(1) As certified by M/s Kumbhat & Co, Chartered Accountants, pursuant to their certificate dated September 9, 2024.  
**E. Justification for Basis of Offer Price**  
 1. The following provides a detailed explanation for the Offer Price/Cap Price being 1.25 times of weighted average cost of acquisition of Equity Shares that were issued by our Company or acquired or sold by the Selling Shareholders or Shareholder(s) having the right to nominate director(s) by way of primary and secondary transactions as disclosed above, in the last 18 months preceding the date of the Red Herring Prospectus compared to our Company's KPIs and financial ratios for the Financial Years 2024, 2023 and 2022.  
 • According to the CRISIL Report, we are one of the leading players amongst India's diversified NBFCs in terms of Assets under Management ("AUM") as of March 31, 2024, with a business model diversified across offerings, sectors, products, geographies and borrower categories. Our AUM as on 31st March, 2024 was INR 117,100.19 million.  
 • Since 2009, when we entered the financial inclusion space, we have facilitated financing of over ₹1.73 trillion that has impacted over 101.82 million lives across India, as of March 31, 2024.  
 • We have robust risk management based on domain expertise, proprietary risk models and data repository driving asset quality. According to the CRISIL Report, we had one of the lowest gross non-performing assets ("GNPA") of 0.45% and net non-performing assets ("NMPA") of 0.08%, as of Fiscal 2024.  
 • We have built an efficient and scalable business model, supported by our proprietary end-to-end integrated technology product suite customised to multiple sectors.  
 • We maintain a well-diversified funding profile that is underpinned by our established relationships with our lenders and investors, proactive liquidity management system and strong credit rating.  
 2. The following provides an explanation to the Cap Price being 1.25 times of weighted average cost of acquisition of Equity Shares that were issued by our Company or acquired by the Shareholders with rights to nominate directors by way of primary and secondary transactions as disclosed above, in the last 18 months preceding the date of the Red Herring Prospectus in view of external factors, if any.  
 • India has low credit penetration compared with other developing countries in terms of credit to GDP ratio indicating significant untapped potential. Further, according to the World Bank's Global Findex Database 2021, 230 million unbanked adults live in India. Rural areas, which accounted for 47% of GDP, received only 9% of the overall banking credit, as of March 31, 2024, which also shows the vast market opportunity for banks and NBFCs to lend in these areas.  
 • Indian retail credit market has grown at a strong pace over the last few years and is expected to further grow at a CAGR of 17-18% between Fiscals 2024 and 2026 to reach ₹100.9 trillion by Fiscal 2026. (Source: CRISIL Report) Our Company with strong sectoral expertise is well positioned to benefit from industry tailwinds.  
 The Offer Price of ₹163 is 1.25 times of the face value of the Equity Shares and is justified in view of the above qualitative and quantitative parameters. The trading price of Equity Shares could decline due to factors mentioned in "Risk Factors" on page 38 of the RHP and you may lose all or part of your investments.

FOR FURTHER DETAILS, SEE "BASIS FOR OFFER PRICE" ON PAGE 166 OF THE RHP.
