etc.<br><br>The Subject Asset is located along Hosur-Thally Road, Mathigiri village, an established warehousing micromarket near Hosur. It is located at a distance of approx. 5-6 kms from Hosur Railway Station, approx. 7-8 kms from SIPCOT – Hosur – Phase I, approx. 41-43 kms from MG Road (CBD of Bengaluru), approx. 42-45 kms from Cantonment Railway Station-Bengaluru and approx. 70-73 kms from Kempegowda International Airport |
| Statement of Assets (sft): | Based on review of rent roll, lease deeds and area statement provided by the Client, the Subject Asset has an operational warehousing facility with approximately 0.84 msf of Warehouse/Mezzanine area and approximately 0.15 msf of Parking area with occupancy of 100% as on the date of valuation.<br><br>The area details of the asset are as follows: |

| Blocks | Leasable Area (sft) | Chargeable area (sft) | Parking area (sft) | Built-up area (sft) |
|---|---|---|---|---|
| Hosur – I – Block A – Part A | 1,88,909 (Includes Mezzanine) * | 1,88,909 (Includes Mezzanine) * | - | 3,02,449– Block A |
| Hosur – I – Block A – Part B | 2,61,484 | 2,61,484 | - | |
| Hosur – I – Block B – Part A | 294,167 | 1,61,165 | 23,752 | 3,01,165 – Block B |
| Hosur – I – Block B – Part B | 269,730 | 1,40,000 | 56,000 | |

| | | | | |
|---|---|---|---|---|
| Hosur – I – Block C | 193,756 | 89,830 | 73,020 | 89,830 – Block C |
| Total | 1,208,046 | 8,41,388 | 152,772 | 6,93,444 |

*Source: Architect certificate, Rent roll provided by the Client; (Please note according to the lease agreements provided by the Client, it is understood that the rent is paid on the chargeable area, which has been considered for the valuation exercise)*

Based on visual site inspection and based on subsequent information received from the client, the Valuer understands that the Subject Asset is a fully operational warehousing facility and has no under-construction component. Further, the Valuer also understands that no capital expenditure has been budgeted for the Subject Asset as on date of valuation.

Prepared by:

iVAS Partners
Valuer Registration Number: IBBI/RV-E/02/2020/112

Official Signatory:

Name: Mr. Shubhendu Saha
Designation: Partner, iVAS Partners
Valuer Registration Number: IBBI/RV/05/2019/11552

# 2 Instruction

iVAS Partners ( Valuer Registration Number: IBBI/RV-E/02/2020/112; hereinafter referred as 'Valuer') represented by its partner Mr. Shubhendu Saha, a registered valuer under the Companies Act 2013 with IBBI (Valuer Registration Number: IBBI/RV/05/2019/11552) has been instructed by TVS Industrial & Logistics Parks Private Limited (hereinafter referred as the 'Management', the "Instructing Party", or the "Client") in its capacity as Investment manager of the TVS Industrial & Logistics Parks to estimate upon the Market Value (MV) of an operational Warehousing asset located along Hosur-Thally Road, Mathigiri Village, Hosur Taluk, Krishnagiri District - 635 110

Based on information provided by the Client, we understand that the underlying land parcel of the Subject Asset admeasures approx. 29.83 acres with a total chargeable area of 841,388 sft. Further, as per the details from the Client, the total leasable area is 1,208,046 sft

The details of the Subject Asset under the purview of this valuation exercise are tabulated below:

| Asset Name | SPV/Hold Co | Asset Type | Location | Land area | No. of Blocks | Leasable Area (sft) | Chargeable Area (sft)* |
|---|---|---|---|---|---|---|---|
| TVS Industrial & Logistics Parks | Durgeshwari Industrial & Logistics Parks Private Limited | Warehouse | Hosur-Thally Road | 29.83 | 3 | 1,208,046 | 841,388 sft |

*Source: Client Inputs, *Warehouse and Mezzanine area (excludes parking area)*

*For clarity, we are valuing the Property/ Asset only, not the SPV/Hold Co, which has been provided for reference only*

## 2.1 Purpose

As per our instructions the valuation is required by the Client for a proposed offer of units through private placement (the "Private Placement") as defined under the Securities and Exchange Board of India (Infrastructure Investment Trust) Regulations, 2014, as amended, together with clarifications, guidelines and notifications issued thereunder, on the Indian stock exchanges. In relation to the Private Placement, the Valuation report, a summary thereof and/or extracts of the report are intended to be included in the offer documents filed by the TVS Infrastructure Trust with the Securities and Exchange Board of India (SEBI) and the stock exchanges where the units of the InvIT are proposed to be listed.

## 2.2 Reliant Party

The Reliant Parties to the Valuation report are TVS Infrastructure Trust, TVS Infrastructure Investment Manager Private Limited in its capacity as Investment Manager and TVS Industrial and Logistics Park Private Limited in its capacity as Sponsor for the purpose of the valuation as highlighted in this report.

The valuation has been prepared strictly and only for the use of the parties as stated above (Reliant Parties) and for the Purpose specifically stated. The Client would make all Reliant Parties aware of the terms and conditions of this agreement under which this exercise is being undertaken and take due acknowledgements to the same effect.

## 2.3 Limitation and Disclaimers to Liability

- Valuer is not operating under any financial services license when providing this Summary Report ("Summary Report), or the full Valuation Report ("Valuation Report") and this document does not constitute financial product advice. Investors should consider obtaining independent advice from their financial advisor before making any decision to invest in TVS Infrastructure Trust InvIT.

- This Summary Report and the Valuation Report is strictly limited to the matters contained within these reports, and are not to be read as extending, by implication or otherwise, to any other matter in any Offer/ Draft Placement Memorandum/ Placement Memorandum/ Final Placement Memorandum ("Offer Document"). Valuer does not approve or endorse any part of the Offer Document. Any reference to the Valuer, this Summary Report or the Valuation Report within the Offer Document must be read in conjunction with the full Valuation Report.

- Valuers disclaims any liability to any person in the event of an omission from, or false and misleading statements included in the Offer Document, other than in respect of the information provided within the Valuation Report. Valuers shall not make any warranty or representation as to the accuracy of the information in any part of the Offer Document, other than in respect to the information provided within this Summary Report.

- The liability of the Valuer is limited to the Instructing Party, and any Reliant Party nominated within this report only. No accountability, obligation or liability to any third parties is accepted by the Valuer. Valuer disclaims all liability to any investor.

- No liability is accepted for any loss, harm, cost or damage (including special, consequential or economic harm or loss) suffered as a consequence of fluctuations in the real estate market subsequent to the date of valuation. Valuer shall not be liable for any indirect, special, punitive or consequential loss or damage howsoever caused, whether in contract, tort or otherwise, arising from or in connection with this Valuation Report.

- Valuer accepts no responsibility or liability whatsoever (i) unless full disclosure of all information and matters that may have an impact upon the value and marketability of the asset has been made by the Instructing Party or (ii) for any matter arising out of or in relation to possible environmental site contamination or any failure to comply with environmental legislation which may affect the value of the asset.

- None of our employees, partners or Valuers individually has a contract with the Instructing Party or owes them a duty of care.

- Valuer has prepared this Summary Report and the Valuation Report relying on and referring to information provided by the Instructing Party and/or third parties including financial and market information ("Information"). Valuers have assumed that the Information is accurate, reliable and complete and has not independently verified such Information.

- The Valuation Report draws attention to the key issues and considerations impacting value and provides a detailed assessment and analysis as well as key critical assumptions, general assumptions, disclaimers, limitations and qualifications and recommendations. As commercial investments of this nature are inherently complex and the market conditions have changed and/or have been uncertain in recent times, any references to value within the Offer Document and this Summary Report must be read and considered together with the Valuation Report.

- This Summary Report and the Valuation Report may not be reproduced in whole or in part without the prior written approval of the Valuer.

- This Summary Report and Valuation Report does not purport to contain all the information that a potential investor or any other interested party may require. It does not consider the individual circumstances, financial situation, investment objectives or requirements. It is intended to be used as guide and for information purposes only and does not constitute advice including without any limitation, investment, tax, legal or any other type of advice. The valuations stated are only best estimates and are not to be construed as a guarantee. Potential investors should not rely on any material contained in the Summary Report or Valuation Report as a statement or representation of fact but should satisfy themselves as to its correctness by independent investigation and review of the Valuation Report to understand the assumptions and methodologies stated in the reports.

For the avoidance of doubt, all references to "Offer Document" herein shall include any offer document, final offer document, prospectus and/or any other accompanying documents required under the SEBI (InvIT) Regulations 2014.

## 2.4 Valuer Capability

iVAS Partners, (Valuer Registration Number: IBBI/RV-E/02/2020/112), represented by its partner Mr. Shubhendu Saha (Valuer Registration Number: IBBI/RV/05/2019/11552) delivers independent valuation (across categories viz. land & building and plant & machinery), advisory and technical due diligence services, that combine professional expertise with comprehensive databases, analytics and market intelligence across various asset classes and locations in India.

Mr. Shubhendu Saha is registered as a valuer with the Insolvency and Bankruptcy Board of India (IBBI) for the asset class Land and Building under the provisions of The Companies (Registered Valuers and Valuation) Rules, 2017 since 15 May 2019. He completed his bachelor's in planning from the School of Planning and Architecture, New Delhi in 1997 and master's in Client studies from Motilal Nehru National Institute of Technology, Allahabad in 1999.

## 2.5 Scope of Valuation

The valuation has been undertaken to ascertain the market value of the Subject Asset forming part of the proposed TVS Infrastructure Trust InvIT as of the valuation date. The Valuer has estimated the market value of each individual asset, not the value of the portfolio of Assets, if sold in one transaction. In consideration of the same, a detailed assessment of the site and surroundings has been undertaken with respect to the prevalent activities, change in dynamics impacting the values and the optimal use of the Subject Asset vis-à-vis the surrounding micromarket, etc.

The primary catchment for the Subject Asset(s) has been defined as Hosur warehousing region and the surrounding areas. An in-depth research exercise has been conducted in the catchment area of the Subject Asset to ascertain the prevalent activity levels in terms of residential segment in the vicinity of Subject Asset. This has been achieved through interactions with various market players such as local real estate brokers, developers, end-users, etc. The location, micromarket and catchment area for the Subject Asset is tabulated below:

| Asset Name | SPV/Hold Co | City | Micromarket/ Catchment Area |
|---|---|---|---|
| TVS Industrial & Logistics Parks | Durgeshwari Industrial & Logistics Parks Private Limited/ TVS ILP | Hosur | Hosur-Thally Road |

*Source: Source: Architect certificate, Rent roll provided by the Client; (Please note according to the lease agreements provided by the Client, it is understood that the rent is paid on the chargeable area, which has been considered for the valuation exercise)*

## 2.6 Valuer's Interest

The Valuer certify that; he/they do not have a pecuniary interest, financial or otherwise, that could conflict with the proper valuation of the asset (including the parties with whom our instructing party is dealing, including the lender or selling agent, if any; accepts instructions to value the asset only from the Client.

## 2.7 Qualifications/ Valuation Standards

This valuation is prepared in accordance with the International Valuation Standards (IVS) 2022.

The team involved in this engagement comprises of Valuers registered with IBBI and RICS members with significant experience of valuations in Indian infrastructure and real estate market.

## 2.8 Disclosures

This Valuer hereby certify that:

- iVAS Partners (Valuer Registration Number: IBBI/RV-E/02/2020/112), represented by its partner Mr. Shubhendu Saha (Valuer Registration Number: IBBI/RV/05/2019/11552), is registered as a registered valuer entity under Section 247 of the Companies Act, 2013 and The Companies (Registered Valuers and Valuation) Rules, 2017, as amended, and is eligible to be appointed as Valuer under the provisions of the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014, as amended and that the Valuation report has been prepared in accordance with these InvIT Regulations.
- iVAS Partners (represented by Mr. Shubhendu Saha - Partner, iVAS Partners) is not an associate of TVS Industrial & Logistics Parks Private Limited (the "Sponsor"), TVS Infrastructure Investment Manager Private Limited (the "Investment Manager") and TVS Infrastructure Trust (the "Trust")
- The Valuer, as represented by its partner, Mr. Shubhendu Saha, has the required minimum years of experience in the valuation of infrastructure assets, as required under the SEBI (InvIT) Regulations.
- The Valuer has not been involved with the acquisition or disposal within the last twelve months of any of the asset(ies) valued under this Valuation report.
- The Valuer has adequate and robust internal controls to ensure the integrity of the Valuation reports.
- The Valuer has sufficient key personnel with adequate experience and qualification to perform services related to asset valuation at all times.
- The Valuer has sufficient financial resources to enable them to conduct their business effectively and meet their liabilities.
- The Valuer has acquainted itself with all laws or regulations relevant to such valuation.
- iVAS Partners is not prohibited from acting as a valuer under applicable law.
- The valuation of assets undertaken is impartial, true and fair and in accordance with the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014, regulation 21.

- The Valuer and any of its employees/valuers involved in valuation of the InvIT assets are not invested in and shall not invest in units of the InvIT or in the assets being valued during the time such entity/person is designated as valuer of such InvIT and not less than 6 months after ceasing to be valuer of the InvIT.

- The Valuer has conducted the valuation of the InvIT assets with transparency and fairness and has rendered and shall render, at all times, high standards of service, exercise due diligence, ensure proper care and exercise professional judgement.

- The Valuer has acted with independence, objectivity and impartiality in performing the valuation.

- The Valuer has discharged its duties towards the TVS Infrastructure Trust in an efficient and competent manner, utilizing its knowledge, skills and experience in best possible way to complete the said assignment.

- The Valuer has not and shall not accept remuneration, in any form, for performing a valuation of the InvIT assets from any person or entity other than the TVS Infrastructure Trust or its authorized representatives.

- The Valuer has no present or planned future interest in the Management, Trustee, TVS Infrastructure Trust, the Sponsor to the TVS Infrastructure Trust and its sponsor group or the Special Purpose Vehicles (SPVs), holdcos, investment entity and the fee for this Report and the valuation exercise is not contingent upon the values reported herein. Our valuation analysis should not be construed as investment advice; specifically, we do not express any opinion on the suitability or otherwise of entering into any financial or other transaction with the Management or the SPVs/ holdcos/ investment entity.

- The Valuer shall before accepting any assignment from any related party to the TVS Infrastructure Trust disclose to the TVS Infrastructure Trust, any direct or indirect consideration which the Valuer may have in respect of such assignment

- The Valuer shall disclose to the trustee of the TVS Infrastructure Trust, any pending business transactions, contracts under negotiation and other arrangements with the Management or any other party whom the TVS Infrastructure Trust is contracting with and any other factors which may interfere with the Valuer's ability to give an independent and professional valuation of the asset; as on the date of valuation, there are no impediments for Valuer to give an independent professional value opinion of the asset

- The Valuer has not made false, misleading or exaggerated claims in order to secure assignments.

- The Valuer has not and shall not provide misleading valuation, either by providing incorrect information or by withholding relevant information

- The Valuer has not accepted and shall not accept an assignment that includes reporting of the outcome based on predetermined opinions and conclusions required by the TVS Infrastructure Trust

- The valuer has not accepted the said assignment which interferes with its ability to do fair valuation

- The valuation undertaken by the Valuer abides by International Valuation Standards (effective from 31 January 2022) for valuation in compliance with The Companies (Registration of Valuers and Valuation) Rules, 2017

- The Valuer understands that most of these assets are wholly/partly owned/ tenanted by related parties, hence, any transactions related to these assets from the related parties being valued would be related party transactions.

The Valuer notes that there are encumbrances, however, no options or pre-emptions rights in relation to the assets based on the title report prepared by Cyril Amarchand Mangaldas. (hereinafter collectively referred to as 'Legal Counsels'). The Valuer does not have the expertise or the preview to verify the veracity or quantify these encumbrances, disputes or claims. For the purpose of this valuation, the Valuer has assumed that the respective assets have title deeds that are clear and marketable.

## 2.9 Assumptions, Disclaimers, Limitations & Qualifications to Valuation

| | |
|---|---|
| Valuation Subject to Change: | The subject valuation exercise is based on prevailing market dynamics as on the date of valuation and does not take into account any unforeseeable developments which could impact the same in the future |
| Our Investigations: | The Valuer is not engaged to carry out all possible investigations in relation to the Subject Assets. Where in our report the Valuer identify certain limitations to our investigations, this is to enable the reliant party to instruct further investigations were considered appropriate or where the Valuer recommend as necessary prior to reliance. The Valuer is not liable for any loss occasioned by a decision not to conduct further investigations |
| Assumptions: | Assumptions are a necessary part of undertaking valuations. The Valuer adopts assumptions for the purpose of providing valuation advice because some matters are not capable of accurate calculation or fall outside the scope of our expertise, or our instructions. Assumptions adopted by iVAS Partners has been formulated on the basis that they could reasonably be expected from a professional and experienced valuer. The Reliant Party accepts that the valuation contains certain specific assumptions, and acknowledges and accepts the risk that if any of the assumptions adopted in the valuation are incorrect, then this may have an effect on the valuation |
| Information Supplied by Others: | The valuations are based on the information provided by the Client (TVS Industrial & Logistics Parks). The same has been assumed to be correct and has been used for valuation exercise. Where it is stated in the report that another party has supplied information to the 'Valuer', this information is believed to be reliable, but the Valuer can accept no responsibility if this should prove not to be so.<br>We have assumed that where any information relevant to our valuation is supplied by the Instructing Party, or by any third party at Instructing Party's instigation, it is correct and comprehensive and can be safely relied upon by us in preparing our valuation.<br>We would recommend that before any financial transaction is entered into based on the valuations, you obtain verification of any third-party information provided. We also recommend that you check the validity of the assumptions we have adopted in our report (where we have been unable to verify the facts through our own observations or experience) |
| Matters which affect or may affect the valuation | If the Reliant Party becomes aware of any matters which affect or may affect the valuation, then Valuer must be advised of those matters. The Reliant Party's failure to do so will disentitle the Reliant Party to place reliance on the valuation and reliance must not be placed on the valuation/s under any circumstance |
| Future Matters: | To the extent that the valuation includes any statement as to a future matter, that statement is provided as an estimate and/or opinion based on the information known to the 'Valuer' at the date of this document. The 'Valuer' does not warrant that such statements are accurate or correct |
| Map and Plans: | Any sketch, plan or map in this report is included to assist reader while visualizing the asset and the Valuers assume no responsibility in connection with such matters.<br>Further. all maps and plans quoted in our report are solely for illustration purposes only. While they are extracted from public sources, they may be not to scale. Valuer does not warrant that such dimensions shown are accurate. |
| Site Details: | Based on title search reports and other information provided by the Client, the Valuer understands that the Subject Assets are free from any encroachments and are available as on the date of the valuation |

| | |
|---|---|
| Asset Title: | For the purpose of this valuation exercise, the Valuer has relied on the Title Reports prepared by the Legal Counsels for each of the assets and has made no further enquiries with the relevant local authorities in this regard. The Valuer understands that the Subject Assets may have encumbrances, disputes and claims. The Valuer does not have the expertise or the purview to check the veracity or quantify these encumbrances, disputes or claims. For the purpose of this valuation, the Valuer has assumed that the respective assets have title deeds that are clear and marketable. We recommend that a suitably experienced Lawyer or an equivalent professional review these assumptions and confirm they are reasonable before relying in this report. |
| Environmental Conditions: | In undertaking the valuation exercise we assumed that no contaminative or potentially contaminative use is, or has been, carried out at the property. We did not undertake any investigation into the past or present uses of either the respective assets or any adjoining or nearby land, to establish whether there is any potential for contamination from these uses and assume that none exists. Should it, however, be subsequently established that such contamination exists at the asset or on any adjoining land or that any premises have been or are being put to contaminative use, this may have a detrimental effect on the value reported |
| Town Planning: | The current zoning of the Subject Assets has been adopted on the basis of review of various documents (title deeds & approval documents) provided by the Client and the current land use maps for the micro market. The same has been considered for the purpose of this valuation exercise. Further, it has been assumed that the development on the Subject Assets adheres/ would adhere to the development regulations as prescribed by the relevant authorities. The Valuer has not made any enquiries with the relevant development authorities to validate the legality of the same.<br><br>Our valuations are prepared on the assumption that the premises comply with all relevant statutory enactments and Building Acts and Regulations, that a valid and up-to-date Fire Certificate has been issued. We assume that all necessary consents, licenses and authorizations for the use of the assets and the processes carried out therein have been obtained and will continue to subsist and are not subject to any onerous conditions.<br><br>In the event that a legal requisition or other relevant planning information or document is obtained, and the information therein is found to be materially different to the town planning information in the report, the valuation must not be relied upon before first consulting iVAS Partners to reassess any effect on the valuation/s |
| Area: | The total leasable area considered for the purpose of this valuation exercise is based on the lease deeds provided by the Client. It must be noted that the above information has been provided by the Client and has been verified based on the approvals/ layout plans/building plans provided by the Client. However, the Valuer has not undertaken additional verification and physical measurement for the purpose of this valuation exercise |
| Condition & Repair: | In the absence of any information to the contrary, the Valuer has assumed that there are no abnormal ground conditions, nor archaeological remains present which might adversely affect the current or future occupation, development or value of the asset; the asset is free from rot, infestation, structural or latent defect; no currently known deleterious or hazardous materials or suspect techniques will be used in the construction of or subsequent alterations or additions to the asset and comments made in the asset details do not purport to express an opinion about, or advice upon, the condition of uninspected parts and should not be taken as making an implied representation or statement about such parts |
| Not a Structural Survey: | The Valuer states that this is a Summary of Valuation Reports of Subject Assets and not a structural survey |
| Legal: | Unless specifically disclosed in the report, the Valuer has not made any allowances with respect to any existing or proposed local legislation relating to taxation on realization of the sale value of the Subject Asset.<br><br>We do not read legal documentation. Where legal documentation is provided to us, we will have regard to the matters therein but recommend that reliance should not be placed on our interpretation thereof without prior verification by your legal advisors. Unless disclosed to us, we assume that there are no outstanding statutory breaches or impending litigation in respect of the Subject Assets. We further assume that all documentation is satisfactorily drawn and that unless disclosed to us, there are no unusual or onerous restrictions, easements, covenants or other outgoings which would adversely affect the value of the relevant interest(s). In respect of leasehold assets, we have assumed that the landlord will give any of the necessary consents to an assignment. Unless notified to the contrary we assume that each asset has a good and marketable title and is free from any pending litigation |

| | |
|---|---|
| Others: | Considering the unorganized nature of land and building markets in India, all comparable evidence (if any) provided in the valuation report has been limited to the basic details such as the area of asset, rate at which transacted, broad location, etc. other specific details would be provided only if the information is available in public domain |
| Other Assumptions/Observations: | Please note that all the factual information such as tenants' leasable area, lease details such as lease rent, lease commencement and lease end date, lock – in period, escalation terms, etc. pertaining to the Subject Assets is based on the rent roll provided by the Client and the same has been adopted for the purpose of this valuation exercise. The rent rolls have been cross-checked with copies of the lease deeds on a sample basis as shared with the valuer to verify the authenticity. Any change in the above information will have an impact on the assessed value and in that case the Valuer will have to relook at the assessed value. The relevant information sources are represented in section 5.5.<br><br>All measurements, areas and ages quoted in our report are approximate.<br><br>We are not advisors with respect to legal, tax and regulatory matters for the transaction. No investigation of the respective Special Purpose Vehicles (SPVs) holding the assets' claim to title of assets has been made for the purpose of this Report and the SPVs' claim to such rights have been assumed to be valid. No consideration has been given to liens or encumbrances against the assets. Therefore, no responsibility is assumed for matters of a legal nature.<br><br>Based on review of the lease deeds and rent roll provided by the Client, we understand that the Subject Asset has been entirely let out to a logistics company which is an associate company of TVS Industrial and Logistics Parks. However, based on review of the Industry Assessment Report, it was understood that the in-place rentals in the Subject Asset are in line with the market rental values of Grade-A warehouse facilities in the micromarket.<br><br>Based on our site inspection and based on review of the lease deeds provided by the client, we understand that certain potion of the land area has been let out as "parking area" and the same is part of the chargeable area. The rentals range from approx. 2.63 to 2.75 psf per month of land area.<br><br>Furthermore, based on market research, it was understood that it was not a market norm for developers in the micromarket to charge for parking in addition to the fully-utilized FSI area and that the developer might not be able to monetize the space for upcoming tenants. Hence, the same has been incorporated as a tenant improvement income in the cash flows and has not been capitalized. |
| Flooding risk: | The visual inspection of the Subject Assets did not indicate any significant vulnerability and hence we have assumed that either there is no flooding risk or, if there is, that sufficient flood defenses are in place and that appropriate building insurance could be obtained at a cost that would not materially affect the capital value. |
| Site Conditions: | We do not commission site investigations to determine the suitability of ground conditions and services, nor do we undertake environmental or geotechnical surveys. We have assumed that these aspects are satisfactory and also that the respective sites are clear of underground mineral or other workings, methane gas or other noxious substances.<br><br>In the case of property which may have redevelopment potential, we proceed on the basis that the site has load bearing capacity suitable for the anticipated form of redevelopment without the need for additional and expensive foundations or drainage systems (unless stated otherwise) |
| Hazardous & deleterious materials | Unless otherwise noted, we have assumed that the improvements are free of Asbestos and Hazardous Materials, or should these materials be present then they do not pose significant risk to human health, nor require immediate removal. We assume the site is free of subsoil asbestos and have made no allowance in our valuation for site remediation works.<br><br>Our visual inspection is an inconclusive indicator of the actual condition/presence of asbestos/hazardous materials within the property. We make no representation as to the actual status of the Subject Assets. If a test is undertaken at some time in the future to assess the degree, if any, of the presence of any asbestos/hazardous materials on site and this is found to be positive, this valuation must not be relied upon before first consulting iVAS Partners to reassess any effect on the valuation.<br><br>Unless specifically instructed, we do not carry out investigations to ascertain whether any building has been constructed or altered using deleterious materials or methods. Unless specifically notified, our valuation assumes that no such materials or methods have been used |
| Unregistered interests | We have assumed that there are no unregistered interests or interests not captured by the applicable Regulatory Authority in the country where services are to be carried out, which may affect the market value. In the event that the Reliant Party(ies) becomes aware of any further or pending easements, encumbrances or |

| | |
|---|---|
| | unregistered interests, this valuation must not be relied upon before first consulting iVAS Partners in writing to reassess any effect on the valuation |
| Heightened Market Volatility: | We draw your attention to current heightened geopolitical tensions, low economic growth in many major countries, and a "higher for longer" interest rate sentiment which have increased the potential for constrained credit markets, negative capital value movements and continued volatility in some property markets over the short-to-medium term.<br>Experience has shown that consumer and investor behavior can quickly change during periods of such heightened volatility. Lending or investment decisions should reflect any heightened level of volatility and potential for changing market conditions. Lending and investment caution is advised in this regard.<br>It is important to note that the conclusions set out in this report are valid as at the valuation date only. Where appropriate, we recommend that the valuation is closely monitored, as we continue to track how markets respond to evolving events. |
| Construction Cost Volatility: | Although general increases in material costs have stabilized since 2022, some specialized supply chains and construction-related labor costs remain volatile with the potential for further increases. This has created uncertainty in cost estimates, which is likely to continue.<br>In addition, there are significant risks that delays may be encountered in sourcing specialized materials and labor, and as such, the potential for ongoing cost escalations and delays is high. This may place additional pressure on developer and contractor profit margins and development viability.<br>These inherent risks should therefore be given careful consideration in lending and investment decisions. Caution is advised in this regard. |

# 3 Bengaluru – Market Structure and Conditions

## 3.1 Information

For the purpose of the valuation exercise, reliance has been made on the deliverables of CBRE South Asia Private Limited, an independent agency appointed by TVS to undertake market research, provide market commentary, and data as a part of a report (the "Industry Assessment Report") for the purpose of this assignment.

## 3.2 Demand and Supply

### 3.2.1 Demand and Supply Trends – Bengaluru and Micromarket

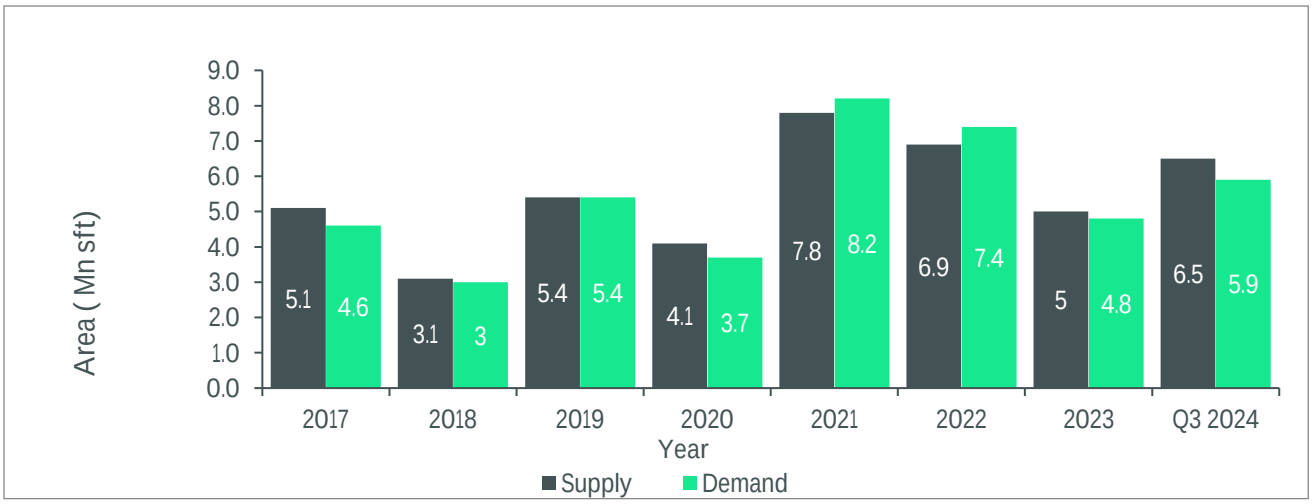
Bommasandra-Hosur micromarket is located along. NH-44 which connects Bengaluru to other Northern states and to Tamil Nadu via Hosur. It has easy accessibility to consumption hubs of Bengaluru via NH-44, NICE Road and SH-87. Total completed stock in Bengaluru as of Q3, CY 2024 is 66.5 msf, out of which Bommasandra-Hosur micromarket accounts for Approx. 22.8%.

| Description | Bengaluru | Bommasandra-Hosur |
|---|---|---|
| Cumulative completed Warehouse stock (Q3 2024) | Approx 66.5 msf | Approx. 15.2 msf |
| Cumulative occupied stock (Q3 2024) | Approx 62.1 msf | Approx. 14.5 msf |
| Current vacancy (Q3 2024) | 6.5 – 7.0 % | 4 - 5 % |
| Future supply (2024-2025) | 12.2 to 12.8 | 2.7 to 2.8 msf |

*Source: Industry Assessment Report dated December 31, 2024*

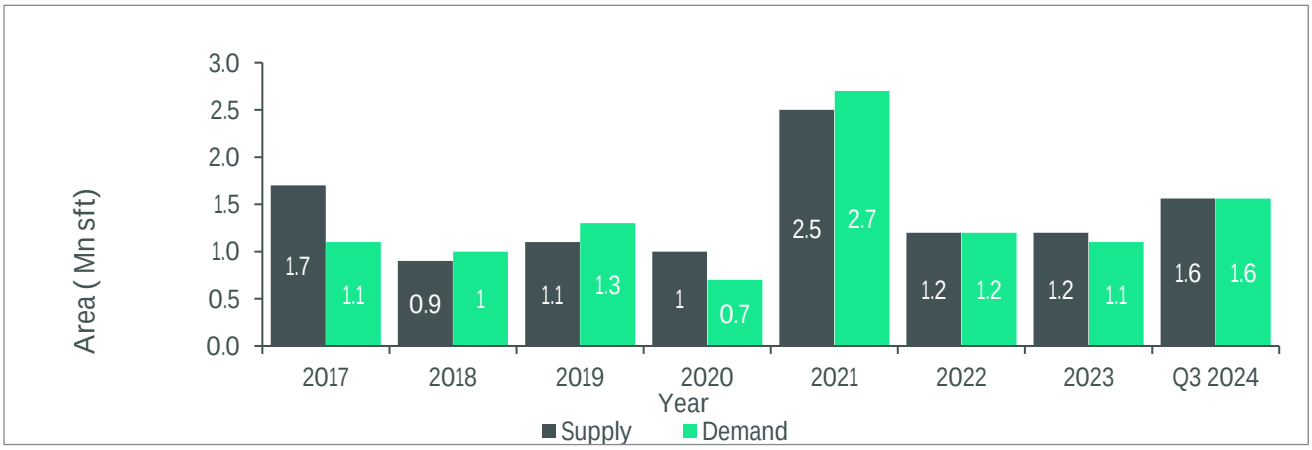
The micro market constitutes a share of nearly 84% of the total completed supply of southern micromarket of Bengaluru. The region predominantly consists of Grade-A warehousing spaces with Grade A spaces accounting for approx. 57% of the total stock of the micromarket followed by Grade-B spaces at approx. 37%. Prominent Grade A developments in the micromarket were observed to be from institutional players such as TVS ILP, Avigna Group, Horizon Industrial Group, Indospace etc. Third Party Logistics, E-Commerce, FMCG, Consumer Durables, Manufacturing Apparel & Retail are key industry sectors predominantly occupying grade A supply in the micromarket with tenants such as Flipkart, Amazon, DHL, TVS Supply Chain, Udaan, Aditya Birla, PUMA, Wakefit, Schaeffler, Ather, MPlastics, etc.

Demand – Supply Dynamics of City: Bengaluru



*Source: I Industry Assessment Report as of Q3 2024*

Demand – Supply Dynamics of micromarket: Bommasandra – Hosur micromarket



*Source: Industry Assessment Report as of Q3 2024*

We have perused the information regarding the demand and supply of leased industrial and warehousing spaces within the subject micromarket, as included in the Industry Assessment Report. Bommasandra-Hosur is a key warehousing vector in Bengaluru situated along N4-44 in the southern periphery of Bengaluru, it serves as a hub for commerce between Bengaluru and Hosur-Chennai. Accessible via NH-44 SH-87, and NICE Road, it provides exceptional connectivity and convenient proximity to the city's consumption and distribution centres. In addition, the region accounts for approximately 22.8% of Bengaluru's (2nd largest warehousing market) total completed inventory. The region witnessed a total supply of approx. 15.2 mn sft, with, 95-96% absorption. The region is primarily characterised by Grade A and Grade B developments, with a share of 57% and 37% of the total stock, respectively, Prominent Grade A developments encompass TVS Industrial & Logistics, RKV Logistics, Horizon Industrial Parks, Avigna Warehousing Parks, and more. The availability of large land parcels with moderate land values in comparison to other micromarkets, as well as proximity to manufacturing and consumption hubs, are the primary drivers of warehousing activity in the region.

The region witnessed an average annual absorption of approx. 1.3 to 1.4 Mn sft of warehousing space over the last 6-7 years, and the average annual supply is in the range of 1.3 to 1.4 mn sft between 2017 and 2023.

Limited vacancies (2-3%) were witnessed in Grade A developments on account of growing demand for quality warehouse space with superior accessibility and connectivity to the city The asking rentals for Grade A warehousing facilities in this micromarket have been observed to be in the range of INR 20-24 per sft. 3PL e-commerce FMCG, FMCD, manufacturing, and apparel are key industry sectors in this micro market. Key occupiers in this micromarket are Amazon, Flipkart, DHL TVS Supply Chain. Stellar Value Chain, Aditya Birla, PUMA, Wakefit, Big Basket, Ather, and MPlastics, amongst others.

#### 3.2.1.1 Key Developments in the micromarket

The table below highlights the prominent developments in the subject micromarket:

| Building Name | Year of Establishment | Leasable Area (sft) | Average Lease Rental (INR per sft pm) |
|---|---|---|---|
| Horizon Industrial and Warehousing Park | 2022 | 5,95,882 | 20.5– 21.5 |
| Avigna Industrial & Logistics Park -Phase 1 | 2021 | 10,11,434 | 22.0 – 23.0 |
| Avigna Industrial & Logistics Park -Phase 2 | 2022 | 6,60,000 | 22.0 – 23.0 |
| RKV Logistics Park | 2017 | 14,70,000 | 23.0 – 24.0 |
| SS Developers - Logistics Park | 2016 | 9,20,000 | 23.0 – 24.0 |

*Source: Industry Assessment Report*

#### 3.2.1.2 Future Supply

Based on review of the Industry Assessment Report, we understand that the micromarket of Bommasandra-Hosur has an upcoming supply of approx. 3.3 to 3.4 Mn sft. The details of the same are as below:

| Building Name | Year of Completion | Status* | Location | Leasable Area (sft) |
|---|---|---|---|---|
| Horizon industrial parks | 2024 -25 | Under-Construction | Hosur - Krishnagiri Road (Shoolagiri) | 5,50,000 |
| All Cargo Logistics | 2025 | Planned | Hosur | 1,00,000 |
| Avigna Group | 2024 -25 | Under-Construction | Mathigiri, Hosur - Denkanikottai Rd | 5,00,000 |
| Avigna Group | 2025 - 2028 | Planned | Kelamangala, Hosur | 15,00,000 |
| Individual Owner | 2024 | Under-Construction | Attibele on NH-44 | 3,00,000 |

*Source: Industry Report, * UC – Under Construction*

### 3.2.2 Market Rent

The table below highlights the recent lease transactions in the micromarket:

| Date of Transaction | Chargeable Area (sft) | Nature | Name of the Building (Location) | Total Rent (INR per sft per month) | Description |
|---|---|---|---|---|---|
| Q2 2024 | 1,00,000 | Manufacturing | Hosur - Denkanikottai Rd | 22 | Base Rental |
| Q2 2024 | 2,00,000 | Automobile | Hosur - Denkanikottai Rd | 22 | Base Rental |
| Q1 2024 | 1,50,000 | Logistics/3PL | Anekal - Thally Road | 24 | Base Rental |
| Q1 2024 | 2,80,000 | Automobile | Hosur - Shoolagiri Road | 21 | Base Rental |
| Q4 2023 | 87,493 | FMCG | Shoolagiri, Hosur Road | 21 | Base Rental |
| Q4 2023 | 30,000 | Electronics & Electricals | Denkanikottai - Shoolagiri Road, Hosur | 19 | Base Rental |
| Q4 2023 | 50,000 | Manufacturing | Denkanikottai - Shoolagiri Road, Hosur | 19 | Base Rental |
| Q4 2023 | 21,000 | Third Party Logistics | Anekal - Attibele Road | 21 | Base Rental |
| Q4 2023 | 32,000 | Engineering & manufacturing | Jigani Industrial Area | 21 | Base Rental |
| Q4 2023 | 30,000 | Auto | Jigani Anekal Road | 18 | Base Rental |
| Q4 2023 | 1,30,000 | Third Party Logistics | Anekal - Attibele Road | 23 | Base Rental |
| Q4 2023 | 1,50,000 | Manufacturing | Hosur - Denkanikottai Rd | 24 | TI |
| Q4 2023 | 1,10,000 | Manufacturing | Hosur - Denkanikottai Rd | 20 | Base Rental |
| Q4 2023 | 60,000 | Third Party Logistics | Thally Road | 21 | Base Rental |

*Source: Industry Assessment Report as of Q3 2024*

As can be observed from the table above and based on our interactions with other market players, the rentals in and around the Subject Asset were observed to range between INR 22 - 24 /sft/month (base rentals). The variance across rentals is primarily due to factors such as location, accessibility, overall tenant mix, quantum of vacant stock in the development, specifications of the block, park level infrastructure, additional improvements, etc.

## 3.3 Market Outlook

The southeast region (Hosur Road) of Bengaluru city is home to several industrial areas, including Attibele Industrial Area, Jigani-Bommasandra Industrial Area, Hosur SIPCOT (Phase 1 & 10, and others, which have contributed to the development of warehouses in the area. Attibele (221 acres), Bommasandra (950 acres) and Jigani (54) acres) Industrial areas are under Karnataka jurisdiction (developed by KIADB) and are fully occupied the major industry Types present in these industrial areas include pharmaceuticals, engineering, metals and electronics, auto parts, garments, and so on. Hosur Industrial Complex Phases I and II fall under Tamil Nadu Jurisdiction developed by SIPCOT) and comprises of 1581 acres of completely occupied industrial land with major industry types such as automobiles, engineering, EV, etc. (Major industries in the Hosur region include Ashok Leyland, TVS Motors, Titan Industries, Taneja Aerospace and Aviation, TTK Prestige Carborundum Universal, TVS Motors, among other.

Recent industrial areas (2022) include Shoolagiri Industrial Park (700 acres) which is currently under construction, with around 23% of the land already assigned to industrial users, and a greater emphasis on the EV industry.

SIPCOT is also in the process of acquiring approx. 2,000 acres for industrial area development, indicating a significant potential for industrial activity in the region.

The Subject Asset is located in proximity to the aforementioned industrial areas and are well connected to Bengaluru city. Because of its presence in Tamil Nadu (qualifying for favourable industrial incentives) and proximity to the Hosur Industrial Hub, the subject site has the potential to attract manufacturing or industrial tenants, potential interest is expected from light industry sectors.

Due to the availability of land and the expansion of industrial activity, warehousing activity has increased significantly in the Hosur-Shoolagiri, Hosur-Thally, Hosur-Mathigiri, and Kelamangalam regions, in particular. The expansion of warehousing operations in the area can be attributed to its ideal connectivity to consumption centres via NH 44 and NICE Road, as well as its proximity to the production hubs of Jigani, Bommasandra, and Hosur Industrial Areas.

# 4 Subject Asset – TVS ILP Hosur -I

## 4.1 Asset Description

Based on the review of sanctioned layout shared by the Client and subsequent site visit, it is understood that the Subject Asset is an operational warehousing facility located along Thally Road, Mathigiri Village, Hosur Taluk, Krishnagiri District.

Based on the information provided by the Client viz. sanction plan, lease deeds, rent roll etc, it is understood that the Subject Asset is warehousing facility with land area admeasuring approx. 29.83 acres with a total warehouse area admeasuring approx. 841,388 sft along with total parking area admeasuring approx. 152,772 sft. Based on review of the sanction plan provided and based on our subsequent site visit, it is understood that the Subject Asset comprises of three boxes/phases. According to the information shared by the Client, we understand that Block A started operations on Feb 2018, Block B in Dec 2018 and Block C in Dec 2018. The Subject Asset is understood to have a floor strength of 5 MT/sqm and has floor finishing of high-performance concrete flooring of FM2 Concrete type. The eave height for all boxes was observed to be 12m along with a lighting (lux level) of 200 lux.

Further, based on the site inspection conducted and as per the information received from the Client, we understand that the Subject Asset has a site office which includes an administrative office for day-to-day operations. The Hosur facility also has a fire safety system with one jockey pump, one main electrical pump, and one diesel engine pump, all supported by a fire water sump. The facility is equipped with yard hydrants, automatic sprinkler system and an automatic Fire Detection and Fire alarm system.

The Subject Asset was observed to be entirely occupied by a multinational transportation and logistics company. The WALE of the asset was observed to approx. 3.6 years

| Brief Description | |
|---|---|
| Particulars | Details |
| Asset Name | TVS Industrial & Logistics Parks, Hosur I |
| Address | Survey No: 466/1A2,1B2, Thally Road, Mathigiri Village, Hosur Taluk, Krishnagiri District - 635 110 |
| Land Area | Based on review of the sale deeds and sanction plan provided by the Client, the Valuer understands that the total land area of the Subject Asset is approx. 29.83 acres |
| Leasable Area | 9,941,60 sft (Warehouse and Mezzanine area - 8,41,388 sft, Parking area – 152,772 sft) |

*Source: Architect certificate, Rent roll provided by the Client; (Please note according to the lease agreements provided by the Client, it is understood that the rent is paid on the chargeable area, which has been considered for the valuation exercise)*

### 4.1.1 Site Details

Situation: Subject Asset – 'TVS Industrial & Logistics Parks, Hosur - I' is an operational warehousing facility, located on Survey No: 466/1A2,1B2, Thally Road, Mathigiri Village, Hosur Taluk, Krishnagiri District - 635 110

Location:

Bommasandra-Hosur micromarket is located along. NH-44 which connects Bengaluru to other Northern states and to Tamil Nadu via Hosur. It has easy accessibility to consumption hubs of Bengaluru via NH-44, NICE Road and SH-87.

The micromarket constitutes a share of nearly 83% of the total completed supply of southern micromarket of Bengaluru. The region predominantly consists of Grade-A warehousing spaces with Grade A spaces accounting for approx. 57% of the total stock of the micromarket followed by Grade-B spaces at approx. 37%. Prominent Grade A facilities in the micromarket were observed to be from institutional players such as TVS ILP, Avigna Group, Horizon Industrial Group, Indospace etc. Third Party Logistics, E-Commerce, FMCG, Consumer Durables, Manufacturing Apparel & Retail are key industry sectors predominantly occupying grade A supply in the micromarket with tenants such as Flipkart, Amazon, DHL, TVS Supply Chain, Udaan, Aditya Birla, PUMA, Wakefit, Schaeffler, Ather, MPlastics etc

The distances from key hubs to the Subject Asset are presented in the table below:

| Landmark | Distance (Km) |
|---|---|
| Hosur Railway Station | 05 – 06 |
| SIPCOT – Hosur – Phase I | 07 – 08 |
| MG Road (CBD of Bengaluru) | 41 – 43 |
| Cantonment Railway Station- Bengaluru | 42 – 45 |
| Kempegowda International Airport | 70 – 73 |

*Source: Valuer's research*

Catchment Analysis:

The primary catchment for the purpose of this valuation has been defined as Hosur-Thally Road and its adjoining micromarkets which are predominantly characterized by industrial/warehousing facilities. The southeast region (Hosur Road) of Bengaluru city is home to several industrial areas, including Attibele Industrial Area, Jigani-Bommasandra Industrial Area, Hosur SIPCOT (Phase 1 & 10, and others, which have contributed to the development of warehouses in the area. Attibele (221 acres), Bommasandra (950 acres) and Jigani (54) acres) Industrial areas are under Karnataka jurisdiction (developed by KIADB) and are fully occupied. Hosur Industrial Complex Phases I and II fall under Tamil Nadu Jurisdiction developed by SIPCOT) and comprises of 1581 acres of completely occupied industrial land with major industry types such as automobiles, engineering, EV, etc. SIPCOT is also in the process of acquiring approx. 2,000 acres for industrial area development, indicating a significant potential for industrial activity in the region.

Surrounds:

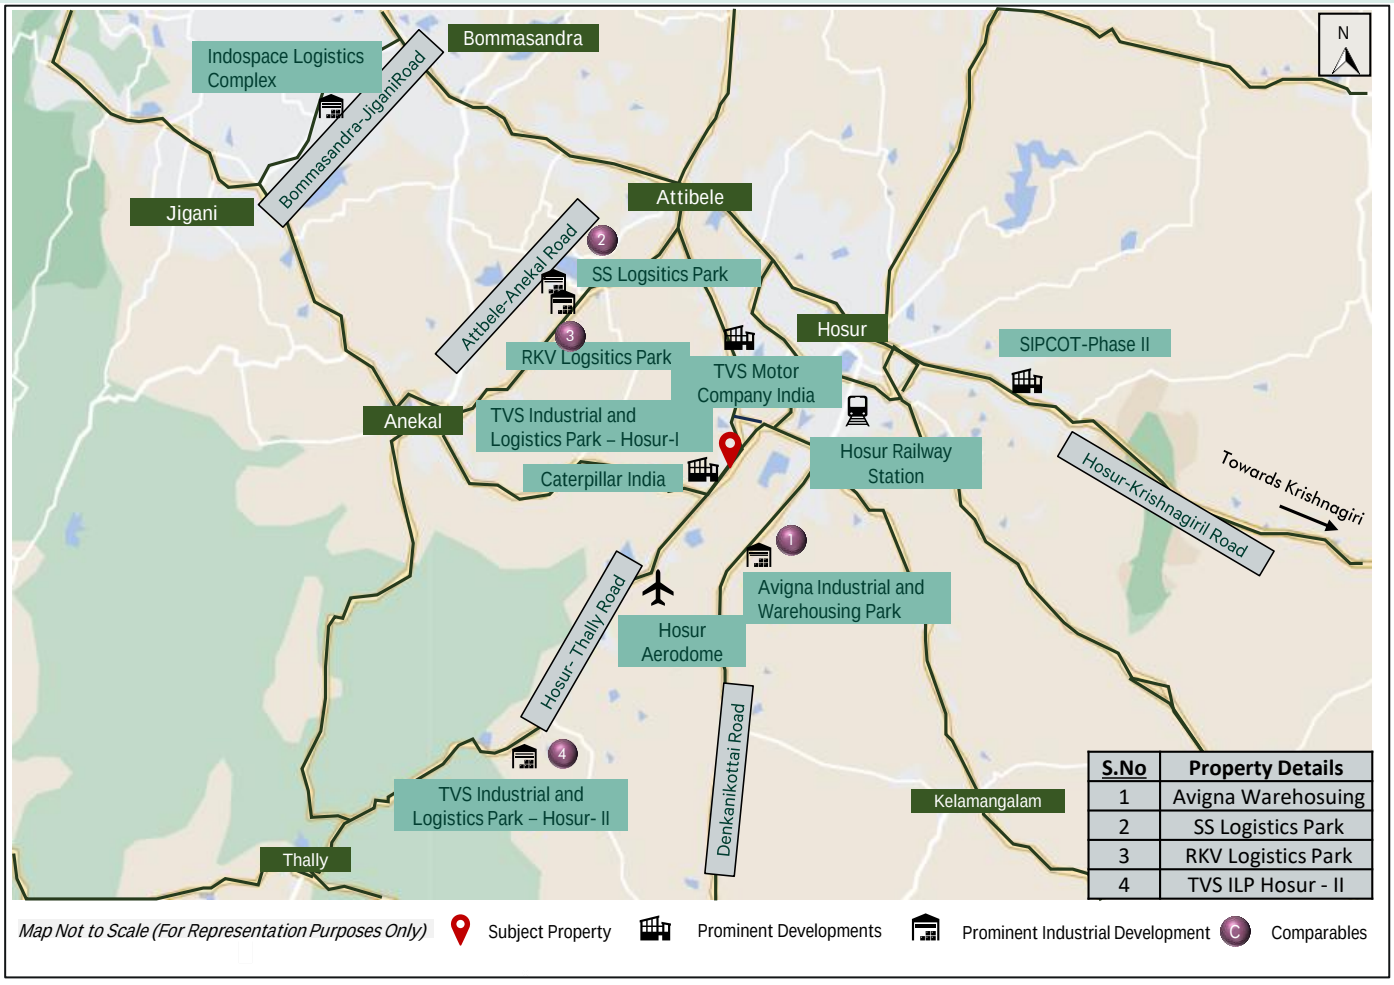
The Subject Asset is surrounded as follows:

- North: Private Asset
- South: Private Asset
- East: Hosur-Thally Road
- West: Private Asset.

| | |
|---|---|
| Potential changes in surroundings: | Based on Valuer's research. It is understood that four-laning works of critical two-lane roads are underway in Hosur under the Chief Minister's Road Development Programme. Road works at approx. INR 860 Mn are being undertaken in Mathigiri and Poonapalli as part of the infrastructure development of the block. The works are planned in stretches from Poonapalli to Velankanni school on Hosur-Thally road. Storm water drains, construction of culverts etc were other works planned alongside the road-widening. The works are also planned from Mathigiri to TVS Industries. These are expected to improve connectivity of the subject market to other major arterial roads and consumption centres. |
| Suitability of existing use: | Considering the location and profile of surrounding developments coupled with site specific parameters, we are of the opinion that Subject Asset is suited for its current usage. |

The following map indicates the location of the Subject Asset and surrounding warehousing facilities

Location Map for the Subject Asset



*Source: Valuers' research*

| | |
|---|---|
| Shape: | Based on the site plan provided by the Client and visual inspection during the site visit, it is understood that the underlying land is regular in shape. |
| Topography: | Based on the site plan and as corroborated with our site visit, the site appears to be even and on the same level as abutting access roads and adjoining assets. |

| | |
|---|---|
| Frontage: | Based on review of site plan and visual inspection, we understand that the Subject Asset has adequate frontage along the primary access road. |
| Accessibility: | Based on the site plan provided by the Client and visual inspection, the primary access to the Subject Asset is via the 60-feet wide Hosur- Thally Road. By virtue of the same the asset enjoys excellent accessibility and frontage.<br>Please refer Section 7.0 Exhibit & Addendums for the site plan of the Subject Asset. |

### 4.1.2 Review of sale deed or Lease agreement

As per the sale deed, we understand that the exact address of the Subject Asset is Survey Nos, 477/2, 477/3, 479/1 (part), 479/2 (part), 478/1 (part), 478/3 (part), 475/1D(part), 467/1IC (part), 467/ID (part), 466/2A, 466/2B, 466/1D, 466/1C (part) situated at Mathigiri Village, Hosur Taluk, Krishnagiri District, Tamil Nadu - 635 110.

Additionally, it is understood that the Subject Asset is owned by Durgeshwari Industrial & Logistics Parks Private Limited and is freehold in nature.

### 4.1.3 Title Details

This valuation exercise is based on the premise that the Subject Asset has a clear title and is free from any encumbrances, disputes, claims, etc. For the purpose of this valuation exercise, the Valuer has relied on the Title Reports prepared by the Legal Counsels for each of the assets and has made no further enquiries with the relevant local authorities in this regard. The Valuer understands that the Subject Assets may have encumbrances, disputes and claims. The Valuer does not have the expertise or the purview to check the veracity or quantify these encumbrances, disputes or claims. For the purpose of this valuation, the Valuer has assumed that the respective assets have title deeds that are clear and marketable. We recommend that a suitably experienced Lawyer or an equivalent professional review these assumptions and confirm they are reasonable before relying in this report.

### 4.1.4 Town Planning

| | |
|---|---|
| Zoning | As per the review of the Land Use Classification certificate provided by the Client and based on review of the sanction plan, we understand that the Subject Asset is approved for "Industrial" Use. The same has been considered for the purpose of this valuation. Valuer has made no further inquiries with the local authorities in this regard. For the purpose of this exercise, it has been assumed that all developments (existing / under construction / proposed) adhere to building regulations as prescribed by the relevant authorities. Valuer has not validated the information provided by the Client with the relevant development authorities. |
| Approved Usage: | Based on review of sanction plan issued by DTCP authority and visual inspection during our site visit, the Subject Asset is a completed and operational warehousing facility. The current use of the Subject Asset is broadly in agreement with the rules and regulations as prescribed by the local development authority. However, Valuer has not made any enquiries with the relevant local authorities to validate the same for its specific applicability to the Subject Asset. |

| | |
|---|---|
| Restrictions: | As per feedback received from the Client, there are no restrictions on the current use of the asset. |
| Natural or induced hazards: | For the purpose of assessing the vulnerability of the Subject Asset to any natural or induced disaster the location of the property with respect to risks pertaining to earthquakes, high winds/cyclone and flooding was studied. Mathigiri Village, where the Subject Asset is located falls in Seismic Zone- II (Least Active) with low risk. Further, based on review of the topographic map of the subject region, it was understood that the subject region falls in a high-lying area due to which the Subject Asset has a low risk of flooding. The city faces low risk in terms of high winds or cyclones too. No hazardous activity was noted in the vicinity of the Subject Asset which may expose it for any induced disaster |
| Approvals: | As per the documents provided by the Client, we understand that the approvals (mentioned in section 4.1.5.1) for the asset have been obtained. Please refer annexures for the details.<br><br>For the purpose of this exercise, it has been assumed that all developments adhere to building regulations as prescribed by the relevant authorities. Valuers have not validated the information provided by the Client with the relevant development authorities |

### 4.1.5 Statutory Approvals, Sanctions & Approvals

#### 4.1.5.1 Statutory Approvals received and to be received

As per the review of documents provided by the Client, we understand that all requisite approvals have been received for the Subject Asset. The table below highlights the status of approvals for the Subject Asset:

| Approval/NOC | Status (Applied / Received) | Authority | Date of Issue (DD-MM-YY) |
|---|---|---|---|
| Fire NOC - Renewal | Received | Tamil Nadu Fire and Rescue services department | 22-04-2024 |
| Ground Water Abstraction NOC | Received | Water Resource Department – Government of Tamil Nadu | 11.08.2023<br>Valid till 15-07-2026 |
| Municipal approval under Section 49 of Town and Country Planning Act, 1971 | Received | Commissioner, Hosur Municipal Corporation | 24-04-2024 |
| No objection certificate for approach road | Received | Assistant Divisional Engineer, Highways, Hosur | 04-07-2018 |
| Land Use Conversion – 20.10 acres | Received | Directorate of Town and Country Planning | 12-12-2017 |
| Land Conversion – 11 acres | Received | | 07-02-2018 |
| Sanction Plan | Received | Directorate of Town and Country Planning | 14-03-2023 |
| Building Permit-Additional | Received | Directorate of Town and Country Planning | 17-06-2023 |
| CEIG Safety Certificate | Received | Electrical Inspectorate – Government of Tamil Nadu | 08-07-2021 |
| Structural Stability Certificate | Received | NA | NA |
| Consent to Operate - Air | Received | Tamil Nadu Pollution Control Board | 28-11-2022<br>Valid till 31-03-2026 |
| Consent to Operate - Water | Received | Tamil Nadu Pollution Control Board | 28-11-2022<br>Valid till 31-03-2026 |

*Source: Approval documents provided by the Client*

### 4.1.5.2 List of up to date/overdue periodic clearances

As per our review of documents & information received from the Client and our subsequent discussion with the Client, it is understood there are no overdue clearances. Please refer to section 7.0 for further details.

### 4.1.6 Area Details, Type and Age of Existing Structures

The table below highlights the age of the completed blocks of the Subject Asset:

| Block | Year of Completion | Age of structures (in years) | Approved Developable Area (sft)* | Completed Area (sft) | Leased Area (sft) |
|---|---|---|---|---|---|
| Block A | Feb 2018 | 6 | 3,02,449 | 3,02,449 | 4,50,393 (Includes Mezzanine area) |
| Block B | Dec 2018 | 5.25 | 3,01,165 | 3,01,165 | 3,80,917 (Includes Parking Area) |
| Block C | Dec 2018 | 5.25 | 89,830 | 89,830 | 1,62,850 (Includes Parking Area) |

*Source: Sanction Plan and Rent Roll*

The table below highlights the area details of the Subject Asset:

| Blocks | Leasable area (sft) | Built-up area (sft) | Structure Type |
|---|---|---|---|
| Hosur – I – Block A – Part A | 1,88,909 (Includes Mezzanine) * | 3,02,449 | Warehouse/ Mezzanine |
| Hosur – I – Block A – Part B | 2,61,484 | | Warehouse |
| Hosur – I – Block B – Part A | 1,61,165 | 3,01,165 | Warehouse |
| Hosur – I – Block B – Part A (Parking) | 23,752 | | Parking Area |
| Hosur – I – Block B – Part B | 1,40,000 | | Warehouse |
| Hosur – I – Block B – Part B Parking) | 56,000 | | Parking Area |
| Hosur – I – Block C | 89,830 | 89,830 | Warehouse |
| Hosur – I – Block C (Parking) | 73,020 | | Parking Area |
| | 9,941,60^ | 6,93,444 | |

| Ridge height | 15 m | NA | NA |

*Source: Information provided by the Client, Site visit*

### 4.1.8 Condition & Repair

Based on information provided by the Client and corroborated with our visual inspection during the site visit, it is understood that the Subject Asset is in good condition and is maintained well. Further, we understand that there is no capex planned towards major repair/refurbishment works in the Subject Asset.

### 4.1.9 Asset Photographs

Please refer to the asset photographs highlighted below:

TVS Industrial & Logistics Parks, Hosur - I

View of the Subject Asset

View of the entrance

View of the access road

### 4.1.10 Details of the asset including whether the transaction is a related party transaction

Based on review of the lease deeds and rent roll provided by the Client, we understand that the Subject Asset has been entirely let out toa transportation and logistics company. However, based on review of the Industry Assessment Report, it was understood that the in-place rentals in the Subject Asset are in line with the market rental for Grade-A warehousing facilities in the micromarket.

The asset is proposed to be acquired from the Sponsor, which is identified as related party under SEBI (InVIT) Regulations

4.1.11 Nature of the interest the InvIT holds or proposes to hold in the asset, percentage of interest of the InvIT in the asset

Please refer to the Annexure section 7.1

4.1.12 Structure of ownership of the asset by the InvIT

Please refer to the Annexure section 7.1

4.1.13 Description of key agreements and restrictions relevant to the asset such as terms of concession agreement, power purchase agreements, etc.

Please refer to the Annexure section 7.1

4.1.14 Life of the asset (both contractually and physical life requiring maintenance, replacement and right available to extend this life

Please refer to the Annexure section 7.1

4.1.15 Valuation of the asset in the previous 3 years

As of the date of this valuation report, the Subject Asset is not part of the Infrastructure Investment Trust (InVIT)

# 5 Valuation Approach & Methodology

## 5.1 Scope of Valuation

The valuation exercise is to assess the Market Value (MV) of the Subject Assets for the purpose of the offer of units through Private Placement of TVS Infrastructure Trust under the SEBI (Infrastructure Investment Trust) Regulations, 2014, as amended. The valuations have been conducted in accordance with the IVSC International Valuation Standards, (effective 31 January 2022) and in accordance with the requirements of the SEBI (Infrastructure Investment Trust) Regulations, 2014, as amended from time to time.

This Valuer has assessed the Market Value of each individual Subject Asset, not the value of the portfolio, if all Assets were sold in one transaction. Where a summation of the individual Assets is provided, this is purely for reference only and should not be construed as the value of the portfolio. Kindly refer to the summary report section 1.0 for list of Subject Assets forming part of the portfolio.

## 5.2 Basis of Valuation

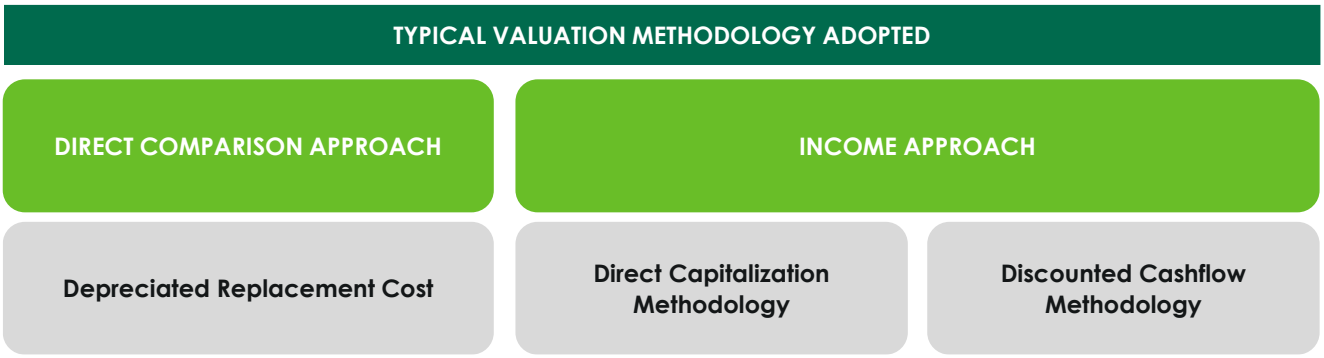
The valuations have been conducted in accordance with the IVSC International Valuation Standards issued in July 2021, effective from 31 January 2022), Regulation 21 and Schedule V of the SEBI (InvIT) Regulations, 2014 and are in compliance with the International Valuation Standards (IVS). The valuation exercise has been undertaken by appropriately qualified Valuer and will be assessing the Market Value of the ownership Interest in the Subject Asset.

As per the Valuation and Guidance Notes issued by the IVS, the market value is defined as:

***'The estimated amount for which** a asset or liability should exchange on the valuation date between a willing **buyer and a willing seller in an arm's length transaction, after proper marketing and where the parties had each acted knowledgeably, prudently and without compulsion'.***

## 5.3 Approach and Methodology

The purpose of this valuation exercise is to estimate the Market Value (MV) of the Subject Assets. Market Value can be derived through the following Methodologies:



### 5.3.1 Direct Comparison Approach

Under the 'Direct Comparison Approach', the asset is compared to similar Assets that have actually been sold in an arms-length transaction or are offered for sale (after deducting for value of built-up structure located thereon). The

comparable evidence gathered during research is adjusted for premiums and discounts based on asset specific attributes to reflect the underlying value of the asset.

### 5.3.2 Income Approach

The income approach is based on the premise that value of an income - producing asset is a function of future benefits and income derived from that asset. There are two commonly used methods of the income approach in real estate valuation namely, direct capitalization and discounted cash flow (DCF).

A. Direct Capitalization Method

Direct capitalization involves capitalizing a 'normalized' single - year net income estimated by an appropriate yield. This approach is best utilized with stable revenue producing assets, whereby there is little volatility in the net annual income.

B. Discounted Cash Flow Method

A Discounted Cash Flow Analysis is based upon estimates of future financial performance. The methodology begins with a set of assumptions regarding income and expenses of the Asset and future economic conditions in the local market. The income and expense figures are assessed with adjustments for estimated changes in economic conditions and any contractual commitments. The resultant value is considered the best estimate but is not to be construed as a prediction or guarantee and is fully dependent upon the reasonableness of the assumptions with respect to income, expenses, and market conditions, which are based on information available as at the valuation date.

## 5.4 Approach and Methodology Adopted

Considering the objective of this exercise, the nature of asset involved and the purpose of the valuation viz. to assess the Market Value (MV) of the Subject Assets for the purpose of the offer of units through Private Placement of TVS Infrastructure Trust under the SEBI (Infrastructure Investment Trust) Regulations, 2014 'Regulation', we have adopted the methodology considering Chapter 1 section 2 point (i) of the InvIT regulation, which states that, the assets forming part of InvIT should meet among the below criteria as follow:

1. the infrastructure asset has achieved the commercial operations date as defined under the relevant asset agreement including concession agreement, power purchase agreement or any other agreement of a similar nature entered into in relation to the operation of the asset or in any agreement entered into with the lenders
2. the infrastructure asset has received all the requisite approvals and certifications for commencing operations
3. the infrastructure asset has been generating revenue from operations for a period of not less than one year

Hence owing to the above stated conditions, we are of the opinion that the income approach which is appropriate to value such asset based on the premise that value of an income - producing asset is a function of future benefits and income derived from that asset.

Under the Income approach, Discounted Cash Flow Analysis is based upon estimates of future financial performance which also considers the income and expenses of the Asset accounting for the future fluctuations due to expected market dynamics.

Hence, for the purpose of this valuation exercise, we have adopted Discounted Cash Flow Method (using rent reversion approach).

For the purpose of this valuation exercise, we have analysed the tenancy details provided by the Client to identify variances vis-à-vis prevailing marginal rent. In the event the contracted rent is within the threshold (15.0%), we have assumed that the tenant will continue on the current agreed terms. In the event the rent is higher than the marginal rent threshold, we have assumed that the lease would be renegotiated to marginal rent terms (at the time of the lock-in expiry, next escalation, etc.).

Asset-specific Review:

1. As the first step to the valuation of the asset, the lease deeds were reviewed to identify tenancy characteristics with respect to contractual commitments and commercial covenants.
    a. Title documents and architect certificates were reviewed for validation of area details, ownership of the asset
    b. The Valuer has undertaken physical site inspections to assess the current status of the Subject Assets in terms of their physical configuration, capacity and upkeep.

Micromarket Review/Market Rental Assessment:

Bommasandra-Hosur is a key warehousing vector in Bengaluru Situated along N4-44 in the southern periphery of Bengaluru, it serves as a hub for commerce between Bengaluru and Hosur-Chennai. Accessible via NH-44 SH-87, and NICE Road, it provides exceptional connectivity and convenient proximity to the city's consumption and distribution centres. In addition, the region accounts for approximately 23% of Bengaluru's (2nd largest warehousing market) total completed inventory. The region witnessed a total supply of approx. 15.2 mn sft, with, 95-96 % absorption. The region is primarily characterised by Grade A and Grade B developments, with a share of 57% and 37% of the total stock, respectively, Prominent Grade A developments encompass TVS Industrial & Logistics, RKV Logistics, Horizon Industrial Parks, Avigna Warehousing Parks, and more. The availability of large land parcels with moderate land values in comparison to other micromarkets, as well as proximity to manufacturing and consumption hubs, are the primary drivers of warehousing activity in the region.

A primary research exercise has been carried out in the catchment area to ascertain the prevalent activity levels in terms of quoted / transacted evidence of the recent leasing activity for warehousing developments. This has been achieved through interactions with various market players such as local real estate brokers, developers, owners, etc. Based on the same, we understand that variance across rentals is primarily due to factors such as type of asset, developer brand, location, accessibility, overall tenant mix, quantum of vacant stock in the development, specifications, and additional improvements, etc.

For the micromarket review and market rental assessment we have relied upon the report on 'Market Analysis of Warehousing facilities in Identified locations pan India' prepared by CBRE South Asia Private Limited, hereafter referred as 'CBRE' (an independent agency appointed by the Client to undertake market research, provide market summary and data for the purpose of this assignment)

Cash Flow Projections:

We have assessed future cash flows from the Subject Assets based on existing lease terms and contractual lease payments for the operational area until the expiry of the leases or re-negotiation (using the variance analysis), whichever is earlier. Based on a detailed review of the leases for the Subject Asset, we noted that a large number of leases at these Assets were executed at rent prevalent at the time of signing of such leases or at a discount to prevailing market rental (for a few anchor tenants). Since the real estate industry is dynamic and is influenced by various factors (such as existing supply, tenants looking at spaces, quality of spaces available in the market, overall health of the economy, existing rent,

future growth plans, etc.) at a particular point in time, negotiated rent may tend to move away from the prevalent market rent over a period of time. It has also been witnessed that the market rent for some Assets or micromarkets increase or decrease at a rate significantly different from those agreed to in initial leases. These factors reinforce the need to review each of these leases in isolation to assess the intrinsic value of the asset under review.

Post this, the lease terms have been aligned with market rentals. For vacant area(if any), the Valuer has assessed the market rent led cash flows factoring appropriate lease-up time frame for vacant/under-construction/proposed area. These cash flows have been assessed for 10-year duration from the date of valuation and for 11th year (for assessment of terminal value). These future financial benefits are then discounted to a present-day value (valuation date) at an appropriate discount rate.

## 5.5 Information Sources for Valuation

Asset related information referred to for the valuation exercise have been provided by the Client unless otherwise mentioned. We have assumed the documents to be a true copy of the original. The rent rolls have been cross-checked with the lease deeds on a sample basis to verify the authenticity. Additionally, wherever possible, we have independently revalidated the information by reviewing the originals as provided by the Client.

Table below highlights various data points referred throughout the course of this valuation report and the data sources for the same. Asset related documents referred to in the table below have been provided to the Valuer by the Client unless otherwise mentioned. The Valuer have assumed the documents to be a true copy of the original.

| Particulars | Details | Units | Source |

# 6 Value Assessment

## 6.1 Value Assessment

### 6.1.1 Adopted Methodology

We acknowledge that the approaches to valuation differ considerably and that for a particular purpose, alternative approaches to the valuation can be utilized. Considering the objective of this exercise and the nature of asset involved, the value of the Subject Asset has been assessed through the following approaches:

| Asset Name | (Completed Blocks) | (Under-construction Blocks) |
|---|---|---|
| Hosur Park | Discounted Cash Flow<br>(Using rent reversion approach) | NA |

The sections below highlight the detailed valuation workings for the Subject Asset.

## 6.2 Operational Assumptions

### 6.2.1 Area statement

Based on information from lease deed and architect certificate provided by the Client, we understand that Subject Asset is an operational warehousing facility. Further, the table below highlights the area configuration of the Subject Asset:

| Blocks | Leasable Area (sft) | Chargeable area (sft) | Parking area (sft) |
|---|---|---|---|
| Hosur – I – Block A – Part A | 1,88,909 (Includes Mezzanine) * | 1,88,909 (Includes Mezzanine) * | - |
| Hosur – I – Block A – Part B | 2,61,484 | 2,61,484 | - |
| Hosur – I – Block B – Part A | 294,167 | 1,61,165 | 23,752 |
| Hosur – I – Block B – Part B | 269,730 | 1,40,000 | 56,000 |
| Hosur – I – Block C | 193,756 | 89,830 | 73,020 |
| Total | 1,208,046 | 8,41,388 | 152,772 |

*Source: Architect certificate, Rent roll provided by the Client; (Please note according to the lease agreements provided by the Client, it is understood that the rent is paid on the chargeable area, which has been considered for the valuation exercise)*

| Tenant | Leasable Area (sft) | % of area leased | Total In-place rental - Warehouse (INR psf pm) | Total In-place rental (INR Mn pm) |
|---|---|---|---|---|
| Hosur Park | 9,94,160 | 100% | 19.4 | 17.31 |

*Source: Sanction Plan, Lease deed, Rent Roll*

## 6.3 Tenancy Analysis

### 6.3.1 Historical Occupancy Rates

The table below highlights the historical occupancy rates at the Subject Asset:

| Description | Particulars (%) |
|---|---|
| Occupancy (completed blocks) | 100% |
| Pre-Commitment (under construction blocks) | NA |

*Source: Information provided by the Client;*

### 6.3.2 Lease Deed Analysis

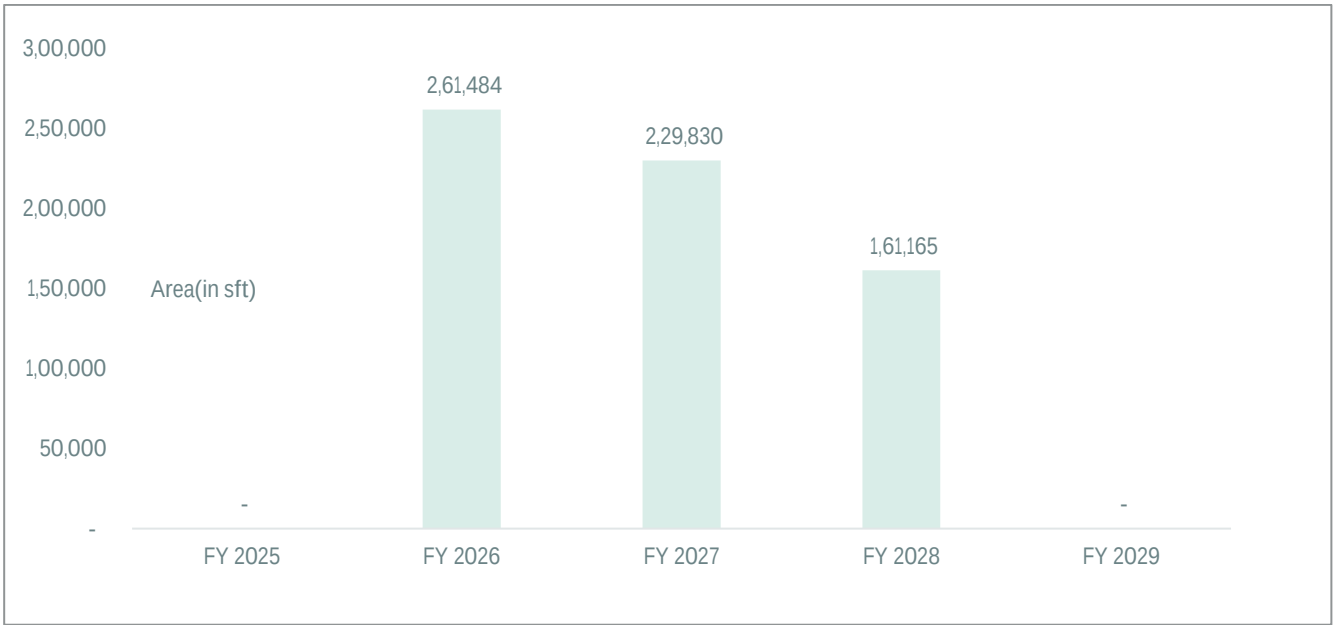
Based on the review of the Lease Deed provided by the Client, we understand that the lease agreements were signed between TVS infrastructure Pvt ltd and the tenants, details of which are mentioned below:

| Tenant | Particulars | Details |
|---|---|---|
| Logistics Company – Block A Part A^ | Lease Commencement Date | 1st October 2024 |
| | Rent Commencement Date | 1st October 2024 |
| | Lock-in Period | 2 years |
| | Lease Tenure | 9 Years |
| | Lease Rent Escalation Terms | 0% every year |
| Logistics Company – Block A Part B | Lease Commencement Date | 1st February 2018 |
| | Rent Commencement Date | 1st February 2018 |
| | Lock-in Period | 7 Years |
| | Lease Tenure | 8 Years |
| | Lease Rent Escalation Terms | 5% every year |
| Logistics Company – Block B Part A | Lease Commencement Date | 7th July 2022 |
| | Rent Commencement Date | 7th July 2022 |
| | Lock-in Period | 3 Years |
| | Lease Tenure | 5 Years |
| | Lease Rent Escalation Terms | 5% every year |
| Logistics Company – Block B Part B | Lease Commencement Date | 21st April 2022 |
| | Rent Commencement Date | 21st April 2022 |
| | Lock-in Period | 3 Years |
| | Lease Tenure | 5 Years |
| | Lease Rent Escalation Terms | 5% every year |
| Logistics Company – Block C | Lease Commencement Date | 1st March 2022 |
| | Rent Commencement Date | 1st March 2022 |
| | Lock-in Period | 3 Years |
| | Lease Tenure | 5 Years |
| | Lease Rent Escalation Terms | 5% every year |

*Source: Architect certificate, Rent roll provided by the Client; (Please note according to the lease agreements provided by the Client, it is understood that the rent is paid on the chargeable area, which has been considered for the valuation exercise) ^ The client has not provided us with any supporting document pertaining to the said lease.*

### 6.3.3 Tenant Expiry Profile

The Weighted Average Lease Expiry (WALE) of Subject Asset is 3.6 years, with approx. 100 % of occupied warehouse area expiring between FY 2026 and FY 2028 as shown in the chart below:



*Source: Valuer Workings; The expiry profile has been plotted only for the warehouse areas*

### 6.3.4 Lease Rent Analysis

Contractual Rental Details

| Asset | Chargeable Area (sft) | Leased Area (sft)* | % of area leased | Total In-place rental (INR psf pm) | Total In-place rental (INR Mn pm)* |
|---|---|---|---|---|---|
| Hosur Park | 841,388 | 841,388 | 100% | 19.4 | 17.31 |

*Source: Leased Deed and Information provided by the Client, *Warehouse + Parking area*

Based on the recent transaction witnessed in the micromarket as highlighted in the table above and transaction witnessed in the Subject Asset, we understand that the Subject Asset would command a marginal rental (for warehouse space) of INR 22 – 24 per sf per month (say an average rental of INR 23.0 per sf per month of leasable area).

### 6.3.5 Tenant Obligations.

Based on the review of the lease deed, we understand that the operational expenses listed below will have to be borne by the Tenant

| S. No | Description of operational expenses |
|---|---|
| 1 | Housekeeping within demised premises |
| 2 | Insurance for stored goods |
| 3 | Damages caused by the tenant/lessee to the building |
| 4 | Other Expenses such as utility charges towards any Governmental authorities or Concerned service provider. |

### 6.3.6 Construction Timelines

The asset was completed in a phase-wise with Block A completed and operationalised in Feb 2018, Block B completed and operationalised in Aug 2018 and Block C completed and operationalised in Dec 2018.

### 6.3.7 Absorption/ Leasing Velocity and Occupancy Profile

#### 6.3.7.1 Completed Blocks

As per the rent roll provided by the Client, we understand that the completed blocks have an occupancy of 100% as on date of valuation. As at the valuation date the Subject Asset has been entirely let out to a transportation and logistics company with a WALE of approx. 3.6 years.

#### 6.3.7.2 Under-Construction/ Proposed Blocks

Based on review of the rent roll provided by the client and based on subsequent site inspection conducted by the Valuer, it is understood that the Subject Asset is fully completed and operational.

### 6.3.8 Revenue Assumptions (Warehouse + Industrial)

#### 6.3.8.1 Warehouse Component

As at the valuation date the Subject Asset has been entirely let out to a transportation and logistics company with a WALE of approx. 3.6 years. For the purpose of this valuation exercise, the lease rent adopted is based on the rent roll/lease deeds shared by the Client. Further, the Valuer have undertaken an in-depth market research exercise to assess the prevailing rent values in the subject micromarket. The same has been adopted for the vacant space for the purpose of this valuation exercise.

Based on review of the Industry Assessment Report and based on the analysis of the rent roll provided by the Client, following rental has been adopted for the purpose of value assessment of the completed blocks at the Subject Asset.

| Component | Chargeable Area (sft) | Leased Area (sft)* | Basis | Rent Adopted* (INR psf pm) |
|---|---|---|---|---|
| Warehouse | 841,388 | 841,388 | Current Rent for Leased area | 19.4^^ |
| | | | Marginal rent for reversion/ vacant area | 23.0 |

*Source: Lease deed provided by the Client; Valuer's assessment ; ^ Included Parking Area^^In-place Rent excluding paring areas.*

The above marginal rent assumption is adopted for the entire Subject Asset. In addition to undertaking an in-depth market analysis, a detailed analysis of the rent rolls was also undertaken to understand aspects such as area occupied, current rent and expiry analysis of the key tenants in the park.

For the purpose of this valuation exercise, the lease rent adopted for the area already leased is based on the lease deed shared by the Client. Further, an in-depth market research exercise has been undertaken to assess the expected economic rental of the Subject Asset. Based on review of the Industry Assessment Report, we understand that the contracted rental of the Subject Asset is in line with the expected market rent. Hence, we have considered contracted rentals for the purpose of value assessment at the Subject Asset.

#### 6.3.8.2 Non-Warehouse Component

Based on our site inspection and based on review of the lease deeds provided by the client, we understand that certain potion of the land area has been let out as "parking area" and the same is part of the chargeable area. The rentals range from approx. 2.63 to 2.75 psf per month of land area.

Based on market research, it was understood that it was not a market norm for developers in the micromarket to charge for parking in addition to the fully-utilized FSI area and that the developer might not be able to monetize the space for upcoming tenants. Hence, the same has been incorporated as a tenant improvement income in the cash flows and has not been capitalized.

### 6.3.9 Rent Escalation

Based on an analysis of existing lease rolls and recent leasing at the Subject Asset, it was observed that the typical escalation clause in the Subject Asset and micromarket is approx. 4-5% every year, which is in-line with the trend observed in the market. A lease rent escalation of 5% has been adopted for the renewals at the Subject Asset

Escalation on renewal - Based on the analysis of terms of lease deed, it was observed that the typical escalation clause in the Subject Asset is 5% per annum, which is in-line with the trend observed in the market. The same has been adopted by the Valuer.

| Particulars | Unit | Details |
|---|---|---|
| Lease Rental Escalations | % p.a. | 5.0% |

*Source: Valuer's assessment*

Market Rent Escalation - Based on the trend observed in the market and based on review of the Industry Assessment report, the valuer has considered a market escalation of 5% per annum effective from the date of valuation. The assumption for market rent for this appraisal exercise is as follows:

| Particulars | Sept 2024 | March 2025 | March 2026 | March 2027 Onwards |
|---|---|---|---|---|
| Market Rent Escalation | 23.0 | 24.15 | 25.36 | 5% escalation year on year |

### 6.3.10 Parking Assumptions

Based on our site inspection and based on review of the lease deeds provided by the client, we understand that certain potion of the land area has been let out as "parking area" and the same is part of the chargeable area. The rentals range from approx. 2.63 to 2.75 INR psf per month of land area. Based on the Valuer's market research, it was understood that it was not a market norm for developers in the sub-market to charge for parking in addition to the fully-utilized FSI area and that the developer might not be able to monetize the space for upcoming tenants. Hence, the same has been incorporated as a tenant improvement income in the cash flows and has not been capitalized.

### 6.3.11 Other Revenues

In addition to lease rent revenues, assets typically have additional sources of revenue. These include revenues on account of security deposit (refunded at the time of lease expiry / exit), other miscellaneous income etc. The assumptions considered for the aforementioned revenue heads for the purpose of this valuation exercise are based on the rent roll & lease deeds provided by the Client. The same has been cross-checked with the prevailing market norms for other revenues and were found to be broadly in line. The assumptions adopted for other revenues are as tabulated below:

| Nature of Income | Details | Units |
|---|---|---|
| Security Deposit ( For vacant spaces) | 6 | No. of months' warm shell rental |
| Other Income (Margin on Utilities etc.) | 3.5% | % of Rental Income |
| CAM Income | 1.0 | INR per sft per month |

*Source: Valuer's assessment*

### 6.3.12 Capital Expenditure

#### 6.3.12.1 Major Repair and improvements

As per information provided by the Client, we understand that there are no major repairs and improvement proposed in the said asset. The table below highlights the assumptions towards the pending expenses/ infrastructure upgrade works in the Subject Asset:

| Expense Head | Total Pending Cost (INR Mn) | Quarter of Completion |
|---|---|---|
| CAPEX | NA | NA |

*Source: Client inputs*

### 6.3.13 Operating Cost

An asset typically has few recurring operation expenses required for the upkeep running of the asset. Based on information provided by the Client and market assessment, following recurring expense assumptions have been adopted for the purpose of this valuation exercise:

In addition to capital expenditure, a asset typically has few recurring operational expenses required for the up-keep and running of the asset. Based on information provided by the Client and market assessment, following recurring expense assumptions have been adopted for the purpose of this valuation exercise:

| Nature of Expense | Details |
|---|---|
| Reserves & Maintenance (R&M) Provision | 0.5% of lease revenue |
| Asset Management Fee^ | 3.0% of revenues from operations |
| Property Tax* | INR 11.37 Mn |
| Insurance* | INR 1.67 Mn |
| Vacancy Allowance during operations | 1.0% of revenues from operations |
| Vacancy Allowance on Exit | 2.5% of revenues from operations |

| Nature of Expense | Details |
|---|---|
| CAM Expense | INR 1.0 psf per month |
| Refurbishment reserve (% of rental income) | 1.5% |

*Source: Client input; Valuer's assessment; *As per the lease terms and the information provided by the Client, Property tax and insurance are to be borne by the Lessor; ^fees has been considered as below the NOI line item.*

### 6.3.14 Other Assumptions

#### 6.3.14.1 Vacancy provision

Based on review of the rent roll provided, we understand that that the completed portion of the Subject Asset is substantially occupied with significantly long lease periods. Further, the Subject Asset also has a pre-commitment in one of the under-construction blocks. Considering the same alongside other asset level parameters (location, amenities, grade, infrastructure etc) and market benchmarks, the Valuer has adopted a vacancy provision as follows:

| Description | Blocks |
|---|---|
| Vacancy Provision | During Operations – 1.0%<br>Assessment at the time of exit – 2.5% |

*Source: Valuer's assessment*

#### 6.3.14.2 Revenue escalation

Based on prevailing market condition, historical rent growth achieved by the Subject Asset and our interactions with market participants, we are of the opinion that the annual marginal rent growth of 5% has been considered for the FY 2025 and year on year thereafter

#### 6.3.14.3 Rent-free period

Based on the rent roll provided by the Client, it is understood that the existing leases have a rent-free period ranging from 0.5 months to 1.5 months from the lease-commencement date.

However, based on recent market trends in the subject micromarket, we have considered a rent-free period of 1 month for new-leases and for re-leasing effective from the lease commencement date and 1 months of downtime for new-leases and for re-leasing.

#### 6.3.14.4 Brokerage

Based on prevalent market dynamics, we have considered brokerage equivalent to 0.4 month of rental income for future / new leases

#### 6.3.14.5 CAM Cashflows

Based on review of the lease deeds pertaining to the Subject Asset, it is understood that the base monthly rental paid by the tenants is inclusive of CAM Charges. Further, based on the information received from the Client, we understand that the Client has started recovering CAM from tenants over and above the contracted base rentals.. The Client has not provided any documentation pertaining to this CAM arrangement.

## 6.4 Financial Assumptions

### 6.4.1 Exit Capitalization Rate Adopted

The capitalization rate adopted for valuing the assets has been based on factors such as:

- Historical entry yields (going in cap rates) for yield/ core warehousing asset transactions across various key markets in India have steadily shown a downward trend from 9.00- 11.00% in last 8 – 9 years to about 7.50% - 8.50% in last 3-4 years.
- The increased appetite for income producing assets and availability of various modes of finance (real estate credit flows) backing such acquisitions.
- Yields for warehousing assets across various markets in India have a range of 7.50% – 8.00%.
- Liquidity associated with InvIT listed/ public listings (multiplicity of buyers and relatively lower budgets per buyer).

Based on the above highlighted attributes, the following cap rate has been adopted for the purpose of our valuation:

| Asset Name | SPV/Hold Co | Status of the Asset | Details |
|---|---|---|---|
| Hosur Park | TVS Industrial & Logistics Parks Private Limited | Operational | 7.50% |

*Source: Valuer's assessment*

### 6.4.2 Discount Rate Adopted

For discounting the cash flows, an appropriate discount rate has been calculated on the basis of estimated 'Weighted Average Cost of Capital' (WACC).

### 6.4.3 Cost of Equity

The Valuer has computed the cost of equity as per the Capital Asset Pricing Model (CAPM), which is derived as follows:

Cost of equity = Risk Free Rate (Rf) + Beta (**β**) * (Market Return (Rm) **–** Risk Free Rate (Rf))

As mentioned above, the cost of equity computed using CAPM constitutes of the following components:

- Risk free rate (Rf) i.e., long term (10-year) treasury bond rate in India
- Market return (Rm) based on the returns of Sensex index for the past 10 years
- Computation of 'Beta (β)' of key listed realty stocks and REITs/ InvITs in India with respect to the Broad-Based BSE 500 stock index

The cost of equity adopted for specific assets has been adjusted for market/ asset specific risk pertaining to real estate assets such as execution risk (construction status, marketing risk, etc. and adjusted for taxation. While the assumptions regarding the quantum of these risks have no quantitative basis, we have adopted them based on our understanding of the market and our opinion on the asset performance.

### 6.4.4 Cost of Debt

Completed Blocks

The cost of debt for this asset has been considered based on prevalent Lease Rental Discounting (LRD) rates for Grade A warehousing facilities across the Bommasandra-Hosur micromarket which are in the range of 8.0% – 9.0% depending upon the location, asset quality, occupancy, etc.

### 6.4.5 Weighted Average Cost of Capital (WACC)

Completed Blocks

As highlighted earlier, the cost of debt has been assumed based on the prevalent LRD rates, while the cost of equity assumed has been adjusted for asset and market specific attributes to reflect the market expectations from an operational warehousing facility. Further, the proportion of debt and equity has been derived considering the prevalent LRD tenures and its contribution in the overall asset value.

Based on above, the following WACC rate has been assumed for the completed Hosur Park asset forming part of the InvIT portfolio:

| Asset Name | SPV/Hold Co | Particular | Proportion | Cost | WACC |
|---|---|---|---|---|---|
| Hosur Park | TVS Industrial & Logistics Parks Private Limited | Debt | 35.0% | 8.0% | 11.58% |
| | | Equity | 65.0% | 13.5% | |

*Source: Valuer's assessment; Please note that the cash flows are assumed to realize evenly during the course of every quarter; hence a mid-quarter discounting convention has been adopted for the purpose of this valuation. Additionally, we have not factored any cash flows attributable to working capital requirement/expenses for valuation as the same is immaterial.*

## 6.5 Value of the Subject Asset

The Valuer is of the opinion that subject to the overriding stipulations contained within the body of this report and to there being no onerous restrictions or unusual encumbrances of which he has no knowledge, the opinion of value of the complete ownership interest in the Subject Asset comprising land and improvements thereon, as explained above, as on 30th September 2024 is as follows:

| Asset Name | Value (INR Mn) |
|---|---|
| Hosur Park | INR 3,025 Mn |

*Source: Valuer's assessment*

# 7 Exhibits and Addendums

## 7.1 Other Mandatory Disclosures

### 7.1.1 Details of On-going material litigations including tax disputes in relation to the assets

As per our interaction with the Client, the Client has confirmed that there are no material litigation details pertaining to the asset. Please note that the Valuer has not investigated nor has been provided with any supporting documents.

Please refer to the section on litigations in the draft offer document for details on material litigations for various assets.

### 7.1.2 Details of options or rights of pre-emption and other encumbrances

As per our interaction with the Client and our scope of services, please note that the Valuer has not investigated nor has been provided with any supporting documents.

Please refer to the section on litigations in the draft offer document for details on material litigations for various assets

### 7.1.3 Vulnerability to natural or induced hazards that may not have been covered in town planning/ building control.

As per our interaction with the Client, the Client has confirmed that there are no vulnerabilities pertaining to the asset. Please note that the Valuer has not investigated nor has been provided with any supporting documents.

Also, in our professional judgment based on site inspection, there were no visible vulnerabilities.

### 7.1.4 Details of Revenue Pendencies including local authority taxes associated with InvIT asset and compounding.

As per our interaction with the Client, the Client has confirmed that there is no revenue pendency to the asset. Please note that the Valuer has not investigated nor has been provided with any supporting documents.

Please refer to the section on litigations in the draft offer document for details on material litigations for various assets.

Our assessment is under the assumption the asset has a clear title and is free from any encumbrances, disputes, claims that would affect the value. This should be verified by a asset lawyer prior to relying on this valuation.

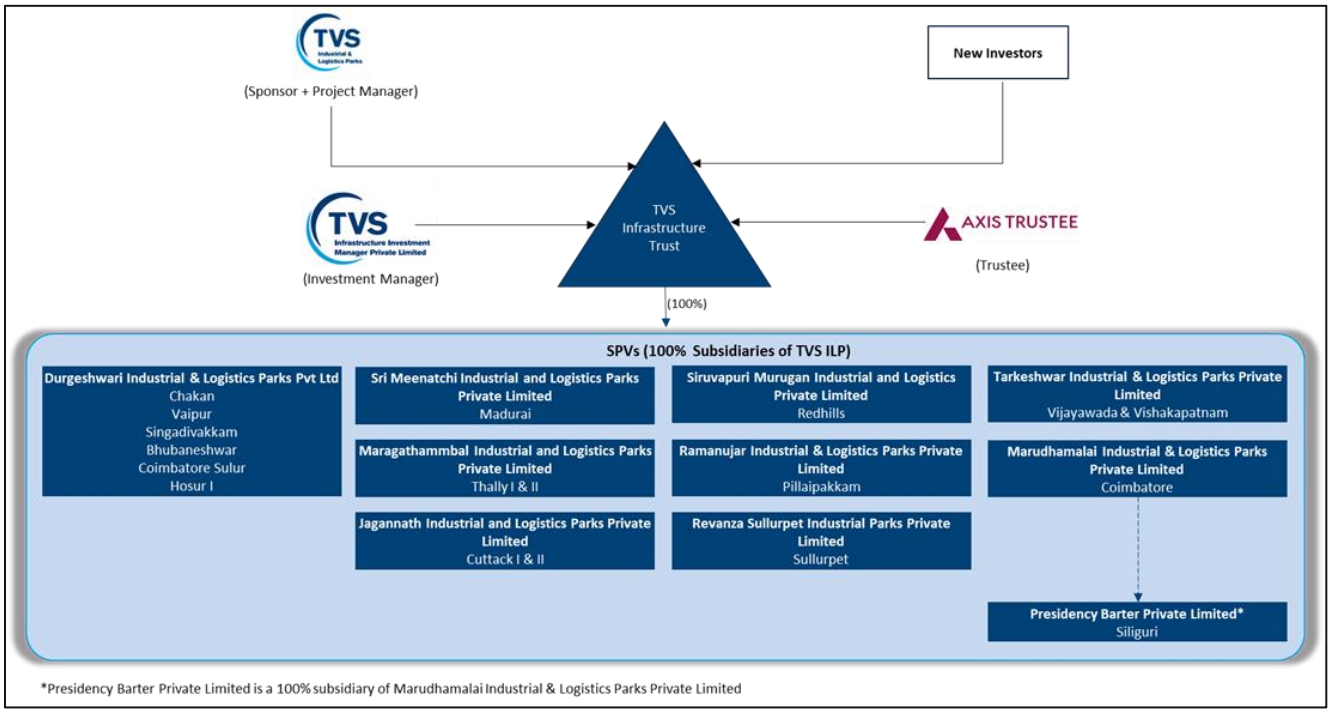
### 7.1.5 Details of the asset including whether the transaction is a related party transaction

The asset is proposed to be acquired from the Sponsor, which is identified as related party under SEBI (InVIT) Regulations

### 7.1.6 Nature of the interest the InvIT holds or proposes to hold in the asset, percentage of interest of the InvIT in the asset

As per our interaction with the Client, the Client has confirmed that 100% to be held by the InvIT

### 7.1.7 Structure of ownership of the asset by the InvIT



### 7.1.8 Description of key agreements and restrictions relevant to the asset such as terms of concession agreement, power purchase agreements, etc.

As per our interaction with the Client, the Client has confirmed that the same is not applicable to their business.

### 7.1.9 Life of the asset (both contractually and physical life requiring maintenance, replacement and right available to extend this life

| S. No | Particulars | Details |
|---|---|---|
| 1 | Remaining Physical Life of the Building asset requiring maintenance | Remaining period of Block A- 23 years<br>Remaining period of Block B- 23 years<br>Remaining period of Block C- 23 years |
| 2 | Remaining Contractual Life of underlying Land | Perpetual, as underlying land is a Freehold Land Parcel |
| 3 | Right to extend the contractual life of land | Not Applicable, as underlying land is a Freehold Land Parcel |

## 7.2 Site Plan

**"Legal Notice and Disclaimer"**

This valuation report (the "Report") has been prepared by iVAS Partners. ("iVAS") exclusively for TVS Industrial & Logistics Parks Private Limited (the "Instructing Party" or "client"), in accordance with the Agreement entered into between iVAS and the Instructing Party dated 1st February 2024 (the "Agreement"). The Report is confidential to the Instructing Party and any other Addressees named herein and the Instructing Party and the Addressees may not disclose the Report unless expressly permitted to do so under the Agreement.

Where iVAS has expressly agreed that persons other than the Instructing Party or the Addressees can rely upon the Report (a "Reliant Party" or "Reliant Parties") then iVAS shall have no greater liability to any Reliant Party than it would have if such party had been named as a joint client under the Agreement.

iVAS's maximum aggregate liability to the Instructing Party and to any Reliant Parties howsoever arising under, in connection with or pursuant to this Report and/or the Agreement together, whether in contract, tort, negligence or otherwise shall be limited as defined under the terms of the Agreement.

iVAS shall not be liable for any indirect, special or consequential loss or damage howsoever caused, whether in contract, tort, negligence or otherwise, arising from or in connection with this Report. Nothing in this Report shall exclude liability which cannot be excluded by law.

If you are neither the Instructing Party, an Addressee nor a Reliant Party then you are viewing this Report on a non-reliance basis and for informational purposes only. You may not rely on the Report for any purpose whatsoever and iVAS shall not be liable for any loss or damage you may suffer (whether direct, indirect or consequential) as a result of unauthorized use of or reliance on this Report. iVAS gives no undertaking to provide any additional information or correct any inaccuracies in the Report.

For the avoidance of doubt, nothing in our Report will constitute any recommendation, investment advice or an offer or solicitation for the purpose of or for sale of any securities, financial instrument or products or other services. Any investors should make their own investment decisions in relation to any investments. If you do not understand this legal notice, then it is recommended that you seek independent legal advice.

# 1 Executive Summary

| | |
|---|---|
| Asset Name: | Bhubaneshwar Park (the "Subject Asset") |
| Asset Address: | Chandaka, Bhubaneshwar |
| Instructing Party: | TVS Industrial & Logistics Parks Private Limited (the "Client") |
| SPV Name: | Durgeshwari Industrial & Logistics Parks Private Limited/ TVS ILP |
| Interest Valued: | 100% Freehold interest |
| Land Area: | As per the review of the sale deed, Land use certificate, building plan approval and sanctioned layout provided by the Client, it is understood that the total underlying land area of the subject asset is approx. 10.67 acres. |
| Brief Description: | Based on the review of sanctioned layout shared by the Client and subsequent site visit undertaken, it is understood that the subject asset is an operational Industrial warehousing facility, located along the Khurdha – Chandaka Road. |

The subject asset "TVSILP Bhubaneshwar" is an operational warehouse development. The asset is located along Khurdha - Chandaka Road, Bhubaneshwar, an upcoming warehousing market in the city. The road emanates from Khurdha bypass, passes through the subject micromarket of Chandaka, and merges with Chandhaka-Nandankanan Road. By virtue of being located just 18 - 19 km away from the airport, the subject micromarket comprises of one of the highest numbers of Grade A warehousing developments housing various logistics, FMCG, and manufacturing players. Some of the prominent warehousing assets in the micromarket include TVSILP Bhubaneshwar (Subject asset), Umang 1 Warehouse, Umang 2 Warehouse, Safexpress Warehouse. The area details of the asset are as follows:

| Particulars | Built up Area (sft)* | Leasable area (sft)** | Chargeable area (sft)** |
|---|---|---|---|
| Bhubaneshwar Park Block I | 63,696 | 71,696 | 63,696 |
| Bhubaneshwar Park Block II | 1,21,872 | 1,21,872 | 1,21,872 |
| Bhubaneshwar Park Block III | 12,531 | 22,531 | 22,531 |
| Bhubaneshwar Park Block IV | 16,855 | 16,855 | 16,855 |
| Total | 2,14,954 | 2,32,954 | 2,24,954 |

*Source: Architect Certificate/Rent-Roll provided by the client; *Please note that block-wise bifurcation of the Built-up area details are provided by the client. **Please note according to the lease agreements provided by the Client, it is understood that the rent is paid on the chargeable area, which has been considered for the valuation exercise.*

The subject asset is located in Chandaka, Bhubaneshwar, Orissa. It is located at a distance of approx. 15 - 16 kms from National Highway 16, approx. 17 - 18 kms from Bus stand, approx. 18 - 19 kms from Bhubaneshwar International Airport, approx. 21 - 22 kms from Bhubaneshwar Railway Station.

Statement of Assets (sft):

Based on review of rent roll, lease deeds and area statement provided by the Client, we understand that the subject asset has an operational warehousing facility with approximately 0.23 msf (Block I - IV) with occupancy of approx. 100%, as on the date of valuation.

| Blocks | Leasable area (sft) | Chargeable Area (sft) | Structure Type |
|---|---|---|---|
| Bhubaneshwar Park Block I | 71,696 | 63,696 | Warehouse |
| Bhubaneshwar Park Block II | 1,21,872 | 1,21,872 | Warehouse |
| Bhubaneshwar Park Block III | 12,531 | 12,531 | Warehouse |
| Bhubaneshwar Park Block III (open area) | 10,000 | 10,000 | Open area |
| Bhubaneshwar Park Block IV | 16,855 | 16,855 | Warehouse |
| Total | 2,32,954 | 2,24,954 | |

| Any matters which may affect the asset or its value | There are no other matters which may affect the asset or its values beyond what has already been stated in the in this report |
| Assumptions, Disclaimers, Limitations & Qualifications: | This valuation report is provided subject to assumptions, disclaimers, limitations and qualifications detailed throughout this report which are made in conjunction with those included within the Assumptions, Disclaimers, Limitations & Qualifications section located within this report.<br>Reliance on this report and extension of our liability is conditional upon the reader's acknowledgement and understanding of these statements. This valuation is for the use of the party to whom it is addressed and for no other purpose. No responsibility is accepted to any third party who may use or rely on the whole or any part of the content of this valuation. The valuer has no pecuniary interest that would conflict with the proper valuation of the asset. |
| Heightened Market Volatility: | We draw your attention to current heightened geopolitical tensions, low economic growth in many major countries, and a "higher for longer" interest rate sentiment which have increased the potential for constrained credit markets, negative capital value movements and continued volatility in some property markets over the short-to-medium term.<br>Experience has shown that consumer and investor behaviour can quickly change during periods of such heightened volatility. Lending or investment decisions should reflect any heightened level of volatility and potential for changing market conditions. Lending and investment caution is advised in this regard.<br>It is important to note that the conclusions set out in this report are valid as at the valuation date only. Where appropriate, we recommend that the valuation is closely monitored, as we continue to track how markets respond to evolving events. |

| | |
|---|---|
| Construction Cost Volatility: | Although general increases in material costs have stabilised since 2022, some specialised supply chains and construction-related labour costs remain volatile with the potential for further increases. This has created uncertainty in cost estimates, which is likely to continue.<br><br>In addition, there are significant risks that delays may be encountered in sourcing specialised materials and labour, and as such, the potential for ongoing cost escalations and delays is high. This may place additional pressure on developer and contractor profit margins and development viability.<br><br>These inherent risks should therefore be given careful consideration in lending and investment decisions. Caution is advised in this regard. |
| Notice | This Executive Summary [/Valuation Certificate] should be read in conjunction with the entire valuation report and should not be relied upon in isolation. |

Name: Mr. Shubhendu Saha
Designation: Partner, iVAS Partners
Valuer Registration Number: IBBI/RV/05/2019/11552

# 2 Instruction

iVAS Partners ( Valuer Registration Number: IBBI/RV-E/02/2020/112; hereinafter referred as 'Valuer') represented by its partner Mr. Shubhendu Saha, a registered valuer under the Companies Act 2013 with IBBI (Valuer Registration Number: IBBI/RV/05/2019/11552) (the 'Valuer'), has been instructed by TVS Industrial & Logistics Parks Private Limited (hereinafter referred as the the "Instructing Party", or the "Client") to advise upon the Market Value (MV) of an operational Warehousing asset located along the Khurdha - Chandaka Road, Bhubaneshwar, Orissa.

Based on information provided by the Client, we understand that the underlying land parcel of the subject asset admeasures approx. 10.67 acres with a total leasable area admeasuring approx. 2,32,954 sft.

iVAS Partners is referred to as the **'Valuer'** for the purpose of this report.

The details of the subject asset under the purview of this valuation exercise are tabulated below:

| Asset Name | SPV/Hold Co | Asset Type | Location | Land area | No. of Blocks |
|---|---|---|---|---|---|
| Bhubaneshwar Park | Durgeshwari Industrial & Logistics Parks Private Limited/ TVS ILP | Warehouse | Chandaka, Bhubaneshwar | 10.67 | 4 |

*Source: Client Inputs; For clarity, we are valuing the Property/ Asset only, not the SPV/Hold Co, which has been provided for reference only.*

Further, valuation has been undertaken to ascertain the market value of the Subject Assets forming part of the proposed TVS Infrastructure Trust as of the valuation date. The valuer has estimated the market value of each individual asset, not the value of the portfolio of Assets (if sold in one transaction) or SPV/ Holding company.

*For clarity, we are valuing the Property/ Asset only, not the SPV/Hold Co, which has been provided for reference only*

## 2.1 Purpose

As per our instructions the valuation is required by the Client for a proposed offer of units through private placement (the" IPO") as defined under the Securities and Exchange Board of India (Infrastructure Investment Trust) Regulations, 2014, as amended, together with clarifications, guidelines and notifications issued thereunder, on the Indian stock exchanges. In relation to the Private Placement, the Valuation report, a summary thereof and/or extracts of the report are intended to be included in the Offer Documents filed by the TVS Infrastructure Trust with the Securities and Exchange Board of India (SEBI) and the stock exchanges where the units of the InvIT are proposed to be listed.

## 2.2 Reliant Party

The Reliant Parties to this Summary Report will be the Client and TVS Infrastructure Trust, TVS Infrastructure Investment Manager Private Limited in its capacity as Investment Manager and TVS Industrial and Logistics Park Private Limited in its capacity as Sponsor for the purpose of the valuation as highlighted in this report. for the purpose of the valuation as highlighted in this report.

The valuation has been prepared strictly and only for the use of the parties as stated above (Reliant Parties) and for the Purpose specifically stated. The Client would make all Reliant Parties aware of the terms and conditions of this agreement under which this exercise is being undertaken and take due acknowledgements to the same effect.

## 2.3 Limitation and Disclaimers to Liability

- Valuer is not operating under any financial services license when providing the Valuation Report ("Valuation Report") and this document does not constitute financial product advice. Investors should consider obtaining independent advice from their financial advisor before making any decision to invest in TVS Infrastructure Trust.

- This Valuation Report is strictly limited to the matters contained within this report, and are not to be read as extending, by implication or otherwise, to any other matter in any Offer/ Draft Placement Memorandum/ Placement Memorandum/ Final Placement Memorandum ("Offer Document"). Valuer does not approve or endorse any part of the Offer Document. Any reference to the Valuer or this Valuation Report within the Offer Document must be read in conjunction with this Valuation Report.

- Valuers disclaims any liability to any person in the event of an omission from, or false and misleading statements included in the Offer Document, other than in respect of the information provided within the Valuation Report. Valuers shall not make any warranty or representation as to the accuracy of the information in any part of the Offer Document, other than in respect of the methodology used for the preparation of the information provided within the Valuation Report.

- The liability of Valuer is limited to the Instructing Party, and any Reliant Party nominated within this report only. No accountability, obligation or liability to any third parties is accepted by the Valuer. Valuer disclaims all liability to any investor.

- No liability is accepted for any loss, harm, cost or damage (including special, consequential or economic harm or loss) suffered as a consequence of fluctuations in the real estate market subsequent to the date of valuation. Valuer shall not be liable for any indirect, special, punitive or consequential loss or damage howsoever caused, whether in contract, tort or otherwise, arising from or in connection with this Valuation Report.

- Valuer accepts no responsibility or liability whatsoever (i) unless full disclosure of all information and matters that may have an impact upon the value and marketability of the asset has been made by the Instructing Party or (ii) for any matter arising out of or in relation to possible environmental site contamination or any failure to comply with environmental legislation which may affect the value of the asset.

- None of our employees, directors or Valuers individually has a contract with the Instructing Party or owes them a duty of care.

- Valuer has prepared the Valuation Report relying on and referring to information provided by the Instructing Party and/or third parties including financial and market information ("Information"). Valuers have assumed that the Information is accurate, reliable and complete and has not independently verified such Information.

- The Valuation Report draws attention to the key issues and considerations impacting value and provides a detailed assessment and analysis as well as key critical assumptions, general assumptions, disclaimers, limitations and qualifications and recommendations. As commercial investments of this nature are inherently complex and the market conditions have changed and/or have been uncertain in recent times, Valuer recommends that any references to value within the Offer Document must be read and considered together with the Valuation Report.

- This Valuation Report may not be reproduced in whole or in part without the prior written approval of the Valuer.

- The Valuation Report does not purport to contain all the information that a potential investor or any other interested party may require. It does not consider the individual circumstances, financial situation, investment objectives or requirements. It is intended to be used as guide and for information purposes only and does not constitute advice including without any limitation, investment, tax, legal or any other type of advice. The valuations stated are only best estimates and are not to be construed as a guarantee. Potential investors should not rely on any material contained in the Valuation Report as a statement or representation of fact but should satisfy themselves as to its correctness by independent investigation and review of the Valuation Report to understand the assumptions and methodologies stated in the reports.

- For the avoidance of doubt, all references to "Offer Document" herein shall include any Offer Document, final Offer Document, prospectus and/or any other accompanying documents required under the SEBI (InvIT) Regulations 2014.

## 2.4 Valuer Capability

iVAS Partners, (Valuer Registration Number: IBBI/RV-E/02/2020/112), represented by its partner Mr. Shubhendu Saha (Valuer Registration Number: IBBI/RV/05/2019/11552) delivers reliable and independent valuation (across categories viz. land & building and plant & machinery), advisory and technical due diligence services, that combine professional expertise with comprehensive databases, analytics and market intelligence across various asset classes and locations in India.

Mr. Shubhendu Saha is registered as a valuer with the Insolvency and Bankruptcy Board of India (IBBI) for the asset class Land and Building under the provisions of The Companies (Registered Valuers and Valuation) Rules, 2017 since 15 May 2019. He completed his Bachelor in Planning from the School of Planning and Architecture, New Delhi in 1997 and master's in Management studies from Motilal Nehru National Institute of Technology, Allahabad in 1999.

## 2.5 Disclosures

This Valuer hereby certify that:

- iVAS Partners (Valuer Registration Number: IBBI/RV-E/02/2020/112), represented by its partner Mr. Shubhendu Saha (Valuer Registration Number: IBBI/RV/05/2019/11552), is registered as a registered valuer entity under Section 247 of the Companies Act, 2013 and The Companies (Registered Valuers and Valuation) Rules, 2017, as amended, and is eligible to be appointed as Valuer under the provisions of the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014, as amended and that the Valuation report has been prepared in accordance with these InvIT Regulations.

- iVAS Partners (represented by Mr. Shubhendu Saha - Partner, iVAS Partners) is not an associate of TVS Industrial & Logistics Parks Private Limited (the "Sponsor"), TVS Industrial and Logistics Park Investment Manager Private Limited (the "Investment Manager") and TVS Infrastructure Trust (the "Trust")

- The Valuer, as represented by its partner, Mr. Shubhendu Saha, has the required minimum years of experience in the valuation of infrastructure assets, as required under the SEBI (InvIT) Regulations.

- The Valuer has not been involved with the acquisition or disposal within the last twelve months of any of the asset(ies) valued under this Valuation report.

- The Valuer has adequate and robust internal controls to ensure the integrity of the Valuation reports.

- The Valuer has sufficient key personnel with adequate experience and qualification to perform services related to asset valuation at all times.
- The Valuer has sufficient financial resources to enable them to conduct their business effectively and meet their liabilities.
- The Valuer has acquainted itself with all laws or regulations relevant to such valuation.
- iVAS Partners is not prohibited from acting as a valuer under applicable law.
- The valuation of assets undertaken is impartial, true and fair and in accordance with the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014, regulation 21.
- The Valuer and any of its employees/ Valuer involved in valuation of the InvIT assets are not invested in and shall not invest in units of the InvIT or in the assets being valued during the time such entity/person is designated as valuer of such InvIT and not less than 6 months after ceasing to be valuer of the InvIT.
- The Valuer has conducted the valuation of the InvIT assets with transparency and fairness and has rendered and shall render, at all times, high standards of service, exercise due diligence, ensure proper care and exercise professional judgement.
- The Valuer has acted with independence, objectivity and impartiality in performing the valuation.
- The Valuer has discharged its duties towards the TVS Infrastructure Trust in an efficient and competent manner, utilizing its knowledge, skills and experience in best possible way to complete the said assignment.
- The Valuer has not and shall not accept remuneration, in any form, for performing a valuation of the InvIT assets from any person or entity other than the TVS Infrastructure Trust or its authorized representatives.
- The Valuer has no present or planned future interest in the Management, Trustee, TVS Infrastructure Trust, the Sponsor to the TVS Infrastructure Trust and its sponsor group or the Special Purpose Vehicles (SPVs), holdcos, investment entity and the fee for this Report and the valuation exercise is not contingent upon the values reported herein. Our valuation analysis should not be construed as investment advice; specifically, we do not express any opinion on the suitability or otherwise of entering into any financial or other transaction with the Management or the SPVs/ holdcos/ investment entity.
- The Valuer shall before accepting any assignment from any related party to the TVS Infrastructure Trust, disclose to the TVS Infrastructure Trust, any direct or indirect consideration which the Valuer may have in respect of such assignment
- The Valuer shall disclose to the trustee of the TVS Infrastructure Trust, any pending business transactions, contracts under negotiation and other arrangements with the Management or any other party whom the TVS Infrastructure Trust is contracting with and any other factors which may interfere with the Valuer's ability to give an independent and professional valuation of the asset; as on the date of valuation, there are no impediments for Valuer to give an independent professional value opinion of the asset
- The Valuer has not made false, misleading or exaggerated claims in order to secure assignments.

- The Valuer has not and shall not provide misleading valuation, either by providing incorrect information or by withholding relevant information
- The Valuer has not accepted and shall not accept an assignment that includes reporting of the outcome based on predetermined opinions and conclusions required by the TVS Infrastructure Trust
- The valuer has not accepted the said assignment which interferes with its ability to do fair valuation
- The valuation undertaken by the Valuer abides by International Valuation Standards for valuation in compliance with The Companies (Registration of Valuers and Valuation) Rules, 2017
- The Valuer understands that most of these assets are wholly/partly owned/ tenanted by related parties, hence, any transactions related to these assets from the related parties being valued would be related party transactions.
- The Valuer notes that there are encumbrances, however, no options or pre-emptions rights in relation to the assets based on the title report prepared by Cyril Amarchand Mangaldas (hereinafter collectively referred to as 'Legal Counsels'). The Valuer does not have the expertise or the preview to verify the veracity or quantify these encumbrances, disputes or claims. For the purpose of this valuation, the Valuer has assumed that the respective assets have title deeds that are clear and marketable.

## 2.6 Assumptions, Disclaimers, Limitations & Qualifications to Valuation

| | |
|---|---|
| Valuation Subject to Change: | The subject valuation exercise is based on prevailing market dynamics as on the date of valuation and does not take into account any unforeseeable developments which could impact the same in the future |
| Our Investigations: | The Valuers are not engaged to carry out all possible investigations in relation to the subject assets. Where in our report the Valuer identify certain limitations to our investigations, this is to enable the reliant party to instruct further investigations were considered appropriate or where the Valuer recommend as necessary prior to reliance. The Valuer are not liable for any loss occasioned by a decision not to conduct further investigations |
| Assumptions: | Assumptions are a necessary part of undertaking valuations. The Valuer adopts assumptions for the purpose of providing valuation advice because some matters are not capable of accurate calculation or fall outside the scope of our expertise, or our instructions. Assumptions adopted by iVAS Partners will be formulated on the basis that they could reasonably be expected from a professional and experienced valuer. The Reliant Party accepts that the valuation contains certain specific assumptions, and acknowledges and accepts the risk that if any of the assumptions adopted in the valuation are incorrect, then this may have an effect on the valuation |
| Information Supplied by Others: | The valuations are based on the information provided by the Client (TVS Industrial & Logistics Parks). The same has been assumed to be correct and has been used for valuation exercise. Where it is stated in the report that another party has supplied information to the 'Valuer', this information is believed to be reliable, but the 'Valuer' can accept no responsibility if this should prove not to be so.<br>We have assumed that where any information relevant to our valuation is supplied by the Instructing Party, or by any third party at Instructing Party's instigation, it is correct and comprehensive, and can be safely relied upon by us in preparing our valuation.<br>We would recommend that before any financial transaction is entered into based on the valuations, you obtain verification of any third-party information provided. We also recommend that you check the validity of the assumptions we have adopted in our report (where we have been unable to verify the facts through our own observations or experience) |

| | |
|---|---|
| Matters which affect or may affect the valuation | If the Reliant Party becomes aware of any matters which affect or may affect the valuation, then Valuer must be advised of those matters. The Reliant Party's failure to do so will disentitle the Reliant Party to place reliance on the valuation and reliance must not be placed on the valuation/s under any circumstance |
| Future Matters: | To the extent that the valuation includes any statement as to a future matter, that statement is provided as an estimate and/or opinion based on the information known to the 'Valuer' at the date of this document. The 'Valuer' does not warrant that such statements are accurate or correct |
| Map and Plans: | Any sketch, plan or map in this report is included to assist reader while visualizing the Assets and the Valuers assume no responsibility in connection with such matters.<br>Further. all maps and plans quoted in our report are solely for illustration purposes only. While they are extracted from public sources, they may be not to scale. Valuer does not warrant that such dimensions shown are accurate. |
| Site Details: | Based on the sale deed and no-objection certificate from Sarpanch (Kantabada village) and other information provided by the Client, the Valuer understands that the subject assets are free from any encroachments and are available as on the date of the valuation |
| Asset Title: | For the purpose of this valuation exercise, the Valuer has relied on the Sale deed and other related documents for each of the Assets and has made no further enquiries with the relevant local authorities in this regard. The Valuer understands that the subject assets may have encumbrances, disputes and claims. The Valuer does not have the expertise or the preview to verify the veracity or quantify these encumbrances, disputes or claims. For the purpose of this valuation, the Valuer has assumed that the respective assets have title deeds that are clear and marketable. We recommend that a suitable Asset Lawyer or similar reviews these assumptions and confirm they are reasonable before relying in this report. |
| Environmental Conditions: | In preparing our valuation we assume that no contaminative or potentially contaminative use is, or has been, carried out at the property. We do not undertake any investigation into the past or present uses of either the property or any adjoining or nearby land, to establish whether there is any potential for contamination from these uses and assume that none exists. Should it, however, be subsequently established that such contamination exists at the property or on any adjoining land or that any premises have been or are being put to contaminative use, this may have a detrimental effect on the value reported |
| Town Planning: | The current zoning of the subject assets has been adopted on the basis of review of various documents (title deeds & approval documents) provided by the Client and the current land use maps for the subject region. The same has been considered for the purpose of this valuation exercise. Further, it has been assumed that the development on the subject assets adheres/ would adhere to the development regulations as prescribed by the relevant authorities. The Valuer has not made any enquiries with the relevant development authorities to validate the legality of the same.<br>Our valuations are prepared on the assumption that the premises comply with all relevant statutory enactments and Building Acts and Regulations, that a valid and up-to-date Fire Certificate has been issued. We assume that all necessary consents, licenses and authorizations for the use of the asset and the process carried out therein have been obtained and will continue to subsist and are not subject to any onerous conditions.<br>In the event that a legal requisition or other relevant planning information or document is obtained, and the information therein is found to be materially different to the town planning information in the report, the valuation must not be relied upon before first consulting iVAS Partners to reassess any effect on the valuation/s |
| Area: | The total leasable area considered for the purpose of this valuation exercise is based on the rent roll provided by the Client. It must be noted that the above information has been provided by the Client and has been verified based on the approvals/ layout plans/building plans provided by the Client. However, the Valuer has not undertaken additional verification and physical measurement for the purpose of this valuation exercise |
| Condition & Repair: | In the absence of any information to the contrary, the Valuer has assumed that there are no abnormal ground conditions, nor archaeological remains present which might adversely affect the current or future occupation, development or value of the asset; the asset is free from rot, infestation, structural or latent defect; no currently known deleterious or hazardous materials or suspect techniques will be used in the construction of or subsequent alterations or additions to the asset and comments made in the asset details do not purport to |

| | |
|---|---|
| | express an opinion about, or advice upon, the condition of uninspected parts and should not be taken as making an implied representation or statement about such parts |
| Not a Structural Survey: | The Valuer states that this is a valuation report and not a structural survey |
| Legal: | Unless specifically disclosed in the report, the Valuer has not made any allowances with respect to any existing or proposed local legislation relating to taxation on realization of the sale value of the subject asset.<br>We do not read legal documentation. Where legal documentation is provided to us, we will have regard to the matters therein but recommend that reliance should not be placed on our interpretation thereof without prior verification by your legal advisors. Unless disclosed to us, we assume that there are no outstanding statutory breaches or impending litigation in respect of the property. We further assume that all documentation is satisfactorily drawn and that unless disclosed to us, there are no unusual or onerous restrictions, easements, covenants or other outgoings which would adversely affect the value of the relevant interest(s). In respect of leasehold Assets, we will assume that your landlord will give any necessary consents to an assignment. Unless notified to the contrary we assume that each property has a good and marketable title and is free from any pending litigation |
| Others: | Considering the unorganized nature of real estate markets in India, all comparable evidence (if any) provided in the valuation report has been limited to the basic details such as the area of asset, rate at which transacted, broad location, etc. other specific details would be provided only if the information is available in public domain |
| Other Assumptions: | Please note that all the factual information such as tenants' leasable area, lease details such as lease rent, lease commencement and lease end date, lock – in period, escalation terms, etc. pertaining to the subject assets is based on the rent roll provided by the Client and the same has been adopted for the purpose of this valuation exercise. The rent rolls have been cross-checked with copies of the lease deeds on a sample basis as shared with the valuer to verify the authenticity. Any change in the above information will have an impact on the assessed value and in that case the Valuer will have to relook at the assessed value. The relevant information sources are represented in section 2.5.<br>All measurements, areas and ages quoted in our report are approximate.<br>We are not advisors with respect to legal, tax and regulatory matters for the transaction. No investigation of the respective Special Purpose Vehicles (SPVs) holding the assets' claim to title of assets has been made for the purpose of this Report and the SPVs' claim to such rights have been assumed to be valid. No consideration has been given to liens or encumbrances against the assets. Therefore, no responsibility is assumed for matters of a legal nature |
| Flooding risk: | We have assumed that either there is no flooding risk or, if there is, that sufficient flood defenses are in place and that appropriate building insurance could be obtained at a cost that would not materially affect the capital value. |
| Site Conditions: | We do not commission site investigations to determine the suitability of ground conditions and services, nor do we undertake environmental or geotechnical surveys. We have assumed that these aspects are satisfactory and also that the site is clear of underground mineral or other workings, methane gas or other noxious substances.<br>In the case of property which may have redevelopment potential, we proceed on the basis that the site has load bearing capacity suitable for the anticipated form of redevelopment without the need for additional and expensive foundations or drainage systems (unless stated otherwise) |
| Hazardous & deleterious materials | Unless otherwise noted, we have assumed that the improvements are free of Asbestos and Hazardous Materials, or should these materials be present then they do not pose significant risk to human health, nor require immediate removal. We assume the site is free of subsoil asbestos and have made no allowance in our valuation for site remediation works.<br>Our visual inspection is an inconclusive indicator of the actual condition/presence of asbestos/hazardous materials within the property. We make no representation as to the actual status of the Property. If a test is undertaken at some time in the future to assess the degree, if any, of the presence of any asbestos/hazardous materials on site and this is found to be positive, this valuation must not be relied upon before first consulting iVAS Partners to reassess any effect on the valuation. |

| | |
|---|---|
| | Unless specifically instructed, we do not carry out investigations to ascertain whether any building has been constructed or altered using deleterious materials or methods. Unless specifically notified, our valuation assumes that no such materials or methods have been used |
| Unregistered interests | We have assumed that there are no unregistered interests or interests not captured by the applicable Regulatory Authority in the country which services are to be carried out which may affect market value. In the event that the Reliant Party becomes aware of any further or pending easements, encumbrances or unregistered interests, this valuation must not be relied upon before first consulting iVAS Partners in writing to reassess any effect on the valuation |
| Heightened Market Volatility | We draw your attention to a combination of global inflationary pressures (leading to higher interest rates) and recent failures/stress in banking systems which have significantly increased the potential for constrained credit markets, negative capital value movements and enhanced volatility in asset markets over the short-to-medium term.<br>Experience has shown that consumer and investor behavior can quickly change during periods of such heightened volatility. Lending or investment decisions should reflect this heightened level of volatility and the potential for deteriorating market conditions. Lending and Investment caution is advised in this regard.<br>It is important to note that the conclusions set out in this report are valid as at the valuation date only. Where appropriate, we recommend that the valuation is closely monitored, as we continue to track how markets respond to evolving events. |
| Construction Cost Volatility: | Although general increases in material costs have stabilized since 2022, some specialized supply chains and construction-related labor costs remain volatile with the potential for further increases. This has created uncertainty in cost estimates, which is likely to continue.<br>In addition, there are significant risks that delays may be encountered in sourcing specialized materials and labor, and as such, the potential for ongoing cost escalations and delays is high. This may place additional pressure on developer and contractor profit margins and development viability.<br>These inherent risks should therefore be given careful consideration in lending and investment decisions. Caution is advised in this regard. |

# 3 Bhubaneshwar– Market Structure and Conditions

## 3.1 Information

For the purpose of the valuation exercise, reliance has been made on the deliverables of CBRE South Asia Private Limited, an independent agency appointed by TVS to undertake market research, provide market commentary, and data as a part of a report (the "Industry Assessment Report") for the purpose of this assignment.

## 3.2 Demand and Supply

### 3.2.1 Demand and Supply Trends – Bhubaneshwar

As of Q3 CY 2024, Bhubaneshwar market comprises a total completed warehousing stock of 3.10 Mn sft, with the Chandaka micromarket accounting for approximately 54% of this supply. Warehousing activity in Bhubaneswar is distributed across six major micromarkets: Chandaka, Janla, Jatni, Pahal, Patia, and Mancheswar. Chandaka and Pahal are the prominent warehousing micromarkets, offering predominantly investment-grade (Grade A) warehousing space. In contrast, the markets of Janla, Jatni, Patia, and Mancheswar primarily comprise Grade B and C stocks.

The completed supply distribution in Chandaka, Janla, and Jatni micromarkets collectively contribute 1.69 Mn sft (55%), followed by Pahal with 1.14 Mn sft (37%), and Patia and Mancheswar together accounting for 0.24 Mn sft (8%). Over the past few years, Patia and Mancheswar micromarkets have experienced limited traction. Conversely, Pahal and Chandaka have seen significant demand from major companies such as Flipkart, Amazon, Delhivery, LG, and Samsung, which have established a strong presence in these regions.

The region possesses an operational warehouse supply of approximately 3.10 Mn sft, with around 2.7 Mn sft currently occupied. Prior to 2018, the supply predominantly comprised Grade B and C developments. However, over the past 5 to 6 years, the proportion of Grade B and C stock has significantly diminished due to rising demand for high-quality warehousing spaces from sectors such as manufacturing, e-commerce, logistics, and electronic goods etc. Consequently, there has been a substantial increase in the supply of Grade A warehousing space.

| Particulars | Details |
|---|---|
| Cumulative completed warehouse stock (Q3 2024) | Approx. 3.10 msf |
| Cumulative occupied stock (Q3 2024) | Approx. 2.70 msf |
| Current vacancy (Q3 2024) | Approx. 16% |
| Future supply | Under-construction: 0.07 – 0.11 Mn sft.<br>Planned Supply: 1.1 – 1.5 Mn sft |

*Source: Industry Assessment Report dated as of January, 2025*

Grade A developments are predominantly situated in the Chandaka, Janla, Jatni, and Pahal micromarkets, catering to the e-commerce, electronic goods, food and packaging, and manufacturing sectors. Over the past 6 to 7 years (2018–2023), a consistent increase in supply has been recorded, with an average annual addition of approximately 0.22 Mn sft. The demand for Grade A developments in these micromarkets is driven by their strategic locations, proximity to key transportation hubs (such as Babasaheb Bhimrao Ambedkar Bus Terminal, Bhubaneswar railway

station, etc.), and the availability of skilled labour. Additionally, the growth of these sectors in the region is bolstered by established industrial clusters and supportive government policies.

Grade A developments account for approximately 1.13 Mn sft (38% of the total finished supply in Bhubaneswar), while Grade B and Grade C developments each account for 1.94 Mn sft (63% of the total finished supply). The proportion of Grade A developments in the city's market composition is expected to increase in the coming years, driven by heightened supply and growing interest from both national and international enterprises.

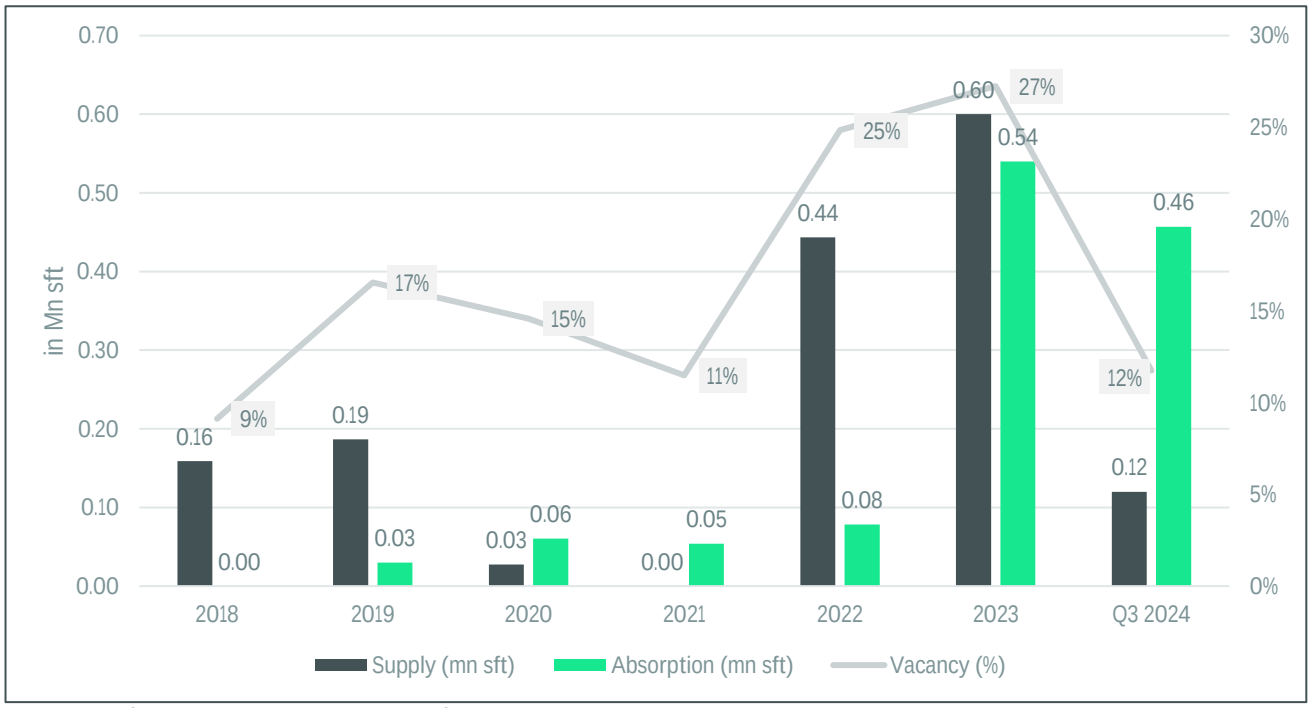
Most of the warehousing activity in the region has been concentrated in the Grade A development category, primarily developed by local warehousing developers. Key tenant sectors occupying space in Grade A developments include manufacturing, e-commerce, electronics, logistics and distribution, machinery and equipment, and general warehousing. Prominent tenants include Flipkart, Delhivery, Coca-Cola, LG, Samsung, Asian Paints, Amazon, VRL Logistics, and Dr. Reddy's.

In the 3PL and logistics sector, small-scale tenants typically occupy 6,000–15,000 sft, mid-scale tenants occupy 30,000–50,000 sft, and large-scale tenants can occupy up to 180,000 sft. In the e-commerce sector, major players typically occupy between 20,000 and 25,000 sft, with large-scale occupancies ranging from 100,000 to 300,000 sft.

The upcoming supply in the region is in the range of 1.2 – 1.4 Mn sft, majorly across Grade A warehousing space and is expected to be introduced phase wise between 2025 to 2029. The under-construction supply in the market ranges 0.04 – 0.06 Mn sft.

Demand – Supply Dynamics of Subject Market: Bhubaneshwar

Figure 1: Y-O-Y Supply & Absorption level in Bhubaneshwar



*Source: Industry Assessment Report, data as on Q3 2024*

The average quoted base rental witnessed in Bhubaneswar is in the range of INR 25- 27 sft / month for a Grade A development and between INR 18-20sft / month for a Grade B development. Micro Market Wise Grade A and B Average Asking Rentals are enumerated below in the table:

| MICRO-MARKET | 2021 | | 2022 | | 2023 | | Q3 2024 | |
|---|---|---|---|---|---|---|---|---|
| Grade | A | B | A | B | A | B | A | B |
| Chandaka | 20–22 | 18–20 | 21–23 | 18–20 | 22–24 | 19–21 | 23–25 | 20–22 |
| Janla | NA | 17–19 | NA | 17–19 | NA | 18–20 | NA | 19–21 |
| Jatni | NA | 15–17 | NA | 16–18 | NA | 17–19 | NA | 18–20 |
| Pahal | NA | 22–24 | NA | 23–25 | 25–27 | 24–26 | 26-28 | 25–27 |
| Mancheswar | NA | 21–23 | NA | 22-24 | NA | 23–25 | NA | 24–26 |
| Patia | NA | 20–22 | NA | 21– 23 | NA | 22–24 | NA | 23–25 |

### 3.2.2 Demand & Supply Trends – Chandaka

The Chandaka region is recognized as an established warehouse micromarket, with numerous e-commerce, logistics, electronics, and manufacturing companies having already secured space there. These micro markets have gained prominence primarily due to their proximity to the Khurdha Industrial Estate (approximately 10–15 km) and the availability of land parcels near the Khurdha–Chandaka Road. Key industries such as e-commerce, food manufacturing, electronics, and logistics occupy approximately 74% of the total supply in the Chandaka micromarket. Notable tenants include Flipkart, Amazon, Coca-Cola, LG, Philips, ITC, and Safexpress.

The rental disparity between Grade A and Grade B properties is minimal because there have been no new additions to Grade B properties in these micro markets. All recent developments have been Grade A properties, which are competitively priced to capture market share. Consequently, occupiers are transitioning from Grade B to Grade A properties within the same rental range.

The majority of forthcoming supply is anticipated in the Chandaka, Jatni, and Pahal micromarkets. Several individual landlords possess vacant land parcels near existing warehouse micromarkets and are willing to enter build-to-suit contracts with potential occupiers. The Western Cluster, consisting of the Chandaka, Jatni, and Janla micromarkets, is situated on the western side of Bhubaneswar, along Khurdha-Chandaka Road, NH16, and SH13. The Umang Group is one of the dominant players in this area, with multiple warehouses in the Chandaka micromarket.

The market's proximity to Khurdha Industrial Estate and excellent connectivity via Khurdha-Chandaka Road have facilitated its development. This cluster represents approximately 50% of the total completed supply in the Bhubaneswar region, with around 62% of this supply being Grade A.

| Particulars | Details |
|---|---|
| Cumulative completed warehouse stock (Q3 2024) | Approx. 1.29 msf |
| Cumulative occupied stock (Q3 2024) | Approx. 1.09 msf |
| Current vacancy (Q3 2024) | Approx. 8% % |
| Future supply | 0.06 – 0.07 Mn sft |

*Source: Industry Assessment Report, data as on Q3 2024*

We have analysed the demand and supply of leased industrial and warehousing spaces within the subject micromarket. All the completed, grade A and grade B, multi-tenanted warehousing and logistics developments in the influence region i.e., Chandaka are included while defining the sample set for the demand supply analysis. Based on our market research, we understand that the subject micromarket has a cumulative vacancy of approx. 10-12% in the grade A supply while a vacancy of approx. 13-15% overall, including grade A and grade B developments. The table below exhibits the demand and supply levels for the completed assets at the city level.

The current prevalent asking rent in the subject micromarket is in the range of INR 19–22 sft/month for Grade A warehousing developments. For Grade B warehouses, the asking rentals are witnessed to be in the range of INR 15–18 sft/month. The asking rentals in the market are expected to remain range-bound in the short to medium term with market standard escalation of 4-5% annually.

In the recent years, the demand has kept pace with the supply due to various FMCG, E-commerce & manufacturing firms showing significant interest in the Chandaka micromarket. Further, considering an established manufacturing ecosystem in and around Bhubaneshwar, the demand for warehousing spaces in key micromarkets like Chandaka and Jagatpur have been driven by manufacturing, E-commerce firms etc.

Chandaka micromarket has been a major contributor in the demand and supply trends witnessed at city level with a share of approx. 43%. The subject micromarket has emerged as an attractive industrial destination primarily on account of presence of adequate infrastructure, excellent surface connectivity, access to low-cost manpower and ease of acquiring statutory approvals. Chandaka has evolved into a major industrial hub due to the presence of prominent Grade A developments with superior build quality vis-à-vis other micromarkets in the city. It has seen development activities from major, thus attracting higher rentals and superior tenant mix.

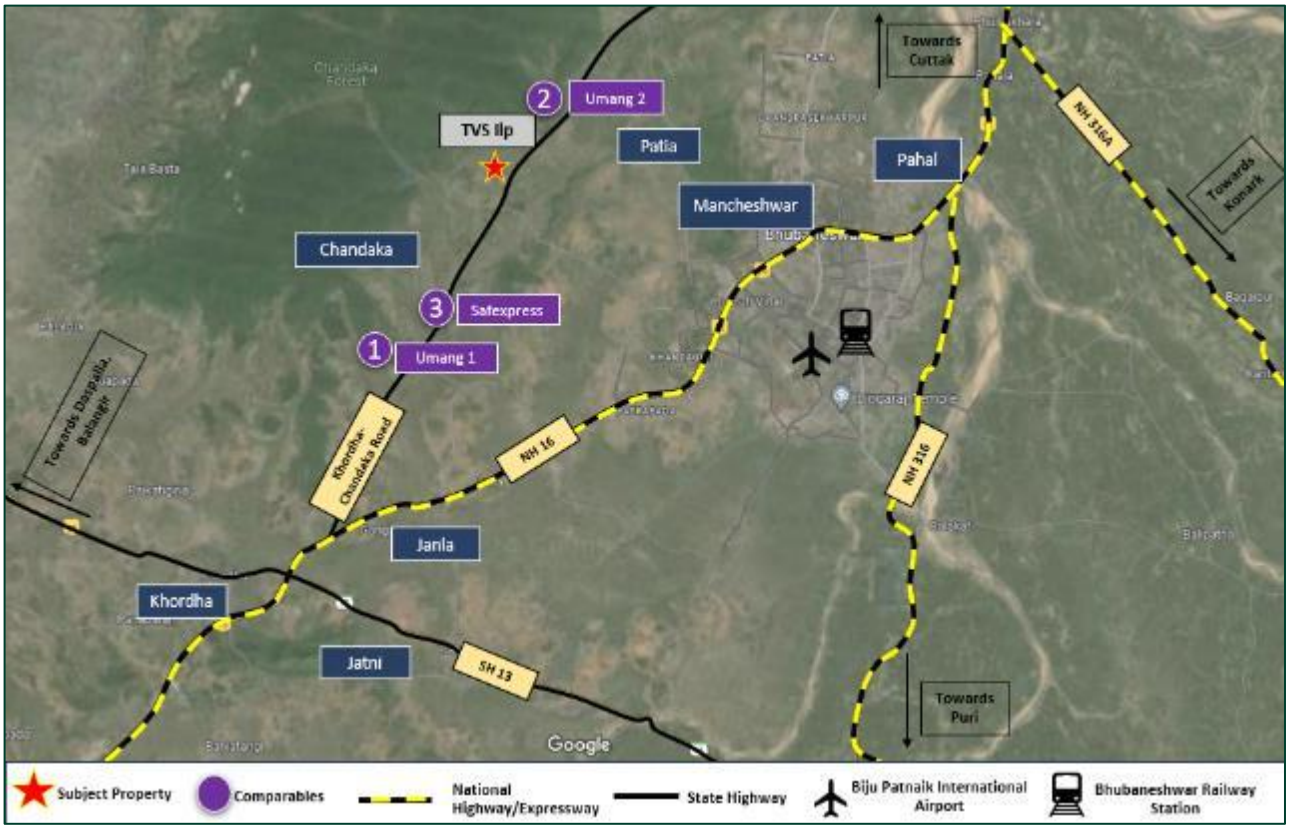
#### 3.2.2.1 Key Developments in Micromarket

The table below highlights the prominent developments in the subject micromarket:

| Building Name | Land Area (Acres) | Leasable Area (sft) | Average Lease Rental (INR per sft pm) |
|---|---|---|---|
| Umang Warehouse 1 | 25 | 5,00,000 | 21 - 22 |
| Umang Warehouse 2 | 6.7 | 2,20,000 | 18 – 20 |
| Safe Express Warehouse | 8.7 | 1,80,000 | 22 - 23 |

*Source: Industry Assessment Report*

The above-mentioned key developments are marked along with the subject asset in the map below:



*Source: Valuer's Assessment*

### 3.2.2.2 Future Supply

Based on the market research, we understand that the micromarket of Chandaka has an upcoming supply of approx. 0.06 – 0.07 Mn sft expected to be completed till 2026.

### 3.2.3 Market Rent

The table below highlights the recent lease transactions in the micromarket:

| Location | Tenant Sector | Grade | Chargeable Area (sft) | Total Rent (INR per sft per month) | Date of Transaction |
|---|---|---|---|---|---|
| Chandaka | E-commerce | Grade A | 80,000 | 22 -23 | Q2 2024 |
| Jagatpur | Auto & Auto Components | Grade A | 40,000 | 18 – 19 | Q1 2024 |
| Jatni | Packaging | Grade A | 40,000 | 16 – 17 | Q1 2024 |
| Chandaka | FMCG | Grade A | 66,000 | 21 – 22 | Q4 2023 |
| Chandaka | FMCG | Grade A | 1,20,000 | 21 – 22 | Q3 2023 |

| | | | | | |
|---|---|---|---|---|---|
| Jagatpur | Manufacturing (Footwear) | Grade A | 58,000 | 17 – 18 | Q3 2023 |
| Jagatpur | Manufacturing (Chemical) | Grade A | 32,000 | 17 – 18 | Q3 2023 |
| Choudwar | Ecommerce | Grade A | 2,00,000 | 21 – 22 | Q3 2023 |
| Choudwar | FMCG | Grade A | 1,20,000 | 21 – 22 | Q3 2023 |
| Chandaka | Ecommerce | Grade A | 2,00,000 | 21 – 22 | Q2 2023 |
| Chandaka | Others | Grade A | 50,000 | 19 – 20 | Q3 2022 |
| Chandaka | Logistics | Grade A | 18,000 | 20 – 21 | Q1 2022 |
| Chandaka | Logistics | Grade A | 17,000 | 20 - 21 | Q1 2022 |

*Source: Industry Assessment Report*

As can be observed from the table above and our interactions with other market players, the rentals in the micromarket ranges between INR 16 - 22/sft/month (base rentals). The variance across rentals is primarily due to factors such as location, accessibility, overall tenant mix, quantum of vacant stock in the development, specifications of the block, park level infrastructure, additional improvements, etc.

## 3.3 Market Outlook

Based on the market research, we understand that the subject region is perceived as an attractive destination for various industries, primarily due to its excellent connectivity via Khurdha – Chandaka Road, which links with National Highway 16, competitive rental rates, and the availability of developable land. Chandaka has many small- and large-scale industries which has enabled it to develop as an industrial ecosystem. Furthermore, driven by the expansion of the e-commerce sector and its continuous demand from major cities, the requirement for warehousing spaces is increasing. The primary factors influencing this demand are the availability of land and the established warehousing ecosystem in the region. Considering the historical absorption rates and the demand-supply dynamics observed in Chandaka, along with the rising capital values of land, there is a potential for upward tick on both rental and occupancy rates. Additionally, the subject development is well-positioned to attract interest from occupiers due to its strategic location on Khurdha-Chandaka Road, high-quality specifications and amenities, developer's reputation, etc.

The demand for warehousing space in Bhubaneswar is expected to continue to grow in the coming years. Envisaged supply of approx. 1.1 – 1.4 Mn sft is planned in next 3-4 years in the nearby vectors. However, no such large-scale project is planned in coming years yet within Chandaka. Considering, historical absorption witnessed in Chandaka, approximately 0.4 – 0.5 Mn sft of demand can be expected in next 3-4 years. This suggests a potential supply-demand gap in Chandaka, which, combined with rising land capital values, could put upward pressure on rental and occupancy rates. This gap presents an opportunity for developers to explore potential projects in Chandaka to cater to the growing demand.

# 4 Subject asset – Bhubaneshwar Park

## 4.1 Asset Description

The subject asset christened 'Bhubaneshwar Park' is a completed and operational warehousing facility with total leasable area of 2,32,954 sft located in Chandaka village, Bhubaneshwar, Orissa. The subject asset is currently accessible via Khurdha - Chandaka Road.

| Brief Description | |
|---|---|
| Particulars | Details |
| Asset Name | Bhubaneshwar Park |
| Address | Plot no. 121/ 1277, Mouza Khantabada, Khata no. 253/100, Thana – Chandaka, Tehsil Bhubaneshwar, District Khurda |
| Land Area | Based on review of the sale deed, the Valuer understand that the total land area of the subject asset is approx. 10.67 acres |
| Leasable Area | 2,32,954 sft |

*Source: Client Inputs*

Based on the information provided by the Client, it is understood that the subject asset is warehousing asset with land area admeasuring approx. 10.67 acres and leasable area admeasuring approx. 2,32,954 sft. The subject asset is understood to have a floor strength of 5 MT/sqm and has floor finishing of high-performance concrete flooring of FM2 Concrete type. The eave height of the warehousing box 1 & 2 are 12m and height at ridges of Box 1 & 2 is 15.05 m along with a lighting (lux level) of 200 lux.

Additionally, it is understood that the subject warehousing facility is EDGE certified featuring rooftop solar power provision, comprising of 24/7 ground support, and dedicated facility management. Further, there are provisions for additional services like rainwater harvesting and separate water supply systems, round-the-clock CCTV surveillance, first aid centers, and global standard firefighting systems.

Moreover, to ensure seamless operations, amenities like dedicated creche facilities, mezzanine and provision for racking, and uninterrupted power supply, water treatment systems, restrooms for drivers and ample parking for both two-wheelers and four-wheelers are also offered.

The prominent tenant in the subject asset includes tenants from Manufacturing, 3PL, Logistics etc sectors with a WALE of 3.20 Years

### 4.1.1 Site Details

Situation: Subject asset – 'TVS Industrial & Logistics Parks, Bhubaneshwar' is an operational warehousing facility located along the Khurdha - Chandaka Road.

Location: The subject asset is located in Village Chandaka towards the west of Bhubaneshwar. The subject asset is located in an established industrial micro -market of Bhubaneshwar viz. Khurdha - Chandaka Road which is an internal road leading from NH-16. Further, it is well connected to important industrial hubs & major cities via NH-16, NH-316 and other internal

roads. Prominent industries belonging to several sectors such as FMCG, Logistics, Manufacturing etc are present within the vicinity.

The distances from key hubs to the subject asset are presented in the table below:

| Landmark | Distance (Km) |
|---|---|
| National Highway 16 | 15 – 16 |
| Bhubaneshwar Bus Stand | 17 – 18 |
| Bhubaneshwar International Airport | 18 - 19 |
| Bhubaneshwar Railway Station | 21 – 22 |

*Source: Valuer's research*

Catchment Analysis:

The primary catchment for the purpose of this valuation has been defined as Chandaka and its adjoining micro markets which are predominantly characterized by industrial/warehousing development.

The Western Cluster comprises three micro markets: Chandaka, Jatni, and Janla. The cluster is located on the western side of Bhubaneswar, alongside Khordha-Chandaka Road, NH16, and SH13. Chandaka micro market has been a major contributor in the demand and supply trends witnessed at city level with a share of approx. 43%. The subject micro market has emerged as an attractive industrial destination primarily on account of presence of adequate infrastructure, excellent surface connectivity, access to low-cost manpower and ease of acquiring statutory approvals. Chandaka has evolved into a major industrial hub due to the presence of prominent Grade A developments with superior build quality vis-à-vis other micro markets in the city. It has seen development activities from major, thus attracting higher rentals and superior tenant mix.

Surrounds:

The subject asset is surrounded as follows:

- North: Vacant Land
- South: Vacant Land
- East: Khurdha - Chandaka Road (approx. 90m wide road)
- West: Vacant Land

Potential changes in surroundings:

The subject asset is located alongside Khurdha – Chandaka Road & NH-16 highway leading to micro markets such as Baramunda, Bhubaneshwar etc. where there is reasonable interest from developers to launch new assets comprising of largely industrial developments on the main arterial roads.

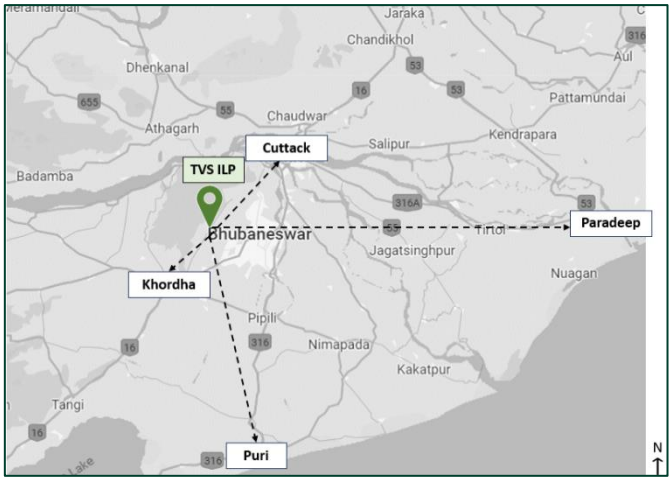
Suitability of existing use:

Considering the location and profile of surrounding developments coupled with site specific parameters, we are of the opinion that subject asset is suited for its current usage.

The following map indicates the location of the subject asset:

Location Map for the Subject asset

KEY LOCATION MAP OF THE ASSET



MACRO MAP OF THE ASSET

*Source*: *Industry Assessment Report*

| | |
|---|---|
| Shape: | Based on the site plan provided by the Client and visual inspection during the site visit, it is understood that the underlying land is largely regular in shape. |
| Topography: | Based on the site plan and as observations during our site visit, the site appears to be even and is at the same level as abutting access roads and adjoining land. |
| Frontage: | Based on review of site plan and visual inspection, we understand that the subject asset has adequate frontage along the primary access road. |
| Accessibility: | Based on the site plan provided by the Client and visual inspection, the primary access to the subject asset is via approx. 90 m wide Khurdha – Chandaka road (primary access road). By virtue of the same the asset enjoys excellent accessibility and frontage.<br>Please refer Section 7.0 Exhibit & Addendums for the site plan of the subject asset. |

### 4.1.2 Review of Sale Deed

As per the sale deed, we understand that the exact address of the subject asset is Plot no. 121/1277, Mouza Khantabada, Khata no. 253/100, Thana – Chandaka, Tehsil Bhubaneshwar, District Khurda. Additionally, it is understood that the subject asset is owned by Durgeshwari Industrial & Logistics Parks Private Limited and is freehold in nature.

### 4.1.3 Title Details

This valuation exercise is based on the premise that the subject asset has a clear title and is free from any encumbrances, disputes, claims, etc. Valuer has not made any inquiries in this regard with the relevant legal/ statutory authorities with the understanding this level of due diligence will be undertaken by the appropriate lawyers and then advised to the Valuer accordingly. We strongly recommend the assumption the asset has a clear title is confirmed before relying on the report.

### 4.1.4 Town Planning

| | |
|---|---|
| Zoning | As per the review of the approved site plan and NOC certificate from Sarpanch, Kantabada Village, provided by the Client, we understand that the subject asset is zoned |

| | |
|---|---|
| | for "Industrial" Use. The same has been considered for the purpose of this valuation. Valuer has made no further inquiries with the local authorities in this regard.<br><br>For the purpose of this exercise, it has been assumed that all developments (existing) adhere to building regulations as prescribed by the relevant authorities. Valuer has not validated the information provided by the Client with the relevant development authorities. |
| Approved Usage: | Based on copies of approved site plan provided by the Client and visual inspection during our site visit, the subject asset is a completed and operational warehousing facility. The current use of the subject asset is broadly in agreement with the rules and regulations as prescribed by the local development authority. However, Valuer has not made any enquiries with the relevant local authorities to validate the same for its specific applicability to the subject asset. |
| Restrictions: | As per feedback received from the Client, there are no other restrictions or constraints on the current use of the asset. |
| Natural or induced hazards: | We have not carried out any investigations or tests or been supplied with any information from Client or from any relevant expert that determines the presence or otherwise of pollution or contaminative substances in the Subject Asset or any other land (including any ground water).<br><br>For the purpose of assessing the vulnerability of the Subject Asset to any natural or induced disaster the location of the property with respect to risks pertaining to earthquakes, high winds/cyclone and flooding was studied. Bhubaneshwar, where the Subject Asset is located falls in Seismic Zone II with least risk. No hazardous activity was noted in the vicinity of the Subject Asset which may expose it for any induced disaster.<br><br>Further, as per the details provided by the client, the subject asset is prone to Rainfall & Cyclone effects since the Cyclone-prone region is approx. 60 Km from the coastline of the city which may result in the park being subjected to flooding due to heavy to very heavy rainfall. Further, the discharge water from open storm water drain may be hindered due to clogging/obstruction in the public canal and the discharge water from storm water drain may be hindered due to backflow of discharge water from the drain channel. Additionally, workers might be exposed to excessive heat and there might be chances of skin irritation and sickness due to Heating Effects in Summer Season wherein temperature raise upto 93F to 104 F.<br><br>Please note that the Valuer has not investigated nor has been provided with any supporting documents pertaining towards the above mentioned issues. |
| Approvals: | As per the documents provided by Client, we understand that the approvals mentioned in section 4.1.5.1 for the asset have been obtained. Please refer annexures for the details.<br><br>For the purpose of this exercise, it has been assumed that all developments adhere to building regulations as prescribed by the relevant authorities. Valuers have not |

validated the information provided by the Client with the relevant development authorities

### 4.1.5 Statutory Approvals, Sanctions & Approvals

#### 4.1.5.1 Statutory Approvals received and yet to be received (including One-time Sanctions & Periodic Clearances)

As per the review of documents provided by the Client, we understand that all requisite approvals have been received for the subject asset. The table below highlights the status of approvals for the subject asset:

| Approval/NOC | Status (Applied / Received) | Authority | Date of Issue (DD-MM-YY) |
|---|---|---|---|
| Change in Land Use | Received | Kantabada Gram Panchayat | 28-11-2017 |
| NALA Certificate | Not Provided | | |
| Building Plan Permit | Received | Kantabada Gram Panchayat | 28-11-2017 |
| Approval for change in land use | Received | Kantabada Gram Panchayat | 28-11-2017 |
| Building Plan Approval – Phase II | Received | Bhubaneshwar Development Authority | 22-08-2023 |
| NOC from Airport Authority of India | Not Provided | | |
| NOC from Ministry of Environment & Forest | Not Provided | | |
| Fire NOC – Recommendation Phase I | Received | Office of Deputy Fire Officer, Bhubaneshwar Circle, Bhubaneshwar | 27-11-2019 |
| Fire NOC – Recommendation Phase II | Received | Odisha Fire Service | 27-08-2021 |
| NOC from Pollution Control Board | Not Provided | | |
| Temporary Power connection | Not Provided | | |
| Temporary Water connection | Not Provided | | |
| CEIG approval for electrical installations | Received | Central Electricity Utility Supply of Odisha | 25-07-2018 |
| Final Fire NOC – Phase I | Received | Odisha Fire & Emergency Service | 27-03-2023 |
| Final Fire NOC – Phase II | Received | Odisha Fire & Emergency Service | 25-10-2023 |
| Electricity NOC | Not Provided | | |
| Ground Water Abstraction NOC/Permission for digging borewell | Received | Department of Water Resources, River Development and Ganga Rejuvenation, Central Ground Water Authority | 17-03-2022 |
| Water Supply NOC | Received | | 18-02-2020 |
| Structural Stability Certificate | Received | TATA Consulting Engineers | 25-05-2018 |
| Occupancy Certificate | Received | Bhubaneshwar Development Authority | 18-06-2021 |

*Source: Approval documents provided by the Client*

#### 4.1.5.2 List of up to date/overdue periodic clearances

As per the details provided by the Client, we understand that there are no overdue periodic clearances.

### 4.1.6 Area Details, Type and Age of Existing Structures

The table below highlights the age of the completed blocks of the subject asset:

| Block | Year of Completion | Age of structures (in years) | Built-up Area (sft) | Completed Area (sft) | Leased Area (sft) | Chargeable Area (sft) |
|---|---|---|---|---|---|---|
| Block I (Part A) | 2018 | 6 | 63,696 | 63,696 | 54,120 | 46,120 |
| Block I (Part B) | 2018 | 6 | | | 17,576 | 17,576 |
| Block II | 2018 | 6 | 1,21,872 | 1,21,872 | 1,21,872 | 1,21,872 |
| Block III (Open Area) | - | - | - | - | 10,000 | 10,000 |
| Block III | 2021 | 3 | 12,531 | 12,531 | 12,531 | 12,531 |
| Block IV | 2021 | 3 | 16,855 | 16,855 | 16,855 | 16,855 |
| | Total | | 2,14,954 | 2,14,954 | 2,32,954 | 2,24,954 |

*Source: Architect Certificate, Rent roll provided by Client; (Please note according to the lease agreement provided by the client, it is understood that the rent is paid on the chargeable area which has been considered for the valuation exercise).*

The table below highlights the area details of the subject asset:

| Block | Leasable area (sft) | Chargeable Area (sft) | Built-up Area (sft) |
|---|---|---|---|
| Bhubaneshwar Park Block I – (Closed Area -A) | 54,120 | 46,120 | 63,696 |
| Bhubaneshwar Park Block I – (Closed Area – B) | 17,576 | 17,576 | |
| Bhubaneshwar Park Block III (Closed) | 12,531 | 1,21,872 | 1,21,872 |
| Bhubaneshwar Park Block III (Open) | 10,000 | 10,000 | - |
| Bhubaneshwar Park Block II | 1,21,872 | 12,531 | 12,531 |
| Bhubaneshwar Park Block IV | 16,855 | 16,855 | 16,855 |
| | 2,32,954 | 2,24,954 | 2,14,954 |

*Source: Architect Certificate, Rent roll provided by Client; (Please note according to the lease agreement provided by the client, it is understood that the rent is paid on the chargeable area which has been considered for the valuation exercise).*

### 4.1.7 Site Services and Finishes

| Particulars | Completed Blocks | Under Construction Blocks | Land Stage Blocks |
|---|---|---|---|
| Handover condition | Warm Shell | N.A. | N.A. |
| Type of Structure | PEB | N.A. | N.A. |
| Firefighting services | Provided. Fire NOC Available | N.A. | N.A. |
| Lift provision | No Lifts | N.A. | N.A. |
| Floor Finish | FM2 Concrete floor | N.A. | N.A. |
| Floor Strength | 5 MT/Sqm | N.A. | N.A. |
| Height | Ridge: 13.94m, Eave's: 12m | N.A. | N.A. |
| Lighting | Lux level – 150 @1. From FFL; high bay fitting, PPC panel, capacitor panel at substation | | |
| Office | Space over 2 floors (Ground & mezzanine) | | |

### 4.1.8 Condition & Repair

Based on information provided by the Client and corroborated with our visual inspection during the site visit, we understand that the Subject Asset is in good condition and is maintained well.

### 4.1.9 Asset Photographs

4.1.14 Life of the asset (both contractually and physical life requiring maintenance, replacement and right available to extend this life

4.1.15 Valuation of the asset in the previous 3 years

As of the date of this valuation report, the Subject Asset is not part of the Infrastructure Investment Trust (InVIT)

# 5 Valuation Approach & Methodology

## 5.1 Scope of Valuation

The valuation exercise is to assess the Market Value (MV) of the Subject assets for the purpose of the initial public offering of TVS Infrastructure Trust under the SEBI (Infrastructure Investment Trust) Regulations, 2014, as amended. The valuations have been conducted in accordance with the IVSC International Valuation Standards, (effective 31 January 2022) and in accordance with the requirements of the SEBI (Infrastructure Investment Trust) Regulations, 2014, as amended from time to time.

This valuer has assessed the Market Value of each individual Subject asset, not the value of the portfolio, if all Assets were sold in one transaction. Where a summation of the individual Assets is provided, this is purely for reference only and should not be construed as the value of the portfolio. Kindly refer to the summary report section 1.0 for list of subject assets forming part of the portfolio.

## 5.2 Basis of Valuation

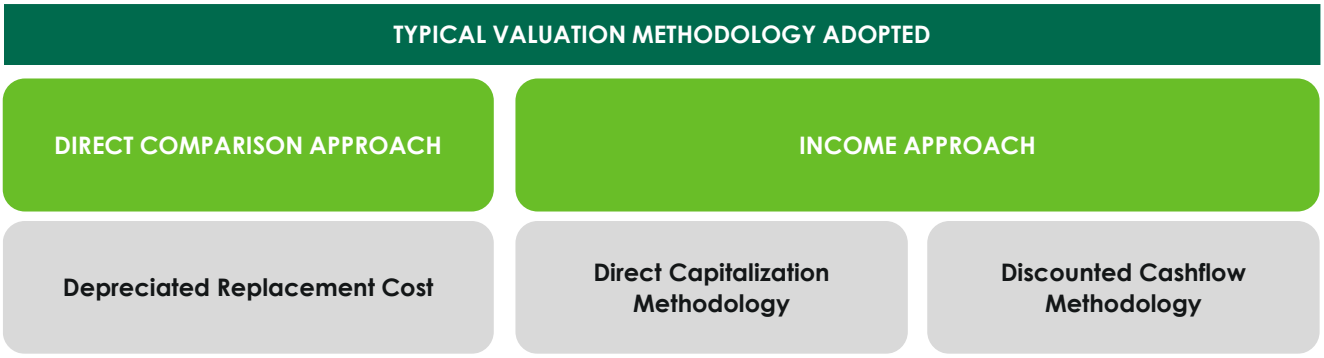
The valuations have been conducted in accordance with the IVSC International Valuation Standards issued in July 2021, effective from 31 January 2022), Regulation 21 and Schedule V of the SEBI (InvIT) Regulations, 2014 and is in compliance with the International Valuation Standards (IVS). The valuation exercise has been undertaken by appropriately qualified Valuer and will be assessing the Market Value of the ownership Interest in the subject asset.

As per the Valuation and Guidance Notes issued by the IVS, the market value is defined as:

***'The estimated amount for which** a asset or liability should exchange on the valuation date between a willing **buyer and a willing seller in an arm's length transaction, after proper marketing and where the parties had each acted knowledgeably, prudently and without compulsion'.***

## 5.3 Approach and Methodology

The purpose of this valuation exercise is to estimate the Market Value (MV) of the subject assets. Market Value can be derived through the following Methodologies:



### 5.3.1 Direct Comparison Approach

Under the 'Direct Comparison Approach', the asset is compared to similar Assets that have actually been sold in an arms-length transaction or are offered for sale (after deducting for value of built-up structure located thereon). The comparable evidence gathered during research is adjusted for premiums and discounts based on asset specific attributes to reflect the underlying value of the asset.

The value of the land component under this approach has been assessed based on comparison with similar Assets that have actually been sold in arms-length transaction or are offered for sale in the subject micromarket.

Based on our interactions with the local market players, we understand that the market has few Assets of comparable sizes which are currently available for sale in the market. Therefore, the value of the subject land parcel has been estimated through a direct comparison approach utilizing the seller quotes available in the market as well as few reported transactions.

The values for these comparable Assets are further adjusted for various premiums and discounts (viz. towards size, location, accessibility, frontage, visibility, ownership status, profile of the surrounding developments, zoning, etc.) vis-à-vis the subject asset to determine the achievable market value for the subject asset.

Based on the market research undertaken, it is understood that the capital values for land parcels in the subject micromarket are primarily governed by parameters which are as follows:

- Location & profile of surrounding developments – Based on our market study, it was identified that land parcels located in proximity to highway would command higher capital values in comparison to the land parcels located further away on internal village roads. In addition, based on our interactions with local market players, we understand that the land parcels located in proximity to existing village catchments command higher capital values as compared to those located further away from the existing village catchments.
- Size of the land parcel – Based on our interactions with the local market players, it was understood that the small-medium sized land parcels (approx. 1 – 5 acres) attract almost negligible discount on account of lesser quantum of investment involved and a shorter marketing timeframe required for disposal of such land parcels.
- Accessibility, frontage and visibility – Based on our market research, it was observed that the land parcels having superior frontage along the access road or by virtue of it being a two side or a three-side corner plot would command a premium vis-à-vis the other Assets. Further, it was observed that the Assets located on wider access roads command premium vis-à-vis Assets located along narrow access roads.
- Zoning and requisite clearances - Based on our market research, it was observed that the land parcels with industrial / multipurpose / residential use zoning would command a premium in comparison to the land parcels under agricultural use /conservation zone. Further, we understand that the land parcels with the requisite clearances in place such as NALA (Non-Agricultural Land Assessment) conversions, etc. command a premium over the agricultural land parcels.
- Physical conditions of the asset/ownership - Based on our market research, it was observed that the land parcels with site improvements such as compound wall, bore well, etc. command a premium. In addition, Assets with single owner would attract a premium as compared to the Assets with multiple owners.

### 5.3.2 Income Approach

The income approach is based on the premise that value of an income - producing asset is a function of future benefits and income derived from that asset. There are two commonly used methods of the income approach in real estate valuation namely, direct capitalization and discounted cash flow (DCF).

A. Direct Capitalization Method

Direct capitalization involves capitalizing a 'normalized' single - year net income estimated by an appropriate yield. This approach is best utilized with stable revenue producing assets, whereby there is little volatility in the net annual income.

B. Discounted Cash Flow Method

A Discounted Cash Flow Analysis is based upon estimates of future financial performance. The methodology begins with a set of assumptions regarding income and expenses of the Asset and future economic conditions in the local market. The income and expense figures are assessed with adjustments for estimated changes in economic conditions and any contractual commitments. The resultant value is considered the best estimate but is not to be construed as a prediction or guarantee and is fully dependent upon the reasonableness of the assumptions with respect to income, expenses, and market conditions, which are based on information available as at the valuation date.

## 5.4 Approach and Methodology Adopted

Considering the objective of this exercise, the nature of asset involved and the purpose of the valuation viz. to assess the Market Value (MV) of the Subject assets for the purpose of the initial public offering of TVS Infrastructure Trust under the SEBI (Infrastructure Investment Trust) Regulations, 2014 'Regulation', we have adopted the methodology considering Chapter 1 section 2 point (i) of the InvIT regulation, which states that, the assets forming part of InvIT should meet among the below criteria as follow:

1. the infrastructure asset has achieved the commercial operations date as defined under the relevant asset agreement including concession agreement, power purchase agreement or any other agreement of a similar nature entered into in relation to the operation of the asset or in any agreement entered into with the lenders
2. the infrastructure asset has received all the requisite approvals and certifications for commencing operations
3. the infrastructure asset has been generating revenue from operations for a period of not less than one year

Hence owing to the above stated conditions, we are of the opinion that the income approach which is appropriate to value such asset based on the premise that value of an income - producing asset is a function of future benefits and income derived from that asset.

Under the Income approach, Discounted Cash Flow Analysis is based upon estimates of future financial performance which also considers the income and expenses of the Asset accounting for the future fluctuations due to expected market dynamics.

Hence, for the purpose of this valuation exercise, we have adopted Discounted Cash Flow Method (using rent reversion approach).

For the purpose of this valuation exercise, we have analysed the tenancy details provided by the Client to identify variances vis-à-vis prevailing marginal rent. In the event the contracted rent is within the threshold (15.0%), we have assumed that the tenant will continue on the current agreed terms. In the event the rent is higher than the marginal rent threshold, we have assumed that the lease would be renegotiated to marginal rent terms (at the time of the lock-in expiry, next escalation, etc.).

Asset-specific Review:

1. As the first step to the valuation of the asset, the lease deeds were reviewed to identify tenancy characteristics with respect to contractual commitments and commercial covenants.
2. Title documents and architect certificates were reviewed for validation of area details, ownership of the asset
3. The Valuer has undertaken physical site inspections to assess the current status of the subject assets in terms of their physical configuration, capacity and upkeep.

Micromarket Review/Market Rental Assessment:

Chandaka industrial belt is one of the prominent industrial belts across India. Grade A developments are primarily concentrated in Chandaka, Janla, Jatni, and Pahal micromarkets, catering primarily to e-commerce, electronic goods, food and packaging, and manufacturing sectors. A steady increase in supply has been witnessed over the last 6–7 years (2018–2023), with an average annual supply of approx. 0.03 Mn sft. The demand for Grade A developments in these micromarkets is driven by their strategic location, proximity to key transportation hubs, and availability of skilled labour. Additionally, the presence of established industrial clusters and supportive government policies further contribute to the growth of these sectors in the region.

A primary research exercise has been carried out in the catchment area to ascertain the prevalent activity levels in terms of quoted / transacted evidence of the recent leasing activity for warehousing developments. This has been achieved through interactions with various market players such as local real estate brokers, developers, owners, etc. Based on the same, we understand that variance across rentals is primarily due to factors such as type of asset, developer brand, location, accessibility, overall tenant mix, quantum of vacant stock in the development, specifications, and additional improvements, etc.

For the micromarket review and market rental assessment we have relied upon the report on 'Market Analysis of Warehousing assets in Identified locations pan India' prepared by CBRE South Asia Private Limited, hereafter referred as 'CBRE' (an independent agency appointed by the Client to undertake market research, provide market summary and data for the purpose of this assignment)

Cash Flow Projections:

We have projected future cash flows from the subject assets based on existing lease terms and contractual lease payments for the operational area until the expiry of the leases or re-negotiation (using the variance analysis), whichever is earlier.

Based on a detailed review of the leases for the subject asset, we noted that it is 100% leased out as on date of valuation. Since the real estate industry is dynamic and is influenced by various factors (such as existing supply, tenants looking at spaces, quality of spaces available in the market, overall health of the economy, existing rent, future growth plans, etc.) at a particular point in time, negotiated rent may tend to move away from the prevalent market rent over a period. It has also been witnessed that the market rent for some Assets or micro markets increase or decrease at a rate significantly different from those agreed to in initial leases. These factors reinforce the need to review each of these leases in isolation to assess the intrinsic value of the asset under review.

Post this, the lease terms have been aligned with market rentals. For vacant area, the Valuer has assessed the market rent led cash flows factoring appropriate lease-up time frame for vacant/under-construction/proposed area. These cash flows have been assessed for 10-year duration from the date of valuation and for 11th year (for assessment of terminal value). These future financial benefits are then discounted to a present-day value (valuation date) at an appropriate discount rate.

## 5.5 Information Sources for Valuation

Asset related information referred to for the valuation exercise have been provided by the Client unless otherwise mentioned. We have assumed the documents to be a true copy of the original. The rent rolls have been cross-checked with the lease deeds on a sample basis to verify the authenticity. Additionally, wherever possible, we have independently revalidated the information by reviewing the originals as provided by the Client.

Table below highlights various data points referred throughout the course of this valuation report and the data sources for the same. Asset related documents referred to in the table below have been provided to the Valuer by the Client unless otherwise mentioned. The Valuer have assumed the documents to be a true copy of the original.

# 6 Value Assessment

## 6.1 Value Assessment

### 6.1.1 Adopted Methodology

We acknowledge that the approaches to valuation differ considerably and that for a particular purpose, alternative approaches to the valuation can be utilized. Considering the objective of this exercise and the nature of asset involved, the value of the subject asset has been assessed through the following approaches:

| Asset Name | Completed Blocks | Under-construction Blocks |
|---|---|---|
| Bhubaneshwar Park | Discounted Cash Flow (Using rent reversion approach) | N. A. |

The sections below highlight the detailed valuation workings for the subject asset.

## 6.2 Operational Assumptions

### 6.2.1 Area statement

Based on information from sale deed provided by the Client, we understand that subject asset is an operational warehousing/ industrial development. Further, the table below highlights the area configuration of the subject asset:

| Block | Year of Completion | Age of structures (in years) | Built-up Area (sft) | Completed Area (sft) | Leased Area (sft) | Chargeable Area (sft) |
|---|---|---|---|---|---|---|
| Block I (Part A) | 2018 | 6 | 63,696 | 63,696 | 54,120 | 46,120 |
| Block I (Part B) | 2018 | 6 | | | 17,576 | 17,576 |
| Block II | 2018 | 6 | 1,21,872 | 1,21,872 | 1,21,872 | 1,21,872 |
| Block III (Open Area) | - | - | - | - | 10,000 | 10,000 |
| Block III | 2021 | 3 | 12,531 | 12,531 | 12,531 | 12,531 |
| Block IV | 2021 | 3 | 16,855 | 16,855 | 16,855 | 16,855 |
| | Total | | 2,14,954 | 2,14,954 | 2,32,954 | 2,24,954 |

*Source: Architect Certificate, Sanctioned layout plan, lease agreements provided by the Client.*

| Tenant | Leased Area (sft) | Chargeable Area (sft) | % of area leased | Total In-place rental (INR psf pm) |
|---|---|---|---|---|
| Bhubaneshwar Park | 2,32,954 | 2,24,954 | 100% | 21.5 |

*Source: Architect Certificate, Lease deed, rent roll provided by the Client.*

## 6.3 Tenancy Analysis

### 6.3.1 Historical Occupancy Rates

The table below highlights the historical occupancy rates at the subject development:

| Particulars | Historical Occupancy Rates |
|---|---|
| Occupancy (completed blocks) | 2021: 70%<br>2022: 100%<br>2023: 100% |

*Source: Information provided by the Client;*

### 6.3.2 Lease Rent Analysis

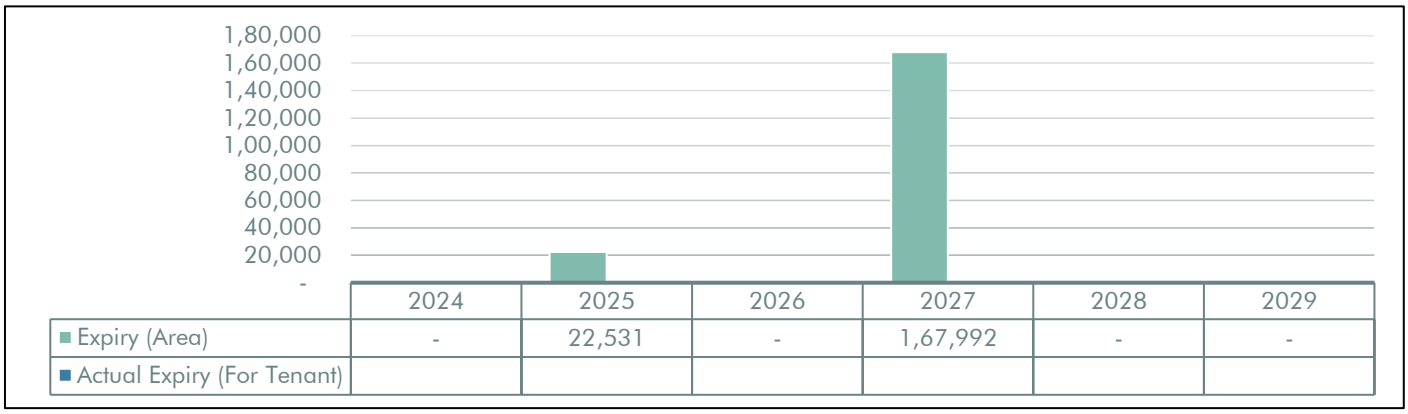
Based on the review of the Lease Deed/ Rent Roll provided by the Client, we understand that the lease agreements were signed between TVS infrastructure Pvt ltd and the tenants, details of which are mentioned below:

| Tenant | Particulars | Details |
|---|---|---|
| 1 | Lease Commencement Date | 15th July 2022 |
| | Rent Commencement Date | 22nd August 2022 |
| | Lock-in Period | 1 Year |
| | Total Lease Tenure | 5 Years |
| | Remaining Lease Tenure | 3.29 Years |
| | Lease Rent Escalation Terms | 5% every year |
| 2 | Lease Commencement Date | 01st September 2020 |
| | Rent Commencement Date | 01st September 2020 |
| | Lock-in Period | 7 Years |
| | Total Lease Tenure | 10 Years |
| | Remaining Lease Tenure | 6.42 Years |
| | Lease Rent Escalation Terms | 5% every year |
| 3 | Lease Commencement Date | 01stJune 2018 |
| | Rent Commencement Date | 16th June 2018 |
| | Lock-in Period | 1 Year |
| | Total Lease Tenure | 9 Years |
| | Remaining Lease Tenure | 3.17 Years |
| | Lease Rent Escalation Terms | 5% every year |
| 4 | Lease Commencement Date | 13th November 2021 |
| | Rent Commencement Date | 01st January 2022 |
| | Lock-in Period | 3 Years |
| | Total Lease Tenure | 3.8 Years |
| | Remaining Lease Tenure | 1.42 Years |
| | Lease Rent Escalation Terms | 5% every year |
| 5 | Lease Commencement Date | 20th September 2020 |
| | Rent Commencement Date | 04th November 2020 |
| | Lock-in Period | 3 Years |
| | Total Lease Tenure | 4.95 Years |
| | Remaining Lease Tenure | 1.42 Years |
| | Lease Rent Escalation Terms | 5% every year |
| 6 | Lease Commencement Date | 1st March 2024 |
| | Rent Commencement Date | 1st March 2033 |
| | Lock-in Period | 2 Years |
| | Total Lease Tenure | 9 Years |
| | Remaining Lease Tenure | 8.92 Years |
| | Lease Rent Escalation Terms | 5% every year |

*Source: Lease Deed and Client Inputs*

### 6.3.3 Lease Expiry Profile

The Weighted Average Lease Expiry (WALE) of the Subject Asset is 3.20 years, with 84.69% of occupied area expiring between FY 2025 and FY 2027 as shown in the chart below.



| | 2024 | 2025 | 2026 | 2027 | 2028 | 2029 |
|---|---|---|---|---|---|---|
| Expiry (Area) | - | 22,531 | - | 1,67,992 | - | - |
| Actual Expiry (For Tenant) | | | | | | |

*Source: Client Inputs – Rent roll provided by the Client.*

### 6.3.4 Tenant Obligations.

Based on the review of the lease deed, we understand that the operational expenses listed below will have to be borne by the Tenant

| S. No | Description of operational expenses |
|---|---|
| 1 | Regular Maintenance |
| 2 | Taxes |
| 3 | Insurance |
| 4 | General Wear and Tear |
| 5 | Other Expenses such as utility charges towards any Governmental authorities or Concerned service provider. |

*Source: Lease Deed and Client Inputs*

Contractual Rental Details

| Tenant | Leased Area (sft) | Chargeable Area (sft) | % of area leased | Total In-place rental (INR psf pm) | Total In-place rental (INR Mn pm) |
|---|---|---|---|---|---|
| Bhubaneshwar Park | 2,32,954 | 2,24,954 | 100% | 21.54 | 4.84 |

*Source: Leased Deed and Information provided by the Client*

### 6.3.5 Construction Timelines

#### 6.3.5.1 Completed Blocks

As per the information provided, we understand that the Building 1 and Building 2 of the subject asset started their operations in the Year 2018 and 2021 respectively.

### 6.3.6 Absorption/ Leasing Velocity and Occupancy Profile

#### 6.3.6.1 Completed Blocks

As per the rent roll provided by the Client, we understand that the completed blocks have an occupancy of 100.0% as on date of valuation.

#### 6.3.6.2 Under-Construction/ Proposed Blocks

As per the information provided by the Client, we understand that there are no under construction/ proposed blocks.

### 6.3.7 Revenue Assumptions

#### 6.3.7.1 Warehousing Component

For the purpose of this valuation exercise, the lease rent adopted for the area already leased is based on the rent roll/lease deeds shared by the Client. Further, the Valuer have undertaken an in-depth market research exercise to assess the prevailing rent values in the subject micro market.

Based on our market study and based on the analysis of the rent roll provided by the Client, following rent has been adopted for the purpose of value assessment of the completed blocks at the subject asset. The detailed rent assessment workings are highlighted in the lease rent analysis section presented above.

| Component | Leasable Area (sft) | Chargeable Area (sft) | Leased Area (sft) | Basis | Rent Adopted* (INR psf pm) |
|---|---|---|---|---|---|
| Warehouse | 2,32,954 | 2,24,954 | 2,24,954 | Current Rent for Leased area.<br>Market rent for reversion/ vacant area | 21.54<br>22.00 |

*Source: Architect certificate, Rent roll provided by the Client; (Please note according to the lease agreements provided by the Client, it is understood that the rent is paid on the chargeable area, which has been considered for the valuation exercise)*

The above market rent assumption is adopted for the entire subject development. In addition to undertaking an in-depth market analysis, a detailed analysis of the rent rolls was also undertaken to understand aspects such as area occupied, current rent and expiry analysis of the key tenants in the facility.

For the purpose of this valuation exercise, the lease rent adopted for the area already leased is based on the lease deed shared by the Client. Further, an in-depth market research exercise has been undertaken to assess the expected economic rental value of the subject asset.

Based on our market study, we understand that the contracted rental of the subject asset is in line with the expected economic rental values. Hence, we have considered contracted rentals for the purpose of value assessment at the subject asset.

### 6.3.8 Rent Escalation

Based on an analysis of existing lease rolls and recent leasing at the Subject Asset, it was observed that the typical escalation clause in the Subject Asset is approx. 5.0% after every year, which is in-line with the trend observed in the market. The same has been adopted for the contractual escalation at the Subject Asset.

Escalation on renewal - Based on the analysis of terms of lease deed, it was observed that the typical escalation clause in the Subject Asset is 5% per annum. However, based on the trend observed in the market, the valuer has considered a market escalation of 5% per annum.

| Particulars | Unit | Details |
|---|---|---|
| Market Rental Escalations | % p.a | 5.0% |

*Source: Valuer's assessment*

Market Rent Escalation - Based on the trend observed in the market and based on review of the Industry Assessment report, the valuer has considered a market escalation of 5% per annum effective from the date of valuation. The assumption for market rent for this appraisal exercise is as follows:

| Particulars | Sept 2024 | March 2025 | March 2026 | March 2027 Onwards |
|---|---|---|---|---|
| Market Rental Escalation | 22.00 | 23.10 | 24.26 | 5% escalation year on year |

*Source: Valuer's assessment*

### 6.3.9 Other Revenues

In addition to lease rent revenues, assets typically have additional sources of revenue. These include revenues on account of security deposit (refunded at the time of lease expiry / exit), other miscellaneous income etc.

The assumptions considered for the aforementioned revenue heads for the purpose of this valuation exercise are based on the rent roll & lease deeds provided by the Client. The same has been cross-checked with the prevailing market norms for other revenues and were found to be broadly in line.

The assumptions adopted for other revenues are as tabulated below:

| Nature of Income | Details | Units |
|---|---|---|
| Security Deposit (For vacant spaces) | 6 | No. of months' warm shell rental |
| Other Income* | 0.26% | % of Rental Income |
| CAM Income (For completed component) | 1.00 | INR per sft per month |

*Source: Valuer's assessment, *based on the asset level P&L statements shared by the Client attributable to the margins made on other services provided to the tenants*

### 6.3.10 Capital Expenditure

#### 6.3.10.1 Development Cost

Not applicable. The subject asset is an operational asset.

#### 6.3.10.2 Major Repair and improvements

As per information provided by the Client, we understand that there are no major repairs and improvement proposed in the said asset.

#### 6.3.10.3 Operating Cost

An Asset typically has few recurring operation expenses required for the upkeep running of the development. Based on information provided by the Client and market assessment, following recurring expense assumptions have been adopted for the purpose of this valuation exercise:

| Nature of Expense | Details |
|---|---|
| Reserves & Maintenance (R&M) Provision | 0.00% of rental income |
| Asset Management Fee | 3.0% of revenues from operations |
| Property Tax | 0.07 Mn |

| Nature of Expense | Details |
|---|---|
| Insurance | 0.10 Mn |
| Vacancy Allowance during operations | 1.00% |
| Vacancy Allowance on Exit | 2.50% |
| Any other Expense details | N.A. |
| Refurbishment Reserve | 1.50% of rental income |
| CAM Expense | 1.00 |

*Source: Client input; Valuer's assessment; As per the lease terms and the information provided by the Client, asset tax and insurance are to be borne by the Client; ^fees has been considered as below the NOI line item.*

### 6.3.11 Other Assumptions

#### 6.3.11.1 Vacancy provision

Based on review of the rent roll provided, we understand that that the subject asset is substantially fully occupied with significantly a weighted average lease period of 3.20 Years (by area). Considering the same alongside other asset level parameters (location, amenities, grade, infrastructure etc) and market benchmarks, the valuer has adopted a vacancy provision as follows:

| Description | Blocks I, II, III & IV |
|---|---|
| Vacancy Provision | During Operations – 1.00%<br>Assessment at the time of exit – 2.50% |

*Source: Valuer's assessment*

#### 6.3.11.2 Revenue escalation

Based on prevailing market condition, historical rent growth achieved by the subject asset and our interactions with market participants, we are of the opinion that the annual marginal rent growth of 5.0% has been considered on a fiscal year basis

#### 6.3.11.3 Rent-free period

Based on the rent roll provided by the Client, it is understood that the existing leases have a rent-free period ranging from 1 to 3 months from the lease-commencement date. However, based on recent market trends in the subject micromarket, we have considered a rent-free period of 3 months for new-leases and for re-leasing effective from the lease commencement date.

#### 6.3.11.4 Brokerage

Based on prevalent market dynamics, we have considered brokerage equivalent to 0.4 month of rental income for future / new leases

#### 6.3.11.5 CAM Cashflows

CAM Cashflows for the subject asset have been assessed both during the holding period and at the time of notional exit. Further, the margin on CAM and CAM Recoveries are included in the financials as per the CAM charges based on historical performance of the subject asset as per the inputs provided by the Client and market benchmarks.

Based on the information provided by the Client, we understand that the 100% of the CAM Income would be received by the Client entity/ InvIT entity (as per details from Client) and 100% of the CAM Expense would be borne by the Tenants/ SPV.

## 6.4 Financial Assumptions

### 6.4.1 Exit Capitalization Rate Adopted

The capitalization rate adopted for valuing the assets has been based on factors such as:

- Historical entry yields (going in cap rates) for yield/ core warehousing facility transactions across various key markets in India have steadily shown a downward trend over last 7 - 8 years from 10.5%- 11.5% to about 7.5% - 8.5% in last 3-4 years.
- The increased appetite for income producing asset and availability of various modes of finance (real estate credit flows) backing such acquisitions.
- Yields for warehousing facilities across various markets in India have a range of 7.5 – 8.5%
- Liquidity associated with InvIT listed/ public listings (multiplicity of buyers and relatively lower budgets per buyer)

Based on the above highlighted attributes, the following cap rate has been adopted for the purpose of our valuation:

| Asset Name | SPV/Hold Co | Status of the Asset | Details |
|---|---|---|---|
| Bhubaneshwar Park | Durgeshwari Industrial & Logistics Parks Private Limited/ TVS ILP | Operational | 7.75% |

*Source: Valuer's assessment*

### 6.4.2 Discount Rate Adopted

For discounting the cash flows, an appropriate discount rate has been calculated on the basis of estimated 'Weighted Average Cost of Capital' (WACC).

### 6.4.3 Cost of Equity

The Valuer has computed the cost of equity as per the Capital Asset Pricing Model (CAPM), which is derived as follows:

Cost of equity = Risk Free Rate (Rf) + Beta (**β**) * (Market Return (Rm) **–** Risk Free Rate (Rf))

As mentioned above, the cost of equity computed using CAPM constitutes of the following components:

- Risk free rate (Rf) i.e., long term (10-year) treasury bond rate in India
- Market return (Rm) based on the returns of Sensex index for the past 10 years
- Computation of 'Beta (β)' of key listed realty stocks and REITs/ InvITs in India with respect to the Broad-Based BSE 500 stock index

The cost of equity adopted for this asset has been adjusted for market/ asset specific risk pertaining to a real estate assets such as execution risk (construction status), marketing risk, etc. and adjusted for taxation. While the assumptions regarding the quantum of these risks have no quantitative basis, we have adopted them based on our understanding of the market and our opinion on the asset performance.

### 6.4.4 Cost of Debt

Completed Blocks

The cost of debt for this asset has been considered based on prevalent Lease Rental Discounting (LRD) rates for Grade A warehousing developments across the Bhubaneshwar micromarkets which are in the range of 8.0% – 10.0% depending upon the location, asset quality, occupancy, etc.

### 6.4.5 Weighted Average Cost of Capital (WACC)

Completed Blocks

As highlighted earlier, the cost of debt has been assumed based on the prevalent LRD rates and construction financing for under-construction assets, while the cost of equity assumed has been adjusted for asset and market specific attributes to reflect the market expectations from an operational institutional development. Further, the proportion of debt and equity has been derived considering the prevalent LRD tenures and its contribution in the overall asset value.

Based on above, the following WACC rate has been assumed for the completed Bhubaneshwar Park assets forming part of the InvIT portfolio:

| Asset Name | SPV/Hold Co | Particular | Proportion | Cost | WACC |
|---|---|---|---|---|---|
| Bhubaneshwar Park | Durgeshwari Industrial & Logistics Parks Private Limited/ TVS ILP | Debt | 35.0% | 8.0% | 11.58% |
| | | Equity | 65.0% | 13.5% | |

*Source: Valuer's assessment; Please note that the cash flows are assumed to realize evenly during the course of every quarter; hence a mid-quarter discounting convention has been adopted for the purpose of this valuation. Additionally, we have not factored any cash flows attributable to working capital requirement/expenses for valuation as the same is immaterial.*

## 6.5 Value of the Subject asset

The Valuer is of the opinion that subject to the overriding stipulations contained within the body of this report and to there being no onerous restrictions or unusual encumbrances of which he has no knowledge, the opinion of value of the complete ownership interest in the Subject Asset comprising land and improvements thereon, as explained above, as on 30th September 2024 is as follows:

| Asset Name | Value (INR Mn) |
|---|---|
| Bhubaneshwar Park | 834.94 |

# 1 Executive Summary

| | |
|---|---|
| Asset Name: | Coimbatore Park (the "Subject Asset") |
| Asset Address: | Survey No: 381/2B, 3B, 3A1, 3A2, 382/1B, 1C, 1D, 2B2, 383/2A1 of Appanaikenpatty Village & Survey No: 386/2A, 2B1, 387/1A, 1B, 1C, 1D, 1E, 1F, 2, 390/1C, 2, 391/1A of Selakarichal Village along Palladam – Cochin Frontier Road, Coimbatore District, Tamil Nadu – 641 402 |
| Instructing Party: | TVS Industrial & Logistics Parks Private Limited (the "Client") |
| SPV Name: | Marudhamalai Industrial & Logistics Parks Private Limited |
| Interest Valued: | 100% Freehold interest |
| Land Area: | As per the review of the building plan approval and sanctioned layout provided by the Client, it is understood that the total underlying land area of the Subject Asset is approx. 26.46 acres. |
| Brief Description: | Based on the review of sanctioned layout shared by the Client and subsequent site visit undertaken, it is understood that the Subject Asset is an operational warehousing facility, located at Palladam – Cochin Frontier Road, Appanaikenpatty & Selakarichal Village, Coimbatore District, Tamil Nadu. The Subject Asset is spread across a land area of approx. 26.46 acres with a cumulative leasable area of approx. 9,82,514 sft and a cumulative chargeable area of approx. 6,87,373 sft comprising of two completed blocks (Block – I and Block – II).<br><br>Further, it was observed that the subject land is contiguous in nature, even in terrain, is broadly regular in shape and on the same level as abutting road and adjoining properties. Also, the subject land enjoys good frontage along the access road. The primary access road abuts the Subject Asset in its northern side.<br><br>The Subject Asset is located in an internal road emanating from Palladam – Cochin Frontier (SH-113), which connects Tirupur town in north and Pollachi town in south. The Subject Asset is a grade A warehouse with PEB structures having all requisite facilities such as DG and Transformer Yard, Sewage Treatment Plant – STP, Storm water network (Hume pipe with RCC Chamber), Water treatment plant, Fire Fighting Systems of NFPA/NBC standards with a 0.5 mm thick bare Galvalume standing seam roof system and capability of taking solar panel load. |

The area details of the asset are as follows:

| Particulars | Status | Built-up Area (in sft) | Leasable Area (in sft) | Chargeable Area (in sft) |
|---|---|---|---|---|
| Coimbatore Park - Block I | Completed | 4,04,335 | 6,99,473 | 4,04,332 |
| Coimbatore Park - Block I (Mezzanine) | Completed | | 5,582 | 5,582 |
| Coimbatore Park - Block II | Completed | 2,75,909 | 2,53,724 | 2,53,724 |
| Coimbatore Park - Block II (open space) | Completed | | 1,550 | 1,550 |
| Coimbatore Park - Block II (Mezzanine) | Completed | | 22,185 | 22,185 |

| | | | |
|---|---|---|---|
| Total Area | 6,80,244 | 9,82,514 | 6,87,373 |

*Source: Architect certificate, Rent roll provided by the Client; (Please note according to the lease agreements provided by the Client, it is understood that the rent is paid on the chargeable area, which has been considered for the valuation exercise)*

**As per the lease deed and the Client inputs the leasable area of Block I is 7,04,798 sft with main building area of 3,39,095 sft, canopy area, Toilets, Heavy Office, Security room, medical room, relax room, Creche room, substation, DG and scrap yard, compression room, driver restroom and pumproom admeasuring 65,237 sft and external area, open area and staircase of 3,00,466 sft. Of this, main building area along with canopy area, Toilets, Heavy Office, Security room, medical room, relax room, Creche room, substation, DG and scrap yard, compression room, driver restroom and pumproom is considered as chargeable area.*

The Subject Asset is located in close proximity to Palladam – Cochin Frontier (SH-163), which connects Tirupur to Pollachi. The Subject Asset is located at a distance of approx. 26-27 kms from Coimbatore International Airport, approx. 28-29 kms from Coimbatore Railway Station, approx. 40-41 kms from Coimbatore New Bus Stand.

Statement of Assets (sft):

Based on review of rent roll, lease deeds and area statement provided by the Client, the Subject Asset has an operational warehousing facility with approx. 6,87,373 sft with 100% occupancy.

| Blocks | Built-up Area (in sft) | Leasable Area (in sft) | Chargeable Area (in sft) | Structure Type |
|---|---|---|---|---|
| Coimbatore Park - Block I | 4,04,335 | 6,99,473 | 4,04,332 | PEB Structure + RCC Structure |
| Coimbatore Park - Block I (Mezzanine) | | 5,582 | 5,582 | PEB Structure |

| Assumptions, Disclaimers, Limitations & Qualifications | *This valuation report is provided subject to assumptions, disclaimers, limitations and qualifications detailed throughout this report which are made in conjunction with those included within the Assumptions, Disclaimers, Limitations & Qualifications section located within this report.*<br><br>*Reliance on this report and extension of our liability is conditional upon the reader's acknowledgement and understanding of these statements. This valuation is for the use of the party to whom it is addressed and for no other purpose. No responsibility is accepted to any third party who may use or rely on the whole or any part of the content of this valuation. The valuer has no pecuniary interest that would conflict with the proper valuation of the asset.*<br><br>*Please note that is an executive summary and it is advisable that the report should be the valuation* |
| Heightened Market Volatility: | We draw your attention to current heightened geopolitical tensions, low economic growth in many major countries, and a "higher for longer" interest rate sentiment which have increased the potential for constrained credit markets, negative capital value movements and continued volatility in some property markets over the short-to-medium term.<br><br>Experience has shown that consumer and investor behaviour can quickly change during periods of such heightened volatility. Lending or investment decisions should reflect any heightened level of volatility and potential for changing market conditions. Lending and investment caution is advised in this regard.<br><br>It is important to note that the conclusions set out in this report are valid as at the valuation date only. Where appropriate, we recommend that the valuation is closely monitored, as we continue to track how markets respond to evolving events. |
| Notice | This Executive Summary [/Valuation Certificate] should be read in conjunction with the entire valuation report and should not be relied upon in isolation. |

Valuer Declaration:

i. the valuer is competent to undertake the valuation

ii. the valuer is independent and has prepared the report on a fair and unbiased basis

iii. the valuer has valued the assets based on the valuation standards as specified under sub-regulation 10 of regulation 21

Official Signatory:

Name: Mr. Shubhendu Saha
Designation: Partner, iVAS Partners
Valuer Registration Number: IBBI/RV/05/2019/11552

# 2 Instruction

iVAS Partners ( Valuer Registration Number: IBBI/RV-E/02/2020/112; hereinafter referred as 'Valuer') represented by its partner Mr. Shubhendu Saha, a registered valuer under the Companies Act 2013 with IBBI (Valuer Registration Number: IBBI/RV/05/2019/11552) has been instructed by TVS Industrial & Logistics Parks Private Limited (hereinafter referred as the "Instructing Party", or the "Client") to estimate upon the Market Value (MV) of an operational Warehousing asset located at Palladam to Cochin Frontier Road, Coimbatore District, Tamil Nadu – 641 402.

Based on information provided by the Client, we understand that the underlying land parcel of the Subject Asset admeasures approx. 26.46 acres with a total leasable area admeasuring approx. 9,82,514 sft and a chargeable area admeasuring approx. 6,87,373 sft.

iVAS Partners is referred to as the **'Valuer'** for the purpose of this report.

The details of the Subject Asset under the purview of this valuation exercise are tabulated below:

| Asset Name | SPV/Hold Co | Asset Type | Location | Land area | No. of Blocks |
|---|---|---|---|---|---|
| Coimbatore Park | Marudhamalai Industrial & Logistics Parks Private Limited | Warehouse | Coimbatore | 26.46 acres | 2 |

*Source: Client Inputs*

For clarity, we are valuing the Property/ Asset only, not the SPV/Hold Co, which has been provided for reference only.

## 2.1 Purpose

As per our instructions the valuation is required by the Client for a proposed offer of units through private placement (the "Private Placement") as defined under the Securities and Exchange Board of India (Infrastructure Investment Trust) Regulations, 2014, as amended, together with clarifications, guidelines and notifications issued thereunder, on the Indian stock exchanges. In relation to the Private Placement, the Valuation report, a summary thereof and/or extracts of the report are intended to be included in the Offer Documents filed by the TVS Infrastructure Trust with the Securities and Exchange Board of India (SEBI) and the stock exchanges where the units of the InvIT are proposed to be listed.

In addition, other documents in relation to the Private Placement such as publicity material, research reports, presentations and press releases will also be prepared, wherein copies or extracts of the Summary Report are intended to be included.

## 2.2 Reliant Party

The Reliant Parties to this Summary Report will be the Client and TVS Infrastructure Trust, TVS Infrastructure Investment Manager Private Limited in its capacity as Investment Manager and TVS Industrial and Logistics Park Private Limited in its capacity as Sponsor for the purpose of the valuation as highlighted in this report. for the purpose of the valuation as highlighted in this report.

The valuation has been prepared strictly and only for the use of the parties as stated above (Reliant Parties) and for the Purpose specifically stated. The Client would make all Reliant Parties aware of the terms and conditions of this agreement under which this exercise is being undertaken and take due acknowledgements to the same effect.

## 2.3 Limitation and Disclaimers to Liability

- Valuer is not operating under any financial services license when providing the Valuation Report ("Valuation Report") and this document does not constitute financial product advice. Investors should consider obtaining independent advice from their financial advisor before making any decision to invest in TVS Infrastructure Trust InvIT.

- This Valuation Report is strictly limited to the matters contained within this report, and are not to be read as extending, by implication or otherwise, to any other matter in any Offer/ Draft Placement Memorandum/ Placement Memorandum/ Final Placement Memorandum ("Offer Document"). Valuer does not approve or endorse any part of the Offer Document. Any reference to the Valuer or this Valuation Report within the Offer Document must be read in conjunction with this Valuation Report.

- Valuers disclaims any liability to any person in the event of an omission from, or false and misleading statements included in the Offer Document, other than in respect of the information provided within the Valuation Report. Valuers shall not make any warranty or representation as to the accuracy of the information in any part of the Offer Document, other than in respect of the methodology used for the preparation of the information provided within the Valuation Report.

- The liability of Valuer is limited to the Instructing Party, and any Reliant Party nominated within this report only. No accountability, obligation or liability to any third parties is accepted by the Valuer. Valuer disclaims all liability to any investor.

- No liability is accepted for any loss, harm, cost or damage (including special, consequential or economic harm or loss) suffered as a consequence of fluctuations in the real estate market subsequent to the date of valuation. Valuer shall not be liable for any indirect, special, punitive or consequential loss or damage howsoever caused, whether in contract, tort or otherwise, arising from or in connection with this Valuation Report.

- Valuer accepts no responsibility or liability whatsoever (i) unless full disclosure of all information and matters that may have an impact upon the value and marketability of the asset has been made by the Instructing Party or (ii) for any matter arising out of or in relation to possible environmental site contamination or any failure to comply with environmental legislation which may affect the value of the asset.

- None of our employees, directors or Valuers individually has a contract with the Instructing Party or owes them a duty of care.

- Valuer has prepared the Valuation Report relying on and referring to information provided by the Instructing Party and/or third parties including financial and market information ("Information"). Valuers have assumed that the Information is accurate, reliable and complete and has not independently verified such Information.

- The Valuation Report draws attention to the key issues and considerations impacting value and provides a detailed assessment and analysis as well as key critical assumptions, general assumptions, disclaimers, limitations and qualifications and recommendations. As commercial investments of this nature are inherently complex and the market conditions have changed and/or have been uncertain in recent times, Valuer recommends that any references to value within the Offer Document must be read and considered together with the Valuation Report.

- This Valuation Report may not be reproduced in whole or in part without the prior written approval of the Valuer.

- The Valuation Report does not purport to contain all the information that a potential investor or any other interested party may require. It does not consider the individual circumstances, financial situation, investment objectives or requirements. It is intended to be used as guide and for information purposes only and does not constitute advice including without any limitation, investment, tax, legal or any other type of advice. The valuations stated are only best estimates and are not to be construed as a guarantee. Potential investors should not rely on any material contained in the Valuation Report as a statement or representation of fact but should satisfy themselves as to its correctness by independent investigation and review of the Valuation Report to understand the assumptions and methodologies stated in the reports.

- For the avoidance of doubt, all references to "Offer Document" herein shall include any Offer Document, final Offer Document, prospectus and/or any other accompanying documents required under the SEBI (InvIT) Regulations 2014.

## 2.4 Limitation and Qualification

Valuation has been conducted solely for the benefit and use of the Instructing Party, and any Reliant Party nominated within this Valuation Report. The report and valuations should not be used for any other purpose other than the expressly intended purpose as mentioned in the Valuation Report. They are not to be used, circulated, quoted or otherwise referred to for any other purpose, nor are they to be filed with or referred to in whole or in part in any document without the prior written consent of Valuer where such consent to be given at the absolute, exclusive discretion of Valuer, which shall not be unreasonably withheld. Where they are to be used with the Valuer's written consent, they shall be used only in their entirety and no part shall be used without referring to the whole report unless otherwise expressly agreed in writing by Valuer.

Neither the whole nor any part of our report, nor any reference thereto, may be included in any published document, circular or statement, nor published in any way nor disclosed orally or in communication to a third party, including the form and context in which it is to appear without Valuer's prior written consent.

The Valuer does not purport to provide a site or structural survey in respect of the asset(s) valued. The Valuer does not purport to be suitably qualified to provide professional advice in respect of building or site contamination. The Reliant Party(ies) should seek independent advice on these issues. The Services are provided on the basis that the Management has disclosed to the Valuer all information which may affect the Services. All opinions expressed by the Valuer, or its employees are subject to any conditions contained in the Valuation report.

## 2.5 Valuer Capability

iVAS Partners, (Valuer Registration Number: IBBI/RV-E/02/2020/112), represented by its partner Mr. Shubhendu Saha (Valuer Registration Number: IBBI/RV/05/2019/11552) delivers independent valuation (across categories viz. land & building and plant & machinery), advisory and technical due diligence services, that combine professional expertise with comprehensive databases, analytics and market intelligence across various asset classes and locations in India.

Mr. Shubhendu Saha is registered as a valuer with the Insolvency and Bankruptcy Board of India (IBBI) for the asset class Land and Building under the provisions of The Companies (Registered Valuers and Valuation) Rules, 2017 since 15 May 2019. He completed his Bachelor in Planning from the School of Planning and Architecture,

New Delhi in 1997 and master's in Client studies from Motilal Nehru National Institute of Technology, Allahabad in 1999.

## 2.6 Scope of Valuation

The valuation has been undertaken to ascertain the market value of the Subject Asset forming part of the proposed TVS Infrastructure Trust InvIT as of the valuation date. The valuer has estimated the market value of each individual asset, not the value of the portfolio of Assets, if sold in one transaction. In consideration of the same, a detailed assessment of the site and surroundings has been undertaken with respect to the prevalent activities, change in dynamics impacting the values and the optimal use of the Subject Asset vis-à-vis the surrounding micromarket, etc.

The primary catchment for the valuation has been defined as Sulur micromarket and the surrounding areas. An in-depth research exercise has been conducted in the catchment area of the Subject Asset to ascertain the prevalent activity levels in terms of residential segment in the vicinity of Subject Asset. This has been achieved through interactions with various market players such as local real estate brokers, developers, end-users, etc.

The location, micromarket and catchment area for the Subject Asset is tabulated below:

| Asset Name | SPV/Hold Co | City | Micromarket/ Catchment Area |
|---|---|---|---|
| Coimbatore Park | Marudhamalai Industrial & Logistics Parks Private Limited | Coimbatore | Sulur |

*Source: Client Inputs*

## 2.7 Valuer's Interest

The Valuer certify that; he/they do not have a pecuniary interest, financial or otherwise, that could conflict with the proper valuation of the asset (including the parties with whom our instructing party is dealing, including the lender or selling agent, if any; accepts instructions to value the asset only from the Client.

## 2.8 Qualifications/ Valuation Standards

This valuation is prepared in accordance with the International Valuation Standards (IVS) 2022.

The team involved in this engagement comprises of valuers registered with IBBI and RICS members with significant experience of valuations in Indian infrastructure and real estate market.

## 2.9 Disclosures

This Valuer hereby certify that:

- iVAS Partners (Valuer Registration Number: IBBI/RV-E/02/2020/112), represented by its partner Mr. Shubhendu Saha (Valuer Registration Number: IBBI/RV/05/2019/11552), is registered as a registered valuer entity under Section 247 of the Companies Act, 2013 and The Companies (Registered Valuers and Valuation) Rules, 2017, as amended, and is eligible to be appointed as Valuer under the provisions of the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014, as amended and that the Valuation report has been prepared in accordance with these InvIT Regulations.

- iVAS Partners (represented by Mr. Shubhendu Saha - Partner, iVAS Partners) is not an associate of TVS Industrial & Logistics Parks Private Limited (the "Sponsor"), TVS Industrial and Logistics Park

Investment Manager Private Limited (the "Investment Manager") and TVS Infrastructure Trust (the "Trust")

- The Valuer, as represented by its partner, Mr. Shubhendu Saha, has the required minimum years of experience in the valuation of infrastructure assets, as required under the SEBI (InvIT) Regulations.
- The Valuer has not been involved with the acquisition or disposal within the last twelve months of any of the asset(ies) valued under this Valuation report.
- The Valuer has adequate and robust internal controls to ensure the integrity of the Valuation reports.
- The Valuer has sufficient key personnel with adequate experience and qualification to perform services related to asset valuation at all times.
- The Valuer has sufficient financial resources to enable them to conduct their business effectively and meet their liabilities.
- The Valuer has acquainted itself with all laws or regulations relevant to such valuation.
- iVAS Partners is not prohibited from acting as a valuer under applicable law.
- The valuation of assets undertaken is impartial, true and fair and in accordance with the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014, regulation 21.
- The Valuer and any of its employees/ Valuer involved in valuation of the InvIT assets are not invested in and shall not invest in units of the InvIT or in the assets being valued during the time such entity/person is designated as valuer of such InvIT and not less than 6 months after ceasing to be valuer of the InvIT.
- The Valuer has conducted the valuation of the InvIT assets with transparency and fairness and has rendered and shall render, at all times, high standards of service, exercise due diligence, ensure proper care and exercise professional judgement.
- The Valuer has acted with independence, objectivity and impartiality in performing the valuation.
- The Valuer has discharged its duties towards the TVS Infrastructure Trust InvIT in an efficient and competent manner, utilizing its knowledge, skills and experience in best possible way to complete the said assignment.
- The Valuer has not and shall not accept remuneration, in any form, for performing a valuation of the InvIT assets from any person or entity other than the TVS Infrastructure Trust InvIT or its authorized representatives.
- The Valuer has no present or planned future interest in the Management, Trustee, TVS Infrastructure Trust InvIT, the Sponsor to the TVS Infrastructure Trust InvIT and its sponsor group or the Special Purpose Vehicles (SPVs), holdcos, investment entity and the fee for this Report and the valuation exercise is not contingent upon the values reported herein. Our valuation analysis should not be construed as investment advice; specifically, we do not express any opinion on the suitability or otherwise of entering into any financial or other transaction with the Management or the SPVs/ holdcos/ investment entity.
- The Valuer shall before accepting any assignment from any related party to the TVS Infrastructure Trust InvIT, disclose to the TVS Infrastructure Trust InvIT, any direct or indirect consideration which the Valuer may have in respect of such assignment
- The Valuer shall disclose to the trustee of the TVS Infrastructure Trust InvIT, any pending business transactions, contracts under negotiation and other arrangements with the Management or any other party

whom the TVS Infrastructure Trust InvIT is contracting with and any other factors which may interfere with the Valuer's ability to give an independent and professional valuation of the asset; as on the date of valuation, there are no impediments for Valuer to give an independent professional value opinion of the asset

- The Valuer has not made false, misleading or exaggerated claims in order to secure assignments.
- The Valuer has not and shall not provide misleading valuation, either by providing incorrect information or by withholding relevant information
- The Valuer has not accepted and shall not accept an assignment that includes reporting of the outcome based on predetermined opinions and conclusions required by the TVS Infrastructure Trust InvIT
- the valuer has not accepted the said assignment which interferes with its ability to do fair valuation
- The valuation undertaken by the Valuer abides by International Valuation Standards for valuation in compliance with The Companies (Registration of Valuers and Valuation) Rules, 2017
- The Valuer understands that most of these assets are wholly/partly owned/ tenanted by related parties, hence, any transactions related to these assets from the related parties being valued would be related party transactions.
- The Valuer notes that there are encumbrances, however, no options or pre-emptions rights in relation to the assets based on the title report prepared by Cyril Amarchand Mangaldas (hereinafter collectively referred to as 'Legal Counsels'). The Valuer does not have the expertise or the preview to verify the veracity or quantify these encumbrances, disputes or claims. For the purpose of this valuation, the Valuer has assumed that the respective assets have title deeds that are clear and marketable.

## 2.10 Assumptions, Disclaimers, Limitations & Qualifications to Valuation

| | |
|---|---|
| Valuation Subject to Change: | The subject valuation exercise is based on prevailing market dynamics as on the date of valuation and does not take into account any unforeseeable developments which could impact the same in the future |
| Our Investigations: | The Valuers are not engaged to carry out all possible investigations in relation to the Subject Asset. Where in our report the Valuer identify certain limitations to our investigations, this is to enable the reliant party to instruct further investigations were considered appropriate or where the Valuer recommend as necessary prior to reliance. The Valuer are not liable for any loss occasioned by a decision not to conduct further investigations |
| Assumptions: | Assumptions are a necessary part of undertaking valuations. The Valuer adopts assumptions for the purpose of providing valuation advice because some matters are not capable of accurate calculation or fall outside the scope of our expertise, or our instructions. Assumptions adopted by iVAS Partners will be formulated on the basis that they could reasonably be expected from a professional and experienced valuer. The Reliant Party accepts that the valuation contains certain specific assumptions, and acknowledges and accepts the risk that if any of the assumptions adopted in the valuation are incorrect, then this may have an effect on the valuation |
| Information Supplied by Others: | The valuations are based on the information provided by the Client (TVS Industrial & Logistics Parks). The same has been assumed to be correct and has been used for valuation exercise. Where it is stated in the report that another party has supplied information to the 'Valuer', this information is believed to be reliable, but the 'Valuer' can accept no responsibility if this should prove not to be so<br><br>We have assumed that where any information relevant to our valuation is supplied by the Instructing Party, or by any third party at Instructing Party's instigation, it is correct and comprehensive, and can be safely relied upon by us in preparing our valuation.<br><br>We would recommend that before any financial transaction is entered into based on the valuations, you obtain verification of any third-party information provided. We also recommend that you check the validity of the assumptions we have adopted in our report (where we have been unable to verify the facts through our own observations or experience) |
| Matters which affect or may affect the valuation | If the Reliant Party becomes aware of any matters which affect or may affect the valuation, then Valuer must be advised of those matters. The Reliant Party's failure to do so will disentitle the Reliant Party to place reliance on the valuation and reliance must not be placed on the valuation/s under any circumstance |
| Future Matters: | To the extent that the valuation includes any statement as to a future matter, that statement is provided as an estimate and/or opinion based on the information known to the 'Valuer' at the date of this document. The 'Valuer' does not warrant that such statements are accurate or correct |
| Map and Plans: | Any sketch, plan or map in this report is included to assist reader while visualizing the Assets and the Valuers assume no responsibility in connection with such matters.<br><br>Further. all maps and plans quoted in our report are solely for illustration purposes only. While they are extracted from public sources, they may be not to scale. Valuer does not warrant that such dimensions shown are accurate. |
| Site Details: | Based on title due-diligence and other information provided by the Client, the Valuer understands that the Subject Asset is free from any encroachments and are available as on the date of the valuation |
| Asset Title: | For the purpose of this valuation exercise, the Valuer has relied on the Title Reports prepared by the Legal Counsels for each of the Assets and has made no further enquiries with the relevant local authorities in this regard. The Valuer understands that the Subject Asset may have encumbrances, disputes and claims. The Valuer does not have the expertise or the preview to verify the veracity or quantify these encumbrances, disputes or claims. For the purpose of this valuation, the Valuer has assumed that the respective assets have title deeds that are clear and marketable. We recommend that a suitable Asset Lawyer or similar reviews these assumptions and confirm they are reasonable before relying in this report. |
| Environmental Conditions: | In preparing our valuation we assume that no contaminative or potentially contaminative use is, or has been, carried out at the property. We do not undertake any investigation into the past or present uses of either the property or any adjoining or nearby land, to establish whether there is any potential for contamination from these uses and assume that none exists. Should it, however, be subsequently established that such contamination exists at the property or on any adjoining land or that any premises have been or are being put to contaminative use, this may have a detrimental effect on the value reported |

| | |
|---|---|
| Town Planning: | The current zoning of the Subject Asset has been adopted on the basis of review of various documents (title deeds & approval documents) provided by the Client and the current land use maps for the subject micromarket. The same has been considered for the purpose of this valuation exercise. Further, it has been assumed that the development on the Subject Asset adheres/ would adhere to the development regulations as prescribed by the relevant authorities. The Valuer has not made any enquiries with the relevant development authorities to validate the legality of the same.<br><br>Our valuations are prepared on the assumption that the premises comply with all relevant statutory enactments and Building Acts and Regulations, that a valid and up-to-date Fire Certificate has been issued. We assume that all necessary consents, licenses and authorizations for the use of the asset and the process carried out therein have been obtained and will continue to subsist and are not subject to any onerous conditions.<br><br>In the event that a legal requisition or other relevant planning information or document is obtained, and the information therein is found to be materially different to the town planning information in the report, the valuation must not be relied upon before first consulting iVAS Partners to reassess any effect on the valuation/s |
| Area: | The total leasable area considered for the purpose of this valuation exercise is based on the inputs shared by the Client. It must be noted that the above information has been provided by the Client and has been verified based on the approvals/ layout plans/building plans provided by the Client. However, the Valuer has not undertaken additional verification and physical measurement for the purpose of this valuation exercise.<br><br>The land area as per sale deed is 26.47 acres and the land area as per the sanctioned layout plan/approved plans is 26.45 acres. We have considered the land area as per the building approval plans for the purpose of this valuation. |
| Condition & Repair: | In the absence of any information to the contrary, the Valuer has assumed that there are no abnormal ground conditions, nor archaeological remains present which might adversely affect the current or future occupation, development or value of the asset; the asset is free from rot, infestation, structural or latent defect; no currently known deleterious or hazardous materials or suspect techniques will be used in the construction of or subsequent alterations or additions to the asset and comments made in the asset details do not purport to express an opinion about, or advice upon, the condition of uninspected parts and should not be taken as making an implied representation or statement about such parts |
| Not a Structural Survey: | The Valuer states that this is a valuation report and not a structural survey |
| Legal: | Unless specifically disclosed in the report, the Valuer has not made any allowances with respect to any existing or proposed local legislation relating to taxation on realization of the sale value of the Subject Asset.<br>We do not read legal documentation. Where legal documentation is provided to us, we will have regard to the matters therein but recommend that reliance should not be placed on our interpretation thereof without prior verification by your legal advisors. Unless disclosed to us, we assume that there are no outstanding statutory breaches or impending litigation in respect of the property. We further assume that all documentation is satisfactorily drawn and that unless disclosed to us, there are no unusual or onerous restrictions, easements, covenants or other outgoings which would adversely affect the value of the relevant interest(s). In respect of leasehold Assets, we will assume that your landlord will give any necessary consents to an assignment. Unless notified to the contrary we assume that each property has a good and marketable title and is free from any pending litigation. |
| Others: | Considering the unorganized nature of real estate markets in India, all comparable evidence (if any) provided in the valuation report has been limited to the basic details such as the area of asset, rate at which transacted, broad location, etc. other specific details would be provided only if the information is available in public domain |
| Other Assumptions: | Please note that all the factual information such as tenants' leasable area, lease details such as lease rent, lease commencement and lease end date, lock – in period, escalation terms, etc. pertaining to the Subject Asset is based on the rent roll provided by the Client and the same has been adopted for the purpose of this valuation exercise. The rent rolls have been cross-checked with copies of the lease deeds on a sample basis as shared with the valuer to verify the authenticity. Any change in the above information will have an impact on the assessed value and in that case the Valuer will have to relook at the assessed value. The relevant information sources are represented in section 5.5.<br><br>All measurements, areas and ages quoted in our report are approximate. |

| | |
|---|---|
| | We are not advisors with respect to legal, tax and regulatory matters for the transaction. No investigation of the respective Special Purpose Vehicles (SPVs) holding the assets' claim to title of assets has been made for the purpose of this Report and the SPVs' claim to such rights have been assumed to be valid. No consideration has been given to liens or encumbrances against the assets. Therefore, no responsibility is assumed for matters of a legal nature.<br>As per the details provided by the Client, the rental revenue has been calculated and other analysis are performed on chargeable area. Further, Leasable area mentioned is in accordance with the information shared by the Client comprising rent rolls and lease agreements. |
| Flooding risk: | We have assumed that either there is no flooding risk or, if there is, that sufficient flood defenses are in place and that appropriate building insurance could be obtained at a cost that would not materially affect the capital value. |
| Site Conditions: | We do not commission site investigations to determine the suitability of ground conditions and services, nor do we undertake environmental or geotechnical surveys. We have assumed that these aspects are satisfactory and also that the site is clear of underground mineral or other workings, methane gas or other noxious substances.<br>In the case of property which may have redevelopment potential, we proceed on the basis that the site has load bearing capacity suitable for the anticipated form of redevelopment without the need for additional and expensive foundations or drainage systems (unless stated otherwise) |
| Hazardous & deleterious materials | Unless otherwise noted, we have assumed that the improvements are free of Asbestos and Hazardous Materials, or should these materials be present then they do not pose significant risk to human health, nor require immediate removal. We assume the site is free of subsoil asbestos and have made no allowance in our valuation for site remediation works.<br>Our visual inspection is an inconclusive indicator of the actual condition/presence of asbestos/hazardous materials within the property. We make no representation as to the actual status of the Property. If a test is undertaken at some time in the future to assess the degree, if any, of the presence of any asbestos/hazardous materials on site and this is found to be positive, this valuation must not be relied upon before first consulting iVAS Partners to reassess any effect on the valuation.<br>Unless specifically instructed, we do not carry out investigations to ascertain whether any building has been constructed or altered using deleterious materials or methods. Unless specifically notified, our valuation assumes that no such materials or methods have been used |
| Unregistered interests | We have assumed that there are no unregistered interests or interests not captured by the applicable Regulatory Authority in the country which services are to be carried out which may affect market value. In the event that the Reliant Party becomes aware of any further or pending easements, encumbrances or unregistered interests, this valuation must not be relied upon before first consulting iVAS Partners in writing to reassess any effect on the valuation |
| Heightened Market Volatility | We draw your attention to current heightened geopolitical tensions, low economic growth in many major countries, and a "higher for longer" interest rate sentiment which have increased the potential for constrained credit markets, negative capital value movements and continued volatility in some property markets over the short-to-medium term.<br>Experience has shown that consumer and investor behaviour can quickly change during periods of such heightened volatility. Lending or investment decisions should reflect any heightened level of volatility and potential for changing market conditions. Lending and investment caution is advised in this regard.<br>It is important to note that the conclusions set out in this report are valid as at the valuation date only. Where appropriate, we recommend that the valuation is closely monitored, as we continue to track how markets respond to evolving events. |

# 3 Coimbatore – Market Structure and Conditions

## 3.1 Information

For the purpose of the valuation exercise, reliance has been made on the deliverables of CBRE South Asia Private Limited, an independent agency appointed by TVS to undertake market research, provide market commentary, and data as a part of a report (the "Industry Assessment Report") for the purpose of this assignment.

## 3.2 Demand and Supply

### 3.2.1 Demand and Supply Trends – Coimbatore

Coimbatore has approx. 5.09 mn sft of operational warehouse supply out of which approx. 4.44 mn sft is occupied. The Southern vector constitutes about 86% of the Completed supply. Industrial and Warehousing market of Coimbatore is primarily driven by the demand arising from Third party logistics, E-Commerce, Industrial Manufacturers, FMCG etc. The city predominantly houses Grade B developments of ~ 39% and about ~ 38% of Grade A and 23 % Grade C developments respectively.

| Particulars | Details |
|---|---|
| Cumulative completed warehouse stock (Q3 2024) | Approx. 5.09 msf |
| Cumulative occupied stock (Q4 2024) | Approx. 4.44 msf |
| Current vacancy (Q3 2024) | Approx. 12.77 % |
| Future supply (2024 – 2025) | Planned supply: 0.4 to 0.5 Mn Sft |

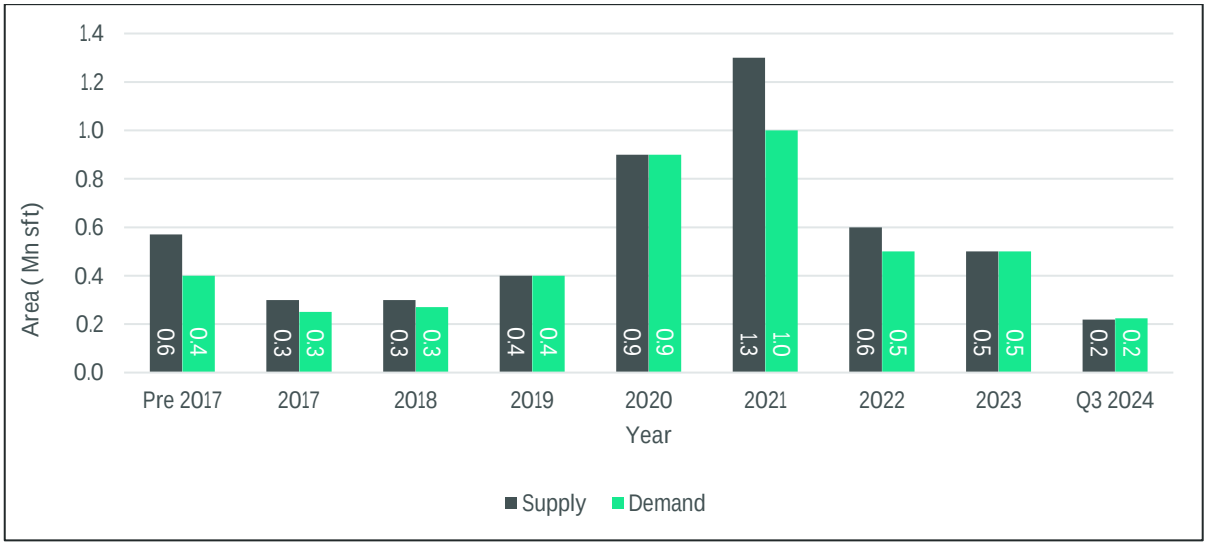
*Source: Industry Assessment Report dated September 30, 2024*

Warehousing activity in Coimbatore is primarily spread across the three major clusters i.e. Northern Cluster (Sathy road, National Highway 181 and National Highway 198); Eastern part (Avinashi Road Southern Cluster (Kochi Frontier road, Palakkad road and Salem Highway) and Southern Cluster (Palladam-Cochin Frontier Road)

## 3.3 Coimbatore - Completed Supply and Absorption Dynamics

Coimbatore has approx. 5.09 mn sft of operational warehouse supply out of which approx. 4.44 mn sft is occupied. The Southern vector constitutes about 86% of the Completed supply. Industrial and Warehousing market of Coimbatore is primarily driven by the demand arising from Third party logistics, E-Commerce, Industrial Manufacturers, FMCG etc. The city predominantly houses Grade B developments of ~ 39% and about ~ 38% of Grade A and 23 % Grade C developments respectively.

Demand – Supply Dynamics of City: Coimbatore



*Source: Industry Assessment Report*

Northern Cluster:

Northern Cluster Warehouses in this stretch are majorly concentrated on the Periya Pudur Region. The warehousing demand is steadily rising along this vector with co-relation to the established industries being converted to warehousing establishments.

Eastern Cluster:

Second most prominent Warehousing cluster in Coimbatore. Most of the Grade C warehouses are concentrated along this Vector.

Southern Cluster:

This cluster is the major warehousing cluster of Coimbatore and hosts all Grade A developments in the city. All Major Warehousing players are located along this vector (TVS, Indospace, NDR, VSMC)

The Southern Cluster is home to the majority of warehouses, accounting for approximately 86% of the completed supply in Coimbatore. These micromarkets predominantly serve the needs of third-party logistics, FMCG, e-commerce, and manufacturing companies.

A global pandemic scenario that resulted in construction delays and a postponement of the utilisation of pre-committed warehouse space on the market in 2020 caused a slight decrease in supply and demand, which demand in 2021 made up for. Due to spillover demand from 2020, which had an impact on the automotive and 3PL tenant industries as well as COVID-19, 2021 saw the greatest influx of supply and absorption.

The average annual absorption across all grades of warehouses has been between 0.4 and 0.5 million square feet, indicating a consistent demand over the past three years (2021–2023). The strategic location of Coimbatore as a

significant industrial hub in South India with easy access to important transportation routes is what drives this consistent demand.

SNAPSHOT OF SOUTHERN VECTOR

| Completed Supply | Vacancy | Grade A Supply | Grade A Vacancy | Share of Grade A Supply in Coimbatore | Upcoming Supply |
|---|---|---|---|---|---|
| 4.39 Mn sft | 7- 8% | 1.93 Mn sft | 4- 5% | 100% | 0.4 – 0.5 Mn sft |

Source: CBRE Research ; Updated as of Q3 2024

The Southern Cluster Micro Market comprises of locations along the Palladam-Cochin Frontier Road such as Pappampatti, Chettipalayam, Kallapalayam, Okkilipalayam and Pachapalayam. This cluster is the most prominent warehousing cluster of Coimbatore and hosts all Grade A developments in the city – Indospace and TVS. The cluster comprises of approximately 86% of the completed supply in the Coimbatore City. Out of the completed supply in Southern cluster approximately 44% of the supply is Grade A. Majority of the Warehousing demand is driven by FMCG, FMCD and 3PL tenants. Further, details of micro markets are elaborated in the following paragraphs.

The Palladam-Kochi Frontier Road holds major warehousing developments for clusters such as Indospace, TVS, NDR, VSMC, etc. Currently, there is only a vacancy in grade C warehouses, and grade A and B warehouses are completely occupied. The presence of developable land banks, as well as its proximity to manufacturing clusters and the Kochi industrial market, are the major demand drivers for this cluster. The strategic location of the Palladam-Kochi Frontier Road also makes it an attractive option for companies looking to establish distribution centres in South India, specifically in Kerala. The availability of skilled labour in the surrounding areas further enhances the appeal of this location for companies looking to set up operations. Additionally, the well-connected road network and access to major ports make it an ideal choice for businesses seeking efficient logistics solutions

#### 3.3.1.1 Key Developments in Micromarket

The table below highlights the prominent developments in the subject micromarket:

| Building Name | Year of Establishment | Leasable Area (sft) | Average Lease Rental (INR per sft pm) |
|---|---|---|---|
| NDR Factor Warehouse | 2020-22 | 7,10,000 | 21 – 22 |
| VSMC Logistics Park | 2019 | 1,10,000 | 16 – 17 |
| Indospace SKLL | 2019-22 | 3,55,000 | 21 – 22 |
| NDR Warehouse | 2017-19 | 5,65,000 | 21 – 22 |

*Source: Industry Assessment Report*

### 3.3.2 Market Rent

The table below highlights the recent lease transactions in the micromarket:

| Date of Transaction | Chargeable Area (sft) | Lessee | Name of the Building | Total Rent (INR per sft per month) | Description |
|---|---|---|---|---|---|
| Q2, 2023 | 90,000 | Pidilite | VSMC | 18 | Base Rental |
| Q2, 2023 | 1,00,000 | Walkkaro | Independent Warehouse | 16 | Base Rental |
| 2023 | 50,000 | Vasanth & Co. | NDR | 19 | Base Rental |
| Q4, 2023 | 1,00,000 | UPVC prominence windows | Independent Warehouse | 15 | Base Rental |
| Q1, 2024 | 30,000 | Page (Jockey) | Indospace | 21 | Base Rental |

*Source: Industry Assessment Report*

As can be observed from the table above and our interactions with other market players, the rental value in the micromarket ranges between INR 18-21/sft/month (base rentals). The variance across rentals is primarily due to factors such as location, volume of space uptake, accessibility, overall tenant mix, quantum of vacant stock in the development, specifications of the block, park level infrastructure, specialised infrastructure, etc.

## 3.4 Market Outlook

Based on the market research, we understand that the subject micromarket is perceived as a favourable destination for various industry players owing to the excellent connectivity (via Palladam – Cochin Frontier), attractive rentals, availability of developable land parcels etc. Sulur has many small and large-scale industries which has enabled it to develop as an industrial ecosystem. Further, owing to the growth of E-Commerce sector and its continuous demand, the requirement for Grade A warehouse spaces have been increasing consistently which is seen via the highest absorption levels in Grade A parks in the market.

Major infrastructure initiatives such as the upcoming Kochi-Coimbatore-Bengaluru Industrial Corridor, which is expected to come by 2026, six lane corridor from Karur to Coimbatore which is expected to be operational by 2028, Airport expansion programme is expected to amplify the warehousing demand due to better connectivity and efficient transportation within production and distribution zones of Coimbatore.

Thus, the subject micro-market is expected to experience sustained demand and supply in the coming years.

Further, the Subject Asset is well positioned in the market to attract interest from occupiers owing to its location (Palladam Kochi Frontier Road), specifications and amenities, developer's reputation, etc. Therefore, keeping in perspective the subject property's location, leasing in the micromarket, quantum of leasable area, quality of construction, developer's reputation, type of space, etc., we are of the opinion that the subject property would command a lease rental of approx. INR 18 - 21 / sft / month as on date of valuation.

# 4 Subject Asset – TVS - Coimbatore

## 4.1 Asset Description

The subject development christened 'Coimbatore Park' is an operational warehousing facility with total leasable area of 6,87,373 sft located at Survey No: 381/2B, 3B, 3A1, 3A2, 382/1B, 1C, 1D, 2B2, 383/2A1 of Appanaikenpatty Village & Survey No: 386/2A, 2B1, 387/1A, 1B, 1C, 1D, 1E, 1F, 2, 390/1C, 2, 391/1A of Selakarichal Village along Palladam – Cochin Frontier Road, Coimbatore District, Tamil Nadu – 641 402. The Subject Asset is currently accessible via Palladam – Cochin Frontier (SH – 163).

Based on the review of sanctioned layout shared by the Client and subsequent site visit undertaken, it is understood that the Subject Asset is an operational warehousing facility, located at Palladam – Cochin Frontier Road, Appanaikenpatty & Selakarichal Village, Coimbatore District, Tamil Nadu. The Subject Asset is spread across a land area of approx. 26.46 acres with a cumulative leasable area of approx. 9,82.514 sft and a cumulative chargeable area of approx. 6,87,373 sft comprising of two completed blocks (Block – I and Block – II).

Further, it was observed that the land parcel is contiguous in nature, even in terrain, is broadly regular in shape and on the same level as abutting road and adjoining properties. Also, the Subject Asset enjoys good frontage along the primary access road. The primary access road abuts the Subject Asset in its northern side.

The Subject Asset is located in an internal road emanating from Palladam – Cochin Frontier (SH-113) which connects Tirupur town in north and Pollachi town in south. The Subject Asset is a grade A warehouse with PEB structures having all requisite facilities such as DG and Transformer Yard (500 KVA and 1,250 KVA respectively), Sewage Treatment Plant – STP (50KLD for Block I and 30KLD for Block II), Storm water network (Hume pipe with RCC Chamber), Water treatment plant (75KLD in Block I), Fire Fighting Systems of NFPA/NBC standards with a 0.5mm thick bare Galvalume standing seam roof system and capability of taking solar panel load. The buildings are equipped to take a maximum power load of 1,000 KVA for Block I and 300 KVA for Block II.

The park offers a range of amenities such as domestic water supply, electric supply, fire protection, etc. The Subject Asset provides street lighting all around the park, and designated parking areas for trucks, cars and two wheelers. The park has been provided with landscaping while the asset is monitored completely with CCTV & security control to ensure safety. The prominent tenant in the Subject Asset includes a manufacturing company and an e-commerce company.

As at the valuation date the Subject Asset is fully let to 2 tenants at a total current annual rent of 209.02 Mn (excluding open area rentals) and with a Weighted average lease expiry (WALE) of 4.47 years. The main tenant is the manufacturing company, with 59% of the completed leasable area and accounting for approx. 73% of the current rent.

| Brief Description | |
|---|---|
| Particulars | Details |
| Asset Name | Coimbatore Park |
| Address | Appanaikenpatty & Selakarichal Village, Coimbatore District, Tamil Nadu – 641 402 |
| Land Area | Based on the review of the sale deed, it is understood that the Subject Asset spread across a land area of approx. 26.46 acres |
| Leasable Area | 9,82,514 sft* |
| Chargeable Area | 6,87,373 sft |
| Built-up Area | 6,80,244 sft |

*Source: Architect certificate, Rent roll provided by the Client; (Please note according to the lease agreements provided by the Client, it is understood that the rent is paid on the chargeable area, which has been considered for the valuation exercise)*

**As per the lease deed and the Client inputs the leasable area of Block I is 7,04,798 sft with main building area of 3,39,095 sft, canopy area, Toilets, Heavy Office, Security room, medical room, relax room, Creche room, substation, DG and scrap yard, compression room, driver restroom and pumproom admeasuring 65,237 sft and external area, open area and staircase of 3,00,466 sft. Of this, main building area along with canopy area, Toilets, Heavy Office, Security room, medical room, relax room, Creche room, substation, DG and scrap yard, compression room, driver restroom and pumproom is considered as chargeable area.*

### 4.1.1 Site Details

**Situation:** Subject Asset – 'Coimbatore Park' is an operational warehousing facility, located Palladam to Cochin Frontier Road, Coimbatore District, Tamil Nadu.

**Location:** The Subject Asset is located in an internal road which emanates from Palladam – Cochin Frontier (SH-113) which connects Tirupur town in north and Pollachi town in south. The Subject Asset is located in Appanaikenpatty & Selakarichal Village on the southern periphery of Coimbatore City.

The distances from key hubs to the Subject Asset are presented in the table below:

| Landmark | Distance (Km) |
|---|---|
| Coimbatore International Airport | 26-27 |
| Coimbatore Railway Station | 28-29 |
| Coimbatore New Bus Stand | 40-41 |

*Source: Valuer's research*

**Catchment Analysis:** The primary catchment for the purpose of this valuation has been defined as Sulur and its adjoining micromarkets which are predominantly characterized by industrial/warehousing facility. Organised developments in Sulur, Selakaraichal Village, where the Subject Asset is located, and its neighbouring villages are in nascent stages. The subject micromarket has large tracts of vacant agricultural lands along with few industrial and warehouse developments with presence of unorganized residential activity. However, the micromarket has been gaining traction due to its easier connectivity to Kerala and Tamil Nadu thereby gaining interest from prominent players like Indospace Logistics Park and local developers

like VSMC Logistics Park. Other standalone developments include Amma Alloy (India) Pvt. Ltd, Garuda Farm Equipment Limited, Real Links India Private Limited, etc.

Surrounds:

The Subject Asset is surrounded as follows:

- North: Access Road
- South: Private Property
- East: Private Property
- West: Private Property

Potential changes in surroundings:

The subject micromarket is currently characterized by the presence of large tracts of vacant land parcels, a few captive industrial developments and unorganised residential plotted layouts. However, in recent times, the micromarket has been witnessing significant infrastructure initiatives which has been driving the industrial demand in the subject location viz., the commissioning of the six-lane green field road project connecting Coimbatore to Karur. The six lane Karur-Coimbatore bypass, with service roads, will include an outer ring road for Coimbatore. It will connect Madukkarai, Sulur, Karumathampatti, Annur and Perianaikenpalayam. The total length of the highway is assessed to be approx. 182.5 km and is currently underway. On completion, the project will act as a primary transportation corridor for the micromarket and is expected to significantly enhance the connectivity/ accessibility of the subject micromarket.

The availability of land and improved infrastructure initiative is likely to enhance organized connectivity thereby attracting manufacturers and developers which will drive the demand in the subject micromarket over medium to long term.

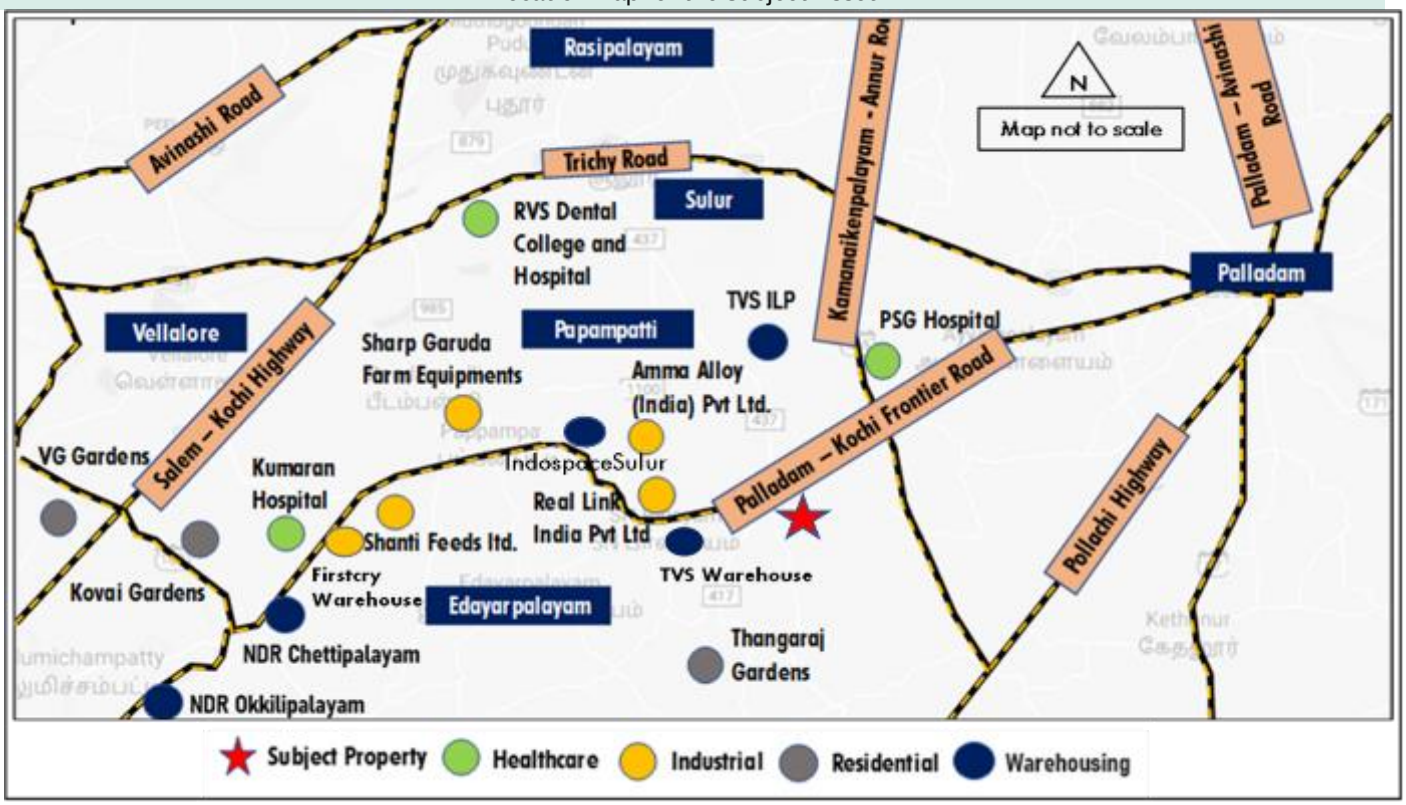
Suitability of existing use:

As per information received from the Client and the site visit undertaken, we understand that the Subject Asset is an operational warehousing facility. The current use of the property i.e. 'Industrial & Logistic Park' is as per the usage permitted by the development authority. We have not verified the same from the Director of Town and Country Planning Authority or inspected any documentary evidence to the same.

Also considering the nature of subject development coupled with the location and profile of the surrounding developments, the use of the Subject Asset is opined to be in conformity with the envisaged development.

The following map indicates the location of the Subject Asset and surrounding developments:

Location Map for the Subject Asset



*Source: Valuers' research*

Shape: Based on the site plan provided by the Client and visual inspection during the site visit, it is understood that the underlying land is broadly regular in shape.

Topography: Based on the site plan and as corroborated with our site visit, the site appears to be even and is at the same level as abutting access roads and adjoining Assets.

Frontage: Based on review of site plan and visual inspection, we understand that the subject land enjoys a good frontage along the access road.

Accessibility: Based on the site plan provided by the Client and visual inspection, the primary access to the Subject Asset is via Palladam – Cochin Frontier (SH-163). By virtue of the same the asset enjoys excellent accessibility and frontage.

Please refer Section 7.0 Exhibit & Addendums for the site plan of the Subject Asset.

### 4.1.2 Review of sale deed or Lease agreement

As per the sanctioned layout plan provided by the Client, we understand that the exact address of the Subject Asset is at Survey No: 381/2B, 3B, 3A1, 3A2, 382/1B, 1C, 1D, 2B2, 383/2A1 of Appanaikenpatty Village & Survey No: 386/2A, 2B1, 387/1A, 1B, 1C, 1D, 1E, 1F, 2, 390/1C, 2, 391/1A of Selakarichal Village along Palladam – Cochin Frontier Road, Coimbatore District, Tamil Nadu – 641 402. Additionally, it is understood that the Subject Asset is owned by TVS Infrastructure Private Limited and is freehold in nature.

### 4.1.3 Title Details

This valuation exercise is based on the premise that the Subject Asset has a clear title and is free from any encumbrances, disputes, claims, etc. Valuer has not made any inquiries in this regard with the relevant legal/ statutory authorities with the understanding this level of due diligence will be undertaken by the appropriate lawyers and then advised to the Valuer accordingly. We strongly recommend the assumption the asset has a clear title is confirmed before relying on the report.

### 4.1.4 Town Planning

| | |
|---|---|
| Zoning | As per the review of the inputs shared by the Client, we understand that the Subject Asset is zoned for "Industrial" Use. The same has been considered for the purpose of this valuation. Valuer has made no further inquiries with the local panchayat or Director of Town and Country Planning authorities in this regard.<br><br>For the purpose of this exercise, it has been assumed that all developments (existing / under construction / proposed) adhere to building regulations as prescribed by the relevant authorities. Valuer has not validated the information provided by the Client with the relevant development authorities. |
| Approved Usage: | The Subject Asset is an operational warehousing development. The current use of the Subject Asset is broadly in agreement with the rules and regulations as prescribed by the local development authority. However, Valuer has not made any enquiries with the relevant local authorities to validate the same for its specific applicability to the Subject Asset. |
| Restrictions: | As per feedback received from the Client, there are no other restrictions or constraints on the current use of the asset. |
| Natural or induced hazards: | We have not carried out any investigations or tests or been supplied with any information from Client or from any relevant expert that determines the presence or otherwise of pollution or contaminative substances in the Subject Asset or any other land (including any ground water).<br><br>For the purpose of assessing the vulnerability of the Subject Asset to any natural or induced disaster the location of the property with respect to risks pertaining to earthquakes, high winds/cyclone and flooding was studied. Appanaikenpatty Village where the Subject Asset is located falls in Seismic Zone II (least active) with low risk. The city faces low risk in terms of high winds or cyclones too given that the subject property falls in high-lying area as per the topographic map. No hazardous activity was noted in the vicinity of the Subject Asset which may expose it for any induced disaster. |
| Approvals: | As per the documents provided by Client, we understand that the approvals mentioned in section 4.1.5.1 for the asset have been obtained. Please refer annexures for the details.<br><br>For the purpose of this exercise, it has been assumed that all developments adhere to building regulations as prescribed by the relevant authorities. Valuers have not validated the information provided by the Client with the relevant development authorities. |

### 4.1.5 Statutory Approvals, Sanctions & Approvals

#### 4.1.5.1 Statutory Approvals received and to be received

As per the review of documents provided by the Client, we understand that all requisite approvals have been received for the Subject Asset.

The table below highlights the status of approvals for the Subject Asset:

| Approval/NOC | Status (Applied / Received) | Authority | Date of Issue (DD-MM-YY) |
|---|---|---|---|
| Fire NOC | Received | Fire and rescue Department | 11-02-2020 |
| Ground Water Abstraction NOC | Received | Water Resource Department, Government of Tamilnadu | 24-10-2020 |
| Land Use – Agriculture NOC | Received | Agriculture Department, Government of Tamilnadu | 04-05-2020 |
| Electricity Installation | Received | Electrical Inspectorate, Government of Tamilnadu | 07-05-2021 |
| Building License | Received | Local Panchayat, Coimbatore | 11-02-2021 |
| Building Permit/Planning Approval | Received | Director of Town and Country Planning | 04-11-2020 |
| Consent for Establishment – Air & Water | Received | Tamilnadu Pollution Control Board, Coimbatore | 29-04-2022 |

*Source: Approval documents provided by the Client*

#### 4.1.5.2 List of up to date/overdue periodic clearances

As per the details provided by the Client, we understand that there are no overdue periodic clearances. Please refer section 7.3 for any further details

### 4.1.6 Area Details, Type and Age of Existing Structures

The table below highlights the age of the completed blocks of the Subject Asset:

| Block | Total Area (sft) | Operational Area (sft)* | Under-Construction Area (sft) | Year of Completion |
|---|---|---|---|---|
| Coimbatore Park - Block I | 6,99,473 | 4,04,332 | - | Q1 2021 |
| Coimbatore Park - Block I (Mezzanine) | 5,582 | 5,582 | - | Q1 2024 |
| Coimbatore Park - Block II | 2,53,724 | 2,53,724 | - | Q4 2020 |
| Coimbatore Park - Block II (open space) | 1,550 | 1,550 | - | Q4 2020 |
| Coimbatore Park - Block II (Mezzanine) | 22,185 | 22,185 | - | Q4 2020 |
| Total Area | 9,82,514 | 6,87,373 | - | |

*Source: Client Inputs*Area mentioned is chargeable area.*

The table below highlights the area details of the Subject Asset:

| Block | Leasable area (sft) | Chargeable area (sft) |
|---|---|---|
| Coimbatore Park - Block I | 6,99,473 | 4,04,332 |
| Coimbatore Park - Block I (Mezzanine) | 5,582 | 5,582 |
| Coimbatore Park - Block II | 2,53,724 | 2,53,724 |
| Coimbatore Park - Block II (open space) | 1,550 | 1,550 |
| Coimbatore Park - Block II (Mezzanine) | 22,185 | 22,185 |
| Total Area | 9,82,514 | 6,87,373 |

*Source: Architect certificate, Rent roll provided by the Client; (Please note according to the lease agreements provided by the Client, it is understood that the rent is paid on the chargeable area, which has been considered for the valuation exercise).*

**As per the lease deed and the Client inputs the leasable area of Block I is 7,04,798 sft with main building area of 3,39,095 sft, canopy area, Toilets, Heavy Office, Security room, medical room, relax room, Creche room, substation, DG and scrap yard, compression room, driver restroom and pumproom admeasuring 65,237 sft and external area, open area and staircase of 3,00,466 sft. Of this, main building area along with canopy area, Toilets, Heavy Office, Security room, medical room, relax room, Creche room, substation, DG and scrap yard, compression room, driver restroom and pumproom is considered as chargeable area.*

### 4.1.7 Site Services and Finishes

| Particulars | Completed Blocks |
|---|---|
| Handover condition | Warm Shell |
| Type of Structure | PEB + RCC Structure |
| Firefighting services | Provided. Fire NOC Available |
| Lift provision | No Lifts |
| Floor Finish | FM2 Concrete floor |
| Floor Strength | 5 MT/Sqm |

*Source: Information provided by the Client, Site visit*

### 4.1.8 Condition & Repair

Based on information provided by the Client and corroborated with our visual inspection during the site visit, it is understood that the Subject Asset is in good condition and is well maintained. The table below highlights the major repairs and maintenance work/ infrastructure upgrade works to be undertaken over the next few quarters:

| Expense Head | Total Cost (INR Mn) |
|---|---|
| Refurbishment capex | NA |

*Source: Valuer Estimate and Information provided by the Client*

### 4.1.9 Asset Photographs

Please refer to the asset photographs highlighted below:

### 4.1.10 Details of the asset including whether the transaction is a related party transaction

Please refer to the Annexure section 7.1

### 4.1.11 Nature of the interest the InvIT holds or proposes to hold in the asset, percentage of interest of the InvIT in the asset

Please refer to the Annexure section 7.1

### 4.1.12 Structure of ownership of the asset by the InvIT

Please refer to the Annexure section 7.1

### 4.1.13 Description of key agreements and restrictions relevant to the asset such as terms of concession agreement, power purchase agreements, etc.

Please refer to the Annexure section 7.1

### 4.1.14 Life of the asset (both contractually and physical life requiring maintenance, replacement and right available to extend this life

Please refer to the Annexure section 7.1

### 4.1.15 Valuation of the asset in the previous 3 years

As of the date of this valuation report, the Subject Asset is not part of the Infrastructure Investment Trust (InVIT)

# 5 Valuation Approach & Methodology

## 5.1 Scope of Valuation

The valuation exercise is to assess the Market Value (MV) of the Subject Asset for the purpose of the offer of units through private placement (the "Private Placement") of TVS Infrastructure Trust InvIT under the SEBI (Infrastructure Investment Trust) Regulations, 2014, as amended. The valuations have been conducted in accordance with the IVSC International Valuation Standards, (effective 31 January 2022) and in accordance with the requirements of the SEBI (Infrastructure Investment Trust) Regulations, 2014, as amended from time to time.

This valuer has assessed the Market Value of each individual Subject Asset, not the value of the portfolio, if all Assets were sold in one transaction. Where a summation of the individual Assets is provided, this is purely for reference only and should not be construed as the value of the portfolio. Kindly refer to the summary report section 1.0 for list of Subject Asset forming part of the portfolio.

## 5.2 Basis of Valuation

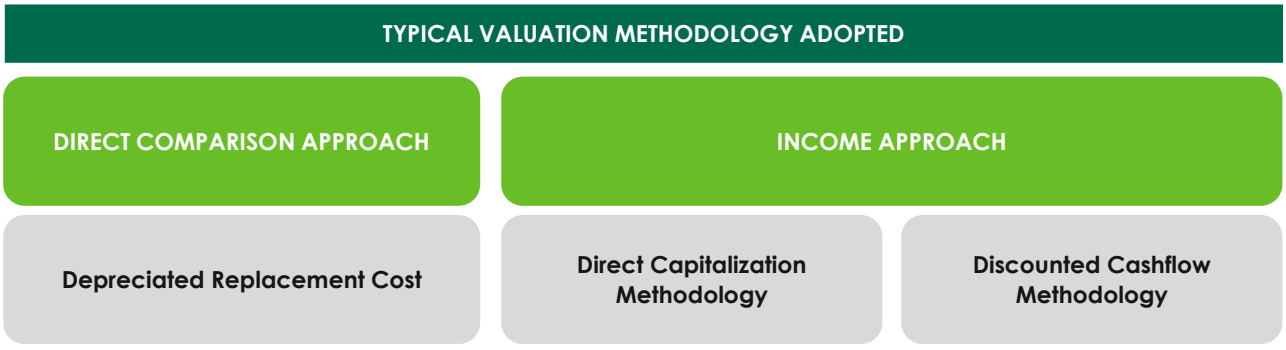
The valuations have been conducted in accordance with the IVSC International Valuation Standards issued in July 2021, effective from 31 January 2022), Regulation 21 and Schedule V of the SEBI (InvIT) Regulations, 2014 and is in compliance with the International Valuation Standards (IVS). The valuation exercise has been undertaken by appropriately qualified Valuer and will be assessing the Market Value of the ownership Interest in the Subject Asset.

As per the Valuation and Guidance Notes issued by the IVS, the market value is defined as:

***'The estimated amount for which a** asset or liability should exchange on the valuation date between a **willing buyer and a willing seller in an arm's length transaction, after proper marketing and where the parties had each acted knowledgeably, prudently and without compulsion'.***

## 5.3 Approach and Methodology

The purpose of this valuation exercise is to estimate the Market Value (MV) of the Subject Asset. Market Value can be derived through the following Methodologies:



### 5.3.1 Direct Comparison Approach

Under the 'Direct Comparison Approach', the asset is compared to similar Assets that have actually been sold in an arms-length transaction or are offered for sale (after deducting for value of built-up structure located thereon). The comparable evidence gathered during research is adjusted for premiums and discounts based on asset specific attributes to reflect the underlying value of the asset.

The value of the land component under this approach has been assessed based on comparison with similar Assets that have actually been sold in arms-length transaction or are offered for sale in the subject micromarket.

Based on our interactions with the local market players, we understand that the market has few Assets of comparable sizes which are currently available for sale in the market. Therefore, the value of the subject land parcel has been estimated through a direct comparison approach utilizing the seller quotes available in the market as well as few reported transactions.

The values for these comparable Assets are further adjusted for various premiums and discounts (viz. towards size, location, accessibility, frontage, visibility, ownership status, profile of the surrounding developments, zoning, etc.) vis-à-vis the Subject Asset to determine the achievable market value for the Subject Asset.

Based on the market research undertaken, it is understood that the capital values for land parcels in the subject micromarket are primarily governed by parameters which are as follows:

- Location & profile of surrounding developments – Based on our market study, it was identified that land parcels located in proximity to highway would command higher capital values in comparison to the land parcels located further away on internal village roads. In addition, based on our interactions with local market players, we understand that the land parcels located in proximity to existing village catchments command higher capital values as compared to those located further away from the existing village catchments.
- Size of the land parcel – Based on our interactions with the local market players, it was understood that the small-medium sized land parcels (approx. 1 – 5 acres) attract almost negligible discount on account of lesser quantum of investment involved and a shorter marketing timeframe required for disposal of such land parcels.
- Accessibility, frontage and visibility – Based on our market research, it was observed that the land parcels having superior frontage along the access road or by virtue of it being a two side or a three-side corner plot would command a premium vis-à-vis the other Assets. Further, it was observed that the Assets located on wider access roads command premium vis-à-vis Assets located along narrow access roads.
- Zoning and requisite clearances - Based on our market research, it was observed that the land parcels with industrial / multipurpose / residential use zoning would command a premium in comparison to the land parcels under agricultural use /conservation zone. Further, we understand that the land parcels with the requisite clearances in place such as NALA (Non-Agricultural Land Assessment) conversions, etc. command a premium over the agricultural land parcels.
- Physical conditions of the asset/ownership - Based on our market research, it was observed that the land parcels with site improvements such as compound wall, bore well, etc. command a premium. In addition, Assets with single owner would attract a premium as compared to the Assets with multiple owners.

### 5.3.2 Income Approach

The income approach is based on the premise that value of an income - producing asset is a function of future benefits and income derived from that asset. There are two commonly used methods of the income approach in real estate valuation namely, direct capitalization and discounted cash flow (DCF).

A. Direct Capitalization Method

Direct capitalization involves capitalizing a 'normalized' single - year net income estimated by an appropriate yield. This approach is best utilized with stable revenue producing assets, whereby there is little volatility in the net annual income.

B. Discounted Cash Flow Method

A Discounted Cash Flow Analysis is based upon estimates of future financial performance. The methodology begins with a set of assumptions regarding income and expenses of the Asset and future economic conditions in the local market. The income and expense figures are asseted with adjustments for estimated changes in economic conditions and any contractual commitments. The resultant value is considered the best estimate but is not to be construed as a prediction or guarantee and is fully dependent upon the reasonableness of the assumptions with respect to income, expenses, and market conditions, which are based on information available as at the valuation date.

## 5.4 Approach and Methodology Adopted

Considering the objective of this exercise, the nature of asset involved and the purpose of the valuation viz. to assess the Market Value (MV) of the Subject Asset for the purpose of the Private Placement of TVS Infrastructure Trust InvIT under the SEBI (Infrastructure Investment Trust) Regulations, 2014 'Regulation', we have adopted the methodology considering Chapter 1 section 2 point (i) of the InvIT regulation, which states that, the assets forming part of InvIT should meet among the below criteria as follow:

1. The infrastructure asset has achieved the commercial operations date as defined under the relevant asset agreement including concession agreement, power purchase agreement or any other agreement of a similar nature entered into in relation to the operation of the asset or in any agreement entered into with the lenders
2. The infrastructure asset has received all the requisite approvals and certifications for commencing operations
3. The infrastructure asset has been generating revenue from operations for a period of not less than one year

Hence owing to the above stated conditions, we are of the opinion that the income approach which is appropriate to value such asset based on the premise that value of an income - producing asset is a function of future benefits and income derived from that asset.

Under the Income approach, Discounted Cash Flow Analysis is based upon estimates of future financial performance which also considers the income and expenses of the Asset accounting for the future fluctuations due to expected market dynamics.

Hence, for the purpose of this valuation exercise, we have adopted Discounted Cash Flow Method (using rent reversion approach).

For the purpose of this valuation exercise, we have analysed the tenancy details provided by the Client to identify variances vis-à-vis prevailing marginal rent. In the event the contracted rent is within the threshold (15.0%), we have assumed that the tenant will continue on the current agreed terms. In the event the rent is higher than the marginal rent threshold, we have assumed that the lease would be renegotiated to marginal rent terms (at the time of the lock-in expiry, next escalation, etc.).

Asset-specific Review:

1. As the first step to the valuation of the asset, the lease deeds were reviewed to identify tenancy characteristics with respect to contractual commitments and commercial covenants.

2. Title documents and architect certificates were reviewed for validation of area details, ownership of the asset.
3. The Valuer has undertaken physical site inspections to assess the status of the Subject Asset in terms of their physical configuration, capacity and upkeep.

Micromarket Review/Market Rental Assessment:

The Palladam-Cochin Frontier Road, the city's primary warehousing corridor, currently accommodates approximately 86% of the total completed supply and is poised for further growth with additional Grade A and B developments. Major players such as Indospace, TVS, NDR, and VSMC have expansion plans, supported by the availability of extensive land banks along this stretch, which adds potential for further warehousing supply. The demand from 3PL, FMCG, and e-commerce sectors primarily fuels large-scale space offtakes from Grade A or B developments.

A primary research exercise has been carried out in the catchment area to ascertain the prevalent activity levels in terms of quoted / transacted evidence of the recent leasing activity for warehousing facilitys. This has been achieved through interactions with various market players such as local real estate brokers, developers, owners, etc. Based on the same, we understand that variance across rentals is primarily due to factors such as type of asset, developer brand, location, accessibility, overall tenant mix, quantum of vacant stock in the development, specifications, and additional improvements, etc.

For the micromarket review and market rental assessment we have relied upon the report on 'Market Analysis of Warehousing assets in Identified locations pan India' prepared by CBRE South Asia Private Limited, hereafter referred as 'CBRE' (an independent agency appointed by the Client to undertake market research, provide market summary and data for the purpose of this assignment)

Cash Flow Assertions:

We have assessed future cash flows from the Subject Asset based on existing lease terms and contractual lease payments for the operational area until the expiry of the leases or re-negotiation (using the variance analysis), whichever is earlier.

Based on a detailed review of the leases for the Subject Asset, we noted that the leasable area is approx. 100% leased out as on date of valuation (completed blocks). Since the real estate industry is dynamic and is influenced by various factors (such as existing supply, tenants looking at spaces, quality of spaces available in the market, overall health of the economy, existing rent, future growth plans, etc.) at a particular point in time, negotiated rent may tend to move away from the prevalent market rent over a period of time. It has also been witnessed that the market rent for some Assets or micromarkets increase or decrease at a rate significantly different from those agreed to in initial leases. These factors reinforce the need to review each of these leases in isolation to assess the intrinsic value of the asset under review.

Post this, the lease terms have been aligned with market rentals. For vacant area, the Valuer has asserted the market rent led cash flows factoring appropriate lease-up time frame for vacant/under-construction/proposed area. These cash flows have been asserted for 10-year duration from the date of valuation and for 11th year (for assessment of terminal value). These future financial benefits are then discounted to a present-day value (valuation date) at an appropriate discount rate.

## 5.5 Information Sources for Valuation

Asset related information referred to for the valuation exercise have been provided by the Client unless otherwise mentioned. We have assumed the documents to be a true copy of the original. The rent rolls have been cross-checked with the lease deeds on a sample basis to verify the authenticity. Additionally, wherever possible, we have independently revalidated the information by reviewing the originals as provided by the Client.

Table below highlights various data points referred throughout the course of this valuation report and the data sources for the same. Asset related documents referred to in the table below have been provided to the Valuer by the Client unless otherwise mentioned. The Valuer have assumed the documents to be a true copy of the original.

# 6 Value Assessment

## 6.1 Value Assessment

### 6.1.1 Adopted Methodology

We acknowledge that the approaches to valuation differ considerably and that for a particular purpose, alternative approaches to the valuation can be utilized. Considering the objective of this exercise and the nature of asset involved, the value of the Subject Asset has been assessed through the following approaches:

| Asset Name | Valuation Methodology (Completed Blocks) | Valuation Methodology (Under-construction Blocks) |
|---|---|---|
| Coimbatore Park | Discounted Cash Flow (Using rent reversion approach) | N.A. |

The sections below highlight the detailed valuation workings for the Subject Asset.

## 6.2 Operational Assumptions

### 6.2.1 Area statement

Based on information from inputs shared by the Client, we understand that Subject Asset is an under-construction warehousing facility. Further, the table below highlights the area configuration of the Subject Asset:

| Block | Total Area (sft)[2] | Operational Area (sft)* | Under-Construction Area (sft) |
|---|---|---|---|
| Coimbatore Park - Block I | 6,99,473 | 4,04,332 | - |
| Coimbatore Park - Block I (Mezzanine) | 5,582 | 5,582 | - |
| Coimbatore Park - Block II | 2,53,724 | 2,53,724 | - |
| Coimbatore Park - Block II (open space) | 1,550 | 1,550 | - |
| Coimbatore Park - Block II (Mezzanine) | 22,185 | 22,185 | - |
| Total Area | 9,82,514 | 6,87,373 | - |

*Source: Client Inputs *Area mentioned is chargeable area*

| Tenant | Chargeable Area (sft) | % of area leased | Total In-place rental (INR psf pm) | Total In-place rental (INR Mn pm) |
|---|---|---|---|---|
| Coimbatore Park | 6,87,373 | 100% | 22.4 | 15.4 |

*Source: Lease deeds*

[2] *As per the details provided by the client, the rental revenue has been calculated and other analysis are performed on chargeable area. Further, leasable area mentioned is in accordance with the information shared by the Client comprising rent rolls and lease agreements.*

## 6.3 Tenancy Analysis

### 6.3.1 Historical Occupancy Rates

The table below highlights the historical occupancy rates at the subject development:

| Particulars | Occupancy % |
|---|---|
| Occupancy (completed blocks) | 100% |
| Pre-Commitment (under construction blocks) | N.A. |

*Source: Lease deed and Client inputs;*

### 6.3.2 Lease Rent Analysis

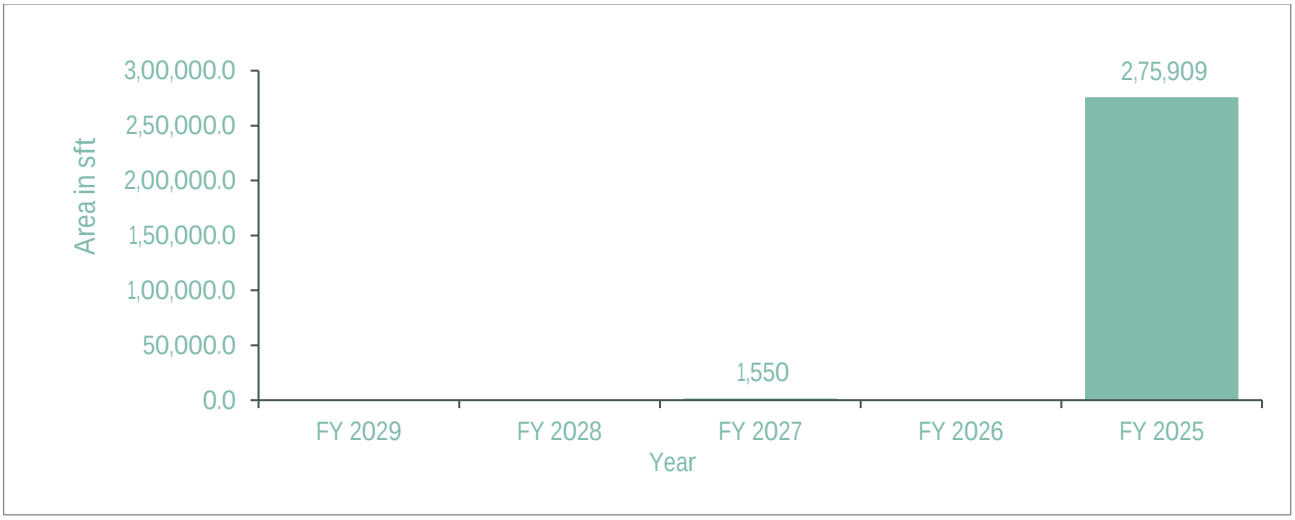
Based on the review of the Lease Deed provided by the Client, we understand that the lease agreements were signed between TVS infrastructure Pvt ltd and the tenants, details of which are mentioned below:

| Tenant | Particulars | Details |
|---|---|---|
| Manufacturing Company | Lease Commencement Date | 15th April 2021 |
| | Rent Commencement Date | 15th July 2021 |
| | Lock-in Period | 8 Years |
| | Lease Tenure/Remaining Tenure | 10/6.5 Years |
| | Lease Rent Escalation Terms | 3% every year |
| Manufacturing Company | Lease Commencement Date | 1st February 2024 |
| | Rent Commencement Date | 1st February 2024 |
| | Lock-in Period | 8 Years |
| | Lease Tenure/Remaining Tenure | 8/7.2 Years |
| | Lease Rent Escalation Terms | 3% every year |
| E-Commerce Company | Lease Commencement Date | 08th March 2021 |
| | Rent Commencement Date | 08th March 2021 |
| | Lock-in Period | 2 Years |
| | Lease Tenure/Remaining Tenure | 5.0/1.4 Years |
| | Lease Rent Escalation Terms | 4% every year |
| E-Commerce Company | Lease Commencement Date | 01st May 2022 |
| | Rent Commencement Date | 01st May 2022 |
| | Lock-in Period | 2 Years |
| | Lease Tenure/Remaining Tenure | 5.0/2.5 Years |
| | Lease Rent Escalation Terms | 4% every year |
| E-Commerce Company | Lease Commencement Date | 08th March 2021 |
| | Rent Commencement Date | 08th March 2021 |
| | Lock-in Period | 2 Years |
| | Lease Tenure/Remaining Tenure | 5.3/1.4 Years |
| | Lease Rent Escalation Terms | 4% every year |

*Source: Lease Deed and Client Inputs*

### 6.3.3 Lease Expiry Profile

The Weighted Average Lease Expiry (WALE) of the Subject Asset is 4.47 years, with 40% of occupied area expiring in FY 2026 as shown in the chart below.



*Source:* Valuer Workings; The expiry profile has been plotted only for the warehouse areas

### 6.3.4 Tenant Obligations

Based on the review of the lease deed, we understand that the operational expenses listed below will have to be borne by the Tenant.

| S. No | Description of operational expenses |
|---|---|
| 1 | Regular Maintenance |
| 2 | Taxes |
| 3 | Insurance |
| 4 | General Wear and Tear |
| 5 | Other Expenses such as utility charges towards any Governmental authorities or Concerned service provider. |

*Source: Client Inputs*

Contractual Rental Details

| Tenant | Chargeable Area (sft)* | % of area leased | Total In-place rental (INR psf pm) | Total In-place rental (INR Mn pm) |
|---|---|---|---|---|
| Coimbatore Park | 6,81,791 | 100% | 22.4^ | 15.4 |

*Source: Leased Deed and Information provided by the Client*Area considered is chargeable area ^In-place rental considered is inclusive of mezzanine and open area rentals.*

Based on the recent transaction witnessed in the micromarket as highlighted in the table above and transaction witnessed in the Subject Asset, we understand that the Subject Asset would command a marginal rental (for warehouse space) of INR 19.3 – 21.3 per sf per month (say an average rental of INR 20.3 per sf per month of leasable area).

### 6.3.5 Construction Timelines

#### 6.3.5.1 Completed Blocks

The asset was completed in a phase-wise manner with Phase 1 (Block 2 - e-commerce company) completed and operationalised in Q4 2020 and Phase 2 (Block 1 – manufacturing company) completed and operationalised in Q1 2021.

#### 6.3.5.2 Under-Construction/ Proposed Blocks

N.A

### 6.3.6 Absorption/ Leasing Velocity and Occupancy Profile

#### 6.3.6.1 Completed Blocks

As per the rent roll provided by the Client, we understand that the Subject Asset have an occupancy of 100% as on date of valuation with an average WALE of 4.47 years. Further, in order to arrive at the future absorption levels at the Subject Asset, we have analysed the historical demand and supply trends coupled with the estimation of future supply proposed to be introduced in the subject micromarket.

### 6.3.7 Revenue Assumptions (Warehouse + Industrial)

#### 6.3.7.1 Warehouse Component

For the purpose of this valuation exercise, the lease rent adopted for the area already leased is based on the rent roll/lease deeds shared by the Client. Further, the Valuer have undertaken an in-depth market research exercise to assess the prevailing rent values in the subject micromarket. The same has been adopted for the vacant space for the purpose of this valuation exercise.

Based on our market study and based on the analysis of the rent roll provided by the Client, following rent has been adopted for the purpose of value assessment of the completed blocks at the Subject Asset. The detailed rent assessment workings are highlighted in the lease rent analysis section presented above.

| Component | Leasable Area (sft) | Chargeable Area (sft) | Leased Area – Chargeable (sft) | Basis | Rent Adopted* (INR psf pm) |
|---|---|---|---|---|---|
| Warehouse | 9,76,932 | 6,81,791 | 6,81,791 | Current Rent for Leased area | 22.4^ |
| | | | | Market rent for reversion/ vacant area | 23.2* |

*Source: Lease deed provided by the Client; Valuer's assessment ^In-place rental is inclusive of mezzanine and open area rentals; * weighted average marginal rentals arrived considering the differential market calls for spaces such mezzanine, open space rentals and any tenant specific spaces.*

Please note basis the market research and transactions in the market for similar space, the market rental assumed for the Subject Asset is INR 20.25 per sft per month. However, *the* Weighted average market rent highlighted above includes differential rental adopted for the manufacturing company viz. in with par to its current rental of INR 26.07 per sft per month, space considering the historical evidence, nature of space/service offered to the tenant and details received from the Client.

The above market rent assumption is adopted for the entire subject development. In addition to undertaking an in-depth market analysis, a detailed analysis of the rent rolls was also undertaken to understand aspects such as area occupied, current rent and expiry analysis of the key tenants in the park.

For the purpose of this valuation exercise, the lease rent adopted for the area already leased is based on the lease deed shared by the Client. Further, an in-depth market research exercise has been undertaken to assess the expected economic rental value of the Subject Asset.

Based on our market study, we understand that the contracted rental of the Subject Asset is in line with the expected economic rental values. Hence, we have considered contracted rentals for the purpose of value assessment at the Subject Asset.

#### 6.3.7.2 Non-Warehouse Component

As per the information provided by the Client, it is understood that an industrial open space area/ mezzanine area measuring approx. 22,185 sf of which 100% is leased out. The Mezzanine area will operate as ancillary/ (comment on the utility) providing convenience to the tenants in the Subject Asset as well as surrounding development.

The Valuers have undertaken an in-depth market research exercise to assess the prevailing rent values in the subject micromarket and existing leases of Subject Asset. The same has been adopted for the vacant space (currently the asset is 100% leased) for the purpose of this valuation exercise. Given the above, we have assumed a market rent in the range of INR 8.0 to 10.0 psf pm (say INR 9.0 psf pm) as on date of valuation.

### 6.3.8 Rent Escalation

Based on an analysis of existing lease rolls and recent leasing at the Subject Asset, it was observed that the typical escalation clause in the Subject Asset is approx. 5.0% every year, which is in-line with the trend observed in the market. The same has been adopted for the renewals at the Subject Asset.

Escalation on renewal - Based on the analysis of terms of lease deed, it was observed that the typical escalation clause in the Subject Asset is 5% per annum, which is in-line with the trend observed in the market. The same has been adopted by the Valuer.

| Particulars | Unit | Details |
|---|---|---|
| Lease Rental Escalations | % p.a. | 5.0% |

*Source: Valuer's assessment*

Market Rent Escalation - Based on the trend observed in the market and based on review of the Industry Assessment report, the valuer has considered a market escalation of 5% per annum effective from the date of valuation. The assumption for market rent for this appraisal exercise is as follows:

| Particulars | Sept 2024 | March 2025 | March 2026 | March 2027 Onwards |
|---|---|---|---|---|
| Market Rent Escalation | 23.2* | 24.4 | 25.6 | 5% escalation year on year |

*Source: Valuer's assessment; * weighted average marginal rentals arrived considering the differential market calls for spaces such mezzanine, open space rentals and any tenant specific spaces.*

### 6.3.9 Other Revenues

In addition to lease rent revenues, assets typically have additional sources of revenue. These include revenues on account of security deposit (refunded at the time of lease expiry / exit), other miscellaneous income etc.

The assumptions considered for the aforementioned revenue heads for the purpose of this valuation exercise are based on the rent roll & lease deeds provided by the Client. The same has been cross-checked with the prevailing market norms for other revenues and were found to be broadly in line.

The assumptions adopted for other revenues are as tabulated below:

| Nature of Income | Details | Units |
|---|---|---|
| Security Deposit (For vacant spaces) | 6.0 | No. of months' warm shell rental |
| CAM Income (For vacant area and Development component) | 1.0 | INR per sft per month |
| Other Income (For vacant area and Development component) | 3.2% | % of total revenue |

*Source: Valuer's assessment*

### 6.3.10 Capital Expenditure

#### 6.3.10.1 Development Cost

Not applicable. The Subject Asset is an operational asset.

#### 6.3.10.2 Major Repair and improvements

As per information provided by the Client, we understand that there are no major repairs and improvement proposed in the said asset:

### 6.3.11 Operating Cost

An asset typically has few recurring operation expenses required for the upkeep running of the development.

In addition to capital expenditure, an asset typically has few recurring operational expenses required for the up-keep and running of the asset. Based on information provided by the Client and market assessment, following recurring expense assumptions have been adopted for the purpose of this valuation exercise.

Completed Blocks

| Nature of Expense | Details |
|---|---|
| Asset Management Fee^ | 3.0% of rental income |
| Property Tax* | INR 1.32 Mn |
| Insurance* | INR 1.63 Mn |
| Vacancy Allowance during operations | 1.0% |
| Vacancy Allowance on Exit | 2.5% |
| Refurbishment Reserve | 1.5% of rental income |
| Repair Margin | 0.5% of rental income |

*Source: Client input; Valuer's assessment; *As per the lease terms and the information provided by the Client; ^Asset Management fees has been considered as below the NOI line item.*

### 6.3.12 Other Assumptions

#### 6.3.12.1 Vacancy provision

Based on review of the rent roll provided, we understand that that the completed portion of the Subject Asset is substantially occupied with significantly long lease periods. Considering the same alongside other asset level parameters (location, amenities, grade, infrastructure etc) and market benchmarks, the valuer has adopted a vacancy provision as follows:

| Description | Completed Blocks |
|---|---|
| Vacancy Provision | During Operations – 1.0%<br>Assessment at the time of exit – 2.5% |

*Source: Valuer's assessment*

#### 6.3.12.2 Revenue escalation

Based on prevailing market condition, historical rent growth achieved by the Subject Asset and our interactions with market participants, we are of the opinion that the annual marginal rent growth of 5.0% has been considered for the FY 2024 and year on year thereafter.

#### 6.3.12.3 Rent-free period

Based on the rent roll provided by the Client, it is understood that the existing leases have a rent-free period ranging from 0.5 months to 1.5 months from the lease-commencement date. However, based on recent market trends in the subject micromarket, we have considered a rent-free period of 1 months for new-leases and for re-leasing effective from the lease commencement date.

#### 6.3.12.4 Brokerage

Based on prevalent market dynamics, we have considered brokerage equivalent to 0.4 month of rental income for future / new leases

#### 6.3.12.5 CAM Cashflows

CAM Cashflows for the Subject Asset have been assessed both during the holding period and at the time of notional exit. Margin on CAM and CAM Recoveries are included in the financials as per the CAM Charge based on historical performance of the Subject Asset as per the inputs provided by the Client and market benchmarks. The same is a pass through expense.

Based on on the subsequent information provided by the Client, we understand that the 100% of the CAM Income would be received by the Client entity/ InvIT entity and 100% of the CAM Expense would be borne by tenants/ SPV.

## 6.4 Financial Assumptions

### 6.4.1 Exit Capitalization Rate Adopted

The capitalization rate adopted for valuing the assets has been based on factors such as:

- Historical entry yields (going in cap rates) for yield/ core warehousing asset transactions across various key markets in India have steadily shown a downward trend over last 7 - 8 years from 10.0- 12.0% to about 7.0% - 8.5% in last 1-2 years.

- The increased appetite for income producing assets and availability of various modes of finance (real estate credit flows) backing such acquisitions.
- Yields for warehousing assets across various markets in India have a range of 7.5 – 8.5% in Tier I locations, with Tier II locations having cap rate approx. 50 – 100 bps on the higher vis-a-vis the Tier I location
- Liquidity associated with InvIT listed/ public listings (multiplicity of buyers and relatively lower budgets per buyer)

Based on the above highlighted attributes, the following cap rate has been adopted for the purpose of our valuation:

| Asset Name | SPV/Hold Co | Status of the Asset | Details |
|---|---|---|---|
| Coimbatore Park | Marudhamalai Industrial & Logistics Parks Private Limited | Completed | 7.75% |

*Source: Valuer's assessment*

### 6.4.2 Discount Rate Adopted

For discounting the cash flows, an appropriate discount rate has been calculated on the basis of estimated 'Weighted Average Cost of Capital' (WACC).

### 6.4.3 Cost of Equity

The Valuer has computed the cost of equity as per the Capital Asset Pricing Model (CAPM), which is derived as follows:

Cost of equity = Risk Free Rate (Rf) + Beta (**β**) * (Market Return (Rm) **–** Risk Free Rate (Rf))

As mentioned above, the cost of equity computed using CAPM constitutes of the following components:

- Risk free rate (Rf) i.e., long term (10-year) treasury bond rate in India
- Market return (Rm) based on the returns of Sensex index for the past 10 years
- Computation of 'Beta (β)' of key listed realty stocks and REITs/ InvITs in India with respect to the Broad-Based BSE 500 stock index

The cost of equity adopted for specific assets has been adjusted for market/ asset specific risk pertaining to a real estate assets such as execution risk (construction status), marketing risk, etc. and adjusted for taxation. While the assumptions regarding the quantum of these risks have no quantitative basis, we have adopted them based on our understanding of the market and our opinion on the asset performance.

### 6.4.4 Cost of Debt

Completed Blocks

The cost of debt for competed asset has been considered based on prevalent Lease Rental Discounting (LRD) rates for Grade A warehousing developments across the Palladam – Cochin frontier micromarkets which are in the range of 7.0% – 9.0% depending upon the location, asset quality, occupancy, etc.

8

Under Construction/ Proposed Blocks

For under construction/ proposed blocks, the cost of debt has been considered based on prevalent Construction Finance (CF) rates for warehousing facilities parks across Coimbatore which are in the range of 10.0% – 12.0% depending upon the location, asset quality, developer reputation and credit profile, etc.

### 6.4.5 Weighted Average Cost of Capital (WACC)

As highlighted earlier, the cost of debt has been assumed based on the prevalent LRD rates and construction financing for under-construction assets, while the cost of equity assumed has been adjusted for asset and market specific attributes to reflect the market expectations from an operational institutional development. Further, the proportion of debt and equity has been derived considering the prevalent LRD tenures and its contribution in the overall asset value.

Completed Blocks

Based on above, the following WACC rate has been assumed for the completed Coimbatore Park assets forming part of the InvIT portfolio:

| Asset Name | SPV/Hold Co | Particular | Proportion | Cost | WACC |
|---|---|---|---|---|---|
| Coimbatore Park | Marudhamalai Industrial & Logistics Parks Private Limited | Debt | 35.0% | 8.0% | 11.58% |
| | | Equity | 65.0% | 13.5% | |

*Source: Valuer's assessment; Please note that the cash flows are assumed to realize evenly during the course of every quarter; hence a mid-quarter discounting convention has been adopted for the purpose of this valuation. Additionally, we have not factored any cash flows attributable to working capital requirement/expenses for valuation as the same is immaterial.*

## 6.5 Value of the Subject Asset

The Valuer is of the opinion that subject to the overriding stipulations contained within the body of this report and to there being no onerous restrictions or unusual encumbrances of which he has no knowledge, the opinion of value of the complete ownership interest in the Subject Asset comprising land and improvements thereon, as explained above, as on 30th September 2024 is as follows:

| Asset Name | Component | Market Value (INR Mn) |
|---|---|---|
| Coimbatore Park | Constructed | 2,955.4 |
| Total Value of the asset | | 2,955.4 |

*Source: Valuer's assessment*

# 7 Exhibits and Addendums

## 7.1 Other Mandatory Disclosures

### 7.1.1 Details of On-going material litigations including tax disputes in relation to the assets

As per our interaction with the Client, the Client has confirmed that there are no material litigation details pertaining to the asset. Please note that the Valuer has not investigated nor has been provided with any supporting documents.

Please refer to the section on litigations in the draft Offer Document for details on material litigations for various assets.

### 7.1.2 Details of options or rights of pre-emption and other encumbrances

As per our interaction with the Client and our scope of services, please note that the Valuer has not investigated nor has been provided with any supporting documents.

Please refer to the section on litigations in the draft Offer Document for details on material litigations for various assets

### 7.1.3 Vulnerability to natural or induced hazards that may not have been covered in town planning/ building control.

As per our interaction with the Client, the Client has confirmed that there are no vulnerabilities pertaining to the asset. Please note that the Valuer has not investigated nor has been provided with any supporting documents.

Also, in our professional judgment based on site inspection, there were no visible vulnerabilities.

### 7.1.4 Details of Revenue Pendencies including local authority taxes associated with InvIT asset and compounding.

As per our interaction with the Client, the Client has confirmed that there is no revenue pendency to the asset. Please note that the Valuer has not investigated nor has been provided with any supporting documents.

Please refer to the section on litigations in the draft Offer Document for details on material litigations for various assets.

Our assessment is under the assumption the asset has a clear title and is free from any encumbrances, disputes, claims that would affect the value. This should be verified by an asset lawyer prior to relying on this valuation.

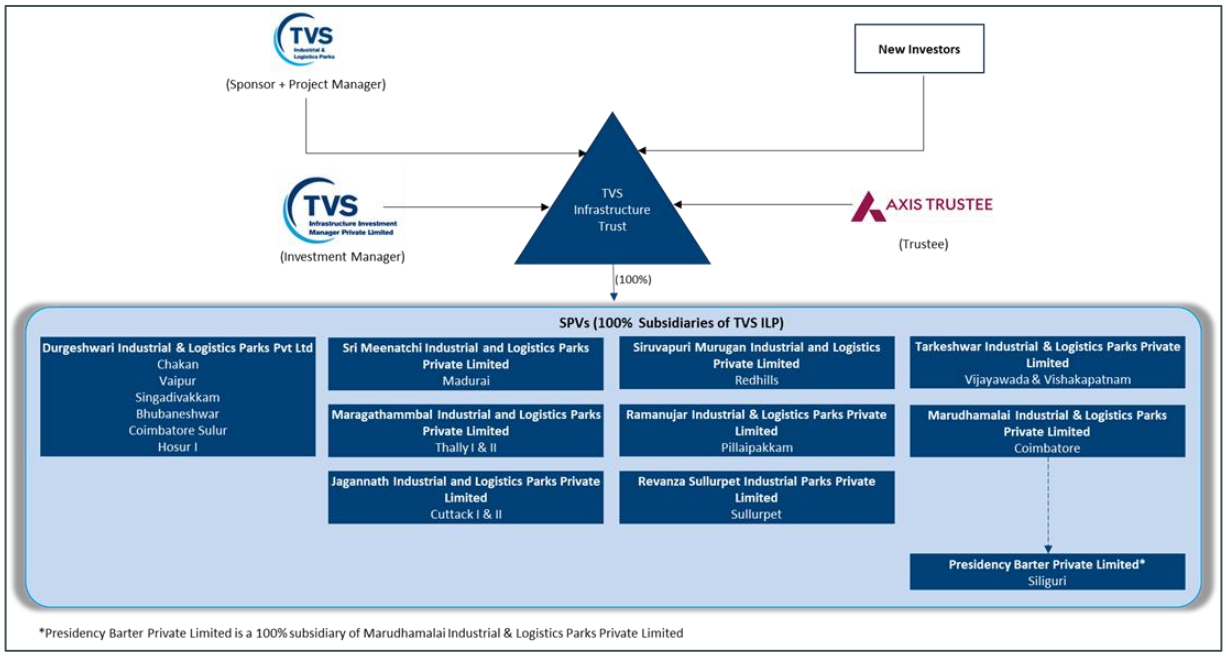
### 7.1.5 Details of the asset including whether the transaction is a related party transaction

The asset is proposed to be acquired from the Sponsor, which is identified as related party under SEBI (InviT) Regulations

### 7.1.6 Nature of the interest the InvIT holds or proposes to hold in the asset, percentage of interest of the InvIT in the asset

As per our interaction with the Client, the Client has confirmed that 100% to be help by the InvIT.

### 7.1.7 Structure of ownership of the asset by the InvIT



### 7.1.8 Description of key agreements and restrictions relevant to the asset such as terms of concession agreement, power purchase agreements, etc.

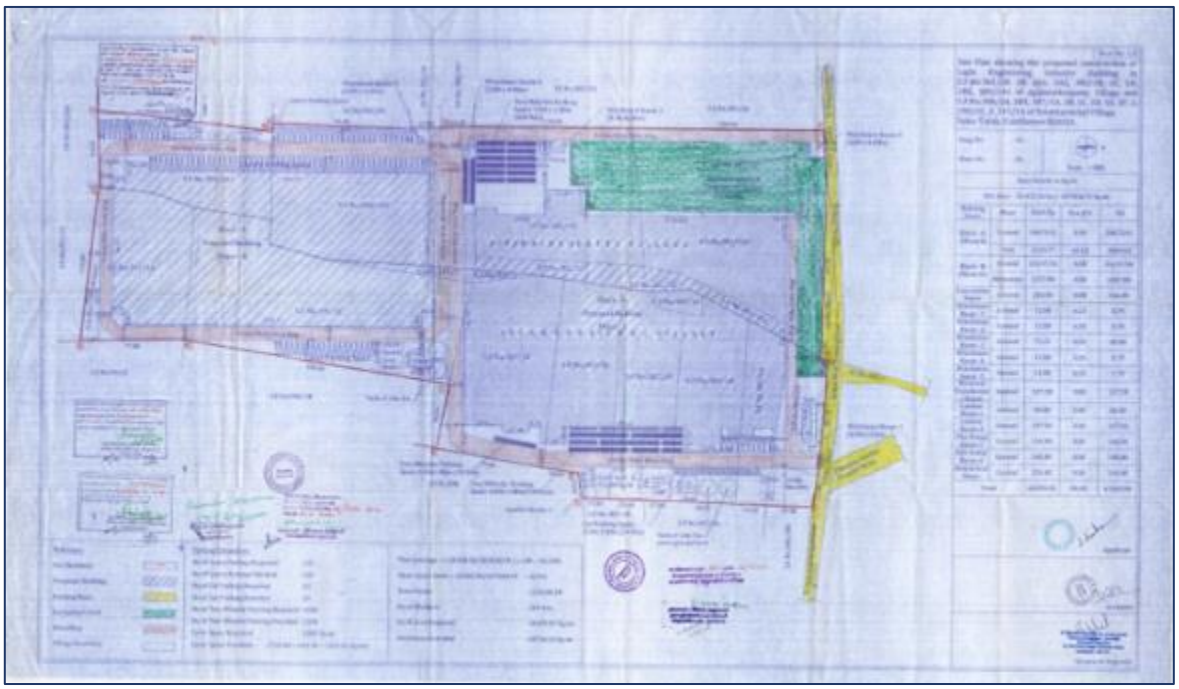
As per our interaction with the Client, the Client has confirmed that the same is not applicable to their business.

### 7.1.9 Life of the asset (both contractually and physical life requiring maintenance, replacement and right available to extend this life

| S. No | Particulars | Details |
|---|---|---|
| 1 | Remaining Physical Life of the Building asset requiring maintenance | Remaining period of Building 1 is 26.6 years and Building 2 is 26.4 years |
| 2 | Remaining Contractual Life of underlying Land | Perpetual, since the underlying land is freehold in nature |
| 3 | Right to extend the contractual life of land | Not applicable. The underlying land is freehold in nature |

## 7.2 Site Plan

### 7.2.1 Coimbatore Park



## 7.3 Statutory Approvals, One-time Sanctions & Periodic Clearances

### 7.3.1 Agriculture NOC

## "Legal Notice and Disclaimer"

This valuation report (the "Report") has been prepared by iVAS Partners. ("iVAS") exclusively for TVS Industrial & Logistics Parks Private Limited (the "Instructing Party" or "Client"), in accordance with the Agreement entered into between iVAS and the Instructing Party dated 1st February 2024 (the "Agreement"). The Report is confidential to the Instructing Party and any other Addressees named herein and the Instructing Party and the Addressees may not disclose the Report unless expressly permitted to do so under the Agreement.

Where iVAS has expressly agreed that persons other than the Instructing Party or the Addressees can rely upon the Report (a "Reliant Party" or "Reliant Parties") then iVAS shall have no greater liability to any Reliant Party than it would have if such party had been named as a joint client under the Agreement.

iVAS's maximum aggregate liability to the Instructing Party and to any Reliant Parties howsoever arising under, in connection with or pursuant to this Report and/or the Agreement together, whether in contract, tort, negligence or otherwise shall be limited as defined under the terms of the Agreement.

iVAS shall not be liable for any indirect, special or consequential loss or damage howsoever caused, whether in contract, tort, negligence or otherwise, arising from or in connection with this Report. Nothing in this Report shall exclude liability which cannot be excluded by law.

If you are neither the Instructing Party, an Addressee nor a Reliant Party then you are viewing this Report on a non-reliance basis and for informational purposes only. You may not rely on the Report for any purpose whatsoever and iVAS shall not be liable for any loss or damage you may suffer (whether direct, indirect or consequential) as a result of unauthorized use of or reliance on this Report. iVAS gives no undertaking to provide any additional information or correct any inaccuracies in the Report.

For the avoidance of doubt, nothing in our Report will constitute any recommendation, investment advice or an offer or solicitation for the purpose of or for sale of any securities, financial instrument or products or other services. Any investors should make their own investment decisions in relation to any investments. If you do not understand this legal notice, then it is recommended that you seek independent legal advice.

# 1 Executive Summary

| | |
|---|---|
| Asset Name: | Thally Park I and Thally Park II (collectively the "Subject Asset")<br><br>Please note that Thally Park I and Thally Park II form part of a single asset viz. Hosur II. For the purpose of this exercise, we have valued it as single asset considering the SPV is same for both Thally Park I and Thally Park II and form part of the same underlying land parcel |
| Asset Address: | Survey Nos, 138/1A, 138/2, 138/3, 150/1, 150/4, 150/5, 150/8, 157/1, 157/2A, 157/2B, 158/1, 158/2, 158/3, 158/4, 159/2B2, 159/6, 159/7, 156/1A, 156/1B, 156/1C, 156/2A, 156/2B, 160/6B, 166/2A, 166/2B, 166/2C1 and 167/1 in Mathagondapalli village, and Panchayat, Thally Union, Denkanikottai Taluk, Krishnagiri District, Chennai, Tamil Nadu 635114 |
| Instructing Party: | TVS Industrial & Logistics Parks Private Limited (the "Client") |
| SPV Name: | Maragathammbal Industrial and Logistics Park |
| Interest Valued: | 100% Freehold Interest |
| Land Area: | As per our review of the sanctioned layout provided by the Client, it is understood that the total land area underlying the Subject Asset is approx. 48.225 acres. |
| Brief Description: | Based on the review of sanction layout provided by the Client and subsequent site visit, it is understood that the Subject Asset is an operational warehousing facility located at survey Nos, 138/1A, 138/2, 138/3, 150/1, 150/4, 150/5, 150/8, 157/1, 157/2A, 157/2B, 158/1, 158/2, 158/3, 158/4, 159/2B2, 159/6, 159/7, 156/1A, 156/1B, 156/1C, 156/2A, 156/2B, 160/6B, 166/2A, 166/2B, 166/2C1 and 167/1 in Mathagondapalli village, and Panchayat, Thally Union, Denkanikottai Taluk, Krishnagiri District, Chennai, Tamil Nadu 635114. The Subject Asset "TVS Industrial & Logistics Parks, Hosur-Park II" is a warehousing facility located along Hosur-Thally Road, a prominent arterial road in the micromarket. By virtue of being located along Hosur-Thally Road and in proximity to Bengaluru – Chennai Highway, the asset enjoys excellent connectivity to major consumption hubs in and around the city. The micromarket is also in close proximity to the manufacturing hubs such as Bommasandra-Jigani, Attibele, Hosur and Bidadi. A few of the prominent warehousing facilities in the micromarket include TVS Industrial & Logistics Parks, Hosur-Park I, TVS Industrial & Logistics Parks, Hosur-Park II (Subject Asset), Avigna Industrial and Logistics Park, Horizon Industrial Parks- Bagur etc.<br><br>The Subject Asset is located along Hosur-Thally Road, Mathagondapalli village, an established warehousing micromarket near Hosur. It is located at a distance of approx. 5-6 kms from Hosur Railway Station, approx. 7-8 kms from SIPCOT – Hosur – Phase I, approx. 41-43 kms from MG Road (CBD of Bengaluru), approx. 42-45 kms from Cantonment Railway Station- Bengaluru and approx. 70-73 kms from Kempegowda International Airport |
| Statement of Assets (sft): | Based on review of rent roll, lease deeds and area statement provided by the Client, the Subject Asset is an operational warehousing facility with approximately 1.25 msf of Warehouse/Mezzanine area with occupancy of 100% as on the date of valuation. Further, as per the details from the Client the total leasable area is 15,37,566 sft, however, the chargeable area viz. 12,55,623 sft has been considered for the purpose of this valuation. |

| Blocks | ^Chargeable area (sft) | Built-Up area (sft) | Structure Type |
|---|---|---|---|
| Thally Park I - Block A | E-Commerce Company – Thally Park I - Block A 1A – Part 1- 2,63,341<br>E-Commerce Company Process Mezzanine – Thally Park I - Block A 1A – Part – 1 – 96,361^^^<br>Automobile Manufacturer – Thally Park I - Block A 1A – Part 2- 1,22,976<br>E-Commerce Company – Thally Park I - Block A 1-B – 3,70,164 | 8,49,346 | Warehouse + Mezzanine |
| Thally Park I - Block B | Transportation and Logistics Company- Thally Park I - Block B – Phase I C – 1,49,799<br>Transportation and Logistics Company- Thally Park I - Block B- Phase I D – 53,856 | 2,04,800 | Warehouse + Mezzanine |
| Thally Park II | Automobile Manufacturer – Thally Park II – Phase II – 4,81,069<br>(1,99,126 sft of Warehouse/Mezzanine Area/FG Yard^ and.<br>2,81,943 sft of Ancillary space^^ | 1,99,126 | Warehouse + Mezzanine |
| | 12,55,623 sft (Warehouse/Mezzanine/Process Mezzanine/ FG Yard)<br>2,81,943 sft of Ancillary space | 12,53,272 | |

*Source: Based on review of rent roll, lease deeds and area statement provided by the Client ; ^FG Yard is a supporting warehouse with an eave height of 6m; ^^As per review of the lease deed for Automobile Manufacturing Company-Thally Park II we understand that The tenant pays rent for ancillary spaces such as Test Ride area, Truck Parking, Dock Apron Area etc. .^^^Process Mezzanine area of 96,361 sft for the E-Commerce Company space in Thally Park I - Block A 1A-Part I. The valuer has considered the process mezzanine area as a Tenant Improvement for the existing E-Commerce Company lease in Thally Park I - Block A 1 A-Part 1. Hence, the same has not been capitalized.*

Based on visual site inspection and based on subsequent information received from the client, the Valuer understands that the Subject Asset is a fully operational development and has no development component. Further, the Valuer also understands that no capital expenditure has been budgeted for the Subject Asset as on date of valuation.

Location Map

Location Map for the Subject Asset

| Any matters which may affect the asset or its value | There are no other matters which may affect the asset or its values beyond what has already been stated in the in this report: |
| Assumptions, Disclaimers, Limitations & Qualifications | *This valuation report is provided subject to assumptions, disclaimers, limitations and qualifications detailed throughout this report which are made in conjunction with those included within the Assumptions, Disclaimers, Limitations & Qualifications section located within this report.* |

[1] *The stabilized Net Operating Income (NOI) is based on the assumption that the asset will achieve a stabilized occupancy rate and that all leases will be renewed at market rates. The stabilized NOI also takes into account the estimated operating expenses, property taxes, and insurance costs. The stabilized NOI is a hypothetical measure and may not reflect the actual performance of the asset*

*Reliance on this report and extension of our liability is conditional upon the reader's acknowledgement and understanding of these statements. This valuation is for the use of the party to whom it is addressed and for no other purpose. No responsibility is accepted to any third party who may use or rely on the whole or any part of the content of this valuation. The Valuer has no pecuniary interest that would conflict with the proper valuation of the asset.*

*Please note that is an executive summary and it is advisable that the complete valuation report should be referred as a whole.*

| | |
|---|---|
| Heightened Market Volatility: | We draw your attention to current heightened geopolitical tensions, low economic growth in many major countries, and a "higher for longer" interest rate sentiment which have increased the potential for constrained credit markets, negative capital value movements and continued volatility in some property markets over the short-to-medium term.<br><br>Experience has shown that consumer and investor behaviour can quickly change during periods of such heightened volatility. Lending or investment decisions should reflect any heightened level of volatility and potential for changing market conditions. Lending and investment caution is advised in this regard.<br><br>It is important to note that the conclusions set out in this report are valid as at the valuation date only. Where appropriate, we recommend that the valuation is closely monitored, as we continue to track how markets respond to evolving events. |
| Construction Cost Volatility: | Although general increases in material costs have stabilised since 2022, some specialised supply chains and construction-related labour costs remain volatile with the potential for further increases. This has created uncertainty in cost estimates, which is likely to continue.<br><br>In addition, there are significant risks that delays may be encountered in sourcing specialised materials and labour, and as such, the potential for ongoing cost escalations and delays is high. This may place additional pressure on developer and contractor profit margins and development viability.<br><br>These inherent risks should therefore be given careful consideration in lending and investment decisions. Caution is advised in this regard. |
| Notice | This Executive Summary [/Valuation Certificate] should be read in conjunction with the entire valuation report and should not be relied upon in isolation. |

Valuer Declaration:

i. the Valuer is competent to undertake the valuation.

ii. the Valuer is independent and has prepared the report on a fair and unbiased basis.

iii. the Valuer has valued the assets based on the valuation standards as specified under sub-regulation 10 of regulation 21

Prepared by: iVAS Partners
Valuer Registration Number: IBBI/RV-E/02/2020/112

Official Signatory:

Name: Mr. Shubhendu Saha
Designation: Partner, iVAS Partners
Valuer Registration Number: IBBI/RV/05/2019/11552

# 2 Instruction

iVAS Partners ( Valuer Registration Number: IBBI/RV-E/02/2020/112; hereinafter referred as 'Valuer') represented by its partner Mr. Shubhendu Saha, a registered valuer under the Companies Act 2013 with IBBI (Valuer Registration Number: IBBI/RV/05/2019/11552) has been instructed by TVS Industrial & Logistics Parks Private Limited (hereinafter referred as the "Instructing Party", or the "Client") in its capacity as Investment manager of the TVS Industrial & Logistics Parks to estimate upon the Market Value (MV) of an operational Warehousing facility located at Survey No.159/2B2, Mathagondapalli village, Denkanikotta Taluka, Krishnagiri, Tamil Nadu, 635114.

Based on information provided by the Client, we understand that the underlying land parcel of the Subject Asset admeasures approx. 48.23 acres with a total leasable area admeasuring approx. 15,37,566 sft (12,55,623 sft of Warehouse/Mezzanine/Process Mezzanine Area/FG Yard^ and 2,81,943 sft of Ancillary space^^.

*^FG Yard is a supporting warehouse with an eave height of 6m; ^^As per review of the lease deed for Automobile Manufacturing company-Thally Park II we understand that the tenant pays rent for ancillary spaces such as Test Ride area, Truck Parking, Dock Apron Area etc.*

The details of the Subject Asset under the purview of this valuation exercise are tabulated below:

| Asset Name | SPV/Hold Co | Asset Type | Location | Land area | No. of Blocks |
|---|---|---|---|---|---|
| Thally Park I and Thally Park II | Maragathammbal Industrial and Logistics Park | Warehouse | Hosur-Thally Road | 48.23 | 3 |

*Source: Client Inputs viz Sanction Plan*

*For clarity, we are valuing the Property/ Asset only, not the SPV/Hold Co, which has been provided for reference only.*

## 2.1 Purpose

As per our instructions the valuation is required by the Client for proposed Offer of units through a private placement as defined under the Securities and Exchange Board of India (Infrastructure Investment Trust) Regulations, 2014, as amended, together with clarifications, guidelines and notifications issued thereunder, on the Indian stock exchanges. In relation to the Offer of units through a private placement, the Valuation report, a summary thereof and/or extracts of the report are intended to be included in the Offer Documents filed by the TVS Infrastructure Trust with the Securities and Exchange Board of India (SEBI) and the stock exchanges where the units of the InvIT are proposed to be listed.

## 2.2 Reliant Party

The Reliant Parties to the Valuation report are TVS Infrastructure Trust, TVS Infrastructure Investment Manager Private Limited in its capacity as Investment Manager and TVS Industrial and Logistics Park Private Limited in its capacity as Sponsor for the purpose of the valuation as highlighted in this report.

The valuation has been prepared strictly and only for the use of the parties as stated above (Reliant Parties) and for the Purpose specifically stated. The Client would make all Reliant Parties aware of the terms and conditions of this agreement under which this exercise is being undertaken and take due acknowledgements to the same effect.

## 2.3 Limitation and Disclaimers to Liability

- Valuer is not operating under any financial services license when providing the Valuation Report ("Valuation Report") and this document does not constitute financial product advice. Investors should consider obtaining independent advice from their financial advisor before making any decision to invest in TVS Infrastructure Trust.

- This Valuation Report is strictly limited to the matters contained within this report, and are not to be read as extending, by implication or otherwise, to any other matter in any Offer/ Draft Placement Memorandum/ Placement Memorandum/ Final Placement Memorandum ("Offer Document"). Valuer does not approve or endorse any part of the Offer Document. Any reference to the Valuer or this Valuation Report within the Offer Document must be read in conjunction with this Valuation Report.

- Valuers disclaims any liability to any person in the event of an omission from, or false and misleading statements included in the Offer Document, other than in respect of the information provided within the Valuation Report. Valuers shall not make any warranty or representation as to the accuracy of the information in any part of the Offer Document, other than in respect of the methodology used for the preparation of the information provided within the Valuation Report.

- The liability of Valuer is limited to the Instructing Party, and any Reliant Party nominated within this report only. No accountability, obligation or liability to any third parties is accepted by the Valuer. Valuer disclaims all liability to any investor.

- No liability is accepted for any loss, harm, cost or damage (including special, consequential or economic harm or loss) suffered as a consequence of fluctuations in the real estate market subsequent to the date of valuation. Valuer shall not be liable for any indirect, special, punitive or consequential loss or damage howsoever caused, whether in contract, tort or otherwise, arising from or in connection with this Valuation Report.

- Valuer accepts no responsibility or liability whatsoever (i) unless full disclosure of all information and matters that may have an impact upon the value and marketability of the asset has been made by the Instructing Party or (ii) for any matter arising out of or in relation to possible environmental site contamination or any failure to comply with environmental legislation which may affect the value of the asset.

- None of our employees, directors or Valuers individually has a contract with the Instructing Party or owes them a duty of care.

- Valuer has prepared the Valuation Report relying on and referring to information provided by the Instructing Party and/or third parties including financial and market information ("Information"). Valuers have assumed that the Information is accurate, reliable and complete and has not independently verified such Information.

- The Valuation Report draws attention to the key issues and considerations impacting value and provides a detailed assessment and analysis as well as key critical assumptions, general assumptions, disclaimers, limitations and qualifications and recommendations. As commercial investments of this nature are inherently complex and the market conditions have changed and/or have been uncertain in recent times, Valuer recommends that any references to value within the Offer Document must be read and considered together with the Valuation Report.

- This Valuation Report may not be reproduced in whole or in part without the prior written approval of the Valuer.

- The Valuation Report does not purport to contain all the information that a potential investor or any other interested party may require. They do not consider the individual circumstances, financial situation, investment objectives or requirements. They are intended to be used as guide and for information purposes only and do not constitute advice including without any limitation, investment, tax, legal or any other type of advice. The valuations stated are only best estimates and are not to be construed as a guarantee. Potential investors should not rely on any material contained in the Valuation Report as a statement or representation of fact but should satisfy themselves as to its correctness by independent investigation and review of the Valuation Report to understand the assumptions and methodologies stated in the reports.

  For the avoidance of doubt, all references to "Offer Document" herein shall include any Offer Document, final Offer Document, prospectus and/or any other accompanying documents required under the SEBI (InvIT) Regulations 2014.

## 2.4 Valuer Capability

iVAS Partners, (Valuer Registration Number: IBBI/RV-E/02/2020/112), represented by its partner Mr. Shubhendu Saha (Valuer Registration Number: IBBI/RV/05/2019/11552) delivers independent valuation (across categories viz. land & building and plant & machinery), advisory and technical due diligence services, that combine professional expertise with comprehensive databases, analytics and market intelligence across various asset classes and locations in India.

Mr. Shubhendu Saha is registered as a valuer with the Insolvency and Bankruptcy Board of India (IBBI) for the asset class Land and Building under the provisions of The Companies (Registered Valuers and Valuation) Rules, 2017 since 15 May 2019. He completed his bachelor's in planning from the School of Planning and Architecture, New Delhi in 1997 and master's in Client studies from Motilal Nehru National Institute of Technology, Allahabad in 1999.

## 2.5 Valuer Capability

iVAS Partners, (Valuer Registration Number: IBBI/RV-E/02/2020/112), represented by its partner Mr. Shubhendu Saha (Valuer Registration Number: IBBI/RV/05/2019/11552) delivers independent valuation (across categories viz. land & building and plant & machinery), advisory and technical due diligence services, that combine professional expertise with comprehensive databases, analytics and market intelligence across various asset classes and locations in India.

Mr. Shubhendu Saha is registered as a valuer with the Insolvency and Bankruptcy Board of India (IBBI) for the asset class Land and Building under the provisions of The Companies (Registered Valuers and Valuation) Rules, 2017 since 15 May 2019. He completed his bachelor's in planning from the School of Planning and Architecture, New Delhi in 1997 and master's in management studies from Motilal Nehru National Institute of Technology, Allahabad in 1999

## 2.6 Scope of Valuation

The valuation has been undertaken to ascertain the market value of the Subject Asset forming part of the proposed TVS Infrastructure Trust as of the valuation date. The Valuer has estimated the market value of each individual asset, not the value of the portfolio of Assets, if sold in one transaction. In consideration of the same, a detailed assessment of the site and surroundings has been undertaken with respect to the prevalent activities, change in dynamics impacting the values and the optimal use of the Subject Asset vis-à-vis the surrounding micromarket, etc.

The primary catchment for the valuation has been defined as Hosur warehousing region and the surrounding areas. An in-depth research exercise has been conducted in the catchment area of the subject project to ascertain the prevalent activity levels in terms of residential segment in the vicinity of subject project.

This has been achieved through interactions with various market players such as local real estate brokers, developers, end-users, etc. The location, micromarket and catchment area for the Subject Asset is tabulated below:

| Asset Name | SPV/Hold Co | City | Micromarket/ Catchment Area |
|---|---|---|---|
| Thally Park I and Thally Park II | TVS Industrial & Logistics Parks Private Limited | Hosur | Hosur-Thally Road |

*Source: Client Inputs*

## 2.7 Valuer's Interest

The Valuer certify that; he/they do not have a pecuniary interest, financial or otherwise, that could conflict with the proper valuation of the asset (including the parties with whom our instructing party is dealing, including the lender or selling agent, if any; accepts instructions to value the asset only from the Client.

## 2.8 Qualifications/ Valuation Standards

This valuation is prepared in accordance with the International Valuation Standards (IVS) 2022.

The team involved in this engagement comprises of Valuers registered with IBBI and RICS members with significant experience of valuations in Indian infrastructure and real estate market.

## 2.9 Disclosures

This Valuer hereby certify that:

- iVAS Partners (Valuer Registration Number: IBBI/RV-E/02/2020/112), represented by its partner Mr. Shubhendu Saha (Valuer Registration Number: IBBI/RV/05/2019/11552), is registered as a registered valuer entity under Section 247 of the Companies Act, 2013 and The Companies (Registered Valuers and Valuation) Rules, 2017, as amended, and is eligible to be appointed as Valuer under the provisions of the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014, as amended and that the Valuation report has been prepared in accordance with these InvIT Regulations.
- iVAS Partners (represented by Mr. Shubhendu Saha - Partner, iVAS Partners) is not an associate of TVS Industrial & Logistics Parks Private Limited (the "Sponsor"), TVS Infrastructure Investment Manager Private Limited (the "Investment Manager") and TVS Infrastructure Trust (the "Trust")
- The Valuer, as represented by its partner, Mr. Shubhendu Saha, has the required minimum years of experience in the valuation of infrastructure assets, as required under the SEBI (InvIT) Regulations.
- The Valuer has not been involved with the acquisition or disposal within the last twelve months of any of the asset(ies) valued under this Valuation report.
- The Valuer has adequate and robust internal controls to ensure the integrity of the Valuation reports.

- The Valuer has sufficient key personnel with adequate experience and qualification to perform services related to asset valuation at all times.
- The Valuer has sufficient financial resources to enable them to conduct their business effectively and meet their liabilities.
- The Valuer has acquainted itself with all laws or regulations relevant to such valuation.
- iVAS Partners is not prohibited from acting as a valuer under applicable law.
- The valuation of assets undertaken is impartial, true and fair and in accordance with the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014, regulation 21.
- The Valuer and any of its employees/valuers involved in valuation of the InvIT assets are not invested in and shall not invest in units of the InvIT or in the assets being valued during the time such entity/person is designated as valuer of such InvIT and not less than 6 months after ceasing to be valuer of the InvIT.
- The Valuer has conducted the valuation of the InvIT assets with transparency and fairness and has rendered and shall render, at all times, high standards of service, exercise due diligence, ensure proper care and exercise professional judgement.
- The Valuer has acted with independence, objectivity and impartiality in performing the valuation.
- The Valuer has discharged its duties towards the TVS Infrastructure Trust in an efficient and competent manner, utilizing its knowledge, skills and experience in best possible way to complete the said assignment.
- The Valuer has not and shall not accept remuneration, in any form, for performing a valuation of the InvIT assets from any person or entity other than the TVS Infrastructure Trust or its authorized representatives.
- The Valuer has no present or planned future interest in the Management, Trustee, TVS Infrastructure Trust, the Sponsor to the TVS Infrastructure Trust and its sponsor group or the Special Purpose Vehicles (SPVs), holdcos, investment entity and the fee for this Report and the valuation exercise is not contingent upon the values reported herein. Our valuation analysis should not be construed as investment advice; specifically, we do not express any opinion on the suitability or otherwise of entering into any financial or other transaction with the Management or the SPVs/ holdcos/ investment entity.
- The Valuer shall before accepting any assignment from any related party to the TVS Infrastructure Trust disclose to the TVS Infrastructure Trust, any direct or indirect consideration which the Valuer may have in respect of such assignment
- The Valuer shall disclose to the trustee of the TVS Infrastructure Trust, any pending business transactions, contracts under negotiation and other arrangements with the Management or any other party whom the TVS Infrastructure Trust is contracting with and any other factors which may interfere with the Valuer's ability to give an independent and professional valuation of the asset; as on the date of valuation, there are no impediments for Valuer to give an independent professional value opinion of the asset
- The Valuer has not made false, misleading or exaggerated claims in order to secure assignments.

- The Valuer has not and shall not provide misleading valuation, either by providing incorrect information or by withholding relevant information
- The Valuer has not accepted and shall not accept an assignment that includes reporting of the outcome based on predetermined opinions and conclusions required by the TVS Infrastructure Trust
- The valuer has not accepted the said assignment which interferes with its ability to do fair valuation
- The valuation undertaken by the Valuer abides by International Valuation Standards (effective from 31 January 2022) for valuation in compliance with The Companies (Registration of Valuers and Valuation) Rules, 2017
- The Valuer understands that most of these assets are wholly/partly owned/ tenanted by related parties, hence, any transactions related to these assets from the related parties being valued would be related party transactions.

The Valuer notes that there are encumbrances, however, no options or pre-emptions rights in relation to the assets based on the title report prepared by Cyril Amarchand Mangaldas. (hereinafter collectively referred to as 'Legal Counsels'). The Valuer does not have the expertise or the preview to verify the veracity or quantify these encumbrances, disputes or claims. For the purpose of this valuation, the Valuer has assumed that the respective assets have title deeds that are clear and marketable.

## 2.10 Assumptions, Disclaimers, Limitations & Qualifications to Valuation

| | |
|---|---|
| Valuation subject to change: | The subject valuation exercise is based on prevailing market dynamics as on the date of valuation and does not take into account any unforeseeable developments which could impact the same in the future |
| Our Investigations: | The Valuer is not engaged to carry out all possible investigations in relation to the Subject Assets. Where in our report the Valuer identify certain limitations to our investigations, this is to enable the reliant party to instruct further investigations were considered appropriate or where the Valuer recommend as necessary prior to reliance. The Valuer is not liable for any loss occasioned by a decision not to conduct further investigations |
| Assumptions: | Assumptions are a necessary part of undertaking valuations. The Valuer adopts assumptions for the purpose of providing valuation advice because some matters are not capable of accurate calculation or fall outside the scope of our expertise, or our instructions. Assumptions adopted by iVAS Partners has been formulated on the basis that they could reasonably be expected from a professional and experienced valuer. The Reliant Party accepts that the valuation contains certain specific assumptions, and acknowledges and accepts the risk that if any of the assumptions adopted in the valuation are incorrect, then this may have an effect on the valuation |
| Information Supplied by Others: | The valuations are based on the information provided by the Client (TVS Industrial & Logistics Parks). The same has been assumed to be correct and has been used for valuation exercise. Where it is stated in the report that another party has supplied information to the 'Valuer', this information is believed to be reliable, but the Valuer can accept no responsibility if this should prove not to be so.<br>We have assumed that where any information relevant to our valuation is supplied by the Instructing Party, or by any third party at Instructing Party's instigation, it is correct and comprehensive and can be safely relied upon by us in preparing our valuation.<br>We would recommend that before any financial transaction is entered into based on the valuations, you obtain verification of any third-party information provided. We also recommend that you check the validity of the assumptions we have adopted in our report (where we have been unable to verify the facts through our own observations or experience) |
| Matters which affect or may affect the valuation | If the Reliant Party becomes aware of any matters which affect or may affect the valuation, then Valuer must be advised of those matters. The Reliant Party's failure to do so will disentitle the Reliant Party to place reliance on the valuation and reliance must not be placed on the valuation/s under any circumstance |
| Future Matters: | To the extent that the valuation includes any statement as to a future matter, that statement is provided as an estimate and/or opinion based on the information known to the 'Valuer' at the date of this document. The 'Valuer' does not warrant that such statements are accurate or correct |
| Map and Plans: | Any sketch, plan or map in this report is included to assist reader while visualizing the asset and the Valuers assume no responsibility in connection with such matters.<br>Further. all maps and plans quoted in our report are solely for illustration purposes only. While they are extracted from public sources, they may be not to scale. Valuer does not warrant that such dimensions shown are accurate. |
| Site Details: | Based on title search reports and other information provided by the Client, the Valuer understands that the Subject Assets are free from any encroachments and are available as on the date of the valuation |
| Asset Title: | For the purpose of this valuation exercise, the Valuer has relied on the Title Reports prepared by the Legal Counsels for each of the assets and has made no further enquiries with the relevant local authorities in this regard. The Valuer understands that the Subject Assets may have encumbrances, disputes and claims. The Valuer does not have the expertise or the purview to check the veracity or quantify these encumbrances, disputes or claims. For the purpose of this valuation, the Valuer has assumed that the respective assets have title deeds that are clear and marketable. We recommend that a suitably experienced Lawyer or an equivalent professional review these assumptions and confirm they are reasonable before relying in this report. |

| | |
|---|---|
| Environmental Conditions: | In undertaking the valuation exercise we assumed that no contaminative or potentially contaminative use is, or has been, carried out at the property. We did not undertake any investigation into the past or present uses of either the respective assets or any adjoining or nearby land, to establish whether there is any potential for contamination from these uses and assume that none exists. Should it, however, be subsequently established that such contamination exists at the asset or on any adjoining land or that any premises have been or are being put to contaminative use, this may have a detrimental effect on the value reported |
| Town Planning: | The current zoning of the Subject Assets has been adopted on the basis of review of various documents (title deeds & approval documents) provided by the Client and the current land use maps for the micro market. The same has been considered for the purpose of this valuation exercise. Further, it has been assumed that the development on the Subject Assets adheres/ would adhere to the development regulations as prescribed by the relevant authorities. The Valuer has not made any enquiries with the relevant development authorities to validate the legality of the same.<br><br>Our valuations are prepared on the assumption that the premises comply with all relevant statutory enactments and Building Acts and Regulations, that a valid and up-to-date Fire Certificate has been issued. We assume that all necessary consents, licenses and authorizations for the use of the assets and the processes carried out therein have been obtained and will continue to subsist and are not subject to any onerous conditions.<br><br>In the event that a legal requisition or other relevant planning information or document is obtained, and the information therein is found to be materially different to the town planning information in the report, the valuation must not be relied upon before first consulting iVAS Partners to reassess any effect on the valuation/s |
| Area: | The total leasable area considered for the purpose of this valuation exercise is based on the lease deeds provided by the Client. It must be noted that the above information has been provided by the Client and has been verified based on the approvals/ layout plans/building plans provided by the Client. However, the Valuer has not undertaken additional verification and physical measurement for the purpose of this valuation exercise |
| Condition & Repair: | In the absence of any information to the contrary, the Valuer has assumed that there are no abnormal ground conditions, nor archaeological remains present which might adversely affect the current or future occupation, development or value of the asset; the asset is free from rot, infestation, structural or latent defect; no currently known deleterious or hazardous materials or suspect techniques will be used in the construction of or subsequent alterations or additions to the asset and comments made in the asset details do not purport to express an opinion about, or advice upon, the condition of uninspected parts and should not be taken as making an implied representation or statement about such parts |
| Not a Structural Survey: | The Valuer states that this is a Summary of Valuation Reports of Subject Assets and not a structural survey |
| Legal: | Unless specifically disclosed in the report, the Valuer has not made any allowances with respect to any existing or proposed local legislation relating to taxation on realization of the sale value of the Subject Asset.<br><br>We do not read legal documentation. Where legal documentation is provided to us, we will have regard to the matters therein but recommend that reliance should not be placed on our interpretation thereof without prior verification by your legal advisors. Unless disclosed to us, we assume that there are no outstanding statutory breaches or impending litigation in respect of the Subject Assets. We further assume that all documentation is satisfactorily drawn and that unless disclosed to us, there are no unusual or onerous restrictions, easements, covenants or other outgoings which would adversely affect the value of the relevant interest(s). In respect of leasehold assets, we have assumed that the landlord will give any of the necessary consents to an assignment. Unless notified to the contrary we assume that each asset has a good and marketable title and is free from any pending litigation |
| Others: | Considering the unorganized nature of land and building markets in India, all comparable evidence (if any) provided in the valuation report has been limited to the basic details such as the area of asset, rate at which transacted, broad location, etc. other specific details would be provided only if the information is available in public domain |

| | |
|---|---|
| Other Assumptions: | Please note that all the factual information such as tenants' leasable area, lease details such as lease rent, lease commencement and lease end date, lock – in period, escalation terms, etc. pertaining to the Subject Asset is based on the rent roll provided by the Client and the same has been adopted for the purpose of this valuation exercise.<br><br>The rent rolls have been cross-checked with copies of the lease deeds on a sample basis as provided to the Valuer to verify the authenticity. Any change in the above information will have an impact on the assessed value and in that case the Valuer will have to relook at the assessed value. The relevant information sources are represented in section 5.5.<br><br>Based on review of the lease deeds and rent roll provided by the Client, we understand that one block of the Subject Asset (Thally Park I - Block B) has been let out to a multinational transportation and logistics company which is an associate company of TVS Industrial and Logistics Park. Based on review of the lease deeds provided by the client, we understand that the in-place rentals of the transportation and logistics tenant are inclusive of CAM charges and are relatively lower than the prevailing market rentals.<br><br>It is to be noted that the rent pertaining to ancillary spaces (viz Dock Apron Area, Landscape area etc.) of the Automobile Manufacturing company space in Thally Park II – Phase II have been loaded as part of the rentals of the Automobile Manufacturing company FG yard for the purpose of this valuation exercise.<br><br>The valuer has considered the E-Commerce Company process mezzanine area as a Tenant Improvement for the existing E-Commerce Company lease in Thally Park I - Block A 1 A-Part 1. Hence, the same has not been capitalized.<br><br>All measurements, areas and ages quoted in our report are approximate.<br><br>We are not advisors with respect to legal, tax and regulatory matters for the transaction. No investigation of the respective Special Purpose Vehicles (SPVs) holding the assets' claim to title of assets has been made for the purpose of this Report and the SPVs' claim to such rights have been assumed to be valid. No consideration has been given to liens or encumbrances against the assets. Therefore, no responsibility is assumed for matters of a legal nature |
| Flooding risk: | The visual inspection of the Subject Assets did not indicate any significant vulnerability and hence we have assumed that either there is no flooding risk or, if there is, that sufficient flood defenses are in place and that appropriate building insurance could be obtained at a cost that would not materially affect the capital value. |
| Site Conditions: | We do not commission site investigations to determine the suitability of ground conditions and services, nor do we undertake environmental or geotechnical surveys. We have assumed that these aspects are satisfactory and also that the respective sites are clear of underground mineral or other workings, methane gas or other noxious substances.<br><br>In the case of property which may have redevelopment potential, we proceed on the basis that the site has load bearing capacity suitable for the anticipated form of redevelopment without the need for additional and expensive foundations or drainage systems (unless stated otherwise) |
| Hazardous & deleterious materials | Unless otherwise noted, we have assumed that the improvements are free of Asbestos and Hazardous Materials, or should these materials be present then they do not pose significant risk to human health, nor require immediate removal. We assume the site is free of subsoil asbestos and have made no allowance in our valuation for site remediation works.<br><br>Our visual inspection is an inconclusive indicator of the actual condition/presence of asbestos/hazardous materials within the property. We make no representation as to the actual status of the Subject Assets. If a test is undertaken at some time in the future to assess the degree, if any, of the presence of any asbestos/hazardous materials on site and this is found to be positive, this valuation must not be relied upon before first consulting iVAS Partners to reassess any effect on the valuation.<br><br>Unless specifically instructed, we do not carry out investigations to ascertain whether any building has been constructed or altered using deleterious materials or methods. Unless specifically notified, our valuation assumes that no such materials or methods have been used |
| Unregistered interests | We have assumed that there are no unregistered interests or interests not captured by the applicable Regulatory Authority in the country where services are to be carried out, which may affect the market value. In the event that the Reliant Party(ies) becomes aware of any further or pending easements, |

| | |
|---|---|
| | encumbrances or unregistered interests, this valuation must not be relied upon before first consulting iVAS Partners in writing to reassess any effect on the valuation |
| Heightened Market Volatility | We draw your attention to current heightened geopolitical tensions, low economic growth in many major countries, and a "higher for longer" interest rate sentiment which have increased the potential for constrained credit markets, negative capital value movements and continued volatility in some property markets over the short-to-medium term.<br><br>Experience has shown that consumer and investor behavior can quickly change during periods of such heightened volatility. Lending or investment decisions should reflect any heightened level of volatility and potential for changing market conditions. Lending and investment caution is advised in this regard.<br><br>It is important to note that the conclusions set out in this report are valid as at the valuation date only. Where appropriate, we recommend that the valuation is closely monitored, as we continue to track how markets respond to evolving events. |

# 3 Bengaluru – Market Structure and Conditions

## 3.1 Information

For the purpose of the valuation exercise, reliance has been made on the deliverables of CBRE South Asia Private Limited, an independent agency appointed by TVS to undertake market research, provide market commentary, and data as a part of a report (the "Industry Assessment Report") for the purpose of this assignment.

## 3.2 Demand and Supply

### 3.2.1 Demand and Supply Trends – Bengaluru and Micromarket

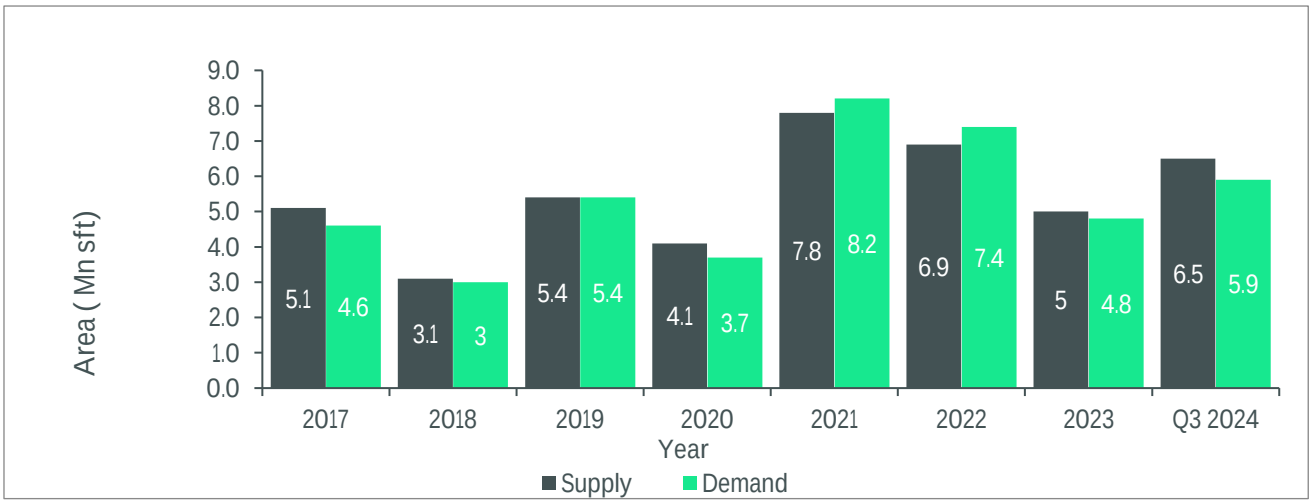
Bommasandra-Hosur micromarket is located along. NH-44 which connects Bengaluru to other Northern states and to Tamil Nadu via Hosur. It has easy accessibility to consumption hubs of Bengaluru via NH-44, NICE Road and SH-87. Total completed stock in Bengaluru as of Q3, CY 2024 is 66.5 msf, out of which Bommasandra-Hosur micromarket accounts for Approx. 22.8%.

| Description | Bengaluru | Bommasandra-Hosur |
|---|---|---|
| Cumulative completed Warehouse stock (Q3 2024) | Approx 66.5 msf | Approx. 15.2 msf |
| Cumulative occupied stock (Q3 2024) | Approx 62.1 msf | Approx. 14.5 msf |
| Current vacancy (Q3 2024) | 6.5 – 7.0 % | 4 - 5 % |
| Future supply (2024-2025) | 12.2 to 12.8 | 2.7 to 2.8 msf |

*Source: Industry Assessment Report dated as of Q3 2024*

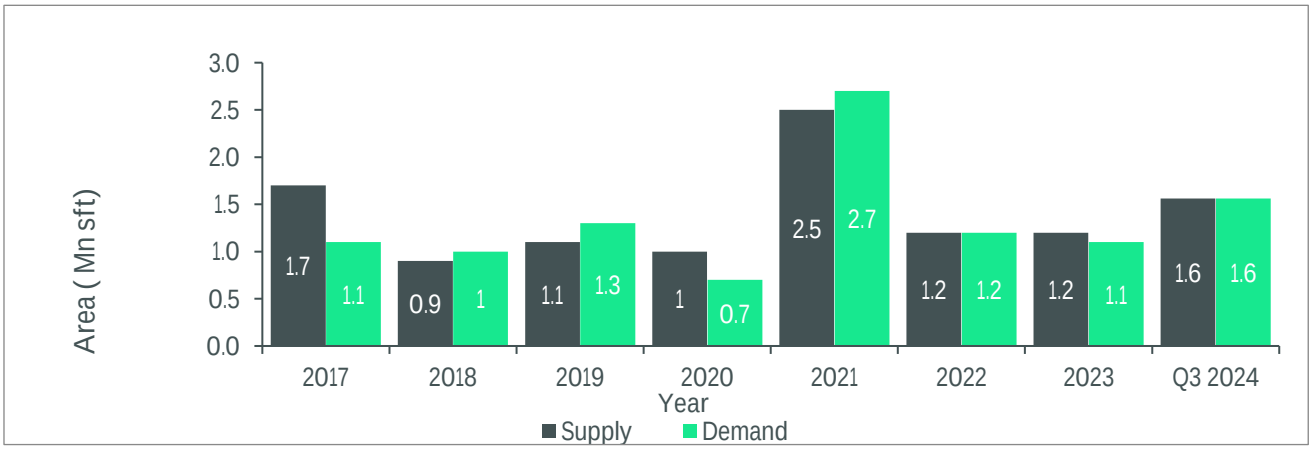
The micro market constitutes a share of nearly 84% of the total completed supply of southern micromarket of Bengaluru. The region predominantly consists of Grade-A warehousing spaces with Grade A spaces accounting for approx. 57% of the total stock of the micromarket followed by Grade-B spaces at approx. 37%. Prominent Grade A developments in the micromarket were observed to be from institutional players such as TVS ILP, Avigna Group, Horizon Industrial Group, Indospace etc. Third Party Logistics, E-Commerce, FMCG, Consumer Durables, Manufacturing Apparel & Retail are key industry sectors predominantly occupying grade A supply in the micromarket with tenants such as Flipkart, Amazon, DHL, TVS Supply Chain, Udaan, Aditya Birla, PUMA, Wakefit, Schaeffler, Ather, MPlastics, etc.

Demand – Supply Dynamics of City: Bengaluru



*Source: Industry Assessment Report as of Q3 2024*

Demand – Supply Dynamics of micromarket: Bommasandra – Hosur micromarket



*Source: Industry Assessment Report as of Q3 2024*

We have perused the information regarding the demand and supply of leased industrial and warehousing spaces within the subject micromarket, as included in the Industry Assessment Report. Bommasandra-Hosur is a key warehousing vector in Bengaluru situated along N4-44 in the southern periphery of Bengaluru, it serves as a hub for commerce between Bengaluru and Hosur-Chennai. Accessible via NH-44 SH-87, and NICE Road, it provides exceptional connectivity and convenient proximity to the city's consumption and distribution centres. In addition, the region accounts for approximately 22.8% of Bengaluru's (2nd largest warehousing market) total completed inventory. The region witnessed a total supply of approx. 15.2 mn sft, with, 95-96% absorption. The region is primarily characterised by Grade A and Grade B developments, with a share of 57% and 37% of the total stock, respectively, Prominent Grade A developments encompass TVS Industrial & Logistics, RKV Logistics, Horizon Industrial Parks, Avigna Warehousing Parks, and more. The availability of large land parcels with moderate land values in comparison to other micromarkets, as well as proximity to manufacturing and consumption hubs, are the primary drivers of warehousing activity in the region.

The region witnessed an average annual absorption of approx. 1.3 to 1.4 Mn sft of warehousing space over the last 6-7 years, and the average annual supply is in the range of 1.3 to 1.4 mn sft between 2017 and 2023.

Limited vacancies (2-3%) were witnessed in Grade A developments on account of growing demand for quality warehouse space with superior accessibility and connectivity to the city The asking rentals for Grade A warehousing facilities in this micromarket have been observed to be in the range of INR 20-24 per sft. 3PL e-commerce FMCG, FMCD, manufacturing, and apparel are key industry sectors in this micro market. Key occupiers in this micromarket are Amazon, Flipkart, DHL TVS Supply Chain. Stellar Value Chain, Aditya Birla, PUMA, Wakefit, Big Basket, Ather, and MPlastics, amongst others.

#### 3.2.1.1 Key Developments in the micromarket

The table below highlights the prominent developments in the subject micromarket:

| Building Name | Year of Establishment | Leasable Area (sft) | Average Lease Rental (INR per sft pm) |
|---|---|---|---|
| Horizon Industrial and Warehousing Park | 2022 | 5,95,882 | 20.5– 21.5 |
| Avigna Industrial & Logistics Park -Phase 1 | 2021 | 10,11,434 | 22.0 – 23.0 |
| Avigna Industrial & Logistics Park -Phase 2 | 2022 | 6,60,000 | 22.0 – 23.0 |
| RKV Logistics Park | 2017 | 14,70,000 | 23.0 – 24.0 |
| SS Developers - Logistics Park | 2016 | 9,20,000 | 23.0 – 24.0 |

*Source: Industry Assessment Report as of Q3 2024*

#### 3.2.1.2 Future Supply

Based on review of the Industry Assessment Report, we understand that the micromarket of Bommasandra-Hosur has an upcoming supply of approx. 3.3 to 3.4 Mn sft. The details of the same are as below:

| Building Name | Year of Completion | Status* | Location | Leasable Area (sft) |
|---|---|---|---|---|
| Horizon industrial parks | 2024 -25 | Under-Construction | Hosur - Krishnagiri Road (Shoolagiri) | 5,50,000 |
| All Cargo | 2025 | Planned | Hosur | 1,00,000 |
| Avigna Group | 2024 -25 | Under-Construction | Mathigiri, Hosur - Denkanikottai Rd | 5,00,000 |
| Avigna Group | 2025 - 2028 | Planned | Kelamangala, Hosur | 15,00,000 |
| Individual Owner | 2024 | Under-Construction | Attibele on NH-44 | 3,00,000 |

*Source: Industry Assessment Report as of Q3 2024, * UC – Under Construction*

### 3.2.2 Market Rent

The table below highlights the recent lease transactions in the micromarket:

| Date of Transaction | Chargeable Area (sft) | Nature | Name of the Building (Location) | Total Rent (INR per sft per month) | Description |
|---|---|---|---|---|---|
| Q2 2024 | 1,00,000 | Manufacturing | Hosur - Denkanikottai Rd | 22 | Base Rental |
| Q2 2024 | 2,00,000 | Automobile | Hosur - Denkanikottai Rd | 22 | Base Rental |
| Q1 2024 | 1,50,000 | Logistics/3PL | Anekal - Thally Road | 24 | Base Rental |
| Q1 2024 | 2,80,000 | Automobile | Hosur - Shoolagiri Road | 21 | Base Rental |
| Q4 2023 | 87,493 | FMCG | Shoolagiri, Hosur Road | 21 | Base Rental |
| Q4 2023 | 30,000 | Electronics & Electricals | Denkanikottai - Shoolagiri Road, Hosur | 19 | Base Rental |
| Q4 2023 | 50,000 | Manufacturing | Denkanikottai - Shoolagiri Road, Hosur | 19 | Base Rental |
| Q4 2023 | 21,000 | Third Party Logistics | Anekal - Attibele Road | 21 | Base Rental |
| Q4 2023 | 32,000 | Engineering & manufacturing | Jigani Industrial Area | 21 | Base Rental |
| Q4 2023 | 30,000 | Auto | Jigani Anekal Road | 18 | Base Rental |
| Q4 2023 | 1,30,000 | Third Party Logistics | Anekal - Attibele Road | 23 | Base Rental |
| Q4 2023 | 1,50,000 | Manufacturing | Hosur - Denkanikottai Rd | 24 | TI |
| Q4 2023 | 1,10,000 | Manufacturing | Hosur - Denkanikottai Rd | 20 | Base Rental |
| Q4 2023 | 60,000 | Third Party Logistics | Thally Road | 21 | Base Rental |

*Source: Industry Assessment Report as of Q3 2024*

As can be observed from the table above and based on our interactions with other market players, the rentals in and around the Subject Asset were observed to range between INR 20 - 24 /sft/month (base rentals). The variance across rentals is primarily due to factors such as location, accessibility, overall tenant mix, quantum of vacant stock in the development, specifications of the block, park level infrastructure, additional improvements, etc.

## 3.3 Market Outlook

The southeast region (Hosur Road) of Bengaluru city is home to several industrial areas, including Attibele Industrial Area, Jigani-Bommasandra Industrial Area, Hosur SIPCOT (Phase 1 & 10, and others, which have contributed to the development of warehouses in the area. Attibele (221 acres), Bommasandra (950 acres) and Jigani (54) acres) Industrial areas are under Karnataka jurisdiction (developed by KIADB) and are fully occupied the major industry Types present in these industrial areas include pharmaceuticals, engineering, metals and electronics, auto parts, garments, and so on. Hosur Industrial Complex Phases I and II fall under Tamil Nadu Jurisdiction developed by SIPCOT) and comprises of 1581 acres of completely occupied industrial land with major industry types such as automobiles, engineering, EV, etc. (Major industries in the Hosur region include Ashok Leyland, TVS Motors, Titan Industries, Taneja Aerospace and Aviation, TTK Prestige Carborundum Universal, TVS Motors, among other. Recent industrial areas

(2022) include Shoolagiri Industrial Park (700 acres) which is currently under construction, with around 23% of the land already assigned to industrial users, and a greater emphasis on the EV industry.

SIPCOT is also in the process of acquiring approx. 2,000 acres for industrial area development, indicating a significant potential for industrial activity in the region.

The Subject Asset is located in proximity to the aforementioned industrial areas and are well connected to Bengaluru city. Because of its presence in Tamil Nadu (qualifying for favourable industrial incentives) and proximity to the Hosur Industrial Hub, the subject site has the potential to attract manufacturing or industrial tenants, potential interest is expected from light industry sectors.

Due to the availability of land and the expansion of industrial activity, warehousing activity has increased significantly in the Hosur-Shoolagiri, Hosur-Thally, Hosur-Mathigiri, and Kelamangalam regions, in particular. The expansion of warehousing operations in the area can be attributed to its ideal connectivity to consumption centres via NH 44 and NICE Road, as well as its proximity to the production hubs of Jigani, Bommasandra, and Hosur Industrial Areas.

# 4 Subject Asset – Thally Park I and Thally Park II

## 4.1 Asset Description

Based on the review of sanctioned layout provided by the Client and subsequent site visit, it is understood that the Subject Asset is an operational warehousing facility, located along Thally Road, Mathagondapalli village, Denkanikotta Taluka, Krishnagiri, Tamil Nadu, 635114

Based on the information provided by the Client viz. sanction plan, lease Deeds, rent roll etc, it is understood that the Subject Asset is an operational warehousing facility with land area admeasuring approx. 48.225 acres and leasable area admeasuring approx. 15,37,566 sft (12,55,623 sft Warehouse/Mezzanine/Process Mezzanine/ FG Yard and 2,81,943 sft of Ancillary space). Based on review of the sanction plan provided and based on our subsequent site visit, it is understood that the Subject Asset consists of three boxes/Phases. The Subject Asset was observed to be fully let out as on date of valuation with a WALE of approx. 9.1 years

According to the information provided by the Client, we understand that Thally Park I - Block A started operations in two phases viz. June 2019 and July 2019, Thally Park I - Block B started operations in two phases viz May 2021 and Feb 2022 and Thally Park II in July 2022. The Subject Asset is understood to have a floor strength of 5 MT/sqm and has floor finishing of high-performance concrete flooring of FM2 Concrete type. The eave height for all boxes was observed to be 12m for all blocks whereas, the FG Yard associated with Thally Park II was observed to have an eave height of 6m with a lighting (lux level) of 200 lux on a park level. The DG and transformer capacity is 160 KVA DG. The facility is fenced/ bounded from all sides with boundary wall of approx. 2.4m height (1.8m block work & 0.6m barbed wire). Furthermore, based on the information provided, we understand that the client has set-up a process mezzanine space of approx. 96,361 sft pertaining to the area leased to a major e-commerce company in Thally Park I - Block A 1A – Part 1.

Further, based on the site inspection conducted and as per the information received from the Client, we understand that the Subject Asset has a site office which includes an administrative Office for day-to-day operations. The Hosur facility also has a fire safety system with two jockey pump, two main electrical pumps, and two diesel engine pumps, all supported by a fire water sump. The facility is equipped with yard hydrants, automatic sprinkler system and an automatic Fire Detection and Fire alarm system. The Subject Asset was observed to be occupied by a transportation cum logistics company, an e-commerce company and an Automobile Manufacturing company

### 4.1.1 Site Details

**Situation:**

Subject Asset – 'TVS Industrial & Logistics Parks, Hosur - II' is an operational warehousing facility located on Survey No.159/2B2, Mathagondapalli village, Denkanikotta Taluka, Krishnagiri, Tamil Nadu, 635114.

**Location:**

Bommasandra-Hosur micromarket is located along. NH-44 which connects Bengaluru to other Northern states and to Tamil Nadu via Hosur. It has easy accessibility to consumption hubs of Bengaluru via NH-44, NICE Road and SH-87.

The micromarket constitutes a share of nearly 84% of the total completed supply of southern micromarket of Bengaluru. The region predominantly consists of Grade-A warehousing spaces with Grade A spaces accounting for approx. 57% of the total stock of the micro market followed by Grade-B spaces at approx. 37%. Prominent Grade A developments in the micromarket were observed to be from institutional players such as TVS ILP, Avigna Group, Horizon Industrial Group, Indospace etc.

Third Party Logistics, E-Commerce, FMCG, Consumer Durables, Manufacturing Apparel & Retail are key industry sectors predominantly occupying grade A supply in the micromarket with tenants such as Flipkart, Amazon, DHL, TVS Supply Chain, Udaan, Aditya Birla, PUMA, Wakefit, Schaeffler, Ather, MPlastics etc

The distances from key hubs to the Subject Asset are presented in the table below:

| Landmark | Distance (Km) |
|---|---|
| Hosur Railway Station | 16 – 17 |
| SIPCOT – Hosur – Phase I | 21 – 22 |
| Hosur, TN | 21 – 22 |
| City Railway Station, Bengaluru | 56 – 58 |
| Kempegowda International Airport, Bengaluru | 87 – 90 |

*Source: Valuer's research*

**Catchment Analysis:**

The primary catchment for the purpose of this valuation has been defined as Hosur-Thally Road and its adjoining micromarkets which are predominantly characterized by industrial/warehousing assets. The southeast region (Hosur Road) of Bengaluru city houses several industrial areas, including Attibele Industrial Area, Jigani-Bommasandra Industrial Area, Hosur SIPCOT (Phase 1 & 10, and others, which have contributed to the development of warehouses in the area. Attibele (221 acres), Bommasandra (950 acres) and Jigani (54) acres) Industrial areas are under Karnataka jurisdiction (developed by KIADB) and are fully occupied.

The major industry types present in these industrial areas include pharmaceuticals, engineering, metals and electronics, auto parts, garments, and so on. Hosur Industrial Complex Phases I and II fall under Tamil Nadu Jurisdiction developed by SIPCOT) and comprises of 1581 acres of completely occupied industrial land with major industry types such as automobiles, engineering, EV, etc. (Major industries in the Hosur region include Ashok

Leyland, TVS Motors, Titan Industries, Taneja Aerospace and Aviation, TTK Prestige Carborundum Universal, TVS Motors, among other. Recent industrial areas (2022) include Shoolagiri Industrial Park (700 acres) which is currently under construction, with around 23% of the land already assigned to industrial users, and a greater emphasis on the EV industry. SIPCOT is also in the process of acquiring approx. 2,000 acres for industrial area development, indicating a significant potential for industrial activity in the region.

Surrounds: The Subject Asset is surrounded as follows:

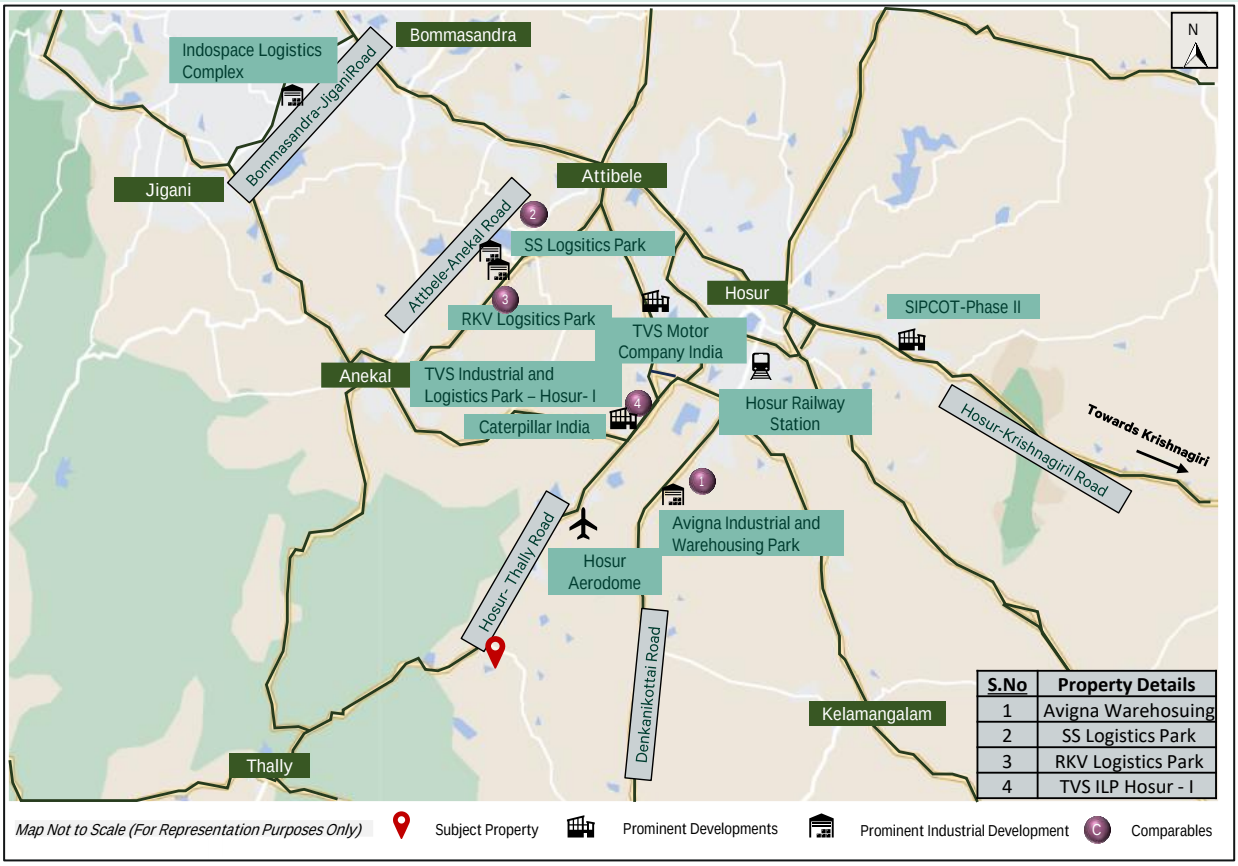
- North: Private Property
- South: Private Property
- East: Private Property
- West: Hosur-Thally Road

Potential changes in surroundings: Based on Valuer's research. It is understood that four-laning works of critical two-lane roads are underway in Hosur under the Chief Minister's Road Development Programme. Road works at approx. INR 1860 Mn are being undertaken in Mathigiri and Poonapalli as part of the infrastructure development of the block. The works are planned in stretches from Poonapalli to Velankanni school on Hosur-Thally road. Storm water drains, construction of culverts etc were other works planned alongside the road-widening. The works are also planned from Mathigiri to TVS Industries. These are expected to improve connectivity of the subject micromarket to other major arterial roads and consumption centres.

Suitability of existing use: Considering the location and profile of surrounding developments coupled with site specific parameters, we are of the opinion that Subject Asset is suited for its current usage.

The following map indicates the location of the Subject Asset and surrounding warehousing facilities:

Location Map for the Subject Asset



*Source: Valuers' research*

| | |
|---|---|
| Shape: | Based on the site plan provided by the Client and visual inspection during the site visit, it is understood that the underlying land is broadly regular in shape. |
| Topography: | Based on the site plan and as corroborated with our site visit, the site appears to be even and on the same level as abutting access roads and adjoining assets. |
| Frontage: | Based on review of site plan and visual inspection, we understand that the Subject Asset has adequate frontage along the primary access road. |
| Accessibility: | Based on the site plan provided by the Client and visual inspection, the primary access to the Subject Asset is via the 60-feet wide Hosur- Thally Road. By virtue of the same the asset enjoys excellent accessibility and frontage.<br><br>Please refer Section 7.0 Exhibit & Addendums for the site plan of the Subject Asset. |

### 4.1.2 Review of sale deed or Lease agreement

As per the sale deed, we understand that the exact address of the Subject Asset is Survey Nos, 138/1A, 138/2, 138/3, 150/1, 150/4, 150/5, 150/8, 157/1, 157/2A, 157/2B, 158/1, 158/2, 158/3, 158/4, 159/2B2, 159/6, 159/7, 156/1A, 156/1B, 156/1C, 156/2A, 156/2B, 160/6B, 166/2A, 166/2B, 166/2C1 and 167/1 in Mathagondapalli village, and Panchayat, Thally Union, Denkanikottai Taluk, Krishnagiri district, Chennai, Tamil Nadu 635114. Additionally, it is understood that the Subject Asset is owned by Maragathammbal Industrial and Logistics Park and is freehold in nature.

### 4.1.3 Title Details

This valuation exercise is based on the premise that the Subject Asset has a clear title and is free from any encumbrances, disputes, claims, etc. Valuer has not made any inquiries in this regard with the relevant legal/ statutory authorities with the understanding this level of due diligence will be undertaken by the appropriate lawyers and then advised to the Valuer accordingly. We strongly recommend the assumption the asset has a clear title is confirmed before relying on the report.

### 4.1.4 Town Planning

| | |
|---|---|
| Zoning | As per the review of the Land Use Classification certificate provided by the Client and based on review of the sanction plan, we understand that the Subject Asset is approved for "Industrial" Use. The same has been considered for the purpose of this valuation. Valuer has made no further inquiries with the local authorities in this regard.<br><br>For the purpose of this exercise, it has been assumed that all developments (existing / under construction / proposed) adhere to building regulations as prescribed by the relevant authorities. Valuer has not validated the information provided by the Client with the relevant development authorities. |
| Approved Usage: | Based on review of sanction plan issued by DTCP authority and visual inspection during our site visit, the Subject Asset is a completed and operational warehousing facility.<br><br>The current use of the Subject Asset is broadly in agreement with the rules and regulations as prescribed by the local development authority. However, Valuer has not made any enquiries with the relevant local authorities to validate the same for its specific applicability to the Subject Asset. |
| Restrictions: | As per feedback received from the Client, there are no restrictions on the current use of the asset. |
| Natural or induced hazards: | We have not carried out any investigations or tests or been supplied with any information from Client or from any relevant expert that determines the presence or otherwise of pollution or contaminative substances in the Subject Asset or any other land (including any ground water).<br><br>For the purpose of assessing the vulnerability of the Subject Asset to any natural or induced disaster the location of the property with respect to risks pertaining to earthquakes, high winds/cyclone and flooding was studied. Mathagondapalli Village, where the Subject Asset is located falls in Seismic Zone- II (Least Active) with low risk. Further, based on review of the topographic map of the subject region, it was understood that the subject region falls in a high-lying area due to which the Subject Asset has a low risk of flooding. The city faces low risk in terms of high winds or cyclones too. No hazardous activity was noted in the vicinity of the Subject Asset which may expose it for any induced disaster |
| Approvals: | As per the documents provided by Client, we understand that the approvals mentioned in section 4.1.5.1 for the asset have been obtained. Please refer annexures for the details. |

For the purpose of this exercise, it has been assumed that all developments adhere to building regulations as prescribed by the relevant authorities. Valuers have not validated the information provided by the Client with the relevant development authorities

### 4.1.5 Statutory Approvals, Sanctions & Approvals

#### 4.1.5.1 Statutory Approvals received and to be received

As per the review of documents provided by the Client, we understand that all requisite approvals have been received for the Subject Asset.

The table below highlights the status of approvals for the Subject Asset:

| Approval/NOC | Status (Applied / Received) | Authority | Date of Issue (DD-MM-YY) |
|---|---|---|---|
| Fire NOC | Received | Tamil Nadu Fire and Rescue services department | 11-05-2022 |
| Ground Water Abstraction NOC | Received | Water Resource Department – Government of Tamil Nadu | 01.07.2022<br>Valid till 01-07-2025 |
| Ground Water Abstraction NOC - Renewal | Received | | 16.07.2023<br>Valid till 15-07-2026 |
| Land Use Conversion – 156/1A and 156/1B | Received | Directorate of Town and Country Planning | 16-09-2021 |
| Land Conversion | Received | | 25-03-2019 |
| Consent to Operate - Water | Received | Tamil Nadu Pollution Control Board | 26-05-2022<br>Valid till 31-03-2027 |
| Consent to Operate - Air | Received | Tamil Nadu Pollution Control Board | 14-02-2023<br>Valid till 31-03-2033 |
| Hosur Unit II Expansion – Sanction Plan | Received | Directorate of Town and Country Planning | 06.10.2022 |
| Power Connection | Received | Tamil Nadu Generation and Distribution Corporation Ltd | 04.01.2014 |
| Fire License - Renewal | Received | Tamil Nadu Fire and Rescue Service Department | 29.05.2023 |
| CEIG Safety Certificate | Received | Electrical Inspectorate – Government of Tamil Nadu | 25-07-2023 |

*Source: Approval documents provided by the Client*

#### 4.1.5.2 List of up to date/overdue periodic clearances

Please refer section 7.3 on One-time Sanctions & Periodic Clearances. Based on review of the documents provided by the Client, we understand that there are no overdue periodic clearances.

### 4.1.6 Area Details, Type and Age of Existing Structures

Further, as per the details from the Client the total leasable area is 1639,440 sft, however, the chargeable area viz. 1,255,623 sft has been considered for the purpose of this valuation.

The table below highlights the age of the completed blocks of the Subject Asset:

| Block | Year of Completion | Age of structures (in years) | Approved Developable Area (sft)* | Completed Area (sft) | Leased Area (sft) |
|---|---|---|---|---|---|
| Thally Park I - Block A | 2019 | 4.5 | 8,49,346 | 8,49,346 | E-Commerce Company – Thally Park I - Block A 1A – Part 1- 2,63,341<br>E-Commerce Company Process Mezzanine – Thally Park I - Block A 1A – Part – 1 – 96,361^^^<br>Automobile Manufacturer – Thally Park I - Block A 1A – Part 2- 1,22,976<br>E-Commerce Company – Thally Park I - Block A 1-B – 3,70,164 |

### 4.1.7 Site Services and Finishes

| Particulars | Completed Blocks | Under Construction Blocks |
|---|---|---|
| Handover condition | Warm Shell | - |
| Type of Structure | PEB | - |
| Firefighting services | Provided. Fire NOC Available | - |
| Lift provision | No Lifts | - |
| Floor Finish | FM2 Concrete floor | - |
| Floor Strength | 5 MT/Sqm | - |
| Building Height at eave | 12 m | - |
| Fire Protection System | NFPA/NBC standard fire protection system | - |
| Lighting | 200 Lux | - |
| WTP | RO plant of 1500 LPH with 5KL | - |
| Ridge height | 15 m | - |

*Source: Information provided by the Client, Site visit*

### 4.1.8 Condition & Repair

Based on information provided by the Client and corroborated with our visual inspection during the site visit, it is understood that the Subject Asset is in good condition and is maintained well. The table below highlights the major repairs and maintenance work/ infrastructure upgrade works to be undertaken over the next few quarters:

| Expense Head | Total Pending Cost (INR Mn) | Quarter of Completion |
|---|---|---|
| Refurbishment Capex | NA | NA |

Please refer to the Annexure section 7.1

4.1.11 Nature of the interest the InvIT holds or proposes to hold in the asset, percentage of interest of the InvIT in the asset

Please refer to the Annexure section 7.1

4.1.12 Structure of ownership of the asset by the InvIT

Please refer to the Annexure section 7.1

4.1.13 Description of key agreements and restrictions relevant to the asset such as terms of concession agreement, power purchase agreements, etc.

Please refer to the Annexure section 7.1

4.1.14 Life of the asset (both contractually and physical life requiring maintenance, replacement and right available to extend this life

Please refer to the Annexure section 7.1

4.1.15 Valuation of the asset in the previous 3 years

As of the date of this valuation report, the Subject Asset is not part of the Infrastructure Investment Trust (InvIT)

# 5 Valuation Approach & Methodology

## 5.1 Scope of Valuation

The valuation exercise is to assess the Market Value (MV) of the Subject Assets for the purpose of the Offer of units through a private placement of TVS Infrastructure Trust under the SEBI (Infrastructure Investment Trust) Regulations, 2014, as amended. The valuations have been conducted in accordance with the IVSC International Valuation Standards, (effective 31 January 2022) and in accordance with the requirements of the SEBI (Infrastructure Investment Trust) Regulations, 2014, as amended from time to time.

This Valuer has assessed the Market Value of each individual Subject Asset, not the value of the portfolio, if all assets were sold in one transaction. Where a summation of the individual assets is provided, this is purely for reference only and should not be construed as the value of the portfolio. Kindly refer to the summary report section X.X for list of Subject Assets forming part of the portfolio.

## 5.2 Basis of Valuation

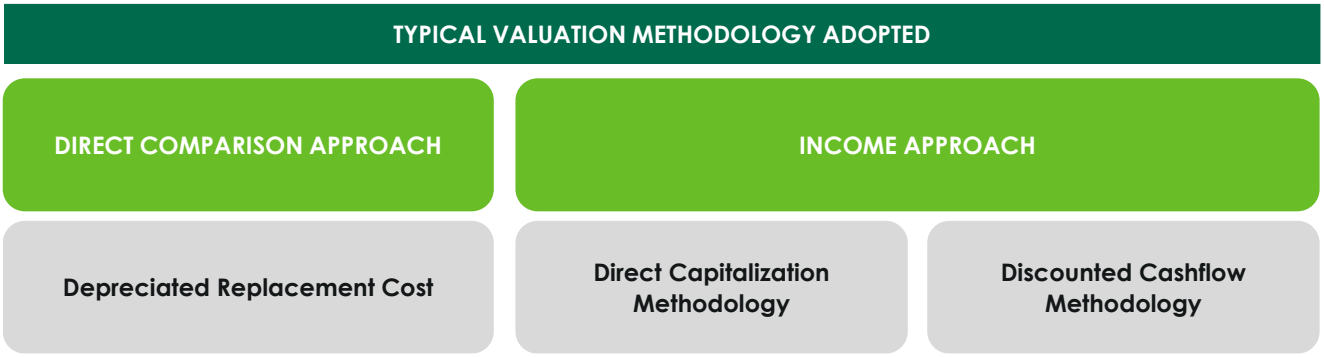
The valuations have been conducted in accordance with the IVSC International Valuation Standards issued in July 2021, effective from 31 January 2022), Regulation 21 and Schedule V of the SEBI (InvIT) Regulations, 2014 and is in compliance with the International Valuation Standards (IVS). The valuation exercise has been undertaken by an appropriately qualified Valuer and will assess the Market Value of the ownership Interest in the Subject Asset.

As per the Valuation and Guidance Notes issued by the IVS, the market value is defined as:

***'The estimated amount for which** an asset or liability should exchange on the valuation date between a willing **buyer and a willing seller in an arm's length transaction, after proper marketing and where the parties had each acted knowledgeably, prudently and without compulsion'.***

## 5.3 Approach and Methodology

The purpose of this valuation exercise is to estimate the Market Value (MV) of the Subject Assets. Market Value can be derived through the following Methodologies:



### 5.3.1 Direct Comparison Approach

Under the 'Direct Comparison Approach', the asset is compared to similar Assets that have actually been sold in an arms-length transaction or are offered for sale (after deducting for value of built-up structure located thereon). The comparable evidence gathered during research is adjusted for premiums and discounts based on asset specific attributes to reflect the underlying value of the asset.

### 5.3.2 Income Approach

The income approach is based on the premise that value of an income - producing asset is a function of future benefits and income derived from that asset. There are two commonly used methods of the income approach in real estate valuation namely, direct capitalization and discounted cash flow (DCF).

A. Direct Capitalization Method

Direct capitalization involves capitalizing a 'normalized' single - year net income estimated by an appropriate yield. This approach is best utilized with stable revenue producing assets, whereby there is little volatility in the net annual income.

B. Discounted Cash Flow Method

A Discounted Cash Flow Analysis is based upon estimates of future financial performance. The methodology begins with a set of assumptions regarding income and expenses of the Asset and future economic conditions in the local market. The income and expense figures are assessed with adjustments for estimated changes in economic conditions and any contractual commitments. The resultant value is considered the best estimate but is not to be construed as a prediction or guarantee and is fully dependent upon the reasonableness of the assumptions with respect to income, expenses, and market conditions, which are based on information available as at the valuation date.

## 5.4 Approach and Methodology Adopted

Considering the objective of this exercise, the nature of asset involved and the purpose of the valuation viz. to assess the Market Value (MV) of the Subject Assets for the purpose of the Offer of units through a private placement of TVS Infrastructure Trust under the SEBI (Infrastructure Investment Trust) Regulations, 2014 'Regulation', we have adopted the methodology considering Chapter 1 section 2 point (i) of the InvIT regulation, which states that, the assets forming part of InvIT should meet among the below criteria as follow:

1. the infrastructure asset has achieved the commercial operations date as defined under the relevant asset agreement including concession agreement, power purchase agreement or any other agreement of a similar nature entered into in relation to the operation of the asset or in any agreement entered into with the lenders
2. the infrastructure asset has received all the requisite approvals and certifications for commencing operations
3. the infrastructure asset has been generating revenue from operations for a period of not less than one year

Hence owing to the above stated conditions, we are of the opinion that the income approach which is appropriate to value such asset based on the premise that value of an income - producing asset is a function of future benefits and income derived from that asset.

Under the Income approach, Discounted Cash Flow Analysis is based upon estimates of future financial performance which also considers the income and expenses of the Asset accounting for the future fluctuations due to expected market dynamics.

Hence, for the purpose of this valuation exercise, we have adopted Discounted Cash Flow Method (using rent reversion approach).

For the purpose of this valuation exercise, we have analysed the tenancy details provided by the Client to identify variances vis-à-vis prevailing marginal rent. In the event the contracted rent is within the threshold (15.0%), we have assumed that the tenant will continue on the current agreed terms. In the event the rent is higher than the marginal rent threshold, we have assumed that the lease would be renegotiated to marginal rent terms (at the time of the lock-in expiry, next escalation, etc.).

Asset-specific Review:

1. As the first step to the valuation of the asset, the lease deeds were reviewed to identify tenancy characteristics with respect to contractual commitments and commercial covenants.
    a. Title documents and architect certificates were reviewed for validation of area details, ownership of the asset.
    b. The Valuer has undertaken physical site inspections to assess the current status of the Subject Assets in terms of their physical configuration, capacity and upkeep.

Micromarket Review/Market Rental Assessment:

Bommasandra-Hosur is a key warehousing vector in Bengaluru Situated along N4-44 in the southern periphery of Bengaluru, it serves as a hub for commerce between Bengaluru and Hosur-Chennai. Accessible via NH-44 SH-87, and NICE Road, it provides exceptional connectivity and convenient proximity to the city's consumption and distribution centres. In addition, the region accounts for approximately 23% of Bengaluru's (2nd largest warehousing market) total completed inventory. The region witnessed a total supply of approx. 15.2 mn sft, with, 95-96 % absorption. The region is primarily characterised by Grade A and Grade B developments, with a share of 57% and 37% of the total stock, respectively, Prominent Grade A developments encompass TVS Industrial & Logistics, RKV Logistics, Horizon Industrial Parks, Avigna Warehousing Parks, and more. The availability of large land parcels with moderate land values in comparison to other micromarkets, as well as proximity to manufacturing and consumption hubs, are the primary drivers of warehousing activity in the region.

A primary research exercise has been carried out in the catchment area to ascertain the prevalent activity levels in terms of quoted / transacted evidence of the recent leasing activity for warehousing developments. This has been achieved through interactions with various market players such as local real estate brokers, developers, owners, etc. Based on the same, we understand that variance across rentals is primarily due to factors such as type of asset, developer brand, location, accessibility, overall tenant mix, quantum of vacant stock in the development, specifications, and additional improvements, etc.

For the micromarket review and market rental assessment we have relied upon the report on 'Market Analysis of Warehousing facilities in Identified locations pan India' prepared by CBRE South Asia Private Limited, hereafter referred as 'CBRE' (an independent agency appointed by the Client to undertake market research, provide market summary and data for the purpose of this assignment)

Cash Flow Projections:

We have assessed future cash flows from the Subject Assets based on existing lease terms and contractual lease payments for the operational area until the expiry of the leases or re-negotiation (using the variance analysis), whichever is earlier.

Based on a detailed review of the leases for the Subject Asset, we noted that a large number of leases at these Assets were executed at rent prevalent at the time of signing of such leases or at a discount to prevailing market rental (for a few anchor tenants). Since the real estate industry is dynamic and is influenced by various factors (such as existing supply, tenants looking at spaces, quality of spaces available in the market, overall health of the economy, existing rent, future growth plans, etc.) at a particular point in time, negotiated rent may tend to move away from the prevalent market rent over a period of time. It has also been witnessed that the market rent for some Assets or micro markets increase or decrease at a rate significantly different from those agreed to in initial leases. These factors reinforce the need to review each of these leases in isolation to assess the intrinsic value of the asset under review.

Post this, the lease terms have been aligned with market rentals. For vacant area (if any), the Valuer has assessed the market rent led cash flows factoring appropriate lease-up time frame for vacant/under-construction/proposed area. These cash flows have been assessed for 10-year duration from the date of valuation and for 11th year (for assessment of terminal value). These future financial benefits are then discounted to a present-day value (valuation date) at an appropriate discount rate.

## 5.5 Information Sources for Valuation

Asset related information referred to for the valuation exercise have been provided by the Client unless otherwise mentioned. We have assumed the documents to be a true copy of the original. The rent rolls have been cross-checked with the lease deeds on a sample basis to verify the authenticity. Additionally, wherever possible, we have independently revalidated the information by reviewing the originals as provided by the Client.

Table below highlights various data points referred throughout the course of this valuation report and the data sources for the same. Asset related documents referred to in the table below have been provided to the Valuer by the Client unless otherwise mentioned. The Valuer have assumed the documents to be a true copy of the original.

# 6 Value Assessment

## 6.1 Value Assessment

### 6.1.1 Adopted Methodology

We acknowledge that the approaches to valuation differ considerably and that for a particular purpose, alternative approaches to the valuation can be utilized. Considering the objective of this exercise and the nature of asset involved, the value of the Subject Asset has been assessed through the following approaches:

| Asset Name | Valuation Methodology (Completed Blocks) | Valuation Methodology (Under-construction Blocks) |
|---|---|---|
| Thally Park I and Thally Park II | Discounted Cash Flow (Using rent reversion approach) | NA |

The sections below highlight the detailed valuation workings for the Subject Asset.

## 6.2 Operational Assumptions

### 6.2.1 Area statement

Based on information from lease deed and architect certificate provided by the Client, we understand that Subject Asset is an operational warehouse facility. Further, the table below highlights the area configuration of the Subject Asset:

| Block | Year of Completion | Age of structures (in years) | Status | Developable Area (sft) | Completed Area (sft) | Leased Area (sft) |
|---|---|---|---|---|---|---|
| Thally Park I - Block A | 2019 | 4.5 | Completed | 8,49,346 | 8,49,346 | 8,52,842 |
| Thally Park I - Block B | 2021-2022 | 1.5-2.5 | Completed | 2,04,800 | 2,04,800 | 2,03,655 |
| Thally Park II | 2022 | 1.5 | Completed | 1,99,126 | 1,99,126 | 4,81,069 |

*Source: Client Inputs*

## 6.3 Tenancy Analysis

### 6.3.1 Historical Occupancy Rates

Based on the review of the rent roll/lease deeds provided by the Client, the table below highlights the historical occupancy rates at the Subject Asset.

| Description | Particulars (%) |
|---|---|
| Occupancy (completed blocks) | 100% |
| Pre-Commitment (under construction blocks) | NA |

### 6.3.2 Lease Deed Analysis

Based on the review of the Lease Deed provided by the Client, we understand that the lease agreements were signed between TVS infrastructure Pvt ltd and the tenants, details of which are mentioned below:

| Tenant | Particulars | Details |
|---|---|---|
| E-Commerce Company – Thally Park I - Block A 1A – Part 1 | Lease Commencement Date | 1st September 2024 |
| | Rent Commencement Date | 1st September 2024 |
| | Lock-in Period | 5 years |
| | Lease Tenure | 9 years^ |
| | Lease Rent Escalation Terms | 4% every year |
| E-Commerce Company – Thally Park I - Block A - 1B | Lease Commencement Date | 1st September 2024 |
| | Rent Commencement Date | 1st September 2024 |
| | Lock-in Period | 5 years |
| | Lease Tenure | 9 years^ |
| | Lease Rent Escalation Terms | 4% every year |
| Automobile Company – Thally Park I - Block A - 1A Part 2 | Lease Commencement Date | 24th October 2020 |
| | Rent Commencement Date | 25th December 2020 |
| | Lock-in Period | 10 Years |
| | Lease Tenure | 20 Years 2 Months |
| | Lease Rent Escalation Terms | 5% every year |
| Logistics Company – Thally Park I - Block B -1-C | Lease Commencement Date | 01st May 2021 |
| | Rent Commencement Date | 11th June 2021 |
| | Lock-in Period | 3 Years |
| | Lease Tenure | 5 Years |
| | Lease Rent Escalation Terms | 5% every year |
| Logistics Company – Thally Park I - Block B -1-D | Lease Commencement Date | 1st August 2022 |
| | Rent Commencement Date | 1st August 2022 |
| | Lock-in Period | 3 Years |
| | Lease Tenure | 5 Years |
| | Lease Rent Escalation Terms | 5% every year |
| Automobile Company – Thally Park II | Lease Commencement Date | 07th July 2022 |
| | Rent Commencement Date | 07th July 2022 |
| | Lock-in Period | 10 Years |
| | Lease Tenure | 15 Years |
| | Lease Rent Escalation Terms | 4.25% every year |
| E-Commerce Company – Thally Park I - Block A 1A – Part 1 (Process Mezzanine) | Lease Commencement Date | 21st July 2024 |
| | Rent Commencement Date | 01st August 2024 |
| | Lock-in Period | 5 Years |
| | Lease Tenure | 9 Years |
| | Lease Rent Escalation Terms | 4% every year |

*Source: Lease Deed and Client Input ^ Based on the inputs provided by the client, we understand that E-Commerce Company has renewed its lease term for a further tenure of 9 years. Further, the valuer has not received any documentation related to the same.*

### 6.3.3 Lease Rent Analysis

Contractual Rental Details

| Asset | Leasable Area (sft) | % of area leased | Total In-place rental - Warehouse (INR psf pm) | Total In-place rental (INR Mn pm) |
|---|---|---|---|---|
| Thally Park I and Thally Park II | 12,55,623 sft (Warehouse/Mezzanine/Process Mezzanine/ FG Yard) 2,81,943 sft of Ancillary space | 100% | Warehouse- 21.46 Mezzanine – 10.90 Process Mezzanine – 15.92 | 26.68^ |

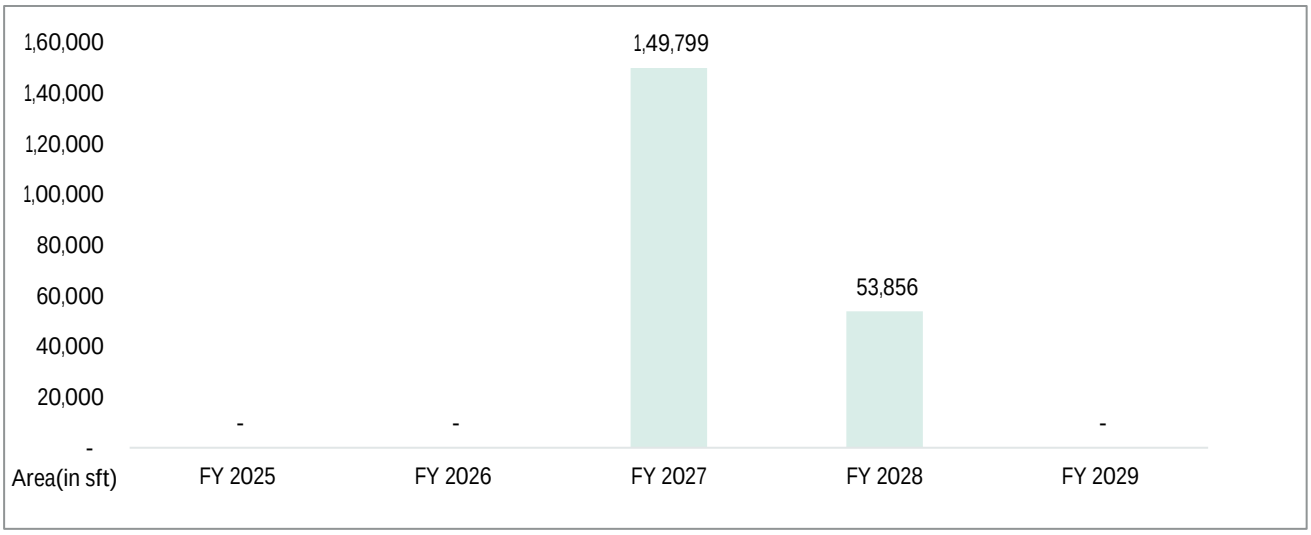
*Source: Sanction Plan, Lease deed, Rent Roll ^ Includes TI/Fitout/Ancillary Area*

Based on the recent transaction witnessed in the micro market as highlighted in the table above and transaction witnessed in the Subject Asset, we understand that the Subject Asset would command a marginal rental (for warehouse space) of INR 22 – 24 per sf per month (say an average rental of INR 23.0 per sf per month of leasable area). The Mezzanine/ Open space area within the Subject Asset provides convenience to the tenants in the Subject Asset.

Also, considering the existing leases within the subject micro market, we have assumed lease rentals for Mezzanine/ Open Spaces in the range of INR 10 - 12 per sf per month (say INR 11 per sf per month) as on date of valuation.

### 6.3.4 Lease Expiry Profile

The Weighted Average Lease Expiry (WALE) of Subject Asset is 9.1 years, with approx. 16.2% of occupied warehouse area expiring between FY 2025 and FY 2028 as shown in the chart below:



*Source: Valuer Workings*

### 6.3.5 Tenant Obligations

Based on the review of the lease deed, we understand that the operational expenses listed below will have to be borne by the Tenant

| S. No | Description of operational expenses |
|---|---|
| 1 | Housekeeping within demised premises |
| 2 | Insurance for stored goods |
| 3 | Damages caused by the tenant/lessee to the building |
| 4 | Other Expenses such as utility charges towards any Governmental authorities or Concerned service provider. |

*Source: Client Inputs*

### 6.3.6 Construction Timelines

The asset was completed in a phase-wise manner - Thally Park I - Block A started operations in two phases viz. June 2019 and July 2019, Thally Park I - Block B started operations in two phases viz May 2021 and Feb 2022 and Thally Park II in July 2022.

### 6.3.7 Absorption/ Leasing Velocity and Occupancy Profile

#### 6.3.7.1 Completed Blocks

As per the rent roll provided by the Client, we understand that the completed blocks have an occupancy of 100% as on date of valuation. The Subject Asset was observed to be fully let out as on date of valuation with a WALE of approx. 9.1 years

#### 6.3.7.2 Under-Construction/ Proposed Blocks

Not Applicable. Based on review of the rent roll provided by the Client and based on subsequent site inspection conducted by the Valuer, it is understood that the Subject Asset is fully completed and operational.

### 6.3.8 Revenue Assumptions (Warehouse + Industrial)

#### 6.3.8.1 Warehouse Component

For the purpose of this valuation exercise, the lease rent adopted for the area already leased (Property is completely let out as on date of valuation) is based on the rent roll/lease deeds provided by the Client. Further, the Valuer have undertaken an in-depth market research exercise to assess the prevailing rent values in the subject micromarket. The same has been adopted for the vacant space/re-leasing upon expiry of leased spaces for the purpose of this valuation exercise.

Based on our review of the Industry Assessment Report and based on the analysis of the rent roll provided by the Client, following rent has been adopted for the purpose of value assessment of the completed blocks at the Subject Asset.

The detailed rent assessment workings are highlighted in the lease rent analysis section presented above.

| Component | Warehouse Leasable Area (sft) | Leased Area (sft) | Basis | Rent Adopted* (INR psf pm) |
|---|---|---|---|---|
| Warehouse | 10,94,405^ | 10,94,405 | Current Rent for Leased area | 21.46^^ |
| | | | Market rent for reversion/ vacant area | 23.0 |

*Source: Lease deed provided by the Client; Valuer's assessment ^Warehouse Area; ^^In-place Rent*

The above market rent assumption is adopted for the entire subject development. In addition to undertaking an in-depth market analysis, a detailed analysis of the rent rolls was also undertaken to understand aspects such as area occupied, current rent and expiry analysis of the key tenants in the park.

For the purpose of this valuation exercise, the lease rent adopted for the area already leased is based on the lease deed provided by the Client. Further, an in-depth market research exercise has been undertaken to assess the expected economic rentals of the Subject Asset.

Based on review of the Industry Assessment Report, we understand that the contracted rental of the Subject Asset is in line with the expected economic rental value of the Subject Asset. Hence, we have considered contracted rentals for the purpose of value assessment at the Subject Asset:

#### 6.3.8.2 Non-Warehouse Component

As per the information provided by the Client, it is understood that an open space area/ mezzanine/Process Mezzanine area measuring approx. 4,43,161 sft of which 100% is leased out. The 4,43,161 sft area will operate as open space area/ mezzanine/Process Mezzanine area such as cell storage yard, truck parking, apron areas etc providing convenience to the tenants in the Subject Asset as well as surrounding development.

The Valuers have undertaken an in-depth market research exercise to assess the prevailing rent values in the subject micro market and existing leases of Subject Asset. The same has been adopted for the vacant space for the purpose of this valuation exercise. Given the above, we have assumed a market rent in the range of INR 10 to 12 psf pm (say INR 11 psf pm) as on date of valuation.

| Component | Leasable Area (sft) | Leased Area (sft) | Basis | Rent Adopted* (INR psf pm) |
|---|---|---|---|---|
| Mezzanine and open areas | 4,43,161 ^ | 4,43,161 | Current Rent for Leased area | Mezzanine – 10.90^^ |
| | | | Marginal rent for reversion/ vacant area | Mezzanine – 11.00 |

*Source: Lease deed provided by the Client; Valuer's assessment; ^ Open area/Ancillary rentals pertaining to Ather space in* Thally Park II – Phase II *have been loaded as part of the rentals of the FG yard for the purpose of this valuation exercise^^In-place Rent.*

It is to be noted that the rent pertaining to ancillary spaces (viz Dock Apron Area, Landscape area etc) pertaining to the Ather space in Thally Park II – Phase II have been loaded as part of the rentals of the Ather Warehouse and FG yard for the purpose of this valuation exercise.

The valuer has considered the E-Commerce company's process mezzanine area as a Tenant Improvement for the existing lease in Thally Park I - Block A 1 A-Part 1. Hence, the same has not been capitalized.

### 6.3.9 Rent Escalation

Based on an analysis of existing lease rolls and recent leasing at the Subject Asset, it was observed that the typical escalation clause in the Subject Asset and micromarket is approx. 5% every year, which is in-line with the trend observed in the market. A lease rent escalation of 5% has been adopted for the renewals at the Subject Asset.

Escalation on renewal - Based on the analysis of terms of lease deed, it was observed that the typical escalation clause in the Subject Asset is 5% per annum, which is in-line with the trend observed in the market. The same has been adopted by the Valuer.

| Particulars | Unit | Details |
|---|---|---|
| Lease Rental Escalations | % p.a. | 5.0% |

*Source: Valuer's assessment*

Market Rent Escalation - Based on the trend observed in the market and based on review of the Industry Assessment report, the valuer has considered a market escalation of 5% per annum effective from the date of valuation. The assumption for market rent for this appraisal exercise is as follows:

| Particulars | Sept 2024 | March 2025 | March 2026 | March 2027 Onwards |
|---|---|---|---|---|
| Market Rent Escalation | 23.0 | 24.15 | 25.36 | 5% escalation year on year |

### 6.3.10 Other Revenues

In addition to lease rent revenues, assets typically have additional sources of revenue. These include revenues on account of security deposit (refunded at the time of lease expiry / exit), other miscellaneous income etc. The assumptions considered for the aforementioned revenue heads for the purpose of this valuation exercise are based on the rent roll & lease deeds provided by the Client. The same has been cross-checked with the prevailing market norms for other revenues and were found to be broadly in line. The assumptions adopted for other revenues are as tabulated below:

| Nature of Income | Details | Units |
|---|---|---|
| Security Deposit (For vacant spaces) | 6 | No. of months' warm shell rental |
| Other Income (Margin on Utilities etc.) | 3.5 | % of Rental Income |
| STP Income-Automobile Manufacturing Company - Thally Park II | 0.29* | INR Mn per Quarter |
| CAM Income (For vacant area and Development component) | 1 | INR per sft per month |

*Source: Valuer's assessment *Contracted as part of Automobile Manufacturing Company lease in Thally Park II – Non-Recurring Cash Flow*

### 6.3.11 Capital Expenditure

#### 6.3.11.1 Pending Cost to Complete

Based on the information provided, we understand that all development activities in the subject property have been completed and that the subject property is completely operational. Further, there is no pending cost to be incurred towards any development activities in the subject development.

### 6.3.12 Operating Cost

An Asset typically has few recurring operation expenses required for the upkeep running of the development. Based on information provided by the Client and market assessment, following recurring expense assumptions have been adopted for the purpose of this valuation exercise. In addition to capital expenditure, an asset typically has few recurring operational expenses required for the up-keep and running of the asset.

| Nature of Expense | Details |
|---|---|
| Reserves & Maintenance (R&M) Provision* | 0.5% of lease revenue |
| Asset Management Fee^ | 3.0% of revenues from operations |
| Property Tax* | INR 8.2 Mn |
| Insurance* | INR 3.51 Mn |
| Vacancy Allowance during operations | 1.0% of revenues from operations |
| Vacancy Allowance on Exit | 2.5% of revenues from operations |
| CAM Expense | 1.0 psf per month |
| Refurbishment reserve (% of rental income) | 1.5% |

*Source: Client input; Valuer's assessment; *As per the lease terms and the information provided by the Client, Property tax and insurance are to be borne by the lessor; ^fees has been considered as below the NOI line item.*

### 6.3.13 Other Assumptions

#### 6.3.13.1 Vacancy provision

Based on review of the rent roll provided, we understand that that the completed portion of the Subject Asset is substantially occupied with significantly long lease periods. Considering the same alongside other asset level parameters (location, amenities, grade, infrastructure etc) and market benchmarks, the Valuer has adopted a vacancy provision as follows:

| Description | Blocks |
|---|---|
| Vacancy Provision | During Operations – 1.0%<br>Assessment at the time of exit – 2.5% |

*Source: Valuer's assessment*

#### 6.3.13.2 Revenue escalation

Based on prevailing market condition, historical rent growth achieved by the Subject Asset and our interactions with market participants, we are of the opinion that the annual marginal rent growth of 5.0% has been considered for the date of valuation.

#### 6.3.13.3 Rent-free period

Based on the rent roll provided by the Client, it is understood that the existing leases have a rent-free period ranging from 1 months to 3 months from the lease-commencement date.

However, based on the trend observed within the subject development, we have considered a rent-free period of 1 month for new-leases and for re-leasing effective from the lease commencement date and 1 month of downtime for new-leases and for re-leasing.

#### 6.3.13.4 Brokerage

Based on prevalent market dynamics and brokerage activity observed within the subject property, we have considered brokerage equivalent to 0.4 month of rental income for future / new leases

#### 6.3.13.5 CAM Cashflows

Based on review of the lease deeds pertaining to the Subject Asset, it is understood that the base monthly rental paid by the transportation and logistics tenant is inclusive of CAM Charges. CAM Charges for other tenants have been considered based on review of the rent roll provided by the client.

## 6.4 Financial Assumptions

### 6.4.1 Exit Capitalization Rate Adopted

The capitalization rate adopted for valuing the assets has been based on factors such as:

- Historical entry yields (going in cap rates) for yield/ core warehousing facility transactions across various key markets in India have steadily shown a downward trend from 9.00- 11.00% in last 8 – 9 years to about 7.50% - 8.50% in last 3-4 years.
- The increased appetite for income producing assets and availability of various modes of finance (real estate credit flows) backing such acquisitions.
- Yields for warehousing assets across various markets in India have a range of 7.50 – 8.00%
- Liquidity associated with InvIT listed/ public listings (multiplicity of buyers and relatively lower budgets per buyer)

Based on the above highlighted attributes, the following cap rate has been adopted for the purpose of our valuation:

| Asset Name | SPV/Hold Co | Status of the Asset | Details |
|---|---|---|---|
| Thally Park I and Thally Park II | Maragathammbal Industrial and Logistics Park | Operational | 7.50% |

*Source: Valuer's assessment*

### 6.4.2 Discount Rate Adopted

For discounting the cash flows, an appropriate discount rate has been calculated on the basis of estimated 'Weighted Average Cost of Capital' (WACC).

### 6.4.3 Cost of Equity

The Valuer has computed the cost of equity as per the Capital Asset Pricing Model (CAPM), which is derived as follows:

Cost of equity = Risk Free Rate (Rf) + Beta (**β**) * (Market Return (Rm) **–** Risk Free Rate (Rf))

As mentioned above, the cost of equity computed using CAPM constitutes of the following components:

- Risk free rate (Rf) i.e., long term (10-year) treasury bond rate in India
- Market return (Rm) based on the returns of Sensex index for the past 10 years
- Computation of 'Beta (β)' of key listed realty stocks and REITs/ InvITs in India with respect to the Broad-Based BSE 500 stock index

The cost of equity adopted for this asset has been adjusted for market/ asset specific risk pertaining to a real estate asset such as execution risk (construction status), marketing risk, etc. and adjusted for taxation. While the

assumptions regarding the quantum of these risks have no quantitative basis, we have adopted them based on our understanding of the market and our opinion on the asset performance

### 6.4.4 Cost of Debt

Completed Blocks

The cost of debt for this asset has been considered based on prevalent Lease Rental Discounting (LRD) rates for Grade A warehousing developments across the Bommasandra - Hosur micro market which are in the range of 8.0% – 9.0% depending upon the location, asset quality, occupancy, etc.

### 6.4.5 Weighted Average Cost of Capital (WACC)

Completed Blocks

As highlighted earlier, the cost of debt has been assumed based on the prevalent LRD rates, while the cost of equity assumed has been adjusted for asset and market specific attributes to reflect the market expectations from an operational warehouse facility. Further, the proportion of debt and equity has been derived considering the prevalent LRD tenures and its contribution in the overall asset value.

Based on above, the following WACC rate has been assumed for the completed Thally Park I and Thally Park II asset forming part of the InvIT portfolio:

| Asset Name | SPV/Hold Co | Particular | Proportion | Cost | WACC |
|---|---|---|---|---|---|
| Thally Park I and Thally Park II | TVS Industrial & Logistics Parks Private Limited | Debt | 35.0% | 8.0% | 11.58% |
| | | Equity | 65.0% | 13.5% | |

*Source: Valuer's assessment; Please note that the cash flows are assumed to realize evenly during the course of every quarter; hence a mid-quarter discounting convention has been adopted for the purpose of this valuation. Additionally, we have not factored any cash flows attributable to working capital requirement/expenses for valuation as the same is immaterial.*

## 6.5 Value of the Subject Asset

The Valuer is of the opinion that subject to the overriding stipulations contained within the body of this report and to there being no onerous restrictions or unusual encumbrances of which he has no knowledge, the opinion of value of the complete ownership interest in the Subject Asset comprising land and improvements thereon, as explained above, as on 30th September 2024 is as follows:

| Asset Name | Value (INR Mn) |
|---|---|
| Thally Park I and Thally Park II | INR 4,374 |

*Source: Valuer's assessment*

# 7 Exhibits and Addendums

## 7.1 Other Mandatory Disclosures

### 7.1.1 Details of On-going material litigations including tax disputes in relation to the assets

As per our interaction with the Client, the Client has confirmed that there are no material litigation details pertaining to the asset. Please note that the Valuer has not investigated nor has been provided with any supporting documents.

Please refer to the section on litigations in the draft private placement document details on material litigations for various assets.

### 7.1.2 Details of options or rights of pre-emption and other encumbrances

As per our interaction with the Client and our scope of services, please note that the Valuer has not investigated nor has been provided with any supporting documents.

Please refer to the section on litigations in the draft private placement document details on material litigations for various assets

### 7.1.3 Vulnerability to natural or induced hazards that may not have been covered in town planning/ building control.

As per our interaction with the Client, the Client has confirmed that there are no vulnerabilities pertaining to the asset. Please note that the Valuer has not investigated nor has been provided with any supporting documents.

Also, in our professional judgment based on site inspection, there were no visible vulnerabilities.

### 7.1.4 Details of Revenue Pendencies including local authority taxes associated with InvIT asset and compounding.

As per our interaction with the Client, the Client has confirmed that there is no revenue pendency to the asset. Please note that the Valuer has not investigated nor has been provided with any supporting documents.

Please refer to the section on litigations in the draft private placement document details on material litigations for various assets.

Our assessment is under the assumption the asset has a clear title and is free from any encumbrances, disputes, claims that would affect the value. This should be verified by an asset lawyer prior to relying on this valuation.

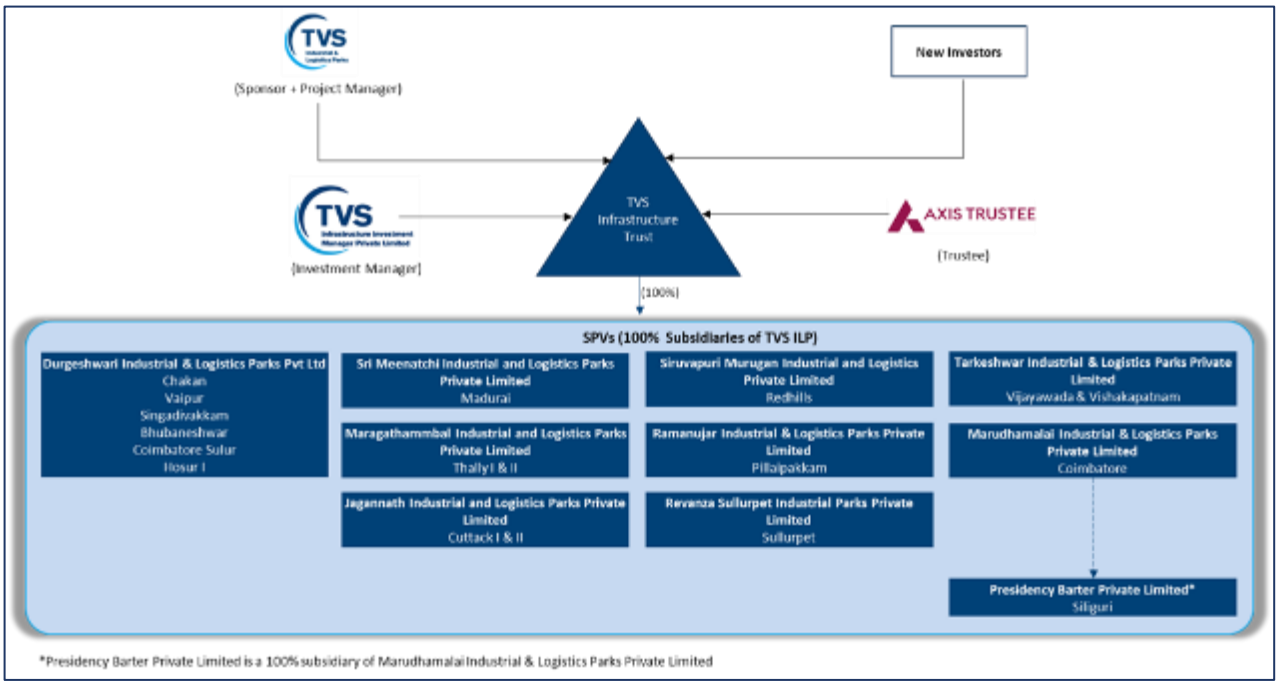
### 7.1.5 Details of the asset including whether the transaction is a related party transaction

The asset is proposed to be acquired from the Sponsor, which is identified as related party under SEBI (InvIT) Regulations.

### 7.1.6 Nature of the interest the InvIT holds or proposes to hold in the asset, percentage of interest of the InvIT in the asset

As per our interaction with the Client, the Client has confirmed that 100% to be held by the InvIT

### 7.1.7 Structure of ownership of the asset by the InvIT



### 7.1.8 Description of key agreements and restrictions relevant to the asset such as terms of concession agreement, power purchase agreements, etc.

As per our interaction with the Client, the Client has confirmed that the same is not applicable to their business

### 7.1.9 Life of the asset (both contractually and physical life requiring maintenance, replacement and right available to extend this life

| S. No | Particulars | Details |
|---|---|---|
| 1 | Remaining Physical Life of the Building asset requiring maintenance | Remaining period of Thally Park I - Block A- 24 years<br>Remaining period of Thally Park I - Block B- 26-27 years<br>Remaining period of Thally Park II- 26-27 years |
| 2 | Remaining Contractual Life of underlying Land | Perpetual as the underlying land is a Freehold Land Parcel |
| 3 | Right to extend the contractual life of land | Not applicable as underlying land is a Freehold Land Parcel |

## 7.2 Site Plan – TVS Industrial and Logistics Park, Hosur – II

This summary report (the "Report") has been prepared by iVAS Partners. ("iVAS") exclusively for TVS Industrial & Logistics Parks Private Limited (the "Instructing Party" or the "Client"), in accordance with the Agreement entered into between iVAS and the Instructing Party dated 1st February 2024 (the "Agreement"). The Report is confidential to the Instructing Party and any other Addressees named herein and the Instructing Party and the Addressees may not disclose the Report unless expressly permitted to do so under the Agreement.

Where iVAS has expressly agreed that persons other than the Instructing Party or the Addressees can rely upon the Report (a "Reliant Party" or "Reliant Parties") then iVAS shall have no greater liability to any Reliant Party than it would have if such party had been named as a joint client under the Agreement.

iVAS's maximum aggregate liability to the Instructing Party and to any Reliant Parties howsoever arising under, in connection with or pursuant to this Report and/or the Agreement together, whether in contract, tort, negligence or otherwise shall be limited as defined under the terms of the Agreement.

iVAS shall not be liable for any indirect, special or consequential loss or damage howsoever caused, whether in contract, tort, negligence or otherwise, arising from or in connection with this Report. Nothing in this Report shall exclude liability which cannot be excluded by law.

If you are neither the Instructing Party, an Addressee nor a Reliant Party then you are viewing this Report on a non-reliance basis and for informational purposes only. You may not rely on the Report for any purpose whatsoever and iVAS shall not be liable for any loss or damage you may suffer (whether direct, indirect or consequential) as a result of unauthorized use of or reliance on this Report. iVAS gives no undertaking to provide any additional information or correct any inaccuracies in the Report.

For the avoidance of doubt, nothing in our Report will constitute any recommendation, investment advice or an offer or solicitation for the purpose of or for sale of any securities, financial instrument or products or other services. Any investors should make their own investment decisions in relation to any investments. If you do not understand this legal notice, then it is recommended that you seek independent legal advice.

# 1 Executive Summary

| | |
|---|---|
| Asset Name: | Red Hills Park (the "Subject Asset") |
| Asset Address: | Survey No: 31/1A1, 31/1A2, 31/2A, 31/1B, 31/2B, 31/2C, 32/3A, 32/3B, 32/3C, 32/5A, 32/5B, 32/8A, 32/8B, 32/8C, 32/8D, 32/2, 32/4, 32/6, 32/7, 32/9, 33/1, 33/2, 33/3, 33/4, 33/5, 33/6, 34/1, 35/2, 35/1A, 35/1B of Sethupakkam Village, 142, 143/1A, 143/1B, 144/1A, 144/2A, 144/2C, 144/3, 144/4, 145 & 146 of Agaram Village, 75, 76, 77/1A3B, 77/2A2B and 77/2A3A2 of Thamaraipakkam Village, Thiruvallur Taluk, Thiruvallur District, Tamil Nadu. |
| Instructing Party: | TVS Industrial & Logistics Parks Private Limited (the "Client") |
| SPV Name: | Siruvapuri Murugan Industrial and Logistics Parks Private Limited |
| Interest Valued: | 100% Freehold interest |
| Land Area: | As per the review of the building plan approval and sanctioned layout provided by the client, it is understood that the total underlying land area of the Subject Asset is approx. 28.6 acres. |
| Brief Description: | Based on the review of sanctioned layout shared by the client and subsequent site visit undertaken, it is understood that the Subject Asset is an operational warehousing facility, located in close proximity to SH-114, Thiruvallur Taluk, Thiruvallur District, Tamil Nadu. The Subject Asset is spread across a land area of approx. 28.6 acres having ten blocks with leasable area of approx. 11,20,135 sft and a cumulative chargeable area of approx. 10,00,829 sft comprising of nine completed blocks and one under construction block. Further, it was observed that the Subject Asset is contiguous in nature, even in terrain, is broadly regular in shape and on the same level as abutting road and adjoining properties. Also, the Subject Asset has limited frontage along the primary access road. The primary access road abuts the Subject Asset in its southern side.<br><br>Please note that as on date of valuation, plans and approvals for the under-development portion viz. 74,253 sft have not been received. However, as discussed with the Client, it is assumed that the approvals would be received for undertaking this development.<br><br>The Subject Asset is a warehousing facility with PEB structures having all requisite facilities such as one DG and Transformer Yard with two transformers (160 KVA, 1250 KVA & 800KVA respectively), two Sewage Treatment Plant – STP (50KLD Daiki tank each), Storm water network (Hume pipe with RCC chamber), Fire Fighting Systems of NFPA/NBC standard, FM2 flooring type with floor load of 5T per sqm and a power load of 500 KVA.<br><br>The Subject Asset is located at a distance of approx. 0 – 1 km from State Highway - 114, approx. 20 – 25 km from Ambattur, approx. 40 – 45 km from Chennai International Airport and approx. 30 – 35 km from Chennai Central Railway station. |

Statement of Assets (sft):

Based on review of rent roll, lease deeds and area statement provided by the client, the Subject Asset has an operational warehousing facility with approx. 10,00,829 sft with 92% occupancy.

| Blocks | Built-Up Area (in sft) | Leasable Area (in sft) | Chargeable Area (in sft) * | Structure Type |

Assumptions, Disclaimers, Limitations & Qualifications

*This valuation report is provided subject to assumptions, disclaimers, limitations and qualifications detailed throughout this report which are made in conjunction with those included within the Assumptions, Disclaimers, Limitations & Qualifications section located within this report.*

*Reliance on this report and extension of our liability is conditional upon the reader's acknowledgement and understanding of these statements. This valuation is for the use of the party to whom it is addressed and for no other purpose. No responsibility is accepted to any third party who may use or rely on the whole or any part of the content of this valuation. The valuer has no pecuniary interest that would conflict with the proper valuation of the asset.*

*Please note that is an executive summary and it is advisable that the report should be the valuation*

Heightened Market Volatility:

We draw your attention to current heightened geopolitical tensions, low economic growth in many major countries, and a "higher for longer" interest rate sentiment which have increased the potential for constrained credit markets, negative capital value movements and continued volatility in some property markets over the short-to-medium term.

Experience has shown that consumer and investor behaviour can quickly change during periods of such heightened volatility. Lending or investment decisions should reflect any heightened level of volatility and potential for changing market conditions. Lending and investment caution is advised in this regard.

It is important to note that the conclusions set out in this report are valid as at the valuation date only. Where appropriate, we recommend that the valuation is closely monitored, as we continue to track how markets respond to evolving events.

Notice

This Executive Summary [/Valuation Certificate] should be read in conjunction with the entire valuation report and should not be relied upon in isolation.

Valuer Declaration:

i. the valuer is competent to undertake the valuation

ii. the valuer is independent and has prepared the report on a fair and unbiased basis

iii. the valuer has valued the assets based on the valuation standards as specified under sub-regulation 10 of regulation 21

Prepared by:

iVAS Partners
Valuer Registration Number: IBBI/RV-E/02/2020/112

Official Signatory:

Name: Mr. Shubhendu Saha
Designation: Partner, iVAS Partners
Valuer Registration Number: IBBI/RV/05/2019/11552

# 2 Instruction

iVAS Partners ( Valuer Registration Number: IBBI/RV-E/02/2020/112; hereinafter referred as 'Valuer') represented by its partner Mr. Shubhendu Saha, a registered valuer under the Companies Act 2013 with IBBI (Valuer Registration Number: IBBI/RV/05/2019/11552) has been instructed by TVS Industrial & Logistics Parks Private Limited (hereinafter referred as the "Instructing Party", or the "Client") to estimate upon the Market Value (MV) of an operational Warehousing asset located at Sethupakkam Village, Agaram Village & Thamaraipakkam Village, Thiruvallur Taluk, Thiruvallur District, Tamil Nadu.

Based on information provided by the client, we understand that the underlying land parcel of the Subject Asset admeasures approx. 28.6 acres with a total leasable area of approx. 11,20,135 sft and a cumulative chargeable area of approx. 10,00,829 sft.

iVAS Partners is referred to as the **'Valuer'** for the purpose of this report.

The details of the Subject Asset under the purview of this valuation exercise are tabulated below:

| Asset Name | SPV/Hold Co | Asset Type | Location | Land area | No. of Blocks |
|---|---|---|---|---|---|
| Red Hills Park | Siruvapuri Murugan Industrial and Logistics Parks Pvt Ltd | Warehouse | Thiruvallur | 28.6 acres | 10 |

*Source: Client Inputs*

*For clarity, we are valuing the Property/ Asset only, not the SPV/Hold Co, which has been provided for reference only.*

## 2.1 Purpose

As per our instructions the valuation is required by the Client for a proposed offer of units through private placement (the "Private Placement") as defined under the Securities and Exchange Board of India (Infrastructure Investment Trust) Regulations, 2014, as amended, together with clarifications, guidelines and notifications issued thereunder, on the Indian stock exchanges. In relation to the Private Placement, the Valuation report, a summary thereof and/or extracts of the report are intended to be included in the offer documents filed by the TVS Infrastructure Trust with the Securities and Exchange Board of India (SEBI) and the stock exchanges where the units of the InvIT are proposed to be listed.

In addition, other documents in relation to the Private Placement such as publicity material, research reports, presentations and press releases will also be prepared, wherein copies or extracts of the Summary Report are intended to be included.

## 2.2 Reliant Party

The Reliant Parties to this Summary Report will be the Client and TVS Infrastructure Trust, TVS Infrastructure Investment Manager Private Limited in its capacity as Investment Manager and TVS Industrial and Logistics Park Private Limited in its capacity as Sponsor for the purpose of the valuation as highlighted in this report. for the purpose of the valuation as highlighted in this report.

The valuation has been prepared strictly and only for the use of the parties as stated above (Reliant Parties) and for the Purpose specifically stated. The Client would make all Reliant Parties aware of the terms and conditions of this agreement under which this exercise is being undertaken and take due acknowledgements to the same effect.

## 2.3 Limitation and Disclaimers to Liability

- Valuer is not operating under any financial services license when providing the Valuation Report ("Valuation Report") and this document does not constitute financial product advice. Investors should consider obtaining independent advice from their financial advisor before making any decision to invest in TVS Infrastructure Trust InvIT.

- This Valuation Report is strictly limited to the matters contained within this report, and are not to be read as extending, by implication or otherwise, to any other matter in any Offer/ Draft Placement Memorandum/ Placement Memorandum/ Final Placement Memorandum ("Offer Document"). Valuer does not approve or endorse any part of the Offer Document. Any reference to the valuer or this Valuation Report within the Offer Document must be read in conjunction with this Valuation Report.

- Valuers disclaims any liability to any person in the event of an omission from, or false and misleading statements included in the Offer Document, other than in respect of the information provided within the Valuation Report. Valuers shall not make any warranty or representation as to the accuracy of the information in any part of the Offer Document, other than in respect of the methodology used for the preparation of the information provided within the Valuation Report.

- The liability of Valuer is limited to the Instructing Party, and any Reliant Party nominated within this report only. No accountability, obligation or liability to any third parties is accepted by the valuer. Valuer disclaims all liability to any investor.

- No liability is accepted for any loss, harm, cost or damage (including special, consequential or economic harm or loss) suffered as a consequence of fluctuations in the infrastructure development subsequent to the date of valuation. Valuer shall not be liable for any indirect, special, punitive or consequential loss or damage howsoever caused, whether in contract, tort or otherwise, arising from or in connection with this Valuation Report.

- Valuer accepts no responsibility or liability whatsoever (i) unless full disclosure of all information and matters that may have an impact upon the value and marketability of the asset has been made by the Instructing Party or (ii) for any matter arising out of or in relation to possible environmental site contamination or any failure to comply with environmental legislation which may affect the value of the asset.

- None of our employees, directors or valuers individually has a contract with the Instructing Party or owes them a duty of care.

- Valuer has prepared the Valuation Report relying on and referring to information provided by the Instructing Party and/or third parties including financial and market information ("Information"). Valuers have assumed that the Information is accurate, reliable and complete and has not independently verified such Information.

- The Valuation Report draws attention to the key issues and considerations impacting value and provides a detailed assessment and analysis as well as key critical assumptions, general assumptions, disclaimers, limitations and qualifications and recommendations. As commercial investments of this nature are inherently complex and the market conditions have changed and/or have been uncertain in recent times, valuer recommends that any references to value within the Offer Document must be read and considered together with the Valuation Report.

- This Valuation Report may not be reproduced in whole or in part without the prior written approval of the valuer.

- The Valuation Report does not purport to contain all the information that a potential investor or any other interested party may require. It does not consider the individual circumstances, financial situation, investment objectives or requirements. It is intended to be used as guide and for information purposes only and does not constitute advice including without any limitation, investment, tax, legal or any other type of advice. The valuations stated are only best estimates and are not to be construed as a guarantee. Potential investors should not rely on any material contained in the Valuation Report as a statement or representation of fact but should satisfy themselves as to its correctness by independent investigation and review of the Valuation Report to understand the assumptions and methodologies stated in the reports.

- For the avoidance of doubt, all references to "Offer Document" herein shall include any offer document, final offer document, prospectus and/or any other accompanying documents required under the SEBI (InvIT) Regulations 2014.

## 2.4 Limitation and Qualification

Valuation has been conducted solely for the benefit and use of the Instructing Party, and any Reliant Party nominated within this Valuation Report. The report and valuations should not be used for any other purpose other than the expressly intended purpose as mentioned in the Valuation Report. They are not to be used, circulated, quoted or otherwise referred to for any other purpose, nor are they to be filed with or referred to in whole or in part in any document without the prior written consent of valuer where such consent to be given at the absolute, exclusive discretion of valuer, which shall not be unreasonably withheld. Where they are to be used with the valuer's written consent, they shall be used only in their entirety and no part shall be used without referring to the whole report unless otherwise expressly agreed in writing by valuer.

Neither the whole nor any part of our report, nor any reference thereto, may be included in any published document, circular or statement, nor published in any way nor disclosed orally or in communication to a third party, including the form and context in which it is to appear without valuer's prior written consent.

The valuer does not purport to provide a site or structural survey in respect of the asset(s) valued. The valuer does not purport to be suitably qualified to provide professional advice in respect of building or site contamination. The Reliant Party(ies) should seek independent advice on these issues. The Services are provided on the basis that the client has disclosed to the valuer all information which may affect the Services. All opinions expressed by the valuer, or its employees are subject to any conditions contained in the valuation report.

## 2.5 Valuer Capability

iVAS Partners, (Valuer Registration Number: IBBI/RV-E/02/2020/112), represented by its partner Mr. Shubhendu Saha (Valuer Registration Number: IBBI/RV/05/2019/11552) delivers independent valuation (across categories viz. land & building and plant & machinery), advisory and technical due diligence services, that combine professional expertise with comprehensive databases, analytics and market intelligence across various asset classes and locations in India.

Mr. Shubhendu Saha is registered as a valuer with the Insolvency and Bankruptcy Board of India (IBBI) for the asset class Land and Building under the provisions of The Companies (Registered valuers and valuation) Rules, 2017 since 15 May 2019. He completed his Bachelor in Planning from the School of Planning and Architecture,

New Delhi in 1997 and master's in client studies from Motilal Nehru National Institute of Technology, Allahabad in 1999.

## 2.6 Scope of Valuation

The valuation has been undertaken to ascertain the market value of the Subject Asset forming part of the proposed TVS Infrastructure Trust InvIT as of the valuation date. The valuer has estimated the market value of each individual asset, not the value of the portfolio of Assets, if sold in one transaction. In consideration of the same, a detailed assessment of the site and surroundings has been undertaken with respect to the prevalent activities, change in dynamics impacting the values and the optimal use of the Subject Asset vis-à-vis the surrounding micromarket, etc.

The primary catchment for the valuation has been defined as Thamaraipakkam micromarket and the surrounding areas. An in-depth research exercise has been conducted in the catchment area of the Subject Asset to ascertain the prevalent activity levels in terms of residential segment in the vicinity of Subject Asset. This has been achieved through interactions with various market players such as local brokers, developers, end-users, etc.

The location, micromarket and catchment area for the Subject Asset is tabulated below:

| Asset Name | SPV/Hold Co | City | Micromarket/ Catchment Area |
|---|---|---|---|
| TVS Industrial & Logistics Parks | Siruvapuri Murugan Industrial and Logistics Parks Pvt Ltd | Thiruvallur | Thamaraipakkam |

This valuation is prepared in accordance with the International Valuation Standards (IVS) 2022.

The team involved in this engagement comprises of valuers registered with IBBI and RICS members with significant experience of valuations in Indian infrastructure and real estate market.

## 2.9 Disclosures

This valuer hereby certify that:

- iVAS Partners (Valuer Registration Number: IBBI/RV-E/02/2020/112), represented by its partner Mr. Shubhendu Saha (Valuer Registration Number: IBBI/RV/05/2019/11552), is registered as a registered valuer entity under Section 247 of the Companies Act, 2013 and The Companies (Registered Valuers and Valuation) Rules, 2017, as amended, and is eligible to be appointed as Valuer under the provisions of the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014, as amended and that the Valuation report has been prepared in accordance with these InvIT Regulations.

- iVAS Partners (represented by Mr. Shubhendu Saha - Partner, iVAS Partners) is not an associate of TVS Industrial & Logistics Parks Private Limited (the "Sponsor"), TVS Industrial and Logistics Park

Investment Manager Private Limited (the "Investment Manager") and TVS Infrastructure Trust (the "Trust")

- The Valuer, as represented by its partner, Mr. Shubhendu Saha, has the required minimum years of experience in the valuation of infrastructure assets, as required under the SEBI (InvIT) Regulations.
- The Valuer has not been involved with the acquisition or disposal within the last twelve months of any of the asset(ies) valued under this Valuation report.
- The Valuer has adequate and robust internal controls to ensure the integrity of the Valuation reports.
- The Valuer has sufficient key personnel with adequate experience and qualification to perform services related to asset valuation at all times.
- The Valuer has sufficient financial resources to enable them to conduct their business effectively and meet their liabilities.
- The Valuer has acquainted itself with all laws or regulations relevant to such valuation.
- iVAS Partners is not prohibited from acting as a valuer under applicable law.
- The valuation of assets undertaken is impartial, true and fair and in accordance with the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014, regulation 21.
- The Valuer and any of its employees/ Valuer involved in valuation of the InvIT assets are not invested in and shall not invest in units of the InvIT or in the assets being valued during the time such entity/person is designated as valuer of such InvIT and not less than 6 months after ceasing to be valuer of the InvIT.
- The Valuer has conducted the valuation of the InvIT assets with transparency and fairness and has rendered and shall render, at all times, high standards of service, exercise due diligence, ensure proper care and exercise professional judgement.
- The Valuer has acted with independence, objectivity and impartiality in performing the valuation.
- The Valuer has discharged its duties towards the TVS Infrastructure Trust InvIT in an efficient and competent manner, utilizing its knowledge, skills and experience in best possible way to complete the said assignment.
- The Valuer has not and shall not accept remuneration, in any form, for performing a valuation of the InvIT assets from any person or entity other than the TVS Infrastructure Trust InvIT or its authorized representatives.
- The Valuer has no present or planned future interest in the Client, Trustee, TVS Infrastructure Trust InvIT, the Sponsor to the TVS Infrastructure Trust InvIT and its sponsor group or the Special Purpose Vehicles (SPVs), holdcos, investment entity and the fee for this Report and the valuation exercise is not contingent upon the values reported herein. Our valuation analysis should not be construed as investment advice; specifically, we do not express any opinion on the suitability or otherwise of entering into any financial or other transaction with the Client or the SPVs/ holdcos/ investment entity.
- The Valuer shall before accepting any assignment from any related party to the TVS Infrastructure Trust InvIT, disclose to the TVS Infrastructure Trust InvIT, any direct or indirect consideration which the Valuer may have in respect of such assignment
- The Valuer shall disclose to the trustee of the TVS Infrastructure Trust InvIT, any pending business transactions, contracts under negotiation and other arrangements with the client or any other party whom the

TVS Infrastructure Trust InvIT is contracting with and any other factors which may interfere with the Valuer's ability to give an independent and professional valuation of the asset; as on the date of valuation, there are no impediments for Valuer to give an independent professional value opinion of the asset

- The Valuer has not made false, misleading or exaggerated claims in order to secure assignments.
- The Valuer has not and shall not provide misleading valuation, either by providing incorrect information or by withholding relevant information
- The Valuer has not accepted and shall not accept an assignment that includes reporting of the outcome based on predetermined opinions and conclusions required by the TVS Infrastructure Trust InvIT
- The Valuer has not accepted the said assignment which interferes with its ability to do fair valuation
- The valuation undertaken by the valuer abides by International Valuation Standards for valuation in compliance with The Companies (Registration of Valuers and Valuation) Rules, 2017
- The Valuer understands that most of these assets are wholly/partly owned/ tenanted by related parties, hence, any transactions related to these assets from the related parties being valued would be related party transactions.
- The Valuer notes that there are encumbrances, however, no options or pre-emptions rights in relation to the assets based on the title report prepared by Cyril Amarchand Mangaldas (hereinafter collectively referred to as 'Legal Counsels'). The Valuer does not have the expertise or the preview to verify the veracity or quantify these encumbrances, disputes or claims. For the purpose of this valuation, the Valuer has assumed that the respective assets have title deeds that are clear and marketable.

## 2.10 Assumptions, Disclaimers, Limitations & Qualifications to Valuation

| | |
|---|---|
| Valuation Subject to Change: | The subject valuation exercise is based on prevailing market dynamics as on the date of valuation and does not take into account any unforeseeable developments which could impact the same in the future |
| Our Investigations: | The valuers are not engaged to carry out all possible investigations in relation to the Subject Assets. Where in our report the valuer identifies certain limitations to our investigations, this is to enable the reliant party to instruct further investigations were considered appropriate or where the valuer recommend as necessary prior to reliance. The valuer is not liable for any loss occasioned by a decision not to conduct further investigations |
| Assumptions: | Assumptions are a necessary part of undertaking valuations. The valuer adopts assumptions for the purpose of providing valuation advice because some matters are not capable of accurate calculation or fall outside the scope of our expertise, or our instructions. Assumptions adopted by iVAS Partners will be formulated on the basis that they could reasonably be expected from a professional and experienced valuer. The Reliant Party accepts that the valuation contains certain specific assumptions, and acknowledges and accepts the risk that if any of the assumptions adopted in the valuation are incorrect, then this may have an effect on the valuation |
| Information Supplied by Others: | The valuations are based on the information provided by the client (TVS Industrial & Logistics Parks). The same has been assumed to be correct and has been used for valuation exercise. Where it is stated in the report that another party has supplied information to the 'Valuer', this information is believed to be reliable, but the 'Valuer' can accept no responsibility if this should prove not to be so<br><br>We have assumed that where any information relevant to our valuation is supplied by the Instructing Party, or by any third party at Instructing Party's instigation, it is correct and comprehensive and can be safely relied upon by us in preparing our valuation.<br><br>We would recommend that before any financial transaction is entered into based on the valuations, you obtain verification of any third-party information provided. We also recommend that you check the validity of the assumptions we have adopted in our report (where we have been unable to verify the facts through our own observations or experience) |

| | |
|---|---|
| Matters which affect or may affect the valuation | If the Reliant Party becomes aware of any matters which affect or may affect the valuation, then valuer must be advised of those matters. The Reliant Party's failure to do so will disentitle the Reliant Party to place reliance on the valuation and reliance must not be placed on the valuation/s under any circumstance |
| Future Matters: | To the extent that the valuation includes any statement as to a future matter, that statement is provided as an estimate and/or opinion based on the information known to the 'Valuer' at the date of this document. The 'Valuer' does not warrant that such statements are accurate or correct |
| Map and Plans: | Any sketch, plan or map in this report is included to assist reader while visualizing the Assets and the valuers assume no responsibility in connection with such matters.<br>Further. all maps and plans quoted in our report are solely for illustration purposes only. While they are extracted from public sources, they may be not to scale. Valuer does not warrant that such dimensions shown are accurate. |
| Site Details: | Based on title due-diligence and other information provided by the client, the valuer understands that the Subject Asset is free from any encroachments and are available as on the date of the valuation |
| Asset Title: | For the purpose of this valuation exercise, the Valuer has relied on the Title Reports prepared by the Legal Counsels for each of the assets and has made no further enquiries with the relevant local authorities in this regard. The Valuer understands that the subject assets may have encumbrances, disputes and claims. The Valuer does not have the expertise or the preview to verify the veracity or quantify these encumbrances, disputes or claims. For the purpose of this valuation, the Valuer has assumed that the respective assets have title deeds that are clear and marketable. We recommend that a suitable asset Lawyer or similar reviews these assumptions and confirm they are reasonable before relying in this report. |
| Environmental Conditions: | In preparing our valuation we assume that no contaminative or potentially contaminative use is, or has been, carried out at the property. We do not undertake any investigation into the past or present uses of either the property or any adjoining or nearby land, to establish whether there is any potential for contamination from these uses and assume that none exists. Should it, however, be subsequently established that such contamination exists at the property or on any adjoining land or that any premises have been or are being put to contaminative use, this may have a detrimental effect on the value reported |
| Town Planning: | The current zoning of the Subject Assets has been adopted on the basis of review of various documents (title deeds & approval documents) provided by the client and the current land use maps for the subject micromarket. The same has been considered for the purpose of this valuation exercise. Further, it has been assumed that the development on the Subject Assets adheres/ would adhere to the development regulations as prescribed by the relevant authorities. The valuer has not made any enquiries with the relevant development authorities to validate the legality of the same.<br>Our valuations are prepared on the assumption that the premises comply with all relevant statutory enactments and Building Acts and Regulations, that a valid and up-to-date Fire Certificate has been issued. We assume that all necessary consents, licenses and authorizations for the use of the asset and the process carried out therein have been obtained and will continue to subsist and are not subject to any onerous conditions.<br>In the event that a legal requisition or other relevant planning information or document is obtained, and the information therein is found to be materially different to the town planning information in the report, the valuation must not be relied upon before first consulting iVAS Partners to reassess any effect on the valuation/s |
| Area: | The total leasable area considered for the purpose of this valuation exercise is based on the inputs shared by the client. It must be noted that the above information has been provided by the client and has been verified based on the approvals/ layout plans/building plans provided by the client. However, the valuer has not undertaken additional verification and physical measurement for the purpose of this valuation exercise |
| Condition & Repair: | In the absence of any information to the contrary, the valuer has assumed that there are no abnormal ground conditions, nor archaeological remains present which might adversely affect the current or future occupation, development or value of the asset; the asset is free from rot, infestation, structural or latent defect; no currently known deleterious or hazardous materials or suspect techniques will be used in the construction of or subsequent alterations or additions to the asset and comments made in the asset details do not purport to express an opinion about, or advice upon, the condition of uninspected parts and should not be taken as making an implied representation or statement about such parts |

| | |
|---|---|
| Not a Structural Survey: | The valuer states that this is a valuation report and not a structural survey |
| Legal: | Unless specifically disclosed in the report, the valuer has not made any allowances with respect to any existing or proposed local legislation relating to taxation on realization of the sale value of the Subject Asset.<br>We do not read legal documentation. Where legal documentation is provided to us, we will have regard to the matters therein but recommend that reliance should not be placed on our interpretation thereof without prior verification by your legal advisors. Unless disclosed to us, we assume that there are no outstanding statutory breaches or impending litigation in respect of the property. We further assume that all documentation is satisfactorily drawn and that unless disclosed to us, there are no unusual or onerous restrictions, easements, covenants or other outgoings which would adversely affect the value of the relevant interest(s). In respect of leasehold Assets, we will assume that your landlord will give any necessary consents to an assignment. Unless notified to the contrary we assume that each property has a good and marketable title and is free from any pending litigation |
| Others: | Considering the unorganized nature of real estate markets in India, all comparable evidence (if any) provided in the valuation report has been limited to the basic details such as the area of asset, rate at which transacted, broad location, etc. other specific details would be provided only if the information is available in public domain |
| Other Assumptions: | Please note that all the factual information such as tenants' leasable area, lease details such as lease rent, lease commencement and lease end date, lock – in period, escalation terms, etc. pertaining to the Subject Assets is based on the rent roll provided by the client and the same has been adopted for the purpose of this valuation exercise. The rent rolls have been cross-checked with copies of the lease deeds on a sample basis as shared with the valuer to verify the authenticity. Any change in the above information will have an impact on the assessed value and in that case the valuer will have to relook at the assessed value. The relevant information sources are represented in section 5.5.<br>All measurements, areas and ages quoted in our report are approximate.<br>We are not advisors with respect to legal, tax and regulatory matters for the transaction. No investigation of the respective Special Purpose Vehicles (SPVs) holding the assets' claim to title of assets has been made for the purpose of this Report and the SPVs' claim to such rights have been assumed to be valid. No consideration has been given to liens or encumbrances against the assets. Therefore, no responsibility is assumed for matters of a legal nature.<br>As per the details provided by the client, the rental revenue has been calculated and other analysis are performed on chargeable area. Further, Leasable area mentioned is in accordance with the information shared by the client comprising rent rolls and lease agreements. |
| Flooding risk: | We have assumed that either there is no flooding risk or, if there is, that sufficient flood defenses are in place and that appropriate building insurance could be obtained at a cost that would not materially affect the capital value. |
| Site Conditions: | We do not commission site investigations to determine the suitability of ground conditions and services, nor do we undertake environmental or geotechnical surveys. We have assumed that these aspects are satisfactory and also that the site is clear of underground mineral or other workings, methane gas or other noxious substances.<br>In the case of property which may have redevelopment potential, we proceed on the basis that the site has load bearing capacity suitable for the anticipated form of redevelopment without the need for additional and expensive foundations or drainage systems (unless stated otherwise) |
| Hazardous & deleterious materials | Unless otherwise noted, we have assumed that the improvements are free of Asbestos and Hazardous Materials, or should these materials be present then they do not pose significant risk to human health, nor require immediate removal. We assume the site is free of subsoil asbestos and have made no allowance in our valuation for site remediation works.<br>Our visual inspection is an inconclusive indicator of the actual condition/presence of asbestos/hazardous materials within the property. We make no representation as to the actual status of the Property. If a test is undertaken at some time in the future to assess the degree, if any, of the presence of any asbestos/hazardous materials on site and this is found to be positive, this valuation must not be relied upon before first consulting iVAS Partners to reassess any effect on the valuation. |

| | |
|---|---|
| | Unless specifically instructed, we do not carry out investigations to ascertain whether any building has been constructed or altered using deleterious materials or methods. Unless specifically notified, our valuation assumes that no such materials or methods have been used |
| Unregistered interests | We have assumed that there are no unregistered interests or interests not captured by the applicable Regulatory Authority in the country which services are to be carried out which may affect market value. In the event that the Reliant Party becomes aware of any further or pending easements, encumbrances or unregistered interests, this valuation must not be relied upon before first consulting iVAS Partners in writing to reassess any effect on the valuation |
| Heightened Market Volatility | We draw your attention to current heightened geopolitical tensions, low economic growth in many major countries, and a "higher for longer" interest rate sentiment which have increased the potential for constrained credit markets, negative capital value movements and continued volatility in some property markets over the short-to-medium term.<br><br>Experience has shown that consumer and investor behaviour can quickly change during periods of such heightened volatility. Lending or investment decisions should reflect any heightened level of volatility and potential for changing market conditions. Lending and investment caution is advised in this regard.<br><br>It is important to note that the conclusions set out in this report are valid as at the valuation date only. Where appropriate, we recommend that the valuation is closely monitored, as we continue to track how markets respond to evolving events. |

# 3 Chennai – Market Structure and Conditions

## 3.1 Information

For the purpose of the valuation exercise, reliance has been made on the deliverables of CBRE South Asia Private Limited, an independent agency appointed by TVS to undertake market research, provide market commentary, and data as a part of a report (the "Industry Assessment Report") for the purpose of this assignment.

## 3.2 Demand and Supply

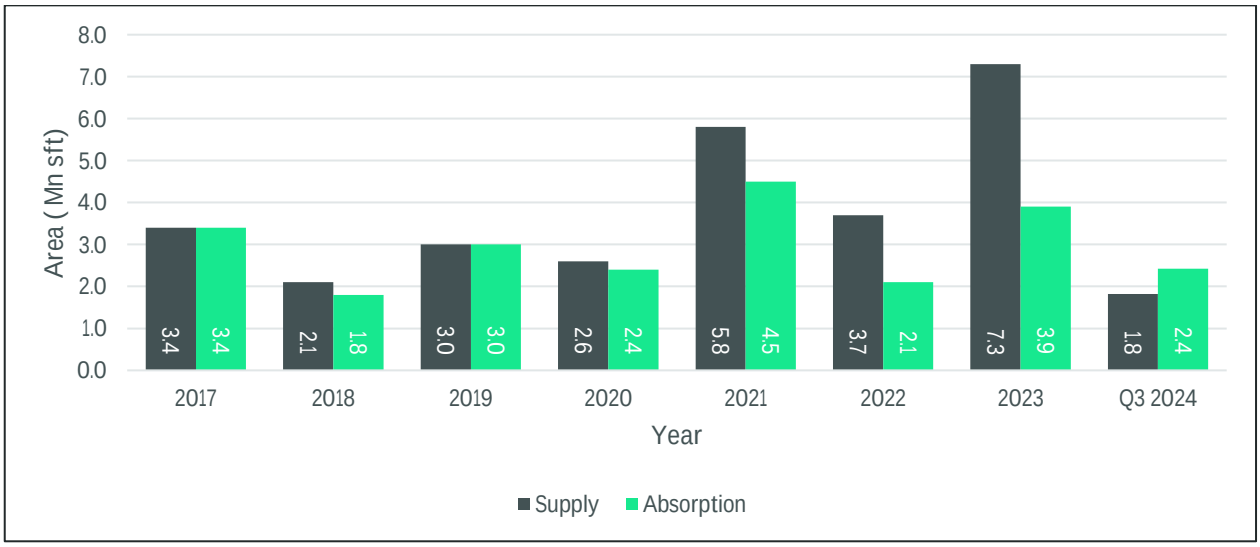
### 3.2.1 Demand and Supply Trends – Chennai and micromarket

Chennai has approx. 46.12 mn sft of operational warehouse supply out of which approx. 41.07 mn sft is occupied. The stretches of NH 16 belt (stretch 1) and Western Vector constitute to approx. 82% of the cities Completed supply. Industrial and Warehousing market of Chennai is primarily driven by the demand arising from Third party logistics, Auto and Auto Components, Electric and Electronic goods, FMCG etc. The city predominantly houses Grade A developments (approx. 51%), Grade B developments (approx. 45%) & Grade C developments (approx. 4%). Because of its close proximity to industrial centres, first-rate infrastructure, government backing, plenty of land, and highly qualified labour, Chennai's Western Cluster is the ideal site for warehouse construction. As a result, this area now has a greater concentration of upcoming warehouse supply than the other Clusters.

| Particulars | Details |
|---|---|
| Cumulative completed warehouse stock (Q4 2023) | Approx. 46.12 msf |
| Cumulative occupied stock (Q4 2023) | Approx. 41.07 msf |
| Current vacancy (Q4 2023) | Approx. 10.9 % |
| Future supply (2024 – 2026) | 5.0 to 5.5 Mn Sft |

*Source: Industry Assessment Report dated of September 30, 2024*

Demand – Supply Dynamics of City: Chennai



*Source: Industry Assessment Report.*

The year-on-year share of Grade-A warehouse supply has grown significantly since 2014, driven by the entry of large-scale organized players like Indospace, ESR, LOGOS, and Ascendas. From 2017 to 2023, supply addition in the overall Chennai warehousing market experienced a Compound Annual Growth Rate (CAGR) of 11-12% due to demand from the Manufacturing Sector. The Western cluster, encompassing Mannur and Oragadam, has been the primary driver due to its strong manufacturing base, particularly in the automotive and ancillary industries.

In the year 2020 there was a slight slump observed in supply and demand owing to worldwide pandemic scenario causing construction delays coupled with deferment in absorption of warehouse space which was already pre-committed in the market.

In year 2021, largest supply and absorption influx was witnessed owing spill over demand of 2020 which was impacted by COVID and coupled with demand from Automobile and 3PL tenant sectors.

Below table highlights the snapshot of the NH-16 warehousing market:

| Completed Supply | Vacancy | Grade A Supply | Grade A Vacancy | Share of Grade A Supply in Chennai | Upcoming Supply | Land Values (INR Mn/acre) |
|---|---|---|---|---|---|---|
| 12.7 Mn sft | 6 - 7% | 1.5 Mn sft | 8- 9% | 6 - 7% | - | 20 – 30 |

The warehousing market of NH 16 Stretch 1 is one of the prominent hubs in the northern cluster of Chennai, predominantly established by organized warehousing parks such as NDR warehouse, Sugal and Damani Warehouse and other local/Home-grown developers present along the stretch. This market constitutes a share of nearly 62% of the completed supply in Northern cluster of Chennai.

NH 16 (Stretch 1) was the first vector to witness warehousing development in Chennai – this was due to the vector's proximity to Chennai port. Currently the vector is primarily characterized by the presence of Grade B & C developments and a very limited Grade A supply. Owing to proximity to city centre and port, 3PL/Logistics, FMCD, Automobile and E- commerce companies are the primary demand drivers in this location ~ contribute to approx. 61% of the demand.

The table below highlights the prominent developments in the subject micromarket:

| Building Name | Year of Establishment | Leasable Area (sft) | Average Lease Rental (INR per sft pm) |
|---|---|---|---|
| NDR Warehouse | 2023 | 760,000 | 21 – 22 |
| Preethi | 2023 | 130,000 | 21 - 22 |
| TVS | 2020 | 737,142 | 20 – 21 |
| Sugal N Damani | 2019 | 220,000 | 19 – 21 |

*Source: Industry Assessment Report*

#### 3.2.1.1 Future Supply

Based on the market research, we understand that the micromarket of NH 16 stretch 1 has an upcoming supply of approx. 1.00 Mn sft expected to be completed in 2024 and 2025. The details of the same are as below:

| Building Name | Year of Completion | Status* | Location | Leasable Area (sft) |
|---|---|---|---|---|
| Sugal & Damani | 2025 | Planned | NH 16 Stretch 1 | 600,000 |
| Primespace Logistics | 2024 | UC | NH 16 Stretch 1 | 100,000 |
| Sugal & Damani | 2024 | UC | NH 16 Stretch 1 | 300,000 |

*Source: Industry Assessment Report * UC – Under Construction*

### 3.2.2 Market Rent

The table below highlights the recent lease transactions in the micromarket:

| Date of Transaction | Chargeable Area (sft) | Lessee | Name of the Building | Total Rent (INR per sft per month) | Description |
|---|---|---|---|---|---|
| Q1, 2023 | 60,000 | Eureka Forbes | Ascendas - Firstspace-Periyapalayam-Phase I-Box 1 | 16 | Base Rental |
| Q3, 2023 | 218,000 | Apollo Tyres | Ascendas - Firstspace-Periyapalayam-Phase II-Box 1 | 20 | Base Rental |
| Q1, 2023 | 150,000 | ProConnect Integrated Logistics | BT Enterprises-Kavaraipettai-Phase I-Box 6 | 17 | Base Rental |
| Q1, 2023 | 40,000 | SF International | GreenBase Hiranandani-Janapanchathiram-Phase I-Box 1 | 20 | Base Rental |
| Q2, 2023 | 45,000 | SF International | House of Hiranandhani-Janapanchathiram-Phase I-Box 2A | 21 | Base Rental |
| Q2, 2023 | 60,000 | Crown Logistics | House of Hiranandhani-Janapanchathiram-Phase I-Box 2B | 21 | Base Rental |
| Q2, 2023 | 40,000 | Ingram Micro Logistics | House of Hiranandhani-Janapanchathiram-Phase I-Box 3A | 21 | Base Rental |
| Q4, 2023 | 60,000 | Exide Industries | Individual Developer-Red Hills-Phase I-Box 1 | 24 | Base Rental |
| Q3, 2023 | 300,000 | Kuehne+Nagel | NDR-Angadu-Phase I-Box 1 | 21 | Base Rental |
| Q1, 2023 | 110,000 | Havells | Sugal & Damani-Boochiathipattu-Phase I-Box 1 | 21 | Base Rental |

| | | | | | |
|---|---|---|---|---|---|
| Q2, 2023 | 200,000 | Parekh Integrated Services | Welspun One-Chinnambedu-Phase I-Box 1 | 22 | Base Rental |

*Source: Industry Assessment Report*

As can be observed from the table above and our interactions with other market players, the rental value in the micromarket ranges between INR 17 - 21/sft/month (base rentals). The variance across rentals is primarily due to factors such as location, accessibility, overall tenant mix, quantum of vacant stock in the development, specifications of the block, park level infrastructure, additional improvements, etc.

## 3.3 Market Outlook

Based on the market research, we understand that the Excellent connectivity, proximity to critical industrial centres, land availability, and the presence of a warehousing ecosystem are the primary demand drivers for this market. There is a projected supply of approximately 1.0 to 1.5 mn sft in NH 16 over the next 2-3 years. Based on the historical absorption observed in the NH 16 market, it is reasonable to anticipate a demand of approximately 0.5 to 0.7 mn sft.

The demand driver for this vector is primarily driven by being located within the expansion of the connectivity to transit corridor viz, Ennore Port. The proximity to critical warehousing hubs and land availability are the primary demand drivers for this market.

Chennai markets have been witnessing linear growth in the supply and demand over the past 4-5 years for warehousing spaces. While the western part of Chennai is considered a prominent segment for Manufacturing the North is chosen by logistic players given its easy access to Chennai port. Redhills by virtue of falling in the northern part of Chennai is gaining traction due to its enhanced connectivity and easy access to the port of Chennai. Enormous small to mid-scale Container Freight Stations, third party logistic centres, small to mid-scale manufacturers have their facilities set up in closer vicinity to Redhills. This is expected to further bolster the growth prospects of NH16 especially for warehousing market given the availability of larger land parcels and development potential.

Further, the Subject Asset is well positioned in the market to attract interest from occupiers owing to its location, specifications and amenities, developer's reputation, etc. Therefore, keeping in perspective the subject property's location, leasing in the micromarket, quantum of leasable area, quality of construction, developer's reputation, type of space, etc., we are of the opinion that the subject property would command a lease rental of approx. INR 18 - 21 / sft / month as on date of valuation.

# 4 Subject Asset – Red Hills Park

## 4.1 Asset Description

The Subject Asset christened 'Siruvapuri Murugan Industrial and Logistics Private Limited' is an operational warehousing facility with total leasable area of 10,75,644 sft located at Survey No: 31/1A1, 31/1A2, 31/2A, 31/1B, 31/2B, 31/2C, 32/3A, 32/3B, 32/3C, 32/5A, 32/5B, 32/8A, 32/8B, 32/8C, 32/8D, 32/2, 32/4, 32/6, 32/7, 32/9, 33/1, 33/2, 33/3, 33/4, 33/5, 33/6, 34/1, 35/2, 35/1A, 35/1B of Sethupakkam Village, 142, 143/1A, 143/1B, 144/1A, 144/2A, 144/2C, 144/3, 144/4, 145 & 146 of Agaram Village, 75, 76, 77/1A3B, 77/2A2B and 77/2A3A2 of Thamaraipakkam Village, Thiruvallur Taluk, Thiruvallur District. The Subject Asset is currently accessible via an Internal Road which emanates from SH – 114.

The Subject Asset is spread across a land area of approx. 28.6 acres having ten blocks with leasable area of approx. 11,20,135 sft and a cumulative chargeable area of approx. 10,00,829 sft comprising of nine completed blocks and one under construction block

Further, it was observed that the Subject Asset is contiguous in nature, even in terrain, is broadly regular in shape and on the same level as abutting road and adjoining properties. Also, the Subject Asset has limited frontage along the primary access road. The primary access road abuts the Subject Asset in its southern side.

Please note that as on date of valuation, plans and approvals for the under-development portion viz. 74,253 sft have not been received. However, as discussed with the Client, it is assumed that the approvals would be received for undertaking this development.

The Subject Asset is located in close proximity to SH – 114, Thiruvallur Taluk, Thiruvallur District. The Subject Asset is a grade A warehouse with PEB structures having all requisite facilities such as one DG and Transformer Yard with two transformers (160 KVA, 1250 KVA & 800KVA respectively), two Sewage Treatment Plant – STP (50KLD Daiki tank each), Storm water network (Hume pipe with RCC chamber), Fire Fighting Systems of NFPA/NBC standard, FM2 flooring type with floor load of 5T per sqm and a power load of 500 KVA.

Moreover, the park offers a range of amenities such as domestic water supply, electric supply, fire protection, etc. The Subject Asset provides street lighting all around the park, and designated parking areas for trucks, Cars and Two wheelers. The park's landscaping provides a sustainable environment, while the asset is monitored completely with CCTV & security control to ensures safety. The prominent tenant in the Subject Asset includes third-party logistics company, e-commerce company, manufacturing company, logistics company and couple of FMCG company.

As at the valuation date the Subject Asset is fully let to six tenants at a total current annual rent of 197.83 Mn (including mezzanine area rentals) and with a Weighted average lease expiry (WALE) of 4.6 years. The main tenant is third part logistics company, with 29% of the leasable area and accounting for approx. 36% of the current rent.

| Brief Description | |
|---|---|
| Particulars | Details |
| Asset Name | Red Hills Park |
| Address | Survey No: 31/1A1, 31/1A2, 31/2A, 31/1B, 31/2B, 31/2C, 32/3A, 32/3B, 32/3C, 32/5A, 32/5B, 32/8A, 32/8B, 32/8C, 32/8D, 32/2, 32/4, 32/6, 32/7, 32/9, 33/1, 33/2, 33/3, 33/4, 33/5, 33/6, 34/1, 35/2, 35/1A, 35/1B of Sethupakkam Village, 142, 143/1A, 143/1B, 144/1A, 144/2A, 144/2C, 144/3, 144/4, 145 & 146 of Agaram Village, 75, 76, 77/1A3B, 77/2A2B and 77/2A3A2 of Thamaraipakkam Village, Thiruvallur Taluk, Thiruvallur District. |
| Land Area | Based on the sanctioned layout shared by the client, it is understood that the Subject Asset spread across a land area of approx. 28.6 acres |
| Leasable Area | 11,20,135 sft |
| Chargeable Area | 10,00,829 sft |
| Built-up Area | 11,20,135 sft |

*Source: Architect certificate, rent roll provided by the Client; (Please note according to the lease agreements provided by the Client, it is understood that the rent is paid on the chargeable area, which has been considered for the valuation exercise).*

** As per the approved plans Block, I form part of Block 1 and all the other blocks from II to X forms part of Block 2.*

**As per the lease deed and the client inputs the leasable area of Block IV is 87,136 sft with warehouse area of 66,484 sft and apron area admeasuring 20,652 sft. Of this, warehouse area of 66,484 sft is considered as chargeable area.*

**As per the lease deed and the client inputs the leasable area of Block VI is 1,31,062 sft with warehouse area of 1,12,290 sft and apron area admeasuring 18,772 sft. Of this, warehouse area of 1,12,290 sft is considered as chargeable area.*

**As per the lease deed and the client inputs the leasable area of Block VII is 87,877 sft with warehouse area of 74,253 sft and apron area admeasuring 13,624 sft. Of this, warehouse area of 74,253 sft is considered as chargeable area.*

**As per the lease deed and the client inputs the leasable area of Block IX is 1,07,590 sft with warehouse area of 81,790 sft and open area admeasuring 25,800 sft. Of this, warehouse area of 81,790 sft is considered as chargeable area.*

**As per the lease deed and the client inputs the leasable area of Block X A is 63113 sft with warehouse area of 43,010 sft, apron area of 10,350 sft, and open admeasuring 10,350 sft. of this portion of warehouse, apron and open area admeasuring 46,881 sft is chargeable.*

### 4.1.1 Site Details

Situation: Subject Asset – 'Red Hills Park' is an operational warehousing facility located in Sethupakkam Village, Agaram Village, and Thamaraipakkam Village, Thiruvallur Taluk, Thiruvallur District, Tamil Nadu.

Location:

The Subject Asset is located in an internal road which emanates from SH-114. The Subject Asset is spread across Sethupakkam Village, Agaram Village, and Thamaraipakkam Village, Thiruvallur Taluk, Thiruvallur District, Tamil Nadu.

The distances from key hubs to the Subject Asset are presented in the table below:

| Landmark | Distance (Km) |
|---|---|
| State Highway – 114 | 0-1 |
| Ambattur | 20-25 |
| Chennai Central Railway Station | 30-35 |
| Chennai International Airport | 40-45 |

*Source: Valuer's research*

Catchment Analysis:

The primary catchment for the purpose of this valuation has been defined as Thamaraipakkam Village and its adjoining micromarkets. The subject micromarkets are characterized by the presence of multiple industrial developments and large tracts of vacant land parcels. Some of the notable industrial developments in the micromarket includes Reliance Warehouse, Flipkart Warehouse, Coca cola DC, and Tube Investments of India Warehouse from established Warehousing and logistic developers such as NDR, Sugal-Damani (SN), TVS Industrial Parks etc. The upcoming peripheral ring road of Chennai City which is connecting Ennore Port in the north with Mahabalipuram in the south through Thatchur, Thiruvallur, Sriperumbudur, Oragadam, Singaperumal Koil spanning a total length of approx. 133.38 kms is expected to be the most preferred route for goods container trucks to avoid the busy city traffic and carry cargo to the Chennai-Ennore port.

Surrounds:

The Subject Asset is surrounded as follows:

- North: Private Property
- South: Access Road
- East: Private Property
- West: Private Property

Potential changes in surroundings:

The subject micromarket is currently characterized by the presence of large tracts of vacant land parcels, a few captive industrial developments and unorganised residential plotted layouts catering to the needs of local populace. The Subject Asset is located in close proximity to upcoming peripheral ring road of Chennai City which is connecting Ennore Port in the north with Mahabalipuram in the south through Thatchur, Thiruvallur, Sriperumbudur, Oragadam, Singaperumal Koil spanning a total length of approx. 133.38 kms. The same is expected to get completed by CY 2025 and upon completion, this will be the most preferred route for goods container trucks to avoid the busy city traffic and carry cargo to the Chennai-Ennore port.

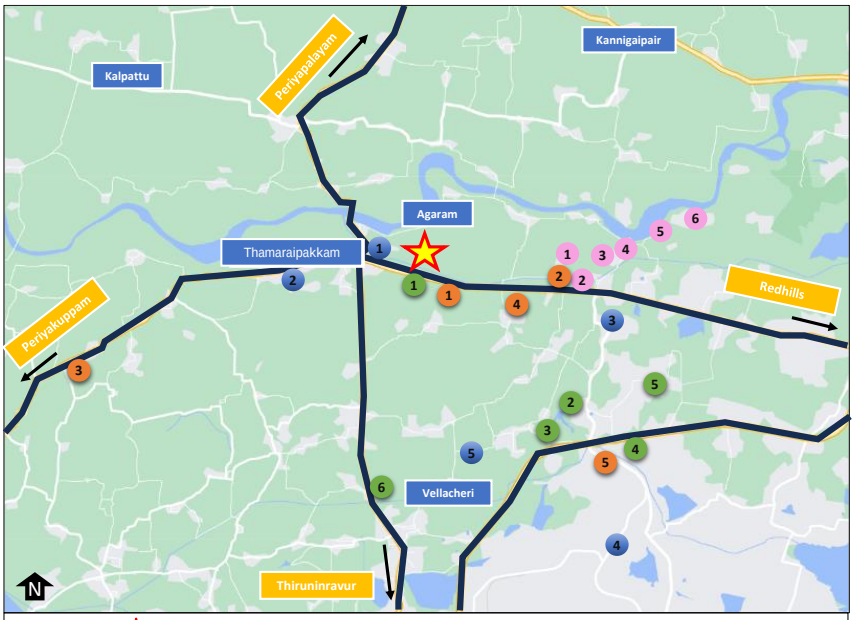
Suitability of existing use:

As per information received from the client, we understand that the Subject Asset is an under-construction warehousing facility. The current use of the asset i.e. 'Warehousing facility' is as per the usage permitted by the Director of Town and Country Planning (DTCP) . We have not verified the same from DTCP or inspected any documentary evidence to the same.

Also considering the nature of Subject Asset coupled with the location and profile of the surrounding developments, the use of the Subject Asset is opined to be in conformity with the envisaged development.

The following map indicates the location of the Subject Asset and surrounding developments:

Location Map for the Subject Asset



Subject Property — Map Not to Scale

Warehouse Developments
1. Flipkart International Pvt Ltd
2. Coco Cola Depot
3. Reliance Jio Warehouse
4. Usha International Warehouse
5. NDR Warehouse
6. LG Warehouse

Shape:

Based on the site plan provided by the client and visual inspection during the site visit, it is understood that the underlying land is broadly regular in shape.

| | |
|---|---|
| Topography: | Based on the site plan and as corroborated with our site visit, the site appears to be even and is at the same level as abutting access roads and adjoining Assets. |
| Frontage: | Based on review of site plan and visual inspection, we understand that the Subject Asset has limited frontage along the primary access road. |
| Accessibility: | Based on the site plan provided by the client and visual inspection, the primary access to the Subject Asset is via an internal road which emanates from SH-114. By virtue of the same the asset had adequate accessibility<br><br>Please refer Section 7.0 Exhibit & Addendums for the site plan of the Subject Asset. |

### 4.1.2 Review of sale deed or Lease agreement

As per the sanctioned layout plan provided by the client, we understand that the exact address of the Subject Asset is spread across Sethupakkam Village, Agaram Village, and Thamaraipakkam Village, Thiruvallur Taluk, Thiruvallur District. Additionally, it is understood that the Subject Asset is owned by TVS Infrastructure Private Limited and is freehold in nature.

### 4.1.3 Title Details

This valuation exercise is based on the premise that the Subject Asset has a clear title and is free from any encumbrances, disputes, claims, etc. Valuer has not made any inquiries in this regard with the relevant legal/ statutory authorities with the understanding this level of due diligence will be undertaken by the appropriate lawyers and then advised to the valuer accordingly. We strongly recommend the assumption the asset has a clear title is confirmed before relying on the report.

### 4.1.4 Town Planning

| | |
|---|---|
| Zoning | As per information received from the client, we understand that the Subject Asset is an operational warehousing facility. The current use of the asset i.e. 'Warehousing facility' is as per the usage permitted by the Director of Town and Country Planning (DTCP). We have not verified the same from DTCP or inspected any documentary evidence to the same.<br><br>For the purpose of this exercise, it has been assumed that all developments (existing / under construction / proposed) adhere to building regulations as prescribed by the relevant authorities. Valuer has not validated the information provided by the client with the relevant development authorities. |
| Approved Usage: | The Subject Asset is an operational warehousing facility. The current use of the Subject Asset is broadly in agreement with the rules and regulations as prescribed by the local development authority. However, valuer has not made any enquiries with the relevant local authorities to validate the same for its specific applicability to the Subject Asset. |
| Restrictions: | As per feedback received from the client, there are no other restrictions on the current use of the asset. |
| Natural or induced hazards: | We have not carried out any investigations or tests or been supplied with any information from Client or from any relevant expert that determines the presence or |

otherwise of pollution or contaminative substances in the Subject Asset or any other land (including any ground water).

For the purpose of assessing the vulnerability of the Subject Asset to any natural or induced disaster the location of the property with respect to risks pertaining to earthquakes, high winds/cyclone and flooding was studied. Thamaraipakkam Village where the Subject Asset is located falls in Seismic Zone II (least active) with low risk. The city faces low risk in terms of high winds or cyclones too given that the subject property falls in high-lying area as per the topographic map. No hazardous activity was noted in the vicinity of the Subject Asset which may expose it for any induced disaster

Approvals: As per the documents provided by Client, we understand that the approvals mentioned in section 4.1.5.1 for the asset have been obtained. Please refer annexures for the details.

For the purpose of this exercise, it has been assumed that all developments adhere to building regulations as prescribed by the relevant authorities. Valuers have not validated the information provided by the client with the relevant development authorities.

### 4.1.5 Statutory Approvals, Sanctions & Approvals

#### 4.1.5.1 Statutory Approvals received and to be received (One-time Sanctions & Periodic Clearances)

As per the review of documents provided by the client, we understand that all requisite approvals have been received for the Subject Asset.

The table below highlights the status of approvals for the Subject Asset:

| Approval/NOC | Status (Applied / Received) | Authority | Date of Issue (DD-MM-YY) | Date of Expiry (DD-MM-YY) |
|---|---|---|---|---|
| Fire NOC | Received | Fire and Rescue Department | 06-11-2019 | NA |
| Ground Water Abstraction NOC | Received | Revenue Divisional Officer, Thiruvallur | 08-12-2023 | NA |
| Land Use Conversion NOC | Received | Collectorate, Thiruvallur | 07-09-2019 | NA |
| Planning Permit | Received | Director of Panchayath Union | 21-03-2022 | NA |
| Consent for Establishment – Air & Water | Received | Tamil Nadu Pollution Control Board, Thiruvallur | 07-09-2021 | 31-03-2026 |

*Source: Approval and NOC documents provided by the client*

#### 4.1.5.2 List of up to date/overdue periodic clearances

As per the details provided by the client, we understand that there are no overdue periodic clearances. Please refer section 7.3 for any further details

### 4.1.6 Area Details, Type and Age of Existing Structures

The table below highlights the age of the completed blocks of the Subject Asset:

| Particulars | Leasable Area (sft) | Operational Area (sft)* | Under-Construction Area (sft) | Year of Completion |
|---|---|---|---|---|
| Poochi Athipet Block I | 3,25,103 | 3,25,103 | N.A. | Q1 2021 |
| Poochi Athipet Block II | 91,847 | 71,195 | N.A. | Q2 2021 |
| Poochi Athipet Block III (Mezzanine) | 7,412 | 7,412 | N.A. | Q2 2021 |
| Poochi Athipet Block IV (open yard) | 66,484 | 66,484 | N.A. | Q2 2021 |
| Poochi Athipet Block V | 98,380 | 74,154 | N.A. | Q2 2021 |
| Poochi Athipet Block VI | 1,31,062 | 1,12,290 | N.A. | Q1 2022 |
| Poochi Athipet Block VII | 87,877 | 74,253 | N.A. | Q1 2022 |
| Poochi Athipet Block VII (open space) | 26,513 | 26,513 | N.A. | Q2 2024 |
| Poochi Athipet Block VIII | 74,253 | - | 74,253 | Q1 2025 |
| Poochi Athipet Block IX | 1,07,590 | 81,790 | N.A. | Q2 2022 |
| Poochi Athipet Block X A | 63,113 | 46,881 | N.A. | Q1 2022 |
| Poochi Athipet Block X B | 40,501 | 40,501 | N.A. | Q1 2022 |
| Total Area | 11,20,135 | 9,26,576 | 74,253 | |

*Source: Architect certificate, rent roll provided by the Client; (Please note according to the lease agreements provided by the Client, it is understood that the rent is paid on the chargeable area, which has been considered for the valuation exercise), *Area mentioned is chargeable area.*

The table below highlights the area details of the Subject Asset:

| Particulars | Leasable Area (sft) | Chargeable Area (sft) |
|---|---|---|
| Poochi Athipet Block I | 3,25,103 | 3,25,103 |
| Poochi Athipet Block II | 91,847 | 71,195 |
| Poochi Athipet Block III (Mezzanine) | 7,412 | 7,412 |
| Poochi Athipet Block IV (open yard) | 66,484 | 66,484 |
| Poochi Athipet Block V | 98,380 | 74,154 |
| Poochi Athipet Block VI | 1,31,062 | 1,12,290 |
| Poochi Athipet Block VII | 87,877 | 74,253 |
| Poochi Athipet Block VII (open space) | 26,513 | 26,513 |
| Poochi Athipet Block VIII | 74,253 | 74,253 |
| Poochi Athipet Block IX | 1,07,590 | 81,790 |

| | | |
|---|---|---|
| Poochi Athipet Block X A | 63,113 | 46,881 |
| Poochi Athipet Block X B | 40,501 | 40,501 |
| Total Area | 11,20,135 | 10,00,829 |

*Source: Architect certificate, rent roll provided by the Client; (Please note according to the lease agreements provided by the Client, it is understood that the rent is paid on the chargeable area, which has been considered for the valuation exercise).*

### 4.1.7 Site Services and Finishes

| Particulars | Completed Blocks | Under Construction Blocks |
|---|---|---|
| Handover condition | Warm Shell | N.A. |
| Type of Structure | PEB | N.A. |
| Firefighting services | Provided. Fire NOC Available | N.A. |
| Lift provision | No Lifts | N.A. |
| Floor Finish | FM2 Concrete floor | N.A. |
| Floor Strength | 5 MT/Sqm | N.A. |

*Source: Information provided by the client, Site visit*

### 4.1.8 Condition & Repair

Based on information provided by the client and corroborated with our visual inspection during the site visit, it is understood that the Subject Asset is in good condition and is maintained well.

### 4.1.9 Asset Photographs

Please refer to the asset photographs highlighted below:

### 4.1.10 Details of the asset including whether the transaction is a related party transaction

Please refer to the Annexure section 7.1

### 4.1.11 Nature of the interest the InvIT holds or proposes to hold in the asset, percentage of interest of the InvIT in the asset

Please refer to the Annexure section 7.1

### 4.1.12 Structure of ownership of the asset by the InvIT

Please refer to the Annexure section 7.1

### 4.1.13 Description of key agreements and restrictions relevant to the asset such as terms of concession agreement, power purchase agreements, etc.

Please refer to the Annexure section 7.1

### 4.1.14 Life of the asset (both contractually and physical life requiring maintenance, replacement and right available to extend this life

Please refer to the Annexure section 7.1

### 4.1.15 Valuation of the asset in the previous 3 years

As of the date of this valuation report, the Subject Asset is not part of the Infrastructure Investment Trust (InVIT)

# 5 Valuation Approach & Methodology

## 5.1 Scope of Valuation

The valuation exercise is to assess the Market Value (MV) of the Subject Assets for the purpose of the offer of units through private placement of TVS Infrastructure Trust InvIT under the SEBI (Infrastructure Investment Trust) Regulations, 2014, as amended. The valuations have been conducted in accordance with the IVSC International Valuation Standards, (effective 31 January 2022) and in accordance with the requirements of the SEBI (Infrastructure Investment Trust) Regulations, 2014, as amended from time to time.

This valuer has assessed the Market Value of each individual Subject Asset, not the value of the portfolio, if all Assets were sold in one transaction. Where a summation of the individual Assets is provided, this is purely for reference only and should not be construed as the value of the portfolio. Kindly refer to the summary report section 1.0 for list of Subject Assets forming part of the portfolio.

## 5.2 Basis of Valuation

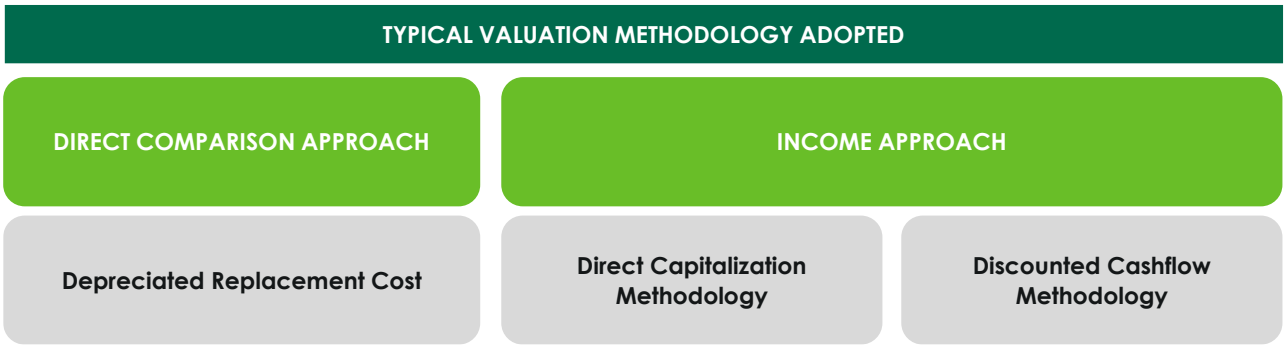
The valuations have been conducted in accordance with the IVSC International Valuation Standards issued in July 2021, effective from 31 January 2022), Regulation 21 and Schedule V of the SEBI (InvIT) Regulations, 2014 and is in compliance with the International Valuation Standards (IVS). The valuation exercise has been undertaken by appropriately qualified valuer and will be assessing the Market Value of the ownership Interest in the Subject Asset.

As per the Valuation and Guidance Notes issued by the IVS, the market value is defined as:

***'The estimated amount for which** an asset or liability should exchange on the valuation date between a **willing buyer and a willing seller in an arm's length transaction, after proper marketing and where the parties had each acted knowledgeably, prudently and without compulsion'.***

## 5.3 Approach and Methodology

The purpose of this valuation exercise is to estimate the Market Value (MV) of the Subject Assets. Market Value can be derived through the following Methodologies:



### 5.3.1 Direct Comparison Approach

Under the 'Direct Comparison Approach', the asset is compared to similar Assets that have actually been sold in an arms-length transaction or are offered for sale (after deducting for value of built-up structure located thereon). The comparable evidence gathered during research is adjusted for premiums and discounts based on asset specific attributes to reflect the underlying value of the asset.

The value of the land component under this approach has been assessed based on comparison with similar Assets that have actually been sold in arms-length transaction or are offered for sale in the subject micromarket.

Based on our interactions with the local market players, we understand that the market has few Assets of comparable sizes which are currently available for sale in the market. Therefore, the value of the subject land parcel has been estimated through a direct comparison approach utilizing the seller quotes available in the market as well as few reported transactions.

The values for these comparable Assets are further adjusted for various premiums and discounts (viz. towards size, location, accessibility, frontage, visibility, ownership status, profile of the surrounding developments, zoning, etc.) vis-à-vis the Subject Asset to determine the achievable market value for the Subject Asset.

Based on the market research undertaken, it is understood that the capital values for land parcels in the subject micromarket are primarily governed by parameters which are as follows:

- Location & profile of surrounding developments – Based on our market study, it was identified that land parcels located in proximity to highway would command higher capital values in comparison to the land parcels located further away on internal village roads. In addition, based on our interactions with local market players, we understand that the land parcels located in proximity to existing village catchments command higher capital values as compared to those located further away from the existing village catchments.
- Size of the land parcel – Based on our interactions with the local market players, it was understood that the small-medium sized land parcels (approx. 1 – 5 acres) attract almost negligible discount on account of lesser quantum of investment involved and a shorter marketing timeframe required for disposal of such land parcels.
- Accessibility, frontage and visibility – Based on our market research, it was observed that the land parcels having superior frontage along the access road or by virtue of it being a two side or a three-side corner plot would command a premium vis-à-vis the other Assets. Further, it was observed that the Assets located on wider access roads command premium vis-à-vis Assets located along narrow access roads.
- Zoning and requisite clearances - Based on our market research, it was observed that the land parcels with industrial / multipurpose / residential use zoning would command a premium in comparison to the land parcels under agricultural use /conservation zone. Further, we understand that the land parcels with the requisite clearances in place such as NALA (Non-Agricultural Land Assessment) conversions, etc. command a premium over the agricultural land parcels.
- Physical conditions of the asset/ownership - Based on our market research, it was observed that the land parcels with site improvements such as compound wall, bore well, etc. command a premium. In addition, Assets with single owner would attract a premium as compared to the Assets with multiple owners.

### 5.3.2 Income Approach

The income approach is based on the premise that value of an income - producing asset is a function of future benefits and income derived from that asset. There are two commonly used methods of the income approach in infrastructure valuation namely, direct capitalization and discounted cash flow (DCF).

A. Direct Capitalization Method

Direct capitalization involves capitalizing a 'normalized' single - year net income estimated by an appropriate yield. This approach is best utilized with stable revenue producing assets, whereby there is little volatility in the net annual income.

B. Discounted Cash Flow Method

A Discounted Cash Flow Analysis is based upon estimates of future financial performance. The methodology begins with a set of assumptions regarding income and expenses of the Asset and future economic conditions in the local market. The income and expense figures are assessed with adjustments for estimated changes in economic conditions and any contractual commitments. The resultant value is considered the best estimate but is not to be construed as a prediction or guarantee and is fully dependent upon the reasonableness of the assumptions with respect to income, expenses, and market conditions, which are based on information available as at the valuation date.

## 5.4 Approach and Methodology Adopted

Considering the objective of this exercise, the nature of asset involved and the purpose of the valuation viz. to assess the Market Value (MV) of the Subject Assets for the purpose of the offer of units through private placement of TVS Infrastructure Trust InvIT under the SEBI (Infrastructure Investment Trust) Regulations, 2014 'Regulation', we have adopted the methodology considering Chapter 1 section 2 point (i) of the InvIT regulation, which states that, the assets forming part of InvIT should meet among the below criteria as follow:

1. The infrastructure asset has achieved the commercial operations date as defined under the relevant asset agreement including concession agreement, power purchase agreement or any other agreement of a similar nature entered into in relation to the operation of the asset or in any agreement entered into with the lenders
2. The infrastructure asset has received all the requisite approvals and certifications for commencing operations
3. The infrastructure asset has been generating revenue from operations for a period of not less than one year

Hence owing to the above stated conditions, we are of the opinion that the income approach which is appropriate to value such asset based on the premise that value of an income - producing asset is a function of future benefits and income derived from that asset.

Under the Income approach, Discounted Cash Flow Analysis is based upon estimates of future financial performance which also considers the income and expenses of the Asset accounting for the future fluctuations due to expected market dynamics.

Hence, for the purpose of this valuation exercise, we have adopted Discounted Cash Flow Method (using rent reversion approach).

For the purpose of this valuation exercise, we have analysed the tenancy details provided by the client to identify variances vis-à-vis prevailing marginal rent. In the event the contracted rent is within the threshold (15.0%), we have assumed that the tenant will continue on the current agreed terms. In the event the rent is higher than the marginal rent threshold, we have assumed that the lease would be renegotiated to marginal rent terms (at the time of the lock-in expiry, next escalation, etc.).

Asset-specific Review:

1. As the first step to the valuation of the asset, the lease deeds were reviewed to identify tenancy characteristics with respect to contractual commitments and commercial covenants.
2. Title documents and architect certificates were reviewed for validation of area details, ownership of the asset.

3. The Valuer has undertaken physical site inspections to assess the status of the subject assets in terms of their physical configuration, capacity and upkeep.

Micromarket Review/Market Rental Assessment:

The primary catchment for the purpose of this valuation has been defined as Thamaraipakkam Village and its adjoining micromarkets. The subject micromarkets are characterized by the presence of multiple industrial developments and large tracts of vacant land parcels. Some of the notable industrial developments in the micromarket includes Reliance Warehouse, Flipkart Warehouse, Coca cola DC, and Tube Investments of India Warehouse from established Warehousing and logistic developers such as NDR, Sugal-Damani (SN), TVS Industrial Parks etc. The upcoming peripheral ring road of Chennai City which is connecting Ennore Port in the north with Mahabalipuram in the south through Thatchur, Thiruvallur, Sriperumbudur, Oragadam, Singaperumal Koil spanning a total length of approx. 133.38 kms is expected to be the most preferred route for goods container trucks to avoid the busy city traffic and carry cargo to the Chennai-Ennore port.

A primary research exercise has been carried out in the catchment area to ascertain the prevalent activity levels in terms of quoted / transacted evidence of the recent leasing activity for warehousing facilities. This has been achieved through interactions with various market players such as local brokers, developers, owners, etc. Based on the same, we understand that variance across rentals is primarily due to factors such as type of asset, developer brand, location, accessibility, overall tenant mix, quantum of vacant stock in the development, specifications, and additional improvements, etc.

For the micromarket review and market rental assessment we have relied upon the report on 'Market Analysis of Warehousing assets in Identified locations pan India' prepared by CBRE South Asia Private Limited, hereafter referred as 'CBRE' (an independent agency appointed by the client to undertake market research, provide market summary and data for the purpose of this assignment)

Cash Flow Assertions:

We have assessed future cash flows from the Subject Assets based on existing lease terms and contractual lease payments for the operational area until the expiry of the leases or re-negotiation (using the variance analysis), whichever is earlier.

Based on a detailed review of the leases for the Subject Asset, we noted that it is approx. 92% leased out as on date of valuation. Since the infrastructure industry is dynamic and is influenced by various factors (such as existing supply, tenants looking at spaces, quality of spaces available in the market, overall health of the economy, existing rent, future growth plans, etc.) at a particular point in time, negotiated rent may tend to move away from the prevalent market rent over a period of time. It has also been witnessed that the market rent for some Assets or micromarkets increase or decrease at a rate significantly different from those agreed to in initial leases. These factors reinforce the need to review each of these leases in isolation to assess the intrinsic value of the asset under review.

Post this, the lease terms have been aligned with market rentals. For vacant area and under-construction/proposed area, the valuer has asserted the market rent led cash flows factoring appropriate lease-up time frame for vacant/under-construction/proposed area. These cash flows have been asserted for 10-year duration from the date of valuation and for 11th year (for assessment of terminal value). These future financial benefits are then discounted to a present-day value (valuation date) at an appropriate discount rate.

## 5.5 Information Sources for Valuation

Asset related information referred to for the valuation exercise have been provided by the client unless otherwise mentioned. We have assumed the documents to be a true copy of the original. The rent rolls have been cross-checked with the lease deeds on a sample basis to verify the authenticity. Additionally, wherever possible, we have independently revalidated the information by reviewing the originals as provided by the client.

Table below highlights various data points referred throughout the course of this valuation report and the data sources for the same:

Table below highlights various data points referred throughout the course of this valuation report and the data sources for the same. Asset related documents referred to in the table below have been provided to the valuer by the client unless otherwise mentioned. The valuer has assumed the documents to be a true copy of the original.

# 6 Value Assessment

## 6.1 Value Assessment

### 6.1.1 Adopted Methodology

We acknowledge that the approaches to valuation differ considerably and that for a particular purpose, alternative approaches to the valuation can be utilized. Considering the objective of this exercise and the nature of asset involved, the value of the Subject Asset has been assessed through the following approaches:

| Asset Name | Valuation Methodology (Completed Blocks) | Valuation Methodology (Under-construction Blocks) |
|---|---|---|
| Red Hills Park | Discounted Cash Flow (Using rent reversion approach) | Discounted Cash Flow |

The sections below highlight the detailed valuation workings for the Subject Asset.

## 6.2 Operational Assumptions

### 6.2.1 Area statement

Based on information from inputs shared by the client, we understand that Subject Asset is an operational warehousing facility. Further, the table below highlights the area configuration of the Subject Asset:

| Particulars | Total Area (sft)[2] | Operational Area (sft)* |
|---|---|---|
| Poochi Athipet Block I | 3,25,103 | 3,25,103 |
| Poochi Athipet Block II | 91,847 | 71,195 |
| Poochi Athipet Block III (Mezzanine) | 7,412 | 7,412 |
| Poochi Athipet Block IV (open yard) | 66,484 | 66,484 |
| Poochi Athipet Block V | 98,380 | 74,154 |
| Poochi Athipet Block VI | 1,31,062 | 1,12,290 |
| Poochi Athipet Block VII | 87,877 | 74,253 |
| Poochi Athipet Block VII (open space) | 26,513 | 26,513 |
| Poochi Athipet Block VIII | 74,253 | 74,253 |
| Poochi Athipet Block IX | 1,07,590 | 81,790 |
| Poochi Athipet Block X A | 63,113 | 46,881 |
| Poochi Athipet Block X B | 40,501 | 40,501 |
| Total Area | 11,20,135 | 10,00,829 |

*Source: Architect certificate, rent roll provided by the Client; (Please note according to the lease agreements provided by the Client, it is understood that the rent is paid on the chargeable area, which has been considered for the valuation exercise), *Area mentioned in chargeable area*

[2] *As per the details provided by the client, the rental revenue has been calculated and other analysis are performed on chargeable area. Further, leasable area mentioned is in accordance with the information shared by the Client comprising rent rolls and lease agreements.*

| Tenant | Chargeable (sft) | % of area leased | Total In-place rental (INR psf pm) | Total In-place rental (INR Mn pm) |
|---|---|---|---|---|
| Red Hills Park | 10,00,829 | 100% | 17.1 | 15.8 |

*Source: Lease deed*

## 6.3 Tenancy Analysis

### 6.3.1 Historical Occupancy Rates

The table below highlights the historical occupancy rates at the subject development:

| Particulars | Occupancy % |
|---|---|
| Occupancy (completed blocks) | 100% |
| Pre-Commitment (under construction blocks) | N. A |

*Source: Information provided by the client;*

### 6.3.2 Lease Rent Analysis

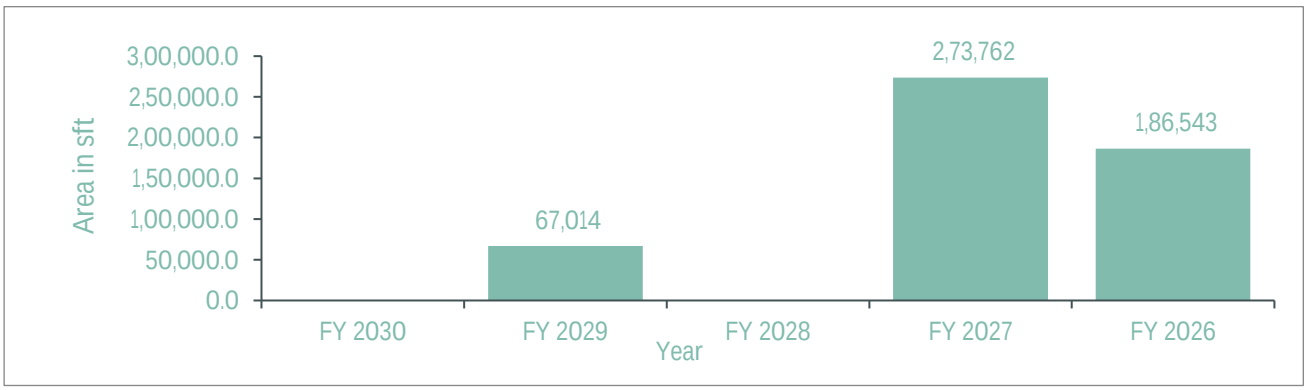
Based on the review of the Lease Deed provided by the client, we understand that the lease agreements were signed between TVS infrastructure Pvt ltd and the tenants, details of which are mentioned below:

| Tenant | Particulars | Details |
|---|---|---|
| Third Party Logistics Company | Lease Commencement Date | 21st April 2021 |
| | Rent Commencement Date | 21st July 2021 |
| | Lock-in Period | 4 Years |
| | Lease Tenure/Remaining Tenure | 9.9/6.5 Years |
| | Lease Rent Escalation Terms | 3% every year |
| E-Commerce Company | Lease Commencement Date | 1st October 2021 |
| | Rent Commencement Date | 1st October 2021 |
| | Lock-in Period | 3 Years |
| | Lease Tenure/Remaining Tenure | 6.0/3.0 Years |
| | Lease Rent Escalation Terms | 4% every year |
| Logistics Company | Lease Commencement Date | 1st Feb 2022 |
| | Rent Commencement Date | 15th May 2022 |
| | Lock-in Period | 3 Years |
| | Lease Tenure/Remaining Tenure | 5.0/2.3 Years |
| | Lease Rent Escalation Terms | 5% every year |
| Logistics Company | Lease Commencement Date | 22nd March 2022 |
| | Rent Commencement Date | 15th June 2022 |
| | Lock-in Period | 2 Years |
| | Lease Tenure/Remaining Tenure | 5.0/2.4 Years |
| | Lease Rent Escalation Terms | 5% every year |
| Logistics Company | Lease Commencement Date | 9th May 2024 |
| | Rent Commencement Date | 9th May 2024 |
| | Lock-in Period | 2 Years |
| | Lease Tenure/Remaining Tenure | 5.0/4.6 Years |
| | Lease Rent Escalation Terms | 5% every year |
| Logistics Company | Lease Commencement Date | 15th April 2022 |
| | Rent Commencement Date | 8th May 2022 |
| | Lock-in Period | 5 Years |
| | Lease Tenure/Remaining Tenure | 5.0/2.5 Years |
| | Lease Rent Escalation Terms | 5% every year |
| FMCG Company | Lease Commencement Date | 22nd June 2024 |
| | Rent Commencement Date | 22nd June 2024 |
| | Lock-in Period | 2 Years |
| | Lease Tenure/Remaining Tenure | 3.0/2.7 Years |
| | Lease Rent Escalation Terms | 5% every year |
| FMCG Company | Lease Commencement Date | 1st October 2024 |
| | Rent Commencement Date | 1st October 2024 |
| | Lock-in Period | 2 Years |
| | Lease Tenure/Remaining Tenure | 5.0/5.0 Years |
| | Lease Rent Escalation Terms | 5% every year |

*Source: Lease Deed and Client Inputs*

### 6.3.3 Lease Expiry Profile

The Weighted Average Lease Expiry (WALE) of the Subject Asset is 4.6 years, with 50% of occupied area expiring in FY 2027 as shown in the chart below.



*Source:* Valuer Workings; The expiry profile has been plotted only for the warehouse areas

### 6.3.4 Tenant Obligations

Based on the review of the lease deed, we understand that the operational expenses listed below will have to be borne by the Tenant.

| S. No | Description of operational expenses |
|---|---|
| 1 | Regular Maintenance |
| 2 | Taxes |
| 3 | Insurance |
| 4 | General Wear and Tear |
| 5 | Other Expenses such as utility charges towards any Governmental authorities or Concerned service provider. |

*Source: Client Inputs*

Contractual Rental Details

| Tenant | Chargeable Area (sft) | % of area leased | Total In-place rental (INR psf pm) | Total In-place rental (INR Mn pm) |
|---|---|---|---|---|
| Red Hills Park | 10,00,829 | 100% | 17.1 | 15.8 |

*Source: Leased Deed and Information provided by the client*

Based on the recent transaction witnessed in the micromarket as highlighted in the table above and transaction witnessed in the Subject Asset, we understand that the Subject Asset would command a marginal rental (for warehouse space) of INR 20.0 – 22.0 per sf per month (say an average rental of INR 21.0 per sf per month of leasable area).

### 6.3.5 Construction Timelines

#### 6.3.5.1 Completed Blocks

The asset was completed in a phase-wise manner with Block 1 completed and operationalised during Q1 2021, Block 2, 3, 4 & 5 completed and operationalised during Q2 2021, Block 6, 7 & 10 completed and operationalised during Q1 2022, Block 9 completed and operationalised during Q2 2022, and Block 8 completed and operationalised during Q2 2024.

#### 6.3.5.2 Under-Construction/ Proposed Blocks

Based on the information provided by the client, the following timelines for construction have been adopted for the purpose of this valuation exercise

| Block | Leasable/ Developable Area (sft) | Construction Commencement | Construction Completion |
|---|---|---|---|
| Poochi Athipet Block VIII | 74,253 | Q2 2024 | Q1 2025 |

*Source: Client Inputs*

### 6.3.6 Absorption/ Leasing Velocity and Occupancy Profile

#### 6.3.6.1 Completed Blocks

As per the rent roll provided by the client, we understand that the competed blocks have an occupancy of 92% as on date of valuation. Further, in order to arrive at the future absorption levels at the Subject Asset, we have analysed the historical demand and supply trends coupled with the estimation of future supply proposed to be introduced in the subject micromarket.

#### 6.3.6.2 Under-Construction/ Proposed Blocks

As per the rent roll provided by the client, we understand that the under-construction block hasn't been occupied as on date of valuation and the same is expected to occupy by Q1, 2025.

### 6.3.7 Revenue Assumptions (Warehouse + Industrial)

#### 6.3.7.1 Warehouse Component

For the purpose of this valuation exercise, the lease rent adopted for the area already leased is based on the rent roll/lease deeds shared by the client. Further, the Valuer have undertaken an in-depth market research exercise to assess the prevailing rent values in the subject micromarket. The same has been adopted for the vacant space for the purpose of this valuation exercise.

Based on our market study and based on the analysis of the rent roll provided by the client, following rent has been adopted for the purpose of value assessment of the completed blocks at the Subject Asset. The detailed rent assessment workings are highlighted in the lease rent analysis section presented above.

| Component | Leasable Area (sft) | Chargeable Area (sft) | Leased Area - Chargeable (sft) | Basis | Rent Adopted (INR psf pm) |
|---|---|---|---|---|---|
| Warehouse | 11,20,135 | 10,00,829 | 9,26,586 | Current Rent for Leased area | 17.1 |
| | | | | Market rent for reversion/ vacant area | 21.0 |

*Source: Lease deed provided by the client; Valuer's assessment*

The above market rent assumption is adopted for the entire Subject Asset. In addition to undertaking an in-depth market analysis, a detailed analysis of the rent rolls was also undertaken to understand aspects such as area occupied, current rent and expiry analysis of the key tenants in the park.

For the purpose of this valuation exercise, the lease rent adopted for the area already leased is based on the lease deed shared by the client. Further, an in-depth market research exercise has been undertaken to assess the expected economic rental value of the Subject Asset.

Based on our market study, we understand that the contracted rental of the Subject Asset is in line with the expected economic rental values. Hence, we have considered contracted rentals for the purpose of value assessment at the Subject Asset:

### 6.3.8 Rent Escalation

Based on an analysis of existing lease rolls and recent leasing at the Subject Asset, it was observed that the typical escalation clause in the Subject Asset is approx. 5.0% every year, which is in-line with the trend observed in the market. The same has been adopted for the vacant area and renewals at the Subject Asset.

Escalation on renewal - Based on the analysis of terms of lease deed, it was observed that the typical escalation clause in the Subject Asset is 5% per annum, which is in-line with the trend observed in the market. The same has been adopted by the valuer.

| Particulars | Unit | Details |
|---|---|---|
| Lease Rental Escalations | % p.a. | 5.0% |

*Source: Valuer's assessment*

Market Rent Escalation - Based on the trend observed in the market and based on review of the Industry Assessment report, the valuer has considered a market escalation of 5% per annum effective from the date of valuation. The assumption for market rent for this appraisal exercise is as follows:

| Particulars | Sept 2024 | March 2025 | March 2026 | March 2027 Onwards |
|---|---|---|---|---|
| Market Rent Escalation – Completed Portion | 17.93 | 18.82 | 19.76 | 5% escalation year on year |
| Market Rent Escalation – UC Portion | 17.93 | 18.82 | 19.76 | 5% escalation year on year |

*Source: Valuer's assessment*

### 6.3.9 Other Revenues

In addition to lease rent revenues, assets typically have additional sources of revenue. These include revenues on account of security deposit (refunded at the time of lease expiry / exit), other miscellaneous income etc.

The assumptions considered for the aforementioned revenue heads for the purpose of this valuation exercise are based on the rent roll & lease deeds provided by the client. The same has been cross-checked with the prevailing market norms for other revenues and were found to be broadly in line.

The assumptions adopted for other revenues are as tabulated below:

| Nature of Income | Details | Units |
|---|---|---|
| Security Deposit (For vacant spaces) | 6.0 | No. of months' warm shell rental |
| CAM Income (For vacant area and Development component) | 1.0 | INR per sft per month |
| Other Income (For vacant area and Development component) | 3.0% | % of total revenue |

*Source: Valuer's assessment*

## 6.3.10 Capital Expenditure

### 6.3.10.1 Development Cost

Based on visual inspection during the site visit and information provided by the client, we understand that all the blocks construction are completed and fully operational.

### 6.3.10.2 Major Repair and improvements

As per information provided by the client, we understand that there are no major repairs and improvement proposed in the said asset.

## 6.3.11 Operating Cost

A development typically has few recurring operation expenses required for the upkeep running of the development. Based on information provided by the client and market assessment, following recurring expense assumptions have been adopted for the purpose of this valuation exercise:

In addition to capital expenditure, an asset typically has few recurring operational expenses required for the up-keep and running of the asset. Based on information provided by the client and market assessment, following recurring expense assumptions have been adopted for the purpose of this valuation exercise.

Completed Blocks

| Nature of Expense | Details |
|---|---|
| Asset Management Fee^ | 3.0% of rental income |
| Property Tax* | INR 0.60 Mn |
| Insurance* | INR 2.12 Mn |
| Vacancy Allowance during operations | 1.0% |
| Vacancy Allowance on Exit | 2.5% |
| Refurbishment Reserve | 1.5% of rental income |
| Repair Margin | 0.5% of rental income |

*Source: Client input; Valuer's assessment; *As per the lease terms and the information provided by the client, Asset tax and insurance are to be borne by the client; ^fees has been considered as below the NOI line item.*

Under- Construction Blocks

| Nature of Expense | Details |
|---|---|
| Asset Management Fee^ | 3.0% of rental income |
| Property Tax* | INR 0.05 Mn |
| Insurance* | INR 0.17 Mn |
| Vacancy Allowance during operations | 1.0% |
| Vacancy Allowance on Exit | 2.5% |
| Refurbishment Reserve | 1.5% of rental income |
| Repair Margin | 0.5% of rental income |

*Source: Client input; Valuer's assessment; *As per the lease terms and the information provided by the client, Asset tax and insurance are to be borne by the client; ^fees has been considered as below the NOI line item*

### 6.3.12 Other Assumptions

#### 6.3.12.1 Vacancy provision

Based on review of the rent roll provided, we understand that that the completed portion of the Subject Asset is substantially occupied with significantly long lease periods. Considering the same alongside other asset level parameters (location, amenities, grade, infrastructure etc) and market benchmarks, the valuer has adopted a vacancy provision as follows:

| Description | Completed Blocks | Under-construction Blocks |
|---|---|---|
| Vacancy Provision | During Operations – 1.0%<br>Assessment at the time of exit – 2.5% | During Operations – 1.0%<br>Assessment at the time of exit – 2.5% |

*Source: Valuer's assessment*

#### 6.3.12.2 Revenue escalation

Based on prevailing market condition, historical rent growth achieved by the Subject Asset and our interactions with market participants, we are of the opinion that the annual marginal rent growth of 5.0% has been considered for the FY 2024 and year on year thereafter.

#### 6.3.12.3 Rent-free period

Based on the rent roll provided by the client, it is understood that the existing leases have a rent-free period ranging from 0.5 months to 1.5 months from the lease-commencement date. However, based on recent market trends in the subject micromarket, we have considered a rent-free period of 1 months for new-leases and for re-leasing effective from the lease commencement date.

#### 6.3.12.4 Brokerage

Based on prevalent market dynamics, we have considered brokerage equivalent to 0.4 month of rental income for future / new leases

#### 6.3.12.5 CAM Cashflows

CAM Cashflows for the Subject Asset have been assessed both during the holding period and at the time of notional exit. Margin on CAM and CAM Recoveries are included in the financials as per the CAM Charge based on historical performance of the Subject Asset as per the inputs provided by the client and market benchmarks. The same is a pass-through expense.

Based on the subsequent information provided by the client, we understand that the 100% of the CAM Income would be received by the client entity and 100% of the CAM Expense would be borne by the SPV.

## 6.4 Financial Assumptions

### 6.4.1 Exit Capitalization Rate Adopted

The capitalization rate adopted for valuing the assets has been based on factors such as:

- Historical entry yields (going in cap rates) for yield/ core warehousing asset transactions across various key markets in India have steadily shown a downward trend over last 7 - 8 years from 10.0- 12.0% to about 7.0% - 8.5% in last 1-2 years.
- The increased appetite for income producing assets and availability of various modes of finance backing such acquisitions.

- Yields for warehousing assets across various markets in India have a range of 7.5 – 8.5% in Tier I locations, with Tier II locations having cap rate approx. 50 – 100 bps on the higher vis-a-vis the Tier I location
- Liquidity associated with InvIT listed/ public listings (multiplicity of buyers and relatively lower budgets per buyer)

Based on the above highlighted attributes, the following cap rate has been adopted for the purpose of our valuation:

| Asset Name | SPV/Hold Co | Status of the Asset | Details |
|---|---|---|---|
| Red Hills Park | Siruvapuri Murugan Industrial and Logistics Parks Pvt Ltd | Operational | 7.75% |
| | | Under-Construction | |

*Source: Valuer's assessment*

### 6.4.2 Discount Rate Adopted

For discounting the cash flows, an appropriate discount rate has been calculated on the basis of estimated 'Weighted Average Cost of Capital' (WACC).

### 6.4.3 Cost of Equity

The Valuer has computed the cost of equity as per the Capital Asset Pricing Model (CAPM), which is derived as follows:

Cost of equity = Risk Free Rate (Rf) + Beta (**β**) * (Market Return (Rm) **–** Risk Free Rate (Rf))

As mentioned above, the cost of equity computed using CAPM constitutes of the following components:

- Risk free rate (Rf) i.e., long term (10-year) treasury bond rate in India
- Market return (Rm) based on the returns of Sensex index for the past 10 years
- Computation of 'Beta (β)' of key listed realty stocks and REITs/ InvITs in India with respect to the Broad-Based BSE 500 stock index

The cost of equity adopted for specific assets has been adjusted for market/ asset specific risk pertaining to an infrastructural asset such as execution risk (construction status), marketing risk, etc. and adjusted for taxation. While the assumptions regarding the quantum of these risks have no quantitative basis, we have adopted them based on our understanding of the market and our opinion on the asset performance.

### 6.4.4 Cost of Debt

Completed Blocks

The cost of debt for competed assets has been considered based on prevalent Lease Rental Discounting (LRD) rates for Grade A warehousing developments across the Chennai micromarkets which are in the range of 8% – 9% depending upon the location, asset quality, occupancy, etc.

Under Construction/ Proposed Blocks

For under construction/ proposed blocks, the cost of debt has been considered based on prevalent Construction Finance (CF) rates for warehousing facilities parks across Thiruvallur which are in the range of 10% – 12% depending upon the location, asset quality, developer reputation and credit profile, etc.

### 6.4.5 Weighted Average Cost of Capital (WACC)

As highlighted earlier, the cost of debt has been assumed based on the prevalent LRD rates and construction financing for under-construction assets, while the cost of equity assumed has been adjusted for asset and market specific attributes to reflect the market expectations from an operational institutional development. Further, the proportion of debt and equity has been derived considering the prevalent LRD tenures and its contribution in the overall asset value.

Completed Blocks

Based on above, the following WACC rate has been assumed for the completed Red Hills Park assets forming part of the InvIT portfolio:

| Asset Name | SPV/Hold Co | Particular | Proportion | Cost | WACC |
|---|---|---|---|---|---|
| Red Hills Park | Siruvapuri Murugan Industrial and Logistics Parks Pvt Ltd | Debt | 35.0% | 8.0% | 11.58% |
| | | Equity | 65.0% | 13.5% | |

*Source: Valuer's assessment; Please note that the cash flows are assumed to realize evenly during the course of every quarter; hence a mid-quarter discounting convention has been adopted for the purpose of this valuation. Additionally, we have not factored any cash flows attributable to working capital requirement/expenses for valuation as the same is immaterial.*

Under - Construction Blocks

Based on above, the following WACC rate has been assumed for the under-construction assets forming part of the InvIT portfolio:

| Asset Name | SPV/Hold Co | Particular | Proportion | Cost | WACC |
|---|---|---|---|---|---|
| Red Hills Park | Siruvapuri Murugan Industrial and Logistics Parks Pvt Ltd | Debt | 45.0% | 9.50% | 12.80% |
| | | Equity | 55.0% | 15.50% | |

*Source: Valuer's assessment; Please note that the cash flows are assumed to realize evenly during the course of every quarter; hence a mid-quarter discounting convention has been adopted for the purpose of this valuation. Additionally, we have not factored any cash flows attributable to working capital requirement/expenses for valuation as the same is immaterial.*

## 6.5 Value of the Subject Asset

The Valuer is of the opinion that subject to the overriding stipulations contained within the body of this report and to there being no onerous restrictions or unusual encumbrances of which he has no knowledge, the opinion of value of the complete ownership interest in the Subject asset comprising land and improvements thereon, as explained above, as on 30th September 2024 is as follows:

| Asset Name | Component | Market Value (INR Mn) |
|---|---|---|
| Red Hills Park | Operational | 2,803.1 |
| | Under-Construction | 105.9 |
| Total Value of the asset | | 2,909.0 |

*Source: Valuer's assessment*

# 7 Exhibits and Addendums

## 7.1 Other Mandatory Disclosures

### 7.1.1 Details of On-going material litigations including tax disputes in relation to the assets

As per our interaction with the client, the client has confirmed that there are no material litigation details pertaining to the asset. Please note that the valuer has not investigated nor has been provided with any supporting documents.

Please refer to the section on litigations in the draft offer document for details on material litigations for various assets.

### 7.1.2 Details of options or rights of pre-emption and other encumbrances

As per our interaction with the client and our scope of services, please note that the valuer has not investigated nor has been provided with any supporting documents.

Please refer to the section on litigations in the draft offer document for details on material litigations for various assets for various assets

### 7.1.3 Vulnerability to natural or induced hazards that may not have been covered in town planning/ building control.

As per our interaction with the client, the client has confirmed that there are no Vulnerabilities pertaining to the asset. Please note that the valuer has not investigated nor has been provided with any supporting documents.

Also, in our professional judgment based on site inspection, there were no visible vulnerabilities.

### 7.1.4 Details of Revenue Pendencies including local authority taxes associated with InvIT asset and compounding.

As per our interaction with the client, the client has confirmed that there is no revenue pendency to the asset. Please note that the valuer has not investigated nor has been provided with any supporting documents.

Please refer to the section on litigations in the draft offer document for details on material litigations for various assets.

Our assessment is under the assumption the asset has a clear title and is free from any encumbrances, disputes, claims that would affect the value. This should be verified by an asset lawyer prior to relying on this valuation.

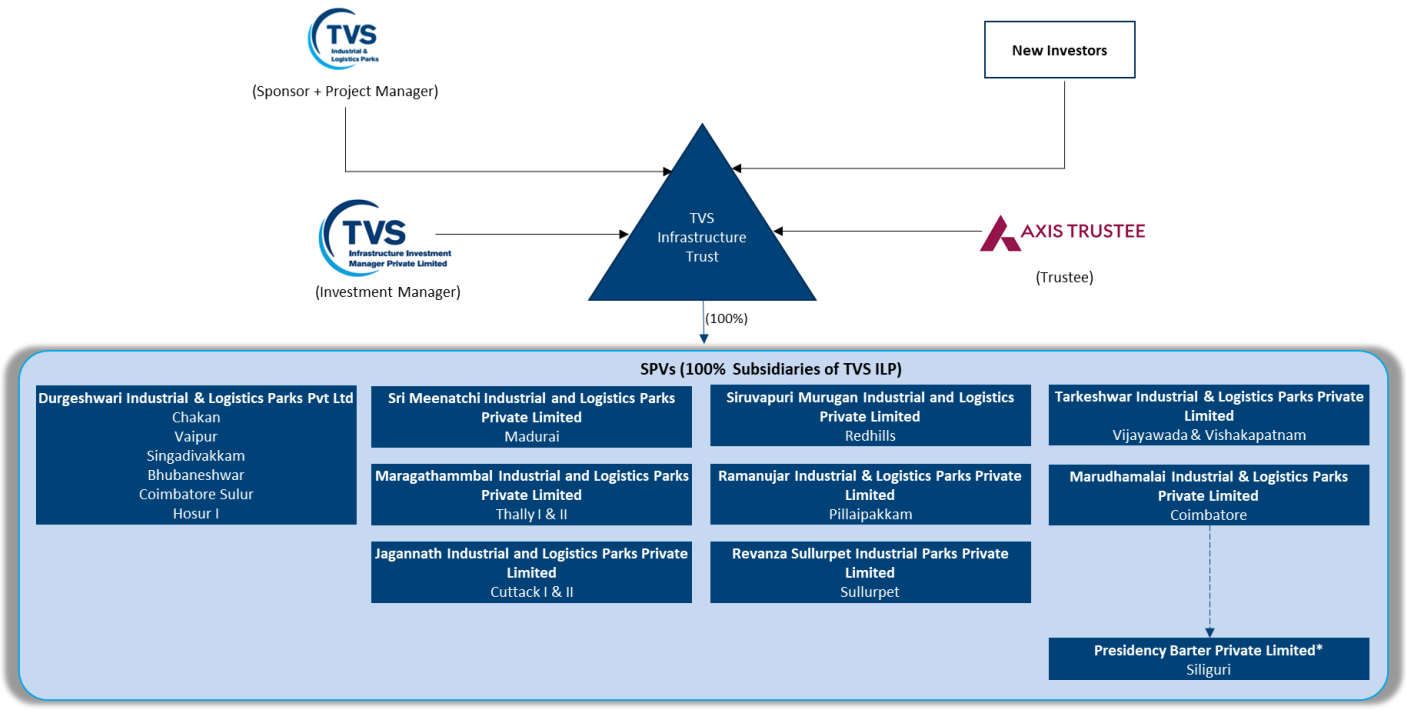
### 7.1.5 Details of the asset including whether the transaction is a related party transaction

The asset is proposed to be acquired from the Sponsor, which is identified as related party under SEBI (InviT) Regulations

### 7.1.6 Nature of the interest the InvIT holds or proposes to hold in the asset, percentage of interest of the InvIT in the asset

As per our interaction with the Client, the Client has confirmed that 100% to be help by the InvIT.

### 7.1.7 Structure of ownership of the asset by the InvIT



*Presidency Barter Private Limited is a 100% subsidiary of Marudhamalai Industrial & Logistics Parks Private Limited

### 7.1.8 Description of key agreements and restrictions relevant to the asset such as terms of concession agreement, power purchase agreements, etc.

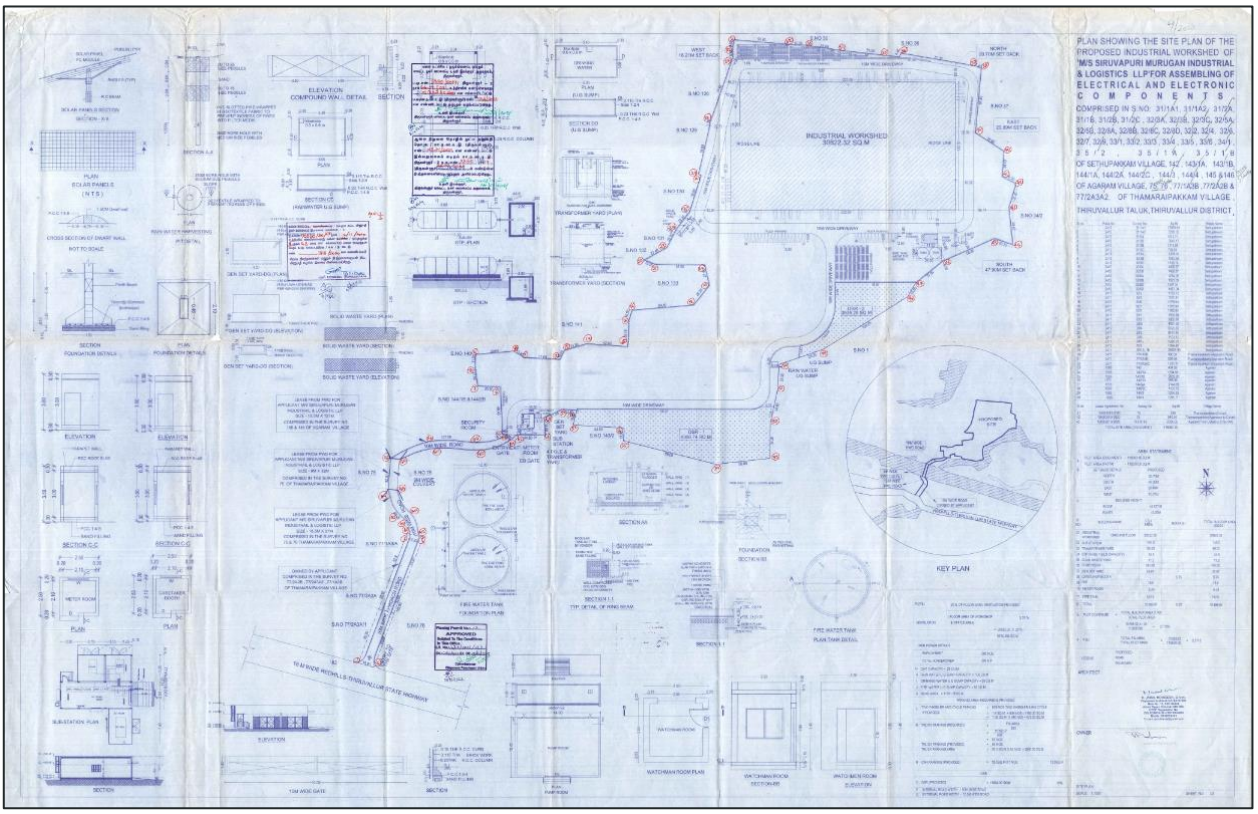
As per our interaction with the Client, the Client has confirmed that the same is not applicable to their business.

### 7.1.9 Life of the asset (both contractually and physical life requiring maintenance, replacement and right available to extend this life

| S. No | Particulars | Details |
|---|---|---|
| 1 | Remaining Physical Life of the Building asset requiring maintenance | Remaining period of Building 1 is 26.2 years and Building 2 is 27.6 years |
| 2 | Remaining Contractual Life of underlying Land | Perpetual, since the underlying land is freehold in nature |
| 3 | Right to extend the contractual life of land | Not applicable. The underlying land is freehold in nature |

## 7.2 Site Plan

### 7.2.1 Red Hills Park



*Source: Client Inputs*

## 7.3 Statutory Approvals, One-time Sanctions & Periodic Clearances

### 7.3.1 Architect Certificate

**STRUCTURAL SAFETY CERTIFICATE**

With respect to the building work of erection for M/s. TVS Industrial & Logistics Parks at Private Limited at Setthupakkam, Agaram & Thamaraipakkam Village, Thiruvallur Taluk, Thiruvallur District – 601103 (Redhills), within the DTCP area, I certify that the structural plans and details of the building submitted for approval satisfy the structural safety requirements for all situations including natural disasters like cyclone earth quake etc., as applicable, as stipulated under Part-6 ( Structural Design) of the National Building Code of India, 2016 and other relevant codes; and the information given their in is factually correct to the best of my knowledge. I undertake responsibility with regard to supervision of the work at each stage of construction, (after laying of foundation & after casting of each floor) and submit the report to DTCP regularly to effect that the building is being constructed confirming to the approved plan and as per the structural plan prepared by me. I will be responsible and Liable for action by DTCP/Govt. If the plan/ design contains misrepresentation or fraudulent information and the construction is made in deviation of approved plan or if there is any structural failure due to wrong/unsafe structural design, use of low-quality material and or poor workmanship endangering the in-mates public.

**"Legal Notice and Disclaimer"**

This summary report (the "Report") has been prepared by iVAS Partners. ("iVAS") exclusively for TVS Industrial & Logistics Parks Private Limited (the "Instructing Party" or the "Client"), in accordance with the Agreement entered into between iVAS and the Instructing Party dated 1st February 2024 (the "Agreement"). The Report is confidential to the Instructing Party and any other Addressees named herein and the Instructing Party and the Addressees may not disclose the Report unless expressly permitted to do so under the Agreement.

Where iVAS has expressly agreed that persons other than the Instructing Party or the Addressees can rely upon the Report (a "Reliant Party" or "Reliant Parties") then iVAS shall have no greater liability to any Reliant Party than it would have if such party had been named as a joint client under the Agreement.

iVAS's maximum aggregate liability to the Instructing Party and to any Reliant Parties howsoever arising under, in connection with or pursuant to this Report and/or the Agreement together, whether in contract, tort, negligence or otherwise shall be limited as defined under the terms of the Agreement.

iVAS shall not be liable for any indirect, special or consequential loss or damage howsoever caused, whether in contract, tort, negligence or otherwise, arising from or in connection with this Report. Nothing in this Report shall exclude liability which cannot be excluded by law.

If you are neither the Instructing Party, an Addressee nor a Reliant Party then you are viewing this Report on a non-reliance basis and for informational purposes only. You may not rely on the Report for any purpose whatsoever and iVAS shall not be liable for any loss or damage you may suffer (whether direct, indirect or consequential) as a result of unauthorized use of or reliance on this Report. iVAS gives no undertaking to provide any additional information or correct any inaccuracies in the Report.

For the avoidance of doubt, nothing in our Report will constitute any recommendation, investment advice or an offer or solicitation for the purpose of or for sale of any securities, financial instrument or products or other services. Any investors should make their own investment decisions in relation to any investments. If you do not understand this legal notice, then it is recommended that you seek independent legal advice.

# 1 Executive Summary

| | |
|---|---|
| Asset Name: | Coimbatore (Sulur) Park (the "Subject Asset") |
| Asset Address: | Survey No: 168/1B, 168/2A, 168/5, 169/1B, 169/2A, 170/1B, 170/2A, 174 & 176/1, Palladam to Chettipalayam Road, Selakaraichal Village, Coimbatore District, Tamil Nadu – 641 402 |
| Instructing Party: | TVS Industrial & Logistics Parks Private Limited (the "Client") |
| SPV Name: | Durgeshwari Industrial & Logistics Parks Private Limited |
| Interest Valued: | 100% Freehold interest |
| Land Area: | As per the review of the building plan approval and sanctioned layout provided by the client, it is understood that the total land area underlying the Subject Asset is approx. 21.88 acres. |
| Brief Description: | Based on the review of sanctioned layout provided by the client and subsequent site visit undertaken, it is understood that the Subject Asset is an operational warehousing facility, located along Palladam to Chettipalayam Road, Selakaraichal Village, Coimbatore District, Tamil Nadu. The Subject Asset, which is spread across a land area of approx. 21.88 acres has 3 blocks with a cumulative leasable area of approx. 6,06,375 sft and a chargeable area of approx. 5,12,384 sft comprising of completed blocks (Block – I, Block – II, Block – III A, Block – III B, Block – III C, Block – III D, Block III). The same is occupied by Consumer Durables and Electronics Retailer (Block I), FMCG Company (Block II), Logistics Company (Block III A & Block III), Manufacturing Company (Block III B), FMCG Company (Block III C), and Kitchen Appliances Manufacturing company (Block III D).<br><br>Further, it was observed that the subject land is contiguous in nature, even in terrain, is regular in shape and on the same level as abutting road and adjoining properties. Also, the subject land has limited frontage along the access road. The access road abuts the Subject Asset in its northern side.<br><br>The Subject Asset is located in a private road emanating from Palladam – Cochin Frontier (SH-113) which connects Tirupur town in north and Pollachi town in south. The Subject Asset is a grade A warehouse with PEB structures having all requisite facilities such as DG and Transformer Yard, Sewage Treatment Plant – STP, Storm water network (Fire Fighting Systems of NFPA/NBC standards with a roof monitor ventilation system etc.<br><br>The area details of the asset are as follows: |

| Particulars | Status | Built-up Area (in sft) | Leasable Area (in sft)* | Chargeable Area (in sft) |
|---|---|---|---|---|
| TVSILP – Block I | Completed | 1,00,812 | 1,00,812 | 1,00,812 |

| Assumptions, Disclaimers, Limitations & Qualifications | *This valuation report is provided subject to assumptions, disclaimers, limitations and qualifications detailed throughout this report which are made in conjunction with those included within the Assumptions, Disclaimers, Limitations & Qualifications section located within this report.*<br>*Reliance on this report and extension of our liability is conditional upon the reader's acknowledgement and understanding of these statements. This valuation is for the use of the party to whom it is addressed and for no other purpose. No responsibility is accepted to any third party who may use or rely on the whole or any part of the content of this valuation. The valuer has no pecuniary interest that would conflict with the proper valuation of the asset.* |
| Heightened Market Volatility: | We draw your attention to current heightened geopolitical tensions, low economic growth in many major countries, and a "higher for longer" interest rate sentiment which have increased the potential for constrained credit markets, negative capital value movements and continued volatility in some property markets over the short-to-medium term. |

Experience has shown that consumer and investor behaviour can quickly change during periods of such heightened volatility. Lending or investment decisions should reflect any heightened level of volatility and potential for changing market conditions. Lending and investment caution is advised in this regard.

It is important to note that the conclusions set out in this report are valid as at the valuation date only. Where appropriate, we recommend that the valuation is closely monitored, as we continue to track how markets respond to evolving events.

**Construction Cost Volatility:**

Although general increases in material costs have stabilised since 2022, some specialised supply chains and construction-related labour costs remain volatile with the potential for further increases. This has created uncertainty in cost estimates, which is likely to continue.

In addition, there are significant risks that delays may be encountered in sourcing specialised materials and labour, and as such, the potential for ongoing cost escalations and delays is high. This may place additional pressure on developer and contractor profit margins and development viability.

These inherent risks should therefore be given careful consideration in lending and investment decisions. Caution is advised in this regard.

**Valuer Declaration:**

i. the valuer is competent to undertake the valuation

ii. the valuer is independent and has prepared the report on a fair and unbiased basis

iii. the valuer has valued the assets based on the valuation standards as specified under sub-regulation 10 of regulation 21

# 2 Instruction

iVAS Partners ( Valuer Registration Number: IBBI/RV-E/02/2020/112; hereinafter referred as 'Valuer' ) represented by its partner Mr. Shubhendu Saha, a registered valuer under the Companies Act 2013 with IBBI (Valuer Registration Number: IBBI/RV/05/2019/11552) has been instructed by TVS Industrial & Logistics Parks Private Limited (hereinafter referred as the "Instructing Party" , or the "Client) to estimate upon the Market Value (MV) of an operational Warehousing asset located at Palladam to Chettipalayam Road, Selakaraichal Village, Coimbatore District, Tamil Nadu – 641 402.

Based on information provided by the client, we understand that the underlying land parcel of the Subject Asset admeasures approx. 21.88 acres with a total leasable area admeasuring approx. 6,13,942 sft and a chargeable area of approx. 5,21,879 sft.

iVAS Partners is referred to as the **'Valuer'** for the purpose of this report.

The details of the Subject Asset under the purview of this valuation exercise are tabulated below:

| Asset Name | SPV/Hold Co | Asset Type | Location | Land area | No. of Blocks |
|---|---|---|---|---|---|
| Coimbatore (Sulur) Park | Durgeshwari Industrial & Logistics Parks Private Limited | Warehouse | Sulur, Coimbatore | 21.88 acres | 3 |

*Source: Client Inputs*

For clarity, we are valuing the Property/ Asset only, not the SPV/Hold Co, which has been provided for reference only.

## 2.1 Purpose

As per our instructions the valuation is required by the Client for a proposed offer of units through private placement (the "Private Placement") as defined under the Securities and Exchange Board of India (Infrastructure Investment Trust) Regulations, 2014, as amended, together with clarifications, guidelines and notifications issued thereunder, on the Indian stock exchanges. In relation to the Private Placement, the Valuation report, a summary thereof and/or extracts of the report are intended to be included in the Offer Documents filed by the TVS Infrastructure Trust with the Securities and Exchange Board of India (SEBI) and the stock exchanges where the units of the InvIT are proposed to be listed.

In addition, other documents in relation to the Private Placement such as publicity material, research reports, presentations and press releases will also be prepared, wherein copies or extracts of the Summary Report are intended to be included.

## 2.2 Reliant Party

The Reliant Parties to this Summary Report will be the Client and TVS Infrastructure Trust, TVS Infrastructure Investment Manager Private Limited in its capacity as Investment Manager and TVS Industrial and Logistics Park Private Limited in its capacity as Sponsor for the purpose of the valuation as highlighted in this report.

The valuation has been prepared strictly and only for the use of the parties as stated above (Reliant Parties) and for the Purpose specifically stated. The Client would make all Reliant Parties aware of the terms and conditions of this agreement under which this exercise is being undertaken and take due acknowledgements to the same effect.

## 2.3 Limitation and Disclaimers to Liability

- Valuer is not operating under any financial services license when providing the Valuation Report ( " Valuation Report") and this document does not constitute financial product advice. Investors should consider obtaining independent advice from their financial advisor before making any decision to invest in TVS Infrastructure Trust InvIT.

- This Valuation Report is strictly limited to the matters contained within this report, and are not to be read as extending, by implication or otherwise, to any other matter in any Offer/ Draft Placement Memorandum/ Placement Memorandum/ Final Placement Memorandum ( "Offer Document" ). Valuer does not approve or endorse any part of the Offer Document. Any reference to the Valuer or this Valuation Report within the Offer Document must be read in conjunction with this Valuation Report.

- Valuers disclaims any liability to any person in the event of an omission from, or false and misleading statements included in the Offer Document, other than in respect of the information provided within the Valuation Report. Valuers shall not make any warranty or representation as to the accuracy of the information in any part of the Offer Document, other than in respect of the methodology used for the preparation of the information provided within the Valuation Report. The liability of Valuer is limited to the Instructing Party, and any Reliant Party nominated within this report only. No accountability, obligation or liability to any third parties is accepted by the Valuer. Valuer disclaims all liability to any investor.

- No liability is accepted for any loss, harm, cost or damage (including special, consequential or economic harm or loss) suffered as a consequence of fluctuations in the real estate market subsequent to the date of valuation. Valuer shall not be liable for any indirect, special, punitive or consequential loss or damage howsoever caused, whether in contract, tort or otherwise, arising from or in connection with this Valuation Report.oValuer accepts no responsibility or liability whatsoever (i) unless full disclosure of all information and matters that may have an impact upon the value and marketability of the asset has been made by the Instructing Party or (ii) for any matter arising out of or in relation to possible environmental site contamination or any failure to comply with environmental legislation which may affect the value of the asset.

- None of our employees, directors or Valuers individually has a contract with the Instructing Party or owes them a duty of care.

- Valuer has prepared the Valuation Report relying on and referring to information provided by the Instructing Party and/or third parties including financial and market information ("Information"). Valuers have assumed that the Information is accurate, reliable and complete and has not independently verified such Information.

- The Valuation Report draws attention to the key issues and considerations impacting value and provides a detailed assessment and analysis as well as key critical assumptions, general assumptions, disclaimers, limitations and qualifications and recommendations. As commercial investments of this nature are inherently complex and the market conditions have changed and/or have been uncertain in recent times, Valuer recommends that any references to value within the Offer Document must be read and considered together with the Valuation Report.

- This Valuation Report may not be reproduced in whole or in part without the prior written approval of the Valuer.

- The Valuation Report does not purport to contain all the information that a potential investor or any other interested party may require. They do not consider the individual circumstances, financial situation, investment objectives or requirements. They are intended to be used as guide and for information purposes only and do not constitute advice including without any limitation, investment, tax, legal or any other type of advice. The valuations stated are only best estimates and are not to be construed as a guarantee. Potential investors should not rely on any material contained in the Valuation Report as a statement or representation of fact but should satisfy themselves as to its correctness by independent investigation and review of the Valuation Report to understand the assumptions and methodologies stated in the reports.

- For the avoidance of doubt, all references to "Offer Document" herein shall include any Offer Document, final Offer Document, prospectus and/or any other accompanying documents required under the SEBI (InvIT) Regulations 2014.

## 2.4 Limitation and Qualification

Valuation has been conducted solely for the benefit and use of the Instructing Party, and any Reliant Party nominated within this Valuation Report. The report and valuations should not be used for any other purpose other than the expressly intended purpose as mentioned in the Valuation Report. They are not to be used, circulated, quoted or otherwise referred to for any other purpose, nor are they to be filed with or referred to in whole or in part in any document without the prior written consent of Valuer where such consent to be given at the absolute, exclusive discretion of Valuer, which shall not be unreasonably withheld. Where they are to be used with the Valuer's written consent, they shall be used only in their entirety and no part shall be used without referring to the whole report unless otherwise expressly agreed in writing by Valuer.

Neither the whole nor any part of our report, nor any reference thereto, may be included in any published document, circular or statement, nor published in any way nor disclosed orally or in communication to a third party, including the form and context in which it is to appear without Valuer's prior written consent.

The Valuer does not purport to provide a site or structural survey in respect of the asset(s) valued. The Valuer does not purport to be suitably qualified to provide professional advice in respect of building or site contamination. The Reliant Party(ies) should seek independent advice on these issues. The Services are provided on the basis that the Management has disclosed to the Valuer all information which may affect the Services. All opinions expressed by the Valuer, or its employees are subject to any conditions contained in the Valuation report.

## 2.5 Valuer Capability

iVAS Partners, (Valuer Registration Number: IBBI/RV-E/02/2020/112), represented by its partner Mr. Shubhendu Saha (Valuer Registration Number: IBBI/RV/05/2019/11552) delivers independent valuation (across categories viz. land & building and plant & machinery), advisory and technical due diligence services, that combine professional expertise with comprehensive databases, analytics and market intelligence across various asset classes and locations in India.

Mr. Shubhendu Saha is registered as a valuer with the Insolvency and Bankruptcy Board of India (IBBI) for the asset class Land and Building under the provisions of The Companies (Registered Valuers and Valuation) Rules, 2017 since 15 May 2019. He completed his Bachelor in planning from the School of Planning and Architecture, New Delhi in 1997 and master's in Client studies from Motilal Nehru National Institute of Technology, Allahabad in 1999.

## 2.6 Scope of Valuation

The valuation has been undertaken to ascertain the market value of the subject asset forming part of the proposed TVS Infrastructure Trust InvIT as of the valuation date. The valuer has estimated the market value of each individual asset, not the value of the portfolio of Assets, if sold in one transaction. In consideration of the same, a detailed assessment of the site and surroundings has been undertaken with respect to the prevalent activities, change in dynamics impacting the values and the optimal use of the Subject Asset vis-à-vis the surrounding micromarket, etc.

The primary catchment for the valuation has been defined as Sulur micromarket and the surrounding areas. An in-depth research exercise has been conducted in the catchment area of the Subject Asset to ascertain the prevalent activity levels in terms of residential segment in the vicinity of Subject Asset. This has been achieved through interactions with various market players such as local real estate brokers, developers, end-users, etc.

The location, micromarket and catchment area for the Subject Asset is tabulated below:

| Asset Name | SPV/Hold Co | City | Micromarket/ Catchment Area |
|---|---|---|---|
| Coimbatore (Sulur) Park | TVS Industrial & Logistics Parks Private Limited | Coimbatore | Sulur |

*Source: Client Inputs*

## 2.7 Valuer's Interest

The Valuer certify that; he/they do not have a pecuniary interest, financial or otherwise, that could conflict with the proper valuation of the asset (including the parties with whom our instructing party is dealing, including the lender or selling agent, if any; accepts instructions to value the asset only from the Client.

## 2.8 Qualifications/ Valuation Standards

This valuation is prepared in accordance with the International Valuation Standards (IVS) 2022.

The team involved in this engagement comprises of valuers registered with IBBI and RICS members with significant experience of valuations in Indian infrastructure and real estate market.

## 2.9 Disclosures

This Valuer hereby certify that:

- iVAS Partners (Valuer Registration Number: IBBI/RV-E/02/2020/112), represented by its partner Mr. Shubhendu Saha (Valuer Registration Number: IBBI/RV/05/2019/11552), is registered as a registered valuer entity under Section 247 of the Companies Act, 2013 and The Companies (Registered Valuers and Valuation) Rules, 2017, as amended, and is eligible to be appointed as Valuer under the provisions of the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014, as amended and that the Valuation report has been prepared in accordance with these InvIT Regulations.

- iVAS Partners (represented by Mr. Shubhendu Saha - Partner, iVAS Partners) is not an associate of TVS Industrial & Logistics Parks Private Limited (the "Sponsor"), TVS Industrial and Logistics Park Investment Manager Private Limited (the "Investment Manager") and TVS Infrastructure Trust (the "Trust")

- The Valuer, as represented by its partner, Mr. Shubhendu Saha, has the required minimum years of experience in the valuation of infrastructure assets, as required under the SEBI (InvIT) Regulations.
- The Valuer has not been involved with the acquisition or disposal within the last twelve months of any of the asset(ies) valued under this Valuation report.
- The Valuer has adequate and robust internal controls to ensure the integrity of the Valuation reports.
- The Valuer has sufficient key personnel with adequate experience and qualification to perform services related to asset valuation at all times.
- The Valuer has sufficient financial resources to enable them to conduct their business effectively and meet their liabilities.
- The Valuer has acquainted itself with all laws or regulations relevant to such valuation.
- iVAS Partners is not prohibited from acting as a valuer under applicable law.
- The valuation of assets undertaken is impartial, true and fair and in accordance with the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014, regulation 21.
- The Valuer and any of its employees/ Valuer involved in valuation of the InvIT assets are not invested in and shall not invest in units of the InvIT or in the assets being valued during the time such entity/person is designated as valuer of such InvIT and not less than 6 months after ceasing to be valuer of the InvIT.eThe Valuer has conducted the valuation of the InvIT assets with transparency and fairness and has rendered and shall render, at all times, high standards of service, exercise due diligence, ensure proper care and exercise professional judgement.
- The Valuer has acted with independence, objectivity and impartiality in performing the valuation.
- The Valuer has discharged its duties towards the TVS Infrastructure Trust InvIT in an efficient and competent manner, utilizing its knowledge, skills and experience in best possible way to complete the said assignment.
- The Valuer has not and shall not accept remuneration, in any form, for performing a valuation of the InvIT assets from any person or entity other than the TVS Infrastructure Trust InvIT or its authorized representatives.
- The Valuer has no present or planned future interest in the Management, Trustee, TVS Infrastructure Trust InvIT, the Sponsor to the TVS Infrastructure Trust InvIT and its sponsor group or the Special Purpose Vehicles (SPVs), holdcos, investment entity and the fee for this Report and the valuation exercise is not contingent upon the values reported herein. Our valuation analysis should not be construed as investment advice; specifically, we do not express any opinion on the suitability or otherwise of entering into any financial or other transaction with the Management or the SPVs/ holdcos/ investment entity.dThe Valuer shall before accepting any assignment from any related party to the TVS Infrastructure Trust InvIT, disclose to the TVS Infrastructure Trust InvIT, any direct or indirect consideration which the Valuer may have in respect of such assignment
- The Valuer shall disclose to the trustee of the TVS Infrastructure Trust InvIT, any pending business transactions, contracts under negotiation and other arrangements with the Management or any other party whom the TVS Infrastructure Trust InvIT is contracting with and any other factors which may interfere with the Valuer's ability to give an independent and professional valuation of the asset; as on the date of valuation,

there are no impediments for Valuer to give an independent professional value opinion of the assetgThe Valuer has not made false, misleading or exaggerated claims in order to secure assignments.

- The Valuer has not and shall not provide misleading valuation, either by providing incorrect information or by withholding relevant information
- The Valuer has not accepted and shall not accept an assignment that includes reporting of the outcome based on predetermined opinions and conclusions required by the TVS Infrastructure Trust InvIT
- the valuer has not accepted the said assignment which interferes with its ability to do fair valuation
- The valuation undertaken by the Valuer abides by International Valuation Standards for valuation in compliance with The Companies (Registration of Valuers and Valuation) Rules, 2017
- The Valuer understands that most of these assets are wholly/partly owned/ tenanted by related parties, hence, any transactions related to these assets from the related parties being valued would be related party transactions.
- The Valuer notes that there are encumbrances, however, no options or pre-emptions rights in relation to the assets based on the title report prepared by Cyril Amarchand Mangaldas (hereinafter collectively referred to as 'Legal Counsels'). The Valuer does not have the expertise or the preview to verify the veracity or quantify these encumbrances, disputes or claims. For the purpose of this valuation, the Valuer has assumed that the respective assets have title deeds that are clear and marketable.

## 2.10 Assumptions, Disclaimers, Limitations & Qualifications to Valuation

| | |
|---|---|
| Valuation Subject to Change: | The subject valuation exercise is based on prevailing market dynamics as on the date of valuation and does not take into account any unforeseeable developments which could impact the same in the future |
| Our Investigations: | The Valuers are not engaged to carry out all possible investigations in relation to the Subject Asset. Where in our report the Valuer identify certain limitations to our investigations, this is to enable the reliant party to instruct further investigations were considered appropriate or where the Valuer recommend as necessary prior to reliance. The Valuer are not liable for any loss occasioned by a decision not to conduct further investigations |
| Assumptions: | Assumptions are a necessary part of undertaking valuations. The Valuer adopts assumptions for the purpose of providing valuation advice because some matters are not capable of accurate calculation or fall outside the scope of our expertise, or our instructions. Assumptions adopted by iVAS Partners will be formulated on the basis that they could reasonably be expected from a professional and experienced valuer. The Reliant Party accepts that the valuation contains certain specific assumptions, and acknowledges and accepts the risk that if any of the assumptions adopted in the valuation are incorrect, then this may have an effect on the valuation |
| Information Supplied by Others: | The valuations are based on the information provided by the Client (TVS Industrial & Logistics Parks). The same has been assumed to be correct and has been used for valuation exercise. Where it is stated in the report that another party has supplied information to the 'Valuer', this information is believed to be reliable, but the 'Valuer' can accept no responsibility if this should prove not to be so<br>We have assumed that where any information relevant to our valuation is supplied by the Instructing Party, or by any third party at Instructing Party's instigation, it is correct and comprehensive, and can be safely relied upon by us in preparing our valuation.<br>We would recommend that before any financial transaction is entered into based on the valuations, you obtain verification of any third-party information provided. We also recommend that you check the validity of the assumptions we have adopted in our report (where we have been unable to verify the facts through our own observations or experience) |
| Matters which affect or may affect the valuation | If the Reliant Party becomes aware of any matters which affect or may affect the valuation, then Valuer must be advised of those matters. The Reliant Party's failure to do so will disentitle the Reliant Party to place reliance on the valuation and reliance must not be placed on the valuation/s under any circumstance |
| Future Matters: | To the extent that the valuation includes any statement as to a future matter, that statement is provided as an estimate and/or opinion based on the information known to the 'Valuer' at the date of this document. The 'Valuer' does not warrant that such statements are accurate or correct |
| Map and Plans: | Any sketch, plan or map in this report is included to assist reader while visualizing the Assets and the Valuers assume no responsibility in connection with such matters.<br>Further. all maps and plans quoted in our report are solely for illustration purposes only. While they are extracted from public sources, they may be not to scale. Valuer does not warrant that such dimensions shown are accurate. |
| Site Details: | Based on title due-diligence and other information provided by the client, the Valuer understands that the Subject Asset is free from any encroachments and are available as on the date of the valuation |
| Asset Title: | For the purpose of this valuation exercise, the Valuer has relied on the Title Reports prepared by the Legal Counsels for each of the Assets and has made no further enquiries with the relevant local authorities in this regard. The Valuer understands that the subject assets may have encumbrances, disputes and claims. The Valuer does not have the expertise or the preview to verify the veracity or quantify these encumbrances, disputes or claims. For the purpose of this valuation, the Valuer has assumed that the respective assets have title deeds that are clear and marketable. We recommend that a suitable Asset Lawyer or similar reviews these assumptions and confirm they are reasonable before relying in this report. |
| Environmental Conditions: | In preparing our valuation we assume that no contaminative or potentially contaminative use is, or has been, carried out at the property. We do not undertake any investigation into the past or present uses of either the property or any adjoining or nearby land, to establish whether there is any potential for contamination from these uses and assume that none exists. Should it, however, be subsequently established that such contamination exists at the property or on any adjoining land or that any premises have been or are being put to contaminative use, this may have a detrimental effect on the value reported |

| | |
|---|---|
| Town Planning: | The current zoning of the Subject Asset has been adopted on the basis of review of various documents (title deeds & approval documents) provided by the client and the current land use maps for the subject micromarket. The same has been considered for the purpose of this valuation exercise. Further, it has been assumed that the development on the Subject Asset adheres/ would adhere to the development regulations as prescribed by the relevant authorities. The Valuer has not made any enquiries with the relevant development authorities to validate the legality of the same.<br><br>Our valuations are prepared on the assumption that the premises comply with all relevant statutory enactments and Building Acts and Regulations, that a valid and up-to-date Fire Certificate has been issued. We assume that all necessary consents, licenses and authorizations for the use of the asset and the process carried out therein have been obtained and will continue to subsist and are not subject to any onerous conditions.<br><br>In the event that a legal requisition or other relevant planning information or document is obtained, and the information therein is found to be materially different to the town planning information in the report, the valuation must not be relied upon before first consulting iVAS Partners to reassess any effect on the valuation/s |
| Area: | The total leasable area considered for the purpose of this valuation exercise is based on the inputs shared by the Client. It must be noted that the above information has been provided by the client and has been verified based on the approvals/ layout plans/building plans provided by the Client. However, the Valuer has not undertaken additional verification and physical measurement for the purpose of this valuation exercise.<br><br>The land area as per sale deed is 22.10 acres and the land area as per the sanctioned layout plan/approved plans is 21.88 acres. We have considered the land area as per the building approval plans for the purpose of this valuation. |
| Condition & Repair: | In the absence of any information to the contrary, the Valuer has assumed that there are no abnormal ground conditions, nor archaeological remains present which might adversely affect the current or future occupation, development or value of the asset; the asset is free from rot, infestation, structural or latent defect; no currently known deleterious or hazardous materials or suspect techniques will be used in the construction of or subsequent alterations or additions to the asset and comments made in the asset details do not purport to express an opinion about, or advice upon, the condition of uninspected parts and should not be taken as making an implied representation or statement about such parts |
| Not a Structural Survey: | The Valuer states that this is a valuation report and not a structural survey |
| Legal: | Unless specifically disclosed in the report, the Valuer has not made any allowances with respect to any existing or proposed local legislation relating to taxation on realization of the sale value of the Subject Asset.<br><br>We do not read legal documentation. Where legal documentation is provided to us, we will have regard to the matters therein but recommend that reliance should not be placed on our interpretation thereof without prior verification by your legal advisors. Unless disclosed to us, we assume that there are no outstanding statutory breaches or impending litigation in respect of the property. We further assume that all documentation is satisfactorily drawn and that unless disclosed to us, there are no unusual or onerous restrictions, easements, covenants or other outgoings which would adversely affect the value of the relevant interest(s). In respect of leasehold Assets, we will assume that your landlord will give any necessary consents to an assignment. Unless notified to the contrary we assume that each property has a good and marketable title and is free from any pending litigation. |
| Others: | Considering the unorganized nature of real estate markets in India, all comparable evidence (if any) provided in the valuation report has been limited to the basic details such as the area of asset, rate at which transacted, broad location, etc. other specific details would be provided only if the information is available in public domain |
| Other Assumptions: | Please note that all the factual information such as tenants' leasable area, lease details such as lease rent, lease commencement and lease end date, lock – in period, escalation terms, etc. pertaining to the Subject Asset is based on the rent roll provided by the Client and the same has been adopted for the purpose of this valuation exercise. The rent rolls have been cross-checked with copies of the lease deeds on a sample basis as shared with the valuer to verify the authenticity. Any change in the above information will have an impact on the assessed value and in that case the Valuer will have to relook at the assessed value. The relevant information sources are represented in section 5.5.<br><br>All measurements, areas and ages quoted in our report are approximate. |

| | |
|---|---|
| | We are not advisors with respect to legal, tax and regulatory matters for the transaction. No investigation of the respective Special Purpose Vehicles (SPVs) holding the assets' claim to title of assets has been made for the purpose of this Report and the SPVs' claim to such rights have been assumed to be valid. No consideration has been given to liens or encumbrances against the assets. Therefore, no responsibility is assumed for matters of a legal nature.<br>As per the details provided by the client, the rental revenue has been calculated and other analysis are performed on chargeable area. Further, Leasable area mentioned is in accordance with the information shared by the Client comprising rent rolls and lease agreements. |
| Flooding risk: | We have assume that either there is no flooding risk or, if there is, that sufficient flood defenses are in place and that appropriate building insurance could be obtained at a cost that would not materially affect the capital value. |
| Site Conditions: | We do not commission site investigations to determine the suitability of ground conditions and services, nor do we undertake environmental or geotechnical surveys. We have assumed that these aspects are satisfactory and also that the site is clear of underground mineral or other workings, methane gas or other noxious substances.<br>In the case of property which may have redevelopment potential, we proceed on the basis that the site has load bearing capacity suitable for the anticipated form of redevelopment without the need for additional and expensive foundations or drainage systems (unless stated otherwise) |
| Hazardous & deleterious materials | Unless otherwise noted, we have assumed that the improvements are free of Asbestos and Hazardous Materials, or should these materials be present then they do not pose significant risk to human health, nor require immediate removal. We assume the site is free of subsoil asbestos and have made no allowance in our valuation for site remediation works.<br>Our visual inspection is an inconclusive indicator of the actual condition/presence of asbestos/hazardous materials within the property. We make no representation as to the actual status of the Property. If a test is undertaken at some time in the future to assess the degree, if any, of the presence of any asbestos/hazardous materials on site and this is found to be positive, this valuation must not be relied upon before first consulting iVAS Partners to reassess any effect on the valuation.<br>Unless specifically instructed, we do not carry out investigations to ascertain whether any building has been constructed or altered using deleterious materials or methods. Unless specifically notified, our valuation assumes that no such materials or methods have been used |
| Unregistered interests | We have assumed that there are no unregistered interests or interests not captured by the applicable Regulatory Authority in the country which services are to be carried out which may affect market value. In the event that the Reliant Party becomes aware of any further or pending easements, encumbrances or unregistered interests, this valuation must not be relied upon before first consulting iVAS Partners in writing to reassess any effect on the valuation |
| Heightened Market Volatility | We draw your attention to current heightened geopolitical tensions, low economic growth in many major countries, and a "higher for longer" interest rate sentiment which have increased the potential for constrained credit markets, negative capital value movements and continued volatility in some property markets over the short-to-medium term.<br>Experience has shown that consumer and investor behaviour can quickly change during periods of such heightened volatility. Lending or investment decisions should reflect any heightened level of volatility and potential for changing market conditions. Lending and investment caution is advised in this regard.<br>It is important to note that the conclusions set out in this report are valid as at the valuation date only. Where appropriate, we recommend that the valuation is closely monitored, as we continue to track how markets respond to evolving events. |
| Development Valuations | The value of real estate developments is traditionally volatile and can be subject to rapid changes of value in short timeframes. Development assets appeal to specific types of purchasers and can be significantly impacted by many factors such as broader economic conditions, fluctuating levels of supply and demand for the product, changes in building costs and the availability and cost of development finance. All these (and more) factors could have a significant impact on the value and demand for the Subject Asset. |

Going forward there will be several key factors impacting on the viability of some development assets and their underlying land values. Key concerns are fluctuations in construction costs, substantial new supply levels and easing investor demand for final product. In addition, we also note that ongoing monitoring and governance of banking systems may significantly restrict development capital and increase the cost of development finance.

As experienced in previous market cycles, the value of real estate developments can undergo rapid and significant price corrections, as supply, demand and cost factors change. Any Reliant Party is strongly advised to consider this inherent risk in their investment and lending decisions. Lending and investment caution is advised in this regard.

The applicant's ability to service debt should also be carefully considered, should development opportunities and settlements be extended, construction/funding costs increase, or sales rescinded

Construction Cost Volatility

Although general increases in material costs have stabilised since 2022, some specialised supply chains and construction-related labour costs remain volatile with the potential for further increases. This has created uncertainty in cost estimates, which is likely to continue.

In addition, there are significant risks that delays may be encountered in sourcing specialised materials and labour, and as such, the potential for ongoing cost escalations and delays is high. This may place additional pressure on developer and contractor profit margins and development viability.

These inherent risks should therefore be given careful consideration in lending and investment decisions. Caution is advised in this regard.

# 3 Coimbatore – Market Structure and Conditions

## 3.1 Information

For the purpose of the valuation exercise, reliance has been made on the deliverables of CBRE South Asia Private Limited, an independent agency appointed by TVS to undertake market research, provide market commentary, and data as a part of a report (the "Industry Assessment Report") for the purpose of this assignment.

## 3.2 Demand and Supply

### 3.2.1 Demand and Supply Trends – Coimbatore

Coimbatore has approx. 5.09 mn sft of operational warehouse supply out of which approx. 4.44 mn sft is occupied. The Southern vector constitutes about 86% of the Completed supply. Industrial and Warehousing market of Coimbatore is primarily driven by the demand arising from Third party logistics, E-Commerce, Industrial Manufacturers, FMCG etc. The city predominantly houses Grade B developments of ~ 39% and about ~ 38% of Grade A and 23 % Grade C developments respectively.

| Particulars | Details |
|---|---|
| Cumulative completed warehouse stock (Q3 2024) | Approx. 5.09 msf |
| Cumulative occupied stock (Q3 2024) | Approx. 4.44 msf |
| Current vacancy (Q3 2024) | Approx. 12.77 % |
| Future supply (2024 – 2025) | Planned supply: 0.4 to 0.5 Mn Sft |

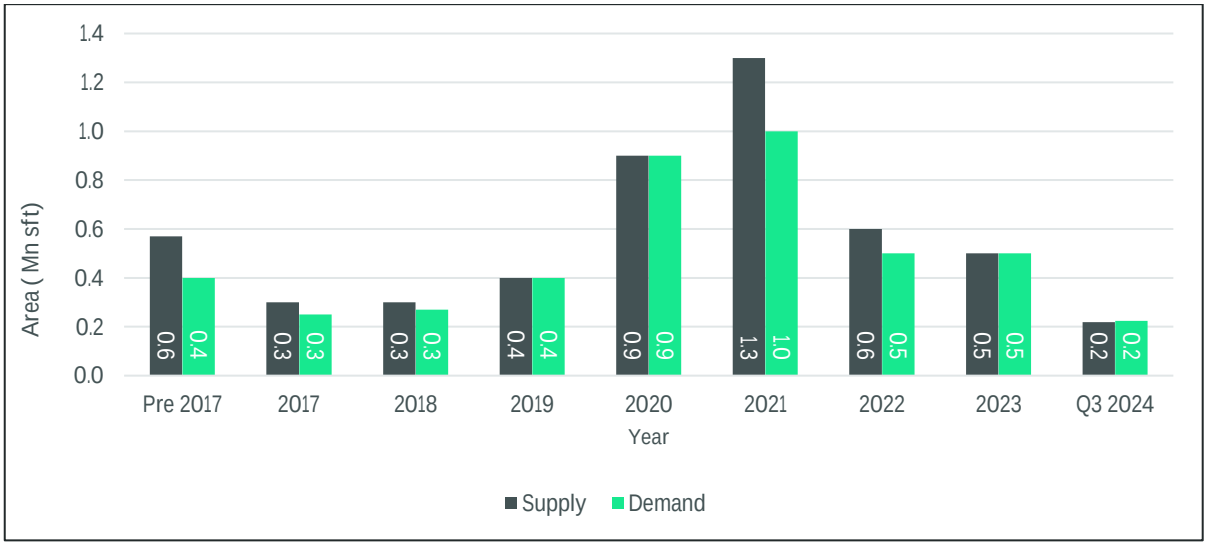
*Source: Industry Assessment Report dated September 30, 2024*

Warehousing activity in Coimbatore is primarily spread across the three major clusters i.e. Northern Cluster (Sathy road, National Highway 181 and National Highway 198); Eastern part (Avinashi Road Southern Cluster (Kochi Frontier road, Palakkad road and Salem Highway) and Southern Cluster (Palladam-Cochin Frontier Road).

## 3.3 Coimbatore - Completed Supply and Absorption Dynamics

Coimbatore has approx. 5.09 mn sft of operational warehouse supply out of which approx. 4.44 mn sft is occupied. The Southern vector constitutes about 86% of the Completed supply. Industrial and Warehousing market of Coimbatore is primarily driven by the demand arising from Third party logistics, E-Commerce, Industrial Manufacturers, FMCG etc. The city predominantly houses Grade B developments of ~ 39% and about ~ 38% of Grade A and 23 % Grade C developments respectively.

Demand – Supply Dynamics of City: Coimbatore



*Source: Industry Assessment Report*

Northern Cluster:

Northern Cluster Warehouses in this stretch are majorly concentrated on the Periya Pudur Region. The warehousing demand is steadily rising along this vector with co-relation to the established industries being converted to warehousing establishments.

Eastern Cluster:

Second most prominent Warehousing cluster in Coimbatore. Most of the Grade C warehouses are concentrated along this Vector.

Southern Cluster:

This cluster is the major warehousing cluster of Coimbatore and hosts all Grade A developments in the city. All Major Warehousing players are located along this vector (TVS, Indospace, NDR, VSMC)

The Southern Cluster is home to the majority of warehouses, accounting for approximately 86% of the completed supply in Coimbatore. These micromarkets predominantly serve the needs of third-party logistics, FMCG, e-commerce, and manufacturing companies.

A global pandemic scenario that resulted in construction delays and a postponement of the utilisation of pre-committed warehouse space on the market in 2020 caused a slight decrease in supply and demand, which demand in 2021 made up for. Due to spillover demand from 2020, which had an impact on the automotive and 3PL tenant industries as well as COVID-19, 2021 saw the greatest influx of supply and absorption.

The average annual absorption across all grades of warehouses has been between 0.4 and 0.5 million square feet, indicating a consistent demand over the past three years (2021–2023). The strategic location of Coimbatore as a

significant industrial hub in South India with easy access to important transportation routes is what drives this consistent demand.

SNAPSHOT OF SOUTHERN VECTOR

| Completed Supply | Vacancy | Grade A Supply | Grade A Vacancy | Share of Grade A Supply in Coimbatore | Upcoming Supply |
|---|---|---|---|---|---|
| 4.39 Mn sft | 7- 8% | 1.93 Mn sft | 4- 5% | 100% | 0.4 – 0.5 Mn sft |

Source: CBRE Research ; Updated as of Q3 2024

The Southern Cluster Micro Market comprises of locations along the Palladam-Cochin Frontier Road such as Pappampatti, Chettipalayam, Kallapalayam, Okkilipalayam and Pachapalayam. This cluster is the most prominent warehousing cluster of Coimbatore and hosts all Grade A developments in the city – Indospace and TVS. The cluster comprises of approximately 86% of the completed supply in the Coimbatore City. Out of the completed supply in Southern cluster approximately 44% of the supply is Grade A. Majority of the Warehousing demand is driven by FMCG, FMCD and 3PL tenants. Further, details of micro markets are elaborated in the following paragraphs.

The Palladam-Kochi Frontier Road holds major warehousing developments for clusters such as Indospace, TVS, NDR, VSMC, etc. Currently, there is only a vacancy in grade C warehouses, and grade A and B warehouses are completely occupied. The presence of developable land banks, as well as its proximity to manufacturing clusters and the Kochi industrial market, are the major demand drivers for this cluster. The strategic location of the Palladam-Kochi Frontier Road also makes it an attractive option for companies looking to establish distribution centres in South India, specifically in Kerala. The availability of skilled labour in the surrounding areas further enhances the appeal of this location for companies looking to set up operations. Additionally, the well-connected road network and access to major ports make it an ideal choice for businesses seeking efficient logistics solutions.

### 3.3.1 Key Developments in Micromarket

The table below highlights the prominent developments in the subject micromarket:

| Building Name | Year of Establishment | Leasable Area (sft) | Average Lease Rental (INR per sft pm) |
|---|---|---|---|
| Development 1 | 2020-22 | 7,10,000 | 21 – 22 |
| Development 2 | 2019 | 1,10,000 | 16 – 17 |
| Development 3 | 2019-22 | 3,55,000 | 21 – 22 |
| Development 4 | 2017-19 | 5,65,000 | 21 – 22 |

*Source: Industry Assessment Report*

### 3.3.2 Market Rent

The table below highlights the recent lease transactions in the micromarket:

| Date of Transaction | Chargeable Area (sft) | Lessee | Name of the Building | Total Rent (INR per sft per month) | Description |
|---|---|---|---|---|---|
| Q2, 2023 | 90,000 | Pidilite | VSMC | 18 | Base Rental |
| Q2, 2023 | 1,00,000 | Walkkaro | Independent Warehouse | 16 | Base Rental |
| Q3, 2023 | 50,000 | Vasanth & Co. | NDR | 19 | Base Rental |
| Q1, 2024 | 30,000 | Page (Jockey) | Indospace | 21 | Base Rental |
| Q3, 2024 | 31,000 | V Logistics | Indospace | 21 | Base Rental |

*Source: Industry Assessment Report*

As can be observed from the table above and our interactions with other market players, the rental value in the micromarket ranges between INR 18-21/sft/month (base rentals). The variance across rentals is primarily due to factors such as location, volume of space uptake, accessibility, overall tenant mix, quantum of vacant stock in the development, specifications of the block, park level infrastructure, specialised infrastructure, etc.

## 3.4 Market Outlook

Based on the market research, we understand that the subject micromarket is perceived as a favourable destination for various industry players owing to the excellent connectivity (via Palladam – Cochin Frontier), attractive rentals, availability of developable land parcels etc. Sulur has many small and large-scale industries which has enabled it to develop as an industrial ecosystem. Further, owing to the growth of E-Commerce sector and its continuous demand, the requirement for Grade A warehouse spaces have been increasing consistently which is seen via the highest absorption levels in Grade A parks in the market.

Major infrastructure initiatives such as the upcoming Kochi-Coimbatore-Bengaluru Industrial Corridor, which is expected to come by 2026, six lane corridor from Karur to Coimbatore which is expected to be operational by 2028, Airport expansion programme is expected to amplify the warehousing demand due to better connectivity and efficient transportation within production and distribution zones of Coimbatore.

Thus, the subject micro-market is expected to experience sustained demand and supply in the coming years.

Further, the Subject Asset is well positioned in the market to attract interest from occupiers owing to its location (Palladam Kochi Frontier Road), specifications and amenities, developer's reputation, etc. Therefore, keeping in perspective the subject property's location, leasing in the micromarket, quantum of leasable area, quality of construction, developer's reputation, type of space, etc., we are of the opinion that the subject property would command a lease rental of approx. INR 20 - 22 / sft / month as on date of valuation.

# 4 Subject Asset – TVS Sulur

## 4.1 Asset Description

The subject asset christened 'Coimbatore (Sulur) Park' is an operational warehousing facility with a total leasable area of 6,13,942 sft with a cumulative chargeable area of 5,21,879 sft located at Survey No: 168/1B, 168/2A, 168/5, 169/1B, 169/2A, 170/1B, 170/2A, 174 & 176/1, Palladam to Chettipalayam Road, Selakaraichal Village, Coimbatore District, Tamil Nadu – 641 402. The Subject Asset is currently accessible via a private road, which emanates from Palladam – Cochin Frontier (SH – 163).

Based on the review of sanctioned layout shared by the client and subsequent site visit undertaken, it is understood that the Subject Asset is an operational warehousing facility, located along Palladam to Chettipalayam Road, Selakaraichal Village, Coimbatore District, Tamil Nadu. The Subject Asset, which is spread across a land area of approx. 21.88 acres having 3 blocks with a cumulative leasable area of approx. 6,13,942 sft and a chargeable area of approx. 5,21,879 sft comprising of completed blocks (Block – I, Block – II, Block – III A, Block – III B, Block – III C, Block – III D, Block III). The same is occupied by Consumer Durables and Electronics Retailer (Block I), FMCG Company (Block II), Logistics Company (Block III A & Block III), Manufacturing Company (Block III B), FMCG Company (Block III C), and Kitchen Appliances Manufacturing company (Block III D).

The Subject Asset is a grade A warehouse with PEB structures having all requisite facilities such as DG and Transformer Yard (62.5 KVA and 1,250 KVA respectively), Sewage Treatment Plant – STP (50KLD Daiki tank), Storm water network (Hume pipe with RCC Chamber), Fire Fighting Systems of NFPA/NBC standards with a roof monitor ventilation system and a maximum power load of 270 KVA extendable up to 1,250 KVA.

Moreover, the park offers a range of amenities such as domestic water supply, electric supply, fire protection, etc. The Subject Asset provides street lighting all around the park, and designated parking areas for trucks, cars and two wheelers. The park has been provided with landscaping while the asset is monitored completely with CCTV & security control to ensure safety. The prominent tenant in the Subject Asset includes Consumer Durables and Electronics Retailer, FMCG Company and Logistics Company.

As at the valuation date the Subject Asset is fully let to 6 tenants at a total current annual rent of 97.13 Mn and with a Weighted average lease expiry (WALE) of 5.8 years. The main tenant is a FMCG Company, with 31% of the completed leasable area and accounting for approx. 34% of the current rent.

| Brief Description | |
|---|---|
| Particulars | Details |
| Asset Name | Coimbatore (Sulur) Park |
| Address | Selakaraichal Village, Coimbatore District, Tamil Nadu – 641 402 |
| Land Area | Based on review of the sale deed, it is understood that the Subject Asset is built over a land measuring approx. 21.88 acres |
| Leasable Area | 6,13,942 sft* |
| Chargeable Area | 5,21,879 sft |
| Built-up Area | 6,13,942 sft* |

*Source: Architect certificate, Rent roll provided by the Client; (Please note according to the lease agreements provided by the Client, it is understood that the rent is paid on the chargeable area, which has been considered for the valuation exercise).*

**As per the lease deed the leasable area of Block II is 1,88,347 sft with warehouse carpet area of 1,21,350 sft, cafeteria area of 1,730 sft, security room of 187 sft, parking area of 17,577 sft and open area of 47,503 sft of which warehouse carpet area, cafeteria area, security room and part of parking area is considered as chargeable area * As per the lease deed the leasable area of Block III A is 90,115 sft with warehouse carpet area of 74,090 sft, Mezzanine area 500 sft, apron area of 12,525 sft, open parking area of 3,000 sft of which warehouse carpet area, and Mezzanine area is considered as chargeable area.*

### 4.1.1 Site Details

**Situation:** Subject Asset – 'Coimbatore (Sulur) Park' is an operational warehousing facility located in Palladam to Chettipalayam Road, Selakaraichal Village, Coimbatore District, Tamil Nadu.

**Location:** The Subject Asset is located in an private road emanating from Palladam – Cochin Frontier (SH-113) connecting Tirupur town in north and Pollachi town in south. The Subject Asset is located in Selakaraichal Village on the southern periphery of Coimbatore City.

The distances from key hubs to the Subject Asset are presented in the table below:

| Landmark | Distance (Km) |
|---|---|
| Coimbatore International Airport | 29 – 30 |
| Coimbatore Railway Station | 30 – 31 |
| Coimbatore New Bus Stand | 38 – 39 |

*Source: Valuer's research*

**Catchment Analysis:** The primary catchment for the purpose of this valuation has been defined as Sulur and its adjoining micromarkets which are predominantly characterized by industrial/warehousing facility. Organised developments in Sulur, Selakaraichal Village, where the Subject Asset is located, and its neighbouring villages are in nascent stages. The subject micromarket has large tracts of vacant agricultural lands along with few industrial and warehouse developments with presence of unorganized residential activity. However, the micromarket has been gaining traction due to its easier connectivity to Kerala and Tamil Nadu thereby

gaining interest from prominent players like Indospace Logistics Park and local developers like VSMC Logistics Park. Other standalone developments include Amma Alloy (India) Pvt. Ltd, Garuda Farm Equipment Limited, Real Links India Private Limited, etc.

Surrounds:

The Subject Asset is surrounded as follows:

- North: Access Road
- South: Private Property
- East: Private Property
- West: Private Property

Potential changes in surroundings:

The subject micromarket is currently characterized by the presence of large tracts of vacant land parcels, a few captive industrial developments and unorganised residential plotted layouts. However, in recent times, the micromarket has been witnessing significant infrastructure initiatives which has been driving the industrial demand in the subject location viz., the commissioning of the six-lane green field road project connecting Coimbatore to Karur. The six lane Karur-Coimbatore bypass, with service roads, will include an outer ring road for Coimbatore. It will connect Madukkarai, Sulur, Karumathampatti, Annur and Perianaikenpalayam. The total length of the highway is assessed to be approx. 182.5 km and is currently underway. On completion, the project will act as a primary transportation corridor for the micromarket and is expected to significantly enhance the connectivity/ accessibility of the subject micromarket.

The availability of land and improved infrastructure initiative is likely to enhance organized connectivity thereby attracting manufacturers and developers which will drive the demand in the subject micromarket over medium to long term.

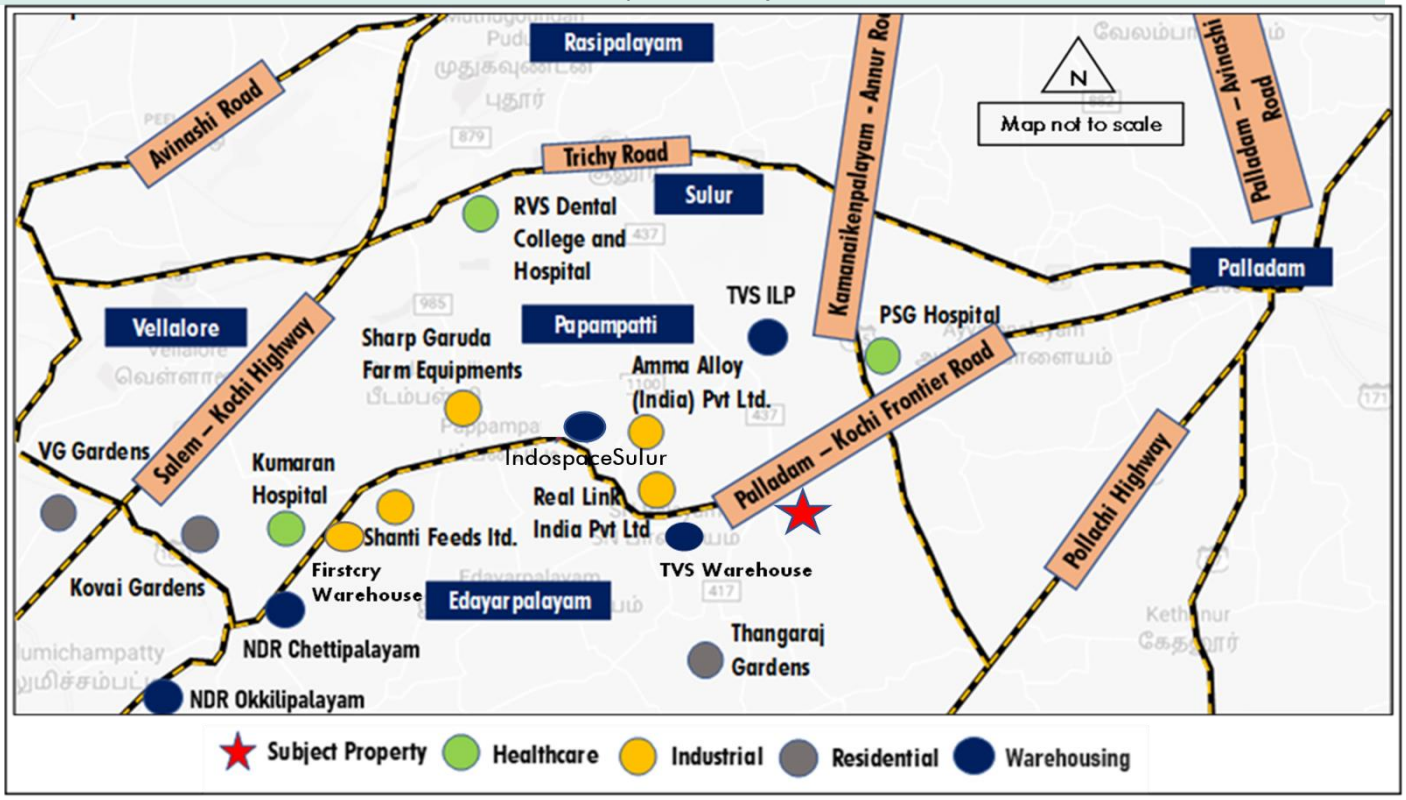
Suitability of existing use:

As per information received from the client and the site visit undertaken, we understand that the Subject Asset is an operational warehousing facility. The current use of the property i.e. 'Industrial & Logistic Park' is as per the usage permitted by the development authority. We have not verified the same from the Director of Town and Country Planning Authority or inspected any documentary evidence to the same.

Also considering the nature of subject development coupled with the location and profile of the surrounding developments, the use of the Subject Asset is opined to be in conformity with the envisaged development.

The following map indicates the location of the Subject Asset and surrounding developments:

Location Map for the Subject Asset



*Source: Valuers' research*

Shape: Based on the site plan provided by the client and visual inspection during the site visit, it is understood that the underlying land is broadly regular in shape.

Topography: Based on the site plan and as corroborated with our site visit, the site appears to be even and is at the same level as abutting access roads and adjoining Assets.

Frontage: Based on review of site plan and visual inspection, we understand that the Subject Asset has limited frontage along the access road.

Accessibility: Based on the site plan provided by the client and visual inspection, the access to the Subject Asset is via a private road which emanates from Palladam – Cochin Frontier (SH-163). By virtue of the same the asset enjoys excellent accessibility and frontage.

Please refer Section 7.0 Exhibit & Addendums for the site plan of the Subject Asset.

### 4.1.2 Review of sale deed or Lease agreement

As per the sanctioned layout plan provided by the client, we understand that the exact address of the Subject Asset is located at Survey No: 168/1B, 168/2A, 168/5, 169/1B, 169/2A, 170/1B, 170/2A, 174 & 176/1, Palladam to Chettipalayam Road, Selakaraichal Village, Coimbatore District, Tamil Nadu – 641 402. Additionally, it is understood that the Subject Asset is owned by TVS Infrastructure Private Limited and is freehold in nature.

### 4.1.3 Title Details

This valuation exercise is based on the premise that the Subject Asset has a clear title and is free from any encumbrances, disputes, claims, etc. Valuer has not made any inquiries in this regard with the relevant legal/

statutory authorities with the understanding this level of due diligence will be undertaken by the appropriate lawyers and then advised to the Valuer accordingly. We strongly recommend the assumption the asset has a clear title is confirmed before relying on the report.

### 4.1.4 Town Planning

| | |
|---|---|
| Zoning | As per the review of the inputs shared by the client, we understand that the Subject Asset is zoned for "Industrial" Use. The same has been considered for the purpose of this valuation. Valuer has made no further inquiries with the local panchayat or Director of Town and Country Planning authorities in this regard.<br><br>For the purpose of this exercise, it has been assumed that all developments (existing / under construction / proposed) adhere to building regulations as prescribed by the relevant authorities. Valuer has not validated the information provided by the client with the relevant development authorities. |
| Approved Usage: | The Subject Asset is partly an operational and partly an under-construction warehouse development. The current use of the Subject Asset is in agreement with the rules and regulations as prescribed by the local development authority. However, Valuer has not made any enquiries with the relevant local authorities to validate the same for its specific applicability to the Subject Asset. |
| Restrictions: | As per feedback received from the client, there are no other restrictions or constraints on the current use of the asset. |
| Natural or induced hazards: | We have not carried out any investigations or tests or been supplied with any information from Client or from any relevant expert that determines the presence or otherwise of pollution or contaminative substances in the Subject Asset or any other land (including any ground water).<br><br>For the purpose of assessing the vulnerability of the Subject Asset to any natural or induced disaster the location of the property with respect to risks pertaining to earthquakes, high winds/cyclone and flooding was studied. Selakaraichal Village where the Subject Asset is located falls in Seismic Zone II (least active) with low risk. The city faces low risk in terms of high winds or cyclones too given that the subject property falls in high-lying area as per the topographic map. No hazardous activity was noted in the vicinity of the Subject Asset which may expose it for any induced disaster. |
| Approvals: | As per the documents provided by Client, we understand that the approvals mentioned in section 4.1.5.1 for the asset have been obtained. Please refer annexures for the details.<br><br>For the purpose of this exercise, it has been assumed that all developments adhere to building regulations as prescribed by the relevant authorities. Valuers have not validated the information provided by the client with the relevant development authorities. |

### 4.1.5 Statutory Approvals, Sanctions & Approvals

#### 4.1.5.1 Statutory Approvals received and to be received (One-time Sanctions & Periodic Clearances)

As per the review of documents provided by the client, we understand that all requisite approvals have been received for the Subject Asset.

The table below highlights the status of approvals for the Subject Asset:

| Approval/NOC | Status (Applied / Received) | Authority | Date of Issue (DD-MM-YY) |
|---|---|---|---|
| Fire NOC | Received | Fire and Rescue Department | 21-03-2022 |
| Ground Water Abstraction NOC | Received | Water Resource Department, Government of Tamilnadu | 07-03-2022 |
| Agriculture NOC | Received | Agriculture Department, Government of Tamilnadu | 11-05-2022 |
| Building Permit/Planning Approval | Received | Director of Town and Country Planning | 05-08-2022 |
| Consent for Establishment – Air & Water | Received | Tamilnadu Pollution Control Board, Coimbatore | 24-06-2022 |

*Source: Approval documents provided by the client*

#### 4.1.5.2 List of up to date/overdue periodic clearances

As per the details provided by the client, we understand that there are no overdue periodic clearances. Please refer section 7.3 for any further details

### 4.1.6 Area Details, Type and Age of Existing Structures

The table below highlights the age of the completed blocks of the Subject Asset:

| Block | Total Area (sft)* | Operational Area (sft)* | Under construction Area (sft)* | Year of Completion |
|---|---|---|---|---|
| TVSILP – Block I | 1,00,812 | 1,00,812 | N.A. | Q1 2023 |
| TVSILP – Block I (Mezzanine) | 2,575 | 2,575 | N.A. | Q1 2023 |
| TVSILP – Block II | 1,31,896 | 1,31,896 | N.A. | Q2 2023 |
| TVSILP – Block III A | 74,590 | 74,590 | N.A. | Q1 2024 |
| TVSILP – Block III B | 37,760 | 37,760 | N.A. | Q3 2024 |
| TVSILP – Block III C | 64,418 | 64,418 | N.A. | Q3 2024 |
| TVSILP – Block III D | 6,000 | 6,000 | N.A. | Q3 2024 |
| TVSILP – Block III | 1,03,828 | 1,03,828 | N.A. | Q3 2024 |
| Total | 5,21,879 | 5,21,879 | N.A. | |

*Source: Client Inputs *Area mentioned is chargeable area.*

The table below highlights the area details of the Subject Asset:

| Block | Leasable Area (in sft)* | Chargeable Area (in sft) |
|---|---|---|
| TVSILP – Block I | 1,00,812 | 1,00,812 |
| TVSILP – Block I (Mezzanine) | 2,575 | 2,575 |
| TVSILP – Block II | 1,88,347 | 1,31,896 |
| TVSILP – Block III A | 90,115 | 74,590 |
| TVSILP – Block III B | 37,760 | 37,760 |
| TVSILP – Block III C | 82,458 | 64,418 |
| TVSILP – Block III D | 8,047 | 6,000 |
| TVSILP – Block III | 1,03,828 | 1,03,828 |
| Total | 6,13,942 | 5,21,879 |

*Source: Architect certificate, Rent roll provided by the Client; (Please note according to the lease agreements provided by the Client, it is understood that the rent is paid on the chargeable area, which has been considered for the valuation exercise)*

**As per the lease deed the leasable area of Block II is 1,88,347 sft with warehouse carpet area of 1,21,350 sft, cafeteria area of 1,730 sft, security room of 187 sft, parking area of 17,577 sft and open area of 47,503 sft of which warehouse carpet area, cafeteria area, security room and part of parking area is considered as chargeable area * As per the lease deed the leasable area of Block III A is 90,115 sft with warehouse carpet area of 74,090 sft, Mezzanine area 500 sft, apron area of 12,525 sft, open parking area of 3,000 sft of which warehouse carpet area, and Mezzanine area is considered as chargeable area.*

### 4.1.7 Site Services and Finishes

| Particulars | Completed Blocks | Under Construction Blocks |
|---|---|---|
| Handover condition | Warm Shell | N.A. |
| Type of Structure | PEB | N.A. |
| Firefighting services | Provided. Fire NOC Available | N.A. |
| Lift provision | No Lifts | N.A. |
| Floor Finish | FM2 Concrete floor | N.A. |
| Floor Strength | 5 MT/Sqm | N.A. |

*Source: Information provided by the client, site visit*

### 4.1.8 Condition & Repair

Based on information provided by the client and corroborated with our visual inspection during the site visit, it is understood that the Subject Asset is in good condition and is well maintained. The table below highlights the major repairs and maintenance work/ infrastructure upgrade works to be undertaken over the next few quarters:

| Expense Head | Total Cost (INR Mn) |
|---|---|
| Refurbishment capex | NA |

*Source: Valuer Estimate and Information provided by the Client*

### 4.1.10 Details of the asset including whether the transaction is a related party transaction

Please refer to the Annexure section 7.1

### 4.1.11 Nature of the interest the InvIT holds or proposes to hold in the asset, percentage of interest of the InvIT in the asset

Please refer to the Annexure section 7.1

### 4.1.12 Structure of ownership of the asset by the InvIT

Please refer to the Annexure section 7.1

### 4.1.13 Description of key agreements and restrictions relevant to the asset such as terms of concession agreement, power purchase agreements, etc.

Please refer to the Annexure section 7.1

### 4.1.14 Life of the asset (both contractually and physical life requiring maintenance, replacement and right available to extend this life

Please refer to the Annexure section 7.1

### 4.1.15 Valuation of the asset in the previous 3 years

As of the date of this valuation report, the Subject Asset is not part of the Infrastructure Investment Trust (InVIT)

# 5 Valuation Approach & Methodology

## 5.1 Scope of Valuation

The valuation exercise is to assess the Market Value (MV) of the Subject Asset for the purpose of the offer of units through private placement of TVS Infrastructure Trust InvIT under the SEBI (Infrastructure Investment Trust) Regulations, 2014, as amended. The valuations have been conducted in accordance with the IVSC International Valuation Standards, (effective 31 January 2022) and in accordance with the requirements of the SEBI (Infrastructure Investment Trust) Regulations, 2014, as amended from time to time.

This valuer has assessed the Market Value of each individual Subject Asset, not the value of the portfolio, if all Assets were sold in one transaction. Where a summation of the individual Assets is provided, this is purely for reference only and should not be construed as the value of the portfolio. Kindly refer to the summary report section 1.0 for list of Subject Asset forming part of the portfolio.

## 5.2 Basis of Valuation

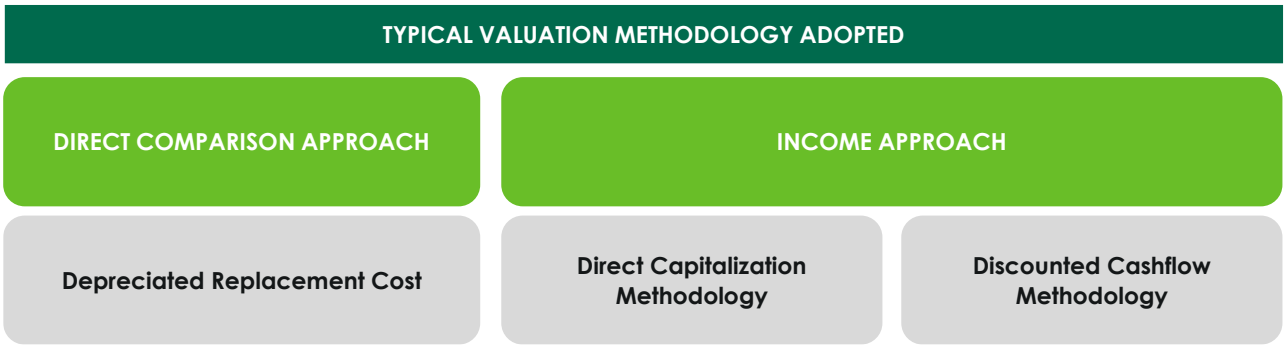
The valuations have been conducted in accordance with the IVSC International Valuation Standards issued in July 2021, effective from 31 January 2022), Regulation 21 and Schedule V of the SEBI (InvIT) Regulations, 2014 and is in compliance with the International Valuation Standards (IVS). The valuation exercise has been undertaken by appropriately qualified Valuer and will be assessing the Market Value of the ownership Interest in the Subject Asset.

As per the Valuation and Guidance Notes issued by the IVS, the market value is defined as:

***'The estimated amount for which** a asset or liability should exchange on the valuation date between a **willing buyer and a willing seller in an arm's length transaction, after proper marketing and where the parties had each acted knowledgeably, prudently and without compulsion'.***

## 5.3 Approach and Methodology

The purpose of this valuation exercise is to estimate the Market Value (MV) of the Subject Asset. Market Value can be derived through the following Methodologies:



### 5.3.1 Direct Comparison Approach

Under the 'Direct Comparison Approach', the asset is compared to similar Assets that have actually been sold in an arms-length transaction or are offered for sale (after deducting for value of built-up structure located thereon). The comparable evidence gathered during research is adjusted for premiums and discounts based on asset specific attributes to reflect the underlying value of the asset.

The value of the land component under this approach has been assessed based on comparison with similar Assets that have actually been sold in arms-length transaction or are offered for sale in the subject micromarket.

Based on our interactions with the local market players, we understand that the market has few Assets of comparable sizes which are currently available for sale in the market. Therefore, the value of the subject land parcel has been estimated through a direct comparison approach utilizing the seller quotes available in the market as well as few reported transactions.

The values for these comparable Assets are further adjusted for various premiums and discounts (viz. towards size, location, accessibility, frontage, visibility, ownership status, profile of the surrounding developments, zoning, etc.) vis-à-vis the Subject Asset to determine the achievable market value for the Subject Asset.

Based on the market research undertaken, it is understood that the capital values for land parcels in the subject micromarket are primarily governed by parameters which are as follows:

- Location & profile of surrounding developments – Based on our market study, it was identified that land parcels located in proximity to highway would command higher capital values in comparison to the land parcels located further away on internal village roads. In addition, based on our interactions with local market players, we understand that the land parcels located in proximity to existing village catchments command higher capital values as compared to those located further away from the existing village catchments.
- Size of the land parcel – Based on our interactions with the local market players, it was understood that the small-medium sized land parcels (approx. 1 – 5 acres) attract almost negligible discount on account of lesser quantum of investment involved and a shorter marketing timeframe required for disposal of such land parcels.
- Accessibility, frontage and visibility – Based on our market research, it was observed that the land parcels having superior frontage along the access road or by virtue of it being a two side or a three-side corner plot would command a premium vis-à-vis the other Assets. Further, it was observed that the Assets located on wider access roads command premium vis-à-vis Assets located along narrow access roads.
- Zoning and requisite clearances - Based on our market research, it was observed that the land parcels with industrial / multipurpose / residential use zoning would command a premium in comparison to the land parcels under agricultural use /conservation zone. Further, we understand that the land parcels with the requisite clearances in place such as NALA (Non-Agricultural Land Assessment) conversions, etc. command a premium over the agricultural land parcels.
- Physical conditions of the asset/ownership - Based on our market research, it was observed that the land parcels with site improvements such as compound wall, bore well, etc. command a premium. In addition, Assets with single owner would attract a premium as compared to the Assets with multiple owners.

### 5.3.2 Income Approach

The income approach is based on the premise that value of an income - producing asset is a function of future benefits and income derived from that asset. There are two commonly used methods of the income approach in real estate valuation namely, direct capitalization and discounted cash flow (DCF).

A. Direct Capitalization Method

Direct capitalization involves capitalizing a 'normalized' single - year net income estimated by an appropriate yield. This approach is best utilized with stable revenue producing assets, whereby there is little volatility in the net annual income.

B. Discounted Cash Flow Method

A Discounted Cash Flow Analysis is based upon estimates of future financial performance. The methodology begins with a set of assumptions regarding income and expenses of the Asset and future economic conditions in the local market. The income and expense figures are assessed with adjustments for estimated changes in economic conditions and any contractual commitments. The resultant value is considered the best estimate but is not to be construed as a prediction or guarantee and is fully dependent upon the reasonableness of the assumptions with respect to income, expenses, and market conditions, which are based on information available as at the valuation date.

## 5.4 Approach and Methodology Adopted

Considering the objective of this exercise, the nature of asset involved and the purpose of the valuation viz. to assess the Market Value (MV) of the Subject Asset for the purpose of the offer of units through private placement of TVS Infrastructure Trust InvIT under the SEBI (Infrastructure Investment Trust) Regulations, 2014 'Regulation', we have adopted the methodology considering Chapter 1 section 2 point (i) of the InvIT regulation, which states that, the assets forming part of InvIT should meet among the below criteria as follow:

1. The infrastructure asset has achieved the commercial operations date as defined under the relevant asset agreement including concession agreement, power purchase agreement or any other agreement of a similar nature entered into in relation to the operation of the asset or in any agreement entered into with the lenders
2. The infrastructure asset has received all the requisite approvals and certifications for commencing operations
3. The infrastructure asset has been generating revenue from operations for a period of not less than one year

Hence owing to the above stated conditions, we are of the opinion that the income approach which is appropriate to value such asset based on the premise that value of an income - producing asset is a function of future benefits and income derived from that asset.

Under the Income approach, Discounted Cash Flow Analysis is based upon estimates of future financial performance which also considers the income and expenses of the Asset accounting for the future fluctuations due to expected market dynamics.

Hence, for the purpose of this valuation exercise, we have adopted Discounted Cash Flow Method (using rent reversion approach).

For the purpose of this valuation exercise, we have analysed the tenancy details provided by the Client to identify variances vis-à-vis prevailing marginal rent. In the event the contracted rent is within the threshold (15.0%), we have assumed that the tenant will continue on the current agreed terms. In the event the rent is higher than the marginal rent threshold, we have assumed that the lease would be renegotiated to marginal rent terms (at the time of the lock-in expiry, next escalation, etc.).

<u>Asset-specific Review:</u>

1. As the first step to the valuation of the asset, the lease deeds were reviewed to identify tenancy characteristics with respect to contractual commitments and commercial covenants.
2. Title documents and architect certificates were reviewed for validation of area details, ownership of the asset.

3. The Valuer has undertaken physical site inspections to assess the status of the Subject Asset in terms of their physical configuration, capacity and upkeep.

Micromarket Review/Market Rental Assessment:

The Palladam-Cochin Frontier Road, the city's primary warehousing corridor, currently accommodates approximately 86% of the total completed supply and is poised for further growth with additional Grade A and B developments. Major players such as Indospace, TVS, NDR, and VSMC have expansion plans, supported by the availability of extensive land banks along this stretch, which adds potential for further warehousing supply. The demand from 3PL, FMCG, and e-commerce sectors primarily fuels large-scale space offtakes from Grade A or B developments.

A primary research exercise has been carried out in the catchment area to ascertain the prevalent activity levels in terms of quoted / transacted evidence of the recent leasing activity for warehousing facility. This has been achieved through interactions with various market players such as local real estate brokers, developers, owners, etc. Based on the same, we understand that variance across rentals is primarily due to factors such as type of asset, developer brand, location, accessibility, overall tenant mix, quantum of vacant stock in the development, specifications, and additional improvements, etc.

For the micromarket review and market rental assessment we have relied upon the report on 'Market Analysis of Warehousing assets in Identified locations pan India' prepared by CBRE South Asia Private Limited, hereafter referred as 'CBRE' (an independent agency appointed by the Client to undertake market research, provide market summary and data for the purpose of this assignment)

Cash Flow Assertions:

We have assessed future cash flows from the Subject Asset based on existing lease terms and contractual lease payments for the operational area until the expiry of the leases or re-negotiation (using the variance analysis), whichever is earlier.

Based on a detailed review of the leases for the Subject Asset, we noted that the operational leasable area is approx. 100% leased out as on date of valuation (completed blocks). Since the real estate industry is dynamic and is influenced by various factors (such as existing supply, tenants looking at spaces, quality of spaces available in the market, overall health of the economy, existing rent, future growth plans, etc.) at a particular point in time, negotiated rent may tend to move away from the prevalent market rent over a period of time. It has also been witnessed that the market rent for some Assets or micromarkets increase or decrease at a rate significantly different from those agreed to in initial leases. These factors reinforce the need to review each of these leases in isolation to assess the intrinsic value of the asset under review.

Post this, the lease terms have been aligned with market rentals. For vacant area and under-construction/proposed area, the Valuer has asserted the market rent led cash flows factoring appropriate lease-up time frame for vacant/under-construction/proposed area. These cash flows have been asserted for 10-year duration from the date of valuation and for 11th year (for assessment of terminal value). These future financial benefits are then discounted to a present-day value (valuation date) at an appropriate discount rate.

## 5.5 Information Sources for Valuation

Asset related information referred to for the valuation exercise have been provided by the Client unless otherwise mentioned. We have assumed the documents to be a true copy of the original. The rent rolls have been cross-checked with the lease deeds on a sample basis to verify the authenticity. Additionally, wherever possible, we have independently revalidated the information by reviewing the originals as provided by the Client.

Table below highlights various data points referred throughout the course of this valuation report and the data sources for the same. Asset related documents referred to in the table below have been provided to the Valuer by the Client unless otherwise mentioned. The Valuer have assumed the documents to be a true copy of the original.

# 6 Value Assessment

## 6.1 Value Assessment

### 6.1.1 Adopted Methodology

We acknowledge that the approaches to valuation differ considerably and that for a particular purpose, alternative approaches to the valuation can be utilized. Considering the objective of this exercise and the nature of asset involved, the value of the Subject Asset has been assessed through the following approaches:

| Asset Name | Valuation Methodology (Completed Blocks) | Valuation Methodology (Under-construction Blocks) |
|---|---|---|
| TVS Industrial and Logistics Park, Sulur | Discounted Cash Flow (Using rent reversion approach) | Discounted Cash Flow (Using rent reversion approach) |

The sections below highlight the detailed valuation workings for the Subject Asset.

## 6.2 Operational Assumptions

### 6.2.1 Area statement

Based on information from inputs shared by the client, we understand that Subject Asset is an under-construction warehousing facility. Further, the table below highlights the area configuration of the Subject Asset:

| Block | Total Area (sft)* | Operational Area (sft)[2] | Under construction Area (sft)* |
|---|---|---|---|
| TVSILP – Block I | 1,00,812 | 1,00,812 | - |
| TVSILP – Block I (Mezzanine) | 2,575 | 2,575 | |
| TVSILP – Block II | 1,31,896 | 1,31,896 | - |
| TVSILP – Block III A | 74,590 | 74,590 | - |
| TVSILP – Block III B | 37,760 | 37,760 | - |
| TVSILP – Block III C | 64,418 | 64,418 | - |
| TVSILP – Block III D | 6,000 | 6,000 | - |
| TVSILP – Block III | 1,03,828 | 1,03,828 | - |
| Total | 5,21,879 | 5,21,879 | - |

*Source: Client Inputs *Area mentioned is chargeable area*

| Tenant | Chargeable Area (sft) | % of area leased | Total In-place rental (INR psf pm) | Total In-place rental (INR Mn pm) |
|---|---|---|---|---|
| TVS Industrial and Logistics Park, Sulur | 5,21,879 | 100%* | 19.2 | 10.0 |

*Source: Lease deed *100% of the operational area is leased.*

[2] *As per the details provided by the client, the rental revenue has been calculated and other analysis are performed on chargeable area. Further, leasable area mentioned is in accordance with the information shared by the Client comprising rent rolls and lease agreements.*

## 6.3 Tenancy Analysis

### 6.3.1 Historical Occupancy Rates

The table below highlights the historical occupancy rates at the subject development:

| Particulars | Occupancy % |
|---|---|
| Occupancy (completed blocks) | 100% |
| Pre-Commitment (under construction blocks) | 0% |

*Source: Lease deed and Client inputs;*

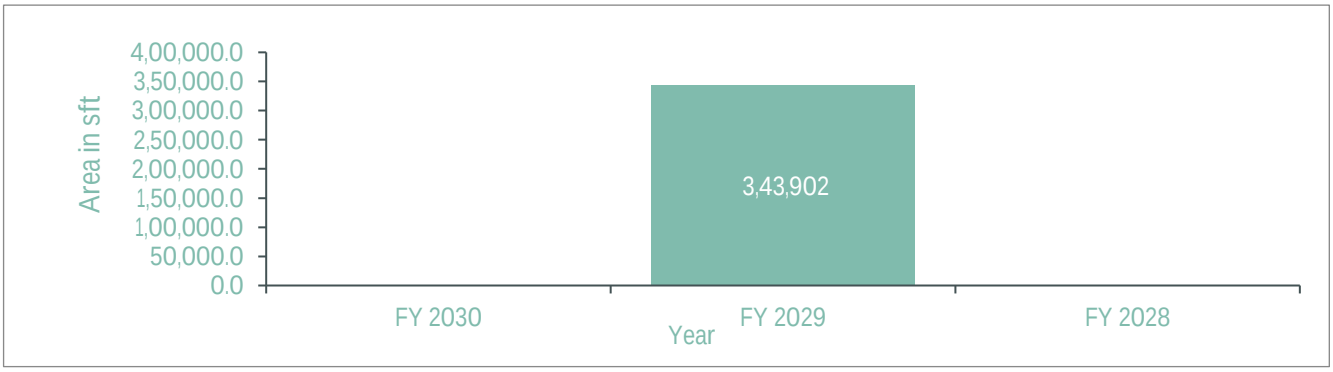
### 6.3.2 Lease Rent Analysis

Based on the review of the Lease Deed provided by the client, we understand that the lease agreements were signed between TVS infrastructure Pvt ltd and the tenants, details of which are mentioned below:

| Tenant | Particulars | Details |
|---|---|---|
| Consumer Durables and Electronics Retailer | Lease Commencement Date | 25 July 2024 |
| | Rent Commencement Date | 08 September 2024 |
| | Lock-in Period | 2 Years |
| | Lease Tenure/Remaining Tenure | 5.0/4.75 Years |
| | Lease Rent Escalation Terms | 5% every year |
| FMCG Company | Lease Commencement Date | 25 July 2024 |
| | Rent Commencement Date | 08 September 2024 |
| | Lock-in Period | 2 Years |
| | Lease Tenure/Remaining Tenure | 5.0/4.75 Years |
| | Lease Rent Escalation Terms | 5% every year |
| Manufacturing Company | Lease Commencement Date | 1st July 2024 |
| | Rent Commencement Date | 1st August 2024 |
| | Lock-in Period | 2 Years |
| | Lease Tenure/Remaining Tenure | 5.0/4.75 Years |
| | Lease Rent Escalation Terms | 4% every year |
| Consumer Durables and Electronics Retailer | Lease Commencement Date | 10th February 2023 |
| | Rent Commencement Date | 10th February 2023 |
| | Lock-in Period | 3 Years |
| | Lease Tenure/Remaining Tenure | 9.0/7.6 Years |
| | Lease Rent Escalation Terms | 4.25% every year |
| FMCG Company | Lease Commencement Date | 08th May 2023 |
| | Rent Commencement Date | 08th May 2023 |
| | Lock-in Period | 3 Years |
| | Lease Tenure/Remaining Tenure | 6.0/4.7 Years |
| | Lease Rent Escalation Terms | 4% every year |
| Consumer Durables and Electronics Retailer | Lease Commencement Date | 12th January 2024 |
| | Rent Commencement Date | 12th January 2024 |
| | Lock-in Period | 3 Years |
| | Lease Tenure/Remaining Tenure | 9.0/8.5 Years |
| | Lease Rent Escalation Terms | 4% every year |

### 6.3.3 Lease Expiry Profile

The Weighted Average Lease Expiry (WALE) of the Subject Asset is 5.8 years, with 65% of occupied area expiring in FY 2029 as shown in the chart below.



*Source:* Valuer Workings; The expiry profile has been plotted only for the warehouse areas

### 6.3.4 Tenant Obligations

Based on the review of the lease deed, we understand that the operational expenses listed below will have to be borne by the Tenant.

| S. No | Description of operational expenses |
|---|---|
| 1 | Regular Maintenance |
| 2 | Taxes |
| 3 | Insurance |
| 4 | General Wear and Tear |
| 5 | Other Expenses such as utility charges towards any Governmental authorities or Concerned service provider. |

*Source: Client Inputs*

Contractual Rental Details

| Tenant | Chargeable Area* (sft) | % of area leased^ | Total In-place rental (INR psf pm) | Total In-place rental (INR Mn pm) |
|---|---|---|---|---|
| TVS Industrial and Logistics Park, Sulur | 5,12,384 | 100%* | 19.2 | 10.0 |

*Source: Leased Deed and Information provided by the Client *Area considered is chargeable area ^100% of the operational area.*

Based on the recent transaction witnessed in the micromarket as highlighted in the table above and transaction witnessed in the Subject Asset, we understand that the Subject Asset would command a marginal rental (for warehouse space) of INR 20 – 22 per sf per month (say an average rental of INR 21.0 per sf per month of leasable area).

### 6.3.5 Construction Timelines

#### 6.3.5.1 Completed Blocks

The asset was completed in a phase-wise manner with Phase 1 (Block 1) completed and operationalised during Q1 2023, Phase 2 (Block 2) completed and operationalised during Q2 2023, Phase 3 (Block 3 A) completed and operationalised during Q1 2024, Phase 4 (Block 3 B, Block 3 C, Block 3 D) completed and operationalised during Q 3 2024 and Phase 5 (Block 3) completed during Q4 2024 and will be operationalised during Q1 2025.

#### 6.3.5.2 Under-Construction/ Proposed Blocks

Based on the information provided by the client, we understand the subject asset is completed and fully operational.

### 6.3.6 Absorption/ Leasing Velocity and Occupancy Profile

#### 6.3.6.1 Completed Blocks

As per the rent roll provided by the client, we understand that the completed blocks have an occupancy of 100% as on date of valuation. Further, in order to arrive at the future absorption levels at the Subject Asset, we have analysed the historical demand and supply trends coupled with the estimation of future supply proposed to be introduced in the subject micromarket.

#### 6.3.6.2 Under-Construction/ Proposed Blocks

Based on the information provided by the client, we understand the subject asset is completed and fully operational.

### 6.3.7 Revenue Assumptions

#### 6.3.7.1 Warehouse Component

For the purpose of this valuation exercise, the lease rent adopted for the area already leased is based on the rent roll/lease deeds shared by the Client. Further, the Valuer have undertaken an in-depth market research exercise to assess the prevailing rent values in the subject micromarket. The same has been adopted for the vacant space for the purpose of this valuation exercise.

Based on our market study and based on the analysis of the rent roll provided by the client, following rent has been adopted for the purpose of value assessment of the completed blocks at the Subject Asset. The detailed rent assessment workings are highlighted in the lease rent analysis section presented above.

| Component | Leasable Area (sft) | Chargeable Area (sft) | Leased Area - Chargeable (sft) | Basis | Rent Adopted* (INR psf pm) |
|---|---|---|---|---|---|
| Warehouse | 6,06,375 | 5,12,384 | 5,12,384 | Current Rent for Leased area | 19.2^ |
| | | | | Market rent for reversion/ vacant area | 21.0 |

*Source: Lease deed provided by the client; Valuer's assessment*

The above market rent assumption is adopted for the entire subject development. In addition to undertaking an in-depth market analysis, a detailed analysis of the rent rolls was also undertaken to understand aspects such as area occupied, current rent and expiry analysis of the key tenants in the park.

For the purpose of this valuation exercise, the lease rent adopted for the area already leased is based on the lease deed shared by the client. Further, an in-depth market research exercise has been undertaken to assess the expected economic rental value of the Subject Asset.

Based on our market study, we understand that the contracted rental of the Subject Asset is in line with the expected economic rental values. Hence, we have considered contracted rentals for the purpose of value assessment at the Subject Asset.

#### 6.3.7.2 Non-Warehouse Component

As per the information provided by the client, it is understood that an industrial open space area/ mezzanine area measuring approx. 2,575 sf of which 100% is leased out. The Mezzanine area will operate as ancillary/ (comment on the utility) providing convenience to the tenants in the Subject Asset as well as surrounding development.

The Valuers have undertaken an in-depth market research exercise to assess the prevailing rent values in the subject micromarket and existing leases of Subject Asset. The same has been adopted for the vacant space for the purpose of this valuation exercise. Currently the completed blocks are 100% leased. Given the above, we have assumed market rent in the range of INR 9.0 to 11.0 psf pm (say INR 9 psf pm) as on date of valuation.

### 6.3.8 Rent Escalation

Based on an analysis of existing lease rolls and recent leasing at the Subject Asset, it was observed that the typical escalation clause in the Subject Asset is approx. 5.0% every year, which is in-line with the trend observed in the market. The same has been adopted for the vacant area and renewals at the Subject Asset.

Escalation on renewal - Based on the analysis of terms of lease deed, it was observed that the typical escalation clause in the Subject Asset is 5% per annum, which is in-line with the trend observed in the market. The same has been adopted by the Valuer.

| Particulars | Unit | Details |
|---|---|---|
| Lease Rental Escalations | % p.a. | 5.0% |

*Source: Valuer's assessment*

Market Rent Escalation - Based on the trend observed in the market and based on review of the Industry Assessment report, the valuer has considered a market escalation of 5% per annum effective from the date of valuation. The assumption for market rent for this appraisal exercise is as follows:

| Particulars | Sept 2024 | March 2025 | March 2026 | March 2027 Onwards |
|---|---|---|---|---|
| Market Rent Escalation | 20.1* | 21.1 | 22.1 | 5% escalation year on year |

*Source: Valuer's assessment; *Weighted Average Market Rent*

### 6.3.9 Other Revenues

In addition to lease rent revenues, assets typically have additional sources of revenue. These include revenues on account of security deposit (refunded at the time of lease expiry / exit), other miscellaneous income etc.

The assumptions considered for the aforementioned revenue heads for the purpose of this valuation exercise are based on the rent roll & lease deeds provided by the client. The same has been cross-checked with the prevailing market norms for other revenues and were found to be broadly in line.

The assumptions adopted for other revenues are as tabulated below:

| Nature of Income | Details | Units |
|---|---|---|
| Security Deposit (For vacant spaces) | 6.0 | No. of months' warm shell rental |
| CAM Income (For vacant area and Development component) | 1.0 | INR per sft per month |
| Other Income | 2.0% | % of total revenue |

*Source: Valuer's assessment*

### 6.3.10 Capital Expenditure

#### 6.3.10.1 Development Cost

The subject property is an operational warehousing facility.

#### 6.3.10.2 Major Repair and improvements

As per information provided by the client and our visual inspection, we understand that there are no major repairs and improvement proposed in the said asset.

### 6.3.11 Operating Cost

An Asset typically has few recurring operation expenses required for the upkeep running of the development.

In addition to capital expenditure, an asset typically has few recurring operational expenses required for the up-keep and running of the asset. Based on information provided by the client and market assessment, following recurring expense assumptions have been adopted for the purpose of this valuation exercise.

Completed Blocks

| Nature of Expense | Details |
|---|---|
| Asset Management Fee^ | 3.0% of rental income |
| Property Tax* | INR 0.74 Mn |
| Insurance* | INR 0.40 Mn |
| Vacancy Allowance during operations | 1.0% |
| Vacancy Allowance on Exit | 2.5% |
| Refurbishment Reserve | 1.5% of rental income |
| Repair Margin | 0.5% of rental income |

*Source: Client input; Valuer's assessment; *As per the lease terms and the information provided by the Client; ^Asset Management fees has been considered as below the NOI line item.*

### 6.3.12 Other Assumptions

#### 6.3.12.1 Vacancy provision

Based on review of the rent roll provided, we understand that that the completed portion of the Subject Asset is fully occupied with significantly longer lease periods. Considering the same alongside other asset level parameters (location, amenities, grade, infrastructure etc) and market benchmarks, the valuer has adopted a vacancy provision as follows:

| Description | Completed Blocks |
|---|---|
| Vacancy Provision | During Operations – 1.0%<br>Assessment at the time of exit – 2.5% |

*Source: Valuer's assessment*

#### 6.3.12.2 Revenue escalation

Based on prevailing market condition, historical rent growth achieved by the Subject Asset and our interactions with market participants, we are of the opinion that the annual marginal rent growth of 5.0% has been considered for the FY 2024 and year on year thereafter.

#### 6.3.12.3 Rent-free period

Based on the rent roll provided by the client, it is understood that the existing leases have a rent-free period ranging from 0.5 months to 1.5 months from the lease-commencement date. However, based on recent market trends in the subject micromarket, we have considered a rent-free period of 1 months for new-leases and for re-leasing effective from the lease commencement date.

#### 6.3.12.4 Brokerage

Based on prevalent market dynamics, we have considered brokerage equivalent to 1 month of rental income for future / new leases

#### 6.3.12.5 CAM Cashflows

CAM Cashflows for the Subject Asset have been assessed both during the holding period and at the time of notional exit. Margin on CAM and CAM Recoveries are included in the financials as per the CAM Charge based on historical performance of the Subject Asset as per the inputs provided by the Client and market benchmarks. The same is a pass through expense.

Based on on the subsequent information provided by the Client, we understand that the 100% of the CAM Income would be received by the Client entity/ InvIT entity (as per details from Client) and 100% of the CAM Expense would be borne by tenants/ SPV.

## 6.4 Financial Assumptions

### 6.4.1 Exit Capitalization Rate Adopted

The capitalization rate adopted for valuing the assets has been based on factors such as:

- Historical entry yields (going in cap rates) for yield/ core warehousing asset transactions across various key markets in India have steadily shown a downward trend over last 7 - 8 years from 10.0- 12.0% to about 7.0% - 8.5% in last 1-2 years.

- The increased appetite for income producing assets and availability of various modes of finance (real estate credit flows) backing such acquisitions.
- Yields for warehousing assets across various markets in India have a range of 7.5 – 8.5% in Tier I locations, with Tier II locations having cap rate approx. 50 – 100 bps on the higher vis-a-vis the Tier I location
- Liquidity associated with InvIT listed/ public listings (multiplicity of buyers and relatively lower budgets per buyer)

Based on the above highlighted attributes, the following cap rate has been adopted for the purpose of our valuation:

| Asset Name | SPV/Hold Co | Status of the Asset | Details |
|---|---|---|---|
| TVS Industrial and Logistics Park, Sulur | Durgeshwari Industrial & Logistics Parks Private Limited | Completed | 7.75% |

*Source: Valuer's assessment*

### 6.4.2 Discount Rate Adopted

For discounting the cash flows, an appropriate discount rate has been calculated on the basis of estimated 'Weighted Average Cost of Capital' (WACC).

### 6.4.3 Cost of Equity

The Valuer has computed the cost of equity as per the Capital Asset Pricing Model (CAPM), which is derived as follows:

Cost of equity = Risk Free Rate (Rf) + Beta (**β**) * (Market Return (Rm) **–** Risk Free Rate (Rf))

As mentioned above, the cost of equity computed using CAPM constitutes of the following components:

- Risk free rate (Rf) i.e., long term (10-year) treasury bond rate in India
- Market return (Rm) based on the returns of Sensex index for the past 10 years
- Computation of 'Beta (β)' of key listed realty stocks and REITs/ InvITs in India with respect to the Broad-Based BSE 500 stock index

The cost of equity adopted for specific assets has been adjusted for market/ asset specific risk pertaining to a real estate assets such as execution risk (construction status, marketing risk, etc. and adjusted for taxation. While the assumptions regarding the quantum of these risks have no quantitative basis, we have adopted them based on our understanding of the market and our opinion on the asset performance.

### 6.4.4 Cost of Debt

Completed Blocks

The cost of debt for competed blocks has been considered based on prevalent Lease Rental Discounting (LRD) rates for Grade A warehousing developments across the Palladam – Cochin frontier micromarkets which are in the range of 7.0% – 9.0% depending upon the location, asset quality, occupancy, etc.

Under Construction/ Proposed Blocks

For under construction/ proposed blocks, the cost of debt has been considered based on prevalent Construction Finance (CF) rates for warehousing facilities parks across Coimbatore which are in the range of 10.0% – 12.0% depending upon the location, asset quality, developer reputation and credit profile, etc.

### 6.4.5 Weighted Average Cost of Capital (WACC)

As highlighted earlier, the cost of debt has been assumed based on the prevalent LRD rates and construction financing for under-construction assets, while the cost of equity assumed has been adjusted for asset and market specific attributes to reflect the market expectations from an operational institutional development. Further, the proportion of debt and equity has been derived considering the prevalent LRD tenures and its contribution in the overall asset value.

Completed Blocks

Based on above, the following WACC rate has been assumed for the completed TVS Industrial and Logistics Park, Sulur assets forming part of the InvIT portfolio:

| Asset Name | SPV/Hold Co | Particular | Proportion | Cost | WACC |
|---|---|---|---|---|---|
| Coimbatore (Sulur) Park | TVS Industrial & Logistics Parks Private Limited | Debt | 35.0% | 8.0% | 11.58% |
| | | Equity | 65.0% | 13.50% | |

*Source: Valuer's assessment; Please note that the cash flows are assumed to realize evenly during the course of every quarter; hence a mid-quarter discounting convention has been adopted for the purpose of this valuation. Additionally, we have not factored any cash flows attributable to working capital requirement/expenses for valuation as the same is immaterial.*

## 6.5 Value of the Subject Asset

The Valuer is of the opinion that subject to the overriding stipulations contained within the body of this report and to there being no onerous restrictions or unusual encumbrances of which he has no knowledge, the opinion of value of the complete ownership interest in the Subject asset comprising land and improvements thereon, as explained above, as on 30th September 2024 is as follows:

| Asset Name | Component | Market Value (INR Mn) |
|---|---|---|
| Coimbatore (Sulur) Park | Constructed | 1776.1 |
| Total Value of the asset | | 1776.1 |

*Source: Valuer's assessment*

# 7 Exhibits and Addendums

## 7.1 Other Mandatory Disclosures

### 7.1.1 Details of On-going material litigations including tax disputes in relation to the assets

As per our interaction with the Client, the Client has confirmed that there are no material litigation details pertaining to the asset. Please note that the Valuer has not investigated nor has been provided with any supporting documents.

Please refer to the section on litigations in the draft Offer Document for details on material litigations for various assets.

### 7.1.2 Details of options or rights of pre-emption and other encumbrances

As per our interaction with the Client and our scope of services, please note that the Valuer has not investigated nor has been provided with any supporting documents.

Please refer to the section on litigations in the draft Offer Document for details on material litigations for various assets

### 7.1.3 Vulnerability to natural or induced hazards that may not have been covered in town planning/ building control.

As per our interaction with the Client, the Client has confirmed that there are no Vulnerabilities pertaining to the asset. Please note that the Valuer has not investigated nor has been provided with any supporting documents.

Also, in our professional judgment based on site inspection, there were no visible vulnerabilities

### 7.1.4 Details of Revenue Pendencies including local authority taxes associated with InvIT asset and compounding.

As per our interaction with the Client, the Client has confirmed that there is no revenue pendency to the asset. Please note that the Valuer has not investigated nor has been provided with any supporting documents.

Please refer to the section on litigations in the draft Offer Document for details on material litigations for various assets.

Our assessment is under the assumption the asset has a clear title and is free from any encumbrances, disputes, claims that would affect the value. This should be verified by an asset lawyer prior to relying on this valuation.

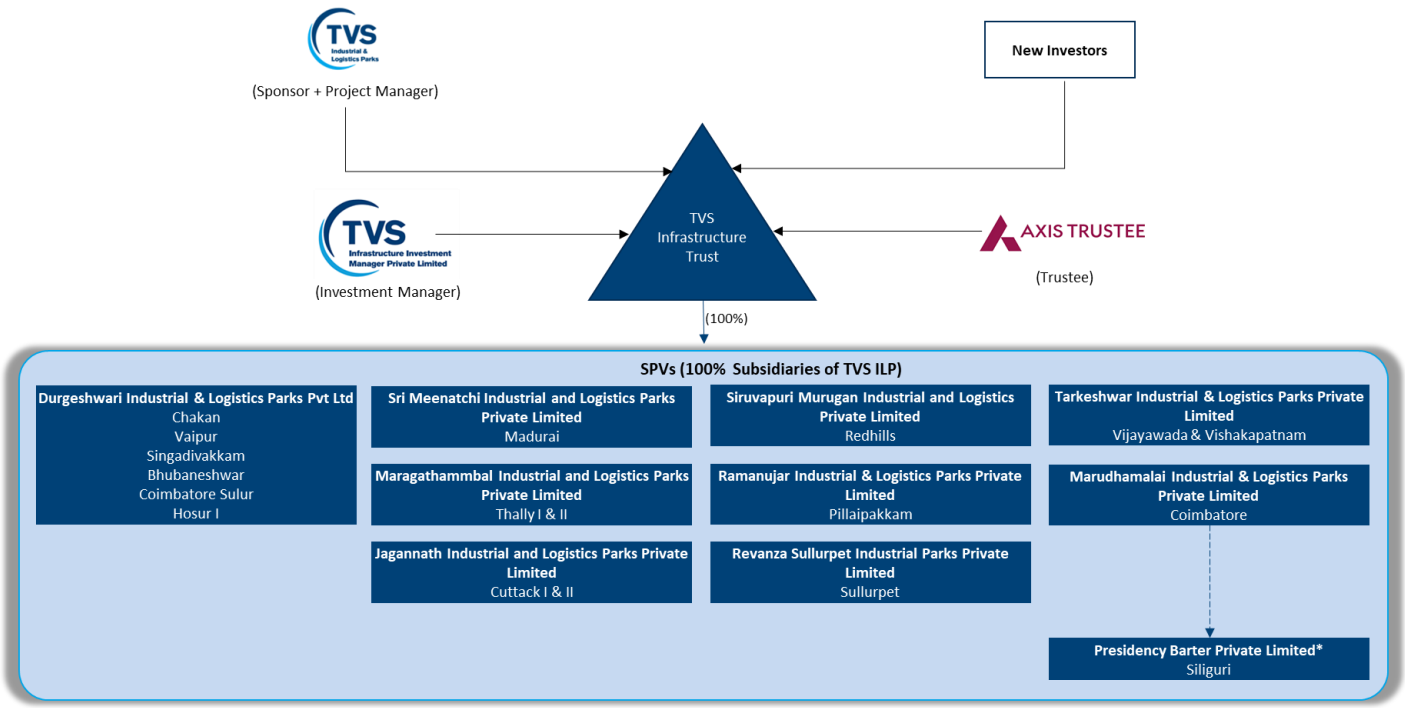
### 7.1.5 Details of the asset including whether the transaction is a related party transaction

The asset is proposed to be acquired from the Sponsor, which is identified as related party under SEBI (InviT) Regulations

### 7.1.6 Nature of the interest the InvIT holds or proposes to hold in the asset, percentage of interest of the InvIT in the asset

As per our interaction with the Client, the Client has confirmed that 100% to be help by the InvIT.

### 7.1.7 Structure of ownership of the asset by the InvIT



*Presidency Barter Private Limited is a 100% subsidiary of Marudhamalai Industrial & Logistics Parks Private Limited

### 7.1.8 Description of key agreements and restrictions relevant to the asset such as terms of concession agreement, power purchase agreements, etc.

As per our interaction with the Client, the Client has confirmed that the same is not applicable to their business

### 7.1.9 Life of the asset (both contractually and physical life requiring maintenance, replacement and right available to extend this life

| S.No | Particulars | Details |
|---|---|---|
| 1 | Remaining Physical Life of the Building asset requiring maintenance | Remaining period of Building 1 is 28.2 years, Building 2 is 28.6 years, Building 3 is 29.9 years and Building 4 is 29.8 years |
| 2 | Remaining Contractual Life of underlying Land | Perpetual, since the underlying land is freehold in nature |
| 3 | Right to extend the contractual life of land | Not applicable. The underlying land is freehold in nature |

## 7.2 Site Plan

### 7.2.1 TVS Industrial and Logistics Park, Sulur

## 7.3 Statutory Approvals, One-time Sanctions & Periodic Clearances

### 7.3.1 Agriculture NOC

**"Legal Notice and Disclaimer"**

This summary report (the "Report") has been prepared by iVAS Partners. ("iVAS") exclusively for TVS Industrial & Logistics Parks Private Limited (the "Instructing Party" or the "Client"), in accordance with the Agreement entered into between iVAS and the Instructing Party dated 1st February 2024 (the "Agreement"). The Report is confidential to the Instructing Party and any other Addressees named herein and the Instructing Party and the Addressees may not disclose the Report unless expressly permitted to do so under the Agreement.

Where iVAS has expressly agreed that persons other than the Instructing Party or the Addressees can rely upon the Report (a "Reliant Party" or "Reliant Parties") then iVAS shall have no greater liability to any Reliant Party than it would have if such party had been named as a joint client under the Agreement.

iVAS's maximum aggregate liability to the Instructing Party and to any Reliant Parties howsoever arising under, in connection with or pursuant to this Report and/or the Agreement together, whether in contract, tort, negligence or otherwise shall be limited as defined under the terms of the Agreement.

iVAS shall not be liable for any indirect, special or consequential loss or damage howsoever caused, whether in contract, tort, negligence or otherwise, arising from or in connection with this Report. Nothing in this Report shall exclude liability which cannot be excluded by law.

If you are neither the Instructing Party, an Addressee nor a Reliant Party then you are viewing this Report on a non-reliance basis and for informational purposes only. You may not rely on the Report for any purpose whatsoever and iVAS shall not be liable for any loss or damage you may suffer (whether direct, indirect or consequential) as a result of unauthorized use of or reliance on this Report. iVAS gives no undertaking to provide any additional information or correct any inaccuracies in the Report.

For the avoidance of doubt, nothing in our Report will constitute any recommendation, investment advice or an offer or solicitation for the purpose of or for sale of any securities, financial instrument or products or other services. Any investors should make their own investment decisions in relation to any investments. If you do not understand this legal notice, then it is recommended that you seek independent legal advice.

# 1 Executive Summary

| | |
|---|---|
| Asset Name: | Madurai Park (the "Subject Asset") |
| Asset Address: | Survey Nos: 76/3, 76/4, 765A1, 76/5B1, 78/3A1, 78/3B, 78/3C, 78/3D, 78/3E, 78/3F, 78/3G, 78/3H, 78/3I, 78/3J1, and 78/4 of Vairavanatham Village and Panchayat, Madurai West Panchayat Union, Madurai North Taluk, Madurai District, Tamil Nadu. |
| Instructing Party: | TVS Industrial & Logistics Parks Private Limited (the "Client") |
| SPV Name: | Sri Meenatchi Industrial & Logistics Parks Private Limited |
| Interest Valued: | 100% Freehold interest |
| Land Area: | As per the review of the sanctioned layout provided by the client, it is understood that the total underlying land area of the Subject Asset is approx. 16.02 acres. |
| Brief Description: | Based on the review of sanctioned layout shared by the client and subsequent site visit undertaken, it is understood that the Subject Asset is a partly development warehousing facility with 2 operational blocks and an under-construction block located at Vairavanatham Village, Madurai District. The Subject Asset, which admeasures a land area of approx. 16.02 acres, comprises of three blocks with leasable area of approx. 3,92,648 sft and a cumulative chargeable area of approx. 3,91,623 sft (Phase I – approx. 3,01,533 sft & Phase II – approx. 90,439 sft), compromising of Block I Part 1, 2, 3, 4 and 5 & Block II Part 1, 2 & 3, and Block III Part 1, 2 & 3.<br><br>Further, based on the information provided by the client and the visual inspection undertaken, it was observed that the subject land parcel is contiguous in nature, even in terrain, is regular in shape and on the same level as abutting road and adjoining properties. Also, the Subject Asset enjoys good frontage along the primary access road. The access road abuts the Subject Asset in its northern side.<br><br>The subject asset is located in close proximity to NH-44, Vairavanatham Village, Madurai. The Subject Asset is a grade A warehouse with PEB structures having all requisite facilities such as DG and Transformer Yard (25 KVA and 630 KVA respectively), Sewage Treatment Plant – STP (50KLD Daiki tank), Storm water network (Hume pipe), Fire Fighting Systems of NFPA/NBC standard, FM2 flooring type with floor load of 5T per sqm and a maximum power load of 175 KVA extendable up to 630 KVA.<br><br>The area details of the asset are as follows: |

| Any matters which may affect the asset or its value | Please refer section 7.5 of this report |
| Assumptions, Disclaimers, Limitations & Qualifications | *This valuation report is provided subject to assumptions, disclaimers, limitations and qualifications detailed throughout this report which are made in conjunction with those included within the Assumptions, Disclaimers, Limitations & Qualifications section located within this report.*<br><br>*Reliance on this report and extension of our liability is conditional upon the reader's acknowledgement and understanding of these statements. This valuation is for the use of the party to whom it is addressed and for no other purpose. No responsibility is accepted to any third party who may use or rely on the whole or any part of the content of this valuation. The valuer has no pecuniary interest that would conflict with the proper valuation of the asset.*<br><br>*Please note that is an executive summary and it is advisable that the report should be the valuation* |
| Heightened Market Volatility: | We draw your attention to current heightened geopolitical tensions, low economic growth in many major countries, and a "higher for longer" interest rate sentiment which have increased the potential for constrained credit markets, negative capital value movements and continued volatility in some property markets over the short-to-medium term. |

Experience has shown that consumer and investor behaviour can quickly change during periods of such heightened volatility. Lending or investment decisions should reflect any heightened level of volatility and potential for changing market conditions. Lending and investment caution is advised in this regard.

It is important to note that the conclusions set out in this report are valid as at the valuation date only. Where appropriate, we recommend that the valuation is closely monitored, as we continue to track how markets respond to evolving events.

**Construction Cost Volatility:**

Although general increases in material costs have stabilised since 2022, some specialised supply chains and construction-related labour costs remain volatile with the potential for further increases. This has created uncertainty in cost estimates, which is likely to continue.

In addition, there are significant risks that delays may be encountered in sourcing specialised materials and labour, and as such, the potential for ongoing cost escalations and delays is high. This may place additional pressure on developer and contractor profit margins and development viability.

These inherent risks should therefore be given careful consideration in lending and investment decisions. Caution is advised in this regard.

**Valuer Declaration:**

i. the valuer is competent to undertake the valuation

ii. the valuer is independent and has prepared the report on a fair and unbiased basis

iii. the valuer has valued the assets based on the valuation standards as specified under sub-regulation 10 of regulation 21

# 2 Instruction

iVAS Partners ( Valuer Registration Number: IBBI/RV-E/02/2020/112; hereinafter referred as 'Valuer') represented by its partner Mr. Shubhendu Saha, a registered valuer under the Companies Act 2013 with IBBI (Valuer Registration Number: IBBI/RV/05/2019/11552) has been instructed by TVS Industrial & Logistics Parks Private Limited (hereinafter referred as the "Instructing Party", or the "Client") to estimate upon the Market Value (MV) of a Warehousing asset located at Vairavanatham Village and Panchayat, Madurai West Panchayat Union, Madurai North Taluk, Madurai District.

Based on information provided by the client, we understand that the underlying land parcel of the Subject Asset admeasures approx. 16.02 acres with a total leasable area of approx. 4,32,713 sft and a cumulative chargeable area of approx. 3,91,972 sft.

iVAS Partners is referred to as the **'Valuer'** for the purpose of this report.

The details of the Subject Asset under the purview of this valuation exercise are tabulated below:

| Asset Name | SPV/Hold Co | Asset Type | Location | Land area | No. of Blocks |
|---|---|---|---|---|---|
| Madurai Park | Sri Meenatchi Industrial & Logistics Parks Pvt Ltd | Warehouse | Vairavanatham, Madurai | 16.02 acres | 3 |

*Source: Client Inputs*

For clarity, we are valuing the Property/ Asset only, not the SPV/Hold Co, which has been provided for reference only.

## 2.1 Purpose

As per our instructions the valuation is required by the Client for a proposed offer of units through private placement (the "Private Placement") as defined under the Securities and Exchange Board of India (Infrastructure Investment Trust) Regulations, 2014, as amended, together with clarifications, guidelines and notifications issued thereunder, on the Indian stock exchanges. In relation to the Private Placement, the Valuation report, a summary thereof and/or extracts of the report are intended to be included in the offer documents filed by the TVS Infrastructure Trust with the Securities and Exchange Board of India (SEBI) and the stock exchanges where the units of the InvIT are proposed to be listed.

In addition, other documents in relation to the Private Placement such as publicity material, research reports, presentations and press releases will also be prepared, wherein copies or extracts of the Summary Report are intended to be included.

## 2.2 Reliant Party

The Reliant Parties to this Summary Report will be the Client and TVS Infrastructure Trust, TVS Infrastructure Investment Manager Private Limited in its capacity as Investment Manager and TVS Industrial and Logistics Park Private Limited in its capacity as Sponsor for the purpose of the valuation as highlighted in this report. for the purpose of the valuation as highlighted in this report.

The valuation has been prepared strictly and only for the use of the parties as stated above (Reliant Parties) and for the Purpose specifically stated. The Client would make all Reliant Parties aware of the terms and conditions of this agreement under which this exercise is being undertaken and take due acknowledgements to the same effect.

## 2.3 Limitation and Disclaimers to Liability

- Valuer is not operating under any financial services license when providing the Valuation Report ("Valuation Report") and this document does not constitute financial product advice. Investors should consider obtaining independent advice from their financial advisor before making any decision to invest in TVS Infrastructure Trust InvIT.

- This Valuation Report is strictly limited to the matters contained within this report, and are not to be read as extending, by implication or otherwise, to any other matter in any Offer/ Draft Placement Memorandum/ Placement Memorandum/ Final Placement Memorandum ("Offer Document"). Valuer does not approve or endorse any part of the Offer Document. Any reference to the valuer or this Valuation Report within the Offer Document must be read in conjunction with this Valuation Report.

- Valuers disclaims any liability to any person in the event of an omission from, or false and misleading statements included in the Offer Document, other than in respect of the information provided within the Valuation Report. Valuers shall not make any warranty or representation as to the accuracy of the information in any part of the Offer Document, other than in respect of the methodology used for the preparation of the information provided within the Valuation Report.

- The liability of Valuer is limited to the Instructing Party, and any Reliant Party nominated within this report only. No accountability, obligation or liability to any third parties is accepted by the valuer. Valuer disclaims all liability to any investor.

- No liability is accepted for any loss, harm, cost or damage (including special, consequential or economic harm or loss) suffered as a consequence of fluctuations in the infrastructure development subsequent to the date of valuation. Valuer shall not be liable for any indirect, special, punitive or consequential loss or damage howsoever caused, whether in contract, tort or otherwise, arising from or in connection with this Valuation Report.

- Valuer accepts no responsibility or liability whatsoever (i) unless full disclosure of all information and matters that may have an impact upon the value and marketability of the asset has been made by the Instructing Party or (ii) for any matter arising out of or in relation to possible environmental site contamination or any failure to comply with environmental legislation which may affect the value of the asset.

- None of our employees, directors or valuers individually has a contract with the Instructing Party or owes them a duty of care.

- Valuer has prepared the Valuation Report relying on and referring to information provided by the Instructing Party and/or third parties including financial and market information ("Information"). Valuers have assumed that the Information is accurate, reliable and complete and has not independently verified such Information.

- The Valuation Report draws attention to the key issues and considerations impacting value and provides a detailed assessment and analysis as well as key critical assumptions, general assumptions, disclaimers, limitations and qualifications and recommendations. As commercial investments of this nature are inherently complex and the market conditions have changed and/or have been uncertain in recent times, valuer recommends that any references to value within the Offer Document must be read and considered together with the Valuation Report.

- This Valuation Report may not be reproduced in whole or in part without the prior written approval of the valuer.

- The Valuation Report does not purport to contain all the information that a potential investor or any other interested party may require. It does not consider the individual circumstances, financial situation, investment objectives or requirements. It is intended to be used as guide and for information purposes only and does not constitute advice including without any limitation, investment, tax, legal or any other type of advice. The valuations stated are only best estimates and are not to be construed as a guarantee. Potential investors should not rely on any material contained in the Valuation Report as a statement or representation of fact but should satisfy themselves as to its correctness by independent investigation and review of the Valuation Report to understand the assumptions and methodologies stated in the reports.

- For the avoidance of doubt, all references to "Offer Document" herein shall include any offer document, final offer document, prospectus and/or any other accompanying documents required under the SEBI (InvIT) Regulations 2014.

## 2.4 Limitation and Qualification

Valuation has been conducted solely for the benefit and use of the Instructing Party, and any Reliant Party nominated within this Valuation Report. The report and valuations should not be used for any other purpose other than the expressly intended purpose as mentioned in the Valuation Report. They are not to be used, circulated, quoted or otherwise referred to for any other purpose, nor are they to be filed with or referred to in whole or in part in any document without the prior written consent of valuer where such consent to be given at the absolute, exclusive discretion of valuer, which shall not be unreasonably withheld. Where they are to be used with the valuer's written consent, they shall be used only in their entirety and no part shall be used without referring to the whole report unless otherwise expressly agreed in writing by valuer.

Neither the whole nor any part of our report, nor any reference thereto, may be included in any published document, circular or statement, nor published in any way nor disclosed orally or in communication to a third party, including the form and context in which it is to appear without valuer's prior written consent.

The valuer does not purport to provide a site or structural survey in respect of the asset(s) valued. The valuer does not purport to be suitably qualified to provide professional advice in respect of building or site contamination. The Reliant Party(ies) should seek independent advice on these issues. The Services are provided on the basis that the client has disclosed to the valuer all information which may affect the Services. All opinions expressed by the valuer, or its employees are subject to any conditions contained in the valuation report.

## 2.5 Valuer Capability

iVAS Partners, (Valuer Registration Number: IBBI/RV-E/02/2020/112), represented by its partner Mr. Shubhendu Saha (Valuer Registration Number: IBBI/RV/05/2019/11552) delivers independent valuation (across categories viz. land & building and plant & machinery), advisory and technical due diligence services, that combine professional expertise with comprehensive databases, analytics and market intelligence across various asset classes and locations in India.

Mr. Shubhendu Saha is registered as a valuer with the Insolvency and Bankruptcy Board of India (IBBI) for the asset class Land and Building under the provisions of The Companies (Registered valuers and valuation) Rules, 2017 since 15 May 2019. He completed his Bachelor in Planning from the School of Planning and Architecture,

New Delhi in 1997 and master's in client studies from Motilal Nehru National Institute of Technology, Allahabad in 1999.

## 2.6 Scope of Valuation

The valuation has been undertaken to ascertain the market value of the Subject Asset forming part of the proposed TVS Infrastructure Trust InvIT as of the valuation date. The valuer has estimated the market value of each individual asset, not the value of the portfolio of Assets, if sold in one transaction. In consideration of the same, a detailed assessment of the site and surroundings has been undertaken with respect to the prevalent activities, change in dynamics impacting the values and the optimal use of the Subject Asset vis-à-vis the surrounding micromarket, etc.

The primary catchment for the valuation has been defined as Madurai micromarket and the surrounding areas. An in-depth research exercise has been conducted in the catchment area of the Subject Asset to ascertain the prevalent activity levels in terms of residential segment in the vicinity of Subject Asset. This has been achieved through interactions with various market players such as local brokers, developers, end-users, etc.

The location, micromarket and catchment area for the Subject Asset is tabulated below:

| Asset Name | SPV/Hold Co | City | Micromarket/ Catchment Area |
|---|---|---|---|
| TVS Industrial & Logistics Parks | Sri Meenatchi Industrial & Logistics Parks Pvt Ltd | Madurai | Vairavanatham |

*Source: Client Inputs*

## 2.7 Valuer's Interest

The valuer certify that; he/they do not have a pecuniary interest, financial or otherwise, that could conflict with the proper valuation of the asset (including the parties with whom our instructing party is dealing, including the lender or selling agent, if any; accepts instructions to value the asset only from the client.

## 2.8 Qualifications/ Valuation Standards

This valuation is prepared in accordance with the International Valuation Standards (IVS) 2022.

The team involved in this engagement comprises of valuers registered with IBBI and RICS members with significant experience of valuations in Indian infrastructure and real estate market.

## 2.9 Disclosures

This valuer hereby certify that:

- iVAS Partners (Valuer Registration Number: IBBI/RV-E/02/2020/112), represented by its partner Mr. Shubhendu Saha (Valuer Registration Number: IBBI/RV/05/2019/11552), is registered as a registered valuer entity under Section 247 of the Companies Act, 2013 and The Companies (Registered Valuers and Valuation) Rules, 2017, as amended, and is eligible to be appointed as Valuer under the provisions of the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014, as amended and that the Valuation report has been prepared in accordance with these InvIT Regulations.

- iVAS Partners (represented by Mr. Shubhendu Saha - Partner, iVAS Partners) is not an associate of TVS Industrial & Logistics Parks Private Limited (the "Sponsor"), TVS Industrial and Logistics Park

Investment Manager Private Limited (the "Investment Manager") and TVS Infrastructure Trust (the "Trust")

- The Valuer, as represented by its partner, Mr. Shubhendu Saha, has the required minimum years of experience in the valuation of infrastructure assets, as required under the SEBI (InvIT) Regulations.
- The Valuer has not been involved with the acquisition or disposal within the last twelve months of any of the asset(ies) valued under this Valuation report.
- The Valuer has adequate and robust internal controls to ensure the integrity of the Valuation reports.
- The Valuer has sufficient key personnel with adequate experience and qualification to perform services related to asset valuation at all times.
- The Valuer has sufficient financial resources to enable them to conduct their business effectively and meet their liabilities.
- The Valuer has acquainted itself with all laws or regulations relevant to such valuation.
- iVAS Partners is not prohibited from acting as a valuer under applicable law.
- The valuation of assets undertaken is impartial, true and fair and in accordance with the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014, regulation 21.
- The Valuer and any of its employees/ Valuer involved in valuation of the InvIT assets are not invested in and shall not invest in units of the InvIT or in the assets being valued during the time such entity/person is designated as valuer of such InvIT and not less than 6 months after ceasing to be valuer of the InvIT.
- The Valuer has conducted the valuation of the InvIT assets with transparency and fairness and has rendered and shall render, at all times, high standards of service, exercise due diligence, ensure proper care and exercise professional judgement.
- The Valuer has acted with independence, objectivity and impartiality in performing the valuation.
- The Valuer has discharged its duties towards the TVS Infrastructure Trust InvIT in an efficient and competent manner, utilizing its knowledge, skills and experience in best possible way to complete the said assignment.
- The Valuer has not and shall not accept remuneration, in any form, for performing a valuation of the InvIT assets from any person or entity other than the TVS Infrastructure Trust InvIT or its authorized representatives.
- The Valuer has no present or planned future interest in the Client, Trustee, TVS Infrastructure Trust InvIT, the Sponsor to the TVS Infrastructure Trust InvIT and its sponsor group or the Special Purpose Vehicles (SPVs), holdcos, investment entity and the fee for this Report and the valuation exercise is not contingent upon the values reported herein. Our valuation analysis should not be construed as investment advice; specifically, we do not express any opinion on the suitability or otherwise of entering into any financial or other transaction with the Client or the SPVs/ holdcos/ investment entity.
- The Valuer shall before accepting any assignment from any related party to the TVS Infrastructure Trust InvIT, disclose to the TVS Infrastructure Trust InvIT, any direct or indirect consideration which the Valuer may have in respect of such assignment
- The Valuer shall disclose to the trustee of the TVS Infrastructure Trust InvIT, any pending business transactions, contracts under negotiation and other arrangements with the client or any other party whom the

TVS Infrastructure Trust InvIT is contracting with and any other factors which may interfere with the Valuer's ability to give an independent and professional valuation of the asset; as on the date of valuation, there are no impediments for Valuer to give an independent professional value opinion of the asset

- The Valuer has not made false, misleading or exaggerated claims in order to secure assignments.
- The Valuer has not and shall not provide misleading valuation, either by providing incorrect information or by withholding relevant information
- The Valuer has not accepted and shall not accept an assignment that includes reporting of the outcome based on predetermined opinions and conclusions required by the TVS Infrastructure Trust InvIT
- The Valuer has not accepted the said assignment which interferes with its ability to do fair valuation
- The valuation undertaken by the valuer abides by International Valuation Standards for valuation in compliance with The Companies (Registration of Valuers and Valuation) Rules, 2017
- The Valuer understands that most of these assets are wholly/partly owned/ tenanted by related parties, hence, any transactions related to these assets from the related parties being valued would be related party transactions.
- The Valuer notes that there are encumbrances, however, no options or pre-emptions rights in relation to the assets based on the title report prepared by Cyril Amarchand Mangaldas (hereinafter collectively referred to as 'Legal Counsels'). The Valuer does not have the expertise or the preview to verify the veracity or quantify these encumbrances, disputes or claims. For the purpose of this valuation, the valuer has assumed that the respective assets have title deeds that are clear and marketable.

## 2.10 Assumptions, Disclaimers, Limitations & Qualifications to Valuation

| | |
|---|---|
| Valuation Subject to Change: | The subject valuation exercise is based on prevailing market dynamics as on the date of valuation and does not take into account any unforeseeable developments which could impact the same in the future |
| Our Investigations: | The valuers are not engaged to carry out all possible investigations in relation to the Subject Asset. Where in our report the valuer identify certain limitations to our investigations, this is to enable the reliant party to instruct further investigations were considered appropriate or where the valuer recommend as necessary prior to reliance. The valuer are not liable for any loss occasioned by a decision not to conduct further investigations |
| Assumptions: | Assumptions are a necessary part of undertaking valuations. The valuer adopts assumptions for the purpose of providing valuation advice because some matters are not capable of accurate calculation or fall outside the scope of our expertise, or our instructions. Assumptions adopted by iVAS Partners will be formulated on the basis that they could reasonably be expected from a professional and experienced valuer. The Reliant Party accepts that the valuation contains certain specific assumptions, and acknowledges and accepts the risk that if any of the assumptions adopted in the valuation are incorrect, then this may have an effect on the valuation |
| Information Supplied by Others: | The valuations are based on the information provided by the client (TVS Industrial & Logistics Parks). The same has been assumed to be correct and has been used for valuation exercise. Where it is stated in the report that another party has supplied information to the 'Valuer', this information is believed to be reliable, but the 'Valuer' can accept no responsibility if this should prove not to be so<br>We have assumed that where any information relevant to our valuation is supplied by the Instructing Party, or by any third party at Instructing Party's instigation, it is correct and comprehensive, and can be safely relied upon by us in preparing our valuation.<br>We would recommend that before any financial transaction is entered into based on the valuations, you obtain verification of any third-party information provided. We also recommend that you check the validity of the assumptions we have adopted in our report (where we have been unable to verify the facts through our own observations or experience) |
| Matters which affect or may affect the valuation | If the Reliant Party becomes aware of any matters which affect or may affect the valuation, then valuer must be advised of those matters. The Reliant Party's failure to do so will disentitle the Reliant Party to place reliance on the valuation and reliance must not be placed on the valuation/s under any circumstance |
| Future Matters: | To the extent that the valuation includes any statement as to a future matter, that statement is provided as an estimate and/or opinion based on the information known to the 'Valuer' at the date of this document. The 'Valuer' does not warrant that such statements are accurate or correct |
| Map and Plans: | Any sketch, plan or map in this report is included to assist reader while visualizing the Assets and the valuers assume no responsibility in connection with such matters.<br>Further. all maps and plans quoted in our report are solely for illustration purposes only. While they are extracted from public sources, they may be not to scale. Valuer does not warrant that such dimensions shown are accurate. |
| Site Details: | Based on title due-diligence and other information provided by the client, the valuer understands that the Subject Asset is free from any encroachments and are available as on the date of the valuation |
| Asset Title: | For the purpose of this valuation exercise, the valuer has relied on the Title Reports prepared by the Legal Counsels for each of the Assets and has made no further enquiries with the relevant local authorities in this regard. The valuer understands that the Subject Asset may have encumbrances, disputes and claims. The valuer does not have the expertise or the preview to verify the veracity or quantify these encumbrances, disputes or claims. For the purpose of this valuation, the valuer has assumed that the respective assets have title deeds that are clear and marketable. We recommend that a suitable Asset Lawyer or similar reviews these assumptions and confirm they are reasonable before relying in this report. |
| Environmental Conditions: | In preparing our valuation we assume that no contaminative or potentially contaminative use is, or has been, carried out at the property. We do not undertake any investigation into the past or present uses of either the property or any adjoining or nearby land, to establish whether there is any potential for contamination from these uses and assume that none exists. Should it, however, be subsequently established that such contamination exists at the property or on any adjoining land or that any premises have been or are being put to contaminative use, this may have a detrimental effect on the value reported |

| | |
|---|---|
| Town Planning: | The current zoning of the Subject Asset has been adopted on the basis of review of various documents (title deeds & approval documents) provided by the client and the current land use maps for the subject micromarket. The same has been considered for the purpose of this valuation exercise. Further, it has been assumed that the development on the Subject Asset adheres/ would adhere to the development regulations as prescribed by the relevant authorities. The valuer has not made any enquiries with the relevant development authorities to validate the legality of the same.<br><br>Our valuations are prepared on the assumption that the premises comply with all relevant statutory enactments and Building Acts and Regulations, that a valid and up-to-date Fire Certificate has been issued. We assume that all necessary consents, licenses and authorizations for the use of the asset and the process carried out therein have been obtained and will continue to subsist and are not subject to any onerous conditions.<br><br>In the event that a legal requisition or other relevant planning information or document is obtained, and the information therein is found to be materially different to the town planning information in the report, the valuation must not be relied upon before first consulting iVAS Partners to reassess any effect on the valuation/s |
| Area: | The total leasable area considered for the purpose of this valuation exercise is based on the inputs shared by the client. It must be noted that the above information has been provided by the client and has been verified based on the approvals/ layout plans/building plans provided by the client. However, the valuer has not undertaken additional verification and physical measurement for the purpose of this valuation exercise |
| Condition & Repair: | In the absence of any information to the contrary, the valuer has assumed that there are no abnormal ground conditions, nor archaeological remains present which might adversely affect the current or future occupation, development or value of the asset; the asset is free from rot, infestation, structural or latent defect; no currently known deleterious or hazardous materials or suspect techniques will be used in the construction of or subsequent alterations or additions to the asset and comments made in the asset details do not purport to express an opinion about, or advice upon, the condition of uninspected parts and should not be taken as making an implied representation or statement about such parts |
| Not a Structural Survey: | The valuer states that this is a valuation report and not a structural survey |
| Legal: | Unless specifically disclosed in the report, the valuer has not made any allowances with respect to any existing or proposed local legislation relating to taxation on realization of the sale value of the Subject Asset.<br><br>We do not read legal documentation. Where legal documentation is provided to us, we will have regard to the matters therein but recommend that reliance should not be placed on our interpretation thereof without prior verification by your legal advisors. Unless disclosed to us, we assume that there are no outstanding statutory breaches or impending litigation in respect of the property. We further assume that all documentation is satisfactorily drawn and that unless disclosed to us, there are no unusual or onerous restrictions, easements, covenants or other outgoings which would adversely affect the value of the relevant interest(s). In respect of leasehold Assets, we will assume that your landlord will give any necessary consents to an assignment. Unless notified to the contrary we assume that each property has a good and marketable title and is free from any pending litigation |
| Others: | Considering the unorganized nature of real estate markets in India, all comparable evidence (if any) provided in the valuation report has been limited to the basic details such as the area of asset, rate at which transacted, broad location, etc. other specific details would be provided only if the information is available in public domain |
| Other Assumptions: | Please note that all the factual information such as tenants' leasable area, lease details such as lease rent, lease commencement and lease end date, lock – in period, escalation terms, etc. pertaining to the Subject Asset is based on the rent roll provided by the client and the same has been adopted for the purpose of this valuation exercise. The rent rolls have been cross-checked with copies of the lease deeds on a sample basis as shared with the valuer to verify the authenticity. Any change in the above information will have an impact on the assessed value and in that case the valuer will have to relook at the assessed value. The relevant information sources are represented in section 5.5.<br><br>All measurements, areas and ages quoted in our report are approximate.<br><br>We are not advisors with respect to legal, tax and regulatory matters for the transaction. No investigation of the respective Special Purpose Vehicles (SPVs) holding the assets' claim to title of assets has been made for the purpose of this Report and the SPVs' claim to such rights have been assumed to be valid. No consideration |

| | |
|---|---|
| | has been given to liens or encumbrances against the assets. Therefore, no responsibility is assumed for matters of a legal nature.<br>As per the details provided by the client, the rental revenue has been calculated and other analysis are performed on chargeable area. Further, Leasable area mentioned is in accordance with the information shared by the client comprising rent rolls and lease agreements. |
| Flooding risk: | We have assumed that either there is no flooding risk or, if there is, that sufficient flood defenses are in place and that appropriate building insurance could be obtained at a cost that would not materially affect the capital value. |
| Site Conditions: | We do not commission site investigations to determine the suitability of ground conditions and services, nor do we undertake environmental or geotechnical surveys. We have assumed that these aspects are satisfactory and also that the site is clear of underground mineral or other workings, methane gas or other noxious substances.<br>In the case of property which may have redevelopment potential, we proceed on the basis that the site has load bearing capacity suitable for the anticipated form of redevelopment without the need for additional and expensive foundations or drainage systems (unless stated otherwise) |
| Hazardous & deleterious materials | Unless otherwise noted, we have assumed that the improvements are free of Asbestos and Hazardous Materials, or should these materials be present then they do not pose significant risk to human health, nor require immediate removal. We assume the site is free of subsoil asbestos and have made no allowance in our valuation for site remediation works.<br>Our visual inspection is an inconclusive indicator of the actual condition/presence of asbestos/hazardous materials within the property. We make no representation as to the actual status of the Property. If a test is undertaken at some time in the future to assess the degree, if any, of the presence of any asbestos/hazardous materials on site and this is found to be positive, this valuation must not be relied upon before first consulting iVAS Partners to reassess any effect on the valuation.<br>Unless specifically instructed, we do not carry out investigations to ascertain whether any building has been constructed or altered using deleterious materials or methods. Unless specifically notified, our valuation assumes that no such materials or methods have been used |
| Unregistered interests | We have assumed that there are no unregistered interests or interests not captured by the applicable Regulatory Authority in the country which services are to be carried out which may affect market value. In the event that the Reliant Party becomes aware of any further or pending easements, encumbrances or unregistered interests, this valuation must not be relied upon before first consulting iVAS Partners in writing to reassess any effect on the valuation |
| Heightened Market Volatility | We draw your attention to current heightened geopolitical tensions, low economic growth in many major countries, and a "higher for longer" interest rate sentiment which have increased the potential for constrained credit markets, negative capital value movements and continued volatility in some property markets over the short-to-medium term.<br>Experience has shown that consumer and investor behaviour can quickly change during periods of such heightened volatility. Lending or investment decisions should reflect any heightened level of volatility and potential for changing market conditions. Lending and investment caution is advised in this regard.<br>It is important to note that the conclusions set out in this report are valid as at the valuation date only. Where appropriate, we recommend that the valuation is closely monitored, as we continue to track how markets respond to evolving events. |
| Development Valuations | The value of infrastructural developments is traditionally volatile and can be subject to rapid changes of value in short timeframes. Development assets appeal to specific types of purchasers and can be significantly impacted by many factors such as broader economic conditions, fluctuating levels of supply and demand for the product, changes in building costs and the availability and cost of development finance. All these (and more) factors could have a significant impact on the value and demand for the Subject Asset.<br>Going forward there will be several key factors impacting on the viability of some development assets and their underlying land values. Key concerns are fluctuations in construction costs, substantial new supply levels and |

| | |
|---|---|
| | easing investor demand for final product. In addition, we also note that ongoing monitoring and governance of banking systems may significantly restrict development capital and increase the cost of development finance.<br><br>As experienced in previous market cycles, the value of infrastructural developments can undergo rapid and significant price corrections, as supply, demand and cost factors change. Any Reliant Party is strongly advised to consider this inherent risk in their investment and lending decisions. Lending and investment caution is advised in this regard.<br><br>The applicant's ability to service debt should also be carefully considered, should development opportunities and settlements be extended, construction/funding costs increase, or sales rescinded |
| Construction Cost Volatility | Although general increases in material costs have stabilised since 2022, some specialised supply chains and construction-related labour costs remain volatile with the potential for further increases. This has created uncertainty in cost estimates, which is likely to continue.<br><br>In addition, there are significant risks that delays may be encountered in sourcing specialised materials and labour, and as such, the potential for ongoing cost escalations and delays is high. This may place additional pressure on developer and contractor profit margins and development viability.<br><br>These inherent risks should therefore be given careful consideration in lending and investment decisions. Caution is advised in this regard. |

# 3 Madurai – Market Structure and Conditions

## 3.1 Information

For the purpose of the valuation exercise, reliance has been made on the deliverables of CBRE South Asia Private Limited, an independent agency appointed by TVS to undertake market research, provide market commentary, and data as a part of a report (the "Industry Assessment Report") for the purpose of this assignment.

## 3.2 Demand and Supply

### 3.2.1 Demand and Supply Trends – Madurai

The Madurai Region currently has approximately 1.31 Mn sft of operational warehouse space, with around 0.94 Mn sft occupied. Around 74% of the completed supply, equivalent to 0.97 Mn sft, falls under Grade C classification, mainly due to the absence of significant Grade A and limited presence of Grade B players besides TVS. Madurai is emerging as a pivotal warehousing hub due to its close proximity to the VOC port in Tuticorin (approximately 150 – 155 kilometres away), the presence of MSME and SME clusters, and its role as a major distribution centre for nearby towns and Tier III cities such as Dindigul, Pudukkottai, Virudhunagar and Theni.

| Particulars | Details |
|---|---|
| Cumulative completed warehouse stock (Q3 2024) | Approx. 1.31 msf |
| Cumulative occupied stock (Q3 2024) | Approx. 0.94 msf |
| Current vacancy (Q3 2024) | Approx. 28.24% |
| Future supply (2024 – 2025) | Under construction – 0.2 msf |

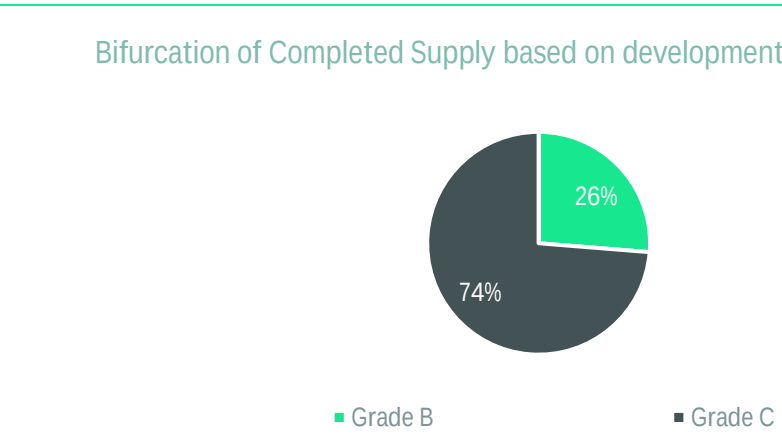
*Source: Industry Assessment Report dated of September 30, 2024*

Some of the major developments in the market include Sri Meenatchi industrial and logistics Park Private Limited – TVS (0.34 Mn sft – completed supply), CWC Warehouse (0.24 Mn sft), and SPG Warehouse (0.19 Mn sft). The Under construction/planned supply from major developments include the Independent Warehouse with a 0.095 Mn sft in Kappalur and TVS with a 0.09 Mn sft in Alanganallur.

The key industries preferred by Grade B warehousing spaces include FMCG, FMCD, 3PL, Automobile etc with a typical space off take between 30,000 – 50,000 sft. Grade C is mostly preferred by Apparel, paints and manufacturing industries with a space off take ranging between 10,000 – 20,000 sft. The growth of organized retail and manufacturing sectors has spurred the demand for warehouses that cater to their varied needs, emphasizing the enhancement of supply chain efficiencies and the reduction of transportation costs to impact overall logistic expenses positively. Consequently, there is a growing need for strategically positioned and well-connected warehouses. The growth of E-commerce has heightened the demand for efficient and technologically advanced warehousing space throughout Madurai.

As of Q3 2024 the completed supply in Madurai Grade B amounts to nearly 0.34 Mn sft (26% share) and Grade C – 0.97 Mn sft (74%).

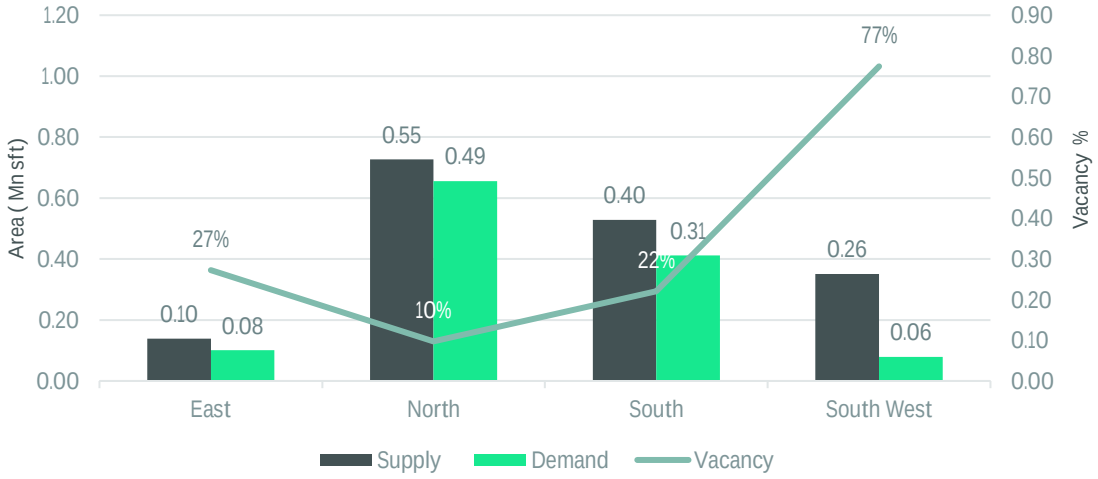
Bifurcation of completed supply based on development grade



*Source: Industry Assessment Report*

Healthy absorption levels have been witnessed in Grade-B developments which indicates the preference of occupiers for smaller development size of 30,000 to 50,000 sft warehouse box sizes. Due to this trend in absorption and presence of institutional developers are in negligible levels. Grade C warehouses have exhibited substantial vacancy rates, approximately 39%. This trend is particularly pronounced in the Southwest Cluster (Thiruparankundram), where vacancy levels have reached 77%. The primary factors contributing to this high vacancy rate are the quality of the available warehouse stock and the concentration of development by a single entity, the Central Warehousing Corporation (CWC).

Cluster wise supply & absorption levels in Madurai



*Source: Industry Assessment Report*

The major Industries driving demand for warehousing in the region include 3PL, E-Commerce, FMCD and Automobile which accounts to 75% - 76% of total absorption. Based on the current market leasing scenario, typical space offtake by Automobile and FMCD players are approx. 40,000 – 50,000 sft. Grade C is found to be the most preferred category among all the tenant segments present in the business ecosystem of Madurai.

#### 3.2.1.1 Future Supply

Based on the market research, we understand that the micromarket of Madurai has an upcoming supply of approx. 0.19 – 0.20 Mn sft which is expected to be completed by 2024 and 2025. The details of the upcoming supply is detailed in the table below:

| GRADE B | GRADE C |
|---|---|
| 0.09 Mn sft | 0.10 Mn sft |

*Source: Industry Report*

The upcoming supply for Madurai is to be witnessed on Southern and Northern Cluster. The locations where the majority of the upcoming supply envisaged are along the Kappalur – Airport Ring Road and along the NH 44 in Alanganallur. The following table enumerates the details of the upcoming Grade B Supply from TVS.

| Building Name | Year of Completion | Status* | Location | Leasable Area (sft) |
|---|---|---|---|---|
| TVS, Alanganallur | 2024 | UC | NH 44 | 90,000 |

*Source: Industry Report, * UC – Under Construction*

### 3.2.2 Market Rent

The table below highlights the recent lease transactions in the micromarket:

| Date of Transaction | Chargeable Area (sft) | Lessee | Name of the Building | Total Rent (INR per sft per month) | Description |
|---|---|---|---|---|---|
| Q1, 2024 | 54,000 | SPG | SPG Warehouse – 2 | 18 | Base Rental |
| Q1, 2024 | 10,000 | Individual | Individual Owner | 20^ | Base Rental |
| Q1, 2024 | 16,500 | SPG | SPG Warehouse - 2 | 20^ | Base Rental |

*Source: Industry Assessment Report Note: All the transaction quoted are Grade B developments. As per the market research , the base rentals for the transactions are at INR 18-19 with INR 1 or 2 going towards tenant specific improvements carried out.*

The average rental witnessed in the Eastern and Southern Cluster is approx. INR 16 - 18/ Sft / month and developments along the North cluster record warehousing rentals approx. INR 17 – 19 / Sft / month. The overall rentals in the Madurai market is rangebound, ranging from 16 to 19/ sft/month with few transactions in the North market witnessing INR 20/sft/month.

As can be observed from the table above and our interactions with other market players, the rental value in the micromarket ranges between INR 17 – 19 /sft/month (base rentals) for Grade B developments. The variance across rentals is primarily due to factors such as location, accessibility, overall tenant mix, quantum of vacant stock in the development, specifications of the block, park level infrastructure, additional improvements, etc. The variance across rentals is primarily due to factors such as location, accessibility, overall tenant mix, quantum of vacant stock in the development, specifications of the block, park level infrastructure, additional improvements, etc.

## 3.3 Market Outlook

The warehouse market in Madurai is experiencing muted growth. The primary driver is the growth in local consumption, increasing e-commerce activities. The proposed establishment of manufacturing units over the

next 3-5 years is coupled with increase in domestic consumption within the city and its surrounding areas would be the primary drivers for the growth in rentals and demand.

Further, the Subject Asset is well positioned in the market to attract interest from occupiers owing to its location (North Madurai), specifications and amenities, developer's reputation, etc. Therefore, keeping in perspective the subject property's location, leasing in the micromarket, quantum of leasable area, quality of construction, developer's reputation, type of space, etc., we are of the opinion that the subject property would command a lease rental of approx. INR 17 - 19 / sft / month as on date of valuation.

# 4 Subject Asset – TVS - Madurai

## 4.1 Asset Description

The Subject Asset christened 'Sri Meenatchi Industrial & Logistics Parks Pvt Ltd, Madurai' is an under-construction warehousing facility with total leasable area of 3,92,531 sft located at Survey Nos –76/3, 76/4, 765A1, 76/5B1, 78/3A1, 78/3B, 78/3C, 78/3D, 78/3E, 78/3F, 78/3G, 78/3H, 78/3I, 78/3J1, AND 78/4 of Vairavanatham Village and Panchayat, Madurai West Panchayat Union, Madurai North Taluk, Madurai District. The Subject Asset is currently accessible via Kumaran Road which emanates from NH – 44(Salem – Madurai National Highway).

The Subject Asset, which admeasures a land area of approx. 16.02 acres, comprises of three blocks with leasable area of approx. 4,32,713 sft and a cumulative chargeable area of approx. 3,91,972 sft (Phase I – approx. 3,01,533 sft & Phase II – approx. 90,439 sft), compromising of Block I Part 1, 2, 3, 4 and 5 & Block II Part 1, 2 & 3, and Block III Part 1, 2 & 3.

Further, it was observed that the Subject Asset is contiguous in nature, even in terrain, is regular in shape and on the same level as abutting road and adjoining properties. Also, the Subject Asset enjoys good frontage along the primary access road. The primary access road abuts the Subject Asset in its northern side.

The Subject Asset is located in close proximity to NH-44, Vairavanatham Village, Madurai. The Subject Asset is a grade A warehouse with PEB structures having all requisite facilities such as DG and Transformer Yard (25 KVA and 630 KVA respectively), Sewage Treatment Plant – STP (50KLD Daiki tank), Storm water network (Hume pipe), Fire Fighting Systems of NFPA/NBC standard, FM2 flooring type with floor load of 5T per sqm and a maximum power load of 175 KVA extendable up to 630 KVA.

As at the valuation date the completed block of the Subject Asset is fully let to 7 tenants at a total current annual rent of 57.50 Mn and with a Weighted average lease expiry (WALE) of 3.05 years. The main tenant is a logistics company, with 24% of the completed leasable area and accounting for approx. 24% of the current rent.

| Brief Description | |
|---|---|
| Particulars | Details |
| Asset Name | Madurai Park |
| Address | Vairavanatham Village, Madurai District, Tamil Nadu |
| Land Area | Based on the review of the sale deed shared by the client, it is understood that the Subject Asset is spread across a land area of approx. 16.02 acres |
| Leasable Area | 4,32,713 sft |
| Chargeable Area | 3,91,972 sft |
| Built-up Area | 4,32,713 sft^ |

*Source: Architect certificate, Rent roll provided by the Client; (Please note according to the lease agreements provided by the Client, it is understood that the rent is paid on the chargeable area, which has been considered for the valuation exercise).*

** As per the lease deed and the client inputs the leasable area of Block I-Part 4 is 17,420 sft with warehouse area of 15,165 sft and Apron Area of 2,255 sft. Of this, warehouse area is considered as chargeable area.*

**As per the lease deed and the client inputs the leasable area of Block II-Part 2 is 106,938 sft with warehouse area of 81,000 sft, Apron Area & Open Area of 25,938 sft. Of this, warehouse area is considered as chargeable area.*

### 4.1.1 Site Details

**Situation:**

Subject Asset – 'Madurai Park' is an under-construction warehousing facility located in Vairavanatham Village, Madurai District, Tamil Nadu.

**Location:**

The Subject Asset is located along Kumaran Road which emanates from NH – 44 (Salem – Madurai National Highway). The Subject Asset is located in Vairavanatham Village on the northern periphery of Madurai City.

The distances from key hubs to the Subject Asset are presented in the table below:

| Landmark | Distance (Km) |
|---|---|
| Samayanallur Railway Station | 05 – 06 |
| Madurai Bus Stand | 20 – 21 |
| Madurai Airport | 40 – 41 |

*Source: Valuer's research*

**Catchment Analysis:**

The primary catchment for the purpose of this valuation has been defined as Vairavanatham Village and its adjoining micromarkets which are predominantly characterized by small to mid-scale industrial/warehousing development and large tracts of vacant land parcels. By virtue of the asset being located near the Kappalur Industrial estate, the influence zone of the Subject Asset is characterised by the presence of numerous small to medium sized industrial/warehousing facilities coupled with residential developments with few notable developments in the micromarket include CWC Warehouse and SPG Warehouse. The upcoming outer ring road which aims to connect NH38 and NH44 would help in easy movement within and outside the Madurai city, thereby aiding mobility.

**Surrounds:**

The Subject Asset is surrounded as follows:

- North: Access Road
- South: Private Property
- East: Private Property
- West: Private Property

**Potential changes in surroundings:**

The subject micromarket is currently characterized by the presence of large tracts of vacant land parcels, a few captive industrial developments and unorganised residential developments. The Subject Asset is located in close proximity to NH- 44 which connects Salem and Madurai. The upcoming Outer Ring Road (connecting NH38 and NH45) would enhance the connectivity would help decongest traffic to access the city. This would boost local connectivity.

The proposed Madurai – Thoothukudi Industrial corridor connecting 6 nodes viz, Madurai, Dindigul, Theni, Virudhunagar, Thirunelveli and Thoothukudi aims at developing industrial activities in manufacturing and agri-business hubs which would boost the demand for entry of warehousing developments once the project progresses. This coupled with Coimbatore Madurai industrial corridor would also help integrate the industrial developments in the

above-mentioned districts by providing necessary industrial infrastructure focussing predominantly on textile, light engineering and agro-based industries.

Suitability of existing use:

As per information received from the client, we understand that the Subject Asset is an under-construction warehousing facility. The current use of the asset i.e. 'Warehousing facility' is as per the usage permitted by the Director of Town and Country Planning (DTCP) . We have not verified the same from DTCP or inspected any documentary evidence to the same.

Also considering the nature of Subject Asset coupled with the location and profile of the surrounding developments, the use of the Subject Asset is opined to be in conformity with the envisaged development.

The following map indicates the location of the Subject Asset and surrounding developments:

|---|---|
| Shape: | Based on the site plan provided by the client and visual inspection during the site visit, it is understood that the underlying land is broadly regular in shape. |
| Topography: | Based on the site plan and as corroborated with our site visit, the site appears to be even and is at the same level as abutting access roads and adjoining Assets. |
| Frontage: | Based on review of site plan and visual inspection, we understand that the subject land enjoys a good frontage along the primary access road. |
| Accessibility: | Based on the site plan provided by the client and visual inspection, the access to the Subject Asset is via Kumaran Road which emanates from NH- 44 (Salem – Madurai National Highway). By virtue of the same the asset enjoys excellent accessibility and frontage.<br><br>Please refer Section 7.2 Exhibit & Addendums for the site plan of the Subject Asset. |

### 4.1.2 Review of sale deed or Lease agreement

As per the sanctioned layout plan provided by the client, we understand that the exact address of the Subject Asset is located at Survey Nos –76/3, 76/4, 765A1, 76/5B1, 78/3A1, 78/3B, 78/3C, 78/3D, 78/3E, 78/3F, 78/3G, 78/3H, 78/3I, 78/3J1, AND 78/4 of Vairavanatham Village and Panchayat, Madurai West Panchayat Union, Madurai North Taluk, Madurai District. Additionally, it is understood that the Subject Asset is owned by TVS Infrastructure Private Limited and is freehold in nature.

### 4.1.3 Title Details

This valuation exercise is based on the premise that the Subject Asset has a clear title and is free from any encumbrances, disputes, claims, etc. Valuer has not made any inquiries in this regard with the relevant legal/ statutory authorities with the understanding this level of due diligence will be undertaken by the appropriate lawyers and then advised to the valuer accordingly. We strongly recommend the assumption the asset has a clear title is confirmed before relying on the report.

### 4.1.4 Town Planning

| | |
|---|---|
| Zoning | As per information received from the client, we understand that the Subject Asset falls in non-planned area and there are necessary approvals for constructing a warehouse facility. The current use of the asset i.e. 'Warehousing facility' is as per the usage permitted by the Director of Town and Country Planning (DTCP). Valuer has made no further inquiries with the local panchayat or Director of Town and Country Planning authorities in this regard.<br><br>For the purpose of this exercise, it has been assumed that all developments (existing / under construction / proposed) adhere to building regulations as prescribed by the relevant authorities. Valuer has not validated the information provided by the client with the relevant development authorities. |
| Approved Usage: | The Subject Asset is a partly developed warehousing facility with two completed and one under construction blocks. The current use of the Subject Asset is broadly in agreement with the rules and regulations as prescribed by the local development authority. However, valuer has not made any enquiries with the relevant local authorities to validate the same for its specific applicability to the Subject Asset. |

| | |
|---|---|
| Restrictions: | As per feedback received from the client, there are no other restrictions on the current use of the asset. |
| Natural or induced hazards: | We have not carried out any investigations or tests or been supplied with any information from Client or from any relevant expert that determines the presence or otherwise of pollution or contaminative substances in the Subject Asset or any other land (including any ground water).<br><br>For the purpose of assessing the vulnerability of the Subject Asset to any natural or induced disaster the location of the property with respect to risks pertaining to earthquakes, high winds/cyclone and flooding was studied. Vairavanatham Village where the Subject Asset is located falls in Seismic Zone II (least active) with low risk. The city faces low risk in terms of high winds or cyclones too given that the subject property falls in high-lying area as per the topographic map. No hazardous activity was noted in the vicinity of the Subject Asset which may expose it for any induced disaster. |
| Approvals: | As per the documents provided by Client, we understand that the approvals mentioned in section 4.1.5.1 for the asset have been obtained. Please refer annexures for the details.<br><br>For the purpose of this exercise, it has been assumed that all developments adhere to building regulations as prescribed by the relevant authorities. Valuers have not validated the information provided by the client with the relevant development authorities |

### 4.1.5 Statutory Approvals, Sanctions & Approvals

#### 4.1.5.1 Statutory Approvals received and to be received (One-time Sanctions & Periodic Clearances)

As per the review of documents provided by the client, we understand that all requisite approvals have been received for the Subject Asset.

The table below highlights the status of approvals for the Subject Asset:

| Approval/NOC | Status (Applied / Received) | Authority | Date of Issue (DD-MM-YY) | Date of Expiry (DD-MM-YY) |
|---|---|---|---|---|
| Fire NOC | Received | Fire and Rescue Department | 07-12-2021 | NA |
| Ground Water Abstraction NOC | Received | Water Resource Department, Government of Tamil Nadu | 11-03-2022 | NA |
| Building Permit/Planning Approval | Received | Director of Panchayath Union | 19-05-2022 | NA |
| Consent for Establishment – Air & Water | Received | Tamil Nadu Pollution Control Board, Madurai | 07-09-2022 | 31-03-2027 |
| Structural Safety Certificate – Phase – 02 | Received | Private Consultant | 23-01-2022 | NA |

*Source: Approval documents provided by the client*

#### 4.1.5.2 List of up to date/overdue periodic clearances

As per the details provided by the client, we understand that there are no overdue periodic clearances. Please refer section 7.3 for any further details

### 4.1.6 Area Details, Type and Age of Existing Structures

The table below highlights the operational and under-construction blocks of the Subject Asset:

| Block | Leasable Area (sft) | Operational Area (sft)* | Under- Construction Area (sft)* | Year of Completion |
|---|---|---|---|---|
| Madurai Park - Block I – Part 1 | 58,082 | 50,741 | N.A. | Q1 2022 |
| Madurai Park - Block I – Part 2 | 24,029 | 18,822 | N.A. | Q2 2022 |

Please refer to the Annexure section 7.1

### 4.1.15 Valuation of the asset in the previous 3 years

As of the date of this valuation report, the Subject Asset is not part of the Infrastructure Investment Trust (InVIT)

# 5 Valuation Approach & Methodology

## 5.1 Scope of Valuation

The valuation exercise is to assess the Market Value (MV) of the Subject Asset for the purpose of the offer of units through private placement (the "Private Placement") of TVS Infrastructure Trust InvIT under the SEBI (Infrastructure Investment Trust) Regulations, 2014, as amended. The valuations have been conducted in accordance with the IVSC International Valuation Standards, (effective 31 January 2022) and in accordance with the requirements of the SEBI (Infrastructure Investment Trust) Regulations, 2014, as amended from time to time.

This valuer has assessed the Market Value of each individual Subject Asset, not the value of the portfolio, if all Assets were sold in one transaction. Where a summation of the individual Assets is provided, this is purely for reference only and should not be construed as the value of the portfolio. Kindly refer to the summary report section 1.0 for list of Subject Asset forming part of the portfolio.

## 5.2 Basis of Valuation

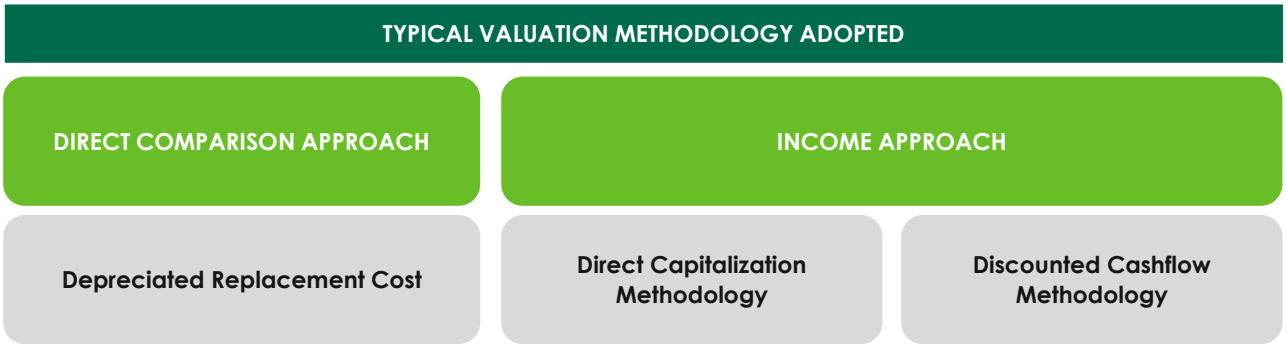
The valuations have been conducted in accordance with the IVSC International Valuation Standards issued in July 2021, effective from 31 January 2022), Regulation 21 and Schedule V of the SEBI (InvIT) Regulations, 2014 and is in compliance with the International Valuation Standards (IVS). The valuation exercise has been undertaken by appropriately qualified valuer and will be assessing the Market Value of the ownership Interest in the Subject Asset.

As per the Valuation and Guidance Notes issued by the IVS, the market value is defined as:

***'The estimated amount for which** an asset or liability should exchange on the valuation date between a **willing buyer and a willing seller in an arm's length transaction, after proper marketing and where the parties had each acted knowledgeably, prudently and without compulsion'.***

## 5.3 Approach and Methodology

The purpose of this valuation exercise is to estimate the Market Value (MV) of the Subject Asset. Market Value can be derived through the following Methodologies:



### 5.3.1 Direct Comparison Approach

Under the 'Direct Comparison Approach', the asset is compared to similar Assets that have actually been sold in an arms-length transaction or are offered for sale (after deducting for value of built-up structure located thereon). The comparable evidence gathered during research is adjusted for premiums and discounts based on asset specific attributes to reflect the underlying value of the asset.

The value of the land component under this approach has been assessed based on comparison with similar Assets that have actually been sold in arms-length transaction or are offered for sale in the subject micromarket.

Based on our interactions with the local market players, we understand that the market has few Assets of comparable sizes which are currently available for sale in the market. Therefore, the value of the subject land parcel has been estimated through a direct comparison approach utilizing the seller quotes available in the market as well as few reported transactions.

The values for these comparable Assets are further adjusted for various premiums and discounts (viz. towards size, location, accessibility, frontage, visibility, ownership status, profile of the surrounding developments, zoning, etc.) vis-à-vis the Subject Asset to determine the achievable market value for the Subject Asset.

Based on the market research undertaken, it is understood that the capital values for land parcels in the subject micromarket are primarily governed by parameters which are as follows:

- Location & profile of surrounding developments – Based on our market study, it was identified that land parcels located in proximity to highway would command higher capital values in comparison to the land parcels located further away on internal village roads. In addition, based on our interactions with local market players, we understand that the land parcels located in proximity to existing village catchments command higher capital values as compared to those located further away from the existing village catchments.
- Size of the land parcel – Based on our interactions with the local market players, it was understood that the small-medium sized land parcels (approx. 1 – 5 acres) attract almost negligible discount on account of lesser quantum of investment involved and a shorter marketing timeframe required for disposal of such land parcels.
- Accessibility, frontage and visibility – Based on our market research, it was observed that the land parcels having superior frontage along the access road or by virtue of it being a two side or a three-side corner plot would command a premium vis-à-vis the other Assets. Further, it was observed that the Assets located on wider access roads command premium vis-à-vis Assets located along narrow access roads.
- Zoning and requisite clearances - Based on our market research, it was observed that the land parcels with industrial / multipurpose / residential use zoning would command a premium in comparison to the land parcels under agricultural use /conservation zone. Further, we understand that the land parcels with the requisite clearances in place such as NALA (Non-Agricultural Land Assessment) conversions, etc. command a premium over the agricultural land parcels.
- Physical conditions of the asset/ownership - Based on our market research, it was observed that the land parcels with site improvements such as compound wall, bore well, etc. command a premium. In addition, Assets with single owner would attract a premium as compared to the Assets with multiple owners.

### 5.3.2 Income Approach

The income approach is based on the premise that value of an income - producing asset is a function of future benefits and income derived from that asset. There are two commonly used methods of the income approach in infrastructure valuation namely, direct capitalization and discounted cash flow (DCF).

A. Direct Capitalization Method

Direct capitalization involves capitalizing a 'normalized' single - year net income estimated by an appropriate yield. This approach is best utilized with stable revenue producing assets, whereby there is little volatility in the net annual income.

B. Discounted Cash Flow Method

A Discounted Cash Flow Analysis is based upon estimates of future financial performance. The methodology begins with a set of assumptions regarding income and expenses of the Asset and future economic conditions in the local market. The income and expense figures are assessed with adjustments for estimated changes in economic conditions and any contractual commitments. The resultant value is considered the best estimate but is not to be construed as a prediction or guarantee and is fully dependent upon the reasonableness of the assumptions with respect to income, expenses, and market conditions, which are based on information available as at the valuation date.

## 5.4 Approach and Methodology Adopted

Considering the objective of this exercise, the nature of asset involved and the purpose of the valuation viz. to assess the Market Value (MV) of the Subject Asset for the purpose of the Private Placement of TVS Infrastructure Trust InvIT under the SEBI (Infrastructure Investment Trust) Regulations, 2014 'Regulation', we have adopted the methodology considering Chapter 1 section 2 point (i) of the InvIT regulation, which states that, the assets forming part of InvIT should meet among the below criteria as follow:

1. The infrastructure asset has achieved the commercial operations date as defined under the relevant asset agreement including concession agreement, power purchase agreement or any other agreement of a similar nature entered into in relation to the operation of the asset or in any agreement entered into with the lenders
2. The infrastructure asset has received all the requisite approvals and certifications for commencing operations
3. The infrastructure asset has been generating revenue from operations for a period of not less than one year

Hence owing to the above stated conditions, we are of the opinion that the income approach which is appropriate to value such asset based on the premise that value of an income - producing asset is a function of future benefits and income derived from that asset.

Under the Income approach, Discounted Cash Flow Analysis is based upon estimates of future financial performance which also considers the income and expenses of the Asset accounting for the future fluctuations due to expected market dynamics.

Hence, for the purpose of this valuation exercise, we have adopted Discounted Cash Flow Method (using rent reversion approach).

For the purpose of this valuation exercise, we have analysed the tenancy details provided by the client to identify variances vis-à-vis prevailing marginal rent. In the event the contracted rent is within the threshold (15.0%), we have assumed that the tenant will continue on the current agreed terms. In the event the rent is higher than the marginal rent threshold, we have assumed that the lease would be renegotiated to marginal rent terms (at the time of the lock-in expiry, next escalation, etc.).

<u>Asset-specific Review:</u>

1. As the first step to the valuation of the asset, the lease deeds were reviewed to identify tenancy characteristics with respect to contractual commitments and commercial covenants.

2. Title documents and architect certificates were reviewed for validation of area details, ownership of the asset.
3. The Valuer has undertaken physical site inspections to assess the status of the Subject Asset in terms of their physical configuration, capacity and upkeep.

Micromarket Review/Market Rental Assessment:

The primary catchment for the purpose of this valuation has been defined as Vairavanatham Village and its adjoining micromarkets which are predominantly characterized by small to mid-scale industrial/warehousing development and large tracts of vacant land parcels. By virtue of the asset being located near the Kappalur Industrial estate, the influence zone of the Subject Asset is characterised by the presence of numerous small to medium sized industrial/warehousing facilities coupled with residential developments with few notable developments in the micromarket include CWC Warehouse and SPG Warehouse.

A primary research exercise has been carried out in the catchment area to ascertain the prevalent activity levels in terms of quoted / transacted evidence of the recent leasing activity for warehousing facilities. This has been achieved through interactions with various market players such as local brokers, developers, owners, etc. Based on the same, we understand that variance across rentals is primarily due to factors such as type of asset, developer brand, location, accessibility, overall tenant mix, quantum of vacant stock in the development, specifications, and additional improvements, etc.

For the micromarket review and market rental assessment we have relied upon the report on 'Market Analysis of Warehousing assets in Identified locations pan India' prepared by CBRE South Asia Private Limited, hereafter referred as 'CBRE' (an independent agency appointed by the client to undertake market research, provide market summary and data for the purpose of this assignment)

Cash Flow Assertions:

We have assessed future cash flows from the Subject Asset based on existing lease terms and contractual lease payments for the operational area until the expiry of the leases or re-negotiation (using the variance analysis), whichever is earlier.

Based on a detailed review of the leases for the Subject Asset, we noted that it is approx. 100% leased out as on date of valuation (completed blocks). Since the infrastructure industry is dynamic and is influenced by various factors (such as existing supply, tenants looking at spaces, quality of spaces available in the market, overall health of the economy, existing rent, future growth plans, etc.) at a particular point in time, negotiated rent may tend to move away from the prevalent market rent over a period of time. It has also been witnessed that the market rent for some Assets or micromarkets increase or decrease at a rate significantly different from those agreed to in initial leases. These factors reinforce the need to review each of these leases in isolation to assess the intrinsic value of the asset under review.

Post this, the lease terms have been aligned with market rentals. For vacant area and under-construction/proposed area, the valuer has asserted the market rent led cash flows factoring appropriate lease-up time frame for vacant/under-construction/proposed area. These cash flows have been asserted for 10-year duration from the date of valuation and for 11th year (for assessment of terminal value). These future financial benefits are then discounted to a present-day value (valuation date) at an appropriate discount rate.

## 5.5 Information Sources for Valuation

Asset related information referred to for the valuation exercise have been provided by the client unless otherwise mentioned. We have assumed the documents to be a true copy of the original. The rent rolls have been cross-checked with the lease deeds on a sample basis to verify the authenticity. Additionally, wherever possible, we have independently revalidated the information by reviewing the originals as provided by the client.

Table below highlights various data points referred throughout the course of this valuation report and the data sources for the same:

Table below highlights various data points referred throughout the course of this valuation report and the data sources for the same. Asset related documents referred to in the table below have been provided to the valuer by the client unless otherwise mentioned. The valuer has assumed the documents to be a true copy of the original.

# 6 Value Assessment

## 6.1 Value Assessment

### 6.1.1 Adopted Methodology

We acknowledge that the approaches to valuation differ considerably and that for a particular purpose, alternative approaches to the valuation can be utilized. Considering the objective of this exercise and the nature of asset involved, the value of the Subject Asset has been assessed through the following approaches:

| Asset Name | Valuation Methodology (Completed Blocks) | Valuation Methodology (Under-construction Blocks) |
|---|---|---|
| Madurai Park | Discounted Cash Flow (Using rent reversion approach) | Discounted Cash Flow (Using rent reversion approach) |

The sections below highlight the detailed valuation workings for the Subject Asset.

## 6.2 Operational Assumptions

### 6.2.1 Area statement

Based on information from inputs shared by the client, we understand that Subject Asset is a partly developed warehousing facility with two operational and one under-construction blocks. Further, the table below highlights the area configuration of the Subject Asset:

| Block | Total Area (sft)* | Operational Area (sft)*[2] | Under- Construction Area (sft)* |
|---|---|---|---|
| Madurai Park - Block I – Part 1 | 58,082 | 50,741 | N.A. |
| Madurai Park - Block I – Part 2 | 24,029 | 18,822 | N.A. |
| Madurai Park - Block I – Part 3 | 45,538 | 45,538 | N.A. |
| Madurai Park - Block I – Part 4 | 17,420 | 15,165 | N.A. |
| Madurai Park - Block I – Part 5 | 28,976 | 28,976 | N.A. |
| Madurai Park - Block II – Part 1 | 40,014 | 40,014 | N.A. |
| Madurai Park - Block II – Part 2 | 1,06,938 | 81,000 | N.A. |
| Madurai Park - Block II – Part 3 | 21,277 | 21,277 | N.A. |
| Madurai Park - Block III Part 1 | 17,340 | 17,340 | N.A. |
| Madurai Park - Block III Part 2 | 62,750 | 62,750 | N.A. |
| Madurai Park - Block III Part 3 | 10,349 | 10,349 | N.A. |
| Total Area (sft) | 4,32,713 | 3,91,972 | NA |

*Source: Client Inputs *Area mentioned in chargeable area*

[2] *As per the details provided by the client, the rental revenue has been calculated and other analysis are performed on chargeable area. Further, leasable area mentioned is in accordance with the information shared by the Client comprising rent rolls and lease agreements.*

| Tenant | Leased Area – Chargeable (sft) | % of area leased | Total In-place rental (INR psf pm) | Total In-place rental (INR Mn pm) |
|---|---|---|---|---|
| Madurai Park | 3,91,972 | 97%^ | 16.27 | 6.2 |

*Source: Lease deeds*

## 6.3 Tenancy Analysis

### 6.3.1 Historical Occupancy Rates

The table below highlights the historical occupancy rates at the subject development:

| Particulars | Occupancy % |
|---|---|
| Occupancy (Completed blocks) | 97% |
| Pre-Commitment (Under Construction blocks) | NA |

*Source: Lease deed and Client inputs.*

### 6.3.2 Lease Rent Analysis

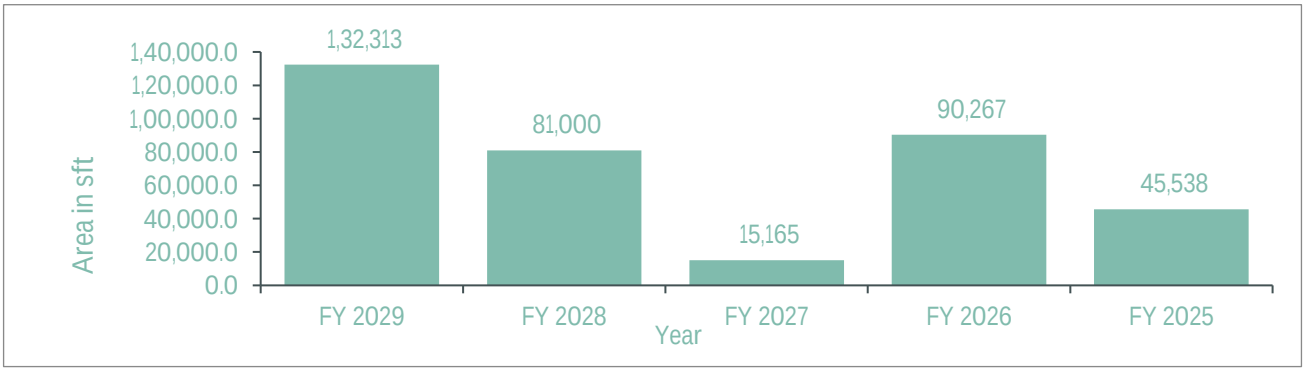
Based on the review of the Lease Deed provided by the client, we understand that the lease agreements were signed between TVS infrastructure Pvt ltd and the tenants, details of which are mentioned below:

| Tenant | Particulars | Details |
|---|---|---|
| FMCG Company | Lease Commencement Date | 25th July 2024 |
| | Rent Commencement Date | 08th September 2024 |
| | Lock-in Period | 2 Years |
| | Lease Tenure/Remaining Tenure | 5.0/4.8 Years |
| | Lease Rent Escalation Terms | 5% every year |
| Kitchen Appliance Manufacturing Company | Lease Commencement Date | 25th July 2024 |
| | Rent Commencement Date | 08th September 2024 |
| | Lock-in Period | 2 Years |
| | Lease Tenure/Remaining Tenure | 5.0/4.8 Years |
| | Lease Rent Escalation Terms | 5% every year |
| Manufacturing Company | Lease Commencement Date | 01stJuly 2022 |
| | Rent Commencement Date | 01stJuly 2022 |
| | Lock-in Period | 2 Years |
| | Lease Tenure/Remaining Tenure | 3.0/0.8 Years |
| | Lease Rent Escalation Terms | 5% every year |
| Logistics Company | Lease Commencement Date | 07thJuly 2022 |
| | Rent Commencement Date | 07thJuly 2022 |
| | Lock-in Period | 2 Years |
| | Lease Tenure/Remaining Tenure | 5.0/2.7 Years |
| | Lease Rent Escalation Terms | 5% every year |
| Manufacturing Company | Lease Commencement Date | 07th April 2023 |
| | Rent Commencement Date | 07th April 2023 |
| | Lock-in Period | 2 Years |
| | Lease Tenure/Remaining Tenure | 3.0/1.5 Years |
| | Lease Rent Escalation Terms | 5% every year |
| Manufacturing Company | Lease Commencement Date | 15th August 2023 |
| | Rent Commencement Date | 01st September 2023 |
| | Lock-in Period | 2 Years |
| | Lease Tenure/Remaining Tenure | 3.0/1.9 Years |
| | Lease Rent Escalation Terms | 5% every year |
| Logistics Company | Lease Commencement Date | 06th November 2023 |
| | Rent Commencement Date | 06th November 2023 |
| | Lock-in Period | 2 Years |
| | Lease Tenure/Remaining Tenure | 5.0/4.1 Years |
| | Lease Rent Escalation Terms | 5% every year |
| Manufacturing Company | Lease Commencement Date | 12th February 2023 |
| | Rent Commencement Date | 12th February 2023 |
| | Lock-in Period | 2 Years |
| | Lease Tenure/Remaining Tenure | 3.0/2.4 Years |
| | Lease Rent Escalation Terms | 5% every year |
| FMCG Company | Lease Commencement Date | 25th September 2024 |
| | Rent Commencement Date | 25th November 2024 |
| | Lock-in Period | 2 Years |
| | Lease Tenure/Remaining Tenure | 10.0/10.0 Years |
| | Lease Rent Escalation Terms | 5% every year |
| Logistics Company | Lease Commencement Date | 15th November 2024 |
| | Rent Commencement Date | 15th January 2025 |
| | Lock-in Period | 2 Years |
| | Lease Tenure/Remaining Tenure | 5.0/5.0 Years |
| | Lease Rent Escalation Terms | 5% every year |

*Source: Lease Deed and Client Inputs*

### 6.3.3 Lease Expiry Profile

The Weighted Average Lease Expiry (WALE) of the Subject Asset is 3.7 years as shown in the chart below.



*Source:* Valuer Workings; The expiry profile has been plotted only for the warehouse areas

### 6.3.4 Tenant Obligations

Based on the review of the lease deed, we understand that the operational expenses listed below will have to be borne by the Tenant.

| S. No | Description of operational expenses |
|---|---|
| 1 | Regular Maintenance |
| 2 | Taxes |
| 3 | Insurance |
| 4 | General Wear and Tear |
| 5 | Other Expenses such as utility charges towards any Governmental authorities or Concerned service provider. |

*Source: Client Inputs*

Contractual Rental Details

| Tenant | Leased - Chargeable Area *(sft) | % of area leased | Total In-place rental (INR psf pm) | Total In-place rental (INR Mn pm) |
|---|---|---|---|---|
| Madurai Park | 3,91,972 | 97% | 15.8^ | 6.2 |

*Source: Leased Deed and Information provided by the client *Area considered is chargeable Area; ^Weighted Average of Phase I & Phase II*

Based on the recent transaction witnessed in the micromarket as highlighted in the table above and transaction witnessed in the Subject Asset, we understand that the Subject Asset would command a marginal rental (for warehouse space) of INR 17.5 – 19.5 per sf per month (say an average rental of INR 18.5 per sf per month of leasable area).

### 6.3.5 Construction Timelines

#### 6.3.5.1 Completed Blocks

The asset was completed in a phase-wise manner with Block 1 Part 1 completed and operationalised during Q1 2022, Block 1 Part 2, 3, 4 completed and operationalised during Q2 2022, Block 1 Part 5 completed and operationalised during Q2 2023, Block 2 Part 1 completed and operationalised during Q3 2023, and Block 2 Part 3 completed and operationalised during Q4 2023 and Block 3 has been completed during Q2 2024

#### 6.3.5.2 Under-Construction Blocks

Based on visual inspection during the site visit and information provided by the client, we understand that construction for all the blocks has been completed

### 6.3.6 Absorption/ Leasing Velocity and Occupancy Profile

#### 6.3.6.1 Completed Blocks

As per the rent roll provided by the client, we understand that the competed blocks have an occupancy of 97% as on date of valuation. Further, in order to arrive at the future absorption levels at the Subject Asset, we have analysed the historical demand and supply trends coupled with the estimation of future supply proposed to be introduced in the subject micromarket. Further, a leasable area of approx. 10,000 sft is expected to be absorbed by Q2, 2025.

#### 6.3.6.2 Under-Construction/ Proposed Blocks

NA

### 6.3.7 Revenue Assumptions (Warehouse + Industrial)

#### 6.3.7.1 Warehouse Component

For the purpose of this valuation exercise, the lease rent adopted for the area already leased is based on the rent roll/lease deeds shared by the client. Further, the Valuer have undertaken an in-depth market research exercise to assess the prevailing rent values in the subject micromarket. The same has been adopted for the vacant space for the purpose of this valuation exercise.

Based on our market study and based on the analysis of the rent roll provided by the client, following rent has been adopted for the purpose of value assessment of the completed blocks at the Subject Asset. The detailed rent assessment workings are highlighted in the lease rent analysis section presented above.

| Component | Leasable Area (sft) | Chargeable Area (sft) | Leased Area (sft) | Basis | Rent Adopted (INR psf pm) |
|---|---|---|---|---|---|
| Warehouse | 4,32,713 | 3,91,972 | 3,81,623 | Current Rent for Leased area | 15.8^ |
| | | | | Market rent for reversion/ vacant area | 18.5 |

*Source: Lease deed provided by the client; Valuer's assessment; ^Weighted Average of Phase I & Phase II*

The above market rent assumption is adopted for the entire Subject Asset. In addition to undertaking an in-depth market analysis, a detailed analysis of the rent rolls was also undertaken to understand aspects such as area occupied, current rent and expiry analysis of the key tenants in the park.

For the purpose of this valuation exercise, the lease rent adopted for the area already leased is based on the lease deed shared by the client. Further, an in-depth market research exercise has been undertaken to assess the expected economic rental value of the Subject Asset.

Based on our market study, we understand that the contracted rental of the Subject Asset is in line with the expected economic rental values. Hence, we have considered contracted rentals for the purpose of value assessment at the Subject Asset

#### 6.3.7.2 Non-Warehouse Component

N.A

### 6.3.8 Rent Escalation

Based on an analysis of existing lease rolls and recent leasing at the Subject Asset, it was observed that the typical escalation clause in the Subject Asset is approx. 5.0% every year, which is in-line with the trend observed in the market. The same has been adopted for the renewals at the Subject Asset.

Escalation on renewal - Based on the analysis of terms of lease deed, it was observed that the typical escalation clause in the Subject Asset is 5% per annum, which is in-line with the trend observed in the market. The same has been adopted by the valuer.

| Particulars | Unit | Details |
|---|---|---|
| Lease Rental Escalations | % p.a. | 5.0% |

*Source: Valuer's assessment*

### 6.3.9 Other Revenues

In addition to lease rent revenues, assets typically have additional sources of revenue. These include revenues on account of security deposit (refunded at the time of lease expiry / exit), other miscellaneous income etc.

The assumptions considered for the aforementioned revenue heads for the purpose of this valuation exercise are based on the rent roll & lease deeds provided by the client. The same has been cross-checked with the prevailing market norms for other revenues and were found to be broadly in line.

The assumptions adopted for other revenues are as tabulated below:

| Nature of Income | Details | Units |
|---|---|---|
| Security Deposit (For vacant spaces) | 6.0 | No. of months' warm shell rental |
| CAM Income (For vacant area and Development component) | 1.0 | INR per sft per month |
| Other Income (For vacant area and Development component) | 3.0% | % of total revenue |

*Source: Valuer's assessment*

### 6.3.10 Capital Expenditure

#### 6.3.10.1 Development Cost

The following table highlights the assumptions towards the development cost for the under-construction/proposed blocks at the subject development:

| Block | Total Cost of Construction (INR Mn) | Pending Cost to be Spent (INR Mn) |
|---|---|---|
| Under Construction Blocks | NA | NA |

*Source: Client Inputs.*

### 6.3.10.2 Major Repair and improvements

As per information provided by the client, we understand that there are no major repairs and improvement proposed in the said asset.

## 6.3.11 Operating Cost

An Asset typically has few recurring operation expenses required for the upkeep running of the development.

In addition to capital expenditure, an asset typically has few recurring operational expenses required for the up-keep and running of the asset. Based on information provided by the client and market assessment, following recurring expense assumptions have been adopted for the purpose of this valuation exercise.

Completed Blocks

| Nature of Expense | Details |
|---|---|
| Asset Management Fee^ | 3.0% of rental income |
| Property Tax* | INR 0.44 Mn |
| Insurance* | INR 0.87 Mn |
| Vacancy Allowance during operations | 1.0% |
| Vacancy Allowance on Exit | 2.5% |
| Refurbishment Reserve | 1.5% of rental income |
| Repair Margin | 0.5% of rental income |

*Source: Client input; Valuer's assessment; *As per the lease terms and the information provided by the client, Asset tax and insurance are to be borne by the client; ^fees has been considered as below the NOI line item.*

Under- Construction Blocks

| Nature of Expense | Details |
|---|---|
| Asset Management Fee^ | 3.0% of rental income |
| Property Tax* | INR 0.11 Mn |
| Insurance* | INR 0.34 Mn |
| Vacancy Allowance during operations | 1.0% |
| Vacancy Allowance on Exit | 2.5% |
| Refurbishment Reserve | 1.5% of rental income |
| Repair Margin | 0.5% of rental income |

*Source: Client input; Valuer's assessment; *As per the lease terms and the information provided by the client, Asset tax and insurance are to be borne by the client; ^fees has been considered as below the NOI line item*

### 6.3.12 Other Assumptions

#### 6.3.12.1 Vacancy provision

Based on review of the rent roll provided, we understand that that the completed portion of the Subject Asset is substantially occupied with significantly long lease periods. Considering the same alongside other asset level parameters (location, amenities, grade, infrastructure etc) and market benchmarks, the valuer has adopted a vacancy provision as follows:

| Description | Completed Blocks | Under-construction Blocks |
|---|---|---|
| Vacancy Provision | During Operations – 1.0%<br>Assessment at the time of exit – 2.5% | During Operations – 1.0%<br>Assessment at the time of exit – 2.5% |

*Source: Valuer's assessment*

#### 6.3.12.2 Revenue escalation

Based on prevailing market condition, historical rent growth achieved by the Subject Asset and our interactions with market participants, we are of the opinion that the annual marginal rent growth of 5.0% has been considered for the FY 2024 and year on year thereafter.

#### 6.3.12.3 Rent-free period

Based on the rent roll provided by the client, it is understood that the existing leases have a rent-free period ranging from 0.5 months to 1.5 months from the lease-commencement date. However, based on recent market trends in the subject micromarket, we have considered a rent-free period of 1 months for new-leases and for re-leasing effective from the lease commencement date.

#### 6.3.12.4 Brokerage

Based on prevalent market dynamics, we have considered brokerage equivalent to 0.4 month of rental income for future / new leases

#### 6.3.12.5 CAM Cashflows

CAM Cashflows for the Subject Asset have been assessed both during the holding period and at the time of notional exit. Margin on CAM and CAM Recoveries are included in the financials as per the CAM Charge based on historical performance of the Subject Asset as per the inputs provided by the client and market benchmarks. The same is a pass-through expense.

Based on the subsequent information provided by the client, we understand that the 100% of the CAM Income would be received by the client entity and 100% of the CAM Expense would be borne by the SPV (for particular asset).

## 6.4 Financial Assumptions

### 6.4.1 Exit Capitalization Rate Adopted

The capitalization rate adopted for valuing the assets has been based on factors such as:

- Historical entry yields (going in cap rates) for yield/ core warehousing asset transactions across various key markets in India have steadily shown a downward trend over last 7 - 8 years from 10.0- 12.0% to about 7.0% - 8.5% in last 1-2 years.
- The increased appetite for income producing assets and availability of various modes of finance (real estate credit flows) backing such acquisitions.

- Yields for warehousing assets across various markets in India have a range of 7.5 – 8.5% in Tier I locations, with Tier II locations having cap rate approx. 50 – 100 bps on the higher vis-a-vis the Tier I location
- Liquidity associated with InvIT listed/ public listings (multiplicity of buyers and relatively lower budgets per buyer)

Based on the above highlighted attributes, the following cap rate has been adopted for the purpose of our valuation:

| Asset Name | SPV/Hold Co | Status of the Asset | Details |
|---|---|---|---|
| Madurai Park | Sri Meenatchi Industrial & Logistics Parks Pvt Ltd | Operational | 8.0% |

*Source: Valuer's assessment*

### 6.4.2 Discount Rate Adopted

For discounting the cash flows, an appropriate discount rate has been calculated on the basis of estimated 'Weighted Average Cost of Capital' (WACC).

### 6.4.3 Cost of Equity

The valuer has computed the cost of equity as per the Capital Asset Pricing Model (CAPM), which is derived as follows:

Cost of equity = Risk Free Rate (Rf) + Beta (**β**) * (Market Return (Rm) **–** Risk Free Rate (Rf))

As mentioned above, the cost of equity computed using CAPM constitutes of the following components:

- Risk free rate (Rf) i.e., long term (10-year) treasury bond rate in India
- Market return (Rm) based on the returns of Sensex index for the past 10 to 15 years
- Computation of 'Beta (β)' of key listed realty stocks and REITs/ InvITs in India with respect to the Broad-Based BSE 500 stock index

The cost of equity adopted for specific assets has been adjusted for market/ asset specific risk pertaining to a real estate asset such as execution risk (construction status), approval risk, marketing risk, etc. and adjusted for taxation. While the assumptions regarding the quantum of these risks have no quantitative basis, we have adopted them based on our understanding of the market and our opinion on the asset performance.

### 6.4.4 Cost of Debt

Completed Blocks

The cost of debt for competed assets has been considered based on prevalent Lease Rental Discounting (LRD) rates for Grade A warehousing developments across the Madurai micromarkets which are in the range of 8% – 9% depending upon the location, asset quality, occupancy, etc.

Under Construction/ Proposed Blocks

For under construction/ proposed blocks, the cost of debt has been considered based on prevalent Construction Finance (CF) rates for warehousing facilities parks across Madurai which are in the range of 10% – 12% depending upon the location, asset quality, developer reputation and credit profile, etc.

### 6.4.5 Weighted Average Cost of Capital (WACC)

As highlighted earlier, the cost of debt has been assumed based on the prevalent LRD rates and construction financing for under-construction assets, while the cost of equity assumed has been adjusted for asset and market specific attributes to reflect the market expectations from an operational institutional development. Further, the proportion of debt and equity has been derived considering the prevalent LRD tenures and its contribution in the overall asset value.

Completed Blocks

Based on above, the following WACC rate has been assumed for the completed assets forming part of the InvIT portfolio:

| Asset Name | SPV/Hold Co | Particular | Proportion | Cost | WACC |
|---|---|---|---|---|---|
| Madurai Park | Sri Meenatchi Industrial & Logistics Parks Pvt Ltd | Debt | 35.0% | 8.50% | 11.58% |
| | | Equity | 65.0% | 13.50% | |

*Source: Valuer's assessment; Please note that the cash flows are assumed to realize evenly during the course of every quarter; hence a mid-quarter discounting convention has been adopted for the purpose of this valuation. Additionally, we have not factored any cash flows attributable to working capital requirement/expenses for valuation as the same is immaterial.*

## 6.5 Value of the Subject Asset

The Valuer is of the opinion that subject to the overriding stipulations contained within the body of this report and to there being no onerous restrictions or unusual encumbrances of which he has no knowledge, the opinion of value of the complete ownership interest in the Subject Asset comprising land and improvements thereon, as explained above, as on 30th September 2024 is as follows:

| Asset Name | Component | Market Value (INR Mn) |
|---|---|---|
| Madurai Park | Phase I | 746.7 |
| | Phase II | 268.3 |
| Total Value of the asset | | 1,014.9 |

*Source: Valuer's assessment*

# 7 Exhibits and Addendums

## 7.1 Other Mandatory Disclosures

### 7.1.1 Details of On-going material litigations including tax disputes in relation to the assets

As per our interaction with the client, the client has confirmed that there are no material litigation details pertaining to the asset. Please note that the valuer has not investigated nor has been provided with any supporting documents.

Please refer to the section on litigations in the draft offer document for details on material litigations for various assets.

### 7.1.2 Details of options or rights of pre-emption and other encumbrances

As per our interaction with the client and our scope of services, please note that the valuer has not investigated nor has been provided with any supporting documents.

Please refer to the section on litigations in the draft offer document for details on material litigations for various assets

### 7.1.3 Vulnerability to natural or induced hazards that may not have been covered in town planning/ building control.

As per our interaction with the Client, the Client has confirmed that there are no vulnerabilities pertaining to the asset. Please note that the Valuer has not investigated nor has been provided with any supporting documents.

Also, in our professional judgment based on site inspection, there were no visible vulnerabilities.

### 7.1.4 Details of Revenue Pendencies including local authority taxes associated with InvIT asset and compounding.

As per our interaction with the client, the client has confirmed that there is no revenue pendency to the asset. Please note that the valuer has not investigated nor has been provided with any supporting documents.

Please refer to the section on litigations in the draft offer document for details on material litigations for various assets.

Our assessment is under the assumption the asset has a clear title and is free from any encumbrances, disputes, claims that would affect the value. This should be verified by an asset lawyer prior to relying on this valuation.

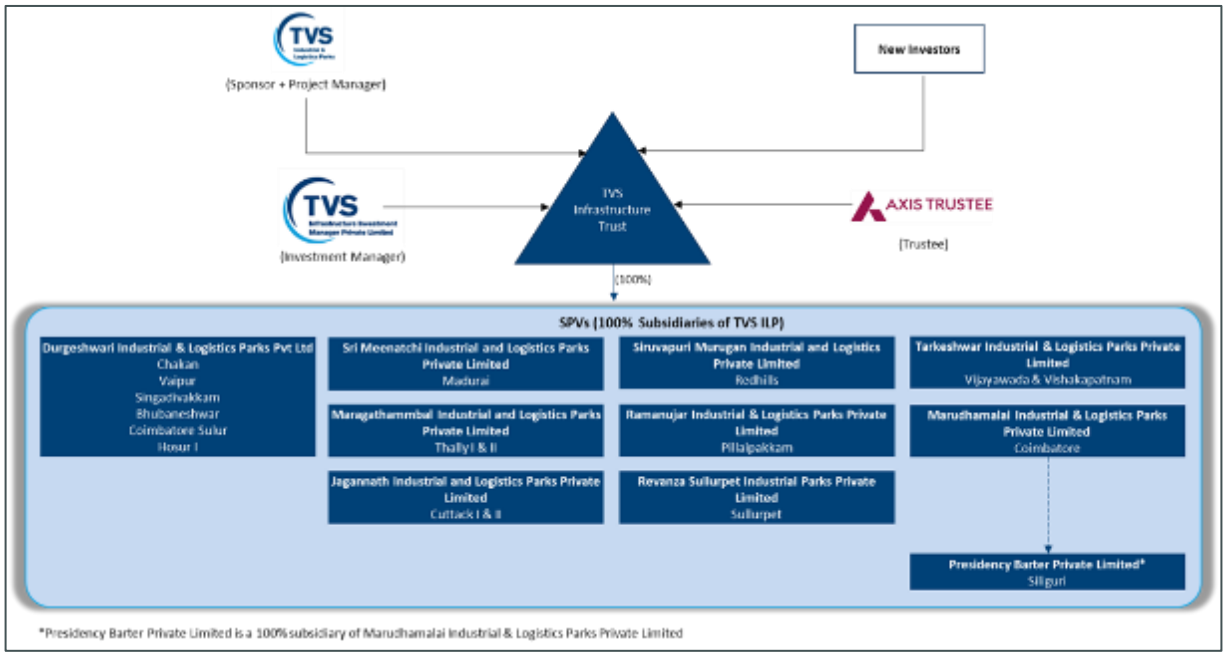
### 7.1.5 Details of the asset including whether the transaction is a related party transaction

The asset is proposed to be acquired from the Sponsor, which is identified as related party under SEBI (InviT) Regulations

### 7.1.6 Nature of the interest the InvIT holds or proposes to hold in the asset, percentage of interest of the InvIT in the asset

As per our interaction with the Client, the Client has confirmed that 100% to be help by the InvIT.

### 7.1.7 Structure of ownership of the asset by the InvIT



### 7.1.8 Description of key agreements and restrictions relevant to the asset such as terms of concession agreement, power purchase agreements, etc.

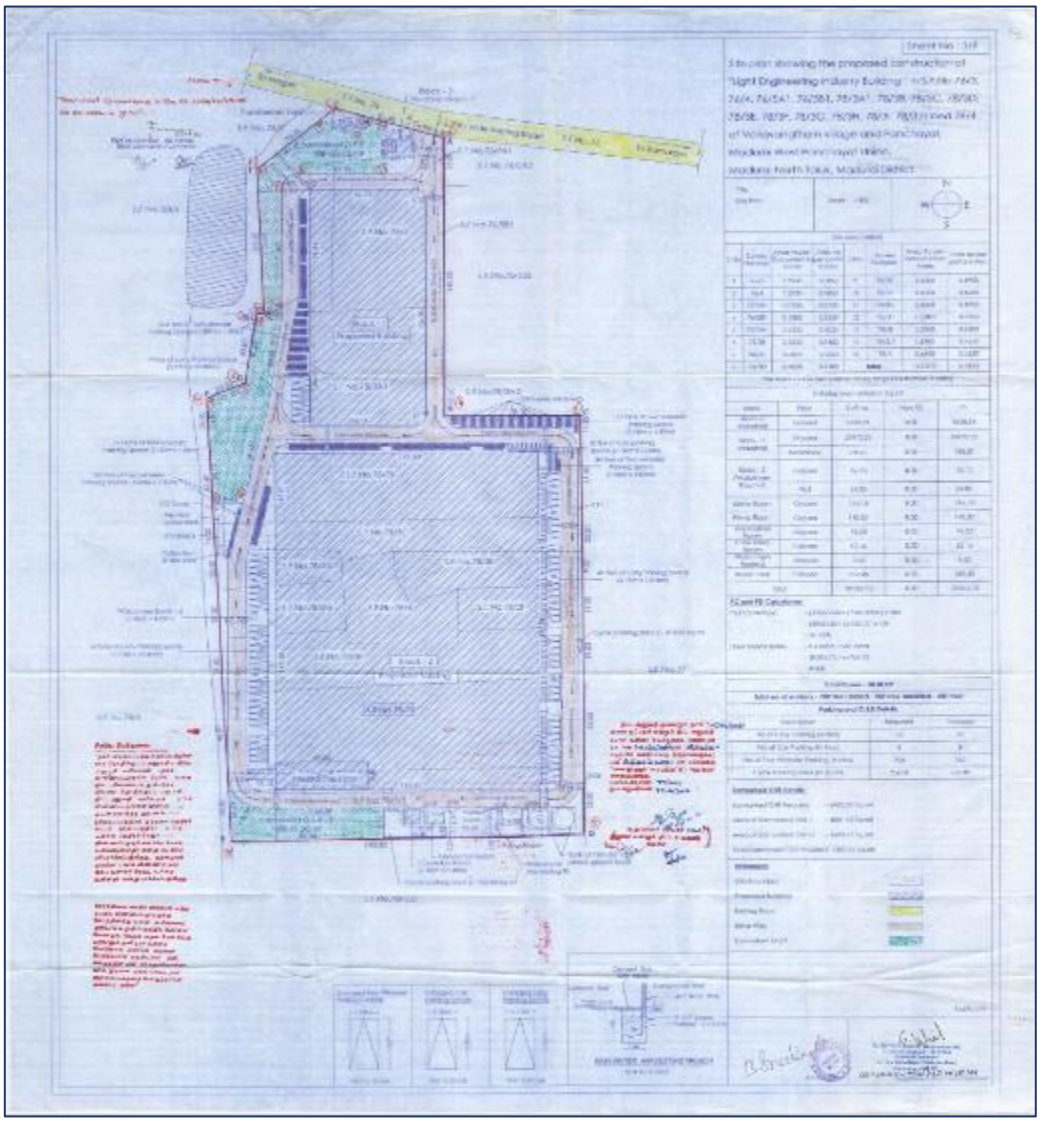
As per our interaction with the Client, the Client has confirmed that the same is not applicable to their business.

### 7.1.9 Life of the asset (both contractually and physical life requiring maintenance, replacement and right available to extend this life

| S. No | Particulars | Details |
|---|---|---|
| 1 | Remaining Physical Life of the Building asset requiring maintenance | Remaining period of Building 3 is 29.4 years |
| 2 | Remaining Contractual Life of underlying Land | Perpetual, since the underlying land is freehold in nature |
| 3 | Right to extend the contractual life of land | Not applicable. The underlying land is freehold in nature |

## 7.2 Site Plan

### 7.2.1 Madurai Park



*Source: Client Inputs*

## 7.3 Statutory Approvals, One-time Sanctions & Periodic Clearances

### 7.3.1 Architect Certificate

**STRUCTURAL SAFETY CERTIFICATE**

With respect to the building work of erection for M/s. TVS Industrial & Logistics Parks Private Limited constructed an industrial Building at Survey No. 78/3H, 78/3I, 78/3J1, Nagari to Kumaram Road, No. 4 Vairavanatham Village in Patta No.410, Vairavanatham, Madurai, Tamil Nadu, 625402, within the DTCP area, I certify that the structural plans and details of the building submitted for approval satisfy the structural safety requirements for all situations including natural disasters like cyclone earth quake etc., as applicable, as stipulated under Part-6 ( Structural Design) of the National Building Code of India, 2016 and other relevant codes; and the information given their in is factually correct to the best of my knowledge. I undertake responsibility with regard to supervision of the work at each stage of construction, (after laying of foundation & after casting of each floor) and submit the report to DTCP regularly to effect that the building is being constructed confirming to the approved plan and as per the structural plan prepared by me. I will be responsible and Liable for action by DTCP/Govt. If the plan/ design contains misrepresentation or fraudulent information and the construction is made in deviation of approved plan or if there is any structural failure due to wrong/unsafe structural design, use of low-quality material and or poor workmanship endangering the in-mates public.

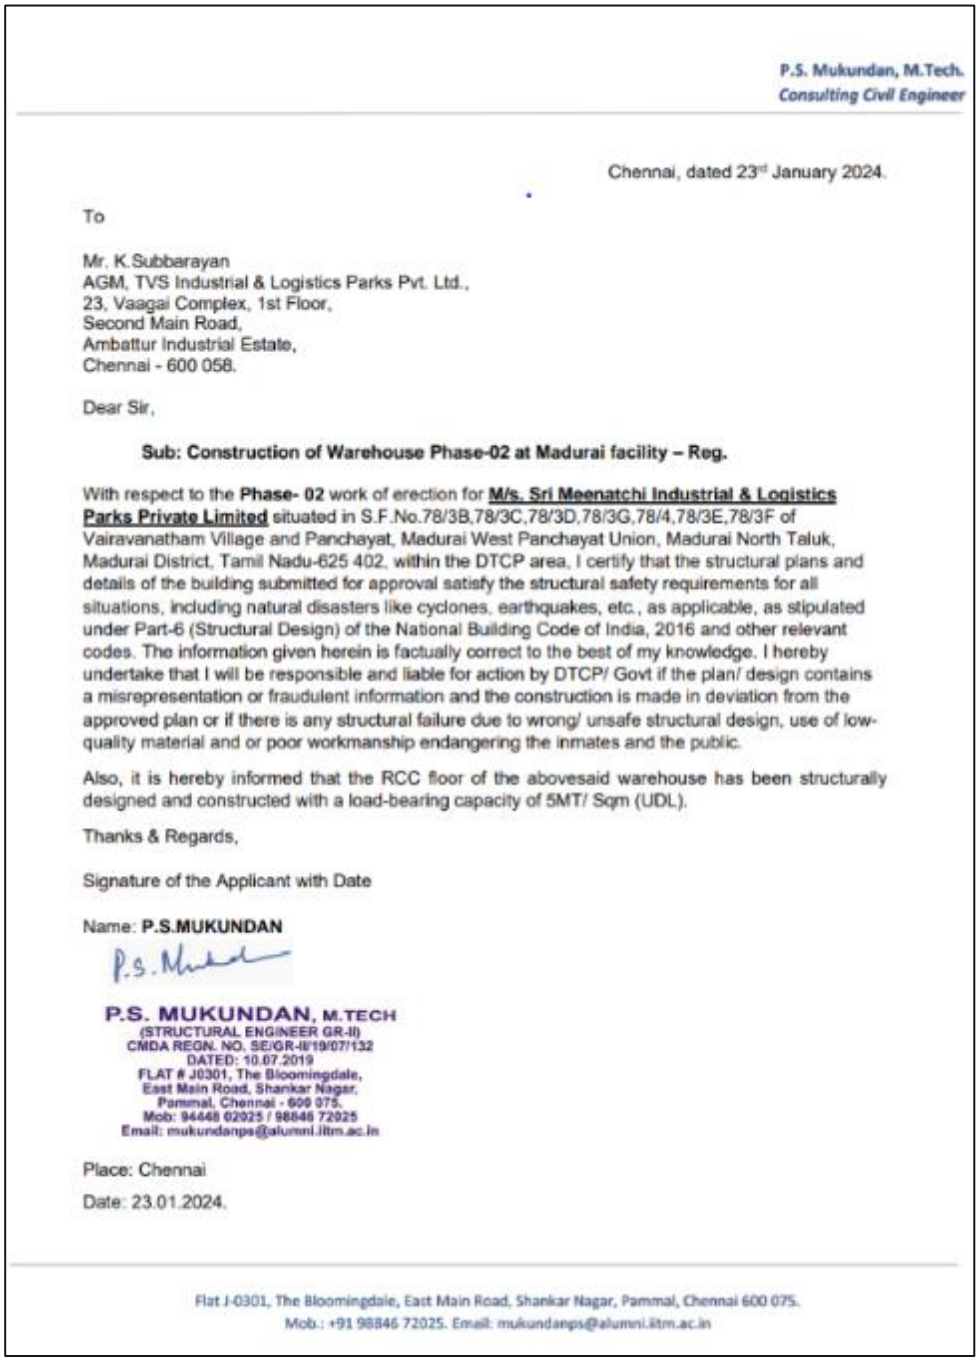
### 7.3.7 Structural Stability Certificate



P.S. Mukundan, M.Tech.
*Consulting Civil Engineer*

Chennai, dated 23rd January 2024.

To

Mr. K.Subbarayan
AGM, TVS Industrial & Logistics Parks Pvt. Ltd.,
23, Vaagai Complex, 1st Floor,
Second Main Road,
Ambattur Industrial Estate,
Chennai - 600 058.

Dear Sir,

**Sub: Construction of Warehouse Phase-02 at Madurai facility – Reg.**

With respect to the **Phase- 02** work of erection for **M/s. Sri Meenatchi Industrial & Logistics Parks Private Limited** situated in S.F.No.78/3B,78/3C,78/3D,78/3G,78/4,78/3E,78/3F of Vairavanatham Village and Panchayat, Madurai West Panchayat Union, Madurai North Taluk, Madurai District, Tamil Nadu-625 402, within the DTCP area, I certify that the structural plans and details of the building submitted for approval satisfy the structural safety requirements for all situations, including natural disasters like cyclones, earthquakes, etc., as applicable, as stipulated under Part-6 (Structural Design) of the National Building Code of India, 2016 and other relevant codes. The information given herein is factually correct to the best of my knowledge. I hereby undertake that I will be responsible and liable for action by DTCP/ Govt if the plan/ design contains a misrepresentation or fraudulent information and the construction is made in deviation from the approved plan or if there is any structural failure due to wrong/ unsafe structural design, use of low-quality material and or poor workmanship endangering the inmates and the public.

Also, it is hereby informed that the RCC floor of the abovesaid warehouse has been structurally designed and constructed with a load-bearing capacity of 5MT/ Sqm (UDL).

Thanks & Regards,

**"Legal Notice and Disclaimer"**

This valuation report (the "Report") has been prepared by iVAS Partners. ("iVAS") exclusively for TVS Industrial & Logistics Parks Private Limited (the "Instructing Party" or "Client"), in accordance with the Agreement entered into between iVAS and the Instructing Party dated 1st February 2024 (the "Agreement"). The Report is confidential to the Instructing Party and any other Addressees named herein and the Instructing Party and the Addressees may not disclose the Report unless expressly permitted to do so under the Agreement.

Where iVAS has expressly agreed that persons other than the Instructing Party or the Addressees can rely upon the Report (a "Reliant Party" or "Reliant Parties") then iVAS shall have no greater liability to any Reliant Party than it would have if such party had been named as a joint client under the Agreement.

iVAS's maximum aggregate liability to the Instructing Party and to any Reliant Parties howsoever arising under, in connection with or pursuant to this Report and/or the Agreement together, whether in contract, tort, negligence or otherwise shall be limited as defined under the terms of the Agreement.

iVAS shall not be liable for any indirect, special or consequential loss or damage howsoever caused, whether in contract, tort, negligence or otherwise, arising from or in connection with this Report. Nothing in this Report shall exclude liability which cannot be excluded by law.

If you are neither the Instructing Party, an Addressee nor a Reliant Party then you are viewing this Report on a non-reliance basis and for informational purposes only. You may not rely on the Report for any purpose whatsoever and iVAS shall not be liable for any loss or damage you may suffer (whether direct, indirect or consequential) as a result of unauthorized use of or reliance on this Report. iVAS gives no undertaking to provide any additional information or correct any inaccuracies in the Report.

For the avoidance of doubt, nothing in our Report will constitute any recommendation, investment advice or an offer or solicitation for the purpose of or for sale of any securities, financial instrument or products or other services. Any investors should make their own investment decisions in relation to any investments. If you do not understand this legal notice, then it is recommended that you seek independent legal advice.

| Asset Address: | 9/1A, 9/2, 10/2, 11/3, 11/3A, 11/4B, 11/6, 11/7, 11/8, 12/1, 12/2, 13/1, 13/2, 13/5 Zuvve Chelika Village, 30-3,30-P2,30-P5B,30-P4B,.12-2,12-1,11-6,11-4b,11-3a,11-3,10-2,9-2E,9-1a,13-1,13-2,13-5,11-7,11-8 Padamati Kandriga Village, Sullurupet Mandal, Nellore District, AP |
| Instructing Party: | TVS Industrial & Logistics Parks Private Limited (the "Client") |
| SPV Name: | Revanza Sullurpet Industrial Parks Private Limited/ TVS ILP |
| Interest Valued: | 100% Freehold interest |
| Land Area: | As per the review of the architect certificate provided by the Client, it is understood that the total land area of the Subject Asset is approx. 44.1 acres. |
| Brief Description: | Based on the review of land use certificate, building permit order shared by the Client and subsequent site visit undertaken, it is understood that the Subject Asset "TVSILP, Sullurpet" is an industrial manufacturing facility. Phase 1 of the Subject Asset is operational whereas Phase 2 is under construction.<br><br>The larger project is developed on Built-to-Suit (BTS) basis to meet the operational requirements of the sole occupier and is a manufacturer of composite parts. The Subject Asset is contracted under a long lease and part of it viz. Phase 1, is currently being utilized for the storage & manufacturing of manufacturing windmill blades and ancillary products. The under-development phase viz. Phase 2 is being developed for similar purposes to be occupied by the same tenant. As per the information received from the Client, the lease documents are already executed in favor of the same manufacturing tenant for Phase 2.<br><br>The Subject Asset is located along 10m wide internal road. The access to the Subject Asset emanates from an internal road, passes through the subject micromarket of Sullurpet, and merges with NH – 16 Chennai – Kolkata Highway.<br><br>The Subject Asset is located at a distance of approx. 0.8 - 1 kms from National Highway 16 (Chennai – Kolkata Highway), approx. 3 - 4 kms from Bus stand, approx. 60 - 65 kms from Tirupati International Airport, approx. 5 - 6 kms from Sullurpet Railway Station. |
| Statement of assets (sft): | Based on review of rent roll, lease deeds, Agreement to lease (ATL) and area statement provided by the Client, we understand that the overall chargeable area of the Subject Asset is approximately 13,78,077 sft, with the entire area contracted under long lease by a single tenant. Further the total chargeable area is bifurcated in two phases viz. Phase - 1 & Phase – 2, respectively.<br><br>Based on the site visit undertaken & review of information provided, we understand that the Phase 1 of Subject Asset is already operational, and Phase 2 is at nascent stage of development. The block-wise area details are exhibited in the table below: |

| Particulars | Construction Status | Leasable area (sft) | Chargeable area (sft) |
|---|---|---|---|
| Phase I | Completed | 8,77,790 | 8,77,790 |

| | | | |
|---|---|---|---|
| Phase II | Under-development | 5,00,690 | 5,00,287 |
| Total | | 13,78,480 | 13,78,077 |

Assumptions, Disclaimers, Limitations & Qualifications:

This valuation report is provided subject to assumptions, disclaimers, limitations and qualifications detailed throughout this report which are made in conjunction with those included within the Assumptions, Disclaimers, Limitations & Qualifications section located within this report.

Reliance on this report and extension of our liability is conditional upon the reader's acknowledgement and understanding of these statements. This valuation is for the use of the party to whom it is addressed and for no other purpose. No responsibility is accepted to any third party who may use or rely on the whole or any part of the content of this valuation. The valuer has no pecuniary interest that would conflict with the proper valuation of the asset.

Heightened Market Volatility:

We draw your attention to current heightened geopolitical tensions, low economic growth in many major countries, and a "higher for longer" interest rate sentiment which have increased the potential for constrained credit markets, negative capital value movements and continued volatility in some property markets over the short-to-medium term.

Experience has shown that consumer and investor behaviour can quickly change during periods of such heightened volatility. Lending or investment decisions should reflect any heightened level of volatility and potential for changing market conditions. Lending and investment caution is advised in this regard.

It is important to note that the conclusions set out in this report are valid as at the valuation date only. Where appropriate, we recommend that the valuation is closely monitored, as we continue to track how markets respond to evolving events.

| | |
|---|---|
| Construction Cost Volatility: | Although general increases in material costs have stabilised since 2022, some specialised supply chains and construction-related labour costs remain volatile with the potential for further increases. This has created uncertainty in cost estimates, which is likely to continue.<br><br>In addition, there are significant risks that delays may be encountered in sourcing specialised materials and labour, and as such, the potential for ongoing cost escalations and delays is high. This may place additional pressure on developer and contractor profit margins and development viability.<br><br>These inherent risks should therefore be given careful consideration in lending and investment decisions. Caution is advised in this regard. |

---

Valuer Declaration:

i. The valuer is competent to undertake the valuation.

ii. The valuer is independent and has prepared the report on a fair and unbiased basis.

iii. The valuer has valued the assets based on the valuation standards as specified under sub-regulation 10 of regulation 21

Prepared by:

iVAS Partners
Valuer Registration Number: IBBI/RV-E/02/2020/112

Official Signatory:

Name: Mr. Shubhendu Saha
Designation: Partner, iVAS Partners
Valuer Registration Number: IBBI/RV/05/2019/11552

# 2 Instruction

iVAS Partners (Valuer Registration Number: IBBI/RV-E/02/2020/112; hereinafter referred as 'Valuer') represented by its partner Mr. Shubhendu Saha, a registered valuer under the Companies Act 2013 with IBBI (Valuer Registration Number: IBBI/RV/05/2019/11552) has been instructed by TVS Industrial & Logistics Parks Private Limited (hereinafter referred as the "Instructing Party", or the "Client" or the "Sponsor") in its capacity as Sponsor of the TVS Infrastructure Trust to estimate the Market Value (MV) of 'TVSILP, Sullurpet', an industrial manufacturing facility developed on Built-to-Suit (BTS) basis & located at in Padamati Kandriga (V), Sullurpet (M), Tirupati (D), Andhra Pradesh. (herein referred as the 'Subject Assets' across the report).

iVAS Partners ('the Valuer') utilized the deliverables of CBRE South Asia Private Limited (CBRE), an independent agency appointed by the Client to undertake market research, provide market commentary, and data for the purpose of this assignment. The Valuer has utilized the market intelligence provided by CBRE to arrive at the Market Value of the respective assets as per the Securities and Exchange Board of India (Infrastructure Investment Trust) Regulations, 2014 ("SEBI (InvIT) Regulations 2014") and amended to date.

Based on information provided by the Client, we understand that the underlying land parcel of the Subject Asset admeasures approx. 44.10 acres with a total chargeable area admeasuring approx. 13,78,077 sft.

iVAS Partners is referred to as the **'Valuer'** for the purpose of this report.

The details of the Subject Asset under the purview of this valuation exercise are tabulated below:

| Asset Name | SPV/Hold Co | Asset Type | Location | Land area | No. of Phases |
|---|---|---|---|---|---|
| Sullurpet Park | Revanza Sullurpet Industrial Parks Private Limited/ TVS ILP | Industrial Manufacturing unit | Sullurpet, Andhra Pradesh | 44.1 | 2 |

*Source: Architect certificate, rent roll provided by the Client;*

*For clarity, we are valuing the Property/ Asset only, not the SPV/Hold Co, which has been provided for reference only.*

## 2.1 Purpose

As per our instructions the valuation is required by the Client for a proposed offer of units through private placement (the "Private Placement") as defined under the Securities and Exchange Board of India (Infrastructure Investment Trust) Regulations, 2014, as amended, together with clarifications, guidelines and notifications issued thereunder, on the Indian stock exchanges. In relation to the Private Placement, the Valuation report, a summary thereof and/or extracts of the report are intended to be included in the offer documents filed by the TVS Infrastructure Trust with the Securities and Exchange Board of India (SEBI) and the stock exchanges where the units of the InvIT are proposed to be listed.

## 2.2 Reliant Party

The Reliant Parties to this Valuation Report will be the Client and TVS Infrastructure Trust, TVS Infrastructure Investment Manager Private Limited in its capacity as Investment Manager and TVS Industrial and Logistics Park Private Limited in its capacity as Sponsor for the purpose of the valuation as highlighted in this report.

The valuation has been prepared strictly and only for the use of the parties as stated above (Reliant Parties) and for the Purpose specifically stated. The Client would make all Reliant Parties aware of the terms and conditions

of this agreement under which this exercise is being undertaken and take due acknowledgements to the same effect.

## 2.3 Limitation and Disclaimers to Liability

- Valuer is not operating under any financial services license when providing the Valuation Report ("Valuation Report") and this document does not constitute financial product advice. Investors should consider obtaining independent advice from their financial advisor before making any decision to invest in TVS Infrastructure Trust.

- This Valuation Report is strictly limited to the matters contained within this report, and are not to be read as extending, by implication or otherwise, to any other matter in any Offer/ Draft Placement Memorandum/ Placement Memorandum/ Final Placement Memorandum ("Offer Document"). Valuer does not approve or endorse any part of the Offer Document. Any reference to the Valuer or this Valuation Report within the Offer Document must be read in conjunction with this Valuation Report.

- Valuers disclaims any liability to any person in the event of an omission from, or false and misleading statements included in the Offer Document, other than in respect of the information provided within the Valuation Report. Valuers shall not make any warranty or representation as to the accuracy of the information in any part of the Offer Document, other than in respect of the information provided within this Valuation Report.

- The liability of Valuer is limited to the Instructing Party, and any Reliant Party nominated within this report only. No accountability, obligation or liability to any third parties is accepted by the Valuer. Valuer disclaims all liability to any investor.

- No liability is accepted for any loss, harm, cost or damage (including special, consequential or economic harm or loss) suffered as a consequence of fluctuations in the real estate market subsequent to the date of valuation. Valuer shall not be liable for any indirect, special, punitive or consequential loss or damage howsoever caused, whether in contract, tort or otherwise, arising from or in connection with this Valuation Report.

- Valuer accepts no responsibility or liability whatsoever (i) unless full disclosure of all information and matters that may have an impact upon the value and marketability of the asset has been made by the Instructing Party or (ii) for any matter arising out of or in relation to possible environmental site contamination or any failure to comply with environmental legislation which may affect the value of the asset.

- None of our employees, directors or Valuers individually has a contract with the Instructing Party or owes them a duty of care.

- Valuer has prepared this Valuation Report relying on and referring to information provided by the Instructing Party and/or third parties including financial and market information ("Information"). Valuers have assumed that the Information is accurate, reliable and complete and has not independently verified such Information.

- The Valuation Report draws attention to the key issues and considerations impacting value and provides a detailed assessment and analysis as well as key critical assumptions, general assumptions, disclaimers, limitations and qualifications and recommendations. As commercial investments of this nature are inherently

complex and the market conditions have changed and/or have been uncertain in recent times, Valuer recommends that any references to value within the Offer Document must be read and considered together with the Valuation Report.

- This Valuation Report may not be reproduced in whole or in part without the prior written approval of the Valuer.

- The Valuation Report does not purport to contain all the information that a potential investor or any other interested party may require. It does not consider the individual circumstances, financial situation, investment objectives or requirements. It is intended to be used as guide and for information purposes only and does not constitute advice including without any limitation, investment, tax, legal or any other type of advice. The valuations stated are only best estimates and are not to be construed as a guarantee. Potential investors should not rely on any material contained in the Valuation Report as a statement or representation of fact but should satisfy themselves as to its correctness by independent investigation and review of the Valuation Report to understand the assumptions and methodologies stated in the reports.

- For the avoidance of doubt, all references to "Offer Document" herein shall include any offer document, final offer document, prospectus and/or any other accompanying documents required under the SEBI (InvIT) Regulations 2014.

## 2.4 Limitation and Qualification

Valuation has been conducted solely for the benefit and use of the Instructing Party, and any Reliant Party nominated within this Valuation Report. The report and valuations should not be used for any other purpose other than the expressly intended purpose as mentioned in the Valuation Report. They are not to be used, circulated, quoted or otherwise referred to for any other purpose, nor are they to be filed with or referred to in whole or in part in any document without the prior written consent of Valuer where such consent to be given at the absolute, exclusive discretion of Valuer, which shall not be unreasonably withheld. Where they are to be used with the Valuer's written consent, they shall be used only in their entirety and no part shall be used without referring to the whole report unless otherwise expressly agreed in writing by Valuer.

Neither the whole nor any part of our report, nor any reference thereto, may be included in any published document, circular or statement, nor published in any way nor disclosed orally or in communication to a third party, including the form and context in which it is to appear without Valuer's prior written consent.

The Valuer does not purport to provide a site or structural survey in respect of the asset(s) valued. The Valuer does not purport to be suitably qualified to provide professional advice in respect of building or site contamination. The Reliant Party(ies) should seek independent advice on these issues. The Services are provided on the basis that the Management has disclosed to the Valuer all information which may affect the Services. All opinions expressed by the Valuer, or its employees are subject to any conditions contained in the Valuation report.

## 2.5 Valuer Capability

iVAS Partners, (Valuer Registration Number: IBBI/RV-E/02/2020/112), represented by its partner Mr. Shubhendu Saha (Valuer Registration Number: IBBI/RV/05/2019/11552) delivers independent valuation (across categories viz. land & building and plant & machinery), advisory and technical due diligence services, that combine

professional expertise with comprehensive databases, analytics and market intelligence across various asset classes and locations in India.

Mr. Shubhendu Saha is registered as a valuer with the Insolvency and Bankruptcy Board of India (IBBI) for the asset class Land and Building under the provisions of The Companies (Registered Valuers and Valuation) Rules, 2017 since 15 May 2019. He completed his bachelor's in planning from the School of Planning and Architecture, New Delhi in 1997 and Master's in Management studies from Motilal Nehru National Institute of Technology, Allahabad in 1999.

## 2.6 Scope of Valuation

The valuation has been undertaken to ascertain the market value of the Subject Asset forming part of the proposed TVS Infrastructure Trust as of the valuation date. The valuer has estimated the market value of each individual asset, not the value of the portfolio of Assets, if sold in one transaction. In consideration of the same, a detailed assessment of the site and surroundings has been undertaken with respect to the prevalent activities, change in dynamics impacting the values and the optimal use of the Subject Asset vis-à-vis the surrounding micromarkets, etc.

The primary catchment for the valuation has been defined as Kaddaluru, Pedda Mambattu region and the surrounding areas of Sullurpet. An in-depth research exercise has been conducted in the catchment area of the Subject Asset to ascertain the prevalent activity levels in terms of warehousing/Industrial segment in the vicinity of Subject Asset. This has been achieved through interactions with various market players such as local real estate brokers, developers, end-users, etc.

The location, micromarket and catchment area for the Subject Asset is tabulated below:

| Asset Name | SPV/Holdco | City | Micromarket/ Catchment Area |
|---|---|---|---|
| Sullurpet Park | Revanza Sullurpet Industrial Parks Private Limited/ TVS ILP | Sullurpet | Kaddaluru, Pedda Mambattu |

*Source: Client Inputs*

## 2.7 Valuer's Interest

The Valuer certify that; he/they do not have a pecuniary interest, financial or otherwise, that could conflict with the proper valuation of the asset (including the parties with whom our instructing party is dealing, including the lender or selling agent, if any; accepts instructions to value the asset only from the Client.

## 2.8 Qualifications/ Valuation Standards

This valuation is prepared in accordance with the International Valuation Standards (IVS) 2022.

The team involved in this engagement comprises of valuers registered with IBBI and RICS members with significant experience of valuations in Indian infrastructure and real estate market.

## 2.9 Disclosures

This Valuer hereby certify that:

- iVAS Partners (Valuer Registration Number: IBBI/RV-E/02/2020/112), represented by its partner Mr. Shubhendu Saha (Valuer Registration Number: IBBI/RV/05/2019/11552), is registered as a registered valuer entity under Section 247 of the Companies Act, 2013 and The Companies (Registered Valuers and Valuation)

Rules, 2017, as amended, and is eligible to be appointed as Valuer under the provisions of the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014, as amended and that the Valuation report has been prepared in accordance with these InvIT Regulations.

- iVAS Partners (represented by Mr. Shubhendu Saha - Partner, iVAS Partners) is not an associate of TVS Industrial & Logistics Parks Private Limited (the "Sponsor"), TVS Infrastructure Investment Manager Private Limited (the "Investment Manager") and TVS Infrastructure Trust (the "Trust")
- The Valuer, as represented by its partner, Mr. Shubhendu Saha, has the required minimum years of experience in the valuation of infrastructure assets, as required under the SEBI (InvIT) Regulations.
- The Valuer has not been involved with the acquisition or disposal within the last twelve months of any of the asset(ies) valued under this Valuation report.
- The Valuer has adequate and robust internal controls to ensure the integrity of the Valuation reports.
- The Valuer has sufficient key personnel with adequate experience and qualification to perform services related to asset valuation at all times.
- The Valuer has sufficient financial resources to enable them to conduct their business effectively and meet their liabilities.
- The Valuer has acquainted itself with all laws or regulations relevant to such valuation.
- iVAS Partners is not prohibited from acting as a valuer under applicable law.
- The valuation of assets undertaken is impartial, true and fair and in accordance with the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014, regulation 21.
- The Valuer and any of its employees/valuers involved in valuation of the InvIT assets are not invested in and shall not invest in units of the InvIT or in the assets being valued during the time such entity/person is designated as valuer of such InvIT and not less than 6 months after ceasing to be valuer of the InvIT.
- The Valuer has conducted the valuation of the InvIT assets with transparency and fairness and has rendered and shall render, at all times, high standards of service, exercise due diligence, ensure proper care and exercise professional judgement.
- The Valuer has acted with independence, objectivity and impartiality in performing the valuation.
- The Valuer has discharged its duties towards the TVS Infrastructure Trust in an efficient and competent manner, utilizing its knowledge, skills and experience in best possible way to complete the said assignment.
- The Valuer has not and shall not accept remuneration, in any form, for performing a valuation of the InvIT assets from any person or entity other than the TVS Infrastructure Trust or its authorized representatives.
- The Valuer has no present or planned future interest in the Management, Trustee, TVS Infrastructure Trust, the Sponsor to the TVS Infrastructure Trust and its sponsor group or the Special Purpose Vehicles (SPVs),

holdcos, investment entity and the fee for this Report and the valuation exercise is not contingent upon the values reported herein. Our valuation analysis should not be construed as investment advice; specifically, we do not express any opinion on the suitability or otherwise of entering into any financial or other transaction with the Management or the SPVs/ holdcos/ investment entity.

- The Valuer shall before accepting any assignment from any related party to the TVS Infrastructure Trust disclose to the TVS Infrastructure Trust, any direct or indirect consideration which the Valuer may have in respect of such assignment
- The Valuer shall disclose to the trustee of the TVS Infrastructure Trust, any pending business transactions, contracts under negotiation and other arrangements with the Management or any other party whom the TVS Infrastructure Trust is contracting with and any other factors which may interfere with the Valuer's ability to give an independent and professional valuation of the asset; as on the date of valuation, there are no impediments for Valuer to give an independent professional value opinion of the asset
- The Valuer has not made false, misleading or exaggerated claims in order to secure assignments.
- The Valuer has not and shall not provide misleading valuation, either by providing incorrect information or by withholding relevant information
- The Valuer has not accepted and shall not accept an assignment that includes reporting of the outcome based on predetermined opinions and conclusions required by the TVS Infrastructure Trust
- The valuer has not accepted the said assignment which interferes with its ability to do fair valuation
- The valuation undertaken by the Valuer abides by International Valuation Standards (effective from 31 January 2022) for valuation in compliance with The Companies (Registration of Valuers and Valuation) Rules, 2017
- The Valuer understands that most of these assets are wholly/partly owned/ tenanted by related parties, hence, any transactions related to these assets from the related parties being valued would be related party transactions.

The Valuer notes that there are encumbrances, however, no options or pre-emptions rights in relation to the assets based on the title report prepared by Cyril Amarchand Mangaldas. (hereinafter collectively referred to as 'Legal Counsels'). The Valuer does not have the expertise or the preview to verify the veracity or quantify these encumbrances, disputes or claims. For the purpose of this valuation, the Valuer has assumed that the respective assets have title deeds that are clear and marketable

## 2.10 Assumptions, Disclaimers, Limitations & Qualifications to Valuation

| | |
|---|---|
| Valuation Subject to Change: | The subject valuation exercise is based on prevailing market dynamics as on the date of valuation and does not take into account any unforeseeable developments which could impact the same in the future |
| Our Investigations: | The Valuer is not engaged to carry out all possible investigations in relation to the Subject Assets. Where in our report the Valuer identify certain limitations to our investigations, this is to enable the reliant party to instruct further investigations were considered appropriate or where the Valuer recommend as necessary prior to reliance. The Valuer is not liable for any loss occasioned by a decision not to conduct further investigations |
| Assumptions: | Assumptions are a necessary part of undertaking valuations. The Valuer adopts assumptions for the purpose of providing valuation advice because some matters are not capable of accurate calculation or fall outside the scope of our expertise, or our instructions. Assumptions adopted by iVAS Partners has been formulated on the basis that they could reasonably be expected from a professional and experienced valuer. The Reliant Party accepts that the valuation contains certain specific assumptions, and acknowledges and accepts the risk that if any of the assumptions adopted in the valuation are incorrect, then this may have an effect on the valuation |
| Information Supplied by Others: | The valuations are based on the information provided by the Client (TVS Industrial & Logistics Parks). The same has been assumed to be correct and has been used for valuation exercise. Where it is stated in the report that another party has supplied information to the 'Valuer', this information is believed to be reliable, but the Valuer can accept no responsibility if this should prove not to be so.<br>We have assumed that where any information relevant to our valuation is supplied by the Instructing Party, or by any third party at Instructing Party's instigation, it is correct and comprehensive and can be safely relied upon by us in preparing our valuation.<br>We would recommend that before any financial transaction is entered into based on the valuations, you obtain verification of any third-party information provided. We also recommend that you check the validity of the assumptions we have adopted in our report (where we have been unable to verify the facts through our own observations or experience) |
| Matters which may or may not affect the valuation: | If the Reliant Party becomes aware of any matters which affect or may affect the valuation, then Valuer must be advised of those matters. The Reliant Party's failure to do so will disentitle the Reliant Party to place reliance on the valuation and reliance must not be placed on the valuation/s under any circumstance. |
| Future Matters: | To the extent that the valuation includes any statement as to a future matter, that statement is provided as an estimate and/or opinion based on the information known to the 'Valuer' at the date of this document. The 'Valuer' does not warrant that such statements are accurate or correct |
| Map and Plans: | Any sketch, plan or map in this report is included to assist reader while visualizing the asset and the Valuers assume no responsibility in connection with such matters.<br>Further. all maps and plans quoted in our report are solely for illustration purposes only. While they are extracted from public sources, they may be not to scale. Valuer does not warrant that such dimensions shown are accurate. |
| Site Details: | Based on title search reports and other information provided by the Client, the Valuer understands that the Subject Assets are free from any encroachments and are available as on the date of the valuation |
| Asset Title: | For the purpose of this valuation exercise, the Valuer has relied on the Title Reports prepared by the Legal Counsels for each of the assets and has made no further enquiries with the relevant local authorities in this regard. The Valuer understands that the Subject Assets may have encumbrances, disputes and claims. The Valuer does not have the expertise or the purview to check the veracity or quantify these encumbrances, disputes or claims. For the purpose of this valuation, the Valuer has assumed that the respective assets have title deeds that are clear and marketable. We recommend that a suitably experienced Lawyer or an equivalent professional review these assumptions and confirm they are reasonable before relying in this report. |

| | |
|---|---|
| Environmental Conditions: | In undertaking the valuation exercise we assumed that no contaminative or potentially contaminative use is, or has been, carried out at the property. We did not undertake any investigation into the past or present uses of either the respective assets or any adjoining or nearby land, to establish whether there is any potential for contamination from these uses and assume that none exists. Should it, however, be subsequently established that such contamination exists at the asset or on any adjoining land or that any premises have been or are being put to contaminative use, this may have a detrimental effect on the value reported |
| Town Planning: | The current zoning of the Subject Assets has been adopted on the basis of review of various documents (title deeds & approval documents) provided by the Client and the current land use maps for the micro market. The same has been considered for the purpose of this valuation exercise. Further, it has been assumed that the development on the Subject Assets adheres/ would adhere to the development regulations as prescribed by the relevant authorities. The Valuer has not made any enquiries with the relevant development authorities to validate the legality of the same.<br>Our valuations are prepared on the assumption that the premises comply with all relevant statutory enactments and Building Acts and Regulations, that a valid and up-to-date Fire Certificate has been issued. We assume that all necessary consents, licenses and authorizations for the use of the assets and the processes carried out therein have been obtained and will continue to subsist and are not subject to any onerous conditions.<br>In the event that a legal requisition or other relevant planning information or document is obtained, and the information therein is found to be materially different to the town planning information in the report, the valuation must not be relied upon before first consulting iVAS Partners to reassess any effect on the valuation/s |
| Area: | The total leasable area considered for the purpose of this valuation exercise is based on the lease deeds provided by the Client. It must be noted that the above information has been provided by the Client and has been verified based on the approvals/ layout plans/building plans provided by the Client. However, the Valuer has not undertaken additional verification and physical measurement for the purpose of this valuation exercise |
| Condition & Repair: | In the absence of any information to the contrary, the Valuer has assumed that there are no abnormal ground conditions, nor archaeological remains present which might adversely affect the current or future occupation, development or value of the asset; the asset is free from rot, infestation, structural or latent defect; no currently known deleterious or hazardous materials or suspect techniques will be used in the construction of or subsequent alterations or additions to the asset and comments made in the asset details do not purport to express an opinion about, or advice upon, the condition of uninspected parts and should not be taken as making an implied representation or statement about such parts |
| Not a Structural Survey: | The Valuer states that this is a Summary of Valuation Reports of Subject Assets and not a structural survey |
| Legal: | Unless specifically disclosed in the report, the Valuer has not made any allowances with respect to any existing or proposed local legislation relating to taxation on realization of the sale value of the Subject Asset.<br>We do not read legal documentation. Where legal documentation is provided to us, we will have regard to the matters therein but recommend that reliance should not be placed on our interpretation thereof without prior verification by your legal advisors. Unless disclosed to us, we assume that there are no outstanding statutory breaches or impending litigation in respect of the Subject Assets. We further assume that all documentation is satisfactorily drawn and that unless disclosed to us, there are no unusual or onerous restrictions, easements, covenants or other outgoings which would adversely affect the value of the relevant interest(s). In respect of leasehold assets, we have assumed that the landlord will give any of the necessary consents to an assignment. Unless notified to the contrary we assume that each asset has a good and marketable title and is free from any pending litigation |
| Others: | Considering the unorganized nature of land and building markets in India, all comparable evidence (if any) provided in the valuation report has been limited to the basic details such as the area of asset, |

| | |
|---|---|
| | rate at which transacted, broad location, etc. other specific details would be provided only if the information is available in public domain |
| Other Assumptions: | Please note that all the factual information such as tenants' leasable area, lease details such as lease rent, lease commencement and lease end date, lock – in period, escalation terms, etc. pertaining to the Subject Assets is based on the rent roll provided by the Client and the same has been adopted for the purpose of this valuation exercise. The rent rolls have been cross-checked with copies of the lease deeds on a sample basis as shared with the valuer to verify the authenticity. Any change in the above information will have an impact on the assessed value and in that case the Valuer will have to relook at the assessed value. The relevant information sources are represented in section 5.5.<br>All measurements, areas and ages quoted in our report are approximate.<br>We are not advisors with respect to legal, tax and regulatory matters for the transaction. No investigation of the respective Special Purpose Vehicles (SPVs) holding the assets' claim to title of assets has been made for the purpose of this Report and the SPVs' claim to such rights have been assumed to be valid. No consideration has been given to liens or encumbrances against the assets. Therefore, no responsibility is assumed for matters of a legal nature |
| Flooding risk: | The visual inspection of the Subject Assets did not indicate any significant vulnerability and hence we have assumed that either there is no flooding risk or, if there is, that sufficient flood defenses are in place and that appropriate building insurance could be obtained at a cost that would not materially affect the capital value. |
| Site Conditions: | We do not commission site investigations to determine the suitability of ground conditions and services, nor do we undertake environmental or geotechnical surveys. We have assumed that these aspects are satisfactory and also that the respective sites are clear of underground mineral or other workings, methane gas or other noxious substances.<br>In the case of property which may have redevelopment potential, we proceed on the basis that the site has load bearing capacity suitable for the anticipated form of redevelopment without the need for additional and expensive foundations or drainage systems (unless stated otherwise) |
| Hazardous & deleterious materials: | Unless otherwise noted, we have assumed that the improvements are free of Asbestos and Hazardous Materials, or should these materials be present then they do not pose significant risk to human health, nor require immediate removal. We assume the site is free of subsoil asbestos and have made no allowance in our valuation for site remediation works.<br>Our visual inspection is an inconclusive indicator of the actual condition/presence of asbestos/hazardous materials within the property. We make no representation as to the actual status of the Subject Assets. If a test is undertaken at some time in the future to assess the degree, if any, of the presence of any asbestos/hazardous materials on site and this is found to be positive, this valuation must not be relied upon before first consulting iVAS Partners to reassess any effect on the valuation.<br>Unless specifically instructed, we do not carry out investigations to ascertain whether any building has been constructed or altered using deleterious materials or methods. Unless specifically notified, our valuation assumes that no such materials or methods have been used |
| Unregistered interests: | We have assumed that there are no unregistered interests or interests not captured by the applicable Regulatory Authority in the country where services are to be carried out, which may affect the market value. In the event that the Reliant Party(ies) becomes aware of any further or pending easements, encumbrances or unregistered interests, this valuation must not be relied upon before first consulting iVAS Partners in writing to reassess any effect on the valuation |
| Heightened Market Volatility: | We draw your attention to current heightened geopolitical tensions, low economic growth in many major countries, and a "higher for longer" interest rate sentiment which have increased the potential for constrained credit markets, negative capital value movements and continued volatility in some property markets over the short-to-medium term.<br>Experience has shown that consumer and investor behavior can quickly change during periods of such heightened volatility. Lending or investment decisions should reflect any heightened level of volatility and potential for changing market conditions. Lending and investment caution is advised in this regard. |

| | |
|---|---|
| | It is important to note that the conclusions set out in this report are valid as at the valuation date only. Where appropriate, we recommend that the valuation is closely monitored, as we continue to track how markets respond to evolving events. |
| Construction Cost Volatility: | Although general increases in material costs have stabilized since 2022, some specialized supply chains and construction-related labor costs remain volatile with the potential for further increases. This has created uncertainty in cost estimates, which is likely to continue.<br>In addition, there are significant risks that delays may be encountered in sourcing specialized materials and labor, and as such, the potential for ongoing cost escalations and delays is high. This may place additional pressure on developer and contractor profit margins and development viability.<br>These inherent risks should therefore be given careful consideration in lending and investment decisions. Caution is advised in this regard. |

# 3 Sullurpet– Market Structure and Conditions

## 3.1 Information

For the purpose of the valuation exercise, reliance has been made on the deliverables of CBRE South Asia Private Limited, an independent agency appointed by TVS to undertake market research, provide market commentary, and data as a part of a report (the "Industry Assessment Report") for the purpose of this assignment.

## 3.2 Demand and Supply

### 3.2.1 Demand and Supply Trends – Sullurpet and the subject Micromarket

Industrial and warehousing activity in Sullurpet is concentrated near the Mambattu APIIC area located towards the western side of the town. The region has various industries set up within the APIIC industrial area with captive warehousing space and hence most of the existing industries have no requirement for external warehousing. Based on our market understanding, the subject region does not have many warehousing developments owing to lower demand. The existing supply is built-to-suit and on-demand basis for partial/complete industrial setup, mostly in the small-scale manufacturing segment.

The Mambattu region has approx. 0.52 mn sft of warehousing supply as of CY Q3 2024. All the supply is absorbed as the majority supply in the region is constructed on a built-to-suit basis. The warehouses within the Mambattu region have been occupied by manufacturing plant suppliers and other industrial suppliers operating majorly in the APIIC cluster.

| Particulars | Citywide | Kadaluru, Pedda Mambattu |
|---|---|---|
| Cumulative completed stock (Q3 2024) | Approx. 0.52 msf | Approx. 0.52 msf |
| Cumulative occupied stock (Q3 2024) | Approx. 0.52 msf | Approx. 0.52 msf |
| Current vacancy (Q3 2024) | Approx. 0% | Approx. 0% |
| Future supply (2024 – 2025) | Approx. 0.27 – 0.28 msf | Approx. 0.27 – 0.28 msf |

*Source: Industry Assessment Report dated Q3 of 2024*

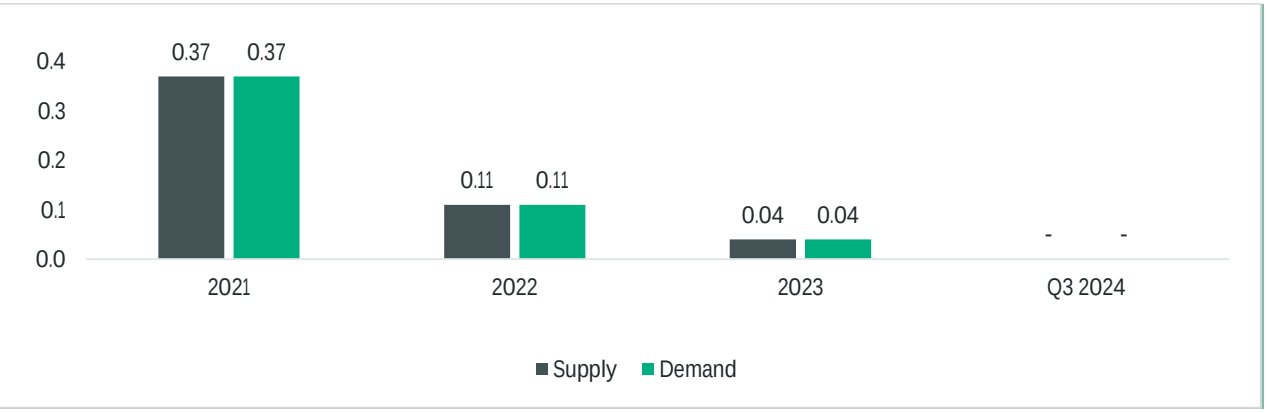
Since the subject region is primarily an industrial location with very minimal activity of warehousing, the supply in the region is of a Built-to-Suit nature. Another 0.05 – 0.06 mn sft of supply is planned for construction in the region dependent on the potential demand in the future. Of the completed supply of 0.52 mn sft, 0.37 Mn sft (Grade A) supply was completed in 2021. The region experienced the completion of a 40,000 square foot Grade B development in 2023, which was subsequently leased to an engineering and manufacturing tenant. Additionally, the region has not seen any substantial increase in supply as of Q3, 2024.

| Particulars | Value |
|---|---|
| Total Completed Supply | Approx. 0.52 msf |
| Total Absorption | Approx. 0.52 msf |
| Share of Grade A Supply (%) | Approx. 0.37 msf ~ 71% |

| Particulars | Value |
|---|---|
| Share of Grade B & Grade C Supply (%) | Approx. 0.15 msf ~ 29% |

*Source: Industry Assessment Report dated Q3 of 2024*

The Supply Absorption dynamics of warehousing/industrial developments in Sullurpet is represented in the exhibit below -



*Source: Industry Assessment Report dated Q3 of 2024*

### 3.2.1.1 Industrial Establishment Dynamics

The Subject Asset is located within Tarakeswara Textile Park, however, there is no other industrial activity in the immediate surroundings of the subject property. The closest industrial establishment is located in the Mambattu APIIC region which is located approx. 5 km from the subject property.

The total gross extent of the Mambattu APIIC region is approx. 983.35 acres of which an extent of approx. 900.22 acres have been allocated to various industries. Approx 75% of the allotted land of 900.22 acres has been developed. The majority of industries belong to footwear, polymers, and chemical sectors. Some of the major allottees in the region are:

The table below highlights the prominent developments:

| Name of Allottees | Industry/Sector | Land Area (Acres) |
|---|---|---|
| Bharathiya International Ltd | Leather Apparel | 250.49 |
| Bharat Forge Limited | Metal Forging | 97.34 |
| Tata Chemicals Limited | Chemicals | 44.81 |
| Regen Powertech Private Limited | Wind Energy | 44.73 |
| Indus Coffee Pvt. Ltd. | Food Products & Beverages | 28.59 |
| Epack Polymers Private Limited | Prefabricated Structure Manufacturer | 23.3 |
| Apache Investments Holding | Footwear | 313.57 |

*Source: Industry Assessment Report dated Q3 of 2024, Valuer research*

Limited warehousing developments are located in the vicinity of the subject property. Notwithstanding this, a considerable number of operators in the manufacturing sector have built and are currently utilizing state-of-the-art industrial facilities. The facilities comply with the building specifications for Grade A warehouse developments.

The rentals commanded by grade B warehouses in the market are in the range of INR 23 – 25 per sft per month. The subject property's achievable rent level would be in a similar range for warehousing purposes. Still, considering that the subject property has additional fitouts, plant & machinery along with open storage yards provided by the client, the rentals are expected to be on the higher side for the subject property. This is due to the added value of these amenities and features, which can justify a higher rental rate compared to standard grade B warehouses in the market in the range of INR 29 – 30 per sft per month. The subject property's unique offerings make it a desirable option for potential tenants looking for a well-equipped space.

The various industrial establishments in the vicinity of the subject property are located within the Mambattu industrial region with land parcels being allotted by the APIIC, hence the industries get various benefits from the government such as stamp and registration fee waivers, single desk clearances, provision of support infrastructure, etc. Hence, the rentals for the subject site would not be exactly comparable to the industrial facilities located in the Mambattu region. Also, of the allocated land of 900.22 acres, only 208.03 acres have been allotted under the lease deed.

#### 3.2.1.2 Future Supply

Based on our market research, we understand that the micromarket of Mambattu is anticipated to see an influx of new warehouse space in the range of 0.27 to 0.28 million square feet by the end of 2024 or early 2025. This upcoming supply will be primarily comprised of Grade A development along with Grade B warehousing, catering to the area's established Engineering & Manufacturing sector.

### 3.2.2 Market Rent

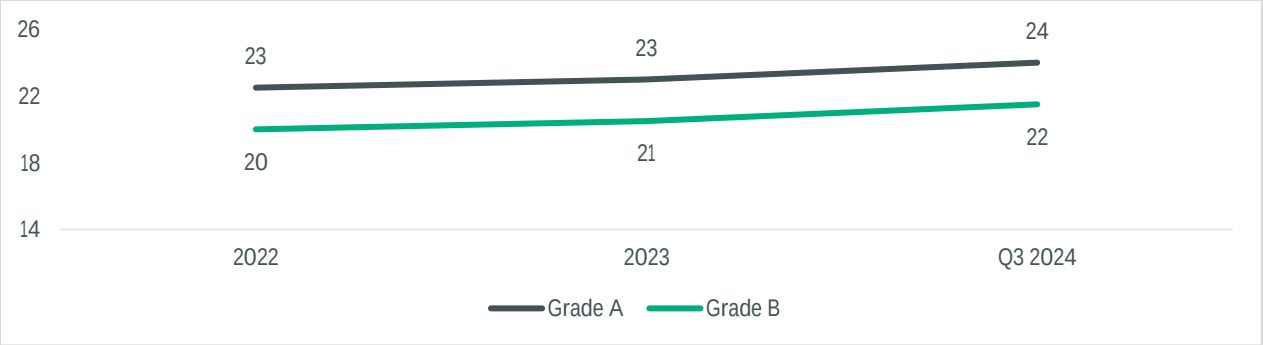
The table below highlights the recent lease transactions in the micromarket:

| Year of Transaction | Chargeable Area (sft) | Tenant Sector | Location | Total Rent (INR per sft per month) | Development Grade |
|---|---|---|---|---|---|
| 2021 | 3,70,719 | Engineering & Manufacturing | Sullurpet | 24 – 25 | Grade B |
| 2022 | 35,000 | Engineering & Manufacturing | Mambattu | 21 – 22 | Grade B |
| 2022 | 35,000 | Engineering & Manufacturing | Mambattu | 22 – 23 | Grade B |
| 2022 | 40,000 | Engineering & Manufacturing | Mambattu | 22 – 23 | Grade B |
| 2023 | 40,000 | Engineering & Manufacturing | Mambattu | 22 – 23 | Grade B |

*Source: Industry Assessment Report dated Q3 of 2024*

Opinion on Rentals

The average quoted base rental in Sullurpet is INR 23 – 25 /sft /month for a Grade A development, and INR 21 – 23 /sft /month for Grade B development. The Grade A and B average asking rentals are enumerated below in the table:



*Source: Industry Assessment Report dated Q3 of 2024*

Based on our market research, it is understood that the Subject Asset is well positioned in the market owing to its location superior specifications and amenities, developer's reputation, etc. Therefore, keeping in perspective the subject property's location, leasing in the micro market, quantum of leasable area, quality of construction, developer's reputation, type of space, etc., we are of the opinion that the subject property would command a lease rental of approx. INR 24.5 per sft month for the covered space as on date of valuation.

## 3.3 Market Outlook

Based on our market research, we understand that the subject region is projected to receive an estimated 0.4 – 0.5 mn sft of industrial and warehousing supply, the majority of which will be Grade A/B over the next two years. Industrial and warehousing developments in the region are primarily motivated by the industrial ecosystem, land accessibility, and strategic location that facilitates industrial units. Demand is projected to increase by 0.6 to 0.7 mn sft over the subsequent three to four years, according to historical micro market absorption data. However, given the built-to-suit nature of the subject development for an industrial facility, the subject development is leased out by the existing tenant, a manufacturer of composite parts with a 5-year lock-in period and a lease term of 12-years as per the lease agreement on 24-02-2021. Also, as per the site-level understanding and phase 2 lease agreement, the existing tenant has an agreement to occupy the under-construction phase 2 development with 4 years and 6 months of lock-in period and a lease term of 10 years. This is expected to suffice the demand at the subject site.

In case the existing tenant vacates the property, a tenant of similar profile and requirements has to take up the space considering the provisions and equipment at the subject property, or it can be expected that the asset would be leased at a discounted rate. It is crucial to ensure a smooth transition to maintain the property's value and profitability.

# 4 Subject Asset –Sullurpet Park

## 4.1 Asset Description

The Subject Asset christened 'Sullurpet Park' is a partly operational industrial manufacturing facility developed on a total land area of 44.10 acres with a total leasable area of 13,78,480 sft and the total chargeable area is approx. 13,78,077 sft, located at Padamati Kandriga (V), Sullurpet (M), Tirupati (D), Andhra Pradesh.

The subject asset is understood to have a floor strength of 8 MT/sqm and has floor finishing of high-performance concrete flooring of FM2 Concrete type. The eave height of the development is 18.5 m along with a lighting (lux level) of 500 lux LED lighting.

As mentioned previously, Phase 1 of the Subject Asset is operational whereas Phase 2 is under construction. The larger project is developed on Built-to-Suit (BTS) basis to meet the operational requirements of the sole occupier, a manufacturer of composite parts. The Subject Asset is contracted under a long lease and part of it viz. Phase 1, is currently being utilized for the storage & manufacturing of manufacturing windmill blades and ancillary products. The under-construction phase viz. Phase 2 is being developed for similar purposes to be occupied by the same tenant. As per the information received from the Client, the lease documents are already executed in favour of the Tenant for Phase 2.

Based on the site plan provided by the Client and visual inspection, the primary access to the Subject Asset is via approx. 10 m wide internal road emanating from NH-16 Chennai – Kolkata Highway. By virtue of the same the property enjoys convenient accessibility.

The design for the developed phase of the industrial manufacturing facility promotes a sustainable environment with provisions for rooftop solar power setup and rainwater harvesting systems. 24/7 support, including surveillance dedicated facility and a ground support team, ensuring operational continuity, enhanced security features, modern water treatment systems, and NBC standard firefighting systems.

| Brief Description | |
|---|---|
| Particulars | Details |
| Asset Name | Sullurpet Park |
| Address | 9/1A, 9/2, 10/2, 11/3, 11/3A, 11/4B, 11/6, 11/7, 11/8, 12/1, 12/2, 13/1, 13/2, 13/5 Zuvve Chelika Village, 30-3,30-P2,30-P5B,30-P4B,.12-2,12-1,11-6,11-4b,11-3a,11-3,10-2,9-2E,9-1a,13-1,13-2,13-5,11-7,11-8, Padamati Kandriga (V), Sullurpet (M), Tirupati (D), Andhra Pradesh |
| Land Area | Based on review of the sale deed and building permit order, the Valuer understand that the total land area of the subject asset is approx. 44.10 acres |
| Leasable Area | 13,78,480 sft |
| Chargeable Area | 13,78,077 sft |

*Source: Architect certificate, rent roll provided by the Client;*

### 4.1.1 Site Details

**Situation:**

As mentioned previously, Phase 1 of the Subject Asset viz. 'TVS Industrial & Logistics Parks, Sullurpet' is an operational industrial manufacturing facility whereas Phase 2 of the Subject Asset is under construction. The larger project is developed on Built-to-Suit (BTS) basis to meet the operational requirements of the sole occupier who is utilizing this park for manufacturing of composite parts. The primary access to the Subject Asset is via approx. 10 m wide internal road emanating from NH-16 Chennai – Kolkata Highway. The park is being utilised as a wind blade manufacturing facility serving global multinational corporations.

**Location:**

The Subject Asset is located in Pedda Mambattu which is primarily an industrial location with very minimal activity of warehousing. The Subject Asset is situated in proximity to other prominent industrial micro-markets such as Mambattu APIIC, Sri City etc.

Sullurpet Mandal forms part of the newly carved out Tirupati district. With the reorganization of districts and formation of new revenue divisions, Sullurpet was made the mandal headquarters and the headquarters of the Sullurpet revenue division making it the key destination for surrounding villages for any economic and industrial activity. Sullurpet Municipality is a gateway to "Sathish Dhavan Space Centre (SHAR)" Sriharikota, which is India's Rocket Launching Space Centre located at a distance of approx. 23 km from Sullurpet. Its location on NH16 and proximity to industrial centers like Sri City and Chennai make it a significant trade hub. The distances from key hubs to the Subject Asset are presented in the table below:

| Landmark | Distance (Km) |
|---|---|
| Chennai – Kolkata Highway (NH-16) | 0 – 1 |
| Sullurpet Bus Stand | 3 – 4 |
| Sullurpet Railway Station | 5 – 6 |
| Tirupati International Airport | 60 – 65 |

*Source: Valuer's research*

**Catchment Analysis:**

The primary catchment for the purpose of this valuation has been defined as Pedda Mambattu and its adjoining micromarkets which are predominantly characterized by industrial and manufacturing facilities with limited warehousing activity. The micromarket is perceived as an emerging destination for various industry players owing to the excellent connectivity via Chennai - Kolkata Highway. The park is strategically positioned in Sullurpet, equidistant from Krishnapatnam and Ennore ports, and within 65 kilometers of an airport.

**Surrounds:**

The subject asset is surrounded as follows:

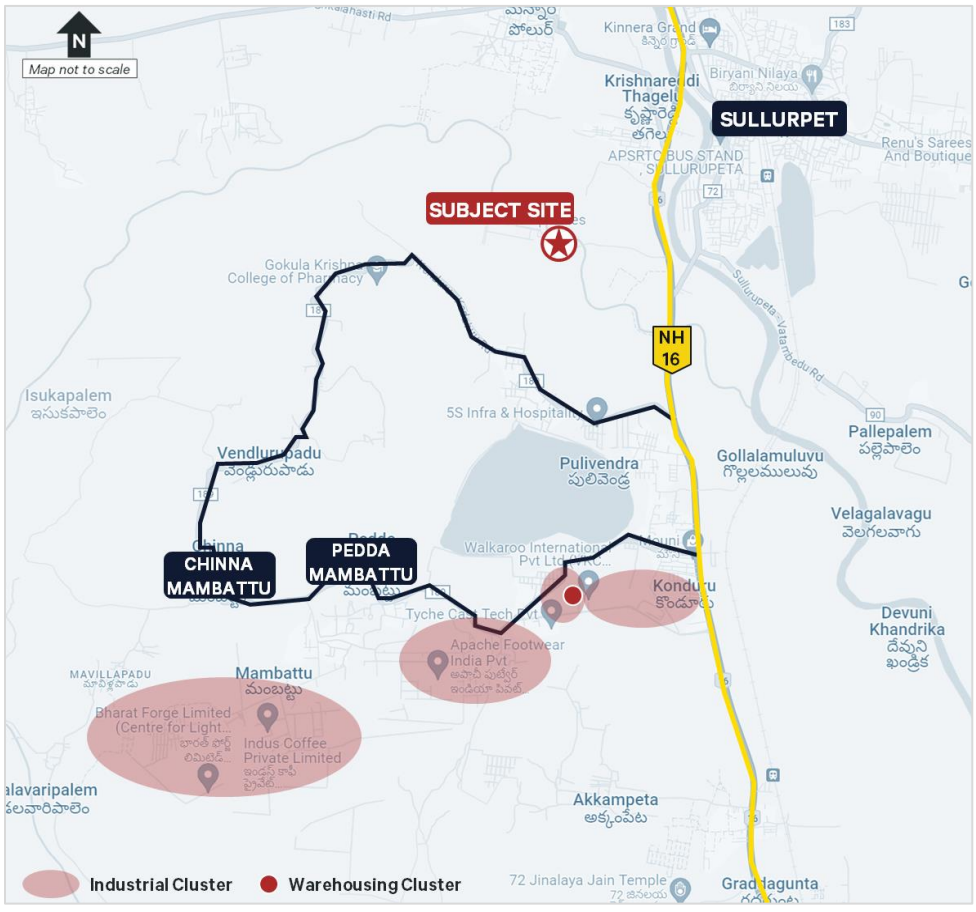
- North: Vacant Land / Pamula Kaluva

- South: Vacant Land
- East: 10m wide Internal Road
- West: Vacant Land

| | |
|---|---|
| Potential changes in surroundings: | The key transportation route connecting Chennai and Kolkata, makes Sullurpet a crucial transit point for goods. The proximity to major ports like Chennai and Krishnapatnam further enhances its importance for import-export activities. The region's expanding industrial base, encompassing textiles, pharmaceuticals, and automotive components, is expected to continue driving the demand for industrial & manufacturing facilities. The ongoing infrastructure development, such as improvements to NH-16 and the construction of dedicated freight corridors, is likely to enhance Sullurpet's connectivity and attractiveness as a manufacturing location. |
| Suitability of existing use: | Considering the location and profile of surrounding developments coupled with site specific parameters, we are of the opinion that Subject Asset is suited for its current usage. |

The following map indicates the location of the Subject Asset and surrounding developments :

Location Map for the Subject Asset



*Source: Valuers' research*

| | |
|---|---|
| Shape: | Based on the site plan provided by the Client and visual inspection during the site visit, it is understood that the underlying land is irregular in shape. |
| Topography: | Based on the site plan and as corroborated with our site visit, the site appears to be even and on the same level as abutting access roads and adjoining properties. |
| Frontage: | Based on review of site plan and visual inspection, we understand that the subject property has adequate frontage along the primary access road. |
| Accessibility : | Based on the site plan provided by the Client and visual inspection, the primary access to the subject asset is via approx. 10 m wide internal road primary access road off Chennai – Kolkata Highway. By virtue of the same the asset enjoys excellent accessibility and frontage. |

Please refer the below map for the accessibility of the subject property:

*Source: Valuers' research*

Please refer Section 7.0 Exhibit & Addendums for the site plan of the Subject Asset.

### 4.1.2 Review of Sale Deed

As per the sale deed received, we understand that the exact address of the Subject Asset is Sy.no 30-3,30-P2,30-P5B,30-P4B,.12-2,12-1,11-6,11-4b,11-3a,11-3,10-2,9-2E,9-1a,13-1,13-2,13-5,11-7,11-8 Padamati Khandrkia Village, Sullurpeta Mandal, Nellore District, Andhra Pradesh. Additionally, it is understood that the Subject Asset is owned by Revanza Sullurpet Industrial Parks Private Limited and is freehold in nature.

### 4.1.3 Title Details

This valuation exercise is based on the premise that the Subject Asset has a clear title and is free from any encumbrances, disputes, claims, etc. Valuer has not made any inquiries in this regard with the relevant legal/ statutory authorities with the understanding this level of due diligence will be undertaken by the appropriate lawyers and then advised to the Valuer accordingly. We strongly recommend the assumption the asset has a clear title is confirmed before relying on the report. It must be noted that the Client currently enjoys conditional

allotment of the land from the authority and the title document shall be executed in favour of the Client only post adhering to the usage and development objectives as outlined in detail in the allotment certificate. For this assessment we have assumed that the due conditions shall be met by the client and accordingly the client is expected to subsequently enjoy the freehold rights.

### 4.1.4 Town Planning

| | |
|---|---|
| Zoning | As per the review of the approved site plan and change in land use certificate from revenue divisional officer & sub-divisional magistrate, Sullurpet and Naidupet provided by the Client, we understand that the Subject Asset is converted from agriculture use to **"Industrial use"**. The same has been considered for the purpose of this valuation. Valuer has made no further inquiries with the local authorities in this regard.<br><br>For the purpose of this exercise, it has been assumed that all developments (existing / under construction) adhere to building regulations as prescribed by the relevant authorities. Valuer has not validated the information provided by the Client with the relevant development authorities. |
| Approved Usage: | Based on copies of approved site plan provided by the Client and visual inspection during our site visit, the Subject Asset is an industrial manufacturing unit. The current use of the Subject Asset is broadly in agreement with the rules and regulations as prescribed by the local development authority. However, Valuer has not made any enquiries with the relevant local authorities to validate the same for its specific applicability to the Subject Asset. |
| Restrictions: | As per feedback received from the Client, there are no other restrictions or constraints on the current use of the Subject Asset. |
| Natural or induced hazards: | We have not carried out any investigations or tests or been supplied with any information from Client or from any relevant expert that determines the presence or otherwise of pollution or contaminative substances in the Subject Asset or any other land (including any ground water).<br><br>For the purpose of assessing the vulnerability of the Subject Asset to any natural or induced disaster the location of the property with respect to risks pertaining to earthquakes, high winds/cyclone and flooding was studied. Sullurpet, where the Subject Asset is located falls in Seismic Zone III with moderate risk and is a cyclone prone region owing to its distance under 25Km from the coastline of Sri Harikota, Andhra Pradesh. The city faces Very high damage risk (Zone B) in terms of high winds[3]. Considering the topography of the subject location, it is also understood that the Subject Asset is situated in the downstream of Kalangi river, with about 60% of the periphery being surrounded by the downstream catchment which makes the Subject Asset likely to face flooding risk. To mitigate this flooding risk, the client has constructed 5M high retaining walls to avoid water ingress from the outside where the maximum flood level is estimated at 1.8M. Further, the park is also equipped with 5 nos. of high pressure pumps to dewater the catchment area of the park. |

[3] Source-https://www.bmtpc.org/DataFiles/CMS/file/map%20of%20india/wind-india.pdf

No hazardous activity was noted in the vicinity of the Subject Asset which may expose it for any induced disaster.

Approvals: As per the documents provided by Client, we understand that the approvals mentioned in section 4.1.5.1 for the asset have been obtained. Please refer annexures for the details.

For the purpose of this exercise, it has been assumed that the Subject Asset adheres to building regulations as prescribed by the relevant authorities. Valuers have not validated the information provided by the Client with the relevant development authorities

### 4.1.5 Statutory Approvals, Sanctions & Approvals

#### 4.1.5.1 Statutory Approvals received and to be received (including One-time Sanctions & Periodic Clearances)

As per the information provided by the Client, we understand that majority of the requisite approvals are received for the Subject Asset due to Phase 2 of the asset being under-construction.

The table below highlights the status of approvals for the Subject Asset:

| Approval/NOC | Status (Applied / Received) | Authority | Date of Issue (DD-MM-YY) |
|---|---|---|---|
| Change in Land Use ~ (43.57 Acres) | Received | Revenue divisional officer & sub-divisional magistrate, Sullurpet | 08-06-2022 |
| Change in Land Use ~ (1.70 Acres) | Received | Revenue divisional officer & sub-divisional magistrate, Naidupet | 05-07-2021 |
| Building Plan Permit – Phase 1 | Received | Nellore Urban Development Authority | 03-07-2021 |
| Building Plan Permit – Phase 2 | Received | Nellore Urban Development Authority | 31-01-2023 |
| Building Plan Approval | Received | Andhra Pradesh Development and Planning Model Services | 28-01-2023 |
| Road Access NOC | Received | Municipal Corporation, Sullurpet | 06-07-2023 |
| NOC from Airport Authority of India | Received | Andhra Pradesh State Disaster Response & Fire Services Department | 23-12-2021 |
| NOC from Ministry of Environment & Forest | Not Received | | |
| Provisional Fire NOC – Phase I | Received | Andhra Pradesh State Disaster Response & Fire Services Department, Vijayawada, AP | 23-12-2021 |
| Provisional Fire NOC – Phase II | Received | Andhra Pradesh State Disaster Response & Fire Services Department, Vijayawada, AP | 11-09-2023 |
| NOC from Pollution Control Board | Received | Andhra Pradesh Pollution Control Board, Vijayawada | 24-11-2021 |
| Temporary Power connection | Not Received | | |
| Temporary Water connection | Received | Andhra Pradesh State Ground Water & Water Audit Department | 09-03-2022 |
| CEIG approval for electrical installations | Received | Andhra Pradesh Directorate of Electrical Safety | 02-08-2022 |
| Final Fire NOC – Phase I | Received | Andhra Pradesh State Disaster Response & Fire Services Department | 13-06-2023 |

| Approval/NOC | Status (Applied / Received) | Authority | Date of Issue (DD-MM-YY) |
|---|---|---|---|
| Final Fire NOC – Phase II | Not Received | | Not Applicable at this stage |
| Electricity NOC | Received | Southern Power Distribution Company Andhra Pradesh | 01-01-2024 |
| Ground Water Abstraction NOC/Permission for digging borewell | Received | Department of Water Resources, River Development and Ganga Rejuvenation, Central Ground Water Authority | 17-03-2022 |
| Water Supply NOC | Received | Andhra Pradesh State Ground water & Water Audit Department | 09-03-2022 |
| Structural Stability Certificate | Received | Licenced Structural Engineer | 08-09-2021 |
| Consent to Operate | Received | Andhra Pradesh Pollution Control Board, Vijayawada | 24-11-2022 |
| Occupancy Certificate | Not Received | | |

*Source: Approval documents provided by the Client*

#### 4.1.5.2 List of up to date/overdue periodic clearances

Not applicable as mentioned in earlier sections, we understand that Phase 2 of the Subject Asset is at under-construction stage. Please refer to section 7.0 for any additional details.

### 4.1.6 Area Details, Type and Age of Existing Structures

The table below highlights the age of the Subject Asset:

| Block | Year of Completion | Age of structures (in years) | Built up Area (sft) | Completed Area (sft) | Chargeable Area (sft)* |
|---|---|---|---|---|---|
| Phase 1 | 2022 | 2.5 | 3,55,201 | 3,55,201 | 8,77,790 |
| Phase 2 | Q1, CY 2025 | Under Construction | 1,92,067 | NA | 5,00,287 |
| | Total | | 5,47,268 | 3,55,201 | 13,78,077 |

*Source: Architect certificate, rent roll provided by the Client; (Please note according to the lease agreements provided by the Client, it is understood that the rent is paid on the chargeable area, which has been considered for the valuation exercise) *Chargeable areas are inclusive of open space*

The table below highlights the area details of the Subject Asset:

| Blocks | Chargeable area – Box (sft) | Chargeable Area – Open Space (sft) | Built-up area (sft)* | Structure Type |
|---|---|---|---|---|
| Phase 1 | 3,70,719 | 5,07,071 | 3,55,201 | Precast & Pre-Engineered Building |
| Phase 2 | 1,99,597 | 3,00,690 | 1,92,067 | Precast & Pre-Engineered Building |
| | 5,70,316 | 8,07,761 | 5,47,268 | |

*Source: Architect certificate, rent roll provided by the Client; (Please note according to the lease agreements provided by the Client, it is understood that the rent is paid on the chargeable area, which has been considered for the valuation exercise) *Chargeable areas are inclusive of open space, the efficiency from leasable area to built-up area is 96%.*

### 4.1.7 Site Services and Finishes

| Particulars | Sullurpet Park |
|---|---|
| Handover condition | Warm Shell with Tenant Improvements |
| Type of Structure | Precast & Pre-Engineered Building Structure |
| Firefighting services | Provided. |
| Lift provision | No Lifts |
| Floor Finish | FM2 Concrete floor |
| Floor Strength | 8 MT/Sqm |
| Ridge Height | 01:10 |
| Lighting (Lux Level) | 500 Lux LED Lighting |
| Fire fighting | Proposed as per NFPA/NBC fire protection system |
| Power Backup | No DG Available, 2 Transformers of 2500 KVA each installed |

*Source: Information provided by the Client, Site visit*

### 4.1.8 Condition & Repair

Based on information provided by the Client and coupled with our visual inspection during the site visit undertaken, it is understood that Phase 1 of the Subject Asset has been delivered in the year 2023 and Phase 2 of the Subject Asset is under construction. Therefore, only a marginal refurbishment capex to the tune of 2% of the Net Operating Income is adopted. This assumption would allow for the refurbishment reserve to be created to undertake any potential major refurb at the Subject Asset post during the asset operations.

The table below highlights the capital expenses to be incurred for project construction and other activities (such as approvals cost, admin costs, marketing and sales expenses, contingencies etc):

| Expense Head | Total Cost (INR Mn) | Incurred Cost (INR Mn) | Q4, CY 2024 | Q1, CY 2025 |
|---|---|---|---|---|
| Capital Expenditure – Phase 2 | 459.65 | 76.61 | 229.82 | 153.22 |

*Source: Client Inputs*

### 4.1.9 Asset Photographs

### 4.1.10 Details of the asset including whether the transaction is a related party transaction.

Please refer to the Annexure section 7.5

### 4.1.11 Nature of the interest the InvIT holds or proposes to hold in the asset, percentage of interest of the InvIT in the asset.

Please refer to the Annexure section 7.5

### 4.1.12 Structure of ownership of the asset by the InvIT

Please refer to the Annexure section 7.5

### 4.1.13 Description of key agreements and restrictions relevant to the asset such as terms of concession agreement, power purchase agreements, etc.

Please refer to the Annexure section 7.5

### 4.1.14 Life of the asset (both contractually and physical life requiring maintenance, replacement and right available to extend this life

Please refer to the Annexure section 7.5

### 4.1.15 Valuation of the asset in the previous 3 years

As of the date of this valuation report, the Subject Asset is not part of the Infrastructure Investment Trust (InVIT)

# 5 Valuation Approach & Methodology

## 5.1 Scope of Valuation

The valuation exercise is to assess the Market Value (MV) of the Subject Assets for the purpose of offer of units by Private Placement of TVS Infrastructure Trust under the SEBI (Infrastructure Investment Trust) Regulations, 2014, as amended. The valuations have been conducted in accordance with the IVSC International Valuation Standards, (effective 31 January 2022) and in accordance with the requirements of the SEBI (Infrastructure Investment Trust) Regulations, 2014, as amended from time to time.

The Valuer has assessed the Market Value of each Individual Subject Asset(s), not the value of the portfolio as if all assets are being sold in one transaction. Where a summation of the individual Assets is provided, this is purely for reference only and should not be construed as the value of the portfolio.

## 5.2 Basis of Valuation

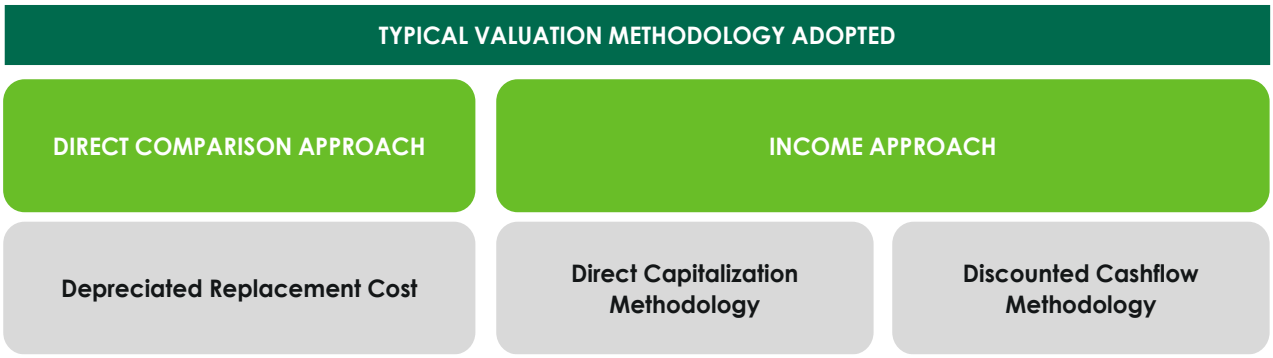
The valuations have been conducted in accordance with the IVSC International Valuation Standards (effective from 31 January 2022) and is in compliance with the International Valuation Standards (IVS), which was the applicable standards as on the date of valuation. The valuation exercise has been undertaken by appropriately qualified Valuer and would be aimed at assessing the Market Value of the Subject Assets.

According to IVS 104, Market Value is defined as:

***'The estimated amount for which an asset or liability should exchange on the valuation date between a willing buyer and a willing seller in an arm's length transaction, after proper marketing and where the*** *parties had each acted knowledgeably, prudently an***d without compulsion'.**

## 5.3 Approach and Methodology

The purpose of this valuation exercise is to estimate the Market Value (MV) of the subject assets. Market Value can be derived through the following Methodologies:



### 5.3.1 Direct Comparison Approach

Under the 'Direct Comparison Approach', the asset is compared to similar assets that have actually been sold in an arms-length transaction or are offered for sale (after deducting for value of built-up structure located thereon). The comparable evidence gathered during research is adjusted for premiums and discounts based on asset specific attributes to reflect the underlying value of the asset.

### 5.3.2 Income Approach

The income approach is based on the premise that value of an income - producing asset is a function of future benefits and income derived from that asset. There are two commonly used methods of the income approach in real estate valuation namely, direct capitalization and discounted cash flow (DCF).

A. Direct Capitalization Method

Direct capitalization involves capitalizing a 'normalized' single - year net income estimated by an appropriate yield. This approach is best utilized with stable revenue producing assets, whereby there is little volatility in the net annual income.

B. Discounted Cash Flow Method

A Discounted Cash Flow Analysis is based upon estimates of future financial performance. The methodology begins with a set of assumptions regarding income and expenses of the asset and future economic conditions in the local market. The income and expense figures are projected with adjustments for estimated changes in economic conditions and any contractual commitments. The resultant value is considered the best estimate but is not to be construed as a prediction or guarantee and is fully dependent upon the reasonableness of the assumptions with respect to income, expenses, and market conditions, which are based on information available as at the valuation date.

## 5.4 Approach and Methodology Adopted

Considering the objective of this exercise, the nature of asset involved and the purpose of the valuation viz. to assess the Market Value (MV) of the Subject Asset for the purpose of the Private Placement of TVS Infrastructure Trust under the SEBI (Infrastructure Investment Trust) Regulations, 2014 'Regulation', we have adopted the methodology considering Chapter 1 section 2 point (i) of the InvIT regulations effectively prescribe that the InvIT assets need to be generating income or has the potential to do so and hence the most appropriate method to capture the income generating nature of the assets is Income approach method.

Under the Income approach, Discounted Cash Flow Analysis is based upon estimates of future financial performance which also considers the income and expenses of the asset accounting for the future fluctuations due to expected market dynamics.

Hence, for the purpose of this valuation exercise, we have adopted Discounted Cash Flow Method (using rent reversion).

For the purpose of this valuation exercise, we have analysed the tenancy details provided by the Client to identify variances vis-à-vis prevailing Market rent. In the event the contracted rent is within the threshold (15.0%), we have assumed that the tenant will continue the current agreed terms. In the event the rent is higher than the Market rent threshold, we have assumed that the lease would be renegotiated to Market rent terms (at the time of the lock-in expiry, next escalation, etc.).

<u>Asset-specific Review:</u>

1. As the first step to the valuation of the asset, the lease deeds were reviewed to identify tenancy characteristics with respect to contractual commitments and commercial covenants.
2. Title documents and architect certificates were reviewed for validation of area details, ownership of the asset.

3. The Valuer has undertaken physical site inspections to assess the status of the subject assets in terms of their physical configuration, capacity and upkeep.

Micromarket Review/Market Rental Assessment:

A primary research exercise has been carried out in the catchment area to ascertain the prevalent activity levels in terms of quoted / transacted evidence of the recent leasing activity for warehousing facilities. This has been achieved through interactions with various market players such as local real estate brokers, developers, owners, etc. Based on the same, we understand that variance across rentals is primarily due to factors such as type of asset, developer brand, location, accessibility, overall tenant mix, quantum of vacant stock in the development, specifications, and additional improvements, etc.

For the micromarket review and market rental assessment we have relied upon the report on 'Market Analysis of Warehousing facilities in Identified locations pan India' prepared by CBRE South Asia Private Limited, hereafter referred as 'CBRE' (an independent agency appointed by the Client to undertake market research, provide market summary and data for the purpose of this assignment)

Cash Flow Projections:

We have projected future cash flows from the subject assets based on existing lease terms and contractual lease payments for the operational area until the expiry of the leases or re-negotiation (using the variance analysis), whichever is earlier.

Based on a detailed review of the leases for the Subject Assets, we noted that a large number of leases at these assets were executed at rent prevalent at the time of signing of such leases or at a discount to prevailing market rental (for a few anchor tenants). Since the real estate industry is dynamic and is influenced by various factors (such as existing supply, tenants looking at spaces, quality of spaces available in the market, overall health of the economy, existing rent, future growth plans, etc.) at a particular point in time, negotiated rent may tend to move away from the prevalent market rent over a period. It has also been witnessed that the market rent for some assets or micromarkets increase or decrease at a rate significantly different from those agreed to in initial leases. These factors reinforce the need to review each of these leases in isolation to assess the intrinsic value of the asset under review.

Post this, the lease terms have been aligned with market rentals. For the vacant area, the Valuer has projected the market rent led cash flows factoring appropriate lease-up time frame for vacant/under-construction/proposed area. These cash flows have been projected for 10-year duration from the date of valuation and for 11th year (for assessment of terminal value). These future financial benefits are then discounted to a present-day value (valuation date) at an appropriate discount rate.

## 5.5 Information Sources for Valuation

The asset related information referred for the valuation exercise have been provided by the Client unless otherwise mentioned. We have assumed the documents to be a true copy of the original. The rent rolls have been cross-checked with the lease deeds on a sample basis to verify the authenticity. Additionally, wherever possible, we have independently revalidated the information by reviewing the originals as provided by the Client.

Table below highlights various data points referred throughout the course of this valuation report and the data sources for the same:

| Particulars | Details | Units | Source |
|---|---|---|---|
| Area Details | Land Area | Acres | Sale Deed |

# 6 Value Assessment

## 6.1 Value Assessment

### 6.1.1 Adopted Methodology

We acknowledge that the approaches to valuation differ considerably and that for a particular purpose, alternative approaches to the valuation can be utilized. Considering the objective of this exercise and the nature of asset involved, the value of the Subject Asset has been assessed through the following approaches:

| Asset Name | Completed Blocks | Under-construction Blocks |
|---|---|---|
| Sullurpet Park | Discounted Cash Flow (Using rent reversion approach) | Discounted Cash Flow (Using rent reversion approach) |

The sections below highlight the detailed valuation workings for the Subject Asset.

## 6.2 Operational Assumptions

### 6.2.1 Area statement

Based on information from sale deed and copy of Sanctioned Layout provided by the client, we understand that Subject Asset is an under-construction warehousing/ industrial development. Further, the table below highlights the area configuration of the Subject Asset:

| Block | Year of Completion | Age of structures (in years) | Built up Area (sft) | Completed Area (sft) | Chargeable Area (sft)* |
|---|---|---|---|---|---|
| Phase 1 | April 2022 | 2.5 | 3,55,201 | 3,55,201 | 8,77,790 |
| Phase 2 | Q2, CY 2025 | Under Construction | 1,92,067 | NA | 5,00,287 |
| | Total | | 5,47,268 | 3,55,201 | 13,78,077 |

*Source: Architect certificate, rent roll provided by the Client; (Please note according to the lease agreements provided by the Client, it is understood that the rent is paid on the chargeable area, which has been considered for the valuation exercise) *Chargeable areas are inclusive of open space*

| Blocks | Chargeable area – Box (sft) | Chargeable Area – Open Space (sft) | Built-up area (sft)* | Structure Type |
|---|---|---|---|---|
| Phase 1 | 3,70,719 | 5,07,071 | 3,55,201 | Pre-Engineered Building |
| Phase 2 | 1,99,597 | 3,00,690 | 1,92,067 | Pre-Engineered Building |
| | 5,70,316 | 8,07,761 | 5,47,268 | |

*Source: Architect certificate, rent roll provided by the Client; (Please note according to the lease agreements provided by the Client, it is understood that the rent is paid on the chargeable area, which has been considered for the valuation exercise) *Chargeable areas are inclusive of open space , the efficiency from Chargeable area to built-up area is 96%.*

## 6.3 Tenancy Analysis

### 6.3.1 Historical Occupancy Rates

The table below highlights the historical occupancy rates at the subject asset:

| Particulars | 2022 | 2023 | 2024 | 2025 |
|---|---|---|---|---|
| Occupancy (completed block) – Phase 1 | 100.0% | 100.0% | 100.0% | 100.0% |
| Pre-Commitment (under construction block) – Phase 2 | NA | NA | 75.0% | 100.0% |

*Source: Information provided by the Client;*

### 6.3.2 Lease Rent Analysis

Based on the review of the Lease Deed provided by the Client, we understand that the lease agreements were signed between Revanza Sullurpet Industrial Parks Private Limited and the Tenant, details of which are mentioned below –

| Tenant | Particulars | Details |
|---|---|---|
| Manufacturer of composite parts– Phase 1 – Box | Lease Commencement Date | 1st April 2022 |
| | Rent Commencement Date | 1st April 2022 |
| | Lock-in Period | 5 Years |
| | Lease Tenure | 12 Years |
| | Lease Rent Escalation Terms | 5% every year |
| Manufacturer of composite parts – Phase 1 – Open Space | Lease Commencement Date | 1st May 2022 |
| | Rent Commencement Date | 1st May 2022 |
| | Lock-in Period | 5 Years |
| | Lease Tenure | 12 Years |
| | Lease Rent Escalation Terms | 5% every year |
| Manufacturer of composite parts – Phase 2 – Box | Lease Commencement Date | 15th March 2025 |
| | Rent Commencement Date | 15th March 2025 |
| | Lock-in Period | 3 Years, 9 Months |
| | Lease Tenure | 10 Years |
| | Lease Rent Escalation Terms | 5% every year |
| Manufacturer of composite parts– Phase 2 – Open Space | Lease Commencement Date | 15th March 2025 |
| | Rent Commencement Date | 15th March 2025 |
| | Lock-in Period | 3 Years, 9 Months |
| | Lease Tenure | 10 Years |
| | Lease Rent Escalation Terms | 5% every year |

*Source: Information provided by the Client;*

### 6.3.3 Lease Expiry Profile

The Weighted Average Lease Expiry (WALE) of Phase 1 in the Subject Asset is 9.5 years, with 100.0% of occupied area expiring in the year 2034. Further, The Weighted Average Lease Expiry (WALE) of Phase 2 in the Subject Asset is 10.5 years, with 100.0% of occupied area expiring in the year 2035.

### 6.3.4 Tenant Obligations

Based on the review of the lease deed, we understand that the operational expenses listed below will have to be borne by the Tenant.

| S. No | Description of operational expenses |
|---|---|
| 1 | Regular Maintenance |
| 2 | General Wear and Tear |
| 3 | Other Expenses such as utility charges towards any Governmental authorities or Concerned service provider. |

Contractual Rental Details

| Tenant | Chargeable Area (sft) | % of area leased | Total In-place Rental (INR psf pm) | Total In-place Rental (INR Mn pm) |
|---|---|---|---|---|
| Manufacturer of composite parts- Phase 1 | 3,70,719 | 27% | 24.0 | 8.88 |
| Manufacturer of composite parts– Phase 1 (Open Space) | 5,07,071 | 37% | 7.5 | 3.8 |
| Manufacturer of composite parts– Phase 2 | 1,72,705 | 13% | 24.0 | 4.14 |
| Manufacturer of composite parts– Phase 2 (Open Space) | 3,00,690 | 22% | 7.5 | 2.26 |
| Manufacturer of composite parts– Phase 2 Scrap Yard | 26,892 | 2% | 18.0 | 0.48 |
| Total | 13,78,077 | | | 19.56 |

*Source: Rent Roll provided by the Client*

Based on the review of above information and considering the Built-to-suit nature of this asset, we understand that the Subject Asset would command a market rental (for manufacturing space) of INR 24.5 per sf per month.

The open space area within the subject asset provides convenience to the tenants in the subject asset. Also, considering the existing leases within the subject micromarket, we have assumed lease rentals for Open Spaces in the range of INR 6.5 per sf per month (rental adjusted as per contracted rental for open spaces) as on date of valuation.

### 6.3.5 Construction Timelines

#### 6.3.5.1 Completed Blocks

As per inputs provided by the Client, Phase 1 of the Subject Asset was completed and operationalised in the year 2022.

#### 6.3.5.2 Under Construction Blocks

Based on visual inspection during the site visit and information provided by the Client, the following timelines for under-construction phases have been adopted for the purpose of this valuation exercise –

| Block | Developable Area (sft) | Chargeable Area (sft) | Construction Status | Construction Commencement | Construction Completion |
|---|---|---|---|---|---|
| Phase 2 | 1,92,067 | 5,00,690 | Under construction | Q4, CY 2024 | Q1, CY 2025 |

*Source: Architect certificate, rent roll provided by the Client;*

### 6.3.6 Absorption/ Leasing Velocity and Occupancy Profile

#### 6.3.6.1 Completed Blocks

As per the rent roll provided by the Client, we understand that the subject asset is completely let as on date of valuation.

#### 6.3.6.2 Under-Construction Blocks

As per the rent roll provided by the Client, we understand that the subject asset is completely pre-committed as on date of valuation.

### 6.3.7 Revenue Assumption

#### 6.3.7.1 Warehousing Component

For the purpose of this valuation exercise, the lease rent adopted for the leasable area is based on the in-depth market research exercise undertaken by the Valuer to assess the prevailing rent values in the subject micromarket. The same has been adopted for the vacant space for the purpose of this valuation exercise.

| Component | Chargeable Area (sft) | Leased Area (sft) | Basis | Rent Adopted* (INR psf pm) |
|---|---|---|---|---|
| Manufacturing Unit – Phase 1 (Completed) | 3,70,719 | 3,70,719 | Current Rent for Leased area | 24.0 |
| | | | Market rent for reversion/ vacant area | 24.1 |
| Manufacturing Unit – Phase 2 (Under Construction) | 1,72,705 | 1,72,705 | Contracted Rent for under construction area | 24.0 |
| | | | Market rent for reversion/ vacant area | 24.0 |

*Source: Architect certificate, rent roll provided by the Client;*

The above market rent assumption is adopted for the entire Subject Asset. An in-depth market research exercise has been undertaken to assess the expected economic rental value of the Subject Asset.

#### 6.3.7.2 Non-Warehouse Component

As per the information provided by the Client, it is understood that there is scrap yard measuring approx. 26,892 sft of which 100% is leased out, however, it is yet to become operational. Given the above, we have assumed marginal rent in the range of INR 17.0 to 19.0 psf pm (rental adjusted as per contracted rental for scrap yard) as on date of valuation.

Further, it is also understood that there is an open space measuring 8,07,761 sft of which 100% is leased out; however, only the open storage space underlying Phase 1 & measuring 5,07,071 sft is generating rent as on date of valuation. The remaining open storage space falls under the Phase 2 and is still under construction. The Valuers have undertaken an in-depth market research exercise to assess the prevailing rent values in the subject micromarket and existing leases of subject asset. The same has been adopted for the vacant space for the purpose

of this valuation exercise. Given the above, we have assumed marginal rent in the range of INR 6.0 to 7.0 psf pm (rental adjusted as per contracted rental for open spaces) as on date of valuation.

### 6.3.8 Rent Escalation

Based on the market research exercise undertaken, it was observed that the typical escalation clause in the subject micromarket is approx. 5.0% annually. The same has been adopted for the vacant area and renewals at the Subject Asset.

Escalation on renewal/fresh leasing - Based on the market research exercise undertaken, it was observed that the typical escalation clause for lease renewal is of 5% per annum is in-line with the trend observed in the market. The same has been adopted by the Valuer.

| Particulars | September 2024 | March 2025 | March 2026 | March 2027 | Stabilized Escalation (%) |
|---|---|---|---|---|---|
| Market Rent – INR / sf/ month – Phase 1 | 24.1 | 25.3 | 26.6 | 27.9 | 5% |
| Market Rent – INR / sf/ month – Phase 2 | 24.0 | 25.1 | 26.4 | 27.7 | 5% |

*Source: Valuer's assessment*

### 6.3.9 Other Revenues

In addition to lease rent revenues, assets typically have additional sources of revenue. These include revenues on account of security deposit (refunded at the time of lease expiry / exit), other miscellaneous income etc.

The assumptions considered for the aforementioned revenue heads for the purpose of this valuation exercise has been cross-checked with the prevailing market norms for other revenues.

The assumptions adopted for other revenues are as tabulated below:

| Nature of Income | Details | Units |
|---|---|---|
| Other Income | 0.0% | % of Rental Income |
| Security Deposit (For vacant spaces) | 6.0 | No. of months' rental |

*Source: Valuer's assessment*

### 6.3.10 Capital Expenditure

#### 6.3.10.1 Development Cost

Based on review of the information provided by the Client, we understand that 100% expenses related to construction, are to be borne by the Client and no tenant improvement details are being provided as on date of this assessment.

The following table highlights the assumptions towards the development cost for the under-construction blocks at the Subject Asset:

| Expense Head | Total Cost (INR Mn) | Incurred Cost (INR Mn) | Q4, CY 2024 | Q1, CY 2025 |
|---|---|---|---|---|
| Capital Expenditure – Phase 2 | 459.65 | 76.61 | 229.82 | 153.22 |

*Source: Client inputs*

#### 6.3.10.2 Major Repair and improvements

Based on information provided by the Client and coupled with our visual inspection during the site visit undertaken, it is understood that Phase 1 of the Subject Asset has been delivered in the year 2022 and Phase 2 of the Subject Asset is under construction. Therefore, only a marginal refurbishment capex to the tune of 2% of the Net Operating Income is adopted. This assumption would allow for the refurbishment reserve to be created to undertake any potential major refurb at the Subject Asset post its completion.

### 6.3.11 Operating Cost

An Asset typically has few recurring operation expenses required for the upkeep running of the development. Based on information provided by the Client and market assessment, following recurring expense assumptions have been adopted for the purpose of this valuation exercise:

In addition to capital expenditure, an asset typically has few recurring operational expenses required for the up-keep and running of the asset. Based on information provided by the Client and market assessment, following recurring expense assumptions have been adopted for the purpose of this valuation exercise:

| Nature of Expense | Details |
|---|---|
| Reserves & Maintenance (R&M) Provision | 1.0% |
| Asset Management Fee^ | 3.0% of revenues from operations |
| CAM expense | 0.42 per sft per month |
| Property Tax | INR 0.5 Mn per Annum |
| Insurance | INR 3.29 Mn per Annum |
| Vacancy Allowance during operations | 1.0% of revenues from operations |
| Vacancy Allowance on Exit | 2.5% of revenues from operations |

*Source: Client input; Valuer's assessment;*

### 6.3.12 Other Assumptions

#### 6.3.12.1 Vacancy provision

Based on review of the information provided, we understand that that the Subject Asset is fully contracted by a single tenant. Considering the same alongside other asset level parameters (location, amenities, grade, infrastructure etc) and market benchmarks, the valuer has adopted a vacancy provision as follows:

| Description | Details |
|---|---|
| Vacancy Provision | During Operations – 1.0%<br>Assessment at the time of exit – 2.5% |

*Source: Valuer's assessment*

#### 6.3.12.2 Rent-free period & Downtime

Based on recent market trends in the subject micro market, we have considered a rent-free period of 1 month for new-leases and for re-leasing effective from the lease commencement date. Additionally, 1 month of downtime has been considered for new-leases and for re-leasing for the purpose of refurbishment works in the respective blocks as mentioned above.

#### 6.3.12.3 Brokerage

Based on prevalent market dynamics & inputs from the client, we have considered brokerage equivalent to 0.4 month of rental income for future / new leases.

#### 6.3.12.4 CAM Cashflows

CAM Cashflows for the subject asset have been assessed both during the holding period and at the time of notional exit. Margin on CAM and CAM Recoveries are included in the financials as per the CAM Charge based on historical performance of the subject asset as per the inputs provided by the Client and market benchmarks. The same has been considered as passthrough.

Based on review of the lease agreements and based on the subsequent information provided by the Client, we understand that no split between the base rentals and CAM charges were provided to us. However, as per our discussion with the Client, 100% of the CAM Income would be received by the Client entity/ InvIT entity and 100% of the CAM Expense would be borne by tenants/ SPV for Sullurpet Park.

## 6.4 Financial Assumptions

### 6.4.1 Exit Capitalization Rate Adopted

The exit capitalization rate adopted for valuing the assets has been based on factors such as:

- Historical entry yields (going in cap rates) for yield/ core warehousing facility transactions across various key markets in India have steadily shown a downward trend over last 7 - 8 years from 10.5%- 11.5% to about 7.5% - 8.5% in last 3-4 years.
- The increased appetite for income producing assets and availability of various modes of finance (real estate credit flows) backing such acquisitions.
- Yields for warehousing facilities across various markets in India have a range of 7.5 – 8.5%
- Liquidity associated with InvIT listed/ public listings (multiplicity of buyers and relatively lower budgets per buyer)
- Valuer has adopted an exit cap rate of 7.75% to 8.25% with lower end of cap rate adopted for relatively better assets within the portfolio on account of location, catchment and quality of the asset.

Based on the above highlighted attributes, the following cap rate has been adopted for the purpose of our valuation:

| Asset Name | SPV/Hold Co | Status of the asset | Details |
|---|---|---|---|
| Sullurpet Park | Revanza Sullurpet Industrial Parks Private Limited/ TVS ILP | Part Completed – Phase 1 & Part Under Construction – Phase 2 | 8.0% |

*Source: Valuer's assessment*

### 6.4.2 Discount Rate Adopted

For discounting the cash flows, an appropriate discount rate has been calculated on the basis of estimated 'Weighted Average Cost of Capital' (WACC), as set out below.

### 6.4.3 Cost of Equity

The Valuer has computed the cost of equity as per the Capital Asset Pricing Model (CAPM), which is derived as follows:

Cost of equity = Risk Free Rate (Rf) + Beta (**β**) * (Market Return (Rm) **–** Risk Free Rate (Rf))

As mentioned above, the cost of equity computed using CAPM constitutes of the following components:

- Risk free rate (Rf) i.e., long term (10-year) treasury bond rate in India
- Market return (Rm) based on the returns of Sensex index for the past 10 years.
- Computation of 'Beta (β)' of key listed realty stocks and REITs/ InvITs in India with respect to the Broad-Based BSE 500 stock index

The cost of equity adopted for this asset has been adjusted for market/ asset specific risk pertaining to a real estate asset such as execution risk (construction status), approval risk, marketing risk, etc. and adjusted for taxation. While the assumptions regarding the quantum of these risks have no quantitative basis, we have adopted them based on our understanding of the market and our opinion on the asset performance.

### 6.4.4 Cost of Debt

The cost of debt for the Subject Asset has been considered based on prevalent Lease Rental Discounting (LRD) rates for Grade A warehousing facilities across the Sullurpet market which are in the range of 8.0% – 10.0% depending upon the location, asset quality, occupancy, etc.

### 6.4.5 Weighted Average Cost of Capital (WACC)

Completed Blocks – Phase 1

As highlighted earlier, the cost of debt has been assumed based on the prevalent LRD rates, while the cost of equity assumed has been adjusted for asset and market specific attributes to reflect the market expectations from an operational institutional development. Further, the proportion of debt and equity has been derived considering the prevalent LRD tenures and its contribution in the overall asset value.

Based on above, the following WACC rate has been assumed for the completed phase of Sullurpet Park assets forming part of the InvIT portfolio:

| Asset Name | SPV/Holdco | Particular | Proportion | Cost | WACC |
|---|---|---|---|---|---|
| Sullurpet Park – Phase 1 | Revanza Sullurpet Industrial Parks Private Limited/ TVS ILP | Debt | 35.0% | 8.0% | 11.58% |
| | | Equity | 65.0% | 11.0% | |

*Source: Valuer's assessment; Please note that the cash flows are assumed to realize evenly during every quarter; hence a mid-quarter discounting convention has been adopted for the purpose of this valuation. Additionally, we have not factored any cash flows attributable to working capital requirement/expenses for valuation as the same is immaterial.*

Under-Construction Blocks – Phase 2

As highlighted earlier, the cost of debt has been assumed based on the prevalent Construction Finance (CF) Lending Rate for under-construction assets, while the cost of equity assumed has been adjusted for asset and market specific attributes to reflect the market expectations from an under-construction development. Further, the proportion of debt and equity has been derived considering the prevalent Construction Finance tenures and its contribution in the overall asset value.

Based on above, the following WACC rate has been assumed for the under-construction phase of Sullurpet Park forming part of the InvIT portfolio:

| Asset Name | SPV/Holdco | Particular | Proportion | Cost | WACC |
|---|---|---|---|---|---|
| Sullurpet Park – Phase 2 | Revanza Sullurpet Industrial Parks Private Limited/ TVS ILP | Debt | 60.0% | 11.0% | 12.5% |
| | | Equity | 40.0% | 14.75% | |

*Source: Valuer's assessment; Please note that the cash flows are assumed to realize evenly during every quarter; hence a mid-quarter discounting convention has been adopted for the purpose of this valuation. Additionally, we have not factored any cash flows attributable to working capital requirement/expenses for valuation as the same is immaterial.*

## 6.5 Value of the Subject Asset

The Valuer is of the opinion that subject to the overriding stipulations contained within the body of this report and to there being no onerous restrictions or unusual encumbrances of which he has no knowledge, the opinion of value of the complete ownership interest in the Subject Asset comprising land and improvements thereon, as explained above, as on 30th September 2024 is as follows:

| Asset Name | Status | Value (INR Mn) |
|---|---|---|
| Sullurpet Park Phase 1 | Completed | 2,221.67 |
| Sullurpet Park Phase 2 | Under Construction | 598.79 |
| Total Valuation | | 2,820.45 |

# 7 Exhibits and Addendums.

## 7.1 Other Mandatory Disclosures

### 7.1.1 Details of On-going material litigations including tax disputes in relation to the assets

According to the 'Litigation Details' provided by the client, it is understood that there are 3(Three) ongoing Civil Suits initiated by the subject asset entity, REVANZA SULLURPET INDUSTRIAL PARKS PVT. LTD, against the Office of the Joint Commissioner (State Tax) Chengalpattu Intelligence Division through DRC - 07 ZD330924190315A, DRC - 07 ZD330924190776U, DRC - 07 ZD330924190906X amounting to a total of approx. INR 355.15 Mn. These suits pertain to the assessment of tax for the FY 2020-21, 2021-22 & 2022-23, resectively. It should be noted that assessment order has been passed by the Jurisdictional Officer under section 74 and directed to make the payment by 26th December 2024. Please note that the Valuer has not investigated nor has been provided with any supporting documents. Please refer to the section on litigations in the draft offer document for details on material litigations for various assets.

### 7.1.2 Details of options or rights of pre-emption and other encumbrances

As per our interaction with the Client and our scope of services, please note that the Valuer has not investigated nor has been provided with any supporting documents.

Please refer to the section on litigations in the draft offer document for details on material litigations for various assets

### 7.1.3 Vulnerability to natural or induced hazards that may not have been covered in town planning/ building control.

As per our interaction with the Client, the Client has confirmed that there are no vulnerabilities pertaining to the asset. Please note that the Valuer has not investigated nor has been provided with any supporting documents.

Further, as per our visual inspection, we are of the opinion that Phase 1 of the Subject Asset is already operational, and Phase 2 of the Subject Asset site is in nascent development stage and as such there was no vulnerability observed during the inspection. However, It may further be noted that the Subject Asset is located in a cyclone prone zone and is subjected to a flooding risk due to prolonged heavy rainfall & also on account of the Park being located near the downstream of Kalangi River.

### 7.1.4 Details of Revenue Pendencies including local authority taxes associated with InvIT asset and compounding.

As per our interaction with the Client, the Client has confirmed that there is no revenue pendency to the asset. Please note that the Valuer has not investigated nor has been provided with any supporting documents.

Please refer to the section on litigations in the draft offer document for details on material litigations for various assets.

Our assessment is under the assumption the asset has a clear title and is free from any encumbrances, disputes, claims that would affect the value. This should be verified by an asset lawyer prior to relying on this valuation.

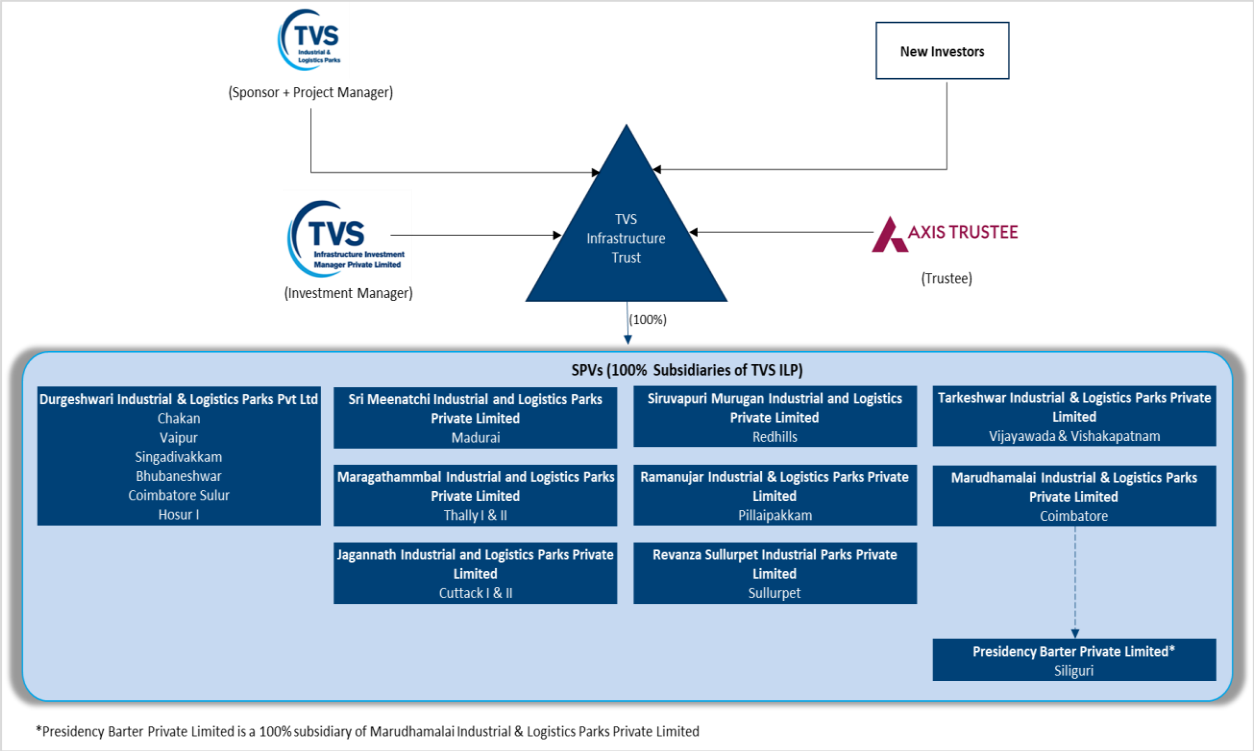
### 7.1.5 Details of the asset including whether the transaction is a related party transaction.

The asset is proposed to be acquired from the Sponsor, which is identified as related party under SEBI (InviT) Regulations

7.1.6 Nature of the interest the InvIT holds or proposes to hold in the asset, percentage of interest of the InvIT in the asset.

As per our interaction with the Client, the Client has confirmed that 100% to be help by the InvIT.

7.1.7 Structure of ownership of the asset by the InvIT



7.1.8 Description of key agreements and restrictions relevant to the asset such as terms of concession agreement, power purchase agreements, etc.

As per our interaction with the Client, the Client has confirmed that the same is not applicable to their business.

7.1.9 Life of the asset (both contractually and physical life requiring maintenance, replacement and right available to extend this life

| S. No | Particulars | Phase 1 | Phase 2 |
|---|---|---|---|
| 1 | Remaining Physical Life of the Building asset requiring maintenance | 2.5 years* | NA (Building is yet to be constructed) |
| 2 | Remaining Contractual Life of underlying Land | Perpetual, since the underlying land is freehold in nature | |
| 3 | Right to extend the contractual life of land | Not applicable. The underlying land is freehold in nature | |

## 7.4 Land Use Certificate

From
Smt. P. Sarojini M.A. B.Ed.,
Revenue Divisional Officer
Naidupet

To
The Tahsildar
Sullurpet Mandal

**D.Dis. No. A1/310/2021 Dt: 05.07.2021**

Sir,

Sub:- A.P. Agricultural Land (CNAP) Act, 2006 – G.O.Ms.No.98 cases – Land Conversion – SPS Nellore District – Naidupet Division – Sullurpet Mandal – Juvvichilaka Village – A/o M/s Revanza Sullurpet Industrial Parks Private Limited Represented by Saravanan Manoharan S/o Manoharan – Requested for conversion his agriculture land into Non-Agriculture purpose for an extent of Acs. 19.90 cents in Sy No. 12-1, 12-2 etc of Juvvichilaka Village of Sullurupet– Proposals orders issued – Regarding.

Ref: 1) Representation received fromM/s Revanza Sullurupet Industrial Parks Private Ltd., Represented by Sri Saravanan Manohanran through Mee seva TANCLR012100002938 Dt. 21.5.2021.
2) Report of the Tahsildar, Sullurupet Rc. B. 195/2021 dt. 05.07.2021.

-oOo-

I invite attention to the references cited.

In the reference 2nd cited, the Tahsildar, Sullurpet has submitted proposals for order conversion of the land from Agriculture to Non Agriculture purpose, i.e., "Industrial " as mentioned below.

| Sl. No. | Mandal | Village | Survey No | Full Extent | Extent applied | Classification |
|---|---|---|---|---|---|---|
| 1 | Sullurupet | Juvvichilaka | 12-2 | 2.20 | 2.20 | Patta dry |
| 2 | Sullurupet | Juvvichilaka | 12-1 | 2.44 | 2.44 | Patta dry |
| 3 | Sullurupet | Juvvichilaka | 11-6 | 2.29 | 2.29 | Patta dry |
| 4 | Sullurupet | Juvvichilaka | 11-4b | 0.04 | 0.04 | Patta dry |
| 5 | Sullurupet | Juvvichilaka | 11-3a | 1.02 | 1.02 | Patta dry |
| 6 | Sullurupet | Juvvichilaka | 11-3 | 1.00 | 1.00 | Patta dry |
| 7 | Sullurupet | Juvvichilaka | 10-2 | 7.52 | 7.52 | Patta dry |
| 8 | Sullurupet | Juvvichilaka | 9-2E | 1.10 | 1.10 | Patta dry |
| 9 | Sullurupet | Juvvichilaka | 9-1a | 2.29 | 2.29 | Patta dry |
| | | **Total** | | | **19.90** | |

The proposals of the Tahsildar, Sullurpet have been examined with reference to the provisions of A.P. Agricultural land (CNAP) Act, 2006 and amended Act No. 13 of 2018 and its Rules 2018 (G.O. Ms. No. 98 Revenue (DA & LR) Department, dated 19-02-2018). The basic value of the said land is Rs. 8,01,000/- The applicant has to pay an amount of Rs. 4,78,197/- towards payment of conversion tax @ 3% on basic value. The applicant has remitted an amount of Rs. 95,000/- vide challan No. 51094239572021 dt. 30.6.2021 and Rs. 3,83,198/- vide challan No. 51098869762021 dt. 4.7.2021. After perusal of the relevant documents, it is concluded that, the application for orders for conversion of the subject land into non-agriculture is **"Not rejected."**

Hence, the Tahsildar, Sullurpet is hereby directed to change the agriculture land into non-agriculture land in web-land by giving khatha No.300000 as well as in other connected Revenue Records as per the instructions of the Government and report compliance to this office.

# 1 Executive Summary

| | |
|---|---|
| Asset Name: | Pillaipakkam Park (the "Subject Asset") |
| Asset Address: | Plot No. A-1/4, SIPCOT Industrial Park, Survey Nos – 3(Pt), 4(Pt), 19(Pt), 20(Pt), 21A(Pt), 23(Pt), 26(Pt), 27(Pt), 28(Pt) of Pillaipakkam Village, Sriperumbudur Taluk, Kancheepuram District, Tamil Nadu. |
| Instructing Party: | TVS Industrial & Logistics Parks Private Limited (the "Client") |
| SPV Name: | Ramanujar Industrial & Logistics Parks Private Limited |
| Interest Valued: | 100% Leasehold Interest[1] |
| Land Area: | As per the review of the lease deed, land use certificate, building plan approval and sanctioned layout provided by the client, it is understood that the total underlying land area of the Subject Asset is approx. 17.00 acres. |
| Brief Description: | Based on the review of sanctioned layout shared by the client and subsequent site visit undertaken, it is understood that the Subject Asset comprises of operational and under-construction warehousing facility located in SIPCOT Industrial Park, Pillaipakkam Village, Sriperumbudur Taluk, Kancheepuram. The Subject Asset spread across a land area of approx. 17.00 acres with a cumulative leasable area of approx. 6,82,333 sft and a cumulative chargeable area of approx. 4,63,325 sft compromising of completed block (Block I) is occupied by a manufacturing company and comprising of under construction block (Block II) is currently vacant.<br><br>Further, it was observed that the subject land is contiguous in nature, even in terrain, is broadly regular in shape and on the same level as abutting road and adjoining properties. Also, the Subject Asset enjoys good frontage along the primary access road. The primary access road abuts the Subject Asset in its eastern side.<br><br>Please note that as on date of valuation, plans and approvals for the under-development portion viz. 1,11,568 sft have not been received. However, as discussed with the Client, it is assumed that the approvals would be received for undertaking this development.<br><br>The Subject Asset is a grade A warehouse with PEB structures having all requisite facilities such as DG and Transformer Yard, Sewage Treatment Plant – STP, Storm water network, Fire Fighting Systems of NFPA/NBC standards with a roof monitor ventilation system etc.<br><br>The area details of the asset are as follows: |

| Particulars | Status | Built-up Area (in sft) | Leasable Area (in sft) * | Chargeable Area (in sft) |
|---|---|---|---|---|
| Block I | Completed | 3,60,280 | 5,70,765 | 3,51,757 |
| Block II | Under – Construction | 1,11,568 | 1,11,568 | 1,11,568 |
| Total Area | | 4,71,848 | 6,82,333 | 4,63,325 |

[1] *Ramanujar Industrial & Logistics Parks Private Limited has entered into a 99-year lease with State Industrial Promotion Corporation of Tamil Nadu Limited (SIPCOT) Pillaipakkam on 28th Aug 2023 for the development of Industrial warehouse facility across a land area of 17 acres by paying INR 269.55 Mn towards plot cost and INR 100 towards 100% of the annual lease rent in advance.*

*Source: Lease deed and Client Inputs *The difference in built-up and chargeable area is due to tenant specific negotiations carried out depending upon the requirements of the tenants and the rentals. Please note that the valuer has not been provided with the plan approval*

**As per the lease deed and the client inputs the leasable area of Block I is 5,70,765 sft with warehouse area of 3,50,011 sft (with 3,48,557 sft carpet area), canopy area, Security room, switch yard & pole structure, substation, transformer and DG yard, fire pump room, driver's restroom, covered parking area, fire staircase, ramp, fire tank, overhead tank and open area admeasuring 2,20,754 sft. Of this, warehouse, security room, substation, fire pump room & driver's restroom carpet areas have been considered as chargeable area.*

Please note that as on date of valuation, plans and approvals for the under-construction portion viz. 107,000 sft have not been received. However, as discussed with the Client, it is assumed that the approvals would be received for undertaking this development.

The Subject Asset is located at a distance of approx. 05 – 06 km from Sriperumbudur Junction, approx. 20 – 21 km from Oragadam Junction, approx. 29 – 30 km from Chennai International Airport and approx. 44 – 45 km from Chennai Central Railway station.

Statement of Assets (sft):

The Subject Asset is a warehousing facility located at Pillaipakkam, with total leasable area of. 6,77,765 sft and 4,58,757 sft of chargeable area with a pre-leased occupancy of 100%.

| Blocks | Built-up Area (in sft) | Leasable Area (sft) | Chargeable Area (sft) | Structure Type |
|---|---|---|---|---|
| Block I | 3,60,280 | 5,70,765 | 3,51,757 | PEB Structure |
| Block II | 1,11,568 | 1,11,568 | 1,11,568 | PEB Structure |
| Total Leasable Area | 4,71,848 | 6,82,333 | 4,63,325 | |

*Source: Lease deed and Client Inputs *The difference in built-up and chargeable area is due to tenant specific negotiations carried out depending upon the requirements of the tenants and the rentals.*

**As per the lease deed and the client inputs the leasable area of Block I is 5,70,765 sft with warehouse area of 3,50,011 sft (with 3,48,557 sft carpet area), canopy area, Security room, switch yard & pole structure, substation, transformer and DG yard, fire pump room, driver's restroom, covered parking area, fire staircase, ramp, fire tank, overhead tank and open area admeasuring 2,20,754 sft. Of this, warehouse, security room, substation, fire pump room & driver's restroom carpet areas have been considered as chargeable area.*

Summary of the above table is as follows:

| Block | Total Area (sft) | Operational Area (sft)* | Under- Construction Area (sft)* |
|---|---|---|---|
| Block I | 5,70,765 | 3,51,757 | N.A |
| Block II | 1,11,568 | N.A | 1,11,568 |
| Total | 6,82,333 | 3,51,757 | 1,11,568 |

*Source: Client inputs *Area mentioned is chargeable area.*

As per information provided by the client, we understand that the cost to be incurred for the under-construction block is INR 163.94 Mn and the construction will be completed by CY Q2, 2025

*content of this valuation. The valuer has no pecuniary interest that would conflict with the proper valuation of the asset.*

*Please note that is an executive summary and it is advisable that the report should be the valuation*

Heightened Market Volatility:

We draw your attention to current heightened geopolitical tensions, low economic growth in many major countries, and a "higher for longer" interest rate sentiment which have increased the potential for constrained credit markets, negative capital value movements and continued volatility in some property markets over the short-to-medium term.

Experience has shown that consumer and investor behaviour can quickly change during periods of such heightened volatility. Lending or investment decisions should reflect any heightened level of volatility and potential for changing market conditions. Lending and investment caution is advised in this regard.

It is important to note that the conclusions set out in this report are valid as at the valuation date only. Where appropriate, we recommend that the valuation is closely monitored, as we continue to track how markets respond to evolving events.

Construction Cost Volatility:

Although general increases in material costs have stabilised since 2022, some specialised supply chains and construction-related labour costs remain volatile with the potential for further increases. This has created uncertainty in cost estimates, which is likely to continue.

In addition, there are significant risks that delays may be encountered in sourcing specialised materials and labour, and as such, the potential for ongoing cost escalations and delays is high. This may place additional pressure on developer and contractor profit margins and development viability.

These inherent risks should therefore be given careful consideration in lending and investment decisions. Caution is advised in this regard.

Valuer Declaration:

i. the valuer is competent to undertake the valuation

ii. the valuer is independent and has prepared the report on a fair and unbiased basis

iii. the valuer has valued the assets based on the valuation standards as specified under sub-regulation 10 of regulation 21

Prepared by:

iVAS Partners
Valuer Registration Number: IBBI/RV-E/02/2020/112

Official Signatory:

Name: Mr. Shubhendu Saha
Designation: Partner, iVAS Partners
Valuer Registration Number: IBBI/RV/05/2019/11552

# 2 Instruction

iVAS Partners ( Valuer Registration Number: IBBI/RV-E/02/2020/112; hereinafter referred as 'Valuer' ) represented by its partner Mr. Shubhendu Saha, a registered valuer under the Companies Act 2013 with IBBI (Valuer Registration Number: IBBI/RV/05/2019/11552) has been instructed by TVS Industrial & Logistics Parks Private Limited (hereinafter referred as the "Instructing Party", or the "Client") to estimate upon the Market Value (MV) of an under-construction warehousing asset located at SIPCOT Industrial Park, Pillaipakkam Village, Sriperumbudur Taluk, Kancheepuram, Tamil Nadu.

Based on information provided by the client, we understand that the underlying land parcel of the Subject Asset admeasures approx. 17.00 acres with a total leasable area admeasuring approx. 6,82,333 sft and a chargeable area admeasuring approx. 3,51,757 sft.

iVAS Partners is referred to as the 'Valuer' for the purpose of this report.

The details of the Subject Asset under the purview of this valuation exercise are tabulated below:

| Asset Name | SPV/Hold Co | Asset Type | Location | Land area | No. of Blocks |
|---|---|---|---|---|---|
| Pillaipakkam Park | Ramanujar Industrial & Logistics Parks Private Limited | Warehouse | Pillaipakkam | 17.00 acres | 2 |

*Source: Client Inputs*

For clarity, we are valuing the Property/ Asset only, not the SPV/Hold Co, which has been provided for reference only.

## 2.1 Purpose

As per our instructions the valuation is required by the Client for a proposed offer of units through private placement (the "Private Placement") as defined under the Securities and Exchange Board of India (Infrastructure Investment Trust) Regulations, 2014, as amended, together with clarifications, guidelines and notifications issued thereunder, on the Indian stock exchanges. In relation to the Private Placement, the Valuation report, a summary thereof and/or extracts of the report are intended to be included in the Offer Documents filed by the TVS Infrastructure Trust with the Securities and Exchange Board of India (SEBI) and the stock exchanges where the units of the InvIT are proposed to be listed.

In addition, other documents in relation to the Private Placement such as publicity material, research reports, presentations and press releases will also be prepared, wherein copies or extracts of the Summary Report are intended to be included.

## 2.2 Reliant Party

The Reliant Parties to this Summary Report will be the Client and TVS Infrastructure Trust, TVS Infrastructure Investment Manager Private Limited in its capacity as Investment Manager and TVS Industrial and Logistics Park Private Limited in its capacity as Sponsor for the purpose of the valuation as highlighted in this report. for the purpose of the valuation as highlighted in this report.

The valuation has been prepared strictly and only for the use of the parties as stated above (Reliant Parties) and for the Purpose specifically stated. The Client would make all Reliant Parties aware of the terms and conditions of this agreement under which this exercise is being undertaken and take due acknowledgements to the same effect.

## 2.3 Limitation and Disclaimers to Liability

- Valuer is not operating under any financial services license when providing the Valuation Report ("Valuation Report") and this document does not constitute financial product advice. Investors should consider obtaining independent advice from their financial advisor before making any decision to invest in TVS Infrastructure Trust InvIT.

- This Valuation Report is strictly limited to the matters contained within this report, and are not to be read as extending, by implication or otherwise, to any other matter in any Offer/ Draft Placement Memorandum/ Placement Memorandum/ Final Placement Memorandum ("Offer Document"). Valuer does not approve or endorse any part of the Offer Document. Any reference to the valuer or this Valuation Report within the Offer Document must be read in conjunction with this Valuation Report.

- Valuers disclaims any liability to any person in the event of an omission from, or false and misleading statements included in the Offer Document, other than in respect of the information provided within the Valuation Report. Valuers shall not make any warranty or representation as to the accuracy of the information in any part of the Offer Document, other than in respect of the methodology used for the preparation of the information provided within the Valuation Report.

- The liability of Valuer is limited to the Instructing Party, and any Reliant Party nominated within this report only. No accountability, obligation or liability to any third parties is accepted by the valuer. Valuer disclaims all liability to any investor.

- No liability is accepted for any loss, harm, cost or damage (including special, consequential or economic harm or loss) suffered as a consequence of fluctuations in the infrastructure development subsequent to the date of valuation. Valuer shall not be liable for any indirect, special, punitive or consequential loss or damage howsoever caused, whether in contract, tort or otherwise, arising from or in connection with this Valuation Report.

- Valuer accepts no responsibility or liability whatsoever (i) unless full disclosure of all information and matters that may have an impact upon the value and marketability of the asset has been made by the Instructing Party or (ii) for any matter arising out of or in relation to possible environmental site contamination or any failure to comply with environmental legislation which may affect the value of the asset.

- None of our employees, directors or valuers individually has a contract with the Instructing Party or owes them a duty of care.

- Valuer has prepared the Valuation Report relying on and referring to information provided by the Instructing Party and/or third parties including financial and market information ("Information"). Valuers have assumed that the Information is accurate, reliable and complete and has not independently verified such Information.

- The Valuation Report draws attention to the key issues and considerations impacting value and provides a detailed assessment and analysis as well as key critical assumptions, general assumptions, disclaimers, limitations and qualifications and recommendations. As commercial investments of this nature are inherently complex and the market conditions have changed and/or have been uncertain in recent times, valuer recommends that any references to value within the Offer Document must be read and considered together with the Valuation Report.

- This Valuation Report may not be reproduced in whole or in part without the prior written approval of the valuer.

- The Valuation Report does not purport to contain all the information that a potential investor or any other interested party may require. It does not consider the individual circumstances, financial situation, investment objectives or requirements. It is intended to be used as guide and for information purposes only and does not constitute advice including without any limitation, investment, tax, legal or any other type of advice. The valuations stated are only best estimates and are not to be construed as a guarantee. Potential investors should not rely on any material contained in the Valuation Report as a statement or representation of fact but should satisfy themselves as to its correctness by independent investigation and review of the Valuation Report to understand the assumptions and methodologies stated in the reports.

- For the avoidance of doubt, all references to "Offer Document" herein shall include any Offer Document, final Offer Document, prospectus and/or any other accompanying documents required under the SEBI (InvIT) Regulations 2014.

## 2.4 Limitation and Qualification

Valuation has been conducted solely for the benefit and use of the Instructing Party, and any Reliant Party nominated within this Valuation Report. The report and valuations should not be used for any other purpose other than the expressly intended purpose as mentioned in the Valuation Report. They are not to be used, circulated, quoted or otherwise referred to for any other purpose, nor are they to be filed with or referred to in whole or in part in any document without the prior written consent of valuer where such consent to be given at the absolute, exclusive discretion of valuer, which shall not be unreasonably withheld. Where they are to be used with the valuer's written consent, they shall be used only in their entirety and no part shall be used without referring to the whole report unless otherwise expressly agreed in writing by valuer.

Neither the whole nor any part of our report, nor any reference thereto, may be included in any published document, circular or statement, nor published in any way nor disclosed orally or in communication to a third party, including the form and context in which it is to appear without valuer's prior written consent.

The valuer does not purport to provide a site or structural survey in respect of the asset(s) valued. The valuer does not purport to be suitably qualified to provide professional advice in respect of building or site contamination. The Reliant Party(ies) should seek independent advice on these issues. The Services are provided on the basis that the client has disclosed to the valuer all information which may affect the Services. All opinions expressed by the valuer, or its employees are subject to any conditions contained in the valuation report.

## 2.5 Valuer Capability

iVAS Partners, (Valuer Registration Number: IBBI/RV-E/02/2020/112), represented by its partner Mr. Shubhendu Saha (Valuer Registration Number: IBBI/RV/05/2019/11552) delivers independent valuation (across categories viz. land & building and plant & machinery), advisory and technical due diligence services, that combine professional expertise with comprehensive databases, analytics and market intelligence across various asset classes and locations in India.

Mr. Shubhendu Saha is registered as a valuer with the Insolvency and Bankruptcy Board of India (IBBI) for the asset class Land and Building under the provisions of The Companies (Registered valuers and valuation) Rules, 2017 since 15 May 2019. He completed his Bachelor in Planning from the School of Planning and Architecture,

New Delhi in 1997 and master's in client studies from Motilal Nehru National Institute of Technology, Allahabad in 1999.

## 2.6 Scope of Valuation

The valuation has been undertaken to ascertain the market value of the Subject Asset forming part of the proposed TVS Infrastructure Trust InvIT as of the valuation date. The valuer has estimated the market value of each individual asset, not the value of the portfolio of Assets, if sold in one transaction. In consideration of the same, a detailed assessment of the site and surroundings has been undertaken with respect to the prevalent activities, change in dynamics impacting the values and the optimal use of the Subject Asset vis-à-vis the surrounding micromarket, etc.

The primary catchment for the valuation has been defined as Pillaipakkam micromarket and the surrounding areas. An in-depth research exercise has been conducted in the catchment area of the Subject Asset to ascertain the prevalent activity levels in terms of residential segment in the vicinity of Subject Asset. This has been achieved through interactions with various market players such as local real estate brokers, developers, end-users, etc.

The location, micromarket and catchment area for the Subject Asset is tabulated below:

| Asset Name | SPV/Hold Co | City | Micromarket/ Catchment Area |
|---|---|---|---|
| Pillaipakkam Park | Ramanujar Industrial & Logistics Parks Private Limited | Sriperumbudur | Pillaipakkam |

*Source: Client Inputs*

## 2.7 Valuer's Interest

The valuer certify that; he/they do not have a pecuniary interest, financial or otherwise, that could conflict with the proper valuation of the asset (including the parties with whom our instructing party is dealing, including the lender or selling agent, if any; accepts instructions to value the asset only from the client.

## 2.8 Qualifications/ Valuation Standards

This valuation is prepared in accordance with the International Valuation Standards (IVS) 2022.

The team involved in this engagement comprises of valuers registered with IBBI and RICS members with significant experience of valuations in Indian infrastructure and real estate market.

## 2.9 Disclosures

This valuer hereby certify that:

- iVAS Partners (Valuer Registration Number: IBBI/RV-E/02/2020/112), represented by its partner Mr. Shubhendu Saha (Valuer Registration Number: IBBI/RV/05/2019/11552), is registered as a registered valuer entity under Section 247 of the Companies Act, 2013 and The Companies (Registered Valuers and Valuation) Rules, 2017, as amended, and is eligible to be appointed as Valuer under the provisions of the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014, as amended and that the Valuation report has been prepared in accordance with these InvIT Regulations.

- iVAS Partners (represented by Mr. Shubhendu Saha - Partner, iVAS Partners) is not an associate of TVS Industrial & Logistics Parks Private Limited (the "Sponsor"), TVS Industrial and Logistics Park

Investment Manager Private Limited (the "Investment Manager") and TVS Infrastructure Trust (the "Trust")

- The Valuer, as represented by its partner, Mr. Shubhendu Saha, has the required minimum years of experience in the valuation of infrastructure assets, as required under the SEBI (InvIT) Regulations.
- The Valuer has not been involved with the acquisition or disposal within the last twelve months of any of the asset(ies) valued under this Valuation report.
- The Valuer has adequate and robust internal controls to ensure the integrity of the Valuation reports.
- The Valuer has sufficient key personnel with adequate experience and qualification to perform services related to asset valuation at all times.
- The Valuer has sufficient financial resources to enable them to conduct their business effectively and meet their liabilities.
- The Valuer has acquainted itself with all laws or regulations relevant to such valuation.
- iVAS Partners is not prohibited from acting as a valuer under applicable law.
- The valuation of assets undertaken is impartial, true and fair and in accordance with the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014, regulation 21.
- The Valuer and any of its employees/ Valuer involved in valuation of the InvIT assets are not invested in and shall not invest in units of the InvIT or in the assets being valued during the time such entity/person is designated as valuer of such InvIT and not less than 6 months after ceasing to be valuer of the InvIT.
- The Valuer has conducted the valuation of the InvIT assets with transparency and fairness and has rendered and shall render, at all times, high standards of service, exercise due diligence, ensure proper care and exercise professional judgement.
- The Valuer has acted with independence, objectivity and impartiality in performing the valuation.
- The Valuer has discharged its duties towards the TVS Infrastructure Trust InvIT in an efficient and competent manner, utilizing its knowledge, skills and experience in best possible way to complete the said assignment.
- The Valuer has not and shall not accept remuneration, in any form, for performing a valuation of the InvIT assets from any person or entity other than the TVS Infrastructure Trust InvIT or its authorized representatives.
- The Valuer has no present or planned future interest in the Client, Trustee, TVS Infrastructure Trust InvIT, the Sponsor to the TVS Infrastructure Trust InvIT and its sponsor group or the Special Purpose Vehicles (SPVs), holdcos, investment entity and the fee for this Report and the valuation exercise is not contingent upon the values reported herein. Our valuation analysis should not be construed as investment advice; specifically, we do not express any opinion on the suitability or otherwise of entering into any financial or other transaction with the Client or the SPVs/ holdcos/ investment entity.
- The Valuer shall before accepting any assignment from any related party to the TVS Infrastructure Trust InvIT, disclose to the TVS Infrastructure Trust InvIT, any direct or indirect consideration which the Valuer may have in respect of such assignment
- The Valuer shall disclose to the trustee of the TVS Infrastructure Trust InvIT, any pending business transactions, contracts under negotiation and other arrangements with the client or any other party whom the

TVS Infrastructure Trust InvIT is contracting with and any other factors which may interfere with the Valuer's ability to give an independent and professional valuation of the asset; as on the date of valuation, there are no impediments for Valuer to give an independent professional value opinion of the asset

- The Valuer has not made false, misleading or exaggerated claims in order to secure assignments.
- The Valuer has not and shall not provide misleading valuation, either by providing incorrect information or by withholding relevant information
- The Valuer has not accepted and shall not accept an assignment that includes reporting of the outcome based on predetermined opinions and conclusions required by the TVS Infrastructure Trust InvIT
- The Valuer has not accepted the said assignment which interferes with its ability to do fair valuation
- The valuation undertaken by the valuer abides by International Valuation Standards for valuation in compliance with The Companies (Registration of Valuers and Valuation) Rules, 2017
- The Valuer understands that most of these assets are wholly/partly owned/ tenanted by related parties, hence, any transactions related to these assets from the related parties being valued would be related party transactions.
- The Valuer notes that there are encumbrances, however, no options or pre-emptions rights in relation to the assets based on the title report prepared by Cyril Amarchand Mangaldas (hereinafter collectively referred to as 'Legal Counsels'). The Valuer does not have the expertise or the preview to verify the veracity or quantify these encumbrances, disputes or claims. For the purpose of this valuation, the valuer has assumed that the respective assets have title deeds that are clear and marketable.

## 2.10 Assumptions, Disclaimers, Limitations & Qualifications to Valuation

| | |
|---|---|
| Valuation Subject to Change: | The subject valuation exercise is based on prevailing market dynamics as on the date of valuation and does not take into account any unforeseeable developments which could impact the same in the future |
| Our Investigations: | The valuers are not engaged to carry out all possible investigations in relation to the Subject Asset. Where in our report the valuer identify certain limitations to our investigations, this is to enable the reliant party to instruct further investigations were considered appropriate or where the valuer recommend as necessary prior to reliance. The valuer are not liable for any loss occasioned by a decision not to conduct further investigations |
| Assumptions: | Assumptions are a necessary part of undertaking valuations. The valuer adopts assumptions for the purpose of providing valuation advice because some matters are not capable of accurate calculation or fall outside the scope of our expertise, or our instructions. Assumptions adopted by iVAS Partners will be formulated on the basis that they could reasonably be expected from a professional and experienced valuer. The Reliant Party accepts that the valuation contains certain specific assumptions, and acknowledges and accepts the risk that if any of the assumptions adopted in the valuation are incorrect, then this may have an effect on the valuation |
| Information Supplied by Others: | The valuations are based on the information provided by the client (TVS Industrial & Logistics Parks). The same has been assumed to be correct and has been used for valuation exercise. Where it is stated in the report that another party has supplied information to the 'Valuer', this information is believed to be reliable, but the 'Valuer' can accept no responsibility if this should prove not to be so<br><br>We have assumed that where any information relevant to our valuation is supplied by the Instructing Party, or by any third party at Instructing Party's instigation, it is correct and comprehensive, and can be safely relied upon by us in preparing our valuation.<br><br>We would recommend that before any financial transaction is entered into based on the valuations, you obtain verification of any third-party information provided. We also recommend that you check the validity of the assumptions we have adopted in our report (where we have been unable to verify the facts through our own observations or experience) |

| | |
|---|---|
| Matters which affect or may affect the valuation | If the Reliant Party becomes aware of any matters which affect or may affect the valuation, then valuer must be advised of those matters. The Reliant Party's failure to do so will disentitle the Reliant Party to place reliance on the valuation and reliance must not be placed on the valuation/s under any circumstance |
| Future Matters: | To the extent that the valuation includes any statement as to a future matter, that statement is provided as an estimate and/or opinion based on the information known to the 'Valuer' at the date of this document. The 'Valuer' does not warrant that such statements are accurate or correct |
| Map and Plans: | Any sketch, plan or map in this report is included to assist reader while visualizing the Assets and the valuers assume no responsibility in connection with such matters.<br>Further. all maps and plans quoted in our report are solely for illustration purposes only. While they are extracted from public sources, they may be not to scale. Valuer does not warrant that such dimensions shown are accurate. |
| Site Details: | Based on title due-diligence and other information provided by the client, the valuer understands that the Subject Asset is free from any encroachments and are available as on the date of the valuation |
| Asset Title: | For the purpose of this valuation exercise, the valuer has relied on the Title Reports prepared by the Legal Counsels for each of the Assets and has made no further enquiries with the relevant local authorities in this regard. The valuer understands that the Subject Asset may have encumbrances, disputes and claims. The valuer does not have the expertise or the preview to verify the veracity or quantify these encumbrances, disputes or claims. For the purpose of this valuation, the valuer has assumed that the respective assets have title deeds that are clear and marketable. We recommend that a suitable Asset Lawyer or similar reviews these assumptions and confirm they are reasonable before relying in this report. |
| Environmental Conditions: | In preparing our valuation we assume that no contaminative or potentially contaminative use is, or has been, carried out at the property. We do not undertake any investigation into the past or present uses of either the property or any adjoining or nearby land, to establish whether there is any potential for contamination from these uses and assume that none exists. Should it, however, be subsequently established that such contamination exists at the property or on any adjoining land or that any premises have been or are being put to contaminative use, this may have a detrimental effect on the value reported |
| Town Planning: | The current zoning of the Subject Asset has been adopted on the basis of review of various documents (title deeds & approval documents) provided by the client and the current land use maps for the subject micromarket. The same has been considered for the purpose of this valuation exercise. Further, it has been assumed that the development on the Subject Asset adheres/ would adhere to the development regulations as prescribed by the relevant authorities. The valuer has not made any enquiries with the relevant development authorities to validate the legality of the same.<br>Our valuations are prepared on the assumption that the premises comply with all relevant statutory enactments and Building Acts and Regulations, that a valid and up-to-date Fire Certificate has been issued. We assume that all necessary consents, licenses and authorizations for the use of the asset and the process carried out therein have been obtained and will continue to subsist and are not subject to any onerous conditions.<br>In the event that a legal requisition or other relevant planning information or document is obtained, and the information therein is found to be materially different to the town planning information in the report, the valuation must not be relied upon before first consulting iVAS Partners to reassess any effect on the valuation/s |
| Area: | The total leasable area considered for the purpose of this valuation exercise is based on the inputs shared by the client. It must be noted that the above information has been provided by the client and has been verified based on the approvals/ layout plans/building plans provided by the client. However, the valuer has not undertaken additional verification and physical measurement for the purpose of this valuation exercise |
| Condition & Repair: | In the absence of any information to the contrary, the valuer has assumed that there are no abnormal ground conditions, nor archaeological remains present which might adversely affect the current or future occupation, development or value of the asset; the asset is free from rot, infestation, structural or latent defect; no currently known deleterious or hazardous materials or suspect techniques will be used in the construction of or subsequent alterations or additions to the asset and comments made in the asset details do not purport to express an opinion about, or advice upon, the condition of uninspected parts and should not be taken as making an implied representation or statement about such parts |

| | |
|---|---|
| Not a Structural Survey: | The valuer states that this is a valuation report and not a structural survey |
| Legal: | Unless specifically disclosed in the report, the valuer has not made any allowances with respect to any existing or proposed local legislation relating to taxation on realization of the sale value of the Subject Asset. We do not read legal documentation. Where legal documentation is provided to us, we will have regard to the matters therein but recommend that reliance should not be placed on our interpretation thereof without prior verification by your legal advisors. Unless disclosed to us, we assume that there are no outstanding statutory breaches or impending litigation in respect of the property. We further assume that all documentation is satisfactorily drawn and that unless disclosed to us, there are no unusual or onerous restrictions, easements, covenants or other outgoings which would adversely affect the value of the relevant interest(s). In respect of leasehold Assets, we will assume that your landlord will give any necessary consents to an assignment. Unless notified to the contrary we assume that each property has a good and marketable title and is free from any pending litigation |
| Others: | Considering the unorganized nature of real estate markets in India, all comparable evidence (if any) provided in the valuation report has been limited to the basic details such as the area of asset, rate at which transacted, broad location, etc. other specific details would be provided only if the information is available in public domain |
| Other Assumptions: | Please note that all the factual information such as tenants' leasable area, lease details such as lease rent, lease commencement and lease end date, lock – in period, escalation terms, etc. pertaining to the Subject Asset is based on the rent roll provided by the client and the same has been adopted for the purpose of this valuation exercise. The rent rolls have been cross-checked with copies of the lease deeds on a sample basis as shared with the valuer to verify the authenticity. Any change in the above information will have an impact on the assessed value and in that case the valuer will have to relook at the assessed value. The relevant information sources are represented in section 5.5.<br><br>All measurements, areas and ages quoted in our report are approximate.<br><br>We are not advisors with respect to legal, tax and regulatory matters for the transaction. No investigation of the respective Special Purpose Vehicles (SPVs) holding the assets' claim to title of assets has been made for the purpose of this Report and the SPVs' claim to such rights have been assumed to be valid. No consideration has been given to liens or encumbrances against the assets. Therefore, no responsibility is assumed for matters of a legal nature.<br><br>As per the details provided by the client, the rental revenue has been calculated and other analysis are performed on chargeable area. Further, Leasable area mentioned is in accordance with the information shared by the client comprising rent rolls and lease agreements. |
| Flooding risk: | We have assumed that either there is no flooding risk or, if there is, that sufficient flood defenses are in place and that appropriate building insurance could be obtained at a cost that would not materially affect the capital value. |
| Site Conditions: | We do not commission site investigations to determine the suitability of ground conditions and services, nor do we undertake environmental or geotechnical surveys. We have assumed that these aspects are satisfactory and also that the site is clear of underground mineral or other workings, methane gas or other noxious substances.<br><br>In the case of property which may have redevelopment potential, we proceed on the basis that the site has load bearing capacity suitable for the anticipated form of redevelopment without the need for additional and expensive foundations or drainage systems (unless stated otherwise) |
| Hazardous & deleterious materials | Unless otherwise noted, we have assumed that the improvements are free of Asbestos and Hazardous Materials, or should these materials be present then they do not pose significant risk to human health, nor require immediate removal. We assume the site is free of subsoil asbestos and have made no allowance in our valuation for site remediation works.<br><br>Our visual inspection is an inconclusive indicator of the actual condition/presence of asbestos/hazardous materials within the property. We make no representation as to the actual status of the Property. If a test is undertaken at some time in the future to assess the degree, if any, of the presence of any asbestos/hazardous materials on site and this is found to be positive, this valuation must not be relied upon before first consulting iVAS Partners to reassess any effect on the valuation. |

| | |
|---|---|
| | Unless specifically instructed, we do not carry out investigations to ascertain whether any building has been constructed or altered using deleterious materials or methods. Unless specifically notified, our valuation assumes that no such materials or methods have been used |
| Unregistered interests | We have assumed that there are no unregistered interests or interests not captured by the applicable Regulatory Authority in the country which services are to be carried out which may affect market value. In the event that the Reliant Party becomes aware of any further or pending easements, encumbrances or unregistered interests, this valuation must not be relied upon before first consulting iVAS Partners in writing to reassess any effect on the valuation |
| Heightened Market Volatility | We draw your attention to current heightened geopolitical tensions, low economic growth in many major countries, and a "higher for longer" interest rate sentiment which have increased the potential for constrained credit markets, negative capital value movements and continued volatility in some property markets over the short-to-medium term.<br><br>Experience has shown that consumer and investor behaviour can quickly change during periods of such heightened volatility. Lending or investment decisions should reflect any heightened level of volatility and potential for changing market conditions. Lending and investment caution is advised in this regard.<br><br>It is important to note that the conclusions set out in this report are valid as at the valuation date only. Where appropriate, we recommend that the valuation is closely monitored, as we continue to track how markets respond to evolving events. |
| Development Valuations | The value of infrastructural developments is traditionally volatile and can be subject to rapid changes of value in short timeframes. Development assets appeal to specific types of purchasers and can be significantly impacted by many factors such as broader economic conditions, fluctuating levels of supply and demand for the product, changes in building costs and the availability and cost of development finance. All these (and more) factors could have a significant impact on the value and demand for the Subject Asset.<br><br>Going forward there will be several key factors impacting on the viability of some development assets and their underlying land values. Key concerns are fluctuations in construction costs, substantial new supply levels and easing investor demand for final product. In addition, we also note that ongoing monitoring and governance of banking systems may significantly restrict development capital and increase the cost of development finance.<br><br>As experienced in previous market cycles, the value of infrastructural developments can undergo rapid and significant price corrections, as supply, demand and cost factors change. Any Reliant Party is strongly advised to consider this inherent risk in their investment and lending decisions. Lending and investment caution is advised in this regard.<br><br>The applicant's ability to service debt should also be carefully considered, should development opportunities and settlements be extended, construction/funding costs increase, or sales rescinded |
| Construction Cost Volatility | Although general increases in material costs have stabilised since 2022, some specialised supply chains and construction-related labour costs remain volatile with the potential for further increases. This has created uncertainty in cost estimates, which is likely to continue.<br><br>In addition, there are significant risks that delays may be encountered in sourcing specialised materials and labour, and as such, the potential for ongoing cost escalations and delays is high. This may place additional pressure on developer and contractor profit margins and development viability.<br><br>These inherent risks should therefore be given careful consideration in lending and investment decisions. Caution is advised in this regard. |

# 3 Chennai – Market Structure and Conditions

## 3.1 Information

For the purpose of the valuation exercise, reliance has been made on the deliverables of CBRE South Asia Private Limited, an independent agency appointed by TVS to undertake market research, provide market commentary, and data as a part of a report (the "Industry Assessment Report") for the purpose of this assignment.

## 3.2 Demand and Supply

### 3.2.1 Demand and Supply Trends – Chennai

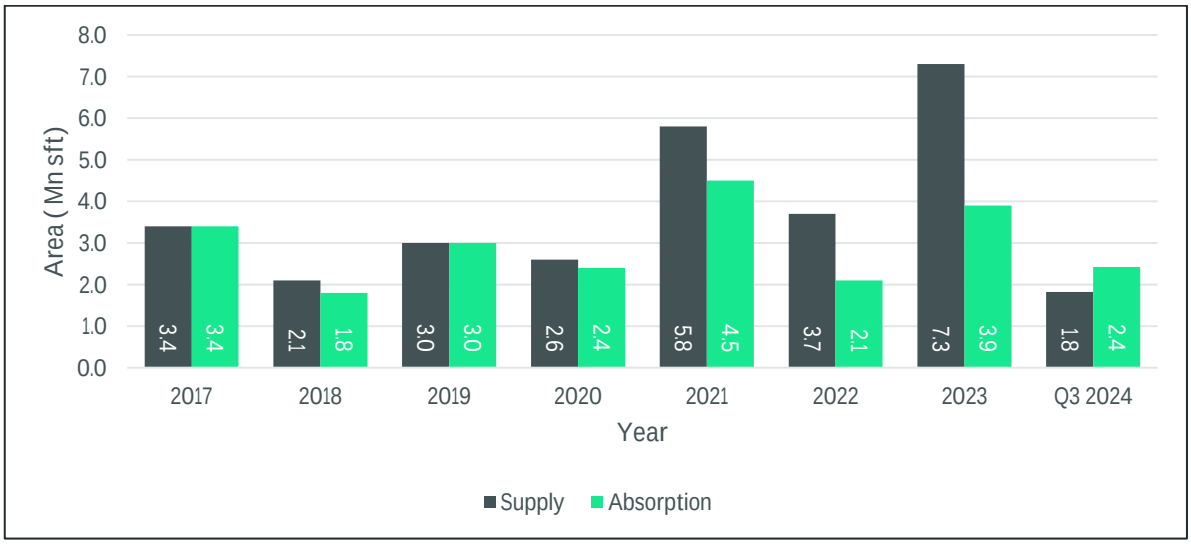
Total completed stock in Chennai as of Q3, CY 2024 is 46.12 msf, out of which Sriperambudur micromarket account for Approx. 1.8%. Sriperumbudur micromarket, wherein the Subject Asset is situated is one of the emerging vectors of Chennai due to it's proximity to SIPCOT Irungattukottai and Oragadam industrial corridor.

| Particulars | Details |
|---|---|
| Cumulative completed office stock (Q3 2024) | Approx. 46.12 msf |
| Cumulative occupied stock (Q3 2024) | Approx. 41.07 msf |
| Current vacancy (Q3 2024) | Approx. 10.9 % |
| Future supply (2024 – 2026) | 5.0 to 6.0 Mn Sft |

*Source: Industry Assessment Report dated as of September 30, 2024*

Chennai has approx. 46.12 mn sft of operational warehouse supply out of which approx. 41.07 mn sft is occupied. The stretches of NH 16 belt (stretch 1) and Western Vector constitute to approx. 82% of the cities Completed supply. Industrial and Warehousing market of Chennai is primarily driven by the demand arising from Third party logistics, Auto and Auto Components, Electric and Electronic goods, FMCG etc. The city predominantly houses Grade A developments (approx. 51%), Grade B developments (approx. 45%) & Grade C developments (approx. 4%).

Demand – Supply Dynamics of City: Chennai



*Source: Industry Assessment Report*

The year-on-year share of Grade-A warehouse supply has grown significantly since 2014, driven by the entry of large-scale organized players like Indospace, ESR, LOGOS, and Ascendas. From 2017 to 2023, supply addition in the overall Chennai warehousing market experienced a Compound Annual Growth Rate (CAGR) of 11-12% due to demand from the Manufacturing Sector. The Western cluster, encompassing Mannur and Oragadam, has been the primary driver due to its strong manufacturing base, particularly in the automotive and ancillary industries.

In the year 2020 there was a slight slump observed in supply and demand owing to worldwide pandemic scenario causing construction delays coupled with deferment in absorption of warehouse space which was already pre-committed in the market.

In year 2021, largest supply and absorption influx was witnessed owing spill over demand of 2020 which was impacted by COVID and coupled with demand from Automobile and 3PL tenant sectors.

Snapshot of West Sriperumbudur Warehousing Market

| COMPLETED SUPPLY | VACANCY | GRADE A SUPPLY | GRADE A VACANCY | SHARE OF GRADE A SUPPLY IN CHENNAI | UPCOMING SUPPLY | LAND VALUES (INR MN/ACRE) |
|---|---|---|---|---|---|---|
| 0.85 Mn sft | 16– 17% | 0.82 Mn sft | 17 – 19% | 4% | - | 40 - 45 |

Source: CBRE Research; Updated as of Q3 2024

Pillaipakkam is strategically located within the Sriperumbudur Industrial Corridor, a region characterized by strong connectivity and industrial growth. Situated along National Highway 48, the area offers efficient transportation links to major cities and ports. Its proximity to the Chennai-Bangalore Industrial Corridor enhances its appeal as a warehousing hub, providing access to a thriving industrial region with substantial investment opportunities. Several prominent companies, including Hyundai, BMW, Yamaha Motors, Saint Gobain Jabil, and Mitsubishi, operate manufacturing facilities in Sriperumbudur. The presence of nearby industrial estates and parks further drives the demand for warehousing solutions as businesses seek to optimize their supply chain operations. Sriperumbudur has established itself as a Special Economic Zone (SEZ) with significant investments from automotive and electronics companies. The construction of a new greenfield airport in close proximity to Sriperumbudur will further enhance the region's connectivity.

The warehouse is strategically located on leasehold land in SIPCOT Pillaipakkam, approximately 44 kilometers from Chennai's city center and 27 kilometers from the airport. The facility spans a total area of 17 acres, with a built up potential of 467,280 sft out of which 360,280 sft is currently under construction and pre-leased to a manufacturing company.

#### 3.2.1.1 Key Developments in Micromarket

The table below highlights the prominent developments in the subject micromarket:

| Building Name | Year of Establishment | Leasable Area (sft) | Average Lease Rental (INR per sft pm) |
|---|---|---|---|
| Development 1 | 2023 | 175,000 | 24 – 26 |
| Development 2 | 2023 | 500,000 | 21 – 23 |
| Development 3 | 2023 | 150,000 | 21 – 23 |

*Source: Industry Assessment Report*

#### 3.2.1.2 Future Supply

Based on the market research, we understand that the micro-market of Sriperumbudur has no planned upcoming supply.

### 3.2.2 Market Rent

The table below highlights the recent lease transactions in the micro market:

| Date of Transaction | Chargeable Area (sft) | Lessee | Name of the Building | Total Rent (INR per sft per month) | Description |
|---|---|---|---|---|---|
| Q3, 2023 | 500,000 | Kerry Indev Logistics | Olympia-Sriperumbudur-Phase I-Box 1 | 22 | Base Rental |
| Q2, 2013 | 175,000 | ANAND Group | IndoSpace-Sriperumbudur-Phase I-Box 1 | 25 | Base Rental |

*Source: Industry Assessment Report*

As can be observed from the table above and our interactions with other market players, the rental value in the micro market ranges between INR 22 - 25/sft/month (base rentals). The variance across rentals is primarily due to factors such as location, accessibility, overall tenant mix, quantum of vacant stock in the development, specifications of the block, park level infrastructure, additional improvements, etc.

## 3.3 Market Outlook

The demand driver for this vector is primarily driven by being located within the SIPCOT Industrial estate, it's excellent connectivity to other parts of the city as well as states, proximity to key industrial hubs, availability of land and presence of warehousing ecosystem.

Chennai markets have been witnessing linear growth in the supply and demand over the past 4-5 years for warehousing spaces. While the western part of Chennai is considered a prominent segment for Manufacturing the North is chosen by logistic players given its easy access to Chennai port. Sriperumbudur, by virtue of falling in the western part of Chennai is gaining traction due to its access to manufacturing hub of Chennai. Enormous small to mid-scale glass manufacturers, automobile manufacturers, electronic and home appliances manufacturers have their facilities set up in closer vicinity to Sriperumbudur. This is expected to further bolster the growth prospects

of Sriperumbudur especially for warehousing market given the availability of larger land parcels and development potential.

Further, the Subject Asset is well positioned in the market to attract interest from occupiers owing to its location, specifications and amenities, developer's reputation, etc. Therefore, keeping in perspective the subject property's location, leasing in the micromarket, quantum of leasable area, quality of construction, developer's reputation, type of space, etc., we are of the opinion that the subject property would command a lease rental of approx. INR 22 - 24 / sft / month as on date of valuation.

# 4 Subject Asset – TVS - Pillaipakkam

## 4.1 Asset Description

The subject development 'Pillaipakkam Park' is an under-construction warehousing facility with total leasable area of 3,51,757 sft located at Plot No. A-1/4, SIPCOT Industrial Park, Survey Nos – 3(Pt), 4(Pt), 19(Pt), 20(Pt), 21A(Pt), 23(Pt), 26(Pt), 27(Pt), 28(Pt) of Pillaipakkam Village, Sriperumbudur Taluk, Kancheepuram District. The Subject Asset is currently accessible via Kundrathur – Sriperumbudur Road (SH-113).

Based on the review of sanctioned layout shared by the client and subsequent site visit undertaken, it is understood that the Subject Asset comprises of operational and under-construction warehousing facility located in SIPCOT Industrial Park, Pillaipakkam Village, Sriperumbudur Taluk, Kancheepuram. The Subject Asset spread across a land area of approx. 17.00 acres with a cumulative leasable area of approx. 6,82,333 sft and a cumulative chargeable area of approx. 4,63,325 sft.

Further, it was observed that the subject land is contiguous in nature, even in terrain, is broadly regular in shape and on the same level as abutting road and adjoining properties. Also, the subject land enjoys good frontage along the primary access road. The access road abuts the Subject Asset in its eastern side.

Please note that as on date of valuation, plans and approvals for the under-development portion viz. 1,11,568 sft have not been received. However, as discussed with the Client, it is assumed that the approvals would be received for undertaking this development.

The Subject Asset is a grade A warehouse with PEB structures having all requisite facilities such as DG and Transformer Yard (one transformer with 1,250 KVA), Sewage Treatment Plant – STP (10KLD Conventional STP), Storm water network (Hume pipe with RCC Chamber), Fire Fighting Systems of NFPA/NBC standards with a roof monitor ventilation system with 6ACHP with FM2 Flooring with a floor load of 5T per sq.m and a power load of 955 KVA extendable up to 1,250 KVA.

As at the valuation date the Subject Asset is fully let to a single tenant as a Built-to-suit (BTS) facility with a total current annual rent of 152.91 Mn and with a Weighted average lease expiry (WALE) of 9.88 years.

| Brief Description | |
|---|---|
| Particulars | Details |
| Asset Name | Ramanujar Industrial & Logistics Parks Private Limited, Pillaipakkam |
| Address | Plot No. A-1/4, SIPCOT Industrial Park, Pillaipakkam Village, Sriperumbudur Taluk, Kancheepuram District |
| Land Area | Based on review of the sale deed shared by the client, it is understood that the Subject Asset spread across a land area of approx. 17.00 acres |
| Leasable Area | 6,82,333 sft* |
| Chargeable Area | 4,63,325 sft |
| Built-up Area | 4,71,848 sft^ |

*Source: Lease deed and Client Inputs *The difference in built-up and chargeable area is due to tenant specific negotiations carried out depending upon the requirements of the tenants and the rentals. ^ The built-up area provided is the overall built-up area including warehouse blocks, fire pump room, substation, office, security room, STP, Water tank, OHT etc*

**As per the lease deed and the client inputs the leasable area of Block I is 5,70,765 sft with warehouse area of 3,50,011 sft (with 3,48,557 sft carpet area), canopy area, Security room, switch yard & pole structure, substation, transformer and DG yard, fire pump room, driver's restroom, covered parking area, fire staircase, ramp, fire tank, overhead tank and open area admeasuring 2,20,754 sft. Of this, warehouse, security room, substation, fire pump room & driver's restroom carpet areas have been considered as chargeable area.*

### 4.1.1 Site Details

**Situation:**

The subject development christened 'Pillaipakkam Park' comprises of operational and under-construction warehousing facility with total leasable area of 3,51,757 sft located at Plot No. A-1/4, SIPCOT Industrial Park, Survey Nos – 3(Pt), 4(Pt), 19(Pt), 20(Pt), 21A(Pt), 23(Pt), 26(Pt), 27(Pt), 28(Pt) of Pillaipakkam Village, Sriperumbudur Taluk, Kancheepuram District.

**Location:**

The Subject Asset is located along Kundrathur – Sriperumbudur Road (SH-113), Pillaipakkam Village of Kancheepuram District, Tamil Nadu.

The distances from key hubs to the Subject Asset are presented in the table below:

| Landmark | Distance (Km) |
|---|---|
| Sriperumbudur Junction | 05 – 06 |
| Oragadam Junction | 20 – 21 |
| Coimbatore International Airport | 29 – 30 |
| Coimbatore Railway Station | 44 – 45 |

*Source: Valuer's research*

**Catchment Analysis:**

The primary catchment for the purpose of this valuation has been defined as Pillaipakkam - Sriperumbadur and its adjoining micromarkets which are predominantly characterized by industrial/warehousing development. By virtue of being present in SIPCOT, the industrial/warehousing activities are aplenty given the easier connectivity and access to Oragadam Industrial corridor (the Industrial hub of Chennai). Few notable industrial developments in the micromarket includes Asian Sealing Products Private Limited, Ashok Leyland Vehicles Limited, etc.

**Surrounds:**

The Subject Asset is surrounded as follows:

- North: Private Property
- South: Private Property
- East: Access Road
- West: Private Property

**Potential changes in surroundings:**

The subject micromarket is currently witnessing significant infrastructural developments such as the ongoing Chennai Bangalore Expressway, Chennai Outer Ring Road, Chennai Peripheral Ring Road which would enhance the connectivity from the city to the outskirts and other states. The proposed international airport at Parandur, which is expected to be

operational by 2030 would boost the industrial activity along the western micromarkets of Chennai.

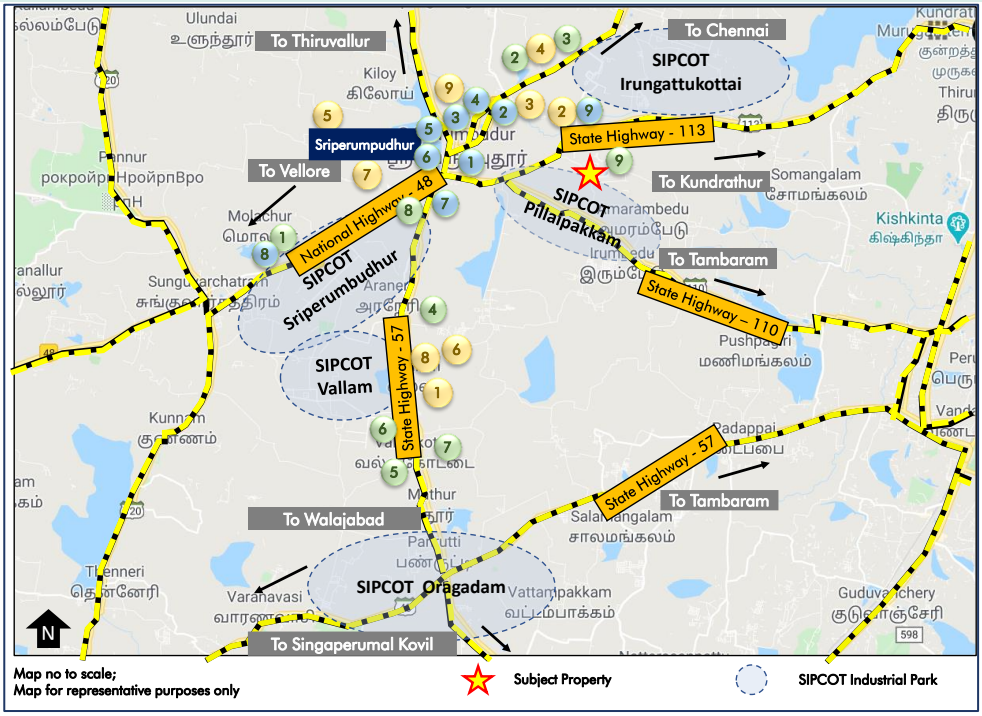
Suitability of existing use:

As per information received from the client, we understand that the Subject Asset is an under-construction warehousing facility. The current use of the property i.e. 'Industrial & Logistic Park' is as per the usage permitted by the development authority (DTCP). We have neither verified nor inspected any documentary evidence to the same from the Director of Town and Country Planning.

Also considering the nature of subject development coupled with the location and profile of the surrounding developments, the use of the Subject Asset is opined to be in conformity with the envisaged development.

The following map indicates the location of the Subject Asset and surrounding developments:

Location Map for the Subject Asset



| Healthcare Development | | Residential Development | | Institutional Development | |
|---|---|---|---|---|---|
| 1 | Mahaveer Ashray Hospital | 1 | Globevill, ETA Apartments | 1 | Sri Venkateshwara College of Technology |
| 2 | Jaya Hospital | 2 | Prince Residenzia | 2 | Annai Medical College and Hospital |
| 3 | Sri Devi Hospital | 3 | VGN Brixton | 3 | St. Joseph College of Engineering |
| 4 | Sri Sarada Hospital | 4 | Sterling gateway Apartments | 4 | Kings Engineering College |
| 5 | Pandian Hospital | 5 | Casagrande Arena | 5 | Jeppiaar Maamallan Engineering College |
| 6 | Sri Vasavi Clinic And Pharmacy | 6 | Alliance Villa Belvedere | 6 | Montfort School CBSE Pondhur |
| 7 | Deepika Eye Care Hospital | 7 | Arun Excello Temple Green | 7 | St Joseph's Residential School |
| 8 | Risingsun Medicon Clinic | 8 | Casagrande Futura | 8 | Therasapuram School |
| 9 | Annaii Medical College Hospital | 9 | TVH Svaya | 9 | Vivekananda Vidyalaya |

*Source: Valuers' research*

| | |
|---|---|
| Shape: | Based on the site plan provided by the client and visual inspection during the site visit, it is understood that the underlying land is broadly regular in shape. |
| Topography: | Based on the site plan and as corroborated with our site visit, the site appears to be even and is at the same level as abutting access roads and adjoining assets. |
| Frontage: | Based on review of site plan and visual inspection, we understand that the subject land enjoys a good frontage along the primary access road. |
| Accessibility: | Based on the site plan provided by the client and visual inspection, the primary access to the Subject Asset is via Kundrathur – Sriperumbudur Road (SH-113). By virtue of the same the asset enjoys excellent accessibility and frontage.<br>Please refer Section 7.0 Exhibit & Addendums for the site plan of the Subject Asset. |

### 4.1.2 Review of sale deed or Lease agreement

As per the sanctioned layout plan provided by the client, we understand that the exact address of the Subject Asset is Survey Nos – 3(Pt), 4(Pt), 19(Pt), 20(Pt), 21A(Pt), 23(Pt), 26(Pt), 27(Pt), 28(Pt) of Pillaipakkam Village, Sriperumbudur Taluk, Kancheepuram District. Additionally, it is understood that the Subject Asset is leasehold[3] in nature leased by TVS Infrastructure Private Limited.

### 4.1.3 Title Details

As per the lease deed, we understand that the exact address of the Subject Asset Pillaipakkam Village, Sriperumbudur Taluk, Kancheepuram District. Additionally, it is understood that the Subject Asset is leased by TVS Infrastructure Private Limited.

Further, this valuation exercise is based on the premise that the Subject Asset has a clear title and is free from any encumbrances, disputes, claims, etc. Valuer has not made any inquiries in this regard with the relevant legal/ statutory authorities with the understanding this level of due diligence will be undertaken by the appropriate lawyers and then advised to the Valuer accordingly. We strongly recommend the assumption the asset has a clear title is confirmed before relying on the report.

### 4.1.4 Town Planning

| | |
|---|---|
| Zoning | As per the review of the inputs shared by the client, we understand that the Subject Asset is zoned for "Industrial" Use. The same has been considered for the purpose of this valuation. Valuer has made no further inquiries with the local panchayat or Director of Town and Country Planning in this regard.<br>For the purpose of this exercise, it has been assumed that all developments (existing / under construction / proposed) adhere to building regulations as prescribed by the relevant authorities. Valuer has not validated the information provided by the client with the relevant development authorities. |
| Approved Usage: | The Subject Asset is an under-construction warehousing facility. The current use of the Subject Asset is broadly in agreement with the rules and regulations as prescribed by |

[3] *Ramanujar Industrial & Logistics Parks Private Limited has entered into a 99-year lease with State Industrial Promotion Corporation of Tamil Nadu Limited (SIPCOT) Pillaipakkam on 28th Aug 2023 for the development of Industrial warehouse facility across a land area of 17 acres by paying INR 269.55 Mn towards plot cost and INR 100 towards 100% of the annual lease rent in advance.*

| | |
|---|---|
| | the local development authority. However, Valuer has not made any enquiries with the relevant local panchayat to validate the same for its specific applicability to the Subject Asset. |
| Restrictions: | As per feedback received from the client, there are no other restrictions on the current use of the asset. |
| Natural or induced hazards: | We have not carried out any investigations or tests or been supplied with any information from Client or from any relevant expert that determines the presence or otherwise of pollution or contaminative substances in the Subject Asset or any other land (including any ground water).<br><br>For the purpose of assessing the vulnerability of the Subject Asset to any natural or induced disaster the location of the property with respect to risks pertaining to earthquakes, high winds/cyclone and flooding was studied. Pillaipakkam Village where the Subject Asset is located falls in Seismic Zone II (least active) with low risk. The city faces low risk in terms of high winds or cyclones too given that the subject property falls in elevated area as per the topographic map. No hazardous activity was noted in the vicinity of the Subject Asset which may expose it for any induced disaster. |
| Approvals: | As per the documents shared by client, we understand that the approvals mentioned in section 4.1.5.1 for the asset have been obtained. Please refer annexures for the details.<br><br>For the purpose of this exercise, it has been assumed that all developments adhere to building regulations as prescribed by the relevant authorities. Valuers have not validated the information provided by the client with the relevant development authorities. |

### 4.1.5 Statutory Approvals, Sanctions & Approvals

#### 4.1.5.1 Statutory Approvals received and to be received

As per the review of documents provided by the client, we understand that all requisite approvals have been received for the Subject Asset.

The table below highlights the status of approvals for the Subject Asset:

| Approval/NOC | Status (Applied / Received) | Authority | Date of Issue (DD-MM-YY) |
|---|---|---|---|
| Fire NOC | Received | Fire and Rescue Department | 06-10-2023 |
| Water Supply Approval | Received | SIPCOT Industrial Park, Pillaipakkam | 25-08-2023 |
| Health NOC | Received | Department of Public Health and Preventive Medicine | 27-09-2023 |
| Building Permit/Planning Approval | Received | Director of Town and Country Planning | 01-02-2024 |
| Consent for Establishment – Air & Water | Received | Tamilnadu fPollution Control Board, Coimbatore | 25-09-2023 |

*Source: Approval documents provided by the Client*

#### 4.1.5.2 One-time Sanctions & Periodic Clearances

Please refer section 7.3 on One-time Sanctions & Periodic Clearances

#### 4.1.5.3 List of up to date/overdue periodic clearances

Please note that as on date of valuation, plans and approvals for the under-construction portion viz. 107,000 sft have not been received. However, as discussed with the Client, it is assumed that the approvals would be received for undertaking this development.

### 4.1.6 Area Details, Type and Age of Existing Structures

The table below highlights the under-construction blocks of the Subject Asset:

| Block | Total Area (sft)* | Operational Area (sft)* | Under- Construction Area (sft)* |
|---|---|---|---|
| Block I | 3,51,757 | 3,51,757 | N.A |
| Block II | 1,11,568 | N.A | 1,11,568 |
| Total | 4,63,325 | 3,51,757 | 1,11,568 |

*Source: Client Inputs * Area mentioned is chargeable area.*

The table below highlights the area details of the Subject Asset:

| Block | Leasable area (sft) | Chargeable area (sft) |
|---|---|---|
| Block I | 5,70,765 | 3,51,757 |
| Block II | 1,11,568 | 1,11,568 |
| Total | 6,82,333 | 4,63,325 |

*Source: Lease deed and Client Inputs *The difference in built-up and chargeable area is due to tenant specific negotiations carried out depending upon the requirements of the tenants and the rentals.*

**As per the lease deed and the client inputs the leasable area of Block I is 5,70,765 sft with warehouse area of 3,50,011 sft (with 3,48,557 sft carpet area), canopy area, Security room, switch yard & pole structure, substation, transformer and DG yard, fire pump room, driver's restroom, covered parking area, fire staircase, ramp, fire tank, overhead tank and open area admeasuring 2,20,754 sft. Of this, warehouse, security room, substation, fire pump room & driver's restroom carpet areas have been considered as chargeable area.*

### 4.1.7 Site Services and Finishes

| Particulars | Completed Blocks | Under Construction Blocks |
|---|---|---|
| Handover condition | Warm Shell | Warm Shell |
| Type of Structure | PEB | PEB |
| Firefighting services | Provided. Fire NOC Available | Provided. Fire NOC Available |
| Lift provision | No Lifts | No Lifts |
| Floor Finish | FM2 Concrete floor | FM2 Concrete floor |
| Floor Strength | 5 MT/Sqm | 5 MT/Sqm |

*Source: Information provided by the client, Site visit*

### 4.1.8 Condition & Repair

Based on information provided by the client and corroborated with our visual inspection during the site visit, it is understood that the Subject Asset is currently in the final stages of completion.

### 4.1.9 Asset Photographs

Please refer to the asset photographs highlighted below:

| View of the Subject Asset | View of the access road of the Subject Asset |

### 4.1.10 Details of the asset including whether the transaction is a related party transaction

Please refer to the Annexure section 7.1

### 4.1.11 Nature of the interest the InvIT holds or proposes to hold in the asset, percentage of interest of the InvIT in the asset

Please refer to the Annexure section 7.1

### 4.1.12 Structure of ownership of the asset by the InvIT

Please refer to the Annexure section 7.1

### 4.1.13 Description of key agreements and restrictions relevant to the asset such as terms of concession agreement, power purchase agreements, etc.

Please refer to the Annexure section 7.1

### 4.1.14 Life of the asset (both contractually and physical life requiring maintenance, replacement and right available to extend this life

Please refer to the Annexure section 7.1

### 4.1.15 Valuation of the asset in the previous 3 years

As of the date of this valuation report, the Subject Asset is not part of the Infrastructure Investment Trust (InVIT)

# 5 Valuation Approach & Methodology

## 5.1 Scope of Valuation

The valuation exercise is to assess the Market Value (MV) of the Subject Asset for the purpose of the offer of units through private placement of TVS Infrastructure Trust InvIT under the SEBI (Infrastructure Investment Trust) Regulations, 2014, as amended. The valuations have been conducted in accordance with the IVSC International Valuation Standards, (effective 31 January 2022) and in accordance with the requirements of the SEBI (Infrastructure Investment Trust) Regulations, 2014, as amended from time to time.

This valuer has assessed the Market Value of each individual Subject Asset, not the value of the portfolio, if all Assets were sold in one transaction. Where a summation of the individual Assets is provided, this is purely for reference only and should not be construed as the value of the portfolio. Kindly refer to the summary report section 1.0 for list of Subject Asset forming part of the portfolio.

## 5.2 Basis of Valuation

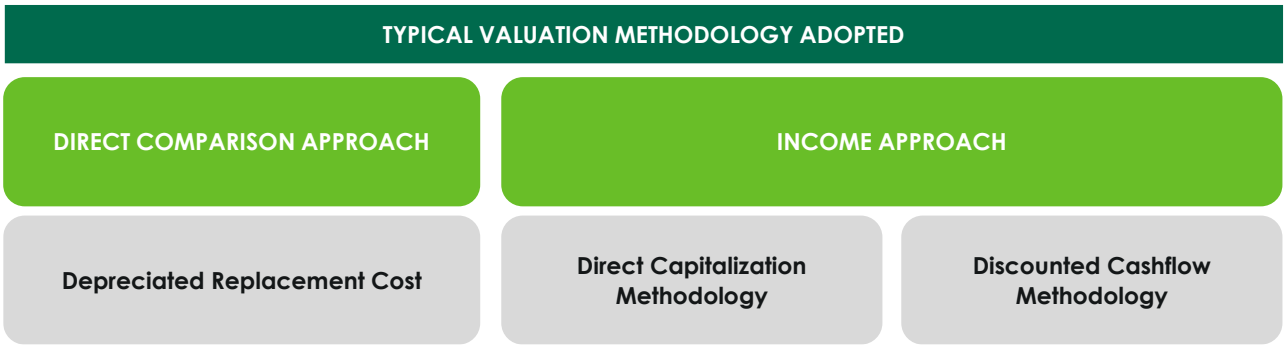
The valuations have been conducted in accordance with the IVSC International Valuation Standards issued in July 2021, effective from 31 January 2022), Regulation 21 and Schedule V of the SEBI (InvIT) Regulations, 2014 and is in compliance with the International Valuation Standards (IVS). The valuation exercise has been undertaken by appropriately qualified Valuer and will be assessing the Market Value of the ownership Interest in the Subject Asset.

As per the Valuation and Guidance Notes issued by the IVS, the market value is defined as:

***'The estimated amount for which a asset or liability should exchange on the valuation date between a willing buyer and a willing seller in an arm's length transaction, after proper marketing and where the*** *parties had each acted knowledgeably, prudently and* ***without compulsion'.***

## 5.3 Approach and Methodology

The purpose of this valuation exercise is to estimate the Market Value (MV) of the Subject Asset. Market Value can be derived through the following Methodologies:



### 5.3.1 Direct Comparison Approach

Under the 'Direct Comparison Approach', the asset is compared to similar Assets that have actually been sold in an arms-length transaction or are offered for sale (after deducting for value of built-up structure located thereon). The comparable evidence gathered during research is adjusted for premiums and discounts based on asset specific attributes to reflect the underlying value of the asset.

The value of the land component under this approach has been assessed based on comparison with similar Assets that have actually been sold in arms-length transaction or are offered for sale in the subject micromarket.

Based on our interactions with the local market players, we understand that the market has few Assets of comparable sizes which are currently available for sale in the market. Therefore, the value of the subject land parcel has been estimated through a direct comparison approach utilizing the seller quotes available in the market as well as few reported transactions.

The values for these comparable Assets are further adjusted for various premiums and discounts (viz. towards size, location, accessibility, frontage, visibility, ownership status, profile of the surrounding developments, zoning, etc.) vis-à-vis the Subject Asset to determine the achievable market value for the Subject Asset.

Based on the market research undertaken, it is understood that the capital values for land parcels in the subject micromarket are primarily governed by parameters which are as follows:

- Location & profile of surrounding developments – Based on our market study, it was identified that land parcels located in proximity to highway would command higher capital values in comparison to the land parcels located further away on internal village roads. In addition, based on our interactions with local market players, we understand that the land parcels located in proximity to existing village catchments command higher capital values as compared to those located further away from the existing village catchments.
- Size of the land parcel – Based on our interactions with the local market players, it was understood that the small-medium sized land parcels (approx. 1 – 5 acres) attract almost negligible discount on account of lesser quantum of investment involved and a shorter marketing timeframe required for disposal of such land parcels.
- Accessibility, frontage and visibility – Based on our market research, it was observed that the land parcels having superior frontage along the access road or by virtue of it being a two side or a three-side corner plot would command a premium vis-à-vis the other Assets. Further, it was observed that the Assets located on wider access roads command premium vis-à-vis Assets located along narrow access roads.
- Zoning and requisite clearances - Based on our market research, it was observed that the land parcels with industrial / multipurpose / residential use zoning would command a premium in comparison to the land parcels under agricultural use /conservation zone. Further, we understand that the land parcels with the requisite clearances in place such as NALA (Non-Agricultural Land Assessment) conversions, etc. command a premium over the agricultural land parcels.
- Physical conditions of the asset/ownership - Based on our market research, it was observed that the land parcels with site improvements such as compound wall, bore well, etc. command a premium. In addition, Assets with single owner would attract a premium as compared to the Assets with multiple owners.

### 5.3.2 Income Approach

The income approach is based on the premise that value of an income - producing asset is a function of future benefits and income derived from that asset. There are two commonly used methods of the income approach in real estate valuation namely, direct capitalization and discounted cash flow (DCF).

A. Direct Capitalization Method

Direct capitalization involves capitalizing a 'normalized' single - year net income estimated by an appropriate yield. This approach is best utilized with stable revenue producing assets, whereby there is little volatility in the net annual income.

B. Discounted Cash Flow Method

A Discounted Cash Flow Analysis is based upon estimates of future financial performance. The methodology begins with a set of assumptions regarding income and expenses of the Asset and future economic conditions in the local market. The income and expense figures are asseted with adjustments for estimated changes in economic conditions and any contractual commitments. The resultant value is considered the best estimate but is not to be construed as a prediction or guarantee and is fully dependent upon the reasonableness of the assumptions with respect to income, expenses, and market conditions, which are based on information available as at the valuation date.

## 5.4 Approach and Methodology Adopted

Considering the objective of this exercise, the nature of asset involved and the purpose of the valuation viz. to assess the Market Value (MV) of the Subject Asset for the purpose of the offer of units through private placement of TVS Infrastructure Trust InvIT under the SEBI (Infrastructure Investment Trust) Regulations, 2014 'Regulation', we have adopted the methodology considering Chapter 1 section 2 point (i) of the InvIT regulation, which states that, the assets forming part of InvIT should meet among the below criteria as follow:

1. The infrastructure asset has achieved the commercial operations date as defined under the relevant asset agreement including concession agreement, power purchase agreement or any other agreement of a similar nature entered into in relation to the operation of the asset or in any agreement entered into with the lenders
2. The infrastructure asset has received all the requisite approvals and certifications for commencing operations
3. The infrastructure asset has been generating revenue from operations for a period of not less than one year

Hence owing to the above stated conditions, we are of the opinion that the income approach which is appropriate to value such asset based on the premise that value of an income - producing asset is a function of future benefits and income derived from that asset.

Under the Income approach, Discounted Cash Flow Analysis is based upon estimates of future financial performance which also considers the income and expenses of the Asset accounting for the future fluctuations due to expected market dynamics.

Hence, for the purpose of this valuation exercise, we have adopted Discounted Cash Flow Method (using rent reversion approach).

For the purpose of this valuation exercise, we have analysed the tenancy details provided by the Client to identify variances vis-à-vis prevailing marginal rent. In the event the contracted rent is within the threshold (15.0%), we have assumed that the tenant will continue on the current agreed terms. In the event the rent is higher than the marginal rent threshold, we have assumed that the lease would be renegotiated to marginal rent terms (at the time of the lock-in expiry, next escalation, etc.).

Asset-specific Review:

1. As the first step to the valuation of the asset, the lease deeds were reviewed to identify tenancy characteristics with respect to contractual commitments and commercial covenants.
2. Title documents and architect certificates were reviewed for validation of area details, ownership of the asset.
3. The Valuer has undertaken physical site inspections to assess the status of the Subject Asset in terms of their physical configuration, capacity and upkeep.

Micromarket Review/Market Rental Assessment:

Pillaipakkam micromarket is one of the emerging warehousing/industrial markets in Chennai. It comprises of industrial area promoted by SIPCOT (leasehold Assets) as well as non-SIPCOT industrial zoned areas (freehold Assets). Almost 99% of the SIPCOT land has been allotment and some of them are operational. Activity in SIPCOT Pillaipakkam is primarily characterized by auto manufacturing (OEMs), Electrical Manufacturing, MSMEs with small scale manufacturing facilities, etc. Some of the major giants like Hyundai, BMW, Yamaha Motors, Saint Gobain Jabil, Mitsubishi have their manufacturing facilities in Sriperumbudur which is directly accessible from Pillaipakkam.

A primary research exercise has been carried out in the catchment area to ascertain the prevalent activity levels in terms of quoted / transacted evidence of the recent leasing activity for warehousing facility. This has been achieved through interactions with various market players such as local real estate brokers, developers, owners, etc. Based on the same, we understand that variance across rentals is primarily due to factors such as type of asset, developer brand, location, accessibility, overall tenant mix, quantum of vacant stock in the development, specifications, and additional improvements, etc.

For the micromarket review and market rental assessment we have relied upon the report on 'Market Analysis of Warehousing assets in Identified locations pan India' prepared by CBRE South Asia Private Limited, hereafter referred as 'CBRE' (an independent agency appointed by the Client to undertake market research, provide market summary and data for the purpose of this assignment)

Cash Flow Assertions:

We have assessed future cash flows from the Subject Asset based on existing lease terms and contractual lease payments for the operational area until the expiry of the leases or re-negotiation (using the variance analysis), whichever is earlier.

Based on a detailed review of the leases for the Subject Asset, we noted that it is approx. 100% leased out (pre-committed) as on date of valuation (pre-commitment). Since the real estate industry is dynamic and is influenced by various factors (such as existing supply, tenants looking at spaces, quality of spaces available in the market, overall health of the economy, existing rent, future growth plans, etc.) at a particular point in time, negotiated rent may tend to move away from the prevalent market rent over a period of time. It has also been witnessed that the market rent for some Assets or micromarkets increase or decrease at a rate significantly different from those agreed to in initial leases. These factors reinforce the need to review each of these leases in isolation to assess the intrinsic value of the asset under review.

Post this, the lease terms have been aligned with market rentals. For vacant area and under-construction/proposed area, the Valuer has asserted the market rent led cash flows factoring appropriate lease-up time frame for vacant/under-construction/proposed area. These cash flows have been asserted for 10-year duration from the date of valuation and for 11th year (for assessment of terminal value). These future financial benefits are then discounted to a present-day value (valuation date) at an appropriate discount rate.

## 5.5 Information Sources for Valuation

Asset related information referred to for the valuation exercise have been provided by the Client unless otherwise mentioned. We have assumed the documents to be a true copy of the original. The rent rolls have been cross-checked with the lease deeds on a sample basis to verify the authenticity. Additionally, wherever possible, we have independently revalidated the information by reviewing the originals as provided by the Client.

Table below highlights various data points referred throughout the course of this valuation report and the data sources for the same:

Table below highlights various data points referred throughout the course of this valuation report and the data sources for the same. Asset related documents referred to in the table below have been provided to the Valuer by the Client unless otherwise mentioned. The Valuer have assumed the documents to be a true copy of the original.

# 6 Value Assessment

## 6.1 Value Assessment

### 6.1.1 Adopted Methodology

We acknowledge that the approaches to valuation differ considerably and that for a particular purpose, alternative approaches to the valuation can be utilized. Considering the objective of this exercise and the nature of asset involved, the value of the Subject Asset has been assessed through the following approaches:

| Asset Name | Valuation Methodology (Completed Blocks) | Valuation Methodology (Under-construction Blocks) |
|---|---|---|
| Pillaipakkam Park | N.A. | Discounted Cash Flow (Using rent reversion approach) |

The sections below highlight the detailed valuation workings for the Subject Asset.

## 6.2 Operational Assumptions

### 6.2.1 Area statement

Based on information from inputs shared by the client, we understand that Subject Asset is an under-construction warehousing facility. Further, the table below highlights the area configuration of the Subject Asset:

| Block | Total Area (sft)[4] | Operational Area (sft)* | Under- Construction Area (sft)* |
|---|---|---|---|
| Block I | 3,51,757 | 3,51,757 | N.A |
| Block II | 1,11,568 | N.A | 1,11,568 |
| Total | 4,63,325 | 3,51,757 | 1,11,568 |

*Source: Client Inputs*Area mentioned in chargeable area*

| Tenant | Leased Area (sft)* | % of area leased | Total In-place rental (INR psf pm) | Total In-place rental (INR Mn pm) |
|---|---|---|---|---|
| Pillaipakkam Park | 4,63,325 | 77% | 25.7 | 9.04 |

*Source: Lease deed*Area mentioned in chargeable area*

[4] *As per the details provided by the client, the rental revenue has been calculated and other analysis are performed on chargeable area. Further, leasable area mentioned is in accordance with the information shared by the Client comprising rent rolls and lease agreements.*

## 6.3 Tenancy Analysis

### 6.3.1 Historical Occupancy Rates

The table below highlights the historical occupancy rates at the subject development:

| Particulars | Occupancy % |
|---|---|
| Occupancy (Completed blocks) | 100% |
| Pre-Commitment(Under-construction blocks) | N.A. |

*Source: Information provided by the client;*

### 6.3.2 Lease Rent Analysis

Based on the review of the Lease Deed provided by the client, we understand that the lease agreements were signed between TVS infrastructure Pvt ltd and the tenants, details of which are mentioned below:

| Tenant | Particulars | Details |
|---|---|---|
| Manufacturing Company | Lease Commencement Date | 01st August 2024 |
| | Rent Commencement Date | 16th October 2024 |
| | Lock-in Period | 5 Years |
| | Lease Tenure/ Remaining Tenure | 10/10 Years |
| | Lease Rent Escalation Terms | 4% every year |

*Source: Lease Deed and client Inputs*

### 6.3.3 Lease Expiry Profile

The Weighted Average Lease Expiry (WALE) of the Subject Asset is 9.88 years, manufacturing company occupying the entire block. The lease expiry for the same is in FY 2034.

### 6.3.4 Tenant Obligations

Based on the review of the lease deed, we understand that the operational expenses listed below will have to be borne by the Tenant.

| S. No | Description of operational expenses |
|---|---|
| 1 | Regular Maintenance |
| 2 | Taxes |
| 3 | Insurance |
| 4 | General Wear and Tear |
| 5 | Other Expenses such as utility charges towards any Governmental authorities or Concerned service provider. |

*Source: Client Inputs*

Contractual Rental Details

| Tenant | Leased Area (sft) | % of area leased | Total In-place rental (INR psf pm) | Total In-place rental (INR Mn pm) |
|---|---|---|---|---|
| Pillaipakkam Park | 3,51,757 | 100% | 25.7 | 9.04 |

*Source: Leased Deed and Information provided by the client *Area considered is chargeable Area ^pre-committed area.*

Based on the recent transaction witnessed in the micro market as highlighted in the table above and transaction witnessed in the Subject Asset, we understand that the Subject Asset would command a marginal rental (for warehouse space) of INR 22.0 – 24.0 per sf per month (say an average rental of INR 23.0 per sf per month of leasable area).

### 6.3.5 Construction Timelines

#### 6.3.5.1 Completed Blocks

The asset was completed in a phase-wise manner with Block 1 completed and operationalised during Q4 2024

#### 6.3.5.2 Under-Construction/ Proposed Blocks

Based on visual inspection during the site visit and information provided by the client, the following timelines for construction have been adopted for the purpose of this valuation exercise.

| Block | Leasable/ Developable Area (msf) | Construction Commencement | Construction Completion |
|---|---|---|---|
| Block II | 1,11,568 | Q1, 2025 | Q2, 2025 |

*Source: Leased Deed and Information provided by the client *Area considered is chargeable Area*

### 6.3.6 Absorption/ Leasing Velocity and Occupancy Profile

#### 6.3.6.1 Completed Blocks

As per the rent roll provided by the client, we understand that the competed blocks have an occupancy of 100% as on date of valuation. Further, in order to arrive at the future absorption levels at the Subject Asset, we have analysed the historical demand and supply trends coupled with the estimation of future supply proposed to be introduced in the subject micromarket.

#### 6.3.6.2 Under-Construction/ Proposed Blocks

As per the rent roll provided by the client, we understand that the under-construction block hasn't been occupied as on date of valuation and the same is expected to occupy by Q2, 2025.

### 6.3.7 Revenue Assumptions (Warehouse + Industrial)

#### 6.3.7.1 Warehouse Component

For the purpose of this valuation exercise, the lease rent adopted for the area already leased is based on the rent roll/lease deeds shared by the client. Further, the Valuer have undertaken an in-depth market research exercise to assess the prevailing rent values in the subject micromarket. The same has been adopted for the vacant space for the purpose of this valuation exercise.

Based on our market study and based on the analysis of the rent roll provided by the client, following rent has been adopted for the purpose of value assessment of the completed blocks at the Subject Asset. The detailed rent assessment workings are highlighted in the lease rent analysis section presented above.

| Component | Leasable Area (sft) | Chargeable Area (sft) | Basis | Rent Adopted* (INR psf pm) |
|---|---|---|---|---|
| Warehouse | 6,77,765 | 4,58,757 | Current Rent for Leased area | 25.7^ |
| | | | Market rent for reversion/ vacant area | 23.0* |

*Source: Lease deed provided by the client; Valuer's assessment ^ rentals of manufacturing company; * marginal rentals arrived considering the tenant specific improvements..*

The above market rent assumption is adopted for the entire subject development. In addition to undertaking an in-depth market analysis, a detailed analysis of the rent rolls was also undertaken to understand aspects such as area occupied, current rent and expiry analysis of the key tenants in the park.

For the purpose of this valuation exercise, the lease rent adopted for the area already leased is based on the lease deed shared by the client. Further, an in-depth market research exercise has been undertaken to assess the expected economic rental value of the Subject Asset.

Based on our market study, we understand that the contracted rental of the Subject Asset is in line with the expected economic rental values. Hence, we have considered contracted rentals for the purpose of value assessment at the Subject Asset:

### 6.3.8 Rent Escalation

Based on an analysis of existing lease rolls and recent leasing at the Subject Asset, it was observed that the typical escalation clause in the Subject Asset is approx. 5.0% every year, which is in-line with the trend observed in the market. The same has been adopted for the renewals at the Subject Asset.

Escalation on renewal - Based on the analysis of terms of lease deed, it was observed that the typical escalation clause in the Subject Asset is 5% per annum, which is in-line with the trend observed in the market. The same has been adopted by the Valuer.

| Particulars | Unit | Details |
|---|---|---|
| Lease Rental Escalations | % p.a. | 5.0% |

*Source: Valuer's assessment*

Market Rent Escalation - Based on the trend observed in the market and based on review of the Industry Assessment report, the valuer has considered a market escalation of 5% per annum effective from the date of valuation. The assumption for market rent for this appraisal exercise is as follows:

| Particulars | Sept 2024 | March 2025 | March 2026 | March 2027 Onwards |
|---|---|---|---|---|
| Market Rent Escalation – Completed Portion | 26.6 | 27.93 | 29.33 | 5% escalation year on year |
| Market Rent Escalation – UC Portion | 23 | 24.15 | 25.36 | 5% escalation year on year |

*Source: Valuer's assessment*

### 6.3.9 Other Revenues

In addition to lease rent revenues, assets typically have additional sources of revenue. These include revenues on account of security deposit (refunded at the time of lease expiry / exit), other miscellaneous income etc.

The assumptions considered for the aforementioned revenue heads for the purpose of this valuation exercise are based on the rent roll & lease deeds provided by the client. The same has been cross-checked with the prevailing market norms for other revenues and were found to be broadly in line.

The assumptions adopted for other revenues are as tabulated below:

| Nature of Income | Details | Units |
|---|---|---|
| Security Deposit ( For vacant spaces) | 6.0 | No. of months' warm shell rental |
| CAM Income (For vacant area and Development component) | 1.0 | INR per sft per month |
| Other Income (For vacant area and Development component) | N.A | INR per sft per month |

*Source: Valuer's assessment*

### 6.3.10 Capital Expenditure

#### 6.3.10.1 Development Cost

The following table highlights the assumptions towards the development cost for the under-construction/proposed blocks at the subject development:

| Block | Total Cost of Construction (INR Mn) | Pending Cost to be Spent (INR Mn) |
|---|---|---|
| Under Construction Blocks | 196 | 164 |

*Source: Client Inputs.*

Based on review of the data provided by the client, we understand that the all-inclusive cost budgeted for the development component of the Subject Asset (Block 2 with 107,000 sft leasable area) was observed to be in the range of INR 1,800 psft – INR 2,000 psft on the leasable area. This was observed to be broadly in-line with the all-inclusive costs (Hard and Soft costs) observed for Assets of similar scale and grade in an around the subject micromarket.

Based on the information provided by the client, we understand that there were tenant specific improvements which are included in the construction cost. The same has been considered for the purpose of this valuation.

#### 6.3.10.2 Major Repair and improvements

As per information provided by the client, we understand that there are no major repairs and improvement proposed in the said asset.

### 6.3.11 Operating Cost

An Asset typically has few recurring operation expenses required for the upkeep running of the development.

In addition to capital expenditure, an asset typically has few recurring operational expenses required for the up-keep and running of the asset. Based on information provided by the client and market assessment, following recurring expense assumptions have been adopted for the purpose of this valuation exercise.

Completed Blocks

| Nature of Expense | Details |
|---|---|
| Asset Management Fee^ | 3.0% of rental income |
| Property Tax* | INR 0.17 Mn |
| Insurance* | INR 0.26 Mn |
| Vacancy Allowance during operations | 1.0% |
| Vacancy Allowance on Exit | 2.5% |
| Refurbishment Reserve | 1.5% of rental income |
| Repair Margin | 0.5% of rental income |

*Source: Client input; Valuer's assessment; *As per the lease terms and the information provided by the client, Asset tax and insurance are to be borne by the client; ^fees has been considered as below the NOI line item.*

Under- Construction Blocks

| Nature of Expense | Details |
|---|---|
| Asset Management Fee^ | 3.0% of rental income |
| Property Tax* | INR 0.1 Mn |
| Insurance* | INR 0.08 Mn |
| Vacancy Allowance during operations | 1.0% |
| Vacancy Allowance on Exit | 2.5% |
| Refurbishment Reserve | 1.5% of rental income |
| Repair Margin | 0.5% of rental income |

*Source: Client input; Valuer's assessment; *As per the lease terms and the information provided by the client, Asset tax and insurance are to be borne by the client; ^fees has been considered as below the NOI line item*

### 6.3.12 Other Assumptions

#### 6.3.12.1 Vacancy provision

Based on review of the rent roll provided, we understand that that the completed portion of the Subject Asset is substantially occupied with significantly long lease periods. Considering the same alongside other asset level parameters (location, amenities, grade, infrastructure etc) and market benchmarks, the valuer has adopted a vacancy provision as follows:

| Description | Under-Construction Blocks |
|---|---|
| Vacancy Provision | During Operations – 1.0%<br>Assessment at the time of exit – 2.5% |

*Source: Valuer's assessment*

#### 6.3.12.2 Revenue escalation

Based on prevailing market condition, historical rent growth achieved by the Subject Asset and our interactions with market participants, we are of the opinion that the annual marginal rent growth of 5.0% has been considered for the FY 2024 and year on year thereafter.

#### 6.3.12.3 Rent-free period

Based on the rent roll provided by the client, it is understood that the existing leases have a rent-free period ranging from 0.5 months to 1.5 months from the lease-commencement date. Also, based on recent market trends in the subject micro market, we have considered a rent-free period of 1 months for new-leases and for re-leasing effective from the lease commencement date.

#### 6.3.12.4 Brokerage

Based on prevalent market dynamics, we have considered brokerage equivalent to 0.4 month of rental income for future / new leases.

#### 6.3.12.5 CAM Cashflows

CAM Cashflows for the Subject Asset have been assessed both during the holding period and at the time of notional exit. Margin on CAM and CAM Recoveries are included in the financials as per the CAM Charge based on historical performance of the Subject Asset as per the inputs provided by the client and market benchmarks. The same is a pass-through expense.

Based on the subsequent information provided by the client, we understand that the 100% of the CAM Income would be received by the client entity/ InvIT entity and 100% of the CAM Expense would be borne by SPV.

## 6.4 Financial Assumptions

### 6.4.1 Exit Capitalization Rate Adopted

The capitalization rate adopted for valuing the assets has been based on factors such as:

- Historical entry yields (going in cap rates) for yield/ core warehousing asset transactions across various key markets in India have steadily shown a downward trend over last 7 - 8 years from 10.0- 12.0% to about 7.0% - 8.5% in last 1-2 years.
- The increased appetite for income producing assets and availability of various modes of finance (real estate credit flows) backing such acquisitions.
- Yields for warehousing assets across various markets in India have a range of 7.5 – 8.5% in Tier I locations, with Tier II locations having cap rate approx. 50 – 100 bps on the higher vis-a-vis the Tier I location.
- Liquidity associated with InvIT listed/ public listings (multiplicity of buyers and relatively lower budgets per buyer)

Based on the above highlighted attributes, the following cap rate has been adopted for the purpose of our valuation:

| Asset Name | SPV/Hold Co | Status of the Asset | Details |
|---|---|---|---|
| Pillaipakkam Park | Ramanujar Industrial & Logistics Parks Private Limited | Completed | 7.75% |
| | | Under-Construction | 7.75% |

*Source: Valuer's assessment*

### 6.4.2 Discount Rate Adopted

For discounting the cash flows, an appropriate discount rate has been calculated on the basis of estimated 'Weighted Average Cost of Capital' (WACC).

### 6.4.3 Cost of Equity

The Valuer has computed the cost of equity as per the Capital Asset Pricing Model (CAPM), which is derived as follows:

Cost of equity = Risk Free Rate (Rf) + Beta (**β**) * (Market Return (Rm) **–** Risk Free Rate (Rf))

As mentioned above, the cost of equity computed using CAPM constitutes of the following components:

- Risk free rate (Rf) i.e., long term (10-year) treasury bond rate in India
- Market return (Rm) based on the returns of Sensex index for the past 10 years
- Computation of 'Beta (β)' of key listed realty stocks and REITs/ InvITs in India with respect to the Broad-Based BSE 500 stock index

The cost of equity adopted for specific assets has been adjusted for market/ asset specific risk pertaining to a real estate asset such as execution risk (construction status), marketing risk, etc. and adjusted for taxation. While the assumptions regarding the quantum of these risks have no quantitative basis, we have adopted them based on our understanding of the market and our opinion on the asset performance.

### 6.4.4 Cost of Debt

Completed Blocks

The cost of debt for competed assets has been considered based on prevalent Lease Rental Discounting (LRD) rates for Grade A warehousing developments across the Pillaipakkam-Sriperumbadur micromarkets which are in the range of 7.0% – 9.0% depending upon the location, asset quality, occupancy, etc.

Under Construction/ Proposed Blocks

For under construction/ proposed blocks, the cost of debt has been considered based on prevalent Construction Finance (CF) rates for warehousing facilities parks across Chennai which are in the range of 10.0% – 12.0% depending upon the location, asset quality, developer reputation and credit profile, etc.

### 6.4.5 Weighted Average Cost of Capital (WACC)

As highlighted earlier, the cost of debt has been assumed based on the prevalent LRD rates and construction financing for under-construction assets, while the cost of equity assumed has been adjusted for asset and market specific attributes to reflect the market expectations from an operational institutional development. Further, the proportion of debt and equity has been derived considering the prevalent LRD tenures and its contribution in the overall asset value.

Completed Blocks

Based on above, the following WACC rate has been assumed for the completed assets forming part of the InvIT portfolio:

| Asset Name | SPV/Hold Co | Particular | Proportion | Cost | WACC |
|---|---|---|---|---|---|
| Pillaipakkam Park | Ramanujar Industrial & Logistics Parks Private Limited | Debt | 35.0% | 8.0% | 11.58% |
| | | Equity | 65.0% | 13.5% | |

*Source: Valuer's assessment; Please note that the cash flows are assumed to realize evenly during the course of every quarter; hence a mid-quarter discounting convention has been adopted for the purpose of this valuation. Additionally, we have not factored any cash flows attributable to working capital requirement/expenses for valuation as the same is immaterial.*

Under-Construction Blocks

| Asset Name | SPV/Hold Co | Particular | Proportion | Cost | WACC |
|---|---|---|---|---|---|
| Pillaipakkam Park | Ramanujar Industrial & Logistics Parks Private Limited | Debt | 45.0% | 9.50% | 12.80% |
| | | Equity | 55.0% | 15.5% | |

*Source: Valuer's assessment; Please note that the cash flows are assumed to realize evenly during the course of every quarter; hence a mid-quarter discounting convention has been adopted for the purpose of this valuation. Additionally, we have not factored any cash flows attributable to working capital requirement/expenses for valuation as the same is immaterial.*

## 6.5 Value of the Subject Asset

The Valuer is of the opinion that subject to the overriding stipulations contained within the body of this report and to there being no onerous restrictions or unusual encumbrances of which he has no knowledge, the opinion of value of the complete ownership interest in the Subject property comprising land and improvements thereon, as explained above, as on 30th September 2024 is as follows:

| Asset Name | Component | Market Value (INR Mn) |
|---|---|---|
| Pillaipakkam Park | Completed | 1,556.7 |
| | Under - Construction | 223.4 |
| Total Value of the asset | | 1,780.2 |

*Source: Valuer's assessment*

# 7 Exhibits and Addendums

## 7.1 Other Mandatory Disclosures

### 7.1.1 Details of On-going material litigations including tax disputes in relation to the assets

As per our interaction with the Client, the Client has confirmed that there are no material litigation details pertaining to the asset. Please note that the Valuer has not investigated nor has been provided with any supporting documents.

Please refer to the section on litigations in the draft Offer Document for details on material litigations for various assets.

### 7.1.2 Details of options or rights of pre-emption and other encumbrances

As per our interaction with the Client and our scope of services, please note that the Valuer has not investigated nor has been provided with any supporting documents.

Please refer to the section on litigations in the draft Offer Document for details on material litigations for various assets

### 7.1.3 Vulnerability to natural or induced hazards that may not have been covered in town planning/ building control.

As per our interaction with the Client, the Client has confirmed that there are no vulnerabilities pertaining to the asset. Please note that the Valuer has not investigated nor has been provided with any supporting documents.

Also, in our professional judgment based on site inspection, there were no visible vulnerabilities.

### 7.1.4 Details of Revenue Pendencies including local authority taxes associated with InvIT asset and compounding.

As per our interaction with the Client, the Client has confirmed that there is no revenue pendency to the asset. Please note that the Valuer has not investigated nor has been provided with any supporting documents.

Please refer to the section on litigations in the draft Offer Document for details on material litigations for various assets.

Our assessment is under the assumption the asset has a clear title and is free from any encumbrances, disputes, claims that would affect the value. This should be verified by an asset lawyer prior to relying on this valuation.

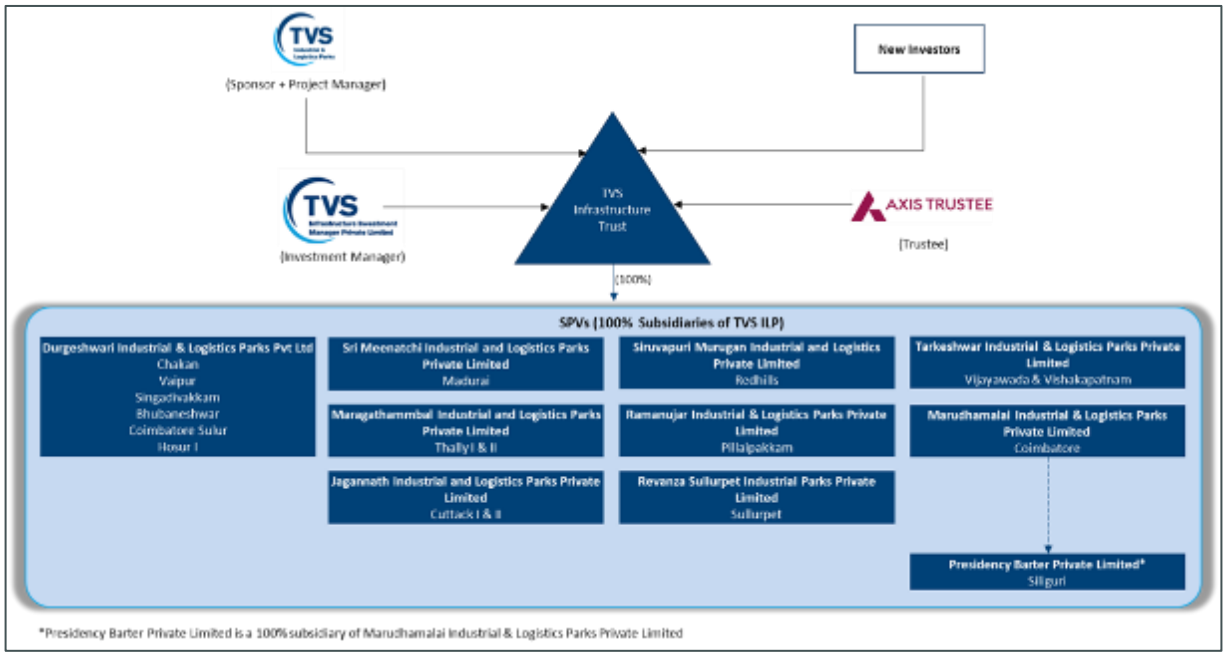
### 7.1.5 Details of the asset including whether the transaction is a related party transaction

The asset is proposed to be acquired from the Sponsor, which is identified as related party under SEBI (InviT) Regulations

### 7.1.6 Nature of the interest the InvIT holds or proposes to hold in the asset, percentage of interest of the InvIT in the asset

As per our interaction with the Client, the Client has confirmed that 100% to be help by the InvIT.

### 7.1.7 Structure of ownership of the asset by the InvIT



### 7.1.8 Description of key agreements and restrictions relevant to the asset such as terms of concession agreement, power purchase agreements, etc.

As per our interaction with the Client, the Client has confirmed that the same is not applicable to their business.

### 7.1.9 Life of the asset (both contractually and physical life requiring maintenance, replacement and right available to extend this life

| S. No | Particulars | Details |
|---|---|---|
| 1 | Remaining Physical Life of the Building asset requiring maintenance | Remaining period of Building is 29.9 years |
| 2 | Remaining Contractual Life of underlying Land | Perpetual, since the lease is for 99 years for the underlying land. |
| 3 | Right to extend the contractual life of land | Subject property is a leasehold land parcel allotted by SIPCOT (Tamil Nadu Government Institution). Please note that the lease is a perpetual lease (99 year lease). |

**"Legal Notice and Disclaimer"**

This valuation report (the "Report") has been prepared by iVAS Partners. ("iVAS") exclusively for TVS Industrial & Logistics Parks Private Limited (the "Instructing Party" or "Client"), in accordance with the Agreement entered into between iVAS and the Instructing Party dated 1st February 2024 (the "Agreement"). The Report is confidential to the Instructing Party and any other addressees named herein and the Instructing Party and the addressees may not disclose the Report unless expressly permitted to do so under the Agreement.

Where iVAS has expressly agreed that persons other than the Instructing Party or the Addressees can rely upon the Report (a "Reliant Party" or "Reliant Parties") then iVAS shall have no greater liability to any Reliant Party than it would have if such party had been named as a joint Client under the Agreement.

iVAS's maximum aggregate liability to the Instructing Party and to any Reliant Parties howsoever arising under, in connection with or pursuant to this Report and/or the Agreement together, whether in contract, tort, negligence or otherwise shall be limited as defined under the terms of the Agreement.

iVAS shall not be liable for any indirect, special or consequential loss or damage howsoever caused, whether in contract, tort, negligence or otherwise, arising from or in connection with this Report. Nothing in this Report shall exclude liability which cannot be excluded by law.

If you are neither the Instructing Party, an Addressee nor a Reliant Party then you are viewing this Report on a non-reliance basis and for informational purposes only. You may not rely on the Report for any purpose whatsoever and iVAS shall not be liable for any loss or damage you may suffer (whether direct, indirect or consequential) as a result of unauthorized use of or reliance on this Report. iVAS gives no undertaking to provide any additional information or correct any inaccuracies in the Report.

For the avoidance of doubt, nothing in our Report will constitute any recommendation, investment advice or an offer or solicitation for the purpose of or for sale of any securities, financial instrument or products or other services. Any investors should make their own investment decisions in relation to any investments. If you do not understand this legal notice, then it is recommended that you seek independent legal advice.

# 1 Executive Summary

| | |
|---|---|
| Asset Name: | Siliguri Park (the "Subject Asset") |
| Asset Address: | Shilpobroto Industrial Park, Jotiakali, Siliguri 734015, District: Jalpaiguri |
| Instructing Party: | TVS Industrial & Logistics Parks Private Limited (the "Client") |
| SPV Name: | Presidency Barter Private Limited |
| Interest Valued: | As per the Title Search Report shared by the Client, out of the total land parcel admeasuring approx. 5.66 acres, it is understood that approx. 4.3 acres of land is freehold and the remaining approx. 1.3 acres of land is leasehold. The same has been considered for the purpose of this valuation. |
| Land Area: | As per the review of the sanctioned layout provided by the Client, it is understood that the total land underlying area is approx. 5.66 acres. |
| Brief Description: | Based on the review of sanctioned layout shared by the Client and subsequent site visit undertaken, it is understood that the Subject Asset is an operational Industrial warehouse/logistics park, located along the Border Road 607.<br><br>The Subject Asset 'Siliguri Park' is a warehousing facility. The asset is located along Border Road 607, a prominent arterial road in the city. The warehousing corridor extends from Fulbari, an establishment warehousing vector of Siliguri. By virtue of being located along Border Road 607 and in proximity to other prominent arterial roads in the region such as NH 27, etc., the asset enjoys excellent connectivity to other parts of Siliguri. Some of the prominent warehousing assets in the micromarket include Subject Asset, KD Logistics (Mondelez), Delhivery, etc.<br><br>Further, based on the information provided by the Client, the area details of the asset are as follows: |

| Particulars | Leasable area (sft) | Chargeable area (sft) |
|---|---|---|
| Phase I | 89,972 | 89,972 |
| Phase II | 50,502 | 50,502 |
| Total Area | 140,474 | 140,474 |

Valuer Declaration:

i. the valuer is competent to undertake the valuation
ii. the valuer is independent and has prepared the report on a fair and unbiased basis
iii. The valuer has valued the assets based on the valuation standards as specified under sub-regulation 10 of regulation 21

Prepared by:

iVAS Partners
Valuer Registration Number: IBBI/RV-E/02/2020/112

Official Signatory:

Name: Mr. Shubhendu Saha
Designation: Partner, iVAS Partners
Valuer Registration Number: IBBI/RV/05/2019/11552

# 2 Instruction

iVAS Partners (Valuer Registration Number: IBBI/RV-E/02/2020/112; hereinafter referred as 'Valuer') represented by its partner Mr. Shubhendu Saha, a registered valuer under the Companies Act 2013 with IBBI (Valuer Registration Number: IBBI/RV/05/2019/11552) has been instructed by TVS Industrial & Logistics Parks Private Limited (hereinafter referred as the "Instructing Party", or the "Client" or the "Sponsor") in its capacity as Sponsor of the TVS Infrastructure Trust to estimate the Market Value (MV) of an operational Warehousing asset located along Border Road 608, Siliguri, West Bengal.

Based on information provided by the Client's representative, we understand that the underlying land parcel of the Subject Asset admeasures approx. 5.66 acres with a total leasable area and chargeable area admeasuring approx. 140,474 sft.

iVAS Partners ('the Valuer') utilized the deliverables of CBRE South Asia Private Limited (CBRE), an independent agency appointed by the Client to undertake market research, provide market commentary, and data for the purpose of this assignment. The Valuer has utilized the market intelligence provided by CBRE to arrive at the Market Value of the respective assets as per the Securities and Exchange Board of India (Infrastructure Investment Trust) Regulations, 2014 ("SEBI (InvIT) Regulations 2014") and amended to date.

The details of the Subject Asset under the purview of this valuation exercise are tabulated below:

| Asset Name | SPV/Hold Co | Asset Type | Location | Land area | No. of Blocks |
|---|---|---|---|---|---|
| Siliguri Park | Presidency Barter Private Limited | Warehouse | Siliguri | 5.66 acres | 1 (2 Phases) |

*Source: Client Inputs*

Further, valuation has been undertaken to ascertain the market value of the Subject Assets forming part of the proposed TVS Infrastructure Trust as of the valuation date. The valuer has estimated the market value of each individual asset, not the value of the portfolio of Assets (if sold in one transaction) or SPV/ Holding company.

*For clarity, we are valuing the Property/ Asset only, not the SPV/Hold Co, which has been provided for reference only*

## 2.1 Purpose

As per our instructions the valuation is required by the Client for a proposed offer of units through private placement (the "Private Placement") as defined under the Securities and Exchange Board of India (Infrastructure Investment Trust) Regulations, 2014, as amended, together with clarifications, guidelines and notifications issued thereunder, on the Indian stock exchanges. In relation to the Private Placement, the Valuation report, a summary thereof and/or extracts of the report are intended to be included in the offer documents filed by the TVS Infrastructure Trust with the Securities and Exchange Board of India (SEBI) and the stock exchanges where the units of the InvIT are proposed to be listed.

## 2.2 Reliant Party

The Reliant Parties to this Summary Report will be the Client and TVS Infrastructure Trust, TVS Infrastructure Investment Manager Private Limited in its capacity as Investment Manager and TVS Industrial and Logistics Park Private Limited in its capacity as Sponsor for the purpose of the valuation as highlighted in this report. for the purpose of the valuation as highlighted in this report.

The valuation has been prepared strictly and only for the use of the parties as stated above (Reliant Parties) and for the Purpose specifically stated. The Client would make all Reliant Parties aware of the terms and conditions of this agreement under which this exercise is being undertaken and take due acknowledgements to the same effect.

## 2.3 Limitation and Disclaimers to Liability

- Valuer is not operating under any financial services license when providing the Valuation Report ("Valuation Report") and this document does not constitute financial product advice. Investors should consider obtaining independent advice from their financial advisor before making any decision to invest in TVS Infrastructure Trust.

- This Valuation Report is strictly limited to the matters contained within this report, and are not to be read as extending, by implication or otherwise, to any other matter in any Offer/ Placement document ("Offer Document"). Valuer does not approve or endorse any part of the Offer Document. Any reference to the Valuer or this Valuation Report within the Offer Document must be read in conjunction with this Valuation Report.

- Valuers disclaims any liability to any person in the event of an omission from, or false and misleading statements included in the Offer Document, other than in respect of the information provided within the Valuation Report. Valuers shall not make any warranty or representation as to the accuracy of the information in any part of the Offer Document, other than in respect of the methodology used for the preparation of the information provided within the Valuation Report.

- The liability of Valuer is limited to the Instructing Party, and any Reliant Party nominated within this report only. No accountability, obligation or liability to any third parties is accepted by the Valuer. Valuer disclaims all liability to any investor.

- No liability is accepted for any loss, harm, cost or damage (including special, consequential or economic harm or loss) suffered as a consequence of fluctuations in the real estate market subsequent to the date of valuation. Valuer shall not be liable for any indirect, special, punitive or consequential loss or damage howsoever caused, whether in contract, tort or otherwise, arising from or in connection with this Valuation Report.

- Valuer accepts no responsibility or liability whatsoever (i) unless full disclosure of all information and matters that may have an impact upon the value and marketability of the asset has been made by the Instructing Party or (ii) for any matter arising out of or in relation to possible environmental site contamination or any failure to comply with environmental legislation which may affect the value of the asset.

- None of our employees, directors or Valuers individually has a contract with the Instructing Party or owes them a duty of care.

- Valuer has prepared the Valuation Report relying on and referring to information provided by the Instructing Party and/or third parties including financial and market information ("Information"). Valuers have assumed that the Information is accurate, reliable and complete and has not independently verified such Information.

- The Valuation Report draws attention to the key issues and considerations impacting value and provides a detailed assessment and analysis as well as key critical assumptions, general assumptions, disclaimers,

limitations and qualifications and recommendations. As commercial investments of this nature are inherently complex and the market conditions have changed and/or have been uncertain in recent times, Valuer recommends that any references to value within the Offer Document must be read and considered together with the Valuation Report.

- This Valuation Report may not be reproduced in whole or in part without the prior written approval of the Valuer.

- The Valuation Report does not purport to contain all the information that a potential investor or any other interested party may require. They do not consider the individual circumstances, financial situation, investment objectives or requirements. They are intended to be used as guide and for information purposes only and do not constitute advice including without any limitation, investment, tax, legal or any other type of advice. The valuations stated are only best estimates and are not to be construed as a guarantee. Potential investors should not rely on any material contained in the Valuation Report as a statement or representation of fact but should satisfy themselves as to its correctness by independent investigation and review of the Valuation Report to understand the assumptions and methodologies stated in the reports.

- For the avoidance of doubt, all references to "Offer Document" herein shall include any offer document, final offer document, prospectus and/or any other accompanying documents required under the SEBI (InvIT) Regulations 2014.

## 2.4 Valuer Capability

iVAS Partners, (Valuer Registration Number: IBBI/RV-E/02/2020/112), represented by its partner Mr. Shubhendu Saha (Valuer Registration Number: IBBI/RV/05/2019/11552) delivers independent valuation (across categories viz. land & building, plant & machinery and securities or financial assets), advisory and technical due diligence services, that combine professional expertise with comprehensive databases, analytics and market intelligence across various asset classes and locations in India.

Mr. Shubhendu Saha is registered as a valuer with the Insolvency and Bankruptcy Board of India (IBBI) for the asset class Land and Building under the provisions of The Companies (Registered Valuers and Valuation) Rules, 2017 since 15 May 2019. He completed his bachelor's in planning from the School of Planning and Architecture, New Delhi in 1997 and Masters in Management Studies from Motilal Nehru National Institute of Technology, Allahabad in 1999.

## 2.5 Disclosures

This Valuer hereby certify that:

- iVAS Partners (Valuer Registration Number: IBBI/RV-E/02/2020/112), represented by its partner Mr. Shubhendu Saha (Valuer Registration Number: IBBI/RV/05/2019/11552), is registered as a registered valuer entity under Section 247 of the Companies Act, 2013 and The Companies (Registered Valuers and Valuation) Rules, 2017, as amended, and is eligible to be appointed as Valuer under the provisions of the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014, as amended and that the Valuation report has been prepared in accordance with these InvIT Regulations.

- iVAS Partners (represented by Mr. Shubhendu Saha - Partner, iVAS Partners) is not an associate of TVS Industrial & Logistics Parks Private Limited (the "Sponsor"), TVS Infrastructure Investment Manager Private Limited (the "Investment Manager") and TVS Infrastructure Trust (the "Trust")

- The Valuer, as represented by its partner, Mr. Shubhendu Saha, has the required minimum years of experience in the valuation of infrastructure assets, as required under the SEBI (InvIT) Regulations.

- The Valuer has not been involved with the acquisition or disposal within the last twelve months of any of the asset(ies) valued under this Valuation report.

- The Valuer has adequate and robust internal controls to ensure the integrity of the Valuation reports.

- The Valuer has sufficient key personnel with adequate experience and qualification to perform services related to asset valuation at all times.

- The Valuer has sufficient financial resources to enable them to conduct their business effectively and meet their liabilities.

- The Valuer has acquainted itself with all laws or regulations relevant to such valuation.

- iVAS Partners is not prohibited from acting as a valuer under applicable law.

- The valuation of assets undertaken is impartial, true and fair and in accordance with the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014, regulation 21.

- The Valuer and any of its employees/valuers involved in valuation of the InvIT assets are not invested in and shall not invest in units of the InvIT or in the assets being valued during the time such entity/person is designated as valuer of such InvIT and not less than 6 months after ceasing to be valuer of the InvIT.

- The Valuer has conducted the valuation of the InvIT assets with transparency and fairness and has rendered and shall render, at all times, high standards of service, exercise due diligence, ensure proper care and exercise professional judgement.

- The Valuer has acted with independence, objectivity and impartiality in performing the valuation.

- The Valuer has discharged its duties towards the TVS Infrastructure Trust in an efficient and competent manner, utilizing its knowledge, skills and experience in best possible way to complete the said assignment.

- The Valuer has not and shall not accept remuneration, in any form, for performing a valuation of the InvIT assets from any person or entity other than the TVS Infrastructure Trust or its authorized representatives.

- The Valuer has no present or planned future interest in the Management, Trustee, TVS Infrastructure Trust, the Sponsor to the TVS Infrastructure Trust and its sponsor group or the Special Purpose Vehicles (SPVs), holdcos, investment entity and the fee for this Report and the valuation exercise is not contingent upon the values reported herein. Our valuation analysis should not be construed as investment advice; specifically, we

do not express any opinion on the suitability or otherwise of entering into any financial or other transaction with the Management or the SPVs/ holdcos/ investment entity.

- The Valuer shall before accepting any assignment from any related party to the TVS Infrastructure Trust disclose to the TVS Infrastructure Trust, any direct or indirect consideration which the Valuer may have in respect of such assignment

- The Valuer shall disclose to the trustee of the TVS Infrastructure Trust, any pending business transactions, contracts under negotiation and other arrangements with the Management or any other party whom the TVS Infrastructure Trust is contracting with and any other factors which may interfere with the Valuer's ability to give an independent and professional valuation of the asset; as on the date of valuation, there are no impediments for Valuer to give an independent professional value opinion of the asset

- The Valuer has not made false, misleading or exaggerated claims in order to secure assignments.

- The Valuer has not and shall not provide misleading valuation, either by providing incorrect information or by withholding relevant information

- The Valuer has not accepted and shall not accept an assignment that includes reporting of the outcome based on predetermined opinions and conclusions required by the TVS Infrastructure Trust

- The valuer has not accepted the said assignment which interferes with its ability to do fair valuation

- The valuation undertaken by the Valuer abides by International Valuation Standards (effective from 31 January 2022) for valuation in compliance with The Companies (Registration of Valuers and Valuation) Rules, 2017

- The Valuer understands that most of these assets are wholly/partly owned/ tenanted by related parties, hence, any transactions related to these assets from the related parties being valued would be related party transactions.

- The Valuer notes that there are encumbrances, however, no options or pre-emptions rights in relation to the assets based on the title report prepared by Cyril Amarchand Mangaldas. (hereinafter collectively referred to as 'Legal Counsels'). The Valuer does not have the expertise or the preview to verify the veracity or quantify these encumbrances, disputes or claims. For the purpose of this valuation, the Valuer has assumed that the respective assets have title deeds that are clear and marketable.

## 2.6 Assumptions, Disclaimers, Limitations & Qualifications to Valuation

| | |
|---|---|
| Valuation Subject to Change: | The subject valuation exercise is based on prevailing market dynamics as on the date of valuation and does not take into account any unforeseeable developments which could impact the same in the future |
| Our Investigations: | The Valuers are not engaged to carry out all possible investigations in relation to the Subject Assets. Where in our report the Valuer identify certain limitations to our investigations, this is to enable the reliant party to instruct further investigations were considered appropriate or where the Valuer recommend as necessary prior to reliance. The Valuer are not liable for any loss occasioned by a decision not to conduct further investigations |
| Assumptions: | Assumptions are a necessary part of undertaking valuations. The Valuer adopts assumptions for the purpose of providing valuation advice because some matters are not capable of accurate calculation or fall outside the scope of our expertise, or our instructions. Assumptions adopted by iVAS Partners will be formulated on the basis that they could reasonably be expected from a professional and experienced valuer. The Reliant Party accepts that the valuation contains certain specific assumptions, and acknowledges and accepts the risk that if any of the assumptions adopted in the valuation are incorrect, then this may have an effect on the valuation |
| Information Supplied by Others: | The valuations are based on the information provided by the Client (TVS Industrial & Logistics Parks). The same has been assumed to be correct and has been used for valuation exercise. Where it is stated in the report that another party has supplied information to the 'Valuer', this information is believed to be reliable, but the 'Valuer' can accept no responsibility if this should prove not to be so<br>We have assumed that where any information relevant to our valuation is supplied by the Instructing Party, or by any third party at Instructing Party's instigation, it is correct and comprehensive and can be safely relied upon by us in preparing our valuation.<br>We would recommend that before any financial transaction is entered into based on the valuations, you obtain verification of any third-party information provided. We also recommend that you check the validity of the assumptions we have adopted in our report (where we have been unable to verify the facts through our own observations or experience) |
| Matters which affect or may affect the valuation | If the Reliant Party becomes aware of any matters which affect or may affect the valuation, then Valuer must be advised of those matters. The Reliant Party's failure to do so will disentitle the Reliant Party to place reliance on the valuation and reliance must not be placed on the valuation/s under any circumstance |
| Future Matters: | To the extent that the valuation includes any statement as to a future matter, that statement is provided as an estimate and/or opinion based on the information known to the 'Valuer' at the date of this document. The 'Valuer' does not warrant that such statements are accurate or correct |
| Map and Plans: | Any sketch, plan or map in this report is included to assist reader while visualizing the Assets and the Valuers assume no responsibility in connection with such matters.<br>Further. all maps and plans quoted in our report are solely for illustration purposes only. While they are extracted from public sources, they may be not to scale. Valuer does not warrant that such dimensions shown are accurate. |
| Site Details: | Based on information received from the Client, the Valuer understands that the Subject Assets are free from any encroachments and are available as on the date of the valuation |
| Asset Title: | For the purpose of this valuation exercise, the Valuer has relied on the Title Reports prepared by the Legal Counsels for each of the Assets and has made no further enquiries with the relevant local authorities in this regard. The Valuer understands that the Subject Assets may have encumbrances, disputes, and claims. The Valuer does not have the expertise or the preview to verify the veracity or quantify these encumbrances, disputes, or claims. For the purpose of this valuation, the Valuer has assumed that the respective assets have title deeds that are clear and marketable. We recommend that a suitable Asset Lawyer or similar reviews these assumptions and confirm they are reasonable before relying in this report. |
| Environmental Conditions: | In preparing our valuation we assume that no contaminative or potentially contaminative use is, or has been, carried out at the property. We do not undertake any investigation into the past or present uses of either the property or any adjoining or nearby land, to establish whether there is any potential for contamination from these uses and assume that none exists. Should it, however, be subsequently established that such contamination exists at the property or on any adjoining land or that any premises have been or are being put to contaminative use, this may have a detrimental effect on the value reported |

| | |
|---|---|
| Town Planning: | The current zoning of the Subject Assets has been adopted on the basis of review of various documents (title deeds & approval documents) provided by the Client and the current land use maps for the subject region. The same has been considered for the purpose of this valuation exercise. Further, it has been assumed that the development on the Subject Assets adheres/ would adhere to the development regulations as prescribed by the relevant authorities. The Valuer has not made any enquiries with the relevant development authorities to validate the legality of the same.<br><br>Our valuations are prepared on the assumption that the premises comply with all relevant statutory enactments and Building Acts and Regulations, that a valid and up-to-date Fire Certificate has been issued. We assume that all necessary consents, licenses, and authorizations for the use of the asset and the process carried out therein have been obtained and will continue to subsist and are not subject to any onerous conditions.<br><br>In the event that a legal requisition or other relevant planning information or document is obtained, and the information therein is found to be materially different to the town planning information in the report, the valuation must not be relied upon before first consulting iVAS Partners to reassess any effect on the valuation/s |
| Area: | The total leasable area considered for the purpose of this valuation exercise is based on the lease deed/ rent roll data provided by the Client. It must be noted that the above information has been provided by the Client and has been verified based on the approvals/ layout plans/building plans provided by the Client. However, the Valuer has not undertaken additional verification and physical measurement for the purpose of this valuation exercise |
| Condition & Repair: | In the absence of any information to the contrary, the Valuer has assumed that there are no abnormal ground conditions, nor archaeological remains present which might adversely affect the current or future occupation, development or value of the asset; the asset is free from rot, infestation, structural or latent defect; no currently known deleterious or hazardous materials or suspect techniques will be used in the construction of or subsequent alterations or additions to the asset and comments made in the asset details do not purport to express an opinion about, or advice upon, the condition of uninspected parts and should not be taken as making an implied representation or statement about such parts |
| Not a Structural Survey: | The Valuer states that this is a valuation report and not a structural survey |
| Legal: | Unless specifically disclosed in the report, the Valuer has not made any allowances with respect to any existing or proposed local legislation relating to taxation on realization of the sale value of the Subject Asset.<br><br>We do not read legal documentation. Where legal documentation is provided to us, we will have regard to the matters therein but recommend that reliance should not be placed on our interpretation thereof without prior verification by your legal advisors. Unless disclosed to us, we assume that there are no outstanding statutory breaches or impending litigation in respect of the property. We further assume that all documentation is satisfactorily drawn and that unless disclosed to us, there are no unusual or onerous restrictions, easements, covenants, or other outgoings which would adversely affect the value of the relevant interest(s). In respect of leasehold Assets, we will assume that your landlord will give any necessary consents to an assignment. Unless notified to the contrary we assume that each property has a good and marketable title and is free from any pending litigation |
| Others: | Considering the unorganized nature of real estate markets in India, all comparable evidence (if any) provided in the valuation report has been limited to the basic details such as the area of asset, rate at which transacted, broad location, etc. other specific details would be provided only if the information is available in public domain |
| Other Assumptions: | Please note that all the factual information such as tenants' leasable area, lease details such as lease rent, lease commencement and lease end date, lock – in period, escalation terms, etc. pertaining to the Subject Assets is based on the rent roll provided by the Client and the same has been adopted for the purpose of this valuation exercise. The rent rolls have been cross-checked with copies of the lease deeds on a sample basis as shared with the valuer to verify the authenticity. Any change in the above information will have an impact on the assessed value and in that case the Valuer will have to relook at the assessed value. The relevant information sources are represented in section 2.5.<br><br>All measurements, areas and ages quoted in our report are approximate.<br><br>We are not advisors with respect to legal, tax and regulatory matters for the transaction. No investigation of the respective Special Purpose Vehicles (SPVs) holding the assets' claim to title of assets has been made for the purpose of this Report and the SPVs' claim to such rights have been assumed to be valid. No consideration |

| | |
|---|---|
| | has been given to liens or encumbrances against the assets. Therefore, no responsibility is assumed for matters of a legal nature |
| Flooding risk: | We have assumed that either there is no flooding risk or, if there is, that sufficient flood defenses are in place and that appropriate building insurance could be obtained at a cost that would not materially affect the capital value. |
| Site Conditions: | We do not commission site investigations to determine the suitability of ground conditions and services, nor do we undertake environmental or geotechnical surveys. We have assumed that these aspects are satisfactory and also that the site is clear of underground mineral or other workings, methane gas or other noxious substances.<br>In the case of property which may have redevelopment potential, we proceed on the basis that the site has load bearing capacity suitable for the anticipated form of redevelopment without the need for additional and expensive foundations or drainage systems (unless stated otherwise) |
| Hazardous & deleterious materials | Unless otherwise noted, we have assumed that the improvements are free of Asbestos and Hazardous Materials, or should these materials be present then they do not pose significant risk to human health, nor require immediate removal. We assume the site is free of subsoil asbestos and have made no allowance in our valuation for site remediation works.<br>Our visual inspection is an inconclusive indicator of the actual condition/presence of asbestos/hazardous materials within the property. We make no representation as to the actual status of the Property. If a test is undertaken at some time in the future to assess the degree, if any, of the presence of any asbestos/hazardous materials on site and this is found to be positive, this valuation must not be relied upon before first consulting iVAS Partners to reassess any effect on the valuation.<br>Unless specifically instructed, we do not carry out investigations to ascertain whether any building has been constructed or altered using deleterious materials or methods. Unless specifically notified, our valuation assumes that no such materials or methods have been used |
| Unregistered interests | We have assumed that there are no unregistered interests or interests not captured by the applicable Regulatory Authority in the country which services are to be carried out which may affect market value. In the event that the Reliant Party becomes aware of any further or pending easements, encumbrances or unregistered interests, this valuation must not be relied upon before first consulting iVAS Partners in writing to reassess any effect on the valuation |
| Heightened Market Volatility | We draw your attention to current heightened geopolitical tensions, low economic growth in many major countries, and a "higher for longer" interest rate sentiment which have increased the potential for constrained credit markets, negative capital value movements and continued volatility in some property markets over the short-to-medium term.<br>Experience has shown that consumer and investor behavior can quickly change during periods of such heightened volatility. Lending or investment decisions should reflect any heightened level of volatility and potential for changing market conditions. Lending and investment caution is advised in this regard.<br>It is important to note that the conclusions set out in this report are valid as at the valuation date only. Where appropriate, we recommend that the valuation is closely monitored, as we continue to track how markets respond to evolving events. |
| Construction Cost Volatility: | Although general increases in material costs have stabilized since 2022, some specialized supply chains and construction-related labor costs remain volatile with the potential for further increases. This has created uncertainty in cost estimates, which is likely to continue.<br>In addition, there are significant risks that delays may be encountered in sourcing specialized materials and labor, and as such, the potential for ongoing cost escalations and delays is high. This may place additional pressure on developer and contractor profit margins and development viability.<br>These inherent risks should therefore be given careful consideration in lending and investment decisions. Caution is advised in this regard. |

# 3 Siliguri – Market Structure and Conditions

## 3.1 Information

For the purpose of the valuation exercise, reliance has been made on the deliverables of CBRE South Asia Private Limited, an independent agency appointed by TVS to undertake market research, provide market commentary, and data as a part of a report (the "Industry Assessment Report") for the purpose of this assignment.

## 3.2 Demand and Supply

### 3.2.1 Demand and Supply Trends – Siliguri and Micromarket

Total completed stock in Siliguri as of Q3 2024 is approx. 3.11 msf, out of which Fulbari micromarket account for approx. 28%.

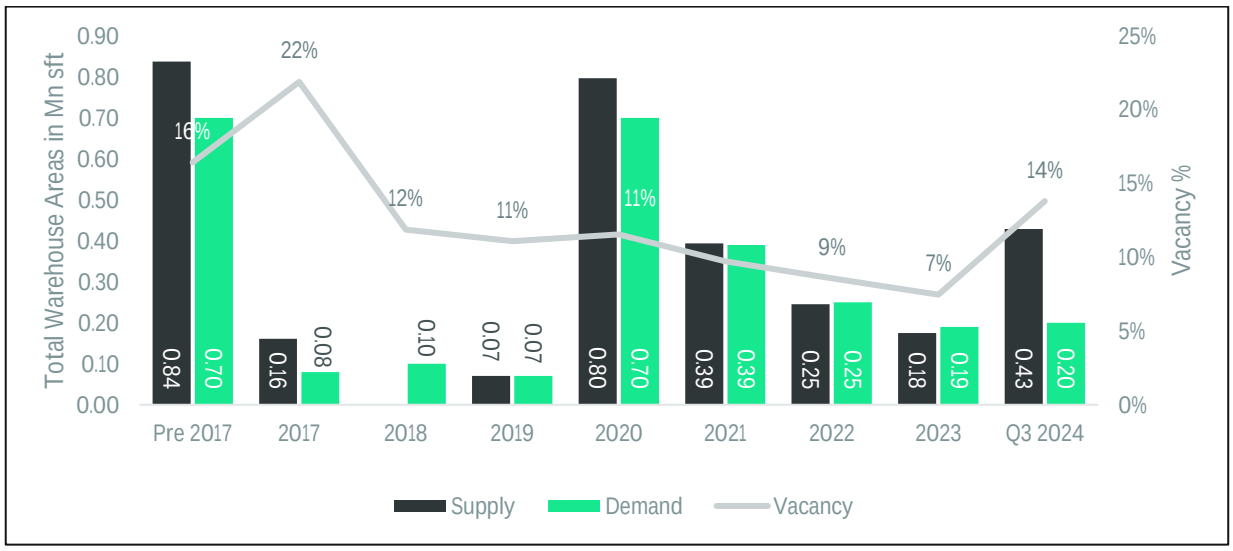
| Particulars | Leasable Area (sft) |
|---|---|
| Cumulative completed warehouse stock (Q3 2024) | Approx. 3.11 msf |
| Cumulative occupied stock (Q3 2024) | Approx. 2.67 msf |
| Current vacancy (Q3 2024) | Approx. 13-14% |
| Average annual warehouse absorption (2018 - 2023) – Gross Absorption | Approx 0.2-0.3 msf |
| Future supply (2024 – 2025) | Approx 0.2 – 0.3 msf |

*Source: Industry Assessment Report dated of September 30, 2024*

Eastern Cluster comprise of Fulbari micromarkets. The cluster is located on the eastern side of Siliguri, alongside NH 27. The micromarket is dominated by mainly local individual players. The market's proximity to the main city area and excellent connectivity through NH 27 have led to its emergence. The cluster comprises approximately 28% of the total completed supply in the Siliguri region. Out of the total completed supply in the Fulbari cluster, approximately 55% of the supply is Grade A, and remaining is Grade B and Grade C with a cumulative supply of 45%.

Proximity to the National Highway and the main city area have resulted in the growth of Fulbari as a micro-market. Several multinational and national companies, such as Coca cola occupying Grade A development, Mondelez, Instakart and Delhivery occupying Grade B development, and companies like Keventer, Emami Frank Ross, etc are occupying Grade C developments in this micromarket.

Demand – Supply Dynamics of City: Siliguri



*Source: Industry Assessment Report*

We have analysed the demand and supply of warehousing spaces within the subject micro market. All the completed, grade A, grade B and grade C, multi-tenanted warehousing, and logistics developments in the influence region i.e., Fulbari are included while defining the sample set for the demand supply analysis. As per Industry Assessment Report, we understand that the subject micromarket has a cumulative vacancy of approx. 14-15% overall, including grade A, B, and C developments.

Siliguri city has an overall completed supply of approx. 3.11 Mn sft. spread across Grade A, Grade B, and Grade C industrial, logistics and warehousing developments. The supply in the city had been increasing by an average of approx. 0.29 Mn sft between the years 2017 to 2024. The higher quantum of supply in 2020 is a result of sporadic construction activity in the year 2019 due to the COVID-19 restrictions. It witnessed very less supply in 2022 and in 2023 approx. 0.18 Mn sft was added, showing higher levels of supply being induced vis-à-vis pre-COVID years.

Between the years 2017 to 2023, the demand has kept pace with the supply due to various Retail, FMCG, E-Commerce and 3 PL firms showing significant interest in the Fulbari micromarket. Some of the major leases in this tenure include firms like Reliance, Mondelez, Delhivery etc. The significant demand in 2020 and 2021 is primarily driven by the supply chain disruptions during the pandemic and the need for warehouse spaces in proximity to the Point of Sale (POS). Hence it is evident from the data detailed previously, the absorption levels have surpassed the COVID demand.

Fulbari micromarket has been a major contributor in the demand and supply trends witnessed at city level with a share of approx. 28%. The subject micromarket has emerged as an attractive industrial destination primarily on account of presence of vacant land, excellent surface connectivity, and access to low-cost manpower. Fulbari has evolved into a major industrial hub due to the presence of prominent Grade A and Grade B developments with superior build quality vis-à-vis Matigara micromarket. It has seen development activities from major players like Mondelez, Delhivery, Coca cola, etc, thus attracting higher rentals and superior tenant mix.

Fulbari has a cumulative supply of 0.88 Mn sft out of which grade A supply is approx. 0.48 Mn sft. The vacancy of the region stands at approx. 20% as of Q3-2024. The amalgamation of all the factors detailed above viz. relatively superior

quality tenants, marquee developments, location advantage, etc. has led to prominent investment in Fulbari by firms like Coca cola, Mondelez, Delhivery, etc.

#### 3.2.1.1 Key Developments in Micromarket

The table below highlights the prominent warehousing facilities in the subject micromarket:

| Building Name | Year of Establishment | Leasable Area (sft) | Average Lease Rental (INR per sft pm) |
|---|---|---|---|
| Development 1 | 2009 | 225,000 | ~ 18 – 19 |
| Development 2 | 2024 | 90,000 | ~ 17 – 18 |
| Development 3 | 2019 | 70,000 | ~ 17 – 18 |

*Source: Industry Assessment Report*

#### 3.2.1.2 Future Supply

Based on our market research, we understand that the majority of the upcoming supply is expected to be in the micromarkets of Gora more. Several individual landlords have vacant land parcels close to existing warehouse micromarkets, and they are willing to sign a build-to-suit contract with potential occupiers. The micromarket such as Gora more and Matigara has an upcoming supply of approx. 0.1 Mn sft expected to be completed in 2024 and 2025. The details of the same are as below:

| Building Name | Year of Completion | Status* | Location | Leasable Area (sft) |
|---|---|---|---|---|
| Development 1 | 2024 | UC / Planned | Gora More | 30,000 |
| Development 2 | 2024 | UC / Planned | Matigara | 40,000 |

*Source: Industry Report, * UC – Under Construction*

### 3.2.2 Market Rent

The table below highlights the recent lease transactions in the micro market:

| Date of Transaction | Chargeable Area (sft) | Lessee | Name of the Building | Total Rent (INR per sft per month) | Description |
|---|---|---|---|---|---|
| Q4, 2023 | 90,000 | Mondelez | KD Logistics | ~ 17 - 18 | Base Rental |
| Q2, 2023 | 225,000 | Coca Cola | Individual | ~ 18 - 19 | Base Rental |
| Q4, 2023 | 70,000 | Delhivery | Individual | ~ 17 - 18 | Base Rental |
| Q1, 2024 | 10,000 | Rallis | Siliguri Logistics | ~ 13 - 14 | Base Rental |

*Source: Industry Assessment Report*

As can be observed from the table above and our interactions with other market players, the rental value in the micro market ranges between INR 14 - 19/sft/month (base rentals). The variance across rentals is primarily due to factors such as location, grade, accessibility, overall tenant mix, quantum of vacant stock in the development, specifications of the block, park level infrastructure, additional improvements, etc.

## 3.3 Market Outlook

Based on the market research, we understand that the subject region is perceived as a favourable destination for various industry players owing to the excellent connectivity (via NH 27 Porbandar - Silchar Highway), attractive rentals, availability of land parcels etc. Fulbari has many small and large-scale warehouses which has enabled it to develop as an industrial/warehouse ecosystem. Further, owing to the growth of Retail, FMCG, E-Commerce sector and its continuous demand from prominent cities like Siliguri, the requirement for warehousing spaces are increasing. Thus, the subject micromarket is expected to experience sustained demand and supply in the coming years.

Further, the subject development is well positioned in the market to attract interest from occupiers owing to its location (Nh 27), specifications and amenities, developer's reputation, etc. The proximity to key consumption hubs, manufacturing hubs, and other infrastructure initiatives has established Fulbari as an ideal destination for companies to set up their warehousing and distribution centres. Industrial clusters have a diverse mix of industrial manufacturers in food processing, logistics, chemicals, etc. and have emerged as major industrial hubs in Siliguri as companies such as Bisk Farm, Parle, etc. have set up their manufacturing facilities in the region.

# 4 Subject Asset – Siliguri Park

## 4.1 Asset Description

The subject development christened 'Siliguri Park' is a completed and operational warehousing facility with total leasable area of 140,474 sft located at Shilpobroto Industrial Park, Jotiakali, Siliguri 734015, Dist Jalpaiguri. The Subject Asset is currently accessible via Border Road 607.

Based on the information provided by the Client, it is understood that the Subject Asset is warehousing asset with land area admeasuring approx. 5.66 acres and leasable area admeasuring approx. 140,474 sft. According to the lease agreements and information shared by the Client, we understand that Phase-1 started operations in the year 2021, and Phase-2 in 2022. The Subject Asset is understood to have a floor strength of 5 T/sqm and has floor finishing of high-performance concrete flooring of FM2 Concrete type. The eave height is 12m.

Further, the Siliguri facility's fire safety system has a NFPA/NBC standard fire protection system. The facility is equipped with both external and internal hydrants, alongside automatic sprinkler system.

Moreover, the park offers a range of amenities such as dedicated restroom for drivers, water supply, electric supply, fire protection, fire alarm & detection system. The Subject Asset provides DG for power backup, street lighting all around the park, and designated parking areas. The park's landscaping provides a sustainable environment, while the asset is monitored completely with CCTV & security control to ensures safety.

| Brief Description | |
|---|---|
| Particulars | Details |
| Asset Name | Siliguri Park |
| Address | Shilpobroto Industrial Park, Jotiakali, Siliguri 734015, Dist Jalpaiguri |
| Land Area | Based on review of the sale deed and title report the valuer understand that the total land area of the Subject Asset is approx. 5.66 acres |
| Leasable Area | 140,474 sft |

*Source: Client Inputs*

### 4.1.1 Site Details

Situation: Subject asset – 'Siliguri Park' is an operational Industrial warehouse/logistics park, located along the Border Road 607 which connects to NH 27.

Location: The Subject Asset is located in Shilpobroto Industrial Park towards the East of Siliguri. The Subject Asset is located in an emerging industrial micro -market of Siliguri viz. Border Road which is an internal road emanating from NH 27. Further, it is well connected to important industrial hubs & major cities via NH 27, and other internal roads. Prominent warehouses present within the vicinity are Delivery, Mondelez, etc.

The distances from key hubs to the Subject Asset are presented in the table below:

| Landmark | Distance (Km) |
|---|---|
| Fulbari Market | 6 – 7 |
| NJP Station | 9 – 10 |
| Siliguri Station | 13 – 14 |
| Siliguri CBD | 15 – 16 |
| Bagdogra Airport | 21 – 22 |

*Source: Valuer's research*

Catchment Analysis: The primary catchment for the purpose of this valuation has been defined as Fulbari and its adjoining micro markets which are predominantly characterized by industrial/warehousing development.

Surrounds: The Subject Asset is surrounded as follows:

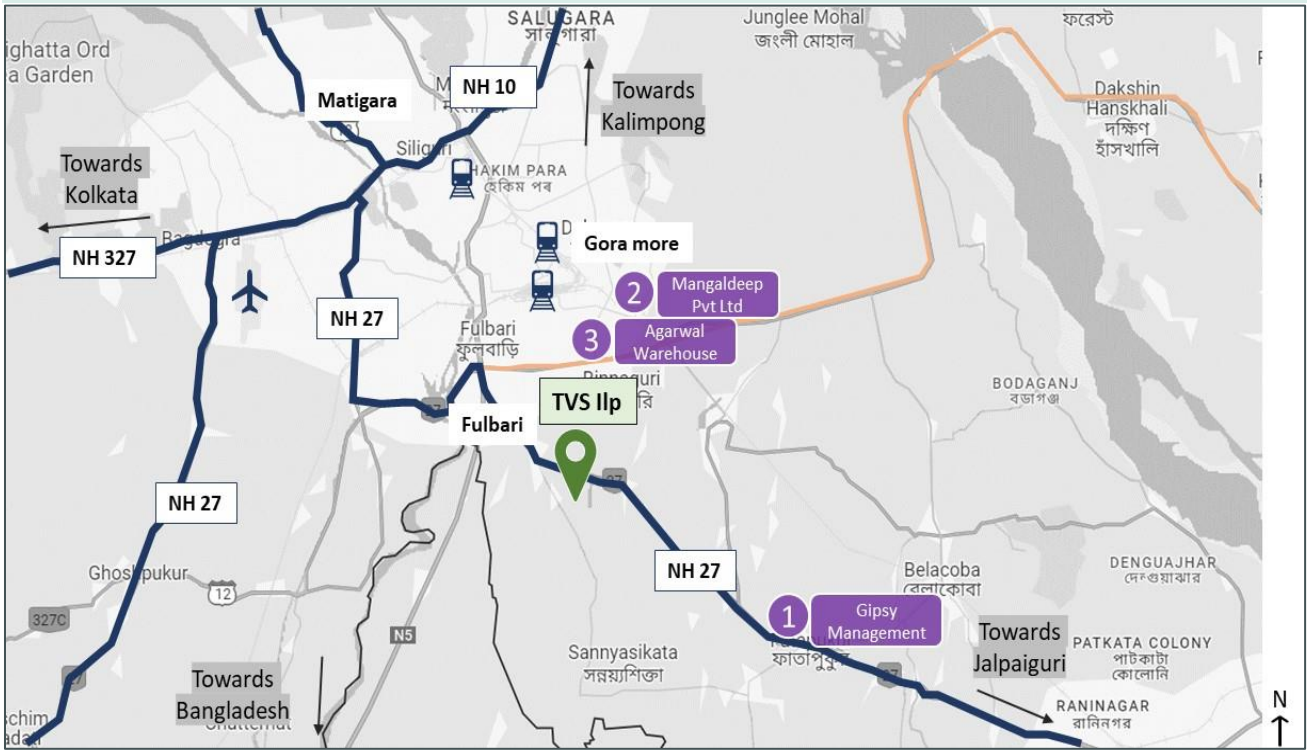
- North: Residential houses
- South: Primary access road
- East: BSF Govt. quarter
- West: Vacant land

Potential changes in surroundings: The Subject Asset is located in close vicinity to NH 27 highway leading to micromarkets such as Fulbari, Gora more and Matigara where there is reasonable interest from developers to launch new assets comprising of largely industrial developments on the main arterial roads. The upcoming Kharagpur-Siliguri Economic Corridor is further expected to enhance the connectivity of the region to the nearby cities.

| | |
|---|---|
| Suitability of existing use: | Considering the location and profile of surrounding developments coupled with site specific parameters, we are of the opinion that Subject Asset is suited for its current usage. |

The following map indicates the location of the Subject Asset and surrounding developments

Location Map for the Subject Asset



*Source: Valuers' research*

| | |
|---|---|
| Shape: | Based on the site plan provided by the Client and visual inspection during the site visit, it is understood that the underlying land is regular in shape. |
| Topography: | Based on the site plan and as corroborated with our site visit, the site appears to be even and is on the same level as abutting access roads and adjoining Assets. |
| Frontage: | Based on review of site plan and visual inspection, we understand that the Subject Asset has adequate frontage along the primary access road. |
| Accessibility: | Based on the site plan provided by the Client and visual inspection, the primary access to the Subject Asset is via approx. 10 m wide primary access road. By virtue of the same the asset enjoys excellent accessibility and frontage.<br>Please refer Section 7.0 Exhibit & Addendums for the site plan of the Subject Asset. |

### 4.1.2 Review of sale deed or Lease agreement

As per the sale deed, we understand that the exact address of the Subject Asset is Shilpobroto Industrial Park, Police Station- Rajganj, Fulbari- II Gram Panchayat, District Jalpaiguri, West Bengal 734015. Additionally, it is understood that the Subject Asset is owned by TVS Infrastructure Private Limited. As per the title search report shared by the client, it is understood that approx. 4.3 acres of land is freehold and the remaining approx. 1.3 acres of land is leasehold.

### 4.1.3 Title Details

This valuation exercise is based on the premise that the Subject Asset has a clear title and is free from any encumbrances, disputes, claims, etc. Valuer has not made any inquiries in this regard with the relevant legal/ statutory authorities with the understanding this level of due diligence will be undertaken by the appropriate lawyers and then advised to the Valuer accordingly. We strongly recommend the assumption the asset has a clear title is confirmed before relying on the report.

### 4.1.4 Town Planning

| | |
|---|---|
| Zoning | As per the review of the Towns Planning Zoning Classification certificate provided by the Client, we understand that the Subject Asset is zoned for "Industrial" Use. The same has been considered for the purpose of this valuation. Valuer has made no further inquiries with the local authorities in this regard.<br><br>For the purpose of this exercise, it has been assumed that all developments (existing / under construction / proposed) adhere to building regulations as prescribed by the relevant authorities. Valuer has not validated the information provided by the Client with the relevant development authorities. |
| Approved Usage: | Based on copies of approved plans issued by PMRDA authority provided by the Client and visual inspection during our site visit, the Subject Asset is a completed and operational warehouse/logistics park. The current use of the Subject Asset is broadly in agreement with the rules and regulations as prescribed by the local development authority. However, Valuer has not made any enquiries with the relevant local authorities to validate the same for its specific applicability to the Subject Asset. |
| Restrictions: | As per feedback received from the Client, there are no restrictions on the current use of the asset. |
| Natural or induced hazards: | We have not carried out any investigations or tests or been supplied with any information from Client or from any relevant expert that determines the presence or otherwise of pollution or contaminative substances in the Subject Asset or any other land (including any ground water).<br><br>For the purpose of assessing the vulnerability of the Subject Asset to any natural or induced disaster the location of the property with respect to risks pertaining to earthquakes, high winds/cyclone and flooding was studied. Chakan where the Subject Asset is located falls in Seismic Zone III with moderate risk. The city faces low risk in terms of high winds or cyclones. The Subject Property is not likely to face any earthquake, cyclone or flooding risk than the overall risk profile of the city. No hazardous activity was noted in the vicinity of the Subject Asset which may expose it for any induced disaster. |
| Approvals: | As per the documents provided by Client, we understand that the approvals mentioned in section 4.1.5.1 for the asset have been obtained. Please refer annexures for the details.<br><br>For the purpose of this exercise, it has been assumed that all developments adhere to building regulations as prescribed by the relevant authorities. Valuers have not |

validated the information provided by the Client with the relevant development authorities

### 4.1.5 Statutory Approvals, Sanctions & Approvals

#### 4.1.5.1 Statutory Approvals received and to be received

As per the review of documents provided by the Client, we understand that all requisite approvals have been received for the Subject Asset.

The table below highlights the status of approvals for the Subject Asset:

| Approval/NOC | Status (Applied / Received) | Authority | Date of Issue (DD-MM-YY) |
|---|---|---|---|
| Occupancy Certificate | Received | Jalpaiguri Zilla Parishad | 30-08-2021 |
| Electricity NOC | Received | Govt. of West Bengal, Directorate of Commercial Taxes Electricity Duty | 31-08-2021 |
| No Objection Certificate | Received | Member Secretary, District Level Ground Water | 06-09-2021 |
| Plan Approval | Received | District Engineer, Jalpaiguri Zilla Parishad | 17-06-2022 |
| Fire safety recommendations | Received | Deputy Director, West Bengal Fire & Emergency Services | 22-06-2022 |
| Fire Safety Certificate | Received | West Bengal Fire & Emergency Services, Govt. of West Bengal | 27-07-2022 |
| Occupancy Certificate | Received | Fulbari – II Gram Panchayat | 05-08-2022 |

*Source: Approval documents provided by the Client*

#### 4.1.5.2 List of up to date/overdue periodic clearances

As per the details provided by the Client, we understand that there are no overdue periodic clearances.

### 4.1.6 Area Details, Type and Age of Existing Structures

The table below highlights the age of the completed blocks of the Subject Asset:

| Block | Year of Completion | Age of structures (in years) | Developable Area (sft) | Completed Area (sft) | Leased Area (sft) |
|---|---|---|---|---|---|
| Phase 1 | 2021 | 3 | 0 | 89,972 | 89,972 |
| Phase 2 | 2022 | 2 | 0 | 50,502 | 50,502 |

*Source: Architect certificate, rent roll provided by the Client; (Please note according to the lease agreements provided by the Client, it is understood that the rent is paid on the chargeable area, which has been considered for the valuation exercise)*

The table below highlights the area details of the Subject Asset:

| Block | Leasable area (sft) | Chargeable area (sft) |
|---|---|---|
| Phase 1 | 89,972 | 89,972 |
| Phase 2 | 50,502 | 50,502 |

4.1.10 Details of the asset including whether the transaction is a related party transaction

Please refer to the Annexure section 7.1

4.1.11 Nature of the interest the InvIT holds or proposes to hold in the asset, percentage of interest of the InvIT in the asset

Please refer to the Annexure section 7.1

4.1.12 Structure of ownership of the asset by the InvIT

Please refer to the Annexure section 7.1

4.1.13 Description of key agreements and restrictions relevant to the asset such as terms of concession agreement, power purchase agreements, etc.

Please refer to the Annexure section 7.1

4.1.14 Life of the asset (both contractually and physical life requiring maintenance, replacement and right available to extend this life

Please refer to the Annexure section 7.1

4.1.15 Valuation of the asset in the previous 3 years

As of the date of this valuation report, the Subject Asset is not part of the Infrastructure Investment Trust (InVIT)

# 5 Valuation Approach & Methodology

## 5.1 Scope of Valuation

The valuation exercise is to assess the Market Value (MV) of the Subject Assets for the purpose of offer of units by Private Placement of TVS Infrastructure Trust under the SEBI (Infrastructure Investment Trust) Regulations, 2014, as amended. The valuations have been conducted in accordance with the IVSC International Valuation Standards, (effective 31 January 2022) and in accordance with the requirements of the SEBI (Infrastructure Investment Trust) Regulations, 2014, as amended from time to time.

The Valuer has assessed the Market Value of each Individual Subject Asset(s), not the value of the portfolio as if all assets are being sold in one transaction. Where a summation of the individual Assets is provided, this is purely for reference only and should not be construed as the value of the portfolio.

## 5.2 Basis of Valuation

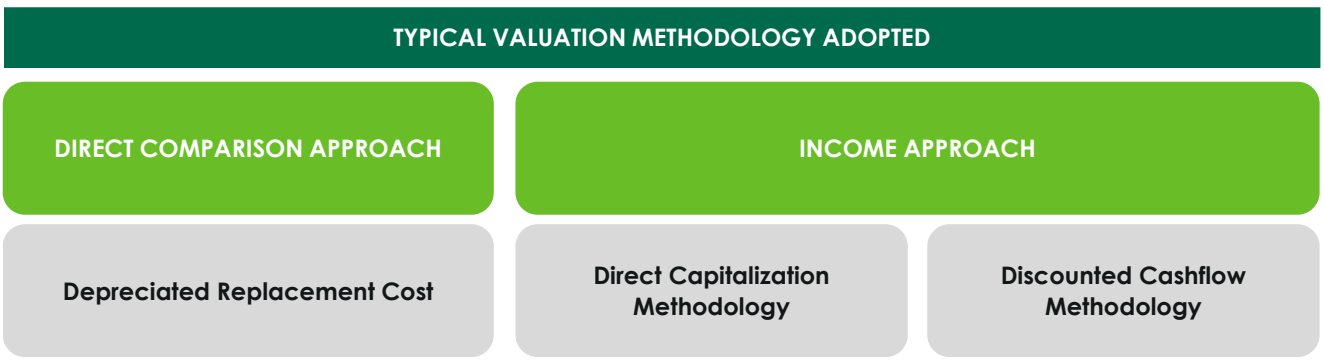
The valuations have been conducted in accordance with the IVSC International Valuation Standards (effective from 31 January 2022) and is in compliance with the International Valuation Standards (IVS), which was the applicable standards as on the date of valuation. The valuation exercise has been undertaken by appropriately qualified Valuer and would be aimed at assessing the Market Value of the Subject Assets.

According to IVS 104, Market Value is defined as:

***'The estimated amount for which an asset or liability should exchange on the valuation date between a willing buyer and a willing seller in an arm's length transaction, after proper marketing and where the parties had each*** *acted knowledgeably, prudently an***d without compulsion'.**

## 5.3 Approach and Methodology

The purpose of this valuation exercise is to estimate the Market Value (MV) of the Subject Assets. Market Value can be derived through the following Methodologies:



### 5.3.1 Direct Comparison Approach

Under the 'Direct Comparison Approach', the asset is compared to similar Assets that have actually been sold in an arms-length transaction or are offered for sale (after deducting for value of built-up structure located thereon). The comparable evidence gathered during research is adjusted for premiums and discounts based on asset specific attributes to reflect the underlying value of the asset.

### 5.3.2 Income Approach

The income approach is based on the premise that value of an income - producing asset is a function of future benefits and income derived from that asset. There are two commonly used methods of the income approach in real estate valuation namely, direct capitalization and discounted cash flow (DCF).

A. Direct Capitalization Method

Direct capitalization involves capitalizing a 'normalized' single - year net income estimated by an appropriate yield. This approach is best utilized with stable revenue producing assets, whereby there is little volatility in the net annual income.

B. Discounted Cash Flow Method

A Discounted Cash Flow Analysis is based upon estimates of future financial performance. The methodology begins with a set of assumptions regarding income and expenses of the Asset and future economic conditions in the local market. The income and expense figures are assessed with adjustments for estimated changes in economic conditions and any contractual commitments. The resultant value is considered the best estimate but is not to be construed as a prediction or guarantee and is fully dependent upon the reasonableness of the assumptions with respect to income, expenses, and market conditions, which are based on information available as at the valuation date.

## 5.4 Approach and Methodology Adopted

Considering the objective of this exercise, the nature of asset involved and the purpose of the valuation viz. to assess the Market Value (MV) of the Subject Assets for the purpose of the private placement of TVS Infrastructure Trust under the SEBI (Infrastructure Investment Trust) Regulations, 2014 'Regulation', we have adopted the methodology considering Chapter 1 section 2 point (i) of the InvIT regulation, which states that, the assets forming part of InvIT should meet among the below criteria as follow:

1. the infrastructure asset has achieved the commercial operations date as defined under the relevant asset agreement including concession agreement, power purchase agreement or any other agreement of a similar nature entered into in relation to the operation of the asset or in any agreement entered into with the lenders
2. the infrastructure asset has received all the requisite approvals and certifications for commencing operations
3. the infrastructure asset has been generating revenue from operations for a period of not less than one year

Hence owing to the above stated conditions, we are of the opinion that the income approach which is appropriate to value such asset based on the premise that value of an income - producing asset is a function of future benefits and income derived from that asset.

Under the Income approach, Discounted Cash Flow Analysis is based upon estimates of future financial performance which also considers the income and expenses of the Asset accounting for the future fluctuations due to expected market dynamics.

Hence, for the purpose of this valuation exercise, we have adopted Discounted Cash Flow Method (using rent reversion approach).

For the purpose of this valuation exercise, we have analysed the tenancy details provided by the Client to identify variances vis-à-vis prevailing marginal rent. In the event the contracted rent is within the threshold (15.0%), we have assumed that the tenant will continue on the current agreed terms. In the event the rent is higher than the marginal rent threshold, we have assumed that the lease would be renegotiated to marginal rent terms (at the time of the lock-in expiry, next escalation, etc.).

Asset-specific Review:

1. As the first step to the valuation of the asset, the lease deeds were reviewed to identify tenancy characteristics with respect to contractual commitments and commercial covenants.
2. Title documents, architect certificates and rent rolls were reviewed for validation of area details, ownership of the asset
3. The Valuer has undertaken physical site inspections to assess the current status of the Subject Asset in terms of their physical configuration, capacity, and upkeep.

Micromarket Review/Market Rental Assessment:

Fulbari region is one of the prominent industrial belts promoted by WBMSME. The cluster is located alongside of NH 27. The micromarket is dominated by mainly local individual players. Proximity to the National Highway and the main city, the area has resulted in the growth of Fulbari as a micromarket. Fulbari areas is primarily occupied by several multinational and national companies, such as Coca cola occupying Grade A development, Mondelez, and Delhivery occupying Grade B development, and companies like Keventer, Emami Frank Ross, etc.

A primary research exercise has been carried out in the catchment area to ascertain the prevalent activity levels in terms of quoted / transacted evidence of the recent leasing activity for warehousing developments. This has been achieved through interactions with various market players such as local real estate brokers, developers, owners, etc. Based on the same, we understand that variance across rentals is primarily due to factors such as type of asset, developer brand, location, accessibility, overall tenant mix, quantum of vacant stock in the development, specifications, and additional improvements, etc.

For the micromarket review and market rental assessment we have relied upon the report on 'Market Analysis of Warehousing assets in Identified locations pan India' prepared by CBRE South Asia Private Limited, hereafter referred as 'CBRE' (an independent agency appointed by the Client to undertake market research, provide market summary and data for the purpose of this assignment)

Cash Flow Assertions:

We have assessed future cash flows from the Subject Assets based on existing lease terms and contractual lease payments for the operational area until the expiry of the leases or re-negotiation (using the variance analysis), whichever is earlier.

Based on a detailed review of the leases for the Subject Asset, we noted that a large number of leases at these Assets were executed at rent prevalent at the time of signing of such leases or at a discount to prevailing market rental (for a few anchor tenants). Since the real estate industry is dynamic and is influenced by various factors (such as existing supply, tenants looking at spaces, quality of spaces available in the market, overall health of the economy, existing rent, future growth plans, etc.) at a particular point in time, negotiated rent may tend to move away from the prevalent market rent over a period of time. It has also been witnessed that the market rent for some Assets or micromarkets increase or decrease at a rate significantly different from those agreed to in initial leases. These factors reinforce the need to review each of these leases in isolation to assess the intrinsic value of the asset under review.

Post this, the lease terms have been aligned with market rentals. For vacant area and under-construction/proposed area, the Valuer has assessed the market rent led cash flows factoring appropriate lease-up time frame for vacant/under-construction/proposed area. These cash flows have been assessed for 10-year duration from the date of valuation and for 11th year (for assessment of terminal value). These future financial benefits are then discounted to a present-day value (valuation date) at an appropriate discount rate.

## 5.5 Information Sources for Valuation

Asset related information referred to for the valuation exercise have been provided to the Valuer by the Management unless otherwise mentioned. Valuer has assumed the documents to be a true copy of the original. The rent rolls have been cross-checked with the lease deeds on a sample basis to verify the authenticity. Additionally, wherever possible, Valuer has independently revalidated the information by reviewing the originals as provided by the Management. Further, details related to area and ownership has been adopted based on architect's certificate and title report (prepared by independent architects and legal counsels) as shared by the Client.

Table below highlights various data points referred throughout the course of this valuation report and the data sources for the same. Asset related documents referred to in the table below have been provided to the Valuer by the Client unless otherwise mentioned. The Valuer have assumed the documents to be a true copy of the original.

# 6 Value Assessment

## 6.1 Value Assessment

### 6.1.1 Adopted Methodology

We acknowledge that the approaches to valuation differ considerably and that for a particular purpose, alternative approaches to the valuation can be utilized. Considering the objective of this exercise and the nature of asset involved, the value of the Subject Asset has been assessed through the following approaches:

| Asset Name | Completed Blocks | Under-construction Blocks |
|---|---|---|
| Siliguri Park | Discounted Cash Flow (Using rent reversion approach) | N.A. |

The sections below highlight the detailed valuation workings for the Subject Asset.

## 6.2 Operational Assumptions

### 6.2.1 Area statement

Based on information from lease deed and architect certificate provided by the Client, we understand that Subject Asset is an operational warehousing/ industrial development. Further, the table below highlights the area configuration of the Subject Asset:

| Block | Year of Completion | Age of structures (in years) | Status | Developable Area (sft) | Completed Area (sft) | Leased Area (sft) |
|---|---|---|---|---|---|---|
| Phase 1 | 2021 | 3 | Completed | 0 | 89,972 | 89,972 |
| Phase 2 | 2022 | 2 | Completed | 0 | 50,502 | 50,502 |

*Source: Client Inputs*

| Tenant | Leased Area (sft) | % of area leased | Total In-place rental (INR psf pm) | Total In-place rental (INR Mn pm) |
|---|---|---|---|---|
| 1 | 140,474 | 100 | 21.95 | 3.08 |

*Source: Rent roll, Lease deed.*

## 6.3 Tenancy Analysis

### 6.3.1 Historical Occupancy Rates

The table below highlights the historical occupancy rates at the subject development:

| Particulars | Total Pending Cost (INR Mn) |
|---|---|
| Occupancy (completed blocks) | NA |
| Pre-Commitment (under construction blocks) | NA |

| Particulars | Total Pending Cost (INR Mn) |
|---|---|

*Source: Information provided by the Client*

### 6.3.2 Lease Rent Analysis

Based on the review of the Lease Deed provided by the Client, we understand that the lease agreements were signed between Presidency Barter Pvt Ltd and e-commerce company, details of which are mentioned below:

| Tenant | Particulars | Details |
|---|---|---|
| E-commerce company | Lease Commencement Date | 08th September 2021 |
| | Rent Commencement Date | 08th September 2021 |
| | Lock-in Period | 3.5 Years |
| | Lease Tenure | 9 Years |
| | Lease Rent Escalation Terms | 5% every year |
| E-commerce company | Lease Commencement Date | 21st August 2022 |
| | Rent Commencement Date | 21st August 2022 |
| | Lock-in Period | 2.5 Years |
| | Lease Tenure | 8 Years |
| | Lease Rent Escalation Terms | 5% every year |

*Source: Lease Deed and Client Inputs*

### 6.3.3 Lease Expiry Profile

The Weighted Average Lease Expiry (WALE) of the Subject Asset is 5.92 years, with 100% of occupied area expiring between FY 2030 and FY 2031. We understand the expiry is beyond 2029, in the year FY 2030 as there is one tenant viz. e-commerce company.

### 6.3.4 Tenant Obligations

Based on the review of the lease deed, we understand that the operational expenses listed below will have to be borne by the Tenant.

| S. No | Description of operational expenses |
|---|---|
| 1 | Regular Maintenance |
| 2 | Taxes |
| 3 | Insurance |
| 4 | General Wear and Tear |
| 5 | Other Expenses such as utility charges towards any Governmental authorities or Concerned service provider. |

Contractual Rental Details

| Tenant | Leased Area (sft) | % of area leased | Total In-place rental (INR psf pm) | Total In-place rental (INR Mn pm) |
|---|---|---|---|---|
| Siliguri Park | 140,474 | 100% | 21.95 | 3.08* |

*Source: Rent roll, Leased deed provided by the Client; *including mezzanine area*

The Mezzanine/ Open space area within the Subject Asset provides convenience to the tenants in the Subject Asset. Also, considering the existing leases within the subject micro market, we have assumed lease rentals for Mezzanine/ Open Spaces in the range of INR 11 - 12 per sf per month (say INR 12 per sf per month) as on date of valuation.

### 6.3.5 Construction Timelines

#### 6.3.5.1 Completed Blocks

As per the information provided, the asset started its operations in phase-wise manner with Phase 1 operationalised in the year 2021, and Phase 2 operationalised in the year 2022.

### 6.3.6 Absorption/ Leasing Velocity and Occupancy Profile

#### 6.3.6.1 Completed Blocks

As per the rent roll provided by the Client, we understand that the completed block has an occupancy of 100% as on date of valuation.

#### 6.3.6.2 Under-Construction/ Proposed Blocks

As per the information provided by the Client, we understand that there are no under construction/ proposed blocks.

### 6.3.7 Revenue Assumptions (Warehouse + Industrial)

#### 6.3.7.1 Warehouse Component

For the purpose of this valuation exercise, the lease rent adopted for the area already leased is based on the rent roll/lease deeds shared by the Client. Further, the Valuer have undertaken an in-depth market research exercise to assess the prevailing rent values in the subject micromarket. The same has been adopted for the vacant space for the purpose of this valuation exercise.

Based on our market study and based on the analysis of the rent roll provided by the Client, following rent has been adopted for the purpose of value assessment of the completed blocks at the Subject Asset. The detailed rent assessment workings are highlighted in the lease rent analysis section presented above.

| Component | Leasable Area (sft) | Leased Area (sft) | Basis | Rent Adopted* (INR psf pm) |
|---|---|---|---|---|
| Siliguri Park | 140,474 | 140,474 | In place rent | 22.0 |
| | | | Market rent | 23.0 |

*Source: Architect certificate, rent roll provided by the Client; (Please note according to the lease agreements provided by the Client, it is understood that the rent is paid on the chargeable area, which has been considered for the valuation exercise)*

The above marginal rent assumption is adopted for the entire subject development. In addition to undertaking an in-depth market analysis, a detailed analysis of the rent rolls was also undertaken to understand aspects such as area occupied, current rent and expiry analysis of the key tenants in the park.

For the purpose of this valuation exercise, the lease rent adopted for the area already leased is based on the lease deed/rent roll shared by the Client. Further, an in-depth market research exercise has been undertaken to assess the expected economic rental value of the Subject Asset.

Based on our market study, we understand that the contracted rental of the Subject Asset is in line with the expected economic rental values. Hence, we have considered contracted rentals for the purpose of value assessment at the Subject Asset:

#### 6.3.7.2 Non-Warehouse Component

As per the information provided by the Client, it is understood that an industrial open space area/ mezzanine area measuring approx. 25,888.41 sf including both the phases of which 100% is leased out. The mezzanine area will operate as ancillary providing convenience to the tenants in the Subject Asset.

### 6.3.8 Rent Escalation

Based on an analysis of existing lease rolls and recent leasing at the Subject Asset, it was observed that the typical escalation clause in the Subject Asset is approx. 4.0% every year, which is in-line with the trend observed in the market.

Escalation on renewal - Based on the analysis of terms of lease deed/rent roll, it was observed that the typical escalation clause in the Subject Asset is 5% per annum, which is in-line with the trend observed in the market. The same has been adopted by the Valuer.

| Particulars | Unit | Details |
|---|---|---|
| Lease Rental Escalations | % p.a. | 5.0% |

*Source: Valuer's assessment*

Market Rent Escalation - Based on the trend observed in the market and based on review of the Industry Assessment report, the valuer has considered a market escalation of 5% per annum effective from the date of valuation. The assumption for market rent for this appraisal exercise is as follows:

| Particulars | Sept 2024 | March 2025 | March 2026 | March 2027 Onwards |
|---|---|---|---|---|
| Market Rent Escalation | 23.0 | 24.15 | 25.36 | 5% escalation year on year |

*Source: Valuer's assessment*

### 6.3.9 Other Revenues

In addition to lease rent revenues, assets typically have additional sources of revenue. These include revenues on account of security deposit (refunded at the time of lease expiry / exit), other miscellaneous income etc.

The assumptions considered for the aforementioned revenue heads for the purpose of this valuation exercise are based on the rent roll & lease deeds provided by the Client. The same has been cross-checked with the prevailing market norms for other revenues and were found to be broadly in line.

The assumptions adopted for other revenues are as tabulated below:

| Nature of Income | Details | Units |
|---|---|---|
| CAM Income (For completed component) | 1 | INR per sft per month |

*Source: Valuer's assessment*

### 6.3.10 Capital Expenditure

#### 6.3.10.1 Development Cost

Not applicable. The Subject Asset is an operational asset.

#### 6.3.10.2 Major Repair and improvements

As per information provided by the Client, we understand that there are no major repairs and improvement proposed in the said asset.

#### 6.3.10.3 Operating Cost

A standing investment asset typically has few recurring operation expenses required for the upkeep running of the development.

In addition to capital expenditure, an asset typically has few recurring operational expenses required for the up-keep and running of the asset. Based on information provided by the Client and market assessment, following recurring expense assumptions have been adopted for the purpose of this valuation exercise:

| Nature of Expense | Details |
|---|---|
| Asset Client Fee^ | 3% of revenues from operations |
| Property Tax^ | 2.5% |
| Insurance^ | 0.16 Mn |
| Vacancy Allowance during operations^ | 1% |
| Vacancy Allowance on Exit^ | 1% of revenues from operations |
| Refurbishment Reserve^ | 1.5% of revenues from operations |

*Source: Client input; ^Valuer's assessment*

### 6.3.11 Other Assumptions

#### 6.3.11.1 Vacancy provision

Based on review of the rent roll provided, we understand that that the completed portion of the Subject Asset is fully occupied with a WALE of 5.92 years. Considering the same alongside other asset level parameters (location, amenities, grade, infrastructure etc) and market benchmarks, the valuer has adopted a vacancy provision as follows:

| Description | Blocks |
|---|---|
| Vacancy Provision | During Operations – 1%<br>Assessment at the time of exit – 2.5% |

*Source: Valuer's assessment*

#### 6.3.11.2 Revenue escalation

Based on prevailing market condition, historical rent growth achieved by the Subject Asset and our interactions with market participants, we are of the opinion that the annual marginal rent growth of 5% has been considered for the FY 2023 and 5% year on year thereafter

#### 6.3.11.3 Rent-free period

Based on the rent roll provided by the Client, it is understood that the existing leases have no rent-free period. However, based on recent market trends in the subject micro market, we have considered a rent-free period of 2 months (which includes 1 month of downtime) for new-leases and for re-leasing effective from the lease commencement date.

#### 6.3.11.4 Brokerage

Based on prevalent market dynamics, we have considered brokerage equivalent to 0.4 months of rental income for future / new leases

#### 6.3.11.5 CAM Cashflows

CAM Cashflows for the Subject Asset have been assessed both during the holding period and at the time of notional exit. Margin on CAM and CAM recoveries are included in the financials as per the CAM Charge based on historical performance of the Subject Asset as per the inputs provided by the Client and market benchmarks. The same corresponds to approx. 0% margin on CAM expenses during the holding period and at the time of notional exit.

Based on review of the agreement and based on the subsequent information provided by the Client, we understand that the 100% of the CAM Income would be received by the Client entity/ InvIT entity (as per details from Client) and 100% of the CAM Expense would be borne by tenants/ SPV.

## 6.4 Financial Assumptions

### 6.4.1 Exit Capitalization Rate Adopted

The capitalization rate adopted for valuing the assets has been based on factors such as:

- Historical entry yields (going in cap rates) for yield/ core warehousing asset transactions across various key markets in India have steadily shown a downward trend over last 7 - 8 years from 10.0- 12.0% to about 7.0% - 8.5% in last 1-2 years.
- The increased appetite for income producing assets and availability of various modes of finance (real estate credit flows) backing such acquisitions.
- Yields for warehousing assets across various markets in India have a range of 7.5 – 8.5% in Tier I locations, with Tier II locations having cap rate approx. 50 – 100 bps on the higher vis-a-vis the Tier I location.
- Liquidity associated with InvIT listed/ public listings (multiplicity of buyers and relatively lower budgets per buyer)

Based on the above highlighted attributes, the following cap rate has been adopted for the purpose of our valuation:

| Asset Name | SPV/Hold Co | Status of the Asset | Details |
|---|---|---|---|
| Siliguri Park | Presidency Barter Private Limited | Operational | 7.75% |

*Source: Valuer's assessment*

### 6.4.2 Discount Rate Adopted

For discounting the cash flows, an appropriate discount rate has been calculated on the basis of estimated 'Weighted Average Cost of Capital' (WACC).

### 6.4.3 Cost of Equity

The Valuer has computed the cost of equity as per the Capital Asset Pricing Model (CAPM), which is derived as follows:

Cost of equity = Risk Free Rate (Rf) + Beta (**β**) * (Market Return (Rm) **–** Risk Free Rate (Rf))

As mentioned above, the cost of equity computed using CAPM constitutes of the following components:

- Risk free rate (Rf) i.e., long term (10-year) treasury bond rate in India
- Market return (Rm) based on the returns of Sensex index for the past 10 years
- Computation of 'Beta (β)' of key listed realty stocks and REITs/ InvITs in India with respect to the Broad-Based BSE 500 stock index

The cost of equity adopted for specific assets has been adjusted for market/ asset specific risk pertaining to a real estate asset such as marketing risk, etc. and adjusted for taxation. While the assumptions regarding the quantum of these risks have no quantitative basis, we have adopted them based on our understanding of the market and our opinion on the asset performance.

### 6.4.4 Cost of Debt

Completed Blocks

The cost of debt for Subject Asset has been considered based on prevalent Lease Rental Discounting (LRD) rates for Grade A warehousing developments across the Fulbari micromarkets which are in the range of 7% – 9% depending upon the location, asset quality, occupancy, etc.

### 6.4.5 Weighted Average Cost of Capital (WACC)

Completed Blocks

As highlighted earlier, the cost of debt has been assumed based on the prevalent LRD rates and construction financing for under-construction assets, while the cost of equity assumed has been adjusted for asset and market specific attributes to reflect the market expectations from an operational institutional development. Further, the proportion of debt and equity has been derived considering the prevalent LRD tenures and its contribution in the overall asset value.

Based on above, the following WACC rate has been assumed for the completed Siliguri Park asset forming part of the InvIT portfolio:

| Asset Name | SPV/Hold Co | Particular | Proportion | Cost | WACC |
|---|---|---|---|---|---|
| Siliguri Park | Presidency Barter Private Limited | Debt | 35% | 8% | 11.58% |
| | | Equity | 65% | 13.5% | |

*Source: Valuer's assessment; Please note that the cash flows are assumed to realize evenly during the course of every quarter; hence a mid-quarter discounting convention has been adopted for the purpose of this valuation. Additionally, we have not factored any cash flows attributable to working capital requirement/expenses for valuation as the same is immaterial.*

## 6.5 Value of the Subject Asset

The Valuer is of the opinion that subject to the overriding stipulations contained within the body of this report and to there being no onerous restrictions or unusual encumbrances of which he has no knowledge, the opinion of value of the complete ownership interest in the Subject Asset comprising land and improvements thereon, as explained above, as on 30th September 2024 is as follows:

| Asset Name | Value (INR Mn) |
|---|---|
| Siliguri Park | INR 491 Mn |

*Source: Valuer's assessment*

# 7 Exhibits and Addendums

## 7.1 Other Mandatory Disclosures

### 7.1.1 Details of On-going material litigations including tax disputes in relation to the assets

As per our interaction with the Client, the Client has confirmed that there are no material litigation details pertaining to the asset. Please note that the Valuer has not investigated nor has been provided with any supporting documents.

### 7.1.2 Details of options or rights of pre-emption and other encumbrances

As per our interaction with the Client, the Client has confirmed that there is no options or rights of pre-emption and other encumbrances. Please note that the Valuer has not investigated nor has been provided with any supporting documents.

### 7.1.3 Vulnerability to natural or induced hazards that may not have been covered in town planning/ building control.

As per our interaction with the Client, the Client has confirmed that there are no vulnerabilities pertaining to the asset. Please note that the Valuer has not investigated nor has been provided with any supporting documents.

Also, in our professional judgment based on site inspection, there were no visible vulnerabilities.

### 7.1.4 Details of Revenue Pendencies including local authority taxes associated with InvIT asset and compounding.

As per our interaction with the Client, the Client has confirmed that there is no revenue pendency to the asset. Please note that the Valuer has not investigated nor has been provided with any supporting documents.

Our assessment is under the assumption the asset has a clear title and is free from any encumbrances, disputes, claims that would affect the value. This should be verified by an asset lawyer prior to relying on this valuation.

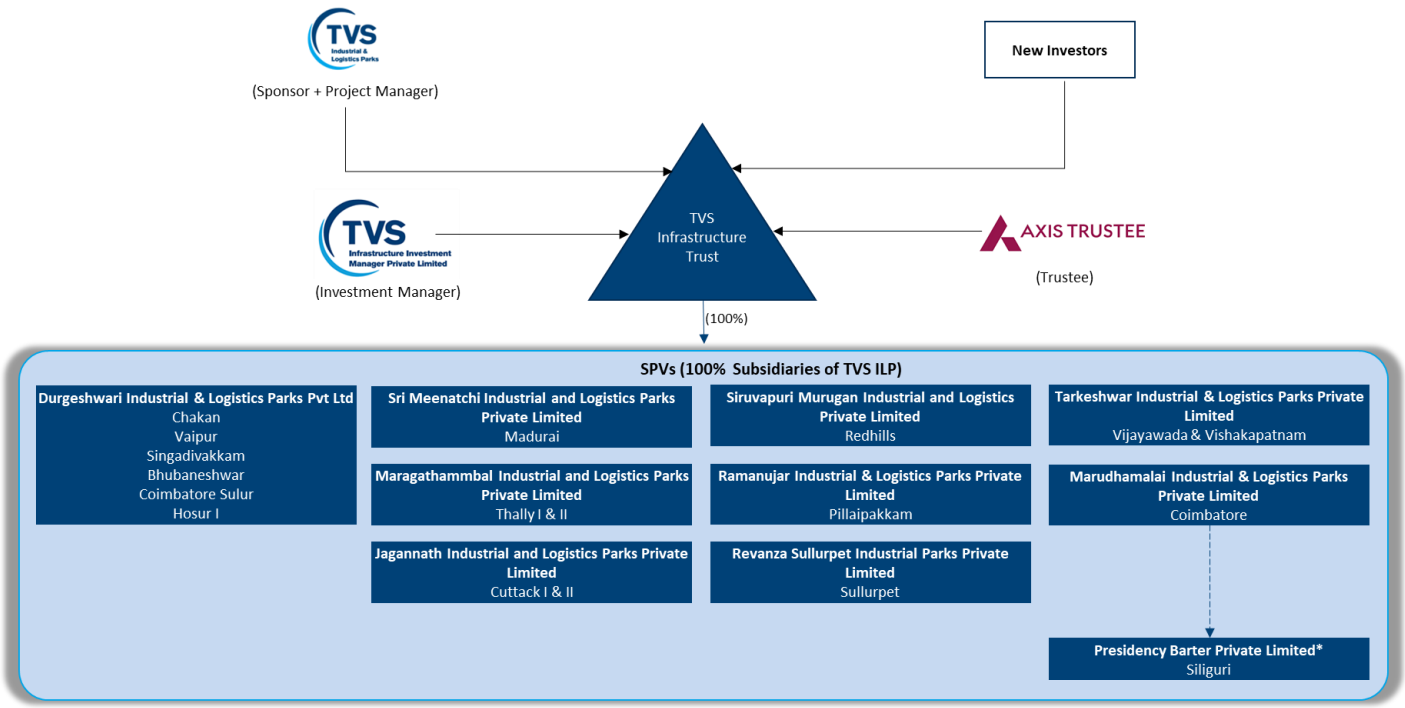
### 7.1.5 Details of the asset including whether the transaction is a related party transaction

The asset is proposed to be acquired from the Sponsor, which is identified as related party under SEBI (InviT) Regulations

### 7.1.6 Nature of the interest the InvIT holds or proposes to hold in the asset, percentage of interest of the InvIT in the asset

As per our interaction with the Client, the Client has confirmed that 100% to be help by the InvIT.

### 7.1.7 Structure of ownership of the asset by the InvIT



*Presidency Barter Private Limited is a 100% subsidiary of Marudhamalai Industrial & Logistics Parks Private Limited

### 7.1.8 Description of key agreements and restrictions relevant to the asset such as terms of concession agreement, power purchase agreements, etc.

As per our interaction with the Client, the Client has confirmed that the same is not applicable to their business.

### 7.1.9 Life of the asset (both contractually and physical life requiring maintenance, replacement and right available to extend this life

| S. No | Particulars | No. of years |
|---|---|---|
| 1 | Remaining Physical Life of the Building asset requiring maintenance | 26 Years |
| 2 | Remaining Contractual Life of underlying Land | Perpetual for the freehold portion of the underlying land (4.265 acres)<br>95.6 years for the leasehold portion of the underlying land (1.388 acres) |
| 3 | Right to extend the contractual life of land | Not applicable. The underlying land is virtually freehold in nature |

### 7.3.2 Fire Certificate

**Government Of West Bengal**
**Office Of The Deputy Director**
**West Bengal Fire & Emergency Services**
**Station Feeder Road, P.O & P.S Siliguri,**
**District: Darjeeling, Pin – 734005**

Memo no.: WBFES/TEC/NB/ 221 /2022 Date: 27/07/2022

**From:**
**Deputy Director**
**North Zone, HQ Wing,**
**West Bengal Fire & Emergency Services**

**To: PRESIDENCY BARTER PVT. LTD.**
**PRESIDENCY BARTER PVT LTD. AT SHILPOBROTO INDUSTRIAL PARK BESIDE BHARAT BENZ JOTIKALI KH NO- 523,MOUZA- BINNAGORI,P.S- RAJGANJ,DIST.- JALPAIGURI,PIN- 734015**

**Sub: Issuance of Fire safety certificate for the occupancy of a G + Mezzanine storied Storage building under group of Storage in the name PRESIDENCY BARTER PVT. LTD. at the Premises no - Kh No- 523,Mouza- Binnagori, Shilpobroto Industrial Park Beside Bharat Benz Jotikali P.S- Rajganj,Dist.- Jalpaiguri,Pin- 734015.**

This is in reference to your offline application dated- 26-07-2022 for regulation of FSC in respect of warehouse **M/S PRESIDENCY BARTER PVT LTD. AT SHILPOBROTO INDUSTRIAL PARK BESIDE BHARAT BENZ JOTIKALI KH NO- 523,MOUZA- BINNAGORI,P.S- RAJGANJ,DIST.- JALPAIGURI,PIN- 734015 for which online RFSR vide number** RFSR/0125188227900007 Dt-22-06-2022 after approval of TEC(NB).

During the course of inspection all fire safety measures recommended in the RFSR were found complied with except connecting the water curtain system with the elevated water reservoir and pumping system.
However, as the applicant has given one written undertaking clearly indicating therein that, they will not make the warehouse operational till Fire Dept. verifies the remaining compliance and allow them to start the operation after connecting the 3 feet span of 8 inch dia connecting pipeline with the elevated water reservoir and pumping system.

Accordingly, the TEC(NB) approved the regularization of FSC in respect of the entire warehouse subject to the following terms and conditions.

The performance of the Fire Fighting System as incorporated in the buildings were tested at random and found satisfactorily working condition. In view of the above this office is releasing the Fire Safety Certificate for occupancy of the aforesaid building.

**Recommendation:**
1. Driveway must be free of any type of obstruction for easy movement of Fire Appliances. No parking will be allowed on the Drive way.
2. The Interior finish decoration of building shall be made with low flame spread material confirming to the I.S. Specification.

### 7.3.8 Title Search Report

AQUILAW

JANUARY 17, 2025

**To,**

1. TVS Infrastructure Investment Manager Private Limited

2. Presidency Barter Private Limited

**Re: LEASEHOLD AND FREEHOLD LAND COMPRISED IN 25 (TWENTY FIVE) PLOT NUMBERS ADMEASURING 5.653 ACRES[1] TOGETHER WITH WAREHOUSE BUILDINGS COMPRISING OF AROUND TOTAL FLOOR AREA ADMEASURING 13,935.32 SQ.MTRS EQUIVALENT TO 1,39,222.85 SQ.MTRS SITUATED AT MOUZA BINNAGURI (SHEET NO. 13) IN BLOCK RAJGANJ, DISTRICT JALPAIGURI, WEST BENGAL**

---

**1. BACKGROUND**

**1.1** Presidency Barter Private Limited ("**SPV**") is the owner of land admeasuring 4.265 acres ("**Freehold Land**") and is the lessee in respect of the remaining 1.388 acres of land ("**Leasehold Land**") forming part of the land admeasuring 5.653 acres comprised in 25 (twenty five) plot numbers in Mouza Binnaguri (Sheet No. 13), (the "**Land**"), together with Warehouse Buildings comprising of around total Floor Area admeasuring 13,935.32 sq.mtrs equivalent To 1,39,222.85 sq.mtrs ("**Buildings**"), collectively the "**Property**" within the jurisdiction of Police Station Bhaktinagar and Block Rajganj, District Jalpaiguri, West Bengal, which is more fully discussed in the **First Schedule** of this report.

**1.2** We have been instructed by TVS Infrastructure Investment Manager Private Limited (the "**Manager**") to undertake a title due diligence exercise to verify the SPV's title to the Property, summarize the key legal issues arising from our title due diligence exercise and issue a title report in this regard ("**Title Report**") for the purpose of acquiring the Property ("**Proposed Transaction**").

**1.3** Accordingly, we have taken the following steps for this purpose:

(a) Reviewed the documents listed in Para 4 of this Title Report out of the documents listed in the **Second Schedule** of this Title Report at TVS ILP, 9th floor, Urmi estate,95 Ganapatrao Kadam Marg Lower Parel (West) Mumbai 400013, on 14 January 2025;

(b) Caused physical and online searches and verification of the land records maintained at and/or information available at the Office of the Block Land and Land Reforms Officer, Rajganj as well as the website of the Land & Land Reforms and Refugee Relief and Rehabilitation Department, Government of West Bengal ("**GoWB**") (https://banglarbhumi.gov.in) ("**Website**");

(c) Caused physical searches and verification of the land records maintained at and/or information available at the Office of the Land Acquisition Collector, Jalpaiguri;

(d) Carried out review of the corporate documents, being the Memorandum of Association ("**MOA**"), Articles of Association ("**AOA**") and Certificate of Incorporation of the SPV provided to us;

(e) Caused searches to be conducted in the records of the Index II Registers of the concerned registry offices, being (i) Office of the Registrar of Assurances, Kolkata; (ii) District Sub-Registrar, Jalpaiguri; (iii) Additional District Sub-Registrar, Rajganj; and (iv) Additional District Sub-Registrar, Bhaktinagar, to confirm ownership of the Property and to verify that no other act or encumbrance affecting the Property has been found for a period of the last 30 (thirty) years, except for the transfer of title of the Property in favour of the SPV;

**"Legal Notice and Disclaimer"**

This valuation report (the "Report") has been prepared by iVAS Partners. ("iVAS") exclusively for TVS Industrial & Logistics Parks Private Limited (the "Instructing Party" or "Client"), in accordance with the Agreement entered into between iVAS and the Instructing Party dated 1st February 2024 (the "Agreement"). The Report is confidential to the Instructing Party and any other Addressees named herein and the Instructing Party and the Addressees may not disclose the Report unless expressly permitted to do so under the Agreement.

Where iVAS has expressly agreed that persons other than the Instructing Party or the Addressees can rely upon the Report (a "Reliant Party" or "Reliant Parties") then iVAS shall have no greater liability to any Reliant Party than it would have if such party had been named as a joint client under the Agreement.

iVAS's maximum aggregate liability to the Instructing Party and to any Reliant Parties howsoever arising under, in connection with or pursuant to this Report and/or the Agreement together, whether in contract, tort, negligence or otherwise shall be limited as defined under the terms of the Agreement.

iVAS shall not be liable for any indirect, special or consequential loss or damage howsoever caused, whether in contract, tort, negligence or otherwise, arising from or in connection with this Report. Nothing in this Report shall exclude liability which cannot be excluded by law.

If you are neither the Instructing Party, an Addressee nor a Reliant Party then you are viewing this Report on a non-reliance basis and for informational purposes only. You may not rely on the Report for any purpose whatsoever and iVAS shall not be liable for any loss or damage you may suffer (whether direct, indirect or consequential) as a result of unauthorized use of or reliance on this Report. iVAS gives no undertaking to provide any additional information or correct any inaccuracies in the Report.

For the avoidance of doubt, nothing in our Report will constitute any recommendation, investment advice or an offer or solicitation for the purpose of or for sale of any securities, financial instrument or products or other services. Any investors should make their own investment decisions in relation to any investments. If you do not understand this legal notice, then it is recommended that you seek independent legal advice.

# 1 Executive Summary

| | |
|---|---|
| Asset Name: | Vijayawada Park (the "Subject Asset") |
| Asset Address: | R.S. No. 107-1A, 107-1B, 107-2B, 108-2A2, 108-2B, 108-3, 108-4A, 109-5B & 109-6 of Gollagudem Village, Punadipadu Revenue Village, Near J C United, Gollagudem Grama Panchayat, Kankipadu Mandal, Krishna District, Andhra Pradesh - 521151. |
| Instructing Party: | TVS Industrial & Logistics Parks Private Limited (the "Client") |
| SPV Name: | Tarkeshwar Industrial & Logistics Parks Private Limited/ TVS ILP |
| Interest Valued: | 100% Freehold interest |
| Land Area: | As per the review of the architect certificate, sale deed and conversion order provided by the Client, it is understood that the gross underlying land area of the Subject Asset is approx. 12.68 acres. |
| Brief Description: | Based on information provided by the Client and subsequent site visit undertaken, it is understood that the Subject Asset is an under-development warehousing development, located along the Gudivada - Kankipadu Road (SH-243).<br><br>The Subject Asset is spread over a land parcel measuring gross area 12.68 acres and converted land area of 12.60 acres. It comprises of a single Grade – A Warehousing block having total leasable area of 2,96,300 sft. The warehousing block is currently in the final stages of completion and has a pre-commitment of approx. 0.13 msf. By virtue of being surrounded by a network of National highway (such as Vijayawada - Machilipatnam Road, NH-65, and Chennai - Kolkata Highway, NH-16) and State highway roads (such as SH306 and SH243, Gudivada-Kankipadu Road) in the proximity, the location is considered an ideal inter-state transport node and offers excellent connectivity to other locations within the city. The subject micromarket of Kankipadu is an emerging warehousing vector. Some of the prominent warehousing assets in the micro-market include LG, Reliance Fresh, JC united, etc.<br><br>The Subject Asset is located at approx. 11-12 kms from Vijayawada International Airport, approx. 2-3 kms from Kankipadu Junction (NH-65), approx. 19-20 kms from Vijayawada Railway Station. |
| Statement of assets (sft): | Based on review of architect certificate, building permit order and area statement provided by the Client, it is understood that the Subject Asset comprises of a single warehousing block. Below are the area details: |

| Particulars | Construction Status | Leasable area (sft) | Chargeable area (sft) |
|---|---|---|---|
| Block I | Under-development | 2,94,281 | 2,94,281 |
| Total | | 2,94,281 | 2,94,281 |

*Source: Architect certificate, rent roll provided by the Client (Please note according to the lease agreements provided by the Client, it is understood that the rent is paid on the chargeable area, which has been considered for the valuation exercise)*

Further, we understand that the project has obtained the Occupancy Certificate.

Also, as per the Client, the total budgeted construction cost for the development of subject warehousing facility is INR 544.78 Mn, of which INR 453.98 Mn is already incurred and the remaining cost, i.e. INR 90.80 Mn in the Subject Asset is expected to be incurred by Q3, FY 2025. The same has been considered for the purpose of this valuation exercise.

Location Map:

Location Map for the Subject Asset

*Source: Industry Assessment Report*

Tenancies

As of the valuation date, the Subject Asset is partially let to 3 tenants at a total current annual rent of approx. 2.57 Mn. The tenant viz. a large FMCG occupier currently occupies the largest area viz. 82,234 sft (60% of the leasable area) and accounts for approx. 57% of the current rent. The Subject Asset has a WALE of 8.79 years.

Any matters which may affect the asset or its value:

Please refer section 7.7 of this report.

Assumptions, Disclaimers, Limitations & Qualifications:

This valuation report is provided subject to assumptions, disclaimers, limitations and qualifications detailed throughout this report which are made in conjunction with those included within the Assumptions, Disclaimers, Limitations & Qualifications section located within this report.

Reliance on this report and extension of our liability is conditional upon the reader's acknowledgement and understanding of these statements. This valuation is for the use of the party to whom it is addressed and for no other purpose. No responsibility is accepted to any third party who may use or rely on the whole or any part of the content of this valuation. The valuer has no pecuniary interest that would conflict with the proper valuation of the asset.

Heightened Market Volatility:

We draw your attention to current heightened geopolitical tensions, low economic growth in many major countries, and a "higher for longer" interest rate sentiment which have increased the potential for constrained credit markets, negative capital value movements and continued volatility in some property markets over the short-to-medium term.

Experience has shown that consumer and investor behaviour can quickly change during periods of such heightened volatility. Lending or investment decisions should reflect any heightened level of volatility and potential for changing market conditions. Lending and investment caution is advised in this regard.

It is important to note that the conclusions set out in this report are valid as at the valuation date only. Where appropriate, we recommend that the valuation is closely monitored, as we continue to track how markets respond to evolving events.

Construction Cost Volatility:

Although general increases in material costs have stabilised since 2022, some specialised supply chains and construction-related labour costs remain volatile with the potential for further increases. This has created uncertainty in cost estimates, which is likely to continue.

In addition, there are significant risks that delays may be encountered in sourcing specialised materials and labour, and as such, the potential for ongoing cost escalations and delays is high. This may place additional pressure on developer and contractor profit margins and development viability.

These inherent risks should therefore be given careful consideration in lending and investment decisions. Caution is advised in this regard.

Notice

This Executive Summary should be read in conjunction with the entire valuation report and should not be relied upon in isolation.

Valuer Declaration:

i. The valuer is competent to undertake the valuation.

ii. The valuer is independent and has prepared the report on a fair and unbiased basis.

iii. The valuer has valued the assets based on the valuation standards as specified under sub-regulation 10 of regulation 21

# 2 Instruction

iVAS Partners ( Valuer Registration Number: IBBI/RV-E/02/2020/112; hereinafter referred as 'Valuer') represented by its partner Mr. Shubhendu Saha, a registered valuer under the Companies Act 2013 with IBBI (Valuer Registration Number: IBBI/RV/05/2019/11552) has been instructed by TVS Industrial & Logistics Parks Private Limited (hereinafter referred as the "Instructing Party", or the "Client") to estimate upon the Market Value (MV) of 'TVSILP, Vijayawada', a warehousing development located at R.S. No. 107-1A, 107-1B, 107-2B, 108-2A2, 108-2B, 108-3, 108-4A, 109-5B & 109-6 of Gollagudem Village, Punadipadu Revenue Village, Near J C United, Gollagudem Grama Panchayat, Kankipadu Mandal, Krishna District, Andhra Pradesh – 521151.

iVAS Partners ('the Valuer') utilized the deliverables of CBRE South Asia Private Limited (CBRE), an independent agency appointed by the Client to undertake market research, provide market commentary, and data for the purpose of this assignment. The Valuer has utilized the market intelligence provided by CBRE to arrive at the Market Value of the respective assets as per the Securities and Exchange Board of India (Infrastructure Investment Trust) Regulations, 2014 ("SEBI (InvIT) Regulations 2014") and amended to date.

Based on information provided by the Client, we understand that the underlying land parcel of the Subject Asset admeasures approx. 12.68 acres of gross land area, with a total leasable area admeasuring approx. 2,94,281 sft.

iVAS Partners is referred to as the **'Valuer'** for the purpose of this report.

The details of the Subject Asset under the purview of this valuation exercise are tabulated below:

| Asset Name | SPV/Hold Co | Asset Type | Location | Land area | No. of Phases |
|---|---|---|---|---|---|
| Vijayawada Park | Tarkeshwar Industrial & Logistics Parks Pvt. Ltd./ TVS ILP | Warehouse | Vijayawada, Krishna District, Andhra Pradesh | 12.68 | 1 |

*Source: Architect certificate, rent roll provided by the Client; (Please note according to the lease agreements provided by the Client, it is understood that the rent is paid on the chargeable area, which has been considered for the valuation exercise*

*For clarity, we are valuing the Property/ Asset only, not the SPV/Hold Co, which has been provided for reference only.*

## 2.1 Purpose

As per our instructions the valuation is required by the Client for a proposed offer of units through private placement (the "Private Placement") as defined under the Securities and Exchange Board of India (Infrastructure Investment Trust) Regulations, 2014, as amended, together with clarifications, guidelines and notifications issued thereunder, on the Indian stock exchanges. In relation to the Private Placement, the Valuation report, a summary thereof and/or extracts of the report are intended to be included in the offer documents filed by the TVS Infrastructure Trust with the Securities and Exchange Board of India (SEBI) and the stock exchanges where the units of the InvIT are proposed to be listed.

## 2.2 Reliant Party

The Reliant Parties to this Valuation Report will be the Client and TVS Infrastructure Trust, TVS Infrastructure Private Limited in its capacity as sponsor and TVS Industrial and Logistics Park Private Limited in its capacity as Sponsor for the purpose of the valuation as highlighted in this report.

The valuation has been prepared strictly and only for the use of the parties as stated above (Reliant Parties) and for the Purpose specifically stated. The Client would make all Reliant Parties aware of the terms and conditions

of this agreement under which this exercise is being undertaken and take due acknowledgements to the same effect.

## 2.3 Limitation and Disclaimers to Liability

- Valuer is not operating under any financial services license when providing the Valuation Report ("Valuation Report") and this document does not constitute financial product advice. Investors should consider obtaining independent advice from their financial advisor before making any decision to invest in TVS Infrastructure Trust.

- This Valuation Report is strictly limited to the matters contained within this report, and are not to be read as extending, by implication or otherwise, to any other matter in any Offer/ Draft Placement Memorandum/ Placement Memorandum/ Final Placement Memorandum ("Offer Document"). Valuer does not approve or endorse any part of the Offer Document. Any reference to the Valuer or this Valuation Report within the Offer Document must be read in conjunction with this Valuation Report.

- Valuers disclaims any liability to any person in the event of an omission from, or false and misleading statements included in the Offer Document, other than in respect of the information provided within the Valuation Report. Valuers shall not make any warranty or representation as to the accuracy of the information in any part of the Offer Document, other than in respect of the methodology used for the preparation of the information provided within the Valuation Report.

- The liability of Valuer is limited to the Instructing Party, and any Reliant Party nominated within this report only. No accountability, obligation or liability to any third parties is accepted by the Valuer. Valuer disclaims all liability to any investor.

- No liability is accepted for any loss, harm, cost or damage (including special, consequential or economic harm or loss) suffered as a consequence of fluctuations in the real estate market subsequent to the date of valuation. Valuer shall not be liable for any indirect, special, punitive or consequential loss or damage howsoever caused, whether in contract, tort or otherwise, arising from or in connection with this Valuation Report.

- Valuer accepts no responsibility or liability whatsoever (i) unless full disclosure of all information and matters that may have an impact upon the value and marketability of the asset has been made by the Instructing Party or (ii) for any matter arising out of or in relation to possible environmental site contamination or any failure to comply with environmental legislation which may affect the value of the asset.

- None of our employees, directors or Valuers individually has a contract with the Instructing Party or owes them a duty of care.

- Valuer has prepared the Valuation Report relying on and referring to information provided by the Instructing Party and/or third parties including financial and market information ("Information"). Valuers have assumed that the Information is accurate, reliable and complete and has not independently verified such Information.

- The Valuation Report draws attention to the key issues and considerations impacting value and provides a detailed assessment and analysis as well as key critical assumptions, general assumptions, disclaimers, limitations and qualifications and recommendations. As commercial investments of this nature are inherently

complex and the market conditions have changed and/or have been uncertain in recent times, Valuer recommends that any references to value within the Offer Document must be read and considered together with the Valuation Report.

- This Valuation Report may not be reproduced in whole or in part without the prior written approval of the Valuer.
- The Valuation Report does not purport to contain all the information that a potential investor or any other interested party may require. It does not consider the individual circumstances, financial situation, investment objectives or requirements. It is intended to be used as guide and for information purposes only and does not constitute advice including without any limitation, investment, tax, legal or any other type of advice. The valuations stated are only best estimates and are not to be construed as a guarantee. Potential investors should not rely on any material contained in the Valuation Report as a statement or representation of fact but should satisfy themselves as to its correctness by independent investigation and review of the Valuation Report to understand the assumptions and methodologies stated in the reports.
- For the avoidance of doubt, all references to "Offer Document" herein shall include any offer document, final offer document, prospectus and/or any other accompanying documents required under the SEBI (InvIT) Regulations 2014.

## 2.4 Limitation and Qualification

Valuation has been conducted solely for the benefit and use of the Instructing Party, and any Reliant Party nominated within this Valuation Report. The report and valuations should not be used for any other purpose other than the expressly intended purpose as mentioned in the Valuation Report. They are not to be used, circulated, quoted or otherwise referred to for any other purpose, nor are they to be filed with or referred to in whole or in part in any document without the prior written consent of Valuer where such consent to be given at the absolute, exclusive discretion of Valuer, which shall not be unreasonably withheld. Where they are to be used with the Valuer's written consent, they shall be used only in their entirety and no part shall be used without referring to the whole report unless otherwise expressly agreed in writing by Valuer.

Neither the whole nor any part of our report, nor any reference thereto, may be included in any published document, circular or statement, nor published in any way nor disclosed orally or in communication to a third party, including the form and context in which it is to appear without Valuer's prior written consent.

The Valuer does not purport to provide a site or structural survey in respect of the asset(s) valued. The Valuer does not purport to be suitably qualified to provide professional advice in respect of building or site contamination. The Reliant Party(ies) should seek independent advice on these issues. The Services are provided on the basis that the Management has disclosed to the Valuer all information which may affect the Services. All opinions expressed by the Valuer, or its employees are subject to any conditions contained in the Valuation report.

## 2.5 Valuer Capability

iVAS Partners, (Valuer Registration Number: IBBI/RV-E/02/2020/112), represented by its partner Mr. Shubhendu Saha (Valuer Registration Number: IBBI/RV/05/2019/11552) delivers independent valuation (across categories viz. land & building and plant & machinery), advisory and technical due diligence services, that combine

professional expertise with comprehensive databases, analytics and market intelligence across various asset classes and locations in India.

Mr. Shubhendu Saha is registered as a valuer with the Insolvency and Bankruptcy Board of India (IBBI) for the asset class Land and Building under the provisions of The Companies (Registered Valuers and Valuation) Rules, 2017 since 15 May 2019. He completed his bachelor's in planning from the School of Planning and Architecture, New Delhi in 1997 and master's in management studies from Motilal Nehru National Institute of Technology, Allahabad in 1999.

## 2.6 Scope of Valuation

The valuation has been undertaken to ascertain the market value of the Subject Asset forming part of the proposed TVS Infrastructure Trust as of the valuation date. The valuer has estimated the market value of each individual asset, not the value of the portfolio of Assets, if sold in one transaction. In consideration of the same, a detailed assessment of the site and surroundings has been undertaken with respect to the prevalent activities, change in dynamics impacting the values and the optimal use of the Subject Asset vis-à-vis the surrounding micromarkets, etc.

The primary catchment for the valuation has been defined as Kankipadu region and the surrounding areas of Vijayawada. An in-depth research exercise has been conducted in the catchment area of the Subject Asset to ascertain the prevalent activity levels in terms of warehousing/Industrial segment in the vicinity of Subject Asset. This has been achieved through interactions with various market players such as local real estate brokers, developers, end-users, etc.

The location, micromarket and catchment area for the Subject Asset is tabulated below:

| Asset Name | SPV/Holdco | City | Micromarket/ Catchment Area |
|---|---|---|---|
| Vijayawada Park | Tarkeshwar Industrial & Logistics Parks Pvt. Ltd./ TVS ILP | Vijayawada | Kankipadu |

*Source: Client Inputs*

## 2.7 Valuer's Interest

The Valuer certify that; he/they do not have a pecuniary interest, financial or otherwise, that could conflict with the proper valuation of the asset (including the parties with whom our instructing party is dealing, including the lender or selling agent, if any; accepts instructions to value the asset only from the Client.

## 2.8 Qualifications/ Valuation Standards

This valuation is prepared in accordance with the International Valuation Standards (IVS) 2022.

The team involved in this engagement comprises of valuers registered with IBBI and RICS members with significant experience of valuations in Indian infrastructure and real estate market.

## 2.9 Disclosures

This Valuer hereby certify that:

- iVAS Partners (Valuer Registration Number: IBBI/RV-E/02/2020/112), represented by its partner Mr. Shubhendu Saha (Valuer Registration Number: IBBI/RV/05/2019/11552), is registered as a registered valuer entity under Section 247 of the Companies Act, 2013 and The Companies (Registered Valuers and Valuation)

Rules, 2017, as amended, and is eligible to be appointed as Valuer under the provisions of the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014, as amended and that the Valuation report has been prepared in accordance with these InvIT Regulations.

- iVAS Partners (represented by Mr. Shubhendu Saha - Partner, iVAS Partners) is not an associate of TVS Industrial & Logistics Parks Private Limited (the "Sponsor") and TVS Infrastructure Trust (the "Trust")
- The Valuer, as represented by its partner, Mr. Shubhendu Saha, has the required minimum years of experience in the valuation of infrastructure assets, as required under the SEBI (InvIT) Regulations.
- The Valuer has not been involved with the acquisition or disposal within the last twelve months of any of the asset(ies) valued under this Valuation report.
- The Valuer has adequate and robust internal controls to ensure the integrity of the Valuation reports.
- The Valuer has sufficient key personnel with adequate experience and qualification to perform services related to asset valuation at all times.
- The Valuer has sufficient financial resources to enable them to conduct their business effectively and meet their liabilities.
- The Valuer has acquainted itself with all laws or regulations relevant to such valuation.
- iVAS Partners is not prohibited from acting as a valuer under applicable law.
- The valuation of assets undertaken is impartial, true and fair and in accordance with the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014, regulation 21.
- The Valuer and any of its employees/ Valuer involved in valuation of the InvIT assets are not invested in and shall not invest in units of the InvIT or in the assets being valued during the time such entity/person is designated as valuer of such InvIT and not less than 6 months after ceasing to be valuer of the InvIT.
- The Valuer has conducted the valuation of the InvIT assets with transparency and fairness and has rendered and shall render, at all times, high standards of service, exercise due diligence, ensure proper care and exercise professional judgement.
- The Valuer has acted with independence, objectivity and impartiality in performing the valuation.
- The Valuer has discharged its duties towards the TVS Infrastructure Trust in an efficient and competent manner, utilizing its knowledge, skills and experience in best possible way to complete the said assignment.
- The Valuer has not and shall not accept remuneration, in any form, for performing a valuation of the InvIT assets from any person or entity other than the TVS Infrastructure Trust or its authorized representatives.
- The Valuer has no present or planned future interest in the Management, Trustee, TVS Infrastructure Trust , the Sponsor to the TVS Infrastructure Trust and its sponsor group or the Special Purpose Vehicles (SPVs), holdcos, investment entity and the fee for this Report and the valuation exercise is not contingent upon the

values reported herein. Our valuation analysis should not be construed as investment advice; specifically, we do not express any opinion on the suitability or otherwise of entering into any financial or other transaction with the Management or the SPVs/ holdcos/ investment entity.

- The Valuer shall before accepting any assignment from any related party to the TVS Infrastructure Trust, disclose to the TVS Infrastructure Trust, any direct or indirect consideration which the Valuer may have in respect of such assignment
- The Valuer shall disclose to the trustee of the TVS Infrastructure Trust, any pending business transactions, contracts under negotiation and other arrangements with the Management or any other party whom the TVS Infrastructure Trust is contracting with and any other factors which may interfere with the Valuer's ability to give an independent and professional valuation of the asset; as on the date of valuation, there are no impediments for Valuer to give an independent professional value opinion of the asset
- The Valuer has not made false, misleading or exaggerated claims in order to secure assignments.
- The Valuer has not and shall not provide misleading valuation, either by providing incorrect information or by withholding relevant information
- The Valuer has not accepted and shall not accept an assignment that includes reporting of the outcome based on predetermined opinions and conclusions required by the TVS Infrastructure Trust.
- The Valuer has not accepted the said assignment which interferes with its ability to do fair valuation
- The valuation undertaken by the Valuer abides by International Valuation Standards for valuation in compliance with The Companies (Registration of Valuers and Valuation) Rules, 2017
- The Valuer understands that most of these assets are wholly/partly owned/ tenanted by related parties, hence, any transactions related to these assets from the related parties being valued would be related party transactions.
- The Valuer notes that there are encumbrances, however, no options or pre-emptions rights in relation to the assets based on the title report prepared by Cyril Amarchand Mangaldas. (hereinafter collectively referred to as 'Legal Counsels'). The Valuer does not have the expertise or the preview to verify the veracity or quantify these encumbrances, disputes or claims. For the purpose of this valuation, the Valuer has assumed that the respective assets have title deeds that are clear and marketable.

## 2.10 Assumptions, Disclaimers, Limitations & Qualifications to Valuation

| | |
|---|---|
| Valuation Subject to Change: | The subject valuation exercise is based on prevailing market dynamics as on the date of valuation and does not take into account any unforeseeable developments which could impact the same in the future |
| Our Investigations: | The Valuers are not engaged to carry out all possible investigations in relation to the subject assets. Where in our report the Valuer identify certain limitations to our investigations, this is to enable the reliant party to instruct further investigations were considered appropriate or where the Valuer recommend as necessary prior to reliance. The Valuer are not liable for any loss occasioned by a decision not to conduct further investigations |
| Assumptions: | Assumptions are a necessary part of undertaking valuations. The Valuer adopts assumptions for the purpose of providing valuation advice because some matters are not capable of accurate calculation or fall outside the scope of our expertise, or our instructions. Assumptions adopted by iVAS Partners will be formulated on the basis that they could reasonably be expected from a professional and experienced valuer. The Reliant Party accepts that the valuation contains certain specific assumptions, and acknowledges and accepts the risk that if any of the assumptions adopted in the valuation are incorrect, then this may have an effect on the valuation |
| Information Supplied by Others: | The valuations are based on the information provided by the Client (TVS Industrial & Logistics Parks). The same has been assumed to be correct and has been used for valuation exercise. Where it is stated in the report that another party has supplied information to the 'Valuer', this information is believed to be reliable, but the 'Valuer' can accept no responsibility if this should prove not to be so.<br>We have assumed that where any information relevant to our valuation is supplied by the Instructing Party, or by any third party at Instructing Party's instigation, it is correct and comprehensive, and can be safely relied upon by us in preparing our valuation.<br>We would recommend that before any financial transaction is entered into based on the valuations, you obtain verification of any third-party information provided. We also recommend that you check the validity of the assumptions we have adopted in our report (where we have been unable to verify the facts through our own observations or experience) |
| Matters which affect or may affect the valuation: | If the Reliant Party becomes aware of any matters which affect or may affect the valuation, then Valuer must be advised of those matters. The Reliant Party's failure to do so will disentitle the Reliant Party to place reliance on the valuation and reliance must not be placed on the valuation/s under any circumstance |
| Future Matters: | To the extent that the valuation includes any statement as to a future matter, that statement is provided as an estimate and/or opinion based on the information known to the 'Valuer' at the date of this document. The 'Valuer' does not warrant that such statements are accurate or correct |
| Map and Plans: | Any sketch, plan or map in this report is included to assist reader while visualizing the assets and the Valuers assume no responsibility in connection with such matters.<br>Further. all maps and plans quoted in our report are solely for illustration purposes only. While they are extracted from public sources, they may be not to scale. Valuer does not warrant that such dimensions shown are accurate. |
| Site Details: | Based on title due-diligence and other information provided by the Client, the Valuer understands that the Subject Asset is free from any encroachments and are available as on the date of the valuation |
| Asset Title: | For the purpose of this valuation exercise, the Valuer has relied on the Title Reports prepared by the Legal Counsels for each of the assets and has made no further enquiries with the relevant local authorities in this regard. The Valuer understands that the subject assets may have encumbrances, disputes and claims. The Valuer does not have the expertise or the preview to verify the veracity or quantify these encumbrances, disputes or claims. For the purpose of this valuation, the Valuer has assumed that the respective assets have title deeds that are clear and marketable. We recommend that a suitable asset Lawyer or similar reviews these assumptions and confirm they are reasonable before relying in this report. |
| Environmental Conditions: | In preparing our valuation we assume that no contaminative or potentially contaminative use is, or has been, carried out at the property. We do not undertake any investigation into the past or present uses of either the property or any adjoining or nearby land, to establish whether there is any potential for contamination from these uses and assume that none exists. Should it, however, be subsequently |

| | |
|---|---|
| | established that such contamination exists at the property or on any adjoining land or that any premises have been or are being put to contaminative use, this may have a detrimental effect on the value reported |
| Town Planning: | The current zoning of the subject assets has been adopted on the basis of review of various documents (title deeds & approval documents) provided by the Client and the current land use maps for the micromarket. The same has been considered for the purpose of this valuation exercise. Further, it has been assumed that the development on the subject assets adheres/ would adhere to the development regulations as prescribed by the relevant authorities. The Valuer has not made any enquiries with the relevant development authorities to validate the legality of the same.<br><br>Our valuations are prepared on the assumption that the premises comply with all relevant statutory enactments and Building Acts and Regulations, that a valid and up-to-date Fire Certificate has been issued. We assume that all necessary consents, licenses and authorizations for the use of the asset and the process carried out therein have been obtained and will continue to subsist and are not subject to any onerous conditions.<br><br>In the event that a legal requisition or other relevant planning information or document is obtained, and the information therein is found to be materially different to the town planning information in the report, the valuation must not be relied upon before first consulting iVAS Partners to reassess any effect on the valuation/s |
| Area: | The total leasable area considered for the purpose of this valuation exercise is based on the area statement provided by the Client. It must be noted that the above information has been provided by the Client and has been verified based on the approvals/ layout plans/building plans provided by the Client. However, the Valuer has not undertaken additional verification and physical measurement for the purpose of this valuation exercise |
| Condition & Repair: | In the absence of any information to the contrary, the Valuer has assumed that there are no abnormal ground conditions, nor archaeological remains present which might adversely affect the current or future occupation, development or value of the asset; the asset is free from rot, infestation, structural or latent defect; no currently known deleterious or hazardous materials or suspect techniques will be used in the construction of or subsequent alterations or additions to the asset and comments made in the asset details do not purport to express an opinion about, or advice upon, the condition of uninspected parts and should not be taken as making an implied representation or statement about such parts |
| Not a Structural Survey: | The Valuer states that this is a valuation report and not a structural survey |
| Legal: | Unless specifically disclosed in the report, the Valuer has not made any allowances with respect to any existing or proposed local legislation relating to taxation on realization of the sale value of the Subject Asset.<br><br>We do not read legal documentation. Where legal documentation is provided to us, we will have regard to the matters therein but recommend that reliance should not be placed on our interpretation thereof without prior verification by your legal advisors. Unless disclosed to us, we assume that there are no outstanding statutory breaches or impending litigation in respect of the property. We further assume that all documentation is satisfactorily drawn and that unless disclosed to us, there are no unusual or onerous restrictions, easements, covenants or other outgoings which would adversely affect the value of the relevant interest(s). In respect of leasehold assets, we will assume that your landlord will give any necessary consents to an assignment. Unless notified to the contrary we assume that each property has a good and marketable title and is free from any pending litigation |
| Others: | Considering the unorganized nature of real estate markets in India, all comparable evidence (if any) provided in the valuation report has been limited to the basic details such as the area of asset, rate at which transacted, broad location, etc. other specific details would be provided only if the information is available in public domain |
| Other Assumptions: | Please note that all the factual information such as tenants' leasable area, lease details such as lease rent, lease commencement and lease end date, lock – in period, escalation terms, etc. pertaining to the subject assets is based on the information provided by the Client and the same has been adopted for the purpose of this valuation exercise. Any change in the above information will have an impact on the assessed value and in that case the Valuer will have to relook at the assessed value. The relevant information sources are represented in section 5.5. |

| | |
|---|---|
| | All measurements, areas and ages quoted in our report are approximate.<br><br>We are not advisors with respect to legal, tax and regulatory matters for the transaction. No investigation of the respective Special Purpose Vehicles (SPVs) holding the assets' claim to title of assets has been made for the purpose of this Report and the SPVs' claim to such rights have been assumed to be valid. No consideration has been given to liens or encumbrances against the assets. Therefore, no responsibility is assumed for matters of a legal nature |
| Flooding risk: | We have assumed that either there is no flooding risk or, if there is, that sufficient flood defenses are in place and that appropriate building insurance could be obtained at a cost that would not materially affect the capital value. |
| Site Conditions: | We do not commission site investigations to determine the suitability of ground conditions and services, nor do we undertake environmental or geotechnical surveys. We have assumed that these aspects are satisfactory and also that the site is clear of underground mineral or other workings, methane gas or other noxious substances.<br><br>In the case of property which may have redevelopment potential, we proceed on the basis that the site has load bearing capacity suitable for the anticipated form of redevelopment without the need for additional and expensive foundations or drainage systems (unless stated otherwise) |
| Hazardous & deleterious materials: | Unless otherwise noted, we have assumed that the improvements are free of Asbestos and Hazardous Materials, or should these materials be present then they do not pose significant risk to human health, nor require immediate removal. We assume the site is free of subsoil asbestos and have made no allowance in our valuation for site remediation works.<br><br>Our visual inspection is an inconclusive indicator of the actual condition/presence of asbestos/hazardous materials within the property. We make no representation as to the actual status of the Property. If a test is undertaken at some time in the future to assess the degree, if any, of the presence of any asbestos/hazardous materials on site and this is found to be positive, this valuation must not be relied upon before first consulting iVAS Partners to reassess any effect on the valuation.<br><br>Unless specifically instructed, we do not carry out investigations to ascertain whether any building has been constructed or altered using deleterious materials or methods. Unless specifically notified, our valuation assumes that no such materials or methods have been used |
| Unregistered interests: | We have assumed that there are no unregistered interests or interests not captured by the applicable Regulatory Authority in the country which services are to be carried out which may affect market value. In the event that the Reliant Party becomes aware of any further or pending easements, encumbrances or unregistered interests, this valuation must not be relied upon before first consulting iVAS Partners in writing to reassess any effect on the valuation |
| Heightened Market Volatility: | We draw your attention to current heightened geopolitical tensions, low economic growth in many major countries, and a "higher for longer" interest rate sentiment which have increased the potential for constrained credit markets, negative capital value movements and continued volatility in some property markets over the short-to-medium term.<br><br>Experience has shown that consumer and investor behavior can quickly change during periods of such heightened volatility. Lending or investment decisions should reflect any heightened level of volatility and potential for changing market conditions. Lending and investment caution is advised in this regard.<br><br>It is important to note that the conclusions set out in this report are valid as at the valuation date only. Where appropriate, we recommend that the valuation is closely monitored, as we continue to track how markets respond to evolving events. |
| Construction Cost Volatility: | Although general increases in material costs have stabilized since 2022, some specialized supply chains and construction-related labor costs remain volatile with the potential for further increases. This has created uncertainty in cost estimates, which is likely to continue.<br><br>In addition, there are significant risks that delays may be encountered in sourcing specialized materials and labor, and as such, the potential for ongoing cost escalations and delays is high. This may place additional pressure on developer and contractor profit margins and development viability.<br><br>These inherent risks should therefore be given careful consideration in lending and investment decisions. Caution is advised in this regard. |

# 3 Vijayawada– Market Structure and Conditions

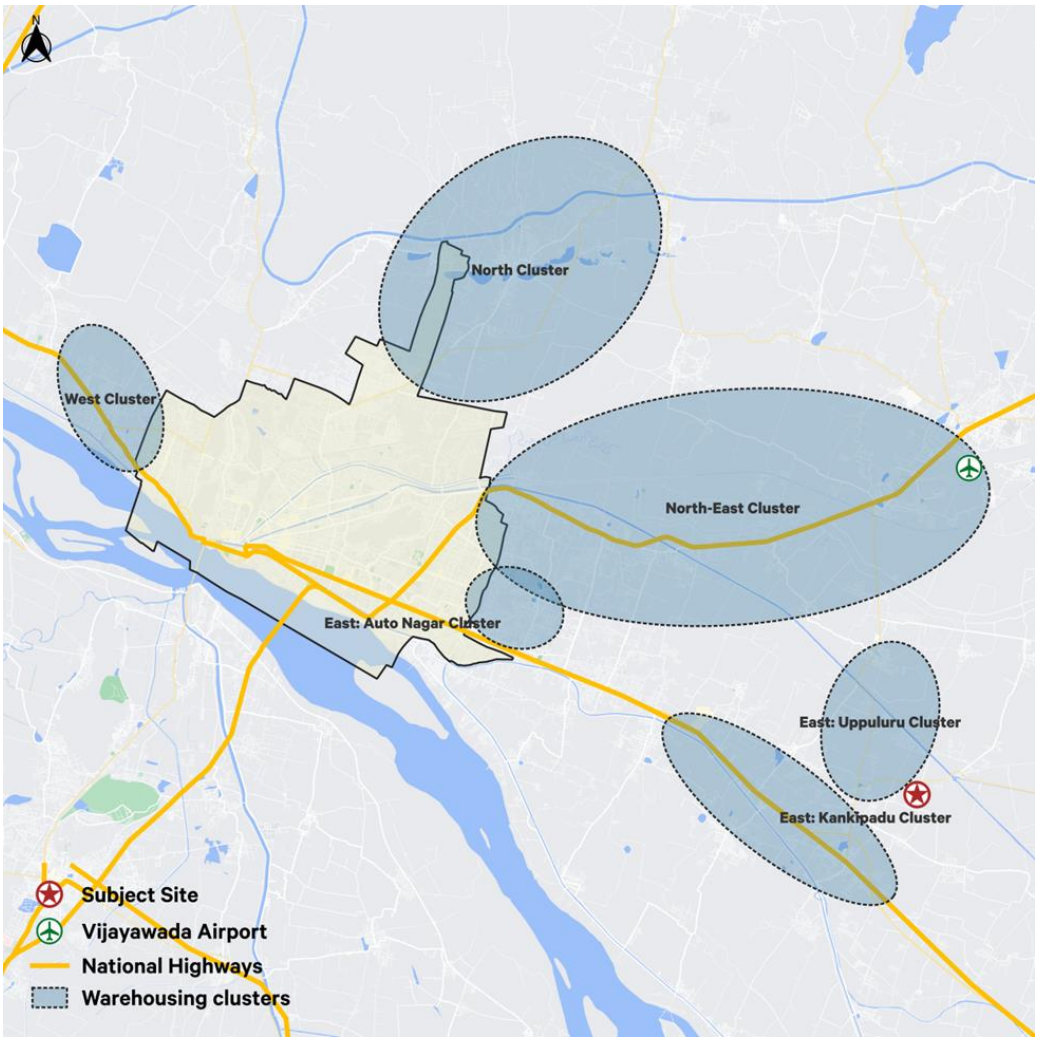
## 3.1 Information

For the purpose of the valuation exercise, reliance has been made on the deliverables of CBRE South Asia Private Limited, an independent agency appointed by TVS to undertake market research, provide market commentary, and data as a part of a report (the "Industry Assessment Report") for the purpose of this assignment.

## 3.2 Demand and Supply

### 3.2.1 Demand and Supply Trends – Vijayawada and the subject Micromarket

As of Q3 CY 2024, Vijayawada market comprises a total completed warehousing stock of 5.5 Mn sft. The warehousing activity in Vijayawada is distributed across four major clusters with the north-east cluster comprising of the major share with approx. 42% of this supply followed by the East Cluster with approx. 32%. The prominent micromarkets along the north-east cluster are Enikepadu, Gannavaram, Gudavalli, Keesarapalli, Nidamanuru, offering a mix of investment-grade (Grade A) warehousing spaces with Grade B & Grade C warehousing developments, whereas the key warehousing micromarkets along the east cluster comprising of Auto Nagar, Kankipadu, & Uppuluru, largely offer a mix of Grade B and C stocks.



*Source: Industry Assessment Report dated of Q3, 2024*

Prior to 2018, the supply predominantly comprised Grade B and C developments. However, over the past 5 to 6 years due to the rising demand for high-quality warehousing spaces from sectors such as manufacturing, e-commerce, logistics, and electronics, a steady increase in Grade A supply was witnessed with an average annual supply of approx. 0.20 – 0.22 Mn sft for Grade A warehousing spaces alone. Micromarkets such as Enikepadu, Gannavaram, Nidamanuru have experienced decent traction from major companies such as Flipkart, Delhivery, LG, which have established a strong presence in these locations.

| Particulars | Citywide | Kankipadu |
|---|---|---|
| Cumulative completed stock (Q3 2024) | 5.5 msf | 0.69 msf |
| Cumulative occupied stock (Q3 2024) | 5.3 msf | 0.65 msf |
| Current vacancy (Q3 2024) | 3 – 4% | 4 – 5% |
| Future supply (2024 – 2025) | 0.5 – 0.6 Mn sf | 0.30 Mn sf |

*Source: Industry Assessment Report dated of Q3, 2024*

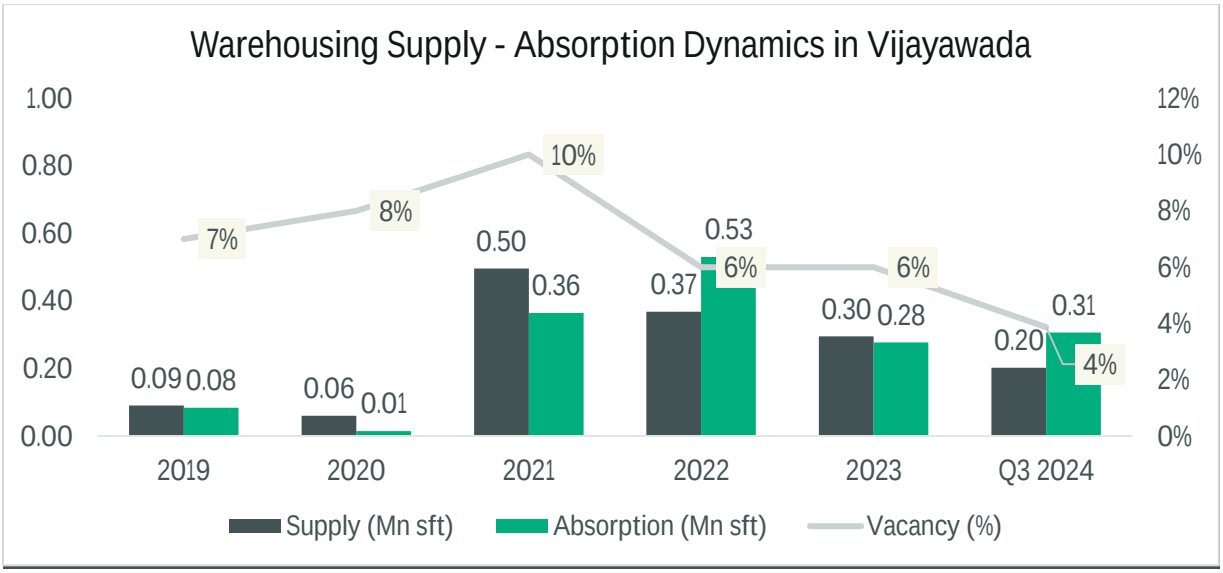
Of the completed supply in Vijayawada, Grade A amounts to nearly 1.6 Mn sft (29% share); Grade B – 3.3 Mn sft (60%) and Grade C – 0.73 Mn sft (11%).

The FMCG sector accounts for approx. 40% of the total demand in Vijayawada. The other key tenant sectors occupying the warehousing space are - Logistics (3PL) & Distribution & E-Commerce. Some of the key tenants present are Abbott India, Delhivery, Hindustan Unilever Limited, Reliance, 20Cube, Marico, Medplus etc. The typical space off-take for 3PL & Logistics players is between 1,10,000 – 1,20,000 sft, while FMCG and FMCD segments require a relatively larger area to in the range of approx. 1,30,000 – 1,50,000 sft.

| Particulars | Value |
|---|---|
| Total Completed Supply | 5.5 msf |
| Total Absorption | 5.3 msf |
| Share of Grade A Supply (%) | 29% |
| Share of Grade B & Grade C Supply (%) | 71% |

*Source: Industry Assessment Report dated of Q3, 2024*

The Supply Absorption dynamics of warehousing/industrial developments in Vijayawada is represented in the exhibit below -



*Source: Industry Assessment Report as of Q3 2024*

### 3.2.1.1 Demand – Supply Dynamics of Micromarket: Kankipadu

The micro-markets of Auto Nagar, Kankipadu, and Uppuluru are located within the East Cluster and have historically been prominent warehousing clusters owing to the proximity of the regions to the city center. Additionally, the cluster is well-serviced through NH 65 and SH 306. The cluster comprises approximately 32% of the completed supply in Vijayawada. Of the completed supply in the cluster, approximately 22% of the supply is Grade A, while 78% of the supply is Grade B and 1% is Grade C.

We have analysed the demand and supply of leased warehousing spaces within the subject micro market 'Kankipadu'. All the completed, grade A and grade B, multi-tenanted warehousing and logistics developments in the influence region i.e., Kankipadu are included while defining the sample set for the demand-supply analysis. Based on Industry Assessment Report dt. 30th September 2024, we understand that the subject micro-market has no vacancy in the grade A supply. The subject micromarket Kankipadu has total stock of 0.69 Mn sft out of which 0.32 Mn sft is a grade A supply followed by Grade B supply. Subject micromarket Grade- A supply is completely occupied with overall vacancy of 4-5%. However as per the industry report assessment the asking rentals for Grade – A Warehousing in the subject micromarket ranges from INR 21-23 per sft per month.

The Prominent tenants occupying warehousing spaces in the region, prominent tenants include Big Basket, Prestige, Valvoline, VIVO, etc

| Particulars | Details |
|---|---|
| Cumulative completed stock (Q3 2024) | Approx. 0.69 msf |
| Cumulative occupied stock (Q3 2024) | Approx. 0.65 msf |
| Current Vacancy (Q3 2024) | 4% - 5% |
| Grade – A Supply | 0.32 msf |
| Grade – A Vacancy | 0% |

*Source: Industry Assessment Report as of Q3 2024*

#### 3.2.1.2 Key Developments in the Micromarket

The table below highlights the prominent developments in the subject micromarket:

| Tenant Name | Year of Establishment | Leasable Area (sft) | Average Lease Rental (INR per sft pm) |
|---|---|---|---|
| Marico | 2023 | 50,000 | 20 – 21 |
| LG Warehouse | 2023 | 1,45,000 | 19 – 20 |
| Satya Logistics Park | 2023 | 1,00,000 | 18 – 19 |
| Delhivery | 2021 | 1,20,000 | 20 – 21 |

*Source: Industry Assessment Report as of Q3 2024, Valuer research*

#### 3.2.1.3 Future Supply

Based on our market research, we understand that the micromarket of Kankipadu is anticipated to see an influx of new warehouse space of approx. 0.msf by 2025. This upcoming supply will be primarily comprised of Grade A development.

| Building Name | Year of Completion | Built – Up Area (Mn sft)* | Quoted Rentals | Leasable Area (sft) |
|---|---|---|---|---|
| Development 1 | 2025 | 0.30 | NA | NA |

*Source: Industry Assessment Report as of Q3 2024, Valuer research*

### 3.2.2 Market Rent

The table below highlights the recent lease transactions in the micromarket:

| Year of Transaction | Chargeable Area (sft) | Tenant Sector | Location | Total Rent (INR per sft per month) | Development Grade |
|---|---|---|---|---|---|
| 2024 | 1,50,000 | FMCD | Development -1 Kankipadu) | 21 – 23 | Grade A |
| 2023 | 66,000 | FMCD | Development -1 (Nunna) | 18 – 20 | Grade A |
| 2024 | 95,000 | 3PL | Development-2 (Enikepadu) | 23 – 24 | Grade A |
| 2024 | 52,000 | Others | Development-3 (Gudavalli) | 20 – 21 | Grade A |
| 2023 | 2,00,000 | FMCG | Development -4 (Uppuluru) | 23 – 25 | Grade A |
| 2022 | 1,50,000 | FMCD | Development -5 (Nunna) | 21 – 22 | Grade A |

*Source: Industry Assessment Report as of Q3 2024*

#### Opinion on Rentals

The average quoted base rental in Vijayawada is INR 20 – 22 /sft /month for a Grade A development, and INR 18 – 20 /sft /month for Grade B development. Based on our market research, it is understood that the Subject Asset is well positioned in the market owing to its location superior specifications and amenities, developer's reputation,

etc. Therefore, keeping in perspective the subject property's location, leasing in the micro market, quantum of leasable area, quality of construction, developer's reputation, type of space, etc., we are of the opinion that the subject property would command a lease rental of approx. INR 20 / sft / month for the covered space as on date of valuation.

## 3.3 Market Outlook

The Vijayawada warehousing market is one of the most prominent warehousing markets in Andhra Pradesh owing to its strategic geographical location, excellent connectivity by road, rail, and air, and proximity to major ports such as Visakhapatnam, Chennai, and Machilipatnam. Before 2019, the supply majorly constituted Grade B developments, with a Grade B supply of approx. 3.05 Mn sft. In the last 5 years, Grade A warehouses saw a rise in supply addition with 1.37 Mn sft being constructed between 2019 – Q3, CY 2024.

Moreover, the Nidamanuru and Gannavaram regions are anticipated to experience a surge in supply due to the accessibility of developable land parcels, well-developed road networks to multiple major cities, and their proximity to the Vijayawada International Airport. The land values in the city are in the range of INR 20 – 25 Mn per acre. The current prevailing asking rentals for Grade A warehouse developments in the areas of Auto Nagar, Uppuluru, Nunna, Enikepadu, and Gannavaram in Vijayawada are between INR 21 and INR 25 per sft per month. The expected monthly rent for Grade B warehouses is between 18 and 20 INR per sft per month. Rentals on the market continue to be range-constrained over the short to medium term, with an annual increase of 4–5% as the market norm. Approximately 0.55 Mn sft of supply in the future is expected to be operational by 2025 – 26.

# 4 Subject Asset –Vijayawada Park

## 4.1 Asset Description

The Subject Asset christened 'Vijayawada Park' is a partly completed warehousing asset developed on a total land area of 12.68 acres with a total leasable area of 2,94,281 sft located at R.S. No. 107-1A, 107-1B, 107-2B, 108-2A2, 108-2B, 108-3, 108-4A, 109-5B & 109-6 of Gollagudem Village, Punadipadu Revenue Village, Near J C United, Gollagudem Grama Panchayat, Kankipadu Mandal, Krishna District, Andhra Pradesh – 521151.

The subject asset is understood to have a floor strength of 5 MT/sqm and has floor finishing of high-performance concrete flooring of FM2 Concrete type. The eave height of the development is 16 m along with a lighting (lux level) of 200 lux LED lighting.

Further, based on the site inspection conducted and as per the information received from the Client, we understand that the subject asset has a site office which includes an Administrative Office for day-to-day operations, a Conference Hall for meetings and One Security Cabins for site safety. The Kankipadu facility's fire safety system has a dual pump arrangement for hydrants and sprinklers, including two jockey pumps, The facility is equipped with both external and internal hydrants, alongside automatic sprinkler system. Additionally, a NFPA/NBC standard fire protection system and portable fire extinguishers are installed throughout to ensure robust fire protection.

Based on the site plan provided by the Client and visual inspection, Primary access road viz. Gudivada – Kankipadu Sub Road - existing 60 ft Wide Road (Proposed 100 ft Wide Road as per Z.D.P.). By virtue of the same the property enjoys convenient accessibility.

The design for the developed phase of the warehousing facility promotes a sustainable environment with provisions for rooftop solar power setup and rainwater harvesting systems. 24/7 support, including surveillance dedicated facility and a ground support team, ensuring operational continuity, enhanced security features, modern water treatment systems, and NBC standard firefighting systems.

| Brief Description | |
|---|---|
| Particulars | Details |
| Asset Name | Vijayawada Park |
| Address | R.S. No. 107-1A, 107-1B, 107-2B, 108-2A2, 108-2B, 108-3, 108-4A, 109-5B & 109-6 of Gollagudem Village, Punadipadu Revenue Village, Near J C United, Gollagudem Grama Panchayat, Kankipadu Mandal, Krishna District, Andhra Pradesh - 521151 |
| Land Area | As per the review of the sale deed and conversion order provided by the Client, it is understood that the gross underlying land area of the Subject Asset is approx. 12.68 acres. Further, the net converted land area for which the conversion from Agricultural use to Non-Agricultural use is obtained is approx. 12.60 acres. |
| Leasable Area | 2,94,281 sft |

### 4.1.1 Site Details

**Situation:** The Subject Asset 'Vijayawada Park' is a partially completed warehousing development, located along the Gudivada - Kankipadu Road. The asset is expected to get fully completed by end of Q4, 2024.

**Location:** The subject property is located in Kankipadu towards the East of Vijayawada. The Kankipadu micro-market is an emerging warehousing cluster and is in proximity to the NH-65 & NH-16 and connecting the region to other prominent hubs if the state in Machilipatnam. The market serves as an FMCG and E-commerce hub with tenants such as LG, Reliance Fresh, ITC, JC United, etc:

| Landmark | Distance (Km) |
|---|---|
| SH 243 – Gudivada – Kankipadu road | 0 – 1 |
| Kankipadu Junction (Road over bridge) (NH-65) | 2 – 3 |
| Vijayawada Airport | 11 – 12 |
| Vijayawada Railway Station | 19 – 20 |

*Source: Valuer's research*

**Catchment Analysis:** The primary catchment for the purpose of this valuation has been defined as Kankipadu and its adjoining micro markets which are predominantly characterized by industrial/warehousing development and largely by vacant agricultural lands & residential plotted development projects.

**Surrounds:** The subject asset is surrounded as follows:

- North: Private property – Vacant land parcel
- South: Private property – Vacant land parcel
- East: Primary access road viz. Gudivada – Kankipadu Sub Road - existing 60 ft Wide Road (Proposed 100 ft Wide Road as per Z.D.P.)
- West: Private property – Vacant land parcel

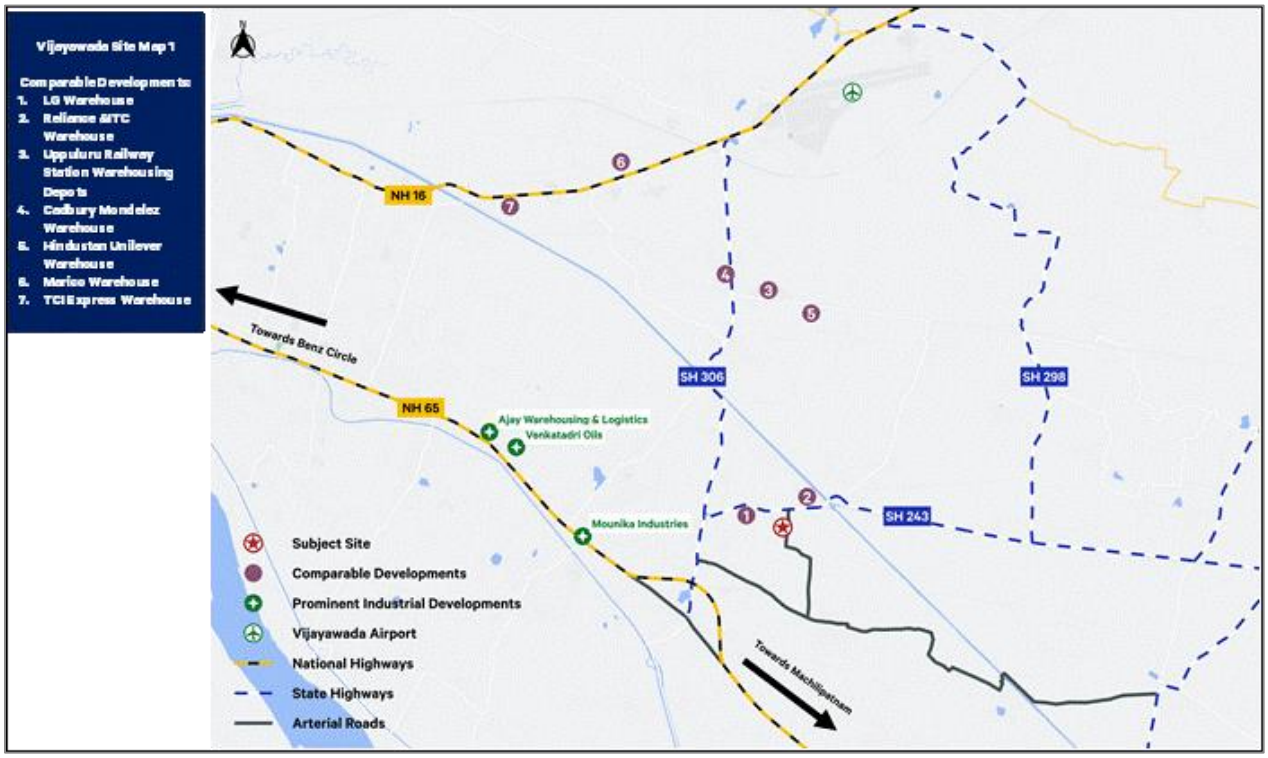
**Potential changes in surroundings:** The key transportation routes connecting Chennai to Kolkata and Hyderabad to Machilipatnam port, makes Vijayawada a crucial transit point for goods. The proximity to major ports like Machilipatnam further enhances its importance for import-export activities. The region's expanding industrial base, encompassing textiles, pharmaceuticals, and automotive components, is expected to continue driving the demand for industrial & manufacturing facilities. The subject micro-market is an extension of growing warehousing/Industrial markets such as Auto Nagar, Uppaluru, Velpuru, Gudavalli etc.

The emerging demand for warehousing developments & proposed infrastructure improvements is likely to enhance the attractiveness of this location as a warehousing cluster.

| | |
|---|---|
| Suitability of existing use: | Considering the location and profile of surrounding developments coupled with site specific parameters, we are of the opinion that Subject Asset is suited for its current usage. |

The following map indicates the location of the Subject Asset and surrounding developments :

Location Map for the Subject Asset



*Source: Valuers' research*

| | |
|---|---|
| Shape: | Based on the site plan provided by the Client and visual inspection during the site visit, it is understood that the underlying land is irregular in shape. |
| Topography: | Based on the site plan and as corroborated with our site visit, the site appears to be even and on the same level as abutting access roads and adjoining properties. |
| Frontage: | Based on review of site plan and visual inspection, we understand that the subject property has adequate frontage along the primary access road. |
| Accessibility : | Based on the site plan provided by the Client and visual inspection, the primary access to the subject asset is via approx. 60 ft Wide Road existing (Proposed 100 ft Wide Road as per Z.D.P.). By virtue of the same the asset enjoys excellent accessibility and frontage.<br>Please refer the below map for the accessibility of the subject property: |

*Source: Valuers' research*

Please refer Section 7.0 Exhibit & Addendums for the site plan of the Subject Asset.

### 4.1.2 Review of Sale Deed

As per the sale deed, we understand that the exact address of the subject asset is R.S. No. 107-1A, 107-1B, 107-2B, 108-2A2, 108-2B, 108-3, 108-4A, 109-5B & 109-6 of Gollagudem Village, Punadipadu Revenue Village, Near J C United, Gollagudem Grama Panchayat, Kankipadu Mandal, Krishna District, Andhra Pradesh - 521151. Additionally, it is understood that the subject asset is owned by Tarkeshwar Industrial & Logistics Parks Private Limited and is freehold in nature.

### 4.1.3 Title Details

This valuation exercise is based on the premise that the Subject Asset has a clear title and is free from any encumbrances, disputes, claims, etc. Valuer has not made any inquiries in this regard with the relevant legal/ statutory authorities with the understanding this level of due diligence will be undertaken by the appropriate lawyers and then advised to the Valuer accordingly. We strongly recommend the assumption the asset has a clear title is confirmed before relying on the report. It must be noted that the Client currently enjoys conditional allotment of the land from the authority and the title document shall be executed in favour of the Client only post

adhering to the usage and development objectives as outlined in detail in the allotment certificate. For this assessment we have assumed that the due conditions shall be met by the client and accordingly the client is expected to subsequently enjoy the freehold rights.

### 4.1.4 Town Planning

| | |
|---|---|
| Zoning | As per the review of the change in land use certificate provided by the Client, we understand that the subject asset is zoned for "Industrial Use". However, the same has been considered for the purpose of this valuation. Valuer has made no further inquiries with the local authorities in this regard.<br><br>For the purpose of this exercise, it has been assumed that all developments (under construction) adhere to building regulations as prescribed by the relevant authorities. Valuer has not validated the information provided by the Client with the relevant development authorities. |
| Approved Usage: | Based on copies of approved plans issued by Andhra Pradesh Capital Region Development Authority (APCRDA) provided by the Client and visual inspection during our site visit, the subject asset is an Under-construction warehousing development. The current use of the subject asset is broadly in agreement with the rules and regulations as prescribed by the local development authority. However, Valuer has not made any enquiries with the relevant local authorities to validate the same for its specific applicability to the subject asset. |
| Restrictions: | As per feedback received from the Client, there are no other restrictions or constraints on the current use of the Subject Asset. |
| Natural or induced hazards: | We have not carried out any investigations or tests or been supplied with any information from Client or from any relevant expert that determines the presence or otherwise of pollution or contaminative substances in the Subject Asset or any other land (including any ground water).<br><br>For the purpose of assessing the vulnerability of the Subject Asset to any natural or induced disaster the location of the property with respect to risks pertaining to earthquakes, high winds/cyclone and flooding was studied. It is understood that Kankipadu in Vijayawada, where the Subject Asset is located, is a cyclone prone region due to its proximity to Machilipatnam port within 50kms. The Subject Asset location falls in Seismic Zone III with moderate risk. Kankipadu faces moderate damage risk (Zone A) in terms of high winds or cyclones too[2]. Considering the topography of the subject location, it is understood that the Subject Asset is likely to face flooding risk subject to a heavy to very heavy rainfall. The discharge water from the storm water drain may potentially be hindered due to clogging/obstruction in the public canal and/or, the discharge water from storm water drain may also potentially be hindered due to backflow of discharge water from the drain channel. The flooding risk can therefore be mitigated with the help of a Natural Road slope and Storm water drain arrangement supports to drain off rainwater in the park, so that the discharge is |

[2] Source-https://www.bmtpc.org/DataFiles/CMS/file/map%20of%20india/wind-india.pdf

channeled into the external public canal & by regular cleaning and de-silting discharge channel to ensure flow is not obstructed and reverse flow does not occur. No hazardous activity was noted in the vicinity of the Subject Asset which may expose it for any induced disaster.

Approvals: As per the documents provided by Client, we understand that the approvals mentioned in section 4.1.5.1 for the asset have been obtained. Please refer annexures for the details.

For the purpose of this exercise, it has been assumed that the Subject Asset adheres to building regulations as prescribed by the relevant authorities. Valuers have not validated the information provided by the Client with the relevant development authorities

### 4.1.5 Statutory Approvals, Sanctions & Approvals

#### 4.1.5.1 Statutory Approvals received and to be received (including One-time Sanctions & Periodic Clearances)

As per the information provided by the Client, we understand that majority of the requisite approvals are received for the Subject Asset. The table below highlights the status of approvals for the Subject Asset:

| Approval/NOC | Status (Applied / Received) | Authority | Date of Issue (DD-MM-YY) |
|---|---|---|---|
| Provisional Fire NOC | Received | Andhra Pradesh State Disaster Response and Fire Services Department | 28-06-2023 |
| Building Permit Order | Received | Andhra Pradesh Capital Region Development Authority | 31-07-2023 |
| Sanction Plan | Received | Andhra Pradesh Capital Region Development Authority | 06-06-2023 |
| Approach Road NOC | Received | Roads and Building Division, Machalipatnam | 09-01-2024 |
| Ground Water Abstraction NOC | Received | Ground water and water Audit department, Machilipatnam Krishna District | 19-06-2023 |
| Land Use Conversion (NALA) | Received | Competent Authority & Revenue Divisional Officer, Vuyyuru, AP | 12-05-2023 |
| Final Fire NOC | Received | Director General, State Disaster Response & Fire Services, Vijayawada | 18-04-2024 |
| Consent to Establish | Received | Andhra Pradesh Pollution Control Board zonal Office, Vijayawada | 03-07-2023 |
| Permanent Electricity Connection | Yet to Receive | - | - |
| Occupancy Certificate | Received | Commissioner, Andhra Pradesh Capital Region Development Authority | 13-09-2024 |

*Source: Approval documents provided by the Client*

#### 4.1.5.2 List of up to date/overdue periodic clearances

Not applicable as mentioned in earlier sections, we understand that the Subject Asset is nearing completion. Please refer to section 7.0 for any additional details.

### 4.1.6 Area Details, Type and Age of Existing Structures

The table below highlights the age of the Subject Asset:

| Block | Year of Completion | Age of structures (in years) | Built up Area (sft) | Completed Area (sft) | Leased Area (sft)* |
|---|---|---|---|---|---|
| Vijayawada Park | Partially complete – 100% completion expected by Q4, 2024 | NA | 2,94,281 | 1,36,278 | 1,60,022 |

*Source: Architect certificate, rent roll provided by the Client; (Please note according to the lease agreements provided by the Client, it is understood that the rent is paid on the chargeable area, which has been considered for the valuation exercise), Sanctioned layout plan and area statement provided by the Client. *Leasable areas are inclusive of open space.*

The table below highlights the area details of the Subject Asset:

| Blocks | Leasable area – Box (sft) | Leasable Area – Open Space (sft) | Built-up Area (sft)* | Structure Type |
|---|---|---|---|---|
| Vijayawada Park | 2,94,281 | NA | 2,94,281 | Pre-Engineered Building |

*Source: Architect certificate, Rent roll provided by the Client; (Please note according to the lease agreements provided by the Client, it is understood that the rent is paid on the chargeable area, which has been considered for the valuation exercise), As per our review of client's area statement and the sanctioned layout plan, the efficiency from leasable area to built-up area is 98.6%.*

### 4.1.7 Site Services and Finishes

| Particulars | Vijayawada Park |
|---|---|
| Handover condition | Warm Shell with Tenant Improvements |
| Type of Structure | Precast & Pre-Engineered Building Structure |
| Firefighting services | Provided. |
| Lift provision | No Lifts |
| Floor Finish | FM2 Concrete floor |
| Floor Strength | 5 MT/Sqm |
| Ridge Height | 15 M |
| Lighting (Lux Level) | 200 Lux LED Lighting |
| Fire fighting | Proposed as per NFPA/NBC fire protection system |
| Power Backup | DG Available – 62.5 KVA, 1 Transformers of 800 KVA |

*Source: Information provided by the Client, Site visit*

### 4.1.8 Condition & Repair

Based on information provided by the Client and coupled with our visual inspection during the site visit undertaken, it is understood that the Subject Asset has been partially completed. The remaining Capex is expected to be incurred in Q4, CY 2024 for the asset to become fully operational. Only a marginal refurbishment capex to the tune of 1% of the Net Operating Income is adopted. This assumption would allow for the refurbishment reserve to be created to undertake any potential major refurb at the Subject Asset post during the asset operations.

The table below highlights the capital expenses to be incurred for project construction and other activities (such as approvals cost, admin costs, marketing and sales expenses, contingencies etc):

| Expense Head | Total Cost (INR Mn) | Incurred Cost (INR Mn) | Q4, CY 2024 | Q1, CY 2025 |
|---|---|---|---|---|
| Capital Expenditure | 544.78 | 453.98 | 90.8 | - |

*Source: Client Inputs*

4.1.15 Valuation of the asset in the previous 3 years

As of the date of this valuation report, the Subject Asset is not part of the Infrastructure Investment Trust (InVIT)

# 5 Valuation Approach & Methodology

## 5.1 Scope of Valuation

The valuation exercise is to assess the Market Value (MV) of the Subject Assets for the purpose of offer of units by Private Placement of TVS Infrastructure Trust under the SEBI (Infrastructure Investment Trust) Regulations, 2014, as amended. The valuations have been conducted in accordance with the IVSC International Valuation Standards, (effective 31 January 2022) and in accordance with the requirements of the SEBI (Infrastructure Investment Trust) Regulations, 2014, as amended from time to time.

The Valuer has assessed the Market Value of each Individual Subject Asset(s), not the value of the portfolio as if all assets are being sold in one transaction. Where a summation of the individual Assets is provided, this is purely for reference only and should not be construed as the value of the portfolio.

## 5.2 Basis of Valuation

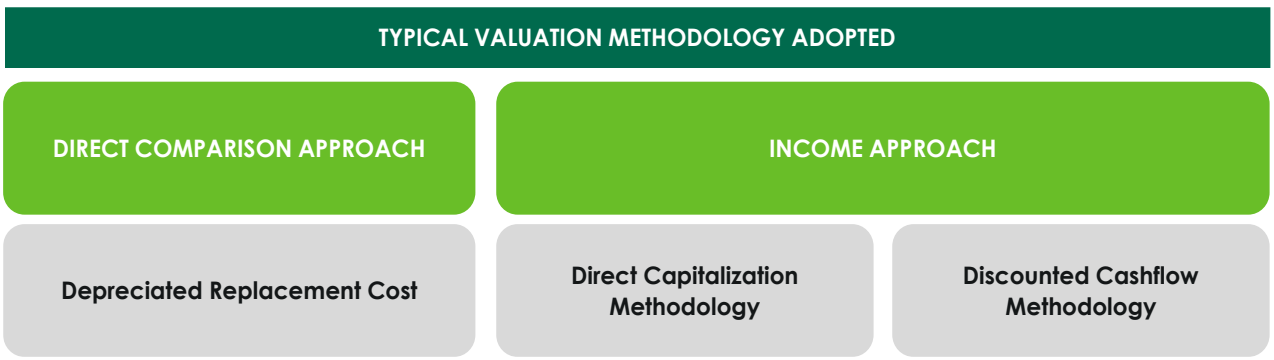
The valuations have been conducted in accordance with the IVSC International Valuation Standards (effective from 31 January 2022) and is in compliance with the International Valuation Standards (IVS), which was the applicable standards as on the date of valuation. The valuation exercise has been undertaken by appropriately qualified Valuer and would be aimed at assessing the Market Value of the Subject Asset.

According to IVS 104, Market Value is defined as:

***'The estimated amount for which** an asset or liability should exchange on the valuation date between a **willing buyer and a willing seller in an arm's length transaction, after proper marketing and where the parties had each acted knowledgeably, prudently and without compulsion'.***

## 5.3 Approach and Methodology

The purpose of this valuation exercise is to estimate the Market Value (MV) of the subject assets. Market Value can be derived through the following Methodologies:



### 5.3.1 Direct Comparison Approach

Under the 'Direct Comparison Approach', the asset is compared to similar assets that have actually been sold in an arms-length transaction or are offered for sale (after deducting for value of built-up structure located thereon). The comparable evidence gathered during research is adjusted for premiums and discounts based on asset specific attributes to reflect the underlying value of the asset.

### 5.3.2 Income Approach

The income approach is based on the premise that value of an income - producing asset is a function of future benefits and income derived from that asset. There are two commonly used methods of the income approach in real estate valuation namely, direct capitalization and discounted cash flow (DCF).

A. Direct Capitalization Method

Direct capitalization involves capitalizing a 'normalized' single - year net income estimated by an appropriate yield. This approach is best utilized with stable revenue producing assets, whereby there is little volatility in the net annual income.

B. Discounted Cash Flow Method

A Discounted Cash Flow Analysis is based upon estimates of future financial performance. The methodology begins with a set of assumptions regarding income and expenses of the asset and future economic conditions in the local market. The income and expense figures are projected with adjustments for estimated changes in economic conditions and any contractual commitments. The resultant value is considered the best estimate but is not to be construed as a prediction or guarantee and is fully dependent upon the reasonableness of the assumptions with respect to income, expenses, and market conditions, which are based on information available as at the valuation date.

## 5.4 Approach and Methodology Adopted

Considering the objective of this exercise, the nature of asset involved and the purpose of the valuation viz. to assess the Market Value (MV) of the Subject Asset for the purpose of the Private Placement of TVS Infrastructure Trust under the SEBI (Infrastructure Investment Trust) Regulations, 2014 'Regulation', we have adopted the methodology considering Chapter 1 section 2 point (i) of the InvIT regulations effectively prescribe that the InvIT assets need to be generating income or has the potential to do so and hence the most appropriate method to capture the income generating nature of the assets is Income approach method.

Under the Income approach, Discounted Cash Flow Analysis is based upon estimates of future financial performance which also considers the income and expenses of the asset accounting for the future fluctuations due to expected market dynamics.

Hence, for the purpose of this valuation exercise, we have adopted Discounted Cash Flow Method (using rent reversion).

For the purpose of this valuation exercise, we have analysed the tenancy details provided by the Client to identify variances vis-à-vis prevailing Market rent. In the event the contracted rent is within the threshold (15.0%), we have assumed that the tenant will continue the current agreed terms. In the event the rent is higher than the Market rent threshold, we have assumed that the lease would be renegotiated to Market rent terms (at the time of the lock-in expiry, next escalation, etc.).

Asset-specific Review:

1. As the first step to the valuation of the asset, the lease deeds were reviewed to identify tenancy characteristics with respect to contractual commitments and commercial covenants.
2. Title documents and architect certificates were reviewed for validation of area details, ownership of the asset.

3. The Valuer has undertaken physical site inspections to assess the status of the subject assets in terms of their physical configuration, capacity and upkeep.

Micromarket Review/Market Rental Assessment:

A primary research exercise has been carried out in the catchment area to ascertain the prevalent activity levels in terms of quoted / transacted evidence of the recent leasing activity for warehousing facilities. This has been achieved through interactions with various market players such as local real estate brokers, developers, owners, etc. Based on the same, we understand that variance across rentals is primarily due to factors such as type of asset, developer brand, location, accessibility, overall tenant mix, quantum of vacant stock in the development, specifications, and additional improvements, etc.

For the micromarket review and market rental assessment we have relied upon the report on 'Market Analysis of the Warehousing Segment' prepared by CBRE South Asia Private Limited, hereafter referred as 'CBRE' (an independent agency appointed by the Client to undertake market research, provide market summary and data for the purpose of this assignment).

Cash Flow Projections:

We have projected future cash flows from the subject assets based on existing lease terms and contractual lease payments for the operational area until the expiry of the leases or re-negotiation (using the variance analysis), whichever is earlier.

Based on a detailed review of the leases for the Subject Assets, we noted that a large number of leases at these assets were executed at rent prevalent at the time of signing of such leases or at a discount to prevailing market rental (for a few anchor tenants). Since the real estate industry is dynamic and is influenced by various factors (such as existing supply, tenants looking at spaces, quality of spaces available in the market, overall health of the economy, existing rent, future growth plans, etc.) at a particular point in time, negotiated rent may tend to move away from the prevalent market rent over a period. It has also been witnessed that the market rent for some assets or micromarkets increase or decrease at a rate significantly different from those agreed to in initial leases. These factors reinforce the need to review each of these leases in isolation to assess the intrinsic value of the asset under review.

Post this, the lease terms have been aligned with market rentals. For vacant area, the Valuer has projected the market rent led cash flows factoring appropriate lease-up time frame for vacant/under-construction/proposed area. These cash flows have been projected for 10-year duration from the date of valuation and for 11$^{th}$ year (for assessment of terminal value). These future financial benefits are then discounted to a present-day value (valuation date) at an appropriate discount rate.

## 5.5 Information Sources for Valuation

Asset related information referred to for the valuation exercise have been provided to the Valuer by the Management unless otherwise mentioned. Valuer has assumed the documents to be a true copy of the original. The rent rolls have been cross-checked with the lease deeds on a sample basis to verify the authenticity. Additionally, wherever possible, Valuer has independently revalidated the information by reviewing the originals as provided by the Management. Further, details related to area and ownership has been adopted based on architect's certificate and title report (prepared by independent architects and legal counsels) as shared by the Client.

# 6 Value Assessment

## 6.1 Value Assessment

### 6.1.1 Adopted Methodology

We acknowledge that the approaches to valuation differ considerably and that for a particular purpose, alternative approaches to the valuation can be utilized. Considering the objective of this exercise and the nature of asset involved, the value of the Subject Asset has been assessed through the following approaches:

| Asset Name | Completed Blocks | Under-construction Blocks |
|---|---|---|
| Vijayawada Park | Discounted Cash Flow (Using rent reversion approach) | Discounted Cash Flow (Using rent reversion approach) |

The sections below highlight the detailed valuation workings for the Subject Asset.

## 6.2 Operational Assumptions

### 6.2.1 Area statement

Based on information from sale deed and copy of Sanctioned Layout provided by the client, we understand that Subject Asset is an under-construction warehousing/ industrial development. Further, the table below highlights the area configuration of the Subject Asset:

| Block | Year of Completion | Age of structures (in years) | Built up Area (sft) | Completed Area (sft) | Leased Area (sft)* |
|---|---|---|---|---|---|
| Vijayawada Park | Partally complete – 100% completion expected by Q4, 2024 | NA | 2,94,281 | 1,36,278 | 1,36,278 |

*Source: Architect certificate, rent roll provided by the Client; (Please note according to the lease agreements provided by the Client, it is understood that the rent is paid on the chargeable area, which has been considered for the valuation exercise) *Leasable areas are inclusive of open space*

| Blocks | Leasable area (sft) | Leasable Area – Open Space (sft) | Built-up Area (sft)* | Structure Type |
|---|---|---|---|---|
| Vijayawada Park | 2,94,281 | NA | 2,94,281 | Pre-Engineered Building |

*Source: Architect certificate, Rent roll provided by the Client; (Please note according to the lease agreements provided by the Client, it is understood that the rent is paid on the chargeable area, which has been considered for the valuation exercise), the efficiency from leasable area to built-up area is 98.6%.*

## 6.3 Tenancy Analysis

### 6.3.1 Historical Occupancy Rates

The table below highlights the historical occupancy rates at the subject asset:

| Particulars | 2021 | 2022 | 2023 | 2024 | 2025 |
|---|---|---|---|---|---|
| Occupancy (completed block) | NA | NA | NA | NA | NA |
| Pre-Commitment (under construction block) | NA | NA | NA | 46.3% | 100.0% |

*Source: Information provided by the Client;*

### 6.3.2 Lease Rent Analysis

Based on the review of the Lease Deed provided by the Client, we understand that the lease agreements were signed between Tarkeshwar Industrial & Logistics Parks Pvt. Ltd. and the tenant details of which are mentioned below –

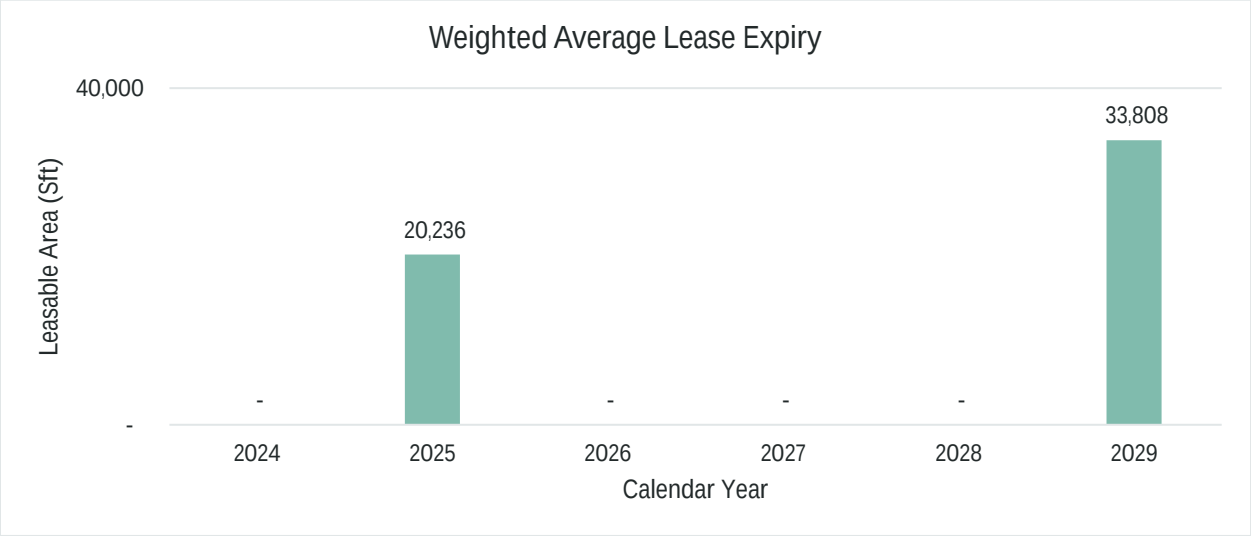
| Tenant | Particulars | Details |
|---|---|---|
| Large FMCG manufacturer | Lease Commencement Date | 1st December 2024 |
| | Rent Commencement Date | 1st January 2025 |
| | Lock-in Period | 3 Years |
| | Lease Tenure | 5 Years |
| | Lease Rent Escalation Terms | 5% every year |
| Large FMCG manufacturer | Lease Commencement Date | 16th November 2024 |
| | Rent Commencement Date | 16th December 2024 |
| | Lock-in Period | 7 Years |
| | Lease Tenure | 9 Years |
| | Lease Rent Escalation Terms | 5% every year |
| Large logistic solution provider | Lease Commencement Date | 7th November 2024 |
| | Rent Commencement Date | 16th December 2024 |
| | Lock-in Period | NA |
| | Lease Tenure | 1 Year |
| | Lease Rent Escalation Terms | NA |

*Source: Information provided by the Client;*

### 6.3.3 Lease Expiry Profile

The Weighted Average Lease Expiry (WALE) of contracted area in the Subject Asset is 6.95 years. Further, The Weighted Average Lease Expiry (WALE) of the vacant area in the Subject Asset is 10 years, with overall average WALE translating to 8.79 years.

The below graph exhibits the WALE for the Subject Asset



*Source: Information provided by the Client;*

### 6.3.4 Tenant Obligations

Based on the review of the lease deed, we understand that the operational expenses listed below will have to be borne by the Tenant.

| S. No | Description of operational expenses |
|---|---|
| 1 | Regular Maintenance |
| 2 | General Wear and Tear |
| 3 | Other Expenses such as utility charges towards any Governmental authorities or Concerned service provider. |

Contractual Rental Details

| Tenant | Leased Area (sft) | % of area leased | Total In-place Rental (INR psf pm) | Total In-place Rental (INR Mn pm) |
|---|---|---|---|---|
| Large FMCG manufacturer | 33,808 | 25% | 19.8 | 0.67 |
| Large FMCG manufacturer | 82,234 | 60% | 17.8 | 1.46 |
| Large Logistics solution provider | 20.236 | 15% | 22.0 | 0.45 |
| Total | 1,36,278 | | | 2.75 |

*Source: Rent Roll provided by the Client*

Based on the review of above information and market research undertaken, we understand that the Subject Asset would command a market rental of INR 20 per sf per month.

### 6.3.5 Construction Timelines

#### 6.3.5.1 Completed Blocks

As per inputs provided by the Client, the Subject Asset is partially complete and the entire development is expected to get operationalised in Q1, CY 2025.

#### 6.3.5.2 Under Construction Blocks

Based on visual inspection during the site visit and information provided by the Client, the following timelines for under-construction phases have been adopted for the purpose of this valuation exercise –

| Block | Developable Area (sft) | Leasable Area (sft) | Construction Status | Construction Commencement | Construction Completion |
|---|---|---|---|---|---|
| Vijayawada Park | 2,94,281 | 2,94,281 | Partally complete – 100% completion expected by Q4, 2024 | Q3 2023 | Q4 2024 |

*Source: Client Inputs*

### 6.3.6 Absorption/ Leasing Velocity and Occupancy Profile

#### 6.3.6.1 Completed Blocks

Not Applicable.

#### 6.3.6.2 Under-Construction Blocks

The absorption period assumed for the Subject Asset is based on market dynamics and extent of development in the relevant micromarket, nature of Subject Asset, competing supply of same nature, location within the respective micromarket, etc. The vacant spaces in the Subject Asset are assumed to get absorbed by Q1, CY 2025.

| Particulars | 2023 | 2024 | 2025 |
|---|---|---|---|
| Pre-Commitment (under construction block) | NA | 46.3% | 0.0% |
| Future absorption | NA | 0.0% | 53.7% |

*Source: Client Inputs*

### 6.3.7 Revenue Assumption

#### 6.3.7.1 Warehousing Component

For the purpose of this valuation exercise, the lease rent adopted for the leasable area is based on the in-depth market research exercise undertaken by the Valuer to assess the prevailing rent values in the subject micromarket. The same has been adopted for the vacant space for the purpose of this valuation exercise.

| Component | Leasable Area (sft) | Leased Area (sft) | Basis | Rent Adopted* (INR psf pm) |
|---|---|---|---|---|
| Vijayawada Park | 2,94,281 | 1,36,278 | Current Rent for Leased area | 18.9 |
| | | | Market rent for reversion/ vacant area | 20.0 |

*Source: Architect certificate, Rent roll provided by the Client; (Please note according to the lease agreements provided by the Client, it is understood that the rent is paid on the chargeable area, which has been considered for the valuation exercise), Valuer's assessment*

The above market rent assumption is adopted for the entire Subject Asset. An in-depth market research exercise has been undertaken to assess the expected economic rental value of the Subject Asset.

#### 6.3.7.2 Non-Warehouse Component

As per the information provided by the Client as on the date of this assessment, it is understood that no industrial open space area/ mezzanine area is a part of the Subject Asset.

### 6.3.8 Rent Escalation

Based on the market research exercise undertaken, it was observed that the typical escalation clause in the subject micromarket is approx. 5.0% annually. The same has been adopted for the vacant area and renewals at the Subject Asset.

Escalation on renewal/fresh leasing - Based on the market research exercise undertaken, it was observed that the typical escalation clause for lease renewal is of 5% per annum is in-line with the trend observed in the market. The same has been adopted by the Valuer.

Market Rent Escalation - Based on the trend observed in the market and based on review of the Industry Assessment report, the valuer has considered a market escalation of 5% per annum effective from the date of valuation. The assumption for market rent for this appraisal exercise is as follows:

| Particulars | September 2024 | March 2025 | March 2026 | March 2027 | Stabilized Escalation (%) |
|---|---|---|---|---|---|
| Market Rent – INR / sf/ month | 20.0 | 21.0 | 22.1 | 23.2 | 5% |

*Source: Valuer's assessment*

### 6.3.9 Other Revenues

In addition to lease rent revenues, assets typically have additional sources of revenue. These include revenues on account of security deposit (refunded at the time of lease expiry / exit), other miscellaneous income etc.

The assumptions considered for the aforementioned revenue heads for the purpose of this valuation exercise has been cross-checked with the prevailing market norms for other revenues.

The assumptions adopted for other revenues are as tabulated below:

| Nature of Income | Details | Units |
|---|---|---|
| Other Income | 0.0 % | % of Rental Income |
| Security Deposit (For vacant spaces) | 6.0 | No. of months' rental |

*Source: Valuer's assessment*

### 6.3.10 Capital Expenditure

#### 6.3.10.1 Development Cost

Based on review of the information provided by the Client, we understand that 100% expenses related to construction, are to be borne by the Client and no tenant improvement details are being provided as on date of this assessment. The following table highlights the assumptions towards the development cost for the Subject Asset:

| Expense Head | Total Cost (INR Mn) | Incurred Cost (INR Mn) | Q4, CY 2024 | Q1, CY 2025 |
|---|---|---|---|---|
| Capital Expenditure | 544.78 | 453.98 | 90.8 | - |

*Source: Client inputs*

#### 6.3.10.2 Major Repair and improvements

Based on information provided by the Client and coupled with our visual inspection during the site visit undertaken, it is understood that the Subject Asset has been partially completed and the entire development is expected to get delivered by Q4, CY 2024. Therefore, only a marginal refurbishment capex to the tune of 1% of the Net Operating Income is adopted. This assumption would allow for the refurbishment reserve to be created to undertake any potential major refurb at the Subject Asset post its completion.

### 6.3.11 Operating Cost

An Asset typically has few recurring operation expenses required for the upkeep running of the development. Based on information provided by the Client and market assessment, following recurring expense assumptions have been adopted for the purpose of this valuation exercise:

In addition to capital expenditure, an asset typically has few recurring operational expenses required for the up-keep and running of the asset. Based on information provided by the Client and market assessment, following recurring expense assumptions have been adopted for the purpose of this valuation exercise:

| Nature of Expense | Details |
|---|---|
| Reserves & Maintenance (R&M) Provision | 0.85% of Monthly revenues |
| Asset Management Fee^ | 3.0% of revenues from operations |
| CAM expense | 1.0 per sft per month |
| Property Tax | INR 0.9 Mn per Annum |
| Insurance | INR 0.59 Mn per Annum |
| Vacancy Allowance during operations | 1.0% of revenues from operations |
| Vacancy Allowance on Exit | 2.5% of revenues from operations |

*Source: Client input; Valuer's assessment*

### 6.3.12 Other Assumptions

#### 6.3.12.1 Vacancy provision

Based on review of the information provided, we understand that that the Subject Asset is largely vacant. Considering the same alongside other asset level parameters (location, amenities, grade, infrastructure etc) and market benchmarks, the valuer has adopted a vacancy provision as follows:

| Description | Details |
|---|---|
| Vacancy Provision | During Operations – 1.0%<br>Assessment at the time of exit – 2.5% |

*Source: Valuer's assessment*

#### 6.3.12.2 Rent-free period & Downtime

Based on recent market trends in the subject micro market, we have considered a rent-free period of 1 month for new-leases and for re-leasing effective from the lease commencement date. Additionally, 1 month of downtime has been considered for new-leases and for re-leasing for the purpose of refurbishment works in the respective blocks as mentioned above.

#### 6.3.12.3 Brokerage

Based on prevalent market dynamics & inputs from the client, we have considered brokerage equivalent to 1.0 month of rental income for future / new leases.

#### 6.3.12.4 CAM Cashflows

CAM Cashflows for the subject asset have been assessed both during the holding period and at the time of notional exit. Margin on CAM and CAM Recoveries are included in the financials as per the CAM Charge based on historical performance of the subject asset as per the inputs provided by the Client and market benchmarks. The same has been considered as passthrough.

## 6.4 Financial Assumptions

### 6.4.1 Exit Capitalization Rate Adopted

The exit capitalization rate adopted for valuing the assets has been based on factors such as:

- Historical entry yields (going in cap rates) for yield/ core warehousing facility transactions across various key markets in India have steadily shown a downward trend over last 7 - 8 years from 10.5%- 11.5% to about 7.5% - 8.5% in last 3-4 years.
- The increased appetite for income producing assets and availability of various modes of finance (real estate credit flows) backing such acquisitions.
- Yields for warehousing facilities across various markets in India have a range of 7.5 – 8.5%
- Liquidity associated with InvIT listed/ public listings (multiplicity of buyers and relatively lower budgets per buyer)
- Valuer has adopted an exit cap rate of 7.75% to 8.25% with lower end of cap rate adopted for relatively better assets within the portfolio on account of location, catchment and quality of the asset.

Based on the above highlighted attributes, the following cap rate has been adopted for the purpose of our valuation:

| Asset Name | SPV/Hold Co | Status of the asset | Details |
|---|---|---|---|
| Vijayawada Park | Tarkeshwar Industrial & Logistics Parks Pvt. Ltd./ TVS ILP | Partially complete – 100% completion expected by Q4 2024 | 8.0% |

*Source: Valuer's assessment*

### 6.4.2 Discount Rate Adopted

For discounting the cash flows, an appropriate discount rate has been calculated on the basis of estimated 'Weighted Average Cost of Capital' (WACC), as set out below.

### 6.4.3 Cost of Equity

The Valuer has computed the cost of equity as per the Capital Asset Pricing Model (CAPM), which is derived as follows:

Cost of equity = Risk Free Rate (Rf) + Beta (**β**) * (Market Return (Rm) **–** Risk Free Rate (Rf))

As mentioned above, the cost of equity computed using CAPM constitutes of the following components:

- Risk free rate (Rf) i.e., long term (10-year) treasury bond rate in India
- Market return (Rm) based on the returns of Sensex index for the past 10 years.
- Computation of 'Beta (β)' of key listed realty stocks and REITs/ InvITs in India with respect to the Broad-Based BSE 500 stock index

The cost of equity adopted for this asset has been adjusted for market/ asset specific risk pertaining to a real estate asset such as execution risk (construction status), approval risk, marketing risk, etc. and adjusted for taxation. While the assumptions regarding the quantum of these risks have no quantitative basis, we have adopted them based on our understanding of the market and our opinion on the asset performance.

### 6.4.4 Cost of Debt

The cost of debt for the Subject Asset has been considered based on prevalent Lease Rental Discounting (LRD) rates for Grade A warehousing facilities across the Vijayawada market which are in the range of 8.0% – 10.0% depending upon the location, asset quality, occupancy, etc.

### 6.4.5 Weighted Average Cost of Capital (WACC)

Completed Blocks

As highlighted earlier, the cost of debt has been assumed based on the prevalent LRD rates, while the cost of equity assumed has been adjusted for asset and market specific attributes to reflect the market expectations from an operational institutional development. Further, the proportion of debt and equity has been derived considering the prevalent LRD tenures and its contribution in the overall asset value.

Based on above, the following WACC rate has been assumed for the completed phase of Vijayawada Park asset forming part of the InvIT portfolio:

| Asset Name | SPV/Holdco | Particular | Proportion | Cost | WACC |
|---|---|---|---|---|---|
| Vijayawada Park | Tarkeshwar Industrial & Logistics Parks Pvt. Ltd./ TVS ILP | Debt | 35.0% | 8.0% | 11.58% |
| | | Equity | 65.0% | 13.5% | |

*Source: Valuer's assessment; Please note that the cash flows are assumed to realize evenly during every quarter; hence a mid-quarter discounting convention has been adopted for the purpose of this valuation. Additionally, we have not factored any cash flows attributable to working capital requirement/expenses for valuation as the same is immaterial.*

## 6.5 Value of the Subject Asset

The Valuer is of the opinion that subject to the overriding stipulations contained within the body of this report and to there being no onerous restrictions or unusual encumbrances of which he has no knowledge, the opinion of value of the complete ownership interest in the Subject Asset comprising land and improvements thereon, as explained above, as on 30th September 2024 is as follows:

| Asset Name | Status | Value (INR Mn) |
|---|---|---|
| Vijayawada Park | Partially complete – 100% completion expected by Q4 2024 | 811.57 |

*Source: Valuer's assessment*

# 7 Exhibits and Addendums.

## 7.1 Other Mandatory Disclosures

### 7.1.1 Details of On-going material litigations including tax disputes in relation to the assets

As per our interaction with the Client, the Client has confirmed that there are no material litigation details pertaining to the asset. Please note that the Valuer has not investigated nor has been provided with any supporting documents.

Please refer to the section on litigations in the draft offer document for details on material litigations for various assets.

### 7.1.2 Details of options or rights of pre-emption and other encumbrances

As per our interaction with the Client and our scope of services, please note that the Valuer has not investigated nor has been provided with any supporting documents.

Please refer to the section on litigations in the draft offer document for details on material litigations for various assets

### 7.1.3 Vulnerability to natural or induced hazards that may not have been covered in town planning/ building control.

As per our interaction with the Client, the Client has confirmed that there are no Vulnerabilities pertaining to the asset. Please note that the Valuer has not investigated nor has been provided with any supporting documents.

Further, as per our visual inspection, we are of the opinion that the site is in advanced development stage and as such there was no vulnerability observed during the inspection. It may further be noted that the Subject Asset is subjected to a flooding risk due to heavy to very heavy rainfall owing to its proximity to the Machilipatnam port within 50 Kms.

### 7.1.4 Details of Revenue Pendencies including local authority taxes associated with InvIT asset and compounding.

As per our interaction with the Client, the Client has confirmed that there is no revenue pendency to the asset. Please note that the Valuer has not investigated nor has been provided with any supporting documents.

Please refer to the section on litigations in the draft offer document for details on material litigations for various assets.

Our assessment is under the assumption the asset has a clear title and is free from any encumbrances, disputes, claims that would affect the value. This should be verified by an asset lawyer prior to relying on this valuation.

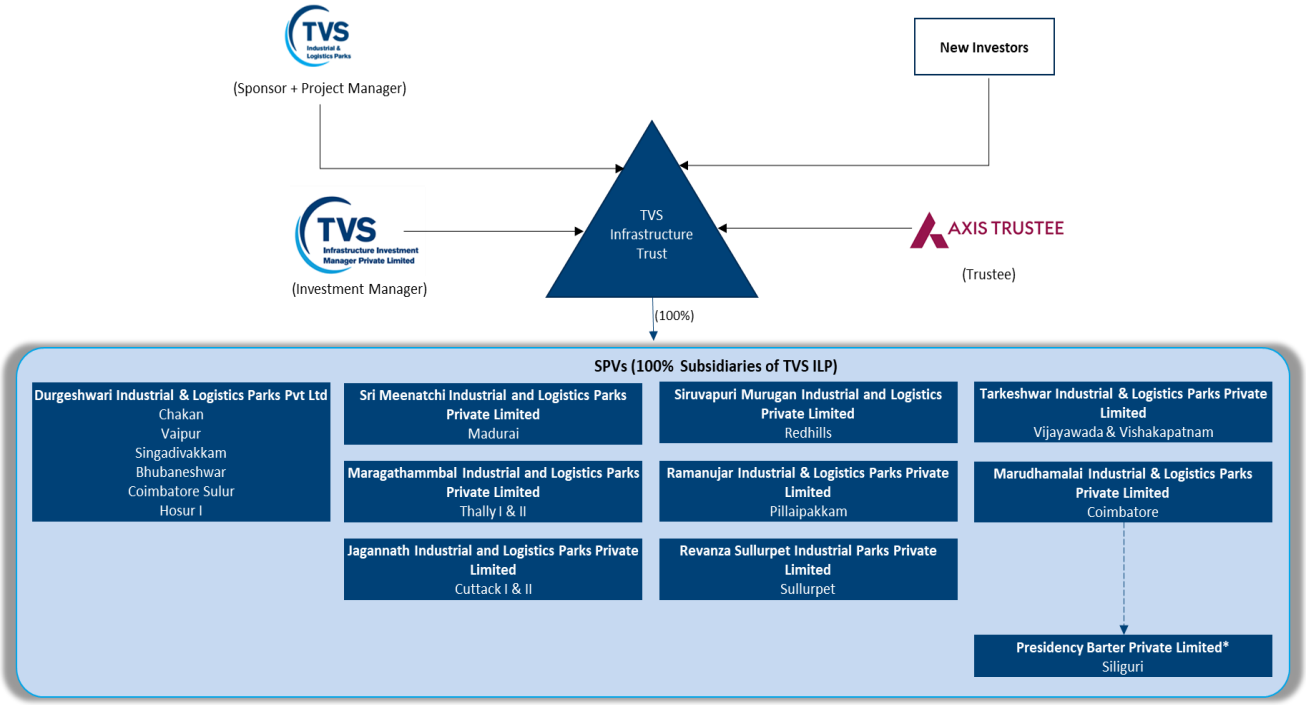
### 7.1.5 Details of the asset including whether the transaction is a related party transaction.

The asset is proposed to be acquired from the Sponsor, which is identified as related party under SEBI (InviT) Regulations

### 7.1.6 Nature of the interest the InvIT holds or proposes to hold in the asset, percentage of interest of the InvIT in the asset.

As per our interaction with the Client, the Client has confirmed that 100% to be help by the InvIT.

### 7.1.7 Structure of ownership of the asset by the InvIT



*Presidency Barter Private Limited is a 100% subsidiary of Marudhamalai Industrial & Logistics Parks Private Limited

### 7.1.8 Description of key agreements and restrictions relevant to the asset such as terms of concession agreement, power purchase agreements, etc.

As per our interaction with the Client, the Client has confirmed that the same is not applicable to their business.

### 7.1.9 Life of the asset (both contractually and physical life requiring maintenance, replacement and right available to extend this life

| S. No | Particulars | No. of years |
|---|---|---|
| 1 | Remaining Physical Life of the Building asset requiring maintenance | 30 years* |
| 2 | Remaining Contractual Life of underlying Land | Perpetual, since the underlying land is freehold in nature |
| 3 | Right to extend the contractual life of land | Not applicable. The underlying land is freehold in nature |

*Source: Architect Certificate; *End date of construction of last phase is estimated in Feb-2025[3] as per architect certificate.*

[3] Please note that this date is indicative in nature and is subject to change basis circumstances.

**"Legal Notice and Disclaimer"**

This valuation report (the "Report") has been prepared by iVAS Partners. ("iVAS") exclusively for TVS Industrial & Logistics Parks Private Limited (the "Instructing Party" or "Client"), in accordance with the Agreement entered into between iVAS and the Instructing Party dated 1st February 2024 (the "Agreement"). The Report is confidential to the Instructing Party and any other Addressees named herein and the Instructing Party and the Addressees may not disclose the Report unless expressly permitted to do so under the Agreement.

Where iVAS has expressly agreed that persons other than the Instructing Party or the Addressees can rely upon the Report (a "Reliant Party" or "Reliant Parties") then iVAS shall have no greater liability to any Reliant Party than it would have if such party had been named as a joint client under the Agreement.

iVAS's maximum aggregate liability to the Instructing Party and to any Reliant Parties howsoever arising under, in connection with or pursuant to this Report and/or the Agreement together, whether in contract, tort, negligence or otherwise shall be limited as defined under the terms of the Agreement.

iVAS shall not be liable for any indirect, special or consequential loss or damage howsoever caused, whether in contract, tort, negligence or otherwise, arising from or in connection with this Report. Nothing in this Report shall exclude liability which cannot be excluded by law.

If you are neither the Instructing Party, an Addressee nor a Reliant Party then you are viewing this Report on a non-reliance basis and for informational purposes only. You may not rely on the Report for any purpose whatsoever and iVAS shall not be liable for any loss or damage you may suffer (whether direct, indirect or consequential) as a result of unauthorized use of or reliance on this Report. iVAS gives no undertaking to provide any additional information or correct any inaccuracies in the Report.

For the avoidance of doubt, nothing in our Report will constitute any recommendation, investment advice or an offer or solicitation for the purpose of or for sale of any securities, financial instrument or products or other services. Any investors should make their own investment decisions in relation to any investments. If you do not understand this legal notice, then it is recommended that you seek independent legal advice.

# 1 Executive Summary

| | |
|---|---|
| Asset Name: | Vishakapatnam Park (the "Subject Asset") |
| Asset Address: | Land-9, IP Expansion situated in Gurrampalem village, Pendurthi Mandal, Visakhapatnam District, Andhra Pradesh 531173 |
| Instructing Party: | TVS Industrial & Logistics Parks Private Limited (the "Client") |
| SPV Name: | Tarkeshwar Industrial & Logistics Parks Private Limited/ TVS ILP |
| Interest Valued: | 100% Freehold interest |

| Assumptions, Disclaimers, Limitations & Qualifications: | This valuation report is provided subject to assumptions, disclaimers, limitations and qualifications detailed throughout this report which are made in conjunction with those included within the Assumptions, Disclaimers, Limitations & Qualifications section located within this report.<br><br>Reliance on this report and extension of our liability is conditional upon the reader's acknowledgement and understanding of these statements. This valuation is for the use of the party to whom it is addressed and for no other purpose. No responsibility is accepted to any third party who may use or rely on the whole or any part of the content of this valuation. The valuer has no pecuniary interest that would conflict with the proper valuation of the asset. |
| Heightened Market Volatility: | We draw your attention to current heightened geopolitical tensions, low economic growth in many major countries, and a "higher for longer" interest rate sentiment which have increased the potential for constrained credit markets, negative capital value movements and continued volatility in some property markets over the short-to-medium term.<br><br>Experience has shown that consumer and investor behaviour can quickly change during periods of such heightened volatility. Lending or investment decisions should reflect any heightened level of volatility and potential for changing market conditions. Lending and investment caution is advised in this regard.<br><br>It is important to note that the conclusions set out in this report are valid as at the valuation date only. Where appropriate, we recommend that the valuation is closely monitored, as we continue to track how markets respond to evolving events. |
| Construction Cost Volatility: | Although general increases in material costs have stabilised since 2022, some specialised supply chains and construction-related labour costs remain volatile with the potential for further increases. This has created uncertainty in cost estimates, which is likely to continue.<br><br>In addition, there are significant risks that delays may be encountered in sourcing specialised materials and labour, and as such, the potential for ongoing cost escalations and delays is high. This may place additional pressure on developer and contractor profit margins and development viability.<br><br>These inherent risks should therefore be given careful consideration in lending and investment decisions. Caution is advised in this regard. |
| Valuer Declaration: | i. The valuer is competent to undertake the valuation.<br>ii. The valuer is independent and has prepared the report on a fair and unbiased basis.<br>iii. The valuer has valued the assets based on the valuation standards as specified under sub-regulation 10 of regulation 21 |
| Prepared by: | iVAS Partners<br>Valuer Registration Number: IBBI/RV-E/02/2020/112 |
| Official Signatory | <br>Name: Mr. Shubhendu Saha<br>Designation: Partner, iVAS Partners<br>Valuer Registration Number: IBBI/RV/05/2019/11552 |

# 2 Instruction

iVAS Partners (Valuer Registration Number: IBBI/RV-E/02/2020/112; hereinafter referred as 'Valuer') represented by its partner Mr. Shubhendu Saha, a registered valuer under the Companies Act 2013 with IBBI (Valuer Registration Number: IBBI/RV/05/2019/11552) has been instructed by TVS Industrial & Logistics Parks Private Limited (hereinafter referred as the "Instructing Party", or the "Client" or the "Sponsor") in its capacity as Sponsor of the TVS Infrastructure Trust to estimate the Market Value (MV) of an under construction Warehousing asset located within IP Expansion of Gurrampalem, Pendurthi, Visakhaptnam District, Andhra Pradesh (here after referred as the 'Subject Asset' across the report).

iVAS Partners ('the Valuer') utilized the deliverables of CBRE South Asia Private Limited (CBRE), an independent agency appointed by the Client to undertake market research, provide market commentary, and data for the purpose of this assignment. The Valuer has utilized the market intelligence provided by CBRE to arrive at the Market Value of the respective assets as per the Securities and Exchange Board of India (Infrastructure Investment Trust) Regulations, 2014 ("SEBI (InvIT) Regulations 2014") and amended to date.

Based on information provided by the Client, we understand that the underlying land parcel of the Subject Asset admeasures approx. 16.80 acres with a total leasable area admeasuring approx. 418,633 sft.

iVAS Partners is referred to as the **'Valuer'** for the purpose of this report.

The details of the Subject Asset under the purview of this valuation exercise are tabulated below:

| Asset Name | SPV/Hold Co | Asset Type | Location | Land area | No. of Blocks |
|---|---|---|---|---|---|
| Vishakapatnam Park | Tarkeshwar Industrial Logistics Pvt. Ltd./ TVS ILP | Under-construction Warehouse | Gurrampalem, Visakhapatnam | 16.80 | 2 |

*Source: Client Inputs*

*For clarity, we are valuing the Property/ Asset only, not the SPV/Hold Co, which has been provided for reference only.*

## 2.1 Purpose

As per our instructions the valuation is required by the Client for a proposed offer of units through private placement (the "Private Placement") as defined under the Securities and Exchange Board of India (Infrastructure Investment Trust) Regulations, 2014, as amended, together with clarifications, guidelines and notifications issued thereunder, on the Indian stock exchanges. In relation to the Private Placement, the Valuation report, a summary thereof and/or extracts of the report are intended to be included in the Offer Documents filed by the TVS Infrastructure Trust with the Securities and Exchange Board of India (SEBI) and the stock exchanges where the units of the InvIT are proposed to be listed.

## 2.2 Reliant Party

The Reliant Parties to this Valuation Report will be the Client and TVS Infrastructure Trust, TVS Infrastructure Investment Manager Private Limited in its capacity as Investment Manager and TVS Industrial and Logistics Park Private Limited in its capacity as Sponsor for the purpose of the valuation as highlighted in this report.

The valuation has been prepared strictly and only for the use of the parties as stated above (Reliant Parties) and for the Purpose specifically stated. The Client would make all Reliant Parties aware of the terms and conditions

of this agreement under which this exercise is being undertaken and take due acknowledgements to the same effect.

## 2.3 Limitation and Disclaimers to Liability

- Valuer is not operating under any financial services license when providing the Valuation Report ("Valuation Report") and this document does not constitute financial product advice. Investors should consider obtaining independent advice from their financial advisor before making any decision to invest in TVS Infrastructure Trust.

- This Valuation Report is strictly limited to the matters contained within this report, and are not to be read as extending, by implication or otherwise, to any other matter in any Offer/ Draft Placement Memorandum/ Placement Memorandum/ Final Placement Memorandum ("Offer Document"). Valuer does not approve or endorse any part of the Offer Document. Any reference to the Valuer or this Valuation Report within the Offer Document must be read in conjunction with this Valuation Report.

- Valuers disclaims any liability to any person in the event of an omission from, or false and misleading statements included in the Offer Document, other than in respect of the information provided within the Valuation Report. Valuers shall not make any warranty or representation as to the accuracy of the information in any part of the Offer Document, other than in respect of the information provided within this Valuation Report.

- The liability of Valuer is limited to the Instructing Party, and any Reliant Party nominated within this report only. No accountability, obligation or liability to any third parties is accepted by the Valuer. Valuer disclaims all liability to any investor.

- No liability is accepted for any loss, harm, cost or damage (including special, consequential or economic harm or loss) suffered as a consequence of fluctuations in the real estate market subsequent to the date of valuation. Valuer shall not be liable for any indirect, special, punitive or consequential loss or damage howsoever caused, whether in contract, tort or otherwise, arising from or in connection with this Valuation Report.

- Valuer accepts no responsibility or liability whatsoever (i) unless full disclosure of all information and matters that may have an impact upon the value and marketability of the asset has been made by the Instructing Party or (ii) for any matter arising out of or in relation to possible environmental site contamination or any failure to comply with environmental legislation which may affect the value of the asset.

- None of our employees, directors or Valuers individually has a contract with the Instructing Party or owes them a duty of care.

- Valuer has prepared this Valuation Report relying on and referring to information provided by the Instructing Party and/or third parties including financial and market information ("Information"). Valuers have assumed that the Information is accurate, reliable and complete and has not independently verified such Information.

- The Valuation Report draws attention to the key issues and considerations impacting value and provides a detailed assessment and analysis as well as key critical assumptions, general assumptions, disclaimers, limitations and qualifications and recommendations. As commercial investments of this nature are inherently

complex and the market conditions have changed and/or have been uncertain in recent times, Valuer recommends that any references to value within the Offer Document must be read and considered together with the Valuation Report.

- This Valuation Report may not be reproduced in whole or in part without the prior written approval of the Valuer.
- The Valuation Report does not purport to contain all the information that a potential investor or any other interested party may require. It does not consider the individual circumstances, financial situation, investment objectives or requirements. It is intended to be used as guide and for information purposes only and does not constitute advice including without any limitation, investment, tax, legal or any other type of advice. The valuations stated are only best estimates and are not to be construed as a guarantee. Potential investors should not rely on any material contained in the Valuation Report as a statement or representation of fact but should satisfy themselves as to its correctness by independent investigation and review of the Valuation Report to understand the assumptions and methodologies stated in the reports.
- For the avoidance of doubt, all references to "Offer Document" herein shall include any Offer Document, final Offer Document, prospectus and/or any other accompanying documents required under the SEBI (InvIT) Regulations 2014.

## 2.4 Limitation and Qualification

Valuation has been conducted solely for the benefit and use of the Instructing Party, and any Reliant Party nominated within this Valuation Report. The report and valuations should not be used for any other purpose other than the expressly intended purpose as mentioned in the Valuation Report. They are not to be used, circulated, quoted or otherwise referred to for any other purpose, nor are they to be filed with or referred to in whole or in part in any document without the prior written consent of Valuer where such consent to be given at the absolute, exclusive discretion of Valuer, which shall not be unreasonably withheld. Where they are to be used with the Valuer's written consent, they shall be used only in their entirety and no part shall be used without referring to the whole report unless otherwise expressly agreed in writing by Valuer.

Neither the whole nor any part of our report, nor any reference thereto, may be included in any published document, circular or statement, nor published in any way nor disclosed orally or in communication to a third party, including the form and context in which it is to appear without Valuer's prior written consent.

The Valuer does not purport to provide a site or structural survey in respect of the asset(s) valued. The Valuer does not purport to be suitably qualified to provide professional advice in respect of building or site contamination. The Reliant Party(ies) should seek independent advice on these issues. The Services are provided on the basis that the Management has disclosed to the Valuer all information which may affect the Services. All opinions expressed by the Valuer, or its employees are subject to any conditions contained in the Valuation report.

## 2.5 Valuer Capability

iVAS Partners, (Valuer Registration Number: IBBI/RV-E/02/2020/112), represented by its partner Mr. Shubhendu Saha (Valuer Registration Number: IBBI/RV/05/2019/11552) delivers independent valuation (across categories viz. land & building and plant & machinery), advisory and technical due diligence services, that combine

professional expertise with comprehensive databases, analytics and market intelligence across various asset classes and locations in India.

Mr. Shubhendu Saha is registered as a valuer with the Insolvency and Bankruptcy Board of India (IBBI) for the asset class Land and Building under the provisions of The Companies (Registered Valuers and Valuation) Rules, 2017 since 15 May 2019. He completed his bachelor's in planning from the School of Planning and Architecture, New Delhi in 1997 and master's in management studies from Motilal Nehru National Institute of Technology, Allahabad in 1999.

## 2.6 Scope of Valuation

The valuation exercise is to assess the Market Value (MV) of the Subject Assets for the purpose of offer of units by Private Placement of TVS Infrastructure Trust under the SEBI (Infrastructure Investment Trust) Regulations, 2014, as amended. The valuations have been conducted in accordance with the IVSC International Valuation Standards, (effective 31 January 2022) and in accordance with the requirements of the SEBI (Infrastructure Investment Trust) Regulations, 2014, as amended from time to time.

The Valuer has assessed the Market Value of each Individual Subject Asset(s), not the value of the portfolio as if all assets are being sold in one transaction. Where a summation of the individual Assets is provided, this is purely for reference only and should not be construed as the value of the portfolio.

The location, micromarket and catchment area for the Subject Asset is tabulated below:

| Asset Name | SPV/Holdco | City | Micromarket/ Catchment Area |
|---|---|---|---|
| Vishakapatnam Park | Tarkeshwar Industrial & Logistics Parks Private Limited/ TVS ILP | Visakhapatnam | Akkireddy Palem |

*Source: Client Inputs*

## 2.7 Valuer's Interest

The Valuer certify that; he/they do not have a pecuniary interest, financial or otherwise, that could conflict with the proper valuation of the asset (including the parties with whom our instructing party is dealing, including the lender or selling agent, if any; accepts instructions to value the asset only from the Client.

## 2.8 Qualifications/ Valuation Standards

This valuation is prepared in accordance with the International Valuation Standards (IVS) 2022.

The team involved in this engagement comprises of valuers registered with IBBI and RICS members with significant experience of valuations in Indian infrastructure and real estate market.

## 2.9 Disclosures

This Valuer hereby certify that:

- iVAS Partners (Valuer Registration Number: IBBI/RV-E/02/2020/112), represented by its partner Mr. Shubhendu Saha (Valuer Registration Number: IBBI/RV/05/2019/11552), is registered as a registered valuer entity under Section 247 of the Companies Act, 2013 and The Companies (Registered Valuers and Valuation) Rules, 2017, as amended, and is eligible to be appointed as Valuer under the provisions of the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014, as amended and that the Valuation report has been prepared in accordance with these InvIT Regulations.

- iVAS Partners (represented by Mr. Shubhendu Saha - Partner, iVAS Partners) is not an associate of TVS Industrial & Logistics Parks Private Limited (the "Sponsor"), TVS Infrastructure Investment Manager Private Limited (the "Investment Manager") and TVS Infrastructure Trust (the "Trust")
- The Valuer, as represented by its partner, Mr. Shubhendu Saha, has the required minimum years of experience in the valuation of infrastructure assets, as required under the SEBI (InvIT) Regulations.
- The Valuer has not been involved with the acquisition or disposal within the last twelve months of any of the asset(ies) valued under this Valuation report.
- The Valuer has adequate and robust internal controls to ensure the integrity of the Valuation reports.
- The Valuer has sufficient key personnel with adequate experience and qualification to perform services related to asset valuation at all times.
- The Valuer has sufficient financial resources to enable them to conduct their business effectively and meet their liabilities.
- The Valuer has acquainted itself with all laws or regulations relevant to such valuation.
- iVAS Partners is not prohibited from acting as a valuer under applicable law.
- The valuation of assets undertaken is impartial, true and fair and in accordance with the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014, regulation 21.
- The Valuer and any of its employees/valuers involved in valuation of the InvIT assets are not invested in and shall not invest in units of the InvIT or in the assets being valued during the time such entity/person is designated as valuer of such InvIT and not less than 6 months after ceasing to be valuer of the InvIT.
- The Valuer has conducted the valuation of the InvIT assets with transparency and fairness and has rendered and shall render, at all times, high standards of service, exercise due diligence, ensure proper care and exercise professional judgement.
- The Valuer has acted with independence, objectivity and impartiality in performing the valuation.
- The Valuer has discharged its duties towards the TVS Infrastructure Trust in an efficient and competent manner, utilizing its knowledge, skills and experience in best possible way to complete the said assignment.
- The Valuer has not and shall not accept remuneration, in any form, for performing a valuation of the InvIT assets from any person or entity other than the TVS Infrastructure Trust or its authorized representatives.
- The Valuer has no present or planned future interest in the Management, Trustee, TVS Infrastructure Trust, the Sponsor to the TVS Infrastructure Trust and its sponsor group or the Special Purpose Vehicles (SPVs), holdcos, investment entity and the fee for this Report and the valuation exercise is not contingent upon the values reported herein. Our valuation analysis should not be construed as investment advice; specifically, we do not express any opinion on the suitability or otherwise of entering into any financial or other transaction with the Management or the SPVs/ holdcos/ investment entity.

- The Valuer shall before accepting any assignment from any related party to the TVS Infrastructure Trust disclose to the TVS Infrastructure Trust, any direct or indirect consideration which the Valuer may have in respect of such assignment
- The Valuer shall disclose to the trustee of the TVS Infrastructure Trust, any pending business transactions, contracts under negotiation and other arrangements with the Management or any other party whom the TVS Infrastructure Trust is contracting with and any other factors which may interfere with the Valuer's ability to give an independent and professional valuation of the asset; as on the date of valuation, there are no impediments for Valuer to give an independent professional value opinion of the asset
- The Valuer has not made false, misleading or exaggerated claims in order to secure assignments.
- The Valuer has not and shall not provide misleading valuation, either by providing incorrect information or by withholding relevant information
- The Valuer has not accepted and shall not accept an assignment that includes reporting of the outcome based on predetermined opinions and conclusions required by the TVS Infrastructure Trust
- The valuer has not accepted the said assignment which interferes with its ability to do fair valuation
- The valuation undertaken by the Valuer abides by International Valuation Standards (effective from 31 January 2022) for valuation in compliance with The Companies (Registration of Valuers and Valuation) Rules, 2017
- The Valuer understands that most of these assets are wholly/partly owned/ tenanted by related parties, hence, any transactions related to these assets from the related parties being valued would be related party transactions.
- The Valuer notes that there are encumbrances, however, no options or pre-emptions rights in relation to the assets based on the title report prepared by Cyril Amarchand Mangaldas. (hereinafter collectively referred to as 'Legal Counsels'). The Valuer does not have the expertise or the preview to verify the veracity or quantify these encumbrances, disputes or claims. For the purpose of this valuation, the Valuer has assumed that the respective assets have title deeds that are clear and marketable.

## 2.10 Assumptions, Disclaimers, Limitations & Qualifications to Valuation

| | |
|---|---|
| Valuation Subject to Change: | The subject valuation exercise is based on prevailing market dynamics as on the date of valuation and does not take into account any unforeseeable developments which could impact the same in the future |
| Our Investigations: | The Valuer is not engaged to carry out all possible investigations in relation to the Subject Assets. Where in our report the Valuer identify certain limitations to our investigations, this is to enable the reliant party to instruct further investigations were considered appropriate or where the Valuer recommend as necessary prior to reliance. The Valuer is not liable for any loss occasioned by a decision not to conduct further investigations |
| Assumptions: | Assumptions are a necessary part of undertaking valuations. The Valuer adopts assumptions for the purpose of providing valuation advice because some matters are not capable of accurate calculation or fall outside the scope of our expertise, or our instructions. Assumptions adopted by iVAS Partners has been formulated on the basis that they could reasonably be expected from a professional and experienced valuer. The Reliant Party accepts that the valuation contains certain specific assumptions, and acknowledges and accepts the risk that if any of the assumptions adopted in the valuation are incorrect, then this may have an effect on the valuation |
| Information Supplied by Others: | The valuations are based on the information provided by the Client (TVS Industrial & Logistics Parks). The same has been assumed to be correct and has been used for valuation exercise. Where it is stated in the report that another party has supplied information to the 'Valuer', this information is believed to be reliable, but the Valuer can accept no responsibility if this should prove not to be so.<br>We have assumed that where any information relevant to our valuation is supplied by the Instructing Party, or by any third party at Instructing Party's instigation, it is correct and comprehensive and can be safely relied upon by us in preparing our valuation.<br>We would recommend that before any financial transaction is entered into based on the valuations, you obtain verification of any third-party information provided. We also recommend that you check the validity of the assumptions we have adopted in our report (where we have been unable to verify the facts through our own observations or experience) |
| Matters which may or may not affect the valuation: | If the Reliant Party becomes aware of any matters which affect or may affect the valuation, then Valuer must be advised of those matters. The Reliant Party's failure to do so will disentitle the Reliant Party to place reliance on the valuation and reliance must not be placed on the valuation/s under any circumstance |
| Future Matters: | To the extent that the valuation includes any statement as to a future matter, that statement is provided as an estimate and/or opinion based on the information known to the 'Valuer' at the date of this document. The 'Valuer' does not warrant that such statements are accurate or correct |
| Map and Plans: | Any sketch, plan or map in this report is included to assist reader while visualizing the asset and the Valuers assume no responsibility in connection with such matters.<br>Further. all maps and plans quoted in our report are solely for illustration purposes only. While they are extracted from public sources, they may be not to scale. Valuer does not warrant that such dimensions shown are accurate. |
| Site Details: | Based on title search reports and other information provided by the Client, the Valuer understands that the Subject Assets are free from any encroachments and are available as on the date of the valuation |
| Asset Title: | For the purpose of this valuation exercise, the Valuer has relied on the Title Reports prepared by the Legal Counsels for each of the assets and has made no further enquiries with the relevant local authorities in this regard. The Valuer understands that the Subject Assets may have encumbrances, disputes and claims. The Valuer does not have the expertise or the purview to check the veracity or quantify these encumbrances, disputes or claims. For the purpose of this valuation, the Valuer has assumed that the respective assets have title deeds that are clear and marketable. We recommend that a suitably experienced Lawyer or an equivalent professional review these assumptions and confirm they are reasonable before relying in this report. |

| | |
|---|---|
| Environmental Conditions: | In undertaking the valuation exercise we assumed that no contaminative or potentially contaminative use is, or has been, carried out at the property. We did not undertake any investigation into the past or present uses of either the respective assets or any adjoining or nearby land, to establish whether there is any potential for contamination from these uses and assume that none exists. Should it, however, be subsequently established that such contamination exists at the asset or on any adjoining land or that any premises have been or are being put to contaminative use, this may have a detrimental effect on the value reported |
| Town Planning: | The current zoning of the Subject Assets has been adopted on the basis of review of various documents (title deeds & approval documents) provided by the Client and the current land use maps for the micro market. The same has been considered for the purpose of this valuation exercise. Further, it has been assumed that the development on the Subject Assets adheres/ would adhere to the development regulations as prescribed by the relevant authorities. The Valuer has not made any enquiries with the relevant development authorities to validate the legality of the same.<br>Our valuations are prepared on the assumption that the premises comply with all relevant statutory enactments and Building Acts and Regulations, that a valid and up-to-date Fire Certificate has been issued. We assume that all necessary consents, licenses and authorizations for the use of the assets and the processes carried out therein have been obtained and will continue to subsist and are not subject to any onerous conditions.<br>In the event that a legal requisition or other relevant planning information or document is obtained, and the information therein is found to be materially different to the town planning information in the report, the valuation must not be relied upon before first consulting iVAS Partners to reassess any effect on the valuation/s |
| Area: | The total leasable area considered for the purpose of this valuation exercise is based on the lease deeds provided by the Client. It must be noted that the above information has been provided by the Client and has been verified based on the approvals/ layout plans/building plans provided by the Client. However, the Valuer has not undertaken additional verification and physical measurement for the purpose of this valuation exercise |
| Condition & Repair: | In the absence of any information to the contrary, the Valuer has assumed that there are no abnormal ground conditions, nor archaeological remains present which might adversely affect the current or future occupation, development or value of the asset; the asset is free from rot, infestation, structural or latent defect; no currently known deleterious or hazardous materials or suspect techniques will be used in the construction of or subsequent alterations or additions to the asset and comments made in the asset details do not purport to express an opinion about, or advice upon, the condition of uninspected parts and should not be taken as making an implied representation or statement about such parts |
| Not a Structural Survey: | The Valuer states that this is a Summary of Valuation Reports of Subject Assets and not a structural survey |
| Legal: | Unless specifically disclosed in the report, the Valuer has not made any allowances with respect to any existing or proposed local legislation relating to taxation on realization of the sale value of the Subject Asset.<br>We do not read legal documentation. Where legal documentation is provided to us, we will have regard to the matters therein but recommend that reliance should not be placed on our interpretation thereof without prior verification by your legal advisors. Unless disclosed to us, we assume that there are no outstanding statutory breaches or impending litigation in respect of the Subject Assets. We further assume that all documentation is satisfactorily drawn and that unless disclosed to us, there are no unusual or onerous restrictions, easements, covenants or other outgoings which would adversely affect the value of the relevant interest(s). In respect of leasehold assets, we have assumed that the landlord will give any of the necessary consents to an assignment. Unless notified to the contrary we assume that each asset has a good and marketable title and is free from any pending litigation |
| Others: | Considering the unorganized nature of land and building markets in India, all comparable evidence (if any) provided in the valuation report has been limited to the basic details such as the area of asset, rate at which transacted, broad location, etc. other specific details would be provided only if the information is available in public domain |

| | |
|---|---|
| Other Assumptions: | Please note that all the factual information such as tenants' leasable area, lease details such as lease rent, lease commencement and lease end date, lock – in period, escalation terms, etc. pertaining to the Subject Assets is based on the rent roll provided by the Client and the same has been adopted for the purpose of this valuation exercise. The rent rolls have been cross-checked with copies of the lease deeds on a sample basis as shared with the valuer to verify the authenticity. Any change in the above information will have an impact on the assessed value and in that case the Valuer will have to relook at the assessed value. The relevant information sources are represented in section 5.5.<br>All measurements, areas and ages quoted in our report are approximate.<br>We are not advisors with respect to legal, tax and regulatory matters for the transaction. No investigation of the respective Special Purpose Vehicles (SPVs) holding the assets' claim to title of assets has been made for the purpose of this Report and the SPVs' claim to such rights have been assumed to be valid. No consideration has been given to liens or encumbrances against the assets. Therefore, no responsibility is assumed for matters of a legal nature |
| Flooding risk: | The visual inspection of the Subject Assets did not indicate any significant vulnerability and hence we have assumed that either there is no flooding risk or, if there is, that sufficient flood defenses are in place and that appropriate building insurance could be obtained at a cost that would not materially affect the capital value. |
| Site Conditions: | We do not commission site investigations to determine the suitability of ground conditions and services, nor do we undertake environmental or geotechnical surveys. We have assumed that these aspects are satisfactory and also that the respective sites are clear of underground mineral or other workings, methane gas or other noxious substances.<br>In the case of property which may have redevelopment potential, we proceed on the basis that the site has load bearing capacity suitable for the anticipated form of redevelopment without the need for additional and expensive foundations or drainage systems (unless stated otherwise) |
| Hazardous & deleterious materials: | Unless otherwise noted, we have assumed that the improvements are free of Asbestos and Hazardous Materials, or should these materials be present then they do not pose significant risk to human health, nor require immediate removal. We assume the site is free of subsoil asbestos and have made no allowance in our valuation for site remediation works.<br>Our visual inspection is an inconclusive indicator of the actual condition/presence of asbestos/hazardous materials within the property. We make no representation as to the actual status of the Subject Assets. If a test is undertaken at some time in the future to assess the degree, if any, of the presence of any asbestos/hazardous materials on site and this is found to be positive, this valuation must not be relied upon before first consulting iVAS Partners to reassess any effect on the valuation.<br>Unless specifically instructed, we do not carry out investigations to ascertain whether any building has been constructed or altered using deleterious materials or methods. Unless specifically notified, our valuation assumes that no such materials or methods have been used |
| Unregistered interests: | We have assumed that there are no unregistered interests or interests not captured by the applicable Regulatory Authority in the country where services are to be carried out, which may affect the market value. In the event that the Reliant Party(ies) becomes aware of any further or pending easements, encumbrances or unregistered interests, this valuation must not be relied upon before first consulting iVAS Partners in writing to reassess any effect on the valuation |
| Heightened Market Volatility: | We draw your attention to current heightened geopolitical tensions, low economic growth in many major countries, and a "higher for longer" interest rate sentiment which have increased the potential for constrained credit markets, negative capital value movements and continued volatility in some property markets over the short-to-medium term.<br>Experience has shown that consumer and investor behavior can quickly change during periods of such heightened volatility. Lending or investment decisions should reflect any heightened level of volatility and potential for changing market conditions. Lending and investment caution is advised in this regard.<br>It is important to note that the conclusions set out in this report are valid as at the valuation date only. Where appropriate, we recommend that the valuation is closely monitored, as we continue to track how markets respond to evolving events. |

| | |
|---|---|
| Construction Cost Volatility: | Although general increases in material costs have stabilized since 2022, some specialized supply chains and construction-related labor costs remain volatile with the potential for further increases. This has created uncertainty in cost estimates, which is likely to continue.<br>In addition, there are significant risks that delays may be encountered in sourcing specialized materials and labor, and as such, the potential for ongoing cost escalations and delays is high. This may place additional pressure on developer and contractor profit margins and development viability.<br>These inherent risks should therefore be given careful consideration in lending and investment decisions. Caution is advised in this regard. |

# 3 Visakhapatnam– Market Structure and Conditions

## 3.1 Information

For the purpose of the valuation exercise, reliance has been made on the deliverables of CBRE South Asia Private Limited, an independent agency appointed by TVS to undertake market research, provide market commentary, and data as a part of a report (the "Industry Assessment Report") for the purpose of this assignment.

## 3.2 Demand and Supply

### 3.2.1 Demand and Supply Trends – Visakhapatnam and the subject Micromarket

As of Q3 CY 2024, Visakhapatnam market comprises a total completed warehousing stock of 2.53 Mn sft. The warehousing activity in Visakhapatnam is largely witnessed in the southern cluster with a share of approx. 77% of this supply followed by the West Cluster with approx. 22% share of the overall supply. The prominent micromarkets along the southern cluster are Gajuwaka, Auto Nagar, Mindi, Pedagantyada, Paravada together contributing to approx. 1.94 Mn sft of completed supply, whereas the key warehousing micromarkets along the west cluster comprising of Pendurthi, Vedanta, Akkireddy Palem, Gandigundam contribute to approx. 0.56 Mn sft of the completed supply in the region and is emerging rapidly.

Before 2016, the predominant portion of the supply consisted of Grade B developments. However, certain developers have put forth Grade B developments that are superior to the norm, with an emphasis on EXIM cargo and to meet the rising demand from e-commerce and 3PL companies seeking modern and efficient warehouse space, a steady increase in Grade A supply was witnessed with an average annual supply of approx. 0.16 Mn sft for the last 3 years. Grade A developments are primarily concentrated in Pedagantyada, Mindi, and Gajuwaka micro-markets, catering primarily to FMCG, industrial, and chemical sectors.

FMCG, Industrial, Chemical, Logistics (3PL) & Distribution, Retail, and FMCD are the key tenant sectors occupying space in Grade A developments across Visakhapatnam. Some of the key tenants present are L&T, Big Basket, Flipkart, Reliance, ITC, Hindustan Coca-Cola Beverages, Safe Xpress, etc. The typical space off-take of 3PL and logistics players is between 20,000 and 30,000 sft, while FMCG, FMCD, and F&B segments require a large area to the tune of 1,00,000 and 1,25,000 sft.

| Particulars | Citywide | Akkireddy-Palem |
|---|---|---|
| Cumulative completed stock (Q3 2024) | Approx. 2.53 msf | Approx. 0.22 msf |
| Cumulative occupied stock (Q3 2024) | Approx. 1.8 msf | Approx. 0.22 msf |
| Current vacancy (Q3 2024) | Approx. 27.8% | Approx. 0% |
| Future supply (2024 – 2025) | 2024 – 0.25 – 0.35 msf;<br>2025 – 0.45 – 0.55 msf | Approx. 0.3 – 0.5 msf |

*Source: Industry Assessment Report dated Q3, 2024*

Of the total completed supply in Visakhapatnam, Grade A amounts to nearly 1.19 mn sft (47% share), Grade B is 1.17 Mn sft (46%), and Grade C is 6%. Prominent institutional players, such as ATR Warehousing, Sravan Shipping Services, etc. are some of the prominent warehousing developers in the city.

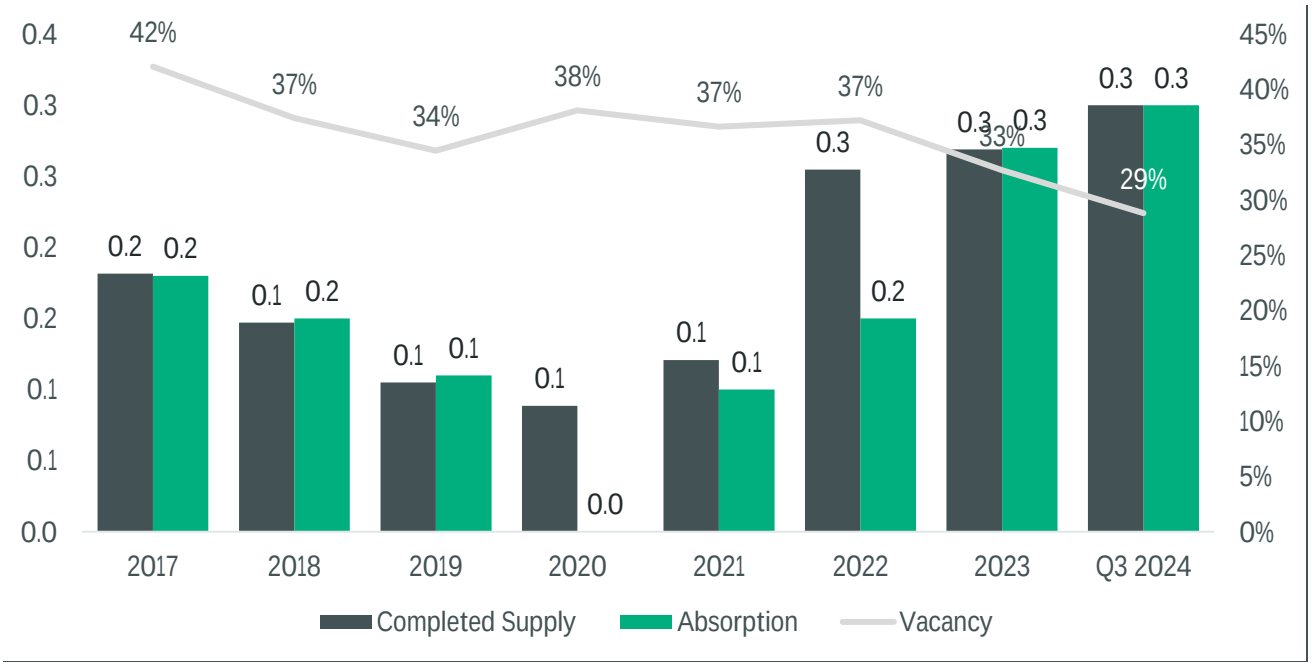
| Particulars | Value |
|---|---|
| Total Completed Supply | Approx. 2.53 msf |
| Total Absorption | Approx. 1.80 msf |
| Share of Grade A Supply (%) | Approx. 1.19 msf ~ 47% |
| Share of Grade B Supply (%) | Approx. 1.17 msf ~ 46% |
| Share of Grade C Supply (%) | Approx. 0.15 msf - 6% |

*Source: Industry Assessment Report dated Q3 of 2024*

As mentioned above, micromarkets such as Auto Nagar, Gajuwaka, Mindi, and Pedagantyada are most prominent warehousing hubs; while markets such as Pendurthi, Akkireddy Palem, and Gandigundam are emerging rapidly.

| Particulars | Micro-markets | Share of Supply in Visakhapatnam Region |
|---|---|---|
| South cluster | Gajuwaka, Auto Nagar, Mindi, Pedagantyada, Paravada | 1.94 Mn sft (77%) |
| West cluster | Pendurthi, Vedanta, Akkireddy Palem, Gandigundam | 0.56 Mn sft (22%) |
| North cluster | Bheemili | 0.03 Mn sft (1%) |

*Source: Industry Assessment Report*

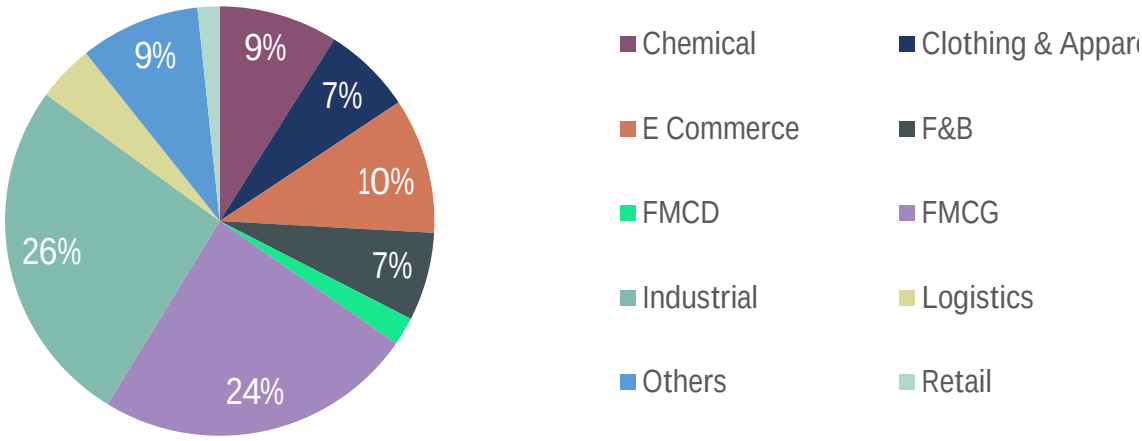


*Source: Industry Assessment Report dated Q3 of 2024*

FMCG, Industrial, Chemical, Logistics (3PL) & Distribution, Retail, and FMCD are the key tenant sectors occupying space in Grade A developments across Visakhapatnam. Some of the key tenants present are L&T, Big basket, Flipkart, Reliance, ITC, Hindustan Coca-Cola Beverages, Safe press, etc. The typical space off-take of 3PL and

logistics players is between 20,000 and 30,000 sft, while FMCG, FMCD, and F&B segments require a large area to the tune of 1,00,000 and 1,25,000 sft.

SEGMENTATION OF ABSORPTION BY INDUSTRY IN VISAKHAPATNAM



*Source: Industry Assessment Report*

### 3.2.2 West Cluster Overview

West Cluster comprises of 2 major regions ~ Pendurthi-Vepagunta, Akkireddy Palem-Gandigundam. The cluster is located on the northwest side of Visakhapatnam along the National Highway 16. This region is the fastest growing market with most of the under-construction supply part of the Akkireddy Palem micro market. The subject property is envisioned to be developed in the Akkireddy Palem micro market. The region boasts excellent connectivity through the proposed Visakhapatnam-Chennai-Industrial-Corridor and Raipur-Visakhapatnam-Economic-Corridor. The cluster comprises approximately 23% of the completed supply in Visakhapatnam. Out of the completed supply in the west cluster, approximately 93% of the supply is of Grade A.

| Particulars | Value |
|---|---|
| West Cluster Completed Supply | 0.56 Mn sft |
| Vacancy % | 4 – 5% |
| Grade A Supply | 0.52 Mn sft |
| Grade A Vacancy (%) | 0% |
| Share of Grade A Supply in Visakhapatnam (%) | 42 – 43 % |

*Source: Industry Assessment Report dated Q3 of 2024*

Proximity to National Highway 16 and corridors like VCIC & RVEC has resulted in the growth of Pendurthi and Akkireddy Palem as warehousing clusters. FMCG, F&B, and Chemicals are key sectors in the cluster with the presence of major tenants such as ITC, Hindustan Coca-Cola Beverages, More, Exide, etc. A future supply of 0.45 mn sft is under construction in the west cluster, slated to be operational by 2024-25. Current quoted rentals for

Grade A facilities in the western cluster range from INR 25-26 per square foot per month, while Grade B facilities are priced between INR 19-20 per square foot per month.

### 3.2.3 Warehousing Dynamics – Subject Micromarket

Akkireddy Palem is one of the growing warehousing vectors in Vishakhapatnam. The region comprises approximately. 12% of the completed supply. The micro-market in Mudapaka witnesses the highest number of quality Grade A warehousing developments by prominent institutional players. The following are the primary reasons for these investments in the region:

- Contrary to the established micro markets of the city, land is being offered at lower rates. This presents a unique opportunity for investors looking to capitalize on potential growth in this emerging area. With competitive pricing and potential for development, this land could be a valuable asset in the near future.
- Connectivity and accessibility to manufacturing and consumption hubs through existing NH 16.
- The availability of land for future expansion and development makes this a prime investment opportunity for businesses looking to grow. Additionally, the potential for increased property value due to ongoing infrastructure developments in the area further enhances the appeal of this offer.

| Particulars | Value |
|---|---|
| Akkireddy Palem Completed Supply | 0.30 Mn sft |
| Vacancy % | 0% |
| Grade A Supply | 0.30 Mn sft |
| Grade A Vacancy (%) | 0% |
| Share of Grade A Supply in Visakhapatnam (%) | 25% |
| Upcoming Supply | 0.3 – 0.5 Mn sft |

*Source: Industry Assessment Report dated Q3 of 2024*

The completed supply of 0.30 Mn sft is of Grade A. The region is expected to witness more supply over the next two years with approx. 0.45 mn sft under construction. In 2023, 0.3 mn sft of supply was launched, getting completely absorbed in the Q3 2024.

The asking rentals for Grade A warehousing development in this micro-market have been observed to be in the range of INR 25 – 26 per sft per month. FMCG is the key industry sector occupying warehousing spaces in the region with prominent tenants including More, Coca-Cola, etc. The developers of the under-construction supply are quoting INR 26 – 27 per sft per month.

### 3.2.3.1 Key Developments in micromarket

The table below highlights the prominent developments:

| Building Name | Location | Leasable Area (sft) | Average Lease Rental (INR per sft pm) |
|---|---|---|---|
| Development 1 | Mindi | 34,000 | 25 - 27 |
| Development 2 | Auto Nagar | 73,000 | 27 - 28 |
| Development 3 | Gandigundam | 1,00,000 | 22 – 23 |
| Development 4 | Pedagantyada | 25,600 | 24 – 25 |

*Source: Industry Assessment Report dated Q3 of 2024, Valuer research*

Higher rentals are observed in established warehousing vectors such as Mindi & Auto Nagar owing to their proximity to the port.

Mindi-ZINC Colony is one of the established warehousing clusters in the city, with the presence of many modern quality warehouses developed by prominent institutional players such as ATR Warehousing, and Sravan CFS. Micro-market gained prominence largely on account of proximity to the steel plant, airport, and the port area of Visakhapatnam (approx. 11 km). FMCG, E-Commerce, and Chemical sectors are the key sectors, occupying approx. 32% of the completed supply in the Mindi micro-market. Prominent tenants include Mercedes, Toyota, L&T, Amazon, Big Basket, etc. Due to the saturation of the micro market and the non-availability of land parcels, the region has not witnessed any recent additions.

The historic presence of industrial and logistics parks has made the Gajuwaka-Auto Nagar warehousing cluster one of the prominent markets in the city. The market constitutes a share of nearly 37% of the completed supply in the south cluster. The market primarily consists of tenants in the chemical, industrial, and e-commerce sectors with notable tenants being Flipkart, Berger Paints, SteelMont, Asian Paints, etc.

### 3.2.3.2 Future Supply

The upcoming supply in the region is in the range of 0.6 – 0.7 Mn sft, across Grade A warehousing space and is expected to be operational by the end of 2025.

In the western cluster of the city, the micro-market of Akkireddy Palem is expected to attract the majority of future warehousing supply. This is primarily driven by the availability of large land parcels and strong road infrastructure connectivity, particularly to NH 16, which links Chennai and Kolkata. Given these favorable factors, investors are closely monitoring market trends in Akkireddy Palem to identify potential growth opportunities.

Based on our market research, we understand that the micromarket of Akkireddy Palem has an upcoming supply of approx. 0.45 Mn sft across 2 assets (excluding the Subject Asset) & are expected to be completed in 2024 and 2025. The details of few of the upcoming supply is detailed in the table below:

| Building Name | Year of Completion | Status | Location | Leasable Area (sft) |
|---|---|---|---|---|
| Development 1 – PSL Limited | 2025 | Under Construction | Akkireddy Palem | 1,50,000 |

| Building Name | Year of Completion | Status | Location | Leasable Area (sft) |
|---|---|---|---|---|
| Development 2 – TVSILP (Subject Asset) | 2025 | Under Construction | Akkireddy Palem | 4,18,633 |

*Source: Industry Report dated Q3 of 2024 and Valuer Research,*

### 3.2.4 Market Rent

The table below highlights the recent lease transactions in the micromarket:

| Year of Transaction | Chargeable Area (sft) | Tenant Sector | Location | Total Rent (INR per sft per month) | Development Grade |
|---|---|---|---|---|---|
| 2023 | 34,000 | Chemical | Mindi | 25 - 27 | Grade B |
| 2023 | 73,000 | E-Commerce | Auto Nagar | 27 - 28 | Grade B |
| 2023 | 1,00,000 | F&B | Gandigudem | 22 – 23 | Grade A |
| 2023 | 25,600 | Chemical | Pedagantyada | 24 – 25 | Grade A |
| 2023 | 1,80,000 | Industrial | Mindi | 28 - 30 | Grade A |
| 2023 | 32,000 | Chemical | Auto Nagar | 17 - 19 | Grade A |
| Q3 2024 | 3,00,000 | E-Commerce | Akkireddy Palem | 26 – 27 | Grade A |

*Source: Industry Assessment Report dated Q3 of 2024*

Recent transactions indicate that the monthly rent for quality-grade A developments in the market varies from INR 25 to INR 26 /sft/month. Based on the asking rents of comparable rentals in the subject market and the absence of institutional developers in the market, it is hypothesized that the achievable rent for the Subject Asset is approximately INR 23 /sft/month.

## 3.3 Market Outlook

Based on our market research, we understand that the subject region with proper connectivity for multimodal logistics, Visakhapatnam is a well-established industrial centre. The urban landscape consists primarily of Grade A and Grade B developments, where comparable supply additions have occurred under the guidance of numerous institutional and individual developers.

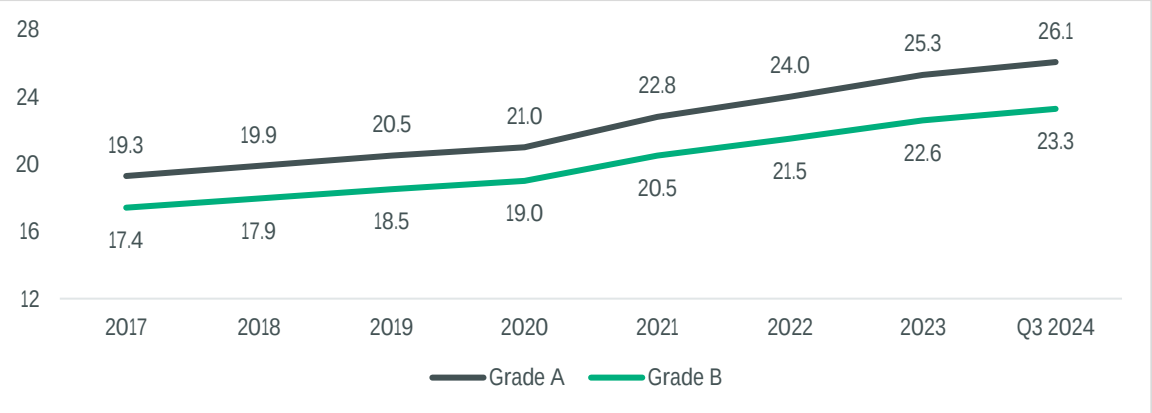
The principal demand drivers for warehousing in the region are connectivity via National Highway 16, under-construction infrastructure initiatives including the Raipur-Visakhapatnam Economic Corridor (RVEC) and Visakhapatnam-Chennai Industrial Corridor (VCIC) motorways, and discounted land values in comparison to the city's traditional warehousing centers. Based on historical micro market absorption data, demand is anticipated to increase by approximately 1.5 – 2.5 mn sft over the next four to five years. The influx of Grade A development in Akkireddy Palem is expected to attract more businesses looking for modern warehouse facilities. With the region's strategic location and cost advantages, it is poised to become a key warehousing hub in the near future.

Further, a new supply is under construction in the Pendurthi-Akkireddy Palem region owing to the availability of developable land parcels and excellent road connectivity through NH 16, VCIC, and RVEC. The land values in the

subject region are in the range of INR 18 – 20 Mn per acre, which is at a relatively lower price compared to established markets such as Auto Nagar, Mindi, etc.

Opinion on Rentals

The average quoted base rental witnessed in Visakhapatnam is INR 24–27 / Sft / month for Grade A development and between INR 20 – INR 24 / Sft / month for a Grade B development. Micro marketwise, Grade A and B average asking rentals are enumerated below in the table:



*Source: Industry Assessment Report dated Q3 of 2024*

A wide range is observed in rental prices because the majority of tenancies are historical and have experienced annual increases for the past six to seven years. This range is expected to remain stable in the near future, as demand for Grade A warehousing in Visakhapatnam continues to grow steadily. Factors such as location, size, and amenities offered by the warehouse also play a significant role in determining the final rental price. For Grade B warehouses, the asking rentals are in the range of INR 20 – 24 /sft/month. The asking rentals in the market are expected to remain range-bound in the short to medium term with market standard escalation of 4 – 5% annually. Approximately 0.45 Mn sft of supply in the future is expected to be operational by 2025.

The Subject Asset is well positioned in the market to attract interest from occupiers owing to its location (Chennai -Srikakulam Road), specifications and amenities, developer's reputation, etc. Therefore, keeping in perspective the subject property's location, leasing in the micro market, quantum of leasable area, quality of construction, developer's reputation, type of space, etc., we are of the opinion that the subject property would command a lease rental of approx. INR 22 - 23 / sft / month as on date of valuation.

# 4 Subject Asset – Vishakapatnam Park

## 4.1 Asset Description

The Subject Asset christened 'Vishakapatnam Park' is an under-construction warehousing facility located at Land-9, IP Expansion situated in Gurrampalem village, Pendurthi Mandal, Visakhapatnam District, Andhra Pradesh 531173. Based on the site plan provided by the Client and visual inspection, the primary access to the subject property is via approx. 24 m wide access road emanating from NH-16 (Chennai – Srikakulam Highway Road). By virtue of the same the property enjoys excellent accessibility and frontage. Based on the information provided by the Client, it is understood that the Subject Asset is an under-construction warehousing asset being developed over a land area admeasuring approx. 16.80 acres and leasable area admeasuring approx. 4,18,633 sft. The Subject Asset is spread across two phases viz. Block 1 & Block 2. The construction started in October 2024 and is expected to be completed by Q1, CY 2025. The Subject Asset is understood to have a proposed floor strength of 5 MT/sqm with FM2 compliant floor finishing surface. The eave height for both the blocks is 12 mtr. and ridge height for Block 1 is 2.87 mtr & for Block 2 is 2.85 mtr. The blocks are designed for a 1:20 slope with 0.50mm thick bare galvalume roofing material.

The design for the planned warehousing facility promotes a sustainable environment with provisions for rooftop solar power setup and rainwater harvesting systems. 24/7 support, including surveillance dedicated facility and a ground support team, ensuring operational continuity, enhanced security features, modern water treatment systems, and NBC standard firefighting systems.

| Brief Description | |
|---|---|
| Particulars | Details |
| Asset Name | Vishakapatnam Park |
| Address | Land-9, IP Expansion situated in Gurrampalem Village, Pendurthi Mandal, Visakhapatnam District, Andhra Pradesh 531173 |
| Land Area | Based on review of the Possession certificate, the Valuer understand that the total land area of the Subject Asset is approx. 16.80 acres. |
| Leasable Area | 4,18,633 sft; As per the review of the Architect certificate, rent roll provided by the Client (Please note according to the lease agreements provided by the Client, it is understood that the rent is paid on the chargeable area, which has been considered for the valuation exercise |

*Source: Client Inputs*

### 4.1.1 Site Details

Situation: Subject Asset – 'Vishakapatnam Park' is an under-construction warehousing facility located along the along the NH-16 (Chennai – Srikakulam Highway Road).

Location: The Subject Asset is located in IP Extension - Gurrampalem towards the West of Visakhapatnam. The Subject Asset is located in an emerging industrial micro -market of Visakhapatnam which lies in close proximity to other prominent industrial micro-markets of the west cluster viz Pendurthi, Simhachalam, Gandigundam, Akkireddy Palem etc. Further, it is well connected to important industrial hubs & major cities via NH-16, NH-60 (Chennai – Srikakulam Highway Road) and other internal roads. Prominent industries present within the vicinity are LVS Power, Yadagiri Millets, SICGIL Industrial Gases Limited, Coromandel paints Pvt Ltd, Tiki Tar Industries, Exide, Vajra Frozen Foods etc.

The distances from key hubs to the Subject Asset are presented in the table below:

| Landmark | Distance (Km) |
|---|---|
| Chennai – Srikakulam Junction (NH-16) | 3– 4 |
| Pendurthi City | 9 – 10 |
| Visakhapatnam Airport | 25 – 30 |
| Visakhapatnam City | 25 – 30 |
| Simhachalam Railway Station | 15 – 20 |

*Source: Valuer's research*

Catchment Analysis: The primary catchment for the purpose of this valuation has been defined as Akkireddy Palem and its adjoining micromarkets which are predominantly characterized by industrial and warehousing facilities. The micromarket is perceived as an emerging destination for various warehousing/ industry players owing to the excellent connectivity (via Chennai-Srikakulam Highway and its proximity to the upcoming Visakhapatnam-Raipur Economic Corridor), attractive rentals, availability of developable land parcels etc. Akkireddy – Palem has only a select few small- medium scale warehousing developments. Further, owing to the growth of E-Commerce sector and its continuous demand from prominent cities like Visakhapatnam, the requirement for warehousing facilities over the recent years has increased. Thus, the subject micromarket is expected to experience sustained demand and supply in the coming years.

Surrounds: The Subject Asset is surrounded as follows:

- North: Private Property – Vacant land (Sy. No 120)
- South: primary access road viz under-construction 24.38 m wide road & Land – 9(A) & 9(B) & Storm water drain
- East: Private Property – Vacant land (Sy. No 120)
- West: Private Property – Vacant land (Sy. No 120)

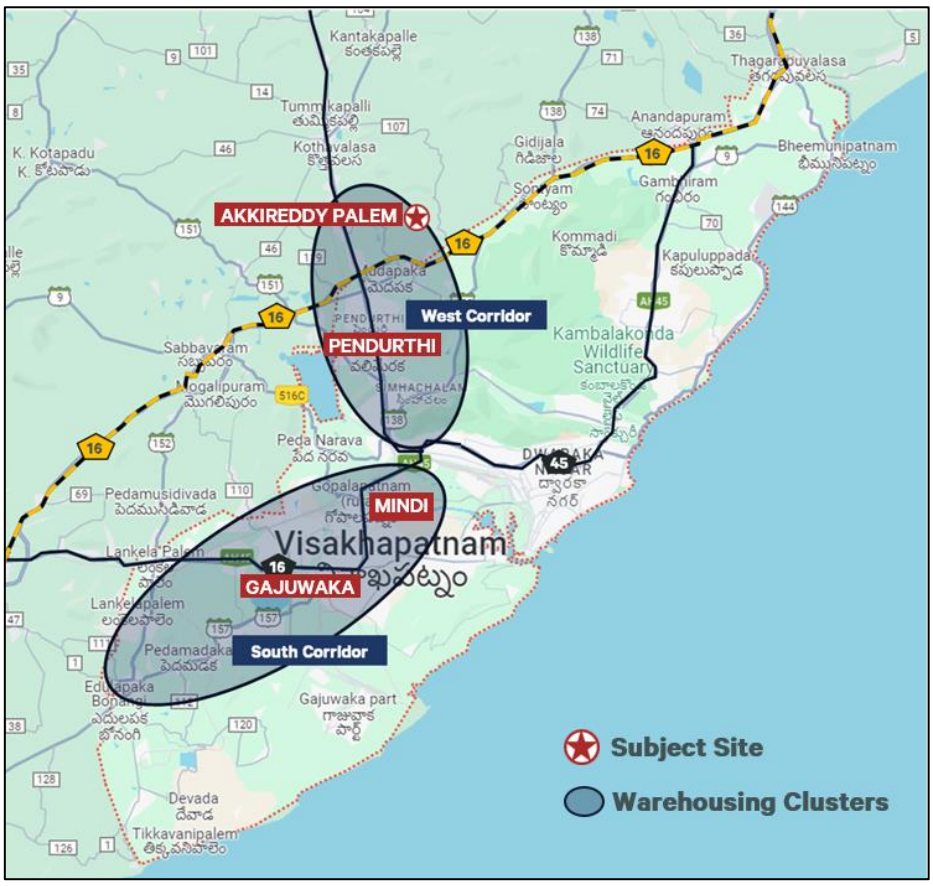
Potential changes in surroundings: The subject property is located in close vicinity to NH-16 highway leading to micro-markets such as Akkireddy Palem etc. where there is nascent interest from developers to launch new assets. The subject location lies within an Industrial Park viz. IP Gurrampalem which

comprises a few small to medium scale manufacturing industries, engineering industries, logistics and warehousing developments etc

| | |
|---|---|
| Suitability of existing use: | Considering the location (viz IP Entention) and profile of surrounding developments coupled with site specific parameters, we are of the opinion that Subject Asset is suited for its current usage. |

The following map indicates the location of the Subject Asset and surrounding developments :

Location Map for the Subject Asset



*Source: Valuers' research*

| | |
|---|---|
| Shape: | Based on the site plan provided by the Client and visual inspection during the site visit, it is understood that the underlying land is irregular in shape. |
| Topography: | Based on the site plan and as corroborated with our site visit, the site appears to be even and on the same level as abutting access roads and adjoining properties. |
| Frontage: | Based on review of site plan and visual inspection, we understand that the subject property has adequate frontage along the primary access road. |
| Accessibility : | Based on the site plan provided by the Client and visual inspection, the primary access to the Subject Asset is via approx. 24 m wide primary access road. By virtue of the same the asset enjoys excellent accessibility and frontage.<br>Please refer the below map for the accessibility of the subject property: |

*Source: Valuers' research*

Please refer Section 7.0 Exhibit & Addendums for the site plan of the Subject Asset.

### 4.1.2 Review of Possession Certificate

As per the possession certificate received, we understand that the exact address of the Subject Asset is Land-9, IP Expansion situated in Gurrampalem village, Pendurthi Mandal, Visakhapatnam District, Andhra Pradesh 531173. Additionally, it is understood that the Subject Asset is allotted to Tarkeshwar Industrial & Logistics Parks Private Limited and is freehold in nature.

### 4.1.3 Title Details

This valuation exercise is based on the premise that the Subject Asset has a clear title and is free from any encumbrances, disputes, claims, etc. Valuer has not made any inquiries in this regard with the relevant legal/ statutory authorities with the understanding this level of due diligence will be undertaken by the appropriate lawyers and then advised to the Valuer accordingly. We strongly recommend the assumption the asset has a clear title is confirmed before relying on the report. It must be noted that the Client currently enjoys conditional allotment of the land from the authority and the title document shall be executed in favour of the Client only post adhering to the usage and development objectives as outlined in detail in the allotment certificate. For this assessment we have assumed that the due conditions shall be met by the client and accordingly the client is expected to subsequently enjoy the freehold rights.

### 4.1.4 Town Planning

| | |
|---|---|
| Zoning | As per the review of the Town Planning Zoning Classification certificate provided by the Client, we understand that the Subject Asset is zoned for "Industrial" Use. The current warehousing activity is permissible under the aforesaid zoning. The same has been |

considered for the purpose of this valuation. Valuer has made no further inquiries with the local authorities in this regard.

For the purpose of this exercise, it has been assumed that all developments (existing / under construction / proposed) adhere to building regulations as prescribed by the relevant authorities. Valuer has not validated the information provided by the Client with the relevant development authorities.

| | |
|---|---|
| Approved Usage: | Based on copies of approved plans issued by PMRDA provided by the Client and visual inspection during our site visit, the Subject Asset is an under-construction warehousing facility. The current use of the Subject Asset is broadly in agreement with the rules and regulations as prescribed by the local development authority. However, Valuer has not made any enquiries with the relevant local authorities to validate the same for its specific applicability to the Subject Asset. |
| Restrictions: | As per feedback received from the Client, there are no other restrictions or constraints on the current use of the asset. |
| Natural or induced hazards: | We have not carried out any investigations or tests or been supplied with any information from Client or from any relevant expert that determines the presence or otherwise of pollution or contaminative substances in the Subject Asset or any other land (including any ground water).<br><br>For the purpose of assessing the vulnerability of the Subject Asset to any natural or induced disaster the location of the property with respect to risks pertaining to earthquakes, high winds/cyclone and flooding was studied. It is understood that Gurrampalem in Visakhaptnam, where the Subject Asset is located falls in Seismic Zone III with moderate risk. Gurrampalem faces Very high damage risk (Zone B) in terms of high winds or cyclones too[2]. Considering the topography of the subject location, it is understood that the Subject Asset is likely to face flooding risk subject to a heavy to very heavy rainfall. As the Subject Asset is located in the foothills of a mountain surrounding the park in the North and East boundary of the park, there are run off water drains along the boundary of the park. Further, the discharge water from the storm water drain may potentially be hindered due to clogging/obstruction in the public canal and/or, the discharge water from storm water drain may also potentially be hindered due to backflow of discharge water from the drain channel. The proposed drain system will help mitigate the flooding risk by diverting the water run-off from mountains & the proposed storm water drain will divert the catchment water inside the park into the public drain connecting to a lake in 3 Km. No hazardous activity was noted in the vicinity of the Subject Asset which may expose it for any induced disaster. |
| Approvals: | As per the documents provided by Client, we understand that the approvals mentioned in section 4.1.5.1 for the asset have been obtained. Please refer annexures for the details.<br><br>For the purpose of this exercise, it has been assumed that the Subject Asset adheres to building regulations as prescribed by the relevant authorities. Valuers have not |

[2] Source-https://www.bmtpc.org/DataFiles/CMS/file/map%20of%20india/wind-india.pdf

validated the information provided by the Client with the relevant development authorities

### 4.1.5 Statutory Approvals, Sanctions & Approvals

#### 4.1.5.1 Statutory Approvals received and to be received (including One-time Sanctions & Periodic Clearances)

As per the information provided by the Client, we understand that majority of the requisite approvals are pending for the Subject Asset due to the asset being under-construction.

The table below highlights the status of approvals for the Subject Asset:

| Approval/NOC | Status (Applied / Received) | Authority | Date of Issue (DD-MM-YY) |
|---|---|---|---|
| Building Permit Order | Received | Commissioner, Andhra Pradesh Industrial Infrastructure Corporation | 01-07-2024 |
| Provisional Fire NOC | Received | Director General, State Disaster Response & Fire Services, Andhra Pradesh | 07-08-2024 |
| Ground Water Abstraction NOC | Received | Andhra Pradesh Ground Water Department | 19-04-2024 |
| Land Use – Possession Certificate | Received | AP Industrial Infrastructure Corporation Limited | 22-02-2024 |
| Consent to Establish | Yet to receive | Andhra Pradesh Pollution Control Board zonal Office, Visakhapatnam | Details awaited |
| Water Supply and Electricity NOC | Not received | Department of Municipal Administration & Urban Development | Details awaited |
| Structural Stability Certificate | Not received | Independent Agency | Details awaited |
| Consent to Operate | Not received | Andhra Pradesh Pollution Control Board | NA at this stage |
| Occupancy Certificate | Not received | Department of Municipal Administration and Urban Development | NA at this stage |

*Source: Approval documents provided by the Client*

#### 4.1.5.2 List of up to date/overdue periodic clearances

Not applicable as mentioned in earlier sections, we understand that the Subject Asset is at under-construction stage. Please refer to section 7.0 for any additional details.

### 4.1.6 Area Details, Type and Age of Existing Structures

The table below highlights the age of the Subject Asset:

| Block | Year of Completion | Age of structures (in years) | Built up Area (sft) | Completed Area (sft) | Leased Area (sft)* |
|---|---|---|---|---|---|
| Block 1 | Q1, CY 2025 | Under Construction | 154,615 | - | - |
| Block 2 | Q1, CY 2025 | Under Construction | 264,018 | - | - |

*Source: Architect certificate, rent roll provided by the Client; (Please note according to the lease agreements provided by the Client, it is understood that the rent is paid on the chargeable area, which has been considered for the valuation exercise *Leasable areas are inclusive of open space.*

The table below highlights the area details of the Subject Asset:

| Blocks | Leasable area (sft) | Built-up area (sft)* | Structure Type |
|---|---|---|---|
| Block 1 | 1,54,615 | 154,615 | Pre-Engineered Building |
| Block 2 | 2,64,018 | 264,018 | Pre-Engineered Building |
| | 4,18,633 | 4,18,633 | |

*Source: Architect certificate, rent roll provided by the Client; (Please note according to the lease agreements provided by the Client, it is understood that the rent is paid on the chargeable area, which has been considered for the valuation exercise. The efficiency from leasable area to built-up area is 98.5%.*

### 4.1.7 Site Services and Finishes

| Particulars | Under Construction Blocks |
|---|---|
| Handover condition | Warm Shell |
| Type of Structure | Pre-Engineered Building Structure |
| Firefighting services | Provided. |
| Lift provision | No Lifts |
| Floor Finish | FM2 Concrete floor |
| Floor Strength | 5 MT/Sqm |
| Eave Height | Box 1 – 12 m and Box 2 – 12 m |
| Lighting (Lux Level) | Details awaited |
| Fire fighting | Proposed as per NFPA/NBC fire protection system |
| Power Backup | Details awaited |

*Source: Information provided by the Client, Site visit*

### 4.1.8 Condition & Repair

Based on information provided by the Client and coupled with our visual inspection during the site visit undertaken, it is understood that the Subject Asset is under construction. Therefore, only a marginal refurbishment capex to the tune of 1% of the Net Operating Income is adopted. This assumption would allow for the refurbishment reserve to be created to undertake any potential major refurb at the Subject Asset post its completion.

The table below highlights the capital expenses to be incurred for project construction and other activities (such as approvals cost, admin costs, marketing and sales expenses, contingencies etc):

| Expense Head | Total Cost (INR Mn) | Incurred Cost (INR Mn) | Q4, CY 2025 | Q1, CY 2025 |
|---|---|---|---|---|
| Capital Expenditure | 927.79 | 284.29 | 386.10 | 257.40 |

*Source: Client Inputs*

### 4.1.9 Asset Photographs

Please refer to the Asset photographs highlighted below:

| Vishakapatnam Park | |

### 4.1.10 Details of the asset including whether the transaction is a related party transaction.

Please refer to the Annexure section 7.5

### 4.1.11 Nature of the interest the InvIT holds or proposes to hold in the asset, percentage of interest of the InvIT in the asset.

Please refer to the Annexure section 7.5

### 4.1.12 Structure of ownership of the asset by the InvIT

Please refer to the Annexure section 7.5

### 4.1.13 Description of key agreements and restrictions relevant to the asset such as terms of concession agreement, power purchase agreements, etc.

Please refer to the Annexure section 7.5

### 4.1.14 Life of the asset (both contractually and physical life requiring maintenance, replacement and right available to extend this life

Please refer to the Annexure section 7.5

### 4.1.15 Valuation of the asset in the previous 3 years

As of the date of this valuation report, the Subject Asset is not part of the Infrastructure Investment Trust (InVIT)

# 5 Valuation Approach & Methodology

## 5.1 Scope of Valuation

The valuation exercise is to assess the Market Value (MV) of the Subject Assets for the purpose of offer of units by Private Placement of TVS Infrastructure Trust under the SEBI (Infrastructure Investment Trust) Regulations, 2014, as amended. The valuations have been conducted in accordance with the IVSC International Valuation Standards, (effective 31 January 2022) and in accordance with the requirements of the SEBI (Infrastructure Investment Trust) Regulations, 2014, as amended from time to time.

The Valuer has assessed the Market Value of each Individual Subject Asset(s), not the value of the portfolio as if all assets are being sold in one transaction. Where a summation of the individual Assets is provided, this is purely for reference only and should not be construed as the value of the portfolio.

## 5.2 Basis of Valuation

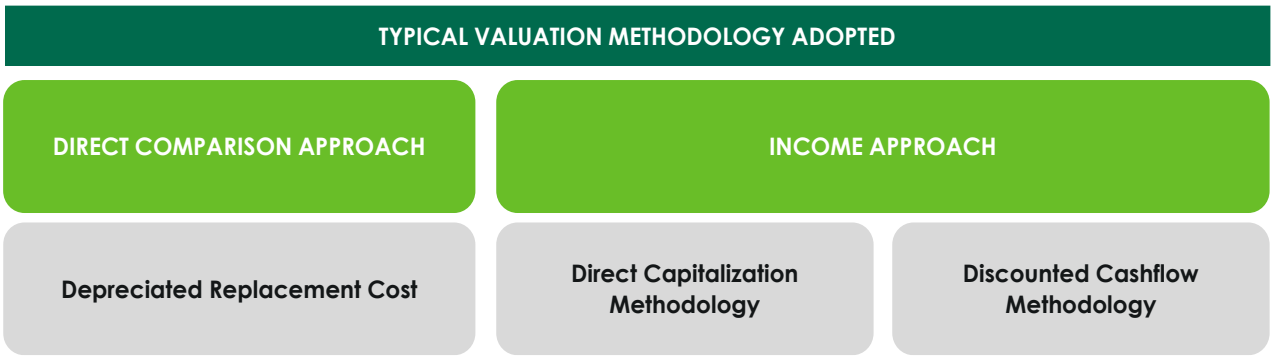
The valuations have been conducted in accordance with the IVSC International Valuation Standards issued in July 2021, effective from 31 January 2022), Regulation 21 and Schedule V of the SEBI (InvIT) Regulations, 2014 and are in compliance with the International Valuation Standards (IVS). The valuation exercise has been undertaken by appropriately qualified Valuer and assesses the Market Value of the ownership Interest in the Subject Asset.

As per the Valuation and Guidance Notes issued by the IVS, the market value is defined as:

***'The estimated amount for which** an asset or liability should exchange on the valuation date between a **willing buyer and a willing seller in an arm's length transaction, after proper marketing and where the parties had each acted knowledgeably, prudently and without compulsion'.***

## 5.3 Approach and Methodology

The purpose of this valuation exercise is to estimate the Market Value (MV) of the subject assets. Market Value can be derived through the following Methodologies:



### 5.3.1 Direct Comparison Approach

Under the 'Direct Comparison Approach', the asset is compared to similar assets that have actually been sold in an arms-length transaction or are offered for sale (after deducting for value of built-up structure located thereon). The comparable evidence gathered during research is adjusted for premiums and discounts based on asset specific attributes to reflect the underlying value of the asset.

### 5.3.2 Income Approach

The income approach is based on the premise that value of an income - producing asset is a function of future benefits and income derived from that asset. There are two commonly used methods of the income approach in real estate valuation namely, direct capitalization and discounted cash flow (DCF).

A. Direct Capitalization Method

Direct capitalization involves capitalizing a 'normalized' single - year net income estimated by an appropriate yield. This approach is best utilized with stable revenue producing assets, whereby there is little volatility in the net annual income.

B. Discounted Cash Flow Method

A Discounted Cash Flow Analysis is based upon estimates of future financial performance. The methodology begins with a set of assumptions regarding income and expenses of the asset and future economic conditions in the local market. The income and expense figures are projected with adjustments for estimated changes in economic conditions and any contractual commitments. The resultant value is considered the best estimate but is not to be construed as a prediction or guarantee and is fully dependent upon the reasonableness of the assumptions with respect to income, expenses, and market conditions, which are based on information available as at the valuation date.

## 5.4 Approach and Methodology Adopted

Considering the objective of this exercise, the nature of asset involved and the purpose of the valuation viz. to assess the Market Value (MV) of the Subject Asset for the purpose of the Private Placement of TVS Infrastructure Trust under the SEBI (Infrastructure Investment Trust) Regulations, 2014 'Regulation', we have adopted the methodology considering Chapter 1 section 2 point (i) of the InvIT regulations effectively prescribe that the InvIT assets need to be generating income or has the potential to do so and hence the most appropriate method to capture the income generating nature of the assets is Income approach method.

Under the Income approach, Discounted Cash Flow Analysis is based upon estimates of future financial performance which also considers the income and expenses of the asset accounting for the future fluctuations due to expected market dynamics.

Hence, for the purpose of this valuation exercise, we have adopted Discounted Cash Flow Method (using rent reversion).

For the purpose of this valuation exercise, we have analysed the tenancy details provided by the Client to identify variances vis-à-vis prevailing Market rent. In the event the contracted rent is within the threshold (15.0%), we have assumed that the tenant will continue the current agreed terms. In the event the rent is higher than the Market rent threshold, we have assumed that the lease would be renegotiated to Market rent terms (at the time of the lock-in expiry, next escalation, etc.).

Asset-specific Review:

1. As the first step to the valuation of the asset, the lease deeds were reviewed to identify tenancy characteristics with respect to contractual commitments and commercial covenants.
2. Title documents and architect certificates were reviewed for validation of area details, ownership of the asset.

3. The Valuer has undertaken physical site inspections to assess the status of the subject assets in terms of their physical configuration, capacity and upkeep.

Micromarket Review/Market Rental Assessment:

A primary research exercise has been carried out in the catchment area to ascertain the prevalent activity levels in terms of quoted / transacted evidence of the recent leasing activity for warehousing facilities. This has been achieved through interactions with various market players such as local real estate brokers, developers, owners, etc. Based on the same, we understand that variance across rentals is primarily due to factors such as type of asset, developer brand, location, accessibility, overall tenant mix, quantum of vacant stock in the development, specifications, and additional improvements, etc.

For the micromarket review and market rental assessment we have relied upon the report on 'Market Analysis of the Warehousing Segment' prepared by CBRE South Asia Private Limited, hereafter referred as 'CBRE' (an independent agency appointed by the Client to undertake market research, provide market summary and data for the purpose of this assignment).

Cash Flow Projections:

We have projected future cash flows from the subject assets based on existing lease terms and contractual lease payments for the operational area until the expiry of the leases or re-negotiation (using the variance analysis), whichever is earlier.

Based on a detailed review of the leases for the Subject Assets, we noted that a large number of leases at these assets were executed at rent prevalent at the time of signing of such leases or at a discount to prevailing market rental (for a few anchor tenants). Since the real estate industry is dynamic and is influenced by various factors (such as existing supply, tenants looking at spaces, quality of spaces available in the market, overall health of the economy, existing rent, future growth plans, etc.) at a particular point in time, negotiated rent may tend to move away from the prevalent market rent over a period. It has also been witnessed that the market rent for some assets or micromarkets increase or decrease at a rate significantly different from those agreed to in initial leases. These factors reinforce the need to review each of these leases in isolation to assess the intrinsic value of the asset under review.

Post this, the lease terms have been aligned with market rentals. For vacant area, the Valuer has projected the market rent led cash flows factoring appropriate lease-up time frame for vacant/under-construction/proposed area. These cash flows have been projected for 10-year duration from the date of valuation and for 11$^{th}$ year (for assessment of terminal value). These future financial benefits are then discounted to a present-day value (valuation date) at an appropriate discount rate.

## 5.5 Information Sources for Valuation

The asset related information referred to for the valuation exercise have been provided by the Client unless otherwise mentioned. We have assumed the documents to be a true copy of the original. The rent rolls have been cross-checked with the lease deeds on a sample basis to verify the authenticity. Additionally, wherever possible, we have independently revalidated the information by reviewing the originals as provided by the Client.

Table below highlights various data points referred throughout the course of this valuation report and the data sources for the same:

| Particulars | Details | Units | Source |
|---|---|---|---|
| Area Details | Land Area | Acres | Possession Certificate |
| | Achieved FSI | No. | Sanctioned Layout Plan |
| | FSI Area | Sft | Sanctioned Layout Plan |

# 6 Value Assessment

## 6.1 Value Assessment

### 6.1.1 Adopted Methodology

We acknowledge that the approaches to valuation differ considerably and that for a particular purpose, alternative approaches to the valuation can be utilized. Considering the objective of this exercise and the nature of asset involved, the value of the Subject Asset has been assessed through the following approaches:

| Asset Name | Completed Blocks | Under-construction Blocks |
|---|---|---|
| Vishakapatnam Park | Not Applicable | Discounted Cash Flow (Using rent reversion approach) |

The sections below highlight the detailed valuation workings for the Subject Asset.

## 6.2 Operational Assumptions

### 6.2.1 Area statement

Based on information from registered agreement to sale and proposed layout drawing titled 'PROPOSED WAREHOUSE & LIGHT ENGINEERING VISAKHAPATNAM, ANDHRA PRADESH' vide drawing no. TVSILP-005-CV-1000-AC-1000 provided by the client, we understand that Subject Asset is an under-construction warehousing/ industrial development. Further, the table below highlights the area configuration of the Subject Asset:

| Block | Year of Completion | Age of structures (in years) | Built up Area (sft) | Completed Area (sft) | Leased Area (sft)* |
|---|---|---|---|---|---|
| Block 1 | Q1, CY 2025 | Under Construction | 154,615 | - | - |
| Block 2 | Q1, CY 2025 | Under Construction | 264,018 | - | - |

*Source: Architect certificate, rent roll provided by the Client; (Please note according to the lease agreements provided by the Client, it is understood that the rent is paid on the chargeable area, which has been considered for the valuation exercise *Leasable areas are inclusive of open space.*

The table below highlights the area details of the Subject Asset:

| Blocks | Leasable area (sft) | Built-up area (sft)* |
|---|---|---|
| Block 1 | 1,54,615 | 154,615 |
| Block 2 | 2,64,018 | 264,018 |
| | 4,18,633 | 4,18,633 |

*Source: Architect certificate, rent roll provided by the Client; (Please note according to the lease agreements provided by the Client, it is understood that the rent is paid on the chargeable area, which has been considered for the valuation exercise. The efficiency from leasable area to built-up area is 98.5%.*

## 6.3 Tenancy Analysis

### 6.3.1 Historical Occupancy Rates

As mentioned in earlier sections, we understand that the Subject Asset is in under-construction stage, and no area has been pre-committed as per inputs provided by the client. Hence there is no historical occupancy rates in place.

### 6.3.2 Lease Rent Analysis

As mentioned in earlier sections, we understand that the Subject Asset is under-construction, and no area has been pre-committed as per inputs provided by the client. Hence there are no existing lease deeds in place for the Subject Asset.

### 6.3.3 Lease Expiry Profile

As mentioned in earlier sections, we understand that the Subject Asset is under-construction, and no area has been pre-committed as per inputs provided by the client. Hence the expiry profile for the potential tenants in the Subject Asset is expected to be greater than 10 years from the date of this assessment. This is assumed in line with the prevalent lease terms observed in the market.

### 6.3.4 Tenant Obligations.

Based on the review of the lease deed, we understand that the operational expenses listed below will have to be borne by the Tenant.

| S. No | Description of operational expenses |
|---|---|
| 1 | Regular Maintenance |
| 2 | General Wear and Tear |
| 3 | Other Expenses such as utility charges towards any Governmental authorities or Concerned service provider. |

Contractual Rental Details

| Tenant | Leased Area (sft) | % of area leased | Total In-place rental (INR psf pm) | Total In-place rental (INR Mn pm) |
|---|---|---|---|---|
| Not Applicable | 0 | 0% | - | - |
| Total | - | - | - | - |

*Source: Leased Deed and Information provided by the Client*

Based on the recent transaction witnessed in the micro market as highlighted in the table above and transaction witnessed in the Subject Asset, we understand that the Subject Asset would command a market rental (for warehouse space) of INR 22 – 23 per sf per month (say an average rental of INR 23 per sf per month of leasable area) as on date of valuation.

### 6.3.5 Construction Timelines

#### 6.3.5.1 Completed Blocks

Not Applicable as the Subject Asset is currently at under-construction stage.

#### 6.3.5.2 Under Construction Blocks

Based on visual inspection during the site visit and information provided by the Client, the following timelines for under-construction phases have been adopted for the purpose of this valuation exercise –

| Block | Developable Area (sft) | Leasable Area (sft) | Construction Status | Construction Commencement | Construction Completion |
|---|---|---|---|---|---|
| Block 1 | 1,54,615 | 1,54,615 | Under construction | Q3, CY 2024 | Q1, CY 2025 |
| Block 2 | 2,64,018 | 2,64,018 | Under construction | Q3, CY 2024 | Q1, CY 2025 |
| | 4,18,633 | 4,18,633 | | | |

*Source: Client Inputs*

### 6.3.6 Absorption/ Leasing Velocity and Occupancy Profile

#### 6.3.6.1 Completed Blocks

As per the information provided by the Client and visual inspection undertaken, we understand that the Subject Asset is under construction and no area has been pre-committed as per the inputs provided by the client.

#### 6.3.6.2 Under-Construction Blocks

The absorption period assumed for the Subject Asset is based on market dynamics and extent of development in the relevant micromarket, nature of Subject Asset, competing supply of same nature, location within the respective micromarket, etc. The vacant spaces in the entire development are assumed to be absorbed by Q2, CY 2025.

### 6.3.7 Revenue Assumption

#### 6.3.7.1 Warehousing Component

For the purpose of this valuation exercise, the lease rent adopted for the leasable area is based on the in-depth market research exercise undertaken by the Valuer to assess the prevailing rent values in the subject micromarket. The same has been adopted for the vacant space for the purpose of this valuation exercise.

| Component | Leasable Area (sft) | Leased Area (sft) | Basis | Rent Adopted* (INR psf pm) |
|---|---|---|---|---|
| Warehousing | 4,18,633 | 0 | Current Rent for Leased area | Not Applicable |
| | | | Market rent for reversion/ vacant area | 23.0 |

*Source: Architect Certificate provided by the Client for leasable area; Valuer's assessment*

The above market rent assumption is adopted for the entire Subject Asset. An in-depth market research exercise has been undertaken to assess the expected economic rental value of the Subject Asset.

#### 6.3.7.2 Non-Warehouse Component

As per the information provided by the Client as on the date of this assessment, it is understood that no industrial open space area/ mezzanine area is a part of the Subject Asset.

### 6.3.8 Rent Escalation

Based on the market research exercise undertaken, it was observed that the typical escalation clause in the subject micromarket is approx. 5.0% annually. The same has been adopted for the vacant area and renewals at the Subject Asset.

Escalation on renewal/fresh leasing - Based on the market research exercise undertaken, it was observed that the typical escalation clause for lease renewal is of 5% per annum is in-line with the trend observed in the market. The same has been adopted by the Valuer.

Market Rent Escalation - Based on the trend observed in the market and based on review of the Industry Assessment report, the valuer has considered a market escalation of 5% per annum effective from the date of valuation. The assumption for market rent for this appraisal exercise is as follows:

| Particulars | September 2024 | March 2025 | March 2026 | March 2027 | Stabilized Escalation (%) |
|---|---|---|---|---|---|
| Market Rent – INR / sf/ month | 23.0 | 24.1 | 25.4 | 26.6 | 5% |

*Source: Valuer's assessment*

### 6.3.9 Other Revenues

In addition to lease rent revenues, assets typically have additional sources of revenue. These include revenues on account of security deposit (refunded at the time of lease expiry / exit), other miscellaneous income etc.

The assumptions considered for the aforementioned revenue heads for the purpose of this valuation exercise has been cross-checked with the prevailing market norms for other revenues.

The assumptions adopted for other revenues are as tabulated below:

| Nature of Income | Details | Units |
|---|---|---|
| Other Income | 0.0 % | % of Rental Income |
| Security Deposit (For vacant spaces) | 6.0 | No. of months' rental |

*Source: Valuer's assessment*

### 6.3.10 Capital Expenditure

#### 6.3.10.1 Development Cost

Based on review of the information provided by the Client, we understand that 100% expenses related to construction, are to be borne by the Client and no tenant improvement details are being provided as on date of this assessment.

The following table highlights the assumptions towards the development cost for the under-construction blocks at the Subject Asset:

| Expense Head | Total Cost (INR Mn) | Incurred Cost (INR Mn) | Q4, CY 2024 | Q1, CY 2025 |
|---|---|---|---|---|
| Capital Expenditure | 927.79 | 284.29 | 386.10 | 257.40 |

*Source: Client inputs*

#### 6.3.10.2 Major Repair and improvements

Based on information provided by the Client and coupled with our visual inspection during the site visit undertaken, it is understood that the Subject Asset is under construction. Therefore, only a marginal refurbishment capex to the tune of 1% of the Net Operating Income is adopted. This assumption would allow for the refurbishment reserve to be created to undertake any potential major refurb at the Subject Asset post its completion.

### 6.3.11 Operating Cost

An Asset typically has few recurring operation expenses required for the upkeep running of the development. Based on information provided by the Client and market assessment, following recurring expense assumptions have been adopted for the purpose of this valuation exercise:

In addition to capital expenditure, an asset typically has few recurring operational expenses required for the up-keep and running of the asset. Based on information provided by the Client and market assessment, following recurring expense assumptions have been adopted for the purpose of this valuation exercise:

| Nature of Expense | Details |
|---|---|
| Reserves & Maintenance (R&M) Provision | 0.81% |
| Asset Management Fee^ | 3.0% of revenues from operations |
| CAM expense | Not Applicable |
| Property Tax | INR 1.3 Mn per Annum |
| Insurance | INR 0.85 Mn per Annum |
| Vacancy Allowance during operations | 1.0% of revenues from operations |
| Vacancy Allowance on Exit | 2.5% of revenues from operations |

*Source: Client input; Valuer's assessment;*

### 6.3.12 Other Assumptions

#### 6.3.12.1 Vacancy provision

Based on review of the information provided, we understand that that the Subject Asset is entirely vacant. Considering the same alongside other asset level parameters (location, amenities, grade, infrastructure etc) and market benchmarks, the valuer has adopted a vacancy provision as follows:

| Description | Details |
|---|---|
| Vacancy Provision | During Operations – 1.0%<br>Assessment at the time of exit – 2.5% |

*Source: Valuer's assessment*

#### 6.3.12.2 Rent-free period & Downtime

Based on recent market trends in the subject micro market, we have considered a rent-free period of 1 month for new-leases and for re-leasing effective from the lease commencement date. Additionally, 1 month of downtime has been considered for new-leases and for re-leasing for the purpose of refurbishment works in the respective blocks as mentioned above.

#### 6.3.12.3 Brokerage

Based on prevalent market dynamics, we have considered brokerage equivalent to 1 month of rental income for future / new leases.

#### 6.3.12.4 CAM Cashflows

Based on the client inputs, we have not adopted any CAM inflows and outflows for the Subject Asset.

## 6.4 Financial Assumptions

### 6.4.1 Exit Capitalization Rate Adopted

The exit capitalization rate adopted for valuing the assets has been based on factors such as:

- Historical entry yields (going in cap rates) for yield/ core warehousing facility transactions across various key markets in India have steadily shown a downward trend over last 7 - 8 years from 10.5%- 11.5% to about 7.5% - 8.5% in last 3-4 years.
- The increased appetite for income producing assets and availability of various modes of finance (real estate credit flows) backing such acquisitions.
- Yields for warehousing facilities across various markets in India have a range of 7.5 – 8.5%
- Liquidity associated with InvIT listed/ public listings (multiplicity of buyers and relatively lower budgets per buyer)
- Valuer has adopted an exit cap rate of 7.75% to 8.25% with lower end of cap rate adopted for relatively better assets within the portfolio on account of location, catchment and quality of the asset.

Based on the above highlighted attributes, the following cap rate has been adopted for the purpose of our valuation:

| Asset Name | SPV/Hold Co | Status of the asset | Details |
|---|---|---|---|
| Vishakapatnam Park | Tarkeshwar Industrial & Logistics Parks Private Limited/ TVS ILP | Under Construction | 8.0% |

*Source: Valuer's assessment*

### 6.4.2 Discount Rate Adopted

For discounting the cash flows, an appropriate discount rate has been calculated on the basis of estimated 'Weighted Average Cost of Capital' (WACC), as set out below.

### 6.4.3 Cost of Equity

The Valuer has computed the cost of equity as per the Capital Asset Pricing Model (CAPM), which is derived as follows:

Cost of equity = Risk Free Rate (Rf) + Beta (**β**) * (Market Return (Rm) **–** Risk Free Rate (Rf))

As mentioned above, the cost of equity computed using CAPM constitutes of the following components:

- Risk free rate (Rf) i.e., long term (10-year) treasury bond rate in India
- Market return (Rm) based on the returns of Sensex index for the past 10 years.
- Computation of 'Beta (β)' of key listed realty stocks and REITs/ InvITs in India with respect to the Broad-Based BSE 500 stock index

The cost of equity adopted for this asset has been adjusted for market/ asset specific risk pertaining to a real estate asset such as execution risk (construction status), approval risk, marketing risk, etc. and adjusted for taxation. While the assumptions regarding the quantum of these risks have no quantitative basis, we have adopted them based on our understanding of the market and our opinion on the asset performance.

### 6.4.4 Cost of Debt

The cost of debt for the Subject Asset has been considered based on prevalent Lease Rental Discounting (LRD) rates for Grade A warehousing facilities across the Visakhapatnam market which are in the range of 8.0% – 10.0% depending upon the location, asset quality, occupancy, etc.

### 6.4.5 Weighted Average Cost of Capital (WACC)

As highlighted earlier, the cost of debt has been assumed based on the prevalent Construction Financing (CF) for under-construction assets, while the cost of equity assumed has been adjusted for asset and market specific attributes to reflect the market expectations from an under-construction development. Further, the proportion of debt and equity has been derived considering the prevalent Construction Finance tenures and its contribution in the overall asset value.

Based on above, the following WACC rate has been assumed for the under-construction asset Vishakapatnam Park forming part of the InvIT portfolio:

| Asset Name | SPV/Hold Co | Particular | Proportion | Cost | WACC |
|---|---|---|---|---|---|
| Vishakapatnam Park | Tarkeshwar Industrial & Logistics Parks Private Limited/ TVS ILP | Debt | 60.0% | 11.0% | 12.8% |
| | | Equity | 40.0% | 15.5% | |

*Source: Valuer's assessment; Please note that the cash flows are assumed to realize evenly during every quarter; hence a mid-quarter discounting convention has been adopted for the purpose of this valuation. Additionally, we have not factored any cash flows attributable to working capital requirement/expenses for valuation as the same is immaterial.*

## 6.5 Value of the Subject Asset

The Valuer is of the opinion that subject to the overriding stipulations contained within the body of this report and to there being no onerous restrictions or unusual encumbrances of which he has no knowledge, the opinion of value of the complete ownership interest in the Subject property comprising land and improvements thereon, as explained above, as on 30th September 2024 is as follows:

| Asset Name | Value (INR Mn) |
|---|---|
| Vishakapatnam Park | 777.56 |

*Source: Valuer's assessment*

# 7 Exhibits and Addendums.

## 7.1 Other Mandatory Disclosures

### 7.1.1 Details of On-going material litigations including tax disputes in relation to the assets

As per our interaction with the Client, the Client has confirmed that there are no material litigation details pertaining to the asset. Please note that the Valuer has not investigated nor has been provided with any supporting documents.

Please refer to the section on litigations in the draft Offer Document for details on material litigations for various assets.

### 7.1.2 Details of options or rights of pre-emption and other encumbrances

As per our interaction with the Client and our scope of services, please note that the Valuer has not investigated nor has been provided with any supporting documents.

Please refer to the section on litigations in the draft Offer Document for details on material litigations for various assets

### 7.1.3 Vulnerability to natural or induced hazards that may not have been covered in town planning/ building control.

As per our interaction with the Client, the Client has confirmed that there are no Vulnerabilities pertaining to the asset. Please note that the Valuer has not investigated nor has been provided with any supporting documents.

Further, as per our visual inspection, we are of the opinion that the site is in nascent development stage and as such there was no vulnerability observed during the inspection. It may further be noted that the Subject Asset is subjected to heavy to very heavy rainfall as detailed in section 4.1 of this report

### 7.1.4 Details of Revenue Pendencies including local authority taxes associated with InvIT asset and compounding.

As per our interaction with the Client, the Client has confirmed that there is no revenue pendency to the asset. Please note that the Valuer has not investigated nor has been provided with any supporting documents.

Please refer to the section on litigations in the draft Offer Document for details on material litigations for various assets.

Our assessment is under the assumption the asset has a clear title and is free from any encumbrances, disputes, claims that would affect the value. This should be verified by an asset lawyer prior to relying on this valuation.

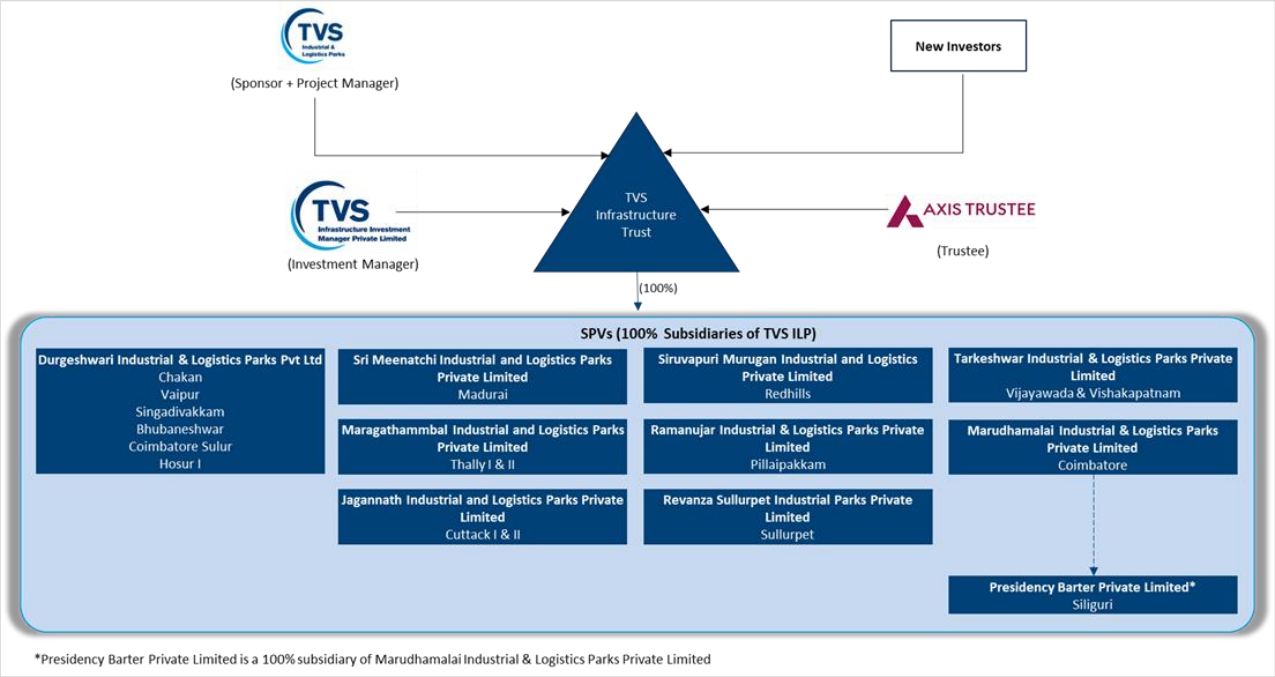
### 7.1.5 Details of the asset including whether the transaction is a related party transaction.

The asset is proposed to be acquired from the Sponsor, which is identified as related party under SEBI (InviT) Regulations

### 7.1.6 Nature of the interest the InvIT holds or proposes to hold in the asset, percentage of interest of the InvIT in the asset.

As per our interaction with the Client, the Client has confirmed that 100% to be help by the InvIT.

### 7.1.7 Structure of ownership of the asset by the InvIT



### 7.1.8 Description of key agreements and restrictions relevant to the asset such as terms of concession agreement, power purchase agreements, etc.

As per our interaction with the Client, the Client has confirmed that the same is not applicable to their business.

### 7.1.9 Life of the asset (both contractually and physical life requiring maintenance, replacement and right available to extend this life

| S. No | Particulars | No. of years |
|---|---|---|
| 1 | Remaining Physical Life of the Building asset requiring maintenance | 30 years* |
| 2 | Remaining Contractual Life of underlying Land | Perpetual, since the underlying land is freehold in nature |
| 3 | Right to extend the contractual life of land | Not applicable. The underlying land is freehold in nature |

*Source: Architect Certificate; *End date of construction of last phase is estimated in April-2025[3] as per the architect certificate.*

[3] Please note that this date is indicative in nature and is subject to change basis circumstances.

**"Legal Notice and Disclaimer"**

This valuation report (the "Report") has been prepared by iVAS Partners. ("iVAS") exclusively for TVS Industrial & Logistics Parks Private Limited (the "Instructing Party"), TVS Infrastructure Trust (the "Trust") and TVS Infrastructure Investment Manager Private Limited (the "Investment Manager") and collectively referred as 'Reliant Parties" in accordance with the Agreement entered into between iVAS and the Instructing Party dated 1st February 2024 and subsequent addendums (the "Agreement"). The Report is confidential to the Instructing Party and any other Addressees named herein and the Instructing Party and the Addressees may not disclose the Report unless expressly permitted to do so under the Agreement.

Where iVAS has expressly agreed that persons other than the Instructing Party or the Addressees can rely upon the Report (a "Reliant Party" or "Reliant Parties") then iVAS shall have no greater liability to any Reliant Party than it would have if such party had been named as a joint client under the Agreement.

iVAS's maximum aggregate liability to the Instructing Party and to any Reliant Parties howsoever arising under, in connection with or pursuant to this Report and/or the Agreement together, whether in contract, tort, negligence or otherwise shall be limited to the professional fee received by iVAS under the Agreement.

iVAS shall not be liable for any indirect, special, or consequential loss or damage howsoever caused, whether in contract, tort, negligence or otherwise, arising from or in connection with this Report. Nothing in this Report shall exclude liability which cannot be excluded by law.

If you are neither the Instructing Party, an Addressee nor a Reliant Party then you are viewing this Report on a non-reliance basis and for informational purposes only. You may not rely on the Report for any purpose whatsoever and iVAS shall not be liable for any loss or damage you may suffer (whether direct, indirect, or consequential) as a result of unauthorized use of or reliance on this Report. iVAS gives no undertaking to provide any additional information or correct any inaccuracies in the Report.

For the avoidance of doubt, nothing in our Report will constitute any recommendation, investment advice or an offer or solicitation for the purpose of or for sale of any securities, financial instrument or products or other services. Any investors should make their own investment decisions in relation to any investments. If you do not understand this legal notice, then it is recommended that you seek independent legal advice.

# 1 Executive Summary

| | |
|---|---|
| Asset Name: | Cuttack Park I (Banipada) and Cuttack Park II (Indranipatna) (collectively the 'Subject Assets') |
| Asset Address: | Banipada and Indranipatna, Cuttack |
| Instructing Party: | TVS Industrial & Logistics Parks Private Limited (the "Client") |
| SPV Name: | Jagannath Industrial & Logistics Parks Private Limited / TVS ILP |
| Interest Valued: | 100% Freehold interest in the subject asset (Underlying land parcels of subject assets at Banipada and Indranipatna are leasehold in nature[1]. ) |
| Land Area: | As per the review of the architect certificate, registered agreements, possession letter, layout plan and Sarpanch NOC provided by the Client, the total land area is 22.43 acres. Further, as per review of architect certificate, we note the following:<br>1. The land area of Cuttack - I viz. located in Banipada is approx. 14.4 acres.<br>2. The land area of Cuttack – II viz. located in Indranipatna is approx. 8.0 acres. |
| Brief Description: | Based on the review of documents shared by the Client and subsequent site visit undertaken, it is observed that both the subject assets are under-construction Industrial warehouses, located along the respective internal roads emanating from Sambhalpur – Cuttack Highway.<br>Further, it is also understood that both the assets are leasehold in nature which are leased to M/s Jagannath Industrial & Logistics Parks Private Limited by Odisha Industrial Infrastructure Development Corporation (IDCO). Below mentioned is the lease terms for the subject assets: |

| Asset Description | Asset Location | Land Area | Tenure Remarks | Source |
|---|---|---|---|---|
| Cuttack Park I (Banipada) | Banipada | 14.4 | 90 years starting from date of lease sanctioned in favour of IDCO - till 16th January 2074 | Registered Agreement dated 8th August 2023 |
| Cuttack Park II (Indranipatna) | Indranipatna | 8.0 | 82 years starting from date of execution of the agreement - till 8th August 2105 | Registered Agreement dated 9th August 2023 |

The subject assets "TVSILP Cuttack" comprises of two land parcels located in villages Banipada and Indranipatna are currently under-construction warehouse development. Both the subject assets are in proximity to Sambhalpur – Cuttack Highway a prominent arterial road in the city. The warehousing corridor extends from the northern vector such as Jagatpur, Tangi etc to the city via Mahapandi Bridge. By virtue of being located along the Sambhalpur – Cuttack Highway and in proximity to other prominent arterial roads in the region, both the assets enjoy excellent connectivity to other parts of city. Choudwar, the subject micromarket, is emerging as the new warehousing hub of Cuttack city, driven by government subsidies for industrial land parcels. Numerous corporations have established factories and warehouses on government land in this area. The Choudwar industrial

[1] *As per the Title Search Report and Lease deed provided for both assets, it is understood that that the underlying land of both the assets viz Cuttack I (Banipada) and Cuttack II (Indranipatna) are are leased to M/s Jagannath Industrial & Logistics Parks Private Limited (the asset owning SPV) by Odisha Industrial Infrastructure Development Corporation (IDCO) for 90 years and 82 years respectively via registered agreements dated 8th and 9th August, 2023 respectively.*

area, along with connectivity via State Highway 55, facilitates the growth of a micromarket capable of accommodating multiple industrial and newly built warehouse buildings. Additionally, other warehouse markets and industrial clusters like Tangi and Jagatpur are easily accessible from the subject micromarket. Some of the prominent warehousing assets in the micromarket include ESR Warehouse (Choudwar), Umang Warehouse (Jagatpur), TCI Warehouse (Jagatpur). The area details of the asset are as follows:

| Particulars | Built-up area (sft) ** | Leasable area (sft) ** | Leasable area (sft) ** |
|---|---|---|---|
| Cuttack Park I (Banipada) | 3,35,345 | 3,35,345 | 3,35,345 |
| Cuttack Park II (Indranipatna) | 1,50,000 | 1,50,000 | 1,50,000 |

*Source: Architect certificate, rent roll provided by the Client (Please note according to the lease agreements provided by the Client, it is understood that the rent is paid on the chargeable area, which has been considered for the valuation exercise)*

The subject assets are located in villages Banipada and Indranipatna, Cuttack, Orissa. The Banipada asset is located at a distance of approx. 2 - 3 kms from Sambhalpur – Cuttack Highway, approx. 17 - 18 kms from Cuttack Bus Station, approx. 15 - 16 kms from Cuttack Railway Station, approx. 45 - 46 kms from Bhubaneshwar International Airport. Similarly, the Indranipatna asset is located at less than 1 km from Sambhalpur – Cuttack Highway, approx. 16 - 17 kms from Cuttack Bus Station, approx. 14 - 15 kms from Cuttack Railway Station, approx. 44 - 45 kms from Bhubaneshwar International Airport.

Statement of Assets (sft):

Based on review of rent roll provided by the Client, we understand that approx. 1,12,565 sft out of the total leasable area of 3,35,345 sft has been already pre-committed to an FMCG company Further, Cuttack II asset is currently vacant as on the date of valuation.

Table below mentions the block-wise area for Cuttack I (Banipada Asset):

| Particulars | Construction Status | Leasable area (sft) | Chargeable area (sft) |
|---|---|---|---|
| Block I | Under-development | 1,12,565 | 1,12,565 |
| Block II | Under-development | 2,22,780 | 2,22,780 |
| Total | | 3,35,345 | 3,35,345 |

*Source: Architect certificate, rent roll provided by the Client (Please note according to the lease agreements provided by the Client, it is understood that the rent is paid on the chargeable area, which has been considered for the valuation exercise)*

Table below mentions the block-wise area for Cuttack II (Indranipatna Asset):

| Particulars | Construction Status | Leasable area (sft) | Chargeable area (sft) |
|---|---|---|---|
| Block I | Under-development | 150,000 | 150,000 |
| Total | | 150,000 | 150,000 |

*Source: Architect certificate, rent roll provided by the Client (Please note according to the lease agreements provided by the Client, it is understood that the rent is paid on the chargeable area, which has been considered for the valuation exercise)*

As per information provided by the Client, we understand that both assets will be completed by Q1 2025.

| Any matters which may affect the asset or its value | There are no other matters which may affect the asset or its values beyond what has already been stated in the in this report |

[2] *The stabilized Net Operating Income (NOI) is based on the assumption that the asset will achieve a stabilized occupancy rate and that all leases will be renewed at market rates. The stabilized NOI also takes into account the estimated operating expenses, property taxes, and insurance costs. The stabilized NOI is a hypothetical measure and may not reflect the actual performance of the asset.*

**Assumptions, Disclaimers, Limitations & Qualifications**

*This valuation report is provided subject to assumptions, disclaimers, limitations, and qualifications detailed throughout this report which are made in conjunction with those included within the Assumptions, Disclaimers, Limitations & Qualifications section located within this report.*

*Reliance on this report and extension of our liability is conditional upon the reader's acknowledgement and understanding of these statements. This valuation is for the use of the party to whom it is addressed and for no other purpose. No responsibility is accepted to any third party who may use or rely on the whole or any part of the content of this valuation. The valuer has no pecuniary interest that would conflict with the proper valuation of the asset.*

**Heightened Market Volatility**

We draw your attention to a combination of global inflationary pressures (leading to higher interest rates) and recent failures/stress in banking systems which have significantly increased the potential for constrained credit markets, negative capital value movements and enhanced volatility in project markets over the short-to-medium term.

Experience has shown that consumer and investor behaviour can quickly change during periods of such heightened volatility. Lending or investment decisions should reflect this heightened level of volatility and potential for deteriorating market conditions. Lending and Investment caution is advised in this regard.

It is important to note that the conclusions set out in this report are valid as at the valuation date only. Where appropriate, we recommend that the valuation is closely monitored, as we continue to track how markets respond to evolving events.

**Development Valuations**

The value of development projects is traditionally highly volatile and can be subject to rapid changes of value in short timeframes. They appeal to a narrow and very specific segment of the market, which can be significantly impacted by many factors such as broader economic conditions, changes to government policy, fluctuating levels of supply and demand for the product, changes in building costs and the availability and cost of development finance. All these (and more) factors will likely have a significant impact on the value and demand for the subject asset.

Going forward there will be several key factors impacting on the viability of commercial projects and their underlying land values. Key concerns are rising construction costs, increasing cost of capital, substantial new supply levels and easing investor demand for final product.

As experienced in past market cycles, the value of development projects can undergo rapid and significant price corrections as supply, demand and cost factors change. The Reliant Party is strongly advised to consider this inherent risk in their investment and lending decisions.

**Construction Cost Volatility**

Material costs, labour costs and supply chains are currently unusually volatile with the market experiencing price increases in some or all these areas during 2023. This has created significant uncertainty in cost estimates that is likely to continue. In addition, there are significant risks that delays may be encountered in sourcing materials and labour, and as such delivery risks are also heightened in this climate.

Furthermore, the likelihood of ongoing cost escalations and sourcing delays is high. This may place additional pressure on both the developer's and builder's profit margins and the viability of the development. These inherent risks should therefore be given careful consideration in lending and investment decisions. Caution is advised in this regard.

**Valuer Declaration:**

i. the valuer is competent to undertake the valuation

ii. the valuer is independent and has prepared the report on a fair and unbiased basis

*iii.* the valuer has valued the assets based on the valuation standards as specified under sub-regulation 10 of regulation 21

Prepared By: iVAS Partners

Valuer Registration Number: IBBI/RV-E/02/2020/112

Official Signatory:

Name: Mr. Shubhendu Saha

Designation: Partner, iVAS Partners

Valuer Registration Number: IBBI/RV/05/2019/11552

# 2 Instruction

iVAS Partners ( Valuer Registration Number: IBBI/RV-E/02/2020/112; hereinafter referred as 'Valuer') represented by its partner Mr. Shubhendu Saha, a registered valuer under the Companies Act 2013 with IBBI (Valuer Registration Number: IBBI/RV/05/2019/11552) (the 'Valuer'), has been instructed by TVS Industrial & Logistics Parks Private Limited (hereinafter referred as the 'Client') to advise upon the Market Value (MV) of two under-construction Warehousing assets located in village Banipada and Indranipatna, situated along the Sambhalpur – Cuttack Highway, Cuttack, Orissa.

Based on information provided by the Client, we understand that the land area of the subject asset located in Banipada admeasures approx. 14.4 acres whereas the land area of the subject asset located in Indranipatna admeasures approx. 8.0 acres with total leasable area admeasuring approx. 3,35,345 sft and 1,50,000 sft respectively.

iVAS Partners is referred to as the **'Valuer'** for the purpose of this report.

The details of the subject asset under the purview of this valuation exercise are tabulated below:

| Asset Name | SPV/Hold Co | Asset Type | Location | Land area | No. of Blocks |
|---|---|---|---|---|---|
| Cuttack Park I (Banipada) | Jagannath Industrial & Logistics Parks Private Limited/ TVS ILP | Under-construction Warehouse | Banipada, Cuttack | 14.4 | 6 |
| Cuttack Park II (Indranipatna) | Jagannath Industrial & Logistics Parks Private Limited/ TVS ILP | Under-construction Warehouse | Indranipatna, Cuttack | 8.0 | 3 |

*Source: Client Inputs*

Further, valuation has been undertaken to ascertain the market value of the Subject Assets forming part of the proposed TVS Infrastructure Trust as of the valuation date. The valuer has estimated the market value of each individual asset, not the value of the portfolio of Assets (if sold in one transaction) or SPV/ Holding company.

*For clarity, we are valuing the Property/ Asset only, not the SPV/Hold Co, which has been provided for reference only*

## 2.1 Purpose

As per our instructions the valuation is required by the Client for a proposed offer of units through private placement (the" IPO") as defined under the Securities and Exchange Board of India (Infrastructure Investment Trust) Regulations, 2014, as amended, together with clarifications, guidelines and notifications issued thereunder, on the Indian stock exchanges. In relation to the Private Placement, the Valuation report, a summary thereof and/or extracts of the report are intended to be included in the Offer Documents filed by the TVS Infrastructure Trust with the Securities and Exchange Board of India (SEBI) and the stock exchanges where the units of the InvIT are proposed to be listed.

## 2.2 Reliant Party

The Reliant Parties to this Summary Report will be the Client and TVS Infrastructure Trust, TVS Infrastructure Investment Manager Private Limited in its capacity as Investment Manager and TVS Industrial and Logistics Park Private Limited in its capacity as Sponsor for the purpose of the valuation as highlighted in this report. for the purpose of the valuation as highlighted in this report.

The valuation has been prepared strictly and only for the use of the parties as stated above (Reliant Parties) and for the Purpose specifically stated. The Client would make all Reliant Parties aware of the terms and conditions of this agreement under which this exercise is being undertaken and take due acknowledgements to the same effect.

## 2.3 Limitation and Disclaimers to Liability

- Valuer is not operating under any financial services license when providing the Valuation Report ("Valuation Report") and this document does not constitute financial product advice. Investors should consider obtaining independent advice from their financial advisor before making any decision to invest in TVS Infrastructure Trust.

- This Valuation Report is strictly limited to the matters contained within this report, and are not to be read as extending, by implication or otherwise, to any other matter in any Offer/ Draft Placement Memorandum/ Placement Memorandum/ Final Placement Memorandum ("Offer Document"). Valuer does not approve or endorse any part of the Offer Document. Any reference to the Valuer or this Valuation Report within the Offer Document must be read in conjunction with this Valuation Report.

- Valuers disclaims any liability to any person in the event of an omission from, or false and misleading statements included in the Offer Document, other than in respect of the information provided within the Valuation Report. Valuers shall not make any warranty or representation as to the accuracy of the information in any part of the Offer Document, other than in respect of the methodology used for the preparation of the information provided within the Valuation Report.

- The liability of Valuer is limited to the Instructing Party, and any Reliant Party nominated within this report only. No accountability, obligation or liability to any third parties is accepted by the Valuer. Valuer disclaims all liability to any investor.

- No liability is accepted for any loss, harm, cost or damage (including special, consequential or economic harm or loss) suffered as a consequence of fluctuations in the real estate market subsequent to the date of valuation. Valuer shall not be liable for any indirect, special, punitive or consequential loss or damage howsoever caused, whether in contract, tort or otherwise, arising from or in connection with this Valuation Report.

- Valuer accepts no responsibility or liability whatsoever (i) unless full disclosure of all information and matters that may have an impact upon the value and marketability of the asset has been made by the Instructing Party or (ii) for any matter arising out of or in relation to possible environmental site contamination or any failure to comply with environmental legislation which may affect the value of the asset.

- None of our employees, directors or Valuers individually has a contract with the Instructing Party or owes them a duty of care.

- Valuer has prepared the Valuation Report relying on and referring to information provided by the Instructing Party and/or third parties including financial and market information ("Information"). Valuers have assumed that the Information is accurate, reliable and complete and has not independently verified such Information.

- The Valuation Report draws attention to the key issues and considerations impacting value and provides a detailed assessment and analysis as well as key critical assumptions, general assumptions, disclaimers, limitations and qualifications and recommendations. As commercial investments of this nature are inherently complex and the market conditions have changed and/or have been uncertain in recent times, Valuer recommends that any references to value within the Offer Document must be read and considered together with the Valuation Report.

- This Valuation Report may not be reproduced in whole or in part without the prior written approval of the Valuer.

- The Valuation Report does not purport to contain all the information that a potential investor or any other interested party may require. It does not consider the individual circumstances, financial situation, investment

objectives or requirements. It is intended to be used as guide and for information purposes only and does not constitute advice including without any limitation, investment, tax, legal or any other type of advice. The valuations stated are only best estimates and are not to be construed as a guarantee. Potential investors should not rely on any material contained in the Valuation Report as a statement or representation of fact but should satisfy themselves as to its correctness by independent investigation and review of the Valuation Report to understand the assumptions and methodologies stated in the reports.

- For the avoidance of doubt, all references to "Offer Document" herein shall include any Offer Document, final Offer Document, prospectus and/or any other accompanying documents required under the SEBI (InvIT) Regulations 2014.

## 2.4 Valuer Capability

iVAS Partners, (Valuer Registration Number: IBBI/RV-E/02/2020/112), represented by its partner Mr. Shubhendu Saha (Valuer Registration Number: IBBI/RV/05/2019/11552) delivers independent valuation (across categories viz. land & building and plant & machinery), advisory and technical due diligence services, that combine professional expertise with comprehensive databases, analytics and market intelligence across various asset classes and locations in India.

Mr. Shubhendu Saha is registered as a valuer with the Insolvency and Bankruptcy Board of India (IBBI) for the asset class Land and Building under the provisions of The Companies (Registered valuers and valuation) Rules, 2017 since 15 May 2019. He completed his Bachelor in Planning from the School of Planning and Architecture, New Delhi in 1997 and master's in client studies from Motilal Nehru National Institute of Technology, Allahabad in 1999.

## 2.5 Disclosures

This valuer hereby certify that:

- iVAS Partners (Valuer Registration Number: IBBI/RV-E/02/2020/112), represented by its partner Mr. Shubhendu Saha (Valuer Registration Number: IBBI/RV/05/2019/11552), is registered as a registered valuer entity under Section 247 of the Companies Act, 2013 and The Companies (Registered Valuers and Valuation) Rules, 2017, as amended, and is eligible to be appointed as Valuer under the provisions of the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014, as amended and that the Valuation report has been prepared in accordance with these InvIT Regulations.

- iVAS Partners (represented by Mr. Shubhendu Saha - Partner, iVAS Partners) is not an associate of TVS Industrial & Logistics Parks Private Limited (the "Sponsor"), TVS Industrial and Logistics Park Investment Manager Private Limited (the "Investment Manager") and TVS Infrastructure Trust (the "Trust")

- The Valuer, as represented by its partner, Mr. Shubhendu Saha, has the required minimum years of experience in the valuation of infrastructure assets, as required under the SEBI (InvIT) Regulations.

- The Valuer has not been involved with the acquisition or disposal within the last twelve months of any of the asset(ies) valued under this Valuation report.

- The Valuer has adequate and robust internal controls to ensure the integrity of the Valuation reports.

- The Valuer has sufficient key personnel with adequate experience and qualification to perform services related to asset valuation at all times.

- The Valuer has sufficient financial resources to enable them to conduct their business effectively and meet their liabilities.

- The Valuer has acquainted itself with all laws or regulations relevant to such valuation.
- iVAS Partners is not prohibited from acting as a valuer under applicable law.
- The valuation of assets undertaken is impartial, true and fair and in accordance with the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014, regulation 21.
- The Valuer and any of its employees/ Valuer involved in valuation of the InvIT assets are not invested in and shall not invest in units of the InvIT or in the assets being valued during the time such entity/person is designated as valuer of such InvIT and not less than 6 months after ceasing to be valuer of the InvIT.
- The Valuer has conducted the valuation of the InvIT assets with transparency and fairness and has rendered and shall render, at all times, high standards of service, exercise due diligence, ensure proper care and exercise professional judgement.
- The Valuer has acted with independence, objectivity and impartiality in performing the valuation.
- The Valuer has discharged its duties towards the TVS Infrastructure Trust in an efficient and competent manner, utilizing its knowledge, skills and experience in best possible way to complete the said assignment.
- The Valuer has not and shall not accept remuneration, in any form, for performing a valuation of the InvIT assets from any person or entity other than the TVS Infrastructure Trust or its authorized representatives.
- The Valuer has no present or planned future interest in the Management, Trustee, TVS Infrastructure Trust, the Sponsor to the TVS Infrastructure Trust and its sponsor group or the Special Purpose Vehicles (SPVs), holdcos, investment entity and the fee for this Report and the valuation exercise is not contingent upon the values reported herein. Our valuation analysis should not be construed as investment advice; specifically, we do not express any opinion on the suitability or otherwise of entering into any financial or other transaction with the Management or the SPVs/ holdcos/ investment entity.
- The Valuer shall before accepting any assignment from any related party to the TVS Infrastructure Trust, disclose to the TVS Infrastructure Trust, any direct or indirect consideration which the Valuer may have in respect of such assignment
- The Valuer shall disclose to the trustee of the TVS Infrastructure Trust, any pending business transactions, contracts under negotiation and other arrangements with the Management or any other party whom the TVS Infrastructure Trust is contracting with and any other factors which may interfere with the Valuer's ability to give an independent and professional valuation of the asset; as on the date of valuation, there are no impediments for Valuer to give an independent professional value opinion of the asset
- The Valuer has not made false, misleading or exaggerated claims in order to secure assignments.
- The Valuer has not and shall not provide misleading valuation, either by providing incorrect information or by withholding relevant information
- The Valuer has not accepted and shall not accept an assignment that includes reporting of the outcome based on predetermined opinions and conclusions required by the TVS Infrastructure Trust
- The valuer has not accepted the said assignment which interferes with its ability to do fair valuation

- The valuation undertaken by the Valuer abides by International Valuation Standards for valuation in compliance with The Companies (Registration of Valuers and Valuation) Rules, 2017

- The Valuer understands that most of these assets are wholly/partly owned/ tenanted by related parties, hence, any transactions related to these assets from the related parties being valued would be related party transactions.

- The Valuer notes that there are encumbrances, however, no options or pre-emptions rights in relation to the assets based on the title report prepared by Cyril Amarchand Mangaldas (hereinafter collectively referred to as 'Legal Counsels'). The Valuer does not have the expertise or the preview to verify the veracity or quantify these encumbrances, disputes or claims. For the purpose of this valuation, the Valuer has assumed that the respective assets have title deeds that are clear and marketable.

## 2.6 Assumptions, Disclaimers, Limitations & Qualifications to Valuation

| | |
|---|---|
| Valuation Subject to Change: | The subject valuation exercise is based on prevailing market dynamics as on the date of valuation and does not take into account any unforeseeable developments which could impact the same in the future |
| Our Investigations: | The Valuers are not engaged to carry out all possible investigations in relation to the subject assets. Where in our report the Valuer identify certain limitations to our investigations, this is to enable the reliant party to instruct further investigations were considered appropriate or where the Valuer recommend as necessary prior to reliance. The Valuer are not liable for any loss occasioned by a decision not to conduct further investigations |
| Assumptions: | Assumptions are a necessary part of undertaking valuations. The Valuer adopts assumptions for the purpose of providing valuation advice because some matters are not capable of accurate calculation or fall outside the scope of our expertise, or our instructions. Assumptions adopted by iVAS Partners will be formulated on the basis that they could reasonably be expected from a professional and experienced valuer. The Reliant Party accepts that the valuation contains certain specific assumptions, and acknowledges and accepts the risk that if any of the assumptions adopted in the valuation are incorrect, then this may have an effect on the valuation |
| Information Supplied by Others: | The valuations are based on the information provided by the Client (TVS Industrial & Logistics Parks). The same has been assumed to be correct and has been used for valuation exercise. Where it is stated in the report that another party has supplied information to the 'Valuer', this information is believed to be reliable, but the 'Valuer' can accept no responsibility if this should prove not to be so.<br>We have assumed that where any information relevant to our valuation is supplied by the Instructing Party, or by any third party at Instructing Party's instigation, it is correct and comprehensive, and can be safely relied upon by us in preparing our valuation.<br>We would recommend that before any financial transaction is entered into based on the valuations, you obtain verification of any third-party information provided. We also recommend that you check the validity of the assumptions we have adopted in our report (where we have been unable to verify the facts through our own observations or experience) |
| Matters which affect or may affect the valuation | If the Reliant Party becomes aware of any matters which affect or may affect the valuation, then Valuer must be advised of those matters. The Reliant Party's failure to do so will disentitle the Reliant Party to place reliance on the valuation and reliance must not be placed on the valuation/s under any circumstance |
| Future Matters: | To the extent that the valuation includes any statement as to a future matter, that statement is provided as an estimate and/or opinion based on the information known to the 'Valuer' at the date of this document. The 'Valuer' does not warrant that such statements are accurate or correct |
| Map and Plans: | Any sketch, plan or map in this report is included to assist reader while visualizing the Assets and the Valuers assume no responsibility in connection with such matters.<br>Further. all maps and plans quoted in our report are solely for illustration purposes only. While they are extracted from public sources, they may be not to scale. Valuer does not warrant that such dimensions shown are accurate. |
| Site Details: | Based on the review of Registered Agreement, Possession Letter, Layout Plan and Sarpanch NOC provided by the Client for the subject asset located in Banipada and as per the review of the Registered Agreement, |

| | |
|---|---|
| | Possession Letter and Allotment Letter provided by the Client for the subject asset located in Indranipatna, the Valuer understands that the subject assets are free from any encroachments and are available as on the date of the valuation |
| Asset Title: | For the purpose of this valuation exercise, the Valuer has relied on the Registered Agreement, Possession Letter, Layout Plan and Sarpanch NOC other related documents for each of the Assets and has made no further enquiries with the relevant local authorities in this regard. The Valuer understands that the subject assets may have encumbrances, disputes, and claims. The Valuer does not have the expertise or the preview to verify the veracity or quantify these encumbrances, disputes, or claims. For the purpose of this valuation, the Valuer has assumed that the respective assets have title deeds that are clear and marketable. We recommend that a suitable Asset Lawyer or similar reviews these assumptions and confirm they are reasonable before relying in this report. |
| Environmental Conditions: | In preparing our valuation we assume that no contaminative or potentially contaminative use is, or has been, carried out at the property. We do not undertake any investigation into the past or present uses of either the property or any adjoining or nearby land, to establish whether there is any potential for contamination from these uses and assume that none exists. Should it, however, be subsequently established that such contamination exists at the property or on any adjoining land or that any premises have been or are being put to contaminative use, this may have a detrimental effect on the value reported |
| Town Planning: | The current zoning of the subject assets has been adopted on the basis of review of various documents (Registered Agreement, Possession Letter, Layout Plan and Sarpanch NOC and other documents) provided by the Client and the current land use maps for the subject region. The same has been considered for the purpose of this valuation exercise. Further, it has been assumed that the development on the subject assets adheres/ would adhere to the development regulations as prescribed by the relevant authorities. The Valuer has not made any enquiries with the relevant development authorities to validate the legality of the same.<br><br>Our valuations are prepared on the assumption that the premises comply with all relevant statutory enactments and Building Acts and Regulations, that a valid and up-to-date Fire Certificate has been issued. We assume that all necessary consents, licenses, and authorizations for the use of the asset and the process carried out therein have been obtained and will continue to subsist and are not subject to any onerous conditions.<br><br>In the event that a legal requisition or other relevant planning information or document is obtained, and the information therein is found to be materially different to the town planning information in the report, the valuation must not be relied upon before first consulting iVAS Partners to reassess any effect on the valuation/s |
| Area: | The total leasable area considered for the purpose of this valuation exercise is based on the rent roll provided by the Client. It must be noted that the above information has been provided by the Client and has been verified based on the approvals/ layout plans/building plans provided by the Client. However, the Valuer has not undertaken additional verification and physical measurement for the purpose of this valuation exercise |
| Condition & Repair: | In the absence of any information to the contrary, the Valuer has assumed that there are no abnormal ground conditions, nor archaeological remains present which might adversely affect the current or future occupation, development or value of the asset; the asset is free from rot, infestation, structural or latent defect; no currently known deleterious or hazardous materials or suspect techniques will be used in the construction of or subsequent alterations or additions to the asset and comments made in the asset details do not purport to express an opinion about, or advice upon, the condition of uninspected parts and should not be taken as making an implied representation or statement about such parts |
| Not a Structural Survey: | The Valuer states that this is a valuation report and not a structural survey |
| Legal: | Unless specifically disclosed in the report, the Valuer has not made any allowances with respect to any existing or proposed local legislation relating to taxation on realization of the sale value of the subject asset.<br><br>We do not read legal documentation. Where legal documentation is provided to us, we will have regard to the matters therein but recommend that reliance should not be placed on our interpretation thereof without prior verification by your legal advisors. Unless disclosed to us, we assume that there are no outstanding statutory breaches or impending litigation in respect of the property. We further assume that all documentation is satisfactorily drawn and that unless disclosed to us, there are no unusual or onerous restrictions, easements, covenants, or other outgoings which would adversely affect the value of the relevant interest(s). In respect of leasehold Assets, we will assume that your landlord will give any necessary consents to an assignment. Unless notified to the contrary we assume that each property has a good and marketable title and is free from any pending litigation |

| | |
|---|---|
| Others: | Considering the unorganized nature of real estate markets in India, all comparable evidence (if any) provided in the valuation report has been limited to the basic details such as the area of asset, rate at which transacted, broad location, etc. other specific details would be provided only if the information is available in public domain |
| Other Assumptions: | Please note that all the factual information such as tenants' leasable area, lease details such as lease rent, lease commencement and lease end date, lock – in period, escalation terms, etc. pertaining to the subject assets is based on the rent roll provided by the Client and the same has been adopted for the purpose of this valuation exercise. The rent rolls have been cross-checked with copy of the lease deeds on a sample basis as shared with the valuer to verify the authenticity. However, it should be noted that there is only 1 block (admeasuring 1,12,565 sft) has been leased in the 'Cuttack I' asset while the 'Cuttack II' asset currently remain vacant as on the date of valuation. Any change in the above information will have an impact on the assessed value and in that case the Valuer will have to relook at the assessed value. The relevant information sources are represented in section 2.5.<br><br>All measurements, areas and ages quoted in our report are approximate.<br><br>We are not advisors with respect to legal, tax and regulatory matters for the transaction. No investigation of the respective Special Purpose Vehicles (SPVs) holding the assets' claim to title of assets has been made for the purpose of this Report and the SPVs' claim to such rights have been assumed to be valid. No consideration has been given to liens or encumbrances against the assets. Therefore, no responsibility is assumed for matters of a legal nature |
| Flooding risk: | We will assume that either there is no flooding risk or, if there is, that sufficient flood defenses are in place and that appropriate building insurance could be obtained at a cost that would not materially affect the capital value. |
| Site Conditions: | We do not commission site investigations to determine the suitability of ground conditions and services, nor do we undertake environmental or geotechnical surveys. We have assumed that these aspects are satisfactory and also that the site is clear of underground mineral or other workings, methane gas or other noxious substances.<br><br>In the case of property which may have redevelopment potential, we proceed on the basis that the site has load bearing capacity suitable for the anticipated form of redevelopment without the need for additional and expensive foundations or drainage systems (unless stated otherwise) |
| Hazardous & deleterious materials | Unless otherwise noted, we have assumed that the improvements are free of Asbestos and Hazardous Materials, or should these materials be present then they do not pose significant risk to human health, nor require immediate removal. We assume the site is free of subsoil asbestos and have made no allowance in our valuation for site remediation works.<br><br>Our visual inspection is an inconclusive indicator of the actual condition/presence of asbestos/hazardous materials within the property. We make no representation as to the actual status of the Property. If a test is undertaken at some time in the future to assess the degree, if any, of the presence of any asbestos/hazardous materials on site and this is found to be positive, this valuation must not be relied upon before first consulting iVAS Partners to reassess any effect on the valuation.<br><br>Unless specifically instructed, we do not carry out investigations to ascertain whether any building has been constructed or altered using deleterious materials or methods. Unless specifically notified, our valuation assumes that no such materials or methods have been used |
| Unregistered interests | We have assumed that there are no unregistered interests or interests not captured by the applicable Regulatory Authority in the country which services are to be carried out which may affect market value. In the event that the Reliant Party becomes aware of any further or pending easements, encumbrances or unregistered interests, this valuation must not be relied upon before first consulting iVAS Partners in writing to reassess any effect on the valuation |
| Heightened Market Volatility | We draw your attention to a combination of global inflationary pressures (leading to higher interest rates) and recent failures/stress in banking systems which have significantly increased the potential for constrained credit markets, negative capital value movements and enhanced volatility in asset markets over the short-to-medium term.<br><br>Experience has shown that consumer and investor behavior can quickly change during periods of such heightened volatility. Lending or investment decisions should reflect this heightened level of volatility and the potential for deteriorating market conditions. Lending and Investment caution is advised in this regard.<br><br>It is important to note that the conclusions set out in this report are valid as at the valuation date only. Where appropriate, we recommend that the valuation is closely monitored, as we continue to track how markets respond to evolving events. |

| | |
|---|---|
| Development Valuations | The value of development projects is traditionally highly volatile and can be subject to rapid changes of value in short timeframes. They appeal to a narrow and very specific segment of the market, which can be significantly impacted by many factors such as broader economic conditions, changes to government policy, fluctuating levels of supply and demand for the product, changes in building costs and the availability and cost of development finance. All these (and more) factors will likely have a significant impact on the value and demand for the subject asset.<br><br>Going forward there will be several key factors impacting on the viability of commercial projects and their underlying land values. Key concerns are rising construction costs, increasing cost of capital, substantial new supply levels and easing investor demand for final product.<br><br>As experienced in past market cycles, the value of development projects can undergo rapid and significant price corrections as supply, demand and cost factors change. The Reliant Party is strongly advised to consider this inherent risk in their investment and lending decisions. |
| Construction Cost Volatility | Although general increases in material costs have stabilised since 2022, some specialised supply chains and construction-related labour costs remain volatile with the potential for further increases. This has created uncertainty in cost estimates, which is likely to continue.<br><br>In addition, there are significant risks that delays may be encountered in sourcing specialised materials and labour, and as such, the potential for ongoing cost escalations and delays is high. This may place additional pressure on developer and contractor profit margins and development viability.<br><br>These inherent risks should therefore be given careful consideration in lending and investment decisions. Caution is advised in this regard. |

# 3 Cuttack– Market Structure and Conditions

## 3.1 Information

For the purpose of the valuation exercise, reliance has been made on the deliverables of CBRE South Asia Private Limited, an independent agency appointed by TVS to undertake market research, provide market commentary, and data as a part of a report (the "Industry Assessment Report") for the purpose of this assignment.

## 3.2 Demand and Supply

### 3.2.1 Demand and Supply Trends – Cuttack

As of Q3, CY 2024, the total completed stock in Cuttack is 1.8 Mn sft, with the Banipada (Choudwar western cluster) submarket accounting for approx. 21% of this total. Warehousing activity in Cuttack is distributed across three major micromarkets: Jagatpur, Tangi, and Choudwar. Among these, Jagatpur and Tangi are the most prominent warehousing micromarkets, while Choudwar is an emerging micromarket, primarily featuring a few Grade A warehouse blocks owned by ESR. Jagatpur and Tangi micromarkets contribute a combined completed supply of 1.24 Mn sft (approx. 79%), followed by Choudwar with 0.34 Mn sft (approx. 21%). In recent years, the Jagatpur and Choudwar micromarkets have experienced significant traction, attracting major demands from companies such as Pidilite, TATA Consumer, Reliance Retail, Flipkart, and Ola Electric, which have established a strong presence in the region.

The region boasts approximately 1.8 Mn sft of operational warehousing supply, with around 1.6 million square feet currently occupied. Prior to 2018, the supply predominantly consisted of Grade B and C developments. Over the past 5 to 6 years, the share of Grade B and C stock has significantly decreased due to the growing demand for high-quality warehousing spaces from sectors such as manufacturing, e-commerce, logistics, and electronics. This demand has resulted in a substantial increase in the supply of Grade A facilities. The entry of the Kingstone Group into this region initially drove the increase in Grade A warehousing supply. Subsequently, these warehouses were acquired by the ESR Group.

| Particulars | Details |
|---|---|
| Cumulative completed warehouse stock (Q3 2024) | Approx. 1.8 msf |
| Cumulative occupied stock (Q3 2024) | Approx. 1.6 msf |
| Current vacancy (Q3 2024) | Approx. 11.0% |
| Future supply | Under-construction: 0.5 – 0.8 Mn sft<br>Planned Supply: 0.9 – 1.2 Mn sft |

*Source: Industry Assessment Report dated as of January, 2025*

Majority of the upcoming warehousing supply is anticipated to be in the Choudwar and Tangi micromarkets. Numerous individual landlords possess vacant land parcels near existing warehouse micromarkets and are open to signing Build-to-Suit contracts with potential occupiers. Grade A developments are primarily concentrated in the Jagatpur and Tangi micromarkets, serving sectors such as e-commerce, electronics, food and packaging, and manufacturing.

Cuttack has experienced a steady increase in warehousing supply over the past couple of years (2022–2023), with an average annual supply of approximately 0.2 Mn sft. Of the total completed supply in Cuttack, Grade A accounts for nearly 0.43 Mn sft (27% share), Grade B for 0.84 Mn sft (53%), and Grade C for 0.31 Mn sft (20%). Looking ahead, the share of Grade A facilities is expected to increase, driven by upcoming supply and rising interest from national

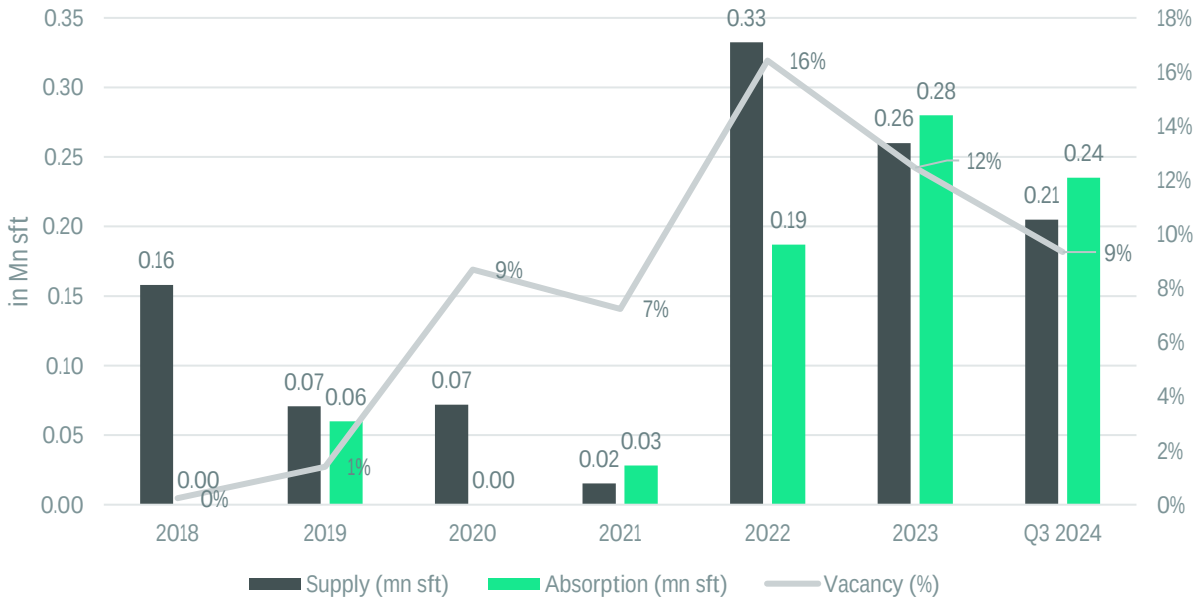
and international e-commerce, FMCG, FMCD, and modern retail companies. The majority of warehousing activity in the region has historically been in the Grade B category, developed by local individual players. Notable entities such as the Umang Group and ESR have a strong presence in the Grade A warehousing category within these micromarkets.

Manufacturing, Ecommerce, Electronic, Logistics & Distribution, Machines & Equipment, are the key tenant sectors occupying space in Grade A developments across Cuttack. Some of the key tenants present are Pidilite, Tata Consumer, Ola Electric, Hyundai HUL, Flipkart, Reliance Retail etc. FMCG players typically occupy spaces ranging from 20,000 to 150,000 sft. In the e-commerce segment, major players take comparatively smaller spaces, starting from 25,000 sft and extending up to 200,000 sft. Modern retail companies, such as Reliance Retail, have taken approximately 120,000 sft.

The upcoming supply in the region is in the range of 0.5 – 0.7 Mn sft majorly across Grade A warehousing space and is expected to get introduced in supply phase wise between 2024 – 2026. The planned supply in the region is in the range of 0.9 – 1.2 Mn sft.

Demand – Supply Dynamics of Subject Market: Cuttack

Figure 1; Y-O-Y Supply & Absorption levels in Cuttack



*Source: Industry Assessment Report, data as on Q3 2024*

The average base rental witnessed in Cuttack is in the range of INR 18 – 22 / sft / month for a Grade A development and between INR 17 – 19 / sft / month for a Grade B development. Micro Market Wise Grade A and B Average Asking Rentals are enumerated below in the table:

| MICRO-MARKET | 2018 | | 2019 | | 2020 | | 2021 | | 2022 | | 2023 | | Q3 2024 | |

*Source: Industry Assessment Report*

### 3.2.2 Demand & Supply Trends – Choudwar (Western Cluster)

Choudwar is the only micromarket in the Western Cluster of Cuttack. It is situated on the western side of Cuttack, adjacent to NH 55. The micromarket is predominantly occupied by the ESR Group, which has the only notable warehouse establishments in this cluster. Its proximity to the main city area and excellent connectivity via NH 55 have contributed to its development.

Choudwar is poised to become the warehousing hub of Cuttack city. The Odisha government subsidizes industrial land parcels in this area, attracting several corporations to build factories and warehouses on government land. The Choudwar industrial area and connectivity through SH 55 enable the micromarket to support multiple industrial and newly constructed warehouse buildings. Additionally, Tangi, Jagatpur, and other warehouse mini marketplaces and industrial clusters are easily accessible from Choudwar.

The majority of the upcoming supply is anticipated to be in the subject micromarket of the Western Cluster viz. Choudwar, where individual landlords hold vacant land parcels and are open to signing build-to-suit contracts with potential occupiers. The Western Cluster comprises approximately 21% of the total completed supply in the Cuttack region, with the majority of this supply in Choudwar being Grade A. This burgeoning demand fuels the need for warehousing facilities. The Choudwar industrial area, on Cuttack's outskirts, houses numerous steel, aluminum, and chemical production units, further stimulating demand for warehousing to store raw materials and finished products. Cuttack's proximity to major ports like Paradip and Dhamra also renders it attractive for warehousing related to import and export activities.

The market's proximity to Khurdha Industrial Estate and excellent connectivity via Khurdha-Chandaka Road have facilitated its development. This cluster represents approximately 50% of the total completed supply in the Bhubaneswar region, with around 62% of this supply being Grade A.

| Particulars | Details |
|---|---|
| Cumulative completed warehouse stock (Q3 2024) | Approx. 0.46 msf |
| Cumulative occupied stock (Q3 2024) | Approx. 0.46 msf |
| Current vacancy (Q3 2024) | 0.00 % |
| Future supply | 1.0 – 1.1 Mn sft |

*Source: Industry Assessment Report*

The total stock of 0.46 Mn sft in Choudwar is Grade A. Further, over the past 1-2 years, the region has absorbed approximately 0.2 to 0.3 Mn sft of warehousing space annually. Rental rates for Grade A warehousing developments in this micromarket range from INR 20 to INR 22 per sft per month. Key industry sectors occupying warehousing spaces in the region include modern retail and e-commerce, with prominent tenants such as Reliance Retail and Flipkart. The asking rentals in the market are expected to remain range-bound in the short to medium term with market standard escalation of 4-5% annually.

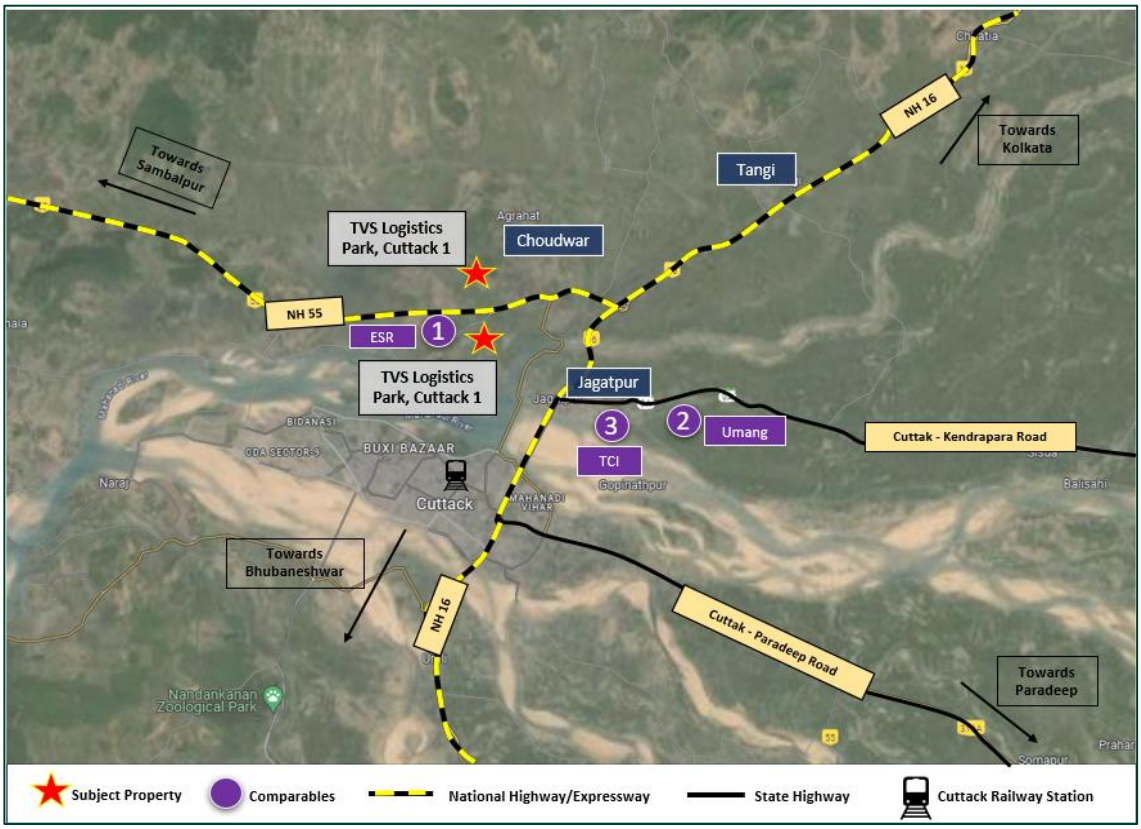
#### 3.2.2.1 Key Developments in Micromarket

The table below highlights the prominent developments in the subject micromarket:

| Building Name | Land Area (Acres) | Leasable Area (sft) | Average Lease Rental (INR per sft pm) |
|---|---|---|---|
| ESR Warehouse (Choudwar) | 56.4 | 10,60,000 | 21 - 22 |
| Umang Warehouse (Jagatpur) | 9.0 | 1,95,000 | 18 – 19 |
| TCI (Jagatpur) | 2.0 | 55,000 | 18 – 19 |

*Source: Industry Assessment Report*

The above-mentioned key developments are marked along with the subject asset in the map below:



*Source: Valuer's Assessment*

### 3.2.2.2 Future Supply

Based on the market research, we understand that the micromarket has an upcoming supply of approx. 0.9 – 1.2 Mn sft planned in the next 2 – 3 years.

### 3.2.3 Market Rent

The table below highlights the recent lease transactions in the micromarket:

| Location | Tenant Sector | Grade | Chargeable Area (sft) | Total Rent (INR per sft per month) | Date of Transaction |
|---|---|---|---|---|---|
| Jagatpur | FMCD | Grade A | 40,000 | 18 – 19 | Q1 2024 |
| Jagatpur | Logistics | Grade A | 15,000 | 18 – 19 | Q1 2024 |
| Choudwar | E-commerce | Grade A | 2,20,000 | 21 – 22 | Q2 2023 |

| | | | | | |
|---|---|---|---|---|---|
| Choudwar | Retail | Grade A | 1,20,000 | 21 – 22 | Q3 2023 |
| Jagatpur | Manufacturing (Footwear) | Grade A | 58,000 | 17 - 18 | Q3 2023 |
| Jagatpur | Manufacturing | Grade A | 40,000 | 18 – 19 | Q4 2023 |
| Jagatpur | Manufacturing | Grade A | 32,000 | 18 – 19 | Q4 2023 |
| Tangi | FMCG | Grade B | 1,50,000 | 16 - 17 | Q4 2022 |

*Source: Industry Assessment Report*

As can be observed from the table above and our interactions with other market players, the rentals in the micromarket ranges between INR 16 - 22/sft/month (base rentals). The variance across rentals is primarily due to factors such as location, accessibility, overall tenant mix, quantum of vacant stock in the development, specifications of the block, park level infrastructure, additional improvements, etc.

## 3.3 Market Outlook

Based on the market research, we understand that the subject region is perceived as a favourable destination for various industry players owing to the excellent connectivity (via Sambhalpur – Cuttack Highway), attractive rentals, availability of developable land parcels etc. The villages Banipada, Indranipatna (western cluster region) have few small- and large-scale industries which has enabled it to develop as an industrial ecosystem.

The primary drivers of demand for this sector are the availability of government land at subsidized rates and the presence of an industrial ecosystem. An anticipated supply of approximately 0.7 to 0.8 Mn sft is planned for the next 2-3 years in nearby areas. However, no large-scale projects are planned in the coming years, aside from the upcoming warehouse blocks within the ESR warehouse campus. Based on historical absorption rates in Choudwar, an expected demand of approximately 0.7 to 0.8 Mn sft can be projected over the next 2-3 years, as no significant plans have been announced by prominent warehouse developers.

Furthermore, Choudwar's proximity to established warehouse micromarkets in Tangi and Jagatpur, its closeness to the main city of Cuttack, the availability of IDCO lands, and easy access via NH 55 are key factors contributing to its emergence as an upcoming warehousing hub. Additionally, the development is strategically located on the Sambhalpur-Cuttack Highway and is well-positioned to attract interest from occupiers due to its high-quality specifications and amenities, and the developer's reputation. .

The value of freehold property in industrial zones ranges from 25 to 35 million INR per acre.

The current prevalent asking rent in Cuttack is in the range of INR 18–22 per sft/month for Grade A warehousing developments in the areas of Jagatpur and Choudwar. We observe that the asking rentals for Grade B warehouses range from INR 17-19 per sft/month. In the short to medium term, the market will maintain range-bound asking rentals, with an annual escalation of 4-5%. Prominent players expect to operate approximately 1.3–1.4 Mn sft of supply by 2026. Therefore, keeping in perspective the subject property's location, leasing in the micromarket, quantum of leasable area, quality of construction, developer's reputation, type of space, etc., we are of the opinion that the subject property would command a lease rental of approx. INR 19 - 23 / sft / month as on date of valuation.

# 4 Subject asset – Cuttack Park I and II

## 4.1 Asset Description

The Subject Assets comprises of two land parcels viz. 'Cuttack Park I' located in Banipada, Cuttack and 'Cuttack Park II' located in Indranipatna, Cuttack. Both the land parcels are under-construction warehousing facility with total leasable area of 3,35,345 sft and 1,50,000 sft respectively. The subject assets are currently accessible via an internal road emanating from via Sambhalpur – Cuttack Highway (NH 55).

Based on the information provided by the Client, it is understood that the subject asset is warehousing asset comprising of two land parcels located in Banipada and Indranipatna with land area admeasuring approx. 14.4 acres and 8.0 acres respectively and leasable area admeasuring approx. 3,34,345 sft and 1,50,000 sft respectively. As per the information provided by the client, it is understood that the subject asset located in Banipada shall be having a floor strength of 5 MT/sqm and floor finishing of high-performance concrete flooring of FM2 Concrete type. The eave height of the warehousing box would be approx. 12m and height at ridges would be approx. 20 m. Further, no similar details pertaining to the Indranipatna asset has been provided. However, as per our discussion with the client, we understand that the Indranipatna asset is expected to have similar specifications as the Banipada asset.

| Brief Description | |
|---|---|
| Particulars | Details |
| Asset Name | Cuttack Park I and II |
| Address | Banipada Asset: IDCO Plot no. 1, Revenue plot no. 269/4029 (P) & 270 (P), Revenue khata no. 727/973, Village Banipada, Choudwar, Cuttack<br>Indranipatna Asset: IDCO Plot no. 37, Revenue plot no. 114/1316 (P), Revenue khata no. 172/884, Village Indranipatna, Choudwar, Cuttack |
| Land Area | Banipada Asset: As per the review of the Registered Agreement, Possession Letter, Layout Plan and Sarpanch NOC provided by the Client, it is understood that the land area of the subject asset located in Banipada is approx. 14.426 acres.<br>Indranipatna Asset: As per the review of the Registered Agreement, Possession Letter and Allotment Letter provided by the Client, it is understood that the land area of the subject asset located in Indranipatna is approx. 8.00 acres. |
| Leasable Area | Banipada Asset: 3,35,345 sft<br>Indranipatna Asset: 1,50,000 sft |

*Source: Client Inputs*

Based on the information provided by the Client, it is understood that the subject asset is warehousing asset with land area admeasuring approx. 14.4 acres & 8.0 acres respectively with a leasable area admeasuring approx. 3,35,345 & 1,50,000 sft. The subject asset is understood to have a floor strength of 5 MT/sqm and has floor finishing of high-performance concrete flooring of FM2 Concrete type. The eave height of the warehousing box 1 & 2 are 12m and height at ridges of Box 1 & 2 is 15.05 m along with a lighting (lux level) of 200 lux.

Additionally, it is understood that the subject warehousing facility is EDGE certified featuring rooftop solar power provision, comprising of 24/7 ground support, and dedicated facility management. Further, there are provisions for additional services like rainwater harvesting and separate water supply systems, round-the-clock CCTV surveillance, first aid centers, and global standard firefighting systems.

Moreover, to ensure seamless operations, amenities like dedicated creche facilities, mezzanine and provision for racking, and uninterrupted power supply, water treatment systems, restrooms for drivers and ample parking for both two-wheelers and four-wheelers are also offered.

The prominent tenant in the subject asset includes Rhenus, Godrej & Boyce, Iron Mountain, Busybees.

### 4.1.1 Site Details

**Situation:** Subject asset – 'TVS Industrial & Logistics Parks, Cuttack' comprises of two under-construction warehousing facilities located along the internal roads emanating from Sambhalpur – Cuttack Highway.

**Location:** The subject asset is located in Village Banipada & Indranipatna, the western region of Cuttack. The subject asset is located in an emerging industrial micromarket of Cuttack viz. Sambhalpur – Cuttack Highway (NH- 55), further connecting to NH-16 Further, it is well connected to important industrial hubs & major cities via NH-55 and other internal roads.

The distances from key hubs to the subject asset are presented in the table below:

| Landmark | Distance (Km) | |
|---|---|---|
| | Banipada | Indranipatna |
| Sambhalpur – Cuttack Highway | 2 – 3 | Less than 1 Km |
| Cuttack Bus Stand | 17 – 18 | 16 – 17 |
| Cuttack Railway Station | 15 – 16 | 14 – 15 |
| Bhubaneshwar International Airport | 45 – 46 | 44 - 45 |

*Source: Valuer's research*

**Catchment Analysis:** The primary catchment area for the purpose of this valuation has been defined as Western Cluster of Choudwar and its adjoining micromarkets which are predominantly characterized by industrial/warehousing development.

The Western Cluster of Cuttack comprises a single micromarket viz. Choudwar. This cluster is situated on the western side of Cuttack, adjacent to NH 55. The micromarket is predominantly occupied by the ESR Group, which has the only notable warehouse establishments in this cluster. Its proximity to the main city area and excellent connectivity via NH 55 have contributed to its development. The Western Cluster accounts for approximately 21% of the total completed supply in the Cuttack region.

**Surrounds:** The subject asset of Banipada is surrounded as follows:

- North: Vacant Land
- South: IDCO Internal Road (5 m wide)
- East: IDCO Internal Road (5 m wide)
- West: IDCO Internal Road (9 m wide primary access road)

The subject asset of Indranipatna is surrounded as follows:

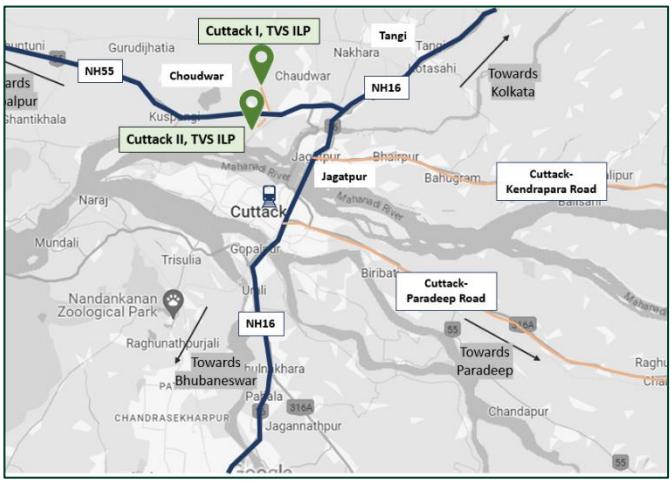
- North: 9 m wide road
- South: IDCO Internal Road (5 m wide primary access road)
- East: Vacant Land
- West: Other's Property

**Potential changes in surroundings:** The subject asset is located in close vicinity to NH-55 highway leading to micromarkets such as Jagatpur etc. where there is reasonable interest from developers to launch new projects comprising of largely industrial developments on the main arterial roads

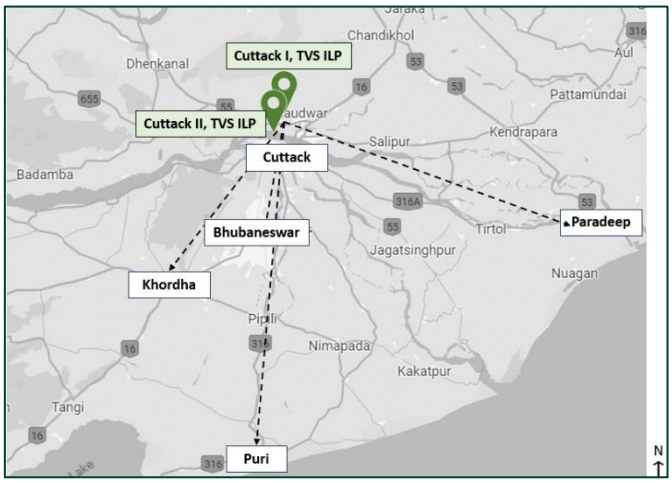
| | |
|---|---|
| Suitability of existing use: | Considering the location and profile of surrounding developments coupled with site specific parameters, we are of the opinion that subject asset is suited for its current usage. |

The following map indicates the location of the subject asset:

Location Map for the Subject asset



KEY LOCATION MAP OF THE ASSET



MACRO MAP OF THE ASSET

*Source*: *Industry Assessment Report*

| | |
|---|---|
| Shape: | Based on the documents provided by the Client and visual inspection during the site visit, it is understood that the underlying land of both the assets are broadly regular in shape. |
| Topography: | Based on the documents provided by the Client and as observations during our site visit, the site appears to be even and is at the same level as abutting access roads and adjoining land. |
| Frontage: | Based on review of documents and visual inspection, we understand that the subject asset has adequate frontage along the primary access road. |
| Accessibility: | Based on the site plan provided by the Client and visual inspection, it is understood that the primary access to the Banipada asset is approx. 9m wide internal IDCO road on its west side which further connects to Sambhalpur – Cuttack Highway. By virtue of the same the asset enjoys good accessibility and frontage. Further, based on the visual inspection, it is understood that the primary access to the Indranipatna asset is approx. 5m wide internal IDCO road on its south side which further connects to Sambhalpur – Cuttack Highway. By virtue of the same the asset enjoys good accessibility.<br><br>Please refer Section 7.0 Exhibit & Addendums for the site plan of the subject asset. |

### 4.1.2 Review of Registered Deed

| Asset Description | Asset Location | Land Area | Tenure Remarks | Source |
|---|---|---|---|---|
| Cuttack Park I (Banipada) | Banipada | 14.4 | 90 years starting from date of lease sanctioned in favour of IDCO - till 16th January 2074 | Registered Agreement dated 8th August 2023 |
| Cuttack Park II (Indranipatna) | Indranipatna | 8.0 | 82 years starting from date of execution of the agreement - till 8th August 2105 | Registered Agreement dated 9th August 2023 |

As per the registered deed, we understand that the exact address of the Banipada asset is IDCO Plot no. 1, Revenue plot no. 269/4029 (P) & 270 (P), Revenue khata no. 727/973, Village Banipada, Choudwar, Cuttack and the exact address of Indranipatna asset is IDCO Plot no. 37, Revenue plot no. 114/1316 (P), Revenue khata no. 172/884, Village

Indranipatna, Choudwar, Cuttack. Further, it is also understood that both the assets are leasehold in nature which are leased to M/s Jagannath Industrial & Logistics Parks Private Limited by Odisha Industrial Infrastructure Development Corporation (IDCO). Below mentioned is the lease terms for the subject assets:

### 4.1.3 Title Details

This valuation exercise is based on the premise that the subject asset has a clear title and is free from any encumbrances, disputes, claims, etc. Valuer has not made any inquiries in this regard with the relevant legal/ statutory authorities with the understanding this level of due diligence will be undertaken by the appropriate lawyers and then advised to the Valuer accordingly. We strongly recommend the assumption the asset has a clear title is confirmed before relying on the report.

### 4.1.4 Town Planning

| | |
|---|---|
| Zoning | As per the review of the documents provided by the Client, we understand that both the subject assets are zoned for "Industrial" Use. The same has been considered for the purpose of this valuation. Valuer has made no further inquiries with the local authorities in this regard.<br><br>For the purpose of this exercise, it has been assumed that all developments (existing) adhere to building regulations as prescribed by the relevant authorities. Valuer has not validated the information provided by the Client with the relevant development authorities. |
| Approved Usage: | Based on the documents provided by the Client and visual inspection during our site visit, we understand that both the subject assets are warehousing facilities wherein the construction activities are at various stages of progress. The current use of the subject asset is broadly in agreement with the rules and regulations as prescribed by the local development authority. However, Valuer has not made any enquiries with the relevant local authorities to validate the same for its specific applicability to the subject asset. |
| Restrictions: | As per feedback received from the Client, there are no restrictions on the current use of the asset. |
| Natural or induced hazards: | We have not carried out any investigations or tests or been supplied with any information from Client or from any relevant expert that determines the presence or otherwise of pollution or contaminative substances in the Subject Asset or any other land (including any ground water).<br><br>For the purpose of assessing the vulnerability of the Subject Asset to any natural or induced disaster the location of the property with respect to risks pertaining to earthquakes, high winds/cyclone and flooding was studied. Cuttack, where the Subject Asset is located falls in Seismic Zone III with moderate risk. The city faces moderate risk in terms of high winds or cyclones too. The Subject Property is not likely to face any greater risk than the overall risk profile of the city. No hazardous activity was noted in the vicinity of the Subject Asset which may expose it for any induced disaster.<br><br>Further, as per the details provided by the client, the subject asset is prone to Rainfall & Cyclone effects since the Cyclone-prone region is approx. 70 Km from the coastline of the city which may result in the park being subjected to flooding due to heavy to very heavy rainfall. Further, the discharge water from open storm water drain may be hindered due to clogging/obstruction in the public canal and the discharge water from |

storm water drain may be hindered due to backflow of discharge water from the drain channel. Additionally, workers might be exposed to excessive heat and there might be chances of skin irritation and sickness due to Heating Effects in Summer Season wherein temperature raise upto 93F to 104 F.

Please note that the Valuer has not investigated nor has been provided with any supporting documents pertaining towards the above-mentioned issues.

Approvals: As per the documents shared by Client, we understand that some of the approvals for the Banipada asset have been obtained while others are yet to be obtained. Further, it should be noted that no approvals for the Indranipatna asset have been received. However, as per the additional confirmation from the Client, it is understood that all the necessary approvals for both the subject assets will be procured in due course of time. Please refer annexures for the details.

For the purpose of this exercise, it has been assumed that all developments shall adhere to building regulations as prescribed by the relevant authorities. Valuers have not validated the information provided by the Client with the relevant development authorities

### 4.1.5 Statutory Approvals, Sanctions & Approvals

#### 4.1.5.1 Statutory Approvals received and yet to be received (including One-time Sanctions & Periodic Clearances)

According to the review of documents provided by the Client for the subject asset at Banipada (Cuttack I), we understand that some of the some of the approvals for this asset have been obtained while others are yet to be obtained. The table below highlights the status of approvals for the subject asset:

| Approval/NOC | Status (Applied / Received) | Authority | Date of Issue (DD-MM-YY) |
|---|---|---|---|
| Change in Land Use | Not Provided | | |
| NALA Certificate | Not Provided | | |
| Building Plan Permit | Not Provided | | |
| Approval for change in land use | Received | Banipada Gram Panchayat | 17-01-2024 |
| NOC from Airport Authority of India | Not Provided | | |
| NOC from Ministry of Environment & Forest | Not Provided | | |
| Fire NOC – Recommendation | Received | Odisha Fire & Emergency Service | 08-03-2024 |
| NOC from Pollution Control Board | Not Provided | | |
| Temporary Power connection | Not Provided | | |
| Temporary Water connection | Not Provided | | |
| CEIG approval for electrical installations | Not Provided | | |
| Electricity NOC | Not Applicable | | |
| Ground Water Abstraction NOC/Permission for digging borewell | Received | Department of Water Resources, River Development and Ganga Rejuvenation, Central Ground Water Authority | 23-04-2024 |

| Approval/NOC | Status (Applied / Received) | Authority | Date of Issue (DD-MM-YY) |
|---|---|---|---|
| Water Supply NOC | Not Provided | | |
| Structural Stability Certificate | Not Applicable | | |
| Consent to Operate | Not Provided | | |
| Occupancy Certificate | Not Applicable | | |

*Source: Approval documents provided by the Client*

Further, as on date of valuation, approvals for the under-development subject asset at portion Indranipatna (Cuttack II) have not been received. However, based on inputs received from the Client, it is assumed that the approvals would be received for undertaking this development.

#### 4.1.5.2 List of up to date/overdue periodic clearances

As per the details provided by the Client, we understand that there are no overdue periodic clearances.

### 4.1.6 Area Details, Type and Age of Existing Structures

As per the visual inspection during the site visit, it is understood that the Banipada asset is under-construction and the construction activity on Indranipatna asset is in its initial stages.

Table below mentions the block-wise area for Cuttack I (Banipada Asset):

| Blocks | Year of Completion | Age of structures (in years) | Built-up Area (sft) | Completed Area (sft) | Leased Area (sft) | Chargeable Area (sft) |
|---|---|---|---|---|---|---|
| Block 1 | Under-Construction | - | 1,12,565 | - | 1,12,565 | 1,12,565 |
| Block 2 | Under-Construction | - | 37,435 | - | - | 37,435 |
| Block 3 | Under-Construction | - | 50,000 | - | - | 50,000 |
| Block 4 | Under-Construction | - | 50,000 | - | - | 50,000 |
| Block 5 | Under-Construction | - | 50,000 | - | - | 50,000 |
| Block 6 | Under-Construction | - | 35,345 | - | - | 35,345 |
| Total | | | 3,35,345 | - | 1,12,565 | 3,35,345 |

*Source: Architect Certificate, Rent roll provided by Client; (Please note according to the lease agreement provided by the client, it is understood that the rent is paid on the chargeable area which has been considered for the valuation exercise).*

Table below mentions the block-wise area for Cuttack II (Indranipatna Asset):

| Blocks | Year of Completion | Age of structures (in years) | Built-up Area (sft) | Completed Area (sft) | Leased Area (sft) | Chargeable Area (sft) |
|---|---|---|---|---|---|---|
| Block 1 | Under-Construction | - | 50,000 | - | - | 50,000 |
| Block 2 | Under-Construction | - | 50,000 | - | - | 50,000 |
| Block 3 | Under-Construction | - | 50,000 | - | - | 50,000 |
| Total | | | 1,50,000 | - | - | 1,50,000 |

*Source: Architect Certificate, Rent roll provided by Client; (Please note according to the lease agreement provided by the client, it is understood that the rent is paid on the chargeable area which has been considered for the valuation exercise).*

### 4.1.7 Site Services and Finishes

| Particulars | Completed Blocks | Under Construction Blocks | Planned Blocks |

4.1.15 Valuation of the asset in the previous 3 years

As of the date of this valuation report, the Subject Asset is not part of the Infrastructure Investment Trust (InVIT)

# 5 Valuation Approach & Methodology

## 5.1 Scope of Valuation

The valuation exercise is to assess the Market Value (MV) of the Subject assets for the purpose of the offer of units through private placement of TVS Infrastructure Trust under the SEBI (Infrastructure Investment Trust) Regulations, 2014, as amended. The valuations have been conducted in accordance with the IVSC International Valuation Standards, (effective 31 January 2022) and in accordance with the requirements of the SEBI (Infrastructure Investment Trust) Regulations, 2014, as amended from time to time.

This valuer has assessed the Market Value of each individual Subject asset, not the value of the portfolio, if all Assets were sold in one transaction. Where a summation of the individual Assets is provided, this is purely for reference only and should not be construed as the value of the portfolio. Kindly refer to the summary report section 1.0 for list of subject assets forming part of the portfolio.

## 5.2 Basis of Valuation

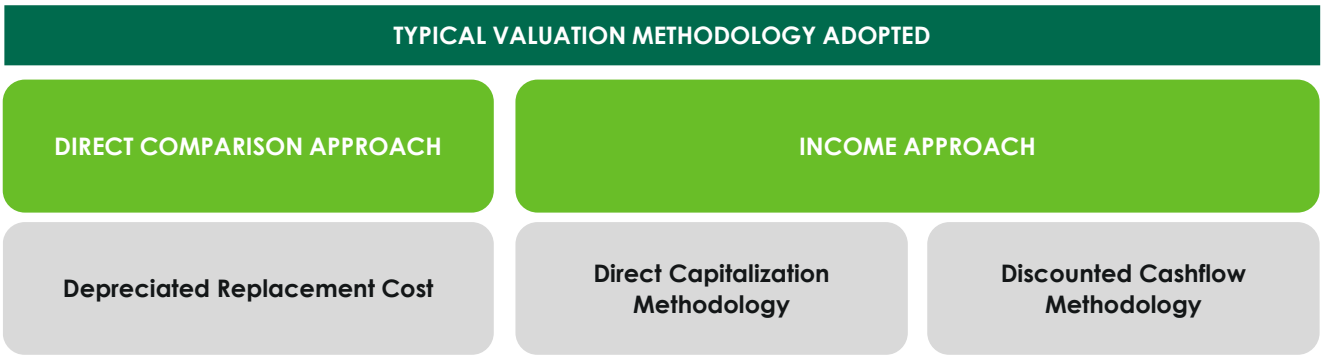
The valuations have been conducted in accordance with the IVSC International Valuation Standards issued in July 2021, effective from 31 January 2022), Regulation 21 and Schedule V of the SEBI (InvIT) Regulations, 2014 and is in compliance with the International Valuation Standards (IVS). The valuation exercise has been undertaken by appropriately qualified Valuer and will be assessing the Market Value of the ownership Interest in the subject asset.

As per the Valuation and Guidance Notes issued by the IVS, the market value is defined as:

***'The estimated amount for which** a asset or liability should exchange on the valuation date between a willing **buyer and a willing seller in an arm's length transaction, after proper marketing and where the parties had each acted knowledgeably, prudently and without compulsion'.***

## 5.3 Approach and Methodology

The purpose of this valuation exercise is to estimate the Market Value (MV) of the subject assets. Market Value can be derived through the following Methodologies:



### 5.3.1 Direct Comparison Approach

Under the 'Direct Comparison Approach', the asset is compared to similar Assets that have actually been sold in an arms-length transaction or are offered for sale (after deducting for value of built-up structure located thereon). The comparable evidence gathered during research is adjusted for premiums and discounts based on asset specific attributes to reflect the underlying value of the asset.

The value of the land component under this approach has been assessed based on comparison with similar Assets that have actually been sold in arms-length transaction or are offered for sale in the subject micromarket.

Based on our interactions with the local market players, we understand that the market has few Assets of comparable sizes which are currently available for sale in the market. Therefore, the value of the subject land parcel has been estimated through a direct comparison approach utilizing the seller quotes available in the market as well as few reported transactions.

The values for these comparable Assets are further adjusted for various premiums and discounts (viz. towards size, location, accessibility, frontage, visibility, ownership status, profile of the surrounding developments, zoning, etc.) vis-à-vis the subject asset to determine the achievable market value for the subject asset.

Based on the market research undertaken, it is understood that the capital values for land parcels in the subject micromarket are primarily governed by parameters which are as follows:

- Location & profile of surrounding developments – Based on our market study, it was identified that land parcels located in proximity to highway would command higher capital values in comparison to the land parcels located further away on internal village roads. In addition, based on our interactions with local market players, we understand that the land parcels located in proximity to existing village catchments command higher capital values as compared to those located further away from the existing village catchments.
- Size of the land parcel – Based on our interactions with the local market players, it was understood that the small-medium sized land parcels (approx. 1 – 5 acres) attract almost negligible discount on account of lesser quantum of investment involved and a shorter marketing timeframe required for disposal of such land parcels.
- Accessibility, frontage, and visibility – Based on our market research, it was observed that the land parcels having superior frontage along the access road or by virtue of it being a two side or a three-side corner plot would command a premium vis-à-vis the other Assets. Further, it was observed that the Assets located on wider access roads command premium vis-à-vis Assets located along narrow access roads.
- Zoning and requisite clearances - Based on our market research, it was observed that the land parcels with industrial / multipurpose / residential use zoning would command a premium in comparison to the land parcels under agricultural use /conservation zone. Further, we understand that the land parcels with the requisite clearances in place such as NALA (Non-Agricultural Land Assessment) conversions, etc. command a premium over the agricultural land parcels.
- Physical conditions of the asset/ownership - Based on our market research, it was observed that the land parcels with site improvements such as compound wall, bore well, etc. command a premium. In addition, Assets with single owner would attract a premium as compared to the Assets with multiple owners.

### 5.3.2 Income Approach

The income approach is based on the premise that value of an income - producing asset is a function of future benefits and income derived from that asset. There are two commonly used methods of the income approach in real estate valuation namely, direct capitalization and discounted cash flow (DCF).

A. Direct Capitalization Method

Direct capitalization involves capitalizing a 'normalized' single - year net income estimated by an appropriate yield. This approach is best utilized with stable revenue producing assets, whereby there is little volatility in the net annual income.

B. Discounted Cash Flow Method

A Discounted Cash Flow Analysis is based upon estimates of future financial performance. The methodology begins with a set of assumptions regarding income and expenses of the Asset and future economic conditions in the local market. The income and expense figures are projected with adjustments for estimated changes in economic conditions and any contractual commitments. The resultant value is considered the best estimate but is not to be construed as a prediction or guarantee and is fully dependent upon the reasonableness of the assumptions with respect to income, expenses, and market conditions, which are based on information available as at the valuation date.

## 5.4 Approach and Methodology Adopted

Considering the objective of this exercise, the nature of asset involved and the purpose of the valuation viz. to assess the Market Value (MV) of the Subject assets for the purpose of the offer of units through private placement of TVS Infrastructure Trust under the SEBI (Infrastructure Investment Trust) Regulations, 2014 'Regulation', we have adopted the methodology considering Chapter 1 section 2 point (i) of the InvIT regulation, which states that, the assets forming part of InvIT should meet among the below criteria as follow:

1. the infrastructure asset has achieved the commercial operations date as defined under the relevant asset agreement including concession agreement, power purchase agreement or any other agreement of a similar nature entered into in relation to the operation of the asset or in any agreement entered into with the lenders
2. the infrastructure asset has received all the requisite approvals and certifications for commencing operations
3. the infrastructure asset has been generating revenue from operations for a period of not less than one year

Hence owing to the above stated conditions, we are of the opinion that the income approach which is appropriate to value such asset based on the premise that value of an income - producing asset is a function of future benefits and income derived from that asset.

Under the Income approach, Discounted Cash Flow Analysis is based upon estimates of future financial performance which also considers the income and expenses of the Asset accounting for the future fluctuations due to expected market dynamics.

Hence, for the purpose of this valuation exercise, we have adopted Discounted Cash Flow Method (using rent reversion approach).

For the purpose of this valuation exercise, we have analysed the tenancy details provided by the Client to identify variances vis-à-vis prevailing marginal rent. In the event the contracted rent is within the threshold (15.0%), we have assumed that the tenant will continue on the current agreed terms. In the event the rent is higher than the marginal rent threshold, we have assumed that the lease would be renegotiated to marginal rent terms (at the time of the lock-in expiry, next escalation, etc.).

Asset-specific Review:

1. As the first step to the valuation of the asset, the lease deeds were reviewed to identify tenancy characteristics with respect to contractual commitments and commercial covenants.
2. Title documents and architect certificates were reviewed for validation of area details, ownership of the asset
3. The Valuer has undertaken physical site inspections to assess the current status of the subject assets in terms of their physical configuration, capacity, and upkeep.

Micromarket Review/Market Rental Assessment:

Choudwar is the only micromarket in the Western Cluster of Cuttack. It is situated on the western side of Cuttack, adjacent to NH 55. The micromarket is predominantly occupied by the ESR Group, which has the only notable

warehouse establishments in this cluster. Its proximity to the main city area and excellent connectivity via NH 55 have contributed to its development. It is poised to become the warehousing hub of Cuttack city. The Odisha government subsidizes industrial land parcels in this area, attracting several corporations to build factories and warehouses on government land. The Choudwar industrial area and connectivity through SH 55 enable the micromarket to support multiple industrial and newly constructed warehouse buildings. Additionally, Tangi, Jagatpur, and other warehouse mini marketplaces and industrial clusters are easily accessible from Choudwar.

The total stock of 0.34 Mn sft in Choudwar is Grade A. Further, over the past 1-2 years, the region has absorbed approximately 0.2 to 0.3 Mn sft of warehousing space annually. Rental rates for Grade A warehousing developments in this micromarket range from INR 20 to INR 22 per sft per month. Key industry sectors occupying warehousing spaces in the region include modern retail and e-commerce, with prominent tenants such as Reliance Retail and Flipkart. The asking rentals in the market are expected to remain range-bound in the short to medium term with market standard escalation of 4-5% annually.

A primary research exercise has been carried out in the catchment area to ascertain the prevalent activity levels in terms of quoted / transacted evidence of the recent leasing activity for warehousing developments. This has been achieved through interactions with various market players such as local real estate brokers, developers, owners, etc. Based on the same, we understand that variance across rentals is primarily due to factors such as type of asset, developer brand, location, accessibility, overall tenant mix, quantum of vacant stock in the development, specifications, and additional improvements, etc.

For the micromarket review and market rental assessment we have relied upon the report on 'Market Analysis of Warehousing assets in Identified locations pan India' prepared by CBRE South Asia Private Limited, hereafter referred as 'CBRE' (an independent agency appointed by the Client to undertake market research, provide market summary and data for the purpose of this assignment)

Cash Flow Assertions:

We have assessed future cash flows from the Subject Asset based on existing lease terms and contractual lease payments for the operational area until the expiry of the leases or re-negotiation (using the variance analysis), whichever is earlier.

Based on review of rent roll provided by the Client, we understand that approx. 1,12,565 sft area of Cuttack I asset has been already leased to a FMCG Company further, Cuttack II asset is currently vacant as on the date of valuation. Since the real estate industry is dynamic and is influenced by various factors (such as existing supply, tenants looking at spaces, quality of spaces available in the market, overall health of the economy, existing rent, future growth plans, etc.) at a particular point in time, negotiated rent may tend to move away from the prevalent market rent over a period of time. It has also been witnessed that the market rent for some Assets or micromarkets increase or decrease at a rate significantly different from those agreed to in initial leases. These factors reinforce the need to review each of these leases in isolation to assess the intrinsic value of the asset under review.

Post this, the lease terms have been aligned with market rentals. For vacant area, the Valuer has projected the market rent led cash flows factoring appropriate lease-up time frame for vacant/under-construction/proposed area. These cash flows have been projected for 10-year duration from the date of valuation and for 11th year (for assessment of terminal value). These future financial benefits are then discounted to a present-day value (valuation date) at an appropriate discount rate.

## 5.5 Information Sources for Valuation

Asset related information referred to for the valuation exercise have been provided by the Client unless otherwise mentioned. We have assumed the documents to be a true copy of the original. The rent rolls have been cross-checked

with the lease deeds on a sample basis to verify the authenticity. Additionally, wherever possible, we have independently revalidated the information by reviewing the originals as provided by the Client.

Table below highlights various data points referred throughout the course of this valuation report and the data sources for the same. Asset related documents referred to in the table below have been provided to the Valuer by the Client unless otherwise mentioned. The Valuer have assumed the documents to be a true copy of the original.

# 6 Value Assessment

## 6.1 Value Assessment

### 6.1.1 Adopted Methodology

We acknowledge that the approaches to valuation differ considerably and that for a particular purpose, alternative approaches to the valuation can be utilized. Considering the objective of this exercise and the nature of asset involved, the value of the subject asset has been assessed through the following approaches:

| Asset Name | Valuation Methodology (Under-construction Blocks) | Valuation Methodology (Land stage Blocks) |
|---|---|---|
| Cuttack Park I and II | Discounted Cash Flow (Using rent reversion approach) | Discounted Cash Flow (Using rent reversion approach) |

The sections below highlight the detailed valuation workings for the subject asset.

## 6.2 Operational Assumptions

### 6.2.1 Area statement

As per the visual inspection during the site visit, it is understood that the Banipada asset is under-construction and the construction activity on Indranipatna asset is in its initial stages.

Table below mentions the block-wise area for Cuttack I (Banipada Asset):

| Blocks | Year of Completion | Age of structures (in years) | Built-up Area (sft) | Completed Area (sft) | Leased Area (sft) | Chargeable Area (sft) |
|---|---|---|---|---|---|---|
| Block 1 | Under-Construction | - | 1,12,565 | - | 1,12,565 | 1,12,565 |
| Block 2 | Under-Construction | - | 37,435 | - | - | 37,435 |
| Block 3 | Under-Construction | - | 50,000 | - | - | 50,000 |
| Block 4 | Under-Construction | - | 50,000 | - | - | 50,000 |
| Block 5 | Under-Construction | - | 50,000 | - | - | 50,000 |
| Block 6 | Under-Construction | - | 35,345 | - | - | 35,345 |
| Total | | | 3,35,345 | - | 1,12,565 | 3,35,345 |

*Source: Architect Certificate, Rent roll provided by Client; (Please note according to the lease agreement provided by the client, it is understood that the rent is paid on the chargeable area which has been considered for the valuation exercise).*

Table below mentions the block-wise area for Cuttack II (Indranipatna Asset):

| Blocks | Year of Completion | Age of structures (in years) | Built-up Area (sft) | Completed Area (sft) | Leased Area (sft) | Chargeable Area (sft) |
|---|---|---|---|---|---|---|
| Block 1 | Under-Construction | - | 50,000 | - | - | 50,000 |
| Block 2 | Under-Construction | - | 50,000 | - | - | 50,000 |
| Block 3 | Under-Construction | - | 50,000 | - | - | 50,000 |
| Total | | | 1,50,000 | - | - | 1,50,000 |

*Source: Architect Certificate, Rent roll provided by Client; (Please note according to the lease agreement provided by the client, it is understood that the rent is paid on the chargeable area which has been considered for the valuation exercise).*

| Tenant | Leased Area (sft) | % of area leased | Total In-place rental (INR psf pm) | Total In-place rental (INR Mn pm) |
|---|---|---|---|---|
| TVS Industrial and Logistics Park – Cuttack I | 1,12,565 | 31.50% | 17.17 | 1.93 |
| TVS Industrial and Logistics Park – Cuttack II | - | 0.00% | - | - |

*Source: Client inputs*

## 6.3 Tenancy Analysis

### 6.3.1 Historical Occupancy Rates

Not applicable as the Banipada asset is under-construction and the construction activity on Indranipatna asset is in its initial stages.

### 6.3.2 Lease Rent Analysis

Based on review of rent roll provided by the Client, we understand that approx. 1,12,565 sft out of the total leasable area of 3,35,345 sft has been already pre-committed to an FMCG company Further, Cuttack II asset is currently vacant as on the date of valuation.

*Source: Lease Deed and Client Inputs*

| Tenant | Particulars | Details |
|---|---|---|
| 1 | Lease Commencement Date | 01st February 2025 |
| | Rent Commencement Date | 17th March 2025 |
| | Lock-in Period | 7 Years |
| | Lease Tenure/ Remaining Tenure | 9/9 Years |
| | Lease Rent Escalation Terms | 5% every year |

### 6.3.3 Lease Expiry Profile

Cuttack Park I

The Weighted Average Lease Expiry (WALE) of the Subject Asset is 10.18 years, with 34% of occupied area expiring in FY 2034 and remaining 66% in FY 2035. We understand the expiry is beyond 2029, in the year FY 2030 as there is one tenant viz. e-commerce company.

Cuttack Park II

The Weighted Average Lease Expiry (WALE) of the Subject Asset is 10.83 years, with 100% of occupied area expiring in FY 2035. We understand the expiry is beyond 2029, in the year FY 2030 as there is one tenant viz. e-commerce company.

### 6.3.4 Tenant Obligations.

Based on the review of the lease deed, we understand that the operational expenses listed below will have to be borne by the Tenant for Block – I in Cuttack I asset. Further, Cuttack II asset remains vacant as on date of valuation.

| S. No | Description of operational expenses |
|---|---|
| 1 | Regular Maintenance |
| 2 | Taxes |
| 3 | Insurance |
| 4 | General Wear and Tear |
| 5 | Other Expenses such as utility charges towards any Governmental authorities or Concerned service provider. |

*Source: Client Inputs*

| Leased Area (sft) | Chargeable Area (sft) | % of area leased | Total In-place rental (INR psf pm) | Total In-place rental (INR Mn pm) |
|---|---|---|---|---|
| 1,12,565 | 1,12,565 | 33.60% | 17.17 | 1.93 |

*Source: Leased Deed and Information provided by the Client*

### 6.3.5 Construction Timelines

#### 6.3.5.1 Completed Blocks

Not applicable as the Cuttack Park I is under-construction and the construction activity on Cuttack Park II is in its initial stages.

#### 6.3.5.2 Under-Construction Blocks

Based on visual inspection during the site visit and information provided by the Client, the following timelines for construction have been adopted for the purpose of this valuation exercise:

| Block | Leasable/ Developable Area (msf) | Construction Completion | Construction | Block |
|---|---|---|---|---|
| Cuttack Park I (Banipada) | 3,35,345 | Q1, 2025 | Under-construction | 6 |
| Cuttack Park II (Indranipatna) | 1,50,000 | Q1, 2025 | Under-construction | 3 |

*Source: Client Inputs; Valuer's Assessment*

### 6.3.6 Absorption/ Leasing Velocity and Occupancy Profile

#### 6.3.6.1 Completed Blocks

Not applicable as the Banipada asset is under-construction and the construction activity on Indranipatna asset is in its initial stages.

#### 6.3.6.2 Under-Construction Blocks

The absorption period assumed for the both the subject developments is based on market dynamics and extent of development in the relevant submarket, nature of subject development, competing supply of same nature, location within the respective micromarket, etc. The vacant spaces in the Banipada asset is assumed to be absorbed by Q2, 2025 while the vacant spaces in the Indranipatna asset are assumed to be absorbed by Q3, 2025.

### 6.3.7 Revenue Assumptions (Warehouse + Industrial)

#### 6.3.7.1 Warehouse Component

For the purpose of this valuation exercise, the lease rent adopted for the area already leased is based on the rent roll/lease deeds shared by the client. Further, the Valuer have undertaken an in-depth market research exercise to assess the prevailing rent values in the subject micromarket. The same has been adopted for the vacant space for the purpose of this valuation exercise.

Based on our market study and based on the analysis of the rent roll provided by the client, following rent has been adopted for the purpose of value assessment of the completed blocks at the Subject Asset. The detailed rent assessment workings are highlighted in the lease rent analysis section presented above:

| Asset Name | Component | Leasable Area (sft) | Leased Area (sft) | Basis | Rent Adopted* (INR psf pm) |
|---|---|---|---|---|---|
| Cuttack Park I (Banipada) | Warehouse | 3,57,000 | 1,12,565 | Current Rent for Leased area<br>Market Rent for Vacant area | 17.17<br>21 |
| Cuttack Park II (Indranipatna) | Warehouse | 1,50,000 | - | Current Rent for Leased area<br>Market Rent for Vacant area | NA<br>21 |

*Source: Architect certificate, Rent roll provided by the Client, Valuer's Assessment; (Please note according to the lease agreements provided by the Client, it is understood that the rent is paid on the chargeable area, which has been considered for the valuation exercise),*

The above marginal rent assumption is adopted for the entire subject development. In addition to undertaking an in-depth market analysis, a detailed analysis of the rent rolls was also undertaken to understand aspects such as area occupied, current rent and expiry analysis of the key tenants in the facility.

For the purpose of this valuation exercise, the lease rent adopted for the area already leased is based on the lease deed shared by the Client. Further, an in-depth market research exercise has been undertaken to assess the expected economic rental value of the subject asset.

Based on our market study, we understand that the contracted rental of the subject asset is in line with the expected economic rental values. Hence, we have considered contracted rentals for the purpose of value assessment at the subject asset.

### 6.3.8 Rent Escalation

Based on an analysis of existing lease rolls and recent leasing at the Subject Asset, it was observed that the typical escalation clause in the Subject Asset is approx. 5.0% every year, which is in-line with the trend observed in the market. The same has been adopted for the renewals at the Subject Asset.

Escalation on renewal - Based on the analysis of terms of lease deed, it was observed that the typical escalation clause in the Subject Asset is 5% per annum, which is in-line with the trend observed in the market. The same has been adopted by the Valuer

| Particulars | Unit | Details |
|---|---|---|
| Lease Rental Escalations | % p.a. | 5.0% |

*Source: Valuer's assessment*

Market Rent Escalation - Based on the trend observed in the market and based on review of the Industry Assessment report, the valuer has considered a market escalation of 5% per annum effective from the date of valuation. The assumption for market rent for this appraisal exercise is as follows:

| Particulars | Sept 2024 | March 2025 | March 2026 | March 2027 Onwards |
|---|---|---|---|---|
| Market Rent Escalation – UC Portion | 21.00 | 22.05 | 23.15 | 5% escalation year on year |

*Source: Valuer's assessment*

### 6.3.9 Other Revenues

In addition to lease rent revenues, assets typically have additional sources of revenue. These include revenues on account of security deposit (refunded at the time of lease expiry / exit), other miscellaneous income etc.

The assumptions considered for the aforementioned revenue heads for the purpose of this valuation exercise are based on the rent roll & lease deeds provided by the Client. The same has been cross-checked with the prevailing market norms for other revenues and were found to be broadly in line.

The assumptions adopted for other revenues are as tabulated below:

| Nature of Income | Details | Units |
|---|---|---|
| Security Deposit (For vacant spaces) | 6 | No. of months' warm shell rental |
| CAM Income (For completed component) | 1.00 | INR per sft per month |

*Source: Valuer's assessment*

### 6.3.10 Capital Expenditure

#### 6.3.10.1 Development Cost

Based on review of the registered agreement and based on subsequent information provided by the Client, we understand that 100% expenses related to construction, are borne by the Client and no tenant improvement details are to be provided.

The following table highlights the assumptions towards the development cost for the under-construction blocks at the subject developments:

| Asset | Current Status | Total Cost of Construction (INR Mn) | Pending Cost to be Spent (INR Mn) |
|---|---|---|---|
| Cuttack Park I (Banipada) | Under-Construction Blocks | 756.65 | 547.18 |
| Cuttack Park II (Indranipatna) | Under-Construction Blocks | 317.81 | 229.82 |

*Source: Client Inputs;*

Based on review of the data provided by the Client, we understand that the all-inclusive total cost budgeted for both the subject assets was observed to be in the range of INR 2,000 psft – INR 2,200 psft on the leasable area. This was observed to be broadly in-line with the all-inclusive costs (Hard and Soft costs) observed for projects of similar scale and grade in an around the subject micromarket.

#### 6.3.10.2 Major Repair and improvements

Not applicable as the Banipada asset is under-construction and the construction activity on Indranipatna asset is in its initial stages.

### 6.3.11 Operating Cost

In addition to capital expenditure, an asset typically has few recurring operational expenses required for the up-keep and running of the asset. Based on information provided by the Client and market assessment, following recurring expense assumptions have been adopted for the purpose of this valuation exercise:

| Nature of Expense | Details |
|---|---|
| Reserves & Maintenance (R&M) Provision | 0.00% of rental income |
| Asset Management Fee | 3.0% of revenues from operations |
| Property Tax | 0.00 Mn |

| Nature of Expense | Details |
|---|---|
| Insurance | 0.00 Mn |
| Vacancy Allowance during operations | 1.00% |
| Vacancy Allowance on Exit | 2.50% |
| Any other Expense details | N.A. |
| Refurbishment Reserve | 1.50% of rental income |
| CAM Expense | 1.00 |

*Source: Client input; Valuer's assessment*

### 6.3.12 Other Assumptions

#### 6.3.12.1 Vacancy provision

Considering the asset level parameters (location, amenities, grade, infrastructure etc) and market benchmarks, the valuer has adopted a vacancy provision as follows:

| Description | All Blocks |
|---|---|
| Vacancy Provision | During Operations – 1.0%<br>Assessment at the time of exit – 2.5% |

*Source: Valuer's assessment*

#### 6.3.12.2 Revenue escalation

Based on prevailing market condition, historical rent growth achieved by the Subject Asset and our interactions with market participants, we are of the opinion that the annual marginal rent growth of 5.0% has been considered on a fiscal year basis.

#### 6.3.12.3 Rent-free period

Based on the rent roll provided by the Client, it is understood that the existing leases have a rent-free period ranging from 1 to 3 months from the lease-commencement date. However, based on recent market trends in the subject micromarket, we have considered a rent-free period of 1 months for new-leases and for re-leasing effective from the lease commencement date.

#### 6.3.12.4 Brokerage

Based on prevalent market dynamics, we have considered brokerage equivalent to 0.4 month of rental income for future / new leases.

#### 6.3.12.5 CAM Cashflows

CAM Cashflows for the subject asset have been assessed both during the holding period and at the time of notional exit. Further, the margin on CAM and CAM Recoveries are included in the financials as per the CAM charges based on historical performance of the subject asset as per the inputs provided by the Client and market benchmarks.

Based on the information provided by the Client, we understand that the 100% of the CAM Income would be received by the Client entity/ InvIT entity (as per details from Client) and 100% of the CAM Expense would be borne by the Client/ SPV.

## 6.4 Financial Assumptions

### 6.4.1 Exit Capitalization Rate Adopted

The capitalization rate adopted for valuing the assets has been based on factors such as:

- Historical entry yields (going in cap rates) for yield/ core warehousing facility transactions across various key markets in India have steadily shown a downward trend over last 7 - 8 years from 10.5%- 11.5% to about 7.5% - 8.5% in last 3-4 years.
- The increased appetite for income producing asset and availability of various modes of finance (real estate credit flows) backing such acquisitions.
- Yields for warehousing facilities across various markets in India have a range of 7.5 – 8.5%
- Liquidity associated with InvIT listed/ public listings (multiplicity of buyers and relatively lower budgets per buyer)

Based on the above highlighted attributes, the following cap rate has been adopted for the purpose of our valuation:

| Asset Name | SPV/Hold Co | Status of the Asset | Details |
|---|---|---|---|
| Cuttack Park I (Banipada) | Jagannath Industrial & Logistics Parks Private Limited/ TVS ILP | Under-Construction | 7.75% |
| Cuttack Park II (Indranipatna) | Jagannath Industrial & Logistics Parks Private Limited/ TVS ILP | Construction yet to commence | 7.75% |

*Source: Valuer's assessment*

### 6.4.2 Discount Rate Adopted

For discounting the cash flows, an appropriate discount rate has been calculated on the basis of estimated 'Weighted Average Cost of Capital' (WACC).

### 6.4.3 Cost of Equity

The Valuer has computed the cost of equity as per the Capital Asset Pricing Model (CAPM), which is derived as follows:

Cost of equity = Risk Free Rate (Rf) + Beta (**β**) * (Market Return (Rm) **–** Risk Free Rate (Rf))

As mentioned above, the cost of equity computed using CAPM constitutes of the following components:

- Risk free rate (Rf) i.e., long term (10-year) treasury bond rate in India
- Market return (Rm) based on the returns of Sensex index for the past 10 years.
- Computation of 'Beta (β)' of key listed realty stocks and REITs/ InvITs in India with respect to the Broad-Based BSE 500 stock index

The cost of equity adopted for specific assets has been adjusted for market/ asset specific risk pertaining to a real estate asset such as execution risk (construction status), approval risk, marketing risk, etc. and adjusted for taxation. While the assumptions regarding the quantum of these risks have no quantitative basis, we have adopted them based on our understanding of the market and our opinion on the asset performance.

### 6.4.4 Cost of Debt

Under-construction Blocks

For under construction blocks, the cost of debt has been considered based on prevalent Construction Finance (CF) rates for warehousing developments parks across Cuttack which are in the range of 9.0% – 12.0% depending upon the location, asset quality, developer reputation and credit profile, etc.

### 6.4.5 Weighted Average Cost of Capital (WACC)

Under-construction Blocks

As highlighted earlier, the cost of debt has been assumed based on the prevalent LRD rates and construction financing for under-construction assets, while the cost of equity assumed has been adjusted for asset and market specific attributes to reflect the market expectations from an operational institutional development. Further, the proportion of debt and equity has been derived considering the prevalent LRD tenures and its contribution in the overall asset value.

Based on above, the following WACC rate has been assumed for the TVS Industrial and Logistics Park, Cuttack assets forming part of the InvIT portfolio:

| Asset Name | SPV/Hold Co | Particular | Proportion | Cost | WACC |
|---|---|---|---|---|---|
| Cuttack Park I and Cuttack Park II | Jagannath Industrial & Logistics Parks Private Limited/ TVS ILP | Debt | 45.0% | 9.5% | 12.8% |
| | | Equity | 55.0% | 15.5% | |

*Source: Valuer's assessment; Please note that the cash flows are assumed to realize evenly during the course of every quarter; hence a mid-quarter discounting convention has been adopted for the purpose of this valuation. Additionally, we have not factored any cash flows attributable to working capital requirement/expenses for valuation as the same is immaterial.*

## 6.5 Value of the Subject asset

The Valuer is of the opinion that subject to the overriding stipulations contained within the body of this report and to there being no onerous restrictions or unusual encumbrances of which he has no knowledge, the opinion of value of the complete ownership interest in the Subject Asset comprising land and improvements thereon, as explained above, as on 30th September 2024 is as follows:

| Asset Name | Value (INR Mn) |
|---|---|
| Cuttack Park I (Banipada) | 487.70 |
| Cuttack Park II (Indranipatna) | 242.78 |

*Source: Valuer's assessment*

# 7 Exhibits and Addendums

## 7.1 Other Mandatory Disclosures

### 7.1.1 Details of On-going material litigations including tax disputes in relation to the assets

As per our interaction with the Client, the Client has confirmed that there are no material litigation details pertaining to the asset. Please note that the Valuer has not investigated nor has been provided with any supporting documents.

### 7.1.2 Details of options or rights of pre-emption and other encumbrances

As per our interaction with the Client, the Client has confirmed that there is no options or rights of pre-emption and other encumbrances. Please note that the Valuer has not investigated nor has been provided with any supporting documents.

### 7.1.3 Vulnerability to natural or induced hazards that may not have been covered in town planning/ building control.

As per our interaction with the Client, the Client has confirmed that there are no vulnerabilities pertaining to the asset. Please note that the Valuer has not investigated nor has been provided with any supporting documents.

Also, in our professional judgment based on site inspection, there were no visible vulnerabilities

### 7.1.4 Details of Revenue Pendencies including local authority taxes associated with InvIT asset and compounding.

As per our interaction with the Client, the Client has confirmed that there is no revenue pendency to the asset. Please note that the Valuer has not investigated nor has been provided with any supporting documents

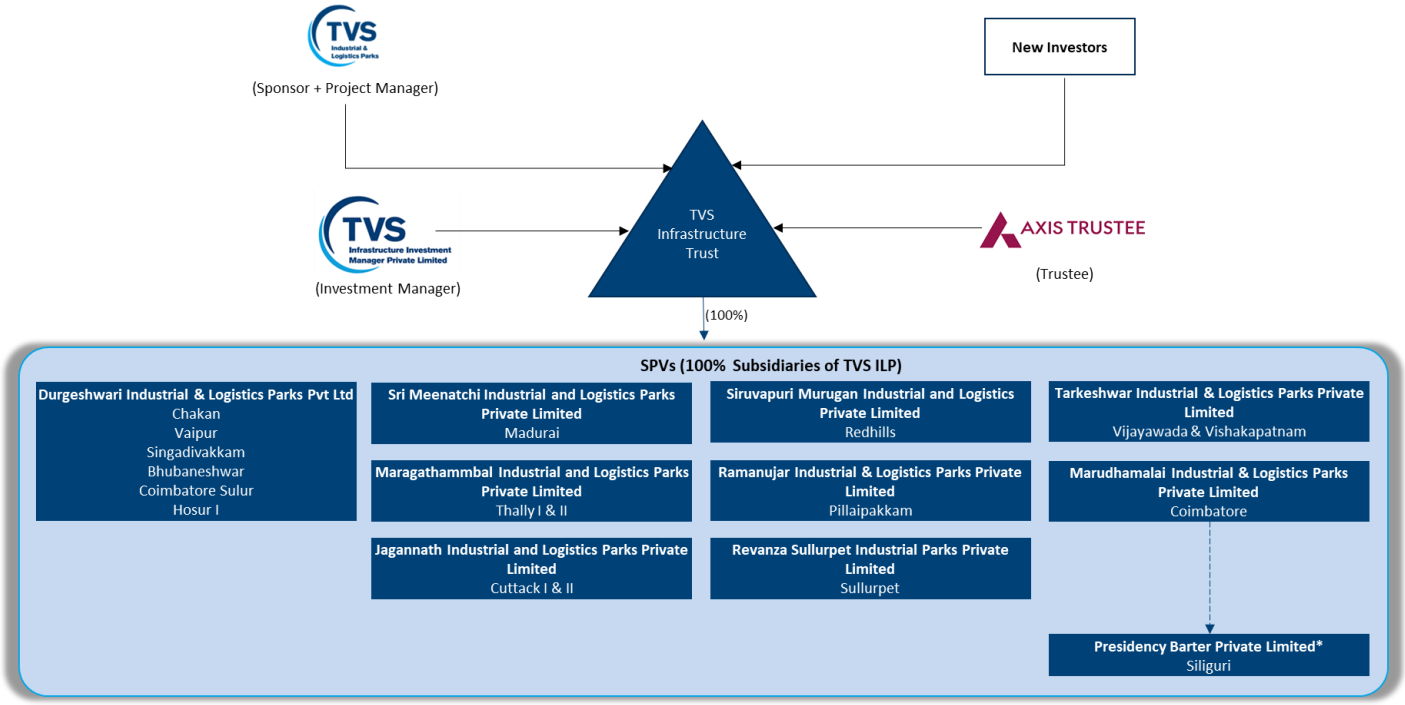
### 7.1.5 Details of the asset including whether the transaction is a related party transaction

The asset is proposed to be acquired from the Sponsor, which is identified as related party under SEBI (InVIT) Regulations.

### 7.1.6 Nature of the interest the InvIT holds or proposes to hold in the asset, percentage of interest of the InvIT in the asset

As per our interaction with the Client, the Client has confirmed that 100% to be held by the InvIT.

## 7.1.7 Structure of ownership of the asset by the InvIT



*Presidency Barter Private Limited is a 100% subsidiary of Marudhamalai Industrial & Logistics Parks Private Limited

## 7.1.8 Description of key agreements and restrictions relevant to the asset such as terms of concession agreement, power purchase agreements, etc.

As per our interaction with the Client, the Client has confirmed that the same is not applicable to their business

## 7.1.9 Life of the asset (both contractually and physical life requiring maintenance, replacement and right available to extend this life

| S. No | Particulars | No. of years |
|---|---|---|
| 1 | Remaining Physical Life of the Building asset requiring maintenance | Cuttack I (Banipada) and Cuttack II (Indranipatna) – 30 Years* |
| 2 | Remaining Contractual Life of underlying Land | Cuttack I: 49 years**<br>Cuttack II: 80 years*** |
| 3 | Right to extend the contractual life of land | Not applicable. The underlying land is virtually freehold in nature |

**It should be noted that both the subject assets are currently in under-construction stage and are going to be completed in Q1 2025.*
***As per the Registered agreement dated 8th August 2023, the tenure mentioned is for a period of 90 years starting from date of lease sanctioned in favour of IDCO - till 16th January 2074.*
***As per the Registered agreement dated 9th August 2023, the tenure mentioned is for a period of 82 years starting from date of execution of the agreement - till 8th August 2105.*

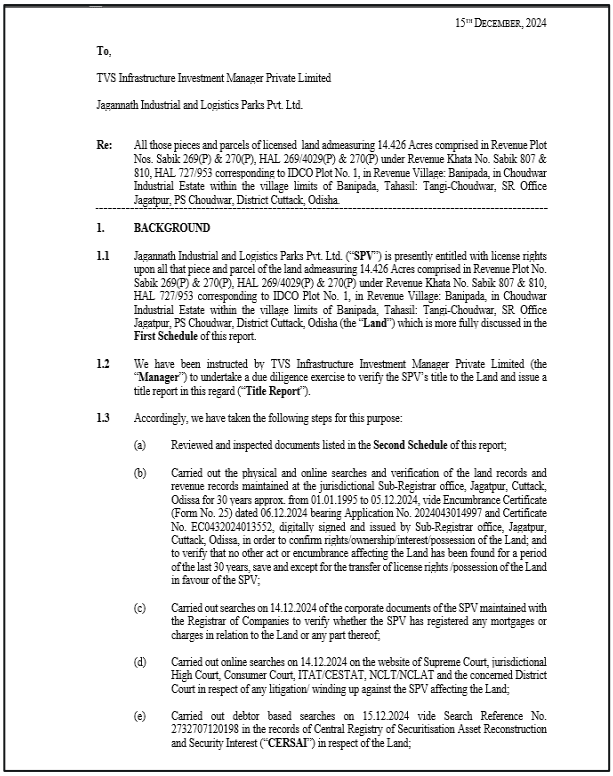
## 7.3.5 Title Search Report – Cuttack I, Banipada and Cuttack II, Indranipatna



15TH DECEMBER, 2024

**To,**

TVS Infrastructure Investment Manager Private Limited

Jagannath Industrial and Logistics Parks Pvt. Ltd.

**Re:** All those pieces and parcels of licensed land admeasuring 14.426 Acres comprised in Revenue Plot Nos. Sabik 269(P) & 270(P), HAL 269/4029(P) & 270(P) under Revenue Khata No. Sabik 807 & 810, HAL 727/953 corresponding to IDCO Plot No. 1, in Revenue Village: Banipada, in Choudwar Industrial Estate within the village limits of Banipada, Tahasil: Tangi-Choudwar, SR Office Jagatpur, PS Choudwar, District Cuttack, Odisha.

**1. BACKGROUND**

**1.1** Jagannath Industrial and Logistics Parks Pvt. Ltd. ("**SPV**") is presently entitled with license rights upon all that piece and parcel of the land admeasuring 14.426 Acres comprised in Revenue Plot No. Sabik 269(P) & 270(P), HAL 269/4029(P) & 270(P) under Revenue Khata No. Sabik 807 & 810, HAL 727/953 corresponding to IDCO Plot No. 1, in Revenue Village: Banipada, in Choudwar Industrial Estate within the village limits of Banipada, Tahasil: Tangi-Choudwar, SR Office Jagatpur, PS Choudwar, District Cuttack, Odisha (the "**Land**") which is more fully discussed in the **First Schedule** of this report.

**1.2** We have been instructed by TVS Infrastructure Investment Manager Private Limited (the "**Manager**") to undertake a due diligence exercise to verify the SPV's title to the Land and issue a title report in this regard ("**Title Report**").

**1.3** Accordingly, we have taken the following steps for this purpose:

(a) Reviewed and inspected documents listed in the **Second Schedule** of this report;

(b) Carried out the physical and online searches and verification of the land records and revenue records maintained at the jurisdictional Sub-Registrar office, Jagatpur, Cuttack, Odissa for 30 years approx. from 01.01.1995 to 05.12.2024, vide Encumbrance Certificate (Form No. 25) dated 06.12.2024 bearing Application No. 2024043014997 and Certificate No. EC043202401355 2, digitally signed and issued by Sub-Registrar office, Jagatpur, Cuttack, Odissa, in order to confirm rights/ownership/interest/possession of the Land; and to verify that no other act or encumbrance affecting the Land has been found for a period of the last 30 years, save and except for the transfer of license rights /possession of the Land in favour of the SPV;

15TH DECEMBER, 2024

**To,**

TVS Infrastructure Investment Manager Private Limited

Jagannath Industrial and Logistics Parks Pvt. Ltd.

**Re:** All that piece and parcel of licensed land admeasuring 8 Acres comprised in Revenue Plot No. 114/1316 (P), under Revenue Khata No. 172/884, IDCO Plot No. 37, in Revenue Village: Indranipatna, Tahasil: Tangi-Choudwar, District Cuttack, Odisha.

**1. BACKGROUND**

**1.1** Jagannath Industrial and Logistics Parks Pvt. Ltd. ("**SPV**") is presently entitled with license rights upon all that piece and parcel of the land admeasuring 8 Acres comprised in Revenue Plot No. 114/1316 (P), under Revenue Khata No. 172/884, IDCO Plot No. 37, in Revenue Village: Indranipatna, Tahasil: Tangi-Choudwar, District Cuttack, Odisha (the "**Land**") which is more fully discussed in the **First Schedule** of this report.

**1.2** We have been instructed by TVS Infrastructure Investment Manager Private Limited (the "**Manager**") to undertake a due diligence exercise to verify the SPV's title to the Land and issue a title report in this regard ("**Title Report**").

**1.3** Accordingly, we have taken the following steps for this purpose:

(a) Reviewed and inspected documents listed in the **Second Schedule** of this report;

(b) Carried out the physical and online searches and verification of the land records and revenue records maintained at the jurisdictional Sub-Registrar office, Jagatpur, Cuttack, Odissa for 30 years approx. from 01.01.1995 to 05.12.2024, vide Encumbrance Certificate (Form No. 25) dated 06.12.2024 bearing Application No. 2024043014997 and Certificate No. EC043202401355 2, digitally signed and issued by Sub-Registrar office, Jagatpur, Cuttack, Odissa, in order to confirm rights/ownership/interest/possession of the Land; and to verify that no other act or encumbrance affecting the Land has been found for a period of the last 30 years, save and except for the transfer of license rights of the Land in favour of the SPV.

(c) Carried out searches on 14.12.2024 of the corporate documents of the SPV maintained with the Registrar of Companies to verify whether the SPV has registered any mortgages or charges in relation to the Land or any part thereof.

(d) Carried out online searches on 14.12.2024 on the website of Supreme Court, jurisdictional High Court, Consumer Court, ITAT/CESTAT, NCLT/NCLAT and the concerned District Court in respect of any litigation/ winding up against the SPV affecting the Land;

(e) Carried out debtor based online searches on 15.12.2024 vide Search Reference No. 2732707120198 at the official website of Central Registry of Securitisation Asset Reconstruction and Security Interest ("**CERSAI**") in respect of the Land;

(f) Verified that adequate stamp duty has been paid as prescribed under applicable law in respect of the documents transferring title, rights and interest over the Land, and reviewed of notifications, if any, providing for exemption from payment of stamp duty;

Maharashtra, India

**Report on the Audit of Special Purpose Combined Financial Statements**

**Opinion**

We have audited the accompanying Special Purpose Combined Financial Statements comprising:

a. Marudhamalai Industrial & Logistics Parks Private Limited (**"MILP"**)
b. Maragathammbal Industrial and Logistics Park Private Limited (**"MRILP"**)
c. Siruvapuri Murugan Industrial and Logistics Private Limited (**"SMILP"**)
d. Jagannath Industrial and Logistics Parks Private Limited (**"JGILP"**)
e. Sri Meenatchi Industrial and Logistics Parks Private Limited (**"SRMILP"**)
f. Tarkeshwar Industrial & Logistics Parks Private Limited (**"TILP"**) w.e.f. September 8,2022
g. Durgeshwari Industrial & Logistics Parks Private Limited (**"DILP"**)
h. Ramanujar Industrial & Logistics Parks Private Limited (**"RMILP"**) w.e.f. June 1, 2023
i. Revanza Sullurpet Industrial Parks Private Limited (**"RSIPPL"**)
j. Presidency Barter Private Limited (**"PBPL"**) (wholly owned subsidiary of MILP)

(individually referred to as "SPV" and together with InvIT referred to as **"the Group"**) which comprise the Special Purpose Combined Balance Sheets as at September 30, 2024, March 31, 2024, March 31, 2023 and March 31, 2022, the Special Purpose Combined Statements of Profit and Loss (including Other Comprehensive Income), the Special Purpose Combined Statements of Changes in Equity and the Special Purpose Combined Cash Flow Statements for the six months period ended September 30, 2024 and for the years ended March 31, 2024, March 31, 2023 and March 31, 2022, the Combined Statement of Net Assets at Fair Value as at September 30, 2024, the Combined Statement of Total Returns at Fair Value for the six months period ended September 30, 2024 and for the year ended March 31, 2024, and notes to the special purpose combined financial statements including a summary of material accounting policies and other explanatory information (collectively, the "**Special Purpose Combined Financial Statements**"). The Special Purpose Combined Financial Statements are prepared in connection with the proposed private placement of units to be issued by the InvIT as per Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014, as amended from time to time including the circulars, notifications, clarifications and guidelines issued thereunder (the "**SEBI InvIT Regulations**").

The Special Purpose Combined Financial Statements have been prepared in accordance with the basis of preparation as set out in Note 2.1 to these Financial Statements.

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors, the aforesaid Special Purpose Combined Financial Statements give a true and fair view in accordance with the basis of preparation as specified in Note 2.1 to the Special Purpose Combined Financial Statements in case of:

i. the combined balance sheet, of the state of affairs of the Group as at September 30, 2024, March 31, 2024, March 31, 2023 and March 31, 2022;

ii. the combined statement of profit and loss (including other comprehensive income) of the Group of the profit for the six months period ended September 30, 2024 and for the years ended March 31, 2024, March 31, 2023 and March 31, 2022;

iii. the combined statements of changes in equity, of the movement of the equity holders for the six months period ended September 30, 2024 and for the years ended March 31, 2024, March 31, 2023 and March 31, 2022;

iv. the combined cash flow statement, of the cash movements of the Group for the six months period ended September 30, 2024 and for the years ended March 31, 2024, March 31, 2023 and March 31, 2022;

v. the combined statement of net asset at fair value, of the net assets as at September 30, 2024; and

vi. the combined statement of total returns at fair values, of the total returns at fair values for the six months period ended September 30, 2024 and for the year ended March 31, 2024.

**Basis of Opinion**

We conducted our audit of the Special Purpose Combined Financial Statements in accordance with the Standards on Auditing (SAs) and other pronouncements issued by the Institute of Chartered Accountants of India (ICAI). Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Special Purpose Combined Financial Statements' section of our report. We are independent of the Group in accordance with the 'Code of Ethics' issued by the ICAI and we have fulfilled our other ethical responsibilities in accordance with the Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a reasonable basis for our audit opinion on the Special Purpose Combined Financial Statements.

**Emphasis of Matter**

a) This Report is addressed to the Investment Manager solely for inclusion in the Draft Placement Memorandum, Placement Memorandum and Final Placement Memorandum in connection with the proposed initial private placement of units of InvIT. As a result, the Special Purpose Combined Financial Statement prepared after making adjustments as required under the SEBI InvIT Regulations may not be suitable for another purpose. The basis of preparation is given in Note 2.1 of the Special Purpose Combined Financial Statements. Our report should not be used, referred to our distributed for any other purpose or to any party. Accordingly, we do not accept or assume any liability or any duty of care for any other purpose or to any other person to whom this report is shown or into whose hands it may come.

Our opinion is not modified in respect of the above matter.

**Responsibilities of the Management and Board of Directors for Special Purpose Combined Financial Statements**

The Board of Directors of the Investment Manager to InvIT are responsible for the preparation and presentation of these Special Purpose Combined Financial Statements that give a true and fair view of the combined financial position, combined financial performance including other comprehensive income, combined statement of changes in equity and combined cash flows, combined position of net assets at fair value and combined total return at fair value of the Group in accordance with the basis of preparation specified in Note 2.1 to the Special Purpose Combined Financial Statements.

The respective Board of Directors of the Group and the Investment Manager are responsible for the maintenance of adequate accounting records in accordance with the provisions of the Companies Act, 2013 for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Special Purpose Combined Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of these Special Purpose Combined Financial Statements by the Investment Manager, as aforesaid.

In preparing the Special Purpose Combined Financial Statements, the respective Board of Directors of the Group and the Investment Manager are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations or has no realistic alternative but to do so.

The respective Board of Directors of the Group and the Investment Manager are also responsible for overseeing the financial reporting process.

**Auditors' Responsibility for the audit of the Special Purpose Combined Financial Statements**

Our objectives are to obtain reasonable assurance about whether the Special Purpose Combined Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Special Purpose Combined Financial Statements.

As part of an audit in accordance with SAs and other pronouncements issued by ICAI, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Special Purpose Combined Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for expressing an opinion on the effectiveness of the internal controls of the Group.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Special Purpose Combined Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as going concern.

- Evaluate the overall presentation, structure and content of the Special Purpose Combined Financial Statements, including the disclosures, and whether the Special Purpose Combined Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the Special Purpose Combined Financial Statements. Certain entities of the Group included in the Special Purpose Combined Financial Statements have been audited by other auditors as stated in Other Matter paragraph below. Such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them.

- We communicate with those charged with governance of the Investment Manager who are responsible for the preparation of Special Purpose Financial Statements, among other matters, the planned scope and timing of the audit and significant audit findings that we identify during our audit of these Special Purpose Combined Financial Statements.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

**Other Matters**

a. We have relied on the audit reports provided by other auditors for two SPVs as on and for the year ended 31 March 2023 and 31 March 2022 and one SPV as on and for the year ended 31 March 2024 whose total assets, total revenue and cash inflows are included in the Special Purpose Combined Financial Statements (before elimination) as given in the table below:-

| **Particulars** | **March 31, 2024 (Rs. In Lakhs)** | **March 31, 2023 (Rs. In Lakhs)** | **March 31, 2022 (Rs. In Lakhs)** |
|---|---|---|---|
| Total assets | 2,516.81 | 23,510.39 | 16,076.12 |
| Total revenues | 523.39 | 1,874.31 | 203.67 |
| Net cash (Outflows)/ inflows | 11.31 | 18.04 | 60.50 |

The above SPVs' financial statements had been prepared in accordance with accounting standards notified in Companies (Accounting Standards) Rules, 2006 under generally accepted auditing standards in India and audited by other auditors. The Investment Manager has converted these financial statements in accordance with accounting standards notified in Companies (Accounting Standards) Rules, 2015 ("Ind

AS") under generally accepted auditing standards in India. We have audited Ind AS adjustments and overall disclosure and presentation of special purpose financial statements prepared by the Investment Manager.

b. Our opinion in so far as it relates to the balances and affairs of these SPVs' are based on the report of other auditors and the Ind AS adjustments, overall disclosure and presentation of special purpose financial statements and adjustments required under SEBI InvIT Regulations which have been prepared by the Investment Manager and audited by us.

Our opinion above on the Special Purpose Combined Financial Statements is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors.

**Report on Other Legal and Regulatory Requirements**

As required by section 3.5.1(d) of SEBI Master Circular no. SEBI/HO/DDHS-PoD-2/P/CIR/2024/44 dated May 15, 2024 (**"SEBI Circular"**), we report that:

a) We/the other auditors whose report we have relied upon have sought and have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the aforesaid Special Purpose Combined Financial Statements;

b) the Special Purpose Combined Balance Sheets, Special Purpose Combined Statements of Profit and Loss (including Other Comprehensive Income), Special Purpose Combined Statements of Changes in Equity and Special Purpose Combined Cash Flow Statements dealt with by this Report are in agreement with the books of account maintained for the purpose of preparation of the Special Purpose Combined Financial Statements; and

c) In our opinion, the Special Purpose Combined Financial Statements comply with the basis of preparation as stated in Note 2.1 to the Special Purpose Combined Financial Statements.

**Notes forming part of Special Purpose Combined financial statements**

**1. Corporate Information:**

The special purpose combined financial statements comprise:
a. Marudhamalai Industrial & Logistics Parks Private Limited (“MILP")
b. Maragathammbal Industrial and Logistics Park Private Limited (“MRILP”)
c. Siruvapuri Murugan Industrial and Logistics Private Limited (“SMILP”)
d. Jagannath Industrial and Logistics Parks Private Limited ("JGILP")
e. Sri Meenatchi Industrial & Logistics Parks Private Limited (“SRMILP”)
f. Tarkeshwar Industrial & Logistics Parks Private Limited (”TILP”) w.e.f. September 8,2022
g. Durgeshwari Industrial & Logistics Parks Private Limited (“DILP”)
h. Ramanujar Industrial and Logistics Parks Private Limited (“RMILP”) w.e.f. June 1, 2023
i. Revanza Sullurpet Industrial Parks Private Limited (“RSIPPL”) w.e.f. December 9, 2020
j. Presidency Barter Private Ltd (“PBPL”) Wholly owned subsidiary of MILP

individually referred to as "SPV" and together with InvIT referred to as “the Group". The Group is domiciled in India.

2 The Group is in the business of developing, owning, and leasing of industrial infrastructure, such as warehouses, assembling/ sub – assembling hubs, logistics and industrial parks.

TVS Industrial & Logistics Parks Private Limited has acquired RSIPPL and PBPL from 15th August 2023 and 15th May 2024 respectively, however, for preparation of these Special Purpose combined Financials statements, discrete financial information of these SPVs are considered and combined from 1st April 2021.

The Principles laid down in Ind AS -110 Consolidated Financial Statements has been followed, to the extent applicable.

The SPVs are proposed to be transferred to TVS Infrastructure Trust (“Trust”).
TVS Industrial Logistics Parks Private Limited ("the Sponsor of the Trust") has set up the Trust as an irrevocable trust under the Indian Trust Act, 1882 pursuant to Trust Deed dated 26th March 2024 . The Trust has been registered as an Infrastructure Investment Trust (‘InvIT’) with Securities Exchange Board of India (‘SEBI’) under the Securities Exchange Board of India (Infrastructure Investment Trust) Regulations, 2014 vide Certificate of Registration IN/InvIT/24-25/0030 dated April 22, 2024. There are no transactions in the trust for the period ended 30 September 2024. The principal place of business of the Trust is 9th Floor, Iconic Building, Urmi Estate, Ganpatrao Kadam Marg, Lower Parel West, Mumbai, Maharashtra, 400013. The Trustee to the Trust is Axis Trustee Services Limited (the “Trustee”) and the Investment manager for the Trust is TVS Infrastructure Investment Manager Private Limited (formerly known as Mahaveer Industrial & Logistics Parks Pvt Ltd) (the "Investment Manager”).

The Investment Objectives of the InvIT, as defined in Trust deed, is to carry on the activities of, and to make investments as, an infrastructure investment trust, as permissible in terms of the InvIT Regulations. The investment of the InvIT shall be in any manner permissible under, and in accordance with, the InvIT Regulations and Applicable Law, including, in such Holding Companies and/or SPVs and/or infrastructure projects and/or securities in India as permitted under the InvIT Regulations and in accordance with the investment strategy as detailed in any Offer Document.

**2. Material accounting policies**
The material accounting policies applied by the Group in the preparation of its Special Purpose Combined Financial Statements are listed below. Such accounting policies have been applied consistently to all the periods presented in these Special Purpose Combined Financial Statements, unless otherwise indicated.

**2.1. Purpose of preparation of these Special Purpose Combined Financial Statements:**
The Special Purpose Combined Financial Statements have been prepared in connection with the proposed initial private placement of units of Trust under the regulation. In reference to private placement, as per regulation and Master Circular for Infrastructure Investment Trusts (InvITs) No: . SEBI/HO/DDHS-PoD-2/P/CIR/2024/44 dated May 15, 2024 (“Master circular”), the Special Purpose Combined Financial Statements of the Trust is required to be included in the Draft Placement Memorandum, Placement Memorandum and Final Placement Memorandum which will be filed with Stock Exchanges and with SEBI under the Regulations. Accordingly, these Special Purpose Combined Financial Statements of the Trust prepared by the Investment Manager are being prepared for the purpose of inclusion in Draft Placement Memorandum, Placement Memorandum and Final Placement Memorandum for filing with SEBI . As a result, this Special Purpose Combined Financial Statements may not be suitable for another purpose.

This Special Purpose Combined Financial Statement were approved for issue by the Board of Directors of the Investment Manager in their meeting held on 27th January, 2025 for inclusion in Draft Placement Memorandum, Placement Memorandum and Final Placement Memorandum for filing with SEBI and Stock Exchanges.

The Combined Financial Statements of the Group comprise the Combined Balance Sheets as at September 30, 2024, March 31, 2024, March 31, 2023, and March 31 2022 , the Combined Statements of Profit and Loss (including Other Comprehensive Income), the Combined Cash Flow Statements, the Combined Statements of Changes in Equity for the Six months period ended September 30, 2024 and for the years ended March 31, 2024, March 31 2023 and March 31, 2022, the Combined Statement of Net Assets at Fair Value as at September 30, 2024, the Combined Statement of Total Returns at Fair Value for the six months period ended September 30, 2024 and for the year ended March 31, 2024 and notes to the special purpose combined financial statements including a Summary of material Accounting Policies and Other Explanatory Information (collectively, the "Special Purpose Combined Financial Statements").

The Special Purpose Combined Financial Statements have been prepared in accordance with Indian Accounting Standards as prescribed under Section 133 of the Companies Act, 2013 ("Ind AS") read with SEBI (Infrastructure Investment Trusts) Regulations, 2014 and the circulars issued thereunder ("InvIT Regulations"), as amended from time to time, and the Guidance Note on Combined and Carve-Out Financial Statements issued by the Institute of Chartered Accountants of India (“Guidance Note”). The Special Purpose Combined Financial Statements have been prepared using uniform accounting policies for like transactions and other events in similar circumstances. The financial statements / information of all the Group are transferred and used for the purpose of combination and are drawn up to the same reporting date i.e. for the six months period ended September 30, 2024 and for the years ended March 31, 2024, March 31,2023, and March 31, 2022 . The Special Purpose Combined Financial Statements have been prepared using the principles of consolidation as per Ind AS 110 – Consolidated Financial Statements and the Guidance Note, to the extent applicable. However, unlike consolidated financial statements, the Special Purpose Combined Financial Statements does not have any parent company. Further, the requirements of Schedule III notified under the Companies Act, 2013 are not applicable to these Special Purpose Combined Financial Statements and hence these Special Purpose Combined Financial Statements are not prepared in accordance with those requirements. Specific attention is drawn to the following aspects:

- In preparing these Special Purpose Combined Financial Statements, “Equity Share Capital” represent shareholder’s investment in the the Group.
- The number of units that Trust will issue to the TVS ILP is not presently ascertainable. Hence, the Earnings per unit could not be computed.

**The details of various entities included in the Special Purpose Combined Financial Statements is as given below:**

| Name of SPV | Principal activities | Proposed shareholding by Trust | Nature of Proposed Investment | Country of Incorporation |
|---|---|---|---|---|
| MILP | Leasing of warehouses | 100% | SPV/Holdco of PBPL | India |
| MRILP | Leasing of warehouses | 100% | SPV | India |
| SMILP | Leasing of warehouses | 100% | SPV | India |
| JGILP | Leasing of warehouses | 100% | SPV | India |
| SRMILP | Leasing of warehouses | 100% | SPV | India |
| TILP | Leasing of warehouses | 100% | SPV | India |
| DILP | Leasing of warehouses | 100% | SPV | India |
| RMILP | Leasing of warehouses | 100% | SPV | India |
| RSIPPL | Leasing of warehouses | 100% | SPV | India |
| PBPL | Leasing of warehouses | 100% | SPV | India |

**TVS Infrastructure Trust**

**Notes forming part of Special Purpose Combined financial statements**

The special purpose financial statement of the Group for the six months period ended September 30, 2024 and general purpose financial statements of SPVs except for RSIPPL and PBPL for the years ended March 31, 2024, March 31, 2023 and March 31, 2022 are audited by us. General Purpose financial statements of RSIPPL for the years ended March 31, 2023 and March 31, 2022 and general purpose financial statements of PBPL for the years ended March 31, 2024, March 31, 2023 and March 31, 2022 are audited by other auditors. The Investment Manager has converted these general purpose financial statements into special purpose financial statements of RSIPPL and PBPL in accordance with accounting standards notified in Companies (Accounting Standards) Rules, 2015 ("Ind AS") under generally accepted auditing standards in India. PKF Sridhar & Santhanam LLP has audited Ind AS adjustments and overall disclosure and presentation of special purpose financial statements prepared by the Investment Manager.

Further, as required by the InvIT regulations, the Special Purpose Combined Financial Statements are prepared,based on an assumption that 100% stake in all SPVs is held by Trust for such period when the Trust was not in existence.

Further, in accordance with section 3.3.4 of SEBI Master Circular no. . SEBI/HO/DDHS-PoD-2/P/CIR/2024/44 dated May 15, 2024 the Special Purpose Combined Financial Statements have been presented after making necessary adjustments and accordingly, these may be different from the general purpose audited financial statements of the SPVs . Refer Note 41 for details of adjustments made in this Special Purpose Combined Financial Statement.

The Special Purpose Combined Financial Statements are presented in INR, which is the functional currency of the Trust. The Trust do not have any foreign operation and has assessed the functional currency to be INR. All values are rounded to the nearest Lakh rupees, unless otherwise indicated. Certain amounts that are required to be disclosed and do not appear due to rounding-off are expressed as 0.00.

These Special Purpose Combined Financial Statements correspond to classification provisions contained in Ind AS 1 'Presentation of Financial Statements'. These Special Purpose Combined Financial Statements have been prepared on a historical cost convention and on an accrual basis except for certain financial assets (refer accounting policy regarding financial instruments).

The procedures for preparing Special Purpose Combined Financial Statements are stated below –

i) Combine like items of assets, liabilities, equity, income, expenses and cash flows of the Group.

ii) The financial statements of SPVs were combined based on the assumption that all the SPVs were part of a single group for the entire period presented pursuant to the requirements as per SEBI circular.

iii) Intragroup assets, liabilities, equity, income, expenses and cash flows relating to transactions between the Group are eliminated in full.

iv) Considering that all the shareholders of the SPVs, will also be transferring their stake to the Trust, Non-controlling interest is not applicable.

**2.2. Summary of material accounting policies**

**I.Use of estimates**

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Group based its assumptions and estimates on parameters available when the Special Purpose Combined Financial Statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

The preparation of the Special Purpose Combined Financial Statements requires the management to make estimates and assumptions. The management believes that the estimates used in preparation of the Special Purpose Combined Financial Statements are prudent and reasonable. Future results could differ due to these estimates and the differences between the actual results and the estimates are recognised in the periods in which the results are known / materialise.

**a. Useful lives of property, plant and equipment and intangible assets**

The cost of property, plant and equipment and intangible assets are depreciated on a straight-line basis over the estimated economic useful lives. Management estimates the useful lives of these property, plant and equipment and intangible assets to be within 3 to 30 years. These are common life expectancies applied in the industry. Changes in the expected level of usage and technological developments could impact the economic useful lives and the residual values of these assets, therefore, future depreciation charges could be revised. The carrying amount of the Group property, plant and equipment and intangible assets at the end of the reporting period is disclosed in note 3 to Special Purpose Combined Financial Statements.

**b. Impairment of investments**

The Group reviews its carrying value of investments carried at cost annually for impairment. If the recoverable amount is less than it is carrying amount, an impairment loss is accounted for.

**c. Taxation:**

Significant judgement is involved in determining the tax liability for the Group which includes interpretation of tax legislation, developments in case law and the potential outcomes of tax audits and appeals which may be subject to significant uncertainty. Also, there are many transactions and calculation during the ordinary course of business for which the ultimate tax determination is uncertain. Therefore the actual results may vary from expectations resulting in adjustments to provisions, the valuation of deferred tax assets, cash tax settlements and therefore the tax charge in the statement of profit or loss. Further judgement is involved in determining the deferred tax position on the balance sheet date.

**II: Current versus non-current classification**

The Group presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period. All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The terms of the liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

The Group classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Group has identified twelve months as its operating cycle.

**III. Property, plant and equipment**

All items of property, plant and equipment, except Land, are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of items.
Depreciation is considered on straight line basis over the useful life of the asset as follows:

| Particulars | As per books | As per Schedule II, Companies Act |
|---|---|---|
| Buildings on freehold land | 30 years | 30 years |
| Road works | 10 years | 5 years |
| Plant & equipment | 10 years | 15 years |
| Leasehold improvement | over the period of the lease | over the period of the lease |
| Furniture and fixtures and Motor Vehicles | 10 years | 10 years |
| Office Equipment | 3 to 5 years | 5 years |
| Computers | 3 years | 3 years |

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the asset is derecognised.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.
Capital work-in-progress in respect of assets, including Land, which are not ready for their intended use are carried at costs, comprising of direct costs, related incidental expenses and attributable interest, if any.

Based on technical evaluation, the Management believes that the useful lives as given above best represent the period over which Management expects to use these assets. Hence, the useful lives for these assets is different from the useful lives as prescribed under Part C of Schedule II of the Companies Act 2013.

**IV. Impairment of property, plant & equipment and intangible assets**

The carrying amounts of property, plant & equipment and intangible assets are reviewed at each balance sheet date to determine whether there is any indication that those assets have suffered an impairment loss. If any such indications exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any. An impairment loss is recognised in the Statement of Profit and Loss wherever the carrying amount of the asset exceeds its recoverable amount. The recoverable amount is higher of the asset's fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using appropriate discount factor. When there is an indication that an impairment loss recognised for the asset in earlier accounting periods no longer exists or may have decreased such reversal of impairment loss is recognised in the Statement of Profit and Loss.

**V. Financial Assets and Financial liabilities**

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

**(a) Financial assets**

*Initial recognition and measurement*

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, then it is recorded at transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Group commits to purchase or sell the asset.

*Subsequent measurement*

For purposes of subsequent measurement, financial assets are classified in four categories
1. Debt instruments at amortised cost
2. Debt instruments at fair value through other comprehensive income (FVTOCI)
3. Debt instruments, derivatives and equity instruments at fair value through profit or loss (FVTPL)

In accordance with Ind AS 109, the Group applies expected credit loss model for measurement and impairment loss on the financial asset and credit risk exposure.

Impairment of financial assets

The Group assesses at each balance sheet date whether there is objective evidence that a financial asset or a group of financial assets is impaired. A financial asset or a group of financial assets is impaired and impairment losses are incurred only if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated. In accordance with Ind-AS 109, the Group follows 'simplified approach' for recognition of impairment loss allowance on trade receivables which do not contain a significant financing component. The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each Balance Sheet date, right from its initial recognition."

*Derecognition of Financial Assets*

*A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Group's balance sheet) when: - The rights to receive cash flows from the asset have expired, or the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either:*
*(a) the Group has transferred substantially all the risks and rewards of the asset, or*
*(b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.*

**(b) Financial liabilities**

*Initial recognition and measurement*

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs. The Group's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, financial guarantee contracts and derivative financial instruments.

*Subsequent measurement*

The measurement of financial liabilities depends on their classification, as described below:
*Financial liabilities at fair value through profit or loss:*
Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognised in the profit or loss.
Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognized in OCI. These gains/ loss are not subsequently transferred to P&L. However, the Group may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit or loss. The Group has not designated any financial liability as at fair value through profit and loss.

*Loans and borrowings*

This is the category most relevant to the Group. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

**VII. Investments**

Investments are classified into current and non current investments.

Non current investments are carried at amortised cost. Provision for impairment, if any, in the value of each non current investment is made, to recognize a decline, other than of a temporary nature.

Current investments are stated at fair value as per Ind AS 109.

**VIII. Cash and cash equivalents**

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

**IX.Provisions & Contingent Liability**

***a. General***

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

***b. Retirement and other employee benefits***

***i. Defined contribution plan***

Benefit in the form of provident fund is a defined contribution scheme. the Group has no obligation other than the contribution payable to the provident fund. The Group recognizes contribution payable to the provident fund scheme as an expense, when an employee renders the related service.

***ii. Defined benefit plan***

The employee's Gratuity Fund Scheme, which is defined benefit plan, is managed by Trust maintained with Life Insurance Corporation of India (LIC). Gratuity liability in respect of employees of the Group is covered through a policy taken by a trust established under the Group Gratuity Scheme with Life Insurance Corporation of India.

Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognized immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Remeasurements are not reclassified to profit or loss in subsequent periods.

Past service costs are recognized in profit or loss on the earlier of:

• The date of the plan amendment or curtailment, and

• The date that the Group recognizes related restructuring costs

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Group recognises the following changes in the net defined benefit obligation as an expense in the statement of profit and loss:

• Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and

• Net interest expense or income

**X. Revenue recognition**

Revenue is recognised when consideration can be reasonably measured and recovered with reasonable certainty. Revenue is measured at the fair value of the consideration received or receivable and is reduced for estimated customer returns, rebates and other similar allowances.

Service income arising from the operating Property, Plant and Equipment assets is accounted for on a straight-line basis over the lease terms and is included in revenue in the statement of profit or loss due to its operating nature as per Ind AS 116.

**XI. Interest and Dividend income**

Under Ind-AS 109 interest income is recognised using the effective interest rate (EIR) method for all financial instruments measured at amortised cost and fair value through other comprehensive income (FVOCI) (other than equity instruments measured at FVOCI). The EIR is the rate that exactly discounts estimated future cash receipts through the expected life of the financial instrument or, when appropriate, a shorter period, to the net carrying amount of the financial asset or to the amortised cost of a financial liability. When calculating the EIR, the Group estimates the expected cash flows by considering all the contractual terms of the financial instrument ( for example, prepayment, extension, call and similar options) but does not consider expected credit losses.

Dividend income is recognized when the right to receive the payment is established.

**XII. Borrowing cost**

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time (Project Duration) asset get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs. In estimating the Project Duration, the Group considers period between the initial firm irrovocable committment for the asset and till it is ready for its intended use.

**XIII. Segment reporting**

The Proposed Trust identifies primary segments based on the dominant source, nature of risks and returns and the internal organization and management structure. The operating segments are the segments for which separate financial information is available and for which operating profit / loss amounts are evaluated regularly by the Chief Operating Decision Maker ("CODM") in deciding how to allocate resources and in assessing performance. Operating segments are reported in a manner consistent with the internal reporting provided to the CODM of the Group. The CODM, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as CEO of the Group. Segment revenue, segment expenses, segment assets and segment liabilities have been identified to segments based on their relationship to the operating activities of the segment. The identification of operating segments and reporting of amounts is consistent with performance assessment and resource allocation by the management.

**XIV. Leases- as a lessor**

The lessor needs to classify its leases as either an operating lease or a finance lease. Lease arrangements where the risks and rewards incidental to ownership of an asset substantially vest with the lessor are recognised as operating lease. The Group has only operating lease and accounts the same as follows:

Assets given under operating leases are included in property, plant and equipment. Lease income is recognised in the Statement of Profit and Loss on straight line basis over the non-cancellable lease term, unless there is another systematic basis which is more representative of the time pattern of the lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the non-cancellable lease term on the same basis as rental income.

Lease deposits received are financial instruments (financial liability) and are measured at fair value on initial recognition. The difference between the fair value and the nominal value of deposits is considered as rent in advance and recognised over the non-cancellable lease term on a straight line basis. Unwinding of discount is treated as interest expense (finance cost) for deposits received and is accrued as per the EIR method.

**XV. Taxation**

***a. Current Tax***

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date. Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

***b.Deferred tax***

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

**XVI. Fair Value estimation**

**Fair value measurement**

The Group measures financial instruments and specific investments (other than subsidiary, joint venture and associates), at fair value at each balance sheet date.
All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as below, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1: Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2: Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3: Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognized in the balance sheet on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

**XVII. Subsequent events:**

The Special Purpose Combined Financial Statements are adjusted to reflect events that occur after the reporting date but before the Special Purpose Combined Financial Statements are issued. The Special Purpose Combined Financial Statements have their own date of authorisation, which differs from that of the financial statements of the combining entities. Therefore, when preparing the Special Purpose Combined Financial Statements, management considers adjusting events up to the date of authorisation of these financial statements.

**XVIII.Combined Statement of net assets at fair value:**

The disclosure of Statement of Net Assets at Fair Value comprises of the fair values of the total assets and fair values of the total liabilities of individual SPVs. The fair value of the assets are reviewed regularly by Management with reference to independent assets and market conditions existing at the reporting date, using generally accepted market practices. The independent valuers are leading independent appraisers with a recognised and relevant professional qualification and with recent experience in the location. Judgment is also applied in determining the extent and frequency of independent appraisals. Such independent appraisals and the assumptions used are reviewed at each balance sheet date.

**XIX.Statement Of Total Returns at Fair Value:**

The disclosure of total returns at fair value comprises of the total Comprehensive Income as per the Special Purpose Combined Statement of Profit and loss and Other Changes in Fair Value of Total Assets which were not recognised in total Comprehensive Income.

**TVS Infrastructure Trust**
**Notes forming part of Special Purpose Combined financial statements**
***(All amounts are in Rs. Lakhs unless specified otherwise)***

**Leasehold land***

1. In case of JGILP Land is acquired under registered lease deed for 90 years. According to lease agreement, in case the JGILP does not opt for renewal at the expiry of 90 years then leasehold land needs to be hand over to lessor after removing the factory building, structure and fixture. However, since decommission liability of factory building, structure and fixture is not material hence, no provision has been made for same.

2. In case of RMILP Land acquired under registered lease deed for 99 years, with renewable option for 99 years. According to the deed, in case the Company does not opt for renewal at the expiry of, 99 years then leasehold land needs to be hand over to lessor after removing the factory building, structure and fixture. However, since decomissiong liability of factory building, structure and fixture is, not material hence, no provision has been made for same.

* Unsecured loan from Sponsor are interest free and repayable on demand

on 15th August 2023, the Sponsor has entered into Memorandum of Understanding (MOU) with unsecured borrowers of RSIPPL. As per this MOU Interest free loan has been converted into fixed rate interest loan. Interest calculated at the rate of 1% p. m. on a monthly closing balance of Loan from the first date of disbursement of first tranche of Loan amount i.e. 5th December 2020 till date of execution of the Share Purchased Agreement i.e., 15th August 2023. For the purpose of Special Purpose Combined Financial Statements interest has been calculated and accrued in the respective financial year.

The Group has not made any provision as at balance sheet date.

One of the projects of SPV (DILP) has following claim:

Maharashtra Industrial Development Corporation ("MIDC") has served a notice of claim dated November 6, 2006 as development charges of 94.08 lakhs ("Claim") against 6 hectares and 12 Acres of land belonging to the DILP ("Land"). The DILP has contested the Claim as the Land does not fall within the purview of MIDC and the DILP has filed a Suit viz. Regular Civil Suit No.26/2007 before the Civil Judge, Junior Division, Khed, at Khed, in Pune against MIDC. The Hon'ble Court by and Order dated October 17, 2007 has granted a stay against the Claim. Thereafter in the year 2010, DILP has received a letter dated July 6, 2010 from MIDC increasing the Claim amount to 117.44 lakhs. DILP has filed appropriate reply to the said letter.

For Loans, trade receivables, cash & cash equivalents, other bank balances, trade payables, short term borrowings, provisions other financial assets and liabilities maturing within one year from the Balance Sheet date, the carrying amounts approximate the fair value due to the short maturity of these instruments.

**38 Financial risk management**

The Group's activities expose it to a variety of financial risks viz. market risk, credit risk and liquidity risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance.

**A) Management of liquidity risk**

Liquidity risk is the risk that the Group will face in meeting its obligations associated with its financial liabilities. The Group's approach to managing liquidity is to ensure that it will have sufficient funds to treat its liabilities when due without incurring unacceptable losses. In doing this, management considers both normal and stressed conditions.

Maturities of financial liabilities

The following table shows the maturity analysis of the Group's financial liabilities based on contractually agreed undiscounted cash flows as at the Balance sheet date:

| Particulars | Carrying amount | Less than 1 year | Later than 1 year, upto 3 years | Later than 3 years, upto 5 years | Later than 5 years | Total |
|---|---|---|---|---|---|---|
| **As at 30 September, 2024** | | | | | | |
| Borrowings * | 1,83,258.91 | 51,910.92 | 10,663.75 | 21,060.62 | 99,882.53 | 1,83,517.82 |

| **As at 31 March, 2022** | | | | | | |
| Borrowings | 1,10,174.43 | 25,840.95 | 8,738.75 | 9,654.83 | 62,281.53 | 1,06,516.06 |
| Trade payables | 758.46 | 758.49 | - | - | - | 758.49 |
| Security deposit from customers | 4,015.06 | 385.34 | 855.05 | 2,161.85 | 1,970.67 | 5,372.91 |
| Other financial liabilities | 9,418.83 | 9,418.83 | - | - | - | 9,418.83 |

* Current liabilities as of 30 September 2024 exceed current assets which include Sponsor's loan, however InvIT is planning to issue units and repay the loan from Sponsor and current ratio after this adjustment improves to 2.06 times as of 30 September 2024.

**B) Management of market risk**

The Group's size and operations result in it being exposed to the market interest rate risks that arise from its use of financial instruments.

The interest rate risk may affect the Group's income and expenses, or the value of its financial instruments. The objective of the Group's management of market risk is to maintain this risk within acceptable parameters, while optimising returns. The Group's exposure to, and management of, these risks is explained below:

| Particulars | For the Six months period ended September 30, 2024 | For the year ended March 31, 2024 | For the year ended March 31, 2023 | For the year ended March 31, 2022 |
|---|---|---|---|---|
| **Fixed rate instruments** | | | | |
| 0.001% Non Cumulative Compulsory Convertible Preference shares of 10 each (Debt Portion) | 115.62 | 110.12 | - | - |
| Term loan | 1,14,544.84 | 74,518.22 | 84,150.33 | 49,811.41 |
| Total | **1,14,660.46** | **74,628.34** | **84,150.33** | **49,811.41** |
| **Variable rate instruments*** | | | | |
| Term loan | 21,477.51 | 51,753.18 | 21,629.56 | 34,078.14 |
| Overdraft | - | 1,085.87 | 1,181.96 | - |
| **Total** | **21,477.51** | **52,839.05** | **22,811.52** | **34,078.14** |

**Note:** Loan from TVS ILP (Sponsor) has not been considered in the above table as the same is interest free.

*** Sensitivity Risk details**

| Year | 0.5% increase in interest rate | 0.5% decrease in interest rate |
|---|---|---|
| 2020-21 | (193.02) | 193.02 |
| 2021-22 | (170.39) | 170.39 |
| 2022-23 | (114.06) | 114.06 |
| 2023-24 | (264.20) | 264.20 |
| Half year ended on September 30, 2024 | (107.39) | 107.39 |

**C) Management of credit risk**

Credit risk is the risk of financial loss to the Trust if a customer or counterparty to a financial instruments fails to meet its contractual obligations, and arises principally from the Group's receivables from customers, loans given to related parties and project deposits. The carrying amount of financial assets represents the maximum credit exposure.

**Trade Receivables**

Customer credit risk is managed by requiring customers to pay advance against lease rent, advances through progress billings, therefore substantially eliminating the Group's credit risk in this respect.

| Particulars | As at 30 September 2024 | As at 31 March 2024 | As at 31 March 2023 | As at 31 March 2022 |
|---|---|---|---|---|
| No of Customers to whom Sales made is more than 10% of the Turnover | 3 Nos | 3 Nos. | 3 Nos. | 4 Nos. |
| Contribution of Customers in Sales more than 10% of Turnover | 73.54% | 86.81% | 90.93% | 76.00% |
| No of Customers who owed more than 10% of the Total receivables | 3 Nos. | 3 Nos. | 3 Nos. | 3 Nos. |
| Contribution of Customers in owing more than 10% of Total receivables | 81.92% | 95.66% | 97.96% | 83.06% |

**Cash and Bank balances**

Credit risk from cash and bank balances is managed by the Trust's treasury department in accordance with the Group's policy. The Group's maximum exposure to credit risk as at 30 September 2024,31 March 2024, 31 March 2023 & 31 March, 2022 are the carrying value of each class of financial assets.

**D) Foreign currency risk**

Currency risk is the risk that the fair value or future cash flows fluctuate because of changes in market prices of various currencies against the functional currency. However the Group is currently not exposed to foreign currency risk.

**39 Capital risk management**

The Group's objectives when managing capital are to safeguard its ability to continue as a going concern in order to provide returns for shareholders and benefits for the other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

**Debt-Equity Ratio:**

| Particulars | As at 30 September 2024 | As at 31 March 2024 | As at 31 March 2023 | As at 31 March 2022 |
|---|---|---|---|---|
| Long term Borrowings (refer note 12(a)) | 1,31,347.98 | 1,21,907.43 | 1,01,571.15 | 81,917.56 |
| Short term borrowings (refer note 16(a)) (including sponsor loan) | 47,120.94 | 39,972.22 | 22,925.55 | 22,587.95 |
| Current maturity of Long-term Borrowings (refer note 12 (a)) | 4,789.99 | 4,474.09 | 4,208.74 | 1,971.99 |
| **Gross Debt** | **1,83,258.91** | **1,66,353.74** | **1,28,705.44** | **1,06,477.50** |
| Cash and marketable securities | 9,348.11 | 5,498.66 | 52.81 | 192.68 |
| **Net Debt (A)** | **1,73,910.80** | **1,60,855.08** | **1,28,652.63** | **1,06,284.82** |
| **Total Equity (B)** | **13,600.61** | **13,246.49** | **8,825.91** | **3,513.47** |
| **Sponsor loan (C)** | **47,120.94** | **38,675.87** | **20,397.36** | **20,929.32** |
| **Net Debt Equity Ratio (A/B)** | **12.79** | **12.14** | **14.58** | **30.25** |
| **Net Debt Equity Ratio (A-C)/B) (without sponsor loan)** | **9.32** | **9.22** | **12.27** | **24.29** |

**40** The Group does not foresee any material loss on its long term contracts. The Group does not have any derivative contracts.

**41 Reclassifications and Ind AS ad ustments**

(i) Revaluation reserve of DILP for year ended 31 March 2023 and 31 March 2022 on Land is reversed for the purpose of preparation of this Special Purpose Combined Financial Statement. (Land value decreased by Rs. 14,815.16 lakhs.)

(ii) Depreciation for RSIPPL in the general purpose financial statement of RSIPPL is as per Written Down Value Method, however to bring the depreciation inline with group policy, Depreciation has been recomputed as per Straight Line Method and impact is recognised in this Special Purpose Combined Financial Statement for 31 March 2023 and 31 March 2022. (Impact: 31 March 2023 - Rs 744.97 Lakhs; 31 March 2022 - Rs.18.70 Lakhs.) and deferred tax adjustment has been done accordingly.

(iii) Value of Assets and Liabilities combined in Special Purpose Combined Financial Statement for RSIPPL is as per fair value considered for Consolidated Financial Statement of its Parent entity (TVSILP) for period ended 31 March 2024.

- PPE gross value increased by Rs. 2,987.05 lakhs. Including land value of Rs. 2,753.47 lakhs
-Depreciation charge decreased by Rs. 54.30 lakhs
and deferred tax adjustment has been done accordingly.

(iv) In General Purpose financial statement of RSIPPL, interest on loan used for construction of Building was expensed out in the statement of Profit and Loss. Considering, Building to be a qualifying asset as per IND AS 23 "Borrowing Cost", Interest of Rs. 950.39 Lakhs has been capitalised in Land and Building cost under Capital work in progress and property, plant and equipments .
ear Ended 31 March 2024 - Rs. 290.53 Lakhs
ear Ended 31 March 2023 - Rs. 546.10 Lakhs
ear Ended 31 March 2022 - Rs. 307.09 Lakhs
and deferred tax adjustment has been done accordingly.

**(v) Reclassifications:**

- Capital advances reclassified from loans & advances to other non current assets
- Income Tax receivable is reclassified from "other assets" to "Non current tax assets (net)" on the face of Balance Sheet.
- Other current assets reclassified to other non current assets
- Fixed Deposit is reclassified to "Other Financial asset" from "Cash and Cash Equivalent" for the year ended 31 March 2023 and 31 March 2022
- Balances with Revenue Authorities in the Group reclassified from Current asset to Non current asset, to the extent it belongs to "ITC on Construction of Business".
- Advance provided for Mobilisation work is reclassified as "Capital Advance" in all reported years and period.
- Fixed deposit reclassified from "Other bank baance" to "Other non current financial assets "
- Security deposit with govenment has been reclassified from "Other non current financial assets" to "Other non current assets"
- Advance for land reclassified from "Other current assets" to "Non current assets".
- Balance in escrow bank account reclassified from "Cash and cash equivements" to "Other bank balance"
- Capital creditors reclassified from "Trade paybles" to "Other non current financial liabilities"

**RSIPPL Ind AS ad ustments:**

(vi)Under previous GAAP, the security deposits for leases are accounted at an undiscounted value. Under Ind AS, the security deposits for leases have been recognised at discounted value and the difference between undiscounted and discounted value has been recognised as 'Imputed Interest' which has been amortised over respective lease term as notional interest income under 'lease rental and allied services' . The discounted value of the security deposits is increased over the period of lease term by recognising the rent expense under 'Interest on security deposits' and deferrred tax adjustment has been done accordingly.

(vii) Borrowings are carried at the outstanding principal amount under Indian GAAP and transaction cost were debited to finance in statement of profit & loss account. Under Ind AS, borrowings are to be measured at amortized cost by applying the effective interest rate method which adjusts the effective interest rate for the transaction cost. Accordingly, the borrowings are restated as per Ind AS and the transition cost earlier debited to the finance cost in statement of profit & loss account has been reversed

**PBPL Ind AS ad ustments:**

(viii) Under previous GAAP, straight lining of lease equilisation was not carried out, the same is now carried out in the combined financial statements for the year ended 31 March 2024, 31 March 2023 and 31 March 2022.

(ix) Under GAAP, the security deposits for leases are accounted at an undiscounted value. Under Ind AS, the security deposits for leases have been recognised at discounted value and the difference between undiscounted and discounted value has been recognised as 'Imputed Interest' which has been amortised over respective lease term as notional interest income under 'lease rental and allied services' . The discounted value of the security deposits is increased over the period of lease term by recognising the rent expense under 'Interest on security deposits' and deferrred tax adjustment has been done accordingly.

(x) Borrowings are carried at the outstanding principal amount under Indian GAAP and transaction costs were debited to finance costs in statement of profit & loss. Under Ind AS, borrowings are to be measured at amortized cost by applying the effective interest rate method which adjusts the effective interest rate for the transaction costs. Accordingly, the borrowings are restated as per Ind AS and the transition costs earlier debited to the finance cost in statement of profit & loss has now been reversed.

**42 Demerger of certain pro ects of Sponsor ( Demerged Undertaking ) with DILP.**

On 19th June 2023, the Board of Directors of the Sponsor has approved the Scheme of demerger ("Scheme") for transfer of the "Leasing Business" (Demerged Undertaking of Sponsor) into DILP ("Wholly Owned Subsidiary of Sponsor ") in terms of the provision of Sections 230 to 232 read with other applicable provisions of the Companies Act, 2013 and in accordance with the provisions of the Income-tax Act, 1961. The Sponsor had filed the Scheme before Hon'ble National Company law Tribunal ("NCLT"), Mumbai with Appointed date fixed as at April 01, 2023. NCLT has approved this Scheme on 26th March 2024. The certified copy of the order of the NCLT has been filed with the Registrar of Companies at Mumbai, Maharashtra on 28th March 2024 and the Scheme has become effective from 28th March 2024 (with appointed date being April 1, 2023).

All the assets, liabilities of the Demerged Undertaking of the Sponsor (including employees) have been transferred in their existing form and at their carrying amounts/ book values as at the Appointed Date of April 1, 2023 under the respective assets and liabilities accounts except amount related to revaluation reserve that has been reversed in the books of the Sponsor on account of Scheme as on April 1,2023. The difference between assets and liabilities is credited to capital reserve as at April 1, 2023 as per the Scheme. Further the difference between assets and liabilities of the Demerged Undertaking of the Sponsor for the financial year ended March 31,2024 is shown as amount payable by Sponsor to DILP, this is mainly due to invoicing is done from TVSILP (carve out part) and money is received by the Sponsor.

The Scheme inter-alia provide, on the effective date, issue of 74,03,846 number of Fully Paid up 0.001% Non Cumulative Compulsory Convertible Preference shares of 10 each of DILP to the shareholders of Sponsor in the ratio of 4 (four) CCPS of Rs. 10 each fully paid up of the DILP for every 10 (ten) Equity Shares of Rs. 10 (Rupees ten only) each fully paid up held in the Sponsor. Accordingly the DILP has issued 74,03,846 number of Fully Paid up 0.001% Non Cumulative Compulsory Convertible Preference shares of 10 each as consideration and excess of Rs. 2,979.58 Lakhs is considered as capital reserve in the books of DILP.

| Particulars | Amount in lakhs |
|---|---|
| **Assets** | |
| Property Plant & Equipment including CWIP | 49,939.67 |
| Other Assets | 5,323.48 |
| **Total Assets (A)** | **55,263.15** |
| **Liabilities** | |
| Borrowings | 46,947.65 |
| Other Liabilities | 4,595.54 |
| **Total Liabilities (B)** | **51,543.19** |
| **Excess of assets over liabilities (A-B)** | **3,719.96** |
| Issue of 0.001% CCPS | 740.38 |
| **Capital reserve/(Goodwill)** | **2,979.58** |

**43 Acquisition of RSIPPL**

On 15th August 2023, the Promoters (share holders of the RSIPPL) Mrs Aarthi Lalwani and Mr Sushil Lalwani of RSIPPL have executed Share Purchase agreement ("SPA") and sold 100% shares of RSIPPL to the Sponsor. All identified assets and liabilities acquired on the date of acquisition were recorded at their fair value as per IND AS 103 Business Combinations. Difference between net asset acquired and purchase consideration has been credited to capital reserve.

**A. Consideration transferred**

The following table summarises the acquisition date fair values of each major class of consideration transferred.

| Particulars | Rs. In Lakhs |
|---|---|
| Cash* | - |
| **Total Consideration** | **-** |

**B. Identified assets acquired and liabilities assumed**

The fair values of the identifiable assets and liabilities of RSIPPL as at the date of acquisition were:

| Particulars | Assets Acquired as on 15th Aug 2023 |
|---|---|
| **Non Current Assets** | |
| Property, Plant and Equipment | 16,572.75 |
| Capital work-in-progress | 5,016.85 |
| (iv) Non-current tax assets (Net) | 110.83 |
| (v) Other non current assets | 4,138.40 |
| **Current Assets** | |
| Trade Receivables | 210.07 |
| Cash and cash equivalents | 175.31 |
| (c) Bank balance other than (b) above | 160.50 |
| Other current assets | 348.85 |
| **Total Assets (A)** | **26,733.56** |
| **Non Current Liabilities** | |
| Long Term Borrowings | 10,609.35 |
| Deferred Tax Liabilities | 111.37 |
| (b) Other financial liabilities | 590.57 |
| Other Non- Current Liabilities | 358.92 |
| **Current Liabilities** | |
| Short-term borrowings | 5,796.47 |
| Trade payables | 4,527.77 |
| (c) Other financial liabilities | 853.17 |
| Other current liabilities | 109.19 |
| **Total Liabilities (B)** | **22,956.81** |
| **Total Net Assets Acquired (C A - B)** | **3,776.75** |
| Less: Consideration adjusted* (D) | - |
| **Capital Reserve (E C-D)** | **3,776.75** |

*The Sponsor has acquired RSIPPL for consideration of Rs.4,265.88 lakhs from the shareholders of RSIPPL. Assets and liabilities are acquired at fair value as per Ind AS 103 "Business Combinations" which is considered in the combined financial statements from the date of acquistion by the Sponsor. However the Sponsor is not part of the Group, consideration paid/payable by the Sponsor is nil at the Group level. Accordingly difference between assets and liablities assumed of RSIPPL is transfered to capital reserve.

**44 Acquisition of PBPL**

On 16th May 2024, the Promoters (share holders of PBPL) have executed Share Purchase agreement ("SPA") and sold 100% shares of PBPL to the Sponsor. All identified assets and liabilities acquired on the date of acquisition were recorded at their fair value as per IND AS 103 Business Combinations. Difference between net asset acquired and purchase consideration has been debited to goodwill.

**A. Consideration transferred**

The following table summarises the acquisition date fair values of each major class of consideration transferred.

| **Particulars** | **Rs. In Lakhs** |
|---|---|
| Cash | 2,272.38 |
| **Total Consideration** | **2,272.38** |

**B. Identified assets acquired and liabilities assumed**

The fair values of the identifiable assets and liabilities of PBPL as at the date of acquisition were:

| **Particulars** | **Assets Acquired as on 16th May 2024** |
|---|---|
| **Non Current Assets** | |
| Property, Plant and Equipment | 4,201.57 |
| Capital work-in-progress | - |
| Long-term loans and advances | 11.44 |
| **Current Assets** | |
| Trade Receivables | 1.24 |
| Cash and cash equivalents | 59.71 |
| Other Bank Deposits | 58.70 |
| Advances | 16.46 |
| Other current assets | 121.37 |
| **Total Assets (A)** | **4,470.49** |
| **Liabilities** | |
| Long Term Borrowings | 1,898.70 |
| Other Non- Current Liabilities | 161.72 |
| Deferred Tax | 170.25 |
| Current Liabilities | - |
| Other current liabilities | 18.30 |
| **Total Liabilities (B)** | **2,248.97** |
| Total Net Assets Acquired (C A - B) | **2,221.52** |
| Less: Consideration adjusted (D) | 2,272.38 |
| **Capital Reserve/ (Goodwill) (E C-D)** | **(50.87)** |

**45 Claim receivable from insurance company**

Pursuant to a natural calamity in Andhra Pradesh, in a portion of one of the warehousing units in Sullerpet, warehouse was not available for use for customer. Basis valid insurance contracts and confirmation from insurance company with respect to the said loss, an insurance claim was recognised which is pending to be settled and the Group has recognised the claim amount of Rs. 221.62 Lakhs as insurance claim receivable as on 30 September 2024.

**46 Change in method of depreciation - RSIPPL:**

RSIPPL was following Written Down Method (WDV) for depreciation. However, to align this estimate with the Group method of depreciation has been changed from WDV to Straight Line Method (SLM) from April 01, 2021 and accordingly depreciation is lesser and profit before tax is higher in the Special Purpose Combined Financial Statements by Rs. 763.69 lakhs and Rs. 18.71 lakhs for the year ended 31 March 2023 and 31 March 2022, respectively. W.e.f. April 01, 2023 RSIPPL has changed method of depreciation from WDV to SLM for the purpose of general purpose financial statements and hence no adjustment for the year ended 31 March 2024 has been done.

**47** The Sponsor has been classifying its business as composite warehouse and logistic solution providers and accordingly warehouse infrastructure has been treated as property, plant and equipment. On confirmation and transfer of assets to InvIT, the Group will examine the classification as investment property since under InvIT structure the provision for providing serveices will undergo change. However, this change in treatment if accorded will not impact the statement of profit and loss and will only change the classification and disclosures in the balance sheet.

**48** Current liabilities include Rs. 47,120.65 lakhs payable to Sponsor, which is expected to be settled out of proceeds of the Offer. Terms of settlement of this payable between the Sponsor and SPVs is payable on demand as and when there are surplus cashflows in the SPVs. In view of this, the Group does not expect liquidity constraints on account of this payable.

**49 Event after reporting date:**

There were no significant adjusting events that occurred subsequent to the reporting period other than the events disclosed in the relevant notes.

The accompanying notes are an integral part of these Special Purpose Combined Financial Statements

PKF SRIDHAR & SANTHANAM LLP is a registered Limited Liability Partnership with LLPIN AAB-6552 (REGISTRATION NO. WITH ICAI IS 003990S/S200018)

included in the Draft Placement Memorandum, Placement Memorandum and Final Placement Memorandum as required under the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014, as amended from time to time, including the circulars, notifications, clarifications and guidelines issued thereunder ("InvIT Regulations") in connection with the proposed initial private placement of units of the InvIT.

2. The preparation and presentation of Statement of Projections including basis of preparation and the underlying assumptions as set out in Note 2 and Note 3 to the Statement of Projections is the responsibility of the Investment Manager to the InvIT and has been approved by the Board of Directors of the Investment Manager to the InvIT. The Statement of Projections has been prepared by the Investment Manager using a set of assumptions that include hypothetical assumptions about future events, which are, by their nature, subject to significant risks and uncertainties. Consequently, users are cautioned that these projections may not be appropriate or meaningful for any purpose other than described above.

3. Our responsibility is to examine the evidence supporting the assumptions (excluding hypothetical assumptions) and other information in the Statement of Projections on test basis. Our responsibility does not include verification of the accuracy of the Statement of Projections (including quantitative details). Therefore, we do not vouch for the accuracy of the same. The assumptions and estimates (including technical estimates) used for the preparation of the Statement of Projections have been provided to us by the Investment Manager to the InvIT and have been relied upon by us.

4. We have examined the Statement of Projections taking into consideration:

   a. the terms of our engagement agreed with you as per our engagement letter requesting us to carry out work on the Statement of Projections, proposed to be included in the Draft Placement Memorandum, Placement Memorandum & Final Placement Memorandum; and

   b. Standard on Assurance Engagement 3400, "The Examination of Prospective Financial Information", issued by the Institute of Chartered Accountants of India.

5. Based on our examination of the evidence supporting the assumptions, nothing has come to our attention which causes us to believe that these assumptions do not provide a reasonable basis for the Statement of Projections. Further, in our opinion, the Statement of Projections, read together with the basis of preparation as set out in Note 2 to the Statement of Projections, is properly prepared on the basis of the assumptions as set out in Note 3 to the Statement of Projections and is on consistent basis with the accounting policies, to the extent applicable, used for preparation of the historical Special Purpose Combined Financial Statements of the Group and proposed to be included in the Draft Placement Memorandum, Placement Memorandum and Final Placement Memorandum which are prepared in accordance with Indian Accounting Standards prescribed under Section 133 of the Companies Act, 2013 read with the Companies (Indian Accounting Standards) Rules, 2015 except for Ind AS 33: Earning Per Share and in compliance with the requirements of Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014, as amended from time to time including the circulars, notifications, clarifications and guidelines issued thereunder ('InvIT Regulations') and Guidance note on Combined and Carve-out Financial Statements issued by the Institute of Chartered accountants of India.

6. Events and circumstances frequently do not occur as expected. Even if the events anticipated under the hypothetical assumptions described in the Statement of Projections occur, actual results are still likely to be different from those stated in the Statement of Projections since other anticipated events frequently do not occur as expected and the variation may be material. The actual results may therefore differ materially from those forecasted and projected. For the reasons set out above, we do not express any opinion as to the possibility of achievements of the projections stated in the Statement of Projections.

PKF SRIDHAR & SANTHANAM LLP Firm No 003990S/S200018 MUMBAI Chartered Accountants

7. This report is required by InvIT Regulations requiring the independent auditor to issue a report on the Statement of Projections and is issued for the sole purpose of the proposed initial private placement of units of the InvIT under the InvIT Regulations. Our work has not been carried out in accordance with auditing or other standards and practices generally accepted in jurisdictions outside India, including in the United States of America, and accordingly should not be relied upon as if it had been carried out in accordance with those standards and practices. US securities regulations do not require profit forecasts to be reported by a third party. This report should not be relied upon by prospective investors in the United States of America, including persons who are Qualified Institutional Buyers as defined under Rule 144A under the United States Securities Act of 1933, as amended participating in the offering. We accept no responsibility and deny any liability to any person who seeks to rely on this report and who may seek to make a claim in connection with any offering of securities on the basis that they had acted in reliance on such information under the protections afforded by United States of America law and regulation.

8. We have no responsibility to update our report for events and circumstances occurring after the date of the report.

9. This report is addressed to and is provided to enable the Investment Manager to include this report in the Draft Placement Memorandum, Placement Memorandum and Final Placement Memorandum in connection with the proposed private placement of units of InvIT and may not be meaningful for any other purpose.

TVS Infrastructure Investment Manager Private Limited

**TVS Infrastructure Trust**
**(All amounts are in Rs. Lakhs unless specified otherwise)**
**Notes to the Projection Information of TVS Infrastructure Trust**

**1) General Information**

TVS Infrastructure Trust (**"InvIT"**) was set up on March 26, 2024, as a contributory, determinate, irrevocable Infrastructure Investment Trust under the provision of the Indian Trusts Act, 1882. The InvIT was registered as an Infrastructure Investment Trust under the Securities Exchange Board of India (**"SEBI"**) (Infrastructure Investment Trust) Regulations, 2014, as amended read together with circulars and guidelines issued thereunder (the **"SEBI InvIT Regulations"**) on April 22, 2024, having registration number IN/InvIT/24-25/0030. The principal place of business of the InvIT is 9th Floor, Iconic Building, Urmi Estate, Ganpatrao Kadam Marg, Lower Parel West, Mumbai, Maharashtra, 400013.

TVS Industrial & Logistics Parks Private Limited (**"the Sponsor"**), Company, incorporated under the Companies Act, 1956, domiciled and headquartered at Iconic Building, Urmi Estate, 9th Floor, 95 Ganpatrao Kadam Marg, Lower Parel (West), Mumbai, Maharashtra, India - 400013.

The Trustee to the InvIT is Axis Trustee Services Limited (the **"Trustee"**) and the Investment Manager for the InvIT is TVS Infrastructure Investment Manager Private Limited (the **"Investment Manager"**).

The Investment Objectives of the InvIT shall be to carry on the activities of, and to make investments as, an InvIT, as permissible in terms of the InvIT Regulations. The investment of the InvIT shall be in any manner permissible under, and in accordance with, the InvIT Regulations and Applicable Law, including, in such Holding Companies and/or SPVs and/or infrastructure projects and/or securities in India as permitted under the InvIT Regulations and in accordance with the investment strategy as detailed in any Offer Document. The Trustee shall ensure that the InvIT Fund shall be utilised for Investment Objectives as stated above, in accorfance with InvIT Regulations and Applicable Law.

Under the share purchase agreements proposed to be entered amongst the Sponsors, the Trustee, the Investment Manager, and the relevant entities in the Group and their respective shareholders, InvIT shall acquire 100% of fully paid-up equity shares of each entity in the Group.

The Special Purpose combined financial information of the Proposed Group comprise of the projected revenue from operations and projected cash flows from operating activities of the Group comprising:

a. TVS Infrastructure Trust (**"InvIT"**)
b. Durgeshwari Industrial & Logistics Parks Private Limited (**"DILP"**)
c. Marudhamalai Industrial & Logistics Parks Private Limited (**"MILP"**)
d. Maragathammbal Industrial and Logistics Park Private Limited (**"MRILP"**)
e. Siruvapuri Murugan Industrial and Logistics Private Limited (**"SMILP"**)
f. Jagannath Industrial and Logistics Parks Private Limited (**"JGILP"**)
g. Sri Meenatchi Industrial & Logistics Parks Private Limited (**"SRMILP"**)
h.Tarkeshwar Industrial & Logistics Parks Private Limited (**"TILP"**)
i. Ramanujar Industrial and Logistics Parks Private Limited (**"RMILP"**)
j. Revanza Sullurpet Industrial Parks Private Limited (**"RSIPPL"**)
k. Presidency Barter Private Ltd (**"PBPL"**) Wholly owned subsidiary of MILP

(together referred to as **"the Group"**)

**2) Basis of preparation of Projection Information**

The statements of projection of revenue from operations and projection of cash flows from operating activities of the proposed Group as stated in Note 1 above and the Proposed Group for the financial years ending March 31, 2025, 2026 and 2027 along with the underlying assumptions and other explanatory information (the **"Projection Information"**) have been compiled by the Investment Manager solely for the purpose of inclusion in the Draft Placement Memorandum in connection with the proposed private placement of the units of the InvIt. Therefore, the Projection Information should not be used or relied upon for any purpose other than described above.

The Projection Information have been prepared based on the accounting policies used for preparation of the historical Special Purpose Combined Financial Statements of the Proposed Group as required by SEBI InvIT Regulations, which are prepared in accordance with accounting principles of Indian Accounting Standards (**"Ind AS"**) as defined in Rule 2(1)(a) of the Companies (Indian Accounting Standards) Rules, 2015, as amended prescribed under Section 133 of the Companies Act, 2013 read with SEBI InvIT Regulations and the Guidance Note on Combined and Carve- Out Financial Statements issued by the Institute of Chartered Accountants of India. Projected cash flow from operating activities have been calculated using the direct method under Ind AS 7 - Statement of Cash Flows and is computed by deducting the projected operating expenses and income taxes from the projected revenue from operations and adjusted for projected noncash expenses (if any). Projected cash flow from operating activities do not include any items pertaining to financing or investing in nature.

The Projection Information have been derived assuming post offer capital structure and corporate structure of the Group being in existence from 15th March 2025 and that the net proceeds will be infused in each entity of the Group to replace existing bank debts, Sponsor debts, and Unsecured loans and Advances.

The Projection Information are presented in Indian Rupees which is also the functional currency of the Proposed Group. All amounts are in lakhs rounded upto two decimals, unless otherwise stated.

The Proposed Group follows March 31st as its accounting year end. Accordingly, the Projection Information are prepared for the financial years ending March 31, 2025, March 31, 2026 and March 31, 2027 (**"Projections Period"**). However, the assumed date of acquisition 15th March 2025 may be postponed and accordingly, the actual result in the first financial period of the InvIT may be different from the Projections Period in the Projection Information.

It is clarified that the Projection Information have been prepared on the basis of combination of best- estimate (i.e. assumptions as to future events which are expected to take place and the actions expected to take place as of the date the information is prepared) and hypothetical assumptions (about future events and actions which may or may not necessarily take place).

TVS Infrastructure Investment Manager Private Limited

The Projection Information contain forecasts and projections that relate to future events including hypothetical assumptions, which are, by their nature, subject to significant risks and uncertainties. Events and circumstances may not occur as expected. Even if the events anticipated under the hypothetical assumptions described in the Projection Information occur, actual results are still likely to be different from those stated in the Projection Information since other anticipated events frequently do not occur as expected and the variation may be material. The actual results may therefore differ materially from those forecasted and projected.

These Projection Information has been adopted by the Board of Directors of the Investment Manager on 27th January 2025.

**3) Significant assumptions**

The Projection Information have been prepared based on the significant assumptions including hypothetical assumptions summarised below. The Investment Manager considers the assumptions to be appropriate and reasonable as at the date of the reporting. However, the investors should consider these assumptions as well as the Projection Information and make their own assessment of the future performance of the InvIT.

The Investment Manager has obtained reports from a third-party Real estate market expert (iVAS Partners) (**"Valuer"**) in assessment of the assumptions, market fundamentals, industry drivers and outlook amongst other things for the preparation of the Projection Information. The assumptions used in the Projection Information by the Investment Manager are substantially in line with the information and assumptions as per the analysis of Real Estate Consultant.

**(i) Revenue from Operations**

Our revenue from operations comprises of (a) Lease rentals and allied services income from leasing of InvIT Assets; and (b) income from maintenance services whereby

(a) Lease rentals and allied services income have been projected based on executed lease agreements where available and, in cases where agreements are not in place presently, based on prevailing market rates. Lease rentals have been escalated annually within a range of approximately 3% to 5%, in line with the leasing terms for the duration of the executed leases. Additionally, for the subsequent leasing tenure of five years following the expiry of the current lease term, a 10% escalation has been applied to the last month's rent of the expiring lease agreement. Further, the projections incorporate Ind AS guidelines, ensuring the appropriate accounting treatment of lease rental income, along with the charging of utility costs to customers at gross value. Furthermore, given the consistently high occupancy levels in recent periods, we anticipate this trend to persist throughout the projected period. Consequently, no provisions for vacancy have been factored into the forecasted revenues.

(b) Income from maintenance services:
Projected income from maintenance services has been calculated based on executed lease agreements, which explicitly outline common area maintenance charges at a specified rate. The escalation of maintenance service income has been aligned with the lease rental escalation, as stipulated in the agreements executed with customers.

**The summary of projections of revenue is given below:**

| Particulars | MILP | MRILP | SMILP | JGILP | SRMILP | TILP | DILP | RMILP | RSIPPL | PBPL |
|---|---|---|---|---|---|---|---|---|---|---|
| FY ending 31st March 2025 | 2,351.74 | 3,861.59 | 1,965.54 | 23.68 | 757.87 | 134.16 | 7,417.11 | 935.79 | 2,472.66 | 399.20 |
| FY ending 31st March 2026 | 2,336.89 | 4,191.24 | 2,405.09 | 1,433.80 | 990.35 | 2,160.72 | 7,811.03 | 1,921.38 | 3,969.35 | 415.25 |
| FY ending 31st March 2027 | 2,507.78 | 4,470.65 | 2,462.33 | 1,433.78 | 1,041.31 | 2,161.05 | 8,093.47 | 1,921.38 | 3,969.35 | 415.25 |

**(ii) Operating and maintenance cost**

Our expenses comprise the following: (a) Employees benefit expenses, (b) Property tax, (c) Insurance, (d) Brokerage, (e) Rates & Taxes, (f) Management fees, (g) Operating Expenses (including CSR expenses as applicable), and (h) Repairs expenses.

For projection purposes, FY 2025 estimates have been derived by combining actual expenses incurred during the first six months (April 2024 to September 2024) with estimated expenses for the remaining half of the fiscal year. Projections for FY 2026 and FY 2027 have been prepared based on the assumptions and details outlined herein.

For Projection of expenses, Employees benefit expenses has been considered at 1% of projected revenue while proporty tax has been considered based on previous year cost with escalation of 1% year on year. Similarily, Insurance and Repairs expenses has been considered based on previous year cost with escalation of 3% year on year. Brokerage cost of one and quater month of lease rental has been considered for new lease agreement entered during projected year which has been amortised over period of lease tenure.

Rates and taxes expense comprises of mainly Stamp duty cost, which has been considered at 0.5% of total lease rental for period of lease, post sharing of cost by customers in equal proportion. Management fees is projected fees payable to Project Manager as per Project Implementation and Management Agreement which is charged at cost plus mark-up of 10% on the Cost. All other site level and miscellaneous expenses, including utility expenses, site maintenance expenses and CSR expenses (as applicable), are clubbed under Operating Expenses.

**The summary of projections of operation and maintenance cost is given below:**

| FY ending 31st March 2025 | MILP | MRILP | SMILP | JGILP | SRMILP | TILP | DILP | RMILP | RSIPPL | PBPL |
|---|---|---|---|---|---|---|---|---|---|---|

**(iii) InvIT Expenses**

The InvIT expenses are mainly projected based on the terms and conditions of the relevant agreements and / or based on Management's experience, estimates and judgements.

**The summary of projections of InvIT expenses is given below:**

| Particulars | Mar-25 | Mar-26 | Mar-27 |
|---|---|---|---|
| Trustee Fees | 10.00 | 10.20 | 10.40 |
| Investment Management Fees* | 177.42 | 604.96 | 626.91 |
| Audit Fees | 20.00 | 22.00 | 24.20 |
| Credit Rating fee | 6.00 | 6.00 | 6.00 |
| Stock Exchange, SEBI & Depository Fee | 1.45 | 1.45 | 1.45 |
| Valuation fees | 5.00 | 5.50 | 6.05 |
| Total | 219.87 | 650.11 | 675.02 |

* Investment Management fees is projected fees payable to Investment Manager as per Investment Management Agreement which is charged at cost plus mark-up of 10% on the Cost.

**(iv) Taxes**

Current income tax is measured at the amount expected to be recovered from, or paid to, the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date in India where the Group operates and generates taxable income.

Each entity in the Group has adopted new tax regime under Income Tax regulations towards calculation of taxable income and tax liability. Further, each entity in the Group do have unabsorbed depreciation as per Income tax calculations and accordingly, we project no tax liability payable by the Proposed Group during Projection period except for PBPL for FY 2025, which will not have material impact overall.

The InvIT will receive interest and dividend income from each entity in the Group which is considered exempt under the Income Tax Act, 1961. Hence, no income tax expense/cash flow is assumed during the projection period (except income tax on treasury income). The transaction of receipt of interest income will be eliminated in the Consolidated Statement of Profit and Loss and in the Consolidated Statement of Cashflows.

The relevant tax exemptions, tax remissions, and preferential tax treatments granted remain valid and applicable and that the terms and conditions thereto are complied with.

**(v) Changes in working capital**

The entire rental collection is in cash and routine expenses are in cash or a credit period is available. In these cases, the effective working capital deployed is relatively small or negative in certain instances. Further we believe the working capital is stable and not expected to vary drastically over a period. Hence, changes in working capital are not significant and no impact of that has been considered in the projected cash flows.

**(vi) Other assumptions**

a) The initial portfolio of each entity in the Group remains unchanged through the Projection Period. Further, the Projections have been prepared assuming the proposed InvIT structure from 15th March 2025. The actual structure shall come into existence after the Initial private placement of

Units of the InvIT which may be before or after 15th March 2025.

b) No further assets are acquired or divested during the Projection Period.

c) It has been assumed that no outflow on account of any litigation related matters including current pending litigations/contingent liabilities is expected to become due during the Projection Period.

d) There will be no material change in taxation legislation or other applicable legislation.

e) The Projections are based on assumptions and are subject to several factors. Investors should be aware that future events, including actual rental growth rates, cannot be predicted with any certainty and there may be deviations from the figures projected in the Projection Information.

f) The Projections have been prepared based on the industry market reports for real estates growth rates.

g) The respective components of the Projections have been prepared using Ind AS standards and interpretations that are effective for the Ind AS financial statements for the year ended March 31, 2024. The Projections do not take into account the impact of any new Ind AS standard or interpretation not effective as at March 31, 2024. Ind AS standards or interpretations issued but not effective or not issued as at September 30, 2024 which may become effective during the Projections period may have an impact on the Projections and to that extent the actual figures may vary from the Projections.

**Proposed offering of units ("Units", and such offering, the "Offer") of the TVS Infrastructure Trust ("InvIT") under the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014**

Dear Sirs,

I am an independent architect, registered with the Council of Architecture under the Architects Act, 1972 (Membership Registration No. CA/2017/88464, a copy of the membership certificate is attached herewith as Annexure B). Further, Ihave been engaged to verify, examine, certify and report on warehousing facility at Chakan ("**Property**") which has been developed by **Durgeshwari Industrial & Logistics Parks Private Limited**.

I certify that the Property:

(i) is being, and can be, used for the purpose for which it has been constructed, in terms of the applicable regulations in respect of zoning or otherwise and the necessary approvals, licenses and permits, namely:

(i). No objection certificate for ground water abstraction dated January 29, 2021, issued by Central Ground Water Authority, Nagpur and corrigendum in no objection certificate for enhancement in ground water abstraction, dated July 22, 2024, issued by Regional Director, Central Region, Central Ground Water Board, Nagpur;

(ii). Consent to operate under Section 26 of the Water (Prevention & Control of Pollution) Act, 1974, Section 21 of the Air (Prevention & Control of Pollution) Act, 1981 and Rule 6 of the Hazardous

#13, Old no:19, 2nd floor, 2nd street, raghavendra colony, virugambakkam, Chennai - 92

and other Wastes (Management & Transboundary Movement) Rules, 2016, dated October 27, 2023, issued by Sub-regional office, Maharashtra Pollution Control Board;

(iii). Shops & Establishments License under Maharashtra Shops and Establishments (Regulations of Employment and Conditions of Service) Act, 2017, dated August 14, 2024, issued by Office of the Deputy Commissioner of labour, Pune;

(iv). Final fire no objection certificate under Maharashtra Fire Prevention and Life Safety Measures Act, 2006, dated August 19, 2017, issued by Chief Fire Officer, Pune Metropolitan Region Development Authority, Pune;

(v). No objection certificate for taking electricity connection and water connection, dated January 3, 2011, issued by Sarpanch, Gram Panchayat Mahalunge, Khed, Pune; and

(vi). Development permit and commencement certificate dated September 16, 2017, issued by Chief Executive Officer, Pune Metropolitan Region Development Authority ("**PMRDA**").

(ii) has the Site/ Plot Area, Built-up Area, Leasable Area, Other Area, Operational Area, Under Development Area, Floor Space Index Area, as on September 30, 2024, set forth in Annexure A.

(iii) has the start date of construction, completion date of construction/expected completion date of construction and the present status,, as set forth in Annexure A.

I further confirm that save and except the issues set forth against the Property in Annexure A, there are no other factors affecting the use of the Property and the utilization of the entire Leasable Area on or before the completion date of construction as set forth in Annexure A.

All capitalized terms used but not defined herein shall have the meaning given to such terms in the Draft Placement Memorandum, Placement Memorandum and Final Placement Memorandum ("**Offer Documents**"). For the purpose of this expert opinion, the terms listed below shall have the following meanings:

"**Achieved FSI Area**" means Built-up Area.

"**Balance FSI Area**" means the difference of Permissible FSI Area and Achieved FSI Area.

**"Built-up Area"** means Leasable Area for which construction of the Property has been completed and for which requisite approvals and certifications as may be required under applicable law for commencing operations has been received.

"**Committed Area**" means the area of the Property for which letters of intent, head of terms, agreement to lease or any other relevant document have been signed with potential clients.

"**Site/ Plot Area**" means the total extent of the land over which the Property is situated.

"**Floor Space Index (FSI) Area**" means the quotient of the ratio of the combined gross covered area (plinth area) on all floors, except areas specifically exempted under the applicable law, to the Plot Area.

"**Permissible FSI Area**" means the FSI Area where construction on the Property is permitted under applicable law.

"**Leasable Area**" means the total area of the Property that can be occupied by or assigned to a tenant for the purpose of determining a tenant's rental obligation.

"**Other Area**" means Leasable Area of the Property which has been leased out at least once and for which no approvals for operationalization are required under applicable law;

#13, Old no:19, 2nd floor, 2nd street, raghavendra colony, virugambakkam, Chennai - 92
mobile 9941817252 | 8220332157 | 8939334142 Mail - office@ateliernord.in

**"Operational Area"** means Leasable Area of the Property which has been leased out at least once and includes (i) Built-up Area and (ii) Other Area;

**"Under Development Area"** means Leasable Area within a Property which is yet to be operationalized, including committed area, and for which relevant approvals for the purpose of commencing construction have been received or have been applied for.

I confirm that I am an independent architect and am in no way connected with the Company, the InvIT, or any of the Parties to the InvIT or the Lead Managers. I further confirm that I am not related in any manner to the promoters or directors of the Company.

Further, I confirm that I have not been engaged or been interested in the formation or promotion or in the management of the Company.

I hereby confirm that this certificate and the information contained herein are based on scrutiny of Occupation/Completion Certificates/Building sanction plan/Relevant Property tax/other relevant documents issued by relevant authorities as well as survey of the Property. No detailed re-measurement was conducted of the buildings. Based on this, the information contained herein neither contain any untrue statement of a material fact nor omit to state any material fact necessary in order to make the statements herein. This certificate can also be relied upon by the Lead Manager(s) and the legal advisors in relation to the proposed Offer and for the purpose of any defence that the Lead Manager(s) may wish to advance in any claim or proceeding in connection with the contents of the Offer Documents.

I hereby consent to the extract of this certificate being used in any document prepared in connection with the Offer (including the Offer Documents (and international wraps to the Offer Documents for offering of Units outside India), or any presentation, research reports, publicity material, press release, or other documentation being issued in connection with the Offer Documents).

I hereby consent to our name being disclosed as an expert (as described under Section 2(38) of the Companies Act, 2013) and the details specified below being included in the Offer Documents to be issued by the InvIT and filed with the Securities and Exchange Board of India (the "**SEBI**"), the BSE Limited (the "**BSE**"), the National Stock Exchange of India Limited (the "**NSE**") and any other regulatory authority, if required, for the aforesaid Offer, subsequent amendments thereto and, any presentations or releases and additional documents.

**Proposed offering of units ("Units", and such offering, the "Offer") of the TVS Infrastructure Trust ("InvIT") under the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014**

Dear Sirs,

I am an independent architect, registered with the Council of Architecture under the Architects Act, 1972 (Membership Registration No. CA/2017/88464, a copy of the membership certificate is attached herewith as Annexure B). Further, I have been engaged to verify, examine, certify and report on warehousing facility at Singadivakkam ("**Property**"), which has been developed by **Durgeshwari Industrial & Logistics Parks Private Limited**.

I certify that the Property:

(i) is being, and can be, used for the purpose for which it has been constructed, in terms of the applicable regulations in respect of zoning or otherwise and the necessary approvals, licenses and permits namely.

(i). Consent to establish under Section 25 of the Water (Prevention and Control of Pollution) Act, 1974, dated September 8, 2021, issued by District Environmental Engineer, Tamil Nadu Pollution Control Board, Sriperumbudur;

#13, Old no:19, 2nd floor, 2nd street, raghavendra colony, virugambakkam, Chennai - 92
mobile 9941817252 | 8220332157 | 8939334142 Mail - office@ateliernord.in

(ii). Consent to establish under Section 21 of the Air (Prevention and Control of Pollution) Act, 1981, dated September 8, 2021, issued by District Environmental Engineer, Tamil Nadu Pollution Control Board, Sriperumbudur;

(iii). Consent to operate under Section 21 of the Air (Prevention and Control of Pollution) Act, 1981, dated August 27, 2022, issued by District Environmental Engineer, Tamil Nadu Pollution Control Board, Sriperumbudur;

(iv). Consent to operate under Section 25 of the Water (Prevention and Control of Pollution) Act, 1974, dated August 27, 2022, issued by District Environmental Engineer, Tamil Nadu Pollution Control Board, Sriperumbudur;

(v). Panchayat approval letter dated September 28, 2018, and June 14, 2022, issued by Commissioner, Walajabad Panchayat Union and;

(vi). No objection certificate for drawal of groundwater, dated November 23, 2023, and May 17, 2023, issued by Chief Engineer, State Ground & Surface Water Resources Data Centre, Chennai;

(vii). No objection certificate for formation of approach road, dated July 29, 2016, issued by Zonal Engineer (H) (C&M), Chengalpattu;

(viii). Fire no objection certificate dated March 14, 2016, and July 16, 2021, issued by District Officer, Fire & Rescue Services, Kanchipuram;

(ix). Registration certificate of establishment under Section 3 of the Tamil Nadu Industrial Establishments (National, Festival and Special Holidays) Act, 1958, dated December 18, 2023, issued by Assistant Inspector of Labour, Kancheepuram; and

(x). Plan Approval dated July 26, 2018, and May 11, 2022, issued by Zonal Deputy Director of Town Planning, Chengalpattu and Deputy Director, District Town Planning Office, Kancheepuram, respectively.

(ii) Has the Site/ Plot Area, Built-up Area, Leasable Area, Other Area, Operational Area, Under Development Area, Floor Space Index Area, as on 30th September 2024, set forth in Annexure A.

(iii) Has the start date of construction, completion date of construction and the present status as set forth in Annexure A.

I further confirm that save and except the issues set forth against the Property in Annexure A, there are no other factors affecting the use of the Property and the utilization of the entire Leasable Area on or before the completion date of construction as set forth in Annexure A.

All capitalized terms used but not defined herein shall have the meaning given to such terms in the Draft Placement Memorandum, Placement Memorandum and Final Placement Memorandum ("**Offer Documents**"). For the purpose of this expert opinion, the terms listed below shall have the following meanings:

"**Achieved FSI Area**" means Built-up Area.

"**Balance FSI Area**" means the difference of Permissible FSI Area and Achieved FSI Area.

**"Built-up Area"** means Leasable Area for which construction of the Property has been completed and for which requisite approvals and certifications as may be required under applicable law for commencing operations has been received.

"**Committed Area**" means the area of the Property for which letters of intent, head of terms, agreement to lease or any other relevant document have been signed with potential clients.

"**Site/ Plot Area**" means the total extent of the land over which the Property is situated.

#13, Old no:19, 2nd floor, 2nd street, raghavendra colony, virugambakkam, Chennai - 92
mobile 9941817252 | 8220332157 | 8939334142 Mail - office@ateliernord.in

"**Floor Space Index (FSI) Area**" means the quotient of the ratio of the combined gross covered area (plinth area) on all floors, except areas specifically exempted under the applicable law, to the Plot Area.

"**Permissible FSI Area**" means the FSI Area where construction on the Property is permitted under applicable law.

"**Leasable Area**" means the total area of the Property that can be occupied by or assigned to a tenant for the purpose of determining a tenant's rental obligation.

"**Other Area**" means Leasable Area of the Property which has been leased out at least once and for which no approvals for operationalization are required under applicable law;

**"Operational Area"** means Leasable Area of the Property which has been leased out at least once and includes (i) Built-up Area and (ii) Other Area;

**"Under Development Area"** means Leasable Area within a Property which is yet to be operationalized, including committed area, and for which relevant approvals for the purpose of commencing construction have been received or have been applied for.

I confirm that I am an independent architect and am in no way connected with the Company, the InvIT, or any of the Parties to the InvIT or the Lead Managers. I further confirm that I am not related in any manner to the promoters or directors of the Company.

Further, I confirm that I have not been engaged or been interested in the formation or promotion or in the management of the Company.

I hereby confirm that this certificate and the information contained herein are based on scrutiny of Occupation/Completion Certificates/Building sanction plan/Relevant Property tax/other relevant documents issued by relevant authorities as well as survey of the Property. No detailed re-measurement was conducted of the buildings. Based on this, the information contained herein neither contain any untrue statement of a material fact nor omit to state any material fact necessary in order to make the statements herein. This certificate can also be relied upon by the Lead Manager(s) and the legal advisors in relation to the proposed Offer and for the purpose of any defence that the Lead Manager(s) may wish to advance in any claim or proceeding in connection with the contents of the Offer Documents.

I hereby consent to the extract of this certificate being used in any document prepared in connection with the Offer (including the Offer Documents (and international wraps to the Offer Documents for offering of Units outside India), or any presentation, research reports, publicity material, press release, or other documentation being issued in connection with the Offer Documents).

I hereby consent to our name being disclosed as an expert (as described under Section 2(38) of the Companies Act, 2013) and the details specified below being included in the Offer Documents to be issued by the InvIT and filed with the Securities and Exchange Board of India (the "**SEBI**"), the BSE Limited (the "**BSE**"), the National Stock Exchange of India Limited (the "**NSE**") and any other regulatory authority, if required, for the aforesaid Offer, subsequent amendments thereto and, any presentations or releases and additional documents.

**Proposed offering of units ("Units", and such offering, the "Offer") of the TVS Infrastructure Trust ("InvIT") under the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014**

Dear Sirs,

I am an independent architect, registered with the Council of Architecture under the Architects Act, 1972 (Membership Registration No. CA/2017/88464, a copy of the membership certificate is attached herewith as Annexure B). Further, I have been engaged to verify, examine, certify and report on warehousing facility at Coimbatore ("**Property**") which has been partially developed and is partially being developed by **Durgeshwari Industrial & Logistics Parks Private Limited.**

I certify that the Property:

(i) is being, and can be, used for the purpose for which it has been constructed/ being constructed, in terms of the applicable regulations in respect of zoning or otherwise and the necessary approvals, licenses and permits namely.

(i). Approval from Panchayat dated November 28, 2022, issued by the President, Selakkaraichal Panchayat.;

#13, Old no:19, 2nd floor, 2nd street, raghavendra colony, virugambakkam, Chennai - 92
mobile 9941817252 | 8220332157 | 8939334142 Mail - office@ateliernord.in

(ii). Consent to establish under Section 21 of the Air (Prevention and Control of Pollution) Act, 1981, dated June 24, 2022, issued by District Environmental Engineer, Tamil Nadu Pollution Control Board, Coimbatore;

(iii). Consent to establish under Section 25 of the Water (Prevention and Control of Pollution) Act, 1974, dated June 24, 2022, issued by District Environmental Engineer, Tamil Nadu Pollution Control Board, Coimbatore;

(iv). Consent to operate under Section 25 of the Water (Prevention and Control of Pollution) Act, 1974, dated July 3, 2023, issued by District Environmental Engineer, Tamil Nadu Pollution Control Board, Coimbatore;

(v). Consent to operate under Section 21 of the Air (Prevention and Control of Pollution) Act, 1981, dated July 3, 2023, issued by District Environmental Engineer, Tamil Nadu Pollution Control Board, Coimbatore;

(vi). No objection certificate dated April 13, 2022, and October 20, 2022, issued by Tahsildar Sulur;

(vii). No objection certificate for drawal of groundwater, dated March 7, 2022, issued by Chief Engineer, State Ground & Surface Water Resources Data Centre, Chennai;

(viii). Fire license under Section 13 of the Tamil Nadu Fire Service Act, 1985, dated May 21, 2024, issued by District Officer, Fire and Rescue Services, Coimbatore;

(ix). Public health sanitary certificate dated December 2, 2023, issued by Deputy Director of Health Services, Coimbatore;

(x). No objection certificate from Department of Public Health and Preventive Medicine dated June 30, 2022, issued by Deputy Director of Health Services, Coimbatore; and

(xi). Plan approval dated September 6, 2021, issued by Joint Director, Town and Country Planning Office, Coimbatore.

(ii) has the Site/ Plot Area, Built-up Area, Leasable Area, Other Area, Operational Area, Under Development Area, Floor Space Index Area as on September 30, 2024 set forth in Annexure A.

(iii) has the start date of construction, completion date of construction/expected completion date of construction and the present status, as set forth in Annexure A.

I further confirm that save and except the issues set forth against the Property in Annexure A, there are no other factors affecting the use of the Property and the utilization of the entire Leasable Area on or before the completion date of construction or expected completion date of the construction, as applicable as set forth in Annexure A.

All capitalized terms used but not defined herein shall have the meaning given to such terms in the Draft Placement Memorandum, Placement Memorandum and Final Placement Memorandum ("**Offer Documents**"). For the purpose of this expert opinion, the terms listed below shall have the following meanings:

"**Achieved FSI Area**" means Built-up Area.

"**Balance FSI Area**" means the difference of Permissible FSI Area and Achieved FSI Area.

**"Built-up Area"** means Leasable Area for which construction of the Property has been completed and for which requisite approvals and certifications as may be required under applicable law for commencing operations has been received.

"**Committed Area**" means the area of the Property for which letters of intent, head of terms, agreement to lease or any other relevant document have been signed with potential clients.

#13, Old no:19, 2nd floor, 2nd street, raghavendra colony, virugambakkam, Chennai - 92
mobile 9941817252 | 8220332157 | 8939334142 Mail - office@ateliernord.in

"**Site/ Plot Area**" means the total extent of the land over which the Property is situated.

"**Floor Space Index (FSI) Area**" means the quotient of the ratio of the combined gross covered area (plinth area) on all floors, except areas specifically exempted under the applicable law, to the Plot Area.

"**Permissible FSI Area**" means the FSI Area where construction on the Property is permitted under applicable law.

"**Leasable Area**" means the total area of the Property that can be occupied by or assigned to a tenant for the purpose of determining a tenant's rental obligation.

"**Other Area**" means Leasable Area of the Property which has been leased out at least once and for which no approvals for operationalization are required under applicable law;

**"Operational Area"** means Leasable Area of the Property which has been leased out at least once and includes (i) Built-up Area and (ii) Other Area;

**"Under Development Area"** means Leasable Area within a Property which is yet to be operationalized, including committed area, and for which relevant approvals for the purpose of commencing construction have been received or have been applied for.

I confirm that I am an independent architect and am in no way connected with the Company, the InvIT, or any of the Parties to the InvIT or the Lead Managers. I further confirm that I am not related in any manner to the promoters or directors of the Company.

Further, I confirm that I have not been engaged or been interested in the formation or promotion or in the management of the Company.

I hereby confirm that this certificate and the information contained herein are based on scrutiny of Occupation/Completion Certificates/Building sanction plan/Relevant Property tax/other relevant documents issued by relevant authorities as well as survey of the Property. No detailed re-measurement was conducted of the buildings. Based on this, the information contained herein neither contain any untrue statement of a material fact nor omit to state any material fact necessary in order to make the statements herein. This certificate can also be relied upon by the Lead Managers and the legal advisors in relation to the proposed Offer and for the purpose of any defence that the Lead Managers may wish to advance in any claim or proceeding in connection with the contents of the Offer Documents.

I hereby consent to the extract of this certificate being used in any document prepared in connection with the Issue (including the Offer Documents (and international wraps to the Offer Documents for offering of Units outside India), or any presentation, research reports, publicity material, press release, or other documentation being issued in connection with the Offer Documents).

I hereby consent to our name being disclosed as an expert (as described under Section 2(38) of the Companies Act, 2013) and the details specified below being included in the Offer Documents to be issued by the InvIT and filed with the Securities and Exchange Board of India (the "**SEBI**"), the BSE Limited (the "**BSE**"), the National Stock Exchange of India Limited (the "**NSE**") and any other regulatory authority, if required, for the aforesaid Offer, subsequent amendments thereto and, any presentations or releases and additional documents.

**Proposed offering of units ("Units", and such offering, the "Offer") of the TVS Infrastructure Trust ("InvIT") under the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014**

Dear Sirs,

I am an independent architect, registered with the Council of Architecture under the Architects Act, 1972 (Membership Registration No. CA/2017/88464, a copy of the membership certificate is attached herewith as Annexure B). Further, I have been engaged to verify, examine, certify and report on warehousing facility at Sullurpet ("**Property**"), which has been partially developed and is being partially developed by **Revanza Sullurpet Industrial Parks Private Limited**.

I certify that the Property:

(i) is being, and can be, used for the purpose for which it is being constructed , in terms of the applicable regulations in respect of zoning or otherwise and the necessary approvals, licenses and permits namely:

(i). Provisional fire no objection certificate for construction of building, dated December 23, 2021, and September 11, 2023, issued by Director General, State Disaster Response and Fire Services, Vijayawada, Andhra Pradesh;

(ii). No objection certificate for drawal of groundwater for domestic greenery purposes, dated March 9,

#13, Old no:19, 2nd floor, 2nd street, raghavendra colony, virugambakkam, Chennai - 92
mobile 9941817252 | 8220332157 | 8939334142 Mail - office@ateliernord.in

2022, issued by Deputy Director, Groundwater and Water Audit Department, Nellore;

(iii). Building permit orders dated July 3, 2021, and January 31, 2023, issued by Vice Chairman, Nellore Urban Development Authority;

(iv). Certificate of registration under Contract Labour (Regulation and Abolition) Act, 1970, dated August 5, 2024, issued by DCL, Tirupati;

(v). Certificate of registration under Inter-State Migrant Workmen (Regulation of Employment and Conditions of Service) Act, 1979, dated August 5, 2024, issued by DCL, Tirupati;

(vi). Certificate of registration of establishment under Building and Other Construction Workers (Regulation of Employment and Conditions of Service) Act, 1996, dated July 1, 2024, issued by JCL, Kurnool; and

(vii). No objection certificate for access road, dated July 6, 2023, issued by Commissioner, Sullurpet Municipality;

(ii) has the Site/ Plot Area, Built-up Area, Leasable Area, Other Area, Operational Area, Under Development Area, Floor Space Index Area, as on September 30, 2024, set forth in Annexure A.

(iii) has the start date of construction, completion date of construction/expected completion date of construction and the present status, as set forth in Annexure A.

I further confirm that save and except the issues set forth against the Property in Annexure A, there are no other factors affecting the use of the Property and the utilization of the entire Leasable Area on or before the completion date of construction (or expected completion date of the construction) as set forth in Annexure A.

All capitalized terms used but not defined herein shall have the meaning given to such terms in the Draft Placement Memorandum, Placement Memorandum and Final Placement Memorandum ("**Offer Documents**"). For the purpose of this expert opinion, the terms listed below shall have the following meanings:

"**Achieved FSI Area**" means Built-up Area.

"**Balance FSI Area**" means the difference of Permissible FSI Area and Achieved FSI Area.

**"Built-up Area"** means Leasable Area for which construction of the Property has been completed and for which requisite approvals and certifications as may be required under applicable law for commencing operations has been received.

"**Committed Area**" means the area of the Property for which letters of intent, head of terms, agreement to lease or any other relevant document have been signed with potential clients.

"**Site/ Plot Area**" means the total extent of the land over which the Property is situated.

"**Floor Space Index (FSI) Area**" means the quotient of the ratio of the combined gross covered area (plinth area) on all floors, except areas specifically exempted under the applicable law, to the Plot Area.

"**Permissible FSI Area**" means the FSI Area where construction on the Property is permitted under applicable law.

"**Leasable Area**" means the total area of the Property that can be occupied by or assigned to a tenant for the purpose of determining a tenant's rental obligation.

"**Other Area**" means Leasable Area of the Property which has been leased out at least once and for which no approvals for operationalization are required under applicable law;

#13, Old no:19, 2nd floor, 2nd street, raghavendra colony, virugambakkam, Chennai - 92
mobile 9941817252 | 8220332157 | 8939334142 Mail - office@ateliernord.in

**"Operational Area"** means Leasable Area of the Property which has been leased out at least once and includes (i) Built-up Area and (ii) Other Area;

**"Under Development Area"** means Leasable Area within a Property which is yet to be operationalized, including committed area, and for which relevant approvals for the purpose of commencing construction have been received or have been applied for.

I confirm that I am an independent architect and I am in no way connected with the Company, the InvIT, or any of the Parties to the InvIT or the Lead Managers. I further confirm that I am not related in any manner to the promoters or directors of the Company.

Further, I confirm that I have not been engaged or been interested in the formation or promotion or in the management of the Company.

I hereby confirm that this certificate and the information contained herein are based on scrutiny of Occupation/Completion Certificates/Building sanction plan/Relevant Property tax/other relevant documents issued by relevant authorities as well as survey of the Property. No detailed re-measurement was conducted of the buildings. Based on this, the information contained herein neither contain any untrue statement of a material fact nor omit to state any material fact necessary in order to make the statements herein. This certificate can also be relied upon by the Lead Manager(s) and the legal advisors in relation to the proposed Offer and for the purpose of any defence that the Lead Manager(s) may wish to advance in any claim or proceeding in connection with the contents of the Offer Documents.

I hereby consent to the extract of this certificate being used in any document prepared in connection with the Offer (including the Offer Documents (and international wraps to the Offer Documents for offering of Units outside India), or any presentation, research reports, publicity material, press release, or other documentation being issued in connection with the Offer Documents).

I hereby consent to our name being disclosed as an expert (as described under Section 2(38) of the Companies Act, 2013) and the details specified below being included in the Offer Documents to be issued by the InvIT and filed with the Securities and Exchange Board of India (the "**SEBI**"), the BSE Limited (the "**BSE**"), the National Stock Exchange of India Limited (the "**NSE**") and any other regulatory authority, if required, for the aforesaid Offer, subsequent amendments thereto and, any presentations or releases and additional documents.

**Name** : Karthikeyan K
**Address** : 13, 2nd floor, 2nd street, Chinmaya Nagar Stage 2, Raghavendra colony, Virugambakkam, Chennai- 600092. Phone: +91 8220332157
**Email Address** : office@ateliernord.in
**Website** : www.ateliernord.in
**Contact Person** : Karthikeyan K

This certificate may be produced in any actual/ potential proceeding or actual/ potential dispute relation to/ connected with the Offer Documents or otherwise.

I also consent to the inclusion of this certificate and the information contained herein, in the Offer Documents proposed to be issued and filed with the SEBI, BSE, NSE and any other regulatory authority, if required in connection with the Offer, or any subsequent amendments thereto and, any presentations or releases and additional documents.

Yours Sincerely,

ATELIER NORD Chennai 600 010 03/02/25

**Proposed offering of units ("Units", and such offering, the "Offer") of the TVS Infrastructure Trust ("InvIT") under the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014**

Dear Sirs,

I am an independent architect, registered with the Council of Architecture under the Architects Act, 1972 (Membership Registration No. CA/2017/88464, a copy of the membership certificate is attached herewith as Annexure B). Further, I have been engaged to verify, examine, certify and report on warehousing facility at Vijayawada ("**Property**") which is being developed by **Tarkeshwar Industrial & Logistics Parks Private Limited**.

I certify that the Property:

(i) is being, and can be, used for the purpose for which it is being constructed in terms of the applicable regulations in respect of zoning or otherwise and the necessary approvals, licenses and permits namely.

(i). Consent to establish under Section 21 of the Air (Prevention and Control of Pollution) Act, 1981 and Section 25 of Water (Prevention and Control of Pollution) Act, 1974, dated July 3, 2023, issued by Joint Chief Environmental Engineer, Zonal Office, Vijayawada;

(ii). Consent to operate under Section 25 and 26 of the Water (Prevention and Control of Pollution) Act,

#13, Old no:19, 2nd floor, 2nd street, raghavendra colony, virugambakkam, Chennai - 92
mobile 9941817252 | 8220332157 | 8939334142 Mail - office@ateliernord.in

1974, Section 21 of the Air (Prevention and Control of Pollution) Act, 1981 and Rule 6 of the Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016, dated October 25, 2024 issued by Joint Chief Environmental Engineer, Andhra Pradesh Pollution Control Board, Zonal Office, Vijayawada

(iii). Provisional fire no objection certificate for construction dated June 28, 2023, issued by Director General, State Disaster Response & Fire Services, Andhra Pradesh, Vijayawada;

(iv). No objection certificate for drawal of groundwater dated June 19, 2023, issued by District Ground Water Officer, Ground Water and Water Audit Department, Machilipatnam, Krishna;

(v). No objection certificate for occupancy dated April 18, 2024, issued by Director General, State Disaster Response & Fire Services, Vijayawada;

(vi). Permission to widen the road stretch from single lane to multi lane, dated January 9, 2024, issued by Executive Engineer (R&B), Machilipatnam;

(vii). Certificate of registration of establishment under Section 2(d) and Section 4(2) of the Andhra Pradesh (Issuance of Integrated Registration and Furnishing of Combined returns under various labour laws by certain Establishments) Act, 2015, dated April 27, 2023, issued by DCL Krishna;

(viii). Certificate of registration of establishment under Section 2(d) and Section 4(2) of the Andhra Pradesh (Issuance of Integrated Registration and Furnishing of Combined returns under various labour laws by certain Establishments) Act, 2015, dated April 27, 2023, issued by JCL Eluru;

(ix). Occupancy certificate dated September 13, 2024, issued by Commissioner, Andhra Pradesh Capital Region Development Authority;

(x). Certificate of registration of establishment under Section 2(d) and Section 4(2) of the Andhra Pradesh (Issuance of Integrated Registration and Furnishing of Combined returns under various labour laws by certain Establishments) Act, 2015, dated April 27, 2023, issued by JCL Eluru; and

(xi). Building permit order dated June July 31, 2023, issued by Commissioner, Andhra Pradesh Capital Region Development Authority.

(ii) has the Site/ Plot Area, Built-up Area, Leasable Area, Other Area, Operational Area, Under Development Area, Floor Space Index Area, as on September 30, 2024, set forth in Annexure A.

(iii) has the start date of construction, completion date of construction/expected completion date of construction and the present status as set forth in Annexure A.

I further confirm that save and except the issues set forth against the Property in Annexure A, there are no other factors affecting the use of the Property and the utilization of the entire Leasable Area on or before the expected completion date of the construction as set forth in Annexure A.

All capitalized terms used but not defined herein shall have the meaning given to such terms in the Draft Placement Memorandum, Placement Memorandum and Final Placement Memorandum ("**Offer Documents**"). For the purpose of this expert opinion, the terms listed below shall have the following meanings:

"**Achieved FSI Area**" means Built-up Area.

"**Balance FSI Area**" means the difference of Permissible FSI Area and Achieved FSI Area.

**Proposed offering of units ("Units", and such offering, the "Offer") of the TVS Infrastructure Trust ("InvIT") under the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014**

Dear Sirs,

I am an independent architects, registered with the Council of Architecture under the Architects Act, 1972 (Membership Registration No. CA/2017/88464, a copy of the membership certificate is attached herewith as Annexure B). Further, I have been engaged to verify, examine, certify and report on warehousing facility at Cuttack I ("**Property**") which is being developed by **Jagannath Industrial & Logistics Parks Private Limited**.

I certify that the Property:

(i) is being, and can be, used for the purpose for which it is being constructed, in terms of the applicable regulations in respect of zoning or otherwise and the necessary approvals, licenses and permits, namely:

(i). Consent to Establish under Section 25 of Water (Prevention & Control of Pollution) Act, 1974 and Section 21 of Air (Prevention & Control of Pollution) Act, 1981, dated May 3, 2024, issued by Regional Officer, State Pollution Control Board, Odisha;

#13, Old no:19, 2nd floor, 2nd street, raghavendra colony, virugambakkam, Chennai - 92
mobile 9941817252 | 8220332157 | 8939334142 Mail - office@ateliernord.in

(ii). No objection certificate for ground water abstraction dated April 23, 2024, issued by Member – Secretary, Central Ground Water Authority, New Delhi;

(iii). Registration certificate under Section 7(2) of the Contract Labour (Regulation and Abolition) Act, 1970, dated April 10, 2024, issued by District Labour Officer, Cuttack;

(iv). Registration certificate under Section 7(3) of the Building and Other Construction Workers (Regulation of Employment and Conditions of Services) Act, 1996, dated April 10, 2024, issued by District Labour Officer–cum–Licensing Officer under B&OCW Act, District Labour Office Cuttack;

(v). Registration certificate under Section 4(2)(a) of the Inter State Migrant Workmen (Regulation of Employment and Conditions of Services) Act, 1979, dated April 10, 2024, issued by Registering Officer –cum– District Labour Officer, Cuttack; and

(vi). Fire safety recommendation dated March 8, 2024, issued by Deputy Fire Officer, Cuttack circle.

(ii) has the Site/ Plot Area, Built-up Area, Leasable Area, Other Area, Operational Area, Under Development Area, Floor Space Index Area, as on September 30, 2024 set forth in Annexure A.

(iii) has the start date of construction, completion date of construction/expected completion date of construction and the present status, as set forth in Annexure A.

I further confirm that save and except the issues set forth against the Property in Annexure A, there are no other factors affecting the use of the Property and the utilization of the entire Leasable Area on or before the expected completion date of the construction as set forth in Annexure A.

All capitalized terms used but not defined herein shall have the meaning given to such terms in the Draft Placement Memorandum, Placement Memorandum and Final Placement Memorandum ("**Offer Documents**"). For the purpose of this expert opinion, the terms listed below shall have the following meanings:

"**Achieved FSI Area**" means Built-up Area.

"**Balance FSI Area**" means the difference of Permissible FSI Area and Achieved FSI Area.

**"Built-up Area"** means Leasable Area for which construction of the Property has been completed and for which requisite approvals and certifications as may be required under applicable law for commencing operations has been received.

"**Committed Area**" means the area of the Property for which letters of intent, head of terms, agreement to lease or any other relevant document have been signed with potential clients.

"**Site/ Plot Area**" means the total extent of the land over which the Property is situated.

"**Floor Space Index (FSI) Area**" means the quotient of the ratio of the combined gross covered area (plinth area) on all floors, except areas specifically exempted under the applicable law, to the Plot Area.

"**Permissible FSI Area**" means the FSI Area where construction on the Property is permitted under applicable law.

"**Leasable Area**" means the total area of the Property that can be occupied by or assigned to a tenant for the purpose of determining a tenant's rental obligation.

"**Other Area**" means Leasable Area of the Property which has been leased out at least once and for which no approvals for operationalization are required under applicable law;

#13, Old no:19, 2nd floor, 2nd street, raghavendra colony, virugambakkam, Chennai - 92
mobile 9941817252 | 8220332157 | 8939334142 Mail - office@ateliernord.in

**"Operational Area"** means Leasable Area of the Property which has been leased out at least once and includes (i) Built-up Area and (ii) Other Area;

**"Under Development Area"** means Leasable Area within a Property which is yet to be operationalized, including committed area, and for which relevant approvals for the purpose of commencing construction have been received or have been applied for.

I confirm that I am an independent architect and am in no way connected with the Company, the InvIT, or any of the Parties to the InvIT or the Lead Managers. I further confirm that I am not related in any manner to the promoters or directors of the Company.

Further, I confirm that I have not been engaged or been interested in the formation or promotion or in the management of the Company.

I hereby confirm that this certificate and the information contained herein are based on scrutiny of Occupation/Completion Certificates/Building sanction plan/Relevant Property tax/other relevant documents issued by relevant authorities as well as survey of the Property. No detailed re-measurement was conducted of the buildings. Based on this, the information contained herein neither contain any untrue statement of a material fact nor omit to state any material fact necessary in order to make the statements herein. This certificate can also be relied upon by the Lead Managers and the legal advisors in relation to the proposed Offer and for the purpose of any defence that the Lead Managers may wish to advance in any claim or proceeding in connection with the contents of the Offer Documents.

I hereby consent to the extract of this certificate being used in any document prepared in connection with the Offer (including the Offer Documents (and international wraps to the Offer Documents for offering of Units outside India), or any presentation, research reports, publicity material, press release, or other documentation being issued in connection with the Offer Documents).

I hereby consent to our name being disclosed as an expert (as described under Section 2(38) of the Companies Act, 2013) and the details specified below being included in the Offer Documents to be issued by the InvIT and filed with the Securities and Exchange Board of India (the "**SEBI**"), the BSE Limited (the "**BSE**"), the National Stock Exchange of India Limited (the "**NSE**") and any other regulatory authority, if required, for the aforesaid Offer, subsequent amendments thereto and, any presentations or releases and additional documents.

**Name** : Karthikeyan K
**Address** : 13, 2nd floor, 2nd street, Chinmaya Nagar Stage 2, Raghavendra colony, Virugambakkam, Chennai- 600092. Phone: +91 8220332157
**Email Address** : office@ateliernord.in
**Website** : www.ateliernord.in
**Contact Person** : Karthikeyan K

This certificate may be produced in any actual/ potential proceeding or actual/ potential dispute relation to/ connected with the Offer Documents or otherwise.

I also consent to the inclusion of this certificate and the information contained herein, in the Offer Documents proposed to be issued and filed with the SEBI, BSE, NSE and any other regulatory authority, if required in connection with the Offer, or any subsequent amendments thereto and, any presentations or releases and additional documents.

Yours Sincerely,

ATELIER NORD Chennai 600 017
