6	Category as per SEBI Categorisation Circular	Arbitrage Fund
7	Potential Risk Class Matrix (as on date)	Not applicable
8	Description, Objective of the Scheme	The investment objective of the scheme is to generate capital appreciation and income by predominantly investing in arbitrage opportunities in the cash and derivatives segment of the equity market, and by investing the balance in debt and money market instruments. However, there is no assurance that the Investment Objective of the scheme will be achieved.
9	Stated Asset Allocation	<p>Equity and Equity related instruments (as part of hedged / arbitrage exposure)*: 65% - 90% of net assets; Debt and Money Market Instruments including margin money deployed for derivatives transactions: 10%-35% of net assets; Units issued by REITs and InvITs: 0% to 10% of net assets.</p> <p>*Equity allocation so built, at any point in time, would be completely hedged out, using derivative instruments that provide an equal but opposite exposure, thereby making the Net exposure market-neutral. In case the fund is not able to have a net market-neutral position due to any operational reason such as short delivery in the cash market etc., the fund will endeavor to rebalance the portfolio to a net market-neutral position at the earliest.</p>
10	Face Value	Rs. 10 per unit
